HIST 695: History Symposium. 1-3 credits. Subject of academic and community interest pursued through discussions and lectures by distinguished guest instructors. Offered by History & Art History (p. 381). May not be repeated for credit.

Recommended Prerequisite: HIST 696 or permission of instructor.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

HIST 696: Clio Wired: An Introduction to History and New Media. 3 credits. Students with limited computer competency should consult department before enrolling. Introduces changes that new media and technologies are bringing to how we research, write, present, and teach about the past. Students explore theoretical and historical issues as well as learn hands-on skills in digital history. Notes: Students with limited computer competency should consult with department before enrolling. Offered by History & Art History (p. 381). May not be repeated for credit.

Recommended Prerequisite: HIST 696 or permission of instructor.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

HIST 697: Creating History in New Media. 3 credits. Seminar; students create original historical projects in digital media. Offered by History & Art History (p. 381). May not be repeated for credit.

Recommended Prerequisite: HIST 696 or permission of instructor.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type: Seminar**

**HIST 698: Programming in History and New Media.** 3 credits.
Provides students with advanced conceptual and technical skills to enhance historical practice and research in the digital arena. Focuses on in-depth analysis of theoretical frameworks and on developing proficiency in a variety of programming languages and tools for humanistic and historical research. Offered by History & Art History (p. 381). May not be repeated for credit.

**Recommended Prerequisite:** HIST 696, 697, or literacy in new media.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type: Seminar**

**700 Level Courses**

**HIST 711: Research Seminar in U.S. History.** 3 credits.
Research in specialized topics using primary sources. Offered by History & Art History (p. 381). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** HIST 610 or permission of department.

**Registration Restrictions:**
Enrollment limited to students with a major in Cultural Studies, Education (Community College) or History.
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type: Seminar**

**HIST 731: Research Seminar in European History.** 3 credits.
Research in specialized topics using primary sources. Offered by History & Art History (p. 381). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** HIST 610 or permission of department.

**Registration Restrictions:**
Enrollment limited to students with a major in Cultural Studies, Education (Community College) or History.
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type: Seminar**

**HIST 751: Research Seminar in Comparative World History.** 3 credits.
Research seminar requiring comparative research and analysis. Organized around significant topic or theme in field of world history. Notes: Topics vary from year to year. Offered by History & Art History (p. 381). May not be repeated for credit.

**Recommended Prerequisite:** Admission to graduate program in history and 3 hours of applied history.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Internship

**HIST 795: Practicum in Digital History. 3 credits.**
Exposes students to various projects in digital history through work and study at the Center for History and New Media. All placements must be approved by CHNM to ensure the suitability of students and projects. Offered by History & Art History (p. 381). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in History.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

**HIST 796: Directed Readings. 1-6 credits.**
Independent reading on topic agreed to by student and faculty member. Offered by History & Art History (p. 381). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

**HIST 798: Directed Research and Writing in History. 3 credits.**
Intended for students in department’s predoctoral track who are not writing master’s thesis. Goal is to produce substantial and original contribution to historical knowledge on model of article in scholarly journal. Offered by History & Art History (p. 381). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MA program, HIST 610, and research seminar.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

**HIST 799: Thesis. 1-6 credits.**
Master’s thesis research and writing under direction of faculty committee. Offered by History & Art History (p. 381). May be repeated within the degree.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:**

**800 Level Courses**

**HIST 801: New Developments in History. 3 credits.**
Survey of current developments in historical analysis and methodology. Offered by History & Art History (p. 381). May not be repeated for credit.

**Recommended Prerequisite:** Admission to doctoral program.

**Schedule Type:**

**HIST 803: Doctoral Readings for Major Field. 3 credits.**
Independent readings for PhD students on topic agreed on by student and instructor, taken in preparation for completing major field exam. Should be broadly comprehensive of field, and cover major historical themes and historiographical debates. Offered by History & Art History (p. 381). May be repeated within the term for a maximum 20 credits.

**Recommended Prerequisite:** Admission to doctoral program.

**Registration Restrictions:**
Enrollment is limited to students with a major in History.

Enrollment is limited to Graduate level students.

**Schedule Type:**

**HIST 804: Doctoral Readings for Minor Field. 3 credits.**
Independent readings for PhD students on topic agreed on by student and instructor, taken in preparation for completing minor field statement. Designed to help student master literature of subfield that is subject of field statement. Offered by History & Art History (p. 381). May be repeated within the term for a maximum 20 credits.

**Recommended Prerequisite:** Doctoral standing.

**Registration Restrictions:**
Enrollment is limited to students with a major in History.

Enrollment is limited to Graduate level students.

**Schedule Type:**

**HIST 810: History Doctoral Colloquium. 1 credit.**
Introduces array of scholars and scholarship through discussions of innovative historical events, important theories, and significant methodological breakthroughs in history. Offered by History & Art History (p. 381). May not be repeated for credit.

**Recommended Prerequisite:** Doctoral standing.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:**

**HIST 811: Doctoral Research Seminar. 3 credits.**
Students pursue research projects in their areas of specialization. Offered by History & Art History (p. 381). May not be repeated for credit.

**Recommended Prerequisite:** Doctoral standing.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:**

**900 Level Courses**

**HIST 998: Doctoral Dissertation Proposal. 1-6 credits.**
Work on research proposal that forms basis for doctoral dissertation. Offered by History & Art History (p. 381). May be repeated within the degree.
Recommended Prerequisite: Advancement to candidacy.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

**HIST 999: Doctoral Dissertation Research.** 1-12 credits.
Doctoral dissertation research and writing under direction of student’s dissertation committee. Offered by History & Art History (p. 381). May be repeated within the degree.

Recommended Prerequisite: Completion of HIST 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

---

**Honors Program (HNRS)**

**100 Level Courses**

**HNRS 108: Introduction to Research Methods I.** 3 credits.
Introduces students to a wide range of disciplinary research practices. Students learn how to identify a topic and pose a focused research question, use information technology to find relevant sources, and develop a research proposal. Notes: Students must complete HNRS 109, which has a prerequisite of HNRS 108, to fulfill the equivalent of HNRS 110. Offered by Honors Program. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Lecture

**HNRS 109: Introduction to Research Methods II.** 3 credits.
Students continue to learn a wide range of disciplinary research practices. Students learn how to pose a research question, analyze pertinent evidence, and write and speak clearly by participating in a scholarly conversation. Offered by Honors Program. May not be repeated for credit. Equivalent to HNRS 110.

Recommended Prerequisite: HNRS 108.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Lecture

**HNRS 110: Research Methods.** 4 credits.
Introduces students to a wide range of disciplinary research practices. Students learn how to pose and pursue a focused research question, use information technology to find relevant sources, analyze pertinent evidence, and write and speak clearly by participating in scholarly conversation. Offered by Honors Program. May not be repeated for credit. Equivalent to HNRS 109.

Specialized Designation: Scholarly Inquiry

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Lecture

---

**200 Level Courses**

**HNRS 211: Mentorship in Undergraduate Research.** 2 credits.
Students learn to use their own research experience as a tool to guide beginning scholars by mentoring students in Honors 110: Research Methods, through workshops and oral presentations. Offered by Honors Program. May be repeated within the degree for a maximum of 6 credits.

Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.
Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Seminar

HNRS 230: Cross-Cultural Perspectives (Topic Varies). 3 credits.
Course topic varies by semester. Enables students to broaden cultural horizons and understand human behavior by comparative studies of societies. Offered by Honors Program. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (HNRS 110C, 302C or 210C).
C Requires minimum grade of C.

Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Lecture

HNRS 240: Reading the Past (Topic Varies). 3 credits.
Course topic varies by semester. Considers constructions of historical narratives and their context in major world historical events by examining significant current topics such as revolution, race, empire, and religion over time. Considers how public narratives about history are constructed. Students will communicate their understanding of multiple historical narratives through written, oral and digital means. Offered by Honors Program. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (HNRS 110C, 210C, 302C or 109C).
C Requires minimum grade of C.

Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Independent Study

HNRS 300: Advanced Study Abroad. 6 credits.
Offers students in the Honors College the opportunity to take advanced study abroad courses that focus on in-depth research or engaged learning. Offered by Honors Program. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Independent Study

HNRS 302: Research Methods II. 3 credits.
Introduces students transferring into the Honors College to a wide range of disciplinary research practices. Students learn how to choose and focus a research question, find and analyze sources, organize evidence in an essay shaped by an original thesis, write clearly, and address an audience of scholars. Offered by Honors Program. May not be repeated for credit. Equivalent to HNRS 210.

Specialized Designation: Scholarly Inquiry

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Seminar

HNRS 310: Honors College Connects I. 0 credits.
The first of a two-semester course in which students work in groups on long-term service projects coming from community nonprofit organizations. Offered by Honors Program. May be repeated within the degree for a maximum credits.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Independent Study

HNRS 311: Honors College Connects II. 0 credits.
A continuation of HNRS 310, culminating in student presentations of their results to the community nonprofit organizations and constituents of the Honors College. Offered by Honors Program. May be repeated within the degree for a maximum credits.

Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Independent Study

HNRS 312: RS: Research in the Public Sphere. 3 credits.
Building on projects begun in HNRS 310, students use research/scholarship skills to address community problems presented by nonprofit organizations. Designated as a research and scholarship intensive course. Offered by Honors Program. May be repeated within the degree for a maximum 6 credits.

Recommended Designation: Research/Scholarship Intensive

Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Recommended Corequisite: HNRS 311 or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Seminar

HNRS 330: Research, Technology, and Online Community. 3 credits.
Student applicants selected to participate in the RTOC project will plan and create new media artifacts or learning objects in structured collaboration with university stakeholders and mentors. Through this process, they will deepen their understanding of the research process, learn to appreciate the institutional and social dimensions of undertaking and teaching research, and learn to communicate more effectively about research. Offered by Honors Program. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Registration Restrictions:
Honors College. Designated as a research and scholarship intensive Directed research on topic agreed on by student, advisor, and the
HNRS 411:
Schedule Type: Independent Study
HNRS 353: Technology in the Contemporary World (Topic Varies). 3 credits.
Course topic varies by semester. Critically analyzes emergence and impact of specific technologies on contemporary cultures and the core concepts surrounding these technologies, including legal, social, ethical issues and the technology’s relationship to core information security issues. Students develop a significant research project employing multiple disciplinary perspectives. This project will be communicated ethically and with cultural awareness through written, oral and digital means, showing a critical understanding of technologies and their impact. Offered by Honors Program. May not be repeated for credit.

Mason Core: Synthesis (p. 135)
Registration Restrictions: Required Prerequisites: (HNRS 110 C, 210 C, 302 C or 109 C).
C Requires minimum grade of C.
Enrollment limited to students with the Honors College (Business), Honors College (STEM). or Honors College. attributes.

Schedule Type: Lecture

400 Level Courses
HNRS 400: Honors College Internship. 6 credits.
Offers students in the Honors College the opportunity to take an internship that focuses on research or engaged learning. Students develop individual contracts defining learning and competencies they plan to gain from the experience. Pre-internship proposal and final reflection papers required. Notes: Contact the Honors College a semester before the internship for the application process. Offered by Honors Program. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: HNRS 109, 110, 210 or 302.
Registration Restrictions: Enrollment limited to students with the Honors College (Business), Honors College (STEM). or Honors College. attributes.

Schedule Type: Internship
HNRS 410: Thesis Proposal. 3 credits.
Provides guidance in research methods to students writing an honors thesis proposal as well as workshop to critique research in progress and to understand the research process in multiple disciplines. Offered by Honors Program. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Research Associated
Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.
Registration Restrictions: Enrollment limited to students with the Honors College (Business), Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar
HNRS 411: RS: Honors College Thesis. 3 credits.
Directed research on topic agreed on by student, advisor, and the Honors College. Designated as a research and scholarship intensive course. Offered by Honors Program. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Research/Scholarship Intensive
Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Registration Restrictions: Enrollment limited to students with the Honors College (Business), Honors College (STEM). or Honors College. attributes.

Schedule Type: Independent Study
HNRS 430: Multidisciplinary Challenges in Professional Environments. 3 credits.
Students work to solve a problem or challenge currently faced by an Honors College community partner which is identified in consultation with the Fairfax County Economic Development Authority. Provides students with opportunities to synthesize knowledge and practices developed in prior courses and co-curricular experiences; develops the skills and strategies necessary for working effectively in multidisciplinary teams. Offered by Honors Program. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: HNRS 109, 110, 210, 302.

Registration Restrictions: Enrollment limited to students with the Honors College (Business), Honors College (STEM). or Honors College. attributes.

Schedule Type: Seminar
HNRS 490: Undergraduate Apprenticeship. 1-3 credits.
Independent work with a faculty mentor on an inquiry-based project involving research, creative activities, or teaching and mentoring. Notes: This course is open only to undergraduates who have been accepted to the Undergraduate Apprenticeship Program. Offered by Honors Program. May not be repeated for credit.

Recommended Prerequisite: 45 credits and acceptance into the Undergraduate Apprenticeship Program.

Schedule Type: Independent Study

Honors Program (Science/Math) (HNRT)

100 Level Courses
HNRT 125: A Liberal Arts Approach to Calculus. 3 credits.
Assumes understanding of basic algebra and functions. Explores various mathematical models and develops concepts and applications of limits and derivatives. Offered by College of Science (p. 593). May not be repeated for credit.

Mason Core: Quantitative Reasoning (p. 135)
Registration Restrictions: Enrollment limited to students with the Honors College (Business), Honors College (STEM). or Honors College. attributes.

Schedule Type: Lecture
200 Level Courses

HNRT 225: *Applied Calculus*. 3 credits.
Theory and applications of calculus for non-STEM students. Assumes a previous introductory course in calculus. Topics include exponential models in the life sciences and business, theory of integration and may include improper integrals, infinite series, differential equations, or probability. Offered by College of Science (p. 593). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Lecture

HNRT 226: *Topics in Quantitative Analysis*. 3 credits.
Studies selected topics of special interest to honors students with suitable preparation. Notes: For students who have taken calculus in high school. HNRT 226 is an alternative to HNRT 125. Offered by College of Science (p. 593). May not be repeated for credit.

Recommended Prerequisite: Calculus in high school.

Registration Restrictions:
Enrollment limited to students with the Honors College (STEM), or Honors College. attributes.

Schedule Type: Lecture

HNRT 227: *Scientific Thought and Processes I*. 4 credits.
Explores and integrates principles of classical and modern science through study of such topics as cosmology, evolution, ecology, mechanics, relativity, quantum physics, and the environment. Notes: Includes a weekly lab session. Offered by College of Science (p. 593). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 135)

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Laboratory, Lecture

HNRT 228: *Scientific Thought and Processes II*. 4 credits.
Explores and integrates principles of classical and modern science through study of such topics as cosmology, evolution, ecology, mechanics, relativity, quantum physics, and the environment. Notes: Includes a weekly lab session. Offered by College of Science (p. 593). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 135)

Specialized Designation: Green Leaf Course

Recommended Prerequisite: HNRT 227

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Laboratory, Lecture

Human Development and Family Science (HDFS)

200 Level Courses

Examines how individuals and families function and develop over the lifespan. Uses a multidisciplinary approach to integrate theories of family science and human development emphasizing the role of contextual factors in contemporary families’ lives. Explores the impact of gender, socioeconomic, race/ethnicity, culture, and immigrant status on human development and family relationships. Introduces a basic model of scientific inquiry and theorizing. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Schedule Type: Lecture

Introduces personal and family financial planning and resource management throughout the lifespan. Integrates theories of family finance and resource management using a multidisciplinary approach. Emphasizes role of contextual factors in contemporary families’ financial lives. Explores impact of gender, socioeconomic, race, ethnicity, and culture on family finance and resource management. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Schedule Type: Lecture

300 Level Courses

HDFS 300: *Individual and Family Services Delivery*. 3 credits.
Overview of human services delivery with a focus on families. Explores the historical and social contexts as well as the theoretical orientations of systems that shape delivery of services to families. Examines: 1) economic and cultural barriers that prevent families from gaining access to services; 2) social policy surrounding services for families; 3) ethical and legal issues in family services. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: HDFS 200.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Human Devl and Family Science.

Schedule Type: Lecture

HDFS 301: *The Hospitalized Child and Family*. 3 credits.
Examines the philosophy, purposes, and concepts of Child Life Specialists. Explores developmental and psychological needs of hospitalized children, their families, and those who provide services to children. Examines the impact of illness and illness-related stressors on the dynamics of the family and strategies for coping. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: HDFS 200 or permission from instructor.

Schedule Type: Lecture

400 Level Courses

HDFS 400: *Advanced Family Processes*. 3 credits.
Examines family system dynamics and processes, with an emphasis on cultural and contextual factors that influence family functioning and well-being over the lifespan. Examines both healthy and dysfunctional family processes (including abuse, neglect, and family violence). Explores
evidence-based practices and interventions that promote family health, resilience, and well-being. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Mason Core:** Synthesis (p. 135)

**Recommended Prerequisite:** HDFS 200 or permission from instructor.

**Schedule Type:** Lecture

**HDFS 401:** *Family Law and Public Policy.* 3 credits.
Examines contemporary family life and the impact of government laws, policies, and programs on families over time and across contexts and cultures. Explores the intended and unintended consequences of policies for diverse families across a variety of policy matters, from anti-poverty and social welfare policies to health and environmental policies. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** HDFS 200 or permission of instructor.

**Schedule Type:** Lecture

**HDFS 498:** *Internship and Analysis in Human Development and Family Science.* 3 credits.
First course in a two-course series that supports students in their internship and in transitioning from student to professional. Enables students to discuss work-related experiences within the context of developmental and family theories and research. Fosters and promotes professional development through class and small group discussions, activities, lectures, guest speakers, and practical assignments. Notes: Students will have 135 contact hours for the semester; however, 125 will be in the field and 10 in the classroom. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** HDFS 300.

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Human Devl and Family Science.

**Schedule Type:** Internship

**HDFS 499:** *Advanced Internship & Analysis in Human Development and Family Science.* 3 credits.
Accompanies the second semester of the required internship experience. Supports students in the development and implementation of a program for staff and/or clients at internship site. Examine internship-related experiences within the context of developmental and family theories and empirical research. Contemplate and prepare for the transition to professional. Notes: Students will have 135 contact hours for the semester; however, 125 will be in the field and 10 in the classroom. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** HDFS 498.

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Human Devl and Family Science.

**Schedule Type:** Seminar

### Information Security Assurance (ISA)

#### 500 Level Courses

**ISA 562:** *Information Security Theory and Practice.* 3 credits.
A technical introduction to the theory and practice of information security, which serves as the first security course for the MS-ISA degree, is required as a prerequisite for all subsequent ISA courses (at the 600 and 700 levels) and subsumes most topics covered by the CISSP examination. Also serves as an entry-level course available to non-ISA students, including MS-CS, MS-IS, and MS-SWE students. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** INFS 501, 515, 519, and SWE 510, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**ISA 564:** *Information Security Theory and Practice.* 3 credits.
Provides hands-on experience in configuring and experimenting with commodity-networked systems and security software in a live laboratory environment, with the purpose of understanding real-world security threats. Takes both offensive and defensive approaches and exposes students to a variety of real-world attacks, including viruses, worms, rootkits, and botnets. Possible mitigation and defending mechanisms, such as firewalls and intrusion detection software, also covered. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** ISA 562 and CS 531 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Laboratory

#### 600 Level Courses

**ISA 650:** *Security Policy.* 3 credits.
Focuses on security policy and its management for information systems having national and international connectivity. Issues include legal, international, cultural, and local factors. Students are expected to participate regularly in presenting material, in discussion of recent security issues, and by writing short papers on major current issues. Offered by Computer Science (p. 983). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: ISA 562\textsuperscript{B}. \textsuperscript{B} Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

ISA 652: Security Audit and Compliance Testing. 3 credits.

Presents the fundamental concepts of the IT-security audit and control process that is being conducted in a plethora of environments, including government, the financial industry, and the healthcare industry. The goal of this course is to enable the students to structure and perform audits based on the specifications of Sarbanes-Oxley, HIPAA, and FISMA audit programs. Covers all the CISA certification requirements in depth. Students completing the course are encouraged to attempt the certification exam on their own. Offered by Computer Science (p. 983). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: ISA 562\textsuperscript{B}.
\textsuperscript{B} Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

ISA 656: Network Security. 3 credits.

An in-depth introduction to the theory and practice of network security. It assumes basic knowledge of cryptography and its applications in modern network protocols. Studies firewalls architectures and virtual private networks and provides deep coverage of widely used network security protocols such as SSL, TLS, SSH, Kerberos, IPSec, IKE, and LDAP. It covers countermeasures to distributed denial of service attacks, security of routing protocols and the Domain Name System, e-mail security and spam countermeasures, wireless security, multicast security, and trust negotiation. Offered by Computer Science (p. 983). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ISA 562\textsuperscript{B} and INFS 612\textsuperscript{B}) or CS 555\textsuperscript{B}.
\textsuperscript{B} Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

ISA 674: Intrusion Detection. 3 credits.

Studies methodologies, techniques, and tools for monitoring events in computer system or network, with the objective of preventing and detecting unwanted process activity and recovering from malicious behavior. Topics include types of threats, host-based and network-based information sources, vulnerability analysis, denial of service, deploying and managing intrusion detection systems, passive versus active responses, and designing recovery solutions. Offered by Computer Science (p. 983). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ISA 562\textsuperscript{B} and 656\textsuperscript{B}.
\textsuperscript{B} Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

ISA 681: Secure Software Design. 3 credits.

Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and the identification of potential threats and vulnerabilities early in the design cycle. Emphasis
is on methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove the absence of vulnerabilities, and ways to avoid security holes in new software and on essential guidelines for building secure software. Explores how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle. Offered by Computer Science (p. 983). May not be repeated for credit. Equivalent to SWE 681, SWE 781.

Required Prerequisite: SWE 619.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture
ISA 697: Topics in Information Security. 1-6 credits.
Special topics in information security and assurance not occurring in regular ISA sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science (p. 983). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture
ISA 764: Security Experimentation. 3 credits.
Teaches how to conduct security experimentations and empirically demonstrate, validate, and evaluate security vulnerabilities, exploits, and defense mechanisms. By the end of the course, students will gain a deeper understanding and first-hand experience on capturing packets of interests from both wired and wireless networks, and replying interested network flows and how shellcode various buffer overflows attacks, worms, spyware, rootkits, botnets, anonymous communication and traceback mechanisms work. Offered by Computer Science (p. 983). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ISA 564<sup>B-</sup> and 656<sup>B-</sup>.
<sup>B-</sup> Requires minimum grade of B-.

Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture
ISA 785: Research in Digital Forensics. 3 credits.
Focuses on research-related aspects of digital forensics including open problems in digital forensics, countermeasures against digital forensics, and fundamental and practical limitations of current digital forensics techniques. Also covers currently established techniques and tools for digital forensics as well as common legal and ethical issues. Offered by Computer Science (p. 983). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ISA 562<sup>B-</sup> and INFS 612<sup>B-</sup>) or CS 558<sup>B-</sup>.
<sup>B-</sup> Requires minimum grade of B-.

Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture
ISA 796: Directed Readings in Information Security. 3 credits.
Research and analysis of contemporary problem in information security. Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Written report also required. Offered by Computer Science (p. 983). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate standing in information security and assurance, with at least 12 prior credits in MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Research

ISA 797: Advanced Topics in Information Security. 3 credits.
Special advanced topics not occurring in regular ISA sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science (p. 983). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Recommended Prerequisite: 18 credits applicable toward MS.

ISA 798: Research Project. 3 credits.
Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report. Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Offered by Computer Science (p. 983). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: 18 credits applicable toward MS.

ISA 799: Thesis. 1-6 credits.
Original or expository work chosen and completed under supervision of graduate faculty member, which results in technical report accepted by three-member faculty committee. Report must be defended in oral presentation. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Offered by Computer Science (p. 983). May be repeated within the degree.

Recommended Prerequisite: 18 credits applicable toward MS or permission of instructor.

Information Systems (INFS)

800 Level Courses

ISA 862: Models for Computer Security. 3 credits.
This class will be focused on current research in Security with emphasis in Network and Software Security. Notes: May be repeated with change in topic. Offered by Computer Science (p. 983). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisite: ISA 562B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate level students.

ISA 863: Advanced Topics in Computer Security. 3 credits.
Current topics of advanced research. Content varies depending on faculty interests, research developments, and student demand. Requires substantial student participation. May include formal models for computer security, multilevel data models, multilevel database management system architectures, secure concurrency control protocols, distributed secure system architectures, integrity models and mechanisms, security policy, and requirements analysis. Offered by Computer Science (p. 983). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisite: ISA 562B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate level students.

500 Level Courses

INFS 501: Discrete and Logical Structures for Information Systems. 3 credits.
Study of discrete and logical structures for information systems analysis and design including basic set theory and proof techniques, propositional and predicate logic, trees and graphs, finite state machines, formal languages and their relation to automata, computability and computational complexity, formal semantics-operational, axiomatic and denotational approaches. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: Completion of 6 hrs of undergraduate mathematics.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**INFS 515: Computer Organization Course and Operating Systems.** 3 credits.
Computer hardware architecture concepts including number systems, machine representation of numbers, instruction set formats, addressing techniques, memory organization, internal processor structure and operation. Symbolic assembly language fundamental operating systems concepts; process synchronization and scheduling, interprocess communication, memory management, virtual memory, deadlocks, file I/O and disk management, and LINUX operating system case studies. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science (p. 983). May not be repeated for credit. Equivalent to ECE 445.

**Recommended Prerequisite:** Undergraduate courses or equivalent knowledge in structured programming in a high-level language.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**INFS 519: Program Design and Data Structures.** 3 credits.
Study of the fundamentals of data structures and algorithms applied in programming solutions to application problems. The course stresses programming in a modern high-level language. Laboratory required. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate courses or equivalent knowledge in structured programming in a high-level language.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

600 Level Courses

**INFS 612: Principles and Practices of Communication Networks.** 3 credits.
Introduces principles of computer networks and applications to Internet. Discusses details of layering, protocols, performance, resource allocation, management, security and other contemporary issues related to networks. Examples of course material are protocols such as HTTP(S), DNS, TCP/IP, RSVP, SNMP, algorithms such as Dijkstra's link state routing; and security measures such as firewalls and encryption, the principles behind them and analysis of performance. Notes: No substitutions can be made for this class. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** INFS 501, 515, 519, and SWE 510, or equivalent

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**INFS 614: Database Management.** 3 credits.
Introduces database systems, emphasizing study of database models and languages and practice of database design and programming. Topics include Entity-Relationship model, relational model and its formal query languages, SQL, theory of relational database design, and object-oriented and logic-based databases. Notes: Requires computing lab. No substitutions can be made for this class. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** INFS 501, 515, 519, and SWE 510, or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**INFS 622: Information Systems Analysis and Design.** 3 credits.
Integration of computing technologies, systems analysis, system design practices, and management criteria in the design of large-scale information management and decision-support systems. Includes cases, computing lab. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** INFS 501, 515, and 519, or equivalent

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture
INFS 623: Web Search Engines and Recommender Systems. 3 credits. Study of Web search engines and recommender systems. Topics to include classical information retrieval methods, Boolean retrieval systems, ranked retrieval, performance metrics, Web crawling, link analysis, overall search engine architecture, fundamentals and classification of recommender systems, learning user interests and object properties, and case studies. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, 519, and SWE 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

INFS 640: Introduction to Electronic Commerce. 3 credits. Studies electronic commerce from both managerial and technical perspectives. Topics include e-commerce models and concepts; Internet and web protocols and infrastructure; e-commerce marketing and branding; security protocols and standards; e-commerce payment systems; and case studies of business-to-consumer, business-to-business, consumer-to-consumer, and e-government. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, and 519; and SWE 510 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

INFS 697: Topics in Information Systems. 1-6 credits. Presents special topics in information systems not occurring in regular INFS sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science (p. 983). May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

INFS 740: Database Programming for the World Wide Web. 3 credits. Information systems accessible through web and Internet are becoming prevalent. Course focuses on technologies and industry standards for accessing and manipulating persistent data that are suitable for web applications. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: INFS 614.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

INFS 760: Advanced Database Management. 3 credits. Study of advanced database models and languages, database design theory, transaction processing, recovery, concurrency, distributed database, and security and integrity. Discusses recent developments and research directions. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: INFS 614.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

INFS 770: Knowledge Management for E-Business. 3 credits. Addresses knowledge management (KM) from managerial, technical viewpoints in context of large organizations doing business over web and Internet. Topics include KM life cycle for knowledge creation, aggregation, dissemination, and sharing; ontology modeling, design, and engineering; role of standards such as XML, RDF, web services, and semantic web for e-business; business rules and reasoning engines; and digital rights management for e-business. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: INFS 622 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture
INFS 772: Intelligent Agents and the Semantic Web. 3 credits.
Course covers the role of intelligent agents in cooperating to access, harvest, sift and winnow information and knowledge from the semantic web. Topics include agent architectures, practical reasoning and deductive agents, beliefs-desires-intentions (BDI) framework for agent reasoning, commitments and actions; Semantic Web ontology languages, description logics, reasoning and rule languages; and agent communication languages, protocols and standards. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: INFS 614

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

INFS 774: Enterprise Architecture. 3 credits.
This course presents the basic concepts and methodologies for the discipline known as Enterprise IT Architecting within a framework, structure, and methodology. Enterprise IT Architecting is a necessary step for designing and developing a system of information systems. It includes the definition of the business, work, functional, information and technical perspectives. As such, it is the enabling approach for the system development process that builds complex information systems. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: INFS 622 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

INFS 776: Directed Readings in Information Systems. 3 credits.
Research and analysis of contemporary problem in information system development. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student's work. Offered by Computer Science (p. 983). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: Graduate standing in information systems, with at least 12 prior credits in MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Research

INFS 797: Advanced Topics in Information Systems. 1-6 credits.
Special advanced topics not occurring in regular INFS sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science (p. 983). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

INFS 798: Research Project. 3 credits.
Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student's work. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: 18 credits applicable toward MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Thesis

INFS 799: Thesis. 1-6 credits.
Original or compilary work evaluated by a committee of three faculty members. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Offered by Computer Science (p. 983). May be repeated within the degree.

Recommended Prerequisite: 18 credits applicable toward MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Thesis

Information Technology (IT)

100 Level Courses

IT 102: Discrete Structures. 3 credits.
Introduces ideas of high-level pseudocode and discrete structures. This course focuses on problem-solving, supporting both abstraction and modeling providing the foundation needed for programming. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 108*C or 113*C).
* May be taken concurrently.
+ Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 104: Introduction to Computing. 3 credits.
This course, using both lecture and laboratory practice, introduces students to basic computer concepts in hardware, software, networking, computer security, programming, database, e-commerce, decision support systems, and current developments in 3-D printing, virtualization, and Siri-like systems. Additional lectures examine social, legal, ethical issues including privacy, intellectual property, health concerns, green computing, and accessibility. Students learn techniques to search, evaluate, validate, and cite information found online. Hands-on lab includes spreadsheets, databases, presentation, HTML 5, CSS, cybersecurity, blogs, wiki, and mobile app development. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts. Equivalent to IT 103.

Mason Core: Information Technology: With Ethics (p. 135)

Registration Restrictions: undefined

Schedule Type: Laboratory, Lecture

IT 105: IT Architecture Fundamentals. 3 credits.
Introduces students to fundamental hardware and software concepts of information technology (IT) to understand the basics of modern computing environments. Students acquire a comprehensive understanding of a computer system’s essential components, component interdependence, and binary functions, factoring in performance, data communication models, telecommunication basics, and information security. Recent trends and advancements in mobile computing, telecommunications, and IT infrastructures are discussed. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions: Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 106: Introduction to IT Problem Solving Using Computer Programming. 3 credits.
Introduces techniques for developing solutions to business problems using procedural programming as an IT resource/tool. Students apply problem solving concepts by analyzing problems and constructing, testing, and implementing algorithms using pseudocode, desk checking, and procedural programming. Topics include: program flow, control structures, programming fundaments, and integrating program modules into a cohesive solution. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions: Required Prerequisites: (IT 103*C, 103T, 103X or 104*C) and (MATH 112*C, 125*C or IT 102*C).
* May be taken concurrently.
+ Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture

IT 191: Review of Computing Fundamentals. 1 credit.
Provides a self-paced, comprehensive review of computing fundamentals. Topics include: hardware, software, networking, computer security, programming, database, e-commerce, decision support systems, and other emerging technologies. Open only to students with transfer credit comparable to IT 103 or IT 104 who have not attempted IT 191 or IT 104. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions: Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 193: Review of Multimedia and Web Design. 1 credit.
Provides a self-paced, comprehensive review of concepts and techniques for designing and developing attractive and accessible websites with multimedia components. Introduces and discusses technological, aesthetic, and human factors. Open only to students with transfer credit comparable to IT 213 who have not attempted IT 193 or IT 213. Offered by Info Sciences & Technology (p. 1044). May not be repeated for credit.

Registration Restrictions: Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 194: Review of Database Fundamentals. 1 credit.
Provides a self-paced, comprehensive review of database fundaments. Topics include: database classifications, data models with extensive coverage of the relational model, entity-relationship and extended entity relationship models, normalization, advanced data modeling, and Structured Query Language (SQL) programming. Open only to students with transfer credit comparable to IT 214 who have not attempted IT 194 or IT 214. Offered by Info Sciences & Technology (p. 1044). May not be repeated for credit.

Registration Restrictions: Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 196: Review of IT Problem Solving Using Computer Programming. 1 credit.
Provides a self-paced, comprehensive review of techniques for developing solutions to business problems through an iterative design and implementation approach. Open only to students with transfer credit comparable to IT 106 who have not attempted IT 106 or IT 196. (MATH 112 prior completion or co-registration is strongly recommended.) Offered by Info Sciences & Technology (p. 1044). May not be repeated for credit.

Registration Restrictions: Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 198: Independent Study in Information Technology. 1-3 credits.
Offered by Info Sciences & Technology (p. 1044). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions: Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Independent Study
200 Level Courses

IT 206: Object Oriented Techniques for IT Problem Solving. 3 credits.
Introduces techniques for developing solutions to business problems using object-oriented programming as an IT resource/tool. Students apply problem solving concepts by analyzing problems and constructing, testing, and implementing object-oriented solutions using object-oriented analysis and design, data modeling, and object-oriented programming fundamentals. Topics include: Unified Modeling Language (UML), classes, inheritance, polymorphism, and exception handling. Notes: Students cannot receive credit for both IT 108 and IT 206. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106C or 196C) and (IT 102C, MATH 112C or 125C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture

IT 207: Applied IT Programming. 3 credits.
Building on fundamentals of problem solving, logic and algorithm development, and procedural programming, this course further develops these skills while covering server side scripting languages and relational database connectivity. Students will use open source software tools to develop database-enabled web applications. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106C, 196C or CS 112C) and (IT 102C, MATH 112C or 125C) and (IT 214C or 194C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture

IT 213: Multimedia and Web Design. 3 credits.
Through lecture, class demonstration, class discussion, and hands-on lab experience, introduces multimedia and web computer graphics. Focuses on development of web-enabled multimedia applications from practical business perspective. Introduces and discusses technological, aesthetic, and human factors. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103C, 103T, 103X or 104C).
C Requires minimum grade of C.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering, Computer Science, Electrical Engineering or Systems Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 214: Database Fundamentals. 3 credits.
Covers fundamentals of relational database management systems and their use in business environments. Topics include: database classifications, data models with extensive coverage of the relational model, entity-relationship and extended entity-relationship models, normalization, advanced data modeling, and Structured Query Language (SQL) programming. Students design and implement a real-world relational database and create complex SQL queries to retrieve data from the database. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103C, 103X, 103T, 104C or CS 112C).
C Requires minimum grade of C.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering, Computer Science, Electrical Engineering or Systems Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 216: Systems Analysis and Design. 3 credits.
Students survey and apply techniques in analyzing and modeling information systems. Requirements are derived in various domains and abstracted at conceptual, logical, and physical levels. Process, data, and state modeling are applied through a project that follows a systems development lifecycle. Object modeling is explored and contrasted with data and process modeling. Individual and group modeling assignments are required. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106C, 196C or CS 112C) and (IT 206C, 102C or CS 211C) and (IT 194C or 214C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 223: Information Security Fundamentals. 3 credits.
Introduces concept of information security. Discusses need for organizational policy to define required services such as confidentiality, authentication, integrity, nonrepudiation, access control, and availability, and mechanisms to implement those services. Covers different types of security including physical security, computer security, and network security; common threats to and attacks against information systems, including accidental damage, identity theft, malicious software, and "spam"; and defensive measures. Notes: Students cannot receive credit for both IT 221 and IT 223. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103C, 103T, 103X or 104C) and (IT 191C or 105C).
C Requires minimum grade of C.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering or Computer Science.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 293: Applied IT: Junior Transition. 1 credit.
Focuses on transition issues for sophomores and transfer students in Applied Information Technology programs. Assists sophomore and transfer students with choice of concentration, course selection, and career readiness. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.
**Recommended Prerequisite:** Sophomore standing

**Registration Restrictions:**
Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Seminar

### 300 Level Courses

**IT 300: Modern Telecommunications.** 3 credits.
Comprehensive overview of the fundamental principles of telecommunications, including current status and future directions of the public switched telephone network, cellular networks, satellite networks, and computer networks. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisites: (IT 101\textsuperscript{C} and 212\textsuperscript{C}) or IT 105\textsuperscript{C} and (MATH 106\textsuperscript{C} or 113\textsuperscript{C}) and (IT 102\textsuperscript{C}, MATH 112\textsuperscript{C} or 125\textsuperscript{C}).
\textsuperscript{C} Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 304: IT in the Global Economy.** 3 credits.
Explores how IT changed nature of society and contributed to evolution of global economy. Examines changing nature of work, education, and communication, and ethical issues such as intellectual property rights, computer-related crime, privacy concerns, and public policy issues. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts. Equivalent to CS 306.

**Mason Core:** Information Technology: Ethics Only (p. 135)

**Registration Restrictions:**
Required Prerequisites: (IT 103\textsuperscript{C}, 103T, 103X or 104\textsuperscript{C}).
\textsuperscript{C} Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 306: Program Design and Data Structures.** 3 credits.
Fundamentals of data structures and analysis of algorithms. Large programs written in a modern, high-level programming language. Stresses abstraction, modular design, code reuse, and correctness. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisites: (IT 206\textsuperscript{B} or CS 211\textsuperscript{B}) and (IT 102\textsuperscript{C}, MATH 112\textsuperscript{C} or 125\textsuperscript{C}).
\textsuperscript{B} Requires minimum grade of B.
\textsuperscript{C} Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 308: Event-Driven Programming.** 3 credits.
Building on the programming concepts covered in IT 206, this course focuses on graphical user interfaces. Students will design, develop, and document event-driven programs using an object-oriented language. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts. Equivalent to INFS 310.

**Registration Restrictions:**
Required Prerequisites: IT 206\textsuperscript{B} or CS 211\textsuperscript{B}.
\textsuperscript{B} Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 314: Database Programming.** 3 credits.
The course introduces students to the Oracle Developer application development utilities and tools and describes how to create and manipulate databases in Oracle database management system. The course provides an extensive overview of SQL and introduction to PL/SQL. Topics include data definition and manipulation languages, stored procedures, triggers, indexing techniques, and elementary query optimization. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts. Equivalent to INFS 311.

**Registration Restrictions:**
Required Prerequisites: (IT 106\textsuperscript{C}, 196\textsuperscript{C} or CS 112\textsuperscript{C}) and (IT 214\textsuperscript{B} or 194\textsuperscript{B}).
\textsuperscript{C} Requires minimum grade of C.
\textsuperscript{B} Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 315: Mobile Development.** 3 credits.
Studies business-oriented applications for popular mobile platforms including Blackberry, Android and Apple. Provides overview of mobile platforms and devices including evaluation, uses, design and development of applications. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisites: (IT 206\textsuperscript{B} or CS 211\textsuperscript{B}) and (IT 213\textsuperscript{B} or 193\textsuperscript{B}).
\textsuperscript{B} Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**IT 322: Health Data Challenges.** 3 credits.  
Covers methodology and tools used to work with health data structures supporting organizations’ needs for reliable data that are captured, stored, processed, integrated, and prepared for further querying, decision making, data mining and knowledge discovery for a variety of clinical and organizational purposes. Data security and privacy, data standards, data interoperability, health information exchange, and big data analytics are discussed. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts. Equivalent to BENG 322.

**Registration Restrictions:**  
**Required Prerequisites:** (IT 214B or 194B) and (STAT 250C or 344C).  
B Requires minimum grade of B.  
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**IT 324: Health Information Technology Fundamentals.** 3 credits.  
Explores challenges in the development and implementation of information systems and informatics tools in healthcare environment. Discusses the importance and benefits of electronic health records (EHRs). Students learn about EHRs’ creation, management, and evolution, and their use for clinical decision support. In addition health information security, privacy, federal laws, regulations and standards, and their impact on healthcare delivery are discussed. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**  
**Required Prerequisites:** IT 214B or 194B.  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology or Information Technology.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**IT 328: Health Information Emerging Technologies.** 3 credits.  
Provides an introduction to networking in the healthcare environment and covers a wide range of topics on emerging health information technologies. Discusses internet protocols, safety procedures, and data privacy considerations in healthcare environments, and processes required to design, secure, and troubleshoot a network to support healthcare organizations. Mobile computing, patient portals, personal health records, telehealth, health information exchange are discussed. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**  
**Required Prerequisite:** (IT 341C).  
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**IT 331: Web I: Web Development.** 3 credits.  
Introduces the principles and techniques necessary for successful client-side web development. Topics such as HTML5, Cascading Style Sheets, JavaScript, DOM, XML, AJAX, and jQuery are presented. Students will learn to develop attractive and interactive web pages and applications and use client-side web-scripting languages to solve problems both with a text editor and more powerful WYSIWYG HTML editors. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**  
**Required Prerequisites:** (IT 106C, CS 112C or IT 196C) and (IT 213B or 193B).  
C Requires minimum grade of C.  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**IT 332: Web Server Administration.** 3 credits.  
Covers the installation, configuration, and administration of Web servers, FTP servers, and DNS servers. Additional topics include security setups, administration, and associated performance issues. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**  
**Required Prerequisites:** (IT 213B or 193B).  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**IT 335: Web Development using Content Management Systems.** 3 credits.  
Through lectures and hands-on lab experience, presents web development techniques using content management systems (e.g. Joomla, Dot net nuke). Introduces characteristics of various types of websites (corporate portals, intranets and extranets; online magazines, newspapers, and publications; e-commerce and online reservations, government applications, small business websites). Presents methods, languages, tools related to web content management systems from an applied perspective. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**  
**Required Prerequisites:** IT 213B or 193B.  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture
**IT 341: Data Communications and Network Principles. 3 credits.**
Focuses on primary aspects of data communications and networking. Open Systems Interconnection (OSI) and Internet models; Layer 1 interfaces and cabling configurations; IP network addressing, network design, router and port configurations; security protocols; static routing, RIPv2, and OSPF configurations; TCP, UDP, data reliability, and error correction methods; Telnet, FTP, TFTP, HTTP, SMTP, POP, and DNS protocols. Notes: This course is 50 percent lab work of configuration of routers and network design, implementation, and testing. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** ((IT 101C and 212C) or (IT 105C)) and (IT 106C, 196C or CS 112C) and (MATH 108C or 113C) and (IT 300C2).
*C* May be taken concurrently.
*C* Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 342: Operating Systems Fundamentals. 3 credits.**
Practices and procedures for installing and configuring modern operating systems, including user accounts, file, print, and terminal servers, mobile computing, and disaster recovery. Through practical lab sessions, students receive real-world experiences with multiple operating systems. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** ((IT 101C and 212C) or (IT 105C)) and (IT 106C or 196C).
*C* Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 343: IT Project Management. 3 credits.**
Provides essential strategies and procedures for planning, organizing, staffing, monitoring, and controlling design, development, and production of system to meet stated IT-related need in effective and efficient manner. Fulfills writing-intensive requirement for BS in information technology. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Specialized Designation:** Writing Intensive in the Major

**Registration Restrictions:**
**Required Prerequisite:** IT 293C.
*C* Requires minimum grade of C.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

**IT 344: Information Storage and Management Technologies. 3 credits.**
Provides an introduction to principles of information storage and management including the emerging field of virtualization technologies. Covers Direct Attached Storage (DAS), networked storage models such as Network Attached Storage (NAS), Storage Area Network (SAN), and Content Addressed Storage (CAS); and applications in business continuity, replication, disaster recovery, and cloud computing. Includes exposure to real-world storage networking technologies. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** (IT 341C) and (IT 214B or 194B).
*C* Requires minimum grade of C.
*B* Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 352: Security Administration of Linux Systems. 3 credits.**
Provides theoretical foundation and practical experience installing, configuring, and maintaining Linux systems with an emphasis on best practices for security. Students develop a heterogeneous suite of clients and servers with firewalls and other networking components. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** IT 223B and ((IT 101C and 212C) or IT 105C) and (IT 106C, 196C or CS 112C) and IT 342C.
*B* Requires minimum grade of B.
*C* Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology or Information Technology.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 353: Information Defense Technologies. 3 credits.**
This course will examine and assess the role of information technology as a tool of warfare and civil defense. Topics will be discussed from both defensive and offensive perspectives and will include asset tracking, asymmetric warfare, network centric warfare, physical attacks, cyberterrorism, espionage, psycos, reconnaissance and surveillance, space assets, and applications of GPS and cryptographic technology. Students will research and write about the social, ethical, and political effects of such technology. Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.
Registration Restrictions:
Required Prerequisites: (IT 101C or 105C) and (IT 223B).
  C Requires minimum grade of C.
  B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 357: Computer Crime, Forensics, and Auditing. 3 credits.
Examines information security services and mechanisms in network context. Topics include symmetric and asymmetric cryptography; message authentication codes, hash functions and digital signatures; digital certificates and public key infrastructure; access control including hardware and biometrics; intrusion detection; and securing network-enabled applications including e-mail and web browsing. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts. Equivalent to CRIM 304.

Registration Restrictions:
Required Prerequisites: (IT 103X, 103C, 103T or 104C) and (IT 223B).
  C Requires minimum grade of C.
  B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 366: Network Security I. 3 credits.
Examines information security services and mechanisms in network context. Topics include symmetric and asymmetric cryptography; message authentication codes, hash functions and digital signatures; digital certificates and public key infrastructure; access control including hardware and biometrics; intrusion detection; and securing network-enabled applications including e-mail and web browsing. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 206C or CS 211C) and IT 223B.
  C Requires minimum grade of C.
  B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 369: Data and Application Security. 3 credits.
Introduces concept of data and application security. Discuss challenges of database, and application and industrial control system security. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 207C and 223B).
  C Requires minimum grade of C.
  B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 410: Web Programming. 3 credits.
This course covers layers of the n-tier architecture. Students will build web applications using available frameworks at each tier, such as Java Server Faces and Servlets for the UI tier, Web Services for the business tier and Java Database Connectivity for the persistence tier. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 206B or CS 211B.
  B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 413: Digital Media Editing. 3 credits.
Examines three areas of digital media editing - tools for editing, content and logic decision process, and information technology used by major corporations for development and distribution - through video examples from entertainment industry and corporate productions as well as hands-on editing experience. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 213C or 193C).
  C Requires minimum grade of C.
Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 414: Database Administration. 3 credits. Explores advanced concepts of database administration using enterprise-level database management system. Topics include: backup, recovery, corruption, automatic management, resource management, job scheduling, space management, memory management, storage management, diagnosis and corresponding tools. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts. Equivalent to INFS 414.

Registration Restrictions:
Required Prerequisites: (IT 314B) and (IT 214B or 194B).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 415: Information Visualization. 3 credits. Provides an overview of information visualization applications in intelligence analysis, decision support systems, and network monitoring. Covers human factors, human interface with information, and current and future trends in information visualization. Students also learn to develop a rudimentary visualization application. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 213B or 193B).
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 429: Security Accreditation of Information Systems. 3 credits. This course explains basic principles of performing FISMA certification and accreditation (C&A) of an IT System. The course covers methodology for completing C&A, explains the role of the Certifier and the Information System Security Officer (ISSO), and gives students real world experience with IT Systems in the Federal Government. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106C or 212C) and (IT 223B).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 431: Agile Web Development with Open Source Frameworks. 3 credits. Introduces the principles and techniques for TDD (test-driven development) and deployment using open source frameworks (e.g., Ruby on Rails). Topics such as agile development methodology, version control, and Lean Startup are also presented. Students will work in small teams and propose, develop, and deploy interactive web applications and use an open source application framework to solve real-world problems. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 331C) and (IT 213B or 193B).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 436: Web II: Advanced Web Development. 3 credits. Focuses on database-driven web application development and web presentation using server-side coding and advanced techniques. Additional topics include AJAX, web server configuration and web services. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106C, 196C or CS 112C) and (IT 213B or 193B) and (IT 214C or 194C).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.
and countermeasures; privacy and security policies and risk analysis; viruses and other rogue programs; common system vulnerabilities controls; authentication technologies; control and prevention of integrity, availability, and usage controls. Topics include models and Studies security policies, models, and mechanisms for secrecy, IT 462: 

Schedule Type: Lecture

**IT 445: Advanced Networking Principles. 3 credits.** This course focuses on Layer 2 and 3 of the OSI model and WAN technologies. Frame Relay and ISDN, complex router configurations of Variable Length Subnet Masking (VLSM), Classless Inter-Domain Routing (CIDR), Network Address Translation (NAT), Dynamic Host Configuration Protocol (DHCP), and study of Network Management Systems available for Data Communications Networks. Layer 2 involves Ethernet-switching components, including detailed hands-on configuration covering all aspects of switches using the command-line interface method. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** (IT 341\(^B\) or L341).
\(^B\) Requires minimum grade of B.

**Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.**

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type: Lecture**

**IT 455: Wireless Communications and Networking. 3 credits.** Covers fundamental principles underlying wireless data communications. Topics include wireless transmission basics, radio propagation issues, antennas, digital modulation, spread spectrum techniques and their applications, and popular standards: WiFi, WiMAX and Bluetooth. Also presents practical knowledge to enable the design, testing, deployment, debugging and commissioning of WiFi, WiMAX networks and point-to-point microwave systems. Discussions on cellular network technologies are also included. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** (IT 101\(^C\) or 105\(^C\)) and (IT 102\(^C\), MATH 112\(^C\) or 125\(^C\)) and (IT 341\(^B\) or L341).
\(^C\) Requires minimum grade of C.
\(^B\) Requires minimum grade of B.

**Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.**

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type: Lecture**

**IT 462: Information Security Principles. 3 credits.** Studies security policies, models, and mechanisms for secrecy, integrity, availability, and usage controls. Topics include models and mechanisms for mandatory, discretionary, and role-based access controls; authentication technologies; control and prevention of viruses and other rogue programs; common system vulnerabilities and countermeasures; privacy and security policies and risk analysis; intellectual property protection; and legal and social issues. Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts. Equivalent to INFS 462.

**Registration Restrictions:**
**Required Prerequisites:** (IT 105\(^B\) or 212\(^C\)) and (IT 223\(^B\)).
\(^C\) Requires minimum grade of C.
\(^B\) Requires minimum grade of B.

**Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.**

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type: Lecture**

**IT 466: Network Security II. 3 credits.** Detailed study of certain symmetric and asymmetric cryptographic schemes; analysis of network data (including "packet sniffing"); security at different network layers (including IPSec, SSL/TLS and Kerberos); and secure e-commerce. Teaches principles of designing and testing secure networks, including use of network partitioning, firewalls, intrusion detection systems, and vulnerability assessment tools. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** (IT 223\(^B\)) and (IT 341\(^C\)) and (IT 206\(^C\) or CS 211\(^C\)) and (IT 102\(^C\), MATH 112\(^C\) or 125\(^C\)).
\(^C\) Requires minimum grade of B.
\(^B\) Requires minimum grade of C.

**Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.**

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type: Lecture**
IT 467: Network Defense. 3 credits.
Practices and procedures for defending business-class, heterogeneous networks against threats (including system failure, environmental events, human error) and attacks (including intrusion, malicious software, denial of service). Through practical lab sessions, students receive real-world experience designing networks, installing and configuring system components, detecting and recovering from problems and attacks, and gathering data to support prosecution of offenders and refinement of countermeasures. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 366C and 223B.
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 484: Voice Communications Technologies. 3 credits.
Examines current and emerging technologies for transmission of voice signals over telecommunications systems. Highlights significant differences between the requirements for voice and other forms of data. Topics provide a balance between traditional voice technologies and those that use data networks. Real-world implementations are analyzed to determine reliability, quality, and cost effectiveness. Includes lab experiments with analog and digital technologies. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 300C) and (IT 341B or L341).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 488: Fundamentals of Satellite Communications. 3 credits.
Provides a comprehensive overview of the principles of satellite communications systems. Major topics include satellite orbits and constellations, the space segment, antennas, modulation, coding, satellite access methods and link analysis. Also covers satellite applications, with emphasis on recent developments in the satellite communications field. Hands-on design experience is gained through the use of readily available vendor software systems. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 300C) and (IT 341B) and (MATH 108C or 113C).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 490: Application Maintenance and Spiral Development. 3 credits.
Provides software engineering, programming techniques, platforms and tools necessary for application maintenance, optimization and spiral development. Models discussed may include: incremental development, waterfall, evolutionary; on various platforms: mobile, cloud, web-based.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Schedule Type: Lecture

IT 492: Senior Design Project I. 3 credits.
Students use information technology as a tool to redesign business processes so the enterprise can achieve its objectives. Student teams analyze the business processes of real organizations, quantify the negative impact caused by current process challenges, then develop and present a compelling Business Case for Change. Students develop skills critical for preparing and delivering effective verbal briefings and presentations. Notes: Restricted to AIT/INFT majors. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

Mason Core: Capstone, Synthesis (p. 135)

Registration Restrictions:
Required Prerequisites: (IT 206B or CS 211B) and IT 207C and (IT 213C or 193B) and (IT 214C or 194C) and IT 223B, 300C, 341C and 343C and (MBUS 300C or MSOM 300C).
C Requires minimum grade of C.

Enrollment is limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students in a Bachelor of Science degree.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

IT 493: Senior Design Project II. 4 credits.
Students, in teams, complete projects demonstrating preparedness as an IT professional. This work includes ethical challenges, status reports and engineering notebooks evaluated during class. Teams members develop detailed designs, build solutions up to Beta, present final written reports and final verbal presentations before review panels of business leaders. Students must register for the section that continues their IT 492
section. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Mason Core:** Capstone (p. 135)

**Registration Restrictions:**
**Required Prerequisite:** IT 492\(^C\).  
\(^C\) Requires minimum grade of C.

Enrollment is limited to students with a major in Applied Information Technology or Information Technology.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture, Recitation

**IT 495:** *Turning Ideas into Successful Companies.* 3 credits.  
This is a practical course in entrepreneurship. Each class session will focus on specific topics associated with building a business: team creation, business planning, market research, product development, financial planning, funding, people and organizations, competitive strategies, operations, growth and exit strategies, and more. Students will have reading assignments and will participate in competitive team assignments. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** IT 106\(^B\) or 196\(^B\).  
\(^B\) Requires minimum grade of B.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 496:** *Decision Making in IT Ventures.* 3 credits.  
Introduces students to the decision making processes involved in leading IT companies. Topics include: the role of major IT applications in strategic, tactical, and operational decisions; assessment and justification of IT ideas and investments; methodologies to predict decision outcomes; how to measure IT investments performance; strategies to inspire, influence and organize the workforce to accomplish key business goals. Notes: Students develop skills through assessment and role-playing activities, discussions, cases, and hands-on applications. Offered by Info Sciences & Technology (p. 1044). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** (IT 106\(^B\), 196\(^B\) or CS 112\(^B\)).  
\(^B\) Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**IT 498:** *Independent Study in Information Technology.* 1-3 credits.  
Directed self-study of special topics of current interest in IT. Notes: Topics must be arranged with instructor and approved by department chair before registering. Offered by Info Sciences & Technology (p. 1044). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** 60 credits.

**Registration Restrictions:**
Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Independent Study

**IT 499:** *Special Topics in Information Technology.* 3 credits.  
Topics of special interest to undergraduates. Notes: May be repeated if topics are substantially different. Offered by Info Sciences & Technology (p. 1044). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** 60 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Washington Consortium level students may **not** enroll.

Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**700 Level Courses**

**IT 796:** *Directed Reading and Research.* 1-6 credits.  
Reading and research on specific topic in information technology under direction of faculty member. Offered by Info Sciences & Technology (p. 1044). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Independent Study

**IT 797:** *Directed Reading and Research.* 1-3 credits.  
Reading and research on specific topic in information technology under direction of faculty member. Offered by Info Sciences & Technology (p. 1044). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Independent Study
800 Level Courses

IT 896: Directed Readings and Research in IT. 1-6 credits.
Students pursue research on a specific topic under direction of faculty. Offered by Info Sciences & Technology (p. 1044). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completed qualifying exams, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Independent Study

900 Level Courses

IT 990: Directed Readings and Research in Information Technology. 1-6 credits.
Students pursue research on a specific topic under direction of faculty in Information Technology. Note: Students may not take IT 998 and 999 at the same time. Students must contact department at 993-1505 to receive approval and CRN to register. Offered by Info Sciences & Technology (p. 1044). May be repeated within the degree.

Recommended Prerequisite: Completion of all coursework for the PhD in Information Technology, or permission of instructor.

Registration Restrictions:
Enrollment limited to Graduate level students.

Enrollment is limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

IT 991: Engineer Project Presentation. 1 credit.
Opportunity for engineer degree students to present project proposal for critique to fellow students and interested faculty. Note: May be repeated with change of research topic, but credit toward doctoral degree is given once. Offered by Info Sciences & Technology (p. 1044). May not be repeated for credit. Equivalent to CS 990, STAT 990.

Recommended Prerequisite: Completion of all course requirements for the Engineer degree in Information Technology and permission of Project Director.

Registration Restrictions:
Enrollment limited to students in a Engineer degree.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

IT 997: Engineer Project Dissertation. 1-12 credits.
Working on project proposal that forms basis for dissertation for engineer degree. Notes: May be repeated with change in topic, but degree credit is only given once. Offered by Info Sciences & Technology (p. 1044). May be repeated within the degree.

Recommended Prerequisite: Admission to candidacy. Students must submit the Engineer proposal and have it approved prior to registering for this course.

Registration Restrictions:
Enrollment limited to students in a Engineer degree.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

IT 998: Doctoral Dissertation Proposal. 1-12 credits.
Working on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of IT 998 and 999 may be applied to doctoral degree requirements. Offered by Info Sciences & Technology (p. 1044). May be repeated within the degree.

Recommended Prerequisite: Admission to Doctoral candidacy. Students must submit the Doctoral proposal and have it approved prior to registering for this course. Students may not take IT 998 and 999 at the same time. Students must contact department at 993-1505 to receive approval and CRN to register. Offered by Info Sciences & Technology (p. 1044). May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students in a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

IT 999: Doctoral Dissertation. 1-12 credits.
Formal record of commitment to doctoral dissertation research under direction of faculty member in information technology. Notes: Students must submit the Doctoral proposal and have it approved prior to registering for this course. Students may not take IT 998 and 999 at the same time. NOTE: Students must contact department at 993-1505 to receive approval and CRN to register.

Recommended Prerequisite: Admission to Doctoral candidacy. Students must submit the Doctoral proposal and have it approved prior to registering for this course. Students may not take IT 998 and 999 at the same time. Students must contact department at 993-1505 to receive approval and CRN to register.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.
Initiatives in Educational Transformation-Teaching (IETT)

500 Level Courses

IETT 500: Introduction to IETT. 0 credits.
Introduces students to the ideas and the experiential pedagogy of the IET program in an intensive summer session designed to develop relationships among participating educators and faculty by building a vibrant learning community through shared and emerging knowledge and experience. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

700 Level Courses

IETT 750: Studies in Language and Culture I. 3 credits.
Explores the interdependence and mutual construction of languages and cultures, as well as how both provide interpretive frames and thus mediate lived experiences. Investigates culture and language as primary shapers of relationships and identities. Engages teachers in constructing culturally responsive curriculum and pedagogy. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

IETT 751: Studies in Language and Culture II. 3 credits.
Deepens understandings of how language and culture shape interpretations that affect people's lives. Investigates student achievement in relationship to classroom experiences and the language and cultural knowledge students bring to school. Examines vernacular discourses, including those in cyberspace and popular culture, while considering pedagogical implications. Probes social justice issues in and out of educational institutions. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

IETT 752: Research in Practice: The Team Project. 6 credits.
Builds further understanding of teacher research with an emphasis on collaborative research process to develop skills, construct knowledge, and transform practice. Teams engage in collaborative inquiry as they form and frame salient questions, take actions to improve teaching and learning, gather, analyze and interpret multiple forms of data, and share their experience in communities of practice. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: MNPE 704
Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

IETT 753: Teaching and Learning. 3 credits.
Provides a structured opportunity for offering evidence of individual growth and transformation of professional practice. Through a process of deep reflection, examines fundamental philosophical and pedagogical assumptions, explores individual educational experiences, and critically examines professional practices related to meeting K-12 students' needs, continuous improvement, and program experiences. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

IETT 754: Introduction to Teaching Historic Places with Diverse Populations. 1 credit.
Explores and interprets national, regional, and local historic sites in the Washington DC area, students will practice historical thinking and teaching through an analysis of historic sites as primary sources. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Corequisite: MNPE 700; MNPE 703.
Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

IETT 755: Advanced Teaching Historic Places with Diverse Populations. 2 credits.
Building on the exploration and interpreting skills learned in IETT 754, students will practice historical thinking and teaching for diverse P-12 classroom populations to convey critical thinking skills and civic engagement. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: IETT 754.
Recommended Corequisite: IETT 750.
Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
**Integrative Studies (INTS)**

### 100 Level Courses

**INTS 101: Narratives of Identity.** 6 credits. 
Explores the concept of identity through the study of literature and oral communication. Introduces aesthetic, cultural, and historical aspects of these forms of communication as well as their psychological, political, and practical significance, with special emphasis on the role of communication in a free society. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 101.

**Specialized Designation:** Discovery of Scholarship

**Schedule Type:** Seminar

**INTS 102: Global Networks and Communities.** 6 credits. 
Prepares students for participation in a global society by investigating global and local issues in a historical context. Considers critical topics of western civilization, globalization, (neo)colonialism, imperialism, and hegemony. Students gain an in-depth perspective of the intricate relationships between people and cultures at various moments in our history. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 102.

**Specialized Designation:** Green Leaf Course, Discovery of Scholarship

**Schedule Type:** Seminar

**INTS 103: Human Creativity: Science and Art.** 6 credits. 
Investigates the vital role played by human creativity in fine arts and natural sciences. Fosters an understanding of the aesthetic and intellectual components of the arts while exploring the scientific method, the relation of theory and experiment, and the development and elaboration of major ideas in science. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 103.

**Specialized Designation:** Green Leaf Course, Discovery of Scholarship

**Schedule Type:** Seminar

**INTS 165: Independent Study.** 1-12 credits. 
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor). Students are encouraged to work as a team on a particular topic. Notes: Maximum 12 credits can be used to fulfill graduation requirements. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 12 credits. Equivalent to NCLC 165.

**Schedule Type:** Independent Study

**INTS 194: Service-Learning Experience.** 1-15 credits. 
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 15 credits. Equivalent to NCLC 194.

**Schedule Type:** Internship

**INTS 195: Field-Based Work.** 1-6 credits. 
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 24 credits. Equivalent to NCLC 195.

**Schedule Type:** Internship

### 200 Level Courses

**INTS 200: Visual Thinking and the Creativity.** 3-15 credits. 
Investigates modes of visual and textual creativity through art, literature, and variety of visual and textual forms. Through interdisciplinary approach to picturing text, provides opportunity to experiment with creative composition that includes visual elements, and with art forms that include textual elements. Explores blocks to creativity, and provides understanding of how to evaluate and write about visual texts as well as how to produce documents that integrate words and images. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 200.

**Schedule Type:** Lecture

**INTS 201: The World Since 1945.** 6 credits. 
Examines the history of the past 50 years to illuminate the contemporary world as well as build connections between the global and local. Using historical works, fiction, autobiographies, films, and daily newspapers, students explore such major events as the Cold War, the struggle against apartheid in South Africa, the Vietnam War, the Chinese Cultural Revolution, and the continuing conflict in the Middle East. As a learning community, requires active student participation in group projects and discussions. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 201.

**Schedule Type:** Lecture

**INTS 202: Public Speaking and Critical Thinking Skills.** 4 credits. 
Combines process of learning to speak in front of audiences with analysis of arguments and persuasive appeals. Students learn how to create and present effective speeches, adapt messages to specific audiences, and evaluate and critique messages produced for others. One credit of experiential learning enables students to examine public speeches, news stories, political campaigns, and advertising, among others, to make meaningful connections between public speaking theory and practice. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 202.

**Schedule Type:** Lecture

**INTS 203: Inquiry for Action: Facilitating Change.** 6 credits. 
Examines the relationships between academic research, individual acts and society’s social and political structures. Students design a community-based research project, explore a rich array of qualitative and quantitative approaches, apply information and communication technologies to all aspects of the research process, and learn from individuals and organizations outside the classroom. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 203.
Specialized Designation: Discovery of Scholarship

Schedule Type: Lecture

INTS 204: Leadership Theory and Practice. 3 credits.
Examines historical and contemporary leadership theories and invites students to be reflective of their own leadership experiences through the lenses of those theories. Students develop critical lenses through which to evaluate their own self-awareness, effectiveness in groups, and ability to navigate structures and systems. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 204.

Schedule Type: Lecture

INTS 210: Sustainable World. 4 credits.
Covers basic issues in the natural and social sciences that underlie current environmental problems. Considers ethical matters such as equity as they pertain to global resource consumption, pollution, and climate change. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 210.

Specialized Designation: Green Leaf Course, Discovery of Scholarship, Scholarly Inquiry

Schedule Type: Lecture

INTS 211: Introduction to Conservation Studies. 3-6 credits.
Provides foundation for the integrative study of environmental conservation. Formal and informal writing assignments and oral presentations designed to strengthen critical thinking and communication skills important to students who pursue conservation-related professions. Instructors encourage students to use course assignments and off-campus work to identify suitable educational and career paths within the conservation world. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 211.

Specialized Designation: Green Leaf Course

Schedule Type: Lecture

INTS 231: Introduction to Community Studies. 4 credits.
Examines relationship between sustainable communities and democratic citizenship in a diverse society. The objectives are to improve one's understanding of and thinking critically about communities and democratic principles, theories and practice. Students identify and work through problems that communities address by working in a community service-learning setting. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 231.

Schedule Type: Lecture

INTS 244: Beats, Rhyme, and Culture. 4 credits.
Examines the history of hip-hop and the effect it has had on our society. The primary focus is to consider hip-hop as a medium of communication that impacts, represents, and misrepresents the life experiences of youth in the United States. Students are exposed to historical, socioeconomic, and musical/aesthetic contexts of this genre through in-class activities and by attending related cultural events. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 244.

Schedule Type: Lecture

INTS 245: Visual Culture and Society. 4 credits.
Explores the role of visual culture in contemporary society including an examination of photography, the visual and performing arts, film and video, and electronic media. Readings focus on the historical foundations of visuality as well as theories of visual culture and aesthetics. Students investigate the ways that forms of visual culture function in society and how these are linked to race, class, and gender as well as politics and economics. Students will gain hands-on experience working with contemporary visual media tools such as computer graphics and digital video editing. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 245.

Schedule Type: Lecture

INTS 249: Digital Literacy. 4 credits.
Investigates information literacy, the mobile web, and interactive and immersive media, including gaming, social networking, blogging and micro-blogging, intellectual, political and civic collaborations, digital aesthetics and emerging digital cultures and art forms. Explores major theories of digital literacy and culture and introduce diverse social, artistic, theoretical and cultural practices that characterize today's digital domains and virtual environments. Notes: One experiential credit is required in this class. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 249.

Schedule Type: Lecture

INTS 275: Special Topics. 1-18 credits.
Studies topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 18 credits. Equivalent to NCLC 275.

Schedule Type: Lecture

INTS 290: Internship. 1-6 credits.
Internship credit may be applied to 12 credits required in experiential learning. Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or executive director. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 24 credits. Equivalent to NCLC 290.

Recommended Prerequisite: Sophomore standing and permission of instructor.

Schedule Type: Internship

INTS 291: Living-Learning Community. 1 credit.
Bridges students' academic interests with their residence hall living experience. Students with common interests live together in the same residence hall and develop personal and academic relationships with other students and faculty from their chosen Living Learning Community focus. Offered by School of Integrative Studies (p. 564). May be repeated within the degree for a maximum 8 credits.

Schedule Type: Seminar

INTS 292: Leadership for Sustainability. 1 credit.
For students living in the Sustainability Living Learning Community and/or students participating in the Greenleaf ENCORE Series. Develop your understanding of sustainability in both theory and practice. Learn how change happens at Mason and identify contributions you can make to
Mason’s continuing pursuit of campus sustainability. Offered by School of Integrative Studies (p. 564). May be repeated within the degree for a maximum 8 credits.

Specialized Designation: Green Leaf Course

Schedule Type: Seminar

Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 15 credits.

Schedule Type: Internship

INTS 295: Field-Based Work. 1-18 credits.
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 24 credits.

Schedule Type: Internship

INTS 298: Field-Based Work. 1-15 credits.
Experiential-based individualized studies, mentored by instructor. Notes: Topics decided by student and instructor, and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 15 credits. Equivalent to NCLC 298.

Schedule Type: Internship

300 Level Courses

INTS 300: Law and Justice. 3 credits.
Combines various teaching methods including lectures, the Socratic method, case studies, discussion of readings and films, debates, and active inquiry-based learning to investigate the major institutions in the American legal system. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 300.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

INTS 301: Science in the News. 3 credits.
Examination and discussion of the current trends in science as reported in the popular media. Students learn how to evaluate the science that is reported so they may become informed consumers; discuss how scientific advancement might shape society by looking at how science and society have changed together over time; and use examples from the past to discuss future trends. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 301.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

INTS 302: Argument and Advocacy. 6 credits.
Develops theoretical background and skills necessary for effective civic engagement and deliberative discourse. Teaches fundamentals of argument construction, function, and analysis. Covers role of argument and advocacy in a democratic society. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 302.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

INTS 303: Introduction to International Studies. 3 credits.
Explores a multi-disciplinary approach to addressing world issues. Combines lectures, field trips, discussion of readings, films, case studies, projects, and active inquiry-based learning to examine the natural environment, infectious disease and globalization, media and technologies, and war and violent conflict, with an attempt to deepen community members’ understanding of an increasingly interdependent world. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 303.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

INTS 304: Social Movements and Community Activism. 4 credits.
Examines how citizens, individually and collectively, accomplish social change in society through case study analysis. Considers advantages and limits of social change strategies from communication and social movement theory perspectives. Surveys topics including how leaders maintain momentum in face of opposition; how movements and organizations use slogans, symbols and music to inspire followers; and how participants construct persuasive media campaigns and political arguments to facilitate policy change. Notes: One credit of experiential learning enables students to explore their role as social advocates and effective citizens in context of community. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 304.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

INTS 305: Conflict Resolution and Transformation. 6 credits.
Examines the nature and dynamics of conflict and ways to resolve and transform conflict. Experiential learning is used as the vehicle through which students explore their assumptions about communication and develop their skills for resolving interpersonal conflicts. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 305.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

INTS 308: American Landscapes in Fiction, Film, and History. 6 credits.
Waterways and roadways have always had practical, spiritual significance for Americans. Course looks at American literary works and films in historical context to better understand the roles roads, rivers play in shaping physical, cultural landscape of United States. Students explore course themes outside classroom on weekend field trips, and conduct self-directed road trip as a main learning events. Notes: Satisfies
requirements for ENGH 302. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 308.

**Mason Core:** Synthesis (p. 135)

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 310:** Violence and Gender. 3-6 credits.
Using nonfiction, research documentaries, oral histories, case studies, literature, feature films, music, dance, and visual arts, examines the dynamics of violence through different cultural lenses. Students work in university and community settings to integrate their academic experiences with practice. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 310.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 311:** The Mysteries of Migration: Consequences for Conservation. 6 credits.
Investigates the biology of migration and its implications for science policy. Students consider the phenomenon of migration in the context of natural history, conservation, and cultural issues. The course includes several weekend trips for field study. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 311.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 312:** Images and Experiences of Childhood: Social Construct, Literature, and Film. 3-6 credits.
Immerses students in the images of childhood through the media of literature, video, and poetry, with a strong emphasis on historical perspectives of childhood. The class is interactive, requires some work in groups, and requires classroom participation. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to HIST 386, HIST 498, NCLC 312.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 314:** Conflict, Trauma and Healing. 6 credits.
Develops in students an appreciation of human resilience and helps them acquire better coping mechanisms. Imparts knowledge of the nature and dynamics of trauma and healing. Investigates the difficulties people face in responding to settings of conflict such as war, school shootings, abuse, domestic violence, including natural disaster. Examines case studies from a variety of personal, national, and international settings. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 314.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**INTS 315:** Spirituality and Conflict Transformation. 6 credits.
Examines dimensions of spirituality, including peacemaking efforts in large-scale conflicts, conflicts within faith communities, and interpersonal disputes. Experiential learning explores spiritually informed resolution. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 315.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 316:** Introduction to Childhood Studies. 4 credits.
Focuses on the study of childhood from birth to adolescence from the perspective of several disciplines. Covers childhood theory, research, and policy and their applications to decisions regarding children and youth. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 316.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**INTS 317:** Issues in Family Relationships. 4 credits.
Dynamics of family systems and issues that shape relationships among family members. How families evolve as members grow, leave, and create related family systems; family roles and forms; and communication patterns, decision-making, conflict, stress, and power. Content draws from family communication, family relations, psychology, and counseling. Lecture, discussion, observation, analysis, research, and role-playing. Notes: One credit counts for experiential learning; students complete 45 credits of course-related work outside classroom. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 317.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Minimum of 55 hours completed.

**Schedule Type:** Lecture

**INTS 318:** Exploring Virginia’s Watersheds. 4 credits.
Comprehensive overview of history, geography, economics, and management of water resources in Virginia; and how rapidly growing population has measurably degraded resource. Includes one weekend field trip. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 318.

**Specialized Designation:** Green Leaf Course, Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 319:** Contemporary Youth Studies. 3 credits.
Examines the history of positive youth development, how scholars study youth, and the theories they use to guide their research. Evaluates the policies and programs aimed at empowering youth. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 319.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 320:** Construction of Differences: Race, Class, and Gender. 6 credits.
Examines race, sex, sexual orientation, and social class in contemporary American society. Examines commonalities in the construction of these categories and experiences of those who occupy them. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 320.
Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

INTS 321: Parent-Child Relations. 3 credits.
Introduces students to concepts and challenges in parenting, along with family diversity and risk factors. Considers interactions between parents and children from birth to adolescence as well as cross-cultural, historical, and societal influences. Explores efforts that have been successful in changing detrimental parenting actions. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 321.

Schedule Type: Seminar

INTS 322: Teacher: A Historical Perspective. 3 credits.
Examines the rich heritage of the teaching profession in Western society. Traces the history of educational philosophy and teaching, beginning with the ancient Greeks and culminating in the 21st century United States. Using the exploration of the various philosophies of education as a foundation, examines contemporary images of teachers in literature and film. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 322.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

INTS 331: The Nonprofit Sector. 4 credits.
Readings, classroom discussions and activities, and practical experience reveal historical, legal, and socioeconomic forces that define and influence the American nonprofit sector. Explores structures, issues that affect nonprofit management, governing, and financial systems. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 331.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Sophomore standing.

Schedule Type: Lecture

INTS 333: The Nature of Mathematics. 3 credits.
Include theoretical framework, historical context, connections with some other disciplines, and current issues. Selected mathematics topics such as advanced algebra and geometry and introductions to set theory, probability, calculus, and number theory. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 333.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Performance on Math Placement Exam equivalent to requirements for entrance to MATH 110 or MATH 111, successful completion of algebra program in mathematics learning center, or any mathematics course that fulfills the Mason Core requirement in quantitative reasoning; OR permission of instructor.

Schedule Type: Lecture

INTS 334: Environmental Justice. 4 credits.
Examines historical and contemporary sociopolitical and socioeconomic conditions that have given rise to the environmental justice movement. Analyzes how individuals contribute to environmental justice or injustice through everyday decisions. Considers how environmental justice movement responds to these issues. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 334.

Specialized Designation: Green Leaf Course, Writing Intensive in the Major

Schedule Type: Seminar

INTS 335: Ethics, Communication, and Freedom. 3-6 credits.
Students examine ethical principles, discuss some underlying bases for these principles, and work to understand how such principles are experienced and can be applied in a free society. Focus is on examining potential conflicts between ethics and the freedoms believed essential to a healthy democratic society. Cases drawn from sports, medicine, media, politics, and business. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to COMM 454, NCLC 335, PHIL 391.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Sophomore standing and 3 credits each of COMM and PHIL, or Permission of Instructor.

Schedule Type: Lecture

INTS 336: Poverty, Wealth and Inequality in the US. 3 credits.
Explores the social, cultural, political, and spiritual implications of poverty, wealth, and inequality in the United States. Examines the ways in which class identity informs one’s views of the world and its politics; how socioeconomic status affects one’s access to education and other social goods; and how dominant discourses and stereotypes related to poverty influence mass perception regarding a range of social issues, from educational policy to welfare. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 336.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

INTS 337: Social Justice Consciousness and Personal Transformation. 3 credits.
Explores the many spaces at which the quest to strengthen social justice consciousness interacts with processes and commitments for personal transformation. Analyzes through the lens of the activist and in the spirit of bringing mindfulness to activism, how we come to see and experience the world. Examines how socialization informs consciousness. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 337.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

INTS 338: Animal Rights and Humane Education. 3 credits.
Explores a combination of critical theories, experiential learning, and dialogical practices to examine the ways in which non-human animals are exploited for human profit. Examines the ramifications of this exploitation ecologically, as a question of sustainability, and spiritually, as a question of the impact of animal abuse on the human spirit. Discusses the use of animals in entertainment, factory farming, animal testing, and sport or trophy hunting; and how individuals and organizations are fighting these practices. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 338.
INTS 355: Introduction to Multimedia. 5 credits.
Technological, aesthetic, and educational issues of using interactive multimedia. Topics include theoretical underpinnings of some technological issues involved in multimedia computing as well as techniques for authoring interactive multimedia projects using a variety of digital media tools. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 355.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture

INTS 436: Art as Social Action. 4 credits.
This learning community explores historical records to understand different ways art has been produced, distributed, and consumed. Examines ways artists have affected change in their worlds. Through interdisciplinary studies, teaches major social movements and artists and theories used in socially engaged art. Students engage in experiential learning outside classroom as course requirement. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 436.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Seminar

INTS 437: Gender Representation in Popular Culture. 3-6 credits.
Explores the way in which masculinity and femininity have been represented across the decades in television, movies, music videos, pop art, and print media. Provides a review of the scholarship on the historical and contemporary roles of women and men in society, and examines the contradictions and expectations associated with gender roles. Incorporates active group learning through creative, insight-oriented exercises, critical thinking and discussions, and group presentations and media research activities. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 437.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Seminar

INTS 438: Digital Futures. 3-6 credits.
Investigates important contemporary issues such as surveillance, privacy, censorship, piracy, gender and ethnicity, digital labor and play, mobile media and globalization, and the commercialization and political potential of the digital public spheres. Introduces students to the latest technological, philosophical and creative thinking on the future of human society in a digital age. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 438.

Specialized Designation: Writing Intensive in the Major
Recommended Prerequisite: NCLC 249 or INTS 249
Schedule Type: Lecture

INTS 355: Mindfulness, Meaning & Well-Being. 3 credits.
Explores the science of well-being, including theories and practices linked to various domains of well-being such as mindfulness, resilience, life-satisfaction, happiness, mind-body wellness, and meaning and purpose. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 355.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture

INTS 360: The Built Environment. 6 credits.
Examines, records, and interprets objects, structures, and landscapes that compose our built environment. Draws on the fields of historical archaeology, architectural history, and urban geography, and employs photography, cartography, and evocative writing to represent the material world we inhabit. Builds on study of one neighborhood in Arlington, Virginia, and expands to entire metropolitan area. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to ANTH 315, ANTH 399, NCLC 360.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Seminar

INTS 361: Neighborhood, Community, and Identity. 3-6 credits.
Examines processes of neighborhood formation and transformation in the context of urbanism, suburbanism, immigration, and transmigration. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 361.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture

INTS 362: Social Justice and Human Rights. 3 credits.
Considers the philosophical foundations of social justice and human rights. Explores the interpretive difficulties related to identifying what constitutes human rights abuses, and evaluates regional perspectives on human rights. Analyzes institutions that strive to promote and enforce social justice and human rights standards including the United Nations system, regional human rights bodies, and domestic courts. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 362.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture

INTS 365: Independent Study. 1-12 credits.
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor) Students are encouraged to work as a team on a particular topic. Notes: Maximum 12 credits can be used to fulfill graduation requirements. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 12 credits.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Independent Study

INTS 370: Sustainable Food Systems. 6 credits.
Examines the evolution of US food systems with particular emphasis on the national capital region. Students place conventional agriculture and food systems in historical context and research alternative systems that emphasize sustainability. Beyond farm to table, this course asks students to contemplate how capitalism, industrialization, and
environmental ethics shape our land, culture, and society. Offered by School of Integrative Studies (p. 564). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Seminar

**INTS 371:** Food Systems and Policy. 3 credits.
Examines the roles of individuals, corporations, and government in creating food policy. Students investigate US agriculture, food production and the environment, food and beverage processing, food safety and labeling, food sales and marketing, dietary guidance, and federal food assistance programs. Offered by School of Integrative Studies (p. 564). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Seminar

**INTS 375:** Special Topics. 1-18 credits.
Studies topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 18 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 378:** Medicine, Justice, and Public Policy. 3 credits.
Explores formation of public policy relating to several key issues in medicine. Students examine basic theories of justice and public policy formation and apply these to contemporary issues in the field of medicine. The goal is to examine how current policy on these issues was established and to give examples of major stakeholders in the debate. This course involves some traditional lecture and discussion classes and also features participative learning through group work and web-based discussions. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 378.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 381:** When Cultural Worlds Collide. 6 credits.
Examines what happens when "civilization" encounters "the jungle" by reading, writing, discussing, and viewing written and filmed works dealing with contacts between cultures with colliding world views. Literature (from Conrad's The Heart of Darkness to Shakespeare's The Tempest to Burrough's Tarzan), news articles, radio broadcasts, web home pages, art exhibits, and many film and video presentations provide the basis for in-class and out-of-class activities. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 381.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 390:** International Internship. 1-6 credits.
Internship credit may be applied to 12 credits required in experiential learning. Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or executive director. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student's academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 24 credits. Equivalent to NCLC 390.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**INTS 391:** Introduction to Integrative Studies. 3 credits.
Describes key components of the Integrative Studies Program in The School of Integrative Studies. Students prepare for active participation as a community of learners to develop skills in reflective learning and self-assessment, and identify areas of intellectual and professional interests, values and skills so that students may take greater advantage of opportunities in SIS. As a learning community, this course fosters group collaboration, intensive writing, and reflective learning. Notes: Students may not enroll in this course after completing 12 or more learning community credits or simultaneously with or after completing INTS 491. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 391.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 394:** Service-Learning Experience. 1-15 credits.
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 15 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**INTS 395:** Field-Based Work. 1-18 credits.
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 24 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 396:** Teaching Assistant Experience. 1-6 credits.
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as Technology Assistants, Writing Tutors, and Residence Advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture
assignments, papers, presentations, and portfolios. Offered by School of Integrative Studies (p. 564). May be repeated within the degree for a maximum 15 credits. Equivalent to NCLC 396.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**INTS 397:** Add-On Experiential Learning. 1-3 credits.
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community. Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 4 credits. Equivalent to NCLC 397.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**INTS 398:** Field-Based Work. 1-15 credits.
Experiential-based individualized studies, mentored by instructor. Notes: Topics decided by student and instructor and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 15 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**INTS 399:** Study Abroad. 1-6 credits.
Intended for participation in formally organized course offered by Center for Global Education. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 16 credits. Equivalent to NCLC 399.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**400 Level Courses**

**INTS 400:** Temptress: Constructs of Sex and Power. 3 credits.
Examines the portrayal of powerful and/or sexual women throughout history, identifying famous historical "temptresses" and investigating the facts known about them. Explores representations and perceptions of contemporary female sexuality, considering possible future concepts and images of female power and sexuality. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 400.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**INTS 401:** Conservation Biology. 6 credits.
Provides students with a working knowledge of conservation biology. Integrates the study of social, economic, and political factors with biodiversity, population modeling, habitat degradation, and management issues. Students confront the leading edge of this exciting field by developing real species conservation plans. The experiential learning component of the course will include trips to the Smithsonian Institution's Conservation and Research Center in Front Royal, Virginia, to study with nationally known experts. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 401.

**Specialized Designation:** Green Leaf Course, Writing Intensive in the Major

**Recommended Prerequisite:** Junior standing or permission of instructor.

**Schedule Type:** Lecture

**INTS 402:** Plants and People - Sustenance, Ceremony, and Sustainability. 6 credits.
Examines the direct relationships between people and plants by integrating perspectives from both ethnobotany and economic botany. Provides students with an appreciation of the fundamental role of plants and plant-derived products in all aspects of human life in both industrialized and non-industrialized societies. Explores how plants and their uses have shaped both past and present cultures around the world. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 402.

**Specialized Designation:** Green Leaf Course, Writing Intensive in the Major

**Schedule Type:** Seminar

**INTS 403:** Conservation Behavior. 6 credits.
Introduces students to conservation behavior, a field that seeks to apply theories of animal behavior towards solving biological conservation and wildlife management problems. Consists of interactive lectures, readings (including a text and primary literature) and discussion, and hands-on, inquiry-based experiential learning while working in groups at the National Zoo to design and conduct independent behavioral-based research on endangered species. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 403.

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Seminar

**INTS 404:** Ethics and Leadership. 4 credits.
Uses an interdisciplinary approach to deepen and broaden student's learning about theories, models, and constructs related to the study and practice of ethics and leadership. Teaches students to develop ethical decision making strategies, communicate effectively in diverse group settings, value civic engagement and actively apply ethical leadership skills. Includes experiential learning activities and discussions that connect formal knowledge with real world experiences and includes one credit of experiential learning. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 404.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**INTS 405:** Women and Leadership. 4 credits.
Examines leadership within the context of the theoretical principles of women's studies through discussion of course texts, interactive exercises, field trips, documentary films, guest speakers, and reflection. Investigates the role that gender plays in the various forms of leadership and leadership styles. Explores the historical record of women in leadership roles, identifying the barriers as well as the opportunities.
Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 405.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**INTS 406:** Global Leadership. 3 credits. Develops a concept of global leadership, emphasizing the critical importance of ethical decision-making, social responsibility, and cultural awareness. Students formulate the construction process of a global mindset and begin to develop a personal philosophy of global leadership. Offered by School of Integrative Studies (p. 564). May not be repeated for credit.

**Schedule Type:** Seminar

**INTS 410:** Contemporary Health Issues. 3-18 credits. Looks at a variety of health and health care issues. Examines several of the major health concerns of women and, to a lesser degree, men. Also explores the biology and medical implications of these diseases and how our society deals with potential life-altering information. Examines who is making the decisions on the allocation of research funds and prevention of diseases. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 410, WMST 300.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 416:** Refugee and Internal Displacement. 3 credits. Provides students with a deeper understanding of refugee and internal displacement. Explores causes of displacement and its impact on people and societies. Studies the role played by governments, non-governmental organizations (NGOs) and the international community in addressing problems faced by refugees in internally displaced persons in terms of relief assistance and humanitarian services. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 416.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**INTS 417:** Human Trafficking and the International Community. 3 credits. Explores the complexity of human trafficking, one of the fastest growing criminal enterprises in the world. Examines forms of human trafficking and the countries that serve as source, transit or destinations of trafficked individuals and groups. Studies the role of the international community in addressing trafficking, including regional and national authorities and non-governmental agencies. Offered by School of Integrative Studies (p. 564). May not be repeated for credit.

**Schedule Type:** Seminar

**INTS 420:** Work Effectiveness Skills. 3 credits. Develops a variety of work-readiness skills needed to become successful in both local and global marketplaces. Topics and skills covered include communication, problem solving in the business setting, workplace ethics, listening skills, how to influence others, building team project rapport, and meeting effectiveness skills. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 420.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 422:** An Experiential Approach to American Foreign Policy. 3-6 credits. Takes an experiential approach to the study of American foreign policy. Through case studies, discussions, group projects, and directed research, students learn how foreign policy is made and executed and how they as citizens, activists, or officials can influence national decisions. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 422.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** INTS 331.

**Schedule Type:** Seminar

**INTS 431:** Principles of Fund Raising. 4 credits. Examines history of philanthropy and public policy, and the economic and legal frameworks that shape it. Combining theory and practice, students study human behavior, communications, and management systems that are hallmarks of successful fund raising, and begin to develop skills to generate donations, foundation grants, and other unearned revenue for a nonprofit organization. Notes: Includes 1 experiential learning credit. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 431.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** 60 credits.

**Schedule Type:** Lecture

**INTS 435:** Leadership in a Changing Environment. 4 credits. Examines diverse definitions and processes of change across multiple complex contexts. Focuses on identifying innovative, collaborative solutions to seemingly intractable social problems. Explores topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, and systemic leadership. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 435.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** INTS 331.

**Schedule Type:** Lecture

**INTS 436:** Social Justice Education. 4 credits. Examines educational policy, practice, and materials using a variety of lenses informed by social justice theory and praxis. Investigates ways in which racism, sexism, economic injustice, heterosexism, ageism, and other forms of discrimination influence schools and educational access and opportunity for youth. Considers and practices what individuals and communities can do to ensure that all students have equitable educational opportunities. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 436.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**INTS 437:** Critical Race Studies. 3 credits. Engages students in an examination of the forms and impacts of racism, as well as movements for racial justice, in the United States. Draws on theoretical frameworks including critical race theory and intersectionality theory in order to examine the structural roots of racism and the implicit
and explicit ways in which racism manifests today. Offered by School of Integrative Studies (p. 564). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** NCLC 345 or INTS 345.

**Schedule Type:** Lecture

**INTS 446: Art, Beauty, and Culture.** 3-6 credits.
Designed to help students understand the culture- and time-bound nature of beauty as it relates to art. Exploration of how the codes of acceptability in art forms have changed over time, with discussion about the subversive nature of art and the role that beauty plays in art that is created to engage the viewer in some type of action. Exercises include research projects, site visits, and gallery attendance. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 446.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 455: Consciousness and Transformation in Action.** 3 credits.
Covers how principles and practices of consciousness and transformation relate to the major and career pathway it represents. Includes the theory and practices for deepening the student's own experience with the mindfulness and contemplative approaches to inquire. Capstone course for the minor in consciousness and transformation. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 455.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Sophomore standing and permission of instructor.

**Schedule Type:** Internship

**INTS 491: The Senior Capstone Experience.** 3 credits.
Should be taken semester before graduation; 85 credits required. Graduation requirement for integrative studies students. Students complete final SIS portfolio and senior exposition. Provides information...
on issues of professional development (interviewing skills, resume development, career strategies, and alumni opportunities). Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 491.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** 85 credits. Open only to New Century College students. Course should be taken the semester prior to graduation.

**Schedule Type:** Lecture

**INTS 492: Graduation Portfolio.** 0 credits. Offered by School of Integrative Studies (p. 564). May be repeated within the degree. Equivalent to NCLC 492.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Independent Study

**INTS 493: Graduation Portfolio.** 0 credits. Notes: INTS 493 is for students who will not be enrolled in any other course work for the semester. Offered by School of Integrative Studies (p. 564). May be repeated within the degree.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Independent Study

**INTS 494: Service-Learning Experience.** 1-15 credits. Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 15 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**INTS 495: Field-Based Work.** 1-15 credits. Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 24 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**INTS 496: Teaching Assistant Experience.** 1-6 credits. Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as technology assistants, writing tutors, and residence advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios. Offered by School of Integrative Studies (p. 564). May be repeated within the degree for a maximum 15 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**INTS 497: Add-On Experiential Learning.** 1-3 credits. For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community. Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 4 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**INTS 498: Field-Based Work.** 1-15 credits. Experiential-based individualized studies, mentored by instructor. Notes: Topics decided by student and instructor and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios. Offered by School of Integrative Studies (p. 564). May be repeated within the term for a maximum 15 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**500 Level Courses**

**INTS 500: Animal Rights: Issues and Movements.** 3 credits. Explores forms of animal exploitation and abuse, and examines the relationship between humans and non-human animals, drawing from a variety of disciplines and fields such as feminist studies, animal studies, sociology, ethics, critical studies, and environmental studies. Assessment of the methods and strategies used by organizations and movements in order to redress animal exploitation. Offered by School of Integrative Studies (p. 564). May not be repeated for credit.

**Registration Restrictions:**

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**INTS 504: Leadership Theory, Praxis, and Development.** 3 credits. Explores contemporary leadership theories, models, and concepts using a theory-to-practice-to theory framework. Covers leadership theory, supporting research, and practical application. Focuses on active learning through classroom presentations, course texts, a reflection on
theory and practice, and team work. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 504.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

INTS 537: Critical Race Studies. 3 credits.
Engages students in an examination of the forms and impacts of racism, as well as movements for racial justice in the United States. Draws on theoretical frameworks including critical race theory and intersectionality theory in order to examine the structural roots of racism and the implicit and explicit ways in which racism manifests today. Offered by School of Integrative Studies (p. 564). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

INTS 538: Representations of Race. 4 credits.
Investigates the social and cultural construction of persistent and harmful racial categories. Offered by School of Integrative Studies (p. 564). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

INTS 540: Contemporary Issues in Social Justice & Human Rights. 3 credits.
Students will examine, study the socio-historical significance of, and consider solutions for some of the most pressing social justice and human rights issues in the world today. The issues examined will cut across identity, region, and scope, and may include concerns as varied as human trafficking, hegemony, animal abuse, child labor, and sexism. Offered by School of Integrative Studies (p. 564). May not be repeated for credit. Equivalent to NCLC 540.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

MAIS 796: MAIS ProSeminar. 1 credit.
Introduces students to the structure of the MAIS program; students create a portfolio of their work which continues during their studies; the portfolio prepares students for the capstone project or thesis. Offered by Interdisciplinary Studies. May not be repeated for credit. 

Recommended Prerequisite: Acceptance into the MAIS Program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

MAIS 797: Interdisciplinary Studies Proposal. 1 credit.
Focused on formulating and writing a MAIS project or thesis proposal. Offered by Interdisciplinary Studies. May not be repeated for credit.

Recommended Prerequisite: Admission to MAIS and completion of 21 credits of graduate course work, including any required research methodology course; MAIS 796.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
and policy. Students obtain practical information on sources of data, research and analysis of issues related to international commerce. Provides the skills necessary to conduct qualitative and quantitative research.

**ITRN 501:** Methods of Analysis for International Commerce and Policy. 3 credits.

Provides the skills necessary to conduct qualitative and quantitative research and analysis of issues related to international commerce and policy. Students obtain practical information on sources of data, their origins, strengths, and weaknesses. Helps develop tools for statistical analysis of data, and includes use of computers for analyzing and displaying information. It covers major data sources as well and literature and indices related to international policy, including trade data, economics and financial indicators, and development indicators. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**ITRN 503:** Macroeconomic Policy in the Global Economy. 1-4 credits.

Provides an analytical introduction and overview of basic concepts in macroeconomic theory with an emphasis on applications to problems in the United States and the contemporary global economy. Covers topics such as inflation, growth and business cycles, fiscal and monetary policies, balance of payments and exchange rates. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**MAIS 797:** Interdisciplinary Studies Project. 1-5 credits.

Original research endeavor related to student's MAIS program concentration. Research must result in document meeting MAIS and university standards. Offered by Interdisciplinary Studies. May be repeated within the degree. Equivalent to HE 799.

**Recommended Prerequisite:** MAIS 797 and prior approval of a project proposal by the committee chair, two committee members, and MAIS director.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Thesis

**MAIS 798:** Interdisciplinary Studies Thesis. 1-5 credits.

Original research endeavor related to student's MAIS program concentration. Research must result in document meeting MAIS and university standards. Offered by Interdisciplinary Studies. May be repeated within the degree. Equivalent to HE 799.

**Recommended Prerequisite:** MAIS 797 and prior approval of a project proposal by the committee chair, two committee members, and MAIS director.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Thesis

**International Commerce and Policy (ITRN)**

**500 Level Courses**

**ITRN 500:** Global Political Economy. 1-4 credits.

Foundation course in the ICP program. Explores issues and ideas affecting global security, stability, growth and development from country, regional and thematic perspectives. Introduces students to key concepts, policies, and practices that underpin international commerce, international relations more broadly, and non-governmental transnational activities. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**ITRN 602:** Global Financial Crises and Institutions. 3 credits.

Examines the modern financial sector: how it operates, its regulation, and its role in risk transmission and crisis formation. Reviews global financial markets and instruments. Considers the role of multilateral and regional financial institutions in management of crises, macroeconomic adjustment, development policy and capital flows with emphases on
financial crises including the 2007-09 crisis. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** ITRN 503.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**ITRN 603: Global Trade Relations.** 3 credits.
Examines U.S. trade policy in the context of global trade relations. Considers the global trading system from legal, institutional and political perspectives, giving particular attention to trade agencies in the United States and abroad, international agreements, and the World Trade Organization. Trade policy formation is analyzed within the context of competing interest groups and corporate strategies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** ITRN 504.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**ITRN 604: International Trade and Technology.** 3 credits.
Examines science and technology policies and international trade, with emphasis on relationships and interactions. Assesses roles of science and technology as economic drivers, and explores strategies employed by companies and governments to link research and development to economic growth and competitiveness. Examines research and development systems and technology-related trade policies of United States, Japan, Europe, major developing countries, and selected newly industrialized economies, emphasizing policies affecting trade and technology. Explores specific cases involving interactions among science, technology, and international trade. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**ITRN 710: International Business Transactions: Finance and Investment.** 3 credits.
Focuses on issues of management and organization, and resolution of conflicts that may arise between business organizations and home and host governments. Also focuses on role of multinational corporations in international environment, and impact on global trade, economic development, and political system. Also studies trade and international investment theories and world financial environment. Explores broad issues such as sovereignty of decision making and global impact of business activities. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**700 Level Courses**

**ITRN 701: Special Topics in International Commerce and Policy.** 1-3 credits.
Offers specialized courses on various aspects of international commerce and policy. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**ITRN 702: Special Topics in International Commerce and Policy: Study Abroad.** 3-6 credits.
Provides opportunity for study abroad under supervision of Mason faculty. Notes: Course topics, content, and locations vary. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**ITRN 710: International Business Transactions: Finance and Investment.** 3 credits.
Focuses on techniques for financing trade and payment methods, including letters of credit, counter trade, and other approaches. Covers issues of direct concern in financing international business operations, such as preparing financing proposals, risk insurance, international taxation, pricing policies, and currency conversion and foreign exchange risk management. Introduces foreign direct investment, alliances and acquisitions, joint ventures, and other methods for investing overseas. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

ITRN 711: United States Law and Global Trade. 3 credits.
Surveys types of regulations imposed by United States, foreign
governments, and international institutions on transnational business
activities. Reviews principal regulatory bodies in United States and
overseas, and powers and authorities. Covers tariffs and customs
regulations; product safety and environmental restrictions; intellectual
property, copyright, trademark, and patent regulations; and licensing
rules. Also covers special restrictions that may be imposed because of
political considerations such as embargoes, munitions controls, and
anti bribery and antiboycott regulations. Offered by Schar School of Policy
& Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 712: World Trade Organization and Global Trade. 3 credits.
Focuses on legal aspects of international trade regulation by studying
international legal and political regime established under WTO, and
assessing impact of domestic economic legislation on U.S. trade
regulations. Offered by Schar School of Policy & Govt (p. 906). May not be
repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 715: Global Environment and the World Economy. 3 credits.
Examines growing relationship between environmental interdependence
and developing world economy. Assesses increased globalization of
environmental and health issues with a focus on the impact on those
issues on international transactions involving trade and development.
Attempts to develop an understanding of relationship of scientific
knowledge to global environment in context of existing political and
economic institutions. Emphasizes formulating and assessing policies
and structures for corporations, nations, regions, and international
organizations. Tensions among free trade, international competitiveness,
and regulatory responses are central. Gives attention to practices of
nations and international organizations, emerging forms of regional and
international cooperation, and growing use of multilateral agreements.
Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 716: European Union in the International System. 3 credits.
Examines current developments in European market integration from
global perspective. Emphasizes impact of single market, and proposed
economic and monetary union of United States and other major trading
partners. Examines European economic relations with Eastern Europe,
former Soviet Union, and Lome Pact countries. Offered by Schar School
of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 717: International Science and Technology. 3 credits.
Examines U.S. science and technology policies (S&T) and structures,
as well as those in other leading countries. Assesses functional links
between S&T and international transactions focusing on trade, national
security, finance, and development assistance. Considers emergence
of multilateralism and international institutional arrangements as
alternatives to traditional bilateral patterns of cooperation. Offered by
Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 718: Global Economic and Human Development. 3 credits.
Interdisciplinary examination of economic and human development
in world economy. Introduces alternative concepts and theories of
economic and human development, and analytical frameworks for
assessing important issues that arise in development process. Topics
include colonialism, economic growth, population, health, education,
industrialization, and rural development. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 720: Regional and Supranational Organizations. 3 credits.
Assesses role of international organizations in international system
today, and focuses on wide range of international and regional economic
and political institutions. Emphasizes changing nature of these
organizations in relation to nation states, and relationship of international
organizations to U.S. national security and economic interests. Offered
by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 731: Business-to-Business Marketing in International Commerce. 3
credits.
Provides understanding of concepts of international marketing process
and international environment within which companies operate. Offered
by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
ITRN 736: Sources of Growth in East Asia. 3 credits. 
Examines extraordinary economic success of East Asian NIEs and some of their problems. Focuses on understanding proximate sources of growth, role of technological development, and salient political issues. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: 
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 738: Fundamentals of International Marketing. 3 credits. 
Offers working knowledge of principles and practices that enable managers to effectively market organizations, products, services, and brands. Emphasizes international dimensions of marketing where appropriate. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: 
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 740: Trade and Regulatory Compliance. 3 credits. 
Acquaints students with legal, regulatory, and practical issues in importation and exportation of merchandise. Topics include theoretical framework for government oversight of international movement of goods; legal issues between parties and governments; and practical guidance concerning structuring of import and export transactions to avoid legal and tariff liability. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: 
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 742: Technology Policy and International Strategies. 3 credits. 
Introduces opportunities and problems created for organizations and society by Internet, and policies affecting trajectory of Internet developments. Also covers technological factors in planning horizon; domestic policy and international treaty factors affecting Internet trajectory; and new horizons for Internet applications. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions: 
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 744: The Politics of International Competitiveness. 3 credits. 
Provides inquiry into governance problems of public managers and political leaders as they cope with global competitiveness in post-industrial era. Focuses on integrating public and private sectors worldwide, with special emphasis on U.S. role and how it influences such areas as technology transfer, national security, electronic commerce, trade policies, money flows, and human resources. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions: 
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 750: Trade and Politics in Eastern Europe and the Former Soviet Union. 3 credits. 
Examines background and recent developments in political, business, and cultural environment confronting American firms seeking to do business in Eastern Europe and former Soviet Union. Emphasizes international trade patterns and relations between these states and United States. Examines modes of doing business in these countries, and unique problems American firms confront. Focuses on privatization, joint ventures, and counter trade. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions: 
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 752: Global Business and Policy. 3 credits. 
Focuses on the multinational firm (MNE) and examines the international activities of large companies as well as small and medium sized enterprises. Assesses how firms strategize across national borders and address the challenges posed by different governance structures, political economies, institutions and cultures. Theoretical concepts are applied to ‘real’ business situations and case studies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: 
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 754: International Commercialization of Space. 3 credits. 
Identifies and analyzes problems and transactions concerning privatization and commercialization of transnational space activities, including launch and satellite operations. Emphasizes interplay of new technologies with existing legal, political, and business structures in formulating viable commercial satellite and launch operations. Focuses on planning and implementing private space actions in conjunction with various public and private international organizations. Sessions focus on interdisciplinary aspects of space commercialization involving technology, finance, tax, insurance, joint venture and business matters, and international legal and national regulatory issues. Guest lecturers include leading business executives engaged in space and satellite operations. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Country Risk Analysis.

ITRN 756: National Security and the Global Economy. 3 credits.
Examines impact of globalization and changes in international economic and political systems on concepts of national security. Emphasizes nexus of economic and security concerns in post-Cold War era, with particular attention to emerging issues including trade and economic security, proliferation of advanced military technology and control of weapons of mass destruction, international drug trafficking, and defense conversion. Focuses on implications of changing security requirements on U.S. defense and economic policy and activities. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 757: Business and Politics in Emerging Markets. 3 credits.
Examines developing countries that are major destination points for international financial flows and foreign direct investment. Emerging markets have become a major influence in the world economy both because of the potential for growth and the downside risks from economic crises. The course uses the new institutional economics to analyze the interplay of political, economic, and business conditions. Institutional economics is a combination of economics, economic history, and political science. Topics covered include the politics of economic reform, drivers of globalization and investment, the informal sector, and relationships of risk and reward. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 758: Global Market Planning Practicum. 3 credits.
Provides opportunity to develop international market plan for specific industry or service sector. Students consult with industry experts and use key trade databases to develop strategic plan that recommends market entry strategies. Completed market plan submitted to industry experts for use and dissemination. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 759: Country Risk Analysis. 3 credits.
Presents a wide variety of country risk analysis methods used by corporations, financial institutions, governments, international organizations, specialized consulting groups, and publications. These methods are used to design policies, programs, and projects in the international arena. The course explores natural, commercial, economics, political and financial risk. It also provides a conceptual foundation for understanding the sources of risk, the impacts of risk on public and private sector activities, and the ways that risk can be successfully mitigated or managed. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 760: International Environmental Politics. 3 credits.
Examines growing concerns related to global environmental issues and problems they pose to domestic, foreign, and international political institutions. Covers major environmental issues including global warming, ozone depletion, cross-border flow of pollution, and threats to biodiversity. Assesses strengths and weaknesses of traditional political institutions in dealing with these issues and providing for sustainable economic development while limiting environmental damage. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 761: European Political and Economic Union. 3 credits.
Examines movement for European integration since World War II, focusing on political and institutional development of European Community/Union. Topics include theories of European integration, Treaties of Rome, Single European Act, Maastricht Treaty, European Union (EU) policies and programs, and EU's external relations. Analyzes changing nature of U.S.-EU relations and prospects for EU enlargement into Central and Eastern Europe. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 764: Trade, Investment, and Politics in East Asia. 3 credits.
Examines issues related to international transactions involving Korea, China, Taiwan, and Hong Kong, with some attention to Japan. Focuses on trade and financial relations between these East Asian nations and United States. Assesses impact of culture and domestic political and economic institutions within these states, and roles in regional institutions and in international system. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

ITRN 765: Trade, Investment, and Politics in Sub-Saharan Africa. 3 credits. Examines role and potential of sub-Saharan Africa in international trading system. Emphasizes political, historical, cultural, and development factors. Focuses on perspectives of U.S. firms and on international institutions trading or investing in region. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 766: Trade, Investment, and Politics in the Middle East and North Africa. 3 credits. Examines major economic, political, and cultural issues that influence trade and investment relations with Middle East and North Africa. Focuses on roles of international and regional institutions in economic development, and develops understanding of challenges facing region and their implications for formulating trade and investment strategies by U.S. firms. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 767: Political Economy and Integration in Latin America. 3 credits. Examines contemporary political, economic, and cultural dynamics of Latin American and Caribbean regions. Emphasizes issues and trends that affect U.S.-Latin American political, business, and trade relations, particularly recent political and economic reforms. Examines roles of domestic interest groups and decision-making systems in individual countries, and evolution of regional integration arrangements and integration with international system. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 768: Global Intellectual Property Rights and International Trade. 3 credits. Examines national and regional systems, international contractual relations (licensing), and the evolving global system for protecting intellectual property. Addresses current international treaty system and the ongoing multilateral efforts to strengthen worldwide intellectual property protection. Examines intellectual property regimes worldwide, including regional and bilateral challenges and opportunities, and relevant U.S. law and policy responses. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 769: International Entrepreneurship. 3 credits. Introduces practical planning approach for small and medium-size entrepreneurial firms seeking to enter international marketplace. Focuses on key business and financial documents related to doing business overseas; and assesses role of language, technology, and information systems in formulating successful business strategy. Role playing and simulated negotiations provide opportunities for students to sharpen business skills. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 770: International Contract Negotiation. 3 credits. Reviews growing role of arbitration in international transactions. Examines international, national, and government arbitration bodies, with particular emphasis on how differing cultural characteristics affect negotiating behavior and effectiveness of arbitration. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 771: Trade, Investment, and Politics in South and Southeast Asia. 3 credits. Focuses on trade and finance issues in the most dynamic countries of South and Southeast Asia. Assesses cultural and political factors, regional trade patterns, and institutions, focusing on implications for regional development and business opportunities for U.S. firms. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ITRN 772: International Telecommunications. 3 credits. Focuses on developments in international telecommunications and satellite regulation. Examines regulatory environment, and business and financial aspects of global telecommunications industry. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.
Italian (ITAL)

100 Level Courses

ITAL 101: Elementary Italian I. 3 credits.
Designed for students with no prior knowledge of Italian. Includes elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for ITAL 101 and ITAL 110. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to ITAL 110.

Schedule Type: Lecture

ITAL 102: Elementary Italian II. 3 credits.
Continuation of ITAL 101. Notes: Students may not receive credit for ITAL 102 and ITAL 110. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to ITAL 110.

Recommended Prerequisite: ITAL 101.

Schedule Type: Lecture

ITAL 110: Elementary Italian. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for ITAL 110 and ITAL 101 or 102. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to ITAL 101, ITAL 102.

Schedule Type: Lecture

200 Level Courses

ITAL 201: Intermediate Italian I. 3 credits.
Further development of skills in listening, speaking, and writing. Notes: ITAL 201 and 202 must be taken in sequence. Students may not receive credit for ITAL 201 and ITAL 210. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to ITAL 210.

Recommended Prerequisite: ITAL 102 or permission of department.

Schedule Type: Lecture

ITAL 202: Intermediate Italian II. 3 credits.
Application of language skills to reading, composition, and discussion. Notes: Students may not receive credit for ITAL 202 and ITAL 210. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to ITAL 210.

Recommended Prerequisite: ITAL 201 or permission of department.

Schedule Type: Lecture

ITAL 210: Intermediate Italian. 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Italian-speaking regions. Notes: Students may not receive credit for ITAL 210 and ITAL 201 or 202. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to ITAL 201, ITAL 202.

Recommended Prerequisite: ITAL 110 or appropriate placement score.

Schedule Type: Lecture
ITAL 250: Gateway to Advanced Italian. 3 credits.
Development of advanced intermediate-level proficiency with a primary focus on seven major communicative functions: describing, comparing, recommending and expressing opinions, recounting the past, expressing likes and dislikes, hypothesizing, and talking about the future. Examination of authentic materials from various Italian-speaking regions. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Italian
Recommended Prerequisite: ITAL 210; appropriate placement score; or permission of department.
Schedule Type: Lecture

300 Level Courses
ITAL 320: Topics in Italian Film and Literature. 3 credits.
Explores Italian history through the lens of literary and cinematic movements from 1911 onwards. Compares the representations of historical movements in different artistic languages, from poetry and prose to the moving image. Topics include neorealism, Fascism, the Resistance, the Mafia and others. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Mason Core: Literature (p. 135)
Specialized Designation: Taught in English
Recommended Prerequisite: ENGL 101, or equivalent.
Schedule Type: Lecture
ITAL 325: Major Italian Writers. 3 credits.
Works of major Italian or Italian-American authors in translation. Writers to be studied vary. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Mason Core: Literature (p. 135)
Specialized Designation: Taught in English
Recommended Prerequisite: ENGL 101/ENGH 101 or equivalent or permission of instructor.
Schedule Type: Lecture
ITAL 330: Advanced Italian: Language and Culture I. 3 credits.
An advanced course that emphasizes linguistic fluency and cultural awareness in contemporary Italian realities. Highlights changes in the domestic, regional, and national spheres. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Taught in Italian
Recommended Prerequisite: ITAL 330; placement score or permission of the instructor.
Schedule Type: Lecture
ITAL 340: Italian through Arts. 3 credits.
Develops linguistic proficiency and historical and cultural awareness through the study of a thematic selection of films. Fosters advanced reading, writing, speaking, and listening skills, incorporating advanced-level grammar and vocabulary in a content-based approach. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Taught in Italian
Recommended Prerequisite: ITAL 250, appropriate placement score, or permission of instructor.
Schedule Type: Lecture
ITAL 360: Southern Italy. 3 credits.
Examines the history and culture of southern Italy with an eye toward cultural and linguistic competence. Students analyze authentic texts ranging from literature to journalism that treat a specific area of southern Italy. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Taught in Italian
Recommended Prerequisite: ITAL 250 or permission of instructor.
Schedule Type: Lecture

400 Level Courses
ITAL 420: Global and Local Italy. 3 credits.
Examines Italian culture in its urban, regional, national, and diasporic manifestations. Analyzes authentic texts, from literature to journalism, in the spirit of a cultural studies approach. Fosters advanced reading, writing, speaking, and listening skills that will enable students to understand and critique contemporary Italy with greater ease and sophistication. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to ITAL 350.

Specialized Designation: Taught in Italian
Recommended Prerequisite: ITAL 330.
Schedule Type: Lecture

Japanese (JAPA)
100 Level Courses
JAPA 101: Introduction to the Japanese Language. 3 credits.
Includes basic grammar, oral expression, listening comprehension, and reading and writing. Notes: Students may not receive credit for JAPA 101
and JAPA 110. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to JAPA 110.

**Schedule Type:** Lecture

**JAPA 102: Introduction to the Japanese Language.** 3 credits.
Includes basic grammar, oral expression, listening comprehension, and reading and writing. Notes: Students may not receive credit for JAPA 102 and JAPA 110. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to JAPA 110.

**Recommended Prerequisite:** JAPA 101, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**JAPA 110: Elementary Japanese.** 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, reading, and writing. Notes: Students may not receive credit for JAPA 110 and JAPA 101, 102. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to JAPA 110, JAPA 102, JAPA 109.

**Schedule Type:** Lecture

### 200 Level Courses

**JAPA 201: Intermediate Japanese I.** 3 credits.
Further development of skills acquired in JAPA 101 and 102, including grammar, oral expression, listening comprehension, reading and writing. Use of written language (katakana, hiragana, and kanji) emphasized. Notes: Students may not receive credit for JAPA 201 and JAPA 210. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to JAPA 210.

**Recommended Prerequisite:** JAPA 102 or equivalent.

**Schedule Type:** Lecture

**JAPA 202: Intermediate Japanese II.** 3 credits.
Continuation of JAPA 201. Notes: Students may not receive credit for JAPA 202 and JAPA 210. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to JAPA 210.

**Recommended Prerequisite:** JAPA 201 or equivalent.

**Schedule Type:** Lecture

**JAPA 210: Intermediate Japanese.** 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Also introduces students to Japanese culture and society. Notes: Students may not receive credit for JAPA 210 and JAPA 201, 202. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to JAPA 201, JAPA 202, JAPA 209.

**Recommended Prerequisite:** JAPA 110, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**JAPA 250: Gateway to Advanced Japanese.** 3 credits.
Development of advanced intermediate-level Japanese language skills in the interpersonal, interpretive, and presentational modes of communication. Incorporates strong component of critical and comparative analysis of Japanese cultural products, practices, and perspectives of the past and the present. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Japanese

**Recommended Prerequisite:** JAPA 250, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

### 300 Level Courses

**JAPA 310: Japanese Culture in a Global World.** 3 credits.
Study of globalizing Japanese cultural phenomena from the 19th through the 21st century. Explores how movements of ideas, technologies and products across borders influence both local and global ideas and practice. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in English, Non-Western Culture

**Recommended Prerequisite:** ENGL 101/ENGH 101 or equivalent or permission of instructor.

**Schedule Type:** Lecture

**JAPA 320: Japanese Cinema.** 3 credits.
Comprehensive analysis of Japanese cinema based on cross-cultural perspectives and cultural criticism. Major developments and trends as viewed in selected Japanese films with emphasis on post war and contemporary eras. Knowledge of Japanese history, communication, and cultural studies or film and media studies helpful. Notes: May be repeated when topic is different with approval of department. Offered by Modern & Classical Languages (p. 414). May be repeated within the term for a maximum of 3 credits.

**Specialized Designation:** Taught in English

**Schedule Type:** Lecture

**JAPA 330: Advanced Reading and Speaking I.** 3 credits.
Designed for students to develop conversational proficiency and reading skills. Students work toward a mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports, and presentations. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Japanese

**Recommended Prerequisite:** JAPA 250, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**JAPA 331: Advanced Reading and Speaking II.** 3 credits.
Designed for students to develop conversational proficiency and reading skills. Students continue to develop mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports and presentations. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Japanese

**Recommended Prerequisite:** JAPA 330, appropriate placement score, or permission of instructor.
Schedule Type: Lecture

**JAPA 340: Topics in Japanese Literature.** 3 credits.
Study of selected topics in Japanese literature in English translation. Content varies. Notes: May be repeated when topic is different with permission of department. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Mason Core: Literature (p. 135)

Specialized Designation: Taught in English, Non-Western Culture

Recommended Prerequisite: ENGH 101 or equivalent, or permission of instructor.

Schedule Type: Lecture

**JAPA 350: Readings in Japanese Culture.** 3 credits.
An integrated content-based Japanese course designed to advance students’ oral and writing skills, as well as their critical understanding of Japanese culture and mythology. Introduces a variety of genres, such as rakugo (traditional comical story-telling), shinwa (myths), and mukashi-banashi (folk legends). Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Japanese

Recommended Prerequisite: JAPA 250, appropriate placement score, or permission of department.

Schedule Type: Lecture

**JAPA 360: Topics in Japanese Popular Culture.** 3 credits.
In-depth look at anime and manga in order to arrive at a deeper understanding and appreciation of the cultures and histories that generated these art forms, as well as how they continue to shape international entertainment media and fan subcultures. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Taught in English

Schedule Type: Lecture

**JAPA 370: Video Games and Japan.** 3 credits.
Examines video games as digital works of art, literature, and social engagement within the context of contemporary transnational mediascape. Includes study of the history and development of Japanese video games, as well as the markets and cultures surrounding them. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Schedule Type: Lecture

400 Level Courses

**JAPA 440: Integrated Study of Japanese Language and Society I.** 3 credits.
Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-of-class direct interactions with native speakers. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Japanese

Recommended Prerequisite: JAPA 331, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

**JAPA 441: Integrated Study of Japanese Language and Society II.** 3 credits.
Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-of-class direct interactions with native speakers. More emphasis on actual use of Japanese language. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Japanese

Recommended Prerequisite: JAPA 440, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Kinesiology (KINE)

100 Level Courses

**KINE 100: Introduction to Kinesiology.** 3 credits.
Provides overview of the field of kinesiology in the form of an introductory course. Exposes students to the history of the field, and its emphasis on evidence based knowledge. Explains policies and procedures for the major. Explorers career options. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

200 Level Courses

**KINE 200: Introduction to Personal Training.** 3 credits.
Provides students with basic knowledge and skills associated with exercise training methods, lifting techniques, and health-related fitness testing procedures. Selection of developmentally appropriate exercises emphasized. Participation in fitness tests required. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (BIOL 124C, 125C, ATEP 300C and KINE 310C).
C Requires minimum grade of C.

Schedule Type: Lecture

**KINE 249: An Analysis of Boxing.** 3 credits.
Provides study of the sport of boxing from cultural, historical, physical, and scientific perspectives. Well-known writings from literature on boxing as well as boxing training methods, and program design will be addressed. Physical participation will include basic boxing skills, conditioning, and fitness testing of participants. All students must purchase hand wraps, heavy bag gloves, mouthpieces, and jump ropes. Boxing and/or wrestling shoes are strongly recommended. Notes: All students must purchase hand wraps, heavy bag gloves, mouthpieces, and jump ropes. Boxing and/or wrestling shoes are strongly recommended. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: ENGH 100 or ENGH 101.

Schedule Type: Lecture
KINE 250: Endurance Sport Program Design. 3 credits. Provides students with knowledge necessary to train another individual safely and effectively for endurance sports. Emphasis will be placed on running; however, cycling and swimming will be covered. Topics covered include: functional, physiology, psychological aspects of endurance competitions, basic nutritional requirements, injury reduction, training techniques, safety, race management, and history of endurance sports. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: BIOL 124, BIOL 125, ATEP 300, KINE 200.

Schedule Type: Lecture

300 Level Courses
KINE 310: Exercise Physiology I. 3 credits. Introduces students to the physiologic, neuroendocrine, and biochemical changes of the human body that are associated with exercise and work. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (BIOL 124C and 125C).
C Requires minimum grade of C.

Schedule Type: Lecture

KINE 320: Principles of Human Nutrition. 3 credits. Assesses dietary habits and patterns in relation to nutrient requirements across the age spectrum and for a variety of populations. Emphasizes weight control, diet in relation to physical activity, and current nutritional controversies. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (BIOL 124C and 125C).
C Requires minimum grade of C.

Schedule Type: Lecture

KINE 330: Seminar in Kinesiology. 3 credits. Prepares students for the fieldwork experience in KINE 341: Kinesiology Internship I. Topics covered include: professionalism, review of evidence-based position papers, and discussion of contemporary issues in kinesiology. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to HEAL 430.

Recommended Prerequisite: Junior standing (60 credit hours)

Registration Restrictions:
Required Prerequisites: KINE 100C, 200C and 370C.
C Requires minimum grade of C.

Schedule Type: Seminar

KINE 341: Kinesiology Internship I. 3 credits. Provides a paid or voluntary supervised professional experience in an approved exercise science professional setting under the supervision of a practicum University Supervisor and Agency Supervisor. Current CPR, AED, and First Aid Certification required. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (KINE 200C, 310C, 330C, 350C and 370C).
C Requires minimum grade of C.

Schedule Type: Internship

KINE 350: Exercise Prescription and Programming. 3 credits.
Provides students with an opportunity to develop an understanding of the assessment and evaluation process used in cardio-respiratory training and anaerobic conditioning for healthy, athletic, and symptomatic populations. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (KINE 200C, 310C, 370C and ATEP 300C).
C Requires minimum grade of C.

Schedule Type: Lecture

KINE 360: Strength Training: Concepts and Applications. 3 credits. Provides students with an opportunity to develop an in-depth understanding of the principles of strength training and conditioning, including: anatomical and physiological considerations, lifting techniques, equipment selection, program development/evaluation, and weightlifting safety; thus enabling them to teach and train client. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 364.

Registration Restrictions:
Required Prerequisites: (BIOL 124C, 125C and KINE 310C) and ATEP 300C.
C Requires minimum grade of C.

Schedule Type: Lecture

KINE 370: Exercise Testing and Evaluation. 3 credits. Provides students with an opportunity to develop a understanding of the assessment and evaluation process during exercise in the determination of physical fitness. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 365.

Registration Restrictions:
Required Prerequisites: (BIOL 124C, 125C and KINE 310C) and ATEP 300C.
C Requires minimum grade of C.

Schedule Type: Lecture

KINE 380: Exercise Prescription and Programming for Special Populations. 3 credits. Provides the study of the pathophysiology of common diseases and conditions with concentration in the design and implementation of exercise programs. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: KINE 200C, 310C, 330C, 350C and 370C.
C Requires minimum grade of C.

Schedule Type: Lecture

400 Level Courses
KINE 400: Biomechanics. 3 credits. Focuses on kinetic and kinematic concepts and how they apply to the quantitative assessment of human movement. Analyzes human movement and the functional dynamics of tissue such as muscle or bone. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: BIOL 124C, 125C, KINE 360C and ATEP 300C.
C Requires minimum grade of C.
KINE 410: Exercise Physiology II. 3 credits.
Provides study in the advanced theory of exercise physiology. Knowledge related to the physiologic, neuroendocrine, and biochemical changes of the human body associated with both a single bout of exercise and chronic exercise training will be addressed. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: BIOL 124 C, 125 C and KINE 310 C.
C Requires minimum grade of C.

Schedule Type: Lecture

KINE 420: Sport and Exercise Nutrition. 3 credits.
Explores the fundamental biochemical and physiological rationale for optimal nutrient intake for health, physical fitness, and athletic performance. Specific attention is focused upon the relationship nutrition has with exercise, physical fitness, health, and athletic performance. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (KINE 310 C and 320 C).
C Requires minimum grade of C.

Schedule Type: Lecture

KINE 441: Kinesiology Internship II. 3 credits.
Provides a supervised professional experience in two separate approved kinesiology professional settings under the supervision of both a University Supervisor and an Agency Supervisor with emphasis placed upon exercise programming and implementation for both clinical (site 1) and performance (site 2) populations. Current CPR, AED, and First Aid Certification required. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (KINE 330 C, 341 C, 400 C, 410 C, 420 C and 441 C).
C Requires minimum grade of C.

Schedule Type: Internship

KORE 110: Elementary Korean. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to KORE 101, KORE 102.

Schedule Type: Lecture

KORE 201: Intermediate Korean I. 3 credits.
Continuation of basic Korean listening, speaking, reading, and writing skills. Online and lab work required. Notes: Students may not receive credit for KORE 201 and KORE 210. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to KORE 210.

Recommended Prerequisite: KORE 102, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

KORE 202: Intermediate Korean II. 3 credits.
Continuation of KORE 201. Online and lab work required. Notes: Students may not receive credit for KORE 202 and KORE 210. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to KORE 210.

Recommended Prerequisite: KORE 201, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

KORE 210: Intermediate Korean. 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Korean-speaking regions. Notes:
Students may not receive credit for KORE 210 and KORE 201 or 202. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to KORE 201, KORE 202.

**Recommended Prerequisite:** KORE 110 or appropriate placement score.

**Schedule Type:** Lecture

**KORE 250:** Gateway to Advanced Korean. 3 credits.
Develops advanced-intermediate level reading, writing, listening, and speaking skills through a comparative analysis of Korean cultural products and practices and a critical analysis of the influence of globalization and East Asian regional dynamics. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Recommended Prerequisite:** KORE 210, appropriate placement score; or permission of instructor.

**Schedule Type:** Lecture

**300 Level Courses**

**KORE 305:** Business Korean. 3 credits.
Develops intermediate- to high-level Korean reading, writing, listening and speaking skills while increasing culture awareness in Korean business settings through authentic materials and hands-on projects with people in the Korean business community. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Korean

**Recommended Prerequisite:** KORE 250; appropriate placement score; or permission of instructor.

**Schedule Type:** Lecture

**KORE 310:** Classical Korean Literature. 3 credits.
Develops students' advanced-intermediate Korean language skills and cultural awareness through an extensive overview of classical Korean literature. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Recommended Prerequisite:** KORE 250, placement score, or permission of instructor.

**Schedule Type:** Lecture

**KORE 320:** Modern Korean Literature in Translation. 3 credits.
Explores twentieth and twenty-first century Korean literary works through the critical and comparative analysis of Korean cultural products, practices and perspectives of the past and the present. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Mason Core:** Literature (p. 135)

**Recommended Prerequisite:** ENGH 101; appropriate placement score; or permission of instructor.

**Schedule Type:** Lecture

**KORE 321:** Korean Proficiency through Visual Culture. 3 credits.
Develops intermediate-high level Korean reading, writing, listening, and speaking skills while increasing understanding of Korean culture through authentic Korean visual culture such as films, TV dramas, commercials, and music videos. Students who complete the course will gain an understanding of local and global Korean visual culture as well as acquire upper level Korean linguistic proficiency. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

**Specialized Designation:** Taught in Korean

**Recommended Prerequisite:** KORE 250; placement score, or permission of instructor.

**Schedule Type:** Lecture

**KORE 330:** Advanced Korean Language and Culture. 3 credits.
Develops advanced level Korean language skills and cultural awareness in interpersonal, interpretive and presentational modes of communication. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Korean

**Recommended Prerequisite:** KORE 250; Appropriate Placement Score; or Permission of Instructor.

**Schedule Type:** Lecture

**Latin (LATN)**

**100 Level Courses**

**LATN 101:** Elementary Latin. 3 credits.
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization. Notes: Must be taken in sequence. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Schedule Type:** Lecture

**LATN 102:** Elementary Latin. 3 credits.
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization. Notes: Must be taken in sequence. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Recommended Prerequisite:** LATN 101.

**Schedule Type:** Lecture

**200 Level Courses**

**LATN 201:** Intermediate Latin I. 3 credits.
Intensive review of elementary grammar. Introduces more advanced grammatical constructions and patterns of usage, continued development of reading proficiency, and vocabulary and readings in Latin
literature. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to LATN 209.

Recommended Prerequisite: LATN 102 or equivalent.

Schedule Type: Lecture

LATN 202: Intermediate Latin II. 3 credits.
Study of advanced grammatical constructions, vocabulary, and patterns of usage. Reading of selections from Roman authors of late Republic and early Empire, and study of cultural and political backgrounds. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to LATN 209.

Recommended Prerequisite: LATN 201 or equivalent.

Schedule Type: Lecture

300 Level Courses
LATN 351: Roman Prose Literature. 3 credits.
Introduces major work of prose, themes, and literary qualities. Emphasizes interpretation and stylistic analysis. Concentrates on one complete work; topics, authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LATN 202 or equivalent.

Schedule Type: Lecture

LATN 352: Roman Poetry. 3 credits.
Introduces major work of poetry and themes, meters, and poetic techniques. Emphasizes interpretation, metrical and stylistic analysis, and poet's role in society. Topics and authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LATN 202 or equivalent.

Schedule Type: Lecture

400 Level Courses
LATN 451: Studies in Roman Literature. 3 credits.
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as well as primary texts. Topics and authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LATN 351/352 or equivalent or permission of instructor.

Schedule Type: Lecture

LATN 452: Studies in Roman Literature. 3 credits.
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as well as primary texts. Topics and authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LATN 351, 352 or equivalent or permission of instructor.

Schedule Type: Lecture

Latin American Studies (LAS)

300 Level Courses
LAS 300: Latin American Studies: Interdisciplinary Perspectives. 3 credits.
Interdisciplinary introduction to Latin American Studies. Examines the region's history, culture, and societies, as well as the different approaches, methodologies, and concepts related to the study of Latin America. Focuses on the experiences that shaped Latin America as a region, how the region impacts and is impacted by globalization, and on Latino/as in the United States. Offered by Humanities & Social Sciences (p. 295). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

400 Level Courses
LAS 490: Internship. 1-6 credits.
Approved work-study programs in cooperation with specific organizations including area museums, NGOs, and local, state and federal agencies. Notes: Credit determined by program. Offered by Humanities & Social Sciences (p. 295). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Open to Latin American Studies majors only with permission of program Director.

Schedule Type: Internship

LAS 491: Directed Reading for Honors in Latin American Studies. 3 credits.
Directed readings on specialized topic in Latin American Studies. Offered by Humanities & Social Sciences (p. 295). May not be repeated for credit.

Recommended Prerequisite: Admission to the Latin American Studies honors program.

Schedule Type: Independent Study

LAS 498: Study Abroad. 1-6 credits.
Study abroad. Notes: May be repeated with permission of department. Offered by Humanities & Social Sciences (p. 295). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Independent Study

LAS 499: Research Seminar in Latin American Studies. 3 credits.
Research on specialized topic in Latin American Studies culminating in substantial paper and oral presentation. Students expected to integrate knowledge and skills acquired in Mason Core courses. Notes: Must receive passing grade to graduate with a BA in Latin American studies. Offered by Humanities & Social Sciences (p. 295). May not be repeated for credit.

Mason Core: Synthesis (p. 135)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: 90 credits

Schedule Type: Seminar
Linguistics (LING)

300 Level Courses

LING 306: General Linguistics. 3 credits.
Overview of grammatical structure of English including world classes, phrases, and complex sentences. Analyzes English grammar using modern syntactic theory. Students engage in language description through problem solving. Offered by English (p. 350). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 135)

Schedule Type: Lecture, Recitation

LING 307: English Grammar. 3 credits.

Schedule Type: Lecture, Recitation

400 Level Courses

LING 450: Introduction to Sociolinguistics. 3 credits.
Overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 306.

Schedule Type: Lecture

LING 480: First Language Acquisition. 3 credits.
Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Methodology in studying child language is discussed. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 306.

Schedule Type: Lecture

LING 485: Semantics and Pragmatics. 3 credits.
Developments in theoretical linguistics that explore how language form is related to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 306.

Schedule Type: Lecture

LING 486: Syntax I. 3 credits.
Nature and form of syntactic theory, and examination and analysis of the properties of several major natural language syntactic structures. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 306.

Schedule Type: Lecture

LING 490: Generative Phonology. 3 credits.
Sound systems of English and other languages from perspectives of phonological theory. Topics include articulatory phonetics, distinctive features, nature of phonological representations, rhythm and stress, and phonological universals and constraints. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 306.

Schedule Type: Lecture

LING 499: Independent Study. 1-3 credits.
Intensive study of particular theoretical problem in linguistics conducted by student in close consultation with instructor. Student produces substantial piece of written work on research findings. Notes: May be repeated with permission of instructor. Offered by English (p. 350). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LING 326 and 3 other LING credits and permission of instructor.

Schedule Type: Independent Study

500 Level Courses

LING 507: Field Work in Applied Linguistics. 3 credits.
Field work providing working experience in language-teaching program or educational research organization. Notes: Contact the department one semester prior to enrollment. Offered by English (p. 350). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: LING 326, 520, 521, or 582.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

LING 520: Introduction to Linguistics. 3 credits.
Introduces terminology and methodology of modern linguistic science, and detailed structural analysis of English phonology, morphology, and syntax. Offered by English (p. 350). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Theories and basic principles of teaching a second language, especially as they relate to English language. Introduces students to methods of teaching English to speakers of other languages. Offered by English (p. 350). May not be repeated for credit.
Recommended Prerequisite: LING 306, 520, 690, or 786.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

LING 522: Modern English Grammar. 3 credits.
Overview of structure of modern English beginning with word classes and ending with analyses of complex sentences. Most topics introduced as problems of language description; in solving them, principles of syntactic argumentation are demonstrated. Students learn to tap intuitions about English to analyze grammatical structure. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: One linguistics course or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

LING 523: English Phonetics. 3 credits.
In-depth description and analysis of sound system processes of modern English. Topics include segmental phonetics, syllable structure, connected speech, and prosodic phenomena. Also addresses implications for language instruction. Offered by English (p. 350). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

LING 525: Practicum in ESL. 3 credits.
Involves preparation and presentation of lessons to adult English as second language (ESL) learners under guidance of mentor teacher and practicum professor. Field experience consists of observation and teaching in assigned ESL classroom. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 521.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

LING 580: First Language Acquisition. 3 credits.
Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Methodology in studying child language is discussed. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 520 or one of the following: LING 690, 786, 785 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

LING 581: Psycholinguistics. 3 credits.
Study of mental and psychological aspects of human language, including aphasia, association, autism, language acquisition, verbal concept formation, and perception. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 520, 690, or 786; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

LING 582: Second Language Acquisition. 3 credits.
Examines second language (L2) acquisition from linguistic perspective. Compares first and second language acquisition. Explores factors contributing to L2 variation, including linguistic universals, transfer, age, input, and affective considerations. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 306, 520, 690, or 786; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

600 Level Courses
LING 650: Introduction to Sociolinguistics. 3 credits.
An overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 520, 523, or 690.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
LING 686: Special Topics in Linguistics. 3 credits.
Detailed advanced study of selected area of linguistics. Notes: Content varies. May be repeated for credit with permission of department. Offered by English (p. 350). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
LING 690: Generative Phonology. 3 credits.
Sound systems of English and other languages from the perspective of phonological theory. Topics include articulatory phonetics, distinctive features, nature of phonological representations and processes, rule ordering, abstractness, role of external evidence, and nonlinear phonology. Offered by English (p. 350). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
LING 691: Theories of Language. 3 credits.
Seminar in linguistic metatheory. Examines wide range of theories about language and linguistic theory, including those of Saussure, Bloomfield, Chomsky, and others. Readings from original sources. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 520, 690, or 786; or permission of instructor.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
LING 692: Phonology II. 3 credits.
Recent trends in phonological theory. Topics include stress assignment, tone spreading, and vowel harmony, from within nonlinear framework. Discusses segmental structure and underspecification. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 690.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
LING 770: Research Methods. 3 credits.
Conceptualizing and conducting second language research, including process of developing research questions, gathering data, obtaining permission from institutional review board, choosing data collection measures, and coding linguistic and nonlinguistic data. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 690 or LING 785 or LING 786, and LING 582, or permission of the instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
LING 782: Second Language Acquisition II. 3 credits.
Advanced course in second-language acquisition theory. Detailed analysis of internal and external constraints. Variation addressed from linguistic, psychological, and environmental perspectives. Offered by English (p. 350). May not be repeated for credit.

Recommended Prerequisite: LING 582 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
LING 785: Semantics and Pragmatics. 3 credits.
Developments in theoretical linguistics that explore how language form relates to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning.
presuppositions, and speech acts. Offered by English (p. 350). May not be repeated for credit.

**Recommended Prerequisite:** LING 520, 690, or 786; or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**LING 786: Syntax I.** 3 credits.
Nature and form of syntactic theory. Examines and analyzes properties of several major natural language syntactic structures. Offered by English (p. 350). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**LING 787: Syntax II.** 3 credits.
Theoretical treatment of syntactic phenomena that have emerged as standard problems for syntactic analysis. Problems include binding, extraction, and quantification. Extensive reading in primary theoretical literature. Offered by English (p. 350). May not be repeated for credit.

**Recommended Prerequisite:** LING 786.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**LING 788: Semantics and Pragmatics II.** 3 credits.
Advanced course in semantic and pragmatic theory. Study of meaning under truth-conditional, model-theoretic framework explored and related to syntax and pragmatics. Offered by English (p. 350). May not be repeated for credit.

**Recommended Prerequisite:** LING 785 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**LING 798: Directed Reading and Research.** 1-3 credits.
Reading, research, and writing on specific project under direction of departmental member. Notes: Open only to students who have completed at least 18 credits of LING courses. Prior approval by faculty member required. Written report required. May be repeated with permission of director. Offered by English (p. 350). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 18 credits of linguistics courses.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Thesis

**LING 799: Thesis.** 1-6 credits.
Students who take LING 798 to develop thesis topic and then elect thesis option receive 3 credits after completing thesis. Students who do not take LING 798, or who take it to work on project unrelated to thesis, receive up to 6 credits after completing thesis. Offered by English (p. 350). May be repeated within the degree.

**Recommended Prerequisite:** Open only to students who have completed at least 18 credits of LING courses.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Thesis

**LING 886: Advanced Syntax Seminar.** 3 credits.
Advanced course in current syntactic theory. Notes: Topics vary. Offered by English (p. 350). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** LING 786, LING 787, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**LING 890: Advanced Phonology Seminar.** 3 credits.
Advanced topics seminar in current phonological theory. Notes: Topics vary. Offered by English (p. 350). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** LING 692 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**LING 897: Independent study.** 3 credits.
Independent reading on a topic agreed on by student and faculty member. Offered by English (p. 350). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** PhD rank or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

**LING 898:** Advanced Qualifying Seminar. 3 credits.
Work on PhD qualifying paper. Offered by English (p. 350). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Completion of 33 credits of core courses in linguistics.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

### 900 Level Courses

**LING 998:** Doctoral Dissertation Proposal. 1-6 credits.
Work on research proposal that forms basis for the doctoral dissertation. Offered by English (p. 350). May be repeated within the degree.

**Recommended Prerequisite:** Advancement to candidacy.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**LING 999:** Doctoral Dissertation. 1-12 credits.
Doctoral dissertation research and writing under direction of student's dissertation committee. Offered by English (p. 350). May be repeated within the degree.

**Recommended Prerequisite:** LING 998.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

### MBA--Interdisciplinary (MBA)

#### 600 Level Courses

**MBA 603:** Managerial Economics and Decisions of the Firm. 3 credits.
Provides fundamental understanding of applying microeconomic concepts to managerial decision making. Explores principles of microeconomic theory, including market supply and demand, production and cost functions, industry structure, and product and resource pricing. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 612:** Managing Costs and Evaluating Performance. 1.5-3 credits.
Examines impact of cost and cost allocation on performance and evaluation. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 613:** Financial Reporting and Decision Making. 3 credits.
Foundation course focusing on economics and analysis of business transactions and related financial reporting issues. Topics include introduction to accounting framework used in financial reporting; and analysis of financial statements, economic events and their impact on financial reports, and impact of accounting methods on financial reports. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 623:** Marketing Management. 3 credits.
Develops market-based knowledge and skills for effective marketing decision making, strategy design, implementation, and evaluation in wide variety of institutional and competitive situations. Addresses the importance of companies being market-driven and customer-focused. Emphasis on case studies, team work, and projects. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
MBA 633: Statistics for Business Decision Making. 3 credits. Uses statistical methods as analytical tools for understanding and solving business problems and supporting business decision making. Includes descriptive statistics, sampling, inferencing and regression. Extensive use of applied business scenarios to illustrate concepts and computer software for data analysis. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 638: Operations Management. 3 credits. Focuses on design, planning, and control activities to produce and deliver goods and services in modern organizations. Introduces wide range of operations management decisions, such as operations strategy, process analysis and design, capacity planning, supply chain management, total quality management, and project management. Uses quantitative modeling, case studies, and computer software to analyze and solve operations management problems. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 643: Managerial Finance. 3 credits. Introduces theory and practice of finance within corporations. Topics include intertemporal choice, valuation, capital budgeting and structure, working capital management, and risk and return analysis. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 653: Organizational Behavior. 3 credits. Emphasizes development of conceptual tools for understanding and analyzing individual and group behavior in organizations and organizational processes. Considerable focus on developing relevant skills for working in groups and teams. Lectures, discussions, case analyses, and class exercises. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 652: Management of Information Technology. 1.5-3 credits. The strategic, economic and managerial aspects of managing an organization’s IT assets are covered. The business value of IT is understood and assessed in context of its impact on the organization’s structure and strategy. The course includes discussion on major issues pertaining management of IT infrastructure. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 678: Strategic Management. 3 credits. Capstone course focusing on strategy development at business unit and corporate level. Cases, readings, and project format familiarize students with strategic management function and help them develop analytical, organizational, and managerial skills to analyze complex business situations. Provides opportunities to integrate knowledge gained in prior course work. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
700 Level Courses

MBA 701: Business Valuation. 3 credits.
Develops framework for business analysis and valuation using financial statement data. Analyzes management decisions such as equity valuation, creditworthiness, merger valuation, corporate financial structure, and management communication strategy. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to ACCT 701.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 702: Corporate Financial Policy. 3 credits.
Applies theories and methods of corporate financial management to series of complex cases. Topics include capital projects as real options, cost of capital and capital structure, firm valuation, project finance, and merger and acquisition analysis. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 703: Financial Markets. 3 credits.
Explores relationship among financial markets including global equity markets, U.S. Treasury securities, and exchange-traded and over-the-counter financial derivative instruments such as futures, options, swaps, and asset-backed securities. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 704: Investment Analysis. 3 credits.
Focuses on analyzing equity securities and debt instruments given implications of efficient market hypothesis and modern capital market theory. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 705: Futures, Options and Other Derivatives. 3 credits.
This course focuses on the mechanics of derivatives markets, with a strong emphasis on identifying and managing risks in financial products. Topics include: rationale behind the major pricing models and their application to derivatives securities, arbitrage and pricing, hedging, common trading strategies with options, and the fundamental concepts of risk measures and risk management. Offered by School of Business (p. 846). May not be repeated for credit.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Master of Business Admin degree.

Schedule Type: Lecture

MBA 706: Taxes and Business Strategy. 3 credits.
Provides framework for making managerial decisions in global tax environment. Examines business decisions such as location of facilities, employee compensation, mergers and acquisitions, capital and asset structure, and business form. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to ACCT 708.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 709: Risk and Portfolio Management.** 3 credits.
This course is focused on asset allocation and portfolio construction, with a strong emphasis on measuring performance and managing risk. Topics include: the rationale behind the most commonly used performance and risk measures and models for portfolio construction, stress testing, scenario analysis, derivative securities, trading strategies, and hedging impact those risk measures and models, and the consequences of those interactions. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Master of Business Admin degree.

**Schedule Type:** Lecture

**MBA 711: Entrepreneurship.** 3 credits.
Considers fundamental aspects of entrepreneurship and process of new venture creation. Draws on broad range of business disciplines including management, marketing, finance, and accounting to develop evaluation and execution skills. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 712: Project Management.** 3 credits.
Focuses on designing, planning, monitoring, and controlling projects. Involves practical examination of how projects should be managed from start to finish, including specific emphasis on how to avoid common pitfalls. Includes hands-on experience with a common project management software package. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 713: Managing Human Capital.** 3 credits.
Effective management of human capital drives values for the firm and, in today’s business environment, is a source of competitive advantage.

Course prepares managers and entrepreneurs to leverage human capital by aligning practices with strategic objectives. Course provides systems perspective noting interrelationships between practices designed to attract, retain, & motivate human capital. Opportunities provided for personal skill-building on topics; interviewing, providing performance feedback, rewards, career development and termination. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 714: Managing Growth of Small Businesses.** 3 credits.
Focuses on unique challenges faced by small and entrepreneurial firms that seek long-term growth. Builds on concepts and knowledge of creating start-up company, and introduces processes and strategies required to become significant player in industry segment. Designed for students interested in understanding opportunities and problems in their own businesses, employment in small or entrepreneurial businesses, or exploring corporate entrepreneurship within large firms. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA or MSA core requirements or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 715: Advanced Project and Program Management.** 3 credits.
Examines advanced topics in project and program management with specific attention to issues and skills that managers needs to effectively manage multiple projects and programs. Topics include project selection, multiple project resource allocation, and organization of project office. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
Focuses on the globalization of business activities, the strategic challenges faced by companies in global competition, and how companies strategically respond to these new competitive challenges. Offered by School of Business (p. 846). May be repeated within the degree for a maximum of 3 credits.

**Recommended Prerequisite:** Completion of MBA core requirements.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MBA 717: *International Finance.* 3 credits.
Advanced analysis of managing firm’s international financial operations. Topics include currency risk, political risk, returns and funding of international projects, international markets and accounting, and cost of capital. Lecture, discussion, readings, and cases. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA or MSA core requirements or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MBA 718: *International Marketing.* 3 credits.
Addresses marketing process for products and services within major international markets. Topics include marketing mix strategies using standardization, localization, or globalization approaches. Emphasizes the introduction of service innovations and new products in the global market. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA or MSA core requirements or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MBA 720: *Marketing Analytics.* 3 credits.
Marketing analytics is a systematic approach to harnessing data/information to drive effective marketing decision making. The objective of this course is to equip you with tools required to address fundamental marketing decision problems using a data-driven approach. It will train students to view the marketing processes and relationships systematically and analytically. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to GBUS 720.

**Recommended Prerequisite:** MBA 738 or equivalent.

**Registration Restrictions:**
Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Master of Business Admin degree.

**Schedule Type:** Lecture

MBA 721: *Marketing Research.* 3 credits.
Develops skills to plan and implement effective marketing research studies. Topics include research design, data collection, statistical analysis, and use of database systems. Offers perspective on how managers can use market data to develop successful product or service strategies. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 721.

**Recommended Prerequisite:** Completion of MBA core or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MBA 722: *Consumer Behavior.* 3 credits.
An integrated analysis of internal and external influences on consumer decision making, purchase, and consumption behaviors with attention to marketing strategy implications. Emphasizes demographics, lifestyle, situation, perception, learning, and attitude formation and change, focusing on customer segmentation, satisfaction, loyalty, and product-person relationships. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MBA 723: *Supply Chain Management.* 3 credits.
Examines logistics of supply chain systems, including inventory management, distribution channels, and information systems. Emphasizes strategic alliances and international issues. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of instructor.
**MBA 724: Marketing Communications.** 3 credits.
Examines all forms of communication and sources of brand or company contacts as potential message channels in building relationship with customers. Focuses on integrated planning process for all communication elements, including consumer and trade advertising, public relations, direct and database marketing, promotions, and sales presentations to achieve synergy in communicating with various constituencies. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of the MBA core or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 725: Leadership.** 3 credits.
Overview of major conceptualizations of leadership and motivation in organizations. Integrates theory, research, and applications. Students apply principles of leadership and motivation to their own work situations and case evaluation. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 726: Negotiations.** 3 credits.
Focuses on theory, processes, and practice of negotiation within and across organizations, including attention to ethical issues. Explores systematic ways to increase quality of negotiated agreements, including methods of preparation, effective communication, and various strategies to increase power. Format includes negotiation exercises, lecture, and discussion. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 727: Management Consulting.** 3 credits.
Management Consulting is a practice-based course designed to provide a fundamental background in consulting, both from the perspective of the outside management consultant, and the inside (in-house) corporate consultant. Students will examine best practices in consulting to address complex organizational challenges and opportunities within a medium-to-large sized corporate setting. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Master of Business Admin degree.

**Schedule Type:** Lecture

**MBA 730: Management of Technology and Innovation Processes.** 3 credits.
Students will develop a strong conceptual foundation for managing technological innovation. It introduces frameworks for analyzing how firms can create, commercialize and capture value from products and services. Topics covered comprise the formulation of innovation strategies, the process of developing new products and services, and how to create and manage an innovative organization to drive revenue growth. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Admission to the MBA program or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MBA 731: Business Application and Life Cycle Management.** 3 credits.
Studies methods and tools for analyzing and designing business information systems with emphasis on business processes. Topics include data modeling, process modeling, interaction analysis, and user interface. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA or MSA core requirements or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

MBA 732: Knowledge Management. 3 credits.
Examines firms that use knowledge management principles and approaches: intellectual capital, human capital, customer capital, tacit and explicit knowledge, new role of chief knowledge officer, leveraging of knowledge management. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 734: Electronic Commerce and E-Business. 3 credits.
Examines how e-commerce and e-business affect digital economy. Discusses, compares business models, strategies for e-commerce. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 737: Information Technology Governance and Policy. 3 credits.
Considers specific objectives of IT governance and policy, frameworks that help chart roadmap for this function, and tools and techniques used in specific areas of IT governance. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 739: Advanced Data Mining for Business Analytics. 3 credits.
This course covers business analytics using advanced data mining methods for the purposes of developing predictive models and forecasting. The course will develop concept of feature selection to identify what dimensions to best use for constructing decision making models. Offered by School of Business (p. 846). May not be repeated for credit.

Recommended Prerequisite: Grade of B or higher in MBA 738 or equivalent.

Registration Restrictions:
Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to students in a Master of Business Admin degree.

Schedule Type: Lecture

MBA 742: Corporate Governance and Ethics. 3 credits.
Focuses on developing understanding of corporate governance issues and ethical decision-making. Topics include examination of internal and external and international governance issues, and ethical analysis in current business environment. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to ACCT 742.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 744: Fraud Examination. 3 credits.
Introduces strategies and techniques for fraud prevention and detection. Focuses on financial fraud such as bribery, contract rigging and kickbacks, embezzlement, fraudulent financial reporting, payroll fraud, and misappropriation of inventory and other assets. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to ACCT 636, ACCT 744, GBUS 744.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 745: International Financial Reporting. 3 credits.
Examines accounting from an international perspective, including the study of various functional areas of accounting across countries and the reporting requirements encountered by companies engaged in international trade and making foreign direct investments. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 745, GSOM 745.

Recommended Prerequisite: Completion of MBA or MSA core requirements, or permission of program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 746: Real Estate Analysis and Valuation. 3 credits.
Overview of real estate assets, markets, and decisions. Emphasizes development of analytical techniques and information required for implementation. Includes legal, economic, and public policy perspectives. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 746, GSOM 746.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 747: Real Estate Finance. 3 credits.
Examines financing of residential and income-producing real estate from perspectives of both suppliers and users of funds. Focuses on financing alternatives, primary and secondary markets, and decision implications of available arrangements. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 747, GSOM 747.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 748: Real Estate Investment. 3 credits.
Develops frameworks for analyzing decisions about investing in real estate assets. Focuses on acquisition and analysis of information required to evaluate potential performance of assets. Applications of theories and techniques through case studies. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 748, GSOM 748.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 752: Turning Ideas into Successful Companies. 3 credits.
An advanced course in entrepreneurship focused on discovery and development of an achievable business concept. The centerpiece of the course is development of the formal business plan and associated presentation materials. Students are assigned to teams and must hypothesize a new business, research and test their hypothesis, and develop a comprehensive written business plan. The plan must be for an actual business that the students intend to start upon the successful completion of the course. Technology-based projects are encouraged, but not required. Because the course is cross-listed with IT&E and the School of Business, most teams will include both engineering and business students. Weekly presentations of the team’s progress are required. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MBA 795: Global Business Perspectives. 3 credits.
Applies MBA core courses to global business enterprise through site visits to facilities located outside the United States. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA or MSA core requirements or permission of the program director.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Management (MGMT)

300 Level Courses

MGMT 301: People and Organizations. 3 credits.
Explores how individuals behave in the workplace, and how group and organizational structures affect behavior. Builds managerial skills required for working with and through others to reach organizational goals. Topics include individual differences, groups and teams, managing conflict, organizational ethics, culture, diversity, influence, leadership, and motivational theories and techniques. The course format provides opportunities to discuss and apply concepts. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MGMT 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies Notes: Students cannot receive credit for both MGMT 301 and MGMT 313. This course will not meet School of Business requirements for students with a catalog year before Fall 2015. Offered by School of Business (p. 846). May not be repeated for credit.

Schedule Type: Lecture, Recitation

Recommended Prerequisite: Sophomore standing. MGMT 301 uses a blended course delivery. Lectures are taught via the internet and posted on-line and viewed by logging into the course website. Students must also register for a required 1 hour and 15 minute recitation section that will meet once a week on campus. A live presentation meeting may be scheduled the first week of classes and will be published on the course web site.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture, Recitation

MGMT 303: Principles of Management. 3 credits.
Examines managerial work under range of business models and rapidly changing business conditions. Managerial functions and activities including planning, organizing, balancing conflicting demands, leading and controlling are examined in depth and in context of current organizational examples. Discuss variety of pressures contemporary managers face; clients and competitors, leaders above and reportees, organizational demands and personal goals. Notes: Students cannot receive credit for both MGMT 301 and MGMT 303. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MGMT 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. May not be repeated for credit.

Schedule Type: Lecture, Recitation

Recommended Prerequisite: BUS 103 and BUS 200.

Registration Restrictions:
Required Prerequisites: (ACCT 203 \( ^C \), U203, 204 \( ^C \) or U204) and (BUS 100 \( ^C \), SOM 100 \( ^C \) or BUS U100) and (MATH 108 \( ^C \), U108, 113 \( ^C \), U113, 114 \( ^C \), U114, HNRT 225 \( ^C \) or U225).

Non-Degree level students may not enroll.

Schedule Type: Lecture, Recitation

MGMT 312: Principles and Practices of Management. 3 credits.
Builds on fundamental theories and concepts learned in MGMT 301 by examining the nature of managerial work under a range of business models and under rapidly changing business conditions. Managerial functions and activities such as planning, strategizing, organizing, controlling, and directing are examined in depth and in the context of current organizational examples and scenarios. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MGMT 301 \( ^C \) or L301.

Non-Degree level students may not enroll.

Schedule Type: Lecture

MGMT 313: Organizational Behavior. 3 credits.
Course expands management knowledge through defined focus on organizational behavior (OB). OB is field of study aimed at predicting, explaining, understanding and changing human behavior as it's reflected
in organizations. Science of OB is interdisciplinary in nature and draws from psychology, sociology, social psychology, and group dynamics. Course explores dynamics between individual and organization through this behavioral science lens. Notes: Students cannot receive credit for both MGMT 301 and MGMT 313. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MGMT 301.

**Specialized Designation:** Writing Intensive in the Major

**Registration Restrictions:**
- **Required Prerequisites:** MGMT 303, L303 or 303T.
- Requires minimum grade of C.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**MGMT 321: Introduction to Human Resource Management.** 3 credits. The field of human resource management examines what can or should be done to make workers more productive and satisfied. The course builds on MGMT 301 by introducing key concepts and techniques that managers need to attract, retain, develop, compensate, and motivate quality talent. Also emphasizes legal and ethical considerations in human resource management. Offered by School of Business (p. 846). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Registration Restrictions:**
- **Required Prerequisites:** MGMT 301, L301, 303 or L303.
- Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**400 Level Courses**

**MGMT 412: Diversity in Organizations.** 3 credits. Builds on MGMT 303 by emphasizing intrapersonal, interpersonal, organizational, and societal phenomena relevant to issues of diversity. Examines phenomena and processes in general and with regard to specific dimensions such as gender, race, and ability. Designed to increase students’ knowledge of diversity in organizations, understanding of others’ perspectives, and ability to work well with people who differ from themselves. Offered by School of Business (p. 846). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Registration Restrictions:**
- **Required Prerequisites:** MGMT 301, L301, 303 or L303.
- Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**MGMT 413: Organizational Development and Management Consulting.** 3 credits. Introduces theory and practice of organization development. Assumes some basic knowledge of organizational behavior, and addresses how to use knowledge about organizations to change them. Focuses on ways of understanding organizations with attention to theoretical underpinnings of field and diagnostic models, and processes for entering organizations. Later sessions focus on contracting, data collection, organizational diagnosis, data feedback, and change technologies. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
- **Required Prerequisites:** MGMT 301, L301, 303 or L303.
- Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Registration Restrictions:**
- **Required Prerequisites:** (MGMT 301, L301, L303 or 303T) and (MGMT 321T).
- Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**MGMT 431: The Legal Environment for Employee and Labor Relations.** 3 credits. Examines the legal aspects of employee and labor relations from a managerial perspective. Topics include the employment at will doctrine; wrongful discharge; federal and state employment discrimination legislation; and regulation of employee welfare. Includes lectures, cases, readings. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSU 401.

**Registration Restrictions:**
- **Required Prerequisites:** BULE 302, L302, 303 or L303.
- Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture
MGMT 441: International Strategy. 3 credits.
Course focuses on seven inter-related pillars underpinning international strategy and these areas are: global environment and marketplace, global competitiveness and manufacturing including role of USA, global macroeconomics and financial structure, global management approaches and management of transnational firms, new forces that shape global strategy, and globalization lessons learned and its limitations. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MGMT 301C, 303C, L301, L303, 301T or 303T.
C Requires minimum grade of C.
Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MGMT 451: Introduction to Entrepreneurship. 3 credits.
Provides students an introduction to key concepts, methods, and frameworks of innovation and entrepreneurship. The experiential component of the course will be supplemented by readings, written work and presentations, and classroom discussion. The course will explore and explain the importance of entrepreneurs, and their firms in addition to allowing students to experiment with various entrepreneurial concepts and activities. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSU 405.

Registration Restrictions:
Required Prerequisites: MGMT 301C, L301, 303C or L303.
C Requires minimum grade of C.
Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MGMT 452: Experiential Entrepreneurship. 3 credits.
Provides students opportunity to experience entrepreneurship at advanced level through hands on development of a new firm, product or service. Students identify an innovative opportunity to work on or will work with local startup or organization developing innovative new product or service. Focuses on opportunity recognition and execution and introduces students to day to day experience of innovators and entrepreneurs. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MGMT 451C, MBUS 304C, IT 495C or MGMT L451.
C Requires minimum grade of C.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MGMT 453: Starting a Business. 3 credits.
Examines the paths to small business ownership, including starting an enterprise or purchasing an existing business. Focus will be on franchising and licensing, as well as family-run enterprises. Students will gain a broad understanding of location choice, facilities and layout, in addition to the legal issues associated with small business creation.

Harvesting and exiting options will also be explored. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MGMT 301C, L301C, 303C, L303C, MBUS 304C or IT 495C.
C Requires minimum grade of C.

Schedule Type: Lecture

MGMT 454: Social Impact and Entrepreneurship. 3 credits.
This course takes a business-oriented multidisciplinary case study approach to exploring the growing field of social innovation and enterprise: that is, the course investigates the historical context of social entrepreneurship, methods and models of social enterprises, marketing social innovation, limits of market-based models, skills needed to tackle wicked problems, and quantitative methods for assessing and measuring impact. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MGMT 301C, 303C or MBUS 304C.
C Requires minimum grade of C.

Schedule Type: Lecture

MGMT 461: Cross Cultural and Global Management. 3 credits.
Explores theory and practice of managing culturally diverse organizations in domestic and international contexts. Topics include management customs and practices in different world regions, cross-cultural communication and learning, and the developing culturally and internationally sophisticated employees and managers. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MGMT 301C, L301, 303C or L303.
C Requires minimum grade of C.
Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MGMT 462: Honors Seminar in Management (Topic Varies). 3 credits.
Topic and format vary. In-depth study of topic of interest to managers and organizations. Notes: Enrollment limited and competitive. Offered by School of Business (p. 846). May not be repeated for credit.

Recommended Prerequisite: Invitation of professor.

Registration Restrictions:
Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MGMT 463: Negotiations in Organizations. 3 credits.
Focuses on theory, processes, and practice of negotiation within and across organizations, including attention to ethical issues. Explores systematic ways to increase quality of negotiated agreements, including methods of preparation and use of rational assumption, bidding and
decision criteria. Format includes negotiation exercises, lecture, and
discussion. Offered by School of Business (p. 846). May not be repeated
for credit.

Registration Restrictions:
Required Prerequisites: MGMT 301\(^C\), L301, 303\(^C\) or L303.
\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MGMT 464: Teamwork and Interpersonal Skills. 3 credits.
Focuses on intensive development of high professional-level skill set
for collaboration and leadership in contemporary environments. Builds
on content introduced in MGMT 301, 312. Attention to developing
personal leadership capabilities, collaborating in traditional and virtual
environments, improving group processes, project management,
tolerating ambiguity, improving communication, creative problem solving,
time management, coaching, and empowering employees. Offered by
School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MGMT 301\(^C\), L301, 303\(^C\) or L303.
\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Independent Study

Management of Information Systems (MIS)

100 Level Courses

MIS 102: Spreadsheet Applications for Business. 1 credit.
Hands-on course using popular spreadsheet package. Business
examples used to teach fundamentals of spreadsheets and their use in
business applications. Offered by School of Business (p. 846). May not be
repeated for credit.

Schedule Type: Laboratory

300 Level Courses

MIS 301: Introduction to Business Information Systems. 3 credits.
Introduces fundamentals of hardware, software, and networking.
Emphasizes role of technology in improving contemporary business
processes and competitive advantage. Includes basic relational
concepts, hands-on experience in building business database
applications and decision support using spreadsheet software.
School of Business students will not be permitted to make more than
three attempts to achieve a C or higher in MIS 301. Those who do
not successfully complete this course within three attempts will be
terminated from their major and will not be eligible to receive a degree
from the School of Business. For more information about this, see the
"Termination from the Major" section under Academic Policies
Notes: Projects required. Students cannot receive credit for both MIS 301
and MIS 303. Offered by School of Business (p. 846). Limited to three
attempts. Equivalent to MIS 303.

Registration Restrictions:
Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.
**MIS 302: Introduction to Programming for Business Applications.** 3 credits. 
Introduces principles of designing and implementing program data structures and algorithms to solve business problems using structured programming techniques. Students become familiar with program development life cycle using standard programming language such as Visual BASIC.NET supported by a modern Integrated Development Environment (IDE). Students complete assignments involving development of real-life business application. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Students with a class of Freshman may not enroll.

**Schedule Type:** Lecture

**MIS 303: Introduction to Business Information Systems.** 3 credits. 
Introduces fundamentals of hardware, software, and networking. Emphasizes role of technology in improving contemporary business processes and competitive advantage. Includes basic relational concepts, hands-on experience in building business database applications and decision support using spreadsheet software. Notes: Students cannot receive credit for both MIS 301 and MIS 303. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MIS 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies. Offered by School of Business (p. 846). Limited to three attempts. Equivalent to MIS 301.

**Mason Core:** Information Technology: With Ethics (p. 135)

**Registration Restrictions:**
Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**MIS 310: Database Management Systems.** 3 credits. 
Introduces principles of designing and manipulating relational databases with a focus on business applications. Theoretical database concepts and hands-on experience with a relational package. Term project requiring implementation of a substantial business database application. Notes: School of Business students may not receive credit for both MIS 310 and IT 214. Requires hands-on implementation using software package. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: (MIS 301C or L301) or MIS 303C or L303. C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

**MIS 320: Networks and Security.** 3 credits. 
Introduces students to fundamentals of networking technologies and their role in businesses. Emphasis is on understanding the business implications of different networking technologies and solutions. Students learn to identify and understand the business requirements, and bring together the different technological components to design the required communication solutions. Also focuses on the types of security threats to the business network infrastructure, and approach to tackling such threats through business practices combined with appropriate technological solutions. Notes: The course also includes lab work and exercises. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: (MIS 301C or L301) or MIS 303C or L303. C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

**Schedule Type:** Lecture

**MIS 330: Systems Analysis and Design.** 3 credits. 
Understanding systems analysis and design methods is a necessary skill for contemporary business analysts, managers, software engineers and system users. Provides students with the foundations for effectively using modern systems analysis and design tools and methodologies for developing modern software and applications. Topics include systems planning and feasibility analysis, requirements analysis, economics, systems design and project management. Notes: Requires team project. Offered by School of Business (p. 846). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Registration Restrictions:**
Required Prerequisite: (MIS 310C). C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

**Schedule Type:** Lecture

**MIS 410: Advanced Database Systems.** 3 credits. 
Covers advanced database development and administration topics including triggers, stored procedures, indexes, performance tuning, and security. Students will use a state-of-the-art industrial strength database management system as a tool to familiarize themselves with database concepts. Students will conduct exercises on business reporting using databases and front-end applications. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: MIS 310C.
Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Schedule Type: Lecture

MIS 412: E-Business Systems Development. 3 credits.
Introduces students to the development of web-based information systems for E-business. Students learn to develop web-based database applications for eCommerce using ASP.NET. Also covers Web 2.0 technologies and contemporary business trends and issues related to web application development. Emphasizes technologies, methods, and application development tools. Notes: Requires team project and computer lab. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MIS 301C or L301) or MIS 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MIS 415: Information Systems Audit and Control. 3 credits.
Covers IT governance, controls, auditing applications, systems development, and operations. It examines trends and define recent advances in technology that impact IT controls and audits - including cloud computing, web-based applications, and server visualizations. It covers IT strategy, business value of IT, as well as controls for IT projects, outsourcing, contracts, cloud computing, etc. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MIS 301C, L301C, 303C or L303C.
C Requires minimum grade of C.

Schedule Type: Lecture

MIS 420: Information Security and Assurance. 3 credits.
Covers technical concepts, and managerial and policy topics in information and cyber security. Lectures, reading, in-class presentations, hands-on exercises, and examinations ensure that students have sufficient technical awareness and managerial competence related to information security and assurance. Examines the nature of threats and vulnerabilities, cryptography, software vulnerabilities, managing risk, and security controls. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: MIS 320C.
C Requires minimum grade of C.

Schedule Type: Lecture

MIS 430: Data Warehousing. 3 credits.
Deals with the challenges faced by businesses in managing large amounts of data and making meaningful use of this data for informed decision making. Introduces students to data warehousing fundamentals, practices, and technologies; and their application to solving business problems. Specific emphasis is on designing of data warehouse to meet the business requirements and hands-on learning of the design principles through implementation on commercially used data warehouse technologies. Also introduces students to OLAP solutions and data mining approaches to supporting business decision making. Notes: Term project required. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MIS 310C or L310.
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MIS 431: Data Mining for Business Applications. 3 credits.
This course covers data mining methods and tools for business analytics to improve managerial decision making. The objective is to understand data mining methods and their suitability for decision making in a variety of business domains. The students will learn how to apply appropriate analytical tools to gain useful insights from real-life datasets. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MIS 301C, L301C, 303C or L303C) and (BUS 310C, OM 210C or 211C).
C Requires minimum grade of C.

Non-Degree level students may not enroll.

Schedule Type: Lecture

Topic and format vary. In-depth study of a topic in the area of information technology management. Enrollment limited and competitive. Offered by School of Business (p. 846). May not be repeated for credit.

Recommended Prerequisite: Degree status in ISOM (or DMIS) major, permission of department.

Registration Restrictions:
Students with a class of Freshman, Junior or Sophomore may not enroll.

Non-Degree or Washington Consortium level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Seminar

MIS 491: Seminar in Management Information Systems. 3 credits.
Analyzes selected topics that highlight latest developments in information resource management field, including contemporary research findings and case studies of information systems in business and other organizations. Offered by School of Business (p. 846). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (MIS 301C or L301) or MIS 303C or L303.
C Requires minimum grade of C.
Management of Secure Information Systems (MSEC)

500 Level Courses

Provides an overview of the introductory topics in cyber security, which will be the basis for the other security-related in the MSIS. Topics include basic concepts on CIA (confidentiality, integrity, and availability), risk management, disaster recovery, access control, basic cryptography and software application vulnerabilities. Notes: 4 class sessions will be 3.5 hours long. 1 class session will be 2 hours and 20 minutes long. (5 classes; 16 hours and 20 minutes total) Offered by Volgenau School of Engineering (p. 953). May not be repeated for credit.

Recommended Prerequisite: Admission to MSEC program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Provides the practices and methods currently used by information security professionals to manage and operate the secure IT infrastructures in the enterprise industry and in the US Federal Sector. It covers tools and knowledge required to design, execute, and/or evaluate the INFOSEC standards and procedures required of government and industry. The topic includes security operation center (SOC), network security, malware countermeasures, operational systems security, risk analysis and incident response practices. Notes: 4 class sessions will be 3.5 hours long. 1 class session will be 2 hours and 20 minutes long. (5 classes; 16 hours and 20 minutes total) Offered by Volgenau School of Engineering (p. 953). May not be repeated for credit.

Recommended Prerequisite: MSEC 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MSEC 520: Networking Principles. 2 credits.
Introduction to the principles guiding the design and operation of modern communication networks; using the structure provided by layered service models, this course explores systematically the architecture and protocols of large, decentralized networks. Topics include medium access control in local area networks, switching, routing, and addressing, reliable and secure transport, flow and congestion control. Throughout, examples are drawn from the suite of Internet protocols. Offered by Volgenau School of Engineering (p. 953). May not be repeated for credit.

Recommended Prerequisite: Admission to MSEC program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

600 Level Courses

MSEC 620: Networking Security. 2 credits.
Provides a comprehensive introduction to network security concepts and problems and the mechanisms and tools to secure networks. Focuses on the Internet; discusses the threats to and from the Internet and examines existing Internet security techniques and protocols and their limitations. Topics include secret key and public key cryptography, Hash algorithms, authentication, IPSEC/VPN, IPSEC key exchange, SSL/TLS, firewall, anonymous communication, and VoIP security. Offered by Volgenau School of Engineering (p. 953). May not be repeated for credit.

Recommended Prerequisite: MSEC 510 and 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
MSEC 630: Secure Information System Governance, Regulation, and Compliance. 2 credits.
Provides insight into secure information system governance, regulations, and compliance including noteworthy legislation, regulations, and compliance issues as well as commonalities and significant differences between departments and agencies within the Federal Executive Branch (FEB). The course is presented as formal lectures complemented by group discussion. Each topic is addressed as part of the larger Secure Information System structure. Notes: 4 class sessions will be 3.5 hours long. 1 class session will be 2 hours and 20 minutes. (5 total class sessions; 16 hours and 20 minutes total). Offered by Volgenau School of Engineering (p. 953). May not be repeated for credit.

Recommended Prerequisite: MSEC 510

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MSEC 641: Enterprise Security Threats. 1 credit.
Provides a broad exposition of emerging cyber-security threats for large-scale enterprises: Denial of Service (DoS), insider attacks, remote exploitation. It covers defenses that may mitigate or curtail some aspects of these emerging security threats. Offered by Volgenau School of Engineering (p. 953). May not be repeated for credit.

Recommended Prerequisite: MSEC 511.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MSEC 642: Enterprise Security Technologies. 2 credits.
Provides an overview of enterprise security tools used in advanced security IT departments of enterprises today. In addition to understanding the tools, their capabilities, and their gaps, students participate in hands-on laboratory exercises with enterprise security tools. Notes: 4 class sessions will be 3.5 hours long. 1 class session will be 2 hours and 20 minutes long. (5 class sessions; 16 hours 20 minutes total) Offered by Volgenau School of Engineering (p. 953). May not be repeated for credit.

Recommended Prerequisite: MSEC 511.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MSEC 650: Seminar: Enterprise Security Case Studies. 1 credit.
Provides an exposition of large enterprise security systems including operational requirements, threat model, security analysis, economic analysis, and defense posture options that expose the operational and economic trade-offs when architecting Enterprise security. Offered by Volgenau School of Engineering (p. 953). May not be repeated for credit.

Recommended Prerequisite: MSEC 641.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

MSEC 696: Directed Studies Management of Secure Information Systems. 1-3 credits.
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by Volgenau School of Engineering (p. 953). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Admission to the MSIS program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

MSEC 697: Special Topics in Management of Secure Information Systems. 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of management of secure information systems. Offered by Volgenau School of Engineering (p. 953). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Admission to the MSIS program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
700 Level Courses

MSEC 710: Global Residency. 1-4 credits.
Students spend a week in an international residency. Emphasis is on how other nations deal with management of secure information system, the management of those systems, and related public policy issues. Corporate site visits are combined with presentations by professors from universities outside the United States and relevant practitioners. Students are required to write a paper summarizing their observations and attend pre-residency preparatory sessions. Offered by Volgenau School of Engineering (p. 953). May be repeated within the degree for a maximum of 4 credits. Equivalent to TECM 757.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
MSEC 720: Capstone Project in Management of Secure Information Systems. 1-3 credits.
Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion. Offered by Volgenau School of Engineering (p. 953). May be repeated within the degree for a maximum of 3 credits. Equivalent to TECM 737.

Recommended Prerequisite: Admission to Executive MS in Management of Secure Information Systems.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Marketing (MKTG)

300 Level Courses

MKTG 301: Principles of Marketing. 3 credits.
Examines marketing principles and practices for analyzing, creating, delivering, capturing, and communicating value to customers. Focuses on managing customer relationships using market-driven strategies, particularly segmentation, targeting, and positioning. The role of customer satisfaction in achieving organizational objectives and ethical decision making in a global economy are also emphasized. Students with the terminated from BU major attribute may not enroll. Students with a class of Freshman may not enroll.

Schedule Type: Lecture
MKTG 302: Sales Management. 3 credits.
Familiarizes students with marketing-sales interfaces including sales force role and capabilities, personal selling strategies, organizational relationships, and responsibilities of sales managers including training, motivating, and evaluating sales force. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Students with a class of Freshman may not enroll.

Schedule Type: Lecture
MKTG 303: Principles of Marketing. 3 credits.
Examines marketing principles and practices for analyzing, creating, delivering, capturing, and communicating value to customers. Focuses on managing customer relationships using market-driven strategies, particularly segmentation, targeting, and positioning. The role of customer satisfaction in achieving organizational objectives and ethical decision making in a global economy are also emphasized. Notes: Students cannot receive credit for both MKTG 301 and MKTG 303. Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
MKTG 311: Consumer Behavior. 3 credits.
Marketing strategy implications of internal and external influences on consumer decision making, purchase, and consumption behaviors. Emphasizes demographics, lifestyle, situation, perception, learning, and attitude formation and change, focusing on customer segmentation,
satisfaction and loyalty. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisites:** (MKTG 301\(^C\) or L301) or MKTG 303\(^C\) or L303.

\(^C\) Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**MKTG 313: Advertising and Marketing Communications.** 3 credits.

Examines development of integrated communications programs, including advertising, sales promotion, public relations, direct marketing, and other communication tools. Focuses on setting communications objectives and budgets, media planning, creative strategy, execution, and evaluation. Provides skills for analyzing the strengths, weaknesses and synergies of marketing communication tools. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisites:** (MKTG 301\(^C\) or L301) or MKTG 303\(^C\) or L303.

\(^C\) Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**MKTG 315: Digital Marketing.** 3 credits.

Explores impact of Digital and Internet technology on marketing strategy and practice. Topics include online advertising campaigns (focusing on search marketing), web site usability and content, and the use of social and interactive media to build customer relationships and foster brand loyalty. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisites:** (MKTG 301\(^C\) or L301) or MKTG 303\(^C\) or L303.

\(^C\) Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**MKTG 351: Marketing Research.** 3 credits.

Presents the concepts and techniques underlying the marketing research process and their role in managerial decision making. Focuses on skills required to conduct a marketing research project: qualitative and quantitative research designs, survey methodology, instrument creation, sampling procedures, data collection, data analysis, and reporting of findings. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisites:** (BUS 310\(^C\), L310\(^C\), OM 210\(^C\) or 211\(^C\)) and (MKTG 301\(^C\), L301, 303\(^C\) or L303).

\(^C\) Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**MKTG 352: Marketing Analytics for New Product Development.** 3 credits.

In today's technology-enabled world, organizations collect lot of information as a part of their business operations and pool it with data acquired from outside sources. Marketing analytics is a systematic approach to harnessing this data/information to drive effective marketing decision making. Students will learn to analyze historical data, market research data, and competitive information for making strategic marketing decisions. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisites:** (MKTG 301\(^C\), L301, 303\(^C\), L303\(^C\) or MBUS 303\(^C\)) and (BUS 310\(^C\) or STAT 350\(^C\)).

\(^C\) Requires minimum grade of C.
Registration Restrictions:

Required Prerequisites: MKTG 301C, 303C, L301C, L303C or MBUS 303C.

C Requires minimum grade of C.

Schedule Type: Lecture

MKTG 353: New Product Development. 3 credits.
This course focuses on all aspects of the new product and new service development process, from insight and inspiration through design and product launch. The course also explores current topics and best practices in innovation management, such as open innovation, managing creativity in organizations, and product design, and rapid prototyping. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:

Required Prerequisites: MKTG 301C, 303C, L301C, L303C or MBUS 303C.

C Requires minimum grade of C.

Schedule Type: Lecture

400 Level Courses

MKTG 407: Global Marketing. 3 credits.
Multidisciplinary approach to global and international marketing from viewpoint of business management. Examines major marketing issues affecting companies operating in a global environment. Students achieve understanding of economic, political, and cultural differences among nations as they affect marketing opportunities and operations, and develop skills to identify and evaluate global and international marketing opportunities. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:

Required Prerequisites: (MKTG 301C or L301) or MKTG 303C or L303.

C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MKTG 455: Ethnic and Multicultural Marketing. 3 credits.
Ethnic and Multicultural Marketing examines the critical marketing issues and opportunities that have arisen with the changing U.S. demographics. The focus is domestic markets. The growth in minority populations indicates a need for specialized approaches for the entire marketing mix. Segmentation can be powerful when considering non-mainstream markets if the marketer understands and capitalizes on the different approaches cultural and ethnic groups use as consumers. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:

Required Prerequisites: (MKTG 301C or L301) or MKTG 303C or L303.

C Requires minimum grade of C.

Students with a class of Non Degree may not enroll.

Schedule Type: Lecture

MKTG 462: Honors Seminar in Marketing (Topic Varies). 3 credits.
Topic and format vary. In-depth study of topic of interest to managers and organizations. Notes: Enrollment limited and competitive. Offered by School of Business (p. 846). May not be repeated for credit.

Recommended Prerequisite: Degree status in MKTG major; senior standing; permission of department.

Registration Restrictions:

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Seminar

MKTG 471: Marketing Management. 3 credits.
Emphasizes managerial aspects of marketing, including developing marketing strategies and plans, and integrating specific elements of marketing process. Emphasizes case analysis. Offered by School of Business (p. 846). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Registration Restrictions:

Required Prerequisites: (MKTG 312C or L312) and (MKTG 351C or L351).

C Requires minimum grade of C.

Students with a class of Freshman, Junior or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MKTG 481: RS: Marketing in the Nonprofit Sector. 3 credits.
Examines the unique challenges of applying marketing principles and practices to not-for-profit groups such as human service and philanthropic organizations, museums, health and wellness advocates, educational institutions, industry associations and government. Emphasis on case studies, team work, and projects. Offered by School of Business (p. 846). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive

Registration Restrictions:

Required Prerequisites: (MKTG 301C or L301) or MKTG 303C or L303.

C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Seminar

MKTG 491: Seminar in Marketing. 3 credits.
In-depth treatment in seminar format of contemporary topics in marketing. Culminates in preparation of substantial paper and oral presentation. Offered by School of Business (p. 846). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:

Required Prerequisites: (MKTG 301C or L301) or MKTG 303C or L303.

C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

MKTG 499: Independent Study. 1-3 credits.
Primary research proposal in marketing area. Requires prior approval from instructor and associate dean for undergraduate programs. Offered
by School of Business (p. 846). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** 90 hours and a minimum of 24 hours of business courses including principles of marketing, finance, and management.

**Registration Restrictions:**
Students with a class of Freshman or Sophomore may not enroll.
Non-Degree or Washington Consortium level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Independent Study

---

### Master's in New Professional Studies (MNPE)

#### 700 Level Courses

**MNPE 700:** *The New Professionalism: Theory and Practice.* 3 credits. Explores the philosophical and pedagogical assumptions of teachers as individuals and professionals. Critiques educational issues such as accountability, institutional structures, and professional roles engage teachers to be more just and responsive in their relationships with students, families, and colleagues. Provides a deeper understanding of a teacher’s participatory and ethical role in a democracy, which includes questioning the status quo. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MNPE 702:** *The New Professional as a Reflective Practitioner.* 3 credits. Explores the central questions of epistemology to encourage depth of understanding of the assumptions and issues of education. Uses reflection to consider how personal and professional identities are influenced by intentions and commitments to learning and teaching. Provides an understanding of the processes of critical inquiry, dialogue, reflection, and action. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MNPE 703:** *Technology and Learning in the New Professions.* 3 credits. Supports effective technology integration for teaching and learning by constructive knowledge not just of content, technology and pedagogy, but also of their mutually reinforcing relationships. Develops repertoire of technology-mediated learning approaches with appropriate context specific strategies and representations to support learning. Includes concurrent critique of technology and includes equal access to information, critical web literacy, and privacy issues. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
Schedule Type: Lecture

MATH 108: Introductory Calculus with Business Applications. 3 credits. Functions, limits, derivative, and integral. Applications of differentiation and integration. Notes: Call Mathematical Sciences Department at 703-993-1460 for details. Students who have received credit for MATH 113 or 114 may not receive credit for this course. Offered by Mathematics (p. 707). May not be repeated for credit.

Mason Core: Quantitative Reasoning (p. 135)

Registration Restrictions:
Required Prerequisite: minimum score of 13 in 'Math Placement Algebra I'.

Schedule Type: Lecture

MATH 110: Introductory Probability. 3 credits. Elementary set theory, probability, and statistics. Offered by Mathematics (p. 707). May not be repeated for credit.

Mason Core: Quantitative Reasoning (p. 135)

Schedule Type: Lecture

MATH 111: Linear Mathematical Modeling. 3 credits. Matrix algebra, systems of linear equations, Markov chains, difference equations, and data fitting. Offered by Mathematics (p. 707). May not be repeated for credit.

Mason Core: Quantitative Reasoning (p. 135)

Schedule Type: Lecture

MATH 112: Discrete Mathematics for IT. 3 credits. Introduces ideas of discrete mathematics including mathematical induction, sets, logic, graphs, trees, basic counting arguments, and discrete probability. Students who have received credit for MATH 125 may not receive credit for this course. Notes: Intended for IT students; does not count toward a major or minor in mathematics. Offered by Mathematics (p. 707). May not be repeated for credit.

Mason Core: Quantitative Reasoning (p. 135)

Schedule Type: Lecture

MATH 113: Analytic Geometry and Calculus I. 4 credits. Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to MATH 116, MSU 109.

Mason Core: Quantitative Reasoning (p. 135)

Recommended Prerequisite: Permission of instructor.

Registration Restrictions:
Required Prerequisite: (MATH 113 or U113) or (MATH 123 and 124).

Schedule Type: Lecture, Recitation

Schedule Type: Lecture, Recitation

MATH 115: Analytic Geometry and Calculus I (Honors). 4 credits. More challenging version of MATH 113. Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to MATH 114.

Registration Restrictions:
Required Prerequisites: (MATH 115 or 113).

Schedule Type: Lecture, Recitation

Registration Restrictions:
Required Prerequisites: (MATH 116 or 115).

Schedule Type: Lecture

MATH 123: Calculus with Algebra/Trigonometry, Part A. 3 credits. Math 123, with 124, is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in Math 113. Math 123 integrates the beginnings of calculus through the derivative with relevant precalculus algebra and trigonometry. Notes: Students who successfully complete Math 123-124 are considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to MATH 113.

Registration Restrictions:
Required Prerequisites: (minimum score of 13 in 'Math Placement Algebra I' and minimum score of 07 in 'Math Placement Algebra II') or (MATH 105 or MATH 104).

Schedule Type: Lecture

MATH 124: Calculus with Algebra/Trigonometry, Part B. 3 credits. Math 123, with 124, is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in Math 113. Math 124 will review basic differentiation and applications and then proceed to cover integration including transcendental functions. Notes: Students who successfully complete Math 123-124 are
considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to MATH 113.

**Mason Core:** Quantitative Reasoning (p. 135)

**Registration Restrictions:**
Required Prerequisite: MATH 123\(^C\).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**MATH 125: Discrete Mathematics I.** 3 credits.
Introduces ideas of discrete mathematics and combinatorial proof techniques including mathematical induction, sets, graphs, trees, recursion, and enumeration. Offered by Mathematics (p. 707). May not be repeated for credit.

**Mason Core:** Quantitative Reasoning (p. 135)

**Registration Restrictions:**
Required Prerequisites: minimum score of 13 in ‘Math Placement Algebra I’, MATH 105\(^C\), 106\(^C\) or 113\(^C\).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**200 Level Courses**

**MATH 203: Linear Algebra.** 3 credits.
Systems of linear equations, linear independence, linear transformations, inverse of a matrix, determinants, vector spaces, eigenvalues, eigenvectors, and orthogonalization. Offered by Mathematics (p. 707). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: (MATH 114\(^C\), 114T or 116\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**MATH 213: Analytic Geometry and Calculus III.** 3 credits.
Partial differentiation, multiple integrals, line and surface integrals, and three-dimensional analytic geometry. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to MATH 215.

**Registration Restrictions:**
Required Prerequisites: (MATH 114\(^C\), 114T or 116\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**MATH 214: Elementary Differential Equations.** 3 credits.
First-order ODEs, higher-order ODEs, Laplace transforms, linear systems, nonlinear systems, numerical approximations, and modeling. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to MATH 216.

**Registration Restrictions:**
Required Prerequisites: (MATH 213\(^C\), 213T or 215\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture, Recitation

**MATH 215: Analytic Geometry and Calculus III (Honors).** 3 credits.
Vectors and vectorvalued functions, partial differentiation, multiple integrals, line integrals, surface integrals, and transformation of coordinates. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to MATH 213.

**Registration Restrictions:**
Required Prerequisites: (MATH 114\(^C\) or 116\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**MATH 216: Theory of Differential Equations.** 3 credits.

**Registration Restrictions:**
Required Prerequisites: (MATH 203\(^C\) or U203) and (MATH 213\(^C\), U213, 215\(^C\) or U215).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**MATH 271: Mathematics for the Elementary School Teachers I.** 3 credits.
Concepts and theories underlying elementary school mathematics including problem solving, patterns, sequences, set theory, numeration, number sense, operations and properties of integers, whole, rational, irrational and real numbers, number theory, ratio, proportion, percent and mathematical systems. Notes: Does not count toward major in mathematics. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** Grade of C or better in 3 credits of college math.

**Schedule Type:** Lecture

**MATH 272: Mathematics for the Elementary School Teachers II.** 3 credits.
Continuation of MATH 271. Concepts and theories underlying elementary school mathematics including functions, algebra, geometry, statistics, and probability. Notes: Intended for school educators; does not count toward major in mathematics. Offered by Mathematics (p. 707). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: (MATH 271\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**MATH 290: Introduction to Advanced Mathematics.** 3 credits.
Introduction to proofs and the language of mathematics. Topics include induction, equivalence relations, cardinality and basic properties of the real numbers. Designated as a writing intensive course for mathematics majors. Notes: Primarily intended for mathematics majors. Offered by Mathematics (p. 707). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry, Writing Intensive in the Major

**Registration Restrictions:**
Required Prerequisites: (MATH 114\(^C\), 114T or 116\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture
300 Level Courses

MATH 301: Number Theory. 3 credits.
Prime numbers, factorization, congruences, and Diophantine equations. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: Completion of 6 hours of MATH.

Schedule Type: Lecture

MATH 302: Foundations of Geometry. 3 credits.
Fundamental concepts of incidence. Axioms of Euclidean geometry and the resulting theory, and axioms and development of non-Euclidean and projective geometry. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: Completion of 6 hours of MATH.

Schedule Type: Lecture

MATH 307: Mathematical Modeling. 3 credits.
Focuses on the development and analysis of mathematical models that make qualitative and quantitative predictions. Students will address particular situations while learning general modeling strategies. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 203C) and (MATH 214C or 216C). C Requires minimum grade of C.

Schedule Type: Lecture

MATH 312: Geometry. 3 credits.
Two and three dimensional analytic geometry, complex geometry, projective geometry, conics and quadric surfaces, spherical geometry, quaternions, Euclidean and non-Euclidean geometry. This course meets the requirement for secondary school teacher certification. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 114C or 116C). C Requires minimum grade of C.

Schedule Type: Lecture

MATH 313: Introduction to Applied Analysis. 3 credits.
Vector differential calculus, vector integral calculus, and complex analysis. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 213C, 213T or 215C). C Requires minimum grade of C.

Schedule Type: Lecture

MATH 314: Introduction to Applied Mathematics. 3 credits.

Registration Restrictions:
Required Prerequisites: (MATH 214C, U214, 216C or U216). C Requires minimum grade of C.

Schedule Type: Lecture

MATH 315: Advanced Calculus I. 3 credits.
Number system, functions, sequences, limits, continuity, differentiation, integration, transcendental functions, and infinite series. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 213C or 215C) and MATH 290C. C Requires minimum grade of C.

Schedule Type: Lecture

MATH 316: Advanced Calculus II. 3 credits.
 Sequences of functions, Taylor series, vectors, functions of several variables, implicit functions, multiple integrals, and surface integrals. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 213C or 215C) and (MATH 290C). C Requires minimum grade of C.

Schedule Type: Lecture

MATH 321: Abstract Algebra. 3 credits.
Theory of groups, rings, fields. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 213C or 215C) and (MATH 290C). C Requires minimum grade of C.

Schedule Type: Lecture

MATH 322: Advanced Linear Algebra. 3 credits.
Abstract vector spaces, linear independence, bases, linear transformations, matrix algebra, inner product, and special topics. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 203C or U203) and (MATH 290C or U290). C Requires minimum grade of C.

Schedule Type: Lecture

MATH 325: Discrete Mathematics II. 3 credits.
Advanced counting, binomial identities, generating functions, advanced recurrence, inclusion-exclusion, and network flows. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 125C or 125T). C Requires minimum grade of C.

Schedule Type: Lecture

MATH 351: Probability. 3 credits.
Random variables, probability functions, special distributions, and limit theorems. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to STAT 344.

Registration Restrictions:
Required Prerequisites: (MATH 213C, 215C or 215T). C Requires minimum grade of C.

Schedule Type: Lecture
MATH 352: Statistics. 3 credits.
Estimation, decision theory, testing hypothesis, correlation, linear models, and design. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 351\(^C\) or L351).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture

400 Level Courses

MATH 400: History of Math (Topic Varies). 3 credits.
Explores internal controversies and dynamics of mathematics in larger intellectual and social settings. Topics vary but might include differential equations devised for mechanics and astronomy by Euler, Lagrange, and Laplace; foundation of mathematical analysis from Cauchy to Weierstrass; algebras of Galois and Boole; or creation of non-Euclidean geometry and Cantor's transfinite sets. Notes: Credits may not be used toward "upper division" math hours required of math majors. Offered by Mathematics (p. 707). May not be repeated for credit.

Mason Core: Synthesis (p. 135)

Registration Restrictions:
Required Prerequisites: (MATH 290\(^C\) or 290T).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture

MATH 401: Mathematics through 3D Printing. 3 credits.
Incorporates new mathematics from a large variety of fields into the design and creation of 3D printed models, as well as the written and oral communication of these mathematical ideas. Topics vary but might include regular and quasiregular tilings, Platonic and Archimedean solids and their duality, orientable and non-orientable surfaces, fractals, chaotic attractors, Riemann surfaces, and data visualization. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 290 and at least 3 credits of Mathematics above MATH 300.

Schedule Type: Lecture

MATH 405: Honors Thesis in Mathematics I. 3 credits.
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. An oral presentation is required for MATH 405. Offered by Mathematics (p. 707). May not be repeated for credit.

Specialized Designation: Research Associated

Recommended Prerequisite: MATH 315, three additional credits of MATH above the 300 level (excluding MATH 400) and admission to the Honors Program in Mathematics.

Schedule Type: Independent Study

MATH 406: RS: Honors Thesis in Mathematics II. 3 credits.
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. Oral and written presentations are required in MATH 406. Offered by Mathematics (p. 707). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive

Registration Restrictions:
Required Prerequisite: (MATH 405\(^C\)).
\(^C\) Requires minimum grade of C.

Schedule Type: Independent Study

MATH 411: Functions of a Complex Variable. 3 credits.
Analytic functions, contour integration, residues, and applications to such topics as integral transforms, generalized functions, and boundary value problems. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 214\(^C\) or 214T) or (MATH 216\(^C\) or 216T).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture

MATH 413: Modern Applied Mathematics I. 3 credits.

Registration Restrictions:
Required Prerequisites: (MATH 203\(^C\) or 203T) and (MATH 214\(^C\) or 214T) or (MATH 216\(^C\) or 216T).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture

MATH 414: Modern Applied Mathematics II. 3 credits.
Continuation of MATH 413, which involves synthesis of pure mathematics and computational mathematics. Fourier analysis and its role in applied mathematics developed (differential equations and approximations). Discrete aspects emphasized in computational models. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: (MATH 413\(^C\)).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture

MATH 431: Topology. 3 credits.
Metric spaces, topological spaces, compactness, and connectedness. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: (MATH 315\(^C\)).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture

MATH 441: Deterministic Operations Research. 3 credits.
Survey of deterministic methods for solving real-world decision problems. Programming model and simplex method of solution, duality and sensitivity analysis, transportation and assignment problems, shortest path and maximal flow problems, project networks including PERT and CPM, introduction to integer and nonlinear programming, dynamic programming, and game theory. Emphasizes modeling and problem solving. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to OR 441.

Registration Restrictions:
Required Prerequisites: (MATH 203\textsuperscript{C} or 203T).\textsuperscript{C} Requires minimum grade of C.

Schedule Type: Lecture

MATH 442: Stochastic Operations Research. 3 credits.

Registration Restrictions:
Required Prerequisite: (MATH 351\textsuperscript{C}).
\textsuperscript{C} Requires minimum grade of C.

Schedule Type: Lecture

MATH 446: Numerical Analysis I. 3 credits.
Significant figures, round-off errors, iterative methods of solution of nonlinear equations of a single variable, solutions of linear systems, iterative techniques in matrix algebra, interpolation and polynomial approximation. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to OR 481.

Registration Restrictions:
Required Prerequisites: (MATH 203\textsuperscript{C} or 203T) and (CS 112\textsuperscript{C} or 112T). \textsuperscript{C} Requires minimum grade of C.

Schedule Type: Lecture

MATH 447: Numerical Analysis II. 3 credits.

Registration Restrictions:
Required Prerequisites: (MATH 214\textsuperscript{C}, 214T, 216\textsuperscript{C} or 216T) and (MATH 446\textsuperscript{C}). \textsuperscript{C} Requires minimum grade of C.

Schedule Type: Lecture

MATH 453: Advanced Mathematical Statistics. 3 credits.
Maximum likelihood tests, sufficiency, most powerful tests, distributions of quadratic forms, topics from nonparametric statistics, Bayesian statistics and linear models. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: MATH 352\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Schedule Type: Lecture

MATH 478: Introduction to Partial Differential Equations with Numerical Methods. 3 credits.
Introduces basic facts about partial differential equations, including elliptic equations, parabolic equations and hyperbolic equations. Methods of solution, characteristics, initial/boundary-value problems, and numerical approximation techniques. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 203\textsuperscript{C} or 203T) and (MATH 214\textsuperscript{C} or 214T) or (MATH 216\textsuperscript{C} or 216T).
\textsuperscript{C} Requires minimum grade of C.

Schedule Type: Lecture

MATH 491: Reading and Problems. 1-3 credits.
For mathematical sciences majors only. Independent study in math. Notes: Must be arranged with instructor before registering. Offered by Mathematics (p. 707). May be repeated within the term.

Recommended Corequisite: For mathematical science majors only.

Schedule Type: Independent Study

MATH 493: Topics in Applicable Mathematics. 3 credits.
Topics that have been successfully used in applications of mathematics. Notes: Subject determined by instructor. Offered by Mathematics (p. 707). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: 6 credits of MATH at or above the 310 level.

Schedule Type: Lecture

MATH 494: Topics in Pure Mathematics. 3 credits.
Topics of pure math not covered in other courses. Topics might include Galois theory, cardinal and ordinal arithmetic, measure theory, mathematical logic, and differential geometry. Notes: Subject determined by instructor. Offered by Mathematics (p. 707). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: 6 hours of MATH at or above the 310 level.

Schedule Type: Seminar

500 Level Courses

MATH 551: Regression and Time Series. 3 credits.
Mathematics of regression, exponential smoothing, time series, and forecasting. Material included in this course constitutes Society of Actuaries Validation by Educational Experience (VEE) for applied statistics and corresponds to part of Casualty Actuary Society Exam 3. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 352, STAT 652, SOA exam P, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 554: Financial Mathematics. 3 credits.
Simple and compound interest, annuities, present and future value, yield rates, capital budgeting, amortization schedules, mortgages, bonds. Material corresponds to the Society of Actuaries Exam: Financial
Mathematics (FM). Not appropriate for graduate science and engineering majors not considering actuarial or financial career. Cannot be counted toward MS or PhD degree in mathematics. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** MATH 113.

**Recommended Corequisite:** MATH 114.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**MATH 555: Actuarial Modeling I.** 3 credits.
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuarial Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** MATH 554 and either MATH 351 or STAT 344.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**MATH 556: Actuarial Modeling II.** 3 credits.
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuarial Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** MATH 554 and either MATH 351 or STAT 344.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**MATH 600: Special Topics in Mathematics.** 1-6 credits.
Mathematical workshops, special courses, or other projects. Offered by Mathematics (p. 707). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**MATH 601: Analysis I for Teachers.** 3 credits.
Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple. Notes: Background in mathematics desirable but not necessary. Some topics from college algebra will be reviewed in class, but thorough understanding of high school algebra and trigonometry expected. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Corequisite:** Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 602: Analysis II for Teachers. 3 credits.**
Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple. Notes: Background in mathematics desirable but not necessary. Some topics from college algebra will be reviewed in class, but thorough understanding of high school algebra and trigonometry expected. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Corequisite:** Open only to inservice math teachers at the middle or secondary level, or by Permission of Instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 604: Geometry for Teachers. 3 credits.**
Covers standard topics from Euclidean geometry, and includes discussion of non-Euclidean geometries. Emphasizes informal and explorative approach to geometry, and makes use of geometry sketchpad. Other topics include geometric constructions, and role of proof in geometry. Notes: Background in mathematics desirable but not necessary. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Corequisite:** Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 605: Discrete/Finite Mathematics for Teachers. 3 credits.**
Thorough understanding of high school algebra assumed. Discusses finite mathematics in juxtaposition to continuous ideas of calculus. Topics may consist of elementary counting and combinatorics including recursion and difference equations and their analogy to calculus; thorough discussion of probability and central measures of statistics; and graph theory and its connection to geometry. Notes: Background in mathematics desirable but not necessary. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Corequisite:** Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 607: Algebraic Structure for Teachers. 3 credits.**
Expands on customary operations on integers and rationals to discuss systems that mimic these operations. Emphasizes multiplicative and additive inverses and their corresponding identities as they occur in other systems. Topics might include permutation groups, rigid transformations, groups of symmetry of the plane and connection to geometry, and matrices treated as linear transformations and connections to solutions of systems of equations. Notes: Background in mathematics desirable but not necessary. Thorough understanding of high school algebra assumed. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Corequisite:** Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 608: Problem Solving in Mathematics. 3 credits.**
Introduces variety of challenging mathematical problems appropriate for middle school student to analyze, and solving problems using mathematics learned in previous courses. Also asks students to search for such problems and orally present solutions. Notes: Background in mathematics or science desirable but not necessary. Assumes exposure to most of topics covered in MATH 601, 604, 605, and 607. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Corequisite:** Open only to inservice math teachers at the middle or secondary level, or by Permission of Instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 610: Number Systems and Number Theory for K-8 Teachers. 3 credits.**
This course covers the topics: ways of representing numbers, relationships between numbers, number systems, the meanings of
operations and how they relate to one another, and computation within
the number system as a foundation for algebra. It also includes episodes
in history and development of the number system, and will examine the
developmental sequence and learning trajectory as children learn this
material. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 611: Geometry and Measurement for K-8 Teachers. 3 credits.
The course explores the foundations of informal measurement and
geometry in one, two, and three dimensions. The van Hiele model
for geometric learning is used as a framework for how children build
their understanding of length, area, volume, angles, and geometric
relationships. Visualization, spatial reasoning, and geometric modeling
are stressed. As appropriate, transformational geometry, congruence,
similarity, and geometric constructions will be discussed. Offered by
Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 612: Probability and Statistics for K-8 Teachers. 3 credits.
An introduction to probability, descriptive statistics, and data analysis.
Topics studied will include the exploration of randomness, data
representation, modeling. Descriptive statistics will include measures of
central tendency, dispersion, distributions, and regression. The analysis
of experiments requiring hypothesizing, experimental design and data
gathering will also be discussed. Offered by Mathematics (p. 707). May not
be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 613: Algebra and Functions for K-8 Teachers. 3 credits.
The course will examine representing and analyzing mathematical
situations and structures using generalization and algebraic symbols
and reasoning. Attention will be given to the transition from arithmetic
to algebra, working with quantitative change, and the description of
and prediction of change. Offered by Mathematics (p. 707). May not be
repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 614: Rational Numbers and Proportional Reasoning for K-8 Teachers.
3 credits.
This course will cover the basic number strands in fractions and rational
numbers, decimals and percents, and ratios and proportions in the school
curriculum. Instruction will cover interpretations, computations, and
estimation with a coordinated program of activities that develop both
rational number concepts and skills and proportional reasoning. Offered
by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 619: Topics in Mathematical Logic. 3 credits.
Special topics in foundations of mathematics not included in regular
mathematics curriculum. May be repeated for credit. Offered by
Mathematics (p. 707). May be repeated within the term for a maximum 12
credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 621: Algebra I. 3 credits.
Groups, linear algebra, and matrix groups. Offered by Mathematics
(p. 707). May not be repeated for credit.

Recommended Prerequisite: Familiarity with basic properties of groups
and rings or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
MATH 624: Euclidean Geometry. 3 credits.
Euclidean space, geometry of k-dimensional planes, the affine structure of Euclidean space, rigid motions and similarities, paralleloptopes and volumes, convex polytopes, quadric surfaces, and additional topics by instructor's choice. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 315 and MATH 322, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 625: Numerical Linear Algebra. 3 credits.
Theory and development of numerical algorithms for solving variety of matrix problems: linear systems, least squares problems, eigenvalue problems, and singular value decomposition. Direct and iterative method, analysis of sensitivity to rounding errors, and applications. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to CSI 740.

Recommended Prerequisite: Computer literacy, including some programming experience.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 629: Topics in Algebra. 3 credits.
Special topics in pure and applied algebra not covered in regular algebra. May be repeated for credit when topic varies. Offered by Mathematics (p. 707). May not be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: MATH 315 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 631: Topology I: Topology of Metric Spaces. 3 credits.
Covers definition and basic examples of metric spaces, open and closed sets, subspaces and finite products, sequences and convergence, compactness and separability, continuous functions, uniform continuity, metric space C(X) and uniform convergence, and homotopy. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 315 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 639: Topics in Geometry and Topology. 3 credits.
Special topics in geometry and topology not covered in regular geometry and topology sequence. May be repeated for credit when topic varies. Offered by Mathematics (p. 707). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: MATH 315 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 641: Combinatorics and Graph Theory. 3 credits.
Covers enumerative combinatorics, including partially ordered sets; Moebius inversion and generating functions; and major topics in graph theory such as graph coloring, Ramsey theory, and matching. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 321 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 644: Convex and Discrete Geometry. 3 credits.
Basic properties of Euclidean space, convex sets and convex cones, convex hulls, extremal structure of convex sets, support and separation properties, polyhedra and polytopes, special classes of convex sets, Helly-type theorems, selected problems of discrete geometry. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 315 and MATH 322, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
MATH 649: Topics in Combinatorics. 3 credits.
Special topics in combinatorics not covered in regular combinatorics sequence. May be repeated for credit. Offered by Mathematics (p. 707). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 653: Construction and Evaluation of Actuarial Models I. 3 credits.
Economics of insurance, individual risk models for short term, collective risk models for single period, collective risk models over an extended period, and applications of risk theory. Material included in this course corresponds to portions of the Society of Actuaries Exam M and Casualty Actuary Society Exam 3. The remaining material for these exams is covered in MATH 551, 555, and 556. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 351 or STAT 644 required. MATH 555 recommended but not required.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 654: Construction and Evaluation of Actuarial Models II. 3 credits.
Nature and properties of survival and loss models, methods of estimates from complete and incomplete data, tabular and parametric models, and practical issues in survival model estimation. Material included in this course corresponds to most of the Society of Actuaries Exam C and Casualty Actuary Society Exam 4. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 556 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 655: Pension Valuation. 3 credits.
Basic mathematics used in pension actuarial work without regard to pension law. Material included in this course corresponds to all of the Joint Board Exam EA-2A and portions of the Society of Actuaries Exam 8. This course cannot be counted toward the MS or PhD degree in mathematics. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 556, SOA Exam EA-1, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 661: Complex Analysis I. 3 credits.
Toplogy of complex numbers, holomorphic functions, series, complex integration. Meromorphic, multivalued, and elliptic functions. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 671: Fourier Analysis. 3 credits.
Study of fundamental ideas in Fourier analysis. Topics include orthonormal systems, Fourier series, continuous and discrete Fourier transform theory, generalized functions, and introduction to spectral analysis. Uses applications to physical sciences, linear systems theory, and signal processing to integrate topics. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 673: Dynamical Systems. 3 credits.
Contemporary topics in nonlinear dynamical systems illustrated in mathematical models from physics, ecology, and population dynamics. Traditional qualitative analysis of difference and differential equations provides background for understanding chaotic behavior when it occurs in these models. Topics include stability theory, fractals, Lyapunov exponents, and chaotic attractors. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to MATH 661.

Recommended Prerequisite: Elementary courses in linear algebra and differential equations.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 674: *Stochastic Differential Equations.* 3 credits.
Introduces stochastic calculus and differential equations. Includes Wiener process, Ito and Stratonovich integrals, Ito formula, martingales, diffusions, and applications, including financial applications. Simulations and numerical approximations of solutions. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 214 and 351.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 675: *Linear Analysis.* 3 credits.
Metric spaces, normed linear spaces, completeness, compactness, continuous (bounded) linear transformations, Banach spaces, Hilbert spaces, and orthogonal series. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 315 and MATH 322, or equivalent.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 677: *Ordinary Differential Equations.* 3 credits.
Qualitative and quantitative theory of ordinary differential equations. Phase portrait analysis of linear and nonlinear systems, including classification of stable and unstable equilibrium states and periodic orbits. Poincaré-Bendixon theorem, Lyapunov stability and Lyapunov functions, and bifurcation theory. Optional topics include averaging and perturbation methods, numerical solution techniques, and chaos. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 214 or equivalent.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 678: *Partial Differential Equations.* 3 credits.
Physical examples, characteristics, boundary value problems, integral transforms, and other topics, such as variational, perturbation, and asymptotic methods. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: Elementary differential equations course.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 679: *Topical in Analysis and Potential Theory.* 3 credits.
Special topics not covered in regular analysis or potential theory sequence. May be repeated for credit when topic varies. Offered by Mathematics (p. 707). May be repeated within the term for a maximum 12 credits.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 680: *Industrial Mathematics.* 3 credits.
Takes examples from industry and goes through complete solution process: formulation of mathematical model of problem; solution, possibly by numerical approximation; and interpretation and presentation of results. Emphasizes working in groups, relating mathematics to concrete situations, and communication and presentation skills. Offered by Mathematics (p. 707). May not be repeated for credit.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 683: *Modern Optimization Theory.* 3 credits.
Introduces basic mathematical ideas and methods for solving linear and nonlinear programming problems, with emphasis on mathematical aspects of optimization theory. Reviews classical topics of linear programming, and covers recent developments in linear programming, including interior point method. Considers basic results in nonlinear
programming, including very recent developments in this field. Offered by Mathematics (p. 707). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 685:** *Numerical Analysis*. 3 credits.
Computational techniques for solving problems arising in science and engineering. Includes theoretical development as well as implementation, efficiency, and accuracy issues in using algorithms and interpreting results. Specific topics include linear and nonlinear systems of equations, polynomial interpolation, numerical integration, and introduction to numerical solution of differential equations. Offered by Mathematics (p. 707). May not be repeated for credit. Equivalent to CSI 690, CSI 700, OR 682.

**Recommended Prerequisite:** Computer literacy, including some programming experience.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 686:** *Numerical Solutions of Differential Equations*. 3 credits.
Finite difference methods for initial value problems, two-point boundary value problems, Poisson equation, heat equation, and first-order partial differential equations. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** MATH 214 and MATH 446 or 685.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 687:** *Variational Methods*. 3 credits.
Weak formulation of partial differential equations, energy principles, Galerkin approximations, and finite element methods. Includes review and development of necessary analysis. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** MATH 446 or 685, and elementary differential equations course.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 689:** *Topics in Applied and Computational Mathematics*. 3 credits.
Special topics in applied and computational mathematics not covered in the regular applied and computational mathematics sequence. May be repeated for credit when topic varies. Offered by Mathematics (p. 707). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 697:** *Independent Reading and Research*. 1-6 credits.
In areas of importance, but with insufficient demand to justify a regular course, students may undertake a course of study under the supervision of a consenting faculty member. Written statement of the content of the course and a tentative reading list is normally submitted as part of the request for approval. Literature review, project report, or other written product is normally required. May be repeated for credit. Offered by Mathematics (p. 707). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**700 Level Courses**

**MATH 721:** *Algebra II*. 3 credits.
Rings, fields, and Galois theory. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** MATH 621.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 722:** *Algebraic Topology*. 3 credits.
Covers simplices and simplicial complexes, cycles and boundaries, simplicial homology, homological algebra, homotopy and the fundamental group, cohomology. Offered by Mathematics (p. 707). May not be repeated for credit.
Recommended Prerequisite: MATH 621 and MATH 631 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 723: Combinatorial Structures. 3 credits.
Studies structural properties of objects encountered in pure and applied combinatorics. Topics include partially ordered sets, codes, designs, matroids, buildings, symmetrical structures, permutation groups, and face lattices of polytopes. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 321 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 724: Commutative Algebra. 3 credits.
Study of commutative rings and their ideals, and of modules over commutative rings and their homological properties. More specific topics include Noetherian rings, primary decomposition, completions, graded rings and dimension theory with applications to algebraic geometry. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 621.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 732: Topology II: Set-Theoretic Topology. 3 credits.
Topics include review of basic set theory (including cardinal numbers products of sets, the Axiom of Choice), definition of topological spaces, bases for topological spaces, forming new topological spaces by taking subspace, quotients, and products, separation properties (Hausdorff, regular, Tychonoff, and normal spaces) compactness, the Lindelof property, separability, connectedness, continuity and homeomorphism, manifolds. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 631 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 740: Differential Topology. 3 credits.
Differential forms, manifolds, smooth maps, vector fields, the Euler characteristic, integration on manifolds, and de Rham cohomology. Notes: MATH 740 will be an elective course acceptable (but not required) for the PhD Degree in the Mathematical Sciences offered by the Department of Mathematical Sciences. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 621 and MATH 631, or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 762: Complex Analysis II. 3 credits.
Harmonic functions, generalizations of the maximum principle, entire and meromorphic functions, analytic continuation, and the Riemann mapping theorem. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 661.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 763: Functions of Several Complex Variables. 3 credits.
Covers the important results for analytic functions in several variables, including analyticity in several variables and the differences between the theory of one and the theory of several complex variables. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 661 and MATH 762 or an equivalent preparation in one complex variable.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 772: Wavelet Theory. 3 credits.
Study of the theory and computational aspects of wavelets and the wavelet transform. Emphasizes computational aspects of wavelets, defining the Fast Wavelet Transform in one and two dimensions. Developing the appropriate numerical algorithms. Includes developing the theory of wavelet bases on the real line, discussing multiresolution analysis, splines, time-frequency localization, and wavelet packets. Offered by Mathematics (p. 707). May not be repeated for credit.

Recommended Prerequisite: MATH 315 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MATH 776: Measure and Integration. 3 credits.
Lebesgue measure and integration. Theory of Lp spaces with p between one and infinity on the real line. Theory of linear operators on Banach spaces, including the Hahn-Banach theorem, open mapping theorem,
closed graph theorem and the uniform boundedness principle. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** MATH 675.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 781:** *Advanced Methods in Applied Mathematics.* 3 credits. Bifurcation theory and perturbation methods for solutions in ordinary and partial differential equations. This course will develop and apply these mathematical tools in current scientific fields, such as biology, materials science, or financial mathematics. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** MATH 677 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 784:** *Nonlinear Functional Analysis.* 3 credits. Techniques in nonlinear functional analysis with applications. Contraction mapping principle, Frechet and higher derivatives, the implicit function theorem, Lyapunov-Schmidt method, and bifurcation theory. Finite and infinite dimensional degree theory with applications in partial differential equations. Notes: Different backgrounds may be appropriate, but generally, a student is expected to be an upper level graduate student who has already taken Linear Analysis. Since the applications given in the course are for differential equations, some familiarity with differential equations is extremely useful. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** MATH 675 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MATH 795:** *Graduate Seminar.* 1 credit. Mandatory for all PhD students. Weekly seminar graded on presentations and attendance. Faculty presentations on potential thesis topics and presentations by students. Offered by Mathematics (p. 707). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Enrolled in the PhD program in Mathematics.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**MATH 799:** *MS Thesis.* 1-6 credits. Original or compilatory work evaluated by committee of three faculty members. Offered by Mathematics (p. 707). May be repeated within the degree.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

### 800 Level Courses

**MATH 800:** *Studies for the Doctor of Philosophy in Education.* 1-6 credits. Program of studies designed by student's discipline director and approved by student's doctoral committee, which brings the student to participate in current research of discipline director and results in paper reporting the original contributions of student. Enrollment may be repeated. Offered by Mathematics (p. 707). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Ph.D. in Education program to study in mathematical sciences.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

### 900 Level Courses

**MATH 998:** *Doctoral Dissertation Proposal.* 1-9 credits. Work on research proposal that forms basis for doctoral dissertation. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements. Offered by Mathematics (p. 707). May be repeated within the degree.

**Recommended Prerequisite:** Successful completion of qualifying exam.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**MATH 999:** *Doctoral Dissertation.* 1-12 credits. Formal record of commitment to doctoral dissertation research under the direction of a faculty member. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements. Offered by Mathematics (p. 707). May be repeated within the degree.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Mechanical Engineering (ME)

100 Level Courses
ME 151: Practicum in Engineering, 2 credits.
This course provides students with experiences in algorithmic thinking, visualization and communications. An essential component of this course is preparation of students for the National Academy of Engineering Grand Challenge Scholars Program. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

Schedule Type: Laboratory

200 Level Courses
ME 211: Statics. 3 credits.
An initial course in applied vector mechanics with emphasis on static equilibrium. Topics include forces, moments, couples, equivalent force-couple systems, centroids, distributed forces, and Coulomb friction. The application of the free body diagram in the analysis of static equilibrium of frames, machines and trusses is stressed. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: PHYS 160\(^C\) and 161\(^C\).
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

ME 212: Solid Mechanics. 3 credits.
A first course in mechanics of deformable bodies with emphasis on the engineering approach to the responses of these bodies to various types of loadings. Topics include stress-strain relationships, stress-strain analysis, stress and strain transformation (Mohr’s circle), load-deflection, bending, torsion, buckling, and thermal effects. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

Recommended Corequisite: MATH 214.

Registration Restrictions:
Required Prerequisite: ME 211\(^C\).
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

ME 231: Thermodynamics. 3 credits.
A basic thermodynamics course in which the first and second laws of thermodynamics are studied primarily from the classical macroscopic viewpoint and applied to both closed and open systems. Working substances include perfect gases, real gases and vapors in addition to solids and liquids. Offered by Mechanical Engineering (p. 1057). Limited to two attempts. Equivalent to ENGR 307.

Registration Restrictions:
Required Prerequisite: MATH 113\(^C\).
\(^C\) Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

ME 231: Dynamics. 3 credits.
A course in classical vector dynamics. Topics include vector algebra and calculus, kinematics and kinetics of particles and rigid bodies, as well as energy and momentum methods. Extensive problem solving involving particle and rigid body motion is required. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

Recommended Corequisite: MATH 214.

Registration Restrictions:
Required Prerequisite: ME 211\(^C\).
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

ME 311: Mechanical Experimentation I. 1 credit.
Experimental measurements in solid mechanics and materials science. Involves technical report writing. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

Recommended Corequisite: ME 313.

Registration Restrictions:
Required Prerequisite: ME 212\(^C\).
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory

ME 313: Material Science. 3 credits.
An introductory course in physical and mechanical properties of engineering design materials, ceramics and plastics, their structures, use in engineering applications and failure phenomena. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: CHEM 211\(^C\) or 251\(^C\).
\(^C\) Requires minimum grade of C.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

ME 321: Mechanical Experimentation II. 1 credit.

Recommended Corequisite: ME 323.
ME 322: Fluid Mechanics. 3 credits.
An introductory course in fluid dynamics stressing both the integral and differential forms of the conservation laws of fluid flow. Engineering applications are made to hydrostatics and to ideal and real fluid flows. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

ME 323: Heat Transfer. 3 credits.
Study of thermal radiation, steady and transient conduction, laminar and turbulent convection, internal and external flow, boundary layers and empirical correlations. Applications address fins, nuclear reactor cooling, heat exchangers and interactive computing. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

ME 341: Design of Mechanical Elements. 3 credits.
Fundamentals of mechanical design. Introduction to the fundamentals of static and fatigue failure theories, design of basic machine elements such as fasteners, bearings, gearing and shafts. Builds on the fundamentals of design introduced in earlier courses by introducing the concepts of customer requirements, specification development, reverse engineering, functional decomposition, and design for manufacturing. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

ME 342: Design of Thermal Systems. 3 credits.
A study of equipment which operates on principles of thermodynamics and fluid mechanics is used to reinforce analyses and design of gas and vapor power cycles, refrigeration and air conditioning, propulsion systems, combustion, energy conversion and compressible flow. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

ME 351: Analytical Methods in Engineering. 3 credits.
Survey of advanced mathematics topics needed in the study of engineering. Topics include vector differential and integral calculus, matrix analysis, partial differential equations, complex variables, numerical methods, data analysis using statistics and probability theory. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

ME 352: Entrepreneurship in Engineering. 3 credits.
Introduces students to the concept of entrepreneurship and how to translate technical skill sets to commercial success. Topics include creating a business plan, pitching ideas, risk mitigation, and selecting investment alternatives. Emerging technology related to Mechanical Engineering will be analyzed in this context. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

ME 431: Systems Dynamics. 3 credits.
A first course which deals with the mathematical modeling of dynamic systems and response analysis of these systems. Topics include state variable and transfer functions, mathematical analysis of systems response, and the use of computational tools for modeling, design, and
ME 432: Control Engineering. 4 credits.
Introduces fundamentals of feedback and modern control theory. Topics include analysis of mechanical and thermal systems by root locus and frequency response techniques. Use of sensors and transducers in control systems, data acquisition and analysis. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

Registration Restrictions:
Required Prerequisite: ME 351C.  
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

ME 443: Mechanical Design I. 3 credits.
The first course in a two-semester capstone design sequence. Topics include the engineering design process, project management, codes and standards, engineering ethics, and computer-aided design. Students form design teams, select a capstone design project and progress through the proposal and preliminary design stages of the project. The capstone design project continues in ME 444. Offered by Mechanical Engineering (p. 1057). Limited to two attempts. Equivalent to ME 360.

Registration Restrictions:
Required Prerequisite: ME 323C.  
C Requires minimum grade of C.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

ME 444: Mechanical Design II. 3 credits.
The second of the two-semester capstone design course sequence. Students continue with concept selection, detail design, prototyping and evaluation of their major design projects. Formal presentations and reports are prepared to review and document the designs. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

Mason Core: Capstone (p. 135)

Specialized Designation: Writing Intensive in the Major

Registration Restrictions:
Required Prerequisite: (ME 443C).  
C Requires minimum grade of C.

Enrollment is limited to students with a major in Mechanical Engineering. Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

ME 453: Developing the Societal Engineer. 2 credits.
A course which highlights, through speakers, discussions and workshops, the professional responsibility of a being mechanical engineer. Additional topics that will be covered include ethical issues, current events and trends in the profession. Engineering case studies will be explored. Offered by Mechanical Engineering (p. 1057). Limited to two attempts.

Registration Restrictions:
Required Prerequisite: ME 443C.  
C Requires minimum grade of C.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

ME 498: Independent Study in Mechanical Engineering. 3 credits.
Directed self-study of topics of special interest. Offered by Mechanical Engineering (p. 1057). May be repeated within the term for a maximum 6 credits.

Schedule Type: Independent Study

ME 499: Special Topics in Mechanical Engineering. 4 credits.
Topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by Mechanical Engineering (p. 1057). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Schedule Type: Lecture

500 Level Courses

ME 521: Energy Transfer. 3 credits.
Study of thermal fluid sciences related to energy systems. Provides foundations in thermodynamics, mass transfer, fluid mechanics, and heat transfer in steady systems. Covers modelling and analysis of engineering devices such as pumps, heat exchangers, turbines, and airfoils which constitute energy systems. Offered by Mechanical Engineering (p. 1057). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture
**ME 531: Energy Transmission.** 3 credits.
Introduces analysis of local and national electrical grids used for power transmission and develops understanding of economic constraints on energy systems. Students will model energy transmission systems with dynamic loads ensuring energy security and optimal performance. Advanced topics such as forecasting for renewable energy integration, smart grid implementation, and utilization of emerging energy storage technology are covered. Offered by Mechanical Engineering (p. 1057). May not be repeated for credit.

**Recommended Prerequisite:** ME 521.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

---

**ME 541: Power Generation.** 3 credits.
Study of traditional and advanced power generation technology. Builds upon conservation principles of mass, energy, and momentum to analyze, model and optimize energy systems based on physical principles. Specific attention will be paid to site specific conditions for generation. Advanced cycles will be covered which utilize fossil fuel, renewable, and nuclear energy. Offered by Mechanical Engineering (p. 1057). May not be repeated for credit.

**Recommended Prerequisite:** ME 521.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

---

**ME 542: Energy Utilization.** 3 credits.
Covers energy utilization by end users. Technology and system integration are covered for applications such as combined heat power units and transportation. Students will use energy audit techniques to identify and minimize energy losses from the demand side. Investment, payback, and subsidies for purchasing energy system updates will be evaluated. Offered by Mechanical Engineering (p. 1057). May not be repeated for credit.

**Recommended Prerequisite:** ME 521.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

---

**ME 621: Foundations of Fluid Mechanics.** 3 credits.
Derivation of the fundamental equations of fluid mechanics, including the Navier-Stokes equations, conservation of mass, and the vorticity transport equations. Vector and Cartesian tensor notation are used throughout. Equations of motion are applied to incompressible viscous and inviscid flows. Some aspects of turbulence are discussed. Offered by Mechanical Engineering (p. 1057). May not be repeated for credit.

**Recommended Prerequisite:** Introductory graduate level course in advanced strength of materials or theory of elasticity, or consent of the instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

---

**ME 714: Fracture Mechanics.** 3 credits.
Investigation of linear elastic and elastic-plastic fracture mechanics. Topics include: theory of elasticity and plasticity, energy and stress approach to fracture mechanics, methods to determine the stress intensity factor, fracture mechanics testing, fatigue crack growth. Develop a basic understanding of how crack-like defects impact performance in structures and learn how to select materials to ensure damage tolerance. Offered by Mechanical Engineering (p. 1057). May not be repeated for credit.

**Recommended Prerequisite:** Introductory graduate level course in advanced strength of materials or theory of elasticity, or consent of the instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

---

**ME 715: Impact Dynamics.** 3 credits.
Includes advanced dynamics of impact, impact biomechanics, as well as vehicle crashworthiness standards and accident data analysis. Students will learn about FMVSS and NCAP crash tests. FARS and NASS real world accident databases, and methods to analyze crash and accident data. Offered by Mechanical Engineering (p. 1057). May not be repeated for credit.
Recommended Prerequisite: ME 231, ME 212 or equivalent courses.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

ME 722: Introduction to Turbulence. 3 credits.
Introduces beginning graduate students to the theory of turbulence. The theory of homogeneous-isotropic turbulence is introduced, followed by a discussion of sheared and wall-bounded turbulence. Some aspects of coherent structures in turbulence will be introduced as well as models used in computing turbulence. Specially designed projects are intended to enable students to apply what they have learned to different flow situations. Offered by Mechanical Engineering (p. 1057). May not be repeated for credit.

Recommended Prerequisite: ME 621.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Medical Laboratory Science (MLAB)

200 Level Courses

MLAB 200: Introduction to Medical Laboratory Science. 1 credit.
Introduction to the profession of Medical Laboratory Science. Offered by Biology (p. 617). May not be repeated for credit. Equivalent to MTCH 200.

Schedule Type: Lecture

300 Level Courses

MLAB 300: Science Writing. 2 credits.
Intensive practice in biological science writing. Science Writing will fulfill the university's writing intensive requirement as well as prepare Medical Laboratory Science students for the types of writing that they will encounter in the industry including, but not limited to: writing, resumes, grants, cover letters, etc. Offered by Biology (p. 617). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

400 Level Courses

MLAB 401: Orientation to the Problems and Practices of the Clinical Laboratory. 1-2 credits.
Orientation to clinical lab; specimen collection and record keeping; management principles and problems; educational theories as they apply to the teaching of clinical laboratory procedures; and quality control principles. Notes: Not offered on campus. Offered by Biology (p. 617). May be repeated within the term. Equivalent to MTCH 401.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

MLAB 402: Clinical Hematology and Coagulation. 2-3 credits.
Morphology of blood cells in health and disease; theories of hematopoiesis and coagulation; techniques for measurement of hematologic parameters; and hematologic pathologies and their lab evaluation. Notes: Not offered on campus. Offered by Biology (p. 617). May be repeated within the term. Equivalent to MTCH 402.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

MLAB 403: Clinical Microscopy. 1-3 credits.
Methods for the routine examination of urine, feces, and certain other body fluids, especially the microscopic identification of normal and pathologic components. Includes a study of the kidney and theories of microscopy. Notes: Not offered on campus. Offered by Biology (p. 617). May be repeated within the term. Equivalent to MTCH 403.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Independent Study

MLAB 404: Serology and Immunohematology. 1-7 credits.
Clinical lab procedures involving antigen-antibody reactions, and theoretical bases of such procedures. Includes both diagnostic and blood bank techniques. Notes: Not offered on campus. Offered by Biology (p. 617). May be repeated within the term. Equivalent to MTCH 404.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

MLAB 405: Clinical Microbiology. 1-8 credits.
Biology and pathology of bacteria, rickettsia, fungi, parasites, and viruses of clinical importance and their culture and identification. Notes: Not offered on campus. Offered by Biology (p. 617). May be repeated within the term. Equivalent to MTCH 405.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

MLAB 406: Clinical Chemistry. 1-10 credits.
Chemical reactions and procedures used in clinical determinations on blood, urine, and cerebral spinal fluid. Includes manual, automated methods of chemical analyses. Notes: Not offered on campus. Offered
by Biology (p. 617). May be repeated within the term. Equivalent to MTCH 406.

**Recommended Prerequisite:** Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

**Schedule Type:** Internship

**MLAB 407:** *Clinical Molecular Biology*. 1.15 credit.
Course presents advanced methods in nucleic acid testing to human medico-legal, forensic, and pathology applications. Topics include but are not limited to: Polymorphisms, Paternity Testing, Single Nucleotide Polymorphisms, Bone Marrow Engraftment, Mitochondrial DNA Polymorphisms and Disorders, Chromosomal Abnormalities, Single Gene Disorders, Lysosomal Storage Disorders, Cystic Fibrosis, and Quality Assurance in the Molecular Biology laboratory. Offered by Biology (p. 617). May be repeated within the degree.

**Recommended Prerequisite:** Complete of requirements for BS with a major in Medical Laboratory Science except for the 30 credits professional study.

**Schedule Type:** Laboratory

### Middle East and Islamic Studies (MEIS)

#### 500 Level Courses

**MEIS 500:** *Critical Issues and Debates in Middle East and Islamic Studies*. 3 credits.
Introduces the interdisciplinary study of the Middle East and the Islamic world through an examination of recent seminal works and debates in the field representing the disciplinary perspectives of history, religious studies, political science, and sociology. Offered by Humanities & Social Sciences (p. 295). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Middle East Islamic Studies.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Seminar

#### 700 Level Courses

**MEIS 794:** *Graduate Internship in Middle East and Islamic Studies*. 3 credits.
Internship credit for completion of Middle East and/or Islamic studies related work at an approved government, nonprofit, or private institution. Offered by Humanities & Social Sciences (p. 295). May not be repeated for credit.

**Recommended Prerequisite:** MEIS 500, HIST 575, RELI 644.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**MEIS 796:** *Directed Readings in Middle East and Islamic Studies*. 3 credits.
Directed readings in the field of Middle East and Islamic Studies. Offered by Humanities & Social Sciences (p. 295). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** MEIS 500, RELI 644, HIST 575.

**Registration Restrictions:**
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**MEIS 798:** *Research Project in Middle East and Islamic Studies*. 3 credits.
Research project related to Middle East and Islamic studies taken under supervision of faculty adviser. Offered by Humanities & Social Sciences (p. 295). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 21 credit hours toward MA in Middle East and Islamic Studies degree; satisfactory completion of a research methods course approved as a core course for the MA MEIS.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**MEIS 799:** *Thesis Research and Writing in Middle East and Islamic Studies*. 1-6 credits.
Original research and thesis writing for students in the Middle East and Islamic Studies MA program. Offered by Humanities & Social Sciences (p. 295). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Completion of MEIS 500, HIST 535, GOVT 731, GOVT 733, RELI 644, and 27 credit hours toward MA in MEIS degree; permission of MEIS director.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

### Military Science (MLSC)

#### 100 Level Courses

**MLSC 100:** *Introduction to Army/ROTC*. 1 credit.
Introduces leadership values and ethics; responsibilities of officership; the organization, customs, and traditions of the U.S. Army; time management; and physical well-being. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 105). May not be repeated for credit.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Laboratory, Lecture

**MLSC 102:** *Leadership Skills II*. 1 credit.
Introduces leadership principles, dimensions, styles, and assessment, among other varied topics. Includes a laboratory in applied leadership,
common military tasks, and physical fitness. Offered by Military Science (p. 105). May not be repeated for credit. Equivalent to MLSC 101.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Laboratory, Lecture

### 200 Level Courses

**MLSC 200: Self/Team Development.** 1 credit.
Covers leadership skills, such as values and ethics. Also teaches how to influence, how to communicate, how and when to make decisions, how to engage in creative problem solving, and how to plan and organize. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 105). May not be repeated for credit.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** MLSC 100 & 200 level completion or military credit exemption.

**Schedule Type:** Laboratory, Lecture

**MLSC 202: Leadership Skills IV.** 1 credit.
Builds on the leadership skills developed in Leadership Skills III with additional emphasis on communication, team building, and team leadership. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 105). May not be repeated for credit. Equivalent to MLSC 201.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** MLSC 100 level completion/dual enrollment.

**Schedule Type:** Laboratory, Lecture

### 300 Level Courses

**MLSC 300: Applied Leadership I.** 1 credit.
Applied leadership with an introduction to the principles of physical fitness and healthy lifestyle; counseling as means of subordinate development; problem solving; operational analysis, development, and execution; and methods for preparing and presenting instruction. Students are given an introduction to the Leader Development Program that is used to evaluate their leadership performance and provide students with developmental feedback. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 105). May not be repeated for credit.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** MLSC 100, 101, 200, or veterans status, or permission of instructor.

**Schedule Type:** Laboratory, Lecture

**MLSC 302: Applied Leadership II.** 1 credit.
Applied leadership covering the models of communications (verbal and nonverbal), technology to communicate, how to prepare and conduct formal briefings, an introduction to the Army branches, diversity, and equal opportunity training, ethical decision making, & group cohesion and dysfunction. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Notes: Enrollment in MLSC 300 level course is restricted to students who are contracted or are pre-approved by department/Amy ROTC as pending contracting. Offered by Military Science (p. 105). May not be repeated for credit. Equivalent to MLSC 301.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** MLSC 100 & 200 level completion or military credit exemption.

**Schedule Type:** Laboratory, Lecture

### 400 Level Courses

**MLSC 400: Leadership and Management.** 3 credits.
Considered the "transition to lieutenant" phase in which managerial theories are applied to personnel, training, and logistics management situations. Students have command and staff responsibilities for the Mason cadet corps and receive hands-on experience operating as a management team. There are several briefing and writing requirements as well. Includes a laboratory in applied science, common military tasks, and physical fitness. Offered by Military Science (p. 105). May not be repeated for credit.

**Recommended Prerequisite:** MLSC 300 and 301 or permission of instructor.

**Schedule Type:** Laboratory, Lecture

**MLSC 402: Leadership and Ethics.** 3 credits.
Continuing the "transition to lieutenant" phase of ROTC, examines ethics of military environment to include customs, ethical codes & decision making, constraints, and appeals to moral principles. American judicial system is also examined, with emphasis on the Uniform Code of Military Justice. Command and staff responsibilities are assigned to students for hands-on experience operating as a management team for Mason cadet corps. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 105). May not be repeated for credit. Equivalent to MLSC 401.

**Recommended Prerequisite:** MLSC 300 & 302.

**Schedule Type:** Laboratory, Lecture

**MLSC 499: Senior Advanced Military Studies.** 0 credits.
Offered by Military Science (p. 105). May be repeated within the degree.

**Schedule Type:** Independent Study

### Minor in Business (MBUS)

#### 300 Level Courses

**MBUS 300: Accounting in a Global Economy.** 3 credits.
Focuses on using basic concepts of accounting and financial management to make investment, credit, and operating decisions for an organization. Emphasizes financial reports to aid planning and control of organizational activities. Notes: May not be taken for credit by School of Business majors. Students who have received credit for both ACCT 203 and FNAN 303 cannot also receive credit for MSOM 300 or MBUS 300. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSOM 300.

**Recommended Prerequisite:** Completion of 30 credits (sophomore standing).

**Registration Restrictions:** Non-Degree level students may not enroll.

**Schedule Type:** Lecture
MBUS 301: Managing People and Organizations in a Global Economy. 3 credits.
Introduces key issues in management, organizational behavior, and human resource management. Special attention to best practices used by effective managers. Notes: May not be taken for credit by School of Business majors. Students cannot receive credit for both MGMT 303 and MBUS 301. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSOM 301.

Recommended Prerequisite: Completion of 30 credits (sophomore standing).

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Schedule Type: Lecture

MBUS 302: Managing Information in a Global Economy. 3 credits.
Provides overview of strategic role of information, need for information systems, organizing information, integration of information systems in management processes and decision making, and related discussions in electronic commerce. Students cannot receive credit for both MIS 303 and MBUS 302. Notes: May not be taken for credit by School of Business majors. Students cannot receive credit for both MIS 301 and MBUS 302. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSOM 302.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Schedule Type: Lecture

MBUS 303: Marketing in a Global Economy. 3 credits.
Presents marketing principles, concepts, strategies, and analytical tools used by profit and nonprofit organizations to market ideas, products, and services to selected target groups. Emphasizes how to develop, promote, distribute, and price firm's offerings in dynamic economic, social, political, and global environment. Notes: May not be taken for credit by School of Business majors. Students cannot receive credit for both MKTG 303 and MBUS 303. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSOM 303.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Schedule Type: Lecture

MBUS 304: Entrepreneurship: Starting and Managing a New Enterprise. 3 credits.
Explores behaviors required to successfully launch a new business, tools to identify and evaluate opportunities, and the issues critical to a new firm. Issues include organizational structure, effective marketing strategy, operational logistics, legal issues, financial projections, financing options, and available support structures. Students cannot receive credit for both MKTG 303 and MBUS 303. Notes: May not be taken for credit by School of Business majors. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSOM 304.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Schedule Type: Lecture

MBUS 305: Introduction to International Business. 3 credits.
Multidisciplinary approach to global economy from the viewpoint of managing international business. Introduces various aspects of managing business in a global economy including theories and practices of international trade, investment, and business strategies. Notes: May not be taken for credit by School of Business majors. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSOM 305.

Mason Core: Global Understanding (p. 135)

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Schedule Type: Lecture

MBUS 306: Managing Projects and Operations. 3 credits.
Introduces project management and operations management concepts and tools including project planning, scheduling, monitoring, and control; process design, selection and improvement; supply chain management; inventory management; and quality assurance. Students cannot receive credit for both OM 303 and MBUS 306. Notes: May not be taken for credit by School of Business students. Students cannot receive credit for both OM 303 and MBUS 306. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSOM 306.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Schedule Type: Lecture

MBUS 308: Corporate Finance and Investments in a Global Economy. 3 credits.
Presents an introduction to corporate finance and investment topics within an international context and emphasis on time-value of money, interest rates, stock and bond valuation, and the risk/return relationship in financial markets. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Schedule Type: Lecture

MBUS 491: Special Topics: Business Minor. 3 credits.
Topics related to a minor in business will vary on the focus of the course and by discipline. Notes: May not be taken for credit by School of Business majors. Offered by School of Business (p. 846). May be
repeated within the degree for a maximum 6 credits. Equivalent to MSOM 491.

Registration Restrictions:
Students with a class of Freshman may [not enroll].
Non-Degree level students may [not enroll].

Schedule Type: Lecture

Music (MUSI)

100 Level Courses

MUSI 100: Fundamentals of Music. 3 credits.
Study of musical notation, interval and triad construction, reading of treble and bass clefs, scale construction, rhythm, elementary sight singing and ear training, and application at keyboard. Notes: Cannot be applied toward degree in music. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Mason Core: Arts (p. 135)

Schedule Type: Lecture

MUSI 101: Introduction to Classical Music. 3 credits.
Introduces art-music tradition of West. Techniques for expanding listening skills developed through study of musical elements, styles, and selected masterworks of musical literature. Notes: Must take only as free elective. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Mason Core: Arts (p. 135)

Schedule Type: Lecture

MUSI 102: Popular Music in America. 3 credits.
Investigates popular music styles and development in the United States with particular emphasis on the past 50 years. Lectures, recordings, and video enhance critical listening skills and examine stylistic and social contexts of popular music. Notes: Music majors may take only as free elective. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Mason Core: Arts (p. 135)

Schedule Type: Lecture

MUSI 103: Musics of the World. 3 credits.
Study and comparison of musical structure and expression in several world cultures, with special attention to social context and function. Studies selected Asian, Middle Eastern, African, and American (Latin, Native, African) cultures. Notes: For non-music majors only. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Mason Core: Global Understanding (p. 135)

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

MUSI 104: Introduction to Twentieth-Century Music. 3 credits.
Survey of various styles found in 20th-century music. Tonal, atonal, serial, and experimental music. Notes: Music majors may take only as free elective. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture

MUSI 105: Introduction to Twentieth-Century Music. 3 credits.
Study of musical notation, interval and triad construction, reading of treble and bass clefs, scale construction, rhythm, elementary sight singing and ear training, and application at keyboard. Notes: Cannot be applied toward degree in music. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture

MUSI 106: Fundamentals of Rock, Blues, and Jazz. 3 credits.
Fundamentals of Blues, Rock, and Jazz is designed for students without formal training in music theory. The course focuses on Afro-centric concepts in twentieth-century American musical culture including improvisation, emphasis on rhythm and groove, and use of multiple and integrated tonalities, such as major and minor in the blues. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture

MUSI 107: Jazz and Blues in America. 3 credits.
Historical, analytical, and aural survey of jazz from inception to present day. Looks at trends resulting from synthesis of jazz with other musical idioms. Notes: Music majors may take as free elective or part of jazz studies concentration. Offered by School of Music (p. 807). Limited to three attempts.

Mason Core: Arts (p. 135)

Registration Restrictions:
Students with the terminated from MUSI major attribute may [not enroll].

Schedule Type: Lecture

MUSI 113: Aural Skills I. 1 credit.
Students taught to sing a line of music without accompaniment of instrument. Matching tones, major and minor scales, key signatures, intervals, rhythm, treble and bass clefs, and rhythm and melodic dictation. Offered by School of Music (p. 807). Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may [not enroll].

Schedule Type: Studio

MUSI 114: Aural Skills II. 1-2 credits.
Continuation of MUSI 113. Alto and tenor clefs, modulation, various modes, and melodic and harmonic dictation. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 113.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may [not enroll].

Schedule Type: Studio
MUSI 115: Theory I. 3 credits.
Music notation, scales, key signatures, intervals, chords, cadences, and figured bass. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: Student must be able to read music, be able to pass a fundamentals of music test (administered during first week of classes), and have some proficiency on a musical instrument or in voice.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 116: Theory II. 3 credits.
First- and second-inversion chords, modulation, nonharmonic tones, figured bass, seventh chords. Analysis of Bach chorales; composition of four-part chorales in 18th-century style. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 115 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 121: NonMaj PMI: First Instrum. 1-2 credits.
Offered by School of Music (p. 807). May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: For non-music majors only. Two-credit level restricted to students with substantial prior private study.

Schedule Type: Private Music Instruction

Offered by School of Music (p. 807). May be repeated within the degree for a maximum 4 credits.

Recommended Corequisite: For non-music majors only. Two credit level restricted to students with substantial prior private study.

Schedule Type: Private Music Instruction

MUSI 171: Keyboard Skills I. 1 credit.
Study of piano keyboard as it relates to various clefs in music. Emphasis on solution of basic stylistic and technical problems. Offered by School of Music (p. 807). Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio

MUSI 172: Keyboard Skills II. 1 credit.
Study of piano keyboard as it relates to intermediate song and combined in various music forms. Notes: Nonmusic majors must have permission of instructor. Offered by School of Music (p. 807). Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio

MUSI 200: Music Theater Practicum. 1 credit.
Practicum records successful participation on a minimum 30 hour assignment on a Music-Theater production. It is an opportunity for students to apply classroom learning in a hands-on situation. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 5 credits.

Schedule Type: Studio

MUSI 213: Aural Skills III. 2 credits.
Continuation of Music 114. Emphasizes modulation, chromatic and nontonal melodies, various modes, melodic and harmonic dictation, clefs, and improvisation. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 213, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 214: Aural Skills IV. 2 credits.
Continuation on MUSI 213 with emphasis on chromatic and nontonal harmonies. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 213 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 215: Theory III. 3 credits.
Study of four-part chromatic harmony and analysis of 19th-century compositions. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 116 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 216: Theory IV. 3 credits.
Study of melodic, harmonic, rhythmic, and formal processes in post-tonal music. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 215 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture
MUSI 221: Applied Music I. 1 credit.
Applied music studies 1. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits.

**Recommended Prerequisite:** Audition or portfolio.

**Schedule Type:** Private Music Instruction

MUSI 222: Applied Music in Keyboard. 1 credit.
Applied music studies in Keyboard. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits.

**Recommended Prerequisite:** Audition.

**Recommended Corequisite:** MUSI 381, 384, or 385.

**Schedule Type:** Private Music Instruction

MUSI 223: Applied Music in Voice. 1 credit.
Applied music studies in Voice. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits.

**Recommended Prerequisite:** Audition.

**Recommended Corequisite:** MUSI 381, 384, or 385.

**Schedule Type:** Private Music Instruction

MUSI 224: Applied Music in Woodwind. 1 credit.
Applied music studies in Woodwind. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

**Recommended Prerequisite:** Audition.

**Schedule Type:** Private Music Instruction

MUSI 225: Applied Music in Brass. 1 credit.
Applied music studies in Brass. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

**Recommended Prerequisite:** Audition.

**Schedule Type:** Private Music Instruction

MUSI 226: Applied Music in String. 1 credit.
Applied music studies in String. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

**Recommended Prerequisite:** Audition.

**Schedule Type:** Private Music Instruction

MUSI 227: Applied Music in Percussion. 1 credit.
Applied music studies in Percussion. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

**Recommended Prerequisite:** Audition.

**Schedule Type:** Private Music Instruction

MUSI 228: Applied Music in Composition. 1 credit.
Applied music studies in Composition. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

**Recommended Prerequisite:** Portfolio of recent compositions.

**Schedule Type:** Private Music Instruction

MUSI 229: Non-Major Applied Music I. 1 credit.
Applied music studies I. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits.

**Recommended Prerequisite:** Audition or portfolio.

**Schedule Type:** Laboratory

MUSI 241: Applied Music II. 2 credits.
Applied music studies 2. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 16 credits.

**Recommended Prerequisite:** Audition or portfolio.

**Schedule Type:** Private Music Instruction

MUSI 242: Applied Music in Keyboard. 2 credits.
Applied music studies in Keyboard. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 16 credits.

**Recommended Prerequisite:** Audition.

**Recommended Corequisite:** MUSI 381, 384, or 385.

**Schedule Type:** Private Music Instruction

Applied music studies in Voice. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 16 credits.

**Recommended Prerequisite:** Audition.

**Recommended Corequisite:** MUSI 381, 384, or 385.

**Schedule Type:** Private Music Instruction

MUSI 244: Applied Music in Woodwind. 2 credits.
Applied music studies in Woodwind. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 16 credits.

**Recommended Prerequisite:** Audition.

**Schedule Type:** Private Music Instruction

MUSI 245: Applied Music in Brass. 2 credits.
Applied music studies in Brass. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 16 credits.

**Recommended Prerequisite:** Audition.

**Schedule Type:** Private Music Instruction

MUSI 246: Applied Music in String. 2 credits.
Applied music studies in String. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 16 credits.

**Recommended Prerequisite:** Audition.

**Schedule Type:** Private Music Instruction

MUSI 247: Applied Music in Percussion. 2 credits.
Applied music studies in Percussion. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 16 credits.

**Recommended Prerequisite:** Audition.
Schedule Type: Private Music Instruction

MUSI 248: Applied Music in Composition. 2 credits.
Applied music studies in Composition. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Portfolio or recent compositions.

Schedule Type: Private Music Instruction

MUSI 249: Non-Major Applied Music II. 2 credits.
Applied music studies II. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition or portfolio.

Schedule Type: Laboratory

MUSI 251: Musical/Oral Communication. 3 credits.
Introduces theories, processes, and practices to achieve effective oral communication; connects those principles with expressive musical performance. Explores parallels between grammar, logic, and rhetoric and musical structure, design, and performance. Critically analyzes time, tonality, and texture, applies these concepts in pedagogical contexts related to effective performance, practice habits, communication styles, and identifying/preventing performance-related repetitive overuse injuries. Notes: Requires observing professionals in the field. Offered by School of Music (p. 807). Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 252: Popular Music Arranging. 3 credits.
This course explores popular music styles and genres. Using this information to analyze popular music and arrange the music for various ensembles. Offered by School of Music (p. 807). Limited to three attempts.

Specialized Designation: Discovery of Scholarship

Recommended Prerequisite: MUSI 215.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 254: Music and Technology. 3 credits.
Study of technology related to music, including audio synthesis and computer-based hardware and software. Offered by School of Music (p. 807). Limited to three attempts. Equivalent to MUSI 315.

Specialized Designation: Discovery of Scholarship

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 259: Music in Computer Technology. 3 credits.
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation. Offered by School of Music (p. 807). Limited to three attempts. Equivalent to MUSI 415.

Mason Core: Information Technology: With Ethics (p. 135)

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Laboratory, Lecture

MUSI 273: Keyboard Skills III. 1 credit.
Continuation of MUSI 172. Study of techniques of harmonization at the piano keyboard. Notes: Nonmusic majors must have permission of instructor. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 172.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio

MUSI 280: Athletic and Ceremonial Ensemble. 1 credit.
Students gain an understanding of American popular and other musics developing personal expression via performance and creative design. Students also learn and develop leadership and management skills. An understanding of the vital role of community outreach and service is gained through first-hand experience. Offered by School of Music (p. 807). May be repeated within the term.

Mason Core: Arts (p. 135)

Schedule Type: Lecture

300 Level Courses

MUSI 300: Recital Attendance. 0 credits.
Students attend 10 student recitals to be selected from departmental and music education recitals, and junior, senior, and graduate recitals. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits.

Schedule Type: Studio

MUSI 301: Music in Motion Pictures. 3 credits.
Intensive study and analysis of using music tracks in motion pictures to introduce the picture, set a scene, create moods, or for musical numbers. From the silent film scores of the 1920s to the present (including electronic music). Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Mason Core: Arts (p. 135)

Recommended Prerequisite: Completion of 30 credits. Music and non-music majors welcome.

Schedule Type: Lecture

MUSI 302: American Musical Theater. 3 credits.
Intensive study of the musical elements in the American musical theater from its European and later African roots to its evolution between the wars into a native form, and its continual assimilation of external
influences such as new forms of jazz and rock to the eclectic form of the present day. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Mason Core:** Arts (p. 135)

**Recommended Prerequisite:** 30 credit hours or permission of the instructor.

**Schedule Type:** Lecture

**MUSI 303: Topics in Ethnomusicology.** 3 credits.
Advanced study of theory and method in ethnomusicology with specific thematic or geographic focus. Course emphasizes critical thinking, listening, and research in the study of music from around the world. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** MUSI 103, or MUSI 431, or permission of instructor.

**Schedule Type:** Lecture

**MUSI 304: Topics in Musicology.** 3 credits.
Designed for students with no music theory background, the course explores the intersection of music and culture in relation to specific topics. Issues addressed may include race, class, gender, economic context, aesthetics, etc. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** MUSI 379 or permission of instructor.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 311: Jazz Studies.** 3 credits.
Musicianship course integrating jazz improvisation, theory, composition, and arranging. Focuses on concepts unique to our time in style, form, and harmony. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 379 or permission of instructor.

**Recommended Corequisite:** MUSI 103, or MUSI 115

**Schedule Type:** Lecture

**MUSI 315: Music Technology.** 3 credits.
Study of technology related to music, including audio synthesis and computer-based hardware and software. Notes: There is a course fee beyond tuition charges. Offered by School of Music (p. 807). Limited to three attempts. Equivalent to MUSI 254.

**Recommended Prerequisite:** MUSI 100 or MUSI 115

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 316: Topics in Music Technology.** 3 credits.
Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry. Notes: There is a course fee beyond tuition charges. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits. Equivalent to MUSI 359.

**Recommended Prerequisite:** MUSI 315

**Schedule Type:** Lecture

**MUSI 319: Class Composition and Arranging.** 3 credits.
Students write original compositions for specified instruments, voices, or combinations. They then apply compositional principles to the creative arrangement of existing music of various styles. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 321: Non-Major PMI.** 1-2 credits.
Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** 4 credits in Non-Major Private Music Instruction or audition for the PMI coordinator.

**Schedule Type:** Private Music Instruction

**MUSI 323: Music Education Recital.** 0 credits.
Recital on major instrument given by student during junior or senior year. Notes: Recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** A minimum of 8 credits in Applied music instruction in major instrument.

**Recommended Corequisite:** Concurrent enrollment in the appropriate 2-credit Applied music course.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Private Music Instruction

**MUSI 324: Junior Recital.** 1 credit.
Public recital by student during junior year. Notes: Junior recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates. Offered by School of Music (p. 807). Limited to three attempts.

**Mason Core:** Capstone (p. 135)

**Recommended Corequisite:** Concurrent enrollment in 2-credit Applied music course.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Private Music Instruction

**MUSI 325: Performance Seminar and Vocal Literature for Singers and Accompanists.** 1-2 credits.
Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire
preparation and execution, diction, interpretation, style, and overall stage presence. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Schedule Type:** Lecture

**MUSI 326: Performance Seminar and Vocal Literature for Singers and Accompanists II - German and French.** 2 credits.

Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire preparation and execution, diction, interpretation, style, and overall stage presence. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** MUSI 215 or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 331: Music History in Society I.** 3 credits.

Historical survey of Western music from Greek times through the late Baroque era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 215 or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 332: Music History in Society II.** 3 credits.

Historical survey of Western music from the early Classical era through mid-19th century, with emphasis on specific musical genres and composers who developed them. Musical developments related to other aspects of society. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 807). Limited to three attempts.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** MUSI 216 and 331 or permission of instructor.

**Registration Restrictions:** Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 338: Music History in Society A.** 3 credits.

Historical survey of Western music from the late Renaissance through the Romantic era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 341: Diction for Singers I: Italian Diction and English Diction.** 2 credits.

Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in Italian and English. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Registration Restrictions:** Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 342: Diction for Singers II: German Diction and French Diction.** 2 credits.

Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in German and French. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Restricted to MUSI majors and minors. Non majors need permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 351: Keyboard Pedagogy.** 3 credits.

Investigates methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216, 273 and 8 credits in piano, harpsichord, organ or permission of instructor.

**Registration Restrictions:** Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 352: Vocal Pedagogy and Lab.** 3 credits.

Instruction in teaching of voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on the importance...
of vocal health. Offered by School of Music (p. 807). Limited to three attempts. Equivalent to MUSI 552.

**Recommended Prerequisite:** 8 credits Applied Music in Voice, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

MUSI 353: *Instrumental Pedagogy and Literature.* 3 credits.
Instruction in teaching instrumental music techniques for all levels through study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Junior standing in instrumental private music instruction or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

MUSI 354: *Electronic Composition.* 3 credits.
This course explores the techniques used in recording music with current software and hardware to edit, modify, and market music. Offered by School of Music (p. 807). Limited to three attempts.

**Specialized Designation:** Scholarly Inquiry

**Recommended Prerequisite:** MUSI 254.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

MUSI 355: *Recording Techniques.* 3 credits.
Explores the techniques used in recording music with current software and hardware to edit, modify, and market music. Offered by School of Music (p. 807). Limited to three attempts.

**Specialized Designation:** Scholarly Inquiry

**Recommended Prerequisite:** MUSI 254.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

MUSI 358: *Music Programming.* 3 credits.
The purpose of the class is to learn basic programming skills and concepts and to apply them directly to musical concepts and ideas. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 254, MUSI 354, and MUSI 355.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

MUSI 359: *Topics in Music Technology.* 3 credits.
Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits. Equivalent to MUSI 316.

**Recommended Prerequisite:** MUSI 354, MUSI 355.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

MUSI 361: *Class Strings.* 1 credit.
Study of playing and teaching string instruments with emphasis on violin and cello through beginning method book. Study of fingerings and bowing techniques to teach and play viola and bass at beginning levels. Survey of string playing techniques to conduct rehearsals at intermediate-, advanced-, and artist-level ensembles. Notes: Three hours per week studying violin, viola, cello, and bass; one hour per week in laboratory ensemble. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 2 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

MUSI 363: *Class Woodwinds.* 1 credit.
Study of techniques of playing and teaching Woodwind instruments, including flute, clarinet, saxophone, oboe, and bassoon. Survey of instructional materials, and mouthpiece and instrument selection. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 2 credits.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

**Schedule Type:** Studio

MUSI 364: *Class Woodwinds: Oboe and Bassoon.* 1 credit.
Study of techniques of playing oboe and bassoon. Survey of instructional materials, and reed adjustment. Notes: Three hours per week studying oboe and bassoon; one hour per week in laboratory ensemble. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 2 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

**Schedule Type:** Studio

MUSI 365: *Class Brass.* 1 credit.
Study of techniques of playing and teaching trumpet and French horn. Survey of instructional materials, and mouthpiece and instrument selection. Notes: Three hours per week studying trumpet and French horn; one hour per week in laboratory ensemble. Offered by School of
Music (p. 807). May be repeated within the degree for a maximum 2 credits.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 366: Class Percussion.** 1 credit.
Study of techniques of playing and teaching percussion instruments. Survey of instructional materials and instrument selection. Notes: Three hours per week studying percussion instruments; one hour per week in laboratory ensemble. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor. Students must register for studio and lab.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**MUSI 367: Class Guitar.** 1 credit.
Study of techniques of playing and teaching guitar. Survey of instructional materials and instrument selection. Notes: Three hours per week studying guitar; one hour per week in laboratory ensemble. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**MUSI 368: Class Voice.** 1 credit.
Study of the human voice in artistic singing. Emphasizes practical application of basic principles. Notes: Three hours per week studying voice; one hour per week in laboratory ensemble. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**MUSI 370: Laboratory Ensemble.** 0 credits.
This class an extension of the music education techniques and methods classes. Students will meet together once a week to perform on a secondary instrument or voice. In addition, this course provides student conductors with the opportunity to teach and/or rehearse a novice ensemble. A lab fee is assessed for this course. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 0 credits.

**Recommended Prerequisite:** Admission to music major program or permission of instructor.

**Schedule Type:** Laboratory

**MUSI 371: Techniques of Accompanying I.** 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Restricted to piano majors and minors, or to those with permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**MUSI 372: Techniques of Accompanying II.** 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Audition on a keyboard instrument for admission to a music degree program, 4 credits in undergraduate Applied Music instruction on a keyboard instrument, or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**MUSI 373: Advanced Accompanying and Musicianship Skills.** 3 credits.
Advanced study and techniques for accompanying choirs, vocal soloists, and instrumentalists. Additional instruction in keyboard reduction of orchestral scores for concertos, continuo/figured bass reading, lead-sheet reading, transposition, improvisation, transcription, and “playing by ear.” Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 372 (concurrent enrollment is permitted) or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 379: Jazz Improvisation.** 1 credit.
Study of improvisation techniques and styles, with emphasis on common practice period of jazz. Application on the student’s major instrument or voice to develop creativity and personal expression. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 116 or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**MUSI 380: Wind Symphony.** 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Highly selective group of instrumentalists perform works from wind symphony repertoire. Notes: Public concerts required.
Offered by School of Music (p. 807). May be repeated within the term for a maximum 12 credits.

**Mason Core:** Arts (p. 135)

**Recommended Prerequisite:** Audition.

**Schedule Type:** Studio

**MUSI 381: University Chorale.** 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from choral repertoire. Notes: Public concerts required. Offered by School of Music (p. 807). May be repeated within the term for a maximum 12 credits.

**Mason Core:** Arts (p. 135)

**Recommended Prerequisite:** Audition.

**Schedule Type:** Studio

**MUSI 382: Piano Ensemble.** 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Study and performance of original four-hand works for one and two pianos. Notes: Public performances required. Offered by School of Music (p. 807). May be repeated within the term for a maximum 12 credits.

**Mason Core:** Arts (p. 135)

**Recommended Prerequisite:** 4 hours of PMI (Piano) and audition.

**Schedule Type:** Studio

**MUSI 383: Symphonic Band.** 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from band repertoire. Notes: Public concerts required. Offered by School of Music (p. 807). May be repeated within the term for a maximum 12 credits.

**Mason Core:** Arts (p. 135)

**Recommended Prerequisite:** Audition.

**Schedule Type:** Studio

**MUSI 384: Symphonic Chorus.** 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of major works from the choral repertoire. Notes: Public concerts are given. Offered by School of Music (p. 807). May be repeated within the term for a maximum 12 credits.

**Mason Core:** Arts (p. 135)

**Recommended Prerequisite:** Audition.

**Schedule Type:** Studio

**MUSI 385: Chamber Singers.** 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Students explore their levels of artistic development through discovery, interpretation, and performance of choral music for vocal chamber music ensembles from multiple historical periods. Students bring to Mason and surrounding community musical compositions not readily accessible in regular concert repertoire. Offered by School of Music (p. 807). May be repeated within the term for a maximum 12 credits.

**Mason Core:** Arts (p. 135)

**Recommended Prerequisite:** Audition.

**Schedule Type:** Studio

**MUSI 387: Symphony Orchestra.** 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from symphony orchestra repertoire. Notes: Public concerts required. Offered by School of Music (p. 807). May be repeated within the term for a maximum 12 credits.

**Mason Core:** Arts (p. 135)

**Recommended Prerequisite:** Audition.

**Schedule Type:** Studio

**MUSI 388: Fundamental Techniques of Stagecraft for Opera and Music Theater.** 2 credits.
Study of basic to intermediate stage movement techniques necessary to the performance of opera and music theater roles. Emphasis on acting, improvisation, theater production, musical theater, and operatic role study. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 389: Jazz Ensemble.** 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Provides practical experience in various aspects of jazz performance: section work within a large aggregation, combo work, and improvisation. Notes: Public concerts required. Offered by School of Music (p. 807). May be repeated within the term for a maximum 12 credits.

**Mason Core:** Arts (p. 135)

**Recommended Prerequisite:** Audition.

**Schedule Type:** Studio

**MUSI 391: Conducting I.** 2 credits.
Study of basic techniques of conducting a musical ensemble. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216, 273 or permission of instructor

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio
MUSI 393: Music Administration and Management. 2 credits.
Prepares students to address aspects of administration and management of music programs in public and private schools. Investigates principles and concepts of management styles and planning. Covers curriculum, budget, student recruitment and retention, external relations of the music unit, and legal issues for music educators. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 116 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 394: Ethnomusicology Internship. 1-4 credits.
Option A) Professional internship with an organization dedicated to activities related to the field of ethnomusicology; Option B) Teaching internship in an undergraduate ethnomusicology course at Mason, supervised by the minor coordinator. Notes: All internships must be approved and all arrangements made prior to he beginning of the semester in which the internship is to take place. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: MUSI 103, or MUSI 431; Permission of the Ethnomusicology Minor Coordinator.

Schedule Type: Internship

MUSI 395: Teaching Internship. 1-4 credits.
Internship with a professional individual or organization in teaching. Introduction to teaching or augmentation of teaching skills. Students develop individual contracts defining the learning and competencies to be gained from the experience. Notes: Maximum of 9 internship credits (MUSI 395, 495, 496) can be applied toward a degree. Offered by School of Music (p. 807). May be repeated within the term for a maximum 4 credits.

Recommended Prerequisite: MUSI 251.

Schedule Type: Internship

MUSI 396: Conducting II. 2 credits.
Advanced conducting course emphasizing techniques for instrumental and choral conducting. Refining gestures, full score analysis and interpretation, rehearsal techniques, and changing meters. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 391 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio

400 Level Courses

MUSI 401: Impact of the Arts on Civilization. 3 credits.
Analyzes how genres of art impact us intellectually, emotionally, and subliminally. Broadens aesthetic and historical perspective, exposes students to major strands of contemporary thought, and develops discursive abilities through role-playing in round table discussions. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: 30 credit hours or Permission of Instructor.

Schedule Type: Lecture

MUSI 415: Music in Computer Technology. 3 credits.
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation. Offered by School of Music (p. 807). May not be repeated for credit. Equivalent to MUSI 259, MUSI 515.

Recommended Prerequisite: MUSI 319 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Laboratory, Lecture

MUSI 419: Orchestration. 3 credits.
Principles of combining and balancing instruments in orchestral and chamber contexts. Attention to orchestral terminology and general notation as well as timbre, range, clefs, transposition, special effects, and scoring procedures. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216 and 319, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 421: Applied Music Ill. 1 credit.
Applied music studies 3. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: Audition or portfolio of recent compositions.

Schedule Type: Private Music Instruction

MUSI 424: Senior Recital. 1 credit.
Public recital by student during senior year. Notes: Senior recital must be at least 50 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates. Offered by School of Music (p. 807). Limited to three attempts.

Mason Core: Capstone (p. 135)

Recommended Corequisite: Concurrent enrollment in 2-credit Applied music course.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Private Music Instruction

MUSI 431: Music History in Society Ill. 3 credits.
Studies contributions to the world of music in selected cultures such as India, Indonesia, China, Japan, Africa, Middle East, and Americas. Emphasizes comparative musical characteristics as well as sociological function. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 807). Limited to three attempts.

Mason Core: Global Understanding (p. 135)
Recommended Prerequisite: MUSI 216, 331, 332, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 432: Music History in Society IV. 3 credits.
Historical survey of Western music from late 19th century to present, with emphasis on specific musical genres and composers who developed them. Relates musical developments to other aspects of society, and considers interaction between world music. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 216, 331, 332, 431, or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 438: Music History in Society B. 3 credits.
Historical survey of Western vernacular and classical music from 1877 to 1945, with emphasis on musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Fulfills writing intensive requirement in the BA in music with a concentration in Music Technology. Offered by School of Music (p. 807). Limited to three attempts.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: MUSI 338 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 439: Music History in Society C. 3 credits.
Historical survey of Western vernacular and classical music from 1877 to 1945, with emphasis on specific musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 438, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 441: Private Music Instruction III. 2-3 credits.
Applied music studies 3. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition or portfolio of recent compositions.

Schedule Type: Private Music Instruction

MUSI 442: Applied Music in Keyboard. 2-3 credits.
Applied music studies in Keyboard. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

MUSI 443: Applied Music in Voice. 2-3 credits.
Applied music studies in Voice. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Recommended Corequisite: MUSI 381, 384, or 385.

Schedule Type: Private Music Instruction

MUSI 444: Applied Music in Woodwind. 2-3 credits.
Applied music studies in Woodwind. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

MUSI 445: Applied Music in Brass. 2-3 credits.
Applied music studies in Brass. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

MUSI 446: Applied Music in String. 2-3 credits.
Applied music studies in String. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

MUSI 447: Applied Music in Percussion. 2-3 credits.
Applied music studies in Percussion. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

MUSI 448: Applied Music in Composition. 2-3 credits.
Applied music studies in Composition. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Schedule Type: Private Music Instruction

MUSI 450: Jazz Improvisation I. 2 credits.
Emphasizes improvisational materials and language developed in common practice period of jazz. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 379 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 451:** *Keyboard Pedagogy II.* 3 credits. 
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 351 or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 452:** *Jazz Improvisation II.* 2 credits. 
Emphasis on advanced improvisational techniques and contemporary tunes. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 379 or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 454:** *Jazz Arranging.* 3 credits. 
Transcription, analysis, and scoring for small and large jazz ensembles. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 311 or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**MUSI 455:** *Music as a Healing Art.* 3 credits. 
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisory performance. Offered by School of Music (p. 807). May be repeated within the degree for a maximum of 6 credits.

**Recommended Prerequisite:** Basic proficiency with instrument or voice or permission of instructor.

**Schedule Type:** Lecture

**MUSI 461:** *The Teaching of General Music in the Elementary and Middle School.* 3 credits. 
Studies theory, methods, practice, and materials to teach general music in elementary and middle school. Students spend three hours per week in class and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools. Notes: For music majors only. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 114, 216, 273 and acceptance into the Music Education concentration.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture

**MUSI 463:** *The Teaching of Vocal Music in the Secondary School.* 3 credits. 
Survey of repertoire and methods for teaching high school choral groups, small ensembles, and voice classes. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216, 273, 391 and acceptance into the Music Education concentration.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture

**MUSI 464:** *Instrumental Music Methods I.* 3 credits. 
Prepares students to successfully plan, organize, and administer marching band and jazz ensemble programs in secondary public school music curriculum. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216, 273, and acceptance into the Music Education concentration.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture

**MUSI 465:** *Selected Topics in Music Education.* 1-3 credits. 
Topics of practical interest to prospective and practicing music educators covering pedagogy, performance, and logistics of teaching music in schools, private studios, and communities. Offered by School of Music (p. 807). May be repeated within the degree for a maximum of 6 credits.

**Schedule Type:** Studio

**MUSI 466:** *Instrumental Music Methods II.* 3 credits. 
Prepares students to teach instrumental music in elementary, middle, and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by School of Music (p. 807). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216, 273, 391 and acceptance into the Music Education concentration.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture
MUSI 467: Instrumental Music Methods I: Orchestra. 3 credits.
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4-12), and explore teaching materials appropriate for individual and class instruction. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216, 273, 361 and acceptance into the Music Education concentration.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 477: Music and Consciousness. 3 credits.
A study of the ways music has affected the mind and brain from throughout history to the present. By using principles of entrainment and resonance, the course demonstrates experientially the various methods by which music is used to alter consciousness. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Basic proficiency with an instrument or voice or permission of instructor.

Schedule Type: Lecture

MUSI 485: Chamber Ensembles. 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from chamber music repertoire. Notes: Public performances required. Offered by School of Music (p. 807). May be repeated within the term for a maximum 17 credits.

Mason Core: Arts (p. 135)

Recommended Prerequisite: Audition.

Schedule Type: Studio

MUSI 490: RS: Musical Communication in Context. 3 credits.
Explains nature of musical communication in a variety of contexts, and combines knowledge gained in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. Students address these through essays in the style of a journal or portfolio, substantial paper, and oral presentation of paper before faculty and student panel. Offered by School of Music (p. 807). Limited to three attempts.

Mason Core: Capstone (p. 135)

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: Must be in senior year of the B.A. program in Music and have completed all other Mason Core requirements.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

MUSI 491: Musical Communication in Performance. 1 credit.
Helps student conceive of musical performance as communication in a variety of contexts, and combines knowledge in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. Students consider various aspects of musical communication to prepare senior recital. Students explore social, historical, analytical, and aesthetic aspects of the music they are to perform by composing essays in the style of a journal or portfolio. Students prepare a substantial paper on recital repertoire and present that paper before a faculty and student panel. Offered by School of Music (p. 807). Limited to three attempts.

Mason Core: Capstone (p. 135)

Recommended Prerequisite: Completion of all other Mason Core courses for the BM performance concentration.

Recommended Corequisite: Concurrent enrollment in the appropriate 3-credit PMI course and in MUSI 424.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Seminar

MUSI 492: Selected Topics in Music. 1-3 credits.
Topics of practical interest to students in composition, music history and literature, world music, jazz studies, and performance practices. Offered by School of Music (p. 807). May be repeated within the term.

Recommended Prerequisite: 45 credits or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Lecture

MUSI 493: Topics in Music Theory. 3 credits.
Intensive exploration of selected topics in music theory and analysis. Offered by School of Music (p. 807). Limited to three attempts.

Recommended Prerequisite: MUSI 216 or permission of the instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

MUSI 495: Internship in Music Education. 6-12 credits.
Full semester of intensive student teaching experience in approved Virginia schools. Offered by School of Music (p. 807). May not be repeated for credit.

Mason Core: Capstone (p. 135)

Recommended Prerequisite: Completion of all other courses required for the B.M. with a concentration in music education.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Internship
MUSI 496: Internship. 2-6 credits.
Contact the department one semester before enrollment. Internships are approved work-study programs with specific employers or agencies. Notes: Credit is determined by the department. Maximum 9 internship credits (MUSI 395, 495, 496) can be applied toward degree. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: Completion of 90 hours.
Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Internship

MUSI 497: Independent Study. 1-3 credits.
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: Completion of 90 hours.
Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Independent Study

MUSI 498: Independent Study. 1-3 credits.
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: Completion of 90 hours.
Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Independent Study

500 Level Courses

MUSI 501: Graduate Theory Review. 3 credits.
Vocabulary and conceptual review of diatonic and chromatic harmony, part writing, form, harmonization, 20th-century techniques. Notes: Does not count toward required credits of a graduate music degree. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

MUSI 515: Music in Computer Technology. 3 credits.
Overview computer use in music. Topics include principles of musical instrument digital interface (MIDI); synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet, and surveys multimedia applications in music history, theory, ear training, improvisation, and notation. Offered by School of Music (p. 807). May not be repeated for credit. Equivalent to MUSI 415.

Recommended Prerequisite: Baccalaureate degree in music or permission of instructor.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

MUSI 516: Keyboard Skills. 3 credits.
Enhance keyboard skills for the non-keyboard major, including technique, harmonization, transposition, reading, and accompanying. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Studio

MUSI 517: Score Reading Skills. 3 credits.
Enhance score study and score reading skills for the conductor. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

MUSI 526: Performance Seminar and Vocal Literature for Singers and Accompanists II. 2 credits.

Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 541: Diction for Singers I: Italian Diction and English Diction. 2 credits.

Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art song and operatic repertoire. Intensified, systematic study of phonetics as it applies to Italian and English. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: Graduate status in applied voice or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 542: Diction for Singers II: German Diction and French Diction. 2 credits.

Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Intensified, systematic study of phonetics as it applies to singing in German and French. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: Graduate status in applied voice or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 551: Keyboard Pedagogy.** 3 credits.
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Graduate status in applied piano or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 552: Vocal Pedagogy and Lab.** 3 credits.
Instruction in teaching voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on vocal health. Offered by School of Music (p. 807). May not be repeated for credit. Equivalent to MUSI 352.

**Recommended Prerequisite:** Graduate status in applied voice or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**MUSI 553: Instrumental Pedagogy and Literature.** 3 credits.
Instruction in teaching of instrumental music techniques for all levels through the study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate in music, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 555: Music as a Healing Art.** 3 credits.
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, tuning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Basic proficiency with instrument or voice, and bachelor's degree in music.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 557: Kodaly I.** 3 credits.
In depth study of Kodaly, concentrating in four areas: Methodology, Materials, Solfege, and Conducting Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 557 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 558: Kodaly II.** 3 credits.
Continues to build on and expand Kodaly knowledge and skills in the four areas: Methodology, Materials, Solfege, and Conducting Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 557 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 559: Kodaly III.** 3 credits.
Completion of Kodaly training, finishing Kodaly Methodology, Materials, Solfege, and Conducting Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 558 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 561: Music Curriculum and Instructional Procedures. 3 credits.
This graduate course is designed to prepare students for a job in the elementary or middle school general music classroom. Classes will equip students with the competencies necessary to plan, create, implement, and evaluate a general music curriculum. Current trends, materials, methods, and approaches in music education will be reviewed. Offered by School of Music (p. 807). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 563: Orff Schulwerk I. 3 credits.
Intensive introduction to Orff teaching philosophy with practical and theoretical instruction and immersion in the method itself. Students learn concepts of rhythm, harmony, solfege, modes, improvisation, and pedagogy. Students learn basic performance technique on soprano recorder, and learn to apply movement and dance in their teaching. Offered by School of Music (p. 807). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 564: Orff Schulwerk II. 3 credits.
Continues intensive study of Orff teaching philosophy with practical and theoretical instruction and immersion in the method itself. Teaches further concepts of rhythm and meter including asymmetrical patterns. Reviews pentatonic modes and their transpositions, studies pentachordal and hexachordal scales, and begins intensive work with diatonic modes. Students work with a variety of percussion instruments including body percussion, unpitched instruments, and barred instruments. They sing and play soprano, alto, tenor, and bass recorders. Movement studies continue with intensive study of vocabulary of dance and mime. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: MUSI 563 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 565: Orff Schulwerk III. 3 credits.
Continues intensive study of Orff teaching philosophy to complete certification process in Orff Schulwerk. Students continue intensive work in rhythm, melody, harmony, timbre, form, and pedagogy. Tenor, bass, and soprano recorders introduced. Movement and rhythmic studies concentrate on mixed meters and non-Western source materials and styles. Offered by School of Music (p. 807). May not be repeated for credit.

Recommended Prerequisite: MUSI 563 and 564 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 566: Instrumental Methods for Band. 3 credits.
This course prepares students to teach instrumental music in elementary and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Offered by School of Music (p. 807). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 567: Instrumental Methods, Strings. 3 credits.
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4-12), and to explore teaching materials appropriate for individual and class instruction. Three hours per week spent in class, one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Offered by School of Music (p. 807). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
**MUSI 568: Vocal and Choral Methods. 3 credits.**
A Survey course that introduces repertoire and methods for teaching middle and high school choral groups, small ensemble and voice classes. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools. Offered by School of Music (p. 807). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

---

**Recommended Prerequisite:** Admission to graduate-level Private Music Instruction in a keyboard instrument or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

---

**MUSI 571: Techniques of Accompanying I. 1 credit.**
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Admission to graduate-level Private Music Instruction in a keyboard instrument or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

---

**MUSI 572: Techniques of Accompanying II. 1 credit.**
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Admission to graduate-level Private Music Instruction in a keyboard instrument or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

---

**MUSI 573: Accompanying and Musicianship III. 3 credits.**
For piano majors or students with significant keyboard skills. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 572.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

---

**MUSI 577: Music and Consciousness. 3 credits.**
A Study of the ways music has affected the mind and brain from throughout history to the present day. By using the principles of entrainment and resonance, it will be demonstrated experientially the various methods by which music is used to alter consciousness. Offered by School of Music (p. 807). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

---

**MUSI 592: Topics in Music. 1-6 credits.**
Intensive study of selected topics in performance, composition, or conducting. Individual research, group discussions, and participation in related activities. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the term for a maximum 12 credits.

**Recommended Prerequisite:** Baccalaureate degree in music.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Studio

---

**MUSI 593: Foundations of Music Education. 3 credits.**
This course prepares students to address aspects of administration management of music programs in public and private schools. Various principles and concepts of management styles and planning are investigated. Topics addressed include: curriculum, budget, student recruitment and retention, music facilities, external relations of the music unit and legal issues for music educators. Offered by School of Music (p. 807). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 595: Internship in Music Education.** 6-9 credits.
This course prepares students to successfully plan and implement pedagogical strategies for the effective teaching of instrumental music. Students will also gain experience administering a music program in the elementary and secondary school music curriculum. Students will participate in class teaching modules and field experiences in the public schools. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** 1. Completion of all courses required for the Graduate Certificate in Music Education Licensure for PK-12. 2. Successful completion of the Music Education "Instrumental Proficiency Exam" requirements listed in the Music Education Handbook. 3. Successful completion of the Praxis I Examination (or equivalency), and VCLA (or Praxis I equivalency).

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

### 600 Level Courses

**MUSI 610: Topics in Music Theory.** 3 credits.
Uses music analytical theories to examine repertoire from a given time period or style. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** MUSI 501, 502, and 516 or appropriate score on graduate placement exam.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 611: Analytical Techniques.** 3 credits.
Detailed formal and stylistic examination of music selected from the major style periods. Development of graduate-level analytical skills. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 501, 502, and 516 or appropriate score on graduate placement exam.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 613: Graduate Orchestration.** 3 credits.
Intensive study of instrumentation through analysis and arrangement. Includes contemporary techniques and scoring for large forces. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 501, 502, and 516 or appropriate score on the graduate placement exam.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 614: Music Theory Pedagogy.** 3 credits.
Study of materials and procedures in the teaching of undergraduate-level music theory subjects. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 615: Advanced Jazz Improvisation.** 3 credits.
Advanced techniques and applications of jazz improvisation. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Graduate placement exam or permission of instructor.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 621: Graduate Applied Music.** 1 credit.
Graduate Applied music studies Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.
Recommended Prerequisite: Audition or portfolio.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 622: Applied Music in Keyboard. 1 credit.
Applied music studies in Keyboard. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Applied music studies in Voice. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 624: Applied Music in Woodwind. 1 credit.
Applied music studies in Woodwind. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 625: Applied Music in Brass. 1 credit.
Applied Music studies in Brass. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 626: Applied Music in String. 1 credit.
Applied Music studies in String. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 627: Applied Music in Percussion. 1 credit.
Applied Music studies in Percussion. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 628: Applied Music in Composition. 1 credit.
Applied Music studies in Composition. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 629: Applied Music in Conducting. 1 credit.
Applied Music studies in Conducting. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.
Music (MUSI)

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Private Music Instruction

MUSI 630: *Topics in Music History and Literature.* 3 credits.
Examination of a musical style, genre, composer, compositional school, or historical development. Primary and secondary source materials studied in historical and analytical contexts. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** MUSI 532 and 533 or appropriate score on the graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MUSI 640: *Topics in World Musics.* 3 credits.
Study of musics from selected cultures. Students will study structural, social, and cognitive foundations of the music. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MUSI 650: *Topics in Jazz Studies.* 3 credits.
Study of selected topics in performance, composition, arranging and analysis. May be repeated for up to 9 credits as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Graduate placement exam or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MUSI 651: *Keyboard Pedagogy II.* 3 credits.
Develop effective teaching strategies, business practices, and investigative/diagnostic approaches in repertoire exploration to prepare/improve teaching abilities in independent studio. Examine professional role of independent piano teacher, investigate scope and sequence of repertoire development, explore creative activities and computer use in the studio, develop understanding of technical skill development, examine intermediate/advanced keyboard repertoire, explore various teaching strategies/philosophies. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Keyboard Pedagogy I.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MUSI 652: *Vocal Pedagogy II.* 3 credits.
A continuation of vocal pedagogy I, which focused on teaching voice through the rudimentary and systematic study of vocal physiology and pedagogical methods, and included the process, procedures, development and practice of the art of singing. Pedagogy II provides students the opportunity to apply this information to real life situations through use of four specific scenarios and practical teaching experience. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Vocal Pedagogy I.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MUSI 653: *Instrumental Pedagogy II.* 3 credits.
Prepares students for teaching string techniques of their major instrument for all levels through study of pedagogical methods and standard literature. Develop sound business practices/policies to ensure success in setting up a private studio; become familiar with local/national professional organizations serving the string teaching community; explore teaching abilities through a case study project involving one or more students. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Instrumental Pedagogy I.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 654:** Graduate Conducting. 3 credits.
Classroom study of conducting, including refining gestures, rehearsal leadership, and the communication of musical style. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 660:** Topics in Music Education. 1-6 credits.
Examination of specific areas of concern to music educators. Individual research, group discussions, and participation in related activities. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** Baccalaureate degree in music; graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 661:** Psychology of Music Teaching and Learning. 3 credits.
Study of the learner’s musical behaviors (affective, cognitive, and psychomotor) in an effort to devise an empirically based teaching method founded on learning principles. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate degree in music; graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 662:** Introduction to Research in Music. 3 credits.
Development of skills, attitudes, and understanding to conduct and report research in music, including philosophical bases, scope and organization, stylistic practices in writing research reports, study of materials and resources in music and music education, and proper use of library and other research services. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate degree in music or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 663:** Aesthetics of Music Education. 3 credits.
Study of philosophical foundations of contemporary music education, and critical examination of music programs and activities in aesthetic education and efforts by music education establishment to enhance them. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate degree in music or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 664:** Advanced Pedagogy. 3 credits.
Advanced instruction in pedagogy including study of methods, theories, techniques, and materials for teaching children and adult students. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 551, or MUSI 552, or MUSI 553, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
**MUSI 681: Graduate Choral Ensembles.** 1 credit.
Performance of works from the choral repertoire. Notes: Public concerts are given. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Studio

**MUSI 682: Wind Symphony.** 1 credit.
Highly selective group of instrumentalists performing works from the wind repertoire. Notes: Public concerts are given. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Studio

**MUSI 683: Symphonic Band.** 1 credit.
Performance of works from band repertoire. Notes: Public concerts are given. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Studio

**MUSI 685: Graduate Chamber Ensemble.** 1 credit.
Performance of works from chamber music repertoire. Notes: Public concerts are given. Offered by School of Music (p. 807). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Studio

**MUSI 687: Symphony Orchestra.** 1 credit.
Performance of works from orchestral repertoire. Notes: Public concerts are given. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Studio

**MUSI 688: Opera and Musical Theater Ensemble.** 3 credits.
Solo-vocal, performance-oriented ensemble class that presents operatic works or excerpts from them, from Baroque to 21st century, as well as works or excerpts from American musical theater. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**MUSI 689: Jazz Ensemble.** 1 credit.
Provides practical experience in aspects of jazz performance. Participation in section rehearsals and small and large jazz groups. Jazz improvisation expected. Notes: Public concerts are given. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture
**MUSI 690: Graduate Lecture Recital.** 1-3 credits.
Combination of musical performance and scholarly presentation on a well-defined topic. Notes: Public presentation required. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Baccalaureate degree in music, audition.

**Recommended Corequisite:** MUSI 621 (3-credit level).

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**MUSI 695: Teaching Internship.** 2 credits.
Teaching beginner, intermediate, and early advanced students in private or group lessons under faculty supervision. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** MUSI 660.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**MUSI 699: Independent Study.** 1-3 credits.
Individual research and study a concentration available in the master of music. Offered by School of Music (p. 807). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Baccalaureate degree in music and permission of graduate coordinator. Individualized section form required.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**700 Level Courses**

**MUSI 710: Advanced Topics in Music Theory.** 3 credits.
Advanced study of specific styles and repertoire from the perspective of various analytical approaches. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** MUSI 501, 502, and 516 or appropriate score on graduate placement exam.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 712: Composition for Conductors and Performers.** 3 credits.
Advanced study of new music for various media. Notes: This course is not for students in the composition concentration. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 720: Advanced Topics in Applied Music.** 3 credits.
Advanced study of concepts in applied music. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 721: Applied Music.** 2-3 credits.
Applied Music studies. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition or portfolio.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**MUSI 722: Applied Music in Keyboard.** 2-3 credits.
Applied music studies in Keyboard. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Private Music Instruction

**MUSI 723: Applied Music in Voice.** 2-3 credits.
Applied music studies in Voice. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Private Music Instruction
MUSI 723: Applied Music in Voice. 2-3 credits.
Applied music in Voice. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 724: Applied Music in Woodwind. 2-3 credits.
Applied music studies in Woodwind. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 725: Applied Music in Brass. 2-3 credits.
Applied music studies in Brass. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 726: Applied Music in String. 2-3 credits.
Applied music studies in String. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 727: Applied Music in Percussion. 2-3 credits.
Applied music studies in Percussion. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 728: Applied Music in Composition. 2-3 credits.
Applied music studies in Composition. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 729: Applied Music in Conducting. 2-3 credits.
Applied music studies in Conducting. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

MUSI 730: Advanced Topics in Music History. 3 credits.
Advanced study of specific genres, composers, or repertoire from a historically analytical perspective. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: MUSI 532 and 533 or appropriate score on the graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 760: Advanced Topics in Music Education. 3 credits.
Advanced study of selected issues in music education. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

MUSI 770: Advanced Topics in Pedagogy. 3 credits.
Advanced study of a specific topic in the pedagogy of music. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
MUSI 777: *Music and Consciousness* 2. 3 credits.
The scientific mechanisms behind vibrational healing are uncovered showing how energy medicine affects Well-Being in a positive way. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 577 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MUSI 780: *Doctoral Research Methods in Music.* 3 credits.
Development of analytical skills to design and create an original contribution to music scholarship at the doctoral level, by making students aware of the varied tools available to them to write a mock dissertation proposal. Offered by School of Music (p. 807). May not be repeated for credit.

**Recommended Prerequisite:** Graduate Placement exam.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

MUSI 790: *Graduate Recital.* 1 credit.
Public performance. Repertoire and performance standards as approved by faculty. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** At least three credits of graduate PMI in the appropriate instrument or voice.

**Recommended Corequisite:** MUSI 700-level PMI (3-credits).

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Private Music Instruction

MUSI 796: *Directed Reading/Research.* 1-3 credits.
Individualized study on a topic approved by faculty. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

MUSI 799: *Thesis.* 1-6 credits.
Supervised research on approved thesis topic. Offered by School of Music (p. 807). May be repeated within the degree.

**Recommended Prerequisite:** Completion of at least 12 hours of graduate study including MUSI 511 and approval of the topic. Students in the music education concentration must also have taken MUSI 562 and successfully passed the comprehensive exit examination.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

### 800 Level Courses

MUSI 800: *Studies for the Doctor of Philosophy in Education.* 1-6 credits.
Program of studies designed by the student's discipline director and approved by student's doctoral committee that brings student to participate in research, performance, or creative activity of discipline director and results in a paper reporting original contributions. Offered by School of Music (p. 807). May be repeated within the degree.

**Recommended Prerequisite:** Open only to PhD Education students admitted to study in music.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

MUSI 810: *Doctoral Seminar in Analysis.* 3 credits.
Seminar study of a specific genre or repertoire from various analytical perspectives. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Graduate placement examination.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

MUSI 821: *Doctoral Private Music Instruction.* 2-3 credits.
Private instruction in performance, conducting, or composition. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition or portfolio.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

MUSI 822: *Doctoral Applied Music in Keyboard.* 2-3 credits.
Doctoral applied music studies in Keyboard. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

Doctoral applied music studies in Voice. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.
**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**MUSI 824:** Doctoral Applied Music in Woodwind. 2-3 credits.
Doctoral applied music studies in Woodwind. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**MUSI 825:** Doctoral Applied Music in Brass. 2-3 credits.
Doctoral applied music studies in Brass. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**MUSI 826:** Doctoral Applied Music in String. 2-3 credits.
Doctoral applied music studies in String. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**MUSI 827:** Doctoral Applied Music in Percussion. 2-3 credits.
Doctoral applied music studies in Percussion. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**MUSI 828:** Doctoral Applied Music in Composition. 2-3 credits.
Doctoral applied music studies in Composition. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Portfolio of recent compositions.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**MUSI 829:** Doctoral Applied Music in Conducting. 2-3 credits.
Doctoral applied music studies in Conducting. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**MUSI 830:** Doctoral Seminar in Music History. 3 credits.
Seminar study of a specific genre, composer, or repertoire from a historically analytical perspective. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Graduate placement exam.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**MUSI 860:** Doctoral Seminar in Music Education. 3 credits.
Seminar study of a specific issue in music education. Notes: May be repeated as topics change. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Graduate placement exam.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**MUSI 880:** Doctoral Major Ensemble. 1 credit.
Selective ensemble experience for doctoral students in music. Notes: Public concerts are given. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Studio

**MUSI 890:** Doctoral Recital. 1 credit.
Public performance. Repertoire and performance standards as approved by faculty. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** At least three credits of MUSI 821 in the appropriate instrument or voice.

**Recommended Corequisite:** MUSI 821 for 3 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**900 Level Courses**

**MUSI 998:** Dissertation Proposal. 1-3 credits.
Preparation of a proposal for a dissertation study in music under the supervision of music faculty members. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Admission to a doctoral program in music, permission of faculty.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**MUSI 999: Dissertation.** 1-12 credits.
Preparation of a dissertation in music under the supervision of music faculty members. Offered by School of Music (p. 807). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.
Enrollment is limited to Graduate level students.

**Nanotechnology and Nanoscience (NANO)**

**500 Level Courses**

**NANO 500: Introduction to Nanomaterials and Interactions.** 3 credits.
Introduction to nanotechnology. Discussion of the Feynman challenge and its relation to modern science. Applications to nanostructures of charges, currents, diamagnetics, paramagnetics, and ferromagnetics. Offered by Computational & Data Sciences (p. 650). May not be repeated for credit.

**Recommended Prerequisite:** BS in any physical science, mathematics, or engineering; or permission of certificate director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NANO 510: Strategies for Nanocharacterization.** 3 credits.
Introduces various nanocharacterization techniques, with a discussion of which techniques are most useful in various applications. Includes gates and bridges, chemical thermodynamics, kinetics, and solid-state reactions. Offered by Computational & Data Sciences (p. 650). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500 or permission of certificate director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NANO 520: Survey of Nanostructures.** 3 credits.
Discusses nanomechanical oscillators and nanoresonators, nanofibers, and conducting polymer nanowires. Nanomechanical beams for reacting ion etching. Electron-beam lithography and photolithography. Offered by Computational & Data Sciences (p. 650). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500 and 510 or permission of certificate director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NANO 530: Nanofabrication.** 3 credits.
Covers pulsed laser deposition, molecular beam epitaxy, controlled vapor deposition, reactive sputtering, and doping and implant isolation. Offered by Computational & Data Sciences (p. 650). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500 and 510, or permission of certificate director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NANO 540: Nanotechnology in Commerce and Government.** 3 credits.
Discusses competitive position of United States and other countries in nanoscience and nanotechnology. Covers business strategies, environmental, and public health aspects of nanotechnology applications. Also introduces students to issues involving legal, economic, social, and political controls over nanotechnology and nanoscience research. Offered by Computational & Data Sciences (p. 650). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500, and admission into graduate certificate program in nanotechnology and nanoscience.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**600 Level Courses**

**NANO 610: Nanoelectronics.** 3 credits.
Introduces basic elements of nanoelectronic structures, including quantum layers, quantum wires, and quantum dots. Covers sub-band structure, transport in quantum layers, behavior in the presence of magnetic fields, Coulomb blockades, CMOS nanodevices and
nanoelectronics, and SOI multigate device physics and modeling. Offered by Computational & Data Sciences (p. 650). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500, 510, and 520, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NANO 620:** Computational Modeling in Nanoscience. 3 credits.
Introduction to simulation methods used in nanoscience. Covers computational approaches to modeling molecular and condensed matter at the nanoscale level, including interatomic and molecular potentials, molecular mechanics, molecular dynamics, monte carlo averaging, ensemble distributions, numerical sampling, thermodynamic functions, dynamic structure, and introduction to cellular automata. Offered by Computational & Data Sciences (p. 650). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500, 510, and 520, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Native American and Indigenous Studies (NAIS)**

**200 Level Courses**

**NAIS 201:** Introduction to Native American and Indigenous Studies. 3 credits.
Introduction to the history, social organization, political experience, and artistic expression of indigenous peoples of the western hemisphere, focusing primarily on American Indians, using methods and materials from a number of disciplines. Offered by English (p. 350). May not be repeated for credit.

**Schedule Type:** Lecture

**400 Level Courses**

**NAIS 499:** Independent Study. 3 credits.
Intensive study of a particular area, topic, or critical or theoretical problem related to Native American and Indigenous Studies to be conducted in close consultation with an instructor. At least one substantial, researched piece of written work required. Offered by English (p. 350). May not be repeated for credit.

**Schedule Type:** Independent Study

**Neuroscience (NEUR)**

**300 Level Courses**

**NEUR 327:** Cellular, Neurophysiological, and Pharmacological Neuroscience. 3 credits.
Basic concepts of cellular and molecular level neuroscience, including neuronal functions, cellular anatomy and membrane functions, electrical properties of neurons, and cellular basis of plasticity. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** CHEM 211, PSYC 375 or permission of instructor.

**Schedule Type:** Lecture

**NEUR 335:** Molecular, Developmental, and Systems Neuroscience. 3 credits.
In-depth survey of genetic and embryological development of the brain and introduction to systems neuroscience, including sections on patterning gene expression, generation and migration of neurons, axonal and dendritic outgrowth, and basic neuroanatomy. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 373 (may also be enrolled concurrently), PSYC 376.

**Schedule Type:** Laboratory, Lecture

**400 Level Courses**

**NEUR 405:** RS: Laboratory Methods in Behavioral Neuroscience. 3 credits.
Introduction to experimental methods used in behavioral neuroscience research. Laboratory work includes surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed. This requires working with laboratory rodents. Offered by Neuroscience (p. 743). May not be repeated for credit. Equivalent to NEUR 395.

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** PSYC 300, BIOL 312 or equivalent. PSYC 372 or PSYC 376 or permission of instructor.

**Schedule Type:** Laboratory

**NEUR 410:** Seminar in Neuroscience. 3 credits.
Advanced seminar on a selected topic in neuroscience. Includes in depth reading and discussion of current research in human and nonhuman animals, with an emphasis on critical evaluation. Notes: Course may be repeated if selected topic is different. Offered by Neuroscience (p. 743). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Lecture
Schedule Type: Lecture

NEUR 427: Developmental Neuroscience. 3 credits.
Selected topics reflecting in specialized areas of neuroscience. Offered by Neuroscience (p. 743). May not be repeated for credit.

Recommended Prerequisite: NEUR 327, NEUR 335 or permission of instructor.

Schedule Type: Lecture

NEUR 480: Biological Bases of Alzheimer's Disease. 3 credits.

Recommended Prerequisite: PSYC 375; PSYC 376; PSYC 375 or equivalent or permission of instructor.

Schedule Type: Lecture

NEUR 592: Special Topics in Neuroscience. 3 credits.
Special topics in neuroscience reflecting specialized areas or new subfields that not covered in fixed-content neuroscience courses. Course may be repeated for credit as needed. Offered by Neuroscience (p. 743). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: NEUR 327, NEUR 335 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

600 Level Courses

NEUR 600: Chemistry and the Brain. 3 credits.
Fundamentals of general chemistry, atoms, molecules, and reactions, with emphasis on water solutions. Organic compounds and functional groups, biosynthesis and properties, and examples from nervous system. Also includes biopolymers and their roles in cellular and neuronal organization, ionic channels, neurotransmitter receptors, and psychoactive substances. Offered by Neuroscience (p. 743). May not be repeated for credit. Equivalent to PSYC 556.

Recommended Prerequisite: Admission to neuroscience PhD program or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NEUR 601: Developmental Neuroscience. 3 credits.
Introduction to developmental neurobiology with overview of embryological development of the nervous system. Topics include neural induction, patterning/cell fate specification, and neural circuit assembly together with modern molecular methods for exploring neural development. Offered by Neuroscience (p. 743). May not be repeated for credit.

Recommended Prerequisite: Completion of 60 credits, including PSYC 372 or BIOL 213 or BIOL 303.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

**NEUR 602: Cellular Neuroscience.** 3 credits.
Detailed overview of the functioning and interactions of the cellular elements of the central nervous system. Topics include structure and function relationships, the chemical, physical, and electrical basis of neural signaling, local versus long-distance signaling, generation of action potentials, and essentials of synaptic communication. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the PhD program in Neuroscience or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NEUR 603: Mammalian Neuroanatomy.** 3 credits.
Focus on mammalian brain organization and function, emphasizing human neurobiology. Modern experimental and clinical tools explain: gross and microscopic brain organization; functional brain circuits for sensory and motor processing; higher brain organization and function; and development of selected brain areas. The knowledge gained is then used to explain the clinical symptoms occurring after specific brain insults. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** One course in neuroscience (or equivalent biology course), or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NEUR 604: Ethics in Scientific Research.** 1-3 credits.
Reflects on purpose of scientific research and reviews foundational principles for evaluating ethical issues. Offers skills for survival in scientific research through training in moral reasoning and teaching of responsible conduct. Discusses ethical issues in research, and teaches how to apply critical thinking skills to design, execution, and analysis of experiments. Issues include using animals and humans in research, ethical standards in computer community, and research fraud. Currently accepted guidelines for behavior in data ownership, manuscript preparation, and conduct of persons in authority may be presented and discussed in terms of relevant ethical issues. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NEUR 611: Philosophical Foundation of Neuroscience.** 3 credits.
This course presents the joint histories of the nature of thought, the philosophy of science, the construct of self, and the nature of mind. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** Any course in neuroscience or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NEUR 612: Neuroethics.** 3 credits.
Neuroethics explores the implications of developments in basic and clinical neuroscience on social and ethical issues. This course will survey emerging questions raised by recent neuroscientific discoveries on genetic and environmental factors that influence human behavior, decision-making, personality traits, and mental states. Grades will be based on article presentation, class participation, and final written report. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NEUR 621: Synaptic Plasticity.** 3 credits.
Course on activity-dependent modification of functional connectivity in the central nervous system as it relates to development, cognition, and disease. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** NEUR 602.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NEUR 634: Neural Modeling.** 3 credits.
Introduces the objectives, philosophy, and methodology of neuronal modeling. Instructs students in the use of some of the more popular models and techniques.
neural modeling software packages. Students learn the syntax of several software packages, how to create neurons from subcellular components, and how to create networks by connecting neuron models. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** NEUR 602 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NEUR 651: Molecular Neuropharmacology.** 3 credits.
Presents key concepts in cellular and molecular neuropharmacology. Provides an in-depth survey of receptor driven cell function, which includes recent topics in cell structure, membrane function, electrical properties of neurons and intracellular signaling. Enables an introduction to research tools and trends in study of neuronal systems via a reading and an analysis of the primary literature. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** NEUR 602 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NEUR 689: Topics in Neuroscience.** 3 credits.
Selected topics in neuroscience reflecting specialized areas or new subfields not covered in fixed-content neuroscience courses. Offered by Neuroscience (p. 743). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**700 Level Courses**

**NEUR 701: Neurophysiology Laboratory.** 3 credits.
Hands-on training in current techniques of modern neurophysiology. Acquaints students with the theoretical basis of each technique and trains the student in the laboratory skills necessary to perform each technique. Includes intracellular and extracellular recording techniques. Notes: Meets once weekly for six hours. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** NEUR 602 and admission to neuroscience PhD program or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Laboratory

**NEUR 702: Research Methods.** 3 credits.
Trains students in research methodologies for life sciences. Covers the four aspects of biological research projects: experimental design, data collection, data analysis and research ethics. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NEUR 703: Laboratory Rotation and Readings.** 3 credits.
Intensive introduction to a research laboratory in neuroscience. The student will read background material pertinent to the problem under study, learn and practice research methods of the laboratory, and formulate a short final project, which may be a proposal or an actual project, demonstrating some mastery of the techniques and approaches employed. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the PhD program in Neuroscience.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study

**NEUR 709: Neuroscience Seminars.** 1 credit.
Special seminar series for first year neuroscience PhD students. Detailed overview of neuroscience research at Mason. Each week, a different neuroscience laboratory and principal investigator lectures to students. The lecture includes the neuroscience basics necessary to appreciate the laboratory research theme and mission, and a more practical description of the active research program, possibly including a visit to the laboratory. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Neuroscience PhD program.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NEUR 710: Special Topics in Neuroscience.** 1 credit.
Examines topics in neurosciences, including neurogenetics, neural imaging, and the competing computational and biological approaches to...
Enrollment is limited to Graduate or Non-Degree level students.

Recommended Prerequisite: Admission to the Neuroscience PhD program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NEUR 734: Computational Neurobiology. 3 credits.
Intense review of neurobiology for graduate students interested in studying how nerve cells integrate and transmit signals, and how behavior emerges from integrated actions of populations or circuits of nerve cells. Covers electrical and biochemical properties of single neurons, and electrical and chemical communication between neurons. Emphasizes mathematical descriptions and computational techniques to study and understand neurons and networks of neurons. Offered by Neuroscience (p. 743). May not be repeated for credit.

Recommended Prerequisite: NEUR 602 and MATH 214, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NEUR 735: Computational Neuroscience Systems. 3 credits.
Intensive introduction to systems neuroscience from quantitative perspective. Covers computational techniques used to study function of networks of neurons. Uses spike train statistics, neural encoding, and information theory to investigate behaviors that emerge from integrated actions of networks of neurons. Offered by Neuroscience (p. 743). May not be repeated for credit.

Recommended Prerequisite: NEUR 734 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NEUR 741: Introduction to Neuroimaging. 3 credits.
Introduction to physics and techniques of magnetic resonance imaging (MRI) and their applications to clinical and basic neuroscience. Students learn about the protocols used in the acquisition of images in both structural and functional contexts, and experimental paradigms applied to the exploration of cognition, learning, and development. Students gain experience with creating an experimental design for a study and understanding practical logistics involved in imaging, such as MRI safety and subject screening. Offered by Neuroscience (p. 743). May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or 603, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NEUR 742: Cognitive Neuroscience. 3 credits.
Introduces cognitive neuroscience topics, including aspects of cognitive science covering an array of perceptual, sensory, cognitive, and affective processes. Incorporates studies of brain lesions, brain imaging, and animal and computational models. Offered by Neuroscience (p. 743). May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or NEUR 603 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NEUR 751: Applied Dynamics in Neuroscience. 3 credits.
Covers recent developments in the application of applied dynamics to neuroscience. Emphasizes dynamical system approach to the understanding of neural processes. Topics include neural synchrony and control; formation of waves; oscillations; patterns within neural ensembles; network topology and dynamics of neurons; and decoding and encoding of neural signals. Offered by Neuroscience (p. 743). May not be repeated for credit.

Recommended Prerequisite: CSI 734, PSYC 531, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NEUR 752: Modern Instrumentation in Neuroscience. 3 credits.
Builds on knowledge of how and what things are measured and controlled in modern bioinstrumentation. Topics include fundamental instrumentation; principles of sensing; basic electronics; computer interfaces and data acquisition; signals in biological systems; biopotential and ionic concentration measurements; and optical techniques. Offered by Neuroscience (p. 743). May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or 734, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

800 Level Courses

NEUR 851: Advanced Computation and Brain Dynamics. 3 credits.
In-depth study of open issues and the state-of-the-art in advanced brain dynamics. Using mathematical and physical models, the course covers the neurodynamical aspects of neural nets, receptive fields, ion-channels, intercortical interactions, phase-locking, synchronicity, and the possible
nontrivial role of quantum effects. Offered by Neuroscience (p. 743). May not be repeated for credit.

**Recommended Prerequisite:** CSI 734, PSYC 531.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

---

### 900 Level Courses

**NEUR 996: Doctoral Reading and Research.** 3.6 credits.

Reading and research on specific topic in neuroscience under direction of faculty member. Offered by Neuroscience (p. 743). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Admission into the NEUR doctoral program and permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

---

**NEUR 998: Dissertation Proposal.** 1-6 credits.

Covers development of a research proposal under guidance of dissertation director and doctoral committee. Proposal forms the basis for the doctoral dissertation. Notes: No more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements. Out of the 24, no more than 12 credits of NEUR 998 may be applied. Offered by Neuroscience (p. 743). May be repeated within the degree.

**Recommended Prerequisite:** Admission to the Neuroscience Ph.D. program.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

---

**NEUR 999: Doctoral Dissertation.** 1-12 credits.

Doctoral research performed under the direction of the dissertation director. Notes: No more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements. Students must email mhayes5@gmu.edu for permission and CRN to register. Offered by Neuroscience (p. 743). May be repeated within the degree.

**Recommended Prerequisite:** Advancement to candidacy in the Neuroscience Ph.D. program. Students must email mhayes5@gmu.edu for permission and CRN to register.

**Registration Restrictions:**
Enrollment is limited to students with a class of Advanced to Candidacy.

**Schedule Type:** Dissertation

---

### Nursing (NURS)

#### 300 Level Courses

**NURS 305: Application of Basic Nursing Techniques.** 1 credit.

To be taken fall semester of accelerated second degree program. Introduces basic nursing technologies, and provides opportunities to apply these skills in simulated technology lab. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Acceptance into accelerated nursing pathway.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**NURS 309: Introduction to Basic Nursing Care.** 3 credits.

Enrollment restricted to second-degree students only. Introduces basic fundamentals of nursing care across the life span. Emphasis on nursing process, critical thinking, and foundational technologies and skills required to practice in the health care setting. Notes: Enrollment restricted to second-degree students only. Requires acceptance into the accelerated nursing pathway. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**NURS 310: Application of Basic Nursing Care.** 4 credits.

Application of basic nursing care in acute care settings utilizing the nursing process. Note: Open only to second-degree students. Enrollment is controlled. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**NURS 312: Basic Nursing Care of Adults.** 4 credits.

Provides the student the opportunity to practice health assessment and fundamental nursing skills with adult medical/surgical clients, including those who are culturally diverse, vulnerable, and experiencing physiological, psychological, and social health problems. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**NURS 319: Pathophysiological Basis for Nursing Care of Individuals and Small Groups.** 4 credits.

Focuses on pathophysiological, psychological, sociocultural, and risk-reduction factors related to nursing care for clients with psychiatric conditions, as well as for child-bearing women, infants, children, and adolescents with acute health care needs. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Acceptance into accelerated nursing pathway. Enrollment is controlled.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory
Enrollment is limited to students with a major in Nursing.

Schedule Type: Lecture

NURS 330: Nursing Fundamentals. 3 credits.
Introduces nursing process and communication skills as the foundation for beginning health assessment and fundamental nursing care for culturally diverse individuals throughout the life span. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Corequisite: NURS 312.

Registration Restrictions:
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 334: Nursing as a Health Profession and Discipline. 3 credits.
Introduces nursing as a dynamic and caring health profession, the impact of epidemiology, health promotion, and disease prevention on health status of culturally diverse and vulnerable individuals, families, small groups, and communities throughout life span. Incorporates nursing and critical thinking processes as they apply to the art and science of nursing. Historical perspectives on ethical, legal, political, and social issues are included. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite:
NURS 312, 330, 337, 347, 425.

Registration Restrictions:
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 336: Concepts in Professional Nursing as a Discipline. 3 credits.
Provides an analysis of the profession and explores nursing philosophies and theories. Explores legal, ethical, political, and technological issues in health care at various nursing levels. Addresses critical thinking and its application to the collaborative nursing process. Utilizes the American Psychological Association formatting style for professional writing within the nursing profession. Notes: Must be admitted to the RN-to-BSN program. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Acceptance into junior standing.

Registration Restrictions:
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 337: Application of Nursing Fundamental Technologies. 1 credit.
Opportunity to practice health assessment and fundamental nursing technologies while using communication skills with culturally diverse and vulnerable populations in a variety of settings. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Junior standing.

Recommended Corequisite: NURS 312.

Registration Restrictions:
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 343: Pharmacology. 3 credits.
Covers principles of pharmacokinetics, phamodynamics of selected drug classifications, and nursing responsibilities related to drug administration to individuals throughout life span. Offered by Nursing (p. 280). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 344: Intermediate Nursing Technologies. 1 credit.
Laboratory course to assist students in acquiring therapeutic nursing interventions. Technologies presented are asepsis and wound care, administration of medications including dosage calculations, and management of intravenous therapy. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 312, 330, 337, 347, 425.

Registration Restrictions:
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 347: Adult Pathophysiology and Nursing Care. 2 credits.
Introduces changing health needs of culturally diverse and vulnerable populations. Focuses on nursing care; and pathophysiological, psychological, sociocultural, and risk reduction implications of frequently experienced health problems in the adult population. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Acceptance into junior standing.

Registration Restrictions:
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 348: Maternal-Newborn Physiology, Pathophysiology, and Nursing Care. 2 credits.
Introduces normal and abnormal processes with maternal-infant clients including cultural diversity and vulnerable populations. Focuses on normal physiological, pathophysiological, psychological, sociocultural, risk reduction, and nursing care of these clients. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Acceptance into junior standing.

Registration Restrictions:
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture
NURS 349: Pediatric Pathophysiology and Nursing Care. 2 credits.
Focuses on changing health needs of culturally diverse and vulnerable populations. Includes nursing care, pathophysiological, psychological, sociocultural, and risk-reduction implications of frequently experienced health problems in pediatric population. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Acceptance into junior standing.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.
Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 350: Application of Nursing Care for Individuals and Small Groups. 4 credits.
Includes five weeks of clinical experience in each specialty area, with focus on obstetric and family nursing, pediatric, and psychiatric mental health nursing. Students may also follow selected clients in clinics or home situations. Clinical consists of two full days per week in acute-care agencies. Notes: Open to accelerated second degree students Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Corequisite: NURS 319, 353 and 419.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.
Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 351: Application of Intermediate Nursing Technologies. 1 credit.
Introduces intermediate nursing technologies and provides opportunities to apply these skills in simulated technology lab. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 305, 309, 310, 334, 419 and 425.

Recommended Corequisite: NURS 350.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.
Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 358: Health Promotion and Disease Prevention in Maternal/Infant Nursing. 2 credits.
Provides the student an opportunity to perform nursing care to the maternal/infant client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings. Contact the department for meeting dates and times. Notes: Enrollment is controlled. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 348. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.
Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 359: Health Promotion and Disease Prevention in Pediatric Nursing. 2 credits.
Provides the student an opportunity to perform nursing care to the pediatric client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings. Contact department for meeting dates/times. Notes: Enrollment is controlled. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 349. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.
Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 388: Problem-Based Clinical Inquiry. 3 credits.
Focuses on analyzing clinical problems and attempts to resolve issues using critical thinking. Students examine the data in the cases, draw inferences, make deductions, identify assumptions, generate interpretations, evaluate weakness and strengths of arguments, and document their findings. Offered by Nursing (p. 280). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.
Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

400 Level Courses

NURS 310: Nursing Care of Clients with Pathological Conditions. 3 credits.
Encompasses complex health problems of culturally diverse and vulnerable populations throughout the life span. Focuses on nursing care needs and pathophysiological, psychological, and sociocultural implications of complicated health problems. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Completion of all junior year nursing courses.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.
Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 410: Nursing Care of Clients with Pathological Conditions II. 3 credits.
Enrollment restricted to second degree students only. Focuses on pathophysiological, psychological, sociocultural, and risk reduction factors related to nursing care of child-bearing women, infants, children, and adolescents experiencing acute health care problems. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 305, 309, 310, 319, 334, 425. Note: Open only to Second Degree students.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 425: Comprehensive Health Assessment. 3 credits.
Open only to RNs and LPNs. Introduces systematic health assessment across the life span, and expands that knowledge base to include knowledge and skills necessary to perform comprehensive health assessments with culturally diverse and vulnerable populations. Offered by Nursing (p. 280). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 426: Advanced Clinical Preceptorship. 3 credits.
Opportunity to deliver collaborative nursing care to culturally diverse and vulnerable populations. Notes: Concentrated clinical experiences available in selected institutional settings. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 336, 434.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 427: Advanced Technologies for the Accelerated Pathway. 1 credit.
Advanced technology course developing knowledge base related to acquisition of advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 434.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 428: Community Health Clinical for the Accelerated Pathway. 2 credits.
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis on health promotion and disease prevention for well populations, and community-based care for individuals and families with acute and chronic illness. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 426, 440.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 429: Preceptorship for the Accelerated Pathway. 3 credits.
Opportunity to deliver collaborative nursing care to culturally diverse and vulnerable populations. Notes: Concentrated clinical experiences available in selected institutional settings. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 309, 310, 320, 343, 419, 436.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 430: Vulnerable Populations. 3 credits.
Focuses on the care of vulnerable and aging populations. Students will examine health disparities, health literacy, and multicultural issues that impact the delivery of health care. Students will analyze health care policies and health care delivery models that offer potential interventions for the identified needs of these populations. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: RN to BSN students.

Recommended Corequisite: NURS 336.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Internship

NURS 431: Public Health Preceptorship for Nurses. 3 credits.
Expands nursing students' understanding of population-focused health care. Emphasis will be on prevention principles in primary, secondary, and tertiary care of health problems. Students will be exposed to concepts of community, public health, and health policy affecting culturally diverse and vulnerable populations in a selection of community and public health settings. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Completion of all junior year nursing courses or admission to RN to BSN program.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 432: Community Health and Epidemiology. 3 credits.
Addresses population-focused health care. Emphasis is on primary, secondary, and tertiary prevention of health problems. Concepts of community, public health, and health policy affecting culturally diverse and vulnerable populations are examined. Offered by Nursing (p. 280). May be repeated within the degree for a maximum 6 credits. Equivalent to HAP 416.

Recommended Prerequisite: Admission to the Second degree or RN to BSN program.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 433: Vulnerability and Health in the Community. 3 credits.
Focuses on the care of vulnerable and aging populations. Students will examine health disparities, health literacy, and multicultural issues that impact the delivery of health care. Students will analyze health care policies and health care delivery models that offer potential interventions for the identified needs of these populations. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: RN to BSN students.

Recommended Corequisite: NURS 336.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 434: Advanced Clinical Preceptorship. 5 credits.
Opportunity to provide complex, collaborative nursing care to culturally diverse and vulnerable populations. Notes: Concentrated clinicals
available in selected institutional settings. See http:chhs.gmu.edu for information about specific clinical locations. Offered by Nursing (p. 280). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 453: Research in Nursing. 3 credits.
Introductory research course designed to present basic concepts and methods of research. The research process is examined as a foundation for scholarship. Emphasis on critique and use of current nursing and research in clinical practice. Offered by Nursing (p. 280). May be repeated within the degree for a maximum 6 credits. Equivalent to GCH 460.

Specialized Designation: Scholarly Inquiry

Recommended Prerequisite: STAT 250 or equivalent; acceptance into one of BSN nursing pathway.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 455: Advanced Technologies in Nursing. 1 credit.
Opportunity to acquire advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Corequisite: NURS 451.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 457: Introduction to Nursing Informatics. 3 credits.
This introductory course focuses on the use of computer technology in nursing and healthcare. The student evaluates software applications and assesses the merit of health-related information on the Internet. Students will engage in projects aimed at solving patient care problems in a variety of technologically-enhanced health care settings. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to the RN to BSN program.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 465: Examination and Integration of Professional and Health Care Issues. 3 credits.
Provides students with opportunities to examine issues in health care through reflection on the natural and behavioral sciences, humanities and other prerequisite coursework. Selected topics are examined through reading, writing and discussion. Formal and informal writing on issues is expected. Students receive written self-evaluation as well as formal review by peers and faculty members involved in teaching the course. Offered by Nursing (p. 280). May not be repeated for credit. Equivalent to HAP 465.

Mason Core: Synthesis (p. 135)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Required Mason Core courses (including ENGL 302/ENGH 302).

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 466: Community Health Nursing. 2 credits.
This course addresses population-focused health care. Concepts of public health, epidemiology, environmental health, extended roles in nursing and health policy affecting culturally diverse and vulnerable populations are examined. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Completion of all junior year nursing courses.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

NURS 467: Clinical in Community Health Nursing. 2 credits.
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Completion of all junior year nursing courses.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

NURS 468: Psychiatric and Mental Health Nursing. 2 credits.
Focuses on the nursing care, pathophysiological and psychological, social-cultural, and risk reduction implications of health problems in the area of mental health and psychiatric nursing. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Completion of all junior year nursing courses.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.
Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

**NURS 469:** Clinical in Psychiatric and Mental Health Nursing. 2 credits.
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases. Notes: Open to traditional and LPN students only. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Laboratory

**NURS 488:** Inquiry-Based Clinical Seminar. 2 credits.
Students focus on a selected client they have provided care for during their NURS 451 clinical preceptorship. Students examine the data in the case, draw inferences, make deductions, identify assumptions, and generate interpretations regarding the client's problems. The class will participate as a group in the inquiry process to identify strengths and weaknesses of the arguments presented. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Completion of Junior Level Nursing Courses, NURS 410 and NURS 436.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Seminar

**NURS 491:** Critical Thinking and Analysis of Test Taking Strategies. 3 credits.
Increases test-taking abilities and improves critical-thinking skills related to nursing situations. Also guides the student to analyze and organize content to assist in decision making about nursing interventions. With faculty supervision, students work independently based on their learning needs. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Lecture

**NURS 499:** Independent Study in Nursing. 1-3 credits.
Provides individual study of a particular problem area in nursing research, theory development, or education under the direction of faculty. Clinical practice may be arranged. Offered by Nursing (p. 280). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Permission of instructor and Assistant Dean for the Undergraduate Program.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Washington Consortium level students may not enroll.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Independent Study

**500 Level Courses**

**NURS 513:** Advanced Pharmacology in Nursing. 3 credits.
Does not meet requirements for nurse practitioner majors, but may be taken as an elective. Provides knowledge of physiologic responses and pharmacokinetic principles of pharmacologic agents that will undergird the student's learning of advanced pharmacologic concepts. Topics include advanced pharmacokinetic principles, pharmacotherapeutics of single and multiple drug regimens, client education needs, special population needs, and legal requirements for prescriptive authority. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

**NURS 514:** Advanced Health Assessment Methods. 1 credit.
Expands on undergraduate skills in systematic health assessment across the life span. Teaches application of advanced health assessment skills in specialty advanced nursing practice setting. Integration of skills and techniques in collecting health assessment data towards appropriate decision making, clinical assessments, and therapeutic interventions in select population emphasized. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate-level health assessment course for degree credit or approved CEU course.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

**NURS 550:** Pathophysiologic Bases for Major Health Deviations of Individuals. 3 credits.
Examines health deviations occurring in people in the United States that require long-term or terminal health care interventions. Deviations are presented within a developmental framework as they influence physiologic integrity at the cellular level. Focus is on man as a whole, open system. Complex health programs from the perspective of maintaining homeodynamics are examined. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 571:** HIV/AIDS: Concepts, Principles, and Interventions. 3 credits. Provides overview of all aspects of HIV disease to include retrospective and current concepts and analyses of the epidemic, global, and societal impact, and cutting-edge research. Examines development of therapeutic tools and skills to educate, reduce risks, control infection, and affect care and healing of client, family, and community; and issues of increasing dilemma for health care professionals. Offered by Nursing (p. 280). May not be repeated for credit. Equivalent to GCH 571.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**600 Level Courses**

**NURS 605:** Clinical Nurse Educator Academy. 3 credits. Integrates knowledge and skills from clinical practice with new knowledge and skills needed as a clinical nurse educator. Narratives are used to teach essential skills for clinical nurse educators, such as assessment of learning needs, writing of objectives, teaching strategies, clinical simulation, and performance evaluation. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 613:** Advanced Health Assessment. 2 credits. The course expands on undergraduate skills in systematic health assessment across the life span. The student will learn advanced health assessment skills in specialty advanced nursing practice. Integration of skills and techniques in collecting health assessment data towards appropriate decision-making, clinical assessments and therapeutic interventions in select populations is emphasized in this lab and didactic course. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate level Health Assessment course for degree credit

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**NURS 618:** Pathophysiology: Health and Illness. 3 credits. Focuses on the biological and pathophysiological foundations of health problems. Biological changes in selected health problems and health risks, will be used as a framework for critically appraising assessment data and to advance nursing strategies. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 623:** Clinical Concepts in Community-Oriented Primary Care. 3 credits. Theoretical and clinical application of community-oriented primary care concepts with focus on health promotion and disease prevention. Examines scope of practice of advanced practice nurse practitioner. Students work with interdisciplinary groups to improve health indicators for populations. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 665.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 632:** Pathogenesis of Mental Disorders. 3 credits. Explores biological correlates of mental illness, including neuronal function, structure and connectivity, and peripheral alterations in biological functioning that contribute to mental disorders across the lifespan. Reviews genetic heritability and specific theories of etiology and diagnostic classifications. Develops interview and differential diagnostic skills. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Doctor of Nursing Practice program or with permission of instructor.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
NURS 633: Individual Psychotherapy. 3 credits.
Explores major approaches to individual psychotherapy such as psychodynamic, humanistic, interpersonal, behavioral, cognitive, dialectical behavioral, brief, crisis, and multicultural therapies as they relate to advanced nursing practice in mental health. Applications of individual psychoterptherapies across the lifespan and among diverse populations are critically examined. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Doctor of Nursing Practice Program or with permission of instructor; NURS 632.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

NURS 634: Group, Family and Couple Psychotherapy. 1 credit.
Explore the major psychotherapeutic approaches for groups, families, and couples. Emphasis is placed on the application of theories and models of group, family, and couple psychotherapy across the lifespan and among diverse populations. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Doctor of Nursing Practice Program or with permission of instructor; NURS 632.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

NURS 648: Aging and Health. 3 credits.
Provides an overview of normal aging and explores factors that affect health and well being in older adults; demonstrates strategies for maintaining health and managing chronic illness in older adults; examines common misconceptions about aging and healthcare issues; and explores the process of normal aging and the presentation of common health conditions in older adults. Offered by Nursing (p. 280). May not be repeated for credit. Equivalent to HHS 648.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

NURS 665: Theoretical and Ethical Foundations Related to Nursing. 3 credits.
Selected nursing and related discipline theories which impact nursing practice are analyzed and evaluated with special attention given to ethical aspects of practice and ethical decision-making frameworks. Moral dilemmas in the health care profession, with emphasis on patients’ rights, professionals’ obligations to other professionals, issues of social
justice in health care, and methods of moral deliberation are examined. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 680:** *Theoretical Foundations Related to Nursing.* 2 credits.
Examination and evaluation of assumptions, concepts, and propositions inherent in selected nursing and related discipline theories. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 685:** *Advanced Nursing Research Methods.* 3 credits.
Examines principles and methods of research in problem identification, theoretical framework, design, data collection, and analysis. Students develop a nursing research proposal. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the graduate nursing program and a graduate level bivariate statistics course and NURS 680.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 686:** *Projects in Nursing Research.* 2 credits.
Applies knowledge gained in NURS 790 to implement research proposal designed in NURS 790. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 685.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 688:** *Organization of Nursing and Health Care Delivery Systems.* 3 credits.
Provides foundational overview of U.S. nursing and health care delivery systems. Surveys key concepts, frameworks, processes, and structures related to health care delivery organizations. Notes: Lecture, discussion. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 690:** *Independent Study in Nursing.* 1-3 credits.
Studies in-depth a selected area of nursing theory, research, or practice under direction of faculty. Offered by Nursing (p. 280). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Admission to the Graduate Nursing Program and permission of Associate Dean for Academic Programs.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**700 Level Courses**

**NURS 704:** *Nursing Administrative Leadership Academy.* 3 credits.
Uses a leadership competency framework to integrate knowledge, skills, values, and best practices of innovative nursing leadership. Lectures, interactive collaborative discussion, written projects, and leadership self-assessment identify and teach the proficiencies specific to the administrative executive role. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 713:** *Decision Making and Pharmacologic Management in Practice.* 3 credits.
Analyzes clinical cases using student participation in decision-making formulation. Correlates pathophysiology with symptom manifestations across the lifespan, from prenatal to old age, including death. Evaluates family, medical and social history, physical findings, laboratory data and radiographic studies as they contribute to the decision making process. Examine the theoretical basis for selecting pharmacological and non-pharmacological therapies is explored. Offered by Nursing (p. 280). May not be repeated for credit.
Recommended Prerequisite: Admission to MSN or DNP Program Nurse Practitioner Concentration

Recommended Corequisite: NURS 769; NURS 761.

Registration Restrictions:  
Enrollment is limited to Graduate or Non-Degree level students.  
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NURS 714: Health Assessment in Clinical Practice. 2 credits.  
Application of advanced health assessment skills for all body systems and clinical decision making with clients across the lifespan. Students will formulate differential diagnoses and use advanced communication techniques to motivate and change health behaviors. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to MSN or DNP Program or permission of instructor.

Registration Restrictions:  
Enrollment is limited to Graduate or Non-Degree level students.  
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NURS 715: Nursing Informatics Inquiry. 3 credits.  
This course introduces theoretical and practice components of nursing and healthcare informatics for the graduate level nurse. Computer systems will be analyzed. The systems life cycle will be explored. Health care standards, classification schemes, and the electronic health record (EHR) will be introduced. Students will evaluate informatics as it applies to patient safety, outcomes measurement, complex decision-making, consumer use, and legal and ethical issues. Offered by Nursing (p. 280). May not be repeated for credit.

Registration Restrictions:  
Enrollment is limited to Graduate or Non-Degree level students.  
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

NURS 716: Principles of Assessment and Evaluation in Nursing Education. 3 credits.  
Provides opportunities for the informal assessment of learning; formal construction, analysis, and evaluation of tests; and the evaluation of standardized tests. Examines the current research and the legal and ethical principles related to assessment and evaluation in nursing education. Offered by Nursing (p. 280). May not be repeated for credit. Equivalent to NURS 556.

Registration Restrictions:  
Enrollment is limited to Graduate or Non-Degree level students.  
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NURS 720: Practicum in Family Primary Care Nursing I. 4 credits.  
Performance of beginning-level nurse practitioner clinical decision-making skills in assessment and management of families and individuals across the life span, with emphasis on health maintenance and health promotion. Seminar, lab, and clinical practicum. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 719, 723, 745, 747, and 756.

Registration Restrictions:  
Enrollment is limited to Graduate or Non-Degree level students.  
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

NURS 721: Practicum in Assessment and Management of the Developing Family. 8 credits.  
Theoretical and clinical application of health assessment, health maintenance and promotion, anticipatory guidance, diagnosis, and management of common primary health care concerns through clinical decision-making skills focused on childrearing and childbearing families. Seminar, lab, and clinical practicum. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 720.

Registration Restrictions:  
Enrollment is limited to Graduate or Non-Degree level students.  
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NURS 722: Practicum in Family Primary Care Nursing II. 8 credits.  
Students perform advanced clinical decision making in the role of family nurse practitioner. Family primary care problems throughout the life span are assessed and managed, particularly families with elderly and medically underserved members. Seminar, lab, and clinical practicum. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 720 and 721.

Registration Restrictions:  
Enrollment is limited to Graduate or Non-Degree level students.  
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NURS 724: Health Assessment Practicum. 1 credit.  
Acquisition of advanced health assessment skills for all systems across the lifespan. The student will perform advanced techniques and clinical decision making that is necessary for a comprehensive health assessment in a structured practicum environment. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to MSN or DNP Program or permission of instructor.

Recommended Corequisite: NURS 714.

Registration Restrictions:  
Enrollment is limited to Graduate or Non-Degree level students.  
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship
NURS 725: Hermeneutic Research Methodologies in Health Care. 3 credits. Uses seminar/discussion for in-depth exploration of interpretive phenomenology, philosophical background for hermeneutics, and hermeneutics as method in context of conducting research in health care. Uses readings from philosophers such as Heidegger, Merleau-Ponty, and Gadamer to situate hermeneutical methodologies in philosophy of science. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Graduate level qualitative research course. Concurrent enrollment is also permitted.

**Registration Restrictions:** Enrollment is limited to Graduate or Non-Degree level students.

**Schedule Type:** Seminar

NURS 726: Perspectives in Nursing Education. 3 credits. Uses seminar approach to provide an overview of nursing education. Provides the foundation for teaching and learning in nursing with emphasis on relevant research. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:** Enrollment is limited to Graduate or Non-Degree level students.

**Schedule Type:** Lecture

NURS 727: Application of Nursing Education Principles to Curriculum and Program Development. 3 credits. Uses seminar and discussion forums to analyze and apply theoretical principles and teaching and learning strategies in planning, developing, and evaluating nursing programs. Examines the overall creative, planned, and collaborative process of program development and evaluation. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:** Enrollment is limited to Graduate or Non-Degree level students.

**Schedule Type:** Lecture

NURS 728: Practicum and Seminar in Nursing Education I. 3 credits. Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the academic classroom. Emphasis is on the application of teaching/learning strategies, legal and ethical issues in nursing education, and role development as a nurse educator. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 714, NURS 761, NURS 769.

**Registration Restrictions:** Enrollment is limited to Graduate or Non-Degree level students.

**Schedule Type:** Seminar

NURS 729: Practicum and Seminar in Nursing Education II. 3 credits. Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the clinical setting. Application of research-based teaching and evaluation strategies in the clinical setting are emphasized. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 714, NURS 761, NURS 769.

**Registration Restrictions:** Enrollment is limited to Graduate or Non-Degree level students.

**Schedule Type:** Seminar

NURS 730: Leadership Strategies for the Clinical Nurse Leader. 2 credits. Explores aspects of horizontal and vertical leadership central to clinical nurse leader (CNL) role. Emphasizes quality management and improvement, communication processes, evidenced-based practice initiatives in microsystem, and strategies for efficient use of resources while maintaining safe and effective patient care. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 597 and 685. Concurrent enrollment is also permitted.

**Registration Restrictions:** Enrollment is limited to Graduate or Non-Degree level students.

**Schedule Type:** Lecture

NURS 733: Introduction to Forensic Science. 3 credits. Examines the introductory concepts of forensic science including the various professional roles of forensic scientists and practitioners. This course provides a broad overview of the forensic science profession. Different types of violence, as well as prevention and reduction strategies, are discussed. The forensic professional’s role in policy and legal processes are explored. Forensic research is introduced. Professional certification options are explored. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:** Enrollment is limited to Graduate or Non-Degree level students.

**Schedule Type:** Lecture

NURS 734: Role of the Sexual Assault Nurse Examiner and Interpersonal Violence. 3 credits. Focuses on the incidence and consequences of interpersonal violence across the lifespan. Identifies the role of sexual assault nurse examiner (SANE) as a member of the Sexual Assault Response Team (SART). Examines forensic techniques used to collect evidence. The role of the SANE in the judicial process is explored. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:** Enrollment is limited to Graduate or Non-Degree level students.

**Schedule Type:** Lecture

NURS 735: Crime Lab and Crime Scene Investigation. 3 credits. Examines the components of the crime lab and the crime scene analysis process. Explores the role of the forensic scientist in crime scene investigation. This course covers the initial crime scene response and
initial assessment measures needed to properly collect and handle evidence. Documentation and preservation efforts are reviewed for various types of evidence collected. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NURS 736: Psychological and Legal Aspects of Forensic Science.** 3 credits. Evaluates the psychological and legal aspects of forensic science. Reviews victimology and the role of the forensic professional when dealing with victimized individuals. This course reviews various types of violence and identifies the assessment criteria needed to pursue prosecution. Examines the legal process and the role of the forensic professional in providing testimony in a court of law. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NURS 737: Investigation of Injury and Death.** 3 credits. Explores the role of the forensic scientist in death investigation. Examines death, manners of death, and causes of death, along with the death certification process. The role of the medical office professional and autopsy procedures will be reviewed. DNA evidence and the CODIS system will be analyzed. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NURS 738: Family Primary Care I.** 2 credits. Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health concerns through clinical decision making skills focused on childbearing and childbearing families. Seminar, student presentations and lectures. Notes: Required course in Family Nurse Practitioner concentration. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 738, NURS 742.

**Recommended Corequisite:** NURS 744

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NURS 740: Clinical Nurse Specialist Internship.** 3 credits. A continuation of clinical application of theory from NURS 775 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and community. Offered by Nursing (p. 280). May be repeated within the term for a maximum 6 credits.

**Recommended Corequisite:** Contact the department for meeting dates and times.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Internship

**NURS 741: Family Primary Care III.** 3 credits. Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to families and individuals across the life span. Special emphasis is given to the primary care needs of families with elderly and medically underserved members. Seminar, student presentations and lectures. Notes: Required course in Family Nurse Practitioner concentration. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 739, NURS 744.

**Recommended Corequisite:** NURS 749.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NURS 742: Family Primary Care Practicum I.** 2 credits. Demonstrates the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for families with a focus on the adult. Clinical practicum, lab and seminar. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 713, NURS 724, NURS 714, NURS 643.

**Recommended Corequisite:** NURS 738.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**NURS 743: Clinical Psychopharmacology.** 3 credits.
Introduction to psychotropic medications, including neurochemical basis, mode of action and clinical application. Discuss principles of pharmacological medication selection and use based on clinical indicators. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Admission to the Doctor of Nursing Practice program or with permission of instructor. Offered by Nursing (p. 280). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 744: Family Primary Care Practicum II.** 4 credits.
Clinical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childrearing and childbearing families. Clinical practicum, seminar, lab. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 738, NURS 742.

**Recommended Corequisite:** NURS 739.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**NURS 746:** Practicum in Adult Primary Care Nursing I. 6 credits.
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adults. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 719, 723, 745, 747, and 756.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**NURS 748:** Practicum in Adult Primary Care Nursing II. 8 credits.
Enables nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis on primary care needs of elderly and medically underserved groups. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 746.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**NURS 749: Family Primary Care Practicum III.** 4 credits.
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to families. Family primary care problems across the life span are assessed and managed, particularly families with elderly and medically underserved members. Practicum, clinical lab and seminar. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 739, NURS 744.

**Recommended Corequisite:** NURS 741.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**NURS 757:** Nursing Research and Biostatistics I. 3 credits.
Provides a broad framework for understanding and applying commonly used research designs and data analysis techniques in nursing and health care research. Exposed to an overview of qualitative and quantitative research methods integrated with appropriate data analyses techniques. Univariate and bivariate statistical techniques will be used to address research questions or hypothesize as appropriate. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the graduate nursing program, and an undergraduate statistics course.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 758:** Nursing Research and Biostatistics II. 3 credits.
Empirically address practice related problems using complex bivariate and multivariate statistical analysis. Using an established data set as a basis for simulation of the research process, student will identify clinical problems in research traditions to provide evidence for nursing practice. Emphasis is on evaluating the quality of research for its strength as evidence for nursing practice. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 757.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 761:** Pharmacotherapeutics. 3 credits.
Describes the pharmacologic principles and pharmacodynamic actions for all broad categories of agents. Distinguishes between the major drug classes by the pharmacologic properties of drugs on the cellular, organ and whole organism level. Study of indications and contraindications of appropriate therapeutic entities for health deviations based on a
thorough knowledge of drugs and their fate in the human body. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MSN or DNP Program or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 763:** Administrative Theory in Nursing. 3 credits.
Uses administrative theory and management principles and processes as related to roles and functions of the nurse in management in health-related agencies. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to Graduate Nursing Program or master’s degree. NURS 680 and Management/Organizational Theory (concurrent enrollment is also permitted).

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 765:** Practicum in Nursing Administration I. 3 credits.
Applies administrative theory and management principles and processes in a selected health-related agency. Roles and functions of the nurse in management are explored. Notes: Lab arranged. One hour of seminar and eight hours of practicum weekly. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to Graduate Nursing Program, NURS 680. NURS 763 (concurrent enrollment is also permitted).

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**NURS 766:** Administrative Strategies in Nursing. 3 credits.
Explores roles and functions of the nurse in management as the nurse manager develops patterns of nursing care, articulating nursing education, and nursing service. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 763 and 765.

**Recommended Corequisite:** NURS 768.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 768:** Practicum in Nursing Administration II. 3 credits.
Implements and integrates roles and functions of the nurse in management. Emphasizes using appropriate management principles and processes in a selected health-related agency. Notes: Lab arranged. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 763, NURS 765, NURS 766 (concurrent enrollment also permitted for 766).

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**NURS 769:** Physiology and Pathophysiology in Advanced Practice. 3 credits.
Analyzes health deviations in the physiologic and pathophysiologic aspects of systems functioning across the life span. Students assimilate the process of systematic assessment and management of health deviations foundational for making clinical decisions. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MSN or DNP or permission of instructor.

**Recommended Corequisite:** NURS 713.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 770:** Adult Primary Care I. 3 credits.
Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health care concerns through clinical decision making skills focusing on adults. Lecture, student presentations and seminar. Notes: Required course in Adult Nurse Practitioner concentration. Students must be admitted to the Adult Nurse Practitioner Program. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MSN or DNP or permission of instructor.

**Recommended Corequisite:** NURS 713.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NURS 771:** Adult Primary Care II. 4 credits.
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Lectures, student presentations and seminars. Notes: Students must be admitted to the Adult Nurse Practitioner Program. Required course in Adult Nurse Practitioner concentration. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Adult Primary Care I.

**Recommended Corequisite:** Adult Primary Care Practicum II.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NURS 772: Adult Primary Care Practicum I. 3 credits.
Demonstrates ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and development of plans for health promotion and prevention for adults. Clinical practicum, lab and seminar. Notes: Five clinical hours are required per week for each credit. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Students must be accepted to the Adult Nurse Practitioner program.

Recommended Corequisite: NURS 770.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

NURS 773: Clinical Applications of Theory in Advanced Clinical Nursing. 3 credits.
Foundational theory relevant to the emerging roles in advanced clinical nursing, focusing on therapeutic nursing interventions in a variety of clinical specialties, with attention to health illness continuum of individuals, families, and communities. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to Graduate Nursing Program. NURS 550, 680 (Concurrent enrollment is also permitted for either course).

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NURS 774: Adult Primary Care Practicum II. 4 credits.
Enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar. Notes: Five clinical hours are required per week for each credit. Required course in Adult Nurse Practitioner concentration. Students must be admitted to the Adult Nurse Practitioner Program. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 770.

Recommended Corequisite: NURS 771.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

NURS 775: Advanced Specialty Practice I. 3 credits.
Focuses on clinical application of theory from NURS 773 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and communities. Notes: One hour of seminar and eight hours of practicum. Lab meets every other week. Offered by Nursing (p. 280). May be repeated within the term for a maximum 17 credits.

Recommended Prerequisite: NURS 665.

Recommended Corequisite: NURS 768.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

NURS 776: Development of Advanced Practice Nursing Role. 3 credits.
Expansion of selected content included in NURS 773 for the delivery of advanced nursing care in a variety of settings. Emphasizes development and evaluation of the advanced practice nursing role in complex health care systems. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 773.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NURS 777: Practicum in Gerontological Nursing I. 3 credits.
Demonstrates the ability to function at a beginning level in the role of the gerontological nurse practitioner. Performance of advanced skill in geriatric assessment with a special emphasis on the delivery of health promotion and disease prevention services (practicum of at least 100 clinical hours and case analysis conferences). Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 719, 723, 745, 747, and 756.

Recommended Corequisite: NURS 773. Electronic strategies will be used and course will meet every other week.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

NURS 778: Practicum in Gerontological Nursing II. 3 credits.
Demonstrates the ability to function at an advanced level in the role of the gerontological nurse practitioner in varied settings, including primary care, long-term care, and sub-acute care (practicum of at least
100 clinical hours and case analysis conferences). Offered by Nursing (p. 280). May be repeated within the degree for a maximum of 6 credits.

**Recommended Prerequisite:** NURS 773 and 775.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**NURS 782:** Psychiatric Nurse Practitioner Practicum I. 4 credits.
Develops clinical competence in comprehensive assessment, diagnosis, and management of mental health problems and psychiatric and co-morbid medical disorders, referring when appropriate. Demonstrates effective clinical interviewing skills. Applies principles of pharmacology including complementary and alternative therapies. Develops culturally sensitive plans for health maintenance, promotion and treatment. Evaluates outcomes of treatment. Manages psychiatric emergencies. Advocates for patients and families. Notes: Five clinical hours per week are required for each credit. Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate.
NURS 632, NURS 633, NURS 634 and NURS 743.

**Recommended Corequisite:** NURS 783.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Internship

**NURS 783:** Psychiatric Nurse Practitioner Seminar I. 2 credits.
Analyzes the professional role of family psychiatric mental health nurse practitioners. Students share assessment, diagnostic, intervention, evaluation, teaching-coaching, cultural competence, and therapeutic relationship development techniques through case studies from their practica. Management of client cases are evaluated and discussed. Students analyze the impact of advocacy actions, including duty to report, on the therapeutic relationship. Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate.
NURS 632, NURS 633, NURS 634 and NURS 743.

**Recommended Corequisite:** NURS 782.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**NURS 784:** Psychiatric Nurse Practitioner Practicum II. 5 credits.
Builds on Family Psychiatric Nurse Practitioner Practicum I, improving diagnostic and clinical reasoning ability and competence in assessment, diagnosis, and management of psychiatric disorders. Enables the student to assume increased responsibility in the delivery of comprehensive mental health care. Participates in professional and community organizations to promote the health of patients while enhancing the role of practitioner. Notes: Five clinical hours per week are required for each credit. Required course in Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate.
NURS 782.

**Recommended Corequisite:** NURS 785.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Internship

**NURS 785:** Psychiatric Nurse Practitioner Seminar II. 2 credits.
Discusses role transition and development of advanced practice psychiatric mental health nurses. Regulatory and economic policies affecting advanced psychiatric mental health nursing practice in the evolving health care system are discussed. Students demonstrate competence in comprehensive management of acute and chronic psychiatric disorders through case presentations from their practica.
Performs a comprehensive assessment of the mental health needs of a community. Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** Admission to Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate.
NURS 783.

**Recommended Corequisite:** NURS 784.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**NURS 786:** Adult Gerontology Primary Care Practicum I. 2 credits.
Application of health assessment, health maintenance/promotion, anticipatory guidance, genetics/genomics, diagnosis and management of common primary health care concerns, including women’s health issues. Focus is on care of adolescents and adults across the life. Clinical Practicum, lab and seminar. Offered by Nursing (p. 280). May not be repeated for credit.

**Recommended Prerequisite:** NURS 713, NURS 714, NURS 724, NURS 643.

**Recommended Corequisite:** NURS 787.

**Registration Restrictions:**
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.
Schedule Type: Internship

NURS 787: Adult Gerontology Primary Care I. 2 credits. 
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns, including women’s health, through clinical decision making skills in adolescents, adults and older adults. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 713, NURS 724, NURS 714, NURS 643.
Recommended Corequisite: NURS 786.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NURS 788: Adult Gerontology Primary Care Practicum II. 4 credits. 
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adolescents, adults and older adults. Clinical practicum, lab and seminar. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 786, NURS 787.
Recommended Corequisite: NURS 789.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

NURS 789: Adult Gerontology Primary Care II. 3 credits. 
This course consists of the application of health assessment, health management/promotion, genetics and genomics, anticipatory guidance, diagnosis and management of common primary care health care concerns of the adolescent, adult and older adult through clinical decision making skills. Lecture, student presentations and seminar. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 786, NURS 787.
Recommended Corequisite: NURS 788.

Schedule Type: Lecture

NURS 790: Adult Gerontology Primary Care Practicum III. 4 credits. 
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults of all ages, adolescents through older adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 788, NURS 789.
Recommended Corequisite: NURS 791.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

NURS 791: Adult Gerontology Primary Care III. 4 credits. 
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the adult gerontology nurse practitioner student to assume increased responsibility in the delivery of primary care. Focus will be on the primary care needs of older adult and medically underserved. Lectures, student presentations and seminars. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 788, NURS 789.
Recommended Corequisite: NURS 790.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

800 Level Courses

NURS 804: Advanced Quantitative Data Analysis for Healthcare Research I. 3 credits. 
Covers principles and methods of statistical data analysis and inference. Emphasizes the use and application of various data analysis techniques and their assumptions. Examines factorial ANOVA, factorial ANCOVA, repeated measures ANOVA, ANOVA and ANCOVA via regression approaches, and linear and logistic regression analysis. Students apply statistical techniques in analyzing health-related data sets. Offered by Nursing (p. 280). May not be repeated for credit. Equivalent to GCH 804.

Recommended Prerequisite: A graduate-level statistics course (by instructor approval).

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

NURS 805: Advanced Quantitative Data Analysis for Healthcare Research II. 3 credits. 
Builds upon principles and methods of statistical analysis and inference. Emphasizes the use and application of various data analysis techniques and their assumptions. Examines multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), multiple regression, and logistic regression, and factor analysis. Students apply statistical techniques in analyzing health-related data sets. Offered by Nursing (p. 280). May not be repeated for credit. Equivalent to GCH 805.
NURS 804: Advanced Multivariate Statistics and Data Analysis for Health Care Research. 3 credits.
Examines canonical correlation, discriminant analysis, factor analysis, and causal analysis (path models and structural equation modeling). Students analyze and interpret data using these statistical techniques. Offered by Nursing (p. 280). May not be repeated for credit. Equivalent to GCH 806.

Recommended Prerequisite: GCH/NURS 804 or an equivalent statistics course (by instructor approval).

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

NURS 806: Advanced Multivariate Statistics and Data Analysis for Health Care Research. 3 credits.
Recommended Prerequisite: GCH/NURS 804 or an equivalent multivariate statistics course.

Schedule Type: Lecture

NURS 808: Translating Nursing and Health Care Research into Evidence-Based Policy. 3 credits.
This course prepares students to assess the policy dimensions of nursing issues in clinical practice, education, and research environments and translate nursing research into policy. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 920, NURS 930.

Schedule Type: Lecture

NURS 810: Evaluation Research in Nursing Education. 3 credits.
Uses seminar/discussion to analyze and apply theoretical models for implementing evaluation research in nursing education. Examines quantitative approaches for evaluating process and outcomes of domestic or international nursing education programs, including role of accreditation guidelines. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: GCH/NURS 804 or an equivalent statistics course (by instructor approval).

Schedule Type: Lecture

NURS 811: Nurse as Educator and Scholar. 2 credits.
Uses seminar/discussion to explore role of nurse educator in meeting research and scholarship expectations of college, university, or service setting. Addresses approaches to scholarship in relation to types of evidence appropriate for various scholarly expectations in academic setting. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 920, NURS 930.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

NURS 814: Theory and Design in Health Science. 3 credits.
Analyzes and applies selected concepts related to nursing and system leaders and managers as well as factors influencing the performance of health systems and organizations. Offered by Nursing (p. 280). May not be repeated for credit. Equivalent to NURS 955.

Recommended Prerequisite: Master's degree in nursing, social work, or health-related discipline.

Schedule Type: Seminar

NURS 820: Human Genetics Concepts for Health Care. 4 credits.
The study of human genetics, principles of heredity, and disease risks. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 805 or permission of instructor.

Schedule Type: Lecture

NURS 830: Clinical Research Methodology. 3 credits.
Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to the PhD or DNP program.

Schedule Type: Seminar

NURS 830: Clinical Research Methodology I. 3 credits.
Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to the PhD or DNP program.

Schedule Type: Lecture

NURS 830: Clinical Research Methodology II. 3 credits.
Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to the PhD or DNP program.

Schedule Type: Seminar

NURS 860: Measurement Theories in Healthcare Research. 3 credits.
Synthesizes measurement theories and principles as a foundation for the development and evaluation of instruments for use in healthcare research. The course includes review of statistical techniques required for understanding measurement theory, reliability, validity, responsiveness, item analysis, and item construction. Students design, construct, administer, analyze, and evaluate an original instrument and evaluate an existing instrument in healthcare research. Offered by Nursing (p. 280). May not be repeated for credit. Equivalent to NURS 807.

Recommended Prerequisite: NURS 805 or permission of instructor.

Schedule Type: Lecture

NURS 870: Human Genetics Concepts for Health Care. 4 credits.
The study of human genetics, principles of heredity, and disease risks. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 805 or permission of instructor.

Schedule Type: Lecture

NURS 870: Clinical Research Methodology I. 3 credits.
Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to the PhD or DNP program.

Schedule Type: Seminar

NURS 870: Clinical Research Methodology II. 3 credits.
Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to the PhD or DNP program.

Schedule Type: Seminar

NURS 871: Nursing and Health Care Administration II. 2 credits.
Refers to the policies, procedures, and management of health care systems. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 870.

Registration Restrictions:
NURS 874: Internship in Health Care Administration/Policy/Education. 4 credits.
Internship experience of at least 126 hours with leader in field of nursing, health care administration, policy, or education. Participatory activities require integration and application of principles, frameworks, and science related to executive preceptor role. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Completion of all coursework, except NURS 998.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

NURS 883: Evidence-Based Practice in Nursing and Healthcare. 4 credits.
Building on knowledge of research methodologies and personal expertise, student will identify practice and system problems, analyze the variations of processes and outcomes, evaluate research studies and systematic reviews, and develop a proposal to address issues related to the design of new model of care, translation of evidence into practice, or evaluation of current programs in the context of evidence-based practice. Emphasis is placed on the development of strategies to ensure quality improvement. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 757 and NURS 758.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

900 Level Courses

NURS 920: Qualitative Research in Nursing and Health Care. 3 credits.
Provides the philosophical assumptions underlying qualitative research in nursing and health care. Students will examine the principles of study design, data collection, data analysis, and interpretation associated with phenomenology, grounded theory, and ethnography. Description and mixed-methods designs will be introduced. Qualitative research will be analyzed within the scholarship of discovery, integration, and application. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 804.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

NURS 921: Clinical Practicum I. 1-10 credits.
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that prepares students to perform clinical decision making in their role as advance practice nurses in individualized specialty areas. They will work with advanced practice nurse preceptors to develop clinical expertise, and to develop an understanding of leadership roles in the clinical setting that can enhance the system of health care delivery. One credit hour of seminar with the remaining hours in clinical practice. Offered by Nursing (p. 280). May be repeated within the degree for a maximum 20 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

NURS 922: Clinical Practicum II. 1-10 credits.
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that continues to prepare students to practice in an expanded, advanced clinical practice role. Students will learn to become change agents in the clinical setting with a focus on health care delivery systems. The student will apply advanced health assessment skills and clinical decision making in an area of specialty practice, correlating pathophysiology with symptom manifestations. One credit hour of seminar with the remaining hours in clinical practice. Offered by Nursing (p. 280). May be repeated within the degree for a maximum 20 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

NURS 930: Quantitative Methods in Nursing and Health Care. 3 credits.
Guides the student in applying principles in the design of an innovative quantitative research study to address a significant problem in nursing and/or health care. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: NURS 805.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

NURS 940: Independent Study for the Doctoral Student. 1-6 credits.
Studies in depth a selected area of nursing theory, research, or practice under direction of faculty. Offered by Nursing (p. 280). May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral nursing program.

Individualized section form required.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

NURS 950: Special Topics in Nursing. 3 credits.
Presents selected topics analyzing specialized areas in nursing. Content varies. Lecture, seminar, laboratory, workshop. Offered by Nursing (p. 280). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

NURS 980: Practice Inquiry I. 4 credits.
Synthesize the literature related to the problem. Analyze the environmental factors impacting the problem. Identify the standard of care related to the clinical problem. Assess the quality of evidence that
supports the standard of care. Develop a proposal that will impact the delivery of care in the identified area of practice inquiry. Develop the appropriate outcome measures to address the specific practice inquiry area. Offered by Nursing (p. 280). May be repeated within the degree for a maximum 8 credits.

**Recommended Prerequisite:** Completion of DNP core courses.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**NURS 981:** Practice Inquiry II. 4 credits.
Implement the proposal developed in Practice Inquiry I. Maintain an ongoing process analysis of the project. Collect data. Analyze the findings from the practice inquiry. Disseminate the findings from the practice inquiry in a scholarly manner. Offered by Nursing (p. 280). May be repeated within the degree for a maximum 8 credits.

**Recommended Prerequisite:** NURS 980.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**NURS 998:** Doctoral Dissertation Proposal. 1-9 credits.
A seminar for doctoral students to accompany the development of a doctoral dissertation proposal. Development of the research problem with analysis and critique of methodology discussed. Notes: Students must enroll in the course for 3-credits the first time they take the course. Offered by Nursing (p. 280). May be repeated within the degree.

**Recommended Prerequisite:** Completion of all other coursework except NURS 999 and completion of doctoral comprehensive examination.

**Registration Restrictions:**
Enrollment limited to students in a Doctor of Philosophy degree.

**Schedule Type:** Dissertation

**NURS 999:** Doctoral Dissertation. 1-9 credits.
Provides continued faculty assistance on an individual basis toward completion of approved dissertation. Note: Students must contact the department at (703) 993-1961 to receive approval and a CRN to register via Patriot Web. Offered by Nursing (p. 280). May be repeated within the degree.

**Recommended Prerequisite:** NURS 998.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Nutrition and Food Studies (NUTR)**

**200 Level Courses**

**NUTR 295:** Introduction to Nutrition. 3 credits.
Introduces students to nutrition as a scientific discipline, providing a working knowledge of basic nutrition including the sources and functions of the nutrients, the components of a healthy diet, and the relationship between diet and overall health. Students will learn about the processes of digestion, absorption, and metabolism of nutrients, and several 'hot topics' in the field of nutrition. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Mason Core:** Natural Science Overview (p. 135)

**Schedule Type:** Lecture

**300 Level Courses**

**NUTR 312:** Experimental Foods. 3 credits.
Introduces the composition and structure of food through exploration of chemical, physical, nutritional, sensory and safety aspects, with emphasis on how these aspects relate to food preparation methods. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Corequisite:** NUTR 313.

**Schedule Type:** Lecture

**NUTR 313:** Experimental Foods Lab. 1 credit.
Explores the chemical, physical, nutritional, sensory, and safety aspects of food through hands-on food preparation labs. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Corequisite:** NUTR 312.

**Schedule Type:** Laboratory

**NUTR 314:** Food in Italy. 3 credits.
Explores student to Italian foodways, culture, and sustainability. Travel and field trips will supplement classroom learning and form the basis of a research project focusing on food’s place in Italian society. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Schedule Type:** Seminar

**NUTR 318:** Global Nutrition and Food Security. 3 credits.
An overview of the major concepts and perspectives of food security at the local, regional, and global levels. Explore and apply the definitions, means of measurement, and policy implications of food security from a multidisciplinary approach. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295.

**Schedule Type:** Lecture

**NUTR 326:** Food Systems. 3 credits.
Taking a systems approach, this course provides an overview of the food system from production through consumption and waste. Students will consider the complexity of issues confronting the creation of just and sustainable food systems and access to healthy food for all. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Schedule Type:** Lecture

**NUTR 383:** Taste and Place. 3 credits.
Examines how dietary patterns have developed and evolved in specific geographic locations. Students will analyze the role of geography, history, politics, culture and taste as essential elements in distinctive local, regional, and national foodways. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Schedule Type:** Lecture
400 Level Courses

**NUTR 408: Food Security.** 3 credits.
Examines the human health aspects of food security at the local, regional, and global levels. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295.

**Schedule Type:** Lecture

**NUTR 420: Strategies for Nutrition Education.** 3 credits.
Examines methods and techniques for educating individuals about nutrition. Addresses nutrition education issues from variety of populations with respect to culture, age, religion, and specific disease states. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295 or permission of instructor.

**Schedule Type:** Lecture

**NUTR 421: Community Nutrition.** 3 credits.
Focuses on nutrition and health problems of specific community settings, and examines practices of nutrition services in various communities. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295 or permission of instructor.

**Schedule Type:** Lecture

**NUTR 422: Nutrition throughout the Life Cycle.** 3 credits.
Focuses on nutrient needs and food habits throughout life cycle. Emphasizes nutrient needs prior, during, and after pregnancy, and nutritional requirements of infants, children, adolescents, adults, and elderly. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295 or permission of instructor.

**Schedule Type:** Lecture

**NUTR 423: Nutrition and Chronic Illnesses.** 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295 or permission of instructor.

**Schedule Type:** Lecture

**NUTR 430: Introduction to Wine and Beer.** 3 credits.
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll. Notes: Fees apply. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Schedule Type:** Lecture

**NUTR 466: Nutrition and Weight Management: Obesity, Anorexia, and Bulimia.** 3 credits.
Focuses on the physiological, emotional, genetic, and societal and cultural factors that influence the relationship between eating and weight regulation. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295, GCH 332 or permission of instructor.

**Schedule Type:** Lecture

**NUTR 494: Special Topics in Nutrition and Food Studies.** 3 credits.
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take up to 6 credits of NUTR 494 to their degree program. Offered by Nutrition and Food Studies (p. 262). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Lecture

**NUTR 499: Independent Study in Nutrition and Food Studies.** 1-6 credits.
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering. Offered by Nutrition and Food Studies (p. 262). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Independent Study

500 Level Courses

The course will cover U.S. history in responding to health, nutrition, and population challenges worldwide; examine current programs in each area, including those of the U.S. government and nongovernmental organizations, foundations, and the private sector; and examine future directions for responding to health, nutrition, and population trends. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**NUTR 515: Fundamentals of Cooking.** 3 credits.
Introduces students to the fundamental concepts of food and its preparation. The biological components, the chemical transformation, and sensorial properties of food are explored throughout the course. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.
NUTR 522: Nutrition Across the Lifespan. 3 credits.
Explores the nutrient needs and food habits across the lifespan. Focuses on nutrition policies, programs, and interventions across the lifespan. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Recommended Prerequisite: NUTR 295.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 530: Introduction to Wine and Beer. 3 credits.
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll. Notes: Fees apply. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit. Equivalent to NUTR 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 566: Nutrition and Weight Management. 3 credits.
Focuses on the physiological, emotional, genetic, and societal/cultural factors that influence the relationship between eating and weight regulation. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Recommended Prerequisite: GCH 295 or other introductory nutrition course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 583: Nutrition and Food Security. 3 credits.
Explores selected topics in food science and technology as relevant to the field of nutrition. Coverage includes various food processing and preservation methods, ingredient functionality, nutrient analysis, sensory analysis, food safety considerations, toxicology, and biotechnology.

Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 594: Special Topics in Nutrition and Food Studies. 3 credits.
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take up to 6 credits of NUTR 594 within their degree program. Offered by Nutrition and Food Studies (p. 262). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate level course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

600 Level Courses

NUTR 608: Perspectives on Food Security. 3 credits.
Overview of the major concepts and perspectives of food security. Explores and applies the definitions, means of measurement, and policy implications of food security from a multidisciplinary approach. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 610: Food Safety and Defense. 3 credits.
Focuses on the possible sources of unintentional and intentional contaminations in the food supply, and on the roles and guiding policies of the various levels of government and the food industry, as well as individual responsibility, in managing risk to ensure a safe food supply. Notes: Fees may apply. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Recommended Prerequisite: NUTR 608.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 611: Food and Nutrition Security Policy. 3 credits.
In-depth analysis of food security and nutrition policies and programs aimed at reducing hunger and malnutrition among individuals and populations. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 620: Nutrition Education. 3 credits.
An overview of current nutrition education research, theories, programs, and policies. Explores how nutrition education can influence dietary behavior and food choice. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 625: Food Systems. 3 credits.
Survey of issues surrounding food production from a processing perspective. Students will gain an understanding various forms of food processing and the issues that surround industrial food systems. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 630: Global Nutrition. 3 credits.
Directed at students from a variety of disciplines, this course examines what malnutrition is and how it occurs by looking at several situations from around the world. It looks at the impact of nutrition on a society and community and examines the benefits of a well-nourished population. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

NUTR 642: Macronutrients. 3 credits.
Expands understanding of the biological roles of the macronutrients through application of advanced nutritional concepts relating to digestion, absorption and metabolism of carbohydrates, proteins, and lipids. Practical implications in the diet are emphasized, and particular attention is placed on the etiology and prevention of macronutrient-related diseases, including atherosclerosis, diabetes, and metabolic syndrome. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 and undergraduate biochemistry course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

NUTR 644: Micronutrients. 3 credits.
Expands understanding of the biological roles of the micronutrients through application of advanced nutritional concepts relating to digestion, absorption, transport, and metabolism of vitamins and minerals. Practical implications in the diet are emphasized, with particular attention on the etiology and prevention of micronutrient-related diseases, including nutritional anemia and osteoporosis. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.
**Recommended Prerequisite:** NUTR 295 and Undergraduate biochemistry equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NUTR 651: Nutrition Assessment, Monitoring and Surveillance.** 3 credits.
Introduces students to methods and tools used in assessing nutritional status and, the practice and application of these to monitoring among individuals and population groups. Methods of interpretation of nutrition-related information will be examined. Will include off campus practice. Notes: Will include off campus practice Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit. Equivalent to NUTR 751.

**Recommended Prerequisite:** NUTR 630 or an introductory nutrition course.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**NUTR 652: American Agriculture in the 20th Century.** 3 credits.
Survey of issues surrounding food from an agricultural perspective. Students gain an understanding of how agricultural production shifted from a Jeffersonian ideal to an industrial and political practicality. Topics that may be covered: the agrarian ideal of the yeoman farmer, the ascendancy of markets and agricultural commodification, the politicization of agriculture and the farm bill, and sustainable agricultural systems. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NUTR 670: Nutrition Research Methods.** 3 credits.
Introduction to the fundamentals of research design and data collection methods. Students will learn about quantitative, qualitative, mixed method, participatory approaches, and ethical issues in nutrition-related research and evaluation. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** GCH 601 or GCH 712, NUTR 651 OR equivalent courses.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NUTR 675: Nutrition Program Development, Interventions and Assessments.** 3 credits.
Provides students with the knowledge and skills for planning, developing and evaluation of community nutrition programs and interventions. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 620, NUTR 670, GCH 601 and NUTR 651 OR equivalent courses.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**NUTR 690: Independent Study in Nutrition and Food Studies.** 1-6 credits.
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering. Offered by Nutrition and Food Studies (p. 262). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**700 Level Courses**

**NUTR 788: Pre-Practicum Seminar.** 1 credit.
Provides guidance and preparation for engaging in the capstone practicum. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar
**NUTR 790: Nutrition Practicum.** 2 credits.
An in-depth supervised experience in an approved nutrition-related organization. Includes a project related to a nutrition issue within the organization. Offered by Nutrition and Food Studies (p. 262). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 788.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**NUTR 799: Thesis Research.** 1-6 credits.
Thesis research and writing. Offered by Nutrition and Food Studies (p. 262). May be repeated within the degree.

**Recommended Prerequisite:** Core courses in MS program.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

---

**Operations Management (OM) 200 Level Courses**

**OM 210: Statistical Analysis for Management.** 4 credits.
Introduces application of statistical methods to support quantitative decision analysis for resolving business problems. Topics include descriptive statistics, probability distributions, statistical inference and regression. May be taught in lecture/recitation format. Students may not receive credit for both OM 210 and OM 211. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSU 203, OM 211.

**Registration Restrictions:**
Required Prerequisites: MATH 108$^C$, U108, 113$^C$, U113, HNRT 225$^C$ or U225.

$^C$ Requires minimum grade of C.

**Schedule Type:** Lecture, Recitation

**OM 211: Honors Statistical Analysis for Management.** 4 credits.
Introduces the application of statistical methods to support quantitative decision analysis for resolving business problems. Topics include descriptive statistics, probability, random variables, probability distributions, sampling and sampling distributions, estimation, hypothesis testing, and linear regression (both simple and multiple). Requires extensive use of case studies to integrate, synthesize and extend the concepts presented in order to foster a “learning by doing” approach that develops and promotes critical thinking abilities. Active class discussions via individual and/or group presentations of case assignments is an important learning activity. Extensive use of computer software for statistical modeling, problem solving, and analysis of case studies is a significant component of this course. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to OM 210.

**Recommended Prerequisite:** Cumulative GPA of 3.5 or higher.

**Registration Restrictions:**
Cumulative GPA of 3.5 or higher.

**OM 211: Honors Statistical Analysis for Management.** 4 credits.
Introduces application of statistical methods to support quantitative decision analysis for resolving business problems. Topics include descriptive statistics, probability, random variables, probability distributions, sampling and sampling distributions, estimation, hypothesis testing, and linear regression (both simple and multiple). Requires extensive use of case studies to integrate, synthesize and extend the concepts presented in order to foster a “learning by doing” approach that develops and promotes critical thinking abilities. Active class discussions via individual and/or group presentations of case assignments is an important learning activity. Extensive use of computer software for statistical modeling, problem solving, and analysis of case studies is a significant component of this course. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to OM 210.

**Recommended Prerequisite:** Cumulative GPA of 3.5 or higher.

**Registration Restrictions:**
Cumulative GPA of 3.5 or higher.

---

**Required Prerequisites:** MATH 108$^C$, 113$^C$, HNRT 125$^C$, 225$^C$, MATH U108, U113 or HNRT U225.

$^C$ Requires minimum grade of C.

Enrollment limited to students with the Honors College (Business), Honors College (STEM). or Honors College. attributes.

**Schedule Type:** Lecture

**300 Level Courses**

**OM 301: Operations Management.** 3 credits.
Examines an organization’s operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in OM 301. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the “Termination from the Major” section under Academic Policies. Notes: Students cannot receive credit for both OM 301 and OM 303. Offered by School of Business (p. 846). Limited to three attempts. Equivalent to OM 303.

**Registration Restrictions:**
Required Prerequisites: (OM 210$^C$ or 210T).

$^C$ Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**OM 303: Operations Management.** 3 credits.
Examines an organization’s operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities. Notes: Students cannot receive credit for both OM 301 and OM 303. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in OM 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the “Termination from the Major” section under Academic Policies. Offered by School of Business (p. 846). Limited to three attempts. Equivalent to OM 301.

**Recommended Prerequisite:** BUS 103 and BUS 200.

**Registration Restrictions:**
Required Prerequisites: (ACCT 203$^C$, U203, 204$^C$ or U204) and (BUS 100$^C$, SOM 100$^C$ or BUS U100) and (BUS 210$^C$ or U210) and (MATH 108$^C$, U108, 113$^C$, U113, 114$^C$, U114, HNRT 225$^C$ or U225).

$^C$ Requires minimum grade of C.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture
OM 320: Supply Chain Management in a Global Economy. 3 credits.
Design, development, and management of supply chain systems, including product and inventory management, distribution channels, and information systems that support them. Emphasizes impact of e-business on companies and industries, including Internet's impact on the way goods and services flow through value chain from providers to customers. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (DESC 301C, L301, OM 301C, L301 or 303C).
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

OM 352: Management Science. 3 credits.
Introduces operation research and management sciences (OR/MS) techniques for supporting business management decisions. Specific mathematical programming and probabilistic topics include linear programming, integer programming, goal programming, network flow models, decision analysis, game theory, queuing models, and Monte Carlo simulation. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (DESC 301C, L301, OM 301C or L301) or OM 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

400 Level Courses

OM 435: Business Process Analysis and Simulation. 3 credits.
Introduces concepts and tools used in designing, modeling, analyzing, and improving business processes. Various business process analysis and simulation methods, such as process mapping/flowcharting, process flow and capacity analysis, service process design, theory of constraints, process modeling and simulation, and business process reengineering are discussed. Introduces methods and analytical tools such as queue theory and computer simulation used to design, model, analyze, and improve business processes. Discusses methods such as process mapping/diagramming, service process design, process modeling, and business process reengineering. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (DESC 301C, L301, OM 301C or L301) or OM 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Seminar

OM 452: Business Forecasting. 3 credits.
Introduces techniques for producing predictions of future business operations as aids to making planning decisions. Specific topics include judgmental forecasting, forecast accuracy, correlation analysis, smoothing methods, regression models, decomposition, and autoregressive and ARIMA models. Methods demonstrated and used through computer software. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (DESC 301C, L301, OM 301C or L301) or OM 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

OM 456: Quality Management. 3 credits.
Provides an understanding of the multifaceted nature of quality management by emphasizing topics such as quality philosophies, total quality management, design quality, process quality, and managing quality in information systems development. Discusses ISO 9000 and Capability Maturity Model. Uses software, case studies. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (DESC 301C, L301, OM 301C or L301) or OM 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

OM 462: Honors Seminar in Operations Management (Topic Varies). 3 credits.
Topic and format vary. In-depth study of a topic in the area of operations management. Enrollment limited and competitive. Offered by School of Business (p. 846). May not be repeated for credit.

Recommended Prerequisite: Degree status in ISOM major; senior standing; permission of department.

Registration Restrictions:
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Seminar

OM 491: Seminar in Operations Management. 3 credits.
Analyzes selected topics that highlight latest developments in the operations management field, including contemporary research findings and case studies of operations management in business and other
organizations. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisites:** (OM 301\(^C\)) or OM 303\(^C\), L301 or L303.

\(^C\) Requires minimum grade of C.

Enrollment limited to students with a class of Senior.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Seminar

**OM 493: Management of Technology Projects.** 3 credits.
Focuses on managerial problems associated with meeting technical, cost, and time constraints of technology projects. Discusses project management areas including organization, teams, scheduling, cost control, earned value analysis, risk management, and quality. Includes software cost estimation models and the management of IT projects. Software and case studies. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisites:** (OM 301\(^C\), L301, DESC 301\(^C\) or L303) or OM 303\(^C\) or L303.

\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**OM 499: Independent Study in Operations Management.** 1-3 credits.
By special arrangement with instructor, and approval from associate dean for undergraduate programs. Investigates business problem according to student interest, using state-of-the-art decision science methodology. Offered by School of Business (p. 846). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**

**Required Prerequisites:** (DESC 301\(^C\), L301, OM 301\(^C\) or L303) or OM 303\(^C\) or L303.

\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree or Washington Consortium level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Independent Study

### Operations Research (OR)

**300 Level Courses**

**OR 335: Discrete Systems Modeling and Simulation.** 3 credits.
Introduction to basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete event modeling, specialized simulation software, and statistics of input and output analysis. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts. Equivalent to SYST 335.

**Registration Restrictions:**

**Required Prerequisites:** (CS 112\(^C\)) and (STAT 344\(^C\), 346\(^C\) or MATH 351\(^C\)) (CS 211\(^C\)).

\(^C\) May be taken concurrently.

\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**OR 438: Analytics for Financial Engineering and Econometrics.** 3 credits.
This course introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts. Equivalent to SYST 438.

**Registration Restrictions:**

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**OR 441: Deterministic Operations Research.** 3 credits.

**Registration Restrictions:**

**Required Prerequisite:** MATH 203\(^C\).

\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**OR 442: Stochastic Operations Research.** 3 credits.

**Registration Restrictions:**

**Required Prerequisites:** STAT 344\(^C\), 346\(^C\) or MATH 351\(^C\).

\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture
OR 481: Numerical Methods in Engineering. 3 credits. Modern numerical methods and software. Emphasis on problem solving through software and assessing the quality of solutions obtained. Topics include computer arithmetic, linear equations and least squares data fitting, interpolation, nonlinear optimization, and differential equations. Involves extensive computer use. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts. Equivalent to MATH 446.

Registration Restrictions:
Required Prerequisites: MATH 203C and CS 112C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Recommended Prerequisite: 60 hours; must be arranged with an instructor and approved by the dept. chair before registering.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Independent Study

500 Level Courses

OR 531: Analytics and Decision Analysis. 3 credits. Course focus is predominantly on prescriptive analytics with some parts focused on predictive analytics. Topics include operations research techniques and their application to decision making such as mathematical optimization, networks modeling, stochastic modeling, and multi-objective modeling. Other topics such as PERT, CPM, computer simulation, decision analysis using decision trees and quantitative value functions, and heuristic methods are covered, as well as use of contemporary computer software for problem solving. In particular, the course will extensively use MS Excel for solving the decision making problems. Case-study approach to problem solving is used. Notes: Cannot be used for credit for the PhD IT program. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

OR 538: Analytics for Financial Engineering and Econometrics. 3 credits. This course introduces the basic analytics for financial engineering and econometrics, topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hand-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 538.

Recommended Prerequisite: STAT 515 or STAT 544.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

OR 540: Management Science. 3 credits. Operations research techniques and their application to managerial decision making. Mathematical programming, Markov processes, queuing theory, inventory models, PERT, CPM, and computer simulation are covered, as well as use of contemporary computer software for problem solving. Case-study approach to problem solving is used. Notes: Students who have taken OR 541 or OR 542 and OR MS majors do not receive credit. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 540.

Recommended Prerequisite: MATH 108, and STAT 250 or OM 200; or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

OR 541: Operations Research: Deterministic Models. 3 credits. Survey of deterministic methods of solving real world decision problems. Covers linear programming model and simplex method of solution, duality, and sensitivity analysis, transportation and assignment problems; shortest path, minimal spanning tree, and maximal flow problems; and an introduction to integer and nonlinear programming. Emphasis on modeling and problem solving. Notes: Students who have taken OR 441/MATH 441 will not receive credit. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: MATH 203 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Recommended Prerequisite: STAT 344 or MATH 351 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 568: Applied Predictive Analytics. 3 credits. Introduces predictive analytics with applications in engineering, business, and econometrics. Topics include time series and cross-sectional data processing, correlation, linear and multiple regressions, time series decomposition, predictive modeling and case study. Provides a foundation of basic theory and methodology with applied examples to analyze large engineering and econometric data for predictive decision making. Hand-on experiments with R will be emphasized. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 568.

Recommended Prerequisite: STAT 515 or Graduate Standing at the MSOR or MSSE programs.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 574: Quality Control and Process Management. 3 credits. An overview of quality control techniques widely used in a number of manufacturing industries. The course teaches students about combining engineering process quality management and traditional statistical quality control procedures that are applicable in industry and are based on contemporary technologies such as lean Six Sigma, total quality management and predictive maintenance for achieving superior quality, reliability and maintainability. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 574.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 576: Manufacturing Systems Analysis. 3 credits. An overview of modeling and analysis of general manufacturing systems techniques widely used in a number of manufacturing industries, such as semiconductor manufacturing. The course teaches students about best scheduling and inventory control practices, enterprise resource management principles, and details of engineering economy that are applicable in the industry. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 576.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 588: Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives. 3 credits. This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito’s formula, and Black-Scholes model. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 588.

Recommended Prerequisite: Eng. or Math Graduate standing, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.
Schedule Type: Lecture

600 Level Courses

OR 603: Sports Analytics. 3 credits.
Cover topics in the applied analysis of sports, with a focus on supporting team decision-makers. Students will learn to apply modern, practical analytic techniques to sports data in search of actionable insight and a competitive edge. The four major team sports of North America (football, baseball, basketball, and hockey) will be the primary subjects of study, but the course's learning objectives will universally apply to a variety of sports. Students will become familiar with the full analytic life-cycle: asking productive and relevant research questions, finding the right data, applying the appropriate tools, discovering insight, and clearly communicating results. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: (OR 531 or OR 541), and (STAT 518 or OR 568).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 604: Practical Optimization. 3 credits.
Survey of optimization methods for students whose main focus is on application of optimization. Covers modeling, search methods, convexity, linear programming, sensitivity, networks, multiobjective optimization, heuristic methods, integer programming, nonlinear programming and dynamic programming; use of modeling languages and optimization tools, including NEOS. Notes: Course cannot be counted toward MSOR degree. Students who have taken OR 541 or 644 cannot receive credit. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 531 and CS 112 or higher programming course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 635: Discrete System Simulation. 3 credits.
Computer simulation as a scientific methodology in operations analysis, with emphasis on model development, implementation, and analysis of results. Discrete-event models, specialized software, input modeling, and output statistics are covered. Extensive computational work is required. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 542, or STAT 354 or 344, or equivalent; and knowledge of scientific programming language.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 640: Global Optimization and Computational Intelligence. 3 credits.
Introduction to global optimization of nonconvex mathematical programs and numerical methods for the solution of such problems. Topics covered include high-level survey of traditional mathematical programming algorithms; critical comparison of heuristics and artificial intelligence (AI) algorithms to traditional mathematical programming algorithms; probabilistic search, multistart methods, statistical tests of performance and confidence, simulated annealing, genetic algorithms, neural networks, Tabu search, homotopies and tunneling; the traveling salesman problem, the Steiner problem, Stackelberg-Cournot-Nash mathematical games and other classical nonconvex optimization problems. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: MATH 203 or equivalent, and knowledge of a scientific programming language.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 641: Linear Programming. 3 credits.
In-depth look at the theory and methodology of linear programming: Computational enhancements of the revised simplex method; sparse-matrix techniques, bounded variables and the dual simplex method. Alternative interior point methods described and computational complexity of various algorithms analyzed. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 642: Integer Programming. 3 credits.
Cutting plane and enumeration algorithms for solution of integer linear programs; bounding strategies and reformulation techniques; heuristic approaches to the solution of complex problems; knapsack problems, matching problems, set covering and partitioning problems; applications to problems in OR/MS, such as capital budgeting, facility location, political redistricting, engineering design, and scheduling. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 643: Network Modeling. 3 credits.
Introduction to network problems in operations research, computer science, electrical engineering, and systems engineering. Solution techniques for various classes of such problems are developed. Topics include minimal-cost network flow, maximal flow, shortest path, and generalized networks; plus stochastic networks, network reliability, and combinatorially based network problems. Complexity of each problem class analyzed. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 644: Nonlinear Programming. 3 credits.
Nonlinear optimization theory and techniques applicable to problems in engineering, economics, operations research, and management science. Covers convex sets and functions, optimality criteria and duality; algorithms for unconstrained minimization, including descent methods, conjugate directions, Newton-type and quasi-Newton methods; and algorithms for constrained optimization, including active set methods and penalty and barrier methods. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: MATH 213 or equivalent and OR 541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 645: Stochastic Processes. 3 credits.

Recommended Prerequisite: OR 542 or STAT 544 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 646: Stochastic Optimization. 3 credits.
Provides an introduction to stochastic optimization, more specifically, stochastic programming. The objectives are (i) to provide students with the ability to model and solve optimization problems under uncertainty, and (ii) to make students familiar with the state-of-the-art of stochastic programming. Homework will be used to reinforce and supplement information in each section. Through the semester we will be reading research papers to supplement the material in the text book. Papers and other course material will be provided on Blackboard. Students should be proficient with one programming language (e.g. MATLAB, Python, Java, C++) and should be able to become familiar with a math programming solver (e.g. Cplex, Gurobi.) Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 541 and OR 542.

Registration Restrictions:
and risks. Cost analysis is distinctly different from cost estimating, evaluating selected alternatives on the basis of their costs, benefits, decision makers in choosing preferred future courses of action by systems analysis), cost analysis uses operations research to assist while drawing on other disciplines (managerial accounting, econometrics, OR 651:

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 647: Queuing Theory. 3 credits.
Unified approach to queuing, organized by type of model. Single- and multiple-channel exponential queues; Erlangian models, bulk and priority queues, networks of queues; general arrival and/or service times; and statistical inference and simulation of queues are covered. Extensive use of computational software. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 542, STAT 544, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 649: Topics in Operations Research. 3-6 credits.
Advanced topic chosen according to interests of students and instructor from dynamic programming, inventory theory, queuing theory, Markov and semi-Markov decision processes, reliability theory, decision theory, network flows, large-scale linear programming, nonlinear programming, and combinatorics. Notes: May be repeated if topics substantially different. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 650: Air Transportation Systems Modeling. 3 credits.
Introduces range of current issues in air transportation, including public policy toward the industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Students expected to develop broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, a take-home midterm exam and a term project to be completed by the end of the semester. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 660.

Recommended Prerequisite: SYST 460/560, or permission of instructor.
**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 670: Metaheuristics for Optimization.** 3 credits.
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 670.

**Recommended Prerequisite:** OR 441/541 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 671: Judgment and Choice Processing and Decision Making.** 3 credits.
How do people make judgments and decisions? Course presents an initial review of scientific literature directed toward answering this question, and emphasizes its importance when performing decision analysis and designing systems to support judgment and decision processes. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 671.

**Recommended Prerequisite:** STAT 344/354, OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 674: Dynamic Programming.** 3 credits.
Course on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses intuition, the mathematical foundations being for the most part elementary. Introduces the theory, applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 674.

**Recommended Prerequisite:** OR 442 or OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 675: Reliability Analysis.** 3 credits.
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 675.

**Recommended Prerequisite:** STAT 544/554, OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 681: Decision and Risk Analysis.** 3 credits.
Application of analytic reasoning and skills to practical problems in decision-making. Topics include problem structure, analysis and solution implementation, emphasizing contemporary approaches to decision analytic techniques. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** OR 542 or MBA 638.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

**OR 682: Computational Methods in Engineering and Statistics.** 3 credits. Numerical methods have been developed to solve mathematical problems that lack explicit closed-form solutions or have solutions that are not amenable to computer calculations. Examples include solving differential equations or computation probabilities. Discusses numerical methods for such problems as regression, analysis of variance, nonlinear equations, differential and difference equations and nonlinear optimization. Applications in statistics and engineering are emphasized. Involves extensive computer use. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to CSI 690, CSI 700, MATH 685.

**Recommended Prerequisite:** MATH 203 and 213 or equivalent, and modern numerical methods and software.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

**OR 683: Principles of Command, Control, Communications, Computing, and Intelligence (C4I).** 3 credits. Fundamental principles of C4I are developed from descriptive, theoretical, and quantitative perspectives. Principles and techniques applicable to wide range of civilian and military situations. Topics include C2 process; modeling and simulation for combat operations; detection, sensing, and tracking; data fusion and situation assessment; optimal decision making; methodologies and tools of C4I architectures; tools for modeling and evaluations of C4 systems such as queuing theory. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** ECE 528 or OR 542 or SYST 611 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

**OR 688: Financial Systems Engineering II: Derivative Products and Risk Management.** 3 credits. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 688.

**Recommended Prerequisite:** OR/SYST 588 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

**OR 690: Optimization of Supply Chains.** 3 credits. Focuses on both supply chain optimization from an enterprise-wide perspective, and supply chain optimization from a business-to-business e-commerce concern. Concerned with optimizing the value of goods and services and assuring a reasonable return on such sales. Describes both heuristic and exact algorithms for scheduling, production, inventory management, logistics, and distribution. New software that enables such optimization is presented, as are manufacturing and service examples from the public and private sectors. New techniques to handle risk, quality of data, and robustness of solutions are presented. Students perform case studies using state-of-the-art software. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** Mathematics through linear algebra, and STAT 344.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

**OR 699: Masters Project.** 3 credits. Capstone project course for MS/OR program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 680.
**Recommended Prerequisite:** 21 graduate credits in OR or SYST.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**700 Level Courses**

**OR 719:** *Graphical Models for Inference and Decision Making.* 3 credits.
Theory and methods for inference and decision making in environments characterized by uncertain information. Covers graphical probability and decision models. Studies approaches to representing knowledge about uncertain phenomena, and planning and acting under uncertainty. Topics include knowledge engineering, exact and approximate inference in graphical models, learning in graphical models, temporal reasoning, planning, and decision-making. Practical model-building experience provided. Students apply what they learn to a project of their own choosing. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to CSI 775, STAT 719.

**Recommended Prerequisite:** STAT 652 or SYST 664 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 735:** *Advanced Stochastic Simulation.* 3 credits.
Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data, random number and random ariate generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 735.

**Recommended Prerequisite:** OR 635 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 741:** *Advanced Linear Programming.* 3 credits.
Recent developments in linear programming. Highlights advances in interior point methods and also addresses developments in the simplex method. Projective methods, affine methods, and path-following methods are examined, including Karmarkar’s original work. Discusses relationships between these methods, and relationships to methods in nonlinear programming. Also discussed are advances in data structures and other implementation issues. Students test software and solve large-scale linear programs. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** OR 541 or 641.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 750:** *Advanced Topics in Operations Research.* 3 credits.
Special topics, applications, or recent developments in operations research. Contents vary and may include topics in optimization, stochastic methods, or decision support that are not covered in the standard OR curriculum. Notes: May be repeated when topics are distinctly different. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the term for a maximum 12 credits.

**Recommended Prerequisite:** OR 541 or 542, and 600-level course that varies with content of course.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 751:** *Advanced Topics in Operations Research for Planning and Scheduling.* 3 credits.
Introduces combinatorial optimization problems in scheduling and logistics. Solution techniques for various classes of such problems are developed. Topics include deterministic and stochastic scheduling algorithms with applications in manufacturing and service sectors. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** OR 541.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 752:** *Advanced Topics in Operations Research for Planning and Scheduling.* 3 credits.
Recent developments in operations research. Highlights advances in interior point methods and also addresses developments in the simplex method. Projective methods, affine methods, and path-following methods are examined, including Karmarkar’s original work. Discusses relationships between these methods, and relationships to methods in nonlinear programming. Also discussed are advances in data structures and other implementation issues. Students test software and solve large-scale linear programs. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** OR 541 or 641.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**OR 753:** *Advanced Topics in Operations Research for Planning and Scheduling.* 3 credits.
Introduces combinatorial optimization problems in scheduling and logistics. Solution techniques for various classes of such problems are developed. Topics include deterministic and stochastic scheduling algorithms with applications in manufacturing and service sectors. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** OR 541.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.
OR 763: Research Methods in Systems Engineering and Information Technology. 3 credits. Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 763.

Recommended Prerequisite: STAT 554, OR 542, or permission of instructor.

Registration Restrictions: Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 774: Advanced Dynamic Programming. 3 credits. Covers advanced topics on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses the mathematical foundations and introduces the theory, computational aspect, and applications of dynamic programming for deterministic and stochastic problems. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 674/SYST 674 or permission of instructor.

Registration Restrictions: Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Recommended Prerequisite: OR 645 or OR 647, or ECE 542, or equivalents.

Registration Restrictions: Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 782: Advanced Topics in Combinatorial Optimizations. 3 credits. Studies problems using most recent developments. Topics include cutting plane procedures based on polyhedral combinatorics; column-generation procedures for large, complex problems; heuristic approaches such as genetic algorithms, simulated annealing, and tabu search; study of special structures; reformulation techniques; and bounding approaches. Topics stress most recent developments in field. Notes: May be repeated when topics are distinctly different. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: OR 641 or OR 642.

Registration Restrictions: Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 783: Advanced Topics in Network Optimization. 3 credits. Recent developments in solving optimization problems on networks. Prepares doctoral students to perform advanced research on network-related problems. Topics include linear, discrete, nonlinear, and stochastic problems. Several aspects of problems also studied, including computational complexity, exact algorithms, heuristics, solvable special cases, and computer implementation issues. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: OR 643.

Registration Restrictions: Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 784: Advanced Topics in Nonlinear Programming. 3 credits. Studies theory and algorithms for solving nonlinear optimization problems. Contents vary; possible topics include large-scale and parallel-unconstrained optimization, theoretical issues in constrained optimization, duality theory, Lagrangian and sequential quadratic programming methods. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 644.

Registration Restrictions: Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture
800 Level Courses

OR 842: Models of Probabilistic Reasoning. 3 credits.
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: STAT 544, OR 542, OR 681 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 888: Distributed Estimation and Multisensor Tracking and Fusion. 3 credits.
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multtarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: ECE 734 or SYST 611.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

900 Level Courses

OR 944: The Process of Discovery and Its Enhancement in Engineering Applications. 3 credits.
Studies ingredients of imaginative reasoning as it concerns efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 944.

Recommended Prerequisite: OR 842 or SYST 842 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

OR 981: Optimization in Medicine. 3 credits.
Course focuses on the application of optimization to medicine, as well as on modeling used and solution approaches to the optimization problems generated. Particular attention is paid to algorithms and methodology not discussed in other optimization courses. Topics covered include nonlinear integer programs, large-scale nonlinear and integer programs, problems governed by differential equations, and more. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: OR 641 or OR 642 or OR 643 or OR 644.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Organization Development and Knowledge Management (ODKM)

700 Level Courses

ODKM 700: Organizations, Management and Work: Theory and Practice. 3 credits.
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: OR 641 or OR 642 or OR 643 or OR 644.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ODKM 705: Group Dynamics and Team Learning. 3 credits.
Engaging in unstructured and semi-structured learning environment, students will learn how to facilitate team learning for organizational effectiveness. By exploring various aspects of group dynamics such as power, perception, motivation, leadership, and decision making, students will develop various competencies to manage teams and enhance their emotional and appreciative intelligence. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite:

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ODKM 710: Social and Organizational Inquiry. 4 credits.
Introduces participants to the ethics, conduct and evaluation of research into human, social and organizational realities. Explores relationships between what and how we measure and what we find. Students develop the capacity to reflect on themselves as research instruments, on their own impact on the systems under study, and on the impact of
the research assumptions, framing and approach both on the results obtained and on the future development of those systems. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**ODKM 715: Creating Learning Organizations.** 3 credits.
Focuses on the epistemological and ontological implications of organizational life in the twenty-first century. Reevaluates traditional management approaches in light of global economies, instantaneous communication, changing technologies, and diverse workgroups in knowledge economies. Special attention to developing skills for "double- and triple-loop learning," and reflection in professional lives through learning conversations, journals, narrative, autobiography, and imaginative literature. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**ODKM 720: Socio-technical Systems and Collaborative Work.** 3 credits.
Examines the potential of collaborative technologies for creating effective knowledge sharing in organizations. Through the use of tools such as SharePoint, students will gain a comprehensive understanding of the state of the art of virtual work and collaboration technology and other subjects related to successful design of a collaborative knowledge work environment. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**ODKM 725: Knowledge Management and Strategy.** 3 credits.
An in-depth look at knowledge management, both theory and practices, which distinguishes between technology-oriented KM practices and people-oriented ones, with an emphasis on leveraging and sharing knowledge to get work done well and develop more effective organizations. Examines effective ways of organizing knowledge-work, including social networks, communities of practice, and the use of collaborative technologies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**ODKM 730: Special Topics.** 1-3 credits.
Selected special topics in organization development and knowledge management not covered by existing ODKM courses. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**ODKM 731: Consulting Skills for Organizational Change.** 3 credits.
Explores various theories and practices of change management, collaborative consulting, action research, and organization development. Using class projects and case studies, students bring together their understanding of organization development, their values, and their personal style to perform more effectively in various consulting roles. Students also learn various aspects of process consulting and client relationship management. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**ODKM 732: Leadership and Social Justice.** 4 credits.
This course challenges participants not just to theorize leadership and social justice but to inhabit them. Reflective understanding and practice span: inner journeys, interpersonal relationships, organizations, and large scale systems. With globalization, ethical leadership requires understanding diverse perspectives and complex systems. Outward leadership relies on inner leadership. Participants cultivate personal leadership philosophy and practice through engaging real-life challenges. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**ODKM 735: Organizational Development Practices.** 3 credits.
Students develop applied knowledge of various organizational development practices such as action research and appreciative inquiry. Includes simulations to understand the complexities of real-world change management. Group projects with selected organizations will help
students develop their diagnostic and analytical skills to become better facilitators of organizational learning. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

ODKM 740: Learning Community. 1-3 credits.
Using workshops, seminars, simulations, and structured experiences, students will learn how to build a learning Community of Practice (CoP) as practitioners of organization development. They will also reflect upon the community building experience using research findings and design practice sessions to apply the lessons learned to the work environment. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the degree for a maximum 3 credits. Equivalent to MNPS 720.

Recommended Prerequisite: Candidates for the M.S. in ODKM degree only.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Parks, Recreation, and Leisure Studies (PRLS)

100 Level Courses

PRLS 115: Introduction to Fly Fishing. 1 credit.
A practical course designed for students with little or no knowledge of fly fishing. The course will involve activities to teach students the basics of fly fishing to include terms and equipment, casting, knot tying, aquatic entomology, fly selection, reading water, wading techniques and safety, and fly fishing tactics. In addition to the one-hour classes required during the week, a full day on a stream will be included. Note: Students will be required to pay an activities fee to cover transportation and equipment rental. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Physical Activity Course

Schedule Type: Laboratory

PRLS 116: Intermediate Rock Climbing. 2 credits.
Introduces the practices designed to move into the intermediate indoor climbing realm with a focus on efficient and creative body positions, including specific, more advanced techniques and strength training. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: PRLS 115.

Schedule Type: Laboratory

PRLS 117: White-water Canoeing. 2 credits.
A practical course designed for students with little or no knowledge or skills in moving water and white-water canoeing. Involve activities to teach basic terms, rules, techniques for river safety, paddle strokes, boat control and maneuvering, reading river currents and conditions, self rescue techniques, ethics and river etiquette, and running rivers up to Class II- in difficulty. There will be one classroom and four all-day paddling sessions on regional rivers. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Physical Activity Course

Schedule Type: Laboratory

PRLS 118: Introduction to Rowing. 1 credit.
This course is designed to provide experienced coastal kayaking students with an introduction to advanced strokes and maneuvers, open water rescues, on-water navigation, and safety concerns related to open water. Notes: Fee required. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: PRLS 115 or permission of instructor.

Schedule Type: Laboratory

PRLS 123: Intermediate Indoor Rock Climbing. 1 credit.
Introduces the practices designed to move into the intermediate indoor climbing realm with a focus on efficient and creative body positions, including specific, more advanced techniques and strength training. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: PRLS 117.

Schedule Type: Laboratory

PRLS 125: Tracking, Trailing and Orienteering. 2 credits.
Develops outdoor navigational and tracking skills and assumes no prior experience in tracking, trailing, or orienteering. Use of modern topographical maps and navigational compasses in a variety of settings. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Laboratory

PRLS 128: Basic Rowing. 1 credit.
This course is designed to provide experienced coastal kayaking students with an introduction to advanced strokes and maneuvers, open water rescues, on-water navigation, and safety concerns related to open water. Notes: Fee required. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: PRLS 115 or permission of instructor.

Schedule Type: Laboratory

PRLS 140: Advanced Canoeing. 2 credits.
A practical course designed for students with little or no knowledge or skills in moving water and white-water canoeing. Involve activities to teach basic terms, rules, techniques for river safety, paddle strokes, boat control and maneuvering, reading river currents and conditions, self rescue techniques, ethics and river etiquette, and running rivers up to Class II- in difficulty. There will be one classroom and four all-day paddling sessions on regional rivers. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Physical Activity Course

Schedule Type: Laboratory

PRLS 173 or permission of instructor.

PRLS 174: Open Water Coastal Kayaking. 2 credits.
This course is designed to provide experienced coastal kayaking students with an introduction to advanced strokes and maneuvers, open water rescues, on-water navigation, and safety concerns related to open water. Notes: Fee required. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: PRLS 173 or permission of instructor.

Schedule Type: Laboratory

PRLS 175: Introduction to Rowing. 1 credit.
This course is designed to provide students with the skills and knowledge necessary to row successfully in an eight-oared rowing shell. Includes instruction in, but not limited to, proper handling of rowing equipment, basic terminology, the proper execution of the rowing stroke, water safety, and team building. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Physical Activity Course

Schedule Type: Laboratory

PRLS 180: White-water Canoeing. 2 credits.
A practical course designed for students with little or no knowledge or skills in moving water and white-water canoeing. Involve activities to teach basic terms, rules, techniques for river safety, paddle strokes, boat control and maneuvering, reading river currents and conditions, self rescue techniques, ethics and river etiquette, and running rivers up to Class II- in difficulty. There will be one classroom and four all-day paddling sessions on regional rivers. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.
Facilitation. Classroom learning is combined with an experiential setting. Provides the fundamental principles and techniques of challenge course facilitation. Classroom learning is combined with an experiential setting.

Schedule Type: Lecture

PRLS 221: White-water Canoeing II. 2 credits.
A practical methods course to advance and refine the student's white-water canoeing skills with regard to paddle strokes, turns, maneuvers, boat control, and safety rescue skills. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Physical Activity Course
Recommended Prerequisite: PRLS 180 or Permission of Instructor.

Schedule Type: Lecture

PRLS 220: Wilderness First Responder. 2 credits.
Examines the role of outdoor professionals in wilderness medicine and the response, care and rescue of outdoor participants in non-urban outdoor environments. Uses the Patient Assessment System (PAS) to assess backcountry patients in an intensive experiential course which addresses the issues of medico legal concerns, blood borne pathogens and infectious diseases. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 9 credits.

Schedule Type: Lecture

PRLS 210: Introduction to Recreation and Leisure. 3 credits.
Traces the development of current concepts of recreation and leisure and their implications and consequences. Covers influences of philosophy, religion, science, economics, sociology, and politics on discretionary time and its uses. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

PRLS 214: Field Study in Natural History. 3 credits.
Provides an introduction to natural history and its application in natural area interpretation through field study investigation of the environment. Covers fundamentals of bird, plant, animal, and rock identification, as well as sky and landscape interpretation. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture

PRLS 210: Experiential Education Theory and Application. 3 credits.
Provides a broad theoretical, as well as practical, background in teaching and learning experientially. Concepts presented, experienced, and discussed include the basic premises of experiential learning according to a wide variety of educators and philosophers. The content and experience applies to recreation, education, development, and therapeutic settings. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Physical Activity Course

Schedule Type: Lecture

PRLS 221: Challenge Course Facilitation. 3 credits.
Provides the fundamental principles and techniques of challenge course facilitation. Classroom learning is combined with an experiential setting through leading youth groups in the field. Students are provided with an introduction to safety, skills, and facilitation techniques for low and high elements of outdoor challenge courses. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: CPR Certification and PRLS 220.

Schedule Type: Lecture

PRLS 241: Practicum. 3 credits.
Paid or voluntary work experience in a park and recreation agency. Minimum period of 10 to 12 weeks of part-time employment or experience. Capstone course for minors, allowing for integration and application of course work, theories, and research to a work setting. Work sites chosen among four approved sites. Includes meetings and assignments prior to and during the practicum. Notes: Open to departmental majors and minors only. Serves as a capstone for minors who have completed PRLS 310, 316, and 32. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PRLS 210 or 327.
Requires minimum grade of C.

Schedule Type: Internship

PRLS 250: Wilderness Travel and Sustainability. 2 credits.
This experiential course is designed for students with prior backpacking experience. Involves discussions, demonstrations, and activities that teach students wilderness skills, safety and judgment, leadership and teamwork, and environmental ethics. Topics covered include basic wilderness first-aid, hazard evaluation, emergency procedures, expedition behavior, self awareness, judgment and decision making, campsite selection, shelter and stove use, fire building, sanitation and hygiene, cooking, nutrition and rationing, equipment care and selection, staying warm and dry, route finding and navigation, Leave No Trace backpacking, weather, natural history, and wilderness ethics. Application of these skills will occur during the 14-day offtrail backpacking trip in a remote wilderness area. Not only will students practice these wilderness skills, but they will also develop leadership abilities by working in a collaborative team environment. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Green Leaf Course, Physical Activity Course

Schedule Type: Lecture

PRLS 253: Florida Everglades Canoe Expedition. 3 credits.
Focuses on developing the knowledge and skills necessary to plan, manage, and participate in extended wilderness excursions by canoe in remote locations, while exploring a region's natural history. Students will be engaged in classroom preparation; training in canoeing and wilderness travel/living skills; group leadership; and environmental education in the Everglades National Park ecosystem. The class will travel and camp for 6 days/night in the Everglades back country by canoe as a self-contained group. Students will perform a service project in the park. For students planning careers in outdoor recreation, interpretation, and natural resources management and planning; and students with a general interest in the course topics. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: CPR Certification and PRLS 220.

Schedule Type: Lecture

PRLS 241: Practicum. 3 credits.
Paid or voluntary work experience in a park and recreation agency. Minimum period of 10 to 12 weeks of part-time employment or experience. Capstone course for minors, allowing for integration and application of course work, theories, and research to a work setting. Work sites chosen among four approved sites. Includes meetings and assignments prior to and during the practicum. Notes: Open to departmental majors and minors only. Serves as a capstone for minors who have completed PRLS 310, 316, and 32. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PRLS 210 or 327.
Requires minimum grade of C.

Schedule Type: Internship

PRLS 250: Wilderness Travel and Sustainability. 2 credits.
This experiential course is designed for students with prior backpacking experience. Involves discussions, demonstrations, and activities that teach students wilderness skills, safety and judgment, leadership and teamwork, and environmental ethics. For students planning careers in outdoor recreation, interpretation, and natural resources management and planning; and students with a general interest in the course topics. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.
Schedule Type: Lecture

PRLS 290: Aquatic Operation and Management. 3 credits.
Covers industry standards for water quality and aquatic facility management. Includes recognizing, measuring, and preventing biological and physical hazards. Meets requirements for certification as a Certified Pool/Spa Operator through the National Swimming Pool Foundation as well as certification in CPR through the American Red Cross. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

PRLS 300 Level Courses

PRLS 300: People with Nature. 3 credits.
Traces philosophical evolution of perceptions of and attitudes toward nature. Examines role of philosophers, scientists, nature-writers, and artists in the shaping of environmental thought. Includes extensive reading of Emerson, Thoreau, Muir, Leopold, Carson, Wilson, and others. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Schedule Type: Lecture

PRLS 302: Park Management and Operations. 3 credits.
Focuses on management and operations of park resources, including the management of visitors and recreation development. Emphasizes understanding of contemporary threats to park integrity and preservation of resources. Also covers maintenance management systems. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: PRLS 300

Schedule Type: Lecture

PRLS 310: Program Planning and Evaluation. 3 credits.
Introduces fundamental principles and techniques of the planning process for sport, recreation and tourism programs, including assessment of needs and goals, objectives, and mission statement; generating solutions; planning programs for implementation and evaluation. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PRLS 210D or SRST 200C.
C Requires minimum grade of C.

Schedule Type: Lecture

PRLS 311: Leadership and Outdoor Education. 3 credits.
Focuses on promotion of lifelong health and fitness via noncompetitive and informal outdoor activities. Introduces safety, skills, and leadership techniques. Covers sustainable use, conservation, and stewardship of natural resources. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

PRLS 317: Social Psychology of Play and Recreation. 3 credits.
Applies social psychological theories and research to the study of leisure, play, and recreation behavior, including correlates, antecedents, and consequences of and constraints to these concepts. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PRLS 210C or SRST 200C.
C Requires minimum grade of C.

Schedule Type: Lecture

PRLS 323: Program Leadership and Evaluation. 3 credits.
Covers leadership and evaluation of health, fitness, and recreation programs. Uses computer technology to study evaluative aspects of program planning and administration. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: PRLS 310C.
C Requires minimum grade of C.

Schedule Type: Lecture

PRLS 400 Level Courses

PRLS 402: Human Behavior in Natural Environments. 3 credits.
Applies social and behavioral theories to management for recreational users of land and water resources. Examines deterioration and pollution of land and water, noise, crowding, and conflicts among users. Discusses strategies for mitigation of deleterious impacts and depreciative behaviors, and attitudes toward resource conservation, preservation, and use. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.
**Specialized Designation:** Green Leaf Course

**Registration Restrictions:**
**Required Prerequisite:** PRLS 300C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**PRLS 405:** Planning and Operation of Recreation Facilities. 3 credits.
Covers quantity, location, and design standards for facilities. Includes safety, functionality, durability, and maintenance demand criteria in planning and design; programmatic and operational objectives to be met, including user comfort and convenience, crowd management, and traffic flow, and space relationships. Includes field study of local facilities. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** 60 hrs or permission of instructor.

**Schedule Type:** Lecture

**PRLS 410:** Administration of SRT Organizations I. 3 credits.
Focuses on operation and management of sport, recreation and tourism organizations. Covers management and leadership theories and techniques, problem-solving and decision making, organizational communications, design of organizational structures and budgeting. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits.

**Schedule Type:** Lecture

**PRLS 411:** Administration of SRT Organizations II. 3 credits.
Focuses on program and organizational marketing principles and strategies; service quality assessment and organizational evaluation techniques; and organizational financing for the experience industry. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PRLS 410C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**PRLS 416:** Trends and Programming Assessment in Therapeutic Recreation. 3 credits.
Explores the role of leisure in human development with a specific focus on needs, demands, and services for people with disabilities and illness. Presents concepts associated with leisure, aging, physical challenge, targeting leisure services, research, and public policy. Notes: Field experience required. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PRLS 327C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**PRLS 417:** Processes, Techniques and Supervision in Therapeutic Recreation. 3 credits.
Exploration of processes and techniques used in Therapeutic Recreation, with a focus on the nature and diversity of recreation and leisure activities, modalities and interventions, facilitation techniques and approaches, leadership roles and tasks, communication skills, clinical supervision, health and safety considerations, and the impact of the impairment and/or treatment on the individual. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PRLS 327C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**PRLS 418:** Assessment in Therapeutic Recreation. 3 credits.
Presents methods of assessment, development of treatment program plans, and evaluation of all components. Extends program design by developing competencies in the planning approaches, individual and group assessment techniques, program evaluation, and documentation strategies for people with disabilities and illness. Notes: Field experience required. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PRLS 327C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**PRLS 435:** Recreation Special Uses and Appeals. 3 credits.
Management of extensive and varied commercial and noncommercial demands on federal lands. Policies and procedures used by federal land managers. Implementation, effects, and problems of permit systems; appeal provisions. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 635.

**Schedule Type:** Lecture

**PRLS 442:** Foundations of Public Domain Management. 1 credit.
Acquisition, disposal, reservation, and management of the public (federal) domain via the Bureau of Land Management, National Park Service, and the U.S. Forest Service. Policies, trends, and management needs are examined. Intra- and inter-agency integration of land management programs. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 542.

**Schedule Type:** Lecture

**PRLS 443:** Special Uses Management on Federal Lands. 4 credits.
Special use authority and authorizations. Policies, regulations, and directives in processing applications. Coordination and administration of special uses and integration with land and resource management plans. Includes agriculture, industry, community, aviation, water, treasure trove, and cultural uses. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 643.

**Schedule Type:** Lecture

**PRLS 444:** Linear Uses and FERC Licenses on Federal Lands. 3 credits.
Legislation, regulation policies, and directives governing linear uses. FERC licensing of hydroelectric power generation and distribution. Right-of-way for oil, gas, and electric transmission, railroads, communication, trams, conveyors, roads, and trails. FERC consultation, exemption, and licensing. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 644.

**Schedule Type:** Lecture
PRLS 445: Valuation and Landownership Adjustment. 5 credits.
Landownership authority, coordination, and adjustment processes; land valuation and rules, and processes of appraisal, title exchange, purchase, donation, transfer, sale, and condemnation of properties. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 645.

Schedule Type: Lecture

PRLS 446: Right-of-Way Acquisition. 3 credits.
Authorities and procedures right-of-way acquisition from public agencies and private landowners. Planning, coordination, and project scheduling requirements. Steps in the acquisition process. Cooperative development and use of roads. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 646.

Schedule Type: Lecture

PRLS 447: Land Status, Boundaries, Claims, and Withdrawals. 3 credits.
Land survey and status records system, programs for maintaining and managing boundaries, handling claims and encroachments, the land status record system, and Bureau of Land Management master title plot system. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 647.

Schedule Type: Lecture

PRLS 448: American Indian Rights and Claims. 3 credits.
American Indian sovereignty, Alaska Native corporations, colonization; treaties, rights, and claims; cultural resources an Indian laws and consultation with tribal governments. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 648.

Schedule Type: Lecture

PRLS 450: Research Methods. 3 credits.
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships, and formulation of research proposals. Notes: Only STAT 250 meets the Mason Core quantitative reasoning requirement. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: 60 credits

Registration Restrictions:
Required Prerequisites: STAT 250, DESC 210, OM 210, SOCI 313, OM 250 or IT 250.
D Requires minimum grade of D.

Schedule Type: Lecture

PRLS 451: Individual Study. 1-3 credits.
Individual study of topic area in leisure research, theory, or practice under direction of faculty. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: 90 credits

Registration Restrictions:
Washington Consortium level students may not enroll.

Schedule Type: Independent Study

500 Level Courses

PRLS 480: Special Topics in Recreation Management. 1-3 credits.
Selected topics reflecting interest in specialized areas of parks and outdoor recreation or therapeutic recreation. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: 60 credits.

Schedule Type: Lecture

PRLS 490: Recreation Management Internship. 12 credits.
Paid or voluntary work experience in a park and recreation agency for a minimum period of 10-12 weeks of full-time employment, and 480 hours for therapeutic recreation students. Applies course work, theories, and research to work settings. Work sites are chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during internship. Note: Mandatory internship meeting attendance required. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Mason Core: Capstone (p. 135)

Registration Restrictions:
Required Prerequisites: PRLS 210, 310, 323, 316, 410, ATEP 120, SRST 200 and PRLS 323.
C Requires minimum grade of C.

Schedule Type: Internship

PRLS 499: Independent Study. 1-3 credits.
Individual study of topic area in leisure research, theory, or practice under direction of faculty. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: 90 credits

Registration Restrictions:
Enrollment is limited to students with a major in Health Education, Health, Fitness Rec Resrcs, Individualized Study, Nursing, Physical Education (Special), Physical Education or Parks, Rec, Leisure Studies.

Schedule Type: Independent Study
PRLS 503: Administration and Disability Rights in Therapeutic Recreation. 3 credits.
Overview of major law and policy issues related to therapeutic recreation services for people with disabilities. Primary focus is on the Americans with Disabilities Act and related federal legislation. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: PRLS 460.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PRLS 526: Environmental Education and Resource Interpretation. 3 credits.
Provides methods for communicating and disseminating information pertaining to the use of natural recreation resources. Covers design and implementation of educational materials and programs to enhance understanding and appreciation of cultural, historical, and natural resources. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PRLS 531: Natural Resources Recreation Planning. 3 credits.
Origins and evolution of recreation use philosophy, policies, and service of public estate management. Examines planning for a spectrum of opportunities, from wilderness to developed sites, with attention to financial consideration and sustainable use of cultural and visual resources. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PRLS 533: Visitor Services. 3 credits.
Examines motivation of resource-based recreation participants. Covers visitors’ expectations and perceptions, with emphasis on implication for service quality, staff training, and other management responsibilities. Discusses use and user conflicts and placement, information and interpretive service, and human and other interpretive service resources. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study
600 Level Courses

PRLS 601: History of Leisure and Sport in American Society. 3 credits.
Examines leisure and sport in American society from the early colonial period to the present day. Investigates the pattern of leisure and sport as America moved from a largely agrarian to a highly industrialized nation. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PRLS 610: Recreation Administration and Planning. 3 credits.
Examines recreational administration concepts regarding organizational structure and operations, personnel management, financing, policy development, and public relations procedures. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PRLS 611: Social Psychology of Leisure. 3 credits.
Addresses historical, theoretical, and empirical foundations of social psychological constructs relative to social behavior in park, recreation, sport, and tourism settings. Focuses on attitudinal, social, and motivational theories as applied to leisure-related contexts. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PRLS 612: Philosophy of Leisure and Sport. 3 credits.
Investigates the phenomenon of leisure and sport from a philosophical perspective. Utilizes the philosophical approach to better explain the role that leisure and sport play in American society. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PRLS 613: Strategic Leadership in Recreation Administration. 3 credits.
Focuses on strategic leadership in recreation administration necessitated by demographic, social, political, and legal challenges; addresses organizational culture, positive leadership, innovation, partnerships, data-driven decision making, and accountability. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PRLS 614: Legal Issues in Recreation Administration. 3 credits.
Surveys current legal issues relevant to Recreation Administration, including, but not limited to, tort law, civil rights law, employment law, constitutional law, and copyright law. This course uses case studies of recent court decisions. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PRLS 647: Land Status, Boundaries, Claims, and Withdrawals. 3 credits.
Land survey and status records system, programs for maintaining and managing boundaries, handling claims and encroachments, the land status record system, and Bureau of Land Management master title plot system. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 447.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PRLS 648: American Indian Rights and Claims. 3 credits.
American Indian sovereignty, Alaska Native corporations, colonization; treaties, rights, and claims; cultural resources an Indian laws and consultation with tribal governments. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 448.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Persian (PERS)

100 Level Courses

PERS 110: Elementary Persian. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Schedule Type: Lecture

200 Level Courses

PERS 210: Intermediate Persian. 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Persian-speaking regions. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Recommended Prerequisite: PERS 110, appropriate placement score, or permission of department.

Schedule Type: Lecture

PERS 250: Gateway to Advanced Persian. 3 credits.
Integration of advanced intermediate-level Persian reading, writing, listening, and speaking skills and the development of critical thinking and understanding authentic texts from the Persian world. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Recommended Prerequisite: PERS 210 or permission of instructor.

Schedule Type: Lecture

300 Level Courses

PERS 330: Advanced Persian I. 3 credits.
Development of cultural and linguistic competency in written and spoken Persian at the low advanced level, with attention to reading, writing, listening and speaking, grammar and vocabulary pertaining to Persian social, political and cultural issues. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Recommended Prerequisite: PERS 250 or equivalent.

Schedule Type: Lecture

PERS 331: Advanced Persian II. 3 credits.
Development of cultural and linguistic competency in written and spoken Persian at the advanced level, with attention to reading, writing, listening and speaking, grammar and vocabulary pertaining to Persian social, political, and cultural issues. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Recommended Prerequisite: PERS 330, equivalent, or permission of instructor.

Schedule Type: Lecture

Philosophy (PHIL)

100 Level Courses

PHIL 100: Introduction to Philosophy. 3 credits.
Introduction to the nature of philosophical reasoning and some of the main problems of philosophy. Offered by Philosophy (p. 430). May not be repeated for credit.

Schedule Type: Lecture

PHIL 101: Introduction to Philosophy for Prospective Majors. 3 credits.
In this course, students can learn what distinguishes philosophy from other intellectual fields, major contributions in the history of philosophy, and basic philosophical issues, as well as how to develop the skills needed to address those issues oneself. The course is geared to the needs and the interests of students who may want to consider declaring philosophy as their major. Offered by Philosophy (p. 430). May not be repeated for credit.

Schedule Type: Lecture

PHIL 110: Ethics Lab. 1 credit.
Focuses on contemporary moral problems and case studies of real world situations involving complex ethical issues. Examines different ways of identifying, analyzing and responding to such issues based on different approaches to ethical thinking. Allows students to develop their capacities for moral perception, and ethical decision-making and action in a global setting. Offered by Philosophy (p. 430). May not be repeated for credit.

Schedule Type: Lecture

PHIL 112: Ethics and the Cybersociety. 1 credit.
Examines ethical issues associated with new developments in information technology, including privacy rights, intellectual property rights, and the effect of information technology on society. Offered by Philosophy (p. 430). May not be repeated for credit.

Schedule Type: Lecture

Mason Core: Information Technology: Ethics Only (p. 135)

Schedule Type: Lecture

PHIL 151: Introduction to Ethics. 3 credits.
Considers some perennial issues in ethical theory. Offered by Philosophy (p. 430). May not be repeated for credit.

Schedule Type: Lecture

PHIL 156: What Is Art?. 3 credits.
Introduction to philosophical reflection on the arts by looking at the critical issues in the history of aesthetics. Applies considerations to specific works and exploring these works in terms of their historical contexts and influences. Concentrates on one form of art or one period
and always emphasizes questions of critical evaluation and art historical analysis. Offered by Philosophy (p. 430). May not be repeated for credit.

**Mason Core:** Arts (p. 135)

**Schedule Type:** Lecture

**PHIL 173:** *Logic and Critical Thinking.* 3 credits.
Basic concepts and techniques of deduction, emphasizing the modern treatment of such topics as quantification and rules of inference, with study of the classical treatment. Basic principles of induction, informal fallacies, and uses of logic in everyday life. Offered by Philosophy (p. 430). May not be repeated for credit.

**Schedule Type:** Lecture

**200 Level Courses**

**PHIL 243:** *Global Environmental Ethics.* 3 credits.
Examines the global dimensions of environmental problems. Although environmental problems are global in reach, because different societies make different philosophical and ethical assumptions, they are understood in different ways. Examines several environmental problems, including climate change, population growth, and resource depletion, from a variety of scientific, policy, and cross-cultural perspectives. Offered by Philosophy (p. 430). May not be repeated for credit.

**Mason Core:** Global Understanding, Encore:Sustainability, Encore:Well-Being (p. 135)

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Lecture

**PHIL 251:** *Happiness and the Good Life.* 3 credits.
Addresses the question "How do I live a happy life?" by drawing on 2,500 years of philosophy as well as the much more recent science of happiness. Encourages students to develop and live their own answer in light of some of the best available science and philosophy. Offered by Philosophy (p. 430). May not be repeated for credit.

**Schedule Type:** Lecture

**PHIL 253:** *Philosophy and Literature.* 3 credits.
Examines differences and relations between literary and philosophical texts. Examines texts from a given period in the history of literature and philosophy. Topics include the presence of common issues in literary and philosophical writings, the influence of philosophical ideas on the production of literary texts and literary theory, and the development in literary texts of issues that are possible objects of philosophical inquiry. Offered by Philosophy (p. 430). May not be repeated for credit.

**Mason Core:** Literature (p. 135)

**Schedule Type:** Lecture

**300 Level Courses**

**PHIL 301:** *History of Western Philosophy: Ancient.* 3 credits.
Classical Greek philosophy, including pre-Socratics, Socrates, Plato, and Aristotle. Offered by Philosophy (p. 430). May not be repeated for credit.

**Schedule Type:** Lecture
of natural law. Offered by Philosophy (p. 430). May not be repeated for credit. Equivalent to GOVT 323.

**Recommended Prerequisite:** GOVT 101 or three credits of Philosophy.

**Schedule Type:** Lecture

PHIL 324: Modern Western Political Theory. 3 credits.
Exploration through lecture and discussion of developments in the Western tradition of political thought from the Renaissance to the middle of the 19th century, focusing on such topics as the rise of individualism in political theory, early developments in social contact theory, theories of radical popular sovereignty, and early criticisms of liberal theory. Offered by Philosophy (p. 430). May not be repeated for credit. Equivalent to GOVT 324.

**Recommended Prerequisite:** GOVT 101 or three credits of philosophy.

**Schedule Type:** Lecture

PHIL 325: Karl Marx's Social and Political Thought. 3 credits.
Study and evaluation of Marx's social and political ideas based on writings selected from several phases of his career. Examination of relation of Marx's thought to post-Marxian socialist theory and practice. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits of philosophy, or permission of instructor.

**Schedule Type:** Lecture

PHIL 327: Contemporary Western Political Theory. 3 credits.
Exploration through lecture and discussion of recent developments in the Western tradition of political thought from the middle of the 19th century to today. Different sections focus on one or another of the various political theories that have been influential during this period such as liberal, libertarian, conservative, communitarian, Marxist, feminist, and postmodern thought. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May be repeated within the term for a maximum 12 credits. Equivalent to GOVT 327.

**Recommended Prerequisite:** GOVT 101 or three credits of philosophy.

**Schedule Type:** Lecture

PHIL 332: Twentieth-Century Analytic Philosophy. 3 credits.
Examination of the attempts of 20th-century philosophers to solve philosophical problems by an analysis of language. Figures and movements covered include Russell, Moore, Wittgenstein, logical positivism, and ordinary language philosophy. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits of logic and PHIL 303, or permission of instructor.

**Schedule Type:** Lecture

PHIL 333: American Philosophy: Pragmatism. 3 credits.
Examines the philosophical movement of American Pragmatism, with emphasis on its origin in the late nineteenth century. Figures covered include Peirce, James, Dewey, and Mead. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits of philosophy, or permission of the instructor.

**Schedule Type:** Lecture

PHIL 335: Nineteenth-Century Philosophy. 3 credits.
Development of German Romanticism and Idealism during a brilliant period in the history of the West rivaled only by ancient Greece. Kant, Fichte, Hegel, Kierkegaard, Schopenhauer, and Nietzsche mount a revolt against the rationalism and scientism of the modern world. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of PHIL or Permission of Instructor.

**Schedule Type:** Lecture

PHIL 336: Twentieth-Century Continental Thought: Existentialism. 3 credits.
Examination of existential philosophy from its 19th-century origins to its 20th-century expressions. Philosophers studied include Kierkegaard, Nietzsche, Sartre, De Beauvoir, and Buber. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of PHIL or permission of instructor.

**Schedule Type:** Lecture

PHIL 337: Twentieth-Century Continental Thought: Phenomenology. 3 credits.
Examines phenomenological way of doing philosophy, its findings in regard to the "life-world," questions of "first philosophy," and the subject matter of the social sciences, as well as critical difficulties in its development. Texts by Husserl, Heidegger, Merleau-Ponty, Sartre, Schutz, and Derrida. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits of philosophy, or permission of instructor.

**Schedule Type:** Lecture

PHIL 338: Philosophy, Sex, and Gender. 3 credits.
An exploration of how concepts of sex and gender both structure key philosophical ideas and put such ideas into question. The course examines the ways patriarchal structures situate woman as the ‘other’ as well as alternative feminist approaches to sexuality, subjectivity, the body, and language. An overriding theme is the relationship between questions of sexual difference and other key issues in contemporary philosophy. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of PHIL or Permission of Instructor.

**Schedule Type:** Lecture

PHIL 340: Hermeneutic Philosophy. 3 credits.
Study of the development of hermeneutic philosophy in works by Heidegger, Gadamer, and Ricoeur, as an effort toward coming to terms with the historicity of human experience. Implications for interpretive understanding of artworks, institutions, events, texts, and the human condition. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of PHIL or Permission of Instructor.

**Schedule Type:** Lecture

PHIL 343: Topics in Environmental Philosophy. 3 credits.
An in-depth examination of selected environmental issues from a philosophical perspective. Such issues might include the value of nature, the moral status of animals, duties to protect wilderness areas,
economics and environmental protection, environmental justice, and environmental aesthetics. Offered by Philosophy (p. 430). May not be repeated for credit.

**Mason Core:** Encore:Sustainability, Synthesis (p. 135)

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Seminar

**PHIL 344:** *Ethical Issues in Global Health.* 3 credits.
This course will consider ethical questions that arise in global health policy, practice and research. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** Sophomore standing or higher.

**Schedule Type:** Lecture

**PHIL 355:** *Theories of Ethics.* 3 credits.
A critical examination of a variety of different types of classical, modern, and contemporary ethical theories, including consequentialist theories, deontological theories, and virtue theories. Offered by Philosophy (p. 430). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 3 credits in PHIL or permission of instructor.

**Schedule Type:** Lecture

**PHIL 356:** *Philosophy of Art.* 3 credits.
Basic problems that arise from an inquiry into meaning and value of art and our response to art. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of PHIL or permission of instructor.

**Schedule Type:** Lecture

**PHIL 357:** *Philosophy of the Social Sciences.* 3 credits.
Philosophical issues relating to competing methodologies for the social sciences. Analysis and critique of mainstream positivism and behaviorism; paradigm theory and scientific revolutions; interpretive understanding and hermeneutical science; phenomenology and the social construction of reality; ethnomethodology and situational meaning; analytic philosophy and action theory; the "idea" of a social science; sociology of knowledge and theory of ideology; and Western Marxism and critical theory. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits of philosophy, or permission of instructor.

**Schedule Type:** Lecture

**PHIL 358:** *Ethics and Economics.* 3 credits.
Examines issues at the intersection of ethics and economics. Looks at the different ways in which ethics and economics impact each other. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits in philosophy or permission of the instructor.

**Schedule Type:** Lecture

**PHIL 371:** *Philosophy of Natural Sciences.* 3 credits.
One semester of logic recommended. Study of aims and methodology of science. Among the questions of concern are: What constitutes a good scientific explanation? What grounds are used for comparing rival theories? Is there a special method of scientific discovery? Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of philosophy or permission of instructor.

**Schedule Type:** Lecture

**PHIL 372:** *Reason, Science and Faith in the Modern Age.* 3 credits.
Historical examination of the rise of sciences in the modern age (1500-present) and the impact this has had on religion, drawing from such thinkers as Luther, Bacon, Galileo, Newton, Pascal, Hume, Darwin, Kierkegaard, and James. Offered by Philosophy (p. 430). May not be repeated for credit.

**Mason Core:** Synthesis (p. 135)

**Schedule Type:** Lecture

**PHIL 373:** *Theory of Knowledge.* 3 credits.
Discussion of basic problems concerning the nature of knowledge, with study of the relation of knowledge to perception, belief, and language. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of philosophy or Permission of Instructor.

**Schedule Type:** Lecture

**PHIL 374:** *Philosophy of Mind.* 3 credits.
Investigation of such theories as dualism, behaviorism, and materialism as they pertain to some of the central philosophical questions about mind. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits of philosophy, or permission of instructor.

**Schedule Type:** Lecture

**PHIL 376:** *Symbolic Logic.* 3 credits.
Study of predicate calculi by means of a step-by-step construction of artificial languages. Topics include procedures for constructing a calculus, proof techniques, significant properties of predicate calculi, and procedures for recognizing phrases. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** PHIL 173 or MATH 110 or permission of instructor.

**Schedule Type:** Lecture

**PHIL 377:** *Darwin: Biology and Beyond.* 3 credits.
Introduction to and philosophical examination of the theory of evolution in its historical perspective. Examines Darwin's theory of evolution as a scientific theory, connects it to its context in the history of science, and surveys its wider cultural impact. In particular, examines implications of the theory of evolution for religion and morality. Offered by Philosophy (p. 430). May not be repeated for credit.

**Mason Core:** Synthesis (p. 135)

**Schedule Type:** Lecture

**PHIL 378:** *Perspectives on Time.* 3 credits.
Examines the variety of ways time is conceptualized in different disciplines. Influential conceptions of time from the history of philosophy...
are studied in order to provide a comparative framework within which to consider specialist conceptions of time drawn from the sciences and humanities, including relativistic time, geological deep time, life cycles, and time in historical narrative. Offered by Philosophy (p. 430). May not be repeated for credit.

Mason Core: Synthesis (p. 135)

Recommended Prerequisite: 3 credits of philosophy, or permission of instructor.

Schedule Type: Lecture

PHIL 391: Special Topics in Philosophy. 1-3 credits. Examines topics of current interest such as death and dying, rights of children, and philosophical controversies in modern physics. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May be repeated within the term for a maximum 12 credits.

Schedule Type: Lecture

PHIL 393: Humanities College to Career. 1 credit. Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment. Offered by Philosophy (p. 430). May not be repeated for credit. Equivalent to ENGH 303, FRLN 309, HIST 385.

Schedule Type: Lecture

PHIL 398: Study Abroad. 3 credits. Study abroad under supervision of Mason faculty. Course topics, content and locations vary. Notes: A maximum of 6 credits may be applied to the BA in philosophy. Offered by Philosophy (p. 430). May be repeated within the degree for a maximum 12 credits.

Schedule Type: Lecture

400 Level Courses

PHIL 411: Theories of Decision. 3 credits. Examines from a philosophical perspective descriptive and normative theories of individual decision, with particular focus on the strengths and weaknesses of theories of rational choice, and attempts to incorporate insights from psychology into theories of decision. Explores theoretical developments and a variety of applications. Offered by Philosophy (p. 430). May not be repeated for credit.

Recommended Prerequisite: Two previous courses in either Philosophy, Psychology, or Economics.

Schedule Type: Lecture

PHIL 421: Seminar. 3 credits. Explores topics in current philosophical research in a seminar format. Topics vary. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May be repeated within the degree for a maximum 18 credits.

Mason Core: Capstone (p. 135)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Nine credits in philosophy.

Schedule Type: Seminar

PHIL 422: Honors Seminar. 3 credits. Seminar for students enrolled in the honors program in philosophy. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May be repeated within the term for a maximum 18 credits.

Mason Core: Capstone (p. 135)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: 9 credits in philosophy and acceptance to the honors program in philosophy.

Schedule Type: Seminar

PHIL 425: Independent Study. 1-3 credits. Independent study under supervision of faculty member. Students and faculty agree on program of study to include at least a reading list and final written project. Students must arrange for independent study in the semester before they wish to enroll. Requires approval of department. Offered by Philosophy (p. 430). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: Sixty credits, including 15 credits in Philosophy and permission of the department.

Schedule Type: Independent Study

PHIL 460: Senior Seminar in Philosophy, Politics, and Economics. 3 credits. Covers issues in the philosophy, economics, and political science of institutions, information, and collective action. Through case studies of existing legal and political institutions, applies the insights to problems in politics, policy making, social-choice theory, and social, moral, and political philosophy. (Specific content varies). Notes: Serves as the capstone course for the PPE program. Offered by Philosophy (p. 430). May not be repeated for credit. Equivalent to ECON 460, GOVT 469.

Recommended Prerequisite: PHIL 358 and ECON 412 or permission of instructor.

Schedule Type: Seminar

600 Level Courses

PHIL 600: Preseminar in Philosophy. 1 credit. Introduces MA students to the areas and methods of philosophical scholarship. Notes: Graduate students outside of the philosophy program may take this course with permission of the department. Offered by Philosophy (p. 430). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment limited to students in the MA Philosophy program.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
PHIL 603: Aristotle: Selected Works. 3 credits.
Close study of Aristotle's work and its place and future in history of philosophy. Topics vary by semester and include Aristotle's metaphysics, natural sciences, ethics, political thought, logic, epistemology, and psychology. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May not be repeated for credit.
Registration Restrictions: 
Enrollment limited to a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHIL 608: Hegel's Phenomenology of the Spirit. 3 credits.
A study of the philosophy of Hegel through a reading of the text that presents an introduction to his system. Special attention is paid to Hegel's background in the work of Kant and the German Idealists. Offered by Philosophy (p. 430). May not be repeated for credit.
Registration Restrictions: 
Enrollment limited to a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PHIL 615: Postmodernist Thought. 3 credits.
In recent decades, the term "postmodern," first used by art critics in the late 19th century, has been taken up by prominent contributors to the arts, social thinkers, and philosophers, to describe developments as well as the current period. Examines three thematic concerns found in work that is identified with postmodern issues: what modernity defines itself in contrast to or against, the status of "man," and status of "subjectivity." Offered by Philosophy (p. 430). May not be repeated for credit.
Registration Restrictions: 
Enrollment limited to a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHIL 616: Phenomenology. 3 credits.
This major approach in philosophy is studied in regard to its basic features, the tasks to which it has been set by major contributors, certain findings of phenomenology in practice, as well as crucial problems that develop as phenomenology proceeds and how they are addressed by phenomenologists. Offered by Philosophy (p. 430). May not be repeated for credit.
Registration Restrictions: 
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHIL 617: Movements and Issues in the History of Political Philosophy. 3 credits.
Explores themes, movements, and periods in the history of political theory. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May be repeated within the degree for a maximum 6 credits.
Registration Restrictions: 
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHIL 640: History of Ethical Theory. 3 credits.
Examines history of Western ethical theory from ancient Greece to the present day, including virtue theory, consequentialism, deontological theory and contemporary feminism. Offered by Philosophy (p. 430). May not be repeated for credit.
Registration Restrictions: 
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHIL 642: Biomedical Ethics. 3 credits.
Explores the application of ethical theories and principles to issues in contemporary health care. Cases central to the development of the field will be examined. Offered by Philosophy (p. 430). May not be repeated for credit.
Registration Restrictions: 
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHIL 643: Environmental Ethics. 3 credits.
An examination of human interactions with the natural environment from an ethical perspective. Emphasis will be placed on the strengths and weaknesses of various ethical theories and the different conceptions of
the proper relationship between humans and their environment. Offered by Philosophy (p. 430). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

PHIL 644: *Business and Organizational Ethics.* 3 credits.
Examines the application of ethics in business and organizational settings, and the necessity for ethical development within organizational culture. Offered by Philosophy (p. 430). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

PHIL 645: *Research Ethics.* 3 credits.
Examines how ethical theories, concepts, and principles shape research guidelines. Students learn to identify ethical issues in research, to reflect on them critically, and to respond effectively. Designed for students in the humanities, social sciences, life sciences, and health sciences. Offered by Philosophy (p. 430). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

PHIL 658: *Feminist Theory.* 3 credits.
Analysis of the critique of patriarchy offered by contemporary continental feminist philosophers. Examines contemporary moral, political, and epistemological issues in feminist theory. Offered by Philosophy (p. 430). May not be repeated for credit.

**Recommended Prerequisite:** Admission to graduate program or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

PHIL 681: *Figures and Topics in Ancient Philosophy.* 3 credits.
Examines major philosophical authors, text, and topics of the ancient period and their influence on philosophical thought. May cover Plato, Aristotle, or the pre-Socratic philosophers. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

PHIL 682: *Figures and Topics in Early Modern Philosophy.* 3 credits.
Examines major philosophical authors, text and topics of the early modern period and their influence on philosophical thought. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

PHIL 683: *Contemporary Philosophical Figures.* 3 credits.
Examines major recent philosophical authors, texts, and topics, and their influence on philosophical thought. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

PHIL 693: *Directed Readings in Philosophy.* 3 credits.
Directed readings and research on specific topic in philosophy chosen by student and instructor. Offered by Philosophy (p. 430). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**PHIL 694:** *Special Topics in Contemporary Philosophy.* 3 credits.
Topics vary. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 430). May be repeated within the term for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Physical Education (PHED)**

**100 Level Courses**

**PHED 184:** *Historical Swordsmanship.* 1 credit.
Introduces Historical European Martial Arts of Swordsmanship. Offers fundamentals in footwork and body mechanics needed in the sport including sparing with protective gear and using 15th century Longsword and 17th century rapier are included. Notes: Open to all majors. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 3 credits.

**Schedule Type:** Laboratory

**PHED 199:** *Introduction to Health and Physical Education.* 1 credit.
Uses best practices to introduce to potential teacher candidates current health and physical education teaching issues. Introduces terminology specific to teaching, and concepts such as standards of learning, planning, assessment, curriculum developments, and risk management. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Schedule Type:** Lecture

**200 Level Courses**

**PHED 200:** *Professional Dimensions of Health, Recreation, and Physical Education.* 3 credits.
Traces historical foundations of health, recreation, physical education, and sport. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Schedule Type:** Lecture

**PHED 201:** *Developmental Motor Patterns.* 3 credits.
Analyzes motor-skill development and prescription of activities from immature to mature stages. This course must be complete within 5 years of student teaching. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Schedule Type:** Lecture

**PHED 202:** *Teaching Skillful Movement.* 3 credits.
Covers planning and presenting lessons on numerous motor skills using varied teaching strategies in a peer teaching setting. This course must be complete within 5 years of student teaching. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Schedule Type:** Lecture

**PHED 218:** *Technology in Health and Physical Education.* 2 credits.
Develops technology skills to support health and physical education instruction in school settings. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Schedule Type:** Lecture
PHED 230: Asian Martial Arts: Origin and Development. 3 credits.
Introduction to martial arts of East, South, and Southeast Asia. Lectures address martial arts from a historical, philosophical, biographical, warfare, and sport perspective. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

PHED 273: Net and Target Games. 2 credits.
Skill and content knowledge in net and target games. Includes skill progression, strategies, officiating, and authentic assessment in games such as volleyball, golf, tennis, and badminton. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

Schedule Type: Lecture

PHED 274: Dance and Educational Gymnastics. 2 credits.
Skill and content knowledge in dance, rhythms, and educational gymnastics. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

Schedule Type: Lecture

PHED 275: Field and Invasion Games. 2 credits.
Skill and content knowledge in field and invasion games. Includes skill progression, strategies, officiating, and authentic assessment in activities such as softball, basketball, soccer, field events, and Ultimate Disc. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

Schedule Type: Lecture

PHED 276: Health-Related Fitness Education. 2 credits.
Prepares future physical educators to develop, implement, and assess fitness concepts, and strategies to K12 students. Requires fitness tests participation. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

PHED 277: Adapted Physical Education. 3 credits.
Introduces disabilities in public schools. Covers national standards, federal legislation, IEPs, and developmental inclusion models. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

PHED 278: Social and Cultural Issues in Physical Education. 3 credits.
Studies contemporary and historical perspectives on socio-cultural and philosophical issues influencing American public schooling and physical education. Also covers statistical analysis of data and survey of selected instruments. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to KINE 360.

Recommended Prerequisite: BIOL 124 and 125.

Schedule Type: Lecture

PHED 279: Student Assessment in Health and Physical Education. 2 credits.
Examines assessment purposes and introduces different assessment procedures that measure student achievement in the different domains of behaviors in health and physical education. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: BIOL 124 and 125.

Schedule Type: Lecture

PHED 280: Psychological Aspects of Learning. 3 credits.
Analyzes psychological aspects, learning theory, and practice conditions for learning motor skills. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: PHED 273, 274, 275, and PHED 306 (may be taken concurrently).

Schedule Type: Lecture

PHED 281: Elementary School Instruction in Physical Education. 3 credits.
Covers content, knowledge, and teaching methods for K-6 physical education. Requires field experience. Must be taken within one year of student teaching. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: PHED 273, 274, 275, and PHED 306 (may be taken concurrently).

Schedule Type: Lecture

PHED 300 Level Courses

PHED 301: Adapted Physical Education. 3 credits.
Introduces disabilities in public schools. Covers national standards, federal legislation, IEPs, and developmental inclusion models. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

Schedule Type: Lecture

PHED 364: Strength Training: Concepts and Applications. 3 credits.
Provides students with an opportunity to develop an in-depth understanding of the principles of strength training and conditioning, including anatomical and physiological considerations, lifting techniques, equipment selection, program development and evaluation, and weightlifting safety. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to KINE 370.

Recommended Prerequisite: BIOL 124 and 125.

Schedule Type: Lecture

PHED 365: Measurement and Evaluation of Physical Fitness. 3 credits.
Covers selection, administration, evaluation, and construction of measurements and evaluation instruments and techniques in physical education. Also covers statistical analysis of data and survey of selected instruments. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to KINE 370.

Recommended Prerequisite: BIOL 124 and 125.

Schedule Type: Lecture

400 Level Courses

PHED 403: Elementary School Instruction in Physical Education. 3 credits.
Covers content, knowledge, and teaching methods for K-6 physical education. Requires field experience. Must be taken within one year of student teaching. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.
PHED 404: *Middle and High School Instruction in Physical Education*. 3 credits.
Examines school curriculum, assessment, content, and teaching practices for middle and high school physical education programs. Requires field experience. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** PHED 273\(^D\), 275\(^D\), 306\(^D\), 403\(^D\), 274\(^D\), KINE 200\(^D\) and PHED 276\(^D\).

\(D\) Requires minimum grade of D.

Enrollment is limited to students with a major in Exercise, Fitness Hilth Promo, Health Education, Health, Fitness Rec Resrcs, Physical Education or Parks, Rec, Leisure Studies.

**Schedule Type:** Lecture

PHED 410: *Social/Psychological Aspects of Health and Fitness*. 3 credits.
Covers research, trends, and techniques of health and fitness from a behavioral perspective. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Lecture

PHED 415: *Student Teaching in Physical Education*. 12 credits.
Provides supervised clinical experience for a full semester in approved schools. Requires experiences in elementary and secondary school settings. Requires. Includes participation in pre-service workshop and related activities, and weekly seminars. Note: Completion of all Mason Core and program coursework, and acceptance into Student Teaching. PHED 415 must be completed within 5 years of PHED 201 and 202. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Mason Core:** Capstone (p. 135)

**Registration Restrictions:**
**Required Prerequisites:** ATEP 120\(^D\), 300\(^D\), BIOL 125\(^D\), EDRD 300\(^D\), EDUC 302\(^D\), HEAL 110\(^D\), 200\(^D\), 220\(^D\), 310\(^D\), 325\(^D\), 405\(^D\), KINE 310\(^D\), 320\(^D\), PHED 199\(^D\), 218\(^D\), 308\(^D\), 320\(^D\), 340\(^D\), 404\(^D\) and PRLS 310\(^D\).

\(D\) Requires minimum grade of D.
\(C\) Requires minimum grade of C.

**Schedule Type:** Internship

PHED 480: *Special Topics*. 1-3 credits.
See course description in the Schedule of Classes. Selected topics reflect interest in specialized areas of exercise science or health promotion. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Schedule Type:** Lecture

PHED 499: *Independent Study in Physical Education and Fitness*. 1-3 credits.
Study of a problem area in physical education research, theory, or practice under direction of faculty member. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 90 hours and Permission of Chair.

**Registration Restrictions:**
Enrollment is limited to students with a major in Health Education, Health, Fitness Rec Resrcs, Individualized Study, Nursing, Physical Education (Special), Physical Education or Parks, Rec, Leisure Studies.

**Schedule Type:** Independent Study

### 600 Level Courses

**PHED 670: Analysis of Teaching in Physical Education*. 3 credits.
Presents variety of research techniques for studying teacher and learner behaviors in physical education, engaging the teacher as researcher and grant writer. Goal is to prepare teachers to be leaders in their field. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHED 672: Curriculum and Assessment in Physical Education*. 3 credits.
Provides knowledge of curriculum models and assessment strategies in standards-based physical education program. Studies curriculum models such as sport education and adventure education. Examines traditional and alternative assessment. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHED 673: Motor Development for Special Populations*. 3 credits.
Provides knowledge that focuses on individuals with orthopedic, sensory, and learning disabilities in physical education setting. Areas of focus include development of motor patterns and skills assessment, and planning and instruction for students with disabilities. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** PHED 670.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHED 680: Mentoring and Supervising in Physical Education*. 3 credits.
Prepares mentors and supervisors of preservice and in-service teachers in physical education. Topics include professional
dispositions, assessment and evaluation, adult learners, counseling and communication, providing feedback, and reflection and inquiry into the profession. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** PHED 670.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Physics (PHYS)**

**100 Level Courses**

**PHYS 101:** _Light and Sound in Our World_. 3 credits. Nature of light, color, sound, electromagnetic spectrum, optical instruments, mechanisms of vision and hearing, color addition and subtraction, synthesis of musical sounds, interference of waves, polarization, Doppler effect, lasers, holography. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Schedule Type:** Lecture

**PHYS 102:** _Sports Physics_. 3 credits. Introduction to laws of physics in context of sports. Physics topics to be studied include two-dimensional motion, forces, conservation of energy, and momentum in the application to sports. Sports include football, basketball, baseball, swimming, and tennis. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Schedule Type:** Lecture

**PHYS 103:** _Physics and Everyday Phenomena I_. 4 credits. The course uses basic physics concepts from the areas of mechanics and thermodynamics to explain a wide range of everyday phenomena, such as how we walk and drive, how a ship floats, how clothing keeps us warm, and why it rains when we have a low pressure system. Notes: For nonscience majors. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 135)

**Schedule Type:** Laboratory, Lecture

**PHYS 104:** _Physics and Everyday Phenomena II_. 4 credits. The course uses basic physics concepts from the areas of light, sound, electricity, magnetism, and modern physics to explain a wide range of everyday phenomena. Topics include how we speak, hear, and see, what to do if the circuit breaker keeps tripping, how your computer stores and displays data, how rainbows and northern lights form, and the basic nature of matter. Notes: For nonscience majors. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 135)

**Recommended Prerequisite:** PHYS 103.

**Schedule Type:** Laboratory, Lecture

**PHYS 106:** _The Quantum World: A Continuous Revolution in What We Know and How We Live_. 3 credits. This course presents quantum physics that revolutionized the 20th Century and continues to evolve. In addition to presenting basic concepts, the course will discuss various applications involving quantum phenomena including quantum computers and quantum teleportation. The course will be a historical journey through the quantum science that many of its founders, such as Einstein, could not accept, and a peek into a possible future. Notes: For non-science majors. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Mason Core:** Natural Science Overview (p. 135)

**Schedule Type:** Lecture

**PHYS 111:** _Introduction to the Fundamentals of Atmospheric Science_. 3 credits. An overview of the Earth’s atmosphere, its history, and the physical and chemical processes that determine its characteristics. The focus is on key concepts from thermodynamics, radiation, chemistry, and dynamics that are essential for understanding the state, variability, and long term evolution of the atmosphere, especially in the context of comparisons with other planetary atmospheres. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to CLIM 111.

**Mason Core:** Natural Science with Lab (p. 135)

**Schedule Type:** Lecture

**PHYS 112:** _Introduction to the Fundamentals of Atmospheric Science Lab_. 1 credit. Laboratory course associated with PHYS 111. Study of the Earth’s atmosphere based on concepts taken from thermodynamics, radiation transport, chemistry, and dynamics. Designated a Green Leaf Course. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to CLIM 112.

**Mason Core:** Natural Science with Lab, Encore:Sustainability (p. 135)

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Laboratory

**PHYS 121:** _Uses of Physics_. 1 credit. Describes the uses of physics to a number of disciplines and professions, including medicine, information technology, energy, and environmental technology. Notes: Introductory course intended for both majors and nonmajors. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Schedule Type:** Lecture

**PHYS 122:** _Inside Relativity_. 1 credit. Introductory course describing Einstein’s theories of special and general relativity. Notes: Intended for majors and nonmajors. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Schedule Type:** Lecture

**PHYS 123:** _Inside the Quantum World_. 1 credit. Introductory course describing quantum theory. Notes: Intended for majors and nonmajors. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Schedule Type:** Lecture
**PHYS 124: Experimental Explorations in Physics. 2 credits.** Introductory nonmathematical course intended primarily for physics majors. Experimental studies of phenomena in mechanics, electricity and magnetism, and optics. Stresses development of familiarity with methods and techniques of measurement and with data evaluation. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Schedule Type:** Laboratory

**PHYS 160: University Physics I. 3 credits.** First semester of three-semester, calculus-based introductory physics sequence, designed primarily for science and engineering majors. Mechanics. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 135)

**Registration Restrictions:**
**Required Prerequisites:** MATH 114*C or 116*C.

*C May be taken concurrently.

*C Requires minimum grade of C.

**Schedule Type:** Lecture, Recitation

**PHYS 161: University Physics I Laboratory. 1 credit.** Experiments in mechanics, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 135)

**Schedule Type:** Laboratory

**PHYS 124: College Physics. 3 credits.** Two-semester basic physics course with emphasis on topics of classical and modern physics of particular importance to science majors. Principles of mechanics, heat, electricity, magnetism, optics, and atomic and nuclear physics are discussed. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 135)

**Recommended Prerequisite:** C or higher in PHYS 243.

**Schedule Type:** Lecture, Recitation

**PHYS 251: Introduction to Computer Techniques in Physics. 3 credits.** Introduction to using computers in physics based on examples from mechanics and astronomy. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Mason Core:** Information Technology: Without Ethics (p. 135)

**Registration Restrictions:**
**Required Prerequisite:** PHYS 160*C.

*C Requires minimum grade of C.

**Schedule Type:** Lecture

**PHYS 260: University Physics II. 3 credits.** Waves, electricity, and magnetism. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 135)

**Recommended Prerequisite:** PHYS 160 with a grade of C or better.

**Recommended Corequisite:** MATH 213 or equivalent.

**Registration Restrictions:**
**Required Prerequisites:** PHYS 160*C and (MATH 213*C or 215*C).

*C May be taken concurrently.

*C Requires minimum grade of C.

**Schedule Type:** Lecture, Recitation

**PHYS 261: University Physics II Laboratory. 1 credit.** Experiments in mechanics, electricity, and magnetism, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 135)

**Registration Restrictions:**
Required Prerequisites: PHYS 161$^c$ and 260$^c$.
$^c$ May be taken concurrently.
$^c$ Requires minimum grade of C.

Schedule Type: Laboratory

PHYS 262: University Physics III. 3 credits.
Thermodynamics, optics, and modern physics. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 135)

Recommended Prerequisite: C or higher in PHYS 261.

Registration Restrictions:
Required Prerequisite: PHYS 260$^c$.
$^c$ Requires minimum grade of C.

Schedule Type: Lecture, Recitation

PHYS 263: University Physics III Laboratory. 1 credit.
Experiments in optics and modern physics, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 135)

Registration Restrictions:
Required Prerequisites: PHYS 261$^c$ and 262$^c$.
$^c$ May be taken concurrently.
$^c$ Requires minimum grade of C.

Schedule Type: Laboratory

PHYS 265: Advanced University Physics II Laboratory. 2 credits.
Credit may be received for PHYS 261 or 265. Experiments in mechanics, electricity, and magnetism with emphasis on data analysis using spreadsheets and Matlab. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Corequisite: PHYS 260 and MATH 213.

Schedule Type: Laboratory

PHYS 266: Introduction to Thermodynamics. 1 credit.
Students may not receive credit for both PHYS 262 and 266. Laws of thermodynamics, kinetic theory of gases, heat engines, and entropy. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: PHYS 260$^c$.
$^c$ Requires minimum grade of C.

Schedule Type: Lecture, Recitation

300 Level Courses
PHYS 301: Analytical Methods of Physics. 3 credits.
Analytical methods in the Physical Sciences. Provides a comprehensive introduction to the areas of mathematical physics. Notes: This course does not satisfy the PHYS elective requirement. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: MATH 214$^c$.
$^c$ Requires minimum grade of C.

Schedule Type: Lecture

PHYS 303: Classical Mechanics. 3 credits.
Motion of a particle in one, two, and three dimensions; systems of particles; noninertial coordinate systems; and equations of Lagrange and Hamilton. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PHYS 262$^c$ and MATH 214$^c$) and (PHYS 301$^c$, MATH 313$^c$ or 413$^c$).
$^c$ May be taken concurrently.
$^c$ Requires minimum grade of C.

Schedule Type: Lecture

PHYS 305: Electromagnetic Theory. 3 credits.
Interaction of static charges, interaction of stationary currents, electromagnetic induction, and Maxwell's equations. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 214$^c$ and PHYS 262$^c$) and (PHYS 301$^c$, MATH 313$^c$ or 413$^c$).
$^c$ May be taken concurrently.
$^c$ Requires minimum grade of C.

Schedule Type: Lecture

PHYS 306: Wave Motion and Electromagnetic Radiation. 3 credits.
Vibrating string, plane waves, interference, diffraction, polarization, electromagnetic waves, dispersion, and relativity. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Corequisite: MATH 214.

Registration Restrictions:
Required Prerequisite: PHYS 305$^c$.
$^c$ Requires minimum grade of C.

Schedule Type: Lecture

PHYS 307: Thermal Physics. 3 credits.
Classical concepts of energy and temperature, basic definitions, first and second laws of thermodynamics, properties of pure substances, and equations of state. Introduction to classical and quantum statistics and their application to physical systems. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to ENGR 307.

Registration Restrictions:
Required Prerequisite: PHYS 262$^c$.
$^c$ Requires minimum grade of C.

Schedule Type: Lecture

PHYS 308: Modern Physics with Applications. 3 credits.
Study of modern physics with emphasis on applications. Topics include introductory quantum physics; modern optics; lasers; binding and energy bands in solids; electrical, thermal, and magnetic properties of solids; semiconductors; radioactivity; nuclear reactions; radiation detectors; and applications of nuclear physics to other sciences. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Corequisite: MATH 214.

Registration Restrictions:
Required Prerequisite: PHYS 262C.
C Requires minimum grade of C.

Schedule Type: Lecture

PHYS 310: Physics of Semiconductor Materials and Processing, 3 credits.
Survey of the electronic and structural properties of semiconductors and the physics of semiconductor processing. Topics to be discussed include crystal growth, crystal defects, thin films, thermal properties, lithography, and characterization. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PHYS 160C, 260C and 262C.
C Requires minimum grade of C.

Schedule Type: Lecture

PHYS 311: Instrumentation, 3 credits.
Introduction to basic analog and digital circuits, circuit design and simulation, and data acquisition. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Prerequisite: PHYS 251, PHYS 261.

Schedule Type: Laboratory

PHYS 312: Wave and Optics, 3 credits.
Laboratory survey of wave and optical phenomena and associated instrumentation. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Prerequisite: PHYS 251, PHYS 261.

Schedule Type: Laboratory

PHYS 326: Problems in Physics II, 1-3 credits.
Individual study of physics problems of current interest. Offered by Physics & Astronomy (p. 724). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: 60 credits and 2.500 GPA in physics and mathematical sciences.

Schedule Type: Independent Study

Introduces the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal. Demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources. Designed for students majoring in the sciences or engineering but useful for students interested in science policy, business, global change and sustainable development. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Registration Restrictions:
Required Prerequisites: PHYS 262C or 266C.
C Requires minimum grade of C.

Schedule Type: Lecture

PHYS 332: Solar Cells, 3 credits.
Covers the physics of solar cells, basics of semiconductors, pn junctions, basic structure of solar cells, the latest advances in solar cell materials, and concepts for improving the efficiency of solar cells. Solar cell design based on silicon, copper indium gallium selenide, gallium arsenide, organic solar cells, dye-sensitized solar cells, quantum dots, and nanowires will also be reviewed. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Specialized Designation: Scholarly Inquiry

Registration Restrictions:
Required Prerequisites: (PHYS 262C and 263C) or (PHYS 245C and 246C).
C Requires minimum grade of C.

Schedule Type: Lecture

PHYS 346: Quarks to Strings, 3 credits.
An non-technical introduction to the Standard Model of Elementary Particles and String Theory, in the context of the philosophy of science. Conceptual mastery will be demonstrated through writing assignments rather than calculations. Notes: This course does not satisfy the PHYS elective requirement. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Mason Core: Synthesis (p. 135)

Registration Restrictions:
Required Prerequisite: PHYS 262C.
C Requires minimum grade of C.

Schedule Type: Lecture

PHYS 370: Molecular Biophysics, 3 credits.
Offers a broad introduction into molecular biophysics. Demonstrates that the application of methods of physics provides a unique opportunity to tackle complex biological programs. Mainly designed for students majoring in physics or chemistry but also useful for biology majors interested in bioinformatics and computational biology. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to BINF 470.

Registration Restrictions:
Required Prerequisites: (PHYS 307C) or (CHEM 331C and 332C).
C Requires minimum grade of C.

Schedule Type: Lecture

PHYS 385: Materials Science with Applications to Renewable Energy, 3 credits.
Introduction to basic concepts and methods of materials science. Review of metallic alloys and compounds, ceramic materials, ionic solids, semiconductors, polymers, and nano-structured materials. Mechanical, thermal, electric, magnetic and optical properties of materials. Theoretical background and experimental methods of materials characterization. Various materials applications with emphasis on renewable energy. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to CDS 385.

Specialized Designation: Green Leaf Course

Registration Restrictions:
Required Prerequisites: PHYS 262C, 266C, 245C or MATH 113C.
C Requires minimum grade of C.

Schedule Type: Lecture
PHYS 390: Topics in Physics. 1-4 credits. Selected topics in physics not covered in fixed-content courses. Offered by Physics & Astronomy (p. 724). May be repeated within the term for a maximum 9 credits.

Schedule Type: Lecture

400 Level Courses

PHYS 402: Introduction to Quantum Mechanics and Atomic Physics. 3 credits. Experimental basis of quantum mechanics; the wave function; systems in one, two, and three dimensions. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to PHYS 502.

Registration Restrictions:
Required Prerequisites: PHYS 303C, 305C and 308C.
C Requires minimum grade of C.

Schedule Type: Lecture

Registration Restrictions:
Required Prerequisite: PHYS 402C.
C Requires minimum grade of C.

Schedule Type: Lecture

PHYS 405: Honors Thesis in Physics. 3 credits. Project chosen and completed under the guidance of a faculty member, which results in a thesis. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Prerequisite: 21 credits of Physics, PHYS 262, 305, 308; physics major and admission to Physics department honors program.

Schedule Type: Independent Study

PHYS 406: Honors Thesis in Physics. 3 credits. Project chosen and completed under the guidance of a faculty member, which results in a thesis. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Prerequisite: PHYS 405.

Schedule Type: Independent Study

PHYS 407: Senior Laboratory in Modern Physics. 4 credits. Advanced experiments in modern physics: electronics, optics, condensed matter, and nuclear physics. Techniques for recording, graphically and statistically analyzing, and reporting data. Typical experiments include the Frank-Hertz experiment, Hall Effect, electron spin resonance, nuclear magnetic resonance and optical pumping. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Mason Core: Capstone (p. 135)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: C or higher in PHYS 263, 305, 308.

Registration Restrictions:
Required Prerequisite: PHYS 402C.
C May be taken concurrently.
C Requires minimum grade of C.

Schedule Type: Laboratory

PHYS 408: Senior Research. 2-3 credits. Work under guidance of faculty member on research project in experimental or theoretical physics. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: May be repeated with permission of the Physics Department. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy (p. 724). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 21 credits of physics courses.

Schedule Type: Research

PHYS 409: Physics Internship. 3 credits. On-the-job experience for physics majors in industry or government laboratories including summer programs. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: May be repeated with permission of the School of Physics, Astronomy, & Computational Sciences. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy (p. 724). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: PHYS 262 or 266, and at least 12 credits at the 300-level or above of physics, astronomy, chemistry, engineering, or mathematics courses, and permission of the undergraduate coordinator.

Schedule Type: Internship

PHYS 410: Computational Physics I. 3 credits. Study and development leading to computer simulations of various physical systems. Requires the study and development of computational techniques and numerical algorithms to obtain both numerical results and visualization of these results. Application to individual physical processes taking place in a variety of physical streams. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to PHYS 510.

Registration Restrictions:
Required Prerequisites: PHYS 303C and 305C.
C Requires minimum grade of C.

Schedule Type: Laboratory, Lecture

PHYS 412: Solid State Physics and Applications. 3 credits. Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to PHYS 512.

Registration Restrictions:
processes. Topics include observational and modeling techniques in governing equations of atmospheric and ionospheric dynamics with a chemistry of the atmosphere-ionosphere system. The focus is on the

Required Prerequisites: PHYS 402^{C} or 502^{B}.

C Requires minimum grade of C.

B Requires minimum grade of B.

Schedule Type: Laboratory, Lecture

PHYS 416: Special Topics in Modern Physics. 1 credit.
Topics of current interest in modern physics with emphasis on the breadth of physical understanding needed to approach many of today's problems. The course will also review all of undergraduate physics through assigned problems from the GRE test. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Prerequisite: Completion of 21 hours of PHYS.

Required Prerequisites:

Schedule Type: Lecture

PHYS 417: Geophysics. 3 credits.
Seismological and gravitational theory and application to an understanding of the Earth's interior. Geology requirement may be waived for physics and engineering students with sufficient background. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to GEOL 417.

Recommended Prerequisite: GEOL 102, 201, 301; MATH 113, 114; PHYS 160.

Recommended Corequisite: MATH 213 and PHYS 260, 261.

Schedule Type: Lecture

PHYS 428: Relativity. 3 credits.
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to ASTR 428.

Registration Restrictions:

Required Prerequisites: PHYS 303^{C} and 305^{C}.

Schedule Type: Lecture

PHYS 440: Nuclear and Particle Physics. 3 credits.
Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to PHYS 540.

Registration Restrictions:

Required Prerequisites: PHYS 402^{C} or 502^{B}.

C Requires minimum grade of C.

B Requires minimum grade of B.

Schedule Type: Laboratory, Lecture

PHYS 465: Planetary Atmospheres and Ionospheres. 3 credits.
An interdisciplinary introduction to the fundamental physics and chemistry of the atmosphere-ionosphere system. The focus is on the governing equations of atmospheric and ionospheric dynamics with a systems (science) approach to the atmosphere-ionosphere coupling processes. Topics include observational and modeling techniques in the Earth's upper atmosphere as well as recent progress in planetary atmosphere-ionospheres and planetary missions. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Prerequisite: PHys 262 and PHYS 301 or MATH 314 or MATH 478 or permission of instructor.

Schedule Type: Lecture

PHYS 475: Atmospheric Physics. 3 credits.
Introduction to basic physical and chemical processes that operate in the Earth's atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Prerequisite: PHYS 260 and 262.

Schedule Type: Lecture

500 Level Courses

PHYS 502: Introduction to Quantum Mechanics and Atomic Physics. 3 credits.
Experimental basis of quantum mechanics, the wave function, and systems in one, two, and three dimensions. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:

Required Prerequisite: PHYS 308^{C}.

C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 510: Computational Physics I. 3 credits.
Study and development leading to computer simulations of various physical systems. Requires the study and development of computational techniques and numerical algorithms to obtain both numerical results and visualization of these results. Application to individual physical processes taking place in a variety of physical systems. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to PHYS 410.

Registration Restrictions:

Required Prerequisites: PHYS 303^{C} and 305^{C}.

C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

**PHYS 512: Solid State Physics and Applications.** 3 credits. Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to CSI 687, PHYS 412.

**Registration Restrictions:**
- **Required Prerequisites:** PHYS 402\(^C\) or 502\(^B\). 
- \(^C\) Requires minimum grade of C. 
- \(^B\) Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 513: Applied Electromagnetic Theory.** 3 credits. Classical electromagnetic theory with applications. Topics include electrostatics, magnetic fields and materials, electromagnetic wave propagation, waveguides, transmission lines, radiation, and antennas. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Registration Restrictions:**
- **Required Prerequisites:** PHYS 305\(^C\), 306\(^C\), MATH 313\(^C\) and 314\(^C\).
- \(^C\) Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 525:**

**PHYS 533: Modern Instrumentation.** 3 credits. Topics include sensors for radiation, particles, electric and magnetic fields, pressure, and motion; electronic instruments, computer data collection, instrumentation noise and noise reduction methods; and specialized instrumentation systems for various areas of applied physics. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to CHEM 620.

**Registration Restrictions:**
- **Required Prerequisite:** PHYS 513\(^B\).
- \(^B\) Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 540:** Nuclear and Particle Physics. 3 credits. Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to PHYS 440.

**Registration Restrictions:**
- **Required Prerequisites:** PHYS 402\(^C\) or 502\(^B\).
- \(^C\) Requires minimum grade of C. 
- \(^B\) Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
**PHYS 581: Topics in Renewable Energy.** 3 credits.
The course covers the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal using mathematical and other types of analysis. The course demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** PHYS 262\(^C\) and 266\(^C\).
\(^C\) Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 590: Selected Topics in Physics.** 1-6 credits.
Selected topics from recent theoretical or experimental developments and applications. Satisfies needs of professional community to keep abreast of current developments. Offered by Physics & Astronomy (p. 724). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**600 Level Courses**

**PHYS 600: Special Topics in Physics.** 1-6 credits.
In-service course to strengthen and update teachers’ knowledge of physics and astronomy. Offered by Physics & Astronomy (p. 724). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 612: Physics of Modern Imaging.** 3 credits.
Study of imaging methods using acoustic and electromagnetic waves to probe extended objects, and mathematical transformations to produce images from scattered waves. Topics include classical imaging, physical optics, Fourier transform, holography, tomography, seismic mapping, underwater acoustic imaging and mapping, side-looking radar, antenna arrays, applicable computer methods. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** PHYS 513\(^B\) or 685\(^B\).
\(^B\) Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 613: Computational Physics II.** 3 credits.
Study of diverse physical systems with emphasis on modeling and simulation. Study and development of numerical algorithms and techniques to obtain both numerical results and visualization of these results. Projects undertaken will draw from such areas as many-body orbital dynamics, molecular interactions, quantum systems, radiative transfer in high-temperature plasmas, stellar interiors, hydrodynamics, and cosmology. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Recommended Prerequisite:** PHYS 502

**Registration Restrictions:**
**Required Prerequisites:** PHYS 303\(^C\), 305\(^C\) and 510\(^B\).
\(^C\) Requires minimum grade of C.
\(^B\) Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 614: Thermodynamics and Kinetics of Materials.** 3 credits.
Advanced thermodynamics and physical kinetics with applications to materials science. The course covers an axiomatic formulation of thermodynamics, theory of phase transformations, kinetic theory of reactions and diffusion processes in solids, and interface phenomena. Possible applications considered in the course include processing and
fabrication of semiconductor materials, metal oxidation and corrosion, diffusion-controlled phase growth in solid solutions, shape memory alloys, and small-size effects in physical properties of materials. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 113\textsuperscript{C}, 114\textsuperscript{C}, 213\textsuperscript{C} and 307\textsuperscript{C}) and (PHYS 262\textsuperscript{C} or 266\textsuperscript{C}).
\textsuperscript{C} Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 615: Fundamentals of Materials Science. 3 credits.
Covers fundamentals of materials science with emphasis on physical topics including crystal structure and symmetry, dislocation theory, theory of interfaces, multicomponent phase diagrams, theory of phase transformations, nano-materials, metallic glasses. Includes a term project, assignments from current literature and application of computation in materials science. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to CSI 685.

Recommended Prerequisite: CDS 385 or PHYS 385 or undergraduate degree in physics, chemistry, materials, electrical or mechanical engineering or related disciplines; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 620: Continuum Mechanics. 3 credits.
Study of continuum mechanics; topics include physical concepts, mathematical formulation and solution, elastic materials, ideal fluids, viscous fluids, waves in continuous media, turbulence, thermal convection, stability considerations, high-temperature gas flows, radiative processes for momentum and energy transport, shocks, and computational fluid dynamics. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PHYS 510\textsuperscript{B} and 303\textsuperscript{C}.
\textsuperscript{B} Requires minimum grade of B-
\textsuperscript{C} Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 628: Relativity. 3 credits.
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Prerequisite: PHYS 303, 305, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 630: Introduction to Biophysics. 3 credits.
Introduces biophysics, focusing on physical and chemical concepts and their relation to rapidly expanding interdisciplinary interfaces among biology, chemistry, and physics. Reveals multiscale nature of biophysics, and includes exploration of macroscopic and microscopic applications. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to BINF 740.

Recommended Prerequisite: Undergraduate degree in physics, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 640: Finite Element Analysis of Solids and Fluids. 3 credits.
Introduction to fundamentals of finite element analysis of solid, structural, fluid, and heat transfer problems. Topics include governing equations for heat transfer, solid and fluid mechanics; finite element formulation and solution procedures; appropriate use of finite element methods including setting up an appropriate model, interpreting results, and assessing solution error. Students are expected to develop their own finite element code. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Recommended Prerequisite: PHYS 620 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
boundary value problems, multipoles, time dependent fields, propagating wave solutions, and resonant structures. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PHYS 305C, 306C, MATH 313C and 314C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Applied Engineering Physics or Physics.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
PHYS 695: Applied Fluid Mechanics. 3 credits.
Introduction to concepts of fluid mechanics and solving its equations using numerical techniques. The concepts and methods of computational fluid dynamics (CFD) will be introduced. Topics include
fluid mechanics equations, spatial and temporal discretization, finite difference and finite volume schemes, accuracy and convergence. This course requires writing of code to solve the governing equations of fluid mechanics. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Recommended Prerequisite:** PHYS 620 or PHYS 705 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**700 Level Courses**

**PHYS 701**: *Theoretical Physics*. 3 credits.
Study of the physical basis for selection of particular mathematical tools in physics; topics include curvilinear coordinates, tensors, matrices, differential equations, special functions, complex variables, and group theory. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate degree in physics or permission of instructor.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 703**: *Seminar in Physics*. 1 credit.
A general seminar course that combines invited seminars from faculty (both internal and external) with graduate student seminars. Offered by Physics & Astronomy (p. 724). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 705**: *Classical Mechanics*. 3 credits.
Study of classical mechanics; topics include variational principles, constrained motion, Lagrangian and Hamiltonian mechanics, canonical transformations, and applications (central forces, rigid-body motion, oscillations). Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate degree in physics or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 711**: *Statistical Mechanics*. 3 credits.
Topics include thermodynamics, kinetic theory, ensemble theory, quantum statistics, and applications. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate degree in physics or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 736**: *Computational Quantum Mechanics*. 3 credits.
Study of the fundamental concepts of quantum mechanics from a computational point of view, review of systems with spherically symmetric potentials, many-electron-atom solutions to Schrodinger’s equation, electron spin in many-electron systems, atomic structure calculations, algebra of many-electron calculations, Hartree-Fock self-consistent field method, molecular structure calculations, scattering theory computations, and solid-state computations. Offered by Physics & Astronomy (p. 724). May not be repeated for credit. Equivalent to CHEM 736, CSI 783.

**Registration Restrictions:**
**Required Prerequisites:** PHYS 502*B* and 510*B*.
*B* requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 760**: *Space Plasma Physics*. 3 credits.
Covers plasma processes involved in today’s space physics research, including different regimes of plasma; basic concepts in kinetic, fluid, and MHD plasmas; and existent waves in these media. Also covers basics of shocks, discontinuities, transport and acceleration of particles such as cosmic rays, reconnection, and MHD instabilities. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** PHYS 513*B* or 685*B*.
*B* requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PHYS 780**: *Advanced Selected Topics in Physics*. 3 credits.
Selected topics in physics not covered in fixed-content physics courses. Offered by Physics & Astronomy (p. 724). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
900 Level Courses

PHYS 784: Quantum Mechanics II. 3 credits.
Advanced topics in quantum mechanics. Covers density and tensor operators, approximation methods, scattering theory, and identical particles. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: PHYS 684B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 785: Classical Electrodynamics II. 3 credits.
Advanced topics in electrodynamics. Covers radiation, scattering and diffraction, special relativity, relativistic particle dynamics, Lorentz transformation, 4-vectors, transformation of fields, charges and currents, Thomas precession, retarded potentials, and radiation from moving charges. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: PHYS 685B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 786: Quantum Field Theory of Particles and Condensed Matter. 3 credits.
Introduction to quantum field theory and its applications in particle and condensed matter physics. Topics: second quantization, scalar bosonic and fermionic fields, symmetries and conserved currents, Dirac equation, gauge theory, quantum electrodynamics, Feynman diagrams, renormalization, Fermi liquid, symmetry breaking, superconductivity, magnetism, path integral, quantum phase transitions to topological order, etc. Offered by Physics & Astronomy (p. 724). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisite: PHYS 684B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 787: Introduction to Electromagnetism. 3 credits.
Advanced topics in classical electromagnetism. Covers fields, potentials, Maxwell's equations, Green functions, charge and current, and solutions of Maxwell's equations, etc. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: PHYS 685B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 788: Advanced Quantum Mechanics. 3 credits.
Advanced topics in quantum mechanics. Covers second quantization, many-body theory, symmetries and conservation laws, superconductivity, magnetism, path integral, quantum phase transitions to topological order, etc. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: PHYS 684B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 789: Advanced Quantum Mechanics I. 3 credits.
Advanced topics in quantum mechanics. Covers density and tensor operators, approximation methods, scattering theory, and identical particles. Offered by Physics & Astronomy (p. 724). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: PHYS 684B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PHYS 998: Doctoral Dissertation Proposal. 1-12 credits.
Covers development of a research proposal under the guidance of a dissertation director and the doctoral committee. The proposal forms the basis for the doctoral dissertation. Notes: No more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program. Out of the 24, no more than 12 credits of ASTR/PHYS 998 may be applied. Offered by Physics & Astronomy (p. 724). May be repeated within the degree.

Recommended Prerequisite: Admission to physics doctoral program and permission of advisor.

Schedule Type: Dissertation

PHYS 999: Doctoral Dissertation. 1-12 credits.
Doctoral research performed under direction of dissertation director. Notes: No more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program. Offered by Physics & Astronomy (p. 724). May be repeated within the degree.

Recommended Prerequisite: Admission to physics doctoral program and permission of advisor.

Schedule Type: Dissertation

Notes:
- No more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program. Out of the 24, no more than 12 credits of ASTR/PHYS 998 may be applied. Offered by Physics & Astronomy (p. 724). May be repeated within the degree.
- For registration restrictions, see the course descriptions provided.

Portuguese (PORT)

100 Level Courses
PORT 110: Elementary Portuguese. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Schedule Type: Lecture

200 Level Courses
PORT 210: Intermediate Portuguese. 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Portuguese-speaking regions. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Recommended Prerequisite: PORT 110, appropriate placement score, or permission of department.

Schedule Type: Lecture

Professional Development in Education (EDPD)

400 Level Courses
EDPD 402: Professional Development in Elementary Literacy, and Secondary Education. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education. Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

Schedule Type: Lecture

EDPD 406: Professional Development in Special Education and Disability Research. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research. Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

Schedule Type: Lecture

500 Level Courses
EDPD 501: Professional Development in Advanced Teacher Research and Practice. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in advanced teacher research and practices. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDPD 502: Professional Development in Elementary, Literacy, and Secondary Education. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDPD 503: Professional Development in Individual and Organizational Transformation. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in individual and organizational transformation. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDPD 504: Professional Development in Learning Technologies. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in learning technologies. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDPD 505: Professional Development in Educational Psychology, Research Methods and Education Policy. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in educational psychology, research methods and education policy. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDPD 506:** Professional Development in Special Education and Disability Research. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDPD 507:** Professional Development in Health and Human Performance. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in health and human performance. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDPD 508:** Professional Development in Sport, Recreation and Tourism. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in sport, recreation and tourism. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 15 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Provost (PROV)**

**000 Level Courses**

**PROV 044:** Business Math Preparation. 2 credits.
Notes: The successful completion of this course will serve as a prerequisite for MATH 108 in lieu of the Math Placement Test. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum 6 credits. Equivalent to MATH 008.

**Recommended Prerequisite:** AE Level 3 Core AE Level 3 OCS or admission to an INTO Mason Pathway program.

**Registration Restrictions:**
Enrollment is limited to English Language level students.

**Schedule Type:** Seminar

**PROV 045:** STEM Mathematics Preparation. 2 credits.
Notes: The successful completion of this course will either: a) Serve as a prerequisite for Math 105 Pre-Calculus in lieu of the Math Placement Test or b) Prepare the student to achieve the necessary score on the Math Placement Test for entry into MATH 113. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum 6 credits. Equivalent to MATH 008.

**Recommended Prerequisite:** AE Level 3 Core AE Level 3 OCS or admission to an INTO Mason Pathway program.

**Registration Restrictions:**
Enrollment is limited to English Language level students.

**Schedule Type:** Seminar

**PROV 095:** Quantitative Preparation for the Graduate Record Examination. 0 credits.
Prepares students in the International Graduate Pathways requiring the general Graduate Record Examination test to take the computer adaptive version of the exam with primary emphasis on the quantitative section. This course emphasizes test language and the quantitative portion of the exam along with testing strategies; identifying common test-taking errors; and managing test anxiety. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum credits. Equivalent to EAP 097, PROV 096, PROV 097.

**Registration Restrictions:**
Enrollment is limited to English Language level students.

**Schedule Type:** Seminar

**PROV 096:** Verbal and Quantitative Preparation for the Graduate Record Examination. 0 credits.
Prepares students in International Graduate Pathways requiring the general Graduate Record Examination test for progression to take the exam for students whose pathways require a primary focus on verbal and quantitative sections. This course emphasizes test language and vocabulary, in addition to: testing strategies; practicing logical, rhetorical, and mathematical problem-solving; identifying common test-taking errors; and managing test anxiety. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum credits. Equivalent to EAP 097, PROV 095, PROV 097.

**Registration Restrictions:**
Enrollment is limited to English Language level students.

**Schedule Type:** Seminar
Schedule Type: Seminar

**PROV 097: Verbal, Quantitative, and Academic Writing Preparation for the Graduate Record Examination.** 0 credits.
Prepares students in International Graduate Pathways requiring the general Graduate Record Examination test (GRE) for progression to take the exam for students whose pathways equal emphasis on all three areas of the exam. This course emphasizes test language and vocabulary, in addition to: testing strategies; academic writing preparation; practicing mathematical problem-solving; identifying common test-taking errors; and managing test anxiety. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum 0 credits. Equivalent to EAP 097, PROV 095, PROV 096.

**Schedule Type:** Lecture

**100 Level Courses**

**PROV 105: American Cultures.** 3 credits.
This course provides an introduction to US cultures with a focus on diversity within American society. The course uses the concept of culture as a basis for discussing differences in Americans’ experience of family life, work, education, the arts, national and ethnic identities, gender, religion and more. Through ethnographic readings, literature, film and field projects, students develop a better understanding of similarities and differences across the American experience. Offered by Provost’s Office (p. 1102). May not be repeated for credit.

**Mason Core:** Global Understanding (p. 135)

**Recommended Prerequisite:** Admission to the INTO Mason Undergraduate Pathway program.

**Schedule Type:** Lecture, Recitation

**PROV 106: Introduction to Research Methods for International Students.** 3 credits.
Academic research is the fundamental element of university-level education. Despite the variations in research disciplines, they all share basic concepts of academic inquiry. This course is designed to teach the methods, norms and procedures of undergraduate research in the humanities and social sciences. It should equip international students with the essential skills needed to successfully produce a quality academic paper. Offered by Provost’s Office (p. 1102). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Recommended Prerequisite:** Admission to the INTO Mason Undergraduate Pathway program.

**Registration Restrictions:** undefined

**Schedule Type:** Lecture, Recitation

**PROV 110: Special Topics.** 1-3 credits.
Exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field. Offered by Provost’s Office (p. 1102). May be repeated within the term.

**Registration Restrictions:**
Enrollment is limited to Non-Degree or Undergraduate level students.

**Schedule Type:** Lecture

**200 Level Courses**

**PROV 206: International Peer Educational Leadership.** 3 credits.
This course is an experiential leadership course for students partnering with Undergraduate International Pathway Program students as peer educational mentors. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Sophomore status or higher.

**Schedule Type:** Independent Study

**PROV 207: International Peer Learning Partnership.** 1 credit.
This course is an experiential credit course for undergrad students partnering with Undergraduate International Pathway Program students as peer educational mentors. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum 3 credits.

**Schedule Type:** Internship

**PROV 210: Comprehensive Topics in Leadership.** 1-3 credits.
Comprehensive exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum 3 credits.

**Schedule Type:** Lecture

**300 Level Courses**

**PROV 301: Great Ideas in Science.** 3 credits.
Nontechnical introduction to ideas that have shaped the growth of science, from the building of Stonehenge to modern theories of the Big Bang. The idea behind each major advance is treated in its historical context, with special attention to its importance in mankind’s understanding of the nature of the universe. Intended for nonscience majors; uses little mathematics. Offered by Provost’s Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 301.

**Mason Core:** Natural Science Overview (p. 135)

**Schedule Type:** Lecture

**PROV 342: The George Mason Debates in Current Affairs.** 3 credits.
In-depth investigation of one or more contemporary public policy issues. Examines the selected topics as discussed by scholars, public interest groups and think tanks, government officials, and the news media. Texts and guest lecturers presenting a wide range of perspectives are an important feature. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum 6 credits.

**Mason Core:** Synthesis (p. 135)

**Recommended Prerequisite:** Completion or concurrent enrollment in all other required general education courses.

**Schedule Type:** Lecture
500 Level Courses

PROV 501: Introduction to Graduate Study for International Students I. 2-3 credits.
Designed particularly the Graduate International Pathways program, this course is the first of a two-part transitional course series designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate/Professional school enrollment. This first course covers western educational systems, university policies and procedures, writing skills and research resources, and graduate school study skills and methods. Notes: This course is for graduate degree seeking students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level. Enrolled students are required to take PROV 502 the following semester. Department approval required. Offered by Provost's Office (p. 1102). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PROV 502: Introduction to Graduate Study for International Students II. 2-3 credits.
Designed particularly for the Graduate International Pathways program, this course is the second of a two-part transitional course series designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate school enrollment. This course covers cultural adjustment to life and education in the U.S., program development, university resources, career planning as well as professional and personal presentation. Notes: This course is for graduate degree seeking students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level, depending on the pathway program. Offered by Provost's Office (p. 1102). May not be repeated for credit.

Recommended Prerequisite: Completion of PROV 501 with a grade of B or better, in the immediate past semester.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PROV 508: Special Topics Content Support in the Disciplines. 6 credits.
This Special Topics Content Support in the Disciplines course is tailored to international students enrolled in the INTO Mason Graduate Pathways Program. The courses will be designed to support INTO Mason graduate students in their major courses, providing individualized feedback and foundational information for those courses. Offered by Provost's Office (p. 1102). May be repeated within the term for a maximum 6 credits.

Schedule Type: Lecture

600 Level Courses

PROV 601: Thriving in Your Graduate Program. 1 credit.
Gaining greater insight into student learning theories, the nature of research and scholarship, higher education trends, and the various career paths available to individuals with graduate degrees is important for students in the early stages of their academic programs. This seminar is designed for early career MFA and doctoral students to facilitate their success as graduate students at Mason. Offered by Provost's Office (p. 1102). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PROV 701: Preparing for Academic Careers. 1 credit.
This seminar will be devoted to helping doctoral students explore and prepare for future academic careers and to strengthening their instructional effectiveness. The seminar will provide a clearer understanding of the roles and responsibilities of being a faculty member. Participants will learn how to construct a meaningful statement of teaching philosophy and plan for a course through syllabus design. Notes: This course does not apply to required credits for doctoral degrees. Offered by Provost's Office (p. 1102). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Psychology (PSYC)**

**100 Level Courses**

**PSYC 100:** *Basic Concepts in Psychology.* 3 credits.
Introduces psychology as scientific discipline. Examines concepts and methods in learning, motivation, development, personality, and measurement. Offered by Psychology (p. 443). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 135)

**Schedule Type:** Lecture, Recitation

**200 Level Courses**

**PSYC 211:** *Developmental Psychology.* 3 credits.
Review of major developmental theories including perspectives of childhood, adolescence, adulthood, and old age. Offered by Psychology (p. 443). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 135)

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 231:** *Social Psychology.* 3 credits.
Study of human behavior development in a social matrix, including such topics as socialization, cultural behavior, group norms, and attitude formation. Offered by Psychology (p. 443). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 135)

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 260:** *Basic Research Methods in Psychology.* 1-3 credits.
Introduction to research methods in psychology in the context of assisting faculty with research; individualized sections by arrangement with faculty. Methods taught vary but generally include basic data collection and recordkeeping methods in research. Notes: Course culminates in a paper describing techniques learned. No more than 6 credits in PSYC 260, 350, and 460 can be used toward a psychology major. Offered by Psychology (p. 443). May be repeated within the term.

**Recommended Prerequisite:** A 3.0 overall G.P.A., and a written proposal approved before registration by the instructor and the department chair.

**Schedule Type:** Lecture

**300 Level Courses**

**PSYC 300:** *Statistics in Psychology.* 4 credits.
Descriptive and inferential statistics in design, analysis, and interpretation of psychological research with practical application using computers in laboratory. Notes: Students are strongly encouraged to take PSYC 301 concurrently. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** 6 credits of PSYC and 3 credits of MATH course work or permission of instructor.

**Recommended Corequisite:** Students are strongly encouraged to take PSYC 301.

**Schedule Type:** Laboratory, Lecture

**PSYC 301:** *Research Methods in Psychology.* 4 credits.
General research design in psychology, with an emphasis on experimental design and control. Topics include use of human participants in research, reliability and validity, observational methods, and survey and longitudinal designs. Notes: Students are strongly encouraged to take PSYC 300 concurrently. Laboratory work will include designing and running research studies and writing manuscripts using appropriate style and format. Offered by Psychology (p. 443). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** PSYC 100 and either PSYC 300, STAT 250, or STAT 350 or equivalent.

**Schedule Type:** Laboratory, Lecture

**PSYC 304:** *Principles of Learning.* 4 credits.
Principles of animal learning, including such topics as classical and operant conditioning, discrimination learning, and animal cognition. Notes: Laboratory projects require working with computer simulations. Offered by Psychology (p. 443). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** PSYC 300 or permission of instructor.

**Schedule Type:** Laboratory, Lecture

**PSYC 309:** *Sensation, Perception, and Information Processing.* 4 credits.
Principles of perception, including topics such as psychophysics, perceptual organization, perceptual learning, and perceptual constancies. Notes: Laboratory projects demonstrate and investigate perceptual phenomena. Offered by Psychology (p. 443). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** PSYC 300 and PSYC 301.

**Schedule Type:** Laboratory, Lecture

**PSYC 312:** *Educational Psychology.* 3 credits.
Enables students to apply psychological principles to the learning process in the classroom context. Examines the theoretical and applied aspects of learning, motivation, human development, personality, assessment, and evaluation in educational settings. Corresponding implications for effective teaching will be discussed. Offered by Psychology (p. 443). May not be repeated for credit.

**Schedule Type:** Lecture

**PSYC 313:** *Child Development.* 3 credits.
Study of human psychological development from conception to adolescence including such topics as genetic factors, emotional and intellectual growth, and environmental influences. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100 or equivalent.

**Schedule Type:** Lecture
PSYC 314: Adolescent Development. 3 credits.
Study of the biological and cultural changes accompanying adolescence, including the effect of these changes on emotional, intellectual, and social development. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 or equivalent.

Schedule Type: Lecture

PSYC 317: Cognitive Psychology. 3 credits.
An in-depth overview of important topics in cognitive psychology, including memory, attention, pattern recognition, problem solving, reasoning, and psycholinguistics. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: Six credits of psychology or permission of instructor.

Schedule Type: Lecture

PSYC 320: Psychological Tests and Measurements. 4 credits.
Examination and application of principles underlying the theory, interpretation, and administration of psychological tests, including a study of tests of intelligence, achievement, and ability. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 300 or permission of instructor.

Schedule Type: Laboratory, Lecture

PSYC 321: Clinical Psychology. 3 credits.
Examines evidence-based psychological assessment and psychotherapy techniques to understand, prevent, and treat psychological distress and dysfunction and promote well-being. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 325 or permission of instructor.

Schedule Type: Lecture

PSYC 322: Behavior Modification. 3-5 credits.
Examination of experimental principles of human and animal learning within theoretical framework of applied behavior analysis, including design, implementation, and evaluation of operant intervention programs across a wide variety of human situations. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 324 or permission of instructor.

Schedule Type: Lecture

PSYC 324: Personality Theory. 3 credits.
Introduction to classical and contemporary theories of personality, and comparative evaluation of major theories in terms of relevant studies. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

PSYC 325: Abnormal Psychology. 3 credits.
Study of development of abnormal behavior patterns, including such topics as methods of diagnosis and prevention of serious mental disorders such as psychosomatic disorders, psychoses, character disorders, and mental retardation. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 and either PSYC 211, 231, or 324 or permission of instructor.

Schedule Type: Lecture

PSYC 326: Therapeutic Communication Skills. 3 credits.
Introduction to understanding and use of basic therapeutic communication skills used in clinical and counseling psychology. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PSYC 325 or L325).
C- Requires minimum grade of C-.

Schedule Type: Lecture

PSYC 327: Psychology in the Community. 3 credits.
Individual placements in applied psychology settings. Notes: A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: PSYC major with 6 hours of PSYC and permission of associate chair for undergraduate studies.

Schedule Type: Internship

PSYC 328: Psychology in the Community Laboratory. 1 credit.
Consists of a one-hour service learning component linked to selected psychology courses. Notes: A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: PSYC major with 6 hours of PSYC and permission of instructor and associate chair for undergraduate studies.

Schedule Type: Internship

PSYC 333: Industrial and Organizational Psychology. 3 credits.
Examination of application of psychological principles and methods to problems commonly encountered in business and industry. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 and PSYC 300; or permission of instructor.

Schedule Type: Lecture

PSYC 335: Psychology of Creativity and Innovation. 3 credits.
Creativity and innovation take place in many domains such as business, science and the arts. Learn the distinction between creativity and innovation. Apply findings from the scientific literature about the antecedents of creativity and innovation including emotions, cognition, individual differences, and social contexts. Experiment with ways to enhance your creativity and skills for innovation. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Seminar
PSYC 340: Human Factors Psychology. 3 credits.
Reviews history and current practice of optimal product and system design as a function of psychology. Includes a brief history of human factors psychology, a review of human memory and attentional systems as they relate to product and system design, and an introduction to current methods used to analyze and redesign products and systems for optimal human interaction. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

PSYC 350: Directed Reading and Research in Psychology. 1-3 credits.
Library research in psychology, culminating in a substantial formal paper; individualized sections by arrangement with faculty. Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major. Offered by Psychology (p. 443). May be repeated within the term.

Schedule Type: Independent Study

PSYC 362: Psychology of Gender. 3 credits.
Behavior and attitudes of women; influence of chromosomes and hormones on behavior, influence of culture on sex role differentiation, and theories of sex role development. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100, BIOL 103, and BIOL 104 or permission of instructor.

Schedule Type: Lecture

PSYC 372: Physiological Psychology. 3 credits.
Survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action. Students may earn credit for PSYC 372 and either PSYC 375 or PSYC 376, but they may not earn credit for all three. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100, BIOL 103 and 104; or permission of instructor.

Schedule Type: Lecture

PSYC 373: Physiological Psychology Laboratory. 1 credit.
Functional anatomy and physiology of the brain, including dissection of brain and eye, and a demonstration and practice in research methods for studying physiological mechanisms underlying behavior. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 372 or 375, or permission of instructor. Concurrent enrollment is also permitted.

Schedule Type: Laboratory

PSYC 375: Brain and Sensory Processes. 3 credits.
First half of comprehensive survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action. Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 with a grade of C- or better, and BIOL 103, 104 or BIOL 213; or permission of instructor.

Schedule Type: Lecture

PSYC 376: Brain and Behavior. 3 credits.
Second half of a comprehensive survey of neuroscience, including neural mechanisms underlying normal and abnormal behavior. Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: C or better in PSYC 375 or permission of instructor.

Schedule Type: Lecture

PSYC 379: Applied Cross-Cultural Psychology. 3 credits.
A review of important landmarks in cross-cultural research, showing how this research impacts psychology as a discipline. Emphasizes an empirical approach to cross-cultural study and includes topics such as theoretical and empirical developments in cross-cultural psychology, development of coherent schemas to guide cross-cultural research and interventions, comparison of psychology's goals and assumptions in Western and other cultures, and integration of course materials into educational and career goals of students. Offered by Psychology (p. 443). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

PSYC 380: Introduction to Forensic Psychology. 3 credits.
Explains the differing, yet varied facets of the field of forensic psychology including landmark legal cases relevant to psychology, potential careers in forensic psychology, police psychology, expert testimony, forensic psychological assessment, psychopathy, homeland security, ethics, correctional psychology, and issues in working in the juvenile justice system. Offered by Psychology (p. 443). May not be repeated for credit.

Schedule Type: Lecture

PSYC 381: Mental Illness and Criminal Justice. 3 credits.
Examines the frequent intersection of individuals diagnosed with severe mental illness and the criminal justice system. Includes case studies that demonstrate possible judicial, therapeutic, correctional, and post-adjudication outcomes. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 325.

Schedule Type: Lecture

PSYC 382: Psychology of Crime Victims. 3 credits.
Explores short-term and long-term psychological effects of crime on victims through interviews with survivors of childhood abduction, elder abuse, intimate partner violence, and child abuse, among others. Evaluates roles and responsibilities of mental professionals and law enforcement when interacting with crime victims. Offered by Psychology (p. 443). May not be repeated for credit.

Schedule Type: Lecture
PSYC 399: Psychology: College to Career. 3 credits.
Emphasizes development and readiness for a profession in the social sciences through self-assessment and professional skill acquisition. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** At least 30 hours of completed college coursework and a declared major in the social sciences or permission of the instructor.

**Schedule Type:** Seminar

### 400 Level Courses

**PSYC 405: Mystery, Madness, and Murder. 3 credits.**
Multidisciplinary approach to taboo topics that fascinate and frighten us. Instructors from disciplines across the arts and sciences bring expertise and diverse perspectives to provocative issues such as cannibalism and serial murder. Students learn to think critically and objectively while examining use in myth, literature, and popular culture. Offered by Psychology (p. 443). May not be repeated for credit.

**Mason Core:** Synthesis (p. 135)

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 406: Psychology of Communication. 3 credits.**
An examination of the behavior of communicating across species and sensory modalities, with an emphasis on the evolutionary basis for the various communication strategies used by animals and humans. Offered by Psychology (p. 443). May not be repeated for credit.

**Mason Core:** Synthesis (p. 135)

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 408: Psychological Fitness. 3 credits.**
Evaluates and applies scientific research on psychological exercises to increase one's cognitive, behavioral, emotional, and physical health. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100.

**Schedule Type:** Lecture

**PSYC 414: Behavior Disorders of Childhood. 3 credits.**
Review of the theories, methods, and research dealing with emotional and behavioral disorders of children. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 313 and 325 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 415: Psychological Factors in Aging. 3 credits.**
Examination of the sensory, perceptual, intellectual, personality, health, and familial changes that occur as people age and adjust into their later years. Common and more serious adjustment difficulties and developments are discussed with attention to impacts on the individual and the family. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 417: Science of Well Being. 3 credits.**
This course will examine and interpret the latest research in social, personality, and clinical psychology on well-being, character strengths, and personal growth. Emphasis will be placed on the ways in which scientists generate hypotheses regarding the nature of positive psychological traits and processes and the methods by which these ideas are tested. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 443.

**Schedule Type:** Lecture

**PSYC 418: Death, Dying, and Grieving. 3 credits.**
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill. Offered by Psychology (p. 443). May not be repeated for credit. Equivalent to PSYC 518.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 419: Synthesis in Psychology. 3 credits.**
Understand and relate broad psychological issues to society as a whole. Possible topics include mental health in society, the psychology of food and eating behavior, and animals and society. See schedule of classes for current topic(s). Notes: May be repeated for credit when topic is different. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 15 credits.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 423: Group Psychotherapy Techniques. 3 credits.**
Review of theory and methods of group therapy with emphasis on humanistic and interpersonal approaches, including applications to family therapy, alcoholism, and drug abuse. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 324 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 427: Community Engagement for Social Change. 3 credits.**
Explores social problems and interpersonal, intrapersonal, and social aspects of addressing them. Addresses both theoretical aspects of social problems through readings and class discussion and application through community service. Offered by Psychology (p. 443). May not be repeated for credit.

**Mason Core:** Synthesis (p. 135)

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 435: Personnel Training and Development: A Psychological Perspective. 3 credits.**
Overview and critique of training methods used in industry from viewpoint of psychological theory, including simulations, on-the-job training, supervisory/leadership skills training, computer-assisted instruction, and programmed texts. Principles of needs analysis, program
development, and program evaluation are discussed within framework of industrial psychology. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 333, PSYC 320 (may be taken concurrently) or permission of instructor.

**Schedule Type:** Lecture

**PSYC 440: Forensic Psychology: Science and Pseudoscience.** 3 credits. Provides a critical, evidenced-based, examination of common psychological practices and constructs in the field of forensic psychology including psychological assessments, expert testimony, risk assessment, hypnosis, criminal profiling, polygraph examination, and methods of interrogation. Offered by Psychology (p. 443). May not be repeated for credit.

**Schedule Type:** Lecture

**PSYC 441: Criminal Behavior: Psychological and Neurological Aspects.** 3 credits. Considers the psychological factors and structural and functional neurological differences that influence criminal behaviors including murder, sexual assault, fraud, intimate partner violence, and arson. The predictive and explanatory abilities of neuroimaging with respect to the criminal acts in question, as well as the role of neuroimaging in the judicial system, will also be explored. Offered by Psychology (p. 443). May not be repeated for credit.

**Schedule Type:** Lecture

**PSYC 460: Independent Study in Psychology.** 1-4 credits. Advanced research methods in psychology in context of individual student projects or assisting with research on faculty projects; individual sections by arrangement with faculty. Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major. Offered by Psychology (p. 443). May be repeated within the term.

**Recommended Prerequisite:** 18 credits of PSYC, including PSYC 301 (grade of C or better), a 2.500 GPA in PSYC, and a written proposal approved before registration by the instructor and the department.

**Schedule Type:** Independent Study

**PSYC 461: Special Topics.** 1-3 credits. Selected topics reflecting interest in specialized areas. Notes: Topic announced in advance. May be repeated when topic is different. Offered by Psychology (p. 443). May be repeated within the term.

**Schedule Type:** Lecture

**PSYC 462: Selected Topics in Forensic Psychology.** 3 credits. Selected topics reflecting interest in forensic psychology. Notes: May be repeated for credit when topic is different. Offered by Psychology (p. 443). May be repeated within the term.

**Schedule Type:** Lecture

**PSYC 465: Pioneering Ideas in Psychology.** 3 credits. Historical background and major theoretical systems in modern psychology. Approaches include behaviorism, cognitive/information processing approaches, and psychodynamic theories. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** 18 credits in psychology including PSYC 317 or permission of instructor.

**Schedule Type:** Lecture

**PSYC 466: Psychology of Intimate Relationships.** 3 credits. Advanced survey of theories and research related to intimate relationships, including romantic relations and those among family members and friends in diverse cultural and relationship contexts. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100 and PSYC 231; PSYC 324 recommended.

**Schedule Type:** Lecture

**PSYC 467: The Psychology of Working in Groups and Teams.** 3 credits. Teaches knowledge and the skills to meet communication, interpersonal, and task-related challenges that arise when functioning in work teams. Through readings, classroom activities, and applied problem-solving exercises, students acquire or refine team-related competencies. Students study theory of group and team processes while gaining insight from feedback on their behavior in exercises to become more effective team members. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** 60 credit hours, including PSYC 100, or permission of instructor.

**Schedule Type:** Lecture

**PSYC 472: Current Topics in Brain and Behavior.** 3 credits. Rotating topics. Physiological mechanisms underlying behavior. Selected topics include neuronal bases of learning and memory, Alzheimer’s disease, and biological bases of addiction. Notes: May be repeated with approval of instructor. Offered by Psychology (p. 443). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** PSYC 372 or PSYC 375, and PSYC 376; or permission of instructor.

**Schedule Type:** Lecture

**PSYC 490: Psychology Honors I.** 3 credits. Review of topics and issues in psychology, including historical overview, theory and supporting data, and influences on behavior. Notes: Topics vary. Offered by Psychology (p. 443). May not be repeated for credit.

**Specialized Designation:** Research Associated

**Recommended Prerequisite:** Admission to psychology department Honors program.

**Schedule Type:** Seminar

**PSYC 491: Psychology Honors II.** 3 credits. Introduces advanced statistics, research methodologies, statistics packages, computing and information technology, and library technology appropriate for psychological research and pedagogy. Notes: Students required to complete proposal in preparation for admission to Psychology Honors III. Offered by Psychology (p. 443). May not be repeated for credit.

**Specialized Designation:** Research Associated

**Recommended Prerequisite:** PSYC 300, 305 and 490.
Schedule Type: Seminar

PSYC 492: RS: Psychology Honors III. 3 credits.
Completion of final honors project or thesis. Students must complete project or thesis, and present oral defense to committee and poster to class. Students also expected to prepare proposal to present project or thesis at regional or national conference, or prepare manuscript for publication in appropriate journal. Offered by Psychology (p. 443). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: PSYC 491 and approval of final honors project for thesis.

Schedule Type: Seminar

PSYC 499: Senior Thesis. 3 credits.
Directed research on topic agreed on by student and advisor. Notes: Students should take PSYC 460 with same advisor to develop thesis proposal before registering for PSYC 499. Students must complete thesis and defend it orally before advisor and two faculty members. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: Psychology major with 84 hours, an experimental psychology laboratory course, PSYC 460, Permission of Instructor, and prior approval of thesis proposal.

Schedule Type: Independent Study

500 Level Courses

PSYC 518: Death, Dying, and Grieving. 3 credits.
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill. Offered by Psychology (p. 443). May not be repeated for credit. Equivalent to PSYC 418.

Recommended Prerequisite: PSYC 100

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 527: Introduction to Neurobiology. 2 credits.
Introduction to neurobiology with overview of embryological development of nervous system in evolutionary context. Introduces regional and systems neuroanatomy by studying mammalian visual system with comparative perspective. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 372 or PSYC 375 and 376, or BIOL 213 and 303.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Application of cognitive theory to understand and predict interactions among human cognition, artifact, and task. Discusses recent research and case studies that emphasize empirical research, analytical modeling techniques, systems design, and development of tools and methods. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: An experimental lab course or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 531: Mammalian Neurobiology. 3 credits.
Functional anatomy of brains of mammals, with emphasis on regional and systems neuroanatomy of humans. Anatomy correlated with material from clinical neurology where possible. Laboratory component includes brain dissections and clinical correlations. Offered by Psychology (p. 443). May not be repeated for credit. Equivalent to BIOL 516.

Recommended Prerequisite: PSYC 527.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 552: Histology/Histochemistry of the Brain. 4 credits.
Explores conceptual basics and provides hands-on experience in techniques for studying brain tissue, including stereotaxic surgery, perfusion, sectioning, Nissl and myelin stains, enzyme histochemistry, immunohistochemistry, in situ hybridization, and quantitative receptor autoradiography. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 372 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**PSYC 555: Neuroimaging.** 3 credits. Covers functional magnetic resonance imaging (fMRI) methods, experimental design and analysis issues in fMRI, structural MRI techniques and how they can contribute to cognitive neuroscience, and event-related potential methods. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** Graduate enrollment in either Cognitive & Behavioral Neuroscience or Human Factors & Applied Cognition programs, or instructor approval.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 557: Psychometric Methods.** 3 credits. Examines concepts of psychological measurement with emphasis on predictor test and criterion development. Discusses reliability, validity, and specialized techniques to develop tests of ability, interest, and personality. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 611 and 612 or permission of instructor

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 558: Neuronal Bases of Learning and Memory.** 3 credits. Examines neuronal mechanisms involved in learning and memory, in animals ranging from invertebrates to humans. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372, or 375 and 376; or permission of instructor

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 559: Behavioral Chemistry.** 3 credits. Neurochemistry and neuroendocrinology, including neurotransmitter synthesis, genetic aspects of neural functioning, mechanisms of action of neurotransmitters and second messenger systems, regulation of neuroendocrine systems, neuroendocrine effects on behavior, and neuroimmunology. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372, or 375 and 376; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 561: Behavioral Biology of Substance Abuse.** 3 credits. Overview of biological effects of substance abuse, and biological mechanisms underlying addiction. Topics include alcohol, cocaine, marijuana, and other drugs; genetics of addiction; and neural systems underlying addiction and withdrawal. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 562: Research Methods in Human Experimental Psychology.** 3 credits. Hands-on approach to selected current and/or classical human experimental psychology research methods. Course topics include experimental design, including psychophysical and physiological experimentation. In addition, mathematical, cognitive modeling and simulation, as well as advanced statistical techniques will be covered. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** Graduate enrollment in either Cognitive and Behavioral Neuroscience or Human Factors and Applied Cognition programs.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
PSYC 563: Laboratory Methods in Behavioral Neuroscience. 3 credits.
Laboratory work, to be completed in groups, will include surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed in lecture. This course requires working with laboratory rodents. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

PSYC 566: Cognitive and Perceptual Development. 3 credits.
Survey of theory and the research on development of perception, memory, concepts, problem solving, intelligence, and academic skills in children. Offered by Psychology (p. 443). May not be repeated for credit. Equivalent to PSYC 666.

Recommended Prerequisite: 6 credits of child psychology and course in experimental psychology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 592: Special Topics. 1-6 credits.
Special topics reflecting interests in specialized areas. Notes: Topic announced in advance. May be repeated when topic is different. Offered by Psychology (p. 443). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 597: Directed Reading and Research. 1-6 credits.
Independent reading or research on topic agreed on by student and faculty member. Notes: Directed reading or research for MA students in psychology. Offered by Psychology (p. 443). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

PSYC 611: Advanced Statistics. 4 credits.
Test must be passed to take course. Open only to degree students. Integrates basic psychological statistics with overview of research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes using computer packages for data handling and analyses. Notes: Students must enroll in 611 and 612 in sequential semesters. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

PSYC 612: Advanced Statistics. 4 credits.
Open only to degree students. Integrates basic psychological statistics with overview of research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes use of computer packages for data handling and analyses. Notes: Students must enroll in 611 and 612 in sequential semesters. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Corequisite: Open only to degree students.

Registration Restrictions:
Required Prerequisite: PSYC 611B.

B Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

PSYC 614: The Psychology of Aging. 3 credits.
Review of the experimental literature in psychology of aging, including intellectual functioning, personality and adjustment, minor and major adjustment problems, and role changes in later life. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 and undergraduate or graduate course in aging.
**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PSYC 615: Language Development.** 3 credits.
Seminar covering theory and research on acquisition of language, including biological and environmental influences and constraints; research methods; role of parents; individual and cultural differences; links between language and other domains of development including cognitive, behavioral, social, and emotional; language and the brain; animal language; bilingualism; and atypical language development. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits graduate Developmental Psychology or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PSYC 617: Child Psychopathology.** 3 credits.
Intensive survey of major types of psychopathological disturbances of infancy and childhood. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 211 or 313 and 325.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances. Offered by Psychology (p. 443). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 636:** *Survey of Industrial Psychology*. 3 credits.
Intensive survey of historical and current issues in major areas of applied (nonclinical) psychology. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment limited to students in the MA Psychology or PHD Psychology programs.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 638:** *Training: Psychological Contributions to Theory, Design, and Evaluation*. 3 credits.
Focuses on applying learning principles derived from psychological research in development of training models and techniques of skill acquisition. Discusses research designs and empirical results appropriate to training evaluation. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 636 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment limited to students in the MA Psychology or PHD Psychology programs.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 639:** *Survey of Organizational Processes*. 3 credits.
Trains at conceptual/theoretical and empirical levels in organizational processes. Includes individual, interpersonal, intra-group, and intergroup phenomena as they exist in context of organizational settings. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 333 or 632.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment limited to students in the MA Psychology or PHD Psychology programs.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 640:** *Techniques in Industrial/Organizational Psychology*. 3 credits.
Skills-oriented course enabling students to construct instruments and perform functions critical to both researchers and practitioners in industrial/organizational psychology. Focuses on conducting job analysis interviews, developing and scoring task inventories, using critical incident and KSAO methods, and constructing performance appraisal and selection instruments. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 or Permission of Instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment limited to students in the MA Psychology or PHD Psychology programs.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 644:** *Methods for Social Research*. 3 credits.
Examines issues in basic and applied social science methodology including internal validity, causal generalization, and construct validity. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 530 and 611.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment limited to students in the MA Psychology or PHD Psychology programs.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**PSYC 645:** *Research Methods in Human Factors and Applied Cognition*. 3 credits.
Hands-on approach to selected current or classical human factors/ applied cognition research methods; exact methods announced in advance. Potential methods include cognitive task analysis, usability evaluation methods, critical incident analysis, reliability analysis, workload measures, verbal protocol analysis, and engineering models of human performance. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 530 and 611.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment limited to students in the MA Psychology or PHD Psychology programs.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
PSYC 646: Issues and Methods in Longitudinal Developmental Research. 3 credits.
Examines techniques for measuring developmental change across lifespan. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 611 and 612, 6 credits of graduate developmental psychology.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 648: Developmental Psychopathology. 3 credits.
In-depth look at emerging discipline of developmental psychopathology. Discusses specific disorders and contexts to illustrate how knowledge of normal development, deviant development, and maladaptive behavior illuminates principles underlying adaptive functioning. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: 6 credits graduate developmental psychology.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 652: Quantitative Methods II: Analysis of Variance. 3 credits.
Basic concepts in experimental design, fundamental assumptions in analysis of variance, and analysis of variance and covariance designs. Reviews multiple comparison tests. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 300 and either 304, 305, or 309.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PSYC 654: Naturalistic Methods in Psychology. 3 credits.
Theory and techniques involved in studying people in their natural environment. Primary emphasis on quasiexperimental designs and methods of systematic observation. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 300 and either 304, 305, or 309.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students in the MA Psychology or PHD Psychology programs.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 667: Behavior in Small Groups and Teams. 3 credits.
Theories, methods, and topics relevant to individual behavior in small group setting. Includes effects of individual on group, effects of group on individual, and interaction effects among individuals. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 231.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Psychology.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 668: Personality: Theoretical and Empirical Approaches. 3 credits.
Presents comprehensive overview of current theoretical and empirical approaches to personality. Emphasizes areas of special relevance to clinical, developmental, and industrial/ organizational psychology. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 324 (or equivalent) or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students in the MA Psychology or PHD Psychology programs.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 669: Social and Emotional Development. 3 credits.
Surveys theory and research relevant to development of social relationships, emotional expressiveness and regulation, aggressive and altruistic behaviors, sex roles, and morality. Emphasizes influences on such development, including parents, other adults, peers, siblings, and broader culture. Offered by Psychology (p. 443). May not be repeated for credit.
Recommended Prerequisite: Six hours of developmental psychology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 671: Role and Function of the School Psychologist. 3 credits.
Considers roles, functions of school psychologist in educational environment, including certification and ethical standards, issues, and trends. Notes: Open only to school psychology MA students, or by permission of instructor. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 673: Prevention, Intervention, and Consultation in Schools. 4 credits.
Examines theory and practice of behavior modification and consultation in school environment. Notes: Open only to practicing school psychologists and students in school psychology, or by permission of instructor. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 685: Cognitive Neuroscience. 3 credits.
Provides an overview of the neural basis of human mental functions. Uses neuroimaging (PET, fMRI, ERPs, TMS, etc.), computational, and information-processing methods to examine functions such as attention, memory, language, emotion, and decision making. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 701: Cognitive Bases of Behavior. 3 credits.
Surveys concepts in learning, cognitive, and affective processes, including theories and supporting data and their influences on behavior. Notes: Open only to degree students. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Adv Grad Studies in Sch Psych or Psychology.

Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 702: Biological Bases of Human Behavior. 3 credits.
Surveys biological bases of behavior, including such topics as neural conduction, role of specific neurotransmitters, cortical functioning, and brain disorders. Notes: Open only to degree students. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 703: Social Bases of Behavior. 3 credits.
Surveys social influences on behavior, including group processes, person perception, and attitude formation. Notes: Open only to degree students. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 704: Life-Span Development. 3 credits.
Surveys theories and research regarding lifespan development and personality formation. Notes: Open only to degree students. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: Admission to graduate program in psychology.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 709: The Measurement of Intelligence. 4 credits.
Administration, scoring, and interpretation of major infant, child, and adult intelligence tests, with emphasis on individual tests. Development of IQ tests, theories of intelligence, and current trends and developments
in intellectual assessment. Notes: Open only to school psychology MA student. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 617 or 822 and PSYC 320 or equivalent; permission of department.

**Recommended Corequisite:** PSYC 611.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**PSYC 710: Psychological Assessment.** 4 credits.
Study of major instruments used in clinical assessment and nature, problems, and predictive value; administration and scoring of major techniques for evaluation of personality; and principles of interpretation of these procedures. Notes: Open only to school psychology MA students. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 617, 709, 822, or 810: and permission of director of School Psychology Program.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**PSYC 722: Advanced Child Assessment.** 4 credits.
Problems involved in diagnostic assessment of children with various handicapping conditions such as learning disabilities, retardation, and emotional disturbances. Notes: Open only to school psychology MA or PhD students. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 709 and 710 or PSYC 810 and 811, and five intellectual assessments in the Psychology Clinic.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**PSYC 730: Practicum in Applied Psychology.** 1-6 credits.
Practical experience in organizational setting as assigned. Notes: PhD students may repeat course for a maximum of 15 credits; MA students for a maximum 6 credits. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 15 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major in Adv Grad Studies in Sch Psych or Psychology.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**PSYC 733: Issues in Personnel Psychology.** 3 credits.
Examines psychological literature on job analysis, job evaluation and compensation, performance appraisal, training, and EEOL selection issues. Methodological and psychometric issues in interpretation and evaluation of personnel psychology research receive particular attention. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 636 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students in the MA Psychology or PHD Psychology programs.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 734: Seminar in Human Factors and Applied Cognition.** 3 credits.
Emphasizes current research and application of human factors, ergonomics, applied cognition, and applied perception. Notes: May be repeated when topic is different. Offered by Psychology (p. 443). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** Six graduate credits in Human Factors and Applied Cognition or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**PSYC 737: Psychology of Human-Technology Interaction.** 3 credits.
Emphasizes current research and development in human-computer interaction, cognitive systems engineering, cognitive ergonomics, and cognitive engineering. Notes: May be repeated when topic is different. Offered by Psychology (p. 443). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** 6 graduate credits in human factors and applied cognition or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PSYC 739: Seminar in Industrial/Organizational Psychology.** 3 credits.
Rotating topics such as leadership theories and management development, and performance appraisal. Notes: Topics announced in advance. May be repeated when topic is different. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** PSYC 333 and 636, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students in the MA Psychology or PHD Psychology programs.
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

**PSYC 741: Psychology of Work Motivation.** 3 credits.
Examines psychological literature of need, cognitive, and reinforcement theories of motivation; organizational attachment (commitment, absenteeism, and turnover); job design and quality of work issues. Emphasizes methodological and psychometric issues in interpreting and evaluating work-motivation research. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 333 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students in the MA Psychology or PHD Psychology programs.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

**PSYC 750: School Psychology Practicum I.** 1 credit.
Practical experience in school psychology. Notes: Open only to school psychology MA students. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** Admission to school psychology concentration and PSYC 709.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

**PSYC 751: School Psychology Assessment Practicum II.** 2 credits.
Practical experience in school psychology. Notes: Open only to School Psychology MA students. Apply in writing for permission of department 60 days prior to beginning of semester. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** PSYC 750.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

**PSYC 754: Quantitative Methods III: Psychological Applications of Regression Techniques.** 3 credits.
Reviews psychological applications of regression techniques in variety of contexts including experimental, field, and survey settings. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 611 and 612.

**Registration Restrictions:**
Enrollment limited to students in the MA Psychology or PHD Psychology programs.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

**PSYC 756: Quantitative Methods IV: Multivariate Techniques in Psychology.** 3 credits.
Surveys multivariate statistical techniques as applied to psychological research. Emphasizes analysis of complex designs and interpretation of multivariate data analyses resulting from computer processing. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 611 and 612 or equivalent. PSYC 755 recommended.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

**PSYC 757: Advanced Topics in Statistical Analysis.** 3 credits.
Focuses on noncognitive individual differences that predict performance. Published work discussed in seminar format with emphasis on conceptual development, methodological adequacy, and new directions. Notes: May be repeated for credit when topic is different. Offered by Psychology (p. 443). May be repeated within the degree.

**Recommended Prerequisite:** PSYC 754.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

**PSYC 768: Advanced Topics in Cognitive Science.** 3 credits.
Emphasizes current research in cognitive science. Topics may include computational cognitive models, nature of expertise, diagrammatic reasoning, display-based problem solving, visual attention, decision making, goal-based versus event-based cognition, and situated action. Notes: May be repeated when topic is different. Offered by Psychology (p. 443). May be repeated within the term for a maximum 12 credits.

**Recommended Prerequisite:** PSYC 530 or 701.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

**PSYC 780: Applied Developmental Psychology.** 3 credits.
Examines how developmental theory, knowledge base, and methodology can be used to promote health and welfare of individuals across lifespan. Topics include contemporary social issues and child development, research in applied settings, developmental assessment and intervention, and program evaluation. Offered by Psychology (p. 443). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 704 or 3 credits of other graduate developmental psychology courses and permission of instructor.
Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 790: School Psychology Internship. 3-6 credits.
Supervised field experience of one school year. Advanced school psychology student functions as full-time staff member in school system. Student completes paper on practical research project involving alternative school psychology role in school system. Notes: Enrollment is for total 9 credits (thesis option) or 12 credits (nonthesis option) in increments of 3 credits according to placement. Students enrolled in PSYC 799 are not required to complete the practical research project. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Completion of required courses in school psychology and permission of program coordinator.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

PSYC 792: Psychology Practicum. 1-6 credits.
Supervised experience working in applied, school, or agency settings. Notes: For School Psychology, interested students must apply to area coordinator 60 days before registration. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to psychology graduate program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

PSYC 794: Developmental Assessment. 1-6 credits.
Introduces considerations and methods needed for evaluating young children (ages two - six). Focus on the skills necessary for formulating, conducting, and reporting comprehensive developmental evaluations. Emphasizes evaluation of preschool children and includes information relating to infants, as well as older children functioning at lower developmental levels. Offered by Psychology (p. 443). May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: Admission to applied developmental psychology program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PSYC 798: Thesis Proposal. 1-6 credits.
Work on a proposal for master’s thesis. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Permission of program coordinator.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

PSYC 799: Master’s Thesis. 1-6 credits.
Research on approved master’s thesis topic under direction of thesis committee with approval of chair. Offered by Psychology (p. 443). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

800 Level Courses

PSYC 810: Psychological Assessment I. 4 credits.
First of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Laboratory, Lecture

PSYC 811: Psychological Assessment II. 4 credits.
Second of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: PSYC 810.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Laboratory

PSYC 822: Scientific Foundations of Clinical Psychology I. 3 credits.
First of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Laboratory, Lecture
PSYC 823: Scientific Foundations of Clinical Psychology II. 3 credits.
Second of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions. Notes: Open only to clinical psychology PhD students. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

PSYC 830: History, Systems, and Theories of Personality and Psychotherapy. 3 credits.
Review of history, systems, and theories of clinical psychology emphasizing traditional theories of personality and psychotherapy. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: Admission to doctoral concentration in clinical psychology.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

PSYC 833: Social And Cognitive Foundations Of Clinical Psychology. 3 credits.
Review of theory and research in social psychology (particularly social cognition) relevant to understanding psychological adjustment, adjustment problems, and clinical interventions. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

PSYC 850: Teaching Practicum in Psychology. 1 credit.
Workshop in effective teaching of selected undergraduate psychology courses. Required of and designed to guide graduate teaching assistants assigned to teach undergraduate course (not a lab) for first time. Topics include course planning, syllabus development, lecture resources, effective lecturing skills, use of audio visuals, leading of classroom discussion, construction and grading of exams, student writing, instructional technology, and handling of student questions and problems. Individual critiques of teaching. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

PSYC 860: Introductory Helping Skills and Motivational Interviewing. 3 credits.
Teaches fundamental interviewing skills and the theory, research, and practice of motivational interviewing. Offered by Psychology (p. 443). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

PSYC 861: Cognitive Behavioral Therapy for Youth. 3 credits.
Teaches the selection, evaluation, and application of empirically supported interventions for children and adolescents with a focus on cognitive-behavioral interventions. Instruction in evidence based assessments, cognitive-behavioral case conceptualization, outcome evaluation, and consultation. Supervision of cognitive-behavioral therapy with youth. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

PSYC 862: Cognitive Behavioral Therapy for Adults. 3 credits.
Teaches the principles of cognitive-behavioral theory, conceptualization and psychotherapy techniques for psychological problems with adults. Supervision of cognitive-behavioral therapy with adults. Offered by Psychology (p. 443). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to doctoral concentration in clinical psychology and permission of director.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

PSYC 863: Ethical and Professional Issues in Clinical Practice. 3 credits.
Examines ethical principles and professional guidelines to help develop ethical decision-making and behavior to meet the appropriate standards of care in providing clinical services. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 443). May not be repeated for credit.

Recommended Prerequisite: Admission to doctoral concentration in clinical psychology and permission of director.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar
PSYC 885: Clinical Externship. 0 credits.
Individual placements in psychological assessment or psychotherapy service settings. Notes: Open only to clinical psychology PhD students in the third year or more of training. Offered by Psychology (p. 443). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Schedule Type: Internship

PSYC 890: Seminar in Professional Psychology. 1-3 credits.
Each section limited to students in one concentration of MA or PhD program. See area coordinator for requirements for section in each track. Offered by Psychology (p. 443). May be repeated within the term for a maximum 3 credits.

Recommended Prerequisite: Student in psychology.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

PSYC 892: Special Topics in Psychology. 1-6 credits.
Selected topics reflecting specialized areas in psychology. Notes: Open only to PhD students. Content varies. May be repeated when topic is different. Offered by Psychology (p. 443). May be repeated within the term for a maximum 17 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

PSYC 897: Directed Reading and Research. 1-3 credits.
Independent reading on topic agreed on by student and faculty member. Notes: PhD students in the clinical psychology concentration may not take this course for elective credit. May not be repeated for credit towards a degree by students who also register for PSYC 799. Offered by Psychology (p. 443). May be repeated within the term.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

900 Level Courses

PSYC 998: Doctoral Dissertation Proposal. 1-6 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of PSYC 998 and 999 may be applied to doctoral degree requirements. Offered by Psychology (p. 443). May be repeated within the degree.

Recommended Prerequisite: PSYC 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Public Administration (PUAD)

500 Level Courses

PUAD 502: Administration in Public and Nonprofit Organizations. 3 credits.
Graduate introduction to field of public administration. Focuses on structure, functions, and processes of executive branch agencies of national, state, and local governments. Emphasizes nonprofit organizations as co-actors with government in policy-making/policy implementation nexus. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 504: Managing in the International Arena: Theory and Practice. 3 credits.
Theoretical and empirical examination of international system that both affects and is affected by decisions, behaviors, and subsystems of state and nonstate (organizational) actors. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 505: Introduction to Management of Nonprofits. 3 credits.
Examines nonprofit organizations and their role in contemporary society. Explores unique aspects of nonprofits including voluntary governance, tax-exempt status, nonprofit corporation law, accounting practices, fund raising, finance, and management of volunteers. Emphasizes board/executive relationship, and value of establishing and maintaining nonprofit organization’s reputation. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUAD 509: Justice Organizations and Processes.** 3 credits.
Examines structures, practices, and performance of organizations involved in administration of justice (law enforcement, courts and legal agencies, corrections, regulatory and related agencies, private organizations) Explores applicability of various theoretical perspectives on organizational processes, and considers extent to which processes operate as a system. Focuses on comparing formal goals and system expectations to actual practice. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to CRIM 509.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUAD 511: Problem Solving and Data Analysis I.** 3 credits.
Techniques, skills for public managers to solve policy-related problems or analyze policy-related data. Focuses on problem definition, research design, and problem solving under conditions of uncertainty in public sector. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to GOVT 511, GOVT 711, PUAD 611, PUBP 511.

**Registration Restrictions:**
Required Prerequisite: minimum score of 1 in 'Statistical Screening Exam'.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUAD 520: Organization Theory and Management Behavior.** 3 credits.
Considers behavior in context of public organization, and consequent changes required in management. Focuses on such issues as perception, attitude formation, motivation, leadership, systems theory, communication and information flow, conflict theory, and decision theory. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to PUAD 620.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**PUAD 540: Public Policy Process.** 3 credits.
Processes of making public policy, including detection of public issues, consideration of alternatives, and adoption and implementation of solutions. Highlights major actors in policy process, and environment within which they work. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to PUAD 640.

**Recommended Prerequisite:** PUAD 502.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**600 Level Courses**

**PUAD 612: Problem Solving and Data Analysis II.** 3 credits.
Techniques and skills for public managers to solve policy-related problems or analyze policy-related data. Focuses on data gathering and analysis, use of computers, systems theory and analysis, and operations research. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to GOVT 712, PUBP 705.

**Registration Restrictions:**
Required Prerequisites: PUAD 511\(^B\), GOVT 511\(^B\) or PUBP 511\(^B\).

Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUAD 613: Economic Analysis in Public Administration.** 3 credits.
Covers major economic issues about role of markets and government in global world. Applies fundamental economic concepts such as cost benefit analysis to public sector. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: PUAD 511\(^B\), GOVT 511\(^B\) or PUBP 511\(^B\).

Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUAD 615: Administrative Law.** 3 credits.
Covers law as guiding and controlling force in public-sector operations. Includes application of legal processes to administrative practices.
Managing Government Contracting. 3 credits.
Explores unique management and administrative challenges of providing public goods and services through contracts. Examines debates over privatization, and explores tools managers need to address unique accountability challenges associated with this governance tool. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Lecture

PUAD 623: Managing Government Contracting. 3 credits.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Lecture

PUAD 622: Program Planning and Implementation. 3 credits.
Practical exploration of implementing public law in American federal system. Studies construction of organizational apparatus, development of operational plans, and systems of control and evaluation necessary to implement government programs. Emphasizes coordinating tasks and resources required for effective program implementation. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Lecture

Major management theories applicable to American federal system. Emphasizes organization, structure, and operations. Examines relationship of theories to management practices in contemporary American administration. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Lecture

PUAD 620: Higher Education Law. 3 credits.
Analyzes legal issues confronting higher education: governance, faculty matters, and student issues. Examples include due process, freedom of speech, and privacy. Reviews key constituents in higher education-students, faculty, administrators, board of trustees, and parents -and how their roles are changing. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Seminar

PUAD 625: Public and Private Partnerships. 3 credits.
Emphasizes entrepreneurial efforts where governments, nonprofit organizations and private companies establish goals and combine resources and talents. Issues of efficiency, accountability, and democratic responsiveness will be examined. Various tools for promoting and implementing such partnerships will be explored. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Lecture

PUAD 626: Consulting Management. 3 credits.
Explores the consulting industry, changes in the industry and future expectations of consulting as a career. Examines different sectors of consulting such as HR, IT, Operations, Marketing, Succession Planning, Organizational Consulting, Knowledge management, Non-profit and health care and government consulting. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Seminar

PUAD 624: Organizational Consulting. 3 credits.
Explores the consulting industry, changes in the industry and future expectations of consulting as a career. Examines different sectors of consulting such as HR, IT, Operations, Marketing, Succession Planning, Organizational Consulting, Knowledge management, Non-profit and health care and government consulting. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Lecture

PUAD 625: Higher Education Law. 3 credits.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Lecture

PUAD 624: Public and Private Partnerships. 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Lecture

PUAD 623: Managing Government Contracting. 3 credits.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Schedule Type: Lecture

PUAD 622: Program Planning and Implementation. 3 credits.
PUAD 630: Emergency Planning and Preparedness. 3 credits.
Provides an understanding of the issues associated in developing plans and policies to prepare for disasters, both natural and man made. Overview of nature of challenges posed by different kinds of disasters; discussion of regulatory requirements, sample plans, equipment requirements, collateral and mutual aid support agreements, and methods for testing and updating plans. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 631: Disaster Response Operations and Recovery. 3 credits.
Explores the principles and practices that promote effective disaster response operations and management. Examines nature of disasters, models for response operations in the United States and roles and responsibilities of various emergency management-related organizations. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 632: Terrorism: Theory and Practice. 3 credits.
Introduces students to the subject of terrorism including the history and evolution of terrorism, case studies of key terrorist groups, the current nature of the terrorist threat, and counterterrorism strategies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 633: Hazard Mitigation Policy. 3 credits.
Examines the complex interplay and policy approaches to hazard prevention and protection of known hazards in terms of land use, zoning, infrastructure, and building code management. Focuses on understanding the relative roles of proactive policy design and implementation at the federal, state, and local levels of government. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 634: Management of International Security. 3 credits.
Examines theory and practice of managing international security. Emphasizes interplay of organizational structure and bureaucratic dynamics in international context. Presents theory and practice of crisis management, and coordination and comparison of security methods and techniques. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 635: Emergency Preparedness: Interagency Communication and Coordination. 3 credits.
Considers complex relationships within governments and across sectors and levels of government for effective emergency management in planning, response, recovery, and mitigation phases. Explores intergovernmental management and network management theories and research to understand the nature of interorganizational problems and potential models for collaboration. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 636: The NGO: Policy and Management. 3 credits.
Explores unique aspects of nonprofit organizations operating in international environments, particularly in relief and development work. Examines relationship between NGO and U.S. and foreign governments. Covers international philanthropy; cross-cultural understanding; and key managerial concerns such as communications, planning, human resource management, control, group process, and project evaluation. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
PUAD 637: Managing Homeland Security. 3 credits.
Focuses on the Department of Homeland Security and will cover the statutory law that provides the foundation for the department, the resources appropriated to the department, the determination of strategy and priorities, the development of operational capacity, and other challenges associated with top-level (secretarial) management of the department and its principal bureaus. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 642: Environmental Policy. 3 credits.
In-depth examination of environmental policy making. Examines U.S. efforts from 1970 to present to mitigate pollution of nation’s air, land, and water; and addresses issues of global concern including biodiversity loss, ozone depletion, and climate change. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to EVPP 642, PUAD 742.

Specialized Designation: Green Leaf Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 644: Public Policy Models. 3 credits.
Approaches to modeling policy problems. Includes analysis and comparison of dominant paradigms in policy sciences. Reviews assumptions and implications of different models and their utility for analysis, implementation, and evaluation. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUAD 540.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 645: Policy Analysis. 3 credits.
Introduces concepts and techniques for formal policy analysis, development of skills in applying policy analysis techniques through case studies, and exploring legitimacy and utility of policy analysis. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to PUAD 741.

Registration Restrictions:
Required Prerequisites: or GOVT 511B or PUBP 511B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 646: Program Evaluation. 3 credits.
Practical exploration of assessment techniques used in studying results of public programs and policies, including evaluation of implementation strategies and impacts. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to PUAD 742, PUBP 713.

Registration Restrictions:
Required Prerequisites: PUAD 511B, GOVT 511B or PUBP 511B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 649: Advocacy and Lobbying. 3 credits.
Explores how nonprofit organizations advocate and lobby for social change. Considers the different steps in the advocacy process and the broad range of strategies used by non profits seeking to influence public policy. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 651: Virginia Politics, Policy, and Administration. 3 credits.
Cultural, demographic, constitutional, and socioeconomic environment of public administration in Virginia. Covers governmental agencies, legislative functions, executive leadership, staff agencies, state-local relationships, intrastate regionalism, administrative customs peculiar to
Virginia. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 502.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUAD 652:** Nonprofit Leadership and Change. 3 credits.
Examines the principles of leadership and the process of change within the context of the nonprofit sector and its role in the community. Looks at current changes and challenges within the nonprofit sector and their effect on the sector and society as a whole. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 502 or 505.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**PUAD 654:** The Community, Marketing, and Public Relations. 3 credits.
Focuses on marketing concepts and communications issues of nonprofit organization as they apply to identifying market, ability to formulate public image and reputation, and capability to raise money and retain membership or volunteers. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 502 or 505.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUAD 655:** Philanthropy and Fund Raising. 3 credits.
Examines history of philanthropy and relationship to nonprofit, government, and commercial sectors in United States. Studies principles of financial development including governance, development of organizational capacity, and identification of funding sources and donor motivations. Provides understanding of fund raising techniques that generate financial support for nonprofits, and context in which these methods may be used. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 502 or 505.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUAD 657:** Association Management. 3 credits.
Practical application of management theory in context of professional and trade associations. Covers legal structures, tax-exempt status, and general organizational structure. Topics include volunteer management, budgeting and accounting practices in associations, fund raising, media relations, media and event planning, and human resource management. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 502 or 505.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUAD 658:** Social Entrepreneurship and Nonprofit Enterprise. 3 credits.
Explores innovative approaches for addressing social problems. Organized around the steps in the entrepreneurial process: identifying social needs, formulating program strategies, mobilizing resources, managing growth tracking results, and maximizing impact. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 502 or 505.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**PUAD 659:** Nonprofit Law, Governance, and Ethics. 3 credits.
Overview of nonprofit governance as well as basic contract, labor, and tax law issues within nonprofit corporation law. Covers relationship between board and executive, and ethics topics typical to nonprofit organizations such as self-dealing, fiduciary responsibility, and human resource issues. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 502 or 505.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.
that play role in budget development, appropriation, implementation, and auditing. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 664: Nonprofit Financial Management. 3 credits.
Covers nonprofit financial management with attention to conflicts between social mission and financial entrepreneurship. Topics include mission, budgeting, fund raising, commercial programs, investments, accounting and information systems, financial reporting, auditing, and internal control. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: Admission to MPA, certificate in association management, or certificate in nonprofit management.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 670: Human Resources Management in the Public Sector. 3 credits.
Overview of range and complexity of functions, responsibilities, and expectations of human resource staff and line managers in public sector. Focuses on human resources management in context of political, legal, and managerial systems. Human resource functions, such as hiring, performance, and development, are also presented. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUAD 502.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 671: Public Employee Labor Relations. 3 credits.
Public employee labor relations, including unionization, representational elections, bilateral policy negotiations, administration of agreements, management rights, union and membership security, strike issue and grievance procedures, impact on public administration, and assessment of future developments. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 672: Human Resources Reforms for Public Administration. 3 credits. Explores recent reforms in human resources management in federal, state, and local governments. Covers pay for performance systems, flexible assignment patterns, incentives for productivity, work-life balance, job design, and changes resulting from higher levels of contracting for government programs. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 679: Leadership Skills for the 21st Century. 3 credits. The class is premised on the belief that an individual's leadership capabilities can be enhanced by better understanding and practicing day-to-day leadership skills which can be used in the workplace. The academic literature on leadership will also be discussed. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 691: Justice Program Planning and Implementation. 3 credits. Covers development and construction of organizational systems to implement government policies and programs. Emphasizes dealing with real-world challenges, constraints, and opportunities to create feasible plans, performance-monitoring systems, and secure multiple agency coordination. Applications of planning and implementation principles to actual projects in justice agencies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to CRIM 691.

Recommended Prerequisite: PUAD 502 and 509.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

700 Level Courses

PUAD 700: Ethics and Public Administration. 3 credits. Topics of ethical dimensions including constitutionalism, democratic values and traditions, standards of conduct and ethics, and conflicting values of public officials and social equity of public programs. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions: Required Prerequisites: (PUAD 502B) and (PUAD 511B or 611B) and (PUAD 520B or 620B) and (PUAD 540B or 640B). B Requires minimum grade of B.

Enrollment is limited to students with a major in Nonprofit Management or Public Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 701: Cross-Cultural and Ethical Dimensions of International Management. 3 credits. To be taken in final two semesters of MPA program. Examines normative issues in management of programs in international context. Emphasizes interplay of cultural, sociopolitical, legal, and ethical factors, and management and policy problems arising from conflicting goals, values, and inequities among nations and regions. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: To be taken during final semester of student's MPA program.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
PUAD 703: Third-Party Governance. 3 credits.
Examines design and management of government programs relying on other levels of government and private sector for delivery, with focus on such governmental tools as contracts, grants, loans, regulation, and tax credits. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PUAD 502*) and (PUAD 511* or 611* and (PUAD 520* or 620*) and (PUAD 540* or 640*). Requires minimum grade of B.

Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 720: Performance Measurement. 3 credits.
Methods used by managers to systematically assess performance. Includes practical tools such as focus groups, survey research, cost/benefit analysis, benchmarking, and comparison methods for revealing outcomes and impacts. Prepares managers to use information more effectively in developing programs and services and formulating policy, and covers reporting techniques to communicate performance results. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 727: Seminar in Risk Assessment and Decision Making. 3 credits.
Examines decision making under risk and uncertainty. Readings introduce major intellectual perspectives on topic and are drawn from variety of disciplines, including biology, economics, law, and psychology. Emphasizes making actual decisions under uncertainty. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: 12 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 729: Issues in Public Management. 3 credits.
Current issues in management of public organizations in contemporary American government. Includes practical applications of theories and analysis to managerial problems. Emphasizes competence in improving management in selected government settings. Notes: May be repeated for credit when topic is different. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term.

Recommended Prerequisite: PUAD 502 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 730: Professional Development Workshop. 1-3 credits.
Explores external and internal factors reshaping public and nonprofit organizations. Investigates processes and techniques that managers and staff can use to respond to rapid environmental change. Emphasizes case studies and application of techniques and processes. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 731: Homeland/Transportation Security Administration. 3 credits.
Examines the terrorist attacks of 9/11, the vulnerabilities of the aviation security system at that time, reasons why elected leaders and officials did not act more decisively to improve security before 9/11, and the policy and administration responses to the 9/11 attacks, including the creation of the Transportation Security Administration and the Department of Homeland Security. Includes the development of radical Islam and the rise of Osama bin Laden and Al Qaeda. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 738: Issues in International Security. 3 credits.
Examines issues of topical interest in general area of international security. Possible topics include nuclear strategy, disarmament, American defense policy, and international terrorism. Notes: May be repeated for credit when topic is different. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term.

Recommended Prerequisite: PUAD 504 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUAD 739: Issues in International Management. 3 credits.
Examines significant current issues in public international management. Emphasizes practical applications of theories and analysis of problems in public international management arena, and competence in improving management practices in international management settings. Notes: May be repeated for credit when topic is different. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term.

Recommended Prerequisite: PUAD 502 and 9 graduate credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
**PUAD 749: Issues in Public Policy.** 3 credits.
Examines significant issues in public policy in contemporary American government. Emphasizes practical applications of theories and analysis to policy problems, and competence in improving policy analysis in selected government settings. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term.

**Recommended Prerequisite:** PUAD 502 and 9 graduate credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUAD 750: Federalism and Intergovernmental Relations.** 3 credits.
Examines broad trends in governance, including theory and practice of federalism, with particular focus on intergovernmental relations and changing roles of federal, state, and local governments. May include privatization, devolution, mandating, regulatory reform, and comprehensive federalism reform. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 502 and 9 graduate credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**PUAD 758: Environmental Politics.** 3 credits.
Evolution and current state of environmental policy making. Includes history, strengths, and weaknesses of key U.S. environmental laws and central international environmental agreements. Introduces analytical approaches, including cost-benefit and risk analysis. Discusses economic incentives and normative considerations. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to EVPP 758.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUAD 759: Issues in Local Government Administration.** 3 credits.
Management and policy formulation in American local governments. Addresses environments, institutions, and actors involved. Examines contemporary problems such as education, criminal justice, transportation, land use, economic development, and environmental impact. Notes: May be repeated with different topic. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term.

**Recommended Prerequisite:** PUAD 502 and 9 graduate credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUAD 769: Issues in Public Financial Management.** 3 credits.
Current issues in budgeting and financial management in contemporary American government. Emphasizes practical applications of administration and management issues and policy choices at all levels of government. Notes: May be repeated for credit when topic is different. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 15 credits.

**Recommended Prerequisite:** PUAD 502 and 9 graduate credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUAD 781: Information Management: Technology and Policy.** 3 credits.
Examines challenges that organizations encounter as they move to a more technologically sophisticated information and communication environment. Studies organizational policy issues evolving from new technologies, including privacy, security, authentication, content control, intellectual property, and taxation, focusing on effectiveness of previous policy solutions and analyzing proposed solutions. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 680 or Permission of Instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUAD 790: Justice Organization and Administration.** 3 credits.
Examines organization and administration of justice and security organizations. Covers organization theory and behavior as applied to justice and security organizations. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to CRIM 740.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**PUAD 791: Justice Program Evaluation.** 3 credits.
Practical exploration of assessment techniques used to study need for and consequences of justice programs and policies. Covers needs assessments, process, and impact evaluations. Includes design and measurement issues for assessing performance of justice programs, and interpreting and presenting results. Emphasizes designing program evaluation for justice agency. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to CRIM 781.

**Recommended Prerequisite:** PUAD 511 and 612.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar
PUAD 792: Advanced Seminar in Applied Public Administration Research. 3 credits.

An applied research experience. Students will apply skills in problem definition, issue framing, collection of data and information, interviewing, selection and analysis of alternatives, presentation of findings and recommendations, design of implementation tools and administrative procedures and organizations, report writing and oral presentation to policymakers. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: 30 PUAD credits and permission of instructor.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 793: Conduct of Justice Organizations at the Street Level. 3 credits.

Explores how justice organizations behave at lowest levels, where service is delivered and discretion is greatest. Includes suspects, victims, witnesses, police officers, prison guards, parole officers, attorneys, and others who interact with the justice system. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to CRIM 741.

Recommended Prerequisite: CRIM 740/PUAD 790 or permission of instructor.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 794: Internship. 3 credits.

Open only to MPA students. Contact internship coordinator one semester before enrollment. Credit determined by the department. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: 12 PUAD credits or permission of instructor. Open only to MPA students. Enrollment is controlled. See http://pia.gmu.edu/internships for registration application.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

PUAD 795: Leadership in Justice and Security Organizations. 3 credits.

Examines leadership theories, and explores fundamental questions about leadership in justice and security organizations today. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: CRIM 740, PUAD 790, or permission of instructor.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Independent Study

800 Level Courses

PUAD 796: Directed Readings and Research. 1-3 credits.

Reading and research on specific topic under direction of faculty member. Written report is required; oral exam covering research and report may be required. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: 18 PUAD credits and Permission of Instructor.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 797: Changing Justice and Security Organizations. 3 credits.

Examines challenges of changing justice organizations, how changes have been successfully and unsuccessfully implemented in the past, and what change strategies appear to be most effective. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to CRIM 743.

Recommended Prerequisite: CRIM 740, PUAD 790, or permission of instructor.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUAD 821: Doctoral Seminar in Theories of Organization and Bureaucracy. 3 credits.

Examines key issues in organization theory and behavior. Issues include organization design; interorganizational coordination, intelligence and decision-making systems; leadership and motivation theories; and theories or organizations as agents of political and social change. Uses case studies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUAD 520 or equivalent, or permission of instructor.

Registration Restrictions: Enrollment is limited to Graduate level students.

Schedule Type: Seminar

PUAD 840: Research Seminar in Policy Governance I. 2-4 credits.

Surveys major institutions that formulate and implement public policy in United States. Examines translation of public preferences into public policy, and decisions about which societal and economic functions are most appropriately carried out by governments, and which are best accomplished by private institutions and individuals. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to PUBP 840.
Recommended Prerequisite: Admission to the doctoral program or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

PUBP 502: Governance and Policy Processes. 1-4 credits. Assesses governance processes in public and private organizational settings on the basis of economic and political standards such as efficiency, accountability, and responsiveness to societal needs in a rapidly changing global environment. Using cases, simulations, and fieldwork, students learn to evaluate the quality of institutional governance in specific venues and appraise implications for public policy. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Recommended Prerequisite: Admission to doctoral program.

Schedule Type: Lecture

PUBP 503: Culture, Organization, and Technology. 1-4 credits. Focuses on the influence of culture in societal, political, economic, and technological processes, nationally and internationally. Culture is seen as dynamic and interactional. Using case studies, students learn pertinent approaches to the study of culture, from the analysis of organization and social networks to that of belief systems and identities. Students also develop practical skills in observation, participation, and intervention. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 504: Grand Strategy. 3 credits. Uses the traditional tools of history and theory to analyze grand strategy. The goal is to gain an in-depth understanding of effective and ineffective grand strategies so as to inform U.S. policy, or that of other countries. Analyzing the strategic implications of policy-making, it takes a long view of effective statecraft, using current means to achieve large ends. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 505: Politics and Practice of International Security Policy. 3 credits. Drawing on current and historical cases, this course develops knowledge, strategies, and skills required to transform policy ideas and proposals for credit.

Recommended Prerequisite: Policy and Organizational Analysis.
into implemented policy on issues of international security. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Schedule Type:** Lecture

**PUBP 506: Ethics and the Use of Force.** 3 credits.
Explores the relationship between weapons and warfare and the ethical issues raised by the use of force, both in past conflicts and in a current and future context. Examines the relationship between emerging technology enabled weapons and the just war tradition. Studies relevant theories of war and selected international laws and conventions governing war and weapons. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 511: Statistical Methods in Policy Analysis.** 3 credits.
Introduces students to the range of quantitative methods used for public policy analysis. Provides a broad foundation to prepare students for doing statistical analysis on the master's level. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to GOVT 511, PUAD 511.

**Registration Restrictions:**
Required Prerequisite: minimum score of 1 in 'Statistical Screening Exam'.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 533: Topics in Public Policy Processes.** 1-3 credits.
Focuses on selected topics in public policy processes and procedures on an introductory level. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 550: Topics in Public Policy.** 1-3 credits.
Focuses on selected topics in public policy not covered in fixed-content public policy courses. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

### 600 Level Courses

**PUBP 601: Theory and Practice of Regional Economic Development.** 3 credits.

Helps students develop real-world skills to be a successful economic developer, consultant, policymaker, or change agent in this rapidly changing environment. Designed to provide a framework for understanding regional and national economic growth and prosperity, and provide tools to conduct concrete analyses to help decision makers, clients, and constituents make better-informed decisions. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 602: Regional Economic Development: Strategies and Applications.** 3 credits.

Introduces range of methods for tracking the performance of metropolitan economies, identifying opportunities for economic development, and assessing effectiveness of public and private investments designed to achieve region's economic growth. Also examines strategies and case results of economic development plans and projects. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 605: State and Local Government Policy and Economic Development.** 3 credits.

Examines state and local government policies and processes to promote local economic development, including institutional arrangements, financing and tax incentives, nonfinancial strategies and approaches, land use, environmental and other relevant regulations, and relationships across government and nongovernmental organizations. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

---

**PUBP 610: Organizations, Management, and Work: Theory and Practice.** 2 credits.

This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 611: Critical Infrastructure Protection in Theory, Policy and Practice.** 2 credits.

Introduces critical infrastructure protection as a policy field, examines its institutional framework, and considers its foundations in political and economic theory. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 650: International Conflict and Crisis Response.** 3 credits.

First course of two-semester sequence on international peace operations. Focuses on emerging theory of peace operations, including peacemaking activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militarys. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 651: Peace and Stabilization Operations.** 3 credits.

Second course of two-semester sequence on international peace operations. Focuses on application of emerging theory of peace operations, including peace-making activities of United Nations and other diplomatic initiatives; peace-building activities of international...
organizations and nongovernmental organizations; and peace support
provided by international militaries. Several guest lectures from past and
present peace operations provide practical information for future staff of
peace operations. Offered by Schar School of Policy & Govt (p. 906). May
not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 652: Strategies for Peace and Stabilization Operations. 4 credits.
This course concentrates on the institutional mindsets, characteristics,
and behaviors of the actors involved in peace operations. Readings, role-
plays, and research underpin the class. Special attention is also paid to
developing students’ graduate-level research and writing skills. Offered by
Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 653: Interagency Operations in Conflict and Post-Conflict Settings. 3
credits.
Examines the U.S. Interagency process as it relates to peace operations.
Various departments and agencies maintaining equities in overseas
missions will be identified and explored. Case studies highlight instances
of success or failure in application of a "whole-of-government" approach
to intervention. Examines significant problems hampering Interagency
cooperation today and recent policy directives, frameworks, and
initiatives developed to address this situation. Offered by Schar School of
Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 654: Analysis for Peace Operations. 3 credits.
Examines theories of human behavior and social systems as they
relate to conflict at the interpersonal, community, and international
level. The class provides a foundation of academic thinking about the
role of conflict in violent and peaceful social change. At the end of the
course, students should be able to think systematically and critically
about conflict, and engage in practical application of conflict analysis
techniques to peace operations. Offered by Schar School of Policy & Govt
(p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

700 Level Courses

PUBP 700: Theory and Practice in Public Policy. 1-4 credits.
Theories of public policy emphasizing historical intellectual development,
and role theory and ethics may play in public policy making. Assumptions
made by policy professionals examined against broad range of
philosophical, social, political, and economic imperatives affecting public
policy environment. Offered by Schar School of Policy & Govt (p. 906).
May not be repeated for credit.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
PUBP 702: *Comparing Political Institutions*. 3 credits.
Examines political institutions and processes from comparative and international perspectives, and role of political environment in economic trade and investment policy decisions. Examines how generalizability, objective knowledge and understanding, and nature of evidence impact public policy. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Graduate-level introduction to statistical methods and techniques used in policy sciences. Topics include descriptive statistics, sampling and probability theory, graphical data display, estimation and significance testing, contingency tables, bivariate regression and correlation, and multiple regression, with introduction to computer based statistical analysis. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Covers classical regression methods and their application to public policy analysis. Includes simple and multiple regression, analysis of variance, time series, and simultaneous equation structural models. Problems associated with applications include specification error, multicollinearity, qualitative variables, heteroskedasticity, serial correlation, and structural identification. Course develops analysis skills by discussing sample empirical studies and models using advance statistical computer software. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to PUBP 612.

**Registration Restrictions:**
Required Prerequisites: PUBP 511B, GOVT 511B or PUBP 511B.

B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Studies analytical concepts and techniques used in public-sector overall budgetary and specific project decision making. Includes conceptual concerns and quantitative techniques used in benefit-cost analysis, capital budgeting, financial analysis, and various specialty applications, such as economic and fiscal impact analysis. These are all interrelated by the desire to measure the benefits versus the costs of various alternative public decisions. Attention is given to measuring results over time and the use of present value techniques. Assesses strengths and weaknesses of analytical techniques. Emphasizes the process of defining the appropriate stakeholders affected by decisions, the sources and quality of data, and the rigor of conducting studies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

PUBP 709: *Professional Writing for Policy*. 3 credits.
Professional Writing teaches effective writing for the professions. The course includes the fundamentals of writing – grammar, word usage and paragraphing – and instruction in selected genres, including news stories, editorials, and research writing. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Enrollment limited to students in the Schar School of Policy and Government.

**Schedule Type:** Lecture

PUBP 710: *Topics in Public Policy*. 1-3 credits.
Focuses on selected topics in public policy not covered by fixed-content public policy courses. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 15 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Introduces analytical models and analysis to support decisions. Primary emphasis on understanding techniques of operation research and management science, cost benefits, and cost effectiveness for public decision making. Using mathematical details of algorithms to solve models not emphasized except as it contributes to understanding reliability and validity of methodologies. Through case studies and computer solutions, offers appreciation of when, where, and how to use models. Students demonstrate their understanding of techniques by applying them to term research project on government program. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

PUBP 713: *Policy and Program Evaluation*. 3 credits.
Examines how programs of public agencies are proposed, established, operated, and evaluated. Covers role of research in program evaluation process, including alternative methodologies for policy assessment. Considers demand estimation, supply and pricing of publicly produced goods and services, and role of subsidies in nonmarket environments.
Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to PUAD 646.

**Registration Restrictions:**

**Required Prerequisites:** PUBP 511\(^b\), GOVT 511\(^b\) or PUAD 511\(^b\).

\(^b\) Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 714:** Topics in Transportation Policy, Operations, and Logistics. 1-3 credits.

Issues in transportation policy, operations and logistics in United States and abroad. Includes practical applications of theories and analysis to policy problems, and emphasizes competence in improving policy in selected domains. May be taken up to three times and simultaneously for sections addressing different subject matter. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 9 credits.

**Registration Restrictions:**

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 715:** Introduction to Transportation Systems. 3 credits.

Transportation is a service that contributes substantially to well-being of advanced economies. Resource requirements and byproducts of transportation also pose sobering environmental challenges for society. Course examines history and development of transportation systems; contribution to and impact on society; institutions and practices that govern planning, design, construction, operation, maintenance, and retirement from service; and policy and managerial challenges, and tools and techniques for addressing them. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 716:** Transportation Operations and Logistics. 3 credits.

Provides survey of issues, methods, problems, and strategies. Topics include origins of logistics, industry structure, pricing, underwriting, rate making, compliance, inventory effects, just-in-time inventory management (JIT), materials requirements planning (MRP), customer service and order processing operations, sales functions and operations, dispatch and fleet manager functions and operations, rate-setting among three parties, typical electronic and paper document flow, routing and scheduling, route selection, satellite load tracking through dispatch-customer web inquiry, role of ITS in route selection, toll system use, congestion, training activities, and logistics markets. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 717:** Analysis for Transportation Managers. 4 credits.

Introduces basic methods of transportation analysis and evaluation relating them to policy framework. Covers descriptive statistics, hypothesis testing, contingency tables (Chi-Square analysis), regression, optimization, demand elasticities, and gravity model. Also covers sources of transportation data and research design. Teaches mathematical base and logic of each technique, but primary emphasis is applying methods to relevant policy and management problems. Students required to complete series of assignments along with research proposal focused on applying one or more methods to problem of their own interest. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 718:** Transportation Planning and Policy. 3 credits.

Introduces highway, rail, air, and water transport planning in United States. Teaches legislative, organizational, fiscal, legal and political environment within which planning for transportation facilities and services takes place. Introduce technical and analytical methods for transportation planning. Focus is largely on public sector, but also considers commercial transport planning and role of private sector in helping to design, manage, and finance transport systems. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 719:** Transportation Law. 3 credits.

Examines legal environment of transportation. Topics include basic legal concepts and institutions, history and evolution of price and service regulation, environmental law and regulation, labor relations, and property. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 720:** Managerial Economics and Policy Analysis. 3 credits.

Introduces microeconomics theory and its application in analyzing public policy issues. Provides capability to understand economic literature and theories. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
PUBP 721: Transportation Economics. 3 credits.
Provides basis for understanding economics of transport system, and how transportation relates to urban and regional development. Treats transport generically, but includes case studies of specific modes. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 722: Practicum in Transportation Policy, Operations, and Logistics. 3 credits.
In-depth field study of ongoing transportation policy, operations, or logistics situations; and design and delivery of actions to manage or resolve problems and opportunities. Range of application areas depends on interests of student body and opportunities faculty identify for “clients” or real-world projects. Illustrative domain areas include surface transportation (highways and transit), airports, and aviation. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 723: Metropolitan Transportation Policy. 3 credits.
Recent changes in federal legislation have led to renewed importance for transportation policy and planning. Considerations of clean air, economic development, congestion management, and changing urban form have greatly increased importance of well-planned transportation facilities and policies. Course introduces basic methods of transportation policy analysis and evaluation. Topics include data collection, simplified demand estimation techniques, transportation choice modeling, transportation supply analysis, and ex-ante and ex-post evaluation methods. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 726: Telecommunications Policy. 3 credits.
Examines salient issues associated with telecommunications and electronic commerce in context of public policy questions facing decision makers in government, education, and business. Examples include privacy, electronic signatures, digital divide, bandwidth auctions, IP telephony, CRM, Bluetooth, and Internet taxation. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 730: US Institutions and the Policy Process. 3 credits.
Explores the United States constitutional system of government, including the principal governmental and non-governmental institutions shaping American public policy. Investigates the national policy making process and the interplay between politics and policy. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 731: Macroeconomic Policy Assessment. 3 credits.
Covers monetary theory, theories of consumption and saving, budget deficits, economic growth, international finance, and monetary and fiscal policy. Investigates national income and product accounts, savings, employment, and investment, and alternatives to Keynesian principles. Evaluates theories of inflation, investment, capital accumulation, and nonproportional growth. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 732: Labor Markets and Policies. 3 credits.
Analysis of labor market issues and policies, including those affecting employment, wages, working conditions, and unemployment – issues central to current policy debates on job creation, inequality, discrimination, immigration, education, and social programs. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 733: Urban Politics and Policy. 3 credits.
This course explores the factors that guide and affect urban politics and policy including, but not limited to, housing, public education, criminal justice, employment, and economic development. It is designed to provide students with an introduction to the major theories and some of the significant research in urban politics and policy. The primary focus will be on large American cities. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 734: Administrative Law and Public Policy. 3 credits.
Covers administrative discretion, rule-making and agency proceedings, public participation, political accountability, regulatory processes, oversight, formal adjudication and informal action, lobbying agency administrators, and political and legal nature of the administrative
process. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUBP 735:** **Lobbying and Interest Representation.** 3 credits.
To work effectively within a democratic political environment, policy analyst must understand contemporary methods used to influence policy. Course focuses on roles and techniques of organized influence, and its impact on policy. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUBP 736:** **International Migration and Public Policy.** 3 credits.
Examines demographic, economic, political, and social forces driving international migration on a global basis in the twenty-first century. Considers policy responses within sending and receiving countries and at the global level, including the role of international cooperation and institution-building. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUBP 737:** **Cases and Concepts in E-Government.** 3 credits.
Electronic government has become a significant public policy issue worldwide. It offers the prospect of dramatic improvements in delivering government services, but also portends major debate about government intrusion. Course covers emerging public policy issues associated with electronic government: job displacement in public sector, privacy, procurement and supply chain management, voter profiling, scope of government services, challenges to "digital democracy," Internet-based voting, land management, the "digital divide," and others. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUBP 739:** **Media and Public Policy.** 3 credits.
Explores complex relationship between media and public policy. Examines how these forces collide in our modern media, how coverage decisions regarding public policy are made in newsrooms, how advocates use and rely on the media to advance message, and how different media reflect different strengths and vulnerabilities. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUBP 740:** **U.S. Foreign Policy: Formulation and Practice.** 3 credits.
Focuses on policy formulation and policy implementation. The principal arenas of foreign policy are explored, including the White House, the State Department, the defense and intelligence communities, and the Congressional committees. These arenas are both affected by and influential upon the exogenous systems, such as the media, public opinion, interest groups, foreign governments, and international organizations. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUBP 741:** **U.S. Financial Policy Processes and Procedures.** 3 credits.
Examines design and operation of expenditure and revenue systems at federal, state, and local levels of U.S. government. Stresses mobilizing and allocating resources through planning, adoption, and execution of budget. Includes theory and policy objectives of tax and spending regimes and review of financial controls, performance measurement, cash and debt management, and accounting and financial reporting systems. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Recommended Prerequisite:** PUBP 720.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUBP 742:** **Transportation Safety and Security.** 3 credits.
Examines transportation safety and security from multimodal perspective for both passenger and freight. Topics include historical context and policy framework, regulation, institutional issues, new security arrangements for preventing organized terrorist attacks, infrastructure design, vehicle design, operating protocols, and information systems. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**PUBP 743:** **National Security Management and Policy.** 3 credits.
Examines hierarchies in national security from the president to military establishment, including National Security Council, secretary of defense, joint chiefs of staff, commanders-in-chief of unified and specified commands, and intelligence agencies. Covers policies involving national defense, peace-keeping operations, embargoes and other sanctions, defense conversion, and military acquisition policy. Also covers significant legislation affecting national security, such as National
Regulation of American government, U.S. Congress, executive branch from White House to agencies, and role of interest groups and political parties. Special attention to implementing legislation, regulatory process, and intergovernmental relations. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 744: Federal Institutions and Management. 3 credits.
Covers management and policy in federal government, examining policy problems within context of national system of governance, including political environment, evolution and constitutional framework of American government, U.S. Congress, executive branch from White House to agencies, and role of interest groups and political parties. Special attention to implementing legislation, regulatory process, and intergovernmental relations. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 745: Transportation and the Environment. 3 credits.
Multidisciplinary examination of implications of transportation and ways public policy has attempted to handle them, and how policy may move in the future. Explores all modes of transportation and most environmental ramifications. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 747: Air Transportation Policy, Operations and Logistics. 3 credits.
Reviews evolution of various forms of air transport such as airlines, general aviation, and military aviation; and includes basics of airline economics, especially as they intersect with airline operations and the management of hub and spoke networks; air traffic control technologies and operations and their intersection with airline economics; safety and security technologies and regulations; future of various elements of air transportation; and effects of deregulation on air travel. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

PUBP 748: Public Transportation Policy, Operations and Logistics. 3 credits.
Provides general system description for components comprising typical publicly funded transit property. Topics include organizational structure, historical context, budget development including operating and capital budgets, personnel and labor relations, regulatory framework, operations management (bus and commuter rail), reporting structure, customer service, and contracted operations. Also discusses current topics of interest, such as security of transit systems and transit's role in air quality. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
governing bodies. Larger issues, such as war and peace, just and unjust wars, capital punishment, medical and legal ethics, and communitarian vs. individual liberties are also included, with emphasis on how they affect public policy. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 754:** Geographic Information Systems and Spatial Analysis for Public Policy. 3 credits.
Introduces GIS including analytical tools to manipulate and study spatial data. Run mainly as a laboratory, with extensive hands-on experience. Focuses on public policy applications. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**PUBP 755:** National Security Decision-Making Policy. 3 credits.
Applies behavioral, economic, strategic, and other decision theories to U.S. government and other actors in historical national security crisis cases and current policy issues. Explores tension in decisions between rational goal seeking by actors vs. organizational process, and aims to develop usable decision tools. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 756:** Global Medical Systems Policy Analysis. 3 credits.
Equips students with knowledge and skills to critically analyze structures, functions, governing policies, and performance of healthcare systems; to identify problems and solutions; and to devise alternative courses of action and reform policies that would contribute to achieving goals. Prepares students in policy analysis rooted in systems analysis, while linking issues, objectives, and solutions with the larger context in which a system is embedded. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 757:** Public Policy in Global Health and Medical Practice. 3 credits.
Introduces international medical policy. Covers globalization of health and medical policies directed at removing disparities, financing, ethical considerations of biomedical research, and use of emerging technologies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 758:** Global Threats and Medical Policies. 3 credits.
Explores medical and health governance, biosecurity and biosafety, health and natural and human-made disasters, humanitarian and emergency assistance, vaccine development, behavior and health, critical infrastructures, bioethics and resource allocations in global context. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**PUBP 759:** National Security Law and Public Policy. 3 credits.
Introduces legal and policy issues concerning current U.S. national security. Its emphasis is on developments since 9/11. It focuses on the legal rules governing the formulation and execution of U.S. national security policy. It examines U.S. and international law as well as general domestic and foreign policy considerations. In particular, the course considers the principal cases, legislation and treaties impacting U.S. national security. Special emphasis is on the interplay of national security concerns and civil liberties in this age of global and transnational terrorism. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 760:** Science and Technology Policy in the 21st Century. 3 credits.
Investigates roles dynamic scientific research and technological innovation play in contemporary society. Focuses on design and analysis of alternative public policies intended to influence rate and direction of technological change in societies, and use of scientific and technical knowledge in public policy making. Uses historical and international comparative approaches to assess politics and pragmatics of science and technology policy. Includes material from policy evaluation and analysis, organization theory, economics of innovation, and sociology of science and technology. Applications focus on areas of concern to "new economy" such as biotechnology, networked telecommunications and computing, and globalization of technology-based production. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 761:** Social Entrepreneurship and Public Policy. 3 credits.
This course is about people who start new ventures with the explicit objective of creating social as well as private value. As societies and the challenges they face become ever more complex, existing institutions
and incentive structures may or may not be adequate to address new generations of problems. Social entrepreneurs innovate new organizational forms with the objective of finding solutions in the public interest. Students in this course will be challenged to integrate elements of business strategy and policy analysis toward the objective of crafting a practical plan for the launch of a novel and needed social venture. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 762: Social Institutions and Public Policy.** 3 credits.
Limited government involvement in social policies changed drastically during the 1960s, with an explosion of social programs designed to ameliorate poverty, reduce crime, and eliminate racial segregation. These new social policies affect many institutions, including family, schools and colleges, criminal justice system, and government agencies. Many of these policies have been controversial, with debates over efficacy and whether they have cured or exacerbated social problems. Course examines evolution and status of selected American social policies, including civil rights policies, education reform, family policy, crime prevention, and other topics chosen by students. Readings and discussions on policy issues linked to readings and discussions on social theories and value systems that underpin social policies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 763: Illicit Trade.** 3 credits.
Examines the role that illicit trade assumes in international trade and commerce. Studies diverse international forms of illicit trade, the role that it assumes in perpetuating conflicts and the most pervasive forms of this illicit trade. Examines the actors who perpetrate this trade and the policies which are needed to stem its growth. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 764: Transnational Crime and Corruption.** 3 credits.
Provides an overview of transnational crime and corruption and its effects on the political, economic, and social development of countries globally. Focuses on the growing problem of transnational crime in conflict regions. The course addresses the links among crime groups, corruption and terrorism. It analyzes diverse range of activities of transnational crime groups in both the legitimate and illegitimate economy. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 765: Human Smuggling and Trafficking.** 3 credits.
Examines the rapidly growing phenomenon of human smuggling and trafficking. Addresses the reasons for the growth of these phenomena and their far-reaching and diverse social, political and economic consequences globally. Transnational crime dimensions of the problem are a central component of the class. The phenomenon is examined in conflict regions, developing, diverse developed as well as transitional societies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 766: Modern Counterinsurgency: Theory and Practice.** 3 credits.
This course is intended to give students a broad understanding of the nature of counterinsurgency, the policy implications of the U.S. becoming involved in an insurgency, and the multifaceted, interagency approach that is required to successfully combat an insurgency. The course includes case studies, a review of contemporary U.S. counterinsurgency practices, and insights on what the future might hold in this important type of conflict. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 767: Global Comparative Medical Practices, Ethics and Law.** 3 credits.
Examines major ethical issues raised in medical practice around the world. Studies issues comparatively and applies various ethical frameworks to study them. Considers various legal and policy solutions derived to deal with them. Principles of biomedical ethics as well as consideration of several major schools of thought in political philosophy, including utilitarianism, libertarianism and communitarianism will be considered. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 768: Education and Public Policy (Topic Varies).** 3 credits.
Explores current issues and policy initiatives in education policy at federal, state, and local levels, with emphasis on education reform. Issues and topics vary. Typical policy issues include raising academic standards, high-stakes testing, alternative governance including school choice and voucher policies, teacher quality and certification, role of school resources in academic outputs, and equity topics. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**PUBP 769: Political Violence and Terrorism.** 3 credits.
Examines the persistent threat of terrorism and political violence to international stability generally, and U.S. national security interests in particular. Provides students with a long-term analytical and substantive foundation to deepen their knowledge and effectiveness as policy-makers in national security, diplomacy, homeland security, law enforcement, humanitarian law, peace operations, postconflict reconstruction, development assistance, public diplomacy and other related areas. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 770: Global Health and Medical Policy Analysis.** 3 credits.
Prepares students in global health and medical policy analysis with a focus on processes, roles, expenditures, alternatives and tradeoffs in different country settings. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 775: Economics of Electronic Commerce.** 3 credits.
Focuses on gaining competitive advantage through electronic commerce implementation; identification and growing of new market opportunities and electronic enabling of existing business relationships; and business-to-consumer relationships and economics of strategic procurement, ERP hosting, customer relationship management, catalog hosting, portal operations, and supplier management. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 777: Critical Infrastructure Protection: Policy and Practice.** 3 credits.
Introduces critical infrastructure protection and resilience as a policy field, examines its governance framework, and considers its foundations in institutional theory and risk analysis. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 780: Evolution of the Washington Metropolitan Economy.** 3 credits.
Includes historical context, role of federal spending, tourism, technology sector, international business, regional organizations, local government policies, and forecasts. Evaluates development patterns in Washington, D.C., Northern Virginia, and suburban Maryland. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 781: Entrepreneurship and Economic Development.** 3 credits.
A knowledge spillover theory of entrepreneurship is employed to link between theories of entrepreneurship and theories of innovation and regional development. Other interconnections are explored at the regional level as firms forge networks, clusters, and specialized markets. The public policy issues of these constructs, including competition policy, industrial policy, and cluster policy, are examined within a regional and global context. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**PUBP 782: International Financial Policy.** 3 credits.
Addresses theory of international finance, application to financial policy such as exchange rate regimes, and institutions of international finance. Covers operations of International Monetary Fund and World Bank, development of European Monetary Union, and debate over “international financial architecture.” Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**PUBP 783: Global Governance.** 3 credits.
Surveys important issues in global governance given changes in contemporary world. Explores dynamics and complexity of formal and informal actors, institutional arrangements, organizations, and roles in process of governance in international sphere. Considers states, governmental and nongovernmental organizations, international regimes, social movements, regional associations, and multinational corporations as actors bearing on transnational authority. Examines various vehicles for international coordination and conflict in terms of relevance and opportunities for global governance. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
PUBP 784: Entrepreneurship, Economics, and Public Policy. 3 credits.
To demonstrate that global capitalism is a process driven by entrepreneurship, students study the Austrian school of economics, which views capitalism as a process of creative destruction, as well as other economists who emphasize entrepreneurship and change. The course reviews the history of capitalism, focusing on the so-called industrial revolutions in Britain, Germany, Japan, and the United States, and on particular historical and current entrepreneurs. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Teaches how to analyze the framing of policy questions and examine culture and organization at group, organizational, interorganizational, and societal levels. Covers case study research, open-ended interviewing, participant-observation, social network analysis, and historical and archival research. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

PUBP 794: Internship. 1-6 credits.
Open only to students in a Schar degree program requiring internship. Contact appropriate program director one semester before enrollment. Work-study programs with specific employers. Notes: Credit determined by appropriate degree program. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: 12 PUBP credits or Permission of Instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

PUBP 795: Final Project. 1-3 credits.
Project developed drawing on key themes of the program, in consultation with the program director. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

PUBP 796: Directed Readings and Research. 1-3 credits.
Independent reading and research at master's or doctoral level on specific topic related to public policy as agreed to by student and faculty member. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

PUBP 799: Master's Thesis. 1-6 credits.
Individualized section form required. Original research endeavor related to student’s program concentration. Research must result in document meeting public policy and university standards. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the degree.

Recommended Prerequisite: Degree candidacy in a Public Policy Master's program, completion of required credits of graduate course work, and approval of a thesis proposal by the faculty advisor, two committee members, and the program director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

800 Level Courses

PUBP 800: Culture and Public Policy. 1-4 credits.
Comparative analysis of the role of culture in shaping policy environments and outcomes. Introduces analytical methods for studying culture, including measurement of social and cultural change, surveys, and field studies. Presents major findings and research issues regarding
the role of culture in democracy, ethnic and gender relations, economic growth and other policy issues. Focuses on differences among national and regional cultures, and their policy implications. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

**PUBP 801: Research Design for Public Policy.** 1-4 credits.
Provides an introduction to the theory and practice of research in public policy. Gives students an understanding of issues in the philosophy of science and different approaches to social science research. Provides broad overviews of quantitative and qualitative methodologies, with a major emphasis on research design, including conceptualization, the role of theory, hypothesis generation, inference and bias. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUBP 720 and PUBP 730, or their equivalents strongly recommended.

Registration Restrictions:
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

**PUBP 802: The Logic of Policy Inquiry.** 1-4 credits.
Defines policy research problems, questions, and hypotheses. Explores modes of policy research, analysis, and rhetoric, including interdisciplinary research strategies. Uses information sources to emphasize written communication of policy research results. Also discusses professional practice issues. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

**PUBP 804: Multivariate Statistical Analysis in Public Policy.** 4 credits.
Explores multivariate techniques of contingency table analysis, reliability and validity assessment, factor analysis and scaling, multivariate regression and path analysis, analysis of variance and covariance, and other selected multivariate techniques. Emphasizes applying these techniques to real policy data using sophisticated statistical packages. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUBP 704 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

**PUBP 805: Foundations of Social Science for Public Policy.** 4 credits.
Grounds doctoral students in core concepts of political science and economics through critical analysis of classic sources, old and new. Topics may include theory of the state, state-market relations, democratic governance, markets and economic institutions, and other relevant frameworks for public policy research. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUBP 730 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

**PUBP 806: Advanced Management Science for Public Organizations.** 3 credits.
Primary emphasis is to understand techniques of operations research and management science, cost benefits, and cost effectiveness for public policy decision making. Some familiarity with elementary calculus and linear algebra helps with understanding mathematical basis of algorithms used to solve models, and reliability and validity of these techniques. Case studies and computer solutions help students understand when and how to use OR models. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUBP 712 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

**PUBP 810: Regional Development and Transportation Policy.** 4 credits.
Introduces and critiques theory and methods used in regional and transportation policy analysis. Explores central place, growth pole, and economic base theories as well as other theoretical constructs used in regional policy analysis. Introduces and examines methodological tools such as regional econometric modeling, multiobjective programming, shift-share analysis, economic base analysis, location quotient analysis, and input-output analysis. Examines selected regional and transportation public issues using theoretical and methodological constructs. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Seminar

PUBP 811: Applied Methods in Regional Development and Transportation Policy. 4 credits.
Students develop research papers that investigate aspects of regional development and transportation policy, with a goal of producing publishable papers. Students are expected to prepare two-page proposal followed by a detailed proposal and finally, completed paper. Each is critiqued in the seminar, which is organized to conform to the process of review and critique. Instructor works with students individually as well as in seminar sessions. Offered by Schar School of Policy & Governance. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Seminar

PUBP 817: Policy Research Topics: Transportation Policy. 3 credits.
Research workshop examining development of policy research and relevant methodologies linked directly to faculty and student interests. Students identify cutting-edge policy concerns and execute research program. The 4-credit version of course requires discussion section and research laboratory. Offered by Schar School of Policy & Governance. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Lecture

Explores how political and economic institutions and cultural values shape pace, direction, costs, and benefits of technological innovation and scientific research. Special emphasis on interaction between national institutions, and values and processes of globalization. Offered by Schar School of Policy & Governance. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Seminar

Covers major methodological approaches to study of technology, science, innovation, and public policy. Focuses on analytical inputs to policy making, and assesses practical consequences in such areas as security, energy, environment, and health. Offered by Schar School of Policy & Governance. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Seminar

PUBP 830: Comparative Socioeconomic Policy. 1-4 credits.
Throughout the past century, numerous socioeconomic theories have competed for primacy. This course compares, contrasts, and analyzes some of the leading socioeconomic theories and policies and places them in a global context. The role of these theories in shaping current public policy is explored. Offered by Schar School of Policy & Governance. May not be repeated for credit. Equivalent to ECON 676.

Registration Restrictions:
Enrollment limited to graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Lecture

PUBP 833: Topics in Public Policy. 1-4 credits.
Focuses on selected topics in public policy not covered in fixed-content public policy courses. Offered by Schar School of Policy & Governance. May be repeated within the term for a maximum of 9 credits.

Registration Restrictions:
Enrollment limited to graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Lecture

PUBP 834: Entrepreneurship, Growth, and Public Policy. 1-4 credits.
Focuses on a closer consonance among entrepreneurship, geography, and economic growth. Studies the creation and incubation of new knowledge and features three theoretical fields: the new growth theory, the new economic geography, and the new economics of innovation. Develops a knowledge spillover theory of entrepreneurship. Examines public policy issues arising from these constructs, including competition, within a regional and global context. Offered by Schar School of Policy & Governance. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Government.

**Schedule Type:** Seminar

**PUBP 835: Entrepreneurship, Creativity, and Innovation.** 1-4 credits.
Provides multidisciplinary foundation for the study of entrepreneurship, creativity, and innovation, and their effects on regional and national economic growth. Draws from seminal thinkers and emphasizes creativity and innovation. Examines how organizational change, institutional structure, and geographic clustering drive the development of regional and national economies. Explores these issues through the lens of the three Ts of economic growth: technology, talent, and tolerance. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Government.

**Schedule Type:** Seminar

Examines major institutions that formulate and implement policy at national level. Emphasizes presidency, Congress, and executive branch bureaucracies. Also considers agenda-building institutions such as media, interest groups, political parties, and elections. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to PUAD 840.

**Registration Restrictions:**
Enrollment limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Government.

**Schedule Type:** Seminar

**PUBP 841: U.S. Policy-Making Processes.** 4 credits.
Analyzes major U.S. public policy processes. Attention to major instruments for implementing policy, including regulation, grants, tax policy, and market-based mechanisms; and how different methodologies are appropriate for understanding aspects of policy inquiry. Covers ethical and accountability aspects of policy, including federalism, intergovernmental relations, and state and local governance. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit. Equivalent to PUAD 841.

**Registration Restrictions:**
Enrollment limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Government.

**Schedule Type:** Seminar

**PUBP 860: Social Theory, Culture, and Public Policy.** 4 credits.
Covers major social and cultural theories that underlie public policies. Selections from classical and contemporary social theorists relevant to understanding social change, social capital, and social organization. Focuses on the interplay among culture, social institutions, social processes, and policy. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Government.

**Schedule Type:** Seminar

**PUBP 861: Culture and Social Policy Analysis.** 4 credits.
Applies social and cultural theories to policy topics, including sociological approaches and empirical studies. Emphasizes linkage between theory and empirical research, and methods appropriate for social policy study. Policy topics may include poverty and inequality, family, education, crime and corruption, immigration, and health. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Government.

**Schedule Type:** Seminar

**PUBP 862: Institutional Analysis and Policy.** 4 credits.
Policy analysts are increasingly cognizant of the influence of societal institutions in shaping public policy, not only in terms of policy design, but also as a determinant of implementation. This course reviews the growing literature regarding institutional analysis; furthermore, it considers the ways in which institutions shape the policies that emerge within a given society and the context by which they are evaluated. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

PUBP 870: Organizational and Policy Aspects of Informatics. 1-4 credits.
Examines effects of informatics on national and international policy; setting international policy on informatics; ethical and social change in governments and organizations; shaping national policy in informatics; industry growth; and research methods from various scientific disciplines. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

PUBP 871: Organizational and Information Technology Challenges of the Knowledge Society. 4 credits.
Explores links of policy, managing organizations, and information technologies in postmodern era. Includes issues related to contradictions among conventional models of organizational and process design, policy and regulatory structures, ideologies, and information technologies. Provides framework for becoming a sophisticated analyst of policy, organizations, and information technology. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: PUBP 870.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

PUBP 872: Managing Knowledge-Based, Information-Intensive Organizations. 4 credits.
Deals with challenges of planning, creating, integrating, and managing contemporary information-technology enabled public and private sector organizations, and managing relationships between public and private enterprises enabled by information technology initiatives. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Seminar

PUBP 880: Global and International Public Policy I. 4 credits.
Explores multiple dimensions of globalization and internationalization relative to public policy processes and consequences. Offers substantive insight into contemporary public policy dynamics from global and comparative perspectives. Accordingly, it examines a broad range of international cultural, political, technological, and economic policy issues, and their interactions and implications at all levels of analysis. Engages relevant theoretical and methodological approaches and debates to provide tools for analyzing various world problems and policies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

PUBP 881: International Trade Policy. 4 credits.
Addresses international trade theory, trade policy analysis, regional economic integration, and institutional arrangements governing world trade. Covers World Trade Organization (including constituent agreements in goods, services, intellectual property and trade-related investment measures), regional trade agreements such as NAFTA, dispute settlement regimes, and relations between trade and the environment. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

900 Level Courses

PUBP 997: Field Statement. 1 credit.
Requires work on field statement in preparation for field exam. Notes: Must register in semester during which field exam will be taken. Does not apply to credit degree requirements. Note: Restricted to public policy PhD students. Students must contact program coordinator for permission and CRN number to register via Patriot Web. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: Permission of field committee chair.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Independent Study

PUBP 998: Research/Proposal for Dissertation. 1-9 credits.
Requires work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of PUBP 998 and 999 may...
be applied to doctoral degree requirements. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the degree.

**Registration Restrictions:**
Enrollment limited to students in a Doctor of Philosophy degree.

**Schedule Type:** Dissertation

**PUBP 999: Dissertation.** 1-9 credits.
Requires research on approved dissertation topic under director on dissertation committee. Notes: No more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements. Offered by Schar School of Policy & Govt (p. 906). May be repeated within the degree.

**Registration Restrictions:**
Enrollment limited to students in a class of Advanced to Candidacy.

Enrollment limited to students in a Doctor of Philosophy degree.

**Schedule Type:** Dissertation

---

**Reading (EDRD)**

**300 Level Courses**

**EDRD 300: Literacy and Curriculum Integration.** 3 credits.
Introduces K-12 content area reading, writing, and language arts. Emphasizes integration of reading and other language arts across curriculum. Notes: Intended as an introduction to educational issues and is not applicable in Mason’s graduate-level teacher education programs. School-based field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Schedule Type:** Lecture

**EDRD 301: Facilitating Literacy in School or Community Settings.** 3 credits.
Provides knowledge, teaching strategies, and support for students working with developing readers and writers. Emphasizes implementation strategies that foster literacy development, incorporation of trade books and technology resources into individual and small group work; and reflection. Note: Requires 45 hours of school-based field experience during course. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Schedule Type:** Lecture

**400 Level Courses**

**EDRD 419: Literacy in the Content Areas.** 3 credits.
Assists students in understanding the language and literacy process as it applies to teaching in middle and high schools. Focuses on instructional strategies to support literacy development, including adaptations for culturally diverse and exceptional learners. Offered by Graduate School of Education (p. 155). May not be repeated for credit. Equivalent to EDRD 619.

**Recommended Prerequisite:** EDCI 473 and EDCI 483.

**Recommended Corequisite:** EDCI 490.

**Registration Restrictions:**
Enrollment limited to students with the Undergrad Teacher Licensure attribute.

**Schedule Type:** Lecture

---

**500 Level Courses**

**EDRD 501: Literacy and Curriculum Integration, PK-12.** 3 credits.
Introduces PK-12 content area reading, writing, and language arts. Emphasizes integration of reading and other language arts across curriculum; instructional planning; needs of diverse learners. Field experience in public schools required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDRD 515: Language and Literacy in Global Contexts.** 3 credits.
Focuses on the relationship of language to reading and the connection between language structure and how we learn to read. Theories of language acquisition, the complexity of language development, and that of the reading process are examined. Key facets that influence and enhance language learning and development are explored. Introduces literacy instruction and literacy assessment for all learning and learners, and sociocultural perspectives on literacy are explored. Requires 20 hours of PK-12 classroom fieldwork. Offered by Graduate School of Education (p. 155). May not be repeated for credit. Equivalent to EDRD 525.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**EDRD 525: Emergent Literacy for English Language Learners, PK-12.** 3 credits.
Provides an introduction to emergent reading/writing processes in first and second languages. Focuses on developing reading skills in five areas: phonemic awareness, phonics, fluency, vocabulary, and text comprehension. Offered by Graduate School of Education (p. 155). May not be repeated for credit. Equivalent to EDRD 515.

**Recommended Prerequisite:** EDCI 510, EDCI 516, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree, Undergraduate or Washington Consortium level students.

**Schedule Type:** Lecture

**EDRD 558: Literacy in the Content Areas, PK-12.** 3 credits.
Focuses on research-based introduction to PK-12 content area reading, writing, and language arts that meet state and national guidelines.
Enables teachers to understand literacy needs of their students in content areas, and provide appropriate instruction. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:**
for credit. Equivalent to EDRD 419.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**EDRD 597:** Special Topics in Education. 1-6 credits.
Provides advanced study on selected topic or emerging issue in American or international education. Notes: May be repeated for credit with GSE permission. Offered by Graduate School of Education (p. 155). May be repeated within the degree.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**600 Level Courses**

**EDRD 610:** Content Literacy for English Language Learners, PK-12. 3 credits.
Focus on research-based instruction for teaching reading and writing in the content areas. Emphasizes similarities and differences between reading and writing in two or more languages, vocabulary development, reading fluency, and strategies for text comprehension. Requires 20 hours of PK-12 classroom fieldwork. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** EDRD 515 and EDCI 519.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**EDRD 619:** Literacy in Content Areas. 3 credits.
Offers understanding of language and literacy process as it applies to teaching in secondary schools. Emphasizes reading and writing in content areas, and instructional strategies to support students’ literacy development. Focuses on ways reading, writing, speaking, and listening are developed and used in learning discipline-specific curriculum, including adaptations for culturally diverse and exceptional learners. Offered by Graduate School of Education (p. 155). May not be repeated for credit. Equivalent to EDRD 419.

**Recommended Prerequisite:** EDCI 567, 569, 572, or 573.

**EDRD 620:** Reading/Writing in Foreign/World Languages. 3 credits.
Introduces reading and writing processes in foreign and second languages, research on reading comprehension, and effective teaching and assessment approaches for students in PK-12 schools. Topics include reading goals and standards for foreign language learning, sociocultural perspectives, multimedia computer-assistance, research on related strategies and skills, and performance-based assessments. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** EDCI 516 and 519, or permission of instructor or advisor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**EDRD 630:** Literacy Foundations and Instruction for Diverse Populations: Birth through Middle Childhood. 3 credits.
Study of literacy theory, research, and practice as it relates to younger learners. Includes teaching of reading to English Language Learners and language acquisition for diverse populations (Special Education students who access the general curriculum). Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on children’s literacy. Includes reading, writing, and oral communication. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the literacy emphasis, or permission of program coordinator.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in ASTL-Alternative Education, ASTL-Early Childhood Educ, Gifted Child Education, ASTL - History, ASTL-Instructional Technology, ASTL - Lit Reading Specialist, ASTL - Mathematics, ASTL-NBPTS Preparation Core, ASTL - LIT PK12 Cslrm Teachers, ASTL - Science, Curriculum and Instruction or Literacy: K-12 Reading Speclst.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.
Schedule Type: Lecture

EDRD 631: Literacy Foundations and Instruction for Diverse Populations: Adolescence Through Adulthood. 3 credits.
Study of literacy theory, research, and practice as it relates to adolescents and adults. Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on literacy. Includes reading, writing, and oral communication. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, admission to literacy emphasis or permission of the program coordinator.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in ASTL-Alternative Education, ASTL-Early Childhood Educ, Gifted Child Education, ASTL - History, ASTL-Instructional Technology, ASTL - Lit Reading Specialist, ASTL - Mathematics, ASTL-NBPTS Preparation Core, ASTL - LIT PK12 Clsrm Teachers, ASTL - Science, Curriculum and Instruction or Literacy: K-12 Reading Speclst.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDRD 632: Literacy Assessments and Interventions for Groups. 3 credits.
Provides literacy assessments and interventions for groups of learners. Includes exploration of assessment tools for classrooms and large populations. Class members conduct related practice in their own classrooms or specified field settings. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDRD 630 and 631; admission to literacy emphasis, or permission of the program coordinator.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in ASTL-Alternative Education, ASTL-Early Childhood Educ, Gifted Child Education, ASTL - History, ASTL-Instructional Technology, ASTL - Lit Reading Specialist, ASTL - Mathematics, ASTL-NBPTS Preparation Core, ASTL - LIT PK12 Clsrm Teachers, ASTL - Science, Curriculum and Instruction or Literacy: K-12 Reading Speclst.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDRD 633: Literacy Assessments and Interventions for Individuals. 3 credits.
Provides literacy assessments and interventions for individuals. Includes diagnosis and remediation for learners who find reading and writing difficult. Requires assigned practicum experience. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, 631, and 632; admission to literacy emphasis; or permission of program coordinator.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in ASTL-Alternative Education, ASTL-Early Childhood Educ, Gifted Child Education, ASTL - History, ASTL-Instructional Technology, ASTL - Lit Reading Specialist, ASTL - Mathematics, ASTL-NBPTS Preparation Core, ASTL - LIT PK12 Clsrm Teachers, ASTL - Science, Curriculum and Instruction or Literacy: K-12 Reading Speclst.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDRD 634: School-Based Leadership in Literacy. 3 credits.
Prepares reading specialist as a school leader. Expands knowledge of literacy gained in prerequisite courses, and applies it to professional development work with teachers at their own site. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, 631, 632, 633, and admission to the literacy emphasis or permission of the program coordinator.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in ASTL-Alternative Education, ASTL-Early Childhood Educ, Gifted Child Education, ASTL - History, ASTL-Instructional Technology, ASTL - Lit Reading Specialist, ASTL - Mathematics, ASTL-NBPTS Preparation Core, ASTL - Science, Curriculum and Instruction or Literacy: K-12 Reading Speclst.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDRD 635: School-Based Inquiry in Literacy. 3 credits.
Capstone course in literacy emphasis focusing on research-based inquiry related to literacy in school settings. Includes review of literature and teacher inquiry project. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, 631, 632, 633, and 634; admission to literacy emphasis; or permission of program coordinator.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in ASTL-Alternative Education, ASTL-Early Childhood Educ, Gifted Child Education, ASTL - History, ASTL-Instructional Technology, ASTL - Lit Reading Specialist, ASTL - Mathematics, ASTL-NBPTS Preparation Core, ASTL - Science, Curriculum and Instruction or Literacy: K-12 Reading Speclst.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDRD 637: Supervised Literacy Practicum. 2-3 credits.
Supervised literacy practicum that requires students to conduct assessments of and provide instruction to struggling readers. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, 631, 632.

Recommended Corequisite: EDRD 633.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in ASTL-Alternative Education, ASTL-Early Childhood Educ, Gifted Child Education, ASTL-History, ASTL-Instructional Technology, ASTL-Lit Reading Specialist, ASTL-Mathematics, ASTL-NBPTS Preparation Core, ASTL-LIT PK12 Cslrm Teachers, ASTL-Science, Curriculum and Instruction or Literacy: K-12 Reading Specisl.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

700 Level Courses

EDRD 797: Advanced Topics in Education. 1-6 credits.
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education. Notes: May be repeated for credit with CEHD approval. Offered by Graduate School of Education (p. 155). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

800 Level Courses

EDRD 829: Advanced Foundations of Literacy Education. 3 credits.
Explores advanced foundational theory, research, and methodology across the broad field of literacy both nationally and internationally. Includes analysis of historical and current trends, research, practice, and policy in literacy. Individual projects will connect literacy to students’ areas of interest. Appropriate for PhD in Education students in any specialization. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDUC 800, EDRS 810, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

EDRD 830: Theory, Research, and Practice in Literacy: Birth through Middle Childhood. 3 credits.
Explores emergent through intermediate literacy. Topics include literacy acquisition and development in academically and linguistically diverse young children; historical and current trends in theories of literacy development; cognitive, linguistic, sociocultural, and instructional influences on literacy development; and assessment. Implications for teacher education and policy are explored. Individual research projects will connect literacy to students’ areas of interest. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDUC 800 and EDRS 810.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

EDRD 831: Theory, Research, and Practice in Literacy: Early Adolescence through Young Adulthood. 3 credits.
Explores youth culture and socio-historical constructions of adolescence; literacy in the lives of culturally and linguistically diverse learners; multimodal literacy; international literacy contexts; adolescent literacy policy and leadership; content area and disciplinary literacy; literacy needs of special learners; and adult literacy. Individual projects will connect adolescent literacy to students’ areas of interests. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDUC 800 and EDRS 810.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

EDRD 832: Research Methodologies and Trends in Literacy. 3 credits.
Develops knowledge and skills in the application of research methodologies in literacy to current national and international trends. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDUC 800, EDRS 810, permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Real Estate Development (REAL)

500 Level Courses

REAL 500: Real Estate Development Fundamentals. 3 credits.
A comprehensive study of the main elements of the real estate development process. Examines the intricacies between residential, commercial and mixed-use development, and approaches to optimizing each. The value of market research and analysis, determining value propositions of prospective deals, zoning considerations, design and construction issues, and asset management will also be examined. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**REAL 502: Real Estate Client Leadership and Project Management.** 3 credits. A study of the challenges faced by developers, both in terms of client (owner) challenges as well as project challenges. Examines assessment approaches and frameworks to assess clients, including analyzing the maturity of a representative client and identify key approaches to optimizing the relationship of that client. Examines specific project challenges-project assessment frameworks, and improvement approaches. Offered by School of Business (p. 846). May not be repeated for credit.

**Recommended Prerequisite:** REAL 500 (or CEIE 580), or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**600 Level Courses**

**REAL 610: Management of Real Estate Design and Development.** 3 credits. Course develops a framework for understanding and managing processes associated with design and construction of real estate assets. Course focuses on the specific phases comprising a real estate development project and integration of these elements to achieve success. Topics include developing and coordinating service providers relationships, managing stages involved in the development cycle, understanding and controlling risks, and resolving disputes. Offered by School of Business (p. 846). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the MSREAL Program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**REAL 615: Real Estate Market Analysis and Research.** 3 credits. The course will provide an introduction to the methods used in analyzing real estate markets from the perspective of decision-makers who are considering potential development, investment, or financing decisions. The courses will focus on sources and analysis of data for examining project feasibility and scope, timing and phasing of development, and communicating with prospective financial partners. Offered by School of Business (p. 846). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the MSREAL Program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**REAL 620: Real Estate Entrepreneurship.** 3 credits. This course explores real estate development from an applied, entrepreneurial perspective. Emphasis is placed on understanding the unique challenges, risks, and opportunities faced by entrepreneurial developers as opposed to those operating in a larger, institutional context. Students explore strategies to evaluate opportunities, successfully structure deals, harness entrepreneurial competitive advantages such as flexibility and innovation, and ultimately create wealth through development. Offered by School of Business (p. 846). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MS-BU-REAL program.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**REAL 630: Innovative Land Use, Approvals and Real Estate Development.** 3 credits. Examines the challenges in designing innovative uses for land and balancing those prospective uses with local urban policies and the land development/zoning process. Introduces the entitlements process, the legal considerations of planning and zoning in America, and the language of zoning. Explores the impacts of the different forms of government on the entitlement process. Offered by School of Business (p. 846). May not be repeated for credit.

**Recommended Prerequisite:** Admissions to the MSRED program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
REAL 690: *Topics in Real Estate Development*. 1-6 credits.
Explores contemporary issues and challenges in the management and
development of real estate. Topics not covered in the regular real estate
development offerings. Course content may vary each semester. Course
may be repeated with change in topic. Offered by School of Business (p. 846). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Admissions to the MSRED program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

### 700 Level Courses

REAL 750: *MSRED Capstone*. 3 credits.
The Capstone Project will be the culmination of the master’s program,
offered at the end of the program. The course will combine the theoretical
teachings from the program with real world, practical situations. Students
will apply concepts learned to current development and construction
projects in the Washington, D.C. metropolitan area. One of the sample
cases involves the potential future uses of a plot of land in the metro
area, a mixed-use high-density area that is slated to undergo significant
transformation. The case will request project teams to explore the
various options, employing a decision-tree approach to fully analyze the
options, and examining the SWOT, local urban management policies,
future valuation streams, and environmental impacts of each. A site visit
will be required, as well as visits to various developers engaged in similar
projects. Offered by School of Business (p. 846). May not be repeated for credit.

**Recommended Prerequisite:** Admissions to the MSRED program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate or Non Degree.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

### Recreation (RECR)

#### 100 Level Courses

RECR 100: *Brazilian Jiu-Jitsu: Intro*. 1 credit.
Instructs students in self defense Brazilian Jiu-Jitsu techniques.
Appropriate for students who have no prior experience in martial arts or
Brazilian Jiu-Jitsu. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 138.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

Teaches students beginner-to-intermediate-level techniques in Brazilian
Jiu-Jitsu. Focuses on specific defensive techniques to be used against
an attacker along with escapes and submissions from a variety of
different attacks. Requires participation in basic sparring with particular
attention to safety and intensive training and conditioning routine.
Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 100.

**Schedule Type:** Studio

Introduces basic body mechanics of throwing, sweeping, grappling, and
submission skills used in Judo and for self-defense. Presents the history
of Judo, rules of the sport and proper safety and falling techniques.
Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 145.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 100.

**Schedule Type:** Studio

RECR 103: *Judo: Intermediate*. 1 credit.
Emphasizes the execution of proper skills and movements rather than
the contact itself. Incorporates both offensive and defensive movements.
Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 169.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 102 or permission of instructor.

**Schedule Type:** Studio

RECR 104: *Karate: Introduction*. 1 credit.
Emphasizes techniques, forms (kata), and sets (drills) from the American
Kenpo Karate, which combines art and science. Relates techniques with
motion and principles and builds on the previous skills to create a web of
knowledge. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 163.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

Reviews information and refines skills developed in the introductory
class. Introduces new forms and techniques to increase skill

**Recommended Prerequisite:** RECR 104.

**Schedule Type:** Studio
performance at the next level. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 164.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 104.

**Schedule Type:** Studio

**RECR 106:** Krav Maga: Introduction. 1 credit.
Introduces students to the principles and practice of Krav Maga, an Israeli system of self-protection. Involves knowledge of threat response, skill training in self-protection, and mental preparation for defensive tactics. Prepares students in appropriate protective action in situations of threat or attack. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 179.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 106.

**Schedule Type:** Studio

**RECR 107:** Krav Maga: Intermediate. 1 credit.
Continues training in Krav Maga skills for experienced students. Explores multiple opponents, defending third parties, decision making skills, using & defending against weapons, and fight strategy. Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 183.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 106.

**Schedule Type:** Studio

**RECR 108:** Self Defense: Introduction. 1 credit.
Teaches beginner level of self-defense such as defensive techniques to be used against an attacker along with escapes and submissions from a variety of different attacks. Requires participation in basic sparring with particular attention to safety. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 134.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 108.

**Schedule Type:** Studio

**RECR 109:** Self Defense: Intermediate. 1 credit.
Teaches more advanced defensive and offensive techniques, building on the student's previous training. Emphasizes continuous improvement in physical and mental fitness. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 135.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 108.

**Schedule Type:** Studio

**RECR 110:** Taekwondo: Introduction. 1 credit.
Develop basic skills of Taekwondo, a Korean martial art that predominantly emphasizes kicking. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 136.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 111:** Taekwondo: Intermediate. 1 credit.
Develops intermediate-level skills of Taekwondo, building on basic skills learned in the introduction course. Continues to focus on the student's mental development, as well as physical training. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 137.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 110.

**Schedule Type:** Studio

**RECR 112:** Taekwondo: Advanced. 1 credit.
Continues to enhance skills of Taekwondo, focusing on the student's mental development as well as physical training. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 147.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 111.

**Schedule Type:** Studio

**RECR 113:** Fencing. 1 credit.
Gives the beginning student basic knowledge of the sport of fencing and teaches the fundamental movements so students can fence at a novice level. Teaches basic officiating and etiquette of the sport. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 103.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 118:** Aerobics/Basic Conditioning. 1 credit.
Introduces and provides aerobic conditioning for fitness. Covers cardiovascular endurance, cardiovascular diseases, body composition, nutrition, and weight management. Teaches the use of cardiovascular equipment and designing an aerobic fitness program. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 105.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 119:** Fitness Walking. 1 credit.
Introduces students to cardiovascular exercise as it relates to a healthy lifestyle and improved quality of life. Covers design, implementation, and evaluation of a personal walking plan based on current fitness levels. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 175.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 120:** Weight Training/Body Conditioning. 1 credit.
Introduces students to fitness and healthy lifestyles. Provides students with an overview of the various types of weight training, with an emphasis on circuit weight training method. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 108.
**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 121: *Backpacking: Introduction.* 2 credits.
Introduces practical and experiential activities for students with starting knowledge of backpacking. Involves discussions, demonstrations, and activities that teach the basics of backpacking. Covers equipment selection, map and compass skills, backcountry cooking, staying healthy in the outdoors, safety and emergency procedures, backcountry ethics (Leave No Trace), and natural history. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 120.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 122: *Exploring Outdoor Adventure.* 2 credits.
Provides students an introduction to leadership theory and practice in planning outdoor adventure activities. Focuses on building skills necessary to engage in a wide range of individual outdoor adventure activities such as orienteering, geocaching, canoeing, rock climbing, and challenge course team building. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 110.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 123: *Geocaching.* 1 credit.
Introduces geocaching using a map, compass, and GPS to navigate to a location. Involves discussion, practical application, and research. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 3 credits. Equivalent to PRLS 183.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 124: *Horsemanship: Introduction.* 1 credit.
Introduces the basics of horseback riding and horsemanship. Emphasizes how to care for a horse, tack a horse, and basic riding skills such as walking, trotting, and jumping small obstacles. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 122.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 125: *Horsemanship: Intermediate.* 1 credit.
Builds the intermediate skills of horseback riding and horsemanship. Emphasizes technical riding and advancing basic horseback riding skills (e.g. figure S’s, serpentines, and change of direction). Focuses on how equitation affects the horse and horse behavior affects riding and safety. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 192.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 124.

**Schedule Type:** Studio

Introduces entry-level skills and knowledge necessary to navigate rapids up to Class II difficulty and plan and execute trips on moving water. Covers content such as paddle strokes and maneuvers, boat handling, basic terminology, equipment, proper clothing, kayak design, trip planning, river safety, self and group rescue techniques, water reading, river etiquette, and environmental ethics. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 170.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 127: *Coastal Kayaking: Intro.* 2 credits.
Provides instruction on core skills and knowledge necessary to safely paddle sea/coastal kayaks and plan trips on non-whitewater rivers and coastal environments. Includes instruction in, but not limited to, boat handling, terminology, kayak design, trip planning, marine hazards and safety, rules of the Nautical Road, weather and tides and environmental ethics. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 173.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 129: *Downhill Skiing.* 1 credit.
Teaches and refines basic skills and techniques of downhill skiing including becoming familiar with use of ski equipment, terminology, and safety rules. Includes lecture and field experience to improve downhill skiing skills. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 190.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 131: *Mountain Biking.* 2 credits.
Provides students with the fundamentals of mountain biking through skills aimed to master techniques in descending and ascending hills, negotiating obstacles, and stopping. Skills in maintaining a bike and appreciation of terrain, navigation, and safety will also be covered. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 184.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 132: *Snowboarding.* 1 credit.
Teaches and refines basic skills and techniques of snowboarding including becoming familiar with use of ski equipment, terminology, and safety rules. Includes lecture and field experience to improve snowboarding skills. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 191.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

RECR 133: *Indoor Rock Climbing: Intro.* 1 credit.
Introduces equipment, techniques, safety, and planning related to basic rock climbing. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 116.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio
RECR 134: Rock Climbing: Introduction. 2 credits.
Teaches basic climbing terms, techniques, equipment, and safety practices for top rope belay climbing and rappelling. Builds on communication skills and trust. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 117.

Specialized Designation: Physical Activity Course
Schedule Type: Studio

RECR 135: Rock Climbing: Intermediate. 2 credits.
Provides advanced instruction into techniques and knowledge including climbing movements, knots and basic rope systems, rappelling, bouldering, introduction to sport climbing, and climbing history. Involves outdoor rock climbing sessions at local site. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 187.

Specialized Designation: Physical Activity Course
Recommended Prerequisite: RECR 133 or 134.
Schedule Type: Studio

RECR 136: Pistol Marksmanship. 1 credit.
Introduces students to marksmanship skills in Olympic sport and target shooting. Increases students’ knowledge of shooting safety, position shooting, equipment care and maintenance, and shooting sports competition methods and techniques. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 124.

Specialized Designation: Physical Activity Course
Schedule Type: Studio

RECR 137: Trap and Skeet Shooting: Intro. 2 credits.
Designed to educate the student on gun and range safety. Includes hands-on learning of the games trap and skeet, where competitors fire at clay targets (approximately 4 1/4 inches in diameter and 1 1/2 inches in height) launched from a trap at varying angles. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 119.

Specialized Designation: Physical Activity Course
Schedule Type: Studio

RECR 138: Trap and Skeet Shooting: Intermediate. 2 credits.
Increases the skill competencies in trap shooting. Includes hands-on learning of the different trap games (16-yard, handicap, doubles, and Olympic trap shoot on a wobble trap) where competitors fire at clay targets (approximately 4 1/2 inches in diameter and 1 1/2 inches in height) launched from a trap at varying angles. Emphasizes gun and range safety. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 121.

Specialized Designation: Physical Activity Course
Recommended Prerequisite: RECR 137 or permission of instructor.
Schedule Type: Studio

RECR 139: Archery: Introduction. 1 credit.
Introduces students to competitive archery. Provides instruction for shooting safety, proper form and technique, equipment maintenance, and rules for competing in Olympic style FITA tournaments. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Activity-Based

RECR 141: Basketball: Introduction. 1 credit.
Introduces the basic elements of basketball, including dribbling, passing, shooting, tactics, and strategy. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 120.

Specialized Designation: Physical Activity Course
Schedule Type: Studio

RECR 143: Soccer: Introduction. 1 credit.
Introduces the basic elements of soccer including dribbling, kicking, passing, trapping, tactics, and strategy. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 102.

Specialized Designation: Physical Activity Course
Recommended Prerequisite: RECR 143.
Schedule Type: Studio

RECR 144: Soccer: Intermediate. 1 credit.
Prepares the experienced soccer player in the aspects of the competitive game. Applies skills-training to competitive and recreational play. Covers strategies of offense and defense and variation of different systems of play. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 182.

Specialized Designation: Physical Activity Course
Schedule Type: Studio

RECR 145: Volleyball: Introduction. 1 credit.
Introduces students to fundamental knowledge and basic skills of volleyball. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 174.

Specialized Designation: Physical Activity Course
Schedule Type: Studio

RECR 151: Badminton: Introduction. 1 credit.
Introduces the fundamental skills, rules, and strategies of badminton. Covers basic techniques and etiquette of both singles and double play. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 177.

Specialized Designation: Physical Activity Course
Schedule Type: Studio

RECR 153: Racquetball: Introduction. 1 credit.
Introduces basic racquetball terms, rules, scoring, safety, and techniques for the forehand, backhand, overhead, and serve, as well as singles and doubles strategies. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 165.

Specialized Designation: Physical Activity Course
Schedule Type: Studio
RECR 154: Racquetball: Intermediate. 1 credit.
Teaches intermediate skills, including ceiling shots, kill shots, passing shots, back wall strokes, advanced serves, court positions, and tactics and strategies for singles and doubles. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 166.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 153 or permission of instructor.

Schedule Type: Studio

RECR 155: Tennis: Introduction. 1 credit.
Teaches tennis terms, rules, scoring, techniques for the forehand and backhand ground strokes, volley, overhead, and serve, as well as basic strategy for singles and doubles. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 151.

Specialized Designation: Physical Activity Course

Schedule Type: Studio

RECR 156: Tennis: Intermediate. 1 credit.
Prepares experienced tennis player in advanced skills: point play, control of pace, direction, and depth of forehand and back hand, ground strokes, and topspin and underspin. Instructs tactical use of volley, styles of play, and strategies for singles and doubles. Introduces principles to refereeing. Applies skills-training to competitive and recreational play. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 153.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 155.

Schedule Type: Studio

RECR 157: Bowling: Introduction. 1 credit.
Teaches the sport of 10-pin bowling. Covers topics such as bowling etiquette, history of bowling, playing rules for league members, scoring, different approaches to the game, and the appropriate equipment for these approaches. Appropriate for inexperienced and experienced bowlers. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 162.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 157.

Schedule Type: Studio

RECR 158: Swimming: Advanced. 1 credit.
Builds on intermediate-level swimming skills by providing practice to refine and perfect swimming strokes, so that students swim with more ease, efficiency, power, and smoothness over greater distances. Focuses on developing a higher level of fitness and maintaining better physical conditioning. Introduces other aquatic activities to enrich the class and broaden the horizons of the participant. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 159.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 155.

Schedule Type: Studio

RECR 159: Golf: Introduction. 1 credit.
Teaches basic golf terms, rules, and techniques for the full swing, putting, chipping, and pitching, as well as playing on a golf course. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 140.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 159.

Schedule Type: Studio

RECR 160: Latin Dance. 1 credit.
Provides knowledge base of dance fundamentals and skill development in various Latin dances and will include basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of terminal positions. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 111.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 159.

Schedule Type: Studio

RECR 161: Scuba Diving: Basic. 2 credits.
Provides training toward certification as an open water SCUBA diver. Emphasizes snorkeling (free diving introduction) and SCUBA skills. Covers safe diving skills, the physics of diving, equipment care and maintenance, diving fitness, underwater navigation, record keeping, and other basic SCUBA knowledge. With successful completion of the course, qualifies students for open water certification by Scuba Schools International (SSI). Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 255.

Specialized Designation: Physical Activity Course

Schedule Type: Studio

RECR 162: Swimming: Beginning. 1 credit.
Develops a knowledge base and basic swimming skills for the weak swimmer and non-swimmer, and makes them water safe. Includes, but are not limited to, locomotion and propulsive movements in a prone and supine position, breath control, rhythmic breathing, beginning diving techniques, personal safety, and rescue skills to maintain a water-safe environment. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 110.

Specialized Designation: Physical Activity Course

Schedule Type: Studio

RECR 163: Swimming: Intermediate. 1 credit.
Builds on basic-level swimming skills by providing practice for confidence, refinement of coordination, and improvement of other aquatic skills. Presents more advanced swimming strokes and focuses on physical conditioning and aquatic safety. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 150.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 162.

Schedule Type: Studio

RECR 164: Swimming: Advanced. 1 credit.
Builds on intermediate-level swimming skills by providing practice to refine and perfect swimming strokes, so that students swim with more ease, efficiency, power, and smoothness over greater distances. Focuses on developing a higher level of fitness and maintaining better physical conditioning. Introduces other aquatic activities to enrich the class and broaden the horizons of the participant. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 159.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 155.

Schedule Type: Studio

RECR 165: Golf: Intermediate. 1 credit.
Teaches intermediate skills, including ceiling shots, kill shots, passing shots, back wall strokes, advanced serves, court positions, and tactics and strategies for singles and doubles. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 166.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 164.

Schedule Type: Studio

RECR 166: Golf: Advanced. 1 credit.
Builds on intermediate-level skills by providing practice to refine and perfect intermediate skills. Focuses on developing a higher level of fitness and maintaining better physical conditioning. Offers a variety of courses and formats for different skill levels. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 159.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 165.

Schedule Type: Studio

RECR 167: Golf: Introduction. 1 credit.
Teaches basic golf terms, rules, and techniques for the full swing, putting, chipping, and pitching, as well as playing on a golf course. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 140.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 166.

Schedule Type: Studio

RECR 168: Golf: Advanced. 1 credit.
Builds on intermediate-level skills by providing practice to refine and perfect intermediate skills. Focuses on developing a higher level of fitness and maintaining better physical conditioning. Offers a variety of courses and formats for different skill levels. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 159.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 167.

Schedule Type: Studio

RECR 169: Golf: Beginner. 1 credit.
Designed for students with basic golf knowledge and skills. Includes course strategies, course management, the proper use of the rules, club selection, speed of play, skill building, and different golf formats. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 140.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 168.

Schedule Type: Studio

RECR 170: Ham: Introduction. 1 credit.
Teaches the sport of 10-pin bowling. Covers topics such as bowling etiquette, history of bowling, playing rules for league members, scoring, different approaches to the game, and the appropriate equipment for these approaches. Appropriate for inexperienced and experienced bowlers. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 162.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 170.

Schedule Type: Studio

RECR 171: Latin Dance. 1 credit.
Provides knowledge base of dance fundamentals and skill development in various Latin dances and will include basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of terminal positions. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 111.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 170.

Schedule Type: Studio

RECR 172: Latin Dance. 1 credit.
Provides knowledge base of dance fundamentals and skill development in various Latin dances and will include basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of terminal positions. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 111.

Specialized Designation: Physical Activity Course

Recommended Prerequisite: RECR 171.

Schedule Type: Studio
of dance frame in partner dancing. Introduces dances which may include but not restricted to Merengue, Mambo, Samba, Salsa, and Bachata. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 113.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 172:** Social Dance. 1 credit.
Provides a knowledge base of dance fundamentals and skill development in various ballroom dances and includes basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 127.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 173:** Social Dance II. 1 credit.
Provides an introduction to the tango and additional patterns for popular social dance that may include the fox trot, waltz, cha-cha, rumba, and Eastern swing. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 127.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 174:** Competitive Latin and Ballroom Dance. 1 credit.
Increase knowledge base of dance fundamentals and skill development in the competitive style of Latin and Ballroom dances. Focuses on alignments, techniques of leading and following, and maintenance of dance frame in partner dancing in competitive dances. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 193.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 171 or 172 or 173.

**Schedule Type:** Studio

**RECR 181:** Meditation: Introduction. 1 credit.
Introduces students to philosophical foundations of meditation. Guides in the practice of meditation and its application to daily mental focus and concentration. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 181.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 182:** Pilates: Introduction. 1 credit.
Provides the history and basic foundations of Pilates including an introduction to beginning Pilates exercises and their proper execution; exploration of modifications for certain exercises and the various props which may be used in the group class setting. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 131.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 183:** Pilates: Intermediate. 1 credit.
Provides students with advanced knowledge and skills in Pilates techniques and exercises. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 178.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 182.

**Schedule Type:** Studio

**RECR 184:** Tai Chi: Introduction. 1 credit.
Increase awareness of the mind and body. Introduces basic principles of Chi (energy) and Yin Yang (polarity) and how they apply to the body through practicing the Tai Chi movements. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 149.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 185:** Tai Chi: Intermediate. 1 credit.
Teaches Tai Chi Weapon (Tai Chi Straight Sword), as well as basic principles of Tai Chi. Increases awareness of the mind and body. Indicate number. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 160.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 184.

**Schedule Type:** Studio

**RECR 186:** Yoga: Introduction. 1 credit.
Introduces students to the practice of Hatha yoga. Emphasizes yoga asanas (postures) and pranayama (breathing exercises) to enhance physical fitness and mental concentration. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 129.

**Specialized Designation:** Physical Activity Course

**Schedule Type:** Studio

**RECR 187:** Yoga: Intermediate. 1 credit.
Emphasizes mastery of yoga asanas (postures) and pranayama (breathing techniques) to enhance physical fitness and mental concentration. Focuses on 10 new yoga poses and practice of the complete Sun Salutation. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PHED 130.

**Specialized Designation:** Physical Activity Course

**Recommended Prerequisite:** RECR 186.

**Schedule Type:** Studio

**Rehabilitation Science (RHBS)**

**200 Level Courses**

**RHBS 201:** Introduction to Rehabilitation Science. 3 credits.
Introduces the field of rehabilitation science. Surveys various topics within rehabilitation science including development of the field, models of disablement-enablement, facilitators and barriers to enablement across
the lifespan. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Schedule Type:** Lecture

**RHBS 270: Applied Human Anatomy and Physiology I.** 4 credits.
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on musculoskeletal, nervous, cardiovascular, respiratory and integumentary systems. Offered by Rehabilitation Science (p. 266). May not be repeated for credit. Equivalent to HHS 270.

**Schedule Type:** Laboratory, Lecture

**RHBS 271: Applied Human Anatomy and Physiology II.** 4 credits.
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on digestive, endocrine, lymphatic, genitourinary, and reproductive systems. Offered by Rehabilitation Science (p. 266). May not be repeated for credit. Equivalent to HHS 271.

**Recommended Prerequisite:** RHBS 270.

**Schedule Type:** Laboratory, Lecture

**300 Level Courses**

**RHBS 340: Health, Disease and Dysfunction.** 3 credits.
Focuses on basic epidemiology, health promotion and disease prevention, as well as impairments in normal function of the individual resulting in disease and dysfunction. Exploration of the individual and societal impact of health and disease. Introduces current rehabilitation and intervention strategies as well as classification of disease and disability. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Schedule Type:** Lecture

**RHBS 345: Applied Biomechanics in Rehabilitation.** 3 credits.
Introduces basic concepts and principles of biomechanics in the study and analysis of functional human movement. Discusses the biomechanical principles as applied in both healthy and clinical populations. Develops an understanding of the scientific and clinical applications of biomechanics to rehabilitation interventions. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** College level physics or permission of instructor.

**Schedule Type:** Lecture

**RHBS 350: Clinical Physiology and Human Performance.** 3 credits.
Investigates the study of human physiology and how it relates to physical activity, health, and functional ability. Specifically, examines the metabolic, locomotive, endocrine, cardiovascular, and pulmonary responses to physical activity and their contributions and limitations to human performance. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** College-level chemistry or permission of instructor or department chair.

**Schedule Type:** Lecture

**RHBS 355: Gait and Functional Movement Analysis.** 3 credits.
Analyzes human gait and common structural impairments associated with functional performance. Provides the fundamental terminology, techniques, and data interpretation methods used in gait analysis and assessing human physical function. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** RHBS 270 and RHBS 271 or similar courses in human anatomy and physiology.

**Schedule Type:** Lecture

**RHBS 380: Neural Basis of Movement.** 3 credits.
Introduces major topics in sensory and motor neurophysiology as they relate to motor control and motor learning. Includes organization of sensory and motor systems, neural mechanisms of learning and memory, and current neurophysiological testing techniques. Special emphasis is placed on the implications for motor impairment and recovery following nervous system disease or injury. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** RHBS 270 and RHBS 271 or equivalent anatomy and physiology course.

**Schedule Type:** Lecture

**400 Level Courses**

**RHBS 390: Clinical Assessment of Functional Capacity.** 3 credits.
Examines the scientific basis and theory for exercise assessments in healthy persons and those with chronic disease and disability. Covers cardiorespiratory fitness measurements, cardiac function, body composition, muscular strength and endurance. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate course in anatomy and physiology or permission of instructor.

**Schedule Type:** Lecture

**RHBS 410: Physical Activity and Public Health.** 3 credits.
Investigates the basic principles and concepts of epidemiology and the influence of exercise and physical activity on the most common risk factors for prevalent chronic diseases in the United States of America. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Schedule Type:** Lecture

**RHBS 415: Clinical Movement Science I.** 3 credits.
Describes how the human nervous and musculoskeletal systems work together to move the human body, with special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** College-level physics or permission of instructor or department chair.

**Schedule Type:** Lecture

**RHBS 416: Clinical Movement Science II.** 3 credits.
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement control,
adaptation, and learning; experimental and clinical assessment of body movements and forces, treatment of abnormal movement, and rehabilitation technologies. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** RHBS 415 or permission of instructor or department chair.

**Schedule Type:** Lecture

**RHBS 418:** Exercise Endocrinology. 3 credits.
Explores the role of the endocrine system in the coordination and regulation of the body's internal environment under acute and chronic exercise conditions. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** RHBS 270 and RHBS 271 or similar course in human anatomy and physiology.

**Schedule Type:** Lecture

**RHBS 420:** Adult Health and Function. 3 credits.
Approaches the study of function and normal development, how it is attained and how it is optimized with a multi-systems viewpoint. Focuses on the components of functional movement. Addresses strategies for assessing, promoting and maintaining functional independence. Highlights current treatment approaches of disease and dysfunction. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Schedule Type:** Lecture

**RHBS 450:** Psychosocial Adaptation in Rehabilitation. 3 credits.
Examines the psychosocial impacts of rehabilitation and disability. Provides a disability perspective from the individual and society and explores the interaction between them. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** Completed RHBS 201 or permission of instructor.

**Schedule Type:** Lecture

**RHBS 455:** Research in Rehabilitation Science. 3 credits.
Describes central principles of scientific method and ethical and regulatory responsibilities of rehabilitation science researchers. Explores application of scientific method in basic, interventional, clinical and translational research. Develops ability to read literature critically and make appropriate scientific inferences. Introduces basics of grant writing. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** STAT 250 or equivalent.

**Schedule Type:** Lecture

**RHBS 489:** Introduction to Clinical Research. 1 credit.
Provides students with a basic understanding of what clinical research is and the scientific principles on which it is based. Starts with a historical perspective on clinical research and then goes on to explore the following topics: purpose of clinical research, ethical and regulatory implications of clinical research, and the roles and responsibilities of all parties involved in clinical research. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** Course is open to honors college students only or by permission of instructor.

**Schedule Type:** Seminar

**RHBS 490:** RS: Clinical Research Internship. 3 credits.
Practical experience in a clinical research setting under the direction of a mentor. Each student is required to work with an experienced clinical investigator who agrees to provide the trainee mentorship. Clinical research embraces a spectrum of scientific disciplines that use a variety of study methods. Therefore, the multidisciplinary approach to clinical research is emphasized during didactic interactions. Note: In addition, an application must be submitted in the semester prior to enrollment in the course. During the semester prior to entry, students may be asked to acquire certain competencies/certifications in order to fully participate at their research site (for example, human subjects research protections training, lab safety certification, HIPAA training). Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** Course is open to honors college students only.

**Schedule Type:** Internship

**RHBS 491:** Directed Research. 1-3 credits.
Engages students in a directed research project under the guidance of a faculty member. Offered by Rehabilitation Science (p. 266). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Permission of the instructor.

**Schedule Type:** Independent Study

**RHBS 499:** Senior Capstone in Rehabilitation Science. 3 credits.
Combines the student’s academic training and professional experiences in order either to develop a community-based activity, intervention, program, or product designed to impact the overall health or performance of the target group or population or to complete an independent research project. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Mason Core:** Capstone (p. 135)

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

### 600 Level Courses

**RHBS 506:** Clinical Exercise Physiology. 3 credits.
Examines acute and chronic alterations and adaptations associated with exercise and training. Covers role of exercise therapy in preventing and rehabilitating from disease across lifespan. Particular emphasis on role of exercise therapy in cardiorespiratory, musculoskeletal, and metabolic diseases. Offered by Rehabilitation Science (p. 266). May not be repeated for credit. Equivalent to GCH 506, RHBS 506.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**RHBS 610: Scientific Basis for Pain and Fatigue.** 3 credits.
Reviews the scientific literature describing the theories of the initiation and perpetuation of pain, fatigue and suffering. Describes the methodologies used to evaluate these symptoms. Students will apply the theories of pain, fatigue and suffering to further their understanding of specific clinical problems. Offered by Rehabilitation Science (p. 266). May not be repeated for credit. Equivalent to RHBS 510.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**RHBS 620: Psychosocial Aspects of Rehabilitation.** 3 credits.
Explores social and psychological impacts of disability. Processes by which people with disabilities adapt to limitations will be examined, as will the influence society has in promoting independence/dependence among people with disabilities. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**RHBS 650: Foundations of Rehabilitation Science.** 3 credits.
Examines the field of rehabilitation science with emphasis on the core theories and models of this emerging discipline. Surveys various topics within rehabilitation science including the history and development of the field, assistive technologies, pathology and impairment research, functional limitations research, disability research, translational research, and ethical considerations in clinical and research settings. Offered by Rehabilitation Science (p. 266). May not be repeated for credit. Equivalent to RHBS 550.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

### 700 Level Courses

**RHBS 702: Biobehavioral Aspects of Health.** 3 credits.
Examines the biological, psychological, and social factors that interact with and affect efforts people make in promoting good health and preventing illness and the recovery, rehabilitation, and psychosocial adjustment of patients with serious health problems. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** GCH 601 or equivalent, or a graduate-level research methods course.

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

### 702 Level Courses

**RHBS 720: Principles of Clinical Trials.** 3 credits.
Provides a practical overview of the fundamental principles of clinical trial design and management, ethical and regulatory factors in the conduct of clinical trials, and their role in clinical practice, public health and decision making. Topics include clinical trial design, biostatistics, ethics and regulatory affairs, study management and oversight, and current concepts. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

**Recommended Prerequisite:** Graduate level statistics/methods

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**RHBS 746: Movement Control and Learning.** 3 credits.
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.
Recommended Prerequisite: RHBS 710

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

RHBS 750: Physiology of Clinical Exercise Interventions. 3 credits.
Critiques current knowledge of exercise prescription in both healthy and clinical populations. Examines physiological effects of exercise interventions, with emphasis on chronic disease and disability. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

Recommended Prerequisite: RHBS 606.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

RHBS 754: Movement Disorders: Etiology, Assessment, and Analyses. 3 credits.
Applies concepts of neuromechanics to the assessment and analysis of normal and pathological movement using both existing clinical assessments and laboratory-based measures of body kinematics, kinetics, muscle activity, and perception/cognition interactions with movement. Discusses benefits and limitations of assessment and analysis techniques as well as current research with regard to advancing these techniques. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

Recommended Prerequisite: RHBS 746.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

RHBS 760: Rehabilitation Science Colloquium. 1 credit.
Public forum for the presentation and discussion of contemporary issues in the field of rehabilitation science. Notes: May be repeated for credit; however a maximum of three credits may be applied to the rehabilitation science PhD. Offered by Rehabilitation Science (p. 266). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

RHBS 761: Aging and Health Behavior. 3 credits.
Examines age-related changes in health and health behavior along with the impact of structural factors, societal, and personal attitudes toward aging. The successful aging paradigm will frame discussion of strategies for facilitating optimal health behaviors. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

Recommended Prerequisite: RHBS 620.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

RHBS 772: Applied Biomechanics in Rehabilitation. 3 credits.
Describes concepts and principles of biomechanics for the study and analysis of functional human movement within the scope of rehabilitation science. Describes the biomechanical principles as applied in both healthy and clinical populations. Develops an understanding of the scientific and clinical applications of biomechanics to rehabilitation interventions. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

RHBS 776: Movement Analysis of Function. 3 credits.
Applies biomechanical principles to record and analyze functional activities, including walking, sit-stand, and reaching. Focuses on data acquisition, processing, and compiling of kinematic and kinetic data including motion capture, center of pressure, and electromyography. Evaluates movement from a joint, total body, and muscular perspective related to performance. Addresses how age and injuries affect functional performance. Offered by Rehabilitation Science (p. 266). May not be repeated for credit. Equivalent to RHBS 670.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

800 Level Courses

RHBS 808: Outcomes Measurement. 3 credits.
Examines the principles of measurement applied to both assessment and outcome measures commonly used in rehabilitation. The student will become familiar with the state of outcomes research in the field of rehabilitation science. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

Recommended Prerequisite: RHBS 550 and RHBS 551.
Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

RHBS 816: Rehabilitation Efficacy and Effectiveness Research. 3 credits.
Examines the theory and methods of comparative effectiveness studies and their relationship to developing Rehabilitation Science and other disciplines to effect better clinical practice by identifying benefits/harms of prevention and treatment and explores the implications of evidence for comparative effectiveness in developing health care policy. Offered by Rehabilitation Science (p. 266). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

RHBS 850: Teaching Practicum. 3 credits.
Prepares students for teaching role as an academic through direct teaching experiences in undergraduate courses in Rehabilitation Science under the supervision of a graduate faculty member, including syllabus development, lecture preparation, presentation skills, grading, and course evaluation. Offered by Rehabilitation Science (p. 266). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment limited to students in the PHD Rehabilitation Science program.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

RHBS 894: Special Topics in Rehabilitation Science. 3 credits.
In-depth study of contemporary topics in Rehabilitation Science. Course topics vary each semester. Notes: Students may take up to 9 credits of RHBS 894 with permission of program director. Offered by Rehabilitation Science (p. 266). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

RHBS 960: Directed Research. 1-6 credits.
Research on a pertinent topic in rehabilitation science. Must be arranged with instructor before registering. Offered by Rehabilitation Science (p. 266). May be repeated within the term for a maximum 24 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

RHBS 998: Doctoral Dissertation Proposal. 1-9 credits.
Work on research proposal that forms basis for doctoral dissertation. Offered by Rehabilitation Science (p. 266). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Advancement to PhD candidacy.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

RHBS 999: Dissertation Research. 1-9 credits.
Dissertation research on a specific topic under the direction of a faculty member. Offered by Rehabilitation Science (p. 266). May be repeated within the degree for a maximum 24 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Religious Studies (RELI)

100 Level Courses

RELI 100: The Human Religious Experience. 3 credits.
Examines main forms of religious expression as embodied in several important religious traditions in contemporary world. Investigates religious experience; myth and ritual; teachings and scripture; ethical, social, and artistic aspects of religion; and nature and function of religion in human society. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)

Schedule Type: Lecture
RELI 110: Introduction to Jewish Ethics. 3 credits.
Brief overview of Judaism and its classical texts. Examines a number of current ethical issues including artificial insemination, stem cell research, transplantation, abortion, homosexuality, capital punishment, from a Jewish perspective. Offered by Religious Studies (p. 476). May not be repeated for credit.

Schedule Type: Lecture

200 Level Courses
RELI 211: Religions of the West. 3 credits.
Focuses on Judaism, Christianity, and Islam from historical, comparative, and cross-cultural perspectives. May also include modern developments of those faiths such as Mormonism and Baha'i, as well as Zoroastrianism and religions of ancient Near Eastern cultures. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture

RELI 212: Religions of Asia. 3 credits.
Surveys religions of India, Hinduism, Jainism, Sikhism, Buddhism, and the religions of the Far East, China, and Japan, including Daoism, Confucianism, Shinto, from origins to present. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture

RELI 235: Religion and Literature. 3 credits.
Explores the relationship between religion and literature in different times and cultures, the influence of religion on literary works, and how literature expresses major religious themes such as death and immortality, divine will and justice, suffering and human destiny, and religion and state. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Literature (p. 135)

Schedule Type: Lecture

RELI 240: Death and the Afterlife in World Religions. 3 credits.
Explores how selected world religions address the universal experience of death and express their beliefs in an afterlife. Focuses on the scriptures, beliefs, rituals and customs of selected world religions as they reflect each tradition's response to the most basic question about human destiny - how human beings face death and attempt to transcend it. Offered by Religious Studies (p. 476). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

RELI 272: Islam. 3 credits.
Introduces basic religious beliefs and practices of Islam, with view to diverse manifestations of Islamic culture in different ethnic and social contexts. Provides overview of essential rituals of Islamic life, mystical practices of Sufis, certain popular forms of religious practice, sources and application of Islamic law, and distinctive Islamic artistic and literary forms. Offered by Religious Studies (p. 476). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

300 Level Courses
RELI 313: Hinduism. 3 credits.
Introduces Hindu religion and thought, beliefs, rituals, ethics and religious practices. Emphasis on classical Hinduism, but also covers Hinduism and modernity, modern Hindu movements, and Hinduism as a global religion. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture

RELI 314: Chinese Philosophies and Religious Traditions. 3 credits.
Surveys major religious traditions and philosophical themes of China including Confucianism, Taoism, and Chinese Buddhism and Neo-Confucianism. Examines foundation of Chinese world view and spirituality by investigating diverse religious traditions that have created tensions and harmony among them. Offered by Religious Studies (p. 476). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: RELI 212 or permission of instructor.

Schedule Type: Lecture

RELI 315: Buddhism. 3 credits.
Surveys Buddhist religious traditions. Includes historical development of Buddhism in India, China, and Japan, examining both Theravada and Mahayana traditions; philosophical and religious significance of Buddhism; and social and political implications of Buddhist traditions in South Asian and East Asian countries. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture

RELI 316: Modern Christian Thought. 3 credits.
Examines influential Christian thinkers and Christian intellectual trends of the modern period, from the Enlightenment through the present. Offered by Religious Studies (p. 476). May not be repeated for credit.

Schedule Type: Lecture

RELI 317: Daoism. 3 credits.
Explores philosophical ideas, spiritual orientation, religious practice, and social and political values in Daoist tradition reading classic Daoist texts including Dao De Jing, Chuang-tzu, and other sources. Discusses Daoism in light of comparative and cross-cultural studies for global understanding of issues on concepts of nature, human nature, and good and evil. Offered by Religious Studies (p. 476). May not be repeated for credit.

Schedule Type: Lecture
RELI 320: Religion and Revolution in Latin America. 3 credits.
Explores the intersection between Christian and revolutionary thought, such as Marxism and existentialism, in Latin America after the 1960s that formed liberation theology. Emphasis on historical, philosophical and interdisciplinary issues. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)

Schedule Type: Lecture

RELI 322: Religions of Africa. 3 credits.
Explores traditional religious practices and world views in Africa south of the Sahara, the spread of African religions to the Caribbean and the Americas, the forms that religions imported or imposed from the north have taken in Africa south of the Sahara, and the interaction among the religious cultures of Africa, European Christianity and Islam. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)

Schedule Type: Lecture

RELI 330: Religion, Fantasy and Imagination. 3 credits.
Explores the worlds of religion, fantasy and imagination, presented in selected writings of 20th century fantasy authors, including Lewis, Tolkien, Pullman, Rowling. Covers ideas of quest for enlightenment, redemption or salvation, conflict between good and evil, worlds of the supernatural, parallel dimensions and their inhabitants. Offered by Religious Studies (p. 476). May not be repeated for credit.

Schedule Type: Lecture

RELI 331: Religion in America. 3 credits.
Religious heritage in American culture, growth of denominations and sects, and interrelationship of religion and sociopolitical life. Offered by Religious Studies (p. 476). May not be repeated for credit.

Schedule Type: Lecture

RELI 332: Mormonism. 3 credits.
Examines the origins and development of Mormonism, as embodied in the Church of Jesus Christ of Latter-day Saints and other related churches. Introduces students to a critical analysis of Latter-day Saint scriptures, rituals, and history. Offered by Religious Studies (p. 476). May not be repeated for credit.

Schedule Type: Lecture

RELI 333: Spiritual Autobiography. 3 credits.
Investigates the genre of autobiography as employed by religious authors, both classical and modern. Introduces students to personal, historical, and religious doctrinal contexts that shape the autobiographical literature. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Literature (p. 135)

Schedule Type: Lecture

RELI 337: Mysticism: East and West. 3 credits.
Comparative treatment of major expressions of mysticism in East and West through exploration of various ways of understanding mystical experience. Readings and discussion emphasize one or more of the Eastern (Hinduism, Buddhism, Taoism, Zen) and Western (Judaism, Christianity, Islam) traditions. Offered by Religious Studies (p. 476). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

RELI 341: Global Perspectives on Spirituality and Healing. 3 credits.
Cross-cultural investigation of human understandings of relationship between spirituality and health. Beliefs about spiritual causes of sickness and health and spiritual techniques of healing in variety of world cultures placed in context of religious beliefs of those cultures. Offered by Religious Studies (p. 476). May not be repeated for credit.

Mason Core: Global Understanding, Encore:Well-Being (p. 135)

Recommended Prerequisite: 30 credits or permission of instructor.

Schedule Type: Lecture

RELI 350: Religion and History of Ancient Israel. 3 credits.
Examines religion and history of ancient Israel from origins around 1250 BCE to Babylonian Exile in 587 BCE. Topics include debate on historical value of biblical narratives, extra-biblical texts mentioning Israel, move from polytheism to monotheism, archaeology and artifacts, and development of Israel's unique religious and historical self-understanding. Offered by Religious Studies (p. 476). May not be repeated for credit.

Schedule Type: Lecture

Evaluates the political and religious goals of Muslim societies and governments, and whether these goals are conducive to the development of democratic institutions to promote democratic cultures and explicit support for human rights, as well as to these societies' full integration in an international order founded upon secularism and modernism. Offered by Religious Studies (p. 476). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

400 Level Courses

RELI 401: Death and the Afterlife in World Religions. 3 credits. Examination of the rituals, practices, and beliefs regarding death and the afterlife in world religions past and present. Emphasis placed on crosscultural and comparative aspects. Offered by Religious Studies (p. 476). May not be repeated for credit.

Recommended Prerequisite: 60 credits including six credits in Religious Studies, or permission of instructor.

Schedule Type: Lecture

RELI 403: Scripture and Authority in World Religions. 3 credits. Examines origins, development, and role of Scripture (religious texts) in world religions, concentrating on issues of divine inspiration, authority, authenticity, and canon. Offered by Religious Studies (p. 476). May not be repeated for credit.

Recommended Prerequisite: 60 credits including 6 credits of Religious Studies or permission of instructor.

Schedule Type: Lecture

RELI 405: Religion, Values, and Globalization. 3 credits. Explores diverse value systems, ethical norms, and teaching found in different religious traditions and cultures. Examines assumption that globalization is attempt to universalize Western culture. Offered by Religious Studies (p. 476). May not be repeated for credit.

Recommended Prerequisite: 60 credits, including 6 credits in Religious Studies or permission of instructor.

Schedule Type: Lecture

Recommended Prerequisite: 60 credits; 6 credit hours in Philosophy or Religious Studies.

Schedule Type: Lecture

RELI 420: Seminar. 3 credits. Senior seminar on a specific topic of relevance to religious studies. Content varies. Notes: May be repeated when topic varies. Students with other majors may be take the course if the topic is sufficiently close to
their field of study. Offered by Religious Studies (p. 476). May be repeated within the term for a maximum 12 credits.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Major in religious studies with 60 credits including 9 credits or permission of instructor.

**Schedule Type:** Lecture

**RELI 425: Directed Readings in Religious Studies.** 1-3 credits. Individual readings and research in religious studies on a topic selected in consultation with instructor. Offered by Religious Studies (p. 476). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Major in religious studies with 60 credits including 9 credits in religious studies.

**Schedule Type:** Independent Study

**RELI 426: Religious Studies Internship.** 3 credits. Course rubric to be used for acquiring academic credit in Religious Studies for religious studies related internships. Offered by Religious Studies (p. 476). May not be repeated for credit.

**Recommended Prerequisite:** The completion of 60 undergraduate credits and 12 credits toward the Religious Studies major or minor.

**Schedule Type:** Internship

**RELI 490: Comparative Study of Religions.** 3 credits. Cross-cultural examination of comparative aspects of religious phenomena. Examines significance of religious phenomena from diverse religious and cultural perspectives, and investigates patterns of religious phenomena that have appeared in world cultures and civilizations. Offered by Religious Studies (p. 476). May not be repeated for credit.

**Mason Core:** Synthesis (p. 135)

**Specialized Designation:** Non-Western Culture

**Recommended Prerequisite:** 9 credits in religious studies including RELI 211 and RELI 212, or permission of instructor.

**Schedule Type:** Lecture

**500 Level Courses**

**RELI 591: Special Topics in Religious Studies.** 3 credits. Topics in religious studies selected by importance in the field and pertinent to the role of religion in society and culture. Emphasis on historical, interdisciplinary, and cross-cultural issues. Notes: May be repeated when topic is different with permission of department. Offered by Religious Studies (p. 476). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**600 Level Courses**

**RELI 630: Approaches to the Study of Religion.** 3 credits. Examines study of religion as academic discipline. Evaluates various intellectual approaches and methods used in study of religious phenomena. Offered by Religious Studies (p. 476). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Both duality and interconnectedness of sacred and secular explored to facilitate fresh understanding of essential unity of human religiosity and spirituality. Offered by Religious Studies (p. 476). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**RELI 633: Ethical Perspectives of World Religions.** 3 credits. Examines how perceptions of ultimate reality shape ethical values and behaviors of various religious traditions. Addresses problems in interpretation of authoritative foundational teachings in contemporary contexts. Special attention to non-Western religions. Offered by Religious Studies (p. 476). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**RELI 635: World Religions in Transition and Transformation.** 3 credits.
Explores transitions and transformations in selected world religions as they respond to and influence forces of cultural change, social values, and the crises of history. Fresh or modified constructions of the sacred and their relationship to world and humans will be examined. Offered by Religious Studies (p. 476). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**RELI 636: Religion and the Natural Environment.** 3 credits.
Explores contemporary religious thought on the morality and ethics of environmental responsibility. Begins with an exploration of this issue in Western Christian thought and examines religious approaches to the environment in the traditional and contemporary thought of other major world religions, including Judaism, Islam, Hinduism, Buddhism, and the Chinese traditions. Offered by Religious Studies (p. 476). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**RELI 640: Religion and Law.** 3 credits.
Focuses on United States Supreme Court decisions on religion clauses over the last 50 years. Provides a close reading of court's opinions and considers material from religious legal traditions. Covers contemporary political debates on issues like prayer in public schools, displays of religious symbols, ceremonial references to God, and public aid to religious schools. Offered by Religious Studies (p. 476). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**RELI 642: Sacred Language, Scripture, and Culture.** 3 credits.
Explores how sacred languages and scriptures develop in major global religious traditions: study of grammar, syntax, and morphology of sacred languages; issues of inspiration, authority and canon. Also examines cultural dimensions of sacred language. Notes: May be repeated once when languages are different. Offered by Religious Studies (p. 476). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**RELI 644: Islamic Texts and Contexts.** 3 credits.
Introduces foundational Islamic texts; scholarly traditions of commentary, criticism and analysis on these texts; and application and significance of these texts in contemporary Islamic discourses. Offered by Religious Studies (p. 476). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**RELI 645: Muslim Comparative Theologies: Sunni-Shi`i Religious Thought.** 3 credits.
Compares and analyzes Sunni and Shi‘ite theologies, with particular attention to the historical development of Muslim creed in the context of social and political conditions, and the essential differences between the Sunni and Shi‘ite schools of thought. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Schedule Type: Lecture

200 Level Courses

RUSS 201: Intermediate Russian I. 3 credits.
Further development of skills in listening, speaking, reading, and writing. Notes: RUSS 201 and 202 must be taken in sequence. Students may not receive credit for RUSS 201 and RUSS 210. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to RUSS 210.

Recommended Prerequisite: RUSS 102, appropriate placement score or permission of instructor.

Schedule Type: Lecture

RUSS 202: Intermediate Russian II. 3 credits.
Application of language skills to reading, composition, and discussion. Notes: Students may not receive credit for RUSS 202 and RUSS 210. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to RUSS 210.

Recommended Prerequisite: RUSS 201, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

RUSS 210: Intermediate Russian. 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Russian-speaking regions. Lab work required. Notes: Students may not receive credit for RUSS 210 and RUSS 101, 102. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to RUSS 201, RUSS 202, RUSS 209.

Recommended Prerequisite: RUSS 110, or appropriate placement score.

Schedule Type: Lecture

RUSS 250: Gateway to Advanced Russian. 3 credits.
Integration of advanced intermediate-level Russian grammar, reading, writing, listening and speaking skills with the development of research skills and critical thinking about authentic texts from contemporary media. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Russian

Recommended Prerequisite: RUSS 210.

Schedule Type: Lecture

300 Level Courses

RUSS 302: Russian Conversation and Composition. 3 credits.
Develops in students ability to express themselves orally on topics of current interest and everyday situations. Provides practice in more
difficult forms of written expression. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Russian, Writing Intensive in the Major

**Recommended Prerequisite:** RUSS 250, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**RUSS 303:** *Russian Advanced Conversation.* 3 credits.
Development of oral proficiency. Includes current colloquial expressions. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Russian

**Recommended Prerequisite:** RUSS 250, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**RUSS 300: Readings in Russian Literature.** 3 credits.
Readings of Russian literary works in original language with lectures, discussions, and exam in Russian. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Russian

**Recommended Prerequisite:** RUSS 250, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**RUSS 310: Contemporary Russian Short Fiction.** 3 credits.
Reading and discussion of recent short stories by best-known Russian writers of today. Notes: Readings in original language. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Russian

**Recommended Prerequisite:** RUSS 250, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**RUSS 325: Major Russian Writers.** 3 credits.
Study of works of major Russian writers in translation. Writers to be studied vary. Notes: May be repeated once for credit when course content is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the term for a maximum 9 credits.

**Mason Core:** Literature (p. 135)

**Specialized Designation:** Taught in English, Non-Western Culture

**Recommended Prerequisite:** 60 credits and completion or concurrent enrollment in all other required Mason Core courses.

**Schedule Type:** Lecture

**RUSS 354: Contemporary Post-Soviet Life.** 3 credits.
Social life, art, economics, education, view of life, and personal aspirations of Russian citizen today. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Mason Core:** Global Understanding (p. 135)

**Specialized Designation:** Taught in English, Non-Western Culture

**Recommended Prerequisite:** 54 hours or Permission of Instructor.

**Schedule Type:** Lecture

**RUSS 382: Advanced Russian I.** 3 credits.
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Russian

**Recommended Prerequisite:** RUSS 202, 250 or equivalent; appropriate placement score; or permission of instructor.

**Schedule Type:** Lecture

**RUSS 383: Advanced Russian II.** 3 credits.
Comprehensive study of the more difficult characteristics of contemporary standard Russian in areas of grammar, style, and vocabulary usage. Emphasizes developing fluency in oral and written expression. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.
Recommended Prerequisite: RUSS 202, 250 or equivalent; appropriate placement score; or permission of instructor

Schedule Type: Lecture

400 Level Courses
RUSS 401: Readings in the Social Sciences. 3 credits.
Reading, translation, and discussion of Russian materials in fields of history, politics, geography, and sociology. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Russian

Schedule Type: Lecture

RUSS 407: Russian Drama and Theater. 3 credits.
Development of Russian theater including directing techniques in Moscow Art Theater. Reading and discussion of major Russian plays of 19th and 20th centuries. Notes: Course work in English; knowledge of Russian not required. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in English

Recommended Prerequisite: 60 hours or permission of instructor.

Schedule Type: Lecture

RUSS 410: Russian Poetry. 3 credits.
Historical development of Russian poetry and representative works of major poets. Notes: Reading in Russian; course work in English and Russian. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Schedule Type: Lecture

For more information about this, see the "Termination from the Major" section under Academic Policies. Notes: Taught in lecture/recitation format; requires attendance at weekly lecture and weekly recitation. Offered by School of Business (p. 846). Limited to three attempts.

Specialized Designation: Writing Intensive in the Major

Registration Restrictions:
Enrollment limited to students with a class of Freshman, Junior, Sophomore, Senior Plus or Senior.
Non-Degree level students may not enroll.

undefined

Schedule Type: Laboratory, Lecture

Social Work (SOCW)

100 Level Courses
SOCW 110: Global Perspectives on Human Rights. 3 credits.
Explores awareness about human rights issues around the world. Students will become familiar with current debates about human rights, especially whether rights should be culturally determined. The role of
the United Nations, governmental and nongovernmental organizations, including social service organizations will be presented. Emerging issues including the rights of children; the rights to food, shelter, and health care; and racial and economic equality will be emphasized. Notes: Open to social work and nonsocial work majors; does not count toward the social work degree requirements. Offered by Social Work (p. 271). May not be repeated for credit.

Schedule Type: Lecture

**200 Level Courses**

**SOCW 200:** *Introduction to Social Work*. 3 credits.
Introduces historical roots of social work profession and social welfare. Person-in-environment perspective discussed as framework for social work knowledge, values, and skills. Initial course in social work curriculum introduces social work profession, professional values, ethics, fields of practice, and settings in which social workers are employed. Highlights profession's commitment to diverse and at-risk populations and social and economic justice. Presentations by social work professionals in different fields of practice supplement classroom lecture, discussion, and small-group exercises. Notes: Open to all majors. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200.

**Registration Restrictions:**
Enrollment is limited to students with a major in Social Work. Students cannot enroll who have a minor in Social Work.

**Schedule Type:** Lecture

**Specialized Designation:** Discovery of Scholarship

**300 Level Courses**

**SOCW 311:** *Building Professional Social Work Skills*. 3 credits.
Apply basic social work concepts and the planned change process to beginning-level professional generalist practice. Develop a professional sense of self, and how to work in a social work setting. Practice course material in an agency setting through a 40 hour service learning experience. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200.

**Registration Restrictions:**
Enrollment is limited to students with a major in Social Work. Students cannot enroll who have a minor in Social Work.

**Schedule Type:** Lecture

**SOCW 312:** *Knowledge Building for Helping Professionals*. 3 credits.
Integrates critical thinking skills with an understanding of how knowledge is created and associated with the scientific paradigms that are used to study and understand individuals in the context of the environment. Examines ways of knowing used in the social sciences and social work by being actively engaged in exercises and activities. Offered by Social Work (p. 271). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Recommended Prerequisite:** SOCW 200.

**Schedule Type:** Lecture

**SOCW 357:** *Methods of Social Work Intervention I*. 3 credits.
Social work practice from systems perspective. Particular emphasis on problem-solving activities with microsystems. Analyzes common core of knowledge, values, and skills essential to social work practice to gain insight into social work functions and role of social worker as change agent. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200, SOCI 101, PSYC 100, or permission of the instructor.

**Recommended Corequisite:** SOCW 361.

**Registration Restrictions:**
Students cannot enroll who have a minor in Social Work.

**Schedule Type:** Lecture

**SOCW 358:** *Methods of Social Work Intervention II*. 3 credits.
Continues generic problem-solving model, focusing on group and macro intervention systems, settings, and skills. Emphasizes working with both treatment and task groups. Group processes, such as goal formulation, contract setting, composition, and termination necessary for effective worker intervention, are part of knowledge base. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200, 357, and 361

**Recommended Corequisite:** SOCW 362.

**Registration Restrictions:**
Enrollment is limited to students with a major in Social Work. Students cannot enroll who have a minor in Social Work.

**Schedule Type:** Lecture

**SOCW 359:** *Junior Seminar*. 1 credit.
Provides opportunity to integrate theory, research, and practice in area of group work. Time is allotted to process successes and obstacles, and to share issues, knowledge, and skills learned in service-learning site. Notes: Forty hours of service learning are required. Offered by Social Work (p. 271). May not be repeated for credit. Equivalent to SOCW 362.

**Recommended Prerequisite:** SOCW 301.

**Recommended Corequisite:** SOCW 358.

**Registration Restrictions:**
Enrollment is limited to students with a major in Social Work.

**Schedule Type:** Seminar

**SOCW 361:** *Methods of Social Work Intervention I: Laboratory*. 2 credits.
Develop proficiency in social work and communication skills. Increase competency in practice knowledge and behaviors through experiential learning in the classroom laboratory. Apply knowledge of biological, psychological, social, spiritual, and cultural influences to those who need and those who give help. Examine personal behavioral and learning patterns, values, ethics, and attitudes to increase ability to understand and help clients. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200.

**Recommended Corequisite:** SOCW 357.

**Registration Restrictions:**
Enrollment is limited to students with a major in Social Work. Students cannot enroll who have a minor in Social Work.

**Schedule Type:** Laboratory

**SOCW 362:** *Methods of Social Work Intervention II: Laboratory*. 2 credits.
Provides students the opportunity to integrate theory, research, and practice in the area of group work and family interventions. Classroom
simulation of group skills and how to work with families will occur. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Corequisite: SOCW 358.

Registration Restrictions:
Required Prerequisites: SOCW 200C, 357C and 361C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Social Work. Students cannot enroll who have a minor in Social Work.

Schedule Type: Laboratory

SOCW 375: Human Behavior and the Family Life Course. 3 credits. This course utilizes an integrative ecological approach to understanding individual human behavior in the context of the family and the transitions over the life course. The family life course perspective recognizes the interdependent nature of life course experiences and highlights the impact of life events, transitions and change, timing, and historical and social context. Offered by Social Work (p. 271). May not be repeated for credit.

Mason Core: Synthesis (p. 135)

Recommended Prerequisite: SOCW 200; BIOL 103; PSYC 100; SOCI 101.

Schedule Type: Lecture

SOCW 380: Changing Social Policies and Systems. 3 credits. Equips students with basic macro social work practice skills necessary to create change that will result in a more socially and economically just society. Examines the historical development, central concepts, and institutional nature of current social policies and systems and how to create change at various levels. Applies practice skills to developing strategies for change. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: SOCW 200.

Schedule Type: Lecture

SOCW 390: Analytic Methods for Social Work Research. 3 credits. Provides a basic introduction to quantitative and qualitative analytic methods for the social worker. The course will emphasize a conceptual understanding of analyses so that students will be able to engage in social debates with the ability to both support their assertions with rigorously generated analyses, as well as question the generalizability and utility of others' analyses. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: SOCW 200.

Schedule Type: Lecture

400 Level Courses

SOCW 400: Legal and Ethical Issues in Human Services. 3 credits. Overview of ethical and legal issues related to human services professions. Topics include responsibility, competence, duty to warn, confidentiality, professional relationships, and research. Emphasizes models of ethical decision making and critical thinking. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

SOCW 410: Alcohol and Substance Abuse: Policies and Programs. 3 credits. Primary issues related to alcoholism and drug abuse including key concepts, theories, policies, and research regarding use and abuse of alcohol and other drugs. Emphasizes impact of policies and programs on well-being of ethnic minority and disadvantaged service populations. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

SOCW 415: Child and Family Welfare. 3 credits. Emphasizes viewing human development and child and family welfare services critically, holistically, and contextually. Integrates ecological systems, human rights, and empowerment perspectives for understanding delivery systems and persons in relation to their environment across levels from individual to global. Provides overview of existing child welfare system with focus on current issues, challenges, and at-risk populations. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

SOCW 435: Introduction to Gerontology. 3 credits. Examines the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities. Offered by Social Work (p. 271). May not be repeated for credit. Equivalent to GCH 445.

Recommended Prerequisite: 45 credits or permission of the instructor.

Schedule Type: Lecture

SOCW 445: Social Determinants of Health. 3 credits. Examine the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities. Offered by Social Work (p. 271). May not be repeated for credit. Equivalent to GCH 445.

Recommended Prerequisite: 45 credits or permission of the instructor.

Schedule Type: Lecture

SOCW 471: Research in Social Work. 3 credits. Principles and theory underlying scientific inquiry. Emphasizes use of research in social work practice, steps in conducting research, and research efforts in developing and evaluating social work knowledge and skills. Notes: Must be completed with minimum grade of C. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: 45 credits or permission of the instructor.

Schedule Type: Lecture

Mason Core: Scholarly Inquiry, Writing Intensive in the Major

Specialized Designation: Scholarly Inquiry, Writing Intensive in the Major

Recommended Corequisite: SOCW 200; SOCW 312; ENGH 302.

Recommended Corequisite: SOCW 452; SOCW 453; Choose one of the following: SOCW 390, STAT 250, SOCI 313, or PSYC 300.
Both the field practicum and the associated seminar provide learning activities designed to facilitate the demonstration of competencies identified by the Council on Social Work Education. Requires faculty-agency visits. Offered by Social Work (p. 271). May not be repeated for credit. Equivalent to SOCW 452, SOCW 453.

Recommended Prerequisite: SOCW 200, 311, 312, 357, 358, 361, 362, 375, and 380 with a minimum grade of C and recommendation of faculty.

Registration Restrictions:
Enrollment is limited to students with a major in Social Work.

Schedule Type: Internship

SOCW 496: Field Practicum and Seminar II. 5 credits.
Continuation of supervised instruction begun in SOCW 495. Students continue to spend two days per week in a social work field practicum, which provides entry level generalist social work training. Both the field practicum and the associated seminar provide learning activities designed to facilitate the demonstration of competencies identified by the Council on Social Work Education. Requires faculty-agency visits. Offered by Social Work (p. 271). May not be repeated for credit. Equivalent to SOCW 454, SOCW 456.

Recommended Prerequisite: SOCW 495 with a minimum grade of C.

Registration Restrictions:
Enrollment is limited to students with a major in Social Work.

Schedule Type: Internship

Investigates research problem in field of social work. Offered by Social Work (p. 271). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: 60 credits and a research proposal approved by instructor before enrollment.

Schedule Type: Independent Study

600 Level Courses

SOCW 623: Human Behavior and Social Systems I. 3 credits.
Ecological approach to behavior of individuals, families, groups, organizations, and communities. Integrates and applies theories from psychology, sociology, biology, and anthropology to study of infants, children, and adolescents. Emphasizes human diversity. Offered by Social Work (p. 271). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCW 624: Human Behavior and Social Systems II. 3 credits.
Continues study of human behavior and diversity by exploring application of development theory and ecological principles to those in young adulthood, middle adulthood, and older adulthood. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: SOCW 623.
Prevention and intervention, suicide prevention and intervention, international context. Possible areas of exploration include violence prevention, and intervention with communities in a local, national, or international context. Students use an ecosystems framework for assessment, risk-reduction, prevention, and intervention with communities in a local, national, or international context. Possible areas of exploration include violence prevention and intervention, suicide prevention and intervention, emergency response efforts, and behavioral health or wellness interventions at the community level. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: SOCW 624, 652, 658, and 673.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCW 630: Forensic Social Work Practice. 3 credits. Explores the social work role in legal processes relating to such issues as family violence, child custody, behavioral health, disabilities, aging, and juvenile/criminal justice. Apply skills in forensic interviewing, risk assessment, expert testimony, mitigation, mediation, treatment, victim advocacy, and multidisciplinary collaboration. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: SOCW 624, 652, 658, and 673.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCW 640: Advanced Clinical Practice. 3 credits. Prepares students at the advanced level to apply diagnostic, assessment, prevention, treatment, and intervention skills with individuals, families, and groups in clinical mental health and health settings. Trains students in differential diagnosis and assessment using the Revised Diagnostic and Statistical Manual (DSM IV-TR). Currently accepted treatment interventions within the context of contemporary social work theory are also presented. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: All foundation year coursework: SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673, and 680.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCW 645: Community-Centered Clinical Practice. 3 credits. Students use an ecosystems framework for assessment, risk-reduction, prevention, and intervention with communities in a local, national, or international context. Possible areas of exploration include violence prevention and intervention, suicide prevention and intervention, emergency response efforts, and behavioral health or wellness interventions at the community level. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: SOCW 624, 652, 658, and 673.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCW 650: Forensic Social Work Practice. 3 credits. Explores the social work role in legal processes relating to such issues as family violence, child custody, behavioral health, disabilities, aging, and juvenile/criminal justice. Apply skills in forensic interviewing, risk assessment, expert testimony, mitigation, mediation, treatment, victim advocacy, and multidisciplinary collaboration. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: SOCW 624, 652, 658, and 673.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCW 651: Social Policies, Programs, and Services. 3 credits. History of American social welfare policy and social work profession. Explores political, economic, social, cultural, and ideological influences on policy making with emphasis on consequences for populations at risk. Introduces historical policy analysis. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: SOCW 651.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCW 652: Influencing Social Policy. 3 credits. Introduces students to the knowledge, skills, and values needed to influence policy outcomes. Explores the role of social workers in electoral politics and policy advocacy. Students gain skills in legislative research, coalition building, testifying, constituent organizing, and lobbying, while developing strategies for promoting social justice through policy change. Offered by Social Work (p. 271). May not be repeated for credit.

Recommended Prerequisite: SOCW 651.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCW 653: Immigration Policy. 3 credits. Prepares students for advocacy on behalf of immigrants from a human rights and social justice perspective. Explores policies, economic forces and historical precedence abetting global migration. Abets development of an in-depth knowledge of national and local policies as they pertain to
immigrants, and how issues relate to social work advocacy. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** Completion of all first-year graduate coursework or advanced standing.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 654: Social Policy for Children and Youth.** 3 credits.
Examines social policies, programs, and services on behalf of children and youth with implications for social work; including child welfare, child and adolescent health and mental health, juvenile justice, and school social work. Explores how societal norms regarding family and definitions of children’s well-being influenced these policies over time. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW foundation coursework.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 655: Aging Programs and Policies.** 3 credits.
Analyzes the evidence-based benefits and challenges of social welfare and health care policy at the local, state, and federal levels on programs and services for older persons and their families. Fosters an understanding of the context of administrative structures, and legislative context of social policy and aging with attention to diversity and ethics. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 652 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 657: Direct Social Work Practice I.** 3 credits.
Introduces role of social workers as change agents and the core knowledge, values, and skills that guide social work practice with individuals, families, small groups, organizations, and communities. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Corequisite:** SOCW 672.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 658: Direct Social Work Practice II.** 3 credits.
Continuation of social work theory and practice with individuals, families, groups, organizations, and communities. Emphasizes intervention, evaluation, follow-up, and termination, with attention to incorporating social work knowledge, values, and skills. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 657.

**Recommended Corequisite:** SOCW 673.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 663: Global Human Rights Policy.** 3 credits.
Examines meaning and benefits of transforming social work policy practice to a global perspective and focus on a human rights-based rather than a needs-based approach. Demonstrates how human rights can serve as conceptual framework for policy practice to effect social change promoting human development and social and economic justice across levels, from the micro through macro and local through global. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW Foundation curriculum or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Students in a Non-Degree Undergraduate degree may not enroll.

**SOCW 664:** Art Therapy and Social Work. 3 credits.
Explores the principles and techniques of art therapy for social work practice, examining assessment, intervention and evaluation strategies that supplement traditional social work treatment. Course covers theory, research, and interventions applied to individuals, families, groups, and communities. Notes: Previous training in the visual arts and/or artistic ability is not required. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW Foundation curriculum or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 665:** Integrated Behavioral Health Policy. 3 credits.
Examines policy concerns and strategies for implementing integrated behavioral health care models. Identifies practice models that integrate substance abuse and mental health with primary health care. Provides an overview of the U.S. health care system, including legislation, financing, and health care disparities. Students will develop an understanding of access to health care as a social justice concern. Offered by Social Work (p. 271). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 667:** Social Work Program Planning, Communications, and Technology. 3 credits.
Studies various forms of written communication pertinent to social work practice. Examines impact of audience, status, culture, and purpose on effective professional writing. Offered by Social Work (p. 271). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 671:** Research Methods for Social Workers. 3 credits.
Examines role of scientific inquiry in social work. Emphasizes construction and use of measurement instruments, data collection, analysis, and interpretation, and application of computer technologies relevant to social work practice. Offered by Social Work (p. 271). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 672:** Generalist Field Practicum and Seminar I. 3 credits.
Provides supervised social work learning experience in human service agencies. Students complete 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning and integrate theory with practice. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Corequisite:** SOCW 657.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**SOCW 673:** Generalist Field Practicum and Seminar II. 3 credits.
Continues the supervised social work learning experience begun in SOCW 672. Students spend 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning, process experiences, and integrate theory with practice. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 672.

**Recommended Corequisite:** SOCW 658.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship
**SOCW 674: Psychopathology.** 3 credits.
Overview of adult and child psychopathology presented within the contexts of the lives of people experiencing mental disorders and the social contexts that can have a bearing on symptom maintenance. Learn to formulate competency-based assessments and DSM IV-TR-based differential diagnoses. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** All foundation year coursework (SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673).

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to students with a major in Social Work.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 675: Selected Topics in Clinical Practice.** 3 credits.
In-depth study of special topics related to clinical social work practice at the individual, family, small group, or community level. Notes: May be repeated for credit when topic is different. Offered by Social Work (p. 271). May be repeated within the term for a maximum 12 credits.

**Recommended Prerequisite:** 30 graduate credits or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to students with a major in Social Work.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 676: Selected Topics in Social Work and Social Change.** 3 credits.
Critical examination of special topics related to understanding and improving community and societal conditions through policy practice, program development, and social action. Notes: May be repeated for credit when topic is different. Offered by Social Work (p. 271). May be repeated within the term for a maximum 12 credits.

**Recommended Prerequisite:** 30 graduate hours or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to students with a major in Social Work.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 677: Family Therapy.** 3 credits.
Examines research and theory relevant for assessment and intervention with families. Students will learn to conduct a family assessment, taking cultural diversity, non-traditional family structures including single-parent and GLBTQ families, and socioeconomic factors into account. Students will develop skills in implementing an intervention based on the family's strengths and challenges. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW foundation coursework.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to students with a major in Social Work.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 678: Trauma and Recovery.** 3 credits.
Explores complex traumatic stress disorders, the process of recovery, and the etiology of healing in contemporary North American culture. Diagnostic criteria, assessment strategies and evidence-based treatment options for complex traumatic stress disorders across diverse populations including sexual trauma, war, early childhood trauma and natural disasters will be addressed. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW foundation coursework.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to students with a major in Social Work.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 679: Military Social Work.** 3 credits.
Examines research and theory relevant for social work practice with service members, veterans, and their families. The course addresses the military as a workplace culture, evidence-based approaches for post-traumatic stress and co-morbid conditions, clinical practice with military families, preventive care and the service delivery system in military and civilian settings. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW foundation coursework.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to students with a major in Social Work.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 682:** Substance Abuse Interventions. 3 credits. Develops knowledge and skills for direct practice in the field of addictions. The course covers the knowledge base regarding evidence-based interventions at all stages in the process of intervention with individuals, families, and groups that promote recovery from addiction to drug and alcohol abuse. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW foundation coursework.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

- Enrollment is limited to students with a major in Social Work.

- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 684:** Social Work and the Law. 3 credits. Students engage in close analysis of judicial opinions to explore the role of the courts in creating public policy. Areas of inquiry include the role of social workers in the legal system, the nature of legal proceedings, and how the law shapes policy in relation to issues affecting children, youth, families, older adults, women, minorities, people in poverty, and other vulnerable populations. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 624, 652, 658, and 673.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

- Enrollment is limited to students with a major in Social Work.

- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 685:** Organizational Leadership for Social Workers. 3 credits. Examines functions and structure of human service organizations in context of service delivery. Development of theoretical knowledge, professional ethics, and skills in administration, leadership, management, organization, and supervision. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 624, 652, 658, 673.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

- Enrollment is limited to students with a major in Social Work.

- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 688:** Program Evaluation for Social Workers. 3 credits. Explores social work intervention research, needs assessment, formative and summative program evaluation, and cost analyses. Discusses applications of systematic inquiry at the practice, organizational, and policy levels. Addresses ethical, pragmatic, and political considerations; qualitative approaches; quality performance; evidence from empirical research; and evaluation design. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 624, 652, 658, 671, 673. Open to degree seeking students only.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

- Enrollment is limited to students with a major in Social Work.

- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 689:** Clinical Practice with Older Adults. 3 credits. Examines age-associated changes and challenges faced by older adults. Focus is strengthening assessment and intervention skills with older adults, their family members and caregivers within the community and long-term care facilities, determining the best standardized instruments to use, and developing effective questions for assessment. Attention is given to the resilience of elders, ethical issues and diversity. Offered by Social Work (p. 271). May not be repeated for credit.
**Recommended Prerequisite:** SOCW 674 or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCW 692:** Specialist Field Practicum and Seminar I. 3 credits.
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the clinical concentration year practicum. The seminar is designed to assist the student in critically analyzing their field experiences in the application of mental health assessment, risk reduction and interventions working with individuals, families, groups, and communities. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SOCW 693:** Specialist Field Practicum and Seminar II. 3 credits.
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the clinical concentration year practicum. The seminar is designed to assist students in critically analyzing their field experiences in the application of mental health assessment, risk reduction and interventions working with individuals, families, groups, and communities. The seminar continues the fall semester's social work knowledge, values, and skills from across the curriculum. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673, 684, 685, 688, and 692.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SOCW 694:** Specialist Social Change Field Practicum and Seminar I. 3 credits.
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SOCW 695:** Specialist Social Change Field Practicum and Seminar II. 3 credits.
Students continue to work in a supervised social work field practicum for 20 hours per week. At the end of this semester students will have completed 300 hours of field work to meet the total number of 600 hours required for the concentration year practicum. The field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum. Offered by Social Work (p. 271). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, 673, 684, 685, 688, and 694.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SOCW 697:** Thesis Project Seminar. 3 credits.
Provides structured opportunity for students to work with each other and faculty in developing their final MSW thesis projects. Integrates and applies learning from all previous course work, emphasizing knowledge, skills, and values related to research, clinical practice, policy, community practice, and organizational leadership. Social work ethics, empowerment of populations at risk, and systems transformation will be explored. In addition to group meetings, students will meet individually with their faculty mentors. Offered by Social Work (p. 271). May not be repeated for credit.
**300 Level Courses**

**SOCI 300: Social Control and Freedom.** 3 credits.
Explores ways in which individuals are both architects and prisoners of society. Offers a foundational course for examining the "invisible" social forces that shape our lives and the individual and collective capacity to make choices, including social and cultural change. Includes topics such as youth and culture, deviance and crime, social inequalities, and global change. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 301: Criminology.** 3 credits.
Focuses on causes and meaning of crime, with emphasis on adults. Patterns of criminal behavior, including property crimes, violent crimes, organized crime, white-collar crime, and victimless crime. Critical assessment of criminal justice system as a response to crime. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 302: Sociology of Delinquency.** 3 credits.
Examines social factors involved in development of delinquency, including family, political economy, schooling, community environment and culture. Examines various theories of delinquency; rates of delinquency in relation to age, race, gender and social class; and legal system that addresses causes, consequences, and policies of punishment and rehabilitation. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 303: Methods and Logic of Inquiry.** 3 credits.
Actively engages students in original inquiry meaningful to themselves and their communities. Demonstrates the reciprocal relationship between theory and empirical research. Explores the complementarity of interpretive and explanatory logics, employing basic sociological methods. Guides students to formulate research problems; design research; gather and analyze evidence; and organize, frame, and revise arguments, culminating in a public presentation of their projects to the sociology faculty. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Recommended Prerequisite:** SOCI 101, SOCI 102, or permission of instructor.

**Schedule Type:** Lecture

**SOCI 304: The Future of Work.** 3 credits.
Introduces the basic concepts of economic sociology. Explores how the world of work has changed due to globalization, deindustrialization, new technologies, and economic crisis. Focuses on providing students with a better understanding of how markets and corporations work, and about new economic approaches to create new, potentially less alienating work environments. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 307: Social Movements and Political Protest.** 3 credits.
Explores processes for organizing resistance to current social and power arrangements, from terrorism to nonviolent civil resistance to create alternative institutions, policies, or leadership that promote human rights and social justice. Uses historical and contemporary case studies of local...
and global change to explore, how, why, and to what effect individuals have organized to protest the status quo and create social change. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 308: Race and Ethnicity in a Changing World.** 3 credits.
Explores how race and ethnicity have been shaped by policies and practices in Western and non-Western societies. Explores the evolution of racial and ethnic attitudes from a global and historical perspective. Examines how changing demographic racial patterns may affect definitions of race and ethnicity and the ways in which people individually and collectively act to create new futures. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 309: Marriage, Families, and Intimate Life.** 3 credits.
Uses a sociological framework to analyze and understand the diverse forms of contemporary families—traditional marriages, cohabitation, domestic partnerships, single-parents families, stepfamilies, and gay and lesbian families. Explored are topics such as changes in sexual mores, reflected in new dating practices; shifting parenting roles; effects of social class, race and ethnicity; and the outcomes of divorce for couples and children. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 310: Sociology of Deviance.** 3 credits.
Analyzes macro- and microlevel deviance-producing processes, meaning and control of deviance, and major theoretical approaches to deviance. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 311: Classical Sociological Theory.** 3 credits.
Explores sociological tradition through readings and discussions of ideas drawn from writings of selected sociological thinkers such as Comte, Marx, Weber, Durkheim, and others. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Recommended Prerequisite:** 6 credits of upper level (300 or 400 level) sociology courses, or permission of instructor.

**Schedule Type:** Lecture

**SOCI 312: Qualitative Research Methods.** 3 credits.
Introduces ethnography, field work methods, interviewing, life histories, and other qualitative methods to generate data about cultures in which various groups and classes are immersed. Students learn by applying qualitative methods to term projects, developed under guidance of instructor. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Recommended Prerequisite:** 9 credits of Sociology including SOCI 101 or SOCI 102 or permission of instructor.

**Schedule Type:** Lecture

**SOCI 313: Statistics for the Behavioral Sciences.** 4 credits.
Fundamentals of applied statistics as used in behavioral science to include descriptive statistics, inferential statistics, correlation regression, analysis of variance, factor analysis, nonparametric statistics, and practical experience with calculators in applying statistical analysis to actual problems of the behavioral sciences. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Mason Core:** Quantitative Reasoning (p. 135)

**Recommended Prerequisite:** SOCI 101 or permission of instructor.

**Schedule Type:** Laboratory, Lecture

**SOCI 314: Sociology of Culture.** 3 credits.
Examines how culture, encompassing high art or participatory culture, expressive agency or traditional constraint, is produced and reproduced in everyday social practices and across a wide range of social institutions. Explores the role of culture in public life and political discourse. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 315: Contemporary Gender Relations.** 3 credits.
Examines the meaning and significance of gender relations in the US and other societies around the globe. Examines the concepts and processes of privilege, power, and difference to understand how they shape the meaning and construction of feminine and masculine roles and identities and why gender difference (which conceptually does not imply inequality) translates into gender inequality. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit. Equivalent to WMST 301.

**Schedule Type:** Lecture

**SOCI 320: Social Structure and Globalization.** 3 credits.
While focusing on nature and process of change in human society, considers social impact of political, economic, and environmental change and how lives are shaped by complexities of global social forces. Examines specific global issues such as conflict and security; economic disparity; ecological deterioration; populations and migration; legitimation of commerce; diffusion of innovations; and impact of class, status, and power in modern societies. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Mason Core:** Global Understanding, Encore:Sustainability (p. 135)

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Seminar

**SOCI 321: Sociology of Post-Socialism.** 3 credits.
Explores the end of socialism, and how the former Soviet Union and Eastern Europe, as well as the rest of the world, transformed since 1989. Examines art, music, criminality, oligarchs, workers, gender, commodification, nationalism, violence, the self, religion, public health, and the environment during socialism and afterwards. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Seminar

**SOCI 326: Conflict, Violence, and Peace.** 3 credits.
Explores the sociology of conflict, violence, and peace to examine these crucial issues from a scholarly viewpoint. Focuses on the causes and consequences of violence. Examines a wide variety of remedies from conventional deterrence and arms control strategies to alternative perspectives from nonviolent civil resistance to peacebuilding, international law, and restorative justice, as well as...
conflict transformation and resolution strategies. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Schedule Type: Lecture

SOCI 330: US Immigrants and Immigration. 3 credits.
Explores theoretical, empirical, and policy-related issues pertaining to immigration. Examines case studies of immigrant communities and their adaptation patterns, paying particular attention to immigrants from Latin America, Asia, the Caribbean, and the Middle East. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Schedule Type: Seminar

SOCI 332: The Urban World. 3 credits.
Examines cities and the people who live in them in the United States and around the world. Includes topics such as: social and economic development, inequality, political protests, urban democracy, and the environment. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)

Schedule Type: Lecture

SOCI 340: Power, Politics, and Society. 3 credits.
Analyzes how power is defined, attained and sustained in society. Students analyze political power as related to social realities such as democratic elections, class conflict, elite networks, power sharing, protest, and revolution. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Schedule Type: Lecture

SOCI 341: Sociology of Aging. 3 credits.
Examines aging from a sociological perspective. Topics include demographic trends and aging population in America, social construction of life stages and creation of “old age,” cultural labeling, and human resistance. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit. Equivalent to SOCI 441.

Schedule Type: Lecture

SOCI 352: Social Problems and Solutions. 3 credits.
Examines contemporary social problems and their solutions using sociological perspectives. Topics may include housing and homelessness, student debt, mass incarceration, hunger and food insecurity, environment and sustainability, human rights, wealth and global poverty, war and peace. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 135)

Schedule Type: Lecture

SOCI 355: Social Inequality. 3 credits.
Studies class structures and implications for individuals and groups in modern society. Explores issues of race and ethnicity, language and immigration status, sex and gender, social class, age, and sexual orientation. Examines critically the theory and research that explore the construction, experience, and meaning of such differences. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 135)

Schedule Type: Lecture

SOCI 360: Youth Culture and Youth Culture. 3 credits.
Introduces sociology of youth and youth culture. Investigates social, economic, and political realities of youth as a group and different groups of youth, including youth cultural production, formation of youth culture, and youth identities in variety of social settings. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Schedule Type: Lecture

SOCI 373: The Community. 3 credits.
Examines small to moderate-size communities ranging through village, rural community, small town, and city subcommunity. Latter category includes city localities, ethnic villages, and suburban communities. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Schedule Type: Lecture

SOCI 377: Art and Society. 3 credits.
Introduces the many ways in which art reflects social tendencies, comments on social problems, and contributes to discussions about a wide range of social issues. Students attend theatrical performances and visit exhibition spaces on campus, and learn to analyze what they experience through both aesthetic and sociological approaches. Explores contemporary issues such as debates about artistic freedom and public morality, commercialization of art, and relationship between cultural and social hierarchies. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Mason Core: Synthesis (p. 135)

Recommended Prerequisite: 3 credits of ARTH.

Schedule Type: Lecture

SOCI 382: Education in Contemporary Society. 3 credits.
Examines classrooms and schools as social institutions that function as socializing agents for both stability and societal change. Emphasizes the influence of inequality on educational processes and outcomes and critically examines the social organization of the U.S. public school system. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Schedule Type: Lecture

SOCI 385: Sociology of Religion. 3 credits.
Studies places of religious consciousness in human action and institutional and organizational networks created to sustain religious beliefs. Emphasizes comparative and historical analysis of role religion has played in human society. Examines theories of nature of religious experience, religious symbolism, and basis of religious community. Explores changing demographics in relation to older traditional religious faits and newer nontraditional faits. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Schedule Type: Lecture

SOCI 388: Violence and Religion. 3 credits.
Explores the relationship between religion and violence, especially warfare, cross-culturally and historically from a sociological, transdisciplinary, and global politics perspective. Examines the interface between politics and morality and the interface between national and transnational governance institutions (nations states, the UN, etc.) and
cultural and religious institutions, NGOs, and social movements. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Seminar

**SOCI 390:** Sociology of Health, Illness, and Disability. 3 credits.
Examines social context of health, illness, and disability; relationships of health care professionals and patients; and structure and delivery of health care in different medical systems. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Lecture

**SOCI 394:** Sociology of Human Rights. 3 credits.
Provides an overview of sociological, theoretical, and methodological approaches to understanding human rights. Examining connections between inequality, conflict, social justice, governance, and human rights, the course focuses on the contexts of meaning within which human rights are invoked and practiced as well as the role that non-state actors play in shaping the development and institutionalization of human rights. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Schedule Type:** Seminar

**SOCI 395:** Special Topics in Sociology. 3 credits.
Introduces the research interests of the faculty, offering new courses that reflect current issues not yet incorporated into the curriculum. Offers, in addition, advanced study into topics covered in the standing curriculum. Topics change by semester. Offered by Sociology & Anthropology (p. 482). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** 90 hours, including 12 hours of SOCI.

**Schedule Type:** Lecture

**SOCI 399:** Independent Study. 1-3 credits.
Individual study of sociological topic of interest to student. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** 6 hours of Sociology and approval of a written proposal.

**Schedule Type:** Independent Study

### 400 Level Courses

**SOCI 405:** Analysis of Social Data. 4 credits.
Overview of management and analysis of empirical social science data, including file construction, scaling and measurement, data transformation, and treatment of missing data. Emphasizes manipulation, management, and analysis of data sets using computers. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Recommended Prerequisite:** 60 hours, SOCI 313, or Permission of Instructor.

**Schedule Type:** Laboratory, Lecture

**SOCI 410:** Social Surveys and Attitude and Opinion Measurements. 3 credits.
Surveys research methods and techniques to collect, measure, and analyze social data, attitudes, and opinions with special emphasis on using computer software, the Internet, and other information technologies for social research. Highlights ethical issues for social research, computing, and information technology. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Mason Core:** Information Technology: Without Ethics (p. 135)

**Recommended Prerequisite:** SOCI 303 and 313, or equivalents, or Permission of Instructor.

**Schedule Type:** Lecture

**SOCI 412:** Contemporary Sociological Theory. 3 credits.
Presents for analysis and discussion the significant theorists and themes in contemporary sociological theory. Designed to enhance student's skills in reading and analyzing primary texts and to encourage reflection on contemporary social reality. Fulfills writing intensive requirement. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** SOCI 311 or permission of instructor.

**Schedule Type:** Lecture

**SOCI 416:** Internship in Sociology. 1-6 credits.
Intended to promote learning in application of sociological knowledge, and build skills in different work settings. Students work in approved settings as applied sociologists. Notes: Minimum 45 hours of work for each credit required. Offered by Sociology & Anthropology (p. 482). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Enrollment in or completion of SOCI 313 or permission of instructor.

**Schedule Type:** Internship

**SOCI 471:** Prevention and Deterrence of Crime. 3 credits.

**Recommended Prerequisite:** 60 hours, inservice status, or permission of instructor.

**Schedule Type:** Lecture

**SOCI 480:** Honors Seminar in Sociology I. 3 credits.
Develop research proposals and an appropriate bibliography for honors thesis under the guidance of a sociology faculty member. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Specialized Designation:** Research Associated

**Recommended Prerequisite:** Admission to honors in the sociology major.

**Schedule Type:** Independent Study

**SOCI 481:** RS: Honors Seminar in Sociology II. 3 credits.
Pursue independent research and write honors thesis under the guidance of a faculty mentor. Present work in a colloquium at the end of the semester. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Specialized Designation:** Research/Scholarship Intensive
Recommended Prerequisite: Successful completion of SOCI 480.

Schedule Type: Independent Study

SOCI 483: The Sociology of Higher Education. 3 credits.
Exposes students to sociological theory and research on evolution of higher learning in United States. Explores social forces that have shaped the distinctively American approach toward higher education and have led to transformation of higher education in contemporary society. Particular attention to relation between universities and elites within surrounding society, linkage between education and industry, norms and values that are presupposed by educational institutions, and bearing of sports on values and traditions of higher education. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Mason Core: Synthesis (p. 135)

Schedule Type: Lecture

SOCI 485: RS: Sociological Analysis and Practice. 3 credits.
Provides an in-depth examination of historical and contemporary issues facing sociological scholars. Focuses on the philosophies, practices, and procedures used by individuals and organizations to answer sociological questions. Engages a variety of materials, experiences and resources to answer a specific research question. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Mason Core: Capstone (p. 135)

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: SOCI 303.

Schedule Type: Seminar

SOCI 492: Sociology of Organizations. 3 credits.
Theories, analysis of types of organizations from informal voluntary associations to large complex ones. Explores nonprofit organizations and alternatives to bureaucracies, such as feminist collectives, cooperatives, self-help groups, and social movement organizations. Students do field work in organizations applying theories and concepts to observations. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Schedule Type: Lecture

Investigation of sociological problem according to individual interest, with emphasis on research. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: 18 hours of SOCI including SOCI 303, 311, 313 and 412; a 3.0 GPA in SOCI; and a research proposal approved by instructor and department chair prior to enrollment.

Schedule Type: Independent Study

500 Level Courses
SOCI 516: Internship in Sociology. 1-6 credits.
Learning experience in the application of sociological knowledge and skills in different work settings. Students work in approved setting as applied sociologists. Notes: Minimum 45 hours of work for every 1 credit. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 21 hours of SOCI, including research methods, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

SOCI 599: Issues in Sociology. 1-3 credits.
Contemporary topics in sociology including sociological theory, crime and delinquency, advanced research methods, social and cultural change, urban sociology, medical sociology, sociology of aging, and rural sociology. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

600 Level Courses
SOCI 601: Proseminar in Public and Applied Sociology. 3 credits.
Core course devoted to the philosophical, historical, theoretical, and methodological dimensions of public and applied sociology within the United States. Traces the evolution of the field during the 20th century, from its inception in the Chicago school and the studies of W.E.B. DuBois to more recent formulations, as these bear on the interplay between social scientific knowledge and public decisions and debates. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit. Equivalent to SOCI 801.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

SOCI 602: Writing for the Social Sciences. 3 credits.
Develops strategies for successful social scientific writing, self-evaluation, and managing anxiety around the production of written work. Provides practice in different types of writing undertaken by social scientists including research reports, scholarly journal articles, and research proposals. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 605: Gender and Social Structure. 3 credits.
Reviews theories explaining the development and maintenance of gender. Using historical and comparative data, examines perceived, prescribed, and actual sex differentiation in social, political, and economic roles. Begins with gender as a social structure and then examines contemporary research as support or refutation for variety of theoretical paradigms. Includes discussion of gender in intimate relationship and the public sector. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

SOCI 607: Criminology. 3 credits.
Crime and crime causation. Topics include social basis of law, administration of justice, and control and prevention of crime. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 608: Juvenile Delinquency. 3 credits.
Sociology of adolescent behavior. Sociological factors that determine which behaviors and social categories of adolescents are likely to be labeled and treated as delinquent. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 610: Methods and Logic of Social Inquiry. 3 credits.
Emphasizes gathering, interpreting, and evaluating scientific evidence. Covers logic of scientific inquiry, including the application of various research designs and data collection methods. Develops critical-thinking skills by using set of rules and logical criteria for evaluation of social science research. Focuses both on how results are obtained and disseminated via research reports. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Recommended Prerequisite: Undergraduate statistics and research methodology, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 611: Sociology of Conflict. 3 credits.
Deals with sociology of conflict. Presents major sociological theories of conflict such as those of Marx, Weber, Simmel, Dahrendorf, Coser, and Collins. Stresses role that sociological conflict theory plays in undergirding conflict management practices. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Recommended Prerequisite: Graduate standing in sociology or conflict analysis and resolution, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 613: Racial and Ethnic Relations: American and Selected Global Perspectives. 3 credits.
Covers demographic purview of U.S. and other global racial and ethnic groups and racial and ethnic groups as human-social-minority and dominant groups. Explores factors contributing to dominant and minority status and means of altering dominant groups assessment of minority
group status. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 624: International Migration in the Age of Globalization. 3 credits.
Focuses on theoretical, methodological, and policy-related issues on international migration from a sociological perspective. Explores case studies of immigrant communities and their adaptation patterns, paying particular attention to immigrants from Latin America, Asia, and the Caribbean. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Seminar

SOCI 631: Survey Research. 3 credits.
Introduces theory, method, and practice of survey research design and analysis. Students complete survey research project. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Recommended Prerequisite: SOCI 530 and 531, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 632: Evaluation Research for Social Programs. 3 credits.
Studies methodological issues related to evaluation of social programs. Explores conceptual and research design issues in relation to social programs, particularly delivery of social services. Includes examination of methods used to assess need for programs, impact of delivery systems, and efficiency and effectiveness of social programs. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Recommended Prerequisite: SOCI 530 and 531, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 633: Special Topics in Sociology. 3 credits.
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies. Notes: May be repeated for credit when topic is different. Offered by Sociology & Anthropology (p. 482). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

SOCI 634: Qualitative Research Methods. 3 credits.
Examines basic research methods involving observational techniques and procedures used in description and analysis of patterns, configurations, ethnics, structures, functions, and styles typical of whole societies and cultures. Emphasizes case studies, unobtrusive methods, participant observation, longterm residence, choices of observer status role, recording data, uses of technical equipment, key informants, interviewing techniques, and ethical considerations in employing such methods and procedures. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 635: Environment and Society. 3 credits.
Overview of human ecology and environmental sociology, emphasizing selected topics. Focuses on theory, since theory makes it possible to generalize from understandings derived in an analysis of a particular problem and apply them to other problems. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SOCI 636: Statistical Reasoning. 3 credits.
Intermediate treatment of quantitative analytic techniques used in sociology. Topics include sampling, inference, hypothesis testing,
Sociology & Anthropology (p. 482). May not be repeated for credit.

**SOCI 655: Ethnography.** 3 credits.
Introduces ethnography in sociology to graduate students. Teaches techniques for collecting, analyzing and writing-up ethnographic materials. Considers some of the central methodological issues relevant to doing ethnography. Explores some of the critical ethical and political questions that arise within ethnographic research practice. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate statistics and research methodology, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCI 641: Micro Sociology: Inequality and Everyday Life.** 3 credits.
Analyze the relationship between everyday life and social inequalities, with a particular focus on examining theoretically and empirically the relationship between governing structures of society and the structure of situational and interactional terrains as it plays out in the lives of everyday people. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SOCI 660: Historical and Comparative Sociology.** 3 credits.
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit. Equivalent to SOCI 860.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCI 670: New Media and Social Inequality.** 3 credits.
Examines the internet and other new technologies from a sociological perspective. Focuses on how technologies mitigate or exacerbate-transform or reproduce-existing and new forms of inequality. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SOCI 686: Sociology of Aging.** 3 credits.
Analyzes sociological issues in aging, including class and cultural factors, problems of work, retirement, attachment and loss, and ageism. Examines different theories of aging. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCI 690: Regression Analysis.** 3 credits.
Focus on how results are obtained and disseminated via research reports. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate statistics and research methodology, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCI 656: Sociology of Aging.** 3 credits.
Examines the relationship between everyday life and social inequalities, with a particular focus on examining theoretically and empirically the relationship between governing structures of society and the structure of situational and interactional terrains as it plays out in the lives of everyday people. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate statistics and research methodology, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SOCI 660: Historical and Comparative Sociology.** 3 credits.
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit. Equivalent to SOCI 860.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCI 670: New Media and Social Inequality.** 3 credits.
Examines the internet and other new technologies from a sociological perspective. Focuses on how technologies mitigate or exacerbate-transform or reproduce-existing and new forms of inequality. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SOCI 686: Sociology of Aging.** 3 credits.
Analyzes sociological issues in aging, including class and cultural factors, problems of work, retirement, attachment and loss, and ageism. Examines different theories of aging. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SOCI 690: Regression Analysis.** 3 credits.
Focus on how results are obtained and disseminated via research reports. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**SOCI 696: Independent Study.** 1-3 credits.
Theoretical and research literature chosen by student and instructor. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study

**SOCI 697: Independent Study.** 1-3 credits.
Theoretical and research literature chosen by student and instructor. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study

**700 Level Courses**

**SOCI 711: Classical Sociological Theory.** 3 credits.
In-depth examination of major issues in classical (pre-1930) sociological theory. Analyzes Durkheim, Marx, Weber, Mead, and others, and emphasizes social and intellectual context of their theories. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Sociology.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**SOCI 712: Contemporary Sociological Theory.** 3 credits.
Examines schools in contemporary sociological theory such as structural-functionalism, conflict, exchange, symbolic interactionism, ethnomethodology, humanist sociology, and critical theory. Analyzes contemporary theorists in relation to schools. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Sociology.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**SOCI 730: Analytic Techniques of Social Research.** 3 credits.
Introduces multiple regression and causal analysis to sociological researchers, with a focus on obtaining and disseminating results. Moves from linear regression to the general linear model with several variables, its extensions, assumptions, and regression diagnostics. Examines the use of dummy variable and the analysis of interaction effects. Considers systems of equations and nonlinear outcomes. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate statistics and research methodology, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**800 Level Courses**

**SOCI 803: Institutions and Inequality.** 3 credits.
Analyzes the interrelations between social inequalities and institutional structures, including markets, the press, prisons, mental institutions, cultural organizations, and corporations. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**SOCI 804: Sociology of Globalization.** 3 credits.
Addresses the social, political, cultural, and economic process of globalization. Explores the limits on globalization during the precapitalist era, the relation between empire and the internal structure of imperialist societies, theoretical debates over the contemporary world system, the relation between cities and globalization, and the link between globalization and social inequality within both developed and developing societies. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.
SOCI 833: Special Topics in Sociology. 3 credits.
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies. Notes: May be repeated for credit when topic is different. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Have completed either 6 credits of coursework at the 600 level or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

SOCI 840: Work Organizations and Social Inequality. 3 credits.
Examines the social, organizational, and cultural processes that account for the differential distribution of job rewards along class, gender, and racial and ethnic lines. Topics include the historical evolution of the management worker relationship, job segregation by race and gender, the effect of new technologies on social inequality, the relation between gender and professional careers, the efficacy of governmental efforts to ensure equal opportunity, and the effect of organizational change on racial and gender inequalities at work. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

SOCI 844: Youth, Schooling, and Popular Culture. 3 credits.
Uses sociological perspectives to understand the various ways in which popular youth culture, schooling processes, and consumer culture intersect in contemporary American cultural life. Examines the social, economic, and political realities of youth as a group and the formation of distinct youth cultures within and outside formal school settings, including schooling and commodity culture, how markets promote and hinder particular educational ideologies, and how corner markets operate as spaces of cultural learning. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

SOCI 845: Society and Education. 3 credits.
Exposes students to the major theories, debates, and findings within the sociology of education, emphasizing the reciprocal influences of schooling and social inequalities within contemporary societies. Emphasis on the historical evolution of public schooling in the United States, the complex relation between schooling and economic institutions, class differences in educational opportunity, and the politics of educational reform. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

SOCI 850: Sociology of Development. 3 credits.
Analyzes socioeconomic and political change, focusing on the poor countries of Asia, Africa, and Latin America. Offers a basic descriptive understanding of processes of change in these countries and an introduction to major theoretical perspectives on development and globalization, from classical theories of comparative advantage to theories of imperialism, modernization, dependency, and globalization. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

SOCI 851: Globalization and Social Movements. 3 credits.
Analyzes current issues in the study of social movements, with an emphasis on the ways in which globalization shapes and in turn is shaped by social movements. Emphasis is placed on the relations among the strategies, identities, and organizations bound up with transnational social movements and the relation between the dynamics of global political and economic developments and protest movements in core and peripheral societies. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

SOCI 853: Cities in a Global Society. 3 credits.
Examines the scholarly literature on cities and globalization with a focus on the impact of globalization on urban environments and the effects of urbanization on the processes of globalization. Emphasis on the ways in which globalization restructures urban life in the core and periphery of the world economy with attention paid to the effects of spatial dispersion on the character of economic institutions within the advanced societies, the shifting nature of crime and security, immigration, and the cities of the Global South. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

SOCI 857: Sociology of Human Rights. 3 credits.
Examines the connections among inequality, conflict, social justice, and human rights in an age of globalization. Drawing from case studies from around the world, course examines institutional and structural violence and inequality as they relate to state, corporate, and military power; international law and order; welfare and social policy; global justice; regionalism, multilateralism, and transnationalism; environmental protection; gender inequality; ethnic conflict; resource wars; and national security policy before and after September 11, 2001. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

SOCI 860: Historical and Comparative Sociology. 3 credits.
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies.
Sociology and Anthropology (SOAN)

500 Level Courses

SOAN 510: Culture and Globalization. 3 credits.  
Provides continuing exposure to the range of disciplinary perspectives necessary for understanding crucial issues in the global arena. Through case examples, focuses on the intersections of culture and globalization. Analyzes existing data and assesses alternative policy and program approaches, and illuminates interactions between globalization and culture. Offered by Sociology & Anthropology (p. 482). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

SOAN 670: Directed Readings Sociology. 3 credits.  
Intensive reading course to develop comprehensive understanding of specific field in sociology as agreed on with advisor. Notes: Content varies. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree.

Recommended Prerequisite: 6 credits of 600 level SOCI courses

Registration Restrictions:
Enrollment limited to Graduate level students.

Schedule Type: Independent Study

SOAN 880: Independent Study in Sociology. 3 credits.  
Reading and research on selected topic, resulting in a written project as agreed on with supervising faculty. Notes: Content varies. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree.

Recommended Prerequisite: 6 credits of 600 level SOCI courses

Registration Restrictions:
Enrollment limited to Graduate level students.

Schedule Type: Independent Study

900 Level Courses

SOCI 998: Doctoral Dissertation Proposal. 1-9 credits.  
Work on research proposal for doctoral dissertation. Notes: A maximum of 9 credits of 998 may be applied to the degree. Students may enroll in 998 in their final year of coursework while preparing for comprehensive exams. Contact department for approval and CRN to register. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree.

Recommended Prerequisite: Completion of all but final year of coursework and permission of graduate director.

Registration Restrictions:
Enrollment limited to Graduate level students.

Schedule Type: Dissertation

SOCI 999: Doctoral Dissertation. 1-12 credits.  
Doctoral dissertation research and writing on approved dissertation topic under direction of committee. Notes: Maximum of 12 credits may be applied toward degree. Offered by Sociology & Anthropology (p. 482). May be repeated within the degree.

Recommended Prerequisite: Successful completion of SOCI 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy. Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Software Engineering (SWE)

200 Level Courses

SWE 205: Software Usability Analysis and Design. 3 credits.  
Principles of user interface design. Concepts for objectively and quantitatively assessing the usability of software user interfaces. Outcomes include knowledge of quantitative engineering principles for designing usable software interfaces and an understanding that usability is more important than efficiency for almost all modern software projects, and often the primary factor that leads to product success. Major topics include cognitive models for human perceptions and needs, which are used as a basis for analytical and critical thinking about user interfaces; specific engineering principles for designing usable menus, forms, command languages, web sites, graphical user interfaces and web-based user interfaces. Assessments will include written analytical
evaluations of existing user interfaces, exams, and HTML-based design projects. Offered by Computer Science (p. 983). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisite:** ENGH 101

---

**300 Level Courses**

**SWE 301: Internship Preparation.** 0 credits.
Preparation for Internship Educational Experience. Intended for, but not limited to, students planning internships in the Applied Computer Science Software Engineering Program. Internship employment opportunities. Basic interview skills. Techniques for applying academic knowledge to practical software development. Techniques for extracting knowledge from practical experience. Peer presentation from students who have completed internships. Offered by Computer Science (p. 983). Limited to two attempts.

**Recommended Prerequisite:** Limited to ACS or CS majors with junior standing or permission of instructor.

**Registration Restrictions:**
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

---

**SWE 321: Software Engineering.** 3 credits.
An introduction to concepts, methods, and tools for the creation of large-scale software systems. Methods, tools, notations, and validation techniques to analyze, specify, prototype, and maintain software requirements. Introduction to object-oriented requirements modeling, including use of case modeling, static modeling, and dynamic modeling using the Unified Modeling Language (UML) notation. Concepts and methods for the design of large-scale software systems. Fundamental design concepts and design notations are introduced. A study of object-oriented analysis and design modeling using the UML notation. Students participate in a project group on software requirements, specification, and object-oriented software design. Offered by Computer Science (p. 983). Limited to two attempts. Equivalent to CS 321.

**Registration Restrictions:**
**Required Prerequisites:** ((ENGH 302C) or ((HNRS 110C) and (HNRS 122C, 130C, 131C, 230C or 240C)) and (CS 310C)).

---

**SWE 432: Design and Implementation of Software for the Web.** 3 credits.
Teaches how to develop software for web applications. Covers client-server computing, theories of usable graphical user interfaces, and models for web-based information retrieval and processing. Goals are to understand how to design usable software interfaces and implement them on web, learn how to build software that accepts information from users across web and returns data to user, and understand how to interact with database engines to store and retrieve information. Specific topics are HTML, CGI programming, Java, Java applets, Javascripts, and Java servlets. Offered by Computer Science (p. 983). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** (MATH 125C) and (CS 310C).

---

**400 Level Courses**

**SWE 401: Internship Reflection.** 1 credit.
Reflection on Internship Educational Experience. Intended for, but not limited to, students completing internships in the Applied Computer Science Software Engineering Program. Analysis of techniques for applying academic knowledge to practical software development. Analysis of techniques for extracting knowledge from practical experience. Student presentations summarizing internships relating them to academic program goals. Offered by Computer Science (p. 983). Limited to two attempts.

**Recommended Prerequisite:** Completion of internship.

**Registration Restrictions:**
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

---

Students with the terminated from VSE major attribute may not enroll.
software changes. Offered by Computer Science (p. 983). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 125\textsuperscript{C} and CS 310\textsuperscript{C}).
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SWE 443: Software Architectures. 3 credits.
Teaches how to design, understand, and evaluate software systems at an architectural level of abstraction. By end of course, students will be able to recognize major architectural styles in existing software systems, describe a system’s architecture accurately, generate architectural alternatives to address a problem and choose from among them, design a medium-size software system that satisfies a specification of requirements, use existing tools to expedite software design, and evaluate the suitability of a given architecture in meeting a set of system requirements. Offered by Computer Science (p. 983). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: CS 321\textsuperscript{C}, 421\textsuperscript{C}, SWE 321\textsuperscript{C} or 421\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

500 Level Courses

SWE 510: Object-Oriented Programming in Java. 3 credits.
Introduces students to programming in the Java language. Topics include problem-solving methods and algorithm development, program structures, abstract data types, simple data and file structures and program development in a modular, object-oriented manner. Introductory use of OO language features, including data hiding, inheritance, polymorphism, and exception handling. Goals include design and development of Java classes and class type hierarchies. An introduction to Java servlets and applets is included. Emphasis on program development is reinforced through several programming projects. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: Undergraduate courses or equivalent knowledge in programming in a high-level language.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

600 Level Courses

SWE 619: Object-Oriented Software Specification and Construction. 3 credits.
In-depth study of software construction using modern, object-oriented language with support for graphical user interfaces and complex data structures. Specifications, design patterns, and abstraction techniques, including procedural, data, iteration, type, and polymorphic. Information hiding, classes, objects, and inheritance. Exception handling, event-based systems, and concurrency. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SWE 620: Software Requirements Analysis and Specification. 3 credits.
In-depth study of object-oriented requirements modeling, including use case modeling, static modeling and dynamic modeling with Unified Modeling Language (UML) notation. Students participate in group project on software requirements and specification using modern method. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SWE 621: Software Modeling and Architectural Design. 3 credits.
Concepts and methods for the architectural design of large-scale software systems are presented. Fundamental design concepts and design notations are introduced. Concepts of requirements analysis and specification are taught. Several design methods are presented and compared. In-depth study of object-oriented analysis and design modeling using the Unified Modeling Language (UML) notation. Students participate in a group project on software requirements, analysis, and design modeling. Offered by Computer Science (p. 983). May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 622: Distributed Software Engineering.** 3 credits.
Hands-on introduction to techniques and programming interfaces for distributed software engineering. Networking protocols at several layers. Construction of distributed and concurrent software using network protocol services. Applications of Internet and web-based software. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** SWE foundation courses or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 625: Software Project Management.** 3 credits.
Lifecycle and process models; process metrics; planning for a software project; mechanisms for monitoring and controlling schedule, budget, quality, and productivity; and leadership, motivation, and team building. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** SWE foundation courses or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 626: Software Project Laboratory.** 3 credits.
Covers requirements analysis, design, implementation, and management of software development project. Students work in teams to develop or modify software product, applying sound principles of software engineering. Uses both industrial and academic standards to assess quality of work products. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** SWE 619,620, and 621; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 631: Software Design Patterns.** 3 credits.

**Recommended Prerequisite:** SWE 621.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 632: User Interface Design and Development.** 3 credits.
Principles of user interface design, development, and programming. Includes user psychology and cognitive science, menu system design, command language design, icon and window design, graphical user interfaces, web-based user interfaces. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** SWE 619, or CS 540 and 571, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 637: Software Testing.** 3 credits.
Students learn to test software effectively. Programmers learn practical ways to design high quality tests during all phases of software development. Students learn the theory behind criteria-based test design and to apply that theory in practice. Topics include test design, test automation, test coverage criteria, and how to test software in cutting-edge software development environments. Offered by Computer Science (p. 983). May not be repeated for credit.
**Recommended Prerequisite**: SWE 619, or permission of instructor.

**Registration Restrictions**: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

**SWE 642: Software Engineering for the World Wide Web.** 3 credits.

Detailed study of engineering methods and technologies for building highly interactive web sites for e-commerce and other web-based applications. Presents engineering principles for building web sites that exhibit high reliability, usability, security, availability, scalability, and maintainability. Teaches methods such as client/server programming, component-based software development, middleware, and reusable components. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite**: SWE 619 or CS 540 and CS 571, or permission of instructor.

**Registration Restrictions**: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

**SWE 645: Component-Based Software Development.** 3 credits.

Introduces concepts and foundations of software component and component-based software. Detailed study of engineering principles of modeling, designing, implementing, testing, and deploying component-based software. Also explores state-of-the-art component technologies. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite**: SWE 619 or CS 540 and CS 571, or permission of instructor.

**Registration Restrictions**: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

**SWE 681: Secure Software Design and Programming.** 3 credits.

Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and on identification of potential threats and vulnerabilities early in design cycle. Emphasizes methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove absence of vulnerabilities, ways to avoid security holes in new software, and essential guidelines for building secure software: how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle. Offered by Computer Science (p. 983). May not be repeated for credit. Equivalent to ISA 681, SWE 781.

**Recommended Prerequisite**: SWE 619.

**Registration Restrictions**: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

**SWE 699: Special Topics in Software Engineering.** 3 credits.

Special topics not occurring in regular SWE sequence. Notes: May be repeated for credit when semester topic is different. Offered by Computer Science (p. 983). May be repeated within the term.

**Registration Restrictions**: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

**SWE 721: Reusable Software Architectures.** 3 credits.

Investigates software concepts that promote reuse of software architectures. Studies influence of object technology on software design and reuse. Investigates domain modeling methods, which model the application domain as a software product family from which target systems can be configured. Covers reusable software patterns including architecture patterns and design patterns, software components, and object-oriented frameworks. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite**: SWE 621.

**Registration Restrictions**: Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type**: Lecture

**700 Level Courses**

**SWE 862: Secure Software Design and Programming.** 3 credits.

Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and on identification of potential threats and vulnerabilities early in design cycle. Emphasizes methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove absence of vulnerabilities, ways to avoid security holes in new software, and essential guidelines for building secure software: how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle. Offered by Computer Science (p. 983). May not be repeated for credit. Equivalent to ISA 681, SWE 781.
Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 722: Service Oriented Architecture.** 3 credits.
This course covers the state-of-the-art approaches to building dependable Service-Oriented Architecture (SOA) software systems. A variety of relevant topics are covered, including SOA design principles, implementation platforms and standards, quality of service contracts, runtime management of service providers, and coordination and composition of services. The course includes a final project to exercise the concepts covered in class. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** SWE 622 or instructor's permission.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 724: Program Analysis for Software Testing.** 3 credits.
Different methods for analyzing software, primarily for purpose of testing. Analysis techniques, algorithms, tools, and applications. Goals are to explore current research issues, learn how to build analysis tools, and understand how these techniques can be applied to software-related activities such as maintenance, reuse and optimization. Offered by Computer Science (p. 983). May not be repeated for credit. Equivalent to SWE 824.

**Recommended Prerequisite:** A compiler class (e.g. CS 540) OR a testing class (e.g. SWE 637) or permission of the instructor.

**Schedule Type:** Lecture

**SWE 727: Quality of Service for Software Architectures.** 3 credits.
Builds on acquired skills for modeling architectures, and focuses on the relationship between architectural patterns and qualities of service (QoS). By the end of the course, students will be able to elicit the QoS preferences of stakeholder; recognize major architectural styles and the QoS tradeoffs that each presents; design for and reconcile competing QoS requirements; and evaluate a given architecture with respect to a set of QoS requirements. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** SWE 621 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 737: Advanced Software Testing.** 3 credits.
Cutting edge concepts and techniques in software testing. An in-depth study of existing approaches to testing software as well as development of new approaches. Applications of existing concepts and techniques to new technologies. Advanced MS students learn in-depth knowledge for how to apply testing in difficult and challenging real-world scenarios. PhD students learn current research trends, both theoretical and practical. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** SWE 637.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 760: Software Analysis and Design of Real-Time Systems.** 3 credits.
Background for students who want to conduct research in software engineering of real-time systems. Provides understanding of key real-time software system analysis, design concepts and methods, and how they are used in developing large-scale, real-time software systems. Also explores potential impact of emerging technologies. Includes term project in design and analysis of complex, real-time software system. Offered by Computer Science (p. 983). May not be repeated for credit. Equivalent to SWE 860.

**Recommended Prerequisite:** SWE 621.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 763: Software Engineering Experimentation.** 3 credits.
Detailed study of scientific process, particularly using experimental method. Examines how empirical studies are carried out in software engineering. Reviews distinction between analytical techniques and empirical techniques. Other topics include experimentation required in software engineering, problems that can be solved using experimentation, methods used to control variables and eliminate bias in experimentation, and analysis and presentation of empirical data for decision making. Offered by Computer Science (p. 983). May not be repeated for credit.

**Recommended Prerequisite:** SWE 621, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SWE 795: Advanced Topics in Software Engineering.** 3 credits.
Advanced topics not occurring in existing courses. Topics normally assume knowledge in one or more existing MS SWE courses. Notes: Repeatable within degree for credit when subject differs. Offered by
Computer Science (p. 983). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 12 credits applicable toward MS.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**SWE 796:** Directed Readings in Software Engineering. 3 credits.
Analysis and investigation of contemporary problem in software engineering. Requires prior approval by faculty member who supervises student's work. Written report also required. Offered by Computer Science (p. 983). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Research

**SWE 821:** Software Engineering Seminar. 3 credits.
Study of application of software engineering principles, design methods, and support tools through real-life problems extracted from faculty and industry projects. Notes: May be repeated with change in topic. Offered by Computer Science (p. 983). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** SWE 621

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Seminar

**Spanish (SPAN)**

**100 Level Courses**

**SPAN 101:** Elementary Spanish I. 3 credits.
For students with no knowledge of Spanish. Introduction to Spanish, including elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Lab work required. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 110.

**Schedule Type:** Lecture

**SPAN 102:** Elementary Spanish II. 3 credits.
Continuation of SPAN 101. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 110, SPAN 115.

**Recommended Prerequisite:** SPAN 101, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture
SPAN 110: *Elementary Spanish*. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 101, SPAN 102, SPAN 105, SPAN 109, SPAN 115.

**Schedule Type:** Lecture

Reviews elements for students who have studied Spanish previously. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 102, SPAN 109, SPAN 110.

**Recommended Prerequisite:** Appropriate placement score, or permission of department.

**Schedule Type:** Lecture

### 200 Level Courses

**SPAN 201:** *Intermediate Spanish I*. 3 credits.
Further development of skills in listening, speaking, reading, and writing. SPAN 201 and 202 must be taken in sequence. Lab work required. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 210.

**Recommended Prerequisite:** SPAN 102, 110, appropriate placement score or permission of department.

**Schedule Type:** Lecture

**SPAN 202:** *Intermediate Spanish II*. 3 credits.
Application of skills to reading, composition, and discussion. Lab work required. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 210.

**Recommended Prerequisite:** SPAN 201, appropriate placement score or permission of department.

**Schedule Type:** Lecture

**SPAN 210:** *Intermediate Spanish*. 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Spanish-speaking regions. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 201, SPAN 202, SPAN 209.

**Recommended Prerequisite:** SPAN 102, 110, 115 appropriate placement score, or permission of department.

**Schedule Type:** Lecture

**SPAN 250:** *Gateway to Advanced Spanish*. 3 credits.
Integration of advanced intermediate-level Spanish reading, writing, listening, and speaking skills, as well as the development of critical thinking about authentic texts from around the globe. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 210, appropriate placement score, or permission of department.

**Schedule Type:** Lecture

### 300 Level Courses

**SPAN 301:** *Grammar and Syntax*. 3 credits.
In-depth review of Spanish grammar and syntax. Extensive practice in controlled and free writing with emphasis on fundamental difficulties and points of interference that exist between English and Spanish. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 202, 250, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**SPAN 305:** *Spanish in Context I*. 3 credits.
Integrated content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 309, SPAN 315.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 250, or equivalent, or permission of instructor.

**Schedule Type:** Lecture

**SPAN 306:** *Spanish in Context II*. 3 credits.
Continuation of SPAN 305. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 309, SPAN 315.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 305, or equivalent, or permission of instructor.

**Schedule Type:** Lecture

**SPAN 309:** *Intensive Spanish in Context*. 6 credits.
Intensive content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 305, SPAN 306, SPAN 315.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 250, or equivalent, or permission of instructor.

**Schedule Type:** Lecture

**SPAN 315:** *Spanish for Heritage Speakers*. 3 credits.
Designed for students who have some communicative ability in Spanish, normally acquired in the home, who want to improve their reading and writing abilities while developing a critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Course components include orthography and vocabulary activities, grammar
review and practice, assigned readings in a variety of genres, critical
cultural analysis, in-class discussions, written essays, and the viewing
of films. Offered by Modern & Classical Languages (p. 414). May not be
repeated for credit. Equivalent to SPAN 305, SPAN 306, SPAN 309.

**Recommended Prerequisite:** Appropriate placement score or permission
of instructor.

**Schedule Type:** Lecture

**SPAN 321: Introduction to Spanish Culture.** 3 credits.
History, culture, economic and social development, and scientific and
artistic achievements that have contributed to the formation of modern
Spain. Offered by Modern & Classical Languages (p. 414). May not be
repeated for credit. Equivalent to SPAN 461.

**Specialized Designation:** Taught in English

**Recommended Prerequisite:** ENGL 101 or Permission of Instructor.

**Schedule Type:** Lecture

**SPAN 322: Introduction to Latin American Culture.** 3 credits.
History, culture, economic and social development, and scientific and
artistic achievements that have contributed to the formation of modern
Latin America. Offered by Modern & Classical Languages (p. 414). May not be
repeated for credit. Equivalent to SPAN 466.

**Mason Core:** Global Understanding (p. 135)

**Specialized Designation:** Taught in English

**Recommended Prerequisite:** ENGL 101/ENGH 101 or permission of
instructor.

**Schedule Type:** Lecture

**SPAN 323: Field Study in Hispanic Culture.** 1-3 credits.
History, culture, economic and social development, and scientific and
artistic achievements that have contributed to the formation of modern
Spain. Offered by Modern & Classical Languages (p. 414). May not be
repeated for credit.

**Recommended Prerequisite:** 60 hours or Permission of Instructor.

**Schedule Type:** Lecture

**SPAN 324: Study Abroad in Spanish.** 3 credits.
Study at an academic institution in a Spanish-speaking country including
classroom studies with professors from the host country and field
experiences. Offered by Modern & Classical Languages (p. 414). May not be
repeated for credit.

**Recommended Prerequisite:** SPAN 250 (or equivalent) or permission of
instructor

**Schedule Type:** Lecture

**SPAN 325: Major Hispanic Writers.** 3 credits.
Study of the works of major Hispanic writers in translation. Writers
studied vary. Notes: May be repeated for credit when topic is different.
Offered by Modern & Classical Languages (p. 414). May be repeated
within the term for a maximum 6 credits.

**Mason Core:** Literature (p. 135)

**Specialized Designation:** Taught in English

**Recommended Prerequisite:** ENGH 101 or equivalent.

**Schedule Type:** Lecture

**SPAN 326: Treasures of Spanish American Literature.** 3 credits.
Introduction to the major themes, trends, and cultural context of Latin
American literature. Writers studied vary. Notes: May be repeated for
credit when topic is different. Offered by Modern & Classical Languages
(p. 414). May be repeated within the degree for a maximum 6 credits.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** Advanced oral and written proficiency in
Spanish, to be determined by the instructor.

**Schedule Type:** Lecture

**SPAN 329: Special Topics in Spanish and Latin American Literature.** 3
credits.
Study of selected topics in Spanish or Latin American literature. Writers
and topics vary. Notes: Designed for students who are not pursuing
a concentration in Spanish. May be repeated when topic is different.
Offered by Modern & Classical Languages (p. 414). May be repeated
within the term for a maximum 6 credits.

**Specialized Designation:** Taught in English

**Recommended Prerequisite:** ENGH 101 or permission of instructor.

**Schedule Type:** Lecture

**SPAN 335: Topics for Proficiency: The Americas.** 3 credits.
Integrated content-based approach to conversational Spanish. Designed
to promote increased confidence and fluency in both formal and informal
Spanish registers, as well as critical understanding of Latin American
and/or Latino histories and cultures. Current events, films, literary texts,
and popular culture reflecting issues of Latin Americans and/or Latinos
serve as catalysts for class discussions, oral presentations, and debates.
Notes: May be repeated for credit when topic is different. Offered by
Modern & Classical Languages (p. 414). May be repeated within the
degree for a maximum 6 credits.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 250 (or equivalent) or permission of
instructor

**Schedule Type:** Lecture

**SPAN 336: Topics for Proficiency: Spain.** 3 credits.
Integrated content-based approach to conversational Spanish. Designed
to promote increased confidence and fluency in both formal and informal
Spanish registers, as well as critical understanding of Spanish history
and culture. Current events, films, literary texts and popular culture
reflecting Spanish issues serve as catalysts for class discussions, oral
presentations and debates. Notes: May be repeated for credit when topic is
different. Offered by Modern & Classical Languages (p. 414). May be
repeated within the degree for a maximum 6 credits.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 250 (or equivalent) or permission of
instructor
Schedule Type: Lecture

SPAN 351: Oral Spanish. 3 credits.
Development of oral expression on topics of current interest and everyday situations, including written assignments. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Spanish

Recommended Prerequisite: SPAN 250 or equivalent; appropriate placement score; or permission of instructor

Schedule Type: Lecture

SPAN 370: Spanish Writing and Stylistics. 3 credits.
Improves writing skills by covering formal and stylistic concepts of the Spanish language. Includes practice and exposure to different textual genres in an interdisciplinary fashion. Includes common doubts concerning spelling, expression, and style; business Spanish; journalistic Spanish; academic Spanish; and creative writing. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Spanish, Writing Intensive in the Major

Recommended Prerequisite: SPAN 306 or 309, or SPAN 315, or permission of instructor.

Schedule Type: Lecture

SPAN 375: Introduction to Spanish-Language Cinema. 3 credits.
Introduces the study of film as an art form and the academic discipline of film studies as they relate to the Spanish-speaking world. Focuses on students’ acquisition of knowledge on the material and principles of film form and their practice in film analysis of discrete Spanish language films and film genres of significance within the 20th and 21st centuries. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Spanish

Recommended Prerequisite: SPAN 305 and SPAN 306 or SPAN 309 or SPAN 315.

Recommended Corequisite: SPAN 370, SPAN 385, SPAN 388, SPAN 390.

Schedule Type: Lecture

SPAN 385: Introduction to Spanish Linguistics. 3 credits.
Introduces the study of Spanish linguistics, including phonetics, phonology, morphology, syntax, pragmatics, and sociolinguistics. Combines discussion of theoretical issues with linguistic analysis of Spanish. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Spanish

Recommended Prerequisite: SPAN 370 (may be enrolled concurrently) or permission of instructor.

Schedule Type: Lecture

SPAN 388: Introduction to Latina/o Studies. 3 credits.
Interdisciplinary approach to the study of U.S. Latina/o cultural production, designed to promote critical thinking in understanding Latina/o histories, literatures, and cultures. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Mason Core: Synthesis (p. 135)

Specialized Designation: Taught in Spanish

Recommended Prerequisite: SPAN 335 or 336, or SPAN 370, or permission of instructor.

Schedule Type: Lecture

SPAN 390: Introduction to Hispanic Literary Analysis. 3 credits.
Required course that prepares students for the study of Hispanic literatures. Introduces basic terminology of literary analysis and provides practice in the examination of texts in the major genres: poetry, narrative, and drama. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Specialized Designation: Taught in Spanish

Recommended Prerequisite: SPAN 370 (may be enrolled concurrently) or permission of instructor.

Schedule Type: Lecture

400 Level Courses

SPAN 400: Spanish for the Professions. 3 credits.
Advanced study of the language needed for use in a specific profession, such as translation, business, social service, or health professions. Notes: May be repeated when profession differs. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Taught in Spanish

Recommended Prerequisite: SPAN 385 or permission of instructor.

Schedule Type: Lecture

SPAN 425: Independent Study. 1-3 credits.
Research and analysis of a selected problem in literature or linguistics in consultation with a department member. Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major. Offered by Modern & Classical Languages (p. 414). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Spanish major with 90 credits, and permission of instructor.

Schedule Type: Independent Study

SPAN 426: Independent Study. 1-3 credits.
Research and analysis of a selected problem in literature or linguistics in consultation with a department member. Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major. Offered by Modern & Classical Languages (p. 414). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Spanish major with 90 credits, and permission of instructor.

Schedule Type: Independent Study

SPAN 430: Spanish in the United States. 3 credits.
Covers both formal and sociolinguistic aspects of Spanish in the U.S. by discussing demographic aspects and a historical overview of the
varieties of Spanish spoken in the United States. Gives a foundation in issues such as linguistic variation, language choice, the relationship among race, ethnicity, and language; official language policies; individual and societal bilingualism; and language diversity in education. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 385, or advanced ability in Spanish, or permission of instructor.

**Schedule Type:** Lecture

**SPAN 452: Advanced Written Spanish.** 3 credits. Development of skills required in writing Spanish. Guided and original compositions. Grammatical structures reviewed and supplemented with individual corrections. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** 9 hours of SPAN at the 300 level or permission of instructor.

**Schedule Type:** Lecture

**SPAN 455: Spanish-English Translation.** 3 credits. Introduction to the history, theory, analysis, and practice of Spanish-English and English-Spanish translation. Includes literal versus free translation; denotation and connotation; regional and social variation; intercultural pragmatic differences; interlanguage influence and calques; and genre and audience. Hands-on experience with literary works, newspaper articles, and advertisements, as well as legal, medical, and technical documents. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Recommended Prerequisite:** SPAN 370 and ENGL 302/ENGH 302; or permission of instructor.

**Schedule Type:** Lecture

**SPAN 461: Spanish Civilization and Culture.** 3 credits. Survey of Spanish culture and civilization from the pre-Roman era to the 20th century. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 321.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 370 or permission of instructor.

**Schedule Type:** Lecture

**SPAN 466: Latin American Civilization and Culture.** 3 credits. Introduction to the study of Latin American civilization and culture from the pre-Columbian era to the 20th century. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit. Equivalent to SPAN 322.

**Mason Core:** Global Understanding (p. 135)

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 370 or permission of instructor.

**Schedule Type:** Lecture

**SPAN 472: Spanish Phonetics and Phonology.** 3 credits. Introduction to the analysis of the Spanish sound system, both phonetics and phonology. Topics include the articulatory system, sound production, the classification of vowels and consonants, phonetic transcription, the mental representation of sounds, variation and accent, and processes of sound change, among others. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Recommended Prerequisite:** SPAN 385, or permission of instructor.

**Schedule Type:** Lecture

**SPAN 474: Spanish Syntax and Semantics.** 3 credits. Investigates the knowledge Spanish speakers possess that enables them to understand and create expressions they have not heard before. Studies the system unconsciously used by Spanish speakers and writers to connect situations in the real world to the words and sentences that express each situation. Provides opportunities to analyze samples of language in actual use. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Recommended Prerequisite:** SPAN 385, or permission of instructor.

**Schedule Type:** Lecture

**SPAN 476: Teaching Spanish in the United States.** 3 credits. Introduction to second language acquisition theory and research, and the application to teaching Spanish as a second language and a heritage language. Includes a discussion of sociocultural and political issues surrounding the teaching of Spanish in the United States. Covers learning objectives, critical pedagogy, course design, grammar instruction, task-based language teaching, computer-assisted language learning, materials evaluation, and assessment. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Recommended Prerequisite:** SPAN 385, or permission of instructor.

**Schedule Type:** Lecture

**SPAN 480: Special Topics in Spanish.** 3 credits. Study of a selected theme in Hispanic literature, culture, or linguistics. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the term for a maximum 6 credits.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 385, 388 or 390, depending on topic, or permission of instructor.

**Schedule Type:** Lecture

**SPAN 481: Special Topics in Spanish.** 3 credits. Study of a selected theme in Hispanic literature, culture, or linguistics. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the term for a maximum 6 credits.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 385, 388 or 390, depending on topic, or permission of instructor.

**Schedule Type:** Lecture
SPAN 482: *Mass Media and Popular Culture in the Spanish-Speaking World.* 3 credits.
Critical examination of the significance of mass media and/or popular culture for the development of Spanish-speaking nation-states in the 19th, 20th, and 21st centuries. Forms studied may include but are not limited to: Newspapers, popular novels, lithography, photography, radio, film, television, public art, sport, performance, digital media. Students will use readings in critical theory to explore ways in which forms of mass and popular culture connect to social imaginaries. Enhancement of advanced analytical skills in Spanish through different modules of lecture, reading, discussion, and writing. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** SPAN 305/306 or 309 or 315, SPAN 370, SPAN 385, SPAN 390.

**Schedule Type:** Lecture

SPAN 483: *Medieval and Early Modern Literature of Spain.* 3 credits.
Examines the main periods, trends, genres, and most representative works of the Spanish peninsular literature from its beginnings to the end of the Golden Age. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 390 or permission of instructor.

**Schedule Type:** Lecture

SPAN 484: *Modern and Contemporary Literature of Spain.* 3 credits.
Examines the main periods, trends, genres, and most representative works of Spanish peninsular literature from the 18th century to the contemporary period. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 390 or permission of instructor.

**Schedule Type:** Lecture

SPAN 485: *Topics in Community-Based Spanish.* 3 credits.
Combined classroom and community-based learning experience with a focus on historical, social, cultural, political, and linguistic aspects of Spanish in the community. Topics change each semester and include education, immigration, healthcare, and language policy, among others. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** SPAN 385, advanced ability in Spanish, or permission of instructor.

**Schedule Type:** Lecture

SPAN 486: *Topics in Latin American Literature I: Pre-colonial to Mid-19th Century.* 3 credits.
An interdisciplinary examination and discussion of major topics in literary texts and cultural practices of Latin America from pre-colonial times to the mid-19th century. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 390 or permission of instructor.

**Schedule Type:** Lecture

SPAN 487: *Topics in Latin American Literature II: Late 19th Century to the Present.* 3 credits.
Interdisciplinary examination and discussion of major topics in literary texts and cultural practices of Latin America from the late 19th century to the present. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 390 or permission of instructor.

**Schedule Type:** Lecture

SPAN 488: *The Literature of Spanish America.* 3 credits.
Survey of the literature of Spanish America. Study of texts that are representative of the colonial, romantic, modernista, avant garde, and contemporary periods. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Specialized Designation:** Taught in Spanish

**Recommended Prerequisite:** SPAN 390 or permission of instructor.

**Schedule Type:** Lecture

SPAN 490: *Internship in Spanish.* 1-6 credits.
Qualified students work with area schools, social service programs, government agencies, interest groups, museums, or corporations. Specific arrangements must be made with, and approved by, a member of the Spanish faculty during the semester prior to enrollment. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Recommended Prerequisite:** 9 credits in SPAN at the 300 level or Permission of Instructor.

**Schedule Type:** Internship

SPAN 497: *Senior Honors Tutorial.* 3 credits.
First semester involves weekly meetings with a faculty member to discuss readings from a comprehensive list prepared by the Spanish faculty. In the second semester, independent research and completion of an honors essay under the supervision of a member of the Spanish faculty are required. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Recommended Prerequisite:** Major in SPAN, 90 hours, GPA of 3.00, and GPA of 3.00 in MAJOR FIELD.

**Schedule Type:** Lecture

SPAN 498: *Senior Honors Tutorial.* 3 credits.
Students meeting these requirements are admitted to candidacy on submission of a letter of application to the department Honors Committee in the second half of the junior year. A faculty recommendation and an interview by the Honors Committee are also required. First semester involves weekly meetings with a faculty member to discuss readings from a comprehensive list prepared by the Spanish faculty. In the second semester, independent research and completion of an honors essay under the supervision of a member of the Spanish faculty are required. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.
Recommended Prerequisite: Major in SPAN, 90 hours, GPA of 3.00, and GPA of 3.00 in MAJOR FIELD.

Schedule Type: Lecture

500 Level Courses
SPAN 500: History of the Spanish Language. 3 credits.
Study of the evolution of the Spanish language from its origins in Vulgar Latin to its present varieties. Includes consideration of social and political as well as linguistic factors in language change. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SPAN 501: Applied Spanish Grammar. 3 credits.
Analysis of Spanish grammar as a basis for teaching language skills. Terminology and methodology for the teaching of syntax are stressed. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SPAN 502: Hispanic Sociolinguistics. 3 credits.
Introduction to sociolinguistics with emphasis on bilingualism and language contact in the Spanish-speaking world including the United States. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SPAN 505: Applied Spanish Stylistics. 3 credits.
Advanced study of the written language for students who want to develop their academic writing skills. Covers the most frequent challenges of writing through intensive practice in genres such as argumentation, narration, and description. Teaches students to identify and analyze best practices in academic writing. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SPAN 510: Methods of Literary and Cultural Studies. 3 credits.
Introduces students to the fundamental techniques of literary and cultural analysis and to the major principles of various schools of criticism. Additionally, students will be exposed to basic methods and materials of research. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Recommended Prerequisite: Graduate standing in the master's program in foreign language or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SPAN 512: Mass Media and Popular Culture. 3 credits.
Introduction to critical perspectives on mass media in Spanish-speaking world. Course engages regions (Spain, Latin America, Latin@ United States) according to faculty specialty. Includes contextualization of media in nineteenth and twentieth-century historical processes and readings in critical theory. Develops graduate-level oral, written, and research skills in Spanish. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Schedule Type: Seminar

SPAN 520: Studies in Medieval Spanish Literature. 3 credits.
Study of a major work or a literary genre of this period. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SPAN 525: Studies in Renaissance Literature. 3 credits.
Study of a literary movement or selected authors of the Spanish Renaissance. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPAN 530: Studies in the Literature of the Golden Age.** 3 credits.
Study of a literary genre or a major author of Spanish literature of the Golden Age. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPAN 540: Studies in 20th-Century Literature.** 3 credits.
Study of a writer, genre, theme, or movement of this period. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPAN 544: Spanish-Language Film, Television, and Digital Media.** 3 credits.
Examines contemporary trends in film and television studios, including film theory, the archival turn, and ethnographies of television reception, as they relate to the film and television cultures of the rich and diverse regions of Latin America. Notes: Open to graduate students and advanced undergraduates with the permission of the instructor. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Seminar

**SPAN 545: Studies in Hispanic Literature.** 3 credits.
Study of major writers in a particular generation or movement. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPAN 551: Special Topics in Spanish.** 3 credits.
Special studies in Spanish or Latin American language, literature, or culture. Specific topics are announced in advance. Notes: May be repeated for credit with permission of department. Offered by Modern & Classical Languages (p. 414). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPAN 560: Studies in Spanish American Poetry.** 3 credits.
Study of major poets of a given period. Literary and social atmosphere of the period are emphasized. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SPAN 565: Studies in Spanish American Drama.** 3 credits.
Study of playwrights who have made a major contribution to the development of the genre. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SPAN 570: Language Politics and Policy.** 3 credits.
Analysis of language ideologies and politics of language as well as language policy in Latin America, Spain and the US. Includes study of language policies in public and private domains, including education, government and employment. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**SPAN 571: Methods and Curriculum Design for Teaching Spanish.** 3 credits.
Multi-faceted introduction to the scholarly study of theory, research, and practice in learning and teaching Spanish. Includes application and critical analysis of different methods of instruction and curriculum design. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Schedule Type:** Lecture

**SPAN 576: Advanced Translation.** 3 credits.
Advanced work in translation of selected texts from diverse fields. Comparative terminology, sight translation, and precis writing. Emphasis on the function and technique of documentation in translation. Translation from Spanish to English and from English to Spanish. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

600 Level Courses

**SPAN 635: Seminar in Don Quixote.** 3 credits.
Study of Don Quixote and major critical approaches to the work. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**SPAN 650: Seminar in Twentieth-Century Drama.** 3 credits.
Study of major dramatists in the generation of 1898 and contemporary theater. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**SPAN 655: Seminar in Twentieth-Century Prose.** 3 credits.
Study of major writer, theme, or movement in novel or essay. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**SPAN 670: Seminar in Spanish American Prose.** 3 credits.
Study of a selected theme, movement, or author in the novel, short story, or essay. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**SPAN 675: Seminar in Literature and Art.** 3 credits.
Comparative analysis of a literary theme or style in relation to other media (painting, architecture, film) for an integral understanding of the arts. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SPAN 680:** Seminar in Literature and Society. 3 credits.
Study of a literary topic, a genre, or selected authors in relation to a given economic, social, or political system in Spain or Latin America. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**SPAN 685:** Seminar in Literature and Ideas. 3 credits.
Study of major ideological-philosophical themes and their artistic expression in literature. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**700 Level Courses**

**SPAN 798:** Directed Reading and Research. 3 credits.
Open only to degree students who have completed at least 18 credits. Reading and research on a specific project under the direction of a department member. Oral or written report required. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**SPAN 799:** Thesis. 1-6 credits.
Master's thesis research and writing under direction of faculty committee. Students must register for 3 credits in the first semester of SPAN 799 and maintain continuous enrollment until completion of thesis. Credits are awarded upon completion. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**800 Level Courses**

**SPAN 800:** Studies for the Doctor of Philosophy in Education. 3-6 credits.
Studies designed by student's discipline director and approved by student's doctoral committee that prepare student for research and writing in area of interest in discipline. Offered by Modern & Classical Languages (p. 414). May be repeated within the degree.

**Recommended Prerequisite:** Admission to PhD in education program to study in Spanish.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Research

**Special Education (EDSE)**

**100 Level Courses**

**EDSE 115:** American Sign Language (ASL) I. 3 credits.
Introduces American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Explores issues of multiculturalism, linguistic code-switching, and language dominance, particularly in relationship to Deaf education. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Schedule Type:** Lecture

**EDSE 116:** American Sign Language (ASL) II. 3 credits.
Focusses on intermediate level skills in American Sign Language (ASL) and Deaf culture. Increases competencies in person-to-person conversational signing, including expressive and receptive skills, vocabulary, syntax, semantics, and pragmatics. Provides opportunities for in-depth exploration of issues of multiculturalism, Deaf history, Deaf culture, and the different modalities of communication used in Deaf education problems. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Schedule Type:** Lecture

**EDSE 219:** American Sign Language (ASL) III. 3 credits.
ASL III focuses on strengthening expressive and receptive communication through the development of narrative and storytelling skills. The course explores the importance of these skills within the Deaf Community. Students also study how ASL, Deaf history, culture, education, and accessibility have influenced laws and policies in different areas of the community, the region, the nation, and the world. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** EDSE 116C.

**Schedule Type:** Lecture

**200 Level Courses**

**EDSE 115:** American Sign Language (ASL) I. 3 credits.
Introduces American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Explores issues of multiculturalism, linguistic code-switching, and language dominance, particularly in relationship to Deaf education. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Schedule Type:** Lecture

**EDSE 116:** American Sign Language (ASL) II. 3 credits.
Focusses on intermediate level skills in American Sign Language (ASL) and Deaf culture. Increases competencies in person-to-person conversational signing, including expressive and receptive skills, vocabulary, syntax, semantics, and pragmatics. Provides opportunities for in-depth exploration of issues of multiculturalism, Deaf history, Deaf culture, and the different modalities of communication used in Deaf education problems. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Schedule Type:** Lecture

**EDSE 219:** American Sign Language (ASL) III. 3 credits.
ASL III focuses on strengthening expressive and receptive communication through the development of narrative and storytelling skills. The course explores the importance of these skills within the Deaf Community. Students also study how ASL, Deaf history, culture, education, and accessibility have influenced laws and policies in different areas of the community, the region, the nation, and the world. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** EDSE 116C.
EDSE 412: Braille Code. 3 credits.
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Enables students to better understand the Braille code and how to teach it to students with a visual disability. Notes: Delivered online. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDSE 411. Concurrent enrollment is also permitted.

Schedule Type: Lecture

EDSE 411: Characteristics of Students with Visual Impairments. 2 credits.
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants’ and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment. Notes: Course delivered online. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Schedule Type: Lecture

EDSE 402: Classroom Management and Applied Behavior Analysis. 3 credits.
Focuses on identifying, recording, evaluating, and changing social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management, including use of technological advances. Emphasizes developing classroom and individual behavior management plans. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Schedule Type: Lecture

EDSE 403: Language Development and Reading. 3 credits.
Identifies literacy skills for typical and atypical students, and describes reading, language, and writing instruction for students with mild disabilities who access the general curriculum. Explores emergent literacy skills, phonemic awareness, vocabulary development, and comprehension. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDSE 401 and EDSE 440.

Schedule Type: Lecture

EDSE 401: Introduction to Special Education. 3 credits.
Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the life span. Includes historical factors, legislation, etiology, characteristics, needs, educational strategies, assessment, and support services for individuals with disabilities ranging from mild and moderate to severe levels of varying disabilities. Includes the impact of disabilities on academic, social, and emotional performances. Note: School-based field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Schedule Type: Lecture

EDSE 414: Orientation and Mobility. 2 credits.
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized. Notes: Delivered online. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDSE 411. Concurrent enrollment is also permitted.

Schedule Type: Lecture

EDSE 418: Curriculum and Assessment of Students with Visual Impairments. 3 credits.
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement. Notes: Delivered online. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDSE 411.

Schedule Type: Lecture

EDSE 428: Elementary Reading, Curriculum, Strategies for Students Who Access the General Education Curriculum. 3 credits.
Applies research on instructional approaches in elementary curriculum for individuals with disabilities accessing general education curriculums. Includes curriculum and instructional strategies in reading, language arts, mathematics, science, social studies, and social skills; cognitive strategies in study skills, attention and memory, and peer-mediated instruction. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Schedule Type: Lecture

EDSE 431: Transition and Community-Based Instruction. 3 credits.
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Schedule Type: Lecture

EDSE 432: Positive Behavior Supports. 3 credits.
Explores concepts and skills needed to design, implement, and evaluate positive behavior support programs, derived from functional assessment, to support the specific needs of students with severe disabilities. Addresses relevant replacement skills; facilitates generalization and maintenance of skills; applies instructional strategies to support behavior, and incorporates individually designed crisis intervention procedures. Offered by Graduate School of Education (p. 155). May not be repeated for credit.
EDSE 434: Communication and Severe Disabilities. 3 credits.
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses the knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction aimed at motivating, building, and expanding communication, choice-making, and social interaction. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

EDSE 440: Characterships of Students with Disabilities Who Access the General Curriculum. 3 credits.
Examines the characteristics of students with mild disabilities. Focuses on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support. Note: School-based field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

EDSE 447: Medical and Developmental Risk Factors for Children with Disabilities. 3 credits.
Examines nature and causes of disabling or special health conditions. Covers screening and evaluation techniques, characteristics, and educational implications. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

EDSE 457: Foundations of Language and Literacy for Diverse Learners. 3 credits.
Examines the complexity of language acquisition and literacy development. Focuses on typical and atypical language development, connections between language and literacy, and diversity of communication styles in families and cultures. Emphasizes first and second language acquisition. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

EDSE 460: Introduction to Applied Behavior Analysis. 3 credits.
Teaches basic principles, procedures, and ethical concepts pertaining to applying behavior analysis in schools or in other educational or therapeutic settings developed to satisfy part of the educational requirements needed for sitting for the Board Certified Assistant Behavior Analyst (BCaBA) examination. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

EDSE 461: Analysis and Intervention in Applied Behavior Analysis. 3 credits.
Teaches students basic data collection, presentation, and analysis as it pertains to applied behavior analysis; as well as procedures for determining intervention efficacy and selecting, developing, or modifying interventions based on data, in educational and other settings to satisfy part of the educational requirement to sit for the Board Certified Assistant Behavior Analyst (BCaBA) examination. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

EDSE 462: Applying Behavior Analysis in School and Community Settings. 3 credits.
Teaches a variety of procedural topics in applied behavior analysis pertaining to developing effective instruction and interventions for a variety of content areas, skills, and adaptive and problem behaviors. Additionally, provides instruction on gaining collaboration of those around the student in assuring the student’s success, and ethical concerns in meaningfully applying behavior analysis. Satisfies part of the educational requirement to sit for the Board Certified Assistant Behavior Analyst (BCaBA) examination. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

EDSE 464: Ethical and Professional Conduct in Applied Behavior Analysis. 3 credits.
Provides a basis in Virginia Behavior Analyst Licensure law, the Behavior Analyst Certification Boards Guidelines for Responsible Conduct and Disciplinary Standards, Virginia Assistant Behavior Analyst Licensure Regulations, and professional conduct consistent with the practice of applied behavior analysis. Incorporates overseeing instructional or program implementation, working with behavior change systems, managing interventions, and behavior change considerations. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

EDSE 465: Standard Applied Behavior Analysis Practicum. 3 credits.
Meets standard undergraduate supervision requirements by the Behavior Analyst Certification Board to develop, design, implement, and evaluate behavior analytic techniques that produce meaningful change. Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com). Offered by Graduate School of Education (p. 155). May be repeated within the degree for a maximum 9 credits.

EDSE 469: Intensive Applied Behavior Analysis Practicum. 6 credits.
Meets intensive supervision requirements by the Behavior Analyst Certification Board to develop, design, implement, and evaluate behavior analytic techniques that produce meaningful change. Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com) Offered by
Graduate School of Education (p. 155). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: EDSE 460 (may be taken concurrently); admission to or prior completion of the Applied Behavior Analysis minor or permission of instructor; submission of practicum application to the Special Education program.

Schedule Type: Internship

500 Level Courses

EDSE 501: *Introduction to Special Education.* 3 credits.
Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the lifespan. Includes historical factors, legislation, etiology, characteristics, needs, educational strategies, assessment, and support services for individuals with disabilities ranging from mild and moderate to severe levels of varying disabilities. Includes the impact of disabilities on academic, social, and emotional performances. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 502: *Classroom Management and Applied Behavior Analysis.* 3 credits.
Focuses on identifying, recording, evaluating, and changing social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management including use of technological advances. Emphasizes developing classroom and individual behavior management plans. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 504: *Elementary Curriculum and Content for Special Educators.* 2 credits.
Reviews elementary curriculum content and instructional approaches for the instruction of individuals with disabilities in language arts/reading, mathematics, science, and social studies. Addresses core knowledge for Elementary Praxis II. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 511: *Characteristics of Students with Visual Impairments.* 2 credits.
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment. Notes: Course delivered online. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 512: *Braille Code.* 3 credits.
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Enables students to better understand the Braille code and how to teach it to students with a visual disability. Notes: Delivered online. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 513: Medical and Educational Implications of Visual Impairments.** 3 credits.
Provides an introduction to anatomy and physiology of the visual system and the educational implications of visual pathology. Covers anatomy of the human eye, normal visual development, pathology of the eye, examination procedures for the identification of visual pathology, and the effects of pathology on visual learning and development. Notes: Delivered online. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** EDSE 511. Concurrent enrollment is also permitted.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 514: Orientation and Mobility for Students with Visual Impairments.** 2 credits.
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Emphasizes motor and concept skill development. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** EDSE 511. Concurrent enrollment is also permitted.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 515: American Sign Language (ASL) I.** 3 credits.
Introduces American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Explores issues of multiculturalism, linguistic code-switching, and language dominance, particularly in relationship to Deaf education. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** EDSE 511. Concurrent enrollment is also permitted.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 516: American Sign Language (ASL) II.** 3 credits.
Focuses on intermediate level skills in American Sign Language (ASL) and Deaf culture. Increases competencies in person-to-person conversational signing, including expressive and receptive skills, vocabulary, syntax, semantics, and pragmatics. Provides opportunities for in-depth exploration of issues of multiculturalism, Deaf history, Deaf culture, and the different modalities of communication used in Deaf education programs. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** EDSE 515.C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 517: Computer Applications for Special Populations.** 3 credits.
Explores the applications of computer technology for instructional programs and computer skills used by teachers of special populations. Provides experience with computer technology designed for special populations. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Schedule Type:** Lecture

**EDSE 518: Curriculum and Assessment of Students with Visual Impairments.** 3 credits.
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Provides practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement. Notes: Field Experience Required. Delivered online. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** EDSE 511. Concurrent enrollment is also permitted.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 519: American Sign Language (ASL) III.** 3 credits.  
ASL III focuses on strengthening expressive and receptive communication through the development of narrative and storytelling skills. The course explores the importance of these skills within the Deaf Community. Students also study how ASL, Deaf history, culture, education, and accessibility have influenced laws and policies in different areas of the community, the region, the nation, and the world. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**  
Required Prerequisite: EDSE 516C.  
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 531: Transition and Community-Based Instruction.** 3 credits.  
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development, and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 532: Positive Behavior Supports.** 3 credits.  
Focuses on employing concepts and skills to design, implement, and evaluate behavior support programs derived from functional assessment; addressing relevant replacement skills; facilitating generalization and maintenance of skills; and incorporating individually designed crisis intervention procedures. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 533: Curriculum and Assessment in Severe Disabilities.** 3 credits.  
Addresses best practices in curriculum and assessment for individuals with severe disabilities. Covers the design of assessment and evaluation techniques and procedures for the severe-needs population, including adaptations and accommodations. Covers IEP formulation and implementation with linkage to assessment. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 534: Communication and Severe Disabilities.** 3 credits.  
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses the knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction, aimed at motivating, building, and expanding communication, choice-making, and social interaction. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 535: Communication and Severe Disabilities.** 3 credits.  
Provides strategies for teaching functional academics and social/life skills, facilitating the transition to postsecondary environments. Focuses on all aspects of transition and alternative assessments for secondary learners with disabilities. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
EDSE 557: Foundations of Language and Literacy for Diverse Learners. 3 credits.
Examines the complexity of language acquisition and literacy development. Focuses on typical and atypical language development, connections between language and literacy, and diversity of communication styles in families and cultures. Emphasizes first and second language acquisition. Notes: Field Experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 558: Medical Aspects of Physical and Sensory Disabilities in Young Children. 3 credits.
Focusses on medical aspects of young children with disabilities and the role of professionals in service delivery. Explores etiology, symptomatology, and management of neuromotor disabilities. Emphasizes positioning, adaptive strategies, and understanding assistive technology devices. Offered by Graduate School of Education (p. 155). May not be repeated for credit. Equivalent to ECED 506.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 561: Secondary Science for Special Education Teachers. 3 credits.
Provides the necessary depth and breadth of science content knowledge required for prospective secondary special education science teachers. Prepares students for the Praxis Content Knowledge tests in five fields: Biology, Chemistry, Earth and Space Science, General Science and Physics. Design science content area instruction for students with mild disabilities utilizing current evidence-based practices. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

EDSE 562: Foundations of Reading Instruction for Students with Specific Learning Disabilities. 3 credits.
Examines the characteristics of students with specific learning disabilities who demonstrate severe deficits in reading and written language. Addresses language development from an anatomical, physiological, and social perspective. Provides essential knowledge in language development. Examines the legislation that addresses the rights of students with disabilities. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 563: Language Structure and Literacy Development for Students with Specific Learning Disabilities. 3 credits.
Examines the components of the English language, including language processing requirements, integrated with the development of literacy skills. Analyzes language and literacy performance and the variability...
of language learning in students with specific learning disabilities. 
Explores environmental, social, and cultural factors, including the impact of second language learning and dual-identification. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** EDSE 562B-
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 564: Phonology, Phonics, and Fluency for Students with Specific Learning Disabilities.** 3 credits.
Evaluates phonology, phonics, and fluency skills of students with specific learning disabilities using formal and informal measures. Designs instruction to meet the needs of students with learning disabilities who have deficits in these areas. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Corequisite:** EDSE 566.

**Registration Restrictions:**
**Required Prerequisite:** EDSE 563B-
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 565: Vocabulary, Comprehension, and Written Expression for Students with Specific Learning Disabilities.** 3 credits.
Evaluates vocabulary, text comprehension, and written expression skills of students with specific learning disabilities using formal and informal measures. Designs instruction to meet the needs of students with learning disabilities who have deficits in these areas. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Corequisite:** EDSE 567.

**Registration Restrictions:**
**Required Prerequisites:** EDSE 564B- and 566B-
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 566: Practicum I for Specialized Reading Instruction for Students with Specific Learning Disabilities.** 1 credit.
Demonstrate competencies for implementing intensive, data-based interventions to students with specific learning disabilities who have severe deficits in reading and writing. Administer and analyze assessments and design interventions for phonology, phonics and word recognition, and fluency. Monitor student progress and modify instruction as needed. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Corequisite:** EDSE 564.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**EDSE 567: Practicum II for Specialized Reading Instruction for Students with Specific Learning Disabilities.** 2 credits.
Demonstrate competencies for implementing intensive, data-based interventions to students with specific learning disabilities who have severe deficits in reading and writing. Administer and analyze assessments and design interventions for vocabulary, text comprehension, and written expression. Monitor student progress and modify instruction as needed. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Corequisite:** EDSE 565.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**EDSE 590: Special Education Research.** 3 credits.
Describes fundamental concepts and practices in educational research in special education. Covers specific applications of educational research methods to problems in special education. Emphasizes review and critique of special education research, and applied classroom research for teachers. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
EDSE 597: Special Topics in Education. 1-6 credits.
Provides advanced study on selected topic or emerging issue in Special
Education. Offered by Graduate School of Education (p. 155). May be
repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Admission to program in Graduate School of
Education

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

600 Level Courses
EDSE 613: Teaching Methods for Students with Visual Impairments. 3
credits.
Emphasizes methods of teaching compensatory skills, the core
curriculum, and technology for use by students who are blind and
visually impaired. Addresses curriculum development, adaptations, and
teaching methodology for individuals with visual impairments. Provides
information on adaptations within various educational programs and
adaptation of general education classroom materials and procedures for
use with blind and low vision children and youth. Notes: Delivered online.
Offered by Graduate School of Education (p. 155). May not be repeated
for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also
permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 616: Braille Reading and Writing. 3 credits.
Provides basic instruction on transcription of advanced Braille codes,
including music, foreign language, chemistry, computer Braille, and
Nemeth code (Braille math code). Introduces techniques for teaching
skills in each code. Explores technology tools used to create Braille
tactile materials in addition to other assistive technologies used
for instruction in math and science. Notes: Field experience required.
Delivered online. Offered by Graduate School of Education (p. 155). May
not be repeated for credit.

Recommended Prerequisite: EDSE 511 (may be taken concurrently),
EDSE 512.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 619: Applied Behavior Analysis: Principles, Procedures, and
Philosophy. 3 credits.
Focuses on basic principles and procedures of applied behavior analysis;
identification of factors that contribute to behavioral problems and
improved performance; and procedures that can be used to minimize
behavioral problems, improve performance, teach new behaviors,
and increase probability of behaviors occurring under appropriate
circumstances. Offered by Graduate School of Education (p. 155). May
not be repeated for credit.

Recommended Prerequisite: Admission to Applied Behavior Analysis
Graduate Certificate Program (ABAC).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

EDSE 620: Supporting the Behavior and Sensory Needs of Individuals with
Autism. 3 credits.
Describes the behavior and sensory development of individuals
with autism spectrum disorder across their lifespans. Analyzes the
principles of behavior management and the evidence and research-based
interventions that have been proven to be effective with individuals with
autism and sensory needs. Offered by Graduate School of Education
(p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Focuses on basic content of applied behavior analysis. Teaches how to
implement behavioral procedures and develop behavioral programs for
clients with fundamental behavioral needs. Offered by Graduate School
of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 619B-.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy,
Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture
EDSE 623: Applied Behavior Analysis: Assessments and Interventions. 3 credits.
Expands on basic content of applied behavior analysis and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 619B.
B- Requires minimum grade of B-

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

EDSE 624: Applied Behavior Analysis: Applications. 3 credits.
Develops capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 619B.
B- Requires minimum grade of B-

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

EDSE 625: Applied Behavior Analysis: Verbal Behavior. 3 credits.
Expands capability to deal with more complex behavioral situations, and enables students to relate to more sophisticated professional issues and environments. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 619B.
B- Requires minimum grade of B-

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

EDSE 626: The Inclusive Classroom. 3 credits.
Introduces participants to instructional procedures for facilitating inclusive instruction for students with disabilities in general education settings. Covers research-based strategies for adapting curriculum materials, designing instructional procedures, and evaluating students with disabilities. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

EDSE 627: Assessment. 3 credits.
Offers knowledge and experiential learning activities related to assessment of students with mild disabilities. Includes statistical and psychometric concepts in assessment. Addresses norm-referenced, criterion-referenced, curriculum-based, and informal assessment for instructional and placement decisions. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

EDSE 628: Elementary Reading, Curriculum, Strategies for Students Who Access the General Education Curriculum. 3 credits.
Applies research on instructional approaches in elementary curriculum for individuals with disabilities accessing general education curriculum. Includes curriculum and instructional strategies in reading, language arts, mathematics, science, social studies; cognitive strategies in study skills; attention and memory; and peer-mediated instruction. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

EDSE 629: Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum. 3 credits.
Applies research on teacher effectiveness, accountability, and instructional approaches at the secondary level for individuals with mild disabilities. Includes instructional methods necessary for teaching reading, writing, math, and other content areas across the curriculum. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

EDSE 634: Characteristics of Individuals with Autism. 3 credits.
Describes the varying characteristics of individuals with autism across their lifespans including, (a) diagnosis, (b) early childhood, (c) school-age, (d) transition, (e) employment, and (f) aging. Examines definitions, eligibility criteria, incidence rates, and etiology of autism. Analyzes perspectives from students, families, educational, community, and career personnel. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 635: Interventions for Individuals with Autism.** 3 credits.
Analyzes evidence and research-based interventions for individuals with autism in a variety of domains across their lifespans including academic, communication, social, and behavioral. Evaluates methods for prioritizing intervention needs for individuals with autism across their lifespans, developing appropriate interventions to address those needs, and measuring the impact of interventions in a variety of service delivery models. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** EDSE 634. Concurrent enrollment is also permitted.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 636: Supporting Communication and Literacy for Individuals with Autism.** 3 credits.
Surveys the characteristics of communication and literacy, as well as the design and implementation of communication systems for individuals with autism spectrum disorder across their lifespans. Explains methods for assessment, identification of priorities, and monitoring progress of communication and literacy instruction in order to improve behavior, academic skills, and social interactions in various environments. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** EDSE 634.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 637: Autism Across the Lifespan: Collaboration with Critical Partners.** 3 credits.
Examines characteristics, milestones, critical issues, and areas of need for individuals with autism across their lifespans. Prioritizes key features of effective collaboration and partnership. Utilizes a strengths-based problem solving perspective to frame collaboration and partnership for individuals with autism across their lifespans and simulates partnership practices with a variety of stakeholders across the lifespan of an individual with autism. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 661: Curriculum and Methods: Severe Disabilities.** 3 credits.
Focuses on current best practices in curriculum, and methods for students with severe disabilities, including specific strategies for teaching students with severe disabilities, general strategies for working with heterogeneous groups of students in inclusive settings, and methods for adapting the general education curriculum to include students with severe disabilities. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** Teaching licensure or enrollment in a graduate degree program in education.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

**Schedule Type:** Lecture

**EDSE 662: Consultation and Collaboration.** 3 credits.
Provides professionals in special education, regular education, and related fields with knowledge and communication skills necessary for collaborative consultation and technical assistance to other educators and service providers. Note: Field experience required. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Recommended Prerequisite:** Teaching licensure or enrollment in a graduate degree program in education.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

**Schedule Type:** Lecture

**EDSE 663: Collaborative Teamwork to Support Students with Significant Disabilities.** 3 credits.
Focuses on models of teamwork, group decision making, team process, leadership and communication and how they influence services for individuals with significant disabilities and their families. Provides an understanding of collaborative structures and demonstrates knowledge of skills and strategies to maintain effective relationships with a variety of stakeholders in collaborative settings. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 664: Ethical and Professional Conduct for Behavior Analysis.** 3 credits.
Provides a basis in Virginia Behavior Analyst Licensure law, the Behavior Analyst Certification Boards Guidelines for Responsible Conduct and Disciplinary Standards, and professional conduct consistent with the
practice of applied behavior analysis. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** EDSE 619B.

B- Requires minimum grade of B-

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 665:** *Families of Children with Special Needs.* 3 credits.
Focusses on strategies for developing culturally appropriate family-professional partnerships to benefit children with special needs. Explores theories and research that support a family-centered approach. Includes family and professional rights and responsibilities in the special education process. Offered by Graduate School of Education (p. 155). May not be repeated for credit. Equivalent to ECED 524.

**Recommended Prerequisite:** Admission to the Early Childhood Special Education program or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 669:** *Interdisciplinary Approach for Children with Sensory and Motor Disabilities.* 3 credits.
Emphasizes positioning, handling, and adaptive strategies. Focuses on understanding the roles of related disciplines in collaborative planning and service delivery. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**700 Level Courses**

**EDSE 701:** *Legal Issues and Special Populations.* 3 credits.
Studies the impact of legislation and litigation on the education of special populations emphasizing IDEA and Section 504. Covers emerging trends in special education based on interpretation of landmark court cases related to disability, legal updates on policies and procedures for exceptional learners, and discussion of the guiding principles of special education law when addressing the needs of special populations. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 702:** *Managing Resources for Special Education Programs.* 3 credits.
Examines development and delivery of specialized programs for exceptional learners. Covers implementation of Individualized Education Plans via Universal Design, financial and human resource allocation and management, effective supervision and evaluation, and student outcome documentation. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 703:** *Creating a Collaborative Culture.* 3 credits.
Provides leaders in school settings with an opportunity to gain the skills needed to facilitate collaborative environments supportive of all learners. Discusses the impact of diversity on educational settings, developing a vision effective communication teaming and co-teaching techniques, family professional partnerships, implementing schoolwide change initiatives, alternative dispute resolution, and maintaining a positive school climate. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 743:** *Leadership in Special Education Administration.* 3 credits.
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**EDSE 744:** *Current Issues in Special Education.* 3 credits.
Helps students develop an understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Familiarizes students with current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of their methodological strengths and weaknesses and their part in providing convergent bodies of evidence that can be used for defining practice and policy. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
EDSE 782: Comprehensive Topics in Special Education: Trends and Issues. 3 credits.
Focuses on current trends and issues in special education and disabilities. Provides students the opportunity under the direction of instructor to complete individually designed projects addressing major trends and issues in their emphasis area of special education. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to Graduate level students.

Recommended Prerequisite: Majority of course work completed.

EDSE 783: Internship: Special Education in General Curriculum. 3-6 credits.
Applies, in supervised internships, university course work in General Curriculum to instruction of children and their families in school settings. Notes: Demonstration that RVE, VCLA, Praxis Entry, and other program-specific requirements have been met; application for internship on file by program deadline. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Students W/Dis Access Gen Curr.
Enrollment is limited to Graduate or Non-Degree level students.
Enrollment limited to students in a Graduate Certificate degree.

EDSE 784: Internship: Adapted Curriculum. 3-6 credits.
Applies, in supervised internships, university course work in Adapted Curriculum to instruction of children and their families in school settings. Notes: Demonstration that VCLA, Praxis Entry, and other program-specific requirements have been met; application for internship on file by program deadline. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Students W/Dis Access Adp Curr.
Enrollment is limited to Graduate or Non-Degree level students.
Enrollment limited to students in a Graduate Certificate degree.

EDSE 785: Internship: Visual Impairment. 2-6 credits.
Applies, in supervised internships, university course work in Visual Impairment to instruction of children and their families in school settings. Notes: Passing scores on Praxis Entry requirement; demonstration that reading content and other program specific requirements have been met; application for internship on file by program deadline. Offered by Graduate School of Education (p. 155). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: EDSE 411 or 511; EDSE 412 or 512; EDSE 513.

Registration Restrictions:
Enrollment is limited to students with a major in Visual Impairments Lic PK-12.
Enrollment is limited to Graduate or Non-Degree level students.
Enrollment limited to students in a Graduate Certificate degree.

EDSE 790W: EDSE 790 Course Waiver. 1 credit.
Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

EDSE 794: Special Topics. 1-6 credits.
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education. Offered by Graduate School of Education (p. 155). May be repeated within the degree.

Recommended Prerequisite: EDSE 619 or PSYC 619 or permission by the instructor

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

EDSE 795: Standard Applied Behavior Analysis Practicum. 3 credits.
Meets standard practicum supervision requirements by the BACB to provide hands-on experience designing, implementing, and evaluating behavior analytic procedures under the supervision of a Board Certified Behavior Analyst. Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com) Offered by Graduate School of Education (p. 155). May be repeated during the degree for a maximum 18 credits.

Recommended Prerequisite: EDSE 619 or PSYC 619 or permission by the instructor

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

EDSE 797: Advanced Topics in Education. 1-6 credits.
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education. Notes: May be repeated for credit with CEHD approval. Offered by Graduate School of Education (p. 155). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

EDSE 790 Course Waiver.
EDSE 799: Intensive Applied Behavior Analysis Practicum. 6 credits.

Meets intensive practicum supervision requirements by the BACB to provide hands-on experience designing, implementing, and evaluating behavior analytic procedures under the supervision of a Board Certified Behavior Analyst. Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification Board (www.BACB.com). Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDSE 619 or PSYC 619 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

800 Level Courses

EDSE 825: Foundations in Behavior Analytic Instructional Design and Teaching Methodology. 3 credits.

Focuses on behavior analytic instructional design and teaching methodology. Prepares students to design effective instructions and assess currently existing instructional programs and curricula. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral level program within the Graduate School of Education.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

EDSE 841: Intervention Research in Special Education. 3 credits.

Provides advanced graduate students with opportunities for in-depth study, analysis, and discussion of original intervention research in special education. Emphasizes analyzing research methodology, coding original intervention research, analyzing results, synthesizing findings, formulating future research questions relevant to individuals with disabilities, and gaining an understanding of the submission process for conferences and publications. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

EDSE 842: Application of Research Methodology in Special Education. 3 credits.

Provides knowledge and skills in the application of research methodology in special education. Topics include methods for conducting survey research, experimental and quasi-experimental research, research involving correlation and regression, and qualitative research. Emphasizes application to specific issues in special education research. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

EDSE 843: Leadership in Special Education Administration. 3 credits.

Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral level program within the Graduate School of Education.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

EDSE 844: Current Issues in Special Education. 3 credits.

Develops understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Describes current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of methodological strengths and weaknesses, and their part in providing convergent bodies of evidence that can be used for defining practice and policy. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral level program within the Graduate School of Education.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

EDSE 845: Personnel Preparation Programs in Special Education. 3 credits.

Provides an in-depth study, analysis, and discussion of personnel preparation programs in special education including: scope and national teacher licensure standards, bodies of accreditation, syllabi development, delivery models, and frameworks for curriculum design; teacher evaluation; and how policies, research, and issues of accountability can transform teacher preparation programs. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral level program within the Graduate School of Education.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

EDSE 846: Assessment, Evaluation, and Instrumentation in Special Education Research. 3 credits.

Provides in-depth study, analysis and discussion of the past, present and future directions of assessment, evaluation, and instrumentation research in special education. Emphasizes reliability and validity of the research instruments, evaluating research methodology, analyzing results, synthesizing findings with respect to present assessment and evaluation policies; formulating future research questions relevant to assessment and evaluation of individuals with disabilities. Offered by Graduate School of Education (p. 155). May not be repeated for credit.
Registration Restrictions:  
Enrollment is limited to students with a major in Education.  

Enrollment is limited to Graduate level students.  

Schedule Type: Lecture  

EDSE 847: Problem Solving in Contemporary Initiatives in Special Education.  
3 credits.  
Addresses contemporary initiatives in special education: those introductory and leading actions intended to implement positive change, that can be promoted by federal agencies, professional or advocacy organizations. Focuses on understanding of contemporary special education initiatives through evaluation and analysis. Background, relevant legislative history, existing empirical evidence, and designing future research addressing contemporary initiatives will be studied and discussed. Offered by Graduate School of Education (p. 155). May not be repeated for credit.

Recommended Prerequisite: EDRS 811 or EDRS 812.

Schedule Type: Lecture  

EDSE 885: Writing Grants. 3 credits.  
Focuses on identification of funding sources, description of grant components, and development of grant budgets. Includes independent writing of an entire small grant, a significant portion of a large grant, and participation in grant peer-review process. Offered by Graduate School of Education (p. 155). May not be repeated for credit. Equivalent to EDSE 745.

Schedule Type: Lecture  

SPMT 100: Current Events in Sport Business. 1 credit.  
Engages students in a discussion about recent developments in the sport industry, using the Sport Business Journal to stimulate the discussion as well as provide the student with current information about this rapidly changing industry. There will be two field trips conducted as part of this class. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Required Prerequisite: SPMT 100.

Schedule Type: Lecture  

SPMT 110: Basketball Officiating. 1 credit.  
Teaches the fundamentals of officiating basketball including a thorough discussion of each of the rules as well as instruction of two person mechanics. Provides opportunity to become a certified Virginia High School League (VHSL) official. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture  

SPMT 112: Soccer officiating. 1 credit.  
Teaches the fundamentals of officiating soccer including a thorough discussion of each of the rules as well as instruction of crew mechanics. Provides opportunity of becoming a certified Virginia High School League (VHSL) official. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture  

200 Level Courses

SPMT 201: Introduction to Sport Management. 3 credits.  
Introduces sport management profession. Primary focus is on sport industry, including professional sport entertainment, amateur sport entertainment, for-profit sport participation, nonprofit sport participation, sporting goods, and sport services. Notes: Open to non majors. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Required Prerequisite: SPMT 200.

Schedule Type: Lecture  

SPMT 210: Foundations of Sport Coaching. 3 credits.  
Introduction to the scientific bases for coaching sports and the process of coaching athletes. Includes the development of an individual coaching philosophy and the application of scientific training in the psychological, physiological, pedagogical and managerial bases of sport coaching. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture  

SPMT 241: Practicum. 3 credits.  
Paid or voluntary experience in sport industry setting. Work sites chosen by students after receiving approval of faculty supervisors. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:  
Required Prerequisite: SPMT 210.  
D Requires minimum grade of D.

Enrollment is limited to students with a concentration in Sport Management.

Schedule Type: Internship  

300 Level Courses

SPMT 302: Philosophical and Ethical Dimensions of Sport. 3 credits.  
Investigates moral issues in sport and judgments about right and wrong behavior among athletes, coaches, spectators, and others. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture
SPMT 304: Sport, Culture, and Society. 3 credits.
Analyzes sport from educational, political, economic, and cultural perspectives. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

SPMT 318: Diversity and Inclusion Issues in Sport. 3 credits.
Focuses on sport participant and employee diversity and inclusive practices; and how differences based on religion disability, socioeconomic class, sex, gender, sexual orientation and racial hierarchies impacts historical and current sport experiences and outcomes. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

SPMT 320: Psychology of Sport. 3 credits.
Psychological theories of personality, motivation, and anxiety explored in sport environment. Examines social-psychological research on audience effects, team cohesion, leadership, and fan behavior. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

SPMT 321: America Through Baseball. 3 credits.
This course is designed for the student to gain an understanding of the past and present role of baseball in American culture. The course focuses on the development of professional baseball over the past 160 years and the ways in which the history of America as a nation and culture can be "read" through baseball. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

SPMT 322: Football and American Culture. 3 credits.
Designed for the student to gain an understanding of the past and present role of football in American culture. Focuses on the development of college, professional and high school football over the past 120 years and contemporary issues in football culture are analyzed such as debates over facial symbols and mascots, the question of professionalizing division one college football, and tailgating and televisual football cultures. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

SPMT 323: America and the Modern Olympics. 3 credits.
This course is designed to provide students an understanding of the role played by the United States in the modern Olympic movement. The primary focus is on the United States relationship with the modern Olympics from the earliest days of the games up through the Cold War period and beyond. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

SPMT 341: Field Experience in Sport Coaching. 3 credits.
Application of the scientific bases for coaching sports and the process of coaching athletes. Includes paid or voluntary experience in a sport-specific setting. The practicum location is to be chosen by students after receiving approval of the faculty supervisor. A minimum of 120 clock hours is required within the timeframe of the course. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: SPMT 210.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Coaching.

Schedule Type: Internship

400 Level Courses

SPMT 405: Sport Venues and Events. 3 credits.
Principles and techniques of event planning and operations in sport facilities and venues. Emphasizes principles and concepts of organization and administration including communication, personnel management, management of physical resources, and risk management. Examines a variety of sport events and venues such as indoor stadiums, athletic field complexes, and managing recreation and intramural activities. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: Completion of 60 hours.

Registration Restrictions:
Required Prerequisite: SPMT 201.
D Requires minimum grade of D.

Schedule Type: Lecture

SPMT 412: Sport Marketing and Sales. 3 credits.
Investigates principles and processes in sport marketing and finance. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: 60 hours.

Registration Restrictions:
Required Prerequisite: SPMT 201.
D Requires minimum grade of D.

Schedule Type: Lecture

SPMT 420: Economics and Finance in the Sport Industry. 3 credits.
Examines the principles of economics, budgeting, and finance as it applies to the sport industry. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: Completion of 60 hours.

Registration Restrictions:
Required Prerequisite: SPMT 201.
D Requires minimum grade of D.

Schedule Type: Lecture

SPMT 425: Sport Analytics. 3 credits.
Discusses theories and concepts in sport analytics. Topics cover player performance, player management, sports data strategies, team management, and game day operations and strategies. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: SPMT 201 and (STAT 250 or BUS 210).
C Requires minimum grade of C.
Schedule Type: Lecture

SPMT 430: Sport Communication. 3 credits.
Provides a senior-level exploration of the role of sport communication in contemporary cultures. Readings and discussions address questions about how communication about/in sports highlights the importance of sports, the cultural identities of those who engage in sport communication, and the pervasiveness of sport communication practices in industry. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: General COMM course.

Registration Restrictions:
Required Prerequisite: SPMT 201 D.
D Requires minimum grade of D.

Schedule Type: Lecture

SPMT 440: Global Perspectives in Sport. 3 credits.
An interdisciplinary examination of sport as a global phenomenon. Historical, cultural, economic, and governance perspectives are considered. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: 60 hours.

Registration Restrictions:
Required Prerequisite: SPMT 201 D.
D Requires minimum grade of D.

Schedule Type: Lecture

SPMT 455: Governance and Policy in Sport Organizations. 3 credits.
Examines sport organizations focused on both professional and amateur governance structures and processes. The study of policy in educational, nonprofit, and professional sport venues is also addressed. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: Completion of 60 hours.

Registration Restrictions:
Required Prerequisite: SPMT 201 D.
D Requires minimum grade of D.

Schedule Type: Lecture

SPMT 462: Sport Business Law. 3 credits.
Students in this course will receive instruction in the major areas of the law that impacts the sport industry. Students will also see how knowledge of sport law can make them better sport managers. There will be an introduction to the legal system in the United States and then we will see how the law has shaped the management of sport organizations and the playing and staging of the games. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: 60 credits.

Registration Restrictions:
Required Prerequisite: SPMT 201 D.
D Requires minimum grade of D.

Schedule Type: Lecture

SPMT 470: Strategic Management and Leadership in Sport Organizations. 3 credits.
Provides a foundation in organizational studies. It addresses the theoretical underpinnings and applications of leadership. It examines strategic planning processes and management within sport organizations. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: 60 hours.

Registration Restrictions:
Required Prerequisite: SPMT 201 D.
D Requires minimum grade of D.

Schedule Type: Lecture

SPMT 475: Sport Management Professional Development Seminar. 3 credits.
This is a seminar format in which students synthesize and apply theories, concepts, and practices in the leadership and management of sport organizations. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: 75 hours.

Registration Restrictions:
Required Prerequisite: SPMT 241 D.
D Requires minimum grade of D.

Enrollment is limited to students with a concentration in Sport Management.

Schedule Type: Seminar

SPMT 480: Special Topics in Sport Management. 3 credits.
Selected topics reflecting interest in specialized areas of sport management announced in advance. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture

SPMT 490: Internship. 12 credits.
Paid or voluntary work experience in sport industry settings. Requires minimum period of 10 to 12 weeks of full-time employment. Applies course work, theories, and research to work settings. Work sites chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during the internship. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Mason Core: Capstone (p. 135)

Recommended Prerequisite: SPMT 475 and completion of 90 credits.

Registration Restrictions:
Required Prerequisite: SPMT 241 C.
C Requires minimum grade of C.

Enrollment is limited to students with a concentration in Sport Management.

Schedule Type: Internship
SPMT 499: **Independent Study.** 1-3 credits.
Faculty-directed independent study of approved topics in sport management. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Schedule Type:** Independent Study

### 500 Level Courses

**SPMT 551: **Sport in the Global Marketplace.** 3 credits.
Explores sport business internationally including the production and consumption of professional and Olympic-linked sports and the impact of globalization on sport. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**SPMT 555: **The Australian Model of Sport.** 3 credits.
Examines the Australian model of sport which has been adopted in many countries. Analyzes government sport policy and the organization and administration of Australian professional sports. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** SPMT 551.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**SPMT 556: **The Global Soccer Industry.** 3 credits.
Explores the international soccer industry focusing on major professional leagues, international federations, international movement of players, the production of soccer equipment, legal and social issues. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** SPMT 551.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

### 600 Level Courses

**SPMT 611: **Sport Marketing and Sales.** 3 credits.
Investigates principles and processes in sport marketing. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**SPMT 612: **Economics and Financial Management in the Sport Industry.** 3 credits.
Examines principles of economics, budgeting, and finance as they apply to the sport industry. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**SPMT 613: **Strategic Leadership in Sport Organizations.** 3 credits.
Examines the theoretical underpinnings and effective strategic processes of leadership in sport organizations. Leader behaviors, characteristics, situational influences, and the cognitive dimensions of leadership will be explored within the organizational context. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**SPMT 614: **Legal Issues in Sport.** 3 credits.
Examines legal issues as they apply to the sports industry. Course content includes, but is not limited to: tort law, risk management procedures, product liability, constitutional/contract/administrative/statutory law, crowd control/security, personal/professional values, and situational analysis. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPMT 616: Sport Operations, Venues, and Event Management.** 3 credits. Examines administrative functions and operations, strategic planning, governance structures, policy development, and effective practices in the strategic management of sport programs, including managerial principles for venues and events. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPMT 618: Psychology of Coaching.** 3 credits. Presents a psychological foundation for sport coaching. Basic tenets of the psychology of individual and group behavior will include motivation, stress, communication, group cohesion/dynamics, leadership, reinforcement, and feedback as they relate to the context of sport coaching. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPMT 620: Ethical Issues in Global Sport.** 3 credits. Investigates moral issues in sport, and judgments about right and wrong behavior among organizations, athletes, coaches, spectators, and others at the global level. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPMT 631: Theoretical Models of Sport Coaching.** 3 credits. Examines the scientific bases for coaching athletes. Emphasizes philosophical underpinnings and theoretical foundations in the psychological, physiological, pedagogical, and managerial bases of sport coaching. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** SPMT 551.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPMT 651: Sport and International Development.** 3 credits. Explores the roles of sport in international development with focus on Africa, Asia, and Latin America. Non-governmental organizations (NGOs), international federations, professional leagues and grassroots initiatives will be examined. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** SPMT 551.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**SPMT 652: Governance and Policy in International Sport.** 3 credits. Explores sport governance and policy in the international context with focus on international federations, professional leagues and comparative analyses of governmental sporting policies. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** SPMT 551.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Sports and Recreation Studies (SRST)**

**200 Level Courses**

**SRST 200: History of Sport and Leisure in America.** 3 credits. Traces the history of sport and leisure in America. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.
400 Level Courses

SRST 450: Research Methods. 3 credits.
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships, and formulation of research proposals. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: 60 credits.

Registration Restrictions:
Required Prerequisites: STAT 250C, DESC 210C, OM 210C or IT 250C.
C Requires minimum grade of C.

Schedule Type: Lecture

500 Level Courses

SRST 595: Thesis Preparation. 2 credits.
Provides a basic overview and working knowledge of the procedures to be used towards completion of the thesis. With competencies gained in previous sport and recreation studies courses, the student will begin to form the criteria, considered evidence, and judgment towards a research topic for SRST 799. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Independent Study

SRST 598: Special Topics. 1-6 credits.
Focuses on projects related to sport and/or recreation studies. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SRST 599: Independent Study in Sport and Recreation Studies. 1-3 credits.
Studies problem area in sport and recreation studies research, theory, or practice under direction of faculty member. Notes: Students engage in one-on-one or seminar independent study with an SRST faculty member. The faculty member may be the student’s thesis or project supervisor. While SRST 599 is repeatable, 3 credit hours must be designated for Preparation of Thesis or Project Proposal. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 3 credits.

Schedule Type: Independent Study

600 Level Courses

SRST 606: Foundations of Sport and Recreation Studies. 3 credits.
Examines the historical development of the Sport and Recreation Studies fields. Explores the interconnection between these phenomena in the context of the social, cultural and economic forces shaping American and global societies. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

SRST 623: Research Design and Statistical Reasoning. 3 credits.
Introduces basic principles of scientific and scholarly inquiry in Sport and Recreation Studies. Explores the logic and practice of methods and techniques employed in research related to sport and recreation. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SRST 796: Seminar in Sport and Recreation Studies. 1 credit.
Scholarly forum for the presentation and discussion of contemporary topics in sport and recreation studies. Graduate students, faculty, and visiting scholars/practitioners share ongoing research and practical applications. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Recommended Prerequisite: SRST 796.

Recommended Corequisite: All other coursework with the exception of concurrent capstone.

Schedule Type: Seminar

SRST 798: Master’s Project/Internship. 1-6 credits.
Offers capstone experience to enable students to demonstrate their integrative knowledge and skills accrued through study in their concentration area within Sport and Recreation Studies. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 6 credits.

Recommended Corequisite: SRST 796.

Registration Restrictions:
Required Prerequisite: SRST 623B.
B Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

SRST 799: Master’s Thesis. 1-6 credits.
Explores sport and recreation problem using appropriate research methodology and under supervision of graduate faculty member. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisite: SRST 623\textsuperscript{B}.
\textsuperscript{B} Requires minimum grade of B.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Statistics (STAT)

200 Level Courses

STAT 250: Introductory Statistics I. 3 credits.
Elementary introduction to statistics. Topics include descriptive statistics, probability, and estimation and hypothesis testing for means and proportions. Statistical software used for assignments. Offered by Statistics (p. 1060). May not be repeated for credit.

Mason Core: Quantitative Reasoning (p. 135)

Recommended Prerequisite: High school algebra.

Schedule Type: Lecture

STAT 260: Introduction to Statistical Practice. 3 credits.
Data-oriented introduction to fundamental concepts and methods of applied statistics. Topics include: exploratory data analysis; sampling and principles of experimental design; sample means; confidence intervals and hypothesis tests for one and two sample means and proportions; analysis of contingency tables; simple linear regression; and correlation. Extensive use of statistical software. Intended primarily for students in the Statistics Bachelor’s program. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MATH 113\textsuperscript{C}, 115\textsuperscript{C} or 124\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

300 Level Courses

STAT 334: Introduction to Probability Models and Simulation. 3 credits.
Introduction to basic probability and principles of simulation. Emphasis is placed on formulation of models and simulation applications to statistical methodology. Topics include: basic probability rules, counting methods, discrete and continuous probability spaces, independence, conditional probability, expectation, variance, and limit theorems. Distributions covered include the binomial, hypergeometric, Poisson, normal, Gamma, Beta, multinomial, and multivariate normal. Intended primarily for students in the Statistics Bachelor’s program. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 260\textsuperscript{C} and (MATH 114\textsuperscript{C}, 116\textsuperscript{C} or 124\textsuperscript{C}).
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 344: Probability and Statistics for Engineers and Scientists I. 3 credits.
Introduction to probability and statistics with applications to computer science, engineering, operations research, and information technology. Basic concepts of probability, random variables and expectation, Poisson process, bivariate distributions, sums of independent random variables, central limit theorem, sampling distributions, maximum likelihood and unbiased estimators, confidence interval construction, and hypothesis testing. Offered by Statistics (p. 1060). Limited to two attempts. Equivalent to MATH 351.

Registration Restrictions:
Required Prerequisites: (MATH 114\textsuperscript{C} or 116\textsuperscript{C}).
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 346: Probability for Engineers. 3 credits.
Introduction to probability with applications to electrical and computer engineering, operations research, information technology, and economics. Basic concepts of probability, conditional probability, random variables and moments, specific probability distributions, multivariate distributions, moment-generating functions, limit theorems, and sampling distributions. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 213\textsuperscript{C} or 215\textsuperscript{C}).
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 350: Introductory Statistics II. 3 credits.
Further examination of statistics and data analysis with an emphasis on applications. Inference for comparing multiple samples, experimental design, analysis of variance and post-hoc tests. Simple linear, multiple and logistic regression. Analysis of contingency tables and categorical data. A statistical computer package is used for data analysis. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 250\textsuperscript{C} or 260\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 354: Probability and Statistics for Engineers and Scientists II. 3 credits.
Multivariate probability distributions, variable transformations, regression, analysis of variance, contingency tables, and nonparametric methods. Applications to quality control, acceptance sampling, and reliability. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 334\textsuperscript{C} or 344\textsuperscript{C} or (STAT 346\textsuperscript{C} and (STAT 250\textsuperscript{C} or 260\textsuperscript{C})).
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
STAT 356: Statistical Theory. 3 credits.
Introduction to the mathematical theory of statistical inference, emphasizing inference for standard parametric families of distributions. Topics include: properties of estimators; Bayes and maximum likelihood estimation; sufficient statistics; properties of test of hypotheses; most powerful and likelihood-ratio tests; and distribution theory for common statistics based on normal distributions. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisite: STAT 346\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 362: Introduction to Computer Statistical Packages. 3 credits.
Use of computer packages in statistical analysis of data. Topics include data entry, checking, and manipulation, and use of computer statistical packages for regression and analysis of variance. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 250\textsuperscript{C}, 260\textsuperscript{C} or BUS 310\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

400 Level Courses

STAT 435: Analysis of Experimental Data. 3 credits.
Second course in statistics intended to assist with analysis of data from educational research and the social, natural, and life sciences. Topics include sample surveys, contingency tables, linear and multiple regression, analysis of variance, nonparametric tests, and multivariate methods. Various statistical packages will be used. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 250\textsuperscript{C}, 260\textsuperscript{C} or 344\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 455: Experimental Design. 3 credits.
Introduces problems and techniques inherent in design of experiments, which refers to planning an experiment so that collected data can be analyzed by statistical methods. Covers the two aspects to any experimental problem: the design itself and the analysis of the resulting data. Examples from numerous disciplines in the sciences and the humanities are discussed. Data analysis is emphasized. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 350\textsuperscript{C}, 354\textsuperscript{C} or 435\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 456: Applied Regression Analysis. 3 credits.
Presents regression concepts and techniques as synthesis of theory, methods, and applications. Emphasis on understanding assumptions of the regression model, how to validate a selected model, when and how regression might be useful in different application areas, and interpreting output from statistical software packages. Topics include: multiple regression model fitting, logistic regression, and time series analysis. Data analysis is emphasized. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 350\textsuperscript{C}, 354\textsuperscript{C}, 435\textsuperscript{C} or BUS 310\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 460: Introduction to Biostatistics. 3 credits.
Focuses on biostatistical aspects of design and analysis of biomedical studies, including epidemiologic observational studies and randomized clinical trials. Topics include randomization principle, confounding, ethics in human experimentation, methods of randomization, stratification, primary outcome analyses, covariate-adjusted analyses, epidemiologic measures, and sample size and power computation. Offered by Statistics (p. 1060). Limited to two attempts.

Recommended Prerequisite: Working knowledge of SAS.

Registration Restrictions:
Required Prerequisites: STAT 350\textsuperscript{C}, 354\textsuperscript{C} or 435\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 462: Applied Multivariate Statistics. 3 credits.
Introduces a variety of multivariate statistical methods as aids to analyzing and interpreting large data sets. These methods will have general applications across a wide range of disciplines. Topics include: principal components analysis, cluster analysis, discriminant analysis, multi-dimensional scaling, correspondence analysis, and canonical correlation analysis. Extensive use of statistical software. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 350\textsuperscript{C}, 354\textsuperscript{C} or 435\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 463: Introduction to Exploratory Data Analysis. 3 credits.
Features statistical graphics, maps and simple models used to bring out patterns in data. Introduces statistical software and addresses data access and import. Presents exploratory strategies motivating data transformations. Stresses the cognitive foundations of good graphics. Graphics include dot plots, box plots, Q-Q plots, parallel coordinate plots, scatterplot matrices and linked views. Exploration includes use of dynamic graphics. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 350\textsuperscript{C}, 354\textsuperscript{C}, 435\textsuperscript{C} or BUS 310\textsuperscript{C}.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Students will develop a historical and ethical appreciation of the field of statistics as well as connect methods from their undergraduate coursework to solve problems. Students will work in small groups to develop a project proposal for STAT 490. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 354C and 362C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Senior.
Enrollment is limited to students with a major in Statistics.
Enrollment limited to students in a Bachelor of Science degree.
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 490: Capstone in Statistics. 3 credits.
Students will synthesize methods and ideas acquired in their undergraduate courses by working in small groups on a project and presenting their findings in a written report and an oral presentation. Offered by Statistics (p. 1060). Limited to two attempts.

Mason Core: Capstone (p. 135)

Registration Restrictions:
Required Prerequisite: STAT 489C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Statistics.
Enrollment limited to students in a Bachelor of Science degree.
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 498: Independent Study in Statistics. 1-3 credits.
Directed self-study of special topics of current interest in statistics. Notes: May be repeated if topics are substantially different. Offered by Statistics (p. 1060). Limited to two attempts.

Recommended Prerequisite: 60 hours.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Independent Study

STAT 499: Special Topics in Statistics. 3 credits.
Topics of special interest to undergraduates. Notes: May be repeated if topics are substantially different. Offered by Statistics (p. 1060). Limited to two attempts.

Recommended Prerequisite: 60 undergraduate credits.

Registration Restrictions:
Washington Consortium level students may not enroll.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 489: Pre-Capstone Professional Development. 3 credits.
Develops skills in the areas of technical writing and oral communication. Students will develop a historical and ethical appreciation of the field of statistics as well as connect methods from their undergraduate coursework to solve problems. Students will work in small groups to develop a project proposal for STAT 490. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 350C, 354C or 435C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Senior.
Enrollment is limited to students with a major in Statistics.
Enrollment limited to students in a Bachelor of Science degree.
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 472: Introduction to Statistical Learning. 3 credits.

Registration Restrictions:
Required Prerequisite: STAT 456C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 474: Introduction to Survey Sampling. 3 credits.
Introduction to design and analysis of sample surveys. Sample designs include simple random sampling; systematic sampling; and stratified, cluster, and multistage sampling. Analytical methods include sample size determination, ratio and regression estimation, imputation for missing data, and nonsampling error adjustment. Practical problems encountered in conducting a survey are discussed, such as questionnaire design. Methods applied to case studies of actual surveys. Class project may be required. Notes: Recommended for students of decision, information, social sciences, and mathematics. Offered by Statistics (p. 1060). Limited to two attempts.

Recommended Corequisite: STAT 362.

Registration Restrictions:
Required Prerequisites: STAT 350C, 354C or 435C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 456: Nonparametric Statistics and Categorical Data Analysis. 3 credits.
Introduction to nonparametric methods and categorical data analysis. Topics include: tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing, and cross-validation. Notes: Students may not receive credit for both STAT 465 and STAT 525. Offered by Statistics (p. 1060). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 350C, 354C or 435C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Senior.
Enrollment is limited to students with a major in Statistics.
Enrollment limited to students in a Bachelor of Science degree.
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

STAT 456: Nonparametric Statistics and Categorical Data Analysis. 3 credits.
500 Level Courses

**STAT 501: SAS Language and Basic Procedures.** 1 credit.
Introduction to the SAS Data Step and Base SAS Procedures. Preparation for graduate students in use of SAS for other graduate courses offered by department. Topics include observation and variable structures, data interfaces, formats, functions, and procedures for summarizing and displaying data. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** Course in statistics and experience with Microsoft OS.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**STAT 502: Introduction to SAS Statistical Graphics.** 1 credit.
Introduces generating presentation-quality statistical graphics using SAS. Continued preparation beyond STAT 501 for graduate students in the use of SAS for other graduate courses offered by department. Topics include: an overview of ODS Graphics and SAS/GRAPH, graph output options, and in-depth coverage of the ODS Graphics procedures. Traditional SAS/GRAPH procedures are briefly discussed. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** Course in statistics and working knowledge of SAS.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**STAT 503: SAS Macro Language.** 1 credit.
Introduction to SAS Macro Language. Continued preparation beyond STAT 501 for graduate students in use of SAS for other graduate courses offered by department. Topics include macro language processing, macro variables, defining and calling macro variables, macro quoting, macro facility error messages, and examples of efficient code using macros. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** Course in statistics and working knowledge of SAS.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**STAT 504: Introduction to SAS/IML.** 1 credit.
Introduction to SAS/IML, the matrix language within the SAS environment. Topics include defining matrices, performing standard matrix operations, operating on rows and columns of a data table, and writing efficient SAS/IML programs. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of SAS and matrix algebra.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**STAT 505: Introduction to R.** 1 credit.
Introduction to R syntax, graphical interface, and basic operations. Preparation for graduate students in use of R for other graduate courses offered by department. Topics include import and export of data; manipulation of R object structures; function creation; package installation; and procedures for simulation, modeling, summarizing data, and producing graphics. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** Course in statistics.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**STAT 506: Introduction to SPSS.** 1 credit.
Introduction to SPSS, a widely-used statistical software package in social sciences. Provides an overview of SPSS procedures for manipulating data; summarizing and displaying data; and analyzing data from a variety of experimental designs. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** Course in statistics and experience with Microsoft OS.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

**STAT 515: Applied Statistics and Visualization for Analytics.** 3 credits. Introduces multivariate regression and random forests for modeling data. Addresses data access, variable selection and model diagnostics. Introduces foundations for visual thinking. Reviews common statistical graphics such as dot plots, box plots, q-q plots. Addresses more advanced methods such as scatterplot matrices enhanced by smoothed or density contours, and search tools for finding graphics with suggestive patterns. Notes: Course will introduce R software for analysis. A final project will involve visualization of a real data set. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Prerequisite: STAT 250 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

**STAT 517: Experimental Design.** 3 credits. Introduces problems and techniques inherent in design of experiments, which refers to planning an experiment so that collected data can be analyzed by statistical methods. Covers the two aspects to any experimental problem: the design itself and the analysis of the resulting data. Examples from numerous disciplines in the sciences and the humanities are discussed. Data analysis is emphasized. Notes: Students may not receive credit for both STAT 455 and STAT 517. Offered by Statistics (p. 1060). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: STAT 535\(^B\) or 554\(^B\).

**STAT 525: Nonparametric Statistics and Categorical Data Analysis.** 3 credits. Introduction to nonparametric methods and categorical data analysis. Topics include tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing, and cross-validation. Notes: Students may not receive credit for both STAT 465 and STAT 525. Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics (p. 1060). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: STAT 535\(^B\) or 554\(^B\).

\(^B\) Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

**STAT 526: Applied Regression Analysis.** 3 credits. Presents regression concepts and techniques as synthesis of theory, methods, and applications. Emphasis on understanding assumptions of the regression model, how to validate a selected model, when and how regression might be useful in different application areas, and interpreting output from statistical software packages. Topics include: multiple regression model fitting, logistic regression, and time series analysis. Data analysis is emphasized. Notes: Students may not receive credit for both STAT 456 and STAT 526. Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics (p. 1060). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: STAT 535\(^B\) or 554\(^B\).

\(^B\) Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

**STAT 530: Foundations of Statistical Thinking.** 3 credits. Provides a foundation in the key concepts underlying data analysis, statistics, and probability. Topics include research-based methods for developing statistical thinking, use of technology for learning about statistics, and structured learning activities. Statistical concepts include: distributions, measures of center and spread, sampling, sampling distribution, bivariate analysis, correlation, randomness, and law of large numbers. Notes: Cannot be used to satisfy requirements for MS in...
Statistical Science. Offered by Statistics (p. 1060). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: STAT 535\(^B\) or 554\(^B\).
\(^B\) Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

STAT 535: Analysis of Experimental Data. 3 credits.
Statistical methods for analysis of experimental data from educational research and the social, natural, and life sciences. Topics include sample surveys, contingency tables, linear and multiple regression, analysis of variance, nonparametric tests, and multivariate methods. Various statistical packages will be used. Notes: Students may not receive credit for both STAT 435 and STAT 535. Cannot be used to satisfy requirements for MS in Statistical Science. Certificate program students granted credit for only one of STAT 535 or STAT 554. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Prerequisite: STAT 250, STAT 344 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 544: Applied Probability. 3 credits.
The axioms of probability, conditional probability, random variables and expectation, multivariate and conditional distributions, conditional expectation, order statistics, transformations, moment generating functions, special distributions, limit theorems. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Prerequisite: MATH 213 and STAT 346, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Application of basic statistical techniques. Focus is on the problem (data analysis) rather than on the theory. Topics include descriptive statistics, exploratory data analysis; sampling distributions; one- and two-sample tests and confidence intervals for means, medians, proportions, and variances; and goodness-of-fit tests. Normal theory is introduced first with discussion of what happens when assumptions break down. Alternative robust and nonparametric techniques are presented. Notes: Certificate program students granted credit for only one of STAT 535 or 554. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Prerequisite: STAT 346, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

STAT 560: Biostatistical Methods. 3 credits.
Focuses on biostatistical aspects of design and analysis of biomedical studies, including epidemiologic observational studies and randomized clinical trials. Topics include randomization principle, confounding, ethics in human experimentation, methods of randomization, stratification, primary outcome analyses, covariate-adjusted analyses, epidemiologic measures, and sample size and power computation. Offered by Statistics (p. 1060). May not be repeated for credit. Equivalent to STAT 660.

Recommended Prerequisite: STAT 350 or STAT 354 or STAT 435; and working knowledge of SAS.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

STAT 574: Survey Sampling I. 3 credits.
Design and implementation of sample surveys. Covers components of a survey; probability sampling designs to include simple random, systematic, Bernoulli, proportional to size, stratified, cluster and two-stage sampling; and ratio and regression estimators. Discusses practical problems in conducting a survey. Methods applied to case studies of actual surveys. Class project may be required. Notes: Students may not receive credit for both STAT 474 and STAT 574. Offered by Statistics (p. 1060). May not be repeated for credit.
**Recommended Prerequisite:** STAT 346 and a course in Statistics, or STAT 344; and working knowledge of SAS.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**600 Level Courses**

**STAT 634: Case Studies in Data Analysis.** 3 credits.
Examination of a wide variety of case studies illustrating data-driven model building and statistical analysis. With each case study, various methods of data management, data presentation, statistical analysis, and report writing are compared. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of SAS.

**Recommended Corequisite:** STAT 654.

**Registration Restrictions:**
Required Prerequisite: (STAT 554B).
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**STAT 652: Statistical Inference.** 3 credits.
Fundamental principles of estimation and hypothesis testing. Topics include limiting distributions and stochastic convergence, sufficient statistics, exponential families, statistical decision theory and optimality for point estimation, Bayesian methods, maximum likelihood, asymptotic results, interval estimation, optimal tests of statistical hypotheses, and likelihood ratio tests. Offered by Statistics (p. 1060). May not be repeated for credit. Equivalent to CSI 672.

**Recommended Corequisite:** STAT 554.

**Registration Restrictions:**
Required Prerequisite: STAT 544B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**STAT 654: Applied Statistics II.** 3 credits.
Overview of statistical principles of modeling. Topics include methods for analyzing data based on generalized linear models and diagnostic methods for assessing the assumptions of such models. Methods covered include multiple regression, analysis of variance, simultaneous inference, logistic response models, and hierarchical log linear models for contingency tables. Offered by Statistics (p. 1060). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: STAT 554B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**STAT 655: Analysis of Variance.** 3 credits.
Single and multifactor analysis of variance, planning sample sizes, introduction to the design of experiments, random block and Latin square designs, and analysis of covariance. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Corequisite:** STAT 544.

**Registration Restrictions:**
Required Prerequisite: (STAT 554B).
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**STAT 656: Regression Analysis.** 3 credits.
Simple and multiple linear regression, polynomial regression, general linear models, subset selection, step-wise regression, and model selection. Also covered are multicollinearity, diagnostics, and model building as well as the theory and practice of regression analysis. Offered by Statistics (p. 1060). May not be repeated for credit. Equivalent to CSI 676.

**Registration Restrictions:**
Required Prerequisites: STAT 544B and 554B.
May be taken concurrently.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 657: Nonparametric Statistics. 3 credits.
Distribution-free procedures for making inferences about one or more samples. Tests for lack of independence, association or trend, and monotone alternatives are included. Measures of association in bivariate samples and multiple classifications are discussed. Both theory and applications are covered. Students are introduced to appropriate statistical software. Offered by Statistics (p. 1060). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 544B and 554B).
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 658: Time Series Analysis and Forecasting. 3 credits.

Registration Restrictions:
Required Prerequisites: (STAT 544B and 554B).
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 662: Multivariate Statistical Methods. 3 credits.
Standard techniques of applied multivariate analysis. Topics include review of matrices, multivariate normal theory, principal components, canonical correlation, classification, factor analysis, clustering, and multidimensional scaling. Applications to data analytics. Computer implementation via a statistical package is an integral part of the course. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Prerequisite: Matrix algebra, and working knowledge of SAS.

Recommended Corequisite: STAT 544.

Registration Restrictions:
Required Prerequisite: (STAT 554B).
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 663: Statistical Graphics and Data Exploration I. 3 credits.
Introduces statistical graphics that show distribution features and functional relationships in the presence of noise. Introduces cognitive research guidance for graphics design and reasoning. Stresses quantitative comparisons from multiple perspectives. Features new micromaps designs for spatial and temporal comparisons. Introduces R, the grammar of graphics, and dynamic graphics software. Offered by Statistics (p. 1060). May not be repeated for credit. Equivalent to CSI 773.

Recommended Prerequisite: A 300-level statistics course and a programming course, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 665: Categorical Data Analysis. 3 credits.
Analyzes cross-classified categorical data in two and higher dimensions. Topics include association tests and measures of association in two- and three-dimensional contingency tables, logistic regression, and log linear models. SAS is used extensively for data analysis. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Corequisite: STAT 544.

Registration Restrictions:
Required Prerequisite: (STAT 654B).
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 668: Survival Analysis. 3 credits.
Survival Analysis is a class of statistical methods for studying the occurrence and timing of events. In medical research, the events may be deaths, and the objective is to determine factors affecting survival times of patients following treatment, usually in the setting of clinical trials. Methods can also be applied to the social and natural sciences and engineering where they are known by other names (reliability, event history analysis). Concepts of censored data, time-dependent variables, and survivor and hazard functions are central. Nonparametric methods...
for comparing two or more groups of survival data are studied. The Cox regression model (proportional hazards model), Weibull model, and the accelerated failure time model are studied in detail. Concepts are applied to analysis of real data from major medical studies using SAS software. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of R and SAS.

**Registration Restrictions:**
**Required Prerequisites:** (STAT 544B and 554B).
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**STAT 672: Statistical Learning and Data Analytics.** 3 credits.
The course focuses on statistical learning theory by introducing the statistical and optimization background essential for understanding statistical learning algorithms. Also discusses applications of statistical learning algorithms to the solution of important problems in many areas of science. Offered by Statistics (p. 1060). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (STAT 544B and 554B).
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**STAT 751: Computational Statistics.** 3 credits.
Covers basic computationally intensive statistical methods and related methods, which would not be feasible without modern computational resources. Covers nonparametric density estimation including kernel methods, orthogonal series methods and multivariate methods, recursive methods, cross validation, nonparametric regression, penalized smoothing splines, the jackknife and bootstrapping, computational aspects of exploratory methods including the grand tour, projection pursuit, alternating conditional expectations, and inverse regression methods. Offered by Statistics (p. 1060). May not be repeated for credit. Equivalent to CSI 771.

**Registration Restrictions:**
**Required Prerequisite:** STAT 652B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**STAT 756: Alternative Regression Methods.** 3 credits.
Presents several modern regression methodologies that are useful in data analysis when some of the assumptions of linear regression theory fail to hold. Topics include non-linear regression, quantile regression, robust regression, and computational methods for fitting these models. Offered by Statistics (p. 1060). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** (STAT 654B).
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
STAT 758: Advanced Time Series Analysis. 3 credits. Mathematical modeling and methods for model identification and forecasting of nonstationary and seasonal time series data (ARIMA models), multivariate time series, and state-space models. Offered by Statistics (p. 1060). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: (STAT 658<sup>B</sup>).
<sup>B</sup> Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 760: Advanced Biostatistical Methods. 3 credits. Advanced statistical methods in the drug development process. Provides the theoretical statistical basis for the design and analysis of pharmaceutical clinical trials. Topics include the theory of randomization, randomization-based inference, restricted, response-adaptive, and covariate-adaptive randomization, the modern theory of group sequential monitoring, statistical aspects of determination of dose-response relationships. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Prerequisite: Working knowledge of statistical programming language.

Registration Restrictions:
Required Prerequisites: (STAT 652<sup>B</sup> and 654<sup>B</sup>).
<sup>B</sup> Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 763: Statistical Graphics and Data Exploration II. 3 credits. Addresses data set size and human comprehension challenges. Introduces case and variable reduction methods, and overview production. Incorporates cognitive science guidance. Utilizes data mining models and visual analytic algorithms to find patterns and prioritize graphics. Addresses applications from both information and scientific visualization. Tracks advances in web graphics including citizen science projects harnessing the visual power of thousands of people. Offered by Statistics (p. 1060). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 663<sup>B</sup> or 515<sup>B</sup>).
<sup>B</sup> Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 765: Advanced Topics in Categorical Data Analysis. 3 credits. Covers advanced techniques for categorical data analysis and the theoretical basis for the analysis of categorical data. Topics include: models for multinomial responses, matched pairs, repeated measures, and ordinal data; random effects models; asymptotic theory for parametric models; theory for maximum likelihood and alternative estimation methods; and exact inference. Statistical software packages are used extensively for data analysis. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Prerequisite: Working knowledge of R and SAS.

Registration Restrictions:
Required Prerequisites: (STAT 652<sup>B</sup> and 654<sup>B</sup>).
<sup>B</sup> Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 771: Spatial Data Analysis. 3 credits. Presents analysis techniques for spatially-indexed or spatially-correlated data that arise in many areas of science, including medicine, transportation, and atmospheric sciences. Focus is on data analysis rather than theory, though theory will necessarily be covered. Topics include analysis of point patterns, trend and surface estimation, and spatial regression. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Prerequisite: Working knowledge of SAS.

Registration Restrictions:
Required Prerequisites: (STAT 652<sup>B</sup> and 654<sup>B</sup>).
<sup>B</sup> Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 773: Statistical Methods for Longitudinal Data Analysis. 3 credits. Presents modern statistical approaches to the analysis of longitudinal data, i.e., data collected repeatedly on experimental units over time (or other conditions). Topics include linear mixed effects models, generalized linear models for correlated data (including generalized estimating equations), and computational issues and methods for fitting models. Offered by Statistics (p. 1060). May not be repeated for credit.

Recommended Prerequisite: Working knowledge of SAS.

Registration Restrictions:
Required Prerequisites: STAT 652<sup>B</sup> and 654<sup>B</sup>.
<sup>B</sup> Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

STAT 778: Algorithms and Simulation for Statistics in C. 3 credits. Introduces high level simulations and algorithms for complex statistical problems using C. Topics include: pointers, arrays, random number generation, iterative numerical algorithms, sorting, matrix operation, numerical integration and Bayesian computation, advanced data structure for complex problems, and parallel processing. Complex
programming problems related to statistical modeling and inference are studied. Offered by Statistics (p. 1060). May not be repeated for credit.

**Registration Restrictions:**

- **Required Prerequisites:** STAT 652\textsuperscript{B} or CSI 672\textsuperscript{B}.

\textsuperscript{B} Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**STAT 796:** Independent Studies/Directed Readings. 1-3 credits.

Reading and research on a specific topic in statistics under guidance of graduate faculty member. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** Permission of instructor and department’s graduate coordinator.

**Registration Restrictions:**

- Enrollment is limited to Graduate, Non-Degree or Washington Consortium level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Independent Study

**STAT 798:** Master's Research Project. 3 credits.

Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** 9 graduate credits, and permission of instructor.

**Registration Restrictions:**

- Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Thesis

**STAT 799:** Master's Thesis. 1-6 credits.

Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report and oral defense. Offered by Statistics (p. 1060). May be repeated within the degree for a maximum 6 credits. Equivalent to SYST 799.

**Recommended Prerequisite:** 9 graduate credits, and permission of instructor.

**Registration Restrictions:**

- Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Thesis

**800 Level Courses**

**STAT 871:** Statistical Data Mining. 3 credits.

Covers basic concepts, computational complexity, data preparation and compression, databases and SQL, rule-based machine learning and probability, density estimation, exploratory data analysis, cluster analysis and pattern recognition, artificial neural networks, classification and regression trees, correlation and nonparametric regression, time series, and visual data mining. Offered by Statistics (p. 1060). May not be repeated for credit.

**Recommended Prerequisite:** STAT 554 or 663, or permission of instructor.

**Registration Restrictions:**

- Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**STAT 877:** Geometric Methods in Statistics. 3 credits.

Develops foundations of geometric methods for statistics. Topics include n-dimension Euclidian geometry; projective geometry; differential geometry, including curves, surfaces, and n-dimensional differentiable manifolds; and computational geometry, including computation of convex hulls, tessellations of two-, three-, and n-dimensional spaces, and finite element grid generation. Examples include applications to scientific visualization. Offered by Statistics (p. 1060). May not be repeated for credit. Equivalent to CSI 877.

**Recommended Prerequisite:** STAT 751 or permission of instructor.

**Registration Restrictions:**

- Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**STAT 889:** Advanced Topics in Statistics. 3 credits.

Advanced topics not occurring in regular sequence. Offered by Statistics (p. 1060). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Doctoral standing and permission of instructor.

**Registration Restrictions:**

- Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**STAT 896:** Advanced Directed Reading. 3 credits.

Individualized study with a graduate faculty member in the Department of Statistics. Syllabus and grading criteria must be preapproved by the PhD in Statistical Science Program Director. Offered by Statistics (p. 1060). May not be repeated for credit.

**Registration Restrictions:**

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.
Enrollment is limited to students with a major in Statistical Science.

Enrollment limited to students in the PHD Statistical Science program.

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Independent Study

900 Level Courses

STAT 971: Probability Theory. 3 credits.
A rigorous measure-theoretic treatment of probability. Includes expectation, distributions, laws of large numbers and central limit theorems for independent random variables, characteristic function methods, conditional expectations, martingales, strong and weak convergence, and Markov chains. Offered by Statistics (p. 1060). May not be repeated for credit. Equivalent to CSI 971.

Registration Restrictions:
Required Prerequisites: (STAT 544$^{B}$ and MATH 315$^{B}$).

B$^{B}$ Requires minimum grade of B.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

STAT 972: Mathematical Statistics I. 3 credits.
Focuses on theory of estimation. Includes methods of moment, least squares, maximum likelihood, and maximum entropy methods. Details methods of minimum variance unbiased estimation. Topics include sufficiency and completeness of statistics, Fisher information, Cramer-Rao bounds, Bhattacharyya bounds, asymptotic consistency and distributions, statistical decision theory, minimax and Bayesian decision rules, and applications to engineering and scientific problems. Offered by Statistics (p. 1060). May not be repeated for credit. Equivalent to CSI 972.

Registration Restrictions:
Required Prerequisites: (STAT 652$^{B}$ or CSI 672$^{B}$) and (CSI 876$^{B}$, STAT 971$^{B}$ or CSI 971$^{B}$).

B$^{B}$ Requires minimum grade of B.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

STAT 973: Mathematical Statistics II. 3 credits.
Continuation of STAT 972/CSI 972. Concentrates on theory of hypothesis testing. Topics include characterizing decision process, simple versus simple hypothesis tests, Neyman-Pearson Lemma, uniformly most powerful tests, unbiasedness and invariance of tests, and randomized and sequential tests. Applications of testing principles made to situations in normal distribution family and other families of distributions. Offered by Statistics (p. 1060). May not be repeated for credit. Equivalent to CSI 973.

Registration Restrictions:
Required Prerequisites: (STAT 972$^{B}$ or CSI 972$^{B}$).

B$^{B}$ Requires minimum grade of B.

Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

System Engineering (SYST)

100 Level Courses

SYST 101: Understanding Systems Engineering. 3 credits.
Introduces systems engineering and curriculum for BS in field. Introduces large and small systems, and explains them through some hands-on experiences. Key concepts include understanding requirements for system and translation of system-level requirements to component-level requirements. Several different kinds of example systems presented and discussed: objectives, major components, how system works, and major design issues. Each student gives a similar presentation on system of choice. Students work in groups design, develop, and test system, and give oral presentation. Students are responsible for writing several short
papers on curriculum and presentations they have heard. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 198: Independent Study in Systems Engineering. 1-3 credits. Must be arranged with instructor and approved by department chair before registering. Directed self-study of special topics of current interest in systems engineering. Notes: May be repeatable if topics are substantially different. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Independent Study

200 Level Courses

SYST 202: Engineering Systems in a Complex World. 3 credits. This course introduces students to the study of engineering systems as a means of understanding larger historical trends in a global society. Students will use case studies and historical analyses to think strategically and globally about the management and execution of complex systems in the context of culture, environment, politics and economics, and learn how to employ such analyses as decision-making tools for leadership. Students will be required to critically analyze articles and books, and work in groups to investigate and present topics of current national and international relevance. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts. Equivalent to HIST 202, SYST 100.

Mason Core: Global Understanding (p. 135)

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Required Prerequisite: SYST 101.

Registration Restrictions:
Students with a class of Freshman may not enroll.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 220: Dynamical Systems I. 3 credits. Introduces modeling of dynamical systems. Formulation of mathematical models from system descriptions, including computer, biological, economic, transportation, and mechanical systems. Analytical and numerical methods for solving models and studying their behavior. Discrete-time and continuous time systems. Linear and nonlinear systems. Introduction to computer modeling using MATLAB. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114 C or 116 C) and (PHYS 160 C) and (SYST 221 C and MATH 203 C).
C May be taken concurrently.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Systems Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory

Registration Restrictions:
Required Prerequisites: SYST 101 C, CS 112 C and SYST 220 C.
C May be taken concurrently.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory

300 Level Courses

Registration Restrictions:
Required Prerequisites: (SYST 220 C, MATH 203 C, 214 C, and PHYS 260 C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 330: Systems Methods. 3 credits. Provides students with a general introduction to a variety of quantitative techniques that are relevant to systems engineering. Focuses on the use of quantitative techniques to model and evaluate design options. Scope includes: Analysis methods of system engineering design and management, decision analysis, models for engineering economics and evaluations, probability and statistical methods for data analysis, management control techniques, reliability, and maintainability analysis, risk and uncertainty management, and life-cycle cost analysis. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114 C or 116 C) and (STAT 344 C and SYST 221 C).
C May be taken concurrently.
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 335: Discrete Systems Modeling and Simulation. 3 credits.
Introduces basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete-event modeling, specialized simulation software, and statistics of input and output analysis. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts. Equivalent to OR 335.

Registration Restrictions:
Required Prerequisites: CS 112\textsuperscript{C} and (STAT 344\textsuperscript{C}, 346\textsuperscript{C} or MATH 351\textsuperscript{C}) and CS 211\textsuperscript{C}.
\textsuperscript{*}May be taken concurrently.
\textsuperscript{C}Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 371: Systems Engineering Management. 3 credits.
Study of basics of systems engineering management. Includes engineering economics, planning, organizing, staffing, monitoring, and controlling process of designing, developing, and producing system to meet stated need in effective and efficient manner. Discusses management tools, processes, and procedures, including various engineering documentation templates, managerial processes, and dealing with personnel issues. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: SYST 210\textsuperscript{C}, SYST 220\textsuperscript{C} and 330\textsuperscript{C}.
\textsuperscript{*}May be taken concurrently.
\textsuperscript{C}Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 395: Applied Systems Engineering. 3 credits.
The course will enhance the student's system engineering experience by designing and building projects involving real world complex systems. The course will build physical models that follow the steps of system life cycle process: statement of need, design, requirements, architecture, implementation, testing, verification and validation. Projects are multidisciplinary in nature, requiring the student teams to learn about various real world systems such as internet communications, navigation, robotics, creating a GUI, and transmitting and receiving data from sensors. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (SYST 210\textsuperscript{C} and 101\textsuperscript{C}) and (SYST 220\textsuperscript{C}, 221\textsuperscript{C}, 335\textsuperscript{C} and 371\textsuperscript{C}).
\textsuperscript{*}May be taken concurrently.
\textsuperscript{C}Requires minimum grade of C.

Students cannot enroll who have a major in Undeclared.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 420: Network Analysis. 3 credits.

Registration Restrictions:
Required Prerequisites: (OR 441\textsuperscript{C}) and (MATH 213\textsuperscript{C} or 215\textsuperscript{C}).
\textsuperscript{C}Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 421: Classical Systems and Control Theory. 3 credits.

Registration Restrictions:
Required Prerequisite: ECE 220\textsuperscript{C}.
\textsuperscript{C}Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 438: Analytics for Financial Engineering and Econometrics. 3 credits.
Introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory, and risk analysis. Provides a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts. Equivalent to OR 438.

Recommended Corequisite: STAT 354.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

SYST 460: Introduction to Air Traffic Control. 3 credits.
Introduction to Air Traffic Control (ATC) for those who plan professions in the air transportation industry. Surveys the entire field, presenting the history of ATC and how it came to be as it is, the technology on which the system is based, the procedures used by controllers to meet the safety and efficiency goals of the system, the organizational structure of the FAA, challenges facing the system, and means under investigation to meet these challenges. Some fieldwork will be required to acquire and analyze airport operational data. A brief introduction to airport design...
will be discussed. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

**Recommended Prerequisite:** Junior standing or graduate standing.

**Registration Restrictions:** Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**SYST 461:** *Air Transportation System Engineering*. 3 credits.
Focuses on the theory and practice of system engineering in a national air transportation system. Stresses the application of mathematical techniques to analyze and design complex network transportation systems, airports, airspace, airline schedules, and traffic flow. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

**Recommended Prerequisite:** SYST 460 or permission of instructor.

**Registration Restrictions:** Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**SYST 462:** *Flight Training Lab I*. 3 credits.
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, single engine land class rating. Flight Training I will include the flight training up to and including maneuvering and navigating the aircraft. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

**Recommended Corequisite:** SYST 460.

**Registration Restrictions:**
- Enrollment is limited to students with a major, minor, or concentration in Aviation Flight Trng and Mgmt.
- Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Laboratory

**SYST 463:** *Flight Training Lab II*. 3 credits.
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, Airplane - Single Engine Land class rating. Flight Training II will include the flight training up to and including the dual and solo flight instruction in cross-country navigation by pilotage, dead reckoning, and use of VOR, NDB, and HSI. Flight test preparation for private pilot certification. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

**Recommended Prerequisite:** SYST 462.

**Registration Restrictions:**
- Enrollment is limited to students with a major, minor, or concentration in Aviation Flight Trng and Mgmt.
- Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Laboratory

**SYST 465:** *Pricing in Optimization and Game Theory*. 3 credits.
Allocation of limited resources among competing activities to maximize the outcome or minimization of expenses required to produce a given assortment of goods and services are two typical problems faced by any economic institution. Mathematical modeling of such problems and finding efficient mathematical tools for solving them are two main goals of modern optimization theory. Pricing limited resources, goods, and services is the key instrument for theoretical analysis of complex economical systems. Pricing theory can also give rise to numerical methods for finding optimal solutions and economic equilibrium.

Fundamental tools in pricing theory are the classical Lagrangian and Lagrange multipliers for constrained optimization. Covers the basic ideas and methods of linear programming and matrix games. Particular emphasis to pricing for both theoretical analysis and numerical methods. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

**Recommended Prerequisite:** MATH 203 or 216 and OR 441, or permission of instructor.

**Registration Restrictions:** Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**SYST 468:** *Applied Predictive Analytics*. 3 credits.
Introduces students to the fundamentals of data analysis and some of the most widely used models in applied predictive analytics. The students learn how to summarize data and explore relationship between variables, including principle component analysis and multidimensional scaling. Class instruction follows with a presentation of commonly used tables, visualizations, and statistical tests for comparing groups. Linear predictive models for both continuous and binary outcomes (logistic regression) are discussed in detail. The course introduces students to clustering and classification using random forest and naive Bayes. The course concludes with topics on choice modeling. Hands-on programming with R is emphasized. While no prior knowledge on R is required, students must be well prepared in programming. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

**Required Prerequisites:** (STAT 344 C, 346 C, 250 C or MATH 351 C) and (IT 206 C or CS 112 C).

**Registration Restrictions:**
- Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**SYST 469:** *Human Computer Interaction*. 3 credits.
Covers principles of human-computer interaction, including information processing design, cognitive models, ergonomics, and design metaphors. Students learn to evaluate interface design in terms of effectiveness, efficiency, and cost. Notes: Students who receive credit for SYST 470 may not receive credit for this course. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

**Required Prerequisites:** (STAT 250 C, 344 C, 346 C or MATH 351 C) and (IT 106 C or CS 112 C).

**Registration Restrictions:**
- Students with the terminated from VSE major attribute may **not** enroll.

**Schedule Type:** Lecture

**SYST 470:** *Human Factors Engineering*. 3 credits.
Human information processing, inferential analysis, biases and heuristics in human information processing, support systems to aid in human information processing, human-system interaction, and software systems
SYST 473: Decision and Risk Analysis. 3 credits.
Studies analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analyses. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 250\(^C\), 344\(^C\), 346\(^C\) or MATH 351\(^C\).
\(^C\) Requires minimum grade of C.

Recommended Prerequisite: OR 441.

Recommended Corequisite: SYST 465.

SYST 480: Economic Systems Design I: Principles and Experiments. 3 credits.
Introduces design principles used in developing systems used to allocate resources. Students required to participate in experiment demonstrations of different allocation mechanisms. Students are also exposed to experimental methods in economics and market design. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts. Equivalent to ECON 440.

Recommended Prerequisite: OR 441.

Recommended Corequisite: SYST 465.

SYST 488: Financial Systems Engineering. 3 credits.
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Recommended Prerequisite: OR 441.

SYST 489: Senior Seminar. 3 credits.
Introduces several important topics in systems engineering, providing additional experience in writing and giving presentations, and obtaining feedback on curriculum for BS in systems engineering. Several lectures devoted to ethics; writing and making presentations also covered. Students attend technical lectures and write paper. Students are required to write long paper on new technology. Instructor and guest lecturers present material not part of required course load to expand horizons. Examples are "knowledge-based" design, enterprise-wide reengineering, electronic commerce, and optimization by "natural analogy" (simulated annealing, neural networks, genetic algorithms). In addition, students work in teams to critique and redesign curriculum. Each group delivers written product, and provides at least one briefing to class. Best critique and redesign presented to faculty. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Registration Restrictions:
Required Prerequisite: SYST 490\(^C\).
\(^C\) May be taken concurrently.

SYST 490: Senior Design Project I. 3 credits.
First part of capstone course in systems engineering program. Students apply knowledge they have gained to group project. During first semester, students perform concept definition and requirements analysis. Plan for carrying out project is developed, culminating in proposal presented to faculty at end of semester. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Recommended Prerequisite: 90 satisfactory credits.

SYST 491: Industrial Project. 1-3 credits.
Semester-long work experience in systems engineering in industrial or governmental organization. Work supervised jointly by systems engineer from sponsoring organization and department faculty member. Project and arrangements for supervision must be approved by student’s faculty advisor. Periodic reports, presentations, and a written final report are required. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Recommended Prerequisite: 75 credits toward BS in Systems Engineering, SYST 330; GPA of at least 3.00.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.
Schedule Type: Lecture

SYST 495: Capstone, Synthesis (p. 135) 3 credits.

Recommended Prerequisite: SYST 490. May not be repeated for credit.

Registration Restrictions:

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

SYST 498: Independent Study in Systems Engineering. 1-3 credits.

Recommended Prerequisite: 60 credits towards BS in systems engineering, and GPA of at least 3.00.

Registration Restrictions:

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Independent Study

SYST 499: Special Topics in Systems Engineering. 3 credits.

Topics of special interest to undergraduates. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

Recommended Prerequisite: 60 credits toward BS in systems engineering; specific prerequisites vary with nature of topic.

Registration Restrictions:

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

500 Level Courses

SYST 500: Quantitative Foundations for Systems Engineering. 3 credits.

Provides quantitative foundations necessary for core courses in systems engineering and operations research master's program, and certificate program in C4I. Topics include vectors and matrices, infinite series, partial differentiation, multiple integrals, differential and difference equations; linear systems; Laplace and Z-transforms, and probability theory. Students receive graduate credit for this course, which, when used on plan of study, extends minimum credit requirements for degree. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to CSI 600.

Recommended Prerequisite: MATH 203 and 213.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
prevailing cost estimation models and planning and control of common operating environments. Lecture and group project including creation of requirements and use of cost estimation model. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 513: Total Systems Engineering, Reengineering and Enterprise Integration. 3 credits.
Principles of strategic quality, including TQM. Quality standards including ISO9000 and 14000. Organizational leadership, cultures, and process maturity, reengineering. Quality, organization learning, and reengineering approaches to enable information integration and management and environment and framework integration in the systems engineering of knowledge intensive systems. Emphasis is placed on the role of integrated product and process design teams, standard and commercial off-the-shelf products in enterprise integration. Architecture-driven system characteristics are studied, as is transition management of legacy systems. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: SYST 510 or 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 514: Systems Thinking. 3 credits.
Enables students to understand and use systems thinking concepts, tools and techniques that can apply across all system types, especially those which exhibit a fusion of technology and human activities. Additionally, the course extends the understanding of systems beyond technology, to systems with significant human activity components, such as organizations and enterprises. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Corequisite: SYST 505.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 520: System Engineering Design. 3 credits.
System engineering design methods are studied and practiced, including object-oriented and structured analysis based techniques. Design Description languages such as UML, SysML, IDEF0 and IDEF1x are introduced and used in carrying out complete system designs. Teams make presentations of their designs. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to ECE 550.

Recommended Corequisite: SYST 505.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 521: Network Analysis. 3 credits.

Recommended Prerequisite: MATH 203 and 213, OR 441 or OR 541.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 523: Engineering Resilient and Agile Enterprise Systems. 3 credits.
Large-scale enterprise systems have ill-defined boundaries, complex behaviors, and evolve in unplanned ways. Enterprise systems need to be resilient and agile. This course introduces several tools and frameworks that can be used to understand resilience and agility, design resilience and agility into enterprises, and measure the degree of enterprise resilience and agility. Case studies are used to explore these concepts.
Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 530: Systems Engineering Management I.** 3 credits.
Provides techniques for evaluating cost and operational effectiveness of system designs and systems management strategies. Discusses performance measurement, work breakdown structures, cost estimating, quality management, configuration management, standards, and case studies of systems from different application areas. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** SYST 510.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 538: Analytics for Financial Engineering and Econometrics.** 3 credits.
This course introduces the basic analytics for financial engineering and econometrics, topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 538.

**Recommended Prerequisite:** STAT 515 or STAT 544.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 542: Decision Support Systems Engineering.** 3 credits.
Studies design of computerized systems to support individual or organizational decisions. Teaches systems engineering approach to decision support system (DSS) development. DSS is end product of development process, and process is key to successfully integrating DSS into organization. Any DSS is built on a theory (usually implicit) of what makes for successful decision support in given context. Empirical evaluation of specific DSS and the underlying theory should be carried on throughout development process. Course examines prevailing theories of decision support, considers issues in obtaining empirical validation for theory, and discusses empirical support that exists for theories considered. Students design decision support system for semester project. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** SYST 301.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 560: Introduction to Air Traffic Control.** 3 credits.
Introduction for those who plan professions in aviation industry. Surveys entire field, presenting history of ATC and how it came to be, technology on which system is based, procedures used by controllers to meet safety and efficiency goals, organizational structure of the FAA, challenges facing system, and means under investigation to meet these challenges. Involves some field work for data collection and analysis. Class project requiring system simulation required. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 563: Evidence-Based Systems Engineering.** 3 credits.
A common cause of failure and risk in system development is making decisions when lacking clear evidence to support them. This course presents frameworks and methods used to make sound, evidence-based decisions throughout the system lifecycle. Students learn what information to gather, how to analyze it, and how to present those analyses when deciding on the adequacy of programmatic decisions.
Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** STAT 344 and STAT 354 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 568: Applied Predictive Analytics.** 3 credits.
Introduces predictive analytics with applications in engineering, business, and econometrics. Topics include time series and cross-sectional data processing, correlation, linear and multiple regressions, time series decomposition, predictive modeling and case study. Provides a foundation of basic theory and methodology with applied examples to analyze large engineering and econometric data for predictive decision making. Hands-on experiments with R will be emphasized. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 568.

**Recommended Prerequisite:** STAT 515 or enrollment in the MSOR or MSSE programs.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 574: Quality Control and Process Management.** 3 credits.
Provides fundamentals of quality control and process management methodologies that are applicable in manufacturing industries. Introduces the basic concepts of engineering process and product quality management techniques. Provides exposition of fundamentals of lean Six Sigma and total quality management and maintainability. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 574.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 566: Manufacturing Systems Analysis.** 3 credits.
Provides fundamentals of modeling and analysis of general manufacturing systems that are also applicable to semiconductor manufacturing. Introduces the basic concepts of scheduling, inventory control, and enterprise resource management. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 576.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 573: Decision and Risk Analysis.** 3 credits.
Study of analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision-making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees, and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analysis. Note: Students may not receive credit for both SYST 473 and 573. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 681.

**Recommended Prerequisite:** STAT 344 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 570: Introduction to C4I Systems.** 3 credits.
This course provides a high-level introduction to fundamental principles of Command, Control, Communication, Computing, and Intelligence (C4I). The principles and techniques are applicable to a wide range of civilian and military situations. The sensing, fusion, and situation assessment processes for decision making as well as the concepts of modeling, simulation, and C4 architectures are discussed. Several cases studies of C4I systems are also included. Notes: Students who take SYST 680 may not take SYST 580. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

600 Level Courses

SYST 584: Heterogeneous Data Fusion. 3 credits.
Introduces the theory, design and implementation of multi-source information fusion systems in various domains. The course covers distinct technologies for combining data from multiple, heterogeneous sources and performing inferences in support to applications such as cyber security, Semantic Web, decision support systems, situational awareness, intrusion detection, crisis management, and others. The technical content is largely multi-disciplinary, encompassing disciplines such as knowledge engineering, ontologies, statistical learning, artificial intelligence, and data mining. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 588: Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives. 3 credits.
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito's formula, and Black-Scholes model. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 588.

Recommended Prerequisite: Eng. or Math Graduate standing, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 611: System Methodology and Modeling. 3 credits.
Provides broad yet rigorous foundations and applications of dynamic modeling. Emphasizes methodologies used across various disciplines. Topics include modeling and analysis of time-driven and event-driven, linear and nonlinear systems. The applications are presented with real-world example systems. Methodologies address dynamic systems using the concepts of composition, abstraction, execution, and performance. The issues of stochastic modeling and decision analysis are also covered. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: SYST 500 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 618: Model-based Systems Engineering. 3 credits.
Model-based Systems Engineering (MBSE) provides a formalized application of modeling to support the engineering of systems. The purpose of the course to study and practice the leading methodologies for MBSE and illustrate the MBSE approaches in systems engineering and management. The advanced object-oriented systems engineering methodology and model transformation techniques are addressed. Software tools are introduced and used for supporting systems engineering design. Students are expected to develop a system design of their choice using MBSE approaches presented in class and they will make presentations on these designs. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

Recommended Prerequisite: SYST 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 620: Discrete Event Systems. 3 credits.
Introduces modeling and analysis of discrete event dynamical systems. Course covers elements of discrete mathematics and then focuses on Petri Net models and their basic properties. Relation to other discrete event models of dynamical systems. Offered by Systems Engr &
operations Rsch (p. 1071). May not be repeated for credit. Equivalent to ECE 673.

**Recommended Prerequisite:** SYST 611 or ECE 521, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 621: Systems Architecture Design.** 3 credits.
Architecture design and representation and the methodologies used to obtain them. Approaches based on system engineering constructs such as object orientation and service oriented architectures are used to design architectures and then represent them in conformance with an architecture framework such as DoDAF. Executable models of the architecture are derived to be used for architecture evaluation. Examples from current practice are used. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to ECE 674, SWE 641.

**Recommended Prerequisite:** SYST 520/ECE 550.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 630: Systems Engineering Management II.** 3 credits.
Study of more advanced topics in systems engineering management. Students expected to read selections from current literature as well as make presentations and produce papers on engineering management topics. Work in groups to create SEMP, RMP and PAP. Focuses strongly on the practical impacts of various system engineering management techniques and practices on projects, organizations, and personnel. Offered by Systems Engr & Operations Rsch (p. 1071). Limited to two attempts.

**Recommended Prerequisite:** SYST 471 or SYST 530.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Students with the terminated from VSE major attribute may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 632: System Integration and Architecture Evaluation.** 3 credits.
Examines the system integration problem and its human, organizational, societal cultural, and technological aspects. The role of architectures in systems integration. Integration in a system of systems and a federation of systems. Measures of performance and effectiveness. Analysis of alternatives. Notes: This course does not meet the requirements for the MS SE degree. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** ECE 678.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 659: Topics in Systems Engineering.** 3 credits.
Topics not covered in department’s regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students’ needs. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 660: Air Transportation Systems Modeling.** 3 credits.
Introduces wide range of current issues in air transportation. Issues include public policy toward industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Develops broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, take-home midterm exam, and term project to be completed by end of semester. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 660.
**Recommended Prerequisite:** SYST 460/560 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 664: Bayesian Inference and Decision Theory.** 3 credits.
Introduces decision theory and relationship to Bayesian statistical inference. Teaches commonalities, differences between Bayesian and frequentist approaches to statistical inference, how to approach statistics problem, and how to combine data with informed expert judgment to derive useful and policy relevant conclusions. Teaches theory to develop understanding of when and how to apply Bayesian and frequentist methods; and practical procedures for inference, hypothesis testing, and developing statistical models for phenomena. Teaches fundamentals of Bayesian theory of inference, including probability as a representation for degrees of belief, likelihood principle, use of Bayes Rule to revise beliefs based on evidence, conjugate prior distributions for common statistical models, and methods for approximating the posterior distribution. Introduces graphical models for constructing complex probability and decision models from modular components. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to CSI 674, STAT 664.

**Recommended Prerequisite:** STAT 544, STAT 554, or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 670: Metaheuristics for Optimization.** 3 credits.
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 670.

**Recommended Prerequisite:** OR 441/541 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 671: Judgment and Choice Processing and Decision Making.** 3 credits.
How do people make judgments and decisions? Course presents initial review of scientific literature directed toward answering this question, and emphasizes importance when performing decision analysis and designing systems to support judgment and decision processes. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 671.

**Recommended Prerequisite:** STAT 344/354, OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 674: Dynamic Programming.** 3 credits.
Theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties is covered. Stresses intuition, the mathematical foundations being for the most part elementary. It will introduce the theory, applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 674.

**Recommended Prerequisite:** OR 442 or OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 675: Reliability Analysis.** 3 credits.
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system
maintainability. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 675.

**Recommended Prerequisite:** STAT 544/554, OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 680:** Principles of Command, Control, Communications, Computing, and Intelligence (C4I). 3 credits.
Broad introduction to fundamental principles of command, control, communications, computers, and intelligence (C4I). Principles and techniques applicable to wide range of civilian and military situations. Discusses modeling and simulation of combat operations. Studies in detail sensing, fusion, and situation assessment processes. Derives optimal decision-making rules; discusses concepts of C4 architectures; and develops tools to evaluate and design C4 systems such as queuing theory. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to ECE 670.

**Recommended Prerequisite:** ECE 528 or OR 542 or SYST 611 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 683:** Modeling, Simulation, and Gaming. 3 credits.

**Recommended Prerequisite:** MATH 213, SYST 500 or equivalent, and graduate standing.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 688:** Financial Systems Engineering II: Derivative Products and Risk Management. 3 credits.
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 688.

**Recommended Prerequisite:** OR 588 or SYST 588 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 698:** Independent Study and Research. 3 credits.
Study of a selected area in systems engineering or C3I under the supervision of a faculty member. Written report required. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Completion of at least two core courses, permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Independent Study

**SYST 699:** Masters Project. 3 credits.
Capstone project course for MS/SE program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to SYST 798.
Recommended Prerequisite: 21 graduate credits in OR or SYST.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

700 Level Courses
SYST 735: Advanced Stochastic Simulation. 3 credits.
Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data, random number and random variate generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 735.

Recommended Prerequisite: OR 635 or permission of instructor.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 740: Advances in Multi-Modeling. 3 credits.
Focuses on the inter-operation of multiple models expressed in different modeling languages but which draw from the same data set: i.e., multi-modeling. Socio-technical systems often require a variety of modeling tools to define their operation accurately. An ontology based approach is used to analyze the validity of a proposed modeling architecture and workflow to address a specific issue Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to ECE 760.

Recommended Prerequisite: SYST 620 or ECE 673 or permission of instructor.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 750: Advanced Topics in Systems Engineering. 3 credits.
Advanced topics not covered in department’s regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students’ needs. May be repeated for credit when topics are distinctly different. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: 600-level course that varies with content of course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 763: Research Methods in Systems Engineering and Information Technology. 3 credits.
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 763.

Recommended Prerequisite: STAT 544, OR 542 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 781: Data Mining and Knowledge Discovery. 3 credits.
Statistical and computational methods and systems for deriving user-oriented knowledge from large databases and other information sources, and applying knowledge to support decision making. Information sources can be in numerical, textual, visual, or multimedia forms. Covers theoretical and practical aspects of current methods and selected systems for data mining, knowledge discovery, and knowledge management, including those for text mining, multimedia mining, and web mining. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to STAT 781.

Recommended Prerequisite: One of the following courses: CS 687, CS 650, INF 614, STAT 663, SYST 664, or Permission of Instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

SYST 799: Master's Thesis. 1-6 credits.
Research project chosen and completed under the guidance of a graduate faculty member, which results in a technical report acceptable
to a three-member faculty committee, and an oral defense. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree.

**Recommended Prerequisite:** 21 graduate credits and permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Thesis

### 800 Level Courses

**SYST 842:** Models of Probabilistic Reasoning. 3 credits.
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit.

**Recommended Prerequisite:** STAT 544, OR 542, OR 681 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 850:** Topics in Systems Integration Engineering. 3 credits.
Covers lifecycles; large systems comprising heterogeneous components; human, organizational, and technological basis for integration; societal and cultural basis; conceptual frameworks; structure, function, and purpose of industry; risk management; user requirements and functional specifications; bid and proposal process; systems integration and federal government; standards; integration of systems and federations of systems; integrated process and product development; architectures; systems management and cost estimation; reengineering; quality management; increasing returns to scale, network effects, and path dependency issues; and systems integration ecology and evolutionary systems integration. Notes: May be repeatable if topics are substantially different. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** SYST 510 or SYST 520.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SYST 888:** Distributed Estimation and Multisensor Tracking and Fusion. 3 credits.
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multitarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to ECE 753, OR 888.

**Recommended Prerequisite:** ECE 734 or SYST 611.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

### 900 Level Courses

**SYST 944:** The Process of Discovery and Its Enhancement in Engineering Applications. 3 credits.
Studies ingredients of imaginative reasoning as they concern efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities. Offered by Systems Engr & Operations Rsch (p. 1071). May not be repeated for credit. Equivalent to OR 944.

**Recommended Prerequisite:** IT 842, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

### Systems Engineering and Operations Research (SEOR)

#### 700 Level Courses

**SEOR 750:** Advanced Topics in Systems Engineering and Operations Research. 3 credits.
Advanced topics, applications, or recent developments in the interface of systems engineering and operations research. Course content may vary each semester depending on instructor and the perception of students' needs. May be repeated for credit when topics are distinctly different. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** 600-level course.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**SEOR 796:** Directed Reading and Research. 1-3 credits.
Reading and research on specific topic in systems engineering or operations research under direction of faculty member. Offered by
Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

900 Level Courses
SEOR 998: Doctoral Dissertation Proposal. 1-12 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of SEOR 998 and 999 may be applied to doctoral degree requirements. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Dissertation

SEOR 999: Doctoral Dissertation. 1-12 credits.
Formal record of commitment to doctoral dissertation research under direction of faculty member approved by SEOR Department. Offered by Systems Engr & Operations Rsch (p. 1071). May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Dissertation

Technology Management (TECM)

600 Level Courses
TECM 601: HiTech Business Models. 1 credit.
Provides an introduction to high tech industries, emerging technologies and business models that are transforming technology-intensive industries such as music, financial services and healthcare. The course covers techniques for analyzing how organizations create, deliver and capture value. The students use case-based approach to analyze traditional and high-tech organizations to understand their business models, and identify causes for success and failures. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TECM 602: Emerging Technologies and the New CIO. 1 credit.
Provides an overview of CIOs and IT executive leadership, enabling legislation and policies on CIOs in the U.S. and abroad. The course examines the evolution of CIO core competencies, and approaches to cross agency CIO and IT coordination. Emerging ICT technologies, their corresponding potential, challenges and considerations for CIOs and IT executives in their adoption and introduction, are also discussed. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TECM 610: Communications and Leadership. 2 credits.
Distinguishes between leadership and management, and focuses on the critical roles and functions of leadership, including communication ability, use of power and influence, providing direction, aligning an organization's systems, motivating a workforce, and creating a culture for effectiveness. It also focuses on strategies for developing oneself as an effective leader. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TECM 611: Leadership and Change Management. 2 credits.
Examines the critical roles and functions of leadership with special attention to how leaders influence organizational performance and manage change. Topics include providing direction, creating a culture for effectiveness, the use of power and influence, leadership development, leading under changing conditions, and leading and managing change. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSIS 611.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
TECM 614: Financial and Cost Accounting. 2 credits.
Focusses on the economics and analysis of business transactions and financial reporting. Topics include an introduction to the financial reporting framework, review of how accountants measure and manage financial reporting, an introduction to cost concepts and product costing, and an analysis of capital investments and management control. Emphasis is placed on providing an analytic framework for evaluating transactions and companies. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSIS 614.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TECM 615: Decision Making Using Accounting and Financial Data. 3 credits.
Provides managers with an overview of the purpose and importance of accounting within the organization and the financial valuation of information technology companies, projects, and product line. Students focus on the economics and analysis of business transactions and their related financial reporting issues from internal and external stakeholder perspectives. Students improve their skills in analyzing financial issues and presenting results in a case analysis framework. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TECM 620: Economics of Technology Management. 2-3 credits.
Enables students to build and evaluate economic and business models that can be used to analyze real managerial questions that affect all types of institutions, especially firms in the information technology industry. Students develop a better understanding of the operation of markets in general and the use of various quantitative and qualitative methods when making decisions within the firm. The use of economic analysis allows students to identify and evaluate decision alternatives, the competitive environments of firms, and the factors that influence firm performance, especially in the information technology industry. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSIS 620.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TECM 635: Decision Models for Technology Management. 2-3 credits.
Explores current metrics and metric development for quality, intangible assets, and project management as required within information technology companies. Applies statistical tools of best use with these metrics. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSIS 635.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TECM 640: Management of Consulting and Technical Professionals. 1-3 credits.
Students gain insight into conflict resolution, teamwork, communication, power and influence, career development, and ethics. Helps students understand themselves and those they manage, as they work to be as effective as possible in modern organizations. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TECM 641: Negotiation and Conflict Management. 2 credits.
Students acquire insights and skills for negotiation and conflict resolution as they relate to a variety of organizational situations - including teamwork, communication and coordination, power and influence, legal disputes, career development, cross-cultural and international issues, as well as tackling ethical problems. The course is highly experiential, and is built on a foundation of hands-on exercises and extensive class discussion. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**TECM 643: Managerial Finance.** 2 credits.
Surveys the theory and practice of corporate financial management with specific application to the technology sector. Students develop an understanding of key elements required in the valuation of project alternatives; including their strategic importance. Students evaluate and use financial management models and gain an understanding of how finance can be employed as a source of potential competitive advantage. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSIS 643.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**TECM 696: Directed Studies in Technical Management.** 1-3 credits.
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by School of Business (p. 846). May not be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Admission to the TECM program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study

**TECM 697: Special Topics in Technology Management.** 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of business. Offered by School of Business (p. 846). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Admission to the TECM program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**TECM 700: Business Engineering and Change Management.** 2 credits.
Visualizing, planning, and implementing transitions in an organization or business unit is fast becoming a key source of competitive advantage. Course provides theory and practice of change management and strategic planning including organizational development and organizational transformation. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**TECM 702: Building High Performance Teams.** 2 credits.
Develops behavioral skills integral to effective teamwork and interpersonal relationships in work environments. Covers techniques for making group decisions and resolving internal team conflicts, as well as negotiating effectively with outside parties. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**TECM 703: Technology Assessment, Evaluation, and Investment.** 3 credits.
Prepares students to be educated consumers of information technology to maximize strategic advantage of IT to an organization. Information technologies, architectures, and products are categorized and analyzed with a view to develop and maintain the most favorable IT asset portfolio to successfully carry out business goals and strategies. Techniques for making group technology assessments, outsourcing decisions, project bidding, and contract negotiations. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**TECM 704: Management of Technology Projects and Portfolios.** 2 credits.
Examines advanced topics in project and program management, with specific attention to the issues that managers face to effectively manage programs. This involves managing resources (both internal and external to the organization) and managing within an existing organizational structure. Specific program management topics include advanced topics for project management, program alignment with strategic objective, management of stakeholders, and development and organization of the program office. Strategic and operational tools and metrics also are
discussed. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Professional Studies (Tech Mgt) or Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

TECM 711: *Deriving Strategic Value from IT Investments*. 2 credits.
Reviews approaches for aligning IT strategy and investment with organizational strategy. The course covers methodologies for IT investment, planning and control including cost benefit, economic risk analysis; benefits of alternative IT investments; methods of technology road mapping; and capital investment analysis. IT performance assessment methodologies and acquisition planning and design, are also reviewed. Offered by School of Business (p. 846). May not be repeated for credit. Equivalent to MSIS 711.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

TECM 720: *Competitive Strategy in Technology Industries*. 2 credits.
Provides students with an understanding of the impact of information technology on firms and industries and equips them to develop and execute appropriate strategies. Although the emphasis is on information technology firms and industries, a key goal of the course is to better prepare students to respond to a diverse array of information technology challenges. Course work covers the demand and the supply side of information technology, as well as the development of frameworks and analytical tools to help put events, behaviors, and processes into understandable contexts. Offered by School of Business (p. 846). May not be repeated for credit.

**Recommended Prerequisite:** Admission to Technology Management Program or permission of the program director. TECM 615 and 620.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

TECM 735: *Technology Management Capstone Project*. 1-4 credits.
Teams undertake a strategic evaluation and plan for IT-driven business initiatives. Presentation includes analysis of competitive forces and the value chain; recommendations, including changes in goals and organizational design; plan of action integrating marketing, human resource development, organizational design, finance, and information technology; and implementation plan using theories of communication and change management, to include business case and business plan. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to MSIS 735.

**Recommended Prerequisite:** Admission to Technology Management Program or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

TECM 737: *Capstone Project in Management of Secure Information Systems*. 1-3 credits.
Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits. Equivalent to MSEC 720.

**Recommended Prerequisite:** Admission to Executive MS in Management of Secure Information Systems.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

Proposal development, bidding, legal issues of contracts and agreements, formation of commercial partnerships, and new business development. Methods and practices for conducting client need assessment and managing deviations of scope. Application of principles of marketing information systems and technology to internal and external customers. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Admission to Technology Management Program or permission of the program director. TECM 610 and 630.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

TECM 741: *Marketing of Innovations and Technology*. 2 credits.
Provides students the opportunity to conduct a detailed exploration of effective marketing strategies, including product and service development, branding, and customer relationships, in preparation for developing a marketing plan for a technology related innovation. Specific course topics include: assessing the marketplace, understanding the customer, market segmentation, developing and positioning the offering, pricing, branding, distribution, and promotion. Offered by School of Business (p. 846). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

TECM 743: *Security Risk Analysis and Assessment*. 1 credit.
Focuses on the analysis of security risk to the business within IT systems and across IT architecture and enterprise practices. Offered by School of Business (p. 846). May not be repeated for credit.
\textbf{Recommended Prerequisite:} C or better in TECM 747.

\textbf{Registration Restrictions:} Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may \textbf{not} enroll.

\textbf{Schedule Type:} Lecture

\textbf{TECM 744:} \textit{IT Audit Control.} 2 credits.
Introduces methodologies to assess security and control issues concerning accounting and other information systems. A key feature of the course will be applying Computer Assisted Audit Tools and Techniques (CAA Ts) to test effectiveness of application controls. Students will gain hands-on experience by using Generalized Audit Software (GAS) such as ACL to extract data from a database and perform a variety of analyses. Examples of other topics covered include business continuity planning, continuous auditing, control objectives for information technology, COSO's framework for risk management, assessment of transaction processing integrity, and role of information assurance in e-commerce. Offered by School of Business (p. 846). May not be repeated for credit.

\textbf{Recommended Prerequisite:} C or better in TECM 747.

\textbf{Registration Restrictions:} Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may \textbf{not} enroll.

\textbf{Schedule Type:} Lecture

\textbf{TECM 745:} \textit{Leading and Managing IT Operations.} 2 credits.
Explores best practices in the IT industry. Students analyze practices in terms of gaining competitive advantage in an industry where the scarcity economic model for products no longer applies. Course work focuses on leading an organization with the IT function. Offered by School of Business (p. 846). May not be repeated for credit.

\textbf{Registration Restrictions:} Enrollment is limited to students with a major in Professional Studies (Tech Mgt) or Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may \textbf{not} enroll.

\textbf{Schedule Type:} Lecture

\textbf{TECM 746:} \textit{Enterprise Architecture and IT Governance.} 2 credits.
Examines the operational, financial and strategic considerations of leading enterprise architecture and reviews the historical development of enterprise architecture. Major enterprise architecture frameworks including Zachman and TOGAF are examined. The relationship of enterprise architecture to IT governance, approaches to IT governance and the role of the CIO, and the relationship of IT governance to organizational performance, are also discussed. Offered by School of Business (p. 846). May not be repeated for credit.

\textbf{Registration Restrictions:} Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may \textbf{not} enroll.

\textbf{Schedule Type:} Lecture

\textbf{TECM 747:} \textit{Information Assurance and Security Management.} 2 credits.
Addresses the increasingly critical areas of information security and information assurance. Specific focus is on best practices for assessment, planning and management of information security strategy, policy, organizations and controls to minimize the risks pertaining to unauthorized use, processing, storage, and communication of digital information. Pertinent legislation and policy requirements are also covered. Offered by School of Business (p. 846). May not be repeated for credit.

\textbf{Registration Restrictions:} Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may \textbf{not} enroll.

\textbf{Schedule Type:} Lecture

\textbf{TECM 748:} \textit{Systemic Approach to IT Management.} 2 credits.
The course introduces students to systems thinking, and then applies systems thinking to best practices in development and management of IT processes and connecting management of IT processes to organizational strategy. The course also reviews and considers IT processes from the strategy and service management frameworks including Balanced Scorecard and ITIL. Offered by School of Business (p. 846). May not be repeated for credit.

\textbf{Registration Restrictions:} Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may \textbf{not} enroll.

\textbf{Schedule Type:} Lecture

\textbf{TECM 750:} \textit{Global IT Management.} 1-4 credits.
Students spend a week in an international residency. Emphasizes dealing with technological changes across international markets and amid global developments, virtual organizations, and project management across cultures. Corporate site visits combined with presentations by professors from universities outside the United States and relevant practitioners. Offered by School of Business (p. 846). May not be repeated for credit.

\textbf{Recommended Prerequisite:} Admission to Technology Management Program or permission of the program director. TECM 600 and 620.

\textbf{Registration Restrictions:} Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may \textbf{not} enroll.

\textbf{Schedule Type:} Lecture

\textbf{TECM 752:} \textit{Global Tech Management.} 3 credits.
Provides the opportunity for students to spend a week in a country or countries that are leading edge in technology and technology management. Students visit corporations and governments and interact with corporate and IT executives, and government leaders. Topics include CIO and eGovernment, commercialization of emerging technologies, national competitiveness, international development, global supply chains and virtual teams. Offered by School of Business (p. 846). May not be repeated for credit.

\textbf{Registration Restrictions:} Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may \textbf{not} enroll.
Schedule Type: Lecture

TECM 757: Global Residency. 1-4 credits.
Students spend a week in an international residency. Emphasis is on how other nations deal with management of secure information system, the management of those systems, and related public policy issues. Corporate site visits are combined with presentations by professors from universities outside the United States and relevant practitioners. Students are required to write a paper summarizing their observations and attend pre-residency preparatory sessions. Offered by School of Business (p. 846). May be repeated within the degree for a maximum 4 credits. Equivalent to MSEC 710.

Recommended Prerequisite: Admission to Executive MS in Management of Secure Information Systems.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TECM 760: CIO Consulting Project. 1-3 credits.
A guided independent study course which allows students completing their course work within the M.S. Technology Management (MSTM) program to demonstrate a select set of key competencies in the role of Chief Information Officer (CIO) while leveraging their program coursework and aligning with the identified federal CIO competencies. Offered by School of Business (p. 846). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Telecommunications (TCOM)

500 Level Courses

TCOM 500: Modern Telecommunications. 3 credits.
Comprehensive overview of telecommunications, including current status and future directions. Topics include review of evolution of telecommunications; voice and data services; basics of signals and noise, digital transmission, network architecture and protocols; local area, metropolitan and wide area networks and narrow band ISDN; asynchronous transfer mode and broadband ISDN; and satellite systems, optical communications, cellular radio, personal communication systems, and multimedia services. Examples of real-life networks illustrate basic concepts and offer further insight. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 575, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 505: Networked Multicomputer Systems. 1.5 credit.
Introduces systems engineering of a networked multicomputer system. Studies distributed multicomputer architectures, architecture of a network operating system, and key system components. The focus of this course is on the development of a thin client/server system, requirements analysis of a client/server web computing, system planning and implementation. Includes a study of example multicomputer systems and a discussion of future directions. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 500, 530, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 506: Personal Communication Systems (PCS). 1.5 credit.
Introduces Personal Communication Systems (PCS). Topics include multiple technical layers of the PCS systems; data link level and network layer protocols, including implementation; mobile station operation and base station operation; and how voice and data services work. Also discusses vital issues of user authentication, privacy, and data or voice encryption. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 500, 501, 551, and 552 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 510: Client-Server Architectures and Applications. 1.5 credit.
Fundamentals of application engineering for Client/Server (C/S) Internet environments. Review of C/S application architectures and system perspective on C/S middleware. Study of web-based middleware, distributed data managers and SQL middleware, distributed transaction processing middleware, and C/S object technology. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.
Recommended Prerequisite: TCOM 500 or ECE 540.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 514: Basic Switching: Lecture and Laboratory Course. 3 credits.
Basic switching techniques and protocols for low and high-speed digital packet networks (Ethernet, Frame Relay, ATM, X.25) are taught within a half semester lecture series, followed by hands-on laboratory for remainder of semester. Real-life scenarios taught in the laboratory element through exercises that involve configuring switches and routers. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Laboratory, Lecture

TCOM 515: Internet Protocol Routing: Lecture and Laboratory Course. 3 credits.
Internet Protocol (IP) routing overview; static routing; dynamic routing; default routing; access lists; route redistribution; RIP, OSPF, IGRP, EIGRP, IS-IS, and BGP protocols submitted for comment. Real-life scenarios taught in laboratory element through exercises that involve configuring routers as network elements. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 535.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Laboratory, Lecture

TCOM 518: Third Generation Cellular Telephony. 1.5 credit.
Introduction to post-second generation cellular systems; benefits and features of third generation (3G) systems; review of air interface standards currently approved for 3G; review of 3G technologies; analysis of competing multiple access methods; transition plans and backward compatibility between 2G, 21/2G, and 3G systems; possible fallback plans. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 506, 551, and 552.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 520: Economics of Telecommunications. 3 credits.
Management of telecommunications networks; economic concepts in changing climate of telecommunications ownership, deregulation, and privatization; resource allocation fundamentals based on internal rate-of-return, net present value, opportunity costs; valuation of potential acquisitions in broad telecommunications market; financial modeling techniques. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 500

Recommended Corequisite: TCOM 502.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 521: Systems Engineering for Telecommunications Management. 3 credits.
Advanced software principles, techniques, and processes for designing and implementing complex telecommunication systems. Planning and implementation of telecommunications systems from strategic planning through requirements, initial analysis, general feasibility study, structured analysis, detailed analysis, logical design, and implementation. Current system documentation through use of classical and structured tools and techniques for describing flows, data flows, data structures, file designs, input and output designs, and program specifications. Practical experience gained through project. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.
Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 530: Data Communications Fundamentals. 3 credits.
Covers the foundations of modern data communications. The lower layers of the OSI reference model are discussed with an emphasis on the data link and the network layers. Concepts are illustrated by drawing examples from important data networks ranging from local area networks to the Internet. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 535: The TCP/IP Suite of Internet Protocols. 3 credits.

Recommended Prerequisite: TCOM 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 542: Stochastic Models in Telecommunications. 1.5 credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 545: Reliability and Maintainability of Networks. 3 credits.
Stochastic modeling of network reliability, simulation modeling, modeling replacement strategies. Introduces quality control, sampling for acceptance, economic design of quality control systems, and system reliability. Also covers faulty tree analysis, life testing, repairable systems and role of reliability, quality, and maintainability in life-cycle costing. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 547: Project Management in Telecommunications. 3 credits.
Develops integrated approach to managing major telecommunications project; evaluates and uses tools and software for project management, with specific goals of containing costs and time overruns; introduces elements for resolving conflict resolution and applying motivation within project team, and gaining the ability to monitor and control projects in changing environment; develops understanding of unique attributes of major telecommunications systems such as interoperability requirements and international technical standards. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.
Schedule Type: Lecture

TCOM 551: Digital Communication Systems. 3 credits.
Digital transmission of data, voice, and video. Covers signal digitization; modulation and demodulation; error correction coding; multiple access methods; multiplexing; synchronization; channel equalization; frequency spreading; encryption; transmission codes; digital transmission using bandwidth compression techniques; elements of information theory; and development of link budget evaluation such as system noise temperature, Nyquist filter concepts, antenna gain, and filter bandwidth. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 552: Introduction to Mobile Communications Systems. 3 credits.
Introduces mobile communication system design and analysis. Topics include mobile communication channel, access and mobility control, mobile network architectures, connection to fixed network, and signaling protocols for mobile communication systems. Offers examples of mobile communication systems including panEuropean GSM system, North American DAMPS system, and Personal Communication Systems. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 500, TCOM 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 555: Network Management Foundations and Applications. 3 credits.
Defines and explains techniques that network managers utilize to maintain and improve performance of telecommunications network; network management system; five tasks traditionally involved with network management (fault management, configuration management, performance management, security management, and accounting management); theoretical background in transmission systems sufficient to understand network parameters such as capacity and response times; and specific network management products. Also explores how network performance data should be used for management and when considering upgrades in network architecture. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 500 and TCOM 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 561: Security, Privacy, and Applied Cryptography for Telecommunications. 3 credits.
Presents on introductions to Computer and Network Security and Privacy; Digital Threats; Authentication Techniques; Vulnerabilities; Integrity; Access Control; Threat Modeling and Risk Assessment; Security Policies and Countermeasures; Cryptography; Block Ciphers and DES; AES; Cipher Block Operation; Certificate and Credentials; Public Key Cryptography and RSA; Key Management; Digital Signature; Electronic Mail Security; IP Security. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 400 and TCOM 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 562: Network Security Fundamentals. 3 credits.
Introduces full spectrum of network security. Topics include taxonomy such as language commonality in incident handling, national strategy to secure cyberspace, and cybersecurity organizations; organizational structure for network defense; best practices, security policy, and threats; actors and tools, countermeasures, vulnerability identification/correction, intrusion detection, and impact assessment; firewalls and intrusion detection systems; antivirus software; active defense; disaster recovery; and law enforcement and privacy issues. Reviews threats and vulnerabilities in network systems based on reports, case studies available in the literature, and actual experience. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 575: Quantitative Foundations for Telecommunications. 3 credits.
Provides quantitative foundations in mathematical and electrical concepts to permit registration for courses in telecommunications MS degree and certificate programs. Topics include polynomials, exponentials, linear and quadratic equations, graphs and functions, trigonometric functions, radical measure and sine/cosine functions, exponentials and logarithms, basic probability and statistics, fundamentals of matrix algebra and vectors, basic Boolean logic; circuit elements (resistor, capacitor, inductor), basic electrical circuits, units, Ohm's law, Kirchhoff's law, decibel notation. Notes: Course cannot be used for credit in any IT&E graduate degree program. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

TCOM 590: Selected Topics in Telecommunications. 1.5-3 credits.
Selected topics from recent developments and applications in various engineering disciplines within specialty modules 1, 2, and 3 of the TCOM program. The course is designed to help the professional engineering community keep abreast of current developments. Notes: The 1.5-credit course lasts for one-half semester (approximately seven weeks) while the 3-credit course lasts for the full semester. Offered by Electrical & Computer Engineer (p. 1018). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

TCOM 598: Independent Study in Telecommunications. 1.5-3 credits.
Directed self-study of special topics in telecommunications that relate to specialty modules 1, 2, and 3. Topics must be arranged with instructor and approved by program director before registering. Notes: May be taken for either 1.5 credits or 3.0 credits in fall and spring semesters. No more than total 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 courses for credit in TCOM program. Offered by Electrical & Computer Engineer (p. 1018). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

600 Level Courses

TCOM 606: Advanced Mobile Communications Systems. 3 credits.
Introduction to post-second generation cellular systems; benefits and features of third-generation (3G) systems and personal communications services (PCS); review of air interface standards and transmission technologies for mobile and quasi-stationary wireless systems, including cellular networks, satellite networks, indoor systems (Wi-Fi, Personal Local Area Networks, Orthogonal Frequency Multiplexing, Ultra Wide Band technologies); review of network control strategies; investigation of user authentication, privacy, and data and voice encryption aspects. Evolving technology, analysis of competing multiple access methods, transition plans, and backward compatibility between 2G, 21/2 G, 3G, and future systems, with possible fallback plans. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

Recommended Prerequisite: TCOM 552.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**TCOM 607: Satellite Communications.** 3 credits.
Topics include introduction to satellite communications systems; historical aspects; orbital mechanics and launchers; satellite components such as payload, orbital maneuvering systems, cooling systems, and antennas; look angle predictions; link budget; overall link design; multiple access such as TDMA, CDMA, ALOHA, TDMA, and MFTDMA; error control for digital satellite links; propagation effects on satellite links; elements of VSAT systems and nongeostationary satellite systems; and direct broadcast satellite services. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 551.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**TCOM 608: Optical Communications Systems.** 3 credits.
Introduction and Overview of Optical Fiber Communications Systems and Optical Communication Networks. Specific topics include Optical Resonators; Photons and Matter, Lasers, Photons in Semiconductors; Semiconductor Photon Sources and Detectors; Light Emitting Diodes; Modulation of Optical Signals; Optoelectronic Networks; FDDI, Fiber channel, SONET, SDH, Ethernet on Optical Networks; Wavelength Division Multiplexing (WDM) networks; Basics of Fiber Optic System Design. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 500.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**TCOM 609: Interior Gateway Protocol (IGP) Routing.** 3 credits.
Discusses development of Interior Gateway Protocols, including standards documents; interaction between various interior and exterior gateway protocols; design procedures and implementation aspects; field trial issues; and analysis of latest RFC information posted on IETF web site. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 515 and TCOM 535, or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**TCOM 610: Border Gateway Protocol (BGP) Routing.** 3 credits.
Discusses development of Border Gateway Protocol and its application in today's Internet routing architecture. Covers evolution of Internet, BGP routing standard specifications (RFCs), interaction between various routing protocols, network BGP routing design principals and procedures for enterprise and ISP networks, BGP's real-world implementation and configuration syntax, network scalability and convergence issues, and the latest extension and proposals for new standards. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 509 and TCOM 515, or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**TCOM 611: Multi-Protocol Label Switching (MPLS).** 3 credits.
Develops full understanding of Multi-Protocol Label Switching (MPLS) theory, technology, and implementation aspects through detailed analysis of MPLS routing concepts and protocol stacks, and completion of major project to reinforce understanding of MPLS. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 609 or 610

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.
SCHEDULE TYPE: Lecture

TCOM 631: Voice Over IP. 3 credits.
Presents the protocols used for transporting voice over Packet Switched Network. Topics include: Signaling basics; Topics; VoIP Network Scenarios and Connection Strategies; Communication Protocols: RTP, RTCP; VoIP Decomposition, Performance and quality metrics for VoIP; VoIP Signaling Protocols: H.323, SIP, SS7; Softswitch: architecture, functionality, application; VOIP-PSTN integration and migration; VOIP Quality and QoS; VoIP Security: Vulnerabilities, remedies; NextGen VoIP: VoIP Mobility, Equipment, Voice XML, IMS; Future of VoIP. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

RECOMMENDED PREREQUISITE: TCOM 535.

REGISTRATION RESTRICTIONS:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

SCHEDULE TYPE: Lecture

TCOM 653: Global Positioning System (GPS). 3 credits.

RECOMMENDED PREREQUISITE: TCOM 500.

REGISTRATION RESTRICTIONS:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

SCHEDULE TYPE: Lecture

TCOM 660: Network Forensics. 3 credits.
Deals with collection, preservation, and analysis of network-generated digital evidence so it can be successfully presented in civil or criminal court of law. Examines relevant federal laws and private sector applications. Examines capture/intercept of digital evidence, analysis of audit trails, recordation of running processes, and reporting of such information. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit. Equivalent to CFRS 660.

RECOMMENDED PREREQUISITE: TCOM 535, and working knowledge of computer programming.

REGISTRATION RESTRICTIONS:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

SCHEDULE TYPE: Lecture

TCOM 661: Digital Media Forensics. 3 credits.
Deals with collection, preservation, and analysis of digital media so this evidence can be successfully presented in civil or criminal court of law. Examines relevant federal laws and private sector applications. Examines seizure, preservation, and analysis of digital media. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit. Equivalent to CFRS 661.

RECOMMENDED PREREQUISITE: TCOM 548 and 556, or TCOM 562, and working knowledge of computer operating systems; or permission of instructor.

REGISTRATION RESTRICTIONS:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

SCHEDULE TYPE: Lecture

TCOM 662: Advanced Secure Networking. 3 credits.
Advanced technologies in network security that can be applied to enhance enterprise and ISP's network security. Covers network perimeter defense concept and various components for complete layered defense system. Examines each component and its technologies, including TCP/IP protocol vulnerabilities, router access control list (ACL), dynamic ACL, firewall, network address translation (NAT), virtual private network (VPN), IPSec tunnels, intrusion detection system (IDS), routing protocol security, denial-of-service (DOS) attack, DOS detection and mitigation techniques. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

RECOMMENDED PREREQUISITE: TCOM 535 and TCOM 562, and a working knowledge of network routing protocols.

REGISTRATION RESTRICTIONS:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

TCOM 663: *Operations of Intrusion Detection and Forensics*. 3 credits. Introduces students to network and computer intrusion detection and its relation to forensics. It addresses intrusion detection architecture, system types, packet analysis, and products. It also presents advanced intrusion detection topics such as intrusion prevention and active response, decoy systems, alert correlation, data mining, and proactive forensics. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit. Equivalent to CFRS 663.

**Recommended Prerequisite**: TCOM 535 and a working knowledge of computer programming.

**Registration Restrictions**:
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

TCOM 664: *Incident Response Forensics*. 3 credits. This course addresses incident detection, response, and those aspects of computer forensics pertinent to the investigation of trade secret theft, economic espionage, copyright infringement, piracy, and fraud. Procedures for gathering, preserving, and analyzing forensic evidence are discussed in detail and are applied to both computer and network incident response forensics. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit. Equivalent to CFRS 664.

**Recommended Prerequisite**: TCOM 535.

**Registration Restrictions**:
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

TCOM 669: *Independent Reading and Research*. 1.5-3 credits. Study of selected area in specialty modules 1, 2, or 3 under supervision of faculty member. Written report required. Notes: No more than total of 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 for credit in TCOM program. Offered by Electrical & Computer Engineer (p. 1018). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions**:
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

TCOM 690: *Advanced Topics in Telecommunications*. 3 credits. Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 1, 2, and 3 of TCOM program. Advanced topics chosen so that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas. Offered by Electrical & Computer Engineer (p. 1018). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite**: Permission of instructor; specific prerequisites vary.

**Registration Restrictions**:
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type**: Lecture

TCOM 691: *Advanced Topics in Telecommunications*. 3 credits. Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 4 and 5 of TCOM program. Advanced topics are chosen in such a way that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas. Offered by Electrical & Computer Engineer (p. 1018). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite**: Permission of instructor; specific prerequisites vary.

**Registration Restrictions**:
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.
Schedule Type: Independent Study

**TCOM 698: Telecommunications Projects Course. 3 credits.**
To be taken toward end of degree program within any of modules 1, 2, or 3. Primary activity is completing major applied project, preferably with group of two to three people. Secondary goal is consolidating training before graduation so that, in some cases, it may act as capstone course. Students and outside telecommunication industry managers present ideas for projects and, through grouping of students, new skills and approaches may be learned. Some class time used for discussion of projects, either to monitor progress or explore alternative approaches. Readings, class-time discussion of current trends, difficulties, and new opportunities for industry most relevant to module. Concludes with presentations of projects to department faculty. Offered by Electrical & Computer Enginee (p. 1018). May not be repeated for credit.

**Recommended Prerequisite:** Graduate standing with at least 18 credits or permission of department.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**TCOM 699: Telecommunications Project Course. 3 credits.**
Capstone of degree program under the specialty modules 4 or 5. To be taken toward end of degree program. Primary activity is completion of major applied project, preferably as two- to three-person group. Secondary goal is consolidation of training before graduation. Students, outside telecommunication industry managers present ideas for projects. From these ideas, group projects selected. Some classroom time used to discuss projects, to either monitor progress or explore alternative approaches. Readings, class-time discussion of current trends, difficulties, and new opportunities for the industry. Projects presented to department faculty at end of semester. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

**Recommended Prerequisite:** Completion of at least 24 credits in the MS in Telecommunications program.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

---

### 700 Level Courses

**TCOM 707: Advanced Link Design. 3 credits.**
Topics include advanced satellite link design such as VSAT optimization, intersatellite systems, and propagation mitigation trade-offs; radar link design such as primary and secondary radars, range ambiguities, false alarms, Doppler radar, FM radar, radar tracking, radar transmitters and receivers, and phased array radars; terrestrial wireless link design including line of sight, LMDS, and nonlinear of sight; optical link design including laser options, diffraction limits, lidar and communications links, tracking limitations, and GEO and LEO intersatellite link design; Wi-Fi link design; and directed energy systems. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 551, TCOM 607, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**TCOM 750: Coordinating Seminar. 3 credits.**
Open only to students in the MA or MS in telecommunications programs with at least 18 credits of course work prior to registration. Topics include specific telecommunications problems in management, law, engineering, education, and communications. Focuses on ways a problem in one area can create or solve a problem in other areas. Offered by Electrical & Computer Engineer (p. 1018). May not be repeated for credit.

**Recommended Prerequisite:** Open only to students in the MA or MS in telecommunications programs with at least 18 credit hours of course work prior to registration.

**Registration Restrictions:**
Enrollment is limited to students with a major in Telecommunications or Telecommunications.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Seminar

### Theater (THR)

### 100 Level Courses

**THR 101: Theatrical Medium. 3 credits.**
Theater from the inside workings of production to informed and lively engagement with the art. Enhances an understanding of the nature of theater in society. Offered by Theatre (p. 835). May not be repeated for credit.

**Mason Core:** Arts (p. 135)

**Schedule Type:** Lecture
THR 150: *Greeks to Restoration*. 3 credits.
Examines the development of Western drama and the collective art of theater from its beginnings through Shakespeare. Considers readings in dramatic literature and history of theater in social and cultural contexts. Offered by Theatre (p. 835). May not be repeated for credit.

Mason Core: Arts (p. 135)

Schedule Type: Lecture

THR 151: *Romanticism to Present*. 3 credits.
Considers readings in dramatic literature and history of western theater in social and cultural contexts from the romantic period to present day. Offered by Theatre (p. 835). May not be repeated for credit.

Mason Core: Arts (p. 135)

Schedule Type: Lecture

THR 190: *Special Topics*. 1-3 credits.
Rotating topic. Introductory seminar in areas of special interest. Offered by Theatre (p. 835). May be repeated within the term for a maximum 12 credits.

Schedule Type: Lecture

THR 191: *Practical Theater Seminar*. 0 credits.
Each semester registered students will 1) attend a Theater at Mason production, guest lecture or workshop, and 2) participate in a production load-in and 3) participate in a production strike. To graduate as a Theater major students must complete 4 semesters of the course. Course is repeatable up to twice in one semester. Offered by Theatre (p. 835). May be repeated within the term for a maximum 12 credits.

Schedule Type: Laboratory

THR 196: *Performance or Design Practicum*. 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Assignments include performance, design, and stage management. Open to all Theater majors, theater minors, and non-majors. Notes: Successful completion of this course is required to earn a Theater degree. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Studio

THR 197: *Stage or Literary Practicum*. 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Positions include directing, dramaturgy, and leadership in technical productions. Open to all theater majors, theater minors, and non-majors. Notes: Successful completion of this course is required to earn a Theater degree. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Studio

THR 198: *Theatrical Construction Practicum*. 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of participation on a Mason Players production. Areas include scenery construction, scene painting, costume construction, light hang, light focus and props. Theater majors, theater minors, and non-majors welcomed. Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN. Offered by Theatre (p. 835). May not be repeated for credit.

Mason Core: Arts (p. 135)

Schedule Type: Lecture

THR 199: *Production Run Crew Practicum*. 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Assignments include run crew, light board operator, sound board operator, wardrobe, and fly crew. Theater majors, theater minors, and non-majors welcomed. Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Laboratory

THR 200: *Play Production Practicum*. 1 credit.
Academic credit is awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Students who have completed THR 196, THR 197, THR 198, and THR 199 may register for THR 200 to receive credit for their participation on additional productions. Offered by Theatre (p. 835). May be repeated within the term for a maximum 8 credits.

Schedule Type: Laboratory

THR 201: *Stage Management*. 3 credits.
Introduction to the fundamentals of stage management and the stage manager's role for production. Learn and develop the organizational skills of running and maintaining a production with emphasis on skillful methods in communication and problem solving. Analyzes text from a Stage Manager's perspective. Requirements include creating a stage manager prompt book containing important show documents. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture

THR 202: *Literary Management*. 1 credit.
Principles of literary management and dramaturgy for regional/resident theater. Directed primarily toward developing new work. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture

THR 203: *Production/Company Management*. 1 credit.
Techniques of production and company management applied to university and professional theater productions. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture

THR 210: *Acting I*. 3 credits.
Students practice contemporary acting techniques individually and in a group. Promotes and develops performance and practical communication skills. Attend theatrical productions, and respond to those experiences. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture

Students explore current production practices and their historical development in scenery, costumes, lighting, and sound through classroom and hands on experience. Concepts and skills acquired in this
class may be applied in theater, film, dance, game design, art, corporate events, and architecture. Lab hours include work on live performances. Offered by Theatre (p. 835). May not be repeated for credit.

**Mason Core:** Arts (p. 135)

**Schedule Type:** Lecture

**THR 235: Costume Crafts. 3 credits.**
This course serves as the foundation and prerequisite for costume courses in design and construction. Costume Crafts will introduce the principles of apparel design and construction for stage and screen costumes. Requirements for this course will include the complete construction of two items and the compilation of a sample notebook containing important construction techniques. Offered by Theatre (p. 835). May not be repeated for credit.

**Schedule Type:** Lecture

**THR 306: Movement in Musical Theater. 3 credits.**
Students will explore and perform Movement for Musical Theater to include both character development and choreography. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major in Arts Management, Art and Visual Technology, Dance, Film and Video Studies, Computer Game Design, Music or Theatre.

**Schedule Type:** Lecture

**THR 310: Acting II. 3 credits.**
Deepens an understanding of performance analysis, and character relationships through scene work. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** THR 210 or permission of instructor.

**Schedule Type:** Lecture

**300 Level Courses**

**THR 300: Voice and Speech. 3 credits.**
For performers, presenters, and anyone wishing to improve their speaking voice. Basic techniques in breathing, vocal production, and articulation. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** THR 210 or permission of instructor.

**Schedule Type:** Lecture

**THR 301: Advanced Study in Voice. 3 credits.**
Addresses various topics in technique of vocal production for the actor with an emphasis on playing characters for stage, radio, voice-over, and screen. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** THR 300 or permission of instructor.

**Schedule Type:** Lecture

**THR 303: Movement for Actors. 3 credits.**
Develops the physical aspect of the actor’s instrument emphasizing free and responsive expression of impulse and intention, as well as character development and visual storytelling. Offered by Theatre (p. 835). May not be repeated for credit.

**Schedule Type:** Lecture

**THR 304: Advanced Movement for Actors. 3 credits.**
Advanced work in physical expression, for character development. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Lecture

**THR 305: Unarmed Stage Combat. 3 credits.**
Studies safe, effective techniques for performing violence for stage and screen. Emphasizes acting the fight, safety, and storytelling. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** THR 210 and 310 or permission of instructor.

**Schedule Type:** Lecture

**THR 306: Movement in Musical Theater. 3 credits.**
Students will explore and perform Movement for Musical Theater to include both character development and choreography. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major in Arts Management, Art and Visual Technology, Dance, Film and Video Studies, Computer Game Design, Music or Theatre.

**Schedule Type:** Lecture

**THR 310: Acting II. 3 credits.**
Deepens an understanding of performance analysis, and character relationships through scene work. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** THR 210 or permission of instructor.

**Schedule Type:** Lecture

**THR 313: Event Technology. 3 credits.**
A theoretical and practical study of event technology. The course will include specifications, layout installation techniques and operation of sound systems, lighting systems and video systems for event industry sectors. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** THR 230 or permission of instructor.

**Schedule Type:** Lecture

**THR 314: Lighting Stagecraft. 3 credits.**
Practical and theoretical instruction on becoming theatrical electrician. Includes ideas on workplace safety, basic electrical procedures, theatrical electrical production, integrating with other theater professionals, and professionalism. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** THR 230 or permission of instructor.

**Recommended Corequisite:** THR 200.

**Schedule Type:** Lecture

**THR 315: Sound Engineering. 3 credits.**
Study theory and practice of audio engineering for theater and the entertainment industry. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** THR 230 or permission of instructor.

**Schedule Type:** Lecture

**THR 316: Scene Painting. 3 credits.**
Students experience the art and craft of scene painting with the goal of translating design elevations into paint on muslin. Students learn fundamental scene painting techniques and how to use them in combinations to create portraits, murals, landscapes, and textures. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** THR 230 or permission of instructor.

**Schedule Type:** Studio
THR 320: Performance Studio. 3 credits.
Builds on existing skills in observation, sense memory, relaxation, and improvisation. Students learn variety of methods for scene preparation to apply to their own acting process. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture

THR 321: Acting Shakespeare. 3 credits.
Develops understanding of challenges of performing Shakespeare by building on body of acting skills and knowledge. Focuses on how structure of language in plays reflects, reveals, and expresses character's emotional life. Students use detailed script analysis, expansion of vocal range, and use of actions and objectives to achieve experience of transforming Shakespeare's language into powerful theatrical expressions. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture

THR 329: Directing. 3 credits.
Introduces process for directing through text analysis, rehearsal and staging techniques, and collaborative development of production idea. Students direct and apply concepts to develop a critical and productive perspective. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 150, 151, THR 210, THR 350, or permission of instructor.

Schedule Type: Lecture

THR 330: Seminar in Technical Theater. 3 credits.
Offered periodically; addresses selected topic in design or technical theater on advanced level. Offered by Theatre (p. 835). May be repeated within the term for a maximum 24 credits.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

THR 331: Drafting and Model Making. 3 credits.
Studies conventions and techniques of drafting and model making as methods of communication in the theatrical production process. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

THR 332: History of Fashion and Dress. 3 credits.
Explores evolution of silhouette, color, fabric, accessories, and make-up appropriate to development of clothing during specific historical eras. Offers broader understanding of sociological context influencing Western dress. Notes: May be repeated if specific course content differs. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture

THR 333: Scenic Design. 3 credits.
Fundamentals of creating, developing, and communicating design idea through sketches, plans, rendering, or models. Analysis of text from designer's perspective. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

THR 334: Lighting Design. 3 credits.
Introduces the fundamentals of lighting design, including research, paperwork communication, and technology for lighting. Topics include the controllable qualities of light, basic terminology, equipment, personnel and procedures. Learn to see light and develop a shared vocabulary for describing light and the process. Analyzes texts from designer's perspective. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 230.

Schedule Type: Lecture

THR 335: Costume Design. 3 credits.
Project-oriented class emphasizing the art and process of designing costumes for the stage and screen, including historical period, script analysis, design concepts, color theory, and costume rendering. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

THR 336: Technical Direction. 3 credits.
Analyze scenic units for construction including building techniques, material choices, hardware, stage rigging, and budget estimates. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

THR 337: Sound Design. 3 credits.
Study theory and practice of sound design for theater and the entertainment industry. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

THR 339: Principles of Design. 3 credits.
Introduction to the principles of theatrical design. Course explores various design responsibilities and methods to create visual images for the stage through script analysis, research, and production team collaboration. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio

THR 340: Advanced Studies in Directing. 3 credits.
Expands directing techniques through staging extended scenes or one-act plays. Emphasizes collaborative process and production organization. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 329 or permission of instructor.
Schedule Type: Lecture

THR 342: Makeup Design. 3 credits.
Project-oriented class emphasizing makeup for different performance spaces, character age analysis, facial anatomy, and specialized application for theater, opera, dance, film, and television. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

THR 343: Costume Pattern Drafting. 3 credits.
Pattern development through draping and drafting. Laboratory study and practical experience in construction of stage costumes. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 235 or permission of instructor.

Schedule Type: Lecture

THR 345: Puppetry. 2-4 credits.
Exploring of puppetry, and experiments with building and performance styles, through Original work. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture

THR 350: Script Analysis. 3 credits.
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements. Offered by Theatre (p. 835). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

THR 351: Dramatic Theory and Criticism. 3 credits.
Chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 150 or permission of instructor.

Schedule Type: Lecture

THR 352: Dramatic Literature Seminar. 3 credits.
Rotating topic. Intensive study of particular topic, period, or genre in dramatic literature. Notes: May be repeated if specific course content differs. Offered by Theatre (p. 835). May be repeated within the term for a maximum 9 credits.

Schedule Type: Seminar

THR 355: Moral Vision in American Theater. 3 credits.
Examines vision of American society created and presented in contemporary American theater. Subject defined as "moral" vision because focus is on how we perceive ourselves in relation to others and society's value standards. Perspectives include sociology, theory of culture, practical theater craft, and literary criticism. Features plays by range of American playwrights. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture

THR 359: World Stages. 3 credits.
Introduces variety of theatrical traditions and performance theories from around the world, with special emphasis on those not covered in introductory Western drama survey courses, 150 and 151. Students read and discuss dramatic texts, performance theory, and video clips to understand variety of theatrical traditions in cultural and historical contexts. Requirements include two team presentations (taking turns as writer and presenter), one midterm paper, and one solo presentation with accompanying paper. Offered by Theatre (p. 835). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)

Schedule Type: Lecture

THR 365: Characterization. 3 credits.
Explores method and approach of understanding and creating characters for theater modeled on people from personal experience and observation, imagination, dreams, and other media. Transforms that information into detailed, specific, and vivid physical manifestations. Through presentations of characters drawn from personal experience, students shift understanding of characterization from "outward directed" physical adjustments to physical characteristics and personality character traits that are immediate, familiar, and completely realized from "inner driven" connections to their own lives. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 210.

Schedule Type: Lecture

THR 380: Playwriting I. 3 credits.
Exposure to principles of dramatic writing, including character, plot, dramatic structure, dialogue, exposition, setting, and creating theatrical images using examples from plays, screenplays, and students' own work. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Seminar

THR 381: Playwriting II. 3 credits.
Intensive continuation of work begun in THR 380. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 380 or permission of instructor.

Schedule Type: Seminar

THR 382: Screenplay Workshop. 3 credits.
Studies screenwriting as dramatic form of 20th, 21st centuries. Explores story, plot structure, three act-structures, mythic structures, fundamental story patterns, character, thinking, and writing visually. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture

THR 395: Theater as the Life of the Mind. 3 credits.
Traces four subjects (battle of the sexes, good gifts, cyclical tragedy, and eschatology) from ancient theater to contemporary plays, television, and movies, using literary criticism, history, political theory, comparative religion, sociology, and anthropology. Offered by Theatre (p. 835). May not be repeated for credit.
Mason Core: Arts (p. 135)

Schedule Type: Lecture

400 Level Courses

THR 401: Professional Presentation. 3 credits.
Examines persuasive communication, with an emphasis on making presentations and addressing groups, both large and small. Hones the ability to project a personal passion while communicating information about any discipline to general audiences. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture

THR 405: Advanced Stage Combat. 3 credits.
Armed Stage Combat techniques are explored, unarmed techniques solidified, and advanced choreography mastered in this study of safe and effective theatrical storytelling through violence for Stage and Screen appropriate towards national certification as Actor-Combatant. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: THR 305 or permission of instructor.

Schedule Type: Lecture

THR 410: Acting for the Camera. 3 credits.
Designed for students with a strong interest in pursuing a professional career in acting and is focused primarily on the particular techniques for screen acting in film and television. Offered by Theatre (p. 835). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: THR 310^c.
^c Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Theatre.

Schedule Type: Lecture

THR 412: Great Film Performances. 3 credits.
Examines the development and evolution of acting style and genres through exemplary performances on screen. Offered by Theatre (p. 835). May not be repeated for credit.

Mason Core: Arts (p. 135)

Recommended Prerequisite: Sophomore standing (30 credit hours completed).

Schedule Type: Lecture

THR 415: Advanced Sound Engineering. 3 credits.
Advanced study in theory and practice of audio engineering for theater and the entertainment industry. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 315 and THR 230 or permission of instructor.

Schedule Type: Lecture

THR 420: Advanced Performance Studio. 3 credits.
Advanced scene study for stage and film. Rotating topics address professional perspectives and acting styles. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Required Prerequisite: (THR 310^c).
^c Requires minimum grade of C.

Schedule Type: Lecture

THR 421: One-Person Show. 3 credits.
Explores creative writing, staging, and performance while developing short, original work culminating in the successful writing, a one-person show. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture

THR 423: Audition Techniques: Stage and Camera. 3 credits.
Develops effective audition techniques for performers through preparation of material for stage and camera, and explores industry standards and casting protocols through practical application. Offered by Theatre (p. 835). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: (THR 310^c).
^c Requires minimum grade of C.

Schedule Type: Lecture

THR 424: Contemporary Women Playwrights. 3 credits.
Explores identity and culture, sexuality and gender, work, relationships, and power through the eyes of female dramatists and performance artists. Analyzes texts and issues through readings, video, and live performances. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Junior standing or permission of instructor.

Schedule Type: Lecture

THR 425: Verse Speaking. 3 credits.
Explores verse literature and mechanics of verse structure through reading, discussing, and reciting major verse plays of Western drama from the Middle Ages through the 20th century. Focuses on various verse forms, paying particular attention to vocal clues within verse structure, the meaning of rhythm, and practicing vocal techniques used in speaking texts in class. Students also prepare weekly presentations of playwrights, and historical backgrounds of plays and their periods. Offered by Theatre (p. 835). May not be repeated for credit.

Schedule Type: Lecture
**THR 427: Musical Theater Workshop.** 3 credits.
Develops performance techniques necessary for performance in musical theater. Students will prepare and perform musical theater pieces. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** THR 210 and 310 or permission of instructor.

**Schedule Type:** Lecture

**THR 428: Musical Theater Ensemble.** 3 credits.
Rehearses a musical or musical theater review in a workshop environment. The result of the work will be public performance(s). Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** THR 230, THR 334, or permission of instructor.

**Schedule Type:** Lecture

**THR 434: Advanced Lighting Design.** 3 credits.
In-depth study of lighting design focused on the aesthetics of stage lighting and advanced conceptualization and communication of design ideas. Extensive work with script analysis, research, and graphic representation of theatrical lighting designs. Intensive practical experience in laboratory and production assignments. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** THR 230, THR 334, or permission of instructor.

**Schedule Type:** Lecture

**THR 440: Advanced Studies in Directing/Dramaturgy.** 3 credits.
Examines theory and practice of collaborative development of production ideas by director and dramaturg teams. Students draw from extensive study in field to support production ideas from classical and modern repertoire to be presented as written and oral projects before faculty panel. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** THR 210 and 310 or permission of instructor.

**Schedule Type:** Lecture

**THR 444: Foundations of Theater Education.** 3 credits.
Introduces and explores various theater teaching specialties. Examines philosophical, pedagogical, and practical issues in context of diverse teaching situations and venues that range from public school to undergraduate and graduate training to commercial establishments. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Junior standing (60 credit hours completed) and Theater Teaching Concentration admission requirements or permission of the instructor.

**Schedule Type:** Lecture

**THR 449: Elementary Theater Education.** 3 credits.
An in-depth exploration of teaching methods and classroom management for PK-6 theater education. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or permission of the instructor.

**Schedule Type:** Lecture

**THR 450: Secondary Theater Education.** 3 credits.
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, gifted and talented, and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of learning, curriculum and instructional procedures for secondary grades 6-12 (both middle and secondary schools). Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or permission of the instructor.

**Schedule Type:** Lecture

**THR 451: Theater Pedagogy.** 2 credits.
This advanced exploration of teaching methods for K-6 enrichment programming includes classroom hours devoted to pedagogy and field study for practical application, leadership and administration for independent arts programming. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Sophomore standing and enrollment in Theater Education concentration; or permission of instructor.

**Schedule Type:** Lecture

**THR 455: Theater Education Internship.** 6-12 credits.
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA before student teaching (and the Praxis II (Theater: Content Knowledge) test during the internship semester).

**Schedule Type:** Internship

**THR 480: Advanced Playwriting.** 3 credits.
Advanced playwriting workshop in which students explore their own voice in theatrical writing. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** THR 381 or Permission of Instructor.

**Schedule Type:** Lecture

**THR 482: Advanced Screenplay Workshop.** 3 credits.
Screenwriting workshop emphasizing student development in screenplay form, structure, and storytelling with emphasis on craft, character, and story culminating in a screenplay. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.
Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: THR 382 or ENGH 332/ENGH 372 or other writing preparation course as approved by the instructor.

Schedule Type: Lecture

THR 484: Translation & Adaptation for Stage & Screen. 3 credits.
This interdisciplinary course will introduce students to the arts of translation and adaptation for the stage and screen. Students will read examples of translations and adaptations, identify challenges in each, and discuss them with professionals who translate or adapt works for theater, film and/or opera. Students are also expected to apply their skills to one short and one long translation/adaptation project, and present their work to the class. Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: Junior standing

Schedule Type: Seminar

THR 490: Special Topics in Theater. 1-6 credits.
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater.
Notes: May be repeated provided specific course content differs. Offered by Theatre (p. 835). May be repeated within the term for a maximum 24 credits.

Schedule Type: Lecture

THR 491: Seminar on the Profession. 1-3 credits.
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater.
Notes: Repeatable with permission of the Chair. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 60 credit hours.

Schedule Type: Lecture

THR 492: Studio Project. 1-3 credits.
Required for students assigned as director, designer, dramaturg, or stage manager for a Mason Players Studio production. Instruction and mentorship from appropriate Theater faculty to better develop the student's aesthetic. Required generation of portfolio material. This class is restricted to students participating in Studio productions within the academic year of the course offering. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: THR 329 or THR 333 or THR 334 or THR 335 or THR 337.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Theatre.

Schedule Type: Studio

THR 493: Collaborative Lab Experience. 3 credits.
Students will collaborate in a laboratory experience to create original material for the stage or screen. Course content will be project specific. Offered by Theatre (p. 835). May not be repeated for credit.

Registration Restrictions:
Students with a class of Freshman or Sophomore may not enroll.

Enrollment is limited to students with a major in Theatre.

Enrollment limited to students in a Bachelor of Fine Arts degree.

Schedule Type: Lecture

THR 494: Field Experience. 1-6 credits.
Experience in a theatrical organization to provide opportunity to apply classroom training, knowledge, skills, and theory in a professional situation. Activity must be approved by department chair. Offered by Theatre (p. 835). May be repeated within the term for a maximum 12 credits.

Schedule Type: Internship

THR 495: Senior Capstone Project. 3 credits.
Student must submit a written project proposal to area of concentration for consultation. If accepted, proposal will be presented to the full faculty for approval. Notes: Production proposals will be subject to calendar availability. Course is repeatable with permission of Chair. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Must have declared a concentration, have completed at least 60 credit hours, and must have completed 4 credits of Practicum.

Schedule Type: Studio

THR 496: Text in Production. 3 credits.
In-depth investigation of collaborative nature of theatrical arts. Examines discrete creative disciplines; acting, directing, dramaturgy, and design as discussed by distinguished professionals and scholars. In-depth exploration of one selected playscript for the entire semester. Students will work collaboratively in small groups to research, design, direct, and perform scenes from selected text. Offered by Theatre (p. 835). May not be repeated for credit.

Mason Core: Synthesis (p. 135)

Recommended Prerequisite: Completion or concurrent enrollment in all theater core courses and in all other required Mason Core courses.

Schedule Type: Seminar

THR 497: Independent Study. 1-6 credits.
Individual research and creative project in close consultation with instructor. Selection from projects in performance, directing, technical theater and design, playwriting, or theater history and criticism. Notes: May be repeated, provided suffix citing specific course content is different. Offered by Theatre (p. 835). May be repeated within the term for a maximum 24 credits.

Recommended Prerequisite: Open only to THR majors with 90 hours and by permission of department chair.

Schedule Type: Independent Study

500 Level Courses

THR 525: Advanced Musical Theater Workshop. 3 credits.
Students hone performance techniques necessary for performance in musical theater and contemporary operetta. Students will practice and perform musical theater pieces. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

THR 530: Topics in Theater Design. 3 credits.
In-depth study of scenic, costume, lighting, or sound design. Extensive work with script analysis, historical and conceptual research, visual communication of design ideas, and technical paperwork. Focus on aesthetics, production requirements, and collaboration. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

THR 539: Aesthetics for the Theater. 3 credits.
Students will develop skills in design while exploring significant developments within the area of concentration. Creative projects, including research and design, will be supervised on an individual basis. Offered by Theatre (p. 835). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

THR 540: Directing Techniques. 3 credits.
An examination of the directorial process for stage and screen, this course will explore directing theory, preparation, and practice. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

THR 548: Advanced Foundations of Theater Education. 3 credits.
Explores various theater teaching specialties in venues that range from public school to undergraduate and graduate training to commercial establishments. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

THR 549: Advanced Elementary Theater Ed. 3 credits.
An in-depth exploration of teaching methods and classroom management for PK-6 theater education combined with advanced managerial skill training. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate standing, eligibility for post-baccalaureate in Theatre Education Licensure, or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

THR 550: Advanced Secondary Education. 3 credits.
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, including gifted and talented and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of Learning, curriculum and instructional procedures, as well as theater classroom management, for secondary grades 6-12 (both middle and secondary schools). Offered by Theatre (p. 835). May not be repeated for credit.

Recommended Prerequisite: Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

THR 551: Advanced Theater Pedagogy. 2 credits.
Advanced concepts in teaching methods for PK-12. Further exploration of multiple intelligences, including classroom pedagogy and field study for
practical application of curriculum and administrative skills. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**THR 555:** Theater Education Internship. 1-12 credits.
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA and Praxis I prior to the internship semester.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**THR 560:** Advanced Script Analysis. 3 credits.
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements. Offered by Theatre (p. 835). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**THR 571:** Advanced Playwriting Workshop. 3 credits.
Advanced playwriting workshop in which students explore their own voice in theatrical writing. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate degree or equivalent, or permission of instructor.

**Registration Restrictions:**

**THR 590:** Special Topics for Graduate Study. 1-6 credits.
Rotating topic. Advanced seminar in topics for stage and screen studies, including education, performance, design, research, writing, and styles in theater or other media. Offered by Theatre (p. 835). May be repeated within the term for a maximum 18 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**THR 591:** Graduate Seminar. 1-3 credits.
Addresses the realities living and working in the theater and the film industry. Notes: Rotating Topics. Dependent on credits hours offered, class time will vary from 1 hour to 2 hours, 40 minutes. Offered by Theatre (p. 835). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to students with a major in Theatre.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**THR 599:** Independent Study. 1-6 credits.
Independent reading, performance, or research on a specific project under direction of selected faculty member. May include attendance in a parallel undergraduate course. Offered by Theatre (p. 835). May be repeated within the term for a maximum 18 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**600 Level Courses**

**THR 610:** Acting Mentorship. 3 credits.
This class gives students the chance to work with a faculty mentor while they apply their acting skills to a full-length public performance. Students
create a record of the creative process through mentored practical production assignments. Actors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the complete acting process. Offered by Theatre (p. 835). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**THR 620:** *Acting Techniques.* 3 credits.
Students explore selected acting techniques for stage and screen. Topics vary from scene work to specialty areas -such as movement, voice and style-with an emphasis on developing bold physical, psychological and emotional expression. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**THR 630:** *Design Mentorship.* 3 credits.
Students work with a mentor while they apply design and technical skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Students must receive prior approval on projects for the stage or screen and will be expected to submit a written reflection on the process. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**THR 640:** *Directing Mentorship.* 3 credits.
This class gives students the chance to work with a faculty mentor while they apply their directing skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Directors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the full directorial process. Offered by Theatre (p. 835). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study

**THR 651:** *Advanced Dramatic Theory and Criticism.* 3 credits.
A chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts. They also take turns leading critical texts, meet one-on-one with their instructor for individualized mentoring, and prepare at least one essay for publication. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**THR 652:** *Writing Seminar.* 3 credits.
Students develop writing skills and explore significant developments and periods within the field. Offered by Theatre (p. 835). May not be repeated for credit.

**Recommended Prerequisite:** Admission to Graduate Program in CVPA.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**THR 655:** *Teaching Practicum.* 3 credits.
Students develop and teach undergraduate curriculum related to their area of emphasis. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Admission to Graduate Program in CVPA.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Internship
THR 691: Professional Development. 1 credit.
Students develop materials and strategies toward the next stage of career in the field. Offered by Theatre (p. 835). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

THR 694: Graduate Field Experience. 1-6 credits.
Experience in a professional theater or screen production. Activity is subject to prior faculty approval. Students will present a final portfolio of work. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

THR 696: Advanced Acting Practicum. 3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience. Offered by Theatre (p. 835). May be repeated within the degree for a maximum credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

THR 697: Advanced Playwriting and Dramaturgy Practicum. 1-3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours of approved production experience. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

THR 698: Advanced Directing Practicum. 1-3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

THR 699: Advanced Design Practicum. 1-3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours of approved production experience. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

THR 740: Directors and Dramaturg in Collaboration. 3 credits.
Students work in director-dramaturg pairs to create a hypothetical theater company, craft its mission, plan its season and pitch their ideas for production. Additional assignments include a director's approach, dramaturg's protocol, annotated bibliography, research paper and lecture on a related topic. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

THR 755: Academic Track Practicum. 3 credits.
Students prepare a semester worth of course material for undergraduate class. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Admission to Graduate Program in CVPA.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

THR 790: Directed Research. 3 credits.
Students delve into a specialty topic of research in the area of emphasis within the Theater concentration. Notes: Students must attain a grade
of B or higher to receive credit. Offered by Theatre (p. 835). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Independent Study
THR 796: Directed Reading. 1 credit.
In preparation for a thesis, students develop and complete a body of reading relating to their thesis. Offered by Theatre (p. 835). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study
THR 797: Project Preparation. 3 credits.
Students document their pre-production process in preparation for their culminating artistic project. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 6 credits.

Recommended Corequisite: THR 796.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study
THR 798: Project Practicum. 3 credits.
Students document their production process during the culminating artistic project. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: THR 797.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis
THR 799: Thesis. 1-3 credits.
Students reflect upon their culminating artistic project and articulate original conclusions regarding practice in their area of emphasis. Notes: Subject to Faculty majority. Students must attain a B or higher to receive credit. Offered by Theatre (p. 835). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Research Methods Core Requirement.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Tourism and Events Management (TOUR)

100 Level Courses
TOUR 110: Professionalism and Civility. 1 credit.
Focuses on developing competencies in the areas of professionalism and civility in a variety of settings including professional image, conduct at work, telephone, written, oral, and electronic etiquette, table manners, and social networking with an emphasis on the cultural needs for honoring commitments and obligation. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture
TOUR 190: Wedding Planning. 3 credits.
Introduction to the planning and management of weddings. Explores social, political, economic, cultural, religious, and historical influences on wedding planning decision-making and business strategies. Reviews practices relevant to successful wedding planning, and consultancy for diverse clients and settings. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture

200 Level Courses
TOUR 200: Introduction to Tourism Management. 3 credits.
Introduces travel and tourism from local to international levels. Covers the scale, scope and organization of the industry. Emphasizes the development and management of natural, cultural, heritage and recreational resources of tourism. Identifies issues related to the economic, technological and political aspects of tourism. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture
TOUR 210: Global Understanding through Travel and Tourism. 3 credits.
Examines tourism as a global industry and human activity that promotes and facilitates understanding of historical and cultural values, and of international institutions that characterize the broader global system. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)

Schedule Type: Lecture
TOUR 214: Hospitality Tourism and Events Management Accounting. 3 credits.
Provides an overview of financial accounting for hospitality, tourism and event managers. Presents financial accounting from the perspective of recording financial transactions, developing financial statements and evaluating investment and operational decisions. Emphasizes efficient use of spreadsheets in managerial decision making. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Schedule Type: Lecture
TOUR 220: Introduction to Event Management. 3 credits.
Explores principles and practices of managing medium- and large scale events including festivals, conventions, concerts, shows, sporting events, and ceremonies. Emphasizes organization, site preparation, communications, personnel, and security as well as evaluation and
innovation. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Schedule Type:** Lecture

**TOUR 221: Event Implementation and Evaluation.** 3 credits.
Introduction to event implementation and evaluation through involvement in on-site event delivery and analysis. Studies participant motivation and economic, social, environmental, and cultural impacts in relation to an event’s products and services. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** TOUR 220\(^D\).
\(^D\) Requires minimum grade of D.

**Schedule Type:** Lecture

**TOUR 230: Introduction to Hospitality Management.** 3 credits.
This course is an introduction to hospitality management, including an overview of management in the hospitality industry and professional opportunities. The concepts and practices of hospitality management are examined and discussed. The scope and forms of hospitality organizations are reviewed, as well as trends within these organizations. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Schedule Type:** Lecture

**TOUR 241: Hospitality, Tourism, and Events Management Practicum.** 3 credits.
Provides 120 hours of introductory supervised professional fieldwork experience in an approved tourism, events, or hospitality management setting for 10 to 14 weeks (10 weeks only for the Summer term) under the supervision of a practicum Faculty Supervisor and Agency Supervisor. Includes meetings and assignments before, during, and after the practicum. Notes: Students must complete the mandatory pre-experience orientation session online before registering for this course. Hourly requirement per week is 15-20 for Summer term. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** TOUR 200\(^D\), 220\(^D\) and 230\(^D\).
\(^D\) Requires minimum grade of D.

Students with a class of Freshman may not enroll.

Enrollment is limited to students with a major in Tourism and Events Management.

**Schedule Type:** Internship

**300 Level Courses**

**TOUR 301: Hotel Management.** 3 credits.
Explores interrelated systems in hotel management, including front desk, reservations, housekeeping, food/beverage, telecommunications, guest services and security. Reviews and segments hotel products and associated management challenges. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** TOUR 230\(^D\).
\(^D\) Requires minimum grade of D.

**Schedule Type:** Lecture

**TOUR 310: Food and Beverage Management.** 3 credits.
Explores the principles of foodservice management regarding production and selling of food and beverage products. Categorizes various types of food, wine, beer and spirits. Reviews foodservice buying, pricing, menu planning, production, storage, service, controls and quality assurance. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** TOUR 230\(^D\).
\(^D\) Requires minimum grade of D.

**Schedule Type:** Lecture

**TOUR 311: Women and Tourism.** 3 credits.
Focuses on women as hosts and guests. Using social theory, explores issues regarding the history and evolution of tourism as a gendered system. Addresses family, solo and business travel, and employment, taking into consideration issues related to more and lesser developed countries as they relate to the roles of women in international tourism. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 135)

**Schedule Type:** Lecture

**TOUR 313: Event Technology.** 3 credits.
Explores theoretical and practical considerations of event technology. Examines specifications, layout installation techniques and operation of sound systems, lighting systems and video systems for event industry sectors. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** TOUR 220\(^D\).
\(^D\) Requires minimum grade of D.

**Schedule Type:** Lecture

**TOUR 314: Hospitality, Tourism, and Events Revenue Management.** 3 credits.
Provides an overview of revenue management as utilized in a hospitality context. Presents the dynamics of revenue management and demonstrates strategic and operations perspectives. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** TOUR 200\(^C\), 220\(^C\) and 230\(^C\).
\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

**Schedule Type:** Lecture

**TOUR 320: Hospitality Management Information Systems.** 3 credits.
Introduces management information systems (MIS) technology and its application to hospitality sectors from managerial and strategic perspectives. Surveys computer applications, products and trends in gathering, analyzing, storing and communicating information within hospitality sectors. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: TOUR 230\textsuperscript{D}.  
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture

TOUR 330: Resort Management. 3 credits.  
Surveys effective practices in the management of resort recreation enterprises. Examines basic resort operations, including front desk, food and beverage, amenities, and housekeeping. Covers management of a variety of resort types, such as ski resorts, beach resorts, dude ranches, business retreats, adventure camps, health spas, and golf resorts. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:  
Required Prerequisites: TOUR 200\textsuperscript{D} and 230\textsuperscript{D}.  
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture

TOUR 331: Cruise Ship Management. 3 credits.  
Surveys effective practices in the management and operation of cruise ships. Includes on-site examination of basic cruise operations including sales and booking, food and beverages, hotel operations, security, recreation activities, shore excursions and personnel management. Examines historical foundations of the cruise industry, related leisure and management theory, and leisure trends specific to mass international maritime travel. Notes: Includes on-campus classroom lectures and week-long on-board cruise ship instructional experience. Must be 21 years of age by beginning of semester. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:  
Required Prerequisites: TOUR 200\textsuperscript{C} and 230\textsuperscript{C}.  
\textsuperscript{C} Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Enrollment is limited to students with a major in Tourism and Events Management.

Enrollment limited to students in a Bachelor of Science degree.

Schedule Type: Lecture

TOUR 340: Sustainable Tourism. 3 credits.  
Studies the characteristics of environmentally, economically and socio-culturally sustainable tourism and assesses the possibilities and limitations for its implementation within a variety of destinations and product settings. Emphasizes conventional "mass" tourism and small-scale "alternative" tourism as they apply to hospitality, event, and tourism management. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Registration Restrictions:  
Required Prerequisite: TOUR 200\textsuperscript{D}.  
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture

TOUR 352: Heritage and Cultural Tourism. 3 credits.  
Analyzes historical and cultural attractions, including museums, canals, monuments, pilgrimage sites, military sites, and cultural and heritage landscapes. Covers presentation and interpretation, African-American and Native American heritage, management and operational considerations, and marketing. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:  
Required Prerequisite: TOUR 230\textsuperscript{D}.  
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture

TOUR 362: Cultural and Environmental Interpretation. 3 credits.  
Focuses on communication processes and practices used by professionals to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Discusses conceptual principles for planning interpretive programs, as well as techniques for analyzing and disseminating information and entertainment through various media. Examines delivery of interpretive messages across a variety of audiences, strategies for programming interpretive services, and the administration and evaluation of interpretive services at tourism, event, and recreation sites. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit. Equivalent to PRLS 362.

Registration Restrictions:  
Required Prerequisites: PRLS 300\textsuperscript{C} or TOUR 352\textsuperscript{C}.  
\textsuperscript{C} Requires minimum grade of C.

Schedule Type: Lecture

400 Level Courses

TOUR 412: Hospitality, Tourism, and Events Management Marketing. 3 credits.  
Applies marketing principles, theories and concepts in developing strategies for hospitality, tourism and event management businesses. Emphasizes market segmentation, marketing mix, sales planning and public relations. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:  
Required Prerequisites: TOUR 241\textsuperscript{C} or PRLS 241\textsuperscript{C}.  
\textsuperscript{C} Requires minimum grade of C.

Schedule Type: Lecture

TOUR 414: Hospitality, Tourism, and Events Management Finance. 3 credits.  
Develops skills and competencies for the management of financial resources in hospitality, tourism and events management enterprises. Covers economic principles, the time value of money, revenue streams, pricing and expenditure management. Applies fundamental principles to personal financial management. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:  
Required Prerequisite: TOUR 241\textsuperscript{C}.  
\textsuperscript{C} Requires minimum grade of C.

Schedule Type: Lecture

TOUR 416: Hospitality Sales. 3 credits.  
Explores the principles of personal selling within hospitality sectors. Reviews the nature of buyers and sellers, situational selling, the sales process and relationship management. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:  
Required Prerequisites: TOUR 230\textsuperscript{D} and PRLS 410\textsuperscript{D}.  
\textsuperscript{D} Requires minimum grade of D.
TOUR 200: Tourism Planning/Policy. 3 credits.  
Principles of planning and policy that apply to integrated and sustainable tourism development at the international, national, state, regional, local, and site scale. Considers government, industry, and community perspectives. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Required Prerequisites:**  
TOUR 340\textsuperscript{D} and 241\textsuperscript{C}.

**Schedule Type:** Lecture

TOUR 230: Hospitality Facilities Operations. 3 credits.  
Reviews concepts and methods related to the achievement of strategic business goals through employee recruitment, training and development. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Required Prerequisites:**  
TOUR 241\textsuperscript{C}.

**Schedule Type:** Lecture

TOUR 241: Hospitality Human Resources Management. 3 credits.  
Reviews concepts and methods related to the achievement of strategic business goals through employee recruitment, training and development. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Required Prerequisites:**  
TOUR 241\textsuperscript{C}.

**Schedule Type:** Lecture

TOUR 240: Meetings and Conventions. 3 credits.  
Analyzed meetings, incentives, conventions, and exhibitions with respect to business environment and structure, industry suppliers, site and facility selection, human resource management, legal and financial issues, marketing and promotion, and event organization. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Required Prerequisites:**  
TOUR 241\textsuperscript{C}.

**Schedule Type:** Lecture

TOUR 450: Hospitality Human Resources Management. 3 credits.  
Reviews concepts and methods related to the achievement of strategic business goals through employee recruitment, training and development. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Required Prerequisites:**  
TOUR 241\textsuperscript{C}.

**Schedule Type:** Lecture

TOUR 460: Hospitality Facilities Operations. 3 credits.  
Explores the principles applied to facilities systems operations in hospitality sectors. Considers design, planning, layout and maintenance of hospitality properties and systems. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Required Prerequisites:**  
TOUR 230\textsuperscript{C}.

**Schedule Type:** Lecture

TOUR 470: Career Preparation. 1 credit.  
Focuses on current issues in tourism, events and hospitality management with an emphasis on career development strategies. Notes: Meets for half the semester. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Required Prerequisites:**  
TOUR 241\textsuperscript{D}.

TOUR 480: Special Topics. 1-3 credits.  
Selected topics reflect interest in specialized area of tourism and events management. Announced in advance. Offered by Recreation, Health & Tourism (p. 211). May be repeated within the term for a maximum of 9 credits.

**Registration Restrictions:**  
Students with a class of Freshman or Sophomore may not enroll.

**Schedule Type:** Lecture

TOUR 490: Hospitality, Tourism, and Events Management Internship. 12 credits.  
Provides 400 hours of advanced supervised professional experience in an approved tourism, events, or hospitality management setting for a minimum of 30 hours/week, and a maximum of 40 hours/week (summer term only). Provides a continuous and structured opportunity to apply principles and skills developed in the classroom to the solution of practical problems. Notes: Students must attend mandatory pre-experience orientation session before registering and must participate in the mandatory final presentations upon completion of internship. Can register for only one additional course for up to 3 credits. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Registration Restrictions:**  
Students with a class of Freshman or Sophomore may not enroll.

**Schedule Type:** Internship

TOUR 499: Independent Study. 1-3 credits.  
Faculty directed independent study of approved topics in tourism and events management. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

**Recommended Prerequisite:** TOUR 200 and 220, and 90 credits.

**Registration Restrictions:**  
Enrollment is limited to students with a major in Tourism and Events Management.

**Schedule Type:** Independent Study

500 Level Courses

TOUR 540: Sustainable Tourism Management. 3 credits.  
Examines components and interrelationships within tourism systems and assesses the potential economic, sociocultural, and environmental impacts associated with this sector. Considers managerial strategies that minimize the negative impacts and maximize the positive impacts, thereby attaining sustainable tourism. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.
Specialized Designation: Green Leaf Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

700 Level Courses

TOUR 710: Advanced Administrative Practices in Tourism and Events. 3 credits.
Explores best practices in the administration of tourism and events businesses. Particular emphasis will be placed on contract management, and strategic planning for dynamic markets and changing technologies, with specific applications to geographically dispersed consumers and suppliers. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TOUR 712: Marketing Tourism and Event Planning Services. 3 credits.
Focuses on the unique challenges and opportunities faced by tourism and event marketers in producing, delivering, pricing, and promoting tourism and event services. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

TOUR 720: Major Events and Convention Management. 3 credits.
Prepares graduate students for managing large scale events such as major festivals, conventions, sporting contests, cultural exhibitions, and commercial exhibitions. Management of human financial, information, and technology resources will be emphasized. Offered by Recreation, Health & Tourism (p. 211). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Turkish (TURK)

100 Level Courses

TURK 110: Elementary Turkish. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Schedule Type: Seminar

200 Level Courses

TURK 210: Intermediate Turkish. 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Turkish-speaking regions. Offered by Modern & Classical Languages (p. 414). May not be repeated for credit.

Recommended Prerequisite: TURK 110, appropriate placement score, or permission of department.

Schedule Type: Lecture

University Studies (UNIV)

100 Level Courses

UNIV 100: Introduction to Mason. 1 credit.
This course assists first-year students with their transition from high school to college life at Mason. It helps students to be successful through academic skill-building, educational planning, and career preparation. It provides information regarding campus resources and ways to engage in the Mason community. Although all sections have a core curriculum, certain sections also focus on a particular theme, student population, or course of study. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 108, UNIV 140, UNIV 150, UNIV 160.

Registration Restrictions:
Enrollment limited to students with a class of Freshman.

Schedule Type: Seminar

UNIV 101: Extended Transition. 1 credit.
This course serves as a continuation of University 100 into the second freshman semester. It extends the transition support of international students, and other students in special sections of University 100. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 141, UNIV 151.

Schedule Type: Seminar

UNIV 108: Mason Transition. 1 credit.
Specialized transition to Mason courses with identified student populations. Notes: Only repeatable with department approval. Offered by Provost's Office (p. 1102). May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 100, UNIV 140, UNIV 150, UNIV 160.

Schedule Type: Seminar

UNIV 110: Academic Success. 1 credit.
Focuses on academic transition and planning issues for students in their first or second year. Emphasis is placed on resources and techniques to assist students with improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester. Offered by Provost's Office (p. 1102). May not be repeated for credit.

Schedule Type: Seminar
UNIV 140: INTO Mason Pathway Transition. 1 credit.
Assists first-year international and multilingual standard and accelerated pathway students with their transition from high school to college life. It helps prepare students for successful progression to their chosen degree plan the promoting acculturation to academic norms and expectations at Mason, the development of self-efficacy, and engagement with the Mason community. It encourages to seek out and take full advantage of a wide range of campus resources. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 100, UNIV 108, UNIV 150, UNIV 160.

Schedule Type: Seminar

UNIV 141: INTO Mason Pathway Extended Transition. 1 credit.
Serves as a continuation of UNIV 140. It provides extended first-year transition support for standard pathway students in the second semester. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 101, UNIV 151.

Schedule Type: Seminar

UNIV 150: First Year Living Learning Communities. 1 credit.
This course is available for students who are members of a first year LLC. It is the learning component of the program for students who live together on a residence hall floor. The course follows the core University 100 curriculum, but is tailored to the particular theme or academic discipline of the LLC. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 100, UNIV 108, UNIV 140, UNIV 160.

Registration Restrictions:
Enrollment limited to students with a class of Freshman.

Schedule Type: Seminar

UNIV 151: First Year Living Learning Communities Extended Transition. 1 credit.
This course serves as a continuation of University 150 into the second freshman semester. It extends the transition support of students in the First Learning Communities Program. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 101, UNIV 141.

Schedule Type: Seminar

UNIV 160: University Scholars Transition Seminar. 1 credit.
A first year transition seminar for students in the University Scholars Program. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 100, UNIV 108, UNIV 140, UNIV 150.

Recommended Prerequisite: Admittance to the University Scholars Program.

Schedule Type: Seminar

UNIV 170: Special Topics. 1 credit.
Varied UNIV course topics are offered to first and second year undergraduate students. Notes: May be repeated when topic is different. Offered by Provost's Office (p. 1102). May be repeated within the term for a maximum 3 credits.

Schedule Type: Seminar

UNIV 190: Introduction to Research Opportunities. 1 credit.
Provides an opportunity to learn more about participating in research and creative projects at Mason and acquire skills needed to be successful in research. Offered by Provost's Office (p. 1102). May not be repeated for credit.

Schedule Type: Seminar

200 Level Courses

UNIV 220: Decide and Confirm Majors. 1 credit.
This course focuses on helping students clarify or choose a major or career. Students explore and assess their interests, values and skills, as well as research various majors, careers, and the world of work as information for the decision-making process. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost's Office (p. 1102). May not be repeated for credit.

Recommended Prerequisite: Second-semester freshman standing.

Schedule Type: Seminar

UNIV 250: Second Year Living Learning Communities. 1 credit.
Students in a Second Year Living Learning Community live together on a residence hall floor and attend this course together to fulfill the learning component of the LLC program. Notes: For students who are members of a Second Year Living Learning Community. Offered by Provost's Office (p. 1102). May not be repeated for credit.

Schedule Type: Seminar

300 Level Courses

UNIV 300: Transfer Transition. 1 credit.
This course assists new transfer students with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 302, UNIV 303, UNIV 305, UNIV 308.

Schedule Type: Seminar

UNIV 302: College of Science Transfer Transition. 1 credit.
This course is intended for new transfer students in the College of Science to assist them with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 300, UNIV 303, UNIV 305, UNIV 308.

Schedule Type: Seminar

UNIV 303: Veteran Transition. 1 credit.
This course is for students with veteran status. Based on theory and research specific to the needs of veterans, this course builds a foundation for success in college and beyond, including career planning, translating military experience on a resume, practical interviewing techniques, and networking and engaging with other veterans in a
military-friendly environment. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 300, UNIV 302, UNIV 305, UNIV 308.

**Schedule Type:** Seminar

**UNIV 304: Bachelor Individualized Studies Transfer Transition.** 1 credit.
This course serves new transfer students in the Bachelors of Individualized Studies (BIS) program, and assists them with a successful transition to Mason. Students develop relationships with peers, staff, and faculty. They are introduced to campus resources, with special emphasis on research and writing resources and tools, and work closely with BIS academic advisors and faculty. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Only one of UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305, or UNIV 308 may be taken for credit. Offered by Provost's Office (p. 1102). May not be repeated for credit.

**Schedule Type:** Seminar

**UNIV 305: College of Humanities and Social Sciences Transfer Transition.** 1 credit.
Assists new transfer students in the College of Humanities and Social Sciences with a successful transition to Mason. Addresses academic success, educational planning, and career preparation, in addition to degree requirements and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office (p. 1102). May not be repeated for credit. Equivalent to UNIV 300, UNIV 302, UNIV 303, UNIV 308.

**Registration Restrictions:**
Enrollment limited to students in the Humanities Social Sciences college.

**Schedule Type:** Seminar

**UNIV 308: Mason Transition.** 1 credit.
Specialized transition to Mason courses with identified student populations. Notes: Only repeatable with department approval. Offered by Provost's Office (p. 1102). May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305.

**Schedule Type:** Seminar

**UNIV 310: Academic Success.** 1 credit.
Focuses on academic strengthening and planning issues for students in their third year or later. Emphasis is placed on resources and techniques to assist students with improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester. Offered by Provost's Office (p. 1102). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

**Schedule Type:** Seminar

**UNIV 320: Internship and Career Readiness.** 1 credit.
This course helps students confirm major/career choices and actively pursue internships, research assistantships, and other career-related experiences. With a focus on career readiness, students prepare a resume and cover letter, practice interviewing techniques, and conduct career research. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost's Office (p. 1102). May not be repeated for credit.

**Schedule Type:** Seminar

**UNIV 330: Peer Leadership: Peer Advisors.** 1 credit.
This course prepares upperclass students to serve as University 100 Peer Advisors, a role that helps first-year students transition successfully from high school to college. This course provides Peer Advisors with the necessary information, tools, and resources to co-teach University 100 effectively. Notes: For students who have been selected as a Peer Advisor by the University Transitions Program. Only repeatable with department approval. Offered by Provost's Office (p. 1102). May not be repeated for credit.

**Schedule Type:** Seminar

**UNIV 331: Peer Leadership: Patriot Leaders.** 1 credit.
This course introduces students who will serve as Patriot Leaders to the principles of effective leadership. Students will apply knowledge gained through the course directly to their roles and responsibilities as Patriot Leaders through readings and discussions, experiential activities, and class assignments. Notes: For students who have been selected as a Patriot Leader by the Office of Orientation and Family Programs and Services. Only repeatable with department approval. Offered by Provost's Office (p. 1102). May not be repeated for credit.

**Schedule Type:** Seminar

**UNIV 332: Peer Leadership: Resident Advisors.** 1 credit.
For students who have been selected for Resident Advisor education by the Office of Housing and Residence Life. Notes: For students who have been selected as a Resident Advisor by the Office of Housing and Residence Life. Enrollment is contingent upon approval by Student Academic Affairs - Advising, Retention, and Transitions - in consultation with the Office of Housing and Residence Life. Only repeatable with department approval. Offered by Provost's Office (p. 1102). May be repeated within the degree for a maximum 2 credits.

**Schedule Type:** Seminar

**UNIV 333: Peer Leadership: Peer Mentors.** 1 credit.
Prepares students to serve as Peer Mentors in a variety of Mason departments and programs. Students learn and put into practice leadership approaches and strategies. They become familiar with communication tools and campus resources that will enable them to mentor fellow students successfully. Notes: For students who have been selected as a Peer Mentor in a Mason department or program. Only repeatable with department approval. Offered by Provost's Office (p. 1102). May not be repeated for credit.

**Schedule Type:** Seminar

**UNIV 350: Third Year Living Learning Communities.** 1 credit.
Students in a Third Year Living Learning Community live together on a residence hall floor and attend this course together to fulfill the learning component of the LLC program. Notes: For students who are a member
of a Third Year Living Learning Community. Offered by Provost's Office (p. 1102). May not be repeated for credit.

**Schedule Type:** Seminar

**UNIV 370: Special Topics.** 1 credit.
Notes: May be repeated when topic is different. Offered by Provost’s Office (p. 1102). May be repeated within the term for a maximum 3 credits.

**Schedule Type:** Seminar

**UNIV 371: Dimensions of Well-Being.** 1 credit.
Introduces students to the terminology and basic science of well-being. Students will learn about evidence-based practices to cultivate resilience, optimism, mindfulness, and happiness. Practical application assignments will give students a chance to experiment with building a lifestyle to promote greater well-being. The course also addresses community and national well-being and the shared responsibilities of enhancing well-being in our society. Offered by Provost’s Office (p. 1102). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Schedule Type:** Independent Study

<table>
<thead>
<tr>
<th>400 Level Courses</th>
</tr>
</thead>
</table>

**UNIV 420: College to Career.** 1 credit.
This course supports second semester juniors and seniors with transitioning into the professional workplace. Students develop a tailored resume and cover letter, refine their interviewing skills, and discuss important workforce issues, such as compensation packages and workplace dynamics. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost’s Office (p. 1102). May not be repeated for credit.

**Schedule Type:** Seminar

**UNIV 421: College to Graduate School.** 1 credit.
This course supports second semester juniors and seniors. The academic emphasis is on transition readiness for graduate or professional school. Students learn about application and testing options and strategies, interviewing skills, budgeting, and career development. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost’s Office (p. 1102). May not be repeated for credit.

**Schedule Type:** Seminar

**UNIV 422: Developing Your Professional Edge.** 1 credit.
This course simulates a professional work environment and provides an opportunity to demonstrate desired workplace competencies. The academic emphasis includes: applying basic consultation skills to diagnose and propose innovative solutions to a problem, developing performance management documents; giving and receiving feedback, building workplace relationships, and creating a professional image. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost’s Office (p. 1102). May not be repeated for credit.

**Schedule Type:** Seminar

**UNIV 490: Critical Decisions in Postgraduate Transitions.** 1 credit.
This course guides and supports students through the postgraduate fellowship application process and postgraduate decisions. Students create a resume, complete a fellowship application, prepare for a scholarship interview, and refine their educational and career goals. Notes: Enrollment through the Office of Fellowships. Only repeatable with approval from the Office of Fellowships. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum 1 credits.

**Schedule Type:** Seminar

**UNIV 491: RS: Students as Scholars Individualized Scholarly Experience.** 9 credits.
Students actively participate in the process of scholarship and make a significant contribution to the creation of scholarly, research, or creative project. Students meet regularly with their project mentor, make satisfactory progress towards the completion of the project, and create a disciplinary product for evaluation. Notes: Enrollment only with permission from OSCAR. Offered by Provost’s Office (p. 1102). May be repeated within the degree for a maximum 27 credits.

**Specialized Designation:** Research/Scholarship Intensive

**Schedule Type:** Independent Study

**UNIV 495: RS: Undergraduate Research Scholars Program Seminar.** 3 credits.
Students accepted into Undergraduate Research Scholars Program participate in a weekly seminar, hold regular meetings with their project mentor, and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation through UNIV 496. See oscar.gmu.edu for more information and application. Notes: Enrollment only with acceptance into the URSP through OSCAR. Offered by Provost’s Office (p. 1102). May not be repeated for credit.

**Specialized Designation:** Research/Scholarship Intensive

**Schedule Type:** Independent Study

**UNIV 496: RS: Undergraduate Research Scholars Program Continuation.** 0 credits.
Students continuing their participation in the Undergraduate Research Scholars Program hold regular meetings with their project mentor and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation. See oscar.gmu.edu for more information and application. Notes: Enrollment only with acceptance into the URSP through OSCAR. Offered by Provost’s Office (p. 1102). May be repeated within the degree.

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** UNIV 495.

**Schedule Type:** Independent Study
UNIV 497: China 1-2-1 Senior Thesis. 1-6 credits. Offered by Provost's Office (p. 1102). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Independent Study

Urban and Suburban Studies (USST)

300 Level Courses

USST 301: Urban Growth in a Shrinking World. 3 credits. Examines process of urbanization historically and comparatively. For major world regions, attention is given to the political economy of urbanization and its impact on social and economic relations. Examines growing globalization of the world economy, implications for urban life, and urban political economy of the future. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Schedule Type: Lecture

USST 390: Special Topics in Urban and Suburban Studies. 3 credits. Subject varies according to specialization of instructor. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Schedule Type: Lecture

400 Level Courses

USST 401: Seminar: The Future of Metropolitan America. 3 credits. Examines trends in the development of American metropolis, including impact of information economy and technological developments on metropolitan form and life, continuing outward growth and increasing decentralization of metropolitan areas, changing functional organization of urban space, and continued social segregation in metropolitan areas. Analyzes contemporary predictions about future of metropolitan life in America, and explores how alternative public policies can shape that future. Students work on research projects in metro area. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: 12 hours of USST approved courses, including USST 301, or Permission of Instructor.

Schedule Type: Seminar

USST 490: Internship. 3 credits. Approved work-study programs that focus on urban and suburban issues with an approved agency or firm. Placement depends on student qualifications and availability of positions. Students work on onsite supervisor and coordinator of urban and suburban studies. Offered by Schar School of Policy & Govt (p. 906). May not be repeated for credit.

Recommended Prerequisite: Open only to authorized students with 12 hours of USST; see USST coordinator. Individualized Section Form required.

Schedule Type: Internship

Women and Gender Studies (WMST)

100 Level Courses

WMST 100: Representations of Women. 3 credits. Explores ways women are portrayed in advertising, television, film, photographs, cartoons, performance arts, literature, religious texts, and news media from various worldwide sources. Through interdisciplinary study students will evaluate the powerful effects these representations have on the political, economic, and social lives of women throughout the world. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Mason Core: Global Understanding (p. 135)

Schedule Type: Lecture

200 Level Courses

WMST 200: Introduction to Women and Gender Studies. 3 credits. Interdisciplinary introduction to women’s studies, encompassing key concepts in the field, history of women’s movements and women’s studies in America, cross-cultural constructions of gender, and a thematic emphasis on the diversity of women’s experience across class, race, and cultural lines. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 135)

Schedule Type: Lecture

300 Level Courses

WMST 300: Current Issues in Women and Gender Studies. 1-6 credits. Study of selected topics central to contemporary women and gender studies. Topics vary but include subjects such as women and violence, women and international development, women’s myth and ritual, LGBTQ topics, the history and politics of sexuality, psychoanalysis, and religion. Notes: May be repeated for credit when topic is different. Offered by Women & Gender Studies (p. 591). May be repeated within the term.

Recommended Prerequisite: WMST 200 or permission of instructor.

Schedule Type: Lecture

WMST 303: Psychology of Women. 3 credits. Behavior and attitudes of women, influence of sex chromosomes and sex hormones on behavior, influence of culture on sex role differentiation, and theories of sex role development. Offered by Women & Gender Studies (p. 591). May not be repeated for credit. Equivalent to PSYC 362.

Recommended Prerequisite: PSYC 100, BIOL 103, 104, or permission of instructor.

Schedule Type: Lecture

WMST 306: Topics in Communication and Gender. 3 credits. Exploration of selected topics involving gender and communication. Topics may include women in media, women as rhetors, male/female communication, and communication and sex roles. Specific interests are examined in a seminar setting. Notes: Course may be repeated with approval of department. Offered by Women & Gender Studies (p. 591). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 60 credits.

Schedule Type: Lecture

WMST 307: Women and Work. 3 credits. Historical and contemporary accounts of women’s participation in paid and unpaid labor. Analyzes the nature of women’s work through the divisions in the labor market due to gender, race, nationality, ethnicity, and class. Provides a detailed look at occupational sex segregation, sexual harassment, the glass ceiling, and the role of religion, culture, and education in determining women’s opportunities and their value as
workers and as family providers. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Recommended Prerequisite: 30 credits.

Schedule Type: Lecture

WMST 308: Introduction to Lesbian, Gay, Bisexual, Transgender, Transsexual, and Queer Studies. 3 credits.
Explores major events in lesbian, gay, bisexual, transgender, transsexual, and queer culture and history in the United States and throughout the world to understand how identities, experiences, and movements have been socially constructed and have changed in different times and places, often as a result of race, class, and gender inequities. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Schedule Type: Lecture

WMST 309: Black Social Movements: Gendering of Violence and Activism. 3 credits.
Examines racialized gendered conceptions of popular culture, violence, and the legal system and their role in structuring systems of segregation, discrimination and exclusion. Looks at the gendered strategies and conflicts of organizations that arose to combat racial violence and overturn legal and social barriers to equal opportunity and citizenship rights. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Schedule Type: Lecture

WMST 312: Gender, Trauma, and Recovery. 3 credits.
Explores the experience of emotional trauma, the process of recovery and the etiology of healing in contemporary North American culture. Examines the complexity of how humans interact through popular culture, literature and film and through theoretical works that attempt to explain female violence (compared to male violence) and as it is seen by others. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Schedule Type: Lecture

WMST 313: Women Who Kill. 3 credits.
Questions the assumptions that women are nonviolent by nature and commit acts of violence only in response to abuse. Explores the complexity of human interactions through popular culture, literature and film and through theoretical works that attempt to explain female violence (compared to male violence) and as it is seen by others. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Schedule Type: Lecture

WMST 314: Stories of Gender and Human Rights. 3 credits.
Examines global human rights issues through memoir, poetry and fiction. Explores the ways women use literary expression to voice their dissent and to struggle against human rights violations. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Schedule Type: Lecture

WMST 315: Women During the Enslavement Era. 3 credits.
Examines the general experiences of enslaved women and nominally free women. Includes the lives of female reformers involved in the public arena as orators, writers, preachers, abolitionists and women's rights activists. Explores the effect of gender, class, and race on the development of ideologies concerning abolition, colonization, women's rights, and enslavement. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Schedule Type: Lecture

WMST 316: Gendered Pan-Africanism. 3 credits.
Gendered Pan-Africanism. Explores the writings and activism of African Americans who traveled to Africa in search of a shared cultural past and present or an opportunity to build pan-African allegiances. Examines these encounters within the context of the Cold War, US civil rights and African anti-colonial movements, and racial and gender ideologies of the time. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Schedule Type: Lecture

WMST 330: Theoretical Perspectives in Women and Gender Studies. 3 credits.
Examines feminist and queer critiques and transformations of the theories, methods, and methodologies of the sciences and humanities. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Recommended Prerequisite: WMST 200 or permission of instructor.

Schedule Type: Lecture

WMST 390: Study Abroad. 1-3 credits.
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

Schedule Type: Lecture

400 Level Courses

WMST 400: Internship in Women and Gender Studies. 1-3 credits.
Community- or campus-based service or experiential learning related to women's or gender issues. Independent course in which students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience. Includes a paper and/or portfolio component. Offered by Women & Gender Studies (p. 591). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completion of 60 hours, WMST 200 or permission of instructor.

Schedule Type: Internship

WMST 401: Experiential Learning in Women and Gender Studies. 1-3 credits.
Community- or campus-based service or experiential learning as it relates to a specific WMST course, taken at the same time. Students develop, in consultation with faculty member, individual contracts defining learning and competencies they plan to gain from the experience. Notes: Only 3 credits of WMST 400 or 401 may be applied toward the women and gender studies interdisciplinary minor. Offered by Women & Gender Studies (p. 591). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Concurrent enrollment in women and gender studies course and approval of advisor and instructor.

Schedule Type: Internship
WMST 402: *Queer Theory.* 3 credits.
Challenges rigid categories and definitions in order to create a space for marginalized voices. Examines the inconsistencies and erasures that often characterize notions of sex, gender, sexuality, and sexual desire. Explores categories that intersect with sexualized identities such as race, ethnicity, class, nationality, location, and age. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

**Schedule Type:** Lecture

WMST 405: *Social Dynamics of Family Violence.* 3 credits.
Through seminar readings, videos, assignments, and class discussions, course explores forms of family violence, including child abuse, elder abuse, and intimate partner, and same-gender couple violence. Includes discussions of intervention, prevention and solutions. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

**Schedule Type:** Seminar

WMST 406: *Gender and Violence in Social Institutions.* 3 credits.
Examines gender-based violence in institutions such as the military, prisons, the Catholic Church, sports, and fraternities that share structural qualities including sex segregation, high rates of violence, and internal systems of justice. Concludes by examining strategies to reduce violence in each institution. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

**Schedule Type:** Seminar

WMST 410: *Feminist Approaches to Social Research.* 3 credits.
Introduction to feminist approaches to social research for advanced undergraduate students. Students learn the techniques for collecting, analyzing, and writing-up research data as they examine many of the central methodological issues and questions raised by feminist scholars undertaking social research. Because an understanding of how to conduct social research is best gained through experience in the social world, this course emphasizes a learning-by-doing approach. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Recommended Prerequisite:** 60 credits, including 9 credits of WMST courses, or permission of instructor.

**Schedule Type:** Lecture

Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** WMST 410 or permission of instructor.

**Schedule Type:** Seminar

WMST 427: *Feminist Political Thought.* 3 credits.
Explores feminist political thought in historical context. Topics include feminist political movements, feminist critiques of political philosophy, and feminist contributions to political theory. Offered by Women & Gender Studies (p. 591). May not be repeated for credit. Equivalent to GOVT 427, PHIL 427.

**Recommended Prerequisite:** GOVT 101, WMST 200, 3 credits of PHIL, or permission of instructor.

**Schedule Type:** Lecture

WMST 450: *Current Topics in Women and Gender Studies.* 1-3 credits.
Studies selected topics central to contemporary women and gender studies. Includes topics such as women and violence, women and international development, women's myth and ritual, LGBTQ topics, the history and politics of sexuality, disability, transnational issues and religion. Offered by Women & Gender Studies (p. 591). May be repeated within the term for a maximum 18 credits.

**Schedule Type:** Seminar

WMST 490: *Independent Study in Women and Gender Studies.* 1-3 credits.
Reading or research on a specific topic related to women and/or gender issues, under the direction of a faculty member. May involve a combination of reading assignments, tutorials, papers, presentations, or off-campus activities. Offered by Women & Gender Studies (p. 591). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** WMST 200 or Permission of Instructor.

**Schedule Type:** Independent Study

### 500 Level Courses

WMST 505: *Social Dynamics of Family Violence.* 3 credits.
Through seminar readings, videos, assignments, and class discussions, course explores forms of family violence, including child abuse, elder abuse, and intimate partner, and same-gender couple violence. Includes discussions of intervention, prevention and solutions. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

WMST 506: *Gender and Violence in Social Institutions.* 3 credits.
Examines gender-based violence in institutions such as the military, prisons, the Catholic Church, sports, and fraternities that share structural qualities including sex segregation, high rates of violence, and internal systems of justice. Concludes by examining strategies to reduce violence in each institution. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

<td></td>
<td></td>
</tr>
<tr>
<td>WMST 610</td>
<td><strong>Feminist Approaches to Social Research.</strong> 3 credits. Provides an introduction to feminist approaches to social research. Students collect, analyze, and write-up research data as they examine many of the central methodological issues and questions raised by feminist scholars. These include feminist critiques of positivism, feminist standpoint theory, social action research models, and feminist engagements with ethical concerns in doing research with human subjects. Emphasizes a learning-by-doing approach to prepare students to conduct research. Offered by Women &amp; Gender Studies (p. 591). May not be repeated for credit.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>WMST 611</td>
<td><strong>Feminist Research Practice.</strong> 3 credits. Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research. Offered by Women &amp; Gender Studies (p. 591). May not be repeated for credit.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>WMST 630</td>
<td><strong>Feminist Theories across the Disciplines.</strong> 3 credits. Multidisciplinary course examines the central issues of feminist theory and explores the various strategies of feminist theorists. Analyzes the ways in which feminist theories have challenged established disciplinary boundaries and contested the traditional assumptions of the humanities, the social sciences, and the sciences. Offered by Women &amp; Gender Studies (p. 591). May not be repeated for credit.</td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>WMST 640</td>
<td><strong>Women and Global Issues.</strong> 3 credits. Multidisciplinary course explores the complex issues women face in different regions of the world. Addresses women's diverse and shared global concerns and provides students with the tools to analyze and understand women in a global context. Offered by Women &amp; Gender Studies (p. 591). May not be repeated for credit.</td>

### Registration Restrictions

- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.
- **WMST 610:** Recommended Prerequisite: 3 credits of 600-level WMST courses, or permission of instructor.
- **WMST 640:** Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.
- **WMST 650:** Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.
- **WMST 660:** Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.
- **WMST 670:** Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.
- **WMST 680:** Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.
- **WMST 690:** Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.
Studies (p. 591). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** Admission to graduate program in woman's studies and permission of director.

**Registration Restrictions:**

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Research

**WMST 695:** *Internship.* 3 credits.

Community or campus-based service or experiential learning related to women's or gender issues. Students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 15 graduate credits in Interdisciplinary Studies, including 9 credits in Women and Gender Studies or permission of instructor.

**Registration Restrictions:**

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Internship

**WMST 699:** *Capstone Portfolio.* 0 credits.

Prior to graduation and in consultation with their advisor, students will reflect on and synthesize their work in the women and gender studies certificate program by selecting three items taken from their work in the program and discussing these items in a 7-10 page essay. Work selected may include course papers, videos of their performances, exhibit photos, music recordings, and other items as agreed upon by student and advisor. Offered by Women & Gender Studies (p. 591). May not be repeated for credit.

**Recommended Prerequisite:** Students must have completed their course work for women and gender studies certificate or be in the last semester of their course work.

**Registration Restrictions:**

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.
