The master's program in public policy leads to a degree for aspiring or experienced professionals who seek career advancement through cutting-edge education and training in policy analysis and development in increasingly technical and global environments. The program prepares students to be reflective practitioners who develop, implement, manage, analyze, evaluate, and effect innovative change in the public and private sectors through a course of study that emphasizes the fundamentals of policy development; the role of technology, analytic assessment, and modeling for policy evaluation; and the implications of international and global perspectives on policy formation. Courses are offered primarily in late afternoon and evening to fit the schedules of busy professionals.

## Admissions & Policies

### Admissions

#### Requirements

See Graduate Admission Policies for general information on graduate admission to George Mason University. Specific information on application requirements and deadlines may be found with Schar Admissions (<http://schar.gmu.edu/admissions>). Completed applications for fall and spring semesters are reviewed on a rolling basis, with late applications considered on a space-available basis. ### Policies
