

ECONOMICS, BA

Banner Code: LA-BA-ECON

D150 Mason Hall
Fairfax Campus

Website: economics.gmu.edu/programs/la-ba-econ

Economics is about more than money and profits. It is a way of looking at the world through the lens of incentives, choices, and markets to help uncover new solutions to the persistent problems in our society. This economic perspective sheds light on important issues in the areas of production, education, crime, the environment, international trade, immigration, health care, economic growth, poverty, and more. The BA is designed for students with a strong interest in the liberal arts. It is appropriate for those who prefer a less quantitative degree program than the BS and may be especially appropriate for students planning to attend law school or graduate programs in business or public administration.

Admissions & Policies

Policies

Students pursuing this degree must complete a minimum of 48 credits of required coursework with a minimum GPA of 2.00. Students in the concentration in philosophy, politics, and economics complete a minimum of 70 credits. Students must also complete ECON 103 Contemporary Microeconomic Principles (Mason Core) and ECON 104 Contemporary Macroeconomic Principles (Mason Core) with at least a 2.00 (C) in each.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies.

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Economics majors can fulfill the Mason Core synthesis requirement with ECON 309 Economic Problems and Public Policies (Mason Core). Some economics courses may fulfill the Mason Core requirement in global understanding or the college requirement in non-Western culture. Check with the departmental advising office for more information.

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as "writing intensive" in their majors at the 300 level or above. Students majoring in economics fulfill this requirement by successfully completing one of the following courses:

ECON 345	Introduction to Econometrics
ECON 355	The Political Economy of Nonprofit Institutions
ECON 365	Topics in Economic History
ECON 435	Economics of Energy
ECON 470	Economics of Regulation

Upper Level Requirements

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree

In addition to the Mason Core program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core requirements or requirements for the major).

Honors

Honors in the Major

Students pursuing departmental honors must complete 6 hours of ECON 495 RS: Honors Thesis in Economics culminating with an original work of research and an oral presentation. Requirements for departmental honors are in addition to the coursework required for the major. Students must complete ECON 495 RS: Honors Thesis in Economics with a grade of B or higher to receive departmental honors.

Economics majors who have completed 90 credits with an overall GPA of 3.50 and a GPA of 3.50 within the major are eligible to apply. Not all applicants who meet the minimum requirements are guaranteed acceptance.

Applications will be available starting May 1st of each year. Applications are due by August 1st.

To be accepted into the program and enroll in ECON 495 RS: Honors Thesis in Economics students must submit a research proposal. Research proposals can be developed independently or by completing ECON 494 Honors Thesis Writing Seminar with a grade of B or higher. Completion of ECON 494 Honors Thesis Writing Seminar is not required for departmental honors.

Accelerated Master's

The accelerated master's program listed below specifies the BA in economics as a feeder degree for its program. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of master's degrees with accelerated programs at George Mason.

Economics, BA or BS/Economics, Accelerated MA

Overview

Highly-qualified Mason economics majors may apply to the accelerated master's degree program. If accepted, students will be able to earn both a BA or BS and a MA in economics after satisfactory completion of 144 credits. Graduates are exceptionally well-prepared for professional school or a PhD program in economics or a related discipline.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees. For policies governing all graduate degrees, see AP.6 Graduate Policies.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For information specific to the accelerated MA in economics, see Application Requirements and Deadlines (<http://economics.gmu.edu/programs/application/LA-MA-ACEL-ECON>) on the departmental web site.

Accelerated Option Requirements

While undergraduate students, accelerated master's students will be required to complete two master's courses to be applied to the undergraduate degree as upper level credit. These two courses must be selected from the following five courses:

Code	Title	Credits
Select two from the following:		6
ECON 535	Survey of Applied Econometrics	
ECON 611	Microeconomic Theory	
ECON 612	Microeconomic Theory II	
ECON 615	Macroeconomic Theory	
ECON 630	Mathematical Economics I	
Total Credits		6

Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work and earn a grade of B or better (3.00 or higher) in course work applied to their major. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

While undergraduate students, accelerated master's students may take an additional two master's courses as reserve graduate credit. These two additional master's courses must be selected from the following five courses:

Code	Title	Credits
Select two from the following:		6
ECON 535	Survey of Applied Econometrics	

ECON 611	Microeconomic Theory	
ECON 612	Microeconomic Theory II	
ECON 615	Macroeconomic Theory	
ECON 630	Mathematical Economics I	
Total Credits		6

These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/ Accelerated Master's Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates.
