Concentration in Higher Education (HEDU)
The concentration in higher education is intended for students who want to teach history at community college. It includes coursework in both history and education, including a course on college teaching. Students are required to take at least one history course in each of three areas (U.S., European, and world history), and they are encouraged to take two courses in each area to prepare them to teach the U.S., western civilization, and world history survey courses most commonly offered at the community college level.

HIST 610  The Study and Writing of History ^1

Total Credits

Graduate Education
Select four courses from the following: ^3

HE 602  College Teaching
HE 685  Practicum
Six credits of HE electives

Total Credits

Concentration in Teaching (HS4)
This concentration offers students interested in a career in secondary education the option to devote part of their History MA to graduate coursework that can be applied toward the requirements for licensure in the Commonwealth of Virginia. Students who have an interest in obtaining licensure to teach should meet with a pre-Education advisor in the College Of Education and Human Development at the beginning of their program to create a plan for completion of the required content-coursework prerequisites (Endorsements). You can view information here: https://cehd.gmu.edu/endorse/ or contact the Pre-Education Advising Coordinator at endorse@gmu.edu. Students seeking licensure must also enroll in the Secondary Education Licensure Graduate Certificate program (E1-CERG-SELC), a state-approved educator preparation program. Upon completion of the discipline-specific content competencies coursework; the MA in History, concentration in teaching; and the Secondary Education Licensure Graduate Certificate, students will be eligible for recommendation for an initial teaching license in Secondary Education History and Social Science.

Required Course
HIST 610  The Study and Writing of History ^1

Total Credits

^1 Must be taken within the first 9 credits.

Reserve Graduate Credit
Students may take up to 6 additional credits of HIST courses at the 500-level or 600-level as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Accelerated Master's

History, BA/History, Accelerated MA
Overview
Highly-qualified Mason undergraduates may apply to the accelerated master's degree program and obtain both a BA (p. 394) and a MA in history (p. 406) after satisfactory completion of 144 credits. The BA (p. 394) and MA (p. 406) earned separately require 120 and 30 credits respectively. If accepted into the program, they must have completed 90 credits including HIST 300 Introduction to Historical Method (Mason Core) (p. 135) with a minimum grade of B+ before they can enter the program.

Interested students should contact the Director of Undergraduate Programs for details about the application process.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in history, see Application Requirements and Deadlines (http://historyarthistory.gmu.edu/programs/la-ma-acel-hist/application) on the departmental web site.

Accelerated Option Requirements
Applicants accepted to the accelerated MA program must have completed 90 credits including HIST 300 Introduction to Historical Method (Mason Core) (p. 135) with a minimum grade of B+ as a condition to entry into the program.

While undergraduate students, accelerated master's students complete two graduate courses (HIST 610 The Study and Writing of History and one additional 3 credit HIST course at the 500-level or 600-level), as indicated on their Accelerated Master's Program Application, with a minimum grade of 3.00 in each course. These credits cannot replace HIST 499 RS: Senior Seminar in History (Mason Core) (p. 135). Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework and earn a B or better (3.00 or higher) in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional credits of HIST courses at the 500-level or 600-level as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

History, PhD
Banner Code: LA-PHD-HIST

Academic Advising
B359 Robinson Hall
Fairfax Campus
Website: historyarthistory.gmu.edu/programs/la-phd-hist

The PhD prepares students for careers in college teaching, digital media, publishing, educational administration, public history, and historical research. Students gain expertise in conventional historical methods and web-based technologies. Major fields include U.S. history, European history, and world history; minor fields are chosen by the student and may include such areas as public history, constitutional studies, and new media and information technology.

Depending on career goals and interests, students can also focus their degrees in one of four areas of emphases.

Emphases Areas
College and University Teaching
This emphasis is for students who are seeking a career in teaching or research at the community college, college, or university level.

New Media and Information Technology
Although all students in the program take some courses in new media, students in this emphasis seek careers specifically in new media (publishing, education, or a college or university history department where they would serve as the department's lead person in new media
Public and Applied History
This emphasis prepares students for work in applied areas of history, such as museums, archives, federal government work, preservation, and editing, or helps students already working in those areas to advance. In some cases, students will do advanced course work in their field of work; in other cases, they will acquire knowledge or skills that will foster their professional work (such as nonprofit management).

Professional Development
This emphasis responds to the needs of students who have already launched a career and want a doctoral degree to further career goals or fulfill personal intellectual goals. Candidates who need flexible scheduling will be advised on a case-by-case basis.

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For specific information see Application Requirements and Deadlines (http://historyarthistory.gmu.edu/programs/application/LA-PHD-HIST) on the departmental web site.

Policies
For policies governing all graduate degrees, see Graduate Policies (p. 87).

Reduction of Credit
For students entering the doctoral program with a master’s degree, the number of required credits may be reduced by a maximum of 30 credits, subject to approval of the program faculty and the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Requirements

Degree Requirements
Total credits: 72

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 413) tab.

Students will be terminated from the program if they receive more than one unsatisfactory grade (C or F). No more than 6 credits earned through study abroad courses may be applied towards the degree.

Select 15 credits of courses in one of three possible fields:

- U.S. History
- European History
- Comparative World History

Total Credits 15

Minor Fields
Select two minor fields and take 9 credits in each ¹

Total Credits 18

¹ Minor fields may include areas such as public history, constitutional studies, and new media and information technology.

Doctoral Research Skills
Students must demonstrate basic competency in computers. Students whose research requires knowledge of a foreign language must also demonstrate a reading knowledge of one foreign language. The department sets specific research skills requirements for students, depending on their field of study.

Comprehensive Exam
Students need to pass a comprehensive exam that consists of a written field exam for each minor field and an oral exam for the major field.

Advancement to Candidacy
To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully complete and pass an oral comprehensive exam in a major field and written examinations in two minor fields. In addition, students must have a dissertation committee appointed by the Dean’s Office as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can be advanced to candidacy.

Dissertation
Once enrolled in HIST 998 Doctoral Dissertation Proposal, students in this degree program must maintain continuous registration in HIST 998 Doctoral Dissertation Proposal or HIST 999 Doctoral Dissertation Research each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in HIST 999 Doctoral Dissertation Research, students must follow the university’s continuous registration policy as specified in AP.6.10.6 Dissertation Research (p. 93). Students who defend in the summer must be registered for at least 1 credit of HIST 999 Doctoral Dissertation Research.

Students who complete less than 6 credits of HIST 810 History Doctoral Colloquium must take additional credits of HIST 998 Doctoral
Dissertation Proposal or HIST 999 Doctoral Dissertation Research to reach the 72 credits required for the program.

Students may apply to this degree a minimum of 3 and a maximum of 6 credits of HIST 998 Doctoral Dissertation Proposal and a minimum of 15 credits of HIST 999 Doctoral Dissertation Research.

Total Credits 18

**Department of Modern and Classical Languages**

336 Aquia Building
Fairfax Campus

Phone: 703-993-1220
Website: mcl.gmu.edu

**Undergraduate Programs**

The department offers a BA in foreign languages with concentrations in Arabic, Chinese, French, and Spanish.

**Concentrations**

The concentration in Arabic has an emphasis on developing strong language skills, including literacy and oral communication, along with an in-depth understanding of modern Arabic culture and society. Students concentrating in Arabic are expected to gain fluency in Modern Standard Arabic and a working knowledge of at least one Arabic dialect. Additionally, students will graduate with a strong background in Arab intellectual history, literature, and culture.

The concentration in Chinese enables students to become proficient in listening, speaking, reading, and writing Chinese while learning about Chinese literature, history, traditions, and culture. Students in this program are encouraged to study abroad or to do an internship. Students in Chinese are also encouraged to complete a double major.

The concentration in French is designed for students who want to increase their proficiency in French language and culture while learning about the history, politics, and economics of the many French-speaking countries around the world. Students can take a study abroad course or spend a summer in Paris or Quebec, earning credit towards their degree. They can participate in the many French-speaking activities sponsored by Mason’s French Club.

The concentration in Spanish enables students to become proficient in speaking, reading, and writing Spanish while learning about Latin American, Latino and Spanish languages practices, literatures, histories, and cultures. Students are encouraged to do an internship or service learning project, where they can draw on their knowledge of Spanish and gain valuable work experience while working for social change in their communities. Students have many opportunities to study Spanish abroad for as long as a week and as long as a semester and at the same time, earn credit toward their degree.

All concentrations prepare students for teaching careers at the secondary school level, graduate study in languages, and research and professional work in government and private enterprise.

Faculty in the department participate in the interdisciplinary Russian and Eurasian Studies, BA and the Latin American Studies, BA.

**Foreign Languages with a Second Major**

Majors in foreign language are encouraged to complete a second major in another field. Students who want to pursue a second undergraduate major should plan a program of study in consultation with advisors from both degrees and be familiar with the relevant policies on more than one major. See the Academic Policies section of the catalog.

**Minors**

Language majors are encouraged to complete a minor in another field.

The department offers minors in Arabic, Chinese, French, German, Latin, Russian, Spanish, Classical Studies, Italian Studies, Japanese Studies, and Korean Studies. They are available to students in any major at Mason. Except for Classical Studies, all the minors have as a prerequisite the completion of 250 (or equivalent) in the relevant language.

**Bachelor’s/Accelerated Master’s Programs**

The department offers highly qualified undergraduates concentrating in Spanish the opportunity to apply to an accelerated master’s degree program in Foreign Languages with a concentration in Spanish or a concentration in Spanish/bilingual-multicultural education. If accepted, students will be able to earn an undergraduate degree and a graduate degree in Foreign Languages after satisfactory completion of 144-150 credits, sometimes within five years.

**Graduate Programs**

The department offers a distinctive interdisciplinary master’s degree in foreign languages designed to meet the needs and interests of prospective and practicing teachers and other professionals. It also prepares students for doctoral study at other institutions. Within the master’s degree, students choose one of four concentrations: French, Spanish, French and Spanish, and Spanish/bilingual-multicultural education.

**Funding**

The department has a limited number of teaching assistantships for highly qualified graduate students with excellent language preparation. Students develop valuable language teaching experience by working with faculty experts in language teaching pedagogy.

**Faculty**

**Department Faculty**

**Professors**

Berroa, Winkler

**Associate Professors**

Carreño-Rodríguez, Christensen, Leeman, Levine, Markx, Olson, Rabin, Roman-Mendoza, Vivancos-Pérez, Zhang

Arabic Minor
Banner Code: ARBC

Academic Advising
336 Aquia Building
Fairfax Campus
Email: language@gmu.edu
Website: mcl.gmu.edu/programs/LA-MINOR-MCL-ARAB

The minor has an emphasis on developing strong language skills: oral communication and the reading of texts. Students are also introduced to important works of Arabic literature and culture. A minor in Arabic can easily and effectively be combined with majors in other disciplines. It is especially valuable in combination with global affairs, international relations, security, journalism, philosophy, and religion.

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor. Students must complete 18 credits beyond the intermediate proficiency level with a minimum grade of 2.00 in each course. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Classical Studies Minor

Banner Code: CLA

Academic Advising

336 Aquia Building
Fairfax Campus

Email: language@gmu.edu
Website: mcl.gmu.edu/programs/LA-MINOR-MCL-CLA/requirements

The minor is designed for students who wish to become familiar with Classical cultures and broaden their knowledge of the foundations of Western civilization. It is especially relevant to students who are studying other areas of the humanities such as English, languages, comparative literature, history, art history, philosophy, or religious studies. The requirements of the minor provide flexibility so students can choose courses that are relevant to their primary interests.
Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum grade of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Foreign Languages, BA

Banner Code: LA-BA-FRLN

336 Aquia Building
Fairfax Campus

Email: language@gmu.edu
Website: mcl.gmu.edu/programs/LA-BA-FRLN

The BA in Foreign Languages prepares students for teaching, graduate study in languages and cultures, research, professional work, as well as service in government, nonprofits, or business. Our graduates are particularly valued for their multilingual and cross-cultural knowledge. Majors are encouraged to complete a minor or a second major in another field. Concentrations are offered in Arabic, Chinese, French and Spanish. Minors are offered in Arabic, Chinese, Classical Studies, French, German Studies, Italian Studies, Japanese Studies, Latin, Russian and Spanish.

Double majors in foreign language and another subject should plan a program of study with advisors from both disciplines and follow the steps outlined in AP.5.3.3 Second Bachelor’s Degree (p. 86).

Admissions & Policies

Policies

Students pursuing this degree must complete 30-33 credits within the major, with a minimum GPA of 2.00.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 417) tab.

Concentrations in the Major

In addition to the other college and university requirements for a degree, provided in the tabs below, students pursuing this degree complete a 30-33 credit concentration chosen from the following:

Concentration in Arabic (ARBC)

The concentration in Arabic has an emphasis on developing strong language skills, including literacy and oral communication, along with an in-depth understanding of modern Arabic culture and society. Students concentrating in Arabic are expected to gain fluency in Modern Standard Arabic and a working knowledge of at least one Arabic dialect.
Additionally, students will graduate with a strong background in Arab intellectual history, literature, and culture.

Students pursuing the concentration in Arabic must complete a minimum of 30 credits in Arabic at the 300 level and above, each with a minimum grade of 2.00. Only two courses (6 credits) taught in English may be applied to the major. Students are highly encouraged to participate in study abroad.

A minor in Arabic is also offered, which can easily and effectively be combined with majors in other disciplines, such as global affairs, international relations, government, journalism, philosophy, and religion.

Core Courses
Select eight courses from the following: 24

ARAB 330 Reading and Conversation I
ARAB 331 Reading and Conversation II
ARAB 350 Media Arabic I (Written Media)
ARAB 351 Media Arabic II (Spoken Media) (Mason Core) (p. 135)
ARAB 375 Study Abroad - Arab World
ARAB 380 Arabic Dialects
ARAB 390 Translation Methods: Arabic to English
ARAB 420 Survey of Arabic Literature
ARAB 430 Advanced Arabic Grammar
ARAB 440 Topics in Arabic Religious Thought and Texts (Mason Core) (p. 135)
ARAB 498 Independent Study

Electives
Select two courses from the following: 6

ARAB 325 Major Arab Writers/Stories (Mason Core) (p. 135)
ARAB 360 Topics in Arabic Cultural Production
ANTH (p. 1119) 1
ARTH (p. 1143) 1
ENGH (p. 1476) 1
GOVT (p. 1588) 1
HIST (p. 1628) 1
PHIL (p. 1818) 1
RELI (p. 1904) 1
SOCI (p. 1923) 1

Total Credits 30

1 Requires approval of advisor and the director; relevant courses only.

Concentration in Chinese (CHIN)
The concentration in Chinese prepares students for research and professional work in government and private enterprise, teaching careers at the secondary school level, and graduate study in Chinese. Language majors with the Chinese concentration are encouraged to complete a minor or, if possible, a second major in another field.

Students pursuing the concentration in Chinese must complete a minimum of 30 credits in Chinese at the 300 level and above, each with a minimum grade of 2.00. Students are expected to complete a balanced program that includes courses in language, culture and civilization, and literature. Only two courses (6 credits) taught in English may be applied to the major. Students are highly encouraged to participate in study abroad.

A minor in Chinese (p. 415) is also offered, which can easily and effectively be combined with majors in other disciplines, such as global affairs, international relations, government, journalism, philosophy, and religion.

Core Courses
Select eight courses from the following: 24

CHIN 300 Reading Skills Development
CHIN 301 Advanced Grammar and Syntax
CHIN 305 Chinese for the Business World
CHIN 318 Introduction to Classical Chinese (Mason Core) (p. 135)
CHIN 355 Readings in Chinese Poetry and Poetics (Mason Core) (p. 135)
CHIN 365 Readings in Chinese Fiction after Mao
CHIN 475 Chinese Popular Culture (Mason Core) (p. 135)
CHIN 480 Fourth-Year Chinese I
CHIN 481 Fourth-Year Chinese II

Electives
Select two courses from the following: 6

CHIN 310 Survey of Chinese Literature (Mason Core) (p. 135)
CHIN 311 Modern Chinese Literature in Translation (Mason Core) (p. 135)
CHIN 320 Contemporary Chinese Film
CHIN 325 Major Chinese Writers (Mason Core) (p. 135)
CHIN 328 Asian American Women Writers (Mason Core) (p. 135)
CHIN 470 Special Topics in Chinese Studies
CHIN 490 Internship in Chinese Studies
ANTH (p. 1119) 1
ARTH (p. 1143) 1
GOVT (p. 1588) 1
HIST (p. 1628) 1
PHIL (p. 1818) 1
RELI (p. 1904) 1
SOCI (p. 1923) 1

Total Credits 30

1 Requires approval of advisor and the director; relevant courses only.

Concentration in French (FRN)
Students pursuing the concentration in French must complete a minimum of 33 credits in French at the 300 level and above, each with a minimum grade of 2.00. No more than one course (3 credits) conducted in English may be used to fulfill requirements for the concentration. Students are expected to complete a balanced program that includes courses in language, culture and civilization, and literature.

Advanced Language Course
FREN 309 Reading and Writing Skills Development 6

Literature and Civilization
FREN 370  French Civilization, Culture, and Literature: Ancient Gaul to 1789  3
FREN 371  French Civilization, Culture, and Literature: 1789 to the Present  3

FREN at the 300-level or Above
Select three courses in FREN at the 300-level or above (p. 1546)  9

FREN at the 400-level or above
Select four courses in FREN at the 400-level or above (p. 1546)  12

Total Credits  33

Concentration in Spanish (SPN)
With more than 400 million people speaking Spanish worldwide - nearly 40 million in the US - and the growing influence of Hispanic cultures around the globe, knowledge of Spanish and the Spanish-speaking world has never been more important. The Spanish courses and degree programs provide students with the opportunity for language development and interdisciplinary study of the cultures, film, history, linguistics and literature of the 20 Spanish-speaking countries, including the United States. Students can also receive Spanish credit through participation study-abroad programs.

Students pursuing the concentration in Spanish must complete a minimum of 33 credits in Spanish courses at the 300-level and above, each with a minimum grade of 2.00. Only one course taught in English (3 credits) may be applied toward the concentration.

Core Courses
Select one or two courses from the following:  6
SPAN 305  Spanish in Context I  
& SPAN 306  Spanish in Context II
SPAN 309  Intensive Spanish in Context
SPAN 315  Spanish for Heritage Speakers (and one additional 3-credit SPAN course)

Additional Required Courses
SPAN 370  Spanish Writing and Stylistics  3
SPAN 385  Introduction to Spanish Linguistics  3
SPAN 390  Introduction to Hispanic Literary Analysis  3

Spanish at the 400 Level
Select four courses in Spanish at the 400 level (p. 1939)  12

Electives
Select two courses from the following:  6
SPAN courses at the 300- or 400- level (p. 1939)
FRLN 385  Multilingualism, Identity, and Power (Mason Core) (p. 135)

Total Credits  33

Writing-Intensive Requirement
The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in foreign language may fulfill this requirement by successfully completing CHIN 480 Fourth-Year Chinese I, FREN 309 Reading and Writing Skills Development, or SPAN 370 Spanish Writing and Stylistics.

Upper Level Requirement
Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree
In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies
Code  Title  Credits
Select 3 credits from the following:  3
PHIL (p. 1818)  1
RELI (p. 1904)

1 Note that the following courses may not be used to fulfill this requirement:
• PHIL 323 Classical Western Political Theory
• PHIL 324 Modern Western Political Theory
• PHIL 327 Contemporary Western Political Theory
• PHIL 393 Humanities College to Career
• PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

Social and Behavioral Sciences
Code  Title  Credits
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement)  3
ANTH (p. 1119)
CRIM (p. 1372)
ECON (p. 1413)
GOVT (p. 1588)
HIST (p. 1628)  2
LING (p. 1694)
PSYC (p. 1844)
SOCI (p. 1923)

Or choose from the following GGS courses:
GGS 101  Major World Regions (Mason Core) (p. 135)
GGS 103  Human Geography (Mason Core) (p. 135)
GGS 110  Introduction to Geoinformation Technologies
GGS 301  Political Geography
GGS 303  Geography of Resource Conservation (Mason Core) (p. 135)
GGS 304  Population Geography (Mason Core) (p. 135)
GGS 305  Economic Geography
GGS 306  Urban Geography
Foreign Languages, BA

Accelerated Master's Program Application with a minimum grade of 3.00 in Spanish 502 Hispanic Sociolinguistics) as indicated on their Bachelor's/Accelerated Master's Transition Form and are admitted to graduate studies. Students must maintain a minimum cumulative GPA of 3.25 in all courses in each course. Once admitted to the accelerated master's pathway, students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Additional Elective Courses
Any remaining credits may be completed with elective courses to bring the degree total to 120.

Accelerated Master's

The accelerated master's programs in the list below specify the BA in foreign languages with a Spanish concentration as a feeder degree for their programs. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of master's degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Foreign Languages, BA (Spanish Concentration)/Foreign Languages, Accelerated MA (Spanish Concentration)

Overview
Highly-qualified Mason undergraduates may apply to the accelerated master's degree. If accepted, students may earn both a bachelor's degree (p. 417) and a master's degree in foreign languages with a concentration in Spanish (p. 423) after satisfactory completion of 144 credits.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Foreign Languages (Spanish concentration) (p. 423), see Application Requirements on the departmental website (http://mcl.gmu.edu).

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete two graduate courses (SPAN 510 Methods of Literary and Cultural Studies and SPAN 502 Hispanic Sociolinguistics) as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Foreign Languages, BA (Spanish Concentration)/Foreign Languages, Accelerated MA (Spanish/Bilingual-Multicultural Education Concentration)

Overview
Highly-qualified Mason undergraduates may apply to the accelerated master's degree. If accepted, students may earn both a bachelor's degree in foreign languages with a concentration in Spanish (p. 417) and a master's degree in foreign languages with a concentration in Spanish/Bilingual-Multicultural Education (p. 423) after satisfactory completion of 150 credits.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Foreign Languages (Spanish/Bilingual Multicultural Education concentration) (p. 423), see Application Requirements on the departmental website (http://mcl.gmu.edu).

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete two graduate courses (SPAN 510 Methods of Literary and Cultural Studies and SPAN 502 Hispanic Sociolinguistics) as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.
Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Foreign Languages, MA

Banner Code: LA-MA-FRLN

Academic Advising
336 Aquia Building
Fairfax Campus
Email: language@gmu.edu
Website: mcl.gmu.edu/programs/LA-MA-FRLN-FRN

The foreign languages MA aims to enhance the linguistic and cultural proficiency of students through courses in sociolinguistics and second language acquisition, film studies, cultural studies and literary studies. Students may select from four concentrations: French, Spanish, French and Spanish, and Spanish/bilingual-multicultural education. Located only miles from Washington, D.C., students take advantage of the program’s existing relationships with schools, embassies, federal agencies, and international businesses—providing opportunity for internships and other educational experiences outside the classroom.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For specific information, see Application Requirements and Deadlines (http://mcl.gmu.edu/programs/application/LA-MA-FRLN) on the departmental website.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Requirements

Degree Requirements

Total credits: 30-42

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Each concentration has a different number of required credits. In all four concentrations, 6 of the total credits may be earned with a thesis. Regardless of the concentration selected, all students must meet the core and distribution requirements given below and pass a comprehensive exam or write a thesis.

Concentration in French (FRN)

18 credits must be in courses with the subject code FREN.

Literature

Select two courses in literature chosen in consultation with an advisor and cover two different literary periods or Francophone regions.

French Language and Linguistics

Select two courses in French language and linguistics chosen in consultation with an advisor.

French

Select two additional courses in French literature or language in consultation with an advisor.

Electives

Select four electives in consultation with an advisor. A maximum of 6 credits may be used for directed reading and research or thesis.

FREN 798 Directed Reading and Thesis Research
FREN 799 Thesis

Total Credits 30

Concentration in Spanish (SPN)

Required Core Courses

SPAN 502 Hispanic Sociolinguistics 3
SPAN 510 Methods of Literary and Cultural Studies 3

Latino, Latin American, or Spanish cultures, literatures, or linguistics

Select any five courses with the SPAN subject code. 15

Electives

Select three electives in consultation with an advisor. 2

SPAN 798 Directed Reading and Research
SPAN 799 Thesis

Total Credits 30

1 Students must take the core courses within their first 15 credits.

2 They can include additional courses in Latin American or Spanish culture, linguistics, or literature, courses with the subject code FRLN, up to 6 credits of courses in related fields, and up to 6 credits of thesis research and writing. Students who do not complete their thesis during one semester of SPAN 799 will need to register for additional credits. Independent studies courses are not available for graduate students of Spanish.

Concentration in Spanish and French (SF)

French

Select six required courses (not electives) specified under the concentration in French.

Latino, Latin American, or Spanish cultures, literatures, or linguistics

Take the two required core courses specified under the concentration in Spanish, plus four electives with the SPAN subject code.

Electives
Select two electives with the FREN, FRLN, and SPAN subject codes. 1

**Accelerated Master's**

**Foreign Languages, BA (Spanish Concentration)/Foreign Languages, Accelerated MA (Spanish Concentration)**

**Overview**

Highly-qualified Mason undergraduates may apply to the accelerated master's degree. If accepted, students may earn both a bachelor's degree (p. 417) and a master's degree in foreign languages with a concentration in Spanish after satisfactory completion of 144 credits.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Foreign Languages (Spanish concentration) (p. 423), see Application Requirements on the departmental website (http://mcl.gmu.edu).

**Accelerated Option Requirements**

While undergraduate students, accelerated master's students complete two graduate courses (SPAN 510 Methods of Literary and Cultural Studies and SPAN 502 Hispanic Sociolinguistics) as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**Foreign Languages, BA (Spanish Concentration)/Foreign Languages, Accelerated MA (Spanish/Bilingual-Multicultural Education Concentration)**

**Overview**

Highly-qualified Mason undergraduates may apply to the accelerated master's degree. If accepted, students may earn both a bachelor's degree in foreign languages with a concentration in Spanish (p. 417) and a master's degree in foreign languages with a concentration in Spanish/Bilingual-Multicultural Education (p. 423) after satisfactory completion of 150 credits.
Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Foreign Languages (Spanish/Bilingual Multicultural Education concentration) (p. 423), see Application Requirements on the departmental website (http://mcl.gmu.edu).

Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete two graduate courses (SPAN 510 Methods of Literary and Cultural Studies and SPAN 502 Hispanic Sociolinguistics) as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/ Accelerated Master’s Transition Form and are admitted to graduate status.

Students choose electives in consultation with an advisor. These courses must be conducted in French.

German Studies Minor

Banner Code: GRMS

Academic Advising

336 Aquia Building
Fairfax Campus
Website: mcl.gmu.edu/programs/LA-MINOR-MCL-GRM/

The emphasis of the minor is on developing strong language skills: oral communication and the reading of texts. Students are introduced to important works of German literature and to the culture of German-speaking countries.

A German Studies minor can easily and effectively be combined with majors in other disciplines. It is especially valuable in combination with business, computer science, international studies, history, music, philosophy, or another language.
**Admissions & Policies**

**Policies**

Eight credits of coursework must be unique to the minor. Students pursuing this minor must complete 18 credits beyond GERM 250 Gateway to Advanced German (or equivalent) with a minimum grade of 2.00 in each course. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

A maximum of two courses (6 credits) conducted in English can be applied to the minor.

**Requirements**

**Minor Requirements**

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 426) tab.

**Core Courses**

**Language Courses**

Select three courses from the following: 9

- GERM 310 Conversation and Composition
- GERM 316 German for the Business World
- GERM 318 Translation of Texts
- GERM 370 German Through the Arts
- GERM 415 Advanced Grammar and Style
- GERM 418 Advanced Composition

Total Credits 9

**Literature and Culture Courses**

Select two courses from the following: 6

- GERM 301 Culture and Civilization
- GERM 325 Major Writers (Mason Core) (p. 135)
- GERM 340 Survey of German Literature
- GERM 355 Readings in Poetry (Topic Varies)
- GERM 365 Readings in Narrative Prose
- GERM 375 Readings in Drama
- GERM 442 The Age of Goethe
- GERM 444 The Literature of Romanticism
- GERM 450 Modern Literature: 1880-1925
- GERM 451 Modern Literature: 1925 to the Present
- GERM 480 Special Topics

- ITAL 300- or 400-Level Course (p. 1575)
- HIST 306 The Reformation
- HIST 308 Nineteenth-Century Europe
- HIST 309 Europe in Crisis: 1914-1948
- HIST 314 History of Germany
- PHIL 325 Karl Marx’s Social and Political Thought
- PHIL 335 Nineteenth-Century Philosophy
- PHIL 340 Hermeneutic Philosophy
- MUSI 332 Music History in Society II
- MUSI 338 Music History in Society A

Total Credits 3

1. The courses listed may apply to the minor with prior written approval of the advisor.

**Italian Studies Minor**

**Banner Code:** ITLN

**Academic Advising**

336 Aquia Building
Fairfax Campus

Website: mcl.gmu.edu/programs/la-minor-mcl-itln

The minor enables students to advance their Italian language skills and to study Italian culture, history, and literature from an interdisciplinary perspective.

**Admissions & Policies**

**Policies**

Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

**Requirements**

**Minor Requirements**

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 426) tab.

Students complete coursework with a language emphasis or a history and culture emphasis. Special topics courses, such as HIST 388 Topics in European History, GOVT 520 Political Theory, and RELI 235 Religion and Literature (Mason Core) (p. 135), when relevant, may be applied to the minor with prior written approval of the coordinator.

**Language Emphasis**

Select five language courses from the following repeatable courses: 15

- ITAL 330 Advanced Italian: Language and Culture I
- ITAL 331 Advanced Italian Language and Culture II
- ITAL 340 Italian through Arts
- ITAL 360 Southern Italy
  or ITAL 420 Global and Local Italy

Select one course in Italian literature and film in translation from the following: 3

- ITAL 320 Topics in Italian Film and Literature (Mason Core) (p. 135)
Japanese Studies Minor
Banner Code: JPNS

Academic Advising
336 Aquia Building
Fairfax Campus
Website: mcl.gmu.edu/programs/LA-MINOR-MCL-JPNS/requirements

The minor enables students to advance their Japanese language skills and develop a sound understanding of Japanese culture and history from a global perspective.

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. Special topics courses, when relevant, may be applied to the minor with prior written approval of the director. Students who wish to declare this minor need to obtain the signature of the director.

For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Japanese Language
Select four courses from the following:

JAPA 330  Advanced Reading and Speaking I
JAPA 331  Advanced Reading and Speaking II
JAPA 350  Readings in Japanese Culture
JAPA 440  Integrated Study of Japanese Language and Society I
JAPA 441  Integrated Study of Japanese Language and Society II

Japanese and Japan-Related History
Select one course from the following:

HIST 251  Survey of East Asian History (Mason Core) (p. 135)
HIST 252  Survey of East Asian History (Mason Core) (p. 135)
HIST 356  Modern Japan (Mason Core) (p. 135)
HIST 357  Postwar Japan (Mason Core) (p. 135)
ARTH 385  Arts of Japan (Mason Core) (p. 135)

Korean Studies Minor

Banner Code: KRNS

Academic Advising
336 Aquia Building
Fairfax Campus
Website: mcl.gmu.edu/

The minor in Korean studies focuses on the acquisition of Korean linguistic and cultural knowledge from various language and interdisciplinary courses.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Latin Minor

Banner Code: LATN

Academic Advising
336 Aquia Building
Fairfax Campus
Website: mcl.gmu.edu/programs/LA-MINOR-MCL-LATN/requirements

The minor offers students the opportunity to develop and refine their knowledge of the Latin language by reading classical Latin literature. Students gain an understanding and appreciation of the literature, culture, and intellectual achievements of Roman antiquity that have contributed to the development of Western civilization.

A Latin minor complements majors in literature, language, history, philosophy, and the arts, all of which find their roots in classical antiquity. Majors in the natural and the social sciences are also strengthened by the historical perspective and the advanced training in language and terminology afforded by the minor in Latin.
Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor. Students must complete 18 credits in Latin beyond the intermediate proficiency level with a minimum grade of 2.00 in each course. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 429) tab.

Coursework
Students complete 18 credits of the following courses which vary in content and may be repeated for credit when content is different.

Department of Philosophy
Phone: 703-993-1290
Website: philosophy.gmu.edu

Undergraduate Programs
The department offers a bachelor’s degree in philosophy, which covers the major issues and areas in philosophy. It is intended to serve the needs of students who wish to pursue graduate studies in philosophy or emphasize philosophy while acquiring a broad liberal arts education. Majors in philosophy take courses in a variety of philosophical traditions and study logic, ethics, and social and political philosophy. With the skills of critical thinking, clear writing, and analytical reasoning that are the hallmark of philosophy majors, students are well-prepared for a wide range of careers including law, government service, or graduate study.

The philosophy program can complement other interests of students when they complete a second major in another field. Students who plan to pursue more than one undergraduate major should work out a program of study in consultation with advisors from both majors and be familiar with the relevant policies for completing more than one major. See Undergraduate Policies.

In addition to the general degree in philosophy, students can choose a concentration in philosophy and law. This concentration offers philosophy majors the opportunity to focus their study of philosophy in a way that prepares them for the study of the law.

Minors
The department offers a minor in philosophy and a minor in philosophy and law. These minors are available to students in any major. The department, in cooperation with the Schar School of Policy and Government, coordinates the interdisciplinary minor in political philosophy.

Bachelor’s/Accelerated Master’s Program
The department offers highly qualified undergraduate majors in philosophy the opportunity to apply to an accelerated master’s degree program in philosophy. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 145 credits, generally within five years.

Graduate Programs
The department offers a master’s degree in traditional and contemporary philosophy as well as specialized concentrations in philosophy and cultural theory and ethics and public affairs. The degree is designed for students who want to further their professional goals or foster their intellectual development. It provides a solid preparation for advanced work in philosophy or other fields such as women and gender studies, cultural studies, or law. The degree provides grounding in the history of philosophy, ethics, metaphysics, epistemology, contemporary continental thought, contemporary analytic philosophy, and philosophy of science.

The focus on traditional and contemporary philosophy of the master’s degree program provides students with a historical and pluralistic approach to philosophical questions. The concentration in ethics and public affairs gives students the opportunity to explore the ethical and philosophical issues that arise in such fields of study and work as business, health care, scientific research, biomedical technology, and public policy. The concentration in philosophy and cultural theory provides students with a distinctive and important theoretical foundation for doctoral work in cultural studies.

Students are encouraged to pursue opportunities beyond the classroom such as study abroad, professional internships, and research with faculty members.

Philosophy Minor

Banner Code: PHIL

Academic Advising

B465 Robinson Hall
Fairfax Campus

Website: http://philosophy.gmu.edu/programs/la-minor-phil-phil

Students can take a general minor or one organized around specific emphases, each of which stresses a different aspect of philosophy. The emphasis in the history of philosophy is particularly useful to students in the humanities, especially those who wish to pursue graduate study. The emphasis in reality, knowledge, and science is especially beneficial for students majoring in the human and natural sciences. The emphasis in social and political philosophy is recommended for students who plan to pursue a career in law or politics.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. No course may be used to fulfill more than one requirement.

For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 431) tab.

Core Courses

Logic

PHIL 173 Logic and Critical Thinking 3
or PHIL 376 Symbolic Logic 3

Total Credits 6

History of Philosophy

PHIL 301 History of Western Philosophy: Ancient 3
PHIL 303 History of Western Philosophy: Modern 3

Total Credits 6

Electives

Select three electives in philosophy. At least 6 of the elective credits must be at the 300 level or above. (p. 1818)

Philosophy and Law Minor

Banner Code: PHLW

Academic Advising

B465 Robinson Hall
Fairfax Campus

Website: philosophy.gmu.edu/programs/la-minor-phil-phil

This minor offers students a course of study that emphasizes the philosophical analysis of legal issues. It acquaints students with the rich
tradition of philosophical argument dealing with the justification of law, its relation to moral theory, the justifications for punishment, and the concepts of justice, rights, liberty, and legal responsibility. In addition, an education in philosophy stresses intellectual skills that are important in the study of law.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 432) tab.

Core Courses

PHIL 173 Logic and Critical Thinking 3
PHIL 301 History of Western Philosophy: Ancient 3
PHIL 303 History of Western Philosophy: Modern 3
PHIL 311 Philosophy of Law 3

Total Credits 12

Electives

Select two courses from the following: 1

PHIL 322 Classical Western Political Theory 3
or GOVT 323 Classical Western Political Theory
PHIL 324 Modern Western Political Theory 3
or GOVT 324 Modern Western Political Theory
PHIL 327 Contemporary Western Political Theory 3
or GOVT 327 Contemporary Western Political Theory
GOVT 428 Advanced Democratic Theory 3
GOVT 448 Ethics and International Politics 3

Total Credits 6

1 One elective course may be chosen from other coursework in philosophy with prior written approval of the undergraduate director.

Philosophy, BA

Banner Code: LA-BA-PHIL

B465 Robinson Hall
Fairfax Campus
Website: philosophy.gmu.edu/programs/la-ba-phil

The BA in philosophy examines how philosophers have answered some of the most enduring questions about human existence, while exploring how those answers continue to inform our thinking in the present. Students gain a deeper understanding of philosophy’s relevance to key contemporary issues—such as global warming, social justice and the defense of human rights, or the relationship between science and religion. Students can use this major as preparation for professions such as law or government service, as a pathway to graduate work, or to complement other interests by taking a double major in philosophy and a related field of study.

Admissions & Policies

Policies

Students pursuing this degree must complete at least 33 credits within the major, earning a minimum grade of 2.00 in each course. At least 21 credits must be at the 300 level or above, including at least 3 credits in PHIL 421 Seminar (Mason Core) (p. 135)/PHIL 422 Honors Seminar (Mason Core) (p. 135). If a course counts for the requirement in analytic or continental philosophy, and also for the ethics and political philosophy requirement, then both requirements are fulfilled with that course.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 432) tab.

Core Courses without Concentration

Logic

PHIL 173 Logic and Critical Thinking 3
or PHIL 376 Symbolic Logic 3

History of Philosophy

PHIL 301 History of Western Philosophy: Ancient 3
PHIL 303 History of Western Philosophy: Modern 3

Analytic Tradition

Select one course from the following: 1

PHIL 313 Philosophy of Religion 3
PHIL 332 Twentieth-Century Analytic Philosophy 3
PHIL 333 American Philosophy: Pragmatism 3
PHIL 338 Philosophy, Sex, and Gender 2
PHIL 355 Theories of Ethics 3
PHIL 356 Philosophy of Art 2
PHIL 357 Philosophy of the Social Sciences 2
PHIL 358 Ethics and Economics 3
PHIL 371 Philosophy of Natural Sciences 3
PHIL 373 Theory of Knowledge 3
PHIL 374 Philosophy of Mind 3
PHIL 411 Theories of Decision 3

Continental Tradition

Select one course from the following: 1

PHIL 313 Philosophy of Religion (with departmental approval) 3
PHIL 325 Karl Marx’s Social and Political Thought 3
### Nineteenth-Century Philosophy
- PHIL 335
- Nineteenth-Century Philosophy

### Twentieth-Century Continental Thought: Existentialism
- PHIL 336
- Twentieth-Century Continental Thought: Phenomenology

### Twentieth-Century Continental Thought: Phenomenology
- PHIL 336
- Philosophy, Sex, and Gender

### Hermeneutic Philosophy
- PHIL 336
- Philosophy of Art

### Philosophy of the Social Sciences
- PHIL 336
- Philosophy of the Social Sciences

### Ethics and Social and Political Philosophy

Select one course from the following:  
- PHIL 305: Business Ethics
- PHIL 309: Bioethics (Mason Core) (p. 135)
- PHIL 311: Philosophy of Law
- PHIL 323: Classical Western Political Theory
- PHIL 324: Modern Western Political Theory
- PHIL 325: Karl Marx's Social and Political Thought
- PHIL 327: Contemporary Western Political Theory
- PHIL 338: Philosophy, Sex, and Gender
- PHIL 343: Topics in Environmental Philosophy (Mason Core) (p. 135)
- PHIL 344: Ethical Issues in Global Health
- PHIL 355: Theories of Ethics
- PHIL 358: Ethics and Economics
- PHIL 411: Theories of Decision

Total Credits: 18

1. When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391 Special Topics in Philosophy, PHIL 393 Seminar (Mason Core) (p. 135), or PHIL 425 Independent Study may be used to fulfill this requirement.

2. Only with departmental approval.

### Electives without Concentration

Select five or six electives from any philosophy courses including those listed above that are not used to meet another requirement.  

Total Credits: 15-18

1. If both the analytic or continental philosophy and the ethics and political philosophy requirements are met with the same course, the student will complete six elective courses.

### Optional Concentrations

Students interested in a degree in philosophy with a concentration will complete the coursework for one of the concentrations below.

#### Concentration in Philosophy and Law (PHLW)

The concentration in philosophy and law offers philosophy majors the opportunity to focus their study of philosophy in a way that prepares them for the study of the law.

In addition to the specific courses listed below, other relevant courses may be applied to the requirements for this concentration with prior written approval of the undergraduate director.

#### Logic
- PHIL 173: Logic and Critical Thinking
- PHIL 376: Symbolic Logic

#### History of Philosophy
- PHIL 301: History of Western Philosophy: Ancient
- PHIL 303: History of Western Philosophy: Modern

#### Analytic Tradition

Select one course from the following:  
- PHIL 313: Philosophy of Religion
- PHIL 325: Twentieth-Century Analytic Philosophy
- PHIL 333: American Philosophy: Pragmatism
- PHIL 338: Philosophy, Sex, and Gender
- PHIL 355: Theories of Ethics
- PHIL 356: Philosophy of Art
- PHIL 357: Philosophy of the Social Sciences
- PHIL 358: Ethics and Economics
- PHIL 371: Philosophy of Natural Sciences
- PHIL 373: Theory of Knowledge
- PHIL 374: Philosophy of Mind
- PHIL 411: Theories of Decision

#### Continental Tradition

Select one course from the following:  
- PHIL 313: Philosophy of Religion
- PHIL 325: Karl Marx's Social and Political Thought
- PHIL 335: Nineteenth-Century Philosophy
- PHIL 336: Twentieth-Century Continental Thought: Existentialism
- PHIL 337: Twentieth-Century Continental Thought: Phenomenology
- PHIL 338: Philosophy, Sex, and Gender
- PHIL 340: Hermeneutic Philosophy
- PHIL 356: Philosophy of Art
- PHIL 357: Philosophy of the Social Sciences

#### Philosophy and Law

Select two courses from the following:  
- PHIL 323: Classical Western Political Theory
- PHIL 324: Modern Western Political Theory
- PHIL 327: Contemporary Western Political Theory
- GOVT 428: Advanced Democratic Theory
- GOVT 448: Ethics and International Politics

#### Electives in Philosophy

Select three electives from any philosophy courses including those listed above that are not used to meet another requirement.  

Total Credits: 33

1. When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391 Special Topics in Philosophy, PHIL 421 Seminar (Mason Core) (p. 135), PHIL 422 Honors Seminar (Mason Core) (p. 135), or PHIL 425 Independent Study may be used to fulfill this requirement.

2. Only with departmental approval.
Concentration in Philosophy, Politics, and Economics (PPE)

This is a high credit concentration for students interested in a program that explores the interdisciplinary connections between philosophy, political science, and economics.

Students pursuing this concentration, similar to all students pursuing a BA in philosophy, must complete at least 33 credits in philosophy earning a minimum grade of 2.00 in each course. No course may be used to fulfill more than one requirement. In addition to the specific courses listed below, other relevant courses may be applied to the requirements for this concentration with prior written approval of the undergraduate director.

Total Credits: 54

1 When the subject matter is appropriate and with the prior written approval of the undergraduate director, PHIL 391 Special Topics in Philosophy, PHIL 421 Seminar (Mason Core) (p. 135), PHIL 422 Honors Seminar (Mason Core) (p. 135), or PHIL 425 Independent Study may be used to fulfill this requirement.

2 Only with departmental approval.

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. All senior seminars (PHIL 421 Seminar (Mason Core) (p. 135), PHIL 422 Honors Seminar (Mason Core) (p. 135)) in philosophy are writing intensive. Philosophy majors should consult the undergraduate director for other courses that can be taken to fulfill this requirement.

Upper Level Requirement

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree

In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies

Select 3 credits from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL (p. 1818) 1</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>RELI (p. 1904)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

1 Note that the following courses may not be used to fulfill this requirement:

• PHIL 323 Classical Western Political Theory
• PHIL 324 Modern Western Political Theory
• PHIL 327 Contemporary Western Political Theory
• PHIL 333 Humanities College to Career
• PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement)

ANTH (p. 1119)
CRIM (p. 1372)
ECON (p. 1413)
GOVT (p. 1588)
HIST (p. 1628)
LING (p. 1694)
PSYC (p. 1844)
SOCI (p. 1923)

Or choose from the following GGS courses:
GGS 101 Major World Regions (Mason Core) (p. 135)
GGS 103 Human Geography (Mason Core) (p. 135)
GGS 110 Introduction to Geoinformation Technologies
GGS 301 Political Geography
GGS 303 Geography of Resource Conservation (Mason Core) (p. 135)
GGS 304 Population Geography (Mason Core) (p. 135)
GGS 305 Economic Geography
GGS 306 Urban Geography
GGS 315 Geography of the United States
GGS 316 Geography of Latin America
GGS 320 Geography of Europe
GGS 325 Geography of North Africa and the Middle East
GGS 330 Geography of the Soviet Succession States
GGS 357 Structures in Urban Governance and Planning
GGS 380 Geography of Virginia

The two courses used to fulfill the combined college and Mason Core (p. 135) requirements must be from different disciplines in the social and behavioral sciences.

HIST 100 History of Western Civilization (Mason Core) (p. 135) and HIST 125 Introduction to World History (Mason Core) (p. 135) may not be used to fulfill this requirement.

Select 3 credits (additional to Mason Core Global Understanding requirement)

ANTH 114 Introduction to Cultural Anthropology (Mason Core) (p. 135)
ANTH 300 Civilizations
ANTH 301 Native North Americans
ANTH 302 Peoples and Cultures of Latin America (Mason Core) (p. 135)
ANTH 303 Peoples and Cultures of the Andes
ANTH 306 Peoples and Cultures of Island Asia (Mason Core) (p. 135)
ANTH 307 Ancient Mesoamerica (Mason Core) (p. 135)
ANTH 308 Peoples and Cultures of the Middle East (Mason Core) (p. 135)
ANTH 309 Peoples and Cultures of India (Mason Core) (p. 135)
ANTH 313 Myth, Magic, and Mind (Mason Core) (p. 135)
ANTH 314 Zombies
ANTH 316 Peoples and Cultures of the Caribbean (Mason Core) (p. 135)
ANTH 323 Digging and Dealing in the Dead: Ethics in Archaeology
ANTH 330 Peoples and Cultures of Selected Regions: Non-Western
ANTH 332 Cross-Cultural Perspectives on Globalization (Mason Core) (p. 135)
ANTH 381 Medical Anthropology
ANTH 383 Cities of the Global South
ANTH 396 Issues in Anthropology: Social Sciences (Mason Core) (p. 135)
ARAB 360 Topics in Arabic Cultural Production
ARAB 420 Survey of Arabic Literature
ARAB 440 Topics in Arabic Religious Thought and Texts (Mason Core) (p. 135)
ARTH 203 Survey of Asian Art (Mason Core) (p. 135)
ARTH 204 Survey of Latin American Art (Mason Core) (p. 135)
ARTH 206 Survey of African Art (Mason Core) (p. 135)
ARTH 318 Art and Archaeology of Ancient Egypt
ARTH 319 Art and Archaeology of the Ancient Near East (Mason Core) (p. 135)

Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

Non-Western Culture
Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

Intermediate-level proficiency in one foreign language, fulfilled by:

Completing a course in a foreign language numbered 202, 209, or 210 (or higher level courses taught in the language) (p. 414)
Or achieving a satisfactory score on an approved proficiency test
Or completing the following ASL three course sequence:
EDSE 115 American Sign Language (ASL) I
EDSE 116 American Sign Language (ASL) II
EDSE 219 American Sign Language (ASL) III

A course used to fulfill the Mason Core global understanding (p. 139) requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

Mason Core

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

1 minimum 3 credits

Addition Electives

Any remaining credits may be completed with electives to bring the degree total to 120.

Honors

Honors in the Major

Highly-qualified students may apply to the honors program in the major. Students can apply in their second semester as a junior, before they have completed 90 credits and should have a minimum GPA of 3.50 in the major. Eligible students should submit a transcript, one letter of recommendation from a member of the philosophy faculty, and one writing sample, a paper from one of the student’s courses in philosophy.

Students pursuing honors in the major complete 6 credits of honors coursework chosen from PHIL 422 Honors Seminar (Mason Core) (p. 135) or PHIL 425 Independent Study. To graduate with honors in philosophy, students must complete these courses with a minimum GPA of 3.50.

Accelerated Master’s

The accelerated master’s programs in the list below specify the BA in philosophy as a feeder degree for their programs. It is important to note, however, that many accelerated master’s programs are available for any bachelor’s degree at Mason, including this one. See the full list of master’s degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Philosophy, BA/Philosophy, Accelerated MA

Overview

Highly qualified Mason philosophy majors may apply to the accelerated master’s degree program. If accepted, students will be able to earn a BA (p. 432) and a MA in philosophy (p. 440) after satisfactory completion of as few as 145 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in philosophy (p. 440), see Application Requirements and Deadlines (http://philosophy.gmu.edu/programs/application/LA-MA-ACEL-PHIL) on the departmental web site.

Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete six credits of PHIL courses at the 600-level (chosen in consultation with the graduate program director and indicated on the Accelerated Master’s Program Application) with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. On completion and conferment of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements, taking 25 graduate credits beyond the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional credits of PHIL coursework at the 600-level as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).
Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Women and Gender Studies Concentration)

Overview
Highly-qualified undergraduates in select majors may apply to the accelerated master's degree in interdisciplinary studies with a concentration in women and gender studies (p. 354). If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's degree in interdisciplinary studies with a concentration in women and gender studies after satisfactory completion of 150 credits, sometime within five years.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
Anthropology (p. 484), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), and Communication (p. 305).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines as specified in the Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines on the departmental web site.

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete two graduate courses as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree.

To apply these credits to the master’s degree, students should use the Bachelor's/Accelerated Master's Transition Form.

Total Credits: 6

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Religion, Culture, and Values Concentration)

Overview
Highly-qualified undergraduates in select majors (see below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in religion, culture, and values. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s in interdisciplinary studies with a concentration in religion, culture, and values after satisfactory completion of 150 credits, sometimes within five years.

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
- Art history (p. 384)
- Philosophy (p. 432)
- Conflict analysis and resolution (p. 882)
- Global affairs (p. 509)
- History (p. 394)
- Religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- Sociology (p. 494)
- Anthropology (p. 484)

If the student has not majored in religious studies (p. 477), it is preferred, though not required, that the student have a minor in religious studies (p. 477).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines on the departmental web site.
Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete two graduate courses as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

Bachelor’s Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)

Overview

Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master’s degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master’s in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors

Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for
reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

### Philosophy, MA

**Banner Code:** LA-MA-PHIL

**Academic Advising**

B465 Robinson Hall  
Fairfax Campus  
Email: philgrad@gmu.edu  
Website: philosophy.gmu.edu/programs/la-ma-phil

Students in the MA program in philosophy can choose a master’s degree with a focus on traditional and contemporary philosophy, or choose one of two concentrations: ethics and public affairs, or philosophy and cultural theory. Course offerings provide grounding in the history of philosophy, ethics, metaphysics, epistemology, contemporary continental thought, contemporary analytic philosophy, and philosophy of science. Students pursue the degree to satisfy intellectual interest and to further professional expertise. Graduates of the program move on to careers in law, technology, health care, education, and public service, or use the program to prepare for doctoral studies in philosophy.

### Admissions & Policies

#### Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the MA in philosophy, see Application Requirements and Deadlines (http://philosophy.gmu.edu/programs/LA-MA-PHIL/application).

#### Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

### Requirements

#### Degree Requirements

Total credits: 31

Students pursuing this degree must successfully complete 31 credits, which may include a thesis. They may choose a course of study that focuses on traditional and contemporary philosophy or choose to complete one of three concentrations. Students need to identify an advisor on entering the program and meet regularly with that advisor during their course of study.

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

### MA with a Focus on Traditional and Contemporary Philosophy

The focus in traditional and contemporary philosophy is for students who want to deepen their understanding of philosophical issues and for students who are preparing to pursue doctoral studies in philosophy or related fields, e.g. political theory, gender studies.

Students may apply up to 9 credits from other departments toward the degree with focus on traditional and contemporary philosophy with prior written approval of their advisor.

---

1. This course should be completed in the first fall semester in which the student is enrolled in the MA program.

2. May be taken when the topic is relevant and with approval of advisor.

3. Students who choose to write a thesis (3 or 6 credits) will take correspondingly fewer electives.

4. Students must follow the thesis enrollment policy of the university and once enrolled in PHIL 799 Thesis, maintain continuous enrollment as specified in Academic Policies.
Concentration in Ethics and Public Affairs (ETPA)
The concentration in ethics and public affairs is designed for professionals who want to combine the study of ethics and the analysis of social and public policies in a variety of settings, including business, health care, biomedical technology, law, or government.

Proseminar
PHIL 600  Proseminar in Philosophy 1  1

History of Philosophy 2
PHIL 640  History of Ethical Theory  3
PHIL 603  Aristotle: Selected Works  3
or PHIL 608  Hegel’s Phenomenology of the Spirit

Public Administration
PUAD 540  Public Policy Process  3

Ethics
Select three courses from the following: 3  9
PHIL 642  Biomedical Ethics
PHIL 643  Environmental Ethics
PHIL 644  Business and Organizational Ethics
PHIL 645  Research Ethics

Electives
Select two to four electives from the following or from other relevant courses: 4  6-12
PUAD 700  Ethics and Public Administration
HAP 714  Ethical Issues in Health Administration and Policy
EVPP 635  Environment and Society

Optional Thesis
Three or six credits of
PHIL 799  Thesis 5

Total Credits  31

1 This course should be completed in the first fall semester in which the student is enrolled in the MA program.
2 Depending on the topic, PHIL 681 Figures and Topics in Ancient Philosophy, PHIL 682 Figures and Topics in Early Modern Philosophy, or PHIL 721 Advanced Seminar in Philosophy may be applied to this concentration with prior written permission of the graduate director.
3 Other courses may be used to fulfill this requirement where appropriate and with prior written approval of the student’s academic advisor.
4 Students who choose to write a thesis (3 or 6 credits) will take correspondingly fewer electives. Students are encouraged to use courses from around the university in disciplines relevant to their areas of interest, subject to the prior written approval of their academic advisor.
5 Students must follow the thesis enrollment policy of the university and once enrolled in PHIL 799 Thesis, maintain continuous enrollment as specified in Academic Policies.

Concentration in Philosophy and Cultural Theory (PHCT)
The concentration in philosophy and cultural theory is especially for students interested in pursuing a doctorate in cultural studies. Students may apply up to 9 credits from other departments toward this concentration with prior written approval of their advisor.

Proseminar
PHIL 600  Proseminar in Philosophy 1  1

Ancient or Medieval Philosophy
Select one course from the following: 3
PHIL 603  Aristotle: Selected Works
PHIL 681  Figures and Topics in Ancient Philosophy
PHIL 721  Advanced Seminar in Philosophy 2

Modern Philosophy
Select one course from the following: 3
PHIL 608  Hegel’s Phenomenology of the Spirit
PHIL 682  Figures and Topics in Early Modern Philosophy
PHIL 721  Advanced Seminar in Philosophy 2

Contemporary Philosophy
Select one course from the following: 3
PHIL 615  Postmodernist Thought
PHIL 616  Phenomenology
PHIL 683  Contemporary Philosophical Figures
PHIL 694  Special Topics in Contemporary Philosophy
PHIL 721  Advanced Seminar in Philosophy 2

Advanced Seminar
Select one from the following: 3
PHIL 720  Nietzsche and his Readers
PHIL 721  Advanced Seminar in Philosophy
PHIL 733  Current Issues in Cognitive Science

Cultural Studies  6
CULT 802  Histories of Cultural Studies
Select one elective in consultation with an advisor.

Electives in Philosophy  6-12
Select two to four electives in philosophy 3

Optional Thesis
Three or six credits of
PHIL 799  Thesis 4

Total Credits  31

1 This course should be completed in the first fall semester in which the student is enrolled in the MA program.
2 May be taken when the topic is relevant and with approval of advisor.
3 Students who choose to write a thesis (3 or 6 credits) will take correspondingly fewer electives.
4 Students must follow the thesis enrollment policy of the university and once enrolled in PHIL 799 Thesis, maintain continuous enrollment as specified in Academic Policies.

Dual Degree Options

Dual Master’s
Students interested in pursuing a dual master’s program linking philosophy and another discipline should discuss their interest with the graduate program directors of both programs and review the university policies regarding Individualized Dual Master’s Degree Programs. Students approved to pursue dual master’s study linking the MA philosophy degree and the Interdisciplinary Studies, MAIS with a concentration in women and gender studies will complete WMST 630
Accelerated Master’s

Philosophy, BA/Philosophy, Accelerated MA

Overview
Highly qualified Mason philosophy majors may apply to the accelerated master’s degree program. If accepted, students will be able to earn a BA (p. 432) and a MA in philosophy (p. 440) after satisfactory completion of as few as 145 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in philosophy (p. 440), see Application Requirements and Deadlines (http://philosophy.gmu.edu/programs/application/LA-MA-ACEL-PHIL) on the departmental web site.

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete six credits of PHIL courses at the 600-level (chosen in consultation with the graduate program director and indicated on the Accelerated Master’s Program Application) with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements, taking 25 graduate credits beyond the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional credits of PHIL coursework at the 600-level as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Political Philosophy Minor

Banner Code: PPHL

Academic Advising
B465 Robinson Hall
Fairfax Campus

Website: philosophy.gmu.edu/programs/la-minor-la-pphl

The minor provides students with an intensive study of political philosophy and political theory. Students take courses in the history of political philosophy; the moral evaluation of political institutions; the ethical, social, and political issues raised by globalization; and the conceptual foundations of democracy and human rights. Through this coursework, students are able to study this field from a variety of interdisciplinary perspectives. They develop a deeper philosophical perspective on political institutions and have a solid foundation for further graduate study in philosophy, government, or policy studies.

Faculty
Cherubin, De Nys, Mandaville, Miller (director)

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 15
Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 442) tab.

Core Courses
Select two courses from the following: 6

| PHIL 323 Classical Western Political Theory |
| PHIL 324 Modern Western Political Theory |
| PHIL 327 Contemporary Western Political Theory |

Total Credits 6

Electives
Select three elective courses from the courses below or above (if not used to meet the core requirement) 1

| GOVT 427 Feminist Political Thought |
PHIL 325  Karl Marx’s Social and Political Thought
GOVT 328  Non-Western Political Theory
GOVT 329  Issues in Political Theories and Values
GOVT 420  American Political Thought
GOVT 421  Contemporary Political Ideologies
GOVT 428  Advanced Democratic Theory
GOVT 448  Ethics and International Politics

**Total Credits** 9

Special topics courses and independent studies courses, when relevant, may also be used to fulfill elective credits with prior written approval of the director.

**Department of Psychology**

2086 David King Hall
Fairfax Campus

Phone: 703-993-1342
Website: psychology.gmu.edu

**Undergraduate Programs**

The department offers a bachelor of arts degree and a bachelor of science degree in psychology. All psychology majors complete a broad range of courses from social and abnormal psychology to cognitive and biopsychology. Students can also choose from special topics courses such as forensic psychology and romantic relationships.

In addition to the general degree in psychology, students can choose a concentration in clinical psychology, forensic psychology, human factors and applied cognition, work and organizational psychology, developmental psychology, education psychology, or health psychology. These concentrations may be of interest to students who are planning to attend graduate school.

Students in psychology may have the opportunity to do research with a faculty member or do a service learning course, which allows them to put into practice what they’ve learned in the classroom.

Students interested in graduate study should be aware that undergraduate research experience and letters of recommendation are major factors for admission to graduate study. Such students should distribute courses across a number of areas in psychology and work closely with one or more professors on individual projects during their junior and senior years.

**Minors**

The department offers minors in psychology, clinical psychology, developmental psychology, forensic psychology, health psychology, and industrial/organizational psychology. These minors are available to students in any major in the university.

**Bachelor’s/Accelerated Master’s Program**

The department offers highly-qualified undergraduate majors the opportunity to apply to an accelerated master’s degree program in psychology with a concentration in cognitive and behavioral neuroscience. If accepted, students will be able to earn both an undergraduate degree and the master’s degree with a concentration in cognitive and behavioral neuroscience after satisfactory completion of 146 credits, sometimes within five years.

**Graduate Programs**

The graduate programs in psychology are distinguished by an emphasis on basic research and the application of research to solving practical problems in families, schools, industry, government, and health care settings.

The department offers master’s and doctoral degrees with concentrations in applied developmental psychology, cognitive and behavioral neuroscience, human factors/applied cognition, and industrial/organizational psychology. It offers a doctoral degree with a concentration in clinical psychology.

**Funding**

The department offers teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

**Certificates**

The department offers graduate certificates in transportation human factors, usability, and cognitive neuroscience. These have been designed to meet the needs of students who desire to upgrade their skills and earn a certificate as evidence of their skill attainment. Students may take these as stand-alone certificates or pursue them concurrently with a graduate degree program. Part of the certificate course work may be able to be applied to the degree. Students must apply and be accepted to a graduate certificate program.

The certificate programs are open to all students who hold a bachelor’s degree from an accredited university and meet the admissions requirements for the master’s degree in psychology with a concentration in human factors and applied cognition.

**Nondegree Status**

Applicants who have not been admitted to a graduate degree program or a certificate program may apply for nondegree status. Nondegree students must meet the same admission requirements as degree-seeking students. Nondegree status is not intended as a way to qualify for admission as a degree-seeking student.

While it may be possible to transfer the credits earned in nondegree status to a degree program, such transfers are not automatic. They require the approval of the graduate director and the dean. If approved, a maximum of 12 credits earned in nondegree status may be applied to a degree program. Nondegree students who intend to transfer their credits to a degree program should discuss this with the appropriate program director.

**Faculty**

Forensic Psychology Minor

Banner Code: FPSY

Academic Advising

2086 David King Hall
This minor is designed to supplement the study of psychology, criminology, or other justice-related areas with an overview of the intersection of psychology and the criminal justice system. The minor focuses specifically on mental illness in the criminal justice system, the psychological experiences of victims, psychological science in the courtroom, and psychological factors related to criminal behavior.

### Health Psychology Minor

Total Credits: 9-12

1. Students must choose cognition or physiological as one of the three areas, though they may choose both.

Electives

Select one or two PSYC courses (p. 1844) 3-6

Total Credits: 3-6

1. No more than three credits of PSYC 260, PSYC 350, and PSYC 460 (in total) may be used as elective credit toward the minor. Students who take PSYC 375 and PSYC 376 in the physiological area above will only take 3 elective credits.

Psychology, BA

Banner Code: LA-BA-PSYC

2086 David King Hall
Fairfax Campus

Email: ugpsyc@gmu.edu
Website: psychology.gmu.edu/programs/la-ba-psyc

Students study behavior as it relates to health and well-being, child and adolescent development, education, social situations, the workplace, and the use of technology. Due to Mason’s proximity to Washington, D.C., the department is especially active in research that informs public policy and national defense. Students who graduate from this program go on to work in a wide range of fields and positions, including human resources, data analysis, user interface design, and social media and marketing.

The BA in Psychology focuses on liberal arts and general education courses, including a foreign language requirement, within the psychology field.

Admissions & Policies

Policies

Students pursuing this degree must complete 37 credits within the major, with 24 credits at the 300 and 400 level.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 448) tab.

Students may choose to complete a concentration in forensic psychology, human factors and applied cognition, work and organizational psychology, clinical psychology, developmental psychology, educational psychology, or health psychology. Courses required for a concentration may simultaneously satisfy other degree requirements. The concentrations in forensic psychology, human factors and applied cognition, and work and organizational psychology meet the applied psychology requirement.

Students who have limited technology skills are encouraged to take IT 104 Introduction to Computing (Mason Core) (p. 135).

Core Courses in the Major

Basic Courses in Psychology

Students must have a minimum GPA of 2.00 in these courses with a minimum grade of 1.67 (C-) in each one. Courses taken to fulfill these requirements may simultaneously satisfy a concentration.

Total Credits: 26-32

1. Students are strongly encouraged to complete PSYC 300 Statistics in Psychology and PSYC 301 Research Methods in Psychology by their junior year. PSYC 300 Statistics in Psychology is a prerequisite to several courses, and a background in research methods facilitates understanding empirical research discussed in all psychology courses.
It is strongly recommended that students fulfill the Mason Core (p. 135) natural science requirement by completing BIOL 103 Introductory Biology I (Mason Core) (p. 135) and BIOL 104 Introductory Biology II (Mason Core) (p. 135) because these courses are prerequisites to the requirement of PSYC 372 Physiological Psychology or PSYC 375 Brain and Sensory Processes and PSYC 376 Brain and Behavior.

Only students who receive transfer credit for PSYC 372 Physiological Psychology may use it in place of PSYC 375 Brain and Sensory Processes as the prerequisite for PSYC 376 Brain and Behavior. Students taking PSYC 372 Physiological Psychology at Mason may not use it in place of PSYC 375 Brain and Sensory Processes.

**Applied Psychology Courses or Optional Concentration**

Alternatively, students may earn a concentration in forensic psychology, human factors and applied cognition, or work and organizational psychology to satisfy this requirement.

**Applied Psychology**

Students pursuing the BA without concentration select two courses from the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 320</td>
<td>Psychological Tests and Measurements</td>

Total Credits: 13

¹ Only when topic is Occupational Health Psychology or Work and Family with prior written approval.
Electives in the Major

Students complete the 37 required credits with electives in psychology (PSYC) with the following restrictions.

- A maximum of 6 credits of PSYC 327 Psychology in the Community and PSYC 328 Psychology in the Community Laboratory may be applied to required psychology credits.
- A maximum of 6 credits of PSYC 260 Basic Research Methods in Psychology, PSYC 350 Directed Reading and Research in Psychology, and PSYC 460 Independent Study in Psychology may be applied to required psychology credits.
- No more than 9 credits of PSYC 327 Psychology in the Community, PSYC 328 Psychology in the Community Laboratory, PSYC 260 Basic Research Methods in Psychology, PSYC 350 Directed Reading and Research in Psychology, and PSYC 460 Independent Study in Psychology can be taken without written permission of the department chair.
- No more than 6 credits of D may be applied toward this requirement.

PSYC 465 Pioneering Ideas in Psychology is strongly recommended for all students who plan to attend graduate school in psychology.

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in psychology may fulfill this requirement by successfully completing PSYC 301 Research Methods in Psychology, PSYC 302 Principles of Learning, or PSYC 308 Sensation, Perception, and Information Processing. Students who receive transfer credit for a research methods course must take PSYC 302 Principles of Learning or PSYC 308 Sensation, Perception, and Information Processing unless the transfer course has been approved as writing intensive.

Upper Level Requirement

Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree

In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies

<table>

</table>

1 Note that the following courses may not be used to fulfill this requirement:
- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core (p. 135)) and RELI 235 Religion and Literature (Mason Core (p. 135)) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

Social and Behavioral Sciences

Or choose from the following GGS courses:
- GGS 101 Major World Regions (Mason Core (p. 135))
- GGS 103 Human Geography (Mason Core (p. 135))
- GGS 110 Introduction to Geoinformation Technologies
- GGS 301 Political Geography
- GGS 303 Geography of Resource Conservation (Mason Core (p. 135))
- GGS 304 Population Geography (Mason Core (p. 135))
- GGS 305 Economic Geography
- GGS 306 Urban Geography
- GGS 315 Geography of the United States
- GGS 316 Geography of Latin America
- GGS 320 Geography of Europe
- GGS 325 Geography of North Africa and the Middle East
- GGS 330 Geography of the Soviet Succession States
- GGS 357 Structures in Urban Governance and Planning
- GGS 380 Geography of Virginia

The two courses used to fulfill the combined college and Mason Core (p. 135) requirements must be from different disciplines in the social and behavioral sciences.

1 HIST 100 History of Western Civilization (Mason Core (p. 135)) and HIST 125 Introduction to World History (Mason Core (p. 135)) may not be used to fulfill this requirement.
### Foreign Language

1 A course used to fulfill the Mason Core global understanding requirement (p. 139) may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

**Mason Core**

Note: Some Mason Core requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core requirements.

### Additional Elective Courses

Any remaining credits may be completed with elective courses to bring the degree total to 120.
Honors

Honors in the Major

Highly-qualified students may apply to graduate with honors in the major. To be eligible for admission, psychology majors must have completed at least 50 credits and have a minimum cumulative GPA of 3.25 and a minimum GPA of 3.40 in psychology courses.

If accepted, students must take a sequence of three courses, which culminates in the successful completion and presentation of an independent honors thesis.

To graduate with honors, students must earn a minimum GPA of 3.50 in their honors courses and maintain a minimum cumulative GPA of 3.25 and a minimum GPA of 3.40 in psychology courses.

Accelerated Master’s

The accelerated master’s programs in the list below specify the BA in psychology as a feeder degree for their programs. It is important to note, however, that many accelerated master’s programs are available for any bachelor’s degree at Mason, including this one. See the full list of master’s degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Bachelor’s Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)

Overview

Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master’s degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master’s in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors

Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Bachelor’s Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Women and Gender Studies Concentration)

Overview

Highly-qualified undergraduates in select majors may apply to the accelerated master’s degree in interdisciplinary studies with a concentration in women and gender studies (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s degree in interdisciplinary studies with a concentration in women and gender studies after satisfactory completion of 150 credits, sometime within five years.
For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Selected Majors**

Anthropology (p. 484), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), and Communication (p. 305).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see http://mais.gmu.edu/programs/la-mais-isin/application on the departmental web site.

**Accelerated Option Requirements**

While undergraduate students, accelerated master’s students complete two graduate courses as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See

**Psychology, BA or BS/Psychology, Accelerated MA (Cognitive and Behavioral Neuroscience Concentration)**

**Overview**

Highly qualified Mason undergraduate psychology majors may apply to the accelerated master’s degree with a concentration in cognitive and behavioral neuroscience. If accepted, students will be able to earn a BA (p. 448) or BS in psychology (p. 456) and a MA in psychology (p. 464) with a concentration in cognitive and behavioral neuroscience after satisfactory completion of 146 credits.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to this program, see Application Requirements and Deadlines (http://psychology.gmu.edu/programs/application/LA-MA-ACEL-PSYC) on the departmental web site.

**Accelerated Option Requirements**

While undergraduate students, accelerated master’s students complete six credits of graduate courses (chosen from PSYC 531 Mammalian Neurobiology, PSYC 555 Neuroimaging, PSYC 558 Neuronal Bases of Learning and Memory, PSYC 559 Behavioral Chemistry, and approved sections of PSYC 592 Special Topics) as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from PSYC 531 Mammalian Neurobiology, PSYC 555 Neuroimaging, PSYC 558 Neuronal Bases of Learning and Memory, PSYC 559 Behavioral Chemistry, and approved sections of PSYC 592 Special Topics). These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See
Psychology, BS

Banner Code: LA-BS-PSYC

Website: psychology.gmu.edu/programs/la-bs-psyc

Students study behavior as it relates to health and well-being, child and adolescent development, education, social situations, the workplace, and the use of technology. Due to Mason's close proximity to Washington, D.C. the department is especially active in research that informs public policy and national defense. Students who graduate from this program go on to work in a wide range of fields and positions, including human resources, data analysis, user interface design, and social media and marketing.

The BS in Psychology focuses on math and science within the psychology field.

Admissions & Policies

Policies

Students pursuing this degree must complete at least 39 credits in psychology and 35 credits in supporting courses. Of the 39 credits earned through basic psychology courses, applied psychology courses and electives, 24 credits must be at the 300 and 400 level.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 456) tab.

Students may choose to complete a concentration in developmental psychology, educational psychology, forensic psychology, health psychology, human factors and applied cognition, or work and organizational psychology. Courses required for a concentration may simultaneously satisfy other degree requirements. The concentrations in forensic psychology, human factors and applied cognition, and work and organizational psychology meet the applied psychology requirement.

Students who have limited technology skills are encouraged to take IT 104 Introduction to Computing (Mason Core) (p. 135).

Core Courses in the Major

Basic Courses in Psychology
Students must have a minimum GPA of 2.00 in these courses with a minimum grade of 1.67 (C-) in each one. Courses taken to fulfill these requirements may simultaneously satisfy a concentration.

Total Credits 27-36

1 Students are strongly encouraged to complete PSYC 300 Statistics in Psychology and PSYC 301 Research Methods in Psychology by their junior year. PSYC 300 Statistics in Psychology is a prerequisite to several courses, and a background in research methods facilitates understanding empirical research discussed in all psychology courses.

2 The course chosen to fulfill this requirement cannot be the same course used to fulfill the technical writing requirement below.
Students who have a strong interest in biopsychology or cognitive neuroscience are encouraged to take PSYC 375 Brain and Sensory Processes/PSYC 376 Brain and Behavior rather than PSYC 372 Physiological Psychology. Only students who receive transfer credit for PSYC 372 Physiological Psychology may use it in place of PSYC 375 Brain and Sensory Processes as the prerequisite for PSYC 376 Brain and Behavior. Students taking PSYC 372 Physiological Psychology at Mason may not use it in place of PSYC 375 Brain and Sensory Processes.

**Applied Psychology Courses or Optional Concentration**

Alternatively, students may earn a concentration in forensic psychology, human factors and applied cognition, or work and organizational psychology to satisfy this requirement.

**Applied Psychology**

Students pursuing the BS without concentration select two courses from the following:

- PSYC 320 Psychological Tests and Measurements
- PSYC 325 Abnormal Psychology
- PSYC 333 Industrial and Organizational Psychology
- PSYC 340 Human Factors Psychology
- PSYC 379 Applied Cross-Cultural Psychology (Mason Core) (p. 135)
- PSYC 381 Mental Illness and Criminal Justice
- PSYC 427 Community Engagement for Social Change (Mason Core) (p. 135)

Total Credits 6-7

**Concentrations Meeting Applied Psychology Requirement**

**Concentration in Forensic Psychology (FPSY)**

Students pursuing the BS with concentration in forensic psychology take 18 credits. Students must earn a minimum GPA of 2.00 in all coursework applied to the concentration.

Students who successfully complete the Psychology Department Honors Program (PSYC 490 Psychology Honors I, PSYC 491 Psychology Honors II, and PSYC 492 RS: Psychology Honors III) with an honors thesis/project focused on forensic psychology may, with approval of their thesis committees and the associate chair for undergraduate studies, substitute their honors work for one course in the concentration.

- PSYC 100 Basic Concepts in Psychology (Mason Core) (p. 135)
- PSYC 325 Abnormal Psychology
- PSYC 333 Industrial and Organizational Psychology
- PSYC 340 Human Factors Psychology
- PSYC 379 Applied Cross-Cultural Psychology (Mason Core) (p. 135)
- PSYC 381 Mental Illness and Criminal Justice

Select two courses from the following:

- PSYC 382 Psychology of Crime Victims
- PSYC 440 Forensic Psychology: Science and Pseudoscience
- PSYC 441 Criminal Psychology: Psychological and Neurological Aspects
- CRIM 100 Introduction to Criminal Justice (Mason Core) (p. 135)
- PSYC 461 Special Topics
- PSYC 462 Selected Topics in Forensic Psychology

Total Credits 3

**Concentration in Human Factors and Applied Cognition (HF)**

Students pursuing the BS with concentration in human factors and applied cognition take 12-13 credits. Students must earn a minimum GPA of 2.00 in all coursework applied to the concentration.

Students who successfully complete the Psychology Department Honors Program (PSYC 490 Psychology Honors I, PSYC 491 Psychology Honors II, and PSYC 492 RS: Psychology Honors III) with an honors thesis/project focused on human factors or applied cognition may, with approval of their thesis committees and the associate chair for undergraduate studies, substitute their honors work for one course in the concentration.

- PSYC 317 Cognitive Psychology
- PSYC 340 Human Factors Psychology

Select two courses from the following:

- PSYC 309 Sensation, Perception, and Information Processing
- PSYC 333 Industrial and Organizational Psychology
- PSYC 372 Physiological Psychology
- PSYC 460 Independent Study in Psychology
- PSYC 530 Cognitive Engineering: Cognitive Science Applied to Human Factors

Total Credits 12-13

1 Requires Undergraduate Associate Chair approval.

**Concentration in Work and Organizational Psychology (WKOP)**

Students pursuing the BS with concentration take 12-13 credits. Students must earn a minimum GPA of 2.00 in all coursework applied to the concentration.

Students who successfully complete the Psychology Department Honors Program (PSYC 490 Psychology Honors I, PSYC 491 Psychology Honors II, and PSYC 492 RS: Psychology Honors III) with an honors thesis/project focused on I/O psychology may, with approval of their thesis committees and the associate chair for undergraduate studies, substitute the honors work for one course in the concentration.

- PSYC 333 Industrial and Organizational Psychology
- PSYC 340 Human Factors Psychology
- PSYC 461 Special Topics
- MBUS 301 Managing People and Organizations in a Global Economy

Total Credits 12-13

1 Only when topic is Occupational Health Psychology or Work and Family with prior written approval.
Other Concentrations Available to Majors

Students may choose to complete a concentration in clinical psychology, development psychology, educational psychology, or health psychology.

Concentration in Clinical Psychology (CLPY)

Students pursuing the BS with this concentration take 12 credits. Students must earn a minimum GPA of 2.00 in all coursework applied to the concentration.

Students who successfully complete the Psychology Department Honors Program (PSYC 490 Psychology Honors I, PSYC 491 Psychology Honors II, and PSYC 492 RS: Psychology Honors III) with an honors thesis/project focused on clinical psychology may, with approval of their thesis committees and the associate chair for undergraduate studies, substitute their honors work for one course in the concentration.

Students must earn a minimum GPA of 2.00 in all coursework applied to the concentration.

Concentration in Developmental Psychology (DVLP)

The concentration in developmental psychology may be of interest to students who are planning to attend graduate school in developmental psychology or a related field, such as human development and family studies, school psychology, or clinical child psychology. Students who are considering a career in school psychology or education may also find this concentration advantageous.

Students pursuing the BS with this concentration take 12 credits. Students must earn a minimum GPA of 2.00 in all coursework applied to the concentration.

Students who successfully complete the Psychology Department Honors Program (PSYC 490 Psychology Honors I, PSYC 491 Psychology Honors II, and PSYC 492 RS: Psychology Honors III) with an honors thesis/project focused on developmental psychology may, with approval of their thesis committees and the associate chair for undergraduate studies, substitute their honors work for one course in the concentration.

Concentration in Health Psychology (HPSY)

Students pursuing the BS with concentration in educational psychology take 12 credits. Students must earn a minimum GPA of 2.00 in all coursework applied to the concentration.

Students who successfully complete the Psychology Department Honors Program (PSYC 490 Psychology Honors I, PSYC 491 Psychology Honors II, and PSYC 492 RS: Psychology Honors III) with an honors thesis/project focused on health or well-being may, with approval of their thesis committees and the associate chair for undergraduate studies, substitute their honors work for one course in the concentration.

Total Credits 12
Only when topic is related to health and well-being and approved by the psychology department.

Electives in the Major
Students complete the 39 required credits with electives in psychology (PSYC) (p. 1844) with the following restrictions.

• A maximum of 6 credits of PSYC 327 Psychology in the Community and PSYC 328 Psychology in the Community Laboratory may be applied to required psychology credits.
• A maximum of 6 credits of PSYC 260 Basic Research Methods in Psychology, PSYC 350 Directed Reading and Research in Psychology, and PSYC 460 Independent Study in Psychology may be applied to required psychology credits.
• No more than 9 credits of PSYC 327 Psychology in the Community, PSYC 328 Psychology in the Community Laboratory, PSYC 260 Basic Research Methods in Psychology, PSYC 350 Directed Reading and Research in Psychology, and PSYC 460 Independent Study in Psychology can be taken without written permission of the department chair.
• No more than 6 credits of D may be applied toward this requirement.

PSYC 465 Pioneering Ideas in Psychology is strongly recommended for all students who plan to attend graduate school in psychology.

If an approved psychology course is used to meet the technical writing requirement, it may also be applied as a psychology elective.

Supporting Courses
These courses broaden the requirements to include humanities and strengthen the science, quantitative and writing components of the degree. Students who successfully complete the Honors College curriculum are required to complete only the quantitative reasoning and natural science support requirements described below. All other supporting requirements are considered met by successful completion of the Honors College curriculum.

Technical Writing
Select one of the following: 1

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGH 388</td>
<td>Professional and Technical Writing</td>

<td></td>
</tr>
</tbody>
</table>

Total Credits 35-40

1 The psychology classes in this list may also be applied as a psychology elective.
2 PSYC 490 Psychology Honors I, PSYC 491 Psychology Honors II, and PSYC 492 RS: Psychology Honors III
3 Excluding PHIL 173 Logic and Critical Thinking and PHIL 376 Symbolic Logic.
4 Courses in psychology may not be used to fulfill this requirement.
5 Select an additional course from the lists under the requirements in humanities and social sciences above (and with the same restrictions).

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in psychology may fulfill this requirement by successfully completing PSYC 301 Research Methods in Psychology, PSYC 304 Principles of Learning, or PSYC 309 Sensation, Perception, and Information Processing. Students who receive transfer credit for a research methods course must take PSYC 304 Principles of Learning, or
PSYC 309 Sensation, Perception, and Information Processing unless the transfer course has been approved as writing intensive.

**Upper Level Requirement**

Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

**College Level Requirements for the BA Degree**

In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

**Philosophy or Religious Studies**

<table>
<thead>
<tr>

</tbody>
</table>

¹ Note that the following courses may not be used to fulfill this requirement:
- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

**Social and Behavioral Sciences**

<table>

Or choose from the following GGS courses:
- GGS 101 Major World Regions (Mason Core) (p. 135)
- GGS 103 Human Geography (Mason Core) (p. 135)
- GGS 110 Introduction to Geoinformation Technologies
- GGS 301 Political Geography
- GGS 303 Geography of Resource Conservation (Mason Core) (p. 135)
- GGS 304 Population Geography (Mason Core) (p. 135)
- GGS 305 Economic Geography
- GGS 306 Urban Geography
- GGS 315 Geography of the United States
- GGS 316 Geography of Latin America
- GGS 320 Geography of Europe
- GGS 325 Geography of North Africa and the Middle East
- GGS 330 Geography of the Soviet Succession States
- GGS 357 Structures in Urban Governance and Planning
- GGS 380 Geography of Virginia

¹ The two courses used to fulfill the combined college and Mason Core (p. 135) requirements must be from different disciplines in the social and behavioral sciences.

² HIST 100 History of Western Civilization (Mason Core) (p. 135) and HIST 125 Introduction to World History (Mason Core) (p. 135) may not be used to fulfill this requirement.

**Foreign Language**

Intermediate-level proficiency in one foreign language, fulfilled by:

- Completing a course in a foreign language numbered 202, 209, or 210 (or higher level courses taught in the language) (p. 414)
- Or achieving a satisfactory score on an approved proficiency test
- Or completing the following ASL three course sequence:
  - EDSE 115 American Sign Language (ASL) I
  - EDSE 116 American Sign Language (ASL) II
  - EDSE 219 American Sign Language (ASL) III

¹ Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

**Non-Western Culture**

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

1 A course used to fulfill the Mason Core global understanding (p. 139) requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

**Mason Core**

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

**Additional Elective Courses**

Any remaining credits may be completed with electives to bring the degree total to 120

**Honors**

**Honors in the Major**

Highly-qualified students may apply to graduate with honors in the major. To be eligible for admission, psychology majors must have completed at least 50 credits and have a minimum cumulative GPA of 3.25 and a minimum GPA of 3.40 in psychology courses.

If accepted, students must take a sequence of three courses, which culminates in the successful completion and presentation of an independent honors thesis.

Total Credits 9

To graduate with honors, students must earn a minimum GPA of 3.50 in their honors courses and maintain a minimum cumulative GPA of 3.25 and a minimum GPA of 3.40 in psychology courses.

**Accelerated Master's**

The accelerated master's programs in the list below specify the BS in psychology as a feeder degree for their programs. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of master's degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

**Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)**

**Overview**

Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted,
and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master’s in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP. 6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP. 6 Graduate Policies (p. 87).

Selected Majors
Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. For more detailed information, see AP. 6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP. 6 Graduate Policies (p. 87).

Selected Majors
Anthropology (p. 484), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), and Communication (p. 305).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see http://mais.gmu.edu/programs/la-mais-isin/application on the departmental web site.

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete two graduate courses as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

Total Credits 6

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree.
To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Psychology, BA or BS/Psychology, Accelerated MA (Cognitive and Behavioral Neuroscience Concentration)

Overview
Highly qualified Mason undergraduate psychology majors may apply to the accelerated master’s degree with a concentration in cognitive and behavioral neuroscience. If accepted, students will be able to earn a BA (p. 448) or BS in psychology (p. 456) and a MA in psychology (p. 464) with a concentration in cognitive and behavioral neuroscience after satisfactory completion of 146 credits.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to this program, see Application Requirements and Deadlines (http://psychology.gmu.edu/programs/application/LA-MA-ACEL-PSYC) on the departmental web site.

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete six credits of graduate courses (chosen from PSYC 531 Mammalian Neurobiology, PSYC 555 Neuroimaging, PSYC 558 Neuronal Bases of Learning and Memory, PSYC 559 Behavioral Chemistry, and approved sections of PSYC 592 Special Topics) as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from PSYC 531 Mammalian Neurobiology, PSYC 555 Neuroimaging, PSYC 558 Neuronal Bases of Learning and Memory, PSYC 559 Behavioral Chemistry, and approved sections of PSYC 592 Special Topics. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76) for more information.

Psychology, MA
Banner Code: LA-MA-PSYC

Academic Advising
2086 David King Hall
Fairfax Campus

Email: psycgrad@gmu.edu
Website: psychology.gmu.edu/programs/la-ma-psyc

The MA in psychology is distinguished by its emphasis on basic research and the application of research to solve practical problems in families, industry, government, and health care settings. Because of the program’s proximity to Washington D.C., students have access to many employment and continuing education opportunities in research, academia, and consulting within government, public, and private settings.

The psychology MA offers the following concentrations:
- applied developmental psychology
- cognitive and behavioral neuroscience
- human factors/applied cognition
- industrial/organizational psychology

While the department does not offer a master’s degree in clinical or counseling psychology, a master’s degree in psychology with a concentration in clinical psychology is available for students who have been admitted to the doctoral program concentration in clinical psychology.

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the MA in psychology, see Application Requirements and Deadlines (http://psychology.gmu.edu/programs/la-ma-psyc/application).
Provisional Admission
Students who are admitted provisionally are required to take 12 credits in psychology and earn a minimum GPA of 3.25 in those courses to qualify for removal of the provisional qualifier. Programs may add other conditions to provisional admission. Individualized study courses cannot be used toward the 12 credits.

Policies
For policies governing all graduate degrees, see Graduate Policies (p. 87).

In addition to satisfying the requirements for all master’s degrees, students pursuing a master’s degree in psychology must successfully complete 30-46 credits of required course work. They complete this coursework in one of six concentrations.

A maximum of 6 credits of thesis proposal and thesis research (PSYC 798 Thesis Proposal, PSYC 799 Master’s Thesis) may be applied to the master’s degree. A maximum of 9 credits of thesis courses (PSYC 798 Thesis Proposal, PSYC 799 Master’s Thesis), Directed Reading and Research (PSYC 597 Directed Reading and Research), and Practicum (PSYC 792 Psychology Practicum) may be applied to the degree.

Requirements

Degree Requirements
Total credits: 30-32

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 464) tab.

Choose one concentration and complete the requirements therein.

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Concentration in Applied Developmental Psychology (APD)
The concentration in applied developmental psychology focuses on child development. It provides basic knowledge about normal development, skills for assessing developmental level, and techniques for planning and evaluating programs that foster optimal development. Graduates are prepared for employment at agencies concerned with educational and health programs for children, enrichment programs for infants and preschoolers, and education programs for parents.

Thesis Research or Practicum Experience

Thesis
The thesis includes a combination of PSYC 798 Thesis Proposal/PSYC 799 Master’s Thesis. Per the University Catalog, at least 3 hours must be PSYC 799 Master’s Thesis; these 3 hours must be taken the first semester in which PSYC 799 Master’s Thesis is registered. Thus, this is generally a combination of 1 credit of PSYC 798 Thesis Proposal and 3 of PSYC 799 Master’s Thesis.

Students should be aware of the policies governing theses. They must follow the thesis enrollment policy of the university and once enrolled in PSYC 799 Master’s Thesis, maintain continuous enrollment. See Academic Policies.

Electives
Select 4-5 credits in consultation with your advisor 4-5
Total Credits 4-5

Elective credit can be taken via content courses, further practicum, directed reading, or research credits, or further thesis credits (i.e. more than 4 credits). Electives may also come from other departments although these often require permission of the instructor.

Concentration in Clinical Psychology (CLN)
The clinical psychology concentration trains students to have flexibility to fill the evolving functions of clinical psychologists, including research, direct provision of clinical services, supervision, program development and evaluation, and consultation.

The clinical psychology MA concentration is not a terminal degree. Students who have been admitted to the doctoral program with a concentration in clinical psychology may apply to receive the MA in psychology on completion of 30 credits of course work. Students must also be in good standing in the program, as determined by the director of clinical training.

Concentration in Cognitive and Behavioral Neuroscience (CBNR)
The concentration in cognitive and behavioral neuroscience focuses on studying biological substrates of behavior. Core and affiliated faculty study areas as diverse as neural control of behavioral development; animal models of learning and memory and their disorders (such as Alzheimer’s); human brain systems involved in cognition, perception, human error, decision making, and movement; the relation of neural activity to human performance; and cognitive aging. A focus of the program is on translational neuroscience-complementary study of neural systems in humans and animals, including application of animal research to human behavior.

**Concentration in Human Factors/Applied Cognition (HF)**

The human factors/applied cognition concentration trains students in the application of cognitive science to real-world problems. Students gain expertise in such areas as human/computer interaction, cognitive system engineering, cognitive ergonomics, and transportation. Faculty members help place students who do not have real-world experience in a part- or full-time practicum before completing the degree.

### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to this program, see Application Requirements and Deadlines (http://psychology.gmu.edu/programs/application/LA-MA-ACEL-PSYC) on the departmental web site.

### Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete six credits of graduate courses (chosen from PSYC 531 Mammalian Neurobiology, PSYC 555 Neuroimaging, PSYC 558 Neuronal Bases of Learning and Memory, PSYC 559 Behavioral Chemistry, and approved sections of PSYC 592 Special Topics) as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

### Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from PSYC 531 Mammalian Neurobiology, PSYC 555 Neuroimaging, PSYC 558 Neuronal Bases of Learning and Memory, PSYC 559 Behavioral Chemistry, and approved sections of PSYC 592 Special Topics). These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76) for more information.

### Accelerated Master’s

**Psychology, BA or BS/Psychology, Accelerated MA (Cognitive and Behavioral Neuroscience Concentration)**

**Overview**

Highly qualified Mason undergraduate psychology majors may apply to the accelerated master’s degree with a concentration in cognitive and behavioral neuroscience. If accepted, students will be able to earn a BA (p. 448) or BS in psychology (p. 456) and a MA in psychology (p. 464) with a concentration in cognitive and behavioral neuroscience after satisfactory completion of 146 credits.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).
The program offers the following concentrations: applied developmental psychology, clinical psychology, cognitive and behavioral neuroscience, human factors/applied cognition, and industrial/organizational psychology.

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). Applicants must already have earned a master’s degree in a relevant field.

For specific information, see Application Requirements and Deadlines (http://psychology.gmu.edu/programs/application/LA-PHD-PSYC).

Policies
For policies governing all graduate degrees, see Graduate Policies (p. 87).

Reduction of Credit
For students entering the doctoral program with a master’s degree, the number of credits required may be reduced by a maximum of 30 credits subject to the approval of the program faculty and the dean. Requests for reduction of credit are reviewed by a committee only after acceptance to the PhD program.

Grading
Students in the doctoral program are evaluated on the basis of grades, comprehensive exams, research, and communication skills. In doctoral courses, A and B are the only acceptable grades. Students in the doctoral program must successfully complete comprehensive exams administered each year.

Requirements

Degree Requirements
Total credits: 72-76

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 469) tab.

In addition to satisfying the requirements for all doctoral degrees, students must successfully complete 72–76 credits of required course work chosen in one of five concentrations. Each concentration consists of four educational components: core courses, upper-level specialty courses, supervised practica, and dissertation.

Concentration in Applied Developmental Psychology (APD)

Overview
The applied developmental psychology concentration is concerned with enhancing developmental processes and preventing developmental disorders in individuals and families across the life span. It uses the knowledge base and methodologies of developmental science to assist the development of individuals who vary in cultural and ethnic backgrounds; economic and social opportunities; physical, social, emotional, and cognitive abilities; and conditions of living (e.g., families, neighborhoods, communities, and physical settings). The program’s emphasis is on child development (infancy, early childhood, middle childhood, and adolescence), and students may focus their studies on the cognitive, social, emotional, language, personality, or physiological aspects of development.

The applied developmental concentration has two goals: to train students to teach and do research on basic and applied issues in child development for employment in such settings as universities, research institutes, and organizations, and to train students to do applied work in developmental psychology (consultation, program evaluation, assessment and evaluation, developmental interventions, and parent training) in such settings as schools, hospitals, courts, child care facilities, and other organizations. Applied developmental psychology doctoral students have the option of also completing course requirements for the MA concentration in school psychology.

Students pursuing this concentration must complete 72 credits comprised of doctoral course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master’s degree as described above.

</table>
**PSYC 756**  Quantitative Methods IV: Multivariate Techniques in Psychology

**PSYC 757**  Advanced Topics in Statistical Analysis (with approval)

**PSYC 892**  Special Topics in Psychology (with approval)

**Total Credits**  13

**Traditional Emphasis**

**PSYC 611**  Advanced Statistics  4

**PSYC 612**  Advanced Statistics  4

Select one from the following:  3

**PSYC 652**  Quantitative Methods II: Analysis of Variance

**PSYC 754**  Quantitative Methods III: Psychological Applications of Regression Techniques

**PSYC 756**  Quantitative Methods IV: Multivariate Techniques in Psychology

**PSYC 892**  Special Topics in Psychology (with approval)

**Total Credits**  11

**Advanced Specialized Methods**

Select one or two Research Methods courses or up to one Specialized Methods course:

**Research Methods Courses:**

**PSYC 646**  Issues and Methods in Longitudinal Developmental Research

**PSYC 654**  Naturalistic Methods in Psychology

**Specialized Methods Course:**

**PSYC 619**  Applied Behavior Analysis: Principles, Procedures, and Philosophy

**PSYC 673**  Prevention, Intervention, and Consultation in Schools

**PSYC 709**  The Measurement of Intelligence

**PSYC 710**  Psychological Assessment

**PSYC 722**  Advanced Child Assessment

**PSYC 794**  Developmental Assessment

**Total Credits**  6

**Specialized Content**

**PSYC 669**  Social and Emotional Development  3

Select four from the following:  12

**PSYC 592**  Special Topics (when topic is Early Childhood Education, Childcare, and the Transition to School or developmental in content)

**PSYC 566**  Cognitive and Perceptual Development

**PSYC 614**  The Psychology of Aging

**PSYC 615**  Language Development

**PSYC 617**  Child Psychopathology

**PSYC 630**  Developmental Disabilities

**PSYC 648**  Developmental Psychopathology

**PSYC 780**  Applied Developmental Psychology

**EDRS 631**  Program Evaluation  15

**Total Credits**

**Professional Seminar/Professional Ethics**

Students take 1 credit in fall and 1 credit in spring of their first year and 1 additional credit at any other time (preferably in their second year).

**PSYC 890**  Seminar in Professional Psychology (3 credits)  1-3

**Total Credits**  3

**Directed Reading and Research or Practicum**

Students may fulfill this requirement with 8 credits of PSYC 897 Directed Reading and Research or a combination of PSYC 897 Directed Reading and Research and PSYC 792 Psychology Practicum.

Select 8 credits from the following:  8

**PSYC 897**  Directed Reading and Research (can be repeated for credit)

**PSYC 792**  Psychology Practicum (A maximum of 6 credits may be applied to this requirement)

**Total Credits**  8

**Elective Courses**

Students complete the 72 credits required for the degree with elective courses, which may include credits of PSYC 897 Directed Reading and Research over and above those used to fulfill the requirements above. Credits for MA thesis and proposal (PSYC 798 Thesis Proposal, PSYC 799 Master’s Thesis) may not be used as electives in the PhD program.

Select electives to complete the 72 credits for the degree  72

**Advancement to Candidacy**

To advance to candidacy, students must complete all courses required by the program. Students must also successfully complete and pass written and oral comprehensive exams.

**Dissertation Research**

The dissertation requirement is designed to demonstrate the student’s ability to apply psychological principles to research problems. Once enrolled in PSYC 999 Doctoral Dissertation, students must follow the university’s continuous registration policy as specified in AP.6.10.6 Dissertation Research (p. 93). Students who defend in the summer must be registered for at least 1 credit of PSYC 999 Doctoral Dissertation.

Students complete a minimum of 3 credits of PSYC 998 Doctoral Dissertation Proposal and 3 credits of PSYC 999 Doctoral Dissertation. They must apply a minimum of 12 dissertation credits (PSYC 998 Doctoral Dissertation Proposal and PSYC 999 Doctoral Dissertation combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

Select 12 credits from the following:  12

**PSYC 998**  Doctoral Dissertation Proposal

**PSYC 999**  Doctoral Dissertation

**Total Credits**  12
Concentration in Clinical Psychology (CLN)

Overview

The clinical psychology concentration is committed to the clinical science model. Our goal is to train clinical psychologists who are capable of integrating research and applied clinical activities. The program is unique in approaching clinical psychology from social psychological and contextual perspectives. A social psychological approach uses theory and research from social psychology to understand emotional, cognitive, behavioral, and interpersonal functioning. A contextual perspective stresses the impact of social and cultural factors on the individual and vice versa. Most of the faculty members employ cognitive-behavioral and interpersonal approaches to research and clinical practice, but students also receive exposure to humanistic, existential, and psychodynamic perspectives.

Students pursuing this concentration must complete 76 graduate credits comprised of doctoral course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master's degree as described above.

**Internship**

Students complete a full-time, 12-month clinical psychology internship at a site accredited by the American Psychological Association.

**Externship (optional, but recommended)**

Students complete a part-time clinical psychology externship in the fourth and/or fifth year of the program.

**Concentration in Cognitive and Behavioral Neuroscience (CBNR)**

**Overview**

This concentration focuses on studying biological substrates of behavior. Core and affiliated faculty study areas as diverse as neural control of behavioral development; animal models of learning and memory and their disorders (such as Alzheimer’s); human brain systems involved in cognition, perception, human error, decision making, and movement; the relation of neural activity to human performance; and cognitive aging. A focus of the program is on translational neuroscience-complementary study of neural systems in humans and animals, including application of animal research to human behavior.

The program’s core facilities have well-equipped behavioral testing and histological/histochemical facilities. The program’s strong links to the Krasnow Institute for Advanced Study and the Center for Biomedical Genomics and Informatics allows opportunities for collaborative work as diverse as tissue slice preparations and molecular genetics. The doctoral program prepares students for research-based careers in academics, government, or industry.

Students pursuing this concentration must complete 72 graduate credits comprised of course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master’s degree as described above.

Concentration in Human Factors/Applied Cognition (HF)

Overview
The human factors and applied cognition concentration covers basic theoretical and empirical issues and emphasizes research that applies cognitive science to real-world problems. The program builds bridges between human factors engineering and cognitive psychology. Many applications of cognitive science are in the domain of human factors, and many doctoral students who complete our program go on to be human factors professionals.

Students pursuing this concentration must complete 72 graduate credits comprised of course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master’s degree (up to 30 credits).

### Elective Courses

Students have several options for completing the remaining 72 credits required for the degree. They may take additional content courses with permission of their advisor. Students who do not have work experience in applied cognition or human factors are encouraged to take up to 6 credits of practicum.

Students are strongly encouraged to develop competence in programming and computer science through course work or independent study. Students are also encouraged to identify and take relevant courses within or outside the department with permission of their advisor.

Some options for fulfilling this requirement:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYC 734</td>
<td>Seminar in Human Factors and Applied Cognition</td>
<td>3</td>

Concentration in Industrial/Organizational Psychology (IO)

Overview
The industrial/organizational psychology concentration focuses on multiple aspects of behavior in organizational settings, including personnel selection, quantitative analysis, teams, leadership, work and family issues, and organizational health issues. Mason's graduate work in this area emphasizes research as the key to knowledge in both academic and applied settings. The program fosters a peer-oriented environment whereby students collaborate on numerous projects in addition to working with faculty members, in many different areas of industrial/organizational psychology.

Students pursuing this concentration must complete 72 graduate credits comprised of course work and at least 12 credits of dissertation research. The number of credits required may be reduced for a prior master’s degree as described above.

Total Credits 9

1 Students taking 12 credits of specialized content may add additional 3 credits of PSYC 897 Directed Reading and Research.

Electives

Students complete the remaining credits required for this degree through additional course work in professional development or dissertation.

Advancement to Candidacy
To advance to candidacy, students must complete all core courses required by the program. Students must also successfully complete and pass written and oral comprehensive exams.

Dissertation Research
The dissertation requirement is designed to demonstrate the student’s ability to apply psychological principles to research problems. Once
enrolled in PSYC 999 Doctoral Dissertation, students must follow the university's continuous registration policy as specified in AP.6.10.6 Dissertation Research (p. 93). Students who defend in the summer must be registered for at least 1 credit of PSYC 999 Doctoral Dissertation.

Students complete a minimum of 3 credits of PSYC 998 Doctoral Dissertation Proposal and 3 credits of PSYC 999 Doctoral Dissertation. They must apply a minimum of 12 dissertation credits (PSYC 998 Doctoral Dissertation Proposal and PSYC 999 Doctoral Dissertation combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

Select 12 credits from the following:

---

**Department of Religious Studies**

Phone: 703-993-1290  
Website: religious.gmu.edu

**Undergraduate Program**

The department offers a bachelor's degree in religious studies for students who are interested in learning more about the world’s religious traditions. Majors explore the many dimensions of religion and study religion’s spiritual, historical, cultural, and social aspects.

**Areas of Study**

Areas of study offered by the department include Asian religious traditions, Near (Middle) East religious traditions (Judaism, Islam, and Christianity), and comparative aspects of religion. Though the required coursework, majors in religious studies develop skills in reading and interpreting sacred texts. They explore the cultural and social dimensions of religion along with a consideration of religious values and ethics, from comparative and cross-cultural perspectives with relation to global issues.

**Courses**

The courses in the undergraduate program are writing intensive. They enable students to study and analyze religious ideas and symbols and give them the skills they need to present well-argued papers.

**Minors**

Students majoring in religious studies are encouraged to do one of the many minors offered by the college. See Minors and Interdisciplinary Minors (p. 295) on the College of Humanities and Social Sciences page.

The department also offers minors in religious studies and Judaic studies, both of which are available to students in all majors in the university.

**Graduate Program**

The department sponsors the concentration in religion, culture, and values in the interdisciplinary studies, MAIS (p. 534). This concentration is designed for students who are interested in exploring the world’s major religions at the graduate level. Students study the development and interaction of the global religious traditions that influence human identity, behavior, culture, and values. They investigate the effects that historical crises and the forces of change have on religion, placing contemporary religious pluralism and inter-religious dialog in a global context.

**Faculty**

**Department Faculty**

**Professor**

Ro, Sachedina

**Professors Emeriti**

Burns

**Associate Professors**

M. Dakake (chair), Farina, Nguyen, Rashkover, Shiner

**Assistant Professors**

**Programs**

- Judaic Studies Minor
- Religious Studies Minor
- Religious Studies, BA

**Judaic Studies Minor**

**Banner Code:** JS

**Academic Advising**

B465 Robinson Hall  
Fairfax Campus

Website: religious.gmu.edu/programs/la-minor-reli-js

The minor is designed for students interested in the culture, history, and politics of Jewish communities across the world.

**Admissions & Policies**

**Policies**

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Religious Studies, BA

Banner Code: LA-BA-RELI

B465 Robinson Hall
Fairfax Campus
Website: religious.gmu.edu/programs/la-ba-reli

Religious studies provides students an understanding of the traditions of religions across the globe. Areas of study offered by the department include Asian religious traditions, Near (Middle) East religious traditions (Judaism, Islam, and Christianity), and comparative aspects of religion. Students develop skills in reading and interpreting sacred texts. They explore the cultural and social dimensions of religion along with a consideration of religious values and ethics from comparative and cross-cultural perspectives, and with relation to global issues. Students go on to work in the government, service, or nonprofit sectors, as well as pursue graduate work in the humanities.

Admissions & Policies

Policies
Students in this major complete at least 33 credits within the major, earning a minimum grade of 2.00 in each course. No course applied to the major in religious studies may be used to fulfill more than one requirement.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements
Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 477) tab.
Core Courses in the Major

Introductory Courses in the Main World Religions
RELI 211 Religions of the West (Mason Core) (p. 135) 3
RELI 212 Religions of Asia (Mason Core) (p. 135) 3
Total Credits 6

Comparative or Methodological Aspects of the Study of Religion
Select two courses from the following: 6
- ANTH 313 Myth, Magic, and Mind (Mason Core) (p. 135)
- PHIL 313 Philosophy of Religion
- RELI 337 Mysticism: East and West
- RELI 341 Global Perspectives on Spirituality and Healing (Mason Core) (p. 135)
- RELI 490 Comparative Study of Religions (Mason Core) (p. 135)
- SOCI 385 Sociology of Religion
- RELI 376 Special Topics in Religious Thought

Total Credits 6

1 Only when topic is relevant and with the prior written approval of the undergraduate director.

Religious Studies
Select four courses (12 credits) from any religious studies (RELI) at the 300 and 400 level other than those used to fulfill the requirements above. 12
Total Credits 12

1 Choose courses in a scriptural language (such as Arabic, Biblical Hebrew, Chinese, Classical Greek, Latin, or Sanskrit). Up to 6 credits of a scriptural language may be used to fulfill this requirement and the 6 credits of electives.

One Seminar
Students should take this course during their senior year.
RELI 420 Seminar 3
Total Credits 3

Electives in the Major
Select two electives in consultation with an advisor. 1 6
Total Credits 6

1 Choose from courses in religious studies, related disciplines (including anthropology, art history, and history), or a scriptural language (such as Arabic, Biblical Hebrew, Chinese, Classical Greek, Latin, or Sanskrit). Up to 6 credits of a scriptural language may be used to fulfill this requirement and the requirement of 12 credits in religious studies at 300 and 400 level.

Writing-Intensive Requirement
The university requires all students to complete at least one course designated "writing intensive" in their majors. Students majoring in religious studies fulfill this requirement by successfully completing RELI 420 Seminar.

Upper Level Requirement
Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree
In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies
Code Title Credits
- PHIL 323 Classical Western Political Theory 1
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 450 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

Social and Behavioral Sciences
Code Title Credits
- ANTH 1119 1
- CRIM 1372
- ECON 1413
- GOVT 1588
- HIST 1628
- LING 1694
- PSYC 1844
- SOCI 1923

1 Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement) 1
- ANTH (p. 1119)
- CRIM (p. 1372)
- ECON (p. 1413)
- GOVT (p. 1588)
- HIST (p. 1628)
- LING (p. 1694)
- PSYC (p. 1844)
- SOCI (p. 1923)

Or choose from the following GGS courses:
- GGS 101 Major World Regions (Mason Core) (p. 135)
- GGS 103 Human Geography (Mason Core) (p. 135)
- GGS 110 Introduction to Geoinformation Technologies
- GGS 301 Political Geography
- GGS 303 Geography of Resource Conservation (Mason Core) (p. 135)
- GGS 304 Population Geography (Mason Core) (p. 135)
- GGS 305 Economic Geography
- GGS 306 Urban Geography
The two courses used to fulfill the combined college and Mason Core requirements must be from different disciplines in the social and behavioral sciences.

Additional Elective Courses
Any remaining credits may be completed with electives to bring the degree total to 120.

Accelerated Master's
The accelerated master's programs in the list below specify the BA in religious studies as a feeder degree for their programs. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of master's degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Bachelor's Degree (selected)/Middle East and Islamic Studies, Accelerated MA

Overview
Highly-qualified undergraduates pursuing a BA in select majors (listed below) may apply to the accelerated master's degree in Middle East and Islamic studies. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's degree in Middle East and Islamic studies after satisfactory completion of 144 credits, sometimes within five years. See AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
- government and international politics (p. 917)
- global affairs (p. 509)
- history (p. 394)
- religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- sociology (p. 494)
- anthropology (p. 484)

It is preferred, though not required, that the student have a minor in Middle East studies or Islamic studies.

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Middle East and Islamic studies, see Application Requirements and Deadlines (http://meis.gmu.edu/programs/la-ma-acel-meis).

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete two graduate courses as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).
Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Religion, Culture, and Values Concentration)

Overview
Highly-qualified undergraduates in selected majors (see below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in religion, culture, and values. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's in interdisciplinary studies with a concentration in religion, culture, and values after satisfactory completion of 150 credits, sometimes within five years. See AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
- Art history (p. 384)
- Philosophy (p. 432)
- Conflict analysis and resolution (p. 882)
- Global affairs (p. 509)
- History (p. 394)
- Religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- Sociology (p. 494)
- Anthropology (p. 484)

If the student has not majored in religious studies (p. 477), it is preferred, though not required, that the student have a minor in religious studies (p. 477).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application).

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete two graduate courses as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

Department of Sociology and Anthropology
B305 Robinson Hall
Fairfax Campus
Phone: 703-993-1440
Website: soan.gmu.edu

Undergraduate Programs
Anthropology
The department offers a bachelor of arts degree in anthropology. The program draws broadly from the social sciences, humanities, and natural sciences, making it a strong undergraduate major that provides a sound interdisciplinary preparation for a variety of careers.

Bachelor's/Accelerated Master's Program
The department offers highly-qualified majors in anthropology the opportunity to apply to an accelerated master's degree program in anthropology. If accepted, students will be able to earn both the
undergraduate and graduate degrees after satisfactory completion of 144 credits, sometimes within five years.

**Sociology**
The department offers a bachelor’s degree in sociology. Sociology majors study how social movements emerge from the collective efforts of individuals and the role that social forces play in defining racial identities and gender roles. They take courses in the theories that explain social phenomena and develop strong research skills, learning how to conduct surveys, interviews, systematic observation as well as how to evaluate sources.

With the strong research skills, critical thinking, and effective writing that are the hallmark of sociology graduates, they are prepared for a variety of career paths from teaching, human service, and human resource occupations to work in the criminal justice system, marketing, and social research. The sociology major is also excellent preparation for students considering law school or graduate training in the social and behavioral sciences.

**Bachelor's/Accelerated Master's Program**
The department offers highly-qualified majors in sociology the opportunity to apply to an accelerated master’s degree program in sociology. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 147 credits, sometimes within five years.

**Minors**
The department offers minors in anthropology and sociology available to students in any major. The department coordinates the interdisciplinary minor in immigration studies and the faculty participate in many other minors in the college.

**Graduate Programs**

**Anthropology**
The department offers a master's degree in anthropology. Students can choose one of three emphases: advanced training in sociocultural anthropology; culture, health and bioethics; or transnational and global issues. They can choose from many courses that are richly interdisciplinary covering such diverse topics as nationalism and transnationalism; bioethics; social movements, ethnicity and identity; conflict and violence; migration, displacement, and refugees; regional ethnography; and political economy and globalization. Departmental specializations include the following regions: Central and South America, Europe, Africa, the Middle East, Asia, and the United States. Course work progresses from core courses to more advanced courses and culminates in a thesis.

**Sociology**
The department offers master’s and doctoral degrees in sociology. Students pursuing a master’s degree in sociology take required courses in theory and methods and a host of electives. Students may choose to focus their electives in one of two specializations: institutions and inequalities or sociology of globalization.

The doctoral degree in sociology provides rigorous training in public and applied social research, including skills in research design, data analysis, and substantive areas that are pertinent to various sectors in the Washington, D.C., area. Graduates have the theoretical, analytical, and professional skills that prepare them for academic positions in teaching or research. They are also well-qualified for nonacademic positions in the many settings that rely on the expertise of sociologists including human service agencies, marketing research firms, educational systems, nonprofit foundations, and law enforcement agencies.

**Funding**
The department has a limited number of teaching assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

**Faculty**

**Department Faculty**

**Emeritus Faculty**
Black, Dumont, Golomb, Williams (anthropology); Borkman (sociology)

**Professors**
Schiller, Seligmann (anthropology); Best, Dennis, Jacobs, Kurtz, Witte, Scimecca (sociology)

**Associate Professors**
Bickford, Trencher (anthropology); Bockman, Dale, Davis, Guagnano, Hanrahan, Kim (sociology)

**Assistant Professors**
Hughes Rinker, Klaus, Mantz, Sadana, Takahashi, Temple (anthropology)

**Term Associate Professor**
Masters

**Term Assistant Professor**
Storelli (sociology)

**Adjuncts**
Gerber, Hodges, Lowry (anthropology); Mitcho, Nambiar, Pearlman, Smith (sociology)

**Affiliate Faculty**
Avruch, Blum, Usher (anthropology); Goldstone, Johnson, Nambiar, Sandole-Staroste, Smith, Spalter-Roth (sociology)

**Requirements & Policies**

**Policies**

**Nondegree Status**
Applicants who do not wish to pursue a degree may apply for nondegree status. Nondegree students must meet the same admission requirements as degree-seeking students (minimum undergraduate GPA of 3.00, among other criteria). Nondegree students may later apply for admission to a degree program. Up to nine credits earned in nondegree status may transferred to the master’s degrees in anthropology or sociology, subject to the approval of the program director and dean.

**Programs**

- Anthropology Minor

**Anthropology, BA**

**Banner Code:** LA-BA-ANTH

B305 Robinson Hall
Fairfax Campus

Website: soan.gmu.edu/programs/la-ba-anth

Anthropology is the study of human beings and their cultures. Majors develop an eye for detail and careful observation, critical thinking, sensitivity to the unfamiliar, skills in research and writing, and an ability to describe and understand culture. The programs in archaeology and biological anthropology give hands-on research experience with faculty through fieldwork in bioarchaeology, archaeology, and museum-based data collection. The programs in cultural anthropology connect anthropological research to current social challenges such as health and disease, urbanization, and geopolitics. It is a strong undergraduate major that provides sound interdisciplinary preparation for a variety of careers.

**Admissions & Policies**

**Policies**

Students pursuing this degree must complete 36 credits within the major, with a minimum GPA of 2.00.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 85).

**Requirements**

**Degree Requirements**

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 484) tab.

Students are advised to consult with an advisor to learn how they can fulfill Mason Core (p. 135) requirements in global understanding, information technology, and synthesis, as well as the college-level requirement in non-Western culture.

**Core Courses in the Major**

</table>
ANTH 490  Theories, Methods, and Issues II  3  
Total Credits  12

1 SOC1 311 Classical Sociological Theory may substitute for ANTH 390 Theories, Methods, and Issues I.

Electives in the Major
Select 24 credits from the following:  24
ANTH courses 300-499 (p. 1119)  1
The following SOCI courses:
SOC1 311 Classical Sociological Theory  2
SOC1 313 Statistics for the Behavioral Sciences (Mason Core) (p. 135)

Total Credits  24

1 Students wishing to pursue careers in anthropology should consider taking ANTH 492 Contemporary Controversies in Anthropology or subfield specialty equivalents, such as ANTH 420 Interpretation in Archaeology, ANTH 450 Qualitative Methods: Nonstatistical Approaches in Culture and Social Research, ANTH 495 Internship, or ANTH 496 Evolutionary Theory as one of their electives.
2 Only if not used as a substitute for core course ANTH 390 Theories, Methods, and Issues I

Writing-Intensive Requirement
The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in anthropology may fulfill this requirement by successfully completing ANTH 490 Theories, Methods, and Issues II

Upper Level Requirement
Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree
In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies
Select 3 credits from the following:  3
PHIL (p. 1818)  1
RELI (p. 1904)

1 Note that the following courses may not be used to fulfill this requirement:
• PHIL 323 Classical Western Political Theory
• PHIL 324 Modern Western Political Theory
• PHIL 327 Contemporary Western Political Theory
• PHIL 393 Humanities College to Career
• PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

Social and Behavioral Sciences
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement)  1
ANTH (p. 1119)
CRIM (p. 1372)
ECON (p. 1413)
GOVT (p. 1588)
HIST (p. 1628)  2
LING (p. 1694)
PSYC (p. 1844)
SOC1 (p. 1923)

Or choose from the following GGS courses:
GGS 101 Major World Regions (Mason Core) (p. 135)
GGS 103 Human Geography (Mason Core) (p. 135)
GGS 110 Introduction to Geoinformation Technologies
GGS 301 Political Geography
GGS 303 Geography of Resource Conservation (Mason Core) (p. 135)
GGS 304 Population Geography (Mason Core) (p. 135)
GGS 305 Economic Geography
GGS 306 Urban Geography
GGS 315 Geography of the United States
GGS 316 Geography of Latin America
GGS 320 Geography of Europe
GGS 325 Geography of North Africa and the Middle East
GGS 330 Geography of the Soviet Succession States
GGS 357 Structures in Urban Governance and Planning
GGS 380 Geography of Virginia

1 The two courses used to fulfill the combined college and Mason Core (p. 135) requirements must be from different disciplines in the social and behavioral sciences.
2 HIST 100 History of Western Civilization (Mason Core) (p. 135) and HIST 125 Introduction to World History (Mason Core) (p. 135) may not be used to fulfill this requirement.
### Foreign Language

**Code** | **Title** | **Credits**
--- | --- | ---
Intermediate-level proficiency in one foreign language, fulfilled by:

1. Completing a course in a foreign language numbered 202, 209, or 210 (or higher level courses taught in the language) (p. 414)

2. Or achieving a satisfactory score on an approved proficiency test

3. Or completing the following ASL three course sequence:
   - EDSE 115 American Sign Language (ASL) I
   - EDSE 116 American Sign Language (ASL) II
   - EDSE 219 American Sign Language (ASL) III

Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

### Non-Western Culture

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

**Code** | **Title** | **Credits**
--- | --- | ---
 Select 3 credits (additional to Mason Core Global Understanding requirement) 1

1 A course used to fulfill the Mason Core global understanding (p. 139) requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

**Mason Core**

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

Total Credits: 40

1 minimum 3 credits

**Additional Electives**

Any remaining credits may be completed with elective courses to bring the degree total to 120.
Honors

Honors in the Major
Highly-qualified students majoring in anthropology may apply to graduate with honors in the major.

Eligibility
To be eligible, students must have completed at least 60 credits, taken ENGH 302 Advanced Composition (Mason Core) (p. 135) for the social sciences, completed 15 credits of anthropology (including ANTH 114 Introduction to Cultural Anthropology (Mason Core) (p. 135)), and have a minimum cumulative GPA of 3.30 and a minimum grade of B+ in anthropology courses.

Requirements
If accepted, students complete two honors courses. The first course is an honors section of one of these courses: ANTH 496 Evolutionary Theory, ANTH 420 Interpretation in Archaeology, ANTH 430 Research Methods in Archaeology, ANTH 450 Qualitative Methods: Nonstatistical Approaches in Culture and Social Research, ANTH 495 Internship or another course chosen in consultation with the honors director. The second course is ANTH 499 Independent Research, in which students complete an honors paper written under the guidance of an anthropology faculty member. All candidates for honors in the major participate in an honors colloquium. To graduate with honors in the major, students must complete the honors coursework with a minimum GPA of 3.50.

Accelerated Master's

The accelerated master's programs in the list below specify the BA in anthropology as a feeder degree for their programs. It is important to note, however, that many accelerated master’s programs are available for any bachelor’s degree at Mason, including this one. See the full list of master’s degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Anthropology, BA/Anthropology, Accelerated MA

Overview
Highly-qualified Mason anthropology majors may apply to the accelerated master’s degree program. If accepted, students will be able to earn both a BA and a MA in anthropology after satisfactory completion of 144 credits, sometimes within 5 years. Students with both a BA and MA have a competitive advantage when applying to PhD programs in anthropology. See AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in anthropology, see Application Requirements and Deadlines (http://soan.gmu.edu/programs/LA-MA-ANTH/application).

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete two graduate courses (chosen from ANTH 535 Anthropology and the Human Condition: Seminar I, ANTH 536 Anthropology and the Human Condition: Seminar II, and ANTH 650 Methods in Anthropology) as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from ANTH 635 Regional Ethnography, ANTH 650 Methods in Anthropology, or ANTH 699 Contemporary Issues in Sociocultural Anthropology). These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor's/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Bachelor's Degree (selected)/Middle East and Islamic Studies, Accelerated MA

Overview
Highly-qualified undergraduates pursuing a BA in select majors (listed below) may apply to the accelerated master's degree in Middle East and Islamic studies. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s degree in Middle East and Islamic studies after satisfactory completion of 144 credits, sometimes within five years. See AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
- government and international politics (p. 917)
- global affairs (p. 509)
- history (p. 394)
- religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- sociology (p. 494)
• anthropology (p. 484)

It is preferred, though not required, that the student have a minor in Middle East studies or Islamic studies.

### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Middle East and Islamic studies, see Application Requirements and Deadlines (http://meis.gmu.edu/programs/la-ma-acel-meis).

### Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete two graduate courses as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

#### Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

### Bachelor’s Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Women and Gender Studies Concentration)

#### Overview

Highly-qualified undergraduates in select majors may apply to the accelerated master’s degree in interdisciplinary studies with a concentration in women and gender studies (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s degree in interdisciplinary studies with a concentration in women and gender studies after satisfactory completion of 150 credits, sometime within five years.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

#### Selected Majors

Anthropology (p. 484), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), and Communication (p. 305).

#### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see http://mais.gmu.edu/programs/la-mais-isin/application on the departmental web site.

#### Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete two graduate courses as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. **Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Religion, Culture, and Values Concentration)**

**Overview**

Highly-qualified undergraduates in selected majors (see below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in religion, culture, and values. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's in interdisciplinary studies with a concentration in religion, culture, and values after satisfactory completion of 150 credits, sometimes within five years. See AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Selected Majors**

- Art history (p. 384)

Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)

Overview
Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master's in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's degree, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Anthropology, MA
Banner Code: LA-MA-ANTH

Academic Advising
B305 Robinson Hall
Fairfax Campus
Website: soan.gmu.edu/programs/la-ma-ant

Anthropology MA students learn the history of critical inquiry in the discipline of anthropology and how to approach and develop a topic of research. Students are trained in fieldwork and ethnographic methods appropriate for their goals and are guided through the research and writing methods central to completion of a thesis or project. In the process, students learn about the ethics of conducting research. Students may focus on cultural anthropology or bioarchaeology. The program prepares students for careers in government, the private sector, non-governmental organizations, museums, and numerous other fields, or to pursue a doctorate in the field.

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Admissions (p. 66). For specific information, see Application Requirements and Deadlines (http://soan.gmu.edu/programs/application/LA-MA-ANTH).

Policies
For policies governing all graduate degrees, see Graduate Policies (p. 87).

Reduction of Credit
Students with previously conferred graduate degrees may request a reduction of credit. Reductions of credit may not exceed six elective credits and no reductions will be given for required core courses. Evaluation of a previously conferred graduate degree for reduction of credit is not automatic and students must request this review in their first semester of matriculation in the master’s program.

Satisfactory Progress
According to university policy, students may be terminated if they fail to achieve satisfactory progress toward their degree. Students in the program are judged as having failed to achieve satisfactory progress toward their degree for the following reasons:

- two consecutive semesters in which academic warnings appear on their transcript
• failure to successfully complete ANTH 535 Anthropology and the Human Condition: Seminar I, ANTH 536 Anthropology and the Human Condition: Seminar II, and ANTH 650 Methods in Anthropology within 4 semesters of first enrolling as degree-seeking students in the MA in anthropology program
• failure to enroll in graduate coursework in anthropology for 2 consecutive semesters, unless there are compelling reasons for not having done so

Like all academic policies, these provisions take effect with the publication of this catalog and apply to all graduate students in the MA in anthropology regardless of their catalog year.

Requirements

Degree Requirements

Total credits: 30

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 491) tab.

Electives

Select 15 credits from advanced courses in anthropology chosen in consultation with an advisor (p. 1119)

Total Credits 15

Students can choose to focus their electives around an emphasis in these four areas: advanced training in sociocultural anthropology; culture, health and bioethics; museums and anthropology; or transnational and global issues. Up to six credits may be from other disciplines with the prior written approval of the graduate director.

Students may take ANTH 690 Internship as elective credit. An internship can serve as a primary field research site for the thesis.

Thesis or Research Project

Students should be aware of the policies governing theses. They must follow the thesis enrollment policy (p. 91) of the university and once enrolled in ANTH 799 Master’s Thesis, maintain continuous enrollment.

Three credits from one of the following:

Accelerated Master’s

Anthropology, BA/Anthropology, Accelerated MA

Overview

Highly-qualified Mason anthropology majors may apply to the accelerated master’s degree program. If accepted, students will be able to earn both a BA and a MA in anthropology after satisfactory completion of 144 credits, sometimes within 5 years. Students with both a BA and MA have a competitive advantage when applying to PhD programs in anthropology. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in anthropology, see Application Requirements and Deadlines (http://soan.gmu.edu/programs/MA-ANTH/application).

Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete two graduate courses (chosen from ANTH 535 Anthropology and the Human Condition: Seminar I, ANTH 536 Anthropology and the Human Condition: Seminar II, and ANTH 650 Methods in Anthropology) as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from ANTH 635 Regional Ethnography, ANTH 650 Methods in Anthropology, or ANTH 699 Contemporary Issues in Sociocultural Anthropology). These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).
Immigration Studies Minor

Banner Code: IMMS

Academic Advising
B305 Robinson Hall
Fairfax Campus
Phone: 703-993-1178
Website: soan.gmu.edu/programs/la-minor-la-imms

The minor combines perspectives from the humanities and social sciences to provide an interdisciplinary and comparative understanding of the immigrant experience, ethnic identity, assimilation, ethnic exclusion and conflict, and refugee situations.

Faculty
Cleaveland, Haines, Ihara, Leeman, Rabin, Ritchie, Seligmann, Shutika, Trencher (director)

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 15

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 493) tab.

Core Courses
- ANTH 340 Comparative Perspectives on Immigration (3)
- or SOCI 330 US Immigrants and Immigration (3)

Ethnicity in the United States
Select one course from the following:
- CHIN 328 Asian American Women Writers (Mason Core) (p. 135)
- SOCI 308 Race and Ethnicity in a Changing World
- ENGH 352 Topics in Ethnic American Literature
- ENGH 416 Ethnicity and Migration in Folklore
- SPAN 388 Introduction to Latina/o Studies (Mason Core) (p. 135)
Total Credits (3)

Global Perspectives on Migration and Ethnicity
Select one course from the following:
- ANTH 331 Refugees (Mason Core) (p. 135)
- GOVT 445 Human Rights
- CONF 302 Culture, Identity, and Conflict

Sociology Minor

Banner Code: SOCI

Academic Advising
B305 Robinson Hall
Fairfax Campus
Website: soan.gmu.edu/programs/la-minor-soan-soci

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 493) tab.

Core Courses
Students must complete each of these courses with a minimum grade of 2.00.
- SOCI 101 Introductory Sociology (Mason Core) (p. 135) (3)
- SOCI 311 Classical Sociological Theory (3)
Total Credits (6)

Electives
Select four electives (1)
Total Credits (12)

1 Students may focus the coursework for their minor by choosing electives from one of the four concentrations offered as part of the BA in sociology (p. 494).
Sociology, BA

Banner Code: LA-BA-SOCI

B305 Robinson Hall
Fairfax Campus

Website: soan.gmu.edu/programs/la-ba-soci

Sociology involves the systematic study of social structures, cultural patterns, and human relationships. It combines rigorous methods with theory and observation, yielding insights that challenge commonly held assumptions about the social world. Sociology also informs the practice of social and public service, aiding efforts to address important social problems. Sociology majors pursue a varied set of career paths, ranging from teaching, human service and human resource occupations, to positions in the criminal justice system, marketing, and social research. The major is excellent preparation for students considering law school or graduate training in the social and behavioral sciences.

Admissions & Policies

Policies
Students pursuing this degree must complete 34 credits of sociology courses with a minimum GPA of 2.00. No more than 6 credits of courses with unsatisfactory grades (C- or D) may be applied toward the degree.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements
Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 494) tab.

Core Courses in the Major
The introductory course must be completed with a minimum grade of 2.00.

- SOCI 101 Introduction to Sociology (Mason Core) (p. 135)

Total Credits 3

Additional Core Courses
Each of these courses must be completed with a minimum grade of 2.00.

- SOCI 303 Methods and Logic of Inquiry
- SOCI 311 Classical Sociological Theory
- SOCI 313 Statistics for the Behavioral Sciences (Mason Core) (p. 135)
- SOCI 412 Contemporary Sociological Theory

Total Credits 13

Capstone Experience Course
Select one from the following:

- SOCI 485 RS: Sociological Analysis and Practice (Mason Core) (p. 135)
- SOCI 416 Internship in Sociology
- SOCI 481 RS: Honors Seminar in Sociology II

Total Credits 3

Electives in the Major
Select 15 credits in sociology (SOCI) at the 300 or 400 level (p. 1923)

Total Credits 15

Students are strongly encouraged to focus four of their elective courses (12 credits) in one of the concentrations which follow, chosen to suit their interests and career objectives. Students who choose a concentration will complete one remaining elective.

Optional Concentrations in the Major
Students can focus 12 of their 15 elective credits to complete one of the following 12-credit concentrations.

Students who graduate with honors in sociology may apply 3 credits of honors coursework to their selected concentration where appropriate and with prior written approval of the undergraduate director.

Concentration in Childhood and Youth (CYC)
This concentration focuses on the changing social realities, experiences, and identities of children and youth as they are formed in different social and historical contexts. It emphasizes children in peer groups, youth subcultural activities, youth and children and the media, schools, families, social movements, social policy, and the welfare state. This concentration is appropriate for students interested in working directly with children and youth or in organizations serving them in a broad range of fields, such as educational counseling, teaching, policy, advocacy or clinical work, family and community services, social work, early child development, and juvenile justice.

- SOCI 360 Youth Culture and Society

Select three from the following:

- SOCI 302 Sociology of Delinquency
- SOCI 307 Social Movements and Political Protest
- SOCI 309 Marriage, Families, and Intimate Life
- SOCI 314 Sociology of Culture
- SOCI 315 Contemporary Gender Relations
- SOCI 352 Social Problems and Solutions (Mason Core) (p. 135)
- ANTH 315 Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective

Total Credits 12

Concentration in Deviance, Crime, and Social Control (DCSC)
This concentration focuses on the social, legal, and political systems that underpin social control in Western societies and beyond. The emphasis is on how norms, values, and common sense regulate human action and the social forces that produce deviant behavior and societal responses to it.

- SOCI 302 Sociology of Delinquency
- SOCI 307 Social Movements and Political Protest
- SOCI 309 Marriage, Families, and Intimate Life
- SOCI 314 Sociology of Culture
- SOCI 315 Contemporary Gender Relations
- SOCI 352 Social Problems and Solutions (Mason Core) (p. 135)
- SOCI 382 Education in Contemporary Society
- SOCI 395 Special Topics in Sociology
- SOCI 483 The Sociology of Higher Education (Mason Core) (p. 135)
- ANTH 315 Socialization Processes: Family, Childhood, Personality in Cross-Cultural Perspective

Total Credits 12
This concentration is appropriate for students interested in the criminal justice system and the law.

Concentration in Global Sociology (GSOC)
This concentration focuses on global interconnectedness and its effect on the nature of societies around the world. It emphasizes new technologies and social processes, migration, transnational communities, global cities, and social movements working across state borders. This concentration is appropriate for students interested in pursuing internationally oriented careers in social change, political reform, and international development.

1 Depending on topic.

Concentration in Inequality and Social Change (INSC)
The focus is on inequalities, such as those of race, class, and sex, and on the manner in which such inequalities become structurally rooted in a society. The emphasis is on understanding the rise of the struggle for human rights, democracy, and various social movements that have sought to reverse these inequalities through protests, demonstrations, counterorganizations, and the ballot. This concentration is appropriate for students who seek careers in social justice organizations, social services, or teaching, and those who wish to participate in social and political movements.

Total Credits 12

1 Depending on topic.

Writing-Intensive Requirement
The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in sociology may fulfill this requirement by successfully completing SOCI 412 Contemporary Sociological Theory.

Upper Level Requirement
Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree
In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies

1 A course used to fulfill the Mason Core global understanding requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

Mason Core

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

1 minimum 3 credits

Additional Elective Courses

Any remaining credits may be completed with elective courses to bring the degree total to 120.

Honors

Honors in the Major

Highly qualified students majoring in sociology may apply to graduate with honors in the major. To be eligible, students must have completed at least 75 credits, taken ENGH 302 Advanced Composition (Mason Core) (p. 135) for the social sciences, completed 21 credits of sociology, and have a minimum cumulative GPA of 3.30 and a minimum grade of B+ in sociology courses. Applicants must have completed SOCI 303 Methods and Logic of Inquiry and SOCI 311 Classical Sociological Theory with a minimum grade of B in each.

If accepted, to graduate with honors in sociology, students must complete SOCI 480 Honors Seminar in Sociology I and SOCI 481 RS: Honors Seminar in Sociology II with a minimum grade of B+ in each of these courses and have an overall GPA of 3.50 in sociology courses presented for graduation. SOCI 481 RS: Honors Seminar in Sociology II includes completion of an honors thesis, which will be presented at a sociology colloquium.

Accelerated Master’s

The accelerated master’s programs in the list below specify the BA in sociology as a feeder degree for their programs. It is important to note, however, that many accelerated master’s programs are available for any bachelor’s degree at Mason, including this one. See the full list of master’s degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Bachelor’s Degree (selected)/Middle East and Islamic Studies, Accelerated MA

Overview

Highly-qualified undergraduates pursuing a BA in select majors (listed below) may apply to the accelerated master’s degree in Middle East and Islamic studies. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s degree in Middle East and Islamic studies after satisfactory completion of 144 credits, sometimes within five years. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors

• government and international politics (p. 917)
• global affairs (p. 509)
• history (p. 394)
• religious studies (p. 477)
• Russian and Eurasian studies (p. 558)
• sociology (p. 494)
• anthropology (p. 484)

It is preferred, though not required, that the student have a minor in Middle East studies or Islamic studies.
Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Middle East and Islamic studies, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-ma-acel-ma-is).

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete two graduate courses as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

Total Credits 6

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Selected Majors
- Art history (p. 384)
- Philosophy (p. 432)
- Conflict analysis and resolution (p. 882)
- Global affairs (p. 509)
- History (p. 394)
- Religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- Sociology (p. 494)
- Anthropology (p. 484)

If the student has not majored in religious studies (p. 477), it is preferred, though not required, that the student have a minor in religious studies (p. 477).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-ma-acel-ma-is).

Total Credits 6

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Religion, Culture, and Values Concentration)

Overview
Highly-qualified undergraduates in selected majors (see below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in religion, culture, and values. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's in interdisciplinary studies with a concentration in religion, culture, and values after satisfactory completion of 150 credits, sometimes within five years. See AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)**

**Overview**

Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master's in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Selected Majors**

Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental website.

**Accelerated Option Requirements**

While undergraduate students, accelerated master's students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**Sociology, BA/Sociology, Accelerated MA Overview**

Highly-qualified Mason sociology majors may apply to the accelerated master's degree program. If accepted, students will be able to earn both a BA and an MA in sociology following satisfactory completion of 147 credits, sometimes within five years. See AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in sociology, see Application Requirements and Deadlines (http://soan.gmu.edu/programs/LA-MA-ACEL-SOCI/application).

**Accelerated Option Requirements**

While undergraduate students, accelerated master's students complete two graduate SOCI courses at the 500 and 600 level (chosen in consultation with the graduate program director and indicated on their Accelerated Master's Program Application) with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits of SOCI (p. 1923) courses as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).
Students pursuing an MA in sociology may choose a specialization in either institutions and inequality, or the sociology of globalization. Under the larger framework of these specializations, students may pursue studies in a wide range of areas of sociological inquiry. Faculty in the program specialize in culture (including music, art, new media, and consumption); family, youth and aging; gender; globalization; immigration and migration; political economy, development and economic sociology; political sociology and social movements; race/ethnicity; religion; sociological theory; and urban sociology. The program is strongly connected to nonprofit and community groups, providing ample opportunity for research, internships, and employment.

### Admissions & Policies

#### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the MA in sociology, see Application Requirements and Deadlines (http://soan.gmu.edu/programs/LA-MA-SOCI/application).

#### Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

### Requirements

#### Degree Requirements

Total Credits  6-9

1 Only with prior written approval of director.

**Thesis or MA Capstone Paper**

**Thesis**
A master’s thesis demonstrates the student’s capacity to carry out independent research. The thesis consists of a substantial sociological research or theoretical project that will contribute to the advancement of knowledge in sociology.

Students must follow the thesis enrollment policy of the university and once enrolled in SOCI 799 Thesis, maintain continuous enrollment as specified in AP.6.9.3 Master’s Thesis (p. 91).

Three or six credits of
SOCI 799  Thesis

Total Credits  3-6

**MA Capstone Paper**
As an alternative to the thesis, students can elect to complete an independent, 25-page research paper. Unlike the thesis, the MA capstone paper must be completed in one semester.

SOCI 797  Master’s Capstone Paper  3

Total Credits  3

**Accelerated Master’s**

**Sociology, BA/Sociology, Accelerated MA Overview**
Highly-qualified Mason sociology majors may apply to the accelerated master’s degree program. If accepted, students will be able to earn both a BA and an MA in sociology following satisfactory completion of 147 credits, sometimes within five years. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in sociology, see Application Requirements and Deadlines (http://soan.gmu.edu/programs/LA-MA-ACEL-SOCI/application).

**Accelerated Option Requirements**
While undergraduate students, accelerated master’s students complete two graduate SOCI courses at the 500 and 600 level (chosen in consultation with the graduate program director and indicated on their Accelerated Master’s Program Application) with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**
Students may take up to 6 additional graduate credits of SOCI (p. 1923) courses as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**Sociology, PhD**

Banner Code: LA-PHD-SOCI

Academic Advising
B305 Robinson Hall
Fairfax Campus
Website: soan.gmu.edu/programs/la-phd-soci

The sociology doctoral degree provides rigorous training in public and applied social research, including skills in research design, data analysis, and substantive areas that are pertinent to various sectors in the Washington, D.C. area. Graduates have the theoretical, analytical, and professional skills that prepare them for academic positions in teaching or research. They are also well-qualified for nonacademic positions in the many settings that rely on the expertise of sociologists including human service agencies, marketing research firms, educational systems, nonprofit foundations, and law enforcement agencies.

**Admissions & Policies**

**Admissions**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For specific information, see Application Requirements and Deadlines (http://soan.gmu.edu/programs/application/LA-PHD-SOCI) on the departmental web site.
Policies

Reduction of Credit
Students who enter the program with a master's degree may be allowed a reduction of credit up to 30 credits subject to the approval of the graduate director and the dean.

Requirements

Degree Requirements
Total credits: 72

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 503) tab.

Following completion of all required course work and passing a candidacy exam, students are advanced to candidacy by the dean and complete a dissertation, an original and independent research project.

Total Credits: 9
Elective Courses
Select six elective courses 18
Total Credits 18

Electives may include up to two courses from outside sociology, chosen in consultation with and approval of the graduate director.

Research Proficiency
Students must demonstrate proficiency in a range of quantitative and qualitative research methods prior to taking the qualifying exams for candidacy. Proficiency is determined by satisfactory course work or an exam.

Advancement to Candidacy
To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully pass one written qualifying examination. The comprehensive exam tests students' mastery of the foundations of sociological inquiry, linking research methods and sociological theory to public concerns, as well as material in the student's area of specialization. It is administered by a faculty committee appointed by the graduate program director. Additionally, students must have an approved dissertation committee. Evidence of completed requirements must be on file in the Dean's Office before a student can advance to candidacy.

Dissertation
Once enrolled in SOCI 999 Doctoral Dissertation, students must maintain continuous registration each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in SOCI 999 Doctoral Dissertation, students must follow the university's continuous registration policy as specified in AP.6.10.6 Dissertation Research (p. 93). Students who defend in the summer must be registered for at least 1 credit of SOCI 999 Doctoral Dissertation.

Students complete a minimum of 3 credits of SOCI 998 Doctoral Dissertation Proposal and 3 credits of SOCI 999 Doctoral Dissertation. They may apply a maximum of 12 dissertation credits (SOCI 998 Doctoral Dissertation Proposal and SOCI 999 Doctoral Dissertation combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of SOCI 999 Doctoral Dissertation. Because students cannot register for credits of SOCI 999 Doctoral Dissertation until they have advanced to PhD candidacy, they may choose (but are not required) to register for additional credits of SOCI 998 Doctoral Dissertation Proposal.

Select 12 credits from the following:

SOCI 998 Doctoral Dissertation Proposal

African American Studies Research and Resource Center
The goal of the African American Studies Research and Resource Center (Paul Robeson Room) is to facilitate new ways for George Mason University students to learn about the African diaspora. As part of their academic and community involvements, students often need to address issues related to African and African American Studies. The center offers them opportunities for hands-on experience with African and African American life. It has been instrumental in assisting students, faculty, staff, and the community in finding resources to accomplish this goal.

The center sponsors a lecture series and a scholar-in-residence program and offers research and resources support for the Mason community.

Programs
African and African American Studies Minor

Banner Code: AAMS
In the minor, students will examine the cultural, historical, economic, and political dimensions and experiences of people of African descent in America, the Caribbean, Africa, and throughout the Diaspora. Students will learn theories and methodologies that are used to examine the complex dynamics of race, class, gender, and ethnicity in America. Through this minor, students are able to develop critical and analytical approaches to societal issues because such issues are addressed and delineated through a variety of academic disciplines.

Students are encouraged to do an internship as part of the minor to further enhance their education and provide them with valuable preparation for the workforce.

1 Other courses, when relevant, may be able to meet this requirement with prior written approval of the director.

The Cultural Studies Program is distinctive in several respects. While similar programs at other universities are based in a department, the program at Mason has a truly interdisciplinary foundation, drawing on faculty members from 14 different departments across the university. The program explicitly links the social sciences and the humanities by combining their methods of interpretation to explore the production, distribution, and consumption of cultural objects in their social contexts. With particular focus on theory and method in crafting this linkage, the program addresses contemporary issues of nationality, class, race, and gender and opens the scope of scholarly inquiry to all forms of culture, past and present.

The doctoral program in cultural studies trains students for scholarship and teaching. The core curriculum includes an introduction to cultural studies and a methods course, as well as courses on political economy,
gender and sexuality, critical race studies, science and technology, social institutions, and visual and performance culture.

All students develop field specializations in two areas of cultural studies. The particular strengths of the program are visual culture, media, and new media studies; political economy and globalization; gender and sexuality studies.

Related Master’s Degrees

Applicants to the doctoral degree in cultural studies must already hold a master’s degree. Students interested in pursuing the PhD in cultural studies at Mason who do not meet this requirement might wish to consider one of the related master’s degrees at Mason (anthropology, English, history, foreign languages, philosophy, and sociology). The required master’s degree may be taken from any institution of the student’s choice.

Funding

The program offers teaching assistantships and fellowships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

Fairfax Campus

Email: cultural@gmu.edu
Website: culturalstudies.gmu.edu/programs/la-phd-cult

The PhD in cultural studies combines theory and method with practice and concrete case studies. Students’ research projects are individualized, as should be the case when research is not confined to the objects and methods of a single discipline. The program’s emphasis is in the development of intellectual mastery and professional competence, while training students for scholarship and teaching. Most graduates go on to careers as university professors. Others pursue careers in cultural advocacy, museum work, and related areas.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). Applicants must already have earned a master’s degree in a relevant field. For further information specific to the PhD in cultural studies, see Application Requirements and Deadlines (http://communication.gmu.edu/programs/LA-PHD-COM/application).

Policies

For policies governing all graduate degrees, see Graduate Policies (p. 87).

Reduction of Credit

Students must have a master’s degree before being admitted to the PhD. Most students receive a reduction of study of 30 credits based on their previous master’s degree.

Academic Performance Standards

Students are required to maintain a minimum cumulative GPA of 3.33 for all coursework, with no unsatisfactory grades. Students who fail to meet this standard at any point will be given a warning and one semester to raise their GPA to the 3.33 minimum. Students who fail to meet this minimum standard for two consecutive or non-consecutive semesters will be terminated from the program.

Requirements

Degree Requirements

Total credits: 78-81

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 507) tab.

CULT 818  Social Institutions

Total Credits  18

Students must take CULT 808 Student/Faculty Colloquium in Cultural Studies a minimum of 3 times

Field Requirements
Under the guidance of faculty advisory committees, students define two fields that point topically and theoretically toward teaching interests, dissertation research, and related forms of professional development. If doctoral level coursework is not available in a given area, students may take one independent study (CULT 870 Independent Study) to support the development of the field.

Field One
CULT 880  Field Concentration 1  3
Two relevant courses from theory or topic courses not used to fulfill the previous requirements or from special topics courses.

Field Two
CULT 880  Field Concentration 1  3
Two relevant courses from theory or topic courses not used to fulfill the previous requirements or from special topics courses.

Total Credits  18

1 Must be taught by that field’s primary advisor.

Field Statements
Students demonstrate competence in each of their two chosen fields by producing and orally defending a field statement that consists of a comprehensive, critical literature review.

The field statements and the defense constitute the candidacy exam for the PhD.

Methodology
Students must take one course in a relevant methodology in which they are not already trained  3

Total Credits  3

Students choose the specific course from program or departmental graduate offerings (600 level or above) under the guidance of their faculty advisory committee.

A course chosen to fulfill the credits for a field requirement, if relevant, may be used to meet the methodology requirement with permission of the faculty advisory committee. Students who do not take a relevant and approved methodology course in partial fulfillment of a field requirement need to take a methodology course (3 credits) to fulfill this requirement. They will have a degree total of 81 credits.

Proficiency in a Foreign Language
Students are required to demonstrate proficiency in at least one foreign language before being permitted to defend the doctoral dissertation proposal.

Electives
Students can complete the 78 credit requirement through credits of additional coursework chosen in consultation with an advisor  0-30

Total Credits  0-30

Advancement to Candidacy
To advance to candidacy, students must successfully complete all course work required on their approved program of study and demonstrate proficiency in a foreign language. Students must also successfully complete two written field statements and pass an oral comprehensive exam based on them.

Dissertation
Once enrolled in CULT 998 Doctoral Dissertation Proposal, students in this degree program must maintain continuous registration in CULT 998 Doctoral Dissertation Proposal or CULT 999 Doctoral Dissertation each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in CULT 999 Doctoral Dissertation, students must follow the university’s continuous registration policy. Students who defend in the summer must be registered for at least 1 credit of CULT 999 Doctoral Dissertation.

Students must complete a minimum of 3 credits of CULT 999 Doctoral Dissertation. They may apply a maximum of 12 dissertation credits (CULT 998 Doctoral Dissertation Proposal and CULT 999 Doctoral Dissertation combined) to the degree.

Global Affairs Program

Lisa Breglia, Director
Phone: 703-993-9185
Website: globalaffairs.gmu.edu

Undergraduate Program
Global Affairs is an interdisciplinary major that introduces students to the processes of globalization that affect all societies. Students gain a sophisticated understanding of complex issues such as terrorism, refugee crises, global inequality, and health and environmental challenges. Core courses in the major provide a knowledge foundation of the political, economic, cultural, and environmental processes in our global and globalizing world. The choice of a thematic or regional concentration helps students tailor the degree to their particular interests and career goals. Students in this program are encouraged to participate in study abroad opportunities and internships. They can complement their major with a second major or a minor.

Global Affairs with a Second Major or Minor
Students can complement their major in global affairs with a second major. Students interested in this option are encouraged to discuss their plans with advisors in both majors. See the section on Credit for More than One Undergraduate Major in Undergraduate Policies.
Students majoring in global affairs are encouraged to complement their major with one of the many minors offered by the college.

**Minor**

The undergraduate program in global affairs offers a minor in global affairs, which is available to students in any major in the university except those majoring in global affairs.

**Graduate Program**

The master's degree in global affairs is an interdisciplinary program that offers students the opportunity to engage in advanced study of a broad range of international global issues.

**Bachelor’s/Accelerated Master’s Program**

Highly qualified undergraduates in any major are invited to apply to the accelerated master's degree program in global affairs. If accepted, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in global affairs after satisfactory completion of 144 credits, often within five years.

Global affairs is an interdisciplinary major that introduces students to the processes of globalization that affect all societies. Students gain a sophisticated understanding of complex issues such as terrorism, refugee crises, global inequality, and health and environmental challenges. Core courses in the major provide a knowledge foundation of the political, economic, cultural, and environmental processes in our global and globalizing world. The choice of a thematic or regional concentration helps students tailor the degree to their particular interests and career goals. Students in this program are encouraged to participate in study abroad opportunities and internships. They can complement their major with a second major or a minor.

This is a Green Leaf program (p. 102).

**Admissions & Policies**

**Policies**

Students pursuing this degree must complete 36-39 credits within the major, with a minimum cumulative GPA of 2.00. Students completing
the Smithsonian-Mason semester program will have a total of 40-43 credits. Students must have a minimum grade of 2.00 in each of the core courses and a minimum grade of 1.67 in each of the courses used to fulfill the concentration and the language requirement for global affairs majors. Students who major in global affairs may not also earn the minor in global systems.

Global affairs majors may fulfill the Mason Core Capstone requirement by successfully completing GLOA 400.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

### Requirements

#### Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 509) tab.

#### Core Courses in the Major

Total Credits: 18

1. Note the prerequisite for this course: GOVT 132 Introduction to International Politics (Mason Core) (p. 135) or GOVT 133 Introduction to Comparative Politics (Mason Core) (p. 135)

#### Language Study Beyond Intermediate Proficiency

To fulfill this requirement, students can continue the study of one language beyond the intermediate proficiency level (required for all BA degrees in the college) or choose to study other languages. After a student has demonstrated intermediate proficiency in one language, the remainder of the requirement may be fulfilled by taking any courses taught in a foreign language, at any level. Students are required to complete:

- Select 6-9 credits of language study beyond intermediate proficiency

  - 9 credits beyond the completion of 210 or the receipt of heritage language waiver
  - 6 credits beyond the completion of 202

Total Credits: 6-9

#### Concentrations in the Major

Students select one concentration and complete the requirements therein. Courses applied to a global affairs concentration must come from at least two different departments. Concentration courses must be unique to the concentration: they cannot be simultaneously used to fulfill any Mason Core (p. 135) or college requirement for the bachelor's degree. They cannot be applied to any other major, minor, concentration, or certificate.

In addition to the courses listed with each concentration, other relevant courses, including special topics courses, study abroad, and internships (maximum 3 credits), may be applied to a concentration with prior written approval from the director.

#### Concentration in the Environment (EVT)

Students may complete this concentration through 12 credits of regular coursework or through the Smithsonian-Mason Semester Program (15-16 credits).

#### Regular Coursework

1. Note the prerequisites for this course: ECON 103 Contemporary Microeconomic Principles (Mason Core) (p. 135) and ECON 104 Contemporary Macroeconomic Principles (Mason Core) (p. 135)

#### Smithsonian-Mason Semester Program

Students complete 15-16 credits offered through the Mason Center for Conservation Studies in cooperation with the Smithsonian National Zoo Smithsonian Conservation Biology Institute. Students may choose to focus their study on "Conservation, Biodiversity and Society", "Wildlife Ecology and Conservation", or "Endangered Species Conservation". Students take the courses in the selected focus area together in one semester, living on site at the institute in Front Royal, VA. Students who apply this coursework to the concentration cannot also apply it to the minor in Conservation Studies.

Select one of the following focus areas: 15-16
Conservation, Biodiversity and Society option (16 credits):

- CONS 320 Conservation in Practice
- CONS 401 Conservation Theory
- CONS 402 Applied Conservation
- CONS 410 Human Dimensions in Conservation (Mason Core) (p. 135)
- CONS 490 RS: Integrated Conservation Strategies (Mason Core) (p. 135)

Wildlife Ecology and Conservation option (15 credits):
Offered only in Fall semesters, students complete four required courses:

- CONS 400 Conservation Seminar
- CONS 404 Biodiversity Monitoring
- CONS 405 Landscape and Macrosystems Ecology
- CONS 496 Research in Conservation

Endangered Species and Conservation option (15 credits)
Offered only in Spring semesters, students complete four required courses:

- CONS 400 Conservation Seminar
- CONS 406 Small Population Management
- CONS 491 RS: Conservation Management Planning (Mason Core) (p. 135)
- CONS 496 Research in Conservation

Total Credits 15-16

Concentration in Global Economy and Management (GEM)
In this concentration, students explore marketing, managing, financing, and networking dimensions of the globalizing world economy. Students will take classes on economic policies of national governments and international organizations as well as operations of non-government market actors.

Select 12 credits from the following:

- ECON 310 Money and Banking
- ECON 360 Economics of Developing Areas (Mason Core) (p. 135)
- ECON 361 Economic Development of Latin America (Mason Core) (p. 135)
- ECON 362 African Economic Development (Mason Core) (p. 135)
- ECON 380 Economies in Transition (Mason Core) (p. 135)
- ECON 390 International Economics (Mason Core) (p. 135)
- FNAN 440 International Financial Management
- GOVT 343 International Political Economy
- GOVT 346 American Security Policy
- GOVT 347 International Security
- GOVT 412 Politics and the Mass Media
- GOVT 434 Democracy in Global Perspective
- GOVT 445 Human Rights
- GOVT 446 International Law and Organization
- GOVT 447 Revolution and International Politics
- GOVT 448 Ethics and International Politics
- INTS 305 Conflict Resolution and Transformation
- INTS 416 Refugee and Internal Displacement
- INTS 422 An Experiential Approach to American Foreign Policy
- SOCI 340 Power, Politics, and Society
- Or other course approved by the program director

Total Credits 12

Concentration in Global Governance (GLGV)
In this concentration students explore how national governments, international organizations, and non-governmental organizations interact to identify, understand, and address global issues. Coursework covers such topics as transnational challenges, theories of international relations, global institutions, international law and ethics, international security, and conflict. Students are expected to garner theoretical and practical understanding of the ways in which national and transnational actors approach global problems.

Select 12 credits from the following:

- ANTH 312 Political Anthropology (Mason Core) (p. 135)
- COMM 305 Foundations of Intercultural Communication (Mason Core) (p. 135)
- CRIM 405 Law and Justice around the World (Mason Core) (p. 135)
- CRIM 475 Theory and Politics of Terrorism
- GGS 301 Political Geography
- GOVT 342 Diplomacy
- GOVT 343 International Political Economy
- GOVT 344 American Foreign Policy
- GOVT 346 American Security Policy
- GOVT 412 Politics and the Mass Media
- GOVT 434 Democracy in Global Perspective
- GOVT 445 Human Rights
- GOVT 446 International Law and Organization
- GOVT 447 Revolution and International Politics
- GOVT 448 Ethics and International Politics
- INTS 305 Conflict Resolution and Transformation
- INTS 416 Refugee and Internal Displacement
- INTS 422 An Experiential Approach to American Foreign Policy
- SOCI 340 Power, Politics, and Society
- Or other course approved by the program director

Total Credits 12

Concentration in Global Inequalities and Responses (GIR)
This concentration addresses global social issues and the steps actors such as non-profits, social movements, and international organizations take to address these issues. Courses cover human rights, refugee crises, gender violence, racial discrimination, and economic inequality from both historical and contemporary perspectives and in different parts of the world. Students are expected to acquire the skills to analyze
complex social problems and to be able to formulate effective strategies to address these.

Select 12 credits from the following:

- ANTH 365 Human Variation
- ANTH 488 Gender, Sexuality, and Culture
- CONF 394 Human Rights and Inequality
- CRIM 405 Law and Justice around the World (Mason Core) (p. 135)
- GCH 332 Health and Disease
- GCH 450 Culture, Sexuality and the Global AIDS Epidemic
- GGS 304 Population Geography (Mason Core) (p. 135)
- GOVT 414 Politics of Race and Gender
- HIST 366 Comparative Slavery
- INTS 304 Social Movements and Community Activism
- INTS 416 Refugee and Internal Displacement
- SOCI 307 Social Movements and Political Protest
- SOCI 308 Race and Ethnicity in a Changing World
- SOCI 315 Contemporary Gender Relations
- SOCI 355 Social Inequality (Mason Core) (p. 135)
- WMST 100 Representations of Women (Mason Core) (p. 135)
- WMST 200 Introduction to Women and Gender Studies (Mason Core) (p. 135)

Or other course approved by the program director

Total Credits 12

Concentration in Human Security (HMSC)
This concentration is designed to conceptualize security beyond the boundaries of national security and to promote a more comprehensive understanding of "human security" in its multiple facets, including: food and health (famine and infectious disease), environmental security (natural disasters and climate change), and economic security (development). Coursework addresses these and other themes and draws on government, sociology, criminology, environmental science and policy, and other fields. Students are expected to gain an understanding of "human security" in its multiple facets, including: boundaries of national security and to promote a more comprehensive

Select 12 credits from the following:

- ANTH 331 Refugees (Mason Core) (p. 135)
- ANTH 340 Comparative Perspectives on Immigration
- CONF 345 Social Dynamics of Terrorism, Security, and Justice
- CRIM 475 Theory and Politics of Terrorism
- ECON 360 Economics of Developing Areas (Mason Core) (p. 135)
- EVPP 436 The Human Dimensions of Global Climate Change
- GCH 332 Health and Disease
- GCH 405 Global Health Interventions: History and Systems
- GGS 311 Introduction to Geographic Information Systems
- GOVT 346 American Security Policy
- GOVT 347 International Security
- GOVT 460 Surveillance and Privacy in Contemporary Society
- INTS 305 Conflict Resolution and Transformation
- INTS 314 Conflict, Trauma and Healing
- INTS 378 Medicine, Justice, and Public Policy
- INTS 416 Refugee and Internal Displacement
- SOCI 320 Social Structure and Globalization (Mason Core) (p. 135)
- Or other course approved by the program director

Total Credits 12

Concentration in International Development (IDEV)
In this concentration, students examine international development, its challenges, and how these are addressed by governments, international organizations, and non-governmental organizations. Coursework covers development economics, the politics of developing regions and transitional economies, the social consequences of global inequality, public health and health-related development issues, humanitarian relief, and more. Students are expected to gain the knowledge and skills to prepare them for work in the development sector or for further specialized studies in international development.

Select 12 credits from the following:

- ANTH 331 Refugees (Mason Core) (p. 135)
- ECON 360 Economics of Developing Areas (Mason Core) (p. 135)
- ECON 361 Economic Development of Latin America (Mason Core) (p. 135)
- ECON 362 African Economic Development (Mason Core) (p. 135)
- GCH 205 Global Health (Mason Core) (p. 135)
- GCH 405 Global Health Interventions: History and Systems
- GGS 303 Geography of Resource Conservation (Mason Core) (p. 135)
- GGS 307 Sustainable Development
- GOVT 336 Political Development and Change
- GOVT 434 Democracy in Global Perspective
- GOVT 445 Human Rights
- GOVT 446 International Law and Organization
- HEAL 350 Interventions for Populations and Communities at Risk
- INTS 401 Conservation Biology
- INTS 416 Refugee and Internal Displacement
- PHIL 344 Ethical Issues in Global Health
- TOUR 340 Sustainable Tourism

Or other course approved by the program director

Total Credits 12

Concentration in Media, Communication, and Culture (MCC)
In this concentration, students examine historic trends and recent changes in media and communication technologies as well as their cultural contexts. Coursework includes critical analysis of media content, comparison of global media infrastructures and systems of political communication, discussion of the foundations of intercultural communication, and more. Students are expected to gain an
understanding of the role of media and communication in shaping and responding to global issues of concern.

Total Credits 12

Concentration in Russia and Central Asia (RCA)
This concentration provides students contemporary and historical perspectives on the political, economic, and cultural climates and trends in Russia and Central Asia. Upon completion of this concentration, students will not only have the skills to critically assess the impacts of Soviet-era legacies on newly independent political systems, economies in transition, and re-emerging cultural traditions, but also knowledge of pre-Soviet sociocultural and political environments in Russia and Central Asia.

Select 12 credits from the following:

- ARTH 386 The Silk Road (Mason Core) (p. 135)
- ECON 380 Economies in Transition (Mason Core) (p. 135)
- GGS 330 Geography of the Soviet Succession States
- GOVT 338 Government and Politics of Russia
- GOVT 340 Central Asian Politics
- GOVT 447 Revolution and International Politics

Total Credits 12
Individualized Concentration (IND)
Students who wish to design their own concentration must submit a one-page proposal and create a curriculum plan to be approved by the director.

Writing-Intensive Requirement
The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in global affairs may fulfill this requirement by successfully completing EVPP 337 Environmental Policy Making in Developing Countries.

Upper Level Requirement
Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements in the BA Degree
In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies
Select 3 credits from the following:

<table>
<thead>
<tr>

</tbody>
</table>

1. Note that the following courses may not be used to fulfill this requirement:
   - PHIL 323 Classical Western Political Theory
   - PHIL 324 Modern Western Political Theory
   - PHIL 327 Contemporary Western Political Theory
   - PHIL 393 Humanities College to Career
   - PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

Social and Behavioral Sciences
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement)

<table>

- Total Credits 40

1 minimum 3 credits

**Additional Electives**

Any remaining credits may be completed with electives to bring the degree total to 120.
Honors in the Major

Highly qualified students may pursue advanced work leading to graduation with honors in the major. Global Affairs majors who have completed 75 credits with an overall GPA of 3.50 and a GPA of 3.50 in courses for the major are eligible to apply to graduate with honors.

Students pursuing honors in the major must complete a two-course honors sequence GLOA 491 Honors Seminar in Global Affairs and GLOA 492 Honors Research Project in Global Affairs with a minimum GPA of 3.50 in the sequence. Not all applicants who meet the minimum requirements are guaranteed acceptance.

Accelerated Master's

The accelerated master's programs listed below specify the BA in global affairs as a feeder degree for their programs. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of master's degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason. In addition, as a student with a BA in global affairs you may be particularly interested in the accelerated Bachelor's/Accelerated Master's Degrees (p. 524).

Bachelor's Degree (selected)/Middle East and Islamic Studies, Accelerated MA

Overview

Highly-qualified undergraduates pursuing a BA in select majors (listed below) may apply to the accelerated master's degree in Middle East and Islamic studies. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's degree in Middle East and Islamic studies after satisfactory completion of 144 credits, sometimes within five years. See AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors

- government and international politics (p. 917)
- global affairs (p. 509)
- history (p. 394)
- religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- sociology (p. 494)
- anthropology (p. 484)

It is preferred, though not required, that the student have a minor in Middle East studies or Islamic studies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Middle East and Islamic studies, see Application Requirements and Deadlines (http://meis.gmu.edu/programs/).

Accelerated Option Requirements

While undergraduate students, accelerated master's students complete two graduate courses as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

Total Credits: 6

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).
Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Religion, Culture, and Values Concentration)

Overview
Highly-qualified undergraduates in selected majors (see below) may apply to the accelerated master’s degree in interdisciplinary studies with a concentration in religion, culture, and values. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s in interdisciplinary studies with a concentration in religion, culture, and values after satisfactory completion of 150 credits, sometimes within five years. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
- Art history (p. 384)
- Philosophy (p. 432)
- Conflict analysis and resolution (p. 882)
- Global affairs (p. 509)
- History (p. 394)
- Religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- Sociology (p. 494)
- Anthropology (p. 484)

If the student has not majored in religious studies (p. 477), it is preferred, though not required, that the student have a minor in religious studies (p. 477).s.

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application).

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete two graduate courses as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Bachelor’s Degree (Green Leaf)/Environmental Science and Policy, Accelerated MS

Overview
This degree option allows highly qualified George Mason University students to earn an Environmental Science and Policy, MS (p. 664) in less time than if they had first graduated with an environmentally-focused Green Leaf-designated (p. 102) BA or BS degree and then applied to the MS program sequentially.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Admission Requirements
Students with an overall GPA of at least 3.20 who are pursuing any Green Leaf-designated (p. 102) major or minor may apply for provisional acceptance into this accelerated master’s program after completing two semesters of chemistry (including CHEM 211 General Chemistry I (Mason Core) (p. 135) and CHEM 212 General Chemistry II (Mason Core) (p. 135))
and three semesters of biology, including a course in ecology, or the equivalent, for example:

Select one of the following options:

**Option 1:**
- BIOL 213: Cell Structure and Function (Mason Core) (p. 135)
- BIOL 214: Biostatistics for Biology Majors
- BIOL 308: Foundations of Ecology and Evolution

**Option 2:**
- EVPP 210: Environmental Biology: Molecules and Cells
- EVPP 301: Environmental Science: Biological Diversity and Ecosystems
- EVPP 302: Environmental Science: Biomes and Human Dimensions
- EVPP 305: Environmental Microbiology Essentials
- EVPP 306: Environmental Microbiology Essentials Laboratory

**Option 3:**
- CONS 401: Conservation Theory
- CONS 402: Applied Conservation
- 6 credits of 6 credits of BIOL or CONS electives

**Option 4:**
- CONS 403: Ecology and Conservation Theory
- CONS 404: Biodiversity Monitoring
- BIOL or CONS electives

By the beginning of the undergraduate’s senior year, they should first submit a Graduate Application for Accelerated Master’s Program form (obtained from the Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us)). Secondly, in their senior year, accelerated master’s students must complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferal of the undergraduate degree in a Green Leaf-designated (p. 102) program, in the semester indicated in the application, they must additionally submit the Bachelor’s/Accelerated Master’s Transition form (found on the Office of the University Registrar website (http://registrar.gmu.edu/forms)) and will subsequently be admitted into graduate status.

By at least the beginning of their senior year, they should seek out a faculty member in the Department of Environmental Science and Policy (p. 661) who is willing to serve as their advisor (unless the student is planning to enroll in the MS concentration in Environmental Management). This advisor will aid the student in choosing the appropriate graduate courses to take and help to prepare the student for graduate studies. Admission into a research-oriented master’s concentration is dependent upon securing the agreement of a faculty advisor. Faculty from a variety of departments and colleges at George Mason (called “program faculty”) can serve as master’s advisors. Potential students are encouraged to speak with the graduate program coordinator in the department to obtain guidance on this issue.

**Application Requirements**

Applicants to all graduate programs at Mason must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog, excluding the GRE exam requirement (which is not required for those enrolled in the accelerated program). This includes three letters of recommendation (at least one from a former professor or someone with a PhD), a recent resume, a statement of interest/research goals and interests (including information on the candidate’s proposed MS research), and a letter from their advisor stating that the advisor agrees to take on the candidate as an MS student, how the candidate would be a good fit for them and why candidate’s research topic would be suitable (please note that a letter of endorsement from an advisor not necessary for candidates taking the Environmental Management concentration).

For information specific to the accelerated Environmental Science and Policy, MS (p. 664), see Graduate Admissions on the department’s website (http://esp.gmu.edu/academic-programs/graduate/admissions).

**Reserve Graduate Credits**

Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 6 credits of appropriate environmentally-focused graduate coursework may be used in partial satisfaction of the requirements for the undergraduate degree. If students earn at least a 3.00 GPA in these classes, they are granted advanced standing in the master's program and must then complete an additional 27-31 credits to receive the master's degree.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition form found on the Office of the University Registrar website (http://registrar.gmu.edu/forms) (as noted above).

Students may take up to 6 additional environmentally-focused graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree but will reduce the subsequent master’s degree credits accordingly (e.g., with 6 credits counted towards undergraduate degree plus the maximum 6 reserve credits, an MS could be completed with 21 post-bachelor’s credits). The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department.

**Global Affairs, MA**

**Banner Code:** LA-MA-GLOA

**Academic Advising**

D215 Mason Hall
Fairfax Campus

Email: globalma@gmu.edu
Website: globalaffairs.gmu.edu/programs/la-ma-gloa

The Global Affairs, MA is an interdisciplinary program offering students the opportunity to engage in advanced study of a broad range of global issues. Students complete a core curriculum that provides the knowledge and skills to think and act globally. Students also pursue specializations that include relevant courses from academic departments across the university. All students in the program take part in a residency abroad, typically two weeks in duration, and complete a capstone
seminar. Graduates enter the workforce or move forward in their already-established international and domestic careers in the public sector, non-governmental organizations, and business.

This is a Green Leaf program (p. 102).

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For specific information, see Application Requirements and Deadlines (http://globalaffairs.gmu.edu/programs/application/LA-MA-GLOA) on the departmental website.

Policies

For policies governing all graduate degrees, see AP .6 Graduate Policies (p. 87).

Students who wish to pursue study abroad in addition to the required core course GLOA 710 Seminar Abroad must receive prior approval and may not use more than 3 credits earned while abroad towards their specialization. Students must maintain a 3.00 cumulative grade point average with no more than two grades below B.

Requirements

Degree Requirements

Total credits: 30

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 522) tab.

Specialization

Students choose to specialize in one of eight fields by completing 12 credits in that field selected from the courses listed. The specialization is developed in consultation with an advisor. Students who wish to design their own specialization must submit a one-page proposal and receive written approval from the director. Specialization courses must come from at least two academic disciplines.

Global Conflict and Security

Select 12 credits from the following:

- BIOD 610 Advanced Topics in Global Health Security (minimum of 3 credits)
- BIOD 621 Ethics and International Security
- BIOD 705 Intelligence: Theory and Practice
- BIOD 706 Nuclear, Biological, and Chemical Weapons Policy and Security
- BIOD 709 Nonproliferation and Arms Control
- BIOD 722 Examining Terrorist Groups
- BIOD 725 Terrorism and Weapons of Mass Destruction
- CONF 501 Introduction to Conflict Analysis and Resolution
- CONF 652 Conflict Analysis and Resolution for Prevention, Reconstruction, and Stabilization Contexts
- CONF 653 World Religions, Diplomacy, and Conflict Resolution
- CONF 658 Diversity and Difference in Conflict Analysis and Resolution
- CONF 659 Leadership in Conflict Analysis and Resolution
- CONF 720 Ethnic and Cultural Factors in Conflict Resolution
- CONF 736 Globalization and International Conflict
- CONF 746 Peace Building
- GOVT 541 Introduction to Critical Analysis and Strategic Response to Terrorism
- GOVT 742 International Negotiation
- GOVT 745 International Security
- PUAD 634 Management of International Security
- PUBP 650 International Conflict and Crisis Response
- PUBP 651 Peace and Stabilization Operations
- or other course approved by the program director

Total Credits 12
Accelerated Option Requirements

While undergraduate students, accelerated master's students complete GLOA 600 Global Competencies and either GLOA 605 Interdisciplinary Research Methods or GLOA 610 Economic Globalization and Development with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits (GLOA 605 Interdisciplinary Research Methods or GLOA 610 Economic Globalization and Development and GLOA 620 Human Systems) as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form. The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Higher Education Program

316 Enterprise Hall
Fairfax Campus
Phone: 703-993-2310
Website: highered.gmu.edu

The Higher Education Program prepares students for positions of leadership in teaching, research, and administration at community colleges, four-year colleges, and universities around the globe. The interdisciplinary curriculum focuses on leadership, the scholarship of teaching and learning, administration, and assessment. The program also prepares students for positions in academic and student affairs as well as in associations, government agencies, and industries whose activities relate to or impact higher education.

MAIS Concentration in Higher Education

The program sponsors the concentration in higher education within the master's degree in interdisciplinary studies (MAIS). This concentration prepares individuals for administrative and leadership positions in two-year colleges or four-year colleges and universities. Students may focus on administration or student services.

See the Interdisciplinary Studies, MAIS (p. 534) for more information.

Doctor of Philosophy in Education with Specialization in Higher Education

The doctor of philosophy in education with a specialization in higher education is offered jointly by the Higher Education Program and the College of Education and Human Development. This doctoral program...
prepares students for faculty positions and positions of leadership in
administration and student services through core required coursework in
higher education and through a secondary concentration that can further
disciplinary expertise.

See the Education and Human Development, PhD (p. 183) for more
information.

Certificates
The program offers graduate certificates in college teaching and in
higher education administration. Students may take these as stand-alone
certificates or pursue them concurrently with a graduate degree program. Part of the certificate course work may be applied to the degree subject to the approval of the director of the graduate degree program. Students must apply and be accepted to a graduate certificate program.

Faculty

Program Faculty

Banner Code: LA-CERG-CTCH

Academic Advising
316 Enterprise Hall
Fairfax Campus
Email: hepadmin@gmu.edu
Website: highered.gmu.edu/programs/la-cerg-ctch

The certificate in college teaching is designed for graduate students who are planning a career in undergraduate education. The program offers courses that enhance pedagogical skills and explore pedagogical assessment or scholarship with the use of technology in instruction. The graduate certificate in college teaching may be pursued on a part-time or full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/College_Teaching/Gedt.html).

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the graduate certificate in college teaching, see Application Requirements and Deadlines (http://chss.gmu.edu/programs/LA-CERG-CTCH/application).

Requirements

Certificate Requirements
Total credits: 18

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 90).

Core Courses
Students may substitute courses with a disciplinary focus for any of the three required courses with prior written approval of the director.

Banner Code: LA-MA-HESD

Academic Advising

316 Enterprise Hall
Fairfax Campus

Email: hepadmin@gmu.edu
Website: highered.gmu.edu/programs/la-ma-hesd

Note: As of catalog publication in April, this program has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

The program prepares students for positions in higher education administration, student development, non-profit higher education associations, and government organizations. Today’s higher education professionals are required to address both the needs of incoming traditionally aged students, as well as those of older students returning for a degree and special populations. The wide range of student backgrounds in the current complex context requires a holistic approach to college student development.

This master’s degree will prepare future higher education leaders who understand higher education in the digital age, student development, multicultural and diverse populations, program development, professionalism, and learning assessment. This multidisciplinary program offers both thesis and project capstone options and is full and part-time student friendly. Alumni hold positions in areas such as career development, academic advising, assessment, facilities management, admissions, and residence life.

**Admissions & Policies**

**Admissions**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For specific information, see Application Requirements and Deadlines on the departmental website.

**Policies**

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Transfer Credit**

Courses applied to the degree are subject to the following restrictions: a maximum of 6 credits may be taken through the Consortium of Universities of the Washington Metropolitan Area; a maximum of 15 credits may be transfer credits; a maximum of 6 of the transfer credits may be from other accredited institutions.

Transfer credits include credits taken before first enrolling as an admitted degree-seeking student (at another institution, in another Mason graduate program, or in Mason non-degree status) or credits taken at another institution after admission to the degree program through study abroad or study elsewhere (which requires prior written approval of the director and the dean). Additional information may be found in AP.6.5.3 Transfer of Credit (p. 88).

¹ HE 685 Practicum may apply to this requirement based upon the work experience and with the approval of the student’s advisor.
² A project is a product the student creates from existing literature such as a traditional research monograph that is smaller in scale than a thesis and/or does not rely on the collection of original data. It is a deliverable with a practical application, such as a manual, handbook, or workshop grounded in research literature.

Higher Education, PhD (pending SCHEV approval)
Banner Code: LA-PHD-HEDU

Academic Advising
316 Enterprise Hall
Fairfax Campus
Email: hepadmin@gmu.edu
Website: highered.gmu.edu/programs/la-phd-hedu

Note: As of catalog publication in April, this program has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

The PhD focuses on leadership, the scholarship of teaching and learning, administration, and assessment. This interdisciplinary, graduate-level curriculum prepares individuals for positions of leadership in teaching, research, and administration at community colleges, four-year colleges, and universities around the globe. The program also prepares students for positions in associations, government agencies, and industries whose activities relate to or impact higher education. Students may concentrate in administration, the scholarship of teaching and learning, or individualized studies (one they create in consultation with an advisor).

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66).

For specific information, see Application Requirements and Deadlines (http://highered.gmu.edu/programs/la-phd-hedu/application) on the college web site.

Policies
For policies governing all graduate degrees, see Graduate Policies (p. 87).

Reduction of Credit
Students must have a master’s degree before being admitted to the PhD. A reduction of credit of up to 24 credits may be received based on the previous master’s degree and is determined on an individual basis.
Requirements

Degree Requirements
Total credits: 72

Students choose from one of three secondary concentrations: Higher Education Administration, Scholarship of Teaching and Learning, or Individualized Study. Each concentration is designed around a specific sub-field and will be guided by a student's professional and research goals.

</tr>
</tbody>
</table>

Two Additional Methods Courses

Students will choose two additional methods courses with one being in either advanced qualitative or quantitative methods. 1

Total Credits: 15

Additional possible advanced methods courses include case study methodology, mixed-methods, structural equation modeling, and multivariate statistics. The advanced methods courses are offered in the Departments of Psychology (p. 443) and Sociology and Anthropology (p. 482) in the College of Humanities and Social Sciences, as well as the College of Education and Human Development (p. 154), and must be approved by the advising portfolio committee.

Concentration in Higher Education Administration (HEDA)

Students in the higher education administration concentration will acquire advanced knowledge and understanding of legal issues, finance and budgeting, institutional assessment, leadership theories and practices, and the role of student services.

<table>
<thead>
<tr>

</tbody>
</table>

One elective course chosen from either the higher education administration concentration or another course at Mason. 1

Total Credits: 15

Choice of elective will be approved by the portfolio committee.

Concentration in Individualized Study (INDV)

Students in the individualized study concentration will acquire advanced skills in an area intentionally designed to meet a set of objectives clearly articulated by the student and approved by the portfolio committee. This concentration will likely include courses with a more multidisciplinary perspective and be taken from programs across Mason. When consistent with Mason policy and students' learning goals, students may use master's course work toward individualized study concentration credits.

Select fifteen credits that meet objectives and have been approved by the portfolio committee. 1

Total Credits: 15

Electives

Student select an additional three courses as electives. These are designed to provide additional content knowledge and skills in subjects that relate to both areas of concentrations.

Select 9 credits from the following:

Total Credits: 9

Portfolio Review

Students will engage in a comprehensive portfolio review process throughout their course work to document accomplishments, assess student growth and development, and provide opportunity for faculty to suggest changes that more closely tie student research and professional goals to the program of study. Three portfolios must be submitted.
1. the first after a student completes 18 credits (portfolio 1)
2. the second after the completion of 36 credits (portfolio 2)
3. and the third once course work is completed to finalize dissertation plans, steps, and timeline.

The portfolio review process requires a committee of three faculty members who review the portfolios and meet with the student after each portfolio is submitted.

**Advancement to Candidacy**

Students must advance to candidacy within six years of enrollment in the program and graduate from the program within nine years. Students will advance to candidacy after completing all course work successfully completing all three portfolio reviews, and successfully completing HE 998 Doctoral Dissertation Proposal with an approved dissertation proposal.

**Dissertation**

To enroll in HE 998 Doctoral Dissertation Proposal, students must have a dissertation chair. Once students enroll in HE 998 Doctoral Dissertation Proposal, students are required to form a dissertation committee consisting of three faculty with one designated as a chair. At least one member of the committee must be from the Higher Education Program unit. Students must also have two additional members with graduate faculty status who could be from another department or college at George Mason University.

The dissertation should use theoretical and social science or humanities methods to address a problem within higher education research, teaching, and practice that is framed by the empirical literature. The dissertation process begins after the student has successfully completed all required 48 credit hours and successfully completed three portfolio reviews.

Once enrolled in HE 998 Doctoral Dissertation Proposal, students in this degree program must maintain continuous registration in HE 998 Doctoral Dissertation Proposal or HE 999 Doctoral Dissertation each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in HE 999 Doctoral Dissertation, students must follow the university’s continuous registration policy as specified in AP.6.10.6 Dissertation Research (p. 93). Students who defend in the summer must be registered for at least 1 credit of HE 999 Doctoral Dissertation.

Students complete a minimum of 3 credits of HE 998 Doctoral Dissertation Proposal and a minimum of 3 credits of HE 999 Doctoral Dissertation. They must apply a minimum of 15 dissertation credits (HE 998 Doctoral Dissertation Proposal and HE 999 Doctoral Dissertation combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

**Individualized Study Program**

A253 Robinson Hall
Fairfax Campus
Phone: 703-993-4556

Website: bis.gmu.edu

The bachelor of individualized study (BIS) provides an alternative to the traditional baccalaureate degree. It offers students a distinctive educational opportunity that allows them to integrate previous experiences into university course work. Recognizing that college-level learning may be acquired through varied professional, military, and personal experience, the Individualized Study Program provides mechanisms for translating experiential learning into academic credit. It accepts transfer credits from traditional institutions of higher education, as well as credits earned through other appropriate means.

In this degree program, most students design their own individualized interdisciplinary program of study. Other students who are interested in early childhood education and who meet specific eligibility requirements can pursue a more prescribed curriculum that leads to a concentration in early childhood education studies.

**Credit for Nontraditional Modes of Learning**

The BIS program allows students to receive college credit for learning acquired through a variety of nontraditional methods. For details, see the Individualized Study (BIS) (p. 529) section of the catalog.

**Programs**

- Individualized Study, BIS

**Individualized Study, BIS**

Banner Code: LA-BIS-INDV

A253 Robinson Hall
Fairfax Campus

Website: bis.gmu.edu/programs/la-bis-indv

The Bachelor of Individualized Study (BIS) Program at George Mason University is an undergraduate degree completion program with a 42-year history of serving adult students. The program combines an interdisciplinary academic framework and a writing-intensive, research-based curriculum to provide students with individualized degree plans. The BIS Program offers students intensive support services, course flexibility, and generous transfer credit options. Students create interdisciplinary concentrations to meet their own educational needs: to advance in their current employment, to prepare for graduate or professional programs, or to plan a path toward a career change.

**Admissions & Policies**

**Admissions**

Students who are interested in the bachelor of individualized study degree must attend an information session. In addition to applying to Mason through the Office of Admissions, they need to apply separately to the BIS Program. The schedule of BIS information sessions and the BIS application are available on the BIS Program website (http://bis.gmu.edu).
Eligibility

Adult transfer applicants, age 25 or older may be considered for the BIS only with the following minimum criteria:

1. 12 credits of transferable college coursework as determined by the Office of Admissions
2. Cumulative collegiate grade point average of 2.00+

Admission is directly to BIS with no change to another major without reapplying. The concentration in early childhood education studies is an exception to the age requirement.

Policies

Students pursuing a bachelor of individualized study must meet the baccalaureate degree requirements for all undergraduates: they need to complete 120 credits with 45 credits at or above the 300 level and at least 30 credits at Mason.

BIS students may elect to take a minor in addition to their BIS concentration. 15 credits of the minor must be applied uniquely to the minor and not to the concentration. For students pursuing the concentration in early childhood studies, the minor is required for the degree.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Credit for Nontraditional Modes of Learning

The BIS program allows students to receive college credit for learning acquired through a variety of nontraditional methods indicated below. The maximum allowable credits are indicated for each category.

- Nationally recognized exam programs such as the College Level Examination Program (CLEP) when the particular exam has been approved for Mason credit: See CLEP Examination for an approved list. A maximum of 45 maximum credits can be earned through exams. After matriculation, students are limited to taking and applying credits for the CLEP exam in "Information Systems and Computer Applications": Students with a qualifying score on this exam will be awarded credit for IT 104T. Students receiving credit for IT 104T must still meet the university information technology ethics requirement (see Mason Core section of this catalog). Credit for other CLEP exams awarded after matriculation may not be applied.
- Certain university approved industry, government, or military training credits if such credits are indexed and recommended as college-level credit by the American Council on Education (ACE). To be eligible for Mason credit, training and course specifics must exactly match what is in the ACE guide and be approved for Mason credit. The specific credits must also be approved by the program director and the dean. A maximum of 45 credits can be earned through ACE-approved training. A maximum of 60 total combined credits can be accepted for exams and ACE-approved training. For example, if 45 credits are accepted by ACE-approved training, a maximum of 15 credits can be accepted for exams. Students may not take these courses for credit once they have matriculated at Mason.
- Experiential learning demonstrated by portfolios subject to approval by the program director and the dean (30 maximum credits).
- College-level credit earned at institutions accredited by bodies other than recognized regional accrediting organizations subject to approval by the program director and the dean. These credits can only be considered if the institution is listed in Accredited Institutions of Postsecondary Education published by ACE (30 maximum credits) and only if they are taken before the student matriculates at Mason.

Students may not pursue credit for options 1, 2, and 4 once they have matriculated at Mason. They must complete the third option within their first 30 credits after matriculation. Although the types of credit noted above may be applied to a bachelor of individualized study degree, if a BIS student changes majors, credit awarded in these ways cannot be used toward other majors. These nontraditional credits are not transferable to other degree programs at Mason.

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 529) tab.

Students pursuing a bachelor of individualized study degree must complete four required courses and one concentration.

Core Courses in the Major

Students must complete each of the four core courses with a minimum grade of 2.00.

In BIS 390 The Research Process (or BIS 391 The Research Process for Honors for students pursuing honors in the major), students develop a project proposal. An approved proposal from BIS 390 The Research Process or BIS 391 The Research Process for Honors is a prerequisite to enroll in BIS 490 RS: Senior Project (Mason Core) (p. 135).

In BIS 490 RS: Senior Project (Mason Core) (p. 135), students complete a senior capstone project that varies according to the individual program of study. It may be an investigative or creative project, and must be appropriate to the student’s interdisciplinary concentration. This course requires significant writing and fulfills the Mason Core synthesis requirement. It is a research intensive course designated RS by OSCAR. The project is evaluated by the BIS 490 RS: Senior Project (Mason Core) (p. 135) instructor in consultation with the student’s faculty mentor and others as determined by the BIS director.

BIS 490 RS: Senior Project (Mason Core) (p. 135) and BIS 491 Senior Project Presentation are taken concurrently when no more than 6 credits remain in the concentration.

</table>

Concentrations in the Major

Students must complete one concentration of 24-42 credits. Of the credits applied to the concentration, at least 15 credits must be at the 300 level or above and a maximum of 6 credits can have grades of C- or D (grades below 2.00). The total credits applied to the concentration must represent a minimum GPA of 2.00.
Courses applied to a concentration may not also be used to fulfill Mason Core requirements.

**Individualized Concentration (IND)**

Students may do an individualized concentration to meet their own academic needs and interests. The concentration is developed in close consultation with BIS staff and a faculty mentor. Students may incorporate into their individualized concentrations up to 9 credits of previously earned college course work or previously earned nontraditional credit from other institutions. In addition to the 4 core courses, students complete between 24 and 36 credits, depending on the topic and the student's preparation.

Select 24 to 36 credits from a minimum of two disciplines 24-36

Total Credits 24-36

Students are encouraged to include UNIV 304 Bachelor Individualized Studies Transfer Transition in the concentration. Students are also encouraged to include BIS 489 Directed Readings and Research and complete it before taking BIS 490 RS: Senior Project (Mason Core) (p. 135).

**Concentration in Early Childhood Education Studies (ECES)**

This concentration offers students holding a Northern Virginia Community College associate's degree in applied science in early childhood development the opportunity to obtain a BIS in early childhood education studies and a minor in business or other relevant minor. This concentration does not lead to teacher licensure in early childhood education.

To receive this concentration, students complete a minimum of 34 credits beyond the associate's degree in addition to the four core BIS courses, electives, and Mason Core requirements needed to reach at least 120 credits.

**Admission Requirements**

Students are eligible for this concentration if they have an associate’s degree in applied science in early childhood development. Unlike the individualized concentration, there is no age restriction regarding admission into this BIS concentration.

**Interdisciplinary Courses**

**Human Growth and Development**

EDUC 302 Human Growth and Development 3

**Course Focused on Diverse Young Learners**

ECED 402 Foundations of Language and Literacy for Diverse Prekindergarten and Kindergarten Learners 3

or ECED 403 Inclusive Curriculum for Young Learners: Planning Instruction and Guidance

**Linguistic Development of Infants and Toddlers**

ECED 422 Developing Language, Literacy, and Communication of Diverse Infants and Toddlers 3

or ECED 423 Early Intervention for Infants Toddlers with Disabilities: Collaborative Consultative Approaches

**Research Methods**

GOVT 300 Research Methods and Analysis (Mason Core) (p. 135) 4

or SOCI 303 Methods and Logic of Inquiry

**Electives at the 300-400-level**

Select 6 credits of electives relevant to the concentration in consultation with their faculty mentor 6

Total Credits 19

**Optional Self-Selected Minor**

Select 15-23 credits of self-selected minor 15-23

Total Credits 15-23

**Mason Core**

BIS students complete a modified Mason Core (p. 135) program of 36 credits. The Mason Core requirements may include courses not listed here; consult the BIS program for more information. Courses used to meet the Mason Core requirements cannot be used to meet a requirement for a concentration.

Students pursuing the concentration in early childhood education studies meet Mason Core requirements as specified in the advising agreement between NVCC and Mason.

**Mason Core for Early Childhood Education Studies Concentration NVCC Coursework**

ENGH 101 Composition (Mason Core) (p. 135) (lower level written communication) 3

<tr>
<td>INTS 401 Conservation Biology</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits: 3-4

### Additional Electives
Any remaining credits may be completed with electives to bring the degree total to 120.

### Honors

#### Honors in the Major
Highly-qualified students may apply to graduate with honors in the major. Students should apply the semester before they intend to enroll in BIS 390 The Research Process. If accepted, students must complete BIS 391 The Research Process for Honors in place of BIS 390 The Research Process, in addition to an individualized section of BIS 490 RS: Senior Project (Mason Core) (p. 135). To graduate with honors in the major, students must complete these two courses with a minimum GPA of 3.50, maintain a minimum cumulative GPA of 3.75, and successfully present their research during the Senior Capstone Project presentations (by earning a grade of 2.0 or better in BIS 491 Senior Project Presentation).

### Accelerated Master's
The accelerated master's programs in the list below specify the individualized study BIS as a feeder degree for their programs. It is important to note, however, that many accelerated master’s programs are available for any bachelor’s degree at Mason, including this one. See the full list of master's degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason University.

#### Individualized Study, BIS/Applied Information Technology, Accelerated MS Overview
Highly-qualified students in the Individualized Study, BIS (p. 529) have the option of obtaining an accelerated Applied Information Technology, MS (p. 1046).

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

#### Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). Mason undergraduate students in the BIS Program can apply in the semester in which they will have completed 90 or more credits (including 15 Mason resident credits) applicable toward the BIS. Students must have an overall GPA of at least 3.30 to apply to the program. Criteria for admission are identical to
criteria for admission into the MS in AIT Program, except that students do not need to have completed an undergraduate degree prior to acceptance into the accelerated program.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form (http://registrar.gmu.edu/forms).

Accelerated Option Requirements
Students in the accelerated master’s option must maintain a minimum 3.30 GPA in the undergraduate segment until they have satisfied all requirements for the BIS degree. On completion and conferral of the undergraduate degree they submit the Bachelor’s/Accelerated Master’s Transition Form (http://registrar.gmu.edu/forms) and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. Students must complete all credits that satisfy requirements of the BIS program and those of the MSAIT program, with two courses overlapping from the courses necessary to earn the BIS with a concentration IND (individualized), applied information technology emphasis as listed below.

Note: All of the prerequisite courses indicated below must be passed with a grade of C or higher.

### Emerging Technologies

---

Individualized Study, BIS/Telecommunications, Accelerated MS

**Overview**
Highly-qualified students in the Individualized Study, BIS (p. 529) have the option of obtaining an accelerated Telecommunications, MS (p. 1039).

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Admission Requirements**
Students in the Individualized Study, BIS (p. 529) program may apply for this option if they have earned 90 undergraduate credits (including 15 Mason resident credits) with an overall GPA of at least 3.25. Criteria for admission are identical to criteria for admission to the Telecommunications, MS (p. 1039).

**Accelerated Option Requirements**
Students must complete all requirements for the BIS and MS programs, with 6 credits overlap.

Students select TCOM courses from the list below to meet the requirements of the accelerated program. Six credits of TCOM courses will be applied to meet the requirements of both the BIS and MS TCOM programs. An additional three credits of TCOM courses is required for the BIS Individualized Concentration (IND) with emphasis on telecommunication. Note that accelerated students can only take the courses in the list below if they passed the listed prerequisite course with a B or higher.

**BIS Concentration**
Total credits: 34-46

Students who are pursuing the Individualized Study, BIS (p. 529), Individualized concentration (IND) with an emphasis on telecommunications must take:

<table>

Interdisciplinary Studies Program

TCOM 505 Networked Multicomputer Systems 1.5
TCOM 510 Client-Server Architectures and Applications 1.5
TCOM 530 Data Communications Fundamentals 3
TCOM 535 The TCP/IP Suite of Internet Protocols 3
TCOM 551 Digital Communication Systems 3
TCOM 607 Satellite Communications 3
TCOM 608 Optical Communications Systems 3
TCOM 631 Voice Over IP 3

Note:
Accelerated students who have passed IT 341 Data Communications and Network Principles with a grade of B or higher will not be required to take TCOM 530 in the Telecommunications, MS core. Other TCOM courses may be approved on a case-by-case basis.

See each course for individual prerequisite requirements.

Degree Conferral
Students must apply the semester before they expect to complete the BIS requirements to have the BS degree conferred. In addition, at the beginning of the student’s final undergraduate semester, students must complete a Bachelor's/Accelerated Master's Transition form that is submitted to the Office of the University Registrar and the VSE Graduate Admissions Office. At the completion of MS requirements, a master’s degree is conferred.

Interdisciplinary Studies Program
Meredith Lair, Director
Phone: 703-993-8762
Website: mais.gmu.edu

The master’s degree program in interdisciplinary studies (MAIS) is designed for students who seek a degree that integrates knowledge from several disciplines. It addresses a rapidly evolving demand for specialized and individualized graduate study. Students choose one of ten structured concentrations or devise an individualized program of study when traditional degree programs do not meet their evolving careers or life goals.

The degree requires course work from a home department and selected courses from other disciplines. Students complete their degrees with a project or thesis.

Concentrations
Students pursuing a master's degree program in interdisciplinary studies can choose established concentrations in these areas:

- Computational Social Science
- Energy and Sustainability
- Folklore Studies
- Higher Education
- Neuroethics
- Religion, Culture, and Values
- Social Entrepreneurship
- Social Justice and Human Rights

- War and the Military in Society
- Women and Gender Studies

For a variety of reasons, traditional graduate programs are not able to meet the specific educational goals of some students. They can choose an individualized concentration. With the help of a faculty advisor, they design an individualized program of study that includes courses from several academic disciplines.

The MA in interdisciplinary studies is for students who seek a master’s degree that integrates knowledge from several disciplines. It addresses the rapidly evolving demand for unique graduate study by promoting advanced scholarship that transcends traditional disciplinary boundaries. Students can pursue one of the following structured interdisciplinary concentrations and also have the opportunity to design an individualized concentration to meet the special needs of their careers.

The MAIS in Interdisciplinary Studies with a concentration in Energy and Sustainability is a Green Leaf program (p. 102).

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the MA in Interdisciplinary Studies, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/LA-MAIS-ISIN/application).

Applicants must show a capacity for original thought in cross-disciplinary research. There may be additional skills required of students applying to specific concentrations. Students will be admitted to the Individualized Studies concentration only if the applicant identifies a Mason Faculty member appropriate for the intended course of study who is willing to serve as the student’s advisor.
### Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

### Credit Restrictions

Courses applied to the degree are subject to the following restrictions:

- a maximum of 6 credits may be earned through independent study or directed readings and research courses
- a maximum of 6 credits may be taken through the Consortium of Universities of the Washington Metropolitan Area
- a maximum of 15 credits may be transfer credits
- a maximum of 6 of the transfer credits may be from other accredited institutions

Transfer credits include credits taken before first enrolling as an admitted degree-seeking student (at another institution, in another Mason graduate program, or in Mason nondegree status) or credits taken at another institution after admission to the degree program through study abroad or study elsewhere (which requires prior written approval of the director and the dean). Additional information may be found in Academic Policies (p. 74).

### Requirements

#### Degree Requirements

Total credits: 36

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 534) tab.

Students pursuing this degree must successfully complete 36 credits of graduate coursework in one of the concentrations which follow. Students must submit a curriculum worksheet that has been approved by their concentration head and the director. All students complete their work in the program with a project or thesis.

#### Concentration in Computational Social Science (CSS)

Computational social science (CSS) is a relatively new interdisciplinary science in which social science questions are investigated with modern computational tools. Computational social scientists investigate complex social phenomena such as economic markets, traffic control, and political systems by simulating the interactions of the many actors in such systems on computers. They hope to gain insights which will lead to better management of the behavior of the larger social systems, i.e., prevention of market crashes, smoothed traffic flow, or maintenance of political stability. The intractability of many social problems calls for the new approaches provided by computational social science.

CSS is a highly interdisciplinary field that requires teams to plan and complete projects, be they undertaken by government, industry, or non-profit entities. Project managers of such teams, overseeing all elements of project design and execution, tend to hold PhDs. The MAIS concentration will train students to be members of these project teams, able to meaningfully contribute to background research and to project design, execution, and communication.

Prior background should include a bachelor's degree in one of the social sciences, in computer science, in engineering, or in a relevant discipline, as well as undergraduate courses in these and related areas. Bachelor's degrees in other areas are also eligible, but the student may be required to take additional courses in social science, mathematics, or computer science as prerequisites to admission.

<td>Social Network Analysis</td>
<td></td>
</tr>
<tr>
<td>CSS 739</td>
<td>Topics in Computational Social Science</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**: 18

1. The required CSS courses provide an understanding of the conceptual, technical, and practical foundations of computational social science.
2. The electives provide an understanding of the technical foundations and current work in at least two subfields of computational social science.

#### Research Course

The research course provides students with exposure to the most current ongoing research in the field and allows them to further develop their computational research expertise.

Select one from the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSS 796</td>
<td>Directed Reading and Research</td>
<td>3</td>

<tr>
<td>CSS 898</td>
<td>Research Colloquium in Computational Social Science</td>
<td></td>
</tr>
<tr>
<td>CSS 899</td>
<td>Colloquium in Computational Social Science</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**: 3

#### Electives

The electives allow students to acquire a substantive specialization as well as additional training in social and computational science. Because of the broad spectrum of social science phenomena, methodologies, and student backgrounds, there is a large pool of potential courses. Electives may include any Mason master’s-level course in computational social science, social science, computer science, statistics, or other quantitative methods such as data visualization, information technology, and geographic information science. Electives should be selected in conjunction with and approval of the student's advisor and the Director of CSS Graduate Studies. If the student does not have prior coursework in multivariate statistical analysis, the electives should include at least one such course relevant for the student’s chosen specialization.
Students who elect to complete a 4-credit project or thesis take 9 elective credits. Students who complete a 1-credit project take 12 elective credits.

**Concentration in Energy and Sustainability (EAS)**

This concentration is designed for students interested in careers in energy and sustainability-related positions in the public, private, or non-profit sectors, including law, national and international policy, media, government, and business. As one of the University’s Green Leaf academic programs, the concentration in energy and sustainability focuses on finding ways to meet present needs for energy and material goods without compromising the ability of future generations to meet their needs. A sustainability education lies at the intersection of environmental science, engineering, economics, business, public policy, social justice, and many other areas. Energy required to fuel all of these endeavors is a crucial component of sustainability.

Research Methods Course
Students choose one of the following courses or other relevant courses in consultation with an advisor.

Select one course from the following: 3
BINF 690  Numerical Methods for Bioinformatics
EVPP 632  Qualitative Research Methods for Environmental Scientists
EVPP 650  Ecosystem Analysis and Modeling
EVPP 651  Multivariate Data Analysis for Ecology and Environmental Science
OR 682  Computational Methods in Engineering and Statistics
PUBP 710  Topics in Public Policy
RELI 620  Methods and Logic of Social Inquiry

Total Credits 3

Proposal
MAIS 797  Interdisciplinary Studies Proposal 1

Total Credits 1

Project or Thesis
Students who wish to do a project in lieu of a thesis will take 1 credit of MAIS 798 Interdisciplinary Studies Project and an additional 3 credit elective course from the courses listed under the electives requirement. Students who choose to write a thesis will take 4 credits of MAIS 799 Interdisciplinary Studies Thesis and no additional electives.

Zero to three credits of electives 0-3
Select one from the following: 1-4
MAIS 798  Interdisciplinary Studies Project (minimum of 1 credit)
MAIS 799  Interdisciplinary Studies Thesis (take 4 credits)

Total Credits 4

Concentration in Folklore Studies (FLKS)
This concentration explores the processes of tradition that move through multiple expressive forms, such as folktales, folk beliefs, folk medicine, folk art, folksong, and literature. A discipline based on ethnographic fieldwork, folklore offers students a chance to work in communities and collect living traditional materials that are critical to human identity and values. Interdisciplinary by nature, folklore thrives on local particularities and compelling global connections. Internships in the many Washington, D.C., metropolitan area folklore organizations are central to students’ experiences. This course of study prepares students for careers in cultural agencies, governmental organizations, teaching institutions, and advanced study in the humanities.

Students pursuing this concentration must complete at least 6 credits of courses from outside the English Department.

ENGH 798  Directed Reading and Research (take 3 credits)

Pathways in Folklore Scholarship
ENGH 681  Advanced Topics in Folklore Studies (when topic is Pathways to Folklore Scholarship)

Internship in Folklore
Three credits of
ENGH 604  Internship in Folklore

Research Methodology Course
Select 3 credits from the following: 3
ENGH 701  Research in English Studies
HIST 610  The Study and Writing of History
SOCI 634  Qualitative Research Methods

Total Credits 18
Courses may be repeated.

Specialization
Students choose an area of specialization which must be approved by a faculty advisor. Specialization topics include public folklore (museums, archives, arts and humanities councils, and nonprofit organizations); folklore (ethnicity and immigration); folklore and literature; folklore and the teaching of writing and literature; folklore and history; and folklore and conflict resolution. Students can also opt for open specialization, with courses chosen in consultation with advisor. Possibilities include folklore and editing, applied storytelling, folklore and mythology, folklore and art history, folklore and gender studies, and folklore and communication.

Electives
Electives require the prior written approval of a faculty advisor. Students who elect to do a 1 credit project take 6 elective credits. Students who do a 4 credit thesis take 3 elective credits.

Concentration in Neuroethics (NETH)
The MAIS concentration in neuroethics is a joint program of the interdisciplinary Neuroscience Program and the Department of Philosophy. It offers students a unique opportunity to study key ethical issues arising from advances in neuroscience research and technologies. The degree is suitable for students interested in doctoral work in neuroscience, cognitive science, clinical bioethics, or the study of law. It also can serve as an entry point for employment into government or private sector industries of ethic and policy related brain science issues.

The degree is intended for students interested in doctoral work in neuroscience, cognitive science, or bioethics. It also can help students who will work on medical and scientific research projects in government or the private sector.

Admission to the Neuroethics Program is open to students with an undergraduate degree in many fields. Applicants should demonstrate proficiency in at least two of the following academic areas as evidenced by 18 or more credits of undergraduate or graduate coursework.

- Biology
- Bioengineering
- Chemistry
- Ethics/Philosophy
- Medical Education
- Neuroscience
- Psychology

Students in the MAIS program in neuroethics must complete 32 course credits consisting of a proseminal, five core courses and six electives.
that match the educational objectives of the student. In addition, students are required to write a thesis or complete a two-semester project, for a total of 36 credits.

Total Credits 1

Project or Thesis
Students cap their study by writing a master's thesis or completing a two-semester project in an area of neuroethics. The project may involve student observation and involvement in scientific research, clinical work, or policy setting.

Select one from the following: 3

MAIS 798 Interdisciplinary Studies Project (take 3 credits)
MAIS 799 Interdisciplinary Studies Thesis (take 3 credits)
Total Credits 3

Concentration in Religion, Culture, and Values (RCV)
The concentration in religion, culture, and values is particularly relevant for students who are interested in careers in law, national and international government, print and media journalism, library sciences, archives and museums, public and social service, teaching, advanced graduate studies, and religious communities and institutions. The Washington, DC metropolitan area is rich in the presence of many major religious traditions and their places of worship.

The core courses introduce students to the study of religion as a unique and rigorous intellectual discipline. Students learn to evaluate a variety of perspectives on religion and gain a clear understanding of the dimension of the sacred in all aspects of human life including those commonly designated "secular". Students discover how religious perceptions of the sacred respond to an evolving world and relate to and influence cultures, institutions, and values.

Students also examine the effects of historical crises and the forces of change on religions including contemporary religious pluralism and inter-religious dialogue. Students gain a deeper knowledge of specific traditions and a more profound understanding of values and worldviews from the viewpoint of cultural diversity and religious pluralism.

Concentration in Social Entrepreneurship (SOCE)

The concentration in social entrepreneurship will equip students with the subject matter expertise, strategic knowledge, technical support, and social networks needed to create, operate, develop, and accelerate startups; bring ideas to scale; and improve an existing program’s effectiveness. These future leaders will learn about sustainability, ethical leadership, strategic management, and working effectively within complex networks made up of divergent groups of stakeholders. All students will complete a capstone research project and an experiential learning requirement that deliver practical knowledge and real-world experience. This degree is suitable for students seeking careers in government, business, or the non-profit sector.

Total Credits 2-6

### Subject Matter Expertise

Students must develop expertise in the social problem they seek to address through entrepreneurship. Possible areas of focus include global and/or local poverty, homelessness, human trafficking, conflict resolution, women’s rights, racial inequality, educational and health-care access, climate change, environmental sustainability, and human rights, among other possible topics.

Students take:

<table>

<td>Human Rights</td>
<td></td>
</tr>
</tbody>
</table>

6 credits of courses related to the student’s chosen subject matter area of expertise, chosen in consultation with an advisor.

Total Credits 6

### Experiential Learning Requirement

Students will seek out and/or create an opportunity for experiential learning that aligns with a social mission. Experiential learning opportunities can include internships, service-learning, consulting projects, and field studies or research (including overseas). Because the intention is to develop and apply newly acquired skills, students may not use work done previously or their current employment to fulfill this requirement. All experiential learning projects must be approved by the social entrepreneurship concentration head the semester before registering for the course. Students may register for an individualized section of INTS 595 Experiential Learning or another graduate-level internship or practicum course to fulfill this requirement. Students must complete the experiential learning component before registering for MAIS 798 Interdisciplinary Studies Project or MAIS 799 Interdisciplinary Studies Thesis.

### Concentration in Social Justice and Human Rights (SJHR)

The social justice and human rights concentration is designed to cultivate a deep theoretical understanding of the social, political, cultural, historical, and economic implications of a wide array of social injustices and human rights issues. Students are engaged in the applied process of imagining and actualizing holistic and complex strategies for creating and sustaining a more equitable, just, and humane world.

Concentration in War and the Military in Society (WMS)
Recent events have demonstrated the degree to which military issues affect social groups, global politics, and the world economy. Understanding the ways in which armies are raised and funded, the reasons troops serve, the conditions military personnel and civilians endure during wartime, and the multifaceted and evolving ways in which nations conceive of the military apparatus has direct bearing on future policy decisions.

The concentration in war and the military in society emphasizes scholarship that examines issues of international security and conflict in the past, present, and future. It equips students with the skills to understand the interconnected nature of those elements and to examine critically the ways in which they have changed and continue to change over time.

Electives
Students choose electives in consultation with an advisor, bearing in mind their specialization and proposed topic for their project or thesis. Students interested in the intellectual consideration of the military, war, and society should choose courses in anthropology, history, religious studies, and sociology. Students interested in practical applications of the study of the military, war, and society to contemporary security issues should choose courses in biodefense, geography, and government. Students may take additional courses from the core requirements as electives with permission from their advisor, but their coursework overall must include at least six credits in two or more disciplines.
Students who choose to do a project complete seven electives (21 credits); those who choose a thesis complete six electives (18 credits).

Select seven or six electives from the following: 18-21

Concentration in Women and Gender Studies (WGST)

The concentration in women and gender studies promotes advanced scholarship that transcends traditional boundaries. Students combine required coursework in women and gender studies with courses in a discipline of interest such as history, literature, sociology, anthropology, health, education, philosophy, social work, conflict analysis and resolution, or the arts. The program accommodates both full-time and part-time students.

Of the coursework required for this concentration as described below, at least 24 credits must be in courses related to the study of women and gender and 12 credits in courses in a field focus. All courses related to the study of women and gender must be approved by the head of the concentration in women and gender studies. Students must earn a grade of B or higher in the core courses.

Students interested in pursuing a dual master’s program linking the MAIS degree and a master’s degree in another discipline should discuss their interest with the graduate program directors of both programs and review the university policies regarding Individualized Dual Master’s Degree Programs. Students approved to pursue dual master’s study linking the MAIS degree with a concentration in women and gender studies and the MA philosophy degree will complete WMST 630 Feminist Theories across the Disciplines/PHIL 658 Feminist Theory and 3 additional credits of WMST courses to apply to the philosophy degree as elective credit. Six credits of approved PHIL credits will apply to the MAIS degree as elective credit.

Individualized Concentration (IND)

This concentration is for students who wish to design a graduate program to meet the special needs of their careers and life plans. Students usually choose this option because traditional graduate programs do not meet their specific goals. Students, with help from their faculty advisor, design a unique program of study that includes courses from several academic departments.

Students have access to most graduate courses offered by Mason but must meet all course prerequisites. Each student must submit a curriculum worksheet approved by the student’s advisor and director during the first semester enrolled. Any subsequent amendments must have the approval of the student’s advisor and the director.

Accelerated Master’s

Bachelor’s Degree (selected)/ Interdisciplinary Studies, Accelerated MAIS (Religion, Culture, and Values Concentration)

Overview
Highly-qualified undergraduates in selected majors (see below) may apply to the accelerated master’s degree in interdisciplinary studies with a concentration in religion, culture, and values. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s in interdisciplinary studies with a concentration in religion, culture, and values after satisfactory completion of 150 credits, sometimes within five years. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
- Art history (p. 384)
- Philosophy (p. 432)
- Conflict analysis and resolution (p. 882)
- Global affairs (p. 509)
- History (p. 394)
- Religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- Sociology (p. 494)
- Anthropology (p. 484)

If the student has not majored in religious studies (p. 477), it is preferred, though not required, that the student have a minor in religious studies (p. 477).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application).

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete two graduate courses as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

Code | Title | Credits
---|---|---
RELI 630 | Approaches to the Study of Religion | 6
RELI 631 | Sacred as Secular in Modern Spirituality | 
RELI 632 | World Religions in Conflict and Dialogue | 
RELI 633 | Ethical Perspectives of World Religions | 
RELI 635 | World Religions in Transition and Transformation | 
RELI 636 | Religion and the Natural Environment | 
RELI 642 | Sacred Language, Scripture, and Culture | 

Total Credits: 6

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

Code | Title | Credits
---|---|---
RELI 630 | Approaches to the Study of Religion | 6
RELI 631 | Sacred as Secular in Modern Spirituality | 
RELI 632 | World Religions in Conflict and Dialogue | 
RELI 633 | Ethical Perspectives of World Religions | 
RELI 635 | World Religions in Transition and Transformation | 
RELI 636 | Religion and the Natural Environment | 

Total Credits: 6
The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)**

**Overview**
Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master's in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Selected Majors**
Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

**Application Requirements**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

**Accelerated Option Requirements**
While undergraduate students, accelerated master's students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**
Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

For information specific to the accelerated MAIS, see http://mais.gmu.edu/programs/la-mais-isin/application on the departmental web site.

**Accelerated Option Requirements**
While undergraduate students, accelerated master's students complete two graduate courses as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application,
they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

**Total Credits**: 6

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

**Total Credits**: 6

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**Bachelor’s Degree (any)/Interdisciplinary Studies, Accelerated MAIS (Energy and Sustainability Concentration)**

**Overview**

Highly-qualified undergraduates in any major may apply to the accelerated master’s degree in interdisciplinary studies. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s degree in interdisciplinary studies with a concentration in energy and sustainability after satisfactory completion of 150 credits, sometimes within five years. For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to this program, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/LA-MAIS-ISIN/application) on the departmental website.

**Accelerated Option Requirements**

While undergraduate students, accelerated master’s students complete two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

Bachelor's Degree (any)/Interdisciplinary Studies, Accelerated MAIS (Folklore Studies Concentration)

Overview
Highly-qualified undergraduates in any major may apply to the accelerated master's degree in interdisciplinary studies. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s degree in interdisciplinary studies with a concentration in folklore studies after satisfactory completion of 150 credits, sometimes within five years. For more detailed information, see AP.1.4.4 Bachelor’s/Accelerated Master’s Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to this program, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/LA-MAIS-ISIN/application) on the departmental website.

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete six credits of ENGH 590 Topics in Folk Narrative and/or ENGH 591 Topics in Folklore Studies with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

Latin American Studies Program
Phone: 703-993-1010
Website: las.gmu.edu

The bachelor’s degree in Latin American studies presents students with the opportunity to study one of the world’s most diverse and fascinating regions. Contemporary Latin America is the product of a long and turbulent history of conquest, resistance, and cultural mixing. The result is a rich and unique amalgam of African, indigenous, and European cultures. Understanding these complex societies has never been more crucial than it is today since people of Latin American descent represent more than 13% of the population of the United States. Knowledge of Latin American history, culture, society, and politics is indispensable for anyone who seeks to understand the contemporary United States and its place in the world.

Majors in Latin American studies develop a broad expertise in the region while pursuing an individualized program of study that suits their own particular interests. Student improve their language skills and take courses in many disciplines including anthropology, dance, economics, folklore, geography, government, history, and literature. The course work culminates in a seminar where students develop a research project under the mentorship of a faculty expert.

Faculty
Berroa (Modern and Classical Languages), Bristol (History and Art History), Burt (Schar School of Policy and Government), Greet (History and Art History), Karush (History and Art History, director), Leeman (Modern and Classical Languages), Lepore (Dance), Meyer (Economics), Rabin (Modern and Classical Languages), Rogers (Modern and Classical Languages), Seligmann (Sociology and Anthropology), Shutika (English), Vivancos-Pérez (Modern and Classical Languages)

Programs
Latin American Studies Minor
Latin American Studies, BA

Latin American Studies Minor
Banner Code: LAS

Academic Advising
Email: las@gmu.edu
Website: las.gmu.edu/programs/la-minor-la-las/requirements/

Latin American Studies focuses on the diverse and connected regions, societies, and cultures of Latin America. Students find that combining this minor with a major in another discipline is particularly attractive to employers. Latin American studies enhances a major in Spanish or anthropology for a career in teaching or human rights work; a major in communication for a career in journalism; and a major in business
Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 18
Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 548) tab.

Core Courses
Select one course from the following:

Latin American Studies, BA
Banner Code: LA-BA-LAS

Email: las@gmu.edu
Website: las.gmu.edu/programs/LA-BA-LAS

The BA in Latin American studies looks at contemporary Latin America and its progress through a long and turbulent history of conquest, resistance, and cultural mixing. The result is a rich and unique blend of African, indigenous, and European cultures. Majors develop a broad expertise in the region while also pursuing an individualized program of study that suits their interests. Students improve their language skills and take courses in many disciplines, including anthropology, dance, economics, folklore, geography, government, history, and literature. All students have opportunities for research, global engagement, public service, and career preparation.
Seminar Course  
LAS 499  Research Seminar in Latin American Studies (Mason Core) (p. 135)  3

Total Credits  3

Language Requirement  
All Latin American studies majors must demonstrate reading, speaking, or writing knowledge of Spanish or Portuguese by exam or achieving a minimum grade of 2.00 in a 300-level course in the language selected. Upper-level Latin American literature or culture courses taught in Spanish or Portuguese may be used to satisfy the electives requirement.

Electives in Latin American Studies  
Select four electives in Latin American studies  1  12

Total Credits  12

1 Students may satisfy the electives requirement with any course that contains a significant emphasis on Latin America or the culture, politics, sociology, or history of Latinos living in the United States. In addition, students are strongly encouraged to use an internship (LAS 490 Internship) or a study-abroad program to fulfill some of these credits. The electives must be approved by the director of the program. Upper-level Latin American literature or culture courses taught in Spanish or Portuguese may be used to satisfy the electives requirement.

Writing-Intensive Requirement  
The university requires all students to complete at least one course designated "writing intensive" in their major at the 300 level or above. Students majoring in Latin American studies should consult with the director for a course to fulfill this requirement.

Upper Level Requirement  
Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree  
In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies  
Select 3 credits from the following:  3

PHIL (p. 1818)  1
RELI (p. 1904)

1 The two courses used to fulfill the combined college and Mason Core (p. 135) requirements must be from different disciplines in the social and behavioral sciences.

Note that the following courses may not be used to fulfill this requirement:
- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

Social and Behavioral Sciences  
Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement)  1

ANTH (p. 1119)  1
CRIM (p. 1372)  1
ECON (p. 1413)  1
GOVT (p. 1588)  1
HIST (p. 1628)  2
LING (p. 1694)  1
PSYC (p. 1844)  1
SOCI (p. 1923)  1

1 2

HIST 100 History of Western Civilization (Mason Core) (p. 135) and HIST 125 Introduction to World History (Mason Core) (p. 135) may not be used to fulfill this requirement.
### Foreign Language

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Intermediate-level proficiency in one foreign language, fulfilled by: ¹</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Completing a course in a foreign language numbered 202, 209, or 210 (or higher level courses taught in the language) (p. 414)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Or achieving a satisfactory score on an approved proficiency test</td>
<td></td>

**Additional Electives**

Any remaining credits may be completed with electives to bring the degree total to 120
Honors

Honors in the Major

Latin American studies majors who have completed 75 credits (a minimum of 15 in Latin American studies, 6 of which must have been taken at Mason) with an overall minimum GPA of 3.50 and a minimum GPA of 3.50 in the major may apply to pursue advanced work leading to graduation with honors in the major. The application consists of a transcript, a recommendation from one of the LAS faculty, and a brief description of a proposed research project.

Once accepted into the program, students pursuing honors in the major complete a two-course sequence LAS 491 Directed Reading for Honors in Latin American Studies and LAS 499 Research Seminar in Latin American Studies (Mason Core) (p. 135) (an honors section), which must be taken in successive semesters. In this sequence, students complete an advanced research project under the guidance of a faculty member. To graduate with honors in the major, students must earn a minimum GPA of 3.50 in the honors courses.

Middle East and Islamic Studies Program

Phone: 703-993-5404
Website: meis.gmu.edu

The interdisciplinary program in Middle East and Islamic Studies offers a distinctive and innovative approach to the study of the Middle East, of Islam and of Muslim societies across the globe. The program seeks to situate the study of the Middle East and Islam within a globalized world. Students develop a broad understanding of the region, its history and its contemporary complexities with respect to society, politics, culture and economy.

The Middle East and Islamic Studies Program comprises four distinct curricula: a master's program in Middle East and Islamic studies (MEIS), a graduate certificate program, and two undergraduate minor programs (Middle East studies and Islamic studies). Because these programs are interdisciplinary, undergraduate and graduate students may take courses from a range of disciplines to fulfill minor, graduate degree or certificate requirements. Undergraduate students should consult the specific listing, Middle East Studies minor (p. 554) or Islamic Studies minor (p. 553) for more details. Graduate students should consult with the MEIS director.

Undergraduate Program

Minors

The Middle East and Islamic Studies Program offers two minors for undergraduates.

The Middle East Studies minor provides students with a firm grounding in the history, politics, and culture of this important region. Students develop an understanding of the diverse dynamics and complex forces that shape modern Middle East realities.

The Islamic Studies minor introduces students to the diverse and dynamic experience of Muslims globally and locally. Through interdisciplinary course offerings, students acquire an understanding of Islamic religious traditions, history, politics, society and culture. A three-credit course is also required in a language spoken in a Muslim majority country (Arabic, Persian, Turkish).

Graduate Program

Master's Degree

The program offers a master's degree in Middle East and Islamic studies. Students study historical and contemporary topics - as well as theory and methodology - from regional and global perspectives. The unique interdisciplinary nature of the program provides students with a thorough foundation in the major debates and issues in the study of the Middle East, of Islam and of Muslim societies across the globe.

Graduate Certificate

The graduate certificate in Middle East and Islamic studies allows students to examine the complex issues involved in understanding the Middle East and the broader Islamic world from a variety of perspectives. Students study both contemporary and historical developments in these regions; they take courses in various disciplines, including political science, history, and religious studies, and have the opportunity to take elective courses in an even broader set of disciplines, including sociology, anthropology, literature, and art history.

Bachelor's/Accelerated Master's Program

Highly qualified undergraduates in select majors may apply to the accelerated master's degree program in Middle East and Islamic studies. If accepted, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in Middle East and Islamic studies after satisfactory completion of 144 credits, often within five years. Credit limits and course requirements require advanced planning and consultation with the student’s undergraduate advisor and MEIS director. See link below for more information on the accelerated master's.

Ali Vural Ak Center for Global Islamic Studies

web: islamicsudiescenter.gmu.edu (http://islamicsudiescenter.gmu.edu)

The Ali Vural Ak Center for Global Islamic Studies is an interdisciplinary research center whose goal is to provide a sound and nuanced understanding of Muslim societies and the Islamic faith, its role in world history and patterns of globalization. The center regularly sponsors lectures and conferences, runs major research projects and hosts international scholars. The center supports the academic curriculum through its on-campus and off-campus activities.

Middle East Studies

web: meis.gmu.edu (http://meis.gmu.edu)

The interdisciplinary Middle East Studies program at George Mason provides students with a firm grounding in the history, politics, and culture of this important region. Under the guidance of internationally recognized faculty, students develop an understanding of the diverse dynamics and complex forces that shape modern Middle East realities. Students have the opportunity to examine new Middle East diasporas and transnational communities in the West, as well as the role of the Middle East in a changing geopolitical environment marked by the rise of China, India and the re-emergence of Russia.
The minor is designed for students interested in the societies, cultures, history, and politics of the Islamic world. It offers students the opportunity to study the many societies that have significant Muslim populations. These societies are not just in the Middle East; they stretch from North Africa to Southeast Asia and beyond, including Europe as well as North America. To fulfill the requirements for the minor, students take a wide variety of courses from a range of departments. These courses provide students with a broad and well-rounded understanding of Islam.

The minor will enhance students' opportunities for future study and employment, especially in the Washington, D.C. area.

**Faculty**

Amireh, Bakhash, Butler, Dakake (director), DeCaroli, Haddad, Hamdani, Katz, Lukacs, Mandaville, McGlinchey, Paden, Salawdeh

**Admissions & Policies**

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).
Today, more than ever before, Middle East politics have become intertwined with American politics and the lives of many Americans. The minor is designed to equip undergraduates with a firm multidisciplinary grounding in the region, its history, and its international relations.

**Faculty**
Amireh, Bakhash, Bryant, Butler, Dakake, Gopin, Haddad (director), Hamdani, Katz, Lukacs, Mandaville, Paczynska, Rouhana, Salawdeh

**Admissions & Policies**
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

**Requirements**

**Minor Requirements**
Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 554) tab.

In partial fulfillment of coursework for the minor, students are strongly encouraged to participate in a study abroad program in the Middle East.

**Middle East and Islamic Studies Graduate Certificate**

**Banner Code:** LA-CERG-MEIS

**Academic Advising**
A216 Robinson Hall
Fairfax Campus

Email: mes@gmu.edu
Website: meis.gmu.edu/programs/LA-CERG-MEIS
The graduate certificate allows students to examine the complex issues involved in understanding the Middle East and the broader Islamic world from a variety of perspectives. Students study both contemporary and historical developments in these regions; they take core courses in various disciplines, including political science, history, and religious studies, and have the opportunity to take elective courses in an even broader set of disciplines, including sociology, anthropology, literature, and art history.

The graduate certificate may be pursued on a part-time or full-time basis.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the graduate certificate in Middle East and Islamic Studies, see Application Requirements and Deadlines (http://meis.gmu.edu/programs/la-cerg-meis/application).

Middle East and Islamic Studies, MA

Banner Code: LA-MA-MEIS

Academic Advising

A216 Robinson Hall
Fairfax Campus
Email: mes@gmu.edu
Website: meis.gmu.edu/programs/la-ma-meis

The MA in Middle East and Islamic Studies introduces students to the major methodological and theoretical issues and debates in the study of the Islamic tradition and of Middle Eastern societies. The program situates the study of the Middle East and Islam within a globalized world. The curriculum covers topics of recent scholarly significance including political Islam, the political economy of business-government networks, the relationship between "resource wars" and the "war on terrorism," new diasporas and transnational Muslim communities in the "West," and the changed geopolitical environments of Muslim and Middle Eastern countries. The degree prepares students for a variety of post-graduate opportunities in academia, government, and an expanding job market for people with this expertise.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For specific information, see Application Requirements and Deadlines (http://globalaffairs.gmu.edu/programs/application/LA-MA-GLOA) on the departmental website.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Language Proficiency

Prior to graduating, students must demonstrate professional competency in one of five major languages of the Middle East and Muslim world: Arabic, Persian, Turkish, Hebrew, or Urdu.

A waiver for this requirement may be received either through 1) documentation verifying primary language of instruction at either the high school or university level in respective foreign language; transcripts showing coursework at the advanced level in respective foreign language or 2) an examination with an appropriate faculty/examiner designated by the director in consultation with the program’s steering committee.

Electives

In addition to the following list, electives may include special topics courses when relevant, directed readings and research, study abroad courses, internships, and other courses with the approval of the program director. Students who choose to complete a research project or write a thesis take 3 or 6 fewer elective credits.

Select five electives from the following: 15

Accelerated Master’s

Bachelor’s Degree (selected)/Middle East and Islamic Studies, Accelerated MA

Overview

Highly-qualified undergraduates pursuing a BA in select majors (listed below) may apply to the accelerated master’s degree in Middle East and Islamic Studies.
and Islamic studies. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and a master’s degree in Middle East and Islamic studies after satisfactory completion of 144 credits, sometimes within five years. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Selected Majors**
- government and international politics (p. 917)
- global affairs (p. 509)
- history (p. 394)
- religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- sociology (p. 494)
- anthropology (p. 484)

It is preferred, though not required, that the student have a minor in Middle East studies or Islamic studies.

**Application Requirements**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Middle East and Islamic studies, see Application Requirements and Deadlines (http://meis.gmu.edu/programs/la-ma-acel-meis).

**Accelerated Option Requirements**
While undergraduate students, accelerated master’s students complete two graduate courses as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**Russian and Eurasian Studies Program**
Phone: 703-993-1233  
Website: russianstudies.gmu.edu

The Russian and Eurasian Studies program brings together experienced Mason faculty who will guide your exploration of this region’s culture, gender, class, ethnicity, economy, government, and politics. All majors have the opportunity to study abroad in Moscow or St. Petersburg. They acquire the language skills needed to function successfully in social settings and a variety of careers.

The bachelor’s degree in Russian and Eurasian studies allows students to choose a concentration in one of three areas:
- Russian language and culture
- Russia studies
- Eurasia studies

**Faculty**

**Program Faculty**
Barnes (History and Art History), Bockman (Sociology and Anthropology), Boettke (Economics), Christensen (Modern and Classical Languages), Johnsen-Neshati (Theater), Katz (Schar School of Policy and Government), Kelly (History and Art History), Korostelina (Institute for Conflict Analysis and Resolution), Levine (Modern and Classical Languages, director), McGlinchey (Schar School of Policy and Government), Pacynska (Institute for Conflict Analysis and Resolution), Vasilyeva-Roberts (Modern and Classical Languages)
Russian and Eurasian Studies, BA

Banner Code: LA-BA-REST

Website: russianstudies.gmu.edu/programs/LA-BA-REST

Russian and Eurasian studies majors study the Russian language, spoken worldwide by some 250 million people, while also acquiring a foundational knowledge of the history, culture, literature, politics, sociology, economics, and geography of the region. This degree program is flexible, enabling students to focus their interests in one of three concentrations: Russia studies, Russian language and culture, and Eurasia studies. Russian and Eurasian studies prepares students for a wide range of career options in the private sector, government, and education. All students have opportunities for research, global-engagement, public service, and career preparation.

Admissions & Policies

Policies

Students pursuing this degree must complete 33 credits in one of the concentrations available with a minimum GPA of 2.00.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 558) tab.

Students pursuing this degree complete the requirements for one of the available concentrations.

Concentrations in the Major

Concentration in Eurasia Studies (EURS)
The Eurasia studies concentration is designed to provide students with interdisciplinary training in the study of Eurasia, with special focus on Central Asia and secondarily on Russia/the Soviet Union and Eastern Europe. Students will develop a high degree of competence in the history, politics, and culture of Eurasia and a basic competence in a relevant language.

Russian or Other Eurasian-Related Language
Select two courses of Russian or other Eurasian-related language

Total Credits

Courses used to meet this requirement may be in the same language that is used to meet the college language requirement, in which case the student needs to complete 6 credits beyond intermediate proficiency (beyond courses numbered 210 at Mason). With the approval of the director, courses used to meet this requirement may be in a Eurasian-related language that was not used to meet the college language requirement at a level approved by the director.

Social Science Courses at the 300- and 400-Level
Select two social science courses at the 300- and 400-level

Total Credits

Courses used to fulfill this requirement must focus primarily on Central Asia and Eurasia and may be in any social science discipline (ANTH, ECON, GGS, GOVT, SOCI).

History Courses at the 300- and 400-Level
Select two history courses at the 300- and 400-level

Total Credits

Courses used to fulfill this requirement must focus primarily on Central Asia and Eurasia.

Literature or Film Courses at the 300- and 400-Level
Select two literature or film courses at the 300- and 400-level

Total Credits

Courses used to fulfill this requirement must be related to Eurasia.

Courses at the 300- and 400-Level
Students choose from courses that focus predominantly on Eurasia. The courses used to meet this requirement may be in any field of study including special topics courses and other courses that deal primarily with the geographic areas covered in the Russian and Eurasian studies major. To use a special topics course or other course with variable content to meet this requirement, students should seek the advanced written approval of the director. (Special topics courses may be repeated for credit when the topic is different.) The following courses when the topic is relevant, among others, may be used to meet this requirement.

Select three courses at the 300- and 400-level from the following:

**Any 300- or 400-level CONF course (p. 1345)**

Total Credits 9

**Concentration in Russia Studies (RUSS)**

The Russia studies concentration is designed to provide students with in-depth interdisciplinary training in Russia and the Soviet Union. Students will develop a high degree of competence in Russian history, politics, society, and culture as well as a basic competence in the Russian language and the broader Eurasian context.

**Required Language Courses**

Other relevant advanced language courses may be used to fulfill this requirement with the prior written approval of the director. Majors are encouraged to take additional advanced Russian language courses.

Total Credits 6

**Courses at the 300 and 400 Level**

Students choose from courses that focus predominantly on Eastern Europe, Russia, or Central Asia. Courses used to meet this requirement may be in any field of study including special topics courses and other courses that deal primarily with the geographic areas covered in the Russian and Eurasian studies major. To use a special topics course or other course with variable content to meet this requirement, students should seek the advanced written approval of the director. (Special topics courses may be repeated for credit when the topic is different.) Examples of courses that may meet this requirement:

Select three courses from the following:

<table>

Total Credits 6
GOVT 338  Government and Politics of Russia
GOVT 340  Central Asian Politics
GOVT 444  Issues in International Studies
GOVT 447  Revolution and International Politics

Total Credits 9

Concentration in Russian Language and Culture (RULC)
Students in the Russian language and culture concentration develop a high degree of competence in Russian language and culture and a basic familiarity with Russian and Eurasian history and politics.

Required Courses in Advanced Russian
RUSS 380  Advanced Russian I 3
RUSS 381  Advanced Russian II 3
RUSS 480  Fourth-Year Russian
or RUSS 481  Fourth-Year Russian

Total Credits 9

Russian Culture or History
RUSS 353  Russian Civilization (Mason Core) (p. 135) 3
or HIST 328  Rise of Russia (Mason Core) (p. 135)
RUSS 354  Contemporary Post-Soviet Life (Mason Core) (p. 135)
or HIST 329  Modern Russia and the Soviet Union (Mason Core) (p. 135)

Total Credits 6

Russian Literature or Cinema in Translation
Select two courses from the following:

RUSS 325  Major Russian Writers (Mason Core) (p. 135)
RUSS 326  A Survey of Russian Literature (Mason Core) (p. 135)
RUSS 327  A Survey of Russian Literature (Mason Core) (p. 135)
RUSS 470  Topics in (Post) Soviet Film

Total Credits 6

Courses Taught in Russian
Select three courses from the following:

RUSS 302  Russian Conversation and Composition
RUSS 303  Russian Advanced Conversation
RUSS 310  Readings in Russian Literature
RUSS 311  Contemporary Russian Short Fiction
RUSS 401  Readings in the Social Sciences
RUSS 410  Russian Poetry
RUSS 481  Fourth-Year Russian

Total Credits 9

Social Sciences
Students choose from courses dealing with Russia. Any other topically appropriate course in a social science discipline (ANTH, ECON, GGS, GOVT, SOCI) may be used to fulfill this requirement with the prior written approval of the director.

Select one course from the following:

GOVT 338  Government and Politics of Russia

ECON 380  Economies in Transition (Mason Core) (p. 135)

GGS 330  Geography of the Soviet Succession States

Total Credits 3

Writing-Intensive Requirement
The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in Russian and Eurasian studies may fulfill this requirement by successfully completing RUSS 302 Russian Conversation and Composition, RUSS 325 Major Russian Writers (Mason Core) (p. 135), or RUSS 407 Russian Drama and Theater.

Upper Level Requirement
Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree
In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL</td>
<td>(p. 1818)</td>
<td>3</td>
</tr>
<tr>
<td>RELI</td>
<td>(p. 1904)</td>
<td></td>
</tr>
</tbody>
</table>

1 Note that the following courses may not be used to fulfill this requirement:
- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

Social and Behavioral Sciences

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH</td>
<td>(p. 1119)</td>
<td>1</td>
</tr>
<tr>

<tr>
<td>PSYC</td>
<td>(p. 1844)</td>
<td></td>
</tr>
<tr>
<td>SOCI</td>
<td>(p. 1923)</td>
<td></td>
</tr>
</tbody>
</table>

Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement)

1 Note that the following courses may not be used to fulfill this requirement:
- ANTH 1123
- CRIM 1125
- ECON 1415
- GOVT 1590
- HIST 1600
- LING 1604
- PSYC 1845
- SOCI 1925
Or choose from the following GGS courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GGS 101</td>
<td>Major World Regions (Mason Core) (p. 135)</td>
<td></td>
</tr>
<tr>
<td>GGS 103</td>
<td>Human Geography (Mason Core) (p. 135)</td>
<td></td>
</tr>
<tr>
<td>GGS 110</td>
<td>Introduction to Geoinformation Technologies</td>
<td></td>
</tr>
<tr>
<td>GGS 301</td>
<td>Political Geography</td>
<td></td>
</tr>
<tr>
<td>GGS 303</td>
<td>Geography of Resource Conservation (Mason Core) (p. 135)</td>
<td></td>
</tr>
<tr>
<td>GGS 304</td>
<td>Population Geography (Mason Core) (p. 135)</td>
<td></td>
</tr>
<tr>
<td>GGS 305</td>
<td>Economic Geography</td>
<td></td>
</tr>
<tr>
<td>GGS 306</td>
<td>Urban Geography</td>
<td></td>
</tr>
<tr>

Additional Elective Courses
Any remaining credits may be completed with elective courses to bring the degree total to 120

Accelerated Master's

The accelerated master's program below specifies the BA in Russian and Eurasian Studies as a feeder degree for its program. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of master's degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Bachelor's Degree (selected)/Middle East and Islamic Studies, Accelerated MA

Overview
Highly-qualified undergraduates pursuing a BA in select majors (listed below) may apply to the accelerated master's degree in Middle East and Islamic studies. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's degree in Middle East and Islamic studies after satisfactory completion of 144 credits, sometimes within five years. See AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
- government and international politics (p. 917)
- global affairs (p. 509)
- history (p. 394)
- religious studies (p. 477)
- Russian and Eurasian studies (p. 558)
- sociology (p. 494)
- anthropology (p. 484)

It is preferred, though not required, that the student have a minor in Middle East studies or Islamic studies.

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MA in Middle East and Islamic studies, see Application Requirements and Deadlines (http://meis.gmu.edu/programs/la-ma-acel-meis).

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete two graduate courses as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

</tr>
</tbody>
</table>

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

</table>
The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

School of Integrative Studies
Phone: 703-993-1436
Website: integrative.gmu.edu

The School of Integrative Studies offers a distinctive experience that addresses contemporary social, global, and environmental challenges. Students connect academic interests with hands-on learning to prepare for a life and career with meaning and impact. Based in the College of Humanities and Social Sciences, SIS focuses on critical and creative thinking, engaged scholarship and diversity in thought. Graduates will lead the way as a new brand of professionals whose understanding of the liberal arts and commitment to a just world can build the cross-sector approaches necessary to solve pressing global, social and environmental problems.

An integrative, interdisciplinary learning environment, SIS offers the benefits of small, discussion-based courses while providing access to the academic resources of a large public research university. Drawing on its award-winning faculty, SIS provides students with transformative experiential learning opportunities including internships, field and international study, and independent research and service. Both the structure and curriculum of SIS prepares graduates who are engaged, well-rounded scholars who consistently assume leadership roles in the fields of business, law, government, healthcare, education, and the nonprofit sector, among others.

Undergraduate Programs
The School of Integrative Studies offers a bachelor of arts and a bachelor of science degree in integrative studies, and a bachelor of arts in environmental and sustainability studies (joint degree with Environmental Science and Policy in the College of Science).

The integrative studies curriculum is based on intensive, interdisciplinary learning communities, coordinated with traditional academic programs. The result is an integrated program of study that emphasizes collaboration, experiential learning, and self-reflection. All students complete their degree programs with an interdisciplinary concentration.

The environmental and sustainability studies degree provides students with theoretical and practical knowledge of three aspects of environmental and sustainability studies: people, prosperity, and planet. In addition to required core courses, students develop more in-depth knowledge in one of four concentrations. This degree prepares students for employment and graduate study in fields related to social justice, business and public policy, and environmental protection as they relate to the environment and sustainability.

Transfer Students
The School of Integrative Studies welcomes transfer students from other four-year institutions or community colleges, as well as from other academic units within Mason. Academic advisors work with students to utilize transfer credits and create a plan for timely completion of the bachelor’s degree. All transfer students are required to take INTS 391 Introduction to Integrative Studies within their first two semesters and meet with an academic advisor as soon as possible.

Minors
The School of Integrative Studies offers minors in childhood studies, well-being, leadership, multimedia, nonprofit studies, and social justice. All are available to students in any major in the university.

The Sustainability Studies Minor (p. 685) is offered jointly by the Department of Environmental Science and Policy and the School of Integrative Studies.

Centers
The School of Integrative Studies houses Social Action and Integrative Learning (SAIL), which serves all students and faculty in the university.

Childhood Studies Minor

Banner Code: CHDS

Academic Advising
402 Enterprise Hall
Fairfax Campus
Email: sisinfo@gmu.edu
Website: integrative.gmu.edu/programs/la-minor-nc-chds

The interdisciplinary minor is designed for students who have a child-related focus in their major and for those who want to explore the topic of childhood. This minor focuses on the study of issues concerning children and their representations, including their experiences in society within historical and contemporary cultures and global contexts. The curriculum fosters thinking about childhood theory, research, policy and the practical applications of this knowledge to decisions regarding children and youth. The minor provides enough flexibility for students to choose relevant courses in keeping with their primary interests.

Faculty
Dunne, Garner (director), Gorski, Mahatmya

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 16

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 565) tab.

Conservation Studies Minor (CHSS)

Banner Code: CNST

Academic Advising
Lisa Des Jardins, Academic Program Coordinator and Advisor
Email: ldesjard@gmu.edu
Website: smconservation.gmu.edu

This minor is designed for undergraduate students who wish to augment their main academic program with conservation studies taught in an experiential manner. There are three, semester-long options by which students can complete the minor including ones that focus on "Conservation, Biodiversity and Society", "Wildlife Ecology and Conservation", or "Endangered Species Conservation". These semesters are grounded in natural science, and offer a collection of four to five interdisciplinary courses that combine public policy, sociology, conflict resolution, and global awareness with hands-on experience. Students are in residence at the Smithsonian Conservation Biology Institute in Front Royal, Virginia, and are taught by Mason faculty, Smithsonian scientists and practitioners.

The minor is available only to students who enroll in any of the Smithsonian Mason Semesters, semester-long residential programs held at the Smithsonian Conservation Biology Institute in Front Royal, VA. The semesters are offered jointly by the College of Humanities and Social Sciences and the College of Science under the auspices of the Smithsonian-Mason School of Conservation (http://smconservation.gmu.edu).

This is a Green Leaf program (p. 102).
Policies
Eight credits of coursework must be unique to the minor and students pursuing this minor must complete one of the options with a minimum grade of 2.00 in each course. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 15-16

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 566) tab.

Environmental and Sustainability Studies, BA (CHSS)

Banner Code: LA-BA-EVSS

Website: http://ess.gmu.edu/

The BA in Environmental and Sustainability Studies is a joint program between the College of Humanities and Social Sciences (p. 295) and the College of Science (p. 593).

This degree provides students with theoretical and practical knowledge of three aspects of environmental and sustainability studies: people, prosperity, and planet. In addition to required core courses, students develop more in-depth knowledge in one of six concentrations. This degree prepares students for employment and graduate study in fields related to social justice, business and public policy, and environmental protection as they relate to the environment and sustainability.

This is a Green Leaf program (p. 102).

Admissions & Policies

Policies
Students pursuing this degree must complete a minimum of 60 credits within the major, with a minimum grade of 2.00 in each course. For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements
Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 566) tab.

Of the credits required for this degree, 14 credits simultaneously fulfill core requirements for the major and Mason Core requirements, and, depending on the concentration and electives chosen, up to 9 credits may simultaneously fulfill Mason Core requirements and college BA requirements.

Core Courses in the Major

Core requirements may satisfy Mason Core requirements in natural science (EVPP 110 The Ecosphere: An Introduction to Environmental Science I (Mason Core) (p. 135), EVPP 111 The Ecosphere: An Introduction to Environmental Science II (Mason Core) (p. 135)) and the college BA requirement for social and behavioral science (GOVT 361 Introduction to Environmental Policy).

Managing People and Organizations in a Global Economy and OM 303 Operations Management for MBUS 306 Managing Projects and Operations. Both courses cannot be taken for credit. Students who have taken and received credit for both ACCT 203 Survey of Accounting and FNAN 303 Financial Management shall substitute the combination for MBUS 300 Accounting in a Global Economy. All three courses cannot be taken for credit.

For this concentration, students may substitute OM 211 Honors Statistical Analysis for Management for SOCI 313 Statistics for the Behavioral Sciences (Mason Core) (p. 135) (core requirement for degree). Students cannot receive credit for more than one of these.

</tbody>
</table>

Total Credits 15

### Concentration in Environmental Policy and Economics (EVPE)

The requirements for this concentration satisfy the Mason Core requirement in social and behavioral science (ECON 104 Contemporary Macroeconomic Principles (Mason Core) (p. 135)) and, depending on the elective chosen, may fulfill the college BA requirement in non-Western culture (ECON 362 African Economic Development (Mason Core) (p. 135)).

#### Required Courses

Completion of these courses will satisfy the Mason Core social and behavioral science requirement.

<table>

</table>

**Total Credits**: 8

**Writing-Intensive Requirement**

The university requires all students to complete at least one course designated as "writing intensive" in their major at the 300 level or above. Students majoring in environmental and sustainability studies should consult an advisor to learn how to fulfill this requirement.

**Upper Level Requirement**

Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

**College Level Requirements for the BA Degree**

In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

**Philosophy or Religious Studies**

Select 3 credits from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL (p. 1818)</td>
<td></td>
<td>1</td>
</tr>
<tr>
<td>RELI (p. 1904)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**: 6
Note that the following courses may not be used to fulfill this requirement:
- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

### Social and Behavioral Sciences

<table>
<thead>
<tr>
<th>Code</th>

</tbody>
</table>

Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement)¹

Or choose from the following GGS courses:
- GGS 101 Major World Regions (Mason Core) (p. 135)
- GGS 103 Human Geography (Mason Core) (p. 135)
- GGS 110 Introduction to Geoinformation Technologies
- GGS 301 Political Geography
- GGS 303 Geography of Resource Conservation (Mason Core) (p. 135)
- GGS 304 Population Geography (Mason Core) (p. 135)
- GGS 305 Economic Geography
- GGS 306 Urban Geography
- GGS 315 Geography of the United States
- GGS 316 Geography of Latin America
- GGS 320 Geography of Europe
- GGS 325 Geography of North Africa and the Middle East
- GGS 330 Geography of the Soviet Succession States
- GGS 357 Structures in Urban Governance and Planning
- GGS 380 Geography of Virginia

¹ The two courses used to fulfill the combined college and Mason Core (p. 135) requirements must be from different disciplines in the social and behavioral sciences.

### Foreign Language

Intermediate-level proficiency in one foreign language, fulfilled by:¹

- Completing a course in a foreign language numbered 202, 209, or 210 (or higher level courses taught in the language) (p. 414)
- Or achieving a satisfactory score on an approved proficiency test
- Or completing the following ASL three course sequence:
  - EDSE 115 American Sign Language (ASL I)
  - EDSE 116 American Sign Language (ASL II)
  - EDSE 219 American Sign Language (ASL) III

¹ Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

### Non-Western Culture

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

Additional Elective Courses

Any remaining credits may be completed with elective courses to bring the degree total to 120.

Accelerated Master’s

The accelerated master’s programs in the list below specify the BA in environmental and sustainability studies as a feeder degree for their programs. It is important to note, however, that many accelerated master’s programs are available for any bachelor’s degree at Mason, including this one. See the full list of master’s degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Bachelor’s Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)

Overview

Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master’s degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master’s in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors

Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students...
must begin their master's program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**Bachelor's Degree (Green Leaf)/Environmental Science and Policy, Accelerated MS**

**Overview**

This degree option allows highly qualified George Mason University students to earn an Environmental Science and Policy, MS (p. 664) in less time than if they had first graduated with an environmentally-focused Green Leaf-designated (p. 102) BA or BS degree and then applied to the MS program sequentially.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Admission Requirements**

Students with an overall GPA of at least 3.20 who are pursuing any Green Leaf-designated (p. 102) major or minor may apply for provisional acceptance into this accelerated master's program after completing two semesters of chemistry (including CHEM 211 General Chemistry I (Mason Core) (p. 135) and CHEM 212 General Chemistry II (Mason Core) (p. 135)) and three semesters of biology, including a course in ecology, or the equivalent, for example:

</tbody>
</table>

| Option 3: | Conservation Theory                                    |         |
| CONS  | Applied Conservation                                   |         |
| CONS  | Biodiversity Monitoring                                |         |
| EVPP  | Environmental Microbiology Essentials Laboratory        |         |

By the beginning of the undergraduate's senior year, they should first submit a Graduate Application for Accelerated Master's Program form (obtained from the Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us)). Secondly, in their senior year accelerated master's students must complete the two graduate courses indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in a Green Leaf-designated (p. 102) program, in the semester indicated in the application, they must additionally submit the Bachelor's/Accelerated Master's Transition form (found on the Office of the University Registrar website (http://registrar.gmu.edu/forms)) and will subsequently be admitted into graduate status.

By at least the beginning of their senior year, they should seek out a faculty member in the Department of Environmental Science and Policy (p. 661) who is willing to serve as their advisor (unless the student is planning to enroll in the MS concentration in Environmental Management). This advisor will aid the student in choosing the appropriate graduate courses to take and help to prepare the student for graduate studies. Admission into a research-oriented master's concentration is dependent upon securing the agreement of a faculty advisor. Faculty from a variety of departments and colleges at George Mason (called "program faculty") can serve as master's advisors. Potential students are encouraged to speak with the graduate program coordinator in the department to obtain guidance on this issue.

**Application Requirements**

Applicants to all graduate programs at Mason must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog, excluding the GRE exam requirement (which is not required for those enrolled in the accelerated program). This includes three letters of recommendation (at least one from a former professor or someone with a PhD), a recent resume, a statement of interest/research goals and interests (including information on the candidate's proposed MS research), and a letter from their advisor stating that the advisor agrees to take on the candidate as an MS student, how the candidate would be a good fit for them and why candidate's research topic would be suitable (please note that a letter of endorsement from an advisor not necessary for candidates taking the Environmental Management concentration).

For information specific to the accelerated Environmental Science and Policy, MS (p. 664), see Graduate Admissions on the department's website (http://esp.gmu.edu/academic-programs/graduate/admissions).

**Reserve Graduate Credits**

Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 6 credits of appropriate...
environmentally-focused graduate coursework may be used in partial satisfaction of the requirements for the undergraduate degree. If students earn at least a 3.00 GPA in these classes, they are granted advanced standing in the master’s program and must then complete an additional 27-31 credits to receive the master’s degree.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition form found on the Office of the University Registrar website (http://registrar.gmu.edu/forms) (as noted above).

Students may take up to 6 additional environmentally-focused graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree but will reduce the subsequent master’s degree credits accordingly (e.g., with 6 credits counted towards undergraduate degree plus the maximum 6 reserve credits, an MS could be completed with 21 post-bachelor’s credits). The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department.

### Integrative Studies, BA

**Banner Code: LA-BA-INTS**

**Academic Advising**
402 Enterprise Hall
Fairfax Campus

Email: sisinfo@gmu.edu
Website: integrative.gmu.edu/programs/la-ba-ints

The BA in integrative studies brings together research, theory and practice across numerous disciplines. Integrative studies majors select a multidisciplinary concentration or work with student services staff to develop their own concentration, uniquely suited to their academic and career goals. Integrative studies majors explore new topics and experiences while gaining the knowledge and skills needed to enter the workforce. Required coursework is offered in small classes with ample room for discussion, collaborative learning, and experiential learning, including in-community projects, volunteer opportunities, field work, internships and work with faculty on research that directly engages current social and global challenges.

### Admissions & Policies

**Policies**

Students must fulfill all Requirements for Bachelor’s Degrees (p. 84) including the Mason Core (p. 135). Integrative studies students may fulfill lower level Mason Core requirements through approved integrative studies (INTS) coursework. Students pursuing a BA in integrative studies must complete a minimum of 30 credits of (INTS) coursework, with at least 18 credits at the 300 and 400 levels. These 30 INTS credits fulfill the writing intensive and synthesis Mason Core requirements. In addition, students must complete ENGH 302 Advanced Composition (Mason Core) (p. 135). Students must have a minimum GPA of 2.00 in courses applied to the major. Before registering, students should see an advisor to help plan their degree program to meet Mason requirements. The advisor also can help students choose electives or a minor.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

### Degree Requirements

**Total credits: minimum 120**

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 574) tab.

Before registering, students should see an advisor to help plan their degree program to meet Mason requirements. The advisor also can help students choose electives or a minor.

### Concentrations in the Major

A concentration is the equivalent of a major in a traditional degree program. Students choose from an established multidisciplinary concentration below or create with faculty an individualized program of study to fit their interests and needs. Concentration coursework combines integrative studies (INTS) classes with coursework from other Mason units (departments, schools, and colleges). While fulfilling the concentration requirements, students are also responsible for completing a minimum of 30 credits of INTS coursework. Any INTS courses required for the concentration will apply. Students must present a minimum GPA of 2.00 in courses applied to the concentration.

### Childhood Studies (CHDS)

Students complete the following coursework:

#### Seven Required Courses (minimum of 23 credits)

<table>

Total Credits: 9-18

**International Studies (INST)**

Students complete the following coursework:

**Language Proficiency**

All students must demonstrate language proficiency at the intermediate level through coursework (a Mason course numbered 210) or proficiency testing.

**Foundational Courses**

- INTS 303 Introduction to International Studies 3
- INTS 362 Social Justice and Human Rights 3
- INTS 435 Leadership in a Changing Environment 4

Total Credits: 10

**Religious Studies**

Select one course from the following:

- RELI 341 Global Perspectives on Spirituality and Healing (Mason Core) (p. 135)
- RELI 360 Religion and Politics
- RELI 401 Death and the Afterlife in World Religions
- RELI 405 Religion, Values, and Globalization
- RELI 407 Women in the World’s Religions
- RELI 490 Comparative Study of Religions (Mason Core) (p. 135)

Total Credits: 3

**Geography**

Select one course from the following:

- GGS 302 Global Environmental Hazards
- GGS 303 Geography of Resource Conservation (Mason Core) (p. 135)
- GGS 304 Population Geography (Mason Core) (p. 135)
- GGS 305 Economic Geography

Total Credits: 3

**Globalization**

Select one course from the following:

- ANTH 300 Civilizations
- ANTH 332 Cross-Cultural Perspectives on Globalization (Mason Core) (p. 135)
- CULT 320 Globalization and Culture
- GLOA 101 Introduction to Global Affairs (Mason Core) (p. 135)
- INTS 348 Digital Futures
- SOCI 120 Globalization and Society (Mason Core) (p. 135)
- SOCI 320 Social Structure and Globalization (Mason Core) (p. 135)

Total Credits: 3

**Sustainability**

Select one course from the following:

- INTS 210 Sustainable World
- INTS 334 Environmental Justice
- INTS 401 Conservation Biology
- INTS 402 Plants and People - Sustenance, Ceremony, and Sustainability
- PHIL 243 Global Environmental Ethics (Mason Core) (p. 135)

Total Credits: 3-6

**Politics**

Select one course from the following:

- ANTH 312 Political Anthropology (Mason Core) (p. 135)
- GGS 301 Political Geography
- GOVT 322 International Relations Theory
- INTS 422 An Experiential Approach to American Foreign Policy

Total Credits: 3

**Social Action and Conflict Transformation**

Select one course from the following:

- INTS 300 Law and Justice
- INTS 302 Argument and Advocacy
- INTS 304 Social Movements and Community Activism
- INTS 314 Conflict, Trauma and Healing
- INTS 315 Spirituality and Conflict Transformation
- INTS 416 Refugee and Internal Displacement
- SOCI 308 Race and Ethnicity in a Changing World

Total Credits: 3-6

**Creative Arts**

Select one course from the following:

- DANC 118 World Dance (Mason Core) (p. 135)

Total Credits: 3-4
<table>

WMST 300  Current Issues in Women and Gender Studies
WMST 450  Current Topics in Women and Gender Studies

Courses in above areas not already taken

WMST 600  Special Topics 2
WMST 610  Feminist Approaches to Social Research 2
WMST 630  Feminist Theories across the Disciplines 2
WMST 640  Women and Global Issues 2

Total Credits 33-44

1 Various special topics courses with the approval of the undergraduate advisor.
2 Six credits of WMST 600 Special Topics, WMST 610 Feminist Approaches to Social Research, WMST 630 Feminist Theories across the Disciplines, or WMST 640 Women and Global Issues may apply to elective requirement for students accepted into the accelerated master’s degree in interdisciplinary studies (MAIS) with a concentration in women and gender studies.

Individualized Concentration (IND)
With approval of the executive director, students may construct an individualized concentration.

Total Credits 30

Additional Electives
Any remaining credits may be completed with electives to bring the degree total to 120.

Accelerated Master's
The accelerated master's programs in the list below specify the BA in integrative studies as a feeder degree for their programs. It is important to note, however, that many accelerated master’s programs are available for any bachelor’s degree at Mason, including this one. See the full list of master's degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Integrative Studies, BA (Social Science for Education Concentration)/Curriculum and Instruction, Accelerated MEd (Secondary Education History and Social Science Concentration)

Overview
Highly-qualified Mason undergraduates may be admitted to the bachelor’s/accelerated master’s option and obtain both a BA in Integrative Studies (p. 574) (concentration in social science for education) and an MEd in Curriculum and Instruction (p. 161) (concentration in secondary education history and social science) in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 89) for policies related to this program.

This accelerated option is offered jointly by the School of Integrative Studies (p. 564) and the Graduate School of Education (p. 155).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 66). For information specific to this accelerated master’s program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

Accelerated Option Requirements
Students complete the following courses in their senior year:

</tr>
</tbody>
</table>

Total Credits 12

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the bachelor’s and master’s degrees. These courses are considered advanced standing
for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Bachelor’s Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)

Overview
Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master’s degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master’s in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors
Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Integrative Studies, BS

Banner Code: LA-BS-INTS

Academic Advising
402 Enterprise Hall
Fairfax Campus
Email: sisinfo@gmu.edu
Website: integrative.gmu.edu/programs/la-bs-ints

The BS in Integrative Studies brings together research, theory and practice across numerous disciplines. Integrative studies majors select a multidisciplinary concentration or work with student services staff to develop their own concentration, uniquely suited to their academic and career goals. Integrative studies majors explore new topics and experiences while gaining the knowledge and skills needed to enter the workforce. Required coursework is offered in small classes with ample room for discussion, collaborative learning, and experiential learning, including in-community projects, volunteer opportunities, field work, internships and work with faculty on research that directly engages current social and global challenges.

The BS in Integrative Studies with a concentration in Applied Global Conservation is a Green Leaf Program (p. 102).

Admissions & Policies

Policies
Students must fulfill all Requirements for Bachelor’s Degrees (p. 84) including the Mason Core (p. 135). Integrative studies students may fulfill lower level Mason Core requirements through approved integrative studies (INTS) coursework. Students pursuing a BS in integrative studies must complete a minimum of 30 credits of (INTS) coursework, with at least 18 credits at the 300 and 400 levels. These 30 INTS credits fulfill the writing intensive and synthesis Mason Core requirements. In addition, students must complete ENGH 302 Advanced Composition (Mason Core) (p. 135). Students must have a minimum GPA of 2.00 in courses applied to the major. Before registering, students should see an advisor to help plan their degree program to meet Mason
requirements. The advisor also can help students choose electives or a minor.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 581) tab.

Before registering, students should see an advisor to help plan their degree program to meet Mason requirements. The advisor also can help students choose electives or a minor.

Concentrations in the Major

A concentration is the equivalent of a major in a traditional degree program. Students choose from an established multidisciplinary concentration below or create with faculty an individualized program of study to fit their interests and needs. Concentration coursework combines integrative studies (INTS) classes with coursework from other Mason units (departments, schools, and colleges). While fulfilling the concentration requirements, students are also responsible for completing a minimum of 30 credits of INTS coursework. Any INTS courses required for the concentration will apply. Students must present a minimum GPA of 2.00 in courses applied to the concentration.

Applied Global Conservation (AGCN)

Total credits: 41-45

Smithsonian-Mason Semester Program

Students complete one of the options offered through the Mason Center for Conservation Studies in cooperation with the Smithsonian Conservation Biology Institute. In this integrated series of courses, taken together in one semester, students live on site at the institute in Front Royal, VA. Students who apply this coursework to the concentration cannot also apply it to the minor in Conservation Studies.

Total Credits 40

Individualized Concentration (IND)
With approval of the executive director, students may construct an individualized concentration. 30
Total Credits 30

Additional Electives
Any remaining credits may be completed with electives to bring the degree total to 120

Accelerated Master's
The accelerated master's program listed below specifies the BS in integrative studies as a feeder degree for its program. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of master's degrees (http://catalog.gmu.edu/programs/#filter=filter_27&filter_24) with accelerated programs at George Mason.

Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)

Overview
Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master's in interdisciplinary studies with a concentration in social justice and human...
rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Selected Majors**

Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

**Accelerated Option Requirements**

While undergraduate students, accelerated master’s students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**Leadership Minor**

**Banner Code:** LSHP

**Academic Advising**

402 Enterprise Hall
Fairfax Campus

Website: integrative.gmu.edu/programs/la-minor-nc-lshp

This minor prepares students for transformative leadership in campus, local, national, and global contexts. Interdisciplinary and integrative classes examine leadership from multiple perspectives and disciplines, offering an understanding of socially-responsible leadership with an emphasis on community action. Through the required coursework and experiential learning, students critically examine diverse theories, research, and perspectives on leadership and are encouraged to explore topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, innovation, and systemic leadership. Civic engagement and multicultural competence are viewed as necessary requirements for leadership.

This minor is open to students in all academic programs, schools, and majors.

**Faculty**

Holder, Lennon, Lucas, Owen (director), Wagner

### Admissions & Policies

#### Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

### Requirements

#### Minor Requirements

Total credits: minimum of 15

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 585) tab.

Faculty

Chung, Higgins, Lont, Martin, K. Scott, L. Smith (director), Weinberger, White

Multimedia Minor

Banner Code: MM

Academic Advising

402 Enterprise Hall
Fairfax Campus

Email: sisinfo@gmu.edu
Website: integrative.gmu.edu/programs/la-minor-nc-mm

In this minor, students learn how to create original work and communicate with others through the fusion of images, text, sound, and video. Students analyze and incorporate into their productions contemporary design principles and current software applications. As part of this process, students are encouraged to focus on how multimedia technologies, which offer new tools for investigating and disseminating ideas, can enhance undergraduate research and writing. These skills, now important in most academic disciplines, are also increasingly valuable not only in the specialized information technology industries, but also in business, education, and politics.

Faculty

Chung, Higgins, Lont, Martin, K. Scott, L. Smith (director), Weinberger, White

1 Other courses may be applied to this requirement with prior written approval of the director.
Nonprofit organizations significantly contribute to the provision of human services, access to the arts, education, recreation and health care, and protection of the environment. Effective nonprofit organizations provide direct services, influence public policy and build a civil society. The minor is designed to introduce students to the theoretical foundations and practical skills needed to be successful in this sector. Through heavy emphasis on experiential learning with the many excellent nonprofit organizations in our region, students learn to apply theory within the context of today's complex and rapidly changing environment.

Faculty
Andere, Johnson, Unruh

Social Justice Minor

Banner Code: SOCJ

Academic Advising
402 Enterprise Hall
Fairfax Campus
Email: sisinfo@gmu.edu
Website: integrative.gmu.edu/programs/la-minor-ncc-socj

The minor engages students in both a critical examination of various forms of injustice (such as poverty, racism, and speciesism, and environmental degradation) and an exploration of strategies for creating and sustaining an equitable and just world. The minor is interdisciplinary in nature, drawing on disciplines as distinct as critical race studies, critical animal studies, and environmental science. It is designed particularly to help students consider the intersectional nature of all types of exploitation and their related movements for liberation.
## Admissions & Policies

### Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

## Requirements

### Minor Requirements

Total credits: 15 (minimum)

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 588) tab.

### Core Courses

**Social Justice**

Select two courses from the following: 6-7

- INTS 337 Social Justice Consciousness and Personal Transformation
- INTS 362 Social Justice and Human Rights
- INTS 436 Social Justice Education

**Environmental or Ecological Justice**

Select one course from the following: 3-6

- INTS 334 Environmental Justice
- INTS 338 Animal Rights and Humane Education
- INTS 402 Plants and People - Sustenance, Ceremony, and Sustainability

**Activism and Advocacy**

Select one course from the following: 3-4

- INTS 304 Social Movements and Community Activism
- INTS 336 Poverty, Wealth and Inequality in the US
- INTS 416 Art as Social Action
- INTS 416 Refugee and Internal Displacement

Total Credits 12-17

### Electives

Select one course from the following that is not being applied to the core requirement: 3-6

- CONF 394 Human Rights and Inequality
- EDUC 301 Educationally Diverse Populations: Handicapped, Gifted, Multicultural
- GOVT 445 Human Rights
- HIST 337 Race and Gender in American Sports
- INTS 101 Narratives of Identity
- INTS 210 Sustainable World
- INTS 300 Law and Justice
- INTS 304 Social Movements and Community Activism
- INTS 310 Violence and Gender
- INTS 336 Poverty, Wealth and Inequality in the US
- INTS 346 Art as Social Action

### Well-Being Minor

**Banner Code: WELB**

**Academic Advising**

402 Enterprise Hall
Fairfax Campus

Email: sisinfo@gmu.edu
Website: integrative.gmu.edu/programs/la-minor-nc-cntr

The minor provides students with a well-grounded understanding of the nature of human consciousness, including both the historical foundations and modern research findings. Through the required coursework, students develop an ability to implement personal practices that foster deeper self-awareness, the regulation of stress factors in his or her life, and an emerging sense of meaning for his or her life. Students will learn to creatively and effectively apply principles from the exploration of consciousness and transformation to his or her own field of study.

**Faculty**

Fuertes, Guenther, Thurston
Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Smithsonian-Mason School of Conservation

Smithsonian Conservation Biology Institute

1500 Remount Road
Front Royal, VA 22630

Phone: 540-635-0115 (direct)
Website: smconservation.gmu.edu

The Smithsonian Institution and George Mason University partnered to establish the Smithsonian-Mason School of Conservation (SMSC) to provide innovative education for current and future generations of global conservation professionals, leaders, and practitioners. Already the SMSC has established itself as a benchmark for innovative education, as instruction focuses on analytical and practical skill building to address the changing threats to and opportunities for conserving biodiversity. The SMSC engages undergraduates, graduate students and professionals from around the world in a range of compelling programs in conservation biology focused on developing the knowledge and implementing the practices required to address some of the greatest threats to biodiversity facing society today.

SMSC’s programs, co-developed and co-taught by SCBI researchers and Mason faculty, are delivered at SCBI’s 3200-acre facility along the Blue Ridge in Front Royal, Virginia, one of the premier conservation research facilities in the world, housing innovative research on some of the rarest species on earth. Students live and learn with prominent research scientists, educators, and conservation practitioners. The undergraduate program provides an innovative semester immersion approach to conservation studies in a learning community framework taking advantage of proximity to SCBI’s scientists, laboratories, and charismatic fauna. Graduate programs are based on a one - two week intensive residential course format for geared to working professionals with the opportunity to gain a graduate certificate from multiple courses and a path to graduate degrees.

Undergraduate Program

The Smithsonian-Mason Semester offers undergraduate programs in which students can earn a Conservation Studies Minor (CHSS), or apply credits to certain Mason degrees. There are currently three programs: “Conservation, Biodiversity and Society” (16 credits), and “Wildlife Ecology and Conservation” (15 credits), and “Endangered Species Conservation” (15 credits). See the Programs of Study section of this catalog for details on the minor and the Courses section for details on the courses (select the course prefix CONS). Grounded in natural science, this interdisciplinary semester brings public policy, sociology, conflict resolution, and global awareness to the learning environment. Students majoring in the Integrative Studies, BS, Biology, BS, Environmental Science, BS, Environmental and Sustainability Studies, BA (CHSS), Applied Science, BAS, and Global Affairs, BA can fulfill major requirements and/or Mason Core requirements with Smithsonian-Mason Semester (CONS) credits subject to college approval.
Graduate Program
Smithsonian-Mason School of Conservation graduate courses offer in-depth explorations of advanced and highly specialized topics in applied conservation studies. Courses cover a diverse selection of topics focusing on biodiversity conservation, ranging from adaptive management to statistics in ecology and conservation, to non-invasive genetic techniques. All current courses take place as intensive one or two-week sessions and participants are in residence on the SMSC grounds in Front Royal, VA.

Although the Smithsonian-Mason School of Conservation does not presently offer a graduate degree, coursework may be applied to George Mason University’s Environmental Science and Policy, MS concentration in Conservation Science and Policy. In many cases, graduate students will have the unique opportunity to learn alongside conservation professionals currently working in the field. The unparalleled resources at the facilities draw researchers and practitioners from around the world, and this offers a rare opportunity for students and professionals to interact to mutual benefit in a hands-on situation and to receive informal mentoring from experienced practitioners.

Website: smconservation.gmu.edu

The graduate certificate in applied conservation science provides students with hands-on education in conservation science. The courses in this program are all residential, full-day, one- or two-week intensive courses held at the Smithsonian Mason School of Conservation in Front Royal, Virginia. This certificate is designed for early to mid-career conservation professionals working in government, non-governmental organizations, and research institutions worldwide.

Students acquire essential skills in conservation research and practice while developing a crucial understanding of the principles and philosophies underlying effective conservation and biodiversity programs. They learn how to apply analysis techniques and tools to address those questions and evaluate conservation outcomes.

Upon completion of the certificate, students will have developed practical and analytical skills applicable to a wide range of programs in applied conservation science research, policy, and practice – from single-species protection and landscape-level restoration and management to community conservation initiatives and human-wildlife conflict mitigation.

The graduate certificate in applied conservation science may be pursued on a part-time or full-time basis.

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the graduate certificate in applied conservation science, see Application Requirements and Deadlines (http://chss.gmu.edu/programs/LA-CERG-ACNS/application).

Policies
For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates.

Women and Gender Studies Program
Phone: 703-993-2896
Website: wmst.gmu.edu

By choosing to pursue work in women and gender studies, students at all levels engage in an interdisciplinary exploration of gender in social, political, cultural, and economic life; gender in history; women and the media; feminist theory; the relationship between sex and gender; the impact of sex, race, class, disability, and sexual orientation on people’s lives; and the ways in which gender stereotypes influence the self in relationship to others. Students in many courses have the opportunity to investigate these issues in a cross-cultural and global perspective.

Undergraduate Programs
The Women and Gender Studies Program offers an interdisciplinary minor open to students from any major. Students have the opportunity to earn credit toward the minor while doing an internship that helps prepare them for the work place, a service learning course that combines work in a specific course with a service project, or research on gender issues on Mason’s campus. Students pursuing this minor can take advantage of the many activities and resources provided by the Women and Gender Studies Center.

The program also sponsors the concentration in women and gender studies in the BA in integrative studies (p. 574).

Graduate Programs
The program sponsors the concentration in women and gender studies in the master’s degree in interdisciplinary studies (p. 534) (MAIS).

This concentration promotes advanced scholarship that transcends traditional boundaries. Students combine required coursework in women and gender studies with courses in a discipline of interest such as history, literature, sociology, anthropology, health, education, philosophy, social work, conflict analysis and resolution, or the arts.

The program also offers a graduate certificate in women and gender studies (p. 591). Students may take this as a stand-alone certificate or pursue it concurrently with any graduate degree program. A portion of the certificate coursework may be applied to the degree with the approval of the director of the graduate degree and dean. Students must apply and be accepted to a graduate certificate program.

Women and Gender Studies Center
The academic program in women and gender studies is integrated with the Women and Gender Studies Center. The center organizes a wide variety of lectures, conferences, workshops, and other public events throughout the year. The center houses a library and functions as a community space for students and faculty.

The graduate certificate may be taken alone or in conjunction with another graduate program. Courses applied to the certificate may be applied to a degree program, subject to approval of the director of the respective program.

The graduate certificate may be pursued on a part-time or full-time basis.
**Admissions**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the graduate certificate in women and gender studies, see Application Requirements and Deadlines (http://wmst.gmu.edu/programs/LA-CERG-WGST/application).

**Policies**

In accordance with university policy, students may transfer up to 3 graduate credits earned at another accredited institution to the certificate program with the approval of the director of the program and the dean. They may transfer up to 9 graduate credits earned at Mason in nondegree status toward the certificate, subject to approval of the director and the dean in accordance with university policy.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 90).

**Certificate Requirements**

Total credits: 15

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 592) tab.

¹ Students choose from relevant courses subject to the approval of the director. These courses may be from departments across the university that address the study of women and gender, courses in the Women and Gender Studies Program, and appropriate directed readings or independent study courses.

**Capstone Portfolio**

Students synthesize their work in the certificate program by reflecting on how issues, ideas, and theories raised in the core courses inform their understanding of gender issues within their area of interest. The portfolio includes three to five items produced in previous course work and a 7-10 page essay discussing them. The portfolio may include course papers, performance videos, photos of exhibits, music, or other items as agreed on by the student and advisor. The portfolio must be approved by the graduate advisor and submitted to the Women and Gender Studies Program, where it will be presented, displayed, and archived.

## College Code: SC

The College of Science (COS) serves as the nexus for research and education in the natural, mathematical, and computational sciences at George Mason University. The central mission of COS is to create and disseminate scientific knowledge, provide outstanding scholarship in concert with excellent teaching, and develop the human and technical resources required to address the current and future needs of society. Through its innovative and multifaceted educational and research mission, COS offers exciting opportunities to undergraduate and graduate students, scientists, educators, and other professionals in Northern Virginia and the national capital region.

In addition to the wide variety of undergraduate degree programs offered by its departments, COS also offers many innovative graduate degrees and interdisciplinary minors. The research strength of COS provides an essential resource to graduate and undergraduate students whose involvement in research is strongly encouraged. Many undergraduates go on to graduate school and to pursue careers in public service, nonprofit organizations, and the private sector. Graduate students engage in more specialized study at the master's and doctoral levels, preparing them for first or second careers or job advancement and providing personal enrichment.

Faculty members are committed to teaching grounded in scholarship and research. They strive to make students rigorous thinkers and clear communicators while encouraging experimentation with new approaches and ideas. Students are thus prepared for their role as informed citizens in a complex, global society and are able to adapt to an ever-changing world.

### Requirements & Policies

#### College Policies

Students in COS are governed by the policies and procedures of the university. Areas where the college provides additional guidance will be found in the Undergraduate Education and Graduate Education sections below.

#### Accommodations for Disabled Students

Students with documented disabilities should contact the Office of Disability Services (http://ods.gmu.edu) (703-993-2474) to learn more about accommodations that may be available to them.

#### Undergraduate Education

The college offers numerous Bachelor of Arts and Bachelor of Science degrees. These undergraduate degrees consist of coursework in the Mason Core (p. 135), in a major area of study, and in elective courses. To earn a bachelor’s degree, students must at a minimum:

- Complete 120 credits, of which at least 45 must be in upper-level courses (numbered 300 and above).
- Complete at least one course designated as "writing intensive" (at the 300 or 400-level).
- All entering students who have not yet satisfied the Mason Core (p. 135) requirement in ‘Quantitative Reasoning’ are required to take the Math Placement Test (http://math.gmu.edu/placement_test.php) prior to enrollment.
- Students should also consult AP.5 Undergraduate Policies (p. 84) for information concerning university-wide requirements for undergraduate degrees.

All students are responsible for meeting with their academic advisor and reviewing their transcripts and degree audits regularly to ensure that they are correct and meet all requirements. Transfer students are encouraged to meet with their academic advisor prior to registering for classes in order to review their transcripts and course equivalencies. In some cases, students may need to earn more than 120 credits to complete all of the requirements.
More information regarding the undergraduate programs administered by COS is available on the college's website (http://cos.gmu.edu).

**College-level Degree Requirements**

The baccalaureate degree is designed to provide a broad knowledge of the world, develop in students the ability to think conceptually and critically, acquaint them with many different methods of inquiry, and provide skills to continue intellectual growth throughout life.

**Bachelor of Arts**

The Bachelor of Arts (BA) degree provides students with a breadth of knowledge as well as the necessary skills to make in-depth study of a major truly meaningful. In addition to the Requirements for Bachelor's Degrees (p. 85) and the Mason Core (p. 135), students pursuing a BA degree must also complete the College Requirements for the BA Degree, and the degree program's requirements, both listed in the specific degree program's page.

**Bachelor of Science**

The Bachelor of Science (BS) degree provides students with a more intensive approach to the technical core knowledge and concepts in their major field of study. Therefore, this curriculum has a reduced number of courses in humanities and social sciences in comparison with the BA degree in order to allow students to achieve greater depth in their majors. Students pursuing a BS degree must complete the Requirements for Bachelor's Degrees (p. 85), including the Mason Core (p. 135), and the requirements for their major. Requirements for each BS major are listed on the specific degree program's page.

**Minors**

Students may elect to take a minor in addition to their major field of study. For policies governing all minors, see AP.5.3.4 Minors (p. 86). Students interested in earning a minor should complete the Minor Declaration form (http://registrar.gmu.edu/forms).

**Teacher Licensure**

Degree programs that help to prepare students for teaching careers are available in the following COS programs:

- Biology, BA (p. 619)
- Biology, BS (p. 624)
- Chemistry, BA (p. 638)
- Chemistry, BS (p. 643)
- Earth Science, BS (p. 604)
- Mathematics, BA (p. 711)
- Mathematics, BS (p. 716)
- Physics, BS (p. 731)

Students who wish to become teachers and who plan to seek teacher licensure should also consult the College of Education and Human Development (p. 154) and attend an information session early in their undergraduate career. For more information, visit the Graduate School of Education's website (http://gse.gmu.edu).

**Undergraduate Policies**

Students should become familiar with the university's general academic policies in addition to those specific to each department. Please see AP.5 Undergraduate Policies (p. 84).

Students with questions regarding exceptions to undergraduate academic policies and college-level requirements should contact the college's Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us) (email: ugradCOS@gmu.edu). Additional information and forms are available online from the college’s Undergraduate Student Affairs (http://cosundergrad.gmu.edu) webpage.

**Registration**

Students are personally responsible for correctly registering for courses and paying all tuition and fees by the official university registration and payment deadlines. Instructors do not have the authority to add students to courses. All students should verify the accuracy of their enrollment before the end of the official add period. Calendars are available on the Office of the University Registrar's website (http://registrar.gmu.edu/calendars).

**Academic Load**

Students should review the university policies regarding academic load in AP.1.2 Academic Load (p. 74).

In order to be considered for an overload, students must fulfill all of the following criteria:

- Be in good academic standing,
- Have completed the prior semester with a GPA of 2.75 or higher,
- Have a cumulative GPA of 2.75 or higher,
- No grades of 'C-' or lower in the previous semester,
- Have demonstrated in prior semesters at George Mason the ability to handle an increased and demanding course load while maintaining high performance, and
- Have no remaining incompletes (IN) from a previous semester

Freshmen and transfer students in their first semesters are not given permission for overloads as they have yet to establish an academic record at Mason.

If approved for an overload, the student is responsible for adding the additional class(es) and paying for the related tuition and fees by the official university deadlines. Calendars are available on the Office of the University Registrar's website (http://registrar.gmu.edu/calendars).

**Excluded Courses**

COS students are limited to 2 credits of coursework in Physical Education (PHED) (p. 1825); Parks, Recreation, and Leisure Studies (PRLS) (p. 1811); and Recreation (RECR) (p. 1893) activity courses toward a COS degree.

Military Science courses MLSC 400 Leadership and Management and MLSC 402 Leadership and Ethics can be used for credit towards a COS degree, but credit from other MLSC courses may not be applied toward COS degrees.

Once matriculated at Mason, students may not take CLEP exams and apply credits from those exams toward COS degrees. Students may apply credits from CLEP exams to COS degrees only if those credits were awarded and reported prior to admission.

**University Consortium Registration**

Students should review the university policies in AP.1.4 Special Registration Procedures (p. 74), including the University Consortium listing.

In addition, students who have failed a course at Mason are not permitted to take the equivalent course through the consortium under any
Withdrawals require the approval of the college’s associate dean for student affairs, who makes the final determination. The decision of the associate dean is not subject to review or further appeal.

In order to make this request, students should:

• Submit their request within 12 months of the first day of the re-enrollment term,
• Provide a detailed explanation for why they were unsuccessful in those courses and how they have made changes to ensure their academic progress upon their return,
• Enroll in at least 6 hours during their first 12 months back at Mason and
• Earn a minimum GPA of 2.50 each semester back prior to making the clemency request, with no grade below 2.00.

If these minimum academic requirements are not met during the first semester of return, then clemency will not be allowed under any circumstances.

Apologies Process
Students may appeal departmental decisions concerning academic actions to COS Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). They may further appeal the decisions of COS Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us) to the Dean’s Council, a committee composed of college deans and faculty members. These levels of appeal are subject to the limits below concerning the final level of appeal for each type of academic action. Students who feel that the college appeal process was conducted unfairly may appeal to the Office of the Provost as specified in Student Rights and Responsibilities (p. 96).

Grade appeals should first be made to the department or program, following the process specified in AP.3.9 Grade Appeals (p. 82). If they are resolved within the department or program, that is the final level of appeal. The departmental decision may be appealed to the college’s associate dean for student affairs only on the basis of procedural irregularity. Such appeals should be made through the COS Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). If the grade appeal is not resolved within the department or program, the chair makes a recommendation to the college’s associate dean for student affairs, who makes the final determination. The decision of the associate dean is not subject to review or further appeal.
Departments set the requirements for the majors and minors that they administer. Substitutions and waivers of requirements require the approval of COS Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). When a department denies a substitution or waiver of a requirement, this decision may be appealed to the COS Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us) on the basis of procedural irregularity only, and is the final level of approval.

The Dean’s Council is the final level of appeal for course overloads, consortium registration, study elsewhere, and withdrawals after the drop deadline within the semester.

The college’s associate dean for student affairs is the final level of appeal for COS college-level requirements, retroactive adds, withdrawals, graduation, and return from suspension and dismissal.

There is no waiver or appeal of satisfactory performance standards (minimum grades or grade point average, GPA) that have been set by the department or program faculty for the courses in their major or minor.

Students should file all appeals in a timely manner, usually within the semester in which the original decision is rendered, but no later than the final day of classes in the following semester.

Grievances
Grievances should be directed in writing to the college’s associate dean for student affairs. The COS Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us) may also provide guidance to students on how to resolve their concerns.

Transfer Students
Admitted and enrolled transfer students who have completed an AA, AS, or AA&S degree from the Virginia Community College System (VCCS) and have been offered admission to Mason by the Office of Admissions (https://www2.gmu.edu/admissions-aid) may be eligible for a waiver of all of Mason’s lower level Mason Core (p. 135) requirements in accordance with the Guaranteed Admission Agreement. Students eligible for this waiver are still required by the university to complete ENGH 302 Advanced Composition (Mason Core) (p. 135) and a synthesis course. Transfer students who have been offered admission under the terms of the Guaranteed Admission Agreement and are pursuing a degree in the college are considered to have met all college requirements except for proficiency in a foreign language (required of BA students).

Students with a bachelor’s degree from an accredited institution who are pursuing a BA degree in COS are also considered to have met all college requirements except for proficiency in a foreign language.

Graduate Education
COS offers numerous graduate certificates, master’s programs, and doctoral programs; the requirements for each can be found in the program’s description in this catalog. More information regarding the college’s graduate programs is available on the college’s website (https://cos.gmu.edu/academics/graduate-academics).

Graduate Admission
Admissions decisions are made by the faculty committee in the respective graduate program. Denial of admission is not subject to appeal. Further information can be found in Graduate Admission Policies (p. 66).

Provisional Admission
Provisionally admitted students are not eligible to participate in any consortium coursework, studying at another institution, or study abroad programs until the conditions of the provisional contract have been met. Transfer of credit requests for coursework taken in non-degree status at Mason or another institution will not be considered until the provisional contact has been fulfilled. Further information on provisional admission can be found in Graduate Admissions Policies (p. 66).

Non-degree Enrollment
COS gladly admits qualified students for non-degree studies. Some of the factors that are considered by COS while making non-degree admissions decisions include: previous academic performance, professional experience, and academic fit. To apply, applicants are to complete the non-degree George Mason University Graduate Application (https://www2.gmu.edu/admissions-aid) and provide official transcripts from all institutions attended. Further information can be found in Non-degree Enrollment (p. 71) and on the Office of Admissions’ website (http://admissions.gmu.edu/nonDegree).

Upon admission to graduate non-degree studies, students are considered graduate students and are charged tuition accordingly (regardless of the course’s level). COS permits up to 12 credits of relevant graduate coursework earned in non-degree status to be considered for transfer into many of its graduate programs.

Reduction of Credits
Students accepted into a master’s or doctoral program who have earned a degree in a relevant field from a regionally accredited institution may be eligible for a credit reduction. Students must request a reduction of credit from the graduate program director of their graduate program; reductions must be approved by both the graduate program director and the college’s associate dean for student affairs. Further details and related restrictions can be found in AP.6.5.2 Reduction of Credits (p. 88).

Transfer of Credit
Graduate credit earned prior to admission may be eligible to apply towards a graduate certificate or degree program. Details and related restrictions can be found in AP.6.5.3 Transfer of Credit (p. 88). Additionally, courses with grades of ‘P’ or ‘S’ are not accepted for transfer unless the official transcript indicates that the grade is equivalent to a 3.00 (‘B’) or better. Some programs have more stringent standards regarding a transfer of credit; students should contact their graduate program for specific information.

Credit from Other Institutions (Permission to Study Elsewhere)
Students enrolled in a degree program may take graduate courses at another regionally accredited institution and apply these credits to a master’s or doctoral degree with prior approval. Details and related restrictions can be found in AP.6.5.4 Permission to Study Elsewhere (p. 89). Students enrolling in courses at other institutions with different drop/add timetables must still abide by Mason’s drop/add deadlines in terms of acquiring necessary approvals.

Academic Load
Graduate students can enroll in up to 12 credits each semester; non-degree graduate students can enroll in up to 10 credits each semester. Students should review the university’s policies in AP.1.2 Academic Load (p. 74).
University Consortium

Students should review university policies regarding the University Consortium under AP 1.4.9 University Consortium (p. 77).

In addition, in order to register for a consortium course, students must have an overall GPA of at least 3.00 and be in good academic standing. Students with grades of ‘IN’ on their record or who earned grades of ‘C’ or ‘F’ in the most recent semester are not eligible to register for a consortium course. Students who have received a grade less than 3.00 in a consortium course are not permitted to enroll in additional consortium courses. Newly admitted graduate students are not permitted to enroll in consortium courses during their first semester of graduate study. Students who wish to enroll in consortium courses during their second semester of study must wait until the grades for the previous semester have been posted.

Dissertation Committee

The college follows university policies regarding dissertation committees. Please see AP 6.10.5 Dissertation Committee (p. 93). Please note that some programs within COS may have a more stringent policy.

Dissertation (998/999) Registration

Most programs within the college follow university policies regarding dissertation registration. Please see AP 6.10.6 Dissertation Registration (998, 999) (p. 93). Some departments may require additional requirements.

Time Limit for Doctoral Students

The college follows university policies regarding doctoral time limits. Please see AP 6.10.1 Time Limit (p. 93). If your catalog term was before this current catalog, please visit the archived catalogs page (http://catalog.gmu.edu/archives) and find your catalog term’s policy on time limits.

Requests for extension of time limits must be submitted in writing to the college’s associate dean for student affairs. The request should explain the extenuating circumstances that prevented timely completion of the degree, corrective action that has been taken to address those circumstances, and a time line for completing the work within the limits of the extension. The request should include a letter from the student’s graduate program director indicating the program’s support for the extension and confirmation that the work can be completed within the limits of the extension.

Graduate Appeals of Termination

All graduate students should be familiar with the university’s polices on termination; please see AP 6.6.2 Academic Termination (p. 89). Students who meet the criteria for academic termination may submit a written appeal to the college’s associate dean for student affairs. Appeals should include all relevant information on the basis for appeal, as well as any appropriate documentation and a letter of support from the graduate program.

Appeals of termination are reviewed by the college’s associate dean for student affairs with input from appropriate faculty within the student’s department. The ruling represents the college’s final decision.

Advanced Biomedical Sciences Graduate Certificate

Banner Code: SC-CERG-ABS

Academic Advising

Bull Run Hall, Room 308
Science and Technology Campus
Phone: 703-993-7136
Website: cos.gmu.edu/georgesquared/

The graduate certificate is a program offered jointly by George Mason University and Georgetown University Medical Center (GUMC) (http://gumc.georgetown.edu). This program is aimed at students who have all of their core coursework and extracurricular prerequisites for medical, dental or other health-related fields, but otherwise may have a comparatively limited science background (non-science majors with only the pre-health curricular core, for example), modest grades in the sciences as undergraduates, and/or may also need to improve their Medical College Admission Test, Dental Admission Test, or other pre-professional scores. This is a 9-month full-time program that begins each fall semester. Most classes are held at George Mason University’s Science and Technology Campus in Manassas Virginia with cadaveric anatomy labs held at GUMC.

The graduate certificate may be pursued on a full-time basis. The program is premium-priced with no tuition distinction between the in-state or out-of-state residency status.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page. (https://ir2.gmu.edu/gedt/Advanced_Biomedical_Sciences/Gedt.html)
Admissions & Policies

Admissions
University-wide admissions policies can be found in Graduate Admissions Policies (p. 66).

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants are expected to have a bachelor’s degree from a regionally accredited university, the desire to pursue a career in medicine, dentistry, or other health-related career, completion of all of the prerequisite courses for medical or dental school (one year each of biology, chemistry, organic chemistry, physics and math), and overall credentials suitable for acceptance to graduate programs in the College of Science at George Mason University and the Georgetown University Graduate School of Arts and Sciences.

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Requirements

Certificate Requirements
Total credits: 20

Students should refer to the Admissions & Policies (p. 598) tab for specific policies related to this certificate.

Pre-Medical Undergraduate Certificate

Banner Code: SC-CERB-PMCL

Academic Advising
Phone: 703-993-9532

The Pre-Medical Undergraduate Certificate is a premium program offered to enlisted members of the U.S. military who are chosen specifically from a federal program referred to as EMDP2 (Enlisted to Medical Degree Preparatory Program). This is a post-baccalaureate program aimed at active duty military enlisted members who have earned a bachelor’s degree from a regionally accredited institution with a minimum cumulative GPA of 3.0, who have experience working in a health-related position in the military, and who meet all other requirements specified by the Uniformed Services University of the Health Sciences (USU) (https://www.usuhs.mil), and who are interested in matriculating at the Uniformed Services University (military medical school) or another medical school. Only those individuals who are supported by EMDP2 are eligible to enroll in the Pre-Medical Undergraduate Certificate.

The Pre-Medical Undergraduate Certificate will provide a one-year undergraduate program that will allow qualified individuals to complete undergraduate pre-medical admissions requirements as currently specified by the American Association of Medical Colleges (https://www.aamc.org) (AAMC). This is a full-time program offered during the day, located at the Science and Technology Campus of George Mason University. Students are selected by the US military and are admitted as a cohort in the fall semester only.

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

Applicants must be active duty military and selected by the EMDP2. Students are expected to have a bachelor’s degree from a regionally accredited university and the desire to pursue a career in military medicine.

Applicants who do not meet the admissions requirements for this certificate may be interested in learning about the Career Changer’s Biological Sciences Undergraduate Certificate (p. 630).

Policies
For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Requirements

Certificate Requirements
Total credits: minimum 38

Students should refer to the Admissions & Policies (p. 598) tab for specific policies related to this certificate.

Total Credits 38-42
Scientists and students in the Department of Atmospheric, Oceanic, and Earth Sciences (AOES) are working to better understand our planet in myriad ways, from improving numerical model predictions of next year’s atmospheric temperature to explaining geological strata laid down in previous eras, from monitoring water transport through the atmosphere to modeling water movement at the bottom of the ocean.

AOES is home to active research programs and to a doctoral program in Climate Dynamics (p. 602), a master’s degree in Earth Systems Science (p. 609), undergraduate degrees in Atmospheric Science (p. 600), Earth Science (p. 604), and Geology (p. 611), and undergraduate minors in Atmospheric Science (p. 599), Earth Science (p. 603), Ocean and Estuarine Science (p. 616), and Paleontology (p. 616). The department has close ties to the Center for Ocean-Land-Atmosphere Studies (COLA) (http://cola.gmu.edu).

The undergraduate program in atmospheric sciences gives students a strong quantitative undergraduate education in atmospheric, climate, and related sciences to understand the basic principles behind current and emerging issues in weather, climate variability, and climate change. Students completing the atmospheric sciences degree will be prepared for a full range of career paths including forecast and analysis, operations and research support in meteorology, atmospheric sciences, and climate. The curriculum meets the American Meteorological Society's (https://www.ametsoc.org/ams) recommendations for a bachelor's degree in atmospheric sciences.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135).

The university’s writing intensive requirement for the major will be met upon successful completion of CLIM 408 Senior Research.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 600) tab for specific policies related to this program.

A GPA of at least 2.00 is required for all core courses, with an overall GPA of at least 2.50.

Options

Students in the atmospheric sciences major will select one of the following options in addition to the required courses above. These options reflect faculty expertise and provide two areas of research emphasis. The options will help in creating educated professionals who have the requisite training to support future weather and climate research, enabling the graduate's potential for providing substantial societal benefits.

Meteorology Option

This option is designed for students who are primarily interested in weather and weather forecasting. The required classes in this option emphasize atmospheric phenomena, especially those that have the greatest impact on society.

Mason Core and Elective Credits

In order to meet a minimum of 120 credits, this degree requires an additional 48-49 credits (dependent upon the course chosen for the Computer Science requirement), which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor's Degrees (p. 86), and electives. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

Mason Core

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged...
to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

**Climate Dynamics, PhD**

**Banner Code:** SC-PHD-CLIM

**Dr. Barry Klinger, Graduate Coordinator**

Research Hall, Room 109
Fairfax Campus

Phone: 703-993-9227
Email: bklinger@gmu.edu
Website: cos.gmu.edu/aoes/academics/climate-dynamics-graduate-program/

The mission of this program is to train the next generation of scientists in climate dynamics and related fields. Through a comprehensive grounding in classwork, our students learn about how the atmosphere, ocean, and land surface work together to determine the climate. In collaboration with internationally-known scientists, students conduct independent work to further our understanding of climate, how it varies, and how much of it we can predict. Tools in the program include cutting-edge climate models, superb computing facilities, sophisticated statistical techniques, and comprehensive data sets. Our graduates have gone on to work at top laboratories and universities.

Understanding climate variability and predictability poses difficult mathematical, computational, and observational questions that have generated increasing intellectual excitement in recent years. Climate variability has important ramifications for society, from planning for next year’s electrical demand and forecasting agricultural production to answering complex questions involving long-term change in global climate, sea level, and biodiversity. While it is impossible to predict day-to-day weather more than a few weeks in advance, progress in predicting El Niño supports the idea that seasonal averages of temperature, rainfall, and other factors may be at least partly predictable months or even years in advance. Likewise, there is a strong scientific basis for predicting long-term changes in global climate due to changing greenhouse gas concentrations.

Climate dynamics faculty members have a blend of expertise in dynamics, statistics, and computational methods. They are heavily involved with national and international collaborations. Faculty members and students work closely with scientists at the Center for Ocean-Land-Atmosphere Studies (COLA) (http://cola.gmu.edu/cola.html), a national leader in climate modeling.

Faculty research focuses on the areas of climate prediction and predictability, climate variability, coupled ocean-atmosphere-land dynamics, and dynamical systems and retrospective analysis. Recent research topics include predictability of weather and climate; modeling of the complex climate system; El Niño dynamics; monsoons; atmosphere-ocean interaction; land-climate interaction; decadal climate variability; ocean circulation theory; and climate change.

This has been designated a Green Leaf program (p. 102).

**Admissions & Policies**

**Admissions**

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants should have demonstrated a high aptitude for quantitative reasoning, applied mathematics, and physical science. Applicants should have an undergraduate degree from a regionally accredited institution with a GPA of at least 3.00 in undergraduate work, and a GRE verbal plus quantitative score of 301 (1,100 on the old scale). To apply, prospective students should submit a completed George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), a current résumé, three letters of recommendation, an expanded goals statement, and two copies of official transcripts from each college and graduate institution attended. An official report of scores obtained on the GRE-GEN should also be officially reported by ETS (https://www.ets.org). The GRE requirement for admission to the doctoral programs can be waived if the student holds a master’s degree from a regionally accredited U.S. institution. TOEFL scores are required of all international applicants who have not completed a master’s degree in the United States.

**Policies**

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Reduction of Credit**

For students entering the doctoral program with a master’s degree in a related field from a regionally accredited institution, the number of required credits may be reduced up to 30 credits, subject to approval of the program faculty and the college’s associate dean for student affairs. See AP.6.5.2 Reduction of Credits (p. 88) for more information.
Requirements

Degree Requirements

Total credits: 72

Students should refer to the Admissions & Policies (p. 602) tab for specific policies related to this program.

^1 Including up to 3 credits of CLIM 796 or CLIM 996.

Qualifying Exams

After completing the fundamental climate science courses, students take a two-part qualifying exam that includes core and specialty components. The core component is administered by an examination committee. After successfully completing the core component exam, students take the exam for the specialty component, which is administered by the dissertation committee that students typically form by the spring semester of their second year.

Advancement to Candidacy

Following successful completion of both parts of the qualifying exam, students present a written dissertation proposal to the committee. Students may enroll in CLIM 998 Doctoral Dissertation Proposal to complete this effort. After approval of the dissertation proposal and completion of all non-dissertation program requirements, students are formally advanced to doctoral candidacy.

Dissertation Research and Defense

After approval of the dissertation proposal, students are formally advanced to doctoral candidacy and produce the dissertation while taking CLIM 999 Doctoral Dissertation. The degree's requirements will be fulfilled upon completion of the required coursework and approval of a dissertation that makes an original and significant contribution to the field.

No more than 24 combined credits from CLIM 998 Doctoral Dissertation Proposal and CLIM 999 Doctoral Dissertation may be applied toward satisfying doctoral degree requirements, with no more than 21 credits of CLIM 998 Doctoral Dissertation Proposal.

Earth Science Minor

Banner Code: ESCI

Dr. Stacey Verardo, Undergraduate Coordinator and Term Professor

Research Hall, Room 109
Fairfax Campus

Phone: 703-993-1045
Email: sverardo@gmu.edu
Website: cos.gmu.edu/aoes/academics/undergraduate-programs/

Students taking this minor complete coursework in the solid Earth, oceanography and the atmosphere.

This has been designated a Green Leaf program (p. 102).

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor.

For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Students may not receive both the Geology Minor (p. 610) and the Earth Science Minor.

Requirements

Minor Requirements

Total credits: 18-19

Students should refer to the Admissions & Policies (p. 603) tab for specific policies related to this program.

Students must successfully complete the required 18-19 credits with a minimum GPA of 2.00.

Phone: 703-993-1045
Email: sverardo@gmu.edu
Website: cos.gmu.edu/aoes/academics/undergraduate-programs/

This degree is intended for students interested in studying the Earth and its processes. Students receive a broad background in the Earth sciences and select one of five specialty concentrations. The concentrations in Earth surface processes, environmental geoscience, geology, and paleontology are solely offered by the Department of Atmospheric, Oceanic and Earth Sciences (p. 599). The concentration in oceanography and estuarine science is offered jointly with the Department of Environmental Science and Policy (p. 660), where specific advising is also available.

This is a Green Leaf program (p. 102).

Teacher Licensure

Students who wish to become teachers and plan to seek teacher licensure should consider the following options:

- Secondary Education – Earth Science (6-12) Undergraduate Certificate (p. 204)
- Earth Science, BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Earth Science concentration) (p. 607)

Interested students should attend an information session early in their undergraduate career. For more information, visit the Graduate School of Education’s website (http://gse.gmu.edu).

Electives

Select 8 credits of GEOL electives (p. 1568)

Total Credits 8

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135).

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Writing Intensive Requirement

GEOL 317 Geomorphology fulfills the writing intensive requirement for this major, with the exception of:

- The Environmental Geoscience Concentration, whereby GEOL 305 Environmental Geology fulfills the writing intensive requirement.
- The Paleontology Concentration, whereby GEOL 334 Vertebrate Paleontology fulfills the writing intensive requirement.

Requirements

Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 604) tab for specific policies related to this program.

Students must complete the all coursework with a minimum GPA of 2.00.

Core Science and Mathematics

GEOL 101 Introductory Geology I (Mason Core) (p. 135)
GEOL 309 or BIOL 309 Introduction to Oceanography 3
GEOL 406 Seminar in Earth and Environmental Science 3
or GEOL 420 Earth Science and Policy (Mason Core) (p. 135)
CHEM 211 & CHEM 213 General Chemistry I (Mason Core) (p. 135)
and General Chemistry Laboratory I (Mason Core) (p. 135)
CHEM 212 & CHEM 214 General Chemistry II (Mason Core) (p. 135)
and General Chemistry Laboratory II (Mason Core) (p. 135)
MATH 113 Analytic Geometry and Calculus I (Mason Core) (p. 135)
MATH 114 Analytic Geometry and Calculus II (p. 135)
STAT 250 Introductory Statistics I (Mason Core) (p. 135)

Select one of the following options: 3-4
Option A:

CLIM 111  Introduction to the Fundamentals of Atmospheric Science (Mason Core) (p. 135)

CLIM 112  Introduction to the Fundamentals of Atmospheric Science Lab (Mason Core) (p. 135)

Option B:

PHYS 111  Introduction to the Fundamentals of Atmospheric Science (Mason Core) (p. 135)

PHYS 112  Introduction to the Fundamentals of Atmospheric Science Lab (Mason Core) (p. 135)

Option C:

GGS 309  Meteorology and Climate

Total Credits 32-33

Physics

Select one 8-credit sequence from the following:

PHYS 160  University Physics I (Mason Core) (p. 135)
& PHYS 161  and University Physics I Laboratory (Mason Core) (p. 135)
& PHYS 260  and University Physics II (Mason Core) (p. 135)
& PHYS 261  and University Physics II Laboratory (Mason Core) (p. 135)

PHYS 243  College Physics (Mason Core) (p. 135)
& PHYS 244  and College Physics Lab (Mason Core) (p. 135)
& PHYS 245  and College Physics (Mason Core) (p. 135)
& PHYS 246  and College Physics Lab (Mason Core) (p. 135)

Total Credits 8

Concentration in Earth Surface Processes (EP)

This concentration focuses on an broad understanding of the physical processes and natural materials found at or near the Earth’s surface that have produced the primary landforms and landscapes observed today. Fundamental concepts, methods and techniques of landscape analysis are also examined. Students choosing this concentration must complete the following coursework:

GEOL 102  Introductory Geology II (Mason Core) (p. 135)
or EVPP 110  The Ecosphere: An Introduction to Environmental Science I (Mason Core) (p. 135)

GEOL 302  Mineralogy 4

GEOL 303  Field Mapping Techniques 3

GEOL 306  Soil Science 3

GEOL 317  Geomorphology 4

GGS 311  Introduction to Geographic Information Systems 3

Select 10-15 credits from the following: 10-15

GEOL 304  Sedimentary Geology 2

GEOL 305  Environmental Geology

Total Credits 31-36

Concentration in Environmental Geoscience (EVGS)

This concentration provides the tools for applying geologic information (on soils, rocks, water, weather, and landscapes) to contemporary environmental problems (including: pollution, waste management, resource extraction, natural hazards, land-use, habitat restoration, species preservation, and human health). Environmental geoscience studies the physical environment in which biological interactions take place, whereby aiding the understanding of ecology. Students choosing this concentration must complete the following coursework:

GEOL 102  Introductory Geology II (Mason Core) (p. 135)

GEOL 302  Mineralogy 4

GEOL 305  Environmental Geology 1

GEOL 306  Soil Science 3

GEOL 313  Hydrogeology 3

GEOL 320  Geology of Earth Resources 3

GEOL 321  Geology of Energy Resources 3

GEOL 403  Geochemistry 3

or CHEM 427  Aquatic Environmental Chemistry 3

EVPP 336  Human Dimensions of the Environment 3
or EVPP 361  Introduction to Environmental Policy 3

Select 6-12 credits from the following: 6-12

CLIM 101  Global Warming: Weather, Climate, and Society (Mason Core) (p. 135)

CLIM 412  Physical Oceanography

GEOL 304  Sedimentary Geology

EVPP 201  Environment and You: Issues for the Twenty-First Century (Mason Core) (p. 135)

EVPP 336  Human Dimensions of the Environment

EVPP 361  Introduction to Environmental Policy

EVPP 362  Energy Policy

EVPP 436  The Human Dimensions of Global Climate Change

GGS 302  Global Environmental Hazards

GGS 311  Introduction to Geographic Information Systems

GGS 322  Issues in Global Change

PHYS 331  Fundamentals of Renewable Energy

CONF 101  Conflict and Our World (Mason Core) (p. 135)

INTS 211  Introduction to Conservation Studies

PRLS 300  People with Nature
Concentration in Geology (GEOL)
This concentration is fashioned after traditional geology bachelor’s degrees. It allows graduates to be employed as geologists in the field or to pursue graduate studies in geology. Students choosing this concentration must complete the following coursework:

GEOL 102 Introductory Geology II (Mason Core) 4
(p. 135)
GEOL 302 Mineralogy 4
GEOL 304 Sedimentary Geology 4
GEOL 308 Igneous and Metamorphic Petrology 4
GEOL 312 Invertebrate Paleontology 4
GEOL 317 Geomorphology 4
GEOL 401 Structural Geology 4
Six credits of
GEOL 404 Geological Field Techniques 6
Total Credits 34

1 Prerequisite requires a grade of ‘C’ or better in GEOL 302 Mineralogy
2 Fulfills writing intensive requirement.
3 A 6-credit geology field camp may be substituted for this requirement, see advisor for details.

Concentration in Oceanography and Estuarine Science (OEST)
This concentration provides students with a comprehensive knowledge of oceanography. Additional coursework in physical and chemical oceanography give insight into the aquatic environment and its link to both ecosystems and climate. Within the concentration, students can choose an open ocean or coastal ocean option. The curriculum will emphasize local and regional case studies, in particular the Chesapeake Bay. The program will provide students with the basic training required to allow them to obtain entry level positions in oceanographic and estuarine career tracks or an appropriate graduate degree program. Students choosing this concentration must complete the following coursework:

CLIM 412 Physical Oceanography 3
or GEOL 412 Physical Oceanography 3
GEOL 102 Introductory Geology II (Mason Core) 4
(p. 135)
GEOL 458 Chemical Oceanography 3
or CHEM 458 Chemical Oceanography 3
Select one of the following 8-credit sequences: 8
BIOL 103 & BIOL 104 Introductory Biology I (Mason Core) 4
(p. 135)
and Introductory Biology II (Mason Core) 4
(p. 135)
BIOL 213 & BIOL 303 Cell Structure and Function (Mason Core) 4
(p. 135)
and Animal Biology 4

Select one of the following options: 15-16
Open Ocean Option:
GEOL 364 Marine Geology
BIOL 449 Marine Ecology
Three additional courses from the electives list below
(minimum of 9 credits)
Coastal Ocean Option:
GEOL 363 Coastal Morphology and Processes
EVPP 581 Estuarine and Coastal Ecology
Three additional courses from the electives list below
(minimum of 9 credits)
Total Credits 33-34

Electives
GEOL 302 Mineralogy 4
GEOL 304 Sedimentary Geology 4
GEOL 308 Igneous and Metamorphic Petrology 4
GEOL 312 Invertebrate Paleontology 4
GEOL 363 Coastal Morphology and Processes 4
GEOL 364 Marine Geology 3
GEOL 565 Paleooceanography 3
BIOL 440 Field Biology 4
BIOL 449 Marine Ecology 3
EVPP 350 Freshwater Ecosystems 4
EVPP 377 Applied Ecology 3
EVPP 419 Marine Mammal Biology and Conservation 3
EVPP 581 Estuarine and Coastal Ecology 3
EVPP 582 Estuarine and Coastal Ecology Laboratory 1
INTS 395 Field-Based Work 1-18
Additional recommended course:
RECR 161 Scuba Diving: Basic 2

1 When topic is Coral Reef Ecology
2 When topic is Exploring Underwater Ecology.

Concentration in Paleontology (PLEO)
This concentration focuses on a broad understanding of Earth’s history and the evolution of life on Earth as revealed through the fossil record. Fundamental concepts, methods and techniques of historical geology and paleontological data and analysis are also examined. This concentration may not be taken in conjunction with the paleontology minor. Be aware that some of the courses below may have additional prerequisites. Students choosing this concentration must complete the following coursework:

GEOL 102 Introductory Geology II (Mason Core) 4
(p. 135)
GEOL 302 Mineralogy 4
GEOL 304 Sedimentary Geology 4
GEOL 312 Invertebrate Paleontology 4
GEOL 334 Vertebrate Paleontology 4
BIOL 103 Introductory Biology I (Mason Core) 4 (p. 135)
or BIOL 213 Cell Structure and Function (Mason Core) (p. 135)
Select 9-10 credits from the following additional Geology courses: 9-10
  GEOL 306 Soil Science
  GEOL 317 Geomorphology
  GEOL 332 Paleoclimatology
  GEOL 364 Marine Geology
  GEOL 403 Geochemistry
  GEOL 412 Physical Oceanography
  GEOL 458 Chemical Oceanography
  GEOL 565 Paleoceanography
Select 3-5 credits from the following additional Biology course: 3-5
  BIOL 310 Biodiversity
  & BIOL 330 and Biodiversity Lab and Recitation
  BIOL 320 Comparative Chordate Anatomy
  BIOL 331 Invertebrate Zoology
  BIOL 374 Biogeography: Space, Time, and Life
  or GGS 321 Biogeography
  BIOL 468 Vertebrate Natural History
  or EVPP 468 Vertebrate Natural History
  BIOL 470 Dinosaur Biology
  BIOL 471 Evolution

Total Credits 36-39

1 Fulfills writing intensive requirement for this concentration only.

**Mason Core and Elective Credits**

In order to meet a minimum of 120 credits, this degree requires additional credits (specific credit counts by concentration are shown below), which may be applied toward any remaining Mason Core (p. 135) requirements, Requirements for Bachelor’s Degrees (p. 86), and elective courses. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

- ESE concentration without Teacher Licensure: 50-51 credits
- ESE concentration with Teacher Licensure: 29-30 credits
- EP concentration: 43-49 credits
- EVGS concentration: 38-45 credits
- GEOL concentration: 45-46 credits
- PLEO concentration: 40-44 credits
- OEST concentration: 42-47 credits

**Mason Core**

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

**Honors in the Major**

Earth science and geology majors who have completed 16 credits of math and science, including GEOL 302 Mineralogy with a GPA of 3.00 or higher are eligible to enter the departmental honors program. Transfer students who have an incoming GPA of 3.10 or higher in math and science and a grade of ‘B’ or better in GEOL 302 Mineralogy are also eligible. To graduate with honors in Earth Science, students are required to maintain a minimum GPA of 3.00 in math and science courses and complete one of the two following sets of courses with an average GPA of 3.50 or better.

**Accelerated Master’s**

**Bachelor’s Degree (Green Leaf)/Environmental Science and Policy, Accelerated MS**

**Overview**

This degree option allows highly qualified George Mason University students to earn an Environmental Science and Policy, MS (p. 664) in less time than if they had first graduated with an environmentally-focused Green Leaf-designated (p. 102) BA or BS degree and then applied to the MS program sequentially.
For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Admission Requirements

Students with an overall GPA of at least 3.20 who are pursuing any Green Leaf-designated (p. 102) major or minor may apply for provisional acceptance into this accelerated master’s program after completing two semesters of chemistry (including CHEM 211 General Chemistry I (Mason Core) (p. 135) and CHEM 212 General Chemistry II (Mason Core) (p. 135)) and three semesters of biology, including a course in ecology, or the equivalent, for example:

By the beginning of the undergraduate’s senior year, they should first submit a Graduate Application for Accelerated Master’s Program form (obtained from the Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us)). Secondly, in their senior year accelerated master’s students must complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in a Green Leaf-designated (p. 102) program, in the semester indicated in the application, they must additionally submit the Bachelor’s/Accelerated Master’s Transition form (found on the Office of the University Registrar website (http://registrar.gmu.edu/forms)) and will subsequently be admitted into graduate status.

By at least the beginning of their senior year, they should seek out a faculty member in the Department of Environmental Science and Policy (p. 661) who is willing to serve as their advisor (unless the student is planning to enroll in the MS concentration in Environmental Management). This advisor will aid the student in choosing the appropriate graduate courses to take and help to prepare the student for graduate studies. Admission into a research-oriented master’s concentration is dependent upon securing the agreement of a faculty advisor. Faculty from a variety of departments and colleges at George Mason (called “program faculty”) can serve as master’s advisors. Potential students are encouraged to speak with the graduate program coordinator in the department to obtain guidance on this issue.

Application Requirements

Applicants to all graduate programs at Mason must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog, excluding the GRE exam requirement (which is not required for those enrolled in the accelerated program). This includes three letters of recommendation (at least one from a former professor or someone with a PhD), a recent resume, a statement of interest/research goals and interests (including information on the candidate’s proposed MS research), and a letter from their advisor stating that the advisor agrees to take on the candidate as an MS student, how the candidate would be a good fit for them and why candidate’s research topic would be suitable (please note that a letter of endorsement from an advisor not necessary for candidates taking the Environmental Management concentration).

For information specific to the accelerated Environmental Science and Policy, MS (p. 664), see Graduate Admissions on the department’s website (http://esp.gmu.edu/academic-programs/graduate/admissions).

Reserve Graduate Credits

Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 6 credits of appropriate environmentally-focused graduate coursework may be used in partial satisfaction of the requirements for the undergraduate degree. If students earn at least a 3.00 GPA in these classes, they are granted advanced standing in the master’s program and must then complete an additional 27-31 credits to receive the master’s degree.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition form found on the Office of the University Registrar website (http://registrar.gmu.edu/forms) (as noted above).

Students may take up to 6 additional environmentally-focused graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree but will reduce the subsequent master’s degree credits accordingly (e.g., with 6 credits counted towards undergraduate degree plus the maximum 6 reserve credits, an MS could be completed with 21 post-bachelor’s credits). The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department.

Earth Science, BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Earth Science concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor’s/accelerated master’s option and obtain both a BS in Earth Science (p. 604) and an MEd in Curriculum and Instruction (p. 161) (concentration in secondary education earth science) in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7
Bachelor's/Accelerated Master's Degree (p. 89) for policies related to this program.

This accelerated option is offered jointly by the Department of Atmospheric, Oceanic and Earth Sciences (p. 599) and the Graduate School of Education (p. 155).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 66). For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

Accelerated Option Requirements

Requirements

Students complete the following courses in their senior year:

<table>
<thead>
<tr>
<th>Senior</th>
<th>Fall Semester</th>
<th>Credits</th>
<th>Spring Semester</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDCI 573</td>
<td>3</td>
<td>EDCI 673</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>EDUC 672</td>
<td>3</td>
<td>EDRD 619</td>
<td>3</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 12

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the bachelor's and master's degrees. These courses are considered advanced standing for the MED. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor's/Accelerated Master's Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Earth Systems Science, MS (AOES)

Banner Code: SC-MS-ESSC

Dr. Randolph McBride, Associate Professor

Research Hall, Room 109
Fairfax Campus

Phone: 703-993-1642
Email: rmcbride@gmu.edu
Website: cos.gmu.edu/aoes/academics/earth-science-graduate-program/

This is a shared program between the Department of Atmospheric, Oceanic, and Earth Sciences (p. 599) and the Department of Geography and Geoinformation Science (p. 687).

The program addresses the growing demand for trained professionals in the Earth sciences. The degree emphasizes a research-oriented, global systems approach to studying the Earth and its systems- the atmosphere, the hydrosphere, and the lithosphere, including their interrelationships and interactions with the biosphere. Emphasis is on the observation, measurement, and analysis of Earth's systems.

Most student research projects and theses will relate to geologic and geographic topics, however studies of related topics in Earth science are welcome. Students completing the program are qualified to pursue careers that require knowledge of the basics of Earth systems science and the requisite tools, specifically pertaining to the area of Earth science that they choose to investigate. Students are encouraged to undertake a master's thesis but may choose a research project. In the latter case, students must pass a comprehensive exam.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Eligibility

Applicants should have earned a BS degree in atmospheric, Earth, environmental, geological, geographical, ocean, or physical science. Previous coursework should include two semesters each of calculus, chemistry, and physics, and one semester of statistics. Applicants should have a minimum GPA of 3.00 in their undergraduate degree.

Application Requirements

Official transcripts from each college and graduate institution attended, a current résumé, and a goals statement are required. Applicants also need three letters of recommendation and an official report of scores obtained on the GRE-GEN. The GRE requirement for admission may be waived if the student holds a master's degree from a regionally accredited U.S. institution. TOEFL scores are required of all international applicants.

Policies

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Requirements

Degree Requirements

Total credits: 30

Students should refer to the Admissions & Policies tab for specific policies related to this program.

Candidates must complete 10 credits of GGS courses and 10 credits of GEOL/CLIM courses towards their requirements. (“Culminating Experience” credits do not count towards this requirement).

**Geology Minor**

**Banner Code:** GEOL

Dr. Stacey Verardo, Undergraduate Coordinator and Term Associate Professor

Research Hall, Room 109
Fairfax Campus

Phone: 703-993-1045
Email: sverardo@gmu.edu
Website: cos.gmu.edu/aoes/academics/undergraduate-programs/

Students take coursework in physical geology, historical geology and mineralogy as the fundamental courses in this minor.

This is a Green Leaf program (p. 102).

**Admissions & Policies**

**Policies**

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Students may not receive both the Geology Minor and the Earth Science Minor (p. 603).

**Requirements**

**Minor Requirements**

Total credits: 20

Students should refer to the Admissions & Policies (p. 610) tab for specific policies related to this program.
Students must successfully complete 20 credits with a minimum GPA of 2.00.

**Geology Courses**

</tr>
</tbody>
</table>

Total Credits: 8

1. Students must achieve a grade of 2.00 or better in GEOL 302 Mineralogy before taking GEOL 304 Sedimentary Geology or GEOL 308 Igneous and Metamorphic Petrology.

**Geology, BA**

Banner Code: SC-BA-GEOL

Dr. Stacey Verardo, Undergraduate Coordinator and Term Professor

Research Hall, Room 109
Fairfax Campus

Phone: 703-993-1045
Email: sverardo@gmu.edu
Website: cos.gmu.edu/aoes/academics/undergraduate-programs/

The Geology, BA program aims to provide students with both high-quality conceptual knowledge and hands-on training in geology in preparation for careers within the earth-science field or for graduate school in geology.

This is a Green Leaf program (p. 102).

**Admissions & Policies**

**Admissions**

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

**Policies**

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86) including the Mason Core (p. 135).

GEOL 317 Geomorphology fulfills the writing intensive requirement for this major.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

**Requirements**

**Degree Requirements**

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 611) tab for specific policies related to this program.

Candidates for a degree in geology must complete all courses with a minimum GPA of 2.50.

**Geology Core**

<table>
<thead>
<tr>

**Mathematics**

Select one from the following: 3-4
MATH 110  Introductory Probability (Mason Core) (p. 135)
MATH 111  Linear Mathematical Modeling (Mason Core) (p. 135)
MATH 113  Analytic Geometry and Calculus I (Mason Core) (p. 135)

Total Credits 3-4

Computer Science
GGS 311  Introduction to Geographic Information Systems

Total Credits 3

Program Courses
Students must take 9 credits of degree-related coursework in a coherent program designed in coordination with advisor and approved by department chair

Total Credits 9

Mason Core and Elective Credits
In order to meet a minimum of 120 credits, this degree requires an additional 58-59 credits, which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor's Degrees (p. 86), College Requirements for the BA Degree (outlined below), and elective courses. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

Mason Core
Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all remaining Mason Core (p. 135) requirements.

College Requirements for the BA Degree
In addition to the program requirements and the Mason Core (p. 135) requirements, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill this college-level requirement may also be used simultaneously to satisfy other requirements such as Mason Core (p. 135) requirements, other college-level requirements, or requirements for the major. In some cases, the requirements listed below may be superseded by requirements of the degree program and the Mason Core (p. 135).

Total Credits 3

1 HIST 100 History of Western Civilization (Mason Core) (p. 135) and HIST 125 Introduction to World History (Mason Core) (p. 135) may not be used to fulfill this requirement.

Natural Science
Choose one credit in addition to the Mason Core: Natural Science (p. 141) requirement for a total of 8 credits. This combined college-level
and university requirement must be fulfilled by completing two of any approved Mason Core: Natural Science (p. 141) courses that include a laboratory experience.

### Code | Title | Credits
--- | --- | ---
BIOL 124 | Human Anatomy and Physiology and BIOL 125 Human Anatomy and Physiology may not be used to fulfill this requirement. |

**Foreign Language**
Intermediate-level proficiency in one foreign language is required.
This requirement may be fulfilled by completing a course in a foreign language numbered 202, 209, or 210 (or higher-level courses taught in the language).

### Code | Title | Credits
--- | --- | ---
Select a foreign language course numbered 202, 209, 210, or higher if a waiver isn’t applicable |

1 Students may be eligible for a waiver of this requirement if they are already proficient in a second language or if they have received a satisfactory score on an approved proficiency test. Additional information on waivers can be found via the college’s Office of Academic and Student Affairs (https://cos.gmu.edu/uaa).

**Non-Western Culture**
Choose one approved Non-Western Culture Requirement course in addition to the course used to fulfill the Mason Core: Global Understanding (p. 139) requirement. A course used to fulfill the Mason Core: Global Understanding (p. 139) requirement may not be simultaneously used to satisfy this college-level requirement. However, a course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core (p. 135) requirements, college-level requirements, or requirements for the major).

### Code | Title | Credits
--- | --- | ---
Select 3 credits from approved Non-Western Culture courses if a waiver isn’t applicable: |

1 Students who can document attendance at a native school in a non-western country for at least four years may request a waiver from this requirement through the CHSS Undergraduate Academic Affairs Office (http://chssundergrad.gmu.edu).

Honors in the Major

Earth science and geology majors who have completed 16 credits of math and science, including GEOL 302 Mineralogy with a GPA of 3.00 or higher are eligible to enter the departmental honors program. Transfer students who have an incoming GPA of 3.10 or higher in math and science and a grade of ‘B’ or better in GEOL 302 Mineralogy are also eligible. To graduate with honors in Earth Science, students are required to maintain a minimum GPA of 3.00 in math and science courses and complete one of the two following sets of courses with an average GPA of 3.50 or better:

Honors
Accelerated Master’s Bachelor's Degree (Green Leaf)/Environmental Science and Policy, Accelerated MS

Overview
This degree option allows highly qualified George Mason University students to earn an Environmental Science and Policy, MS (p. 664) in less time than if they had first graduated with an environmentally-focused Green Leaf-designated (p. 102) BA or BS degree and then applied to the MS program sequentially.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Admission Requirements
Students with an overall GPA of at least 3.20 who are pursuing any Green Leaf-designated (p. 102) major or minor may apply for provisional acceptance into this accelerated master’s program after completing two semesters of chemistry (including CHEM 211 General Chemistry I (Mason Core) (p. 135) and CHEM 212 General Chemistry II (Mason Core) (p. 135)) and three semesters of biology, including a course in ecology, or the equivalent, for example:

</table>

Select one of the following options: 13

**Option 1:**
- BIOL 213  Cell Structure and Function (Mason Core) (p. 135)
- BIOL 214  Biostatistics for Biology Majors
- BIOL 308  Foundations of Ecology and Evolution

**Option 2:**
- EVPP 210  Environmental Biology: Molecules and Cells
- EVPP 301  Environmental Science: Biological Diversity and Ecosystems
- EVPP 302  Environmental Science: Biomes and Human Dimensions
- EVPP 305  Environmental Microbiology Essentials
- EVPP 306  Environmental Microbiology Essentials Laboratory

**Option 3:**
- CONS 401  Conservation Theory
- CONS 402  Applied Conservation
- 6 credits of 6 credits of BIOL or CONS electives

**Option 4:**
- CONS 403  Ecology and Conservation Theory
- CONS 404  Biodiversity Monitoring
- BIOL or CONS electives

By the beginning of the undergraduate’s senior year, they should first submit a Graduate Application for Accelerated Master’s Program form (obtained from the Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us)). Secondly, in their senior year accelerated master’s students must complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in a Green Leaf-designated (p. 102) program, in the semester indicated in the application, they must additionally submit the Bachelor’s/Accelerated Master’s Transition form (found on the Office of the University Registrar website (http://registrar.gmu.edu/forms)) and will subsequently be admitted into graduate status.

By at least the beginning of their senior year, they should seek out a faculty member in the Department of Environmental Science and Policy (p. 661) who is willing to serve as their advisor (unless the student is planning to enroll in the MS concentration in Environmental Management). This advisor will aid the student in choosing the appropriate graduate courses to take and help to prepare the student for graduate studies. Admission into a research-oriented master’s concentration is dependent upon securing the agreement of a faculty advisor. Faculty from a variety of departments and colleges at George Mason (called “program faculty”) can serve as master’s advisors. Potential students are encouraged to speak with the graduate program coordinator in the department to obtain guidance on this issue.

Application Requirements
Applicants to all graduate programs at Mason must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog. excluding the GRE exam requirement (which is not required for those enrolled in the accelerated program). This includes three letters of recommendation (at least one from a former professor or someone with a PhD), a recent resume, a statement of interest/research goals and interests (including information on the candidate’s proposed MS research), and a letter from their advisor stating that the advisor agrees to take on the candidate as an MS student, how the candidate would be a good fit for them and why candidate’s research topic would be suitable (please note that a letter of endorsement from an advisor not necessary for candidates taking the Environmental Management concentration).

For information specific to the accelerated Environmental Science and Policy, MS (p. 664), see Graduate Admissions on the department’s website (http://esp.gmu.edu/academic-programs/graduate/admissions).

Reserve Graduate Credits
Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 6 credits of appropriate environmentally-focused graduate coursework may be used in partial satisfaction of the requirements for the undergraduate degree. If students earn at least a 3.00 GPA in these classes, they are granted advanced standing in the master’s program and must then complete an additional 27-31 credits to receive the master’s degree.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition form found on the Office of the University Registrar website (http://registrar.gmu.edu/forms) (as noted above).

Students may take up to 6 additional environmentally-focused graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree but will reduce the subsequent master’s degree
credits accordingly (e.g., with 6 credits counted towards undergraduate degree plus the maximum 6 reserve credits, an MS could be completed with 21 post-bachelor’s credits). The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department.

Ocean and Estuarine Science Minor

Banner Code: OES

Dr. Stacey Verardo, Undergraduate Coordinator and Term Professor
109 Research Hall
Fairfax Campus
Phone: 703-993-1045
Email: sverardo@gmu.edu
Website: cos.gmu.edu/aoes/academics/undergraduate-programs/

This minor is designed for students interested in oceans and coastlines. The fundamental courses include topics in oceanography, physical oceanography, coastal morphology and process, marine geology, chemical oceanography, and marine ecology.

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor.
For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 18-22

Students should refer to the Admissions & Policies (p. 616) tab for specific policies related to this program.

Students must successfully complete 18-22 credits with a minimum GPA of 2.00.

Core Requirements

<table>

</thead>
<tbody>
<tr>
<td>CLIM 101</td>
<td>Global Warming: Weather, Climate, and Society (Mason Core) (p. 135)</td>
<td>9-12</td>
</tr>
</tbody>
</table>

1 Courses taken to satisfy the core requirements above cannot be repeated to count towards the additional courses requirement.
2 If chosen, students must take both lecture and lab for a total of 4 credits.

Notes
RECR 161 Scuba Diving: Basic is strongly recommended, but is not required.

Paleontology Minor

Banner Code: PLEO

Dr. Stacey Verardo, Undergraduate Coordinator and Term Professor
109 Research Hall
Fairfax Campus
Phone: 703-993-1045
Email: sverardo@gmu.edu
Website: cos.gmu.edu/aoes/academics/undergraduate-programs/
Students interested in the evolution of life on Earth can take this minor in association with degrees from any field of study across the university. Fundamental courses include historical geology, invertebrate paleontology and vertebrate paleontology.

This has been designated a Green Leaf program (p. 102).

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Students must successfully complete 18-21 credits with a minimum GPA of 2.00.

Requirements

Minor Requirements

Total credits: 18-21

Department of Biology

Larry Rockwood, Chair

Phone: 703-993-1050
Website: biology.gmu.edu

Administration

- Larry Rockwood, Chair
- Geraldine Grant, Assistant Chair
- Andrea Weeks, Assistant Chair
- Deborah Pelayes, Director of Undergraduate Studies
- Anne Verhoeven, Director of Medical Laboratory Sciences

The Department of Biology collaborates with scientists across many disciplines, such as the School of Systems Biology (p. 748) and the Department of Environmental Science and Policy (p. 660) to offer a broad spectrum of coursework in the biological sciences to biology majors as well as to students in other departments, schools, and colleges.

Undergraduate Programs

The bachelor’s degree programs in biology provide a sound liberal arts education with substantial experience in quantitative and analytical thought, along with preparation for a related profession. In addition to ensuring the strong background necessary for graduate study in the many fields of biological science, the broad range of courses available at Mason allow students to develop careers in many areas, including secondary school teaching, environmental management, microbiology, molecular biology, biotechnology, genetics, and natural history. Alternatively, students may prepare for postgraduate studies in medicine, dentistry, veterinary medicine, wildlife management, fisheries biology, or marine science.

The department also offers the Medical Laboratory Science, BS (p. 631).
Additional information can be found at the Department of Biology’s website (http://biology.gmu.edu) or by visiting the department in Exploratory Hall, Suite 1200.

Graduate Programs
The Biology, MS (p. 755) is offered by the School of Systems Biology (p. 748). The Department of Biology supports the concentration in Evolutionary Biology within the MS degree. Students interested in this concentration should consult the Department of Biology’s website (http://biology.gmu.edu) for a list of faculty and their research interests.

Student Clubs
A variety of biologically-oriented student clubs are available for students. Each club has its own website; for more information, visit the Department of Biology’s website (http://biology.gmu.edu).

Requirements & Policies

Requirements
Advising
All biology majors are strongly encouraged to see an academic advisor regularly to help in planning their schedule so that they can graduate on time. Biology majors should see an advisor for permission to register prior to their first semester, again after completing 60 credits, and lastly after completing 90 credits.

Medical Laboratory Science, BS (p. 631) majors must see the director of the medical laboratory science program to obtain permission to register each semester.

Students returning from suspension are required to meet with the director of undergraduate studies or designee prior to being allowed to register.

For more information on advising or to set up an appointment, visit the Department of Biology’s website (http://biology.gmu.edu).

Residency Requirement for Transfer Students
Students majoring in biology are required to complete 16 credits in the major at the 300 and 400 levels at Mason in addition to meeting the university residency requirement of at least 30 credits at Mason.

Policies

Policy on Using Biology Program Laboratories
Only authorized experiments and exercises may be carried out in any research or teaching laboratory and must be done under the supervision of a university faculty or staff member. No unauthorized work is allowed in any laboratory.

Policy on Using Organisms in Classes
Direct observations of actual organisms are considered an essential part of learning biology at all levels. Direct observations of organisms may involve the use of living or preserved specimens, dissections of organisms or parts of organisms, and microscopic examination of organisms or parts of organisms. All use of live animals conforms to National Institutes of Health guidelines for the use and care of laboratory animals. Activities specified above may be a required part of a course and thus serve as a basis for grading in the course. Any questions about the administration of this policy should be directed to the course coordinator or instructor.

Writing-Intensive Requirement
Mason requires all students to complete at least one course designated as “writing intensive” in their majors at the 300-level or above. Students majoring in biology fulfill this requirement by successfully completing BIOL 308 Foundations of Ecology and Evolution. Medical laboratory science majors fulfill the requirement by completing MLAB 300 Science Writing.

Minor in Biology
Information about this minor can be found on the Biology Minor (p. 619) page.

Premedical, Predental, Prepharmacy, and Preveterinary Students
Web: prehealth.gmu.edu (http://prehealth.gmu.edu)

Many students planning to enter medical, dental, pharmacy, veterinary, optometry, or other health professional schools choose to pursue a major in biology. These students should consult the health professions advising web site on required coursework and overall preparation.

Teacher Licensure
Students who wish to become teachers should pursue either the Biology, BA (p. 619) or the Biology, BS (p. 624) in addition to obtaining teaching certificates through the College of Education and Human
Biology for Non-majors

Students who are not majoring in science or mathematics and wish to fulfill their natural science requirement may enroll in the biology classes listed in the Mason Core Natural Science (p. 135) section. Chemistry, physics, and mathematics majors should consult their faculty advisor to determine which biology courses to take.

Biology, BA

Banner Code: SC-BA-BIOL

Academic Advising

Exploratory Hall, Room 1200
Fairfax Campus
Website: biology.gmu.edu/academics/degree-programs/

The Biology, BA provides a sound liberal arts education with substantial experience in quantitative and analytical thought, along with preparation for related professions. The department provides the strong background necessary for not only for graduate study in the life sciences, but also enables students to develop careers in a wide variety of disciplines, including secondary school teaching, environmental management, microbiology, molecular biology, biotechnology, genetics, wildlife management, fisheries biology, and marine science. Furthermore, our curriculum prepares students for careers in the health sciences including medicine, dentistry, veterinary science, and related allied health disciplines.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135). Students in this bachelor’s program must also complete the additional College Requirements for the BA Degree (see Requirements (p. 620)).

The writing intensive requirement is fulfilled by BIOL 308 Foundations of Ecology and Evolution.

Important information and departmental policies are listed with the Department of Biology (p. 617).

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Important Program Requirements

Students must complete degree requirements with:

- A minimum GPA of 2.00 in the 32 credits of BIOL courses listed in degree program
- A minimum GPA of 2.00 in the supporting courses listed in degree program

Additionally:

- Students may apply no more than 4 credits of BIOL 103 Introductory Biology I (Mason Core) (p. 135) or BIOL 104 Introductory Biology II (Mason Core) (p. 135) toward elective credit (or equivalent transfer credit at the 100 to 200-level) if taken before the successful
completion of BIOL 213 Cell Structure and Function (Mason Core) (p. 135).

- Biology majors must earn a minimum grade of 'C' in all of the biology core courses. A grade of 'C' or better must be earned in BIOL 213 Cell Structure and Function (Mason Core) (p. 135) in order to advance to other core requirements.
- Students may repeat BIOL 213 Cell Structure and Function (Mason Core) (p. 135) once, but a second time only with permission of the Department of Biology (p. 617).
- Students may not count BIOL 124 Human Anatomy and Physiology and/or BIOL 125 Human Anatomy and Physiology toward any biology major requirement.
- Students who take BIOL 310 Biodiversity and BIOL 330 Biodiversity Lab and Recitation may not count BIOL 303 Animal Biology and/or BIOL 304 Plant Biology toward any biology major requirement.
- BIOL 308 Foundations of Ecology and Evolution meets the writing intensive requirement for this major.
- BIOL 493 Honors Research in Biology, BIOL 495 Directed Studies in Biology, and BIOL 497 Special Problems in Biology do not satisfy the requirements of the BA degree which state that students must complete at least one upper division course that includes a laboratory. The courses do, however, count as non-laboratory electives.

**Teacher Licensure**

Students majoring in biology who wish to pursue a career teaching secondary school may consider applying for the Secondary Education – Biology (6-12) Undergraduate Certificate (p. 203) offered by the College of Education and Human Development (p. 154) as an option in seeking an initial Virginia teaching license. The certificate includes current endorsement and licensure coursework embedded within your major. Students apply to add this as a secondary program during their sophomore year and complete required content and education coursework leading to initial licensure in the state of Virginia within 120 credits.

Other routes to licensure include the Biology, BA or BS/Curriculum and Instruction, Accelerated Med (p. 172) (Secondary Education Biology Concentration) or select traditional Master’s programs. Please contact the undergraduate advisor in the College of Education and Human Development (p. 154) for more information.

### Requirements

#### Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 619) tab for specific policies related to this program.

#### Biology Core Courses

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 213</td>
<td>Cell Structure and Function (Mason Core)</td>
<td>4</td>

<tr>
<td>ASTR 113</td>
<td>Introductory Astronomy: Stars, Galaxies, and the Universe (Mason Core)</td>
<td></td>
</tr>
<tr>
<td>GEOL 101</td>
<td>Introductory Geology I (Mason Core)</td>
<td></td>
</tr>
</tbody>
</table>
GEOL 102 Introductory Geology II (Mason Core) (p. 135)
PHYS 160 University Physics I (Mason Core) (p. 135)
PHYS 243 College Physics (Mason Core) (p. 135)
PHYS 245 College Physics (Mason Core) (p. 135)
PHYS 260 University Physics II (Mason Core) (p. 135)

Total Credits 6-8

Note for Students Expecting to Enter Graduate or Professional School
Students expecting to enter graduate or professional school are strongly encouraged to complete:

MATH 113 Analytic Geometry and Calculus I (Mason Core) (p. 135) and Analytic Geometry and Calculus II 8
MATH 114

CHEM 313 Organic Chemistry I and Organic Chemistry Lab I 5
& CHEM 315
CHEM 314 Organic Chemistry II and Organic Chemistry Lab II 5
& CHEM 318
PHYS 243 College Physics (Mason Core) (p. 135) and College Physics Lab (Mason Core) (p. 135) 4

& PHYS 244
PHYS 245 College Physics (Mason Core) (p. 135) and College Physics Lab (Mason Core) (p. 135) 4

& PHYS 246

Mason Core and Elective Requirements
In order to meet a minimum of 120 credits, this degree requires an additional 63-68 credits, which may be applied toward any remaining Mason Core (http://catalog.gmu.edu/content.php?catoid=29&navoid=6253) requirements (outlined below), Requirements for Bachelor's Degrees (http://catalog.gmu.edu/content.php?catoid=29&navoid=6151/#undergradrequirements), College Requirements for the BA Degree (outlined below), and elective courses. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

Mason Core
Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>

</tbody>
</table>

Synthesis/Capstone Requirement 1
Synthesis/Capstone (p. 143) 1
Total Credits 40
1 minimum 3 credits

College Requirements for the BA Degree
In addition to the program requirements and the Mason Core (p. 135) requirements, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill this college-level requirement may also be used simultaneously to satisfy other requirements such as Mason Core (p. 135) requirements, other college-level requirements, or requirements for the major. In some cases, the requirements listed below may be superseded by requirements of the degree program and the Mason Core (p. 135).

Philosophy or Religious Studies
Select 3 credits from the following:
- PHIL (p. 1818) | 1 |
- RELI (p. 1904) | 1 |

Social and Behavioral Sciences
Choose one approved Mason Core: Social and Behavioral Sciences (p. 142) course in addition to the Mason Core (p. 135)-required course for a total of 6 credits. The two courses used to fulfill the combined college-level and university requirements must be from different disciplines. This requirement may be fulfilled by completing any course in ANTH (p. 1119), CRIM (p. 1372), ECON (p. 1413), GOVT (p. 1588), HIST (p. 1628), LING (p. 1694), PSYC (p. 1844), or SOCI (p. 1923), and the following GGS (p. 1554) courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>GGS 101</td>
<td>Major World Regions (Mason Core) (p. 135)</td>
</tr>
<tr>
<td>GGS 103</td>
<td>Human Geography (Mason Core) (p. 135)</td>
</tr>
<tr>
<td>GGS 110</td>
<td>Introduction to Geoinformation Technologies</td>
</tr>
<tr>
<td>GGS 301</td>
<td>Political Geography</td>
</tr>
<tr>
<td>GGS 303</td>
<td>Geography of Resource Conservation (Mason Core) (p. 135)</td>
</tr>
<tr>
<td>GGS 304</td>
<td>Population Geography (Mason Core) (p. 135)</td>
</tr>
<tr>
<td>GGS 305</td>
<td>Economic Geography</td>
</tr>
<tr>
<td>GGS 306</td>
<td>Urban Geography</td>
</tr>
<tr>
<td>GGS 315</td>
<td>Geography of the United States</td>
</tr>
<tr>
<td>GGS 316</td>
<td>Geography of Latin America</td>
</tr>
<tr>
<td>GGS 320</td>
<td>Geography of Europe</td>
</tr>
<tr>
<td>GGS 325</td>
<td>Geography of North Africa and the Middle East</td>
</tr>
<tr>
<td>GGS 330</td>
<td>Geography of the Soviet Succession States</td>
</tr>
</tbody>
</table>

This requirement may be fulfilled by completing any course in ANTH (p. 1119), CRIM (p. 1372), ECON (p. 1413), GOVT (p. 1588), HIST (p. 1628), LING (p. 1694), PSYC (p. 1844), or SOCI (p. 1923), and the following GGS (p. 1554) courses:
GGS 357  Structures in Urban Governance and Planning
GGS 380  Geography of Virginia

Total Credits 3

1 HIST 100 History of Western Civilization (Mason Core) (p. 135) and HIST 125 Introduction to World History (Mason Core) (p. 135) may not be used to fulfill this requirement.

Natural Science
Choose one credit in addition to the Mason Core: Natural Science (p. 141) requirement for a total of 8 credits. This combined college-level and university requirement must be fulfilled by completing two of any approved Mason Core: Natural Science (p. 141) courses that include a laboratory experience.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select an additional Mason Core Natural Science course</td>
<td>1</td>
</tr>
</tbody>
</table>

1 BIOL 124 Human Anatomy and Physiology and BIOL 125 Human Anatomy and Physiology may not be used to fulfill this requirement.

Foreign Language
Intermediate-level proficiency in one foreign language is required. This requirement may be fulfilled by completing a course in a foreign language numbered 202, 209, or 210 (or higher-level courses taught in the language).

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select a foreign language course numbered 202, 209, 210, or higher if a waiver isn’t applicable</td>
<td>0-3</td>
</tr>
</tbody>
</table>

1 Students may be eligible for a waiver of this requirement if they are already proficient in a second language or if they have received a satisfactory score on an approved proficiency test. Additional information on waivers can be found via the college’s Office of Academic and Student Affairs (https://cos.gmu.edu/uaa).

Non-Western Culture
Choose one approved Non-Western Culture Requirement course in addition to the course used to fulfill the Mason Core: Global Understanding (p. 139) requirement. A course used to fulfill the Mason Core: Global Understanding (p. 139) requirement may not be simultaneously used to satisfy this college-level requirement. However, a course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core (p. 135) requirements, college-level requirements, or requirements for the major).

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select 3 credits from approved Non-Western Culture courses if a waiver isn’t applicable:</td>
<td>0-3</td>

1 Students who can document attendance at a native school in a non-western country for at least four years may request a waiver from this requirement through the CHSS Undergraduate Academic Affairs Office (http://chssundergrad.gmu.edu).

### Honors

#### Honors in the Major

**Admissions**

Minimum requirements for invitation:

- GPA in biology courses must be 3.33 or better
- GPA in supporting requirements (math and other science) must be 3.00 or better
- Grade of ‘B’ or better in BIOL 213 Cell Structure and Function (Mason Core) (p. 135)
Students should apply for admission to the Honors Program during their first or second year at the university. Contact the Department of Biology (p. 617) for information on applying.

Retention Requirements

Students in honors biology must maintain a biology GPA of 3.33 or better and a supporting GPA of 3.00 or better from the time they have accumulated 30 hours and thereafter. Students who fall below this standard will be given a one semester probationary period in which to bring their GPA back up to the minimum standard.

Requirements to Graduate with Biology Honors

Students are required to take 6 to 8 credits in honors courses in BIOL including three semesters of BIOL 494 Honors Seminar in Biology or two semesters of BIOL 494 Honors Seminar in Biology and one semester of BIOL 493 Honors Research in Biology. BIOL 498 Research Seminar may count towards one of the semester requirements of BIOL 494 Honors Seminar in Biology. The GPA requirements are as follows:

- Minimum 3.33 GPA in honors biology courses
- Minimum 3.33 GPA in biology requirements
- Minimum 3.00 GPA in supporting requirements
- Minimum 3.00 GPA overall

Accelerated Master's

Biology, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Biology concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA (p. 619) or BS in Biology (p. 624) (degree without concentration) and an MEd in Curriculum and Instruction (concentration in secondary education biology) (p. 161) in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7 Bachelor's/Accelerated Master's Degree (p. 89) for policies related to this program.

This accelerated option is offered jointly by the Biology Undergraduate Program (p. 617) and the Graduate School of Education (p. 155).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 66). For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

Accelerated Option Requirements

Students must complete the following courses in their senior year:

<table>
<thead>
<tr>
<th>Senior</th>
<th>Fall Semester</th>
<th>Credits</th>
<th>Spring Semester</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDCI 573</td>
<td>3</td>
<td>EDCI 673</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td>EDUC 672</td>
<td>3</td>
<td>EDRD 619</td>
<td>3</td>
<td></td>
</tr>
<tr>
<td></td>
<td>6</td>
<td></td>
<td>6</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 12

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the bachelor's and master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor's/Accelerated Master's Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Biology, BS

Banner Code: SC-BS-BIOL

Academic Advising

Exploratory Hall, Room 1200
Fairfax Campus

Website: biology.gmu.edu/academics/degree-programs/

The Biology, BS provides a sound liberal arts education with substantial experience in quantitative and analytical thought, along with preparation for related professions. The department provides the strong background necessary for not only for graduate study in the life sciences, but also enables students to develop careers in a wide variety of disciplines, including secondary school teaching, environmental management, microbiology, molecular biology, biotechnology, genetics, wildlife management, fisheries biology, and marine science. Furthermore, our curriculum prepares students for careers in the health sciences including medicine, dentistry, veterinary science, and related allied health disciplines.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135).

Important information and departmental policies are listed in the Department of Biology (p. 617) section of this catalog.
BIOL 308 Foundations of Ecology and Evolution meets the writing intensive requirement for this major.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

**Important Program Requirements**

- Students may apply no more than 8 credits of BIOL 103 Introductory Biology I (Mason Core) (p. 135) or BIOL 104 Introductory Biology II (Mason Core) (p. 135) toward elective credit (or equivalent transfer credit at the 100 to 200-level) if taken before successful completion of BIOL 213 Cell Structure and Function (Mason Core) (p. 135).
- Biology majors must earn a minimum grade of 'C' in all biology core courses. A grade of 'C' or better must be earned in BIOL 213 Cell Structure and Function (Mason Core) (p. 135) in order to advance to other core requirements.
- Students may repeat BIOL 213 Cell Structure and Function and Function (Mason Core) (p. 135) once, but a second time only with permission from the Department of Biology.
- Students may not count BIOL 124 Human Anatomy and Physiology and/or BIOL 125 Human Anatomy and Physiology toward any biology major requirement.
- Students who take BIOL 310 Biodiversity may not count BIOL 303 Animal Biology and/or BIOL 304 Plant Biology toward any biology major requirement.
- 44 credits must be in biology coursework.
- BIOL 493 Honors Research in Biology, BIOL 495 Directed Studies in Biology, and BIOL 497 Special Problems in Biology do not satisfy the requirements of the BS degree which state that students must complete at least two upper division courses that include a laboratory. The courses do, however, count as non-laboratory electives.

Several optional concentrations are available; details on each can be found in the Requirements tab.

**Teacher Licensure**

Students majoring in biology who wish to pursue a career teaching secondary school may consider applying for the Secondary Education – Biology (6-12) Undergraduate Certificate (p. 203) offered by the College of Education and Human Development (p. 154) as an option in seeking an initial Virginia teaching license. The certificate includes current endorsement and licensure coursework embedded within your major. Students apply to add this as a secondary program during their sophomore year and complete required content and education coursework leading to initial licensure in the state of Virginia within 120 credits.

Other routes to licensure include the Biology, BA or BS/Curriculum and Instruction, Accelerated MEd (p. 172) (Secondary Education Biology Concentration) or select traditional Master’s programs. Please contact the Undergraduate Advisor in College of Education and Human Development (p. 154) for more information.

**Requirements**

**Degree Requirements**

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 624) tab for specific policies related to this program.

Students must complete their biology coursework and the supporting requirements which follow with a minimum GPA of 2.00.

All students must complete the biology core, chemistry, physics, mathematics, and computer science courses listed below. Students then elect to complete the BS degree either with a concentration or without a concentration.

**Biology Core Courses**

<table>
<thead>

</table>

Total Credits: 3-6

**Computer Science**

Select one from the following:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CDS 130</td>
<td>Computing for Scientists (Mason Core) (p. 135)</td>
</tr>
</tbody>
</table>

Any course(s) that fulfills the Mason Core: Information Technology requirement (p. 136)

Total Credits: 3

1 Recommended by the Department of Biology

**BS without Concentration**

Students who do not select an optional concentration must complete the biology core and shared courses shown above in addition to the curriculum requirements listed below.

**Biology Electives**

Complete 22 credits of additional biology courses (p. 1211) 1

Total Credits: 22

1 Of which, at least 14 credits must be upper division, and at least two of the upper division courses must include a laboratory.

**Additional Science Courses**

Students are encouraged to consult with a biology faculty advisor to determine which option (A, B, or C) best meets their career goals.

Select one from the following options: 3-8

**Option A:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 314</td>
<td>Organic Chemistry II</td>
</tr>
<tr>
<td>&amp; CHEM 318</td>
<td>and Organic Chemistry Lab II</td>
</tr>
</tbody>
</table>

**Option B:**

One 3 credit chemistry course at the 300 or 400-level (not CHEM 314) (p. 1244)

**Option C:**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOL 101</td>
<td>Introductory Geology I (Mason Core) (p. 135)</td>
</tr>
<tr>
<td>&amp; GEOL 102</td>
<td>and Introductory Geology II (Mason Core) (p. 135) (Natural Science courses)</td>
</tr>
</tbody>
</table>

Total Credits: 3-8

**Note:**

Students expecting to enter a professional school are strongly encouraged to complete MATH 113 Analytic Geometry and Calculus I (Mason Core) (p. 135).

**Concentration in Bioinformatics (BNF)**

The highly interdisciplinary field of bioinformatics has emerged as a powerful modern science. There is a great demand for undergraduate and graduate-level trained individuals with a background in bioinformatics in industry as well as in academia.

**Computer Science**

3

CDS 130 is recommended to fulfill the Computer Science requirement in the shared core above.

CDS 230  Modeling and Simulation I

**Bioinformatics**

6

BINF 401  Bioinformatics and Computational Biology I

BINF 402  Bioinformatics and Computational Biology II

**Biology**

14-16

BIOL 312  Biostatistics for Bioinformatics

BIOL 401  Phage Discovery

BIOL 412  Phage Genomics

**Biology Lab Elective**

Select one from the following:

BIOL 320  Comparative Chordate Anatomy

BIOL 322  Developmental Biology

& BIOL 323  and Lab for Developmental Biology

BIOL 331  Invertebrate Zoology

BIOL 332  Insect Biology

BIOL 334  Vertebrate Paleontology

BIOL 336  Invertebrate Paleontology

BIOL 344  Plant Diversity and Evolution

BIOL 345  Plant Ecology

BIOL 350  Freshwater Ecosystems

BIOL 355  Ecological Engineering and Ecosystem Restoration

BIOL 379  RS: Ecological Sustainability (Mason Core) (p. 135)

BIOL 385  Biotechnology and Genetic Engineering

& BIOL 486  and Molecular Biology and Biotechnology Laboratory

BIOL 405  Microbial Genetics

BIOL 406  Microbial Physiology and Metabolism

BIOL 407  Microbial Diversity

BIOL 430  Advanced Human Anatomy and Physiology I

BIOL 431  Advanced Human Anatomy and Physiology II

BIOL 452  Immunology

& BIOL 453  and Immunology Laboratory

BIOL 454  Marine Mammal Biology and

& BIOL 455  and Marine Mammal Biology and Conservation Field Course

BIOL 465  Histology

BIOL 468  Vertebrate Natural History

BIOL 472  Introductory Animal Behavior

& BIOL 473  and Introductory Laboratory in Animal Behavior

BIOL 484  Eukaryotic Cell Biology

& BIOL 485  and Eukaryotic Cell Biology Laboratory
### Concentration in Biopsychology (BP)

The biopsychology concentration consists of a selection of courses designed to address the needs and interest of students who wish to study biology in more depth while simultaneously exploring psychology and neurobiology. This concentration will help prepare students for the MCAT section related to psychology and provide veterinary students with a background in animal learning/behavior.

#### Biopsychology Courses

<table>

<td>BIOL 385</td>
<td>Biotechnology and Genetic Engineering</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 483</td>
<td>General Biochemistry</td>
<td>4</td>
</tr>
</tbody>
</table>

#### Additional Chemistry Courses

Select one from the following options:

- Option A:
  - CHEM 314 Organic Chemistry II
  - CHEM 318 Organic Chemistry Lab II

#### Concentration in Biotechnology and Molecular Biology (BTMB)

The biotechnology and molecular biology concentration consists of a selection of courses that provide essential skills to students who seek employment in the field or wish to include an applied component in their undergraduate training in biology.

#### Biotechnology Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 305</td>
<td>Biology of Microorganisms</td>
</tr>
<tr>
<td>BIOL 306</td>

</tr>
<tr>
<td>BIOL 385</td>
<td>Biotechnology and Genetic Engineering</td>
</tr>
<tr>
<td>BIOL 483</td>
<td>General Biochemistry</td>
</tr>
</tbody>
</table>

#### Additional Biology Courses

Select 11 credits from the following, at least one of the courses must include a laboratory:

**Laboratory Courses:**

- BIOL 402 Applied and Industrial Microbiology
- BIOL 403 Microbial Physiology and Metabolism
- BIOL 452 Immunology
- BIOL 453 & BIOL 453 Immunology Laboratory
- BIOL 486 Molecular Biology and Biotechnology Laboratory

**Non-laboratory Courses:**

- BIOL 314 Introduction to Research Design and Analysis
- BIOL 382 Introduction to Virology
- BIOL 411 Advanced General Genetics
- BIOL 417 Selected Topics in Molecular and Cellular Biology
- BIOL 418 Current Topics in Microbiology
- BIOL 420 Vaccines
- BIOL 421 Genetics of Human Diseases
- BIOL 422 Stem Cell Biology and Regenerative Medicine
- BIOL 482 Introduction to Molecular Genetics
- BIOL 484 Eukaryotic Cell Biology
- BIOL 497 Special Problems in Biology

#### Additional Chemistry Courses

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 314</td>
<td>Organic Chemistry II</td>
</tr>
<tr>
<td>CHEM 318</td>
<td>Organic Chemistry Lab II</td>
</tr>
</tbody>
</table>

Total Credits: 23-25

1. Students are encouraged to consult with a biology faculty advisor to determine which option best meets their career goals.
2. CHEM 314 Organic Chemistry II alone does not fulfill this requirement.
Registration for BIOL 417 Selected Topics in Molecular and Cellular Biology, BIOL 418 Current Topics in Microbiology, or BIOL 497 Special Problems in Biology is subject to approval by the Director of Undergraduate Studies and the Chairman of the Department of Biology.

**Concentration in Environmental and Conservation Biology (ESCB)**

This concentration is offered to students seeking a biology degree that focuses on ecology and organismal biology and prepares them for graduate work or employment in environmental and conservation fields, such as natural resources management, fisheries, forestry, water quality management, aquatic and wetland ecology, and conservation biology. The concentration is staffed and supported by the Department of Environmental Science and Policy (p. 660).

**Environmental and Conservation Biology**

**Mason Core and Elective Credits**

In order to meet a minimum of 120 credits, this degree requires additional credits (specific credit counts by concentration are shown below), which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor’s Degrees, and electives. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

- Without concentration: 38-46 credits
- BNF concentration: 43-48 credits
• BP concentration: 40-47 credits
• BTMB concentration: 41-44 credits
• ESCB concentration: 38-46 credits
• MIB concentration: 41-44 credits

Mason Core
Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

1 minimum 3 credits

Honors

Honors in the Major
Admissions
Minimum requirements for invitation:

• GPA in biology courses must be 3.33 or better
• GPA in supporting requirements (math and other science) must be 3.00 or better
• Grade of ‘B’ or better in BIOL 213 Cell Structure and Function (Mason Core) (p. 135)

Students should apply for admission to the Honors Program during their first or second year at the university. Contact the Department of Biology (p. 617) for information on applying.

Retention Requirements
Students in honors biology must maintain a biology GPA of 3.33 or better and a supporting GPA of 3.00 or better from the time they have accumulated 30 hours and thereafter. Students who fall below this standard will be given a one semester probationary period in which to bring their GPA back up to the minimum standard.

Requirements to Graduate with Biology Honors
Students are required to take 6 to 8 credits in honors courses in BIOL including three semesters of BIOL 494 Honors Seminar in Biology or two semesters of BIOL 494 Honors Seminar in Biology and one semester of BIOL 493 Honors Research in Biology. BIOL 498 Research Seminar may count towards one of the semester requirements of BIOL 494 Honors Seminar in Biology. The GPA requirements are as follows:

• Minimum 3.33 GPA in honors biology courses
• Minimum 3.33 GPA in biology requirements
• Minimum 3.00 GPA in supporting requirements
• Minimum 3.00 GPA overall

Accelerated Master’s

Biology, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Biology concentration)

Overview
Highly-qualified undergraduates may be admitted to the bachelor’s/accelerated master’s program and obtain a BA (p. 619) or BS in Biology (p. 624) (degree without concentration) and an MEd in Curriculum and Instruction (concentration in secondary education biology) (p. 161) in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 89) for policies related to this program.

This accelerated option is offered jointly by the Biology Undergraduate Program (p. 617) and the Graduate School of Education (p. 155).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 66). For information specific to this accelerated master’s program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

Accelerated Option Requirements
Students must complete the following courses in their senior year:

<table>
<thead>
<tr>
<th>Senior</th>
<th>Fall Semester</th>
<th>Credits</th>
<th>Spring Semester</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDCI 573</td>

<td>3</td>
</tr>
<tr>
<td>EDUC 672</td>
<td></td>
<td>3</td>
<td>EDRD 619</td>
<td>3</td>
</tr>
</tbody>
</table>

6 6

Total Credits 12

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the bachelor's and master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office.
and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

**Biology, BS/Biology, Accelerated MS**

Overview

Qualified undergraduates may be admitted into an accelerated master’s program and to obtain both a Biology, BS (p. 624) and a Biology, MS (p. 755) within an accelerated time frame. Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 6 credits of graduate work may be used in partial satisfaction of the requirements for the undergraduate degree. If students earn at least a 3.00 in these classes, they are granted advanced standing in the master’s program and must then complete an additional 24 credits to receive the master’s degree. All other master’s degree requirements must be met, including a minimum of 18 credits taken for the master’s after the bachelor’s degree is complete.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog. Application information for this accelerated master’s program can be found on the School of Systems Biology’s website (http://ssb.gmu.edu/admissions).

Successful applicants will have an overall undergraduate GPA of at least 3.20. Additionally, they will have completed the following courses with a GPA of 3.00 or higher:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 213</td>
<td>Cell Structure and Function (Mason Core) (p. 135)</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 214</td>
<td>Biostatistics for Biology Majors</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 308</td>
<td>Foundations of Ecology and Evolution</td>
<td>5</td>
</tr>
<tr>
<td>BIOL 310</td>
<td>Biodiversity</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 311</td>

</tr>
<tr>
<td>CHEM 313</td>
<td>Organic Chemistry I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 315</td>
<td>Organic Chemistry Lab I</td>
<td>2</td>
</tr>
</tbody>
</table>

Three letters of recommendation, including one from a prospective thesis or project advisor, are required.

**Accelerated Option Requirements**

At the beginning of the student’s final undergraduate semester, students must submit a bachelor’s/accelerated master’s transition form (available from the Office of the University Registrar (http://registrar.gmu.edu)) to the College of Science’s Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). Students must begin their master’s program in the semester immediately following conferral of the bachelor’s degree.

Students must maintain an overall GPA of 3.00 or higher in graduate coursework and should consult with their faculty advisor to coordinate their academic goals.

After completing 120 credits and all requirements for the bachelor’s degree and filing the Graduation Intent Form, students are awarded a bachelor’s degree. Accelerated master’s students must then submit scores on the GRE to have the provisional qualifier removed. Ordinarily, students should receive a minimum combined score of 303 on the verbal and quantitative portions of the general test.

**Reserve Graduate Credit**

While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate credits do not apply to the undergraduate degree.

**Career Changer’s Biological Sciences Undergraduate Certificate**

Banner Code: SC-CERB-CCBS

**Academic Advising**

Exploratory Hall, Room 1200
Fairfax Campus

Website: biology.gmu.edu/academics/degree-programs/

Post-baccalaureate students are invited to enroll in this certificate. By completing this certificate, students will be qualified to apply for most graduate programs in the biological sciences including medical, dental, optometry, podiatry, pharmacy, and veterinary schools. However, graduate and professional school undergraduate coursework requirements can vary; it is prudent to check the coursework requirements for each individual school.

This certificate may be pursued on a part-time or full-time basis.

**Admissions & Policies**

**Admissions**

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Additionally, admission into this certificate requires:

- The desire to pursue a career in biological sciences or the health professions (research, medicine, dentistry, teaching, law etc.);
- A conferred bachelor’s degree from a regionally accredited institution with a GPA of 3.00 or higher;
- A completed George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now) along with a the appropriate application fee; and
- Two sets of official transcripts from each institution attended.

Standardized test scores are not required.

**Policies**

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).
Some courses can be waived if previously taken during undergraduate training. Substitutions will be recommended where appropriate.

Certificate Fees
In addition to tuition and the usual laboratory and College of Science fees (p. 593) a fee of $500 per semester will be assessed to defray the costs of the outside speakers and the additional administrative work associated with this certificate.

Notes
• Each student must see an advisor in the Department of Biology (p. 617) prior to registration each semester.
• The program will normally take four semesters to complete for a full-time student.
• It is recommended that students interested in healthcare professions do the following:
   • Register for the HEALTHPROFESSIONSADVISOR listserv (http://prehealth.gmu.edu/listserv);
   • Attend at least one group advising session conducted by the Health Professions Advisor (http://prehealth.gmu.edu); and
   • Consider participating in Health Professions Advising (http://prehealth.gmu.edu) activities designed for students in a relevant application cycle

Requirements

Certificate Requirements
Total credits: 63-64

Students should refer to the Admissions & Policies (p. 630) tab for specific policies related to this program.

To earn this certificate, a student must pass all of the courses listed below with a grade no lower than ‘B’ and achieve a GPA of at least 3.40.

Career Seminars
These seminars will be organized each semester and will feature outside speakers from a wide variety of biologically-oriented professions.

Medical Laboratory Science, BS

Banner Code: SC-BS-MLAB

Academic Advising
Exploratory Hall, Room 1200
Fairfax Campus
Website: biology.gmu.edu/academics/degree-programs/

The BS in Medical Laboratory Science prepares students for careers in hospitals and clinics as well as in biotechnology and industrial laboratories. Medical Laboratory Science (MLS) is a profession of highly knowledgeable and skilled individuals who perform clinical laboratory tests on blood, other body fluids, or tissue samples. This is a critical part of health care, as the results obtained by these laboratory tests are
vital tools for physicians in the diagnosis, treatment, and prevention of disease.

People trained as medical laboratory scientists may work in a variety of settings. Many work in clinical laboratories in large medical centers, hospitals, or clinics. Some do research in industrial, public health, or medical laboratories. Others teach in hospitals, colleges, or universities. An MLS may practice as a generalist, using knowledge in several of the scientific disciplines, or may specialize in one scientific area in larger hospitals. A successful MLS is an individual who enjoys studying the biological, chemical, and physical sciences. He or she may also find personal satisfaction and intellectual reward in applying scientific methods to the diagnosis and evaluation of disease.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 84) including the Mason Core (p. 135).

MLAB 300 Science Writing fulfills this major’s writing intensive requirement.

Important information and departmental policies are available with the Department of Biology (p. 618).

This program requires the equivalent of three years of full-time pre-professional study at the college level preceding a senior year of professional education in an affiliated school of medical laboratory science. All affiliated schools (see below) are accredited by the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS) (http://www.naacls.org/Home.aspx).

Note: Because of the extensive pre-professional education requirements stipulated by NAACLS, students majoring in medical laboratory science are exempt from the Mason Core ‘Arts’ requirement.

Important Program Requirements

- Students must complete MLAB 200 Introduction to Medical Laboratory Science and present the following courses in their biology coursework and supporting requirements with a minimum GPA of 2.00.
- A grade of ‘C’ or better must be earned in BIOL 213 Cell Structure and Function (Mason Core) (p. 135) in order to advance to other major requirements. Students may repeat BIOL 213 Cell Structure and Function (Mason Core) (p. 135) once and a second time only with permission of the Department of Biology.
- Medical laboratory science majors must earn a minimum of ‘C’ in all biology core courses listed below.

Major in Medical Laboratory Science as a Second Bachelor’s Degree

While the standard program for medical laboratory sciences is three years on campus followed by a fourth year at a clinical affiliate (3+1), many students elect to complete a bachelor’s degree before entering the clinical program (4+1). Students who have completed the Biology, BS (p. 624) or Chemistry, BS (p. 643) at Mason and then undertake a fifth year at a clinical affiliate may be eligible for a second bachelor’s degree with a major in medical laboratory science. Students wishing to receive the second degree must apply before entering their fifth year. For further information, contact a laboratory sciences advisor.

Applying to Medical Laboratory Sciences Schools

Responsibility for applying to schools of medical laboratory sciences and gaining admission rests with the student; however, guidance is provided by the medical laboratory sciences program director. Admission to medical laboratory sciences schools is selective, so candidates should strive for strong academic standing. Students who fail to gain admission to a NAACLS-approved school are unable to complete the degree program. Such students may transfer to Biology, BA (p. 619) or the Biology, BS (p. 624) without loss of credits.

Application to medical laboratory sciences schools should be initiated about a year before the desired entrance date. This fact, coupled with the large number of required courses in the pre-professional curriculum, makes it imperative that students in the program consult regularly with their faculty advisor. All medical laboratory sciences majors and prospective majors are urged to enroll in MLAB 200 Introduction to Medical Laboratory Science as early as possible. This course provides information on the profession, as well as the educational demands placed on candidates.

Senior Year

Students should be aware that the senior year spent off campus requires the following special interpretation of university policies. Transfer students must present at least 16 credits of 300 to 400-level biology or chemistry coursework taken at Mason. Students may present no more than 6 credits of ‘D’ grades in biology and chemistry courses required in three years of pre-professional study. No unsatisfactory grades may be presented for courses in the senior year of professional study. Transfer students entering with more than 45 transfer credits are often unable to complete the pre-professional phase of their program in the usual three years of full-time study.

Senior students are registered at the university through special procedures. For details, consult the program director.

Affiliated NAACLS-Approved Schools

This program requires the equivalent of three years of full time professional study at the college level preceding a senior year of professional education in an affiliated school of medical laboratory sciences. All affiliated schools are accredited by the NAACLS:

- Augusta Health- School of Clinical Laboratory Science (https://www.augustahealth.com/cls)
- George Washington University- School of Medicine and Health Sciences: The Medical Laboratory Sciences Program (http://smhs.gwu.edu/medical-laboratory-sciences)
- INOVA Fairfax Hospital- Medical Laboratory Science Program (https://www.inova.org/education/medical-laboratory-science)
Requirements

Degree Requirements
Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 632) tab for specific policies related to this program.

Students must complete the requirements outlined below, choosing one Professional Study/Concentration option:

- Not choosing a concentration ("Professional Study: Generalist Option") will provide students generalist training. Upon graduation, the board certification test may be taken and would allow graduates to practice in any area of a hospital or laboratory.
- Choosing a concentration will allow students to complete their clinical rotations in that specific area. Upon graduation, the Molecular Biology or Microbiology (depending upon the concentration chosen) board certification test may be taken.

Professional Study: Generalist Option

Senior students are registered at the university through special procedures. For details, consult the medical laboratory science program director.

The senior year spent off campus requires the following special interpretation of university policies: transfer students must present at least 16 credits of 300 to 400-level biology or chemistry coursework taken at Mason; no unsatisfactory grades (less than 'C') may be presented for courses in the senior year of professional study. Transfer students entering with more than 45 transfer credits are often unable to complete the pre-professional phase of their program in the usual three years of full-time study.

Students may have up to 30 credits of professional study during the senior year awarded for clinical education at an affiliated school of medical technology. No more than 30 professional credits may be applied toward the degree.

The distribution of credits in these courses varies with the school of medical technology. In consultation with the advisor, select from the following:

<table>

**Professional Study: Molecular Biology Concentration (MOB)**

Senior students are registered at the university through special procedures. For details, consult the medical laboratory science program director.

The senior year spent off campus requires the following special interpretation of university policies: transfer students must present at least 16 credits of 300 to 400-level biology or chemistry coursework taken at Mason; no unsatisfactory grades (less than 'C') may be presented for courses in the senior year of professional study. Transfer students entering with more than 45 transfer credits are often unable to complete the pre-professional phase of their program in the usual three years of full-time study.

Students may have up to 30 credits of professional study during the senior year awarded for clinical education at an affiliated school of medical technology. No more than 30 professional credits may be applied toward the degree.

This concentration is a pathway leading to eligibility for categorical certification as a Certified Technologist by the American Society for Clinical Pathology (ASCP) (https://www.ascp.org/content) Board of Certification (BOC) (https://www.ascp.org/content/board-of-certification). The course is one year long, consisting of about 20% classroom and 80% hands-on laboratory experience. Instructors include the expert clinical scientists and technologists of Quest Diagnostics (http://www.questdiagnostics.com/home.html), Chantilly, Virginia.

In addition to the courses required for all Medical Laboratory Science students, the following is required:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>

MLAB 401 Topics

The following topics will be covered under MLAB 401 Orientation to the Problems and Practices of the Clinical Laboratory:

1. Introduction to Clinical Microbiology
   This course is a brief introduction to the discipline of Clinical Microbiology, and laboratory diagnostic techniques. Topics include: Overview of Microbiology Theory, Methods and Applications, Instrumentation, Staining, and Media, Immunology, Serology, and Molecular Diagnostics.

2. Medical Virology
   This course is a survey of the characteristics, pathogenicity, and laboratory diagnosis of important human viruses. Topics include viral taxonomy and classical virology. Special emphasis is placed on the epidemiology and the laboratory’s role in influenza pandemics.

3. Medical Mycology
   This course is a comprehensive presentation of medically important fungi. Emphasis is placed on clinical presentation and laboratory identification of pathogenic species and opportunistic pathogens. Topics include general mycology methods, yeasts, susceptibility testing, molds (Hyaline, Mucor, Dematiaceous), Dermatophytes, Systemic infections, and Pneumocystis.

4. Medical Parasitology
   This course is a comprehensive presentation of human parasites. Emphasis is placed on clinical presentation and laboratory identification. Topics include Flagellates, Ciliates, Coccidians, Malaria and Babesia, Other Blood Born and Tissue Born parasites, Nematodes, Cestodes, Trematodes, and Arthropods.

5. Molecular Detection of Infectious Disease
   This course examines the advances in using molecular methods to detect human infectious disease. Careful attention is given to the comparison of molecular technologies with traditional microbiology methods. Topics include molecular methods and applications, including PCR, sequencing, TMA, and PEGE, specimens of choice, sample preparation, Quality Control, primer selection, Molecular methods in selecting antimicrobial agents, molecular epidemiology, and target organisms: fungi, bacteria, parasites, and viruses.

6. Medical Bacteriology
   This course is a comprehensive presentation of bacteria isolated in the clinical laboratory. Emphasis is placed on the laboratory identification of isolates from a variety of specimen sources, and pathogenic species. Topics include instrumentation and MALDI, Gram Positive Cocci, Gram Positive Baccilli, Enterics, non-fermenters, Moraxella, Neisseria, Pasteurella, Haemophilus and HACEK, Campylobacter, Helicobacter, Legionella, CDC Select Agents, Chlamydia, Mycoplasma, Ureaplasma, Spirochetes, Anaerobes, Antibiotics and Susceptibility testing, and Acid Fast Bacilli.

7. Microbiology Clinical Correlations
   Designed as the capstone for the Technologist in Microbiology program, this course takes a body system view of the pathogenicity of infectious disease. Attention is given to integrating clinical presentation and case history to laboratory investigation and diagnosis. Topics include UTI/Genital, Food Borne/GI, Cystic Fibrosis, Blood, CSF, Body Fluids, and Wounds.

MLAB 407 Topics

The following topics will be covered under MLAB 407 Clinical Molecular Biology:
1. Introduction to Clinical Molecular Biology
This course presents the fundamentals of nucleic acid testing in the clinical laboratory and the underlying human genetics. Topics include: Fundamentals of Nucleic Acid Biochemistry, Common Techniques in Molecular Biology (Extraction, Resolution and Detection of Nucleic Acids, Analysis and Characterization, Amplification, Chromosomal Structure and Mutations, Gene Mutations, and DNA Sequencing).

2. Advanced Methods in Clinical Molecular Biology
This course applies the fundamentals of nucleic acid testing to advanced methods commonly used in the contemporary clinical and research laboratory. Topics include: PCR, Transcription-Based Amplification, Probe Amplification, Branched DNA, Hybrid Capture, Amplification: Signal, Cleavage-Based, Cycling Probe, Sequencing: Direct, Next Gen, Pyrosequencing, Bisulfite, RNA Sequencing, Bioinformatics, Human Genome Project.

3. Molecular Detection of Infectious Disease
This course examines the advances in using molecular methods to detect human infectious disease. Careful attention is given to the comparison of molecular technologies with traditional microbiology methods. Topics include: Molecular methods and applications, including PCR, sequencing, TMA, and PEGE, specimens of choice, sample preparation, Quality Control, primer selection, Molecular methods in selecting antimicrobial agents, molecular epidemiology, and target organisms: fungi, bacteria, parasites, and viruses.

4. Human Molecular and Chromosomal Applications and Pathology
This course presents advanced methods in nucleic acid testing to human medico-legal, forensic, and pathology applications. Topics include: Polymorphisms, RFLP, Paternity Testing, Linkage, Single Nucleotide Polymorphisms, Bone Marrow Engraftment, Mitochondrial DNA Polymorphisms and Disorders, Chromosomal Abnormalities, Patterns of Inheritance, Single Gene Disorders, Lysosomal Storage Disorders, Cystic Fibrosis, Trinucleotide Repeats, Genomic Imprinting, Array CGH, Molecular Oncology, HLA and Transplantation.

Requirements & Policies
Requirements
Writing Intensive Requirement
Mason requires all students to complete at least one course designated as "writing intensive" in their majors at the 300 level or above. Students majoring in chemistry fulfill this requirement by successfully completing CHEM 336 Physical Chemistry Lab I or CHEM 465 Biochemistry Lab.

Faculty
Department Faculty
Professors
Foster, Hussam
Associate Professors
Bishop, Couch, Honeychuck, Schreifels, Slayden, Weatherspoon (chair)
Assistant Professors

Pre-Medical, Pre-Dental, Pre-Pharmacy, and Pre-Veterinary Students
Web: prehealth.gmu.edu (http://prehealth.gmu.edu)
Many students planning medical, dental, pharmacy, veterinary, optometry, or other health professional careers choose to pursue a major in chemistry. These students should consult the health professions advising web site on required coursework and overall preparation.

Pre-Pharmacy Society
Mason students who are interested in pursuing careers in pharmacy are encouraged to participate in the Pre-Pharmacy Society. This student organization organizes supplemental programming focused toward pharmacy as a career.

Chemistry Club
The Chemistry Club provides a social and informational network for students. It serves the Department of Chemistry and Biochemistry by sponsoring informational programs and allowing students to work at university events.

Graduate Programs
The department offers a Chemistry, MS with a research project (thesis option) or an all coursework program (non thesis option). Within the MS, students may pursue a concentration in biochemistry. The PhD in all branches of chemistry is available through the Chemistry and Biochemistry, PhD. Students may also pursue Chemistry-related PhD research through the Environmental Science and Public Policy, PhD and the Biosciences, PhD. An area of emphasis in computational chemistry is available through the Computational Sciences and Informatics, PhD, offered in conjunction with the Department of Computational and Data Sciences.
Teacher Licensure
Students who wish to become teachers should consult the College of Education and Human Development (p. 154) and attend an information session early in their undergraduate career. For more information, visit gse.gmu.edu (http://gse.gmu.edu).

- Chemistry, BS
- Chemistry, MS

Chemistry Minor
Banner Code: CHEM

Academic Advising
Phone: 703-993-1071
Email: sslayden@gmu.edu
Website: cos.gmu.edu/chemistry/undergraduate-programs/

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor.

A minimum GPA of 2.00 is required for all coursework applied to the minor.

For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 16

Students should refer to the Admissions & Policies (p. 637) tab for specific policies related to this program.

Coursework
Select 16 credits of CHEM courses at the 300-level or above (p. 1244)

Total Credits: 16

Chemistry and Biochemistry, PhD
Banner Code: SC-PHD-CBCM

Academic Advising
Email: chemistry@gmu.edu
Website: cbgrad.gmu.edu/aboutthephd.pdf

The program is intended to prepare students for advanced work in the chemical sciences and related areas. Graduates with the PhD in this field can seek employment in research and development, process control, or higher education. In addition to these traditional science career paths, graduates are also positioned to pursue careers in non-traditional areas such as the intellectual property and regulatory fields. The program is designed to provide students with a firm foundation in advanced coursework, which is followed by an independent research project completed under the guidance of a faculty advisor. The culmination of the program is a dissertation representing original research that is publishable in a peer-reviewed scientific journal.

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

The program is intended for students who have completed an undergraduate program of study in chemistry, biochemistry, or a related field. Applicants are expected to have a BS degree with a minimum GPA of 3.00, and acceptable GRE and TOEFL scores (if applicable). Applicants with a BS degree in other fields of study who have at least three years of chemistry or biochemistry coursework may be accepted provisionally and may be required to successfully complete selected remedial courses, some of which may not be applicable towards the PhD requirements. Interested students should submit a completed application, three letters of reference, official reports of GRE and TOEFL exam scores, and a personal/goals statement outlining their general research interests and career plans.

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Academic Advising

Upon acceptance into the Chemistry and Biochemistry, PhD, a student will be assigned an academic advisor. Prior to registering for classes, students are required to meet with their academic advisor who will provide guidance in selecting courses that are consistent with the student’s area of interest. Once a student has selected a research/dissertation advisor, that person then assumes the role of providing academic advisement to the student.

Reduction of Credits

For students entering the doctoral program with a master's degree in a related field from a regionally accredited institution, the number of required credits may be reduced up to 30 credits, subject to approval of the program faculty and the associate dean for student affairs. See AP.6.5.2 Reduction of Credits (p. 88) for more information.
Requirements

Degree Requirements

Electives

Select 39 credits of approved elective courses in consultation with the student's advisor

Total Credits 48

Dissertation Committee and Supervisor

By the end of the first year, a student in the program is expected to have selected a dissertation/research supervisor and to have formed the dissertation committee. This committee will consist of at least four graduate faculty members (including the dissertation supervisor), with at least two members from the Department of Chemistry and Biochemistry. At least one member must be from outside the department. Qualified individuals who are not members of the graduate faculty, including faculty at other universities or government laboratories, may serve on the committee with the approval of the program director and the college's associate dean.

Candidacy Examinations

The student must successfully complete separate written and oral candidacy examinations prepared and administered by the dissertation committee.

Dissertation Proposal and Advancement to Candidacy

Prior to completing the sixth semester in the program, a student is expected to have advanced to candidacy. The student’s committee will determine whether a candidate is ready to begin preparation of the research proposal and approve enrollment in CHEM 998 Doctoral Dissertation Proposal based upon their familiarity with the student’s progress.

In order to advance to candidacy, a student is required to fulfill the following requirements:

- The student will prepare and submit a research proposal (based on the thesis research) for approval by the dissertation committee.
- The student must pass a written qualifying exam prepared by the dissertation committee. The exam can be based on the student's research and/or completed coursework, with the composition of the exam being determined by the student's dissertation committee.
- The final stage is an oral defense of the student's research proposal. Questions at the proposal defense may also be drawn from material covered in the written qualifying exam.

Dissertation Research

No more than 24 combined credits from CHEM 998 Doctoral Dissertation Proposal and CHEM 999 Doctoral Dissertation Research may be applied toward satisfying doctoral degree requirements, with no more than 12 credits of CHEM 998 Doctoral Dissertation Proposal.

Select 24 credits from the following:

<table>

</tr>
<tr>
<td>CHEM 999</td>
<td>Doctoral Dissertation Research</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 24

Exit Seminar

Each PhD candidate presents his or her research in a seminar in the Department of Chemistry and Biochemistry (a departmental seminar), which takes place in the same semester as the final defense of dissertation (below). The student does not have to be registered for CHEM 790 Graduate Seminar during the semester the exit seminar is presented.

Dissertation Research and Defense

With the approval of the dissertation committee, the student will enroll in CHEM 998 Doctoral Dissertation Proposal and CHEM 999 Doctoral Dissertation Research. The dissertation research should represent a significant contribution to the appropriate scientific field(s), and it should be deemed to represent a body of work that is publishable in a refereed scientific journal. The dissertation must be presented and defended in a public forum consisting of the dissertation committee and other interested members of the George Mason University community.

Chemistry, BA

Academic Advising

Phone: 703-993-1071
Email: sslayden@gmu.edu
Website: cos.gmu.edu/chemistry/undergraduate-programs/

This program, when coordinated with the necessary courses in education, meets requirements for teacher licensure. It also meets requirements for entrance to medical and other professional schools.

Teacher Licensure

Students who wish to become teachers and plan to seek teacher licensure should consider the following options:

- Secondary Education – Chemistry (6-12) Undergraduate Certificate (p. 204)
- Chemistry, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Chemistry concentration) (p. 643)

Interested students should attend an information session early in their undergraduate career. For more information, visit the Graduate School of Education’s website (http://gse.gmu.edu).
Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135). As outlined in Requirements (p. 639), students in this bachelor’s program must also complete the additional College Requirements for the BA Degree.

CHEM 336 Physical Chemistry Lab I or CHEM 465 Biochemistry Lab will fulfill the writing intensive requirement.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 639) tab for specific policies related to this program.

Students must complete the chemistry program requirements with a minimum GPA of 2.30 and present no more than two courses with a grade of ‘D’ (1.00) in CHEM coursework at graduation.

BA without Concentration

Students who do not select the optional concentration complete the curriculum requirements listed below.

Concentration in Biochemistry (BC)

The concentration in biochemistry is designed for students interested in studying chemistry at its interface with the biological sciences. Those interested in health science careers can obtain an excellent science background through this concentration.

Students majoring in chemistry with a concentration in biochemistry will complete the alternative requirements for the major plus the concentration, both listed below.

Non-Western Culture
Choose one approved Non-Western Culture Requirement course in addition to the course used to fulfill the Mason Core: Global Understanding (p. 139) requirement. A course used to fulfill the Mason Core: Global Understanding (p. 139) requirement may not be simultaneously used to satisfy this college-level requirement. However, a course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core (p. 135) requirements, college-level requirements, or requirements for the major).

HIST 100 History of Western Civilization (Mason Core) (p. 135) and HIST 125 Introduction to World History (Mason Core) (p. 135) may not be used to fulfill this requirement.

1. HIST 125 Introduction to World History (Mason Core) (p. 135) may not be used to fulfill this requirement.

2. BIOL 124 Human Anatomy and Physiology and BIOL 125 Human Anatomy and Physiology may not be used to fulfill this requirement.

3. Students may be eligible for a waiver of this requirement if they are already proficient in a second language or if they have received a satisfactory score on an approved proficiency test. Additional information on waivers can be found via the college’s Office of Academic and Student Affairs (https://cos.gmu.edu/uaa).
In order to apply for Chemistry Honors, please complete the application Chemistry with a minimum GPA of 3.50. Honors Research in Chemistry and CHEM 456 Honors Research in courses and successfully complete the two semesters of CHEM 455 required to maintain a minimum GPA of 3.00 in mathematics and science honors program. To graduate with honors in chemistry, a student is mathematics and science courses are eligible to enter the departmental honors program. Chemistry majors who have completed prerequisites for CHEM 455 Honors Research in Chemistry and CHEM 456 Honors Research in Chemistry and have maintained an overall GPA of at least 3.00 in mathematics and science courses are eligible to enter the departmental honors program. To graduate with honors in chemistry, a student is required to maintain a minimum GPA of 3.00 in mathematics and science courses and successfully complete the two semesters of CHEM 455 Honors Research in Chemistry and CHEM 456 Honors Research in Chemistry with a minimum GPA of 3.50.

In order to apply for Chemistry Honors, please complete the application (https://cos.gmu.edu/chemistry/wp-content/uploads/sites/7/2015/08/
form-honors-program-application-2016.pdf) and submit it to the undergraduate coordinator.

### Accelerated Master's

**Chemistry, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Chemistry concentration)**

**Overview**

Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a BA (p. 638) or BS in Chemistry (p. 643) (degree without concentration) and an MEd in Curriculum and Instruction (p. 161) (concentration in secondary education chemistry) in an accelerated time frame after completion of 149 credits. See AP.6.7 Bachelor's/Accelerated Master's Degree (p. 89) for policies related to this program.

This accelerated option is offered jointly by the Department of Chemistry and Biochemistry (p. 636) and the Graduate School of Education (p. 155).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 66). For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

**Accelerated Option Requirements**

Students complete the following courses in their senior year:

<table>
<thead>
<tr>
<th>Senior Fall Semester</th>
<th>Credits</th>
<th>Senior Spring Semester</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDCI 573</td>
<td>3</td>
<td>EDCI 673</td>
<td>3</td>
</tr>

<td>EDRD 619</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td><strong>12</strong></td>
<td><strong>6</strong></td>
<td></td>
</tr>
</tbody>
</table>

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the bachelor's and master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor's/Accelerated Master's Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

### Chemistry, BS

**Banner Code:** SC-BS-CHEM

This program is approved by the American Chemical Society (https://www.acs.org/content/acs/en.html). Upon completion, students who choose either the B.S. in Chemistry with no concentration or the Analytical and Environmental Chemistry concentration are certified to the society. Students planning professional careers in chemistry should choose this degree.

**Teacher Licensure**

Students who wish to become teachers and plan to seek teacher licensure should consider the following options:

- Secondary Education – Chemistry (6-12) Undergraduate Certificate (p. 204)
- Chemistry, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Chemistry concentration) (p. 647)

Interested students should attend an information session early in their undergraduate career. For more information, visit the Graduate School of Education's website (http://gse.gmu.edu).

### Admissions & Policies

**Admissions**

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

**Policies**

Students must fulfill all Requirements for Bachelor's Degrees (p. 86), including the Mason Core (p. 135).

CHEM 336 Physical Chemistry Lab I or CHEM 465 Biochemistry Lab will fulfill the writing intensive requirement for students majoring in chemistry.

### Requirements

**Degree Requirements**

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 643) tab for specific policies related to this program.

Students majoring in chemistry must complete the chemistry program requirements with a minimum GPA of 2.30 and present no more than two courses with a grade of 'D' (1.00) in CHEM coursework at graduation.

**BS without Concentration**

Students who do not select an optional concentration complete the curriculum requirements listed below.
### Mathematics Courses

<td>Special Projects in Chemistry</td>
<td></td>
</tr>
<tr>
<td>CHEM 452</td>
<td>Special Projects in Chemistry</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits:** 7-8

The discipline sequences may be interchanged only with approval by the program coordinator.

### Concentration in Biochemistry (BC)

Students planning professional careers in biochemistry, the pharmaceutical industry, medicine, biotechnology, or related fields with a chemistry emphasis should choose this program instead of the Chemistry, BS without a concentration. This concentration provides students with a focus on biochemistry while retaining a strong chemistry foundation. Students are allowed to tailor the concentration to their interests with 9 credits of science electives.

### Chemistry Courses

<table>
<thead>
<tr>

**Note:**

During their second year, students should contact the Graduate School of Education in order to attend an information session and to prepare for taking the Praxis Core Academic Skills for Educators Test (https://www.ets.org/praxis/about/core).

**Mason Core and Elective Credits**

In order to meet a minimum of 120 credits, this degree requires additional credits (specific credit counts by concentration are shown below), which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor’s Degrees (p. 86), and electives. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

- Without concentration: 49 credits
- AEC concentration: 41-42 credits
- BC concentration: 48 credits
- CHME concentration: 34 credits

**Mason Core**

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

**Code** | **Title** | **Credits**
--- | --- | ---

**Synthesis/Capstone Requirement** 1
Honors in the Major
Chemistry majors who have completed prerequisites for CHEM 455 Honors Research in Chemistry and CHEM 456 Honors Research in Chemistry and have maintained an overall GPA of at least 3.00 in mathematics and science courses are eligible to enter the departmental honors program. To graduate with honors in chemistry, a student is required to maintain a minimum GPA of 3.00 in mathematics and science courses and successfully complete the two semesters of CHEM 455 Honors Research in Chemistry and CHEM 456 Honors Research in Chemistry with a minimum GPA of 3.50.

In order to apply for Chemistry Honors, please complete the application (https://cos.gmu.edu/chemistry/wp-content/uploads/sites/7/2015/08/form-honors-program-application-2016.pdf) and submit it to the undergraduate coordinator.

Accelerated Master's
Chemistry, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Chemistry concentration)
Overview
Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a BA (p. 638) or BS in Chemistry (p. 643) (degree without concentration) and an MEd in Curriculum and Instruction (p. 161) (concentration in secondary education chemistry) in an accelerated time frame after completion of 149 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 89) for policies related to this program.

This accelerated option is offered jointly by the Department of Chemistry and Biochemistry (p. 636) and the Graduate School of Education (p. 155).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 66). For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

Accelerated Option Requirements
Students complete the following courses in their senior year:

### Honors

<table>
<thead>

<td>3</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 12

While undergraduate students, accelerated master’s students are able to apply two of the courses listed above to both the bachelor’s and master’s degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Chemistry, BS/Chemistry, Accelerated MS
Overview
This bachelor's/accelerated master's degree program allows academically strong undergraduates with a commitment to research to obtain both the Chemistry, BS (p. 643) and the Chemistry, MS (p. 648) degrees within an accelerated timeframe. Upon completion of this 144 credit program, students will be exceptionally well prepared for entry into a professional school or a PhD program in chemistry or a related discipline. Students are eligible to enter this program and enroll in graduate courses after successfully completing 90 undergraduate credits, inclusive of prerequisites, toward the Chemistry, BS (p. 643) degree. This flexibility makes it possible for students to complete graduate coursework during their final year.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 66) section of this catalog. Application information for this accelerated master's program can be found here (https://www2.gmu.edu/admissions-aid/how-apply/accelerated-masters).

Successful applicants will have an overall undergraduate GPA of at least 3.00. Additionally, they will have completed 36 credits of CHEM courses with a GPA of at least 3.00.

Accelerated Option Requirements
At the beginning of the student’s final undergraduate semester, students must submit a bachelor’s/accelerated master’s transition form (available from the Office of the University Registrar (http://registrar.gmu.edu)) to the College of Science’s Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). Students must begin their master’s program in the semester immediately following conferral of the bachelor’s degree.

Students must maintain an overall GPA of 3.00 or higher in graduate coursework and should consult with their faculty advisor to coordinate
their academic goals within the chemistry and biochemistry concentrations.

**Reserve Graduate Credit**
While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate credits do not apply to the undergraduate degree.

**Chemistry, MS**
Banner Code: SC-MS-CHEM

**Academic Advising**
Email: chemistry@gmu.edu
Website: cbgrad.gmu.edu/aboutthems.pdf

This master’s degree provides advanced training for recent college graduates, professionals in teaching, and technical workers in research organizations who have an interest in chemistry or biochemistry.

**Admissions & Policies**

**Admissions**
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

To be considered for admission to degree status, students must have a bachelor’s degree in chemistry, biochemistry, or a related field from a regionally accredited institution and must meet general admission requirements for graduate study as specified in Graduate Admission Policies (p. 66). Admission is based on a departmental evaluation of the applicant’s background as evidenced by transcripts, résumés, and letters of recommendation.

**Policies**
CHEM 500 Selected Topics in Modern Chemistry may not be applied toward the MS degree.

CHEM courses numbered 502 through 510 may be applied toward the degree only with prior written approval of the department.

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Requirements**

**Degree Requirements**
Total credits: 30

Students should refer to the Admissions & Policies (p. 648) tab for specific policies related to this program.

**Core Courses**
Select three of the following core courses. Courses must be selected from three different core areas shown below: 1

<table>
<thead>
<tr>
<th>Core Area</th>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>Analytical:</td>
<td>CHEM 624</td>
<td>Principles of Chemical Separation</td>
</tr>
<tr>
<td>Biochemistry:</td>
<td>CHEM 660</td>
<td>Protein Biochemistry</td>
</tr>
<tr>
<td></td>
<td>CHEM 662</td>
<td>Modern Methods of Drug Discovery</td>
</tr>
<tr>
<td>Environmental:</td>
<td>CHEM 651</td>
<td>Environmental Chemistry of Organic Substances</td>
</tr>
<tr>
<td>Inorganic:</td>
<td>CHEM 641</td>
<td>Solid State Chemistry</td>
</tr>
<tr>
<td></td>
<td>CHEM 646</td>
<td>Bioinorganic Chemistry</td>
</tr>
<tr>
<td>Organic:</td>
<td>CHEM 613</td>
<td>Modern Polymer Chemistry</td>
</tr>
<tr>
<td></td>
<td>CHEM 614</td>
<td>Physical Organic Chemistry</td>
</tr>
</tbody>
</table>

Total Credits 9

1 Core courses may also be taken as electives beyond the stated credit requirement for each option.

**MS without Concentration**
General chemistry students who do not wish to pursue a concentration complete the following requirements and choose either the Thesis Option or the Non Thesis Option:

**One Additional Core Course**
CHEM 633 Chemical Thermodynamics and Kinetics

**Chemistry Electives**
Select 3 credits of CHEM designated courses (p. 1244) Select 6 credits of courses in chemistry or related fields, approved by the graduate committee prior to registration

**Seminar**
CHEM 790 Graduate Seminar

**Thesis or Non Thesis**
Select the Thesis Option or the Non Thesis Option

Total Credits 21

**Thesis Option**
The Thesis Option is designed for students planning to pursue a doctoral degree or a career involving research in the chemical, biochemical, environmental, or pharmaceutical industries.

Students must choose a research laboratory advisor during their first semester in the program and begin working on their thesis project no later than the second semester. The thesis is based on research that must be preapproved by the thesis or advisory committee, which is appointed prior to the first semester of registration in CHEM 799 Master’s Thesis. Students must complete CHEM 799 Master’s Thesis and present a seminar, followed by an oral defense.

**Thesis Option**
CHEM 799 Master’s Thesis

Total Credits 6
Non Thesis Option

The Non Thesis Option is designed for those seeking to go on to professional school, teach chemistry in secondary schools, or pursue other careers in which advanced work in chemistry is necessary or advantageous.

Students selecting this option are not required to complete a laboratory-based thesis. Instead, they must complete a research project or gain teaching experience in undergraduate chemistry labs, as described below.

Any combination of CHEM 670 Teaching Practicum and CHEM 796 Directed Reading and Research may be used to fulfill this requirement. However, CHEM 796 Directed Reading and Research may be used to fulfill this requirement only with prior written approval of the department and must be used to complete a laboratory or library-based research project, or must otherwise enhance the student's teaching skills.

Non Thesis Option

Select 3 credits of the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 670</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 796</td>
<td>3</td>
</tr>
</tbody>
</table>

Additional Chemistry Electives

Select 3 credits of CHEM designated courses (p. 1244)

Total Credits 6

MS with Concentration in Biochemistry (BC)

Students who wish to pursue an optional concentration in biochemistry complete the following requirements and choose either Thesis Option or the Non Thesis Option:

One Additional Core Course

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 633</td>
<td>3</td>
</tr>
</tbody>
</table>

Chemistry Electives

Select 3 credits of CHEM designated courses (p. 1244)

Seminar

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHEM 790</td>
<td>3</td>
</tr>
</tbody>
</table>

Thesis or Non Thesis

Select the Thesis Option or the Non Thesis Option

Total Credits 12

Thesis Option

The Thesis Option is designed for students planning to pursue a doctoral degree or a career involving research in the chemical, biochemical, environmental, or pharmaceutical industries.

Students must choose a research laboratory advisor during their first semester in the program and begin working on their thesis project no later than the second semester. The thesis is based on research that must be preapproved by the thesis or advisory committee, which is appointed prior to the first semester of registration in CHEM 799 Master’s Thesis. Students must complete CHEM 799 Master’s Thesis and present a seminar, followed by an oral defense.

Biochemistry Electives

Select 6 credits of electives in biochemistry or related fields with approval from department

Thesis

6

Total Credits 12

Non Thesis Option

The Non Thesis Option is designed for those seeking to go on to professional school, teach chemistry in secondary schools, or pursue other careers in which advanced work in chemistry is necessary or advantageous.

Students selecting this option are not required to complete a laboratory-based thesis. Instead, they must complete a research project or gain teaching experience in undergraduate chemistry labs, as described below.

Any combination of CHEM 670 Teaching Practicum and CHEM 796 Directed Reading and Research may be used to fulfill this requirement. However, CHEM 796 Directed Reading and Research may be used to fulfill this requirement only with prior written approval of the department and must be used to complete a laboratory or library-based research project, or must otherwise enhance the student's teaching skills.

Chemistry, BS/Chemistry, Accelerated MS

Overview

This bachelor's/accelerated master’s degree program allows academically strong undergraduates with a commitment to research to obtain both the Chemistry, BS (p. 643) and the Chemistry, MS (p. 648) degrees within an accelerated timeframe. Upon completion of this 144 credit program, students will be exceptionally well prepared for entry into a professional school or a PhD program in chemistry or a related discipline. Students are eligible to enter this program and enroll in graduate courses after successfully completing 90 undergraduate credits, inclusive of prerequisites, toward the Chemistry, BS (p. 643) degree. This flexibility makes it possible for students to complete graduate coursework during their final year.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog. Application information for this accelerated master’s program can be found here (https://www2.gmu.edu/admissions-aid/how-apply/accelerated-masters).
Successful applicants will have an overall undergraduate GPA of at least 3.00. Additionally, they will have completed 36 credits of CHEM courses with a GPA of at least 3.00.

**Accelerated Option Requirements**

At the beginning of the student’s final undergraduate semester, students must submit a bachelor’s/accelerated master’s transition form (available from the Office of the University Registrar (http://registrar.gmu.edu)) to the College of Science’s Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). Students must begin their master’s program in the semester immediately following conferral of the bachelor’s degree.

Students must maintain an overall GPA of 3.00 or higher in graduate coursework and should consult with their faculty advisor to coordinate their academic goals within the chemistry and biochemistry concentrations.

**Reserve Graduate Credit**

While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate credits do not apply to the undergraduate degree.

**Department of Computational and Data Sciences**

**Administration**

- Jason Kinser, Chair
- Estela Blaisten-Barojas, Graduate Coordinator CSI, COMP, Data Science Certificate
- Eduardo Lopez, Graduate Coordinator CSS
- Joe Marr, Undergraduate Coordinator

The mission of the Department of Computational and Data Sciences (CDS) is comprised of two objectives:

The first is the systematic development and application of computational techniques for modeling and simulation of scientific and social phenomena or social processes.

The second objective is the systematic development and application of techniques for mining, managing, and analyzing large sets of data.

The resulting interdisciplinary approach leads to understanding, interpretation, and prediction of phenomena that traditional theory or experiment cannot provide alone. CDS’s mission aims toward excellence in faculty and graduate student state-of-the-art research activities, as well as providing modern approaches to student education at both the graduate and undergraduate levels. The educational and research directions pursued in CDS are focused to reflect the interests of neighboring federal laboratories, scientific institutions, and high-technology firms to provide the students opportunities for continued or new employment. Graduate courses are also designed to accommodate part-time students, with most courses meeting once a week in the late afternoon or early evening.

The research and teaching activities associated with CDS’s programs are a reflection of the present central role of computation in the arenas of “big data” and of modeling and simulation.

**Undergraduate Programs**

This department offers the Computational and Data Sciences, BS (p. 651) and the Computational and Data Sciences Minor (p. 657). An accelerated master’s option is also available for undergraduate students interested in the Computational Science, MS (p. 651).

Many opportunities exist for undergraduate students to get involved with research. Students should consult with faculty working on research topics of interest to them based on their exploration of the departmental website.

**Graduate Programs**

This department offers the Data Science Graduate Certificate (p. 659), the Computational Social Science Graduate Certificate (p. 654), the Computational Science, MS (p. 651), the Computational Sciences and Informatics, PhD (p. 652), and the Computational Social Science, PhD (p. 655). An accelerated master’s option is also available for undergraduate students interested in the Computational Science, MS (p. 651). The department also supports the Computational Social Science Concentration in the Interdisciplinary Studies, MAIS (p. 534). These graduate programs are strongly supported by the extensive research activities of the faculty, including their collaborations with scientists and engineers at regional government laboratories.

**Faculty**

**Department Faculty**

**Professors**

Research Hall, Room 221
Fairfax Campus
Phone: 703-993-1988
Email: blaisten@gmu.edu
Website: cos.gmu.edu/cds/ms-in-computational-science/

The master's addresses the growing demand for trained computational scientists and engineers, and data scientists. It combines a solid foundation in computational science skills with courses in a variety of scientific and engineering computer-intensive areas where modeling and simulation, data analysis, and high performance computing play a central role.

Working with an advisor, a student may choose to pursue an area of emphasis. The areas of emphasis are:

- Computer Modeling and Simulation: Intended for students who wish to learn computational solution techniques for modeling and simulation of scientific and engineering phenomena.
- Data Science: Intended for students who wish to learn computational methods for acquiring, extracting, and analyzing large-scale data obtained by observations, experiments, modeling, and database searches.

Students may also combine areas of emphasis to create their own customized curriculum under the guidance of the graduate coordinator.

Most of the courses are offered in the late afternoon or early evening to accommodate students with full-time employment outside of the university.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Eligibility

Applicants should have academic backgrounds in computational, physical or biological sciences, engineering, mathematics, or computer science. They should have an undergraduate degree from a regionally accredited institution with a GPA of at least 3.00 in their last 60 credits of study. In addition, applicants should have taken at least one course in differential equations and have facility in using a high-level computer programming language.

Application Requirements

To apply, prospective students should complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), supply two copies of official transcripts from each university attended, a current résumé, and an expanded goals statement. Applicants should also provide three letters of recommendation and an official report of scores on the GRE-GEN. The GRE-SUB is recommended if it is given in the student's undergraduate major. The GRE requirement will be waived if the student holds a BS degree from any program in George Mason's College of Science (p. 593), Volgenau School of Engineering (p. 953), or a master's degree from a regionally accredited U.S. institution. TOEFL scores are required of all international applicants. A TOEFL score of 570 (paper-based test) or 230 (computer-based test) or 88 points total and a minimum of 20 points in each section (Internet-based test) is required for international students. The ETS code for Mason is 5827. For more information visit Admission of International Students (p. 68).

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Requirements

Degree Requirements

Total credits: 30

Students should refer to the Admissions & Policies (p. 651) tab for specific policies related to this program.

Core Courses

Select 6 credits from the following:

<table>
<thead>
<tr>

**Accelerated Master's**

Computational and Data Sciences, BS/Computational Science, Accelerated MS

**Overview**

This option enables enthusiastic, highly qualified, undergraduates to obtain the Computational and Data Sciences, BS (p. 657) and the Computational Science, MS (p. 651) within the accelerated time frame of five years. The program requires 144 credits total, allowing students to undertake graduate coursework during their final year in the bachelor's degree. Upon completion of this 144 credit BS/MS combined program, students are exceptionally well prepared for undertaking doctoral studies or entering the professional workforce.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog. Application information for this Accelerated Master's program can be found on the Department of Computational and Data Sciences (http://cos.gmu.edu/cds/academic-programs) website. Applicants must have an overall undergraduate GPA of at least 3.00 and have completed at least 90 credits. Additionally, applicants will have completed the following courses with a GPA of 3.00 or better:

**Electives**

Select 9 credits of electives $^{1,2,3}$

Total Credits 9

1. GRE-general scores are waived for graduates of BS degrees from any program in the College of Science or the Volgenau School of Engineering at George Mason University.

Students must maintain an overall GPA of 3.00 or higher in graduate coursework and should consult with their faculty advisor to coordinate their academic goals within the modeling and simulation or data science emphases of the Computational Science, MS (p. 651).

**Reserve Graduate Credit**

While in undergraduate status, a student may take a maximum of six graduate credits as reserve graduate credits and apply those credits to a master’s program. Reserve graduate credits are not counted toward the 120 credits required in the undergraduate degree.

Computational Sciences and Informatics, PhD

**Banner Code:** SC-PHD-CSI

**Estela Blaisten-Barojas, Graduate Coordinator**

Research Hall, Room 221
Fairfax Campus

Phone: 703-993-1988
Email: blaisten@gmu.edu
Website: cos.gmu.edu/cds/phd-in-computational-sciences-and-informatics/

Founded in 1992, the program addresses the role of computation in science, mathematics, and engineering, and is designed around the emphases of Computer Modeling and Simulation and of Data Science. Computational science, focused on modeling and simulation, is defined as the systematic development and application of computing systems and computational solution techniques for modeling and simulation of scientific and engineering phenomena. Informatics, focused on data science, is defined as the systematic development and application of computing systems and computational solution techniques for analyzing data obtained through experiments, modeling, database searches, and instrumentation. The resulting interdisciplinary approach leads to understanding that traditional theory or experimentation alone
cannot provide. The close relationship of the PhD to the research and development activities in federal laboratories, scientific institutions, and high-technology firms affords students opportunities for continued or new employment. Scheduled courses and sequences accommodate part-time students, with most courses meeting once a week in the late afternoon or early evening. The research and teaching activities associated with the program reflect the recognized role of computation and data analysis as part of a triad with theory and experiment, leading to a better understanding of nature. The program is designed to be completed in four to five years.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Eligibility

Students interested in applying for admission should have a bachelor’s degree in computational science, any natural science, mathematics, engineering, or computer science with a minimum GPA of 3.00 in their last 60 credits of study. Applicants to the PhD program should have a mathematics background up to and including differential equations and should also have knowledge of a computer programming language such as C, C++, Fortran, Python, etc.

Application Requirements

The GRE is required, unless the applicant holds a master’s degree from a regionally-accredited school in the United States. A TOEFL score of 570 (paper-based test) or 230 (computer-based test) or 88 points total and a minimum of 20 points in each section (Internet-based test) is required for international students. The ETS code for Mason is 5827.

Students should submit a completed George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now) along with three letters of recommendation, an expanded goals statement, and application fee in addition to the items listed above.

Application deadlines can be found on the Office of Admissions website (https://admissions.gmu.edu/grad/application-deadlines-and-requirements/?academicUnit=SC&ga=1.13682175.956654242.1443444993). Applications requesting financial support must be received by February 1 for the fall semester. Applications from local applicants may be accepted after these general deadlines.

For additional information, please contact the CSI graduate coordinator.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Reduction of Credit

For students entering the doctoral program with a master’s degree in a related field from a regionally accredited institution, the required coursework may be reduced up to 24 credits, subject to approval of the graduate coordinator and the college’s associate dean.

Transfer of Credit

Students who have prior graduate coursework that has not been applied to any degree may request to have a maximum of 30 of those graduate credits transferred, with approval of the graduate coordinator, the college’s associate dean, and in accord with university policy. Research-based courses and seminar courses are not eligible for reduction or transfer.

Requirements

Degree Requirements

Total: 72 credits

Students should refer to the Admissions & Policies (p. 653) tab for specific policies related to this program.

CSI 877  Geometric Methods in Statistics

1 When choosing courses, avoid courses previously taken to fulfill the 'General Core Courses' requirement and only choose one 500-level course.

Colloquium/Seminar
The department offers weekly colloquia and seminar series to ensure that students are exposed to the latest developments at area research institutions. One credit may be chosen from:

CSI 898  Research Colloquium in Computational Sciences and Informatics
or CSI 991  Seminar in Scientific Computing

Electives
Electives should be chosen to bring the total number of credits to 72. Courses must be approved by the student's advisor and the graduate coordinator. Additionally,

- A maximum of 2 credits of CSI 898 Research Colloquium in Computational Sciences and Informatics and/or CSI 991 Seminar in Scientific Computing may be applied as electives.
- A maximum of two 500-level courses may be applied between both the 'Areas of Emphasis Courses' requirement and the 'Electives' requirement.
- CSI 796 Directed Reading and Research and CSI 996 Doctoral Reading and Research are the only allowable research-based courses that can be used as electives.
- Students may pursue interdisciplinary research that supplements the 'Areas of Emphasis Courses' and 'Electives' requirements with each other and also with bioinformatics, climate dynamics, computational chemistry, computational social science, geoinformation sciences, and several other autonomous PhD program areas within the College of Science.

Doctoral Research
No more than 24 combined credits from CSI 998 Doctoral Dissertation Proposal and CSI 999 Doctoral Dissertation may be applied toward satisfying doctoral degree requirements, with a minimum of 6 credits of CSI 999 Doctoral Dissertation.

Students become eligible to register for CSI 998 Doctoral Dissertation Proposal upon having an approved dissertation committee. Upon advancement to candidacy, students will be eligible to register for CSI 999 Doctoral Dissertation.

Select 24 credits from the following:

Total Credits 24

Candidacy Examination
The student must successfully complete separate written, computational, and oral candidacy examinations prepared and administered by the student's dissertation committee.

Dissertation Proposal and Advancement to Candidacy
Students advance to doctoral candidacy by fulfilling the following requirements:

- The student must successfully complete all coursework and candidacy examinations as stated above.
- The student prepares a dissertation proposal describing in detail the planned dissertation research. The proposal must be approved by the dissertation committee.
- Following successful completion of the research proposal and candidacy exams, the committee will recommend the student for advancement to doctoral candidacy to the graduate coordinator and the college's associate dean.

Dissertation Research and Defense
After advancing to candidacy, the student will work on a doctoral dissertation while enrolled in CSI 999 Doctoral Dissertation. The dissertation is a written piece of original contribution that demonstrates a doctoral candidate's mastery of the subject matter. A student is expected to produce new and original research worthy of publication in peer-reviewed journals. After the dissertation is completed, the committee will review the dissertation and examine the student in a public oral dissertation defense.

Computational Social Science Graduate Certificate

Banner Code: SC-CERG-CSS

Karen Underwood, Academic Programs Administrator
Research Hall, Room 373
Fairfax Campus
Phone: 703-993-9298
Email: cssgrad@gmu.edu
Website: cos.gmu.edu/cds/graduate-certificate-in-computational-social-science/

This program is designed for students who seek training in computer simulation and related computational methods for analyzing social systems and processes. The program is open to all students with graduate standing at George Mason University and all students who hold a bachelor’s degree from a regionally accredited university. The Computational Social Science (CSS) certificate allows students with social science or computational backgrounds to acquire new knowledge and modeling skills to improve their qualifications and attractiveness to employers in government, academia, or industry. The core courses provide a common foundation; additional elective courses allow for a variety of student interests across diverse social domains.

This graduate certificate may be pursued on a part-time or full-time basis.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants should have an undergraduate degree from a regionally-accredited institution, with a GPA of at least 3.00. To apply, prospective students should forward a completed George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), one copy of official transcripts from each college and graduate institution attended, and a current résumé. TOEFL scores are required of all international applicants. International applicants should see information regarding the admission of international students (p. 68).

Students intending to obtain the CSS certificate must apply to the CSS certificate program before beginning any CSS coursework intended to satisfy requirements. They must also have their coursework plan approved by the director.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Requirements

Certificate Requirements

Total credits: 15

Students should refer to the Admissions & Policies (p. 655) tab for specific policies related to this program.

Total Credits 12

1 These courses should be selected in conjunction with, and approved by, the student’s advisor. Students may include a maximum of 3 credits of programming courses to meet the elective requirements. Procedural, object-oriented languages, or other approved programming approaches may be used with permission of the director. Some courses on computational techniques, modeling, or statistics, such as visualization, graphics, and statistical and database packages may also be used to meet the requirements with prior approval of the director.

Computational Social Science, PhD

Banner Code: SC-PHD-CSS

Karen Underwood, Academic Programs Administrator

Research Hall, Room 373
Fairfax Campus
Phone: 703-993-9298
Email: cssgrad@gmu.edu
Website: cos.gmu.edu/cds/phd-in-computational-social-science/

The core objective of the program is to train graduate students to be professional computational social scientists in academia, government, or business. The program offers a unique and innovative interdisciplinary academic environment for systematically exploring, discovering, and developing skills to successfully follow careers in one of the areas of computational social science.

Admissions & Policies

Admissions

University-wide admissions policies can be found in Graduate Admissions Policies (p. 66).

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Eligibility

Applicants should have as background a bachelor’s degree in one of the social sciences; computer science, engineering, or a relevant discipline; and undergraduate courses in these and related areas. Bachelor’s degrees in the physical or biological sciences are also eligible, but applicants may be advised to take additional courses in social science or
computer science as prerequisites to admission. Minimal requirements also include one undergraduate course in calculus and knowledge of a computer programming language, preferably object-based.

**Application Requirements**

Applicants should have an undergraduate degree from a regionally-accredited institution, with a GPA of at least 3.25. To apply, prospective students should complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), one copy of official transcript from each college and graduate institution attended, a current résumé, an expanded goals statement not to exceed 2,000 words, and the names of two Mason faculty members who may be suitable advisors. Applicants should also include three letters of recommendation from faculty members or individuals with direct knowledge of the student’s academic or professional capabilities. The letters must arrive directly from the senders. Applicants should also submit an official report of scores obtained on the GRE-GEN. TOEFL scores are required for all international applicants.

**Policies**

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Reduction of Credit**

Students entering the doctoral program with a master’s degree in a related discipline may request that the required credits for the doctoral degree be reduced by a maximum of 30 credits with approval of the director of graduate studies and the associate dean and in accordance with university policy.

**Transfer of Credit**

Students who have prior graduate coursework that has not been applied to another degree may request to have a maximum of 24 of these graduate credits transferred, with approval of the director of graduate studies and the associate dean and in accordance with university policy.

**Academic Advising**

During the first year, each student will form a graduate studies committee, called the first-year committee, consisting of the student’s advisor plus two or three appropriately qualified individuals. The committee assists the student in designing a specific plan of study and evaluating the student’s progress by the end of the first year. During the second year, the student forms a doctoral committee, with membership approved by the CSS program director. The committee will advise the student on preparing for the doctoral candidacy exams and preparing, developing, and defending the doctoral dissertation.

**Requirements**

**Degree Requirements**

Total credits: 72

Students should refer to the Admissions & Policies (p. 655) tab for specific policies related to this program.

**Core Courses**

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSS 600</td>
<td>Introduction to Computational Social Science</td>
<td>3</td>
</tr>

<td>Spatial Agent-Based Models of Human-Environment Interactions</td>
<td></td>
</tr>
<tr>
<td>CSS 692</td>
<td>Social Network Analysis</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits: 12

**Discipline-based Courses**

Select 15 credits of discipline-based social science courses in a specific area such as anthropology, economics, geography, history, linguistics, political science, or sociology, as approved by the student’s advisor, to provide domain-specific knowledge

Total Credits: 15

**Electives**

Select 15 credits of electives or independent research, as approved by the student’s advisor, to provide further substantive or methodological specialization as needed

Total Credits: 15

Students with a strong background in computing, for example, a prior MS in computer science, but weaker social science training will be required to use all or most of these electives in a substantive social science. Conversely, students with a strong background in social science, for example, a BS in economics, will be required to use most or all of these electives in computing courses.

**Candidacy Examination**

The candidacy exam is taken after students have completed all core requirements and a majority of additional coursework (18 plus 15 credits), which typically corresponds to the fifth semester in the program. The purpose of the candidacy exam is to assess the student’s substantive and methodological knowledge in CSS as a whole and in the chosen focus area, the ability to integrate materials from different courses, and the potential for a successful dissertation. The exam consists of written and oral parts.

**Dissertation Proposal**

Upon passing the candidacy examination, each student shall prepare and, within a year, defend a dissertation proposal, written in the form of an extramural research grant proposal. The student shall develop the dissertation proposal in consultation with the dissertation committee. With successful defense of the proposal, a student becomes a PhD candidate.

**Dissertation Research**

Dissertation research credits are required in order to demonstrate doctoral-level originality and research excellence:

Select 24 credits from the following: 24

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CSS 998</td>
<td>Doctoral Dissertation Proposal</td>
</tr>
</tbody>
</table>
Example Dissertation Areas
Areas for dissertation research include, but are not limited to, the following:

- Agent-based computational economics: trade, finance, decision making under risk
- Computational political economy: voting, institutions, norms, inequality
- Computational linguistics: generative grammars, parsing, classifiers, inference
- Social network analysis: connectivity, structure, evolution of the Internet, social media, cyber warfare
- Computational anthropology: emergence of hierarchy, settlement patterns
- Computational political science: systems of government, conflict and war, cooperation
- Computational sociology: segregation, collective action, leadership, trust
- Complexity theory: power laws, potential theory, criticality, bifurcation
- Computational methodology: multiagent systems, evolutionary computation
- Agent-based computational geography: land use change, humanitarian assistance, urban modeling

Doctoral Dissertation Defense
The PhD dissertation is the detailed written report of an original and significant research contribution to computational social science. It is defended before the dissertation committee in a forum open to fellow students and interested faculty and staff. The dissertation committee recommends that the graduate faculty of George Mason University accept the student candidate for the PhD degree upon a successful defense and completion of any final revisions.

Computational and Data Sciences Minor
Banner Code: CDS

Joseph Marr, Undergraduate Coordinator
Planetary Hall, Room 115
Fairfax Campus
Phone: 703-993-5017
Email: jmmarr2@gmu.edu
Website: cos.gmu.edu/cds/minor-in-computational-and-data-sciences/

The minor provides an attractive option for students majoring in science, technology, engineering, or mathematics (STEM) who wish to augment their major degree program with additional courses in modeling, simulation, data science, and scientific computing. The combination of computer science, numerical methods, science, and computational and data sciences (CDS) synthesis courses will significantly enhance the practical knowledge and computational skills of the students when compared with the major field alone. Students will acquire the knowledge, skills, and techniques commonly used across scientific disciplines, which will allow them to apply their George Mason University education in a practical way in industrial, government, and academic settings. Computational and data sciences skills are highly sought after in today's marketplace.

For additional information, please contact the CDS undergraduate coordinator/advisor.

Admissions & Policies

Policies
At least 8 credits must be unique to this minor and may not be used to fulfill requirements of the student's major, concentration, or another minor or undergraduate certificate. Students must complete at least 6 credits in their minor at George Mason and achieve a minimum GPA of 2.00 in courses applied to the minor.

For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements
Total credits: 15

Students should refer to the Admissions & Policies (p. 657) tab for specific policies related to this program.

Students should note that many of the required courses have prerequisites. Nonetheless, this minor is within efficient reach of most students majoring in science, mathematics, engineering, or computer science. It is very likely that students with these backgrounds will already have the prerequisites completed.

Computational and Data Sciences, BS
Banner Code: SC-BS-CDS

Joseph Marr, Undergraduate Coordinator
Planetary Hall, Room 115
Fairfax Campus
Phone: 703-993-5017
Email: jmarr2@gmu.edu
Website: cos.gmu.edu/cds/bs-in-computational-and-data-sciences/

The aim of this degree is to provide students with technical skills and knowledge for rigorously investigating physical and social phenomena. The BS is a transformative approach that integrates science at George Mason University based on the combination of real-world computer science skills, data acquisition and analysis, scientific modeling, applied mathematics, and simulation. As an interdisciplinary STEM-designated program, this degree addresses the current central role of computation in the areas of “big data,” modeling, and simulation. Graduates of the program will possess the computational, scientific, and mathematical skills necessary for participating effectively as members of the scientific simulation and data analysis groups that are of increasing importance in the federal and public sectors, and in high technology firms. Additionally, graduates of the program will be well prepared to pursue graduate studies.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog. To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135).

The university’s writing intensive requirement for the major will be met upon successful completion of CDS 302 Scientific Data and Databases. For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 658) tab for specific policies related to this program.

Total Credits  21

Students must maintain an overall GPA of 3.00 or higher in graduate coursework and should consult with their faculty advisor to coordinate their academic goals within the modeling and simulation or data science emphases of the Computational Science, MS (p. 651).

1 GRE-general scores are waived for graduates of BS degrees from any program in the College of Science or the Volgenau School of Engineering at George Mason University.

Accelerated Master's

Computational Science, MS (p. 651) within the accelerated time frame of five years. The program requires 144 credits total, allowing students to undertake graduate coursework during their final year in the bachelor’s degree. Upon completion of this 144 credit BS/MS combined program, students are exceptionally well prepared for undertaking doctoral studies or entering the professional workforce.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog. Application information for this Accelerated Master's program can be found on the Department of Computational and Data Sciences (http://cos.gmu.edu/cds/academic-programs) website. Applicants must have an overall undergraduate GPA of at least 3.00 and have completed at least 90 credits. Additionally, applicants will have completed the following courses with a GPA of 3.00 or better:

<table>
<thead>
<tr>
<th>Code</th>

</tbody>
</table>

Total Credits  21

Students must maintain an overall GPA of 3.00 or higher in graduate coursework and should consult with their faculty advisor to coordinate their academic goals within the modeling and simulation or data science emphases of the Computational Science, MS (p. 651).

1 GRE-general scores are waived for graduates of BS degrees from any program in the College of Science or the Volgenau School of Engineering at George Mason University.

Reserve Graduate Credit

While in undergraduate status, a student may take a maximum of six graduate credits as reserve graduate credits and apply those credits to a master's program. Reserve graduate credits are not counted toward the 120 credits required in the undergraduate degree.

Data Science Graduate Certificate

Banner Code: SC-CERG-DSCI

Estela Blaisten-Barojas, Graduate Coordinator

Research Hall, Room 221
This certificate program focuses on mastering a variety of basic computational skills to manage and analyze data. The certificate is designed primarily for professionals in technical fields who seek to upgrade their expertise in data science. This program is also available as an option for prospective or currently enrolled master’s degree students.

The coursework in this program provides an accelerated introduction to concepts in modern analysis of data. Topics include computer packages, graphics, databases, data analytics, and their applications.

This certificate may be pursued on a part-time basis or full-time basis.

**Applications Courses**

The applications courses provide content from a specific scientific domain and demonstrate the utilization of techniques within its context.

- Select one from the following:
  - CSI 695 Scientific Databases
  - CSI 777 Principles of Knowledge Mining
  - CSS 692 Social Network Analysis

**Total Credits**

3

**Administration**

- A. Alonso Aguirre, Chair
- Chris Parsons, Undergraduate Director
- Joris L. van der Ham, Undergraduate Coordinator
- Al Torzilli, Graduate Director
- Sharon Bloomquist, Graduate Coordinator

Research and the development of multiple disciplines have contributed to remarkable gains in human and animal health, conservation and sustainability; however, interacting challenges as dense human populations, unstable governments, habitat loss and fragmentation, over-exploitation of wild aquatic and terrestrial animals and plants, human-wildlife conflict, invasive species, biodiversity loss, emerging infectious diseases, environmental contaminants, and climate change call for broader-based and more integrated teaching, research and intervention. The Department of Environmental Science and Policy (ESP) at George Mason University believes that addressing these challenges requires diverse knowledge and expertise in natural science, social science, and public policy. Our faculty and programs reflect the need for a transdisciplinary approach to environmental science, policy and conservation.

In addition to faculty who are involved in cutting edge research, ESP has one of the largest graduate programs in the university conducting groundbreaking studies in the environmental field. We also have an increasing number of undergraduates conducting their own individual research projects or gaining experience by helping with established studies.

The proximity of George Mason to Washington, DC, gives us a unique opportunity to partner with governmental agencies, environmental and conservation groups and environmental-focused companies. Students can be involved in practical study and training at the Smithsonian-Mason School of Conservation (http://smconservation.gmu.edu) (SMSC) and the Potomac Environmental Research Education Center (https://cos.gmu.edu/perec) (PEREC).

Research conducted in ESP ranges from terrestrial and marine mammal conservation to molecular and microbial ecology; from corporate
environmental management and policy to the environmental perceptions and practices of indigenous peoples.

**Programs**

- Conservation Biology Minor
- Conservation Studies Minor (COS)
- Environmental Policy Minor
- Environmental Science Minor
- Environmental Science and Policy, MS
- Environmental Science and Public Policy, PhD
- Environmental Science, BS
- Environmental and Sustainability Studies, BA (COS)
- Sustainability Studies Minor
- Sustainable Enterprise Minor

Department of Environmental Science and Policy also works closely with and provides administrative input to the Biology, BS (p. 624) Environmental and Conservation Biology Concentration (ESCB).

**Conservation Biology Minor**

**Banner Code:** CBIO

Joris L. van der Ham, Undergraduate Advisor

Email: jvanderh@gmu.edu
Website: esp.gmu.edu

The minor is intended for non-biology majors with an interest in wildlife and habitat conservation issues. The minor may particularly suit environmental science, environmental and sustainability studies, global and environmental change majors and Earth science majors, as well as School of Integrative Studies (p. 564) students wishing to increase their understanding and qualifications in the field of conservation biology. The minor may also be of interest to non-science majors, for example, students taking leisure studies classes with an interest in ecotourism.

**Admissions & Policies**

**Policies**

Eight credits of coursework must be unique to the minor and not counted toward the student’s major. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).
**Requirements**

**Minor Requirements**

Total credits: 19

Students should refer to the Admissions & Policies (p. 661) tab for specific policies related to this program.

Students must complete at least 19 credits with a minimum GPA of 2.00.

Many courses below have prerequisites that need to be met; see advisor for details.

**Core Biology Courses**

<table>
<thead>
<tr>
<th>Code</th>

</tr>
</tbody>
</table>

Total Credits 3-6

1 Other conservation-oriented classes may also be applicable as electives for this minor if approved by the faculty coordinator for the minor.

2 Conservation-oriented topics only.

3 3 of 6 credits count toward electives if course taken to satisfy core requirement above

**Conservation Studies Minor (COS)**

Banner Code: CNST

Joris L. van der Ham, Undergraduate Coordinator

Email: jvanderh@gmu.edu
Website: smconservation.gmu.edu

This minor is designed for undergraduate students who wish to augment their main academic program with conservation studies taught in an experiential manner. There are three, semester-long options by which students can complete the minor including ones that focus on "Conservation, Biodiversity and Society", "Wildlife Ecology and Conservation", or "Endangered Species Conservation". These semesters are grounded in natural science, and offer a collection of four to five interdisciplinary courses that combine public policy, sociology, conflict resolution, and global awareness with hands-on experience. Students are in residence at the Smithsonian Conservation Biology Institute in Front Royal, Virginia, and are taught by Mason faculty, Smithsonian scientists and practitioners.

The minor is available only to students who enroll in any of the Smithsonian Mason Semesters, semester-long residential programs held at the Smithsonian Conservation Biology Institute in Front Royal, VA. The semesters are offered jointly by the College of Humanities and Social Sciences and the College of Science under the auspices of the Smithsonian-Mason School of Conservation (http://smconservation.gmu.edu).

This is a Green Leaf program (p. 102).

**Admissions & Policies**

**Admissions**

The minor is available only to students who enroll in either of the Smithsonian Mason Semesters, semester-long residential programs held at the Smithsonian Conservation Biology Institute in Front Royal, VA.

**Policies**

Environmental Policy Minor

Banner Code: EVP

Joris L. van der Ham, Undergraduate Coordinator

Email: jvanderh@gmu.edu
Website: esp.gmu.edu

Students pursuing the Environmental Policy Minor will study aspects of human interactions with the natural world. This minor will provide students with a broad overview of ecology, the environmental consequences of human action, and conceptual and practical sustainability efforts. This includes relationships between social and biological sciences and environmental law. The minor complements majors in natural science but is also suitable for non-science majors.

This is a Green Leaf program (p. 102).

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Requirements

Minor Requirements

Total credits: 21

Students should refer to the Admissions & Policies (p. 663) tab for specific policies related to this program.

Environmental Science Minor

Banner Code: EVSC

Joris L. van der Ham, Undergraduate Coordinator

Email: jvanderh@gmu.edu
Website: esp.gmu.edu
Students pursuing the Environmental Science Minor will identify and study the interactions between organic and inorganic elements in a wide variety of ecosystems. This insight will provide students with a broad overview of the workings of the natural world and develop an increased awareness of major environmental issues affecting modern society.

The minor complements majors in natural science but is also suitable for non-science majors. This minor is not intended to be taken in conjunction with majors that focus on environmental science, including the Earth Science, BS (p. 604) (concentration in Environmental Geoscience) or the Environmental Science, BS (p. 674).

### Admissions & Policies

#### Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

### Requirements

#### Minor Requirements

Total credits: 19-23

Students should refer to the Admissions & Policies (p. 664) tab for specific policies related to this program.

#### EVPP or BIOL Sequence

Select one of the following sequences: 8-12

<table>
<thead>
<tr>
<th>Sequence</th>
<th>Course Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 110 &amp; EVPP 111</td>
<td>The Ecosphere: An Introduction to Environmental Science I (Mason Core) (p. 135) and The Ecosphere: An Introduction to Environmental Science II (Mason Core) (p. 135)</td>
</tr>
<tr>
<td>BIOL 103 &amp; BIOL 104 &amp; GEOL 101</td>
<td>Introductory Biology I (Mason Core) (p. 135) and Introductory Biology II (Mason Core) (p. 135) and Introductory Geology I (Mason Core) (p. 135)</td>
</tr>
</tbody>
</table>

Total Credits 8-12

#### Applied Ecology Course

<table>
<thead>
<tr>
<th>Course</th>
<th>Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 377 or BIOL 377</td>
<td>Applied Ecology 3</td>
</tr>
</tbody>

Total Credits 3

#### Electives

Select a minimum of 8 credits of EVPP electives, of which 4 credits must be upper level courses (p. 1501) 8

Total Credits 8

### Environmental Science and Policy, MS

Banner Code: SC-MS-EVSP

Sharon Bloomquist, Graduate Coordinator

Email: sbloomqu@gmu.edu
Website: esp.gmu.edu

This master’s program meets the increasing need for trained environmental professionals who can address the problems of land and water management, land use and urbanization, wetland loss, microbial ecology, bioremediation, conservation biology, and ecosystem preservation. These professionals will also contribute to the analysis and resolution of global problems, such as deforestation, insufficient world food supplies, acid deposition, population growth and public health, global climate change/warming, and depletion of the stratospheric ozone. Areas of specific departmental focus include ecosystems; conservation; environmental biocomplexity; molecular ecology; sustainability science; environmental policy and management; and human/environmental interactions.

Environmental problems are defined in the real world and do not necessarily conform to traditional academic disciplines. As such, solutions require creative combinations of diverse interests and subjects. Effective training requires rigorous, problem-focused interdisciplinary action in a setting in which research is an essential element supporting instruction.

This has been designated a Green Leaf program (p. 102).

#### Concentrations

The following concentrations are available in the master’s program:

- Aquatic Ecology (AQEC)
- Conservation Science and Policy (COSP)
- Earth Surface Processes and Environmental Geochemistry (ESEG)
- Environmental Biocomplexity (EVBC)
- Environmental Science and Policy (EVSP)
- Environmental Science Communication (ESCM)
- Environmental Management (EVMG)

### Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog. Additionally, information on the admission of international students can be found in the Admission of International Students (p. 68) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

#### Eligibility

Applicants should hold a bachelor’s degree from a regionally-accredited institution with a GPA of 3.00 in natural or Earth sciences, engineering,
resource planning, environmental studies, or a field that leads to an environmental focus.

Applicants should have taken at least two semesters of chemistry and three semesters of biology, including a course in ecology. Applicants who lack this coursework should contact the graduate coordinator’s office for advice. Successful completion of a two-semester sequence of introductory graduate-level environmental chemistry and biology courses can be used to satisfy the biology and chemistry prerequisites for admission. These introductory courses would be in addition to the requirements for the degree.

Application Requirements

Applicants should submit the following:

- Completed George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).
- Three letters of recommendation, including at least one from a former professor or, if not available, from someone with a PhD.
- The aptitude portion of the GRE is required. Successful applicants usually have achieved a minimum score of 235/336 (70%) for verbal and quantitative combined.
- Statement of interest indicating desired concentration, potential areas of environmental focus/research interest, interactions with potential faculty advisors, and career goals.
- Contact a potential George Mason faculty advisor (appropriate for research interests). An endorsement letter from the potential advisor must be sent to the Department of Environmental Science and Policy (p. 660)’s graduate office; the availability of an advisor in the student’s area of interest is a prerequisite for admission.

1 This endorsement letter is not required for students in the Environmental Management Concentration.

Policies

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Course Selections

Some program requirements may be fulfilled by completing courses from a variety of academic units at Mason. A student’s course selection should reflect a coherent individual program focus, which is stated and briefly described in the program of study. Course selections should also support the research component of the student’s degree program (if applicable) and should be developed in close consultation with the supervisory committee. The supervisory committee approves a coursework program (the program of study) individually for each student.

In special cases, the graduate program director may permit the substitution of an alternative course in place of a required one.

Supervisory Committee

Students must form a supervisory committee and submit a program of study to the graduate coordinator for approval within the first 9 credits of coursework or by the end of the second semester, whichever comes first.

The supervisory committee consists of the advisor and at least two other members, chosen in consultation with the advisor, and must conform to AP.6.9 Requirements for Master’s Degrees (p. 91).

Students choosing the EVMG concentration are not required to form a supervisory committee.

Requirements

Degree Requirements

Total credits: 33 or 37

Students should refer to Admissions & Policies (p. 664) for specific policies related to this program.

Students in the AQEC, COSP, ESEG, EVBC, ESCM and EVSP concentrations will complete the concentration’s requirements, the research requirement, the seminar requirement, and electives as outlined below (for a total of 33 credits).

Students in the EVMG concentration will complete the concentration’s requirements as outlined in the concentration’s section below (for a total of 37 credits).

Aquatic Ecology Concentration (AQEC)

This concentration will provide students with a well-grounded master’s in the study of aquatic environments such as lakes, streams, watersheds, and estuaries. Emphasis is placed on food webs, biogeochemical cycles, water quality, habitat characteristics, and life histories of aquatic organisms. Students will become proficient with research tools including literature review, field and laboratory methods, and analytical tools as well as applications to management issues.

Public Policy

Select from courses in environmental law, human ecology, environmental ethics, environmental conflict resolution, environmental planning, or public affairs.

Select at least 6 credits from the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 505</td>
<td>Selected Topics in Environmental Science</td>
</tr>
</tbody>
</table>
EVPP 521  Marine Conservation
EVPP 608  Introduction to Environmental Social Science 1
EVPP 619  The Challenge of Biodiversity
EVPP 623  Translating Environmental Policy into Action
EVPP 635  Environment and Society
EVPP 642  Environmental Policy
EVPP 670  Environmental Law
EVPP 675  Environmental Planning and Administration
EVPP 741  Advanced Topics in Environmental Science and Public Policy

Total Credits  6

1 Required for those with limited coursework in the social sciences. Can be included within the 6 credits.

Aquatic Methods
Select from statistics, research design, multivariate data analysis, geographic information systems, lab and field classes.

Select at least 6 credits from the following:

EVPP 555  Lab in Waterscape Ecology
EVPP 582  Estuarine and Coastal Ecology Laboratory
EVPP 615  Molecular Environmental Biology II
EVPP 647  Wetland Ecology Lab and Field
EVPP 650  Ecosystem Analysis and Modeling
EVPP 651  Multivariate Data Analysis for Ecology and Environmental Science
CLIM 512  Physical Oceanography
CSS 600  Introduction to Computational Social Science
CSS 645  Spatial Agent-Based Models of Human-Environment Interactions
GGS 653  Geographic Information Analysis
PUAD 511  Problem Solving and Data Analysis I
PUAD 612  Problem Solving and Data Analysis II
SOCI 636  Statistical Reasoning

Total Credits  6

1 Required for those without previous coursework in ecology. Can be included within the 6 credits.
2 Variable topics, may be taken more than once if the topic is different.

Conservation Science
Select at least 6 credits of conservation science courses.  6
Suggested courses include:

EVPP 518  Conservation Biology
EVPP 519  Marine Mammal Biology and Conservation
EVPP 520  Marine Mammal Biology and Conservation Field Course
EVPP 543  Tropical Ecosystems
EVPP 550  Waterscape Ecology and Management
EVPP 607  Fundamentals of Ecology 1
EVPP 621  Overview of Biodiversity Conservation
CONS 630  Species Monitoring Conservation 2

Total Credits  6

1 Required for those with limited coursework in the social sciences. Can be included within the 6 credits.
2 Variable topics, may be taken more than once if the topic is different.

Conservation Policy and Human Dimensions of Conservation
Select from the following courses in conservation policy or social science courses.

Select at least 6 credits from the following:

EVPP 521  Marine Conservation
EVPP 575  Global Biodiversity Governance
EVPP 608  Introduction to Environmental Social Science 1
EVPP 622  Management of Wild Living Resources
EVPP 642  Environmental Policy
EVPP 643  Microbial Ecology
CONS 660  Effective Conservation Leadership
CONS 665  Conservation Conflict Resolution

Total Credits  6

1 Required for those with limited coursework in the social sciences. Can be included within the 6 credits.

Conservation Methods
Select at least 6 credits in relevant experimental methods, statistics, or conservation techniques courses. Suggested courses include:

EVPP 555  Lab in Waterscape Ecology
CONS 620  Spatial Ecology, Geospatial Analysis Remote Sensing for Conservation
CONS 625  Statistics for Ecology and Conservation Biology

Total Credits  6

Additional Requirements
See Additional Requirements below for details on the research requirement, the seminar requirement, and elective.

Conservation Science and Policy Concentration (COSP)
This concentration is designed to foster an interdisciplinary, research-oriented degree focusing on the conservation of threatened species and habitats, integrating biological sciences and the human dimensions of conservation practice.

Students may take courses offered by the Department of Environmental Science and Policy (p. 660) and other departments, including CONS courses which are offered through the Smithsonian Mason School of Conservation (p. 589). This unique partnership with the Smithsonian Conservation Biology Institute (https://www.si.edu/ResearchCenters/Conservation-Biology-Institute) (SCBI) in Front Royal, Virginia offers students hands-on education in cutting-edge conservation science and human dimensions through residential, intensive classes. SCBI is renowned for its conservation research and training of conservation practitioners around the world and instructors for these classes are drawn from SCBI’s conservation scientists and other experts from around the world.

Conservation Science
Select at least 6 credits of conservation science courses.  6
Suggested courses include:

EVPP 518  Conservation Biology
EVPP 519  Marine Mammal Biology and Conservation
EVPP 520  Marine Mammal Biology and Conservation Field Course
EVPP 543  Tropical Ecosystems
EVPP 550  Waterscape Ecology and Management
EVPP 607  Fundamentals of Ecology 1
EVPP 621  Overview of Biodiversity Conservation
CONS 630  Species Monitoring Conservation 2

Total Credits  6

1 Required for those without previous coursework in ecology. Can be included within the 6 credits.
2 Variable topics, may be taken more than once if the topic is different.

Conservation Policy and Human Dimensions of Conservation
Select from the following courses in conservation policy or social science courses.

Select at least 6 credits from the following:

EVPP 521  Marine Conservation
EVPP 575  Global Biodiversity Governance
EVPP 608  Introduction to Environmental Social Science 1
EVPP 622  Management of Wild Living Resources
EVPP 642  Environmental Policy
EVPP 643  Microbial Ecology
CONS 660  Effective Conservation Leadership
CONS 665  Conservation Conflict Resolution

Total Credits  6

1 Required for those with limited coursework in the social sciences. Can be included within the 6 credits.
Additional Requirements
See Additional Requirements below for details on the research requirement, the seminar requirement, and electives.

Earth Surface Processes and Environmental Geochemistry Concentration (ESEG)
This concentration offers a specific research focus in the Earth science area and is designed for students desiring a master’s with an Earth science geology theme.

Natural Sciences
Of the required 16 credits, select at least one course from each of the following areas: soils science, hydrogeology, and geochemistry (totaling 10 of the 16 required credits).

Select 16 credits from the following:

Environmental Biocomplexity Concentration (EVBC)
This concentration is designed for students desiring a master’s with an environmental biocomplexity theme encompassing the disciplines of population genetics, microbial ecology, and/or molecular systematics.

Students are encouraged to complete at least 1 credit of directed studies (EVPP 693 Directed Studies in Environmental Science and Public Policy) as a laboratory rotation to enhance their mastery of experimental techniques.

Natural Sciences
Select from the following courses in courses that can be drawn from offerings in ecology, biogeochemistry, biochemistry, population genetics, molecular biology, molecular systematics, molecular evolution, microbial ecology, microbial diversity, quantitative genetics, and population biology.

Select at least 6 credits from the following:

<table>

**Environmental Science and Policy Concentration (EVSP)**
The environmental science and policy concentration is the largest within the master's and serves as a home for a broad array of research foci. It encourages an independent and creative approach to the development of curricula that reside in the general field of environmental science and policy.

The concentration's requirements may be fulfilled by completing courses from a variety of academic units at Mason.

**Natural Sciences**
Select from the following courses in biology, geology, geography, chemistry, or environmental engineering.

Select at least 6 credits from the following:

---
EVPP 519  Marine Mammal Biology and Conservation
EVPP 520  Marine Mammal Biology and Conservation Field Course
EVPP 521  Marine Conservation
EVPP 608  Introduction to Environmental Social Science
EVPP 619  The Challenge of Biodiversity
EVPP 621  Overview of Biodiversity Conservation
EVPP 622  Management of Wild Living Resources
EVPP 623  Translating Environmental Policy into Action
EVPP 635  Environment and Society
EVPP 642  Environmental Policy
EVPP 643  Microbial Ecology
EVPP 670  Environmental Law

1 Required for those with limited coursework in the social sciences. Can be included within the 6 credits.

Methods and Statistics
Select from the following courses in statistics, remote sensing, information systems, instrumental analysis, or modeling. A course in statistics is highly recommended.

Select at least 6 credits from the following: 6
EVPP 503  Field Mapping Techniques
EVPP 505  Selected Topics in Environmental Science
EVPP 524  Introduction to Environmental and Resource Economics
EVPP 531  Land-use Modeling Techniques and Applications
EVPP 615  Molecular Environmental Biology II
EVPP 632  Qualitative Research Methods for Environmental Scientists
EVPP 650  Ecosystem Analysis and Modeling
EVPP 651  Multivariate Data Analysis for Ecology and Environmental Science
EVPP 745  Environmental Toxicology
GGS 560  Quantitative Methods
GGS 653  Geographic Information Analysis
GGS 756  Physical Principles of Remote Sensing
SOCI 631  Survey Research

Additional Requirements
See Additional Requirements below for details on the research requirement, the seminar requirement, and electives.

Environmental Science Communication Concentration (ESCM)
A key to environmental action and behavior change is an ability to communicate environmental science and policy. This concentration is for students desiring an master’s degree with an interdisciplinary approach to communicating environmental issues and solutions.

Environmental Science
Select 6 credits from EVPP graduate courses, suggestions include:

EVPP 521  Marine Conservation
EVPP 543  Tropical Ecosystems
EVPP 607  Fundamentals of Ecology 1
EVPP 621  Overview of Biodiversity Conservation
EVPP 641  Environmental Science and Public Policy
EVPP 677  Applied Ecology and Ecosystem Management

Total Credits 6
1 Required for those without previous coursework in ecology. Can be included within the 6 credits.

Science Communication
EVPP 529  Environmental Science Communication 3
COMM 639  Science Communication 3
Select 6 credits of science communication courses; suggestion include, but are not limited to:
COMM 637  Risk Communication
COMM 640  Controversies in Science Communication
COMM 641  Advanced Communication Skills for STEM
COMM 642  Science and the Public
COMM 644  Analysis and Criticism of Science Journalism
COMM 660  Climate Change and Sustainability Communication Campaigns
COMM 735  Crisis Communication

Total Credits 12

Research Methods
Select 6 credits of courses in relevant experimental methods, statistics, or communication techniques. Suggested courses include, but are not limited to:
EVPP 631  Spatial Agent-based Models of Human-Environment Interactions
EVPP 683  Environmental Conflict Resolution: Situation Assessment, Process Design and Best Practices
COMM 725  Qualitative Methods
COMM 775  Media Content Analysis
PUAD 511  Problem Solving and Data Analysis I
PUAD 613  Economic Analysis in Public Administration
SOCI 620  Methods and Logic of Social Inquiry
SOCI 631  Survey Research
SOCI 634  Qualitative Research Methods
SOCI 636  Statistical Reasoning

Total Credits 6

Additional Requirements
See Additional Requirements below for details on the research requirement, the seminar requirement, and electives.
Additional Requirements for the Concentrations: AQEC, COSP, ESEG, EVBC, ESCM, EVSP

Students choosing the EVMG concentration are not required to fulfill these additional requirements; the EVMG requirements are listed below.

Research Requirement
The research requirement may be satisfied in one of two ways: a research project or a formal thesis.

The depth and sophistication of the research differs between the two options. The thesis normally involves original research with independent acquisition and interpretation of data, with the goal of peer-reviewed publication. Projects are generally less extensive and can include a broader range of activities.

Project Option
Students fulfilling the research requirement with the project option register for EVPP 798 Master’s Research Project in Environmental Science and Public Policy and are required to take a comprehensive examination covering knowledge mastered throughout the program of study. This examination includes both a written and an oral component and is administered by the student’s supervisory committee.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 798</td>
<td>Master’s Research Project in Environmental</td>
<td>1-3</td>
</tr>
<tr>
<td></td>
<td>Science and Public Policy (at least 1 credit)</td>
<td></td>
</tr>
<tr>
<td>Total</td>
<td>Credits</td>
<td>1-3</td>
</tr>
</tbody>
</table>

Thesis Option
Students fulfilling the research requirement with the thesis option register for EVPP 799 Master’s Thesis in Environmental Science and Public Policy, present their results in a public seminar, and defend their thesis before their supervisory committee. Students will be graded pass/no credit on the research requirement.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 799</td>
<td>Master’s Thesis in Environmental Science and</td>
<td>1-6</td>
</tr>
<tr>
<td></td>
<td>Public Policy (at least 3 credits)</td>
<td></td>
</tr>
<tr>
<td>Total</td>
<td>Credits</td>
<td>1-6</td>
</tr>
</tbody>
</table>

Seminar Requirement
An appropriate course topic must be taken in order to fulfill this requirement.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 692</td>
<td>Master’s Seminar in Environmental Science and</td>
<td>1</td>
</tr>
<tr>
<td></td>
<td>Public Policy (at least 1 credit)</td>
<td></td>
</tr>
<tr>
<td>Total</td>
<td>Credits</td>
<td>1</td>
</tr>
</tbody>
</table>

Electives
If necessary, students take additional electives to bring the degree total to 33 credits. These courses must be approved by the student’s supervisory committee and outlined on the student’s program of study.

Environmental Management Concentration (EVMG)
This concentration combines the managerial and administrative skills developed in a traditional master of public administration degree program with the scientific knowledge and understanding normally found in a master of science degree. It serves as a terminal professional master’s degree for individuals working in or aspiring to work as managers in the environmental field in government or private industry.

Students in this concentration have the graduate program director as their advisor upon admission. Full-time students can complete this degree in three semesters; part-time students can take six semesters. The requirements are as follows:

<table>
<thead>
<tr>
<th>Core Courses</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 638</td>
<td>3</td>
</tr>
<tr>
<td>EVPP 641</td>

Total Credits: 37
Accelerated Master’s

Bachelor's Degree (Green Leaf)/Environmental Science and Policy, Accelerated MS

Overview
This degree option allows highly qualified George Mason University students to earn an Environmental Science and Policy, MS (p. 664) in less time than if they had first graduated with an environmentally-focused Green Leaf-designated (p. 102) BA or BS degree and then applied to the MS program sequentially.

Admission Requirements
Students with an overall GPA of at least 3.20 who are pursuing any Green Leaf-designated (p. 102) major or minor may apply for provisional acceptance into this accelerated master’s program after completing two semesters of chemistry (including CHEM 211 General Chemistry I (Mason Core) (p. 135) and CHEM 212 General Chemistry II (Mason Core) (p. 135)) and three semesters of biology, including a course in ecology, or the equivalent, for example:

</tbody>
</table>

By the beginning of the undergraduate’s senior year, they should first submit a Graduate Application for Accelerated Master’s Program form (obtained from the Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us)). Secondly, in their senior year accelerated master’s students must complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in a Green Leaf-designated (p. 102) program, in the semester indicated in the application, they must additionally submit the Bachelor’s/Accelerated Master’s Transition form (found on the Office of the University Registrar website (http://registrar.gmu.edu/forms)) and will subsequently be admitted into graduate status.

By at least the beginning of their senior year, they should seek out a faculty member in the Department of Environmental Science and Policy (p. 661) who is willing to serve as their advisor (unless the student is planning to enroll in the MS concentration in Environmental Management). This advisor will aid the student in choosing the
appropriate graduate courses to take and help to prepare the student for graduate studies. Admission into a research-oriented master’s concentration is dependent upon securing the agreement of a faculty advisor. Faculty from a variety of departments and colleges at George Mason (called “program faculty”) can serve as master’s advisors. Potential students are encouraged to speak with the graduate program coordinator in the department to obtain guidance on this issue.

Application Requirements
Applicants to all graduate programs at Mason must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog, excluding the GRE exam requirement (which is not required for those enrolled in the accelerated program). This includes three letters of recommendation (at least one from a former professor or someone with a PhD), a recent resume, a statement of interest/research goals and interests (including information on the candidate’s proposed MS research), and a letter from their advisor stating that the advisor agrees to take on the candidate as an MS student, how the candidate would be a good fit for them and why candidate’s research topic would be suitable (please note that a letter of endorsement from an advisor not necessary for candidates taking the Environmental Management concentration).

For information specific to the accelerated Environmental Science and Policy, MS (p. 664), see Graduate Admissions on the department’s website (http://esp.gmu.edu/academic-programs/graduate/admissions).

Reserve Graduate Credits
Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 6 credits of appropriate environmentally-focused graduate coursework may be used in partial satisfaction of the requirements for the undergraduate degree. If students earn at least a 3.00 GPA in these classes, they are granted advanced standing in the master’s program and must then complete an additional 27-31 credits to receive the master’s degree.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition form found on the Office of the University Registrar website (http://registrar.gmu.edu/forms) (as noted above).

Students may take up to 6 additional environmentally-focused graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree but will reduce the subsequent master’s degree credits accordingly (e.g., with 6 credits counted towards undergraduate degree plus the maximum 6 reserve credits, an MS could be completed with 21 post-bachelor’s credits). The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department.

Environmental Science and Public Policy, PhD

Banner Code: SC-PHD-EVPP
Sharon Bloomquist, Graduate Coordinator
Email: sbloomqu@gmu.edu
Website: esp.gmu.edu

Our graduates contribute to the solution of complex environmental problems, which require the development of knowledge and skills in the collection, analysis, and interpretation of scientific data, as well as in the integration of scientific understanding into the public policy process.

This interdisciplinary program draws on faculty and expertise from the Department of Environmental Science and Policy’s core faculty, as well as faculty from across the university. This includes the Department of Biology (p. 617), the Department of Atmospheric, Oceanic and Earth Sciences (p. 599), the School of Systems Biology (p. 748), the Department of Chemistry and Biochemistry (p. 636), the Department of Economics (p. 335), the Department of Geography and Geoinformation Science (p. 687), and the Department of Sociology and Anthropology (p. 482), as well as the Schar School of Policy and Government (p. 906), the School of Integrative Studies (p. 564), the Volgenau School of Engineering (p. 953), and the College of Education and Human Development (p. 154) in addition to others.

This has been designated a Green Leaf program (p. 102).

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog. Additionally, information on the admission of international students can be found in the Admission of International Students (p. 68) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Eligibility and Application Requirements
Applicants should have a bachelor’s degree with an overall GPA of at least 3.00. They should have taken at least two semesters of chemistry and three semesters of biology, including a course in ecology.

Applicants should submit the following:

• Scores on the aptitude portion of GRE.
• Three letters of recommendation, with at least two from individuals with doctorates.
• Current résumé.
• Substantial statement of interest that includes a description of the specific area of proposed dissertation research, the potential focus (environmental science or environmental public policy), contacts that have been made with potential faculty advisors, and an explanation of career and research goals.
• Letter of endorsement from a prospective advisor to include how your research interests coincide with that of your advisor.

All students must obtain the consent of a faculty member willing to serve as an advisor prior to being fully admitted to the program. Admission decisions are based on the student’s qualifications and the availability of a faculty advisor. An advisor may be changed by mutual consent of student and advisor, or petition to the graduate program director and the associate dean for student affairs in the College of Science (p. 593). Applicants with questions should contact the ESP Graduate Programs Office (703-993-3187).
Science, Ecology, and Social Science Background

Science Background
Applicants who lack college-level coursework in biology and chemistry (two semesters of each) will be expected to complete a two semester sequence of introductory graduate-level environmental chemistry and biology courses as follows:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 506</td>
<td>Science of the Environment I</td>
<td>3</td>
</tr>
<tr>
<td>EVPP 507</td>
<td>Science of the Environment II</td>
<td>3</td>
</tr>
<tr>
<td><strong>Total Credits</strong></td>
<td></td>
<td><strong>6</strong></td>
</tr>
</tbody>
</table>

These introductory courses will add six credits to the degree's requirements but cannot be added to the graduate program of study.

Ecology Background
Students without previous coursework in general ecology will be required to take the following introductory course, which may be included in the graduate program of study.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 607</td>
<td>Fundamentals of Ecology</td>
<td>3</td>
</tr>
</tbody>
</table>

Social Science Background
Students with little previous coursework in the social sciences will be required to take the following introductory course, which may be included in the graduate program of study.

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 608</td>
<td>Introduction to Environmental Social Science</td>
<td>3</td>
</tr>
</tbody>
</table>

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Reduction of Credits
For students entering the doctoral program with a master's degree in an academically related field from a regionally-accredited institution, the number of required credits may be reduced up to 30 credits, subject to approval of the program faculty and the college's associate dean for student affairs. See AP.6.5.2 Reduction of Credits (p. 88) for more information.

Requirements

Degree Requirements
Total credits: 72

Students should refer to the Admissions & Policies (p. 672) tab for specific policies related to this program.

Doctoral Coursework
Students are required to complete a coursework proposal by the end of their second semester. The coursework proposal must be approved by the student's advisor and the graduate program director. In keeping with the general philosophy inherent in a PhD degree, students adopt an individual program that focuses on a specific area of research. The student's coursework must provide the knowledge base from which an original research project in their specific areas of interest can be successfully completed.

Natural Sciences
Select at least 12 credits in biology, chemistry, environmental science, geology, geography, or environmental engineering

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Name</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EVPP 606</td>
<td>Scientific and Environmental Research</td>
<td>12</td>

Dissertation Committee
Before the end of the fourth semester of coursework, in consultation with their advisor, the student forms a dissertation committee of at least four members. Three of the committee members must be from the Mason graduate faculty. The fourth member may be from Mason or may be from outside the university provided that they hold a terminal degree in an appropriate field. The dissertation committee must be approved by the college's associate dean for student affairs.
Program of Study
After reviewing the student’s coursework proposal, progress to date, and area of research, the committee makes final recommendations concerning coursework that will be codified in the program of study to be signed by all committee members and the graduate program director. Students are advised to work closely with their advisor and committee to develop the coursework program in order to facilitate the process of course selection. During the duration of graduate study, a student must meet with the full dissertation committee at least once a year.

Qualifying Exams
On completion of all or nearly all coursework, students may request to take the qualifying or candidacy exam. The qualifying exam has both written and oral components. The written portion consists of questions submitted by each member of the dissertation committee. Successful completion of the written exam should be followed by the oral portion within one month. The qualifying exam may be repeated once at the discretion of the student’s committee.

Advancement to Candidacy
Upon approval of the program of study, completion of all or nearly all coursework, successful completion of the qualifying exam, and the approval of the dissertation proposal by the dissertation committee, the student is recommended for advancement to candidacy by the graduate program director. Students must advance to candidacy within five years of admission to the program.

Dissertation Research
Students must complete a dissertation. This may be accomplished by taking EVPP 999 Doctoral Dissertation Research alone, or in combination with EVPP 998 Doctoral Dissertation Proposal. However, at least six of these credits must be taken as EVPP 999 Doctoral Dissertation Research. Students working on dissertation research must register for a minimum of 3 credits of EVPP 999 Doctoral Dissertation Research per semester (excluding summers) until they have completed the minimum number of dissertation research credits. Then, they must register for 1 credit of EVPP 999 Doctoral Dissertation Research until the dissertation is complete and has been officially submitted to the library.

The dissertation is an original written work, demonstrating mastery of subject matter, methodologies, and conceptual foundations on a specific problem in the general field of environmental science and public policy. The dissertation generally involves collection and analysis of original data or the substantially new analysis and reinterpretation of existing data.

Select 12-24 credits from the following: 12-24

Total Credits 12-24

Dissertation Research and Defense
Before students may enroll in EVPP 999 Doctoral Dissertation Research, they must have advanced to candidacy and have a dissertation proposal approved by the dissertation committee, graduate program director, department chairperson, and the dean of the College of Science. Students must present the completed dissertation in a public seminar and defend the work before the dissertation committee and others who wish to attend. Awarding of the degree is contingent on approval of the dissertation by the dissertation committee, graduate program director, department chairperson, and the dean of the College of Science. The dissertation and defense must be completed a total of nine years from the date of first enrollment in the doctoral program.

Environmental Science, BS
Banner Code: SC-BS-EVSC

Joris L. van der Ham, Undergraduate Coordinator
Email: jvanderh@gmu.edu
Website: esp.gmu.edu

The Environmental Science, BS provides students with rigorous training in the fundamental science of the environment, and in the application of the key scientific principles to the analysis of environmental processes and problems and to the development of practical responses to those problems. The program covers ecological systems, environmental policy and the fundamental techniques of environmental science and engineering, protection and improvement of environmental quality, and public and private decision-making processes. Graduates of the program are prepared to undertake careers in a variety of environmental science fields, and are also qualified to pursue advanced scientific/professional education.

This is a Green Leaf program (p. 102).

Concentrations
Students select a concentration in:

- Conservation
- Ecological Science
- Environmental Health
- Human and Ecosystem Response to Climate Change
- Marine, Estuarine and Freshwater Ecology

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies
Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135).

Students can fulfill the writing intensive requirement for this major by taking EVPP 337 Environmental Policy Making in Developing Countries.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).
## Requirements

### Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 674) tab for specific policies related to this program.

### Core Requirements

All students complete the following core courses:

#### Environmental Science

<table>

Mason Core and Elective Credits

In order to meet a minimum of 120 credits, this degree requires an additional 37-39 credits, which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor’s Degrees (p. 86), and elective courses. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

Mason Core

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

1 minimum 3 credits
Accelerated Master's

Bachelor's Degree (Green Leaf)/Environmental Science and Policy, Accelerated MS

Overview
This degree option allows highly qualified George Mason University students to earn an Environmental Science and Policy, MS (p. 664) in less time than if they had first graduated with an environmentally-focused Green Leaf-designated (p. 102) BA or BS degree and then applied to the MS program sequentially.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Admission Requirements
Students with an overall GPA of at least 3.20 who are pursuing any Green Leaf-designated (p. 102) major or minor may apply for provisional acceptance into this accelerated master's program after completing two semesters of chemistry (including CHEM 211 General Chemistry I (Mason Core) (p. 135) and CHEM 212 General Chemistry II (Mason Core) (p. 135)) and three semesters of biology, including a course in ecology, or the equivalent, for example:

</table>

By the beginning of the undergraduate's senior year, they should first submit a Graduate Application for Accelerated Master's Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in a Green Leaf-designated (p. 102) program, in the semester indicated in the application, they must additionally submit the Bachelor's/Accelerated Master's Transition form (found on the Office of the University Registrar website (http://registrar.gmu.edu/forms)) and will subsequently be admitted into graduate status.

By at least the beginning of their senior year, they should seek out a faculty member in the Department of Environmental Science and Policy (p. 661) who is willing to serve as their advisor (unless the student is planning to enroll in the MS concentration in Environmental Management). This advisor will aid the student in choosing the appropriate graduate courses to take and help to prepare the student for graduate studies. Admission into a research-oriented master's concentration is dependent upon securing the agreement of a faculty advisor. Faculty from a variety of departments and colleges at George Mason (called "program faculty") can serve as master's advisors. Potential students are encouraged to speak with the graduate program coordinator in the department to obtain guidance on this issue.

Application Requirements
Applicants to all graduate programs at Mason must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog, excluding the GRE exam requirement (which is not required for those enrolled in the accelerated program). This includes three letters of recommendation (at least one from a former professor or someone with a PhD), a recent resume, a statement of interest/research goals and interests (including information on the candidate's proposed MS research), and a letter from their advisor stating that the advisor agrees to take on the candidate as an MS student, how the candidate would be a good fit for them and why candidate's research topic would be suitable (please note that a letter of endorsement from an advisor not necessary for candidates taking the Environmental Management concentration).

For information specific to the accelerated Environmental Science and Policy, MS (p. 664), see Graduate Admissions on the department's website (http://esp.gmu.edu/academic-programs/graduate/admissions).

Reserve Graduate Credits
Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 6 credits of appropriate environmentally-focused graduate coursework may be used in partial satisfaction of the requirements for the undergraduate degree. If students earn at least a 3.00 GPA in these classes, they are granted advanced standing in the master's program and must then complete an additional 27-31 credits to receive the master's degree.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition form found on the Office of the University Registrar website (http://registrar.gmu.edu/forms) (as noted above).

Students may take up to 6 additional environmentally-focused graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree but will reduce the subsequent master's degree credits accordingly (e.g., with 6 credits counted towards undergraduate degree plus the maximum 6 reserve credits, an MS could be completed with 21 post-bachelor's credits). The ability to take courses for reserve
graduate credit is available to all high achieving undergraduates with the permission of the department.

**Environmental and Sustainability Studies, BA (COS)**

**Banner Code: LA-BA-EVSS**

Joris L. van der Ham, Undergraduate Coordinator

Email: jvanderh@gmu.edu
Website: esp.gmu.edu

The BA in Environmental and Sustainability Studies is a joint program between the College of Humanities and Social Sciences (p. 295) and the College of Science (p. 593).

This degree provides students with theoretical and practical knowledge of three aspects of environmental and sustainability studies: people, prosperity, and planet. In addition to required core courses, students develop more in-depth knowledge in one of six concentrations. This degree prepares students for employment and graduate study in fields related to social justice, business and public policy, and environmental protection as they relate to the environment and sustainability.

This is a Green Leaf program (p. 102).

**Admissions & Policies**

**Admissions**

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

**Policies**

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

**Requirements**

**Degree Requirements**

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 566) tab.

Of the credits required for this degree, 14 credits simultaneously fulfill core requirements for the major and Mason Core requirements, and, depending on the concentration and electives chosen, up to 9 credits may simultaneously fulfill Mason Core requirements and college BA requirements.

**Core Courses in the Major**

Core requirements may satisfy Mason Core requirements in natural science (EVPP 110 The Ecosphere: An Introduction to Environmental Science I (Mason Core) (p. 135), EVPP 111 The Ecosphere: An Introduction to Environmental Science II (Mason Core) (p. 135)) and the college BA requirement for social and behavioral science (GOVT 361 Introduction to Environmental Policy).

Total Credits: 42-43

**Concentration in the Major**

**Available Concentrations**

- Concentration in Business and Sustainability (BUSU) (p. 680)
- Concentration in Climate Change and Society (CCSO) (p. 680)
- Concentration in Conservation and Sustainability (CSUS) (p. 680)
- Concentration in Environmental Policy and Economics (EVPE) (p. 681)
- Concentration in Equity and Environmental Justice (EQEJ) (p. 681)
Concentration in Sustainable Food and Agriculture (SFG) (p. 682)

Concentration in Business and Sustainability (BUSU)
The requirements for this concentration, depending on the electives chosen, may satisfy the college BA requirement in philosophy and religious studies (PHIL 243 Global Environmental Ethics (Mason Core) (p. 135), PHIL 305 Business Ethics).

Students who have already taken and received credit for MGMT 303 Principles of Management or OM 303 Operations Management shall substitute MGMT 303 Principles of Management for MBUS 301 Managing People and Organizations in a Global Economy and OM 303 Operations Management for MBUS 306 Managing Projects and Operations. Both courses cannot be taken for credit. Students who have taken and received credit for both ACCT 203 Survey of Accounting and FNAN 303 Financial Management shall substitute the combination for MBUS 300 Accounting in a Global Economy. All three courses cannot be taken for credit.

For this concentration, students may substitute OM 211 Honors Statistical Analysis for Management for SOCI 313 Statistics for the Behavioral Sciences (Mason Core) (p. 135) (core requirement for degree). Students cannot receive credit for more than one of these.

Concentration in Environmental Policy and Economics (EVPE)
The requirements for this concentration satisfy the Mason Core requirement in social and behavioral science (ECON 104 Contemporary Macroeconomic Principles (Mason Core) (p. 135)) and, depending on the elective chosen, may fulfill the college BA requirement in non-Western culture (ECON 362 African Economic Development (Mason Core) (p. 135)).

Required Courses
Completion of these courses will satisfy the Mason Core social and behavioral science requirement.

Total Credits 8

Writing-Intensive Requirement
The university requires all students to complete at least one course designated as "writing intensive" in their major at the 300 level or above. Students majoring in environmental and sustainability studies should consult an advisor to learn how to fulfill this requirement.

Mason Core
Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

Core Requirements
Arts (p. 137) 3
Global Understanding (p. 139) 3
Literature (p. 140) 3
Natural Science (p. 141) 7
Social and Behavioral Sciences (p. 142) 3
Western Civilization/World History (p. 143) 3

Synthesis/Capstone Requirement 1
Synthesis/Capstone (p. 143) 3
Total Credits 40

1 minimum 3 credits

College Level Requirements for the BA degree
In addition to the Mason Core (p. 135) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 135) requirements or requirements for the major).

Philosophy or Religious Studies

Select 3 credits from the following: 3

PHIL (p. 1818) 1
RELI (p. 1904)

1 Note that the following courses may not be used to fulfill this requirement:
  - PHIL 323 Classical Western Political Theory
  - PHIL 324 Modern Western Political Theory
  - PHIL 327 Contemporary Western Political Theory
  - PHIL 393 Humanities College to Career
  - PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 135) and RELI 235 Religion and Literature (Mason Core) (p. 135) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 140) requirement.

Social and Behavioral Sciences

Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement) 1

ANTH (p. 1119)
CRIM (p. 1372)
ECON (p. 1413)
GOVT (p. 1588)
HIST (p. 1628) 2
LING (p. 1694)
PSYC (p. 1844)
SOCI (p. 1923)

Or choose from the following GGS courses:

GGS 101 Major World Regions (Mason Core) (p. 135)
GGS 103 Human Geography (Mason Core) (p. 135)
The two courses used to fulfill the combined college and Mason Core requirements must be from different disciplines in the social and behavioral sciences.

Foreign Language

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Intermediate-level proficiency in one foreign language, fulfilled by:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Completing a course in a foreign language numbered 202, 209, or 210 (or higher level courses taught in the language) (p. 414)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Or achieving a satisfactory score on an approved proficiency test</td>
<td></td>
</tr>
<tr>
<td></td>

1 A course used to fulfill the Mason Core global understanding (p. 139) requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

**Electives**

Any remaining credits may be completed with elective courses to bring the degree total to 120.

Total Credits 0
Accelerated Master's

Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)

Overview

Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in social justice and human rights (p. 534). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master's in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Selected Majors

Anthropology (p. 484), Environmental and Sustainability Studies (p. 566), Sociology (p. 494), English (p. 359), History (p. 384), Philosophy (p. 432), Conflict Analysis and Resolution (p. 885), Psychology (p. 448), Government and International Politics (p. 917), Integrative Studies (p. 574), and Communication (p. 305).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 66). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

Accelerated Option Requirements

While undergraduate students, accelerated master's students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master's Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Sustainability Studies Minor

Banner Code: SSTS

Joris L. van der Ham, Undergraduate Coordinator

Email: jvanderh@gmu.edu
Website: esp.gmu.edu

The core principle of sustainability is the desire to meet the basic material needs of the current generation without compromising the ability of future generations to meet their needs. In order to achieve this goal, we must recognize and address the conflicts and trade-offs involved in balancing environmental integrity, social equity, and economic stability. Such complex work necessarily involves contributions from a wide range of disciplines, and it also requires a re-examination of the relationship between human value systems and cultural practices and the associated long-term implications for the ecosystem.

This is a Green Leaf program (p. 102).

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Requirements

Minor Requirements

Total credits: 16

Students should refer to the Admissions & Policies (p. 685) tab for specific policies related to this program.

Candidates for the minor must complete coursework with a minimum GPA of 2.00.

Total Credits 8

Sustainable Enterprise Minor

Banner Code: SSTE

Joris L. van der Ham, Undergraduate Coordinator
Email: jvanderh@gmu.edu
Website: esp.gmu.edu

Sustainable enterprises are businesses that are financially prosperous and seek to benefit the environment and society. They measure success in terms of a “triple bottom line” that focuses on 3 P’s:

• Prosperity - Business profitability/value
• Planet - Ecological integrity
• People - Social equity

Sustainable enterprises balance all 3 P’s simultaneously, and view solutions to environmental and social problems as investments and business opportunities. Developing sustainable business strategies therefore requires innovation and the identification of solutions.
that frequently "leapfrog" existing products, technologies, and best management practices.

The minor emphasizes the private sector as a critical player in helping solve pressing environmental and social problems, while capitalizing on market mechanisms and competitive opportunities. Students who obtain the Sustainable Enterprise Minor will obtain a business understanding of sustainability innovation, ethical foundations, and regulatory framework to pursue private sector triple bottom line strategies.

This is a Green Leaf program (p. 102).

**Admissions & Policies**

**Policies**

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

**Requirements**

**Minor Requirements**

Total credits: 17-20

Students should refer to the Admissions & Policies (p. 687) tab for specific policies related to this program.

Students must successfully complete the following courses with a minimum GPA of 2.00.

**Core Courses**

<table>
<thead>
<tr>
<th>Course</th>

</tbody>
</table>

**Electives**

**Environmental Policy and Economics**

Select at least 3 credits from the following:

- EVPP 361 Introduction to Environmental Policy
- EVPP 362 Intermediate Environmental Policy
- EVPP 432 Energy Policy
- EVPP 490 Special Topics in Environmental Science and Policy (if the topic is applicable—consult an advisor for guidance)
- ECON 335 Environmental Economics

**Business and Innovation**

Select at least 3-4 credits from the following:

- MBUS 300 Accounting in a Global Economy
- MBUS 301 Managing People and Organizations in a Global Economy
- MBUS 305 Introduction to International Business (Mason Core) (p. 135)
- MBUS 306 Managing Projects and Operations
- PSYC 335 Psychology of Creativity and Innovation

**Social Responsibility and Ethics**

Select 3 credits from the following:

<table>
<thead>
<tr>

<td>(p. 135)</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**

9-10

**Internship**

The plan of work for this internship must be approved by the undergraduate coordinator.

Students who are currently employed may request that the internship requirement be waived on the basis of their job experience. Instead of the internship, these students will be required to complete a 3-credit independent study with the minor’s director or another faculty member. This alternative will entail independent research by applying sustainable enterprise principles and practices in an analysis of the student’s work place, and will culminate in a final project.

**Department of Geography and Geoinformation Science**

Phone: 703-993-1210
703-993-1212
Email: ggs@gmu.edu
Website: cos.gmu.edu/ggs/

Located in the heart of Fairfax, just a few miles from Washington DC, the Department of Geography and Geoinformation Science (GGS) offers an outstanding environment to study and perform cutting-edge research in remote sensing, geography, geoinformatics, earth systems science, and their various sub-disciplines.

With a variety of educational offerings, ranging from undergraduate programs to graduate certificates and M.S. and Ph.D. programs, a strong and broad research agenda, and superb name recognition within the leading agencies and companies in our field, our department is a premier choice for academic education.

**Undergraduate Programs**

The Department of Geography and Geoinformation Science offers a Geography, BA (p. 698) and Geography, BS (p. 702). Majors in both programs complete coursework in systematic and regional geography. Students in the BA choose a concentration, a minor, or a second major to complete their degree while BS students take additional courses to increase their technical and quantitative proficiency. Additionally, the department offers the GeoManagement Undergraduate Certificate (p. 693).

**Undergraduate Certificates**

The GeoManagement Undergraduate Certificate (p. 693) accommodates students who are pursuing a degree in the Department of
Geography and Geoinformation Science who also wish to acquire more knowledge on how to manage people and organizations dealing with GIS in a global economy. By understanding marketing terms, financial matters, and also having a good understanding of how to manage people, students will be well prepared to face challenges in multidisciplinary GIS-oriented environments. All courses are available online.

Minors
For students pursuing any major in the university, the department offers a Geography Minor (p. 697) (fully available online) as well as a Geographic Information Systems Minor (p. 695) (research and scholarship intensive).

Graduate Degrees
Graduate programs are distinguished by an emphasis on cutting-edge research and their applications toward solving practical problems in human and environmental realms. Degree options include three master’s degrees and one doctoral program.

Graduate Certificates
For students wishing to pursue graduate-level specialization and skill advancement in specific, focused application areas the department offers the following graduate-level certificates: Data Journalism Graduate Certificate (p. 689), Environmental GIS and Biodiversity Conservation Graduate Certificate (p. 693), Geographic Information Science Graduate Certificate (p. 694), Geographic Information Science Graduate Certificate (p. 705), and Remote Sensing and Image Processing Graduate Certificate (p. 706). Students may take these as stand-alone certificates or, under certain circumstances, pursue them concurrently with another graduate degree program. Certificate coursework may be applicable towards other graduate degree requirements. In order to follow a graduate certificate program, students must hold a bachelor’s degree from a regionally accredited institution and must apply for and be admitted into the corresponding program.

Master’s Programs
The Earth Systems Science, MS (p. 690) (offered jointly with the Department of Atmospheric, Oceanic and Earth Sciences (p. 599)) provides a global systems approach to the study of the atmosphere, hydrosphere and lithosphere. The degree emphasis is on the observation and quantitative analysis of earth systems. The Geographic and Cartographic Sciences, MS (p. 696) focuses on techniques to compile, display and analyze spatial data. The Geoinformatics and Geospatial Intelligence, MS (p. 704) focuses primarily on computational approaches that support the synthesis and analysis of diverse data types in order to identify and monitor complex events and phenomena that manifest themselves over space and time.

Earth Systems and Geoinformation Sciences, PhD
The Earth Systems and Geoinformation Sciences, PhD (p. 691) combines and extends the three scientific avenues mapped by our master’s programs to provide a thorough and interdisciplinary approach to doctoral studies.

Distance Education
While all courses and programs listed are offered in traditional face-to-face on campus teaching, the department offers select programs through fully online modules. These online programs include an online version of our Geography Minor (p. 697), the GeoManagement Undergraduate Certificate (p. 693), and an online version of the Geospatial Intelligence Graduate Certificate (p. 705).

Courses Available Online
Individual courses which are currently available online (in addition to their traditional delivery modes) are:

Requirements & Policies

Requirements

Writing-Intensive Requirement
The university requires all students to complete at least one course designated as “writing intensive” in their majors at the 300 level or above.
Students majoring in geography fulfill this requirement by successfully completing GGS 415 Seminar in Geography.

**Policies**

Students are governed by the university’s policies (p. 74).

**GGS Lab Use**

Access to GGS lab space is contingent upon active student status and registration in GGS courses. Labs are key card accessible and only authorized students may use the labs for academic work.

**Non-degree Status**

Applicants who have not been admitted to a specific graduate degree or certificate program and still wish to attend courses may apply for non-degree studies. This is intended for students who do not seek a specific degree. These students must apply for non-degree status and be admitted through a process comparable to the one followed by degree-seeking students.

While it may be possible to transfer some of the credits earned in non-degree status to a degree program, such transfers are not automatic. Non-degree students who intend to transfer their credits to a degree programs should discuss this in a timely manner with the appropriate department coordinator. Further information can be found in the Non-degree Enrollment (p. 71) section of this catalog.

**Programs**

- Data Journalism Graduate Certificate
- Earth Systems Science, MS (GGS)
- Earth Systems and Geoinformation Sciences, PhD
- Environmental GIS and Biodiversity Conservation Graduate Certificate
- GeoManagement Undergraduate Certificate
- Geographic Information Science Graduate Certificate
- Geographic Information Systems Minor
- Geographic and Cartographic Sciences, MS
- Geography Minor
- Geography, BA
- Geography, BS
- Geoinformatics and Geospatial Intelligence, MS
- Geospatial Intelligence Graduate Certificate
- Remote Sensing and Image Processing Graduate Certificate

**Data Journalism Graduate Certificate**

Banner Code: SC-CERG-DJNL

Dieter Pfoser, Program Coordinator

4400 University Drive, MSN 6C3
Fairfax, VA 22030

Phone: 703-993-1212
Email: dpfoser@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/graduate-certificate-in-data-journalism/

This certificate is designed for students and professionals wishing to advance their knowledge and careers in the emerging field of Data Journalism. Data-driven journalism is about obtaining, reporting on, curating, and publishing (storifying) data in the public interest. Maps and data infographics are some of the best ways to publish data in order to inform the public and raise awareness.

Principles of journalism, methods and tools for information visualization, social media analysis, and scientific data communication topics are visited in this program.

This certificate may be pursued on a part-time and full-time basis.

**Admissions & Policies**

**Admissions**

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

**Policies**

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Requirements**

**Certificate Requirements**

Total credits: 15

Students should refer to the Admissions & Policies (p. 689) tab for specific policies related to this program.

Phone: 703-993-1212
Email: sfuhrman@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/ms-in-earth-systems-science/

This is a shared program between the Department of Atmospheric, Oceanic, and Earth Sciences (p. 599) and the Department of Geography and Geoinformation Science (p. 687).

The program addresses the growing demand for trained professionals in the Earth sciences. The degree emphasizes a research-oriented, global systems approach to studying the Earth and its systems- the atmosphere, the hydrosphere, and the lithosphere, including their interrelationships and interactions with the biosphere. Emphasis is on the observation, measurement, and analysis of Earth’s systems.

Most student research projects and theses will relate to geologic and geographic topics, however studies of related topics in Earth science are welcome. Students completing the program are qualified to pursue careers that require knowledge of the basics of Earth systems science and the requisite tools, specifically pertaining to the area of Earth science that they choose to investigate. Students are encouraged to undertake a master’s thesis but may choose a research project. In the latter case, students must pass a comprehensive exam.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Eligibility

Applicants should have earned a BS degree in atmospheric, Earth, environmental, geological, geographical, ocean, or physical science. Previous coursework should include at least two semesters each of calculus, chemistry, and physics, and one semester of statistics. Applicants should have a minimum GPA of 3.00 in their undergraduate degree.

Application Requirements

Official transcripts from each college and graduate institution attended, a current résumé, and a goals statement are required. Applicants also need three letters of recommendation and an official report of scores obtained on the GRE-GEN. The GRE requirement for admission may be waived if the student holds a master’s degree from a regionally accredited U.S. institution. TOEFL scores are required of all international applicants.

Policies

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Requirements

Degree Requirements

Total credits: 30

Students should refer to the Admissions & Policies tab for specific policies related to this program.

Candidates must complete 10 credits of GGS courses and 10 credits of GEOL/CLIM courses toward their requirements. ("Culminating Experience" credits do not count toward this requirement).

Ruixin Yang, Program Coordinator

4400 University Drive, MSN 6C3
required credits may be reduced up to 30 credits, subject to approval of the program faculty and the associate dean for student affairs. See AP.6.5.2 Reduction of Credits (p. 88) for more information.

Secondary Program Options
Students enrolled in this doctoral program have the option of adding a secondary graduate certificate or master's program (p. 689). Depending upon the secondary program chosen, many courses may be applicable to both programs. Before adding a secondary program, students are advised to carefully review AP.6.8 Requirements for Graduate Certificate (p. 90) or AP.6.9 Requirements for Master's Degrees (p. 91) and AP.6.10 Requirements for Doctoral Degrees (p. 92). Faculty advisors should be contacted for further guidance and for secondary program suggestions.

Requirements

Degree Requirements
Total credits: 72

Students should refer to the Admissions & Policies (p. 691) tab for specific policies related to this program.

Core Courses
Students are required to take 24 credits of courses selected from the six core areas below. Of the cores, students must complete at least one course in five of the cores and two courses in at least three of those five cores.

The six core areas from which to choose these 24 credits are: 24

Electives

In consultation with the advisor, students select credits necessary to reach 72 total credits 1 19-31

1 At least half of the elective credits taken at Mason must be from GGS courses.

Dissertation Research

Students take 12-24 credits, with at least 6 credits in GGS 999 Dissertation. After reaching candidacy, students must stay continuously enrolled GGS 999 Dissertation until defending their dissertation.

Select 12-24 credits from the following: 12-24

<table>
<thead>
<tr>
<th>Course</th>
<th>Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>GGS 998</td>
<td>Dissertation Proposal</td>
</tr>
<tr>
<td>GGS 999</td>
<td>Dissertation</td>
</tr>
</tbody>
</table>

Total Credits 12-24

Dissertation Committee

All students will be assigned a temporary academic advisor when they first enroll in the program. No later than the end of the second year, each student should identify a dissertation advisor and form a doctoral committee. The committee will be chaired by a GGS tenure or tenure-track professor and be composed of at least 50% GGS faculty. All members of the committee must be Mason Graduate Faculty and approved by the department's director of academic programs.

Candidacy Examination

After completing all required courses, each student must take a candidacy exam administered by the dissertation committee. The exam will have written and oral components. Its purpose is to determine whether the student has acquired adequate general knowledge in the selected subject area, as well as much more detailed knowledge of the specific research topic planned for the dissertation.
Dissertation Proposal and Advancement to Candidacy
After students have completed all required courses and passed the candidacy exam, they should prepare an acceptable dissertation proposal. After the dissertation proposal is approved and the appropriate paperwork is completed, the student will be advanced to candidacy.

Doctoral Dissertation
The degree will be awarded upon completion of the required coursework and successful defense of a PhD dissertation that makes an original and significant contribution to the field.

Environmental GIS and Biodiversity Conservation Graduate Certificate
Banner Code: SC-CERG-EGBC
Sven Fuhrmann, Program Coordinator
4400 University Drive, MSN 6C3
Fairfax, VA 22030
Phone: 703-993-1212
Email: sfuhrman@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/graduate-certificate-in-environmental-gis-and-biodiversity-conservation/

As biodiversity is the life support system of our planet, it is important to prepare students for careers that require knowledge of both ecology and public policy. This certificate focuses in the fields of conservation biology, land use policy, conservation planning, and modern tools and approaches used in GIS to prepare students to tackle complex environmental challenges in a changing world.

This certificate is suitable for traditional students as well as for student-professionals (such as environmental scientists, managers, practitioners in government, and experts in non-governmental organizations) who wish to acquire further knowledge to advance their careers.

This certificate may be pursued on a part-time or full-time basis.

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants for this certificate should hold a BA or BS in a related discipline from a regionally accredited institution.

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Requirements

Degree Requirements
Total credits: 18
Refer to the Admissions & Policies (p. 693) for policies specific to this program.

Core Courses
Geospatial Requirements
GGS 553 Geographic Information Systems 3
or GGS 692 Web-based Geographic Information Systems
Remote Sensing Requirements
GGS 579 Remote Sensing 3
or GGS 680 Earth Image Processing
Conservation Requirements
EVPP 518 Conservation Biology 1 3
Statistics Requirements
GGS 560 Quantitative Methods 3
or CONS 625 Statistics for Ecology and Conservation Biology
Total Credits 12

1  This course may be substituted with advisor approval.

Practice-oriented Conservation Coursework
Select 6 credits from the following:

CONS 620 Spatial Ecology, Geospatial Analysis
Remote Sensing for Conservation
CONS 630 Species Monitoring Conservation
CONS 640 Adaptive Management for Conservation Success
or CONS 660 Effective Conservation Leadership
or CONS 665 Conservation Conflict Resolution
CONS 645 Estimating Animal Abundance and Occupancy
CONS 697 Special Topics in Conservation
Total Credits 6

GeoManagement Undergraduate Certificate
Banner Code: SC-CERB-GEOM

Email: sfuhrman@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/undergraduate-certificate-in-geomanagement/

Considering our global environment, professionals working on large-scale GIS projects often find it only natural to couple management and marketing topics with geography. This certificate accommodates
students who are pursuing a degree in the Department of Geography and Geoinformation Science (p. 687) who also wish to acquire more knowledge on how to manage people and organizations dealing with GIS in a global economy. By understanding marketing terms, financial matters, and also having a good understanding of how to manage people, students will be well prepared to face challenges in multidisciplinary GIS-oriented environments.

All courses are available online; further information can be found with Mason Online (http://masononline.gmu.edu).

This certificate may be pursued on a full-time or part-time basis.

Admissions & Policies

Admissions

University-wide admissions policies can be found in Undergraduate Admissions Policies (p. 63).

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Requirements

Certificate Requirements

Total credits: 24-25

Students should refer to the Admissions & Policies (p. 694) tab for specific policies related to this program.

Management

Students in this certificate can take the following MBUS courses for certificate credit without sophomore standing (listed as a course prerequisite):

Select two courses from the following:

<table>
<thead>
<tr>

Geoinformation Science

GGS 101 Major World Regions (Mason Core) (p. 135) 3
or GGS 103 Human Geography (Mason Core) (p. 135) 3

GGS 102 Physical Geography (Mason Core) (p. 135) 3
or GGS 121 Dynamic Atmosphere and Hydrosphere (Mason Core) (p. 135) 3

GGS 311 Introduction to Geographic Information Systems 3
GGS 312 Physical Climatology 3
GGS 315 Geography of the United States 3
GGS 380 Geography of Virginia 3

Total Credits 18-19

Geographic Information Science Graduate Certificate

Banner Code: SC-CERG-GISC

Dieter Pfoser, Program Coordinator

MSN 6C3
4400 University Drive
Fairfax, VA 22030

Phone: 703-993-1212
Email: dpfoser@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/graduate-certificate-in-geographic-information-sciences/

This graduate certificate prepares students for employment in federal, state, and local government positions that require GIS skills. The certificate has been found suitable for the needs of business and industry, including those corporations that serve as contractors to governments in the United States and overseas.

The Geographic Information Science Graduate Certificate may be pursued on a part-time or full-time basis.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants to this certificate program must submit a current résumé. GRE scores and letters of recommendation are not required but will strengthen an application, if available. TOEFL scores are required of all international applicants.

All applicants should have a working knowledge of, or prior education or training in, computer technology. Knowledge of GIS, remote sensing technology, and cartography are preferred. Students from any discipline are welcome to apply.

Policies

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Premium Tuition Rate

This professional certificate program charges students at a differential (premium) tuition rate. This rate applies to all students who enroll in this certificate program, regardless of in-state or out-of-state status. The
differential tuition will be used to fund continuing improvements in the departmental computational facilities used to support the certificate program.

### Geographic Information Systems Minor

Banner Code: GIS

Jonathan Kozar, Program Coordinator

4400 University Drive, MSN 6C3

Fairfax, VA 22030
Phone: 703-993-1212
Email: jkozar@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/minor-in-geographic-information-systems/

The Geographic Information Systems Minor is designed to prepare students with the basic training necessary to enter the rapidly expanding field of geographic information science. The curriculum in the minor is multidisciplinary in content and interdisciplinary in approach, drawing on a variety of geographic and computational science components. A Geographic Information System (GIS) is an integrative approach to help solving complex spatial problems in most professional fields and at different scales. GIS has irrevocably altered the way we capture, store, analyze, and visualize spatial information. Although it has its roots in cartography and the graphical display of information, its breadth spans from geographic data acquisition, geospatial database construction and management, spatial analysis, and geovisualization. Public and private sector organizations work with an overwhelming amount of spatial data in their day-to-day operations. With so much spatial information, GIS has become essential to the effective operation of both public and private organizations.

Employment opportunities are limitless for students who are proficient in this interdisciplinary field. GIS professionals work in places like government agencies, utility companies, marketing firms, non-profit organizations, and publishing companies. Federal government agencies such as NGA, FEMA, USGS, DOD, EPA, and NASA routinely recruit individuals with strong GIS backgrounds.

### Admissions & Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

### Policies

All coursework must be completed with a minimum GPA of 2.00.

### Minor Requirements

Total credits: 18-20

Students should refer to the Admissions & Policies (p. 695) tab for specific policies related to this program.

**Geographic and Cartographic Sciences, MS**

Banner Code: SC-MS-GECA

**Matt Rice, Program Coordinator**

4400 University Drive, MSN 6C3
Fairfax, VA 22030

Phone: 703-993-1212
Email: rice@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/ms-in-geographic-and-cartographic-sciences/

The Geographic and Cartographic Sciences, MS (GECA) focuses on the growing demand for scientists and professionals in the field of geographic information science, who use geographical approaches and tools such as geographic information systems (GIS), remote sensing, cartography, and geovisualization to address and solve geographic problems. This expertise is useful to a wide variety of employers in the federal, state, and local government sectors, as well as in business, industry, and non-profit organizations. The degree’s coursework concentrates on the collection, analysis, and display of geographic data, and the use of emerging geospatial technologies to address problems in the human and environmental geographic domains. The GECA program’s disciplinary domain has been recognized by the US Department of Labor as one of the three most strategic job growth areas. Students in this program benefit from a large and diverse local employment market, as well as a network of more than 700 program alumni (1978-present) who live and work in the local area.

**Research Facilities**
The Department of Geography and Geoinformation Science (p. 687) has extensive research and teaching facilities, including several labs equipped with GIS, remote sensing, cartographic, and analytical software from leading industry vendors and open source groups. Specialized instructional space for geographic information science is housed in newly renovated labs in Exploratory Hall on the Fairfax Campus.

---

**Admissions & Policies**

**Admissions**
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

**Eligibility and Application Requirements**
Applicants for this master’s should have a bachelor’s degree in geography, cartography, or a closely related field. Applicants without an undergraduate degree in geography may be required to take one course in each of the following: physical geography, human geography, and cartography. All applicants must have a course in statistics. The program also requires GRE test scores, three letters of recommendation, transcripts of all college coursework, and a statement of interest in the degree. The GRE requirement will be waived if the student holds a master’s degree from a regionally-accredited U.S. institution. TOEFL scores are required for all foreign applicants. Credit from courses taken at other departments and other universities may be applied to the program with prior approval.

**Policies**
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87)

**Secondary Program Options**
Students enrolled in this master's program have the option of adding a secondary graduate certificate program (p. 689). Depending upon the secondary program chosen, many courses may be applicable to both the certificate and the master's. Before adding a secondary program, students are advised to carefully review the Requirements for Graduate Certificates (p. 90) and the Requirements for Master’s Degrees (p. 91) in the AP.6 Graduate Policies (p. 87) section of this catalog. Faculty advisors should be contacted for further guidance and for graduate certificate program suggestions.

**Requirements**

**Degree Requirements**
Total credits: 30 or 37

Students should refer to the Admissions & Policies (p. 696) tab for specific policies related to this program.

Students must complete either 30 graduate credits (with a thesis) or 37 graduate credits (without a thesis). If the non-thesis option is selected, students are required to pass a comprehensive exam.

## Thesis or Non-thesis Options

### Thesis Option

Students selecting the thesis option must complete:

- Three credits of GGS 799 Thesis
- Select 15 credits of electives in 500 to 799-level GGS courses. Electives should be selected in consultation with an advisor. With departmental approval, up to 9 credits from closely related disciplines may be applied to the degree.

**Total Credits:** 18

### Non-thesis Option

Students selecting the non-thesis option must complete:

- GGS 700 Comprehensive Exam (1 credit)
- Select 24 credits of electives in 500 to 799-level GGS courses. Electives should be selected in consultation with an advisor. With departmental approval, up to 9 credits from closely related disciplines may be applied to the degree.

**Total Credits:** 25

## Geography Minor

**Banner Code:** GEOG

Jonathan Kozar, Program Coordinator

MSN 6C3
4400 University Drive
Fairfax, VA 22030

Phone: 703-993-1212
Email: jkozar@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/minor-in-geography/

If desired, this minor can be pursued fully online; details can be found with Mason Online (http://masononline.gmu.edu).

## Admissions & Policies

### Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Students must complete all coursework with a minimum GPA of 2.00.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

## Requirements

### Minor Requirements

**Total credits:** 18-20

Students should refer to the Admissions & Policies (p. 697) tab for specific policies related to this program.

**Total Credits:** 6

### Upper-level Electives

Students must take two upper-level GGS electives chosen in consultation with the minor coordinator (p. 1554)

**Total Credits:** 6-7
Geography, BA

Banner Code: SC-BA-GEOG

Jonathan Kozar, Program Coordinator

4400 University Drive, MSN 6C3
Fairfax, VA 22030

Phone: 703-993-1212
Email: jkozar@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/ba-in-geography/

The Geography, BA is designed to offer students the opportunity to study the integrated social and environmental processes that continuously shape and reshape the world we live in. This major provides students with broad training across the core subdisciplines of geography (human, physical, and GIScience), while also offering the requisite flexibility for those students seeking a multidisciplinary educational experience. Students will find numerous opportunities for employment in both the private and public sectors, as well as in academia, as geographers are well suited to address important local, regional, and global challenges in today's world, given their interdisciplinary approach and uniquely spatial perspective.

The Department of Geography and Geoinformation Science (p. 687) fosters a supportive, active learning environment in which students are encouraged to work closely with both faculty and peers. The curriculum in this major provides students with the synthesis skills and broad base of knowledge that prepares them to be successful in an ever-evolving job market. For students who wish to pursue their interest in geography with a more technical curriculum, the department also offers a Geography, BS (p. 702).

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 84) including the Mason Core (p. 135). As outlined in the Requirements tab, students in this bachelor’s program must also complete the additional College Requirements for the BA Degree.

GGS 415 Seminar in Geography fulfills the writing intensive requirement.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 698) tab for specific policies related to this program.

Candidates for a degree in geography must complete the approved GGS geography courses with a minimum GPA of 2.00.

Students must complete the Core, Systematic and Regional Geography, and GGS electives, then select one concentration or an additional program, and lastly complete the College Requirements for the BA Degree and the Mason Core and Elective Credits.

Core Courses

Select one from the following:

- GGS 315 Geography of the United States
- GGS 316 Geography of Latin America
- GGS 320 Geography of Europe
- GGS 325 Geography of North Africa and the Middle East
- GGS 330 Geography of the Soviet Succession States
- GGS 333 Issues in Regional Geography
- GGS 380 Geography of Virginia

Total Credits 6

GGS Electives

Select 9-10 credits of electives. ¹

Total Credits 9-10

¹ Two of the three courses must be upper-level GGS courses.

Environmental Geography Concentration (EGEO)

The Environmental Geography concentration for the BA in Geography provides a unique opportunity for majors to take a broader, integrative science approach to studies of the environment. In collaboration with the Department of Environmental Science and Policy (p. 660), BA in Geography majors have the opportunity to focus their studies on geographic approaches to climatology and global changes, environmental issues, policy matters, and sustainability topics.

Some courses may have prerequisite requirements:

Core Courses

- GGS 303 Geography of Resource Conservation (Mason Core) (p. 135)
- EVPP 336 Human Dimensions of the Environment
- EVPP 337 Environmental Policy Making in Developing Countries
- or EVPP 377 Applied Ecology

Methods Course

- GGS 354 Data Analysis and Global Change Detection Techniques
- or GGS 412 Air Photography Interpretation

Electives 6-7

Select two courses from the following:

- GGS 302 Global Environmental Hazards
- GGS 307 Sustainable Development
- GGS 309 Meteorology and Climate
- GGS 312 Physical Climatology
- GGS 314 Severe and Extreme Weather
- GGS 319 Air Pollution
- GGS 322 Issues in Global Change
- GGS 354 Data Analysis and Global Change Detection Techniques

Total Credits 15-16

¹ Course cannot be selected if previously selected as a core or methods course.

Health Geography Concentration (HGEO)

The field of Health Geography addresses the role of place, location dynamics and geography in health, well-being, and disease. Public health patterns can vary significantly by physical and social characteristics of places both within and between regions, states, or countries. In collaboration with the Department of Global and Community Health (p. 237), BA in Geography majors get introduced to local and global health issues and develop their skill set in spatial and statistical analysis of diverse health outcomes in populations.

Some courses may have prerequisite requirements:

Core Courses

- GGS 340 Health Geography
- GCH 300 Introduction to Public Health

Electives

Select 9 credits from the following courses. Choose at least one GGS elective and at least one GCH elective:

- GGS 302 Global Environmental Hazards
- GGS 303 Geography of Resource Conservation (Mason Core) (p. 135)
- GGS 304 Population Geography (Mason Core) (p. 135)
- GGS 306 Urban Geography
- GGS 319 Air Pollution
- GGS 321 Biogeography
- GGS 322 Issues in Global Change
- GGS 354 Data Analysis and Global Change Detection Techniques
- GGS 463 Applied Geographic Information Systems
- GCH 205 Global Health (Mason Core) (p. 135)
- GCH 332 Health and Disease
- GCH 360 Health and Environment
- GCH 412 Fundamentals of Epidemiology
- GCH 445 Social Determinants of Health
- GCH 450 Culture, Sexuality and the Global AIDS Epidemic

Total Credits 15

Additional Program

Students who are not selecting a concentration may choose 15 or more credits consisting of an established minor, concentration, second major, or other coherent selection of courses approved by the advisor and the department chair:
Select 15 or more credits as outlined above.  15

**Total Credits**  15

**Mason Core and Elective Credits**

In order to meet a minimum of 120 credits, this degree requires an additional 65-68 credits, which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor's Degrees (p. 86), College Requirements for the BA Degree (outlined below), and electives. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

**Mason Core**

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

1 minimum 3 credits

**College Requirements for the BA Degree**

In addition to the program requirements and the Mason Core (p. 135) requirements, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill this college-level requirement may also be used simultaneously to satisfy other requirements such as Mason Core (p. 135) requirements, other college-level requirements, or requirements for the major. In some cases, the requirements listed below may be superseded by requirements of the degree program and the Mason Core (p. 135).

**Philosophy or Religious Studies**

Select 3 credits from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL (p. 1818)</td>
<td>1</td>
<td></td>

<tr>
<td>RELI (p. 1904)</td>
<td>1</td>
<td></td>
</tr>
</tbody>
</table>

1 PHIL 323 Classical Western Political Theory and PHIL 324 Modern Western Political Theory may not be used to fulfill this requirement.

**Social and Behavioral Sciences**

Choose one approved Mason Core: Social and Behavioral Sciences (p. 142) course in addition to the Mason Core (p. 135)-required course for a total of 6 credits. The two courses used to fulfill the combined college-level and university requirements must be from different disciplines.

This requirement may be fulfilled by completing any course in ANTH (p. 1119), CRIM (p. 1372), ECON (p. 1413), GOVT (p. 1588), HIST (p. 1628)1, LING (p. 1694), PSYC (p. 1844), or SOCI (p. 1923), and the following GGS (p. 1554) courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

Non-Western Culture

Students may be eligible for a waiver of this requirement if they are already proficient in a second language or if they have received a satisfactory score on an approved proficiency test. Additional information on waivers can be found via the college’s Office of Academic and Student Affairs (https://cos.gmu.edu/uaa).

Choose one approved Non-Western Culture Requirement\(^1\) course in addition to the course used to fulfill the Mason Core: Global Understanding (p. 139) requirement. A course used to fulfill the Mason Core: Global Understanding (p. 139) requirement may not be simultaneously used to satisfy this college-level requirement. However, a course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core (p. 135) requirements, college-level requirements, or requirements for the major).

Select 3 credits from approved Non-Western Culture courses if a waiver isn’t applicable:

The Geography, BS is designed to offer students the opportunity to study the integrated social and environmental processes that continuously shape and reshape the world we live in. This major provides students with broad training across the core subdisciplines of geography (human, physical, and GIScience), emphasizing application and technique-driven coursework, in addition to a rigorous science and mathematics curriculum. Students will find numerous opportunities for employment in both the private and public sectors, as well as in academia, as geographers are well suited to address important local, regional, and global challenges in today's world, given their interdisciplinary approach and uniquely spatial perspective.

The Department of Geography and Geoinformation Science fosters a supportive, active learning environment in which students are encouraged to work closely with both faculty and peers. The curriculum in this major provides students with the analytical, technical, and practical training that prepares them to be successful in an ever-evolving job market. For students who wish to pursue their interest in geography via a more flexible degree program, the department also offers a Geography, BA (p. 698).

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).
### Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 84) including the Mason Core (p. 135).

GGS 415 Seminar in Geography fulfills the writing intensive requirement.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

---

### Requirements

#### Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 702) tab for specific policies related to this program.

#### Geography

Candidates for the Geography, BS degree must complete the following Core, Breadth and Experience, and Geography Elective courses with a minimum GPA of 2.00:

<table>
<thead>
<tr>
<th>Core Courses</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GGS 102</td>
<td>Physical Geography (Mason Core) (p. 135) 3-4</td>
</tr>
<tr>

**Geoinformatics and Geospatial Intelligence, MS**

Banner Code: SC-MS-GEOI

Arie Croitoru, Program Coordinator

4400 University Drive, MSN 6C3
Fairfax, VA 22030

Phone: 703-993-1212
Email: acroitor@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/ms-in-geoinformatics-and-geospatial-intelligence/

The program addresses the emerging demand for scientists trained in the collection, organization, analysis, and dissemination of information about physical features, man-made structures, moving objects, people, and events that are geo-referenced or geo-located. This program focuses primarily on the computational approaches that support the synthesis and analysis of diverse types of data in order to identify and monitor complex events and phenomena that manifest over space and time. While geospatial intelligence has a strong Department of Defense connotation, the principles behind it have a significant dual use potential, addressing the needs of a broader audience, ranging for example from intelligent navigation in urban spaces to emergency response systems for natural and man-made disasters.

The MS is designed to expose students to fundamental theoretical principles and practical applications involving:

- Geographic Information Science
- Digital image analysis as it applies to geoinformatics and geospatial intelligence
- Computational principles for geoinformatics and intelligence

**Admissions & Policies**

**Admissions**

University-wide admissions policies can be found in Graduate Admissions Policies (p. 66).

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

**Eligibility and Application Requirements**

Applicants for this master’s should hold a BA or BS degree in a discipline related to the program’s theme from a regionally accredited university, with a minimum GPA of 3.00, including courses in differential and integral calculus. A working knowledge of a computer programming language is a plus. When the background of an individual student does not meet the program’s requirements, remedial or preparatory courses tailored to student’s needs may be recommended. To apply, prospective students should complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now). Official transcripts from each college and graduate institution attended, a current résumé, and a goals statement will be required.

Applicants will also need three letters of recommendation and an official report of scores obtained on the GRE-GEN. The GRE requirement for admission may be waived if the student holds a master’s degree from a regionally accredited US institution. TOEFL scores are required of all international applicants.

**Policies**

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Secondary Program Options**

Students enrolled in this master’s program have the option of adding a secondary graduate certificate program. Depending upon the secondary program chosen, many courses may be applicable to both the certificate and the master’s. Before adding a secondary program, students are advised to carefully review AP.6.8 Requirements for Graduate Certificates (p. 90) and AP.6.9 Requirements for Master’s Degrees (p. 91). Faculty advisors should be contacted for further guidance and for graduate certificate program suggestions.

**Requirements**

**Degree Requirements**

Total credits: 33

Students should refer to the Admissions & Policies (p. 704) tab for specific policies related to this program.

Geospatial Intelligence Graduate Certificate

Banner Code: SC-CERG-GI

Arie Croitoru, Program Coordinator

4400 University Drive, MSN 6C3
Fairfax, VA 22030

Phone: 703-993-1212
Email: acroitor@gmu.edu
Website: https://cos.gmu.edu/ggs/academic-programs/graduate-certificate-in-geospatial-intelligence/

This graduate certificate program is for persons employed in geospatial intelligence applications (i.e., federal agency and/or corporate or association personnel) or those interested in entering this field. Our program offers fundamental knowledge on geospatial intelligence and the ability to apply this knowledge to a diverse range of constantly evolving geospatial intelligence situations. This program has been accredited by the United States Geospatial Intelligence Foundation.

The majority of courses required for this certificate are also available online. For more information visit Mason Online (http://masononline.gmu.edu).

The graduate certificate in geospatial intelligence may be pursued on a part-time or full-time basis, and qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/Geospatial_Intelligence/Gedt.html).

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

Applicants to this graduate certificate program should hold a BA or BS degree in a discipline related to the certificate’s theme from a regionally-accredited university with a minimum GPA of 3.00. To apply, prospective students should complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now). In addition, applicants to this certificate program must submit a current résumé, GRE scores. Letters of recommendation are not required but will considerably strengthen an application, if available. TOEFL scores are required of all international applicants.

Applicants should have undergraduate backgrounds that include courses in differential and integral calculus, and they should possess working knowledge of a computer programming language. Depending on the background of the individual student, the coordinator may recommend remedial or preparatory courses tailored to the student’s needs.

Policies

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Premium Tuition Rate

This professional certificate program charges students at a differential (premium) tuition rate. This rate applies to all students who enroll in this certificate program, regardless of in-state or out-of-state status. The differential tuition will be used to fund continuing improvements in the departmental computational facilities used to support the certificate program.

Transfer of Credit

Students may transfer no more than 3 credits into the certificate program with the approval of the academic director.

Requirements

Certificate Requirements

Total credits: 18
Students should refer to the Admissions & Policies (p. 705) tab for specific policies related to this program.

**Core Courses**
The mandatory core courses reflect the three key science emphases areas of this program, namely geospatial image analysis, spatial analysis, and information technology:

- **GGS 553** Geographic Information Systems 3
- **GGS 680** Earth Image Processing 3
- **GGS 684** Selected Topics in Geospatial Intelligence 3
- **GGS 685** Capstone Course in Geoinformatics 3

Select one from the following: 3

- **GGS 650** Introduction to GIS Algorithms and Programming
- **GGS 664** Spatial Data Structures
- **GGS 692** Web-based Geographic Information Systems

**Total Credits** 15

**Elective**
Select one additional elective course from the following: 3

- **GGS 563** Advanced Geographic Information Systems
- **GGS 579** Remote Sensing
- **GGS 631** Spatial Agent-Based Models of Human-Environment Interactions
- **GGS 650** Introduction to GIS Algorithms and Programming
- **GGS 658** Terrain Mapping
- **GGS 664** Spatial Data Structures
- **GGS 671** Algorithms and Modeling in GIS
- **GGS 675** Location Science
- **GGS 692** Web-based Geographic Information Systems
- **GGS 740** Hyperspectral Imaging Systems
- **GGS 772** Cloud Geographic Information Systems
- **GGS 787** Scientific Data Mining for Geoinformatics

**Total Credits** 3

**Remote Sensing and Image Processing Graduate Certificate**

**Banner Code:** SC-CERG-RSIP

**Donglian Sun, Program Coordinator**

MSN 6C3
4400 University Drive
Fairfax, VA 22030

Phone: 703-993-1212
Email: dsun@gmu.edu
Website: cos.gmu.edu/ggs/academic-programs/graduate-certificate-in-remote-sensing-and-image-processing/

This certificate program focuses on the skills needed to take advantage of the enormous increase in the availability and use of remotely sensed data related to the Earth. The program requires students to complete 15 credits of GGS graduate courses. Ideal candidates for this certificate are those who have a background in Earth and environmental sciences and are working in or planning to enter into the field of remote sensing, Earth observing, or image processing.

The Remote Sensing and Image Processing Graduate Certificate may be pursued on a part-time or full-time basis.

**Admissions & Policies**

**Admissions**

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants to this certificate program must submit a current résumé. TOEFL scores are required of all international applicants who do not hold at least a bachelor’s degree from a regionally-accredited institution within the US (some exceptions apply).

Applicants should hold a BA or BS degree in a discipline related to the science and applications of remote sensing from a regionally accredited university, with a minimum GPA of 3.00. Applicants should have some prior education or training in remote sensing or image processing. Students with a background in one of the physical sciences (physics, chemistry, atmospheric science, hydrology, or geology), geography, or environmental science will be particularly well-suited to undertake this program. Applicants should have an undergraduate background that includes courses in differential and integral calculus, and they should possess working knowledge of a computer programming language.

**Policies**

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Premium Tuition Rate**

This professional certificate program charges students at a differential (premium) tuition rate. This rate applies to all students who enroll in this certificate program, regardless of in-state or out-of-state status. The differential tuition will be used to fund continuing improvements in the departmental computational facilities used to support the certificate program.

**Requirements**

**Certificate Requirements**

Total credits: 15

**Core Courses**

- **GGS 579** Remote Sensing 3
GGS 680  Earth Image Processing  3
GGS 740  Hyperspectral Imaging Systems  3

Total Credits 9

Electives
Select two electives from the following: 6

GGS 562  Photogrammetry
GGS 754  Earth Science Data and Advanced Data Analysis
GGS 756  Physical Principles of Remote Sensing
GGS 760  Advanced Topics in Remote Sensing
GGS 840  Hyperspectral Imaging Applications

Total Credits 6

Department of Mathematical Sciences

Phone: 703-993-1460
Email: dwalnut@gmu.edu
Website: math.gmu.edu

Administration

• David Walnut, Chair
• David Singman, Associate Chair
• Daniel Anderson, Undergraduate Coordinator
• Flavia Colonna, Graduate Coordinator

The Department of Mathematical Sciences offers undergraduate and graduate degree programs in mathematics for students with various interests and career goals. Students may pursue the standard program, or a program focused on actuarial mathematics, applied mathematics, mathematics education or mathematical statistics. Students may complement other interests by taking a double major in mathematics and a related field, such as chemistry, economics, physics, computer science, or engineering.

Graduating seniors are required to have an exit interview.

Math Tutoring Center

The department manages the Math Tutoring Center (http://math.gmu.edu/tutor-center.php?_ga=1.265621830.873783809.1452007880), which offers free tutoring for first- and second-year math courses. Tutoring is given by advanced mathematics students and is available on a drop-in basis with daytime and evening hours throughout the term.

Math Learning Center

For a fee, the Math Learning Center (http://math.gmu.edu/math-learning-center.php) offers self-paced and classroom noncredit tutorial programs for students who do not place into the math course they need. Special tutors and tutorial software are available to those enrolled in the program. Successful completion of the relevant program enables students to enroll in MATH 105 Precalculus Mathematics, MATH 108 Introductory Calculus with Business Applications (Mason Core) (p. 135), MATH 110 Introductory Probability (Mason Core) (p. 135), MATH 111 Linear Mathematical Modeling (Mason Core) (p. 135), or MATH 125 Discrete Mathematics I (Mason Core) (p. 135).

Certificate in College Teaching

A student enrolled in the Mathematics, MS (p. 721) or Mathematics, PhD (p. 723) who is primarily interested in pursuing a career in undergraduate education at the college level is encouraged to consider enrolling in the College Teaching Graduate Certificate (p. 525) offered through the College of Humanities and Social Sciences (p. 295). Credit can be earned for HE 685 Practicum by working one semester as a graduate teaching assistant in the Department of Mathematical Sciences (p. 707).

Faculty

Department Faculty

Professors
Alligood, Anderson (undergraduate coordinator), Colonna (graduate coordinator), Goldin, Kulesza, Lawrence, Morris, Sachs, Sander, Saperstone, Sauer (COS distinguished scholar), Seshaiyer, Singman (associate chair), Soltan, Walnut (chair), Wanner

Associate Professors
Agnarsson, Emelianenko, Griva, Lamba, Lawton, Zoltek

Assistant Professors
Antil, Carchedi, Epstein, Holzer, Manon

Term Assistant Professors
De la Pena, Eckley, Fernandez, Fox, Nelson

Term Instructors
Boyette, Bulancea, Crossin, Gilbert, Granfield, Sausville

Affiliates
Nash

Emeriti
Cabell, Kiley, Levy, Lin, Shapiro

Admissions & Policies

Policies

Writing-Intensive Requirement
Mason policy requires all students to complete at least one course designated as “writing intensive” in their major. Students majoring in mathematics fulfill this requirement by successfully completing MATH 290 Introduction to Advanced Mathematics.

Teacher Licensure
Students who wish to become teachers should consult the College of Education and Human Development (p. 154) section of this catalog and attend an information session early in their undergraduate career. For more information, visit the Graduate School of Education (http://gse.gmu.edu).
Information on Undergraduate MATH Courses

For Mathematics Majors
The following cannot be used as substitutes for any requirements of the major in mathematics:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 104</td>
<td>Trigonometry and Transcendental Functions</td>
<td>2</td>
</tr>
<tr>
<td>MATH 105</td>
<td>Precalculus Mathematics</td>
<td>4</td>
</tr>
<tr>
<td>MATH 106</td>
<td>Quantitative Reasoning (Mason Core)</td>
<td>3</td>
</tr>
<tr>
<td>MATH 108</td>
<td>Introductory Calculus with Business Applications (Mason Core)</td>
<td>3</td>
</tr>
<tr>
<td>MATH 110</td>
<td>Introductory Probability (Mason Core)</td>
<td>3</td>
</tr>
<tr>
<td>MATH 111</td>
<td>Linear Mathematical Modeling (Mason Core)</td>
<td>3</td>
</tr>
<tr>
<td>MATH 112</td>
<td>Discrete Mathematics for IT</td>
<td>3</td>
</tr>
<tr>
<td>MATH 271</td>
<td>Mathematics for the Elementary School Teachers I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 272</td>
<td>Mathematics for the Elementary School Teachers II</td>
<td>3</td>
</tr>
</tbody>
</table>

For Non-mathematics Majors

- MATH 108 Introductory Calculus with Business Applications (Mason Core) (p. 135), MATH 110 Introductory Probability (Mason Core) (p. 135), and MATH 111 Linear Mathematical Modeling (Mason Core) (p. 135) are designed for students in the social and behavioral sciences.

- Liberal arts majors are advised to take MATH 106 Quantitative Reasoning (Mason Core) (p. 135), MATH 110 Introductory Probability (Mason Core) (p. 135), or MATH 111 Linear Mathematical Modeling (Mason Core) (p. 135).

- Students in the natural sciences who plan to do graduate work are advised to add courses from:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Units</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 313</td>
<td>Introduction to Applied Analysis</td>
<td>3</td>
</tr>
<tr>
<td>MATH 314</td>
<td>Introduction to Applied Mathematics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 351</td>
<td>Probability</td>
<td>3</td>
</tr>
<tr>
<td>MATH 352</td>
<td>Statistics</td>
<td>3</td>
</tr>
<tr>
<td>MATH 441</td>
<td>Deterministic Operations Research</td>
<td>3</td>
</tr>
<tr>
<td>MATH 442</td>
<td>Stochastic Operations Research</td>
<td>3</td>
</tr>
<tr>
<td>MATH 446</td>
<td>Numerical Analysis I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 447</td>
<td>Numerical Analysis II</td>
<td>3</td>
</tr>
</tbody>
</table>

For Both Mathematics and Non-mathematics Majors

- MATH 104 Trigonometry and Transcendental Functions, MATH 105 Precalculus Mathematics, MATH 108 Introductory Calculus with Business Applications (Mason Core) (p. 135), MATH 112 Discrete Mathematics for IT, MATH 113 Analytic Geometry and Calculus I (Mason Core) (p. 135), MATH 125 Discrete Mathematics I (Mason Core) (p. 135) have a qualifying score on the Math Placement Test (http://math.gmu.edu/placement_test.php) as a prerequisite. The Math Placement Test (http://math.gmu.edu/placement_test.php) is given frequently; for the schedule, inquire at the department office or check the Department of Mathematical Sciences website (http://math.gmu.edu).

- The sequence MATH 123 Calculus with Algebra/Trigonometry, Part A and MATH 124 Calculus with Algebra/Trigonometry, Part B (Mason Core) (p. 135) is an option for students who need MATH 113 Analytic Geometry and Calculus I (Mason Core) (p. 135) but believe they are not prepared for that course. In these two 3-credit courses, students will learn fundamental algebra and calculus so that upon completion of the sequence, students will be prepared for MATH 114 Analytic Geometry and Calculus II.

- Students who do not achieve the necessary test score needed to take a math course may go to the Math Learning Center (http://math.gmu.edu/math-learning-center.php), or they may study and retake the test on their own. A student who does not complete the relevant program in the Math Learning Center (http://math.gmu.edu/math-learning-center.php) or does not achieve the necessary score on the Math Placement Test (http://math.gmu.edu/placement_test.php) will not be able to enroll in the class. Depending on their test scores, students who do not place into MATH 113 Analytic Geometry and Calculus I (Mason Core) (p. 135) will be advised to take MATH 104 Trigonometry and Transcendental Functions or MATH 105 Precalculus Mathematics or visit the Math Learning Center (http://math.gmu.edu/math-learning-center.php) to prepare for MATH 105 Precalculus Mathematics.

- MATH 104 Trigonometry and Transcendental Functions and MATH 105 Precalculus Mathematics do not fulfill the Mason Core (p. 135) ‘Quantitative Reasoning’ requirement.

- Students may not receive credit for both MATH 214 Elementary Differential Equations and MATH 216 Theory of Differential Equations; both MATH 213 Analytic Geometry and Calculus III and MATH 215 Analytic Geometry and Calculus III (Honors); both MATH 351 Probability and STAT 344 Probability and Statistics for Engineers and Scientists I; and both MATH 352 Statistics and STAT 354 Probability and Statistics for Engineers and Scientists II.

- After receiving a grade of ‘C’ or better in one of the courses listed below on the left, students may not receive credit for the corresponding course on the right:

<table>

Actuarial Sciences Graduate Certificate

Banner Code: SC-CERG-ACTS

Douglas Eckley
The Actuarial Sciences Graduate Certificate is designed to serve students and professionals in the Washington, D.C. area who are interested in pursuing careers as actuaries. The course content provides students with specific training related to the following exams:

- Society of Actuaries (SOA) Exam FM (formerly Course 2)
- SOA Exam MLC (formerly Course 3)
- SOA Exam C (formerly Course 4)
- VEE for applied statistics (formerly part of Course 4)
- Exam EA-1 and EA-2A (for those pursuing EA designation from the U.S. Treasury)

The courses also provide a solid foundation for the corresponding Casualty Actuary Society (CAS) exams. Preparation for the first exam is equivalent to meeting the prerequisites for the certificate courses in the area of probability and statistics.

The Actuarial Sciences Graduate Certificate may only be pursued on a part-time basis.

### Admissions & Policies

#### Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Interested applicants must submit three letters of recommendation. GRE scores are not required.

Students intending to pursue the Actuarial Sciences Graduate Certificate must have three semesters of calculus, a course in linear algebra (equivalent to MATH 203 Linear Algebra), a calculus-based course in probability (equivalent to MATH 351 Probability), and statistics (equivalent to MATH 352 Statistics). Completion of the SOA Exam P is also sufficient preparation for the certificate program.

#### Policies

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

### Requirements

#### Certificate Requirements

Total credits: 18

Students should refer to the Admissions & Policies (p. 709) tab for specific policies related to this certificate.

### Core Courses

<table>
<thead>
<tr>

</tr>
<tr>
<td></td>
<td>Any other elective approved by the graduate committee and chosen in consultation with advisor.</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Total Credits</td>
<td>6</td>
</tr>
</tbody>
</table>

### Preparation for the SOA, CAS, and EA Exams

The graduate certificate coursework provides preparation for SOA, CAS, and EA exams as follows:

- MATH 551 Regression and Time Series is the SOA VEE for Applied Statistics and is preparation for part of the CAS Exam 3
- MATH 554 Financial Mathematics covers most of the SOA Exam FM material as well as CAS Exam 2 and much of the EA-1 exam
- MATH 555 Actuarial Modeling I and MATH 556 Actuarial Modeling II cover all of the Exam MLC material and most of the CAS Exam 3L as well as the remainder of the EA-1 exam
- MATH 557 Financial Derivatives covers all of the SOA EXAM MFE material
- MATH 653 Construction and Evaluation of Actuarial Models I and MATH 654 Construction and Evaluation of Actuarial Models II covers all of the SOA Exam C material as well as CAS Exam 4
- MATH 655 Pension Valuation covers all of the EA-2A Exam material

### Counting Actuarial Courses for Other Mathematics Degrees

A student enrolled in the Actuarial Sciences Graduate Certificate and another graduate degree program in mathematics can count actuarial mathematics courses toward the master’s or doctoral degree according to the following rules:

- None of the following actuarial mathematics courses can count toward the Mathematics, PhD (p. 723):
  - MATH 551 Regression and Time Series 3
  - MATH 554 Financial Mathematics 3
  - MATH 555 Actuarial Modeling I 3
  - MATH 556 Actuarial Modeling II 3
  - MATH 557 Financial Derivatives 3
  - MATH 653 Construction and Evaluation of Actuarial Models I 3
  - MATH 654 Construction and Evaluation of Actuarial Models II 3

Mathematics, BA

Banner Code: SC-BA-MATH

Academic Advising

Exploratory Hall, Room 4411
Fairfax Campus

Phone: 703-993-1482
Email: danders1@gmu.edu
Website: math.gmu.edu/degree-programs.php

Students may select an optional concentration in mathematics education; students who do not select this concentration study traditional mathematics.

Teacher Licensure

Students who wish to become teachers and plan to seek teacher licensure should consider the following options:

- Secondary Education – Mathematics (6-12) Undergraduate Certificate (p. 205)
- Mathematics, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Mathematics concentration) (p. 715)

Interested students should attend an information session early in their undergraduate career. For more information, visit the Graduate School of Education's website (http://gse.gmu.edu).

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135). As outlined in the Requirements tab, students in this bachelor’s program must also complete the additional College Requirements for the BA Degree.

MATH 290 Introduction to Advanced Mathematics meets the writing intensive requirement for this major.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Course Recommendations and Policies

Students intending to enter graduate school in mathematics are strongly advised to take MATH 315 Advanced Calculus I and MATH 321 Abstract Algebra.

Students may not receive credit for both MATH 214 Elementary Differential Equations and MATH 216 Theory of Differential Equations; both MATH 213 Analytic Geometry and Calculus III and MATH 215 Analytic Geometry and Calculus III (Honors); both MATH 351 Probability and STAT 344 Probability and Statistics for Engineers and Scientists I; and both MATH 352 Statistics and STAT 354 Probability and Statistics for Engineers and Scientists II.

After receiving a grade of ‘C’ or better in one of the courses listed below on the left, students may not receive credit for the corresponding course on the right:

<table>
<thead>
<tr>
<th>Course</th>
<th>May Not Receive Credit for</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 113 or MATH 123</td>
<td>MATH 105 or MATH 108</td>
</tr>
<tr>
<td>MATH 351 or STAT 344</td>
<td>MATH 110</td>
</tr>
<tr>
<td>MATH 441</td>
<td>MATH 111</td>
</tr>
<tr>
<td>MATH 125</td>
<td>MATH 112</td>
</tr>
</tbody>
</table>

Requirements

Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 711) tab for specific policies related to this program.

A maximum of 6 credits of grades below 2.00 in coursework designated MATH may be applied toward the major.

Students may select an optional concentration in mathematics education; students who do not select this concentration study traditional mathematics.

Total Credits: 33

Mason Core and Elective Credits

In order to meet a minimum of 120 credits, this degree requires additional credits (specific credit counts by concentration are shown below), which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor's Degrees (p. 86), College Requirements for the BA Degree (outlined below), and elective courses.

Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

- Without concentration: 82 credits
- With concentration: 61 credits

Mason Core

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

<table>

College Requirements for the BA Degree

In addition to the program requirements and the Mason Core (p. 135) requirements, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill this college-level requirement may also be used simultaneously to satisfy other requirements such as Mason Core (p. 135) requirements, other college-level requirements, or requirements for the major. In some cases, the requirements listed below may be superseded by requirements of the degree program and the Mason Core (p. 135).

Philosophy or Religious Studies

</tbody>
</table>

1. PHIL 323 Classical Western Political Theory and PHIL 324 Modern Western Political Theory may not be used to fulfill this requirement.

Social and Behavioral Sciences

Choose one approved Mason Core: Social and Behavioral Sciences (p. 142) course in addition to the Mason Core (p. 135) required course for a total of 6 credits. The two courses used to fulfill the combined college-level and university requirements must be from different disciplines.

This requirement may be fulfilled by completing any course in ANTH (p. 1119), CRIM (p. 1372), ECON (p. 1413), GOVT (p. 1588), HIST...
Select any course from the disciplines above or select from the following GGS courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tbody>
</table>

Total Credits: 3

1 HIST 100 History of Western Civilization (Mason Core) (p. 135) and HIST 125 Introduction to World History (Mason Core) (p. 135) may not be used to fulfill this requirement.

**Natural Science**

Choose one credit in addition to the Mason Core: Natural Science (p. 141) requirement for a total of 8 credits. This combined college-level and university requirement must be fulfilled by completing two of any approved Mason Core: Natural Science (p. 141) courses that include a laboratory experience. 

Select an additional Mason Core Natural Science course

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
</table>

1 BIOL 124 Human Anatomy and Physiology and BIOL 125 Human Anatomy and Physiology may not be used to fulfill this requirement.

**Foreign Language**

Intermediate-level proficiency in one foreign language is required. This requirement may be fulfilled by completing a course in a foreign language numbered 202, 209, or 210 (or higher-level courses taught in the language).

Select a foreign language course numbered 202, 209, 210, or higher if a waiver isn’t applicable

1 Students may be eligible for a waiver of this requirement if they are already proficient in a second language or if they have received a satisfactory score on an approved proficiency test. Additional information on waivers can be found via the college’s Office of Academic and Student Affairs (https://cos.gmu.edu/uaa).

**Non-Western Culture**

Choose one approved Non-Western Culture Requirement course in addition to the course used to fulfill the Mason Core: Global Understanding (p. 139) requirement. A course used to fulfill the Mason Core: Global Understanding (p. 139) requirement may not be simultaneously used to satisfy this college-level requirement. However, a course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core (p. 135) requirements, college-level requirements, or requirements for the major).

Select 3 credits from approved Non-Western Culture courses if a waiver isn’t applicable:

</table>
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admission Policies (p. 66). For information specific to this accelerated master’s program, see AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 89) for policies related to this program.

Successful applicants will have an overall undergraduate GPA of at least 3.00. Additionally, they will have completed the following courses with a GPA of 3.00 or higher: MATH 315 Advanced Calculus I, MATH 321 Abstract Algebra, and MATH 322 Advanced Linear Algebra.

Accelerated Option Requirements

At the beginning of the student’s final undergraduate semester, students must submit a bachelor’s/accelerated master’s transition form (available from the Office of the University Registrar (http://registrar.gmu.edu)) to the College of Science’s Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). Students must begin their master’s program in the semester immediately following conferral of the bachelor’s degree.

Students must maintain an overall GPA of 3.00 or higher in graduate coursework.

Reserve Graduate Credit

While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate credits do not apply to the undergraduate degree. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

Mathematics, BA or BS/Curriculum and Instruction, Accelerated MEd, (Secondary Education Mathematics concentration)

Overview

Highly-qualified undergraduates may be admitted to the bachelor’s/accelerated master’s program and obtain a BA (p. 711) or BS in Mathematics (p. 716) and an MEd in Curriculum and Instruction (p. 161) (concentration in secondary education mathematics) in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 89) for policies related to this program.

This accelerated option is offered jointly by the Department of Mathematical Sciences (p. 707) and the Graduate School of Education (p. 155). Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admission Policies (p. 66). Application information for this accelerated master’s program can be found on the Department of Mathematical Sciences website (http://math.gmu.edu).

Accelerated Option Requirements

Students complete the following courses in their senior year:

**Honors in the Major**

Eligibility

Mathematics majors who have maintained a GPA of at least 3.50 in mathematics courses and a GPA of 3.50 in all courses taken at George Mason University may apply to the departmental honors program upon completion of two MATH courses at the 300+ level (excluding MATH 400 History of Math (Topic Varies) (Mason Core) (p. 135)), at least one of which has MATH 290 Introduction to Advanced Mathematics as a prerequisite. Admission to the program will be monitored by the undergraduate committee.

Honors Requirements

To graduate with honors in mathematics, a student is required to maintain a minimum GPA of 3.50 in mathematics courses and successfully complete MATH 405 Honors Thesis in Mathematics I and MATH 406 RS: Honors Thesis in Mathematics II with an average GPA of at least 3.50 in these two courses.

Accelerated Master’s

Mathematics, BA or BS/Mathematics, Accelerated MS

Overview

This degree program allows academically strong Mathematics, BA (p. 711) and Mathematics, BS (p. 716) students to obtain their bachelor’s and a Mathematics, MS (p. 721) by successfully completing 144 credits. Well-prepared students may be admitted to this program after the completion of 90 undergraduate credits. Upon completion and conferral of the bachelor’s degree and with satisfactory graduate-level performance (3.00 GPA) in graduate courses, students are given advanced standing in the Mathematics, MS (p. 721) program and complete an additional 24 credits to receive the master’s degree.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admission Policies (p. 66). Application

Total Credits 12

Alternative course options are available for students who begin their program in the spring. Students should contact the coordinator for the Bachelor’s/Accelerated Master’s Degree program in the College of Education and Human Development.

While undergraduate students, accelerated master’s students are able to apply two of the courses listed above to both the bachelor’s and master’s degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Mathematics, BS

Banner Code: SC-BS-MATH

Academic Advising

Exploratory Hall, Room 4411
Fairfax Campus

Phone: 703-993-1482
Email: danders1@gmu.edu
Website: math.gmu.edu/degree-programs.php

Students may select an optional concentration in Actuarial Mathematics (ACTM), Applied Mathematics (AMT), Mathematics Education (MTHE) or Mathematical Statistics (MTHS). Students who do not select a concentration study traditional mathematics.

Teacher Licensure

Students who wish to become teachers and plan to seek teacher licensure should consider the following options:

- Secondary Education – Mathematics (6-12) Undergraduate Certificate (p. 205)
- Mathematics, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Mathematics concentration) (p. 719)

Interested students should attend an information session early in their undergraduate career. For more information, visit the Graduate School of Education’s website (http://gse.gmu.edu).

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135).

MATH 290 Introduction to Advanced Mathematics meets the writing intensive requirement for this major.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Language Proficiency

The department recommends proficiency in French, German, or Russian.

Course Recommendations and Policies

A maximum of 6 credits of grades below 2.00 in coursework designated MATH may be applied toward the major.

Students intending to enter graduate school in mathematics are strongly advised to take MATH 315 Advanced Calculus I and MATH 321 Abstract Algebra.

Students may not receive credit for both MATH 214 Elementary Differential Equations and MATH 216 Theory of Differential Equations; both MATH 213 Analytic Geometry and Calculus III and MATH 215 Analytic Geometry and Calculus III (Honors); both MATH 351 Probability and STAT 344 Probability and Statistics for Engineers and Scientists I; and both MATH 352 Statistics and STAT 354 Probability and Statistics for Engineers and Scientists II.

After receiving a grade of ‘C’ or better in one of the courses listed below on the left, students may not receive credit for the corresponding course on the right:

<table>
<thead>

<td>MATH 112</td>
</tr>
</tbody>
</table>

Requirements

Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 716) tab for specific policies related to this program.

In addition to the mathematics core, science, and computational skills requirements, students may select an optional concentration in Actuarial
Mathematics (ACTM), Applied Mathematics (AMT), Mathematics Education (MTHE) or Mathematical Statistics (MTHS).

**Mathematics Core**

Select one 3-credit MATH course numbered above 300 (p. 1717) 3

**Additional Science Courses**
Select additional science credits from one of the following three options:
- A second sequence from the choices under "Science" above
- 6 credits from more advanced courses in chemistry, geology, or physics
- The 4-credit option of PHYS 262 and PHYS 263

Total Credits 43-47

---

**Mason Core and Elective Credits**
In order to meet a minimum of 120 credits, this degree requires additional credits (specific credit counts by concentration are shown below), which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor's Degrees (p. 86), and elective courses. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

- Without concentration: 53-57 credits
- ACTM concentration: 49 credits
- AMT concentration: 53-57 credits
- MTHS concentration: 50-54 credits
- MTHE concentration: 38-42 credits
**Mason Core**

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

Honors

**Honors in the Major**

**Eligibility**
Mathematics majors who have maintained a GPA of at least 3.50 in mathematics courses and a GPA of 3.50 in all courses taken at George Mason University may apply to the departmental honors program upon completion of two MATH courses at the 300+ level (excluding MATH 400 History of Math (Topic Varies) (Mason Core) (p. 135)), at least one of which has MATH 290 Introduction to Advanced Mathematics as a prerequisite. Admission to the program will be monitored by the undergraduate committee.

**Honors Requirements**
To graduate with honors in mathematics, a student is required to maintain a minimum GPA of 3.50 in mathematics courses and successfully complete MATH 405 Honors Thesis in Mathematics I and MATH 406 RS: Honors Thesis in Mathematics II with an average GPA of at least 3.50 in these two courses.

**Accelerated Master's**

**Mathematics, BA or BS/Mathematics, Accelerated MS**

**Overview**
This degree program allows academically strong Mathematics, BA (p. 711) and Mathematics, BS (p. 716) students to obtain their bachelor’s and a Mathematics, MS (p. 721) by successfully completing 144 credits. Well-prepared students may be admitted to this program after the completion of 90 undergraduate credits. Upon completion and conferral of the bachelor’s degree and with satisfactory graduate-level performance (3.00 GPA) in graduate courses, students are given (p. 161) (concentration in secondary education mathematics) in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 89) for policies related to this program.

This accelerated option is offered jointly by the Department of Mathematical Sciences (p. 707) and the Graduate School of Education (p. 155).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 66). For information specific to this accelerated master’s program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

**Accelerated Option Requirements**

Total Credits 12

Alternative course options are available for students who begin their program in the spring. Students should contact the coordinator for the Bachelor’s/Accelerated Master’s Degree program in the College of Education and Human Development.

While undergraduate students, accelerated master’s students are able to apply two of the courses listed above to both the bachelor’s and master’s degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.
advanced standing in the Mathematics, MS (p. 721) program and complete an additional 24 credits to receive the master’s degree.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admission Policies (p. 66). Application information for this accelerated master’s program can be found on the Department of Mathematical Sciences website (http://math.gmu.edu).

Successful applicants will have an overall undergraduate GPA of at least 3.00. Additionally, they will have completed the following courses with a GPA of 3.00 or higher: MATH 315 Advanced Calculus I, MATH 321 Abstract Algebra, and MATH 322 Advanced Linear Algebra.

**Accelerated Option Requirements**

At the beginning of the student’s final undergraduate semester, students must submit a bachelor’s/accelerated master’s transition form (available from the Office of the University Registrar (http://registrar.gmu.edu)) to the College of Science’s Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). Students must begin their master’s program in the semester immediately following conferral of the bachelor’s degree.

Students must maintain an overall GPA of 3.00 or higher in graduate coursework.

**Reserve Graduate Credit**

While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate credits do not apply to the undergraduate degree. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**BS (selected)/Statistical Science, Accelerated MS**

**Overview**

Highly-qualified students in selected BS programs (see below) have the option of obtaining an accelerated Statistical Science, MS (p. 1064). Students in an accelerated degree program must fulfill all university requirements for the master’s degree.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Admission Requirements**

Students enrolled in a BS degree in any one of the Volgenau School (p. 953) major areas, in the Mathematics, BS (p. 716) program from the College of Science (p. 593), or in the Economics, BS (p. 342) program from the College of Humanities and Social Sciences (p. 295) may apply to this option if they have earned 90 undergraduate credits with an overall GPA of 3.00. Criteria for admission are identical to criteria for admission to the Statistical Science, MS (p. 1064) program, which include successful completion of the following Mason courses each with a grade of C or better:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 113</td>
<td>Analytic Geometry and Calculus I (Mason Core)</td>
<td>4</td>

</tr>
<tr>
<td>STAT 346</td>
<td>Probability for Engineers</td>
<td>3</td>
</tr>
<tr>
<td>or MATH 351</td>
<td>Probability</td>
<td></td>
</tr>
</tbody>
</table>

**Accelerated Option Requirements**

Students must complete all credits that satisfy requirements for the BS and MS programs, with 6 credits overlapping with grades of B or better in two 500-level STAT courses selected from STAT 544 Applied Probability, STAT 554 Applied Statistics I, and STAT 574 Survey Sampling I.

**Degree Conferral**

Students must apply the semester before they expect to complete the BS requirements to have the BS degree conferred. In addition, at the beginning of the student’s final undergraduate semester, students must complete a Bachelor’s/Accelerated Master’s Transition form that is submitted to the Office of the University Registrar and Graduate Recruitment and Enrollment Services. At the completion of MS requirements, a master’s degree is conferred.

**BS (selected)/Data Analytics Engineering, Accelerated MS**

**Overview**

Qualified undergraduate students have the option of obtaining an accelerated Data Analytics Engineering, MS (p. 959) with a concentration in predictive analytics.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Admission Requirements**

While no specific undergraduate degree is required, Mason undergraduate students majoring in systems engineering or any other engineering, business, computer science, statistics, mathematics, or information technology may apply to this option if they have earned 90 undergraduate credits with an overall GPA of at least 3.30.

For the predictive analytics concentration, students must submit evidence of:

- Satisfactory completion of courses in calculus, applied probability and statistics, and a scientific programming language.
- Familiarity with analytical modeling software, such as spreadsheets or math packages.

**Accelerated Option Requirements**

Students must complete all credits that satisfy requirements for the BS and MS programs, with six credits overlap chosen from the courses in the following table. For BS candidates, these graduate courses replace the
corresponding undergraduate courses listed. The undergraduate version of these courses may not be applied toward the MS degree.

<table>
<thead>
<tr>
<th>Undergraduate</th>
<th>Graduate</th>
</tr>
</thead>
<tbody>
<tr>
<td>SYST 473</td>
<td>SYST 573</td>
</tr>
<tr>
<td>OR 441</td>
<td>OR 541</td>
</tr>
</tbody>
</table>

Credit may not be received for both courses.

For the predictive analytics concentration, any other 500-level course may be applied to both the undergraduate and graduate degrees with approval of the advisor and SEOR department chair.

OR 541 Operations Research: Deterministic Models will substitute for the OR 531 Analytics and Decision Analysis core requirement in the MS DAE program.

Degree Conferral
Students must apply the semester before they expect to complete the BS requirements to have the BS degree conferred. In addition, at the beginning of the student’s final undergraduate semester, students must complete a Bachelor’s/Accelerated Master’s Transition form that is submitted to the Office of the University Registrar and the VSE Graduate Admissions Office. At the completion of MS requirements, a master’s degree is conferred.

Mathematics, MS
Banner Code: SC-MS-MATH

Flavia Colonna, Graduate Coordinator
Exploratory Hall, Room 4215
Fairfax Campus
Phone: 703-993-1465
Email: fcolonna@gmu.edu
Website: math.gmu.edu/graduate/ms-in-mathematics.php

Pure and applied mathematics courses lead to this degree.

Assistantships
A limited number of merit-based teaching assistantships are available for students taking at least 6 graduate credits each semester. Other sources of support, such as research assistantships, are available as funding permits. Graduate students also have the opportunity to work in the Math Tutoring Center (http://math.gmu.edu/tutor-center.php) and the Math Learning Center (http://math.gmu.edu/math-learning-center.php).

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants interested in this program must submit three letters of recommendation. GRE scores are not required.

Students must have taken an upper-division course in advanced calculus (equivalent to MATH 315 Advanced Calculus I), an abstract algebra course (equivalent to MATH 321 Abstract Algebra) and an upper-division course in linear algebra (equivalent to MATH 322 Advanced Linear Algebra). Students should have some computer knowledge.

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

MATH 500 through MATH 614 cannot be used for credit, with the exception of MATH 555 Actuarial Modeling I and MATH 556 Actuarial Modeling II.

Requirements

Degree Requirements
Total credits: 30

Students should refer to the Admissions & Policies (p. 721) tab for specific policies related to this program.

Coursework

Required Courses
MATH 675 Linear Analysis 3

Coursework Options
Select three from the following: 9
- MATH 621 Algebra I
- MATH 631 Topology I: Topology of Metric Spaces
- MATH 677 Ordinary Differential Equations
- MATH 685 Numerical Analysis

Additional Approved Coursework
Select four approved graduate courses, at least two of which are MATH courses. 1 12

Total Credits 24

1. All four courses must be approved by the student’s advisor. Courses not listed as MATH courses must be approved by the graduate committee. Different rules apply if the student wishes to count graduate actuarial courses toward his or her degree (consult the graduate coordinator).

Research and Creative Component

A student may fulfill the research and creative component in one of three ways: Thesis Option (p. 721), Paper Presentation Option (p. 722), or Preliminary Exams for the PhD (p. 722).

Select one of the Research and Creative Component options 6 outlined below

Total Credits 6

Thesis Option

In preparation for this option, the student must form a committee comprising a chair and two other faculty members. The chair and at
least one other member must be from the Department of Mathematical Sciences (p. 707), one member may be from a related field.

The student completes a thesis under the direction of the committee chair. The thesis work is typically completed while students are registered for 6 credits of MATH 799 MS Thesis. A thesis proposal and thesis are submitted in accordance with AP.6 Graduate Policies (p. 87). The student must give an oral defense of the thesis to the committee and the George Mason community at large. Students are expected to respond to questions on the thesis and related material. The committee determines whether the defense is satisfactory.

<table>
<thead>
<tr>
<th>Thesis Option</th>

<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>MATH 799</td>
<td>MS Thesis</td>
<td>6</td>
</tr>
</tbody>
</table>

Total Credits: 6

**Paper Presentation Option**

In preparation for this option, the student must form a committee comprising a chair and two other faculty members. The chair and at least one other member must be from the Department of Mathematical Sciences (p. 707), one member may be from a related field. The student gives an oral presentation of a paper (or series of papers or book chapter) chosen in consultation with the chair of the committee and approved by the full committee. The chosen material must be distinct from work completed in fulfillment of course requirements. The oral presentation is given to the committee and the Mason community at large. Students are expected to respond to questions on the paper and related material. The committee determines whether the defense is satisfactory.

Select 6 additional credits of electives | 6

Total Credits: 6

**Preliminary Exams for the PhD**

The research and creative component can also be fulfilled by passing three preliminary written examinations, as required for the Mathematics, PhD (p. 723) degree.

**Dual Degree Options**

Mathematics and Statistical Science Dual-Degree MS

This program allows students to earn an MS in Mathematics (p. 721) and an MS in (p. 1064) Statistical Science (p. 1064) by completing 48 credits of coursework in both areas instead of the 60 that would be required if the degrees were sought independently.

**Admission Requirements**

Applicants must satisfy admission requirements for both the MS in Mathematics (p. 721) and the MS in Statistical Science (p. 1064) programs. A joint faculty committee from the Department of Mathematical Sciences (p. 707) and the Department of Statistics (p. 1060) make final admission decisions into the dual-degree program.

**MS-MATH/STAT Dual-Degree Requirements**

Total credits: 48

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 621</td>
<td>Algebra I</td>
<td>3</td>
</tr>
<tr>
<td>MATH 675</td>
<td>Linear Analysis</td>
<td>3</td>
</tr>
</tbody>
</table>

**Electives**

Select 12 elective credits in MATH courses numbered 615 or higher (p. 1717)

Select any STAT courses numbered 540-775 (p. 1968)

Total Credits: 24

**Notes:**

- Students in either the BS/Accelerated MS in Mathematics (p. 722) program or the BS(selected)/Accelerated MS in Statistical Science (p. 1067) program cannot get a reduction of 6 credits toward this dual degree. Students who want to proceed to a PhD degree will only be able to waive the number of credits specified in the associated PhD degree requirements, even though they will have 48 credits at the MS level.

- If a student decides not to complete the required 48 credits, a single MS degree will not be granted unless the student fulfills the requirements for either the MS in Mathematics (p. 721) or the MS in Statistical Science (p. 1064).

- Once a student receives one of the MS degrees from either department, the student will no longer be eligible for the reduction in credit (i.e., will need to complete 30 credits) if the student later decides to earn the other MS degree.

**Accelerated Master's**

Mathematics, BA or BS/Mathematics, Accelerated MS

**Overview**

This degree program allows academically strong Mathematics, BA (p. 711) and Mathematics, BS (p. 716) students to obtain their bachelor's and a Mathematics, MS (p. 721) by successfully completing 144 credits. Well-prepared students may be admitted to this program after the completion of 90 undergraduate credits. Upon completion and conferral of the bachelor's degree and with satisfactory graduate-level performance (3.00 GPA) in graduate courses, students are given advanced standing in the Mathematics, MS (p. 721) program and complete an additional 24 credits to receive the master's degree.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).
**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admission Policies (p. 66). Application information for this accelerated master’s program can be found on the Department of Mathematical Sciences website (http://math.gmu.edu).

Successful applicants will have an overall undergraduate GPA of at least 3.00. Additionally, they will have completed the following courses with a GPA of 3.00 or higher: MATH 315 Advanced Calculus I, MATH 321 Abstract Algebra, and MATH 322 Advanced Linear Algebra.

**Accelerated Option Requirements**

At the beginning of the student’s final undergraduate semester, students must submit a bachelor’s/accelerated master’s transition form (available from the Office of the University Registrar (http://registrar.gmu.edu)) to the College of Science’s Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). Students must begin their master’s program in the semester immediately following conferral of the bachelor’s degree.

Students must maintain an overall GPA of 3.00 or higher in graduate coursework.

**Reserve Graduate Credit**

While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate credits do not apply to the undergraduate degree. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 76).

**Mathematics, PhD**

Banner Code: SC-PHD-MATH

Flavia Colonna, Graduate Coordinator

Exploratory Hall, Room 4215
Fairfax Campus

Phone: 703-993-1465
Email: fcolonna@gmu.edu
Website: math.gmu.edu/graduate/phd-in-mathematics.php

The doctoral program begins with graduate coursework and advanced seminars and culminates in a dissertation consisting of original research in mathematics. The PhD is designed to train students as research mathematicians for careers in academia, government, and private industry.

**Fellowships and Assistantships**

The Department of Mathematical Sciences (p. 707) offers a limited number of merit-based teaching assistantships. Other sources of support, such as research fellowships and assistantships, are available as funding permits. Graduate students also have the opportunity to work in the Math Tutoring Center (http://math.gmu.edu/tutor-center.php) and the Math Learning Center (http://math.gmu.edu/math-learning-center.php).

**Admissions & Policies**

**Admissions**

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

**Eligibility**

It is expected that all applicants have a recent bachelor’s degree in mathematics or an equivalent amount of undergraduate mathematics preparation, with a GPA of at least 3.00 in their last 60 credits of study. Students without this background who have had an upper-division course in linear algebra (equivalent to MATH 322 Advanced Linear Algebra), an upper-division course in advanced calculus (equivalent to MATH 315 Advanced Calculus I), and an upper-division course in group theory (equivalent to MATH 321 Abstract Algebra) are encouraged to apply to the Mathematics, MS (p. 721). Such students may subsequently apply to the PhD when all background issues have been addressed. It is recommended that all applicants have some familiarity with mathematical software.

**Application Requirements**

To apply, prospective students should provide the completed George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), two copies of official transcripts from each college and graduate institution attended, three letters of recommendation, and a goals statement. GRE scores are recommended but not required.

TOEFL scores are required for all international applicants; find additional information in the Admission of International Students (p. 68) section of this catalog.

**Policies**

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Reduction of Credits**

For students entering the doctoral program with a master’s degree in a related field from a regionally accredited institution, the number of required credits may be reduced up to 30 credits, subject to approval of the program faculty and the college’s associate dean for student affairs. See AP.6.5.2 Reduction of Credits (p. 88) for more information.

**Transfer of Credit**

Graduate mathematics courses taken elsewhere without being applied to degree conferral may be counted toward the degree as transfer credit. See AP 6.5.3 Transfer of Credit (p. 88) for additional information.

**Requirements**

**Degree Requirements**

Total credits: 72
Students should refer to the Admissions & Policies (p. 723) tab for specific policies related to this program.

Core Courses
Students must earn a grade of 'B' or better in each core course that counts towards the core requirement.

<table>
<thead>
<tr>
<th>Course</th>

Preliminary Written Exam
Students are required to pass preliminary written exams after completing the core courses, usually by the end of their second year. These exams are based on material presented in three of the five core courses (the student may choose which topics to exclude). These exams are offered twice a year and students may take each exam up to three times. A grade of "pass" on three preliminary written exams is sufficient to satisfy the creative component of the master's degree in mathematics.

Dissertation Advisor and Examination Committee
After passing the preliminary written exam, the student chooses a dissertation advisor and a three person examination committee. In consultation with the advisor and committee, the student chooses a major and a minor area of study (the major and minor areas are presumed to be in two different branches of mathematics).

Seminar
Students must register for a 1 credit seminar each semester until they advance to candidacy or have acquired at least 6 credits.

<table>

Total Credits 12-24

Doctoral Dissertation Proposal and Advancement to Candidacy
Approximately one semester after passing the qualifying exam, each doctoral student prepares a written dissertation proposal while taking MATH 998 Doctoral Dissertation Proposal. The proposal must be approved by the dissertation committee, which consists of the three qualifying exam committee members, plus a fourth member from outside the Department of Mathematical Sciences (p. 707). After successfully completing this requirement, the student advances to doctoral candidacy.

Department of Physics and Astronomy
Phone: 703-993-1280
Email: physics@gmu.edu
Website: physics.gmu.edu

The Department of Physics and Astronomy is dedicated to the dissemination and advancement of physics and astronomy through instruction, research, and outreach.

The department provides rigorous training for physics and astronomy students and prepares them to be successful, confident, and versatile in their ability to apply physics and astronomy principles within any chosen field. The department also aims to deliver and instill a broad-based understanding of general physics and astronomy principles and practices to the wider university community through our Mason Core (p. 135) (general education) courses. Our student-centric curriculum and instruction use a mixture of traditional and current pedagogical techniques informed by on-going educational research. It is our goal to help students to develop versatility and creativity through repeated analytical practices and problem-solving training in their coursework and faculty-led research projects.

Research in the department focuses on pushing the frontiers of physics and astronomy in a broad range of topics using theoretical, experimental, observational, and computational approaches. The department maintains many active collaborations with scientists across different disciplines.
within the university community and with other national and international institutions. The department believes strongly in incorporating both graduate as well as undergraduate students in our research programs. It is our goal to see students arriving with an enthusiasm and curiosity for physics and astronomy and leaving as true scientists ready to conduct their own scientific investigations.

Undergraduate Programs
The department offers the Physics, BS (p. 731) and the Astronomy, BS (p. 729). Also available are the Physics Minor (p. 730), the Astronomy Minor (p. 728), and the Renewable Energy Interdisciplinary Minor (p. 736).

Undergraduate Research Opportunities
The department offers many opportunities for undergraduate students to get involved with research. Students should consult with faculty working on research topics of interest to them, based on their exploration of the department’s website (http://physics.gmu.edu).

Bachelor’s/Accelerated Master’s Degree
Information regarding this program can be found in the Physics, BS/ Accelerated Masters section of this catalog.

Physics for Non-majors
PHYS 243 College Physics (Mason Core) (p. 135), PHYS 244 College Physics Lab (Mason Core) (p. 135), PHYS 245 College Physics (Mason Core) (p. 135), and PHYS 246 College Physics Lab (Mason Core) (p. 135) are recommended for biology, geology, and premedical students, and mathematics students who seek a BA degree. PHYS 101 Light and Sound in Our World, PHYS 102 Sports Physics, PHYS 103 Physics and Everyday Phenomena I (Mason Core) (p. 135), and PHYS 104 Physics and Everyday Phenomena II (Mason Core) (p. 135) are intended for non-science majors. PHYS 160 University Physics I (Mason Core) (p. 135), PHYS 161 University Physics I Laboratory (Mason Core) (p. 135), PHYS 260 University Physics II (Mason Core) (p. 135), PHYS 261 University Physics II Laboratory (Mason Core) (p. 135) or PHYS 265 Advanced University Physics II Laboratory, PHYS 262 University Physics III (Mason Core) (p. 135), and PHYS 263 University Physics III Laboratory (Mason Core) (p. 135) constitute a calculus-based sequence in general physics to be taken by physics and engineering majors, and chemistry, computer science, and mathematics students who are pursuing a BS degree. Students may receive credit for only one of the following three sequences:

- PHYS 243 & PHYS 244 & PHYS 245 & PHYS 246
- College Physics (Mason Core) (p. 135) and College Physics Lab (Mason Core) (p. 135) and College Physics (Mason Core) (p. 135) and College Physics Lab (Mason Core) (p. 135)
- PHYS 103 & PHYS 104
- Physics and Everyday Phenomena I (Mason Core) (p. 135) and Physics and Everyday Phenomena II (Mason Core) (p. 135)

PHYS 160 & PHYS 161 & PHYS 260 & PHYS 262 & PHYS 263
- University Physics I (Mason Core) (p. 135) and University Physics I Laboratory (Mason Core) (p. 135) and University Physics II (Mason Core) (p. 135) and University Physics III (Mason Core) (p. 135) and University Physics III Laboratory (Mason Core) (p. 135)

Graduate Programs
This department offers the Applied and Engineering Physics, MS (p. 726). The department also supports the Energy and Sustainability concentration in the Interdisciplinary Studies, MAIS (p. 534). Additionally, the department offers a Physics, PhD (p. 735). These graduate programs are strongly supported by the extensive research activities of the faculty, including many collaborations with scientists and engineers at regional government laboratories.

Requirements & Policies

Requirements
Writing Intensive Requirement
George Mason requires all undergraduate students to complete at least one course designated as “writing intensive” in their majors at the 300-level or above. Students majoring in physics fulfill this requirement by successfully completing PHYS 407 Senior Laboratory in Modern Physics (Mason Core) (p. 135). Astronomy majors fulfill the requirement by
completing ASTR 402 RS: Methods of Observational Astronomy (Mason Core) (p. 135).

**Teacher Licensure**
Students who wish to become teachers should consult the College of Education and Human Development (p. 154) section of this catalog and attend an information session early in their undergraduate career. For more information, visit the Graduate School of Education’s website (https://gse.gmu.edu).

This degree contains elements of traditional physics programs and the application of physics to a diversity of critical societal problems. The program is divided into three areas of emphasis; see Requirements (p. 726) for details.

Many courses are offered during late afternoon or evening hours to allow students with full-time employment to easily attend. Students employed at area high-technology organizations may take up to 6 credits (out of 30) for work done on the job under the guidance of a faculty member. This employment-related research may be conducted under an optional 3-credit research project or an optional 6-credit master’s thesis. Master’s students who are not employed full time may apply for financial aid or a limited number of research assistantships.

**Admissions & Policies**

**Admissions**
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Individuals holding a baccalaureate degree in physics or a related field from a regionally accredited institution and who have earned a GPA of 3.00 (out of 4.00) in their last 60 credits are invited to apply for admission. If the baccalaureate degree is in a field other than physics, applicants should have taken several courses beyond the introductory physics courses, such as junior-level classical mechanics, electricity and magnetism, or electronics. Applicants may be required to make up one or two deficiencies, based on a graduate physics advisor’s assessment, and be provisionally admitted into the program. Three letters of recommendation must be submitted, preferably from former professors. The general GRE and the GRE subject test in physics are recommended for applicants who received their baccalaureate degrees within the past five years.

**Policies**
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Requirements**

**Degree Requirements**
Total credits: 30

Students should refer to the Admissions & Policies (p. 726) tab for specific policies related to this program.

**Emphasis Requirement**
Select one emphasis and complete all the requirements therein.

**Standard Emphasis**
This emphasis is intended for students who may wish to pursue further graduate study in physics leading to a PhD degree in preparation for a career in basic research.

Engineering Physics Emphasis
This emphasis allows students to select a larger number of courses from electrical engineering and other areas.

Choose one of the following: 3
PHYS 684 Quantum Mechanics I
PHYS 502 Introduction to Quantum Mechanics and Atomic Physics
PHYS 690 Engineering Thermodynamics

Choose one of the following: 3
PHYS 685 Classical Electrodynamics I
PHYS 513 Applied Electromagnetic Theory
PHYS 620 Continuum Mechanics
PHYS 510 Computational Physics I 3
PHYS 533 Modern Instrumentation 3
PHYS 613 Computational Physics II
or PHYS 502 Introduction to Quantum Mechanics and Atomic Physics

Select 9 credits of graduate-level PHYS, ECE, CEIE, or MATH courses 9

Total Credits 21

1 Advisor approval required

Applied Physics Emphasis
This emphasis is intended for those who wish to apply the techniques and subject areas of physics to multifaceted problems encountered in the workplace, particularly in physics, engineering, computational science, and other related areas.

PHYS 510 Computational Physics I 3
PHYS 533 Modern Instrumentation 3
PHYS 684 Quantum Mechanics I 3
or PHYS 502 Introduction to Quantum Mechanics and Atomic Physics

PHYS 685 Classical Electrodynamics I 3
or PHYS 513 Applied Electromagnetic Theory
Select 9 credits from the following: 9
PHYS 581 Topics in Renewable Energy
BINF 731 Protein Structure Analysis
BINF 741 Introduction to Computer Simulations of Biomolecules
CLIM 710 Introduction to Physical Climate System
CLIM 711 Introduction to Atmospheric Dynamics
CLIM 712 Physical and Dynamical Oceanography
CLIM 713 Atmosphere-Ocean Interactions
CLIM 714 Land-Climate Interactions
CLIM 715 Numerical Methods for Climate Modeling
CLIM 750 Geophysical Fluid Dynamics
CSI 742 The Mathematics of the Finite Element Method
CSI 763 Statistical Methods in Space Sciences
CSI 782 Statistical Mechanics for Modeling and Simulation
CSI 783 Computational Quantum Mechanics
ECE 521 Modern Systems Theory
ECE 548 Introduction to Random Processes in Electrical and Computer Engineering
ECE 556 Introduction to Optical Electronics
ECE 584 Semiconductor Device Fundamentals
ECE 699 Advanced Topics in Electrical and Computer Engineering

Or any course listed in the Standard Emphasis

Total Credits 21

Electives
Select nine elective credits from the following: 9
PHYS (p. 1828)
CHEM (p. 1244)
MATH (p. 1717)
ECE (p. 1456)
CSI (p. 1302)
PHYS 798 Research Project
PHYS 799 Master’s Thesis
ECE 798 Research Project
ECE 799 Master’s Thesis

Total Credits 9

1 No more than 6 credits may be chosen from areas outside ASTR, CSI, ECE, NANO, and PHYS.

Notes:
- Students may choose to take either PHYS 798 Research Project/ECE 798 Research Project or PHYS 799 Master’s Thesis/ECE 799 Master’s Thesis (6 credits), but not both. The research project may be conducted at a student’s place of employment with the concurrence of a faculty advisor.
- The thesis is a more substantial piece of work performed under the supervision of a faculty member and requires students to make
an oral defense. PHYS 798 Research Project/ECE 798 Research Project may be taken only once. No more than 6 credits of PHYS 799 Master’s Thesis may be applied to the degree.

- Students in the master’s degree program can earn the Data Science Graduate Certificate (p. 659) from the Department of Computational and Data Sciences (p. 650) by choosing an approved sequence of courses.

## Accelerated Master's

### Physics, BS/Applied and Engineering Physics, Accelerated MS

**Overview**

This program allows academically strong undergraduates with a demonstrable commitment to research to obtain the Physics, BS (p. 731) and Applied and Engineering Physics, MS (p. 726) degrees by successfully completing 144 credits. Upon completion, students are well-prepared for entry into a professional school or a PhD program in physics or a related discipline.

Admitted students take selected graduate courses during their senior year and are able to use up to 6 graduate credits in partial satisfaction of requirements for the undergraduate degree. Upon completion and conferral of the bachelor's degree and with satisfactory performance (grade of 'B' or better) in each of the graduate courses, students are given advanced standing in the master's program and complete an additional 24 credits to receive the master's degree.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog.

Successful applicants will have completed at least 90 credits toward their undergraduate degree and 45 credits in physics major coursework. The physics major GPA must be at least 3.50. One or more recommendation letters from one or more research supervisors are also required. Interested applicants should submit a letter to the undergraduate physics coordinator requesting admission along with the aforementioned recommendation letter(s). Contact the physics undergraduate or graduate coordinator for further details.

### Accelerated Option Requirements

At the beginning of the student’s final undergraduate semester, students must submit a bachelor's/accelerated master's transition form (http://registrar.gmu.edu/forms) to the College of Science's Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). Students must begin their master's program in the semester immediately following conferral of the bachelor's degree.

Students must maintain an overall GPA of 3.00 or higher in graduate coursework.

---

### Reserve Graduate Credit

While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master's program. Reserve graduate credits do not apply to the undergraduate degree.

### Astronomy Minor

**Banner Code:** ASTR

**Joseph Weingartner, Undergraduate Astronomy Advisor**

### Admissions & Policies

**Policies**

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

### Requirements

#### Minor Requirements

Total credits: 18 or 20

Students should refer to the Admissions & Policies (p. 728) tab for specific policies related to this program.

The minor requires completion of all coursework with a minimum GPA of 2.00.

#### Core Courses

Select one from the following sequences:

<table>
<thead>
<tr>
<th>Sequence One:</th>
<th>12-14</th>
</tr>
</thead>
<tbody>

Other PHYS course with the permission of the department (p. 1828)

**Total Credits**  
15

¹ PHYS 428 Relativity, if not taken as part of additional astronomy course requirement above, may be used here.

### Mason Core and Elective Credits
In order to meet a minimum of 120 credits, this degree requires an additional 54 credits, which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor’s Degrees (p. 86), and electives. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

**Mason Core**

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult with their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

### Honors

#### Honors in the Major

**Eligibility**
Astronomy majors who have completed the prerequisites for ASTR 405 Honors Thesis in Astronomy I, have a GPA of at least 3.50 in ASTR and PHYS courses taken at Mason, and have a GPA of at least 3.50 in all courses taken at Mason may apply for admission to the astronomy honors program.

#### Honors Requirements
To graduate with honors in astronomy, a student must maintain a GPA of at least 3.50 in their ASTR/PHYS courses. Students accepted into the honors program must complete ASTR 405 Honors Thesis in Astronomy I and ASTR 406 Honors Thesis in Astronomy II with a GPA of at least 3.50 and a grade of ‘A-’ or better in ASTR 406 Honors Thesis in Astronomy II. Students in ASTR 405 Honors Thesis in Astronomy I/ASTR 406 Honors Thesis in Astronomy II will complete a research project and write a thesis working under the supervision of a faculty member. At the end of ASTR 406 Honors Thesis in Astronomy II, the student will write a substantial thesis paper and make a presentation of results to their honors committee.

The Physics, BS prepares students for graduate school and careers in education, business, or industry.

Teacher Licensure
Students who wish to become teachers and plan to seek teacher licensure should consider the following options:

- Secondary Education – Physics (6-12) Undergraduate Certificate (p. 206)
- Physics, BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Physics concentration) (p. 734)

Interested students should attend an information session early in their undergraduate career. For more information, visit the Graduate School of Education’s website (http://gse.gmu.edu).

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies
Students must fulfill all Requirements for Bachelor’s Degrees (p. 86) including the Mason Core (p. 135).

The intensive writing requirement is fulfilled by taking PHYS 407 Senior Laboratory in Modern Physics (Mason Core) (p. 135) or ASTR 402 RS: Methods of Observational Astronomy (Mason Core) (p. 135), which are also capstone courses for the major.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Double Majors
Students in the fields of mathematics, science, and engineering who are considering a double major in physics should discuss this option with the respective undergraduate coordinators.

Note that at least 18 credits used to fulfill the Physics, BS cannot be used to fulfill another major or minor. Some course substitutions are allowed for double majors, but these should be discussed in advance.

Alternative Introductory Sequence
Normally, students who intend to major in physics should take the physics introductory sequence:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYS 160</td>
<td>University Physics I (Mason Core)</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 161</td>
<td>University Physics I Laboratory (Mason Core)</td>
<td>1</td>
</tr>
<tr>
<td>PHYS 260</td>
<td>University Physics II (Mason Core)</td>
<td>3</td>
</tr>
<tr>
<td>PHYS 261</td>
<td>University Physics II Laboratory (Mason Core)</td>
<td>1</td>
</tr>
</tbody>
</table>

Students who decide to major in physics after completing PHYS 243 College Physics (Mason Core) (p. 135), PHYS 244 College Physics Lab (Mason Core) (p. 135), PHYS 245 College Physics (Mason Core) (p. 135), and PHYS 246 College Physics Lab (Mason Core) (p. 135) are welcome, but are required to obtain written permission from the Department of Physics and Astronomy (p. 724).

Requirements

Degree Requirements
Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 731) tab for specific policies related to this program.

Students must complete a total of 75 credits in the major (69 credits if completing a second major), including at least 11 credits in mathematics, with a minimum GPA of 2.00.

Students must complete the coursework described below and either select a concentration or select the "BS without Concentration" option:

Physics Core Courses

- **4**

1  Fulfills the writing intensive requirement.
## Intermediate Laboratory
- **PHYS 311** Instrumentation 3

## Research, Internship, or Independent Study
- Select 3 credits from the following:
  - PHYS 326 Problems in Physics II
  - PHYS 405 Honors Thesis in Physics
  - PHYS 406 Honors Thesis in Physics
  - PHYS 408 Senior Research
  - PHYS 409 Physics Internship

## Capstone
- Select 4 credits from the following:
  - ASTR 402 RS: Methods of Observational Astronomy (Mason Core) (p. 135) 1
  - PHYS 407 Senior Laboratory in Modern Physics (Mason Core) (p. 135) 1

## Physics and Astronomy Theory
- 3-9

Students who are completing a second major must select 3 credits from the following:
- ASTR 210 Introduction to Astrophysics
- ASTR 328 Stars and Interstellar Medium
- ASTR 403 Planetary Sciences
- PHYS 306 Wave Motion and Electromagnetic Radiation
- PHYS 412 Solid State Physics and Applications

Total Credits: 28-34

1. Fulfills the writing intensive requirement.

### Mason Core and Elective Credits

In order to meet a minimum of 120 credits, this degree requires 45 (or 51 if completing a second major) additional credits, which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor’s Degrees (p. 86), and elective courses. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

## Mason Core

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

Honors

**Honors in the Major**

Physics majors who have maintained an overall GPA of at least 3.50 in physics courses and a GPA of 3.50 in all courses taken at George Mason University may apply to the physics honors program when they complete the first semester of their junior year.

To graduate with honors in physics, a student is required to maintain a minimum GPA of 3.00 in physics courses and successfully complete PHYS 405 Honors Thesis in Physics and PHYS 406 Honors Thesis in Physics with a GPA of at least 3.50 and a grade of at least ‘A’ in PHYS 406 Honors Thesis in Physics.

**Accelerated Master’s**

**Physics, BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Physics concentration)**

**Overview**

Highly-qualified undergraduates may be admitted to the bachelor’s/accelerated master’s program and obtain both a BS in Physics (p. 731) and an MEd in Curriculum and Instruction (p. 161), Secondary Education Physics Concentration in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89) for policies related to this program.

This accelerated option is offered jointly by the department of Physics and Astronomy (p. 724) and the Graduate School of Education (p. 155).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66). For information specific to this accelerated master’s program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

**Accelerated Option Requirements**

Students complete the following courses in their senior year:

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

While undergraduate students, accelerated master’s students are able to apply two of the courses listed above to both the bachelor's and master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

**Physics, BS/Applied and Engineering Physics, Accelerated MS**

**Overview**

This program allows academically strong undergraduates with a demonstrable commitment to research to obtain the Physics, BS (p. 731) and Applied and Engineering Physics, MS (p. 726) degrees by successfully completing 144 credits. Upon completion, students are well-prepared for entry into a professional school or a PhD program in physics or a related discipline.

Admitted students take selected graduate courses during their senior year and are able to use up to 6 graduate credits in partial satisfaction of requirements for the undergraduate degree. Upon completion and conferral of the bachelor’s degree and with satisfactory performance (grade of 'B' or better) in each of the graduate courses, students are given advanced standing in the master’s program and complete an additional 24 credits to receive the master’s degree.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section of this catalog.

Successful applicants will have completed at least 90 credits toward their undergraduate degree and 45 credits in physics major coursework. The physics major GPA must be at least 3.50. One or more recommendation letters from one or more research supervisors are also required. Interested applicants should submit a letter to the undergraduate physics coordinator requesting admission along with the aforementioned recommendation letter(s). Contact the physics undergraduate or graduate coordinator for further details.

**Accelerated Option Requirements**

At the beginning of the student’s final undergraduate semester, students must submit a bachelor’s/accelerated master’s transition form (http://registrar.gmu.edu/forms) to the College of Science’s Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). Students must begin their master’s program in the semester immediately following conferral of the bachelor's degree.
Students must maintain an overall GPA of 3.00 or higher in graduate coursework.

**Reserve Graduate Credit**
While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate credits do not apply to the undergraduate degree.

**Physics, PhD**

**Banner Code:** SC-PHD-PHYS

**Robert Weigel, Associate Professor**
259 Planetary Hall
Fairfax Campus
Phone: 703-993-1361
Email: rweigel@gmu.edu
Website: physics.gmu.edu/phd-in-physics/

The degree program contains a Standard Concentration for traditional physics programs that focus on Astrophysics, Condensed Matter Theory, Dynamical Systems/Biological Physics, High Energy Physics, Materials Physics, Space Sciences, and an Engineering Physics Concentration that combines the disciplines of physics, mathematics, and engineering. The doctoral students accepted into each concentration of the physics PhD program take a required set of core courses for the given concentration (see Requirements tab).

By working with the dissertation committee, a student in the Standard Concentration may choose to specialize in an emphasis area such as Astrophysics, Condensed Matter Theory, Dynamical Systems/Biological Physics, High Energy Physics, Materials Physics, Space Sciences, or others according to his or her particular interests. A student in the Engineering Physics Concentration may choose to specialize in Applied Mechanics, or other applied and engineering physics areas. By the end of their first year, all students should pair with a faculty advisor who will guide them toward doctoral candidacy.

**Admissions**
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Those holding a baccalaureate degree in physics, astronomy, or engineering from a regionally accredited institution, who earned a GPA of 3.00 (out of 4.00) or higher in their last 60 credits, and received acceptable scores on the GRE-GEN are invited to apply for admission. Three letters of recommendation must be submitted, preferably from former professors. The GRE subject test in physics is highly recommended for all interested applicants in the standard concentration who received their baccalaureate degrees within the past five years. A degree-seeking graduate applicant with a baccalaureate degree who has not met all admission requirements may be offered provisional admission if sufficient evidence is presented to suggest that the applicant has the ability to pursue graduate work. For more details concerning admission requirements to George Mason University please refer to Graduate Admission Policies (p. 66).

**Policies**
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Reduction of Credits**
For students entering the doctoral program with a master’s degree in a related field from a regionally accredited institution, the number of required credits may be reduced up to 30 credits, subject to approval of the program faculty and the college’s associate dean. See AP.6.5.2 Reduction of Credits (p. 88) for more information.

**Requirements**

**Degree Requirements**
Total credits: 72

Students should refer to the Admissions & Policies (p. 735) tab for specific policies related to this program.

Students must first choose one concentration, then continue with the additional sections:

Select two of the following courses:
At the beginning of each academic year, the program director will appoint members to the qualifying examination committee. This committee is responsible for creating, administering, and grading the qualifying exams offered that year. Additional information and previous qualifying exams can be found on the departmental web page.

**Dissertation Committee and Program of Study**

Upon successful completion of the qualifying examinations, a dissertation committee should be formed by the student as soon as possible. The chair of this committee must be a graduate faculty member from the Department of Physics and Astronomy. The committee must include at least two additional members from the graduate faculty, one of whom must be from outside the Department of Physics and Astronomy. The composition of the committee must be approved by the program director. The dissertation committee is responsible for directing the student in their chosen field of research. The student should work closely with their committee to select specialty courses and electives that form a cohesive program of study. The student's program of study must be approved by the dean before advancement to candidacy.

**Advancement to Candidacy**

Before a student may be advanced to doctoral candidacy, he/she needs to complete all required coursework, pass the qualifying examination, have the program of study and dissertation proposal approved by the dean, and be recommended by the dissertation committee. Advancement to doctoral candidacy implies that the student has demonstrated adequate breadth and depth of knowledge in the field of study and is capable of conducting research on the boundaries of knowledge.

**Dissertation Research**

Note: No more than 24 combined credits from PHYS 998 Doctoral Dissertation Proposal/ASTR 998 Doctoral Dissertation Proposal and PHYS 999 Doctoral Dissertation/ASTR 999 Doctoral Dissertation may be applied toward satisfying the doctoral degree requirements, with no more than 12 credits of PHYS 998 Doctoral Dissertation Proposal/ASTR 998 Doctoral Dissertation Proposal.

**Doctoral Dissertation**

After advancing to doctoral candidacy, the student works with their dissertation committee to develop their preliminary research into a doctoral dissertation. The dissertation research should represent a significant contribution to its scientific field and should be deemed publishable in a refereed scientific journal. The dissertation must be defended in a public forum before the dissertation committee and other interested faculty.

**Renewable Energy Interdisciplinary Minor**

Banner Code: RNRG

Harold Geller, Associate Professor and Observatory Director
This college-wide interdisciplinary minor is designed for students considering a career in the field of renewable energy, or as preparation for graduate work in a wide range of academic disciplines.

Renewable energy, as normally understood, includes a variety of methods of energy generation, such as solar, wind, hydro, tidal, and geothermal, as well as energy storage methods and energy conservation. Jobs related to renewable energy lie in a wide range of areas including engineering, business, marketing, finance, installation, software, legal affairs, and research. Projections suggest that employment opportunities in the renewable energy field will increase dramatically in the near future. The Renewable Energy Interdisciplinary Minor is therefore ideally suited for students with majors in engineering, business, and basic science.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements

Total credits: 17-20

Students should refer to the Admissions & Policies (p. 737) tab for specific policies related to this program.

Fairfax Campus

Phone: 703-993-5338
Email: kcarisi@gmu.edu
Website: cos.gmu.edu/forensic-science/

This minor addresses the growing national and regional interest in forensic science by introducing students to the technical, scientific, and legal aspects of the field. The minor provides an attractive option for students with majors in the natural sciences, criminology, psychology, or computer science, and the curriculum structure makes it particularly suitable for students with majors in biology and chemistry.

Admissions & Policies

Policies

At least 8 credits must be applied only to this minor and may not be used to fulfill requirements of the student's major, concentration, or another minor or undergraduate certificate.

For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

Minor Requirements

Total credits: 20-21

Students should refer to the Admissions & Policies (p. 738) tab for specific policies related to this program.

Students must complete at least 6 credits in their minor at George Mason University and achieve a minimum GPA of 2.00 in courses applied to the minor.

Foundation Science Courses

Select two courses or course/lab pairings from the courses below. Please pay attention to the prerequisites for each course:

Forensic Science, BS

Banner Code: SC-BS-FRSC

Kimberly Rule, Undergraduate Program Coordinator

3400 Exploratory Hall
Fairfax Campus
Phone: 703-993-5338
Email: kcarisi@gmu.edu
The Bachelor of Science, Forensic Science degree is a general forensic science degree that covers various fields within forensic science including field and laboratory applications. These topics include areas such as, crime scene investigation, forensic DNA, forensic chemistry, trace evidence, firearms examination, questioned document, fingerprints, arson, and drug analysis.

This degree is intended to provide students with a well-rounded, hands-on forensic science education in order to prepare students for entrance into a graduate level educational program, and/or entry-level professional careers in public and private forensic laboratories, federal, state, or local government/law enforcement, defense, homeland security and intelligence agencies.

Unique features of this program include innovative curriculum that offers hands-on training within crime scene techniques and crime laboratory methodologies, an outdoor forensic excavation research and training facility, and courses taught by professional and distinguished faculty from various forensic agencies and laboratories.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135).

FRSC 302 Forensic Trace Analysis and FRSC 304 Forensic Chemistry will satisfy the writing intensive requirement.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Requirements

Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 739) tab for specific policies related to this program.

Students majoring in forensic science must complete their coursework with a minimum GPA of 2.30. No more than three courses with a grade of ‘D’ (1.00) may be applied to the major.

Students are advised to be aware of prerequisites that may be required for each course in the curriculum.

### Mason Core and Electives

In order to meet a minimum of 120 credits, this degree requires an additional 33-34 credits, which may be applied toward any remaining Mason Core (p. 135) requirements, Requirements for Bachelor’s Degrees (p. 84), and elective courses. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

### Mason Core

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

#### Admissions & Policies

**Admissions**

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants should submit a completed George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), three letters of recommendation, two copies of official transcripts from each institution of higher learning attended, a current resume, a Virginia Domicile Classification form, and an official report of TOEFL scores (foreign nationals only). Additionally:

- **Forensic Biology Analysis and Forensic Chemistry Analysis Concentrations**
  A bachelor’s degree in a forensic or natural science.

- **Forensic/Biometric Identity Analysis Concentration**
  A bachelor of science or bachelor of arts degree in a forensic or natural science, computer science, computer electronic or electrical engineering.
information systems or information technology (or its equivalent coursework in a relevant field).

**Crime Scene Investigation Concentration**
A bachelor of science or bachelor of arts degree in a related field.

**Policies**
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Premium Tuition**
Students enrolled in this professional MS program are charged at a differential (premium) tuition rate, and therefore they may not enroll concurrently in any other graduate degree program or certificate program offered by the College of Science (p. 593), with the exception of the Forensics Graduate Certificate (p. 742).

**Concentration Declaration**
Students must declare their intended concentration upon application. In the event that a student wishes to change their concentration, students may request to change their concentration by submitting a letter to the Forensic Science Program Director detailing the request and justification. These requests will be considered on a case-by-case basis and only when the appropriate admissions requirements are met. However, if a student chooses to change concentrations, course substitutions/waivers will not be accepted.

**Criminal Background Check**
The successful passing of a Virginia Department of Forensic Sciences (http://www.dfs.virginia.gov) background check is required prior to gaining access to FRSC 541 Forensic Chemistry Laboratory and FRSC 561 Forensic DNA Laboratory.

**FRSC 560 Forensic Science DNA Sciences Course Note**
Students shall have completed undergraduate coursework in molecular and/or cell biology, as well as genetics, or students must obtain permission of the instructor prior to taking FRSC 560 Forensic DNA Sciences.

**Requirements**

**Degree Requirements**

Total credits: 36

Students should refer to the Admissions & Policies (p. 740) tab for specific policies related to this program.

Select one concentration from the following:

**Concentration in Crime Scene Investigation (CSIN)**
This concentration educates students for a career as a crime scene investigator.

The successful passing of a Virginia Department of Forensic Sciences background check is required prior to gaining access to FRSC 541 Forensic Chemistry Laboratory and FRSC 561 Forensic DNA Laboratory.

**Forensics Graduate Certificate**

Banner Code: SC-CERG-FORS

Emily Rancourt, Assistant Director

Exploratory Hall, Room 3400
Fairfax Campus

Phone: 703-993-5234
Email: erancour@gmu.edu
This interdisciplinary graduate certificate program is designed for students seeking training in forensic science, as well as for current professionals employed by the federal government, local law enforcement, and private security corporations. Forensics refers to the application of scientific methodologies to the analysis of crime scenes, the collection of evidence, and the laboratory analysis of that evidence in support of criminal investigations. Related legal aspects are also considered as part of a comprehensive approach to forensics.

At the time of completion, depending on the concentration, students will be able to understand the basic principles of forensics and perform a general crime scene analysis. Available concentrations include: Crime Scene, Forensic Science, and General Forensics; curriculum requirements for each concentration are listed in the Requirements tab.

This certificate may be pursued on a part-time or full-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/Forensics/Gedt.html).

### Requirements

#### Certificate Requirements

Total credits: 18

Students should refer to the Admissions & Policies (p. 743) tab for specific policies related to this program.

Students must complete all core courses and select one concentration.

Fairfax Campus
Phone: 703-993-4333
Email: neuosci@gmu.edu
Website: neuroscience.gmu.edu

Neuroscience is one of the most rapidly growing disciplines in science and society today. Due to its interdisciplinary nature, it draws on skills from anatomy, chemistry, electrical engineering, genetics, math, psychology, economics, and philosophy among others. Students in diverse fields can benefit from neuroscience through this minor.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

Requirements

Minor Requirements

Total credits: 20-21

Students should refer to the Admissions & Policies (p. 744) tab for specific policies related to this program.

Students must complete at least 20 credits of coursework with a minimum GPA of 2.00.

Biology Courses

## Neuroscience, BS

Banner Code: SC-BS-NEUR

### Academic Advising

David King Hall, Room 2086  
Fairfax Campus  
Phone: 703-993-1358  
Email: neurosci@gmu.edu  
Website: neuroscience.gmu.edu

The bachelor of science in neuroscience is an interdisciplinary program emphasizing the relationship between the biology and chemistry of the nervous system and behavior of an organism. The BS in neuroscience prepares students for graduate-level study in both medical school and doctoral and master’s-level programs in neuroscience and other health-related fields, and work in the neuroscience field.

### Admissions & Policies

#### Admissions

University-wide admissions policies can be found in the Undergraduate Admissions Policies (p. 63) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

#### Policies

Students must fulfill all Requirements for Bachelor’s Degrees (p. 86), including the Mason Core (p. 135).

NEUR 410 Current Topics in Neuroscience or NEUR 411 Seminar in Neuroscience fulfill the writing intensive requirement.

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (p. 84).

### Requirements

#### Degree Requirements

Total credits: minimum 120

Students should refer to the Admissions & Policies (p. 745) tab for specific policies related to this program.

**Core Courses in Neuroscience**

- **NEUR 327**: Cellular, Neurophysiological, and Pharmacological Neuroscience (3 credits)
- **NEUR 335**: Molecular, Developmental, and Systems Neuroscience (3 credits)

**Technical Writing**

- **NEUR 410**: Current Topics in Neuroscience (3 credits)
- **NEUR 411**: Seminar in Neuroscience (1 credit)

**Required Psychology Lab Course**

- **PSYC 373**: Physiological Psychology Laboratory (1 credit)

**Electives**

Students should consult with an advisor to choose appropriate elective courses, which must be approved by the director of the program. A sample of possible electives is given below. Students may apply no more than 6 credits of courses with a grade of D to this requirement.

Students intending to pursue a doctorate in neuroscience or a medical degree are advised to take CHEM 313 Organic Chemistry I and CHEM 315 Organic Chemistry Lab I.

Select 24 credits from the following:

Total Credits: 51-54

1. Students must earn a minimum grade of 1.67 (C-) in these courses. Either course fulfills the writing intensive requirement.
2. The course chosen to fulfill this requirement cannot be applied to the 24 credits of approved neuroscience electives.
3. Students intending to pursue a doctorate in neuroscience or a medical degree are advised to take MATH 114 Analytic Geometry and Calculus II.
4. Transfer students who have earned transfer credit for PSYC 372 Physiological Psychology may substitute this course for PSYC 375 Brain and Sensory Processes.

**Mason Core and Elective Credits**

In order to meet a minimum of 120 credits, this degree requires an additional 42-45 credits which may be applied toward any remaining Mason Core (p. 135) requirements (outlined below), Requirements for Bachelor’s Degrees (p. 86), and elective courses. Students are strongly encouraged to consult with their advisors to ensure that they fulfill all requirements.

**Mason Core**

Note: Some Mason Core (p. 135) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 135) requirements.

### Honors

**Honors in the Major**

Highly-qualified students may apply to graduate with honors in the major.

**Eligibility**

To be eligible for admission, neuroscience majors must have completed at least 60 credits and have a minimum cumulative GPA of 3.25 and a minimum GPA of 3.25 in neuroscience courses.

**Honors Requirements**

If accepted, students must take a sequence of three courses, which culminates in the successful completion and presentation of an independent honors thesis.

</tbody>
</table>

Total Credits: 8-10

To graduate with honors, students must earn a minimum GPA of 3.50 in their honors courses, maintain a minimum cumulative GPA of 3.25, and complete an honors thesis.

### Neuroscience, PhD

**Banner Code: SC-PHD-NEUR**

**Nadine Kabbani**

Phone: 703-993-4406  
Email: nkabbani@gmu.edu

The program focuses on the study of the brain and addresses the challenge of developing an integrative understanding of cognition and higher brain function. In response to this challenge, the rapidly developing field of neuroscience has produced an exponential increase in the amount of data available to investigators as they develop new theories of brain function and new hypotheses to test. The main objective of the program is to prepare students to participate at the cutting edge of this exciting field in academia, industry, and government. The program provides students with a rich interdisciplinary intellectual environment that fosters the development of the skills they will need to successfully pursue research careers.

Current faculty research focuses on the broad areas of behavior, anatomy, physiology, neuropharmacology, molecular biology, computational modeling, and informatics. External research collaborations exist with federal agencies, private and not-for-profit corporations, and other universities. The scope of research ranges from the subcellular and molecular level (in the context of such phenomena as drug addiction and the biological basis of schizophrenia) to the systems and behavioral level.

Current research projects include plasticity mechanisms supporting development, network formation and information processing, cellular and subcellular models of associative learning, biochemical dynamics in disorders of the basal ganglia, computational methods for simulation of complex biological systems, role of metals in memory and Alzheimer's disease, and dynamical behavior of neurons and networks of neurons, and identifying and characterizing protein interactions for the dopamine and nicotinic acetylcholine receptors in the brain.

### Admissions & Policies

**Admissions**

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants should have a bachelor’s degree in a relevant field and undergraduate courses in organic chemistry, cell biology, and calculus. Coursework in biochemistry (e.g. BIOL 483 General Biochemistry) cell biology (e.g. BIOL 484 Eukaryotic Cell Biology) and molecular genetics (e.g. BIOL 482 Introduction to Molecular Genetics) is highly recommended. Admission requires a minimum GPA of 3.25 in undergraduate work and acceptable GRE scores. In addition, the applicant’s goals statement should relate to the research interests of at least one faculty member in the program and include the names of two faculty members who may be suitable as advisors or supervisory committee members.

To apply, complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), supply a goals statement, two copies of official transcripts from each college and graduate institution attended, three letters of recommendation from faculty members or individuals who have firsthand knowledge of the applicant's academic or research capabilities, and an official report of scores obtained on the GRE-GEN. The GRE-SUB is optional. TOEFL scores are required of all international applicants.

**Policies**

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

**Reduction of Credits**

For students entering the doctoral program with a master’s degree in a related field from a regionally accredited institution, the number of required credits may be reduced up to 30 credits, subject to approval of...
the program faculty and the college’s associate dean for student affairs. See AP.6.5.2 Reduction of Credits (p. 88) for more information.

**Transfer of Credit**
An alternative to the reduction of credit is a transfer of credit. With this option, up to 24 credits of previous, relevant graduate coursework may be transferred into the program, provided those credits have not been applied toward a previous degree.

#### Electives

Select 20-21 credits of electives 20-21

Total Credits 47-49

### Publication

An additional requirement for graduation calls for students to have at least one publication (in print or in press) in a refereed journal.

### Doctoral Committee and Proposal

When coursework is nearing completion, the student should form a doctoral committee and start preparing their dissertation proposal. Students in consultation with their advisor identify which faculty are appropriate to be a part of their committee. The dissertation committee administers the qualifying exam and evaluates the dissertation proposal as well as the dissertation itself. At least one of the committee members must be outside of the dissertation advisor’s department.

### Candidacy Examination and Advancement to Candidacy

The doctoral candidacy examination includes written and oral components. After passing the candidacy exam and receiving committee approval for the dissertation proposal, the student is advanced to doctoral candidacy.

### Dissertation Research

Note: No more than 24 combined credits from NEUR 998 Dissertation Proposal and NEUR 999 Doctoral Dissertation may be applied toward satisfying doctoral degree requirements, with no more than 12 credits of NEUR 998 Dissertation Proposal.

Select 24 credits from the following: 24

## School of Systems Biology

**Monique Sweeney, Administrative Assistant**

Phone: 703-993-8400  
Email: binf@gmu.edu  
Website: ssb.gmu.edu

### Administration

- Iosif Vaisman, Acting Director, BCB PhD Program Director  
- Kylene Kehn-Hall, BIOS PhD Program Director  
- Don Seto, BCB MS Program Director  
- Ancha Baranova, Biology MS Program Director  
- Vikas Chandhoke, PSM Program Director  
- Diane St. Germain, Graduate Coordinator  
- Andrea Nikoi, Director of HR and Finance

The School of Systems Biology offers undergraduate and graduate degree programs in bioinformatics and computational biology, and graduate degree programs in biology and biosciences. The school also offers research opportunities at the graduate and undergraduate levels. For additional details about current faculty research activities, please visit the school’s website.

The School of Systems Biology works closely with and provides faculty and administrative support to the Department of Biology (p. 617), through which the Biology, BA (p. 619) and Biology, BS (p. 624) degrees are offered. An accelerated master’s option is also available.

### Faculty

#### School Faculty

**Professors**

- Bailey (distinguished), Chandhoke, Jafri, Kashanchi, Klimov, Liotta, Petricoin, Popov, Seto, Vaisman (acting director), Willett, Wu

Requirements & Policies

Policies
Students are governed by the university’s policies (p. 74).

Using Laboratories
Only authorized experiments and exercises may be carried out in the school’s research and teaching laboratories and must be done under the supervision of a university faculty or staff member. No unauthorized work is allowed in any laboratory.

Using Organisms in Classes
Direct observations of actual organisms are considered an essential part of learning biology at all levels. Direct observations of organisms may involve the use of living or preserved specimens, dissections of organisms or parts of organisms, and microscopic examination of organisms or parts of organisms. All use of live animals conforms to National Institutes of Health guidelines for the use and care of laboratory animals. Activities specified above may be a required part of a course and thus serve as a basis for grading in the course. Any questions about the administration of this policy should be directed to the course coordinator or instructor.

This degree addresses the regional and national need for technically trained managers who will be able to lead teams of bioinformaticians in both the public and private sectors. The degree combines a solid foundation in bioinformatics research, tools, and techniques, with the management skills needed to address the associated legal, ethical, managerial, and business issues. The degree is intended for:

• Students seeking advancement in their current bioinformatics careers that requires an advanced degree in bioinformatics combined with management expertise.
• Students with a general background in biological science or computational methods who are planning to enter the field of bioinformatics as managers and would like to strengthen their bioinformatics and managerial expertise.

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Eligibility
Applicants should have a bachelor’s degree in biology, computer science, or a related field, with a GPA of at least 3.00 in their last 60 credits of study. Applicants should have taken courses in molecular biology, computer science, calculus, physical chemistry, and statistics. Students with deficiencies in one or more of these areas may be required to take additional courses from the undergraduate curriculum.

Application Requirements
To apply, prospective students should submit the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), supply two copies of official transcripts from each college and graduate institution attended, a current résumé, and an expanded goals statement. Applicants should also include three letters of recommendation and official scores obtained on the GRE general exam. The GRE requirement will be waived if the student holds a master’s degree from a U.S. institution. TOEFL or IELTS scores are required of all international applicants.

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Requirements

Website: ssb.gmu.edu

This Professional Science Master’s (https://www.professionalsciencemasters.org) (PSM) degree addresses the growing demand for trained bioinformatics professionals with solid management skills able to assume leadership roles in biotechnology, pharmaceutical and health care sectors. The flexible degree structure allows students to custom design a curriculum that best suits their needs and allows a focus on the biological big data analysis, genomics, or bioinformatics software development and management. Students will receive advanced training in bioinformatics and management through coursework and an external internship. The curriculum was developed with active input from the Program Advisory Board consisting of recognized leaders in the field. Many courses are offered in a distance-learning format, allowing students to participate in class without having to travel to campus.

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants should have a bachelor’s degree in biology, computer science, or a related field with a GPA of at least 3.00 in their last 60 credits of study. Applicants should have taken courses in molecular biology, computer science, calculus, physical chemistry, and statistics. Students with deficiencies in one or more of these areas may be required to take additional courses from the undergraduate curriculum. To apply, prospective students should submit the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), supply two copies of official transcripts from each college and graduate institution attended, a current résumé, and an expanded goals statement. Applicants should also include three letters of recommendation and official scores obtained on the GRE general exam. The GRE requirement will be waived if the student holds a master’s degree from a U.S. institution. TOEFL or IELTS scores are required of all international applicants.

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Requirements

Degree Requirements
Total credits: 31

Students should refer to the Admissions & Policies (p. 750) tab for specific policies related to this program.

Due to the varied course options and their associated prerequisites, students are encouraged to create a program of study with their faculty advisor by the end of their first semester of studies.

Bioinformatics Courses

<table>

Internship

The internship component is intended to provide students with the opportunity to put into practice all of the skills and knowledge accumulated throughout their studies in this program. Students must arrange an internship with a private company, a governmental agency, a non-governmental organization, or some other entity with an interest in bioinformatics and management. Students must identify a specific person within that outside entity who will be the contact and manager of the internship.

Internship credit is never given for work previously done, or for work that would have been done in any case due to an existing employment relationship.

The internship work must produce one or more products such as: a comprehensive report, a departmental presentation, a research project, or an article. Internship placement and product type must be approved by the student's faculty advisor.

Further details and procedures for completing the internship can be found with the faculty advisor.

Three credits of internship

Science and Technology Campus
Phone: 703-993-8400
Email: binf@gmu.edu
Website: ssb.gmu.edu

This graduate certificate addresses the growing national and regional demand for trained computational biologists by combining a solid foundation in biotechnology with computational skills relevant to bioinformatics. With online and in-classroom courses, the flexibility of this certificate's structure permits students to custom design their curriculum under an advisor's guidance, making the graduate certificate especially relevant for students employed in today's diverse Northern Virginia high-technology workplace. Ideal candidates for this certificate are those who have a background in biological and computer sciences, and are currently working in or planning to enter the fields of biotechnology or bioinformatics. The certificate is also highly relevant for students who are interested in advancing their career goals but may not have adequate time available to undertake a graduate degree program.

All courses are also offered online, allowing students to participate in class without having to travel to campus. Further information can be found with Mason Online (http://masononline.gmu.edu).

The certificate may be pursued on a part-time or full-time basis.

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Applicants should hold a BA or BS degree in a discipline related to biological or computer science from a regionally accredited university, with a minimum GPA of 3.00. Applicants should have taken courses in molecular biology, computer science, calculus, physical chemistry, or statistics, and should also possess working knowledge of a computer programming language. To apply, prospective students should complete a George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), supply two copies of official transcripts from each college and graduate institution attended, and a current résumé. TOEFL scores are required of all international applicants.

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).
Premium Tuition

The certificate is a professional certification program that charges students at a differential (premium) tuition rate, with an additional $100 per credit added to the standard George Mason University graduate tuition rate for students who enroll in this certificate program, regardless of in-state or out-of-state status. The differential tuition is used to fund continuing improvements in the College of Science's (COS) educational facilities used to support the certificate program.

Students may not pursue this certificate concurrently with any other graduate degree program or certificate program offered by COS. In addition, students may not apply previous credit hours from another certificate, degree, or non-degree studies to this certificate program because of the differential (premium) tuition rate.

Requirements

Certificate Requirements

Total credits: 15

Students should refer to the Admissions & Policies (p. 752) tab for specific policies related to this program.

Science and Technology Campus

Phone: 703-993-8400
Email: binf@gmu.edu
Website: ssb.gmu.edu

In the field of bioinformatics and computational biology, specialists collect, store, analyze and present complex biological data. Through this work, critical contributions are made to basic biology, disease detection, drug design, modeling biosystems, forensics, agriculture, and environmental sciences through the combination of biological analysis and high-performance computing. This degree addresses the growing national and regional demand for trained computational biologists. It combines a solid foundation in biotechnology with the computational skills required for bioinformatics. The flexibility of the degree structure permits students to custom design their curriculum under an advisor's guidance, making the program especially relevant for students employed in today's diverse biotechnology workplace. Students completing the program are qualified to pursue careers that require knowledge of current bioinformatics methods and applications, and the ability to develop and/or use new bioinformatics software.

Courses are generally offered in the late afternoon or early evening to accommodate students with full-time employment outside the university. Students employed at area biotechnology organizations may take up to 6 credits (out of 31) for bioinformatics work done on the job, under the guidance of a faculty member. This work-related project may be applied as either a 3-credit research project or a 6-credit master's thesis.

All courses are also offered online, allowing students to participate in class without having to travel to campus. Further information can be found on with Mason Online (http://masononline.gmu.edu).

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Eligibility

Applicants should have a bachelor's degree in biology, computer science, or a related field, with a GPA of at least 3.00 in their last 60 credits of study. Applicants should have taken courses in biology, computer science, calculus, physical chemistry, and statistics. Students with deficiencies in one or more of these areas may be required to take additional courses from the undergraduate curriculum.

Application Requirements

To apply, prospective students should complete a George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), supply two copies of official transcripts from each college and graduate institution attended, a current résumé, and an expanded goals statement. Applicants should also include three letters of recommendation and official scores obtained on the GRE general exam. The GRE requirement will be waived if the student holds a master's degree from a regionally accredited U.S. institution. TOEFL scores are required for all international applicants.

Policies

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).
Requirements

Degree Requirements

Total credits: 31

Students should refer to the Admissions & Policies (p. 753) tab for specific policies related to this program.

In the field of bioinformatics and computational biology, specialists collect, store, analyze, and present complex biological data. Through this work, critical contributions are made to disease detection, drug design, forensics, agriculture, and environmental sciences through the combination of biological analysis and high-performance computing. The main objective of this doctorate is to educate the next generation of computational biologists for careers in academia, industry, and government. The program provides students with interdisciplinary academic training that includes fundamental bioscience courses as well as core and advanced courses in bioinformatics. Courses are designed to be completed in approximately two years. Completion of coursework, the comprehensive exam, and a successful dissertation proposal results in advancement to candidacy status. In the final phase, students focus on research that culminates in a dissertation.

The program is structured to be accessible for full and part-time students. Many of the courses are offered in a distance-learning format, allowing students to participate in class without having to travel to campus; visit Mason Online (http://masononline.gmu.edu) for details.

Admissions & Policies

Admissions

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Eligibility

Applicants should have a bachelor’s degree in biology, computer science, or a related field, with a minimum GPA of 3.25 in the last earned degree. Applicants should have taken courses in molecular biology, cell biology, biochemistry, genetics, calculus, physical chemistry, computer programming and data structures, and probability and statistics. Students with deficiencies in one or more of these areas may be admitted provisionally and required to take additional courses, some of which may not be applicable to the degree’s course total. Students whose undergraduate record does not include basic biochemistry will be required to take a basic course prior to BINF 701 Systems Biology.

Application Requirements

To apply, prospective students should submit the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), two copies of official transcripts from each college and graduate institution attended, a current résumé, and an expanded goals statement. Applicants should also include three letters of recommendation and an official report of scores obtained on the GRE general exam. Scores should be in the 45th percentile or above. The GRE requirement for admission to the doctoral program will be waived if the student holds a master’s degree from a regionally accredited U.S. institution. TOEFL or IELTS scores are required of all international applicants.

Policies

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).
Reduction of Credits
For students entering the doctoral program with a master's degree in a related field from a regionally accredited institution, the number of required credits may be reduced up to 30 credits, subject to approval of the program director and the college's associate dean for student affairs. See AP.6.5.2 Reduction of Credits (p. 88) for more information.

Requirements

Degree Requirements
Total credits: 72

Students should refer to the Admissions & Policies (p. 754) tab for specific policies related to this program.

Total Credits 48-60

Doctoral Committee and Advancement to Candidacy
By the end of the semester when coursework is completed, the student must form a doctoral committee made up of a minimum of three graduate faculty members and take a written comprehensive exam. The exam includes written and oral components. Upon passing the comprehensive exam and submitting an acceptable dissertation proposal, the student is advanced to doctoral candidacy to begin the dissertation writing phase.

Dissertation Research
A minimum of 12 and a maximum of 24 combined credits from BINF 998 Doctoral Dissertation Proposal and BINF 999 Doctoral Dissertation may be applied toward satisfying doctoral degree requirements. Students must take at least 3 credits of BINF 999 Doctoral Dissertation.

Select 12-24 credits from the following: 12-24

<table>

</tr>
</tbody>
</table>

Total Credits 12-24

Doctoral Dissertation
After advancing to doctoral candidacy, students work on their doctoral dissertation while enrolled in BINF 999 Doctoral Dissertation. The dissertation should represent a significant contribution that is suitable for publication in a refereed scientific journal. The dissertation must be defended in a public forum before the dissertation committee and other interested faculty.

Biology, MS

Banner Code: SC-MS-BIOL

Ancha Baranova, Program Director

Website: ssb.gmu.edu

This program provides advanced training for college graduates or professionals seeking careers in the biomedical research, biotechnology, neuroscience or biodefense, as well as evolutionary and animal biology, animal biology and biology teaching. Master’s level concentrations are available in microbiology and infectious disease, molecular biology, neuroscience, evolutionary biology, and translational and clinical research. Alternatively, students may choose the program in general biological sciences, which allows flexibility to build a degree program tailored to a specific research or career interest.

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

While each applicant’s qualifications are reviewed as a whole, the following are provided: Applicants to the program must have a bachelor’s degree in biology or its equivalent. Additionally, all MS concentrations require a GPA of 3.00 in biology coursework or in the last 60 credits of undergraduate study. Students must also submit three letters of recommendation and scores on the GRE general exam. Exam scores should be in the 45th percentile or above. Admission is contingent on acceptance by a faculty research advisor.

Microbiology and Infectious Disease (MID) Concentration
Students who choose the Microbiology and Infectious Disease Concentration (MID) must have a lecture and lab course in microbiology and a lecture course in biochemistry.

Translational and Clinical Research (TCR) Concentration
Students who choose the Translational and Clinical Research Concentration may submit MCAT scores in place of GRE general exam scores.
Evolutionary Biology (EB) Concentration
Students who choose the Evolutionary Biology Concentration must also submit a personal statement/statement of interest consistent with at least one faculty member’s research program. GRE score should be approximately 303.

Policies
For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Requirements

Degree Requirements
Total credits: 30
Students should refer to the Admissions & Policies (p. 755) tab for specific policies related to this program.

Program of Study
The faculty advisor and the student work together to develop a program of study that best fits the student’s background and interests. The student must submit a program of study to the program director for approval within the first 12 credits of coursework. By the end of the second semester of coursework, students will form a graduate committee made up of three faculty members. At least two committee members must be faculty in the School of Systems Biology (p. 748).

Concentration Options
Candidates for the Biology, MS (p. 755) focus their study in one of five approved concentrations below, or by completing coursework for the program in biological sciences in an area of study chosen in consultation with the student’s advisor and program director.

Research Options
Students have the option to complete a 3-6 credit master’s thesis (BIOL 799 Thesis) or a 1-3 credit research project (BIOL 798 Master’s Research Project). In accordance with AP.6 Graduate Policies (p. 87), the same quality of work is expected of students regardless of which option they choose.

- Thesis: In general, the MS thesis is most appropriate for students planning or considering a research career. Students pursuing the thesis option must write a formal thesis that meets the requirements of the school and must defend their thesis and present their results in a public seminar.
- Research Project: The MS project is most appropriate for students who have scheduling commitments, such as a full-time job, that may preclude performing a complete series of laboratory experiments. Students pursuing the project option must successfully complete written and oral comprehensive exams.

Select a Master’s Thesis or Research Project
BIOL 799 Thesis 3-6
BIOL 798 Master’s Research Project 1-3

MS without Concentration
Program in Biological Sciences

**Research**

1-6 credits

Select one from the following:

- BIOL 798  Master’s Research Project
- BIOL 799  Thesis (3-6 credits)

**Electives**

2-11 credits

Select 2-11 credits, suggested electives include but are not limited to the following:

- BIOL 566  Cancer Genomics
- BIOL 568  Advanced Topics in Molecular Genetics
- BIOL 583  General Biochemistry
- BIOL 666  Human Genetics Concepts for Health Care
- BIOL 682  Advanced Eukaryotic Cell Biology
- BINF 630  Bioinformatics Methods
- BINF 705  Research Ethics
- BIOS 741  Genomics
- BIOS 742  Biotechnology
- BIOS 743  Genomics, Proteomics, and Bioinformatics
- BIOS 744  Molecular Genetics
- NEUR 689  Topics in Neuroscience

**Total Credits:** 30

**MS with Concentration in Evolutionary Biology (EB)**

**Seminar**

3-4 credits

- BIOL 690  Introduction to Graduate Studies in Biology

Select 2 credits from the following:

- BIOL 692  Seminar in Biology
- or BIOL 695  Seminar in Molecular, Microbial, and Cellular Biology
- BIOL 692  Seminar in Biology
- & BIOL 695  and Seminar in Molecular, Microbial, and Cellular Biology

**Core Courses**

6-9 credits

Select at least two courses from the following:

- BIOL 574  Population Genetics
- BIOL 579  Molecular Evolution and Conservation Genetics
- BIOL 648  Population Ecology

**Organismal Biology**

6-8 credits

Select 6-8 credits from the following suggestions in consultation with an advisor and/or committee and the program director:

- BIOL 501  Microbial Diversity: An Organismal Approach
- BIOL 507  Selected Topics in Ecology
- BIOL 508  Selected Topics in Animal Biology
- BIOL 518  Conservation Biology
- BIOL 532  Animal Behavior
- BIOL 533  Selected Topics in Plant Biology

- BIOL 537  Ornithology
- BIOL 538  Mammalogy
- BIOL 539  Herpetology
- BIOL 543  Tropical Ecosystems
- BIOL 559  Fungi and Ecosystems
- BIOL 566  Cancer Genomics
- BIOL 572  Human Genetics
- BIOL 581  Estuarine and Coastal Ecology
- BIOL 582  Estuarine and Coastal Ecology Laboratory
- BIOL 643  Microbial Ecology
- EVPP 536  The Diversity of Fishes

**Molecular Techniques**

4-7 credits

- EVPP 615  Molecular Environmental Biology II
- EVPP 515  Molecular Environmental Biology I

**Research**

1-6 credits

Select one from the following:

- BIOL 798  Master’s Research Project
- BIOL 799  Thesis (3-6 credits)

**Electives**

0-10 credits

Select 0-10 credits of suggested courses from the following, but other courses are allowed if approved by an advisor and/or committee and the program director

- BIOL 508  Selected Topics in Animal Biology
- BIOL 518  Conservation Biology
- BIOL 537  Mammalogy
- BIOL 538  Ornithology
- BIOL 539  Herpetology
- BIOL 543  Tropical Ecosystems
- BIOL 553  Advanced Topics in Immunology
- BIOL 568  Advanced Topics in Molecular Genetics
- BIOL 575  Selected Topics in Genetics
- BIOL 572  Human Genetics
- BIOL 579  Molecular Evolution and Conservation Genetics
- BIOL 581  Estuarine and Coastal Ecology
- & BIOL 582  and Estuarine and Coastal Ecology Laboratory
- BIOL 583  General Biochemistry
- BIOL 585  Eukaryotic Cell Biology Laboratory
- BIOL 666  Human Genetics Concepts for Health Care
- BIOL 682  Advanced Eukaryotic Cell Biology
- BIOL 793  Research in Biology
- BIOS 701  Systems Biology
- BIOS 740  Laboratory Methods in Functional Genomics and Biotechnology
- BIOS 741  Genomics
- BIOS 742  Biotechnology

### Curriculum Notes

- For students concurrently enrolled in the Advanced Biomedical Sciences Graduate Certificate (p. 597), contact your advisor for details regarding:
  - BMED course credit that may be counted towards this concentration
  - Meeting requirements for graduate certificates and requirements for master’s degrees

### Accelerated Master’s

**Biology, BS/Biology, Accelerated MS Overview**

Qualified undergraduates may be admitted into an accelerated master’s program and to obtain both a Biology, BS (p. 624) and a Biology, MS (p. 755) within an accelerated time frame. Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 6 credits of graduate work may be used in partial satisfaction of the requirements for the undergraduate degree. If students earn at least a 3.00 in these classes, they are granted advanced standing in the master’s program and must then complete an additional 24 credits to receive the master’s degree. All other master’s degree requirements must be met, including a minimum of 18 credits taken for the master’s after the bachelor’s degree is complete.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 66) section.
of this catalog. Application information for this accelerated master's program can be found on the School of Systems Biology's website (http://ssb.gmu.edu/admissions).

Successful applicants will have an overall undergraduate GPA of at least 3.20. Additionally, they will have completed the following courses with a GPA of 3.00 or higher:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 213</td>
<td>Cell Structure and Function (Mason Core) (p. 135)</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 214</td>
<td>Biostatistics for Biology Majors</td>
<td>4</td>
</tr>
<tr>
<td>BIOL 308</td>
<td>Foundations of Ecology and Evolution</td>
<td>5</td>
</tr>
<tr>
<td>BIOL 310</td>
<td>Biodiversity</td>
<td>3</td>
</tr>
<tr>
<td>BIOL 311</td>
<td>General Genetics</td>
<td>4</td>
</tr>
<tr>
<td>CHEM 313</td>
<td>Organic Chemistry I</td>
<td>3</td>
</tr>
<tr>
<td>CHEM 315</td>
<td>Organic Chemistry Lab I</td>
<td>2</td>
</tr>
</tbody>
</table>

Three letters of recommendation, including one from a prospective thesis or project advisor, are required.

**Accelerated Option Requirements**

At the beginning of the student’s final undergraduate semester, students must submit a bachelor’s/accelerated master’s transition form (available from the Office of the University Registrar (http://registrar.gmu.edu)) to the College of Science’s Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us). Students must begin their master’s program in the semester immediately following conferral of the bachelor’s degree.

Students must maintain an overall GPA of 3.00 or higher in graduate coursework and should consult with their faculty advisor to coordinate their academic goals.

After completing 120 credits and all requirements for the bachelor’s degree and filing the Graduation Intent Form, students are awarded a bachelor’s degree. Accelerated master’s students must then submit scores on the GRE to have the provisional qualifier removed. Ordinarily, students should receive a minimum combined score of 303 on the verbal and quantitative portions of the general test.

**Reserve Graduate Credit**

While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate credits do not apply to the undergraduate degree.

Website: ssb.gmu.edu

This program is a research-oriented field of study that prepares students for significant contributions in academic or industrial settings. It is broken down into three concentrations: Cell and Molecular Biology, Microbiology and Infectious Disease, and Biocomplexity and Evolutionary Biology.

The academic component is a three-tiered structure. The first tier provides a set of core courses designed to advance research skills across all disciplines. The second tier comprises additional core courses and elective courses. The first two tiers are designed to be completed in approximately two years, including the comprehensive qualifying exam. Only on completion of these requirements, the qualifying exam, and a successful dissertation proposal can the students advance to candidacy status. The third tier focuses on research and culminates in a dissertation.

**Admissions & Policies**

**Admissions**

University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

**Application Requirements**

The following are required of applicants to this program:

- Minimum 3.25 GPA in previous coursework with significant training in the biological sciences.
- Three letters of recommendation from faculty members or individuals who have firsthand knowledge of the applicant's academic or professional capabilities.
- Statement of purpose consistent with the research interests of at least one faculty member in the program.
- Scores on GRE general exam (required) and biology or biochemistry subject exam (recommended) taken within the past five years prior to date of application submission. The GRE exam is waived if applicants hold a master's Degree from a fully-accredited U.S. university at the time of their application.
- A TOEFL score of 795 on the paper-based exam or 230 on the computer-based exam is required of international students.

An interview may also be required. Applications should be submitted by January 1st for fall admission. Under unusual circumstances, applications may be considered for spring admission if they are received by October 1st. Applications will be considered until positions are filled. Students are encouraged to meet application deadlines to be considered for scholarships and stipends.

Strong candidates who lack several prerequisites may be admitted to provisional status. Removal from provisional status and continuation in the program is contingent on earning a GPA of 3.25 in the program's fundamental courses, plus completion of missing prerequisites.

Students who have not taken a course in basic biochemistry will be required to complete one prior to BIOS 701 Systems Biology.

**Policies**

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).
Reduction of Credits
For students entering the doctoral program with a master's degree in a related field from a regionally accredited institution, the number of required credits may be reduced up to 30 credits, subject to approval of the program faculty and the college's associate dean for student affairs.

Transfer of Credit
Graduate credits taken previously and not used toward another degree may be transferred, subject to the approval of the advisor, the program director, and the associate dean. See AP.6.5 Credit by Exam, Reduction or Transfer (p. 88) for more information.

Requirements

Degree Requirements
Total credits: 72
Students should refer to the Admissions & Policies (p. 760) tab for specific policies related to this program.

Students in the doctoral program are required to present two research papers at a meeting or conference any time before graduation.

Doctoral Coursework

Bioscience Core
BIOL 682 Advanced Eukaryotic Cell Biology 3
Six credits or two instances of
BIOS 703 Laboratory Rotation 6
Three credits of
BIOS 704 Topics in Biosciences 3
Total Credits 12

Concentration in Cell and Molecular Biology (CMB)
This concentration prepares students for significant contributions in an academic or industrial research career. Coursework covers microarray analysis of gene expression, proteome analysis, sequencing and analysis of gene polymorphisms, gene and genome evolution, molecular studies of disease mechanisms, mechanisms of toxicology and mutagenesis, developmental neuroscience, and biotechnological applications.

Select 12 credits from the following: 12
BIOS 740 Laboratory Methods in Functional Genomics and Biotechnology
BIOS 741 Genomics
BIOS 742 Biotechnology
BIOS 743 Genomics, Proteomics, and Bioinformatics
BIOS 744 Molecular Genetics
Total Credits 12

Concentration in Biocomplexity and Evolutionary Biology (BEB)
This concentration prepares students for careers in academia, government or industry. Through this concentration students will learn laboratory and quantitative skills that will enable them to investigate evolutionary relationships among organisms at the population, species or ecosystem level. Students will be encouraged to explore a wide range of coursework in order to develop a broad background in evolutionary biology and a deep knowledge of relevant methodologies necessary to keep abreast in this rapidly changing field.

The science of evolutionary biology is fundamentally concerned with documenting not only genetic change, but also the processes that cause it. Evolutionary biology includes paleobiology, population genetics, evolutionary ecology and phylogenetics. Biocomplexity is the study of living organisms, including their unique structural, chemical and genetic properties, their distribution and abundance in nature, and their evolutionary relationships to all other organisms. Given the fact that most of the earth's biodiversity is unknown, collecting, cataloging and studying organisms have always been and will continue to be one of the most challenging aspects of biology.

Select 12 credits from the following: 12
BIOL 574 Population Genetics
BIOL 585 Eukaryotic Cell Biology Laboratory
BIOS 716 Methods in Evolutionary Biology
BIOS 767 Molecular Evolution
Total Credits 12

Electives
Select 24-36 credits from the following lists associated with the chosen concentration:

Cell and Molecular Biology & Microbiology and Infectious Disease Concentrations
BIOL 564 Techniques in Virology
BIOL 568 Advanced Topics in Molecular Genetics
BIOL 579 Molecular Evolution and Conservation Genetics
BIOL 580 Computer Applications for the Life Sciences
BIOL 685 Emerging Infectious Diseases
BIOS 701 Systems Biology
BIOS 702 Research Methods
BIOS 710 Current Topics in Bioscience
BIOS 740 Laboratory Methods in Functional Genomics and Biotechnology
Total Credits 24-36
BIOS 741  Genomics
BIOS 742  Biotechnology
BIOS 743  Genomics, Proteomics, and Bioinformatics
BIOS 744  Molecular Genetics
BIOS 760  Seminar in Molecular Systematics
BIOS 898  Directed Studies in Biosciences
BIOS 899  Directed Research in Biosciences
BINF 633  Molecular Biotechnology
BINF 636  Microarray Methodology and Analysis
BINF 705  Research Ethics

Biocomplexity and Evolutionary Biology Concentration

BIOL 506  Selected Topics in Microbiology
BIOL 507  Selected Topics in Ecology
BIOL 508  Selected Topics in Animal Biology
BIOL 518  Conservation Biology
BIOL 532  Animal Behavior
BIOL 533  Selected Topics in Plant Biology
BIOL 537  Ornithology
BIOL 538  Mammalogy
BIOL 539  Herpetology
BIOL 543  Tropical Ecosystems
BIOL 559  Fungi and Ecosystems
BIOL 561  Comparative Animal Physiology
BIOL 566  Cancer Genomics
BIOL 572  Human Genetics
BIOL 573  Developmental Genetics
BIOL 643  Microbial Ecology
BIOL 715  Microbial Physiology
BIOS 741  Genomics
BIOS 742  Biotechnology
BIOS 743  Genomics, Proteomics, and Bioinformatics
BIOS 744  Molecular Genetics
BIOS 898  Directed Studies in Biosciences
BIOS 899  Directed Research in Biosciences
EVPP 536  The Diversity of Fishes
GEOL 501  Selected Topics in Modern Geology (may be repeated once)
GEOL 534  Vertebrate Paleontology

Total Credits 24-36

1 Students may take other courses related to their research topic if approved by their committee. Courses in Geographic Information Systems or Statistics are encouraged.

Dissertation Committee

Upon admission to the program, each student is assigned an advisor from the bioscience faculty. The advisor may be changed by mutual consent of student and advisor, or petition to the program director and associate dean. With their advisor, students adopt an individual program that focuses on a specific area of research.

By the end of the fourth semester of coursework, students assemble a dissertation committee of four graduate faculty members with representation from at least two academic departments. The faculty advisor and the program director approve the program of study.

Qualifying Examination

On nearing completion of course requirements, students take a qualifying exam with a written and an oral component. At the discretion of the committee, the written qualifying exam may be retaken once if the student’s performance was deemed below satisfaction.

Advancement to Candidacy

Upon successful completion of the qualifying exam, the majority of all coursework, and an accepted dissertation proposal, students will be recommended for advancement to candidacy by the committee and the program director.

The semester after advancement to candidacy, students are eligible to enroll in dissertation research (BIOS 999 Doctoral Dissertation Research). Students must review their progress on the dissertation with their graduate committee on a regular basis until graduation.

Dissertation Research

No more than 24 combined credits from BIOS 998 Doctoral Dissertation Proposal and BIOS 999 Doctoral Dissertation Research may be applied toward satisfying doctoral degree requirements. Students register for a minimum of 3 credits of BIOS 999 Doctoral Dissertation Research in the first semester of advancement.

Select 12-24 credits from the following:

<table>
<thead>
<tr>
<th>BIOS 998</th>
<th>Doctoral Dissertation Proposal</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOS 999</td>
<td>Doctoral Dissertation Research</td>
</tr>
</tbody>
</table>

Total Credits 12-24

Doctoral Dissertation

After advancing to doctoral candidacy, students work with their dissertation committee to develop their dissertation proposal into a completed doctoral dissertation. The dissertation research should represent a significant contribution that is publishable in a refereed scientific journal. When the dissertation is complete, students will present their results to their graduate committee and defend their dissertation in a public forum.

Personalized Medicine Graduate Certificate

Banner Code: SC-CERG-PRSM

Academic Advising

Colgan Hall, Room 312
Science and Technology Campus
Phone: 703-993-8400
Email: biologygrad@gmu.edu
Website: ssb.gmu.edu

This certificate is based upon a set of core courses that currently support the Biology, MS (p. 755); the Biosciences, PhD (p. 760); the Bioinformatics and Computational Biology, MS (p. 749); and the Bioinformatics and Computational Biology, PhD (p. 754) degree programs. Students completing this certificate will receive the most up-to-date advanced education available in the region. Completion of the
Certificate will enhance the careers of those students who are already working in this area, and can also serve as a useful intermediate step towards later enrollment in master’s or doctoral programs.

Courses are generally offered in the late afternoon or in the evening to accommodate students with full-time employment outside of the university.

This certificate may be pursued on a part-time or full-time basis.

Admissions & Policies

Admissions
University-wide admissions policies can be found in the Graduate Admissions Policies (p. 66) section of this catalog.

To apply for this program, please complete the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now).

Prospective students should hold an undergraduate GPA of 3.00 or current employment in clinical or translational research, diagnostics lab, or biological data analysis field.

To be considered for admission, applicants must submit the George Mason University Admissions Application (https://www2.gmu.edu/admissions-aid/apply-now), all undergraduate transcript(s), three letters of recommendation, a statement of interest, and GRE general scores or MCAT scores.

Policies
Students may not enroll initially in any College of Science master’s or doctoral program and later transfer into this certificate program.

For policies governing all graduate programs, see AP.6 Graduate Policies (p. 87).

Premium Tuition
This certificate charges students a differential tuition rate of $100 per credit hour, which is added to the standard graduate tuition rate (regardless of in or out of state status).

Requirements

Certificate Requirements
Total credits: 15

Students should refer to the Admissions & Policies (p. 763) tab for specific policies related to this program.

College of Visual and Performing Arts

C211 College Hall
Fairfax Campus
MSN: 1H4
Phone: 703-993-4551
Website: cvpa.gmu.edu

Administration

• Rick Davis, Dean
• Lisa C. Kahn, Associate Dean
• Nicole Springer, Assistant Dean for Academic Affairs
• Andrew Bursten, Director Finance and Administration, CFO
• Julie Thompson, Executive Director, Center for the Arts

College Code: AR

The mission of the College of Visual and Performing Arts (CVPA) is to advance the study, creation, performance, exhibition, and management of the arts, acting on the strong belief in their transformative influence on individuals and civilizations. Fusing the academic and the professional, the campus and the community, the past and the present, CVPA seeks to engage new art forms, populations, and ways of working to meet the needs of a changing world both inside and beyond the walls of the university. The College strives to ensure that Mason’s entire student population has the opportunity to experience and study the arts as a key component of a well-rounded liberal education.

Studying the arts goes hand in hand with creation, performance, and management. Each major features strong academic preparation in the history and theory of the art form in support of discipline-based technique courses. The college’s faculty of practicing artist-teachers-managers works closely with students in a variety of curricular and co-curricular creative projects. Once basic techniques are established,
students are encouraged to stretch, grow, and experiment within this supportive environment, enhancing their experience as working artists while enriching the cultural life of the campus community.

An education in the arts is deepened by regular contact with the work of distinguished visiting artists. The college is home to the Center for the Arts (http://cfa.gmu.edu) on the Fairfax campus and the Hylton Performing Arts Center (https://hyltoncenter.org) on the Science and Technology campus, both of which present diverse programs of cultural experiences for the entire university community, as well as Northern Virginia and the greater Washington, D.C., area. Artists from across the country and around the world regularly perform, give master classes, work with students during extended residencies, and interact with the community in a variety of other ways. The accessibility and vitality of the Concert Hall, Hylton Center, TheaterSpace, the School of Art Gallery, Johnson Center Cinema, Harris Theater, and other campus and regional venues provide an unparalleled educational experience in the arts.

Requirements & Policies

General Academic Policies
The requirements for each academic program offered by the college are described in the sections below. Students are ultimately responsible for their academic progress towards their degrees. All students are subject to the university’s general academic policies in addition to those specific to each academic unit.

Accommodations for Disabled Students
Students with documented disabilities should contact the Office of Disability Services (http://ods.gmu.edu) (Student Union I, Room 222; 703-993-2474) to open a file and learn more about accommodations that may be available to them.

Auditing
Students who wish to audit a course must obtain written permission from the instructor before registering for the class. Students do not receive grades or credit for audited courses. A student who audits a course does so for the purposes of self-enrichment and academic exploration and are not required to actively participate in class assignments, presentations, or exams. The course is offered only on a space-available basis with the approval of the instructor. It is expected that auditing students will respect all class rules and practices.

The Course Audit Form can be found on the Registrar’s website (http://registrar.gmu.edu). The form must be submitted to the Office of the University Registrar by the last day to drop the course.

Note: A previously audited course may be taken again for credit in a later term. Students may also audit a course previously taken and passed; however, students may not change from credit to audit status nor from audit to credit status after the end of the drop period, as defined above. The usual tuition and fees apply to audit status.

Auditing Courses under the Senior Citizen Waiver Program
Under terms of the Senior Citizen Higher Education Act of 1974, eligible Virginia residents (requires legal domicile for one year) that are 60 years of age or older are entitled to enroll to audit (no academic credit received) up to three academic credit courses per semester and pay no tuition or fees, except fees established for the purpose of paying for course materials or laboratory fees.

For more information on policies and procedures, please refer to the Registrar’s website (https://registrar.gmu.edu/topics/senior-citizen-waiver).

E-mail
George Mason University uses only Mason e-mail accounts to communicate with enrolled students. Students should activate their Mason e-mail, use it to communicate with their school/department/program and other administrative units, and check it regularly for important information.

Registration
Students are personally responsible for correctly registering for courses and paying all tuition and fees by the official university registration and payment deadlines. Instructors do not have the authority to add students to courses. All students should verify the accuracy of their enrollment before the end of the add and drop periods.

Questions about Academic Policies
Students with questions regarding exceptions to academic policies should contact the CVPA Academic Affairs Office (College Hall, C200; 703-993-4551).

Undergraduate Policies and Information

Degree Programs
The undergraduate degree consists of course work in the Mason Core (p. 135), a major area of study, and electives. To earn a bachelor’s degree, students must complete a minimum of 120 credits, of which at least 45 must be upper level courses (numbered 300 and above). At least one course at the 300 or 400 level must be designated “writing intensive.”

Academic Course Load
Undergraduate students earning degrees in CVPA may register for 18 credits per fall and spring semester without the dean’s permission. Students are advised that they will be required to pay additional tuition beyond the 16-credit, university full-time academic load. Students should be cognizant of the time commitment when they register for their courses, especially if they register for high numbers of credits. Students are urged to consult with their advisor and familiarize themselves with Mason guidelines for work and academic load. Students are reminded that employment must not take priority over course work.

Advising
Students are assigned advisors and are strongly encouraged to meet with them periodically, and particularly when they achieve 75 credits or are two semesters before expected graduation. Undeclared CVPA students and undergraduate students in academic difficulty (cumulative GPA under 2.00) are required to see an advisor prior to registration for the semester following registration restriction.

Minimum Cumulative GPA in Major
Undergraduate students earning CVPA degrees must earn a minimum 2.00 cumulative GPA in their major, or higher, if required by their program.

Foreign Language Requirement
Some degrees within CVPA require intermediate-level proficiency in one foreign language or the completion of a minor, double major or double degree. The foreign language requirement may be fulfilled by completing a course in a foreign language numbered 202, 209, or 210 (or higher level courses taught in the language) or achieving a satisfactory score on
an approved proficiency test. International students should consult the CVPA Student Academic Affairs Office about a possible waiver of this requirement.

**Leave of Absence**

All undergraduate students who are planning an absence from George Mason must submit a formal request for Leave of Absence to the Office of the University Registrar. Students do not need to complete the Leave of Absence form if they are participating in a George Mason University sponsored study abroad program or have received permission to study elsewhere. The maximum time allowed for a Leave of Absence is two years. A new admission application will be required if a student is away for more than 2 academic years OR a Leave of Absence form was not submitted. Re-admission is not guaranteed. See AP.1.8 Undergraduate Leave of Absence (p. 78) for full university policy.

**Mason Core Program**

The baccalaureate degree requires students to take a range of courses that provide a broad knowledge of the world, develop the ability to think both conceptually and critically, acquaint them with many different methods of inquiry, and provide the skills to continue intellectual growth throughout their lives. Students select from a range of courses outlined in the Mason Core (p. 135) section. Students accepted into the Honors College fulfill some/all of their Mason Core (p. 135) requirements with completion of that program of study. Students are strongly advised to consult the University Mason Core (p. 135) page.

**Minors**

Some degrees within CVPA require a minor or intermediate-level proficiency in one foreign language. University policy states that students must earn 8 distinct credits toward their minor that are not used for their major. Some programs have more specific criteria for applying credits to a minor.

**Physical Education Courses**

Activity courses offered by the College of Education and Human Development cannot be counted toward credits required for a degree in CVPA. Students may take non-activity RECR courses for elective credit for CVPA degrees.

**Prerequisites**

Undergraduate students must earn a C or better in prerequisite courses to proceed to the next course.

**Study Elsewhere**

Students with fewer than 60 hours of transfer coursework (not including registration through the Consortium of Universities of the Washington Metropolitan Area or coursework completed through the Center for Global Education) may take up to 12 hours of coursework in CVPA disciplines at another institution. A student may seek permission for additional hours beyond these limits for summer registration if his/her permanent residence is more than 50 miles from the George Mason University Fairfax campus. Students must advance, written approval from the student’s dean and the course dean’s office. Students who enroll elsewhere without advance written permission while enrolled at Mason will not receive transfer credit for the course work taken at another institution unless they re-apply for admission to Mason as transfer applicants and meet all priority deadlines. Re-admission is not guaranteed and transfer credit is awarded based upon course equivalences in effect at the time of re-admission. Freshmen and transfer students in their first semester at Mason are not permitted to study elsewhere. Courses previously attempted at Mason (including withdrawals) cannot be taken elsewhere. Schools and Colleges have study elsewhere criteria for courses in their disciplines in addition to University policy. Students must be in good standing with a minimum cumulative GPA of 2.00 in their Mason courses. See AP.1.4.2 Permission to Study Elsewhere (p. 76) for additional information.

**Transfer of Credit**

Transfer students must resolve transfer credit issues within the first academic year of enrollment.

Undergraduate students may transfer a maximum of 18 credits earned in nondegree status into a degree program.

**Withdrawals**

Students are responsible for all courses in which they remain officially enrolled once the drop period has ended.

Undergraduates enrolled in degree programs are eligible to withdraw from three classes through the ninth week (of a fifteen week semester) without dean’s approval and at the student’s own discretion during their entire undergraduate career at Mason. See AP.1.5.1 Selective Withdrawal (p. 78) for Undergraduates for further details.

Instructors do not have the authority to withdraw students from classes. Withdrawals other than Selective Withdrawals require the approval of the academic dean and are typically allowed only for full semesters at a time (all enrolled courses) and are only permitted for non-academic reasons. No withdrawals can be approved to avoid an unsatisfactory grade. When submitting a withdrawal request, students must provide original, verifiable, third-party documentation for the reason for the withdrawal. Requests for withdrawals should be submitted as early in the semester as possible, and never after the last day of classes.

**Graduate Policies and Information**

For items not listed below, please refer to the university’s policies: AP.6 Graduate Policies (p. 87).

**Admissions**

CVPA follows university policies for graduate admissions. Some programs ask for additional admissions requirements. Please refer to the program for a listing of all requirements.

All applicants, regardless of admission or not, will have their decision uploaded through their self-service center. Applicants will be notified that their decision is ready for their review via email to the address they provided at the point of application. Applicants will not be told decisions over the phone or in-person. Applicants who do not meet our minimum requirements (e.g., GPA, test scores, pre-screening requirements, portfolio requirements) may be issued a denial decision before their application is completed.

The College of Visual and Performing Arts does not offer an appeal process for admissions decisions. Applicants are welcome to file a new application for a future semester.

**Graduate Programs**

CVPA’s graduate programs offer highly focused study designed to prepare students for professional work in the arts and education. The requirements for each graduate degree are described under the program’s catalog entry.
Transfer of Credit
Graduate credit earned prior to admission to a certificate, master’s, or doctoral program may be eligible to be transferred and applied to a CVPA graduate program, certificate or doctoral degree. Please see AP 6.5.3 Transfer of Credit (p. 88) for more detailed information about the requirements.

Appeals Process

Appeals of Academic Procedures
See Appeals of Academic Procedures (p. 96) for University Policies.

CVPA Procedures for Grade Appeal
Although faculty members are generally the best judges of student performance in their classes, circumstances may cause a student to believe that a professor has made an unfair grade decision. Therefore, a Grade Appeal process has been established to ensure a fair hearing in such cases. Grade appeals are not accepted after the last day of classes for the following semester, as indicated in the Schedule of Classes (spring for fall grades, fall for spring and summer grades). The process for initiating and resolving a Grade Appeal is as follows:

1. The first step to resolve differences between an instructor and student concerning a grade should be a discussion with the instructor; this meeting should occur within two weeks of the student’s written request for a meeting; if the instructor is no longer affiliated with the University, the appeal is made to the Program Director.
2. If the instructor and student cannot resolve the issue, and the student wishes to pursue the matter further, he or she must present to the Program Director, a written appeal including the following:
   • A description of the outcome of the informal discussion process.
   • Any relevant documents the student would like to have reviewed as part of the appeal process.
   • A copy of the course syllabus and assignment descriptions.
   The Program Director will discuss this appeal with the faculty member and will provide the student with written notification of the outcome within 1 week.
3. Failing a satisfactory resolution, the student may appeal the grade by submitting a written appeal to the CVPA Academic Affairs Office. Undergraduate students will submit their request to Assistant Dean Nicole Springer; graduate students will submit their requests to Associate Dean Dr. Lisa Kahn in the Academic Affairs Office.

The decision of the CVPA Assistant or Associate Dean is final.

CVPA Procedures for Appeal of an Academic Action
In exceptional circumstances a student may request a meeting to review the decision of an academic action.

1. The student must state in writing the reasons for requesting further appeal of an academic action, and provide any additional or new information relevant to the appeal.
2. The Assistant Dean (undergraduate)/Associate Dean (graduate) for Academic Affairs reviews all appeals.
3. The dean will conduct a review of the documentation provided by the student, and may request additional information in order to make an informed decision.
4. A nonparticipating observer of the student’s choice may attend the meeting with the dean, and the dean may also have a nonparticipating observer attend.
5. The student may follow University appeal procedures outlined in Appeals of Academic Procedures (p. 96).

CVPA Procedure for Non-Academic Appeals or Grievance
A student who intends to file a non-academic appeal, or intends to file a grievance against a faculty member, another student, or administrator undertakes the following steps:

1. The student meets with the professor and Program Director to discuss the non-academic appeal/grievance; this meeting should occur within two weeks of the student’s written request for a meeting; if the person is no longer affiliated with the University, the request is made to the Department or Program Director only.
2. The professor (Program Director) responds to the student within three days of the meeting.
3. If the student wishes to continue the non-academic appeal/grievance, the student must submit a written explanation to Academic Affairs Office. The Associate Dean reviews all non-academic appeals and grievances, and has the final decision for the college
4. The student may follow additional University appeal procedures outlines in Appeals of Academic Procedures (p. 96).

Academic Termination from an Undergraduate Program
Termination from a major may be imposed as a result of excessive repeating of required courses without achieving the minimum standard, and for other evidence of continued failure to make adequate progress toward completion of the major. Some programs have specific criteria for termination from the major. See the program and AP 5.2.4 Termination from the Major (p. 85).

Academic Dismissal from an Undergraduate Program
A third suspension results in academic dismissal from the university. See AP 5.2.6 Academic Dismissal (p. 85) for details.

Academic Dismissal from a Graduate Program
The Office of the University Registrar contacts students via e-mail if they have earned an academic warning, or dismissal. Students wishing to appeal should contact the CVPA Graduate Programs Office within three days of the e-mail date. A deadline for the appeal documentation is determined, normally two weeks. Students are to submit:

1. A written statement explaining the circumstances that led to the dismissal, along with supporting documentation from employers, physicians, or other sources as necessary;
2. Evidence that the circumstances precipitating the unsatisfactory academic performance have been remedied;
3. Statement from department and program’s graduate coordinator supporting the student’s continued enrollment at the University.

Upon receipt of the above,
1. The Associate Dean of Academic Affairs reviews the appeal.
2. The final decision of the Associate Dean is forwarded to the student and the Office of the University Registrar.
3. The student may follow University appeal procedures outlined in Appeals of Academic Procedures (p. 96).
For these, and any other academic concerns, students are encouraged to contact George Mason University’s Ombudsman for Student Academic Affairs (p. 105). The ombudsman is a neutral, independent, informal, and confidential party who provides assistance to students in resolving university-related concerns. The ombudsman is an advocate for fairness and the equitable treatment of students, operates independently of all formal grievance processes at the university, and considers all sides of an issue in an impartial and objective manner. The ombudsman has no authority to make exceptions or to grant requests but can perform informal investigations and, as a result, may recommend actions that lead to changes in processes and policies at the university. Meetings with the ombudsman are confidential. The ombudsman serves all undergraduate and graduate students at the university.

The MFA in Visual and Performing Arts is a terminal degree which prepares students as professional artists and scholars who can work within their specialty and teach at the university level. Creative work and skill building are at the core of the study. The curriculum is designed for serious and talented students who are prepared to examine modes of creative inquiry in an inclusive, unique environment that promotes exploration, analysis, synthesis, and development as artists.

### Admissions & Policies

#### Admissions

**Concentration in Dance**

The MFA in Visual and Performing Arts, concentration in Dance, is a highly selective 60-credit program of study grounded in the modern dance genre that emphasizes mastery in performance, choreography, and teaching in higher education. Applicants must have significant (5 years or more) professional performance experience in modern or ballet at the national or international level. They must also demonstrate professional competence in choreography as exemplified by a significant body of work, and have experience teaching technique at the advanced level.

All MFA applicants are required to submit the following items:

- Online Application and Fee
- Official transcripts from each institution of higher education attended
- 3 letters of recommendation
- Resume
- Goals Statement

The following should be sent directly to the School of Dance via SlideRoom:

- 15-minute video of original choreography
- Artistic Goals Statement
- Resume
- Applicant must satisfy the following prerequisites: advanced dance technique, improvisation, dance composition, history, anatomy/kinesiology, and dance production. Prerequisite courses are usually fulfilled if the applicant has earned a BA or BFA in Dance.

Qualified students will be invited for an audition after review of application materials.

#### Concentration in Graphic Design

All MFA applicants are required to submit the following items:

- Online Application and Fee
- Official transcripts from each institution of higher education attended
- 3 letters of recommendation
- Resume
- Goals Statement

Additional Requirements for Concentration in Graphic Design:

- Portfolio
- Writing Sample: A critical and historical essay or academic paper on a design- (preferred) or art-related topic.

**Portfolio Guidelines**

The applicant’s portfolio is a major selection criterion for graduate admission and should represent the applicant’s most accomplished work.

The portfolio and all other application materials should be submitted to the Office of Graduate Admissions. For more information, contact the School of Art office at 703-993-8898.

Portfolios should include 20 samples of design work submitted through SlideRoom. Samples must be labeled with: name of artist, title, and date. Videos and Flash files (no more than 4 minutes for each section) must be playable through SlideRoom. In the case of collaborative work, the applicant’s role should be clearly stated.

#### Concentration in Theater

Theater MFA students are admitted to a specific emphasis: acting, design & technology, directing, musical theater, or playwriting & dramaturgy. Specific programs of study will be designed for each individual, based on previous experience and expertise.
Admissions Requirements
All MFA applicants are required to submit the following items:

- Online Application and Fee
- Official transcripts from each institution of higher education attended
- 3 letters of recommendation
- Resume
- Goals Statement

Additional requirements for concentration in Theater:

- Portfolio
- Interview or Audition

Portfolio Guidelines
The applicant’s portfolio is a major selection criterion for graduate admission and should represent the applicant’s most accomplished work. The portfolio and all other application materials should be submitted to the Office of Graduate Admissions. For more information, contact the School of Theater office at 703-993-1120.

Portfolio requirements are different for each graduate area of emphasis and are listed below. Incomplete portfolios will not be considered. Applicants’ portfolio items are considered part of the application for admission and, thus, cannot be returned. Please do not send original materials.

Portfolio Requirements by Area of Emphasis

Design & Technology
One fully documented design in your area of emphasis (i.e., lighting, sound, scenery, costume, etc.). This may include: script analysis, research, renderings, paperwork, drafting, diagrams, sound clips and photographs of the production. Additional examples of design work and artistic vision may also be submitted. Guidelines available on School of Theater website.

Playwriting & Dramaturgy
One to three writing samples, totaling no more than 25 pages. Playwrights should submit a one-page synopsis and dialogue sample. Dramaturgs may submit essays, reviews, or articles written for the general public, along with a cover letter addressing key areas of interest in the field. Guidelines available on School of Theater website.

Directing
Applicants for the MFA with an emphasis in Directing must submit both a portfolio of produced work, as well as a directorial analysis of a play or opera. For the latter, include at least six visual images with annotation that support your ideas. Guidelines available on School of Theater website.

Acting and Music Theater Performance
A three page written character analysis of one of the roles to be presented at auditions. Guidelines available on School of Theater website. Please see audition requirements.

Audition Requirements

Acting
Applicants for the MFA with an emphasis in Acting must complete an audition for the program. Applicants should be prepared with three contrasting monologues. Two monologues will be required for the audition, and a third may be requested should additional material be needed. Please prepare both classical and contemporary work. Auditors will be looking for range, transformational potential, and vocal and physical expressiveness.

Musical Theater
Applicants for the MFA with an emphasis in Musical Theater must complete an audition for the program. Applicants should be prepared with two songs and two monologues. Contrast between the pieces is essential. Please prepare both classical and contemporary work. Auditors will be looking for musical ability, range, transformational potential, vocal and physical expressiveness, dance and movement skills, and emotional honesty through text and song. An accompanist may be provided and requires a cash fee on the day of audition. This includes a brief rehearsal prior to appointment time. Those auditioning may provide their own accompanist.

Concentration in Visual Art
All MFA applicants are required to submit the following items:

- Online Application and Fee
- Official transcripts from each institution of higher education attended
- 3 letters of recommendation
- Resume
- Goals Statement

Additional Requirements for Concentration in Visual Arts:

- Portfolio

Portfolio Guidelines
The applicant’s portfolio is a major selection criterion for graduate admission and should represent the applicant’s most accomplished work. The portfolio and all other application materials should be submitted to the Office of Graduate Admissions. For more information, contact the School of Art office at 703-993-8898.

Portfolio requirements are different for each graduate area of emphasis and are listed below. Incomplete portfolios will not be considered.

Portfolio Requirements by Area of Emphasis

Visual and Performing Arts, MFA
- One to three writing samples, totaling no more than 25 pages. Written work should be submitted through SlideRoom. Samples must be labeled with: name of artist, title and date.
- Videos and Flash files (no more than four minutes for each section) must be playable through SlideRoom. Only one video sample is required, although it may be repeated. Videos and Flash files (no more than four minutes for each section) must be playable through SlideRoom. Only one video sample is required, although it may be repeated.
- Please be sure to clearly mark the relevant parts of the video for viewing, with the applicant’s role clearly stated.
- If writing-based materials are submitted, they should be submitted in printed form.

New Media Arts
20 images submitted through SlideRoom. Samples must be labeled with: name of artist, title and date. Videos and Flash files (no more than four minutes for each section) must be playable through SlideRoom. Only the relevant parts of the video should be marked for viewing, with the applicant’s role clearly stated.

Painting and Drawing
20 images submitted through SlideRoom. Samples must be labeled with: name of artist, title and date.
Photography
20 images submitted through SlideRoom. Samples must be labeled with: name of artist, title and date.

Printmaking
20 images submitted through SlideRoom. Samples must be labeled with: name of artist, title and date.

Sculpture
20 images submitted through SlideRoom. Samples must be labeled with: name of artist, title and date.

Policies

Program Requirements
Candidates are required to complete 60 credits, of which 30 are made up from core requirements. An additional 30 credits are based on concentration area and comprehensive experience.

MFA concentrations include:
- Dance
- Graphic Design
- Theater
- Visual Art

While the faculty anticipate that students will work through their coursework as described in this catalog, individuals with extensive professional accomplishment may craft an individualized program that meets curricular requirements. Individualized programs require the recommendation of the Graduate Committee within the student’s respective school as well as the approval of the CVPA Associate Dean.

Requirements

Degree Requirements
Total credits: 60

Students should complete all requirements within the concentration to which they have been admitted. Candidates are required to complete 60 credits, of which 30 are made up from core requirements. An additional 30 credits are based on concentration area and comprehensive experience.

Concentration in Dance (DANC)
The MFA in Visual and Performing Arts, concentration in Dance, is a highly selective 60-credit program of study grounded in the modern dance genre that emphasizes mastery in performance, choreography, and teaching in higher education.

Core Degree Requirements

Research Methods
AVT 600 Research Methodologies 3

Graduate Seminar
Two credits of 2
DANC 501 Graduate Dance Seminar

Writing Seminar

THR 655 Teaching Practicum 3
Directed Reading
THR 796 Directed Reading 1

Project
THR 797 Project Preparation 6
& THR 798 and Project Practicum
Thesis
THR 799 Thesis (3 credits) 3
Total Credits 30

Concentration Requirements for All Emphases
THR 539 Aesthetics for the Theater 3
THR 551 Advanced Theater Pedagogy 2
THR 560 Advanced Script Analysis 3
THR 691 Professional Development 1
THR 790 Directed Research 3
Total Credits 12

Track Requirements
In each area of emphasis, students must pick either a professional or academic track. Students in the professional track will complete at least three additional credits in practical production experience over and above the core in the following:
Select 3 credits from the following: 3
THR 694 Graduate Field Experience
THR 696 Advanced Acting Practicum
THR 697 Advanced Playwriting and Dramaturgy Practicum
THR 698 Advanced Directing Practicum
THR 699 Advanced Design Practicum
Total Credits 3
Students in the academic track will complete at least three additional credits in practical teaching over and above the core in the following:
THR 755 Academic Track Practicum 3
Total Credits 3

Emphasis Requirements
With the approval of their mentor, students will have the flexibility to select courses from Emphasis areas:
Select 15 credits from the following: 15
Acting Emphasis:
THR 525 Advanced Musical Theater Workshop
THR 590 Special Topics for Graduate Study
THR 599 Independent Study
THR 610 Acting Mentorship
THR 620 Acting Techniques
THR 694 Graduate Field Experience
THR 696 Advanced Acting Practicum
Design & Technology Emphasis:
THR 530 Topics in Theater Design
THR 590 Special Topics for Graduate Study
THR 599 Independent Study
THR 630 Design Mentorship
THR 694 Graduate Field Experience
THR 699 Advanced Design Practicum
AMGT 602 Seminar in Arts Management
AMGT 609 Performing Arts Management
AMGT 706 Festivals and Special Events
AMGT 752 Arts Entrepreneurship
GAME 635 Issues in Interactive Entertainment
GAME 650 Advanced Music and Sound for Games
AVT 682 Experimental 2D Animation

---

**Concentration in Visual Art (VART)**

The MFA in Visual and Performing Arts, concentration in Visual Arts, is a terminal degree that prepares students to become professional artists, work in technology or arts-related fields, and teach at the university level. Students select an emphasis in one of the following: New Media, Painting and Drawing, Photography, Printmaking, Sculpture, or InterArts. Students have the opportunity to combine art forms in projects that may be installation, performance, publishing, time-based, or writing-based, and combine creative and critical approaches in their work.

Arts Management Program

3434 N. Washington Boulevard
Arlington, VA 22201
Phone: 703-993-8926
Website: artsmanagement.gmu.edu

Undergraduate Program

Arts Management Minor
The field of visual and performing arts offers many career paths that rely on a strong foundation in one or more art forms and require specific knowledge and skills in administration and management. The minor in arts management is open to all CVPA majors as well as art history majors. All other students must complete 9 credits of arts-related course work to be eligible for this minor.

Graduate Program

MA in Arts Management
The MA in arts management responds to a growing demand for graduates who can manage and coordinate the arts, bridging the worlds of performing and visual arts with applied managerial skills. The Washington, D.C., region is home to one of the nation's largest concentrations of arts organizations. The demand for arts managers with skills in financial and budgetary management, strategic management and entrepreneurship, and public relations, including marketing and advertising, has arguably never been more acute. The need for arts managers with skills in philanthropy, fund raising, and ongoing relationship management in the private and public arts sectors also continues to grow at a fast pace.

The MA is a 36-credit program of study that provides a core curriculum in the fundamentals of arts management. Students complete a 24-credit core and then select 9 credits of approved elective courses. Students also take an internship, which affords an in-depth opportunity to work with professionals in the field. The internship provides the opportunity to work at more than 60 different visual and performing arts venues in Washington, D.C., as well as national and international locations.

Arts Management Minor

Banner Code: AMGT

Nicole Springer, Assistant Dean and Assistant Director

C211 College Hall
Fairfax Campus

Phone: 703-993-5232
Email: nspringe@gmu.edu
Website: http://artsmanagement.gmu.edu/overview/arts-management-minor-2/

The fields of visual and performing arts offer many career paths that rely on a strong foundation in one or more art forms and require specific knowledge and skills in administration and management. The minor is open to all CVPA majors (p. 767) as well as art history majors (p. 384). All other students must complete 9 credits of arts-related course work to be eligible for this minor.

Faculty

Claire Huschle, Program Director

Nicole Springer, Assistant Director, Arts Management Undergraduate Studies
Note
The above courses may have prerequisites that must be met; see individual course descriptions for details.

Arts Management, MA
Banner Code: AR-MA-AMGT

Elizabeth Ricks, Program Coordinator
5064 Metropolitan Building
Arlington Campus
Phone: 703-993-8926
Email: amgtgmu@gmu.edu
Website: http://artsmanagement.gmu.edu/overview/arts-management-ma/

The MA responds to a growing demand for graduates who can manage and coordinate the arts, bridging the worlds of performing and visual arts with applied managerial skills. The Washington, D.C., region is home to one of the nation’s largest concentrations of arts organizations. The demand for arts managers with skills in financial and budgetary management, strategic management and entrepreneurship, and public relations, including marketing and advertising, has arguably never been more acute. The need for arts managers with skills in philanthropy, fund raising, and ongoing relationship management in the private and public arts sectors also continues to grow at a fast pace.

The MA provides a core curriculum in the fundamentals of arts management. Students complete a 24-credit core and then select 9 credits of approved elective courses. Students also take an internship, which affords an in-depth opportunity to work with professionals in the field. The internship provides the opportunity to work at more than 60 different visual and performing arts venues in Washington, D.C., as well as national and international locations.

Admissions & Policies

Admissions

Admissions Requirements
The program is geared toward those with a passion for the arts. Diversity among applicants is anticipated and sought, and candidates are evaluated on a case-by-case basis. Work experience is strongly preferred. It is anticipated that some students will come from the arts community, with experience and training in music, dance, theater, visual and technical arts and wish to add the skills of marketing, finance, strategy, fundraising, entrepreneurship, and management to their repertoire. It is also expected that some students will enter with more developed skills in business and wish to unite these skills with prior experiences in the arts. Completed applications must be received by February 15 for fall and October 1 for spring.

In addition to meeting general requirements for university admission for graduate study, applicants must submit the following items:

- Official undergraduate transcripts listing a four-year bachelor’s degree from an accredited institution with a minimum GPA of 3.00
- Resume
- Two letters of recommendation from faculty members or individuals who have first-hand knowledge of the applicant’s academic or professional capabilities
- A two-page (maximum) statement of intent and goals
- Portfolio that demonstrates work experience (optional)
- Applicants may be interviewed by at least one member of the program faculty or Admissions Committee

Policies
Please see College of Visual and Performing Arts (p. 764) for college academic policies.

As an undergraduate, the accelerated master’s student is required to complete two graduate courses indicated on their Accelerated Master’s Program application with a minimum grade of 3.00 in all coursework and in coursework applied to their major. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, candidates submit the Bachelor’s/Accelerated Master’s Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with permission of the School of Art. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 credit hours of graduation and must be approved by the Dean’s Office.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

**Art and Visual Technology, BFA/Arts Management, Accelerated MA**

**Overview**

Undergraduates in Art may apply to the accelerated master’s degree in Arts Management. If accepted, students will be able to earn an Art and Visual Technology, BA (p. 790) and an Arts Management, MA (p. 774) after satisfactory completion of 150 credits.

Students choosing the accelerated option must fulfill all university requirements for the master’s degree. The regular designed timeframe would be a start in the Fall and completion of all coursework in the Summer five years later with the exception of Capstone, which is only offered in Fall and Spring. Students may need a longer timeframe to complete all requirements.

This accelerated option is offered through joint cooperation between the School of Art (p. 784) and the Arts Management Program (p. 772).

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Admissions Requirements**

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 100 credits. Applicants should submit an Accelerated Master’s Program Application, available from the College of Visual and Performing Arts (CVPA) Academic Affairs Office. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the Arts Management Program Office for more details about the application process.

**Accelerated Option Requirements**

As an undergraduate, the accelerated master’s student is required to complete the two graduate courses indicated on their Accelerated Master’s Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, candidates submit the Bachelor’s/Accelerated Master’s Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing and must meet all master’s degree requirements except for the two courses (6 credits) completed as undergraduates. Students will begin their master’s program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.
As graduate students, accelerated master’s students have an advanced standing and must meet all master’s degree requirements except for the two courses (6 credits) completed as undergraduates. Students will begin their master’s program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with permission of the School of Art. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 credit hours of graduation and must be approved by the Dean’s Office.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

Music, BA/Arts Management, Accelerated MA
Overview
Students choosing the accelerated option must fulfill all university requirements for the master’s degree. The regular designed timeframe would be a start in the Fall and completion of all coursework in the Summer five years later with the exception of Capstone, which is only offered in Fall and Spring. Students may need a longer timeframe to complete all requirements.

This accelerated option is offered through joint cooperation between the School of Music and the Arts Management Program.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees. For policies governing all graduate degrees, see the Academic Policies section of the catalog.

Application Requirements
Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 100 credits. Applicants should submit an Accelerated Master’s Program Application, available from the College of Visual and Performing Arts (CVPA) Graduate Studies. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the Arts Management Program Office for more details about the application process.

As an undergraduate, the accelerated master’s student is to complete the two graduate courses indicated on their Accelerated Master’s Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework
applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students will begin their master's program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

Reserve Graduate Credits
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with permission of the School of Music. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation and must be approved by the Dean's Office.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

Theater, BA/Arts Management, Accelerated MA
Overview
Undergraduates in Theater may apply to the accelerated master's degree in Arts Management. If accepted, students will be able to earn a BA in Theater (p. 840) and an MA in Arts Management (p. 774) after satisfactory completion of 150 credits.

Students choosing the accelerated option must fulfill all university requirements for the master's degree. The regular designed timeframe would be a start in the Fall and the completion in the Summer five years later, but longer time frames may also be available.

See AP.6.7 Bachelor's/Accelerated Master's Degree (p. 89) for policies related to this program. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Admission Requirements
Applicants to accelerated master's programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 90 credits. Applicants should submit an Accelerated Master's Program Application, available from the College of Visual and Performing Arts (CVPA) Graduate Studies. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the Arts Management Program Office for more details about the application process.

Accelerated Option Requirements
As an undergraduate, the accelerated master's student is to complete the two graduate courses indicated on their Accelerated Master's Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. The Internal Internship (AMGT 740 Internal Internship) will be within Theater at Mason (generally with the School of Theater). Students will begin their master's program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with permission of the School of Theater. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation and must be approved by the Dean's Office.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

Computer Game Design Program
Scott Martin, Director
2019 Art and Design Building
Fairfax Campus
Phone: 703-993-5734
Website: game.gmu.edu

Undergraduate Program
The 120-credit Computer Game Design program enables students to focus on the artistic components of computer game design while providing them with the technical skills prerequisite to the field. Required courses include computer science, art and visual technology, music, the humanities, and computer game design. The required internship provides students with practical experience that enhances their employability post-graduation.

Graduate Program
The MA in Computer Game Design prepares graduate students, who may have studied game design at the undergraduate level or who have degrees in a related technology, humanities, or arts discipline, for a career in game development and design. The program's intention is to prepare students for employment and further study in the computer game design and development fields with a curriculum that reflects the gaming industry's demand for an academically rigorous, technical program coupled with an understanding of the artistic and creative elements of the evolving field of study.
Faculty

Program Faculty
Associate Professor
Martin (director), Willis

Assistant Professors
Grimsby, Hudson, Lebowitz, Nam (director, graduate coordinator), Nolan, Piccione (associate director), Stanley, Wren

Administrative Faculty (Instructional)
Casey (associate director, Virginia Serious Game Institute)

Requirements & Policies

Undergraduate Program
Admissions
A writing sample will be reviewed prior to admission into the Game Design Program. Students will either be accepted, provisionally accepted, or denied. Visit the department website (http://game.gmu.edu) for further instruction.

Writing-Intensive Requirement
The university requires all undergraduate students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students in the BFA in computer game design fulfill this requirement by successfully completing GAME 332 RS: Story Design for Computer Games.

Upper-Level Credits
All undergraduate students are required to complete a minimum of 45 credits of upper-division courses at the 300-499 level. Fulfilling degree requirements does not guarantee this requirement will be met.

Major GPA
All GAME undergraduate students must earn a minimum 2.00 cumulative GPA in their major.

All GAME courses except GAME 101 Introduction to Game Design (Mason Core) (p. 135), GAME 250 Music for Film and Video and GAME 367 Writing and Editing Music and Sound must be passed with a grade of C or better.

Academic Policies
All GAME majors are required to adhere to the George Mason University Honor code. Failure to do so may result in academic sanctions up to an including dismissal from the University.

Please see College of Visual and Performing Arts (p. 763) for college academic policies.

Graduate Program
Admissions
Admission is competitive. An offer of admission is valid only for the semester for which the student applies. For application requirements and deadlines, applicants should visit the Computer Game Design website (http://game.gmu.edu). Mason encourages early applications from prospective students who wish to be considered for academic scholarships or grants.

The minor embodies the core components discovered in the larger game design field. It offers a core of foundational studies with intermediate and advanced course options in game animation, game sound and music, or game design and development. Students pursuing the minor will be able to participate in game program events, special activities, game design competitions, and in most projects hosted in the Computer Game Design Research Studio.

Admissions & Policies

Admissions
Admission is competitive. An offer of admission is valid only for the semester for which the student applies. Application for graduate admission is made to the Office of Graduate Admissions. The application deadline for fall admission is March 1; the application deadline for the spring semester is November 1. Mason encourages early applications from prospective students who wish to be considered for academic scholarships, grants or teaching assistantships.

Eligibility
Admission is contingent on satisfactory completion of in-progress coursework, and graduation with a Bachelor degree, with a 3.00 GPA or higher, from an accredited undergraduate institute of higher education.

Application Requirements
The following items are required with applications for admission in the MA in Computer Game Design:

- Evidence of computer programming knowledge. A minimum of 3 credits (undergraduate or graduate) of Pearl or Python and 3 credits of Java or C# is required (subject to change as fields develop);
- Completed online application for graduate study;
- Application fee;
- Official transcripts from all undergraduate institutions attended;
- Three letters of recommendation: letters from instructors, professional supervisors, who can evaluate the applicant’s academic potential;
- International students must meet University criteria for the TOEFL (current University standard: 230 for computer-based, 88 for internet based tests), or other English proficiency examination;
- Goals statement: 1000 words, double spaced, 12 font;
- Writing sample: essay, review, project written within the last 3 years for academic course, college publication or competition, or for professional or community activity;
- Portfolio: must display 20 examples of the applicants’ most accomplished work. The applicant’s portfolio is a major selection criterion for graduate admission. Applicants’ portfolio items are considered part of the application for admission and, thus, cannot be returned. The portfolio and all other application materials will be submitted to the Office of Graduate Admissions. See website for submission instructions.

Policies
See College of Visual and Performing Arts (p. 764) for college academic policies.

Affiliated Faculty
Fuchs, Hinton, Kehoe, McDonald, Murray, Wood

Requirements & Policies

Requirements
Portfolio
Admission to Film and Video Studies (FAVS) is considered separately from admission to the university and only by portfolio review. Information about the portfolio process, including submission due dates and portfolio application requirements, can be found on the program’s website (http://favs.gmu.edu) or by calling the FAVS office at 703-993-3287. Admission to the university is determined by the Admissions Office.

Writing-Intensive
The university requires all students to complete at least one course designated “writing-intensive” in their majors at the 300 level or above. Students seeking a BA in film and video studies fulfill this requirement by completing ENGH 373 Film and Video Forms, FAVS 470 Film and Video Screenwriting, FAVS 498 Creative Producing and Development or THR 482 Advanced Screenplay Workshop.

Policies
Upper-Level Credits
All undergraduate students are required to complete a minimum of 45 credits of upper-division courses at the 300-499 level.

Termination from the Major
No Film and Video Studies course that is required for the major may be unsuccessfully attempted more than three times. A grade lower than a C constitutes an unsuccessful attempt in any given course. Those students who do not successfully complete such a course within three attempts will be terminated from the major. For more information, see the “Termination from the Major” section under AP.5 Undergraduate Policies (p. 84).

Academic Policies
Please see College of Visual and Performing Arts (p. 763) for college academic policies.

George Mason University's program in Film and Video Studies (FAVS) is the first multidisciplinary undergraduate degree in Virginia focusing on production, film theory and history, and related media forms, with core courses in ethics, business, writing for the moving image, documentary and web media. The degree is housed in the College of Visual and Performing Arts (CVPA) and includes courses taught by faculty and working professionals from disciplines including Theater, Visual Arts, Communication, English, Film and Media Studies, Chinese Studies, History, and others. We offer three concentrations: Directing and Producing, Production/Post-Production, and Screenwriting. Each concentration includes a capstone experience wherein students are professionalized and mentored by faculty on original projects in their senior year.

Admissions & Policies

Admissions

All students are admitted to the Film and Video Studies (FAVS) program of study separately from their admission to the university and only by portfolio review.

Policies

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84). See College of Visual and Performing Arts (p. 763) for policies specific to the college.

Requirements

Degree Requirements

Total credits: 120

Students must earn a minimum grade of C in all core and required FAVS courses.

Mason Core

FAVS majors may not double-count Literature and Art courses toward both the FAVS major and Mason Core requirements. The synthesis requirement is part of the FAVS core requirements.

Foundation Requirements

Oral Communication (p. 136) 3

Information Technology (p. 136) 3
Quantitative Reasoning (p. 136) 3
ENGH 101 Composition (Mason Core) (p. 135) 3
ENGH 302 Advanced Composition (Mason Core) (p. 135) 3

Core Requirements

Literature (p. 140) 3
Arts (p. 137) 3
Natural Science (p. 141) 2 7
Western Civilization/World History (p. 143) 3
Global Understanding (p. 139) 3
Social and Behavioral Sciences (p. 142) 3
Total Credits 37

1 Nonnative speakers of English with limited proficiency in the language may substitute ENGH 100 Composition for Multilingual Writers (Mason Core) (p. 135) for ENGH 101 Composition (Mason Core) (p. 135). Students must attain a minimum grade of C in ENGH 100 Composition for Multilingual Writers (Mason Core) (p. 135) or ENGH 101 Composition (Mason Core) (p. 135), as well as ENGH 302 Advanced Composition (Mason Core) (p. 135), to fulfill degree requirements.

2 Including one laboratory science

Major

Film and Video Studies Core Requirements

AVT 204 Visual Thinking 3
ENGH 373 Film and Video Forms 3
FAVS 225 The History of World Cinema (Mason Core) (p. 135) 3

or COMM 454 Free Speech and Ethics (Mason Core) (p. 135)
FAVS 450 Internship in Film and Video Studies 3

Analysis, History, Theory

Choose one course from the following: 3

AVT 377 Cyberpunk
CHIN 320 Contemporary Chinese Film
COMM 365 Gender, Race, and Class in the Media
COMM 380 Media Criticism
COMM 399 Special Topics in Communication 1
ENGH 319 Popular Culture
ENGH 370 Introduction to Documentary (Mason Core) (p. 135)
ENGH 371 Television Studies (Mason Core) (p. 135)
ENGH 372 Introduction to Film (Mason Core) (p. 135)
ENGH 470 RS: Topics in Film/Media History (Mason Core) (p. 135)
ENGH 472 Topics in Film/Media Theory
ENGH 474 Topics in Film/Media Studies
FAVS 300 Global Horror Film (Mason Core) (p. 135)
FAVS 399  Special Topics in Film and Video Studies
FREN 470  French and Francophone Cinema
HIST 389  Topics in U.S. History
HIST 393  Topics in Film and History
JAPA 320  Japanese Cinema
MUSI 301  Music in Motion Pictures (Mason Core) (p. 135)
INTS 347  Gender Representation in Popular Culture
RUSS 470  Topics in (Post) Soviet Film
WMST 300  Current Issues in Women and Gender Studies

Other courses as approved by Program Director

Diversity of Perspectives
Choose one course from the following: 3
COMM 365  Gender, Race, and Class in the Media
COMM 399  Special Topics in Communication
ENGH 202  Texts and Contexts (Mason Core) (p. 135) 1,2
ENGH 318  Introduction to Cultural Studies
ENGH 319  Popular Culture
ENGH 362  Global Voices (Mason Core) (p. 135) 1
ENGH 418  Cultural Constructions of Sexualities
FAVS 399  Special Topics in Film and Video Studies
INTS 347  Gender Representation in Popular Culture
WMST 300  Current Issues in Women and Gender Studies
WMST 308  Introduction to Lesbian, Gay, Bisexual, Transgender, Transsexual, and Queer Studies

Other courses as approved by Program Director

Authoring Electives
Choose two courses from the following: 6
AVT 376  Live Movies
AVT 390  Video Art
AVT 457  Documentary Photography
FAVS 365  Documentary Filmmaking
FAVS 375  Fiction Film Directing
FAVS 378  Web Series

Other courses as approved by Program Director

Total Credits 27-28

1  Must be approved by Program Director.
2  May not be used to fulfill Mason Core.

Concentration in Producing and Directing (PROD)

Courses
FAVS 260  Video Editing for Film 3
or COMM 360  Digital Postproduction
FAVS 331  Cinematography 3
FAVS 333  Sound Editing and Recording 3
FAVS 498  Creative Producing and Development 3
FAVS 499  Senior Project (Mason Core) (p. 135) 3

Fundamental Electives
Select two courses (6-7 credits) from the following: 6-7
AVT 252  Darkroom Photography I (Mason Core) (p. 135)
AVT 354  Digital Photography II
AVT 356  Photo Studio Techniques

Other courses as approved by Program Director

Total Credits 54-58

1  Must be approved by Program Director.

Concentration in Production and Post Production (PROP)

Courses
FAVS 260  Video Editing for Film 3
or COMM 360  Digital Postproduction
FAVS 331  Cinematography 3
FAVS 333  Sound Editing and Recording 3
FAVS 497  Senior Film Practicum (Mason Core) (p. 135) 3

Fundamental Electives
Choose two courses from the following: 6-7
AVT 252  Darkroom Photography I (Mason Core) (p. 135)
AVT 354  Digital Photography II
AVT 356  Photo Studio Techniques
AVT 374  Sound Art I
AVT 411  Motion Design
COMM 358  Multi-Camera Studio Production
COMM 364  Videography
COMM 366  Visual Communication
COMM 397  Special Topics in Production
FAVS 311  Producing I
FAVS 356  Film Marketing
FAVS 357  New Media and Film Distribution
FAVS 460  Advanced Video Editing
GAME 250  Music for Film and Video
THR 230  Fundamentals of Production (Mason Core) (p. 135)

Other courses as approved by Program Director

**Authoring Electives**
Choose one course from the following: 3
- AVT 376  Live Movies
- AVT 390  Video Art
- AVT 457  Documentary Photography
- FAVS 365  Documentary Filmmaking
- FAVS 375  Fiction Film Directing
- FAVS 378  Web Series

Other courses as approved by Program Director

**Advanced Skills Electives**
Choose two courses from the following: 6
- AVT 382  2D Experimental Animation
- AVT 383  3D Experimental Animation
- AVT 411  Motion Design
- COMM 358  Multi-Camera Studio Production
- FAVS 460  Advanced Video Editing
- FAVS 483  Feature-Length Scriptwriting
- THR 334  Lighting Design
- THR 336  Technical Direction
- THR 434  Advanced Lighting Design

Other courses as approved by Program Director

Total Credits 27-28

1 Must be approved by Program Director.

**Concentration in Screenwriting (SCWR)**

**Courses**
- ENGH 396  Introduction to Creative Writing (Mason Core) (p. 135) 3
- ENGH 399  Creative Nonfiction Writing 3
- FAVS 470  Film and Video Screenwriting or THR 482  Advanced Screenplay Workshop 3
- FAVS 483  Feature-Length Scriptwriting 3
- FAVS 496  Advanced Visual Storytelling (Mason Core) (p. 135) 3
- GAME 332  RS: Story Design for Computer Games 3

**Screenwriting Electives**
Choose two courses from the following: 6
- COMM 303  Writing across the Media
- COMM 397  Special Topics in Production
- ENGH 377  Digital Creative Writing
- ENGH 386  Editing for Audience, Style, and Voice
- ENGH 398  Fiction Writing
- ENGH 492  Advanced Fiction Writing Workshop
- ENGH 497  Topics in Creative Writing
- FAVS 378  Web Series
- FAVS 399  Special Topics in Film and Video Studies 1
- GAME 399  Special Topics 1
- THR 380  Playwriting I
- THR 381  Playwriting II

**THR 480  Advanced Playwriting**
Or other courses as approved by Program Director

Total Credits 24

1 Must be approved by Program Director.

**General Electives**
Students must use general electives to complete a minor, a double major or double degree outside their primary major field of study (15-20 credits) or demonstrate intermediate-level proficiency in one foreign language (0-9 credits). After fulfilling one of these options, the remaining general electives may be taken inside or outside of the department.

Total Credits 25-29

---

**School of Art**

Peter Winant, Director
2050 Art and Design Building
Fairfax Campus
Phone: 703-993-8898
Website: soa.gmu.edu

**Mission**

George Mason University’s School of Art is a collaborative academic and professional community focused on advancing creativity through traditional and new media applied to varying social contexts. The School of Art is founded on the premise that art both reflects and inspires a creative society, improving the human condition while describing the world, both as it is and could be. We focus on the role of artists in that conversation. We encourage students to see art both as an individual expression and public interaction. We celebrate historical reference, current relevance and experimentation-emphasizing innovative ways of thinking that enhance the impact of art on the future of society.

Embedded in a major liberal arts university rich in learning resources, the School of Art plays a vital role in the creative climate of the institution and the region through the cross-disciplinary research it facilitates and the artwork it produces and exhibits. The School’s facilities engage an exceptional faculty of practicing artists, an active visiting artist program, and a diverse and intellectually curious graduate and undergraduate student body. Artistic skills and principles of creative practice in all visual media are grounded in a forward-thinking, adaptive curriculum. Faculty and students forge cross-disciplinary experimentation, challenging conventional thinking and blurring the lines between traditional artistic disciplines, indeed, between the arts and other humanities and sciences.

The School of Art educates artists and creative professionals to be responsible contributors to society, preparing them to be agents of change in an increasingly connected, complex, inclusive world. We highly value rigor in conceptual approach, skill in art production, and imaginative methods for implementing projects and engaging audiences. Each student is given a background in aesthetic and analytical judgment, the ethical framework for professional practice, the confidence to be both self-reliant and collaborative, and the mastery of design and production necessary to thrive as a professional artist in a competitive global environment.
Undergraduate Programs

Undergraduate studio degrees offered by the School of Art include the bachelor of arts (BA) and the bachelor of fine arts (BFA). An honors program enhances either degree for selected AVT majors. The school also offers undergraduate minors in art and visual technology, arts and social change, graphic design, photography, and web design.

For students who are interested in a career in teaching art in the public schools, neither the BA nor the BFA program satisfies all requirements for those seeking licensure. Undergraduate students interested in this field are highly encouraged to consider the accelerated degree path for the master of art in teaching and should contact the school’s art education advisor to learn more about teacher preparation.

All George Mason University students are welcome to enroll in course work in the School of Art to fulfill Mason Core (p. 135) for requirements for the arts or to pursue minors. Consult the course listings for prerequisites and requirements. Students should carefully examine prerequisites for School of Art courses. Students may be removed from a course if they enroll without having fulfilled the prerequisites.

Studios

The School of Art program is located in the Art and Design Building which houses well-equipped studios for drawing, painting, photography, printmaking, and sculpture, as well as six computer-equipped studios that cross platforms and are installed with current software applications used for two-dimensional imaging, three-dimensional modeling, animation, video production, sound editing, multimedia authoring, photography, and web publishing.

Policies, procedures, and schedules for studio use are established by the AVT studio faculty and are posted in the studios.

Honors Program

Students interested in the Honors Program in School of Art should contact the director of the school. Both BA and BFA students are eligible to apply for admission to the program. Honors students must complete at least 4 credits AVT 394 Honors Seminar. They must have a cumulative GPA of at least 3.00 and at least 3.50 in AVT 394 Honors Seminar and the AVT major.

Graduate Programs

The MA in Graphic Design offers students a comprehensive study and preparation for the graphic design profession. The program calls for 36 credits, which includes courses in typography, web design, image making, and brand design. The broad range of study is intended to develop professionals prepared for an ever-expanding graphic design field. This degree is the only MA in Graphic Design in the Washington Metropolitan region.

The Art Education Licensure Certificate is a post-baccalaureate program designed for those who currently hold a graduate degree in an art-related field along with those who want a more immediate entrance into the art teaching profession. This 'licensure only' program, which results in a pre-K-12 art certification in the Commonwealth of Virginia, is a 21 credit program consisting of graduate education courses, area endorsements, student teaching internships and seminar.

The Master of Arts in Teaching in Art Education is a pre-service degree program that prepares students with a BFA degree or equivalent for pre-K-12 art licensure by the Commonwealth of Virginia. Using a studio-based approach to art education and working closely with area public school systems, the MAT degree consists of 30 credits of graduate art education, school practicum experience, studio work, and preservice teaching internship and seminar.

MFA, Visual and Performing Arts

The School of Art offers two concentrations under the Master of Fine Arts, Visual and Performing Arts degree: Graphic Design and Visual Art. Applicants to the program must designate which concentration they intend to apply for on the application. Each concentration has its own unique set of admissions requirements and program requirements. For specific information, please refer to the Visual and Performing Arts, MFA entry.

The MFA is a terminal degree that prepares students to become professional artists, work in technology or arts-related fields, and teach at the university level. Candidates are required to complete 60 credits, of which 30 credits are made up from core requirements and 30 are made up of emphasis and studio requirements.

In the Visual Arts concentration, students may select an emphasis in new media, painting and drawing, photography, printmaking, sculpture, or InterArts. The latter offers students the opportunity to combine art forms in interdisciplinary projects that may be installation, performance, publishing, time-based, or writing-based; and combine creative and critical approaches to their work.

While it is anticipated that students will move through the MFA as described in this catalog, individuals with extensive professional accomplishment may, upon recommendation of the SOA Graduate Committee and with prior approval of the CVPA dean, craft an individualized program within their intended emphasis that meets curricular requirements.

Accelerated Master’s Options

The School of Art offers the following Accelerated Master’s programs:

- Art and Visual Technology, BA/Arts Management, Accelerated MA
- Art and Visual Technology, BFA/Art Education, Accelerated MAT
- Art and Visual Technology, BFA/Arts Management, Accelerated MA
- Art and Visual Technology, BFA/Graphic Design, Accelerated MA

Each program allows undergraduate students to take graduate classes that can be used towards a designated Master’s degree. Undergraduates who wish to pursue the accelerated Master’s route should talk to their academic advisor first to see if they qualify. Students must be within 75-100 credits of their Bachelor’s program to be eligible to apply; those who have earned more than 100 credits will not be considered. Students must be approved by their academic advisor and formally apply and be accepted to the Master’s program through an Accelerated Master’s application. For more information about admissions requirements and the application process, students should visit the website (http://cvpa.gmu.edu).

Sanchez, Sawyer, Seawell, Stratten, Torres, Trost, Van Meer, Watson,
Yoder

Requirements & Policies

Requirements
Undergraduate Admission to the School of Art
Students are admitted to School of Art degree programs separately from
their admission to George Mason University and only by portfolio review.
The College of Visual and Performing Arts strongly encourages students
to apply to the university by November 1 in order to receive maximum
scholarship consideration, including merit and talent-based scholarships.

Applicants apply to George Mason University. Admission to George
Mason is determined by the Admissions Office and is separate from
admission to the School of Art degree programs. All School of Art
applicants are encouraged to apply for admission to the university prior
to submitting a portfolio for review.

Successfully complete a portfolio review. Please refer to the Portfolio

Artsbus Requirement
All AVT majors must meet the school’s requirement of travel to galleries
and museums through the Artsbus program. Students meet this
requirement by enrolling in AVT 300 Artsbus Attendance. The procedure
and requirements for enrollment in AVT 300 Artsbus Attendance are the
same as for any other class.

Freshmen who enroll as AVT majors must register for AVT 300 Artsbus
Attendance 5 times during their course of study. Transfer students and
students who change their majors to AVT must register for AVT 300
Artsbus Attendance for the equivalent of each semester they are enrolled
at Mason, up to a maximum of five semesters. Semesters of enrollment
in AVT 300 Artsbus Attendance do not have to be consecutive. Students
may take AVT 300 Artsbus Attendance up to three times in a semester if
they wish to accelerate their completion of the requirement although this
is strongly discouraged.

All rules and requirements to AVT 300 Artsbus Attendance participation
are posted on the Artsbus website (http://artsbus.gmu.edu). Students
are responsible for being familiar with and following the posted rules and
requirements for Artsbus. The site also provides pertinent information for
each trip regarding exhibits as well as reviews and articles for exhibitions.

Visual Voices Requirement
All AVT majors must fulfill three credits of AVT 301 Visual Voices
Colloquium in order to graduate unless they are enrolled at Mason
for fewer than three semesters. If enrolled for less than three
semesters, students are required to register for AVT 301 Visual Voices
Colloquium each semester in which they are enrolled. Visual Voices is an
intrinsic part of the major, offering students a chance to meet with and
hear nationally and internationally recognized artists speak about their
work.

Writing-Intensive Requirement
Mason requires all students to complete at least one course designated
“writing intensive” in their majors at the 300 level or above. AVT students
fulfill this requirement by successfully completing AVT 395 Writing for
Artists.

Upper-Level Credits
All undergraduate students are required to complete a minimum of 45
credits of upper-division courses at the 300–499 level.

Major GPA
All School of Art BA and BFA majors, AVT minor, Arts and Social Change
minor, Graphic Design minor, Photography minor, and Web Design minor
students must earn a grade of C or better in required AVT coursework,
including Studio Foundation, Critical Analysis and Contemporary Practice,
Breadth and Experience, Synthesis and Concentrations. All School of Art
undergraduate students must earn a minimum 2.00 cumulative GPA in
their major. To graduate with a BA or BFA in Art and Visual Technology
with a concentration in Graphic Design, students are required to maintain
a 2.40 GPA in concentration classes. Students who fail to maintain
this minimum may either retake core classes (an earned higher grade
replaces the old one) or take concentration special topics classes in
order to raise their average to the threshold. The effect of this change
will be that very weak students will have to return to required classes to
master core skills, and marginally weak students will be able to meet the
requirement while expanding the breadth of their education.

Policies
See CVPA Requirements and Policies (p. 764).

Programs
- Art Education Licensure Graduate Certificate

Email: nbrugnol@gmu.edu
Website: soa.gmu.edu

Following this curriculum does not guarantee entry into the Master of Art Teaching (MAT) Program (p. 787). Prospective MAT students must meet all MAT admissions requirements. Students must also complete a minimum of 18 credits in degree status after admission to the degree program.

This certificate may be earned either on a part-time or full-time basis.

Admissions & Policies

Admissions

Admission Requirements

In addition to meeting the general university admission requirements, admission to the licensure program is contingent on completion of a BFA, BA in art or approved equivalent along with a minimum 3.00 cumulative undergraduate GPA. Eligibility for the certificate may demand additional coursework to establish proficiency in visual arts. Students will be required to satisfy the required state endorsement courses prior to student teaching.

Applications will be accepted for fall and spring semesters. The deadline for receipt of application materials is October 1 for Spring and April 1 for Fall. Each applicant must provide the following materials:

- Completed application form
- Certified copies of all undergraduate transcripts and any graduate transcripts
- Statement of intent and professional goals for entering the field
- Three letters of reference from faculty members or individuals who have firsthand knowledge of the applicant’s academic or professional capabilities
- Official passing score on Praxis Core or SAT equivalent
- TOEFL score, if required by Mason policies
- Portfolio of 15-20 images that reflect artistic breadth and depth, including drawing skills of the applicant’s art. The work should be submitted via SlideRoom. All portfolios must include a written image sheet with the corresponding number, title, date, medium, and size of each work. Incomplete portfolios will not be considered. Applicants’ portfolio items are considered part of the application for admission and, thus, cannot be returned. Please do not send original materials.

The all application materials should be submitted to the Office of Graduate Admissions (https://www2.gmu.edu/admissions-aid/how-apply/graduate). Applicants refer to the graduate page of the School of Art website (http://soa.gmu.edu/graduateprograms) for more details.

Diversity among students is another consideration for acceptance into the program. Applicants with degrees in areas other than art are welcome, although they may be required to complete undergraduate core and studio art history courses.

The certificate is a post-baccalaureate program designed for those who currently hold an undergraduate degree in an art-related field along with those who want a more immediate entrance into the art teaching profession. This “licensure only” program, which results in a pre K-12 art certification in the Commonwealth of Virginia, is a 21-credit program consisting of graduate education courses, art endorsements, student teaching internships and seminar.

International students may be required to undergo an additional audit of their undergraduate transcripts.

Policies

Students must earn a B- or higher in all coursework.

1 Prior to internship, student must pass: Praxis II, VCLA, technology and child abuse standards to receive placement for student teaching.

All Licensure Certificate students will receive ongoing evaluations by the art education faculty to determine their readiness for student teaching.

In addition, applicants who did not take equivalent undergraduate courses will be required to take AVT 180 New Media in the Creative Arts (Mason Core) (p. 135), art education endorsements, plus any additional studio or art history course work to meet Virginia licensure requirements.

Art Education, MAT

Banner Code: AR-MAT-ARTE

Nicole Brugnoli-Whipkey, Administrative Assistant for Graduate Study

Website: soa.gmu.edu
The Master of Arts in Teaching in Art Education (MAT I) is a pre-service degree program that prepares students with a BFA degree or equivalent for PreK-12 art licensure by the Commonwealth of Virginia. Using a studio-based approach to art education and working closely with area public school systems, the MAT degree consists of 30 credits of graduate art education, school practicum experience, studio work, and pre-service teaching internship and seminar.

**Available Concentrations**
This degree program has two concentrations: one concentration for those seeking certification (MAT I) as well as a one for licensed art teachers who are continuing education (MAT II). The concentration for licensed art teachers (MAT II) is designed for PreK-12 licensed art teachers who currently hold an undergraduate degree in art education and a current teaching license in Art Education. Applicants should be interested in obtaining a graduate art education degree for further professional development. Students take graduate art education courses, approved graduate level studio art courses, education courses, and complete a capstone project.

**Admissions & Policies**

**Admissions**
In addition to meeting the general university admission requirements for graduate study, admission to this program is contingent on completion of a BFA in visual art or approved equivalent. Candidates must have a minimum 3.00 cumulative undergraduate GPA.

**Eligibility**
Eligibility for the MAT I in Art Education program may demand additional course work to establish proficiency in visual arts. Students lacking a strong background in the visual arts or pedagogy, or those who earned a BFA or BA at an institution other than Mason, may be required to satisfy prerequisite courses prior to entry into the graduate program. Applicants must complete an endorsement worksheet through the College of Education and Human Development in order to prove that their previous coursework satisfies the prerequisite requirements for Virginia licensure and/or for entry into the Master’s program.

Students interested in pursuing the degree with the concentration for licensed art teachers must meet the above with the following exceptions: admission is contingent upon the completion of a BFA or BA in art or art education with a minimum 3.00 cumulative undergraduate GPA, maintaining a current PreK-12 license to teach art education with at least one or more years of art teaching experience.

**Application Materials and Deadlines**
Applications will be accepted for fall and spring semesters. The deadline for receipt of application materials is October 1 and March 1. Each applicant must provide the following materials:

- Completed application form
- Certified copies of all undergraduate transcripts and any graduate transcripts
- Statement of intent and professional goals for entering the field
- Three letters of reference from faculty members or individuals who have firsthand knowledge of the applicant’s academic or professional capabilities
- Official scores on Praxis Core or SAT equivalent (MAT I only)
- Endorsement Worksheet (MAT I only)
- TOEFL score (for international applicants only)
- Portfolio Requirement
  - MAT I: portfolio must include 15 to 20 images that reflect artistic breadth and depth, including drawing skills of the applicant’s art.
  - MAT II: portfolio must include 10 images of the applicant’s portfolio and personal art that reflect artistic breadth and depth, including drawing skills, along with 10 student art works displaying a variety of 2-D and 3-D media. Student artwork is to be accompanied by a brief description of the lesson content.

1 All portfolios should be submitted through SlideRoom. All portfolios must include title, date, medium, and size of each work. Incomplete portfolios will not be considered.

All application materials should be submitted to the Office of Graduate Admissions. Qualified applicants may be invited to an on-campus interview. Applicants should visit the School of Art’s website (http://soa.gmu.edu/graduateadmissions) for more details.

Diversity among students is another consideration for acceptance into the program. Applicants with degrees in areas other than art are welcome, although they may be required to complete additional undergraduate core, studio, and art history courses.

**Policies**
See College of Visual and Performing Arts (p. 763) for policies specific to the college.

**Requirements**

**Degree Requirements**
Total Credits: 30
Students must earn a B- or higher in licensure coursework.

1 Prior to internships, students must pass: Praxis II, VCLA, technology & child abuse standards.

MAT (II) Professional Teaching Portfolio

The comprehensive experience for the MAT I includes the following:

1. a group exhibition, "The Art of Teaching Art Showcase," in which MAT candidates display and formally present works of PreK–12 student art completed during the internship, along with exemplars of the MAT candidate’s own artwork, and
2. a culminating review of the intern’s competencies as reflected in a professional teaching portfolio, accomplished during the internship seminar course that accompanies student teaching.

A committee of MAT faculty will determine whether the student has mastered the field of study based on the final portfolio and exhibition. Students who are unable to successfully complete the full student teaching internship in art education and seminar for student teachers will be terminated from the MAT in Art Education program.

MAT (I) Teacher Endorsement

MAT I students originally admitted under provisional status must complete all endorsements and any assigned art education foundational courses (which may include AVT 494 Strategies in Art Room: PK-12 and AVT 495 Introduction to Art Teaching and Learning) by the date indicated on the student’s provisional admission agreement and prior to admission to degree status. These courses may be taken concurrently with other MAT courses, but may not exceed a total of 9 credits. All MAT I students should meet all testing and coursework requirements prior to starting their student teaching internship.

Students must have a studio major in the Visual Arts and meet the Virginia Department of Education’s required semester credit hours in the following specific areas: 12 hours of two-dimensional media, 12 hours of three-dimensional media, 9 hours of cultural context and art history, judgment and criticism, aesthetics, and 3 hours of related areas of the fine arts.

Note:
MAT I students will receive ongoing evaluation reviews by the MAT faculty to determine whether they have achieved satisfactory progress toward their degree.

Total Credits: 21

Other courses as approved by director may fulfill this requirement.

Capstone:
LAT concentration students must complete a Capstone Project. Under the guidance of a faculty advisor, students will select a topic in a personal area of interest in art education pedagogy, carry out in-depth research, and prepare a capstone final project in the form of a written report and visual presentation.

Student Teaching Placement Requirement

All MAT students must pass Praxis II and Virginia Communication and Language Assessment (VCLA) to receive placement for student teaching in the final semester.

Accelerated Master’s

Art and Visual Technology, BFA/Art Education, Accelerated MAT Overview

Undergraduates in art may apply to the accelerated master’s degree in Art Education. If accepted, students will be able to earn an Art and Visual Technology, BFA (p. 793) and an Art Education, MAT (p. 787) after satisfactory completion of 144 credits.

Students choosing the accelerated option must fulfill all university requirements for the master’s degree. The regular designed timeframe would be a start in the Fall and the completion in the Fall semester five and a half years later, but longer time frames may also be available.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Admissions Requirements

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 100 credits. Applicants should submit an Accelerated Master’s Program Application, available from the College of Visual and Performing Arts (CVPA) Academic Affairs Office. It includes the proposed conferral date for the undergraduate degree and
the two graduate courses that are to be applied to the undergraduate degree.

In addition to meeting the general university requirements for admission for graduate study, applicants must submit:

- Statement of intent and professional goals for entering the field
- Three letters of reference from faculty members or individuals who have firsthand knowledge of the applicant's academic or professional capabilities
- Official score on Praxis Core or SAT equivalent
- MAT (for BFA students) portfolio must include 15 to 20 images that reflect artistic breadth and depth, including samples of work with ample attention to drawing and painting from observation. These works must be submitted through SlideRoom. All pieces must include the title of the piece, date, medium, and size of each work. Incomplete portfolios will not be considered.

Teacher Endorsement

Students for the MAT (for BFA students) must complete ALL endorsements, as well as the Praxis Core Exam and the PLUS art education foundational courses:

<table>

<td>36</td>
</tr>
</tbody>
</table>

Students should work closely with their advisor to ensure they complete these course requirements through the BFA in Art and Visual Technology (p. 793) and MAT (p. 787) degrees.

Accelerated Option Requirements

As an undergraduate, the accelerated master's student is required to complete the two graduate courses indicated on their Accelerated Master's Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated on the application, candidates submit the Bachelor's/Accelerated Master's Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing and must meet all master's degree requirements except for the two courses (6 credits) completed as undergraduates. Students will begin their master's program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high-achieving undergraduates with permission of the School of Art. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 credit hours of graduation and must be approved by the Dean's Office.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

Art and Visual Technology Minor

Banner Code: AVT
2050 Art and Design Building
Fairfax Campus
Phone: 703-993-8898
Email: avt@gmu.edu
Website: soa.gmu.edu

The minor offers a core of foundational studies with the opportunity for further study in the following areas: drawing, graphic design, new media arts, painting, photography, printmaking, or sculpture.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor, with a minimum earned GPA of 2.0. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

AVT 496 Special Topics
Other courses as approved by program director

Professional Practices

AVT 413 Professional Design Practices 3 3
or AVT 453 Professional Practices

Synthesis

AVT 497 Senior Project (Mason Core) (p. 135) 3
or AVT 498 Senior Design Project (Mason Core) (p. 135)

Total Credits 52-53

1 Must be taken for a total of 3 credits or each semester, if less than 3 semesters
2 At least one course must be a 200-level studio course. See each concentration for individual requirements.
3 All students concentrating in graphic design must complete AVT 413 Professional Design Practices

Artsbus Requirement
All AVT majors must meet the school’s requirement of travel to galleries and museums through the Artsbus program. Students meet the
requirement by enrolling in AVT 300 Artsbus Attendance. The procedure and requirements for enrollment in AVT 300 are the same as for any other class.

Freshman who enroll as AVT majors must register for AVT 300 Artsbus Attendance 5 times during their course of study. Transfer students and students who change their majors to AVT must register for AVT 300 Artsbus Attendance for the equivalent of each semester they are enrolled at Mason, up to a maximum of five semesters.

**Concentrations**
Select one concentration and complete the requirements therein.

**Drawing (DRW)**
All AVT majors concentrating in drawing must complete AVT 232 Painting I (Mason Core) (p. 135) under Breadth and Experience.

Minor
Double Major
Double Degree 1
Intermediate-level proficiency in one foreign language
Remaining electives 2

Total Credits 18-19

1 Must be outside student’s primary major field of study.
2 May be taken inside or outside of the department. All students are required to take a minimum of 45 credits of upper-division courses (300 and 400 level); most students will require at least 13 elective credits at the 300 level or above. AVT 393 Field Experience in the Arts and AVT 489 Internship in Art and Visual Technology are not required courses but are highly recommended as electives for BA students.

Accelerated Master's

Art and Visual Technology, BA/Arts Management, Accelerated MA

Overview
Undergraduates in Art may apply to the accelerated master’s degree in Arts Management. If accepted, students will be able to earn an Art and Visual Technology, BA (p. 790) and an Arts Management, MA (p. 774) after satisfactory completion of 150 credits.

Students choosing the accelerated option must fulfill all university requirements for the master’s degree. The regular designed timeframe would be a start in the Fall and completion of all coursework in the Summer five years later with the exception of Capstone, which is only offered in Fall and Spring. Students may need a longer timeframe to complete all requirements.

This accelerated option is offered through joint cooperation between the School of Art (p. 784) and the Arts Management Program (p. 772).

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Admissions Requirements
Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 100 credits. Applicants should submit an Accelerated Master’s Program Application, available from the College of Visual and Performing Arts (CVPA) Academic Affairs Office. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the Arts Management Program Office for more details about the application process.

Accelerated Option Requirements
As an undergraduate, the accelerated master’s student is required to complete the two graduate courses indicated on their Accelerated Master’s Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, candidates submit the Bachelor’s/Accelerated Master’s Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing and must meet all master’s degree requirements except for the two courses (6 credits) completed as undergraduates. Students will begin their master’s program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with permission of the School of Art. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 credit hours of graduation and must be approved by the Dean’s Office.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

Total Credits: 37

1. All students concentrating in new media art must take AVT 180 New Media in the Creative Arts (Mason Core) (p. 135) and CS 105 Computer Ethics and Society (Mason Core) (p. 135) or PHIL 112 Ethics and the Cybersociety (Mason Core) (p. 135).

2. Nonnative speakers of English with limited proficiency in the language may substitute ENGH 100 Composition for Multilingual Writers (Mason Core) (p. 135) for ENGH 101 Composition (Mason Core) (p. 135). Students must attain a minimum grade of C in ENGH 100 Composition for Multilingual Writers (Mason Core) (p. 135) or ENGH 101 Composition (Mason Core) (p. 135), as well as in ENGH 302 Advanced Composition (Mason Core) (p. 135), to fulfill degree requirements.

3. AVT majors may not choose AVT courses to meet this requirement, and they may not double-count ARTH courses toward both the AVT major and the Mason Core arts requirement.

4. including at least one laboratory science

5. AVT majors may not double-count ARTH courses toward both AVT major requirements and the Mason Core global understanding requirement.

or AVT 498 Senior Design Project (Mason Core) (p. 135)

Total Credits 58-59

1 Transfer students with less than three semesters remaining must take AVT 301 Visual Voices Colloquium for each remaining semester.

2 Students concentrating in graphic design must take either AVT 318 History of Graphic Design or AVT 410 Experiential Design History to meet this requirement.

3 At least one course must be a 200-level studio course. See each concentration for individual requirements.

4 All students concentrating in graphic design must complete AVT 413 Professional Design Practices.

**Artsbus Requirement**

All AVT majors must meet the school's requirement of travel to galleries and museums through the Artsbus program. Students meet the requirement by enrolling in AVT 300 Artsbus Attendance. The procedure and requirements for enrollment in AVT 300 are the same as for any other class.

Freshman who enroll as AVT majors must register for AVT 300 Artsbus Attendance 5 times during their course of study. Transfer students and students who change their majors to AVT must register for AVT 300 Artsbus Attendance for the equivalent of each semester they are enrolled at Mason, up to a maximum of five semesters.

**Concentrations**

Select one concentration and complete the requirements therein.

**Drawing (DRW)**

All AVT majors concentrating in drawing must complete AVT 232 Painting I (Mason Core) (p. 135) under Breadth and Experience.

AVT 422 Drawing III 3

AVT 423 Drawing IV 3

Select 12 credits from 300-400 level AVT (p. 1143) 12

Select 6 credits from the following: 6

AVT 324 Figure Drawing
AVT 326 Nontraditional Approaches to Drawing
AVT 328 Mixed Media
AVT 333 Painting II
AVT 336 Experimental Painting
AVT 337 Figurative Painting
AVT 432 Painting III
AVT 433 Advanced Painting I
AVT 496 Special Topics 1

Other courses as approved by program director

Total Credits 24

1 Topic must be in Drawing.

**Graphic Design (GD)**

All AVT majors concentrating in graphic design must complete AVT 217 Introduction to Web Design and AVT 252 Darkroom Photography I (Mason Core) (p. 135) or AVT 253 Digital Photography I (Mason Core) (p. 135) under Breadth and Experience.

AVT 311 Graphic Design Methods and Principles 3

AVT 313 Editorial Design 3

AVT 414 Corporate Design and Branding 3

Select 15 credits from the following: 1

AVT 411 Motion Design
AVT 412 Advanced Typography
AVT 415 Web Design and Usability
AVT 416 Advertising Design
AVT 417 Package Design
AVT 419 Topics in Graphic Design
AVT 420 Advanced Web Design

Other courses as approved by program director

Total Credits 24

1 AVT 491 Independent Study in Art and Visual Technology or AVT 496 Special Topics may be taken with permission of the Area Coordinator.

**InterArts (IA)**

The concentration in InterArts is an individualized program of study focused on arts research with multidisciplinary goals. Students concentrating in InterArts are engaged with both creative and conceptual inquiry in the development of artistic practice bolstered by knowledge of other disciplines. Often, this work exists at the interstices of artforms, and focuses on research on areas of interest to the student. InterArts students draw on the large resources of the School of Art and the university in creating an individualized program of studio courses and complementary courses for a total of 24 credits (12 credits of disciplinary focus and 12 credits of complementary study). In consultation with a faculty advisor, the student drafts a curriculum contract outlining the course of study, which is approved by the InterArts faculty. Admission to the concentration is based on acceptance into the BFA program via a portfolio review process and project approval from the InterArts faculty.

Twelve credits of disciplinary focus 12

Twelve credits of complementary study 12

Total Credits 24

**New Media Art (NMA)**

All majors concentrating in new media art must complete AVT 280 Introduction to New Media Arts under Breadth and Experience, and AVT 180 New Media in the Creative Arts (Mason Core) (p. 135) and CS 105 Computer Ethics and Society (Mason Core) (p. 135) or PHIL 112 Ethics and the Cybersociety (Mason Core) (p. 135) for their IT Mason Core requirement.

Select 12 credits from 300-400 level AVT (p. 1143) 12

Select 12 credits from the following: 12

AVT 374 Sound Art I
AVT 376 Live Movies
AVT 382 2D Experimental Animation
AVT 383 3D Experimental Animation
AVT 385 EcoArt (Mason Core) (p. 135)
AVT 390 Video Art
AVT 482 Advanced Image Making
AVT 483 RS: Art and Interactivity
AVT 487 Advanced Topics: New Media Art

Other courses as approved by program director

Total Credits 24
Painting (PNT)
All majors concentrating in painting must complete AVT 262 Sculpture I (Mason Core) (p. 135) under Breadth and Experience.

Accelerated Master's Option

Art and Visual Technology, BFA/Art Education, Accelerated MAT

Overview
Undergraduates in art may apply to the accelerated master's degree in Art Education. If accepted, students will be able to earn an Art and Visual Technology, BFA (p. 793) and an Art Education, MAT (p. 787) after satisfactory completion of 144 credits.

Students choosing the accelerated option must fulfill all university requirements for the master's degree. The regular designed timeframe would be a start in the Fall and the completion in the Fall semester five and a half years later, but longer time frames may also be available.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Admissions Requirements
Applicants to accelerated master's programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 100 credits. Applicants should submit an Accelerated Master's Program Application, available from the College of Visual and Performing Arts (CVPA) Academic Affairs Office. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

In addition to meeting the general university requirements for admission for graduate study, applicants must submit:

- Statement of intent and professional goals for entering the field
- Three letters of reference from faculty members or individuals who have firsthand knowledge of the applicant's academic or professional capabilities
- Official score on Praxis Core or SAT equivalent
- MAT (for BFA students) portfolio must include 15 to 20 images that reflect artistic breadth and depth, including samples of work with ample attention to drawing and painting from observation. These works must be submitted through SlideRoom. All pieces must include the title of the piece, date, medium, and size of each work. Incomplete portfolios will not be considered.
Teacher Endorsement

Students for the MAT (for BFA students) must complete ALL endorsements, as well as the Praxis Core Exam and the PLUS art education foundational courses:

<table>

<td>9 hours of cultural context and art history, judgment and criticism, aesthetics</td>
<td>9</td>
</tr>
<tr>
<td></td>
<td>3 hours of related areas of fine arts</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits: 36

Students should work closely with their advisor to ensure they complete these course requirements through the BFA in Art and Visual Technology (p. 793) and MAT (p. 787) degrees.

Accelerated Option Requirements

As an undergraduate, the accelerated master’s student is required to complete the two graduate courses indicated on their Accelerated Master’s Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated on the application, candidates submit the Bachelor’s/Accelerated Master’s Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing and must meet all master's degree requirements except for the two courses (6 credits) completed as undergraduates. Students will begin their master's program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high-achieving undergraduates with permission of the School of Art. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 credit hours of graduation and must be approved by the Dean's Office.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

Art and Visual Technology, BFA/Arts Management, Accelerated MA

Overview

Undergraduates in Art may apply to the accelerated master's degree in Arts Management. If accepted, students will be able to earn an Art and Visual Technology, BFA (p. 793) and an Arts Management, MA (p. 774) after satisfactory completion of 150 credits.

Students choosing the accelerated option must fulfill all university requirements for the master's degree. The regular designed timeframe would be a start in the Fall and completion of all coursework in the Summer five years later with the exception of Capstone, which is only offered in Fall and Spring. Students may need a longer timeframe to complete all requirements.

This accelerated option is offered through joint cooperation between the School of Art (p. 784) and the Arts Management Program (p. 772).

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master’s Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Admissions Requirements

Applicants to accelerated master’s programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 100 credits. Applicants should submit an Accelerated Master’s Program Application, available from the College of Visual and Performing Arts (CVPA) Academic Affairs Office. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

Interested students should contact the Arts Management Program Office for more details about the application process.

Accelerated Option Requirements

As an undergraduate, the accelerated master’s student is required to complete the two graduate courses indicated on their Accelerated Master’s Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, candidates submit the Bachelor’s/Accelerated Master’s Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing and must meet all master’s degree requirements except for the two courses (6 credits) completed as undergraduates. Students will begin their master’s program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high-achieving undergraduates with permission of the School of Art. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 credit hours of graduation and must be approved by the Dean's Office.
To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

**Art and Visual Technology, BFA/Graphic Design, Accelerated MA**

**Overview**

Undergraduates in Art may apply to the accelerated master's degree in Graphic Design. If accepted, students will be able to earn an Art and Visual Technology, BFA (p. 793) and a Graphic Design, MA (p. 800) after satisfactory completion of 150 credits.

Students choosing the accelerated option must fulfill all university requirements for the master's degree. The standard timeframe would be a start in the Fall and the completion in the Fall semester five and a half years later, but longer time frames may also be available.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

**Admissions Requirements**

Applicants to accelerated master's programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 100 credits. Applicants should submit an Accelerated Master's Program Application, available from the College of Visual and Performing Arts (CVPA) Academic Affairs Office. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

In addition to meeting the general university requirements for admission for graduate study, applicants must submit three letters of recommendation from faculty, or those who can evaluate the applicant's academic potential; a sample of academic writing about art or graphic design, such as a paper from an art or design history course; and 20 examples of original design works in a format that is viewable via SlideRoom.

**Accelerated Option Requirements**

As an undergraduate, the accelerated master's student is required to complete the two graduate courses indicated on their Accelerated Master's Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, candidates submit the Bachelor's/Accelerated Master's Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing and must meet all master's degree requirements except for the two courses (6 credits) completed as undergraduates. Students will begin their master's program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with permission of the School of Art. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 credit hours of graduation and must be approved by the Dean's Office.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

**Arts and Social Change Minor**

Banner Code: ASC

2050 Art and Design Building
Fairfax Campus

Phone: 703-993-8898
Email: avt@gmu.edu
Website: soa.gmu.edu

The minor leverages artistic and creative practice in an array of academic and social contexts. The goal is to infuse these practices into territories outside the traditional art world through research, participatory experimentation and documentary aesthetic aspects of social practice. With a focus on creative research and project production students experience direct engagement with communities while developing skills toward fostering positive change in communities via the arts.

Students must complete an approved AVT course for their Mason Core Arts requirement.

Special topics courses will be notated in Patriot Web as a designated Arts and Social Change course.

**Admissions & Policies**

**Policies**

Website: soa.gmu.edu

The Graphic Design Minor is intended for students pursuing careers in graphic design. This minor is available to AVT majors. AVT majors must complete at least 12 credits unique to the minor.

### Admissions & Policies

**Policies**

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

This minor is available to AVT majors. AVT majors must complete 12 credits unique to the minor.

It is recommended that non-AVT majors take AVT 104 Two-Dimensional Design and Color (Mason Core) (p. 135) for their Art Mason Core requirement as well as AVT 180 New Media in the Creative Arts (Mason Core) (p. 135) for the Information Technology (IT, except ethics) requirement. These courses are prerequisites for Graphic Design coursework.

### Graphic Design Undergraduate Certificate

### Banner Code: AR-CERB-GD

2050 Art and Design Building  
Fairfax Campus  
Phone: 703-993-8898  
Email: avt@gmu.edu  
Website: soa.gmu.edu

The Graphic Design Undergraduate Certificate is for prospective students with a 4-year baccalaureate undergraduate degree from an accredited institution who seek to gain the skills and competency to advance into a career in graphic design. It encompasses a specific body of knowledge and practice that prepares candidates for rewarding positions in the design field.

This certificate may be completed under part or full time basis.

### Admissions & Policies

**Admissions**

There is not a portfolio review required for admission, but prospective students—with graphic design experience—should consider scheduling an interview with the program director prior to applying. Tuition is billed at the undergraduate rate, and most students complete certificate requirements in four semesters.

Students entering the certificate must be able to demonstrate basic skills in visual language and should have working knowledge of professional graphic design software, or must take AVT 180 New Media in the Creative Arts (Mason Core) (p. 135) in addition to other required courses.
### Requirements

### Graphic Design, MA

**Banner Code:** AR-MA-GD

**Nicole Brugnoli-Whipkey, Administrative Assistant for Graduate Study**

2005 Art and Design Building  
Fairfax Campus

Phone: 703-993-5792  
Email: nbrugnol@gmu.edu  
Website: soa.gmu.edu

The MA in Graphic Design offers students a comprehensive study and preparation for the graphic design profession. The program calls for 36 credits, which includes courses in typography, web design, image making, and brand design. The broad range of study is intended to develop professionals prepared for an ever-expanding graphic design field.

---

### Admissions & Policies

#### Admissions

Application deadlines are as published by the University. Applicants should have an earned BA or BFA degree in Graphic Design from an accredited college or university, with a GPA of 3.00 in art courses. However, applicants with a BA or BS in another discipline, and work experience in the field may also apply for admission. Student should schedule an interview with design faculty prior to admission.

In addition to meeting the general university requirements for admission for graduate study, applicants must submit three letters of recommendation from faculty members, or those who can evaluate the applicant’s academic potential; a sample of academic writing about art or graphic design, such as a paper from an art or design history course; and a portfolio with 20 examples of design works that are SlideRoom-compatible.

#### Portfolio Guidelines

The applicant's portfolio is a major selection criterion for graduate admission and should represent the applicant's most accomplished work.

Applicants’ portfolio items are considered part of the application for admission and, thus, cannot be returned. Please do not send original materials. The portfolio and all other application materials should be submitted to the Office of Graduate Admissions. For more information, contact the School of Art at 703-993-8898.

#### Studios

The School of Art is located in the Art and Design Building which houses well equipped studios for drawing, painting, photography, printmaking, and sculpture, as well as six computer-equipped studios that cross platforms and are installed with current software applications used for two dimensional imaging, three-dimensional modeling, animation, video production, sound editing, multimedia authoring, photography, and web publishing.

Policies, procedures, and schedules for studio use are established by the AVT studio faculty and are posted in the studios.

#### Policies

For policies governing all graduate degrees, see AP .6 Graduate Policies (p. 87).

See College of Visual and Performing Arts (p. 763) for policies specific to the college.

---

### Requirements

#### Degree Requirements

**Total credits:** 36

**Core Courses**

Select 8 credits from the following:  

- **AVT 519** Special Topics in Graphic Design  
- **AVT 596** Independent Study  
- **AVT 599** Special Topics in Art and Visual Technology

Or other course as approved by director

Three credits of  

- **AVT 611** Graduate Design Seminar  
- **AVT 612** Independent Project Research  
- **AVT 613** Experiential Design History  
- **AVT 617** Advanced Typography  
- **CVPA 600** CVPA Graduate ProSeminar (Must be taken within the student's first 2 semesters)

**Total Credits:** 19

**Electives**

Select 13 credits from the following:  

- **AVT 519** Special Topics in Graphic Design (1-13 credits)
Final Project
The final steps for completion of the MA in Graphic Design are a substantial final project that calls upon all the skills of a working designer.

Accelerated Master’s

Art and Visual Technology, BFA/Graphic Design, Accelerated MA

Overview
Undergraduates in Art may apply to the accelerated master’s degree in Graphic Design. If accepted, students will be able to earn an Art and Visual Technology, BFA (p. 793) and a Graphic Design, MA (p. 800) after satisfactory completion of 150 credits.

Students choosing the accelerated option must fulfill all university requirements for the master’s degree. The standard timeframe would be a start in the Fall and the completion in the Fall semester five and a half years later, but longer time frames may also be available.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 89). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 87).

Admissions Requirements
Applicants to accelerated master's programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 100 credits. Applicants should submit an Accelerated Master's Program Application, available from the College of Visual and Performing Arts (CVPA) Academic Affairs Office. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.

In addition to meeting the general university requirements for admission for graduate study, applicants must submit three letters of recommendation from faculty, or those who can evaluate the applicant’s academic potential; a sample of academic writing about art or graphic design, such as a paper from an art or design history course; and 20 examples of original design works in a format that is viewable via SlideRoom.

Accelerated Option Requirements
As an undergraduate, the accelerated master’s student is required to complete the two graduate courses indicated on their Accelerated Master’s Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, candidates submit the Bachelor's/Accelerated Master's Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing and must meet all master's degree requirements except for the two courses (6 credits) completed as undergraduates. Students will begin their master's program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

Reserve Graduate Credit
Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with permission of the School of Art. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 credit hours of graduation and must be approved by the Dean's Office.

To apply these credits to the master's degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor's/Accelerated Master's Transition Form.

Photography Minor

Banner Code: PHO
2050 Art and Design Building
Fairfax Campus

Email: avt@gmu.edu
Website: soa.gmu.edu

The minor provides opportunities for students to develop a personal vision in response to photography’s role in contemporary art and culture. Various studio classes emphasize a range of techniques in the production of traditional, digital and experimental imagery. Critical thinking combined with studio/lab experience enhance this comprehensive introduction to the field and practice of photography.

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor with a minimum 2.00 GPA earned in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

This minor is available to AVT majors. AVT majors must complete 12 credits unique to the minor.

Requirements

Minor Requirements
Total credits: 16

Required Courses
AVT 252  Darkroom Photography I (Mason Core)  4
or AVT 253  Digital Photography I (Mason Core) (p. 135)

or AVT 253  Digital Photography I (Mason Core) (p. 135)

Pilkington, Rocher, Spatz, Summerall, Windom

Requirements & Policies

Requirements
BFA/BA Admissions Requirements
The School of Dance offers a BFA and a BA. Entrance to either program
is by audition. Information about the audition process, including dates
and audition application, can be found on the School of Dance website
(p. 802). Admission to the university is determined by the Admissions
Office.

Master of Fine Arts, Visual and Performing Arts,
Concentration in Dance
A Visual and Performing Arts, Master of Fine Arts with a concentration
in Dance is offered by the College of Visual and Performing Arts. For
specific information, please refer to the Visual and Performing Arts, MFA
(p. 767).

Writing-Intensive Requirement
The university requires all students to complete at least one course
designated “writing intensive” in their major at the 300-level or above.
Students in the Dance, BFA and BA fulfill this requirement by successfully
completing DANC 390 Dance History I (Mason Core) (p. 135) or DANC 391 Dance History II (Mason Core) (p. 135).

**Policies**

See CVPA Requirements and Policies (p. 764).

The BFA in dance is a performance-oriented contemporary dance program designed to prepare students professionally as performers, choreographers, educators, and active leaders of the dance community. Students in this program demonstrate technical mastery and devote their college study to an intensive and comprehensive dance curriculum.

Daily technical training in modern dance and ballet, and numerous performance opportunities develops a versatile dancer. Student progress in the BFA program is assessed consistently. Because of the professional nature of the BFA degree, the program requires completion of 126 credits of coursework.

Admissions & Policies
Admissions
Entrance to the program is by audition. Information about the audition process, including dates and audition application, can be found on the school web page (http://dance.gmu.edu), or by calling the dance office at 703-993-1114. Admission to the university is determined by the Admissions Office.

Policies
For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 84).

Requirements

Undergraduate Programs

Bachelor's Degrees

The two undergraduate degree programs offered through the School of Music, the bachelor of art (BA) in music and the bachelor of music (BM), prepare students for graduate work in music and music literature; research and professional work in musical activities; and state licensure, or certification, to teach vocal and choral or instrumental music at the elementary and secondary school levels.

Through its strategic plan, Music Outreach and the Teaching Professions, the School of Music enables students to pursue worthwhile vocational goals as teachers, performers, conductors, and composers. The School of Music also seeks to educate its students to reflect a concern for cultural and humanistic values as future ambassadors and advocates of music and other arts. Through innovative learning experiences, the School of Music provides all students in the BA and BM programs with opportunities to become effective musicians, teachers, and advocates of music. Teaching music is the principal area in which students can find employment in private studios, public and private schools, academies, and higher education within the ever-changing workplace. Because of this, all music majors at Mason receive some training in the teaching of music.

The School of Music also recognizes the critical outreach role it provides in serving students from all majors, as well as members of the community who significantly benefit from the values and experiences of an education in music. The School of Music seeks to provide unique educational opportunities through its various course offerings, workshops, presentations, and performances for those seeking music enrichment.

Teacher Licensure

Undergraduate students seeking certification to teach vocal and choral or instrumental music at the elementary and secondary levels must earn the BM degree as specified under Concentration in Music Education section in this section. Students who have earned a baccalaureate degree and are seeking state licensure to teach music must also complete this sequence of courses, which constitute a state-approved program for teacher education in music.

Graduate Certificates

Music Education Licensure for PK-12

This graduate certificate is designed as a pathway to music education licensure for music students without an undergraduate degree in music education. Upon completing this certificate students will be equipped with the necessary skills, knowledge, and experience to obtain music teaching licensure from the Commonwealth of Virginia.

Music and Well-Being Graduate Certificate

The Graduate Certificate in Music and Well-Being builds on courses currently offered in the School of Music and on the school-wide initiative around well-being as an important consideration and subject of study for all musicians. The certificate allows students to explore the connections between music and consciousness and between vibration, meditation, and well-being. It is conceived as a complement to the programs focused on mindfulness and well-being that are a priority across the university.

Instrumental Performance Artist Graduate Certificate

The certificate is a specialized, graduate-level program for advanced musicians who desire to further develop and refine their performance art. The certificate program is a two-year course of study requiring at least two consecutive semesters of residence. A total of 32 credits is required. Advisor’s approval is required for each semester’s enrollment.

Piano Performance Artist Certificate

The certificate is a specialized, graduate-level program for advanced musicians who desire to further develop and refine their performance art. The certificate program is a two-year course of study requiring at least two consecutive semesters of residence. A total of 32 credits is required. Advisor’s approval is required for each semester’s enrollment.

Vocal Performance Artist Graduate Certificate

The certificate is a specialized, graduate-level program for advanced musicians who desire to further develop and refine their performance art.
The certificate program is a two-year course of study requiring at least two consecutive semesters of residence. A total of 32 credits is required. Advisor’s approval is required for each semester’s enrollment.

**Graduate Programs**

**Accelerated Master’s Option**

The School of Music offers a Music, BM (Performance)/Music, Accelerated MM (Performance) option which allows undergraduate students to take graduate classes that can be used towards a designated Master’s degree. Undergraduates who wish to pursue the accelerated Master’s route should talk to their academic advisor first to see if they qualify. Students must be within 75-90 credits of their Bachelor’s program to be eligible to apply; those who have earned more than 90 credits will not be considered. Students must be approved by their academic advisor and formally apply and be accepted to the Master’s program through an Accelerated Master’s application. For more information about admissions requirements and the application process, students should visit the website (http://cvpa.gmu.edu).

**Music, MM**

The MM degree is offered as an educational channel to meet the intellectual and career needs of qualified students. It is a comprehensive and advanced program of study with a choice of concentrations in performance, music education, composition, conducting, jazz studies, and pedagogy. The MM with a concentration in music education does not provide licensure to teach music in public or private schools.

**Music Education, Ph.D.**

The PhD in music education, a research-intensive degree, focuses on the gathering, processing, and interpretation of information. Students in the PhD program take seminars and topics courses in music education, as well as research courses through the College of Education and Human Development. PhD graduates are expected to demonstrate the ability to communicate significant concepts of music education.

The PhD in music education requires 60 credits beyond the master’s degree in music.

**Doctor of Musical Arts (DMA)**

The DMA concentrations are composition, conducting, and performance. While these concentrations share some of the required course work, each is also distinct in course requirements. Professional musicians earn the DMA to enhance and extend their knowledge and practice within their area of specialization. The DMA student focuses on the profession of music performance, as well as the theory and practice of the discipline.

The Doctor of Musical Arts (DMA) degree require 60 credits beyond the master’s degree in music.

**Faculty**

**School Faculty**

**Professors**

Balakerskaia, Billingham, Camphouse, Carroll, Engebretson, Hearden, Layendecker (Heritage Chair), Maiello, Miller, Monson (Director), Rendler, G. Smith

Aler, Guessford, Nickens, T. Owens (Associate Director), G. Robinson

**Assistant Professors**

D. Purcell, Green, Kilkenny

**Administrative Faculty**

Freer

**Adjunct Faculty**

**Requirements & Policies**

**Requirements**

**Admission Requirements**

Entrance to all music degree programs is by audition. Arrangements for an audition must be made in advance by contacting the School of Music before the scheduled audition date. Auditions are held approximately once per month. Audition dates and audition application forms are available through the School of Music (http://music.gmu.edu).

**Program Requirements**

A fundamentals of music test is given during the first week of classes to all students enrolled in MUSI 115 Theory I. Call for additional information.

Competency placement tests are required of all transfer students who wish to present transfer credit in any of the following areas: aural skills and keyboard skills.

Students must earn a minimum 2.00 cumulative GPA in their major or higher, if required by their program.

**Policies**

See CVPA Requirements and Policies (p. 764).

**Termination from the Major**

No School of Music course that is required for the major may be unsuccessfully attempted more than three times. A grade of F constitutes an unsuccessful attempt in any given course. Those students who do not successfully complete such a course within three attempts will be terminated from the major. For more information, see AP.5.2.4 Termination from the Major (p. 85).

**Writing-Intensive Requirement**

Mason requires all students to complete at least one course designated “writing intensive” in their major at the 300 level or above. Students majoring in music may fulfill this requirement by successfully completing MUSI 332 Music History in Society II or MUSI 438 Music History in Society B. Students who transfer this course into Mason may be required to repeat it or enroll in some other suitable course to fulfill the writing intensive requirement.

Email: music@gmu.edu
Website: music.gmu.edu/degree-programs/undergraduate/

The minor is designed for those who wish to widen their scope of knowledge about music while deepening their understanding of the world’s peoples. Students learn in the classroom, as well as experientially, in the form of applied studies and exercises in field work how music making functions within cultural contexts, conveying varied meanings in bodily action and musical sound worldwide. Students gain skills that will serve them in many fields of endeavor, from developing specific musical expertise to acquiring proficiency with technological and anthropological aspects of ethnographic enquiry.

Admissions & Policies

Admissions

Students must first demonstrate to the Ethnomusicology coordinator a basic level of knowledge and training in some area of Western or non-Western music, or earn a grade of B or higher in MUSI 103 Musics of the World (Mason Core) (p. 135) or MUSI 431 Music History in Society III (Mason Core) (p. 135).

Policies

Eight credits of coursework must be unique to the minor with a minimum 2.00 GPA earned in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Requirements

A417 deLaski Performing Arts Building
Fairfax Campus
Phone: 703-993-1392
Email: music@gmu.edu
Website: music.gmu.edu/degree-programs/advising/

The certificate is a specialized, graduate-level option for advanced musicians who desire to further develop and refine their performance art. The certificate is a two-year course of study requiring at least two consecutive semesters of residence. A total of 32 credits is required. Advisor's approval is required for each semester's enrollment.

This certificate may be earned on a full time or part time basis.

Admissions & Policies

Admissions

Application Materials

- An artist certificate application and current résumé
- A bachelor's degree in music or equivalent (as evaluated by the School of Music Admissions Committee)
- Transcripts from previous educational institutions
- One-page written statement of student's goals and interest in the program
- Two letters of recommendation
- Recording of a live performance of solo works from the standard repertory submitted via SlideRoom.

Applicants must perform an audition recital and be interviewed on the Mason Campus. Applicants will be notified of the date and time of the audition and interview.

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 90).

Website: music.gmu.edu/degree-programs/advising/

This minor is open to music and non music majors who wish to explore America’s unique art form. It is open to all instrumentalists and vocalists, including students who perform on instruments not normally associated with jazz.

Admissions & Policies

Admissions

No prior experience in jazz is needed, but candidates must pass a music audition.

Policies

Students in the keyboard area use the Keyboard Skills I credit as a music elective.

University policy states that students must earn 8 distinct credits that are not used for their major toward their degree, with a minimum 2.00 GPA earned in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Music Education Licensure for PK-12 Graduate Certificate

Banner Code: AR-CERG-MELP

Melinda Wildman, Academic Advisor
A417 deLaski Performing Arts Building
Fairfax Campus
Phone: 703-993-1392
Email: music@gmu.edu
Website: music.gmu.edu/degree-programs/advising/

This certificate may be earned on a full-time or part-time basis.
Admissions & Policies

Admissions
• In addition to standard requirements through the university’s online application, requirements for this program include:
  • Transcript audit that indicates: Bachelor of Music or its equivalent, minimum cumulative G.P.A. of 3.0 (Endorsement Worksheet)
  • Official copy of Praxis Core Academic Skills for Educators Test (or equivalency)
  • One page professional goals statement submitted with application
  • Upon application review by music education faculty, the successful applicant will be invited to an interview and music skills proficiency exam.

Coursework completed at other institutions will not be considered for transfer into this graduate certificate program. Applicants who believe they have met requirements for a license are encouraged to apply directly to the Virginia Department of Education (VDOE). Instructions and a type-and-print version of the application for a teaching license can be found on the VDOE website at: http://www.doe.virginia.gov/teaching/licensure/application.pdf

Specifics regarding testing requirements and passing scores are dictated by the College of Education and Human Development (CEHD) and can be found online at https://cehd.gmu.edu/teacher/test/praxis

Total Credits 15

Internship
Upon completion of coursework the candidate must complete a student teaching internship at the elementary and secondary levels in a program-approved public or private school (6 credits). Prior to being permitted to student teach, the candidate must complete and pass the VCLA, the Praxis Subject Assessment (Music Content Knowledge-5113), and the MTEC Competency Check.

Music Education, PhD

Banner Code: AR-PHD-MUE

Brian Wuttke, Director of Music Education
A417 deLaski Performing Arts Building
Fairfax Campus
Phone: 703-993-1392
Email: music@gmu.edu
Website: music.gmu.edu/degree-programs/graduate/

The PhD, a research-intensive degree, focuses on the gathering, processing, and interpretation of information. Students in the PhD program take seminars and topics courses in music education, as well as research courses through the College of Education and Human Development (p. 154). PhD graduates are expected to demonstrate the ability to communicate significant concepts of music education. The PhD requires 90 credits, 60 beyond the master’s degree in music.

Admissions & Policies

Admissions

Admission Requirements
In addition to meeting all admission requirements for graduate study, applicants should submit the following:

• Master’s degree in music or its equivalent from an accredited university;
• GPA of 3.00 in master’s-level music course work; 3.50 in courses related to the prospective area of doctoral study (music education, performance, composition, or conducting);
• Three recommendations;
• Satisfactory scores on GRE;
• Sample of academic writing such as a graduate-level paper from a musicology or music history course taken during MM studies.
• Students in performance and conducting must audition. Specific details of those requirements are available from the advisors.
• Composition students must present a portfolio of recent compositions and recordings of performances.

• Music education majors must present a dossier of their teaching experience and activities, a video of sample classroom teaching, and they must schedule an interview with music faculty including the director of graduate studies (DGS) prior to admission.

Applicants should refer to the graduate admissions (https://music.gmu.edu/auditions/masters-auditions) page of the School of Music website for specific details on what is required and how to submit their materials. There is no “provisional” admission. Students must meet appropriate standards prior to commencing doctoral studies.

Policies

Reduction of Credit
Students must have a master's degree before being admitted. Most students receive a reduction of study of 30 credits based on their previous master's degree.

Requirements

Degree Requirements
Total credits: 90

The following degree plan is based on a student who receives a full 30 credit reduction. Students who do not receive a full credit reduction should choose additional credits in consultation with their advisor.

Placement Examinations
Prior to the beginning of the first semester of doctoral studies, the student must complete placement examinations in music theory, music history, and musicianship (including aural skills and keyboard skills). Positive scores on the placement exams may reduce or eliminate prerequisites for courses in music history and music theory.

Doctoral Coursework
The doctoral student must maintain a minimum of 3.00 GPA in courses presented on the degree plan, which may include no more than 6 credits with a grade of C. The GPA calculation excludes all transfer courses and may include no more than 6 credits from the degree plan, which may include no more than 6 credits with a grade of C. The GPA calculation excludes all transfer courses and they must schedule an interview with music faculty including the director of graduate studies (DGS) prior to admission.

Applicants should refer to the graduate admissions (https://music.gmu.edu/auditions/masters-auditions) page of the School of Music website for specific details on what is required and how to submit their materials. There is no “provisional” admission. Students must meet appropriate standards prior to commencing doctoral studies.

Select six credits in music theory

MUSI 610 Topics in Music Theory

Doctoral Research
Select 12 credits from the following:

MUSI 710 Advanced Topics in Music Theory
MUSI 630 Topics in Music History and Literature
or MUSI 730 Advanced Topics in Music History
MUSI 640 Topics in World Musics
MUSI 660 Topics in Music Education (3 credits)
1-6
MUSI 810 Doctoral Seminar in Analysis
or MUSI 830 Doctoral Seminar in Music History
MUSI 860 Doctoral Seminar in Music Education (12 credits)
MUSI 880 Doctoral Major Ensemble (3 credits)
CVPA 600 CVPA Graduate ProSeminar (must be taken within the student’s first 2 semesters)
Select 6 credits of MUSI 500 - 800 level electives as approved by advisor. (p. 1740)
Total Credits 48

Residency
More than half of all credits (minimum 72) must be taken in doctoral degree status, after admission to the degree program. One year (fall and spring) of consecutive full-time study (9 credits per semester) is recommended (18 total credits). Or, the academic residency requirement may be fulfilled by earning 21 credits within 12 months (fall and spring semesters and summer term). Academic residency should be completed during the first year of study. Any necessary prerequisite courses at the 500 level can be included to meet the residency requirement. Language courses at the undergraduate level may not be included. Note: The academic residency does not imply meeting the standards of Virginia residency for tuition purposes.

Language Requirements
Reading proficiency is required in a language appropriate to the student’s major area of study. Normally, this will be German, French, or Italian. Alternatively, the student may choose to demonstrate proficiency interpreting statistical findings in quantitative-based educational research. The director of graduate studies and the Graduate Committee will determine the appropriate area of study. Reading proficiency may be accomplished by completing a reading examination provided by the music faculty. The reading examination provided by the faculty will normally consist of translation (with dictionary) of appropriate technical passages relevant to the student’s area of study within a two-hour period. The language reading proficiency should be completed prior to earning 12 credits of courses at the 600 level or above.

Graduate Committee
The Graduate Committee will evaluate the progress of the student annually. Continuation in the program is subject to the endorsement of this group.

Comprehensive Exams
After the completion of required courses (excluding dissertation credits) or during the semester when completion of those courses is anticipated, the student will take comprehensive examinations. The written exams may also be followed by a one-hour oral exam if needed to clarify issues included in the written exams.
Advancement to Candidacy

Before doctoral students may be advanced to candidacy by the dean of the College of Visual and Performing Arts, they must complete all course work required by the program faculty, be certified in all relevant doctoral research skills, pass the comprehensive exams, and be recommended by the Graduate Committee, the director of graduate studies, and the director of the School of Music. Students advanced to candidacy after the add period for a given semester must wait until the following semester to register for MUSI 999 Dissertation.

Dissertation

The dissertation is the capstone experience of doctoral study. The dissertation will be guided by the Dissertation Committee consisting of at least three members of the music faculty. The student’s major professor will chair the committee. The director of graduate studies of the School of Music may be a part of the committee; if not, he or she will serve ex officio. All Dissertation Committee members will be appointed by the dean of the College of Visual and Performing Arts and have graduate faculty status, as approved by the university provost.

Final Defense and Graduation

When all degree requirements have been satisfied, including completion of the doctoral dissertation, the doctoral candidate may request a doctoral defense. Approval for the defense must be obtained from the Dissertation Committee, the director of graduate studies and the director of the School of Music, and the dean of the College of Visual and Performing Arts. Notice of a defense must be circulated to the university community two weeks before the defense date.

All relevant rules regarding schedule, fees, and other matters as described in the catalog must be followed. All copies of the dissertation materials and fees must be paid before the doctoral degree is awarded.

Admissions & Policies

Admissions

All students pursuing a music minor must pass a music audition. Students in the keyboard area use the Keyboard Skills I credit as a music elective.

Policies

University policy states that students must earn 8 distinct credits that are not used for their major toward their minor, with a minimum grade of 2.00 earned in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

Music and Well-Being Graduate Certificate

Banner Code: AR-CERG-MUWB

Melinda Wildman, Academic Advisor
A417 deLaski Performing Arts Building
Fairfax Campus
Phone: 703-993-1392
Email: music@gmu.edu
Website: music.gmu.edu/degree-programs/advising/

The Graduate Certificate in Music and Well-Being builds on courses currently offered in the School of Music and on the school-wide initiative around well-being as an important consideration and subject of study for all musicians. Expanding and supplementing courses developed in connection with the undergraduate minor in Music and Well-Being, the certificate allows students to explore the connections between music and consciousness and between vibration, meditation, and well-being. The graduate certificate gives students a thorough grounding in theory and practice and includes instruction in compositional and improvisational approaches. Although there is some overlap in subject matter, this is not intended as a program in music therapy. The certificate is conceived as a complement to the programs focused on mindfulness and well-being that are a priority across the university. The success of the long-running Healing Arts Ensemble at the graduate level as well as the undergraduate level, and the growth in the new minor in Music and Well-Being indicates the potential level of student interest in the program.

This certificate may be pursued either in part or full time status.

Website: music.gmu.edu/degree-programs/advising/

The minor is designed to allow participation by students with minimal formal musical training. The coursework allows students to explore the connections between music and consciousness and between vibration, mindfulness, and well-being.

Admissions & Policies

Admissions
Admission to the Music and Well-Being minor is by interview with the minor coordinator.

Policies
University policy states that students must earn 8 distinct credits that are not used for their major toward their minor, with a minimum grade of 2.00 earned in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 86).

### Pedagogy

All students (except for Music Technology students) must register for a pedagogy and literature class appropriate to their major instrument or register for a teaching internship.

Select one from the following:

- MUSI 395 Teaching Internship (2 credits)
- MUSI 351 Keyboard Pedagogy \(^1\)
- MUSI 352 Vocal Pedagogy and Lab \(^2\)
- MUSI 353 Instrumental Pedagogy and Literature \(^3\)

Total Credits 0-3

1. Required for keyboard students.
2. Required for vocal students.
3. Topic varies; students must register for the topic corresponding with their major instrument. Required for strings and guitar students; recommended for wind, brass, or percussion students.

### Concentration in Music Technology (MTEC)

Students pursuing this concentration may not also pursue the Music and Technology minor. Students who wish to complete a concentration in music technology must also complete the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MUSI 252</td>
<td>Popular Music Arranging</td>
<td>3</td>

<td>Recording Techniques</td>
<td>3</td>
</tr>
<tr>
<td>MUSI 359</td>
<td>Topics in Music Technology</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 15

### General Electives

Select the amount of elective credit corresponding with degree path:

- Music Technology students 20-38
- All other students 23-41

1. Electives may not include additional music courses.

### Accelerated Master's

**Music, BA/Arts Management, Accelerated MA**

### Overview

Students choosing the accelerated option must fulfill all university requirements for the master's degree. The regular designed timeframe would be a start in the Fall and completion of all coursework in the Summer five years later with the exception of Capstone, which is only offered in Fall and Spring. Students may need a longer timeframe to complete all requirements.

This accelerated option is offered through joint cooperation between the School of Music and the Arts Management Program.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees. For policies governing all graduate degrees, see the Academic Policies section of the catalog.

### Application Requirements

Applicants to accelerated master's programs must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits at Mason) and no more than 100 credits. Applicants should submit an Accelerated Master's Program Application, available from the College of Visual and Performing Arts (CVPA) Graduate Studies. It includes the proposed conferral date for the undergraduate degree and the two graduate courses that are to be applied to the undergraduate degree.
Interested students should contact the Arts Management Program Office for more details about the application process.

**Accelerated Option Requirements**

As an undergraduate, the accelerated master’s student is to complete the two graduate courses indicated on their Accelerated Option Requirements. As an undergraduate, the accelerated master’s student is to complete the two graduate courses indicated on their Accelerated Master’s Program application with a minimum grade of 3.00 in each course. Students must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. On completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form (which shall incorporate all of the Graduate Admission requirements of the university) and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students will begin their master’s program in the semester immediately following conferral of the undergraduate degree, and they may also begin in the summer term.

**Reserve Graduate Credits**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with permission of the School of Music. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation and must be approved by the Dean’s Office.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition Form.

**Mason Core**

Coursework within the major and concentration fulfills the information technology, global understanding, oral communications, fine arts, and synthesis requirements. Students must fulfill the requirements remaining in the following areas:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Quantitative Reasoning (p. 136)</td>
<td>3</td>
</tr>
<tr>
<td></td>

**Requirements**

**Degree Requirements**

Total credits: 120

Students must complete all Mason Core (p. 135) requirements and core coursework, as well as the requirements within one selected concentration.
Select 8 credits from MUSI 442-MUSI 448 (see Applied Music Options)

MUSI 259 Music in Computer Technology (Mason Core) (p. 135) 3
MUSI 319 Class Composition and Arranging 3
MUSI 324 Junior Recital (Mason Core) (p. 135) 1
MUSI 331 Music History in Society I 3
MUSI 332 Music History in Society II 3
MUSI 354 Electronic Composition 3
MUSI 361 Class Strings 1
MUSI 363 Class Woodwinds 1
MUSI 365 Class Brass 1
MUSI 366 Class Percussion 1
MUSI 379 Jazz Improvisation 1
MUSI 391 Conducting I 2
MUSI 396 Conducting II 2
MUSI 419 Orchestration 3
MUSI 424 Senior Recital (Mason Core) (p. 135) 1

Three credits of 3
MUSI 454 Jazz Arranging or MUSI 485 Chamber Ensembles (Mason Core) (p. 135)

Four credits of 4
MUSI 485 Chamber Ensembles (Mason Core) (p. 135) (M3E or Healing Arts Ensemble only) 1
MUSI 491 Musical Communication in Performance (Mason Core) (p. 135) 1
MUSI 438 Music History in Society B 3
MUSI 439 Music History in Society C 3
Select 5 credits from MUSI 100-MUSI 499 2 5

Total Credits 70

1 Additional to M3E/Healing Arts Ensemble requirement.
2 As approved by Music advisor.

Emphasis Requirement
Composition: Brass Emphasis

MUSI 171 Keyboard Skills I 1
MUSI 172 Keyboard Skills II 1
MUSI 353 Instrumental Pedagogy and Literature 3
Select 4 credits from the following: 4
MUSI 380 Wind Symphony (Mason Core) (p. 135)
MUSI 383 Symphonic Band (Mason Core) (p. 135)
MUSI 387 Symphony Orchestra (Mason Core) (p. 135)
MUSI 389 Jazz Ensemble (Mason Core) (p. 135)

Total Credits 9

Composition: Keyboard Emphasis

MUSI 351 Keyboard Pedagogy 3
MUSI 371 Techniques of Accompanying I 1
MUSI 372 Techniques of Accompanying II 1
Select 4 credits from the following: 4
MUSI 381 University Chorale (Mason Core) (p. 135)
MUSI 384 Symphonic Chorus (Mason Core) (p. 135)
MUSI 385 Chamber Singers (Mason Core) (p. 135)

Total Credits 9

Composition: Percussion Emphasis

MUSI 171 Keyboard Skills I 1
MUSI 172 Keyboard Skills II 1
MUSI 353 Instrumental Pedagogy and Literature 3
Select 4 credits from the following: 4
MUSI 380 Wind Symphony (Mason Core) (p. 135)
MUSI 383 Symphonic Band (Mason Core) (p. 135)
MUSI 387 Symphony Orchestra (Mason Core) (p. 135)
MUSI 389 Jazz Ensemble (Mason Core) (p. 135)

Total Credits 9

Composition: String Emphasis

MUSI 171 Keyboard Skills I 1
MUSI 172 Keyboard Skills II 1
MUSI 353 Instrumental Pedagogy and Literature 3
Four credits of 4
MUSI 387 Symphony Orchestra (Mason Core) (p. 135)

Total Credits 9

Composition: Voice Emphasis

MUSI 171 Keyboard Skills I 1
MUSI 172 Keyboard Skills II 1
MUSI 352 Vocal Pedagogy and Lab 3
Select 4 credits from the following: 4
MUSI 381 University Chorale (Mason Core) (p. 135)
MUSI 384 Symphonic Chorus (Mason Core) (p. 135)
MUSI 385 Chamber Singers (Mason Core) (p. 135)

Total Credits 9

Composition: Woodwind Emphasis

MUSI 171 Keyboard Skills I 1
MUSI 172 Keyboard Skills II 1
MUSI 353 Instrumental Pedagogy and Literature 3
Select 4 credits from the following: 4
MUSI 380 Wind Symphony (Mason Core) (p. 135)
MUSI 383 Symphonic Band (Mason Core) (p. 135)
MUSI 387  Symphony Orchestra (Mason Core) (p. 135)
MUSI 389  Jazz Ensemble (Mason Core) (p. 135)

Total Credits 9

**Concentration in Jazz (JAZC)**

Students must complete all concentration requirements as well as requirements for one of the following emphases:

- Brass
- Guitar
- Keyboard
- Percussion
- Woodwind

**Courses Required for All Emphases**

**Concentration in Music Education (MUE)**

**Certification to Teach**

The music education concentration at George Mason University is recognized by the Virginia Department of Education (VDOE) as an approved teacher preparation program that imparts licensure. Even though an undergraduate student may declare music education as their major, this is not an official indication of a student's degree status. In order to be accepted into the degree, students must complete an application, meet all eligibility requirements, and pass the MTEC Interview and Skill Proficiency Exam. All entry requirements are described in Part 1 of the GMUsicEd Handbook located online (http://catalog.gmu.edu/colleges-schools/visual-performing-arts/music/music-bm/https/sites.google.com/site/gmusicedhandbook/Information/part1bme).

The deadline for applying to the BME and taking the MTEC exam is the 4th semester of coursework. The 4th semester is defined as a minimum of 36 attempted credits. Transfer and continuing students entering GMU as an undergraduate with 36 or more credits will be required to apply to the BME no later than their 2nd semester of coursework at GMU.

Student must complete all concentration requirements as well as requirements for one of the following emphases:

- Brass
- Guitar
- Keyboard
- Percussion
- String
- Voice
- Woodwind

**Courses Required for All Emphases**

1 As approved by Music advisor.

**Music Education: Keyboard Emphasis**

Two credits of 2

- MUSI 223 Applied Music in Voice
- MUSI 352 Vocal Pedagogy and Lab
- MUSI 371 Techniques of Accompanying I
- MUSI 372 Techniques of Accompanying II
- MUSI 391 Conducting I
- MUSI 396 Conducting II
- MUSI 461 The Teaching of General Music in the Elementary and Middle School
- MUSI 463 The Teaching of Vocal Music in the Secondary School

Select 1 credit from the following: 1

- MUSI 363 Class Woodwinds
- MUSI 365 Class Brass

Select 7 credits from the following: 7

- MUSI 381 University Chorale (Mason Core) (p. 135)
- MUSI 384 Symphonic Chorus (Mason Core) (p. 135)
- MUSI 385 Chamber Singers (Mason Core) (p. 135)

Total Credits 25

**Music Education: Percussion Emphasis**

MUSI 171 Keyboard Skills I 1
- MUSI 172 Keyboard Skills II 1

Two credits of 2

- MUSI 363 Class Woodwinds
- MUSI 365 Class Brass
- MUSI 368 Class Voice
- MUSI 391 Conducting I
- MUSI 396 Conducting II
- MUSI 464 Instrumental Music Methods I
- MUSI 466 Instrumental Music Methods II

Select 1 credit from MUSI 100-MUSI 499 (p. 1740) 1

Select 7 credits from the following: 7

- MUSI 380 Wind Symphony (Mason Core) (p. 135)
- MUSI 383 Symphonic Band (Mason Core) (p. 135)
- MUSI 387 Symphony Orchestra (Mason Core) (p. 135)
- MUSI 389 Jazz Ensemble (Mason Core) (p. 135)

Total Credits 25

1 As approved by Music advisor.

**Music Education: Woodwind Emphasis**

MUSI 171 Keyboard Skills I 1
- MUSI 172 Keyboard Skills II 1

Two credits of 2

- MUSI 363 Class Woodwinds
- MUSI 365 Class Brass
- MUSI 368 Class Voice
- MUSI 391 Conducting I
- MUSI 396 Conducting II
- MUSI 464 Instrumental Music Methods I
- MUSI 466 Instrumental Music Methods II

Select 1 credit from MUSI 100-MUSI 499 (p. 1740) 1

Select 7 credits from the following: 7

- MUSI 380 Wind Symphony (Mason Core) (p. 135)
- MUSI 383 Symphonic Band (Mason Core) (p. 135)
Concentration in Music Technology (MTEC)

Students must complete all concentration requirements as well as requirements for one of the following emphases:

- Electroacoustic Music
- Engineering
- Recording

Courses Required for All Emphases

<td>2</td>
</tr>
<tr>
<td>MUSI 485</td>
<td>Chamber Ensembles (Mason Core) (p. 135)</td>
<td>1</td>
</tr>
</tbody>
</table>

Total Credits: 26

1. Must be electroacoustic music emphasis.
2. At least one credit of additional coursework or general electives must come from 300 or 400 level courses.

**Music Technology: Engineering Emphasis**

A double degree in a STEM field or the following:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 113</td>
<td>Analytic Geometry and Calculus I (Mason Core) (p. 135)</td>
<td>4</td>
</tr>
<tr>
<td>or MATH 115</td>
<td>Analytic Geometry and Calculus I (Honors) (Mason Core) (p. 135)</td>
<td>4</td>
</tr>
</tbody>
</table>

Additional Coursework

Coursework from any of the following prefixes: 22

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>CS</td>
<td></td>
<td>3</td>
</tr>
<tr>
<td>ECE</td>
<td></td>

<td></td>
</tr>
</tbody>
</table>

**MATH**

Select one from the following: 3-4

- **MATH 106** Quantitative Reasoning (Mason Core) (p. 135)
- **MATH 108** Introductory Calculus with Business Applications (Mason Core) (p. 135)
- **MATH 113** Analytic Geometry and Calculus I (Mason Core) (p. 135)
- **MATH 115** Analytic Geometry and Calculus I (Honors) (Mason Core) (p. 135)
- **MATH 125** Discrete Mathematics I (Mason Core) (p. 135)

**Additional Coursework** 2

Select 14-15 credits of additional coursework from the following: 14-15

- **MUSI 221** Applied Music I (1-4 credits)
- **MUSI 359** Topics in Music Technology
- **MUSI 485** Chamber Ensembles (Mason Core) (p. 135) (1-3 credits)

Coursework from any of the following prefixes:

- **ECE** (p. 1456)
- **ECON** (p. 1413)
- **IT** (p. 1655)
- **MATH** (p. 1717)
- **MBUS** (p. 1738)
- **PHYS** (p. 1828)

**Total Credits** 26

1. Topic must be in Recording emphasis.
2. At least 5 credits from additional coursework or general electives must come from 300 or 400 level courses.

**Concentration in Performance (PFM)**

Students must complete all concentration requirements as well as requirements for one of the following emphases:

- Brass
- Guitar
- Keyboard
- Percussion
- String
- Voice
- Woodwind

**Courses Required for All Emphases**
