**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 628: Environment and Development in Africa.** 3 credits.
Examine environment and development in sub-Saharan Africa. Reviews relationship between environment and development, considers background and history leading up to present, and considers requirements to achieve more effective and sustainable results. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Recommended Prerequisite:** 8 graduate credits in policy process, international development, and ecology; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

**Recommended Prerequisite:** A course in policy process, a course in international development and a course in ecology, or Permission of Instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 631: Spatial Agent-based Models of Human-Environment Interactions.** 3 credits.
Discusses key challenges in spatial modeling of human-environment interactions. Reviews agent-based modeling applications in urban and rural interactions, agriculture, forestry, and other areas. Hands-on development of simple ABM models, and investigation of links between GIS and ABM. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to GGS 631.

**Recommended Prerequisite:** EVPP 531 or CSS 600 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 632: Qualitative Research Methods for Environmental Scientists.** 3 credits.
Course engages questions of qualitative research methods for scientists conducting human-environment research. Focuses on tools to investigate the human-environment nexis, including community-based conservation and management research and decolonizing methodologies. Students discuss and practice ‘triangulation’– the integration of qualitative and
quantitative methods--a necessary skill for environmental/human-environment research. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 635: Environment and Society. 3 credits.**
Human-environment interactions in human ecology perspective, historical basis of human environmental impact, indigenous and nonindigenous worldviews in context of modernization, environmental degradation and globalization, and contemporary policy and research initiatives geared toward resilience and sustainability. Discussion format. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 636: Gender, Race, and the Natural World. 3 credits.**
Advanced study of links among gender, race, and nature using social-psychological framework, original sources, and seminar and discussion. Analyzes ideologies that underpin the interlocking narratives of gender, race, and nature, and examines role of science in producing these ideologies. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 637: Human Dimensions of Climate Change. 3 credits.**
Examines human dimensions of climate change, biodiversity loss, ozone depletion, and related anthropogenic alterations of biosphere. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 638: Corporate Environmental Management and Policy. 3 credits.**
Provides understanding of how environmental issues interact with business strategy decisions. Emphasizes learning about proactive win-win environmental management strategies being implemented by world's leading firms, and shows how government policies and regulations can be designed to simultaneously promote higher environmental protection and competitiveness. Combines mini lectures, participatory discussions. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 641: Environmental Science and Public Policy. 3 credits.**
Effects of human activities on environment. Considers airborne, waterborne, and solid waste contaminants with respect to sources, control, and effect on ecosystems and humans. Focus is on scientific and technical aspects of environmental contamination. Includes discussion of science policy related to these topics. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Recommended Prerequisite:** A course in Ecology or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 642: Environmental Policy.** 3 credits.
In-depth examination of U.S. efforts since 1970 to mitigate pollution of air, land, and water. Addresses issues of global concern, including biodiversity loss, ozone depletion, and climate change. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to PUAD 642.

**Specialized Designation:** Green Leaf Course

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 643: Microbial Ecology.** 4 credits.
Studies relationships between microorganisms and their natural environment, and methodology for observing the microbes in nature and the biochemistry of environmental systems. Includes discussion of the role of microbes both in creating and removing toxic threats in the environment. Laboratory component includes field sampling/analyses and laboratory isolation and identification of microbes as well as measurement of their physiological activities. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to BIOL 643.

**Recommended Prerequisite:** A course in microbiology or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 645: Freshwater Ecology.** 3 credits.
Studies biotic and abiotic interactions that affect structure and composition of freshwater ecosystems. Emphasizes research literature. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Recommended Prerequisite:** EVPP 550 or Permission of Instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 646: Wetland Ecology and Management.** 3 credits.
Emphasizes structure, functions, and ecological processes of created and natural wetlands from an ecosystem perspective. Students will be expected to develop an understanding of hydrologic, physicochemical, and ecological aspects of wetlands and the management of these systems through in-class and field/lab works. Each student is required to carry out an individual research project that involves field and lab works, and write a research paper. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Recommended Prerequisite:** BIOL 307 or EVPP 377, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 647: Wetland Ecology Lab and Field.** 1 credit.
Use laboratory and field work to study the structure and function of wetland ecosystems. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Recommended Prerequisite:** EVPP 646 (formerly EVPP 644).

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 648: Population Ecology.** 3 credits.
Surveys ecological models and theory. Topics include population growth and regulation, competition, predator-prey, herbivore-plant, and parasite-host interactions, mutualism, and metapopulation ecology. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to BIOL 648.
**Recommended Prerequisite:** A Course in ecology or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 650: Ecosystem Analysis and Modeling.** 4 credits.
Introduces principles, history, and methodologies of systems ecology, emphasizing development and simulation of ecological models for natural resource/ecosystem management, conceptual and symbolic models, and simulation techniques on microcomputers. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to BIOL 650.

**Recommended Prerequisite:** A course in ecology or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 651: Multivariate Data Analysis for Ecology and Environmental Science.** 3 credits.
Provides graduate students in ecology and environmental science with tools needed to analyze multivariate data sets. Topics include classification and ordination. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Recommended Prerequisite:** EVPP 607 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 652: The Hydrosphere.** 3 credits.
Components and transfer processes within hydrosphere, which consists of aqueous envelope of Earth including oceans, lakes, rivers; snow, ice, glaciers, soil, moisture, ground water, and atmospheric water vapor. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to GGS 656.

**Recommended Prerequisite:** 2 semesters of calculus and partial differential equations.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 670: Environmental Law.** 3 credits.
Studies environmental laws such as the National Environmental Policy Act, and regulatory issues such as the Clean Water and Clean Air Acts. Emphasizes critical evaluation of alternatives to unresolved issues in environmental policies. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Recommended Prerequisite:** Course in Ecology, Environmental Biology, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 675: Environmental Planning and Administration.** 3 credits.
Examines interaction of man and ecological systems; causes of damage or deterioration in environment; content, oversights, and externalities in management decision processes that affect environment and effectiveness of plan implementation; means of assessing environmental impact; and administrative approaches for minimizing environmental impact. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Uses ecological principles to manage natural resources. Emphasizes hierarchical levels of organization within ecological systems, and management of ecosystems to conserve biodiversity, natural resources, and environment. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Recommended Prerequisite:** BIOL 607 or EVPP 607 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 682: Principles of Environmental Conflict.** 3 credits.
Explores the nature and characteristics of environmental conflict and efforts to manage, resolve or transform it. Students will develop a capacity to assess the strengths and weaknesses of environmental conflict resolution processes while learning about best practices for preventing, preparing for, and addressing environmental conflict. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to CONF 682.

**Recommended Prerequisite:** EVPP 607, CONF 501, and CONF 502, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 683: Environmental Conflict Resolution: Situation Assessment, Process Design and Best Practices.** 3 credits.
This course explores best practices for managing, resolving, and transforming environmental conflict using environmental conflict resolution (ECR) processes. Nature and dynamics of environmental disputes, methods for assessing conflict situations, and methods for conducting various forms of ECR processes will be covered in the context of selected case studies with emphasis on student involvement. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to CONF 683.

**Recommended Prerequisite:** EVPP 682 or CONF 682, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 684: Environmental Conflict Resolution and Collaboration: Leadership Practicum/Capstone.** 3 credits.
This course is the capstone course for the Graduate Certificate in Environmental Conflict Resolution and Collaboration. Under supervision of the instructor, students will undertake an assessment of an active environmental conflict and recommend a range of processes that promote identified goals for preferred conflict outcomes. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

**Recommended Prerequisite:** EVPP 682 or CONF 682, and EVPP 683 or CONF 683.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 689: Master's Seminar in Environmental Science and Public Policy.** 1 credit.
Explores selected topics in environmental science and public policy using lectures, guest lectures, student presentations, and discussions of current literature. Notes: Topics vary. Offered by Environmental Science & Policy (p. 679). May be repeated within the term for a maximum 4 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
EVPP 693: Directed Studies in Environmental Science and Public Policy. 1-4 credits.
Studies topic not otherwise available in graduate program. May involve reading assignments, tutorials, lectures, papers, presentations, and lab or field study determined in consultation with instructor. Notes: Short study plan required. May not be used to fulfill explicit undergraduate prerequisites for graduate work. Offered by Environmental Science & Policy (p. 679). May be repeated within the term for a maximum 8 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Special scale. (p. 82)

EVPP 730: Environmental Policy Research in Practice. 3 credits.
Course is designed for students interested in social science-oriented environmental research. Student learn how to ground their research ideas in social science theory, develop a central research question and construct original research hypotheses that are grounded in social science literature. They also hone their peer reviewing skills by assessing other students’ research and offering constructive commentary. Offered by Environmental Science & Policy (p. 679). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 12 credit hours of graduate course work at Mason or approval of instructor.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EVPP 738: Sustainable Enterprise Theory. 3 credits.
This course is designed to critically evaluate the scholarly research related to sustainable enterprise. The class provides an overview of the major theories, research designs, and methodologies associated with this emerging research domain. Students apply these theories to develop social science research proposals for empirical investigation. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit.

Recommended Prerequisite: EVPP 638 Corporate Environmental Management and Policy, equivalent class, or permission of instructor.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EVPP 741: Advanced Topics in Environmental Science and Public Policy. 0-4 credits.
Studies selected advanced topics in environmental science and public policy. Lectures, guest lectures, student presentations, laboratory exercises. Notes: Topics vary; each offering has coherent theme. May be repeated for credit if topics significantly differ. Offered by Environmental Science & Policy (p. 679). May be repeated within the term for a maximum 10 credits.

Recommended Prerequisite: Eight hours of graduate coursework in Environmental Science and Public Policy, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

EVPP 745: Environmental Toxicology. 3 credits.
Studies nature, distribution, and interaction of toxic chemicals released into environment. Topics include acute, subchronic, and chronic toxicity testing; uptake, distribution and metabolism of toxins as well as their distribution in the environment. Emphasizes effects on nonhuman biota, detection and fate of chemicals, and includes discussion of implications for government regulation. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to BIOL 745.

Recommended Prerequisite: EVPP 445 or EVPP 545 or equivalent; or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EVPP 792: Seminar in Earth Systems Science. 2 credits.
Seminar for Earth systems science graduate students with background in major systems. Capstone experience. Seminars presented by faculty and students. Notes: Topics vary from semester to semester. Offered by Environmental Science & Policy (p. 679). May not be repeated for credit. Equivalent to GGS 792.

Recommended Prerequisite: 15 graduate credits and courses on the atmosphere, hydrosphere, and lithosphere.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 793: Research in Environmental Science and Public Policy.** 1-3 credits. Library, laboratory, or field investigation under supervision of instructor. Notes: Short proposal required. Offered by Environmental Science & Policy (p. 679). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 8 graduate credits in EVPP and Permission of Instructor and Chair.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EVPP 797: Master’s Thesis Proposal.** 1-3 credits.
Work on research proposal that forms basis for a master’s thesis. Offered by Environmental Science & Policy (p. 679). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** 12 credits and permission of major professor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EVPP 798: Master’s Research Project in Environmental Science and Public Policy.** 1-3 credits.
Experimental, observational, literature-based, or theoretical research project chosen and completed under guidance of faculty member. Proposal required before enrollment. Comprehensive report acceptable to student’s committee required for completion. Notes: Students taking EVPP 798 may receive no more than 6 credits for both EVPP 793 and EVPP 798. Offered by Environmental Science & Policy (p. 679). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Approved project proposal and permission of instructor and Chair.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EVPP 799: Master’s Thesis in Environmental Science and Public Policy.** 1-6 credits.
Experimental, observational, or theoretical research under instructor’s supervision that culminates in production of thesis. Thesis work should be potentially publishable. Notes: No more than 6 credits of EVPP 793 and EVPP 799 may be applied to master’s degree. Offered by Environmental Science & Policy (p. 679). May be repeated within the degree.

**Recommended Prerequisite:** Approved thesis proposal and permission of instructor and Chair.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

### 800 Level Courses

**EVPP 894: Supervised Internship.** 3-12 credits.
Training in application of ecological skills to environmental management and policy under supervision of a qualified environmental scientist at governmental agency, consulting firm, industry, or other acceptable organization. Offered by Environmental Science & Policy (p. 679). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Permission of student’s doctoral committee, graduate program director and department chair.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

### 900 Level Courses

**EVPP 991: Advanced Seminar in Environmental Science.** 2 credits.
Topics generally address interface between environmental science and public policy. Offered by Environmental Science & Policy (p. 679). May be repeated within the term.

**Recommended Prerequisite:** 8 hours of Ecology or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EVPP 998: Doctoral Dissertation Proposal.** 1-6 credits.
Work on research proposal that forms basis for a doctoral dissertation. Offered by Environmental Science & Policy (p. 679). May be repeated within the degree.

**Recommended Prerequisite:** Admission to doctoral candidacy.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**EVPP 999: Doctoral Dissertation Research.** 1-12 credits.
Research on basic or applied problem in environmental science and public policy. Offered by Environmental Science & Policy (p. 679). May be repeated within the degree.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

---

**Executive MBA (EMBA)**

**500 Level Courses**

**EMBA 500: Workshop.** 0 credits.
Workshop. Offered by School of Business (p. 877). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Not Gradeable (NG) scale. (p. 82)

---

**600 Level Courses**

**EMBA 603: Managerial Economics.** 3 credits.
Develops and applies economic analysis tools in managerial decision situations. Focuses on economic analysis to understand firm's competitive environment. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 613: Financial Accounting.** 3 credits.
Develops framework of concepts and procedures essential for interpreting general-purpose financial statements and internal managerial accounting reports. Emphasizes understanding basic concepts and applying selected procedures to problem-solving situations. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 623: Marketing.** 3 credits.
Develops market-based knowledge and skills for effective marketing strategy design, implementation, and evaluation. Develops ability to make marketing decisions in wide variety of institutional and competitive situations. Addresses the importance of companies being market-driven and customer-focused. Emphasis on case studies, team work, and projects. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 612: Managing Costs and Evaluating Performance.** 1-3 credits.
Focusses on developing accounting information for use by managers in planning and control activities. Examines traditional and emerging cost-management systems. Special emphasis on information for decision-making, operational control, and performance evaluation. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 633: Statistics for Business Decision Making.** 3 credits.
Applies statistical methods in analyzing problems in business decision-making. Topics include descriptive statistics, probability distributions, estimation and hypothesis testing, and linear regression. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 638: Services and Operations Management.** 3 credits.
Integrates theory and practice of operations management with mathematical modeling and quantitative techniques of management science. Addresses range of operations management issues, including technology and strategy decisions, systems design issues, project operations, quality control, and inventory planning. Offered by School of Business (p. 877). May not be repeated for credit.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 641: Building the High-Performing Team.** 0-3 credits.
Develops the knowledge and skills needed for creating powerful, high-performance teams within and among organizational units. Strategies are offered for alignment of goals, building conditions for coordinated action, generating innovation, and resolving breakdowns. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**EMBA 643: Managerial Finance.** 3 credits.
Introduces theories of finance and their application to the formulation of business policy. Topics include internal financial analysis, financial forecasting, valuation, risk and return analysis, capital allocation, and capital structure. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 653:** Organizational Behavior and Teams. 3 credits.
Examines development, theories, and practice of management within organizations. Emphasizes human behavior and how it influences organizational effectiveness. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 660: Management of Information Technology.** 3 credits.
Examines computer-based information technologies and their interrelation with management processes, especially problem-solving and decision-making at individual, work group, and organization levels. Topics include management information system life cycle, with emphasis on manager’s perspective, and modeling and analysis to support decision-making. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 678: Business Strategy.** 3 credits.
Integrates business strategy and policy with functional knowledge developed in other courses and business practice. Issues include formulation of strategy, industry analysis, building core competencies, and strategy implementation. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 696: Directed Studies in Executive MBA.** 1-3 credits.
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EMBA 697: Special Topics in Executive MBA.** 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of executive business administration. Offered by School of Business (p. 877). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Executive MBA.

**EMBA 703: Financial Markets.** 0-3 credits.
Explores the relationships between financial markets and their impact on corporate financial decision making. Considers cross-market interrelationships, including how financial markets respond by creating financial instruments to meet the varying financial requirements of business firms. The course includes a domestic financial residency in New York that focuses on contemporary developments in these markets. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EMBA 718: Leadership and Change Management.** 3 credits.
Focuses on the essential elements of successful organizational change. Emphasis on understanding the forces for change, as well as developing skills to manage a successful change process. Gives a deeper understanding of organizational leadership and an increased ability to be a successful leader. Incorporates and integrates theory, research, and application, with the ultimate goal of providing the student with practical information about leadership. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EMBA 729: Introduction to Critical Infrastructure Protection.** 1-3 credits.
Course provides an introduction to the policy, strategy, and practical application of critical infrastructure security and resilience from an all-hazards perspective. It describes the strategic context presented by the 21st century risk environment, and discusses the challenges and opportunities associated with the following: public-private partnerships; information-sharing; risk analysis and prioritization; risk mitigation and management; performance measurement; incident management; and
addressing future risks. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale. (p. 82)

EMBA 730: Assessing and Managing Risk to Critical Infrastructure Systems. 1-3 credits.
Course provides an introduction to the policy, strategy, and practical application of an all-hazards risk assessment and management in the context of critical infrastructure security and resilience. Course promotes subject matter understanding, critical discussion of analytic approaches, and proficiency in communicating information on risk methodologies and their utilization in oral and written form. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EMBA 731: Partnering and Information Sharing for Critical Infrastructure Security and Resilience. 1-3 credits.
Course provides an overview of partnerships and information sharing within the homeland security enterprise with a focus on the collaboration and information products, processes, and systems necessary to protect and enhance the resilience of the Nation's critical infrastructure. Course is designed to promote subject matter understanding, critical analysis of issues, and insight into senior leader decision-making in both the government and private sectors. Offered by School of Business (p. 877). May not be repeated for credit.

Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EMBA 733: Advanced Topics in Critical Infrastructure Protection. 1-3 credits.
Course provides an advanced focus on critical infrastructure security and resilience policy, strategy, planning, and incident management operations in an all-hazards context. In terms of the audience, this course assumes a base level of student knowledge and practical experience in the critical infrastructure security and resilience field. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

EMBA 734: Critical Infrastructure Protection Residency. 3 credits.
This course takes the concepts from previous Critical Infrastructure Protection track courses and provides an opportunity to see these concepts in a "field environment." The course will engage with decision makers to learn how they operate profit generating firms in the critical infrastructure sectors while addressing considerations of security and resilience. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in EMBA - Distance Learning or Executive MBA.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EMBA 735: Systems Thinking and Dynamics. 1-3 credits.
Enables students to develop, express, improve, and validate holistic mental models of problems. In doing so, they will build a foundation for better decision making leading to improved business performance. The main strength of the systems-thinking approach is its emphasis on long-
term strategic outcomes as opposed to short-term tactical ones. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Executive MBA.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EMBA 740: Introduction to Global Business. 1-3 credits.
The seminar topics would incorporate student and industry partner feedback and consultation by the Program Director and Academic Director with the GPC and Area Chairs. Possible topics include: European Union, Global Social Entrepreneurship, Emerging Markets and Product Development. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment is limited to students with a major in EMBA - Distance Learning or Executive MBA.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale. (p. 82)

EMBA 741: Introduction to National Security. 1-3 credits.
The seminar topics would incorporate student and industry partner feedback and consultation by the Program Director and Academic Director with the GPC and Area Chairs. Possible topics include: National Defense Commercial Strategy, Competing Internationally in National Defense Sector, Small Business and National Defense. Offered by School of Business (p. 877). This course is graded on the Graduate Special scale. (p. 82)
Exercise, Fitness, and Health Promotion (EFHP)

500 Level Courses

**EFHP 500: Workshop in Exercise, Fitness, and Health Promotion.** 1-3 credits.
Provides concentrated full-time workshops, weekend seminars, and workshops on selected topics in exercise, fitness, and health promotion.
Notes: No more than 6 credits may be applied for degree credit. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 520: Medical Terminology of Health Professionals.** 3 credits.
Analyzes foundation of scientific and medical vocabulary including prefixes, suffixes and stems used to form compound words for health professionals. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 522: Functional Anatomy for Health and Wellness Practitioners.** 3 credits.
Promotes familiarity and proficiency with anatomy of neuromuscular and musculoskeletal systems, which relate directly to sports related injuries. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** BIOL 124, 125 (or equivalent)

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 526: Prevention, Recognition, and Management of Fitness Related Injuries.** 3 credits.
Promotes familiarity and proficiency with assessment and physical examination of sports-related injuries. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** BIOL 124, 125 (or equivalent)

**Recommended Corequisite:** EFHP 522

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 598: Special Topics.** 1-6 credits.
Focuses on projects related to exercise, fitness, or health promotion. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 599: Independent Study EFHP.** 1-3 credits.
Studies problem areas in exercise, fitness, and health promotion research, theory, or practice under direction of faculty member. May be repeated. No more than 3 credits may be earned. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**600 Level Courses**

**EFHP 605: History of American Sport, Exercise, and Physical Culture.** 3 credits.
Role of sport and physical education in Europe and its impact on developments in America. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 610: Advanced Exercise Physiology.** 3 credits.
Lecture, demonstration, and seminar experiences in applying research findings to understanding physiological function and effects of exercise on people. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 611: Movement and Fitness Assessment.** 3 credits.
Covers common movement and fitness assessments that can be used to develop an individualized exercise program for various populations. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 612: Scientific Foundation of Applied Kinesiology.** 3 credits.
An integrated study of human anatomy, physiology, chemistry, and microbiology, presenting a complete picture of how the body functions and the diseases and disorders that cause the body to malfunction.

**EFHP 613: Advanced Exercise Nutrition.** 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 614: Advanced Exercise Physiology.** 3 credits.
Lecture, demonstration, and seminar experiences in applying research findings to understanding physiological function and effects of exercise on people. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Principles, methods, and application of epidemiology. Reviews behavioral, psychological, social, and environmental risks to disease distribution. Focuses on lifestyle, exercise patterns, and environmental factors to health and disease conditions. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.
Exercise, Fitness, and Health Promotion (EFHP)

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 616: Motor Behavior and Development.** 3 credits.
Human motor behavior development and theory with application to evaluation of skill acquisition. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**EFHP 618: Exercise and Sport Psychology.** 3 credits.
Covers psychological and social-psychological antecedents and consequences of exercise, physical activity, and sports participation. Emphasizes theory and research on personality, motivation, arousal, cognition, attributions, attitudes, self-efficacy, leadership effectiveness, and group dynamics. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**EFHP 620: Research Methods for Applied Kinesiology.** 3 credits.
Introduction to the techniques of research generally employed in the fields of exercise science and health. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** MATH 102, STAT 250.

**EFHP 621: Statistical Methods for Applied Kinesiology.** 3 credits.
Introduction to practical and applied aspects of both descriptive and inferential statistics in exercise science and health. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**EFHP 630: Exercise, Health, and Fitness Program Development.** 3 credits.
Covers exercise and health program development related to fitness and health of adult populations. Notes: Provides 3 to 6 hours of field experience. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**EFHP 640: Principles of Strength and Conditioning.** 3 credits.
Analyzes exercise techniques, training program designs, organization and administration, and testing and evaluation using scientific principles of strength and conditioning. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.
This course is graded on the Graduate Regular scale. (p. 82)

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus. Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

EFHP 660: *Management of Exercise, Fitness, and Health Promotion Organizations*. 3 credits. Advanced study in management and administration of organizations dedicated to human development and improvement of quality of life. Covers application of theories and practices of management and behavioral sciences, fiscal management, marketing, and evaluation research. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus. Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

EFHP 670: *Scientific Communications Seminar*. 1-3 credits. Studies and applies written and verbal communication skills in reading, analyzing, writing, and distributing scientific information in Applied Kinesiology. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 4 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus. Enrollment is limited to Graduate or Undergraduate level students. Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

700 Level Courses

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

EFHP 798: *Project*. 1-3 credits. Addresses an applied exercise, fitness, and health promotion issue under supervision of graduate faculty member. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

EFHP 799: *Thesis*. 1-6 credits. Explores exercise, fitness, and health promotion problem using appropriate research methodology and under supervision of graduate faculty member. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree.

**Recommended Prerequisite:** Completion of all coursework.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis
### 800 Level Courses

**EFHP 810: Neuromuscular Responses to Exercise.** 3 credits.
Provides an in-depth study of the muscular systems of the human body and how these systems are altered in response to acute and chronic physical activity. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**EFHP 811: Motor Learning and Control.** 3 credits.
Examines motor learning theories and analyzes motor skill development including the roles of information processing, practice, feedback, and motivation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Recommended Prerequisite:** Graduate Standing or Permission of Instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**EFHP 813: Musculoskeletal Biomechanics in Human Movement.** 3 credits.
Advanced study of the biomechanical analysis of the musculoskeletal system, including collecting, interpreting, and modeling biomechanical data. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**EFHP 815: Measurement Techniques and Instrumentation.** 3 credits.
Explores the application and implementation of conventional measurement techniques and instrumentation to collect data in Exercise, Fitness, and Health Promotion. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 820: Careers in the Academy Seminar.** 3 credits.
Examines careers in the academy in a seminar format including faculty role, institutional fit, and the higher education academic job search (including developing cover letters and job portfolio outlines); introduces teaching, research, and service expectations at higher education institutions to help prepare for future academic careers. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 825: Data Analytics in Exercise, Fitness, and Health Promotion.** 3 credits.
Examines data processing, analysis and interpretation using software applications common in Exercise, Fitness and Health Promotion. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 840: Doctoral Seminar in Exercise, Fitness, and Health Promotion.** 3 credits.
Examines problem areas in Exercise, Fitness, and Health Promotion research, theory, or practice using a combination of self-directed, guided learning, and critical peer reviews in a seminar format. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EFHP 860: Critical Perspectives in Exercise, Fitness, and Health Promotion.** 3 credits.
Critically examines current topics in Exercise, Fitness and Health Promotion, and Applied Kinesiology. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
EFHP 880: Grant Writing. 3 credits.
Provides an overview of grants and contracts; examines federal and non-
federal proposal development guidelines; emphasizes National Institutes
of Health (NIH) research grant mechanisms as a "gold standard". Offered
by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Special scale. (p. 82)

Film and Video Studies (FAVS)

100 Level Courses
FAVS 100: Film and Video Studies Colloquium. 1 credit.
Students are exposed to the film and video industry through film
professionals. Students are required to attend all sessions, review the
speaker's materials prior to the class, prepare questions, and complete
written critiques. Notes: Only 2 credits of C or better may be applied to
the degree. Offered by Coll Visual & Performing Arts (p. 790). May be
repeated within the degree for a maximum 5 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses
FAVS 225: The History of World Cinema. 3 credits.
This course is a survey of the history of cinema. It explores
the development of world cinema from its beginnings in the late nineteenth
century to the 1990s. The course will enable students to comprehend the
evolution of the history and language of cinema in order to connect the
art of filmmaking with the "outside forces" (i.e., the economic institutions,
key figures, historical events and social issues) that profoundly shape
and influence it. Offered by Coll Visual & Performing Arts (p. 790). May not
be repeated for credit.

Mason Core: Arts (p. 137)

Schedule Type: Lecture, Recitation
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 250: Business of Film and Video. 3 credits.
This course provides an overview of the film industry from a business
perspective. Students learn basic business practices, film financing,
business plans, film distribution, management, and marketing techniques.
Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 255: Video Production for Film. 3 credits.
This course is a hands-on methods course in video production for film.
Through practice, reading, film viewing and discussions, you will be
introduced to the art and activity of digital filmmaking across film genres.
Students must complete reading, writing, and production assignments
that justify and plan for their creative choices. Handouts describing
projects, expectations and evaluative criteria will be provided. Offered by
Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 260: Video Editing for Film. 3 credits.
This course will instruct on the theories and technical expertise
pertaining to video editing by utilizing various video editing software.
The course will combine lectures, discussions, and demonstrations with
hands on projects. Offered by Coll Visual & Performing Arts (p. 790). May not
be repeated for credit.

Registration Restrictions:
Required Prerequisites: AVT 204 and (FAVS 255, COMM 355 or 208).
Requires minimum grade of C.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 280: Writing for the Moving Image. 3 credits.
This course is an introduction to writing for the moving image through
lecture, discussion, and critiques of exercises and written works. By
the end of the semester, each student will have produced a variety of
analyses and/or blueprints for creative moving image projects including
short fiction, commercial advertisement, scripted television, collaborative
fiction, short non-fiction reality programming. and other forms. Offered by
Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses
FAVS 300: Global Horror Film. 3 credits.
Taking an historical approach through various national and international
 cinemas, the course begins with horror film's literary and theatrical
origins and traces its development into a modern (and postmodern) form
May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**FAVS 311: Producing I**. 3 credits.
Provides students with the basics of film producing. Students gain creative, business, and legal skills needed to develop, produce and sell an independent, commercially viable motion picture film. Students engage with writing treatments, script breakdown, pitching, budgeting, creating shooting schedules, financing, hiring and managing cast and crew, and other areas in producing. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: FAVS 255C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Film and Video Studies.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FAVS 312: Film Lab**. 3 credits.
A hands-on producing class where students take roles as producers, assistant directors, location managers, script supervisors, production and costume designers, casting assistants, etc. in the development, pre-production, and production of a scripted short film. The course moves from development through production in an apprentice style environment with a seasoned director. This gives students "real-world" experience in independent film production. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Required Prerequisites: FAVS 311C and 250C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FAVS 331: Cinematography**. 3 credits.
This course aims to recreate a professional camera department environment. By the end of the course, students should be able to understand and perform the function of first assistant cameraperson or second assistant cameraperson on a camera crew. Students will understand the history, function, art, craft, and science of cinematography. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: AVT 204C and FAVS 255C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Film and Video Studies.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FAVS 333: Sound Editing and Recording**. 3 credits.
This course instructs students on the theories, techniques and technologies pertaining to recording audio in the field and studio and to audio editing and mixing for film and video. The course will be lecture based with practical lab and field exercises applying concepts and equipment presented during the lecture. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: AVT 204C and FAVS 255C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Film and Video Studies.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FAVS 352: Ethics of Film and Video**. 3 credits.
An examination of ethical issues associated with image production and consumption. Topics include the technological development of the film apparatus, privacy, the pursuit of objectivity, excess, consent, and representing others. All issues highlight the increasingly sophisticated view of the ethics of film and media authorship. Students will develop a more complex view of the ethics of screen representation (both fiction and nonfiction) and be encouraged to take stock of the ethics of their own media literacy. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

**Mason Core:** Synthesis (p. 137)

**Recommended Prerequisite:** Completion or concurrent enrollment in all other required Mason Core courses and completion of 21 credits within the FAVS program.

**Registration Restrictions:**
Required Prerequisites: ENGH 302C, AVT 204C, FAVS 250C, 255C and 280C and (FAVS 260C or 380C).
C Requires minimum grade of C.

Enrollment is limited to students with a major in Film and Video Studies.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FAVS 356: Film Marketing**. 3 credits.
Provides students with a variety of film and television marketing strategies and creative skills, including publicity, press kits, advertising, trailers, poster design, film credits, box art, branding, licensing & merchandising, and distribution. As aspiring media entrepreneurs, students learn to professionally manage their careers whether in low-budget independent film or Hollywood blockbuster tracks via self-promotion & publicity. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: FAVS 250C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FAVS 357: New Media and Film Distribution**. 3 credits.
This course explores how emerging media technologies function and how the film and video firms are changing with the advent of new media technologies. Through research and guided projects, students learn how
new media technologies are altering the financing, distribution, exhibition, and marketing of films and videos. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: FAVS 250C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 365: Documentary Filmmaking. 3 credits.
An introduction to documentary filmmaking in which each student makes a short digital documentary, from concept development to finished piece. The class covers essential technical skills, emerging styles of nonfiction film, and documentary storytelling techniques. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: AVT 204C, FAVS 250C, 280C, 255C and 260C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 375: Fiction Film Directing. 3 credits.
This course examines techniques for directing fiction films. Students study the directorial approaches of a variety of directors by viewing and critiquing classic films. Students learn about the director’s role in each stage of film production. Students shoot, direct and edit fictional scenes and sequences intended to develop and convey the beginnings of the authorial signatures. Notes: Intended for Film and Video Studies majors only. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: AVT 204C, FAVS 250C, 280C, 255C and 260C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 377: Interactive Storytelling for Social Change. 3 credits.
Students study the craft of interactive and transmedia storytelling while producing media projects for impact and action. Transmedia is a way of telling stories across media platforms, for both fiction and non-fiction. This allows creators to engage television and film audiences for greater impact. Students will study interactivity as a readily used marketing tool in the film and television industry. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: FAVS 255C, 280C and 260C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 378: Web Series. 3 credits.
A production course that explores the creative and logistical process of creating a fiction series for the web. Production techniques for web series will be explored, including permissions, contracts, and budgets for web development. The course will consider and study successful web series and explore contemporary discussions and professional organizations centered on web series. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: AVT 204C, FAVS 250C, 280C, 255C and 260C.
C Requires minimum grade of C.

Schedule Type is limited to students with a major in Film and Video Studies.
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 380: TV Writing. 3 credits.
Students learn about the profession of writing scripted television. Examines the principles and processes of development for television drama and other genres and programming categories. Students become acquainted with the expectations and responsibilities of staff and freelance writing. Develops skills in writing for the small screen(s) by practicing established techniques and identifying contemporary trends. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Registration Restrictions:
Required Prerequisite: FAVS 280C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 399: Special Topics in Film and Video Studies. 1-3 credits.
In-depth presentation and exploration of topical studies. Notes: Subject matter varies. May be repeated when taken under different topics. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the term for a maximum 12 credits.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

400 Level Courses

FAVS 400: Career Development Seminar. 3 credits.
This course prepares students for a career in the film and video industry beyond the university. Students complete a professionally reviewed resume, cover letter, and experience a formalized interview. Students prepare a written grant proposal and pitch a film project with professional advisors. This class fosters development of a professional online presence and strengthens students’ communication techniques in public
speaking. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: FAVS 352C.
C Requires minimum grade of C.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 431: Advanced Cinematography. 3 credits.
Builds on the foundation of FAVS 331 and explores advanced techniques in lighting and in post-production (color correction). Where cinematography focuses on cinematography from the perspective of film (celluloid), Advanced Cinematography explores digital cinematography, its advantages and limitations. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: FAVS 331C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 450: Internship in Film and Video Studies. 3 credits.
On-the-job training in film and video studies through approved fieldwork study programs. Internships are arranged and supervised by the FAVS director. Notes: Required for all FAVS majors. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 75 credits, 15 credits in core/elective FAVS courses, and permission of the Internship Coordinator.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 453: Film and Video Studies Pedagogy and Principles. 3 credits.
Theory and practice in facilitating the learning of principles and skills in film and video. Students work as instructor aids under the supervision of a faculty member. Activities include facilitating small group activities and individually critiquing classroom performances. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Declared FAVS major. Student must have successfully completed the course they will facilitate with a grade of B or better, have comparable experience, or receive permission from the instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 455: Studio and Field Productions Practicum. 3 credits.
Practical knowledge in studio and field productions. Students complete a minimum 150 hours of work as assistants to engineers, producers, directors, and organizers of video production facilities on campus. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Recommended Prerequisite: COMM 355 and permission of instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 460: Advanced Video Editing. 3 credits.
This course will instruct students on the theories, techniques and technologies pertaining to video editing for fiction and documentary films, as well as commercials. The course will combine lectures, discussions, and demonstrations with hands on projects. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: FAVS 260C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 475: Advanced Fiction Directing. 3 credits.
Focuses on casting and directing actors, working with production designers, assistant directors, and visual and aural storytelling on an individually directed project. Teaches students how to direct the shooting, production and editing of a fiction film or webisode which further develops their authorial signature. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FAVS 375C or L375C) and FAVS 260C and 280C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 483: Feature-Length Scriptwriting. 3 credits.
This course is an introduction to the development and analysis of feature length screenplays. The approach combines lecture, discussion, screening and presentation of student work. By the end of the semester, each student should have a complete first draft of an original screenplay. Students will also complete story reports and coverage reports of screenplays by other writers. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: FAVS 380C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
FAVS 490: Independent Study. 1-6 credits.
Independent research on specific project under direction of selected faculty member. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 496: Advanced Visual Storytelling. 3 credits.
A culminating capstone seminar devoted to analyzing and synthesizing knowledge and skills gained through undergraduate course work in the screenwriting concentration, resulting in substantial individualized writing projects. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Mason Core: Capstone (p. 137)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: AVT 204, FAVS 250, FAVS 255, and FAVS 280.

Registration Restrictions:
Required Prerequisite: FAVS 483C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 497: Senior Film Practicum. 3 credits.
A senior capstone course for students in the Production/Post-Production concentration. Students put their areas of focus (cinematography, editing, sound design, etc.) into practice. Students play a key role in film projects directed by other students throughout the semester. This course includes a written/research component. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the degree for a maximum 6 credits.

Mason Core: Capstone (p. 137)

Recommended Prerequisite: AVT 204, FAVS 311, FAVS 255, and FAVS 280.

Registration Restrictions:
Required Prerequisites: FAVS 460C or 431C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 498: Development for Senior Project. 3 credits.
An introduction to the Directing and Producing capstone sequence. In this course, directors and producers engage with the creative process of researching and developing material in film and video for their senior projects. A senior project in Directing and Producing is constituted by a short fiction or documentary film, webseries episode(s) or parallel film project with a running time of 15 minutes or less. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Registration Restrictions:
Required Prerequisites: AVT 204C, FAVS 250C, 255C, 260C and 280C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FAVS 499: Senior Project. 3 credits.
Culminating capstone course in producing and directing that results in the completion of a senior project and related written and visual promotional materials. A senior project in Directing and Producing is constituted by a short fiction or documentary film, webseries episode(s) or parallel film project with a running time of 15 minutes or less. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Mason Core: Capstone (p. 137)

Registration Restrictions:
Required Prerequisite: FAVS 498C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Film and Video Studies.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

FAVS 535: Sound and Lighting. 3 credits.
This course will instruct students on the theories, techniques, and technologies pertaining to recording audio and lighting scenes in both field and studio video productions. The course will be lecture based with practical lab styled exercises reinforcing topics presented during lecture. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Recommended Prerequisite: Admission to the MAIS in Film and Video Studies or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FAVS 550: Internship. 3 credits.
On-the-job training in film and video studies through approved fieldwork study programs. Internships are arranged and supervised by the FAVS director. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Recommended Prerequisite: Admission to the MAIS in Film and Video Studies or permission of instructor.

Recommended Prerequisite: Undergraduate degree or equivalent or permission of instructor.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FAVS 565: Documentary Filmmaking. 3 credits.
A documentary filmmaking workshop in which each student makes a short digital documentary, from concept development to finished piece. The class covers essential technical skills, emerging styles of nonfiction film, and documentary storytelling techniques. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Recommended Prerequisite: Admission to the MAIS in Film and Video Studies or permission of instructor.

Recommended Prerequisite: Undergraduate degree or equivalent or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FAVS 575: Fiction Film Directing. 3 credits.
This course examines techniques for directing fiction films. Students study the directorial approaches of a variety of directors by viewing and critiquing classic films. Students learn about the director's role in each stage of film production. Students shoot, direct and edit fictional scenes and sequences intended to develop and convey the beginnings of the authorial signatures. Offered by Coll Visual & Performing Arts (p. 790). May not be repeated for credit.

Recommended Prerequisite: Admission to the MAIS in Film and Video Studies or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FAVS 590: Independent Study. 1-6 credits.
Independent research on specific project under direction of selected faculty member. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Undergraduate degree or equivalent or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FAVS 597: Independent Production. 1-3 credits.
Media or creative production activities under direction of faculty member. Requires completed production; written report, oral exam may be required. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FAVS 598: Seminar in Film and Video Studies.** 3 credits.
Develop tools and techniques for successful pursuit of a career in film and video production, distribution and marketing through readings, original projects, case studies, analysis of industry practices, and study of film and media tools and projects. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FAVS 599: Special Topics.** 1-6 credits.
In-depth presentation and exploration of topical studies. Notes: Subject matter varies. May be repeated when taken under different topics. Offered by Coll Visual & Performing Arts (p. 790). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** Undergraduate degree or equivalent, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**Finance (FNAN)**

### 300 Level Courses

**FNAN 300: Personal Financial Management.** 3 credits.
Emphasis is on understanding the importance of developing financial goals and how financial decisions affect those goals throughout their lifetime. In addition, students will develop their own financial goals along with a financial plan that would enable them to meet those goals. This course may be taken for regular grading or S/NC. Students must notify instructor which option they want. FNAN 300 may be taken for general elective credit by School of Business students. Offered by School of Business (p. 877). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Special scale. (p. 82)

**FNAN 303: Financial Management.** 3 credits.
Introduction to managing a firm's financial resources given wealth maximization decision criterion. Includes working capital management, fixed-asset investment, cost of capital, capital structure, and dividend decision analysis. Notes: School of Business students will not be permitted to make more than three attempts to achieve a C or higher in FNAN 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see Termination from the Major section under Academic Policies. Lecture, problems, and discussion. Requires attendance in weekly lectures and recitations. The final exam for FNAN 303 may be scheduled to take place for all sections at the same time during the final exam period. Accommodations will be made for exam and religious conflicts and for certain official university-sponsored activities. Offered by School of Business (p. 877). Limited to two attempts.

**Recommended Prerequisite:** BUS 103 and BUS 200.

**Registration Restrictions:**
Required Prerequisites: (ACCT 203C, 204C, U203 or U204) and (BUS 210C or U210) and (MATH 108C, 113C, 114C, HNRT 225C, MATH U108, U113, U114 or HNRT U225). C Requires minimum grade of C.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture, Recitation

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FNAN 311: Principles of Investment.** 3 credits.
Introduces analysis of the valuation of equity and debt securities given modern capital market theory. Includes discussion of portfolio analysis as related to valuation of securities. Notes: Lecture, discussion, and computer-assisted research. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: (FNAN 301B or 303B).
B Requires minimum grade of B-

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
FNAN 321: Financial Institutions. 3 credits.
Discusses basic objectives of financial institutions in light of industry structure and regulatory environment, and decision variables that management should concentrate on to achieve objectives. Includes role of financial institutions in allocation of funds in financial markets. Notes: Lecture, discussion, and computer-assisted research. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FNAN 301 or 303). B- Requires minimum grade of B-.

Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 341: Introduction to Firm Valuation. 3 credits.
Examines techniques for analyzing, understanding, and applying financial information in decision situations. Topics include financial statement analysis, development of financial models, and financial planning and forecasting. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: FNAN 301 or 303.
B- Requires minimum grade of B-.

Non-Degree level students may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 351: Principles of Real Estate. 3 credits.
Studies dimensions and specialties involved in public control and private development, sale, finance, and management of real estate. Includes land planning, land-use control, appraisal, finance, brokerage, property management, and investment. Notes: Lecture, discussion, and computer-assisted research. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FNAN 301 or L301) or FNAN 303 or L303. C Requires minimum grade of C.

Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 401: Advanced Financial Management. 3 credits.
Analyzes decision-making in firm, emphasizing conceptual structure of problems and using advanced analytic techniques. Topics include current asset management, capital budgeting and structure, dividend policy, long-term financing, mergers, and corporate planning models. Notes: Lecture, discussion, and case analysis. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FNAN 301 or 303).
B- Requires minimum grade of B-.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 411: Investment Analysis and Portfolio Management. 3 credits.
Analyzes modern techniques of portfolio management including evaluating standards for selecting individual securities to include or delete from portfolios. Presents risk-return analysis for portfolios and portfolio performance measures. Lecture, discussion, computer assisted research. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FNAN 311 or L311).
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 412: Futures and Options Markets. 3 credits.
Introduces options, commodity, and financial futures markets as they function to provide pricing mechanisms and alternative investment vehicles. Lecture, discussion, and computer-assisted research. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FNAN 311 or L311).
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 421: Money and Capital Markets. 3 credits.
Discussion of how financial markets are organized, their role in the allocation of funds to various market segments, and interaction between markets. Topics include aggregate flow of funds analysis; and money, government, corporate, and mortgage markets. Lecture, discussion, and computer assisted research. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FNAN 321C or L321).
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 430: Empirical Methods in Finance. 3 credits.
Examines statistical and econometric techniques used in analyzing financial data and developing financial models. Combines development of understanding of fundamental concepts with applications. Includes extensive use of standard software. Offered by School of Business (p. 877). May not be repeated for credit.

Recommended Prerequisite: BS degree status.

Registration Restrictions:
Required Prerequisites: (FNAN 311C or 321C).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 431: Venture Capital and Private Financing of Startups. 3 credits.
This course focuses on how venture capitalists arrange the financing for a company; what they look for in a business plan; how they value a business; and how they structure the terms of an agreement. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: FNAN 301C or 302C.
B Requires minimum grade of B-

Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 432: Fixed-Income Securities. 3 credits.
Focuses on analysis of fixed-income securities, including corporate and government bonds, mortgage-backed securities, and derivatives. Major topics include institutional features of fixed-income securities markets, valuation, analysis of risks, and portfolio management decisions. Offered by School of Business (p. 877). May not be repeated for credit.

Recommended Prerequisite: BS degree status.

Registration Restrictions:
Required Prerequisites: (FNAN 311C).
C Requires minimum grade of C.

Non-Degree level students may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 436: Probability Methods for Finance. 3 credits.
This course focuses on the development and use of probability models for analyzing risks and financial decisions. Emphasis is on Monte Carlo simulation modeling, linear programming, and decision analysis of complex problems in corporate finance and in investment analysis. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (FNAN 301C, L301C, 303C or L303C) and (OM 210C or BUS 210C).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 440: International Financial Management. 3 credits.
Introduces management of contemporary firm’s international financial operations. Topics include foreign exchange risk, political risk, returns and risks of international projects, international money and capital markets, financial accounting, capital structure, and cost of capital. Lecture, discussion, readings, and problems. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: FNAN 301C, 303C and (OM 210C or BUS 210C).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FNAN 441: Advanced Topics in Firm Valuation. 3 credits.
Course will focus on complex valuation techniques and build on the knowledge and skills developed in FNAN 341. Course will cover: research and value companies of different sizes, value private equity, mezzanine financing, develop advance discounted cash flow models, and other relevant topics. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: FNAN 341C or 302C.
\textbf{FNAN 451: Real Estate Finance. 3 credits.}

Studies mechanisms of real estate finance, sources of funds, loan contracts, principles of mortgage risk analysis, and secondary mortgage markets. Develops analytical skills including using microcomputer and appropriate software. Offered by School of Business (p. 877). May not be repeated for credit.

\textbf{Registration Restrictions:}

\textbf{Required Prerequisites:} (FNAN 351\textsuperscript{C} or L351). 
\textsuperscript{C} Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

\textbf{Schedule Type: Lecture}

\textbf{Grading:}

This course is graded on the Undergraduate Regular scale. (p. 82)

\textbf{FNAN 454: Real Estate Development. 3 credits.}

Examines commercial real estate development process and principles plus actual residential, office, retail, and industrial projects. Includes financial analytical techniques to investigate project feasibility, density, financing viability, cash flows, and valuation. Emphasis placed on real-world, entrepreneurial, decision-making skills for developing commercial real estate. Lecture, discussion, project analysis. Offered by School of Business (p. 877). May not be repeated for credit.

\textbf{Registration Restrictions:}

\textbf{Required Prerequisites:} (FNAN 351\textsuperscript{C} or L351). 
\textsuperscript{C} Requires minimum grade of C.

Students with the terminated from BU major attribute may not enroll.

\textbf{Schedule Type: Lecture}

\textbf{Grading:}

This course is graded on the Undergraduate Regular scale. (p. 82)

\textbf{FNAN 462: Honors Seminar in Finance. 3 credits.}

Provides an in-depth study and analysis of contemporary developments and topics of interest in finance. Topics and format will vary. Enrollment is limited and competitive. Offered by School of Business (p. 877). May not be repeated for credit.

\textbf{Registration Restrictions:}

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Finance.

Non-Degree or Washington Consortium level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

\textbf{Schedule Type: Lecture}

\textbf{Grading:}

This course is graded on the Undergraduate Regular scale. (p. 82)

\textbf{FNAN 477: Student Managed Investment Fund. 3 credits.}

Provide each student with real world and hands-on experience in security analysis and portfolio construction through the management of the GMU Student Managed Investment Fund. Participants will collectively make investment decisions of the fund, the overall portfolio composition, and will employ various financial models used to assess sector, industry and individual security strength/weakness in their decision-making. Students will be required to perform the necessary quantitative and qualitative work, Bloomberg analysis, and present their research to all other fund members/faculty each semester. Security selection will be based on a diversified equity portfolio approach seeking to enhance risk-adjusted returns versus commonly used market benchmarks. Faculty and professional mentors will train students in the application of fundamental analysis and security selection through several lecture/workshop sessions. Increased interaction with the DC area investment community. Offered by School of Business (p. 877). May not be repeated for credit.

\textbf{Registration Restrictions:}

\textbf{Required Prerequisites:} FNAN 311\textsuperscript{B-} or 341\textsuperscript{B-}. 
\textsuperscript{B-} Requires minimum grade of B-.

\textbf{Schedule Type: Lecture}

\textbf{Grading:}

This course is graded on the Undergraduate Regular scale. (p. 82)

\textbf{FNAN 491: Special Topics in Finance. 3 credits.}

Advanced study of special topics in finance. Offered by School of Business (p. 877). May not be repeated for credit.

\textbf{Registration Restrictions:}

\textbf{Required Prerequisites:} (FNAN 301\textsuperscript{C} or L301) or FNAN 303\textsuperscript{C}. 
\textsuperscript{C} Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

\textbf{Schedule Type: Lecture}

\textbf{Grading:}

This course is graded on the Undergraduate Regular scale. (p. 82)

\textbf{Additional Course Details:} Title varies by section and/or semester

\textbf{FNAN 492: Internship in Finance. 3 credits.}

Opportunity to gain practical, professional experience in conjunction with academic development. Internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or FNAN 492) can be applied towards a student’s 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, MGMT 492, MIS 492, MKTG 492, OM 492.

\textbf{Registration Restrictions:}

\textbf{Required Prerequisites:} FNAN 301\textsuperscript{B-} or 303\textsuperscript{B-}.
**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in English

**FNAN 498: RS: Contemporary Topics in Finance.** 3 credits.
Course focuses on contemporary topics in finance and will be writing Intensive. Possible topics include: financial institutions, asset pricing, valuation and capital markets, 2008 crisis and the Federal Reserve/ Treasury’s intervention, emerging economies and exchange rate conversion, stability of the European Union and its currency. Offered by School of Business (p. 877). May not be repeated for credit.

**Specialized Designation:** Research/Scholarship Intensive, Writing Intensive in the Major

**Registration Restrictions:**
Required Prerequisites: FNAN 341C, 311C, 321C or 401C.
C Requires minimum grade of C.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FNAN 499: Independent Study.** 1-3 credits.
May be repeated to a maximum of 6 credits if topics vary. Degree status. Research and analysis of selected problems or topics in finance. Notes: Must be arranged with instructor and approved in writing by associate dean for undergraduate programs before registration. Written report required. May be repeated if topics vary. Offered by School of Business (p. 877). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Finance majors with at least 9 upper-level credit hours.

**Registration Restrictions:**
Students with a class of Freshman or Sophomore may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Foreign Language (FRLN)**

**300 Level Courses**

**FRLN 309: Humanities College to Career.** 1 credit.
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to ENGH 303, HIST 385, PHIL 393, UNIV 420.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FRLN 330: Topics in World Literature.** 3 credits.
Major works of world literature with varying perspectives and topics, such as specific cultures, histories, myths, or music and the arts, as represented in literature. Notes: May be repeated when topic differs with permission of department. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 9 credits.

**Mason Core:** Literature (p. 137)

**Recommended Prerequisite:** ENGL 101/ENGH 101 and 45 credits or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FRLN 331: Topics in World Cinema.** 3 credits.
Major works of world cinema with varying perspectives and topics, such as specific genres, periods, schools. Notes: Coursework in English. May be repeated when topic is different with permission of department. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 9 credits.

**Mason Core:** Global Understanding (p. 137)

**Recommended Prerequisite:** ENGL 101 or permission of instructor.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FRLN 380: Topics in the Sociopolitics of Language.** 3 credits.
Addresses relationship between language and other social and cultural systems (macro sociolinguistics), and critical study of people’s ideas about language (language ideology). Utilizes comparative approach to explore ways people use language to perform and communicate various social identities and categories; how and why people attach social meanings and values to particular ways of using language; development of official and unofficial language policies; and impact of language policies. Notes: May be repeated when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** ENGL 101/ENGH 101 and 45 credits or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**FRLN 385: Multilingualism, Identity, and Power.** 3 credits.
Study of individual and societal aspects of multilingualism including language choice, linguistic maintenance and shift, code-switching,
language planning, educational policy, and representations of multilingualism. Interdisciplinary approach emphasizes the social and political aspects of multilingualism, as well as the relationship of language to cultural, ethnoracial, and national identities and categories. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Mason Core:** Synthesis (p. 137)

**Recommended Prerequisite:** Completion or concurrent enrollment in all other required Mason Core courses.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 400 Level Courses

**FRLN 430: Topics in Comparative World Literatures.** 3 credits. 
Explores comparative studies of a topic through literary works written in at least two different languages. All material provided in translation. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**FRLN 431: Medieval Intellectual Topics.** 3 credits. 
Focuses on topic in intellectual history of Middle Ages. Emphasizes literary or historical, depending on discipline of instructor. Relevant material may be drawn from philosophy, theology, and art. Notes: May be taken for credit by English or history majors. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to ENGH 421.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**FRLN 490: Internship in Foreign Language Studies.** 1-6 credits. 
Qualified students work with schools, social service programs, government agencies, interest groups, museums, or corporations locally or abroad. Specific arrangements must be made with, and approved by, a faculty member of the specific language program during semester prior to enrollment. For each credit, student works on site at least 45 hours. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 500 Level Courses

**FRLN 510: Bibliography and Research in Foreign Languages and Literature.** 3 credits. 
Use of basic bibliographical tools and methodologies for scholarly research in French, German, and Spanish. Taught in cooperation with university library staff. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Taught in English

**FRLN 525: Literary Translation.** 3 credits.
Critical approach and analysis of diverse texts such as poetry, drama, essay, and novel excerpts. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** Graduate standing or permission of department and advanced coursework in literary translation.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**FRLN 530: Topics in Comparative World Literatures.** 3 credits. 
Explores comparative studies of a topic through literary works and/or other cultural production (cinema, pop culture, etc.) from at least two different language traditions. All material provided in translation. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**FRLN 550: Special Topics.** 3 credits. 
Themes, periods, or genres vary from semester to semester. Focuses on topics that incorporate one or more languages taught in department, but instruction is in English. Notes: May be repeated with permission of
department. Offered by Modern & Classical Languages (p. 419). May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

FRLN 551: Special Topics. 3 credits.
Themes, periods, or genres vary from semester to semester. Focuses on topics that incorporate one or more languages taught in department, but instruction is in English. Notes: May be repeated with permission of department. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRLN 565: Theory of Translation. 3 credits.
Lectures on nature, function of translating process. Evaluates theories of translation with respect to text typology. Critiques selected translations from target languages to English and vice versa. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRLN 572: Integrating Technology into Language Learning. 3 credits.
Explores pedagogical and theoretical basis for integrating interactive technologies into language learning programs, and examines potential for learning, teaching, testing, and research. Includes hands-on analysis and evaluation of materials. Notes: Prior experience with technology not required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: Graduate standing or permission of department, language teaching methods course, and language teaching experience.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRLN 573: Basic Issues in Language Pedagogy. 3 credits.
Explores major issues controversial in language pedagogy. Topics include communicative competence as pedagogical goal, role of explicit grammar teaching, proficiency movement, cultural authenticity, student-centered learning, and technology. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: Graduate standing or permission of department, language teaching methods course, and language teaching experience.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRLN 575: Heritage Language Education. 3 credits.
Overview of the field of heritage language education, including consideration of the linguistic and sociocultural characteristics of heritage language students, empirical research on heritage language education, and a range of instructional approaches, including critical pedagogy. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Taught in English

**FRLN 590:** Internship and Seminar in Translation. 3 credits.
Internships are nonpaying, work-study positions that focus on the practice of translation. Qualified students placed with area institutions, interest groups, agencies, or corporations. Notes: Placement depends on availability of positions. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**600 Level Courses**

**FRLN 600:** Workshop in Foreign Languages. 1-6 credits.
In-service workshops, tours, and seminars on selected topics in literature, language, bilingualism, culture, methodology. Notes: May not be applied toward MA in foreign languages without permission of department. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRLN 650:** The Teaching of Culture in Foreign Language Programs. 3 credits.
Purpose and methods of study of culture, with emphasis on strategies and techniques for teaching culture in foreign language programs. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRLN 660:** Approaches to the Study of Language. 3 credits.
Linguistics and its relationship to other disciplines, including study of generative grammar with syntactic problems drawn from commonly taught foreign languages. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRLN 670:** Topics in Language Learning and Teaching. 3 credits.
Provides in-depth examination of a particular topic in language learning and teaching. Includes consideration of language acquisition and/or educational research as well as pedagogical implications and practice. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Forensic Science (FRSC)

200 Level Courses

FRSC 200: Survey of Forensic Science. 3 credits.
This course will familiarize students with the basic principles, professional practice, quality assurance, and quality control measures employed in the practice of forensic science in the American system of justice. An introduction to topics including the nature of evidence and the law, crime scene investigations, serology, DNA analysis, bloodstain pattern, trace evidence, microscopy, forensic pathology, anthropology, odontology and entomology. Offered by College of Science (p. 608). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

FRSC 201: Introduction to Criminalistics. 3 credits.
This course will provide an overview of the field of criminalistics, with a focus on the recognition, collection, preservation, and analysis of physical evidence. During the course, the student will be introduced to topics such as fingerprints, question documents, firearms, drugs of abuse, explosives and arson to prepare for additional, more in-depth classes in criminalistics/forensic science. Offered by College of Science (p. 608). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

FRSC 302: Forensic Trace Analysis. 3 credits.
This course will provide an overview of the field of forensic science with specific emphasis on areas of trace and biological evidence, including topics such as the analysis of hair, soil, glass, paint, and other trace material. A laboratory component provides an introduction to microscopy which assists students master the foundation tools used in analyzing forensic trace evidence. Offered by College of Science (p. 608). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Registration Restrictions:
Required Prerequisites: FRSC 200C and 201C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FRSC 303: Forensic Evidence and Ethics. 3 credits.
This course will acquaint the student with the application of scientific methods and the interaction it may have with legal principles. It will prepare the student for future applications of forensic science with its role in the administration of justice, courtroom testimony, and the ethical rules and duties under codes of professional conduct and practice. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: FRSC 200C and CRIM 100C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FRSC 304: Forensic Chemistry. 3 credits.
Introduction to the chemical principles and methods used in the application of forensics toward the elucidation of criminal activity and to support litigation. Students will be learning the fundamentals of statistics (QA/QC), chromatography (GC and LC), and instrumentation (microscopy, FTIR, and MS) that will enable forensics analysis of trace evidence relating to: drugs, explosives, toxicology, arson, firearms, volatiles, and hair/fibers. Offered by College of Science (p. 608). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Registration Restrictions:
Required Prerequisites: FRSC 200C, 201C, CHEM 211C, 213C, 212C and 214C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

FRSC 401: Crime Scene Investigations. 3 credits.
This course provides the scientific principles of crime scene investigations by applying the basic knowledge of proper documentation, collection and preservation of physical evidence. Proper crime scene protocols and evidence processing techniques will be performed in areas such as, forensic photography, sketching, blood stain pattern analysis, trajectory, skeletal remains, and fingerprinting. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: FRSC 200C, 201C and 303C.
C Requires minimum grade of C.

Enrollment limited to students in the SC-BS-FRSC program.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FRSC 405: Independent Research Methods. 3 credits.
This course is designed to allow students to complete an approved independent forensic science research project under the guidance of a faculty mentor. A formal research proposal will be prepared and submitted. In addition to conferring with the instructor regularly regarding the process of their research, students will also be introduced to research and writing methods throughout the course. Offered by College of Science (p. 608). May not be repeated for credit.
Recommended Prerequisite: Completion of Forensic Science Foundation courses

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FRSC 460: Forensic Molecular Biology. 3 credits.
This course will provide an understanding of body fluid identification and molecular biology testing methodologies as applied to the analysis of forensic samples. The process of forensic DNA analysis will be covered in depth. Current topics in forensic DNA analysis will be reviewed including population genetics, validation, quality assurance, the CODIS database, Y-STRs, mitochondrial DNA testing, SNPs and contemora research. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: FRSC 200C, 201C, BIOL 213C and 311C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FRSC 499: Comprehensive Examination. 0 credits.
The comprehensive examination ensures that the student is prepared to engage in an entry level forensic profession, in advanced forensic training or a graduate program. Students are required to pass this examination prior to graduation. Offered by College of Science (p. 608). May be repeated within the degree.

Recommended Corequisite: FRSC 304, 401 and 460.

Registration Restrictions:
Required Prerequisites: FRSC 200C, 201C, 302C and 303C.
C Requires minimum grade of C.

Enrollment limited to students in the SC-BS-FRSC program.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

500 Level Courses

FRSC 500: Introduction to Forensic Science. 3 credits.
This course will provide an overview of the foundation and history of forensic science. During the course, the various disciplines and specialties within forensic science will be discussed such as biology, chemistry, toxicology, microscopy, odontology, and anthropology. Additionally, the different types of physical evidence and instrumentation encountered in the field will be reviewed. Topics within ethics and quality assurance are also discussed. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
FRSC 510: Basic Crime Analysis. 3 credits.
This course examines the role of the crime scene investigator, search, seizure and related legal issues; crime scene documentation (note taking, photography, sketching, and measurements); processing of latents and 2-D and 3-D impressions; collection, packaging and preservation of physical evidence. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRSC 511: Advanced Crime Scene Analysis. 3 credits.
Advanced Crime Scene Analysis is designed to build on concepts introduced in FRSC 510 (Basic Crime Scene Analysis), and to provide an enhanced foundation in the field of criminalistics for those students who are interested in learning the application of science to solving crimes. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: FRSC 510 B-.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRSC 512: Physical Evidence Laboratory. 3 credits.
This is a series of practical laboratory exercises that introduces the student to the analysis of physical evidence including the examination of pattern and trace evidence such as hairs, tool marks, firearms evidence, and shoe prints; processing of fingerprints using various chemicals, powders, and alternate light sources. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: FRSC 510 B-.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRSC 513: Forensic Photography. 3 credits.
This series of lecture and practical photography exercises introduces the student to photographic crime scene documentation techniques including concepts of controlling exposure, lighting, focus, and composition as it relates to matters of a forensic nature; photographic documentation of criminal artifacts including fluorescent fingerprints and Blue Star treated blood stains. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRSC 514: Survey of Forensic Chemistry, Biology, and DNA Analysis. 3 credits.
This course will provide an overview of the history, theory and principles of the various processes of Forensic Biology and Chemistry analysis, including quality assurance. General applications of chemistry analysis as applied to forensic evidence will be covered, as well as, the biology and genetics of DNA and the typing systems used in Forensic DNA analysis. The technology and instrumentation used in forensic chemistry analysis and the analysis of biological fluids and DNA will also be covered. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRSC 515: Selected Topics in Forensic Science. 3 credits.
Topics vary with instructor’s specialty. Offered by College of Science (p. 608). May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**FRSC 517: Questioned Document Examination.** 3 credits.
Theory and principles of handwriting and printing processes, paper manufacture and fiber analysis, fracture match comparison, ink analysis, and indented writing examinations; methods of examining questioned documents. Offered by College of Science (p. 608). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRSC 520: Toxicology.** 3 credits.
Forensic Toxicology examines the adverse effects of alcohol, drugs and other chemicals on the human body. A lecture style course integrating pharmacology, toxicology and analytical chemistry to understand how the principles of toxicology are applied to the legal system. Offered by College of Science (p. 608). May not be repeated for credit.

**Recommended Prerequisite:** Advanced level undergraduate course in Chemistry, Biology or Biochemistry or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRSC 530: Law and Forensic Science.** 3 credits.
A detailed examination and analysis of the law affecting forensic science across the discipline range. Special emphasis is given to the laws affecting evidence, courtroom procedure, ethics, and professional responsibilities of the forensic expert. Offered by College of Science (p. 608). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRSC 540: Forensic Chemistry.** 3 credits.
The principles of forensic chemistry will be addressed in this course, including analytical chemistry, instrumental methods of analysis, sample handling, drug chemistry and toxicology. Offered by College of Science (p. 608). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate degree in chemistry or biology. The student must have a good understanding of general Chemistry including polarity and acid/base chemistry. A student should have taken Organic Chemistry, and be able to identify functional groups and other chemistry structures that make up a molecule. Any exposure to instrumental techniques such as gas chromatography, mass spectrometry and infrared spectroscopy are helpful.

**Registration Restrictions:**
Required Prerequisite: FRSC 541*B.
* May be taken concurrently.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a concentration in Forensic Chemistry Analysis.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRSC 541: Forensic Chemistry Laboratory.** 1 credit.
This course will familiarize students with chemical knowledge gained from experimental observations and studies in the laboratory. Students will examine, test and establish for themselves the forensic chemistry discussed in the lecture courses. Note: The successful passing of a Virginia Department of Forensic Science background check is required prior to gaining access to this laboratory course. Offered by College of Science (p. 608). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate degree in chemistry or biology. The student must have a good understanding of general Chemistry including polarity and acid/base chemistry. A student should have taken Organic Chemistry, and be able to identify functional groups and other chemistry structures that make up a molecule. Any exposure to instrumental techniques such as gas chromatography, mass spectrometry and infrared spectroscopy are helpful.

**Registration Restrictions:**
Required Prerequisite: FRSC 540*B.
* May be taken concurrently.
FRSC 550: Issues in Forensic Anthropology. 3 credits.
This course examines issues related to the recovery and analysis of human skeletal remains in a medicolegal context. Topics include detection and mapping approaches for human remains, assessment of biological information from the skeleton (such as sex, ancestry, age, and stature), and the analysis of skeletal trauma. Offered by College of Science. (p. 608). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a concentration in Forensic Biology and Genetics, and/or cell biology, as well as genetics, prior to taking this course or May not be repeated for credit.

FRSC 560: Forensic DNA Sciences. 3 credits.
This is a seminar style course providing an overview of the history, theory and principles of the various processes of Forensic DNA analysis. The biology and genetics of DNA and the typing systems used in Forensic DNA will be reviewed. The technology used in the analysis of DNA, including data analysis, interpretation, CODIS database and statistical applications will also be covered. Offered by College of Science. (p. 608). May not be repeated for credit.

Recommended Prerequisite: Undergraduate coursework in molecular and/or cell biology, as well as genetics, prior to taking this course or permission of instructor.

Registration Restrictions:
Required Prerequisite: FRSC 561B.
* May be taken concurrently.
B- Requires minimum grade of B-.

FRSC 561: Forensic DNA Laboratory. 1 credit.
This laboratory course will provide comprehensive coverage of the various types of DNA testing currently used in forensic biology laboratories. Students will have hands-on experience with the analytical equipment employed and the techniques used for human identification in forensic casework, such as DNA extraction, quantitation, PCR amplification, genotyping, and interpretation. Note: The successful passing of a Virginia Department of Forensic Science background check is required prior to gaining access to this laboratory course. Offered by College of Science. (p. 608). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: FRSC 560B.
* May be taken concurrently.
B- Requires minimum grade of B-.

FRSC 570: Trace and Physical Evidence Concepts. 3 credits.
Prepares students to evaluate physical evidence through the use of microscopic, chemical, and instrumental means. The course will emphasize the scientific procedures used to identify the evidence, the analysis of data generated during the identification phase, and the inductive reasoning process which allows the forensic scientist to draw conclusions based on the evidence at hand. Offered by College of Science. (p. 608). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

FRSC 580: Facial Reconstruction. 3 credits.
This course begins with an introduction to methods used in image analysis, and the methods of facial reconstruction. The course will then explore modern techniques applied to several areas of forensic imaging. Advance topics in forensic sculpturing, 3D imagery, and post-mortem imagery will be explored. Offered by College of Science. (p. 608). May not be repeated for credit.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRSC 590: Medicolegal Death Investigation and Pathology. 3 credits.
Introduction to the pathology and physiology of the human body with an emphasis on scientific and medical terminology, in addition to the various techniques used in medicolegal death investigation. Discussion of death scene analysis, autopsy procedures, and unidentified remains. Overview of the role of the medical examiner's office within the United States and an introduction to the forensic investigation of sudden and unexpected deaths, including homicides, suicides, accidents, accidental deaths, and various traumatic deaths. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: FRSC 510B. B - Requires minimum grade of B -.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale. (p. 82)

FRSC 620: Face and Biometric Pattern Analysis. 3 credits.
This course will familiarize students with the basic principles and uses of biometrics for automated searches and comparisons by forensic examiners. This course will review the basics of face, fingerprints, iris, and speaker recognition. Students should gain an understanding of how automated systems and forensic examiners perform recognition. Students will also learn the capabilities and limitations of biometric recognition. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRSC 610: Forensic Research Project. 1-4 credits.
This course is a two semester course required for all graduate students prior to graduation. The first semester course consists of a 1.0 Credit Course where the students select a research topic and a qualified research advisor (faculty member or affiliated forensic science professional). The second semester course is a 3.0 Credit Course where the students perform their research, write their research paper and make a presentation of their research project to GMU Forensic Science Faculty members. Offered by College of Science (p. 608). May be repeated within the degree for a maximum 4 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Forensic Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

FRSC 630: Finger print Identification. 3 credits.
This course will cover the exploration of the techniques and methods of identification, capture and analysis of fingerprint evidence, including consideration of the fundamentals of fingerprint patterns, classification formulas and extensions, techniques for taking good fingerprints, problems in fingerprinting, preparation of fingerprint charts for court testimony, and practical exercises for capturing fingerprints. Offered by College of Science (p. 608). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRSC 640: Legal, Privacy and Ethical Issues in Identity Analysis.** 3 credits.
This course will review basic policies and doctrinal guidance related to the applications of biological, physical, chemical, and medical sciences to questions of evidence and law. In doing so, students should gain a basic understanding of the high level policies, protocols, standards, privacy, civil liberties, and doctrine related to the forensic sciences as they are practiced relating to identity analysis. Offered by College of Science (p. 608). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRSC 650: Identity Analysis Applications.** 1 credit.
This course will review the basics of biometrics and how the various biometric modalities can be used to aid in identification and identity verification. The course will also focus on how biometrics and forensics are used, or can be used, in various applications from military uses, intelligence/counter-terrorism, border and immigration control and in support of state development. Offered by College of Science (p. 608). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRSC 690: Capstone - Moot Court & Expert Testimony.** 3 credits.
In this course, students will learn and practice how to incorporate forensic science theory, research, analysis, writing and speaking skills into a life like moot court experience. They will learn how and why forensic science evidence is admitted into court proceedings, and their role in the admission of evidence. Topics will include Federal and state rules of evidence; admission of forensic science testimony into criminal and civil cases; the process of being qualified as an expert witness, including the Voir dire Process; The role and responsibility of expert witnesses; Developing an Expert Witness Curriculum CV, and trial preparation; Proper laboratory and CSI report development and writing for presentation in court, and developing proper speaking skills for courtroom testimony. Offered by College of Science (p. 608). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRSC 790: Internship in Forensic Science.** 1-3 credits.
On the job experience for graduate students in industry, government laboratories, investigative units, or approved study programs with forensic science employers. Students work in observational, experimental, or theoretical research, and prepare weekly journals, as well as midpoint and final evaluations completed by the employer. The student is responsible for applying to and obtaining the internship prior to registering for this course. Offered by College of Science (p. 608). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a major in Forensics or Forensic Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FRSC 799: Master's Thesis.** 1-6 credits.
Project chosen and completed under guidance of graduate faculty member. Comprehensive report (thesis) acceptable to student's advisory committee is required. Offered by College of Science (p. 608). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)
French (FREN)

100 Level Courses

FREN 101: Elementary French I. 3 credits.
For students with no knowledge of French. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for FREN 101 and FREN 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to FREN 110.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FREN 102: Elementary French II. 3 credits.
Continuation of FREN 101. Notes: Students may not receive credit for FREN 102 and FREN 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to FREN 110, FREN 115.

Recommended Prerequisite: FREN 101, appropriate placement score, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FREN 110: Elementary French. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for FREN 110 and FREN 101, 102. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to FREN 101, FREN 102, FREN 115.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

FREN 115: Review of Elementary French. 3 credits.
Reviews elements of French for students who have studied French previously. Notes: Students may not receive credit for FREN 115 and FREN 102, or 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to FREN 102, FREN 110.

Recommended Prerequisite: Appropriate placement score, or permission of department.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

FREN 201: Intermediate French I. 3 credits.
Further development of skills in listening, speaking, reading, and writing. Notes: FREN 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: FREN 102 or FREN 110, appropriate placement score, or permission of department.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Applies language skills to reading, composition, and class discussion. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in French

300 Level Courses

FREN 300: Study Tour in France. 1-6 credits.
Directed study tour of cultural and literary points of interest in France. Briefing sessions and reading selection given before the trip. Notes: All papers and exams required for credit are due by end of summer session. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Grading: This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Taught in French, Title varies by section and/or semester

FREN 520: Topics in Twentieth and Twenty-First-Century French Literature and Culture. 3 credits. Analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: surrealists, existentialists, new novelists, feminists, etc. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

FREN 550: Special Topics. 3 credits. Specialized topics relating to French culture and literature. Notes: Content varies. May be repeated for credit. Coursework in French. Offered by Modern & Classical Languages (p. 419). May be repeated within the term.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: Negritude, (post)colonialism, new African voices within and beyond the continent. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)
Additional Course Details: Title varies by section and/or semester

FREN 553: Topics in North African Francophone Literature and Culture. 3 credits.
Analyzes a selection of literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: Maghreb in pre and (post)colonial era, recent ideological trends in writing. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)
Additional Course Details: Title varies by section and/or semester

FREN 555: Special Topics related to Francophone Literature and Culture. 3 credits.
Analyzes a selection of important literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts: gender studies, migration and identity-building, ethno-social tensions, political strife, religious conflicts throughout the francophone world. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)
Additional Course Details: Title varies by section and/or semester

FREN 557: Topics in Quebec and French-Canadian Literature and Culture. 3 credits.
Analyzes representative literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts. Emphasizes contemporary works. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Students in a Non-Degree Undergraduate degree may not enroll.

**FREN 561: Linguistic Structure of Modern French.** 3 credits.
Analyzed phonology, morphology, and syntax of modern standard French, through a close study of selected texts (newspaper articles, short stories, novel excerpts, informal correspondence). Advanced critical research and writing required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**FREN 562: Stylistics.** 3 credits.
Describes and analyzes the variability of forms and styles and the more complex aspects of the French language. Develops writing skills through readings, discussions, and compositions. Advanced critical research and writing required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FREN 563: History of the French Language.** 3 credits.
Analyzes a selection of literary texts (novel, short story, poetry, and/or theater) and authors in their historical and cultural contexts with a focus on the construction of identity: Maghreb in pre and (post)colonial era, recent ideological trends in writing. Advanced critical research and writing required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**FREN 564: Advanced Translation.** 3 credits.
Analyzes theories and methods of translation, with a focus on translation practice (French to English and English to French) of a varied selection of texts (periodicals, short stories, novel excerpts, newspaper articles, etc.) Advanced critical research and writing required. Notes: Translations from French to English and English to French. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FREN 565: Special Topics Related to the French Language.** 3 credits.
Content varies: diachronic or synchronic study of the French language or one of its aspects; sociolinguistics; language teaching methodology, etc. Advanced critical research and writing required. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FREN 566: Special Topics related to French and Francophone Literature and Culture.** 3 credits.
Explores issues related to the francophone world. Emphasis on comparative issues, not geographical areas. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 15 credits of French at the 300 level or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**FREN 570:** French and Francophone Cinema. 3 credits.
Topics such as early days of French cinema, a nouvelle vague, women film directors, Quebecois, African and Caribbean films, selected by type, period or director. Advanced critical research and writing required. Viewing of films outside of class time. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**FREN 575:** Grammatical Analysis. 3 credits.
Analyzes selected texts, authors, movements, and issues within comparative historical and cultural contexts as related to France and to various francophone regions of the world or with an interdisciplinary approach. Advanced critical research and writing required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**FREN 798:** Directed Reading and Thesis Research. 3 credits.
Reading and research for thesis under direction of a faculty member. Notes: Open to degree students who desire to work on independent study with a faculty mentor or who have completed at least 24 credits and have been approved by the French Graduate Faculty to conduct research for a M.A. thesis. See Modern Classical Languages Graduate Student Handbook for complete explanation of the thesis option. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** Degree students who desire to work on independent study with a faculty mentor or who have completed at least 24 credits and have been approved by the French Graduate Faculty to conduct research for a M.A. thesis.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**FREN 799:** Thesis. 1-6 credits.
Research on approved thesis topic under direction of thesis committee. Notes: Students must register for a minimum of 3 credits in the first semester of 799 and maintain continuous enrollment in 799 while writing and submitting the thesis. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree.

**Recommended Prerequisite:** FREN 798 and approval of director.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**Geography and Geoinformation Science (GGS)**

**100 Level Courses**

**GGS 101:** Major World Regions. 3 credits.
Patterns, problems, and prospects of the world's principal human-geographic regions. Emphasizes areal differentiation and role of geographic differences in interpreting current world scene. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Mason Core:** Global Understanding (p. 137)

**Specialized Designation:** Non-Western Culture

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 102:** Physical Geography. 3 credits.
Interrelated processes affecting global distribution and character of climate, soils, vegetation, hydrology, and landforms. Includes elements of mapping. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Mason Core:** Natural Science Overview, Encore:Sustainability (p. 137)

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Green Leaf Course

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 103: Human Geography.** 3 credits.
Overview of major ideas and approaches to studying spatial aspects of human social and behavioral systems. Surveys distribution and movement of human populations, characteristics and distribution of cultural mosaics, patterns of economic interdependence, and study of forces of cooperation and conflict among people from global perspective. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences, Encore:Sustainability (p. 137)

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 110: Introduction to Geoinformation Technologies.** 3 credits.
This course introduces students to basic geoinformation technology concepts and applications. Students learn about and apply spatial data collection analytic tools and methods, including geographic information systems, and web-based map developments. Lectures examine social trends, ethical issues including privacy state of the art technological research and developments of geoinformation technologies in industry, government, education, and everyday life. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Specialized Designation:** Discovery of Scholarship

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 111: Dynamic Geosphere and Ecosphere.** 4 credits.
Systematic study of biogeography and soils, viewed from a geographic, or spatial, perspective. We will study the spatial distribution and relationships of Earth's biomes and soils systems to other Earth systems, and the processes driving them, including energy, climate, nutrients, chemistry, and moisture. Cannot be combined for credit with EVPP 110 or EVPP 111. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**200 Level Courses**

**GGS 210: Introduction to Spatial Computing.** 3 credits.
This course introduces students to Geo-Spatial Data Analysis. Students will learn the basic techniques for data collection and storage, data processing and data mining using location data. Students will work with geospatial objects, such as points, lines and polygons and get hands-on experience in processing spatial data. Basic geometric algorithms for point-in-polygon tests and line-segment intersection tests will be presented. Techniques for spatial navigation, such as shortest path algorithm in free space and in spatial networks will be discussed. Technical challenges such as storing, reading and parsing geospatial will be highlighted and students will conduct geo-spatial data analysis in teams. To analyze data, this course will give an introduction to data analysis concepts including regression, clustering and classification of data. In addition, awareness will be raised for spatial privacy threats, and possible risks associated with uncontrolled publishing of location based data. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**300 Level Courses**

**GGS 300: Quantitative Methods for Geographical Analysis.** 3 credits.
Comprehensive introduction to quantitative methods in spatial analysis, with emphasis on solving geographical research problems. Topics include nature of spatial data; collection of spatial data; preparation of spatial data for mapping, geographic information systems, and statistical analysis; descriptive spatial statistics; areal sampling theory and methods; probability theory and distributions; hypothesis testing; correlation and regression; and areal and point pattern spatial statistics. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Recommended Prerequisite:** 30 credits, including GGS 102 and 103 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 301: Political Geography.** 3 credits.
Distribution and effects of power on landscape, particularly on national and global scales. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** 30 credits

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
GGS 302: Global Environmental Hazards. 3 credits.
Introduces applications of observational and modeling techniques to
natural hazards and the threat they pose to the world, as well as a general
introduction to global climate change and its effect on regional and local
scales. Examples include topics of interest to different countries and
regions of the world, such as earthquakes, sand and dust storms, slope
failures, volcanoes, land slides, droughts and desertification, floods,
hurricanes and typhoons, severe weather, wild fires (U.S., Indonesia,
Africa, S. America), sea-level rise, and tsunamis. Covers Earth system
science topics related to the above hazards and their coupling with
anthropogenic hazards as well as how societies respond to natural
disasters and mitigation. Offered by Geography/Geoinformation Sci
(p. 708). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Recommended Prerequisite: 30 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 303: Geography of Resource Conservation. 3 credits.
Provides analysis of world resources distribution, conservation, and
preservation; and problems resulting from their natural occurrence and
utilization. Uses knowledge from physical and social sciences to develop
complex and sophisticated understanding of issues surrounding natural
resource exploitation and management, conservation, and preservation.
Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Mason Core: Encore: Sustainability, Synthesis (p. 137)

Specialized Designation: Green Leaf Course

Recommended Prerequisite: 30 credits, and completion or concurrent
enrollment in all other required Mason Core courses.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 304: Population Geography. 3 credits.
Spatial distribution of population, its causes and effects, and changing
patterns resulting from population mobility. Emphasizes spatial
characteristics of variables such as age, sex, race, education, and
income. Offered by Geography/Geoinformation Sci (p. 708). May not be
repeated for credit.

Mason Core: Encore: Sustainability, Synthesis (p. 137)

Specialized Designation: Green Leaf Course

Recommended Prerequisite: 30 credits and completion of or concurrent
enrollment in all Mason Core requirements.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 305: Economic Geography. 3 credits.
Analyzes pattern of distribution of world economic activity, spatial
economics behind this pattern, and influence of distribution on other
spatial systems. Offered by Geography/Geoinformation Sci (p. 708). May
not be repeated for credit.

Recommended Prerequisite: 30 credits

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 306: Urban Geography. 3 credits.
Structure and internal differentiation of cities. Variety of perspectives
on nature of cities, and opportunities for intensive use of space. Urban
problems and alternatives in their spatial context. Offered by Geography/
Geoinformation Sci (p. 708). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 307: Sustainable Development. 3 credits.
Explores the concepts, applications, and tools for analysis and decision
making in support of environmentally sustainable development. Case
studies and problem-solving exercises will be used to stimulate learning
and provide practical experience in addressing sustainable development
issues. Offered by Geography/Geoinformation Sci (p. 708). May not be
repeated for credit.

Specialized Designation: Green Leaf Course

Recommended Prerequisite: 60 hours; GGS 122 and GGS 302, or
permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 308: Field Mapping Techniques. 3 credits.
Basic techniques for collecting and recording spatial field data, including
topographic maps, compass, transit, alidade, and geographic positioning
systems. Includes field work. Offered by Geography/Geoinformation Sci
(p. 708). May not be repeated for credit.

Recommended Prerequisite: MATH 105, GGS 102 or GEOL 101, and 30
credits.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 309: Meteorology and Climate. 3 credits.
Elements of meteorology; analysis of world distribution of meteorological
controls as bases of regional climatic variations. Offered by Geography/
Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 102, 121, or equivalent, or permission of
instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
GGS 310: Introduction to Digital Cartography. 3 credits.
Study and creation of maps. Fundamental mapping principles (projection, scale, generalization, symbolization) and applied computer-based cartographic production. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 311: Introduction to Geographic Information Systems. 3 credits.
Fundamental concepts and theories for appropriate use of geographic information systems (GIS). Discusses basic GIS functionality and applications in various fields. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Specialized Designation: Scholarly Inquiry
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 312: Physical Climatology. 3 credits.
Quantitative description of nature and theory of the climate system, dynamics of atmosphere-ocean-land surface, internal interactions and response to external forcing, description of the climate record and simple climate models. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to CLIM 312.

Specialized Designation: Green Leaf Course
Recommended Prerequisite: 30 hours; and GGS 121, MATH 113, PHYS 243-244, or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 314: Severe and Extreme Weather. 3 credits.
Behavior of weather events ranging from small scale (e.g., thunderstorms and tornadoes) to mesoscale (e.g., fronts and hurricanes). Introduces the dynamical and physical processes, atmospheric boundary layer processes, and coupling between different spatial scales that create and shape severe and localized weather events. Offered by Geography/ Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to CLIM 314.

Specialized Designation: Green Leaf Course
Recommended Prerequisite: MATH 113 or equivalent; CLIM/ PHYS 111/112 or EOS 121 or GGS 121.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 315: Geography of the United States. 3 credits.
Diversity of US physical and cultural landscapes. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: 6 credits of geography or American Studies, or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 316: Geography of Latin America. 3 credits.
Regional survey of physical resources, populations, cultural characteristics, and economic activities in Latin America. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Specialized Designation: Non-Western Culture
Recommended Prerequisite: 6 credits of Geography or Latin American Studies, or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 319: Air Pollution. 3 credits.
Description of major types of air pollution and introduction to how their characteristics are influenced by interaction with the atmosphere. Topics include sources and distribution of pollution from local to global scales, effects of radiation and wind on pollution, modeling of plume dispersion and pollution effects on climate. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Specialized Designation: Green Leaf Course
Recommended Prerequisite: CLIM 111 or GGS 121.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 320: Geography of Europe. 3 credits.
Environmental, economic, social, and political factors influencing regional structure of Europe. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: 6 credits of Geography or European Studies, or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 321: Biogeography. 3 credits.
A survey of the relationship between distribution of plants and animals on the earth surface and the physical geography and environmental characteristics. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to BIOL 374.

Recommended Prerequisite: GGS 122 or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 322: Issues in Global Change. 3 credits.
Provides the basis for evaluating existing and emerging issues in the environmental sciences at the regional and global scale, using interdisciplinary scientific principles. Combines activities designed to
provide an understanding of the following: first principles underlying regional/global issues in the environmental sciences, with attention to links among the disciplines of atmospheric sciences, biology, ecology, hydrology, oceanography, geology, human health, toxicology, and mathematical modeling; concepts of systems control, feedbacks, modeling, and hierarchical scales (spatial and temporal); role of retrospective analyses in developing a scientifically sound basis for evaluation and analysis; and studies of specific issues of interest on a regional to global scale. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the degree for a maximum 6 credits.

**Specialized Designation:** Green Leaf Course

**Recommended Prerequisite:** GGS 121, GGS 122, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 325: Geography of North Africa and the Middle East.** 3 credits.
Environmental, economic, and social factors of differentiation of regional structure and distribution of resources in North African and Middle Eastern countries. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Specialized Designation:** Non-Western Culture

**Recommended Prerequisite:** 6 credits of Geography or courses related to Middle East, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 330: Geography of the Soviet Succession States.** 3 credits.
Analyzes geographic factors involved in history, economic development, and geopolitical situation of the former Soviet Union. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Specialized Designation:** Non-Western Culture

**Recommended Prerequisite:** 6 credits of geography or Russian studies, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 333: Issues in Regional Geography.** 3 credits.
Geographical study of particular region or relevant regional issue. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** 30 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 340: Health Geography.** 3 credits.
Spatial approaches to the study of health and disease. Topics include disease ecology and diffusion, and geographic perspectives on improving health care delivery. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** Course in statistics.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 354: Data Analysis and Global Change Detection Techniques.** 3 credits.
Introduces basic time series methods, especially those used in detecting trends and randomness in time series data. Various data related to global changes on different temporal and spatial scales will be identified, and the relevant analysis methods will be used to those data so that students can detect or confirm changing trends or lack of them in data. Other topics such as data formats, data visualization, and data mining may also be included based on the background of the student body. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** IT 103, STAT 250, or permission of instructor

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 357: Urban Planning.** 3 credits.
Reviews spatial, policy, and administration principles that guide urban planning activities in the United States. Outlines differences between theory and practice and provides tools, methods, and perspectives commonly incorporated into practice of urban planning and policy analysis. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to GOVT 357.

**Recommended Prerequisite:** 30 credits

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 379: Remote Sensing.** 3 credits.
Foundations of remote sensing, and of processing, analyzing, and using remotely sensed data for monitoring the earth. Introduces key concepts in electromagnetic radiation, passive (panchromatic, multi-, and hyper-spectral) and active (microwave and Lidar) sensor systems, and methods for information extraction, including image interpretation and analysis, measurement and rectification, classification, and digital image processing. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to GGS 412.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 380: Geography of Virginia.** 3 credits.
Natural and cultural forces of Virginia. Studies regional makeup and analysis of human and environmental characteristics. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** 30 credits

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 384: Special Topics in Geospatial Intelligence.** 3 credits.
Selected topics concerning human activity on earth derived from the exploration and analysis of imagery and geospatial information that describes, assesses, and visually depicts physical features and geographically referenced activities on the Earth. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the term.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Recommended Prerequisite:** GGS 311.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**GGS 398: Selected Topics in Global Change.** 3 credits.
Covers selected topics in global change not covered in fixed-content global change courses. Notes: Content varies and is determined by instructor. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the term.

**Recommended Prerequisite:** 30 credits or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**GGS 399: Select Topics in GGS.** 3 credits.
Content varies; determined by instructor. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the term for a maximum 12 credits.

**Specialized Designation:** Non-Western Culture

**Recommended Prerequisite:** 30 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**400 Level Courses**

**GGS 400: Colloquium in Geoinformation Science.** 1 credit.
Presentations in specific research areas of Geography and Geoinformation Science by faculty and staff, Mason faculty in related programs, and professional visitors. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits or permission of instructor.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 410: Introduction to Hyperspectral Imaging.** 3 credits.
Introduction to quantitative measurements by remote-sensing methods covering quantitative spectroscopy, spectral and thermal signatures, atmospheric physics, and the electromagnetic spectrum. Emphasis on the scientific principles involved and the transition of the technology to real-world applications. The requisite materials to begin to understand hyperspectral imaging (HSI) technology and its many civil and military applications are presented. Covers necessary mathematics used in the analysis of n-dimensional data. Topics include hyperspectral concepts, data collection systems, data processing techniques, case studies, and U.S. national policy issues. Data processing techniques include n-dimensional space, scatterplots, spectral angle mapping, spectral mixture analysis, spectral matching, and other techniques. Applications and case studies include environmental, medical, agricultural, and military. Includes ground, airborne, and spaceborne hyperspectral systems. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** PHYS 243-244, 245-246, MATH 113 and 114, GGS 353, GGS 416 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 411: Advanced Digital Cartography.** 3 credits.
This advanced course in cartography focuses on thematic map design. The objective is to produce a cartographic portfolio of well-designed, professional grade maps. Theoretical concepts and principles will be introduced using practical examples and written assignments. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** GGS 311.

**Registration Restrictions:**
**Required Prerequisite:** GGS 310C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 412: Air Photography Interpretation.** 3 credits.
Methods and techniques of interpreting and using information contained in aerial photography, including applications to various aspects of physical and cultural landscape. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to GGS 379.

**Recommended Prerequisite:** 60 credits and GGS 102 or 103, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GGS 415: Seminar in Geography.** 3 credits.
Students produce, present original research papers. Notes: Capstone seminar for geography majors integrating previous course work into disciplinary framework. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** GGS 300 and 310

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
GGS 416: Satellite Image Analysis. 3 credits.
Examines methods and techniques of interpreting and using information obtained by non-photographic remote sensing systems, with particular emphasis on space-borne platforms. Includes analysis of imagery for both physical and cultural environments. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: 60 credits and GGS 412, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 456: Introduction to Atmospheric Radiation. 3 credits.
Helps students learn about the fundamental aspects of atmospheric radiation. The goal is to understand their essential roles in advanced remote sensing, atmospheric sciences and global and environmental change. It will provide a foundation for and will be beneficial to students in taking advanced courses in those areas. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to CLIM 456.

Recommended Prerequisite: GGS 353/GGS 309 and a course in physics, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 462: Web Mapping. 3 credits.
Managing geospatial data is at the core of an emerging Billion-Dollar industry. This course will provide the students with the knowledge to manage and query geospatial data using relational database management systems and how to build Javascript-based Web mapping applications on top of a database to communicate and interact with the data. Students who take GGS 462 cannot receive credit for GGS 692. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 311.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GGS 463: RS: Applied Geographic Information Systems. 3 credits.
Selected applications in geographic information systems (GIS). Topics include automated data capturing and processing, spatial data models and structure including object-oriented approach, advanced spatial analytical techniques including raster modeling and network analysis, programming, and algorithm development in GIS. Major purpose of course is to extend fundamental theories and concepts in GIS so students are able to conduct research with and on GIS. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive

Registration Restrictions:
Required Prerequisites: (GGS 300C, L300 or 300T) and (GGS 311C, 311T or L311).
C Requires minimum grade of C.
**Recommended Prerequisite:** Open only to authorized GGS majors with 90 credits and GPA of 2.50 or higher.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

---

### 500 Level Courses

**GGS 501: Geography and Geoinformation Science Distance Education Orientation.** 1 credit.
Describes study structure and basic expectations (in terms of time commitment, expectations, technical issues and communication) for distance education courses in the Geography and Geoinformation Science department. Notes: The course is self-paced, enabling students to proceed at their own speed. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**GGS 505: Transportation Geography.** 3 credits.
Structure, principles, location, and development of world transportation. Critical role of transportation in moving people, goods, and ideas at international, national, regional, and urban levels. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** 6 credits of geography

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 524: Introduction to Environmental and Resource Economics.** 3 credits.

**Recommended Prerequisite:** Basic algebra skills.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 525: Economics of Human/Environment Interactions.** 3 credits.
Advanced topics in environmental, natural resource, and ecological economics for noneconomist. Emphasizes sustainability, intergenerational equity, and economic-ecological feedbacks. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to ECON 895, EVPP 525.

**Specialized Designation:** Green Leaf Course
Recommended Prerequisite: EVPP 524/GGS 524 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 531: Land-Use Modeling Techniques and Applications. 3 credits.
Survey of literature on spatially explicit empirical models of land-use change. Hands-on experience developing and running simple models. Techniques covered include statistical models, mathematical programming models, cellular automata, agent-based models, and integrated models. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to EVPP 531.

Recommended Prerequisite: GGS 550, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 533: Issues in Regional Geography. 1-6 credits.
Geographical study of particular region or relevant regional issue. Notes: Content varies. May be repeated with permission of the department. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 540: Health Geography. 3 credits.
Spatial approaches to study of health and disease. Topics include disease ecology and diffusion, and geographic perspectives on improving health care delivery. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: Course in statistics.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 550: Geospatial Science Fundamentals. 3 credits.
Introduces geospatial sciences, emphasizing concepts and theories of cartography, remote sensing, air photo interpretation, Global Positioning Systems, spatial data structures, and geographic information systems. Lectures accompanied by hands-on exercises. Notes: Only available for students without previous course work in cartography. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 310 or 550

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 551: Thematic Cartography. 3 credits.
Analyzes nature of perceptual organization and visual systems in thematic map communication portrayal, graphic handling, and data analysis. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 553: Geographic Information Systems. 3 credits.
Sources of digital geospatial data; and methods of input, storage, display, and processing of spatial data for geographic analysis using GIS. Lectures, hands-on exercises familiarize students with current technology. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.
Recommended Prerequisite: GGS 550 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 554: History of Cartography. 3 credits.
History of cartographic portrayal of Earth from ancient times through 19th century, emphasizing interrelation of human culture, technological development, and geographical knowledge as reflected in maps. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 560: Quantitative Methods. 3 credits.
Survey of quantitative methods commonly used in geographic research. Emphasizes spatial analysis techniques. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: Previous course work in statistics, or GGS 310 or 550.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 562: Photogrammetry. 3 credits.
Treatment of photogrammetric problems, including least squares adjustments, image coordinate refinements, collinearity equation, resection, relative orientation, and analytic aerotriangulation. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 412, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 563: Advanced Geographic Information Systems. 3 credits.
Discusses advanced GIS concepts including spatial data structure, spatial analysis, programming data fusion, Internet components, and spatial database management. Hands-on activities demonstrate concepts and specific applications in both cultural and physical geography. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 553 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 565: Remote Sensing. 3 credits.
Examines use of various types and combinations of electromagnetic energy to obtain spatial information. Concentrates on nonphotographic and spaceborne remote sensing platforms and sensors. Examines essential operational parameters for existing and future systems and strategies for visual extraction of features. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 412, or GGS 550, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
GGS 581: World Food and Population. 3 credits.
Topics include maldistribution of population, regional disparities in growth rates and income distribution, food production, and world hunger. Discusses population policies, with emphasis on Third World countries. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 590: Selected Topics in Geography. 1-3 credits.
Analyzes topics of immediate interest. Notes: Content varies. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

600 Level Courses
GGS 605: Systematic Applications of GIS. 3 credits.
Provides those working with spatially referenced data the technical skills to use GIS to conduct spatial analyses on socioeconomic phenomena related to labor, retail, and real estate markets. Introduces and emphasizes the development of technical and methodological skills to understand the potential and the pitfalls of using GIS for spatial analyses of socioeconomic phenomena. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the term.

Recommended Prerequisite: GGS 553

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 631: Spatial Agent-Based Models of Human-Environment Interactions. 3 credits.
Discusses key challenges in spatial modeling of human-environment interactions. Reviews agent-based modeling applications in urban and rural interactions, agriculture, forestry, and other areas. Hands-on development of simple ABM models and investigation of linkages between GIS and ABM. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to EVPP 631.

Recommended Prerequisite: GGS 531 or CSS 600, or permission or instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 644: Fundamentals and Interpretation of Imaging Radar. 3 credits.
Provides understanding of components, functionality, and use of radar remote sensing for acquiring spatial information. Concentrates on operational systems. Includes hands-on assignments. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 579, or other basic course in remote sensing.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 650: Introduction to GIS Algorithms and Programming. 3 credits.
Introduction to programming methods and their application to Geographic Information Systems, including the fundamentals of object-oriented programming and GIS-specific data structures and algorithms. Employs an object-oriented language such as Visual Basic.Net, and existing freeware and commercial GIS libraries. Topics covered include variables, arrays, control structures, objects and classes, raster and vector data structures, spatial algorithms, and spatial indexing methods. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 553 or equivalent introductory GIS course, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 653: Geographic Information Analysis. 3 credits.
Explores existing and potential capabilities of geographic information systems in conducting spatial analysis and modeling. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 553 and 560

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 655: Map Design. 3 credits.
Advanced examination of principles of map design, including discussions of map design research. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 310 or 550.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 656: Terrain Mapping. 3 credits.
Covers fundamental methods of digitally representing terrain data, major technologies, and programs for generating terrain data; methods for quantifying terrain error and assessing terrain data quality; and a variety of applications. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: Two semesters of calculus, partial differential equation recommended; or permission of instructor.

Registration Restrictions:
Recommended Prerequisite: GGS 650 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 661: Map Projections and Coordinate Systems. 3 credits.
Covers development of various map projections and coordinate systems, property analysis, distortions, and applications. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 310 or 550

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 664: Spatial Data Structures. 3 credits.
Studies spatial data structures and their application in digital cartography, geographic information systems, and image-processing systems. Examines raster and vector data structures, and attribution schemes and topological models. Includes data transformation, information loss, data quality, and the role of metadata. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: B or better in GGS 560.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 670: Introduction to Atmosphere and Weather. 3 credits.
Applies climatic concepts to natural and human-modified environments, and analyzes climatic change. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 674: Environmental Impact Analysis. 3 credits.
Scientific and administrative processes involved in environmental impact analysis and environmental impact statements. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 675: Location Science. 3 credits.
This course presents the theory and practice of Location Science - the study of the optimal or near optimal spatial location or allocation of facilities, routes, personnel, or other assets. A variety of algorithms and heuristics for location problems is presented. Lectures and both in-class and take-home exercises reinforce students' mastery of the techniques and understanding of advanced theoretical issues. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 680: Earth Image Processing. 3 credits.
Focuses on how geoinformation technologies, including GIS, RS, and GPS, and spatial analytical techniques can be integrated to address various situations in environmental risk assessment, monitoring, and planning. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 416 or GGS 579 or permission of instructor.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 681: Social Media Analysis. 3 credits.
The course covers theory, principles, and analytical techniques in geospatial analysis of social media, including data collection, location-based and cyberspace social network analysis, content analysis, and geovisualization of such data. Examples of applications in various domains are used to demonstrate and explore the use of social media analysis. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 550 or GGS 553 or permission of the instructor.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 684: Selected Topics in Geospatial Intelligence. 3 credits.
Covers topics relevant to geospatial intelligence, especially addressing emerging trends, focused intelligence applications, and relevant technological advances, not covered by existing courses. Sample topics addressed in this course include geosensor networks, landmine detection using remote sensing techniques, the use of unmanned aerial vehicles in geospatial intelligence, and the use of virtual reality techniques for geospatial information modeling and analyst training. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: Students must be admitted to the Geospatial Intelligence Certificate program or have permission from the program's academic director.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 685: Capstone Course in Geoinformatics. 3 credits.
This course is intended to provide a capstone experience for graduate students by synthesizing knowledge and experience that they acquired in earlier coursework to address a complex geospatial intelligence problem. The course requires analytical, collaborative, and communication skills. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: 12 credits in the geospatial intelligence certificate program or permission of program coordinator.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 689: Seminar in Geographic Thought and Methodology. 3 credits.
Includes historical development of geographic thought and current philosophy of geography; rationale for various subfields; and geographic research techniques and methods of analysis. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 560
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 692: Web-based Geographic Information Systems.** 3 credits.
Management of geospatial data by means of a database system. Communication of geospatial data over the Internet using browser-based interfaces. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** GGS 550 or equivalent, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 695: Geography and Geoinformation Science Graduate Internship.** 1-6 credits.
Approved study programs with specific employers. Students and employer supervisors must demonstrate relevancy of study program to degree requirements. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 698: Directed Readings and Research.** 1-3 credits.
Reading and research on specific topic under direction of faculty member. Notes: Written report required; oral exam and report may be required. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**GGS 700: Comprehensive Exam.** 1 credit.
Preparation and completion for the comprehensive exam within the GGS department. Instructor should be the chair of the examination committee. The exam committee will specify exam content. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**GGS 704: Spatial Demography.** 3 credits.
Intermediate-level, population geography course discussing demographic concepts and spatial dimensions of population. Features various indices, measures, and models commonly used in human geography. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** Prior courses in quantitative methods and GIS recommended.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 721: Biogeography.** 3 credits.
Provides broad understanding of how physical geography and environment influence spatial and temporal distribution of plants and animals on Earth's surface. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** Courses in ecology, chemistry, and geology.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 740: Hyperspectral Imaging Systems.** 3 credits.
Provides requisite materials to understand hyperspectral imaging technology and its many civilian and military applications. Emphasizes scientific principles involved and technology application to real-world imaging systems. Topics include hyperspectral concepts and system tradeoffs; data collection systems; calibration techniques; data processing techniques and software; classification methods; and case
studied. Data processing techniques include N-dimensional space, scatterplots, spectral angle mapping, spectral mixture analysis, spectral matching, and mixture tuned matched filtering. Discusses ground, airborne, and spaceborne hyperspectral remote sensing systems. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** CSI 660 or equivalent, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 754:** *Earth Science Data and Advanced Data Analysis.* 3 credits.
Covers accessing and applying Earth observations and remote-sensing data for Earth system science research and applications. Major topics are data formats, analysis and visualization tools, advanced analysis methods, and data applications. Also covers combining innovative information technology techniques and Earth science data to set up online data centers for accessing data through the web. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to CSI 754.

**Recommended Prerequisite:** GGS 579 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 756:** *Physical Principles of Remote Sensing.* 3 credits.
Emphasizes fundamental physical and mathematical principles of remote sensing. Also provides overview of the current Earth Observation System as well as the National Polar-Orbiting Operational Environmental Satellite Systems (NPOESS), and NPOESS Preparatory Project missions. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** GGS 753 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 759:** *Topics in Earth Systems Science.* 1-6 credits.
Covers selected topics in Earth systems and global changes not covered in fixed-content Earth systems and global changes courses. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 760:** *Advanced Topics in Remote Sensing.* 3 credits.
Content varies in the area of remote sensing. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the term for a maximum 12 credits.

**Recommended Prerequisite:** GGS 579 or GGS 680.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 772:** *Cloud Geographic Information Systems.* 3 credits.
Examines different aspects of science and technology in the context of distributed GIS. Includes general concepts, architecture, component design and development, and system integration as well as other advanced topics, including interoperability and agent-based GIS. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** Introductory course in GIS and some programming experience, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 773:** *Interoperability of Geographic Information Systems.* 3 credits.
Advanced course addressing theories, standards, and implementations of web-based interoperable geographic information systems for online data and information services. Reviews international standards, including OGC, and associated tools for interoperability. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

**Recommended Prerequisite:** GGS 754 and GGS 553, or a course in GIS.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 777: Remote Sensing Natural Hazards. 3 credits.
Provides an overview of major natural hazards, their governing dynamics and remote-sensing techniques used to study, forecast, and mitigate hazards. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 579 or GGS 680; or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 787: Scientific Data Mining for Geoinformatics. 3 credits.
Covers specialized data mining algorithms, geoscience data models, and data information systems. Emphasis on domain-specific data mining algorithms suitable for spatial data and spatio-temporal data with geoscience and geoinformatics applications. Introduces real geoscience data mining applications in detailed applications. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: Competency in programming at the level of CSI 601-607 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 792: Seminar in Earth Systems Science. 2 credits.
Capstone experience. Seminars presented by faculty and students. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to EVPP 792.

Recommended Prerequisite: 15 Graduate Credits including CSI 655, GGS 656, and GGS 657, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 795: Seminar in Regional Analysis. 3 credits.
Analyzes and synthesizes physical and cultural elements of geography in selected region. Should be taken near end of master's degree program. Provides opportunity to apply selective knowledge gained in previous systematic courses to specific region. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 791: Advanced Spatial Statistics. 3 credits.
Advanced course focusing on analyzing georeferenced or spatial data represented as points or polygons. Addresses higher moments, point pattern analyses, and interpolations of points to surfaces. Includes spatial regression. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit.

Recommended Prerequisite: GGS 560 or STAT 535/554, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GGS 799: Thesis. 1-6 credits.
Degree candidacy and departmental approval of thesis proposal. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Degree candidacy and departmental approval of thesis proposal.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

### 800 Level Courses

**GGS 840: Hyperspectral Imaging Applications.** 3 credits.
Introduces advanced hyperspectral imaging and multisensor concepts with emphasis on real-world civilian and military applications. Topics include advanced hyperspectral concepts, multisystem tradeoffs, data collection and processing systems, imaging radar systems, laser systems, calibration techniques, data fusion, quantitative remote sensing techniques, data compression techniques, case studies, and U.S. national policy. Applications and case studies include environmental, homeland security, medical, military, disaster mitigation, agricultural, and transportation. Offered by Geography/Geoinformation Sci (p. 708). May not be repeated for credit. Equivalent to CSI 854.

**Recommended Prerequisite:** Permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

### 900 Level Courses

**GGS 900: Geography and Geoinformation Science Colloquium.** 1 credit.
Presentations in specific research areas of Geography and Geoinformation sciences by faculty and staff, Mason faculty in related programs, and professional visitors. Notes: Maximum 3 credits may be applied to Earth systems and geoinformation sciences PhD. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the degree for a maximum of 3 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GGS 998: Dissertation Proposal.** 1-12 credits.
Covers development of research proposal that forms basis for doctoral dissertation, under guidance of dissertation director and doctoral committee. Notes: May be repeated, but no more than 12 credits of GGS 998 may satisfy doctoral degree requirements. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the degree for a maximum of 12 credits.

**Recommended Prerequisite:** Doctoral student or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**GGS 999: Dissertation.** 1-12 credits.
Doctoral dissertation research under direction of dissertation advisor. Notes: May be repeated, but no more than total 24 credits in GGS 998 and 999 may be applied to doctoral degree. Offered by Geography/Geoinformation Sci (p. 708). May be repeated within the degree for a maximum 24 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

### Geology (GEOL)

#### 100 Level Courses

**GEOL 101: Introductory Geology I.** 4 credits.
Covers Earth, processes that operate within Earth and on surface, and human interaction with Earth. Topics include minerals, earthquakes and seismology, isostasy, igneous processes and rocks, paleomagnetism and plate tectonics, weathering, mass movements, rivers and streams, groundwater, glaciers, and marine processes. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

**Mason Core:** Natural Science with Lab, Encore:Sustainability (p. 137)

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GEOL 102: Introductory Geology II.** 4 credits.
Earth processes in historical context. Topics include sedimentary rocks and principles, deformation and metamorphism, mountain building and plate tectonics, geologic time, fossils, and historical development of continents. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

**Mason Core:** Natural Science with Lab, Encore:Sustainability (p. 137)

**Specialized Designation:** Green Leaf Course

**Recommended Prerequisite:** GEOL 101.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GEOL 134: Evolution and Extinction.** 3 credits.
Evolution and Extinction is a science class for non-science majors that explores how diversity of animals and plants has changed through geologic time, when mass extinctions occurred, when major diversifications of life occurred, and how the position of continents on the surface of the earth influenced the evolution, extinction, and distribution of life, landforms and the atmosphere. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.
300 Level Courses

GEOL 302: Mineralogy. 4 credits.
Crystallographic, optical, chemical, and physical properties of minerals. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

GEOL 303: Field Mapping Techniques. 3 credits.
Basic techniques for collecting, recording, and plotting spatial field data including use of topographic maps, compasses, transit, alidade, and global positioning systems (GPS). Designated a Green Leaf Course. Notes: Includes field work. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: Discovery of Scholarship

Schedule Type: Laboratory, Lecture

Gradation:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 304: Sedimentary Geology. 4 credits.
Introduces sedimentation, sedimentary petrology, facies analysis, and stratigraphy. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: Green Leaf Course, Scholarly Inquiry

Schedule Type: Laboratory

Gradation:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 305: Environmental Geology. 3 credits.
Investigates geological principles directly relating to environmental hazards. Geological causes and effects of natural disasters such as earthquakes, tsunamis, volcanoes, floods and landslides; climate variability and change; prediction of, and planning for geological hazards and disasters and understanding their major societal impacts; and medical geology. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: Green Leaf Course, Writing Intensive in the Major

Specialized Designation: Green Leaf Course

Recommended Prerequisite: GEO 101 and GEOL 102, or BIOL 103, 104, or BIOL 213, 214. CHEM 103 or CHEM 211.

Schedule Type: Laboratory, Lecture

Gradation:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 306: Soil Science. 3 credits.
Composition, classification, physical properties, and origin of soils. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: Green Leaf Course, Scholarly Inquiry

Schedule Type: Laboratory

Gradation:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 308: Igneous and Metamorphic Petrology. 4 credits.
Genesis, classification, and recognition of igneous and metamorphic rocks. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: Green Leaf Course, Writing Intensive in the Major

Specialized Designation: Green Leaf Course

Recommended Prerequisite: GEO 101 and CHEM 103 or 211.

Schedule Type: Lecture

Gradation:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 309: Introduction to Oceanography. 3 credits.
Introduction to chemical, biological, and geological aspects of oceanic environment. May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to BIOL 309, EVPP 309.

Recommended Prerequisite: Two of the following lab sciences courses are required for a total of 8 credits: [GEO 101 or 102], [EVPP 110 or 111 or 210], CHEM 211 and 213, [BIOL 103 or 213], [PHYS 160 and 161 or 243 and 244].

Schedule Type: Lecture

Gradation:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 312: Invertebrate Paleontology. 4 credits.
Classification, evolutionary trends, and distribution of common invertebrate fossils. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to BIOL 336.

Recommended Prerequisite: GEO 101 and GEO 102, or BIOL 103, 104, or BIOL 213, 303, 304.

Schedule Type: Laboratory, Lecture

Gradation:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 313: Hydrogeology. 3 credits.

Specialized Designation: Green Leaf Course

Recommended Prerequisite: GEOL 101 or GGS 102, MATH 113 and CHEM 211.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 315: Topics in Geology II. 1-3 credits.
Discusses particular topic in geology. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: GEOL 101 or GEOL 102 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

GEOL 316: Computers in Geology. 3 credits.
Uses of mainframe and microcomputers, with emphasis on geologic applications. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: GEOL 101, 102, 302, one semester of mathematics, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 317: Geomorphology. 4 credits.
Analyzes processes that occur at Earth's surface and resulting landforms. Labs stress recognition and evaluation of landforms using maps and aerial photographs, and methods of data collection used in study of surficial geology. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Grade of 2.0 or better in GEOL 101 and 102, or 6 credits of GGS, including GGS 102; GGS 412 is strongly recommended.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 320: Geology of Earth Resources. 3 credits.
A survey of earth resources, including metallic and non-metallic ore deposits, mineral resources, precious gems, sand and gravel, water, and air. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Recommended Prerequisite: GEOL 101, GEOL 102, GEOL 302. GEOL 305 strongly suggested.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 321: Geology of Energy Resources. 3 credits.

Specialized Designation: Green Leaf Course

Recommended Prerequisite: GEOL 101 or GEOL 102, and completion of all Mason Core science requirements.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 325: Planetary Geology. 3 credits.
Covers the geology and geologic processes of the terrestrial planets, moons, and other small bodies in the solar system including dwarf planets, asteroids and comets. The emphasis is on understanding past and present surface geologic processes. Observation session at campus observatory may be required outside of class hours. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: GEOL 101C or 102C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 332: Paleoclimatology. 3 credits.
Explores the natural evolution of Earth's climate with the goal of providing a baseline for understanding present climate variability and future trends through increased knowledge of the physical, chemical, and biological processes that influence climate over the long-term. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Recommended Prerequisite: GEOL 102 or BIOL 103 or EVPP 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 334: Vertebrate Paleontology. 4 credits.
Vertebrate Paleontology explores the evolution of vertebrates from the early Paleozoic to Recent. The course will cover the systematics, anatomy, paleogeography, and ecology of extinct vertebrates.
Discussions will include fishes, early tetrapods & amniotes, dinosaurs, birds and mammals. Lab portion includes paleontology techniques, analysis, and study of fossil specimens and casts. A weekend field trip is included. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to BIOL 334.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Any two courses from the following list: GEOL 101, GEOL 102, BIOL 103, BIOL 104, BIOL 213, BIOL 303 or the permission of the instructor.

Schedule Type: Laboratory, Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 363: Coastal Morphology and Processes. 4 credits.
Studying global coastal geomorphology and processes with emphasis on U.S. Atlantic and Gulf coasts. Topics include plate tectonics, sea level changes, sediment supply, waves, tides, storm impacts, and human activities. Lecture and extended weekend field trips to mid-Atlantic coast. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to EVPP 363.

Specialized Designation: Green Leaf Course

Recommended Prerequisite: GEOL 309 or BIOL 309 or GEOL 317 or 9 credit hours in Geography including GGS 309.

Schedule Type: Laboratory, Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 364: Marine Geology. 3 credits.
This course will present a global overview of the geologic origin and composition of the ocean seafloor, and an introduction to the basic principles of the geologic processes occurring in the marine environment. Primary topics include geologic, tectonic and sedimentary characteristics of the deep ocean basins and continental margins; transport and deposition of marine sediments; micropaleontology and paleoceanography; geochemistry and hydrothermal systems; and marine mineral resources. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: GEOL 101, GEOL 102, GEOL 302, and CHEM 211.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 392: Geology and Earth Science Seminar. 1 credit.
Undergraduate experience that includes discussion of scientific articles and attending seminars presented by outside experts, faculty, or students. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: 30 credit hours.

Schedule Type: Seminar
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

GEOL 401: Structural Geology. 4 credits.
Igneous, sedimentary, and metamorphic rocks in folded, faulted, and metamorphosed terrains. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ((GEOL 302C, 317C and 304C) or GEOL 308C) and ((MATH 110C and 111C) or MATH 113C)
C Requires minimum grade of C.

Schedule Type: Laboratory, Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 402: Geological Development of North America. 3 credits.

Recommended Prerequisite: GEOL 101, 102, 302, 304, 308 and 401.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 403: Geochemistry. 3 credits.
Includes stable isotope, crystal, water, and organic geochemistry; geochronology; and geochemistry of rocks. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: GEOL 101 and 102, and CHEM 211.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 404: Geological Field Techniques. 1-6 credits.
Mapping techniques involved in collecting geological field data. Notes: Includes field work. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: GEOL 101C, 102C, 302C, 304C, 308C, 317C and 401C
C Requires minimum grade of C.

Schedule Type: Laboratory
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 408: Practicum for Geology Laboratories. 1 credit.
Studies techniques to make geology lab effective component in geological education. Discusses developing testing materials, supplemented by experience operating geology course lab section. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Corequisite: Open only to GEOL/ESS majors with 80 credit hours and permission of Chair.
Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 409: Practicum for Geology Laboratories. 1 credit.
Studies techniques to make geology lab effective component in geological education. Discusses developing testing materials, supplemented by experience operating geology course lab section. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: Open only to GEOL/ESS majors with 80 credit hours and permission of Chair.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 410: Research Proposal Preparation. 1 credit.
Prepares students for research in GEOL 411. Includes literature research, initial data collection, and preparing research proposal. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: Geology or Earth Science major with 90 credits, cumulative GPA of 2.80 or higher, and permission of the Geology undergraduate coordinator.

Schedule Type: Research

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 411: Geological Research. 3 credits.

Recommended Prerequisite: GEOL 410.

Schedule Type: Research

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 412: Physical Oceanography. 3 credits.
Course describes the global patterns of temperature, salinity, currents and waves in the world’s oceans, and how these patterns influence marine biota, climate, and human activity. Course introduces key concepts which explain physical features of the ocean ranging from microscopic turbulence to global circulation. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to CLIM 412.

Recommended Prerequisite: MATH 113 or MATH 115, and PHYS 160 or PHYS 243, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 417: Geophysics. 3 credits.
Basic principles of geophysics including gravity, magnetism, and seismic reflection and refraction. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to PHYS 417.

Recommended Prerequisite: GEOL 101, MATH 113, one year of PHYS or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 420: Earth Science and Policy. 3 credits.
Discusses Earth science issues that have policy implications. Course uses a broad definition of Earth science, from atmosphere to geosphere. Taught seminar-style, with emphasis on discussion, reading, writing, critical analysis, and student oral presentations. Notes: Course may include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Mason Core: Encore:Sustainability, Synthesis (p. 137)

Specialized Designation: Green Leaf Course

Recommended Prerequisite: 18 credit hours in major or minor (geology, Earth science, ocean and estuarine science, or global and environmental change), and one of the following social science based courses: EVPP 361; ECON 103; ANTH 114; GGS 103; GLOA 101; GOVT 132 or 133; HIST 125 or 130; or SOCI 101, 102, or 120.

Recommended Corequisite: All other required Mason Core courses.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 458: Chemical Oceanography. 3 credits.
The world’s oceans, including a variety of closed basins and estuaries, comprise a complex and dynamic system of chemical processes that interact with biological, geological, physical, and atmospheric processes to play a significant role in defining the earth’s fragile environment. This course will present an overview of the origin, occurrence, and distribution of the chemical components in sea water and an introduction to the basic principals of the chemical processes taking place in the marine environment. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to CHEM 458.

Specialized Designation: Green Leaf Course

Recommended Prerequisite: CHEM 211 and CHEM 212, and CHEM 321 or GEOL 302.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GEOL 480: Internship. 1-3 credits.
Approved study programs with specific employers. Notes: Contact department one semester before enrollment. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.
**Recommended Corequisite:** Open only to authorized majors with 90 credit.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

## 500 Level Courses

**GEOL 500: Selected Topics in Modern Geology.** 1-3 credits.  
Topic designated in class schedule. Notes: Lecture, lab, field trip. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree.

**Recommended Prerequisite:** Baccalaureate degree in geology, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**GEOL 501: Selected Topics in Modern Geology.** 1-3 credits.  
Topic designated in class schedule. Lecture, lab, field trip. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree.

**Recommended Prerequisite:** Baccalaureate degree in geology or Permission of Instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**GEOL 503: Special Topics in Earth Science.** 1-6 credits.  
In-service course to strengthen and update knowledge of Earth science. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree.

**Recommended Prerequisite:** Employment or anticipated employment as an Earth Science teacher.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**GEOL 506: Soil Science.** 3 credits.  
Explores the composition, classification, physical properties, and origin of soils. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to EVPP 503.

**Recommended Prerequisite:** Previous lab-science courses in each of the following: geology and chemistry (8 credit hours); or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GEOL 513: Hydrogeology.** 3 credits.  

**Recommended Prerequisite:** Previous lab-science courses in each of the following: geology, calculus, and chemistry (12 credit hours); or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GEOL 521: Geology of Energy Resources.** 3 credits.  
Survey of global non-renewable and renewable energy resources. Topics include petroleum, natural gas, coal, nuclear, geothermal, solar, wind, and hydro power, and biofuels. Course discusses global production, usage, impacts and future prospects of these resources, and data capture, analysis and modeling of finite resources. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.
Recommended Prerequisite: GEOL 101 or GEOL 102, and completion of all Mason Core Natural Science requirements or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GEOL 525: Modeling Earth Signals and Systems. 3 credits.
Provides instruction on time series analysis customized for Earth signals and systems such as climate, Earth-space orientation, earthquakes, geomagnetism, river flow, tides and many other time-dependent phenomena. Concepts including linear systems, filtering, spectrum estimation, harmonic analysis and hypothesis testing are applied to time series data sampled from natural processes to address a variety of scientific problems. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: MATH 114 and STAT 250 or equivalent or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GEOL 532: Paleoclimatology. 3 credits.
Explores the natural evolution of Earth’s climate with the goal of providing a baseline for understanding present climate variability and future trends through increase knowledge of the physical, chemical, and biological processes that influence climate over the long-term. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: Previous lab-science courses in geology and/or atmospheric science and/or oceanography (12 credit hours); or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GEOL 534: Vertebrate Paleontology. 4 credits.
Explores the evolution of vertebrates from the early Paleozoic to Recent. Covers systematics, anatomy, paleoecography, and ecology of extinct vertebrates. Discussions include fishes, early tetrapods and amniotes, dinosaurs, birds, and mammals. Lab portion includes paleontology techniques, analysis, and study of fossil specimens and casts. Notes:
A weekend field trip is included. Students who have taken GEOL 334 as an undergraduate may not take 534 as a graduate student. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in biology or geology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

GEOL 536: Paleontology Seminar. 1-2 credits.
Paleontology Seminar presents topical research in paleontology and paleobiology in a structured discussion among graduate students and paleontology faculty. A theme for the seminar is chosen each semester the course is offered, tailored to the interests of the students. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GEOL 535: Quantitative Stratigraphy. 3 credits.
Quantitative stratigraphy is a branch of geology that applies statistics to reconstruct the time sequence of geological events recorded in sedimentary strata. Methods of interpolation and error analysis used for defining stratigraphic boundaries and events, time scale estimation using integrated chronostratigraphy, and intercalibration are examined. Students receive advanced training in graphic correlation, constrained optimization, ranking and scaling, and dynamic programming. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

Recommended Prerequisite: MATH 114 and STAT 250 or equivalent or permission of instructor.
Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to EVPP 503.

**Recommended Prerequisite:** Previous courses in geometry or trigonometry or equivalent; and environmental science, geography, or geology or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GEOL 563: Coastal Morphology and Processes.** 4 credits.
Investigates global coastal geomorphology and processes, with emphasis on U.S. Atlantic and Gulf coasts. Topics include plate tectonics; sea-level changes; sediment supply; impacts of waves, tides, storms; and human activities. Lecture and extended weekend field trips to U.S. mid-Atlantic coast. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to EVPP 563.

**Recommended Prerequisite:** Previous courses in geology, oceanography marine science, earth science, or physical geography; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GEOL 565: Paleoceanography.** 3 credits.
Investigates ocean evolution through geologic time. Earth's sediment archive provides proxy data on paleo-ocean chemistry, biology, geology, and physical properties. Class examines proxy reconstructions of oceanic conditions such as circulation, salinity, stratification, anoxia, and biogeochemistry. Discusses the history of ocean basins, with case studies from Precambrian to Holocene. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit.

**Recommended Prerequisite:** Previous course in oceanography or marine science and 16 credits of geology or earth science courses, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GEOL 601: The Lithosphere.** 3 credits.
Global-scale overview of lithosphere, solid non-living Earth, materials, cycles, plate tectonic and geomorphic processes; and history, including interactions with and history of hydrosphere, atmosphere and biosphere, and methods of analysis. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May not be repeated for credit. Equivalent to GGS 657.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**GEOL 700: Comprehensive Exam.** 1 credit.
Preparation for and completion of written comprehensive exam within AOE's department. The comprehensive exam is given as part of the degree requirements in lieu of writing a master's thesis. Instructor should be the chair of the examination committee. The exam committee will specify exam content. Notes: No more than 1 credit of GEOL 700 may be applied toward the master's degree. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree for a maximum 2 credits.

**Recommended Prerequisite:** At least 15 graduate credits, approved project proposal, and permission of major advisor or chair of the examination committee.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**GEOL 792: Seminar in Earth Systems Science, Geology, & Earth Science.** 1 credit.
Capstone experience that includes discussion of scientific articles and attending seminars. Seminars presented by outside experts, faculty, and students. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** 15 Graduate Credits including GEOL 601 or equivalent, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**GEOL 798: Master's Research Project in Earth Systems Science.** 1-6 credits.
Experimental, observational, literature-based, or theoretical research project chosen and completed under guidance of faculty member. Proposal required before enrollment. Comprehensive technical report acceptable to student's committee required for completion. Notes: No more than 6 credits of GEOL 798 may be applied to master's degree. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** 15 graduate credits, approved project or thesis proposal, and permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**GEOL 799: Master's Thesis in Earth Systems Science.** 1-6 credits.
Experimental, observational, or theoretical research under major advisor's supervision that culminates in production of thesis. Thesis work should be potentially publishable. Offered by Atmospheric/Oceanic/Earth Sci (p. 614). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Approved thesis proposal by thesis committee, and permission of major advisor or instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**German (GERM)**

**100 Level Courses**

**GERM 101: Elementary German I.** 3 credits.
Designed for students with no knowledge of German. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for GERM 101 and GERM 105 or 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to GERM 110.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GERM 102: Elementary German II.** 3 credits.
Continuation of GERM 101. Notes: Students may not receive credit for GERM 102 and GERM 105 or 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to GERM 110.

**Recommended Prerequisite:** GERM 101.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**200 Level Courses**

**GERM 201: Intermediate German I.** 3 credits.
Further development of skills in listening, speaking, reading, and writing. Notes: GERM 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** GERM 102, GERM 110, appropriate placement score, or permission of department.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

**GERM 202: Intermediate German II.** 3 credits.
Applies skills to reading, composition, and discussion. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** GERM 201.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**300 Level Courses**

**GERM 301: Culture and Civilization.** 3 credits.
Covers development of German civilization from 18th century to present. Includes German cultural contributions to world civilization. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** 60 hours or Permission of Instructor.

**Schedule Type:** Lecture

**Grading:**
GERM 308: Translation of Texts. 3 credits. Introduces principles and techniques of translation. Translation of texts from the natural and social sciences, current events, and contemporary culture. Notes: Translations mainly from German into English. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** GERM 202 or equivalent, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

---

GERM 318: Readings in Poetry (Topic Varies). 3 credits. Intensive reading of German poetry in its historical context. Studies genre characteristics and development. Types of poetry studied vary. Notes:

**Recommended Prerequisite:** GERM 202 or equivalent, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

---

GERM 310: Conversation and Composition. 3 credits. Develops fluency in speaking and proficiency in writing German through discussion, reports, and compositions based on texts dealing with contemporary events and issues. Notes: Not for native speakers of German. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** GERM 202 or equivalent, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

---

GERM 312: German for the Business World. 3 credits. Introduces terminology and structural features of business German. Emphasizes acquiring vocabulary and developing facility in reading German business articles and correspondence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** GERM 202 or equivalent, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

---

GERM 315: German for the Global World. 3 credits. Examines famous cities, such as Berlin, Nuremberg, Vienna, and Weimar, in their cultural and historical context. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** GERM 202 or permission of instructor

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German, Title varies by section and/or semester

---

GERM 325: Major Writers. 3 credits. Works of major German, Austrian, and Swiss writers in translation. Notes: Writers studied vary. May be repeated when topic is different with permission of department. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Mason Core:** Literature (p. 137)

**Recommended Prerequisite:** ENGL 101/ENGH 101 or equivalent or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

---

GERM 329: Representations of the Holocaust. 3 credits. Examines the Holocaust through film, literature, autobiography and museum culture. Students critically discuss causes of the Holocaust in Nazi Germany and explore its impact on German, Austrian and American culture. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in English

---

GERM 340: Topics in German Literature and Film. 3 credits. Topics in German literature and film from Goethe to the present. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** GERM 202 or equivalent, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German, Title varies by section and/or semester

---

GERM 355: Readings in Poetry (Topic Varies). 3 credits. Intensive reading of German poetry in its historical context. Studies genre characteristics and development. Types of poetry studied vary. Notes:
May be repeated for credit when subject is different, with permission of department. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** GERM 202 or equivalent, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German, Title varies by section and/or semester

**GERM 365: Topics in German History and Culture.** 3 credits.
Studies German narrative prose, such as autobiographical texts, fairy tales, short stories, film, and other forms of (artistic) expression in their historical context. Topics to be studied vary. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** GERM 202 or equivalent, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German, Title varies by section and/or semester

**GERM 370: German Through the Arts.** 3 credits.
Focuses on advanced-level language development through the investigation of German arts (film, music, theater, paintings, etc.) in their historical and cultural contexts. Oral and written competence achieved by means of integrated vocabulary and grammar study in content-based instruction. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** GERM 202 or equivalent, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

**400 Level Courses**

**GERM 415: Advanced Grammar and Style.** 3 credits.
Studies syntax, idiomatic features, and levels of style. Extensive practice in different types of written expression. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** 15 hours of GERM or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

**GERM 418: Advanced Composition.** 3 credits.
Develops proficiency in writing German through intensive practice in preparing guided and original compositions. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 15 hours of GERM or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

**GERM 440: The Literature of Romanticism.** 3 credits.
Major works of Enlightenment, Sturm und Drang, Classicism, and early Romanticism. Emphasizes drama and poetry by Goethe and Schiller, with additional works by Lessing, Kleist, and other important writers of the era. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** 15 hours of GERM or Permission of Instructor. Must have satisfactorily completed GERM 440 or 441.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

**GERM 442: The Age of Goethe.** 3 credits.
German Romantic poetry and prose. Background and some theory included. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** 15 hours of GERM or Permission of Instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German

**GERM 444: The Literature of Romanticism.** 3 credits.
German Romantic poetry and prose. Background and some theory included. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** 15 hours of GERM or Permission of Instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in German
GERM 450: Modern Literature: 1880-1925. 3 credits.
Literature of Naturalism, Impressionism, and Expressionism in Germany, Austria, and Switzerland. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in German

GERM 451: Modern Literature: 1925 to the Present. 3 credits.
Literary trends since 1925 in Germany, Austria, and Switzerland. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GERM 480: Special Topics. 3 credits.
Special topics on language, literature, or culture by theme, approach, or era. Notes: May be repeated for credit with permission of department. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: 15 hours of GERM or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in German, Title varies by section and/or semester

Global Affairs (GLOA)

100 Level Courses
GLOA 101: Introduction to Global Affairs. 3 credits.
Surveys wide range of global topics: previous periods of globalization, international organizations and law, transnational corporations and global economy, immigration and refugees, world environmental concerns, world culture, war and peace, paradoxical presence of nationalism and fundamentalism in global world, and antiglobalization movement. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses
GLOA 305: Global Affairs College-to-Career. 1 credit.
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in Global Affairs. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit. Equivalent to UNIV 420.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses
GLOA 400: Global Affairs Capstone. 3 credits.
Students draw from interdisciplinary core and concentration coursework in order to synthesize, compare and consolidate the various approaches and theories explored throughout the major through a focus on a pressing global issue. Additionally, course is designed to further develop research, writing, presentation, and organizational skills. Offered by Humanities & Social Sciences (p. 298). May be repeated within the term for a maximum 6 credits.

Mason Core: Capstone (p. 137)

Recommended Prerequisite: Completion of GLOA 101 or SOCI 120 and 18 credits in major.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GLOA 450: Topics in Global Affairs. 1-3 credits.
Selected topics in global affairs. Content varies. Notes: May be repeated for credit when topic is different. Offered by Humanities & Social Sciences (p. 298). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: GLOA 101 or SOCI 120.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GLOA 450: Topics in Global Affairs. 1-3 credits.
Selected topics in global affairs. Content varies. Notes: May be repeated for credit when topic is different. Offered by Humanities & Social Sciences (p. 298). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: GLOA 101 or SOCI 120.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GLOA 490: Independent Study in Global Affairs. 1-6 credits.
Reading or research on specific topic related to globalization, under direction of faculty member. Notes: At least one written paper required. Course may involve combination of reading assignments, tutorials, presentations, or off-campus activities. Offered by Humanities & Social Sciences (p. 298). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Global Affairs majors with 90 credits, GLOA 101, and permission of instructor.

Schedule Type: Independent Study
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GLOA 491: Honors Seminar in Global Affairs. 3 credits.
Emphasizes an interdisciplinary approach to the study of global affairs. Covers a variety of topics, including consideration of economic, political, and cultural forces at work in the complex interactions among global processes. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

Recommended Prerequisite: Admission to Global Affairs honors in the major.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GLOA 492: Honors Research Project in Global Affairs. 3 credits.
Honors-level research on specialized topic in Global Affairs culminating in substantial paper and oral presentation. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

Recommended Prerequisite: Completion of GLOA 491 with minimum grade of B.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GLOA 495: Global Experiential Learning. 1-18 credits.
On-the-job training in transnational or international fields through approved internship programs. Notes: Enrollment and credits controlled by Global Affairs Program. Contact Global Affairs Program one semester before planned enrollment. Offered by Humanities & Social Sciences (p. 298). May be repeated within the term.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GLOA 498: Global Politics Fellow. 0 credits.
The Global Politics Fellows program is a 15 credit academic program for selected students majoring in Global Affairs or Government and International Politics and Public Administration. This course indicates participation in the program. Offered by Humanities & Social Sciences (p. 298). May be repeated within the degree for a maximum 0 credits.

Recommended Prerequisite: Acceptance into Global Policy Fellows Program.

Registration Restrictions:
Enrollment is limited to students with a major in Global Affairs.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

500 Level Courses

GLOA 599: Issues in Global Affairs. 3 credits.
Studies current issues and debates in global affairs. Notes: May be repeated for credit when topic is different. Offered by Humanities & Social Sciences (p. 298). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduates, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

GLOA 600: Global Competencies. 3 credits.
Explores the nature of globalization. Students will understand the characteristics of the current global system; be familiar with key global issues and debates; have an advanced understanding of and appreciation for organizations, languages, cultures in many global contexts; and be better habituated to thinking across disciplinary lines. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GLOA 605: Interdisciplinary Research Methods. 3 credits.
Designed to provide students with an overview of basic techniques in quantitative and qualitative methods with special attention to epistemological and ethical concerns in global studies research. Course includes a discussion of the theoretical assumptions that shape research questions and design, practical exercises in research techniques, and analysis of methodology in practice. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GLOA 610: Economic Globalization and Development. 3 credits.
Focuses on the intersection of countries and firms in the arenas of international trade, investment and finance, as the lenses into...
understanding better today's "global" economy: countries of differing levels of economic development and economic system structure, factors of monetary union and currency disequilibria, trade liberalization or protectionism, market entry, cross-border variables, risk and relations. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GLOA 620: Human Systems. 3 credits.
Examines the human dimensions relative to international educational systems and their relationship to basic education and higher education policy, research policy, science and technology, culture, language, social justice, equity, conflict and peace, human resources and national development. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GLOA 690: Independent Study. 3 credits.
Reading or research on specific topic related to globalization, under directions of faculty member. Notes: At least one written paper required. Course may involve combination of reading assignments, tutorials, presentations, or off-campus activities. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

Recommended Prerequisite: 12 MA credits and permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students in the LA-MA-GLOA program.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

700 Level Courses

GLOA 710: Seminar Abroad. 3 credits.
Intensive program in a foreign setting focusing on a deep overview of the research specialization of the supervising faculty member. Required pre-departure component to set the intellectual, logistical and cultural terms of the abroad period. Locations vary from year to year. Notes: May be repeated with permission of program. Offered by Humanities & Social Sciences (p. 298). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GLOA 720: Capstone Research Seminar. 3 credits.
Provides students with the opportunity to engage in significant original research an analysis of a topic in global affairs. Topics vary from year to year. Offered by Humanities & Social Sciences (p. 298). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Global and Community Health (GCH)

200 Level Courses

GCH 205: Global Health. 3 credits.
This course examines the biological and social aspects of major international health issues, especially in the areas of infectious disease, nutrition, and environmental health. Other topics include population groups with special risks, policies and programs designed to reduce health inequalities, and basic methods used to study global health. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GCH 300: Introduction to Public Health. 3 credits.
Explores the principles and foundations of public health and its practice in the United States. Emphasizes the public health system's contributions to improving individual, community, and population health. Offered by Global and Community Health (p. 239). May not be repeated for credit.
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 350: Health Promotion and Education.** 3 credits.
Introduces the principles of health promotion and education, including history; philosophical and theoretical foundations; professional preparation, ethics, and responsibilities; and work settings. Assessment of health information/sources and the development of effective health promotion and education strategies for diverse populations are emphasized. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 360: Health and Environment.** 3 credits.
Examines principles and methods, risk factors, prevention and control, and policies related to the aspects of human health determined by biological, physical, and chemical factors in the environment at the local, regional, and global levels. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 370: Sexuality and Human Behavior.** 3 credits.
Introduction to human sexual behavior with an emphasis on the interaction between psychological, social, and biological factors. Topics include sexual differentiation and development, sexually transmitted infections and HIV, sexual orientation, patterns of sexual behavior, and the sexual health of individuals, communities, and global populations. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 376: Health Ethics, Leadership, and Advocacy.** 3 credits.
Examines legal and ethical issues in public health practice and the skills necessary for effective leadership. Includes personal and organizational ethics, management and leadership styles, and public health advocacy. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Prerequisite:** GCH 350.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 380: Public Health Research Methods.** 3 credits.
Emphasizes the formation of public health research questions and selection of appropriate study designs to address them. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Registration Restrictions:**
**Required Prerequisite:** GCH 300C.
**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

**GCH 405: Global Health Interventions: History and Systems. 3 credits.**
Examines the history, development, and implementation of international health policies and programs, with an emphasis on maternal and child health, undernutrition, and infectious diseases. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Prerequisite:** GCH 205

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 406: Global Health Interventions: Emerging Issues. 3 credits.**
Examines strategies for addressing emerging global health issues, with an emphasis on noncommunicable diseases, aging, mental health, and injuries. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Prerequisite:** GCH 205.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 411: Health Program Planning and Evaluation. 3 credits.**
Addresses planning, implementation and evaluation of highly effective health programs. Emphasis is placed on using evidence-based approaches to program design and evaluation and working productively with communities. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Registration Restrictions:**
**Required Prerequisites:** GCH 310\(^C\) and 380\(^C\).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 412: Fundamentals of Epidemiology. 3 credits.**
Explores health research methods for measuring population health, designing and implementing observational and experimental studies, reading health science publications, and applying research findings to global and community health. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Prerequisite:** One of the following: GCH 335, STAT 250, BIOL 214, OM 210, PSYC 300, or SOCI 313.

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Community Health, Global Health or Public Health.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 426: Global Emerging Infectious Diseases. 3 credits.**
Examines emerging infectious diseases with an emphasis on prevention and control interventions at the local through global levels. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 430: Community Health Systems and Agencies. 3 credits.**
Introduces students to local, state, and national community health systems and agencies. Topics include the historical impact of community health systems and agencies, the influence of health advocacy groups; the relationship between human rights and health; and the need for collaboration between groups advocating for optimum human health. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Corequisite:** GCH 411.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 445: Social Determinants of Health. 3 credits.**
Examines the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities. Offered by Global and Community Health (p. 239). May not be repeated for credit. Equivalent to SOCW 445.

**Recommended Prerequisite:** 45 credits or permission of the instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 450: Culture, Sexuality and the Global AIDS Epidemic. 3 credits.**
Examines how the cultural values and mores regarding sexuality shape HIV/AIDS social policy and how these values and mores facilitate and hinder prevention and care efforts. Also examines several sexuality-related topics that interface with culture (e.g., gender, the sex industry, homosexuality) and the effectiveness of prevention and care initiatives around such issues as condom use, blood donation restrictions, immigration laws, sex education, and HIV testing. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 462: Health Promotion across the Lifespan. 3 credits.**
Addresses health maintenance issues in humans from birth to death, emphasizing prevention. Compares and contrasts prevention of acute and chronic illnesses. Analyzes health communication approaches for
effective translation of evidence-based. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Prerequisite:** GCH 332 GCH 350

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 465:** Community Health Capstone. 3 credits.
Analyzes current public health issues, and policies and program used to address these issues. Integrates and applies skills and knowledge learned across the community health curriculum to develop a program that addresses a current public health issue. Develops professional skills necessary for the field of public health. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Mason Core:** Capstone (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Registration Restrictions:**
**Required Prerequisite:** GCH 380C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 480:** Health Maintenance and Health Aspects of Aging. 3 credits.
Studies physiological and psychological factors that influence health and have implications for preventive measures in disease and health disorders. Examines nutrition, nature of health problems, and methods of assessing physical and psychological needs. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 491:** Study Abroad in Public Health. 3 credits.
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary. Offered by Global and Community Health (p. 239). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 494:** Special Topics in Global and Community Health. 3 credits.
Selected topics analyzing specialized areas in global and community health. Notes: Content varies. Lecture, seminar, laboratory, workshops. Offered by Global and Community Health (p. 239). May be repeated within the term for a maximum 12 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**GCH 497:** Pre-Internship Seminar. 1 credit.
Prepares students for future professional roles including the GCH 498 internship. The coursework will include resume and cover letter writing, interviewing skills, networking, communications, professionalism, job search strategies, and relationship dynamics in the workplace. Students will select and prepare for a possible GCH internship. Notes: This course must be completed with a grade of B or better in order to be considered for enrollment in GCH 498 Community Health Internship. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Prerequisite:** GCH 300 and completion of 60 credit hours, or instructor’s permission.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GCH 498:** Global and Community Health Internship. 3.6 credits.
Provides advanced students with the opportunity to apply community health knowledge while working under the supervision of a community preceptor in a local health organization. Students submit an application to the GCH internship coordinator the semester prior to enrollment for review. Students who have demonstrated academic excellence will receive priority internship placement. Notes: A criminal background check and proof of vaccination status may be required of students prior to beginning an internship. This course provides experiential learning in a community health organization under the direction of a faculty advisor and a preceptor in the community health organization. Students are expected to understand the roles and functions of the community health organization and complete a project approved by the faculty advisor and the preceptor. Offered by Global and Community Health (p. 239). May be repeated within the degree for a maximum 6 credits.

**Recommended Corequisite:** GCH 497 with B or better.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**GCH 499:** Independent Study in Global and Community Health. 1-6 credits.
Provides individual study of a particular problem area in global and community health research, theory development, or education under the direction of faculty. Offered by Global and Community Health (p. 239). May be repeated within the term for a maximum 6 credits.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**500 Level Courses**

**GCH 515:** Lesbian, Gay, Bisexual, Transgender, and Queer Health. 3 credits.
Examines health status and health disparities among lesbian, gay, bisexual, transgender, and queer (LGBTQ) communities across the lifespan. Measurement and methodological considerations in LGBTQ health research, as well as health-related interventions targeting LGBTQ populations will be emphasized. Notes: Offered every other year. Upper level undergraduates interested in taking this course are encouraged to contact the instructor. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 535: Public Health Preparedness and Response. 3 credits.
Examines principles and practices of preparedness for and response to all-hazards, with a focus in the US and select global applications. Provides an overview of roles of public health workers and organizations in emergencies. Discusses significance of collaborating and coordinating with emergency management agencies and other stakeholders. Also reviews at-risk individuals, behavioral health, ethical, and legal issues during public health emergencies. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 543: Global Health. 3 credits.
Examines the major infectious, nutritional, noncommunicable, neuropsychiatric, and other causes of morbidity, mortality, and disability in each world region. Explores sociocultural, economic, political, biological, and environmental factors that contribute to global and community health. Notes: Lecture, discussion. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 560: Environmental Health. 3 credits.
Examines principles and methods, risk factors, prevention and control, and policies related to the aspects of human health determined by biological, physical, and chemical factors in the environment at the local, regional, and global levels. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 565: Public Health Toxicology. 3 credits.
Focuses on the general mechanisms of toxicity and direct and indirect effects of major environmental and occupational agents. Considers the genetic, physiologic, and psychosocial factors that affect susceptibility to adverse health outcomes associated with environmental or occupational hazard exposure. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Overview of HIV disease, including retrospective and current concepts and analyses, global and societal effect, and cutting-edge research. Examines development of therapeutic tools and skills to educate, reduce risks, control infection, and affect care and healing of client, family, and community, and issues of increasing dilemma for health care professionals. Offered by Global and Community Health (p. 239). May not be repeated for credit. Equivalent to NURS 571.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 591: Study Abroad in Public Health. 3 credits.
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary. Offered by Global and Community Health (p. 239). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 594: Special Topics in Global and Community Health. 3 credits.
Selected topics analyzing specialized areas in health care. Notes: Content varies. Lecture, seminar, laboratory, and workshops. Offered by Global and Community Health (p. 239). May be repeated within the degree for a maximum 6 credits. Equivalent to HAP 594.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

600 Level Courses

GCH 600: Health Promotion Methods. 3 credits.
Fundamental principles and practices of public health promotion and education, including historical origins; professional responsibilities; ethics, health behavior and learning theories; models for planning, implementing and evaluating programs; health literacy; public health advocacy; and the development, selection and implementation of effective instructional materials, methods, and interventions. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 601: Introduction to Biostatistics. 3 credits.
Applies selected biostatistics techniques to public health and health system management issues. Includes univariate and bivariate statistics, and regression analysis. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 602: Global Health Issues Related to Violence. 3 credits.
Explores worldwide view of violence and its impact on health. Examines biological, psychological, and social determinants of violence. The epidemiology of violence is examined with special attention to collective violence, youth violence, abuse and neglect of children and the elderly, intimate partners, sexual violence, self-directed violence, and transgenerational violence. Preventive approaches attempted to help reduce the prevalence of violence will be addressed. Notes: GCH 602 will be offered in the spring of odd years. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Recommended Prerequisite: Admission to a graduate program or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 607: Evidence-Based Public Health Practice. 3 credits.
 Examines strategies for implementing evidence-based approaches in public health practice by applying principles of scientific reasoning and the systematic use of data. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 609: Community Assessment and Partnerships. 3 credits.
Examines strategies for conducting community assessments using community-based participatory approaches to identify factors affecting the health and well-being of population and community health. Offered by Global and Community Health (p. 239). May not be repeated for credit.
**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 610: Health Behavior Theory.** 3 credits.
Introduces students to the fundamentals of social and behavioral sciences, emphasizing current health behavior theories and models. Students develop an understanding of the theoretical and scientific basis of health promotion/health education interventions and develop community need and asset assessment skills. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 611: Health Program Planning and Evaluation.** 3 credits.
Addresses the process of program planning, development, and fundamental evaluation principles, emphasizing health promotion programs. The focus is on development of clear and concise objectives leading to the design of effective primary, secondary, and tertiary prevention strategies. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: GCH 600B.
* May be taken concurrently.
B- Requires minimum grade of B-

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 612: Interventions in Public Health.** 3 credits.
Application of intervention mapping to the design of theory-based interventions for target populations; collaboration with communities to design and implement interventions; selection of evidence-based interventions (EBIs); adaptation of EBIs for new populations; dissemination of EBIs; and cultural and ethical issues related to intervention development, implementation, evaluation, and sustainability. Notes: There are no prerequisites for the course. Students may find completion of GCH 600 or GCH 610 to be beneficial preparation for the course. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 618: Environmental and Occupational Risk Assessment.** 3 credits.
Focuses on how environmental and occupational health risks are identified and quantitatively characterized. Introduces risk communication strategies for technical and non-technical audiences. Introduces students to the development of testable models of chemical exposure. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Corequisite:** GCH 560.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 622: Mental Health: A Global Perspective.** 3 credits.
An introduction to mental health and mental disorders; a critical view of national and international classification of disorders; an introduction to public health perspectives on mental health and mental disorders; and a review of cultural factors related to public health dilemmas and services, locally, regionally and in the global community, from a bio-psycho-social perspective. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 626: Migrant Health.** 3 credits.
Examines principles and methods for addressing the health concerns of migrant and mobile populations, including immigrants, refugees, asylum seekers, internal migrants, and internally displaced persons. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 628: Refugee Health.** 3 credits.
Intensive course aimed at addressing the specific health care problems and needs of refugees and internally displaced persons worldwide. The provision of basic health requirements for that population, and the coordination of care among the agencies concerned with them. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 632: SAS for Health Research.** 3 credits.
Introduces students to data management and analysis in the SAS statistical package environment. Guides students through the selection and execution of appropriate analyses for different types of data. Teaches students appropriate written presentation and interpretation of data analysis results. Examples focus on applications to public health research. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Prerequisite:** Advanced undergraduate level statistics course or introductory level graduate statistics course.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 640: Global Infectious Diseases.** 3 credits.
Examines principles and methods for the prevention and control of infectious and parasitic diseases of global importance, including malaria, HIV/AIDS, tuberculosis, influenza, helminthic infections, emerging infections, and others. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 645: U.S. and Global Public Health Systems.** 3 credits.
Examines the organization, financing, and delivery of health services for individuals and populations in the United States and across the globe. Compares international health systems and policies. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 650: Global Non-Communicable Diseases.** 3 credits.
Examines principles and methods for the prevention and control of NCDs of global importance, including cardiovascular diseases, cancer, COPD, diabetes, dementias, and others. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 651: Behavioral Research Methods.** 3 credits.
Explores quantitative and qualitative research methods, principles and techniques necessary for implementation of health science research. Offered by Global and Community Health (p. 239). May not be repeated for credit. Equivalent to RHBS 651.
**Recommended Corequisite:** GCH 601 or graduate course in applied statistics.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 690: Independent Study.** 1-3 credits.
In-depth studies of selected area of health science theory, research, or practice under direction of faculty. Offered by Global and Community Health (p. 239). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 691: Project Management in Public Health.** 3 credits.
Course examines project management roles and environments, the project lifecycle and various techniques of work planning, and control and evaluation to achieve project objectives. Emphasizes leadership, communication, grant writing and ethics. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 722: Infectious Disease Epidemiology.** 3 credits.
Focuses on the epidemiology of infectious and parasitic diseases. Emphasizes study design and data analysis to support the prevention and control of communicable diseases. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: GCH 712
- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 726: Advanced Methods in Epidemiology.** 3 credits.
Develops epidemiological skills through the study and exploration of special topics in epidemiology. Focuses on epidemiological methods and analysis, critical review of the literature, and scientific writing. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: GCH 712
- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 732: Chronic Disease Epidemiology.** 3 credits.
Focuses on the epidemiology of chronic diseases, including cancers, cardiovascular and lung diseases, and mental health disorders. Emphasizes study design, critical reading, and public health approaches to disease control, such as surveillance and screening. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: GCH 712
- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**GCH 712: Introduction to Epidemiology.** 3 credits.
Explores epidemiological methods for measuring population health, designing and implementing observational and experimental studies, critically reading the public health literature, and applying research findings to global and community health. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
GCH 742: Behavioral Epidemiology. 3 credits.
Focuses on applying epidemiological principles to the study of behavior and human health, emphasizing the role of behavior in public health, determinants of behavior, and research methods for studying health and disease in relation to behavior. Notes: Offered every other year. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: GCH 712B.
B- Requires minimum grade of B-.
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 752: Nutritional Epidemiology. 3 credits.
Focuses on the examination of the methodologies of dietary assessment and their application to design, conduct, analysis, and interpretation of epidemiologic studies related to nutrition. Introduces the practical application of nutritional epidemiology to health programs and policy. Notes: Offered every other year. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: GCH 712B.
B- Requires minimum grade of B-.
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 762: Environmental Epidemiology. 3 credits.
Focuses on applying epidemiological principles to the study of the environment exposures and human health, emphasizing research methods and data analysis, critical review of research, communication of research results, and applications to public health. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: GCH 712B.
B- Requires minimum grade of B-.
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 772: Social Epidemiology. 3 credits.
Focuses on applying epidemiological principles to the study of social factors and human health. Prepares students to measure population-level social determinants of health and quantitatively evaluate their relationship with health and disease. Requires students to translate information and analyses into summaries suitable for technical and non-technical audiences. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: GCH 712B.
B- Requires minimum grade of B-.
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 780: Practicum Seminar. 0 credits.
Provides students with guidance and preparation for engaging in the public health practicum. Notes: This course should be taken one semester prior to enrollment in the practicum course. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Special scale. (p. 82)

GCH 782: International Research Ethics and Methods. 3 credits.
Prepares students to conduct global and community health research. Discusses ethical issues in international health research. Develops plans for identifying a research project, collecting and analyzing data, and reporting results of international health research. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (GCH 712B and 601B).
B- Requires minimum grade of B-.
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GCH 790: Practicum in Public Health. 3 credits.
The practicum provides students with an in-depth supervised experience in an approved public health organization. The practicum will require students to complete a project related to an actual public health issue that is a focus within the organization. Offered by Global and Community Health (p. 239). May not be repeated for credit.

Recommended Prerequisite: Students must be enrolled in the MPH program in good standing. Must have completed GCH 780 and 21 credit hours in the MPH program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
**GCH 795: Advanced Special Topics in Global and Community Health.** 1-3 credits.
Advanced special topics course to address in-depth study of contemporary areas of global and community health insufficiently covered in other courses. Notes: Fulfills elective requirement for MS in global health degree and global health certificate program. Topics vary. May take up to 6 credits within their degree program. Offered by Global and Community Health (p. 239). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Must be enrolled in a graduate program and have permission of the instructor.

**Registration Restrictions:**
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 799: Thesis Research.** 1-6 credits.
Thesis research and writing. Offered by Global and Community Health (p. 239). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Completion of 30 hours in the Master of Science program.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

---

**800 Level Courses**

**GCH 804: Advanced Quantitative Data Analysis for Health Care Research I.** 3 credits.
Examines regression modeling including ANOVA techniques, linear regression and logistic regression. Using public health and health care research data, students will apply statistical methods and interpret output from a statistical computing package. Offered by Global and Community Health (p. 239). May not be repeated for credit. Equivalent to NURS 804.

**Recommended Prerequisite:** A graduate-level statistics course.

**Registration Restrictions:**
Enrollment limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 805: Advanced Quantitative Data Analysis for Health Care Research II.** 3 credits.
Examines data analysis techniques for data management, data cleaning, exploratory data analysis, and statistical modeling, and applies these approaches to public health data using a statistical computing package. Introduces advanced statistical analysis techniques including Poisson regression, longitudinal data analysis, survival analysis, and analysis of survey data. Offered by Global and Community Health (p. 239). May not be repeated for credit. Equivalent to NURS 805.

**Recommended Prerequisite:** GCH 804 or NURS 804, or an equivalent multivariate statistics course.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 806: Advanced Multivariate Statistics and Data Analysis for Health Care Research.** 3 credits.
Examines canonical correlation, discriminant analysis, factor analysis and causal analysis (path models and structural equation modeling). Students analyze and interpret data using these statistical techniques. Offered by Global and Community Health (p. 239). May not be repeated for credit. Equivalent to NURS 806.

**Recommended Prerequisite:** GCH 805 or NURS 805, or equivalent multivariate statistics course.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GCH 807: Measurement Theories and Applications in Health Care Research.** 3 credits.
Theories, principles, and techniques presented as foundation for the development and evaluation of instruments for use in health care research. Includes review of statistical techniques required for understanding measurement theory, reliability, validity, item analysis, and instrument construction. Students required to design, construct, administer, analyze, and evaluate an original instrument or evaluate an existing instrument in health care research. Notes: Completion of GCH 805/NURS 805 or GCH 806/NURS 806 is highly recommended. Offered by Global and Community Health (p. 239). May not be repeated for credit.

**Recommended Prerequisite:** GCH 805/NURS 805 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Government (GOVT)**

**100 Level Courses**

**GOVT 101: Democratic Theory and Practice.** 3 credits.
Comparative exploration; topics include contemporary analysis of the meanings of liberty, equality, representation, property rights, voting rights, and civil responsibilities. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 103: Introduction to American Government.** 3 credits.
An overview of key organizing principles of American government, including its institutions, history, and various aspects of political participation. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 132: Introduction to International Politics.** 3 credits.
Nature of international politics, approaches to study of international politics, state and nonstate actors in international system, patterns of action and interaction between nation-states, international institutions, and major global issues. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Mason Core:** Global Understanding (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 133:**

**GOVT 300:** Research Methods and Analysis. 4 credits.
Emphasizes asking clear, researchable questions and using appropriate evidence to answer them. Introduces broad range of evidence including quantitative and qualitative information. Studies design and analysis of surveys, government archives, case studies, and interpretations of events in journals. Examines ethical implications of information technologies. Notes: Required for all majors in government and international politics, and public administration. Strongly recommended before or during first semester of enrolling in 300-level courses. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Mason Core:** Information Technology: With Ethics (p. 137)

**Recommended Prerequisite:** 60 hours or permission of instructor.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 301: Public Law and the Judicial Process.** 3 credits.
American judicial organization and operation, role of the Supreme Court in policy formation, and selected constitutional principles. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to CRIM 301.

**Recommended Prerequisite:** GOVT 103.
GOVT 302: American Political Development. 3 credits.
Examines American political development, both in itself and compared to other nations. Addresses the extent to which the United States has or has not been exceptional in its development as a nation state. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 304: American State and Local Government. 3 credits.
Nature, organization, functions, and problems of American state and local governments. Notes: Students may not receive credit for GOVT 204 and 304. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 305: Contemporary American Federalism. 3 credits.
Legal, administrative, fiscal, and political dimensions of evolving American federalism. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 307: Legislative Behavior. 3 credits.
Organization, processes, functions, and roles of legislature and U.S. Congress members. Topics include state legislatures and cross-national comparisons as time and resources permit. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 308: The American Presidency. 3 credits.
Survey of modern presidency, including constitutional origins of office, growth and influence of White House staff, Cabinet, presidential appointees and control of executive branch, relations with Congress, and domestic and national security policy making. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 309: Government and Politics of Metropolitan Areas. 3 credits.
Government, politics, and problems of metropolitan centers and surrounding areas. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 311: Public Opinion and Electoral Behavior. 3 credits.
Studies actions of voters, candidates, and political parties in relation to the expression of relevant public opinion in a democratic system. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103 and 300.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 312: Political Parties and Campaigns. 3 credits.
Characteristics and functions of political parties, influence of parties and other political forces on electoral decisions, and emphasis on parties’ inability or ability to hold government accountable to citizens. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 313: Political Psychology. 3 credits.
Examines political topics through a psychological lens. Review of theoretical approaches, methods and themes. Political psychology has been used to explore the motivation of presidents, why some groups will seek to kill off other groups through acts of genocide, how the authoritarian state can emerge, and what goes through your mind as you go to cast your ballot on Election Day. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Schedule Type: Seminar

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 318: Interest Groups, Lobbying, and the Political Process. 3 credits.
Role, internal operations, strategies, and activities of interest groups. Evaluates ability of these groups to enable citizens to influence or control government and enhance democratic process. Considers conditions under which social movements become, or fail to become, effective interest groups. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 319: Issues in Government and Politics.** 1-3 credits.
Studies special issues relevant to government and politics. Topics announced in advance. Examples include politics and the arts, ethnic conflict and the political system, gender politics, and changing dynamics in political institutions. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** GOVT 103.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 322: International Relations Theory.** 3 credits.
Advanced inquiry into international relations. Studies theories, concepts of international relations, and major forces and issues in international politics. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 132 or 133.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 323: Classical Western Political Theory.** 3 credits.
Lectures, discussions of developments in Western tradition of political thought from time of Greek city-state to late medieval Christendom. Topics include nature and purpose of politics, relationship between individual and state, political significance of religion and tradition, and concept of natural law. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to PHIL 323.

**Recommended Prerequisite:** GOVT 101, or three credits of Philosophy.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 324: Modern Western Political Theory.** 3 credits.
Lectures, discussions of developments in Western tradition of political thought from Renaissance to mid-19th century. Topics include rise of individualism in political theory, early developments in social contact theory, theories of radical popular sovereignty, and early criticisms of liberal theory. Theory and history of political community, governance, and development as understood around the world, including China, Japan, India, Africa, Latin America, and the Islamic world; relations of power in modern conceptions of the political; comparative visions of world order in the context of emerging global powers. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Specialized Designation:** Non-Western Culture

**Recommended Prerequisite:** GOVT 101 or 133.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 329: Issues in Political Theories and Values.** 1-3 credits.
Studies special issues relevant to theoretical and value aspects of government and politics. Topics announced in advance. Examples include ethics and politics, ethics and environmental policy, changing perspectives on civil rights and liberties, religion and politics, and changing views of public space. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** GOVT 103.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 331: Government and Politics of Latin America.** 3 credits.
Contemporary political systems of Latin America, with emphasis on institutions, political processes, and political behavior. Presents case studies of several key Latin American politics; discusses problems of political development. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 132, 133.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 332: Government and Politics of the Middle East and North Africa.** 3 credits.
Societies of Middle East and North Africa and their response to impact of internal sociocultural-political determinants and external forces. Focuses on contemporary politics, ideologies, popular manifestations, institutions, and operations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.
Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 333: Government and Politics of Asia. 3 credits.
Government structures and political processes of Asian countries. Examines patterns of conflict and cooperation, and issues of economic development and political reform in rapidly changing world. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 334: Government and Politics of Europe. 3 credits.
Examines governance and political systems in Europe at the national and supranational levels, with emphasis on actors, institutions, processes, and behavior. Explores key policies in a variety of fields, such as social policy, migration, and economic and monetary union. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 337: Ethnic Politics in Western Europe and North America. 3 credits.
Studies resurgence of ethnic nationalism in industrial democracies of Western Europe and North America, and the comparative analysis of policy issues related to ethnonationalism. Case studies drawn from the industrial democracies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 338: Government and Politics of Russia. 3 credits.
Examines continuity and change in Russia’s Soviet era and post-Soviet era politics and international relations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Studies selected current political issues in industrial democracies of Western Europe and North America. Specific topics chosen each semester to reflect contemporary political concerns in these countries, but political process in advanced industrial countries is organizing principle throughout the course. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 103 or 133 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 340: Central Asian Politics. 3 credits.
Comparative examination of political change in Central Asia with attention to national identity formation, political economy, political conflict, political Islam, and democratization. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 341: Chinese Foreign Policy. 3 credits.
Discusses theories and practices of Chinese foreign policy decision making, which are then used to understand China's relations with United States, Japan, Russia, Europe, and its Asian neighbors, and China's policy in issues such as human rights, environmental protection, and nuclear nonproliferation. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 342: Diplomacy. 3 credits.
Origins of organized diplomacy: tasks, procedures, instruments, and problems of diplomacy. Emphasizes current, future roles of diplomacy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 343: International Political Economy. 3 credits.
Introduces international political economy. Examines interplay of economics and politics, and applies these to different issues. Focuses on issues of contemporary significance, with attention to historical issues and basic political and economic concepts. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.
Recommended Prerequisite: GOVT 132, 133; or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 344: American Foreign Policy. 3 credits.
Central issues surrounding the conduct of America's foreign relations, with special emphasis on structural and constitutional questions, national policy objectives abroad, and conduct of foreign policy in a democracy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 345: Islam and Politics. 3 credits.
Covers politics of religion in Muslim societies; history, ideology, and practices of key individuals, movements, and institutions; case studies of political Islam in the Middle East, Asia, Africa, and the West; plurality and diversity of political expression in Muslim world; nature of democracy in Islam; and Islamic state. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 346: American Security Policy. 3 credits.
Approaches U.S. National security policy from perspective of organization and implementation of specific policies. Applies theoretical concerns to historic cases to illuminate problems that continue to challenge country. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 347: International Security. 3 credits.
Explores enduring security problems and new developments. Examines effects of international system on defense policies of states, particularly tensions of world caught between emerging interdependence and national demands. Encourages development of critical-thinking and group and oral presentation skills. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 132.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 351: Administration in the Political System. 3 credits.
Administrative structures and processes in political setting of public management. Presents organization and administrative theory, critiques, and current practices; and examines impact of changes in social, political, and economic environment on concepts, models. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 103.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 353: Social Entrepreneurship. 3 credits.
Introduces students to the different steps that social entrepreneurs work through to drive social change: identifying problem to address, developing a strategy to address the social need, fundraising, growing the organization, tracking results, and maximizing impact. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Schedule Type: Seminar

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 354: Nonprofit Sector in Society. 3 credits.
Introduces students to the thousands of soup kitchens, shelters, health clinics, educational institutions, arts agencies, and other organizations that make up the U.S. nonprofit sector. Topics covered include: the internal structure and operation of nonprofits; the role of nonprofits in delivering services, advocating for particular points of view, and providing vehicles for caring and self-expression; and the partnerships that nonprofits form with donors, government agencies, and businesses to address social problems. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Schedule Type: Seminar

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 355: Public Personnel Administration. 3 credits.
Analyzes techniques and tools in human resource management including merit system, classification, compensation, evaluation, recruitment, and labor relations. Emphasizes current legal and policy issues in personnel administration, such as diversity and privatization. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 351.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 356: Public Budgeting and Finance. 3 credits.
Covers tools and techniques in budgeting and financial management in U.S. governments, including management of public financial institutions, budgetary process and reform, and relationship of public budgeting to national economic policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 351.
**GOVT 357: Urban Planning.** 3 credits.
Reviews spatial, policy, and administration principles that guide urban planning activities in the United States. Outlines differences between theory and practice and provides tools, methods, and perspectives commonly incorporated into practice of urban planning and policy analysis. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 351

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 358: Nonprofit Financial Planning.** 4 credits.
Provides understanding of social mission and entrepreneurial cross pressures underlying financial planning and accounting in nonprofit sector. Topics include revenue sources and projections, entrepreneurial techniques, and cost analysis for nonprofit and nongovernmental entities. Lectures, student case studies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 361: Introduction to Environmental Policy.** 3 credits.
Environmental politics and policy making since the 1970s. Primarily U.S. focus, with some discussion of global issues. Examines policy strategies and outcomes, ethical and economic debates, political controversies, lawmaking and enforcement, and role of key players. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to EVPP 361.

**Specialized Designation:** Green Leaf Course

**Recommended Prerequisite:** 30 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 362: Intermediate Environmental Policy.** 3 credits.
Examines environmental issues building on learning objectives from GOVT 361. Focuses on environmental and policy issues in the US and internationally, exploring the politics of nature and the interaction of environmental science and politics and resulting controversy. Risk and uncertainty loom large in most environmental issues. Covers "natural" disasters as well as direct "man-made" problems. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the degree for a maximum 12 credits. Equivalent to EVPP 362.

**Recommended Prerequisite:** EVPP 361 or GOVT 361 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 364: Public Policy Making.** 3 credits.
Processes, agencies, and politics involved in the proposal making, implementation, evaluation, and revision of U.S. public policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 103.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 365: State and Regional Public Policy.** 3 credits.
Examines public policy decisions that affect local and state jurisdictions in context of federal system of government. Examines context, substance, and impact of such policies as housing, transportation, land use, crime prevention, service delivery, and health care. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 366: Public Policy Analysis.** 3 credits.
Methods of public policy analysis, evaluation, and research. Studies design and development of alternative courses of government action and evaluation of results, and problems in applying systematic analysis to political issues. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 300.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 367: Money, Markets and Economic Policy.** 3 credits.
 Applies basic economic concepts and principles to issues facing the U.S. and global economies. Topics include productivity and economic growth, taxes, health care, globalization, income distribution and financial crises, with an emphasis on market structure, social institutions and the not-always rational behavior of investors and consumers. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to ECON 367.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 368: Tools for Economic Policy Analysis.** 3 credits.
This course outlines the economic framework for studying public policy, taking a more quantitative approach than GOVT 367. Topics include consumer and producer behavior under different market structures, how and why markets can fail to produce socially desirable outcomes, income distribution, and macroeconomic growth. Emphasizes using economic models to evaluate both market outcomes and policy interventions.
Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 367.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 398:** Study Abroad. 3 credits.
Study abroad. Course topics, content, and locations vary. Notes: GOVT 398 may only be applied to a major or minor with prior written approval from the department. A maximum of 6 credits may be applied to the BA in government and international politics, the BS in public administration, or any minor offered by the Schar School of Policy and Government. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 12 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 399:** Research Practicum. 1-3 credits.
Applies research methods in context of assisting with faculty research. Individualized sections taught by arrangement with full-time faculty. Methods adopted vary, but generally include library research, data collection, data analysis, and report construction. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** GOVT 300 and Permission of Instructor.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

---

**400 Level Courses**

**GOVT 400:** Issues in Political Analysis. 1-3 credits.
Studies special issues relevant to analytical approaches to studying government and politics. Topics announced in advance. Examples include advanced statistical methods, time series analysis, game theory, social network analysis, geographic information systems for politics, social science experiments, and causal inference. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt. May be repeated within the term for a maximum 9 credits. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

**Registration Restrictions:**
**Required Prerequisite:** GOVT 300.<sup>C</sup>

<sup>C</sup> Requires minimum grade of C.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**GOVT 407:** Law and Society. 3 credits.
Explores relationship between law and society, including concept of law; origin, development, and role of law in society; and relationship between law and social change. Assesses different approaches and methodologies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 103.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 422:** Constitutional Interpretation. 3 credits.
Examines Supreme Court's interpretation of constitutional powers of Congress, presidency, and judiciary. Includes examination of major decisions concerning state regulation, taxation, and interstate relations.
Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 103.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 423: Constitutional Law: Civil Rights and Liberties.** 3 credits.
Studies First Amendment freedoms of speech, press, assembly, association, and religion; right to privacy; and Fourteenth Amendment equal protection. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to CRIM 423.

**Recommended Prerequisite:** GOVT 103.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 427: Feminist Political Thought.** 3 credits.
Explores feminist political thought in historical context. Topics include feminist political movements, feminist critiques of political philosophy, and feminist contributions to political theory. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 101, WMST 200, 3 credits of PHIL, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 428: Advanced Democratic Theory.** 3 credits.
Explores various theoretical approaches to nature and justification of democracy. Topics may include liberal, communitarian, pluralist, and deliberative theories and their critics; constitutionalism; role of markets; and transnational democracy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 101; or one course in PHIL.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 430: Comparative Political Leadership.** 3 credits.
Comparative political leadership, relationships between political cultures and types of leadership, patterns of leadership recruitment, and linkages between political elites and citizenry. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 132, 133.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 433: Political Economy of East Asia.** 3 credits.
Discusses different theoretical perspectives of East Asian political economy; transformation of East Asia; and issues such as money, finance, trade, investment, environment, and energy. Focuses on issues of contemporary significance, but attention also given to history. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Specialized Designation:** Non-Western Culture

**Recommended Prerequisite:** GOVT 133 and 60 credits, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 434: Democracy in Global Perspective.** 3 credits.
Comparative study of structures and performance of democracies around the world since 1975. Examines growing influence of global forces such as economy, media, and culture in process of democratization. Examines select current elections. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 133.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 443: Law and Ethics of War.** 3 credits.
Explores sources of morality in armed conflict, and implications of such ideas for international relations. Examines content and philosophy of modern law of war. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 132.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 444: Issues in International Studies.** 1-3 credits.
Major issues in international systems, including international political economy and security. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** GOVT 132, 133.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**GOVT 445: Human Rights.** 3 credits.
Explores philosophical, legal, and political issues at heart of modern international human rights movement. Examines historical background legal architecture of modern human rights movement. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 132.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
GOVT 446: International Law and Organization. 3 credits. 
Nature, sources, and subject of law of nations; law and individual; 
territorial questions; nature, sources, and functions of international organizations; 
international transactions and organizations; war and present; and future status of international law. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 132, 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 447: Revolution and International Politics. 3 credits.
Historical overview of modern revolutions as well as different theories 
about causes and consequences of revolutions. Special attention to 
Marxist-Leninist, Arab nationalist, and Islamic revolutions. Offered by 
Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 133.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 448: Ethics and International Politics. 3 credits.
Ethics and international politics ask students to wrestle with dilemmas 
raised by a desire to behave morally in an international system in which 
consensus about ethical matters is absent. Distributive justice and use 
of force are two overarching themes. Students also develop, apply, and 
justify their own perspectives on ethical problem using philosophical 
theory, history, and social science research. Offered by Schar School of 
Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 132 or PHIL 151.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 452: Administrative Law and Procedures. 3 credits.
Law of public office. Studies procedures followed by and the legal limits 
on administrative agencies and their officers and employees. Offered by 
Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 351.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 456: Surveillance and Privacy in Contemporary Society. 3 credits.
Philosophical perspectives, historical context, technological 
developments, and institutional changes that surround controversies 
about privacy and surveillance in contemporary society. Explores public 
and private institutions doing surveillance, how they calculate and 
manage risk, and legal constraints on surveillance activities. Offered by 
Schar School of Policy & Govt (p. 941). May not be repeated for credit.
Equivalent to CRIM 460.

Recommended Prerequisite: CRIM 100.

GOVT 464: Issues in Public Policy and Administration. 1-3 credits.
Analyzes selected policy issues in administering public policies. 
Topics announced in advance. Examples include environmental policy, 
government regulation, federal mandates, state policy, and regional 
policy. Notes: May be repeated when topic is different with permission of 
department. Offered by Schar School of Policy & Govt (p. 941). May be 
repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 103 plus 60 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 467: Current Issues in Economic Policy. 3 credits.
Applies basic concepts of economics, political science and ethics to 
some of the most pressing issues facing the U.S. and global economies. 
Topics include productivity and economic growth, taxes, soaring costs 
for health care and higher education, globalization, income inequality, 
financial crises, the size of government and the proper role of regulation. 
Offered by Schar School of Policy & Govt (p. 941). May not be repeated 
for credit.

Recommended Prerequisite: Open to PPE concentrators or permission of 
instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 469: Philosophy, Politics, and Economics. 3 credits.
Covers issues in the philosophy, economics, and political science of 
institutions, information, and collective action. Through case studies of 
existing legal and political institutions, applies the insights to problems 
in politics, policy making, social theory, and social, moral, and political 
philosophy. (Specific content varies). Offered by Schar School of Policy 
& Govt (p. 941). May not be repeated for credit. Equivalent to ECON 460, 
PHIL 460.

Recommended Prerequisite: PHIL 358, ECON 412, and GOVT 467, or 
permission of instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GOVT 480: Internship. 3 credits.
Approved internships with specific employer. Programs relate in some 
capacity to government, politics, public policy, or the law. For 3 credits, 
a minimum of 135 hours is required. A maximum of 6 credits of GOVT 480 
may be applied to a degree in government and international politics or in 
public administration. 3 of those credits may be applied to requirements 
for the major with prior approval of the internship faculty advisor. A 
maximum of 3 additional credits may be used for general elective credit 
toward the 120 credits required for the bachelor's degree. Offered by 
Schar School of Policy & Govt (p. 941). May be repeated within the term 
for a maximum 15 credits.
**Recommended Prerequisite:** GOVT 101, GOVT 103, GOVT 132, and GOVT 133.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**GOVT 490:** Synthesis Seminar. 3 credits. Readings, individual or group projects, and discussion of papers reflecting on connections between liberal arts and sciences and political world. Notes: Course topic varies by semester. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Mason Core:** Synthesis (p. 137)

Analyzes selected major works of ancient, modern, or contemporary political theory that illuminate basic problems and questions for people engaged in political or civic life. Examines justice, liberty, equality, autonomy, rights, obligation, participation, and nature of politics. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the MA in political science or permission of department.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
GOVT 530: Comparative Politics. 3 credits.
Examines fundamental issues in comparative politics and provides broad coverage of the central themes under study. Designed to help students think theoretically and critically about the study of comparative politics, its scientific objectives, and its epistemological assumptions. Within this context, students will look at concepts and approaches, as well as important theories and debates that characterize the subfield. Helps prepare students for qualifying exams in comparative politics. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 540: International Relations. 3 credits.
Focuses on changing structure of international politics, post-Cold War security issues, effect of globalized economy and information technology revolution, enhanced role of global corporations and nongovernmental organizations, and rise of nonsecurity issues in emerging international agenda. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 541: Introduction to Critical Analysis and Strategic Response to Terrorism. 3 credits.
Introduces terrorism as a complex threat to human security. Focuses on tools for analyzing terrorism and the underlying sources and conditions that contribute to it. Considers similarities and differences between terrorism and other threats to human security. Explores the lessons learned in the history of responding to terrorism. Focuses not only on different tactics of response, but also includes how different types of societies (dictatorship, democracies, etc.) have responded to terrorism and what the results of those responses have been. Includes case studies of responses to terrorism. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 550: Seminar in Theories of Public Administration. 3 credits.
Reviews the theoretical traditions in American public administration, from the earliest days of the founding to the present. Concludes with consideration of contemporary theoretical debates over the proper role of public administrators and controversies about conflicting demands made on the public service and the public sector. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 560: Topics in Government and International Affairs. 3 credits.
Explores topics of contemporary and emerging concern in government and international affairs. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

600 Level Courses

GOVT 603: Seminar in the Courts and Constitutional Law. 3 credits.
Analyzes role, influence, and effects of U.S. courts in creating constitutional legal norms and interpreting them. Special attention to First and Fourteenth Amendments and Commerce Clause. Lecture and discussion; students expected to read and analyze leading court cases. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

GOVT 600 Level Courses
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 604: Seminar on Congress and Legislative Behavior. 3 credits.
Examines theories and empirical research on the U.S. Congress and legislative behavior, including elections, representation, structures, and processes. Also examines Congress’ impact on the design and implementation of public policy, interactions with other branches of government, and comparisons with parliamentary systems. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 605: Seminar on the Presidency. 3 credits.
Examines the American presidency from a number of substantive and methodological perspectives. Readings and discussions in the course appraise the presidency within the system and focus on the role the presidency plays in formulating and implementing public policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 632: Politics and Societies of the Middle East. 3 credits.
Studies the Middle East in comparative perspective, using social scientific categories of analysis. Topics include: regime types, their basis and causes; influential political trends such as Arab nationalism, Ba'athism, and political Islam; the role of kinship, religion, and tribe in opposition and regime politics; the regional oil economy and economic crisis; democratic liberalization; and the growth of civil society. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 631: Seminar in Comparative Politics and Institutions. 3 credits.
Examines theories and practices of governance and development in comparative national settings. Course explores key subsets of the comparative politics literature in depth, including institutional change, regime types and transitions, democracy and authoritarianism, states and state-society relations, revolution, social movements, political cultures, and methods. Course is explicitly conceptual and cross-regional. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt (p. 941). May not be repeated within the term for a maximum 9 credits.

Recommended Corequisite: GOVT 541.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 640: Strategic Responses to Terrorism: Coordinated Decision Making. 3 credits.
Revisits, expands, and examines the critical themes developed in the terrorism certificate program. Provides students with the opportunity to apply the theoretical concepts developed in practice. Integrates the ideas, theories, and practices considered in this track within the larger field of terrorism analysis and strategic responses to this threat. Notes: This is the capstone course for the terrorism certificate program and must be completed in the final semester of the certificate program. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Corequisite: GOVT 541.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
**GOVT 641: Global Governance.** 3 credits.
Applies systems approach to understanding global politics. Emphasizes properties and functions of global systems such as population, food, disease, energy, and trade, and how world’s political systems interact with them. Discusses how governance at municipal, national, and international levels affected by global systems. Examines role of nongovernmental organizations in global affairs. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 540.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**GOVT 706: Federalism and Intergovernmental Relations.** 3 credits.
Examines broad trends in governance, including theory and practice of federal, state, and local governments. May include privatization, devolution, mandating, regulatory reform, and comprehensive federalism reform. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 510.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 717: Qualitative Methods.** 3 credits.
Focuses on scientific design of qualitative research questions and use of specific qualitative methods in scientific analysis. Covers when and how to use qualitative research methods to answer empirical questions in political science; primary data collection methods (interviews, observations, document review); the appropriateness of different research approaches; procedural and ethical concerns that may arise in use of qualitative methods. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 511 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 719: Issues in American Politics.** 3 credits.
Examines significant issue in American politics and political behavior. Analyzes topic of contemporary and emerging concern. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** GOVT 510.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 720: Advanced Seminar in Political Theory.** 3 credits.
Contemporary, historical, and comparative study of key themes in Political Theory. Topics may include theories of sovereignty, power, democracy, secularism, political economy, justice, humanism, race, empire, colonialism, gender, and sexuality. Examines democracy in terms of versions of liberalism, theories of social capital and civic participation, and discourses about civil, political, and human rights. How is democracy conceptualized normatively and empirically? What underlying economic, social, and cultural conditions promote democracy? What role do institutions play in creating and sustaining a stable democratic society? Takes a broadly comparative perspective, focusing on variety of established and emerging
democracies around the world. Elective for students specializing in American government or international politics and comparative governments. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 726: Theories of Justice. 3 credits.
Overview of ancient and modern theories of justice with application to contemporary issues involving justice system and other social and political institutions. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to CRIM 700.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 727: Restorative Justice. 3 credits.
Origins of restorative justice, its principles, implications for different justice organizations and processes, and application to problems such as family violence, human rights, and reconciliation following mass victimizations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: CRIM 700, GOVT 726, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 728: Behavior of Law. 3 credits.
Examines development of law, and law's effect on human behavior. Reviews theories of law's meaning and aims. Examines construction of law, and investigates consequences of law and legal decisions. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to CRIM 720.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:

This course is graded on the Graduate Regular scale. (p. 82)

GOVT 731: Advanced Seminar in Comparative Politics. 3 credits.
Assumes basic proficiency in comparative analysis. Regionally based examination of key debates in the comparative politics field. Key theoretical and methodological debates are addressed through in depth examination of regional political processes. Regions include Latin America, Asia, Middle East, European Union, Africa, and Russia. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: GOVT 530.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 732: Comparative Justice. 3 credits.
Survey of justice systems and their environments in different lands and cultures. Identifies commonalities and differences among justice systems, evaluates them, and considers policy implications. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: CRIM 700, GOVT 726, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 733: Islam and Politics. 3 credits.
Provides an overview and understanding of the multifaceted nature of political Islam in the contemporary world. Covers brief history of Islam, formation of modern states in the post-colonial Muslim world, nature of contemporary Islamic radicalism and militancy and the future of Islamism. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 530.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 734: Democratization. 3 credits.
Examines concepts and concrete cases of democratization and cases where democratization is absent or incomplete. Investigates methods for measuring democracy and authoritarianism; the role state and society play in political change; the effects religion, the military, ethnic division, and technology have on government reform; and the extent to which
international actors can encourage democratization. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommendation Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 735:** Comparative Public Management. 3 credits.
Examines the comparative decision environments for public managers and policy elites in the OECD countries generally, focusing on four models: 1) Franco-Japanese model, 2) German concentration model, 3) "Anglo-Saxon" (United States) model, 4) Chinese model. Notes: May apply to elective credit in the fields of comparative politics and public administration. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommendation Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 739:** Issues in Comparative and International Politics. 3 credits.
Explores issues of contemporary and emerging concern in comparative and international politics. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** GOVT 540.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 741:** Advanced Seminar in International Politics. 3 credits.
Examines theoretical and methodological issues central to study of international relations by focusing on specific topic: American foreign policy, diplomacy, international law and organization, international relations theory, international ethics, human rights and humanitarian intervention, the environment, and others. Notes: May be repeated when topic is different with permission of department. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** GOVT 540.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.
nature of international conflict, and human security will be examined. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 540.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 746: Media and International Affairs.** 3 credits.
Examines government/media interaction and media coverage of war and foreign policy since Vietnam and considers a range of critical policy questions. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 753: Third-Party Governance.** 3 credits.
Examines design and management of government programs that rely on other levels of government and the private sector for delivery, with focus on such governmental tools as contracts, grants, loans, regulation, and tax credits. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 755: Seminar in Politics and Bureaucracy.** 3 credits.
Explores research and theory on political causes and effects of actions of government bureaucratic agencies. Readings examine origins of agencies, influences on decisions and programs, sources of internal and external accountability, pathologies of bureaucracies, and contributions bureaucracies make on effective and just governance. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 510.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 758: Homeland/Transportation Security Administration.** 3 credits.
Examines the terrorist attacks of 9/11, vulnerabilities of the aviation security at that time, failure of elected officials and administrators to act more decisively to improve security before 9/11, and the policy and administrative responses to the 9/11 attacks, including the creation of the Transportation Security Administration and the Department of Homeland Security. Includes the development of radical Islam and the rise of Osama bin Laden and Al Qaeda. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 759: Issues in Public Administration and Management.** 1-3 credits.
Current issues in administration and management of public organizations in contemporary American government. Includes practical applications of theories and analysis to managerial problems. Emphasizes competence in improving management in selected government settings. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 794: Internship.** 1-6 credits.
Work-study program with specific employers. Notes: Contact internship coordinator one semester before enrollment. Credit determined by department. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Admission to graduate program and 12 credits. Notes: Contact internship coordinator one semester before enrollment. Credit determined by department. May be repeated for a maximum of 6 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**GOVT 796: Directed Readings and Research.** 1-6 credits.
Reading and research on specific topic under direction of faculty member. Notes: Written paper required. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 6 credits.
Recommended Prerequisite: 15 credits of GOVT courses at 500 level and above, and permission of instructor.

Registration Restrictions:  
Enrollment is limited to Graduate level students.  

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:  
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 798: Political Science Research Project. 3 credits.  
Research project related to student's concentration under supervision of a faculty advisor. Student produces substantial and original contribution to political science knowledge on model of article in scholarly journal. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: 24 credits.

Registration Restrictions:  
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:  
This course is graded on the Graduate Special scale. (p. 82)

GOVT 799: Political Science Thesis. 1-6 credits.  
Substantial and original research paper with guidance of faculty advisor. Thesis proposal must be approved in advance by advisor and two faculty members who comprise thesis committee. Completed research must be approved by committee and defended publicly in oral presentation. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the degree.

Recommended Prerequisite: 24 credits and approval of thesis proposal.

Registration Restrictions:  
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:  
This course is graded on the Satisfactory/No Credit scale. (p. 82)

800 Level Courses

GOVT 800: PhD Research Seminar. 3 credits.  
Provides an opportunity for PhD students in political science to present and refine independent research, and to further improve understanding of social scientific method as they prepare for conference presentations, qualifying exams, and subsequent dissertations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:  
Enrollment limited to students in the LA-PHD-POS program.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:  
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 810: American Political Development. 3 credits.  
Advanced graduate-level seminar on historical roots of American politics. Examines political culture and historical development of U.S. institutions, and how laws and programs have been affected by historical and cultural development. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:  
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:  
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 811: Advanced Seminar in American Institutions. 3 credits.  
Advanced graduate-level seminar on specific topics of contemporary research and theory in American governmental institutions. Topics vary to include presidential politics, Congress, and politics of the judiciary. Readings include classic and contemporary literature. Seminar format with discussion, student presentations. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:  
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:  
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 815: Advanced Seminar in Political Behavior. 3 credits.  
Advanced graduate-level seminar on specific topics of contemporary research and theory in American political behavior. Topic varies to include political parties, electoral politics, public opinion and voting behavior, interest groups, and lobbying. Readings include classic and contemporary literature. Seminar format with discussion, student presentations. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: GOVT 510.

Registration Restrictions:  
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:  
This course is graded on the Graduate Regular scale. (p. 82)

GOVT 820: Advanced Topics in Political Thought. 3 credits.  
Advanced graduate-level seminar on topics of contemporary research and theory in political thought. Topics vary to include political ideologies, feminist theory, and political theory. Seminar format with discussion, student presentations. Notes: May be repeated when topic is different.
Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** GOVT 520.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**GOVT 831:** *Research Seminar in Regional Political Culture and Development.* 3 credits.
Advanced graduate-level seminar on theories of political culture and economic development applied to Middle East, Latin America, Asia, and Africa. Debates economic growth and development from broad and rigorous analytical base. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 540.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 841:** *Ethics and Human Rights in International Affairs.* 3 credits.
Seminar on ethical behavior in an international system in which consensus about ethical matters is absent. Overarching themes are distributive justice, human rights, and use of force. Students develop, apply, and justify their own perspective on an ethical problem using ethical theory and social science research. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 540.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 843:** *Diplomacy.* 3 credits.
Advanced graduate seminar on theory and practice of diplomacy; alliance construction and destruction; coercive and cooperative diplomacy; diplomacy of certain great powers such as America, Russia, China, France, and Japan, and small and revolutionary powers. Also examines diplomacy and the media, and day-to-day diplomacy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 540.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 850:** *Advanced Seminar in Public Administration Research and Theory.* 3 credits.
Focuses on a topic of central concern in contemporary public administration research and theory. Content of the seminar varies but includes such topics as organizing for homeland security, managerial and political effects of e-government, or the application of principal-agency models in public management. Notes: May be repeated when topic is different. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** GOVT 510, GOVT 650.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 851:** *Doctoral Seminar in Theories of Organization and Bureaucracy.* 3 credits.
Examines key issues in organization theory and behavior. Issues include organization design, interorganizational coordination, intelligence and decision making systems; leadership and motivation theories; and theories or organizations as agents of political and social change. Uses case studies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 852:** *Seminar in Political Leadership.* 3 credits.
Graduate seminar on theories and practices of political and governmental leadership in American and comparative settings. Domestic and comparative cases of leadership in state-building, presidency, and public administration. Primary or secondary research on leaders encouraged. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** GOVT 510.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GOVT 853:** *Advanced Seminar in Global Innovations in Public Finance.* 3 credits.
Explores how financial decisions by government jurisdictions are affected by global competition and global markets. The impact of cross-national movements of capital and information on tax, tariff, and interest rate policies will be examined, as will the numerous organizations, such as the World Bank, that have been created to reduce the impact on developing nations. Government and supernational efforts to deal with the unintended consequences and global capital flows will also be
examined. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

900 Level Courses

GOVT 998: Doctoral Dissertation Proposal. 3, 6 credits.
Work on research proposal that forms basis for doctoral dissertation. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the degree.

Recommended Prerequisite: Advancement to candidacy.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

GOVT 999: Doctoral Dissertation Research. 1-12 credits.
Research on approved dissertation topic under direction of dissertation committee. Notes: May be repeated for up to 9 credits in a semester. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Graduate School of Business (GBUS)

500 Level Courses

GBUS 510: Engineering Marketing and Financial Analysis. 3 credits.
Provides overview of key ideas & methods used in financial accounting and marketing in the context of applications in engineering. Designed to enable engineering professionals to appreciate business perspectives by developing familiarity with concepts and analytical approaches from accounting (financial statements, difference between cash and accrual approaches, and cost accounting) and marketing (market research, pricing, and branding). Offered by School of Business (p. 877). May not be repeated for credit.

Recommended Prerequisite: Admission to any George Mason graduate engineering program or senior plus standing in a George Mason undergraduate engineering program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GBUS 540: Analysis of Financial Decisions. 3 credits.
Provides a survey of financial decision-making. Assists students with developing a framework within which they can understand the linkages between financial decisions and organizational performance. Examines methods for using information based on financial statements in making decisions and assessing performance, evaluating investment opportunities, and choosing among alternative sources of funds. Focuses on public firms in the corporate sector as well as applications for privately-held companies and organizations in the government and non-for-profit sectors. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Undergraduate level students.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GBUS 550: Strategic Thinking. 3 credits.
Focuses on strategy formulation and implementation. Introduces the critical business skills of planning and managing strategic activities and focuses on role of strategic managers in generating competitive advantages. This course aspires to impart the participants with the skills necessary and appropriate for strategy analysis, formulation, implementation and control. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

GBUS 551: Leadership. 3 credits.
Distinguishes between leadership and management, and focuses on the critical roles and functions of leadership, including communication ability, use of power and influence, providing direction, aligning an organization’s systems, motivating a workforce, and creating a culture for effectiveness. Focuses on strategies for developing oneself as an effective leader.
Integrates theory, research, and applications. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

**GBUS 696: Directed Studies in Graduate School of Business.** 1-3 credits.
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GBUS 697: Special Topics in Graduate School of Business.** 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of business. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GBUS 738: Data Mining for Business Analytics.** 3 credits.
Examines how data warehouses and data mining are used to help businesses successfully gather, structure, analyze, understand and act on relevant data, both operational and contextual. Offered by School of Business (p. 877). May not be repeated for credit. Equivalent to MBA 738.

**Recommended Prerequisite:** B or higher in (STAT 515 or STAT 554).

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Business Data Analytics.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**GBUS 739: Advanced Data Mining for Business Analytics.** 3 credits.
This course covers business analytics using advanced data mining methods for the purposes of developing predictive models and

700 Level Courses

**GBUS 720: Marketing Analytics.** 3 credits.
Marketing analytics is a systemic approach to harnessing data/information to drive effective marketing decision making. The objective of this course is to equip you with the tools required to address fundamental marketing decision problems using a data-driven approach. It will train students to view the marketing processes and relationships systemically and analytically. Offered by School of Business (p. 877). May not be repeated for credit. Equivalent to MBA 720.

**Recommended Prerequisite:** Grade of B or higher in (STAT 515 or STAT 554); AND GBUS 738 or equivalent.

**Registration Restrictions:**
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
Greek (GREE)

100 Level Courses

GREE 150: Classical Greek I. 3 credits.
Addresses linguistic, semantic, and cultural aspects. Covers basic structure and vocabulary, its place among other world languages and its unique role in development of modern thought. Notes: Lectures, discussions supplemented by web-posted material. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

GREE 160: Classical Greek II. 3 credits.
Expands proficiency, refines grasp of morphology and syntax, and fosters greater command of vocabulary. Introduces selected original passages from Greek classical authors. Notes: Lectures, discussions supplemented by web-posted material. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: GREE 150 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

GBUS 744: Fraud Examination. 3 credits.
Introduces strategies and techniques for fraud prevention and detection. Focuses on financial fraud such as bribery, contract rigging and kickbacks, embezzlement, fraudulent financial reporting, payroll fraud, and misappropriation of inventory and other assets. Offered by School of Business (p. 877). May not be repeated for credit. Equivalent to MBA 744.

Recommended Prerequisite: B or higher in (STAT 515 or STAT 554).

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Business Analytics.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HEAL 110: Personal Health. 3 credits.
Focuses on individual health improvement by studying mental/emotional well-being, fitness, nutrition, drug abuse prevention, consumerism, safety and other topics. Notes: One section of HEAL 110 will be dedicated as Distance Education while remaining sections will be traditional classroom, 100% face-to-face. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HEAL 200: School and Community Safety. 1 credit.
Focuses on safety in home, school, road, work, and community settings. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HEAL 220: Dimensions of Mental Health. 3 credits.
Focuses on integrating behavioral and sociocultural factors in studying mental health. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HEAL 230: Introduction to Health Behavior. 3 credits.
Introduces health behavior in context of health psychology. Explores various theoretical models to understand health, illness and sick-role behaviors. Studies health and disease from a biopsychosocial perspective. Examines means of preventing and treating health problems. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences, Encore:Well-Being (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HEAL 250: Introduction to School Health. 3 credits.
300 Level Courses

**HEAL 310: Drugs and Health.** 3 credits.
Analyzes drug use, with emphasis on positive aspects, and presents alternatives to drug misuse and abuse. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**HEAL 325: Health Aspects of Human Sexuality.** 3 credits.

**HEAL 327: Women's Health.** 3 credits.
Examines health issues unique to women, including health care, food and exercise, reproductive and gynecological issues, chronic diseases, and issues of violence. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**HEAL 331: Men's Health.** 3 credits.

**HEAL 350: Interventions for Populations and Communities at Risk.** 3 credits.
Identifies culturally, physically, emotionally, mentally, and demographically diverse populations and communities at risk. Covers implications for developing innovative programs and role of HFRR interventions. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**HEAL 351: Relationship Health.** 3 credits.

400 Level Courses

**HEAL 405: Teaching Methods in Health Education (K-12).** 3 credits.
Covers content, methodology, and resource materials in teaching health education for physical education teaching majors. Notes: Field experience required. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**HEAL 480: Special Topics.** 1-3 credits.
Presents selected health issues or problems. Focuses on applying information to education programs. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 3 credits.

**HEAL 499: Independent Study in Health Education.** 1-3 credits.
Takes a self-directed approach to solving a health education problem area in health education research, theory, or practice under faculty direction. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.
500 Level Courses

HEAL 516: Program Development and Resources in Health Education. 3 credits.
Open to licensed and provisionally licensed health and physical education teachers in the commonwealth of Virginia and students in ASTL physical education program. Focuses on program development, health content, methodology, and resources for teaching preK-12 health education. Notes: Distance learning course. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: Licensed and provisionally licensed health and physical education teachers in the Commonwealth of Virginia, and students in the Physical Education masters program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Health Administration and Policy (HAP)

200 Level Courses

HAP 201: Health Professions Careers. 3 credits.
Acquaints students early in their college education with a variety of health professions careers. Provides overview of the health care system, and identifies the current supply and demand for health care professionals. Presents information about educational and licensing requirements as well as expected salaries. Defines professionalism and outlines the principal rights and responsibilities of being a health care professional. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 202: Medical Terminology. 3 credits.
Prepares students with a basic understanding of medical terminology needed to work in a wide variety of healthcare environments. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 290: Lifestyle Management. 3 credits.
In this introductory course on practical application of Bayesian causal modeling techniques and Statistical Process Control tools, students make resolutions and analyze their progress toward goal achievement. Each student maintains a diary and analyses it using Bayesian causal modeling techniques to understand the constraints and causes leading to their success and failures. Students analyze their pattern of success using Statistical Process Control tools and engage cyclical assessment of their self improvements. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

HAP 301: Health Care Delivery in the United States. 3 credits.
Introduces history and current structure and function of U.S. health care delivery. Explores components and subsystems of health care, and sociopolitical (public and private) context that shapes system and affects access to health care and delivery of health services. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 308: Public Health Informatics. 3 credits.
Provides students with a basic understanding of public health Informatics and its applications. Students will understand the basic technological tools and building blocks needed to utilize these tools in to improve their personal and professional productivity. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 309: Healthcare Accounting. 3 credits.
Introduces basic concepts, standards, practices and terminology underlying financial and managerial accounting as applied in health-care organizations. Key concepts include accounting principles and conventions; financial reporting; valuations of assets; analysis, interpretation, and communication of financial information; the management of costs and profitability; and the use of spreadsheets and other tools. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Schedule Type: Lecture
Recommended Prerequisite: HAP 301.
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 310: Healthcare Ethics. 3 credits.
Introduces current ethical ideas and issues in healthcare and the healthcare system. Case studies require students to apply critical thinking in ethical decision making situations encountered by healthcare professionals. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 301.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
HAP 312: Healthcare Law. 3 credits.
Introduces students to the legal environment in healthcare with emphasis on laws and regulations of routine importance to healthcare managers in the areas of labor, contracts, real estate, medical malpractice, general business, and intellectual property. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 301.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 318: Introduction to IT Methods for Healthcare. 3 credits.
Reviews computer hardware and software with applications in healthcare. Covers basic features of operating systems (Windows and Linux), reviews use of basic office applications and introduces their advanced features. Introduces advanced tools to access and analyze healthcare data. Introduces basic programming concepts. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: IT 103 or IT 104 or equivalent.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 360: Introduction to Health Information Systems. 3 credits.
An introduction to basic information management in health care service organizations. Provides an overview of health information systems for selected administrative functions and clinical care services, including electronic data interchange for billing and claims management, institutional approaches to ensuring data security and privacy, and information management and decision support for managers and clinicians. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 361: Health Databases. 3 credits.
Introduces students to the design and use of various health and healthcare databases, and provides hands-on experience with database design and use. Reviews database management systems. Examines the application of databases for both clinical and managerial purposes. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 360

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 392: Human Resources Management in Healthcare. 3 credits.
Introduces students to the major issues, laws, administrative processes, procedures, and psychological factors to be considered when developing a human resources management system in healthcare organizations. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 301

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 395: Health Care Finance. 3 credits.
Introduces finance in health care organizations. Reviews issues in reimbursement structures, regulatory mechanisms, cost control, and related factors affecting financial management of health service organizations including financial decision support skills. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 301

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 396: Strategic Health Management and Planning. 3 credits.
Introduces past and present interventions that affect supply and demand for health care at community, state, regional, and national levels. Presents health planning and regulatory entities, and discusses strategic and program planning in context of current economic and market conditions. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 301

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

HAP 403: Assisted Living/Senior Housing Management and Philosophy. 3 credits.
Overview of growth of assisted living industry, its role in health care continuum, current or proposed regulatory environments, and differences between assisted living and other forms of senior health care and senior living services. Specific instruction provided in philosophy and day-to-day management of assisted-living communities, including resident care, operations, finance and budgeting, human resources and staffing, and successful marketing and community relations. Also examines industry future, including cutting-edge programs and technologies, and approaches to creating next generation of assisted-living services. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 404: Senior Housing Sales and Marketing. 3 credits.
Introduction and analysis of sales and marketing practices within senior housing environments, including but not limited to Active Adult (55+), assisted living, Alzheimer’s assisted living, and Continuing Care
Retirement Communities (CCRC’s). Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 301.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 410: Introduction to Health/Medical Practice Management.** 3 credits.
An introductory course in the leadership and management of ambulatory health service practices and small provider organizations. Content covers a variety of health/medical practice management functions, including administrative systems, operations and strategies for effective management of quality, efficiency and business performance (contracts and marketing), and human resources. Trends in practice integration and affiliations with multiprovider groups and larger enterprises will be covered. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 309.

**Registration Restrictions:**
**Required Prerequisite:** HAP 301 C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 416: Leadership and Management of Health Systems I.** 3 credits.
Introduces theoretical concepts and their application to the leadership and management of effective health care organizations. Explores the structure and function of health-related organizations and selected administrative and operational issues in program development and service design, emphasizing strategies for effective performance management, decision making, and communication. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.
Equivalent to NURS 436.

**Recommended Prerequisite:** Complete all 300-level course requirements.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 417: Leadership and Management of Health Systems II.** 3 credits.
Explores challenges to providing effective leadership and management of health care organizations and systems of care related to operational issues such as personnel management and labor relations, information management, conflict and goal alignment, financial management, accountability, and quality and safety improvement. Focuses on identification of management skills, technology, and strategy that influence optimal performance and communication between clinicians, administrative staff, and managers. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** HAP 416 C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 425: Health Economics and Policy.** 3 credits.
An introduction to the role of economics in health care policy. Concepts used by economists to analyze health outcomes, health behaviors, health care markets, health insurance markets, and the role of government. Concepts are linked to current health policy debates, Relevance and limits of the health economics approach to analyzing health issues are discussed. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** HAP 301 C and ECON 103 C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 430: Process Improvement in Healthcare Organizations.** 3 credits.
Introduction to the process of quality management in health care organizations. Principles of quality management and guidelines for implementing total quality in health care are discussed, and differentiation between quality assurance and quality management presented. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** HAP 301 C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 436: Electronic Health Data in Process Improvement.** 3 credits.
Focuses on using electronic health records (EHRs) to improve health care processes. Compares means and rates of clinical & managerial processes. Uses EHRs in risk-adjusted statistical process control. Uses Excel to analyze data on patient satisfaction, wait time, mortality/morbidity, and cost of care. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 440: Mobile Health.** 3 credits.
Introduces emerging technologies used in Mobile Health (mHealth). Students will examine the impact and potential of mobile devices on health. Students will conceptualize and design health apps that incorporate evidence-based guidelines and capitalize on the mobility, portability, and input and output capabilities of smartphones and tablets. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
HAP 442: Introduction to Health Care Politics and Policy. 3 credits. Reviews health care system issues and trends, and economic concepts, ways to understand the critical role of public health policy and the policy-making process in the United States. Identifies the major political institutions and policy processes that shape health policy. Examines the past and present health policy and its impact on changes in the ability of patients to access health services, the practice of health sciences professionals, and the quality and process of care. Explores the role of politics at both the federal and state government in health policy-making and critical aspects of the U.S. health system are compared to those of other countries. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions: 
Required Prerequisite: HAP 301. 
C Requires minimum grade of C.

Schedule Type: Lecture
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 445: Introduction to Health Services Research. 3 credits. An introductory course for undergraduate students in understanding the basic methods of interdisciplinary health services research and program evaluation in health systems and policy. Emphasis is placed on understanding, assessing and using relevant findings from health services research. The course covers a variety of topics related to policy, management, and program evaluation in health delivery systems. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions: 
Required Prerequisite: HAP 301. 
C Requires minimum grade of C.

Schedule Type: Lecture
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 459: Health Data Standards and Interoperability. 3 credits. Introduction to prevailing and emerging data standards applicable in health information technology. Students will learn about standard-making organizations, such as HL7 and Healthcare Information Technology Standards Panel (HITSP), and their standardization processes. The structure of and relationship between standard terminologies applicable in healthcare, such as International Classification of Diseases (ICD-10-CM), Logical Observation Identifiers Names and Codes (LOINC) and Systematized Nomenclature of Medicine–Clinical Terms (SNOMED-CT), will be explained. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 301 or permission of instructor. HAP 361.

Schedule Type: Lecture
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 460: Information Technology Project Management. 3 credits. Identifies methods and skills for managing health care information technology (IT) projects. Students learn tools such as critical path analysis, resource management, crashing projects, vendor selection, quality assessment, and risk analysis. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 360.

Schedule Type: Lecture
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 461: Internet and Web Technology Applications for Healthcare. 3 credits. Introduces students to the major applications of Internet and Web technology in healthcare. Two major applications are studied: online promotion/marketing for consumer-oriented health web sites, and online Personal Health Records (PHR). Students will learn about Search Engine marketing and the practical skill of creating an online health marketing/promotion campaign. They also will learn to create and manage PHR. The technological challenges such as reliability, privacy, security and organizational barriers to adoption are discussed. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 360.

Schedule Type: Lecture
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 462: Privacy and Security in Health Informatics. 3 credits. Health information security and privacy issues in the current healthcare system. Evaluates methods to achieve privacy and security. Discusses the important role of sound security policies and procedures; looks into technical solutions and non-technical solutions for achieving privacy and security. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: HAP 360.

Schedule Type: Lecture
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 464: Electronic Health Record Configuration and Data Analysis. 3 credits. Covers basic features and functionalities of an electronic health record (EHR). Introduces methods to access and analyze patient data from an EHR. Provides students with hands-on experience on EHR systems. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Schedule Type: Laboratory, Lecture
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

HAP 465: Integration of Professional Skills and Issues. 3 credits. Assists students in synthesizing the varied dimensions of their roles as health professionals in a global society. Provides opportunities to examine issues in health care through reflection on the natural and behavioral sciences, humanities and other prerequisite coursework. Selected topics examined through writing, presentation, reading and discussion. (Writing intensive course). Offered by Health Administration & Policy (p. 250). May not be repeated for credit. Equivalent to NURS 465.
**Mason Core:** Synthesis (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Registration Restrictions:**

**Required Prerequisites:** HAP 301C and ENGH 302C. C Requires minimum grade of C.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Health Administration.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 467: Advanced Information Technology Project Management.** 3 credits.

Teaches project management methods and techniques with focus on health IT projects. Covers knowledge, skills, and abilities associated with certification (Certified Associate in Project Management).

Notes: Certification is not provided in this course. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 460 or HAP 417 or equivalent.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 468: Health System Reform Policy Debates.** 3 credits.

Introduction to competing views about US health system reform. Financing, insurance, delivery system and federalism issues will be covered, using theme of personal vs. collective responsibility. Topics include: determinants of health; private insurance markets, regulation, and public insurance; sources of and alternative solutions to inequitable access, poor quality and excess cost growth. Emphasizes evidence, beliefs, and self-interest behind competing visions. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 480: Research Internship in Health and Human Services.** 3 credits.

The student works as a member of a team engaged in health and human services research and attends a bi-weekly research seminar. Under direction of the course seminar leader and the faculty research mentor, the student will acquire selected research skills and develop introductory research writing and presentation skills. Offered by Health Administration & Policy (p. 250). May not be repeated for credit. Equivalent to HHS 480, SOCW 480.

**Recommended Prerequisite:** Open only to CHSS majors or students who have completed CHHS minor or certificate courses.

**Schedule Type:** Internship

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 489: Pre-Internship Seminar.** 3 credits.

Provides students with guidance and preparation for engaging in the internship. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Mason Core:** Capstone (p. 137)

**Recommended Prerequisite:** Senior standing.

**Registration Restrictions:**

**Required Prerequisite:** HAP 301C. C Requires minimum grade of C.

Enrollment is limited to students with a major in Health Administration.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 494: Special Topics in Health Administration and Policy.** 3 credits.

Selected topics analyzing specialized areas in health administration and policy. Notes: Content varies. Lecture, seminar, laboratory, and workshops. Offered by Health Administration & Policy (p. 250). May be repeated within the term for a maximum 12 credits.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**HAP 498: Health Administration Internship.** 4 credits.

Provides variety of applied management experiences in a health systems or related organization (field agency), under the direction of a HAP faculty member and a preceptor in the field. Students integrate and apply critical-thinking, project-planning, and management and communication skills in the internship experience and toward completion of an approved internship project. Notes: Taken in last semester of studies. Capstone course involves a two-hour weekly seminar and a 12-hour internship in a health-related organization. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Mason Core:** Capstone (p. 137)

**Registration Restrictions:**

**Required Prerequisite:** HAP 489.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Health Administration.

**Schedule Type:** Internship

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**HAP 499: Independent Study in Health Administration and Policy.** 1-6 credits.

Provides individual study of a particular problem area in health administration and policy research, theory development, or education under the direction of faculty. Offered by Health Administration & Policy (p. 250). May be repeated within the term for a maximum 6 credits.

**Schedule Type:** Independent Study
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

HAP 594: Special Topics in Health Care. 3 credits.
Selected topics analyzing specialized areas in health care. Notes: Content varies. Lecture, seminar, laboratory, and workshops. Offered by Health Administration & Policy (p. 250). May be repeated within the degree for a maximum 6 credits. Equivalent to GCH 594.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

600 Level Courses

HAP 601: E-Commerce and On-line Marketing for Health Services. 3 credits.
Explores development of online health services; organization of online businesses; online marketing, financial, and clinical transactions; and venture capital and the IPO process. Explores creating and maintaining web pages and databases. Reviews literature on effect of computer services on patient care and health care organizations. Also reviews examples of both successful and bankrupt technology firms in health care. Student groups draft business plan and develop early version of service proposal. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 605: Introduction to Health Policy. 3 credits.
An introductory survey to the process and politics of health policy as it relates to the delivery and financing of health care in the United States. Examines the major public and private sector institutions responsible for health policy development, the interaction of these institutions and their competing interests to create and implement health policies, and public programs providing health coverage and services. Classroom and field experience involved. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 609: Comparative International Health Systems. 3 credits.
Uses Roemer's Model of Health Systems to examine resource allocation, management, and health outcomes in the United States and around the globe. The structure and functioning of national health systems based on geographic location and governance in developing and developed countries (democracies, monarchies, and communist nations). Resource allocation across the continuum of nations and relationship to national health needs, health status, and longevity are examined. Notes: An online course in comparative international health care systems. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 610: Health/Medical Practice Management. 3 credits.
Regulatory pressures, technology, managed care contracting, revenue cycle management, and legal issues are making medical practice management more complex. Physicians groups struggling with these demands are finding a need for sophisticated management. Prepares the student to manage the modern practice by providing a foundation in the leadership and management of ambulatory health services and
small provider organizations. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 615: Revenue Management for Clinical Practices.** 3 credits.
Assists healthcare leaders and managers to become more effective decision makers, problem solvers, and communicators in revenue and financial management of clinical practices. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 610.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 618: Computational Tools in Health Informatics.** 3 credits.
Introduces computational tools used in health informatics. Reviews hardware and software needs and uses. Topics covered include operating systems, virtualization and high performance computing, basic programming in a scripting language, basic data analysis and data integration skills, and use of specialized software. All topics are covered in context of specific solutions used in health information systems. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 621: Organization Behavior and Healthcare Leadership.** 3 credits.
Applies organizational behavior and theories of leadership to the management of interdisciplinary teams and decision making in healthcare organizations. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 622: Healthcare Information Systems Analysis and Design.** 3 credits.
Introduces system analysis, modeling, design, and management of large-scale healthcare information systems. Describes both traditional and data-driven analysis and design methods. Different aspects of systems analysis and design are illustrated using examples from healthcare industry case studies applied to a group project. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 632: Grants Funding and Development.** 3 credits.
Provides knowledge of private and public funders, funding mechanisms, tools and resources. Includes content on private and government funding streams relevant to public health, hospitals and other non-profit health related entities, interpretation of funder motivations and engagement strategies; essential skills for developing externally funded projects; grant proposal writing and grant requirements; assessment skills/strategies and award management/stewardship. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 640: Current Issues in Health Policy.** 3 credits.
Introduces students to current health policy issues, the public policy process, and their influence on the organization and financing of health care. Attention is given to the 1) roles of key players in health policy
formulation and implementation, and 2) public policy responses to major issues such as disparities and un-insurance coverage, cost-containment, and quality of care. Differing perspectives on reforming health care are debated. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 645: Introduction to Health Services Research. 3 credits.
An introductory course in the basic methods of interdisciplinary health services research and program evaluation in health systems and policy. The course covers topics related to policy, management, and program effect and evaluation within health delivery systems, including research design, existing data systems, measurement of quality and basic cost benefit, and effectiveness analysis. Offered by Health Administration & Policy (p. 250). May be repeated within the degree for a maximum of 6 credits.

Recommended Prerequisite: HAP 678.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 647: Regulatory Requirements for Health Care Systems. 3 credits.
Helps health care professionals understand link between infrastructures of organization and regulatory and accreditation processes for health care organizations. Covers major accrediting agencies and their roles, accreditation principles, and survey process. Focuses on hospitals with reference to ambulatory care, managed care organizations, rehabilitation centers, laboratories, and home health and long-term care facilities. Emphasizes requirements of Joint Commission on Accreditation of Health Care Organization and regulations mandated by Health Care Finance Administration. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

HAP 651: Senior Housing Sales and Marketing. 3 credits.
Introduction and analysis of sales and marketing practices within senior housing environments, including but not limited to Active Adult (55+), assisted living, Alzheimer’s assisted living, and Continuing Care Retirement Communities (CCRC’s). Topics include a review of the role of marketing in health care, the senior housing consumer and product, the development of marketing plans, and administrative management of the promotion, lead management, and sales process. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 652: Essentials of Health Insurance and Managed Care. 3 credits.
Focuses on the health insurance and managed care private sector. Topics include moral hazard; the history of private benefits plans; types of health plans; provider network management; provider payment; medical and quality management; health plan operations including marketing/sales, claims, member services, IT, finance; and relevant health policy, and federal and state laws and regulations affecting private health plans. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 661: Policy Development and Analysis for Community Health Programs. 3 credits.
Prepares students to critically analyze issues and develop skills pertinent to effective policy development for community and family public health programs. Explores what constitutes a vulnerable population and examines current government programs and policies supporting these programs for such populations. Recent case examples ground students in current issues faced by community groups and other health interests. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.
Registration Restrictions: 
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 662: Health Policy for Elders and People with Disabilities. 3 credits.
An introduction to health policy, health economics, and the aging of the American population. Focuses on the effect of chronic illness and disability on health care costs and provides students with skills in policy process and analysis as applied to acute care, long-term care, and health promotion for elders and people with disabilities. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 666: Quality Improvement in Health Services. 3 credits.
Examines how quality in healthcare is measured and controlled in order to improve processes and outcomes. Demonstrates how interdisciplinary teams analyze quality by applying a variety of quantitative methods (such as statistical process control, histograms, and Pareto charts); and qualitative methods (such as root cause analysis, affinity diagrams, nominal group technique, and flow charts). Analyzes performance improvement techniques designed to improve processes. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
700 Level Courses

HAP 700: Introduction to Health Informatics. 3 credits.
Examines applications of information technology in healthcare.
Considers a wide range of technology applications — from enterprise application systems to EHR (Electronic Health Records), to current trends in information technology and related regulatory initiatives. Examines how these technologies enable the healthcare industry to manage information and knowledge resources most effectively and deliver superior services to its customers. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Corequisite: HAP 678 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 701: Health Data: Vocabulary and Standards. 3 credits.
Explores the challenges of representing health care data using standardized vocabulary in health information systems. Topics include data standards and semantics, policy, and theory and practice of standardization. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Corequisite: HAP 678, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 702: Managerial Accounting in Health Care. 3 credits.
Examines the controllership function of health care organizations and systems (for-profit and not-for-profit) with emphasis on policy formulation and evaluation of performance, including cost methods and systems, measurement criteria, and managerial planning, methods, and techniques. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: Graduate-level statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 703: Financial Management in Health Systems. 3 credits.
Examines tools and methods of financial management in healthcare organizations and systems with emphasis on allocation and use of funds. Analyzes costs and constraints of alternative source of funds, and applies financial decision instruments and effect on operational management and market value of entity. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Recommended Prerequisite: Graduate-level statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 704: Contemporary Issues in Health Systems Management. 3 credits.
Analyzes the challenges confronting healthcare leaders in a new era characterized by economic incentives and changing relationships between providers, payers and purchasers, new delivery models and payment mechanisms, and advances in clinical integration, information technology, and quality improvement. Explores leadership strategies required for achieving financial stability while delivering greater value. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 705: Strategic Management and Marketing in Health Care. 3 credits.
Explores the role of strategic planning in healthcare organizations and the process by which they formulate, implement, and evaluate strategic decisions. Reviews the contemporary issues and trends impacting the strategic imperatives for healthcare organizations, including ways in which organizations evaluate and address the health needs of the communities they serve. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 706: Integrated Health Systems Management. 3 credits.
Explores emerging structures for financing and delivery of comprehensive health services in integrated health systems. Covers successful development and management of alliances, provider hospital organizations, and managed care systems with emphasis on strategies for vertical integration, community partnering, contract negotiation, governance, and management of antitrust situations. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

Examines how people are managed within health care organizations to achieve performance consistent with the organization's strategic objectives. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 708: Quantitative Methods in Health Care Management.** 3 credits.
Presents a framework for decision making in health care management. Covers epidemiological, statistical and decision modeling tools commonly used in health care management. Includes measures of risk, forecasting, decision trees and statistical quality control. Students use Excel to analyze data sets related to the application of these techniques in assessing health care related problems. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: HAP 602B.

B Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 709: Health Care Databases.** 3 credits.
Introduces design and use of health and medical databases, providing hands-on experience. Explores uses of medical record systems. Includes review and analysis of databases and database management systems. Examines application of databases to clinical and managerial transaction. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 711: Quality Improvement in Health Services.** 2 credits.
Examines how quality in healthcare is measured and controlled in order to improve processes and outcomes. Demonstrates how interdisciplinary teams analyze quality by applying a variety of quantitative methods (such as statistical process control, histograms, and Pareto charts); and qualitative methods (such as root cause analysis, affinity diagrams, nominal group technique, and flow charts). Analyzes performance improvement techniques designed to improve processes. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 712: Topics in Public Policy.** 3 credits.
Presents selected topics current in public policy related to health care and health care administration. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**HAP 713: Project Management in Health Information Technology.** 3 credits.
Applies body of knowledge in project management to the implementation of information technology and systems in healthcare organizations. Examines how tasks such as needs assessment, project planning, project cost analysis, risk management, and management of personnel are readily included in the use of health information systems. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 715: Health Economics.** 3 credits.
Uses economic tools to illuminate the healthcare delivery and financing systems in the US. Explores the production of and demand for health, health care, and health insurance, and how incentives affect choices. Focuses on the US but also draws examples from other countries, since health economics principles apply everywhere, even though values, resources, priorities and constraints vary. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 717: Population Health Informatics. 3 credits.**
Provides students with foundational principles, informatics tools, methodologies, data sources, terminologies, and policy issues related to the emerging field of population health informatics. Examines key concepts such as registries, electronic health records, epidemiological databases, and quality reporting. Employs specific health informatics tools throughout the course, with many opportunities for gaining practical experience. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 709.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 718: Consumer Health Informatics. 3 credits.**
Exposes students to the emerging subfield of health informatics, which is at the intersection of public and community health, health education, and more traditional informatics areas. Demonstrates the use of technology to increase awareness and improve population health. Reviews issues involved in consumer health informatics, and explores hands-on informatics tools and applications. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 709.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 719: Advanced Statistics in Health Services Research I. 3 credits.**
Covers principles and methods of statistical data analysis and inference. Emphasizes the use and application of various data analysis techniques and their assumptions. Computer outputs will be used to demonstrate the application of statistical techniques in analyzing health related data sets. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 602 or GCH 601 or an equivalent statistics course.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 720: Health Data Integration. 3 credits.**
Students learn to manipulate large databases, create link table queries, write SQL application programs, understand sources of data conflicts, and identify methods of integrating ODBC databases with legacy data. Covers data warehousing, methods of analyzing large databases, including Bayesian belief networks and machine learning in health care context. Features semester long data integration group project. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 721: Project in Data Analysis. 1-4 credits.**
Focuses on analysis of data from electronic health records. Includes instruction on preparation of data including (a) removing inaccurate information, (b) organizing the timing of events/variables, (c) summarizing time-based variables. Students work on real data obtained by them from a practicum through an employer or real data supplied by instructor. Students must complete a literature review, describe methods used, present results, and discuss findings. Offered by Health Administration & Policy (p. 250). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** HAP 361 and HAP 602 or equivalent statistics and database courses.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 724: Analysis for Healthcare Executive Decision Making. 3 credits.**
Challenges students to solve complex problems by integrating the knowledge, skills, and abilities attained in prerequisite courses. Applies quantitative and qualitative tools and methods and critical thinking skills to find solutions to comprehensive case studies. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 686, HAP 703, HAP 705.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 725: Statistical Process Control in Healthcare. 3 credits.**
Provides students with hands-on experience with data from electronic health records. Introduces students to causal analysis of observational data, including propensity scoring and stratification. Provides students with access to simulated data from electronic health records. Exposes students to trends that influence the quality management system and drivers for change, including measures used by CMS to strengthen value
based payment. Offered by Health Administration & Policy (p. 250). May
not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 730: Health Care Decision Analysis. 3 credits.
Students analyze practice patterns and find optimal methods of
improving them. Uses decision analysis and failure mode analysis in
health care settings. Students integrate scientific evidence, patients’
preferences, and experts’ opinions to identify optimal alternatives.
Offered by Health Administration & Policy (p. 250). May not be repeated
for credit.

Recommended Prerequisite: Graduate-level statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 735: Fundamentals of Patient Safety and Risk Management. 3 credits.
Students build and interpret causal model of risks and test the accuracy
of them against extant incidence reports using risk analysis models,
risk analysis life cycle, as well as methods of evaluating the validity and
reliability of risk analysis. Bayesian probability models, probabilistic risk
analysis, root-cause analysis, and failure mode analysis are covered.
Includes applications to terrorism, unauthorized disclosures, and patient
safety. Offered by Health Administration & Policy (p. 250). May not be
repeated for credit.

Recommended Prerequisite: HAP 730, or equivalent approved by
instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 740: Management of Health Information Systems. 3 credits.
Introduces health and medical information systems with emphasis
on systems analysis and design to support managerial and clinical
communications and decision making. Explores trends and innovations
in information technology and systems, focusing on managerial oversight
of health and medical information systems. Explores contemporary
management strategies for information systems personnel. Offered by
Health Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 742: Health Policy Development and Analysis. 3 credits.
Provides an overview of the core elements of a health policy analysis,
including problem definition, background, policy options, and
recommendations. Explores the policymaking process, key stakeholders,
and types of analytic frameworks used in the development of U.S.
healthcare policy. Students will apply key concepts and frameworks
to analyze a health policy issue and clearly communicate information
in written assignments and oral presentations. Offered by Health
Administration & Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 745: Health Care Security Policy. 3 credits.
Focuses on health security and privacy policy and compliance issues.
Students will develop policies for the type of threats faced by facilities.
The legal and business policies for facility, personnel, travel, information,
and patient security will be discussed. Offered by Health Administration &
Policy (p. 250). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HAP 746: Health Policy Leadership. 3 credits.
Examines leadership strategies to influence health policy-making from
a community stewardship and interest group advocacy perspective.
Students will develop an understanding of how health and socio-
economic issues affect the development, implementation and change
of health policy, appreciate the complexity of engaging the public policy
process, and selectively employ strategies to influence politics and
the policy making process. Offered by Health Administration & Policy
(p. 250). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
HAP 750: Legal Issues in Health Administration. 3 credits.
Examines legal issues facing the healthcare industry. Prepares health professionals to understand legal principles, statutes, regulations, and case law related to managing health care organizations and health professionals’ practice. Students are provided with practical knowledge of health law and its application to actual work experience. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 752: Advanced Health Information Systems. 3 credits.
Provides in-depth analyses of health information systems including Electronic Health Records, Personal Health Records, and Decision Support Systems. Analyzes architectural trends, workflow redesign, and implementation strategies. Describes new trends in computing technologies and infrastructure in health applications. Laboratory time provides learning experience and practical skills in various allied situations. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 700 and HAP 709, or permission by the instructor or Program Coordinator.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 760: Philosophy of Science in Health Services Research. 3 credits.
An introductory course on the theory and philosophy of science and humanism that relate to the design and conduct of health services research. The course examines selected theories on the nature of reality (ontology), the justification of knowledge claims (epistemology), and how knowledge is constructed (methodology) in design and analysis of health services research. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** Admission to a doctoral program or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 762: Cost-Effectiveness for Health Care Management and Policy Decisions. 3 credits.
A survey course in health services research methods for the application of economic evaluation techniques used in health care policy analysis and clinical or administrative applications for health care service planning and evaluation. Introduces methods applied to health care technology assessment, medical decision making, health resource allocation, and policy-making. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 764: Health Policy and Government Payment Systems for Health Care Services. 3 credits.
Examines the rationale for government intervention in provider payment and explores the current policy issues and politics of major government provider payment systems, including Medicare and Medicaid, and examines options for managing these programs more effectively. The course will "follow the money" as it flows through government and provider payment systems, model potential changes in such systems, and identify policies for improving the operation of these programs and payment systems. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 770: Medical Decision Making and Decision Support Systems. 3 credits.
Introduces the complex subject of medical decision making. Examines systematic approaches to decision making. Explores principles governing the design, application, and maintenance of clinical decision support systems. Laboratory time provides learning experience in various applied situations. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 701 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 775: Implementing Health Reform in Health Service Organizations. 3 credits.
Prepares health professionals to understand, lead, and manage health service organizations undergoing payment reform, evolving quality and
outcomes reporting requirements, process redesign challenges, culture change, and a changing regulatory environment. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 678.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 777: *Health Data Visualization*. 3 credits.
Introduces the principles and techniques of data visualization with special focus on applications in healthcare. Students will learn practical skills to make visually appealing graphics on web browsers to present their data using a publicly available JavaScript library D3 (Data-driven documents). Notes: Assumes that students have basic knowledge of the web, browsers, HTML, CSS, and JavaScript programming. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 780: *Data Mining in Health Care*. 3 credits.
An introductory course to data mining and knowledge discovery in health care. Methods for mining health care databases and synthesizing task-oriented knowledge from computer data and prior knowledge are emphasized. Topics include fundamental concepts of datamining, data preprocessing, classification and prediction (decision trees, attributional rules, Bayesian networks), constructive induction, cluster and association analysis, knowledge representation and visualization, and an overview of practical tools for discovering knowledge from medical data. These topics are illustrated by examples of practical applications in health care. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** Graduate-level statistics course.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 789: *Pre-Capstone Professional Development Seminar*. 1-3 credits.
Provides students with guidance and preparation for engaging in the capstone practicum. Offered by Health Administration & Policy (p. 250). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

HAP 790: *Capstone Practicum in Health Systems Management*. 3 credits.
Field practicum in health systems management where students function as an integral member of an organizational entity to complete a non-thesis project while continuing to build skills in leadership, critical thinking and systematic problem analysis. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** All coursework in the major.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

HAP 793: *Final Project in Applied Health Policy*. 3 credits.
Provides students experience in executing an approved written research project related to a public health policy issue. Students will demonstrate skills learned in the MSHMP program. Projects require students to understand different positions related to a particular policy issue, to assess existing evidence and research related to the policy issue, and to formulate additional research questions. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

Provides students with skills to develop their research proposal, conduct their research, and complete their thesis in a relevant field of study. Offered by Health Administration & Policy (p. 250). May be repeated within the degree.

**Recommended Prerequisite:** Admission to one of the master's programs in the department and permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**800 Level Courses**

HAP 819: *Advanced Statistics in Health Services Research II*. 3 credits.
Covers principles and methods of advanced statistical data analysis and inference with applications in health services research. Emphasizes the use and application of various data analysis techniques, including multivariate statistics, regression and longitudinal data analysis. Use of
statistical software STATA demonstrates the application of statistical techniques in analyzing health related data sets. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 719.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 823: Comparative Effectiveness Analysis using Observational Data.** 3 credits.
Applies linear and logistic regression to analysis of comparative cost and effectiveness using massive data in electronic health records. Emphasizes (1) ridge regression and (2) propensity scores. Covers the following topics: (1) counterfactual framework and assumptions, (2) data balancing, (3) matching or weighting, and (4) sensitivity analysis. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 719.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 835: Causal Inference in Health Services Research.** 3 credits.
Discusses the nature of causation and alternative means of inferring causal relationships. Included are experimentation, matching, instrumental variables, conditioning, and mechanism in network models. Covers a broad range of methodological considerations that emerge in identifying causal effects. The focus is less on analysis of data and more on considerations of causal inference in non-randomized study design. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 868: Advanced Research Seminar in Health Policy Analysis.** 3 credits.
Seminar on advanced research methods that analyzes theoretical and analytic foundations to critique health services research and health policy analysis. Students synthesize, integrate, and apply theoretical knowledge and advanced skills relevant to health services research, policy analysis, and program evolution. Notes: Limited to doctoral students having completed core courses in statistics and research design, or permission of instructor. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 703 or equivalent or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 880: Advanced Health Data Mining.** 3 credits.
Provides the knowledge and skills needed to analyze health data using modern tools. Describes analytics of administrative and clinical data. Covers concepts and tools for big data analytics and NoSQL data analytics. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** HAP 719, HAP 780, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**900 Level Courses**

**HAP 925: Advanced Methods in Qualitative Research for Health Care.** 3 credits.
Builds upon the foundation of qualitative research in health care. Designed to develop skills in data generation techniques; data analysis using NVivo and text analysis software, including narrative and intentions analysis; application of standards for qualitative research; and utilization of various styles for qualitative reports and research proposals. The course also reviews mixed methods designs for research studies. Offered by Health Administration & Policy (p. 250). May not be repeated for credit.

**Recommended Prerequisite:** NURS 920 or HAP 835

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HAP 998: Doctoral Dissertation Proposal.** 1-6 credits.
An independent study for HAP doctoral students resulting in the development of a doctoral dissertation proposal. Includes development of the research problem, study methods, data analysis and literature review. Notes: The course must be supervised by a HAP faculty member qualified to serve as a dissertation chair. Offered by Health Administration & Policy (p. 250). May be repeated within the degree for a maximum 36 credits.

**Recommended Prerequisite:** Advancement to candidacy.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)
HAP 999: Doctoral Dissertation. 1-9 credits. Under faculty direction, develop dissertation proposal and complete the dissertation. Offered by Health Administration & Policy (p. 250). May be repeated within the degree for a maximum 25 credits.

**Recommended Prerequisite:** All courses in the PhD program.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**

This course is graded on the Satisfactory/No Credit scale. (p. 82)

---

**Health and Human Services (HHS)**

**400 Level Courses**

HHS 432: Healthy Aging. 3 credits. Offers a broad perspective of normal aging in the older adult, and the impact of chronic disease and psychosocial and cultural factors on the aging process. Offered by Health and Human Services (p. 236). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

HHS 480: Research Internship in Health and Human Services. 3 credits. The student works as a member of a team engaged in health and human services research and attends a bi-weekly research seminar. Under direction of the course seminar leader and the faculty research mentor, the student will acquire selected research skills and develop introductory research writing and presentation skills. Offered by Health and Human Services (p. 236). May not be repeated for credit. Equivalent to HAP 480, SOCW 480.

**Recommended Prerequisite:** Open only to CHHS majors or students who have completed CHSS minor or certificate courses.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

HHS 491: Foundations of Clinical Research. 1 credit. Provides students with fundamental concepts and basic analytic methods pertaining to the design, analysis, and interpretation of clinical research. Outlines the research process by introducing the components of research - from beginning a literature search, to designing an experiment, to selecting appropriate outcome measures, and collecting data. Offered by Health and Human Services (p. 236). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

HHS 492: RS: Internship in Clinical Research. 3 credits. Provides students with experiential learning in a research laboratory that focuses on clinical health research. Students are matched with a clinical research supervisor that provides both research and professional development mentorship. Through this opportunity, students enhance their research, critical thinking, problem-solving and presentation skills. An application must be submitted in the semester prior to enrollment in the course. During the semester prior to entry, students may be asked to acquire certain competencies/certifications in order to fully participate at their research site (e.g., human subjects research protections training, lab safety, certification, HIPAA training). Offered by Health and Human Services (p. 236). May not be repeated for credit.

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** Course is open to honors college students only.

**Schedule Type:** Independent Study

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

---

**500 Level Courses**

HHS 597: Approaches to Quantitative Data Analysis in Health Care Research. 3 credits. Examine univariate and bivariate statistical procedures appropriate for analyzing quantitative health care research data. Includes selecting, applying, and interpreting data analysis procedures. Offered by Health and Human Services (p. 236). May not be repeated for credit.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Graduate Regular scale. (p. 82)

---

**600 Level Courses**

HHS 646: Social Gerontology. 3 credits. Examines physical, psychological, sociological, cultural, spiritual, and economic aspects of aging and explores the challenges of service delivery to older persons. Considers the impact of aging populations on the social structure, economy, demography, and social policy of society and identifies social and cultural forces that influence older persons and their families, with special regard to caregiving, institutionalization, and social roles in retirement. Offered by Health and Human Services (p. 236). May not be repeated for credit.

**Registration Restrictions:** Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HHS 648: Aging and Health.** 3 credits. Provides an overview of normal aging and explores factors that affect health and well being in older adults; demonstrates strategies for maintaining health and managing chronic illness in older adults; examines common misconceptions about aging and healthcare issues; and explores the process of normal aging and the presentation of common health conditions in older adults. Offered by Health and Human Services (p. 236). May not be repeated for credit. Equivalent to NURS 648.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**HHS 702: Health Promotion and Disease Prevention.** 3 credits. Prepares students to address health needs of individuals or groups through health promotion and disease prevention. Emphasis is placed on research evidence and motivational interviewing to improve healthy lifestyle, prevent disease and manage chronic conditions. Offered by Health and Human Services (p. 236). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**800 Level Courses**

**HHS 810: Systematic Reviews of Healthcare Research.** 3 credits. Applies systematic methods for evaluating current research in order to develop empirically-based decisions about the next major research questions that need to be addressed in the students’ selected area of inquiry. Offered by Health and Human Services (p. 236). May not be repeated for credit.

**Recommended Prerequisite:** Master’s degree in nursing, social work or health-related discipline.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HHS 818: Advanced Ethics of Healthcare Research.** 3 credits. Analyze ethical issues associated with designing and conducting healthcare research in diverse populations and settings. Offered by Health and Human Services (p. 236). May not be repeated for credit.

**Recommended Prerequisite:** Master’s degree in nursing, social work, or health-related discipline.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HHS 825: Conducting and Publishing Healthcare Research.** 3 credits. Apply scientific and ethical principles of inquiry by participating in a guided healthcare research practicum and seminars. Apply principles of writing for scientific publication. Offered by Health and Human Services (p. 236). May not be repeated for credit.

**Recommended Prerequisite:** Master’s degree in nursing, social work, or health-related discipline.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Hebrew (HEBR)**

**100 Level Courses**

**HEBR 101: Elementary Hebrew I.** 3 credits. Designed for students with no knowledge of Hebrew. Introduction including grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HEBR 102: Elementary Hebrew II.** 3 credits. Continuation of HEBR 101. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** HEBR 101 or equivalent.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HEBR 150: Introduction to Biblical Hebrew.** 3 credits. Introduces basic vocabulary, grammar, and development of reading skills with introduction to religion and culture of ancient Israel that produced the Hebrew Bible/Old Testament. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Schedule Type:** Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HEBR 160: Readings in Biblical Hebrew. 3 credits.
Continuation of HEBR 150 to increase students’ proficiency in vocabulary and understanding of morphology and syntax. Selected passages from Hebrew Bible read; students introduced to text formation and analysis. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: HEBR 150 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

HEBR 201: Intermediate Hebrew I. 3 credits.
Further development of skills acquired in HEBR 101 and 102, including grammar, oral expression, listening comprehension, reading, and writing. Notes: Lab work required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: HEBR 102 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HEBR 202: Intermediate Hebrew II. 3 credits.
Continuation of HEBR 201. Notes: Lab work required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: HEBR 201 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Fulfills foreign language requirement.

Higher Education (HE)

600 Level Courses

HE 601: The Community College. 3 credits.
Studies institutional character of the community college, including history, purpose, clientele, organization, finance, and social function. Studies issues currently faced by community colleges. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 602: College Teaching. 3 credits.
Describes issues that affect teaching and learning and provides basic tools to use in college classroom. Teaches how to plan course, develop syllabus, promote learning among diverse students, and implement classroom assessment techniques. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 603: Higher Education in the Digital Age. 3 credits.
Studies how digital tools and resources shape and are shaped by higher education both inside and outside of the classroom. Includes the complex ways in which colleges integrate changing teaching and learning, information, and communication technologies. Combining reading, writing, viewing and hands-on learning, students examine issues through the content and lens appropriate for their discipline and goals. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Recommended Prerequisite: Basic familiarity with computer operations

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 605: Learning Assessment. 3 credits.
Focuses on classroom and program-level learning assessment, and describes the political and historical context for assessment. Offers hands-on practice of assessment for instructors and student affairs professionals. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in College Teaching, Education (Community College), Education, Higher Ed Administration or Interdisciplinary Studies.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HE 606: Diversity in Higher Education.** 3 credits.
Explores instructional interactions and communication strategies for diverse learner populations. Includes discussion of sociological, behavioral, and cognitive theory on culture. Offered by Higher Education Program (p. 533). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HE 610: Research Designs in Higher Education.** 3 credits.
Provides an introduction to higher education research methodologies, analysis, and decision-making through introduction of basics of research design including problem identification, literature review, method selection, data collection and analysis, application, writing, and ethics. Offered by Higher Education Program (p. 533). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HE 624: Finance and Fiscal Management in Higher Education.** 3 credits.
Overview of higher education finance and fiscal management. Offered by Higher Education Program (p. 533). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HE 641: Introduction to Helping Skills.** 3 credits.
Focuses on helping skills that assist others in reflecting on concerns, considers possible causes of problems, and contemplates options and strategies for problem solving. Introduces students to and practices basic helping skills. Explores ethical issues surrounding helping skills and determining when to refer students to professional counselors. Offered by Higher Education Program (p. 533). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HE 643: Multicultural Helping Skills.** 3 credits.
Sensitizes students to and promotes an understanding of multiple cultures and encourages students to examine their own attitudes toward various groups, explore their own identities, and to acquire expertise in the use of helping skills with various populations. Emphasizes the learning of approaches and the application of techniques that facilitate effective multicultural communication in higher education. Offered by Higher Education Program (p. 533). May not be repeated for credit.

**Recommended Prerequisite:** CTCH 641 or HE 641.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
HE 644: Management and Administration of Student Services in Higher Education. 3 credits.
Focuses on development and organization of student personnel programs and services in institutions of higher learning. Covers philosophy, methods, and techniques. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 645: The Contemporary College Student. 3 credits.
Analyzes changing demographics, barriers, and developmental issues facing college students. Studies impact of college environment on student development, and interaction between students of varying subcultures and the environment. Examines technology issues and their impact. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 646: Student Development Theory. 3 credits.
Addresses developmental issues facing students, including adult students; factors that affect development; and the need to work with individuals, groups, and organizations within the campus community to establish conducive learning environments. Application of psychosocial, cognitive development, identity, and person-environment interaction theories are considered in depth. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 685: Practicum. 3 credits.
Experiential learning that could include supervised on-the-job experience, academic service learning, community outreach, or research field work in approved college or university setting or public agency involved in higher education. Develops skills applicable to higher education. Approval of practicum coordinator needed one semester before registration. Notes: Minimum 150 hours of work and participation in internship seminar. Offered by Higher Education Program (p. 533). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to certificate or MAIS/Higher Education program; approval of advisor and practicum coordinator; 12 credits of core requirements; and 3 additional credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

700 Level Courses

HE 701: Higher Education Law. 3 credits.
Introduces students to laws and legal issues that impact higher education and establishes a general familiarity with higher education law. Uses a case study approach to teach students to recognize when a legal issue presents itself in situations involving students, faculty, or administration. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 702: Contemporary and Critical Theories in Higher Education. 3 credits.
Uses the philosophical and sociological grounding of higher education research to provide guidance on decision-making in ambiguous and complex higher education organizations. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 703: Digital Technologies and Learning. 3 credits.
Researches changing digital landscape in higher education. Combines reading, writing, viewing, and assessing hands - on learning in the digital
context with speculation about future digital capabilities. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 704: The Scholarship of Teaching and Learning. 3 credits.
Overview of scholarship on teaching and learning in higher education. Focuses on ways students learn, how learning can be improved, and different methods of conducting research into teaching and learning. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 705: Access and Social Justice. 3 credits.
Examines the inequitable structural systems that produce unequal access to higher education. Examines the meaning of social justice in higher education, and emphasizes policy, administrative processes, and educational practices. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 710: Leadership in Higher Education. 3 credits.
Focusing on the leadership of higher education and the role leaders play in institutional transformation, this course explores the complex social and political environments and the current and future trends of higher education. This focus occurs through the foundational grounding of leadership theory and research. Students will be challenged to employ multiple perspectives of leadership in higher education. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 711: Policy Analysis in Higher Education. 3 credits.
Intended as a toolkit for the understanding and creation of evidence-based analysis of public policy issues at all levels of governance, this course examines examples of policy research and analysis prompted from discussion around higher education policy issues. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 712: Advanced Institutional and Program Assessment in Higher Education. 3 credits.
Examines educational assessment and evaluation practices and methods. Students critique and design an evaluation study and an evaluation report. Reviews ethical issues and impact of assessment and evaluation for students, employees, and programs. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 713: The Internationalization of Higher Education. 3 credits.
Explores the internationalization of higher education through various lenses including administration, student services, curriculum integration, study abroad, and branch campus development. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 722: Organization and Administration in Higher Education. 3 credits.
Provides concepts of organization and administration in contemporary institutions from macro to micro perspectives. Studies theory and practices of the organization as it relates to governance, structure, and management of the institution. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)
HE 785: Research Apprentice. 3 credits.
Participation in research or assessment study under the supervision of a faculty member. Written report required. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Recommended Prerequisite: HE 610.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 792: Special Topics in Higher Education. 1-3 credits.
Covers current topics in higher education. Notes: May be repeated when topic is different. Offered by Higher Education Program (p. 533). May be repeated within the degree.

Recommended Prerequisite: Admission to doctoral program or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HE 798: Higher Education Project. 1-3 credits.
Under the supervision of a faculty advisor and project evaluation committee, students create a project from existing literature. Project must be a deliverable with a practical application related to student development and higher education. Offered by Higher Education Program (p. 533). May be repeated within the degree. Equivalent to MAIS 798.

Recommended Prerequisite: HE 610.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Original research related to student development or higher education. Offered by Higher Education Program (p. 533). May be repeated within the degree. Equivalent to MAIS 799.

Recommended Prerequisite: HE 610, HE 785.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

800 Level Courses

HE 805: Research Methodologies in Higher Education. 3 credits.
Provides a review of sophisticated research methodologies commonly used in higher education including collection and analysis procedures, ethics, and decision-making. Alignment of research questions, method selection, data collection and analysis procedures, implications, and writing are examined. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Education (Community College).

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Arts or Doctor of Philosophy degrees.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 806: Qualitative Methods in Higher Education Research. 3 credits.
Examines the philosophical and epistemological foundations that guide qualitative inquiry. Trustworthy data collection methods and means of analysis are stressed and practiced. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Recommended Prerequisite: HE 805.

Registration Restrictions:
Enrollment is limited to students with a major in Education (Community College).

Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Arts or Doctor of Philosophy degrees.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HE 807: Quantitative Methods in Higher Education Research. 3 credits.
Develops ability to conduct applications of quantitative methods in higher education research. Reinforces skills acquired in previous research courses. Learning occurs through reading assignments, hands - on experience in using a computer program for data analysis, and application activities. Students will identify and report on quantitative methods used in published research, analyze data, and provide written results. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Recommended Prerequisite: HE 805.

Registration Restrictions:
Enrollment is limited to students with a major in Education (Community College).
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Arts or Doctor of Philosophy degrees.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**HE 821: History of Higher Education in the United States.** 3 credits.
Key issues and moments in the history of higher education are examined as a way to understand current structures, cultures, policies, and purposes. Historical perspective will also be used to consider the near future of higher education. Students will examine current trends and possible futures for a specific topic by doing historical research on the issue. Offered by Higher Education Program (p. 533). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**HE 885: Doctoral Internship in College Teaching and Administration.** 3 credits.
Supervised internship at a community college, four-year college or university, or nonteaching higher-education setting such as a government agency or administrative office. Develops skills applicable to college teaching or higher education administration or policy. Students must complete a minimum of 180 hours of work and participate in internship seminar. Notes: Students must contact the program at least one semester before enrolling. Offered by Higher Education Program (p. 533). May be repeated within the degree.

Recommended Prerequisite: Admission to doctoral program; approval of advisor and internship coordinator, 18 credits of graduate course work.

Registration Restrictions:
Enrollment is limited to students with a major in College Teaching, Education (Community College) or Education.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**HE 897: Directed Reading in Higher Education.** 1-6 credits.
Independent reading on topic agreed on by student and instructor. Offered by Higher Education Program (p. 533). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to the doctoral program and permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Education (Community College).

Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**900 Level Courses**

**HE 998: Doctoral Dissertation Proposal.** 1-3 credits.
Contact program for permission to register. Work on research proposal that forms basis for doctoral dissertation. Offered by Higher Education Program (p. 533). May be repeated within the degree.

Recommended Prerequisite: Completion of all course work and qualifying exams.

Registration Restrictions:
Enrollment is limited to students with a major in Education (Community College).

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**HE 999: Doctoral Dissertation.** 1-12 credits.
Doctoral dissertation research and writing under direction of dissertation committee. Offered by Higher Education Program (p. 533). May be repeated within the degree.

Recommended Prerequisite: HE 998 and appointed dissertation committee.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to students with a major in Education (Community College).

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**History (HIST)**

**100 Level Courses**

**HIST 100: History of Western Civilization.** 3 credits.
History of Western civilization from ancient Mediterranean origins through medieval and modern development of Europe to contemporary world. Notes: Students who take HIST 100 may not receive credit for HIST 101 or HIST 102. Offered by History & Art History (p. 387). May not be repeated for credit. Equivalent to HIST 101, HIST 102.

Mason Core: Western Civilization (p. 137)

Schedule Type: Lecture, Recitation
200 Level Courses

HIST 202: Freshman/Sophomore Seminar in Global History. 3 credits.
Focuses on skills, methods of learning, and subject matter to introduce
discipline of history. Notes: Topics vary. Offered by History & Art History
(p. 387). May not be repeated for credit. Equivalent to SYST 202.

Recommended Prerequisite: Freshman or sophomore standing.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 251: Survey of East Asian History. 3 credits.
Surveys history of China and Japan from prehistoric times to ca. 1600.
Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 252: Survey of East Asian History. 3 credits.
Surveys history of China and Japan from early modern times (ca. 1600)
to present. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 261: Survey of African History. 3 credits.
Focuses on the sub-Saharan region and examines evolving systems
of kinship power, spirituality, and slavery. Explores the interactions
between Africans and global influences from the religions of the book
and colonialism to the politics of development and continuities and changes
in production. HIST 261 surveys African history from the earliest times
to 1800. HIST 262 surveys African history from 1800 to the present. Offered
by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 262: Survey of African History. 3 credits.
Focuses on the sub-Saharan region and examines evolving systems
of kinship power, spirituality, and slavery. Explores the interactions
between Africans and global influences from the religions of the book
and colonialism to the politics of development and continuities and changes
in production. HIST 261 surveys African history from the earliest times
to 1800. HIST 262 surveys African history from 1800 to the present. Offered
by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 101: Foundations of Western Civilization. 3 credits.
Evolution of Western culture from ancient Mediterranean world to
formation of modern Europe in 17th century. Notes: Students may not
receive credit for HIST 101 if they have taken HIST 100. Offered by History
& Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 102: Development of Western Civilization. 3 credits.
History of Western institutions and ideas from 17th century to the
present. Notes: Students may not receive credit for HIST 102 if they have
taken HIST 100. Offered by History & Art History (p. 387). May not be
repeated for credit. Equivalent to HIST 100.

Mason Core: Social/Behavioral Sciences (p. 137)

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 121: Formation of the American Republic. 3 credits.
Social, political, economic, and intellectual growth of American
institutions from colonization through Reconstruction. Notes: Students
may not receive credit for HIST 121 if they have taken HIST 120. Offered by
History & Art History (p. 387). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 122: Development of Modern America. 3 credits.
History of the United States since 1877. Notes: Students may not receive
credit for HIST 122 if they have taken HIST 120. Offered by History & Art
History (p. 387). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 261: Survey of African History. 3 credits.
Surveys history of Africa from 1800 to the present. Offered by History &
Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 262: Survey of African History. 3 credits.
Surveys history of Africa from the earliest times to 1800. Offered by
History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 271: Modern Western Civilization. 3 credits.
Focuses on Western civilization in the 19th and 20th centuries. Notes:
Students may not receive credit for HIST 271 if they have taken HIST 270.
Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 272: Modern Western Civilization. 3 credits.
Focuses on Western civilization in the 19th and 20th centuries. Notes:
Students may not receive credit for HIST 272 if they have taken HIST 271.
Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 291: Special Topics. 1–3 credits.
Notes: Topics vary. Offered by History & Art History (p. 387). May not be
repeated for credit.
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

HIST 300: Introduction to Historical Method. 3 credits.
Introduces research skills and methods, as well as historical interpretation, culminating in written and oral presentations. Notes: Topics vary according to instructor. History majors strongly urged to take HIST 300 as soon as possible after reaching 30 credits. Grade of C or better is required to graduate with BA in history. Students may repeat HIST 300 only with permission from the Department of History and Art History and repetitions are limited. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Synthesis (p. 137)
Specialized Designation: Scholarly Inquiry, Writing Intensive in the Major
Recommended Prerequisite: History majors with 30 credits or permission of instructor.
Registration Restrictions:
Enrollment is limited to students with a major in History.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 301: Classical Greece. 3 credits.
Political, social, economic, and cultural history of classical Greece from development of the city-state through 5th century. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 302: Classical Rome. 3 credits.
Political, social, economic, and cultural history of classical Rome from founding of the city through fall of Roman republic. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 304: Western Europe in the Middle Ages. 3 credits.
Survey of development of European society from collapse of Roman rule in 5th century to advent of Black Death in 14th century. Emphasizes political, social, cultural, and intellectual growth of society that developed from Roman, Catholic, and Germanic roots. Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: 6 hours of history or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 305: The Renaissance. 3 credits.
Survey considering Renaissance as phenomenon rather than chronological period. Emphasizes growth of humanism in Italy in
14th and 15th centuries, development of new political concepts, and laicization of society. Includes transmission of these developments to transalpine Europe in late 15th and 16th centuries. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 306: The Reformation. 3 credits.
Late medieval ecclesiastical conditions and reform movements, late scholasticism, Protestant Reformation, Catholic Reformation, dynastic rivalries, and religious wars. Concludes with Peace of Westphalia. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 307: Old Regime and Revolutionary Europe. 3 credits.
Political, social, economic, and cultural history of Europe from 1648 to 1815. Crisis of authority, consolidation of the state, absolutism, colonial expansion, the Scientific Revolution and the Enlightenment, and the French Revolution and Napoleon. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 308: Nineteenth-Century Europe. 3 credits.
History of Europe from Congress of Vienna to outbreak of World War I. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 309: Europe in Crisis: 1914-1948. 3 credits.
Two world wars, the Great Depression, and political and cultural revolutions transformed Europe as never before. Explores causes and consequences of these tumultuous events, and concludes with consideration of reconstruction that caps period. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 312: Nationalism in Eastern Europe. 3 credits.
Examines history of modern Eastern Europe from mid-19th century through collapse of communist regimes in 1989, and includes focus on Yugoslav wars of 1990s. Nationalism provides organizing theme; topic approached through literature, political, social, cultural, and new media sources. Class sessions emphasize discussion of central issues and sources. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 314: History of Germany. 3 credits.
Political, diplomatic, economic, social, and cultural development of Germany from dissolution of Holy Roman Empire to present. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 322: Modern Britain. 3 credits.
History of Britain from mid-18th century to present. Focuses on social, political, and economic transformations of industrialization; culture of 19th-century industrial society; problems of late 19th-century economic competition and imperialism; creation of welfare state; and experience of post-World War II political, social, and economic realignments. Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: 6 hours of history or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 326: Stalinism. 3 credits.
Examines Josef Stalin and Stalinism as a political, economic, social, and cultural system, with a focus on the period from Lenin's death in 1924 through Stalin's death in 1953. Explores the history of rapid industrialization, collectivization of agriculture, famine, terror, war, Cold War, and human suffering in the Soviet Union and Eastern Europe. Offered by History & Art History (p. 387). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 327: The Soviet Union and Russia Since World War II. 3 credits.
Analyzes the Soviet Union, the Cold War "enemy" of the United States, from victory in World War II under Joseph Stalin through collapse in 1991. Studies the fifteen independent countries that emerged from the Soviet collapse, including Russia, the Baltic States, Ukraine, Belarus, Moldova, Central Asia, and the Caucasus, which continue to influence world politics and culture today. Offered by History & Art History (p. 387). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 328: Rise of Russia. 3 credits.
Political, social, and cultural development of Russia from early times to the end of the 19th century. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
**Specialized Designation:** Non-Western Culture

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 329:** Modern Russia and the Soviet Union. 3 credits.
Russia and the Soviet Union from the early 20th century to the present. Focuses on the Russian Revolution and the political, social, cultural, and economic developments of the Soviet and post-Soviet eras. Offered by History & Art History (p. 387). May not be repeated for credit.

**Mason Core:** Global Understanding (p. 137)

**Specialized Designation:** Non-Western Culture

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 331:** Postwar United States, 1945-1973. 3 credits.
Examines political, cultural, and economic history in the three decades after 1945. Themes include the emergence of the civil rights movement and feminism; the domestic and international events of the Cold War, especially the Vietnam War; and the rise and fall of the presidency's prestige in the years of the Great Society and Watergate. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 332:** United States since 1973. 3 credits.
Examines political, cultural, and economic history since the end of the Vietnam War. Themes include the shifting political economy of the country during the resurgence of conservatism, the political debates over culture and identity, and the waning of the Cold War and its replacement with other international concerns. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 333:** The Automobile in the United States. 3 credits.
Examines the biography of one of the most important characters in twentieth-century U.S. history: the automobile. Embraces the histories of business, policy, labor, the environment, technology, and culture, and seeks a holistic understanding of the role of the car in American life. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 335:** The African American Experience in the United States: African Background to 1885. 3 credits.
History of African American experience in United States including African origins; trans-Atlantic slave trade; development of slavery in colonial, revolutionary, and antebellum periods; abolitionist movements; and African American participation in Civil War and during Reconstruction. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 336:** The African American Experience in the United States: Reconstruction to the Present. 3 credits.
History of African American life in post-slavery America, and rise and consequences of racial segregation in 19th and 20th centuries. Examines African American response to continued racial inequality and repression. Covers great migration, urbanization, black nationalism, and civil rights era, as well as contemporary debates about race. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 337:** Race and Gender in American Sports. 3 credits.
Examines how ideas about race and gender have affected sports in America from late 19th century to the 1980s. Will also consider how athletes and sporting activities have shaped American racial and gender paradigms. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 338:** History of College Athletics. 3 credits.
Examines America's unique blend of higher education and sports from 1870s to modern collaborations between college athletic programs and America's media outlets. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 339:** History of Baseball. 3 credits.
Examines development of baseball in U.S. context of labor, intellectual, economic and political events including racial segregation. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 340:** Basketball and the American Experience. 3 credits.
Explores history of basketball in the United States since the late 1800s. Examines how basketball reflects and informs attitudes toward race, ethnicity, gender, and national identity. Possible topics include YMCA movement, Jews in basketball, racial segregation, growth of college basketball, international politics, evolution of black aesthetic, ABA-NBA merger, women's basketball, Magic Johnson-Larry Bird rivalry, Michael Jordan, and basketball's professionalization, commercialization, and globalization. Offered by History & Art History (p. 387). May not be repeated for credit.
HIST 353: History of Traditional China. 3 credits.
China from earliest times to period of modern Western intrusion. Development of traditional Chinese culture, society, and government. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 354: Modern China. 3 credits.
China from 1644 to the People's Republic of China. Emphasizes coming of West and various stages of Chinese reaction. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture
Specialized Designation: Non-Western Culture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 356: Modern Japan. 3 credits.
Japan from Meiji Restoration to World War II. Emphasizes Japan's modernization in face of challenge. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture
Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 357: Postwar Japan. 3 credits.
History of Japan from World War II to present. Examines Japanese experience of several key moments: Japan's defeat in Pacific War, reconstruction during U.S. occupation, rise to economic prominence during 1960s and 1970s, and cultural and international identity crisis during 1980s and 1990s. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture
Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 358: Post-1949 China. 3 credits.
Puts People's Republic of CHINA (PRC) into historical context by assessing legacies of China's socialist revolution (1949-1976) and post-socialist reforms (1978-present). Explores revolutionary heritage of the Chinese Communist Party, goals and agendas of china's socialist state, ideologies and policies shaping urban and rural development, individual agency and responses to revolutionary mass mobilization and market reforms. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
Mason Core: Global Understanding (p. 137)

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 359: Modern Iraq. 3 credits.
Examines the politics of Iraq under the British mandate, as an independent state under the monarchy, and as a republic after the revolution of 1958, emphasizing the social composition of Iraq's people and its ruling elites. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 360: History of South Africa. 3 credits.
Explores the historical processes that led to the rise of African kingdoms, colonialism, industrialization, resistance movements, and legalized segregation. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 364: Revolution and Radical Politics in Latin America. 3 credits.
During 20th century, Latin America has witnessed both peaceful political movements and violent revolutions aimed at achieving social justice. Considers several of these movements in comparative perspective: Mexican Revolution, Arbenz government in Guatemala, Allende regime in Chile, Cuban and Nicaraguan revolutions, and Brazilian Worker's Party. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 365: Conquest and Colonization in Latin America. 3 credits.
Examines forms of conquest and colonization practiced by Aztec, Inca, Spanish, and Portuguese in what is now Latin America. Includes role of ideology and religion in imperial rule, use of warfare to create empires and colonies, and implementation of political and economic systems to rule subject people. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 366: Comparative Slavery. 3 credits.
Examines systems of slavery from ancient world to modern world, with special emphasis on Atlantic slave trade and slave societies in Latin America and Anglo America. Considers impact of slaves and slavery on cultural, economic, and political systems in Africa and Americas from 16th to 19th centuries. Offered by History & Art History (p. 387). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 367: History, Fiction, and Film in Latin America. 3 credits.
Explores modern Latin American history through different types of texts: scholarly histories, historical novels, fictional films, documentary films, and oral history. Explores ways these texts produce knowledge about the past. What motivates different approaches? What counts as evidence? How do we know what really happened? How do we decide what mattered and what did not? Also introduces several important episodes in 20th century Latin American history. Offered by History & Art History (p. 387). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 370: War and American Society. 3 credits.
Examines war and American society from the colonial period to the post-Cold War era, including how military institutions, war, and the preparation for war have affected American society, and how Americans have thought about military service, experience war, and made peace through their history. Special emphasis on civil-military relations and the role of war and militarism in American culture. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 373: The Civil War and Reconstruction. 3 credits.
Analyzes the history of the American Civil War from its origins in the late 18th century to the withdrawal of federal troops from the south in 1877. Examines the political, social, and economic issues that led to war; the home fronts, war leadership, diplomacy, combat motivation, and grand strategy; problems associated with reconstituting the nation's political institutions; and the integration of millions of newly freed slaves. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 377: The Vietnam War. 3 credits.
Covers the causes, major events, and legacies of America's Vietnam War, including an introduction to Vietnamese history and culture, American
decisions for war, strategy and major military engagements, diplomacy and peace talks, and the aftermath of the conflict in Vietnam and United States. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 378: History of Aviation. 3 credits.
Examines history of aviation from origins to the present in the context of culture, economics, politics, society, technology and war. Addresses such topics as the emergence of aerospace engineering as a profession, the evolution of aerospace technology and growth of the industry, military aviation, the Space Race, and aviation art, literature, music and film. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 380: Uncovering the U.S. Past Through Film. 3 credits.
Examines Hollywood films as historical sources that reveal the social, political, cultural and economic landscapes of their historical moment. Explores the ways films participate in pressing national debates over gender, race and ethnicity, and national security. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 384: Global History of Christianity. 3 credits.
Explores the history of Christianity around the world in the context of political and social structures as well as religious beliefs and practices. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 385: Humanities College to Career. 1 credit.
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment. Offered by History & Art History (p. 387). May not be repeated for credit. Equivalent to ENGH 303, FRLN 309, PHIL 393, UNIV 420.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 386: Topics in History. 1-6 credits.
Study of historical topics of special interest. Notes: Topics announced in advance. May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HIST 387: Topics in Global History. 3-6 credits.
Study of historical topics or periods of special interest in global, Latin American, African, Asian, or Middle Eastern history. Notes: Topics announced in advance. May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term.

Mason Core: Global Understanding (p. 137)

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HIST 388: Topics in European History. 3 credits.
Study of historical topics or periods of special interest. Notes: Topics announced in advance. May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HIST 389: Topics in U.S. History. 3 credits.
Study of historical topics or periods of special interest. Notes: Topics announced in advance. May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HIST 390: The Digital Past. 3 credits.
Teaches the fundamentals of information technology within the context of a history course. Students learn fundamentals and skills as well as how our society became so enamored of and dependent on these knowledge and information tools. Understanding a new technology requires understanding how new technologies transform the societies that embrace them. Emphasizes the use of free and open-source software whenever possible. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Information Technology: With Ethics (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HIST 391: History of Virginia to 1800. 3 credits.
Discovery and settlement of Virginia. Colonial period with emphasis on development of representative government and race relations, Golden
Age of Virginia dynasty, and coming of Civil War. Offered by History & Art History (p. 387). May not be repeated for credit.

**Recommended Prerequisite:** 6 hours of history or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 392:** History of Virginia Since 1800. 3 credits.
Decision to secede, Civil War and Reconstruction, Readjustors and Populism, disfranchisement and Constitution of 1902, and rise of Senator Harry F. Byrd. Recent developments. Offered by History & Art History (p. 387). May not be repeated for credit.

**Recommended Prerequisite:** 6 hours of history or Permission of Instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 393:** Topics in Film and History. 3 credits.
Study of historical periods or topics from perspective of feature films and documentaries. Notes: Topics available in advance from the department. May be repeated when topic is different. A maximum of 6 credits may be applied to the BA in history. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 6 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 394:** Topics in Digital History. 3 credits.
Introduces students to issues and methods in preserving history and presenting historical information to a variety of audiences through museum exhibits, websites, public commemorations, and other means. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 9 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 395:** Topics in Public History. 3 credits.
Introduces students to issues and methods in preserving history and presenting historical information to a variety of audiences through museum exhibits, websites, public commemorations, and other means. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 9 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 396:** Introduction to Public History. 3 credits.
Explores the role of historical memory in shaping public perceptions of the past, with emphasis on museums, monuments, and other public and popular culture expressions of historical information and themes. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 397:** Topics in Public History. 3 credits.
Introduces students to issues and methods in preserving history and presenting historical information to a variety of audiences through museum exhibits, websites, public commemorations, and other means. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 9 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**HIST 398:** Historical Study Abroad. 1-6 credits.
Intended for participation in formally organized course offered by Center for Global Education during intersession or spring break. Notes: May be repeated with permission of department. Offered by History & Art History (p. 387). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 399:** Internship. 1-9 credits.
Approved work-study programs in cooperation with specific organizations including area museums; archives; historic sites; and local, state, and federal agencies. Notes: Credit determined by department. Offered by History & Art History (p. 387). May be repeated within the degree for a maximum 9 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major in History.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

**HIST 401:** Colonial America. 3 credits.
Intensive study of colonial American history from European origins through Revolutionary War. Offered by History & Art History (p. 387). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HIST 403:** Revolutionary Era in American History, 1763-1812. 3 credits.
Study of formative years of new republic from Treaty of Paris of 1783 to election of 1820. Offered by History & Art History (p. 387). May not be repeated for credit.

**Recommended Prerequisite:** 6 hours of HIST or permission of instructor.
HIST 460: Jacksonian America, 1812-1854. 3 credits.
Study of age of Andrew Jackson. Emphasizes democratic institutions that emerged as dominant influences in American society. Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: 6 hours of history or permission of instructor.

Schedule Type: Lecture
Gradning: This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 461: Arab-Israeli Conflict. 3 credits.
Overview of history of Arab-Israeli conflict. Examines conflict from various perspectives: over land and between competing nationalisms and identities; in terms of national interests of various states, including Israelis and Palestinians as well as other Arab governments and great powers; and in terms of peace making and conflict resolution. Some knowledge of history of Middle East since World War I strongly advised. Offered by History & Art History (p. 387). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Gradning: This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 462: Women in Islamic Society. 3 credits.
Surveys history of women in Islamic society from rise of Islam to present day. Examines historical processes that affected role and status of women in society, and specific topics around which issues of gender status and identity coalesced, especially in modern period. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Gradning: This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 465: The Russian Revolution. 3 credits.
Era of revolutionary activity from 19th century to end of 1920s, with emphasis on Russian Revolutions of 1917. Explores why revolutionary situation developed; political, social, and cultural issues at stake; why it took various forms; and revolution’s contribution to nature of Soviet state and post-Soviet problems. Offered by History & Art History (p. 387). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: 6 hours of HIST or permission of Instructor.
Schedule Type: Lecture
Gradning: This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 466: European Society and Culture: 19th and 20th Centuries. 3 credits.
Examines major cultural trends in Europe since French Revolution. Major themes include romanticism; socialism; Marxism; and social effect of modernization, science, and societies. Offered by History & Art History (p. 387). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Gradning: This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 480: Alexander the Great. 3 credits.
Rise of Persia, Persian wars with Greece, subjugation of Greece by Philip II of Macedonia, and Alexander the Great and his quest of Persian empire. Offered by History & Art History (p. 387). May not be repeated for credit.

Schedule Type: Lecture
Gradning: This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 490: Honors Directed Readings. 3 credits.
Students must have completed at least one course in the field, or with the professor, chosen for these honors courses. Notes: The 3 reading credits should be taken before 3 research credits, although they may be taken concurrently. Either may be taken concurrently with HIST 499. Linked, individualized courses, usually given by same instructor. Involves directed readings. Offered by History & Art History (p. 387). May not be repeated for credit.
Recommended Prerequisite: Acceptance into the departmental honors program and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 491: Honors Directed Research. 3 credits.
Students must have completed at least one course in the field, or with the
professor, chosen for these honors courses. Notes: The 3 reading credits
should be taken before 3 research credits, though they may be taken
concurrently. Either may be taken concurrently with HIST 499. Linked,
individualized courses, usually given by same instructor. Culminates in
research paper related to subject of readings. Offered by History & Art
History (p. 387). May not be repeated for credit.

Recommended Prerequisite: Acceptance into the departmental honors program and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 498: Directed Readings/Research in History. 1-3 credits.
Readings, research conducted on individual basis in consultation with
instructor. Notes: Only 3 credits may be applied to credits for degree.
Offered by History & Art History (p. 387). May be repeated within the term
for a maximum 6 credits.

Recommended Prerequisite: History majors with 90 credits and
Permission of Instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HIST 499: RS: Senior Seminar in History. 3 credits.
Research on specialized historical topic culminating in seminar paper
and oral presentation. Synthesis course; students expected to integrate
knowledge and skills acquired in Mason Core courses. Notes: Subject
determined by instructor. Student may present no more than 3 credits
for graduation credit. Must receive passing grade to graduate with BA in
history. Offered by History & Art History (p. 387). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Specialized Designation: Research/Scholarship Intensive, Writing
Intensive in the Major

Recommended Prerequisite: History majors with 90 credits

Registration Restrictions:
Required Prerequisites: (HIST 300\textsuperscript{C}) and (ENGH 302\textsuperscript{C}, ENGL 302\textsuperscript{C},
HNRS 110\textsuperscript{C} or 210\textsuperscript{C}).
\textsuperscript{C} Requires minimum grade of C.

Enrollment is limited to students with a major in History.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

HIST 510: Approaches to Modern World History. 3 credits.
Introduces historical study of world beyond Europe and United States.
Students read major theoretical works and case studies of particular
regions. Examines imperialism, national identity, and various forms
of popular resistance; familiarizes students with range of scholarly
approaches, including world systems theory and subaltern studies.
Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: Admission to graduate program in history.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 525: Problems in Latin American History. 3 credits.
Analysis of selected problems. Emphasizes reading and discussion of
historical interpretations, and development of bibliography. Notes: May
be repeated for credit when topic is different. Offered by History & Art
History (p. 387). May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 535: Problems in Comparative World History. 3 credits.
Investigates selected problems in global and comparative history,
covering multiple countries or world regions. Notes: May be repeated for
credit when topic is different. Offered by History & Art History (p. 387).
May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
HIST 555: Problems in Asian History. 3 credits.
Discussion of readings and historical interpretations and compilation of a comprehensive bibliography on given theme. Notes: Topics announced by instructor. May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 565: Problems in African History. 3 credits.
Analysis of selected problems in African history. Emphasis on reading and discussion of historical interpretations and development of bibliography. Notes: May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 575: Problems in Middle Eastern History. 3 credits.
Analyzes selected problem. Emphasizes reading and discussion of historical interpretations, and development of bibliography. Notes: May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 598: Historical Study Abroad. 1-3 credits.
Intended for participation in formally organized course offered by the Center for Global Education. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

HIST 601: Themes in U.S. History I. 3 credits.
Survey of U.S. History prior to 1877. Designed for individuals entering the graduate program who need to strengthen preparation in area, or who seek to enhance knowledge of latest interpretations in field. Stresses factual knowledge and its interpretation. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 602: Themes in U.S. History II. 3 credits.
Continuation of HIST 601. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 605: Themes in European History I.** 3 credits.
Survey of European history from 1500 to 1815. Designed for individuals entering graduate program who need to strengthen preparation in this area, or who seek to enhance knowledge of latest interpretations in field. Stresses factual knowledge and its interpretation. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 606: Themes in European History II.** 3 credits.
Survey of European history from 1815 to present. Designed for individuals entering graduate program who need to strengthen preparation in this area, or who seek to enhance knowledge of latest interpretations in field. Stresses factual knowledge and its interpretation. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 610: The Study and Writing of History.** 3 credits.
Methodology of the historian including techniques of research, use of documentation and other sources, development of bibliography, and synthesis of material. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 613: The Colonial Origins of American Society.** 3 credits.
Study of evolution of elements in colonial society that affect contemporary American institutions and patterns of behavior. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 615: Problems in American History.** 1-6 credits.
Readings and discussion of bibliographies, interpretations, and research trends in topics selected by instructor. Notes: May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term.

**Specialized Designation:** Green Leaf Course

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 616: U.S. Westward Movement.** 3 credits.
Investigates continuity and change in American West. Topics include economic development, ethnicity, rural and urban life, and role of federal government. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
HIST 617: Topics in the American Civil War Era. 3 credits.
Joint project of instructor and students into various aspects of common topic in Civil War era, with emphasis on historiography and historical method. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HIST 618: The Age of Jackson, 1815-1854. 3 credits.
Survey of social, cultural, intellectual, economic, and political changes in United States during period of rapid growth and expansion. Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 634: Problems in European History. 3 credits.**
Investigates selected problems. Readings, discussions, development of bibliographies. Primary sources used where possible. Notes: May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 635: Continuities and Discontinuities. 3 credits.**
Recent interpretations of key political events of 20th century. Asks if there were fundamental continuities in structure of German and Austrian society that can be observed throughout the period under review. Offered by History & Art History (p. 387). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate degree in history or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 637: Great Britain: Empire to Commonwealth, 1870-1970.** 3 credits.
Examines rise of “new imperialism” in Great Britain from 1870 to end of empire, and gradual formation of Commonwealth of Nations. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 639: Society and Politics in Western Europe, 1750-1914.** 3 credits.
Focuses on changes in social conditions and ramifications in political life. Attention to urbanization of workers, changes in peasantry, growth of middle classes, decline of nobility, and major political developments and expansion of liberal reforms. Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 643: Religion and Society in the Reformation Era.** 3 credits.
The Reformation, ca. 1500 to 1650, was a time of major religious, intellectual, social, and political upheaval in European history. Investigates reasons for changes, and effects on European society. First half focuses on Germany, but major events throughout Europe are studied. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 644: Society and Culture in Early Modern Europe.** 3 credits.
Overview of most recent historical work on social and cultural history of premodern West, ca. 1400 to 1800. Uses theoretical approaches and empirical methodologies of other disciplines, especially social anthropology, sociology, and literary theory, to shed new light on popular culture, class, manners, taste, rituals, religion, language, gender, and the state. Formulates new topics of research and poses new questions, and suggests new approach to more traditional topics such as politics, religion, and ideas. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 645: The Russian Revolution and the Origins of the Soviet State.** 3 credits.
Period between 1890 and 1924 with concentration on sources of Bolshevism, problems of old regime as they led to revolutions of 1905 and 1917, and establishment of new regime and its survival in environment of foreign and civil war. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 661: Religion in North America to 1870.** 3 credits.
Dimensions of religion and religious experience in early America, from the beginnings of European settlement into the mid-to-late nineteenth century. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 663: Topics in U.S. Religious History.** 3 credits.
Readings and discussion of bibliographies, interpretations, and research trends in U.S. religious history. Topics selected by the instructor. Notes: May be repeated when topic is different. Offered by History & Art History (p. 387). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 675: Problems in Military History.** 3 credits.
Readings and discussion of bibliographies, interpretations, and research trends in military history topics selected by the instructor. Notes: May be repeated when topic is different. Offered by History & Art History (p. 387). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 677: The Vietnam War.** 3 credits.
Considers the causes, major events, and historiographic debates of America’s Vietnam War including the war’s antecedents in Vietnamese history, American decisions for war, strategy and major military engagements, the American antiwar movement, and diplomacy and peace talks. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 679: War and Remembrance. 3 credits.
Considers various approaches to the study of public or collective memory as it pertains to war, in particular how people around the world have constructed memories of war and how those memories have been expressed in literature, popular culture, memorials, and commemorative activities. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 680: Introduction to Digital Humanities. 3 credits.
Introduces students to key concepts, tools, and practices of digital humanities. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 685: Topics in Applied History. 3 credits.
Addresses specific topics in applied history selected by the instructor, with emphasis on combining theoretical analysis and readings with hands-on projects and problem-solving. Notes: May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 688: Topics in History and New Media. 3 credits.
Covers specific topics in history and new media selected by the instructor, with an emphasis on combining theoretical analysis and readings with hands-on projects and problem-solving. Notes: May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 690: Teaching and Learning History in the Digital Age. 3 credits.
Examines what happens when instructors integrate new media technology into history classroom. Includes consideration of learning theory, new media theory, and an in-depth examination of state-of-the-art in practice. In the final third of semester, students produce practicum that is either working history teaching web site or concept paper for site, depending on student's degree of technical sophistication. No prior facility with information technology required. Course appropriate for graduate students working as teachers or planning career in teaching. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 689: Topics in History and New Media. 3 credits.
Addresses specific topics in applied history selected by the instructor, with emphasis on combining theoretical analysis and readings with hands-on projects and problem-solving. Notes: May be repeated for credit when topic is different. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 690: The Administration of Archives and Manuscripts. 3 credits.
Introduces principles and practices of managing records and administering archival and manuscript collections, public and private. Designed for graduate students with special interest in historical sources as well as for those specializing in applied history. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 691: Museum Studies. 3 credits.
General introduction to museums of history and museum studies in the United States, intended for interested citizen as well as for assistance to students in course and career choices. Explores development, present state, and future possibilities of U.S. Museums, with some reference to international developments. Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: 6 hours of U.S. HIST or permission of department.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 692: Historical Editing. 3 credits.
Introduces fundamentals of historical editing of documents, including microform, word processing, and computer techniques. Designed for those seeking introduction to various areas of applied history, and those intending to edit historical documents for publication. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 693: Historic Preservation. 3 credits.
General introduction to historic preservation in the United States, intended for interested citizen and to assist students in course and career choices. Explores development, present state, and future possibilities of historic preservation in the United States, with some reference to international aspects of preservation. Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: 6 credits of U.S. history or permission of department.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 694: Digital Public History. 3 credits.
Introduces students to the theories and methods central to doing digital public history, and develops the skills necessary for students to plan and execute their own projects. Topics include digital strategy development, developing effective digital exhibits, describing and publishing digital collections, mobile computing and curating the landscape, creating participatory history projects, and effective methods for evaluating digital public history work. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 695: History Symposium. 1-3 credits.
Subject of academic and community interest pursued through discussions and lectures by distinguished guest instructors. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 696: Clio Wired: An Introduction to History and New Media. 3 credits.
Introduces students with limited computer competency should consult department before enrolling. Introduces changes that new media and technologies are bringing to how we research, write, present, and teach about the past. Students explore theoretical and historical issues as well as learn hands-on skills in digital history. Social issues: Students with limited computer competency should consult with department before enrolling. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 697:** Creating History in New Media. 3 credits.
Seminar; students create original historical projects in digital media. Offered by History & Art History (p. 387). May not be repeated for credit.

**Recommended Prerequisite:** HIST 696 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 698:** Programming in History and New Media. 3 credits.
Provides students with advanced conceptual and technical skills to enhance historical practice and research in the digital arena. Focuses on in-depth analysis of theoretical frameworks and on developing proficiency in a variety of programming languages and tools for humanistic and historical research. Offered by History & Art History (p. 387). May not be repeated for credit.

**Recommended Prerequisite:** HIST 696, 697, or literacy in new media.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 700 Level Courses**

**HIST 711:** Research Seminar in U.S. History. 3 credits.
Research in specialized topics using primary sources. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 6 credits. Equivalent to HIST 797.

**Recommended Prerequisite:** HIST 610 or permission of department.

**Registration Restrictions:**
Enrollment limited to students with a major in Cultural Studies, Education (Community College) or History.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 731:** Research Seminar in European History. 3 credits.
Research in specialized topics using primary sources. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 6 credits. Equivalent to HIST 797.

**Recommended Prerequisite:** HIST 610 or permission of department.

**Registration Restrictions:**
Enrollment is limited to students with a major in Cultural Studies, Education (Community College) or History.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 751:** Research Seminar in Comparative World History. 3 credits.
Research seminar requiring comparative research and analysis. Organized around significant topic or theme in field of world history. Notes: Topics vary from year to year. Offered by History & Art History (p. 387). May not be repeated for credit. Equivalent to HIST 797.

**Recommended Prerequisite:** HIST 610 or permission of department.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 790:** Comprehensive Readings in U.S. History. 3 credits.
Integrates past work in major field and fills gaps before comprehensive exam. After a review of graduate course work, student and instructor design reading list to round out preparation for exam. Notes: To be taken in final semester of program. Offered by History & Art History (p. 387). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**HIST 791:** Comprehensive Readings in Comparative World History. 3 credits.
Integrates past work in major field and fills gaps before comprehensive exam. After a review of graduate course work, student and instructor design reading list to round out preparation for exam. Notes: To be taken in final semester of program. Offered by History & Art History (p. 387). May not be repeated for credit.
Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 792: Comprehensive Readings in European History Since 1500. 3 credits.
Integrates past work in major field and fills gaps before comprehensive exam. After review of graduate experience, student and instructor design reading list to round out preparation for exam. Notes: To be taken in final semester of program. Offered by History & Art History (p. 387). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale. (p. 82)

HIST 796: Directed Readings. 1-6 credits.
Independent reading on topic agreed to by student and faculty member. Offered by History & Art History (p. 387). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 797: Research Seminar in History. 3 credits.
Research in specialized topics using primary sources. May be repeated for credit when topic is different, or with same topic with permission of the department. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 6 credits. Equivalent to HIST 711, HIST 731, HIST 751.

Recommended Prerequisite: HIST 610 or permission of department.

Registration Restrictions:
Enrollment limited to students with a major in Cultural Studies, Education (Community College) or History.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HIST 798: Directed Research and Writing in History. 3 credits.
Intended for students in department’s predoctoral track who are not writing master’s thesis. Goal is to produce substantial and original contribution to historical knowledge on model of article in scholarly journal. Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: Admission to MA program, HIST 610, and research seminar.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale. (p. 82)

HIST 799: Thesis. 1-6 credits.
Master’s thesis research and writing under direction of faculty committee. Offered by History & Art History (p. 387). May be repeated within the degree.
Honors College (HNRS)

1798

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

800 Level Courses

HIST 801: New Developments in History. 3 credits.
Survey of current developments in historical analysis and methodology. Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: Admission to doctoral program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 803: Doctoral Readings for Major Field. 3 credits.
Independent readings for PhD students on topic agreed on by student and instructor, taken in preparation for completing major field exam. Should be broadly comprehensive of field, and cover major historical themes and historiographical debates. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 20 credits.

Recommended Prerequisite: Admission to doctoral program.

Registration Restrictions:
Enrollment is limited to students with a major in History.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 804: Doctoral Readings for Minor Field. 3 credits.
Independent readings for PhD students on topic agreed on by student and instructor, taken in preparation for completing minor field statement. Designed to help student master literature of subfield that is subject of field statement. Offered by History & Art History (p. 387). May be repeated within the term for a maximum 20 credits.

Recommended Prerequisite: Doctoral standing.

Registration Restrictions:
Enrollment is limited to students with a major in History.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

HIST 810: History Doctoral Colloquium. 1 credit.
Introduces array of scholars and scholarship through discussions of innovative historical events, important theories, and significant methodological breakthroughs in history. Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: Doctoral standing.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

HIST 811: Doctoral Research Seminar. 3 credits.
Students pursue research projects in their areas of specialization. Offered by History & Art History (p. 387). May not be repeated for credit.

Recommended Prerequisite: Doctoral standing.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

900 Level Courses

HIST 998: Doctoral Dissertation Proposal. 1-6 credits.
Work on research proposal that forms basis for doctoral dissertation. Offered by History & Art History (p. 387). May be repeated within the degree.

Recommended Prerequisite: Advancement to candidacy.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

HIST 999: Doctoral Dissertation Research. 1-12 credits.
Doctoral dissertation research and writing under direction of student's dissertation committee. Offered by History & Art History (p. 387). May be repeated within the degree.

Recommended Prerequisite: Completion of HIST 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Honors College (HNRS)

100 Level Courses

Introduces students to a wide range of disciplinary research practices. Students learn how to identify a topic and pose a focused research
question, use information technology to find relevant sources, and
develop a research proposal. Notes: Students must complete HNRS 109,
which has a prerequisite of HNRS 108, to fulfill the equivalent of
HNRS 110. Offered by Honors College. May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business),
Honors College (STEM). or Honors College attributes.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HNRS 109: Introduction to Research Methods II. 3 credits.
Students continue to learn a wide range of disciplinary research
practices. Students learn how to pose a research question, analyze
pertinent evidence, and write and speak clearly by participating in a
scholarly conversation. Offered by Honors College. May not be repeated
for credit. Equivalent to HNRS 110.

Specialized Designation: Scholarly Inquiry

Recommended Prerequisite: HNRS 108.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business),
Honors College (STEM). or Honors College attributes.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HNRS 110: Research Methods. 4 credits.
Introduces students to a wide range of disciplinary research practices.
Students learn how to pose and pursue a focused research question,
use information technology to find relevant sources, analyze pertinent
evidence, and write and speak clearly by participating in scholarly
conversation. Offered by Honors College. May not be repeated for credit.
Equivalent to HNRS 109.

Specialized Designation: Scholarly Inquiry

Registration Restrictions:
Enrollment limited to students with the Honors College (Business),
Honors College (STEM). or Honors College attributes.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HNRS 122: Reading the Arts (Topic Varies). 3 credits.
Course topic varies by semester. Explores the language of the art medium
and the relationship of parts to whole in art works, connections among
different art forms, and links between art and its historical context. In
exploring multiple art forms, including literature, students will also learn
how various artistic devices contribute to meaning. Students will critically
explore detail and nuance in the social, historical and personal context
of the work(s). Students will also participate in or attend a visual or
performance based art work(s) or event(s). Offered by Honors College.
May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business),
Honors College (STEM). or Honors College attributes.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HNRS 130: Conceptions of Self (Topic Varies). 3 credits.
Course topic varies by semester. Drawing from appropriate works in
social sciences, arts, and humanities, examines different conceptions
and definitions of the self from diverse cultures and historical
contexts. Offered by Honors College. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (HNRS 110C, 302C, 210C or 108C).,
C Requires minimum grade of C.

Enrollment limited to students with the Honors College (Business),
Honors College (STEM). or Honors College attributes.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

HNRS 131: Contemporary Society in Multiple Perspectives (Topic Varies). 3 credits.
Course topic varies by semester. Explores methods and perspectives
in social sciences and humanities to evaluate contributions of different
disciplines to social and cultural issues, their constructions, their global
ramifications. Investigates our individual, collective, and institutional
responsibilities as citizens of a diverse and interconnected world. Offered
by Honors College. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (HNRS 110C, 210C, 302C or 108C).,
C Requires minimum grade of C.

Enrollment limited to students with the Honors College (Business),
Honors College (STEM). or Honors College attributes.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

200 Level Courses

HNRS 211: Mentorship in Undergraduate Research. 0-2 credits.
Students learn to use their own research experience as a tool to guide
beginning scholars by mentoring students in Honors 110: Research
Methods, through workshops and oral presentations. Offered by Honors
College. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110,
HNRS 210, or HNRS 302.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business),
Honors College (STEM). or Honors College attributes.
Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HNRS 230: Cross-Cultural Perspectives (Topic Varies). 3 credits.
Course topic varies by semester. Enables students to broaden cultural horizons and understand human behavior by comparative studies of societies. Offered by Honors College. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (HNRS 110C, 210C or 302C).
C Requires minimum grade of C.

Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester
HNRS 240: Reading the Past (Topic Varies). 3 credits.
Course topic varies by semester. Considers constructions of historical narratives and their context in major world historical events by examining significant current topics such as revolution, race, empire, and religion over time. Considers how public narratives about history are constructed. Students will communicate their understanding of multiple historical narratives through written, oral and digital means. Offered by Honors College. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (HNRS 110C, 210C, 302C or 109C).
C Requires minimum grade of C.

Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Independent Study
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

HNRS 302: Research Methods II. 3 credits.
Introduces students transferring into the Honors College to a wide range of disciplinary research practices. Students learn how to choose and focus a research question, find and analyze sources, organize evidence in an essay shaped by an original thesis, write clearly, and address an audience of scholars. Offered by Honors College. May not be repeated for credit.

Specialized Designation: Scholarly Inquiry

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HNRS 310: Honors College Connects I. 0 credits.
The first of a two-semester course in which students work in groups on long-term service projects coming from community nonprofit organizations. Offered by Honors College. May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Independent Study
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

HNRS 311: Honors College Connects II. 0 credits.
A continuation of HNRS 310, culminating in student presentations of their results to the community nonprofit organizations and constituents of the Honors College. Offered by Honors College. May be repeated within the degree.

Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

Schedule Type: Independent Study
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

HNRS 312: RS: Research in the Public Sphere. 0-3 credits.
Building on projects begun in HNRS 310, students use research/scholarship skills to address community problems presented by nonprofit organizations. Designated as a research and scholarship intensive course. Offered by Honors College. May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

Recommended Corequisite: HNRS 311 or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HNRS 330: Research, Technology, and Online Community.** 0-3 credits.
Student applicants selected to participate in the RTOC project will plan and create new media artifacts or learning objects in structured collaboration with university stakeholders and mentors. Through this process, they will deepen their understanding of the research process, learn to appreciate the institutional and social dimensions of undertaking and teaching research, and learn to communicate more effectively about research. Offered by Honors College. May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

**Registration Restrictions:**
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**HNRS 353: Technology in the Contemporary World (Topic Varies).** 3 credits.
Course topic varies by semester. Critically analyzes emergence and impact of specific technologies on contemporary cultures and the core concepts surrounding these technologies, including legal, social, ethical issues and the technology's relationship to core information security issues. Students develop a significant research project employing multiple disciplinary perspectives. This project will be communicated ethically and with cultural awareness through written, oral and digital means, showing a critical understanding of technologies and their impact. Offered by Honors College. May not be repeated for credit.

**Mason Core:** Synthesis (p. 137)

**Registration Restrictions:**
**Required Prerequisites:** (HNRS 110C\(^c\), 210C\(^c\), 302C\(^c\) or 109\(^c\)). Requires minimum grade of C.

Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

### 400 Level Courses

**HNRS 400: Honors College Internship.** 0-6 credits.
Offers students in the Honors College the opportunity to take an internship that focuses on research or engaged learning. Students develop individual contracts defining learning and competencies they plan to gain from the experience. Pre-internship proposal and final reflection papers required. Notes: Contact the Honors College a semester before the internship for the application process. Offered by Honors College. May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** HNRS 109, 110, 210 or 302.

**Registration Restrictions:**
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**HNRS 410: Thesis Proposal.** 0-3 credits.
Provides guidance in research methods to students writing an honors thesis proposal as well as workshop to critique research in progress and to understand the research process in multiple disciplines. Offered by Honors College. May be repeated within the degree for a maximum 6 credits.

**Specialized Designation:** Research Associated

**Recommended Prerequisite:** Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

**Registration Restrictions:**
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**HNRS 411: RS: Honors College Thesis.** 0-3 credits.
Directed research on topic agreed on by student, advisor, and the Honors College. Designated as a research and scholarship intensive course. Offered by Honors College. May be repeated within the degree for a maximum 6 credits.

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** Grade of C or better in HNRS 109, HNRS 110, HNRS 210, or HNRS 302.

**Registration Restrictions:**
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College. attributes.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**HNRS 430: Multidisciplinary Challenges in Professional Environments.** 0-3 credits.
Students work to solve a problem or challenge currently faced by an Honors College community partner which is identified in consultation with the Fairfax County Economic Development Authority. Provides students with opportunities to synthesize knowledge and practices developed in prior courses and co-curricular experiences; develops the skills and strategies necessary for working effectively in multidisciplinary teams. Offered by Honors College. May be repeated within the degree for a maximum 6 credits.
**Recommended Prerequisite:** HNRS 109, 110, 210, 302.

**Registration Restrictions:**
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College attributes.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**HNRS 490:** Undergraduate Apprenticeship. 1-3 credits.
Independent work with a faculty mentor on an inquiry-based project involving research, creative activities, or teaching and mentoring. Notes: This course is open only to undergraduates who have been accepted to the Undergraduate Apprenticeship Program. Offered by Honors College. May not be repeated for credit.

**Recommended Prerequisite:** 45 credits and acceptance into the Undergraduate Apprenticeship Program.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Honors College (Science/Math) (HNRT)**

**100 Level Courses**

**HNRT 125:** A Liberal Arts Approach to Calculus. 3 credits.
Assumes understanding of basic algebra and functions. Explores various mathematical models and develops concepts and applications of limits and derivatives. Offered by College of Science (p. 608). May not be repeated for credit.

**Mason Core:** Quantitative Reasoning (p. 137)

**Registration Restrictions:**
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College attributes.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HNRT 225:** Applied Calculus. 3 credits.
Theory and applications of calculus for non-STEM students. Assumes a previous introductory course in calculus. Topics include exponential models in the life sciences and business, theory of integration and may include improper integrals, infinite series, differential equations, or probability. Offered by College of Science (p. 608). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College attributes.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HNRT 226:** Topics in Quantitative Analysis. 3 credits.
Studies selected topics of special interest to honors students with suitable preparation. Notes: For students who have taken calculus in high school. HNRT 226 is an alternative to HNRT 125. Offered by College of Science (p. 608). May not be repeated for credit.

**Recommended Prerequisite:** Calculus in high school.

**Registration Restrictions:**
Enrollment limited to students with the Honors College (STEM), or Honors College attributes.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**HNRT 227:** Scientific Thought and Processes I. 4 credits.
Explores and integrates principles of classical and modern science through study of such topics as cosmology, evolution, ecology, mechanics, relativity, quantum physics, and the environment. Notes: Includes a weekly lab session. Offered by College of Science (p. 608). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 137)

**Registration Restrictions:**
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College attributes.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**HNRT 228:** Scientific Thought and Processes II. 4 credits.
Explores and integrates principles of classical and modern science through study of such topics as cosmology, evolution, ecology, mechanics, relativity, quantum physics, and the environment. Notes: Includes a weekly lab session. Offered by College of Science (p. 608). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 137)

**Specialized Designation:** Green Leaf Course

**Recommended Prerequisite:** HNRT 227

**Registration Restrictions:**
Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College attributes.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
Human Development and Family Science (HDFS)

200 Level Courses

HDFS 200: Individual and Family Development. 3 credits.
Examines how individuals and families function and develop over the lifespan. Uses a multidisciplinary approach to integrate theories of family science and human development emphasizing the role of contextual factors in contemporary families' lives. Explores the impact of gender, socioeconomics, race/ethnicity, culture, and immigrant status on human development and family relationships. Introduces a basic model of scientific inquiry and theorizing. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HDFS 250: Family Financial Literacy and Resource Management. 3 credits.
Introduces personal and family financial planning and resource management throughout the lifespan. Integrates theories of family finance and resource management using a multidisciplinary approach. Emphasizes role of contextual factors in contemporary families' financial lives. Explores impact of gender, socioeconomic, race, ethnicity, and culture on family finance and resource management. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

HDFS 300: Individual and Family Services Delivery. 3 credits.
Overview of human services delivery with a focus on families. Explores the historical and social contexts as well as the theoretical orientations of systems that shape delivery of services to families. Examines: 1) economic and cultural barriers that prevent families from gaining access to services; 2) social policy surrounding services for families; 3) ethical and legal issues in family services. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: HDFS 200.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Human Devl and Family Science.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HDFS 301: The Hospitalized Child and Family. 3 credits.
Examines the philosophy, purposes, and concepts of Child Life Specialists. Explores developmental and psychological needs of hospitalized children, their families, and those who provide services to children. Examines the impact of illness and illness-related stressors on the dynamics of the family and strategies for coping. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: HDFS 200 or permission from instructor.

400 Level Courses

HDFS 400: Advanced Family Processes. 3 credits.
Examines family system dynamics and processes, with an emphasis on cultural and contextual factors that influence family functioning and well-being over the lifespan. Examines both healthy and dysfunctional family processes (including abuse, neglect, and family violence). Explores evidence-based practices and interventions that promote family health, resilience, and well-being. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Recommended Prerequisite: HDFS 200 or permission from instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HDFS 401: Family Law and Public Policy. 3 credits.
Examines contemporary family life and the impact of government laws, policies, and programs on families over time and across contexts and cultures. Explores the intended and unintended consequences of policies for diverse families across a variety of policy matters, from anti-poverty and social welfare policies to health and environmental policies. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: HDFS 200 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

HDFS 498: Internship and Analysis in Human Development and Family Science. 3 credits.
First course in a two-course series that supports students in their internship and in transitioning from student to professional. Enables students to discuss work-related experiences within the context of developmental and family theories and research. Fosters and promotes professional development through class and small group discussions, activities, lectures, guest speakers, and practical assignments. Notes: Students will have 135 contact hours for the semester; however, 125 will be in the field and 10 in the classroom. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: HDFS 300.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Human Devl and Family Science.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
HDFS 499: Advanced Internship & Analysis in Human Development and Family Science. 3 credits.
Accompanies the second semester of the required internship experience. Supports students in the development and implementation of a program for staff and/or clients at internship site. Examine internship-related experiences within the context of developmental and family theories and empirical research. Contemplate and prepare for the transition to professional. Notes: Students will have 135 contact hours for the semester; however, 125 will be in the field and 10 in the classroom. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: HDFS 498.

Registration Restrictions:
Enrollment is limited to students in the Volgenau School of Engineering Students in a Non-Degree Undergraduate degree may not enroll.

Graduation:
This course is graded on the Graduate Regular scale. (p. 82)

Information Security Assurance (ISA)

500 Level Courses

ISA 562: Information Security Theory and Practice. 3 credits.
A technical introduction to the theory and practice of information security, which serves as the first security course for the MS-ISA degree, is required as a prerequisite for all subsequent ISA courses (at the 600 and 700 levels) and subsumes most topics covered by the CISSP examination. Also serves as an entry-level course available to non-ISA students, including MS-CS, MS-IS, and MS-SWE students. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, 519, and SWE 510, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 564: Security Laboratory. 3 credits.
Provides hands-on experience in configuring and experimenting with commodity-networked systems and security software in a live laboratory environment, with the purpose of understanding real-world security threats. Takes both offensive and defensive approaches and exposes students to a variety of real-world attacks, including viruses, worms, rootkits, and botnets. Possible mitigation and defending mechanisms, such as firewalls and intrusion detection software, also covered. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: ISA 562 and CS 531 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

ISA 650: Security Policy. 3 credits.
Focuses on security policy and its management for information systems having national and international connectivity. Issues include legal, international, cultural, and local factors. Students are expected to participate regularly in presenting material, in discussion of recent security issues, and by writing short papers on major current issues. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: ISA 562B.
B- Requires minimum grade of B-

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 652: Security Audit and Compliance Testing. 3 credits.
Presents the fundamental concepts of the IT-security audit and control process that is being conducted in a plethora of environments, including government, the financial industry, and the healthcare industry. The goal of this course is to enable the students to structure and perform audits based on the specifications of Sarbanes-Oxley, HIPAA, and FISMA audit programs. Covers all the CISA certification requirements in depth. Students completing the course are encouraged to attempt the certification exam on their own. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: ISA 562B.
B- Requires minimum grade of B-

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 656: Network Security. 3 credits.
An in-depth introduction to the theory and practice of network security. It assumes basic knowledge of cryptography and its applications in modern network protocols. Studies firewalls architectures and virtual private networks and provides deep coverage of widely used network security protocols such as SSL, TLS, SSH, Kerberos, IPSec, IKE, and LDAP. It covers countermeasures to distributed denial of service attacks, security of routing protocols and the Domain Name System, e-mail security and spam countermeasures, wireless security, multicast security, and trust negotiation. Offered by Computer Science (p. 1025). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (ISA 562B and INFS 612B) or CS 555B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 673: Operating Systems Security. 3 credits.
Covers fundamentals and advanced topics in operating system (OS) security, including OS-level security mechanisms and policies in investigating and defending against real-world attacks on computer systems, such as self-propagating worms and large-scale botnets. Basic OS security techniques, such as logging, system call auditing, and memory protection, will be discussed. Recent advanced techniques, such as honeypots and honeyfarms, system randomization, vulnerability fingerprinting, and virtualization, will also be introduced. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: ISA 562.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 674: Intrusion Detection. 3 credits.
Studies methodologies, techniques, and tools for monitoring events in computer system or network, with the objective of preventing and detecting unwanted process activity and recovering from malicious behavior. Topics include types of threats, host-based and network-based information sources, vulnerability analysis, denial of service, deploying and managing intrusion detection systems, passive versus active responses, and designing recovery solutions. Offered by Computer Science (p. 1025). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: ISA 564B and 656B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 681: Secure Software Design and Programming. 3 credits.
Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and the identification of potential threats and vulnerabilities early in the design cycle. Emphasis is on methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove the absence of vulnerabilities, and ways to avoid security holes in new software and on essential guidelines for building secure software. Explores how to design software with security in mind from the ground up and integrates analysis and risk management throughout the software life cycle. Offered by Computer Science (p. 1025). May not be repeated for credit. Equivalent to SWE 681.

Recommended Prerequisite: SWE 619.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 682: Computer Security. 3 credits.
Covers fundamentals and advanced topics in computer security, including OS-level security mechanisms and policies in investigating and defending against real-world attacks on computer systems, such as self-propagating worms and large-scale botnets. Basic OS security techniques, such as logging, system call auditing, and memory protection, will be discussed. Recent advanced techniques, such as honeypots and honeyfarms, system randomization, vulnerability fingerprinting, and virtualization, will also be introduced. Offered by Computer Science (p. 1025). May not be repeated for credit.
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 697: Topics in Information Security. 1-6 credits.
Special topics in information security and assurance not occurring in regular ISA sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science (p. 1025). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

700 Level Courses
ISA 763: Security Protocol Analysis. 3 credits.
Teaches how to design, understand, verify, and test communication protocols so they meet their objectives of recognizing the basic components of a communication protocol; specifying security properties accurately; modeling actors and mal-actors against which a protocol ought to be secure; discussing verification and testing methods and their limitations by ensuring that the specified protocol satisfies stated security objectives in the presence of specified mal-actions; designing a medium-size protocol that satisfies a specification of requirement; using existing tools to specify and verify security protocols; and testing protocols for satisfying their security objectives. Offered by Computer Science (p. 1025). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: ISA 656B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 796: Directed Readings in Information Security. 3 credits.
Research and analysis of contemporary problem in information security. Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Written report also required. Offered by Computer Science (p. 1025). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate standing in information security and assurance, with at least 12 prior credits in MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Research
Grading:
This course is graded on the Graduate Special scale. (p. 82)

ISA 797: Advanced Topics in Information Security. 3 credits.
Special advanced topics not occurring in regular ISA sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science (p. 1025). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

ISA 798: Research Project. 3 credits.
Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report. Notes: Prior approval required by faculty sponsor who supervises student’s work. To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Offered by Computer Science (p. 1025). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: 18 credits applicable toward MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Thesis
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

ISA 863: Advanced Topics in Computer Security. 3 credits.
Current topics of advanced research. Content varies depending on faculty interests, research developments, and student demand. Requires substantial student participation. May include formal models for computer security, multilevel data models, multilevel database management system architectures, secure concurrency control protocols, distributed secure system architectures, integrity models and mechanisms, security policy, and requirements analysis. Offered by Computer Science (p. 1025). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisite: ISA 562B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 862: Models for Computer Security. 3 credits.
This class will be focused on current research in Security with emphasis in Network and Software Security. Notes: May be repeated with change in topic. Offered by Computer Science (p. 1025). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisite: ISA 562B.
B- Requires minimum grade of B-.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ISA 562: Models for Computer Security. 3 credits.

Information Systems (INFS)

INFS 501: Discrete and Logical Structures for Information Systems. 3 credits.
Study of discrete and logical structures for information systems analysis and design including basic set theory and proof techniques, propositional and predicate logic, trees and graphs, finite state machines, formal languages and their relation to automata, computability and computational complexity, formal semantics-operational, axiomatic and denotational approaches. Notes: Credit cannot be applied to a graduate
degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 6 hrs of undergraduate mathematics.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INFS 515: Computer Organization Course and Operating Systems.** 3 credits.
Computer hardware architecture concepts including number systems, machine representation of numbers, instruction set formats, addressing techniques, memory organization, internal processor structure and operation. Symbolic assembly language fundamental operating systems concepts: process synchronization and scheduling, interprocess communication, memory management, virtual memory, deadlocks, file I/O and disk management, and LINUX operating system case studies. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science (p. 1025). May not be repeated for credit. Equivalent to ECE 445.

**Recommended Prerequisite:** Undergraduate courses or equivalent knowledge in structured programming in a high-level language.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INFS 519: Program Design and Data Structures.** 3 credits.
Study of the fundamentals of data structures and algorithms applied in programming solutions to application problems. The course stresses programming in a modern high-level language. Laboratory required. Notes: Credit cannot be applied to a graduate degree in the Volgenau School or the BS degree in computer science. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate courses or equivalent knowledge in structured programming in a high-level language.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INFS 612: Principles and Practices of Communication Networks.** 3 credits.
Introduces principles of computer networks and applications to Internet. Discusses details of layering, protocols, performance, resource allocation, management, security and other contemporary issues related to networks. Examples of course material are protocols such as HTTP(S), DNS, TCP/IP, RSVP, SNMP, algorithms such as Dijkstra's link state routing; and security measures such as firewalls and encryption, the principles behind them and analysis of performance. Notes: No substitutions can be made for this class. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** INFS 501, 515, 519, and SWE 510, or equivalent

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INFS 622: Information Systems Analysis and Design.** 3 credits.
Introduces principles of computer networks and applications to Internet. Discusses details of layering, protocols, performance, resource allocation, management, security and other contemporary issues related to networks. Examples of course material are protocols such as HTTP(S), DNS, TCP/IP, RSVP, SNMP, algorithms such as Dijkstra's link state routing; and security measures such as firewalls and encryption, the principles behind them and analysis of performance. Notes: No substitutions can be made for this class. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** INFS 501, 515, and 519, or equivalent

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
INFS 623: Web Search Engines and Recommender Systems. 3 credits.
Study of Web search engines and recommender systems. Topics to include classical information retrieval methods, Boolean retrieval systems, ranked retrieval, performance metrics, Web crawling, link analysis, overall search engine architecture, fundamentals and classification of recommender systems, learning user interests and object properties, and case studies. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, 519, and SWE 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

INFS 640: Introduction to Electronic Commerce. 3 credits.
Studies electronic commerce from both managerial and technical perspectives. Topics include e-commerce models and concepts; Internet and web protocols and infrastructure; e-commerce marketing and branding; security protocols and standards; e-commerce payment systems; and case studies of business-to-consumer, business-to-business, consumer-to-consumer, and e-government. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, and 519; and SWE 510 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

INFS 640: Introduction to Electronic Commerce. 3 credits.
Studies electronic commerce from both managerial and technical perspectives. Topics include e-commerce models and concepts; Internet and web protocols and infrastructure; e-commerce marketing and branding; security protocols and standards; e-commerce payment systems; and case studies of business-to-consumer, business-to-business, consumer-to-consumer, and e-government. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: INFS 501, 515, and SWE 510 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

INFS 697: Topics in Information Systems. 1-6 credits.
Presents special topics in information systems not occurring in regular INFS sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science (p. 1025). May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Information systems accessible through web and Internet are becoming prevalent. Course focuses on technologies and industry standards for accessing and manipulating persistent data that are suitable for web applications. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: INFS 614.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Information systems accessible through web and Internet are becoming prevalent. Course focuses on technologies and industry standards for accessing and manipulating persistent data that are suitable for web applications. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: INFS 614.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

INFS 770: Knowledge Management for E-Business. 3 credits.
Addresses knowledge management (KM) from managerial, technical viewpoints in context of large organizations doing business over web and Internet. Topics include KM life cycle for knowledge creation, aggregation, dissemination, and sharing; ontology modeling, design, and engineering; role of standards such as XML, RDF; web services, and semantic web for e-business; business rules and reasoning engines; and digital rights
management for e-business. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** INFS 622 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INFS 774: Enterprise Architecture.** 3 credits.
This course presents the basic concepts and methodologies for the discipline known as Enterprise IT Architecting within a framework, structure, and methodology. Enterprise IT Architecting is a necessary step for designing and developing a system of information systems. It includes the definition of the business, work, functional, information and technical perspectives. As such, it is the enabling approach for the system development process that builds complex information systems. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** INFS 622 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INFS 796: Directed Readings in Information Systems.** 3 credits.
Research and analysis of contemporary problem in information system development. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student’s work. Written report required. Offered by Computer Science (p. 1025). May be repeated within the term for a maximum 12 credits.

**Recommended Prerequisite:** Graduate standing in information systems, with at least 12 prior credits in MS.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INFS 797: Advanced Topics in Information Systems.** 1-6 credits.
Special advanced topics not occurring in regular INFS sequence. Notes: May be repeated for credit when distinct offerings of course differ in subject. Offered by Computer Science (p. 1025). May be repeated within the degree.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**INFS 798: Research Project.** 3 credits.
Research project chosen under guidance of full-time graduate faculty member, resulting in written technical report. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Prior approval required by faculty sponsor who supervises student’s work. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** 18 credits applicable toward MS.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.
Information Technology (IT)

100 Level Courses

IT 102: Discrete Structures. 3 credits.
Introduces ideas of high-level program design and discrete structures. This course focuses on problem-solving and includes an introduction to programming, Boolean algebra, symbolic logic, digital circuits, set theory, combinatorics, discrete probability, mathematical induction, recursion and a basic introduction to trigonometry. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 112*C or 113*C).
* May be taken concurrently.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 104: Introduction to Computing. 3 credits.
This course, using both lecture and laboratory practice, introduces students to basic computer concepts in hardware, software, networking, computer security, programming, database, e-commerce, decision support systems, and current developments in 3-D printing, virtualization, and Siri-like systems. Additional lectures examine social, legal, ethical issues including privacy, intellectual property, health concerns, green computing, and accessibility. Students learn techniques to search, evaluate, validate, and cite information found online. Hands-on lab includes spreadsheets, databases, presentation, HTML 5, CSS, cybersecurity, blogs, wiki, and mobile app development. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Mason Core: Information Technology: With Ethics (p. 137)

IT 105: IT Architecture Fundamentals. 3 credits.
Introduces students to fundamental hardware and software concepts of information technology (IT) to understand the basics of modern computing environments. Students acquire a comprehensive understanding of a computer system’s essential components, component interdependence, and binary functions, factoring in performance, data communication models, telecommunication basics, and information security. Recent trends and advancements in mobile computing, telecommunications, and IT infrastructures are discussed. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 109: Introduction to Computer Programming. 3 credits.
This foundation course is designed to teach students problem-solving skills using procedural programming that is required for the Information Technology degree program. The course accomplishes the goals through hands-on experience in the lecture class as well as through computer laboratory work. Topics to be discussed include, but are not limited to: variables, conditionals, functions, strings, iteration, testing, and procedural programming. Topics include: program flow, control structures, programming fundamentals, and integrating program modules into a cohesive solution. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103*C, 103T, 103X, 104C or 104T) and (MATH 112*C, 125*C or IT 102*C).
* May be taken concurrently.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 106: Introduction to IT Problem Solving Using Computer Programming. 3 credits.
Introduces techniques for developing solutions to business problems using procedural programming as an IT resource/tool. Students apply problem solving concepts by analyzing problems and constructing, testing, and implementing algorithms using pseudocode, desk checking, and procedural programming. Topics include: program flow, control structures, programming fundamentals, and integrating program modules into a cohesive solution. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103*C, 103T, 103X, 104C or 104T) and (MATH 112*C, 125*C or IT 102*C).
* May be taken concurrently.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.
Schedule Type: Laboratory, Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 191: Review of Computing Fundamentals. 1 credit.
Provides a self-paced, comprehensive review of computing fundamentals.
Topics include: hardware, software, networking, computer security,
programming, database, e-commerce, decision support systems, and
other emerging technologies. Open only to students with transfer credit
comparable to IT 103 or IT 104 who have not attempted IT 191 or IT 104.
Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 193: Review of Multimedia and Web Design. 1 credit.
Provides a self-paced, comprehensive review of concepts and techniques
for designing and developing attractive and accessible websites with
multimedia components. Introduces and discusses technological,
aesthetic, and human factors. Open only to students with transfer credit
comparable to IT 213 who have not attempted IT 193 or IT 213. Offered by
Info Sciences & Technology (p. 1092). May not be repeated for credit.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 194: Review of Database Fundamentals. 1 credit.
Provides a self-paced, comprehensive review of database fundamentals.
Topics include: database classifications, data models with extensive
coverage of the relational model, entity-relationship and extended
entity relationship models, normalization, advanced data modeling, and
Structured Query Language (SQL) programming. Open only to students
with transfer credit comparable to IT 214 who have not attempted IT 194
or IT 214. Offered by Info Sciences & Technology (p. 1092). May not be
repeated for credit.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 206: Object Oriented Techniques for IT Problem Solving. 3 credits.
Introduces techniques for developing solutions to business problems
using object-oriented programming as an IT resource/tool. Students
apply problem solving concepts by analyzing problems and constructing,
testing, and implementing object-oriented solutions using object-oriented
analysis and design, data modeling, and object-oriented programming
fundamentals. Topics include: Unified Modeling Language (UML),
classes, inheritance, polymorphism, and exception handling. Notes:
Students cannot receive credit for both IT 108 and IT 206. Offered by Info
Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106\(^C\) or 196\(^C\)) and (IT 102\(^C\), MATH 112\(^D\) or
125\(^D\)).

C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 207: Applied IT Programming. 3 credits.
Building on fundamentals of problem solving, logic and algorithm
development, and procedural programming, this course further develops
these skills while covering server side scripting languages and relational
database connectivity. Students will use open source software tools to
develop database-enabled web applications. Offered by Info Sciences &
Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106\(^C\), 109\(^C\), 196\(^C\) or CS 112\(^C\)) and (IT 102\(^C\),
MATH 112\(^C\) or 125\(^C\)) and (IT 214\(^C\) or 194\(^C\)).

C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 209: Introduction to Object Oriented Programming. 3 credits.
Introduction to Object Oriented Programming (OOP) is intended for
students who want to advance their basic programming skill to the
next level by learning the OOP programming paradigm. This course is
designed to teach the benefits of OOP, including faster development,
code reusability and less code maintenance. The course accomplishes
the goals through hands-on experience with a number of coding
assignments. Topics include, but are not limited to: OOP design, objects,
class, methods, inheritance, testing, debugging, graphical user interfaces
(GUIs). Offered by Info Sciences & Technology (p. 1092). Limited to two
attempts.

Registration Restrictions:
Required Prerequisites: IT 109\(^C\) and (IT 102\(^C\), MATH 112\(^C\) or 125\(^C\)).
Students survey and apply techniques in analyzing and modeling information systems. Requirements are derived in various domains and abstracted at conceptual, logical, and physical levels. Process, data, and state modeling are applied through a project that follows a systems development lifecycle. Object modeling is explored and contrasted with data and process modeling. Individual and group modeling assignments are required. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103C, 103T, 103X, 104C or 104T).
C Requires minimum grade of C.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering, Computer Science, Electrical Engineering or Systems Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 213: Multimedia and Web Design. 3 credits.
Through lecture, class demonstration, class discussion, and hands-on lab experience, introduces multimedia and web computer graphics. Focuses on development of web-enabled multimedia applications from practical business perspective. Introduces and discusses technological, aesthetic, and human factors. Offered by Info Sciences & Technology (p. 1092).
Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103C, 103T, 103X, 104C or 104T).
C Requires minimum grade of C.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering, Computer Science, Electrical Engineering or Systems Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 214: Database Fundamentals. 3 credits.
Covers fundamentals of relational database management systems and their use in business environments. Topics include: database classifications, data models with extensive coverage of the relational model, entity-relationship and extended entity-relationship models, normalization, advanced data modeling, and Structured Query Language (SQL) programming. Students design and implement a real-world relational database and create complex SQL queries to retrieve data from the database. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103C, 103T, 103X, 104C or 104T).
C Requires minimum grade of C.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering, Computer Science, Electrical Engineering or Systems Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 216: Systems Analysis and Design. 3 credits.
Students survey and apply techniques in analyzing and modeling information systems. Requirements are derived in various domains and abstracted at conceptual, logical, and physical levels. Process, data, and state modeling are applied through a project that follows a systems development lifecycle. Object modeling is explored and contrasted with data and process modeling. Individual and group modeling assignments are required. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106C, 109C, 196C or CS 112C) and (IT 206C, 102X or CS 211T) and (IT 194C or 214T).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 223: Information Security Fundamentals. 3 credits.
Introduces concept of information security. Discusses need for organizational policy to define required services such as confidentiality, authentication, integrity, nonrepudiation, access control, and availability, and mechanisms to implement those services. Covers different types of security including physical security, computer security, and network security; common threats to and attacks against information systems, including accidental damage, identity theft, malicious software, and "spam"; and defensive measures. Notes: Students cannot receive credit for both IT 221 and IT 223. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 103C, 103T, 103X, 104C or 104T) and (IT 101C or 105C).
C Requires minimum grade of C.

Students cannot enroll who have a major in Civil and Infrastructure Engr, Computer Engineering or Computer Science.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 293: Applied IT: Junior Transition. 1 credit.
Focuses on transition issues for sophomores and transfer students in Information Sciences and Technology programs. Assists sophomore and transfer students with choice of concentration, course selection, and career readiness. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Recommended Prerequisite: Sophomore standing

Registration Restrictions:
Enrollment is limited to students with a major in Information Technology.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

IT 300: Modern Telecommunications. 3 credits.
Comprehensive overview of the fundamental principles of telecommunications, including current status and future directions of the public switched telephone network, cellular networks, satellite networks, and computer networks. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.
Registration Restrictions:
Required Prerequisites: ((IT 101C and 212C) or IT 105C) and (MATH 108C or 113D) and (IT 102C, MATH 112C or 125C).
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 304: IT in the Global Economy. 3 credits.
Explores how IT changed nature of society and contributed to evolution of global economy. Examines changing nature of work, education, and communication, and ethical issues such as intellectual property rights, computer-related crime, privacy concerns, and public policy issues. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts. Equivalent to CS 306.

Registration Restrictions:
Required Prerequisites: IT 103C, 103T, 103X, 104C or 104T.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 306: Program Design and Data Structures. 3 credits.
Fundamentals of data structures and analysis of algorithms. Large programs written in a modern, high-level programming language. Stresses abstraction, modular design, code reuse, and correctness. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 206B or CS 211B) and (IT 102C, MATH 112C or 125C).
B Requires minimum grade of B.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 308: Event-Driven Programming. 3 credits.
Building on the programming concepts covered in IT 206, this course focuses on graphical user interfaces. Students will design, develop, and document event-driven programs using an object-oriented language. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 206B or CS 211B.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 314: Database Programming. 3 credits.
The course introduces students to the Oracle Developer application development utilities and tools and describes how to create and manipulate databases in Oracle database management system. The course provides an extensive overview of SQL and introduction to PL/SQL. Topics include data definition and manipulation languages, stored procedures, triggers, indexing techniques, and elementary query optimization. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106C, 109C, 196C or CS 112C) and (IT 214B or 194B).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 315: Mobile Development. 3 credits.
Studies business-oriented applications for popular mobile platforms including Blackberry, Android and Apple. Provides overview of mobile platforms and devices including evaluation, uses, design and development of applications. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106C, 209C or CS 211C) and (IT 213B or 193B).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 322: Health Data Challenges.** 3 credits.
Covers methodology and tools used to work with health data structures supporting organizations’ needs for reliable data that are captured, stored, processed, integrated, and prepared for further querying, decision making, data mining and knowledge discovery for a variety of clinical and organizational purposes. Data security and privacy, data standards, data interoperability, health information exchange, and big data analytics are discussed. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts. Equivalent to BENG 322.

**Registration Restrictions:**
Required Prerequisites: (IT 214\(^B\) or 194\(^B\)) and (STAT 250\(^C\) or 344\(^C\)).

\(^B\) Requires minimum grade of B.
\(^C\) Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 324: Health Information Technology Fundamentals.** 3 credits.
Explores the development and implementation of information systems and informatics tools in healthcare environment. Discusses the importance and benefits of electronic health records (EHRs). Students learn about EHRs’ creation, management, and evolution, and their use for clinical decision support. In addition health information security, privacy, federal laws, regulations and standards, and their impact on healthcare delivery are discussed. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisites: IT 214\(^B\) or 194\(^B\).

\(^B\) Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology or Information Technology.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 328: Health Information Emerging Technologies.** 3 credits.
Provides an introduction to networking in the healthcare environment and covers a wide range of topics on emerging health information technologies. Discusses internet protocols, safety procedures, and data privacy considerations in healthcare environments, and processes required to design, secure, and troubleshoot a network to support healthcare organizations. Mobile computing, patient portals, personal health records, telehealth, health information exchange are discussed. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisite: (IT 341\(^C\)).

\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 331: Web I: Web Development.** 3 credits.
Introduces the principles and techniques necessary for successful client-side web development. Topics such as HTML5, Cascading Style Sheets, JavaScript, DOM, XML, AJAX, and jQuery are presented. Students will learn to develop attractive and interactive web pages and applications and use client-side web-scripting languages to solve problems both with a text editor and more powerful WYSIWYG HTML editors. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisites: (IT 106\(^C\), 109\(^C\), CS 112\(^C\) or IT 196\(^C\)) and (IT 213\(^B\) or 193\(^B\)).

\(^C\) Requires minimum grade of C.
\(^B\) Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 332: Web Server Administration.** 3 credits.
Covers the installation, configuration, and administration of Web servers, FTP servers, and DNS servers. Additional topics include security setups, administration, and associated performance issues. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisites: (IT 213\(^B\) or 193\(^B\)).

\(^B\) Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 335: Web Development using Content Management Systems.** 3 credits.
Through lectures and hands-on lab experience, presents web development techniques using content management systems (e.g. Joomla, Dot net nuke). Introduces characteristics of various types of websites (corporate portals, intranets and extranets; online magazines, newspapers, and publications; e-commerce and online reservations, government applications, small business websites). Presents methods, languages, tools related to web content management systems from an applied perspective. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisites: IT 213^B or 193^B.

^B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 341: Data Communications and Network Principles. 3 credits.
Focuses on primary aspects of data communications and networking. Open Systems Interconnection (OSI) and Internet models; Layer 1 interfaces and cabling configurations; IP network addressing, network design, router and port configurations; security protocols; static routing, RIPv2, and OSPF configurations; TCP, UDP data reliability, and error correction methods; Telnet, FTP, TFTP, HTTP, SMTP, POP, and DNS protocols. Notes: This course is 50 percent lab work of configuration of routers and network design, implementation, and testing. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((IT 101^C and 212^C) or (IT 105^C)) and (IT 106^C, 109^C, 196^C or CS 112^C) and (MATH 108^C or 113^C) and (IT 300^C).

^C May be taken concurrently.

^B Requires minimum grade of B.

^C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 342: Operating Systems Fundamentals. 3 credits.
Practices and procedures for installing and configuring modern operating systems, including user accounts, file, print, and terminal servers, mobile computing, and disaster recovery. Through practical lab sessions, students receive real-world experiences with multiple operating systems. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ((IT 101^C and 212^C) or (IT 105^C)) and (IT 106^C, 109^C, 196^C or CS 112^C).

^C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 343: IT Project Management. 3 credits.
Provides essential strategies and procedures for planning, organizing, staffing, monitoring, and controlling design, development, and production of system to meet stated IT-related need in effective and efficient manner. Fulfills writing-intensive requirement for BS in information technology. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Specialized Designation: Writing Intensive in the Major

Registration Restrictions:
Required Prerequisite: IT 293^C.

^C Requires minimum grade of C.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Enrollment is limited to students with a major in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 344: Information Storage and Management Technologies. 3 credits.
Provides an introduction to principles of information storage and management including the emerging field of virtualization technologies. Covers Direct Attached Storage (DAS), networked storage models such as Network Attached Storage (NAS), Storage Area Network (SAN), and Content Addressed Storage (CAS); and applications in business continuity, replication, disaster recovery, and cloud computing. Includes exposure to real-world storage networking technologies. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 341^C and (IT 214^B or 194^B).

^C Requires minimum grade of C.

^B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 352: Security Administration of Linux Systems. 3 credits.
Provides theoretical foundation and practical experience installing, configuring, and maintaining Linux systems with an emphasis on best practices for security. Students develop a heterogeneous suite of clients and servers with firewalls and other networking components. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 223^B and ((IT 101^C and 212^C) or IT 105^C) and (IT 106^C, 196^C or CS 112^C) and IT 342^C.
IT 353: Information Defense Technologies. 3 credits.
This course will examine and assess the role of information technology as a tool of warfare and civil defense. Topics will be discussed from both defensive and offensive perspectives and will include asset tracking, asymmetric warfare, network centric warfare, physical attacks, cyberterrorism, espionage, psyops, reconnaissance and surveillance, space assets, and applications of GPS and cryptographic technology. Students will research and write about the social, ethical, and political effects of such technology. Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 101C or 105C) and (IT 223B).  
C Requires minimum grade of C.  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 357: Computer Crime, Forensics, and Auditing. 3 credits.
Covers computer crime, relevant laws, agencies, and standards. Presents auditing, logging, forensics, and related software. Explores legal principles such as chain of evidence, electronic document discovery, eavesdropping, and entrapment. Students get hands-on experience with forensics tools. Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts. Equivalent to CRIM 304.

Registration Restrictions:
Required Prerequisites: (IT 103X, 103C, 103T, 104C or 104T) and (IT 223B).  
C Requires minimum grade of C.  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 366: Network Security I. 3 credits.
Examines information security services and mechanisms in network context. Topics include symmetric and asymmetric cryptography; message authentication codes, hash functions and digital signatures; digital certificates and public key infrastructure; access control including hardware and biometrics; intrusion detection; and securing network-enabled applications including e-mail and web browsing. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 206C, 209C or CS 211C) and IT 223B.  
C Requires minimum grade of C.  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 369: Data and Application Security. 3 credits.
Introduces concept of data and application security. Discuss challenges of database, and application and industrial control system security. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 207C and 223B).  
C May be taken concurrently.  
B Requires minimum grade of C.  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 390: Rapid Development of Scalable Applications. 3 credits.
Presents software engineering, programming techniques, platforms and tools necessary for rapid development of scalable applications including: cloud platforms; scalable data storage solutions; web applications development environments. The course will provide a general overview of such techniques but will concentrate on selected ones in each term. The students will work in small teams and must develop scalable prototypes during the course. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 106B, 196B or CS 112B) and (IT 213C or 193C) and (IT 214C or 194C).  
B Requires minimum grade of B.  
C Requires minimum grade of C.
Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

IT 410: Web Programming. 3 credits.
This course covers layers of the n-tier architecture. Students will build web applications using available frameworks at each tier, such as Java Server Faces and Servlets for the UI tier, Web Services for the business tier and Java Database Connectivity for the persistence tier. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 206B or CS 211B.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 413: Digital Media Editing. 3 credits.
Examines three areas of digital media editing- tools for editing, content and logic decision process, and information technology used by major corporations for development and distribution-through video examples from entertainment industry and corporate productions as well as hands-on editing experience. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 213C or 193C).  
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 414: Database Administration. 3 credits.
Explores advanced concepts of database administration using enterprise-level database management system. Topics include: backup, recovery, corruption, automatic management, resource management, job scheduling, space management, memory management, storage management, diagnosis and corresponding tools. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:

Required Prerequisites: (IT 314C) and (IT 214B or 194B).  
C Requires minimum grade of C.  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 415: Information Visualization. 3 credits.
Provides an overview of information visualization applications in intelligence analysis, decision support systems, and network monitoring. Covers human factors, human interface with information, and current and future trends in information visualization. Students also learn to develop a rudimentary visualization application. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 213B or 193B).  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 429: Security Accreditation of Information Systems. 3 credits.
This course explains basic principles of performing FISMA certification and accreditation (C&A) of an IT System. The course covers methodology for completing C&A, explains the role of the Certifier and the Information System Security Officer (ISSO), and gives students real world experience with IT Systems in the Federal Government. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 105C or 212C) and (IT 223B).  
C Requires minimum grade of C.  
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 431: Web II: Advanced Web Development. 3 credits.
Focuses on database-driven web application development and web presentation using server-side coding and advanced techniques. Additional topics include AJAX, web server configuration and web...
services. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**

**Required Prerequisites:** (IT 331C) and (IT 213B or 193B).
- C Requires minimum grade of C.
- B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or InfoSoft Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 436: Agile Web Development with Open Source Frameworks.** 3 credits.
Introduces the principles and techniques for TDD (test-driven development) and deployment using open source frameworks (e.g., Ruby on Rails). Topics such as agile development methodology, version control, and Lean Startup are also presented. Students will work in small teams and propose, develop, and deploy interactive web applications and use an open source application framework to solve real-world problems. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**

**Required Prerequisites:** (IT 106C, 196C or CS 112C) and (IT 213B or 193B) and (IT 214C or 194C).
- C Requires minimum grade of C.
- B Requires minimum grade of B.

Enrollment is limited to students with a major in Applied Information Technology, Applied Science, Individualized Study, Information Technology or InfoSoft Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 441: Network Servers and Infrastructures.** 3 credits.
Covers IP networking concepts and practices for IPv6 addressing, DHCP and DNS in IPv6 networks, secure communication over VPNs, VoIP architecture, Virtual Computing, Cloud Computing, MPLS, traffic monitoring and network connectivity between operating systems. Students learn the latest technologies of IP networks and understand application-level services used in the Internet. Lab sessions focus on installation of applications on virtual servers. Notes: Term project. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**

**Required Prerequisites:** (IT 341B or L341) and (IT 102C, MATH 112C or 125C).
- B Requires minimum grade of B.
- C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or InfoSoft Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 445: Advanced Networking Principles.** 3 credits.
This course focuses on Layer 2 and 3 of the OSI model and WAN technologies. Frame Relay and ISDN, complex router configurations of Variable Length Subnet Masking (VLSM), Classless Inter-Domain Routing (CIDR), Network Address Translation (NAT), Dynamic Host Configuration Protocol (DHCP), and study of Network Management Systems available for Data Communications Networks. Layer 2 involves Ethernet-switching components, including detailed hands-on configuration covering all aspects of switches using the command-line interface method. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**

**Required Prerequisites:** (IT 341B or L341).
- B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or InfoSoft Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 455: Wireless Communications and Networking.** 3 credits.
Covers fundamental principles underlying wireless data communications. Topics include wireless transmission basics, radio propagation issues, antennas, digital modulation, spread spectrum techniques and their applications, and popular standards: WiFi, WiMAX and Bluetooth. Also presents practical knowledge to enable the design, testing, deployment, debugging and commissioning of WiFi, WiMAX networks and point-to-point microwave systems. Discussions on cellular network technologies are also included. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**

**Required Prerequisites:** (IT 101C or 105C) and (IT 102C, MATH 112C or 125C) and (IT 341B or L341).
- C Requires minimum grade of C.
- B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or InfoSoft Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 462: Information Security Principles.** 3 credits.
Studies security policies, models, and mechanisms for secrecy, integrity, availability, and usage controls. Topics include models and mechanisms for mandatory, discretionary, and role-based access controls; authentication technologies; control and prevention of
viruses and other rogue programs; common system vulnerabilities and countermeasures; privacy and security policies and risk analysis; intellectual property protection; and legal and social issues. Notes: For INFT and AIT majors, minors and certificates, and BAS cybersecurity concentration only. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 105C or 212C) and (IT 223B).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 465: Peer-to-Peer Systems and Overlay Networks. 3 credits.
Peer-to-Peer (P2P) systems and overlay networks have become popular over the years because they are a cost-effective and scalable content sharing solution. Fundamentals of P2P systems and overlay networks are introduced to validate it as a better option than the traditional client server architecture. Students learn the classifications of P2P systems and architectures; overlay network categories, and their benefits and disadvantages. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 341B and (IT 106C, 109C, 196C or CS 112C).
B Requires minimum grade of B.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 466: Network Security II. 3 credits.
Detailed study of certain symmetric and asymmetric cryptographic schemes; analysis of network data (including "packet sniffing"); security at different network layers (including IPSec, SSL/TLS and Kerberos); and secure e-commerce. Teaches principles of designing and testing secure networks, including use of network partitioning, firewalls, intrusion detection systems, and vulnerability assessment tools. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 223B) and (IT 341C) and (IT 206C, 209C or CS 211C) and (IT 102C, MATH 112C or 125C).
B Requires minimum grade of B.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 467: Network Defense. 3 credits.
Practices and procedures for defending business-class, heterogeneous networks against threats (including system failure, environmental events, human error) and attacks (including intrusion, malicious software, denial of service). Through practical lab sessions, students receive real-world experience designing networks, installing and configuring system components, detecting and recovering from problems and attacks, and gathering data to support prosecution of offenders and refinement of countermeasures. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: IT 366C and 223B.
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

IT 484: Voice Communications Technologies. 3 credits.
Examines current and emerging technologies for transmission of voice signals over telecommunications systems. Highlights significant differences between the requirements for voice and other forms of data. Topics provide a balance between traditional voice technologies and those that use data networks. Real-world implementations are analyzed to determine reliability, quality, and cost effectiveness. Includes lab experiments with analog and digital technologies. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (IT 300C) and (IT 341B or L341).
C Requires minimum grade of C.
B Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
**Registration Restrictions:**

**Required Prerequisites:** (IT 300<sup>C</sup>) and (IT 341<sup>B</sup>) and (MATH 108<sup>C</sup> or 113<sup>C</sup>).

<sup>C</sup> Requires minimum grade of C.

<sup>B</sup> Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 490: Application Maintenance and Spiral Development.** 3 credits.

Presents software engineering, programming techniques, platforms and tools necessary for application maintenance, optimization and spiral development. Models discussed may include: incremental development, waterfall, evolutionary; on various platforms: mobile, cloud, web-based. Provides a general overview of such techniques but concentrates on selected topics. Students will work in small teams to maintain and further develop previously deployed applications. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**

**Required Prerequisites:** IT 390<sup>C</sup> and (IT 106<sup>B</sup>, 196<sup>B</sup> or CS 112<sup>B</sup>).

<sup>C</sup> Requires minimum grade of C.

<sup>B</sup> Requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 492: Senior Design Project I.** 3 credits.

Students use information technology as a tool to redesign business processes so the enterprise can achieve its objectives. Student teams analyze the business processes of real organizations, quantify the negative impact caused by current process challenges, then develop and present a compelling Business Case for Change. Students develop skills critical for preparing and delivering effective verbal briefings and presentations. Notes: Restricted to AIT/INFT majors. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Mason Core:** Capstone, Synthesis (p. 137)

**Registration Restrictions:**

**IT 493: Senior Design Project II.** 4 credits.

Students, in teams, complete projects demonstrating preparedness as an IT professional. This work includes ethical challenges, status reports and engineering notebooks evaluated during class. Teams members develop detailed designs, build solutions up to Beta, present final written reports and final verbal presentations before review panels of business leaders. Students must register for the section that continues their IT 492 section. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Mason Core:** Capstone (p. 137)

**Registration Restrictions:**

**Required Prerequisite:** IT 492<sup>C</sup>.

<sup>C</sup> Requires minimum grade of C.

Enrollment is limited to students with a major in Applied Information Technology or Information Technology.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture, Recitation

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 495: Turning Ideas into Successful Companies.** 3 credits.

This is a practical course in entrepreneurship. Each class session will focus on specific topics associated with building a business: team creation, business planning, market research, product development, financial planning, funding, people and organizations, competitive strategies, operations, growth and exit strategies, and more. Students will have reading assignments and will participate in competitive team assignments. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**

**Required Prerequisites:** (IT 206<sup>C</sup>, 209<sup>C</sup> or CS 211<sup>C</sup>) and IT 207<sup>C</sup> and (IT 213<sup>C</sup> or 193<sup>C</sup>) and (IT 214<sup>C</sup> or 194<sup>C</sup>) and IT 223<sup>C</sup>, 300<sup>C</sup>, 341<sup>C</sup> and 343<sup>C</sup> and (MBUS 300<sup>C</sup> or MSOM 300<sup>C</sup>).

<sup>C</sup> Requires minimum grade of C.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Applied Information Technology or Information Technology.

Enrollment limited to students in a Bachelor of Science degree.

Students with the terminated from VSE major attribute may not enroll.
Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 496: Decision Making in IT Ventures.** 3 credits.
Introduces students to the decision making processes involved in leading IT companies. Topics include: the role of major IT applications in strategic, tactical, and operational decisions; assessment and justification of IT ideas and investments; methodologies to predict decision outcomes; how to measure IT investments performance; strategies to inspire, influence and organize the workforce to accomplish key business goals. Notes: Students develop skills through assessment and role-playing activities, discussions, cases, and hands-on applications. Offered by Info Sciences & Technology (p. 1092). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** (IT 108B, 109B, 196B or CS 112B). B requires minimum grade of B.

Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 498: Independent Study in Information Technology.** 1-3 credits.
Directed self-study of special topics of current interest in IT. Notes: Topics must be arranged with instructor and approved by department chair before registering. Offered by Info Sciences & Technology (p. 1092). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** 60 credits.

**Registration Restrictions:**
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**IT 499: Special Topics in Information Technology.** 3 credits.
Topics of special interest to undergraduates. Notes: May be repeated if topics are substantially different. Offered by Info Sciences & Technology (p. 1092). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** 60 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Applied Information Technology, Applied Science, Individualized Study, Information Technology or Infmtn Tchngy Entrepreneurship.

Washington Consortium level students may not enroll.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

### 700 Level Courses

**IT 796: Directed Reading and Research.** 1-6 credits.
Reading and research on specific topic in information technology under direction of faculty member. Offered by Info Sciences & Technology (p. 1092). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**IT 797: Directed Reading and Research.** 1-3 credits.
Reading and research on specific topic in information technology under direction of faculty member. Offered by Info Sciences & Technology (p. 1092). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

### 800 Level Courses

**IT 896: Directed Readings and Research in IT.** 1-6 credits.
Students pursue research on a specific topic under direction of faculty. Offered by Info Sciences & Technology (p. 1092). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Completed qualifying exams, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

### 900 Level Courses

**IT 990: Dissertation Topic Presentation.** 1 credit.
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty. Notes:
May be repeated with change of research topic, but credit toward doctoral degree is given once. Offered by Info Sciences & Technology (p. 1092). May not be repeated for credit. Equivalent to CS 990, STAT 990.

**Recommended Prerequisite:** Completion of all coursework for the PhD in Information Technology, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Research

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**IT 991: Engineer Project Presentation.** 1 credit.
Opportunity for engineer degree students to present project proposal for critique to interested faculty and students. Covers presentation of project topic for engineer degree in information technology, and is required of all engineer degree students. Students complete project proposal. Notes: May be repeated with change in topic, but degree credit is only given once. Offered by Info Sciences & Technology (p. 1092). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of all course requirements for the Engineer degree in Information Technology or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**IT 996: Engineer Project Proposal.** 1-6 credits.
Work on project proposal that forms basis for dissertation for engineer degree. Notes: No more than 12 credits of IT 996 and 997 may be applied to engineer degree requirements. Offered by Info Sciences & Technology (p. 1092). May be repeated within the degree.

**Recommended Prerequisite:** Completion of all course requirements for the Engineer degree in Information Technology and permission of Project Director.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Engineer degree.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**IT 997: Engineer Project Dissertation.** 1-6 credits.
Formal record of commitment to engineer project dissertation under direction of advisory committee in information technology. Offered by Info Sciences & Technology (p. 1092). May be repeated within the degree.

**Recommended Prerequisite:** Admission to candidacy. Students must submit the Engineer proposal and have it approved prior to registering for this course.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Engineer degree.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**IT 998: Doctoral Dissertation Proposal.** 1-12 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of IT 998 and 999 may be applied to doctoral degree requirements. Offered by Info Sciences & Technology (p. 1092). May be repeated within the degree.

**Recommended Prerequisite:** Completion of all coursework for the PhD in Information Technology, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**IT 999: Doctoral Dissertation.** 1-12 credits.
Formal record of commitment to doctoral dissertation research under direction of faculty member in information technology. Note: Students must submit the Doctoral proposal and have it approved prior to registering for this course. Students may not take IT 998 and 999 at the same time. Students must contact department at 993-1505 to receive approval and CRN to register. Offered by Info Sciences & Technology (p. 1092). May be repeated within the degree.

**Recommended Prerequisite:** Admission to Doctoral candidacy. Students must submit the Doctoral proposal and have it approved prior to registering for this course. Students may not take IT 998 and 999 at the same time. NOTE: Students must contact department at 993-1505 to receive approval and CRN to register.

**Registration Restrictions:**
Enrollment is limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)
Initiatives in Educational Transformation-Teaching (IETT) 

100 Level Courses 

INTS 101: Narratives of Identity. 6 credits. 
Explores the concept of identity through the study of literature and oral communication. Introduces aesthetic, cultural, and historical aspects of these forms of communication as well as their psychological, political, and practical significance, with special emphasis on the role of communication in a free society. Offered by School of Integrative Studies (p. 567). May not be repeated for credit. 

Specialized Designation: Discovery of Scholarship 
Schedule Type: Seminar 
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 102: Global Networks and Communities. 6 credits. 
Prepares students for participation in a global society by investigating global and local issues in a historical context. Considers critical topics of western civilization, globalization, (neo)colonialism, imperialism, and hegemony. Students gain an in-depth perspective of the intricate relationships between people and cultures at various moments in our history. Offered by School of Integrative Studies (p. 567). May not be repeated for credit. 

Specialized Designation: Green Leaf Course, Discovery of Scholarship 
Schedule Type: Seminar 
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 103: Human Creativity: Science and Art. 6 credits. 
Investigates the vital role played by human creativity in fine arts and natural sciences. Fosters an understanding of the aesthetic and intellectual components of the arts while exploring the scientific method, the relation of theory and experiment, and the development and elaboration of major ideas in science. Offered by School of Integrative Studies (p. 567). May not be repeated for credit. 

Specialized Designation: Green Leaf Course, Discovery of Scholarship 
Schedule Type: Seminar 
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 195: Field-Based Work. 1-6 credits. 
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 24 credits. 

Schedule Type: Internship 
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses 

INTS 200: Visual Thinking and the Creativity. 3-15 credits. 
Investigates modes of visual and textual creativity through art, literature, and variety of visual and textual forms. Through interdisciplinary approach to picturing text, provides opportunity to experiment with creative composition that includes visual elements, and with art forms that include textual elements. Explores blocks to creativity, and provides understanding of how to evaluate and write about visual texts as well as how to produce documents that integrate words and images. Offered by School of Integrative Studies (p. 567). May not be repeated for credit. 

Mason Core: Arts (p. 137) 
Schedule Type: Lecture 
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 201: The World Since 1945. 6 credits. 
Examines the history of the past 50 years to illuminate the contemporary world as well as build connections between the global and local. Using historical works, fiction, autobiographies, films, and daily newspapers, students explore such major events as the Cold War, the struggle against apartheid in South Africa, the Vietnam War, the Chinese Cultural Revolution, and the continuing conflict in the Middle East. As a learning community, requires active student participation in group projects and discussions. Offered by School of Integrative Studies (p. 567). May not be repeated for credit. 

Mason Core: Global Understanding (p. 137) 
Schedule Type: Lecture 
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 202: Public Speaking and Critical Thinking Skills. 4 credits. 
Combines process of learning to speak in front of audiences with analysis of arguments and persuasive appeals. Students learn how to create and present effective speeches, adapt messages to specific audiences, and evaluate and critique messages produced for others. One credit of experiential learning enables students to examine public speeches, news stories, political campaigns, and advertising, among others, to make meaningful connections between public speaking theory and practice. Offered by School of Integrative Studies (p. 567). May not be repeated for credit. 

Mason Core: Oral Communication (p. 137) 
Schedule Type: Lecture 
Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 203: Inquiry for Action: Facilitating Change. 6 credits. 
Examines the relationships between academic research, individual acts and society’s social and political structures. Students design a community-based research project, explore a rich array of qualitative and quantitative approaches, apply information and communication technologies to all aspects of the research process, and learn from
individuals and organizations outside the classroom. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Specialized Designation:** Discovery of Scholarship

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 204:** Leadership Theory and Practice. 4 credits.
Examines historical and contemporary leadership theories and invites students to be reflective of their own leadership experiences through the lenses of those theories. Students develop critical lenses through which to evaluate their own self-awareness, effectiveness in groups, and ability to navigate structures and systems. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 210:** Sustainable World. 4 credits.
Covers basic issues in the natural and social sciences that underlie current environmental problems. Considers ethical matters such as equity as they pertain to global resource consumption, pollution, and climate change. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Natural Science with Lab (p. 137)

**Specialized Designation:** Green Leaf Course, Discovery of Scholarship, Scholarly Inquiry

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 211:** Introduction to Conservation Studies. 3-6 credits.
Provides foundation for the integrative study of environmental conservation. Formal and informal writing assignments and oral presentations designed to strengthen critical thinking and communication skills important to students who pursue conservation-related professions. Instructors encourage students to use course assignments and off-campus work to identify suitable educational and career paths within the conservation world. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Natural Science Overview (p. 137)

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 231:** Introduction to Community Studies. 4 credits.
Examines relationship between sustainable communities and democratic citizenship in a diverse society. The objectives are to improve one's understanding of and thinking critically about communities and democratic principles, theories and practice. Students identify and work through problems that communities address by working in a community service-learning setting. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 244:** Beats, Rhyme, and Culture. 4 credits.
Examines the history of hip-hop and the effect it has had on our society. The primary focus is to consider hip-hop as a medium of communication that impacts, represents, and misrepresents the life experiences of youth in the United States. Students are exposed to historical, socioeconomic, and musical/aesthetic contexts of this genre through in-class activities and by attending related cultural events. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 245:** Visual Culture and Society. 4 credits.
Explores the role of visual culture in contemporary society including an examination of photography, the visual and performing arts, film and video, and electronic media. Readings focus on the historical foundations of visuality as well as theories of visual culture and aesthetics. Students investigate the ways that forms of visual culture function in society and how these are linked to race, class, and gender as well as politics and economics. Students will gain hands-on experience working with contemporary visual media tools such as computer graphics and digital video editing. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Arts (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 249:** Digital Literacy. 4 credits.
Investigates information literacy, the mobile web, and interactive and immersive media, including gaming, social networking, blogging and micro-blogging, intellectual, political and civic collaborations, digital aesthetics and emerging digital cultures and art forms. Explores major theories of digital literacy and culture and introduce diverse social, artistic, theoretical and cultural practices that characterize today's digital domains and virtual environments. Notes: One experiential credit is required in this class. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Information Technology: Without Ethics (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 275:** Special Topics. 1-18 credits.
Studies topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 18 credits.
Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

INTS 291: Living-Learning Community. 1 credit.
Bridges students’ academic interests with their residence hall living experience. Students with common interests live together in the same residence hall and develop personal and academic relationships with other students and faculty from their chosen Living Learning Community focus. Offered by School of Integrative Studies (p. 567). May be repeated within the degree for a maximum 8 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 292: Leadership for Sustainability. 1 credit.
For students living in the Sustainability Living Learning Community and/or students participating in the Greenleaf ENCORE Series, Develop your understanding of sustainability in both theory and practice. Learn how change happens at Mason and identify contributions you can make to Mason’s continuing pursuit of campus sustainability. Offered by School of Integrative Studies (p. 567). May be repeated within the degree for a maximum 8 credits.

Specialized Designation: Green Leaf Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 15 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 295: Field-Based Work. 1-18 credits.
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to fieldwork, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 24 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 298: Field-Based Work. 1-15 credits.
Experiential-based individualized studies, mentored by instructor. Notes: Topics decided by student and instructor, and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 15 credits.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

INTS 300: Law and Justice. 3 credits.
Combines various teaching methods including lectures, the Socratic method, case studies, discussion of readings and films, debates, and active inquiry-based learning to investigate the major institutions in the American legal system. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 301: Science in the News. 3 credits.
Examination and discussion of the current trends in science as reported in the popular media. Students learn how to evaluate the science that is reported so they may become informed consumers, discuss how scientific advancement might shape society by looking at how science and society have changed together over time, and use examples from the past to discuss future trends. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Natural Science Overview (p. 137)

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 302: Argument and Advocacy. 6 credits.
Develops theoretical background and skills necessary for effective civic engagement and deliberative discourse. Teaches fundamentals of argument construction, function, and analysis. Covers role of argument and advocacy in a democratic society. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
INTS 303: Introduction to International Studies. 3 credits.
Explores a multi-disciplinary approach to addressing world issues.
Combines lectures, field trips, discussion of readings, films, case
studies, projects, and active inquiry-based learning to examine the
natural environment, infectious disease and globalization, media and
technologies, and war and violent conflict, with an attempt to deepen
community members' understanding of an increasingly interdependent
world. Offered by School of Integrative Studies (p. 567). May not be
repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 304: Social Movements and Community Activism. 4 credits.
Examines how citizens, individually and collectively, accomplish social
change in society through case study analysis. Considers advantages and
limits of social change strategies from communication and social
movement theory perspectives. Surveys topics including how leaders
maintain momentum in face of opposition; how movements and
organizations use slogans, symbols and music to inspire followers; and
how participants construct persuasive media campaigns and political
arguments to facilitate policy change. Notes: One credit of experiential
learning enables students to explore their role as social advocates and
effective citizens in context of community. Offered by School of
Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)
Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 305: Conflict Resolution and Transformation. 6 credits.
Examines the nature and dynamics of conflict and ways to resolve and
transform conflict. Experiential learning is used as the vehicle through
which students explore their assumptions about communication and
develop their skills for resolving interpersonal conflicts. Offered by School
of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 308: American Landscapes in Fiction, Film, and History. 6 credits.
Waterways and roadways have always had practical, spiritual
significance for Americans. Course looks at American literary works and
films in historical context to better understand the roles roads, rivers
play in shaping physical, cultural landscape of United States. Students
explore course themes outside classroom on weekend field trips, and
conduct self-directed road trip as a main learning events. Notes: Satisfies
requirements for ENGH 302. Offered by School of Integrative Studies
(p. 567). May not be repeated for credit.

Mason Core: Synthesis (p. 137)
Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 310: Violence and Gender. 3-6 credits.
Using nonfiction, research documentaries, oral histories, case studies,
literature, feature films, music, dance, and visual arts, examines the
dynamics of violence through different cultural lenses. Students work
in university and community settings to integrate their academic
experiences with practice. Offered by School of Integrative Studies
(p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 311: The Mysteries of Migration: Consequences for Conservation. 6
credits.
Investigates the biology of migration and its implications for science
policy. Students consider the phenomenon of migration in the context
of natural history, conservation, and cultural issues. The course includes
several weekend trips for field study. Offered by School of Integrative
Studies (p. 567). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)
Specialized Designation: Green Leaf Course, Writing Intensive in the Major
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 312: Images and Experiences of Childhood: Social Construct, Literature,
and Film. 3-6 credits.
Immerses students in the images of childhood through the media
of literature, video, and poetry, with a strong emphasis on historical
perspectives of childhood. The class is interactive, requires some work
in groups, and requires classroom participation. Offered by School of
Integrative Studies (p. 567). May not be repeated for credit. Equivalent to
HIST 386, HIST 498.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 314: Conflict, Trauma and Healing. 6 credits.
Develops in students an appreciation of human resilience and helps them
acquire better coping mechanisms. Imparts knowledge of the nature
and dynamics of trauma and healing. Investigates the difficulties people
face in responding to settings of conflict such as war, school shootings,
abuse, domestic violence, including natural disaster. Examines case
studies from a variety of personal, national, and international settings.
Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Global Understanding (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 315:** *Spirituality and Conflict Transformation.* 6 credits.
Examines dimensions of spirituality, including peacemaking efforts in large-scale conflicts, conflicts within faith communities, and interpersonal disputes. Experiential learning explores spiritually informed resolution. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Global Understanding (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 316:** *Introduction to Childhood Studies.* 4 credits.
Focuses on the study of childhood from birth to adolescence from the perspective of several disciplines. Covers childhood theory, research, and policy and their applications to decisions regarding children and youth. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 317:** *Issues in Family Relationships.* 4 credits.
Dynamics of family systems and issues that shape relationships among family members. How families evolve as members grow, leave, and create related family systems; family roles and forms; and communication patterns, decision-making, conflict, stress, and power. Content draws from family communication, family relations, psychology, and counseling. Lecture, discussion, observation, analysis, research, and role-playing. Notes: One credit counts for experiential learning; students complete 45 credits of course-related work outside classroom. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Minimum of 55 hours completed.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 318:** *Exploring Virginia's Watersheds.* 4 credits.
Comprehensive overview of history, geography, economics, and management of water resources in Virginia; and how rapidly growing population has measurably degraded resource. Includes one weekend field trip. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course, Writing Intensive in the Major

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 319:** *Contemporary Youth Studies.* 3 credits.
Examines the history of positive youth development, how scholars study youth, and the theories they use to guide their research. Evaluates the policies and programs aimed at empowering youth. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 320:** *Construction of Differences: Race, Class, and Gender.* 6 credits.
Investigates race, sex, sexual orientation, and social class in contemporary American society. Examines commonalities in the construction of these categories and experiences of those who occupy them. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 321:** *Parent-Child Relations.* 3 credits.
Introduces students to concepts and challenges in parenting, along with family diversity and risk factors. Considers interactions between parents and children from birth to adolescence as well as cross-cultural, historical, and societal influences. Explores efforts that have been successful in changing detrimental parenting actions. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 322:** *Teacher: A Historical Perspective.* 3 credits.
Examines the rich heritage of the teaching profession in Western society. Traces the history of educational philosophy and teaching, beginning with the ancient Greeks and culminating in the 21st century United States. Using the exploration of the various philosophies of education as a foundation, examines contemporary images of teachers in literature...
and film. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 331:** *The Nonprofit Sector.* 4 credits.
Readings, classroom discussions and activities, and practical experience reveal historical, legal, and socioeconomic forces that define and influence the American nonprofit sector. Explores structures, issues that affect nonprofit management, governing, and financial systems. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Sophomore standing.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 333:** *The Nature of Mathematics.* 3 credits.
Include theoretical framework, historical context, connections with some other disciplines, and current issues. Selected mathematics topics such as advanced algebra and geometry and introductions to set theory, probability, calculus, and number theory. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Performance on Math Placement Exam equivalent to requirements for entrance to MATH 110 or MATH 111, successful completion of algebra program in mathematics learning center, or any mathematics course that fulfills the Mason Core requirement in quantitative reasoning; OR permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 334:** *Environmental Justice.* 4 credits.
Examines historical and contemporary sociopolitical and socioeconomic conditions that have given rise to the environmental justice movement. Analyzes how individuals contribute to environmental justice or injustice through everyday decisions. Considers how environmental justice movement responds to these issues. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Specialized Designation:** Green Leaf Course, Writing Intensive in the Major

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 335:** *Ethics, Communication, and Freedom.* 3-6 credits.
Students examine ethical principles, discuss some underlying bases for these principles, and work to understand how such principles are experienced and can be applied in a free society. Focus is on examining potential conflicts between ethics and the freedoms believed essential to a healthy democratic society. Cases drawn from sports, medicine, media, politics, and business. Offered by School of Integrative Studies (p. 567). May not be repeated for credit. Equivalent to COMM 454, PHIL 391.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Sophomore standing and 3 credits each of COMM and PHIL, or Permission of Instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 336:** *Poverty, Wealth and Inequality in the US.* 3 credits.
Explores the social, cultural, political, and spiritual implications of poverty, wealth, and inequality in the United States. Examines the ways in which class identity informs one’s views of the world and its politics; how socioeconomic status affects one’s access to education and other social goods; and how dominant discourses and stereotypes related to poverty influence mass perception regarding a range of social issues, from educational policy to welfare. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 337:** *Social Justice Consciousness and Personal Transformation.* 3 credits.
Explores the many spaces at which the quest to strengthen social justice consciousness interacts with processes and commitments for personal transformation. Analyzes through the lens of the activist and in the spirit of bringing mindfulness to activism, how we come to see and experience the world. Examines how socialization informs consciousness. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 338:** *Animal Rights and Humane Education.* 3 credits.
Explores a combination of critical theories, experiential learning, and dialogical practices to examine the ways in which non-human animals are exploited for human profit. Examines the ramifications of this exploitation ecologically, as a question of sustainability, and spiritually, as a question of the impact of animal abuse on the human spirit. Discusses the use of animals in entertainment, factory farming, animal testing, and sport or trophy hunting; and how individuals and organizations are fighting these practices. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.
Specialized Designation: Green Leaf Course, Writing Intensive in the Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 345: Introduction to Multimedia. 5 credits.
Technological, aesthetic, and educational issues of using interactive multimedia. Topics include theoretical underpinnings of some technological issues involved in multimedia computing as well as techniques for authoring interactive multimedia projects using a variety of digital media tools. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Information Technology: With Ethics (p. 137)

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 346: Art as Social Action. 4 credits.
This learning community explores historical records to understand different ways art has been produced, distributed, and consumed. Examines ways artists have affected change in their worlds. Through interdisciplinary studies, teaches major social movements and artists and theories used in socially engaged art. Students engage in experiential learning outside classroom as course requirement. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Arts (p. 137)

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 347: Gender Representation in Popular Culture. 3-6 credits.
Explores the way in which masculinity and femininity have been represented across the decades in television, movies, music videos, pop art, and print media. Provides a review of the scholarship on the historical and contemporary roles of women and men in society, and examines the contradictions and expectations associated with gender roles. Incorporates active group learning through creative, insight-oriented exercises, critical thinking and discussions, and group presentations and media research activities. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 348: Digital Futures. 3.6 credits.
Investigates important contemporary issues such as surveillance-privacy, censorship, piracy, gender and ethnicity, digital labor and play, mobile media and globalization, and the commercialization and political potential of the digital public spheres. Introduces students to the latest technological, philosophical and creative thinking on the future of human society in a digital age. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 355: Mindfulness, Meaning & Well-Being. 3 credits.
Explores the science of well-being, including theories and practices linked to various domains of well-being such as mindfulness, resilience, life-satisfaction, happiness, mind-body wellness, and meaning and purpose. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 356: Foundations of Resilience and Well-Being. 3 credits.
Focusing on the individual in context, examines the growing research, science, and literature on well-being and resilience. Considers the many ways in which resilience can be learned and developed on individual, community, and organizational levels. Explores how resilience promotes growth and restores efficacy and agency, leading to higher levels of flourishing. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 360: The Built Environment. 6 credits.
Examines, records, and interprets objects, structures, and landscapes that compose our built environment. Draws on the fields of historical archaeology, architectural history, and urban geography, and employs photography, cartography, and evocative writing to represent the material world we inhabit. Builds on study of one neighborhood in Arlington, Virginia, and expands to entire metropolitan area. Offered by School of Integrative Studies (p. 567). May not be repeated for credit. Equivalent to ANTH 315, ANTH 399.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 361: Neighborhood, Community, and Identity. 3-6 credits.
Examines processes of neighborhood formation and transformation in the context of urbanism, suburbanism, immigration, and transmigration. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)
Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 362: Social Justice and Human Rights. 3 credits.
Considers the philosophical foundations of social justice and human rights. Explores the interpretive difficulties related to identifying what constitutes human rights abuses, and evaluates regional perspectives on human rights. Analyzes institutions that strive to promote and enforce social justice and human rights standards including the United Nations system, regional human rights bodies, and domestic courts. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 365: Independent Study. 1-12 credits.
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor) Students are encouraged to work as a team on a particular topic. Notes: Maximum 12 credits can be used to fulfill graduation requirements. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 12 credits.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 370: Sustainable Food Systems. 6 credits.
Examines the evolution of US food systems with particular emphasis on the national capital region. Students place conventional agriculture and food systems in historical context; examine changing representations of food systems in film, literature, and other media; and research alternative systems that emphasize sustainability. Through a combination of classroom work and experiential learning, this course asks students to contemplate how capitalism, industrialization, and environmental ethics shape our land, culture, and society. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 371: Food Systems and Policy. 3 credits.
Examines the roles of individuals, corporations, and government in creating and communicating food policy. Students explore the rationale and rhetorics of US agriculture, food production and the environment, food and beverage processing, food safety and labeling, food sales and marketing, dietary guidance, and federal food assistance programs.

Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Specialized Designation: Green Leaf Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 375: Special Topics. 1-18 credits.
Studies topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 18 credits.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 378: Medicine, Justice, and Public Policy. 3 credits.
Explores formation of public policy relating to several key issues in medicine. Students examine basic theories of justice and public policy formation and apply these to contemporary issues in the field of medicine. The goal is to examine how current policy on these issues was established and to give examples of major stakeholders in the debate. This course involves some traditional lecture and discussion classes and also features participative learning through group work and web-based discussions. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 381: When Cultural Worlds Collide. 6 credits.
Explores what happens when "civilization" encounters "the jungle" by reading, writing, discussing, and viewing written and filmed works dealing with contacts between cultures with colliding world views. Literature (from Conrad's The Heart of Darkness to Shakespeare's The Tempest to Burrough's Tarzan), news articles, radio broadcasts, web home pages, art exhibits, and many film and video presentations provide the basis for in-class and out-of-class activities. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 390: International Internship. 1-6 credits.
Internship credit may be applied to 12 credits required in experiential learning. Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or executive director. Structured and supervised professional experience,
within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student’s academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 24 credits.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Sophomore standing and permission of instructor.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Special scale. (p. 82)

**INTS 391:** Introduction to Integrative Studies. 3 credits.
Describes key components of the Integrative Studies Program in The School of Integrative Studies. Students prepare for active participation as a community of learners to develop skills in reflective learning and self-assessment, and identify areas of intellectual and professional interests, values and skills so that students may take greater advantage of opportunities in SIS. As a learning community, this course fosters group collaboration, intensive writing, and reflective learning. Notes: Students may not enroll in this course after completing 12 or more learning community credits or simultaneously with or after completing INTS 491. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 394:** Service-Learning Experience. 1-15 credits.
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 15 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 395:** Field-Based Work. 1-18 credits.
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 24 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 396:** Teaching Assistant Experience. 1-6 credits.
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as Technology Assistants, Writing Tutors, and Residence Advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios. Offered by School of Integrative Studies (p. 567). May be repeated within the degree for a maximum 15 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 397:** Add-On Experiential Learning. 1-3 credits.
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community. Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 4 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 398:** Field-Based Work. 1-15 credits.
Experiential-based individualized studies, mentored by instructor. Notes: Topics decided by student and instructor and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 15 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 399:** Study Abroad. 1-6 credits.
Intended for participation in formally organized course offered by Center for Global Education. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 16 credits.
INTS 400: Temptress: Constructs of Sex and Power. 3 credits.
Examines the portrayal of powerful and/or sexual women throughout history, identifying famous historical "temptresses" and investigating the facts known about them. Explores representations and perceptions of contemporary female sexuality, considering possible future concepts and images of female power and sexuality. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Seminar
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 401: Conservation Biology. 6 credits.
Provides students with a working knowledge of conservation biology. Integrates the study of social, economic, and political factors with biodiversity, population modeling, habitat degradation, and management issues. Students confront the leading edge of this exciting field by developing real species conservation plans. The experiential learning component of the course will include trips to the Smithsonian Institution’s Conservation and Research Center in Front Royal, Virginia, to study with nationally known experts. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)
Specialized Designation: Green Leaf Course
Recommended Prerequisite: Junior standing or permission of instructor.
Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 402: Plants and People - Sustenance, Ceremony, and Sustainability. 6 credits.
Examines the direct relationships between people and plants by integrating perspectives from both ethnobotany and economic botany. Provides students with an appreciation of the fundamental role of plants and plant-derived products in all aspects of human life in both industrialized and non-industrialized societies. Explores how plants and their uses have shaped both past and present cultures around the world. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Green Leaf Course, Writing Intensive in the Major
Schedule Type: Seminar
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 403: Conservation Behavior. 6 credits.
Introduces students to conservation behavior, a field that seeks to apply theories of animal behavior towards solving biological conservation and wildlife management problems. Consists of interactive lectures, readings (including a text and primary literature) and discussion, and hands-on, inquiry-based experiential learning while working in groups at the National Zoo to design and conduct independent behavioral-based research on endangered species. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)
Specialized Designation: Green Leaf Course
Schedule Type: Seminar
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 404: Ethics and Leadership. 4 credits.
Uses an interdisciplinary approach to deepen and broaden student’s learning about theories, models, and constructs related to the study and practice of ethics and leadership. Teaches students to develop ethical decision making strategies, communicate effectively in diverse group settings, value civic engagement and actively apply ethical leadership skills. Includes experiential learning activities and discussions that connect formal knowledge with real world experiences and includes one credit of experiential learning. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Seminar
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 405: Women and Leadership. 4 credits.
Examines leadership within the context of the theoretical principles of women’s studies through discussion of course texts, interactive exercises, field trips, documentary films, guest speakers, and reflection. Investigates the role that gender plays in the various forms of leadership and leadership styles. Explores the historical record of women in leadership roles, identifying the barriers as well as the opportunities. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Seminar
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 406: Global Leadership. 3 credits.
Develops a concept of global leadership, emphasizing the critical importance of ethical decision-making, social responsibility, and cultural awareness. Students formulate the construction process of a global mindset and begin to develop a personal philosophy of global leadership. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Schedule Type: Seminar
INTS 410: Contemporary Health Issues. 3-18 credits.
Looks at a variety of health and health care issues. Examines several of the major health concerns of women and, to a lesser degree, men. Also explores the biology and medical implications of these diseases and how our society deals with potential life-altering information. Examines who is making the decisions on the allocation of research funds and prevention of diseases. Offered by School of Integrative Studies (p. 567). May not be repeated for credit. Equivalent to WMST 300.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 416: Refugee and Internal Displacement. 3 credits.
Provides students with a deeper understanding of refugee and internal displacement. Explores causes of displacement and its impact on people and societies. Studies the role played by governments, non-governmental organizations (NGOs) and the international community in addressing problems faced by refugees in internally displaced persons in terms of relief assistance and humanitarian services. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 417: Human Trafficking and the International Community. 3,6 credits.
Explores the complexity of human trafficking, one of the fastest growing criminal enterprises in the world. Examines forms of human trafficking and the countries that serve as source, transit or destinations of trafficked individuals and groups. Studies the role of the international community in addressing trafficking, including regional and national authorities and non-governmental agencies. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 420: Work Effectiveness Skills. 3 credits.
Develops a variety of work-readiness skills needed to become successful in both local and global workplaces. Topics and skills covered include communication, problem solving in the business setting, workplace ethics, listening skills, how to influence others, building team project rapport, and meeting effectiveness skills. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 422: An Experiential Approach to American Foreign Policy. 3-6 credits.
Takes an experiential approach to the study of American foreign policy. Through case studies, discussions, group projects, and directed research, students learn how foreign policy is made and executed and how they as citizens, activists, or officials can influence national decisions. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 431: Principles of Fund Raising. 4 credits.
Examines history of philanthropy and public policy, and the economic and legal frameworks that shape it. Combining theory and practice, students study human behavior, communications, and management systems that are hallmarks of successful fund raising, and begin to develop skills to generate donations, foundation grants, and other unearned revenue for a nonprofit organization. Notes: Includes 1 experiential learning credit. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: INTS 331.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 435: Leadership in a Changing Environment. 4 credits.
Examines diverse definitions and processes of change across multiple complex contexts. Focuses on identifying innovative, collaborative solutions to seemingly intractable social problems. Explores topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, and systemic leadership. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: 60 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 436: Social Justice Education. 4 credits.
Examines educational policy, practice, and materials using a variety of lenses informed by social justice theory and praxis. Investigates ways in which racism, sexism, economic injustice, heterosexism, ageism, and other forms of discrimination influence schools and educational access and opportunity for youth. Considers and practices what individuals and communities can do to ensure that all students have equitable educational opportunities. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 437: Critical Race Studies. 3 credits.
Engages students in an examination of the forms and impacts of racism, as well as movements for racial justice, in the United States. Draws on theoretical frameworks including critical race theory and intersectionality theory in order to examine the structural roots of racism and the implicit and explicit ways in which racism manifests today. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 438: Representations of Race. 4 credits.
Investigates the social and cultural construction of racial categories that have led to inaccurate and stereotypical representations that persist and cause harm today. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Schedule Type: Seminar

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 440: Death, Dying, and Decision Making. 3 credits.
Interdisciplinary examination of clinical care of dying persons along with psychosocial issues related to processes of death and dying. Special emphasis on application of ethical principles in resolving complex problems for individuals with life-threatening illnesses and their families as care givers or decision makers. Students consider the changing norms and mores surrounding end-of-life decisions and explore the care available to terminally ill patients. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: 60 credits or Permission of Instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 445: Multimedia Design. 5 credits.
Technological, aesthetic, and educational issues of using interactive multimedia. Topics include theory and practice, integration of digital media, interface and navigation studies, and technical constraints on design. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Information Technology: With Ethics (p. 137)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: NCLC or INTS 345, or permission of instructor.

Schedule Type: Lecture

Grading:

This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 446: Art, Beauty, and Culture. 3-6 credits.
Designed to help students understand the culture- and time-bound nature of beauty as it relates to art. Exploration of how the codes of acceptability in art forms have changed over time, with discussion about the subversive nature of art and the role that beauty plays in art that is created to engage the viewer in some type of action. Exercises include research projects, site visits, and gallery attendance. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Mason Core: Arts (p. 137)

Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 450: Social Innovation in Action. 6 credits.
Develops students' capacity to engage in positive social change. Examines social innovation approaches, including social and political entrepreneurship, philanthropy, corporate responsibility and social movements. Explores how social innovators catalyze multistakeholder collaborations across commercial, governmental and nonprofit sectors, exploring social innovation through case studies, best practice analyses and relevant readings. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Schedule Type: Seminar

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 451: Leadership and Organizational Problem-Solving. 4 credits.
Examines social innovation approaches, including social and political entrepreneurship, philanthropy, corporate responsibility and social movements. Explores how social innovators catalyze multistakeholder collaborations across commercial, governmental and nonprofit sectors, exploring social innovation through case studies, best practice analyses and relevant readings. Integrates students' interests with the tools necessary to be an organizational problem-solver. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Schedule Type: Seminar

Grading:

This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 455: Consciousness and Transformation in Action. 3 credits.
Covers how principles and practices of consciousness and transformation relate to the major and career pathway it represents. Includes the theory and practices for deepening the student's own experience with the mindfulness and contemplative approaches to inquire. Capstone course for the minor in consciousness and transformation. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: NCLC 355 or INTS 355.

Schedule Type: Seminar

Grading:

This course is graded on the Undergraduate Regular scale. (p. 82)
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 465: Independent Study. 1-12 credits.**
Individualized section form required. Study of a topic not otherwise available to the student. May involve any combination of reading assignments, tutorials, lectures, papers, presentations, or field/laboratory study (determined in consultation with instructor). Students are encouraged to work as a team on a particular topic. Notes: Maximum 12 credits can be used to fulfill graduation requirements. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 12 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 470: Professional Pathways in Sustainable Food Systems. 1 credit.**
Culminating experience for Environmental and Sustainability Studies majors enrolled in the Sustainable Food and Agriculture concentration. Focused on helping students see how their specific talents, interests and experiences can prepare them for specific professional roles within the emerging field of sustainable food systems. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 475: Special Topics. 1-18 credits.**
Studies topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 18 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**INTS 490: Internship. 1-6 credits.**
Internship credit may be applied to 12 credits required in experiential learning. Notes: Students may take no more than 6 credits in any one semester, unless approved by director of experiential learning or executive director. Structured and supervised professional experience, within an approved agency, for which the student earns academic credit. The primary purpose of an internship is to connect the student’s academic course work to experiences and challenges outside the university classroom. The faculty also expects that students will enhance their competencies and skills and explore career options. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 12 credits.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Sophomore standing and permission of instructor.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Special scale. (p. 82)

**INTS 491: The Senior Capstone Experience. 3 credits.**
Should be taken semester before graduation; 85 credits required. Graduation requirement for integrative studies students. Students complete final SIS portfolio and senior exposition. Provides information on issues of professional development (interviewing skills, resume development, career strategies, and alumni opportunities). Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** 85 credits. Open only to New Century College students. Course should be taken the semester prior to graduation.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 492: Graduation Portfolio. 0 credits.**
Offered by School of Integrative Studies (p. 567). May be repeated within the degree.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**INTS 494: Service-Learning Experience. 1-15 credits.**
Service-learning courses offer students, faculty, and community partners an opportunity to work together to integrate and apply knowledge to address community needs. Learning goals, action strategies, and assignments developed collaboratively. Students demonstrate progress through critical reflection that illustrates growth in acquiring and comprehending values, skills, and knowledge content. Critical reflection may take the form of papers, presentations, portfolios, journals, and exams. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 15 credits.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**INTS 495: Field-Based Work. 1-18 credits.**
Directed field studies in topic not otherwise available to students. Notes: Topics vary, but entire course or significant component is located off campus. In addition to field work, course may also include reading assignments, tutorials, lectures, papers, presentations, portfolios, journals, and exams. Students bear costs of required field trips and should consult the Center for Social Action and Integrative Learning for more information. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 24 credits.
Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 496: Teaching Assistant Experience. 1-6 credits.
Teaching assistantship and peer-mentoring duties carried out through existing university programs, such as technology assistants, writing tutors, and residence advisors. Also includes teaching assistantship arrangements for specific courses detailed in individualized course contract signed by instructor and student. In addition to peer mentoring/advising, course work may include logistical support, reading assignments, papers, presentations, and portfolios. Offered by School of Integrative Studies (p. 567). May be repeated within the degree for a maximum 15 credits.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Internship

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 497: Add-On Experiential Learning. 1-3 credits.
For students who wish to add one or more experiential learning credit to existing experiential learning course or learning community. Notes: May also be used by students who wish to add an experiential learning component to course that provides no experiential learning credit (with permission of instructor). Unless experiential learning add-on requirements are spelled out in course syllabus, requirements for add-on experiential learning credit must be detailed in individualized course contract signed by instructor and student. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 4 credits.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Internship

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

INTS 498: Field-Based Work. 1-15 credits.
Experiential-based individualized studies, mentored by instructor. Notes: Topics decided by student and instructor and approved by executive director. Requirements must be detailed in individualized course contract signed by student, instructor, and executive director. May include reading assignments, papers, journals, and portfolios. Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 15 credits.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Internship

Grading: This course is graded on the Undergraduate Special scale. (p. 82)

500 Level Courses

INTS 500: Animal Rights: Issues and Movements. 3 credits.
Explores forms of animal exploitation and abuse, and examines the relationship between humans and non-human animals, drawing from a variety of disciplines and fields such as feminist studies, animal studies, sociology, ethics, critical studies, and environmental studies. Assessment of the methods and strategies used by organizations and movements in order to redress animal exploitation. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

INTS 504: Leadership Theory, Praxis, and Development. 3 credits.
Explores contemporary leadership theories, models, and concepts using a theory-to-practice-to theory framework. Covers leadership theory, supporting research, and practical application. Focuses on active learning through classroom presentations, course texts, a reflection on theory and practice, and team work. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Special scale. (p. 82)

INTS 535: Leadership in a Changing Environment. 4 credits.
Examines change and its elements by asking students to explore and design innovative, collaborative solutions to seemingly intractable social problems. Considers and discerns topics such as social change and globalization, creative conflict resolution, the nature of power, oppression and influence, and systemic leadership. Explores methods of personal and social transformation and examine the strategies, and ideas of effective social change advocates in the 21st century. By the course's end, each student will develop a creative proposal for solving a societal problem. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)
**INTS 537: Critical Race Studies.** 3 credits.
Engages students in an examination of the forms and impacts of racism, as well as movements for racial justice in the United States. Draws on theoretical frameworks including critical race theory and intersectionality theory in order to examine the structural roots of racism and the implicit and explicit ways in which racism manifests today. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INTS 538: Representations of Race.** 4 credits.
Investigates the social and cultural construction of persistent and harmful racial categories. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INTS 540: Contemporary Issues in Social Justice & Human Rights.** 3 credits.
Students will examine, study the socio-historical significance of, and consider solutions for some of the most pressing social justice and human rights issues in the world today. The issues examined will cut across identity, region, and scope, and may include concerns as varied as human trafficking, hegemony, animal abuse, child labor, and sexism. Offered by School of Integrative Studies (p. 567). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**INTS 595: Experiential Learning.** 1-3 credits.
Offered by School of Integrative Studies (p. 567). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**Interdisciplinary Studies (MAIS)**

**700 Level Courses**

**MAIS 796: MAIS ProSeminar.** 1 credit.
Introduces students to the structure of the MAIS program; students create a portfolio of their work which continues during their studies; the portfolio prepares students for the capstone project or thesis. Offered by Interdisciplinary Studies. May not be repeated for credit.

**Recommended Prerequisite:** Acceptance into the MAIS Program.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**MAIS 797: Interdisciplinary Studies Proposal.** 1 credit.
Focused on formulating and writing a MAIS project or thesis proposal. Offered by Interdisciplinary Studies. May not be repeated for credit.

**Recommended Prerequisite:** Admission to MAIS and completion of 21 credits of graduate course work, including any required research methodology course; MAIS 796.
Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

MAIS 798: Interdisciplinary Studies Project. 1-5 credits.
Research project related to student’s concentration taken under supervision of faculty advisor and project evaluation committee. Offered by Interdisciplinary Studies. May be repeated within the degree. Equivalent to HE 798.

Recommended Prerequisite: MAIS 797 and prior approval of a project proposal by the committee chair, two committee members, and MAIS director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

MAIS 799: Interdisciplinary Studies Thesis. 1-5 credits.
Original research endeavor related to student’s MAIS program concentration. Research must result in document meeting MAIS and university standards. Offered by Interdisciplinary Studies. May be repeated within the degree. Equivalent to HE 799.

Recommended Prerequisite: MAIS 797 and prior approval of a project proposal by the committee chair, two committee members, and MAIS director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

International Commerce and Policy (ITRN)

500 Level Courses

ITRN 500: Global Political Economy. 1-4 credits.
Foundation course in the ICP program. Explores issues and ideas affecting global security, stability, growth and development from country, regional and thematic perspectives. Introduces students to key concepts, policies, and practices that underpin international commerce, international relations more broadly, and non-governmental transnational activities. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 501: Methods of Analysis for International Commerce and Policy. 3 credits.
Provides the skills necessary to conduct qualitative and quantitative research and analysis of issues related to international commerce and policy. Students obtain practical information on sources of data, their origins, strengths, and weaknesses. Helps develop tools for statistical analysis of data, and includes use of computers for analyzing and displaying information. It covers major data sources as well and literature and indices related to international policy, including trade data, economics and financial indicators, and development indicators. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 503: Macroeconomic Policy in the Global Economy. 1-4 credits.
Provides an analytical introduction and overview of basic concepts in macroeconomic theory with an emphasis on applications to problems in the United States and the contemporary global economy. Covers topics such as inflation, growth and business cycles, fiscal and monetary policies, balance of payments and exchange rates. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 504: Microeconomics and Trade Policy. 1-4 credits.
Provides a foundation in microeconomics, including supply and demand analysis, elasticities, the theory of the firm, allocative efficiency and market failure. Covers applications of this microeconomic foundation to international trade theory, trade policy analysis, preferential trade
agreements, and international production. Emphasis is on graphical and algebraic analysis. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

ITRN 602: Global Financial Crises and Institutions. 3 credits.
Examines the modern financial sector: how it operates, its regulation, and its role in risk transmission and crisis formation. Reviews global financial markets and instruments. Considers the role of multilateral and regional financial institutions in management of crises, macroeconomic adjustment, development policy and capital flows with emphases on financial crises including the 2007-09 crisis. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: ITRN 503.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 604: International Trade and Technology. 3 credits.
Examines science and technology policies and international trade, with emphasis on relationships and interactions. Assesses roles of science and technology as economic drivers, and explores strategies employed by companies and governments to link research and development to economic growth and competitiveness. Examines research and development systems and technology-related trade policies of United States, Japan, Europe, major developing countries, and selected newly industrialized economies, emphasizing policies affecting trade and technology. Explores specific cases involving interactions among science, technology, and international trade. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 605: Technology, Culture and Commerce. 3 credits.
Examines and applies the major dimensions of technological and cultural analysis to global commerce and policy. The course assesses theories of technological change and cultural perspectives that have relevance to the flows of peoples, information, goods, capital and technology across national and cultural boundaries. It focuses on the political economy implications of technological change for commercial, national and global policies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 612: International Business Operations and the Multinational Corporation. 3 credits.
Examines international business environment and challenges facing companies in conducting operations in increasingly interconnected global marketplace. Focuses on issues of management and organization, and resolution of conflicts that may arise between business organizations and home and host governments. Also focuses on role of multinational corporations in international environment, and impact on global trade, economic development, and political system. Also studies trade and international investment theories and world financial environment. Explores broad issues such as sovereignty of decision making and global impact of business activities. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
enroll. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Graduate Regular scale. (p. 82)

ITRN 711: United States Law and Global Trade. 3 credits.
Surveys types of regulations imposed by United States, foreign
governments, and international institutions on transnational business
activities. Reviews principal regulatory bodies in United States and
overseas, and powers and authorities. Covers tariffs and customs
regulations; product safety and environmental restrictions; intellectual
property, copyright, trademark, and patent regulations; and licensing
rules. Also covers special restrictions that may be imposed because of
political considerations such as embargoes, munitions controls, and
antibribery and antiboycott regulations. Offered by Schar School of Policy
& Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Graduate Regular scale. (p. 82)

ITRN 712: World Trade Organization and Global Trade. 3 credits.
Focuses on legal aspects of international trade regulation by studying
international legal and political regime established under WTO, and
assessing impact of domestic economic legislation on U.S. trade
regulations. Offered by Schar School of Policy & Govt (p. 941). May not be
repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Graduate Regular scale. (p. 82)

ITRN 715: Global Environment and the World Economy. 3 credits.
Examines growing relationship between environmental interdependence
and developing world economy. Assesses increased globalization of
environmental and health issues with a focus on the impact on those
issues on international transactions involving trade and development.
Attempts to develop an understanding of relationship of scientific
knowledge to global environment in context of existing political and
economic institutions. Emphasizes formulating and assessing policies
and structures for corporations, nations, regions, and international
organizations. Tensions among free trade, international competitiveness,
and regulatory responses are central. Gives attention to practices of
nations and international organizations, emerging forms of regional and
international cooperation, and growing use of multilateral agreements.
Offered by Schar School of Policy & Govt (p. 941). May not be repeated
for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.
ITRN 716: *European Union in the International System*. 3 credits.
Examines current developments in European market integration from global perspective. Emphasizes impact of single market, and proposed economic and monetary union of United States and other major trading partners. Examines European economic relations with Eastern Europe, former Soviet Union, and Lome Pact countries. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 717: *International Science and Technology*. 3 credits.
Examines U.S. science and technology policies (S&T) and structures, as well as those in other leading countries. Assesses functional links between S&T and international transactions focusing on trade, national security, finance, and development assistance. Considers emergence of multilateralism and international institutional arrangements as alternatives to traditional bilateral patterns of cooperation. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 718: *Global Economic and Human Development*. 3 credits.
Interdisciplinary examination of economic and human development in world economy. Introduces alternative concepts and theories of economic and human development, and analytical frameworks for assessing important issues that arise in development process. Topics include colonialism, economic growth, population, health, education, industrialization, and rural development. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 720: *Regional and Supranational Organizations*. 3 credits.
Assesses role of international organizations in international system today, and focuses on wide range of international and regional economic and political institutions. Emphasizes changing nature of these organizations in relation to nation states, and relationship of international organizations to U.S. national security and economic interests. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 724: *International Trade and Regulatory Compliance*. 3 credits.
Acquaints students with legal, regulatory, and practical issues in importation and exportation of merchandise. Topics include theoretical framework for government oversight of international movement of goods;
legal issues between parties and governments; and practical guidance concerning structuring of import and export transactions to avoid legal and tariff liability. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 742: Technology Policy and International Strategies. 3 credits.
Introduces opportunities and problems created for organizations and society by Internet, and policies affecting trajectory of Internet developments. Also covers technological factors in planning horizon; domestic policy and international treaty factors affecting Internet trajectory; and new horizons for Internet applications. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 744: The Politics of International Competitiveness. 3 credits.
Provides inquiry into governance problems of public managers and political leaders as they cope with global competitiveness in post-industrial era. Focuses on integrating public and private sectors worldwide, with special emphasis on U.S. role and how it influences such areas as technology transfer, national security, electronic commerce, trade policies, money flows, and human resources. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 750: Trade and Politics in Eastern Europe and the Former Soviet Union. 3 credits.
Examines background and recent developments in political, business, and cultural environment confronting American firms seeking to do business in Eastern Europe and former Soviet Union. Emphasizes international trade patterns and relations between these states and United States. Examines modes of doing business in these countries, and unique problems American firms confront. Focuses on privatization, joint ventures, and counter trade. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 752: Global Business and Policy. 3 credits.
Focuses on the multinational firm (MNE) and examines the international activities of large companies as well as small and medium sized enterprises. Assesses how firms strategize across national borders and address the challenges posed by different governance structures, political economies, institutions and cultures. Theoretical concepts are applied to 'real' business situations and case studies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 754: International Commercialization of Space. 3 credits.
Identifies and analyzes problems and transactions concerning privatization and commercialization of transnational space activities, including launch and satellite operations. Emphasizes interplay of new technologies with existing legal, political, and business structures in formulating viable commercial satellite and launch operations. Focuses on planning and implementing private space actions in conjunction with various public and private international organizations. Sessions focus on interdisciplinary aspects of space commercialization involving technology, finance, tax, insurance, joint venture and business matters, and international legal and national regulatory issues. Guest lecturers include leading business executives engaged in space and satellite operations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 756: National Security and the Global Economy. 3 credits.
Examines impact of globalization and changes in international economic and political systems on concepts of national security. Emphasizes nexus of economic and security concerns in post-Cold War era, with particular attention to emerging issues including trade and economic security, proliferation of advanced military technology and control of weapons of mass destruction, international drug trafficking, and defense conversion. Focuses on implications of changing security requirements...
on U.S. defense and economic policy and activities. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** ITRN 500.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 757: Business and Politics in Emerging Markets. 3 credits.
Examines developing countries that are major destination points for international financial flows and foreign direct investment. Emerging markets have become a major influence in the world economy both because of the potential for growth and the downside risks from economic crises. The course uses the new institutional economics to analyze the interplay of political, economic, and business conditions. Institutional economics is a combination of economics, economic history, and political science. Topics covered include the politics of economic reform, drivers of globalization and investment, the informal sector, and relationships of risk and reward. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 758: Global Market Planning Practicum. 3 credits.
Provides opportunity to develop international market plan for specific industry or service sector. Students consult with industry experts and use key trade databases to develop strategic plan that recommends market entry strategies. Completed market plan submitted to industry experts for use and dissemination. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 759: Country Risk Analysis. 3 credits.
Presents a wide variety of country risk analysis methods used by corporations, financial institutions, governments, international organizations, specialized consulting groups, and publications. These methods are used to design policies, programs, and projects in the international arena. The course explores natural, commercial, economics, political and financial risk. It also provides a conceptual foundation for understanding the sources of risk, the impacts of risk on public and private sector activities, and the ways that risk can be successfully mitigated or managed. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 760: International Environmental Politics. 3 credits.
Examines growing concerns related to global environmental issues and problems they pose to domestic, foreign, and international political institutions. Covers major environmental issues including global warming, ozone depletion, cross-border flow of pollution, and threats to biodiversity. Assesses strengths and weaknesses of traditional political institutions in dealing with these issues and providing for sustainable economic development while limiting environmental damage. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Recommended Prerequisite:** ITRN 500.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 761: European Political and Economic Union. 3 credits.
Examines movement for European integration since World War II, focusing on political and institutional development of European Community/Union. Topics include theories of European integration, Treaties of Rome, Single European Act, Maastricht Treaty, European Union (EU) policies and programs, and EU's external relations. Analyzes changing nature of U.S.-EU relations and prospects for EU enlargement into Central and Eastern Europe. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 764: Business and Politics in Emerging Markets. 3 credits.
Examines developing countries that are major destination points for international financial flows and foreign direct investment. Emerging markets have become a major influence in the world economy both because of the potential for growth and the downside risks from economic crises. The course uses the new institutional economics to analyze the interplay of political, economic, and business conditions. Institutional economics is a combination of economics, economic history, and political science. Topics covered include the politics of economic reform, drivers of globalization and investment, the informal sector, and relationships of risk and reward. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 768: Global Intellectual Property Rights and International Trade. 3 credits.
Examines national and regional systems, international contractual relations (licensing), and the evolving global system for protecting intellectual property. Addresses current international treaty system and the ongoing multilateral efforts to strengthen worldwide intellectual property protection. Examines intellectual property regimes worldwide, including regional and bilateral challenges and opportunities, and relevant U.S. law and policy responses. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: ITRN 500.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 769: International Entrepreneurship. 3 credits.
Introduces practical planning approach for small and medium-size entrepreneurial firms seeking to enter international marketplace. Focuses on key business and financial documents related to doing business overseas; and assesses role of language, technology, and information systems in formulating successful business strategy. Role playing and simulated negotiations provide opportunities for students to sharpen business skills. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 770: International Contract Negotiation. 3 credits.
Reviews growing role of arbitration in international transactions. Examines international, national, and government arbitration bodies, with particular emphasis on how differing cultural characteristics affect negotiating behavior and effectiveness of arbitration. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ITRN 771: Trade, Investment, and Politics in South and Southeast Asia. 3 credits.
Focuses on trade and finance issues in the most dynamic countries of South and Southeast Asia. Assesses cultural and political factors,
International Year One (INYO)

000 Level Courses

INYO 044: Business Math Preparation. 2 credits.
Notes: The successful completion of this course will serve as a prerequisite for MATH 105 in lieu of the Math Placement Test. Offered by INTO Mason (p. 124). May be repeated within the degree for a maximum of 6 credits. Equivalent to MATH 008.

Recommended Prerequisite: AE Level 3 Core AE Level 3 OCS or admission to an INTO Mason Pathway program.

Registration Restrictions:
Enrollment is limited to English Language level students.

Schedule Type: Seminar

Grading:
This course is graded on the ABC/NC Undergraduate Special scale. (p. 82)

INYO 045: STEM Mathematics Preparation. 2 credits.
Notes: The successful completion of this course will either: a) Serve as a prerequisite for Math 105 Pre-Calculus in lieu of the Math Placement Test or b) Prepare the student to achieve the necessary score on the Math Placement Test for entry into MATH 113. Offered by INTO Mason (p. 124). May be repeated within the degree for a maximum of 6 credits.

Recommended Prerequisite: AE Level 3 Core AE Level 3 OCS or admission to an INTO Mason Pathway program.

Registration Restrictions:
Enrollment is limited to English Language level students.

Schedule Type: Seminar

Grading:
This course is graded on the ABC/NC Undergraduate Special scale. (p. 82)

INYO 095: Quantitative Preparation for the Graduate Record Examination. 2 credits.
Prepares students in the International Graduate Pathways requiring the general Graduate Record Examination test (GRE) for progression to take the computer adaptive version of the exam with primary emphasis on the quantitative section. This course emphasizes test language and the quantitative portion of the exam along with testing strategies; identifying common test-taking errors; and managing test anxiety. Offered by INTO Mason (p. 124). May be repeated within the degree for a maximum of 6 credits. Equivalent to EAP 097, INYO 096, INYO 097.

Recommended Prerequisite: AE Level 3 Core AE Level 3 OCS or admission to an INTO Mason Pathway program.

Registration Restrictions:
Enrollment is limited to English Language level students.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)
INYO 096: Verbal and Quantitative Preparation for the Graduate Record Examination. 0 credits.
Prepares students in International Graduate Pathways requiring the general Graduate Record Examination test for progression to take the exam for students whose pathways require a primary focus on verbal and quantitative sections. This course emphasizes test language and vocabulary, in addition to: testing strategies; practicing logical, rhetorical, and mathematical problem-solving; identifying common test-taking errors; and managing test anxiety. Offered by INTO Mason (p. 124). May be repeated within the degree for a maximum 0 credits. Equivalent to EAP 097.

Registration Restrictions:
Enrollment is limited to English Language level students.

Schedule Type: Seminar
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

INYO 097: Verbal, Quantitative, and Academic Writing Preparation for the Graduate Record Examination. 0 credits.
Prepares students in International Graduate Pathways requiring the general Graduate Record Examination test (GRE) for progression to take the exam for students whose pathways equal emphasis on all three areas of the exam. This course emphasizes test language and vocabulary, in addition to: testing strategies; academic writing preparation; practicing mathematical problem-solving; identifying common test-taking errors; and managing test anxiety. Offered by INTO Mason (p. 124). May be repeated within the degree for a maximum 0 credits. Equivalent to EAP 097.

Schedule Type: Lecture
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

100 Level Courses

INYO 100: Transition INTO Mason I. 1 credit.
Assists first-year international and multilingual Year One students with their transition from high school to college life. It helps prepare students for successful progression to their chosen degree plan the promoting acculturation to academic norms and expectations at Mason, the development of self-efficacy, and engagement with the Mason community. It encourages to seek out and take full advantage of a wide range of campus resources. Offered by INTO Mason (p. 124). May not be repeated for credit. Equivalent to UNIV 100, UNIV 140.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INYO 101: Transition INTO Mason II. 1 credit.
Serves as a continuation of INYO 100. It provides extended first-year transition support for standard pathway students in the second semester. Offered by INTO Mason. May not be repeated for credit. Equivalent to UNIV 101, UNIV 141 Offered by INTO Mason (p. 124). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: INYO 100.
Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

INYO 105: American Cultures. 3 credits.
This course provides an introduction to US cultures with a focus on diversity within American society. The course uses the concept of culture as a basis for discussing differences in Americans' experience of family life, work, education, the arts, national and ethnic identities, gender, religion and more. Through ethnographic readings, literature, film and field projects, students develop a better understanding of similarities and differences across the American experience. Offered by INTO Mason (p. 124). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Recommended Prerequisite: Admission to the INTO Mason Undergraduate Pathway program.

Schedule Type: Lecture, Recitation
Grading:
This course is graded on the Undergraduate Special scale. (p. 82)

INYO 106: Introduction to Research Methods for International Students. 3 credits.
Academic research is the fundamental element of university-level education. Despite the variations in research disciplines, they all share basic concepts of academic inquiry. This course is designed to teach the methods, norms and procedures of undergraduate research in the humanities and social sciences. It should equip international students with the essential skills needed to successfully produce a quality academic paper. Offered by INTO Mason (p. 124). May not be repeated for credit.

Specialized Designation: Scholarly Inquiry
Recommended Prerequisite: Admission to the INTO Mason Undergraduate Pathway program.

Schedule Type: Lecture, Recitation
Grading:
This course is graded on the Undergraduate Special scale. (p. 82)

200 Level Courses

INYO 206: International Peer Learning Partnership. 0-1 credits.
This course is an experiential credit course for undergrad students partnering with Undergraduate International Pathway Program students to develop academic skills. Offered by INTO Mason (p. 124). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of at least 15 credits at Mason with a GPA of 3.0 or higher and a program participation offer from INTO Mason.

Schedule Type: Independent Study
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

INYO 207: International Peer Educational Leadership. 0-3 credits.
This course is an experiential leadership course for students partnering with Undergraduate International Pathway Program students as peer
educational mentors. Offered by INTO Mason (p. 124). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Sophomore status or higher.

Schedule Type: Internship

Grading: This course is graded on the Satisfactory/No Credit scale. (p. 82)

500 Level Courses

INYO 501: Graduate Transitions for International Students I. 2 credits.
Designed particularly for the Graduate International Year One program, this course is the first of a two-part transitional course series designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate/Professional school enrollment. This first course covers U.S. educational systems, university policies and procedures, writing skills and research resources, and graduate school study skills and methods. Notes: This course is for graduate students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level. Enrolled students are required to take INYO 502 the following consecutive semester. Department approval required. Offered by INTO Mason (p. 124). May not be repeated for credit.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Special scale. (p. 82)

INYO 502: Graduate Transitions for International Students II. 2 credits.
Designed particularly for the Graduate International Year One program, this second of a two-part transitional course series is designed for international students who are studying abroad, emphasizing development, readiness, and success for Graduate school enrollment. This course covers cultural adjustment to life and education in the U.S., program development, university resources, career planning as well as professional and personal presentation skills. Notes: This course is for graduate students whose highest degree is from a non-US institution. This course may not count towards academic degree requirements at the graduate level, depending on the pathway program. Offered by INTO Mason (p. 124). May not be repeated for credit.

Recommended Corequisite: Prerq: Completion of PROV 501 with a grade of B or better, in the immediate past semester.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Special scale. (p. 82)

INYO 504: Accelerated Graduate Transitions for International Students. 3 credits.
This class is specifically designed for international students in the Graduate International Year One program at INTO Mason. It emphasizes acculturation to U.S. academic culture, preparation for the graduate study in the United States and especially George Mason University, along with skills necessary to complete graduate study successfully. Many of these expectations are not made explicit in U.S. academic culture, and the course focuses on making the policies, procedures, research skills, and systems clearer for international graduate students looking to obtain a George Mason University advanced degree. Offered by INTO Mason (p. 124). May not be repeated for credit.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

INYO 508: Special Topics Content Support in the Disciplines. 0-6 credits.
This Special Topics Content Support in the Disciplines course is tailored to international students enrolled in the INTO Mason Graduate Pathways Program. The courses will be designed to support INTO Mason graduate students in their major courses, providing individualized feedback and foundational information for those courses. Offered by INTO Mason (p. 124). May be repeated within the term for a maximum 6 credits.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Special scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

Italian (ITAL)

100 Level Courses

ITAL 101: Elementary Italian I. 3 credits.
Designed for students with no prior knowledge of Italian. Includes elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for ITAL 101 and ITAL 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to ITAL 110.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

ITAL 102: Elementary Italian II. 3 credits.
Continuation of ITAL 101. Notes: Students may not receive credit for ITAL 102 and ITAL 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to ITAL 110.
ITAL 100: Elementary Italian. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for ITAL 110 and ITAL 101 or 102. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to ITAL 101, ITAL 102.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Recommended Prerequisite: ITAL 101.

ITAL 110: Elementary Italian. 6 credits.
Exploring Italian through the lens of literary and cinematic movements from 1911 onwards. Compares the representations of historical movements in different artistic languages, from poetry and prose to the moving image. Topics include neorealism, Fascism, the Resistance, the Mafia, and others. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Recommended Prerequisite: ITAL 110.

ITAL 201: Intermediate Italian I. 3 credits.
Further development of skills in listening, speaking, and writing. Notes: ITAL 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: ITAL 102, ITAL 110, or permission of department.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

ITAL 202: Intermediate Italian II. 3 credits.
Application of language skills to reading, composition, and discussion. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: ITAL 201 or permission of department.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

ITAL 300: Topics in Italian Film and Literature. 3 credits.
Explores Italian history through the lens of literary and cinematic movements from 1911 onwards. Compares the representations of historical movements in different artistic languages, from poetry and prose to the moving image. Topics include neorealism, Fascism, the Resistance, the Mafia and others. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Mason Core: Literature (p. 137)
Recommended Prerequisite: ENGL 101/ENGH 101 or equivalent or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

ITAL 320: Major Italian Writers. 3 credits.
Works of major Italian or Italian-American authors in translation. Writers to be studied vary. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ENGL 101/ENGH 101 or equivalent or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

ITAL 340: Italian through Arts. 3 credits.
Develops linguistic proficiency and historical and cultural awareness through the study of a thematic selection of films. Fosters advanced reading, writing, speaking, and listening skills, incorporating advanced-level grammar and vocabulary in a content-based approach. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.
Recommended Prerequisite: ITAL 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Italian

ITAL 360: Southern Italy. 3 credits.
Examines the history and culture of southern Italy with an eye toward cultural and linguistic competence. Students analyze authentic texts ranging from literature to journalism that treat a specific area of southern Italy. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: ITAL 202 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

ITAL 420: Global and Local Italy. 3 credits.
Examines Italian culture in its urban, regional, national, and diasporic manifestations. Analyzes authentic texts, from literature to journalism, in the spirit of a cultural studies approach. Fosters advanced reading, writing, speaking, and listening skills that will enable students to understand and critique contemporary Italy with greater ease and sophistication. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: ITAL 330.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Italian

Japanese (JAPA)

100 Level Courses

JAPA 101: Introduction to the Japanese Language. 3 credits.
Includes basic grammar, oral expression, listening comprehension, and reading and writing. Notes: Students may not receive credit for JAPA 101 and JAPA 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to JAPA 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

JAPA 102: Introduction to the Japanese Language. 3 credits.
Includes basic grammar, oral expression, listening comprehension, and reading and writing. Notes: Students may not receive credit for JAPA 102 and JAPA 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to JAPA 110.

Recommended Prerequisite: JAPA 101, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

JAPA 110: Elementary Japanese. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, reading, and writing. Notes: Students may not receive credit for JAPA 110 and JAPA 101, 102. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to JAPA 101, JAPA 102.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

Further development of skills acquired in JAPA 101 and 102, including grammar, oral expression, listening comprehension, reading and writing. Use of written language (katakana, hiragana, and kanji) emphasized. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: JAPA 102, JAPA 110, or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Japanese

JAPA 202: Intermediate Japanese II. 3 credits.
Continuation of JAPA 201. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: JAPA 201 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Fulfills foreign language requirement., Taught in Japanese

300 Level Courses

JAPA 310: Japanese Culture in a Global World. 3 credits.
Study of globalizing Japanese cultural phenomena from the 19th through the 21st century. Explores how movements of ideas, technologies and products across borders influence both local and global ideas and practice. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Specialized Designation: Non-Western Culture

Recommended Prerequisite: ENGL 101/ENGH 101 or equivalent or permission of instructor.
Mason Core: Literature (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

JAPA 320: Japanese Cinema. 3 credits.
Comprehensive analysis of Japanese cinema based on cross-cultural perspectives and cultural criticism. Major developments and trends as viewed in selected Japanese films with emphasis on post war and contemporary eras. Knowledge of Japanese history, communication, and cultural studies or film and media studies helpful. Notes: May be repeated when topic is different with approval of department. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 6 credits.

Schedule Type: Lecture

Grading: 
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

JAPA 330: Advanced Reading and Speaking I. 3 credits.
Designed for students to develop conversational proficiency and reading skills. Students work toward a mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports, and presentations. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: JAPA 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Japanese

JAPA 331: Advanced Reading and Speaking II. 3 credits.
Designed for students to develop conversational proficiency and reading skills. Students continue to develop mastery of linguistic and sociolinguistic rules by incorporating reading and speaking abilities through class discussions, reports, and presentations. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: JAPA 330, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Japanese

JAPA 340: Topics in Japanese Literature. 3 credits.
Study of selected topics in Japanese literature in English translation. Content varies. Notes: May be repeated when topic is different with permission of department. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Mason Core: Literature (p. 137)

Specialized Designation: Non-Western Culture

Recommended Prerequisite: ENGH 101 or equivalent, or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English, Title varies by section and/or semester

JAPA 350: Readings in Japanese Culture. 3 credits.
An integrated content-based Japanese course designed to advance students’ oral and writing skills, as well as their critical understanding of Japanese culture and mythology. Introduces a variety of genres, such as rakugo (traditional comical story-telling), shinwa (myths), and mukashi-banashi (folk legends). Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: JAPA 202, appropriate placement score, or permission of department.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Japanese

JAPA 360: Topics in Japanese Popular Culture. 3 credits.
In-depth look at anime and manga in order to arrive at a deeper understanding and appreciation of the cultures and histories that generated these art forms, as well as how they continue to shape international entertainment media and fan subcultures. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English, Title varies by section and/or semester

JAPA 370: Video Games and Japan. 3 credits.
Examines video games as digital works of art, literature, and social engagement within the context of contemporary transnational mediascape. Includes study of the history and development of Japanese video games, as well as the markets and cultures surrounding them. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

JAPA 440: Integrated Study of Japanese Language and Society I. 3 credits.
Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-
of class direct interactions with native speakers. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** JAPA 331, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Japanese

**JAPA 441: Integrated Study of Japanese Language and Society II.** 3 credits. Integrated approach to study of Japanese language and society through grammar review, vocabulary and kanji development, intensive practice in spoken and written Japanese, and sociological and cultural readings and analysis. Includes class discussion, oral and written reports, and out-of-class direct interactions with native speakers. More emphasis on actual use of Japanese language. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** JAPA 440, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Japanese

## Kinesiology (KINE)

### 100 Level Courses

**KINE 100: Introduction to Kinesiology.** 3 credits.
Provides overview of the field of kinesiology in the form of an introductory course. Exposes students to the history of the field, and its emphasis on evidence based knowledge. Explains policies and procedures for the major. Explorers career options. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 200 Level Courses

**KINE 200: Introduction to Personal Training.** 3 credits.
Provides students with basic knowledge and skills associated with exercise training methods, lifting techniques, and health-related fitness testing procedures. Selection of developmentally appropriate exercises emphasized. Participation in fitness tests required. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (BIOL 124C, 125C, ATEP 300C and KINE 310C).
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**KINE 250: Endurance Sport Program Design.** 3 credits.
Provides students with knowledge necessary to train another individual safely and effectively for endurance sports. Emphasis will be placed on running; however, cycling and swimming will be covered. Topics covered include: functional, physiology, psychological aspects of endurance competitions, basic nutritional requirements, injury reduction, training techniques, safety, race management, and history of endurance sports. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** BIOL 124, BIOL 125, ATEP 300, KINE 200.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 300 Level Courses

**KINE 310: Exercise Physiology I.** 3 credits.
Introduces students to the physiologic, neuroendocrine, and biochemical changes of the human body that are associated with exercise and work. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (BIOL 124C and 125C).
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**KINE 320: Principles of Human Nutrition.** 3 credits.
Assesses dietary habits and patterns in relation to nutrient requirements across the age spectrum and for a variety of populations. Emphasizes weight control, diet in relation to physical activity, and current nutritional controversies. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**KINE 330: Seminar in Kinesiology.** 3 credits.
Prepares students for the fieldwork experience in KINE 341: Kinesiology Internship I. Topics covered include: professionalism, review of evidence-based position papers, and discussion of contemporary issues in kinesiology. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**KINE 340: Seminar in Kinesiology.** 3 credits.
Provides a paid or voluntary supervised professional experience in an approved exercise science professional setting under the supervision of...
a practicum University Supervisor and Agency Supervisor. Current CPR, AED, and First Aid Certification required. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: KINE 200C, 310C, 330C, 350C and 370C.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

KINE 350: Exercise Prescription and Programming. 3 credits.
Provides study of the design and implementation of exercise programs for the general population. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: KINE 200C, 310C, 370C and ATEP 300C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

KINE 360: Strength Training: Concepts and Applications. 3 credits.
Provides students with an opportunity to develop an in-depth understanding of the principles of strength training and conditioning, including: anatomical and physiological considerations, lifting techniques, equipment selection, program development/evaluation, and weightlifting safety; thus enabling them to teach and train client. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: BIOL 124C, 125C and KINE 310C)
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

KINE 370: Exercise Testing and Evaluation. 3 credits.
Provides students with an opportunity to develop a understanding of the assessment and evaluation process during exercise in the determination of physical fitness. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: BIOL 124C, 125C and KINE 310C
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

KINE 380: Exercise Prescription and Programming for Special Populations. 3 credits.
Provides the study of the pathophysiology of common diseases and conditions with concentration in the design and implementation of exercise programs. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: KINE 200C, 310C, 330C, 350C and 370C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

KINE 400: Biomechanics. 3 credits.
Focuses on kinetic and kinematic concepts and how they apply to the quantitative assessment of human movement. Analyzes human movement and the functional dynamics of tissue such as muscle or bone. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: BIOL 124C, 125C, KINE 360C and ATEP 300C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

KINE 410: Exercise Physiology II. 3 credits.
Provides study in the advanced theory of exercise physiology. Knowledge related to the physiologic, neuroendocrine, and biochemical changes of the human body associated with both a single bout of exercise and chronic exercise training will be addressed. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: BIOL 124C, 125C and KINE 310C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

KINE 420: Sport and Exercise Nutrition. 3 credits.
Explores the fundamental biochemical and physiological rationale for optimal nutrient intake for health, physical fitness, and athletic performance. Specific attention is focused upon the relationship nutrition has with exercise, physical fitness, health, and athletic performance. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (KINE 310C and 320C).
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

KINE 441: Kinesiology Internship II. 3 credits.
Provides a supervised professional experience in two separate approved kinesiology professional settings under the supervision of both a University Supervisor and an Agency Supervisor with emphasis placed
upon exercise programming and implementation for both clinical (site 1) and performance (site 2) populations. Current CPR, AED, and First Aid Certification required. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: KINE 341C, 360C and 380C.
C Requires minimum grade of C.

Schedule Type: Internship
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

KINE 450: Research Methods. 3 credits.
Covers the development of empirical research designs for both practical and theoretical problems in allied health fields such as kinesiology, therapeutic recreation, and athletic training. Includes literature review of hypothesized relationships, and formulation of research proposals. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Registration Restrictions:
Required Prerequisites: STAT 250C, DESC 210C, OM 210C, SOCI 313C or IT 250C.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

KINE 490: Kinesiology Internship III. 12 credits.
Provides a directed, field-based experience, in which students observe and participate in conditions, practices, and settings where sought career roles are conducted. The kinesiology fieldwork coordinator must approve placement for the practicum. Both a University supervisor and an approved agency supervisor with recognized professional certifications coordinate and oversee the student's internship experience. Current CPR, AED, and First Aid Certification required. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Mason Core: Capstone (p. 137)

Registration Restrictions:
Required Prerequisites: (KINE 330C, 341C, 400C, 410C, 420C and 441C).
C Requires minimum grade of C.

Students with a class of Freshman, Junior or Sophomore may not enroll.

Schedule Type: Internship
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

KINE 499: Independent Study in Kinesiology. 1-3 credits.
Study of a topic regarding theory, research, or practice in kinesiology under the direction of a faculty member. May be repeated, but no more than 3 total credits hours may be earned. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 3 credits.

Schedule Type: Independent Study
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

800 Level Courses
KINE 890: Research Experience I. 6 credits.
Engages student in advanced literature review development, research design, evaluation methods and statistical applications in kinesiology. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Research
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

KINE 891: Research Experience II. 3 credits.
Engages student in advanced data collection, management, analysis and interpretation to develop a scholarly product. Prepares students for dissertation proposal in Kinesiology. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Research
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

KINE 897: Research Experience III. 3 credits.
Engages student in advanced data collection, management, analysis and interpretation to develop a scholarly product. Prepares students for dissertation proposal in Kinesiology. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Independent Study
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

900 Level Courses
KINE 998: Doctoral Dissertation Proposal. 1-6 credits.
Provides information and support for students as they develop their dissertation proposal. Note: May be repeated, but no more than 6 credits of KINE 998 may satisfy doctoral degree requirements. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Admission to candidacy in PhD program and successful completion of doctoral qualifying exam.

Registration Restrictions:
Enrollment is limited to students with a major in Kinesiology.

Enrollment limited to students in a Doctor of Philosophy degree.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**Korean (KORE)**

### 100 Level Courses

**KORE 110: Elementary Korean.** 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to KORE 101, KORE 102, KORE 115.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**KORE 115: Review of Elementary Korean.** 3 credits.
This course is designed as a review of elementary Korean for students who have learned or have been previously exposed to Korean-speaking environments. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to KORE 102, KORE 110.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Korean

### 200 Level Courses

**KORE 201: Intermediate Korean I.** 3 credits.
Continuation of basic Korean listening, speaking, reading, and writing skills. Online and lab work required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. 

**Recommended Prerequisite:** KORE 102, KORE 110, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Korean

**KORE 202: Intermediate Korean II.** 3 credits.
Continuation of KORE 201. Online and lab work required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** KORE 201, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Korean

**300 Level Courses**

**KORE 305: Business Korean.** 3 credits.
Develops intermediate- to high-level Korean reading, writing, listening and speaking skills while increasing culture awareness in Korean business settings through authentic materials and hands-on projects with people in the Korean business community. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** KORE 202, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Korean

**KORE 310: Classical Korean Literature.** 3 credits.
Develops students’ advanced-intermediate Korean language skills and cultural awareness through an extensive overview of classical Korean literature. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** KORE 202, appropriate placement score, or permission of department.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Korean

**KORE 311: Modern Korean Literature in Translation.** 3 credits.
Explores twentieth and twenty-first century Korean literary works through the critical and comparative analysis of Korean cultural products, practices and perspectives of the past and the present. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Mason Core:** Literature (p. 137)

**Recommended Prerequisite:** ENGH 101; appropriate placement score; or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in English

**KORE 320: Korean Popular Culture in a Global World.** 3 credits.
Develops students’ critical understanding of transnational and global perspectives of culture flow using various cultural products and art forms of Korea. Provides students with the understanding of the histories and social contexts of Korean popular culture. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Specialized Designation:** Non-Western Culture

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

KORE 321: Korean Proficiency through Visual Culture. 3 credits.
Develops Intermediate-high level Korean reading, writing, listening, and speaking skills while increasing understanding of Korean culture through authentic Korean visual culture such as films, TV dramas, commercials, and music videos. Students who complete the course will gain an understanding of local and global Korean visual culture as well as acquire upper level Korean linguistic proficiency. Offered by Modern & Classical Languages. May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: KORE 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Korean

KORE 330: Advanced Korean Language and Culture. 3 credits.
Develops advanced level Korean language skills and cultural awareness in interpersonal, interpretive and presentational modes of communication. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Prerequisite: KORE 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Korean

KORE 340: Transformation of Language and Culture in North and South Korea. 3 credits.
Develops advanced level North and South Korean reading, writing, listening, and speaking skills and increases culture awareness through authentic Korean visual culture. Distinguishes cross-linguistic and cross-cultural differences of North and South Korean language and culture and develops advanced level Korean linguistic proficiency. Offered by Modern & Classical Languages. May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: KORE 202C or 250C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Korean, Title varies by section and/or semester

Latin (LATN)

100 Level Courses

LATN 101: Elementary Latin. 3 credits.
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization. Notes: Must be taken in sequence. Offered by Modern & Classical Languages. May not be repeated for credit.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

LATN 102: Elementary Latin. 3 credits.
Introduction including basic grammar, vocabulary, and development of reading skills, and introduction to Roman civilization. Notes: Must be taken in sequence. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Prerequisite: LATN 101.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

LATN 201: Intermediate Latin I. 3 credits.
Intensive review of elementary grammar. Introduces more advanced grammatical constructions and patterns of usage, continued development of reading proficiency, and vocabulary and readings in Latin literature. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Prerequisite: LATN 101 or equivalent.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

LATN 202: Intermediate Latin II. 3 credits.
Study of advanced grammatical constructions, vocabulary, and patterns of usage. Reading of selections from Roman authors of late Republic and early Empire, and study of cultural and political backgrounds. Offered by Modern & Classical Languages. May not be repeated for credit.

Recommended Prerequisite: LATN 201 or equivalent.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

LATN 351: Roman Prose Literature. 3 credits.
Introduces major work of prose, themes, and literary qualities. Emphasizes interpretation and stylistic analysis. Concentrates on one complete work; topics, authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages.
Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** LATN 202 or equivalent.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LATN 352: Roman Poetry.** 3 credits.
Introduces major work of poetry and themes, meters, and poetic techniques. Emphasizes interpretation, metrical and stylistic analysis, and poet's role in society. Topics and authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** LATN 202 or equivalent.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

**LATN 451: Studies in Roman Literature.** 3 credits.
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as well as primary texts. Topics and authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** LATN 351/352 or equivalent or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LATN 452: Studies in Roman Literature.** 3 credits.
Focuses on a single Latin author or literary genre. Approaches subject from variety of interpretive perspectives, and uses secondary literature as well as primary texts. Topics and authors vary. Notes: Readings in Latin. May be repeated when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** LATN 351, 352 or equivalent or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Latin American Studies (LAS)**

**300 Level Courses**

**LAS 300: Latin American Studies: Interdisciplinary Perspectives.** 3 credits.
Interdisciplinary introduction to Latin American Studies. Examines the region's history, culture, and societies, as well as the different approaches, methodologies, and concepts related to the study of Latin America. Focuses on the experiences that shaped Latin America as a region, how the region impacts and is impacted by globalization, and on Latino/as in the United States. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Seminar

**Grading:**

**LAS 490: Internship.** 1-6 credits.
Approved work-study programs in cooperation with specific organizations including area museums, NGOs, and local, state and federal agencies. Notes: Credit determined by program. Offered by Humanities & Social Sciences (p. 298). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Open to Latin American Studies majors only with permission of program Director.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LAS 491: Directed Reading for Honors in Latin American Studies.** 3 credits.
Directed readings on specialized topic in Latin American Studies. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Latin American Studies honors program.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LAS 498: Study Abroad.** 1-6 credits.
Study abroad. Notes: May be repeated with permission of department. Offered by Humanities & Social Sciences (p. 298). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LAS 499: Research Seminar in Latin American Studies.** 3 credits.
Research on specialized topic in Latin American Studies culminating in substantial paper and oral presentation. Students expected to integrate knowledge and skills acquired in Mason Core courses. Notes: Must receive passing grade to graduate with a BA in Latin American studies. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

**Mason Core:** Synthesis (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** 90 credits

**Schedule Type:** Seminar

**Grading:**

**LAS 300:** Latin American Studies: Interdisciplinary Perspectives. 3 credits.
Interdisciplinary introduction to Latin American Studies. Examines the region's history, culture, and societies, as well as the different approaches, methodologies, and concepts related to the study of Latin American Studies. Examines the region's history, culture, and societies, as well as the different approaches, methodologies, and concepts related to the study of Latin American Studies. Examines the region's history, culture, and societies, as well as the different approaches, methodologies, and concepts related to the study of Latin American Studies.
This course is graded on the Undergraduate Regular scale. (p. 82)

**Linguistics (LING)**

### 300 Level Courses

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Schedule Type:** Lecture, Recitation

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Schedule Type:** Lecture, Recitation

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 400 Level Courses

**LING 450: Introduction to Sociolinguistics.** 3 credits. Overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 306.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LING 480: First Language Acquisition.** 3 credits. Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Emphasizes research methods in the study of child language. Offered by English (p. 354). May not be repeated for credit.

**Mason Core:** Capstone (p. 137)

**Registration Restrictions:**

**Required Prerequisite:** LING 306 C.

C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LING 485: Semantics and Pragmatics.** 3 credits. Developments in theoretical linguistics that explore how language form is related to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 306.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LING 486: Syntax I.** 3 credits. Nature and form of syntactic theory, and examination and analysis of the properties of several major natural language syntactic structures. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 306.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LING 490: Generative Phonology.** 3 credits. Sound systems of English and other languages from perspectives of phonological theory. Topics include articulatory phonetics, distinctive features, nature of phonological representations, rhythm and stress, and phonological universals and constraints. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 306.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LING 496: Syntax II.** 3 credits. Nature and form of syntactic theory, and examination and analysis of the properties of several major natural language syntactic structures. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 306.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**LING 499: Independent Study.** 1-3 credits. Intensive study of particular theoretical problem in linguistics conducted by student in close consultation with instructor. Student produces substantial piece of written work on research findings. Notes: May be repeated with permission of instructor. Offered by English (p. 354). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** LING 326 and 3 other LING credits and permission of instructor.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 500 Level Courses

**LING 507: Field Work in Applied Linguistics.** 3 credits. Field work providing working experience in language-teaching program or educational research organization. Notes: Contact the department one semester prior to enrollment. Offered by English (p. 354). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** LING 326, 520, 521, or 582.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 520: Introduction to Linguistics.** 3 credits.
Introduces terminology and methodology of modern linguistic science, and detailed structural analysis of English phonology, morphology, and syntax. Offered by English (p. 354). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

Theories and basic principles of teaching a second language, especially as they relate to English language. Introduces students to methods of teaching English to speakers of other languages. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 306, 520, 690, or 786.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 522: Modern English Grammar.** 3 credits.
Overview of structure of modern English beginning with word classes and ending with analyses of complex sentences. Most topics introduced as problems of language description; in solving them, principles of syntactic argumentation are demonstrated. Students learn to tap intuitions about English to analyze grammatical structure. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** One linguistics course or permission of instructor.

**Registration Restrictions:**

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 523: English Phonetics.** 3 credits.
In-depth description and analysis of sound system processes of modern English. Topics include segmental phonetics, syllable structure, connected speech, and prosodic phenomena. Also addresses implications for language instruction. Offered by English (p. 354). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 525: Practicum in ESL.** 3 credits.
Involves preparation and presentation of lessons to adult English as second language (ESL) learners under guidance of mentor teacher and practicum professor. Field experience consists of observation and teaching in assigned ESL classroom. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 521.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**LING 580: First Language Acquisition.** 3 credits.
Examines first language acquisition from a linguistic perspective. Covers the development of a first phonology, syntax, and semantics. Methodology in studying child language is discussed. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 520 or one of the following: LING 690, 786, 785 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 581: Psycholinguistics.** 3 credits.
Study of mental and psychological aspects of human language, including aphasia, association, autism, language acquisition, verbal concept formation, and perception. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 520, 690, or 786; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 582: Second Language Acquisition.** 3 credits.
Examines second language (L2) acquisition from linguistic perspective. Compares first and second language acquisition. Explores factors contributing to L2 variation, including linguistic universals, transfer, age, input, and affective considerations. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 306, 520, 690, or 786; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 650: Introduction to Sociolinguistics.** 3 credits.
An overview of the study of language variation and change. Topics to be covered include the interaction between language and social factors (age, sex, social class), dialects of English, speech communities, language contact, and language and gender. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 520, 523, or 690.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 686: Special Topics in Linguistics.** 3 credits.
Detailed advanced study of selected area of linguistics. Notes: Content varies. May be repeated for credit with permission of department. Offered by English (p. 354). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

** Ling 691: Theories of Language.** 3 credits.
Seminar in linguistic metatheory. Examines wide range of theories about language and linguistic theory, including those of Saussure, Bloomfield, Chomsky, and others. Readings from original sources. Offered by English (p. 354). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
Recommended Prerequisite: LING 520, 690, or 786; or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

LING 692: Phonology II. 3 credits.
Recent trends in phonological theory. Topics include stress assignment, tone spreading, and vowel harmony, from within nonlinear framework. Discusses segmental structure and underspecification. Offered by English (p. 354). May not be repeated for credit.

Recommended Prerequisite: LING 690.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

700 Level Courses

LING 770: Research Methods. 3 credits.
Conceptualizing and conducting second language research, including process of developing research questions, gathering data, obtaining permission from institutional review board, choosing data collection measures, and coding linguistic and nonlinguistic data. Offered by English (p. 354). May not be repeated for credit.

Recommended Prerequisite: LING 690 or LING 785 or LING 786, and LING 582, or permission of the instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

LING 782: Second Language Acquisition II. 3 credits.
Advanced course in second-language acquisition theory. Detailed analysis of internal and external constraints. Variation addressed from linguistic, psychological, and environmental perspectives. Offered by English (p. 354). May not be repeated for credit.

Recommended Prerequisite: LING 582 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

LING 785: Semantics and Pragmatics. 3 credits.
Developments in theoretical linguistics that explore how language form relates to meaning and context. Topics include reference, lexical semantics, logic, quantification, truth conditions and sentential meaning, presuppositions, and speech acts. Offered by English (p. 354). May not be repeated for credit.

Recommended Prerequisite: LING 520, 690, or 786; or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

LING 786: Syntax I. 3 credits.
Nature and form of syntactic theory. Examines and analyzes properties of several major natural language syntactic structures. Offered by English (p. 354). May not be repeated for credit.

Recommended Prerequisite: LING 520, 690, or 786; or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

LING 787: Syntax II. 3 credits.
Theoretical treatment of syntactic phenomena that have emerged as standard problems for syntactic analysis. Problems include binding, extraction, and quantification. Extensive reading in primary theoretical literature. Offered by English (p. 354). May not be repeated for credit.

Recommended Prerequisite: LING 786.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

LING 788: Semantics and Pragmatics II. 3 credits.
Advanced course in semantic and pragmatic theory. Study of meaning under truth-conditional, model-theoretic framework explored and related
to syntax and pragmatics. Offered by English (p. 354). May not be repeated for credit.

**Recommended Prerequisite:** LING 785 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 798: Directed Reading and Research.** 1-3 credits.
Reading, research, and writing on specific project under direction of departmental member. Notes: Open only to students who have completed at least 18 credits of LING courses. Prior approval by faculty member required. Written report required. May be repeated with permission of director. Offered by English (p. 354). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 18 credits of linguistics courses.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**LING 799:** Thesis. 1-6 credits.
Students who take LING 798 to develop thesis topic and then elect thesis option receive 3 credits after completing thesis. Students who do not take LING 798, or who take it to work on project unrelated to thesis, receive up to 6 credits after completing thesis. Offered by English (p. 354). May be repeated within the degree.

**Recommended Prerequisite:** Open only to students who have completed at least 18 credits of LING courses.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**800 Level Courses**

**LING 882: Seminar in Language Acquisition.** 3 credits.
Advanced topics seminar in current language acquisition theory. Notes: Topics vary. Offered by English (p. 354). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** LING 782 or permission of the instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 886: Advanced Syntax Seminar.** 3 credits.
Advanced course in current syntactic theory. Notes: Topics vary. Offered by English (p. 354). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** LING 786, LING 787, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 890: Advanced Phonology Seminar.** 3 credits.
Advanced topics seminar in current phonological theory. Notes: Topics vary. Offered by English (p. 354). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** LING 692 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 897: Independent Study.** 3 credits.
Independent reading on a topic agreed on by student and faculty member. Offered by English (p. 354). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** PhD rank or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**LING 898: Advanced Qualifying Seminar.** 3 credits.
Work on PhD qualifying paper. Offered by English (p. 354). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Completion of 33 credits of core courses in linguistics.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
900 Level Courses
LING 998: Doctoral Dissertation Proposal. 1-6 credits. Work on research proposal that forms basis for the doctoral dissertation. Offered by English (p. 354). May be repeated within the degree.
Recommended Prerequisite: Advancement to candidacy.
Registration Restrictions: Enrollment is limited to Graduate level students.
Schedule Type: Dissertation
Grading: This course is graded on the Satisfactory/No Credit scale. (p. 82)
LING 999: Doctoral Dissertation. 1-12 credits. Doctoral dissertation research and writing under direction of student’s dissertation committee. Offered by English (p. 354). May be repeated within the degree.
Recommended Prerequisite: LING 998.
Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy. Enrollment is limited to Graduate level students.
Schedule Type: Dissertation
Grading: This course is graded on the Satisfactory/No Credit scale. (p. 82)

MBA--Interdisciplinary (MBA)

600 Level Courses
MBA 601: Online MBA Orientation. 0 credits. The main objective of this course is to help students understand program expectations and time commitment and prepare themselves for online communication and technology requirements necessary to successfully complete their online MBA degree. Offered by School of Business (p. 877). May not be repeated for credit.
Recommended Prerequisite: Enrollment in the online MBA program or permission of the MBA academic director.
Registration Restrictions: Enrollment limited to students in a Master of Business Admin degree.
Schedule Type: Lecture
Grading: This course is graded on the Satisfactory/No Credit scale. (p. 82)
MBA 603: Managerial Economics and Decisions of the Firm. 0-3 credits. Provides fundamental understanding of applying microeconomics concepts to managerial decision making. Explores principles of microeconomic theory, including market supply and demand, production and cost functions, industry structure, and product and resource pricing. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.
Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture
Grading: This course is graded on the Graduate Special scale. (p. 82)
MBA 612: Managing Costs and Evaluating Performance. 1.5-3 credits. Examines impact of cost and cost allocation on performance and evaluation. Offered by School of Business (p. 877). May not be repeated for credit.
Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture
Grading: This course is graded on the Graduate Regular scale. (p. 82)
MBA 613: Financial Reporting and Decision Making. 0-3 credits. Foundation course focusing on economics and analysis of business transactions and related financial reporting issues. Topics include introduction to accounting framework used in financial reporting; and analysis of financial statements, economic events and their impact on financial reports, and impact of accounting methods on financial reports. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.
Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture
Grading: This course is graded on the Graduate Special scale. (p. 82)
MBA 623: Marketing Management. 0-3 credits. Develops market-based knowledge and skills for effective marketing decision making, strategy design, implementation, and evaluation in a wide variety of institutional and competitive situations. Addresses the importance of companies being market-driven and customer-focused. Emphasis on case studies, team work, and projects. Offered by School of
Business (p. 877). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Special scale. (p. 82)

MBA 633: Statistics for Business Decision Making. 3 credits.
Uses statistical methods as analytical tools for understanding and solving business problems and supporting business decision making. Includes descriptive statistics, sampling, inferencing and regression. Extensive use of applied business scenarios to illustrate concepts and computer software for data analysis. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture, Recitation
Grading:
This course is graded on the Graduate Special scale. (p. 82)

MBA 638: Operations Management. 0-3 credits.
Focuses on design, planning, and control activities to produce and deliver goods and services in modern organizations. Introduces wide range of operations management decisions, such as operations strategy, process analysis and design, capacity planning, supply chain management, total quality management, and project management. Uses quantitative modeling, case studies, and computer software to analyze and solve operations management problems. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Special scale. (p. 82)

MBA 643: Managerial Finance. 0-3 credits.
Introduces theory and practice of finance within corporations. Topics include intertemporal choice, valuation, capital budgeting and structure, working capital management, and risk and return analysis. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Special scale. (p. 82)

MBA 653: Organizational Behavior. 3 credits.
Emphasizes development of conceptual tools for understanding and analyzing individual and group behavior in organizations and organizational processes. Considerable focus on developing relevant skills for working in groups and teams. Lectures, discussions, case analyses, and class exercises. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture, Recitation
Grading:
This course is graded on the Graduate Special scale. (p. 82)

MBA 662: Management of Information Technology. 1.5-3 credits.
The strategic, economic and managerial aspects of managing an organization's IT assets are covered. The business value of IT is understood and assessed in context of its impact on the organization's structure and strategy. The course includes discussion on major issues pertaining management of IT infrastructure. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MBA 678: Strategic Management.** 0-3 credits.
Capstone course focusing on strategy development at business unit and corporate level. Cases, readings, and project format familiarize students with strategic management function and help them develop analytical, organizational, and managerial skills to analyze complex business situations. Provides opportunities to integrate knowledge gained in prior course work. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**700 Level Courses**

**MBA 701: Business Valuation.** 0-3 credits.
Develops framework for business analysis and valuation using financial statement data. Analyzes management decisions such as equity valuation, creditworthiness, merger valuation, corporate financial structure, and management communication strategy. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits. Equivalent to ACCT 701.

**Registration Restrictions:**
Enrollment limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 702: Corporate Financial Policy.** 0-3 credits.
Applies theories and methods of corporate financial management to series of complex cases. Topics include capital projects as real options, cost of capital and capital structure, firm valuation, project finance, and merger and acquisition analysis. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 703: Financial Markets.** 0-3 credits.
Explores relationship among financial markets including global equity markets, U.S. Treasury securities, and exchange-traded and over-the-counter financial derivative instruments such as futures, options, swaps, and asset-backed securities. May not be repeated for credit. Equivalent to GBUS 720.

**Recommended Prerequisite:** MBA 738 or equivalent.

**Registration Restrictions:**
Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Master of Business Admin degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MBA 721: Marketing Research.** 0-3 credits.
Develops skills to plan and implement effective marketing research
studies. Topics include research design, data collection, statistical
analysis, and use of database systems. Offers perspective on how
managers can use market data to develop successful product or service
strategies. Offered by School of Business (p. 877). May be repeated
within the degree for a maximum 3 credits. Equivalent to GBUS 721.

**Recommended Prerequisite:** Completion of MBA core or permission of
instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business
Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 722: Consumer Behavior.** 0-3 credits.
An integrated analysis of internal and external influences on consumer
decision making, purchase, and consumption behaviors with attention
to marketing strategy implications. Emphasizes demographics, lifestyle,
situation, perception, learning, and attitude formation and change,
focusing on customer segmentation, satisfaction, loyalty, and product-
person relationships. Offered by School of Business (p. 877). May be
repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of
instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business
Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 723: Supply Chain Management.** 0-3 credits.
Examines logistics of supply chain systems, including inventory
management, distribution channels, and information systems.
Emphasizes strategic alliances and international issues. Offered by
School of Business (p. 877). May be repeated within the degree for a
maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA core or permission of
instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business
Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 724: Marketing Communications.** 0-3 credits.
Examines all forms of communication and sources of brand or company
contacts as potential message channels in building relationship
with customers. Focuses on integrated planning process for all
communication elements, including consumer and trade advertising,
public relations, direct and database marketing, promotions, and sales
presentations to achieve synergy in communicating with various

**Registration Restrictions:**
Enrollment is limited to students with a major in Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Master of Business Admin degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MBA 730: Management of Technology and Innovation Processes.** 0-3 credits.
Students will develop a strong conceptual foundation for managing technological innovation. It introduces frameworks for analyzing how firms can create, commercialize and capture value from products and services. Topics covered comprise the formulation of innovation strategies, the process of developing new products and services, and how to create and manage an innovative organization to drive revenue growth. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Admission to the MBA program or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 731: Business Application and Life Cycle Management.** 0-3 credits.
Studies methods and tools for analyzing and designing business information systems with emphasis on business processes. Topics include data modeling, process modeling, interaction analysis, and user interface. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA or MSA core requirements or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 732: Knowledge Management.** 0-3 credits.
Examines firms that use knowledge management principles and approaches: intellectual capital, human capital, customer capital, tacit and explicit knowledge, new role of chief knowledge officer, leveraging of knowledge management. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.
Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Special scale. (p. 82)

MBA 734: Electronic Commerce and E-Business. 0-3 credits.
Examines how e-commerce and e-business affect digital economy. Discusses, compares business models, strategies for e-commerce. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Completion of MBA core or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Special scale. (p. 82)

MBA 739: Advanced Data Mining for Business Analytics. 3 credits.
This course covers business analytics using advanced data mining methods for the purposes of developing predictive models and forecasting. The course will develop concept of feature selection to identify what dimensions to best use for constructing decision making models. Offered by School of Business (p. 877). May not be repeated for credit.

Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 747: Real Estate Finance.** 0-3 credits.
Examines financing of residential and income-producing real estate from perspectives of both suppliers and users of funds. Focuses on financing alternatives, primary and secondary markets, and decision implications of available arrangements. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 747.

**Recommended Prerequisite:** Completion of MBA or MSA core requirements or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 748: Real Estate Investment.** 0-3 credits.
Develops frameworks for analyzing decisions about investing in real estate assets. Focuses on acquisition and analysis of information required to evaluate potential performance of assets. Applications of theories and techniques through case studies. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits. Equivalent to GBUS 748.

**Recommended Prerequisite:** Completion of MBA or MSA core requirements or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MBA 752: Turning Ideas into Successful Companies.** 0-3 credits.
An advanced course in entrepreneurship focused on discovery and development of an achievable business concept. The centerpiece of the course is development of the formal business plan and associated presentation materials. Students are assigned to teams and must hypothesize a new business, research and test their hypothesis, and develop a comprehensive written business plan. The plan must be for an actual business that the students intend to start upon the successful completion of the course. Technology-based projects are encouraged, but not required. Because the course is cross-listed with IT&E and the School of Business, most teams will include both engineering and business students. Weekly presentations of the team’s progress are required. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA or MSA core requirements or permission of the program director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture  
**Grading:** This course is graded on the Graduate Special scale. (p. 82)

**MBA 795:** *Global Business Perspectives*. 0-3 credits. Applies MBA core courses to global business enterprise through site visits to facilities located outside the United States. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**  
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture  
**Grading:** This course is graded on the Graduate Special scale. (p. 82)

**MBA 796:** *Directed Studies in Business Administration*. 1-3 credits. Approval by faculty member and MBA program director required prior to registration. Studies specialized topics in business administration not otherwise available in curriculum. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Completion of MBA or MSA program or permission of the program director.

**Registration Restrictions:**  
Enrollment is limited to students with a major in Accounting, Business Administration or Business Admin - Fast Track.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study  
**Grading:** This course is graded on the Graduate Regular scale. (p. 82)

**MBA 797:** *Special Topics in Business*. 1-3 credits. Sections established as necessary to focus on various topical issues that emerge in practice of business administration. Offered by School of Business (p. 877). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**  
Enrollment is limited to students with a major in Accounting or Business Administration.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture  
**Grading:**

**Management (MGMT)**

**300 Level Courses**

**MGMT 303:** *Principles of Management*. 3 credits.  
Examines managerial work under range of business models and rapidly changing business conditions. Managerial functions and activities including planning, organizing, balancing conflicting demands, leading and controlling are examined in depth and in context of current organizational examples. Discuss variety of pressures contemporary managers face; clients and competitors, leaders above and reportees, organizational demands and personal goals. Notes: Students cannot receive credit for both MGMT 301 and MGMT 303. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MGMT 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see Academic Policies. This course will not meet School of Business requirements for students with a catalog year before Fall 2015. Offered by School of Business (p. 877). Limited to two attempts.

**Recommended Prerequisite:** BUS 103 and BUS 200.

**Registration Restrictions:**  
**Required Prerequisites:** (ACCT 203, U203, 204 or U204) and (MATH 108, U108, 113, U113, 114, U114, HNRT 225 or U225). C Requires minimum grade of C.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture, Recitation  
**Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 313:** *Organizational Behavior*. 3 credits.  
Course expands management knowledge through defined focus on organizational behavior (OB). OB is field of study aimed at predicting, explaining, understanding and changing human behavior as it’s reflected in organizations. Science of OB is interdisciplinary in nature and draws from psychology, sociology, social psychology, and group dynamics. Course explores dynamics between individual and organization through this behavioral science lens. Notes: Students cannot receive credit for both MGMT 301 and MGMT 313. Offered by School of Business (p. 877). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major  
**Registration Restrictions:**  
**Required Prerequisites:** MGMT 303, L303 or 303T. C Requires minimum grade of C.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture  
**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

The field of human resource management examines what can or should be done to make workers more productive and satisfied. The course builds on MGMT 301 by introducing key concepts and techniques that managers need to attract, retain, develop, compensate, and motivate quality talent. Also emphasizes legal and ethical considerations in human resource management. Offered by School of Business (p. 877). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301\(^C\), L301, 303\(^C\) or L303.  
\(^C\) Requires minimum grade of C.

Students with a class of Freshman may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

**MGMT 412: Diversity in Organizations.** 3 credits.
Builds on MGMT 303 by emphasizing intrapersonal, interpersonal, organizational, and societal phenomena relevant to issues of diversity. Examines phenomena and processes in general and with regard to specific dimensions such as gender, race, and ability. Designed to increase students’ knowledge of diversity in organizations, understanding of others’ perspectives, and ability to work well with people who differ from themselves. Offered by School of Business (p. 877). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301\(^C\), L301, 303\(^C\) or L303.  
\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 421: Advanced Human Resource Management.** 3 credits.
Builds on MGMT 321 by using a case-based approach to deepen understanding of HRM practices. Students conduct projects requiring application of strategic HR processes. Includes discussion of advanced topics not thoroughly covered in MGMT 321. Relevant for management majors, particularly those seeking a human resource management career. Helps prepare for SHRM Professional in Human Resources certification exam. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (MGMT 301\(^C\), L301, L303 or 303\(^C\)) and (MGMT 321\(^C\)).  
\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 431: The Legal Environment for Employee and Labor Relations.** 3 credits.
Examines the legal aspects of employer and labor relations from a managerial perspective. Topics include the employment at will doctrine; wrongful discharge; federal and state employment discrimination legislation; and regulation of employee welfare. Includes lectures, cases, readings. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** BULE 302\(^C\), L302, 303\(^C\) or L303.  
\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 441: International Strategy.** 3 credits.
Course focuses on seven inter-related pillars underpinning international strategy and these areas are: global environment and marketplace, global competitiveness and manufacturing including role of USA, global macroeconomics and financial infrastructure, global management approaches and management of transnational firms, new forces that shape global strategy, and globalization lessons learned and its limitations. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301C, 303C, L301, L303, 301T or 303T.
C Requires minimum grade of C.

Non-Degree level students may not enroll.
Students with a class of Freshman or Sophomore may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 451: Introduction to Entrepreneurship.** 3 credits.
Provides students an introduction to key concepts, methods, and frameworks of innovation and entrepreneurship. The experiential component of the course will be supplemented by readings, written work and presentations, and classroom discussion. The course will explore and explain the importance of entrepreneurship, entrepreneurs, and their firms in addition to allowing students to experiment with various entrepreneurial concepts and activities. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301C, L301, 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 453: Starting a Business.** 3 credits.
Examines the paths to small business ownership, including starting an enterprise or purchasing an existing business. Focus will be on franchising and licensing, as well as family-run enterprises. Students will gain a broad understanding of location choice, facilities and layout, in addition to the legal issues associated with small business creation. Harvesting and exiting options will also be explored. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301C, L301C, 303C, L303C, MBUS 304C or IT 495C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 454: Social Impact and Entrepreneurship.** 3 credits.
This course takes a business-oriented multidisciplinary case study approach to exploring the growing field of social innovation and enterprise: that is, the course investigates the historical context of social entrepreneurship, methods and models of social enterprises, marketing social innovation, limits of market-based models, skills needed to tackle wicked problems, and quantitative methods for assessing and measuring impact. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301C, 303C or MBUS 304C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 461: Cross Cultural and Global Management.** 3 credits.
Explores theory and practice of managing culturally diverse organizations in domestic and international contexts. Topics include management customs and practices in different world regions, cross-cultural communication and learning, and the developing culturally and internationally sophisticated employees and managers. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301C, L301, 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
MGMT 462: *Honors Seminar in Management (Topic Varies).* 3 credits.
Topic and format vary. In-depth study of topic of interest to managers and organizations. Notes: Enrollment limited and competitive. Offered by School of Business (p. 877). May not be repeated for credit.

**Recommended Prerequisite:** Invitation of professor.

**Registration Restrictions:**
Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

MGMT 463: *Negotiations in Organizations.* 3 credits.
Focuses on theory, processes, and practice of negotiation within and across organizations, including attention to ethical issues. Explores systematic ways to increase quality of negotiated agreements, including methods of preparation and use of rational assumption, bidding and decision criteria. Format includes negotiation exercises, lecture, and discussion. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301C, L301, 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

MGMT 464: *Teamwork and Interpersonal Skills.* 3 credits.
Focuses on intensive development of high professional-level skill set for collaboration and leadership in contemporary environments. Builds on content introduced in MGMT 301, 312. Attention to developing personal leadership capabilities, collaborating in traditional and virtual environments, improving group processes, project management, tolerating ambiguity, improving communication, creative problem solving, time management, coaching, and empowering employees. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301C, L301, 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 471:** *Competitive Strategy.* 3 credits.
Explores industry structures and competitive behavior of firms. Attention to how firm uses tangible, intangible, and human resources to develop sustainable competitive advantage, and how competitors interact in marketplace. Introduces tools and concepts to analyze industry dynamics and competitive interactions of firms in these industries. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301C, L301, 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MGMT 491:** *Current Topics in Management.* 3 credits.
Advanced study of management concepts and selected topics. Incorporates intensive analysis of management problems of long-term strategic significance or current urgency for organizational planning and operations. Includes significant contemporary research findings. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 312C, 313C, L312 or L313.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MGMT 492:** *Internship in Management.* 3 credits.
Opportunity to gain practical, professional experience in conjunction with academic development. Internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or MGMT 492) can be applied towards a student’s 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, FNAN 492, MIS 492, MKTG 492, OM 492.

**Registration Restrictions:**
**Required Prerequisites:** MGMT 301B or 303B.
Management of Information Systems (MIS)

300 Level Courses

MIS 302: Introduction to Programming for Business Applications. 3 credits. Covers design and implementation of program data structures and algorithms to solve business problems using structured programming techniques. Students become familiar with program development life cycle using standard programming language such as Visual BASIC.NET supported by a modern Integrated Development Environment (IDE). Students complete assignments involving development of real-life business application. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 303: Introduction to Business Information Systems. 3 credits. Introduces fundamentals of hardware, software, and networking. Emphasizes role of technology in improving contemporary business processes and competitive advantage. Includes basic relational concepts, hands-on experience in building business database applications and decision support using spreadsheet software. Notes: Students cannot receive credit for both MIS 301 and MIS 303. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MIS 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies. Offered by School of Business (p. 877). Limited to two attempts.

Required Prerequisites: (MIS 301C or L301) or MIS 303C or L303. Requires minimum grade of C.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 310: Database Management Systems. 3 credits. Introduces principles of designing and manipulating relational databases with a focus on business applications. Theoretical database concepts and hands-on experience with a relational package. Term project requiring implementation of a substantial business database application. Notes: School of Business students may not receive credit for both MIS 310 and IT 214. Requires hands-on implementation using software package. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 320: Networks and Security. 3 credits. Introduces students to fundamentals of networking technologies and their role in businesses. Emphasis is on understanding the business implications of different networking technologies and solutions. Students learn to identify and understand the business requirements, and bring together the different technological components to design the required communication solutions. Also focuses on the types of security threats to the business network infrastructure, and approach to tackling such threats through business practices combined with appropriate technological solutions. Notes: The course also includes lab work and exercises. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 330: Systems Analysis and Design. 3 credits.
Understanding systems analysis and design methods is a necessary
skill for contemporary business analysts, managers, software engineers
and system users. Provides students with the foundations for effectively
using modern systems analysis and design tools and methodologies for
developing modern software and applications. Topics include systems
planning and feasibility analysis, requirements analysis, economics,
systems design and project management. Notes: Requires team project.
Offered by School of Business (p. 877). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Registration Restrictions:
Required Prerequisite: (MIS 310C).
C Requires minimum grade of C.
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses
MIS 410: Advanced Database Systems. 3 credits.
Covers advanced database development and administration topics
including triggers, stored procedures, indexes, performance tuning, and
security. Students will use a state-of-the-art industrial strength database
management system as a tool to familiarize themselves with database
concepts. Students will conduct exercises on business reporting using
databases and front-end applications. Offered by School of Business
(p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: MIS 310C.
C Requires minimum grade of C.
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 415: Information Systems Audit and Control. 3 credits.
Covers IT governance, controls, auditing applications, systems
development, and operations. It examines trends and define recent
advances in technology that impact IT controls and audits - including
cloud computing, web-based applications, and server visualizations. It
covers IT strategy, business value of IT, as well as controls for IT projects,
outsourcing, contracts, cloud computing, etc. Offered by School of
Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MIS 301C, 303C.
C Requires minimum grade of C.
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 420: Information Security and Assurance. 3 credits.
Covers technical concepts, and managerial and policy topics in
information and cyber security. Lectures, reading, in-class presentations,
hands-on exercises, and examinations ensure that students have
sufficient technical awareness and managerial competence related to
information security and assurance. Examines the nature of threats and
vulnerabilities, cryptography, software vulnerabilities, managing risk, and
security controls. Offered by School of Business (p. 877). May not be
repeated for credit.

Registration Restrictions:
Required Prerequisite: MIS 320C.
C Requires minimum grade of C.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 430: Data Warehousing. 3 credits.
Deals with the challenges faced by businesses in managing large
amounts of data and making meaningful use of this data for informed
decision making. Introduces students to data warehousing fundamentals,
practices, and technologies; and their application to solving business
problems. Specific emphasis is on designing of data warehouse to
meet the business requirements and hands-on learning of the design
principles through implementation on commercially used data warehouse
technologies. Also introduces students to OLAP solutions and data
mining approaches to supporting business decision making. Notes: Term
project required. Offered by School of Business (p. 877). May not be
repeated for credit.

Registration Restrictions:
Required Prerequisites: MIS 310C or L310.
Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 431: Data Mining for Business Applications. 3 credits.
This course covers data mining methods and tools for business analytics to improve managerial decision making. The objective is to understand data mining methods and their suitability for decision making in a variety of business domains. The students will learn how to apply appropriate analytical tools to gain useful insights from real-life datasets. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MIS 301C, L301C, 303C or L303C) and (BUS 310C, OM 210C or 211T).
C Requires minimum grade of C.
Non-Degree level students may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 432: Advanced Data Mining. 3 credits.
This course covers business analytics using advanced data mining methods for developing predictive models. It includes feature selection to identify dimensions for constructing decision making models. More advanced techniques such as decision trees, neural networks, and other classification and prediction methods will be covered. Emphasis on applications will include hands-on experience using commercial data mining software and real business data. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: MIS 431C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Topic and format vary. In-depth study of a topic in the area of information technology management. Enrollment limited and competitive. Offered by School of Business (p. 877). May not be repeated for credit.

Recommended Prerequisite: Degree status in ISOM (or DMIS) major; permission of department.

Registration Restrictions:
Students with a class of Freshman, Junior or Sophomore may not enroll.

Non-Degree or Washington Consortium level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 491: Seminar in Management Information Systems. 3 credits.
Analyzes selected topics that highlight latest developments in information resource management field, including contemporary research findings and case studies of information systems in business and other organizations. Offered by School of Business (p. 877). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (MIS 301C or L301) or MIS 303C or L303.
C Requires minimum grade of C.
Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 492: Internship in Management Information Systems. 3 credits.
Opportunity to gain practical, professional experience in conjunction with academic development. Internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or MIS 492) can be applied towards a student’s 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, FNAN 492, MGMT 492, MKTG 492, OM 492.

Registration Restrictions:
Required Prerequisites: MIS 301C or 301B or 303B.
B Requires minimum grade of B.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MIS 499: Independent Study in Management Information Systems. 1-3 credits.
Research and analysis of selected problems or topics in information resource management. Offered by School of Business (p. 877). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (MIS 301C) or MIS L303C.
C Requires minimum grade of C.
Students with a class of Freshman may not enroll.
Management of Secure Information Systems (MSEC)

500 Level Courses

Provides an overview of the introductory topics in cyber security, which will be the basis for the other security-related in the MSIS. Topics include basic concepts on CIA (confidentiality, integrity, and availability), risk management, disaster recovery, access control, basic cryptography and software application vulnerabilities. Notes: 4 class sessions will be 3.5 hours long. 1 class session will be 2 hours and 20 minutes long (5 classes; 16 hours and 20 minutes total). Offered by Volgenau School of Engineering (p. 991). May not be repeated for credit.

Recommended Prerequisite: Admission to MSEC program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Provides the practices and methods currently used by information security professionals to manage and operate the secure IT infrastructures in the enterprise industry and in the US Federal Sector. It covers tools and knowledge required to design, execute, and/or evaluate the INFOSEC standards and procedures required of government and industry. The topic includes security operation center (SOC), network security, malware countermeasures, operational systems security, risk analysis and incident response practices. Notes: 4 class sessions will be 3.5 hours long. 1 class session will be 2 hours and 20 minutes long (5 classes; 16 hours and 20 minutes total). Offered by Volgenau School of Engineering (p. 991). May not be repeated for credit.

Recommended Prerequisite: MSEC 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MSEC 550: Networking Security. 2 credits.
Provides a comprehensive introduction to network security concepts and problems and the mechanisms and tools to secure networks. Focuses on the Internet; discusses the threats to and from the Internet and examines existing Internet security techniques and protocols and their limitations. Topics include secret key and public key cryptography, Hash algorithms, authentication, IPSEC/VPN, IPSEC key exchange, SSL/TLS, firewall, anonymous communication, and VoIP security. Offered by Volgenau School of Engineering (p. 991). May not be repeated for credit.

Recommended Prerequisite: MSEC 510 and 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MSEC 620: Networking Principles. 2 credits.
Introduction to the principles guiding the design and operation of modern communication networks; using the structure provided by layered service models, this course explores systematically the architecture and protocols of large, decentralized networks. Topics include medium access control in local area networks, switching, routing, and addressing, reliable and secure transport, flow and congestion control. Throughout, examples are drawn from the suite of Internet protocols. Offered by Volgenau School of Engineering (p. 991). May not be repeated for credit.

Recommended Prerequisite: Admission to MSEC program.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MSEC 630: Secure Information System Governance, Regulation, and Compliance. 2 credits.
Provides insight into secure information system governance, regulations, and compliance issues as well as commonalities and significant differences between departments and agencies within the Federal Executive Branch (FEB). The course is presented as formal lectures complemented by group discussion. Each topic is addressed as part of the larger Secure Information System structure. Notes: 4 class sessions will be 3.5 hours long.
This course is graded on the Graduate Regular scale. (p. 82)

**MSEC 650: Seminar: Enterprise Security Case Studies.** 1 credit. 
Provides an exposition of large enterprise security systems including operational requirements, threat model, security analysis, economic analysis, and defense posture options that expose the operational and economic trade-offs when architecting Enterprise security. Offered by Volgenau School of Engineering (p. 991). May not be repeated for credit. 

**Recommended Prerequisite:** MSEC 641.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus. 

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students. 

Students in a Non-Degree Undergraduate degree may **not** enroll. 

**Schedule Type:** Seminar 

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MSEC 696: Directed Studies Management of Secure Information Systems.** 1-3 credits. 
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by Volgenau School of Engineering (p. 991). May be repeated within the degree for a maximum 3 credits. 

**Recommended Prerequisite:** Admission to the MSIS program or permission of the program director. 

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus. 

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students. 

Students in a Non-Degree Undergraduate degree may **not** enroll. 

**Schedule Type:** Independent Study 

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MSEC 697: Special Topics in Management of Secure Information Systems.** 1-3 credits. 
Sections established as necessary to focus on various topical issues that emerge in practice of management of secure information systems. Offered by Volgenau School of Engineering (p. 991). May be repeated within the term for a maximum 6 credits. 

**Recommended Prerequisite:** Admission to the MSIS program or permission of the program director. 

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus. 

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students. 

**Schedule Type:** Independent Study 

**Grading:**
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Graduate Special scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

700 Level Courses

MSEC 710: Global Residency. 1-4 credits.
Students spend a week in an international residency. Emphasis is on how other nations deal with management of secure information system, the management of those systems, and related public policy issues. Corporate site visits are combined with presentations by professors from universities outside the United States and relevant practitioners. Students are required to write a paper summarizing their observations and attend pre-residency preparatory sessions. Offered by Volgenau School of Engineering (p. 991). May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: Admission to Executive MS in Management of Secure Information Systems.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading: This course is graded on the Graduate Regular scale. (p. 82)

MSEC 720: Capstone Project in Management of Secure Information Systems. 1-3 credits.
Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion. Offered by Volgenau School of Engineering (p. 991). May be repeated within the degree for a maximum 3 credits. Equivalent to TECM 737.

Recommended Prerequisite: Admission to Executive MS in Management of Secure Information Systems.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading: This course is graded on the Graduate Special scale. (p. 82)

Marketing (MKTG)

300 Level Courses

MKTG 303: Principles of Marketing. 3 credits.
Examines marketing principles and practices for analyzing, creating, delivering, capturing, and communicating value to customers. Focuses on managing customer relationships using market-driven strategies, particularly segmentation, targeting, and positioning. The role of customer satisfaction in achieving organizational objectives and ethical decision making in a global economy are also emphasized. Notes: Students cannot receive credit for both MKTG 301 and MKTG 303. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in MKTG 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the “Termination from the Major” section under Academic Policies. Offered by School of Business (p. 877). Limited to two attempts.

Registration Restrictions:
Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 311: Sales Management. 3 credits.
Familiarizes students with marketing-sales interfaces including sales force role and capabilities, personal selling strategies, organizational relationships, and responsibilities of sales managers including training, motivating, and evaluating sales force. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MKTG 301 or L301) or MKTG 303 or L303.
\( C \) Requires minimum grade of C.

Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 312: Consumer Behavior. 3 credits.
Marketing strategy implications of internal and external influences on consumer decision making, purchase, and consumption behaviors. Emphasizes demographics, lifestyle, situation, perception, learning, and attitude formation and change, focusing on customer segmentation, satisfaction and loyalty. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MKTG 301 or L301) or MKTG 303 or L303.
\( C \) Requires minimum grade of C.

Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 313: Advertising and Marketing Communications. 3 credits.
Examines development of integrated communications programs, including advertising, sales promotion, public relations, direct marketing, and other communication tools. Focuses on setting communications objectives and budgets, media planning, creative strategy, execution, and evaluation. Provides skills for analyzing the strengths, weaknesses and synergies of marketing communication tools. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MKTG 301C or L301) or MKTG 303C or L303. 
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 333: Business to Business Marketing. 3 credits.
Examines unique challenges and opportunities of marketing systems among suppliers, manufacturers, resellers, and government. Focuses on developing a capability to identify and nurture long-term B2B relationships. Provides tools and techniques commonly leveraged by B2B marketers to develop these relationships with their clients. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MKTG 301C or L301) or MKTG 303C or L303. 
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 315: Digital Marketing. 3 credits.
Explores impact of Digital and Internet technology on marketing strategy and practice. Topics include online advertising campaigns (focusing on search marketing), web site usability and content, and the use of social and interactive media to build customer relationships and foster brand loyalty. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MKTG 301C or L301) or MKTG 303C or L303. 
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 351: Marketing Research. 3 credits.
Presents the concepts and techniques underlying the marketing research process and their role in managerial decision making. Focuses on skills required to conduct a marketing research project: qualitative and quantitative research designs, survey methodology, instrument creation, sampling procedures, data collection, data analysis, and reporting of findings. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MKTG 301C or L301) or MKTG 303C or L303. 
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 332: Retailing and E-Commerce Management. 3 credits.
Examination of retailing as a specialized economic and social institution within the distribution process and as it relates to overall marketing activities. The planning and implementing of store and nonstore (catalog, Internet) retail marketing strategies are addressed. Critical decision alternatives, variables, forces, and processes are considered from a managerial perspective Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MKTG 301C or L301) or MKTG 303C or L303. 
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.
Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 352: Marketing Analytics for New Product Development. 3 credits.
In today's technology-enabled world, organizations collect lot of information as a part of their business operations and pool it with data acquired from outside sources. Marketing analytics is a systematic approach to harnessing this data/information to drive effective marketing decision making. Students will learn to analyze historical data, market research data, and competitive information for making strategic marketing decisions. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MKTG 301C or L301) or (MKTG 303C or L303).
Registration Restrictions:

School of Business approaches cultural and ethnic groups use as consumers. Offered by markets if the marketer understands and capitalizes on the different mix. Segmentation can be powerful when considering non-mainstream indicates a need for specialized approaches for the entire marketing and opportunities that have arisen with the changing U.S. demographics. Ethnic and Multicultural Marketing examines the critical marketing issues

MKTG 455: This course is graded on the Undergraduate Regular scale.
Grading:
Schedule Type: Lecture

Students with the terminated from BU major attribute may not enroll.

Non-Degree level students may not enroll.

Registration Restrictions:

Required Prerequisites: (MKTG 301C or L301) or (MBUS 303C or L303) or (MKTG 303C or L303). C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 455: New Product Development. 3 credits.
This course focuses on all aspects of the new product and new service development process, from insight and inspiration through design and product launch. The course also explores current topics and best practices in innovation management, such as open innovation, managing creativity in organizations, and product design, and rapid prototyping. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:

Required Prerequisites: (MKTG 301C or L301) or (MBUS 303C or L303) or (MKTG 303C or L303). C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

MKTG 407: Global Marketing. 3 credits.
Multidisciplinary approach to global and international marketing from viewpoint of business management. Examines major marketing issues affecting companies operating in a global environment. Students achieve understanding of economic, political, and cultural differences among nations as they affect marketing opportunities and operations, and develop skills to identify and evaluate global and international marketing opportunities. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:

Required Prerequisites: (MKTG 301C or L301) or (MKTG 303C or L303). C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 407: Global Marketing. 3 credits.
Multidisciplinary approach to global and international marketing from viewpoint of business management. Examines major marketing issues affecting companies operating in a global environment. Students achieve understanding of economic, political, and cultural differences among nations as they affect marketing opportunities and operations, and develop skills to identify and evaluate global and international marketing opportunities. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:

Required Prerequisites: (MKTG 301C or L301) or (MKTG 303C or L303). C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 471: Marketing Management. 3 credits.
Emphasizes managerial aspects of marketing, including developing marketing strategies and plans, and integrating specific elements of marketing process. Emphasizes case analysis. Offered by School of Business (p. 877). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Degree status in MKTG major; senior standing; permission of department.

Registration Restrictions:

Required Prerequisites: (MKTG 301B or L301) or (MKTG 303B or L303). B Requires minimum grade of B.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Marketing.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MKTG 471: Marketing Management. 3 credits.
Emphasizes managerial aspects of marketing, including developing marketing strategies and plans, and integrating specific elements of marketing process. Emphasizes case analysis. Offered by School of Business (p. 877). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Degree status in MKTG major; senior standing; permission of department.

Registration Restrictions:

Required Prerequisites: (MKTG 312C or L312) and (MKTG 351C or L351). C Requires minimum grade of C.

Enrollment limited to students with a class of Senior Plus or Senior.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MKTG 481: RS: Marketing in the Nonprofit Sector. 3 credits.
Examines the unique challenges of applying marketing principles and practices to not-for-profit groups such as human service and philanthropic organizations, museums, health and wellness advocates, educational institutions, industry associations and government.
Emphasis on case studies, team work, and projects. Offered by School of Business (p. 877). May not be repeated for credit.

**Specialized Designation:** Research/Scholarship Intensive

**Registration Restrictions:**

**Required Prerequisites:** (MKTG 301C or L301) or MKTG 303C or L303. C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Enrollment is limited to students with a major in Marketing.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**MKTG 491:** Seminar in Marketing. 3 credits.

In-depth treatment in seminar format of contemporary topics in marketing. Culminates in preparation of substantial paper and oral presentation. Offered by School of Business (p. 877). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**

**Required Prerequisites:** (MKTG 301C or L301) or MKTG 303C or L303. C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Seminar

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**MKTG 492:** Internship in Marketing. 3 credits.

Opportunity to gain practical, professional experience in conjunction with academic development. Internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or MKTG 492) can be applied towards a student’s 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, FNAN 492, MGMT 492, MIS 492, OM 492.

**Registration Restrictions:**

**Required Prerequisites:** MKTG 301C or 303C. C Requires minimum grade of C.

**Schedule Type:** Internship

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in English

**MKTG 499:** Independent Study. 1-3 credits.

Primary research proposal in marketing area. Requires prior approval from instructor and associate dean for undergraduate programs. Offered by School of Business (p. 877). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** 90 hours and a minimum of 24 hours of business courses including principles of marketing, finance, and management.

**Registration Restrictions:**

**Required Prerequisites:** (MKTG 301C or L301) or (MKTG 303C or L303). C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree or Washington Consortium level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

**Schedule Type:** Independent Study

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**Mathematics (MATH)**

100 Level Courses

**MATH 104: Trigonometry and Transcendental Functions.** 2 credits.

Exponential and logarithmic functions, trigonometric functions, and analytic trigonometry. This course does not satisfy the university's quantitative reasoning requirement. May not be taken for credit after receiving a C or higher in any MATH course numbered 113 or higher. May not take MATH 105 for credit after receiving a C or better in MATH 104. Notes: May not be used as credit toward BA or BS in mathematical sciences. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisite:** minimum score of 07 in 'Math Placement Algebra II'.

**Schedule Type:** Lecture

**Grading:**

This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 105: Precalculus Mathematics.** 4 credits.

Reviews mathematics skills essential to studying calculus. Topics include equations, inequalities, absolute values, graphs, functions, exponential and logarithmic functions, and trigonometry. Notes: Call Mathematical Sciences Department at 703-993-1460 for details. May not be used as credit toward BA or BS in mathematical sciences. This course does not satisfy the university's quantitative reasoning requirement for the BA degree. May not be taken for credit after receiving grade of C or better in any MATH course numbered 113 or higher. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisite:** minimum score of 13 in 'Math Placement Algebra I'.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 106: Quantitative Reasoning**. 3 credits.
Quantitative skills for real world. Topics include critical thinking, modeling by functions, graphs, growth, scaling, probability, and statistics. Offered by Mathematics (p. 733). May not be repeated for credit.

**Mason Core**: Quantitative Reasoning (p. 137)

**Schedule Type**: Lecture

**Grading**: This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 108: Introductory Calculus with Business Applications**. 3 credits.
Functions, limits, derivative, and integral. Applications of differentiation and integration. Notes: Call Mathematical Sciences Department at 703-993-1460 for details. Students who have received credit for MATH 113 or 114 may not receive credit for this course. Offered by Mathematics (p. 733). May not be repeated for credit.

**Mason Core**: Quantitative Reasoning (p. 137)

**Registration Restrictions**: Required Prerequisite: minimum score of 13 in 'Math Placement Algebra I'.

**Schedule Type**: Lecture

**Grading**: This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 110: Introductory Probability**. 3 credits.
Elementary set theory, probability, and statistics. Offered by Mathematics (p. 733). May not be repeated for credit.

**Mason Core**: Quantitative Reasoning (p. 137)

**Schedule Type**: Lecture

**Grading**: This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 111: Linear Mathematical Modeling**. 3 credits.
Matrix algebra, systems of linear equations, Markov chains, difference equations, and data fitting. Offered by Mathematics (p. 733). May not be repeated for credit.

**Mason Core**: Quantitative Reasoning (p. 137)

**Schedule Type**: Lecture

**Grading**: This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 112: Discrete Mathematics for IT**. 3 credits.
Introduces ideas of discrete mathematics including mathematical induction, sets, logic, graphs, trees, basic counting arguments, and discrete probability. Students who have received credit for MATH 125 may not receive credit for this course. Notes: Intended for IT students; does not count toward a major or minor in mathematics. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions**: Required Prerequisites: minimum score of 13 in 'Math Placement Algebra I', MATH 105C, 108C or 113C.

C Requires minimum grade of C.

**Schedule Type**: Lecture

**Grading**: This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 113: Analytic Geometry and Calculus I**. 4 credits.
Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 115, MATH 123, MATH 124.

**Mason Core**: Quantitative Reasoning (p. 137)

**Registration Restrictions**: Required Prerequisites: (minimum score of 07 in 'Math Placement Transcendentals', MATH 105C or 104C).

C Requires minimum grade of C.

**Schedule Type**: Lecture, Recitation

**Grading**: This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 114: Analytic Geometry and Calculus II**. 4 credits.
Methods of integration, conic sections, parametric equations, infinite series, and power series. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 116.

**Registration Restrictions**: Required Prerequisites: (MATH 113C or U113) or (MATH 123C and 124C).

C Requires minimum grade of C.

**Schedule Type**: Lecture, Recitation

**Grading**: This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 115: Analytic Geometry and Calculus I (Honors)**. 4 credits.
More challenging version of MATH 113. Functions, limits, the derivative, maximum and minimum problems, the integral, and transcendental functions. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 113.

**Mason Core**: Quantitative Reasoning (p. 137)

**Recommended Prerequisite**: Permission of instructor.

**Registration Restrictions**: Required Prerequisite: (minimum score of 65 in 'Math Placement Transcendentals').

**Schedule Type**: Lecture, Recitation

**Grading**: This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 116: Analytic Geometry and Calculus II (Honors)**. 4 credits.
More challenging version of MATH 114. Methods of integration, conic sections, parametric equations, infinite series, and power series. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 114.

**Registration Restrictions**: Required Prerequisites: (MATH 115C, U115 or 113C).

C Requires minimum grade of C.
Mathematics (MATH)

A Requires minimum grade of A.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 123: Calculus with Algebra/Trigonometry, Part A. 3 credits.
Math 123, with 124, is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in Math 113. Math 123 integrates the beginnings of calculus through the derivative with relevant precalculus algebra and trigonometry. Notes: Students who successfully complete Math 123-124 are considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 113.

Registration Restrictions:
Required Prerequisites: (minimum score of 13 in ‘Math Placement Algebra I’ and minimum score of 07 in ‘Math Placement Algebra II’) or MATH 105C or 104C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 124: Calculus with Algebra/Trigonometry, Part B. 3 credits.
Math 123, with 124, is a two semester sequence for students with limited math background who desire careers in the sciences. In two semesters, students progress from algebra through the basic calculus covered in Math 113. Math 124 will review basic differentiation and applications and then proceed to cover integration including transcendental functions. Notes: Students who successfully complete Math 123-124 are considered the same as having successfully completed MATH 113 and can sign up for Math 114, Calculus II. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 113.

Mason Core: Quantitative Reasoning (p. 137)

Registration Restrictions:
Required Prerequisite: MATH 123C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 125: Discrete Mathematics I. 3 credits.
Introduces ideas of discrete mathematics and combinatorial proof techniques including mathematical induction, sets, graphs, trees, recursion, and enumeration. Offered by Mathematics (p. 733). May not be repeated for credit.

Mason Core: Quantitative Reasoning (p. 137)

Registration Restrictions:
Required Prerequisites: minimum score of 13 in ‘Math Placement Algebra I’, MATH 106C, 108C or 113C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

MATH 203: Linear Algebra. 3 credits.
Systems of linear equations, linear independence, linear transformations, inverse of a matrix, determinants, vector spaces, eigenvalues, eigenvectors, and orthogonalization. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 114C, 114T or 116C).
C Requires minimum grade of C.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 213: Analytic Geometry and Calculus III. 3 credits.
Partial differentiation, multiple integrals, line and surface integrals, and three-dimensional analytic geometry. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 215.

Registration Restrictions:
Required Prerequisites: (MATH 114C, 114T or 116C).
C Requires minimum grade of C.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 214: Elementary Differential Equations. 3 credits.
First-order ODEs, higher-order ODEs, Laplace transforms, linear systems, nonlinear systems, numerical approximations, and modeling. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 216.

Registration Restrictions:
Required Prerequisites: (MATH 213C, 213T or 215C).
C Requires minimum grade of C.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 215: Analytic Geometry and Calculus III (Honors). 3 credits.
Vectors and vectorvalued functions, partial differentiation, multiple integrals, line integrals, surface integrals, and transformation of coordinates. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 213.

Registration Restrictions:
Required Prerequisites: (MATH 114C or 116C).
C Requires minimum grade of C.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 216: Theory of Differential Equations. 3 credits.
First- and second-order equations, existence uniqueness of solutions, systems of differential equations, and phase plane analysis. Offered
by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 214.

**Registration Restrictions:**
**Required Prerequisites:** (MATH 203\(^C\) or U203) and (MATH 213\(^C\), U213, 215\(^C\) or U215). \(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 271:** Mathematics for the Elementary School Teachers I. 3 credits.
Concepts and theories underlying elementary school mathematics including problem solving, patterns, sequences, set theory, numeration, number sense, operations and properties of integers, whole, rational, irrational and real numbers, number theory, ratio, proportion, percent and mathematical systems. Notes: Does not count toward major in mathematics. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** Grade of C or better in 3 credits of college math.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 272:** Mathematics for the Elementary School Teachers II. 3 credits.
Continuation of MATH 271. Concepts and theories underlying elementary school mathematics including functions, algebra, geometry, statistics, and probability. Notes: Intended for school educators; does not count toward major in mathematics. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (MATH 271\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 290:** Introduction to Advanced Mathematics. 3 credits.
Introduction to proofs and the language of mathematics. Topics include induction, equivalence relations, cardinality and basic properties of the real numbers. Designated as a writing intensive course for mathematics majors. Notes: Primarily intended for mathematics majors. Offered by Mathematics (p. 733). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry, Writing Intensive in the Major

**Registration Restrictions:**
**Required Prerequisites:** (MATH 114\(^C\), 114T or 116\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**300 Level Courses**

**MATH 301:** Number Theory. 3 credits.
Prime numbers, factorization, congruences, and Diophantine equations. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 6 hours of MATH.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 302:** Foundations of Geometry. 3 credits.
Fundamental concepts of incidence. Axioms of Euclidean geometry and the resulting theory, and axioms and development of non-Euclidean and projective geometry. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 6 hours of MATH.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 307:** Mathematical Modeling. 3 credits.
Focuses on the development and analysis of mathematical models that make qualitative and quantitative predictions. Students will address particular situations while learning general modeling strategies. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (MATH 203\(^C\)) and (MATH 214\(^C\) or 216\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 312:** Geometry. 3 credits.
Two and three dimensional analytic geometry, complex geometry, projective geometry, conics and quadric surfaces, spherical geometry, quaternions, Euclidean and non-Euclidean geometry. This course meets the requirement for secondary school teacher certification. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (MATH 114\(^C\) or 116\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MATH 313:** Introduction to Applied Analysis. 3 credits.
Vector differential calculus, vector integral calculus, and complex analysis. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (MATH 213\(^C\), 213T or 215\(^C\)).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 314: Introduction to Applied Mathematics. 3 credits.

Registration Restrictions:
Required Prerequisites: (MATH 214C, U214, 216C or U216).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 315: Advanced Calculus I. 3 credits.
Number system, functions, sequences, limits, continuity, differentiation, integration, transcendental functions, and infinite series. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 213C or 215C) and MATH 290C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 316: Advanced Calculus II. 3 credits.
Sequences of functions, Taylor series, vectors, functions of several variables, implicit functions, multiple integrals, and surface integrals. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 315C or L315).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 321: Abstract Algebra. 3 credits.
Theory of groups, rings, fields. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 213C or 215C) and (MATH 290C).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 322: Advanced Linear Algebra. 3 credits.
Abstract vector spaces, linear independence, bases, linear transformations, matrix algebra, inner product, and special topics. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 203C or U203) and (MATH 290C or U290).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 325: Discrete Mathematics II. 3 credits.
Advanced counting, binomial identities, generating functions, advanced recurrence, inclusion-exclusion, and network flows. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 125C or 125T).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 351: Probability. 3 credits.
Random variables, probability functions, special distributions, and limit theorems. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 213C, 215C or 215T).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 352: Statistics. 3 credits.
Estimation, decision theory, testing hypothesis, correlation, linear models, and design. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 351C or L351).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

MATH 400: History of Math (Topic Varies). 3 credits.
Explores internal controversies and dynamics of mathematics in larger intellectual and social settings. Topics vary but might include differential equations devised for mechanics and astronomy by Euler, Lagrange, and Laplace; foundation of mathematical analysis from Cauchy to Weierstrass; algebras of Galois and Boole; or creation of non-Euclidean geometry and Cantor's transfinite sets. Notes: Credits may not be used toward "upper division" math hours required of math majors. Offered by Mathematics (p. 733). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Registration Restrictions:
Required Prerequisites: (MATH 290C or 290T).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MATH 401: Mathematics through 3D Printing. 3 credits.
Incorporates new mathematics from a large variety of fields into the design and creation of 3D printed models, as well as the written and oral communication of these mathematical ideas. Topics vary but might include regular and quasiregular tilings, Platonic and Archimedean solids and their duality, orientable and non-orientable surfaces, fractals, chaotic attractors, Riemann surfaces, and data visualization. Offered by Mathematics (p. 733). May not be repeated for credit.

Mason Core: Capstone (p. 137)

Recommended Prerequisite: MATH 290 and at least 3 credits of Mathematics above MATH 300.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 405: Honors Thesis in Mathematics I. 3 credits.
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. An oral presentation is required for MATH 405. Offered by Mathematics (p. 733). May not be repeated for credit.

Specialized Designation: Research Associated

Recommended Prerequisite: MATH 315, three additional credits of MATH above the 300 level (excluding MATH 400) and admission to the Honors Program in Mathematics.

Schedule Type: Independent Study
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 406: RS: Honors Thesis in Mathematics II. 3 credits.
A project, which is intended to result in a thesis, is to be chosen and completed under the guidance of a full-time faculty member. Oral and written presentations are required in MATH 406. Offered by Mathematics (p. 733). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive

Registration Restrictions:
Required Prerequisite: (MATH 405\(^C\)).
\(^C\) Requires minimum grade of C.

Schedule Type: Independent Study
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 413: Modern Applied Mathematics I. 3 credits.

Registration Restrictions:
Required Prerequisites: (MATH 203\(^C\) or 203T) and (MATH 214\(^C\) or 214T) or (MATH 216\(^C\) or 216T).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 414: Modern Applied Mathematics II. 3 credits.
Continuation of MATH 413, which involves synthesis of pure mathematics and computational mathematics. Fourier analysis and its role in applied mathematics developed (differential equations and approximations). Discrete aspects emphasized in computational models. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: (MATH 413\(^C\)).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 411: Functions of a Complex Variable. 3 credits.
Analytic functions, contour integration, residues, and applications to such topics as integral transforms, generalized functions, and boundary value problems. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 214\(^C\) or 214T) or (MATH 216\(^C\) or 216T).
Required Prerequisites: 

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 442: Stochastic Operations Research. 3 credits.

Registration Restrictions:
Required Prerequisite: (MATH 351 )
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 446: Numerical Analysis I. 3 credits.
Significant figures, round-off errors, iterative methods of solution of nonlinear equations of a single variable, solutions of linear systems, iterative techniques in matrix algebra, interpolation and polynomial approximation. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to OR 481.

Registration Restrictions:
Required Prerequisites: (MATH 203 or 203T) and (CS 112 or 112T).
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 447: Numerical Analysis II. 3 credits.

Registration Restrictions:
Required Prerequisites: (MATH 214 or 214T) and (MATH 446 ).
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 453: Advanced Mathematical Statistics. 3 credits.
Topics from statistics relevant to the field of actuarial science, such as: forecasting and time series, maximum likelihood tests, sufficiency, most powerful tests, distributions of quadratic forms, topics from nonparametric statistics, Bayesian statistics, and linear models. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MATH 352 or STAT 356 .
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 478: Introduction to Partial Differential Equations with Numerical Methods. 3 credits.
Introduces basic facts about partial differential equations, including elliptic equations, parabolic equations and hyperbolic equations. Methods of solution, characteristics, initial/boundary-value problems, and numerical approximation techniques. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 203 or 203T) and (MATH 214 or 214T) or (MATH 216 or 216T).
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 491: Topics in Applicable Mathematics. 3 credits.
Topics that have been successfully used in applications of mathematics. Notes: Must be arranged with instructor before registering. Offered by Mathematics (p. 733). May be repeated within the term.
Recommended Corequisite: For mathematical science majors only.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 493: Topics in Pure Mathematics. 3 credits.
Topics that have been successfully used in applications of mathematics. Notes: Subject determined by instructor. Offered by Mathematics (p. 733). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: 6 credits of MATH at or above the 310 level.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 494: Reading and Problems. 1-3 credits.
For mathematical sciences majors only. Independent study in math. Notes: Subject determined by instructor. Offered by Mathematics (p. 733). May be repeated within the term.

Schedule Type: Reading and Problems

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MATH 498: Introduction to Partial Differential Equations with Numerical Methods. 3 credits.
Introduces basic facts about partial differential equations, including elliptic equations, parabolic equations and hyperbolic equations. Methods of solution, characteristics, initial/boundary-value problems, and numerical approximation techniques. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (MATH 203 or 203T) and (MATH 214 or 214T) or (MATH 216 or 216T).
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MATH 500: Advanced Topics in Mathematics. 1-3 credits.
For graduate level instruction. Title varies by section and/or semester.

Schedule Type: Reading and Problems

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester
MATH 495: Undergraduate Seminar. 1 credit.
Offered by Mathematics (p. 733). May be repeated within the degree for a maximum 3 credits.

Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

MATH 551: Regression and Time Series. 3 credits.
Mathematics of regression, exponential smoothing, time series, and forecasting. Material included in this course constitutes Society of Actuaries Validation by Educational Experience (VEE) for applied statistics and corresponds to part of Casualty Actuary Society Exam 3. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 352, STAT 652, SOA exam P, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 553: Advanced Mathematical Statistics in Actuarial Sciences. 3 credits.
Topics from statistics relevant to the field of actuarial science, such as: forecasting and time series, maximum likelihood tests, sufficiency, most powerful tests, distributions of quadratic forms, topics from nonparametric statistics, Bayesian statistics, and linear models. Offered by Mathematics (p. 733). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: MATH 352C, STAT 356C or MATH 554C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 554: Financial Mathematics. 3 credits.
Simple and compound interest, annuities, present and future value, yield rates, capital budgeting, amortization schedules, mortgages, bonds. Material corresponds to the Society of Actuaries Exam: Financial Mathematics (FM). Not appropriate for graduate science and engineering majors not considering actuarial or financial career. Cannot be counted toward MS or PhD degree in mathematics. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 113.

Recommended Corequisite: MATH 114.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 555: Actuarial Modeling I. 3 credits.
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuary Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 554 and either MATH 351 or STAT 344.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 556: Actuarial Modeling II. 3 credits.
Two-semester sequence covering portions of the material corresponding to the Society of Actuaries Exam M, Casualty Actuary Society Exam 3, and Joint Board Exam EA1. The remaining material for these exams is covered in MATH 551 and 653. Topics include survival distribution and life tables, life insurance, life annuities, net premiums, net premium reserves, multiple life and multiple decrement models, pensions, insurance models including expense, and nonforfeiture benefits and cash values. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 554 and either MATH 351 or STAT 344.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 557: Financial Derivatives.** 3 credits.

**Recommended Prerequisite:** MATH 554 and either MATH 351 or STAT 344, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**600 Level Courses**

**MATH 600: Special Topics in Mathematics.** 1-6 credits.
Mathematical workshops, special courses, or other projects. Offered by Mathematics (p. 733). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MATH 601: Analysis I for Teachers.** 3 credits.
Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple. Notes: Background in mathematics desirable but not necessary. Some topics from college algebra will be reviewed in class, but thorough understanding of high school algebra and trigonometry expected. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Corequisite:** Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 602: Analysis II for Teachers.** 3 credits.
Develops continuous ideas of calculus with particular emphasis on concepts as opposed to computational aspects of calculus. Specific topics include decimal representation of real numbers, sequences, series, and limits; differentiation to find speed, slopes of curves, and tangents; integration to find volumes and distances and area under curves. Optimization problems including maximization of area and volume, and modeling of these concepts. Graphing techniques supported by theory of calculus and graphing utilities such as TI-83 calculator or computer software such as Maple. Notes: Background in mathematics desirable but not necessary. Some topics from college algebra will be reviewed in class, but thorough understanding of high school algebra and trigonometry expected. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Corequisite:** Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 604: Geometry for Teachers.** 3 credits.
Covers standard topics from Euclidean geometry, and includes discussion of non-Euclidean geometries. Emphasizes informal and explorative approach to geometry, and makes use of geometry sketchpad. Other topics include geometric constructions, and role of proof in geometry. Notes: Background in mathematics desirable but not necessary. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Corequisite:** Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 605: Discrete/Finite Mathematics for Teachers. 3 credits.
Thorough understanding of high school algebra assumed. Discusses finite mathematics in juxtaposition to continuous ideas of calculus. Topics may consist of elementary counting and combinatorics including recursion and difference equations and their analogy to calculus; thorough discussion of probability and central measures of statistics; and graph theory and its connection to geometry. Notes: Background in mathematics desirable but not necessary. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 607: Algebraic Structure for Teachers. 3 credits.
Expands on customary operations on integers and rationals to discuss systems that mimic these operations. Emphasizes multiplicative and additive inverses and their corresponding identities as they occur in other systems. Topics might include permutation groups, rigid transformations, groups of symmetry of the plane and connection to geometry, and matrices treated as linear transformations and connections to solutions of systems of equations. Notes: Background in mathematics desirable but not necessary. Thorough understanding of high school algebra assumed. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 608: Problem Solving in Mathematics. 3 credits.
Introduces variety of challenging mathematical problems appropriate for middle school student to analyze, and solving problems using mathematics learned in previous courses. Also asks students to search for such problems and orally present solutions. Notes: Background in mathematics or science desirable but not necessary. Assumes exposure to most of topics covered in MATH 601, 604, 605, and 607. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 610: Number Systems and Number Theory for K-8 Teachers. 3 credits.
This course covers the topics: ways of representing numbers, relationships between numbers, number systems, the meanings of operations and how they relate to one another, and computation within the number system as a foundation for algebra. It also includes episodes in history and development of the number system, and will examine the developmental sequence and learning trajectory as children learn this material. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 611: Geometry and Measurement for K-8 Teachers. 3 credits.
The course explores the foundations of informal measurement and geometry ‘in one, two, and three dimensions. The van Hiele model for geometric learning is used as a framework for how children build their understanding of length, area, volume, angles, and geometric relationships. Visualization, spatial reasoning, and geometric modeling are stressed. As appropriate, transformational geometry, congruence, similarity, and geometric constructions will be discussed. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Corequisite: Open only to inservice math teachers at the middle or secondary level, or by Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 612: Probability and Statistics for K-8 Teachers.** 3 credits.
An introduction to probability, descriptive statistics, and data analysis. Topics studied will include the exploration of randomness, data representation, modeling. Descriptive statistics will include measures of central tendency, dispersion, distributions, and regression. The analysis of experiments requiring hypothesizing, experimental design and data gathering will also be discussed. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 613: Algebra and Functions for K-8 Teachers.** 3 credits.
The course will examine representing and analyzing mathematical situations and structures using generalization and algebraic symbols and reasoning. Attention will be given to the transition from arithmetic to algebra, working with quantitative change, and the description of and prediction of change. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 614: Rational Numbers and Proportional Reasoning for K-8 Teachers.** 3 credits.
This course will cover the basic number strands in fractions and rational numbers, decimals and percents, and ratios and proportions in the school curriculum. Instruction will cover interpretations, computations, and estimation with a coordinated program of activities that develop both rational number concepts and skills and proportional reasoning. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 619: Topics in Mathematical Logic.** 3 credits.
Special topics in foundations of mathematics not included in regular mathematics curriculum. May be repeated for credit. Offered by Mathematics (p. 733). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MATH 621: Algebra I.** 3 credits.
Groups, linear algebra, and matrix groups. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** Familiarity with basic properties of groups and rings or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 624: Euclidean Geometry.** 3 credits.
Euclidean space, geometry of k-dimensional planes, the affine structure of Euclidean space, rigid motions and similarities, parallelopipeds and volumes, convex polytopes, quadric surfaces, and additional topics by instructor’s choice. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 315 and MATH 322, or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 625:** *Numerical Linear Algebra.* 3 credits.
Theory and development of numerical algorithms for solving variety of matrix problems: linear systems, least squares problems, eigenvalue problems, and singular value decomposition. Direct and iterative method, analysis of sensitivity to rounding errors, and applications. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to CSI 740.

**Recommended Prerequisite:** Computer literacy, including some programming experience.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 629:** *Topics in Algebra.* 3 credits.
Special topics in pure and applied algebra not covered in regular algebra. May be repeated for credit when topic varies. Offered by Mathematics (p. 733). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MATH 631:** *Topology I: Topology of Metric Spaces.* 3 credits.
Covers definition and basic examples of metric spaces, open and closed sets, subspaces and finite products, sequences and convergence, compactness and separability, continuous functions, uniform continuity, metric space C(X) and uniform convergence, and homotopy. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 315 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 639:** *Topics in Geometry and Topology.* 3 credits.
Special topics in geometry and topology not covered in regular geometry and topology sequence. May be repeated for credit when topic varies. Offered by Mathematics (p. 733). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MATH 641:** *Combinatorics and Graph Theory.* 3 credits.
Covers enumerative combinatorics, including partially ordered sets; Moebius inversion and generating functions; and major topics in graph theory such as graph coloring, Ramsey theory, and matching. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 321 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 644:** *Convex and Discrete Geometry.* 3 credits.
Basic properties of Euclidean space, convex sets and convex cones, convex hulls, extremal structure of convex sets, support and separation properties, polyhedra and polytopes, special classes of convex sets, Helly-type theorems, selected problems of discrete geometry. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 315 and MATH 322, or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 649: Topics in Combinatorics. 3 credits.
Special topics in combinatorics not covered in regular combinatorics sequence. May be repeated for credit. Offered by Mathematics (p. 733). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MATH 653: Construction and Evaluation of Actuarial Models I. 3 credits.
Economics of insurance, individual risk models for short term, collective risk models for single period, collective risk models over an extended period, and applications of risk theory. Material included in this course corresponds to portions of the Society of Actuaries Exam M and Casualty Actuary Society Exam 3. The remaining material for these exams is covered in MATH 551, 555, and 556. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 351 or STAT 644 required. MATH 555 recommended but not required.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 654: Construction and Evaluation of Actuarial Models II. 3 credits.
Nature and properties of survival and loss models, methods of estimates from complete and incomplete data, tabular and parametric models, and practical issues in survival model estimation. Material included in this course corresponds to most of the Society of Actuaries Exam C and Casualty Actuary Society Exam 4. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 556 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 655: Pension Valuation. 3 credits.
Basic mathematics used in pension actuarial work without regard to pension law. Material included in this course corresponds to all of the Joint Board Exam EA-2A and portions of the Society of Actuaries Exam 8. This course cannot be counted toward the MS or PhD degree in mathematics. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 556, SOA Exam EA-1, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 661: Complex Analysis I. 3 credits.
Topology of complex numbers, holomorphic functions, series, complex integration. Meromorphic, multivalued, and elliptic functions. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 351 or STAT 644 required. MATH 555 recommended but not required.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 671: Fourier Analysis. 3 credits.
Study of fundamental ideas in Fourier analysis. Topics include orthonormal systems, Fourier series, continuous and discrete Fourier transform theory, generalized functions, and introduction to spectral
analysis. Uses applications to physical sciences, linear systems theory, and signal processing to integrate topics. Offered by Mathematics (p. 733). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 673: Dynamical Systems.** 3 credits.
Contemporary topics in nonlinear dynamical systems illustrated in mathematical models from physics, ecology, and population dynamics. Traditional qualitative analysis of difference and differential equations provides background for understanding chaotic behavior when it occurs in these models. Topics include stability theory, fractals, Lyapunov exponents, and chaotic attractors. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to MATH 661.

**Recommended Prerequisite:** Elementary courses in linear algebra and differential equations.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 674: Stochastic Differential Equations.** 3 credits.
Introduces stochastic calculus and differential equations. Includes Wiener process, Ito and Stratonovich integrals, Ito formula, martingales, diffusions, and applications, including financial applications. Simulations and numerical approximations of solutions. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 214 and 351.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 675: Linear Analysis.** 3 credits.
Metric spaces, normed linear spaces, completeness, compactness, continuous (bounded) linear transformations, Banach spaces, Hilbert spaces, and orthogonal series. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 315 and MATH 322, or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 677: Ordinary Differential Equations.** 3 credits.
Qualitative and quantitative theory of ordinary differential equations. Phase portrait analysis of linear and nonlinear systems, including classification of stable and unstable equilibrium states and periodic orbits. Poincare-Bendixson theorem, Lyapunov stability and Lyapunov functions, and bifurcation theory. Optional topics include averaging and perturbation methods, numerical solution techniques, and chaos. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 214 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 678: Partial Differential Equations.** 3 credits.
Physical examples, characteristics, boundary value problems, integral transforms, and other topics, such as variational, perturbation, and asymptotic methods. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** Elementary differential equations course.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

MATH 679: Modern Optimization Theory. 3 credits.
Introduces basic mathematical ideas and methods for solving linear and nonlinear programming problems, with emphasis on mathematical aspects of optimization theory. Reviews classical topics of linear programming, and covers recent developments in linear programming, including interior point method. Considers basic results in nonlinear programming, and covers recent developments in linear programming, including very recent developments in this field. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to CSI 690, OR 682.

Recommended Prerequisite: Computer literacy, including some programming experience.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 680: Industrial Mathematics. 3 credits.
Takes examples from industry and goes through complete solution process: formulation of mathematical model of problem; solution, possibly by numerical approximation; and interpretation and presentation of results. Emphasizes working in groups, relating mathematics to concrete situations, and communication and presentation skills. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite:
MATH 214 and MATH 446 or 685.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 681: Introduction to Computational Science. 3 credits.
Computational techniques for solving problems arising in science and engineering. Includes theoretical development as well as implementation, efficiency, and accuracy issues in using algorithms and interpreting results. Specific topics include linear and nonlinear systems of equations, polynomial interpolation, numerical integration, and introduction to numerical solution of differential equations. Offered by Mathematics (p. 733). May not be repeated for credit. Equivalent to CSI 690, OR 682.

Recommended Prerequisite: Computer literacy, including some programming experience.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 682: Partial Differential Equations I. 3 credits.
Finite difference methods for initial value problems, two-point boundary value problems, Poisson equation, heat equation, and first-order partial differential equations. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 214 and MATH 446 or 685.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MATH 683: Variational Methods. 3 credits.
Weak formulation of partial differential equations, energy principles, Galerkin approximations, and finite element methods. Includes review and development of necessary analysis. Offered by Mathematics (p. 733). May not be repeated for credit.

Recommended Prerequisite: MATH 446 or 685, and elementary differential equations course.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 689: Topics in Applied and Computational Mathematics.** 3 credits.
Special topics in applied and computational mathematics not covered in the regular applied and computational mathematics sequence. May be repeated for credit when topic varies. Offered by Mathematics (p. 733). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MATH 697: Independent Reading and Research.** 1-6 credits.
In areas of importance, but with insufficient demand to justify a regular course, students may undertake a course of study under the supervision of a consenting faculty member. Written statement of the content of the course and a tentative reading list is normally submitted as part of the request for approval. Literature review, project report, or other written product is normally required. May be repeated for credit. Offered by Mathematics (p. 733). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**MATH 721: Algebra II.** 3 credits.
Rings, fields, and Galois theory. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 621.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 722: Algebraic Topology.** 3 credits.
Covers simplices and simplicial complexes, cycles and boundaries, simplicial homology, homological algebra, homotopy and the fundamental group, cohomology. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 621 and MATH 631 or equivalent.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 723: Combinatorial Structures.** 3 credits.
Studies structural properties of objects encountered in pure and applied combinatorics. Topics include partially ordered sets, codes, designs, matroids, buildings, symmetrical structures, permutation groups, and face lattices of polytopes. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 321 or equivalent.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 724: Commutative Algebra.** 3 credits.
Study of commutative rings and their ideals, and of modules over commutative rings and their homological properties. More specific topics include Noetherian rings, primary decomposition, completions, graded rings and dimension theory with applications to algebraic geometry. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 621.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 725: Topology II: Set-Theoretic Topology.** 3 credits.
Topics include review of basic set theory (including cardinal numbers products of sets, the Axiom of Choice), definition of topological spaces, bases for topological spaces, forming new topological spaces by taking subspace, quotients, and products, separation properties (Hausdorff, regular, Tychonoff, and normal spaces) compactness, the Lindelof property, separability, connectedness, continuity and homeomorphism,
manifolds. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 631 or equivalent.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 740:** Differential Topology. 3 credits.
Differential forms, manifolds, smooth maps, vector fields, the Euler characteristic, integration on manifolds, and de Rham cohomology.

Notes: MATH 740 will be an elective course acceptable (but not required) for the PhD Degree in the Mathematical Sciences offered by the Department of Mathematical Sciences. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 621 and MATH 631, or equivalent.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 762:** Complex Analysis II. 3 credits.
Harmonic functions, generalizations of the maximum principle, entire and meromorphic functions, analytic continuation, and the Riemann mapping theorem. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 661.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 763:** Functions of Several Complex Variables. 3 credits.
Covers the important results for analytic functions in several variables, including analyticity in several variables and the differences between the theory of one and the theory of several complex variables. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 661 and MATH 762 or an equivalent preparation in one complex variable.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 772:** Wavelet Theory. 3 credits.
Study of the theory and computational aspects of wavelets and the wavelet transform. Emphasizes computational aspects of wavelets, defining the Fast Wavelet Transform in one and two dimensions. Developing the appropriate numerical algorithms. Includes developing the theory of wavelet bases on the real line, discussing multiresolution analysis, splines, time-frequency localization, and wavelet packets. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 315 or equivalent.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 776:** Measure and Integration. 3 credits.
Lebesgue measure and integration. Theory of Lp spaces with p between one and infinity on the real line. Theory of linear operators on Banach spaces, including the Hahn-Banach theorem, open mapping theorem, closed graph theorem and the uniform boundedness principle. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 675.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 781:** Advanced Methods in Applied Mathematics. 3 credits.
Bifurcation theory and perturbation methods for solutions in ordinary and partial differential equations. This course will develop and apply these mathematical tools in current scientific fields, such as biology, materials science, or financial mathematics. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 677 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 784:** Nonlinear Functional Analysis. 3 credits.
Techniques in nonlinear functional analysis with applications. Contraction mapping principle, Frechet and higher derivatives, the implicit function theorem, Lyapunov-Schmidt method, and bifurcation theory. Finite and infinite dimensional degree theory with applications in partial
differential equations. Notes: Different backgrounds may be appropriate, but generally, a student is expected to be an upper level graduate student who has already taken Linear Analysis. Since the applications given in the course are for differential equations, some familiarity with differential equations is extremely useful. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 675 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 790:** Classical Potential Theory. 3 credits.
Potential theory of Laplace's equation in Euclidean space. Harmonic functions, superharmonic functions, potentials, polar sets and capacity, the Dirichlet problem, the Martin boundary, boundary behavior of superharmonic functions using real variable techniques, and minimal fine limit techniques. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** MATH 675 and MATH 776.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 795:** Graduate Seminar. 1 credit.
Mandatory for all PhD students. Weekly seminar graded on presentations and attendance. Faculty presentations on potential thesis topics and presentations by students. Offered by Mathematics (p. 733). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Enrolled in the PhD program in Mathematics.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MATH 799:** MS Thesis. 1-6 credits.
Original or compilatory work evaluated by committee of three faculty members. Offered by Mathematics (p. 733). May be repeated within the degree.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**800 Level Courses**

**MATH 800:** Studies for the Doctor of Philosophy in Education. 1-6 credits.
Program of studies designed by student's discipline director and approved by student's doctoral committee, which brings the student to participate in current research of discipline director and results in paper reporting the original contributions of student. Enrollment may be repeated. Offered by Mathematics (p. 733). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Ph.D. in Education program to study in mathematical sciences.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**900 Level Courses**

**MATH 998:** Doctoral Dissertation Proposal. 1-9 credits.
Work on research proposal that forms basis for doctoral dissertation. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements. Offered by Mathematics (p. 733). May be repeated within the degree.

**Recommended Prerequisite:** Successful completion of qualifying exam.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**MATH 999:** Doctoral Dissertation. 1-12 credits.
Formal record of commitment to doctoral dissertation research under the direction of a faculty member. May be repeated for credit. No more than 24 credit hours of 998 and 999 may be applied to doctoral degree requirements. Offered by Mathematics (p. 733). May be repeated within the degree.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)
Mechanical Engineering (ME)

100 Level Courses
ME 151: Practicum in Engineering. 2 credits.
This course provides students with experiences in algorithmic thinking, visualization and communications. An essential component of this course is preparation of students for the National Academy of Engineering Grand Challenge Scholars Program. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses
ME 211: Statics. 3 credits.
An initial course in applied vector mechanics with emphasis on static equilibrium. Topics include forces, moments, couples, equivalent force-couple systems, centroids, distributed forces, and Coulomb friction. The application of the free body diagram in the analysis of static equilibrium of frames, machines and trusses is stressed. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: PHYS 160C and 161C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

ME 212: Solid Mechanics. 3 credits.
A first course in mechanics of deformable bodies with emphasis on the engineering approach to the responses of these bodies to various types of loadings. Topics include stress-strain relationships, stress-strain analysis, stress and strain transformation (Mohr's circle), load-deflection, bending, torsion, buckling, and thermal effects. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

Recommended Corequisite: MATH 214.

Registration Restrictions:
Required Prerequisite: ME 211C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses
ME 311: Mechanical Experimentation 1. 1 credit.
Experimental measurements in solid mechanics and materials science. Involves technical report writing. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

Recommended Corequisite: ME 313.

Registration Restrictions:
Required Prerequisite: ME 212C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Mechanical Engineering.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

ME 313: Material Science. 3 credits.
An introductory course in physical and mechanical properties of engineering design materials, ceramics and plastics, their structures, use in engineering applications and failure phenomena. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: CHEM 211C or 251C or (CHEM 271C and 272C)
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 321: Mechanical Experimentation II.** 1 credit.

**Recommended Corequisite:** ME 323.

**Registration Restrictions:**
**Required Prerequisite:** ME 322C. C Requires minimum grade of C.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 322: Fluid Mechanics.** 3 credits.
An introductory course in fluid dynamics stressing both the integral and differential forms of the conservation laws of fluid flow. Engineering applications are made to hydrostatics and to ideal and real fluid flows. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** ME 221C and 231C.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 323: Heat Transfer.** 3 credits.
Study of thermal radiation, steady and transient conduction, laminar and turbulent convection, internal and external flow, boundary layers and empirical correlations. Applications address fins, nuclear reactor cooling, heat exchangers and interactive computing. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisite:** ME 322C.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 331: Mechatronics.** 3 credits.
Study of electromechanical systems, utilizing the fundamentals of circuit theory to design, build, and control mechanical devices. Topics include electrical devices, sensors, microcontrollers, data acquisition, instrumentation and interfaces. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisite:** ECE 330C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Mechanical Engineering.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 341: Design of Mechanical Elements.** 3 credits.
Fundamentals of mechanical design. Introduction to the fundamentals of static and fatigue failure theories, design of basic machine elements such as fasteners, bearings, gearing and shafts. Builds on the fundamentals of design introduced in earlier courses by introducing the concepts of customer requirements, specification development, reverse engineering, functional decomposition, and design for manufacturing. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisite:** ME 212C.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 342: Design of Thermal Systems.** 3 credits.
A study of equipment which operates on principles of thermodynamics and fluid mechanics is used to reinforce analyses and design of gas and vapor power cycles, refrigeration and air conditioning, propulsion systems, combustion, energy conversion and compressible flow. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisite:** ME 221C.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 351: Analytical Methods in Engineering.** 3 credits.
Survey of advanced mathematics topics needed in the study of engineering. Topics include vector differential and integral calculus, matrix analysis, partial differential equations, complex variables,
ME 431: Systems Dynamics. 3 credits.
A first course which deals with the mathematical modeling of dynamic systems and response analysis of these systems. Topics include state variable and transfer functions, mathematical analysis of systems response, and the use of computational tools for modeling, design, and simulation. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 231C) and (PHYS 260C or 261C).
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

ME 432: Control Engineering. 4 credits.
Introduces fundamentals of feedback and modern control theory. Topics include analysis of mechanical and thermal systems by root locus and frequency response techniques. Use of sensors and transducers in control systems, data acquisition and analysis. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ME 351C and (ECE 285C or 330C).
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

ME 431: Systems Dynamics. 3 credits.
A first course which deals with the mathematical modeling of dynamic systems and response analysis of these systems. Topics include state variable and transfer functions, mathematical analysis of systems response, and the use of computational tools for modeling, design, and simulation. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (ME 231C) and (PHYS 260C or 261C).
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 453: Developing the Societal Engineer.** 2 credits.
A course which highlights, through speakers, discussions and workshops, the professional responsibility of a being mechanical engineer. Additional topics that will be covered include ethical issues, current events and trends in the profession. Engineering case studies will be explored. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisite: ME 443^C.
*C Requires minimum grade of C.

Enrollment is limited to students with a major in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 454: Project Mgmt for Engineers.** 3 credits.
Introduction to the fundamentals of project management. Students will understand the proposal process, apply decision-making and analysis tools to identify the critical path for a project, and understand and apply the interpersonal skills to lead and manage highly effective project teams. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

**Registration Restrictions:**
Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 471: Introduction to Astronautics.** 3 credits.
Astronautics is the study of space and its uses. This course will introduce the student to multiple aspects of space and space sciences, such as orbital mechanics, satellite subsystems, space systems engineering, launch, and re-entry. Offered by Mechanical Engineering (p. 1105). Limited to two attempts.

**Registration Restrictions:**
Required Prerequisite: ME 231^C.
*C Requires minimum grade of C.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 497: Applied Engineering Abroad.** 3 credits.
Introduces students to applications of engineering processes outside USA. The students will gain hands-on project management, critical thinking, intercultural and career skills by exploring engineering aspects such as auto assembly, airliner manufacturing, metropolitan infrastructure, and bridge designs. By visiting technology museums, students will learn to appreciate the rich history of the country's technology and manufacturing. Offered by Mechanical Engineering (p. 1105). Limited to two attempts. Equivalent to CEIE 497, SYST 497.

**Mason Core:** Global Understanding (p. 137)

**Registration Restrictions:**
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 498: Independent Study in Mechanical Engineering.** 0-3 credits.
Directed self-study of topics of special interest. Offered by Mechanical Engineering (p. 1105). May be repeated within the term for a maximum 6 credits.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 499: Special Topics in Mechanical Engineering.** 0-4 credits.
Topics of special interest to undergraduates. Notes: May be repeated for credit when topic is different. Offered by Mechanical Engineering (p. 1105). May be repeated within the term for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major, minor, or concentration in Mechanical Engineering.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**ME 521: Energy Transfer.** 3 credits.
Study of thermal fluid sciences related to energy systems. Provides foundations in thermodynamics, mass transfer, fluid mechanics, and heat transfer in steady systems. Covers modelling and analysis of engineering devices such as pumps, heat exchangers, turbines, and airfoils which constitute energy systems. Offered by Mechanical Engineering (p. 1105). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

**Additional Course Details:** Title varies by section and/or semester

### 500 Level Courses

**ME 521: Energy Transfer.** 3 credits.
Study of thermal fluid sciences related to energy systems. Provides foundations in thermodynamics, mass transfer, fluid mechanics, and heat transfer in steady systems. Covers modelling and analysis of engineering devices such as pumps, heat exchangers, turbines, and airfoils which constitute energy systems. Offered by Mechanical Engineering (p. 1105). May not be repeated for credit.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**ME 541: Power Generation.** 3 credits.
Study of traditional and advanced power generation technology. Builds upon conservation principles of mass, energy, and momentum to analyze, model and optimize energy systems based on physical principles. Specific attention will be paid to site specific conditions for generation. Advanced cycles will be covered which utilize fossil fuel, renewable, and nuclear energy. Offered by Mechanical Engineering (p. 1105). May not be repeated for credit.

**Recommended Prerequisite:** ME 521.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**ME 542: Energy Utilization.** 3 credits.
Covers energy utilization by end users. Technology and system integration are covered for applications such as combined heat power units and transportation. Students will use energy audit techniques to identify and minimize energy losses from the demand side. Investment, payback, and subsidies for purchasing energy system updates will be evaluated. Offered by Mechanical Engineering (p. 1105). May not be repeated for credit.

**Recommended Prerequisite:** ME 521.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**600 Level Courses**

**ME 621: Foundations of Fluid Mechanics.** 3 credits.
Derivation of the fundamental equations of fluid mechanics, including the Navier-Stokes equations, conservation of mass, and the vorticity transport equations. Vector and Cartesian tensor notation are used throughout. Equations of motion are applied to incompressible viscous and inviscid flows. Some aspects of turbulence are discussed. Offered by Mechanical Engineering (p. 1105). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**ME 698: Research Study in Selected Mechanical Engineering Topics.** 3 credits.
This is a research based course that allows graduate students to work on a special research topic. Offered by Mechanical Engineering (p. 1105). May be repeated within the degree for a maximum 6 credits. Equivalent to ECE 620.

**Recommended Prerequisite:** Graduate Student Standing and Permission of the Instructor
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Taught in English

ME 699: Advanced Special Topics in Mechanical Engineering. 3 credits.
Advanced topics in mechanical engineering will be taught in this course. Offered by Mechanical Engineering (p. 1105). May be repeated within the degree for a maximum 6 credits. Equivalent to ECE 620.

Recommended Prerequisite: Permission of the Instructor

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

700 Level Courses

ME 714: Fracture Mechanics. 3 credits.
Investigation of linear elastic and elastic-plastic fracture mechanics. Topics include: theory of elasticity and plasticity, energy and stress approach to fracture mechanics, methods to determine the stress intensity factor, fracture mechanics testing, fatigue crack growth. Develop a basic understanding of how crack-like defects impact performance in structures and learn how to select materials to ensure damage tolerance. Offered by Mechanical Engineering (p. 1105). May not be repeated for credit.

Recommended Prerequisite: Introductory graduate level course in advanced strength of materials or theory of elasticity, or consent of the instructor.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ME 722: Introduction to Turbulence. 3 credits.
Introduces beginning graduate students to the theory of turbulence. The theory of homogeneous-isotropic turbulence is introduced, followed by a discussion of sheared and wall-bounded turbulence. Some aspects of coherent structures in turbulence will be introduced as well as models used in computing turbulence. Specially designed projects are intended to enable students to apply what they have learned to different flow situations. Offered by Mechanical Engineering (p. 1105). May not be repeated for credit.

Recommended Prerequisite: ME 621.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Medical Laboratory Science (MLAB)

200 Level Courses

MLAB 200: Introduction to Medical Laboratory Science. 1 credit.
Introduction to the profession of Medical Laboratory Science. Offered by Biology (p. 634). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

MLAB 300: Science Writing. 2 credits.
Intensive practice in biological science writing. Science Writing will fulfill the university’s writing intensive requirement as well as prepare Medical Laboratory Science students for the types of writing that they will encounter in the industry including, but not limited to: writing, resumes, grants, cover letters, etc. A transfer student who has previously taken an equivalent course to BIOL 308 that did not meet the writing intensive requirements in the major may pair this with the transferred BIOL 308 to L308 and meet the writing intensive experience in the Biology major. Offered by Biology (p. 634). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

MLAB 401: Orientation to the Problems and Practices of the Clinical Laboratory. 1-2 credits.
Orientation to clinical lab; specimen collection and record keeping; management principles and problems; educational theories as they apply to the teaching of clinical laboratory procedures; and quality control principles. Notes: Not offered on campus. Offered by Biology (p. 634). May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MLAB 402: Clinical Hematology and Coagulation. 2-3 credits.
Morphology of blood cells in health and disease; theories of hematopoiesis and coagulation; techniques for measurement of hematologic parameters; and hematologic pathologies and their lab evaluation. Notes: Not offered on campus. Offered by Biology (p. 634). May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MLAB 403: Clinical Microscopy. 1-3 credits.
Methods for the routine examination of urine, feces, and certain other body fluids, especially the microscopic identification of normal and pathologic components. Includes a study of the kidney and theories of microscopy. Notes: Not offered on campus. Offered by Biology (p. 634). May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MLAB 404: Serology and Immunohematology. 1-7 credits.
Clinical lab procedures involving antigen-antibody reactions, and theoretical bases of such procedures. Includes both diagnostic and blood bank techniques. Notes: Not offered on campus. Offered by Biology (p. 634). May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MLAB 405: Clinical Microbiology. 1-8 credits.
Biology and pathology of bacteria, rickettsia, fungi, parasites, and viruses of clinical importance and their culture and identification. Notes: Not offered on campus. Offered by Biology (p. 634). May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MLAB 406: Clinical Chemistry. 1-10 credits.
Chemical reactions and procedures used in clinical determinations on blood, urine, and cerebral spinal fluid. Includes manual, automated methods of chemical analyses. Notes: Not offered on campus. Offered by Biology (p. 634). May be repeated within the term.

Recommended Prerequisite: Completion of requirements for BS with major in medical technology except for 30 credits of professional study, and admission to school of medical technology approved by National Accrediting Agency for Clinical Laboratories.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MLAB 407: Clinical Molecular Biology. 1-15 credits.
Course presents advanced methods in nucleic acid testing to human medico-legal, forensic, and pathology applications. Topics include but are not limited to: Polymorphisms, Paternity Testing, Single Nucleotide Polymorphisms, Bone Marrow Engraftment, Mitochondrial DNA Polymorphisms and Disorders, Chromosomal Abnormalities, Single Gene Disorders, Lysosomal Storage Disorders, Cystic Fibrosis, and Quality Assurance in the Molecular Biology laboratory. Offered by Biology (p. 634). May be repeated within the degree.

Recommended Prerequisite: Completion of requirements for BS with a major in Medical Laboratory Science except for the 30 credits professional study.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MLAB 408: Clinical Histology. 1-15 credits.
Introduction to the field of Histotechnology including lectures on tissue fixation, processing and embedding, microtomy, and staining. Offered by Biology (p. 634). May be repeated within the term.
**Recommended Prerequisite:** completion of requirements for BS with major in Medical Laboratory Science except for the 30 credits of professional study.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MLAB 409:** Clinical Histology Practicum. 1-15 credits.
Hands-on rotations in histologic fixations, tissue processing, slide preparation and staining. Offered by Biology (p. 634). May be repeated within the term.

**Recommended Prerequisite:** Completion of requirements for BS with major in Medical Laboratory Science except for the 30 credits of professional study.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

# Middle East and Islamic Studies (MEIS)

## 500 Level Courses

**MEIS 500:** Critical Issues and Debates in Middle East and Islamic Studies. 3 credits.
Introduces the interdisciplinary study of the Middle East and the Islamic world through an examination of recent seminal works and debates in the field representing the disciplinary perspectives of history, religious studies, political science, and sociology. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Middle East Islamic Studies.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MEIS 599:** Issues in Middle East and Islamic Studies. 3 credits.
In-depth study of current issues and debates in Middle East and Islamic studies in theoretical and historical context. Offered by Humanities & Social Sciences (p. 298). May be repeated within the term for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MEIS 794:** Graduate Internship in Middle East and Islamic Studies. 3 credits.
Internship credit for completion of Middle East and/or Islamic studies related work at an approved government, nonprofit, or private institution. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

**Recommended Prerequisite:** MEIS 500, HIST 575, RELI 644.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MEIS 796:** Directed Readings in Middle East and Islamic Studies. 3 credits.
Directed readings in the field of Middle East and Islamic Studies. Offered by Humanities & Social Sciences (p. 298). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** MEIS 500, RELI 644, HIST 575.

**Registration Restrictions:**
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MEIS 798:** Research Project in Middle East and Islamic Studies. 3 credits.
Research project related to Middle East and Islamic studies taken under supervision of faculty adviser. Offered by Humanities & Social Sciences (p. 298). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 21 credit hours toward MA in Middle East and Islamic Studies degree; satisfactory completion of a research methods course approved as a core course for the MA MEIS.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MEIS 799:** Thesis Research and Writing in Middle East and Islamic Studies. 1-6 credits.
Original research and thesis writing for students in the Middle East and Islamic Studies MA program. Offered by Humanities & Social Sciences (p. 298). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Completion of MEIS 500, HIST 535, GOVT 731, GOVT 733, RELI 644; and 27 credit hours toward MA in MEIS degree; permission of MEIS director.
Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Additional Course Details: Physical Activity Course

Military Science (MLSC)

100 Level Courses

MLSC 100: Introduction to Army/ROTC. 1 credit.
Introduces leadership values and ethics; responsibilities of officer; budgeting; the organization, customs, and traditions of the U.S. Army; time management; and physical well-being. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 107). May not be repeated for credit.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

MLSC 102: Leadership Skills II. 1 credit.
Introduces leadership principles, dimensions, styles, and assessment, among other varied topics. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 107). May not be repeated for credit.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

200 Level Courses

MLSC 200: Self/Team Development. 1 credit.
Covers leadership skills, such as values and ethics. Also teaches how to influence, how to communicate, how and when to make decisions, and how to engender support in a creative problem solving, and how to plan and organize. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 107). May not be repeated for credit.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

MLSC 202: Leadership Skills IV. 1 credit.
Builds on the leadership skills developed in Leadership Skills III with additional emphasis on communication, team building, and team leadership. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 107). May not be repeated for credit.

Recommended Prerequisite: MLSC 100 level completion/dual enrollment.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

300 Level Courses

MLSC 300: Applied Leadership I. 1 credit.
Introduces leadership with an introduction to the principles of physical fitness and healthy lifestyle; counseling as means of subordinate development; problem solving; operational analysis, development, and execution; and methods for preparing and presenting instruction. Students are given an introduction to the Leader Development Program that is used to evaluate their leadership performance and provide students with developmental feedback. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness. Offered by Military Science (p. 107). May not be repeated for credit.

Recommended Prerequisite: MLSC 100, 101, 200, or veterans status, or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

MLSC 302: Applied Leadership II. 1 credit.
Applied leadership covering the models of communications (verbal and nonverbal), technology to communicate, how to prepare and conduct formal briefings, an introduction to the Army branches, diversity and equal opportunity training, ethical decision making, & group cohesion and dysfunction. Some weekend training required. Includes a laboratory in applied leadership, common military tasks, and physical fitness. May not be repeated for credit.

Recommended Prerequisite: MLSC 100 & 200 level completion or military credit exemption.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

400 Level Courses

MLSC 400: Leadership and Management. 3 credits.
Considered the "transition to lieutenant" phase in which managerial theories are applied to personnel, training, and logistics management situations. Students have command and staff responsibilities for the Mason cadet corps and receive hands-on experience operating as a management team. There are several briefing and writing requirements as well. Includes a laboratory in applied science, common military tasks, and physical fitness. Offered by Military Science (p. 107). May not be repeated for credit.

Recommended Prerequisite: MLSC 100 level completion/dual enrollment.
Minor in Business (MBUS)

300 Level Courses

MBUS 300: Accounting in a Global Economy. 3 credits.
Focuses on using basic concepts of accounting and financial management to make investment, credit, and operating decisions for an organization. Emphasizes financial reports to aid planning and control of organizational activities. Notes: May not be taken for credit by School of Business majors. Students who have received credit for both ACCT 203 and FNAN 303 cannot also receive credit for MSOM 300 or MBUS 300. Offered by School of Business (p. 877). May not be repeated for credit.

Recommended Prerequisite: Completion of 30 credits (sophomore standing).

Registration Restrictions: Non-Degree level students may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MBUS 301: Managing People and Organizations in a Global Economy. 3 credits.
Introduces key issues in management, organizational behavior, and human resource management. Special attention to best practices used by effective managers. Notes: May not be taken for credit by School of Business majors. Students cannot receive credit for both MGMT 303 and MBUS 301. Offered by School of Business (p. 877). May not be repeated for credit.

Recommended Prerequisite: Completion of 30 credits (sophomore standing).

Registration Restrictions: Students with a class of Freshman may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MBUS 302: Managing Information in a Global Economy. 3 credits.
Provides overview of strategic role of information, need for information systems, organizing information, integration of information systems in management processes and decision making, and related discussions in electronic commerce. Students cannot receive credit for both MIS 303 and MBUS 302. Notes: May not be taken for credit by School of Business majors. Students cannot receive credit for both MIS 301 and MBUS 302. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions: Students with a class of Freshman may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MBUS 303: Marketing in a Global Economy. 3 credits.
Presents marketing principles, concepts, strategies, and analytical tools used by profit and nonprofit organizations to market ideas, products, and services to selected target groups. Emphasizes how to develop, promote, distribute, and price firm’s offerings in dynamic economic, social, political, and global environment. Notes: May not be taken for credit by School of Business majors. Students cannot receive credit for both MKTG 303 and MBUS 303. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions: Students with a class of Freshman may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MBUS 304: Entrepreneurship: Starting and Managing a New Enterprise. 3 credits.
Explores behaviors required to successfully launch a new business, tools to identify and evaluate opportunities, and the issues critical to a new firm. Issues include organizational structure, effective marketing strategy, operational logistics, legal issues, financial projections, financing options, and available support structures. Students cannot receive credit for both MKTG 303 and MBUS 303. Notes: May not be taken for credit by School of Business majors. Offered by School of Business (p. 877). May not be repeated for credit.
Registration Restrictions:
Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MBUS 305: Introduction to International Business. 3 credits.
Multidisciplinary approach to global economy from the viewpoint of managing international business. Introduces various aspects of managing business in a global economy including theories and practices of international trade, investment, and business strategies. Notes: May not be taken for credit by School of Business majors. Offered by School of Business (p. 877). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Registration Restrictions:
Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MBUS 306: Managing Projects and Operations. 3 credits.
Introduces project management and operations management concepts and tools including project planning, scheduling, monitoring, and control; process design, selection and improvement; supply chain management; inventory management; and quality assurance. Students cannot receive credit for both OM 303 and MBUS 306. Notes: May not be taken for credit by School of Business students. Students cannot receive credit for both OM 303 and MBUS 306. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MBUS 308: Corporate Finance and Investments in a Global Economy. 3 credits.
Presents an introduction to corporate finance and investment topics within an international context and emphasis on time-value of money, interest rates, stock and bond valuation, and the risk/return relationship in financial markets. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Students with a class of Freshman may not enroll.

Students cannot enroll who have a major in Accounting, Finance, Information Systems Ops Mgmt, Management or Marketing.

Students in the BU-BPRE-UNDE program may not enroll.

Non-Degree level students may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

MBUS 491: Special Topics: Business Minor. 3 credits.
Topics related to a minor in business will vary on the focus of the course and by discipline. Notes: May not be taken for credit by School of Business majors. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

Music (MUSI)

100 Level Courses

MUSI 100: Fundamentals of Music. 3 credits.
Study of musical notation, interval and triad construction, reading of treble and bass clefs, scale construction, rhythm, elementary sight singing and ear training, and application at keyboard. Notes: Cannot be applied toward degree in music. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

Mason Core: Arts (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 101: Introduction to Classical Music. 3 credits.
Introduces art-music tradition of West. Techniques for expanding listening skills developed through study of musical elements, styles, and selected masterworks of musical literature. Notes: Music majors may take only as free elective. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

Mason Core: Arts (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 102: Popular Music in America. 3 credits.
Investigates popular music styles and development in the United States with particular emphasis on the past 50 years. Lectures, recordings, and video enhance critical listening skills and examine stylistic and social contexts of popular music. Notes: Music majors may take only as free elective. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.
Mason Core: Arts (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 103: Musics of the World. 3 credits.
Study and comparison of musical structure and expression in several world cultures, with special attention to social context and function. Studies selected Asian, Middle Eastern, African, and American (Latin, Native, African) cultures. Notes: For non-music majors only. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

Mason Core: Global Understanding (p. 137)

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 106: Fundamentals of Rock, Blues, and Jazz. 3 credits.
Fundamentals of Blues, Rock, and Jazz is designed for students without formal training in music theory. The course focuses on Afro-centric concepts in twentieth-century American musical culture including improvisation, emphasis on rhythm and groove, and use of multiple and integrated tonalities, such as major and minor in the blues. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 107: Jazz and Blues in America. 3 credits.
Historical, analytical, and aural survey of jazz from inception to present day. Looks at trends resulting from synthesis of jazz with other musical idioms. Notes: Music majors may take as free elective or part of jazz studies concentration. Offered by School of Music (p. 837). Limited to three attempts.

Mason Core: Arts (p. 137)

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 113: Aural Skills I. 1 credit.
Students taught to sing a line of music without accompaniment of instrument. Matching tones, major and minor scales, key signatures, intervals, rhythm, treble and bass clefs, and rhythmic and melodic dictation. Offered by School of Music (p. 837). Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 114: Aural Skills II. 1-2 credits.
Continuation of MUSI 113. Alto and tenor clefs, modulation, various modes, and melodic and harmonic dictation. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 113.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 115: Theory I. 3 credits.
Music notation, scales, key signatures, intervals, chords, cadences, and figured bass. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: Student must be able to read music, be able to pass a fundamentals of music test (administered during first week of classes), and have some proficiency on a musical instrument or in voice.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 116: Theory II. 3 credits.
First- and second-inversion chords, modulation, nonharmonic tones, figured bass, seventh chords. Analysis of Bach chorales; composition of four-part chorales in 18th-century style. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 115 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 171: Keyboard Skills I. 1 credit.
Study of piano keyboard as it relates to various clefs in music. Emphasis on solution of basic stylistic and technical problems. Offered by School of Music (p. 837). Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major in Music.
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 172:** *Keyboard Skills II.* 1 credit.
Study of piano keyboard as it relates to intermediate song and combined in various music forms. Notes: Nonmusic majors must have permission of instructor. Offered by School of Music (p. 837). Limited to three attempts.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**200 Level Courses**

**MUSI 200:** *Music Theater Practicum.* 1 credit.
Practicum records successful participation on a minimum 30 hour assignment on a Music-Theater production. It is an opportunity for students to apply classroom learning in a hands-on situation. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 5 credits.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**MUSI 213:** *Aural Skills III.* 2 credits.
Continuation of Music 114. Emphasizes modulation, chromatic and nontonal melodies, various modes, melodic and harmonic dictation, clefs, and improvisation. Offered by School of Music (p. 837). Limited to three attempts.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 214:** *Aural Skills IV.* 2 credits.
Continuation on MUSI 213 with emphasis on chromatic and nontonal harmonies. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 213, or permission of instructor.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 215:** *Theory III.* 3 credits.
Study of four-part chromatic harmony and analysis of 19th-century compositions. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 116 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 216:** *Theory IV.* 3 credits.
Study of melodic, harmonic, rhythmic, and formal processes in post-tonal music. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 215 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 221:** *Applied Music I.* 1 credit.
Applied music studies 1. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits.

**Recommended Prerequisite:** Audition or portfolio.

**Schedule Type:** Private Music Instruction

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 222:** *Applied Music in Keyboard.* 1 credit.
Applied music studies in Keyboard.. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits.

**Recommended Prerequisite:** Audition.

**Recommended Corequisite:** MUSI 381, 384, or 385.

**Schedule Type:** Private Music Instruction

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 233:** *Applied Music in Voice.* 1 credit.
Applied music studies in Voice. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits.

**Recommended Prerequisite:** Audition.

**Recommended Corequisite:** MUSI 381, 384, or 385.
MUSI 224: Applied Music in Woodwind. 1 credit.
Applied music studies in Woodwind. Offered by School of Music (p. 837).
May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Audition.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 225: Applied Music in Brass. 1 credit.
Applied music studies in Brass. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Audition.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 226: Applied Music in String. 1 credit.
Applied music studies in String. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Audition.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 227: Applied Music in Percussion. 1 credit.
Applied music studies in Percussion. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Audition.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 228: Applied Music in Composition. 1 credit.
Applied music studies in Composition. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits. Equivalent to MUSI 221.

Recommended Prerequisite: Portfolio of recent compositions.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 229: Non-Major Applied Music I. 1 credit.
Applied music studies I. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: Audition or portfolio.
Schedule Type: Laboratory
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 241: Applied Music II. 2 credits.
Applied music studies II. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition or portfolio.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 242: Applied Music in Keyboard. 2 credits.
Applied music studies in Keyboard. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Applied music studies in Voice. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.
Schedule Type: Private Music Instruction
Recommended Corequisite: MUSI 381, 384, or 385.
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 244: Applied Music in Woodwind. 2 credits.
Applied music studies in Woodwind. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 245: Applied Music in Brass. 2 credits.
Applied music studies in Brass. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 246: Applied Music in String. 2 credits.
Applied music studies in String. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.
Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 247: Applied Music in Percussion. 2 credits.
Applied music studies in Percussion. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 248: Applied Music in Composition. 2 credits.
Applied music studies in Composition. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Portfolio or recent compositions.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 249: Non-Major Applied Music II. 2 credits.
Applied music studies II. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 16 credits.

Recommended Prerequisite: Audition or portfolio.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 251: Musical/Oral Communication. 3 credits.
Introduces theories, processes, and practices to achieve effective oral communication; connects those principles with expressive musical performance. Explores parallels between grammar, logic, and rhetoric and musical structure, design, and performance. Critically analyzes time, tonality, and texture, applies these concepts in pedagogical contexts related to effective performance, practice habits, communication styles, and identifying/preventing performance-related repetitive overuse injuries. Notes: Requires observing professionals in the field. Offered by School of Music (p. 837). Limited to three attempts.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 252: Popular Music Arranging. 3 credits.
This course explores popular music styles and genres. Using this information to analyze popular music and arrange the music for various ensembles. Offered by School of Music (p. 837). Limited to three attempts.

Specialized Designation: Discovery of Scholarship

Recommended Prerequisite: MUSI 215.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 254: Music and Technology. 3 credits.
Study of technology related to music, including audio synthesis and computer-based hardware and software. Offered by School of Music (p. 837). Limited to three attempts. Equivalent to MUSI 315.

Specialized Designation: Discovery of Scholarship

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 259: Music in Computer Technology. 3 credits.
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation. Offered by School of Music (p. 837). Limited to three attempts. Equivalent to MUSI 415.

Mason Core: Information Technology With Ethics (p. 137)

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 273: Keyboard Skills III. 1 credit.
Continuation of MUSI 172. Study of techniques of harmonization at the piano keyboard. Notes: Nonmusic majors must have permission of instructor. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 172.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 280: Athletic and Ceremonial Ensemble. 0-1 credits.
Students gain an understanding of American popular and other musics developing personal expression via performance and creative design. Students also learn and develop leadership and management skills. An understanding of the vital role of community outreach and service is gained through first-hand experience. Offered by School of Music (p. 837). May be repeated within the term.
**300 Level Courses**

**MUSI 300: Recital Attendance.** 0 credits. Students attend 10 student recitals to be selected from departmental and music education recitals, and junior, senior, and graduate recitals. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**Recommended Prerequisite:** Completion of 30 credits. Music and non-music majors welcome.

**Mason Core:** Arts (p. 137)

**MUSI 301: Music in Motion Pictures.** 3 credits. Intensive study and analysis of using music tracks in motion pictures to introduce the picture, set a scene, create moods, or for musical numbers. From the silent film scores of the 1920s to the present (including electronic music). Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Mason Core:** Arts (p. 137)

**Recommended Prerequisite:** Completion of 30 credits. Music and non-music majors welcome.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 302: American Musical Theater.** 3 credits. Intensive study of the musical elements in the American musical theater from its European and later African roots to its evolution between the wars into a native form, and its continual assimilation of external influences such as new forms of jazz and rock to the eclectic form of the present day. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Mason Core:** Arts (p. 137)

**Recommended Prerequisite:** 30 credit hours or permission of the instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 303: Topics in Ethnomusicology.** 3 credits. Advanced study of theory and method in ethnomusicology with specific thematic or geographic focus. Course emphasizes critical thinking, listening, and research in the study of music from around the world. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** MUSI 103, or MUSI 431, or permission of instructor.

**MUSI 304: Topics in Musicology.** 3 credits. Designed for students with no music theory background, the course explores the intersection of music and culture in relation to specific topics. Issues addressed may include race, class, gender, economic context, aesthetics, etc. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** 30 hours completed.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MUSI 311: Jazz Studies.** 3 credits. Musicianship course integrating jazz improvisation, theory, composition, and arranging. Focuses on concepts unique to our time in style, form, and harmony. Offered by School of Music (p. 837). Limited to three attempts. Equivalent to MUSI 254.

**Recommended Prerequisite:** MUSI 379 or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 315: Music Technology.** 3 credits. Study of technology related to music, including audio synthesis and computer-based hardware and software. Notes: There is a course fee beyond tuition charges. Offered by School of Music (p. 837). Limited to three attempts. Equivalent to MUSI 254.

**Recommended Prerequisite:** MUSI 100 or MUSI 115

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 316: Topics in Music Technology.** 3 credits. Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry. Notes: There is a course fee beyond tuition charges. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits. Equivalent to MUSI 359.

**Recommended Prerequisite:** MUSI 315

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester
MUSI 319: Class Composition and Arranging. 3 credits.
Students write original compositions for specified instruments, voices, or combinations. They then apply compositional principles to the creative arrangement of existing music of various styles. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 323: Music Education Recital. 0 credits.
Recital on major instrument given by student during junior or senior year. Notes: Recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: A minimum of 8 credits in Applied music instruction in major instrument.

Recommended Corequisite: Concurrent enrollment in the appropriate 2-credit Applied music course.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

MUSI 324: Junior Recital. 1 credit.
Public recital by student during junior year. Notes: Junior recital must be at least 25 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates. Offered by School of Music (p. 837). Limited to three attempts.

Mason Core: Capstone (p. 137)

Recommended Corequisite: Concurrent enrollment in 2-credit Applied music course.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 325: Performance Seminar and Vocal Literature for Singers and Accompanists I. 2 credits.
Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire preparation and execution, diction, interpretation, style, and overall stage presence. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 326: Performance Seminar and Vocal Literature for Singers and Accompanists II - German and French. 2 credits.
Students assigned vocal literature in Italian, English, German, and French from Baroque to 21st century, and perform in a weekly master class format. Designed for vocal performance and piano and accompanying majors; develops and improves artistic and performance skills, repertoire preparation and execution, diction, interpretation, style, and overall stage presence. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 331: Music History in Society I. 3 credits.
Historical survey of Western music from Greek times through the late Baroque era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 215 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 332: Music History in Society II. 3 credits.
Historical survey of Western music from the early Classical era through mid-19th century, with emphasis on specific musical genres and composers who developed them. Musical developments related to other aspects of society. Lectures, recordings, video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 837). Limited to three attempts.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: MUSI 216 and 331 or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.
MUSI 338: Music History in Society A. 3 credits.
Historical survey of Western music from the late Renaissance through the Romantic era, with emphasis on specific musical genres and composers who developed them. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 341: Diction for Singers I: Italian Diction and English Diction. 2 credits.
Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in Italian and English. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 342: Diction for Singers II: German Diction and French Diction. 2 credits.
Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Focuses on intensified, systematic study of phonetics as it applies to singing in German and French. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: Restricted to MUSI majors and minors. Non majors need permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 351: Keyboard Pedagogy. 3 credits.
Investigates methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216, 273 and 8 credits in piano, harpsichord, organ or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 352: Vocal Pedagogy and Lab. 3 credits.
Instruction in teaching of voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on the importance of vocal health. Offered by School of Music (p. 837). Limited to three attempts. Equivalent to MUSI 552.

Recommended Prerequisite: 8 credits Applied Music in Voice, or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 353: Instrumental Pedagogy and Literature. 3 credits.
Instruction in teaching instrumental music techniques for all levels through study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: Junior standing in instrumental private music instruction or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 354: Electronic Composition. 3 credits.
This course explores the techniques used in recording music with current software and hardware to edit, modify, and market music. Offered by School of Music (p. 837). Limited to three attempts.

Specialized Designation: Scholarly Inquiry

Recommended Prerequisite: MUSI 254.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 355: Recording Techniques. 3 credits.
Explores the techniques used in recording music with current software and hardware to edit, modify, and market music. Offered by School of Music (p. 837). Limited to three attempts.

Specialized Designation: Scholarly Inquiry

Recommended Prerequisite: MUSI 254.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 358: Music Programming. 3 credits.
The purpose of the class is to learn basic programming skills and concepts and to apply them directly to musical concepts and ideas. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 254, MUSI 254, and MUSI 355.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 359: Topics in Music Technology. 3 credits.
Selected topics in music technology with an emphasis on musical creativity. Includes consideration of recent developments in areas such as electronic composition, the science of music, recording industry and practices, and music industry. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits. Equivalent to MUSI 316.

Recommended Prerequisite: MUSI 354, MUSI 355.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 361: Class Strings. 1 credit.
Study of playing and teaching string instruments with emphasis on violin and cello through beginning method book. Study of fingerings and bowing techniques to teach and play viola and bass at beginning levels. Survey of string playing techniques to conduct rehearsals at intermediate, advanced, and artist-level ensembles. Notes: Three hours per week studying violin, viola, cello, and bass; one hour per week in laboratory ensemble. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 2 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 363: Class Woodwinds. 1 credit.
Study of Techniques of playing and teaching Woodwind instruments, including flute, clarinet, saxophone, oboe, and bassoon. Survey of instructional materials, and mouthpiece and instrument selection. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 2 credits.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 364: Class Woodwinds: Oboe and Bassoon. 1 credit.
Study of techniques of playing and teaching oboe and bassoon. Survey of instructional materials, instrument selection, and reed adjustment. Notes: Three hours per week studying oboe and bassoon; one hour per week in laboratory ensemble. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 2 credits.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 365: Class Brass. 1 credit.
Study of techniques of playing and teaching trumpet and French horn. Survey of instructional materials, and mouthpiece and instrument selection. Notes: Three hours per week studying trumpet and French horn; one hour per week in laboratory ensemble. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 2 credits.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 366: Class Percussion. 1 credit.
Study of techniques of playing and teaching percussion instruments. Survey of instructional materials and instrument selection. Notes: Three hours per week studying percussion instruments; one hour per week in
laboratory ensemble. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor. Students must register for studio and lab.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 367: Class Guitar.** 1 credit.
Study of techniques of playing and teaching guitar. Survey of instructional materials and instrument selection. Notes: Three hours per week studying guitar; one hour per week in laboratory ensemble. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 368: Class Voice.** 1 credit.
Study of the human voice in artistic singing. Emphasizes practical application of basic principles. Notes: Three hours per week studying voice; one hour per week in laboratory ensemble. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** Admission to the Music major program or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 370: Laboratory Ensemble.** 0 credits.
This class an extension of the music education techniques and methods classes. Students will meet together once a week to perform on a secondary instrument or voice. In addition, this course provides student conductors with the opportunity to teach and/or rehearse a novice ensemble. A lab fee is assessed for this course. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 0 credits.

**Recommended Prerequisite:** Admission to music major program or permission of instructor.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**MUSI 371: Techniques of Accompanying I.** 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** Restricted to piano majors and minors, or to those with permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 372: Techniques of Accompanying II.** 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations, and performances by professionals; and participate in master classes. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** Audition on a keyboard instrument for admission to a music degree program, 4 credits in undergraduate Applied Music instruction on a keyboard instrument, or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 373: Advanced Accompanying and Musicianship Skills.** 3 credits.
Advanced study and techniques for accompanying choirs, vocal soloists, and instrumentalists. Additional instruction in keyboard reduction of orchestral scores for concertos, continuo/figured bass reading, lead-sheet reading, transposition, improvisation, transcription, and "playing by ear." Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 372 (concurrent enrollment is permitted) or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 379: Jazz Improvisation.** 1 credit.
Study of improvisation techniques and styles, with emphasis on common practice period of jazz. Application on the student's major instrument or voice to develop creativity and personal expression. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 116 or permission of instructor.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.
MUSIC 380: Wind Symphony. 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Highly selective group of instrumentalists perform works from wind symphony repertoire. Notes: Public concerts required. Offered by School of Music (p. 837). May be repeated within the term for a maximum 12 credits.

Mason Core: Arts (p. 137)
Recommended Prerequisite: Audition.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSIC 381: University Chorale. 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from choral repertoire. Notes: Public concerts required. Offered by School of Music (p. 837). May be repeated within the term for a maximum 12 credits.

Mason Core: Arts (p. 137)
Recommended Prerequisite: Audition.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSIC 382: Piano Ensemble. 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Study and performance of original four-hand works for one and two pianos. Notes: Public performances required. Offered by School of Music (p. 837). May be repeated within the term for a maximum 12 credits.

Mason Core: Arts (p. 137)
Recommended Prerequisite: 4 hours of PMI (Piano) and audition.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSIC 383: Symphonic Band. 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from band repertoire. Notes: Public concerts required. Offered by School of Music (p. 837). May be repeated within the term for a maximum 12 credits.

Mason Core: Arts (p. 137)
Recommended Prerequisite: Audition.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSIC 384: Fundamentals of Stagecraft for Opera and Music Theater. 2 credits.
Study of basic to intermediate stage movement techniques necessary to the performance of opera and music theater roles. Emphasis on acting, improvisation, theater production, musical theater, and operatic role study. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSIC 385: Chamber Singers. 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Students explore their levels of artistic development through discovery, interpretation, and performance of choral music for vocal chamber music ensembles from multiple historical periods. Students bring to Mason and surrounding community musical compositions not readily accessible in regular concert repertoire. Offered by School of Music (p. 837). May be repeated within the term for a maximum 12 credits.

Mason Core: Arts (p. 137)
Recommended Prerequisite: Audition.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSIC 387: Symphony Orchestra. 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from symphony orchestra repertoire. Notes: Public concerts required. Offered by School of Music (p. 837). May be repeated within the term for a maximum 12 credits.

Mason Core: Arts (p. 137)
Recommended Prerequisite: Audition.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSIC 388: Fundamental Techniques of Stagecraft for Opera and Music Theater. 2 credits.
Study of basic to intermediate stage movement techniques necessary to the performance of opera and music theater roles. Emphasis on acting, improvisation, theater production, musical theater, and operatic role study. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: Admission to the Music major program or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSIC 389: Jazz Ensemble. 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Provides practical experience in various aspects of jazz performance: section work within a large aggregation, combo work, and improvisation. Notes: Public concerts required. Offered by School
of Music (p. 837). May be repeated within the term for a maximum 12 credits.

Mason Core: Arts (p. 137)

Recommended Prerequisite: Audition.

Schedule Type: Studio

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 391: Conducting I. 2 credits.
Study of basic techniques of conducting a musical ensemble. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 214, 216, 273 or permission of instructor

Registration Restrictions: Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 393: Music Administration and Management. 2 credits.
Prepares students to address aspects of administration and management of music programs in public and private schools. Investigates principles and concepts of management styles and planning. Covers curriculum, budget, student recruitment and retention, external relations of the music unit, and legal issues for music educators. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 116 or permission of instructor

Registration Restrictions: Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Laboratory, Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 394: Ethnomusicology Internship. 1-4 credits.
Option A) Professional internship with an organization dedicated to activities related to the field of ethnomusicology; Option B) Teaching internship in an undergraduate ethnomusicology course at Mason, supervised by the minor coordinator. Notes: All internships must be approved and all arrangements made prior to he beginning of the semester in which the internship is to take place. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: MUSI 103, or MUSI 431; Permission of the Ethnomusicology Minor Coordinator.

Schedule Type: Internship

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 395: Teaching Internship. 1-4 credits.
Internship with a professional individual or organization in teaching. Introduction to teaching or augmentation of teaching skills. Students develop individual contracts defining the learning and competencies to be gained from the experience. Notes: Maximum of 9 internship credits (MUSI 395, 495, 496) can be applied toward a degree. Offered by School of Music (p. 837). May be repeated within the term for a maximum 4 credits.

Recommended Prerequisite: MUSI 251.

Schedule Type: Internship

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 396: Conducting II. 2 credits.
Advanced conducting course emphasizing techniques for instrumental and choral conducting. Refining gestures, full score analysis and interpretation, rehearsal techniques, and changing meters. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 391 or permission of instructor.

Registration Restrictions: Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Studio

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

MUSI 401: Impact of the Arts on Civilization. 3 credits.
Analyzes how genres of art impact us intellectually, emotionally, and subliminally. Broadens aesthetic and historical perspective, exposes students to major strands of contemporary thought, and develops discursive abilities through role-playing in round table discussions. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: 30 credit hours or Permission of Instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 415: Music in Computer Technology. 3 credits.
Overview of ways computer is used in music. Topics include principles of musical instrument digital interface (MIDI); various kinds of synthesis; acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet and surveys current multimedia applications in music history, theory, ear training, improvisation, and notation. Offered by School of Music (p. 837). May not be repeated for credit. Equivalent to MUSI 259, MUSI 515.

Recommended Prerequisite: MUSI 319 or permission of instructor.

Registration Restrictions: Enrollment is limited to students with a major in Music.

Schedule Type: Laboratory, Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 419: Orchestration. 3 credits.
Principles of combining and balancing instruments in orchestral and chamber contexts. Attention to orchestral terminology and general notation as well as timbre, range, clefs, transposition, special effects, and
scoring procedures. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216 and 319, or permission of instructor.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 424:** *Senior Recital*. 1 credit.
Public recital by student during senior year. Notes: Senior recital must be at least 50 minutes long. All recitals by arrangement. Students must consult with director of applied music studies to register and schedule dates. Offered by School of Music (p. 837). Limited to three attempts.

**Mason Core:** Capstone (p. 137)

**Recommended Corequisite:** Concurrent enrollment in 2-credit Applied music course.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may **not** enroll.

**Schedule Type:** Private Music Instruction

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 438:** *Music History in Society IV*. 3 credits.
Historical survey of Western music from late 19th century to present, with emphasis on specific musical genres and composers who developed them. Relates musical developments to other aspects of society, and considers interaction between world music. Lectures, recordings, and video. Learning process enhanced by reading, listening, writing, and analytical assignments. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 216, 331, 332, 431, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 439:** *Music History in Society C*. 3 credits.
Historical survey of Western vernacular and classical music from 1877 to 1945, with emphasis on musical genres, composers, and performers. Musical developments are related to other aspects of society. Instruction conducted by lectures, recordings, and video. Fulfills writing intensive requirement in the BA in music with a concentration in Music Technology. Offered by School of Music (p. 837). Limited to three attempts.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** MUSI 338 or permission of instructor.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 441:** *Private Music Instruction III*. 2-3 credits.
Applied music studies 3. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 27 credits.

**Recommended Prerequisite:** Audition or portfolio of recent compositions.
Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 442: Applied Music in Keyboard. 2-3 credits.
Applied music studies in Keyboard. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 443: Applied Music in Voice. 2-3 credits.
Applied music studies in Voice. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Recommended Corequisite: MUSI 381, 384, or 385.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 444: Applied Music in Woodwind. 2-3 credits.
Applied music studies in Woodwind. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 445: Applied Music in Brass. 2-3 credits.
Applied music studies in Brass. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 446: Applied Music in String. 2-3 credits.
Applied music studies in String. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 447: Applied Music in Percussion. 2-3 credits.
Applied music studies in Percussion. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Audition.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 448: Applied Music in Composition. 2-3 credits.
Applied music studies in Composition. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 27 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 450: Jazz Improvisation I. 2 credits.
Emphasizes improvisational materials and language developed in common practice period of jazz. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 379 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 451: Keyboard Pedagogy II. 3 credits.
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 351 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 452: Jazz Improvisation II. 2 credits.
Emphasis on advanced improvisational techniques and contemporary tunes. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 397 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 453: Jazz Improvisation III. 2 credits.
Emphasis on advanced improvisational techniques and contemporary tunes. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 397 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

MUSI 454: Jazz Arranging. 3 credits.
Transcription, analysis, and scoring for small and large jazz ensembles. Offered by School of Music (p. 837). Limited to three attempts.

Recommended Prerequisite: MUSI 311 or permission of instructor.

Registration Restrictions:
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 455:** *Music as a Healing Art.* 3 credits.
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Basic proficiency with instrument or voice or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 456:** *Pedagogy II.* 2 credits.
Fundamental practical study of methods, literature, sequencing of instruction, and developmental psychology for instrumental or vocal pedagogy. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 351 or MUSI 352 or MUSI 353 or Permission of Instructor.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MUSI 457:** *Pedagogy III.* 2 credits.
Intermediate practical study of methods, literature, sequencing of instruction, and developmental psychology for instrumental or vocal pedagogy. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 456 or Permission of Instructor

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 458:** *Pedagogy IV.* 2 credits.
Advanced practical study of methods, literature, sequencing of instruction, and developmental psychology for instrumental or vocal pedagogy. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 451 or MUSI 457 or Permission of Instructor

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 461:** *The Teaching of Vocal Music in the Secondary School.* 3 credits.
Studies theory, methods, practice, and materials to teach general music in elementary and middle school. Students spend three hours per week in class and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools. Notes: For music majors only. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 114, 216, 273 and acceptance into the Music Education concentration.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 463:** *The Teaching of General Music in the Elementary and Middle School.* 3 credits.
Survey of repertoire and methods for teaching high school choral groups, small ensembles, and voice classes. Students spend three hours per week in class and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216, 273, 391 and acceptance into the Music Education concentration.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 464:** *Instrumental Music Methods I.* 3 credits.
Prepares students to successfully plan, organize, and administer marching band and jazz ensemble programs in secondary public school music curriculum. Students spend three hours per week in class and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216, 273, and acceptance into the Music Education concentration.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 466:** *Instrumental Music Methods II.* 3 credits.
Prepares students to teach instrumental music in elementary, middle, and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216, 273, 391 and acceptance into the Music Education concentration.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 467:** *Instrumental Music Methods I: Orchestra.* 3 credits.
Prepares students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4-12), and explore teaching materials appropriate for individual and class instruction. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Notes: For music majors only. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 214, 216, 273, 361 and acceptance into the Music Education concentration.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 477:** *Music and Consciousness.* 3 credits.
A study of the ways music has affected the mind and brain from throughout history to the present. By using principles of entrainment and resonance, the course demonstrates experientially the various methods by which music is used to alter consciousness. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Basic proficiency with an instrument or voice or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 485:** *Chamber Ensembles.* 1 credit.
Students develop an understanding of major artistic works, including a consideration of how theoretical and historical insights find expression via performance. Performance of works from chamber music repertoire. Notes: Public performances required. Offered by School of Music (p. 837). May be repeated within the term for a maximum 17 credits.

**Mason Core:** Arts (p. 137)

**Recommended Prerequisite:** Audition.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 489:** *Music Technology Capstone.* 3 credits.
This course synthesizes information gained throughout the students’ tenure at George Mason, specifically garnering the ideas and techniques found in the music technology sequence. The student will create a large scale project interfacing technology and music, present this project in a variety of different ways to different audiences, and create a portfolio for future opportunities. Offered by School of Music (p. 837). Limited to three attempts.

**Registration Restrictions:**
Enrollment is limited to students with a concentration in Music Technology.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 490:** *RS: Musical Communication in Context.* 3 credits.
Explains nature of musical communication in a variety of contexts, and combines knowledge gained in Mason Core courses with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. How does music itself communicate, and how do musicians communicate about it with each other and with the world around them? Students address these through essays in the style of a journal or portfolio, substantial paper, and oral presentation of paper before faculty and student panel. Offered by School of Music (p. 837). Limited to three attempts.

**Mason Core:** Capstone (p. 137)

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** Must be in senior year of the B.A. program in Music and have completed all other Mason Core requirements.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 491:** *Musical Communication in Performance.* 1 credit.
Helps student conceive of musical performance as communication in a variety of contexts, and combines knowledge in Mason Core courses
with knowledge and skills specific to the major to serve as a capstone course synthesizing both areas. Students consider various aspects of musical communication to prepare senior recital. Students explore social, historical, analytical, and aesthetic aspects of the music they are to perform by composing essays in the style of a journal or portfolio. Students prepare a substantial paper on recital repertoire and present that paper before a faculty and student panel. Offered by School of Music (p. 837). Limited to three attempts.

**Mason Core:** Capstone (p. 137)

**Recommended Prerequisite:** Completion of all other Mason Core courses for the BM performance concentration.

**Recommended Corequisite:** Concurrent enrollment in the appropriate 3-credit PMI course and in MUSI 424.

**Registration Restrictions:** Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 492:** *Selected Topics in Music.* 1-3 credits.
Topics of practical interest to students in composition, music history and literature, world music, jazz studies, and performance practices. Offered by School of Music (p. 837). May be repeated within the term.

**Recommended Prerequisite:** 45 credits or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MUSI 493:** *Topics in Music Theory.* 3 credits.
Intensive exploration of selected topics in music theory and analysis. Offered by School of Music (p. 837). Limited to three attempts.

**Recommended Prerequisite:** MUSI 216 or permission of the instructor.

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**MUSI 494:** *Pedagogy Internship.* 2 credits.
Internship with a professional pedagogue or educational organization with focus on private music instruction. Students develop individual contracts defining the competencies to be gained from the experience. Offered by DNU Music. Limited to three attempts.

**Recommended Prerequisite:** MUSI 451 or MUSI 457 or Permission of Instructor

**Registration Restrictions:**
Students with the terminated from MUSI major attribute may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 495:** *Internship in Music Education.* 6-12 credits.
Full semester of intensive student teaching experience in approved Virginia schools. Offered by School of Music (p. 837). May not be repeated for credit.

**Mason Core:** Capstone (p. 137)

**Recommended Prerequisite:** Completion of all other courses required for the B.M. with a concentration in music education.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 496:** *Internship.* 2-6 credits.
Contact the department one semester before enrollment. Internships are approved work-study programs with specific employers or agencies. Notes: Credit is determined by the department. Maximum 9 internship credits (MUSI 395, 495, 496) can be applied toward degree. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 90 hours.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 497:** *Independent Study.* 1-3 credits.
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 90 hours.

**Registration Restrictions:**
Enrollment is limited to students with a major in Music.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**MUSI 498:** *Independent Study.* 1-3 credits.
Individual research and study of selected subject in close consultation with instructor. Student may choose from the musicological, ethnomusicological, theoretical, compositional, or educational areas, and produce at least one major written work based on research. Offered by School of Music (p. 837). May not be repeated for credit.
Recommended Prerequisite: Completion of 90 hours.

Registration Restrictions:
Enrollment is limited to students with a major in Music.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

MUSI 501: Graduate Theory Review. 3 credits.
Vocabulary and conceptual review of diatonic and chromatic harmony, part writing, form, harmonization, 20th-century techniques. Notes: Does not count toward required credits of a graduate music degree. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 502: Graduate Aural Skills Review. 3 credits.
Music reading and aural skills including intervals, dictation (melodic and harmonic), scales, chords, rhythms, and meter. Notes: Does not count toward required credits of a graduate music degree. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 515: Music in Computer Technology. 3 credits.
Overview computer use in music. Topics include principles of musical instrument digital interface (MIDI); synthesis, acoustics and sound processing; and musical composition using the computer. Explores music resources of Internet, and surveys multimedia applications in music history, theory, ear training, improvisation, and notation. Offered by School of Music (p. 837). May not be repeated for credit. Equivalent to MUSI 415.

Recommended Prerequisite: Baccalaureate degree in music or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 516: Keyboard Skills. 3 credits.
Enhance keyboard skills for the non-keyboard major, including technique, harmonization, transposition, reading, and accompanying. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 517: Score Reading Skills. 3 credits.
Enhance score study and score reading skills for the conductor. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 525: Performance Seminar and Vocal Literature for Singers and Accompanists I. 2 credits.
Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods
for creating consistently high standards of artistic performance. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 526: Performance Seminar and Vocal Literature for Singers and Accompanists II.** 2 credits.

Students assigned art songs or operatic arias in Italian, German, French, and English, from Baroque to 21st century, and perform in weekly master class format. Develops and improves musical and artistic preparation and performance, increases repertoire, and establishes dependable methods for creating consistently high standards of artistic performance. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 533: Music History Review II.** 3 credits.

Enhance understanding of music history and the context of musical style, from the mid-18th century to today. Notes: Does not fulfill course requirements for graduate music degrees. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 532: Music History Review I.** 3 credits.

Enhance understanding of music history and the context of musical style, chronologically through the mid-18th century. Notes: Does not fulfill courses requirements for graduate degrees in music. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 541:** Diction for Singers I: Italian Diction and English Diction. 2 credits.

Increases proficiency in singing in Italian and English by teaching International Phonetic Alphabet (IPA), and strengthens performance of Italian and English art song and operatic repertoire. Intensified, systematic study of phonetics as it applies to Italian and English. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Graduate status in applied voice or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 542:** Diction for Singers II: German Diction and French Diction. 2 credits.

Increases proficiency in singing in German and French by teaching International Phonetic Alphabet (IPA), and strengthens performance of German and French art songs and operatic repertoire. Intensified, systematic study of phonetics as it applies to singing in German and French. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Graduate status in applied voice or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 551: Keyboard Pedagogy.** 3 credits.
Intensive study of methods, theories, techniques, and materials to teach keyboard to children and adults in individual and group situations. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Graduate status in applied piano or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 552: Vocal Pedagogy and Lab.** 3 credits.
Instruction in teaching voice through systematic study of vocal physiology and its implications for pedagogical methods. Includes theoretical and systematic study of processes, procedures, and practices to develop art of singing. Offers technical, physiological, theoretical, and practical principals of the singing art, with emphasis on vocal health. Offered by School of Music (p. 837). May not be repeated for credit. Equivalent to MUSI 352.

**Recommended Prerequisite:** Graduate status in applied voice or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 553: Instrumental Pedagogy and Literature.** 3 credits.
Instruction in teaching of instrumental music techniques for all levels through the study of pedagogical methods, standard literature, and musical instruments produced by present-day manufacturers. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate in music, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 555: Music as a Healing Art.** 3 credits.
Study of the relationship between musical vibrations and the natural rhythms of the body. Topics include history of music and healing, theory of sound, cymatics, toning, and performance practice as well as a survey of vibrational healing modalities and related therapies. Considers listening examples as they apply to healing with music. Students sing and play instruments in directed improvisatory performance. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Basic proficiency with instrument or voice, and bachelor's degree in music.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 557: Kodaly I.** 3 credits.
In depth study of Kodaly, concentrating in four areas: Methodology, Materials, Solfege, and Conducting Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 557 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 558: Kodaly II.** 3 credits.
Continues to build on and expand Kodaly knowledge and skills in the four areas: Methodology, Materials, Solfege, and Conducting Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 557 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 559: *Kodaly III*. 3 credits.
Completion of Kodaly training, finishing Kodaly Methodology, Materials, Solfege, and Conducting Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: MUSI 558 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 561: *Music Curriculum and Instructional Procedures*. 3 credits.
This graduate course is designed to prepare students for a job in the elementary or middle school general music classroom. Classes will equip students with the competencies necessary to plan, create, implement, and evaluate a general music curriculum. Current trends, materials, methods, and approaches in music education will be reviewed. Offered by School of Music (p. 837). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 563: *Orff Schulwerk I*. 3 credits.
Intensive introduction to Orff teaching philosophy with practical and theoretical instruction and immersion in the method itself. Students learn concepts of rhythm, harmony, solfege, modes, improvisation, and pedagogy. Students learn basic performance technique on soprano recorder, and learn to apply movement and dance in their teaching. Offered by School of Music (p. 837). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 564: *Orff Schulwerk II*. 3 credits.
Continues intensive study of Orff teaching philosophy with practical and theoretical instruction and immersion. Teaches further concepts of rhythm and meter including asymmetrical patterns. Reviews pentatonic modes and their transpositions, studies pentachordal and hexachordal scales, and begins intensive work with diatonic modes. Students work with a variety of percussion instruments including body percussion, unpitched instruments, and barred instruments. They sing and play soprano, alto, tenor, and bass recorders. Movement studies continue with intensive study of vocabulary of dance and mime. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: MUSI 563 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 565: *Orff Schulwerk III*. 3 credits.
Continues intensive study of Orff teaching philosophy to complete certification process in Orff Schulwerk. Students continue intensive work in rhythm, melody, harmony, timbre, form, and pedagogy. Tenor, bass, and soprano recorders introduced. Movement and rhythmic studies concentrate on mixed meters and non-Western source materials and styles. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: MUSI 563 and 564 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
MUSI 566: Instrumental Methods for Band. 3 credits.
This course prepares students to teach instrumental music in elementary and secondary schools. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Offered by School of Music (p. 837). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 567: Instrumental Methods, Strings. 3 credits.
Provides students to successfully plan, organize, and administer string classes from the beginning levels through performing ensembles (grades 4-12), and to explore teaching materials appropriate for individual and class instruction. Three hours per week spent in class, one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in public schools. Offered by School of Music (p. 837). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 568: Vocal and Choral Methods. 3 credits.
A survey course that introduces repertoire and methods for teaching middle and high school choral groups, small ensemble and voice classes. Students spend three hours per week in class, and one hour per week observing and teaching in laboratory ensemble. Students also participate in field observation of music classes in the public schools. Offered by School of Music (p. 837). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 571: Techniques of Accompanying I. 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Admission to graduate-level Private Music Instruction in a keyboard instrument or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 572: Techniques of Accompanying II. 1 credit.
Development of accompanying skills through collaboration with solo singers, instrumentalists, and small ensembles. Students perform for each other; observe lectures, demonstrations and performances by professionals; and participate in master classes. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Admission to graduate-level Private Music Instruction in a keyboard instrument or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 577: Music and Consciousness.** 3 credits.
A Study of the ways music has affected the mind and brain from throughout history to the present day. By using the principles of entrainment and resonance, it will be demonstrated experientially the various methods by which music is used to alter consciousness. Offered by School of Music (p. 837). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 595: Internship in Music Education.** 6-9 credits.
This course prepares students to successfully plan and implement pedagogical strategies for the effective teaching of instrumental music. Students will also gain experience administering a music program in the elementary and secondary school music curriculum. Students will participate in class teaching modules and field experiences in the public schools. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:**
Completion of all courses required for the Graduate Certificate in Music Education Licensure for PK-12. 2. Successful completion of the Music Education "Instrumental Proficiency Exam" requirements listed in the Music Education Handbook. 3. Successful completion of the Praxis I Examination (or equivalency), and VCLA (or Praxis I equivalency).

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**600 Level Courses**

**MUSI 610: Topics in Music Theory.** 3 credits.
Uses music analytical theories to examine repertoire from a given time period or style. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** MUSI 501, 502, and 516 or appropriate score on graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 593: Foundations of Music Education.** 3 credits.
This course prepares students to address aspects of administration management of music programs in public and private schools. Various principles and concepts of management styles and planning are investigated. Topics addressed include: curriculum, budget, student recruitment and retention, music facilities, external relations of the music unit and legal issues for music educators. Offered by School of Music (p. 837). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Title varies by section and/or semester

**MUSI 592: Topics in Music.** 1-6 credits.
Intensive study of selected topics in performance, composition, or conducting. Individual research, group discussions, and participation in related activities. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the term for a maximum 12 credits.

**Recommended Prerequisite:** Baccalaureate degree in music.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 613: Graduate Orchestration.** 3 credits.
Intensive study of instrumentation through analysis and arrangement. Includes contemporary techniques and scoring for large forces. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** MUSI 501, 502, and 516 or appropriate score on the graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 614: Music Theory Pedagogy.** 3 credits.
Study of materials and procedures in the teaching of undergraduate-level music theory subjects. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 615: Advanced Jazz Improvisation.** 3 credits.
Advanced techniques and applications of jazz improvisation. Offered by School of Music (p. 837). May not be repeated for credit.

**Recommended Prerequisite:** Graduate placement exam or permission of instructor.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type**: Private Music Instruction

**Grading**: This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 624: Applied Music in Woodwind.** 1 credit.  
Applied music studies in Woodwind. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite**: Audition.

**Registration Restrictions**:  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.  
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type**: Private Music Instruction

**Grading**: This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 625: Applied Music in Brass.** 1 credit.  
Applied Music studies in Brass. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite**: Audition.

**Registration Restrictions**:  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.  
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type**: Private Music Instruction

**Grading**: This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 626: Applied Music in String.** 1 credit.  
Applied Music studies in String. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite**: Audition.

**Registration Restrictions**:  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.  
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type**: Private Music Instruction

**Grading**: This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 627: Applied Music in Percussion.** 1 credit.  
Applied Music studies in Percussion. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite**: Audition.

**Registration Restrictions**:  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.  
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type**: Private Music Instruction

**Grading**: This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 628: Applied Music in Composition.** 1 credit.  
Applied Music studies in Composition. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite**: Portfolio of recent compositions.

**Registration Restrictions**:  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.  
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type**: Private Music Instruction

**Grading**: This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 629: Applied Music in Conducting.** 1 credit.  
Applied Music studies in Conducting. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite**: Audition.

**Registration Restrictions**:  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.  
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type**: Private Music Instruction

**Grading**: This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 630: Topics in Music History and Literature.** 3 credits.  
Examination of a musical style, genre, composer, compositional school, or historical development. Primary and secondary source materials studied in historical and analytical contexts. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.
Recommended Prerequisite: MUSI 532 and 533 or appropriate score on the graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 532: Topics in Jazz Studies. 3 credits.
Study of selected topics in performance, composition, arranging and analysis. May be repeated for up to 9 credits as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Graduate placement exam or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 533: Topics in World Musics. 3 credits.
Study of musics from selected cultures. Students will study structural, social, and cognitive foundations of the music. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 534: Topics in Jazz Studies. 3 credits.
Study of selected topics in performance, composition, arranging and analysis. May be repeated for up to 9 credits as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Graduate placement exam or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 535: Topics in World Musics. 3 credits.
Study of musics from selected cultures. Students will study structural, social, and cognitive foundations of the music. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 536: Keyboard Pedagogy I. 3 credits.
Develop effective teaching strategies, business practices, and investigative/diagnostic approaches in repertoire exploration to prepare/improve teaching abilities in independent studio. Examine professional role of independent piano teacher, investigate scope and sequence of repertoire development, explore creative activities and computer use in the studio, develop understanding of technical skill development, examine intermediate/advanced keyboard repertoire, explore various teaching strategies/philosophies. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Keyboard Pedagogy I.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 537: Vocal Pedagogy II. 3 credits.
A continuation of vocal pedagogy I, which focused on teaching voice through the rudimentary and systematic study of vocal physiology and pedagogical methods, and included the process, procedures, development and practice of the art of singing. Pedagogy II provides students the opportunity to apply this information to real life situations through use of four specific scenarios and practical teaching experience. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Vocal Pedagogy I.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 538: Instrumental Pedagogy II. 3 credits.
Prepares students for teaching string techniques of their major instrument for all levels through study of pedagogical methods and standard literature. Develop sound business practices/policies to ensure success in setting up a private studio; become familiar with local/national professional organizations serving the string teaching community; explore teaching abilities through a case study project involving one or more students. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Instrumental Pedagogy I.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 654: Graduate Conducting. 3 credits.
Classroom study of conducting, including refining gestures, rehearsal leadership, and the communication of musical style. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Baccalaureate degree in music; graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

MUSI 660: Topics in Music Education. 1-6 credits.
Examination of specific areas of concern to music educators. Individual research, group discussions, and participation in related activities. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: Baccalaureate degree in music; graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

MUSI 661: Psychology of Music Teaching and Learning. 3 credits.
Study of the learner's musical behaviors (affective, cognitive, and psychomotor) in an effort to devise an empirically based teaching method founded on learning principles. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music; graduate placement exam.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

MUSI 662: Introduction to Research in Music. 3 credits.
Development of skills, attitudes, and understanding to conduct and report research in music, including philosophical bases, scope and organization, stylistic practices in writing research reports, study of materials and resources in music and music education, and proper use of library and other research services. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

MUSI 663: Aesthetics of Music Education. 3 credits.
Study of philosophical foundations of contemporary music education, and critical examination of music programs and activities in aesthetic education and efforts by music education establishment to enhance them. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 664: Advanced Pedagogy. 3 credits.
Advanced instruction in pedagogy including study of methods, theories, techniques, and materials for teaching children and adult students. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: MUSI 551, or MUSI 552, or MUSI 553, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 681: Graduate Choral Ensembles. 1 credit.
Performance of works from the choral repertoire. Notes: Public concerts are given. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 683: Symphonic Band. 1 credit.
Performance of works from band repertoire. Notes: Public concerts are given. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 685: Graduate Chamber Ensemble. 1 credit.
Performance of works from chamber music repertoire. Notes: Public concerts are given. Offered by School of Music (p. 837). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 686: Symphony Orchestra. 1 credit.
Performance of works from orchestral repertoire. Notes: Public concerts are given. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 688: Opera and Musical Theater Ensemble. 3 credits.
Solo-vocal, performance-oriented ensemble class that presents operatic works or excerpts from them, from Baroque to 21st century, as well as works or excerpts from American musical theater. Offered by School of
Music (MUSI). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 689:** *Jazz Ensemble.* 1 credit.
Provides practical experience in aspects of jazz performance. Participation in section rehearsals and small and large jazz groups. Jazz improvisation expected. Notes: Public concerts are given. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 690:** *Graduate Lecture Recital.* 1-3 credits.
Combination of musical performance and scholarly presentation on a well-defined topic. Notes: Public presentation required. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Baccalaureate degree in music, audition.

**Recommended Corequisite:** MUSI 621 (3-credit level).

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 695:** *Teaching Internship.* 2 credits.
Teaching beginner, intermediate, and early advanced students in private or group lessons under faculty supervision. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** MUSI 660.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 699:** *Independent Study.* 1-3 credits.
Individual research and study a concentration available in the master of music. Offered by School of Music (p. 837). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Baccalaureate degree in music and permission of graduate coordinator. Individualized section form required.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**MUSI 710:** *Advanced Topics in Music Theory.* 3 credits.
Advanced study of specific styles and repertoire from the perspective of various analytical approaches. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** MUSI 501, 502, and 516 or appropriate score on graduate placement exam.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester
MUSI 712: Composition for Conductors and Performers. 3 credits. Advanced study of new music for various media. Notes: This course is not for students in the composition concentration. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

MUSI 720: Advanced Topics in Applied Music. 3 credits. Advanced study of concepts in applied music. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 721: Applied Music. 2-3 credits. Applied music studies. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition or portfolio.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Grading: This course is graded on the Graduate Regular scale. (p. 82)

MUSI 722: Applied Music in Keyboard. 2-3 credits. Applied music studies in Keyboard. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Grading: This course is graded on the Graduate Regular scale. (p. 82)

MUSI 723: Applied Music in Voice. 2-3 credits. Applied music in Voice. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Grading: This course is graded on the Graduate Regular scale. (p. 82)

MUSI 724: Applied Music in Woodwind. 2-3 credits. Applied music studies in Woodwind. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Grading: This course is graded on the Graduate Regular scale. (p. 82)

MUSI 725: Applied Music in Brass. 2-3 credits. Applied music studies in Brass. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Grading: This course is graded on the Graduate Regular scale. (p. 82)

MUSI 726: Applied Music in String. 2-3 credits. Applied music studies in String. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Grading: This course is graded on the Graduate Regular scale. (p. 82)
MUSI 727: Applied Music in Percussion. 2-3 credits.
Applied music studies in Percussion. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 728: Applied Music in Composition. 2-3 credits.
Applied music studies in Composition. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 729: Applied Music in Conducting. 2-3 credits.
Applied music studies in Conducting. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 730: Advanced Topics in Music History. 3 credits.
Advanced study of specific genres, composers, or repertoire from a historically analytical perspective. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the term for a maximum 9 credits.

Recommended Prerequisite: MUSI 532 and 533 or appropriate score on the graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 760: Advanced Topics in Music Education. 3 credits.
Advanced study of selected issues in music education. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 770: Advanced Topics in Pedagogy. 3 credits.
Advanced study of a specific topic in the pedagogy of music. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Baccalaureate degree in music, graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

MUSI 777: Music and Consciousness 2. 3 credits.
The scientific mechanisms behind vibrational healing are uncovered showing how energy medicine affects Well-Being in a positive way. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: MUSI 577 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 780: Doctoral Research Methods in Music. 3 credits.
Development of analytical skills to design and create an original contribution to music scholarship at the doctoral level, by making students aware of the varied tools available to them to write a mock dissertation proposal. Offered by School of Music (p. 837). May not be repeated for credit.

Recommended Prerequisite: Graduate Placement exam.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students. 

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 790:** *Graduate Recital*. 1 credit.
Public performance. Repertoire and performance standards as approved by faculty. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** At least three credits of graduate PMI in the appropriate instrument or voice.

**Recommended Corequisite:** MUSI 700-level PMI (3-credits).

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Private Music Instruction

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 796:** *Directed Reading/Research*. 1-3 credits.
Individualized study on a topic approved by faculty. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Baccalaureate degree in music, graduate placement exam.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**MUSI 800:** *Studies for the Doctor of Philosophy in Education*. 1-6 credits.
Program of studies designed by the student's discipline director and approved by student's doctoral committee that brings student to participate in research, performance, or creative activity of discipline director and results in a paper reporting original contributions. Offered by School of Music (p. 837). May be repeated within the degree.

**Recommended Prerequisite:** Open only to PhD Education students admitted to study in music.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 810:** *Doctoral Seminar in Analysis*. 3 credits.
Seminar study of a specific genre or repertoire from various analytical perspectives. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** Graduate placement examination.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**MUSI 821:** *Doctoral Private Music Instruction*. 2-3 credits.
Private instruction in performance, conducting, or composition. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition or portfolio.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**MUSI 822:** *Doctoral Applied Music in Keyboard*. 2-3 credits.
Doctoral applied music studies in Keyboard. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

**Recommended Prerequisite:** Audition.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Private Music Instruction

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
MUSI 823: Doctoral Applied Music in Voice. 2-3 credits.
Doctoral applied music studies in Voice. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 824: Doctoral Applied Music in Woodwind. 2-3 credits.
Doctoral applied music studies in Woodwind. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 825: Doctoral Applied Music in Brass. 2-3 credits.
Doctoral applied music studies in Brass. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 826: Doctoral Applied Music in String. 2-3 credits.
Doctoral applied music studies in String. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 827: Doctoral Applied Music in Percussion. 2-3 credits.
Doctoral applied music studies in Percussion. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 828: Doctoral Applied Music in Composition. 2-3 credits.
Doctoral applied music studies in Composition. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Portfolio of recent compositions.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 829: Doctoral Applied Music in Conducting. 2-3 credits.
Doctoral applied music studies in Conducting. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 830: Doctoral Seminar in Music History. 3 credits.
Seminar study of a specific genre, composer, or repertoire from a historically analytical perspective. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 860: Doctoral Seminar in Music Education. 3 credits.
Seminar study of a specific issue in music education. Notes: May be repeated as topics change. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Graduate placement exam.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 880: Doctoral Major Ensemble. 1 credit.
Selective ensemble experience for doctoral students in music. Notes: Public concerts are given. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.
Recommended Prerequisite: Audition.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Studio

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

MUSI 890: Doctoral Recital. 1 credit.
Public performance. Repertoire and performance standards as approved by faculty. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 4 credits.

Recommended Prerequisite: At least three credits of MUSI 821 in the appropriate instrument or voice.

Recommended Corequisite: MUSI 821 for 3 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Private Music Instruction

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

900 Level Courses

MUSI 998: Dissertation Proposal. 1-3 credits.
Preparation of a proposal for a dissertation study in music under the supervision of music faculty members. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to a doctoral program in music, permission of faculty.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

MUSI 999: Dissertation. 1-12 credits.
Preparation of a dissertation in music under the supervision of music faculty members. Offered by School of Music (p. 837). May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Nanotechnology and Nanoscience (NANO)

500 Level Courses

NANO 500: Introduction to Nanomaterials and Interactions. 3 credits.
Introduction to nanotechnology. Discussion of the Feynman challenge and its relation to modern science. Applications to nanostructures of charges, currents, diamagnetics, paramagnetics, and ferromagnetics. Offered by Computational & Data Sciences (p. 668). May not be repeated for credit.

Recommended Prerequisite: BS in any physical science, mathematics, or engineering; or permission of certificate director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NANO 510: Strategies for Nanocharacterization. 3 credits.
Introduces various nanocharacterization techniques, with a discussion of which techniques are most useful in various applications. Includes gates and bridges, chemical thermodynamics, kinetics, and solid-state reactions. Offered by Computational & Data Sciences (p. 668). May not be repeated for credit.

Recommended Prerequisite: NANO 500 or permission of certificate director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NANO 520: Survey of Nanostructures. 3 credits.
Discusses nanomechanical oscillators and nanoresonators, nanofibers, and conducting polymer nanowires. Nanomechanical beams for reacting ion etching. Electron-beam lithography and photolithography. Offered by Computational & Data Sciences (p. 668). May not be repeated for credit.

Recommended Prerequisite: NANO 500 and 510 or permission of certificate director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NANO 530: Nanofabrication.** 3 credits.
Covers pulsed laser deposition, molecular beam epitaxy, controlled vapor deposition, reactive sputtering, and doping and implant isolation. Offered by Computational & Data Sciences (p. 668). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500 and 510, or permission of certificate director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NANO 540: Nanotechnology in Commerce and Government.** 3 credits.
Discusses competitive position of United States and other countries in nanoscience and nanotechnology. Covers business strategies, environmental, and public health aspects of nanotechnology applications. Also introduces students to issues involving legal, economic, social, and political controls over nanotechnology and nanoscience research. Offered by Computational & Data Sciences (p. 668). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500, 510, and 520, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NANO 610: Nanoelectronics.** 3 credits.
Introduces basic elements of nanoelectronic structures, including quantum layers, quantum wires, and quantum dots. Covers subband structure, transport in quantum layers, behavior in the presence of magnetic fields, Coulomb blockades, CMOS nanodevices and nanoelectronics, and SOI multigate device physics and modeling. Offered by Computational & Data Sciences (p. 668). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500, 510, and 520, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NANO 620: Computational Modeling in Nanoscience.** 3 credits.
Introduction to simulation methods used in nanoscience. Covers computational approaches to modeling molecular and condensed matter at the nanoscale level, including interatomic and molecular potentials, molecular mechanics, molecular dynamics, monte carlo averaging, ensemble distributions, numerical sampling, thermodynamic functions, dynamic structure, and introduction to cellular automata. Offered by Computational & Data Sciences (p. 668). May not be repeated for credit.

**Recommended Prerequisite:** NANO 500, 510, and 520, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Native American and Indigenous Studies (NAIS)**

**200 Level Courses**

**NAIS 201: Introduction to Native American and Indigenous Studies.** 3 credits.
Introduction to the history, social organization, political experience, and artistic expression of indigenous peoples of the western hemisphere, focusing primarily on American Indians, using methods and materials from a number of disciplines. Offered by English (p. 354). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
400 Level Courses

NAIS 499: Independent Study. 3 credits.
Intensive study of a particular area, topic, or critical or theoretical problem related to Native American and Indigenous Studies to be conducted in close consultation with an instructor. At least one substantial, researched piece of written work required. Offered by English (p. 354). May not be repeated for credit.

Schedule Type: Independent Study
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Neuroscience (NEUR)

100 Level Courses

NEUR 101: Introduction to Neuroscience. 3 credits.
This course is for students interested in the science of the brain from its evolutionary origins to its role in health and behavior. We examine systems that make up the brain from neurons to circuits. We explore trends in neuroscience experimentation including neuroimaging, computational neuroscience and neuropharmacology. Offered by Neuroscience (p. 770). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

NEUR 327: Cellular, Neurophysiological, and Pharmacological Neuroscience. 3 credits.
Basic concepts of cellular and molecular level neuroscience, including neuronal functions, cellular anatomy and membrane functions, electrical properties of neurons, and cellular basis of plasticity. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: CHEM 211, PSYC 375 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NEUR 335: Molecular, Developmental, and Systems Neuroscience. 3 credits.
In-depth survey of genetic and embryological development of the brain and introduction to systems neuroscience, including sections on patterning gene expression, generation and migration of neurons, axonal and dendritic outgrowth, and basic neuroanatomy. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: PSYC 373 (may also be enrolled concurrently), PSYC 376.

Schedule Type: Laboratory, Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

NEUR 405: RS: Laboratory Methods in Behavioral Neuroscience. 3 credits.
Introduction to experimental methods used in behavioral neuroscience research. Laboratory work includes surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed. This requires working with laboratory rodents. Offered by Neuroscience (p. 770). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive
Recommended Prerequisite: PSYC 300, BIOL 312 or equivalent. PSYC 372 or PSYC 376 or permission of instructor.

Schedule Type: Laboratory
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NEUR 406: Zebrafish Neurodevelopment Laboratory. 3 credits.
Introduction to experimental methods used in neurodevelopment research, using zebrafish as a model system. Includes zebrafish embryo manipulation, microscopy, and histology, with a focus on vertebrate nervous system development and disease. Experimental design, research methods, data analysis and ethical issues are addressed. Scholarly research projects are incorporated. Notes: This requires working with live zebrafish embryos. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: PSYC 300, BIOL 312 or equivalent. BIOL 213, NEUR 327 and NEUR 335.

Schedule Type: Laboratory
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NEUR 410: Current Topics in Neuroscience. 3 credits.
Overview of current topics in neuroscience, focusing on research at Mason. Offered by Neuroscience (p. 770). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major
Recommended Prerequisite: PSYC 375, 376, ENGH 302. NSCI 327 recommended.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

NEUR 411: Seminar in Neuroscience. 3 credits.
Advanced seminar on a selected topic in neuroscience. Includes in depth reading and discussion of current research in human and nonhuman animals, with an emphasis on critical evaluation. Notes: Course may be repeated if selected topic is different. Offered by Neuroscience (p. 770). May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Writing Intensive in the Major
Recommended Prerequisite: PSYC 375, 376, ENGH 302. NEUR 327 and NEUR 335 recommended.

Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
**NEUR 440: Independent Study in Neuroscience.** 1-3 credits.
Independent research based a laboratory or field investigation under the guidance of a faculty member, assisting with research on faculty projects, or reviewing the literature on a specific research topic. Notes: A maximum of 6 hours of independent study may be applied towards the major. Offered by Neuroscience (p. 770). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** NEUR 327, 30 hours of course work with a grade point average of 3.0, or permission of instructor.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NEUR 450: Honors Thesis Proposal.** 2-3 credits.
Work on proposal for thesis based a laboratory or field investigation under the guidance of a faculty member. Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 2 hours and a maximum of 3 hours may be taken in NEUR 450. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Recommended Prerequisite:** NEUR 327, 335; 410 or 411, may be taken as co-requisites. PSYC 300 or equivalent statistics course. Permission of NAC undergraduate committee and thesis director.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**NEUR 451: Honors Thesis.** 3-4 credits.
Thesis based a laboratory or field investigation under the guidance of a faculty member. Notes: A total of 6 hours must be taken in NEUR 450 and 451. A minimum of 3 hours and a maximum of 4 hours may be taken in NEUR 451. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Recommended Prerequisite:** NEUR 450.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**NEUR 461: Special Topics in Neuroscience.** 1-3 credits.
Selected topics reflecting specialized areas of neuroscience. Notes: May be repeated for credit when topic is different. Offered by Neuroscience (p. 770). May be repeated within the term for a maximum 12 credits.

**Recommended Prerequisite:** PSYC 372, 375, or equivalent or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**NEUR 480: Biological Bases of Alzheimer’s Disease.** 3 credits.
A survey of the causes, symptoms, drug treatments, risk factors and preventative measures associated with Alzheimer’s disease. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 375; PSYC 376; PSYC 375 or equivalent or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**500 Level Courses**

**NEUR 592: Special Topics in Neuroscience.** 3 credits.
Special topics in neuroscience reflecting specialized areas or new subfields that not covered in fixed-content neuroscience courses. Course may be repeated for credit as needed. Offered by Neuroscience (p. 770). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** NEUR 327, NEUR 335 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**600 Level Courses**

**NEUR 600: Chemistry and the Brain.** 3 credits.
Fundamentals of general chemistry, atoms, molecules, and reactions, with emphasis on water solutions. Organic compounds and functional groups, biosynthesis and properties, and examples from nervous system. Also includes biopolymers and their roles in cellular and neuronal organization, ionic channels, neurotransmitter receptors, and psychoactive substances. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Recommended Prerequisite:** Admission to neuroscience PhD program or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NEUR 601: Developmental Neuroscience.** 3 credits.
Introduction to developmental neurobiology with overview of embryological development of the nervous system. Topics include neural induction, patterning/cell fate specification, and neural circuit assembly together with modern molecular methods for exploring neural
development. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 60 credits, including PSYC 372 or BIOL 213 or BIOL 303.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NEUR 604: Ethics in Scientific Research.** 1-3 credits.
Reflects on purpose of scientific research and reviews foundational principles for evaluating ethical issues. Offers skills for survival in scientific research through training in moral reasoning and teaching of responsible conduct. Discusses ethical issues in research, and teaches how to apply critical thinking skills to design, execution, and analysis of experiments. Issues include using animals and humans in research, ethical standards in computer community, and research fraud. Currently accepted guidelines for behavior in data ownership, manuscript preparation, and conduct of persons in authority may be presented and discussed in terms of relevant ethical issues. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree, Undergraduate or Washington Consortium level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NEUR 612:** Mammalian Neuroanatomy. 3 credits.
Focus on mammalian brain organization and function, emphasizing human neurobiology. Modern experimental and clinical tools explain: gross and microscopic brain organization; functional brain circuits for sensory and motor processing; higher brain organization and function; and development of selected brain areas. The knowledge gained is then used to explain the clinical symptoms occurring after specific brain insults. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Recommended Prerequisite:** Any course in neuroscience or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NEUR 612:** Neuroethics. 3 credits.
Neuroethics explores the implications of developments in basic and clinical neuroscience on social and ethical issues. This course will survey emerging questions raised by recent neuroscientific discoveries on genetic and environmental factors that influence human behavior, decision-making, personality traits, and mental states. Grades will be based on article presentation, class participation, and final written report. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Graduate Regular scale. (p. 82)

NEUR 621: *Synaptic Plasticity.* 3 credits.
Course on activity-dependent modification of functional connectivity in the central nervous system as it relates to development, cognition, and disease. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Recommended Prerequisite:** NEUR 602.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Graduate Regular scale. (p. 82)

NEUR 634: *Neural Modeling.* 3 credits.
Introduces the objectives, philosophy, and methodology of neuronal modeling. Instructs students in the use of some of the more popular neural modeling software packages. Students learn the syntax of several software packages, how to create neurons from subcellular components, and how to create networks by connecting neuron models. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Recommended Prerequisite:** NEUR 602 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Graduate Regular scale. (p. 82)

NEUR 651: *Molecular Neuropharmacology.* 3 credits.
Provides an in-depth survey of receptor driven cell function, which includes recent topics in cell structure, membrane function, electrical properties of neurons and intracellular signaling. Enables an introduction to research tools and rends in study of neuronal systems via a reading and an analysis of the primary literature. Offered by Neuroscience (p. 770). May not be repeated for credit.

**Recommended Prerequisite:** NEUR 602 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory
Grading: This course is graded on the Graduate Regular scale. (p. 82)

NEUR 670: *Research Methods.* 3 credits.
Trains students in research methodologies for life sciences. Covers the four aspects of biological research projects: experimental design, data collection, data analysis and research ethics. Offered by Neuroscience (p. 770). May not be repeated for credit.
Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NEUR 703: Laboratory Rotation and Readings. 3 credits.
Intensive introduction to a research laboratory in neuroscience. The student will read background material pertinent to the problem under study, learn and practice research methods of the laboratory, and formulate a short final project, which may be a proposal or an actual project, demonstrating some mastery of the techniques and approaches employed. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: Admission to the PhD program in Neuroscience.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NEUR 709: Neuroscience Seminars. 1 credit.
Special overview of neuroscience research at Mason. Each week, a different neuroscience laboratory and principal investigator lectures to students. The lecture includes the neuroscience basics necessary to appreciate the laboratory research theme and mission, and a more practical description of the active research program, possibly including a visit to the laboratory. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: Admission to the Neuroscience PhD program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NEUR 710: Special Topics in Neuroscience. 1 credit.
Examines topics in neurosciences, including neurogenetics, neural imaging, and the competing computational and biological approaches to understanding the mind. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: Admission to the Neuroscience PhD program.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NEUR 714: Introduction to Neuroimaging. 3 credits.
Introduction to physics and techniques of magnetic resonance imaging (MRI) and their applications to clinical and basic neuroscience. Students learn about the protocols used in the acquisition of images in both structural and functional contexts, and experimental paradigms applied to the exploration of cognition, learning, and development. Students gain experience with creating an experimental design for a study and understanding practical logistics involved in imaging, such as MRI safety and subject screening. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or 603, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NEUR 742: Cognitive Neuroscience. 3 credits.**
Introduces cognitive neuroscience topics, including aspects of cognitive science covering an array of perceptual, sensory, cognitive, and affective processes. Incorporates studies of brain lesions, brain imaging, and animal and computational models. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or NEUR 603 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NEUR 751: Applied Dynamics in Neuroscience. 3 credits.**
Covers recent developments in the application of applied dynamics to neuroscience. Emphasizes dynamical system approach to the understanding of neural processes. Topics include neural synchrony and control; formation of waves; oscillations; patterns within neural ensembles; network topology and dynamics of neurons; and decoding and encoding of neural signals. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: CSI 734, PSYC 531, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NEUR 752: Modern Instrumentation in Neuroscience. 3 credits.**
Builds on knowledge of how and what things are measured and controlled in modern bioinstrumentation. Topics include fundamental instrumentation; principles of sensing; basic electronics; computer interfaces and data acquisition; signals in biological systems; biopotential and ionic concentration measurements; and optical techniques. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: NEUR 602 or 734, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NEUR 753: Advanced Computation and Brain Dynamics. 3 credits.**
In-depth study of open issues and the state-of-the-art in advanced brain dynamics. Using mathematical and physical models, the course covers the neurodynamical aspects of neural nets, receptive fields, ion-channels, intercortical interactions, phase-locking, synchronicity, and the possible nontrivial role of quantum effects. Offered by Neuroscience (p. 770). May not be repeated for credit.

Recommended Prerequisite: Admission into the NEUR doctoral program and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NEUR 951: Doctoral Reading and Research. 3,6 credits.**
Reading and research on specific topic in neuroscience under direction of faculty member. Offered by Neuroscience (p. 770). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Admission into the NEUR doctoral program and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**NEUR 996: Dissertation Proposal. 1-6 credits.**
Covers development of a research proposal under guidance of dissertation director and doctoral committee. Proposal forms the basis for the doctoral dissertation. Notes: No more than a total of 24 credits in NEUR 998 and 999 may be applied toward satisfying doctoral degree requirements. Out of the 24, no more than 12 credits of NEUR 998 may be applied. Offered by Neuroscience (p. 770). May be repeated within the degree.

Recommended Prerequisite: Admission to the Neuroscience Ph.D. program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**NEUR 999: Doctoral Dissertation. 1-12 credits.**
Doctoral research performed under the direction of the dissertation director. Notes: No more than a total of 24 credits in NEUR 998 and 999 may be repeated for credit.
may be applied toward satisfying doctoral degree requirements. Students must email mhayes5@gmu.edu for permission and CRN to register. Offered by Neuroscience (p. 770). May be repeated within the degree.

**Recommended Prerequisite:** Advancement to candidacy in the Neuroscience Ph.D. program. Students must email mhayes5@gmu.edu for permission and CRN to register.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

### Nursing (NURS)

#### 300 Level Courses

**NURS 305: Application of Basic Nursing Techniques.** 1 credit.
To be taken fall semester of accelerated second degree program. Introduces basic nursing technologies, and provides opportunities to apply these skills in simulated technology lab. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Acceptance into accelerated nursing pathway.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment is limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 309: Introduction to Basic Nursing Care.** 3 credits.
Enrollment restricted to second-degree students only. Introduces basic fundamentals of nursing care across the life span. Emphasis on nursing process, critical thinking, and foundational technologies and skills required to practice in the health care setting. Notes: Enrollment restricted to second-degree students only. Requires acceptance into the accelerated nursing pathway. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment is limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 310: Application of Basic Nursing Care.** 4 credits.
Application of basic nursing care in acute care settings utilizing the nursing process. Note: Open only to second degree students. Enrollment is controlled. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**

Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
NURS 334: *Nursing as a Health Profession and Discipline*. 2 credits.
Introduces nursing as a dynamic and caring health profession. Explores nursing's impact through health promotion and disease prevention activities on the health status of culturally diverse and vulnerable individuals, families, small groups, and communities across the life span. Incorporates nursing theory and critical thinking processes as they apply to the art and science of nursing. Provides historical perspectives on ethical, legal, political, and social issues. Offered by Nursing. (p. 282). May not be repeated for credit.

Registration Restrictions:
Enterrollment is limited to students with a major in Nursing.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 336: *Concepts in Professional Nursing as a Discipline*. 3 credits.
Provides an analysis of the profession and explores nursing philosophies and theories. Explores legal, ethical, political, and technological issues in health care at various nursing levels. Addresses critical thinking and its application to the collaborative nursing process. Utilizes the American Psychological Association formatting style for professional writing within the nursing profession. Notes: Must be admitted to the RN-to-BSN program. Offered by Nursing. (p. 282). May not be repeated for credit.

Registration Restrictions:
Enterrollment is limited to students with a major in Nursing.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 337: *Application of Nursing Fundamental Technologies*. 1 credit.
Opportunity to practice health assessment and fundamental nursing technologies while using communication skills with culturally diverse and vulnerable populations in a variety of settings. Offered by Nursing. (p. 282). May not be repeated for credit.

Recommended Prerequisite: Junior standing.

Recommended Corequisite: NURS 312.

Registration Restrictions:
Enterrollment is limited to students with a major in Nursing.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Laboratory course to assist students in acquiring therapeutic nursing interventions. Technologies presented are asepsis and wound care, administration of medications including dosage calculations, and management of intravenous therapy. Offered by Nursing. (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 312, 330, 337, 347, 425.

Registration Restrictions:
Enterrollment is limited to students with a major in Nursing.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 344: *Nursing as a Health Profession and Discipline*. 2 credits.
Introduces nursing as a dynamic and caring health profession. Explores nursing's impact through health promotion and disease prevention activities on the health status of culturally diverse and vulnerable individuals, families, small groups, and communities across the life span. Offered by Nursing. (p. 282). May not be repeated for credit.

Registration Restrictions:
Enterrollment is limited to students with a major in Nursing.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
NURS 349: *Pediatric Pathophysiology and Nursing Care.* 2 credits. Focuses on changing health needs of culturally diverse and vulnerable populations. Includes nursing care, pathophysiological, psychological, sociocultural, and risk-reduction implications of frequently experienced health problems in pediatric population. Offered by Nursing (p. 282). May not be repeated for credit. **Recommended Prerequisite:** Acceptance into junior standing. **Registration Restrictions:** Enrollment limited to students with a major in Nursing. **Schedule Type:** Lecture  **Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 350: *Application of Nursing Care for Individuals and Small Groups.* 4 credits. Includes five weeks of clinical experience in each specialty area, with focus on obstetric and family nursing, pediatric, and psychiatric mental health nursing. Students may also follow selected clients in clinics or home situations. Clinical consists of two full days per week in acute-care agencies. Notes: Open to accelerated second degree students Offered by Nursing (p. 282). May not be repeated for credit. **Recommended Corequisite:** NURS 319, 353 and 419. **Registration Restrictions:** Enrollment limited to students with a major in Nursing. **Schedule Type:** Laboratory  **Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 351: *Application of Intermediate Nursing Technologies.* 1 credit. Introduces intermediate nursing technologies and provides opportunities to apply these skills in simulated technology lab. Offered by Nursing (p. 282). May not be repeated for credit. **Recommended Prerequisite:** NURS 305, 309, 310, 334, 419 and 425. **Recommended Corequisite:** NURS 350. **Registration Restrictions:** Enrollment limited to students with a major in Nursing. **Schedule Type:** Laboratory  **Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 358: *Health Promotion and Disease Prevention in Maternal/Infant Nursing.* 2 credits. Provides the student an opportunity to perform nursing care to the maternal/infant client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings. Contact the department for meeting dates and times. Notes: Enrollment is controlled. Offered by Nursing (p. 282). May not be repeated for credit. **Recommended Prerequisite:** NURS 348. Concurrent enrollment is also permitted. **Registration Restrictions:** Enrollment limited to students with a major in Nursing. **Schedule Type:** Laboratory  **Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 359: *Health Promotion and Disease Prevention in Pediatric Nursing.* 2 credits. Provides the student an opportunity to perform nursing care to the pediatric client, including those who are culturally diverse and vulnerable, and experiencing physiological, psychological, and social health problems in a variety of settings. Contact department for meeting dates/times. Notes: Enrollment is controlled. Offered by Nursing (p. 282). May not be repeated for credit. **Recommended Prerequisite:** NURS 349. Concurrent enrollment is also permitted. **Registration Restrictions:** Enrollment limited to students with a major in Nursing. **Schedule Type:** Laboratory  **Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 388: *Problem-Based Clinical Inquiry.* 3 credits. Focuses on analyzing clinical problems and attempts to resolve issues using critical thinking. Students examine the data in the cases, draw inferences, make deductions, identify assumptions, generate interpretations, evaluate weakness and strengths of arguments, and document their findings. Offered by Nursing (p. 282). May not be repeated for credit. **Recommendation:** Enrolled limited to students with a major in Nursing. **Schedule Type:** Lecture  **Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

NURS 410: *Nursing Care of Clients with Pathological Conditions.* 3 credits. Encompasses complex health problems of culturally diverse and vulnerable populations throughout the life span. Focuses on nursing care needs and pathophysiological, psychological, and sociocultural implications of complicated health problems. Offered by Nursing (p. 282). May not be repeated for credit. **Recommended Prerequisite:** Completion of all junior year nursing courses.
**NURS 419: Pathophysiological Basis for Nursing Care of Individuals and Small Groups II.** 4 credits.
Enrollment restricted to second degree students only. Explores the nursing care of adults and the implications of acute and chronic conditions on the physiological, psychological, and socio-cultural aspects of individuals and families. Analyzes medical and surgical interventions for a variety of commonly encountered diseases/disorders/illnesses. Evaluates primary, secondary and tertiary prevention strategies in order to assist adults in maximizing wellness and introduces patient teaching strategies. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 305, 309, 310, 319, 334, 425. Note: Open only to Second Degree students.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 425: Comprehensive Health Assessment.** 3 credits.
Open only to RNs and LPNs. Introduces systematic health assessment across the life span, and expands that knowledge base to include knowledge and skills necessary to perform comprehensive health assessments with culturally diverse and vulnerable populations. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 427: Advanced Technologies for the Accelerated Pathway.** 1 credit.
Advanced technology course developing knowledge base related to acquisition of advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 428: Community Health Clinical for the Accelerated Pathway.** 2 credits.
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis on health promotion and disease prevention for well populations, and community-based care for individuals and families with acute and chronic illness. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 436, 440.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 429: Preceptorship for the Accelerated Pathway.** 3 credits.
Opportunity to deliver collaborative nursing care to culturally diverse and vulnerable populations. Notes: Concentrated clinical experiences available in selected institutional settings. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 309, 310, 320, 343, 419, 436.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 434: Vulnerable Populations.** 3 credits.
Focuses on the care of vulnerable and aging populations. Students will examine health disparities, health literacy, and multicultural issues that impact the delivery of health care. Students will analyze health care policies and health care delivery models that offer potential interventions for the identified needs of these populations. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** RN to BSN students.

**Recommended Corequisite:** NURS 336.

**Registration Restrictions:**
Enrollment limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 435: Public Health Preceptorship for Nurses.** 3 credits.
Expands nursing students’ understanding of population-focused health care. Emphasis will be on prevention principles in primary, secondary, and tertiary care of health problems. Students will be exposed to concepts of
community, public health, and health policy affecting culturally diverse and vulnerable populations in a selection of community and public health settings. Offered by Nursing (p. 282). May not be repeated for credit.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**NURS 436: Leadership and Management of Health Care.** 3 credits.
Introductory course in the leadership and management of health-related organizations. Reviews administrative issues in health-related services with particular emphasis on developing organizational strategies for effective interfacing of medical, nursing, allied health, and administrative staff. Offered by Nursing (p. 282). May be repeated within the degree for a maximum 6 credits. Equivalent to HAP 416.

**Recommended Prerequisite:** Completion of all junior year nursing courses or admission to RN to BSN program.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 440: Community Health and Epidemiology.** 3 credits.
Addresses population-focused health care. Emphasis is on primary, secondary, and tertiary prevention of health problems. Concepts of community, public health, and health policy affecting culturally diverse and vulnerable populations are examined. Offered by Nursing (p. 282). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Admission to the Second degree or RN to BSN program.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 451:** 3 credits.
Introductory research course designed to present basic concepts and methods of research. The research process is examined as a foundation for scholarship. Emphasis on critique and use of current nursing and research in clinical practice. Offered by Nursing (p. 282). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Scholarly Inquiry

**Recommended Corequisite:** NURS 451.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 453:** 3 credits.
NURS 453: Research in Nursing. 3 credits.
Introduces students to the principles of research in nursing and healthcare. The student evaluates software applications and assesses the merit of health-related information on the Internet. Students will engage in projects aimed at solving patient care problems in a variety of technologically-enhanced health care settings. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the RN to BSN program.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 454:** 1 credit.
NURS 454: Advanced Technologies in Nursing. 1 credit.
Opportunity to acquire advanced skills in nursing practice. Refinement of assessment skills associated with selected advanced technologies integrated into this laboratory course. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Corequisite:** NURS 451.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 455:** 3 credits.
NURS 455: Advanced Clinical Preceptorship. 5 credits.
Opportunity to provide complex, collaborative nursing care to culturally diverse and vulnerable populations. Notes: Concentrated clinicals available in selected institutional settings. See http://chhs.gmu.edu for information about specific clinical locations. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 456:** 3 credits.
NURS 456: Advanced Clinical Preceptorship. 5 credits.
Opportunity to provide complex, collaborative nursing care to culturally diverse and vulnerable populations. Notes: Concentrated clinicals available in selected institutional settings. See http://chhs.gmu.edu for information about specific clinical locations. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 457:** 3 credits.
NURS 457: Introduction to Nursing Informatics. 3 credits.
This introductory course focuses on the use of computer technology in nursing and healthcare. The student evaluates software applications and assesses the merit of health-related information on the Internet. Students will engage in projects aimed at solving patient care problems in a variety of technologically-enhanced health care settings. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the RN to BSN program.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NURS 465:** 1 credit.
NURS 465: Examination and Integration of Professional and Health Care Issues. 3 credits.
Provides students with opportunities to examine issues in health care through reflection on the natural and behavioral sciences, humanities and other prerequisite coursework. Selected topics are examined through reading, writing and discussion. Formal and informal writing on issues is expected. Students receive written self-evaluation as well as formal
review by peers and faculty members involved in teaching the course. Offered by Nursing (p. 282). May not be repeated for credit. Equivalent to HAP 465.

**Mason Core:** Synthesis (p. 137)

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** Required Mason Core courses (including ENGL 302/ENGH 302).

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 466: Community Health Nursing. 2 credits.
This course addresses population-focused health care. Concepts of public health, epidemiology, environmental health, extended roles in nursing and health policy affecting culturally diverse and vulnerable populations are examined. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Completion of all junior year nursing courses.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 467: Clinical in Community Health Nursing. 2 credits.
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Completion of all junior year nursing courses.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 468: Psychiatric and Mental Health Nursing. 2 credits.
Focuses on the nursing care, pathophysiological and psychological, social-cultural, and risk reduction implications of health problems in the area of mental health and psychiatric nursing. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Completion of all junior year nursing courses.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 469: Clinical in Psychiatric and Mental Health Nursing. 2 credits.
Clinical experience with a focus on collaborative nursing care with individuals, families, and large groups in the community. Emphasis is on health promotion and disease prevention for well populations and community-based care for individuals and families with acute chronic diseases. Notes: Open to traditional and LPN students only. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Completion of Junior Level Nursing Courses, NURS 410 and NURS 436.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 488: Inquiry-Based Clinical Seminar. 2 credits.
Students focus on a selected client they have provided care for during their NURS 451 clinical preceptorship. Students examine the data in the case, draw inferences, make deductions, identify assumptions, and generate interpretations regarding the client’s problems. The class will participate as a group in the inquiry process to identify strengths and weaknesses of the arguments presented. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Completion of Junior Level Nursing Courses, NURS 410 and NURS 436.

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 491: Critical Thinking and Analysis of Test Taking Strategies. 3 credits.
Increases test-taking abilities and improves critical-thinking skills related to nursing situations. Also guides the student to analyze and organize content to assist in decision making about nursing interventions. With faculty supervision, students work independently based on their learning needs. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:**

**Registration Restrictions:**
Enrollment is limited to students with a major in Nursing.

Enrollment limited to students in a Bach of Science in Nursing degree.
Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NURS 499: Independent Study in Nursing. 1-3 credits.
Provides individual study of a particular problem area in nursing research, theory development, or education under the direction of faculty. Clinical practice may be arranged. Offered by Nursing (p. 282). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Permission of instructor and Assistant Dean for the Undergraduate Program.

Registration Restrictions:
Enrollment is limited to students with a major in Nursing.
Washington Consortium level students may not enroll.

Enrollment limited to students in a Bach of Science in Nursing degree.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

Provides overview of all aspects of HIV disease to include retrospective and current concepts and analyses of the epidemic, global, and societal impact, and cutting-edge research. Examines development of therapeutic tools and skills to educate, reduce risks, control infection, and affect care and healing of client, family, and community; and issues of increasing dilemma for health care professionals. Offered by Nursing (p. 282). May not be repeated for credit. Equivalent to GCH 571.

Registration Restrictions:
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 632: Pathogenesis of Mental Disorders. 3 credits.
Explores biological correlates of mental illness, including neuronal function, structure and connectivity, and peripheral alterations in biological functioning that contribute to mental disorders across the lifespan. Reviews genetic heritability and specific theories of etiology and diagnostic classifications. Develops interview and differential diagnostic skills. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice program or with permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 633: Individual Psychotherapy. 3 credits.
Explores major approaches to individual psychotherapy such as psychodynamic, humanistic, interpersonal, behavioral, cognitive, dialectical behavioral, brief, crisis, and multicultural therapies as they relate to advanced nursing practice in mental health. Applications of individual psychotherapies across the lifespan and among diverse populations are critically examined. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice program or with permission of instructor; NURS 632.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 634: Group, Family and Couple Psychotherapy. 1 credit.
Explore the major psychotherapeutic approaches for groups, families, and couples. Emphasis is placed on the application of theories and models of
group, family, and couple psychotherapy across the lifespan and among diverse populations. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to the Doctor of Nursing Practice Program or with permission of instructor; NURS 632.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 643: Community-Oriented Primary Care.** 3 credits.
Theoretical and clinical application of community-oriented primary care concepts with a focus on health promotion and disease prevention. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MSN or DNP Program or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 648: Aging and Health.** 3 credits.
Provides an overview of normal aging and explores factors that affect health and well being in older adults; demonstrates strategies for maintaining health and managing chronic illness in older adults; examines common misconceptions about aging and healthcare issues; and explores the process of normal aging and the presentation of common health conditions in older adults. Offered by Nursing (p. 282). May not be repeated for credit. Equivalent to HHS 648.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 654: Nursing Administration Financial Management.** 3 credits.
Investigates managerial technologies related to financial planning and control functions of mid-level nurse administrators. Content develops knowledge and skills necessary for effective participation in financial management as related to business plan development, program budget planning, and control. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 660: Seminar in the Ethics of Health Care.** 3 credits.
Examines moral dilemmas in the health care profession, with special emphasis on patients' rights, professionals' obligations to other professionals, and issues of social justice in health care. Methods of moral deliberation based on ethical knowledge and justification are applied to ethical dilemmas in health care. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 665: Theoretical and Ethical Foundations Related to Nursing.** 3 credits.
Selected nursing and related discipline theories which impact nursing practice are analyzed and evaluated with special attention given to ethical aspects of practice and ethical decision-making frameworks. Moral dilemmas in the health care profession, with emphasis on patients' rights, professionals' obligations to other professionals, issues of social justice in health care, and methods of moral deliberation are examined. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 680: Theoretical Foundations Related to Nursing. 2 credits.
Examination and evaluation of assumptions, concepts, and propositions inherent in selected nursing and related discipline theories. Offered by Nursing (p. 282). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 685: Advanced Nursing Research Methods. 3 credits.
Examines principles and methods of research in problem identification, theoretical framework, design, data collection, and analysis. Students develop a nursing research proposal. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to the graduate nursing program and a graduate level bivariate statistics course and NURS 680.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 686: Projects in Nursing Research. 2 credits.
Applies knowledge gained in NURS 790 to implement research proposal designed in NURS 790. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 685.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 688: Organization of Nursing and Health Care Delivery Systems. 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale. (p. 82)

NURS 690: Independent Study in Nursing. 1-3 credits.
Studies in-depth a selected area of nursing theory, research, or practice under direction of faculty. Offered by Nursing (p. 282). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to the Graduate Nursing Program and permission of Associate Dean for Academic Programs.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale. (p. 82)

700 Level Courses

NURS 704: Nursing Administrative Leadership Academy. 3 credits.
Uses a leadership competency framework to integrate knowledge, skills, values, and best practices of innovative nursing leadership. Lectures, interactive collaborative discussion, written projects, and leadership self-assessment identify and teach the proficiencies specific to the administrative executive role. Offered by Nursing (p. 282). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 713: Decision Making and Pharmacologic Management in Practice. 3 credits.
Analyzes clinical cases using student participation in decision-making formulation. Correlates pathophysiology with symptom manifestations
across the lifespan, from prenatal to old age, including death. Evaluates family, medical and social history, physical findings, laboratory data and radiographic studies as they contribute to the decision making process. Examine the theoretical basis for selecting pharmacological and non-pharmacological therapies is explored. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MSN or DNP Program Nurse Practitioner Concentration

**Recommended Corequisite:** NURS 769; NURS 761.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 714: Health Assessment in Clinical Practice.** 2 credits.
Application of advanced health assessment skills for all body systems and clinical decision making with clients across the lifespan. Students will formulate differential diagnoses and use advanced communication techniques to motivate and change health behaviors. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MSN or DNP Program or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 715: Nursing Informatics Inquiry.** 3 credits.
This course introduces theoretical and practice components of nursing and healthcare informatics for the graduate level nurse. Computer systems will be analyzed. The systems life cycle will be explored. Health care data standards, classification schemes, and the electronic health record (EHR) will be introduced. Students will evaluate informatics as it applies to patient safety, outcomes measurement, complex decision-making, consumer use, and legal and ethical issues. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 716: Principles of Assessment and Evaluation in Nursing Education.** 3 credits.
Provides principles of assessment, measurement, and evaluation of nursing knowledge and skills in classroom and clinical settings. Provides opportunities for the informal assessment of learning; formal construction, analysis, and evaluation of tests; and the evaluation of standardized tests. Examines the current research and the legal and ethical principles related to assessment and evaluation in nursing education. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**NURS 720: Practicum in Family Primary Care Nursing I.** 4 credits.
Performance of beginning-level nurse practitioner clinical decision-making skills in assessment and management of families and individuals across the lifespan, with emphasis on health maintenance and health promotion. Seminar, lab, and clinical practicum. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 719, 723, 745, 747, and 756.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**NURS 721: Practicum in Assessment and Management of the Developing Family.** 8 credits.
Theoretical and clinical application of health assessment, health maintenance and promotion, anticipatory guidance, diagnosis, and management of common primary health care concerns through clinical decision-making skills focused on childrearing and childbearing families. Seminar, lab, and clinical practicum. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 720.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**NURS 722: Practicum in Family Primary Care Nursing II.** 8 credits.
Students perform advanced clinical decision making in the role of family nurse practitioner. Family primary care problems throughout the life span are assessed and managed, particularly families with elderly and medically underserved members. Seminar, lab, and clinical practicum. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 720 and 721.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 724:** *Health Assessment Practicum.* 1 credit.
Acquisition of advanced health assessment skills for all systems across the lifespan. The student will perform advanced techniques and clinical decision making that is necessary for a comprehensive health assessment in a structured practicum environment. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MSN or DNP Program or permission of instructor.

**Recommended Corequisite:** NURS 714.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

**NURS 725:** *Hermeneutic Research Methodologies in Health Care.* 3 credits.
Uses seminar/discussion for in-depth exploration of interpretive phenomenology, philosophical background for hermeneutics, and hermeneutics as method in context of conducting research in health care. Uses readings from philosophers such as Heidegger, Merleau-Ponty, and Gadamer to situate hermeneutical methodologies in philosophy of science. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Graduate level qualitative research course. Concurrent enrollment is also permitted.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

**NURS 727:** *Application of Nursing Education Principles to Curriculum and Program Development.* 3 credits.
Uses seminar and discussion forums to analyze and apply theoretical principles and teaching and learning strategies in planning, developing, and evaluating nursing programs. Examines the overall creative, planned, and collaborative process of program development and evaluation. Offered by Nursing (p. 282). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

**NURS 728:** *Practicum and Seminar in Nursing Education I.* 3 credits.
Uses seminar/discussion approach and practicum experience to analyze the role and functions of the nurse educator in the academic classroom. Emphasis is on the application of teaching/learning strategies, legal and ethical issues in nursing education, and role development as a nurse educator. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 714, NURS 761, NURS 769.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

**NURS 729:** *Leadership Strategies for the Clinical Nurse Leader.* 2 credits.
Explores aspects of horizontal and vertical leadership central to clinical nurse leader (CNL) role. Emphasizes quality management and improvement, communication processes, evidenced-based practice initiatives in microsystem, and strategies for efficient use of resources while maintaining safe and effective patient care. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 597 and 685. Concurrent enrollment is also permitted.
Registration Restrictions: Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 733: Introduction to Forensic Science. 3 credits.
Examines the introductory concepts of forensic science including the various professional roles of forensic scientists and practitioners. This course provides a broad overview of the forensic science profession. Different types of violence, as well as prevention and reduction strategies, are discussed. The forensic professional’s role in policy and legal processes are explored. Forensic research is introduced. Professional certification options are explored. Offered by Nursing (p. 282). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 734: Role of the Sexual Assault Nurse Examiner and Interpersonal Violence. 3 credits.
Focuses on the incidence and consequences of interpersonal violence across the lifespan. Identifies the role of sexual assault nurse examiner (SANE) as a member of the Sexual Assault Response Team (SART). Examines forensic techniques used to collect evidence. The role of the SANE in the judicial process is explored. Offered by Nursing (p. 282). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 735: Crime Lab and Crime Scene Investigation. 3 credits.
Examines the components of the crime lab and the crime scene analysis process. Explores the role of the forensic scientist in crime scene investigation. This course covers the initial crime scene response and initial assessment measures needed to properly collect and handle evidence. Documentation and preservation efforts are reviewed for various types of evidence collected. Offered by Nursing (p. 282). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 736: Psychological and Legal Aspects of Forensic Science. 3 credits.
Evaluates the psychological and legal aspects of forensic science. Reviews victimology and the role of the forensic professional when dealing with victimized individuals. This course reviews various types of violence and identifies the assessment criteria needed to pursue prosecution. Examines the legal process and the role of the forensic professional in providing testimony in a court of law. Offered by Nursing (p. 282). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 737: Investigation of Injury and Death. 3 credits.
Explores the role of the forensic scientist in death investigation. Examines death, manners of death, and causes of death, along with the death certification process. The role of the medical office professional and autopsy procedures will be reviewed. DNA evidence and the CODIS system will be analyzed. Offered by Nursing (p. 282). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 738: Family Primary Care I. 2 credits.
Theoretical application of health assessment, health management/promotion, anticipatory guidance, diagnosis and management of common primary care health care concerns through clinical decision making skills for families with a focus on adults. Lecture, student presentations and seminar. Notes: Required course in Family Nurse Practitioner concentration. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 713, NURS 724, NURS 714, NURS 643.

Recommended Corequisite: NURS 742.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 739: Family Primary Care II. 4 credits.
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childbearing and childbearing families. Seminar, student
presentations and lectures. Notes: Required course in Family Nurse Practitioner concentration. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 738, NURS 742.

**Recommended Corequisite:** NURS 744

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

NURS 740: Clinical Nurse Specialist Internship. 3 credits.
A continuation of clinical application of theory from NURS 775 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and community. Offered by Nursing (p. 282). May be repeated within the term for a maximum 6 credits.

**Recommended Corequisite:** Contact the department for meeting dates and times.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

NURS 741: Family Primary Care III. 3 credits.
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the nurse practitioner student to assume increased responsibility in the delivery of primary care to families and individuals across the life span. Special emphasis is given to the primary care needs of families with elderly and medically underserved members. Seminar, student presentations and lectures. Notes: Required course in Family Nurse Practitioner concentration. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 739, NURS 744.

**Recommended Corequisite:** NURS 749.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

NURS 742: Family Primary Care Practicum I. 2 credits.
Demonstrates the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for families with a focus on the adult. Clinical practicum, lab and seminar. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 713, NURS 724, NURS 714, NURS 643.

**Recommended Corequisite:** NURS 738.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

NURS 743: Clinical Psychopharmacology. 3 credits.
Introduce psychotropic medications, including neurochemical basis, mode of action and clinical application. Discuss principles of pharmacological medication selection and use based on clinical indicators. Notes: Required course in Psychiatric Mental Health Nurse Practitioner (PMHNP) or Clinical Nurse Specialist (PMHCNS) concentrations. Admission to the Doctor of Nursing Practice program or with permission of instructor. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 713, NURS 724, NURS 714, NURS 643.

**Recommended Corequisite:** NURS 738.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

NURS 744: Family Primary Care Practicum II. 4 credits.
Clinical application of health assessment, health maintenance/ promotion, anticipatory guidance, diagnosis and management of common primary health care concerns through clinical decision making skills focused on childrearing and childbearing families. Clinical practicum, seminar, lab. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 738, NURS 742.

**Recommended Corequisite:** NURS 739.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

NURS 746: Practicum in Adult Primary Care Nursing I. 6 credits.
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adults. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 719, 723, 745, 747, and 756.
Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Special scale. (p. 82)

NURS 748: Practicum in Adult Primary Care Nursing II. 8 credits.
Enables nurse practitioner student to assume increased responsibility in the delivery of primary care to adults. Special emphasis on primary care needs of elderly and medically underserved groups. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 746.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Special scale. (p. 82)

NURS 749: Family Primary Care Practicum III. 4 credits.
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to families. Family primary care problems across the life span are assessed and managed, particularly families with elderly and medically underserved members. Practicum, clinical lab and seminar. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 739, NURS 744.

Recommended Corequisite: NURS 741.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 757: Nursing Research and Biostatistics I. 3 credits.
Provides a broad framework for understanding and applying commonly used research designs and data analysis techniques in nursing and health care research. Exposed to an overview of qualitative and quantitative research methods integrated with appropriate data analyses techniques. Univariate and bivariate statistical techniques will be used to address research questions or hypothesis as appropriate. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to the graduate nursing program, and an undergraduate statistics course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 758: Nursing Research and Biostatistics II. 3 credits.
Empirically address practice related problems using complex bivariate and multivariate statistical analysis. Using an established data set as a basis for simulation of the research process, student will identify clinical problems in research traditions to provide evidence for nursing practice. Emphasis is on evaluating the quality of research for its strength as evidence for nursing practice. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 757.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 761: Pharmacotherapeutics. 3 credits.
Describes the pharmacologic principles and pharmacodynamic actions for all broad categories of agents. Distinguishes between the major drug classes by the pharmacologic properties of drugs on the cellular, organ and whole organism level. Study of indications and contraindications of appropriate therapeutic entities for health deviations based on a thorough knowledge of drugs and their fate in the human body. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to MSN or DNP Program or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 763: Administrative Theory in Nursing. 3 credits.
Uses administrative theory and management principles and processes as related to roles and functions of the nurse in management in health-related agencies. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to Graduate Nursing Program or master’s degree. NURS 680 and Management/Organizational Theory (concurrent enrollment is also permitted).

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 765: Practicum in Nursing Administration I.** 3 credits.
Applies administrative theory and management principles and processes in a selected health-related agency. Roles and functions of the nurse in management are explored. Notes: Lab arranged. One hour of seminar and eight hours of practicum weekly. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to Graduate Nursing Program, NURS 680. NURS 763 (concurrent enrollment is also permitted).

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 766: Administrative Strategies in Nursing.** 3 credits.
Explores roles and functions of the nurse in management as the nurse manager develops patterns of nursing care, articulating nursing education, and nursing service. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 763 and 765.

**Recommended Corequisite:** NURS 768.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 768: Practicum in Nursing Administration II.** 3 credits.
 Implements and integrates roles and functions of the nurse in management. Emphasizes using appropriate management principles and processes in a selected health-related agency. Notes: Lab arranged. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** NURS 763, NURS 765, NURS 766 (concurrent enrollment also permitted for 766).

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 769: Physiology and Pathophysiology in Advanced Practice.** 3 credits.
Analyzes health deviations in the physiologic and pathophysiologic aspects of systems functioning across the life span. Students assimilate the process of systematic assessment and management of health deviations foundational for making clinical decisions. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to MSN or DNP or permission of instructor.

**Recommended Corequisite:** NURS 713.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 773: Clinical Applications of Theory in Advanced Clinical Nursing.** 3 credits.
Foundational theory relevant to the emerging roles in advanced clinical nursing, focusing on therapeutic nursing interventions in a variety of clinical specialties, with attention to health-illness continuum of individuals, families, and communities. Offered by Nursing (p. 282). May not be repeated for credit.

**Recommended Prerequisite:** Admission to Graduate Nursing Program.
NURS 550, 680 (Concurrent enrollment is also permitted for either course).

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 775: Advanced Specialty Practice I.** 3 credits.
Focuses on clinical application of theory from NURS 773 to a selected clinical specialty with attention to the health illness continuum of individuals, families, and communities. Notes: One hour of seminar and eight hours of practicum. Lab meets every other week. Offered by Nursing (p. 282). May be repeated within the term for a maximum 17 credits.

**Recommended Prerequisite:** NURS 665.

**Recommended Corequisite:** NURS 768.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NURS 776: Development of Advanced Practice Nursing Role.** 3 credits.
Expansion of selected content included in NURS 773 for the delivery of advanced nursing care in a variety of settings. Emphasizes development and evaluation of the advanced practice nursing role in complex health care systems. Offered by Nursing (p. 282). May not be repeated for credit.
Recommended Prerequisite: NURS 773.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 778: Advanced Specialty Practice II. 3 credits.
Applies concepts of the advanced practice nursing role from NURS 776 to a selected clinical specialty. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 665.

Recommended Corequisite: NURS 777. Electronic strategies will be used and course will meet every other week.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 782: Psychiatric Nurse Practitioner Practicum I. 4 credits.
Develops clinical competence in comprehensive assessment, diagnosis, and management of mental health problems and psychiatric and co-morbid medical disorders, referring when appropriate. Demonstrates effective clinical interviewing skills. Applies principles of pharmacology including complementary and alternative therapies. Develops culturally sensitive plans for health maintenance, promotion and treatment. Evaluates outcomes of treatment. Manages psychiatric emergencies. Advocates for patients and families. Notes: Five clinical hours per week are required for each credit. Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 632, NURS 633, NURS 634 and NURS 743.

Recommended Corequisite: NURS 782.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 784: Psychiatric Nurse Practitioner Practicum II. 5 credits.
Builds on Family Psychiatric Nurse Practitioner Practicum I, improving diagnostic and clinical reasoning ability and competence in assessment, diagnosis, and management of psychiatric disorders. Enables the student to assume increased responsibility in the delivery of comprehensive mental health care. Participates in professional and community organizations to promote the health of patients while enhancing the role of practitioner. Notes: Five clinical hours per week are required for each credit. Required course in Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to the Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 782.

Recommended Corequisite: NURS 785.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 785: Psychiatric Nurse Practitioner Seminar II. 2 credits.
Discusses role transition and development of advanced practice psychiatric mental health nurses. Regulatory and economic policies affecting advanced psychiatric mental health nursing practice in the evolving health care system are discussed. Students demonstrate competence in comprehensive management of acute and chronic psychiatric disorders through case presentations from their practica. Performs a comprehensive assessment of the mental health needs of a community. Notes: Required course in the Family Psychiatric Mental Health Nurse Practitioner (FPMHNP) concentration. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to Doctor of Nursing Practice program or Psychiatric Mental Health Nurse Practitioner Certificate. NURS 783.
Recommended Corequisite: NURS 784.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 786: Adult Gerontology Primary Care Practicum I. 2 credits.
Application of health assessment, health maintenance/promotion, anticipatory guidance, genetics/genomics, diagnosis and management of common primary health care concerns, including women’s health issues. Focus is on care of adolescents and adults across the life. Clinical Practicum, lab and seminar. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 713, NURS 714, NURS 724, NURS 643.

Recommended Corequisite: NURS 787.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 787: Adult Gerontology Primary Care I. 2 credits.
Theoretical application of health assessment, health maintenance/promotion, anticipatory guidance, diagnosis and management of common primary health care concerns, including women’s health, through clinical decision making skills in adolescents, adults and older adults. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 713, NURS 714, NURS 724, NURS 643.

Recommended Corequisite: NURS 786.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 788: Adult Gerontology Primary Care Practicum II. 4 credits.
Demonstration of the ability to function at a beginning level in the role of the nurse practitioner. Performance of advanced skills in assessment and the development of plans for health maintenance and promotion for adolescents, adults and older adults. Clinical practicum, lab and seminar. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 786, NURS 787.

Recommended Corequisite: NURS 789.

Recommended Prerequisite: NURS 788, NURS 789.

Recommended Corequisite: NURS 790.

Registration Restrictions: Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 789: Adult Gerontology Primary Care II. 3 credits.
This course consists of the application of health assessment, health management/promotion, genetics and genomics, anticipatory guidance, diagnosis and management of common primary care health care concerns of the adolescent, adult and older adult through clinical decision making skills. Lecture, student presentations and seminar. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 786, NURS 787.

Recommended Corequisite: NURS 788.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 790: Adult Gerontology Primary Care Practicum III. 4 credits.
This practicum enables the nurse practitioner student to assume increased responsibility in the delivery of primary care to adults of all ages, adolescents through older adults. Special emphasis is given to the primary care needs of elderly and medically underserved groups. Practicum, clinical lab and seminar. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 788, NURS 789.

Recommended Corequisite: NURS 791.

Registration Restrictions:
Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 791: Adult Gerontology Primary Care III. 4 credits.
Theoretical application of assessment, diagnosis and management of primary health care problems which will enable the adult gerontology nurse practitioner student to assume increased responsibility in the delivery of primary care. Focus will be on the primary care needs of older adult and medically underserved. Lectures, student presentations and seminars. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 788, NURS 789.

Recommended Corequisite: NURS 790.
Nursing (NURS)

Enrollment is limited to students with a concentration in Adult Ger. Nurse Pract. PC.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

800 Level Courses

NURS 804: Advanced Quantitative Data Analysis for Healthcare Research I. 3 credits.
Covers principles and methods of statistical data analysis and inference. Emphasizes the use and application of various data analysis techniques and their assumptions. Examines factorial ANOVA, factorial ANCOVA, repeated measures ANOVA, ANOVA and ANCOVA via regression approaches, and linear and logistic regression analysis. Students apply statistical techniques in analyzing health-related data sets. Offered by Nursing (p. 282). May not be repeated for credit. Equivalent to GCH 804.

Recommended Prerequisite: A graduate-level statistics course (by instructor approval).

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 805: Advanced Quantitative Data Analysis for Healthcare Research II. 3 credits.
Builds upon principles and methods of statistical analysis and inference. Emphasizes the use and application of various data analysis techniques and their assumptions. Examines multivariate analysis of variance (MANOVA), multivariate analysis of covariance (MANCOVA), multiple regression, and logistic regression, and factor analysis. Students apply statistical techniques in analyzing health-related data sets. Offered by Nursing (p. 282). May not be repeated for credit. Equivalent to GCH 805.

Recommended Prerequisite: GCH/NURS 804 or an equivalent statistics course (by instructor approval).

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 806: Advanced Multivariate Statistics and Data Analysis for Health Care Research. 3 credits.
Examines canonical correlation, discriminant analysis, factor analysis, and causal analysis (path models and structural equation modeling). Students analyze and interpret data using these statistical techniques. Offered by Nursing (p. 282). May not be repeated for credit. Equivalent to GCH 806.

Recommended Prerequisite: GCH 805 or NURS 805, or equivalent multivariate statistics course.

Registration Restrictions:
Recommended Prerequisite: Master’s degree in nursing, social work, or health-related discipline.

Registration Restrictions: Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 820: *Human Genetics Concepts for Health Care*. 4 credits. The study of human genetics, principles of heredity, and disease risks. Offered by Nursing (p. 282). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate level students.

Recommended Prerequisite: NURS 805 or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 860: *Measurement Theories in Healthcare Research*. 3 credits. Synthesizes measurement theories and principles as a foundation for the development and evaluation of instruments for use in healthcare research. The course includes review of statistical techniques required for understanding measurement theory, reliability, validity, responsiveness, item analysis, and instrument construction. Students design, construct, administer, analyze, and evaluate an original instrument and evaluate an existing instrument in healthcare research. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 805 or permission of instructor.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 870: *Nursing and Health Care Administration I*. 3 credits. Examines the theoretical basis of scholarship and practice in leadership and management of health systems and nursing organizations. Includes discovery of concepts and forces influencing the organization and performance of health care systems. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to the PhD or DNP program.

Registration Restrictions: Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 871: *Nursing and Health Care Administration II*. 2 credits. Analyzes and applies selected concepts related to nursing and health system leaders and managers as well as factors influencing the performance of health systems and organizations. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 870.

Registration Restrictions: Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 874: *Internship in Health Care Administration/Policy/Education*. 4 credits. Internship experience of at least 126 hours with leader in field of nursing, health care administration, policy, or education. Participatory activities require integration and application of principles, frameworks, and science related to executive preceptor role. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Completion of all coursework, except NURS 998.

Registration Restrictions: Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading: This course is graded on the Graduate Regular scale. (p. 82)

NURS 883: *Evidence-Based Practice in Nursing and Healthcare*. 4 credits. Building on knowledge of research methodologies and personal expertise, student will identify practice and system problems, analyze the variations of processes and outcomes, evaluate research studies and systematic reviews, and develop a proposal to address issues related to the design of new model of care, translation of evidence into practice, or evaluation of current programs in the context of evidence-based practice. Emphasis is placed on the development of strategies to ensure quality improvement. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 757 and NURS 758.

Registration Restrictions: Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

900 Level Courses

NURS 920: *Qualitative Research in Nursing and Health Care*. 3 credits. Provides the philosophical assumptions underlying qualitative research in nursing and health care. Students will examine the principles of study design, data collection, data analysis, and interpretation associated with phenomenology, grounded theory, and ethnography. Description and mixed-methods designs will be introduced. Qualitative research will be analyzed within the scholarship of discovery, integration, and application. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 804.

Registration Restrictions: Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 921: Clinical Practicum I. 1-10 credits.
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that prepares students to perform clinical decision making in their role as advance practice nurses in individualized specialty areas. They will work with advanced practice nurse preceptors to develop clinical expertise, and to develop an understanding of leadership roles in the clinical setting that can enhance the system of health care delivery. One credit hour of seminar with the remaining hours in clinical practice. Offered by Nursing (p. 282). May be repeated within the degree for a maximum 20 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 922: Clinical Practicum II. 1-10 credits.
Students, in consultation with their academic advisor, complete supervised practicum hours to meet both the post-baccalaureate and post-masters DNP practicum requirement. A practicum course that continues to prepare students to practice in an expanded, advanced clinical practice role. Students will learn to become change agents in the clinical setting with a focus on health care delivery systems. The student will apply advanced health assessment skills and clinical decision making in an area of specialty practice, correlating pathophysiology with symptom manifestations. One credit hour of seminar with the remaining hours in clinical practice. Offered by Nursing (p. 282). May be repeated within the degree for a maximum 20 credits.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 930: Quantitative Methods in Nursing and Health Care. 3 credits.
Guides the student in applying principles in the design of an innovative quantitative research study to address a significant problem in nursing and/or health care. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: NURS 805.

Registration Restrictions:
Enrollment limited to students in a Doctor of Philosophy degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 940: Independent Study for the Doctoral Student. 1-6 credits.
Studies in depth a selected area of nursing theory, research, or practice under direction of faculty. Offered by Nursing (p. 282). May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral nursing program. Individualized section form required.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 950: Special Topics in Nursing. 3 credits.
Presents selected topics analyzing specialized areas in nursing. Content varies. Lecture, seminar, laboratory, workshop. Offered by Nursing (p. 282). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 980: Practice Inquiry I. 4 credits.
Synthesize the literature related to the problem. Analyze the environmental factors impacting the problem. Identify the standard of care related to the clinical problem. Assess the quality of evidence that supports the standard of care. Develop a proposal that will impact the delivery of care in the identified area of practice inquiry. Develop the appropriate outcome measures to address the specific practice inquiry area. Offered by Nursing (p. 282). May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: Completion of DNP core courses.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 981: Practice Inquiry II. 4 credits.
Implement the proposal developed in Practice Inquiry I. Maintain an ongoing process analysis of the project. Collect data. Analyze the findings from the practice inquiry. Disseminate the findings from the practice inquiry in a scholarly manner. Offered by Nursing (p. 282). May be repeated within the degree for a maximum 8 credits.

Recommended Prerequisite: NURS 980.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NURS 998: Doctoral Dissertation Proposal. 1-9 credits.
A seminar for doctoral students to accompany the development of a doctoral dissertation proposal. Development of the research problem with analysis and critique of methodology discussed. Notes: Students
must enroll in the course for 3-credits the first time they take the course. Offered by Nursing (p. 282). May be repeated within the degree.

**Recommended Prerequisite:** Completion of all other coursework except NURS 999 and completion of doctoral comprehensive examination.

**Registration Restrictions:** Enrollment limited to students in a Doctor of Philosophy degree.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**NURS 999:** Doctoral Dissertation. 1-9 credits.
Provides continued faculty assistance on an individual basis toward completion of approved dissertation. Note: Students must contact the department at (703) 993-1961 to receive approval and a CRN to register via Patriot Web. Offered by Nursing (p. 282). May be repeated within the degree.

**Recommended Prerequisite:** NURS 998.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.
Enrollment limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**Nutrition and Food Studies (NUTR)**

**200 Level Courses**

**NUTR 295:** Introduction to Nutrition. 3 credits.
Introduces students to nutrition as a scientific discipline, providing a working knowledge of basic nutrition including the sources and functions of the nutrients, the components of a healthy diet, and the relationship between diet and overall health. Students will learn about the processes of digestion, absorption, and metabolism of nutrients, and several ‘hot topics’ in the field of nutrition. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Mason Core:** Natural Science Overview (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**300 Level Courses**

**NUTR 312:** Experimental Foods. 3 credits.
Introduces the composition and structure of food through exploration of chemical, physical, nutritional, sensory and safety aspects, with emphasis on how these aspects relate to food preparation methods. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Corequisite:** NUTR 313.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 313:** Experimental Foods Lab. 1 credit.
Explores the chemical, physical, nutritional, sensory, and safety aspects of food through hands-on food preparation labs. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Corequisite:** NUTR 312.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 314:** Food in Italy. 3 credits.
Exposes student to Italian foodways, culture, and sustainability. Travel and field trips will supplement classroom learning and form the basis of a research project focusing on food’s place in Italian society. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 315:** Fundamentals of Cooking. 3 credits.
Exposes students to the fundamental concepts of food and its preparation. Students will learn and experience culinary basics, including knife skills, mother sauces, basic cooking techniques, function of ingredients, food safety, and chemical and physical transformation of food during cooking and storage. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 318:** Global Nutrition and Food Security. 3 credits.
An overview of the major concepts and perspectives of food security at the local, regional, and global levels. Explore and apply the definitions, means of measurement, and policy implications of food security from a multidisciplinary approach. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 326:** Food Systems. 3 credits.
Taking a systems approach, this course provides an overview of the food system from production through consumption and waste. Students will consider the complexity of issues confronting the creation of just and sustainable food systems and access to healthy food for all. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
NUTR 330: Food Composition. 3 credits.
Explores the nutritional, functional, structural, and undesirable components in food, with a primary focus on the selection and use of food composition tables to obtain this data. Factors impacting food composition will be discussed, including agricultural, manufacturing, and biotechnologies. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295, NUTR 312, NUTR 313, CHEM 313

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 383: Taste and Place. 3 credits.
Examines how dietary patterns have developed and evolved in specific geographic locations. Students will analyze the role of geography, history, politics, culture and taste as essential elements in distinctive local, regional, and national foodways. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

NUTR 408: Food Security. 3 credits.
Examines the human health aspects of food security at the local, regional, and global levels. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 410: Introduction to Food Safety and Defense. 3 credits.
Examines the critical roles that food safety and food defense have on the food supply in the US and globally. Students will explore common foodborne illnesses, their causes and their means of control from both a scientific and policy perspective. Students also will gain an understanding of basic food safety practices in both commercial food production and in home food preparation. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 412: Nutrition and Chronic Illnesses. 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 420: Strategies for Nutrition Education. 3 credits.
Examines methods and techniques for educating individuals about nutrition. Addresses nutrition education issues from variety of populations with respect to culture, age, religion, and specific disease states. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 423: Nutrition and Chronic Illnesses. 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 424: Nutrition and Chronic Illnesses. 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 425: Nutrition and Chronic Illnesses. 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 426: Nutrition and Chronic Illnesses. 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 427: Nutrition and Chronic Illnesses. 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 428: Nutrition and Chronic Illnesses. 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 429: Nutrition and Chronic Illnesses. 3 credits.
Examines nutrient needs related to specific chronic illnesses, including cardiovascular disease, cancer, obesity, and diabetes. Focuses on principles of nutritional therapy and prevention. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 430: Introduction to Wine and Beer. 3 credits.
Introduces students to the opportunities, limits, and barriers of growing food in cities. Utilizing case studies from the area and around the globe, students will study the social, historical, political, environmental, and practical aspects urban agriculture. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

NUTR 435: Urban Agriculture. 3 credits.
Introduces students to the opportunities, limits, and barriers of growing food in cities. Utilizing case studies from the area and around the globe, students will study the social, historical, political, environmental, and practical aspects urban agriculture. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 440: Nutrition Policy.** 3 credits.
Explores US and international food and nutrition policies and programs. It is intended for undergraduate students who are interested in an in-depth analysis of policy related approaches to improving nutritional status within populations in the US and around the world. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 442: Advanced Nutrition I.** 3 credits.
Explores the biological roles of the macronutrients through application of advanced nutritional concepts relating to digestion, absorption and metabolism of carbohydrates, proteins and lipids. Practical implications in the diet are emphasized. Offered by Nutrition and Food Studies (p. 264). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** NUTR 295 and a biochemistry class

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 444: Advanced Nutrition II.** 3 credits.
Examines the biological roles of the micronutrients through application of advanced nutritional concepts relating to digestion, absorption, transport and metabolism of vitamins and minerals. Practical implications in the diet are emphasized. Offered by Nutrition and Food Studies (p. 264). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** NUTR 442

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 451: Nutrition Assessment.** 3 credits.
Introduces students to methods and tools used in assessing individuals’ nutritional status. Methods of interpretation of nutrition-related information will be examined. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295 or equivalent course.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 455: Nutrition and Weigh Management: Obesity, Anorexia, and Bulimia.** 3 credits.
Focuses on the physiological, emotional, genetic, and societal and cultural factors that influence the relationship between eating and weight regulation. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295, GCH 332 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 494: Special Topics in Nutrition and Food Studies.** 3 credits.
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take to apply up to 6 credits of NUTR 494 to their degree program. Offered by Nutrition and Food Studies (p. 264). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**NUTR 495: Nutrition and Food Studies Capstone.** 3 credits.
Students will integrate and apply skills and knowledge learned across the curriculum to conduct research on current food and nutrition-related issues, in order to develop new food and nutrition knowledge. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Registration Restrictions:**
**C** Requires minimum grade of C.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**NUTR 499: Independent Study in Nutrition and Food Studies.** 1-6 credits.
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering. Offered by Nutrition and Food Studies (p. 264). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**500 Level Courses**

The course will cover U.S. history in responding to health, nutrition, and population challenges worldwide; examine current programs in each area, including those of the U.S. government and nongovernmental organizations, foundations, and the private sector; and examine future directions for responding to health, nutrition, and population trends. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 515: Fundamentals of Cooking. 3 credits.**
Introduces students to the fundamental concepts of food and its preparation. The biological components, the chemical transformation, and sensorial properties of food are explored throughout the course. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 522: Nutrition Across the Lifespan. 3 credits.**
Explores the nutrient needs and food habits across the lifespan. Focuses on nutrition policies, programs, and interventions across the lifespan. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 530: Introduction to Wine and Beer. 3 credits.**
Takes a multidisciplinary approach to understanding alcohol across time and space. Students will learn about alcohol production as well as the social and cultural dimensions of alcohol in a variety of cultures. Topics that might be covered in class include prohibition and neoprohibition, the health effects of alcohol, craft versus industrial production, among others. Students must be 21 to enroll. Notes: Fees apply. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 535: Urban Agriculture. 3 credits.**
Introduces students to the opportunities, limits, and barriers of growing food in cities. Utilizing case studies from the area and around the globe, students will study the social, historical, political, environmental, and practical aspects of urban agriculture. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate, Non-Degree, Senior Plus or Senior.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 556: Nutrition and Weight Management. 3 credits.**
Focuses on the physiological, emotional, genetic, and societal/cultural factors that influence the relationship between eating and weight regulation. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** GCH 295 or other introductory nutrition course.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 570: Food Science for Nutritionists. 3 credits.**
Explores selected topics in food science and technology as relevant to the field of nutrition. Coverage includes various food processing and preservation methods, ingredient functionality, nutrient analysis, sensory analysis, food safety considerations, toxicology, and biotechnology. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 295 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 583: Food and Culture.** 3 credits.
Examines food and eating behaviors, diet, and nutrition from cross-cultural perspective. Focuses on how and why people choose what to eat, range and significance of cross-cultural variability in diet, how diets have changed, and health and social implications of those changes. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 594: Special Topics in Nutrition and Food Studies.** 3 credits.
In-depth study of contemporary areas of nutrition and food studies. Topics vary each semester. Students may take up to 6 credits of NUTR 594 within their degree program. Offered by Nutrition and Food Studies (p. 264). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Graduate level course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 608: Perspectives on Food Security.** 3 credits.
Overview of the major concepts and perspectives of food security. Explores and applies the definitions, means of measurement, and policy implications of food security from a multidisciplinary approach. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 610: Food Safety and Defense.** 3 credits.
Focuses on the possible sources of unintentional and intentional contamination of the food supply and on the roles and guiding policies of the various levels of government and the food industry, as well as individual responsibility in managing risk to ensure a safe food supply. Notes: Fees may apply. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 611: Food and Nutrition Security Policy.** 3 credits.
In-depth analysis of food security and nutrition policies and programs aimed at reducing hunger and malnutrition among individuals and populations. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**NUTR 620: Nutrition Education.** 3 credits.
An overview of current nutrition education research, theories, programs, and policies. Explores how nutrition education can influence dietary behavior and food choice. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
NUTR 626: Food Systems. 3 credits.
Survey of issues surrounding food production from a processing perspective. Students will gain an understanding various forms of food processing and the issues that surround industrial food systems. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NUTR 630: Global Nutrition. 3 credits.
Directed at students from a variety of disciplines, this course examines what malnutrition is and how it occurs by looking at several situations from around the world. It looks at the impact of nutrition on a society and community and examines the benefits of a well-nourished population. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NUTR 642: Macronutrients. 3 credits.
Expands understanding of the biological roles of the macronutrients through application of advanced nutritional concepts relating to digestion, absorption and metabolism of carbohydrates, proteins, and lipids. Practical implications in the diet are emphasized, and particular attention is placed on the etiology and prevention of macronutrient-related diseases, including atherosclerosis, diabetes, and metabolic syndrome. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 and Undergraduate biochemistry equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NUTR 644: Micronutrients. 3 credits.
Expands understanding of the biological roles of the micronutrients through application of advanced nutritional concepts relating to digestion, absorption, transport, and metabolism of vitamins and minerals. Practical implications in the diet are emphasized, with particular attention on the etiology and prevention of micronutrient-related diseases, including nutritional anemia and osteoporosis. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 295 and Undergraduate biochemistry equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NUTR 651: Nutrition Assessment, Monitoring and Surveillance. 3 credits.
Introduces students to methods and tools used in assessing nutritional status and, the practice and application of these to monitoring among individuals and population groups. Methods of interpretation of nutrition-related information will be examined. Will include off campus practice. Notes: Will include off campus practice Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Recommended Prerequisite: NUTR 630 or an introductory nutrition course.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

NUTR 652: American Agriculture in the 20th Century. 3 credits.
Survey of issues surrounding food from an agricultural perspective. Students gain an understanding of how agricultural production shifted from a Jeffersonian ideal to an industrial and political practicability. Topics that may be covered: the agrarian ideal of the yeoman farmer, the ascendancy of markets and agricultural commodification, the politicization of agriculture and the farm bill, and sustainable agricultural systems. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

NUTR 670: *Nutrition Research Methods.* 3 credits.
Introduction to the fundamentals of research design and data collection methods. Students will learn about quantitative, qualitative, mixed method, participatory approaches, and ethical issues in nutrition-related research and evaluation. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** GCH 601 or GCH 712, NUTR 651 OR equivalent courses.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

NUTR 675: *Nutrition Program Development, Interventions and Assessments.* 3 credits.
Provides students with the knowledge and skills for planning, developing and evaluation of community nutrition programs and interventions. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 670, GCH 601 and NUTR 651 OR equivalent courses.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

NUTR 690: *Independent Study in Nutrition and Food Studies.* 1-6 credits.
Readings or research on a pertinent topic in nutrition and food studies. Must be arranged with instructor before registering. Offered by Nutrition and Food Studies (p. 264). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Core courses in MS program.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

NUTR 799: *Thesis Research.* 1-6 credits.
Thesis research and writing. Offered by Nutrition and Food Studies (p. 264). May be repeated within the degree.

**Recommended Prerequisite:** Core courses in MS program.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

NUTR 790: *Nutrition Practicum.* 3 credits.
An in-depth supervised experience in an approved nutrition-related organization. Includes a project related to a nutrition issue within the organization. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 788.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

NUTR 788: *Pre-Practicum Seminar.* 0 credits.
Provides guidance and preparation for engaging in the capstone practicum. Offered by Nutrition and Food Studies (p. 264). May not be repeated for credit.

**Recommended Prerequisite:** NUTR 670, GCH 601 and NUTR 651 OR equivalent courses.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)
Operations Management (OM)

200 Level Courses

OM 211: Honors Statistical Analysis for Management. 4 credits.
Introduces the application of statistical methods to support quantitative decision analysis for resolving business problems. Topical coverage includes descriptive statistics, probability, random variables, probability distributions, sampling and sampling distributions, estimation, hypothesis testing, and linear regression (both simple and multiple). Requires extensive use of case studies to integrate, synthesize and extend the concepts presented in order to foster a "learning by doing" approach that develops and promotes critical thinking abilities. Active class discussions via individual and/or group presentations of case assignments is an important learning activity. Extensive use of computer software for statistical modeling, problem solving, and analysis of case studies is a significant component of this course. Offered by School of Business (p. 877). May not be repeated for credit.

Recommended Prerequisite: Cumulative GPA of 3.5 or higher.

Registration Restrictions:
Required Prerequisites: MATH 108C, 113C, HNRT 125C, 225C, MATH U108, U113 or HNRT U225.
C Requires minimum grade of C.

Enrollment limited to students with the Honors College (Business), Honors College (STEM), or Honors College attributes.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

OM 303: Operations Management. 3 credits.
Examines an organization's operations, including design, management and improvement processes, projects and supply chains, in both product and service environments. Uses analytical models to support key planning and control activities. Notes: Students cannot receive credit for both OM 301 and OM 303. School of Business students will not be permitted to make more than three attempts to achieve a C or higher in OM 303. Those who do not successfully complete this course within three attempts will be terminated from their major and will not be eligible to receive a degree from the School of Business. For more information about this, see the "Termination from the Major" section under Academic Policies. Offered by School of Business (p. 877). Limited to two attempts.

Recommended Prerequisite: BUS 103 and BUS 200.

Registration Restrictions:
Required Prerequisites: (ACCT 203C, U203, 204C or U204) and (BUS 210C or U210) and (MATH 108C, U108, 113C, U113, 114C, U114, HNRT 225C or U225).
C Requires minimum grade of C.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

OM 320: Supply Chain Management in a Global Economy. 3 credits.
Design, development, and management of supply chain systems, including production and inventory management, distribution channels, and information systems that support them. Emphasizes impact of e-business on companies and industries, including Internet's impact on the way goods and services flow through value chain from providers to customers. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (DESC 301C, L301, OM 301C, L301 or 303C).
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

OM 352: Management Science. 3 credits.
Introduces operation research and management sciences (OR/MS) techniques for supporting business management decisions. Specific mathematical programming and probabilistic topics include linear programming, integer programming, goal programming, network flow models, decision analysis, game theory, queuing models, and Monte Carlo simulation. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (DESC 301C, L301, OM 301C or L301) or OM 303C or L303.
C Requires minimum grade of C.

Students with a class of Freshman may not enroll.

Non-Degree level students may not enroll.

Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

OM 435: Business Process Analysis and Simulation. 3 credits.
Introduces concepts and tools used in designing, modeling, analyzing, and improving business processes. Various business process analysis and simulation methods, such as process mapping/flowcharting, process flow and capacity analysis, service process design, theory of constraints, process modeling and simulation, and business process reengineering are discussed. Introduces methods and analytical tools such as queuing theory and computer simulation used to design, model, analyze, and improve business processes. Discusses methods such as process mapping/diagramming, service process design, process modeling, and business process reengineering. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
**Required Prerequisites:** (DESC 301, L301, OM 301 or L301) or OM 303.

C Requires minimum grade of C.

Students with a class of freshman or sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**OM 452: Business Forecasting.** 3 credits.
Introduces techniques for producing predictions of future business operations as aids to making planning decisions. Specific topics include judgmental forecasting, forecast accuracy, correlation analysis, smoothing methods, regression models, decomposition, and autoregressive and ARIMA models. Methods demonstrated and used through computer software. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (DESC 301, L301, OM 301 or L301) or OM 303.
C Requires minimum grade of C.

Students with a class of freshman or sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**OM 456: Quality Management.** 3 credits.
Provides an understanding of the multifaceted nature of quality management by emphasizing topics such as quality philosophies, total quality management, design quality, process quality, and managing quality in information systems development. Discusses ISO 9000 and Capability Maturity Model. Uses software, case studies. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (DESC 301, L301, OM 301 or L301) or OM 303.
C Requires minimum grade of C.

Students with a class of freshman or sophomore may **not** enroll.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**OM 462: Honors Seminar in Operations Management (Topic Varies).** 3 credits.
Topic and format vary. In-depth study of a topic in the area of operations management. Enrollment limited and competitive. Offered by School of Business (p. 877). May not be repeated for credit.

**Recommended Prerequisite:** Degree status in ISOM major; senior standing; permission of department.

**Registration Restrictions:**
Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**OM 491: Seminar in Operations Management.** 3 credits.
Analyzes selected topics that highlight latest developments in the operations management field, including contemporary research findings and case studies of operations management in business and other organizations. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (OM 301) or OM 303, L301 or L303.
C Requires minimum grade of C.

Enrollment limited to students with a class of senior.

Non-Degree level students may **not** enroll.

Students with the terminated from BU major attribute may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**OM 492: Internship in Operations Management.** 3 credits.
Opportunity to gain practical, professional experience in conjunction with academic development. Internship is an important part of academic and career preparation. May be used as elective credit, but may not be repeated. Notes: No more than 6 credits of School of Business internship coursework (BUS 492 or OM 492) can be applied towards a student's 120 (BU) degree applicable credits. Students must receive departmental approval in order to register for this course; please contact the School of Business Office of Career Services for internal eligibility requirements. Offered by School of Business. May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, FNAN 492, MIS 492, MGMT 492, and MKTG 492. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 6 credits. Equivalent to ACCT 492, BUS 492, FNAN 492, MGMT 492, MIS 492, MKTG 492.

**Registration Restrictions:**
**Required Prerequisites:** OM 301 and 303.
B Requires minimum grade of B.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
Additional Course Details: Taught in English

OM 493: Management of Technology Projects. 3 credits.
Focuses on managerial problems associated with meeting technical, cost, and time constraints of technology projects. Discusses project management areas including organization, teams, scheduling, cost control, earned value analysis, risk management, and quality. Includes software cost estimation models and the management of IT projects. Software and case studies. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (OM 301\(^C\), L301, DESC 301\(^C\) or L301) or OM 303\(^C\) or L303.
\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

OM 499: Independent Study in Operations Management. 1-3 credits.
By special arrangement with instructor, and approval from associate dean for undergraduate programs. Investigates business problem according to student interest, using state-of-the-art decision science methodology. Offered by School of Business (p. 877). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (DESC 301\(^C\), L301, OM 301\(^C\) or L301) or OM 303\(^C\) or L303.
\(^C\) Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.
Non-Degree or Washington Consortium level students may not enroll.
Students with the terminated from BU major attribute may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Operations Research (OR)

300 Level Courses

OR 335: Discrete Systems Modeling and Simulation. 3 credits.
Introduction to basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete event modeling, specialized simulation software, and statistics of input and output analysis. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts. Equivalent to SYST 335.

Registration Restrictions:
Required Prerequisites: (CS 112\(^C\)) and (STAT 344\(^C\), 346\(^C\) or MATH 351\(^C\)) and (CS 211\(^C\)).
\(^*\) May be taken concurrently.
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

OR 438: Analytics for Financial Engineering and Econometrics. 3 credits.
This course introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts. Equivalent to SYST 438.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

OR 441: Deterministic Operations Research. 3 credits.
Survey of deterministic methods for solving real-world decision problems. Covers linear programming model and simplex method of solution, dual, and sensitivity analysis; transportation and assignment problems; shortest path and maximal flow problems; and introduction to integer and nonlinear programming. Emphasizes modeling and problem solving. Notes: Accelerated MS students may not receive credit for both OR/MATH 441 and OR 531 Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts. Equivalent to MATH 441.

Registration Restrictions:
Required Prerequisite: MATH 203\(^C\).
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

OR 442: Stochastic Operations Research. 3 credits.

Registration Restrictions:
Required Prerequisites: STAT 344\(^C\), 346\(^C\) or MATH 351\(^C\).
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**OR 481: Numerical Methods in Engineering.** 3 credits.
Modern numerical methods and software. Emphasis on problem solving through software and assessing the quality of solutions obtained. Topics include computer arithmetic, linear equations and least squares data fitting, interpolation, nonlinear optimization, and differential equations. Involves extensive computer use. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts. Equivalent to MATH 446.

**Registration Restrictions:**
**Required Prerequisites:** MATH 203C and CS 112C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**OR 498: Independent Study in Operations Research.** 1-3 credits.
Directed self-study of special topics of current interest in operations research. Notes: May be repeated if topics substantially different. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

**Recommended Prerequisite:** 60 hours; must be arranged with an instructor and approved by the dept. chair before registering.

**Registration Restrictions:**
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 500 Level Courses

**OR 531: Analytics and Decision Analysis.** 3 credits.
Course focus is predominantly on prescriptive analytics with some parts focused on predictive analytics. Topics include operations research techniques and their application to decision making such as mathematical optimization, networks modeling, stochastic modeling, and multi-objective modeling. Other topics such as PERT, CPM, computer simulation, decision analysis using decision trees and quantitative value functions, and heuristic methods are covered, as well as use of contemporary computer software for problem solving. In particular, the course will extensively use MS Excel for solving the decision making problems. Case-study approach to problem solving is used. Notes: Cannot be used for credit for the PhD IT program. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 538: Analytics for Financial Engineering and Econometrics.** 3 credits.
This course introduces the basic analytics for financial engineering and econometrics, topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hand-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 538.

**Recommended Prerequisite:** STAT 515 or STAT 544.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 540: Management Science.** 3 credits.
Operations research techniques and their application to managerial decision making. Mathematical programming, Markov processes, queuing theory, inventory models, PERT, CPM, and computer simulation are covered, as well as use of contemporary computer software for problem solving. Case-study approach to problem solving is used. Notes: Students who have taken OR 541 or OR 542 and OR MS majors do not receive credit. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** MATH 108, and STAT 250 or OM 200; or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 541: Operations Research: Deterministic Models.** 3 credits.
Survey of deterministic methods of solving real world decision problems. Covers linear programming model and simplex method of solution,
duality, and sensitivity analysis, transportation and assignment problems; shortest path, minimal spanning tree, and maximal flow problems; and an introduction to integer and nonlinear programming. Emphasis on modeling and problem solving. Notes: Students who have taken OR 441 / MATH 441 will not receive credit. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** MATH 203 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 542: Operations Research: Stochastic Models.** 3 credits.

**Recommended Prerequisite:** STAT 344 or MATH 351 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 574: Quality Control and Process Management.** 3 credits.
An overview of quality control techniques widely used in a number of manufacturing industries. The course teaches students about combining engineering process quality management and traditional statistical quality control procedures that are applicable in industry and are based on contemporary technologies such as lean Six Sigma, total quality management and predictive maintenance for achieving superior quality, reliability and maintainability. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 574.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 576: Manufacturing Systems Analysis.** 3 credits.
An overview of modeling and analysis of general manufacturing systems techniques widely used in a number of manufacturing industries, such as semiconductor manufacturing. The course teaches students about combining best scheduling and inventory control practices, enterprise resource management principles, and details of engineering economy that are applicable in the industry. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 576.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Recommended Prerequisite:** STAT 515 or Graduate Standing at the MSOR or MSSE programs.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture
This course is graded on the Graduate Regular scale. (p. 82)

**OR 584: Heterogeneous Data Fusion. 3 credits.**

Introduces the theory, design and implementation of multi-source information fusion systems in various domains. The course covers distinct technologies for combining data from multiple, heterogeneous sources and performing inferences in support to applications such as cyber security, Semantic Web, decision support systems, situational awareness, intrusion detection, crisis management, and others. The technical content is largely multi-disciplinary, encompassing disciplines such as knowledge engineering, ontologies, statistical learning, artificial intelligence, and data mining. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 584.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

---

**600 Level Courses**

**OR 603: Sports Analytics. 3 credits.**

Cover topics in the applied analysis of sports, with a focus on supporting team decision-makers. Students will learn to apply modern, practical analytic techniques to sports data in search of actionable insight and a competitive edge. The four major team sports of North America (football, baseball, basketball, and hockey) will be the primary subjects of study, but the course’s learning objectives will universally apply to a variety of sports. Students will become familiar with the full analytic life-cycle: asking productive and relevant research questions, finding the right data, applying the appropriate tools, discovering insight, and clearly communicating results. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** (OR 531 or OR 541), and (STAT 518 or OR 568).

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

---

**OR 588: Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives. 3 credits.**

This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Itô’s formula, and Black-Scholes model. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 588.

**Recommended Prerequisite:** Eng. or Math Graduate standing, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

---

**OR 604: Practical Optimization. 3 credits.**

Survey of optimization methods for students whose main focus is on application of optimization. Covers modeling, search methods, convexity, linear programming, sensitivity, networks, multiobjective optimization, heuristic methods, integer programming, nonlinear programming and dynamic programming; use of modeling languages and optimization tools, including NEOS. Notes: Course cannot be counted toward MSOR degree. Students who have taken OR 541 or 644 cannot receive credit. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** OR 531 and CS 112 or higher programming course.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
OR 635: *Discrete System Simulation.* 3 credits.
Computer simulation as a scientific methodology in operations analysis, with emphasis on model development, implementation, and analysis of results. Discrete-event models, specialized software, input modeling, and output statistics are covered. Extensive computational work is required. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** OR 542, or STAT 354 or 344, or equivalent; and knowledge of scientific programming language.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

OR 640: *Global Optimization and Computational Intelligence.* 3 credits.
Introduction to global optimization of nonconvex mathematical programs and numerical methods for the solution of such problems. Topics covered include high-level survey of traditional mathematical programming algorithms; critical comparison of metaheuristics and artificial intelligence (AI) algorithms to traditional mathematical programming algorithms; probabilistic search, multistart methods, statistical tests of performance and confidence, simulated annealing, genetic algorithms, neural networks, Tabu search, homotopies and tunneling; the traveling salesman problem, the Steiner problem, Stackelberg-Cournot-Nash mathematical games and other classical nonconvex optimization problems. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** MATH 203 or equivalent, and knowledge of a scientific programming language.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

OR 641: *Linear Programming.* 3 credits.
In-depth look at the theory and methodology of linear programming: Computational enhancements of the revised simplex method; sparse-matrix techniques, bounded variables and the dual simplex method.

Alternative interior point methods described and computational complexity of various algorithms analyzed. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** OR 541 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

OR 642: *Integer Programming.* 3 credits.
Cutting plane and enumeration algorithms for solution of integer linear programs; bounding strategies and reformulation techniques; heuristic approaches to the solution of complex problems; knapsack problems, matching problems, set covering and partitioning problems; applications to problems in OR/MS, such as capital budgeting, facility location, political redistricting, engineering design, and scheduling. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** OR 541 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

OR 643: *Network Modeling.* 3 credits.
Introduction to network problems in operations research, computer science, electrical engineering, and systems engineering. Solution techniques for various classes of such problems are developed. Topics include minimal-cost network flow, maximal flow, shortest path, and generalized networks; plus stochastic networks, network reliability, and combinatorially based network problems. Complexity of each problem class analyzed. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** OR 541 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 644: Nonlinear Programming.** 3 credits.
Nonlinear optimization theory and techniques applicable to problems in engineering, economics, operations research, and management science. Covers convex sets and functions, optimality criteria and duality; algorithms for unconstrained minimization, including descent methods, conjugate directions, Newton-type and quasi-Newton methods; and algorithms for constrained optimization, including active set methods and penalty and barrier methods. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** MATH 213 or equivalent and OR 541 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 645: Stochastic Processes.** 3 credits.

**Recommended Prerequisite:** OR 542 or STAT 544 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 646: Stochastic Optimization.** 3 credits.
Provides an introduction to stochastic optimization, more specifically, stochastic programming. The objectives are (i) to provide students with the ability to model and solve optimization problems under uncertainty, and (ii) to make students familiar with the state-of-the-art of stochastic programming. Homework will be used to reinforce and supplement information in each section. Through the semester we will be reading research papers to supplement the material in the text book. Papers and other course material will be provided on Blackboard. Students should be proficient with one programming language (e.g. MATLAB, Python, Java, C++) and should be able to become familiar with a math programming solver (e.g. Cplex, Gurobi.) Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** OR 541 and OR 542.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 647: Queuing Theory.** 3 credits.
Unified approach to queuing, organized by type of model. Single- and multiple-channel exponential queues; Erlangian models, bulk and priority queues, networks of queues; general arrival and/or service times; and statistical inference and simulation of queues are covered. Extensive use of computational software. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** OR 542, STAT 544, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 649:** Topics in Operations Research. 3-6 credits.
Advanced topic chosen according to interests of students and instructor from dynamic programming, inventory theory, queuing theory, Markov and semi-Markov decision processes, reliability theory, decision theory, network flows, large-scale linear programming, nonlinear programming, and combinatorics. Notes: May be repeated if topics substantially different. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**OR 651:** Military Operations Research I: Cost Analysis. 3 credits.
While drawing on other disciplines (managerial accounting, econometrics, systems analysis), cost analysis uses operations research to assist decision makers in choosing preferred future courses of action by evaluating selected alternatives on the basis of their costs, benefits, and risks. Cost analysis is distinctly different from cost estimating in that projecting future courses of action almost always requires mathematical modeling. Topics include analysis overview, economic analysis, estimating relationships (factors, simple and complex models), acquiring and verifying cost data, cost progress curves, life-cycle costing, scheduling estimating, effectiveness and risk estimation, relationship of effectiveness models and measures to cost analysis. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Corequisite:** OR 541 or OR 542.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 652:** Military Operations Research Modeling II: Effectiveness Analysis. 3 credits.
Examines issues and modeling underlying military decisions at the Military Service, Joint Staff, and Department of Defense level. Analytical methods with applications to theater campaign analysis, equipment and weapon system modernization, force structure development, strategic mobility and deployment, small-scale contingency operations, logistics, and requirements determination are considered. Optimization, simulation, and statistical techniques are stressed. Realistic problems presented and solved as case studies. Display of results and presentation techniques for military decision makers emphasized. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 654:** Bayesian Inference and Decision Theory. 3 credits.
Introduces decision theory and relationship to Bayesian statistical inference. Teaches commonalities, differences between Bayesian and frequentist approaches to statistical inference, how to approach...
statistics problem, and how to combine data with informed expert judgment to derive useful and policy relevant conclusions. Teaches theory to develop understanding of when and how to apply Bayesian and frequentist methods; and practical procedures for inference, hypothesis testing, and developing statistical models for phenomena. Teaches fundamentals of Bayesian theory of inference, including probability as a representation for degrees of belief, likelihood principle, use of Bayes Rule to revise beliefs based on evidence, conjugate prior distributions for common statistical models, and methods for approximating the posterior distribution. Introduces graphical models for constructing complex probability and decision models from modular components. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to CSI 674, SYST 664.

**Recommended Prerequisite:** STAT 544, STAT 554, or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 670: Metaheuristics for Optimization.** 3 credits.
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 670.

**Recommended Prerequisite:** OR 441/541 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 671: Judgment and Choice Processing and Decision Making.** 3 credits.
How do people make judgments and decisions? Course presents an initial review of scientific literature directed toward answering this question, and emphasizes its importance when performing decision analysis and designing systems to support judgment and decision processes. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 671.

**Recommended Prerequisite:** STAT 344/354, OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 674: Dynamic Programming.** 3 credits.
Course on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses intuition, the mathematical foundations being for the most part elementary. Introduces the theory, applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 674.

**Recommended Prerequisite:** OR 442 or OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 675: Reliability Analysis.** 3 credits.
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 675.

**Recommended Prerequisite:** STAT 544/554, OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 681: Decision and Risk Analysis.** 3 credits.

Application of analytic reasoning and skills to practical problems in decision-making. Topics include problem structure, analysis and solution implementation, emphasizing contemporary approaches to decision analytic techniques. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 573.

**Recommended Prerequisite:** OR 542 or MBA 638.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 682: Computational Methods in Engineering and Statistics.** 3 credits.

Numerical methods have been developed to solve mathematical problems that lack explicit closed-form solutions or have solutions that are not amenable to computer calculations. Examples include solving differential equations or computation probabilities. Discusses numerical methods for such problems as regression, analysis of variance, nonlinear equations, differential and difference equations and nonlinear optimization. Applications in statistics and engineering are emphasized. Involves extensive computer use. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to CSI 690, MATH 685.

**Recommended Prerequisite:** MATH 203 and 213 or equivalent, and modern numerical methods and software.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 683: Principles of Command, Control, Communications, Computing, and Intelligence (C4I).** 3 credits.

Fundamental principles of C4I are developed from descriptive, theoretical, and quantitative perspectives. Principles and techniques applicable to wide range of civilian and military situations. Topics include C2 process; modeling and simulation for combat operations; detection, sensing, and tracking; data fusion and situation assessment; optimal decision making; methodologies and tools of C4I architectures; tools for modeling and evaluations of C4 systems such as queuing theory. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** ECE 528 or OR 542 or SYST 611 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 688: Financial Systems Engineering II: Derivative Products and Risk Management.** 3 credits.

Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 688.

**Recommended Prerequisite:** OR/SYST 588 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture
OR 690: Optimization of Supply Chains. 3 credits.
Focuses on both supply chain optimization from an enterprise-wide perspective, and supply chain optimization from a business-to-business e-commerce concern. Concerned with optimizing the value of goods and services and assuring a reasonable return on such sales. Discusses both heuristic and exact algorithms for scheduling, production, inventory management, logistics, and distribution. New software that enables such optimization is presented, as are manufacturing and service examples from the public and private sectors. New techniques to handle risk, quality of data, and robustness of solutions are presented. Students perform case studies using state-of-the-art software. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: Mathematics through linear algebra, and STAT 344.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

OR 699: Masters Project. 3 credits.
Capstone project course for MS/OR program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Students should plan to take this course in the last semester of studies. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: 21 graduate credits in OR or SYST.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

OR 719: Graphical Models for Inference and Decision Making. 3 credits.
Theory and methods for inference and decision making in environments characterized by uncertain information. Covers graphical probability and decision models. Studies approaches to representing knowledge about uncertain phenomena, and planning and acting under uncertainty. Topics include knowledge engineering, exact and approximate inference in graphical models, learning in graphical models, temporal reasoning, planning, and decision-making. Practical model-building experience provided. Students apply what they learn to a project of their own choosing. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to CSI 775.

Recommended Prerequisite: STAT 652 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

OR 735: Advanced Stochastic Simulation. 3 credits.
Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data, random number and random variate generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 735.

Recommended Prerequisite: OR 635 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

OR 741: Advanced Linear Programming. 3 credits.
Recent developments in linear programming. Highlights advances in interior point methods and also addresses developments in the simplex method. Projective methods, affine methods, and path-following methods are examined, including Karmarkar's original work. Discusses relationships between these methods, and relationships to methods in nonlinear programming. Also discussed are advances in data structures and other implementation issues. Students test software and solve large-scale linear programs. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: OR 541 or 641.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

OR 750: Advanced Topics in Operations Research. 3 credits.
Special topics, applications, or recent developments in operations research. Contents vary and may include topics in optimization, stochastic methods, or decision support that are not covered in the standard OR curriculum. Notes: May be repeated when topics are distinctly different. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: OR 541 or 542, and 600-level course that varies with content of course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

OR 751: Advanced Topics in Operations Research for Planning and Scheduling. 3 credits.
Introduces combinatorial optimization problems in scheduling and logistics. Solution techniques for various classes of such problems are developed. Topics include deterministic and stochastic scheduling algorithms with applications in manufacturing and service sectors. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: OR 541.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

OR 753: Research Methods in Systems Engineering and Information Technology. 3 credits.
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 763.

Recommended Prerequisite: STAT 554, OR 542, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

OR 774: Advanced Dynamic Programming. 3 credits.
Covers advanced topics on the theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties. Stresses the mathematical foundations and introduces the theory, computational aspect, and applications of dynamic programming for deterministic and stochastic problems. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: OR 674/SYST 674 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

OR 780: Queuing Modeling of Computer-Communication Networks. 3 credits.
Studies analytical modeling of computer and communication networks and performance evaluations. Topics include Markovian systems, open networks, closed networks, approximations, decomposition, simulation, sensitivity analysis, and optimal operation of systems. Presents local area networks, manufacturing systems, and other applications. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: OR 645 or OR 647. or ECE 542; or

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
OR 782: Advanced Topics in Combinatorial Optimizations. 3 credits.
Studies problems using most recent developments. Topics include cutting plane procedures based on polyhedral combinatorics; column-generation procedures for large, complex problems; heuristic approaches such as genetic algorithms, simulated annealing, and tabu search; study of special structures; reformulation techniques; and bounding approaches. Topics stress most recent developments in field. Notes: May be repeated when topics are distinctly different. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: OR 641 or OR 642.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

OR 783: Advanced Topics in Network Optimization. 3 credits.
Recent developments in solving optimization problems on networks. Prepares doctoral students to perform advanced research on network-related problems. Topics include linear, discrete, nonlinear, and stochastic problems. Several aspects of problems also studied, including computational complexity, exact algorithms, heuristics, solvable special cases, and computer implementation issues. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: OR 643.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

OR 784: Advanced Topics in Nonlinear Programming. 3 credits.
Studies theory and algorithms for solving nonlinear optimization problems. Contents vary; possible topics include large-scale and parallel-unconstrained optimization, theoretical issues in constrained optimization, duality theory, Lagrangian and sequential quadratic programming methods. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: OR 644.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

800 Level Courses

OR 842: Models of Probabilistic Reasoning. 3 credits.
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: STAT 544, OR 542, OR 681 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

OR 888: Distributed Estimation and Multisensor Tracking and Fusion. 3 credits.
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multitarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: ECE 734 or SYST 611.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

900 Level Courses

OR 944: The Process of Discovery and Its Enhancement in Engineering Applications. 3 credits.
Studies ingredients of imaginative reasoning as it concerns efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce’s theory of abductive reasoning and other forms of reasoning, Hintikka’s analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-
related or investigative activities. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to SYST 944.

**Recommended Prerequisite:** OR 842 or SYST 842 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture
**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**OR 981:** *Optimization in Medicine.* 3 credits.
Course focuses on the application of optimization to medicine, as well as on modeling used and solution approaches to the optimization problems generated. Particular attention is paid to algorithms and methodology not discussed in other optimization courses. Topics covered include nonlinear integer programs, large-scale nonlinear and integer programs, problems governed by differential equations, and more. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** OR 641 or OR 642 or OR 643 or OR 644.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture
**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Organization Development and Knowledge Management (ODKM)**

**700 Level Courses**

**ODKM 700:** *Organizations, Management and Work: Theory and Practice.* 3 credits.
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowldege-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**ODKM 705:** *Group Dynamics and Team Learning.* 3 credits.
Engaging in unstructured and semi-structured learning environment, students will learn how to facilitate team learning for organizational effectiveness. By exploring various aspects of group dynamics such as power, perception, motivation, leadership, and decision making, students will develop various competencies to manage teams and enhance their emotional and appreciative intelligence. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**ODKM 710:** *Social and Organizational Inquiry.* 4 credits.
Introduces participants to the ethics, conduct and evaluation of research into human, social and organizational realities. Explores relationships between what and how we measure and what we find. Students develop the capacity to reflect on themselves as research instruments, on their own impact on the systems under study, and on the impact of the research assumptions, framing and approach both on the results obtained and on the future development of those systems. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**ODKM 715:** *Creating Learning Organizations.* 3 credits.
Focuses on the epistemological and ontological implications of organizational life in the twenty-first century. Reevaluates traditional management approaches in light of global economies, instantaneous communication, changing technologies, and diverse workgroups in knowledge economies. Special attention to developing skills for "double- and triple-loop learning" and reflection in professional lives through learning conversations, journals, narrative, autobiography, and imaginative literature. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

ODKM 731: Consulting Skills for Organizational Change. 3 credits.
Explores various theories and practices of change management, collaborative consulting, action research, and organization development. Using class projects and case studies, students bring together their understanding of organization development, their values, and their personal style to perform more effectively in various consulting roles. Students also learn various aspects of process consulting and client relationship management. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ODKM 732: Leadership and Social Justice. 4 credits.
This course challenges participants not just to theorize leadership and social justice but to inhabit them. Reflective understanding and practice span: inner journeys, interpersonal relationships, organizations, and large scale systems. With globalization, ethical leadership requires understanding diverse perspectives and complex systems. Outward leadership relies on inner leadership. Participants cultivate personal leadership philosophy and practice through engaging real-life challenges. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ODKM 735: Organizational Development Practices. 3 credits.
Students develop applied knowledge of various organizational development practices such as action research and appreciative inquiry. Includes simulations to understand the complexities of real-world change management. Group projects with selected organizations will help students develop their diagnostic and analytical skills to become better facilitators of organizational learning. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Organiztn Dev Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

ODKM 740: Learning Community. 1-3 credits.
Using workshops, seminars, simulations, and structured experiences, students will learn how to build a learning Community of Practice (CoP) as practitioners of organization development. They will also reflect upon the community building experience using research findings and design practice sessions to apply the lessons learned to the work environment. Offered by Schaefer School of Policy & Govt (p. 941). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Candidates for the M.S. in ODKM degree only.

Registration Restrictions:
Enrollment is limited to students with a major in Organizational Knowledge Mgt.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Special scale. (p. 82)

Parks, Recreation, and Leisure Studies (PRLS)

200 Level Courses

PRLS 200: Wilderness First Responder. 2 credits.
Examines the role of outdoor professionals in wilderness medicine and the response, care and rescue of outdoor participants in non-urban outdoor environments. Uses the Patient Assessment System (PAS) to assess backcountry patients in an intensive experiential course which addresses the issues of medico legal concerns, blood borne pathogens and infectious diseases. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 8 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 210: Introduction to Recreation and Leisure. 3 credits.
Traces the development of current concepts of recreation and leisure and their implications and consequences. Covers influences of philosophy, religion, science, economics, sociology, and politics on discretionary time and its uses. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 220: Experiential Education Theory and Application. 3 credits.
Provides a broad theoretical, as well as practical, background in teaching and learning experientially. Concepts presented, experienced, and discussed include the basic premises of experiential learning according to a wide variety of educators and philosophers. The content and experience applies to recreation, education, development, and therapeutic settings. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 221: Challenge Course Facilitation. 3 credits.
Provides the fundamental principles and techniques of challenge course facilitation. Classroom learning is combined with an experiential setting through leading youth groups in the field. Students are provided with an introduction to safety, skills, and facilitation techniques for low and high elements of outdoor challenge courses. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: CPR Certification and PRLS 220.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 241: Practicum. 3 credits.
Paid or voluntary work experience in a park and recreation agency. Minimum period of 10 to 12 weeks of part-time employment or experience. Capstone course for minors, allowing for integration and application of course work, theories, and research to a work setting. Work sites chosen among four approved sites. Includes meetings and assignments prior to and during the practicum. Notes: Open to departmental majors and minors only. Serves as a capstone for minors who have completed PRLS 310, 316, and 327. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PRLS 210$^D$, 220$^D$ or 316$^D$.
$^D$ Requires minimum grade of D.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

PRLS 250: Wilderness Travel and Sustainability. 2 credits.
This experiential course is designed for students with prior backpacking experience. Involves discussions, demonstrations, and activities that teach students wilderness skills, safety and judgment, leadership and teamwork, and environmental ethics. Topics covered include basic wilderness first-aid, hazard evaluation, emergency procedures, expedition behavior, self awareness, judgment and decision making, campsite selection, shelter and stove use, fire building, sanitation and hygiene, cooking, nutrition and rationing, equipment care and selection, staying warm and dry, route finding and navigation, Leave No Trace backpacking, weather, natural history, and wilderness ethics. Application of these skills will occur during the 14-day offtrail backpacking trip in a remote wilderness area. Not only will students practice these wilderness skills, but they will also develop leadership abilities by working in a collaborative team environment. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Schedule Type: Green Leaf Course
This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 290: Aquatic Operation and Management. 3 credits. Covers industry standards for water quality and aquatic facility management. Includes recognizing, measuring, and preventing biological and physical hazards. Meets requirements for certification as a Certified Pool/Spa Operator through the National Swimming Pool Foundation as well as certification in CPR through the American Red Cross. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 301: Social Psychology of Play and Recreation. 3 credits. Applies social psychological theories and research to the study of leisure, play, and recreation behavior, including correlates, antecedents, and consequences of and constraints to these concepts. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PRLS 210\textsuperscript{D} or SRST 200\textsuperscript{D}.
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 302: Park Management and Operations. 3 credits. Focuses on management and operations of park resources, including the management of visitors and recreation development. Emphasizes understanding of contemporary threats to park integrity and preservation of resources. Also covers maintenance management systems. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: PRLS 300

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 303: Program Planning and Evaluation. 3 credits. Introduces fundamental principles and techniques of the planning process for sport, recreation and tourism programs, including assessment of needs and goals, objectives, and mission statement; generating solutions; planning programs for implementation and evaluation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PRLS 210\textsuperscript{D}, SPMT 201\textsuperscript{D}, PHED 200\textsuperscript{D}, SRST 200\textsuperscript{D} or TOUR 200\textsuperscript{D}.
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 304: Foundations of Therapeutic Recreation. 3 credits. An introduction to the processes and techniques of therapeutic recreation to meet the unique needs of people with disabilities. This course examines the history, concepts, theories, and foundations of therapeutic recreation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 305: Bill of Rights Issues in Parks, Schools, and Public Places. 3 credits. Examines issues, particularly those involving First Amendment free speech and freedom of religion issues such as political protests, religious displays, and use permits. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PRLS 312: Cultural and Environmental Interpretation. 3 credits. Focuses on communication processes and practices used to explain and interpret special characteristics of cultural and environmental techniques. Covers sustainable use, conservation, and stewardship of natural resources. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)
resource sites for visitors. Conceptual principles for planning interpretive programs and multi-media delivery techniques are discussed. Methods for programming interpretive services, addressing multi-audience accessibility, and administration and evaluation of interpretive services used at recreation and tourism sites are also examined. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit. Equivalent to TOUR 362.

**Recommended Prerequisite:** PRLS 300.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 400 Level Courses

**PRLS 402: Human Behavior in Natural Environments.** 3 credits.
Applies social and behavioral theories to management for recreational users of land and water resources. Examines deterioration and pollution of land and water, noise, crowding, and conflicts among users. Discusses strategies for mitigation of deleterious impacts and deprecative behaviors, and attitudes toward resource conservation, preservation, and use. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Registration Restrictions:**
**Required Prerequisite:** PRLS 300\(^C\).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PRLS 405: Planning and Operation of Recreation Facilities.** 3 credits.
Covers quantity, location, and design standards for facilities. Includes safety, functionality, durability, and maintenance demand criteria in planning and design; programmatic and operational objectives to be met, including user comfort and convenience, crowd management, and traffic flow, and space relationships. Includes field study of local facilities. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PRLS 410: Administration of SRT Organizations I.** 3 credits.
Focuses on operation and management of sport, recreation and tourism organizations. Covers management and leadership theories and techniques, problem-solving and decision making, organizational communications, design of organizational structures and budgeting. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PRLS 411: Administration of SRT Organizations II.** 3 credits.
Focuses on program and organizational marketing principles and strategies; service quality assessment and organizational evaluation techniques; and organizational financing for the experience industry. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PRLS 410\(^C\).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PRLS 416: Trends and Programming Assessment in Therapeutic Recreation.** 3 credits.
Explores the role of leisure in human development with a specific focus on needs, demands, and services for people with disabilities and illness. Presents concepts associated with leisure, aging, physical challenge, targeting leisure services, research, and public policy. Notes: Field experience required. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PRLS 327\(^D\).
\(^D\) Requires minimum grade of D.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PRLS 417: Processes, Techniques and Supervision in Therapeutic Recreation.** 3 credits.
Exploration of processes and techniques used in Therapeutic Recreation, with a focus on the nature and diversity of recreation and leisure activities, modalities and interventions, facilitation techniques and approaches, leadership roles and tasks, communication skills, clinical supervision, health and safety considerations, and the impact of the impairment and/or treatment on the individual. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PRLS 327\(^C\).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PRLS 418: Assessment in Therapeutic Recreation.** 3 credits.
Presents methods of assessment, development of treatment program plans, and evaluation of all components. Extends program design by developing competencies in the planning approaches, individual and group assessment techniques, program evaluation, and documentation strategies for people with disabilities and illness. Notes: Field experience required. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PRLS 327\(^D\).
This course is graded on the Undergraduate Regular scale. (p. 82)

**PRLS 490: Recreation Management Internship.** 12 credits.
Consecutive weeks in an agency for a minimum 10-15 weeks of 30-40 hours weekly (400 total hours-parks and outdoor recreation) and (560 total hours-therapeutic recreation supervised by a Certified Therapeutic Recreation Specialist). Applies course work, theories, and research to an agency site chosen by the student after approval by Internship Coordinator. Includes meetings and assignments before and during internship. Note: Mandatory internship meeting attendance required before registration and CPR and AED certification required by start of class. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PRLS 499:** Independent Study. 1-3 credits.
Individual study of topic area in leisure research, theory, or practice under direction of faculty. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** PRLS 460.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**500 Level Courses**

**PRLS 501: Introduction to Natural Resources Law.** 3 credits.
Selected legal issues involving conflicting use and preservation demands on our nation’s limited natural resource base, particularly those involving public lands, open space, and recreation resources. Uses case studies of recent court decisions. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Recommended Prerequisite:** PRLS 460.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PRLS 503: Administration and Disability Rights in Therapeutic Recreation.** 3 credits.
Overview of major law and policy issues related to therapeutic recreation services for people with disabilities. Primary focus is on the Americans with Disabilities Act and related federal legislation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** PRLS 460.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PRLS 526: Environmental Education and Resource Interpretation.** 3 credits.
Provides methods for communicating and disseminating information pertaining to the use of natural recreation resources. Covers design and implementation of educational materials and programs to enhance understanding and appreciation of cultural, historical, and natural resources. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PRLS 531: Natural Resources Recreation Planning.** 3 credits.
Origins and evolution of recreation use philosophy, policies, and service of public estate management. Examines planning for a spectrum of opportunities, from wilderness to developed sites, with attention to financial consideration and sustainable use of cultural and visual resources. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PRLS 533: Visitor Services.** 3 credits.
Examines motivation of resource-based recreation participants. Covers visitors’ expectations and perceptions, with emphasis on implication for service quality, staff training, and other management responsibilities. Discusses use and user conflicts and placement, information and interpretive service, and human and other interpretive service resources. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PRLS 535: Evaluating Recreation Outcomes.** 3 credits.
Covers application of quantitative and qualitative research methods to the evaluation of programs provided to visitors and users of public lands for outdoor recreation. Focuses on needs assessment and application of meaningful measures for formative and summative evaluations. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PRLS 598: Special Topics.** 1-6 credits.
Projects related to parks, recreation, and leisure studies. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PRLS 599: Independent Study.** 1-3 credits.
Study of a problem area in parks, recreation, and leisure studies research; theory or practice under the direction of faculty member. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
600 Level Courses

PRLS 601: History of Leisure and Sport in American Society. 3 credits.
Examines leisure and sport in American society from the early colonial period to the present day. Investigates the pattern of leisure and sport as America moved from a largely agrarian to a highly industrialized nation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PRLS 610: Recreation Administration and Planning. 3 credits.
Examines recreational administration concepts regarding organizational structure and operations, personnel management, financing, policy development, and public relations procedures. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PRLS 611: Social Psychology of Leisure. 3 credits.
Addresses historical, theoretical, and empirical foundations of social psychological constructs relative to social behavior in park, recreation, sport, and tourism settings. Focuses on attitudinal, social, and motivational theories as applied to leisure-related contexts. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PRLS 612: Philosophy of Leisure and Sport. 3 credits.
Investigates the phenomenon of leisure and sport from a philosophical perspective. Utilizes the philosophical approach to better explain the role that leisure and sport play in American society. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PRLS 613: Strategic Leadership in Recreation Administration. 3 credits.
Focuses on strategic leadership in recreation administration necessitated by demographic, social, political, and legal challenges; addresses organizational culture, positive leadership, innovation, partnerships, data-driven decision making, and accountability. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PRLS 614: Legal Issues in Recreation Administration. 3 credits.
Surveys current legal issues relevant to Recreation Administration, including, but not limited to, tort law, civil rights law, employment law, constitutional law, and copyright law. This course uses case studies of recent court decisions. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PRLS 647: Land Status, Boundaries, Claims, and Withdrawals. 3 credits.
Land survey and status records system, programs for maintaining and managing boundaries, handling claims and encroachments, the land status record system, and Bureau of Land Management master title plot system. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PRLS 648:** American Indian Rights and Claims. 3 credits.
American Indian sovereignty, Alaska Native corporations, colonization; treaties, rights, and claims; cultural resources an Indian laws and consultation with tribal governments. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PRLS 670:** Environmental Law. 3 credits.
Focuses on interpretation of environmental laws and regulatory issues. Emphasizes critical evaluation of alternatives to unresolved issues in environmental policies involving endangered species, hazardous waste, and toxic substances. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PERS 110:** Elementary Persian. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**200 Level Courses**

**PERS 201:** Intermediate Persian I. 3 credits.
Further development of skills in listening, speaking, and writing. Notes: PERS 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** PERS 110, or permission of department.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PERS 202:** Intermediate Persian II. 3 credits.
Further development of skills in listening, speaking, and writing. Notes: PERS 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** PERS 201, or permission of department

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PERS 210:** Intermediate Persian. 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Persian-speaking regions. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** PERS 110, appropriate placement score, or permission of department.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PERS 250:** Gateway to Advanced Persian. 3 credits.
Integration of advanced intermediate-level Persian reading, writing, listening, and speaking skills and the development of critical thinking and understanding authentic texts from the Persian world. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** PERS 210 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**300 Level Courses**

**PERS 330:** Advanced Persian I. 3 credits.
Development of cultural and linguistic competency in written and spoken Persian at the low advanced level, with attention to reading, writing, listening and speaking, grammar and vocabulary pertaining to Persian social, political and cultural issues. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.
Recommended Prerequisite: PERS 250 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PERS 331: Advanced Persian II. 3 credits.
Development of cultural and linguistic competency in written and spoken Persian at the advanced level, with attention to reading, writing, listening and speaking, grammar and vocabulary pertaining to Persian social, political, and cultural issues. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: PERS 330, equivalent, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Philosophy (PHIL)

100 Level Courses

PHIL 100: Introduction to Philosophy. 3 credits.
Introduction to the nature of philosophical reasoning and some of the main problems of philosophy. Offered by Philosophy (p. 436). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 101: Introduction to Philosophy for Prospective Majors. 3 credits.
In this course, students can learn what distinguishes philosophy from other intellectual fields, major contributions in the history of philosophy, and basic philosophical issues, as well as how to develop the skills needed to address those issues oneself. The course is geared to the needs and the interests of students who may want to consider declaring philosophy as their major. Offered by Philosophy (p. 436). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 110: Ethics Lab. 1 credit.
Focuses on contemporary moral problems and case studies of real world situations involving complex ethical issues. Examines different ways of identifying, analyzing and responding to such issues based on different approaches to ethical thinking. Allows students to develop their capacities for moral perception, and ethical decision-making and action in a global setting. Offered by Philosophy (p. 436). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 112: Ethics and the Cybersociety. 1 credit.
Examines ethical issues associated with new developments in information technology, including privacy rights, intellectual property rights, and the effect of information technology on society. Offered by Philosophy (p. 436). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 151: Introduction to Ethics. 3 credits.
Considers some perennial issues in ethical theory. Offered by Philosophy (p. 436). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 156: What Is Art?. 3 credits.
Introduction to philosophical reflection on the arts by looking at the critical issues in the history of aesthetics. Applies considerations to specific works and exploring these works in terms of their historical contexts and influences. Concentrates on one form of art or one period and always emphasizes questions of critical evaluation and art historical analysis. Offered by Philosophy (p. 436). May not be repeated for credit.

Mason Core: Arts (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 173: Logic and Critical Thinking. 3 credits.
Basic concepts and techniques of deduction, emphasizing the modern treatment of such topics as quantification and rules of inference, with study of the classical treatment. Basic principles of induction, informal fallacies, and uses of logic in everyday life. Offered by Philosophy (p. 436). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

PHIL 243: Global Environmental Ethics. 3 credits.
Examines the global dimensions of environmental problems. Although environmental problems are global in reach, because different societies make different philosophical and ethical assumptions, they are understood in different ways. Examines several environmental problems, including climate change, population growth, and resource depletion, from a variety of scientific, policy, and cross-cultural perspectives. Offered by Philosophy (p. 436). May not be repeated for credit.

Mason Core: Global Understanding, Encore:Sustainability, Encore:Well-Being (p. 137)

Specialized Designation: Green Leaf Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 251: Happiness and the Good Life.** 3 credits.
Addresses the question "How do I live a happy life?" by drawing on 2,500 years of philosophy as well as the much more recent science of happiness. Encourages students to develop and live their own answer in light of some of the best available science and philosophy. Offered by Philosophy (p. 436). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 253: Philosophy and Literature.** 3 credits.
Examines differences and relations between literary and philosophical texts. Examines texts from a given period in the history of literature and philosophy. Topics include the presence of common issues in literary and philosophical writings, the influence of philosophical ideas on the production of literary texts and literary theory, and the development in literary texts of issues that are possible objects of philosophical inquiry. Offered by Philosophy (p. 436). May not be repeated for credit.

**Mason Core:** Literature (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 300 Level Courses

**PHIL 301: History of Western Philosophy: Ancient.** 3 credits.
Classical Greek philosophy, including pre-Socratics, Socrates, Plato, and Aristotle. Offered by Philosophy (p. 436). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 303: History of Western Philosophy: Modern.** 3 credits.
Figures and problems of modern philosophy. Study of philosophers such as Descartes, Locke, Berkeley, Hume, Kant, and Hegel. Offered by Philosophy (p. 436). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 305: Business Ethics.** 3 credits.
Examines some moral problems that arise with regard to the responsibilities of various segments of the business community, including employers, management, stockholders; to one another; to the consumer; and to society at large. Offered by Philosophy (p. 436). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 306: Philosophy Internship.** 3-6 credits.
Gives students the opportunity to apply philosophical skills in real-world settings. Internships arranged and supervised by faculty in the Department of Philosophy. Offered by Philosophy (p. 436). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 309: Bioethics.** 3 credits.
Examines some major moral issues involved in practice and research in medicine and health care. Topics to be chosen from medical experimentation, definition of death, physician-assisted dying, genetics and human reproduction, distribution of scarce resources, fertility, and organ transplants. Offered by Philosophy (p. 436). May not be repeated for credit.

**Mason Core:** Synthesis (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 311: Philosophy of Law.** 3 credits.
Investigation of theories of natural law, legal positivism, and legal realism as they pertain to some of the central philosophical questions about law. Offered by Philosophy (p. 436). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of PHIL or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 313: Philosophy of Religion.** 3 credits.
Study of classical appeals to philosophy in support of belief in god's existence (Philo, Augustine, Anselm, Aquinas, Descartes); the fideism of Hume and the metaphysical agnosticism of Kant; the concept of religious experience in the philosophies of Hegel, Schleiermacher, and Kierkegaard; and the problem of religious language in contemporary empirical philosophy. Offered by Philosophy (p. 436). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits of philosophy, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 323: Classical Western Political Theory.** 3 credits.
Exploration through lecture and discussion of developments in the Western tradition of political thought from the time of the Greek city-state to late medieval Christendom, focusing on such topics as the nature and purpose of politics, the relationship between the individual and the state, the political significance of religion and tradition, and the concept of natural law. Offered by Philosophy (p. 436). May not be repeated for credit. Equivalent to GOVT 323.

**Recommended Prerequisite:** GOVT 101 or three credits of Philosophy.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 324: Modern Western Political Theory. 3 credits.
Exploration through lecture and discussion of developments in the Western tradition of political thought from the Renaissance to the middle of the 19th century, focusing on such topics as the rise of individualism in political theory, early developments in social contact theory, theories of radical popular sovereignty, and early critiques of liberal theory. Offered by Philosophy (p. 436). May not be repeated for credit. Equivalent to GOVT 324.

Recommended Prerequisite: GOVT 101 or three credits of philosophy.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 325: Karl Marx's Social and Political Thought. 3 credits.
Study and evaluation of Marx's social and political ideas based on writings selected from several phases of his career. Examination of relation of Marx's thought to post-Marxist socialist theory and practice. Offered by Philosophy (p. 436). May not be repeated for credit.

Recommended Prerequisite: 3 credits of philosophy, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 327: Contemporary Western Political Theory. 3 credits.
Exploration through lecture and discussion of recent developments in the Western tradition of political thought from the middle of the 19th century to today. Different sections focus on one or another of the various political theories that have been influential during this period such as liberal, libertarian, conservative, communitarian, Marxist, feminist, and postmodern thought. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the term for a maximum 12 credits. Equivalent to GOVT 327.

Recommended Prerequisite: GOVT 101 or three credits of philosophy.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 329: Philosophy after Auschwitz. 3 credits.
Examines the philosophical questions that arise in the wake of the Nazi concentration camps concerning genocide, political modernity, and conceptions of the human. Investigates how the logic of the camp made possible systematic genocidal violence against the Jews and other groups, and the ways in which that logic manifests in other forms and on other bodies before and after Auschwitz. Draws on writers and philosophers such as Primo Levi, Giorgio Agamben, Hannah Arendt, Maurice Blanchot, and/or Adriana Cavarero to analyze the ethical and political questions posed by the camps, and uses literature, film and art to engage with the complexities of bearing witness to horror and the unrepresentable. Offered by Philosophy (p. 436). May not be repeated for credit.

Recommended Prerequisite: 3 hours of PHIL or Permission of Instructor.
subject matter of the social sciences, as well as critical difficulties in its development. Texts by Husserl, Heidegger, Merleau-Ponty, Sartre, Schutz, and Derrida. Offered by Philosophy (p. 436). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits of philosophy, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 338: Philosophy, Sex, and Gender.** 3 credits.
An exploration of how concepts of sex and gender both structure key philosophical ideas and put such ideas into question. The course examines the ways patriarchal structures situate woman as the 'other' as well as alternative feminist approaches to sexuality, subjectivity, the body, and language. An overriding theme is the relationship between questions of sexual difference and other key issues in contemporary philosophy. Offered by Philosophy (p. 436). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of PHIL or Permission of Instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 340: Hermeneutic Philosophy.** 3 credits.
Study of the development of hermeneutic philosophy in works by Heidegger, Gadamer, and Ricoeur, as an effort toward coming to terms with the historicity of human experience. Implications for interpretive understanding of artworks, institutions, events, texts, and the human condition. Offered by Philosophy (p. 436). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of PHIL or Permission of Instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 343: Topics in Environmental Philosophy.** 3 credits.
An in-depth examination of selected environmental issues from a philosophical perspective. Such issues might include the value of nature, the moral status of animals, duties to protect wilderness areas, economics and environmental protection, environmental justice, and environmental aesthetics. Offered by Philosophy (p. 436). May not be repeated for credit.

**Mason Core:** Encore: Sustainability, Synthesis (p. 137)

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PHIL 344: Ethical Issues in Global Health.** 3 credits.
This course will consider ethical questions that arise in global health policy, practice and research. Offered by Philosophy (p. 436). May not be repeated for credit.

**Recommended Prerequisite:** Sophomore standing or higher.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 355: Theories of Ethics.** 3 credits.
A critical examination of a variety of different types of classical, modern, and contemporary ethical theories, including consequentialist theories, deontological theories, and virtue theories. Offered by Philosophy (p. 436). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 3 credits in PHIL or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 356: Philosophy of Art.** 3 credits.
Basic problems that arise from an inquiry into meaning and value of art and our response to art. Offered by Philosophy (p. 436). May not be repeated for credit.

**Recommended Prerequisite:** 3 hours of PHIL or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 357: Philosophy of the Social Sciences.** 3 credits.
Philosophical issues relating to competing methodologies for the social sciences. Analysis and critique of mainstream positivism and behaviorism; paradigm theory and scientific revolutions; interpretive understanding and hermeneutical science; phenomenology and the social construction of reality; ethnomethodology and situational meaning; analytic philosophy and action theory; the "idea" of a social science; sociology of knowledge and theory of ideology; and Western Marxism and critical theory. Offered by Philosophy (p. 436). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits of philosophy, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 358: Ethics and Economics.** 3 credits.
Examines issues at the intersection of ethics and economics. Looks at the different ways in which ethics and economics impact each other. Offered by Philosophy (p. 436). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits in philosophy or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHIL 371: Philosophy of Natural Sciences.** 3 credits.
One semester of logic recommended. Study of aims and methodology of science. Among the questions of concern are: What constitutes a
good scientific explanation? What grounds are used for comparing rival theories? Is there a special method of scientific discovery? Offered by Philosophy (p. 436). May not be repeated for credit.

Recommended Prerequisite: 3 hours of philosophy or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 373: Theory of Knowledge. 3 credits.
Discussion of basic problems concerning the nature of knowledge, with study of the relation of knowledge to perception, belief, and language. Offered by Philosophy (p. 436). May not be repeated for credit.

Recommended Prerequisite: 3 hours of philosophy or Permission of Instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 374: Philosophy of Mind. 3 credits.
Investigation of such theories as dualism, behaviorism, and materialism as they pertain to some of the central philosophical questions about mind. Offered by Philosophy (p. 436). May not be repeated for credit.

Recommended Prerequisite: 3 credits of philosophy, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 376: Symbolic Logic. 3 credits.
Study of predicate calculi by means of a step-by-step construction of artificial languages. Topics include procedures for constructing a calculus, proof techniques, significant properties of predicate calculi, and procedures for recognizing phrases. Offered by Philosophy (p. 436). May not be repeated for credit.

Recommended Prerequisite: PHIL 173 or MATH 110 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 377: Darwin: Biology and Beyond. 3 credits.
Introduction to and philosophical examination of the theory of evolution in its historical perspective. Examines Darwin’s theory of evolution as a scientific theory, connects it to its context in the history of science, and surveys its wider cultural impact. In particular, examines implications of the theory of evolution for religion and morality. Offered by Philosophy (p. 436). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 378: Reason, Science and Faith in the Modern Age. 3 credits.
Historical examination of the rise of sciences in the modern age (1500-present) and the impact this has had on religion, drawing from such thinkers as Luther, Bacon, Galileo, Newton, Pascal, Hume, Darwin, Kierkegaard, and James. Offered by Philosophy (p. 436). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 379: Perspectives on Time. 3 credits.
Examines the variety of ways time is conceptualized in different disciplines. Influential conceptions of time from the history of philosophy are studied in order to provide a comparative framework within which to consider specialist conceptions of time drawn from the sciences and humanities, including relativistic time, geological deep time, life cycles, and time in historical narrative. Offered by Philosophy (p. 436). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Recommended Prerequisite: 3 credits of philosophy, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 391: Special Topics in Philosophy. 1-3 credits.
Examines topics of current interest such as death and dying, rights of children, and philosophical controversies in modern physics. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the term for a maximum 12 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 393: Humanities College to Career. 1 credit.
Focuses on career choices and effective self-presentation for soon-to-be graduating students with majors in the humanities. Explores how skills typically learned in humanities majors can be leveraged for a successful transition to post-graduation employment. Offered by Philosophy (p. 436). May not be repeated for credit. Equivalent to ENGH 303, FRLN 309, HIST 385, UNIV 420.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 398: Study Abroad. 3 credits.
Study abroad under supervision of Mason faculty. Course topics, content and locations vary. Notes: A maximum of 6 credits may be applied to the BA in philosophy. Offered by Philosophy (p. 436). May be repeated within the degree for a maximum 12 credits.
Schedule Type: Lecture  
Grading:  
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

PHIL 411: Theories of Decision. 3 credits.  
Examines from a philosophical perspective descriptive and normative theories of individual decision, with particular focus on the strengths and weaknesses of theories of rational choice, and attempts to incorporate insights from psychology into theories of decision. Explores theoretical developments and a variety of applications. Offered by Philosophy (p. 436). May not be repeated for credit.

Recommended Prerequisite: Two previous courses in either Philosophy, Psychology, or Economics.

Schedule Type: Lecture

Grading:  
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 421: Seminar. 3 credits.  
Explores topics in current philosophical research in a seminar format. Topics vary. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the degree for a maximum 18 credits.

Mason Core: Capstone (p. 137)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: Nine credits in philosophy.

Schedule Type: Seminar

Grading:  
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 422: Honors Seminar. 3 credits.  
Seminar for students enrolled in the honors program in philosophy. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the term for a maximum 18 credits.

Mason Core: Capstone (p. 137)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: 9 credits in philosophy and acceptance to the honors program in philosophy.

Schedule Type: Seminar

Grading:  
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 425: Independent Study. 1-3 credits.  
Independent study under supervision of faculty member. Students and faculty agree on program of study to include at least a reading list and final written project. Students must arrange for independent study in the semester before they wish to enroll. Requires approval of department. Offered by Philosophy (p. 436). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: Sixty credits including 15 credits in Philosophy and permission of the department.

Schedule Type: Independent Study

Grading:  
This course is graded on the Undergraduate Regular scale. (p. 82)

PHIL 460: Senior Seminar in Philosophy, Politics, and Economics. 3 credits.  
Covers issues in the philosophy, economics, and political science of institutions, information, and collective action. Through case studies of existing legal and political institutions, applies the insights to problems in politics, policy making, social-choice theory, and social, moral, and political philosophy. (Specific content varies). Notes: Serves as the capstone course for the PPE program. Offered by Philosophy (p. 436). May not be repeated for credit. Equivalent to ECON 460, GOVT 469.

Recommended Prerequisite: PHIL 358 and ECON 412 or permission of instructor.

Schedule Type: Seminar

Grading:  
This course is graded on the Undergraduate Regular scale. (p. 82)

600 Level Courses

PHIL 600: Senior Seminar in Philosophy. 1 credit.  
Introduces MA students to the areas and methods of philosophical scholarship. Notes: Graduate students outside of the philosophy program may take this course with permission of the department. Offered by Philosophy (p. 436). May not be repeated for credit.

Registration Restrictions:  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students in the LA-MA-PHIL program.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:  
This course is graded on the Satisfactory/No Credit scale. (p. 82)

PHIL 603: Aristotle: Selected Works. 3 credits.  
Close study of Aristotle's work and its place and future in history of philosophy. Topics vary by semester and include Aristotle's metaphysics, natural sciences, ethics, political thought, logic, epistemology, and psychology. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:  
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
**PHIL 608: Hegel's Phenomenology of the Spirit.** 3 credits.
A study of the philosophy of Hegel through a reading of the text that presents an introduction to his system. Special attention is paid to Hegel's background in the work of Kant and the German Idealists. Offered by Philosophy (p. 436). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHIL 615:** Postmodernist Thought. 3 credits.
In recent decades, the term "postmodern," first used by art critics in the late 19th century, has been taken up by prominent contributors to the arts, social thinkers, and philosophers, to describe developments as well as the current period. Examines three thematic concerns found in work that is identified with postmodern issues: what modernity defines itself in contrast to or against, the status of "man," and status of "subjectivity." Offered by Philosophy (p. 436). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHIL 617:** Movements and Issues in the History of Political Philosophy. 3 credits.
Explores themes, movements, and periods in the history of political theory. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the degree for a maximum of 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHIL 640:** History of Ethical Theory. 3 credits.
Examines history of Western ethical theory from ancient Greece to the present day, including virtue theory, consequentialism, deontological theory and contemporary feminism. Offered by Philosophy (p. 436). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHIL 642:** Biomedical Ethics. 3 credits.
Examines history of ethical theory from ancient Greece to the present day, including virtue theory, consequentialism, deontological theory and contemporary feminism. Offered by Philosophy (p. 436). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHIL 643:** Environmental Ethics. 3 credits.
An examination of human interactions with the natural environment from an ethical perspective. Emphasis will be placed on the strengths and weaknesses of various ethical theories and the different conceptions of
the proper relationship between humans and their environment. Offered by Philosophy (p. 436). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHIL 644: Business and Organizational Ethics. 3 credits.**
Examines the application of ethics in business and organizational settings, and the necessity for ethical development within organizational culture. Offered by Philosophy (p. 436). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHIL 645: Research Ethics. 3 credits.**
Examines how ethical theories, concepts, and principles shape research guidelines. Students learn to identify ethical issues in research, to reflect on them critically, and to respond effectively. Designed for students in the humanities, social sciences, life sciences, and health sciences. Offered by Philosophy (p. 436). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHIL 681: Figures and Topics in Ancient Philosophy. 3 credits.**
Examines major philosophical authors, texts, and topics of the ancient period and their influence on philosophical thought. May cover Plato, Aristotle, or the pre-Socratic philosophers. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PHIL 682: Figures and Topics in Early Modern Philosophy. 3 credits.**
Examines major philosophical authors, texts, and topics of the early modern period and their influence on philosophical thought. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PHIL 683: Contemporary Philosophical Figures. 3 credits.**
Examines major recent philosophical authors, texts, and topics, and their influence on philosophical thought. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHIL 693: Directed Readings in Philosophy. 3 credits.
Directed readings and research on a specific topic in philosophy chosen by student and instructor. Offered by Philosophy (p. 436). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHIL 694: Special Topics in Contemporary Philosophy. 3 credits.
Topics vary. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

700 Level Courses

PHIL 720: Nietzsche and his Readers. 3 credits.
Reading of major texts of Nietzsche and some of his most influential interpreters and critics. Offered by Philosophy (p. 436). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHIL 721: Advanced Seminar in Philosophy. 3 credits.
Close study of selected topics in current philosophical discourse. Notes: May be repeated for credit when topic is different. Offered by Philosophy (p. 436). May be repeated within the term.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHIL 733: Current Issues in Cognitive Science. 3 credits.
Examines current areas of investigation in cognitive science and philosophy of mind such as nature of consciousness, and representational and connectionist theories of mind. Notes: May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Admission to master's program in Philosophy, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHIL 799: Thesis. 1-6 credits.
Develop research and write an original thesis under the direction of their thesis director. Offered by Philosophy (p. 436). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Completion of 24 credits, approval of thesis proposal, and permission of instructor (thesis director).

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Physical Education (PHED)

100 Level Courses

PHED 199: Introduction to Health and Physical Education. 1 credit.
Uses best practices to introduce to potential teacher candidates current health and physical education teaching issues. Introduces terminology specific to teaching, and concepts such as standards of learning, planning, assessment, curriculum developments, and risk management. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.
PHED 275: Field and Invasion Games. 3 credits.
Skill and content knowledge in field and invasion games. Includes skill progression, strategies, officiating, and authentic assessment in activities such as softball, basketball, soccer, field events, and Ultimate Disc. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHED 276: Health-Related Fitness Education. 3 credits.
Prepares future physical educators to develop, implement, and assess fitness concepts, and strategies to K12 students. Incorporates basic nutritional knowledge needed to live a healthy lifestyle. Requires fitness tests participation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHED 274: Dance and Educational Gymnastics. 2 credits.
Skill and content knowledge in dance, rhythms, and educational gymnastics. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHED 273: Net and Target Games. 3 credits.
Skill and content knowledge in net and target games. Includes skill progression, strategies, officiating, and authentic assessment in games such as volleyball, golf, tennis, and badminton. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Physical Education.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHED 272: Adapted Physical Education. 3 credits.
Introduces disabilities in public schools. Covers national standards, federal legislation, IEPs, and developmental inclusion models. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students in a Bach of Science in Education degree.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHED 271: Psychomotor Learning. 3 credits.
Analyzes psychological aspects, learning theory, and practice conditions for learning motor skills. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHED 270: Professional Dimensions of Health, Recreation, and Physical Education. 3 credits.
Traces historical foundations of health, recreation, physical education, and sport. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHED 269: Teaching Skillful Movement. 3 credits.
Covers planning and presenting lessons on numerous motor skills using varied teaching strategies in a peer teaching setting. This course must be complete within 5 years of student teaching. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
nationality, globalization, socioeconomic status, gender, sexuality, ability, obesity, and urbanization. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 400 Level Courses

**Required Prerequisites:** PHED 273, 274, 275, and PHED 306 (may be taken concurrently).

**Registration Restrictions:**
**Required Prerequisites:** PHED 201C and 202C.

C Requires minimum grade of C.

Enrollment is limited to students with a major in Physical Education.

Enrollment limited to students in a Bach of Science in Education degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHED 404: Middle and High School Instruction in Physical Education.** 3 credits. Examines school curriculum content, and teaching practices appropriate for middle and high school physical education programs. Requires field experience. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PHED 403C.

C Requires minimum grade of C.

Enrollment is limited to students with a major in Physical Education.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHED 415: Student Teaching in Physical Education.** 12 credits. Provides supervised clinical experience for a full semester in approved schools. Requires experiences in elementary and secondary school settings. requirements. Includes participation in pre-service workshop and related activities, and weekly seminars. Note: Completion of all Mason Core and program coursework, and acceptance into Student Teaching. PHED 415 must be completed within 5 years of PHED 202. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Mason Core:** Capstone (p. 137)

**Registration Restrictions:**

**Required Prerequisites:** ATEP 120D, 300D, BIOL 125D, EDRD 306D, EDUC 302D, HEAL 110D, 200D, 405D, KINE 310D, PHED 218D, 276D, 308C, 320D, 340D, 404D and PRLS 316D.

D Requires minimum grade of C.

C Requires minimum grade of C.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHED 480: Special Topics.** 1-3 credits.
See course description in the Schedule of Classes. Selected topics reflect interest in specialized areas of exercise science or health promotion. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PHED 499:** Independent Study in Physical Education and Fitness. 1-3 credits.
Study of a problem area in physical education research, theory, or practice under direction of faculty member. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 90 hours and Permission of Chair.

**Registration Restrictions:**
Enrollment is limited to students with a major in Health Education, Health, Fitness Rec Recrscs, Individualized Study, Nursing, Physical Education (Special), Physical Education or Parks, Rec, Leisure Studies.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 600 Level Courses

**PHED 670: Analysis of Teaching in Physical Education.** 3 credits. Presents variety of research techniques for studying teacher and learner behaviors in physical education, engaging the teacher as researcher and grant writer. Goal is to prepare teachers to be leaders in their field. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
PHED 672: Curriculum and Assessment in Physical Education. 3 credits. Provides knowledge of curriculum models and assessment strategies in standards-based physical education program. Studies curriculum models such as sport education and adventure education. Examines traditional and alternative assessment. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHED 673: Motor Development for Special Populations. 3 credits. Provides knowledge that focuses on individuals with orthopedic, sensory, and learning disabilities in physical education setting. Areas of focus include development of motor patterns and skills assessment, and planning and instruction for students with disabilities. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: PHED 670.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHED 680: Mentoring and Supervising in Physical Education. 3 credits. Prepares mentors and supervisors of preservice and in-service teachers in physical education. Topics include professional dispositions, assessment and evaluation, adult learners, counseling and communication, providing feedback, and reflection and inquiry into the profession. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: PHED 670.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHYS 103: Physics and Everyday Phenomena I. 4 credits. The course uses basic physics concepts from the areas of mechanics and thermodynamics to explain a wide range of everyday phenomena, such as how we walk and drive, how a ship floats, how clothing keeps us warm, and why it rains when we have a low pressure system. Notes: For nonscience majors. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 104: Physics and Everyday Phenomena II. 4 credits. The course uses basic physics concepts from the areas of light, sound, electricity, magnetism, and modern physics to explain a wide range of everyday phenomena. Topics include how we speak, hear, and see, what to do if the circuit breaker keeps tripping, how your computer stores and displays data, how rainbows and northern lights form, and the basic nature of matter. Notes: For nonscience majors. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Recommended Prerequisite: PHYS 103.

Schedule Type: Laboratory, PHYS 103.

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 106: The Quantum World: A Continuous Revolution in What We Know and How We Live. 3 credits. This course presents quantum physics that revolutionized the 20th Century and continues to evolve. In addition to presenting basic concepts, the course will discuss various applications involving quantum phenomena including quantum computers and quantum teleportation. The course will be a historical journey through the quantum science that many of its founders, such as Einstein, could not accept, and a peek into a possible future. Notes: For non-science majors. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science Overview (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 111: Introduction to the Fundamentals of Atmospheric Science. 3 credits. An overview of the Earth’s atmosphere, its history, and the physical and chemical processes that determine its characteristics. The focus is on key concepts from thermodynamics, radiation, chemistry, and dynamics that are essential for understanding the state, variability, and long-term evolution of the atmosphere, especially in the context of comparisons.
with other planetary atmospheres. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to CLIM 111.

Mason Core: Natural Science with Lab, Encore:Sustainability (p. 137)

Specialized Designation: Green Leaf Course

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 112: Introduction to the Fundamentals of Atmospheric Science Lab. 1 credit.
Laboratory course associated with PHYS 111/CLIM 111. Study of the Earth’s atmosphere based on concepts taken from thermodynamics, radiation transport, chemistry, and dynamics. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to CLIM 112.

Mason Core: Natural Science with Lab, Encore:Sustainability (p. 137)

Specialized Designation: Green Leaf Course

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 122: Inside Relativity. 1 credit.
Introductory course describing Einstein’s theories of special and general relativity. Notes: Intended for majors and nonmajors. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 123: Inside the Quantum World. 1 credit.
Introductory course describing quantum theory. Notes: Intended for majors and nonmajors. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 124: Experimental Explorations in Physics. 2 credits.
Introductory nonmathematical course intended primarily for physics majors. Experimental studies of phenomena in mechanics, electricity and magnetism, and optics. Stresses development of familiarity with methods and techniques of measurement and with data evaluation. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 160: University Physics I. 3 credits.
First semester of three-semester, calculus-based introductory physics sequence, designed primarily for science and engineering majors. Mechanics. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Registration Restrictions:
Required Prerequisites: MATH 114C or 116C.
* May be taken concurrently.
C Requires minimum grade of C.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 161: University Physics I Laboratory. 1 credit.
Experiments in mechanics, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Registration Restrictions:
Required Prerequisite: PHYS 160C.
* May be taken concurrently.
C Requires minimum grade of C.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

PHYS 225: Problems in Physics I. 1-3 credits.
Individual study of physics problems of current interest. Offered by Physics & Astronomy (p. 750). May be repeated within the degree for a maximum of 3 credits.

Recommended Prerequisite: 24 credits and 2.5 GPA in physics and mathematics.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 243: College Physics I. 3 credits.
The first of a two-semester algebra-based physics sequence with emphasis on topics of classical and modern physics of particular importance to science majors. Topics include principles of mechanics and heat. Facility in algebra and trigonometry is assumed. PHYS 243 is prerequisite to PHYS 245. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 244: College Physics Lab. 1 credit.
Laboratory portion of two-semester basic physics course. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Recommended Corequisite: C or higher in PHYS 243.
Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 245: College Physics II. 3 credits.
The second of a two-semester algebra-based physics sequence with emphasis on topics of classical and modern physics of particular importance to science majors. Topics include principles of electricity, magnetism, optics, and atomic and nuclear physics. Facility in algebra and trigonometry is assumed. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Registration Restrictions:
Required Prerequisite: PHYS 243\(^C\).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 246: College Physics Lab. 1 credit.
Laboratory portion of two-semester basic physics course. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Recommended Corequisite: C or higher in PHYS 245.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 251: Introduction to Computer Techniques in Physics. 3 credits.
Introduction to using computers in physics based on examples from mechanics and astronomy. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Information Technology: Without Ethics (p. 137)

Registration Restrictions:
Required Prerequisite: PHYS 160\(^C\).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 252: Intermediate University Physics Laboratory. 1 credit.
Experiments in mechanics, electricity, and magnetism, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Recommended Prerequisite: PHYS 251\(^C\).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 260: University Physics II. 3 credits.
Waves, electricity, and magnetism. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Registration Restrictions:
Required Prerequisites: PHYS 161\(^C\) and 260\(^C\).
\(^*\) May be taken concurrently.
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 261: University Physics II Laboratory. 1 credit.
Experiments in mechanics, electricity, and magnetism, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Registration Restrictions:
Required Prerequisites: PHYS 161\(^C\) and 260\(^C\).
\(^*\) May be taken concurrently.
\(^C\) Requires minimum grade of C.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 262: University Physics III. 3 credits.
Thermodynamics, optics, and modern physics. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Recommended Prerequisite: PHYS 260\(^C\).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 263: University Physics III Laboratory. 1 credit.
Experiments in optics and modern physics, including techniques for recording, graphically and statistically analyzing, and reporting data. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Natural Science with Lab (p. 137)

Registration Restrictions:
Required Prerequisites: PHYS 261\(^C\) and 262\(^C\).
\(^*\) May be taken concurrently.
\(^C\) Requires minimum grade of C.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 265: Intermediate University Physics Laboratory. 1 credit.
Experiments in mechanics, electricity, and magnetism with emphasis on data analysis using state-of-the-art tools. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 266: Introduction to Thermodynamics.** 1 credit.
Students may not receive credit for both PHYS 262 and 266. Laws of thermodynamics, kinetic theory of gases, heat engines, and entropy. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: PHYS 260C.
C Requires minimum grade of C.

**Schedule Type:** Lecture, Recitation

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**300 Level Courses**

**PHYS 301: Analytical Methods of Physics.** 3 credits.
Analytical methods in the Physical Sciences. Provides a comprehensive introduction to the areas of mathematical physics. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: MATH 214C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 303: Classical Mechanics.** 3 credits.
Motion of a particle in one, two, and three dimensions; systems of particles; noninertial coordinate systems; and equations of Lagrange and Hamilton. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: PHYS 260C and 301C.
\* May be taken concurrently.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 305: Electromagnetic Theory.** 3 credits.
Interaction of static charges, interaction of stationary currents, electromagnetic induction, and Maxwell's equations. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: PHYS 260C and 301C.
\* May be taken concurrently.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 306: Wave Motion and Electromagnetic Radiation.** 3 credits.
Vibrating string, plane waves, interference, diffraction, polarization, electromagnetic waves, dispersion, and relativity. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Recommended Corequisite:** MATH 214.

**Registration Restrictions:**
Required Prerequisite: PHYS 305C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 307: Thermal Physics.** 3 credits.
Classical concepts of energy and temperature, basic definitions, first and second laws of thermodynamics, properties of pure substances, and equations of state. Introduction to classical and quantum statistics and their application to physical systems. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: PHYS 262C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 308: Modern Physics.** 3 credits.
Introduces relativity, quantum mechanics, and selected topics in modern physics. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: PHYS 260C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 310: Physics of Semiconductor Materials and Processing.** 3 credits.
Survey of the electronic and structural properties of semiconductors and the physics of semiconductor processing. Topics to be discussed include crystal growth, crystal defects, thin films, thermal properties, lithography, and characterization. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: PHYS 160C, 260C and 262C.
C Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 311: Instrumentation.** 3 credits.
Introduction to basic analog and digital circuits, circuit design and simulation, and data acquisition. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.
PHYS 312: Waves and Optics. 3 credits.
Laboratory survey of wave and optical phenomena and associated instrumentation. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PHYS 251C and 261C.
C Requires minimum grade of C.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 326: Problems in Physics II. 1-3 credits.
Individual study of physics problems of current interest. Offered by Physics & Astronomy (p. 750). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: 60 credits and 2.500 GPA in physics and mathematical sciences.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 331: Fundamentals of Renewable Energy. 3 credits.
Introduces the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal. Demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources. Designed for students majoring in the sciences or engineering but useful for students interested in science policy, business, global change and sustainable development. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Registration Restrictions:
Required Prerequisite: PHYS 260C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 332: Solar Cells. 3 credits.
Covers the physics of solar cells, basics of semiconductors, pn junctions, basic structure of solar cells, the latest advances in solar cell materials, and concepts for improving the efficiency of solar cells. Solar cell design based on silicon, copper indium gallium selenide, gallium arsenide, organic solar cells, dye-sensitized solar cells, quantum dots, and nanowires will also be reviewed. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Specialized Designation: Green Leaf Course

PHYS 336: Quarks to Strings. 3 credits.
An non-technical introduction to the Standard Model of Elementary Particles and String Theory, in the context of the philosophy of science. Conceptual mastery will be demonstrated through writing assignments rather than calculations. Notes: This course does not satisfy elective-category requirements for the physics and astronomy majors. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Registration Restrictions:
Required Prerequisite: PHYS 262C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 370: Molecular Biophysics. 3 credits.
Offers a broad introduction into molecular biophysics. Demonstrates that the application of methods of physics provides a unique opportunity to tackle complex biological programs. Mainly designed for students majoring in physics or chemistry but also useful for biology majors interested in bioinformatics and computational biology. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to BINF 470.

Registration Restrictions:
Required Prerequisites: (PHYS 307C) or (CHEM 331C and 332C).
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 385: Materials Science with Applications to Renewable Energy. 3 credits.
Introduction to basic concepts and methods of materials science. Review of metallic alloys and compounds, ceramic materials, ionic solids, semiconductors, polymers, and nano-structured materials. Mechanical, thermal, electric, magnetic and optical properties of materials. Theoretical background and experimental methods of materials characterization. Various materials applications with emphasis on renewable energy. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Registration Restrictions:
Required Prerequisites: PHYS 262C, 266C, 245C or MATH 113C.
C Requires minimum grade of C.
Written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PHYS 251$^C$, 301$^C$, 303$^C$ and 305$^C$.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Physics.

Schedule Type: Independent Study
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 406: Honors Thesis in Physics II. 3 credits.
Project chosen and completed under the guidance of a faculty member, which results in a thesis. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: PHYS 405 is a prerequisite for PHYS 406. An oral progress report is required for PHYS 405. Oral and written presentations are required for PHYS 406. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: PHYS 405$^C$.
C Requires minimum grade of C.

Schedule Type: Independent Study
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 407: Senior Laboratory in Modern Physics. 4 credits.
Advanced experiments in modern physics: electronics, optics, condensed matter, and nuclear physics. Techniques for recording, graphically and statistically analyzing, and reporting data. Typical experiments include the Frank-Hertz experiment, Hall Effect, electron spin resonance, nuclear magnetic resonance and optical pumping. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Mason Core: Capstone (p. 137)

Specialized Designation: Writing Intensive in the Major

PHYS 408: Senior Research. 2-3 credits.
Work under guidance of faculty member on research project in experimental or theoretical physics. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Notes: May be repeated with permission of the Physics Department. Students may receive no more than 6 credits of PHYS 405, 406, 408, and 409. Offered by Physics & Astronomy (p. 750). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: PHYS 251$^C$, 301$^C$, 303$^C$ and 305$^C$.
C Requires minimum grade of C.
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PHYS 417:** Geophysics. 3 credits. Seismological and gravitational theory and application to an understanding of the Earth's interior. Geology requirement may be waived for physics and engineering students with sufficient background. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to GEOL 417.

**Recommended Prerequisite:** GEOL 102, 201, 301; MATH 113, 114; PHYS 160.

**Recommended Corequisite:** MATH 213 and PHYS 260, 261.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 428:** Relativity. 3 credits. Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** PHYS 303\(^C\), 305\(^C\).
\(^C\) Requires minimum grade of C.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 440:** Nuclear and Particle Physics. 3 credits. Accelerators, detectors and related electronics; nuclear and elementary particle structure; symmetries and conservation laws; the electromagnetic, weak, and hadronic interactions; nuclear models; the quark model; and nuclear science and technology. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to PHYS 540.

**Registration Restrictions:**
**Required Prerequisites:** PHYS 402\(^C\) or 502\(^B\).
\(^C\) Requires minimum grade of C.  
\(^B\) Requires minimum grade of B-.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PHYS 465:** Planetary Atmospheres and Ionospheres. 3 credits. An interdisciplinary introduction to the fundamental physics and chemistry of the atmosphere-ionosphere system. The focus is on the governing equations of atmospheric and ionospheric dynamics with a systems (science) approach to the atmosphere-ionosphere coupling processes. Topics include observational and modeling techniques in the Earth’s upper atmosphere as well as recent progress in planetary atmosphere-ionospheres and planetary missions. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.
Registration Restrictions:
Required Prerequisites: PHYS 260\(^C\) and 301\(^C\).
\(^C\) Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PHYS 475: Atmospheric Physics. 3 credits.
Introduction to basic physical and chemical processes that operate in the Earth’s atmosphere. Emphasis on those concepts that provide a global description of the current atmospheric state and those processes that relate to global change and atmospheric evolution. Topics include equilibrium structure, radiative transfer models, thermodynamics of various atmospheric layers, and the various processes defining these layers. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Required Prerequisite: PHYS 260 and 262.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

PHYS 502: Introduction to Quantum Mechanics and Atomic Physics. 3 credits.
Experimental basis of quantum mechanics, the wave function, and systems in one, two, and three dimensions. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: PHYS 308\(^C\).
\(^C\) Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHYS 512: Solid State Physics and Applications. 3 credits.
Crystal structures, binding, lattice vibrations, the free electron model, metals, semiconductors and semiconductor devices, superconductivity, and magnetism. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to CSI 687, PHYS 412.

Registration Restrictions:
Required Prerequisites: PHYS 402\(^C\) or 502\(^B\).
\(^C\) Requires minimum grade of C.
\(^B\) Requires minimum grade of B-

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHYS 513: Modern Instrumentation. 3 credits.
Topics include sensors for radiation, particles, electric and magnetic fields, pressure, and motion; electronic instruments, computer data collection, instrumentation noise and noise reduction methods; and specialized instrumentation systems for various areas of applied physics. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to CHEM 620.

Registration Restrictions:
Required Prerequisite: PHYS 513\(^B\).

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Grading:

Schedule Type: Lecture

This course is graded on the Graduate Regular scale. (p. 82)

PHYS 580: Selected Interdisciplinary Topics. 3 credits.
Selected interdisciplinary topics with a strong physics content not covered in fixed-content courses. Notes: PHYS 580 cannot be used to satisfy degree requirements for PHYS (PhD), PHAE (MA) in the standard, applied physics, and engineering physics emphases. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:

Additional Course Details: Title varies by section and/or semester

PHYS 581: Topics in Renewable Energy. 3 credits.
The course covers the physical principles for a range of renewable energies, including solar, wind, hydropower and geothermal using mathematical and other types of analysis. The course demonstrates how the application of methods and principles of physics allow us to understand the basic operation, advantages, limitations and relative merits of various renewable energy sources. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Registration Restrictions:

Required Prerequisites: PHYS 262C and 266C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:

Additional Course Details: Title varies by section and/or semester

PHYS 580: Selected Interdisciplinary Topics. 3 credits.
Selected interdisciplinary topics with a strong physics content not covered in fixed-content courses. Notes: PHYS 580 cannot be used to satisfy degree requirements for PHYS (PhD), PHAE (MA) in the standard, applied physics, and engineering physics emphases. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Registration Restrictions:

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

### 600 Level Courses

**PHYS 600:** *Special Topics in Physics*. 1-6 credits.
In-service course to strengthen and update teachers’ knowledge of physics and astronomy. Offered by Physics & Astronomy (p. 750). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PHYS 611:** *Electro-optics*. 3 credits.
Optical modulators, display devices, types and operation of lasers, mode locking, Q-switching, photodetectors, optical fibers. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (PHYS 502C or 684B) and (PHYS 513B or 685B). B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PHYS 612:** *Physics of Modern Imaging*. 3 credits.
Study of imaging methods using acoustic and electromagnetic waves to probe extended objects, and mathematical transformations to produce images from scattered waves. Topics include classical imaging, physical optics, Fourier transform, holography, tomography, seismic mapping, underwater acoustic imaging and mapping, side-looking radar, antenna arrays, applicable computer methods. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** PHYS 513B or 685B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PHYS 613:** *Thermodynamics and Kinetics of Materials*. 3 credits.
Advanced thermodynamics and physical kinetics with applications to materials science. The course covers an axiomatic formulation of thermodynamics, theory of phase transformations, kinetic theory of reactions and diffusion processes in solids, and interface phenomena. Possible applications considered in the course include processing and fabrication of semiconductor materials, metal oxidation and corrosion, diffusion-controlled phase growth in solid solutions, shape memory alloys, and small-size effects in physical properties of materials. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (MATH 113C, 114C, 213C and 307C) and (PHYS 262C or 266C).
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 615**: *Fundamentals of Materials Science*. 3 credits.
Covers fundamentals of materials science with emphasis on physical topics including crystal structure and symmetry, dislocation theory, theory of interfaces, multicomponent phase diagrams, theory of phase transformations, nano-materials, metallic glasses. Includes a term project, assignments from current literature and application of computation in materials science. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to CSI 685.

**Recommended Prerequisite**: CDS 385 or PHYS 385 or undergraduate degree in physics, chemistry, materials, electrical or mechanical engineering or related disciplines; or permission of instructor.

**Registration Restrictions**: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 620**: *Continuum Mechanics*. 3 credits.
Study of continuum mechanics; topics include physical concepts, mathematical formulation and solution, elastic materials, ideal fluids, viscous fluids, waves in continuous media, turbulence, thermal convection, stability considerations, high-temperature gas flows, radiative processes for momentum and energy transport, shocks, and computational fluid dynamics. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions**: Required Prerequisites: PHYS 510B and 303C.

B- Requires minimum grade of B-.

C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 620**: *Relativity*. 3 credits.
Special relativity; four-dimensional space-time; general relativity; non-Euclidean geometries, geodesics, and field equations; tests of general theory of relativity; black holes; cosmology; models of the universe; remnant blackbody radiation; big bang cosmology; thermodynamics; and the universe. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Recommended Prerequisite**: PHYS 303, 305, or equivalent.

**Registration Restrictions**: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 630**: *Introduction to Biophysics*. 3 credits.
Introduces biophysics, focusing on physical and chemical concepts and their relation to rapidly expanding interdisciplinary interfaces among biology, chemistry, and physics. Reveals multiscale nature of biophysics, and includes exploration of macroscopic and microscopic applications. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to BINF 740.

**Recommended Prerequisite**: Undergraduate degree in physics, or permission of instructor.

**Registration Restrictions**: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 640**: *Finite Element Analysis of Solids and Fluids*. 3 credits.
Introduction to fundamentals of finite element analysis of solid, structural, fluid, and heat transfer problems. Topics include governing equations for heat transfer, solid and fluid mechanics; finite element formulation and solution procedures; appropriate use of finite element methods including setting up an appropriate model, interpreting results, and assessing solution error. Students are expected to develop their own finite element code. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Recommended Prerequisite**: PHYS 620 or permission of instructor.

**Registration Restrictions**: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 660: Space Weather.** 3 credits.
Overview of space weather including sun, heliosphere, magnetosphere, and ionosphere. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to ASTR 660.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 665: Planetary Atmospheres and Ionospheres.** 3 credits.
An interdisciplinary introduction to the fundamental physics and chemistry of the atmosphere-ionosphere system. The focus is on the governing equations of atmospheric and ionospheric dynamics with a systems (science) approach to the atmosphere-ionosphere coupling processes. Topics include observational and modeling techniques in the Earth's upper atmosphere as well as recent progress in planetary atmosphere-ionospheres and planetary missions. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Recommended Prerequisite:** PHYS 262, MATH 214.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 684: Quantum Mechanics I.** 3 credits.
Fundamental concepts of quantum mechanics, including Dirac notation, quantum dynamics, theory of angular momentum, and symmetries. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Applied Engineering Physics or Physics.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 685: Classical Electrodynamics I.** 3 credits.
Deals with static and dynamic properties of electromagnetic fields as described by Maxwell's equations. Covers electrostatics, magnetostatics, boundary value problems, multipoles, time dependent fields, propagating wave solutions, and resonant structures. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Applied Engineering Physics or Physics.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 690: Engineering Thermodynamics.** 3 credits.
Introduction to the basic concepts used in engineering when dealing with thermodynamic problems. Topics include equations of state, phase changes, latent heat, internal energy, enthalpy, entropy, and analysis of basic thermodynamic cycles such as Carnot cycles, power generation, internal combustion engines and refrigeration processes. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Recommended Prerequisite:** PHYS 620 or PHYS 705 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 694: Applied Mechanics of Solids.** 3 credits.
Introduction to the physical laws, mathematical formulations, and computer algorithms that are used to predict material and structural response subjected to mechanical or thermal loading. Topics covered includes mathematical description of solids, equations of motion and equilibrium, constitutive equations, principle of virtual work, and fracture mechanics. Analytical technique and numerical method are also covered. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHYS 695: Applied Fluid Mechanics. 3 credits.
Introduction to concepts of fluid mechanics and solving its equations using numerical techniques. The concepts and methods of computational fluid dynamics (CFD) will be introduced. Topics include fluid mechanics equations, spatial and temporal discretization, finite difference and finite volume schemes, accuracy and convergence. This course requires writing of code to solve the governing equations of fluid mechanics. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Recommended Prerequisite: PHYS 620 or PHYS 705 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

700 Level Courses

PHYS 701: Theoretical Physics. 3 credits.
Study of the physical basis for selection of particular mathematical tools in physics; topics include curvilinear coordinates, tensors, matrices, differential equations, special functions, complex variables, and group theory. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in physics or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHYS 703: Seminar in Physics. 1 credit.
A general seminar course that combines invited seminars from faculty (both internal and external) with graduate student seminars. Offered by Physics & Astronomy (p. 750). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

PHYS 705: Classical Mechanics. 3 credits.
Study of classical mechanics; topics include variational principles, constrained motion, Lagrangian and Hamiltonian mechanics, canonical transformations, and applications (central forces, rigid-body motion, oscillations). Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in physics or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHYS 711: Statistical Mechanics. 3 credits.
Topics include thermodynamics, kinetic theory, ensemble theory, quantum statistics, and applications. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

Recommended Prerequisite: Undergraduate degree in physics or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PHYS 736: Computational Quantum Mechanics. 3 credits.
Study of the fundamental concepts of quantum mechanics from a computational point of view, review of systems with spherically symmetric potentials, many-electron-atom solutions to Schrodinger's equation, electron spin in many-electron systems, atomic structure calculations, algebra of many-electron calculations, Hartree-Fock self-consistent field method, molecular structure calculations, scattering theory computations, and solid-state computations. Offered by Physics & Astronomy (p. 750). May not be repeated for credit. Equivalent to CHEM 736, CSI 783.

Registration Restrictions:
Required Prerequisites: PHYS 502B and 510B.
B. Requires minimum grade of B.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 760:** *Space Plasma Physics.* 3 credits.

Covers plasma processes involved in today’s space physics research, including different regimes of plasma; basic concepts in kinetic, fluid, and MHD plasmas; and existent waves in these media. Also covers basics of shocks, discontinuities, transport and acceleration of particles such as cosmic rays, reconnection, and MHD instabilities. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** PHYS 513$^B$ or 685$^B$.

$B$ - Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 780:** *Advanced Selected Topics in Physics.* 3 credits.

Selected topics in physics not covered in fixed-content physics courses. Offered by Physics & Astronomy (p. 750). May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PHYS 784:** *Quantum Mechanics II.* 3 credits.

Advanced topics in quantum mechanics. Covers density and tensor operators, approximation methods, scattering theory, and identical particles. Offered by Physics & Astronomy (p. 750). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** PHYS 684$^B$.

$B$ - Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 786:** *Quantum Field Theory of Particles and Condensed Matter.* 3 credits.

Introduction to quantum field theory and its applications in particle and condensed matter physics. Topics: second quantization, scalar bosonic and fermionic fields, symmetries and conserved currents, Dirac equation, gauge theory, quantum electrodynamics, Feynman diagrams, renormalization, Fermi liquid, symmetry breaking, superconductivity, magnetism, path integral, quantum phase transitions to topological order, etc. Offered by Physics & Astronomy (p. 750). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
**Required Prerequisite:** PHYS 684$^B$.

$B$ - Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PHYS 796:** *Directed Reading and Research.* 1-12 credits.

Reading and research on a specific topic in physics or related field under the direction of a faculty member. Offered by Physics & Astronomy (p. 750). May be repeated within the term.

**Recommended Prerequisite:** Admission to MS program and permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**PHYS 798:** *Research Project.* 3 credits.

Project chosen and completed under the guidance of a graduate faculty member, which results in an acceptable technical report. Offered by Physics & Astronomy (p. 750). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 9 graduate credits, and permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**PHYS 799: Master's Thesis.** 1-6 credits.
Project chosen and completed under the guidance of a graduate faculty member, which results in an acceptable technical report and oral defense. Offered by Physics & Astronomy (p. 750). May be repeated within the degree.

**Recommended Prerequisite:** 9 graduate credits, and permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**900 Level Courses**

**PHYS 998: Doctoral Dissertation Proposal.** 1-12 credits.
Covers development of a research proposal under the guidance of a dissertation director and the doctoral committee. The proposal forms the basis for the doctoral dissertation. Notes: No more than 24 credits in ASTR/PHYS 998 and ASTR/PHYS 999 may be applied toward satisfying doctoral degree requirements in the physics PhD program. Out of the 24, no more than 12 credits of ASTR/PHYS 998 may be applied. Offered by Physics & Astronomy (p. 750). May be repeated within the degree for a maximum 21 credits.

**Recommended Prerequisite:** Admission to physics doctoral program and permission of advisor.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**POGO 511: Introductory Data Analysis for Policy and Government.** 3 credits.
Introduces fundamental statistical analysis for analyzing policy, government and other social science data. Focuses on problem definition, problem solving, and how to communicate results to general audience under conditions of uncertainty in public sector. Provides the core foundation for advanced graduate work in data analytics using contemporary statistical software packages. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to PUBP 511.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**POGO 550: Topics in Policy and Government.** 1-3 credits.
Focuses on selected topics in policy and government not covered in fixed-content Schar school courses. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**POGO 580: Topics: Advanced Skills for Policy Professionals.** 1-3 credits.
Practical seminar focusing on development of advanced qualitative and quantitative skills for the professional policy world. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 18 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester
600 Level Courses

POGO 611: Advanced Data Analysis for Policy and Government. 3 credits.
Introduces advanced statistical techniques to analyze policy, government and other social science data. Covers classical regression methods and their application to public policy analysis. Covers linear and non-linear regressions using cross sectional, time-series and panel data, and problems associated with applications including specification error, multicollinearity, qualitative variables, heteroskedasticity, serial correlation, and structural identification. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to GOVT 712, PUAD 612, PUBP 705.

Registration Restrictions:
Required Prerequisites: POGO 511\textsuperscript{B}, PUAD 511\textsuperscript{B}, PUBP 511\textsuperscript{B} or GOVT 511\textsuperscript{B}.
B\textsuperscript{ - } Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

POGO 646: Policy and Program Evaluation. 3 credits.
Practical exploration of assessment techniques used in studying results of public programs and policies, including evaluation of implementation strategies and impacts. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to PUAD 646, PUBP 713.

Registration Restrictions:
Required Prerequisites: POGO 511\textsuperscript{C}, PUAD 511\textsuperscript{C}, PUBP 511\textsuperscript{C}, GOVT 511\textsuperscript{C}, HAP 602\textsuperscript{C} or 719\textsuperscript{C}.
C\textsuperscript{ - } Requires minimum grade of C.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

700 Level Courses

POGO 750: Topics in Policy and Government. 1-3 credits.
Focuses on selected topics in policy and government not covered in fixed-content Schar school courses. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

POGO 794: Internship. 1-3 credits.
Provides practical work experience in state, federal, or international agencies, or the private or non-profit sector. Requires written project integrating work experience and academic program. Requires permission of program director. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to ITRN 780, PUBP 794.

Recommended Prerequisite: 12 graduate credits in the program or permission of program director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

POGO 796: Directed Readings and Research. 1-3 credits.
Independent reading and research at master's or doctoral level on specific topic related to policy or government as agreed to by student and faculty member. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 12 credits. Equivalent to BIOD 996, ITRN 790, PUAD 796, PUBP 796.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Portuguese (PORT)

100 Level Courses

PORT 110: Elementary Portuguese. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

700 Level Courses

PORT 701: Intermediate Portuguese I. 3 credits.
Further development of skills in listening, speaking, and writing. Notes: PORT 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: PORT 110, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Portuguese
Professional Development in Education (EDPD)

400 Level Courses

EDPD 402: Professional Development in Elementary Literacy, and Secondary Education. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education. Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

EDPD 406: Professional Development in Special Education and Disability Research. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research. Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

500 Level Courses

EDPD 501: Professional Development in Advanced Teacher Research and Practice. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in advanced teacher research and practices. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

EDPD 502: Professional Development in Elementary, Literacy, and Secondary Education. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in elementary, literacy and secondary education. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

EDPD 503: Professional Development in Individual and Organizational Transformation. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in individual and organizational transformation. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

EDPD 504: Professional Development in Learning Technologies. 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in learning technologies. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

PORT 202: Intermediate Portuguese II. 3 credits.
Further development of skills in listening, speaking, and writing. Notes: PORT 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: PORT 201, or permission of department

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Portuguese

PORT 210: Intermediate Portuguese. 3 credits.
Continuation of the development of basic components of the language, with focus on listening, speaking, reading, and writing skills. Introduces students to the cultures and histories of Portuguese-speaking regions. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: PORT 110, appropriate placement score, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PORT 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.
**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EDPD 505:** *Professional Development in Educational Psychology, Research Methods and Education Policy.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in educational psychology, research methods and education policy. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EDPD 506:** *Professional Development in Special Education and Disability Research.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in special education and disability research. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Special scale. (p. 82)

**EDPD 507:** *Professional Development in Health and Human Performance.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in health and human performance. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**EDPD 508:** *Professional Development in Sport, Recreation and Tourism.* 1-6 credits.
Provides opportunity for focused study on selected topics or emerging issues in sport, recreation and tourism. Notes: Course may not be applied to a degree program. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 15 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**PROV 110:** *Special Topics.* 1-3 credits.
Exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field. Offered by Provost's Office (p. 1158). May be repeated within the term.

**Registration Restrictions:**
Enrollment limited to Non-Degree or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Special scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PROV 150:** *Study Abroad: Global Understanding.* 0 credits.
This course is designed for students studying abroad for a full semester (e.g. 12-15 credits and not a three week course) to fulfill their Mason Core Global Understanding requirement. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

**Mason Core:** Global Understanding (p. 137)

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)
200 Level Courses

PROV 210: Comprehensive Topics in Leadership. 1-3 credits.
Comprehensive exploration of leadership in a specific career field(s); changing nature of that industry; understanding of organizational structures in the field(s); and introduction to career and internship opportunities for students who aspire to a career in that field. Offered by Provost's Office (p. 1158). May be repeated within the degree for a maximum 3 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

300 Level Courses

PROV 301: Great Ideas in Science. 3 credits.
Nontechnical introduction to ideas that have shaped the growth of science, from the building of Stonehenge to modern theories of the Big Bang. The idea behind each major advance is treated in its historical context, with special attention to its importance in mankind's understanding of the nature of the universe. Intended for nonscience majors; uses little mathematics. Offered by Provost's Office (p. 1158). May not be repeated for credit.

Mason Core: Natural Science Overview (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PROV 342: The George Mason Debates in Current Affairs. 3 credits.
In-depth investigation of one or more contemporary public policy issues. Examines the selected topics as discussed by scholars, public interest groups and think tanks, government officials, and the news media. Texts and guest lecturers presenting a wide range of perspectives are an important feature. Offered by Provost's Office (p. 1158). May be repeated within the degree for a maximum 6 credits.

Mason Core: Synthesis (p. 137)

Recommended Prerequisite: Completion or concurrent enrollment in all other required general education courses.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

600 Level Courses

PROV 601: Thriving in Your Graduate Program. 1 credit.
Gaining greater insight into student learning theories, the nature of research and scholarship, higher education trends, and the various career paths available to individuals with graduate degrees is important for students in the early stages of their academic programs. This seminar is designed for early career MFA and doctoral students to facilitate their success as graduate students at Mason. Offered by Provost's Office (p. 1158). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

700 Level Courses

PROV 701: Preparing for Academic Careers. 1 credit.
This seminar will be devoted to helping doctoral students explore and prepare for future academic careers and to strengthening their instructional effectiveness. The seminar will provide a clearer understanding of the roles and responsibilities of being a faculty member. Participants will learn how to construct a meaningful statement of teaching philosophy and plan for a course through syllabus design. Notes: This course does not apply to required credits for doctoral degrees. Offered by Provost's Office (p. 1158). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Psychology (PSYC)

100 Level Courses

PSYC 100: Basic Concepts in Psychology. 3 credits.
Introduces psychology as scientific discipline. Examines concepts and methods in learning, motivation, development, personality, and measurement. Offered by Psychology (p. 449). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

PSYC 211: Developmental Psychology. 3 credits.
Review of major developmental theories including perspectives of childhood, adolescence, adulthood, and old age. Offered by Psychology (p. 449). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
PSYC 231: Social Psychology. 3 credits.
Study of human behavior development in a social matrix, including such topics as socialization, cultural behavior, group norms, and attitude formation. Offered by Psychology (p. 449). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 260: Basic Research Methods in Psychology. 1-3 credits.
Introduction to research methods in psychology in the context of assisting faculty with research; individualized sections by arrangement with faculty. Methods taught vary but generally include basic data collection and recordkeeping methods in research. Notes: Course culminates in a paper describing techniques learned. No more than 6 credits in PSYC 260, 350, and 460 can be used toward a psychology major. Offered by Psychology (p. 449). May be repeated within the term.

Recommended Prerequisite: A 3.0 overall G.P.A., and a written proposal approved before registration by the instructor and the department chair.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

PSYC 300: Statistics in Psychology. 4 credits.
Descriptive and inferential statistics in design, analysis, and interpretation of psychological research with practical application using computers in laboratory. Notes: Students are strongly encouraged to take PSYC 301 concurrently. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: 6 credits of PSYC and 3 credits of MATH course work or permission of instructor.

Recommended Corequisite: Students are strongly encouraged to take PSYC 301.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 301: Research Methods in Psychology. 4 credits.
General research design in psychology, with an emphasis on experimental design and control. Topics include use of human participants in research, reliability and validity, observational methods, and survey and longitudinal designs. Notes: Students are strongly encouraged to take PSYC 300 concurrently. Laboratory work will include designing and running research studies and writing manuscripts using appropriate style and format. Offered by Psychology (p. 449). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: PSYC 100 and either PSYC 300, STAT 250, or STAT 350 or equivalent.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 304: Principles of Learning. 4 credits.
Principles of animal learning, including such topics as classical and operant conditioning, discrimination learning, and animal cognition. Notes: Laboratory projects require working with computer simulations. Offered by Psychology (p. 449). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: PSYC 300 or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 309: Sensation, Perception, and Information Processing. 4 credits.
Principles of perception, including topics such as psychophysics, perceptual organization, perceptual learning, and perceptual constancies. Notes: Laboratory projects demonstrate and investigate perceptual phenomena. Offered by Psychology (p. 449). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: PSYC 300 and PSYC 301.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 312: Educational Psychology. 3 credits.
Enables students to apply psychological principles to the learning process in the classroom context. Examines the theoretical and applied aspects of learning, motivation, human development, personality, assessment, and evaluation in educational settings. Corresponding implications for effective teaching will be discussed. Offered by Psychology (p. 449). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 313: Child Development. 3 credits.
Study of human psychological development from conception to adolescence including such topics as genetic factors, emotional and intellectual growth, and environmental influences. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 314: Adolescent Development. 3 credits.
Study of the biological and cultural changes accompanying adolescence, including the effect of these changes on emotional, intellectual, and social development. Offered by Psychology (p. 449). May not be repeated for credit.
Recommended Prerequisite: PSYC 100 or equivalent.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 317: Cognitive Psychology. 3 credits. An in-depth overview of important topics in cognitive psychology, including memory, attention, pattern recognition, problem solving, reasoning, and psycholinguistics. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: Six credits of psychology or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 320: Psychological Tests and Measurements. 4 credits. Examination and application of principles underlying the theory, interpretation, and administration of psychological tests, including a study of tests of intelligence, achievement, and ability. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 300 or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 321: Clinical Psychology. 3 credits. Examines evidence-based psychological assessment and psychotherapy techniques to understand, prevent, and treat psychological distress and dysfunction and promote well-being. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 325 or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 322: Behavior Modification. 3-5 credits. Examination of experimental principles of human and animal learning within theoretical framework of applied behavior analysis, including design, implementation, and evaluation of operant intervention programs across a wide variety of human situations. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 324 or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 324: Personality Theory. 3 credits. Introduction to classical and contemporary theories of personality, and comparative evaluation of major theories in terms of relevant studies. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 325: Abnormal Psychology. 3 credits. Study of development of abnormal behavior patterns, including such topics as methods of diagnosis and prevention of serious mental disorders such as psychosomatic disorders, psychoses, character disorders, and mental retardation. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 and either PSYC 211, 231, or 324 or permission of instructor.

Schedule Type: Lecture

Registration Restrictions: Required Prerequisites: (PSYC 325 or L325). C- Requires minimum grade of C-.

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 326: Therapeutic Communication Skills. 3 credits. Introduction to understanding and use of basic therapeutic communication skills used in clinical and counseling psychology. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC major with 6 hours of PSYC and permission of associate chair for undergraduate studies.

Schedule Type: Internship

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 327: Psychology in the Community. 3 credits. Individual placements in applied psychology settings. Notes: A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major. Offered by Psychology (p. 449). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: PSYC major with 6 hours of PSYC and permission of associate chair for undergraduate studies.

Schedule Type: Internship

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 328: Psychology in the Community Laboratory. 1 credit. Consists of a one-hour service learning component linked to selected psychology courses. Notes: A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major. Offered by Psychology (p. 449). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: PSYC major with 6 hours of PSYC and permission of instructor and associate chair for undergraduate studies.
PSYC 333: *Industrial and Organizational Psychology.* 3 credits.
Examination of application of psychological principles and methods to problems commonly encountered in business and industry. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100 and PSYC 300; or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 335: *Psychology of Creativity and Innovation.* 3 credits.
Creativity and innovation take place in many domains such as business, science and the arts. Learn the distinction between creativity and innovation. Apply findings from the scientific literature about the antecedents of creativity and innovation including emotions, cognition, individual differences, and social contexts. Experiment with ways to enhance your creativity and skills for innovation. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 340: *Human Factors Psychology.* 3 credits.
Reviews history and current practice of optimal product and system design as a function of psychology. Includes a brief history of human factors psychology, a review of human memory and attentional systems as they relate to product and system design, and an introduction to current methods used to analyze and redesign products and systems for optimal human interaction. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 350: *Directed Reading and Research in Psychology.* 1-3 credits.
Library research in psychology, culminating in a substantial formal paper; individualized sections by arrangement with faculty. Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major. Offered by Psychology (p. 449). May be repeated within the term.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 372: *Physiological Psychology.* 3 credits.
Survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action. Students may earn credit for PSYC 372 and either PSYC 375 or PSYC 376, but they may not earn credit for all three. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100, BIOL 103 with BIOL 106 & BIOL 107; or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 373: *Physiological Psychology Laboratory.* 1 credit.
Functional anatomy and physiology of the brain, including dissection of brain and eye, and a demonstration and practice in research methods for studying physiological mechanisms underlying behavior. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372 or 375, or permission of instructor. Concurrent enrollment is also permitted.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 375: *Brain and Sensory Processes.* 3 credits.
First half of comprehensive survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action. Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100 with a grade of C- or better, and BIOL 103, BIOL 106 & 107, or BIOL 213; or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 376: *Brain and Behavior.* 3 credits.
Second half of comprehensive survey of neuroscience, including neural mechanisms underlying normal and abnormal behavior. Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** C or better in PSYC 375 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
PSYC 379: Applied Cross-Cultural Psychology. 3 credits.  
A review of important landmarks in cross-cultural research, showing how this research impacts psychology as a discipline. Emphasizes an empirical approach to cross-cultural study and includes topics such as theoretical and empirical developments in cross-cultural psychology, development of coherent schemas to guide cross-cultural research and interventions, comparison of psychology’s goals and assumptions in Western and other cultures, and integration of course materials into educational and career goals of students. Offered by Psychology (p. 449). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 380: Introduction to Forensic Psychology. 3 credits.  
Explores the differing, yet varied facets of the field of forensic psychology including landmark legal cases relevant to psychology, potential careers in forensic psychology, police psychology, expert testimony, forensic psychological assessment, psychopathy, homeland security, ethics, correctional psychology, and issues in working in the juvenile justice system. Offered by Psychology (p. 449). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 381: Mental Illness and Criminal Justice. 3 credits.  
Examines the frequent intersection of individuals diagnosed with severe mental illness and the criminal justice system. Includes case studies that demonstrate possible judicial, therapeutic, correctional, and post-adjudication outcomes. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 325.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 382: Psychology of Crime Victims. 3 credits.  
Explores short-term and long-term psychological effects of crime on victims through interviews with survivors of childhood abduction, elder abuse, intimate partner violence, and child abuse, among others. Evaluates roles and responsibilities of mental professionals and law enforcement when interacting with crime victims. Offered by Psychology (p. 449). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 399: Psychology: College to Career. 3 credits.  
Emphasizes development and readiness for a profession in the social sciences through self-assessment and professional skill acquisition. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: At least 30 hours of completed college coursework and a declared major in the social sciences or permission of the instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

PSYC 405: Mystery, Madness, and Murder. 3 credits.  
Multidisciplinary approach to taboo topics that fascinate and frighten us. Instructors from disciplines across the arts and sciences bring expertise and diverse perspectives to provocative issues such as cannibalism and serial murder. Students learn to think critically and objectively while examining use in myth, literature, and popular culture. Offered by Psychology (p. 449). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 406: Psychology of Communication. 3 credits.  
An examination of the behavior of communicating across species and sensory modalities, with an emphasis on the evolutionary basis for the various communication strategies used by animals and humans. Offered by Psychology (p. 449). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 408: Psychological Fitness. 3 credits.  
Evaluates and applies scientific research on psychological exercises to increase one’s cognitive, behavioral, emotional, and physical health. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 100.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 414: Behavior Disorders of Childhood. 3 credits.  
Review of the theories, methods, and research dealing with emotional and behavioral disorders of children. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 313 and 325 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
PSYC 415: Psychological Factors in Aging. 3 credits.
Examination of the sensory, perceptual, intellectual, personality, health, and familial changes that occur as people age and adjust into their later years. Common and more serious adjustment difficulties and developments are discussed with attention to impacts on the individual and the family. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 417: Science of Well Being. 3 credits.
This course will examine and interpret the latest research in social, personality, and clinical psychology on well-being, character strengths, and personal growth. Emphasis will be placed on the ways in which scientists generate hypotheses regarding the nature of positive psychological traits and processes and the methods by which these ideas are tested. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 100 or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 418: Death, Dying, and Grieving. 3 credits.
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill. Offered by Psychology (p. 449). May not be repeated for credit. Equivalent to PSYC 518.

Recommended Prerequisite: PSYC 100 or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 423: Group Psychotherapy Techniques. 3 credits.
Review of theory and methods of group therapy with emphasis on humanistic and interpersonal approaches, including applications to family therapy, alcoholism, and drug abuse. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 324 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 427: Community Engagement for Social Change. 3 credits.
Explores social problems and interpersonal, intrapersonal, and social aspects of addressing them. Addresses both theoretical aspects of social problems through readings and class discussion and application through community service. Offered by Psychology (p. 449). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 430: Clinical Practicum in Psychology. 3 credits.
Gain professional experience in a clinical setting. This course takes place at the GMU Center for Psychological Services, a mental health training center that serves the community. Enrolled students provide reception room service to clients at the center, learning aspects of the center administration and acquiring relevant skills in the field. Offered by Psychology (p. 449). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Fieldwork

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 435: Personnel Training and Development: A Psychological Perspective. 3 credits.
Overview and critique of training methods used in industry from viewpoint of psychological theory, including simulations, on-the-job training, supervisory/leadership skills training, computer-assisted instruction, and programmed texts. Principles of needs analysis, program development, and program evaluation are discussed within framework of industrial psychology. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 333, PSYC 320 (may be taken concurrently) or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 440: Forensic Psychology: Science and Pseudoscience. 3 credits.
Provides a critical, evidenced-based, examination of common psychological practices and constructs in the field of forensic psychology including psychological assessments, expert testimony, risk assessment, hypnosis, criminal profiling, polygraph examination, and methods of interrogation. Offered by Psychology (p. 449). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 441: Criminal Behavior: Psychological and Neurological Aspects. 3 credits.
Considers the psychological factors and structural and functional neurological differences that influence criminal behaviors including murder, sexual assault, fraud, intimate partner violence, and arson. The predictive and explanatory abilities of neuroimaging with respect to the criminal acts in question, as well as the role of neuroimaging in the judicial system, will also be explored. Offered by Psychology (p. 449). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**PSYC 460: Independent Study in Psychology.** 1-4 credits.
Advanced research methods in psychology in context of individual student projects or assisting with research on faculty projects; individual sections by arrangement with faculty. Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major. Offered by Psychology (p. 449). May be repeated within the term.

**Recommended Prerequisite:** 18 credits of PSYC, including PSYC 301 (grade of C or better), a 2.500 GPA in PSYC, and a written proposal approved before registration by the instructor and the department.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PSYC 461: Special Topics.** 1-3 credits.
Selected topics reflecting interest in specialized areas. Notes: Topic announced in advance. May be repeated when topic is different. Offered by Psychology (p. 449). May be repeated within the term.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Recommended Prerequisite:** 18 credits in psychology including PSYC 317 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PSYC 462: Selected Topics in Forensic Psychology.** 3 credits.
Selected topics reflecting interest in forensic psychology. Notes: May be repeated for credit when topic is different. Offered by Psychology (p. 449). May be repeated within the term.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Recommended Prerequisite:** 18 credits in psychology including PSYC 317 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PSYC 465: Pioneer Ideas in Psychology.** 3 credits.
Historical background and major theoretical systems in modern psychology. Approaches include behaviorism, cognitive/information processing approaches, and psychodynamic theories. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** 18 credits in psychology including PSYC 317 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PSYC 466: Psychology of Intimate Relationships.** 3 credits.
Advanced survey of theories and research related to intimate relationships, including romantic relations and those among family members and friends in diverse cultural and relationship contexts. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100 and PSYC 231; PSYC 324 recommended.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PSYC 467: The Psychology of Working in Groups and Teams.** 3 credits.
Teaches knowledge and the skills to meet communication, interpersonal, and task-related challenges that arise when functioning in work teams. Through readings, classroom activities, and applied problem-solving exercises, students acquire or refine team-related competencies. Students study theory of group and team processes while gaining insight from feedback on their behavior in exercises to become more effective team members. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** 60 hours, including PSYC 100, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PSYC 472: Current Topics in Brain and Behavior.** 3 credits.
Rotating topics. Physiological mechanisms underlying behavior. Selected topics include neuronal bases of learning and memory, Alzheimer’s disease, and biological bases of addiction. Notes: May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** PSYC 372 or PSYC 375, and PSYC 376; or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PSYC 480: Biological Bases of Alzheimer's Disease.** 3 credits.
A survey of the causes, symptoms, drug treatments, risk factors and preventative measures associated with Alzheimer’s disease. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 375, PSYC 376, equivalent course, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**PSYC 490: Psychology Honors I.** 3 credits.
Review of topics and issues in psychology, including historical overview, theory and supporting data, and influences on behavior. Notes: Topics vary. Offered by Psychology (p. 449). May not be repeated for credit.

**Specialized Designation:** Research Associated

**Recommended Prerequisite:** Admission to psychology department Honors program.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
PSYC 491: Psychology Honors II. 3 credits.
Introduces advanced statistics, research methodologies, statistics packages, computing and information technology, and library technology appropriate for psychological research and pedagogy. Notes: Students required to complete proposal in preparation for admission to Psychology Honors III. Offered by Psychology (p. 449). May not be repeated for credit.

Specialized Designation: Research Associated

Recommended Prerequisite: PSYC 300, 305 and 490.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 492: RS: Psychology Honors III. 3 credits.
Completion of final honors project or thesis. Students must complete project or thesis, and present oral defense to committee and poster to class. Students also expected to prepare proposal to present project or thesis at regional or national conference, or prepare manuscript for publication in appropriate journal. Offered by Psychology (p. 449). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: PSYC 491 and approval of final honors project for thesis.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

PSYC 499: Senior Thesis. 3 credits.
Directed research on topic agreed on by student and advisor. Notes: Students should take PSYC 460 with same advisor to develop thesis proposal before registering for PSYC 499. Students must complete thesis and defend it orally before advisor and two faculty members. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: Psychology major with 84 hours, an experimental psychology laboratory course, PSYC 460, Permission of Instructor, and prior approval of thesis proposal.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

PSYC 518: Death, Dying, and Grieving. 3 credits.
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill. Offered by Psychology (p. 449). May not be repeated for credit. Equivalent to PSYC 418.

Recommended Prerequisite: PSYC 100

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 527: Introduction to Neurobiology. 2 credits.
Introduction to neurobiology with overview of embryological development of nervous system in evolutionary context. Introduces regional and systems neuroanatomy by studying mammalian visual system with comparative perspective. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 372 or PSYC 375 and 376, or BIOL 213 and 303.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Application of cognitive theory to understand and predict interactions among human cognition, artifact, and task. Discusses recent research and case studies that emphasize empirical research, analytical modeling techniques, systems design, and development of tools and methods. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: An experimental lab course or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 531: Mammalian Neurobiology. 3 credits.
Functional anatomy of brains of mammals, with emphasis on regional and systems neuroanatomy of humans. Anatomy correlated with material from clinical neurology where possible. Laboratory component includes brain dissections and clinical correlations. Offered by Psychology (p. 449). May not be repeated for credit. Equivalent to BIOL 516.

Recommended Prerequisite: PSYC 527.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 552: Histology/Histochemistry of the Brain.** 4 credits.
Explores conceptual basics and provides hands-on experience in techniques for studying brain tissue, including stereotaxic surgery, perfusion, sectioning, Nissl and myelin stains, enzyme histochemistry, immunohistochemistry, in situ hybridization, and quantitative receptor autoradiography. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 555: Neuroimaging.** 3 credits.
Covers functional magnetic resonance imaging (fMRI) methods, experimental design and analysis issues in fMRI, structural MRI techniques and how they can contribute to cognitive neuroscience, and event-related potential methods. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** Graduate enrollment in either Cognitive & Behavioral Neuroscience or Human Factors & Applied Cognition programs, or instructor approval.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 557: Psychometric Methods.** 3 credits.
Examines concepts of psychological measurement with emphasis on predictor test and criterion development. Discusses reliability, validity, and specialized techniques to develop tests of ability, interest, and personality. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372 or permission of instructor

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 558: Neuronal Bases of Learning and Memory.** 3 credits.
Examines neuronal mechanisms involved in learning and memory, in animals ranging from invertebrates to humans. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372, or 375 and 376, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 559: Behavioral Chemistry.** 3 credits.
Neurochemistry and neuroendocrinology, including neurotransmitter synthesis, genetic aspects of neural functioning, mechanisms of action of neurotransmitters and second messenger systems, regulation of neuroendocrine systems, neuroendocrine effects on behavior, and neuroimmunology. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372, or 375 and 376; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 561: Behavioral Biology of Substance Abuse.** 3 credits.
Overview of biological effects of substance abuse, and biological mechanisms underlying addiction. Topics include alcohol, cocaine, marijuana, and other drugs; genetics of addiction; and neural systems
underlying addiction and withdrawal. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 562: Research Methods in Human Experimental Psychology.** 3 credits.
Hands-on approach to selected current and/or classical human experimental psychology research methods. Course topics include experimental design, including psychophysical and physiological experimentation. In addition, mathematical, cognitive modeling and simulation, as well as advanced statistical techniques will be covered. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** Graduate enrollment in either Cognitive and Behavioral Neuroscience or Human Factors and Applied Cognition programs.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 563: Laboratory Methods in Behavioral Neuroscience.** 3 credits.
Laboratory work, to be completed in groups, will include surgical, histological and behavioral techniques. Proper use and handling of animals, ethical issues, evaluation of neuroscience literature, experimental design and data analysis are addressed in lecture. This course requires working with laboratory rodents. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 566: Cognitive and Perceptual Development.** 3 credits.
Survey of theory and the research on development of perception, memory, concepts, problem solving, intelligence, and academic skills in children. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** 6 credits of child psychology and course in experimental psychology or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PSYC 592: Special Topics.** 1-6 credits.
Special topics reflecting interests in specialized areas. Notes: Topic announced in advance. May be repeated when topic is different. Offered by Psychology (p. 449). May be repeated within the term for a maximum 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 597: Directed Reading and Research.** 1-6 credits.
Independent reading or research on topic agreed on by student and faculty member. Notes: Directed reading or research for MA students in psychology. Offered by Psychology (p. 449). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
600 Level Courses

**PSYC 601: Applied Data Analysis in Psychology I.** 3 credits.
Introduces fundamental statistical concepts for applied psychological research. Concepts include descriptive statistics, inferential statistics and hypothesis testing, Analysis of Variance, and Linear Regression. The course presents these topics from an applied perspective and also covers data visualization and presentation of results to clients. Offered by Psychology (p. 449). Limited to three attempts.

**Registration Restrictions:** Enrollment limited to students with a class of Graduate.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 602: Applied Data Analysis in Psychology II.** 3 credits.
Covers advanced statistical concepts and approaches for applied psychological research, such as multivariate techniques, longitudinal analyses, and other more complex approaches. A key emphasis will be on using these techniques to assess applied issues, such as return on investment of interventions and utility analyses. Offered by Psychology (p. 449). Limited to three attempts.

**Registration Restrictions:** Enrollment limited to students with a class of Graduate.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 603: Psychological Research Methods.** 3 credits.
Covers basic principles of research methods for applied psychology contexts. The focus on this course is on learning how to interpret and design research studies and survey measures. Topics include basic concepts important to survey design and research methods, and overview of types of research design, and basic issues related to communication of research to lay audiences. Offered by Psychology (p. 449). Limited to three attempts.

**Registration Restrictions:** Enrollment limited to students with a class of Graduate.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 611: Advanced Statistics.** 4 credits.
Integrates basic psychological statistics and measurement issues from advanced perspective. Lab work includes using computer packages for data handling and analyses. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**PSYC 612: Advanced Statistics.** 4 credits.
Open only to degree students. Integrates basic psychological statistics with overview of research methodology including experimental, quasi-experimental, field approaches, and measurement issues from advanced perspective. Lab work includes use of computer packages for data handling and analyses. Notes: Students must enroll in 611 and 612 in sequential semesters. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Corequisite:** Open only to degree students.

**Registration Restrictions:**
**Required Prerequisite:** PSYC 611B.
B Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 614: The Psychology of Aging.** 3 credits.
Review of the experimental literature in psychology of aging, including intellectual functioning, personality and adjustment, minor and major adjustment problems, and role changes in later life. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 100 and undergraduate or graduate course in aging.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 615: Language Development.** 3 credits.
Seminar covering theory and research on acquisition of language, including biological and environmental influences and constraints; research methods; role of parents; individual and cultural differences; links between language and other domains of development including cognitive, behavioral, social, and emotional; language and the brain; animal language; bilingualism; and atypical language development. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits graduate Developmental Psychology or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 616: Employee Selection. 3 credits.
Study of administration, scoring, and interpretation of standard tests used by industry for selection and assessment of personnel. The focus is on understanding and applying evidence-based best practices. Offered by Psychology (p. 449). Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 617: Child Psychopathology. 3 credits.
Intensive survey of major types of psychopathological disturbances of infancy and childhood. Offered by Psychology (p. 449). May not be repeated for credit. Equivalent to SPSY 617.

Recommended Prerequisite: PSYC 211 or 313 and 325.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 618: Applied Leadership and Teamwork. 3 credits.
Covers major theories of leadership and teamwork in organizations. Includes a focus on strategies for leadership assessment, selection, and development, and also examines strategies for staffing and building high performance teams. Offered by Psychology (p. 449). Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances. Offered by Psychology (p. 449). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 620: Motivation and Well-Being. 3 credits.
Covers major theories of work motivation and well-being, with an emphasis on understanding valid tools for measuring motivation and well-being and evidence-based approaches for enhancing motivation and well-being in organizational contexts. Offered by Psychology (p. 449). Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 626: Organizational Change and Development. 3 credits.
Covers principles and strategies for facilitating effective organizational change and growth. Topics include principles of organizational growth, organizational diagnosis, the design of effective organizational interventions, leading and managing organizational change, and strategies for evaluating and calibrating organizational change. Offered by Psychology (p. 449). Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 627: Performance Management. 3 credits.
Focuses on developing competencies in designing, implementing, and evaluating systems that measure and evaluate employees' individual performance within the organizational context, as well as the performance of organizational units. Includes developing skills and knowledge to develop tools for providing feedback at the individual and the group/organizational level. Emphasis will be on evidence-based management practices and the dynamic nature of workplaces. Offered by Psychology (p. 449). Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 628: Benefits and Compensation. 3 credits.**
Provides an understanding of a variety of approaches for rewards, recognition, and compensation systems. Covers the underlying theoretical frameworks for the design and implementation of such systems on attraction, retention, motivation, and performance of employees, as well as the existing empirical evidence to support these propositions. Offered by Psychology (p. 449). Limited to three attempts.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 629: Workplace Training. 3 credits.**
Covers principles and strategies of effective training. Topics include assessment of training needs, development of effective instructional designs, strategies for facilitating training transfer, and techniques of program evaluation. Offered by Psychology (p. 449). Limited to three attempts.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 630: Developmental Disabilities. 3 credits.**
Lectures, seminars discuss state-of-the-art and evidence-based information about developmental disabilities across life span with emphasis on mental retardation. Includes epidemiology, etiology, diagnoses, risk factors, treatment, supports, and prevention of developmental disabilities. Pertinent philosophical, ethical, and legal issues concerning this special-needs population will be discussed. Notes: In addition to course work and assigned reading, students sign up for a 20-hour per semester practicum. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** 3 credit hours of graduate level developmental psychology courses or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 631: Industrial and Personnel Testing and Evaluation. 3 credits.**
Study of administration, scoring, and interpretation of standard tests used by industry for selection and assessment of personnel. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 and 320.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 633: Evaluative Research in Psychology. 3 credits.**
Examines research techniques specifically designed to evaluate human effectiveness of organizations and mental health programs. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 or Permission of Instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 636: Survey of Industrial Psychology. 3 credits.**
Intensive survey of historical and current issues in major areas of applied (nonclinical) psychology. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.
Recommended Prerequisite: PSYC 636 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 638: Training: Psychological Contributions to Theory, Design, and Evaluation. 3 credits.
Focuses on applying learning principles derived from psychological research in development of training models and techniques of skill acquisition. Discusses research designs and empirical results appropriate to training evaluation. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 333 or 632.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 639: Survey of Organizational Processes. 3 credits.
Trains at conceptual/theoretical and empirical levels in organizational processes. Includes individual, interpersonal, intra-group, and intergroup phenomena as they exist in context of organizational settings. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 300 or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 645: Research Methods in Human Factors and Applied Cognition. 3 credits.
Hands-on approach to selected current or classical human factors/ applied cognition research methods; exact methods announced in advance. Potential methods include cognitive task analysis, usability evaluation methods, critical incident analysis, reliability analysis, workload measures, verbal protocol analysis, and engineering models of human performance. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 530 and 611.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 646: Longitudinal Data Analysis. 3 credits.
Examines techniques for measuring developmental change across lifespan. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 611
**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 648: Developmental Psychopathology.** 3 credits.
In-depth look at emerging discipline of developmental psychopathology. Discusses specific disorders and contexts to illustrate how knowledge of normal development, deviant development, and maladaptive behavior illuminates principles underlying adaptive functioning. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** 6 credits graduate developmental psychology.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 652: Quantitative Methods II: Analysis of Variance.** 3 credits.
Basic concepts in experimental design, fundamental assumptions in analysis of variance, and analysis of variance and covariance designs. Reviews multiple comparison tests. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 and either 304, 305, or 309.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 654: Naturalistic Methods in Psychology.** 3 credits.
Theory and techniques involved in studying people in their natural environment. Primary emphasis on quasiexperimental designs and methods of systematic observation. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 and either 304, 305, or 309.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 667: Behavior in Small Groups and Teams.** 3 credits.
Theories, methods, and topics relevant to individual behavior in small group setting. Includes effects of individual on group, effects of group on individual, and interaction effects among individuals. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 231.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Psychology.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 668: Personality: Theoretical and Empirical Approaches.** 3 credits.
Presents comprehensive overview of current theoretical and empirical approaches to personality. Emphasizes areas of special relevance to clinical, developmental, and industrial/organizational psychology. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 324 (or equivalent) or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 669: Social and Emotional Development.** 3 credits.
Surveys theory and research relevant to development of social relationships, emotional expressiveness and regulation, aggressive and altruistic behaviors, sex roles, and morality. Emphasizes influences on such development, including parents, other adults, peers, siblings, and
broader culture. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** Six hours of developmental psychology or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 671: Role and Function of the School Psychologist.** 3 credits.
Considers roles, functions of school psychologist in educational environment, including certification and ethical standards, issues, and trends. Notes: Open only to school psychology MA students, or by permission of instructor. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 673: Prevention, Intervention, and Consultation in Schools.** 4 credits.
Examines theory and practice of behavior modification and consultation in school environment. Notes: Open to practicing school psychologists and students in school psychology, or by permission of instructor. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 685: Cognitive Neuroscience.** 3 credits.
Provides an overview of the neural basis of human mental functions. Uses neuroimaging (PET, fMRI, ERPs, TMS, etc.), computational, and information-processing methods to examine functions such as attention, memory, language, emotion, and decision making. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 701: Cognitive Bases of Behavior.** 3 credits.
Surveys concepts in learning, cognitive, and affective processes, including theories and supporting data and their influences on behavior. Notes: Open only to degree students. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a major in Adv Grad Studies in Sch Psych or Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 702: Biological Bases of Human Behavior.** 3 credits.
Surveys biological bases of behavior, including such topics as neural conduction, role of specific neurotransmitters, cortical functioning, and brain disorders. Notes: Open only to degree students. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 703: Social Bases of Behavior.** 3 credits.
Surveys social influences on behavior, including group processes, person perception, and attitude formation. Notes: Open only to degree students. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a major in Psychology.
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 704:** Life-Span Development. 3 credits.
Surveys theories and research regarding lifespan development and personality formation. Notes: Open only to degree students. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** Admission to graduate program in psychology.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 709:** The Measurement of Intelligence. 4 credits.
Administration, scoring, and interpretation of major infant, child, and adult intelligence tests, with emphasis on individual tests. Development of IQ tests, theories of intelligence, and current trends and developments in intellectual assessment. Notes: Open only to school psychology MA student. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 617 or 822 and PSYC 320 or equivalent; permission of department.

**Recommended Corequisite:** PSYC 611.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 710:** Psychological Assessment. 4 credits.
Study of major instruments used in clinical assessment and nature, problems, and predictive value; administration and scoring of major techniques for evaluation of personality; and principles of interpretation of these procedures. Notes: Open only to school psychology MA students. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 617, 709, 822, or 810: and permission of director of School Psychology Program.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 722:** Advanced Child Assessment. 4 credits.
Problems involved in diagnostic assessment of children with various handicapping conditions such as learning disabilities, retardation, and emotional disturbances. Notes: Open only to school psychology MA or PhD students. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 709 and 710 or PSYC 810 and 811, and five intellectual assessments in the Psychology Clinic.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 730:** Practicum in Applied Psychology. 1-6 credits.
Practical experience in organizational setting as assigned. Notes: PhD students may repeat course for a maximum of 15 credits; MA students for a maximum 6 credits. Offered by Psychology (p. 449). May be repeated within the degree for a maximum 15 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major in Adv Grad Studies in Sch Psych or Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**PSYC 733:** Issues in Personnel Psychology. 3 credits.
Examines psychological literature on job analysis, job evaluation and compensation, performance appraisal, training, and EEOL selection issues. Methodological and psychometric issues in interpretation and evaluation of personnel psychology research receive particular attention. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 636 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate level students.
Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 734: Seminar in Human Factors and Applied Cognition.** 3 credits. Emphasizes current research and application of human factors, ergonomics, applied cognition, and applied perception. Notes: May be repeated when topic is different. Offered by Psychology (p. 449). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** Six graduate credits in Human Factors and Applied Cognition or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 737: Psychology of Human-Technology Interaction.** 3 credits. Emphasizes current research and development in human-computer interaction, cognitive systems engineering, cognitive ergonomics, and cognitive engineering. Notes: May be repeated when topic is different. Offered by Psychology (p. 449). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** 6 graduate credits in human factors and applied cognition or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 739: Seminar in Industrial/Organizational Psychology.** 3 credits. Rotating topics such as leadership theories and management development, and performance appraisal. Notes: Topics announced in advance. May be repeated when topic is different. Offered by Psychology (p. 449). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** PSYC 333 and 636, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**PSYC 751: School Psychology Assessment Practicum II.** 2 credits. Practical experience in school psychology. Notes: Open only to School Psychology MA students. Apply in writing for permission of department 60 days prior to beginning of semester. Offered by Psychology (p. 449). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** PSYC 750.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.
PSYC 754: Quantitative Methods III: Psychological Applications of Regression Techniques. 3 credits. Reviews psychological applications of regression techniques in variety of contexts including experimental, field, and survey settings. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 611

Registration Restrictions: Enrollment limited to students with a class of Graduate.

Non-Degree level students may not enroll.

Schedule Type: Laboratory, Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

PSYC 756: Quantitative Methods IV: Multivariate Techniques in Psychology. 3 credits. Surveys multivariate statistical techniques as applied to psychological research. Emphasizes analysis of complex designs and interpretation of multivariate data analyses resulting from computer processing. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 611

Registration Restrictions: Enrollment limited to students with a class of Graduate.

Non-Degree level students may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

PSYC 757: Advanced Topics in Statistical Analysis. 3 credits. Focuses on noncognitive individual differences that predict performance. Published work discussed in seminar format with emphasis on conceptual development, methodological adequacy, and new directions. Notes: May be repeated for credit when topic is different. Offered by Psychology (p. 449). May be repeated within the degree.

Recommended Prerequisite: PSYC 754.

Registration Restrictions: Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

PSYC 760: School Psychology Practicum. 1-6 credits. Supervised experience working in applied, school, or agency settings. Notes: For School Psychology, interested students must apply to area coordinator 60 days before registration. Offered by Psychology (p. 449). May be repeated within the degree for a maximum of 6 credits.

Recommended Prerequisite: Completion of required courses in school psychology and permission of program coordinator.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading: This course is graded on the Graduate Special scale. (p. 82)

PSYC 780: Applied Developmental Psychology. 3 credits. Examines how developmental theory, knowledge base, and methodology can be used to promote health and welfare of individuals across lifespan. Topics include contemporary social issues and child development, research in applied settings, developmental assessment and intervention, and program evaluation. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 704 or 3 credits of other graduate developmental psychology courses and permission of instructor.

Registration Restrictions: Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

PSYC 790: School Psychology Internship. 3-6 credits. Supervised field experience of one school year. Advanced school psychology student functions as full-time staff member in school system. Student completes paper on practical research project involving alternative school psychology role in school system. Notes: Enrollment is for total 9 credits (thesis option) or 12 credits (nonthesis option) in increments of 3 credits according to placement. Students enrolled in PSYC 799 are not required to complete the practical research project. Offered by Psychology (p. 449). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Completion of required courses in school psychology and permission of program coordinator.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading: This course is graded on the Graduate Special scale. (p. 82)
Recommended Prerequisite: Admission to psychology graduate program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

PSYC 794: Developmental Assessment. 1-6 credits.
Introduces considerations and methods needed for evaluating young children (ages two - six). Focus on the skills necessary for formulating, conducting, and reporting comprehensive developmental evaluations. Emphasizes evaluation of preschool children and includes information relating to infants, as well as older children functioning at lower developmental levels. Offered by Psychology (p. 449). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Admission to applied developmental psychology program.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 811: Psychological Assessment II. 4 credits.
Second of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 810.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 822: Scientific Foundations of Clinical Psychology I. 3 credits.
First of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions. Notes: Open only to clinical psychology PhD students. Offered by Psychology (p. 449). May not be repeated for credit.

Recommended Prerequisite: PSYC 823.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 830:** History, Systems, and Theories of Personality and Psychotherapy. 3 credits.
Review of history, systems, and theories of clinical psychology emphasizing traditional theories of personality and psychotherapy.
Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 449). May not be repeated for credit.

**Recommended Prerequisite:** Admission to doctoral concentration in clinical psychology.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 833:** Social And Cognitive Foundations Of Clinical Psychology. 3 credits.
Review of theory and research in social psychology (particularly social cognition) relevant to understanding psychological adjustment, adjustment problems, and clinical interventions.
Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 850:** Teaching Practicum in Psychology. 1 credit.
Workshop in effective teaching of selected undergraduate psychology courses. Required of and designed to guide graduate teaching assistants assigned to teach undergraduate course (not a lab) for first time. Topics include course planning, syllabus development, lecture resources, effective lecturing skills, use of audio visuals, leading of classroom discussion, construction and grading of exams, student writing, instructional technology, and handling of student questions and problems. Individual critiques of teaching. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**PSYC 860:** Introductory Helping Skills and Motivational Interviewing. 3 credits.
Teaches fundamental interviewing skills and the theory, research, and practice of motivational interviewing. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PSYC 861:** Cognitive Behavioral Therapy for Youth. 3 credits.
Teaches the selection, evaluation, and application of empirically supported interventions for children and adolescents with a focus on cognitive-behavioral interventions. Instruction in evidence based assessments, cognitive-behavioral case conceptualization, outcome evaluation, and consultation. Supervision of cognitive-behavioral therapy with youth. Offered by Psychology (p. 449). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**PSYC 862:** Cognitive Behavioral Therapy for Adults. 3 credits.
Teaches the principles of cognitive-behavioral therapy, conceptualization and psychotherapy techniques for psychological problems with adults. Supervision of cognitive-behavioral therapy with adults. Offered by Psychology (p. 449). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**PSYC 881:** Practicum in Clinical Psychology. 1-3 credits.
Supervised clinical work in a professional psychological services setting. Usually includes practice in psychological assessment and clinical interventions, but can also include supervision, consultation, and program evaluation. Offered by Psychology (p. 449). May be repeated within the term for a maximum 21 credits.

**Recommended Prerequisite:** Admission to doctoral concentration in clinical psychology and permission of director.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)
PSYC 883: *Ethical and Professional Issues in Clinical Practice*. 3 credits. Examines ethical principles and professional guidelines to help develop ethical decision-making and behavior to meet the appropriate standards of care in providing clinical services. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (p. 449). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

PSYC 885: *Clinical Externship*. 0 credits. Individual placements in psychological assessment or psychotherapy service settings. Notes: Open only to clinical psychology PhD students in the third year or more of training. Offered by Psychology (p. 449). May be repeated within the degree.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

PSYC 890: *Seminar in Professional Psychology*. 1-3 credits. Each section limited to students in one concentration of MA or PhD program. See area coordinator for requirements for section in each track. Offered by Psychology (p. 449). May be repeated within the term for a maximum 3 credits.

**Recommended Prerequisite:** Student in psychology.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

PSYC 892: *Special Topics in Psychology*. 1-6 credits. Selected topics reflecting specialized areas in psychology. Notes: Open only to PhD students. Content varies. May be repeated when topic is different. Offered by Psychology (p. 449). May be repeated within the term for a maximum 17 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

PSYC 897: *Directed Reading and Research*. 1-3 credits. Independent reading on topic agreed on by student and faculty member. Notes: PhD students in the clinical psychology concentration may not take this course for elective credit. May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**900 Level Courses**

PSYC 998: *Doctoral Dissertation Proposal*. 1-6 credits. Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of PSYC 998 and 999 may be applied to doctoral degree requirements. Offered by Psychology (p. 449). May be repeated within the degree.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

PSYC 999: *Doctoral Dissertation*. 1-9 credits. Research on approved dissertation topic under direction of dissertation committee. Notes: Students must complete a minimum of 3 credits of 999. No more than 12 credits of PSYC 998 and 999 may be applied to doctoral degree requirements. Offered by Psychology (p. 449). May be repeated within the degree.

**Recommended Prerequisite:** PSYC 998.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**Public Administration (PUAD)**

**500 Level Courses**

PUAD 502: *Administration in Public and Nonprofit Organizations*. 3 credits. Graduate introduction to field of public administration. Focuses on structure, functions, and processes of executive branch agencies of national, state, and local governments. Emphasizes nonprofit organizations as co-actors with government in policy-making/policy implementation nexus. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 504: Managing in the International Arena: Theory and Practice. 3 credits.
Theoretical and empirical examination of international system that both affects and is affected by decisions, behaviors, and subsystems of state and nonstate (organizational) actors. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 505: Introduction to Management of Nonprofits. 3 credits.
Examines nonprofit organizations and their role in contemporary society. Explores unique aspects of nonprofits including voluntary governance, tax-exempt status, nonprofit corporation law, accounting practices, fund raising, finance, and management of volunteers. Emphasizes board/executive relationship, and value of establishing and maintaining nonprofit organization's reputation. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 509: Justice Organizations and Processes. 3 credits.
Examines structures, practices, and performance of organizations involved in administration of justice (law enforcement, courts and legal agencies, corrections, regulatory and related agencies, private organizations) Explores applicability of various theoretical perspectives on organizational processes, and considers extent to which processes operate as a system. Focuses on comparing formal goals and system expectations to actual practice. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to CRIM 509.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 520: Organization Theory and Management Behavior. 3 credits.
Considers behavior in context of public organization, and consequent changes required in management. Focuses on such issues as perception, attitude formation, motivation, leadership, systems theory, communication and information flow, conflict theory, and decision theory. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 540: Public Policy Process. 3 credits.
Processes of making public policy, including detection of public issues, consideration of alternatives, and adoption and implementation of solutions. Highlights major actors in policy process, and environment within which they work. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUAD 502.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

PUAD 613: Economic Analysis in Public Administration. 3 credits.
Covers major economic issues about role of markets and government in global world. Applies fundamental economic concepts such as cost benefit analysis to public sector. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: PUAD 511B, GOVT 511B, or PUBP 511B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 615: Administrative Law. 3 credits.
Covers law as guiding and controlling force in public-sector operations. Includes application of legal processes to administrative practices and situations, and administrative determination of private rights and obligations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Major management theories applicable to American federal system. Emphasizes organization, structure, and operations. Explores relationship of theories to management practices in contemporary American administration. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 622: Program Planning and Implementation. 3 credits.
Practical exploration of implementing public law in American federal system. Studies construction of organizational apparatus, development of operational plans, and systems of control and evaluation necessary to implement government programs. Emphasizes coordinating tasks and resources required for effective program implementation. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUAD 520.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 623: Managing Government Contracting. 3 credits.
Explores unique management and administrative challenges of providing public goods and services through contracts. Examines debates over privatization, and explores tools managers need to address unique accountability challenges associated with this governance tool. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 624: Public and Private Partnerships. 3 credits.
Emphasizes entrepreneurial efforts where governments, nonprofit organizations and private companies establish goals and combine resources and talents. Issues of efficiency, accountability, and democratic responsiveness will be examined. Various tools for promoting and implementing such partnerships will be explored. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 625: Higher Education Law. 3 credits.
Analyzes legal issues confronting higher education: governance, faculty matters, and student issues. Examples include due process, freedom of speech, and privacy. Reviews key constituents in higher education-students, faculty, administrators, board of trustees, and parents -and how their roles are changing. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Explores unique aspects of nonprofit organizations operating in international environments, particularly in relief and development work. Examines relationship between NGO and U.S. and foreign governments. Covers international philanthropy, cross-cultural understanding; and key managerial concerns such as communications, planning, human resource management, control, group process, and project evaluation. Offered by Schar School of Policy & Gov't (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 642: Environmental Policy. 3 credits.
In-depth examination of environmental policy making. Examines U.S. efforts from 1970 to present to mitigate pollution of nation's air, land, and water; and addresses issues of global concern including biodiversity loss, ozone depletion, and climate change. Offered by Schar School of Policy & Gov't (p. 941). May not be repeated for credit. Equivalent to EVPP 642.

Specialized Designation: Green Leaf Course

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 644: Public Policy Models. 3 credits.
Approaches to modeling policy problems. Includes analysis and comparison of dominant paradigms in policy sciences. Reviews assumptions and implications of different models and their utility for analysis, implementation, and evaluation. Offered by Schar School of Policy & Gov't (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUAD 540.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUAD 645: Policy Analysis. 3 credits.
Introduces concepts and techniques for formal policy analysis, development of skills in applying policy analysis techniques through case
studies, and exploring legitimacy and utility of policy analysis. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**

**Required Prerequisites:** or GOVT 511 \(^B\) or PUBP 511 \(^B\). 
\(^B\) Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**

This course is graded on the Graduate Regular scale. (p. 82)

PUAD 649: Advocacy and Lobbying. 3 credits. 
Explores how nonprofit organizations advocate and lobby for social change. Considers the different steps in the advocacy process and the broad range of strategies used by non profits seeking to influence public policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 769: Issues in Public Financial Management.** 3 credits.
Examines broad trends in public finance, including theory and practice of government finance, with particular focus on financial management and changing roles of federal, state, and local governments. May include privatization, devolution, mandating, regulatory reform, and comprehensive federalism reform. Offered by Schar School of Policy & Gov't (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 502 and 9 graduate credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 781: Information Management: Technology and Policy.** 3 credits.
Examines challenges that organizations encounter as they move to a more technologically sophisticated information and communication environment. Studies organizational policy issues evolving from new technologies, including privacy, security, authentication, content control, intellectual property, and taxation, focusing on effectiveness of previous policy solutions and analyzing proposed solutions. Offered by Schar School of Policy & Gov't (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 680 or Permission of Instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 789: Justice Organization and Administration.** 3 credits.
Examines organization and administration of justice and security organizations. Covers organization theory and behavior as applied to justice and security organizations. Offered by Schar School of Policy & Gov't (p. 941). May not be repeated for credit. Equivalent to CRIM 740.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 791: Justice Program Evaluation.** 3 credits.
Practical exploration of assessment techniques used to study need for and consequences of justice programs and policies. Covers needs assessments, process, and impact evaluations. Includes design and measurement issues for assessing performance of justice programs, and interpreting and presenting results. Emphasizes designing program evaluation for justice agency. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to CRIM 781.

**Recommended Prerequisite:** PUAD 511 and 612.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 792: Advanced Seminar in Applied Public Administration Research.** 3 credits.
An applied research experience. Students will apply skills in problem definition, issue framing, collection of data and information, interviewing, selection and analysis of alternatives, presentation of findings and recommendations, design of implementation tools and administrative procedures and organizations, report writing and oral presentation to policymakers. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** 30 PUAD credits and permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 793: Conduct of Justice Organizations at the Street Level.** 3 credits.
Explores how justice organizations behave at lowest levels, where service is delivered and discretion is greatest. Includes suspects, victims, witnesses, police officers, prison guards, parole officers, attorneys, and others who interact with the justice system. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to CRIM 741.

**Recommended Prerequisite:** CRIM 740/PUAD 790 or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 794: Internship.** 3 credits.
Open only to MPA students. Contact internship coordinator one semester before enrollment. Credit determined by the department. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** 12 PUAD credits or permission of instructor. Open only to MPA students. Enrollment is controlled. See http://pia.gmu.edu/internships for registration application.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**PUAD 795: Leadership in Justice and Security Organizations.** 3 credits.
Examines leadership theories, and explores fundamental questions about leadership in justice and security organizations today. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** CRIM 740, PUAD 790, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 797: Changing Justice and Security Organizations.** 3 credits.
Examines challenges of changing justice organizations, how changes have been successfully and unsuccessfully implemented in the past, and what change strategies appear to be most effective. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to CRIM 743.

**Recommended Prerequisite:** CRIM 740, PUAD 790, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**800 Level Courses**

**PUAD 821: Doctoral Seminar in Theories of Organization and Bureaucracy.** 3 credits.
Examines key issues in organization theory and behavior. Issues include organization design; interorganizational coordination, intelligence and decision-making systems; leadership and motivation theories; and theories or organizations as agents of political and social change. Uses
case studies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** PUAD 520 or equivalent, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 840:** *Research Seminar in Policy Governance I.* 2-4 credits.
Surveys major institutions that formulate and implement public policy in United States. Examines translation of public preferences into public policy, and decisions about which societal and economic functions are most appropriately carried out by governments, and which are best accomplished by private institutions and individuals. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to PUBP 840.

**Recommended Prerequisite:** Admission to the doctoral program or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 841:** *Research Seminar in Policy Governance II.* 2-4 credits.
Second of two-semester sequence (PUAD 840, 841) in governance and public management policy concentration. Focuses on division of responsibilities among several levels of government, and between public and private sectors. Explores impact of these divisions on development of public policy in several policy areas, such as urban governance, environmental policy, and health care. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to PUBP 841.

**Recommended Prerequisite:** Admission to doctoral program.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 520:** *Theory and Practice in Public Policy.* 3 credits.
Introduces tools and concepts to navigate the world of public policy. Explores theories and assesses their strengths, weaknesses and applicability to public policy in order to understand different varieties of theory, their uses and application. Introduces several perspectives on and tools for the practice of policy analysis, and provides an opportunity to engage in an analytical policy project. Strong ethical and international components are built into the course. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 521:** *Governance and Policy Processes.* 1-4 credits.
Assesses governance processes in public and private organizational settings on the basis of economic and political standards such as efficiency, accountability, and responsiveness to societal needs in a rapidly changing global environment. Using cases, simulations, and fieldwork, students learn to evaluate the quality of institutional governance in specific venues and appraise implications for public policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUAD 503:** *Culture, Organization, and Technology.* 1-4 credits.
Focuses on the dynamic interplay of technology, organization and culture in societal, political, and economic processes, nationally and internationally. Using theory and case studies, students learn pertinent
approaches to the study of culture, including digital culture, from the analysis of organization and social networks to that of belief systems and identities. Key issues of technological politics, the role of values and identity, cultural bases of intergroup conflict, and the political implications of globalization and technological change are addressed. Students develop practical skills in observation and become familiar with appropriate tools, methods, and frameworks for analyzing public policy and its context. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 504: Grand Strategy. 3 credits.
Uses the traditional tools of history and theory to analyze grand strategy. The goal is to gain an in-depth understanding of effective and ineffective grand strategies so as to inform U.S. policy, or that of other countries. Analyzing the strategic implications of policy-making, it takes a long view of effective statecraft, using current means to achieve large ends. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 505: Politics and Practice of International Security Policy. 3 credits.
Drawing on current and historical cases, this course develops knowledge, strategies, and skills required to transform policy ideas and proposals into implemented policy on issues of international security. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 506: Ethics and the Use of Force. 3 credits.
Explores the relationship between weapons and warfare and the ethical issues raised by the use of force, both in past conflicts and in a current and future context. Examines the relationship between emerging technology enabled weapons and the just war tradition. Studies relevant theories of war and selected international laws and conventions governing war and weapons. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 533: Topics in Public Policy Processes. 1-3 credits.
Focuses on selected topics in public policy processes and procedures on an introductory level. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

PUBP 550: Topics in Public Policy. 1-3 credits.
Focuses on selected topics in public policy not covered in fixed-content public policy courses. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

PUBP 555: Economics Math Workshop. 0 credits.
Short course covering math and calculus skills required for master’s level managerial economics course PUBP720. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Lecture

Grading:
This course is graded on the Not Gradeable (NG) scale. (p. 82)

PUBP 556: Writing Workshop. 0 credits.
A limited enrollment, noncredit, one-day workshop designed for master-level public policy students who want to improve their writing skills. Aimed at good writers who want to move to the next level of effectiveness. Taught by professional writers. Offered by Schar School of Policy & Government (p. 941). May not be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Lecture

Grading:
This course is graded on the Not Gradeable (NG) scale. (p. 82)

PUBP 570: Policy Writing Fundamentals. 3 credits.
Designed for entering students whose writing skills and style must satisfy the demands of a rigorous graduate program; aims to give students the ability and confidence to write clearly and concisely for a variety of policy audiences; reviews basic rules and develops essential techniques for effective writing in graduate school and beyond. Offered by Schar School of Policy & Government (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

PUBP 601: Theory and Practice of Regional Economic Development. 3 credits.
Helps students develop real-world skills to be a successful economic developer, consultant, policymaker, or change agent in this rapidly changing environment. Designed to provide a framework for understanding regional and national economic growth and prosperity, and provide tools to conduct concrete analyses to help decision makers, clients, and constituents make better-informed decisions. Offered by Schar School of Policy & Government (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 602: Regional Economic Development: Strategies and Applications. 3 credits.
Introduces range of methods for tracking the performance of metropolitan economies, identifying opportunities for economic development, and assessing effectiveness of public and private investments designed to achieve region's economic growth. Also examines strategies and case results of economic development plans and projects. Offered by Schar School of Policy & Government (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
**PUBP 610: Organizations, Management, and Work: Theory and Practice.** 2 credits.
This introduction to organizations, management, and work examines ideas and practices from two perspectives: conventional ones that go back to the industrial age and scientific management; and contemporary ones that have to do with organizing knowledge-work. Covers contributions of a range of writers and deals with foundations of OD from the standpoint of both theory and practice. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 611: Critical Infrastructure Protection in Theory, Policy and Practice.** 2 credits.
Introduces critical infrastructure protection as a policy field, examines its institutional framework, and considers its foundations in political and economic theory. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 650: International Conflict and Crisis Response.** 3 credits.
First course of two-semester sequence on international peace operations. Focuses on emerging theory of peace operations, including peacemaking activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries. Several guest lectures from past and present peace operations provide practical information for future staff of peace operations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 651: Peace and Stabilization Operations.** 3 credits.
Second course of two-semester sequence on international peace operations. Focuses on application of emerging theory of peace operations, including peace-making activities of United Nations and other diplomatic initiatives; peace-building activities of international organizations and nongovernmental organizations; and peace support provided by international militaries. Several guest lectures from past and present peace operations provide practical information for future staff of peace operations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 652: Strategies for Peace and Stabilization Operations.** 4 credits.
This course concentrates on the institutional mindsets, characteristics, and behaviors of the actors involved in peace operations. Readings, role-plays, and research underpin the class. Special attention is also paid to developing students’ graduate-level research and writing skills. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 653: Interagency Operations in Conflict and Post-Conflict Settings.** 3 credits.
Examines the U.S. Interagency process as it relates to peace operations. Various departments and agencies maintaining equities in overseas missions will be identified and explored. Case studies highlight instances of success or failure in application of a “whole-of-government” approach to intervention. Examines significant problems hampering Interagency cooperation today and recent policy directives, frameworks, and initiatives developed to address this situation. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 654: Analysis for Peace Operations.** 3 credits.
Examines theories of human behavior and social systems as they relate to conflict at the interpersonal, community, and international level. The class provides a foundation of academic thinking about the role of conflict in violent and peaceful social change. At the end of the course, students should be able to think systematically and critically about conflict, and engage in practical application of conflict analysis techniques to peace operations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 655: State- and Institution-Building.** 4 credits.
Ending prolonged civil conflicts often necessitates building stronger state institutions as well as addressing broader social, economic, and political issues affecting particular places and peoples. This course examines the literatures on state formation and state building from a historic, regional, and functional perspective paying special attention to polities exiting civil conflicts. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**PUBP 700: Theory and Practice in Public Policy.** 1-4 credits.
Theories of public policy emphasizing historical intellectual development, and role theory and ethics may play in public policy making. Assumptions made by policy professionals examined against broad range of philosophical, social, political, and economic imperatives affecting public policy environment. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 702: Comparing Political Institutions.** 3 credits.
Examines political institutions and processes from comparative and international perspectives, and role of political environment in economic trade and investment policy decisions. Examines how generalizability, objective knowledge and understanding, and nature of evidence impact public policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 704: Statistical Methods in Policy Analysis.** 3 credits.
Graduate-level introduction to statistical methods and techniques used in policy sciences. Topics include descriptive statistics, sampling and probability theory, graphical data display, estimation and significance testing, contingency tables, bivariate regression and correlation, and multiple regression, with introduction to computer based statistical analysis. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

Studies analytical concepts and techniques used in public-sector overall budgetary and specific project decision making. Includes conceptual concerns and quantitative techniques used in benefit-cost analysis, capital budgeting, financial analysis, and various specialty applications, such as economic and fiscal impact analysis. These are all interrelated by the desire to measure the benefits versus the costs of various alternative public decisions. Attention is given to measuring results over time and the use of present value techniques. Assesses strengths and weaknesses of analytical techniques. Emphasizes the process of defining the appropriate stakeholders affected by decisions, the sources and quality of data, and the rigor of conducting studies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture
The image contains a page from a document which appears to be a course catalog or syllabus. Here is a structured representation of the content:

**PUBP 714: Topics in Transportation Policy, Operations, and Logistics. 1-3 credits.**
Issues in transportation policy, operations and logistics in United States and abroad. Includes practical applications of theories and analysis to policy problems, and emphasizes competence in improving policy in selected domains. May be taken up to three times and simultaneously for sections addressing different subject matter. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 715: Introduction to Transportation Systems. 3 credits.**
Transportation is a service that contributes substantially to well-being of advanced economies. Resource requirements and byproducts of transportation also pose sobering environmental challenges for society. Course examines history and development of transportation systems; contribution to and impact on society; institutions and practices that govern planning, design, construction, operation, maintenance, and retirement from service; and policy and managerial challenges, and tools and techniques for addressing them. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 716: Transportation Operations and Logistics. 3 credits.**
Provides survey of issues, methods, problems, and strategies. Topics include origins of logistics, industry structure, pricing, underwriting, rate making, compliance, inventory effects, just-in-time inventory management (JIT), materials requirements planning (MRP), customer service and order processing operations, sales functions and operations, dispatch and fleet manager functions and operations, rate-setting among three parties, typical electronic and paper document flow, routing and scheduling, route selection, satellite load tracking through dispatch-customer web inquiry, role of ITS in route selection, toll system use, congestion, training activities, and logistics markets. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 717: Analysis for Transportation Managers. 4 credits.**
Introduces basic methods of transportation analysis and evaluation relating them to policy framework. Covers descriptive statistics, hypothesis testing, contingency tables (Chi-Square analysis), regression,
optimization, demand elasticities, and gravity model. Also covers sources of transportation data and research design. Teaches mathematical base and logic of each technique, but primary emphasis is applying methods to relevant policy and management problems. Students required to complete series of assignments along with research proposal focused on applying one or more methods to problem of their own interest. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 718: Transportation Planning and Policy. 3 credits.
Introduces highway, rail, air, and water transport planning in United States. Teaches legislative, organizational, fiscal, legal and political environment within which planning for transportation facilities and services takes place. Introduce technical and analytical methods for transportation planning. Focus is largely on public sector, but also considers commercial transport planning and role of private sector in helping to design, manage, and finance transport systems. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 719: Transportation Law. 3 credits.
Examines legal environment of transportation. Topics include basic legal concepts and institutions, history and evolution of price and service regulation, environmental law and regulation, labor relations, and property. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 720: Managerial Economics and Policy Analysis. 3 credits.
Introduces microeconomics theory and its application in analyzing public policy issues. Provides capability to understand economic literature and theories. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
PUBP 726: Telecommunications Policy. 3 credits.
Examines salient issues associated with telecommunications and electronic commerce in context of public policy questions facing decision makers in government, education, and business. Examples include privacy, electronic signatures, digital divide, bandwidth auctions, IP telephony, CRM, Bluetooth, and Internet taxation. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 730: US Institutions and the Policy Process. 3 credits.
Explores the United States constitutional system of government, including the principal governmental and non-governmental institutions shaping American public policy. Investigates the national policy making process and the interplay between politics and policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 731: Macroeconomic Policy Assessment. 3 credits.
Covers monetary theory, theories of consumption and saving, budget deficits, economic growth, international finance, and monetary and fiscal policy. Investigates national income and product accounts, savings, employment, and investment, and alternatives to Keynesian principles. Evaluates theories of inflation, investment, capital accumulation, and nonproportional growth. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 732: Labor Markets and Policies. 3 credits.
Analysis of labor market issues and policies, including those affecting employment, wages, working conditions, and unemployment – issues central to current policy debates on job creation, inequality, discrimination, immigration, education, and social programs. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 733: Urban Politics and Policy. 3 credits.
This course explores the factors that guide and affect urban politics and policy including, but not limited to, housing, public education, criminal justice, employment, and economic development. It is designed to provide students with an introduction to the major theories and some of the significant research in urban politics and policy. The primary focus will be on large American cities. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 734: Administrative Law and Public Policy. 3 credits.
Covers administrative discretion, rule-making and agency proceedings, public participation, political accountability, regulatory processes, oversight, formal adjudication and informal action, lobbying agency administrators, and political and legal nature of the administrative process. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 735: Lobbying and Interest Representation. 3 credits.
To work effectively within a democratic political environment, policy analyst must understand contemporary methods used to influence policy. Course focuses on roles and techniques of organized influence, and its impact on policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 736: International Migration and Public Policy. 3 credits.
Examines demographic, economic, political, and social forces driving international migration on a global basis in the twenty-first century. Considers policy responses within sending and receiving countries and at the global level, including the role of international cooperation and institution-building. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.
Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 737: Cases and Concepts in E-Government.** 3 credits.
Electronic government has become a significant public policy issue worldwide. It offers the prospect of dramatic improvements in delivering government services, but also portends major debate about government intrusion. Course covers emerging public policy issues associated with electronic government: job displacement in public sector, privacy, procurement and supply chain management, voter profiling, scope of government services, challenges to "digital democracy," Internet-based voting, land management, the "digital divide," and others. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 739: Media and Public Policy.** 3 credits.
Explores complex relationship between media and public policy. Examines how these forces collide in our modern media, how coverage decisions regarding public policy are made in newsrooms, how advocates use and rely on the media to advance message, and how different media reflect different strengths and vulnerabilities. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 740: U.S. Foreign Policy: Formulation and Practice.** 3 credits.
Focuses on policy formulation and policy implementation. The principal arenas of foreign policy are explored, including the White House, the State Department, the defense and intelligence communities, and the Congressional committees. These arenas are both affected by and influential upon the exogenous systems, such as the media, public opinion, interest groups, foreign governments, and international organizations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Examines the design and operation of expenditure and revenue systems and programs at federal, state, and local levels of U.S. government. Covers a variety of public finance topics including mobilization of resources through planning, adoption, and execution of budget; theory, policy objectives, and microeconomic impact of tax policy and spending programs; and financial controls, cash and debt management, and accounting and financial reporting systems. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUBP 720.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 742: Transportation Safety and Security.** 3 credits.
Examines transportation safety and security from multimodal perspective for both passenger and freight. Topics include historical context and policy framework, regulation, institutional issues, new security arrangements for preventing organized terrorist attacks, infrastructure design, vehicle design, operating protocols, and information systems. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Examines hierarchies in national security from the president to military establishment, including National Security Council, secretary of defense, joint chiefs of staff, commanders-in-chief of unified and specified commands, and intelligence agencies. Covers policies involving national defense, peace-keeping operations, embargoes and other sanctions, defense conversion, and military acquisition policy. Also covers significant legislation affecting national security, such as National Security Act of 1947 and Goldwater-Nichols Act of 1986. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
PUBP 744: Federal Institutions and Management. 3 credits. Covers management and policy in federal government, examining policy problems within context of national system of governance, including political environment, evolution and constitutional framework of American government, U.S. Congress, executive branch from White House to agencies, and role of interest groups and political parties. Special attention to implementing legislation, regulatory process, and intergovernmental relations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 745: Transportation and the Environment. 3 credits. Multidisciplinary examination of implications of transportation and ways public policy has attempted to handle them, and how policy may move in the future. Explores all modes of transportation and most environmental ramifications. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 747: Air Transportation Policy, Operations and Logistics. 3 credits. Reviews evolution of various forms of air transport such as airlines, general aviation, and military aviation; and includes basics of airline economics, especially as they intersect with airline operations and the management of hub and spoke networks; air traffic control technologies and operations and their intersection with airline economics; safety and security technologies and regulations; future of various elements of air transportation; and effects of deregulation on air travel. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 748: Public Transportation Policy, Operations and Logistics. 3 credits. Provides general system description for components comprising typical publicly funded transit property. Topics include organizational structure, historical context, budget development including operating and capital budgets, personnel and labor relations, regulatory framework, operations management (bus and commuter rail), reporting structure, customer service, and contracted operations. Also discusses current topics of interest, such as security of transit systems and transit's role in air quality. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 750: History of Military Operations Other than War. 3 credits. Focuses on history of military activity in support of noncombat missions. Uses historical examples of early days of United States and colonial histories of Western and Eastern powers. Also touches on use of military force in support of multinational peace operations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 751: International Police Operations. 3 credits. Analyzes role of international police monitors and domestic police forces in international peace operations. Focuses on how using international police monitors and developing indigenous law-enforcement capabilities can improve prospects for success of international peace operations. Examines origins, mandates, planning, and deployment of international civilian police forces; problems of coordinating international police operations with international military forces and local security forces; international role in developing democratically oriented police forces; relationship of police to the entire judicial system; and the need to continue assistance to all parts of the judicial system beyond initial intervention. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 752: Infrastructure Finance. 3 credits. Covers planning, budgeting, and financing of infrastructure, including air, water and surface transportation, public utilities, and other major public works. Focuses on private capital markets for projects funding as well as domestic and international loan and grant programs. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 753: Ethics in Public Policy. 3 credits.
Inquiry into ethical and moral issues in public policy. Explores issues that are controversial and often confusing to public policy makers such as health care, secrecy in government, surrogate motherhood, and disability. Perspectives are national as well as global, and deal with impact of culture and politics on ethical dilemmas confronting society. Also looks at processes by which specific ethical systems are incorporated into governing bodies. Larger issues, such as war and peace, just and unjust wars, capital punishment, medical and legal ethics, and communitarian vs. individual liberties are also included, with emphasis on how they affect public policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 754: Geographic Information Systems and Spatial Analysis for Public Policy. 3 credits.
Introduces Geographic Information Systems (GIS), including spatial data tools, to answer applied policy questions. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Applies behavioral, economic, strategic, and other decision theories to U.S. government and other actors in historical national security crisis cases and current policy issues. Explores tension in decisions between rational goal seeking by actors vs. organizational process, and aims to develop usable decision tools. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 756: Global Medical Systems Policy Analysis. 3 credits.
Equips students with knowledge and skills to critically analyze structures, functions, governing policies, and performance of healthcare systems; to identify problems and solutions; and to devise alternative courses of action and reform policies that would contribute to achieving goals. Prepares students in policy analysis rooted in systems analysis, while linking issues, objectives, and solutions with the larger context in which a system is embedded. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 757: Public Policy in Global Health and Medical Practice. 3 credits.
Introduces international medical policy. Covers globalization of health and medical policies directed at removing disparities, financing, ethical considerations of biomedical research, and use of emerging technologies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 758: Global Threats and Medical Policies. 3 credits.
Explores medical and health governance, biosecurity and biosafety, health and natural and human-made disasters, humanitarian and emergency assistance, vaccine development, behavior and health, critical infrastructures, bioethics and resource allocations in global context. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 759: National Security Law and Public Policy. 3 credits.
Introduces legal and policy issues concerning current U.S. national security. Its emphasis is on developments since 9/11. It focuses on the legal rules governing the formulation and execution of U.S. national security policy. It examines U.S. and international law as well as general domestic and foreign policy considerations. In particular, the course considers the principal cases, legislation and treaties impacting U.S. national security. Special emphasis is on the interplay of national security concerns and civil liberties in this age of global and transnational terrorism. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 760:** *Science and Technology Policy in the 21st Century.* 3 credits.
Investigates roles dynamic scientific research and technological innovation play in contemporary society. Focuses on design and analysis of alternative public policies intended to influence rate and direction of technological change in societies, and use of scientific and technical knowledge in public policy making. Uses historical and international comparative approaches to assess politics and pragmatics of science and technology policy. Includes material from policy evaluation and analysis, organization theory, economics of innovation, and sociology of science and technology. Applications focus on areas of concern to “new economy” such as biotechnology, networked telecommunications and computing, and globalization of technology-based production. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 761:** *Social Entrepreneurship and Public Policy.* 3 credits.
This course is about people who start new ventures with the explicit objective of creating social as well as private value. As societies and the challenges they face become ever more complex, existing institutions and incentive structures may or may not be adequate to address new generations of problems. Social entrepreneurs innovate new organizational forms with the objective of finding solutions in the public interest. Students in this course will be challenged to integrate elements of business strategy and policy analysis towing the objective of crafting a practical plan for the launch of a novel and needed social venture. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 762:** *Social Institutions and Public Policy.* 3 credits.
Limited government involvement in social policies changed drastically during the 1960s, with an explosion of social programs designed to ameliorate poverty, reduce crime, and eliminate racial segregation. These new social policies affect many institutions, including family, schools and colleges, criminal justice system, and government agencies. Many of these policies have been controversial, with debates over efficacy and whether they have cured or exacerbated social problems. Course examines evolution and status of selected American social policies, including civil rights policies, education reform, family policy, crime prevention, and other topics chosen by students. Readings and discussions on policy issues linked to readings and discussions on social theories and value systems that underpin social policies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 763:** *Illicit Trade.* 3 credits.
Examines the role that illicit trade assumes in international trade and commerce. Studies diverse international forms of illicit trade, the role that it assumes in perpetuating conflicts and the most pervasive forms of this illicit trade. Examines the actors who perpetrate this trade and the policies which are needed to stem its growth. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 764:** *Transnational Crime and Corruption.* 3 credits.
Provides an overview of transnational crime and corruption and its effects on the political, economic, and social development of countries globally. Focuses on the growing problem of transnational crime in conflict regions. The course addresses the links among crime groups, corruption and terrorism. It analyzes diverse range of activities of transnational crime groups in both the legitimate and illegitimate economy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 765:** *Human Smuggling and Trafficking.* 3 credits.
Examines the rapidly growing phenomenon of human smuggling and trafficking. Addresses the reasons for the growth of these phenomena and their far-reaching and diverse social, political and economic consequences globally. Transnational crime dimensions of the problem are a central component of the class. The phenomenon is examined in conflict regions, developing, diverse developed as well as transitional societies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.
PUBP 766: Modern Counterinsurgency: Theory and Practice. 3 credits. This course is intended to give students a broad understanding of the nature of counterinsurgency, the policy implications of the U.S. becoming involved in an insurgency, and the multifaceted, interagency approach that is required to successfully combat an insurgency. The course includes case studies, a review of contemporary U.S. counterinsurgency practices, and insights on what the future might hold in this important type of conflict. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 767: Ethics in Health Policy. 3 credits. Examines major ethical issues raised in health policy and medical practice around the world. Studies issues comparatively and applies various ethical frameworks to study them. Considers various legal and policy solutions derived to deal with them. Principles of biomedical ethics as well as consideration of several major schools of thought in political philosophy, including utilitarianism, libertarianism and communitarianism will be considered. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 768: Education and Public Policy (Topic Varies). 3 credits. Explores current issues and policy initiatives in education policy at federal, state, and local levels, with emphasis on education reform. Issues and topics vary. Typical policy issues include raising academic standards, high-stakes testing, alternative governance including school choice and voucher policies, teacher quality and certification, role of school resources in academic outputs, and equity topics. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 769: Political Violence and Terrorism. 3 credits. Examines the persistent threat of terrorism and political violence to international stability generally, and U.S. national security interests in particular. Provides students with a long-term analytical and substantive foundation to deepen their knowledge and effectiveness as policy-makers in national security, diplomacy, homeland security, law enforcement, humanitarian law, peace operations, postconflict reconstruction, development assistance, public diplomacy and other related areas. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 770: Health Policy Analysis. 3 credits. Prepares students in global health policy analysis with a focus on processes, roles, expenditures, alternatives and tradeoffs in different country settings. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 775: Economics of Electronic Commerce. 3 credits. Focuses on gaining competitive advantage through electronic commerce implementation; identification and growing of new market opportunities and electronic enabling of existing business relationships; and business-to-consumer relationships and economics of strategic procurement, ERP hosting, customer relationship management, catalog hosting, portal operations, and supplier management. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 777: Critical Infrastructure Protection: Policy and Practice. 3 credits. Introduces critical infrastructure protection and resilience as a policy field, examines its governance framework, and considers its foundations in institutional theory and risk analysis. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 779: Global Health Policy. 3 credits. Prepares students in global health policy analysis with a focus on processes, roles, expenditures, alternatives and tradeoffs in different country settings. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 787: Social Media and Communication. 3 credits. Explores the impact of social media on communication, organizations, and society. Examine the social, cultural, and political implications of using social media in a globalized world. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 780: Evolution of the Washington Metropolitan Economy. 3 credits.
Includes historical context, role of federal spending, tourism, technology sector, international business, regional organizations, local government policies, and forecasts. Evaluates development patterns in Washington, D.C., Northern Virginia, and suburban Maryland. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 781: Entrepreneurship and Economic Development. 3 credits.
A knowledge spillover theory of entrepreneurship is employed to link between theories of entrepreneurship and theories of innovation and regional development. Other interconnections are explored at the regional level as firms forge networks, clusters, and specialized markets. The public policy issues of these constructs, including competition policy, industrial policy, and cluster policy, are examined within a regional and global context. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 782: International Financial Policy. 3 credits.
Addresses theory of international finance, application to financial policy such as exchange rate regimes, and institutions of international finance. Covers operations of International Monetary Fund and World Bank, development of European Monetary Union, and debate over "international financial architecture." Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 783: Global Governance. 3 credits.
Surveys important issues in global governance given changes in contemporary world. Explores dynamics and complexity of formal and informal actors, institutional arrangements, organizations, and roles in process of governance in international sphere. Considers states, governmental and nongovernmental organizations, international regimes, social movements, regional associations, and multinational corporations as actors bearing on transnational authority. Examines various vehicles for international coordination and conflict in terms of relevance and opportunities for global governance. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 784: Entrepreneurship, Economics, and Public Policy. 3 credits.
To demonstrate that global capitalism is a process driven by entrepreneurship, students study the Austrian school of economics, which views capitalism as a process of creative destruction, as well as other economists who emphasize entrepreneurship and change. The course reviews the history of capitalism, focusing on the so-called industrial revolutions in Britain, Germany, Japan, and the United States, and on particular historical and current entrepreneurs. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Teaches how to analyze the framing of policy questions and examine culture and organization at group, organizational, interorganizational, and societal levels. Covers case study research, open-ended interviewing, participant-observation, social network analysis, and historical and archival research. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 792: Advanced Economic Analysis for Policy Research. 4 credits.
Builds analytical skills in economic analysis for policy research for students with competence in elementary calculus. Reviews mathematical techniques and covers consumer theory, demand estimation and forecasting, production theory, cost-benefit analysis, technological change and productivity analysis, growth theory, market structure and competition, game theory, capital budgeting, and public sector’s role in the economy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.
Recommended Prerequisite: PUBP 720 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 793: Large-Scale Database Construction and Management for Policy Research. 4 credits.
Explores data resources for macro-comparative policy research, and how to use these to inform decision making and evaluate policy performance. Emphasizes how social science data is generated, coded, and managed; and methods for successful presentation of evidence in support of policy recommendations. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 795: Final Project. 1-3 credits.
Project developed drawing on key themes of the program, in consultation with the program director. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale. (p. 82)

PUBP 799: Master’s Thesis. 1-6 credits.
Individualized section form required. Original research endeavor related to student's program concentration. Research must result in document meeting public policy and university standards. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the degree.

Recommended Prerequisite: Degree candidacy in a Public Policy Master’s program, completion of required credits of graduate course work, and approval of a thesis proposal by the faculty advisor, two committee members, and the program director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

800 Level Courses

PUBP 800: Culture and Public Policy. 1-4 credits.
Comparative analysis of the role of culture in shaping policy environments and outcomes. Introduces analytical methods for studying culture, including measurement of social and cultural change, surveys, and field studies. Presents major findings and research issues regarding the role of culture in democracy, ethnic and gender relations, economic growth and other policy issues. Focuses on differences among national and regional cultures, and their policy implications. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 801: Research Design for Public Policy. 1-4 credits.
Provides an introduction to the theory and practice of research in public policy. Gives students an understanding of issues in the philosophy of science and different approaches to social science research. Provides broad overviews of quantitative and qualitative methodologies, with a major emphasis on research design, including conceptualization, the role of theory, hypothesis generation, inference and bias. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUBP 720 and PUBP 730, or their equivalents strongly recommended.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 802: The Logic of Policy Inquiry. 1-4 credits.
Defines policy research problems, questions, and hypotheses. Explores modes of policy research, analysis, and rhetoric, including interdisciplinary research strategies. Uses information sources to emphasize written communication of policy research results. Also discusses professional practice issues. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.
Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 804: Multivariate Statistical Analysis in Public Policy. 4 credits.
Explores multivariate techniques of contingency table analysis, reliability and validity assessment, factor analysis and scaling, multivariate regression and path analysis, analysis of variance and covariance, and other selected multivariate techniques. Emphasizes applying these techniques to real policy data using sophisticated statistical packages. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUBP 704 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 805: Foundations of Social Science for Public Policy. 4 credits.
Grounds doctoral students in core concepts of political science and economics through critical analysis of classic sources, old and new. Topics may include theory of the state, state-market relations, democratic governance, markets and economic institutions, and other relevant frameworks for public policy research. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUBP 730 or equivalent.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 806: Advanced Management Science for Public Organizations. 3 credits.
Primary emphasis is to understand techniques of operations research and management science, cost benefits, and cost effectiveness for public policy decision making. Some familiarity with elementary calculus and linear algebra helps with understanding mathematical basis of algorithms used to solve models, and reliability and validity of these techniques. Case studies and computer solutions help students understand when and how to use OR models. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUBP 712 or equivalent.

Registration Restrictions:
research laboratory. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Govt college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PUBP 820:** Technology, Science, and Innovation: Institutions and Governance. 4 credits.
Explores how political and economic institutions and cultural values shape pace, direction, costs, and benefits of technological innovation and scientific research. Special emphasis on interaction between national institutions, and values and processes of globalization. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Govt college.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 821:** Analytic Methods for Technology, Science, and Innovation Policy. 4 credits.
Covers major methodological approaches to study of technology, science, innovation, and public policy. Focuses on analytical inputs to policy making, and assesses practical consequences in such areas as security, energy, environment, and health. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Govt college.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 830:** Comparative Socioeconomic Policy. 1-4 credits.
Throughout the past century, numerous socioeconomic theories have competed for primacy. This course compares, contrasts, and analyzes some of the leading socioeconomic theories and policies and places them in a global context. The role of these theories in shaping current public policy is explored. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to ECON 676.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Govt college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 833: Topics in Public Policy.** 1-4 credits.
Focuses on selected topics in public policy not covered in fixed-content public policy courses. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 9 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Govt college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**PUBP 834:** Entrepreneurship, Growth, and Public Policy. 1-4 credits.
Focuses on a closer consonance among entrepreneurship, geography, and economic growth. Studies the creation and incubation of new knowledge and features three theoretical fields: the new growth theory; the new economic geography; and the new economics of innovation. Develops a knowledge spillover theory of entrepreneurship. Examines public policy issues arising from these constructs, including competition, within a regional and global context. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.
Enrollment limited to students in a Doctor of Philosophy degree.
Enrollment limited to students in the Schar School of Policy and Govt college.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 835:** Entrepreneurship, Creativity, and Innovation. 1-4 credits.
Provides multidisciplinary foundation for the study of entrepreneurship, creativity, and innovation, and their effects on regional and national economic growth. Draws from seminal thinkers and emphasizes creativity and innovation. Examines how organizational change, institutional structure, and geographic clustering drive the development of regional and national economies. Explores these issues through the lens of the three Ts of economic growth: technology, talent, and
tolerance. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment is limited to Graduate level students.
- Enrollment limited to students in a Doctor of Philosophy degree.
- Enrollment limited to students in the Schar School of Policy and Gov college.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 840:** *U.S. Policy-Making Institutions*. 4 credits.
Examines major institutions that formulate and implement policy at national level. Emphasizes presidency, Congress, and executive branch bureaucracies. Also considers agenda-building institutions such as media, interest groups, political parties, and elections. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to PUAD 840.

**Registration Restrictions:**
- Enrollment is limited to Graduate level students.
- Enrollment limited to students in a Doctor of Philosophy degree.
- Enrollment limited to students in the Schar School of Policy and Gov college.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 841:** *U.S. Policy-Making Processes*. 4 credits.
Analyzes major U.S. public policy processes. Attention to major instruments for implementing policy, including regulation, grants, tax policy, and market-based mechanisms; and how different methodologies are appropriate for understanding aspects of policy inquiry. Covers ethical and accountability aspects of policy, including federalism, intergovernmental relations, and state and local governance. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit. Equivalent to PUAD 841.

**Registration Restrictions:**
- Enrollment is limited to Graduate level students.
- Enrollment limited to students in a Doctor of Philosophy degree.
- Enrollment limited to students in the Schar School of Policy and Gov college.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 850:** *Seminar in Public Policy*. 1 credit.
Weekly colloquium series, required of public policy PhD students. Features variety of speakers from universities, government, and nonprofit sectors. Topics include policy formulation and analysis, and theoretical and methodological foundation. Offered by Schar School of Policy & Govt (p. 941). May be repeated within the term for a maximum 4 credits.

**Registration Restrictions:**
- Enrollment is limited to Graduate level students.
- Enrollment limited to students in a Doctor of Philosophy degree.
- Enrollment limited to students in the Schar School of Policy and Gov college.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**PUBP 860:** *Social Theory, Culture, and Public Policy*. 4 credits.
Covers major social and cultural theories that underlie public policies. Selections from classical and contemporary social theorists relevant to studying social change, social capital, and social organization. Focuses on interplay among culture, social institutions, social processes, and policy. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment is limited to Graduate level students.
- Enrollment limited to students in a Doctor of Philosophy degree.
- Enrollment limited to students in the Schar School of Policy and Gov college.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 861:** *Culture and Social Policy Analysis*. 4 credits.
Applies social and cultural theories to policy topics, including methodological approaches and empirical studies. Emphasizes linkage between theory and empirical research, and methods appropriate for social policy study. Policy topics may include poverty and inequality, family, education, crime and corruption, immigration, and health. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment is limited to Graduate level students.
- Enrollment limited to students in a Doctor of Philosophy degree.
- Enrollment limited to students in the Schar School of Policy and Gov college.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**PUBP 862:** *Institutional Analysis and Policy*. 4 credits.
Policy analysts are increasingly cognizant of the influence of societal institutions in shaping public policy, not only in terms of policy design, but also as a determinant of implementation. This course reviews the growing literature regarding institutional analysis; furthermore, it considers the ways in which institutions help shape the policies that emerge within a given society and the context by which they are evaluated. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 870: Organizational and Policy Aspects of Informatics. 1-4 credits.
Examines effects of informatics on national and international policy; setting international policy on informatics; ethical and social change in governments and organizations; shaping national policy in informatics; industry growth; and research methods from various scientific disciplines. Offered by Schar School of Policy & Gov't (p. 941). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 871: Organizational and Information Technology Challenges of the Knowledge Society. 4 credits.
Explores links of policy, managing organizations, and information technologies in postmodern era. Includes issues related to contradictions among conventional models of organizational and process design, policy and regulatory structures, ideologies, and information technologies. Provides framework for becoming a sophisticated analyst of policy, organizations, and information technology. Offered by Schar School of Policy & Gov't (p. 941). May not be repeated for credit.

Recommended Prerequisite: PUBP 870.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Government.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

PUBP 872: Managing Knowledge-Based, Information-Intensive Organizations. 4 credits.
Deals with challenges of planning, creating, integrating, and managing contemporary information-technology enabled public and private sector organizations, and managing relationships between public and private enterprises enabled by information technology initiatives. Offered by Schar School of Policy & Gov't (p. 941). May not be repeated for credit.

Registration Restrictions:
and CRN number to register via Patriot Web. Offered by Schar School of Policy & Gov (p. 941). May not be repeated for credit.

**Recommended Prerequisite:** Permission of field committee chair.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

Enrollment limited to students in the Schar School of Policy and Gov college.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**PUBP 998:** Research/Proposal for Dissertation. 1-9 credits.
Requires work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements. Offered by Schar School of Policy & Gov (p. 941). May be repeated within the degree.

**Registration Restrictions:**
Enrollment limited to students in a Doctor of Philosophy degree.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**PUBP 999:** Dissertation. 1-9 credits.
Requires research on approved dissertation topic under director on dissertation committee. Notes: No more than 24 credits of PUBP 998 and 999 may be applied to doctoral degree requirements. Offered by Schar School of Policy & Gov (p. 941). May be repeated within the degree.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment limited to students in a Doctor of Philosophy degree.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**Reading (EDRD)**

**300 Level Courses**

**EDRD 300:** Literacy and Curriculum Integration. 3 credits.
Introduces K-12 content area reading, writing, and language arts. Emphasizes integration of reading and other language arts across curriculum. Notes: Intended as an introduction to educational issues and is not applicable in Mason's graduate-level teacher education programs. School-based field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**EDRD 301:** Facilitating Literacy in School or Community Settings. 3 credits.
Provides knowledge, teaching strategies, and support for students working with developing readers and writers. Emphasizes implementation strategies that foster literacy development; incorporation of trade books and technology resources into individual and small group work; and reflection. Note: Requires 45 hours of school-based field experience during course. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

**EDRD 419:** Literacy in the Content Areas. 3 credits.
Assists students in understanding the language and literacy process as it applies to teaching in middle and high schools. Focuses on instructional strategies to support literacy development, including adaptations for culturally diverse and exceptional learners. Offered by Graduate School of Education (p. 157). May not be repeated for credit. Equivalent to EDRD 619.

**Registration Restrictions:**
Required Prerequisites: (EDCI 469*C, 372*C or 473*C) and (EDCI 479*C, 472*C or 473*C).

* May be taken concurrently.

C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Secondary Ed - Biology 6-12, Secondary Ed - Chemistry 6-12, Secondary Ed - Mathemetic 6-12, Secondary Ed - English 6-12, Secondary Ed - Physics 6-12 or Secnd Ed - Earth Science 6-12.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**500 Level Courses**

**EDRD 501:** Literacy and Curriculum Integration, PK-12. 3 credits.
Introduces PK-12 content area reading, writing, and language arts. Emphasizes integration of reading and other language arts across curriculum; instructional planning; needs of diverse learners. Field experience in public schools required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDRD 515:** Language and Literacy in Global Contexts. 3 credits.
Focuses on the relationship of language to reading and the connection between language structure and how we learn to read. Examines theories of language acquisition and the complexity of language development

**Schedule Type:**
and the reading process. Explores key factors that influence and enhance language learning and development. Introduces literacy instruction and assessment for all learners, and explores sociocultural perspectives on literacy. Offered by Graduate School of Education (p. 157). May not be repeated for credit. Equivalent to EDRD 525.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus. Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

EDRD 525: *Emergent Literacy for English Language Learners, PK-12.* 3 credits.

Provides an introduction to emergent reading/writing processes in first and second languages. Focuses on developing reading skills in five areas: phonemic awareness, phonics, fluency, vocabulary, and text comprehension. Offered by Graduate School of Education (p. 157). May not be repeated for credit. Equivalent to EDRD 515.

**Recommended Prerequisite:** EDCI 510, EDCI 516, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus. Enrollment is limited to Graduate, Non-Degree, Undergraduate or Washington Consortium level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

EDRD 597: *Special Topics in Education.* 1-6 credits.

Provides advanced study on selected topic or emerging issue in American or international education. Notes: May be repeated for credit with GSE permission. Offered by Graduate School of Education (p. 157). May be repeated within the degree.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus. Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

EDRD 610: *Content Literacy for English Language Learners, PK-12.* 3 credits.

Focuses on research-based instructional strategies for integrating development of English learners’ academic language and literacy skills with learning of content concepts across grade levels and disciplinary areas. Emphasizes sociocultural practices that leverage ELs’ social, cultural, linguistic, and knowledge capitals to strengthen academic achievement in content classrooms. Requires 20 hours of PK-12 classroom fieldwork. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** EDCI 519 and 520.

* May be taken concurrently.

B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

EDRD 619: *Literacy in Content Areas.* 3 credits.

Offers understanding of language and literacy process as it applies to teaching in secondary schools. Emphasizes reading and writing in content areas, and instructional strategies to support students’ literacy development. Focuses on ways reading, writing, speaking, and listening are developed and used in learning discipline-specific curriculum, including adaptations for culturally diverse and exceptional learners. Offered by Graduate School of Education (p. 157). May not be repeated for credit. Equivalent to EDRD 419.

**Registration Restrictions:**
**Required Prerequisites:** (EDCI 519, 667, 572 or 673).

* May be taken concurrently.

B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

EDRD 620: *Reading/Writing in Foreign/World Languages.* 3 credits.

Introduces reading and writing processes in foreign and second languages, research on reading comprehension, and effective teaching and assessment approaches for students in PK-12 schools. Topics include reading goals and standards for foreign language learning, sociocultural perspectives, multimedia computer-assistance, research on related strategies and skills, and performance-based assessments.
Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registered Restrictions:
Required Prerequisites: EDCI 520B, 560B, and 684B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDRD 629: Literacy Foundations and Instruction for School Psychologists. 3 credits.
Examines literacy theory, research, and practice as it relates to children in order for school psychologists to effectively work with teachers and families to improve students' literacy learning. Includes reading, writing, and oral communication. Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on literacy. Explores evidence-based strategies for reading instruction. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: Admission to school psychology program or permission of the literacy program coordinator

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDRD 630: Literacy Foundations and Instruction for Diverse Populations: Birth through Middle Childhood. 3 credits.
Study of literacy theory, research, and practice as it relates to younger learners. Includes teaching of reading to English Language Learners and language acquisition for diverse populations (Special Education students who access the general curriculum). Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on children's literacy. Includes reading, writing, and oral communication. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: Admission to the literacy emphasis, or permission of the program coordinator

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDRD 631: Literacy Foundations and Instruction for Diverse Populations: Adolescence Through Adulthood. 3 credits.
Study of literacy theory, research, and practice as it relates to adolescents and adults. Addresses sociocultural, cognitive, linguistic, psychological, and developmental influences on literacy. Includes reading, writing, and oral communication. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, admission to literacy emphasis or permission of the program coordinator

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDRD 632: Literacy Assessments and Interventions for Groups. 3 credits.
Provides literacy assessments and interventions for groups of learners. Includes exploration of assessment tools for classrooms and large populations. Class members conduct related practice in their own classrooms or specified field settings. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDRD 630 and 631; admission to literacy emphasis, or permission of the program coordinator

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDRD 633: Literacy Assessments and Interventions for Individuals. 3 credits.
Provides literacy assessments and interventions for individuals. Includes diagnosis and remediation for learners who find reading and writing difficult. Requires assigned practicum experience. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, 631, and 632; admission to literacy emphasis; or permission of program coordinator

Registration Corequisite: EDRD 637

Registration Restrictions:
EDRD 630: School-Based Leadership in Literacy. 3 credits. Prepares reading specialist as a school leader. Expands knowledge of literacy gained in prerequisite courses, and applies it to professional development work with teachers at their own site. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, 631, 632, 633, and 637; admission to the literacy emphasis or permission of the program coordinator.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

EDRD 631: School-Based Inquiry in Literacy. 3 credits. Capstone course in literacy emphasis focusing on research-based inquiry related to literacy in school settings. Includes review of literature and teacher inquiry project. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, 631, 632, 633, and 637; admission to literacy emphasis or permission of program coordinator.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

EDRD 632: Theory, Research, and Practice in Literacy: Birth through Middle Childhood. 3 credits. Explores emergent through intermediate literacy. Topics include literacy acquisition and development in academically and linguistically diverse young children; historical and current trends in theories of literacy development; cognitive, linguistic, sociocultural, and instructional influences on literacy development; and assessment. Implications for teacher education and policy are explored. Individual research projects

Recommended Corequisite: EDRD 630.

EDRD 633: School-Based Leadership in Literacy. 3 credits. Prepares reading specialist as a school leader. Expands knowledge of literacy gained in prerequisite courses, and applies it to professional development work with teachers at their own site. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDRD 630, 631, 632, 633, and 637; admission to the literacy emphasis or permission of the program coordinator.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)
will connect literacy to students' areas of interest. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Recommended Prerequisite:** EDUC 800 and EDRS 810.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDRD 831: Theory, Research, and Practice in Literacy: Early Adolescence through Young Adulthood.** 3 credits.
Explores youth culture and socio-historical constructions of adolescence; literacy in the lives of culturally and linguistically diverse learners; multimodal literacy; international literacy contexts; adolescent literacy policy and leadership; content area and disciplinary literacy; literacy needs of special learners; and adult literacy. Individual projects will connect adolescent literacy to students' areas of interests. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Recommended Prerequisite:** EDUC 800 and EDRS 810.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDRD 832: Research Methodologies and Trends in Literacy.** 3 credits.
Develops knowledge and skills in the application of research methodologies in literacy to current national and international trends. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Recommended Prerequisite:** EDUC 800, EDRS 810, permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Real Estate Development (REAL)**

**600 Level Courses**

**REAL 605: Policy and Planning of the Built Environment.** 3 credits.
This class takes a holistic approach to examining the complex environment in which all development occurs. Students will be introduced to the public policy, social considerations, and infrastructure involved in creating and supporting the built environment. Emphasis will be placed on evaluating what constitutes “good development” and how enacted public policies impact decision making at the individual project level and on the overall development of communities. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**REAL 615: Brokerage and Market Analysis.** 3 credits.
Students will learn how to analyze market data, evaluate sites in the context of the market, and work with brokerage professionals to maximize sales and/or leasing opportunities. The data component of the class will focus on using industry market analytics resources to identify and interpret trends in the real estate market life cycle. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**REAL 625: Financial Analysis and Valuation.** 3 credits.
Teaches key financial concepts necessary to evaluate real estate investment and development opportunities, such as: cash flow analysis, project financing options, and basic asset valuation. Various quantitative techniques for evaluating project returns, including pro forma modelling, will be presented with emphasis placed on understanding the time value of money and the relationships between money, time, and risk. Explores the risks and rewards of using financial leverage and the consequences of default. Considers the economic consequences of public-sector policy and regulation of the real estate and finance industries. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**REAL 635: The Development Process.** 3 credits.
Outlines the development process and the interrelated activities of the key disciplines involved. Introduces students to vocabulary and concepts from multiple industry sectors and teaches them how each respective sector can influence project outcomes. The role of the developer as a leader and coordinator of both the project and development team is stressed. Various product types are considered, including: office, multifamily, retail, and industrial properties. In their final project, students will make portfolio recommendations by analyzing different development scenarios and examining critical decisions at each project stage and the resulting impact on project costs and outcomes. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Real Estate Development.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Non-Degree Undergraduate degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

REAL 645: Law and Entitlements. 3 credits.
Provides students with a basic understanding of the relevant law and legal concepts involved in real estate development. Addresses legal issues through the life cycle of a real estate development, including: acquisition, entitlement, construction, leasing, and disposition. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: REAL 305C and 635C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Real Estate Development.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

REAL 655: Design and Construction. 3 credits.
Introduces the principles of site and building design and the basic technical aspects of construction. The design portion of the class includes both site and building layouts and challenges students to consider the relationship between design, function, and cost. The construction component features both horizontal and vertical construction challenges. Throughout the course, students will analyze how related decisions impact project costs/viability. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: REAL 605C and 635C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Real Estate Development.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

REAL 710: Real Estate Entrepreneurship. 3 credits.
Explores real estate development from an applied, entrepreneurial perspective. Emphasis is placed on understanding the unique challenges, risks, and opportunities faced by entrepreneurial developers as opposed to those operating in a larger, institutional context. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: REAL 615C and 625C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Real Estate Development.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

REAL 720: Real Estate Leadership and Project Management. 3 credits.
Focuses on the differences, similarities, and applications of both Leadership and Management in the context of the real estate industry. Students will study characteristics of industry leaders, both historical and contemporary, to assess different leadership styles and how to effectively manage organizations. Emphasis will be placed on different organization structures and organizational management theories including their applications, risks, effectiveness, and best practices. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

REAL 730: Financing Real Estate Projects. 3 credits.
Students will study the key drivers of successful real estate capital deals from the perspectives of both suppliers and users of funds. Emphasis will be placed on exploring the intricacies of financing alternatives, primary and secondary markets, and evaluating the impact of different financing scenarios on project returns. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: REAL 625C.
C Requires minimum grade of C.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
REAL 740: Real Estate Investments. 3 credits.
Focuses on the analysis of complex real estate investment opportunities with an emphasis on evaluating investment feasibility. Students will be provided with case study materials for actual commercial real estate offerings in the greater Washington, DC metropolitan area over the past decade. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: REAL 615C, 625C, 635C and 645C.
C Requires minimum grade of C.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

REAL 750: MSRED Capstone. 3 credits.
The Capstone Project will be the culmination of the master's program, offered at the end of the program. The course will combine the theoretical teachings from the program with real world, practical situations. Students will apply concepts learned to current development and construction projects in the Washington, D.C. metropolitan area. One of the sample cases involves the potential future uses of a plot of land in the metro area, a mixed-use high-density area that is slated to undergo significant transformation. The case will request project teams to explore the various options, employing a decision-tree approach to fully analyze the options, and examining the SWOT, local urban management policies, future valuation streams, and environmental impacts of each. A site visit will be required, as well as visits to various developers engaged in similar projects. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: REAL 605C, 615C, 625C, 635C, 645C and 655C.
C Requires minimum grade of C.

Enrollment is limited to students with a class of Graduate or Non-Degree.

Enrollment is limited to students with a major in Real Estate Development.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

REAL 790: Special Topics in Real Estate. 3 credits.
Explores contemporary issues and challenges in the management and development of real estate. Topics not covered in the regular real estate development offerings. Course may be repeated with change in topic. Offered by School of Business (p. 877). May be repeated within the term for a maximum 15 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Enrollment is limited to students with a major in Real Estate Development.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

REAL 796: Directed Reading. 1-6 credits.
Admission to the MSRED program or permission of the program director.
Offered by School of Business (p. 877). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Admission to the MSRED program or permission of the program director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Recreation (RECR)

100 Level Courses

RECR 100: Brazilian Jiu-Jitsu Intro. 1 credit.
Instructs students in self defense Brazilian Jiu-Jitsu techniques. Appropriate for students who have no prior experience in martial arts or Brazilian Jiu-Jitsu. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 101: Brazilian Jiu-Jitsu Intermediate. 1 credit.
Teaches students beginner-to-intermediate-level techniques in Brazilian Jiu-Jitsu. Focuses on specific defensive techniques to be used against an attacker along with escapes and submissions from a variety of different attacks. Requires participation in basic sparring with particular attention to safety and intensive training and conditioning routine. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: RECR 100.

Schedule Type: Activity-Based

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 102: Judo: Introduction. 1 credit.
Introduces basic body mechanics of throwing, sweeping, grappling, and submission skills used in Judo and for self-defense. Presents the history of Judo, rules of the sport and proper safety and falling techniques.
Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 103: Judo: Intermediate.** 1 credit.
Emphasizes the execution of proper skills and movements rather than the contact itself. Incorporates both offensive and defensive movements. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** RECR 102 or permission of instructor.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 104: Karate: Introduction.** 1 credit.
Emphasizes techniques, forms (kata), and sets (drills) from Karate, which combines art and science. Relates techniques with motion and principles and builds on the previous skills to create a web of knowledge. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 105: Karate: Intermediate.** 1 credit.
Reviews information and refines skills developed in the introductory class. Introduces new forms and techniques to increase skill performance at the next level. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** RECR 104.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 106: Krav Maga: Introduction.** 1 credit.
Introduces students to the principles and practice of Krav Maga, an Israeli system of self-protection. Involves knowledge of threat response, skill training in self-protection, and mental preparation for defensive tactics. Prepares students in appropriate protective action in situations of threat or attack. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 107: Krav Maga: Intermediate.** 1 credit.
Continues training in Krav Maga skills for experienced students. Explores multiple opponents, defending third parties, decision making skills, using & defending against weapons, and fight strategy. Notes: Students with injuries or pre-existing conditions that affect performance must inform the instructor. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** RECR 106.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 108: Self Defense: Introduction.** 1 credit.
Teaches beginner level of self-defense such as defensive techniques to be used against an attacker along with escapes and submissions from a variety of different attacks. Requires participation in basic sparring with particular attention to safety. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 109: Self Defense: Intermediate.** 1 credit.
Teaches more advanced defensive and offensive techniques, building on the student’s previous training. Emphasizes continuous improvement in physical and mental fitness. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** RECR 108.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 110: Tae Kwon Do: Introduction.** 1 credit.
Develop basic skills of Tae Kwon Do, a Korean martial art that predominantly emphasizes kicking. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 111: Tae Kwon Do: Intermediate.** 1 credit.
Develops intermediate-level skills of Tae Kwon Do, building on basic skills learned in the introduction course. Continues to focus on the student’s mental development, as well as physical training. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** RECR 110.
Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 112: Tae Kwon Do: Advanced. 1 credit.
Continues to enhance skills of Tae kwon do, focusing on the student’s mental development as well as physical training. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: RECR 111.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 113: Fencing. 1 credit.
Gives the beginning student basic knowledge of the sport of fencing and teaches the fundamental movements so students can fence at a novice level. Teaches basic officiating and etiquette of the sport. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 118: Aerobics/ Basic Conditioning. 1 credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 119: Fitness Walking. 1 credit.
Introduces students to cardiovascular exercise as it relates to a healthy lifestyle and improved quality of life. Covers design, implementation, and evaluation of a personal walking plan based on current fitness levels. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 120: Weight Training/ Body Conditioning. 1 credit.
Introduce students to fitness and healthy lifestyles. Provides students with an overview of the various types of weight training, with an emphasis on circuit weight training method. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 121: Backpacking: Introduction. 2 credits.
Introduces practical and experiential activities for students with starting knowledge of backpacking. Involves discussions, demonstrations, and activities that teach the basics of backpacking. Covers equipment selection, map and compass skills, backcountry cooking, staying healthy in the outdoors, safety and emergency procedures, backcountry ethics (Leave No Trace), and natural history. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 122: Exploring Outdoor Adventure. 2 credits.
Provides students an introduction to leadership theory and practice in planning outdoor adventure activities. Focuses on building skills necessary to engage in a wide range of individual outdoor adventure activities such as orienteering, geocaching, canoeing, rock climbing, and challenge course team building. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 123: Geocaching. 1 credit.
Introduces geocaching using a map, compass, and GPS to navigate to a location. Involves discussion, practical application, and research. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 3 credits.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 124: Horsemanship: Introduction. 1 credit.
Introduces the basics of horseback riding and horsemanship. Emphasizes how to care for a horse, tack a horse, and basic riding skills such as walking, trotting, and jumping small obstacles. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course
RECR 125: Horsemanship: Intermediate. 1 credit.
Builds the intermediate skills of horseback riding and horsemanship.
Emphasizes technical riding and advancing basic horseback riding skills (e.g. figure S’s, serpentines, and change of direction). Focuses on how equitation affects the horse and horse behavior affects riding and safety. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: RECR 124.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 129: Mountain Biking. 2 credits.
Provides students with the fundamentals of mountain biking through skills aimed to master techniques in descending and ascending hills, negotiating obstacles, and stopping. Skills in maintaining a bike and appreciation of terrain, navigation, and safety will also be covered. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 130: Introduction to Marksmanship. 1 credit.
Orients users of air powered rifles and pistols in firearm safety during international level target shooting and other competitive marksmanship. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 131: Downhill Skiing. 1 credit.
Teaches and refines basic skills and techniques of downhill skiing including becoming familiar with use of ski equipment, terminology, and safety rules. Includes lecture and field experience to improve downhill skiing skills. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 132: Snowboarding. 1 credit.
Teaches and refines basic skills and techniques of snowboarding; includes becoming familiar with use of equipment, terminology, and safety rules. Includes lecture and field experience to improve snowboarding skills. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 133: Indoor Rock Climbing: Intro. 1 credit.
Introduces equipment, techniques, safety, and planning related to basic rock climbing. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 134: Rock Climbing: Introduction. 2 credits.
Teaches basic climbing terms, techniques, equipment, and safety practices for top rope belay climbing and rappelling. Builds on communication skills and trust. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 136: Pistol Marksmanship. 1 credit.
Introduces students to marksmanship skills in Olympic sport and target shooting. Increases students’ knowledge of shooting safety, position shooting, equipment care and maintenance, and shooting sports competition methods and techniques. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 137: Trap and Skeet Shooting: Intro. 2 credits.
Designed to educate the student on gun and range safety. Includes hands-on learning of the games trap and skeet, where competitors fire at clay targets (approximately 4 1/4 inches in diameter and 1 1/2 inches in height) launched from a trap at varying angles. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 138: Trap and Skeet Shooting: Intermediate. 2 credits.
Increases the skill competencies in trap shooting. Includes hands-on learning of the different trap games (16-yard, handicap, doubles, and Olympic trap shoot on a wobble trap) where competitors fire at clay targets (approximately 4 ◆ inches in diameter and 1 ◆ inches in height) launched from a trap at varying angles. Emphasizes gun and range
safety. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** RECR 137 or permission of instructor.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 139:** Archery: Introduction. 1 credit.
Introduces students to competitive archery. Provides instruction for shooting safety, proper form and technique, equipment maintenance, and rules for competing in Olympic style FITA tournaments. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 140:** Rifle Marksmanship. 1 credit.
Introduces students to marksmanship skills in Olympic style small bore competition target shooting. Increases students’ knowledge of firearm safety, international target shooting styles, equipment care and maintenance, and shooting sports competition methods and techniques for rifle target shooting. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 141:** Basketball: Introduction. 1 credit.
Introduces the basic elements of basketball, including dribbling, passing, shooting, tactics, and strategy. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 143:** Soccer: Introduction. 1 credit.
Introduces the basic elements of soccer including dribbling, kicking, passing, trapping, tactics, and strategy. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 144:** Soccer: Intermediate. 1 credit.
Prepares the experienced soccer player in the aspects of the competitive game. Applies skills-training to competitive and recreational play. Covers

**strategies of offense and defense and variation of different systems of play. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.**

**Recommended Prerequisite:** RECR 143.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 145:** Volleyball: Introduction. 1 credit.
Introduces students to fundamental knowledge and basic skills of volleyball. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 151:** Badminton: Introduction. 1 credit.
Introduces the fundamental skills, rules, and strategies of badminton. Covers basic techniques and etiquette of both singles and double play. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 153:** Racquetball: Introduction. 1 credit.
Introduces basic racquetball terms, rules, scoring, safety, and techniques for the forehand, backhand, overhead, and serve, as well as singles and doubles strategies. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 154:** Racquetball: Intermediate. 1 credit.
Teaches intermediate skills, including ceiling shots, kill shots, passing shots, back wall strokes, advanced serves, court positions, and tactics and strategies for singles and doubles. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** RECR 153 or permission of instructor.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

**RECR 155:** Volleyball: Intermediate. 1 credit.
Teaches intermediate skills, including ceiling shots, kill shots, passing shots, back wall strokes, advanced serves, court positions, and tactics and strategies for singles and doubles. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** RECR 154.

**Schedule Type:** Activity-Based

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course
RECR 155: Tennis: Introduction. 1 credit.
Teaches tennis terms, rules, scoring, techniques for the forehand and backhand ground strokes, volley, overhead, and serve, as well as basic strategy for singles and doubles. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 156: Tennis: Intermediate. 1 credit.
Prepares experienced tennis player in advanced skills: point play, control of pace, direction, and depth of forehand and backhand, ground strokes, and topspin and underspin. Instructs tactical use of volley, styles of play, and strategies for singles and doubles. Introduces principles to refereeing. Applies skills-training to competitive and recreational play. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: RECR 155.
Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 161: Scuba Diving: Basic. 2 credits.
Provides training toward certification as an open water SCUBA diver. Emphasizes snorkeling (free diving introduction) and SCUBA skills. Covers safe diving skills, the physics of diving, equipment care and maintenance, diving fitness, underwater navigation, record keeping, and other basic SCUBA knowledge. Qualifies students for open water certification by Scuba Schools International (SSI). Requires strong swimming skills, high comfort level under water and physical and mental conditioning compatible with SCUBA industry diving safety standards. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 162: Swimming: Intermediate. 1 credit.
Builds on basic-level swimming skills by providing practice for confidence, refinement of coordination, and improvement of other aquatic skills. Presents more advanced swimming strokes and focuses on physical conditioning and aquatic safety. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: RECR 162.
Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 169: Golf: Introduction. 1 credit.
Teaches basic golf terms, rules, and techniques for the full swing, putting, chipping, and pitching, as well as playing on a golf course. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 170: Golf: Intermediate. 1 credit.
Designed for students with basic golf knowledge and skills. Includes course strategies, course management, the proper use of the rules, club selection, speed of play, skill building, and different golf formats. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: RECR 169.
Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 171: Latin Dance. 1 credit.
Provides knowledge base of dance fundamentals and skill development in various Latin dances and will include basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing. Introduces dances which may include but not restricted to Merengue, Mambo, Samba, Salsa, and Bachata. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 172: Social Dance. 1 credit.
Provides a knowledge base of dance fundamentals and skill development in various ballroom dances and includes basic rhythms, dance positions, floor alignments, techniques of leading and following, and maintenance of dance frame in partner dancing. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.
Additional Course Details: Physical Activity Course

RECR 173: Social Dance II. 1 credit.
Provides an introduction to the tango and additional patterns for popular social dance that may include the fox trot, waltz, cha-cha, rumba, and Eastern swing. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 181: Meditation: Introduction. 1 credit.
Introduces students to philosophical foundations of meditation. Guides in the practice of meditation and its application to daily mental focus and concentration. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 182: Pilates: Introduction. 1 credit.
Provides the history and basic foundations of Pilates including an introduction to beginning Pilates exercises and their proper execution; exploration of modifications for certain exercises and the various props which may be used in the group class setting. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 183: Pilates: Intermediate. 1 credit.
Provides students with advanced knowledge and skills in Pilates techniques and exercises. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: RECR 182.

Schedule Type: Activity-Based
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 184: Tai Chi: Introduction. 1 credit.
Increase awareness of the mind and body. Introduces basic principles of Chi (energy) and Yin Yang (polarity) and how they apply to the body through practicing the Tai Chi movements. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 185: Tai Chi: Intermediate. 1 credit.
Teaches Tai Chi Weapon (Tai Chi Straight Sword), as well as basic principles of Tai Chi. Increases awareness of the mind and body. Indicate number. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: RECR 184.

Schedule Type: Activity-Based
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 186: Yoga: Introduction. 1 credit.
Introduces students to the practice of Hatha yoga. Emphasizes yoga asanas (postures) and pranayama (breathing exercises) to enhance physical fitness and mental concentration. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Activity-Based
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Physical Activity Course

RECR 187: Yoga: Intermediate. 1 credit.
Emphasizes mastery of yoga asanas (postures) and pranayama (breathing techniques) to enhance physical fitness and mental concentration. Focuses on 10 new yoga poses and practice of the complete Sun Salutation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: RECR 186.

Schedule Type: Activity-Based
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Physical Activity Course

## Rehabilitation Science (RHBS)

### 200 Level Courses

**RHBS 201: Introduction to Rehabilitation Science.** 3 credits.
Introduces the field of rehabilitation science. Surveys various topics within rehabilitation science including development of the field, models of disablement-enablement, facilitators and barriers to enablement across the lifespan. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 270: Applied Human Anatomy and Physiology I.** 4 credits.
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on musculoskeletal, nervous, cardiovascular, respiratory and integumentary systems. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Schedule Type:** Laboratory, Lecture

**Recommended Prerequisite:** RHBS 270.

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 271: Applied Human Anatomy and Physiology II.** 4 credits.
Develops a comprehensive understanding of the interrelationships of anatomy and physiology as observed in the human organism, and introduces application of knowledge to health, disease and dysfunction. Emphasis on digestive, endocrine, lymphatic, genitourinary, and reproductive systems. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Schedule Type:** Laboratory, Lecture

**Recommended Prerequisite:** RHBS 270.

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 300 Level Courses

**RHBS 340: Health, Disease and Dysfunction.** 3 credits.
Focuses on basic epidemiology, health promotion and disease prevention, as well as impairments in normal function of the individual resulting in disease and dysfunction. Exploration of the individual and societal impact of health and disease. Introduces current rehabilitation and intervention strategies as well as classification of disease and disability. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 345: Applied Biomechanics in Rehabilitation.** 3 credits.
Introduces basic concepts and principles of biomechanics in the study and analysis of functional human movement. Discusses the biomechanical principles as applied in both healthy and clinical populations. Develops an understanding of the scientific and clinical applications of biomechanics to rehabilitation interventions. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** College level physics or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 350: Clinical Physiology and Human Performance.** 3 credits.
Investigates the study of human physiology and how it relates to physical activity, health, and functional ability. Specifically, examines the metabolic, locomotive, endocrine, cardiovascular, and pulmonary responses to physical activity and their contributions and limitations to human performance. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** College-level chemistry or permission of instructor or department chair.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 375: Gait and Functional Movement Analysis.** 3 credits.
Analyzes human gait and common structural impairments associated with functional performance. Provides the fundamental terminology, techniques, and data interpretation methods used in gait analysis and assessing human physical function. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** RHBS 270 and RHBS 271 or similar courses in human anatomy and physiology.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 380: Neural Basis of Movement.** 3 credits.
Introduces major topics in sensory and motor neurophysiology as they relate to motor control and motor learning. Includes organization of sensory and motor systems, neural mechanisms of learning and memory, and current neurophysiological testing techniques. Special emphasis is placed on the implications for motor impairment and recovery following nervous system disease or injury. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** RHBS 270 and RHBS 271 or equivalent anatomy and physiology course.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 390: Clinical Assessment of Functional Capacity.** 3 credits.
Examines the scientific basis and theory for exercise assessments in healthy persons and those with chronic disease and disability. Covers cardiorespiratory fitness measurements, cardiac function, body
composition, muscular strength and endurance. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate course in anatomy and physiology or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

**RHBS 410: Physical Activity and Public Health.** 3 credits.
Investigates the basic principles and concepts of epidemiology and the influence of exercise and physical activity on the most common risk factors for prevalent chronic diseases in the United States of America. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 415: Clinical Movement Science I.** 3 credits.
Describes how the human nervous and musculoskeletal systems work together to move the human body, with special emphasis on movement disorders and disabilities. Topics include movement and motion principles, muscle force production, physiology, and adaptation, along with the measurement of muscle activity, body movements, and body forces. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** College-level physics or permission of instructor or department chair.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 416: Clinical Movement Science II.** 3 credits.
Describes how the human nervous and musculoskeletal systems work together to move the human body, with a special emphasis on movement disorders and disabilities. Topics include movement control, adaptation, and learning; experimental and clinical assessment of body movements and forces, treatment of abnormal movement, and rehabilitation technologies. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** RHBS 415 or permission of instructor or department chair.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 418: Exercise Endocrinology.** 3 credits.
Explores the role of the endocrine system in the coordination and regulation of the body's internal environment under acute and chronic exercise conditions. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** RHBS 270 and RHBS 271 or similar course in human anatomy and physiology.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 420: Adult Health and Function.** 3 credits.
Approaches the study of function and normal development, how it is attained and how it is optimized with a multi-systems viewpoint. Focuses on the components of functional movement. Addresses strategies for assessing, promoting and maintaining functional independence. Highlights current treatment approaches of disease and dysfunction. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 430: Advanced Functional Clinical Assessments.** 3 credits.
Examines the theory behind functional assessments used in those with chronic diseases and/or disability. Current measures used to assess function in clinical populations will be performed and discussed. Established clinical and research measures will also be examined and conducted. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** RHBS 390C.
**C** Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 450: Psychosocial Adaptation in Rehabilitation.** 3 credits.
Examines the psychosocial impacts of rehabilitation and disability. Provides a disability perspective from the individual and society and explores the interaction between them. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** Completed RHBS 201 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RHBS 455: Research in Rehabilitation Science.** 3 credits.
Describes central principles of scientific method and ethical and regulatory responsibilities of rehabilitation science researchers. Explores application of scientific method in basic, interventional, clinical and translational research. Develops ability to read literature critically and make appropriate scientific inferences. Introduces basics of grant writing. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** STAT 250 or equivalent.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
RHBS 489: Introduction to Clinical Research. 1 credit.
Provides students with a basic understanding of what clinical research is and the scientific principles on which it is based. Starts with a historical perspective on clinical research and then goes on to explore the following topics: purpose of clinical research, ethical and regulatory implications of clinical research, and the roles and responsibilities of all parties involved in clinical research. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Recommended Prerequisite: Course is open to honors college students only or by permission of instructor.

Schedule Type: Seminar
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

RHBS 490: RS: Clinical Research Internship. 3 credits.
Practical experience in a clinical research setting under the direction of a mentor. Each student is required to work with an experienced clinical investigator who agrees to provide the trainee mentorship. Clinical research embraces a spectrum of scientific disciplines that use a variety of study methods. Therefore, the multidisciplinary approach to clinical research is emphasized during didactic interactions. Note: In addition, an application must be submitted in the semester prior to enrollment in the course. During the semester prior to entry, students may be asked to acquire certain competencies/certifications in order to fully participate at their research site (for example, human subjects research protections training, lab safety certification, HIPAA training). Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive
Recommended Prerequisite: Course is open to honors college students only.
Schedule Type: Internship
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

RHBS 491: Directed Research. 1-3 credits.
Engages students in a directed research project under the guidance of a faculty member. Offered by Rehabilitation Science (p. 268). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Permission of the instructor.
Schedule Type: Independent Study
Grading: This course is graded on the Satisfactory/No Credit scale. (p. 82)

RHBS 499: Senior Capstone in Rehabilitation Science. 3 credits.
Combines the student’s academic training and professional experiences in order either to develop a community-based activity, intervention, program, or product designed to impact the overall health or performance of the target group or population or to complete an independent research project. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Mason Core: Capstone (p. 137)
Specialized Designation: Writing Intensive in the Major

Schedule Type: Seminar
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

600 Level Courses
RHBS 606: Clinical Exercise Physiology. 3 credits.
Examines acute and chronic alterations and adaptations associated with exercise and training. Covers role of exercise therapy in preventing and rehabilitating from disease across lifespan. Particular emphasis on role of exercise therapy in cardiorespiratory, musculoskeletal, and metabolic diseases. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading: This course is graded on the Graduate Regular scale. (p. 82)

RHBS 620: Psychosocial Aspects of Rehabilitation. 3 credits.
Explores social and psychological impacts of disability. Processes by which people with disabilities adapt to limitations will be examined, as well as how society has in promoting independence/dependence among people with disabilities. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading: This course is graded on the Graduate Regular scale. (p. 82)

RHBS 650: Foundations of Rehabilitation Science. 3 credits.
Examines the field of rehabilitation science with emphasis on the core theories and models of this emerging discipline. Surveys various topics within rehabilitation science including the history and development of the field, assistive technologies, pathology and impairment research, functional limitations research, disability research, translational research, and ethical considerations in clinical and research settings. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**RHBS 651: Research Design and Methods I.** 3 credits.
Explores quantitative and qualitative research methods, principles and techniques necessary for implementation of health science research. Offered by Rehabilitation Science (p. 268). May not be repeated for credit. Equivalent to GCH 651.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**RHBS 652: Research Design and Methods II.** 3 credits.
Explores advanced experimental and quasi-experimental research methods frequently utilized in rehabilitation research. Develop theoretical and practical knowledge necessary to conduct independent research. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** RHBS 651 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**RHBS 680: Behavior Change in Chronic Illness.** 3 credits.
Explores behavior change as related to chronic illness, especially diabetes/obesity, cardiovascular and cerebrovascular disease, and arthritis. Topics include behavior change theories; research approaches to studying behavior change; influence of personal factors, patient-provider communication/relationships, and social support on behavior change; and adherence to prescribed regimens. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**RHBS 700 Level Courses**

**RHBS 702: Biobehavioral Aspects of Health.** 3 credits.
Examines the biological, psychological, and social factors that interact with and affect efforts people make in promoting good health and preventing illness and the recovery, rehabilitation, and psychosocial adjustment of patients with serious health problems. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** GCH 601 or equivalent, or a graduate-level research methods course.

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**RHBS 706: Clinical Assessment of Fatigability.** 3 credits.
Reviews the scientific literature describing the theories of fatigue and fatigability. Assessments and methodologies used to evaluate fatigue and fatigability will be performed. Students will apply the theories of fatigue to further their understanding of specific clinical problems. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

**Recommended Prerequisite:** Enrolled in RHBS program, or with permission of the course instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
RHBS 710: Applied Physiology I. 3 credits.
Examines the primary bio-regulatory and communication systems. A detailed study of physiology for graduate students interested in health and human movement, chronic illness, and disability. Covers energy metabolism, endocrine, immune, neurological, and muscular systems. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

RHBS 711: Applied Physiology II. 3 credits.
Explores general systemic function. A detailed study of physiology for graduate students interested in health and human movement, chronic illness, and disability. Covers cardiovascular, pulmonary, gastrointestinal, renal, and reproductive systems. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Recommended Prerequisite: RHBS 710.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

RHBS 720: Principles of Clinical Trials. 3 credits.
Provides a practical overview of the fundamental principles of clinical trial design and management, ethical and regulatory factors in the conduct of clinical trials, and their role in clinical practice, public health and decision making. Topics include clinical trial design, biostatistics, ethics and regulatory affairs, study management and oversight, and current concepts. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Recommended Prerequisite: Graduate level statistics/methods

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

RHBS 740: Applied Physiology: Cardiorespiratory. 3 credits.
Rigorous, evidence-based study of biological factors and medial conditions that limit oxidative metabolic function. Emphasis on examining current hypotheses of physical activity limitations in chronic illness and disability. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Recommended Prerequisite: RHBS 506 or EFHP 610 or RHBS 710 or other graduate physiology course, plus one of the following: two-semester course sequence in anatomy and physiology (100 level or above) or one course in animal or comparative physiology (300 level or above) or one course in human physiology (300 level or above).

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

RHBS 745: Metabolic Basis of Disability. 3 credits.
Examines anatomy and physiology of organs and systems involved in regulating metabolism; assesses relationships among hormonal and central nervous system regulation in the production and regulation of energy. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Recommended Prerequisite: RHBS 710

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

RHBS 746: Movement Control and Learning. 3 credits.
Rigorous, evidence-based study of biological factors and medial conditions that limit oxidative metabolic function. Emphasis on examining current hypotheses of physical activity limitations in chronic illness and disability. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Recommended Prerequisite: RHBS 506 or EFHP 610 or RHBS 710 or other graduate physiology course, plus one of the following: two-semester course sequence in anatomy and physiology (100 level or above) or one course in animal or comparative physiology (300 level or above) or one course in human physiology (300 level or above).

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

RHBS 750: Physiology of Clinical Exercise Interventions. 3 credits.
Critiques current knowledge of exercise prescription in both healthy and clinical populations. Examines physiological effects of exercise interventions, with emphasis on chronic disease and disability. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Recommended Prerequisite: RHBS 606.

Registration Restrictions: Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

RHBS 754: Movement Disorders: Etiology, Assessment, and Analyses. 3 credits.
Applies concepts of neuromechanics to the assessment and analysis of normal and pathological movement using both existing clinical assessments and laboratory-based measures of body kinematics, kinetics, muscle activity, and perception/cognition interactions with movement. Discusses benefits and limitations of assessment and analysis techniques as well as current research with regard to advancing these techniques. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Recommended Prerequisite: RHBS 746.

Registration Restrictions: Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

RHBS 772: Applied Biomechanics in Rehabilitation. 3 credits.
Describes concepts and principles of biomechanics for the study and analysis of functional human movement within the scope of rehabilitation science. Describes the biomechanical principles as applied in both healthy and clinical populations. Develops an understanding of the scientific and clinical applications of biomechanics to rehabilitation interventions. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

RHBS 776: Movement Analysis of Function. 3 credits.
Applies biomechanical principles to record and analyze functional activities, including walking, sit-stand, and reaching. Focuses on data acquisition, processing, and compiling of kinematic and kinetic data including motion capture, center of pressure, and electromyography. Evaluates movement from a joint, total body, and muscular perspective related to performance. Addresses how age and injuries affect functional performance. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale. (p. 82)

RHBS 816: Rehabilitation Efficacy and Effectiveness Research. 3 credits.
Examines the theory and methods of comparative effectiveness studies and their relationship to developing Rehabilitation Science and other disciplines to effect better clinical practice by identifying benefits/harms of prevention and treatment and explores the implications of evidence for comparative effectiveness in developing health care policy. Offered by Rehabilitation Science (p. 268). May not be repeated for credit.

Registration Restrictions: Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

RHBS 850: Teaching Practicum. 3 credits.
Prepares students for teaching role as an academic through direct teaching experiences in undergraduate courses in Rehabilitation Science under the supervision of a graduate faculty member, including syllabus development, lecture preparation, presentation skills, grading, and course evaluation. Offered by Rehabilitation Science (p. 268). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions: Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading: This course is graded on the Satisfactory/No Credit scale. (p. 82)
RHBS 894: Special Topics in Rehabilitation Science. 3 credits. In-depth study of contemporary topics in Rehabilitation Science. Course topics vary each semester. Notes: Students may take up to 9 credits of RHBS 894 with permission of program director. Offered by Rehabilitation Science (p. 268). May be repeated within the term for a maximum 9 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

900 Level Courses
RHBS 940: Independent Study. 1-6 credits. In-depth study of selected area of rehabilitation science under the direction of faculty. Offered by Rehabilitation Science (p. 268). May be repeated within the degree for a maximum 24 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Schedule Type: Independent Study
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

RHBS 960: Directed Research. 1-6 credits. Research on a pertinent topic in rehabilitation science. Must be arranged with instructor before registering. Offered by Rehabilitation Science (p. 268). May be repeated within the term for a maximum 24 credits.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Schedule Type: Independent Study
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

RHBS 998: Doctoral Dissertation Proposal. 1-9 credits. Work on research proposal that forms basis for doctoral dissertation. Offered by Rehabilitation Science (p. 268). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Advancement to PhD candidacy.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Rehabilitation Science.

Schedule Type: Dissertation
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

RHBS 999: Dissertation Research. 1-9 credits. Dissertation research on a specific topic under the direction of a faculty member. Offered by Rehabilitation Science (p. 268). May be repeated within the degree for a maximum 24 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Schedule Type: Dissertation
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Religious Studies (RELI)

100 Level Courses
RELI 100: The Human Religious Experience. 3 credits. Examines main forms of religious expression as embodied in several important religious traditions in contemporary world. Investigates religious experience; myth and ritual; teachings and scripture; ethical, social, and artistic aspects of religion; and nature and function of religion in human society. Offered by Religious Studies (p. 485). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses
RELI 211: Religions of the West. 3 credits. Focuses on Judaism, Christianity, and Islam from historical, comparative, and cross-cultural perspectives. May also include modern developments of those faiths such as Mormonism and Baha‘ism, as well as Zoroastrianism and religions of ancient Near Eastern cultures. Offered by Religious Studies (p. 485). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 212: Religions of Asia. 3 credits. Surveys religions of India, Hinduism, Jainism, Sikhism, Buddhism, and the religions of the Far East, China, and Japan, including Daoism, Confucianism, Shinto, from origins to present. Offered by Religious Studies (p. 485). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 235: Religion and Literature. 3 credits.
Explores the relationship between religion and literature in different times and cultures, the influence of religion on literary works, and how literature expresses major religious themes such as death and immortality, divine will and justice, suffering and human destiny, and religion and state. Offered by Religious Studies (p. 485). May not be repeated for credit.

Mason Core: Literature (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 240: Death and the Afterlife in World Religions. 3 credits.
Explores how selected world religions address the universal experience of death and express their beliefs in an afterlife. Focuses on the scriptures, beliefs, rituals and customs of selected world religions as they reflect each tradition’s response to the most basic question about human destiny - how human beings face death and attempt to transcend it. Offered by Religious Studies (p. 485). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 272: Islam. 3 credits.
Introduces basic religious beliefs and practices of Islam, with view to diverse manifestations of Islamic culture in different ethnic and social contexts. Provides overview of essential rituals of Islamic life, mystical practices of Sufis, certain popular forms of religious practice, sources and application of Islamic law, and distinctive Islamic artistic and literary forms. Offered by Religious Studies (p. 485). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 315: Buddhism. 3 credits.
Surveys Buddhist religious traditions. Includes historical development of Buddhism in India, China, and Japan, examining both Theravada and Mahayana traditions; philosophical and religious significance of Buddhism; and social and political implications of Buddhist traditions in South Asian and East Asian countries. Offered by Religious Studies (p. 485). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 314: Chinese Philosophies and Religious Traditions. 3 credits.
Surveys major religious traditions and philosophical themes of China including Confucianism, Taoism, and Chinese Buddhism and Neo-Confucianism. Examines foundation of Chinese world view and spirituality by investigating diverse religious traditions that have created tensions and harmony among them. Offered by Religious Studies (p. 485). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: RELI 212 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 316: Modern Christian Thought. 3 credits.
Examines influential Christian thinkers and Christian intellectual trends of the modern period, from the Enlightenment through the present. Offered by Religious Studies (p. 485). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 317: Daoism. 3 credits.
Explores philosophical ideas, spiritual orientation, religious practice, and social and political values in Daoist tradition reading classic Daoist texts including Dao De Jing, Chuang-tzu, and other sources. Discusses Daoism in light of comparative and cross-cultural studies for global understanding of issues on concepts of nature, human nature, and good and evil. Offered by Religious Studies (p. 485). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 320: Religion and Revolution in Latin America. 3 credits.
Explores the intersection between Christian and revolutionary thought, such as Marxism and existentialism, in Latin America after the 1960s that formed liberation theology. Emphasis on historical, philosophical and interdisciplinary issues. Offered by Religious Studies (p. 485). May not be repeated for credit.
Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 322: Religions of Africa. 3 credits.
Explores traditional religious practices and world views in Africa south of the Sahara, the spread of African religions to the Caribbean and the Americas, the forms that religions imported or imposed from the north have taken in Africa south of the Sahara, and the interaction among the religious cultures of Africa, European Christianity and Islam. Offered by Religious Studies (p. 485). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 330: Religion, Fantasy and Imagination. 3 credits.
Explores the worlds of religion, fantasy and imagination, presented in selected writings of 20th century fantasy authors, including Lewis, Tolkien, Pullman, Rowling. Covers ideas of quest for enlightenment, redemption or salvation, conflict between good and evil, worlds of the supernatural, parallel dimensions and their inhabitants. Offered by Religious Studies (p. 485). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 331: Religion in America. 3 credits.
Religious heritage in American culture, growth of denominations and sects, and interrelationship of religion and sociopolitical life. Offered by Religious Studies (p. 485). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 332: Mormonism. 3 credits.
Examines the origins and development of Mormonism, as embodied in the Church of Jesus Christ of Latter-day Saints and other related churches. Introduces students to a critical analysis of Latter-day Saint scriptures, rituals, and history. Offered by Religious Studies (p. 485). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 333: Spiritual Autobiography. 3 credits.
Investigates the genre of autobiography as employed by religious authors, both classical and modern. Introduces students to personal, historical, and religious doctrinal contexts that shape the autobiographical literature. Offered by Religious Studies (p. 485). May not be repeated for credit.

Mason Core: Literature (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 337: Mysticism: East and West. 3 credits.
Comparative treatment of major expressions of mysticism in East and West through exploration of various ways of understanding mystical experience. Readings and discussion emphasize one or more of the Eastern (Hinduism, Buddhism, Taoism, Zen) and Western (Judaism, Christianity, Islam) traditions. Offered by Religious Studies (p. 485). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 341: Global Perspectives on Spirituality and Healing. 3 credits.
Cross-cultural investigation of human understandings of relationship between spirituality and health. Beliefs about spiritual causes of sickness and health and spiritual techniques of healing in variety of world cultures placed in context of religious beliefs of those cultures. Offered by Religious Studies (p. 485). May not be repeated for credit.

Recommended Prerequisite: 30 credits or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 350: Religion and History of Ancient Israel. 3 credits.
Examines religion and history of ancient Israel from origins around 1250 BCE to Babylonian Exile in 587 BCE. Topics include debate on historical value of biblical narratives, extra-biblical texts mentioning Israel, move from polytheism to monotheism, archaeology and artifacts, and development of Israel's unique religious and historical self-understanding. Offered by Religious Studies (p. 485). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 352: Judaism from Exile to Talmud. 3 credits.
Examines Jewish religion, history, and literature from the Babylonian Exile to third century C.E. Special attention to development of Hebrew Bible, Apocalyptic and Apocryphal literature, belief in resurrection and final judgment, Dead Sea Scrolls, Jewish sects, and emergence of Christianity and Rabbinic Judaism. Offered by Religious Studies (p. 485). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RELI 353: Jewish Political Tradition. 3 credits.
Explores Jewish thinkers' attitudes towards politics and state. Topics include traditional sources, theological and political crisis of modern
times, liberal Jewish thought, Zionist ideology, Israel as a separate state, relationship between religion and politics in modern Israel. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Recommended Prerequisite:** RELI 211, 251 or 252, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 355: Sufism.** 3 credits.
Examines the tradition of Islamic mysticism, Sufism, through an exploration of the literature produced by Sufis themselves. Provides general introduction to Sufism and its spiritual perspective and investigates various genres of Sufi literature, including hagiography, symbolic scriptural exegesis, spiritual autobiography, didactic allegory and love poetry. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 356: Jesus and the Gospels.** 3 credits.
Examines Gospel accounts of Jesus in context of first-century Christianity. Applies variety of historical and literary methods to gain understanding of Jesus and history and theology of early church. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 357: Gender and the Body in Judaism.** 3 credits.
Explores distinctively Jewish approaches to questions of gender, sexuality, and the body as described in the legal, religious, ethical, and literary material in the Jewish tradition. Topics include the "body of God," circumcision, laws of purity, rites of passage, the synagogue, feminist theology, and masculine and feminine stereotypes. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 360: Religion and Politics.** 3 credits.
Explores the roles of religion in contemporary political life in the United States and abroad. Emphasizes religion in current political debates. Includes history, political theory, sociology, and theology to present a comprehensive understanding of the topic. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 361: Evangelical America.** 3 credits.
Introduces the intellectual and social sources of evangelical Protestant traditions in the United States. Examines varieties of evangelical beliefs and practices. Surveying a range of themes, including science, sexuality, politics, and environmentalism, students examine how evangelicals have defined themselves in opposition to secular society but also have engaged the secular in an effort to convert souls, manage personal behavior, and transform American society in their image of Christian community. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 362: Religion and Film.** 3 credits.
Surveys representations of religious beliefs, practices, persons, and institutions in popular film. Focuses on the media consumption of box office movies in the United States. Examines how religion is imaged in film and how that religious imagination relates to social constructions of national, ethnic, racial, gender, and sexual identities. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 363: Catholicism.** 3 credits.
Focuses on the beliefs of the over one billion Roman Catholics in today's world. Probes the history, doctrine, symbols, rituals, practices, and material culture of the world's largest church. Considers Catholicism's dialog with secularism and discusses controversies and challenges facing the church today. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Recommended Prerequisite:** 3 credits in religious studies or philosophy or permission of instructor

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 364: Religion and Law in the United States.** 3 credits.
Explores issues relating to law and religion. Focuses on the legal doctrines that have arisen in cases under the Establishment and Free Exercise Clauses of the First Amendment. Topics include religion and public schools, government aid to religious institutions, including school vouchers, government endorsement of religious symbols, freedom of religious expression, and freedom of religious practice. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 365: Muhammad: Life and Legacy.** 3 credits.
Examines life and character of the founder of Islam, as remembered and understood by Muslims, as well as explores influence of his paradigmatic life and teachings on Islamic religious discourse and culture. Addresses Western critical studies of the accounts of Muhammad's life and contemporary controversies regarding Muhammad. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Specialized Designation:** Non-Western Culture
REL 370: Judaism. 3 credits.
Studies Judaism from origins to present. Includes origins of Judaism B.C.E.; Rabbinic Judaism; Jews in the Middle Ages; Hasidic and Mystical Judaism; Enlightenment; persecution and Holocaust; contemporary American Judaism; and Jewish, Christian, and Muslim relations. Offered by Religious Studies (p. 485). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

REL 372: American Judaism. 3 credits.
Surveys Jewish religious life focusing on various types of American Judaism such as orthodox, conservative, reform, reconstructionist, as they have developed historically and continue to evolve. Emphasizes issues and challenges facing contemporary Judaism. Offered by Religious Studies (p. 485). May not be repeated for credit.

Recommended Prerequisite: 3 credits in RELI or PHIL or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

REL 374: Islamic Thought. 3 credits.
Examines Islamic views on fundamental issues in religious thought, such as nature of God, nature of man, and relationship between God and man as reflected in both divine revelation and human religious vocation. Investigates intellectual approaches to these problems within Islamic tradition, including those of theological, philosophical, and mystical thinkers. Offered by Religious Studies (p. 485). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)
Specialized Designation: Non-Western Culture

Recommended Prerequisite: RELI 211, 3 credits in religious studies, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

REL 375: Qur’an and Hadith. 3 credits.
Explores two primary sources of Islamic belief and practice: Qur’an and Hadith. Discusses thematic structure and literary quality, and examines theological and moral issues. Also introduces various methods of interpretation and critical analysis applied to texts in both Islamic and Western scholarship. Lecture and discussion. Offered by Religious Studies (p. 485). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Recommended Prerequisite: 3 credits in philosophy and religious studies, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

REL 376: Special Topics in Religious Thought. 3 credits.
Selected topics from a philosophical perspective. Offered by Religious Studies (p. 485). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: 3 hours of Religious Studies or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

REL 379: Islamic Law, Society, and Ethics. 3 credits.
Examines the historical development and application of Islamic law, its role in Muslim societies, and its relationship to Islamic social ideals and ethical discourse. Offered by Religious Studies (p. 485). May not be repeated for credit.

Specialized Designation: Non-Western Culture

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

REL 381: Beginnings of Christianity. 3 credits.
Examines early Christian church from time of Jesus to 700 C.E. Covers internal development of Christianity as it formed official doctrines and institutions, and external relations of Christians with followers of other religions in Roman Empire. Special attention to reasons for success of Christianity in Roman world. Offered by Religious Studies (p. 485). May not be repeated for credit.

Recommended Prerequisite: 3 credits of religious studies, RELI 252, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

REL 384: Global History of Christianity. 3 credits.
Explores the history of Christianity around the world in the context of political and social structures as well as religious beliefs and practices. Offered by Religious Studies (p. 485). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

REL 386: Islam in the Modern Age. 3 credits.
Covers the study of the Islamic tradition and its peoples during the last two centuries—the period of Islamic reform in the wake of Western hegemony—and the efforts of the community to readjust itself in light of Westernization and modernization, as well as the broader challenges...
of the secular, liberal, and technical age. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 387: Islam, Democracy, and Human Rights.** 3 credits.
Evaluates the political and religious goals of Muslim societies and governments, and whether these goals are conducive to the development of democratic institutions to promote democratic cultures and explicit support for human rights, as well as to these societies’ full integration in an international order founded upon secularism and modernism. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits including six credits in Religious Studies, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

**RELI 401: Death and the Afterlife in World Religions.** 3 credits.
Examination of the rituals, practices, and beliefs regarding death and the afterlife in world religions past and present. Emphasis placed on crosscultural and comparative aspects. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits including six credits in Religious Studies, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 403: Scripture and Authority in World Religions.** 3 credits.
Examines origins, development, and role of Scripture (religious texts) in world religions, concentrating on issues of divine inspiration, authority, authenticity, and canon. Offered by Religious Studies (p. 485). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits including six credits in Religious Studies, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**RELI 405: Religion, Values, and Globalization.** 3 credits.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Russian (RUSS)

100 Level Courses
RUSS 101: Elementary Russian I. 3 credits.
For students with no knowledge of Russian. Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Lab work required. Notes: Students may not receive credit for RUSS 101 and RUSS 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to RUSS 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RUSS 102: Elementary Russian II. 3 credits.
Continuation of RUSS 101. Notes: Students may not receive credit for RUSS 102 and RUSS 110. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to RUSS 110.

Recommended Prerequisite: RUSS 101 or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RUSS 110: Elementary Russian. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Notes: Students may not receive credit for RUSS 110 and RUSS 101, 102. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to RUSS 101, RUSS 102.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses
RUSS 201: Intermediate Russian I. 3 credits.
Further development of skills in listening, speaking, reading, and writing. Notes: RUSS 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: RUSS 102, RUSS 110, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Russian

RUSS 202: Intermediate Russian II. 3 credits.
Application of language skills to reading, composition, and discussion. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: RUSS 201, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Fulfills foreign language requirement., Taught in Russian

300 Level Courses
RUSS 302: Russian Conversation and Composition. 3 credits.
Develops in students ability to express themselves orally on topics of current interest and everyday situations. Provides practice in more difficult forms of written expression. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: RUSS 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Russian

RUSS 303: Russian Advanced Conversation. 3 credits.
Development of oral proficiency. Includes current colloquial expressions. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: RUSS 202, appropriate placement score, or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Russian

RUSS 310: Readings in Russian Literature. 3 credits.
Readings of Russian literary works in original language with lectures, discussions, and exam in Russian. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: RUSS 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Russian

RUSS 311: Contemporary Russian Short Fiction. 3 credits.
Reading and discussion of recent short stories by best-known Russian writers of today. Notes: Readings in original language. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: RUSS 202, appropriate placement score, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Russian

RUSS 325: Major Russian Writers. 3 credits.
Study of works of major Russian writers in translation. Writers to be studied vary. Notes: May be repeated once for credit when course content is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 9 credits.

Mason Core: Literature (p. 137)

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: ENGL 101/ENGH 101 or equivalent or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

RUSS 326: A Survey of Russian Literature. 3 credits.
Surveys Russian literature from its beginning to 1880. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Mason Core: Literature (p. 137)

Recommended Prerequisite: Completion of 60 hours or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Russian

RUSS 327: A Survey of Russian Literature. 3 credits.
Surveys Russian literature of late 19th and 20th centuries. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Mason Core: Literature (p. 137)

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

RUSS 353: Russian Civilization. 3 credits.
Civilization and culture of Russia and former Soviet Union. Includes films, slides, and music in addition to readings and lectures. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Specialized Designation: Non-Western Culture

Recommended Prerequisite: 60 credits and completion or concurrent enrollment in all other required Mason Core courses.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

RUSS 480: Fourth-Year Russian. 3 credits.
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: RUSS 380 and 381 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RUSS 481: Fourth-Year Russian. 3 credits.
Advanced work in major grammatical and lexical topics of Russian. Application of theoretical principles in guided written and oral exercises. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: RUSS 380, 381, or equivalent.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RUSS 490: Independent Study. 1-3 credits.
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: Russian studies major with 84 hours and Permission of Instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

RUSS 491: Independent Study. 1-3 credits.
Research and analysis of selected problem in language, literature, or culture in consultation with member of Russian studies faculty. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

School of Management (SOM)
School Psychology (SPSY)

600 Level Courses

SPSY 617: Child Psychopathology. 3 credits.
Surveys major types of psychopathological disturbances of infancy and childhood. Provides an overview of atypical development in children and adolescents focusing on cognitive, emotional, social, and adaptive domains. Examines etiologies, symptoms, effects, and treatments of major psychological disorders. Introduces students to major classification systems that are commonly applied to diagnose psychological disorders in children. Offered by Graduate School of Education (p. 157). May not be repeated for credit. Equivalent to PSYC 617.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPSY 619: Consultation and Applied Behavioral Analysis. 3 credits.
Examines the theoretical framework and elements of applied behavioral analysis, foundational principles of behavioral approaches to learning, as well as the framework of behavioral consultation. Provides acquisition and practical application of behavioral consultation skills through the process of the consultant-consultee relationship. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPSY 671: Role and Function of the School Psychologist. 3 credits.
Considers roles and functions of school psychologist in the educational environment, including all National Association of School Psychologists (NASP) practice standards. Includes certification process, relevant school law, ethical standards and practice, current and historical issues, and trends. Notes: Open only to school psychology MA students, or by permission of instructor. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Corequisite: SPSY 672

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPSY 672: Schools as Systems Practicum in School Psychology. 3 credits.
Provides contextual understanding of how districts, schools and classrooms operate; job responsibilities of the school psychologist; role of colleagues in the schools; special education process; various team structures and functioning; MTSS implementation; systems-level initiatives; organizational change; program evaluation; and use of data for school/student improvement. Requires semester-long practicum in the schools shadowing a school psychologist, and weekly class meetings. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Corequisite: SPSY 671

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Enrollment is limited to students with a major in Psychology.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPSY 692: Counseling in the Schools. 3 credits.
Examines theories, techniques, and counseling issues relevant to children and adolescents. Develops basic and advanced counseling skills, and provides experience receiving verbal and written feedback on simulated counseling sessions. Explores range of community agencies providing mental health services. Counseling practice provides an emphasis on process and culturally competent counseling strategies. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDCD 603B.
B- Requires minimum grade of B-.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

700 Level Courses

SPSY 709: Cognitive Assessment. 4 credits.
Introduces school psychology graduate students to issues and methods of cognitive/intellectual assessment. Provides experience in administration, scoring, and interpretation of major infant, child, and adult tests of cognitive ability, with emphasis on individual tests. Examines the development of IQ tests, theories of intelligence, and current trends and developments in intellectual assessment. Notes: Open only to school psychology MA students. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPSY 710: Social, Emotional, and Behavioral Assessment.** 4 credits.
Examines major instruments used in clinical assessment of social, emotional and behavioral functioning of children and adolescents. Provides practice in administration and scoring of major techniques for evaluation of social emotional behavioral adjustment. Explores nature, problems, and predictive value, and principles of interpretation of these procedures. Notes: Open only to school psychology MA students. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** SPSY 709B or PSYC 810B.
B- Requires minimum grade of B-.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPSY 722: Advanced Child Assessment.** 4 credits.
Provides comprehensive coverage of principles, strategies, and techniques in diagnostic assessment of children and adolescents with various conditions such as learning disabilities, intellectual disability, autism, attention difficulties, and emotional disturbances. Familiarizes students with diagnostic classification systems and special education eligibility process in schools. Notes: Open only to school psychology MA or PhD students. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (SPSY 709B, 710B and 750B) or (PSYC 810B and 811B).
B- Requires minimum grade of B-.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPSY 750: Cognitive Assessment Practicum.** 3 credits.
Semester-long practicum experience in cognitive assessment, to develop and refine psychological assessment skills. Requires weekly seminar. Provides experience in individual cognitive assessments of children referred to the GMU Cognitive Assessment Program under direct supervision of a licensed psychologist. Includes interviewing, testing, scoring, report writing, and communicating results. Requires group and individual supervision Notes: Open only to school psychology MA students. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** SPSY 709B.
B- Requires minimum grade of B-.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**SPSY 751: Advanced Assessment Practicum in School Psychology I.** 3 credits.
Provides practical, applied, supervised experience conducting comprehensive psychoeducational evaluations with children and adolescents to develop assessment and diagnostic skills. Requires interviewing, test selection and administration, scoring, report writing, and feedback sessions with clients. Focuses on integration of data and recommendation development. Requires practicum in training clinic, and individual and group supervision. Notes: Open only to School Psychology MA students. Offered by Graduate School of Education (p. 157). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
**Required Prerequisites:** SPSY 709B, 710B, 722B and 750B.
B- Requires minimum grade of B-.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**SPSY 752: Advanced Assessment Practicum in School Psychology II.** 3 credits.
Provides practical, applied, supervised experience conducting comprehensive psychoeducational evaluations with children and adolescents to refine assessment and diagnostic skills. Requires interviewing, test selection and administration, scoring, report writing, and feedback sessions with clients. Focuses on integration of data and recommendation development. Requires practicum in training clinic, and individual and group supervision. Notes: Open only to School Psychology MA students. Offered by Graduate School of Education (p. 157). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
**Required Prerequisites:** SPSY 709B, 710B, 722B, 750B and 751B.
B- Requires minimum grade of B-.
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**SPSY 753: Multiculturalism in Schools.** 3 credits.
Introduces school/educational/developmental psychology graduate students to issues and recent research on multicultural competence and multiculturalism in schools. Develops self-awareness around issues of cultural diversity and expands knowledge base in the area of diversity. Provides an opportunity to read research in the field on RTI, Consultation, Intervention, and Assessment that has a multicultural perspective or component. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPSY 773: Prevention, Intervention, and Consultation in Schools.** 3 credits.
Examines psychological theory and practice of prevention, intervention, and consultation in the school environment. Provides an overview of consultation approaches, prevention models that promote academic and social success, strategies and methods for targeted intervention, and crisis response. Focuses on current models of direct/indirect service-delivery in a MTSS/RtI model to support academic achievement and social emotional adjustment of all children. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPSY 790: School Psychology Internship.** 3 credits.
Requires supervised field experience and semi-monthly seminar over course of one school year as students work as full-time staff members in schools. Requires professional demonstration of skills/knowledge across all professional practice domains. Emphasizes evidence based interventions, direct and indirect services, and measurement of student outcomes. NOTE: Students must register for 2 consecutive semesters for a total of 6 credits. Offered by Graduate School of Education (p. 157). May be repeated within the degree for a maximum of 6 credits.

**Recommended Prerequisite:** Completion of required courses in school psychology and permission of program coordinator.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**SPSY 792: Prevention Intervention Consultation Practicum.** 3 credits.
Requires school-based practicum under the supervision of school psychologist, and weekly seminar. Focuses on teacher consultation and implementation of prevention/intervention services. Application of a variety of concrete methods/strategies designed to support successful academic achievement and positive social-emotional adjustment for children in schools. Focuses on delivery of evidence-based direct and consultative psychological services to individuals and groups within the school community. Offered by Graduate School of Education (p. 157). May be repeated within the degree for a maximum of 6 credits.

**Registration Restrictions:**
Required Prerequisite: SPSY 773<sup>B</sup>, B- Requires minimum grade of B-.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Education Human Development college.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**Social Work (SOCW)**

### 200 Level Courses

**SOCW 200: Introduction to Social Work.** 3 credits.
Introduces historical roots of social work profession and social welfare. Person-in-environment perspective discussed as framework for social work knowledge, values, and skills. Initial course in social work curriculum introduces social work profession, professional values, ethics, fields of practice, and settings in which social workers are employed. Highlights profession’s commitment to diverse and at-risk populations and social and economic justice. Presentations by social work professionals in different fields of practice supplement classroom lecture, discussion, and small-group exercises. Notes: Open to all majors. Offered by Social Work (p. 273). May not be repeated for credit.

**Specialized Designation:** Discovery of Scholarship

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**300 Level Courses

**SOCW 311: Building Professional Social Work Skills.** 3 credits.
Apply basic social work concepts and the planned change process to beginning-level professional generalist practice. Develop a professional sense of self, and how to work in a social work setting. Practice course
material in an agency setting through a 40 hour service learning experience. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200.

**Registration Restrictions:**
Enrollment is limited to students with a major in Social Work. Students cannot enroll who have a minor in Social Work.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 312: Knowledge Building for Helping Professionals.** 3 credits.
Integrates critical thinking skills with an understanding of how knowledge is created and associated with the scientific paradigms that are used to study and understand individuals in the context of the environment. Examines ways of knowing used in the social sciences and social work by being actively engaged in exercises and activities. Offered by Social Work (p. 273). May not be repeated for credit.

**Specialized Designation:** Scholarly Inquiry

**Recommended Prerequisite:** SOCW 200.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 357: Methods of Social Work Intervention I.** 3 credits.
Social work practice from systems perspective. Particular emphasis on problem-solving activities with microsystems. Analyzes common core of knowledge, values, and skills essential to social work practice to gain insight into social work functions and role of social worker as change agent. Note: SOCW 361 must be taken in the same semester as SOCW 357. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200, SOCI 101, PSYC 100, or permission of the instructor.

**Registration Restrictions:**
Required Prerequisite: SOCW 361C.
* May be taken concurrently.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Social Work. Students cannot enroll who have a minor in Social Work.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 358: Methods of Social Work Intervention II.** 3 credits.
Continues generic problem-solving model, focusing on group and macro intervention systems, settings, and skills. Emphasizes working with both treatment and task groups. Group processes, such as goal formulation, contract setting, composition, and termination necessary for effective worker intervention, are part of knowledge base. Note: SOCW 362 must be taken in the same semester as SOCW 358. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200, 357, and 361

**Registration Restrictions:**
Required Prerequisite: SOCW 362C.
* May be taken concurrently.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Social Work.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 361: Methods of Social Work Intervention I: Laboratory.** 2 credits.
Develop proficiency in social work and communication skills. Increase competency in practice knowledge and behaviors through experiential learning in the classroom laboratory. Apply knowledge of biological, psychological, social, spiritual, and cultural influences to those who need and those who give help. Examine personal behavioral and learning patterns, values, ethics, and attitudes to increase ability to understand and help clients. Note: SOCW 357 must be taken in the same semester as SOCW 361. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200.

**Registration Restrictions:**
Required Prerequisite: SOCW 357C.
* May be taken concurrently.
C Requires minimum grade of C.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 362: Methods of Social Work Intervention II: Laboratory.** 2 credits.
Provides students the opportunity to integrate theory, research, and practice in the area of group work and family interventions. Classroom simulation of group skills and how to work with families will occur. Note: SOCW 358 must be taken in the same semester as SOCW 362. Offered by Social Work (p. 273). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: SOCW 200C, 357C, 361C and 358C.
* May be taken concurrently.
C Requires minimum grade of C.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 375: Human Behavior and the Family Life Course.** 3 credits.
This course utilizes an integrative ecological approach to understanding individual human behavior in the context of the family and the transitions over the life course. The family life course perspective recognizes the interdependent nature of life course experiences and highlights the impact of life events, transitions and change, timing, and historical and social context. Offered by Social Work (p. 273). May not be repeated for credit.

**Mason Core:** Synthesis (p. 137)
Recommended Prerequisite: SOCW 200; BIOL 103; PSYC 100; SOCI 101.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCW 380: Changing Social Policies and Systems. 3 credits.
Equips students with basic macro social work practice skills necessary to create change that will result in a more socially and economically just society. Examines the historical development, central concepts, and institutional nature of current social policies and systems and how to create change at various levels. Applies practice skills to developing strategies for change. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: SOCW 200.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCW 390: Analytic Methods for Social Work Research. 3 credits.
Provides a basic introduction to quantitative and qualitative analytic methods for the social worker. The course will emphasize a conceptual understanding of analyses so that students will be able to engage in social debates with the ability to both support their assertions with rigorously generated analyses, as well as question the generalizability and utility of others’ analyses. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: SOCW 200.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

SOCW 400: Legal and Ethical Issues in Human Services. 3 credits.
Overview of ethical and legal issues related to human services professions. Topics include responsibility, competence, duty to warn, confidentiality, professional relationships, and research. Emphasizes models of ethical decision making and critical thinking. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCW 410: Alcohol and Substance Abuse: Policies and Programs. 3 credits.
Primary issues related to alcoholism and drug abuse including key concepts, theories, policies, and research regarding use and abuse of alcohol and other drugs. Emphasizes impact of policies and programs on well-being of ethnic minority and disadvantaged service populations. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: 45 credits or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCW 415: Child and Family Welfare. 3 credits.
Emphasizes viewing human development and child and family welfare services critically, holistically, and contextually. Integrates ecological systems, human rights, and empowerment perspectives for understanding delivery systems and persons in relation to their environment across levels from individual to global. Provides overview of existing child welfare system with focus on current issues, challenges, and at-risk populations. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: 45 credits or permission of the instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCW 435: Introduction to Gerontology. 3 credits.
Surveys issues related to working with older adults, their families, and care providers. Studies biological, psychological, and sociocultural aspects of aging, and unique problems with service delivery to older persons. Examines forces that impinge on an older person, and explores critical issues related to extended life span, family changes, institutionalization, and role of older persons in society. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: 45 credits or permission of the instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCW 445: Social Determinants of Health. 3 credits.
Examine the social determinants of health and the application of this framework to social work and public health policy and practice interventions. Explore the many social justice factors that affect health and consider which community systems and social change approaches may decrease or eliminate health inequities. Offered by Social Work (p. 273). May not be repeated for credit. Equivalent to GCH 445.

Recommended Prerequisite: 45 credits or permission of the instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCW 471: Research in Social Work. 3 credits.
Principles and theory underlying scientific inquiry. Emphasizes use of research in social work practice, steps in conducting research, and research efforts in developing and evaluating social work knowledge and skills. Notes: Must be completed with minimum grade of C. Offered by Social Work (p. 273). May not be repeated for credit.

Specialized Designation: Scholarly Inquiry, Writing Intensive in the Major

Recommended Prerequisite: SOCW 200; SOCW 312; ENGH 302.

Recommended Corequisite: SOCW 495; Choose one of the following: SOCW 390, STAT 250, SOCI 313, or PSYC 300.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 472:** RS: Integrative Methods in Social Action and Social Change. 3 credits.
Uses generalist social work practice concepts with large systems and provides students with a hands-on opportunity to apply concepts and principles of intervention with large systems. Students will work with organizations and communities on a local, national, or global level to promote social action and social change. The course will also focus on evaluating interventions addressing the social justice needs of diverse, at-risk, and oppressed populations. Offered by Social Work (p. 273). May not be repeated for credit.

**Mason Core:** Capstone (p. 137)

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** SOCW 495 and SOCW 471.

**Registration Restrictions:**
Enrollment is limited to students with a major in Social Work. Students cannot enroll who have a minor in Social Work.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 475:** Selected Topics in Social Work Policy. 1-3 credits.
In-depth study of special areas of social work of interest to students, faculty, and social work community. Notes: May be repeated for credit when topic is different. Offered by Social Work (p. 273). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** 45 credits or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**SOCW 480:** Research Internship in Health and Human Services. 3 credits.
The student works as a member of a team engaged in health and human services research and attends a bi-weekly research seminar. Under direction of the course seminar leader and the faculty research mentor, the student will acquire selected research skills and develop introductory research writing and presentation skills. Offered by Social Work (p. 273). May not be repeated for credit. Equivalent to HAP 480, HHS 480.

**Recommended Prerequisite:** Open only to CHHS majors or students who have completed CHHS minor or certificate courses.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 483:** Selected Topics in Social Work Intervention. 1-3 credits.
Opportunity to examine personal use of different approaches to social work intervention currently employed in practice settings. Students use technical skills with clients that these approaches require. Notes: May be repeated for credit when topic is different. Offered by Social Work (p. 273). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** 45 credits or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 495: Field Practicum and Seminar I.** 5 credits.
Under supervisory instruction provided by field agencies and faculty liaisons, students are involved two days per week in a social work field practicum, which provides entry level generalist social work training. Both the field practicum and the associated seminar provide learning activities designed to facilitate the demonstration of competencies identified by the Council on Social Work Education. Requires faculty-agency visits. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 200, 311, 312, 357, 358, 361, 362, 375, and 380 with a minimum grade of C and recommendation of faculty.

**Registration Restrictions:**
Enrollment is limited to students with a major in Social Work.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 496: Field Practicum and Seminar II.** 5 credits.
Continuation of supervised instruction begun in SOCW 495. Students continue to spend two days per week in a social work field practicum, which provides entry level generalist social work training. Both the field practicum and the associated seminar provide learning activities designed to facilitate the demonstration of competencies identified by the Council on Social Work Education. Requires faculty-agency visits. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 495 with a minimum grade of C.

**Registration Restrictions:**
Enrollment is limited to students with a major in Social Work.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCW 499:** Independent Study in Social Work. 1-3 credits.
Investigates research problem in field of social work. Offered by Social Work (p. 273). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** 60 credits and a research proposal approved by instructor before enrollment.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**600 Level Courses**

**SOCW 623:** Human Behavior and Social Systems I. 3 credits.
Ecological approach to behavior of individuals, families, groups, organizations, and communities. Integrates and applies theories from psychology, sociology, biology, and anthropology to study of infants,

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 624:** *Human Behavior and Social Systems II.* 3 credits.
Continues study of human behavior and diversity by exploring application of development theory and ecological principles to those in young adulthood, middle adulthood, and older adulthood. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 623.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 630:** *Forensic Social Work Practice.* 3 credits.
Explores the social work role in legal processes relating to such issues as family violence, child custody, behavioral health, disabilities, aging, and juvenile/criminal justice. Apply skills in forensic interviewing, risk assessment, expert testimony, mitigation, mediation, treatment, victim advocacy, and multidisciplinary collaboration. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 624, 651, 652, 657, 658, 660, 670, 671, 672, 673, and 680.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 640:** *Advanced Clinical Practice.* 3 credits.
Prepares students at the advanced level to apply diagnostic, assessment, prevention, treatment, and intervention skills with individuals, families, and groups in clinical mental health and health settings. Trains students in differential diagnosis and assessment using the Revised Diagnostic and Statistical Manual (DSM IV-TR). Currently accepted treatment interventions within the context of contemporary social work theory are also presented. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** All foundation year coursework: SOCW 623, 624, 651, 652, 657, 658, 660, 670, 671, 672, 673, and 680.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 645:** *Community-Centered Clinical Practice.* 3 credits.
Students use an ecosystems framework for assessment, risk-reduction, prevention, and intervention with communities in a local, national, or international context. Possible areas of exploration include violence prevention and intervention, suicide prevention and intervention, emergency response efforts, and behavioral health or wellness interventions at the community level. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 624, 652, 658, and 673.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 651:** *Social Policies, Programs, and Services.* 3 credits.
Explores the social work role in legal processes relating to such issues as family violence, child custody, behavioral health, disabilities, aging, and juvenile/criminal justice. Apply skills in forensic interviewing, risk assessment, expert testimony, mitigation, mediation, treatment, victim advocacy, and multidisciplinary collaboration. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 623, 652, 657, 658, 660, 670, 671, 672, 673, and 680.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 652: Influencing Social Policy.** 3 credits.
Introduces students to the knowledge, skills, and values needed to influence policy outcomes. Explores the role of social workers in electoral politics and policy advocacy. Students gain skills in legislative research, coalition building, testifying, constituent organizing, and lobbying, while developing strategies for promoting social justice through policy change. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 651.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 653: Immigration Policy.** 3 credits.
Prepares students for advocacy on behalf of immigrants from a human rights and social justice perspective. Explores policies, economic forces and historical precedence abetting global migration. Abets development of an in-depth knowledge of national and local policies as they pertain to immigrants, and how issues relate to social work advocacy. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** Completion of all first-year graduate coursework or advanced standing.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 654: Social Policy for Children and Youth.** 3 credits.
Examines social policies, programs, and services on behalf of children and youth with implications for social work; including child welfare, child and adolescent health and mental health, juvenile justice, and school social work. Explores how societal norms regarding family and definitions of children’s well-being influenced these policies over time. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW foundation coursework.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 655: Aging Programs and Policies.** 3 credits.
Analyzes the evidence-based benefits and challenges of social welfare and health care policy at the local, state, and federal levels on programs and services for older persons and their families. Fosters an understanding of the context of administrative structures, and legislative context of social policy and aging with attention to diversity and ethics. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 652 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 657: Direct Social Work Practice I.** 3 credits.
Introduces role of social workers as change agents and the core knowledge, values, and skills that guide social work practice with individuals, families, small groups, organizations, and communities. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Corequisite:** SOCW 672.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 658: Direct Social Work Practice II.** 3 credits.
Continuation of social work theory and practice with individuals, families, groups, organizations, and communities. Emphasizes intervention, evaluation, follow-up, and termination, with attention to incorporating social work knowledge, values, and skills. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 657.

**Recommended Corequisite:** SOCW 673.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 663: Global Human Rights Policy.** 3 credits.
Examines meaning and benefits of transforming social work policy practice to a global perspective and focus on a human rights-based rather than a needs-based approach. Demonstrates how human rights can serve as conceptual framework for policy practice to effect social change promoting human development and social and economic justice across levels, from the micro through macro and local through global. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW Foundation curriculum or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 665: Integrated Behavioral Health Policy.** 3 credits.
Examines policy concerns and strategies for implementing integrated behavioral health care models. Identifies practice models that integrate substance abuse and mental health with primary health care. Provides an overview of the U.S. health care system, including legislation, financing, and health care disparities. Students will develop an understanding of access to health care as a social justice concern. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW Foundation curriculum or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 670: Social Work Program Planning, Communications, and Technology.** 3 credits.
Studies various forms of written communication pertinent to social work practice. Examines impact of audience, status, culture, and purpose on effective professional writing. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** Completion of MSW Foundation curriculum or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
SOCW 671: Research Methods for Social Workers. 3 credits.
Examines role of scientific inquiry in social work. Emphasizes construction and use of measurement instruments, data collection, analysis, and interpretation, and application of computer technologies relevant to social work practice. Offered by Social Work (p. 273). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCW 672: Generalist Field Practicum and Seminar I. 3 credits.
Provides supervised social work learning experience in human service agencies. Students complete 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning and integrate theory with practice. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Corequisite: SOCW 657.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship
Grading:
This course is graded on the Graduate Special scale. (p. 82)

SOCW 673: Generalist Field Practicum and Seminar II. 3 credits.
Continues the supervised social work learning experience begun in SOCW 672. Students spend 16 hours per week in field practicum, and attend bimonthly seminar in which they share learning, process experiences, and integrate theory with practice. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: SOCW 672.

Recommended Corequisite: SOCW 658.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCW 674: Psychopathology. 3 credits.
Overview of adult and child psychopathology presented within the contexts of the lives of people experiencing mental disorders and the social contexts that can have a bearing on symptom maintenance. Learn to formulate competency-based assessments and DSM IV-TR-based differential diagnoses. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: All foundation year coursework (SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Special scale. (p. 82)

SOCW 675: Selected Topics in Clinical Practice. 3 credits.
In-depth study of special topics related to clinical social work practice at the individual, family, small group, or community level. Notes: May be repeated for credit when topic is different. Offered by Social Work (p. 273). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: 30 graduate credits or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)
Additional Course Details: Title varies by section and/or semester

SOCW 676: Selected Topics in Social Work and Social Change. 3 credits.
Critical examination of special topics related to understanding and improving community and societal conditions through policy practice, program development, and social action. Notes: May be repeated for credit when topic is different. Offered by Social Work (p. 273). May be repeated within the term for a maximum 12 credits.

Recommended Prerequisite: 30 graduate hours or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

SOCW 677: Family Therapy. 3 credits.
Examines research and theory relevant for assessment and intervention with families. Students will learn to conduct a family assessment, taking cultural diversity, non-traditional family structures including single-parent and GLBTQ families, and socioeconomic factors into account. Students will develop skills in implementing an intervention based on the family’s strengths and challenges. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: Completion of MSW foundation coursework.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCW 678: Trauma and Recovery. 3 credits.
Explores complex traumatic stress disorders, the process of recovery, and the etiology of healing in contemporary North American Culture. Diagnostic criteria, assessment strategies and evidence-based treatment options for complex traumatic stress disorders across diverse populations including sexual trauma, war, early childhood trauma and natural disasters will be addressed. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: Completion of MSW foundation coursework.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCW 679: Military Social Work. 3 credits.
Examines research and theory relevant for social work practice with service members, veterans, and their families. The course addresses the military as a workplace culture, evidence-based approaches for post-traumatic stress and co-morbid conditions, clinical practice with military families, preventive care and the service delivery system in military and civilian settings. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: Completion of MSW foundation coursework.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCW 682: Substance Abuse Interventions. 3 credits.
Develops knowledge and skills for direct practice in the field of addictions. The course covers the knowledge base regarding evidence-based interventions at all stages in the process of intervention with individuals, families, and groups that promote recovery from addiction to drug and alcohol abuse. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: Completion of MSW foundation coursework.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Registration Restrictions:
Recommended Prerequisite: SOCW 624, 652, 658, and 673.

**SOCW 684: Social Work and the Law.** 3 credits.
Students engage in close analysis of judicial opinions to explore the role of the courts in creating public policy. Areas of inquiry include the role of social workers in the legal system, the nature of legal proceedings, and how the law shapes policy in relation to issues affecting children, youth, families, older adults, women, minorities, people in poverty, and other vulnerable populations. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 624, 652, 658, and 673.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 685: Organizational Leadership for Social Workers.** 3 credits.
Examines functions and structure of human service organizations in context of service delivery. Development of theoretical knowledge, professional ethics, and skills in administration, leadership, management, organization, and supervision. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 624, 652, 658, 673.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 686: Program Evaluation for Social Workers.** 3 credits.
Explores social work intervention research, needs assessment, formative and summative program evaluation, and cost analyses. Discusses applications of systematic inquiry at the practice, organizational, and policy levels. Addresses ethical, pragmatic, and political considerations; qualitative approaches; quality performance; evidence from empirical research; and evaluation design. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 624, 652, 658, 671, 673. Open to degree seeking students only.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 687: Empowering Communities for Change.** 3 credits.
Explores social work interventions at community level, including organization, planning, and development. Strategies for mobilizing community members, using community organizations, formulating coalitions, engaging in participatory planning, and social and economic development. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 624, 652, 658, and 673.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCW 688: Clinical Practice with Older Adults.** 3 credits.
Examines age-associated changes and challenges faced by older adults. Focus is strengthening assessment and intervention skills with older adults, their family members and caregivers within the community and long-term care facilities, determining the best standardized instruments to use, and developing effective questions for assessment. Attention is given to the resilience of elders, ethical issues and diversity. Offered by Social Work (p. 273). May not be repeated for credit.

**Recommended Prerequisite:** SOCW 674 or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
Grading: This course is graded on the Graduate Regular scale. (p. 82)

SOCW 692: Specialist Clinical Field Practicum and Seminar I. 3 credits.
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the clinical concentration year practicum. The seminar is designed to assist the student in critically analyzing their field experiences in the application of mental health assessment, risk reduction and interventions working with individuals, families, groups, and communities. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

SOCW 693: Specialist Clinical Field Practicum and Seminar II. 3 credits.
Students continue to work in a supervised clinical social work field practicum for 20 hours per week. At the end of this semester students will have completed 300 hours of field work to meet the total number of 600 hours required for the concentration year practicum. The field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

SOCW 694: Specialist Social Change Field Practicum and Seminar I. 3 credits.
Students participate in a supervised clinical social work field practicum for 20 hours per week. The clinical field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge,

values, and skills from across the curriculum. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: SOCW 623, 624, 651, 652, 657, 658, 670, 671, 672, and 673.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

SOCW 695: Specialist Social Change Field Practicum and Seminar II. 3 credits.
Students continue to work in a supervised social work field practicum for 20 hours per week. At the end of this semester students will have completed 300 hours of field work to meet the total number of 600 hours required for the concentration year practicum. The field seminar accompanies the concentration year practicum. The seminar is designed to assist students in processing their field experiences and analyzing their successes and challenges. Students are expected to apply social work knowledge, values, and skills from across the curriculum. Offered by Social Work (p. 273). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale. (p. 82)

SOCW 697: Thesis Project Seminar. 3 credits.
Provides structured opportunity for students to work with each other and faculty in developing their final MSW thesis projects. Integrates and applies learning from all previous course work, emphasizing knowledge, skills, and values related to research, clinical practice, policy, community practice, and organizational leadership. Social work ethics, empowerment of populations at risk, and systems transformation will be explored. In addition to group meetings, students will meet individually with their faculty mentors. Offered by Social Work (p. 273). May not be repeated for credit.

Recommended Prerequisite: Social Change: SOCW 684, 685, and 688.
Clinical Practice: SOCW 630 and 688.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Investigates research problem in field of social work. Offered by Social Work (p. 273). May be repeated within the term for a maximum 4 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Social Work.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Sociology (SOCl)

100 Level Courses
SOCI 101: Introductory Sociology. 3 credits.
Introduction to basic sociological concepts. Examines aspects of human behavior in cultural framework, including individual and group interaction, social mobility and stratification, status and class, race and gender relations, urbanism, crime and criminality, and social change and reform. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 120: Globalization and Society. 3 credits.
Examines and analyzes important global issues and processes. Considers historical development of globalization and implications for different societies and cultures. Investigates perceptions of global processes by different cultures and nations, and efforts of international institutions to address social, political, economic, and cultural changes in global society. Notes: Students may not receive credit for both SOCI 120 and GLOA 101. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses
SOCI 208: Introduction to Race and Ethnicity. 3 credits.
Introduces students to individuals and ideas which have shaped and influenced racial and ethnic interactions and relations in the past and present. Attention will focus on historical meanings and sentiments attached to race and ethnicity as concepts, ideas, and images, and the ways these concepts and images have co-joined to allocate differential social, political, economic, and educational rewards to individuals and groups designated as racial groups, ethnic groups, or both. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 215: Gender and Society. 3 credits.
Considers the ways in which gender structures social life on both the micro level of individual experience and the macro level of social structure. Explores how normative ideals of femininity and masculinity affect our bodies, identities and intimate relationships; and how these ideals are circulated through the media, reproduced in social institutions, and articulated in different national, cultural and religious contexts. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses
SOCI 301: Criminology. 3 credits.
Focuses on causes and meaning of crime, with emphasis on adults. Patterns of criminal behavior, including property crimes, violent crimes, organized crime, white-collar crime, and victimless crime. Critical assessment of criminal justice system as a response to crime. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 302: Sociology of Delinquency. 3 credits.
Examines social factors involved in development of delinquency, including family, political economy, schooling, community environment and culture. Examines various theories of delinquency; rates of delinquency in relation to age, race, gender and social class; and legal system that addresses causes, consequences, and policies of punishment and rehabilitation. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 303: Methods and Logic of Inquiry.** 3 credits.
Actively engages students in original inquiry meaningful to themselves and their communities. Demonstrates the reciprocal relationship between theory and empirical research. Explores the complementarity of interpretive and explanatory logics, employing basic sociological methods. Guides students to formulate research problems; design research; gather and analyze evidence; and organize, frame, and revise arguments, culminating in a public presentation of their projects to the sociology faculty. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Recommended Prerequisite:** SOCI 101, SOCI 102, or permission of instructor.

**Schedule Type:** Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 304: The Future of Work.** 3 credits.
Introduces the basic concepts of economic sociology. Explores how the world of work has changed due to globalization, deindustrialization, new technologies, and economic crisis. Focuses on providing students with a better understanding of how markets and corporations work, and about new economic approaches to create new, potentially less alienating work environments. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 307: Social Movements and Political Protest.** 3 credits.
Explores processes for organizing resistance to current social and power arrangements, from terrorism to nonviolent civil resistance to create alternative institutions, policies, or leadership that promote human rights and social justice. Uses historical and contemporary case studies of local and global change to explore, how, why, and to what effect individuals have organized to protest the status quo and create social change. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 308: Race and Ethnicity in a Changing World.** 3 credits.
Explores how race and ethnicity have been shaped by policies and practices in Western and non-Western societies. Explores the evolution of racial and ethnic attitudes from a global and historical perspective. Examines how changing demographic racial patterns may affect definitions of race and ethnicity and the ways in which people individually and collectively act to create new futures. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 309: Marriage, Families, and Intimate Life.** 3 credits.
Uses a sociological framework to analyze and understand the diverse forms of contemporary families—traditional marriages, cohabitation, domestic partnerships, single-parents families, stepfamilies, and gay and lesbian families. Explored are topics such as changes in sexual mores, reflected in new dating practices; shifting parenting roles; effects of social class, race and ethnicity; and the outcomes of divorce for couples and children. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 310: Sociology of Deviance.** 3 credits.
Analyzes macro- and microlevel deviance-producing processes, meaning and control of deviance, and major theoretical approaches to deviance. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Recommended Prerequisite:** 6 credits of upper level (300 or 400 level) sociology courses, or permission of instructor.

**Schedule Type:** Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 311: Classical Sociological Theory.** 3 credits.
Explores sociological tradition through readings and discussions of ideas drawn from writings of selected sociological thinkers such as Comte, Marx, Weber, Durkheim, and others. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Recommended Prerequisite:** 6 credits of upper level (300 or 400 level) sociology courses, or permission of instructor.

**Schedule Type:** Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 312: Qualitative Research Methods.** 3 credits.
Introduces ethnography, field work methods, interviewing, life histories, and other qualitative methods to generate data about cultures in which various groups and classes are immersed. Students learn by applying qualitative methods to term projects, developed under guidance of instructor. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Recommended Prerequisite:** 9 credits of Sociology including SOCI 101 or SOCI 102 or permission of instructor.

**Schedule Type:** Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 313: Statistics for the Behavioral Sciences.** 4 credits.
Fundamentals of applied statistics as used in behavioral science to include descriptive statistics, inferential statistics, correlation regression, analysis of variance, factor analysis, nonparametric statistics, and practical experience with calculators in applying statistical analysis to actual problems of the behavioral sciences. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Mason Core: Quantitative Reasoning (p. 137)
Recommended Prerequisite: SOCI 101 or permission of instructor.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 314: Sociology of Culture. 3 credits.
Examines how culture, encompassing high art or participatory culture, expressive agency or traditional constraint, is produced and reproduced in everyday social practices and across a wide range of social institutions. Explores the role of culture in public life and political discourse. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 315: Contemporary Gender Relations. 3 credits.
Considers the ways in which gender structures social life on both the micro level of individual experience and the macro level of social structure. Addresses contradiction between legal equality between the sexes and persistent workplace discrimination and sexual violence; how normative ideals of femininity and masculinity affect our bodies, identities and intimate relationships; how these ideals are circulated through the media, reproduced in social institutions, and articulated in different national, cultural and religious contexts. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 320: Globalization and Social Change. 3 credits.
While focusing on nature and process of change in human society, considers social impact of political, economic, and environmental change and how lives are shaped by complexities of global social forces. Examines specific global issues such as conflict and security; economic disparity; ecological deterioration; populations and migration; legitimization of commerce; diffusion of innovations; and impact of class, status, and power in modern societies. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Mason Core: Global Understanding. Encore: Sustainability (p. 137)

Specialized Designation: Green Leaf Course

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 321: Sociology of Post-Socialism. 3 credits.
Explores the end of socialism, and how the former Soviet Union and Eastern Europe, as well as the rest of the world, transformed since 1989. Examines art, music, criminality, oligarchs, workers, gender, commodification, nationalism, violence, the self, religion, public health, and the environment during socialism and afterwards. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 326: Conflict, Violence, and Peace. 3 credits.
Explores the sociology of conflict, violence, and peace to examine these crucial issues from a scholarly viewpoint. Focuses on the causes and consequences of violence. Examines a wide variety of remedies from conventional deterrence and arms control strategies to alternative perspectives from nonviolent civil resistance to peacebuilding, international law, and restorative justice, as well as conflict transformation and resolution strategies. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 330: US Immigrants and Immigration. 3 credits.
Explores theoretical, empirical, and policy-related issues pertaining to immigration. Examines case studies of immigrant communities and their adaptation patterns, paying particular attention to immigrants from Latin America, Asia, the Caribbean, and the Middle East. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 332: The Urban World. 3 credits.
Examines cities and the people who live in them in the United States and around the world. Includes topics such as: social and economic development, inequality, political protests, urban democracy, and the environment. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Global Understanding (p. 137)

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 340: Power, Politics, and Society. 3 credits.
Analyzes how power is defined, attained and sustained in society. Students analyze political power as related to social realities such as democratic elections, class conflict, elite networks, powersharing, protest, and revolution. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 341: Sociology of Aging. 3 credits.
Examines aging from a sociological perspective. Topics include demographic trends and aging population in America; social construction of life stages and creation of “old age”; cultural labeling, and human resistance. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 352:** Social Problems and Solutions. 3 credits.
Examines contemporary social problems and their solutions using sociological perspectives. Topics may include housing and homelessness, student debt, mass incarceration, hunger and food insecurity, environment and sustainability, human rights, wealth and global poverty, war and peace. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 355:** Social Inequality. 3 credits.
Studies class structures and implications for individuals and groups in modern society. Explores issues of race and ethnicity, language and immigration status, sex and gender, social class, age, and sexual orientation. Examines critically the theory and research that explore the construction, experience, and meaning of such differences. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Mason Core:** Social/Behavioral Sciences (p. 137)

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 360:** Youth Culture and Society. 3 credits.
Introduces sociology of youth and youth culture. Investigates social, economic, and political realities of youth as a group and different groups of youth, including youth cultural production, formation of youth culture, and youth identities in variety of social settings. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 373:** The Community. 3 credits.
Examines small to moderate-size communities ranging through village, rural community, small town, and city subcommunity. Latter category includes city localities, ethnic villages, and suburban communities. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 377:** Art and Society. 3 credits.
Introduces the many ways in which art reflects social tendencies, comments on social problems, and contributes to discussions about a wide range of social issues. Students attend theatrical performances and visit exhibition spaces on campus, and learn to analyze what they experience through both aesthetic and sociological approaches. Explores contemporary issues such as debates about artistic freedom and public morality, commercialization of art, and relationship between cultural and social hierarchies. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Mason Core:** Synthesis (p. 137)

**Recommended Prerequisite:** 3 credits of ARTH.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 382:** Education in Contemporary Society. 3 credits.
Examines classrooms and schools as social institutions that function as socializing agents for both stability and societal change. Emphasizes the influence of inequality on educational processes and outcomes and critically examines the social organization of the U.S. public school system. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 385:** Religion and Society. 3 credits.
Studies places of religious consciousness in human action and institutional and organizational networks created to sustain religious beliefs. Emphasizes comparative and historical analysis of role religion has played in human society. Examines theories of nature of religious experience, religious symbolism, and basis of religious community. Explores changing demographics in relation to older traditional religious faiths and newer nontraditional faiths. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 388:** Violence and Religion. 3 credits.
Explores the relationship between religion and violence, especially warfare, cross-culturally and historically from a sociological, transdisciplinary, and global politics perspective. Examines the interface between politics and morality and the interface between national and transnational governance institutions (nations states, the UN, etc.) and cultural and religious institutions, NGOs, and social movements. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SOCI 390:** Sociology of Health, Illness, and Disability. 3 credits.
Examines social context of health, illness, and disability; relationships of health care professionals and patients; and structure and delivery of health care in different medical systems. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)
SOCI 391: Big Data, Technology, and Society. 3 credits.
Examines the transformations in the relationships between self and society taking place at the interface between social networks, digital information and communication technologies, new media, and Big Data. Explores what these changes mean for the future of the social sciences and humanities, and what these disciplines in turn can teach us about these changes that the “analytics” of computational and data sciences cannot. Introduces students to cutting-edge methods in digital sociology and digital ethnography, exploring a variety of emerging technology developments, such as augmented reality, digital fabrication, blockchain, automation, machine learning, and artificial intelligence. Examines new forms of inequality and intimacy, technologically mediated and distributed practices of human empathy and discernment, and emerging ethical questions for research and university education. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 394: Sociology of Human Rights. 3 credits.
Provides an overview of sociological, theoretical, and methodological approaches to understanding human rights. Examining connections between inequality, conflict, social justice, governance, and human rights, the course focuses on the contexts of meaning within which human rights are invoked and practiced as well as the role that non-state actors play in shaping the development and institutionalization of human rights. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Schedule Type: Seminar

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 395: Special Topics in Sociology. 3 credits.
Introduces the research interests of the faculty, offering new courses that reflect current issues not yet incorporated into the curriculum. Offers, in addition, advanced study into topics covered in the standing curriculum. Topics change by semester. Offered by Sociology & Anthropology (p. 491). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: 90 hours, including 12 hours of SOCI.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

SOCI 399: Independent Study. 1-3 credits.
Individual study of sociological topic of interest to student. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: 6 hours of Sociology and approval of a written proposal.

Schedule Type: Independent Study

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

SOCI 405: Analysis of Social Data. 4 credits.
Overview of management and analysis of empirical social science data, including file construction, scaling and measurement, data transformation, and treatment of missing data. Emphasizes manipulation, management, and analysis of data sets using computers. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Recommended Prerequisite: 60 hours, SOCI 313, or Permission of Instructor.

Schedule Type: Laboratory, Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 410: Social Surveys and Attitude and Opinion Measurements. 3 credits.
Surveys research methods and techniques to collect, measure, and analyze social data, attitudes, and opinions with special emphasis on using computer software, the Internet, and other information technologies for social research. Highlights ethical issues for social research, computing, and information technology. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Mason Core: Information Technology: Without Ethics (p. 137)

Recommended Prerequisite: SOCI 303 and 313, or equivalents, or Permission of Instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 412: Contemporary Sociological Theory. 3 credits.
Presents for analysis and discussion the significant theorists and themes in contemporary sociological theory. Designed to enhance student’s skills in reading and analyzing primary texts and to encourage reflection on contemporary social reality. Fulfills writing intensive requirement. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Registration Restrictions:
Required Prerequisite: SOCI 311C.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 416: Internship in Sociology. 1-6 credits.
Intended to promote learning in application of sociological knowledge, and build skills in different work settings. Students work in approved setting as applied sociologists. Notes: Minimum 45 hours of work for each credit required. Offered by Sociology & Anthropology (p. 491). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Enrollment in or completion of SOCI 313 or permission of instructor.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 471: Prevention and Deterrence of Crime. 3 credits.

Recommended Prerequisite: 60 hours, inservice status, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 480: Honors Seminar in Sociology I. 3 credits.
Develop research proposals and an appropriate bibliography for honors thesis under the guidance of a sociology faculty member. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Specialized Designation: Research Associated

Recommended Prerequisite: Admission to honors in the sociology major.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Special scale. (p. 82)

SOCI 481: RS: Honors Seminar in Sociology II. 3 credits.
Pursue independent research and write honors thesis under the guidance of a faculty mentor. Present work in a colloquium at the end of the semester. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: Successful completion of SOCI 480.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 483: The Sociology of Higher Education. 3 credits.
Exposes students to sociological theory and research on evolution of higher learning in United States. Explores social forces that have shaped the distinctively American approach toward higher education and have led to transformation of higher education in contemporary society. Particular attention to relation between universities and elites within surrounding society, linkage between education and industry, norms and values that are presupposed by educational institutions, and bearing of sports on values and traditions of higher education. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 485: RS: Sociological Analysis and Practice. 3 credits.
Provides an in-depth examination of historical and contemporary issues facing sociological scholars. Focuses on the philosophies, practices, and procedures used by individuals and organizations to answer sociological questions. Engages a variety of materials, experiences and resources to answer a specific research question. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Mason Core: Capstone (p. 137)

Specialized Designation: Research/Scholarship Intensive

Recommended Prerequisite: SOCI 303.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SOCI 492: Sociology of Organizations. 3 credits.
Theories, analysis of types of organizations from informal voluntary associations to large complex ones. Explores nonprofit organizations and alternatives to bureaucracies, such as feminist collectives, cooperatives, self-help groups, and social movement organizations. Students do field work in organizations applying theories and concepts to observations. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Recommended Prerequisite: 18 hours of SOCI including SOCI 303, 311, 313 and 412; a 3.0 GPA in SOCI; and a research proposal approved by instructor and department chair prior to enrollment.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

SOCI 516: Internship in Sociology. 1-6 credits.
Learning experience in the application of sociological knowledge and skills in different work settings. Students work in approved setting as applied sociologists. Notes: Minimum 45 hours of work for every 1 credit. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 21 hours of SOCI, including research methods, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
SOCI 599: *Issues in Sociology.* 1-3 credits.
Contemporary topics in sociology including sociological theory, crime and delinquency, advanced research methods, social and cultural change, urban sociology, medical sociology, sociology of aging, and rural sociology. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 600 Level Courses**

**SOCI 601: Proseminar in Public and Applied Sociology.** 3 credits.
Core course devoted to the philosophical, historical, theoretical, and methodological dimensions of public and applied sociology within the United States. Traces the evolution of the field during the 20th century, from its inception in the Chicago school and the studies of W.E.B. DuBois to more recent formulations, as these bear on the interplay between social scientific knowledge and public decisions and debates. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 602: Writing for the Social Sciences.** 3 credits.
Develops strategies for successful social scientific writing, self-evaluation, and managing anxiety around the production of written work. Provides practice in different types of writing undertaken by social scientists including research reports, scholarly journal articles, and research proposals. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 605: Gender and Social Structure.** 3 credits.
Reviews theories explaining the development and maintenance of gender. Using historical and comparative data, examines perceived, prescribed, and actual sex differentiation in social, political, and economic roles. Begins with gender as a social structure and then examines contemporary research as support or refutation for variety of theoretical paradigms. Includes discussion of gender in intimate relationship and the public sector. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 607: Criminology.** 3 credits.
Crime and crime causation. Topics include social basis of law, administration of justice, and control and prevention of crime. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 608: Juvenile Delinquency.** 3 credits.
Sociology of adolescent behavior. Sociological factors that determine which behaviors and social categories of adolescents are likely to be labeled and treated as delinquent. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
SOCI 614: *Sociology of Culture*. 3 credits.
Analyzes 20th-century debates in American culture and cultural politics, with emphasis on art and popular culture, news media, and competing notions of "the public." In-depth readings in cultural sociology cover variety of theoretical and methodological approaches. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 619: *Conflict and Conflict Management: Perspectives from Sociology*. 3 credits.
Deals with sociology of conflict. Presents major sociological theories of conflict such as those of Marx, Weber, Simmel, Dahrendorf, Coser, and Collins. Stresses role that sociological conflict theory plays in undergirding conflict management practices. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Recommended Prerequisite:** Graduate standing in sociology or conflict analysis and resolution, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

Emphasizes gathering, interpreting, and evaluating scientific evidence. Covers logic of scientific inquiry, including the application of various research designs and data collection methods. Develops critical-thinking skills by using set of rules and logical criteria for evaluation of social science research. Focuses both on how results are obtained and disseminated via research reports. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate statistics and research methodology, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Sociology.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

Covers demographic purview of U.S. and other global racial and ethnic groups and racial and ethnic groups as human-social-minority and dominant groups. Explores factors contributing to dominant and minority status and means of altering dominant groups assessment of minority group status. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 624: *International Migration in the Age of Globalization*. 3 credits.
Focuses on theoretical, methodological, and policy-related issues on international migration from a sociological perspective. Explores case studies of immigrant communities and their adaptation patterns, paying particular attention to immigrants from Latin America, Asia, and the Caribbean. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 631: *Survey Research*. 3 credits.
Introduces theory, method, and practice of survey research design and analysis. Students complete survey research project. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Recommended Prerequisite:** SOCI 530 and 531, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.
Graduate, Non-Degree or Senior Plus.

Enrollment limited to students with a class of Advanced to Candidacy, Registration Restrictions:

Anthropology in employing such methods and procedures. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Recommended Prerequisite: SOCI 530 and 531, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 632: Evaluation Research for Social Programs. 3 credits.
Studies methodological issues related to evaluation of social programs. Explores conceptual and research design issues in relation to social programs, particularly delivery of social services. Includes examination of methods used to assess need for programs, impact of delivery systems, and efficiency and effectiveness of social programs. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Recommended Prerequisite: SOCI 530 and 531, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 633: Special Topics in Sociology. 3 credits.
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies. Notes: May be repeated for credit when topic is different. Offered by Sociology & Anthropology (p. 491). May be repeated within the term for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

SOCI 634: Qualitative Research Methods. 3 credits.
Examines basic research methods involving observational techniques and procedures used in description and analysis of patterns, configurations, ethos, eidos, structures, functions, and styles typical of whole societies and cultures. Emphasizes case studies, unobtrusive methods, participant observation, longterm residence, choices of observer status role, recording data, uses of technical equipment, key informants, interviewing techniques, and ethical considerations in employing such methods and procedures. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 635: Environment and Society. 3 credits.
Overview of human ecology and environmental sociology, emphasizing selected topics. Focuses on theory, since theory makes it possible to generalize from understandings derived in an analysis of a particular problem and apply them to other problems. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 636: Statistical Reasoning. 3 credits.
Intermediate treatment of quantitative analytic techniques used in sociology. Topics include sampling, inference, hypothesis testing, analysis of variance, and bivariate and multiple correlation and regression. Introduces logic of multivariate analysis. Focus on how results are obtained and disseminated via research reports. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Recommended Prerequisite: Undergraduate statistics and research methodology, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 641: Micro Sociology: Inequality and Everyday Life. 3 credits.
Analyze the relationship between everyday life and social inequalities, with a particular focus on examining theoretically and empirically the relationship between governing structures of society and the structure of situational and interactional terrains as it plays out in the lives of everyday people. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 651:** *Health Care Systems.* 3 credits.
Changing health care systems are rapidly affecting patient providers and health and quality of life of society. Offers analysis and theories of change in health care systems and impacts on society and various stakeholders. Examines for-profit and nonprofit organizations and their impacts, and offers comparative cross-cultural analysis of health care systems. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 655:** *Ethnography.* 3 credits.
Introduces ethnography in sociology to graduate students. Teaches techniques for collecting, analyzing and writing-up ethnographic materials. Considers some of the central methodological issues relevant to doing ethnography. Examines some of the critical ethical and political questions that arise within ethnographic research practice. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 660:** *Historical and Comparative Sociology.* 3 credits.
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit. Equivalent to SOCI 860.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 665:** *Sociology of Aging.* 3 credits.
Analyzes sociological issues in aging, including class and cultural factors, problems of work, retirement, attachment and loss, and ageism. Examines different theories of aging. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 666:** *Independent Study.* 1-3 credits.
Theoretical and research literature chosen by student and instructor. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale. (p. 82)

SOCI 697: Independent Study. 1-3 credits.
Theoretical and research literature chosen by student and instructor. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale. (p. 82)

700 Level Courses

SOCI 711: Classical Sociological Theory. 3 credits.
In-depth examination of major issues in classical (pre-1930) sociological theory. Analyzes Durkheim, Marx, Weber, Mead, and others, and emphasizes social and intellectual context of their theories. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a major in Sociology.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 712: Contemporary Sociological Theory. 3 credits.
Examines schools in contemporary sociological theory such as structural-functionalism, conflict, exchange, symbolic interactionism, ethnomethodology, humanist sociology, and critical theory. Analyzes contemporary theorists in relation to schools. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a major in Sociology.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale. (p. 82)

SOCI 730: Analytic Techniques of Social Research. 3 credits.
Introduces multiple regression and causal analysis to sociological researchers, with a focus on obtaining and disseminating results. Moves from linear regression to the general linear model with several variables, its extensions, assumptions, and regression diagnostics. Examines the use of dummy variable and the analysis of interaction effects. Considers systems of equations and nonlinear outcomes. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Recommended Prerequisite: Undergraduate statistics and research methodology, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 797: Master's Capstone Paper. 3 credits.
MA paper completion under the direction of one faculty member. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Recommended Prerequisite: Admission to graduate program in sociology or permission of graduate director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

SOCI 799: Thesis. 1-6 credits.
Master's thesis research under direction of thesis committee. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

800 Level Courses

SOCI 803: Institutions and Inequality. 3 credits.
Analyzes the interrelations between social inequalities and institutional structures, including markets, the press, prisons, mental institutions, cultural organizations, and corporations. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 804: Sociology of Globalization. 3 credits.
Addresses the social, political, cultural, and economic process of globalization. Explores the limits on globalization during the precapitalist era, the relation between empire and the internal structure of imperialist
Enrollment is limited to Graduate level students.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 833: Special Topics in Sociology. 3 credits.
Specialized inquiry of topics of contemporary sociological research and scholarship. Content varies. Notes: May be repeated for credit when topic is different. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Have completed either 6 credits of coursework at the 600 level or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

SOCI 840: Work Organizations and Social Inequality. 3 credits.
Examines the social, organizational, and cultural processes that account for the differential distribution of job rewards along class, gender, and racial and ethnic lines. Topics include the historical evolution of the management worker relationship, job segregation by race and gender, the effect of new technologies on social inequality, the relation between gender and professional careers, the efficacy of governmental efforts to ensure equal opportunity, and the effect of organizational change on racial and gender inequalities at work. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 844: Youth, Schooling, and Popular Culture. 3 credits.
Uses sociological perspectives to understand the various ways in which popular youth culture, schooling processes, and consumer culture intersect in contemporary American cultural life. Examines the social, economic, and political realities of youth as a group and the formation of distinct youth cultures within and outside formal school settings, including schooling and commodity culture, how markets promote and hinder particular educational ideologies, and how corner markets operate as spaces of cultural learning. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

SOCI 845: Society and Education. 3 credits.
Exposes students to the major theories, debates, and findings within the sociology of education, emphasizing the reciprocal influences of schooling and social inequalities within contemporary societies. Emphasis on the historical evolution of public schooling in the United States, the complex relation between schooling and economic institutions, class differences in educational opportunity, and the politics of educational reform. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 850: Sociology of Development. 3 credits.
Analyzes socioeconomic and political change, focusing on the poor countries of Asia, Africa, and Latin America. Offers a basic descriptive understanding of processes of change in these countries and an introduction to major theoretical perspectives on development and globalization, from classical theories of comparative advantage to theories of imperialism, modernization, dependency, and globalization. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 851: Globalization and Social Movements. 3 credits.
Analyzes current issues in the study of social movements, with an emphasis on the ways in which globalization shapes and in turn is shaped by social movements. Emphasis is placed on the relations among the strategies, identities, and organizations bound up with transnational social movements and the relation between the dynamics of global political and economic developments and protest movements in core and peripheral societies. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SOCI 853: Cities in a Global Society. 3 credits.
Examines the scholarly literature on cities and globalization with a focus on the impact of globalization on urban environments and the effects of urbanization on the processes of globalization. Emphasis on the ways in which globalization restructures urban life in the core and periphery of the world economy with attention paid to the effects of spatial dispersion on the character of economic institutions within the advanced societies,
the shifting nature of crime and security, immigration, and the cities of the Global South. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 857: Sociology of Human Rights.** 3 credits.
Examines the connections among inequality, conflict, social justice, and human rights in an age of globalization. Drawing from case studies from around the world, course examines institutional and structural violence and inequality as they relate to state, corporate, and military power; international law and order; welfare and social policy; global justice; regionalism, multilateralism, and transnationalism; environmental protection; gender inequality; ethnic conflict; resource wars; and national security policy before and after September 11, 2001. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 860: Historical and Comparative Sociology.** 3 credits.
Seminar in theory and methods of historical and comparative sociology, primarily for students with background in sociological theory and methods. Examines basic approaches and research data of history and sociology, surveys development of field, and analyzes exemplary studies. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit. Equivalent to SCI 660.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 870: Directed Readings Sociology.** 3 credits.
Intensive reading course to develop comprehensive understanding of specific field in sociology as agreed on with advisor. Notes: Content varies. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree.

**Recommended Prerequisite:** 6 credits of 600 level SOCI courses

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SOCI 880: Independent Study in Sociology.** 3 credits.
Reading and research on selected topic, resulting in a written project as agreed on with supervising faculty. Notes: Content varies. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree.

**Recommended Prerequisite:** 6 credits of 600 level SOCI courses

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**900 Level Courses**

**SOCI 998: Doctoral Dissertation Proposal.** 1-9 credits.
Work on research proposal for doctoral dissertation. Notes: A maximum of 9 credits of 998 may be applied to the degree. Students may enroll in 998 in their final year of coursework while preparing for comprehensive exams. Contact department for approval and CRN to register. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree.

**Recommended Prerequisite:** Completion of all but final year of coursework and permission of graduate director.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**SOCI 999: Doctoral Dissertation.** 1-12 credits.
Doctoral dissertation research and writing on approved dissertation topic under direction of committee. Notes: Maximum of 12 credits may be applied toward degree. Offered by Sociology & Anthropology (p. 491). May be repeated within the degree.

**Recommended Prerequisite:** Successful completion of SOCI 998.

**Registration Restrictions:**
Successful completion of SOCI 998.

**Schedule Type:** Dissertation

**Grading:**
Enrollment limited to students with a class of Advanced to Candidacy.

**Recommended Prerequisite:** Successful completion of SOCI 998.

**Sociology and Anthropology (SOAN) 500 Level Courses**

**SOAN 510: Culture and Globalization.** 3 credits.
Provides continuing exposure to the range of disciplinary perspectives necessary for understanding crucial issues in the global arena. Through case examples, focuses on the intersections of culture and globalization. Analyzes existing data and assesses alternative policy and program approaches, and illuminates interactions between globalization and culture. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

**Recommended Prerequisite:** SOAN 500.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses
SOAN 670: Special Topics in Sociology and Anthropology. 4-8 credits.
Provides cross-disciplinary, pedagogical format in Department of Sociology and Anthropology. Covers variety of pedagogical formats, such as combining ethnographic field techniques taught in anthropology with sociological-based urban issues, or providing archaeological laboratory analyses with grounding in statistical techniques proposed by department faculty. Offered by Sociology & Anthropology (p. 491). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

Software Engineering (SWE)

200 Level Courses
SWE 205: Software Usability Analysis and Design. 3 credits.
Principles of user interface design. Concepts for objectively and quantitatively assessing the usability of software user interfaces. Outcomes include knowledge of quantitative engineering principles for designing usable software interfaces and an understanding that usability is more important than efficiency for almost all modern software projects, and often the primary factor that leads to product success. Major topics include learning models for human perceptions and needs, which are used as a basis for analytical and critical thinking about user interfaces; specific engineering principles for designing usable menus, forms, command languages, web sites, graphical user interfaces and web-based user interfaces. Assessments will include written analytical evaluations of existing user interfaces, exams, and HTML-based design projects. Offered by Computer Science (p. 1025). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: ENGH 101C or 100C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses
SWE 301: Internship Preparation. 0 credits.
Preparation for Internship Educational Experience. Intended for, but not limited to, students planning internships in the Applied Computer Science Software Engineering Program. Internship employment opportunities. Basic interview skills. Techniques for applying academic knowledge to practical software development. Techniques for extracting knowledge from practical experience. Peer presentation from students who have completed internships. Offered by Computer Science (p. 1025). Limited to two attempts.

Recommended Prerequisite: Limited to ACS or CS majors with junior standing or permission of instructor.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

SWE 321: Software Engineering. 3 credits.
An introduction to concepts, methods, and tools for the creation of large-scale software systems. Methods, tools, notations, and validation techniques to analyze, specify, prototype, and maintain software requirements. Introduction to object-oriented requirements modeling, including use of case modeling, static modeling, and dynamic modeling using the Unified Modeling Language (UML) notation. Concepts and methods for the design of large-scale software systems. Fundamental design concepts and design notations are introduced. A study of object-oriented analysis and design modeling using the UML notation. Students participate in a group project on software requirements, specification, and object-oriented software design. Offered by Computer Science (p. 1025). Limited to two attempts. Equivalent to CS 321.

Registration Restrictions:
Required Prerequisites: ([ENGH 302C or (HNRS 110C and HNRS 122C, 130C, 131C, 230C or 240C)) and (CS 310C)).
C Requires minimum grade of C.

Enrollment is limited to students with a major in Applied Computer Science, Computer Science or Systems Engineering.

Enrollment is limited to students with a minor in Computer Science or Software Engineering.

Enrollment limited to students in a Bachelor of Science or Post-Baccalaureate Certificate degrees.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SWE 332: Object-Oriented Software Design and Implementation. 3 credits.
In-depth study of software design and implementation using a modern, object-oriented language with support for graphical user interfaces and complex data structures. Topics covered are specifications,
design patterns, and abstraction techniques, including typing, access
control, inheritance, and polymorphism. Students will learn the proper
engineering use of techniques such as information hiding, classes,
objects, inheritance, exception handling, event-based systems, and
concurrency. Offered by Computer Science (p. 1025). Limited to two
attempts. Equivalent to CS 332.

Registration Restrictions:
Required Prerequisite: (CS 310C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

SWE 401: Internship Reflection. 1 credit.
Reflection on Internship Educational Experience. Intended for, but not
limited to, students completing internships in the Applied Computer
Science Software Engineering Program. Analysis of techniques for
applying academic knowledge to practical software development.
Analysis of techniques for extracting knowledge from practical
experience. Student presentations summarizing internships relating them
to academic program goals. Offered by Computer Science (p. 1025).
Limited to two attempts.

Recommended Prerequisite: Completion of internship.

Registration Restrictions:
Required Prerequisite: SWE 301C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

SWE 432: Web Application Development. 3 credits.
A comprehensive introduction to the design and implementation of
applications for the web, including client and server-side development.
Exploration of principles for the design of web applications that are
robust, scalable, and secure, that enable change and reuse, and that
are usable for their intended purpose. Topics include client-server
communication, asynchronous programming, persistence, security, web
development tools, the document object model, templates and data-
bounding, interaction techniques, and site design for the web. Offered by
Computer Science (p. 1025). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 125C) and (CS 321C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SWE 437: Software Testing and Maintenance. 3 credits.
Concepts and techniques for testing and modifying software in evolving
environments. Topics include software testing at the unit, module,
subsystem, and system levels; developer testing; automatic and
manual techniques for generating test data; testing concurrent and
distributed software; designing and implementing software to increase
maintainability and reuse; evaluating software for change; and validating
software changes. Offered by Computer Science (p. 1025). Limited to two
attempts.

Registration Restrictions:
Required Prerequisites: (MATH 125C and CS 310C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

SWE 443: Software Architectures. 3 credits.
Teaches how to design, understand, and evaluate software systems at
an architectural level of abstraction. By end of course, students will be
able to recognize major architectural styles in existing software systems,
describe a system’s architecture accurately, generate architectural
alternatives to address a problem and choose from among them,
design a medium-size software system that satisfies a specification
of requirements, use existing tools to expedite software design, and
evaluate the suitability of a given architecture in meeting a set of system
requirements. Offered by Computer Science (p. 1025). Limited to two
attempts.

Registration Restrictions:
Required Prerequisites: CS 321C, 421C, SWE 321C or 421C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

SWE 619: Object-Oriented Software Specification and Construction. 3 credits.
In-depth study of software construction using modern, object-oriented language with support for graphical user interfaces and complex data structures. Specifications, design patterns, and abstraction techniques, including procedural, data, iteration, type, and polymorphic. Information hiding, classes, objects, and inheritance. Exception handling, event-based systems, and concurrency. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 620: Software Requirements Analysis and Specification. 3 credits.
In-depth study of object-oriented requirements modeling, including use case modeling, static modeling and dynamic modeling with Unified Modeling Language (UML) notation. Students participate in group project on software requirements and specification using modern method. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 621: Software Modeling and Architectural Design. 3 credits.
Concepts and methods for the architectural design of large-scale software systems are presented. Fundamental design concepts and design notations are introduced. Concepts of requirements analysis and specification are taught. Several design methods are presented and compared. In-depth study of object-oriented analysis and design modeling using the Unified Modeling Language (UML) notation. Students participate in a group project on software requirements, analysis, and design modeling. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 622: Distributed Software Engineering. 3 credits.
Hands-on introduction to techniques and programming interfaces for distributed software engineering. Networking protocols at several layers. Construction of distributed and concurrent software using network protocol services. Applications of Internet and web-based software. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 625: Software Project Management. 3 credits.
Lifecycle and process models; process metrics; planning for a software project; mechanisms for monitoring and controlling schedule, budget, quality, and productivity; and leadership, motivation, and team building. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: SWE foundation courses or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SWE 626: Software Project Laboratory.** 3 credits.
Covers requirements analysis, design, implementation, and management of software development project. Students work in teams to develop or modify software product, applying sound principles of software engineering. Uses both industrial and academic standards to assess quality of work products. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** SWE 619,620, and 621; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SWE 631: Software Design Patterns.** 3 credits.

**Recommended Prerequisite:** SWE 621.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SWE 632: User Interface Design and Development.** 3 credits.
Principles of user interface design, development, and programming. Includes user psychology and cognitive science, menu system design, command language design, icon and window design, graphical user interfaces, web-based user interfaces. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** SWE 619, or CS 540 and 571, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SWE 637: Software Engineering for the World Wide Web.** 3 credits.
Detailed study of engineering methods and technologies for building highly interactive web sites for e-commerce and other web-based applications. Presents engineering principles for building web sites that exhibit high reliability, usability, security, availability, scalability, and maintainability. Teaches methods such as client/server programming, component-based software development, middleware, and reusable
components. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** SWE 619 or CS 540 and CS 571, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SWE 645:** Component-Based Software Development. 3 credits.
Introduces concepts and foundations of software component and component-based software. Detailed study of engineering principles of modeling, designing, implementing, testing, and deploying component-based software. Also explores state-of-the-art component technologies. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** SWE 619 or CS 540 and CS 571, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SWE 681:** Secure Software Design and Programming. 3 credits.
Theory and practice of software security, focusing in particular on some common software security risks, including buffer overflows, race conditions and random number generation, and on identification of potential threats and vulnerabilities early in design cycle. Emphasizes methodologies and tools for identifying and eliminating security vulnerabilities, techniques to prove absence of vulnerabilities, ways to avoid security holes in new software, and essential guidelines for building secure software: how to design software with security in mind from the ground up and integrate analysis and risk management throughout the software life cycle. Offered by Computer Science (p. 1025). May not be repeated for credit. Equivalent to ISA 681.

**Recommended Prerequisite:** SWE 619.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SWE 699:** Special Topics in Software Engineering. 3 credits.
Special topics not occurring in regular SWE sequence. Notes: May be repeated for credit when semester topic is different. Offered by Computer Science (p. 1025). May be repeated within the term.

**Recommended Prerequisite:** SWE 619.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**SWE 721:** Reusable Software Architectures. 3 credits.
Investigates software concepts that promote reuse of software architectures. Studies influence of object technology on software design and reuse. Investigates domain modeling methods, which model the application domain as a software product family from which target systems can be configured. Covers reusable software patterns including architecture patterns and design patterns, software components, and object-oriented frameworks. Offered by Computer Science (p. 1025). May not be repeated for credit.

**Recommended Prerequisite:** SWE 621.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
SWE 724: Program Analysis for Software Testing. 3 credits.
Different methods for analyzing software, primarily for purpose of testing. Analysis techniques, algorithms, tools, and applications. Goals are to explore current research issues, learn how to build analysis tools, and understand how these techniques can be applied to software-related activities such as maintenance, reuse and optimization. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: A compiler class (e.g. CS 540) OR a testing class (e.g. SWE 637) or permission of the instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 737: Advanced Software Testing. 3 credits.
Cutting edge concepts and techniques in software testing. An in-depth study of existing approaches to testing software as well as development of new approaches. Applications of existing concepts and techniques to new technologies. Advanced MS students learn in-depth knowledge for how to apply testing in difficult and challenging real-world scenarios. PhD students learn current research trends, both theoretical and practical. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: SWE 637.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 760: Software Analysis and Design of Real-Time Systems. 3 credits.
Background for students who want to conduct research in software engineering of real-time systems. Provides understanding of key real-time software system analysis, design concepts and methods, and how they are used in developing large-scale, real-time software systems. Also explores potential impact of emerging technologies. Includes term project in design and analysis of complex, real-time software system. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: SWE 621.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 763: Software Engineering Experimentation. 3 credits.
Detailed study of scientific process, particularly using experimental method. Examines how empirical studies are carried out in software engineering. Reviews distinction between analytical techniques and empirical techniques. Other topics include experimentation required in software engineering, problems that can be solved using experimentation, methods used to control variables and eliminate bias in experimentation, and analysis and presentation of empirical data for decision making. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: SWE 621, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 795: Advanced Topics in Software Engineering. 3 credits.
Advanced topics not occurring in existing courses. Topics normally assume knowledge in one or more existing MS SWE courses. Notes: Repeatable within degree for credit when subject differs. Offered by Computer Science (p. 1025). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 12 credits applicable toward MS.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

SWE 796: Directed Readings in Software Engineering. 3 credits.
Analysis and investigation of contemporary problem in software engineering. Requires prior approval by faculty member who supervises student’s work. Written report also required. Offered by Computer Science (p. 1025). May not be repeated for credit.

Recommended Prerequisite: SWE 621, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Research

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 798: Research Project. 3 credits.
Master’s degree candidates undertake a project using knowledge gained in MS program. Topics chosen in consultation with a faculty sponsor. Research project is chosen under guidance of full-time
graduate faculty member, resulting in written technical report. Notes: Prior approval required by faculty sponsor who supervises student's work. To register, students must complete an independent study form available in department office. It must be initialed by the faculty sponsor and approved by the department chair. Offered by Computer Science (p. 1025). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: 18 credits applicable towards MS degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 799: Thesis. 1-6 credits.
Research project completed under supervision of faculty member, which results in technical report accepted by three-member faculty committee. Report must be defended in oral presentation. Notes: To register, students must complete independent study form available in department office. It must be initialed by faculty sponsor and approved by department chair. Offered by Computer Science (p. 1025). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

800 Level Courses
SWE 821: Software Engineering Seminar. 3 credits.
Study of application of software engineering principles, design methods, and support tools through real-life problems extracted from faculty and industry projects. Notes: May be repeated with change in topic. Offered by Computer Science (p. 1025). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: SWE 621

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SWE 825: Special Topics in Web-Based Software. 3 credits.
Advanced topics in specifying, designing, modeling, developing, deploying, testing and maintaining software written as web applications and web services. May be repeated with change in topic. Offered by Computer Science (p. 1025). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: SWE 642 Software Engineering for the World Wide Web.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

Spanish (SPAN)

100 Level Courses
SPAN 101: Elementary Spanish I. 3 credits.
For students with no knowledge of Spanish. Introduction to Spanish, including elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Lab work required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 110.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPAN 102: Elementary Spanish II. 3 credits.
Continuation of SPAN 101. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 110, SPAN 115.

Recommended Prerequisite: SPAN 101, appropriate placement score, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPAN 110: Elementary Spanish. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 101, SPAN 102, SPAN 115.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
SPAN 115: Review of Elementary Spanish. 3 credits. Reviews elements for students who have studied Spanish previously. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 102, SPAN 110.

**Recommended Prerequisite:** Appropriate placement score, or permission of department.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

### 200 Level Courses

**SPAN 201: Intermediate Spanish I.** 3 credits.
Further development of skills in listening, speaking, reading, and writing. SPAN 201 and 202 must be taken in sequence. Lab work required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** SPAN 102, 110, appropriate placement score or permission of department.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Spanish

**SPAN 202: Intermediate Spanish II.** 3 credits.
Application of skills to reading, composition, and discussion. Lab work required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** SPAN 201, appropriate placement score or permission of department.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Fulfills foreign language requirement., Taught in Spanish

### 300 Level Courses

**SPAN 301: Grammar and Syntax.** 3 credits.
In-depth review of Spanish grammar and syntax. Extensive practice in controlled and free writing with emphasis on fundamental difficulties and points of interference that exist between English and Spanish. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Recommended Prerequisite:** SPAN 202, appropriate placement score, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Spanish

**SPAN 305: Spanish in Context I.** 3 credits.
Integrated content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 309, SPAN 315.

**Recommended Prerequisite:** SPAN 202 or equivalent, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Spanish

**SPAN 306: Spanish in Context II.** 3 credits.
Continuation of SPAN 305. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 309, SPAN 315.

**Recommended Prerequisite:** SPAN 305, or equivalent, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Spanish

**SPAN 309: Intensive Spanish in Context.** 6 credits.
Intensive content-based approach to the study of Spanish, designed to promote oral and written abilities, as well as critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Includes vocabulary-building activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 305, SPAN 306, SPAN 315.

**Recommended Prerequisite:** SPAN 202 or equivalent, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Taught in Spanish

**SPAN 315: Spanish for Heritage Speakers.** 3 credits.
Designed for students who have some communicative ability in Spanish, normally acquired in the home, who want to improve their reading and writing abilities while developing a critical understanding of Latin American, Latino, and/or Spanish histories and cultures. Course components include orthography and vocabulary activities, grammar review and practice, assigned readings in a variety of genres, critical cultural analysis, in-class discussions, written essays, and the viewing of films. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 305, SPAN 306, SPAN 309.

**Recommended Prerequisite:** Appropriate placement score or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPAN 321: Introduction to Spanish Culture. 3 credits.
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Spain. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 461.

Recommended Prerequisite: ENGL101 or Permission of Instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

SPAN 322: Introduction to Latin American Culture. 3 credits.
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Latin America. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 466.

Mason Core: Global Understanding (p. 137)

Recommended Prerequisite: ENGL 101/ENGH 101 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

SPAN 323: Field Study in Hispanic Culture. 1-3 credits.
History, culture, economic and social development, and scientific and artistic achievements that have contributed to the formation of modern Spain. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: 60 hours or Permission of Instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

SPAN 324: Study Abroad in Spanish. 3 credits.
Study at an academic institution in a Spanish-speaking country including classroom studies with professors from the host country and field experiences. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 202 (or equivalent) or permission of instructor

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 325: Major Hispanic Writers. 3 credits.
Study of the works of major Hispanic writers in translation. Writers studied vary. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 6 credits.

Mason Core: Literature (p. 137)

Recommended Prerequisite: ENGL 101 or equivalent.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 326: Treasures of Spanish-Language Literature and Culture. 3 credits.
Introduces key themes and trends in Spanish-language literature and culture in the global context. Content varies across texts, media or other cultural practices. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Advanced oral and written proficiency in Spanish, to be determined by the instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 329: Special Topics in Spanish and Latin American Literature. 3 credits.
Study of selected topics in Spanish or Latin American literature. Writers and topics vary. Notes: Designed for students who are not pursuing a concentration in Spanish. May be repeated when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: ENGL 101 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English, Title varies by section and/or semester

SPAN 335: Topics for Proficiency: The Americas. 3 credits.
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Latin American and/or Latino histories and cultures. Current events, films, literary texts, and popular culture reflecting issues of Latin Americans and/or Latinos serve as catalysts for class discussions, oral presentations, and debates. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: SPAN 202 (or equivalent) or permission of instructor

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish, Title varies by section and/or semester

SPAN 336: Topics for Proficiency: Spain. 3 credits.
Integrated content-based approach to conversational Spanish. Designed to promote increased confidence and fluency in both formal and informal Spanish registers, as well as critical understanding of Spanish history and culture. Current events, films, literary texts and popular culture reflecting Spanish issues serve as class discussions, oral presentations and debates. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: SPAN 202 (or equivalent) or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish, Title varies by section and/or semester

SPAN 351: Oral Spanish. 3 credits.
Development of oral expression on topics of current interest and everyday situations, including written assignments. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 202 or equivalent, appropriate placement score, or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 370: Spanish Writing and Stylistics. 3 credits.
Improves writing skills by covering formal and stylistic concepts of the Spanish language. Includes practice and exposure to different textual genres in an interdisciplinary fashion. Includes common doubts concerning spelling, expression, and style; business Spanish; journalistic Spanish; academic Spanish; and creative writing. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Recommended Prerequisite: SPAN 306 or 309, or SPAN 315, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 375: Introduction to Spanish-Language Cinema. 3 credits.
Introduces the study of film as an art form and the academic discipline of film studies as they relate to the Spanish-speaking world. Focuses on students' acquisition of knowledge on the material and principles of film form and their practice in film analysis of discrete Spanish language films and film genres of significance within the 20th and 21st centuries.

Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 305 and SPAN 306 or SPAN 309 or SPAN 315.

Recommended Corequisite: SPAN 370, SPAN 385, SPAN 388, SPAN 390.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 385: Introduction to Spanish Linguistics. 3 credits.
Introduces the study of Spanish linguistics, including phonetics, phonology, morphology, syntax, pragmatics, historical linguistics, and sociolinguistics. Combines discussion of theoretical issues with linguistic analysis of Spanish. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 370 (may be enrolled concurrently) or permission of instructor

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 388: Introduction to Latina/o Studies. 3 credits.
Interdisciplinary approach to the study of U.S. Latina/o cultural production, designed to promote critical thinking in understanding Latina/o histories, literatures, and cultures. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Recommended Prerequisite: SPAN 335 or 336, or SPAN 370, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 390: Introduction to Hispanic Literary Analysis. 3 credits.
Required course that prepares students for the study of Hispanic literatures. Introduces basic terminology of literary analysis and provides practice in the examination of texts in the major genres: poetry, narrative, and drama. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 370 (may be enrolled concurrently) or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish
400 Level Courses

SPAN 400: Spanish for the Professions. 3 credits.
Advanced study of the language needed for use in a specific profession, such as translation, business, social service, or health professions. Notes: May be repeated when profession differs. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: SPAN 385 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 425: Independent Study. 1-3 credits.
Research and analysis of a selected problem in literature or linguistics in consultation with a department member. Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Spanish major with 90 credits, and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPAN 426: Independent Study. 1-3 credits.
Research and analysis of a selected problem in literature or linguistics in consultation with a department member. Notes: Maximum of 6 credits of independent study may be applied to fulfillment of requirements for the major. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: Spanish major with 90 credits, and permission of instructor.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPAN 430: Spanish in the United States. 3 credits.
Covers both formal and sociolinguistic aspects of Spanish in the U.S. by discussing demographic aspects and a historical overview of the varieties of Spanish spoken in the United States. Gives a foundation in issues such as linguistic variation, language choice, the relationship among race, ethnicity, and language; official language policies; individual and societal bilingualism; and language diversity in education. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 385, or advanced ability in Spanish, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 452: Advanced Written Spanish. 3 credits.
Development of skills required in writing Spanish. Guided and original compositions. Grammatical structures reviewed and supplemented with individual corrections. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: 9 hours of SPAN at the 300 level or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 455: Spanish-English Translation. 3 credits.
Introduction to the history, theory, analysis, and practice of Spanish-English and English-Spanish translation. Includes literal versus free translation; denotation and connotation; regional and social variation; intercultural pragmatic differences; interlanguage influence and calques; and genre and audience. Hands-on experience with literary works, newspaper articles, and advertisements, as well as legal, medical, and technical documents. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 370 and ENGL 302/ENGH 302; or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPAN 461: Spanish Civilization and Culture. 3 credits.
Survey of Spanish culture and civilization from the pre-Roman era to the 20th century. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 321.

Recommended Prerequisite: SPAN 370 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish

SPAN 466: Latin American Civilization and Culture. 3 credits.
Introduction to the study of Latin American civilization and culture from the pre-Columbian era to the 20th century. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit. Equivalent to SPAN 322.

Mason Core: Global Understanding (p. 137)

Recommended Prerequisite: SPAN 370 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish
SPAN 472: Spanish Phonetics and Phonology. 3 credits.
Introduction to the analysis of the Spanish sound system, both phonetics and phonology. Topics include the articulatory system, sound production, the classification of vowels and consonants, phonetic transcription, the mental representation of sounds, variation and accent, and processes of sound change, among others. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 385, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPAN 474: Spanish Syntax and Semantics. 3 credits.
Investigates the knowledge Spanish speakers possess that enables them to understand and create expressions they have not heard before. Studies the system unconsciously used by Spanish speakers and writers to connect situations in the real world to the words and sentences that express each situation. Provides opportunities to analyze samples of language in actual use. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 385, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPAN 476: Teaching Spanish in the United States. 3 credits.
Introduction to second language acquisition theory and research, and the application to teaching Spanish as a second language and a heritage language. Includes a discussion of sociocultural and political issues surrounding the teaching of Spanish in the United States. Covers learning objectives, critical pedagogy, course design, grammar instruction, task-based language teaching, computer-assisted language learning, materials evaluation, and assessment. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: SPAN 385, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPAN 480: Special Topics in Spanish. 3 credits.
Study of a selected theme in Hispanic literature, culture, or linguistics. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: SPAN 385, 388 or 390, depending on topic, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Spanish, Title varies by section and/or semester

SPAN 481: Special Topics in Spanish. 3 credits.
Study of a selected theme in Hispanic literature, culture, or linguistics. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: SPAN 385, 388 or 390, depending on topic, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPAN 635:** Seminar in Don Quixote. 3 credits.
Study of Don Quixote and major critical approaches to the work. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPAN 650:** Seminar in Twentieth-Century Drama. 3 credits.
Study of major dramatists in the generation of 1898 and contemporary theater. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 9 credits.
Spanish (SPAN)

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPAN 655: Seminar in Twentieth-Century Prose. 3 credits.
Study of major writer, theme, or movement in novel or essay. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPAN 670: Seminar in Spanish American Prose. 3 credits.
Study of a selected theme, movement, or author in the novel, short story, or essay. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPAN 675: Seminar in Literature and Art. 3 credits.
Comparative analysis of a literary theme or style in relation to other media (painting, architecture, film) for an integral understanding of the arts. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPAN 680: Seminar in Literature and Society. 3 credits.
Study of a literary topic, a genre, or selected authors in relation to a given economic, social, or political system in Spain or Latin America. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPAN 685: Seminar in Literature and Ideas. 3 credits.
Study of major ideological-philosophical themes and their artistic expression in literature. Notes: May be repeated for credit when topic is different. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPAN 698: Directed Reading and Research. 3 credits.
Open only to degree students who have completed at least 18 credits. Reading and research on a specific project under the direction of a department member. Oral or written report required. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Graduate Special scale. (p. 82)

SPAN 799: Thesis. 1-6 credits.
Master’s thesis research and writing under direction of faculty committee. Students must register for 3 credits in the first semester of SPAN 799 and maintain continuous enrollment until completion of thesis. Credits are awarded upon completion. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

800 Level Courses

SPAN 800: Studies for the Doctor of Philosophy in Education. 3-6 credits.
Studies designed by student’s discipline director and approved by student’s doctoral committee that prepare student for research and writing in area of interest in discipline. Offered by Modern & Classical Languages (p. 419). May be repeated within the degree.

Recommended Prerequisite: Admission to PhD in education program to study in Spanish.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Research
Grading:
This course is graded on the Special scale. (p. 82)

Special Education (EDSE)

100 Level Courses

EDSE 115: American Sign Language (ASL) I. 4 credits.
Focuses on introduction of American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Laboratory, Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

EDSE 116: American Sign Language (ASL) II. 4 credits.
Focuses on expanding basic skills in American Sign Language (ASL) and Deaf culture. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 115
C Requires minimum grade of C.

Schedule Type: Laboratory, Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

EDSE 219: American Sign Language (ASL) III. 4 credits.
Focuses on intermediate level skills in American Sign Language (ASL) and Deaf culture. Increases competencies in person-to-person conversational signing, including expressive and receptive skills, vocabulary, syntax, semantics, and pragmatics. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 116
C Requires minimum grade of C.

Schedule Type: Laboratory, Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

EDSE 401: Introduction to Special Education. 3 credits.
Provides a survey of current knowledge on individuals with disabilities within the context of human growth and development across the life span. Includes historical factors, legislation, etiology, characteristics, needs, educational strategies, assessment, and support services for individuals with disabilities ranging from mild and moderate to severe levels of varying disabilities. Includes the impact of disabilities on academic, social, and emotional performances. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

EDSE 402: Classroom Management and Applied Behavior Analysis. 3 credits.
Focuses on identifying, recording, evaluating, and changing social and academic behaviors of special and diverse populations. Explores theories of classroom management and various approaches to management, including use of technological advances. Emphasizes developing classroom and individual behavior management plans. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

EDSE 403: Language Development and Reading. 3 credits.
Identifies literacy skills for typical and atypical students, and describes reading, language, and writing instruction for students with mild disabilities who access the general curriculum. Explores emergent literacy skills, phonemic awareness, vocabulary development, and comprehension. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 401 and EDSE 440.

Schedule Type: Lecture
Grading:
Recommended Prerequisite: Education placement. Notes: Delivered online. Offered by Graduate School of learning media, relationship of assessment, IEP development, and impairments. Examines determination of learning needs and appropriate Addresses assessment of technology for students with visual disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment. Notes: Course delivered online. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture

EDSE 411: Characteristics of Students with Visual Impairments. 2 credits.
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants' and children's growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment. Notes: Course delivered online. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

EDSE 412: Braille Code. 3 credits.
Provides understanding of the literary code of Braille and its implications for educational/literacy programs for students with a visual disability. Enables students to better understand the Braille code and how to teach it to students with a visual disability. Notes: Delivered online. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 411. Concurrent enrollment is also permitted.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

EDSE 414: Orientation and Mobility. 2 credits.
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Motor and concept skill development are emphasized. Notes: Delivered online. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 411. Concurrent enrollment is also permitted.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

EDSE 418: Curriculum and Assessment of Students with Visual Impairments. 3 credits.
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Students practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement. Notes: Delivered online. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 411.

Schedule Type: Lecture

EDSE 428: Elementary Reading, Curriculum, Strategies for Students Who Access the General Education Curriculum. 3 credits.
Applies research on instructional approaches in elementary curriculum for individuals with disabilities accessing general education curriculum. Includes curriculum and instructional strategies in reading, language arts, mathematics, science, social studies; cognitive strategies in study skills; attention and memory; and peer-mediated instruction. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture

EDSE 431: Transition and Community-Based Instruction. 3 credits.
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

EDSE 432: Positive Behavior Supports. 3 credits.
Explores concepts and skills needed to design, implement, and evaluate positive behavior support programs, derived from functional assessment, to support the specific needs of students with severe disabilities. Addresses relevant replacement skills; facilitates generalization and maintenance of skills; applies instructional strategies to support behavior, and incorporates individually designed crisis intervention procedures. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

EDSE 434: Communication and Severe Disabilities. 3 credits.
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses the knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction aimed at motivating, building, and expanding communication, choice-making, and social interaction. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

EDSE 440: Characteristics of Students with Disabilities Who Access the General Curriculum. 3 credits.
Examines the characteristics of students with mild disabilities. Focuses on etiology; contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for
academic, social, and emotional accommodations and support. Note:
School-based field experience required. Offered by Graduate School of
Education (p. 157). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**EDSE 447: Medical and Developmental Risk Factors for Children with
Disabilities.** 3 credits.
Examines the nature and causes of disabling or special health conditions.
Covers screening and evaluation techniques, characteristics, and
educational implications. Offered by Graduate School of Education
(p. 157). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**EDSE 457: Foundations of Language and Literacy for Diverse Learners.** 3
credits.
Examines the complexity of language acquisition and literacy
development. Focuses on typical and atypical language development,
connections between language and literacy, and diversity of
communication styles in families and cultures. Emphasizes first and
second language acquisition. Offered by Graduate School of Education
(p. 157). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**EDSE 469: Interdisciplinary Approach for Children with Sensory and Motor
Disabilities.** 3 credits.
Emphasizes positioning, handling, and adaptive strategies. Focuses on
understanding the roles of related disciplines in collaborative planning
and service delivery. Offered by Graduate School of Education (p. 157).
May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**EDSE 495: Standard Applied Behavior Analysis Practicum.** 3 credits.
Meets standard undergraduate supervision requirements by the Behavior
Analyst Certification Board to develop, design, implement, and evaluate behavior
analytic techniques that produce meaningful change. Notes: This Applied
Behavior Analysis Practicum follows the experience guidelines of the
Behavior Analysis Certification Board (WWW.BACB.com) Offered by
Graduate School of Education (p. 157). May be repeated within the degree
for a maximum 9 credits.

**Recommended Prerequisite:** EDSE 460 (may be taken concurrently);
admission to or prior completion of the Applied Behavior Analysis minor
or permission of instructor; submission of practicum application to the
Special Education program.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**EDSE 499: Intensive Applied Behavior Analysis Practicum.** 6 credits.
Meets intensive supervision requirements by the Behavior Analyst
Certification Board to develop, design, implement, and evaluate behavior
analytic techniques that produce meaningful change. Notes: This Applied
Behavior Analysis Practicum follows the experience guidelines of the
Behavior Analysis Certification Board (WWW.BACB.com) Offered by
Graduate School of Education (p. 157). May be repeated within the degree
for a maximum 12 credits.

**Recommended Prerequisite:** EDSE 460 (may be taken concurrently);
admission to or prior completion of the Applied Behavior Analysis minor
or permission of instructor; submission of practicum application to the
Special Education program.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**500 Level Courses**

**EDSE 501: Introduction to Special Education.** 3 credits.
Provides a survey of current knowledge on individuals with disabilities
within the context of human growth and development across the lifespan.
Includes historical factors, legislation, etiology, characteristics, needs,
educational strategies, assessment, and support services for individuals
with disabilities ranging from mild and moderate to severe levels of
varying disabilities. Includes the impact of disabilities on academic,
social, and emotional performances. Offered by Graduate School of
Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 502: Classroom Management and Applied Behavior Analysis.** 3 credits.
Focuses on identifying, recording, evaluating, and changing social and
academic behaviors of special and diverse populations. Explores theories
of classroom management and various approaches to management
including use of technological advances. Emphasizes developing
classroom and individual behavior management plans. Note: Field
experience required. Offered by Graduate School of Education (p. 157).
May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy,
Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level
students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 503: Language Development and Reading. 3 credits.
Identifies literacy skills for typical and atypical students, and describes reading, language, and writing instruction for students with mild disabilities who access the general curriculum. Explores emergent literacy skills, phonemic awareness, vocabulary development, and comprehension. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 511: Characteristics of Students with Visual Impairments. 2 credits.
Provides an overview of the characteristics of and services to persons with visual impairments, including the impact of visual impairment on infants’ and children’s growth and development, child and adolescent emotional and social development, and family interaction patterns. Considers the educational, conceptual, psychosocial, and physical implications of a visual impairment. Notes: Course delivered online. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 512: Braille Code. 3 credits.
Provides understanding of the literacy code of Braille and its implications for educational/literacy programs for students with a visual disability. Enables students to better understand the Braille code and how to teach it to students with a visual disability. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

EDSE 513: Medical and Educational Implications of Visual Impairments. 3 credits.
Provides an introduction to anatomy and physiology of the visual system and the educational implications of visual pathology. Covers anatomy of the human eye, normal visual development, pathology of the eye, examination procedures for the identification of visual pathology, and the effects of pathology on visual learning and development. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 514: Orientation and Mobility for Students with Visual Impairments. 2 credits.
Provides the foundation for understanding the components and essence of orientation and mobility (O&M). Establishes how the need for independent travel in the blind population created the field of O&M. Explores the philosophy and history of orientation and mobility, including cane instruction, dog guides, and methods of travel. Addresses techniques in developing orientation skills and basic mobility instruction. Emphasizes motor and concept skill development. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 515: American Sign Language (ASL) I. 4 credits.
Focuses on introduction of American Sign Language (ASL) and Deaf culture. Teaches basic person-to-person conversational signing. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics.
of the language. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 516: American Sign Language (ASL) II. 4 credits.
Focuses on expanding basic skills in American Sign Language (ASL) and Deaf culture. Emphasizes development of expressive and receptive skills. Increases knowledge of ASL vocabulary and the syntax, semantics, and pragmatics of the language. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: EDSE 515C or 115C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 517: Computer Applications for Special Populations. 3 credits.
Explores the applications of computer technology for instructional programs and computer skills used by teachers of special populations. Provides experience with computer technology designed for special populations. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Schedule Type: Lecture

EDSE 518: Curriculum and Assessment of Students with Visual Impairments. 3 credits.
Provides students with knowledge and understanding of the educational assessment of students with visual impairments and additional disabilities including deaf-blindness. Provides practice assessing and planning educational programs for students with visual impairments. Addresses assessment of technology for students with visual impairments. Examines determination of learning needs and appropriate learning media, relationship of assessment, IEP development, and placement. Notes: Field Experience Required. Delivered online. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 519: American Sign Language (ASL) III. 4 credits.
Focuses on intermediate level skills in American Sign Language (ASL) and Deaf culture. Increases competencies in person-to-person conversational signing, including expressive and receptive skills, vocabulary, syntax, semantics, and pragmatics. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: EDSE 516C or 116C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 531: Transition and Community-Based Instruction. 3 credits.
Addresses issues in transition for youth with severe disabilities. Covers self-determination, development, and implementation of a transition plan, post-secondary opportunities including education and community-based instruction, and vocational environments. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
EDSE 532: Positive Behavior Supports. 3 credits.
Focuses on employing concepts and skills to design, implement, and evaluate behavior support programs derived from functional assessment; addressing relevant replacement skills; facilitating generalization and maintenance of skills; and incorporating individually designed crisis intervention procedures. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 533: Curriculum and Assessment in Severe Disabilities. 3 credits.
Addresses best practices in curriculum and assessment for individuals with severe disabilities. Covers the design of assessment and evaluation techniques and procedures for the severe-needs population, including adaptations and accommodations. Covers IEP formulation and implementation with linkage to assessment. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 534: Communication and Severe Disabilities. 3 credits.
Introduces professionals to augmentative and alternative communication (AAC) for individuals with severe speech and language impairments. Addresses the knowledge and skills needed to assess the potential AAC user, make team decisions, develop and implement instruction, and evaluate the effects of instruction, aimed at motivating, building, and expanding communication, choice-making, and social interaction. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 540: Characteristics of Students with Disabilities who Access the General Curriculum. 3 credits.
Examines the characteristics of students with mild disabilities. Focuses on etiology, contributing factors, conditions that affect learning, the challenges of identifying students with disabilities, and the need for academic, social, and emotional accommodations and support. Notes: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 544: Adapted Instructional Methods and Transition for Secondary Learners. 3 credits.
Provides strategies for teaching functional academics and social/life skills, facilitating the transition to postsecondary environments. Focuses on all aspects of transition and alternative assessments for secondary learners with disabilities. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 547: Medical and Developmental Risk Factors for Children with Disabilities. 3 credits.
Examines the nature and causes of disabling or special health conditions. Covers screening and evaluation techniques, characteristics, and educational implications. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 557: Foundations of Language and Literacy for Diverse Learners. 3 credits.**
Examines the complexity of language acquisition and literacy development. Focuses on typical and atypical language development, connections between language and literacy, and diversity of communication styles in families and cultures. Emphasizes first and second language acquisition. Notes: Field Experience required Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 561: Secondary Science for Special Education Teachers. 3 credits.**
Provides the necessary depth and breadth of science content knowledge required for prospective secondary special education science teachers. Prepares students for the Praxis Content Knowledge tests in five fields: Biology, Chemistry, Earth and Space Science, General Science and Physics. Design science content area instruction for students with mild disabilities utilizing current evidence-based practices. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 562: Foundations of Reading Instruction for Students with Specific Learning Disabilities. 3 credits.**
Examines the characteristics of students with specific learning disabilities who demonstrate severe deficits in reading and written language. Addresses language development from an anatomical, physiological, and social perspective. Provides essential knowledge in language development. Examines the legislation that addresses the rights of students with disabilities. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 563: Language Structure and Literacy Development for Students with Specific Learning Disabilities. 3 credits.**
Examines the components of the English language, including language processing requirements, integrated with the development of literacy skills. Analyzes language and literacy performance and the variability of language learning in students with specific learning disabilities. Explores environmental, social, and cultural factors, including the impact of second language learning and dual-identification. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: EDSE 562B-.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 564: Phonology, Phonics, and Fluency for Students with Specific Learning Disabilities. 3 credits.**
Evaluates phonology, phonics, and fluency skills of students with specific learning disabilities using formal and informal measures. Designs instruction to meet the needs of students with learning disabilities who have deficits in these areas. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: EDSE 563B-.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 565: Vocabulary, Comprehension, and Written Expression for Students with Specific Learning Disabilities. 3 credits.**
Evaluates vocabulary, text comprehension, and written expression skills of students with specific learning disabilities using formal and informal measures. Designs instruction to meet the needs of students with learning disabilities who have deficits in these areas. Offered by Graduate School of Education (p. 157). May not be repeated for credit.
Registration Restrictions:
Required Prerequisite: EDSE 564B.
* May be taken concurrently.
B. Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 567: Practicum for Specialized Reading Instruction for Students with Specific Learning Disabilities. 3 credits.
Demonstrate competencies for implementing intensive, data-based interventions to students with specific learning disabilities who have severe deficits in reading and writing. Administer and analyze assessments and design interventions for phonics, fluency, word recognition, text comprehension and written expression. Monitor student progress and modify instruction as needed. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 565B.
B. Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

EDSE 590: Special Education Research. 3 credits.
Describes fundamental concepts and practices in educational research in special education. Covers specific applications of educational research methods to problems in special education. Emphasizes review and critique of special education research, and applied classroom research for teachers. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 597: Special Topics in Education. 1-6 credits.
Provides advanced study on selected topic or emerging issue in Special Education. Offered by Graduate School of Education (p. 157). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Admission to program in Graduate School of Education

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 613: Teaching Methods for Students with Visual Impairments. 3 credits.
Emphasizes methods of teaching compensatory skills, the core curriculum, and technology for use by students who are blind and visually impaired. Addresses curriculum development, adaptations, and teaching methodology for individuals with visual impairments. Provides information on adaptations within various educational programs and adaptation of general education classroom materials and procedures for use with blind and low vision children and youth. Notes: Delivered online. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 511. Concurrent enrollment is also permitted.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 616: Braille Reading and Writing. 3 credits.
Provides basic instruction on transcription of advanced Braille codes, including music, foreign language, chemistry, computer Braille, and Nemeth code (Braille math code). Introduces techniques for teaching skills in each code. Explores technology tools used to create Braille and tactile materials in addition to other assistive technologies used for instruction in math and science. Notes: Field experience required. Delivered online. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
Recommended Prerequisite: EDSE 511 (may be taken concurrently), EDSE 512.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Focuses on basic principles and procedures of applied behavior analysis; identification of factors that contribute to behavioral problems and improved performance; and procedures that can be used to minimize behavioral problems, improve performance, teach new behaviors, and increase probability of behaviors occurring under appropriate circumstances. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: Admission to Applied Behavior Analysis Graduate Certificate Program (ABAC).

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 620: Supporting the Behavior and Sensory Needs of Individuals with Autism. 3 credits.
Describes the behavior and sensory development of individuals with autism spectrum disorder across their lifespans. Analyzes the principles of behavior management and the evidence and research-based interventions that have been proven to be effective with individuals with autism and sensory needs. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Focuses on basic content of applied behavior analysis. Teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 619B. 
* May be taken concurrently.
B Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 623: Applied Behavior Analysis: Assessments and Interventions. 3 credits.
Expands on basic content of applied behavior analysis and teaches how to implement behavioral procedures and develop behavioral programs for clients with fundamental behavioral needs. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 619B.
B Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 624: Applied Behavior Analysis: Applications. 3 credits.
Develops capability to deal with more complex behavioral situations, enabling ability to relate to more sophisticated professional issues and environments. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: EDSE 619B.
B Requires minimum grade of B.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 625: Applied Behavior Analysis: Verbal Behavior. 3 credits.
Expands students’ abilities to deal with more complex behavioral situations and enables students to relate to more sophisticated
professional issues and environments. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
- **Required Prerequisite:** EDSE 619 B.
  - B: Requires minimum grade of B.
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.
- Enrollment is limited to Graduate or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 626: The Inclusive Classroom.** 3 credits.
Introduces participants to instructional procedures for facilitating inclusive instruction for students with disabilities in general education settings. Covers research-based strategies for adapting curriculum materials, designing instructional procedures, and evaluating students with disabilities. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment limited to students with a class of Graduate or Senior Plus.
- Enrollment is limited to Graduate or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 627: Assessment.** 3 credits.
Offers knowledge and experiential learning activities related to assessment of students with mild disabilities. Includes statistical and psychometric concepts in assessment. Addresses norm-referenced, criterion-referenced, curriculum-based, and informal assessment for instructional and placement decisions. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment limited to students with a class of Graduate or Senior Plus.
- Enrollment is limited to Graduate or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 628: Elementary Reading, Curriculum, Strategies for Students Who Access the General Education Curriculum.** 3 credits.
Applies research on instructional approaches in elementary curriculum for individuals with disabilities accessing general education curriculum. Includes curriculum and instructional strategies in reading, language arts, mathematics, science, social studies; cognitive strategies in study skills; attention and memory; and peer-mediated instruction. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment limited to students with a class of Graduate or Senior Plus.

**Schedule Type:** Lecture

**EDSE 629: Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum.** 3 credits.
Applies research on teacher effectiveness, accountability, and instructional approaches at the secondary level for individuals with mild disabilities. Includes instructional methods necessary for teaching reading, writing, math, and other content areas across the curriculum. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment limited to students with a class of Graduate or Senior Plus.
- Enrollment is limited to Graduate or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 634: Characteristics of Individuals with Autism.** 3 credits.
Describes the varying characteristics of individuals with autism spectrum disorders across their lifespans including, (a) diagnosis, (b) early childhood, (c) school-age, (d) transition, (e) employment, and (f) aging. Examines definitions, eligibility criteria, incidence rates, and etiology of autism spectrum disorders. Analyzes perspectives from students, families, educational, community, and career personnel. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 635: Interventions for Individuals with Autism.** 3 credits.
Analyzes evidence and research-based interventions for individuals with autism in a variety of domains across their lifespans including academic, communication, social, and behavioral. Evaluates methods for prioritizing intervention needs for individuals with autism across their lifespans, developing appropriate interventions to address those needs, and measuring the impact of interventions in a variety of service delivery models. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Recommended Prerequisite:** EDSE 634. Concurrent enrollment is also permitted.

**Registration Restrictions:**
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 636: Supporting Communication and Literacy for Individuals with Autism.** 3 credits.
Surveys the characteristics of communication and literacy, as well as the design and implementation of communication systems for individuals with autism spectrum disorder across their lifespans. Explains methods for assessment, identification of priorities, and monitoring progress of communication and literacy instruction in order to improve behavior, academic skills, and social interactions in various environments. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 637: Autism Across the Lifespan: Collaboration with Critical Partners.** 3 credits.
Examines characteristics, milestones, critical issues, and areas of need for individuals with autism spectrum disorder across their lifespans. Prioritizes key features of effective collaboration and partnership. Utilizes a strengths-based problem solving perspective to frame collaboration and partnership for individuals with autism spectrum disorder across their lifespan and simulates partnership practices with a variety of stakeholders across the lifespan of an individual with autism spectrum disorder. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 662: Consultation and Collaboration.** 3 credits.
Provides professionals in special education, regular education, and related fields with knowledge and communication skills necessary for collaborative consultation and technical assistance to other educators and service providers. Note: Field experience required. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Recommended Prerequisite:** Teaching licensure or enrollment in a graduate degree program in education.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 663: Collaborative Teamwork to Support Students with Significant Disabilities.** 3 credits.
Focuses on models of teamwork, group decision making, team process, leadership and communication and how they influence services for individuals with significant disabilities and their families. Provides an understanding of collaborative structures and demonstrates knowledge of skills and strategies to maintain effective relationships with a variety of stakeholders in collaborative settings. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**EDSE 664: Ethical and Professional Conduct for Behavior Analysis.** 3 credits.
Provides a basis in Virginia Behavior Analyst Licensure law, the Behavior Analyst Certification Board Guidelines for Responsible Conduct and Disciplinary Standards, and professional conduct consistent with the practice of applied behavior analysis. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: EDSE 619B.
EDSE 701: Legal Issues and Special Populations. 3 credits.
Studies the impact of legislation and litigation on the education of special populations emphasizing IDEA and Section 504. Covers emerging trends in special education based on interpretation of landmark court cases related to disability, legal updates on policies and procedures for exceptional learners, and discussion of the guiding principles of special education law when addressing the needs of special populations. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 702: Managing Resources for Special Education Programs. 3 credits.
Examines development and delivery of specialized programs for exceptional learners. Covers implementation of Individualized Education Plans via Universal Design, financial and human resource allocation and management, effective supervision and evaluation, and student outcome documentation. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 703: Creating a Collaborative Culture. 3 credits.
Provides leaders in school settings with an opportunity to gain the skills needed to facilitate collaborative environments supportive of all learners. Discusses the impact of diversity on educational settings, developing a vision effective communication teaming and co-teaching techniques, family professional partnerships, implementing schoolwide change initiatives, alternative dispute resolution, and maintaining a positive school climate. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 743: Leadership in Special Education Administration. 3 credits.
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite:
Admission to the Early Childhood Special Education program or permission of the instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

EDSE 669: Interdisciplinary Approach for Children with Sensory and Motor Disabilities. 3 credits.
Focuses on strategies for developing culturally appropriate family-professional partnerships to benefit children with special needs. Explores theories and research that support a family-centered approach. Includes family and professional rights and responsibilities in the special education process. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Graduate or Senior Plus.

EDSE 665: Families of Children with Special Needs. 3 credits.
Focuses on strategies for developing culturally appropriate family-professional partnerships to benefit children with special needs. Explores theories and research that support a family-centered approach. Includes family and professional rights and responsibilities in the special education process. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite:
Admission to the Early Childhood Special Education program or permission of the instructor.

EDSE 669: Interdisciplinary Approach for Children with Sensory and Motor Disabilities. 3 credits.
Focuses on strategies for developing culturally appropriate family-professional partnerships to benefit children with special needs. Explores theories and research that support a family-centered approach. Includes family and professional rights and responsibilities in the special education process. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite:
Admission to the Early Childhood Special Education program or permission of the instructor.

EDSE 701: Legal Issues and Special Populations. 3 credits.
Studies the impact of legislation and litigation on the education of special populations emphasizing IDEA and Section 504. Covers emerging trends in special education based on interpretation of landmark court cases related to disability, legal updates on policies and procedures for exceptional learners, and discussion of the guiding principles of special education law when addressing the needs of special populations. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
EDSE 744: Current Issues in Special Education. 3 credits.
Helps students develop an understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Familiarizes students with current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of their methodological strengths and weaknesses and their part in providing convergent bodies of evidence that can be used for defining practice and policy. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 782: Comprehensive Topics in Special Education: Trends and Issues. 3 credits.
Focuses on current trends and issues in special education and disabilities. Provides students the opportunity under the direction of instructor to complete individually designed projects addressing major trends and issues in their emphasis area of special education. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: Majority of course work completed.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

EDSE 783: Internship: Special Education in General Curriculum. 3-6 credits.
Applies, in supervised internships, university course work in General Curriculum to instruction of children and their families in school settings. Notes: Demonstration that RVE, VCLA, Praxis Entry, and other program-specific requirements have been met; application for internship on file by program deadline. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Students W/Dis Access Gen Curr.

Enrollment is limited to students with a major in Students W/Dis Access Gen Curr.

Enrollment limited to students in a Graduate Certificate degree.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

EDSE 784: Internship: Adapted Curriculum. 3-6 credits.
Applies, in supervised internships, university course work in Adapted Curriculum to instruction of children and their families in school settings. Notes: Demonstration that VCLA, Praxis Entry, and other program-specific requirements have been met; application for internship on file by program deadline. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Students W/Dis Access Adp Curr.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Graduate Certificate degree.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

EDSE 785: Internship: Visual Impairment. 2-6 credits.
Applies, in supervised internships, university course work in Visual Impairment to instruction of children and their families in school settings. Notes: Passing scores on Praxis Entry requirement; demonstration that reading content and other program specific requirements have been met; application for internship on file by program deadline. Offered by Graduate School of Education (p. 157). May be repeated within the term for a maximum 6 credits.

Recommended Prerequisite: EDSE 411 or 511; EDSE 412 or 512; EDSE 513.

Registration Restrictions:
Enrollment is limited to students with a major in Visual Impairments Lic PK-12.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Graduate Certificate degree.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

EDSE 789: Special Topics. 1-6 credits.
Advanced study of selected topics in education for students preparing for doctoral studies or who have been admitted to the PhD program in education. Offered by Graduate School of Education (p. 157). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 795: Standard Applied Behavior Analysis Practicum. 3 credits.
Meets standard practicum supervision requirements by the BACB to provide hands-on experience designing, implementing, and evaluating behavior analytic procedures under the supervision of a Board Certified Behavior Analyst. Notes: This Applied Behavior Analysis Practicum follows the experience guidelines of the Behavior Analysis Certification
Disabilities, and gaining an understanding of the submission process for formulating future research questions relevant to individuals with special education. Emphasizes analyzing research methodology, coding study, analysis, and discussion of original intervention research in providing research methodology. Prepares students to design effective instructions and assess currently existing instructional programs and curricula. Offered by Graduate School of Education

EDSE 796: Foundations in Behavior Analytic Instructional Design and Teaching Methodology. 3 credits.
Focuses on behavior analytic instructional design and teaching methodology. Prepares students to design effective instructions and assess currently existing instructional programs and curricula. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral level program within the Graduate School of Education.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

EDSE 825: Foundations in Behavior Analytic Instructional Design and Teaching Methodology. 3 credits.
Focuses on behavior analytic instructional design and teaching methodology. Prepares students to design effective instructions and assess currently existing instructional programs and curricula. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: Admission to a doctoral level program within the Graduate School of Education.

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 841: Intervention Research in Special Education. 3 credits.
Provides advanced graduate students with opportunities for in-depth study, analysis, and discussion of original intervention research in special education. Emphasizes analyzing research methodology, coding original intervention research, analyzing results, synthesizing findings, formulating future research questions relevant to individuals with disabilities, and gaining an understanding of the submission process for conferences and publications. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 619 or PSYC 619 or permission by the instructor

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

EDSE 842: Application of Research Methodology in Special Education. 3 credits.
Provides knowledge and skills in the application of research methodology in special education. Topics include methods for conducting survey research, experimental and quasi-experimental research, research involving correlation and regression, and qualitative research. Emphasizes application to specific issues in special education research. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 619 or PSYC 619 or permission by the instructor

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 843: Leadership in Special Education Administration. 3 credits.
Examines leadership issues and applies them to the administration of special education programs. Explores current challenges in the delivery of services for exceptional children through case studies and projects. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 619 or PSYC 619 or permission by the instructor

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 844: Current Issues in Special Education. 3 credits.
Develops understanding of the role of convergent research evidence in addressing current issues in special education practice and policy. Describes current issues in special education and the group experimental, single subject, and qualitative research designs used to address these current issues. Students evaluate research studies in terms of methodological strengths and weaknesses, and their part in providing convergent bodies of evidence that can be used for defining practice and policy. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDSE 619 or PSYC 619 or permission by the instructor

Registration Restrictions:
Enrollment is limited to students with a major in Education.

Enrollment is limited to Graduate level students.
This course is graded on the Graduate Regular scale. (p. 82)

EDSE 885: Writing Grants. 3 credits.
Focuses on identification of funding sources, description of grant components, and development of grant budgets. Includes independent writing of an entire small grant, a significant portion of a large grant, and participation in grant peer-review process. Offered by Graduate School of Education (p. 157). May not be repeated for credit.

Recommended Prerequisite: EDRS 811 or EDRS 812.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Sport Management (SPMT)

100 Level Courses

SPMT 100: Current Events in Sport Business. 1 credit.
Engages students in a discussion about recent developments in the sport industry, using the Sport Business Journal to stimulate the discussion as well as provide the student with current information about this rapidly changing industry. There will be two field trips conducted as part of this class. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPMT 110: Basketball Officiating. 1 credit.
Teaches the fundamentals of officiating basketball including a thorough discussion of each of the rules as well as instruction of two person mechanics. Provides opportunity to become a certified Virginia High School League (VHSL) official. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPMT 111: Football Officiating. 1 credit.
Teaches the fundamentals of officiating football including a thorough discussion of each of the rules as well as instruction of crew mechanics. Provides opportunity of becoming a certified Virginia High School League (VHSL) official. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPMT 112: Soccer Officiating. 1 credit.
Teaches the fundamentals of officiating soccer including a thorough discussion of each of the rules as well as instruction of crew mechanics. Provides opportunity of becoming a certified Virginia High School League (VHSL) official. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses
SPMT 201: Introduction to Sport Management. 3 credits.
Introduces sport management profession. Primary focus is on sport industry, including professional sport entertainment, amateur sport entertainment, for-profit sport participation, nonprofit sport participation, sporting goods, and sport services. Notes: Open to non majors. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 202: Mental Skills for Sport Performance. 2 credits.
Introduces mental skills training for sport performance used within the field of sport and exercise psychology. Demonstrates mental practice techniques to be practiced and assessed. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 210: Foundations of Sport Coaching. 3 credits.
Introduction to the scientific bases for coaching sports and the process of coaching athletes. It includes the development of an individual coaching philosophy and the application of scientific training in the psychological, physiological, pedagogical and managerial bases of sport coaching. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 241: Practicum. 3 credits.
Paid or voluntary experience in sport industry setting. Work sites chosen by students after receiving approval of faculty supervisors. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Internship
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Registration Restrictions:
Required Prerequisite: SPMT 201D.
D Requires minimum grade of D.

Enrollment is limited to students with a concentration in Sport Management.

Schedule Type: Internship
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses
SPMT 302: Philosophical and Ethical Dimensions of Sport. 3 credits.
Investigates moral issues in sport and judgments about right and wrong behavior among athletes, coaches, spectators, and others. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 304: Sport, Culture, and Society. 3 credits.
Analyzes sport from educational, political, economic, and cultural perspectives. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 318: Diversity and Inclusion Issues in Sport. 3 credits.
Focuses on sport participant and employee diversity and inclusive practices; and how differences based on religion disability, socioeconomic class, sex, gender, sexual orientation and racial hierarchies impacts historical and current sport experiences and outcomes. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 320: Psychology of Sport. 3 credits.
Psychological theories of personality, motivation, and anxiety explored in sport environment. Examines social-psychological research on audience effects, team cohesion, leadership, and fan behavior. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 321: America Through Baseball. 3 credits.
This course is designed for the student to gain an understanding of the past and present role of baseball in American culture. The course focuses on the development of professional baseball over the past 160 years and the ways in which the history of America as a nation and culture can be "read" through baseball. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 322: Football and American Culture. 3 credits.
Designed for the student to gain an understanding of the past and present role of football in American culture. Focuses on the development of college, professional and high school football over the past 120 years and contemporary issues in football culture are analyzed such as debates over racial symbols and mascots, the question of professionalizing division one college football, and tailgating and televisual football cultures. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
SPMT 323: America and the Modern Olympics. 3 credits.
This course is designed to provide students an understanding of the role played by the United States in the modern Olympic movement. The primary focus is on the United States relationship with the modern Olympics from the earliest days of the games up through the Cold War period and beyond. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 341: Field Experience in Sport Coaching. 3 credits.
Application of the scientific bases for coaching sports and the process of coaching athletes. Includes paid or voluntary experience in a sport-specific setting. The practicum location is to be chosen by students after receiving approval of the faculty supervisor. A minimum of 120 clock hours is required within the timeframe of the course. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: SPMT 210C.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Coaching.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses

SPMT 405: Sport Venues and Events. 3 credits.
Principles and techniques of event planning and operations in sport facilities and venues. Emphasizes principles and concepts of organization and administration including communication, personnel management, management of physical resources, and risk management. Examines a variety of sport events and venues such as indoor stadiums, athletic field complexes, and managing recreation and intramural activities. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: Completion of 60 hours.

Registration Restrictions:
Required Prerequisite: SPMT 201D.
D Requires minimum grade of D.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 420: Economics and Finance in the Sport Industry. 3 credits.
Examines the principles of economics, budgeting, and finance as it applies to the sport industry. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Required Prerequisite: Completion of 60 hours.

Registration Restrictions:
Required Prerequisite: SPMT 201D.
D Requires minimum grade of D.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 425: Sport Analytics. 3 credits.
Discusses theories and concepts in sport analytics. Topics cover player performance, player management, sports data strategies, team management, and game day operations and strategies. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Required Prerequisites:
Required Prerequisite: SPMT 201C and (STAT 250C or BUS 210D).
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 430: Sport Communication. 3 credits.
Provides a senior-level exploration of the role of sport communication in contemporary cultures. Readings and discussions address questions about how communication about/in sports highlights the importance of sports, the cultural identities of those who engage in sport communication, and the pervasiveness of sport communication practices in industry. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: General COMM course.

Registration Restrictions:
Required Prerequisite: SPMT 201D.
D Requires minimum grade of D.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SPMT 440: Global Perspectives in Sport. 3 credits.
An interdisciplinary examination of sport as a global phenomenon. Historical, cultural, economic, and governance perspectives are considered. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: 60 hours.
SPMT 455: Governance and Policy in Sport Organizations. 3 credits.
Examines sport organizations focused on both professional and amateur governance structures and processes. The study of policy in educational, nonprofit, and professional sport venues is also addressed. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 60 hours.

**Registration Restrictions:**
**Required Prerequisite:** SPMT 201 D.
D Requires minimum grade of D.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

---

SPMT 462: Sport Business Law. 3 credits.
Students in this course will receive instruction in the major areas of the law that impacts the sport industry. Students will also see how knowledge of sport law can make them better sport managers. There will be an introduction to the legal system in the United States and then we will see how the law has shaped the management of sport organizations and the playing and staging of the games. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** 60 credits.

**Registration Restrictions:**
**Required Prerequisite:** SPMT 201 D.
D Requires minimum grade of D.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

---

SPMT 470: Strategic Management and Leadership in Sport Organizations. 3 credits.
Provides a foundation in organizational studies. It addresses the theoretical underpinnings and applications of leadership. It examines strategic planning processes and management within sport organizations. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** 60 hours.

**Registration Restrictions:**
**Required Prerequisite:** SPMT 201 D.
D Requires minimum grade of D.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

---

SPMT 475: Sport Management Professional Development Seminar. 3 credits.
This is a seminar format in which students synthesize and apply theories, concepts, and practices in the leadership and management of sport organizations. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** 75 hours.

**Registration Restrictions:**
**Required Prerequisite:** SPMT 241 D.
D Requires minimum grade of D.

Enrollment is limited to students with a concentration in Sport Management.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

---

SPMT 480: Special Topics in Sport Management. 3 credits.
Selected topics reflecting interest in specialized areas of sport management announced in advance. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 6 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Mason Core:** Capstone (p. 137)

**Recommended Prerequisite:** SPMT 475 and completion of 90 credits.

**Registration Restrictions:**
**Required Prerequisite:** SPMT 241 C.
C Requires minimum grade of C.

Enrollment is limited to students with a concentration in Sport Management.

**Schedule Type:** Internship

---

SPMT 490: Internship. 12 credits.
Paid or voluntary work experience in sport industry settings. Requires minimum period of 10 to 12 weeks of full-time employment. Applies course work, theories, and research to work settings. Work sites chosen by students after approval of faculty supervisors. Includes meetings and assignments before and during the internship. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** SPMT 475 and completion of 90 credits.

**Registration Restrictions:**
**Required Prerequisite:** SPMT 241 C.
C Requires minimum grade of C.

Enrollment is limited to students with a concentration in Sport Management.

**Schedule Type:** Internship

---

SPMT 499: Independent Study. 1-3 credits.
Faculty-directed independent study of approved topics in sport management. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Independent Study

---

**Grading:**
500 Level Courses

SPMT 551: Sport in the Global Marketplace. 3 credits.
Explores sport business internationally including the production and consumption of professional and Olympic-linked sports and the impact of globalization on sport. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPMT 555: The Australian Model of Sport. 3 credits.
Examines the Australian model of sport which has been adopted in many countries. Analyzes government sport policy and the organization and administration of Australian professional sports. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: SPMT 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPMT 556: The Global Soccer Industry. 3 credits.
Explores the international soccer industry focusing on major professional leagues, international federations, international movement of players, the production of soccer equipment, legal and social issues. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: SPMT 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

SPMT 611: Sport Marketing and Sales. 3 credits.
Investigates principles and processes in sport marketing. Focuses on research and development, sport promotion, sport sponsorship, advertising, merchandising, and distribution of sporting goods. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPMT 612: Economics and Financial Management in the Sport Industry. 3 credits.
Examines principles of economics, budgeting, and finance as they apply to the sport industry. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPMT 613: Strategic Leadership in Sport Organizations. 3 credits.
Examines the theoretical underpinnings and effective strategic processes of leadership in sport organizations. Leader behaviors, characteristics, situational influences, and the cognitive dimensions of leadership will be explored within the organizational context. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SPMT 614: Legal Issues in Sport. 3 credits.
Examines legal issues as they apply to the sports industry. Course content includes, but is not limited to: tort law, risk management procedures, product liability, constitutional/contract/administrative/
statutory law, crowd control/security, personal/professional values, and situational analysis. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPMT 616: Sport Operations, Venues, and Event Management. 3 credits.**
Examines administrative functions and operations, strategic planning, governance structures, policy development, and effective practices in the strategic management of sport programs, including managerial principles for venues and events. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPMT 618: Psychology of Coaching. 3 credits.**
Presents a psychological foundation for sport coaching. Basic tenets of the psychology of individual and group behavior will include motivation, stress, communication, group cohesion/dynamics, leadership, reinforcement, and feedback as they relate to the context of sport coaching. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPMT 620: Ethical Issues in Global Sport. 3 credits.**
Investigates moral issues in sport, and judgments about right and wrong behavior among organizations, athletes, coaches, spectators, and others at the global level. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPMT 631: Theoretical Models of Sport Coaching. 3 credits.**
Examines the scientific bases for coaching athletes. Emphasizes philosophical underpinnings and theoretical foundations in the psychological, physiological, pedagogical, and managerial bases of sport coaching. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPMT 651: Sport and International Development. 3 credits.**
Explores the roles of sport in international development with focus on Africa, Asia, and Latin America. Non-governmental organizations (NGOs), international federations, professional leagues and grassroots initiatives will be examined. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** SPMT 551.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SPMT 652: Governance and Policy in International Sport. 3 credits.**
Explores sport governance and policy in the international context with focus on international federations, professional leagues and comparative analyses of governmental sporting policies. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** SPMT 551.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Sports and Recreation Studies (SRST)**

**200 Level Courses**

SRST 200: *History of Sport and Leisure in America.* 3 credits.
Traces the history of sport and leisure in America. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

SRST 450: *Research Methods.* 3 credits.
Covers the development of empirical research designs for both practical and theoretical problems in health, fitness, and recreation resources management. Includes literature review of hypothesized relationships, and formulation of research proposals. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Specialized Designation:** Writing Intensive in the Major

**Recommended Prerequisite:** 60 credits.

**Registration Restrictions:**
**Required Prerequisites:** STAT 250\(^C\), DESC 210\(^C\), OM 210\(^C\) or IT 250\(^C\).

\(^C\) Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**500 Level Courses**

SRST 595: *Thesis Preparation.* 2 credits.
Provides a basic overview and working knowledge of the procedures to be used towards completion of the thesis. With competencies gained in previous sport and recreation studies courses, the student will begin to form the criteria, considered evidence, and judgment towards a research topic for SRST 799. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**SRST 598:** *Special Topics.* 1-6 credits.
Focuses on projects related to sport and/or recreation studies. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**SRST 599:** *Independent Study in Sport and Recreation Studies.* 1-3 credits.
Studies problem area in sport and recreation studies research, theory, or practice under direction of faculty member. Notes: Students engage in one-on-one or seminar independent study with an SRST faculty member. The faculty member may be the student's thesis or project supervisor. While SRST 599 is repeatable, 3 credit hours must be designated for Preparation of Thesis or Project Proposal. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 3 credits.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**600 Level Courses**

SRST 606: *Foundations of Sport and Recreation Studies.* 3 credits.
Examines the historical development of the Sport and Recreation Studies fields. Explores the interconnection between these phenomena in the context of the social, cultural and economic forces shaping American and global societies. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to English Language, Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SRST 623:** *Research Design and Statistical Reasoning.* 3 credits.
Introduces basic principles of scientific and scholarly inquiry in Sport and Recreation Studies. Explores the logic and practice of methods and techniques employed in research related to sport and recreation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading: This course is graded on the Graduate Regular scale. (p. 82)

700 Level Courses
SRST 796: Seminar in Sport and Recreation Studies. 1 credit.
Scholarly forum for the presentation and discussion of contemporary topics in sport and recreation studies. Graduate students, faculty, and visiting scholars/practitioners share ongoing research and practical applications. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Recommended Prerequisite: All other coursework with the exception of concurrent capstone.
Schedule Type: Seminar
Grading: This course is graded on the Satisfactory/No Credit scale. (p. 82)

SRST 798: Master's Project/Internship. 1-6 credits.
Offers capstone experience to enable students to demonstrate their integrative knowledge and skills accrued through study in their concentration area within Sport and Recreation Studies. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 6 credits.

Recommended Corequisite: SRST 796.
Registration Restrictions: Required Prerequisite: SRST 623<sup>B</sup>.
<sup>B</sup> Requires minimum grade of B-

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis
Grading: This course is graded on the Satisfactory/No Credit scale. (p. 82)

SRST 799: Master's Thesis. 1-6 credits.
Explores sport and recreation problem using appropriate research methodology and under supervision of graduate faculty member. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions: Required Prerequisite: SRST 623<sup>B</sup>.
<sup>B</sup> Requires minimum grade of B-

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Statistics (STAT)

200 Level Courses
STAT 250: Introductory Statistics I. 3 credits.
Elementary introduction to statistics. Topics include descriptive statistics, probability, and estimation and hypothesis testing for means and proportions. Statistical software used for assignments. Offered by Statistics (p. 1108). May not be repeated for credit.

Mason Core: Quantitative Reasoning (p. 137)
Recommended Prerequisite: High school algebra.
Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 260: Introduction to Statistical Practice I. 3 credits.
Data-oriented introduction to fundamental concepts and methods of applied statistics. Topics include: exploratory data analysis; sampling and principles of experimental design; sampling distributions; confidence intervals and tests for one and two sample means and proportions; analysis of contingency tables; simple linear regression; and correlation. Extensive use of statistical software. Intended primarily for students in the Statistics Bachelor’s program. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: MATH 113<sup>C</sup>, 115<sup>C</sup> or 124<sup>C</sup>.
<sup>*</sup> May be taken concurrently.
<sup>C</sup> Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.
Schedule Type: Lecture
Grading: This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses
STAT 334: Introduction to Probability Models and Simulation. 3 credits.
Introduction to basic probability and principles of simulation. Emphasis is placed on formulation of models and simulation applications to statistical methodology. Topics include: basic probability rules, counting methods, discrete and continuous probability spaces, independence, conditional probability, expectation, variance, and limit theorems. Distributions covered include the binomial, hypergeometric, Poisson, normal, Gamma, Beta, multinomial, and bivariate normal. Intended primarily for students in the Statistics Bachelor’s program. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 260<sup>C</sup> and (MATH 114<sup>C</sup> or 116<sup>C</sup>) and STAT 362<sup>C</sup>.
<sup>*</sup> May be taken concurrently.
<sup>C</sup> Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 344: Probability and Statistics for Engineers and Scientists I. 3 credits.
Introduction to probability and statistics with applications to computer science, engineering, operations research, and information technology. Basic concepts of probability, random variables and expectation, Bayes rule, bivariate distributions, sums of independent random variables, correlation and least squares estimation, central limit theorem, sampling distributions, confidence interval construction, and hypothesis testing for a single sample and two samples. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114C or 116C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 346: Probability for Engineers. 3 credits.
Introduction to probability with applications to electrical and computer engineering, operations research, information technology, and economics. Basic concepts of probability, conditional probability, random variables and moments, specific probability distributions, multivariate distributions, moment-generating functions, limit theorems, and sampling distributions. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 213C or 215C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 350: Introductory Statistics II. 3 credits.
Further examination of statistics and data analysis with an emphasis on applications. Inference for comparing multiple samples, experimental design, analysis of variance and post-hoc tests. Simple linear, multiple and logistic regression. Analysis of contingency tables and categorical data. A statistical computer package is used for data analysis. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 250C or 260C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 354: Probability and Statistics for Engineers and Scientists II. 3 credits.
Multivariate probability distributions, variable transformations, properties of estimators, inference on means, variances, and proportions for two samples, contingency tables, goodness-of-fit test, nonparametric tests, simple linear regression, multiple linear regression, logistic regression, ANOVA, basic experimental design, basic resampling methods such as the bootstrap. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 334C or 344C or (STAT 346C and 362C).
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 356: Statistical Theory. 3 credits.
Introduction to the mathematical theory of statistical inference, emphasizing inference for standard parametric families of distributions. Topics include: properties of estimators; Bayes and maximum likelihood estimation; sufficient statistics; properties of test of hypotheses; most powerful and likelihood-ratio tests; and distribution theory for common statistics based on normal distributions. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisite: STAT 346C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 360: Introduction to Statistical Practice II. 3 credits.
Continued study of the process, concepts, and methods of statistical investigations with the communication of statistical results being emphasized. Topics in the course will include: chi-square procedures, an introduction to the design and analysis of experiments, ANOVA, simple linear and multiple regression, nonparametric methods and basic resampling methods such as bootstrap. Statistical software will be used extensively throughout the course. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 250C or 260C) and (MATH 114C or 116C).
May be taken concurrently.
C Requires minimum grade of C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 362: Introduction to Computer Statistical Packages. 3 credits.
Use of computer packages in statistical analysis of data. Topics include data entry, checking, and manipulation, and use of computer statistical packages for graphical procedures, basic descriptive and inferential procedures, and regression. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 250C, 260C, BUS 310C or STAT 344C.
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 460: Introduction to Biostatistics. 3 credits.
Focuses on biostatistical aspects of design and analysis of biomedical studies, including epidemiologic observational studies and randomized clinical trials. Topics include randomization principle, confounding, ethics in human experimentation, methods of randomization, stratification, primary outcome analyses, covariate-adjusted analyses, epidemiologic measures, and sample size and power computation. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 350\(^C\), 354\(^C\) or 435\(^C\)) and (STAT 362\(^C\)).
\(^*\) May be taken concurrently.
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 462: Applied Multivariate Statistics. 3 credits.
Introduces a variety of multivariate statistical methods as aids to analyzing and interpreting large data sets. These methods will have general applications across a wide range of disciplines. Topics include: principal components analysis, cluster analysis, discriminant analysis, multi-dimensional scaling, correspondence analysis, and canonical correlation analysis. Extensive use of statistical software. Offered by Statistics (p. 1108). Limited to two attempts.

Recommended Corequisite: STAT 362

Registration Restrictions:
Required Prerequisites: STAT 350\(^C\), 354\(^C\) or 435\(^C\).
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 463: Introduction to Exploratory Data Analysis. 3 credits.
Features statistical graphics, maps and simple models used to bring out patterns in data. Introduces statistical software and addresses data access and import. Presents exploratory strategies motivating data transformations. Stresses the cognitive foundations of good graphics. Graphics include dot plots, box plots, Q-Q plots, parallel coordinate plots, scatterplot matrices and linked views. Exploration includes use of dynamic graphics. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 350\(^C\), 354\(^C\), 435\(^C\) or BUS 310\(^C\).
\(^C\) Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.
Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 465: Nonparametric Statistics and Categorical Data Analysis. 3 credits.
Introduction to nonparametric methods and categorical data analysis. Topics include: tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing, and cross-validation. Notes: Students may not receive credit for both STAT 465 and STAT 525. Offered by Statistics (p. 1108). Limited to two attempts.

Recommended Corequisite: STAT 362

Registration Restrictions:
Required Prerequisites: STAT 350C, 354C or 435C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 472: Introduction to Statistical Learning. 3 credits.

Recommended Corequisite: STAT 362

Registration Restrictions:
Required Prerequisite: STAT 456C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 474: Introduction to Survey Sampling. 3 credits.
Introduction to design and analysis of sample surveys. Sample designs include simple random sampling; systematic sampling; and stratified, cluster, and multistage sampling. Analytical methods include sample size determination, ratio and regression estimation, imputation for missing data, and nonsampling error adjustment. Practical problems encountered in conducting a survey are discussed, such as questionnaire design. Methods applied to case studies of actual surveys. Class project may be required. Notes: Recommended for students of decision, information, social sciences, and mathematics. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (STAT 350C, 354C or 435C) and STAT 362C.
C May be taken concurrently.

C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 489: Pre-Capstone Professional Development. 3 credits.
Develops skills in the areas of technical writing and oral communication. Students will develop a historical and ethical appreciation of the field of statistics as well as connect methods from their undergraduate coursework to solve problems. Students will work in small groups to develop a project proposal for STAT 490. Offered by Statistics (p. 1108). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: STAT 354C and 362C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Senior.

Enrollment is limited to students with a major in Statistics.

Enrollment limited to students in a Bachelor of Science degree.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 490: Capstone in Statistics. 3 credits.
Students will synthesize methods and ideas acquired in their undergraduate courses by working in small groups on a project and presenting their findings in a written report and an oral presentation. Offered by Statistics (p. 1108). Limited to two attempts.

Mason Core: Capstone (p. 137)

Registration Restrictions:
Required Prerequisite: STAT 489C.
C Requires minimum grade of C.

Enrollment is limited to students with a major in Statistics.

Enrollment limited to students in a Bachelor of Science degree.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

STAT 494: Internship In Statistics. 1-3 credits.
A supervised statistics-related experience working for a government agency, in the private sector or on approved summer research program. Based on input from the client, the student and faculty coordinator agree on the overall scope of the project including learning objectives, work plan, and expected outputs. Students will periodically inform the faculty coordinator of their status and, on completion of the internship, will document the experience with a comprehensive report or a departmental
oral presentation. Offered by Statistics (p. 1108). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Completion of at least 60 credits.

**Registration Restrictions:**
Enrollment is limited to students with a major in Statistics.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**STAT 498:** Independent Study in Statistics. 1-3 credits.
Directed self-study of special topics of current interest in statistics. Notes: May be repeated if topics are substantially different. Offered by Statistics (p. 1108). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 60 hours. Must be arranged with a faculty member of the Statistics Department and approved by the department chair before registering.

**Registration Restrictions:**
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**STAT 499:** Special Topics in Statistics. 1-3 credits.
Topics of special interest to undergraduates. Notes: May be repeated if topics are substantially different. Offered by Statistics (p. 1108). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** 60 undergraduate credits.

**Registration Restrictions:**
Washington Consortium level students may not enroll.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

### 500 Level Courses

**STAT 501:** SAS Language and Basic Procedures. 1 credit.
Introduction to the SAS Data Step and Base SAS Procedures. Preparation for graduate students in use of SAS for other graduate courses offered by department. Topics include observation and variable structures, data interfaces, formats, functions, and procedures for summarizing and displaying data. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Course in statistics and experience with Microsoft OS.

**Registration Restrictions:**
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**STAT 506:** Introduction to SPSS. 1 credit.
Introduction to SPSS, a widely-used statistical software package in social sciences. Provides an overview of SPSS procedures for manipulating data; summarizing and displaying data; and analyzing data from a variety of experimental designs. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Course in statistics.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**STAT 505:** Introduction to R. 1 credit.
Introduction to R syntax, graphical interface, and basic operations. Preparation for graduate students in use of R for other graduate courses offered by department. Topics include import and export of data; manipulation of R object structures; function creation; package installation; and procedures for simulation, modeling, summarizing data, and producing graphics. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Course in statistics.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**STAT 507:** Applied Statistics and Visualization for Analytics. 3 credits.
Introduces multivariate regression and random forests for modeling data. Addresses data access, variable selection and model diagnostics. Introduces foundations for visual thinking. Reviews common statistical graphics such as dot plots, box plots, q-q plots. Addresses more advanced methods such as scatterplot matrices enhanced by smoothed or density contours, and search tools for finding graphics with suggestive patterns. Notes: Course will introduce R software for analysis. A final
Students in a Non-Degree Undergraduate degree may enroll.

Recommended Prerequisite: STAT 250 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 525: Nonparametric Statistics and Categorical Data Analysis. 3 credits.
Introduction to nonparametric methods and categorical data analysis. Topics include tests for one-sample, two-related samples, and two independent samples; concepts of nonparametric ANOVA; tests for proportions; chi-squared tests, log-linear models, and contingency tables; goodness-of-fit tests; correlation and association analysis; nonparametric regression including logistic and Poisson regression; and bootstrapping, jackknifing, and cross-validation. Notes: Students may not receive credit for both STAT 465 and STAT 525. Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics (p. 1108). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: STAT 535B or 554B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 526: Applied Regression Analysis. 3 credits.
Introduces statistical modeling with a focus on regression. Topics include: Correlation, simple and multiple regression models, model fitting, variable selection, diagnostic tools, model validation, inference for regression parameters, and matrix forms for multiple regression. Additional topics covered include logistic regression and time series analysis with a focus on smoothing techniques and decomposition. A statistical software package is used extensively throughout the course. Notes: Students may not receive credit for both STAT 456 and STAT 526. Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics (p. 1108). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: STAT 535B or 554B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
STAT 530: Foundations of Statistical Thinking. 3 credits.
Provides a foundation in the key concepts underlying data analysis, statistics, and probability. Topics include research-based methods for developing statistical thinking, use of technology for learning about statistics, and structured learning activities. Statistical concepts include: distributions, measures of center and spread, sampling, sampling distribution, bivariate analysis, correlation, randomness, and law of large numbers. Notes: Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics (p. 1108). May not be repeated for credit.

Registration Restrictions:
Recommended Prerequisite: STAT 535 or 554.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 532: Introduction to Statistical Software Packages. 3 credits.
Use of computer packages in statistical analysis of data. Topics include data entry, checking, and manipulation; and use of statistical packages for graphical procedures, basic descriptive and inferential procedures, and regression. Notes: Cannot be used to satisfy requirements for MS in Statistical Science without prior written approval of the graduate program director. Offered by Statistics (p. 1108). May not be repeated for credit.

Recommended Prerequisite: STAT 250 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 535: Analysis of Experimental Data. 3 credits.
Statistical methods for analysis of experimental data from educational research and the social, natural, and life sciences. Topics include sample surveys, contingency tables, linear and multiple regression, analysis of variance, nonparametric tests, and multivariate methods. Various statistical packages will be used. Notes: Students may not receive credit for both STAT 453 and STAT 535. Cannot be used to satisfy requirements for MS in Statistical Science. Certificate program students granted credit for only one of STAT 535 or STAT 554. Offered by Statistics (p. 1108). May not be repeated for credit.

Recommended Prerequisite: STAT 250, STAT 344 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 539: Topics in Applied Statistics. 1-3 credits.
Special topics in applied statistics of interest to graduate students in statistics certificate programs. Notes: May be repeated for credit when topic is different. Cannot be used to satisfy requirements for MS in Statistical Science. Offered by Statistics (p. 1108). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Permission of instructor; specific prerequisites vary with the nature of the topic.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

STAT 544: Applied Probability. 3 credits.
The axioms of probability, conditional probability, random variables and expectation, multivariate and conditional distributions, conditional expectation, order statistics, transformations, moment generating functions, special distributions, limit theorems. Offered by Statistics (p. 1108). May not be repeated for credit.

Recommended Prerequisite: MATH 213 and STAT 346, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Application of basic statistical techniques. Focus is on the problem (data analysis) rather than on the theory. Topics include descriptive statistics; exploratory data analysis; sampling distributions; one- and two-sample tests and confidence intervals for means, medians, proportions, and variances; and goodness-of-fit tests. Normal theory is introduced first with discussion of what happens when assumptions break down. Alternative robust and nonparametric techniques are presented. Notes:
Certificate program students granted credit for only one of STAT 535 or 554. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** STAT 346, or permission of instructor.

**Regulation Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 560: Biostatistical Methods.** 3 credits.
Focuses on biostatistical aspects of design and analysis of biomedical studies, including epidemiologic observational studies and randomized clinical trials. Topics include randomization principle, confounding, ethics in human experimentation, methods of randomization, stratification, primary outcome analyses, covariate-adjusted analyses, epidemiologic measures, and sample size and power computation. Note: Students may not receive credit for both STAT 460 and STAT 560. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** STAT 350 or STAT 354 or STAT 435; and working knowledge of SAS.

**Regulation Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 564: Survey Sampling I.** 3 credits.
Design and implementation of sample surveys. Covers components of a survey; probability sampling designs to include simple random, systematic, Bernoulli, proportional to size, stratified, cluster and two-stage sampling; and ratio and regression estimators. Discusses practical problems in conducting a survey. Methods applied to case studies of actual surveys. Class project may be required. Notes: Students may not receive credit for both STAT 474 and STAT 564. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** STAT 346 and a course in Statistics, or STAT 344; and working knowledge of SAS.

**Regulation Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 574: Survey Sampling I.** 3 credits.
Design and implementation of sample surveys. Covers components of a survey; probability sampling designs to include simple random, systematic, Bernoulli, proportional to size, stratified, cluster and two-stage sampling; and ratio and regression estimators. Discusses practical problems in conducting a survey. Methods applied to case studies of actual surveys. Class project may be required. Notes: Students may not receive credit for both STAT 474 and STAT 574. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** STAT 346 and a course in Statistics, or STAT 344; and working knowledge of SAS.

**Regulation Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 634:** Case Studies in Data Analysis. 3 credits.
Examination of a wide variety of case studies illustrating data-driven model building and statistical analysis. With each case study, various methods of data management, data presentation, statistical analysis, and report writing are compared. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of SAS and R.

**Regulation Restrictions:**
**Required Prerequisites:** STAT 544B and 554B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 652: Statistical Inference.** 3 credits.
Fundamental principles of estimation and hypothesis testing. Topics include limiting distributions and stochastic convergence, sufficient statistics, exponential families, statistical decision theory and optimality for point estimation, Bayesian methods, maximum likelihood, asymptotic results, interval estimation, optimal tests of statistical hypotheses, and likelihood ratio tests. Offered by Statistics (p. 1108). May not be repeated for credit. Equivalent to CSI 672.

**Regulation Restrictions:**
**Required Prerequisites:** STAT 544B and 554B.
* May be taken concurrently.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 654: Applied Statistics II.** 3 credits.
Overview of statistical principles of modeling. Topics include methods for analyzing data based on generalized linear models and diagnostic methods for assessing the assumptions of such models. Methods covered include multiple regression, analysis of variance, simultaneous
inference, logistic response models, and hierarchical log linear models for contingency tables. Offered by Statistics (p. 1108). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: STAT 554 B.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 656: Regression Analysis. 3 credits.
Simple and multiple linear regression, polynomial regression, general linear models, subset selection, step-wise regression, and model selection. Also covered are multicollinearity, diagnostics, and model building as well as the theory and practice of regression analysis. Offered by Statistics (p. 1108). May not be repeated for credit. Equivalent to CSI 676.

Registration Restrictions:
Required Prerequisites: STAT 544 B and 554 B.
* May be taken concurrently.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 657: Nonparametric Statistics. 3 credits.
Distribution-free procedures for making inferences about one or more samples. Tests for lack of independence, association or trend, and monotone alternatives are included. Measures of association in bivariate samples and multiple classifications are discussed. Both theory and applications are covered. Students are introduced to appropriate statistical software. Offered by Statistics (p. 1108). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (STAT 544 B and 554 B).
* May be taken concurrently.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 658: Time Series Analysis and Forecasting. 3 credits.

Registration Restrictions:
Required Prerequisites: (STAT 544 B and 554 B).
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 662: Multivariate Statistical Methods. 3 credits.
Standard techniques of applied multivariate analysis. Topics include review of matrices, multivariate normal theory, principal components, canonical correlation, classification, factor analysis, clustering, and multidimensional scaling. Applications to data analytics. Computer implementation via a statistical package is an integral part of the course. Offered by Statistics (p. 1108). May not be repeated for credit.

Recommended Prerequisite: Matrix algebra, and working knowledge of SAS.

Registration Restrictions:
Required Prerequisites: STAT 544 B and 544 B *.
* May be taken concurrently.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

STAT 663: Statistical Graphics and Data Exploration I. 3 credits.
Introduces statistical graphics that show distribution features and functional relationships in the presence of noise. Introduces cognitive research guidance for graphics design and reasoning. Stresses quantitative comparisons from multiple perspectives. Features new micromaps designs for spatial and temporal comparisons. Introduces...
Survival Analysis is a class of statistical methods for studying the occurrence and timing of events. In medical research, the events may be deaths, and the objective is to determine factors affecting survival times of patients following treatment, usually in the setting of clinical trials. Methods can also be applied to the social and natural sciences and engineering where they are known by other names (reliability, event history analysis). Concepts of censored data, time-dependent variables, and survivor and hazard functions are central. Nonparametric methods for comparing two or more groups of survival data are studied. The Cox regression model (proportional hazards model), Weibull model, and the accelerated failure time model are studied in detail. Concepts are applied to analysis of real data from major medical studies using SAS software. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of SAS.

**Registration Restrictions:**
- May be taken concurrently.
- Requires minimum grade of B-.
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
- This course is graded on the Graduate Regular scale. (p. 82)
- STAT 665: *Categorical Data Analysis.* 3 credits.
  - Analyzes cross-classified categorical data in two and higher dimensions. Topics include association tests and measures of association in two- and three-dimensional contingency tables, logistic regression, and log linear models. SAS is used extensively for data analysis. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of SAS.

**Registration Restrictions:**
- May be taken concurrently.
- Requires minimum grade of B-.
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
- This course is graded on the Graduate Regular scale. (p. 82)
- STAT 668: *Survival Analysis.* 3 credits.
  - Survival Analysis is a class of statistical methods for studying the occurrence and timing of events. In medical research, the events may be deaths, and the objective is to determine factors affecting survival times of patients following treatment, usually in the setting of clinical trials. Methods can also be applied to the social and natural sciences and engineering where they are known by other names (reliability, event history analysis). Concepts of censored data, time-dependent variables, and survivor and hazard functions are central. Nonparametric methods for comparing two or more groups of survival data are studied. The Cox regression model (proportional hazards model), Weibull model, and the accelerated failure time model are studied in detail. Concepts are applied to analysis of real data from major medical studies using SAS software. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of R and SAS.

**Registration Restrictions:**
- May be taken concurrently.
- Requires minimum grade of B-.
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
- This course is graded on the Graduate Regular scale. (p. 82)
- STAT 674: *Survey Sampling II.* 3 credits.
  - Continuation of STAT 574. Applications to case studies of actual surveys. Categorical data analysis, regression models, and domain estimation from complex sampling designs, introduction to variance estimation, weighting adjustments for nonresponse, and imputation. Offered by Statistics (p. 1108). May not be repeated for credit.

**Registration Restrictions:**
- Requires minimum grade of B-.
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
- This course is graded on the Graduate Regular scale. (p. 82)
- STAT 672: *Statistical Learning and Data Analytics.* 3 credits.
  - The course focuses on statistical learning theory by introducing the statistical and optimization background essential for understanding statistical learning algorithms. Also discusses applications of statistical learning algorithms to the solution of important problems in many areas of science. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:**
- Requires minimum grade of B-.

**Registration Restrictions:**
- Requires minimum grade of B-.
- Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
- Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

**Schedule Type:** Lecture

**Grading:**
- This course is graded on the Graduate Regular scale. (p. 82)
- STAT 676: *Alternative Regression Methods.* 3 credits.
  - Presents several modern regression methodologies that are useful in data analysis when some of the assumptions of linear regression theory fail to hold. Topics include non-linear regression, quantile regression,
robust regression, and computational methods for fitting these models. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of SAS.

**Registration Restrictions:**
**Required Prerequisite:** STAT 654B.
B- Requires minimum grade of B-

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 689: Topics in Statistics.** 1-3 credits.
Special topics of interest to graduate students in statistics. Notes: May be repeated for credit when topic is different. Offered by Statistics (p. 1108). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Permission of instructor; specific prerequisites vary with the nature of the topic.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

### 700 Level Courses

**STAT 758: Advanced Time Series Analysis.** 3 credits.
Mathematical modeling and methods for model identification and forecasting of nonstationary and seasonal time series data (ARIMA models), multivariate time series, and state-space models. Offered by Statistics (p. 1108). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisite:** (STAT 658B).
B- Requires minimum grade of B-

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 763: Statistical Graphics and Data Exploration II.** 3 credits.
Addresses data set size and human comprehension challenges. Introduces case and variable reduction methods, and overview production. Incorporates cognitive science guidance. Utilizes data mining models and visual analytic algorithms to find patterns and prioritize graphics. Addresses applications from both information and scientific visualization. Tracks advances in web graphics including citizen science projects harnessing the visual power of thousands of people. Offered by Statistics (p. 1108). May not be repeated for credit.

**Registration Restrictions:**
**Required Prerequisites:** (STAT 653B or 515B).
B- Requires minimum grade of B-

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 771: Spatial Data Analysis.** 3 credits.
Presents analysis techniques for spatially-indexed or spatially-correlated data that arise in many areas of science, including medicine, transportation, and atmospheric sciences. Focus is on data analysis rather than theory, though theory will necessarily be covered. Topics include analysis of point patterns, trend and surface estimation, and spatial regression. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of R and SAS.

**Registration Restrictions:**
**Required Prerequisites:** (STAT 652B and 654B).
B- Requires minimum grade of B-

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 773: Statistical Methods for Longitudinal Data Analysis.** 3 credits. Presents modern statistical approaches to the analysis of longitudinal data, i.e., data collected repeatedly on experimental units over time (or other conditions). Topics include linear mixed effects models, generalized linear models for correlated data (including generalized estimating equations), and computational issues and methods for fitting models. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Working knowledge of SAS.

**Registration Restrictions:**
- **Required Prerequisites:** STAT 652<sup>B-</sup> and 654<sup>B-</sup>.
- B<sup>-</sup> Requires minimum grade of B<sup>-</sup>.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:** This course is graded on the Graduate Regular scale. (p. 82)

**STAT 778: Algorithms and Simulation for Statistics in C.** 3 credits. Introduces high level simulations and algorithms for complex statistical problems using C. Topics include: pointers, arrays, random number generation, iterative numerical algorithms, sorting, matrix operation, numerical integration and Bayesian computation, advanced data structure for complex problems, and parallel processing. Complex programming problems related to statistical modeling and inference are studied. Offered by Statistics (p. 1108). May not be repeated for credit.

**Registration Restrictions:**
- **Required Prerequisites:** STAT 652<sup>B-</sup> or CSI 672<sup>B-</sup>.
- B<sup>-</sup> Requires minimum grade of B<sup>-</sup>.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:** This course is graded on the Graduate Regular scale. (p. 82)

**STAT 796: Independent Studies/Directed Readings.** 1-3 credits. Reading and research on a specific topic in statistics under guidance of graduate faculty member that results in acceptable technical report and oral defense. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** Permission of instructor and department's graduate coordinator.

**Registration Restrictions:**
- Enrollment is limited to Graduate, Non-Degree or Washington Consortium level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:** This course is graded on the Graduate Regular scale. (p. 82)

**STAT 798: Master's Research Project.** 3 credits. Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report. Offered by Statistics (p. 1108). May not be repeated for credit.

**Recommended Prerequisite:** 9 graduate credits, and permission of instructor.

**Registration Restrictions:**
- Enrollment is limited to Graduate or Non-Degree level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
- This course is graded on the Graduate Special scale. (p. 82)

**STAT 799: Master's Thesis.** 1-6 credits. Project chosen and completed under guidance of graduate faculty member that results in acceptable technical report and oral defense. Offered by Statistics (p. 1108). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 9 graduate credits, and permission of instructor.

**Registration Restrictions:**
- Enrollment is limited to Graduate or Non-Degree level students.
- Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Thesis

**Grading:**
- This course is graded on the Satisfactory/No Credit scale. (p. 82)

**800 Level Courses**

**STAT 889: Advanced Topics in Statistics.** 3 credits. Advanced topics not occurring in regular sequence. Offered by Statistics (p. 1108). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Doctoral standing and permission of instructor.

**Registration Restrictions:**
- Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
- This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**STAT 896: Advanced Directed Reading.** 3 credits. Individualized study with a graduate faculty member in the Department of Statistics. Syllabus and grading criteria must be preapproved by the PhD in Statistical Science Program Director. Offered by Statistics (p. 1108). May not be repeated for credit.

**Registration Restrictions:**
- Enrollment is limited to students with a major in Statistical Science.

Enrollment limited to students in the VS-PHD-STAT program.
Enrollment is limited to Graduate level students.

Enrollment limited to students in a Doctor of Philosophy degree.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

### 900 Level Courses

**STAT 971:** *Probability Theory*. 3 credits.
A rigorous measure-theoretic treatment of probability. Includes expectation, distributions, laws of large numbers and central limit theorems for independent random variables, characteristic function methods, conditional expectations, martingales, strong and weak convergence, and Markov chains. Offered by Statistics (p. 1108). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: (STAT 544B and MATH 315B).
B Requires minimum grade of B.

Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 972:** *Mathematical Statistics I*. 3 credits.
Focuses on theory of estimation. Includes method of moments, least squares, maximum likelihood, and maximum entropy methods. Details methods of minimum variance unbiased estimation. Topics include sufficiency and completeness of statistics, Fisher information, Cramer-Rao bounds, Bhattacharyya bounds, asymptotic consistency and distributions, statistical decision theory, minimax and Bayesian decision rules, and applications to engineering and scientific problems. Offered by Statistics (p. 1108). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: (STAT 652B or CSI 672B) and (CSI 876B, STAT 971B or CSI 971B).
B May be taken concurrently.
B Requires minimum grade of B.

Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 973:** *Mathematical Statistics II*. 3 credits.
Continuation of STAT 972/CSI 972. Concentrates on theory of hypothesis testing. Topics include characterizing decision process, simple versus simple hypothesis tests, Neyman-Pearson Lemma, uniformly most powerful tests, unbiasedness and invariance of tests, and randomized and sequential tests. Applications of testing principles made to situations in normal distribution family and other families of distributions. Offered by Statistics (p. 1108). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisites: (STAT 972B or CSI 972B).
B Requires minimum grade of B.

Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**STAT 990:** *Dissertation Topic Presentation*. 1 credit.
Students put together a professional presentation of a research proposal and present it for critique to fellow students and interested faculty. Notes: May be repeated with change of research topic, but credit towards doctoral degree is given once. Offered by Statistics (p. 1108). May not be repeated for credit. Equivalent to CEIE 990, CS 990, IT 990.

**Recommended Prerequisite:** Completion of all course requirements for PhD, or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Research

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**STAT 998:** *Doctoral Dissertation Proposal*. 1-12 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements. Offered by Statistics (p. 1108). May be repeated within the degree.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**STAT 999:** *Doctoral Dissertation*. 1-12 credits.
Formal record of commitment to doctoral dissertation research under direction of faculty member in statistics. Notes: No more than 24 credits of STAT 998 and 999 may be applied to doctoral degree requirements. Offered by Statistics (p. 1108). May be repeated within the degree.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy.

**Schedule Type:** Dissertation

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**Systems Engineering (SYST) 100 Level Courses**

**SYST 101:** *Understanding Systems Engineering*. 3 credits.
Introduces systems engineering and curriculum for BS in field. Introduces large and small systems, and explains them through some hands-on experiences. Key concepts include understanding requirements for system and translation of system-level requirements to component-level
requirements. Several different kinds of example systems presented and discussed: objectives, major components, how system works, and major design issues. Each student gives a similar presentation on system of choice. Students work in groups design, develop, and test system, and give oral presentation. Students are responsible for writing several short papers on curriculum and presentations they have heard. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 198: Independent Study in Systems Engineering. 1-3 credits.
Must be arranged with instructor and approved by department chair before registering. Directed self-study of special topics of current interest in systems engineering. Notes: May be repeatable if topics are substantially different. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the term for a maximum 6 credits.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

SYST 202: Engineering Systems in a Complex World. 3 credits.
This course introduces students to the study of engineering systems as a means of understanding larger historical trends in a global society. Students will use case studies and historical analyses to think strategically and globally about the management and execution of complex systems in the context of culture, environment, politics and economics, and learn how to employ such analyses as decision-making tools for leadership. Students will be required to critically analyze articles and books, and work in groups to investigate and present topics of current national and international relevance. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts. Equivalent to HIST 202.

Mason Core: Global Understanding (p. 137)

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 210: Systems Design. 3 credits.

Recommended Prerequisite: SYST 101.

Registration Restrictions:
Students with a class of Freshman may not enroll.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 220: Dynamical Systems I. 3 credits.
Introduces modeling of dynamical systems. Formulation of mathematical models from system descriptions, including computer, biological, economic, transportation, and mechanical systems. Analytical and numerical methods for solving models and studying their behavior. Discrete-time and continuous time systems. Linear and nonlinear systems. Introduction to computer modeling using MATLAB. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114C or 116C) and (PHYS 160C) and (SYST 221C and MATH 203C).
* May be taken concurrently.
C Requires minimum grade of C.

Enrollment is limited to students with a major, minor, or concentration in Systems Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 221: Systems Modeling Laboratory. 1 credit.

Registration Restrictions:
Required Prerequisites: SYST 101C, CS 112C and SYST 220C.
* May be taken concurrently.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

SYST 320: Dynamical Systems II. 3 credits.

Registration Restrictions:
Required Prerequisites: (SYST 220C, MATH 203C, 214C and PHYS 260C).
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 330: Systems Methods. 3 credits.
Provides students with a general introduction to a variety of quantitative techniques that are relevant to systems engineering. Focuses on the use of quantitative techniques to model and evaluate design options. Scope includes: Analysis methods of system engineering design and management, decision analysis, models for engineering economics and evaluations, probability and statistical methods for data analysis, management control techniques, reliability, and maintainability analysis, risk and uncertainty management, and life-cycle cost analysis. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Registration Restrictions:
Required Prerequisites: (MATH 114C or 116C) and (STAT 344C and SYST 221C).

May be taken concurrently.

C Requires minimum grade of C.

Enrollment is limited to students with a major in Systems Engineering.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 335: Discrete Systems Modeling and Simulation. 3 credits.
Introduces basic concepts of modeling complex discrete systems by computer simulation. Topics include Monte-Carlo methods, discrete-event modeling, specialized simulation software, and statistics of input and output analysis. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts. Equivalent to OR 335.

Registration Restrictions:
Required Prerequisites: CS 112C and (STAT 344C, 346C or MATH 351C) and CS 211C.

May be taken concurrently.

C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 371: Systems Engineering Management. 3 credits.
Study of basics of systems engineering management. Includes engineering economics, planning, organizing, staffing, monitoring, and controlling process of designing, developing, and producing system to meet stated need in effective and efficient manner. Discusses management tools, processes, and procedures, including various engineering documentation templates, managerial processes, and dealing with personnel issues. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Registration Restrictions:

Registration Restrictions:
Required Prerequisite: ECE 220 C.
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 438: Analytics for Financial Engineering and Econometrics. 3 credits.
Introduces the basic analytics for financial engineering and econometrics. Topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory, and risk analysis. Provides a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hands-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts. Equivalent to OR 438.

Recommended Corequisite: STAT 354.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 460: Introduction to Air Traffic Control. 3 credits.
Introduction to Air Traffic Control (ATC) for those who plan professions in the air transportation industry. Surveys the entire field, presenting the history of ATC and how it came to be as it is, the technology on which the system is based, the procedures used by controllers to meet the safety and efficiency goals of the system, the organizational structure of the FAA, challenges facing the system, and means under investigation to meet these challenges. Some fieldwork will be required to acquire and analyze airport operational data. A brief introduction to airport design will be discussed. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Recommended Prerequisite: Junior standing or graduate standing.

Recommended Corequisite: SYST 460 or permission of instructor.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 462: Flight Training Lab I. 3 credits.
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, single engine land class rating. Flight Training I will include the flight training up to and including maneuvering and navigating the aircraft. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Recommended Prerequisite: SYST 460.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Aviation Flight Trng and Mgmt.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 463: Flight Training Lab II. 3 credits.
This course fulfills the requirements of 14 CFR, Section 141, Appendix B for obtaining a private pilot certificate with airplane category, Airplane - Single Engine Land class rating. Flight Training II will include the flight training up to and including the dual and solo flight instruction in cross-country navigation by pilotage, dead reckoning, and use of VOR, NDB, and HSI. Flight test preparation for private pilot certification. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Recommended Prerequisite: SYST 462.

Registration Restrictions:
Enrollment is limited to students with a major, minor, or concentration in Aviation Flight Trng and Mgmt.

Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 465: Pricing in Optimization and Game Theory. 3 credits.
Allocation of limited resources among competing activities to maximize the outcome or minimization of expenses required to produce a given assortment of goods and services are two typical problems faced by any economic institution. Mathematical modeling of such problems and finding efficient mathematical tools for solving them are two main goals of modern optimization theory. Pricing limited resources, goods, and services is the key instrument for theoretical analysis of complex economical systems. Pricing theory can also give rise to numerical methods for finding optimal solutions and economic equilibrium. Fundamental tools in pricing theory are the classical Lagrangian and Lagrange multipliers for constrained optimization. Covers the basic ideas and methods of linear programming and matrix games. Particular emphasis to pricing for both theoretical analysis and numerical methods.
Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

**Recommended Prerequisite:** MATH 203 or 216 and OR 441, or permission of instructor.

**Registration Restrictions:** Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

**SYST 468: Applied Predictive Analytics.** 3 credits.
Introduces students to the fundamentals of data analysis and some of the most widely used models in applied predictive analytics. The students learn how to summarize data and explore relationships between variables, including principle component analysis and multidimensional scaling. Class instruction follows with a presentation of commonly used tables, visualizations, and statistical tests for comparing groups. Linear predictive models for both continuous and binary outcomes are discussed in detail. The course introduces students to clustering and classification using random forest and naïve Bayes. The course concludes with topics on choice modeling. Hands-on programming with R is emphasized. While no prior knowledge on R is required, students must be well prepared in programming. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** (STAT 344C, 346C, 250C or MATH 351C) and (IT 206C or CS 112C).  
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

**SYST 469: Human Computer Interaction.** 3 credits.
Covers principles of human-computer interaction, including information processing design, cognitive models, ergonomics, and design metaphors. Students learn to evaluate interface design in terms of effectiveness, efficiency, and cost. Notes: Students who receive credit for SYST 470 may not receive credit for this course. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** (STAT 250C, 344C, 346C or MATH 351C) and (IT 106C or CS 112C).  
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

**SYST 470: Human Factors Engineering.** 3 credits.
Human information processing, inferential analysis, biases and heuristics in human information processing, support systems to aid in human information processing, human-system interaction, and software systems engineering considerations. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** SYST 210C and STAT 344C.  
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

**SYST 473: Decision and Risk Analysis.** 3 credits.
Studies analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty; rational decision making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analyses. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

**Registration Restrictions:**
**Required Prerequisites:** STAT 250C, 344C, 346C or MATH 351C.  
C Requires minimum grade of C.

Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

Introduces design principles used in developing systems used to allocate resources. Students required to participate in experiment demonstrations of different allocation mechanisms. Students are also exposed to experimental methods in economics and market design. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts. Equivalent to ECON 440.

**Recommended Prerequisite:** OR 441.  
Recommended Corequisite: SYST 465.

**Registration Restrictions:** Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:** This course is graded on the Undergraduate Regular scale. (p. 82)

**SYST 488: Financial Systems Engineering.** 3 credits.
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito’s formula, and Black-Scholes model. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.
SYST 489: Senior Seminar. 3 credits.
Introduces several important topics in systems engineering, providing additional experience in writing and giving presentations, and obtaining feedback on curriculum for BS in systems engineering. Several lectures devoted to ethics; writing and making presentations also covered. Students attend technical lectures and write paper. Students are required to write long paper on new technology. Instructor and guest lecturers present material not part of required course load to expand horizons. Examples are "knowledge-based" design, enterprise-wide reengineering, electronic commerce, and optimization by "natural analogy" (simulated annealing, neural networks, genetic algorithms). In addition, students work in teams to critique and redesign curriculum. Each group delivers written product, and provides at least one briefing to class. Best critique and redesign presented to faculty. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Specialized Designation: Writing Intensive in the Major

Registration Restrictions:
Recommended Prerequisite: SYST 490 *C.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 490: Senior Design Project I. 3 credits.
First part of capstone course in systems engineering program. Students apply knowledge they have gained to group project. Students perform concept definition and requirements analysis. Plan for carrying out project is developed, culminating in proposal presented to faculty at end of semester. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Recommended Prerequisite: 90 satisfactory credits.

Registration Restrictions:
Recommended Prerequisites: (SYST 335*C, 371*C and 395*C) and (SYST 320*C, 470*C, 473*C, 489*C and OR 441*C).

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 491: Industrial Project. 1-3 credits.
Semester-long work experience in systems engineering in industrial or governmental organization. Work supervised jointly by systems engineer from sponsoring organization and department faculty member. Project and arrangements for supervision must be approved by student's faculty advisor. Periodic reports, presentations, and a written final report are required. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Recommended Prerequisite: 75 credits toward BS in Systems Engineering; SYST 330; GPA of at least 3.00.

Registration Restrictions:
Students with the terminated from VSE major attribute may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 495: Senior Design Project II. 3 credits.
Second part of capstone course. Design project plans formulated in SYST 490 are reviewed and modified. Additional instruction on documentation and project management is given. Design project completed; formal report prepared, presented, and evaluated. Students are strongly recommended to take STAT 354 before enrolling in SYST 490/495. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

Mason Core: Capstone, Synthesis (p. 137)

Registration Restrictions:
Required Prerequisites: (SYST 320*C, 470*C, 473*C, 489*C and 490*C) and (SYST 330*C and STAT 354*C).

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

SYST 497: Applied Engineering Abroad. 3 credits.
Introduces students to applications of engineering processes outside USA. The students will gain hands-on project management, critical thinking, intercultural and career skills by exploring engineering aspects such as auto assembly, airliner manufacturing, metropolitan infrastructure, and bridge designs. By visiting technology museums, students will learn to appreciate the rich history of the country's technology and manufacturing. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts. Equivalent to CEIE 497, ME 497.

Mason Core: Global Understanding (p. 137)

Registration Restrictions:
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**Recommended Prerequisite:** 60 credits towards BS in systems engineering, and GPA of at least 3.00.

**Registration Restrictions:** Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SYST 499:** Special Topics in Systems Engineering. 3 credits. Topics of special interest to undergraduates. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

**Recommended Prerequisite:** 60 credits toward BS in systems engineering; specific prerequisites vary with nature of topic.

**Registration Restrictions:** Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

### 500 Level Courses

**SYST 500:** Quantitative Foundations for Systems Engineering. 3 credits. Provides quantitative foundations necessary for core courses in systems engineering and operations research master’s program, and certificate program in C4I. Topics include vectors and matrices, infinite series, partial differentiation, multiple integrals, differential and difference equations; linear systems; Laplace and Z-transforms, and probability theory. Students receive graduate credit for this course, which, when used on plan of study, extends minimum credit requirements for degree. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to CSI 600.

**Recommended Prerequisite:** MATH 203 and 213.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SYST 505:** Systems Engineering Principles. 3 credits. This course is an introduction and overview of the methods and tools systems engineers use to define, develop, and deploy systems. It serves as a foundation for the other courses in the MS/SE curriculum. During this course, the different components of the system lifecycle will be explored as well as the economic value of systems engineering. The course will convey to students the essential elements of systems engineering; including systems thinking, concept and system definition, integration and test, product and service life management, systems engineering management, logistics and supportability, and disposal/system retirement. This course is suitable for those who are new to systems engineering or have limited knowledge and/or experience in the field. Students enrolling in this course should have an engineering, science, or mathematics degree and one year of experience in science or engineering, or permission from the student's academic advisor and the course instructor. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SYST 508:** Complex Systems Engineering Management. 3 credits. Introduces the organizational, economic, technological and societal factors (POETS) that apply to the development of large-scale, complex mega-systems, and shows that “one size does not fit all” when it comes to the project management of mega-systems. Notes: Course cannot be applied for credit towards the MS in Systems Engineering degree. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**SYST 510:** Systems Definition and Cost Modeling. 3 credits. Comprehensive examination of methods and processes for the identification and representation of system requirements. Investigation of the systems acquisition life cycle with emphasis on requirements definition, including functional problem analysis. Examination of
the systems engineering definition phase including requirements, problem analysis, definition, and functional economics. Specification of functional and nonfunctional requirements, and associated requirements proto-typing. Functional economic analysis, including the use of prevailing cost estimation models and planning and control of common operating environments. Lecture and group project including creation of requirements and use of cost estimation model. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 513: Total Systems Engineering, Reengineering and Enterprise Integration. 3 credits.**
Principles of strategic quality, including TQM. Quality standards including ISO9000 and 14000. Organizational leadership, cultures, and process maturity, reengineering. Quality, organization learning, and reengineering approaches to enable information integration and management and environment and framework integration in the systems engineering of knowledge intensive systems. Emphasis is placed on the role of integrated product and process design teams, standard and commercial off-the-shelf products in enterprise integration. Architecture-driven system characteristics are studied, as is transition management of legacy systems. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** SYST 510 or 520.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 520: System Engineering Design. 3 credits.**
System engineering design methods are studied and practiced, including object-oriented and structured analysis based techniques. Design Description languages such as UML, SysML, IDEF0 and IDEF1x are introduced and used in carrying out complete system designs. Teams make presentations of their designs. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to ECE 550.

**Recommended Corequisite:** SYST 505

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 521: Network Analysis. 3 credits.**

**Recommended Prerequisite:** MATH 203 and 213, OR 441 or OR 541.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 523: Engineering Resilient and Agile Enterprise Systems. 3 credits.
Large-scale enterprise systems have ill-defined boundaries, complex behaviors, and evolve in unplanned ways. Enterprise systems need to be resilient and agile. This course introduces several tools and frameworks that can be used to understand resilience and agility, design resilience and agility into enterprises, and measure the degree of enterprise resilience and agility. Case studies are used to explore these concepts. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 530: Systems Engineering Management I. 3 credits.
Provides techniques for evaluating cost and operational effectiveness of system designs and systems management strategies. Discusses performance measurement, work breakdown structures, cost estimating, quality management, configuration management, standards, and case studies of systems from different application areas. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: SYST 510.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 538: Analytics for Financial Engineering and Econometrics. 3 credits.
This course introduces the basic analytics for financial engineering and econometrics, topics include financial transactions and econometric data management, correlation, linear and multiple regressions for financial and economic predictions, financial time series analysis, portfolio theory and risk analysis. It will provide a foundation of basic theory and methodology as well as applied examples with techniques to analyzing large financial and econometric data. Hand-on experiments with R will be emphasized throughout the course. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 538.

Recommended Prerequisite: STAT 515 or STAT 544.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 542: Decision Support Systems Engineering. 3 credits.
Studies design of computerized systems to support individual or organizational decisions. Teaches systems engineering approach to decision support system (DSS) development. DSS is end product of development process, and process is key to successfully integrating DSS into organization. Any DSS is built on a theory (usually implicit) of what makes for successful decision support in given context. Empirical evaluation of specific DSS and the underlying theory should be carried on throughout development process. Course examines prevailing theories of decision support, considers issues in obtaining empirical validation for theory, and discusses empirical support that exists for theories considered. Students design decision support system for semester project. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: SYST 301

Registration Restrictions:
Required Prerequisite: SYST 573 B-.
B- Requires minimum grade of B-.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
SYST 560: Introduction to Air Traffic Control. 3 credits.
Introduction for those who plan professions in aviation industry. Surveys entire field, presenting history of ATC and how it came to be, technology on which system is based, procedures used by controllers to meet safety and efficiency goals, organizational structure of the FAA, challenges facing system, and means under investigation to meet these challenges. Involves some field work for data collection and analysis. Class project requiring system simulation required. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 563: Evidence-Based Systems Engineering. 3 credits.
A common cause of failure and risk in system development is making decisions when lacking clear evidence to support them. This course presents frameworks and methods used to make sound, evidence-based decisions throughout the system lifecycle. Students learn what information to gather, how to analyze it, and how to present those analyses when deciding on the adequacy of programmatic decisions. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: STAT 344 and STAT 354 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 568: Applied Predictive Analytics. 3 credits.
Introduces predictive analytics with applications in engineering, business, and econometrics. Topics include time series and cross-sectional data processing, correlation, linear and multiple regressions, time series decomposition, predictive modeling and case study. Provides a foundation of basic theory and methodology with applied examples to analyze large engineering and econometric data for predictive decision making. Hands-on experiments with R will be emphasized. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 568.

Recommended Prerequisite: STAT 515 or enrollment in the MSOR or MSSE programs.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 573: Decision and Risk Analysis. 3 credits.
Study of analytic techniques for rational decision making that address uncertainty, conflicting objectives, and risk attitudes. Covers modeling uncertainty, rational decision-making principles; representing decision problems with value trees, decision trees, and influence diagrams; solving value hierarchies, decision trees, and influence diagrams; defining and calculating the value of information; incorporating risk attitudes into the analysis; and conducting sensitivity analysis. Note: Students may not receive credit for both SYST 473 and 573. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 681.

Recommended Prerequisite: STAT 344 or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 574: Quality Control and Process Management. 3 credits.
Provides fundamentals of quality control and process management methodologies that are applicable in manufacturing industries. Introduces the basic concepts of engineering process and product quality management techniques. Provides exposition of fundamentals of lean Six Sigma and total quality management and maintainability. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 574.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
This course is graded on the Graduate Regular scale.

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 576: Manufacturing Systems Analysis.** 3 credits.
Provides fundamentals of modeling and analysis of general manufacturing systems that are also applicable to semiconductor manufacturing. Introduces the basic concepts of scheduling, inventory control, and enterprise resource management. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 576.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 580: Introduction to C4I Systems.** 3 credits.
This course provides a high-level introduction to fundamental principles of Command, Control, Communication, Computing, and Intelligence (C4I). The principles and techniques are applicable to a wide range of civilian and military situations. The sensing, fusion, and situation assessment processes for decision making as well as the concepts of modeling, simulation, and C4I architectures are discussed. Several cases studies of C4I systems are also included. Notes: Students who take SYST 680 may not take SYST 580. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 584.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 584: Heterogeneous Data Fusion.** 3 credits.
Introduces the theory, design and implementation of multi-source information fusion systems in various domains. The course covers distinct technologies for combining data from multiple, heterogeneous sources and performing inferences in support to applications such as cyber security, Semantic Web, decision support systems, situational awareness, intrusion detection, crisis management, and others. The technical content is largely multi-disciplinary, encompassing disciplines such as knowledge engineering, ontologies, statistical learning, artificial intelligence, and data mining. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 584.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 588: Financial Systems Engineering I: Introduction to Options, Futures, and Derivatives.** 3 credits.
This course is an introduction to financial engineering. Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions. This course will introduce basic types of derivatives, such as forward, futures, swaps, and options; as well as financial models such as Brownian motion, Ito’s formula, and Black-Scholes model. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 588.

**Recommended Prerequisite:** Eng. or Math Graduate standing, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**600 Level Courses**

**SYST 611: System Methodology and Modeling.** 3 credits.
Provides broad yet rigorous foundations and applications of dynamic modeling. Emphasizes methodologies used across various disciplines. Topics include modeling and analysis of time-driven and event-driven,
linear and nonlinear systems. The applications are presented with real-world example systems. Methodologies address dynamic systems using the concepts of composition, abstraction, execution, and performance. The issues of stochastic modeling and decision analysis are also covered. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** SYST 500 or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 618: Model-based Systems Engineering.** 3 credits.
Model-based Systems Engineering (MBSE) provides a formalized application of modeling to support the engineering of systems. The purpose of the course to study and practice the leading methodologies for MBSE and illustrate the MBSE approaches in systems engineering and management. The advanced object-oriented systems engineering methodology and model transformation techniques are addressed. Software tools are introduced and used for supporting systems engineering design. Students are expected to develop a system design of their choice using MBSE approaches presented in class and they will make presentations on these designs. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** SYST 520.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 620: Discrete Event Systems.** 3 credits.
Introduces modeling and analysis of discrete event dynamical systems. Course covers elements of discrete mathematics and then focuses on Petri Net models and their basic properties. Relation to other discrete event models of dynamical systems. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to ECE 673.

**Recommended Prerequisite:** SYST 611 or ECE 521, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 621: Systems Architecture Design.** 3 credits.
Architecture design and representation and the methodologies used to obtain them. Approaches based on system engineering constructs such as object orientation and service oriented architectures are used to design architectures and then represent them in conformance with an architecture framework such as DoDAF. Executable models of the architecture are derived to be used for architecture evaluation. Examples from current practice are used. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to ECE 674.

**Recommended Prerequisite:** SYST 520/ECE 550.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 630: Systems Engineering Management II.** 3 credits.
Study of more advanced topics in systems engineering management. Students expected to read selections from current literature as well as make presentations and produce papers on engineering management topics. Work in groups to create SEMP RMP and PAP. Focuses strongly on the practical impacts of various system engineering management techniques and practices on projects, organizations, and personnel. Offered by Systems Engr & Operations Rsch (p. 1120). Limited to two attempts.

**Recommended Prerequisite:** SYST 471 or SYST 530.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Students with the terminated from VSE major attribute may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 660: Air Transportation Systems Modeling. 3 credits.
Introduces wide range of current issues in air transportation. Issues include public policy toward industry, industry economics, system capacity, current system modeling capability, human factors considerations, safety analysis and surveillance systems, and new technological developments. Develops broad understanding of contemporary and future issues. Knowledge evaluated through class discussions, take-home midterm exam, and term project to be completed by end of semester. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 660.

Recommended Prerequisite: SYST 460/560 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 664: Bayesian Inference and Decision Theory. 3 credits.
Introduces decision theory and relationship to Bayesian statistical inference. Teaches commonalities, differences between Bayesian and frequentist approaches to statistical inference, how to approach statistics problem, and how to combine data with informed expert judgment to derive useful and policy relevant conclusions. Teaches commonalities, differences between Bayesian and frequentist methods; and practical procedures for inference, hypothesis testing, and developing statistical models for phenomena. Teaches fundamentals of Bayesian theory of inference, including probability as a representation for degrees of belief, likelihood principle, use of Bayes Rule to revise beliefs based on evidence, conjugate prior distributions for common statistical models, and methods for approximating the posterior distribution. Introduces graphical models for constructing complex probability and decision models from modular components. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to CSI 674, OR 664.

Recommended Prerequisite: STAT 544, STAT 554, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 670: Metaheuristics for Optimization. 3 credits.
Course on the theory and practice of metaheuristics, i.e. solution search techniques for solving combinatorial optimization problems. It will introduce the theory, applications (scheduling in manufacturing, transportation, and in other engineering and service industries), and computational aspects of directly searching for solutions to solve computationally complex optimization problems without a well-defined analytical model. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 670.

Recommended Prerequisite: OR 441/541 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 671: Judgment and Choice Processing and Decision Making. 3 credits.
How do people make judgments and decisions? Course presents initial review of scientific literature directed toward answering this question, and emphasizes importance when performing decision analysis and designing systems to support judgment and decision processes. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 671.

Recommended Prerequisite: STAT 344/354, OR 542 or STAT 544/554, OR 542 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 674: Dynamic Programming. 3 credits.
Theory and practice of dynamic programming, i.e., optimal sequential decision making over time in the presence of uncertainties is covered. Stresses intuition, the mathematical foundations being for the most part elementary. It will introduce the theory, applications (finance, engineering, and biology), and computational aspects of dynamic programming for deterministic and stochastic problems. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 674.

Recommended Prerequisite: OR 442 or OR 542 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 675: Reliability Analysis. 3 credits.
Introduction to component and system reliability, their relationship, and problems of inference. Topics include component lifetime distributions and hazard functions, parameter estimation and hypothesis testing, life testing, accelerated life testing, system structural functions, and system maintainability. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 675.

Recommended Prerequisite: STAT 544/554, OR 542 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Broad introduction to fundamental principles of command, control, communications, computers, and intelligence (C4I). Principles and techniques applicable to wide range of civilian and military situations. Discusses modeling and simulation of combat operations. Studies in detail sensing, fusion, and situation assessment processes. Derives optimal decision-making rules; discusses concepts of C4 architectures, and develops tools to evaluate and design C4 systems such as queueing theory. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to ECE 670.

Recommended Prerequisite: ECE 528 or OR 542 or SYST 611 or equivalent.
Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 683: Modeling, Simulation, and Gaming. 3 credits.

Recommended Prerequisite: MATH 213, SYST 500 or equivalent, and graduate standing.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 688: Financial Systems Engineering II: Derivative Products and Risk Management. 3 credits.
Financial engineering is a cross-disciplinary field which relies on mathematical finance, numerical methods, and computer simulations to make trading, hedging, and investment decisions, as well as facilitating the risk management of those decisions. This course will focus on risk management for both market risk and credit risk. It will cover a broad range of derivatives products and hedging strategies with emphasis on how risks are managed in financial institutions. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 688.

Recommended Prerequisite: OR 588 or SYST 588 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 698: Independent Study and Research. 3 credits.
Study of a selected area in systems engineering or C3I under the supervision of a faculty member. Written report required. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Completion of at least two core courses, permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 699: Masters Project. 3 credits.
Capstone project course for MS/SE program. Key activity is completion of a major applied team project resulting in an acceptable technical report and oral briefing. Student should plan to take this course in the last semester of studies. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: 21 graduate credits in OR or SYST.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 735: Advanced Stochastic Simulation. 3 credits.
Special topics and recent developments in Monte Carlo simulation methodology for discrete-event stochastic systems. Contents vary; possible topics include statistical analysis of simulation output data,
random number and random ariate generation, variance reduction techniques, sensitivity analysis and optimization of simulation models, distributed and parallel simulation, object-oriented simulation, and specialized applications. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 735.

**Recommended Prerequisite:** OR 635 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 740: Advances in Multi-Modeling.** 3 credits.
Focuses on the inter-operation of multiple models expressed in different modeling languages but which draw from the same data set: i.e., multi-modeling. Socio-technical systems often require a variety of modeling tools to define their operation accurately. An ontology based approach is used to analyze the validity of a proposed modeling architecture and workflow to address a specific issue Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** SYST 620 or ECE 673 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 750: Advanced Topics in Systems Engineering.** 3 credits.
Advanced topics not covered in department’s regular systems engineering offerings. Course content may vary each semester depending on instructor and the perception of students’ needs. May be repeated for credit when topics are distinctly different. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** 600-level course that varies with content of course.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 763: Research Methods in Systems Engineering and Information Technology.** 3 credits.
Examines alternative paradigms of scientific research and their applicability to research in information technology. Topics include fundamental elements of scientific investigation, basic principles of experimental design and statistical induction, philosophy of science and its relation to the information technology sciences, and case studies of information technology research. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 763.

**Recommended Prerequisite:** STAT 544, OR 542 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 781: Data Mining and Knowledge Discovery.** 3 credits.
Statistical and computational methods and systems for deriving user-oriented knowledge from large databases and other information sources, and applying knowledge to support decision making. Information sources can be in numerical, textual, visual, or multimedia forms. Covers theoretical and practical aspects of current methods and selected systems for data mining, knowledge discovery, and knowledge management, including those for text mining, multimedia mining, and web mining. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

**Recommended Prerequisite:** One of the following courses: CS 687, CS 650, INFS 614, STAT 663, SYST 664, or Permission of Instructor.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**SYST 799: Master’s Thesis.** 1-6 credits.
Research project chosen and completed under the guidance of a graduate faculty member, which results in a technical report acceptable to a three-member faculty committee, and an oral defense. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree.
Recommended Prerequisite: 21 graduate credits and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Thesis
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

800 Level Courses
SYST 842: Models of Probabilistic Reasoning. 3 credits.
Survey of alternative views about how incomplete, inconclusive, and possibly unreliable evidence might be evaluated and combined. Discusses Bayesian, Baconian, Shafer-Dempster, and Fuzzy systems for probabilistic reasoning. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit.

Recommended Prerequisite: STAT 544, OR 542, OR 681 or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

SYST 850: Topics in Systems Integration Engineering. 3 credits.
Covers lifecycles; large systems comprising heterogeneous components; human, organizational, and technological basis for integration; societal and cultural basis; conceptual frameworks; structure, function, and purpose of industry; risk management; user requirements and functional specifications; bid and proposal process; systems integration and federal government; standards; integration of systems and federations of systems; integrated process and product development; architectures; systems management and cost estimation; reengineering; quality management; increasing returns to scale, network effects, and path dependency issues; and systems integration ecology and evolutionary systems integration Notes: May be repeatable if topics are substantially different. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: SYST 510 or SYST 520.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

SYST 888: Distributed Estimation and Multisensor Tracking and Fusion. 3 credits.
Centralized and distributed estimation theory, hierarchical estimation, tracking and data association, multisensor multitarget tracking and fusion, distributed tracking in distributed sensor networks, track-to-track association and fusion, and Bayesian networks for fusion. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 888.

Recommended Prerequisite: ECE 734 or SYST 611.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

900 Level Courses
SYST 944: The Process of Discovery and Its Enhancement in Engineering Applications. 3 credits.
Studies ingredients of imaginative reasoning as they concern efficient discovery of new ideas and valid evidential test of them. Topics include different interpretations of Peirce's theory of abductive reasoning and other forms of reasoning, Hintikka's analysis of process of inquiry, and current attempts to design systems that provide assistance in discovery-related or investigative activities. Offered by Systems Engr & Operations Rsch (p. 1120). May not be repeated for credit. Equivalent to OR 944.

Recommended Prerequisite: IT 842, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the College of Science or Volgenau School of Engineering colleges.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Systems Engineering and Operations Research (SEOR)

700 Level Courses
SEOR 750: Advanced Topics in Systems Engineering and Operations Research. 3 credits.
Advanced topics, applications, or recent developments in the interface of systems engineering and operations research. Course content may vary each semester depending on instructor and the perception of students’ needs. May be repeated for credit when topics are distinctly different. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: 600-level course.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

SEOR 796: Directed Reading and Research. 1-3 credits.
Reading and research on specific topic in systems engineering or operations research under direction of faculty member. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

900 Level Courses

SEOR 998: Doctoral Dissertation Proposal. 1-12 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of SEOR 998 and 999 may be applied to doctoral degree requirements. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

SEOR 999: Doctoral Dissertation. 1-12 credits.
Formal record of commitment to doctoral dissertation research under direction of faculty member approved by SEOR Department. Offered by Systems Engr & Operations Rsch (p. 1120). May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Technology Management (TECM)

600 Level Courses

TECM 601: HiTech Business Models. 1 credit.
Provides an introduction to high tech industries, emerging technologies and business models that are transforming technology-intensive industries such as music, financial services and healthcare. The course covers techniques for analyzing how organizations create, deliver and capture value. The students use case-based approach to analyze traditional and high-tech organizations to understand their business models, and identify causes for success and failures. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 602: Emerging Technologies and the New CIO. 1 credit.
Provides an overview of CIOs and IT executive leadership, enabling legislation and policies on CIOs in the U.S. and abroad. The course examines the evolution of CIO core competencies, and approaches to cross agency CIO and IT coordination. Emerging ICT technologies, their corresponding potential, challenges and considerations for CIOs and IT executives in their adoption and introduction, are also discussed. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 610: Communications and Leadership. 2 credits.
Distinguishes between leadership and management, and focuses on the critical roles and functions of leadership, including communication ability, use of power and influence, providing direction, aligning an organization’s systems, motivating a workforce, and creating a culture for effectiveness. It also focuses on strategies for developing oneself as an effective leader. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to students with a major in Professional Studies (Tech Mgt) or Technology Management.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 611: Leadership and Change Management. 2 credits.
Examines the critical roles and functions of leadership with special attention to how leaders influence organizational performance and manage change. Topics include providing direction, creating a culture for effectiveness, the use of power and influence, leadership development, leading under changing conditions, and leading and managing change. Offered by School of Business (p. 877). May not be repeated for credit. Equivalent to MSIS 611.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 614: Financial and Cost Accounting. 2 credits.
Focuses on the economics and analysis of business transactions and financial reporting. Topics include an introduction to the financial reporting framework, review of how accountants measure and manage financial reporting, an introduction to cost concepts and product costing, and an analysis of capital investments and management control. Emphasis is placed on providing an analytic framework for evaluating transactions and companies. Offered by School of Business (p. 877). May not be repeated for credit. Equivalent to MSIS 614.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 615: Decision Making Using Accounting and Financial Data. 3 credits.
Provides managers with an overview of the purpose and importance of accounting within the organization and the financial valuation of information technology companies, projects, and product line. Students focus on the economics and analysis of business transactions and their related financial reporting issues from internal and external stakeholder perspectives. Students improve their skills in analyzing financial issues and presenting results in a case analysis framework. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Professional Studies (Tech Mgt) or Technology Management.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 620: Economics of Technology Management. 2-3 credits.
Enables students to build and evaluate economic and business models that can be used to analyze real managerial questions that affect all types of institutions, especially firms in the information technology industry. Students develop a better understanding of the operation of markets in general and the use of various quantitative and qualitative methods when making decisions within the firm. The use of economic analysis allows students to identify and evaluate decision alternatives, the competitive environments of firms, and the factors that influence firm performance, especially in the information technology industry. Offered by School of Business (p. 877). May not be repeated for credit. Equivalent to MSIS 620.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 635: Decision Models for Technology Management. 2-3 credits.
Enables students to build and evaluate economic and business models that can be used to analyze real managerial questions that affect all types of institutions, especially firms in the information technology industry. Students develop a better understanding of the operation of markets in general and the use of various quantitative and qualitative methods when making decisions within the firm. The use of economic analysis allows students to identify and evaluate decision alternatives, the competitive environments of firms, and the factors that influence firm performance, especially in the information technology industry. Offered by School of Business (p. 877). May not be repeated for credit. Equivalent to MSIS 635.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Finance can be employed as a source of potential competitive advantage. Use financial management models and gain an understanding of how alternatives; including their strategic importance. Students evaluate and gain an understanding of key elements required in the valuation of project with specific application to the technology sector. Students develop extensive class discussion. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TECM 640: Management of Consulting and Technical Professionals.** 1-3 credits.
Students gain insight into conflict resolution, teamwork, communication, power and influence, career development, and ethics. Helps students understand themselves and those they manage, as they work to be as effective as possible in modern organizations. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TECM 641: Negotiation and Conflict Management.** 2 credits.
Students acquire insights and skills for negotiation and conflict resolution as they relate to a variety of organizational situations - including teamwork, communication and coordination, power and influence, legal disputes, career development, cross-cultural and international issues, as well as tackling ethical problems. The course is highly experiential, and is built on a foundation of hands-on exercises and extensive class discussion. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TECM 643: Managerial Finance.** 2 credits.
Surveys the theory and practice of corporate financial management with specific application to the technology sector. Students develop an understanding of key elements required in the valuation of project alternatives; including their strategic importance. Students evaluate and use financial management models and gain an understanding of how finance can be employed as a source of potential competitive advantage.

Offered by School of Business (p. 877). May not be repeated for credit. Equivalent to MSIS 643.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TECM 696: Directed Studies in Technical Management.** 1-3 credits.
Approval by faculty member and program director required prior to registration. Studies specialized topics in business not otherwise available in the curriculum. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Admission to the TECM program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TECM 697: Special Topics in Technology Management.** 1-3 credits.
Sections established as necessary to focus on various topical issues that emerge in practice of business. Offered by School of Business (p. 877). May be repeated within the term for a maximum 6 credits.

**Recommended Prerequisite:** Admission to the TECM program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**TECM 698: Directed Studies in Technical Management.** 1-3 credits.
Available in the curriculum. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Admission to the TECM program or permission of the program director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester
700 Level Courses

TECM 702: Building High Performance Teams. 2 credits.
Develops behavioral skills integral to effective teamwork and interpersonal relationships in work environments. Covers techniques for making group decisions and resolving internal team conflicts, as well as negotiating effectively with outside parties. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Professional Studies (Tech Mgt) or Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 703: Technology Assessment, Evaluation, and Investment. 3 credits.
Prepares students to be educated consumers of information technology to maximize strategic advantage of IT to an organization. Information technologies, architectures, and products are categorized and analyzed with a view to develop and maintain the most favorable IT asset portfolio to successfully carry out business goals and strategies. Techniques for making group technology assessments, outsourcing decisions, project bidding, and contract negotiations. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Professional Studies (Tech Mgt) or Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 704: Management of Technology Projects and Portfolios. 2 credits.
Examines advanced topics in project and program management, with specific attention to the issues that managers face to effectively manage programs. This involves managing resources (both internal and external to the organization) and managing within an existing organizational structure. Specific program management topics include advanced topics for project management, program alignment with strategic objective, management of stakeholders, and development and organization of the program office. Strategic and operational tools and metrics also are discussed. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Professional Studies (Tech Mgt) or Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 711: Deriving Strategic Value from IT Investments. 2 credits.
Reviews approaches for aligning IT strategy and investment with organizational strategy. The course covers methodologies for IT investment, planning and control including cost benefit, economic and risk analysis; benefits of alternative IT investments; methods of technology road mapping; and capital investment analysis. IT performance assessment methodologies and acquisition planning and design, are also reviewed. Offered by School of Business (p. 877). May not be repeated for credit. Equivalent to MSIS 711.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 720: Competitive Strategy in Technology Industries. 2 credits.
Provides students with an understanding of the impact of information technology on firms and industries and equips them to develop and execute appropriate strategies. Although the emphasis is on information technology firms and industries, a key goal of the course is to better prepare students to respond to a diverse array of information technology challenges. Course work covers the demand and the supply side of information technology, as well as the development of frameworks and analytical tools to help put events, behaviors, and processes into understandable contexts. Offered by School of Business (p. 877). May not be repeated for credit.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director. TECM 615 and 620.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 735: Technology Management Capstone Project. 1-4 credits.
Teams undertake a strategic evaluation and plan for IT-driven business initiatives. Presentation includes analysis of competitive forces and the value chain; recommendations, including changes in goals and organizational design; plan of action integrating marketing, human resource development, organizational design, finance, and information technology; and implementation plan using theories of communication and change management, to include business case and business plan. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits. Equivalent to MSIS 735.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**TECM 737: Capstone Project in Management of Secure Information Systems.**
1-3 credits.
Teams undertake a strategic evaluation and plan for the management of secure information systems. They develop plans that include technical, organizational, and policy aspects. A report is produced and presented to the entire cohort for discussion. Offered by School of Business (p. 877). May be repeated within the degree for a maximum 3 credits. Equivalent to MSEC 720.

**Recommended Prerequisite:** Admission to Executive MS in Management of Secure Information Systems.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**TECM 741: Marketing of Innovations and Technology.** 2 credits.
Provides students the opportunity to conduct a detailed exploration of effective marketing strategies, including product and service development, branding, and customer relationships, in preparation for developing a marketing plan for a technology related innovation. Specific course topics include: assessing the marketplace, understanding the customer, market segmentation, developing and positioning the offering, pricing, branding, distribution, and promotion. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TECM 743: Security Risk Analysis and Assessment.** 1 credit.
Focuses on the analysis of security risk to the business within IT systems and across IT architecture and enterprise practices. Offered by School of Business (p. 877). May not be repeated for credit.

**Recommended Prerequisite:** C or better in TECM 747.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TECM 744: IT Audit Control.** 2 credits.
Introduces methodologies to assess security and control issues concerning accounting and other information systems. A key feature of the course will be applying Computer Assisted Audit Tools and Techniques (CAATs) to test effectiveness of application controls. Students will gain hands-on experience by using Generalized Audit Software (GAS) such as ACL to extract data from a database and perform a variety of analyses. Examples of other topics covered include business continuity planning, continuous auditing, control objectives for information technology, COSO's framework for risk management, assessment of transaction processing integrity, and role of information assurance in e-commerce. Offered by School of Business (p. 877). May not be repeated for credit.

**Recommended Prerequisite:** C or better in TECM 747.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Non-Degree Undergraduate degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TECM 745: Leading and Managing IT Operations.** 2 credits.
Explores best practices in the IT industry. Students analyze practices in terms of gaining competitive advantage in an industry where the scarcity economic model for products no longer applies. Course work focuses on leading an organization with the IT function. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Professional Studies(Tech Mgt) or Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TECM 746: Enterprise Architecture and IT Governance.** 2 credits.
Examines the operational, financial and strategic considerations of leading enterprise architecture and reviews the historical development of enterprise architecture. Major enterprise architecture frameworks including Zachman and TOGAF are examined. The relationship of enterprise architecture to IT governance, approaches to IT governance and the role of the CIO, and the relationship of IT governance to organizational performance, are also discussed. Offered by School of Business (p. 877). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
TECM 747: Information Assurance and Security Management. 2 credits. Addresses the increasingly critical areas of information security and information assurance. Specific focus is on best practices for assessment, planning and management of information security strategy, policy, organizations and controls to minimize the risks pertaining to unauthorized use, processing, storage, and communication of digital information. Pertinent legislation and policy requirements are also covered. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 748: Systemic Approach to IT Management. 2 credits. The course introduces students to systems thinking, and then applies systems thinking to best practices in development and management of IT processes and connecting management of IT processes to organizational strategy. The course also reviews and considers IT processes from the strategy and service management frameworks including Balanced Scorecard and ITIL. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 750: Global IT Management. 1-4 credits. Students spend a week in an international residency. Emphasizes dealing with technological changes across international markets and amid global developments, virtual organizations, and project management across cultures. Corporate site visits combined with presentations by professors from universities outside the United States and relevant practitioners. Offered by School of Business (p. 877). May not be repeated for credit.

Recommended Prerequisite: Admission to Technology Management Program or permission of the program director. TECM 600 and 620.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 752: Global Tech Management. 3 credits. Provides the opportunity for students to spend a week in a country or countries that are leading edge in technology and technology management. Students visit corporations and governments and interact with corporate and IT executives, and government leaders. Topics include CIO and eGovernment, commercialization of emerging technologies, national competitiveness, international development, global supply chains and virtual teams. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TECM 760: CIO Consulting Project. 1-3 credits. A guided independent study course which allow students completing their course work within the M.S. Technology Management (MSTM) program to demonstrate a select set of key competencies in the role of Chief Information Officer (CIO) while leveraging their program coursework and aligning with the identified federal CIO competencies. Offered by School of Business (p. 877). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to students with a major in Technology Management.

Enrollment is limited to Graduate or Non-Degree level students.

Enrollment limited to students in a Master of Science degree.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Telecommunications (TCOM)

500 Level Courses

TCOM 500: Modern Telecommunications. 3 credits. Comprehensive overview of telecommunications, including current status and future directions. Topics include review of evolution of telecommunications; voice and data services; basics of signals and noise, digital transmission, network architecture and protocols; local area, metropolitan and wide area networks and narrow band ISDN; asynchronous transfer mode and broadband ISDN; and satellite systems, optical communications, cellular radio, personal communication systems, and multimedia services. Examples of real-life networks illustrate basic concepts and offer further insight. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: TCOM 575, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture
structured analysis, detailed analysis, logical design, and implementation.

planning through requirements, initial analysis, general feasibility study, and implementation of telecommunications systems from strategic and implementing complex telecommunication systems. Planning

Advanced software principles, techniques, and processes for designing and implementing complex telecommunication systems. Planning and implementation of telecommunications systems from strategic planning through requirements, initial analysis, general feasibility study, structured analysis, detailed analysis, logical design, and implementation.

TCOM 514: Basic Switching: Lecture and Laboratory Course. 3 credits.
Basic switching techniques and protocols for low and high-speed digital packet networks (Ethernet, Frame Relay, ATM, X.25) are taught within a half semester lecture series, followed by hands-on laboratory for remainder of semester. Real-life scenarios taught in the laboratory element through exercises that involve configuring switches and routers. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: TCOM 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 515: Internet Protocol Routing: Lecture and Laboratory Course. 3 credits.
Internet Protocol (IP) routing overview; static routing; dynamic routing; default routing; access lists; route redistribution; RIP, OSPF, IGRP, EIGRP, IS-IS, and BGP protocols submitted for comment. Real-life scenarios taught in laboratory element through exercises that involve configuring routers as network elements. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: TCOM 535.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 521: Systems Engineering for Telecommunications Management. 3 credits.
Advanced software principles, techniques, and processes for designing and implementing complex telecommunication systems. Planning and implementation of telecommunications systems from strategic planning through requirements, initial analysis, general feasibility study, structured analysis, detailed analysis, logical design, and implementation.

Current system documentation through use of classical and structured tools and techniques for describing flows, data flows, data structures, file designs, input and output designs, and program specifications. Practical experience gained through project. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 530: Data Communications Fundamentals. 3 credits.
Covers the foundations of modern data communications. The lower layers of the OSI reference model are discussed with an emphasis on the data link and the network layers. Concepts are illustrated by drawing examples from important data networks ranging from local area networks to the Internet. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 535: The TCP/IP Suite of Internet Protocols. 3 credits.

Recommended Prerequisite: TCOM 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 547: Project Management in Telecommunications. 3 credits.
Develops integrated approach to managing major telecommunications project; evaluates and uses tools and software for project management, with specific goals of containing costs and time overruns; introduces elements for resolving conflict resolution and applying motivation within project team, and gaining the ability to monitor and control projects in changing environment; develops understanding of unique attributes of major telecommunications systems such as interoperability requirements and international technical standards. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 551: Digital Communication Systems. 3 credits.
Digital transmission of data, voice, and video. Covers signal digitization; modulation and demodulation; error correction coding; multiple access methods; multiplexing; synchronization; channel equalization; frequency spreading; encryption; transmission codes; digital transmission using bandwidth compression techniques; elements of information theory; and development of link budget evaluation such as system noise temperature, Nyquist filter concepts, antenna gain, and filter bandwidth. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 552: Introduction to Mobile Communications Systems. 3 credits.
Introduces mobile communication system design and analysis. Topics include mobile communication channel, access and mobility control, mobile network architectures, connection to fixed network, and signaling protocols for mobile communication systems. Offers examples of mobile communication systems including panEuropean GSM system, North American DAMPS system, and Personal Communication Systems. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: TCOM 500, TCOM 551.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 555: Network Management Foundations and Applications. 3 credits.
Defines and explains techniques that network managers utilize to maintain and improve performance of telecommunications network; network management system; five tasks traditionally involved with network management (fault management, configuration management, performance management, security management, and accounting management); theoretical background in transmission systems sufficient to understand network parameters such as capacity and response times; and specific network management products. Also explores how network performance data should be used for management and when considering upgrades in network architecture. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: TCOM 500 and TCOM 530.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
**TCOM 561: Security, Privacy, and Applied Cryptography for Telecommunications.** 3 credits.

Presents an introduction to Computer and Network Security and Privacy; Digital Threats; Authentication Techniques; Vulnerabilities; Integrity; Access Control; Threat Modeling and Risk Assessment; Security Policies and Countermeasures; Cryptography; Block Ciphers and DES; AES; Cipher Block Operation; Certificate and Credentials; Public Key Cryptography and RSA; Key Management; Digital Signature; Electronic Mail Security; IP Security. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 500 and TCOM 530.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 562: Network Security Fundamentals.** 3 credits.

Introduces full spectrum of network security. Topics include taxonomy such as language commonality in incident handling, national strategy to secure cyberspace, and cybersecurity organizations; organizational structure for network defense; best practices, security policy, and threats; actors and tools, countermeasures, vulnerability identification/correction, intrusion detection, and impact assessment; firewalls and intrusion detection systems; antivirus software; active defense; disaster recovery; and law enforcement and privacy issues. Reviews threats and vulnerabilities in network systems based on reports, case studies available in the literature, and actual experience. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 500.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 590: Selected Topics in Telecommunications.** 1.5-3 credits.

Selected topics from recent developments and applications in various engineering disciplines within specialty modules 1, 2, and 3 of the TCOM program. The course is designed to help the professional engineering community keep abreast of current developments. Notes: The 1.5-credit course lasts for one-half semester (approximately seven weeks) while the 3-credit course lasts for the full semester. Offered by Electrical & Comp. Engineering (p. 1061). May be repeated within the term for a maximum of 9 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**TCOM 598: Independent Study in Telecommunications.** 1.5-3 credits.

Directed self-study of special topics in telecommunications that relate to specialty modules 1, 2, and 3. Topics must be arranged with instructor and approved by program director before registering. Notes: May be taken for either 1.5 credits or 3.0 credits in fall and spring semesters. No more than total 6 credits may be taken from combination of TCOM 598, 599, 696, and 697 courses for credit in TCOM program. Offered by Electrical & Comp. Engineering (p. 1061). May be repeated within the degree for a maximum of 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale. (p. 82)

600 Level Courses

TCOM 606: Advanced Mobile Communications Systems. 3 credits.
Introduction to post-second generation cellular systems; benefits and features of third-generation (3G) systems and personal communications services (PCS); review of air interface standards and transmission technologies for mobile and quasi-stationary wireless systems, including cellular networks, satellite networks, indoor systems (Wi-Fi, Personal Local Area Networks, Orthogonal Frequency Multiplexing, Ultra Wide Band technologies); review of network control strategies; investigation of user authentication, privacy, and data and voice encryption aspects. Evolving technology, analysis of competing multiple access methods, transition plans, and backward compatibility between 2G, 2 1/2 G, 3G, and future systems, with possible fallback plans. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: TCOM 552.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 608: Optical Communications Systems. 3 credits.
Introduction and Overview of Optical Fiber Communications Systems and Optical Communication Networks. Specific topics include Optical Resonators; Photons and Matter, Lasers, Photons in Semiconductors; Semiconductor Photon Sources and Detectors; Light Emitting Diodes; Modulation of Optical Signals; Optoelectronic Networks; FDDI, Fiber channel, SONET, SDH, Ethernet on Optical Networks; Wavelength Division Multiplexing (WDM) networks; Basics of Fiber Optic System Design. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: TCOM 500.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TCOM 609: Interior Gateway Protocol (IGP) Routing. 3 credits.
Discusses development of Interior Gateway Protocols, including standards documents; interaction between various interior and exterior gateway protocols; design procedures and implementation aspects; field trial issues; and analysis of latest RFC information posted on IETF web site. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: TCOM 500 and TCOM 535, or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 610: Border Gateway Protocol (BGP) Routing.** 3 credits.
Discusses development of Border Gateway Protocol and its application in today’s Internet routing architecture. Covers evolution of Internet, BGP routing standard specifications (RFCs), interaction between various routing protocols, network BGP routing design principals and procedures for enterprise and ISP networks, BGP’s real-world implementation and configuration syntax, network scalability and convergence issues, and the latest extension and proposals for new standards. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 509 and TCOM 515, or equivalent.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 611: Multi-Protocol Label Switching (MPLS).** 3 credits.
Develops full understanding of Multi-Protocol Label Switching (MPLS) theory, technology, and implementation aspects through detailed analysis of MPLS routing concepts and protocol stacks, and completion of major project to reinforce understanding of MPLS. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 609 or 610

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 631: Voice Over IP.** 3 credits.
Presents the protocols used for transporting voice over Packet Switched Network. Topics include: Signaling basics; Topics; VoIP Network Scenarios and Connection Strategies; Communication Protocols: RTP; RTCP; VoIP Decomposition; Performance and quality metrics for VoIP; VoIP Signaling Protocols: H.323, SIP, SS7; Softswitches: architecture, functionality, application; VOIP-PSTN integration and migration; VOIP Quality and QoS; Voice Security: Vulnerabilities, remedies; NextGen VoIP; VoIP Mobility, Equipment, Voice XML, IMS; Future of VoIP. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 535.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 653: Global Positioning System (GPS).** 3 credits.

**Recommended Prerequisite:** TCOM 500.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 660: Network Forensics.** 3 credits.
Deals with collection, preservation, and analysis of network-generated digital evidence so it can be successfully presented in civil or criminal court of law. Examines relevant federal laws and private sector applications. Examines capture/intercept of digital evidence, analysis of audit trails, recordation of running processes, and reporting of such
information. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit. Equivalent to CFRS 660.

**Recommended Prerequisite:** TCOM 535, and working knowledge of computer programming.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 661: Digital Media Forensics.** 3 credits.
Deals with collection, preservation, and analysis of digital media so this evidence can be successfully presented in civil or criminal court of law. Examines relevant federal laws and private sector applications. Examines seizure, preservation, and analysis of digital media. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit. Equivalent to CFRS 661.

**Recommended Prerequisite:** TCOM 548 and 556, or TCOM 562, and working knowledge of computer operating systems; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 662: Advanced Secure Networking.** 3 credits.
Advanced technologies in network security that can be applied to enhance enterprise and ISP’s network security. Covers network perimeter defense concept and various components for complete layered defense system. Examines each component and its technologies, including TCP/IP protocol vulnerabilities, router access control list (ACL), dynamic ACL, firewall, network address translation (NAT), virtual private network (VPN), IPSec tunnels, intrusion detection system (IDS), routing protocol security, denial-of-service (DOS) attack, DOS detection and mitigation techniques. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 535 and TCOM 562, and a working knowledge of network routing protocols.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 663: Operations of Intrusion Detection for Forensics.** 3 credits.
Introduces students to network and computer intrusion detection and its relation to forensics. It addresses intrusion detection architecture, system types, packet analysis, and products. It also presents advanced intrusion detection topics such as intrusion prevention and active response, decoy systems, alert correlation, data mining, and proactive forensics. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit. Equivalent to CFRS 663.

**Recommended Prerequisite:** TCOM 535 and a working knowledge of computer programming.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 664: Incident Response Forensics.** 3 credits.
This course addresses incident detection, response, and those aspects of computer forensics pertinent to the investigation of trade secret theft, economic espionage, copyright infringement, piracy, and fraud. Procedures for gathering, preserving, and analyzing forensic evidence are discussed in detail and are applied to both computer and network incident response forensics. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit. Equivalent to CFRS 664.

**Recommended Prerequisite:** TCOM 535.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.
Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**TCOM 690:** *Advanced Topics in Telecommunications*. 3 credits.
Advanced topics from recent developments and applications in various engineering disciplines in specialty modules 1, 2, and 3 of TCOM program. Advanced topics chosen so that they do not duplicate existing TCOM courses. Active participation of students encouraged in form of writing and presenting papers in various research areas of advanced topic. Enhances professional engineering community's understanding of breakthrough developments in specific areas. Offered by Electrical & Comp. Engineering (p. 1061). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** Permission of instructor; specific prerequisites vary.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**TCOM 698:** *Telecommunications Projects Course*. 3 credits.
To be taken toward end of degree program within any of modules 1, 2, or 3. Primary activity is completing major applied project, preferably with group of two to three people. Secondary goal is consolidating training before graduation so that, in some cases, it may act as capstone course. Students and outside telecommunication industry managers present ideas for projects and, through grouping of students, new skills and approaches may be learned. Some class time used for discussion of projects, either to monitor progress or explore alternative approaches. Concludes with presentations of projects to department faculty. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

**Recommended Prerequisite:** Graduate standing with at least 18 credits or permission of department.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**700 Level Courses**

**TCOM 707:** *Advanced Link Design*. 3 credits.
Topics include advanced satellite link design such as VSAT optimization, intersatellite systems, and propagation mitigation trade-offs; radar link design such as primary and secondary radars, range ambiguities, false alarms, Doppler radar, FM radar, radar tracking, radar transmitters and receivers, and phased array radars; terrestrial wireless link design including line of sight, LMDS, and nonlinear of sight; optical link design including laser options, diffraction limits, lidar and communications links, tracking limitations, and GEO and LEO intersatellite link design; Wi-Fi link design; and directed energy systems. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

**Recommended Prerequisite:** TCOM 551, TCOM 607, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)
TCOM 750: Coordinating Seminar. 3 credits.
Open only to students in MA or MS in telecommunications programs with at least 18 credits of course work prior to registration. Topics include specific telecommunications problems in management, law, engineering, education, and communications. Focuses on ways a problem in one area can create or solve a problem in other areas. Offered by Electrical & Comp. Engineering (p. 1061). May not be repeated for credit.

Recommended Prerequisite: Open only to students in the MA or MS in telecommunications programs with at least 18 credit hours of course work prior to registration.

Registration Restrictions:
Enrollment is limited to students with a major in Telecommunications or Telecommunications.

Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the College of Science, Schar School of Policy and Gov or Volgenau School of Engineering colleges.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Theater (THR)

100 Level Courses

THR 101: Theatrical Medium. 3 credits.
Theater from the inside workings of production to informed and lively engagement with the art. Enhances an understanding of the nature of theater in society. Offered by Theatre (p. 867). May not be repeated for credit.

Mason Core: Arts (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 150: Greeks to Restoration. 3 credits.
Examines the development of Western drama and the collective art of theater from its beginnings through Shakespeare. Considers readings in dramatic literature and history of theater in social and cultural contexts. Offered by Theatre (p. 867). May not be repeated for credit.

Mason Core: Arts (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 151: Romanticism to Present. 3 credits.
Considers readings in dramatic literature and history of western theater in social and cultural contexts from the romantic period to present day. Offered by Theatre (p. 867). May not be repeated for credit.

Mason Core: Arts (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 191: Practical Theater Seminar. 0 credits.
Each semester, registered students complete five activities in support of the School of Theater. To graduate as a Theater major, students must complete 4 semesters of the course. Offered by Theatre (p. 867). May be repeated within the term for a maximum 12 credits.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 196: Performance or Design Practicum. 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Assignments include performance, design, and stage management. Open to all Theater majors, theater minors, and non-majors. Notes: Successful completion of this course is required to earn a Theater degree. Offered by Theatre (p. 867). May not be repeated for credit.

Schedule Type: Studio

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 197: Stage or Literary Practicum. 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Positions include directing, dramaturgy, and leadership in technical productions. Open to all theater majors, theater minors, and non-majors. Notes: Successful completion of this course is required to earn a Theater degree. Offered by Theatre (p. 867). May not be repeated for credit.

Schedule Type: Studio

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 198: Theatrical Construction Practicum. 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of participation on a Mason Players production. Areas include scenery construction, scene painting, costume construction, props and other technical assignments. Theater majors, theater minors, and non-majors welcomed. Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN. Offered by Theatre (p. 867). May not be repeated for credit.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 199: Production Run Crew Practicum. 1 credit.
Academic credit awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Assignments include run crew, light board operator, sound board operator, wardrobe, and fly crew. Theater majors, theater minors, and non-majors welcomed. Notes: Successful completion of this course is required to earn a Theater degree. Recommended for freshman Theater majors, first year transfers, and new Theater majors. Contact School of Theater for CRN. Offered by Theatre (p. 867). May not be repeated for credit.
200 Level Courses

THR 200: Play Production Practicum. 1 credit.
Academic credit is awarded for satisfactory completion of a minimum of 30 hours of assignment on a Mason Players production. Students who have completed THR 196, THR 197, THR 198, and THR 199 may register for THR 200 to receive credit for their participation on additional productions. Offered by Theatre (p. 867). May be repeated within the term for a maximum 8 credits.

Schedule Type: Laboratory
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 201: Stage Management. 3 credits.
Introduction to the fundamentals of stage management and the stage manager's role for production. Learn and develop the organizational skills of running and maintaining a production with emphasis on skillful methods in communication and problem solving. Analyzes text from a Stage Manager's perspective. Requirements include creating a stage manager prompt book containing important show documents. Offered by Theatre (p. 867). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 202: Literary Management. 1 credit.
Principles of literary management and dramaturgy for regional/resident theater. Directed primarily toward developing new work. Offered by Theatre (p. 867). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 203: Production/Company Management. 1 credit.
Techniques of production and company management applied to university and professional theater productions. Offered by Theatre (p. 867). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 210: Acting I. 3 credits.
Students practice contemporary acting techniques individually and in a group. Promotes and develops performance and practical communication skills. Attend theatrical productions, and respond to those experiences. Offered by Theatre (p. 867). May not be repeated for credit.

Mason Core: Arts (p. 137)

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 230: Fundamentals of Production. 3 credits.
Students explore current production practices in scenery, costumes, lighting, and sound through classroom and hands on experience. Concepts and skills acquired in this class may be applied in theater, film, dance, game design, art, corporate events, and architecture. Lab hours include work on live performances. Offered by Theatre (p. 867). May not be repeated for credit.

Mason Core: Arts (p. 137)

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

THR 300: Voice and Speech. 3 credits.
For performers, presenters, and anyone wishing to improve their speaking voice. Basic techniques in breathing, vocal production, and articulation. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 301: Advanced Study in Voice. 3 credits.
Addresses various topics in technique of vocal production for the actor with an emphasis on playing characters for stage, radio, voice-over, and screen. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: THR 300 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 303: Movement for Actors. 3 credits.
Develops the physical aspect of the actor's instrument emphasizing free and responsive expression of impulse and intention, as well as character development and visual storytelling. Offered by Theatre (p. 867). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 304: Advanced Movement for Actors. 3 credits.
Advanced work in physical expression for character development. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
THR 305: Unarmed Stage Combat. 3 credits.
Studies safe, effective techniques for performing violence for stage and screen. Emphasizes acting the fight, safety, and storytelling. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 306: Movement in Musical Theater. 3 credits.
Students will explore and perform Movement for Musical Theater to include both character development and choreography. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Arts Management, Art and Visual Technology, Dance, Film and Video Studies, Computer Game Design, Music or Theatre.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 310: Acting II. 3 credits.
Deepens an understanding of performance analysis, and character relationships through scene work. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 313: Event Technical Production. 3 credits.
A theoretical and practical study of event technology. The course will include specifications, layout installation techniques and operation of sound systems, lighting systems and video systems for event industry sectors. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 314: Lighting Stagecraft. 3 credits.
Practical and theoretical instruction on becoming theatrical electrician. Includes ideas on workplace safety, basic electrical procedures, theatrical electrical production, integrating with other theater professionals, and professionalism. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Recommended Corequisite: THR 200.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 315: Sound Engineering. 3 credits.
Study theory and practice of audio engineering for theater and the entertainment industry. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 316: Scene Painting. 3 credits.
Students experience the art and craft of scene painting with the goal of translating design elevations into paint on muslin. Students learn fundamental scene painting techniques and how to use them in combinations to create portraits, murals, landscapes, and textures. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 320: Performance Studio. 3 credits.
Builds on existing skills in observation, sense memory, relaxation, and improvisation. Students learn variety of methods for scene preparation to apply to their own acting process. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 321: Acting Shakespeare. 3 credits.
Develops understanding of challenges of performing Shakespeare by building on body of acting skills and knowledge. Focuses on how structure of language in plays reflects, reveals, and expresses character’s emotional life. Students use detailed script analysis, expansion of vocal range, and use of actions and objectives to achieve experience of transforming Shakespeare’s language into powerful theatrical expressions. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 322: Scene Painting (p. 82). 3 credits.
Students experience the art and craft of scene painting with the goal of translating design elevations into paint on muslin. Students learn fundamental scene painting techniques and how to use them in combinations to create portraits, murals, landscapes, and textures. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 323: Performance Studio (p. 82). 3 credits.
Builds on existing skills in observation, sense memory, relaxation, and improvisation. Students learn variety of methods for scene preparation to apply to their own acting process. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 324: Acting Shakespeare (p. 82). 3 credits.
Develops understanding of challenges of performing Shakespeare by building on body of acting skills and knowledge. Focuses on how structure of language in plays reflects, reveals, and expresses character’s emotional life. Students use detailed script analysis, expansion of vocal range, and use of actions and objectives to achieve experience of transforming Shakespeare’s language into powerful theatrical expressions. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 325: Directing. 3 credits.
Introduces process for directing through text analysis, rehearsal and staging techniques, and collaborative development of production idea. Students direct and apply concepts to develop a critical and productive perspective. Offered by Theatre (p. 867). May not be repeated for credit.
Recommended Prerequisite: THR 150, 151, THR 210, THR 350, or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 330: Seminar in Technical Theater. 3 credits.
Offered periodically; addresses selected topic in design or technical theater on advanced level. Offered by Theatre (p. 867). May be repeated within the term for a maximum 24 credits.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 331: Drafting and Model Making. 3 credits.
Studies conventions and techniques of drafting and model making as methods of communication in the theatrical production process. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 332: History of Fashion and Dress. 3 credits.
Explores evolution of silhouette, color, fabric, accessories, and make-up appropriate to development of clothing during specific historical eras. Offers broader understanding of sociological context influencing Western dress. Notes: May be repeated if specific course content differs. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 333: Scenic Design. 3 credits.
Fundamentals of creating, developing, and communicating design idea through sketches, plans, rendering, or models. Analysis of text from designer’s perspective. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 334: Lighting Design. 3 credits.
Introduces the fundamentals of lighting design, including research, paperwork communication, and technology for lighting. Topics include the controllable qualities of light, basic terminology, equipment, personnel and procedures. Learn to see light and develop a shared vocabulary for describing light and the process. Analyzes texts from designer’s perspective. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 335: Costume Design. 3 credits.
Project-oriented class emphasizing the art and process of designing costumes for the stage and screen, including historical period, script analysis, design concepts, color theory, and costume rendering. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 336: Technical Direction. 3 credits.
Analyze scenic units for construction including building techniques, material choices, hardware, stage rigging, and budget estimates. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 337: Sound Design. 3 credits.
Study theory and practice of sound design for theater and the entertainment industry. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 339: Principles of Design. 3 credits.
Introduction to the principles of theatrical design. Course explores various design responsibilities and methods to create visual images for the stage through script analysis, research, and production team collaboration. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Studio

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 340: Advanced Studies in Directing. 3 credits.
Expands directing techniques through staging extended scenes or one-act plays. Emphasizes collaborative process and production organization. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 329 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
THR 342: *Makeup Design*. 3 credits.
Project-oriented class emphasizing makeup for different performance spaces, character age analysis, facial anatomy, and specialized application for theater, opera, dance, film, and television. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 343: *Costume Technology*. 3 credits.
This course focuses on methods of costume construction. Lectures and demonstrations will address patternng, cutting, and sewing. The class will include hands-on lab activities. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 345: *Puppetry*. 2-4 credits.
Exploring of puppetry, and experiments with building and performance styles, through Original work. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 350: *Script Analysis*. 3 credits.
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements. Offered by Theatre (p. 867). May not be repeated for credit.

Specialized Designation: Writing Intensive in the Major

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 351: *Dramatic Theory and Criticism*. 3 credits.
Chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 150 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 352: *Dramatic Literature Seminar*. 3 credits.
Rotating topic. Intensive study of particular topic, period, or genre in dramatic literature. Notes: May be repeated if specific course content differs. Offered by Theatre (p. 867). May be repeated within the term for a maximum 9 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Examines vision of American society created and presented in contemporary American theater. Subject defined as "moral" vision because focus is on how we perceive ourselves in relation to other society's value standards. Perspectives include sociology, theory of culture, practical theater craft, and literary criticism. Features plays by range of American playwrights. Offered by Theatre (p. 867). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 359: *World Stages*. 3 credits.
Introduces variety of theatrical traditions and performance theories from around the world, with special emphasis on those not covered in introductory Western drama survey courses, 150 and 151. Students read and discuss dramatic texts, performance theory, and video clips to understand variety of theatrical traditions in cultural and historical contexts. Requirements include two team presentations (taking turns as writer and presenter), one midterm paper, and one solo presentation with accompanying paper. Offered by Theatre (p. 867). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 365: *Characterization*. 3 credits.
Explores method and approach of understanding and creating characters for theater modeled on people from personal experience and observation, imagination, dreams, and other media. Transforms that information into detailed, specific, and vivid physical manifestations. Through presentations of characters drawn from personal experience, students shift understanding of characterization from "outward directed" physical adjustments to physical characteristics and personality character traits that are immediate, familiar, and completely realized from "inner driven" connections to their own lives. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 380: *Playwriting I*. 3 credits.
Exposure to principles of dramatic writing, including character, plot, dramatic structure, dialogue, exposition, setting, and creating theatrical images using examples from plays, screenplays, and students' own work. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.
THR 381: Playwriting II. 3 credits.
Intensive continuation of work begun in THR 380. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.
Recommended Prerequisite: THR 380 or permission of instructor.

THR 382: Screenplay Workshop. 3 credits.
Studies screenwriting as dramatic form of 20th, 21st centuries. Explores story, plot structure, three act-structures, mythic structures, fundamental story patterns, character, thinking, and writing visually. Offered by Theatre (p. 867). May not be repeated for credit.

THR 395: Theater as the Life of the Mind. 3 credits.
Traces four subjects (battle of the sexes, good gifts, cyclical tragedy, and eschatology) from ancient theater to contemporary plays, television, and movies, using literary criticism, history, political theory, comparative religion, sociology, and anthropology. Offered by Theatre (p. 867). May not be repeated for credit.

THR 401: Professional Presentation. 3 credits.
Examines persuasive communication, with an emphasis on making presentations and addressing groups, both large and small. Hones the ability to project a personal passion while communicating information about any discipline to general audiences. Offered by Theatre (p. 867). May not be repeated for credit.

THR 405: Advanced Stage Combat. 3 credits.
Armed Stage Combat techniques are explored, unarmed techniques solidified, and advanced choreography mastered in this study of safe and effective theatrical storytelling through violence for Stage and Screen appropriate towards national certification as Actor-Combatant. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 9 credits.
Recommended Prerequisite: THR 305 or permission of instructor.

THR 410: Acting for the Camera. 3 credits.
Designed for students with a strong interest in pursuing a professional career in acting and is focused primarily on the particular techniques for screen acting in film and television. Offered by Theatre (p. 867). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: THR 310C.
C Requires minimum grade of C.
Enrollment is limited to students with a major, minor, or concentration in Theatre.

THR 411: Great Film Directors. 3 credits.
Students view and analyze films in order to explore important film genres and examine influential directors. Offered by Theatre (p. 867). May not be repeated for credit.

Mason Core: Arts (p. 137)

THR 412: Great Film Performances. 3 credits.
Students view and analyze films in order to examine the development and evolution of film acting. Offered by Theatre (p. 867). May not be repeated for credit.

Mason Core: Arts (p. 137)

THR 415: Advanced Sound Engineering. 3 credits.
Advanced study in theory and practice of audio engineering for theater and the entertainment industry. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 315 and THR 230 or permission of instructor.

THR 416: Acting for the Camera. 3 credits.
Designed for students with a strong interest in pursuing a professional career in acting and is focused primarily on the particular techniques for screen acting in film and television. Offered by Theatre (p. 867). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: THR 310C.
C Requires minimum grade of C.
THR 420: Advanced Performance Studio. 3 credits.
Advanced scene study for stage and film. Rotating topics address professional perspectives and acting styles. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 9 credits.

Registration Restrictions:
Required Prerequisite: THR 320C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 421: One-Person Show. 3 credits.
Explores creative writing, staging, and performance while developing short, original work culminating in the successful writing, a one-person show. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 423: Audition Techniques: Stage and Camera. 3 credits.
Develops effective audition techniques for performers through preparation of material for stage and camera, and explores industry standards and casting protocols through practical application. Offered by Theatre (p. 867). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: (THR 310C).
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 424: Contemporary Women Playwrights. 3 credits.
Explores identity and culture, sexuality and gender, work, relationships, and power through the eyes of female dramatists and performance artists. Analyzes texts and issues through readings, video, and live performances. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 9 credits.

Recommended Prerequisite: Junior standing or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 425: Verse Speaking. 3 credits.
Explores verse literature and mechanics of verse structure through reading, discussing, and reciting major verse plays of Western drama from the Middle Ages through the 20th century. Focuses on various verse forms, paying particular attention to vocal clues within verse structure, the meaning of rhythm, and practicing vocal techniques used in speaking texts in class. Students also prepare weekly presentations of playwrights, and historical backgrounds of plays and their periods. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 210 and 310 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 428: Musical Theater Ensemble. 3 credits.
Rehearses a musical or musical theater review in a workshop environment. The result of the work will be public performance(s). Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Audition.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 434: Advanced Lighting Design. 3 credits.
In-depth study of lighting design focused on the aesthetics of stage lighting and advanced conceptualization and communication of design ideas. Extensive work with script analysis, research, and graphic representation of theatrical lighting designs. Intensive practical experience in laboratory and production assignments. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: THR 230, THR 334, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 440: Advanced Studies in Directing/Dramaturgy. 3 credits.
Examines theory and practice of collaborative development of production ideas by director and dramaturg teams. Students draw from extensive study in field to support production ideas from classical and modern repertoire to be presented as written and oral projects before faculty panel. Offered by Theatre (p. 867). May not be repeated for credit.

Mason Core: Synthesis (p. 137)

Recommended Prerequisite: Junior or Senior standing. Completion, or concurrent enrollment in, all Mason Core courses. THR 150 or 151, and THR 329, or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
THR 448: Foundations of Theater Education. 3 credits.
Introduces and explores various theater teaching specialties. Examines philosophical, pedagogical, and practical issues in context of diverse teaching situations and venues that range from public school to undergraduate and graduate training to commercial establishments. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Junior standing (60 credit hours completed) and Theater Teaching Concentration admission requirements or permission of the instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 449: Elementary Theater Education. 3 credits.
An in-depth exploration of teaching methods and classroom management for PK-6 theater education. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or permission of the instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 450: Secondary Theater Education. 3 credits.
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, gifted and talented, and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of learning, curriculum and instructional procedures for secondary grades 6-12 (both middle and secondary schools). Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: Junior standing (60 credit hours completed) Theater Teaching Concentration admission requirements or permission of the instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 451: Theater Pedagogy. 2 credits.
This advanced exploration of teaching methods for K-6 enrichment programming includes classroom hours devoted to pedagogy and field study for practical application, leadership and administration for independent arts programming. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: Sophomore standing and enrollment in Theater Education concentration; or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 455: Theater Education Internship. 6-12 credits.
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA before student teaching (and the Praxis II (Theater: Content Knowledge) test during the internship semester).

Schedule Type: Internship
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 480: Advanced Playwriting. 3 credits.
Advanced playwriting workshop in which students explore their own voice in theatrical writing. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: THR 381 or Permission of Instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 482: Advanced Screenplay Workshop. 3 credits.
Screenwriting workshop emphasizing student development in screenplay form, structure, and storytelling with emphasis on craft, character, and story culminating in a screenplay. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Specialized Designation: Writing Intensive in the Major
Recommended Prerequisite: THR 382 or ENGH 332/ENGH 372 or other writing preparation course as approved by the instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 484: Translation & Adaptation for Stage & Screen. 3 credits.
This interdisciplinary course will introduce students to the arts of translation and adaptation for the stage and screen. Students will read examples of translations and adaptations, identify challenges in each, and discuss them with professionals who translate or adapt works for theater, film and/or opera. Students are also expected to apply their skills to one short and one long translation/adaptation project, and present their work to the class. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: Junior standing

Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 490: Special Topics in Theater. 1-6 credits.
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater. Notes: May be repeated provided specific course content differs. Offered by Theatre (p. 867). May be repeated within the term for a maximum 24 credits.

Schedule Type: Lecture
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester.

THR 491: **Seminar on the Profession.** 1-3 credits.
Rotating topic. Advanced seminar in topics of special interest, including dramatic writing or other media, and feminism in contemporary theater.
Notes: Repeatable with permission of the Chair. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** 60 credit hours.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 492: **Studio Project.** 1-3 credits.
Required for students assigned as director, designer, dramaturg, or stage manager for a Mason Players Studio production. Instruction and mentorship from appropriate Theater faculty to better develop the student's aesthetic. Required generation of portfolio material. This class is restricted to students participating in Studio productions within the academic year of the course offering. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 9 credits.

**Recommended Prerequisite:** THR 329 or THR 333 or THR 334 or THR 335 or THR 337.

**Registration Restrictions:**
Enrollment is limited to students with a major, minor, or concentration in Theatre.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 493: **Collaborative Lab Experience.** 3 credits.
Students will collaborate in a laboratory experience to create original material for the stage or screen. Course content will be project specific. Offered by Theatre (p. 867). May not be repeated for credit.

**Registration Restrictions:**
Students with a class of Freshman or Sophomore may not enroll.

Enrollment is limited to students with a major in Theatre.

Enrollment limited to students in a Bachelor of Fine Arts degree.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 494: **Field Experience.** 1-6 credits.
Experience in a theatrical organization to provide opportunity to apply classroom training, knowledge, skills, and theory in a professional situation. Activity must be approved by department chair. Offered by Theatre (p. 867). May be repeated within the term for a maximum 12 credits.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 495: **Senior Capstone Project.** 3 credits.
Student must submit a written project proposal to area of concentration for consultation. If accepted, proposal will be presented to the full faculty for approval. Notes: Production proposals will be subject to calendar availability. Course is repeatable with permission of Chair. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Must have declared a concentration, have completed at least 60 credit hours, and must have completed 4 credits of Practicum.

**Schedule Type:** Studio

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 496: **Text in Production.** 3 credits.
In-depth investigation of collaborative nature of theatrical arts. Examines discrete creative disciplines; acting, directing, dramaturgy, and design as discussed by distinguished professionals and scholars. In-depth exploration of one selected playscript for the entire semester. Students will work collaboratively in small groups to research, design, direct, and perform scenes from selected text. Offered by Theatre (p. 867). May not be repeated for credit.

**Mason Core:** Synthesis (p. 137)

**Recommended Prerequisite:** Completion or concurrent enrollment in all theater core courses and in all other required Mason Core courses.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

THR 497: **Independent Study.** 1-6 credits.
Individual research and creative project in close consultation with instructor. Selection from projects in performance, directing, technical theater and design, playwriting, or theater history and criticism. Notes: May be repeated, provided suffix citing specific course content is different. Offered by Theatre (p. 867). May be repeated within the term for a maximum 24 credits.

**Recommended Prerequisite:** Open only to THR majors with 90 hours and by permission of department chair.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

500 Level Courses

THR 525: **Advanced Musical Theater Workshop.** 3 credits.
Students hone performance techniques necessary for performance in musical theater and contemporary operetta. Students will practice and perform musical theater pieces. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 530:** Topics in Theater Design. 3 credits.
In-depth study of scenic, costume, lighting, or sound design. Extensive work with script analysis, historical and conceptual research, visual communication of design ideas, and technical paperwork. Focus on aesthetics, production requirements, and collaboration. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**THR 539:** Aesthetics for the Theater. 3 credits.
Students will develop skills in design while exploring significant developments within the area of concentration. Creative projects, including research and design, will be supervised on an individual basis. Offered by Theatre (p. 867). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 540:** Directing Techniques. 3 credits.
As an examination of the directorial process for stage and screen, this course will explore directing theory, preparation, and practice. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 548:** Advanced Foundations of Theater Education. 3 credits.
Explores various theater teaching specialties in venues that range from public school to undergraduate and graduate training to commercial establishments. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 549:** Advanced Elementary Theater Ed. 3 credits.
An in-depth exploration of teaching methods and classroom management for PK-6 theater education combined with advanced managerial skill training. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Graduate standing, eligibility for post-baccalaureate certificate in Theatre Education Licensure, or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 550:** Advanced Secondary Education. 3 credits.
This course explores teaching methods for theater that are appropriate for all students, including exceptional students, including gifted and talented and those with disabling conditions. It will cover requirements of the Virginia Theater Standards of Learning, curriculum and instructional procedures, as well as theater classroom management, for secondary grades 6-12 (both middle and secondary schools). Offered by Theatre (p. 867). May not be repeated for credit.
**Recommended Prerequisite:** Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 551: Advanced Theater Pedagogy.** 2 credits.
Advanced concepts in teaching methods for PK-12. Further exploration of multiple intelligences, including classroom pedagogy and field study for practical application of curriculum and administrative skills. Offered by Theatre (p. 867). May not be repeated for credit.

**Recommended Prerequisite:** Graduate standing, eligibility for post-baccalaureate certificate in Theater Education or permission of the instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 555: Theater Education Internship.** 1-12 credits.
Full semester of supervised teaching experience in approved school programs PK-12. Credits based on number of teaching contact hours per week. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** Successful completion of Theater Teaching Concentration Coursework and students must pass the VCLA and Praxis I prior to the internship semester.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 560: Advanced Script Analysis.** 3 credits.
Critical analysis of dramatic literature as preparation for production and performance. Examination of plot, character, theme, audience impact, and cultural context, and the transformation of intellectual ideas into physical theatrical production elements. Offered by Theatre (p. 867). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate degree or equivalent, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 571: Advanced Playwriting Workshop.** 3 credits.
Advanced playwriting workshop in which students explore their own voice in theatrical writing. Offered by Theatre (p. 867). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**THR 590: Special Topics for Graduate Study.** 1-6 credits.
Rotating topic. Advanced seminar in topics for stage and screen studies, including education, performance, design, research, writing, and styles in theater or other media. Offered by Theatre (p. 867). May be repeated within the term for a maximum 18 credits.

**Recommended Prerequisite:** Undergraduate degree or equivalent, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester
THR 591: Graduate Seminar. 1-3 credits.
Addresses the realities living and working in the theater and the film industry. Notes: Rotating Topics. Dependent on credits hours offered, class time will vary from 1 hour to 2 hours, 40 minutes. Offered by Theatre (p. 867). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Theatre.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

THR 599: Independent Study. 1-6 credits.
Independent reading, performance, or research on a specific project under direction of selected faculty member. May include attendance in a parallel undergraduate course. Offered by Theatre (p. 867). May be repeated within the term for a maximum 18 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

600 Level Courses

THR 610: Acting Mentorship. 3 credits.
This class gives students the chance to work with a faculty mentor while they apply their acting skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Actors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the process. Offered by Theatre (p. 867). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

THR 620: Acting Techniques. 3 credits.
Students explore selected acting techniques for stage and screen. Topics vary from scene work to specialty areas -such as movement, voice and style-with an emphasis on developing bold physical, psychological and emotional expression. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 12 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

THR 630: Design Mentorship. 3 credits.
Students work with a mentor while they apply design and technical skills to a full-length public performance. Students create a record of their creative process through mentored practical production assignments. Students must receive prior approval on projects for the stage or screen and will be expected to submit a written reflection on the process. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Graduate Special scale. (p. 82)

THR 640: Directing Mentorship. 3 credits.
This class gives students the chance to work with a faculty mentor while they apply their directing skills to a full-length public performance. Students create a record of the creative process through mentored practical production assignments. Directors enrolled in this course must receive prior approval for their projects for the stage or screen and will be expected to submit a written reflection on the full directorial process. Offered by Theatre (p. 867). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)
THR 651: Advanced Dramatic Theory and Criticism. 3 credits.
A chronological study of development of dramatic theory and criticism from Plato and Aristotle through modern movements. Students read plays, theoretical works, and critical responses, and write original criticism of performances or texts. They also take turns leading critical texts, meet one-on-one with their instructor for individualized mentoring, and prepare at least one essay for publication. Offered by Theatre (p. 867). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

THR 652: Writing Seminar. 3 credits.
Students develop writing skills and explore significant developments and periods within the field. Offered by Theatre (p. 867). May not be repeated for credit.

Recommended Prerequisite: Admission to Graduate Program in CVPA.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

THR 655: Teaching Practicum. 3 credits.
Students develop and teach undergraduate curriculum related to their area of emphasis. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Admission to Graduate Program in CVPA.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale. (p. 82)

THR 691: Professional Development. 1 credit.
Students develop materials and strategies toward the next stage of career in the field. Offered by Theatre (p. 867). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 694: Graduate Field Experience. 1-6 credits.
Experience in a professional theater or screen production. Activity is subject to prior faculty approval. Students will present a final portfolio of work. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 696: Advanced Acting Practicum. 3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience. Offered by Theatre (p. 867). May be repeated within the degree.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 697: Advanced Playwriting and Dramaturgy Practicum. 1-3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.
Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**THR 698:** Advanced Directing Practicum. 1-3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**THR 699:** Advanced Design Practicum. 1-3 credits.
Academic credit awarded for satisfactory completion of a minimum of 60 hours approved production experience. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)

**700 Level Courses**

**THR 740:** Directors and Dramaturg in Collaboration. 3 credits.
Students work in director-dramaturg pairs to create a hypothetical theater company, craft its mission, plan its season and pitch their ideas for production. Additional assignments include a director’s approach, dramaturg’s protocol, annotated bibliography, research paper and lecture on a related topic. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**THR 755:** Academic Track Practicum. 3 credits.
Students prepare a semester worth of course material for undergraduate class. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Admission to Graduate Program in CVPA.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**THR 760:** Directed Research. 1 credit.
In preparation for a thesis, students develop and complete a body of reading relating to their thesis. Offered by Theatre (p. 867). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**THR 790:** Directed Reading. 1 credit.
In preparation for a thesis, students develop and complete a body of reading relating to their thesis. Offered by Theatre (p. 867). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**THR 795:** Academic Track Practicum. 3 credits.
Students prepare a semester worth of course material for undergraduate class. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

**Recommended Prerequisite:** Admission to Graduate Program in CVPA.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**THR 796:** Directed Research. 1 credit.
In preparation for a thesis, students develop and complete a body of reading relating to their thesis. Offered by Theatre (p. 867). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**THR 797:** Directed Research. 1 credit.
In preparation for a thesis, students develop and complete a body of reading relating to their thesis. Offered by Theatre (p. 867). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**THR 798:** Directed Reading. 1 credit.
In preparation for a thesis, students develop and complete a body of reading relating to their thesis. Offered by Theatre (p. 867). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)

**THR 799:** Directed Reading. 1 credit.
In preparation for a thesis, students develop and complete a body of reading relating to their thesis. Offered by Theatre (p. 867). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Graduate Special scale. (p. 82)
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 798: Project Practicum. 3 credits. Students document their production process during the culminating artistic project. Notes: Students must attain a B or higher to receive credit. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

Recommended Corequisite: THR 797.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

THR 799: Thesis. 1-3 credits. Students reflect upon their culminating artistic project and articulate original conclusions regarding practice in their area of emphasis. Notes: Subject to Faculty majority. Students must attain a B or higher to receive credit. Offered by Theatre (p. 867). May be repeated within the degree for a maximum 3 credits.

Recommended Prerequisite: Research Methods Core Requirement.

Registration Restrictions: Enrollment is limited to Graduate or Non-Degree level students. Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

Tourism and Events Management (TOUR)

100 Level Courses

TOUR 110: Professionalism and Civility. 1 credit. Focuses on developing competencies in the areas of professionalism and civility in a variety of settings including professional image, conduct at work, telephone, written, oral, and electronic etiquette, table manners, and social networking with an emphasis on the cultural needs for honoring commitments and obligation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 200: Introduction to Tourism Management. 3 credits. Introduces travel and tourism from local to international levels. Covers the scale, scope and organization of the industry. Emphasizes the development and management of natural, cultural, heritage and recreational resources of tourism. Identifies issues related to the economic, technological and political aspects of tourism. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 210: Global Understanding through Travel and Tourism. 3 credits. Examines tourism as a global industry and human activity that promotes and facilitates understanding of historical and cultural values, and of international institutions that characterize the broader global system. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 220: Introduction to Event Management. 3 credits. Explores principles and practices of managing medium- and large scale events including festivals, conventions, concerts, shows, sporting events, and ceremonies. Emphasizes organization, site preparation, communications, personnel, and security as well as evaluation and innovation. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 221: Event Implementation and Evaluation. 3 credits. Introduction to event implementation and evaluation through involvement in on-site event delivery and analysis. Studies participant motivation and economic, social, environmental, and cultural impacts in relation to an
event’s products and services. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 220\textsuperscript{D}.
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 230: Introduction to Hospitality Management. 3 credits.
This course is an introduction to hospitality management, including an overview of management in the hospitality industry and professional opportunities. The concepts and practices of hospitality management are examined and discussed. The scope and forms of hospitality organizations are reviewed, as well as trends within these organizations. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 241: Hospitality, Tourism, and Events Management Practicum. 3 credits.
Provides 120 hours of introductory supervised professional fieldwork experience in an approved tourism, events, or hospitality management setting for 10 to 14 weeks (10 weeks only for the Summer term) under the supervision of a practicum Faculty Supervisor and Agency Supervisor. Includes meetings and assignments before, during, and after the practicum. Notes: Students must complete the mandatory pre-experience orientation session online before registering for this course. Hourly requirement per week is 15-20 for Summer term. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: TOUR 200\textsuperscript{D}, 220\textsuperscript{D} and 230\textsuperscript{D}.
\textsuperscript{D} Requires minimum grade of D.

Students with a class of Freshman may not enroll.

Enrollment is limited to students with a major in Tourism and Events Management.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

300 Level Courses

TOUR 301: Hotel Management. 3 credits.
Explores interrelated systems in hotel management, including front desk, reservations, housekeeping, food/beverage, telecommunications, guest services and security. Reviews and segments hotel products and associated management challenges. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 230\textsuperscript{D}.
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 310: Food and Beverage Management. 3 credits.
Explores the principles of foodservice management regarding production and selling of food and beverage products. Categorizes various types of food, wine, beer and spirits. Reviews foodservice buying, pricing, menu planning, production, storage, service, controls and quality assurance. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 230\textsuperscript{D}.
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 311: Women and Tourism. 3 credits.
Focuses on women as hosts and guests. Using social theory, explores issues regarding the history and evolution of tourism as a gendered system. Addresses family, solo and business travel, and employment, taking into consideration issues related to more and lesser developed countries as they relate to the roles of women in international tourism. Notes: Open to nonmajors. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 313: Event Technical Production. 3 credits.
Explores theoretical and practical considerations of event technology. Examines specifications, layout installation techniques and operation of sound systems, lighting systems and video systems for event industry sectors. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 220\textsuperscript{D}.
\textsuperscript{D} Requires minimum grade of D.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 314: Hospitality, Tourism, and Events Revenue Management. 3 credits.
Provides an overview of revenue management as utilized in a hospitality context. Presents the dynamics of revenue management and demonstrates strategic and operations perspectives. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: TOUR 200\textsuperscript{C}, 220\textsuperscript{C} or 230\textsuperscript{C}.
\textsuperscript{C} Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 320: Hospitality, Tourism and Event Management Information. 3 credits.
Introduces management information systems (MIS) technology and its application to hospitality, tourism and event management (HTEM) sectors from managerial and strategic perspectives. Surveys computer applications, products and trends in gathering, analyzing, storing and communicating information within the HTEM sectors. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: TOUR 200D, 220D or 230D.
D Requires minimum grade of D.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 330: Resort Management. 3 credits.
Surveys effective practices in the management of resort recreation enterprises. Examines basic resort operations, including front desk, food and beverage, amenities, and housekeeping. Covers management of a variety of resort types, such as ski resorts, beach resorts, dude ranches, business retreats, adventure camps, health spas, and golf resorts. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: TOUR 200D or 230D.
D Requires minimum grade of D.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 331: Cruise Ship Management. 3 credits.
Surveys effective practices in the management and operation of cruise ships. Includes on-site examination of basic cruise operations including sales and booking, food and beverages, hotel operations, security, recreation activities, shore excursions and personnel management. Examines historical foundations of the cruise industry, related leisure and management theory, and leisure trends specific to mass international maritime travel. Notes: Includes on-campus classroom lectures and week-long on-board cruise ship instructional experience. Must be 21 years of age by beginning of semester. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: TOUR 200C and 230C.
C Requires minimum grade of C.

Students with a class of Freshman or Sophomore may not enroll.

Enrollment limited to students with a major in Tourism and Events Management.

Enrollment limited to students in a Bachelor of Science degree.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 340: Sustainable Tourism. 3 credits.
Studies the characteristics of environmentally, economically and socio-culturally sustainable tourism and assesses the possibilities and limitations for its implementation within a variety of destinations and product settings. Emphasizes conventional "mass" tourism and small-scale "alternative" tourism as they apply to hospitality, event, and tourism management. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Specialized Designation: Green Leaf Course

Registration Restrictions:
Required Prerequisite: TOUR 200D.
D Requires minimum grade of D.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 341: Film and Medical Tourism. 3 credits.
This two-part course introduces film-induced tourism and medical tourism. The evolution of each type of tourism, and the opportunities and challenges of each type of tourism, will be explored in-depth. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 200C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 342: Sacred Spaces and Dark Tourism. 3 credits.
In-depth examination of the tourist experience at popular sacred sites and at attractions that offer socially unapproved or harmful personal touristic experiences. Management issues at touristic sacred sites and dark tourism enterprises will be identified and compared. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 200C.
C Requires minimum grade of C.

Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 343: Wine and Food Tourism. 3 credits.
Considers the characteristics of food and wine tourism related to environmental, economic and socio-cultural sustainable tourism and assess the possibilities and limitations for implementation within a variety of destinations and settings. Includes the development of the global food chain, artisan food and drink production, and the role of food and wine in the tourist experience. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 200C.
TOUR 350: Heritage and Cultural Tourism. 3 credits.
Analyzes historical and cultural attractions, including museums, canals, monuments, pilgrimage sites, military sites, and cultural and heritage landscapes. Covers presentation and interpretation, African-American and Native American heritage, management and operational considerations, and marketing. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 200D.
D Requires minimum grade of D.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 355: Event Logistics. 3 credits.
Explores practical considerations of event logistics and operations for conferences, conventions and exhibitions throughout the event industry sector. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 220C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 352: Cultural and Environmental Interpretation. 3 credits.
Focuses on communication processes and practices used by professionals to explain and interpret special characteristics of cultural and environmental resource sites for visitors. Discusses conceptual principles for planning interpretive programs, as well as techniques for analyzing and disseminating information and entertainment through various media. Examines delivery of interpretive messages across a variety of audiences, strategies for programming interpretive services, and the administration and evaluation of interpretive services at tourism, event, and recreation sites. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit. Equivalent to PRLS 362.

Registration Restrictions:
Required Prerequisites: PRLS 300C or TOUR 352C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

400 Level Courses
TOUR 410: Tourism Economics. 3 credits.
Introduces both macro and micro economic theory as it relates to hospitality, tourism and events management fields. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisite: TOUR 241C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 412: Hospitality, Tourism, and Events Management Marketing and Sales. 3 credits.
Provides understanding and tools for marketing and management of financial resources in entrepreneurial tourism enterprises. Also includes market planning, business planning, feasibility assessment, investment analysis, basic accounting, and operational control. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: TOUR 241C or PRLS 241C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 420: Tourism Planning/Policy. 3 credits.
Principles of planning and policy that apply to integrated and sustainable tourism development at the international, national, state, regional, local, and site scale. Considers government, industry, and community perspectives. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Specialized Designation: Green Leaf Course
Registration Restrictions:
Required Prerequisite: TOUR 241C.
C Requires minimum grade of C.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

TOUR 430: Destination Marketing and Management. 3 credits.
Discusses the theories and concepts of destination management with a comprehensive approach that emphasizes planning, development, and
marketing a destination. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: TOUR 241<sup>C</sup>.
<sup>C</sup> Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**TOUR 440: Meetings and Conventions.** 3 credits.
Analyzes meetings, incentives, conventions, and exhibitions with respect to business environment and structure, industry suppliers, site and facility selection, human resource management, legal and financial issues, marketing and promotion, and event organization. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: TOUR 241<sup>C</sup>.
<sup>C</sup> Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**TOUR 445: Restaurant Management.** 3 credits.
Advances knowledge gained in Food and Beverage Management, basic cooking skills, and human resource management to include hands-on operations of a full-service restaurant. Knowledge needed to successfully manage both back-of-the-house and front-of-the-house operations will be taught. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Recommended Prerequisite:** Safe Serve Certification

**Registration Restrictions:**
Required Prerequisites: TOUR 310<sup>C</sup>, 450<sup>C</sup> and NUTR 410<sup>C</sup>.
<sup>C</sup> Requires minimum grade of C.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**TOUR 450: Hospitality Human Resources Management.** 3 credits.
Reviews concepts and methods related to the achievement of strategic business goals through employee recruitment, training and development. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: TOUR 241<sup>C</sup>.
<sup>C</sup> Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**TOUR 460: Hospitality Facilities Operations.** 3 credits.
Explores the principles applied to facilities systems operations in hospitality sectors. Considers design, planning, layout and maintenance of hospitality properties and systems. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: TOUR 230<sup>C</sup>.
<sup>C</sup> Requires minimum grade of C.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**TOUR 470: Career Preparation.** 1 credit.
Focuses on current issues in tourism, events and hospitality management with an emphasis on career development strategies. Notes: Meets for half the semester Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Registration Restrictions:**
Required Prerequisite: TOUR 241<sup>D</sup>.
<sup>D</sup> Requires minimum grade of D.

Students with a class of Freshman or Sophomore may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**TOUR 480: Special Topics.** 1-3 credits.
Selected topics reflect interest in specialized area of tourism and events management. Announced in advance. Offered by Recreation, Health & Tourism (p. 210). May be repeated within the term for a maximum 9 credits.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Additional Course Details:** Title varies by section and/or semester

**TOUR 490: Hospitality, Tourism, and Events Management Internship.** 12 credits.
Provides 400 hours of advanced supervised professional experience in an approved tourism, events, or hospitality management setting for a minimum of 30 hours/week, and a maximum of 40 hours/week (summer term only). Provides a continuous and structured opportunity to apply principles and skills developed in the classroom to the solution of practical problems. Notes: Students must attend mandatory pre-experience orientation session before registering and must participate in the mandatory final presentations upon completion of internship. Can register for only one additional course for up to 3 credits. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

**Mason Core:** Capstone (p. 137)

**Registration Restrictions:**
Required Prerequisites: TOUR 241<sup>D</sup> and 470<sup>D</sup>.
<sup>D</sup> Requires minimum grade of D.

Enrollment limited to students with a class of Senior Plus or Senior.

Enrollment is limited to students with a major in Tourism and Events Management.
700 Level Courses

TOUR 710: Advanced Administrative Practices in Tourism and Events. 3 credits.
Explores best practices in the administration of tourism and events businesses. Particular emphasis will be placed on contract management, and strategic planning for dynamic markets and changing technologies, with specific applications to geographically dispersed consumers and suppliers. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TOUR 712: Marketing Tourism and Event Planning Services. 3 credits.
Focuses on the unique challenges and opportunities faced by tourism and event marketers in producing, delivering, pricing, and promoting tourism and event services. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

TOUR 720: Major Events and Convention Management. 3 credits.
Prepares graduate students for managing large scale events such as major festivals, conventions, sporting contests, cultural exhibitions, and commercial exhibitions. Management of human financial, information, and technology resources will be emphasized. Offered by Recreation, Health & Tourism (p. 210). May not be repeated for credit.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.
Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Turkish (TURK)

100 Level Courses

TURK 110: Elementary Turkish. 6 credits.
Introduces elements of grammar, vocabulary, oral skills, listening comprehension, and reading. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
200 Level Courses

TURK 201: Intermediate Turkish I. 3 credits.
Further development of skills in listening, speaking, and writing. Notes: TURK 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: TURK 110, or permission of department.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in Turkish

TURK 202: Intermediate Turkish II. 3 credits.
Further development of skills in listening, speaking, and writing. Notes: TURK 201 and 202 must be taken in sequence. Offered by Modern & Classical Languages (p. 419). May not be repeated for credit.

Recommended Prerequisite: TURK 201, or permission of department

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

University Level Courses

University Studies (UNIV)

100 Level Courses

UNIV 100: Introduction to Mason. 1 credit.
This course assists first-year students with their transition from high school to college life at Mason. It helps students to be successful through academic skill-building, educational planning, and career preparation. It provides information regarding campus resources and ways to engage in the Mason community. Although all sections have a core curriculum, certain sections also focus on a particular theme, student population, or course of study. Offered by Provost's Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 106, UNIV 108, UNIV 140, UNIV 150, UNIV 160.

Registration Restrictions:
Enrollment limited to students with a class of Freshman.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 101: Extended Transition. 0-1 credits.
This course serves as a continuation of University 100 into the second freshman semester. It extends the transition support of international students, and other students in special sections of University 100. Offered by Provost's Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 141, UNIV 151.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 106: Thriving at Mason. 0-2 credits.
Assists first-year students with their transition from high school to college life and offers the opportunity to learn resources, skills, and strategies that will guide them to academic success. This course is open only to students in the Mason Autism Support Initiative (MASI). Offered by Provost's Office (p. 1158). May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 100, UNIV 108, UNIV 140, UNIV 150, UNIV 160.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Special scale. (p. 82)

UNIV 108: Mason Transition. 0-1 credits.
Specialized transition to Mason courses with identified student populations. Notes: Only repeatable with department approval. Offered by Provost's Office (p. 1158). May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 100, UNIV 106, UNIV 140, UNIV 150, UNIV 160.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 110: Academic Success. 0-1 credits.
Focuses on academic transition and planning issues for students in their first or second year. Emphasis is placed on resources and techniques to assist students with improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester. Offered by Provost's Office (p. 1158). May not be repeated for credit.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 140: INTO Mason Pathway Transition. 0-1 credits.
Assists first-year international and multilingual standard and accelerated pathway students with their transition from high school to college life. It helps prepare students for successful progression to their chosen degree plan the promoting acculturation to academic norms and expectations at Mason, the development of self-efficacy, and engagement with the Mason community. It encourages to seek out and take full advantage of a wide range of campus resources. Offered by Provost's Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 106.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
UNIV 141: INTO Mason Pathway Extended Transition. 0-1 credits.
Serves as a continuation of UNIV 140. It provides extended first-year transition support for standard pathway students in the second semester. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 150: First Year Living Learning Communities. 0-1 credits.
This course is available for students who are members of a first year LLC. It is the learning component of the program for students who live together on a residence hall floor. The course follows the core University 100 curriculum, but is tailored to the particular theme or academic discipline of the LLC. Offered by Provost’s Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 100, UNIV 106, UNIV 108, UNIV 140, UNIV 160.

Registration Restrictions:
Enrollment limited to students with a class of Freshman.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 151: First Year Living Learning Communities Extended Transition. 0-1 credits.
This course serves as a continuation of University 150 into the second freshman semester. It extends the transition support of students in the First Learning Communities Program. Offered by Provost’s Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 101, UNIV 141.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 160: University Scholars Transition Seminar. 0-2 credits.
A first year transition seminar for students in the University Scholars Program. Offered by Provost’s Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 100, UNIV 106, UNIV 108, UNIV 140, UNIV 150.

Recommended Prerequisite: Admittance to the University Scholars Program.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 170: Special Topics. 0-1 credits.
Varied UNIV course topics are offered to first and second year undergraduate students. Notes: May be repeated when topic is different. Offered by Provost’s Office (p. 1158). May be repeated within the term for a maximum 3 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

UNIV 190: Introduction to Research Opportunities. 0-1 credits.
Provides an opportunity to learn more about participating in research and creative projects at Mason and acquire skills needed to be successful in research. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)

200 Level Courses

UNIV 206: Exploring Identities. 0-2 credits.
Explores identity and social development within the university environment. This course is open only to students in the Mason Autism Support Initiative (MASI). Offered by Provost’s Office (p. 1158). May be repeated within the degree for a maximum 2 credits.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Special scale. (p. 82)

UNIV 220: Decide and Confirm Majors. 0-1 credits.
This course focuses on helping students clarify or choose a major or career. Students explore and assess their interests, values and skills, as well as research various majors, careers, and the world of work as information for the decision-making process. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

Recommended Prerequisite: Second-semester freshman standing.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 250: Second Year Living Learning Communities. 0-1 credits.
Students in a Second Year Living Learning Community live together on a residence hall floor and attend this course together to fulfill the learning component of the LLC program. Notes: For students who are members of a Second Year Living Learning Community. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

UNIV 300: Transfer Transition. 0-1 credits.
This course assists new transfer students with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost’s Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 302, UNIV 303, UNIV 305, UNIV 308.
Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

UNIV 302: College of Science Transfer Transition. 0-1 credits.
This course is intended for new transfer students in the College of Science to assist them with a successful transition to Mason. This course addresses academic success, time management, and course schedule planning, as well as graduate school/career readiness, degree requirements, and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 300, UNIV 303, UNIV 305, UNIV 308.

Schedule Type: Seminar

UNIV 303: Veteran Transition. 1 credit.
This course is for students with veteran status. Based on theory and research specific to the needs of veterans, this course builds a foundation for success in college and beyond, including career planning, translating military experience on a resume, practical interviewing techniques, and networking and engaging with other veterans in a military-friendly environment. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 300, UNIV 302, UNIV 305, UNIV 308.

Schedule Type: Seminar

UNIV 304: Bachelor Individualized Studies Transfer Transition. 1 credit.
This course serves new transfer students in the Bachelor of Individualized Studies (BIS) program, and assists them with a successful transition to Mason. Students develop relationships with peers, staff, and faculty. They are introduced to campus resources, with special emphasis on research and writing resources and tools, and work closely with BIS academic advisors and faculty. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Only one of UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305, or UNIV 308 may be taken for credit. Offered by Provost's Office (p. 1158). May not be repeated for credit.

Schedule Type: Seminar

UNIV 305: College of Humanities and Social Sciences Transfer Transition. 0-1 credits.
Assists new transfer students in the College of Humanities and Social Sciences with a successful transition to Mason. Addresses academic success, educational planning, and career preparation, in addition to degree requirements and other university policies and procedures. Students explore campus resources and opportunities for engaging in the Mason community. Notes: Only transfer students in their first or second semester at Mason are eligible to take this course. Only repeatable with department approval. Offered by Provost's Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 300, UNIV 302, UNIV 303, UNIV 308.

Registration Restrictions:
Enrollment limited to students in the Humanities Social Sciences college.

Schedule Type: Seminar

UNIV 306: Preparing for a Career. 0-2 credits.
Helps students solidify major and career decisions, develop job-hunting strategies, and practice workplace skills. This course is open only to students in the Mason Autism Support Initiative (MASI). Offered by Provost's Office (p. 1158). May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305.

Schedule Type: Seminar

UNIV 307: Academic Success. 0-1 credits.
Focuses on academic strengthening and planning issues for students in their third year or later. Emphasis is placed on resources and techniques to assist students with improving their academic performance. Students work closely with the instructor to track their academic progress over the course of the semester. Offered by Provost's Office (p. 1158). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Junior, Senior Plus or Senior.

Schedule Type: Seminar

UNIV 308: Mason Transition. 0-1 credits.
Specialized transition to Mason courses with identified student populations. Notes: Only repeatable with department approval. Offered by Provost's Office (p. 1158). May be repeated within the degree for a maximum 2 credits. Equivalent to UNIV 300, UNIV 302, UNIV 303, UNIV 304, UNIV 305.

Schedule Type: Seminar

UNIV 309: Internship and Career Readiness. 0-1 credits.
This course helps students confirm major/career choices and actively pursue internships, research assistantships, and other career-related experiences. With a focus on career readiness, students prepare a resume and cover letter, practice interviewing techniques, and conduct career research. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost's Office (p. 1158). May not be repeated for credit. Equivalent to UNIV 306.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 330: Peer Leadership: Peer Advisors.** 0-1 credits.
This course prepares upperclass students to serve as University 100 Peer Advisors, a role that helps first-year students transition successfully from high school to college. This course provides Peer Advisors with the necessary information, tools, and resources to co-teach University 100 effectively. Notes: For students who have been selected as a Peer Advisor by the University Transitions Program. Only repeatable with department approval. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 331: Peer Leadership: Patriot Leaders.** 0-1 credits.
This course introduces students who will serve as Patriot Leaders to the principles of effective leadership. Students will apply knowledge gained through the course directly to their roles and responsibilities as Patriot Leaders through readings and discussions, experiential activities, and class assignments. Notes: For students who have been selected as a Patriot Leader by the Office of Orientation and Family Programs and Services. Only repeatable with department approval. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 332: Peer Leadership: Resident Advisors.** 0-1 credits.
For students who have been selected for Resident Advisor education by the Office of Housing and Residence Life. Notes: For students who have been selected as a Resident Advisor by the Office of Housing and Residence Life. Enrollment is contingent upon approval by Student Academic Affairs - Advising, Retention, and Transitions - in consultation with the Office of Housing and Residence Life. Only repeatable with department approval. Offered by Provost’s Office (p. 1158). May be repeated within the degree for a maximum 2 credits.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 333: Peer Leadership: Peer Mentors.** 0-1 credits.
Prepares students to serve as Peer Mentors in a variety of Mason departments and programs. Students learn and put into practice leadership approaches and strategies. They become familiar with communication tools and campus resources that will enable them to mentor fellow students successfully. Notes: For students who have been selected as a Peer Mentor in a Mason department or program. Only repeatable with department approval. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 350: Third Year Living Learning Communities.** 0-1 credits.
Students in a Third Year Living Learning Community live together on a residence hall floor and attend this course together to fulfill the learning component of the LLC program. Notes: For students who are a member of a Third Year Living Learning Community. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 370: Special Topics.** 0-1 credits.
Notes: May be repeated when topic is different. Offered by Provost’s Office (p. 1158). May be repeated within the term for a maximum 3 credits.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 371: Dimensions of Well-Being.** 0-1 credits.
Introduces students to the terminology and basic science of well-being. Students will learn about evidence-based practices to cultivate resilience, optimism, mindfulness, and happiness. Practical application assignments will give students a chance to experiment with building a lifestyle to promote greater well-being. The course also addresses community and national well-being and the shared responsibilities of enhancing well-being in our society. Offered by Provost’s Office (p. 1158). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 391: Students as Scholars Scholarly Inquiry.** 0-9 credits.
Students contribute to scholarly, research, or creative projects by engaging in the recursive process of scholarly inquiry as preparation for participation in an individualized original project. Students will hold regular meetings with their project mentor, and make satisfactory contributions to the project. Notes: Enrollment only with permission from OSCAR. Offered by Provost’s Office (p. 1158). May be repeated within the degree for a maximum 27 credits.

**Specialized Designation:** Scholarly Inquiry

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

**UNIV 406: Pursuing Workplace Success.** 0-2 credits.
Prepares students for the workplace or graduate school. Students will practice interviewing and interpersonal skills, as well as develop and practice strategies for success in post-graduation endeavors. This course is open only to students in the Mason Autism Support Initiative (MASI). Offered by Provost’s Office (p. 1158). May be repeated within the degree for a maximum 2 credits.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Special scale. (p. 82)
**UNIV 420: College to Career. 1 credit.**
This course supports second semester juniors and seniors with transitioning into the professional workplace. Students develop a tailored resume and cover letter, refine their interviewing skills, and discuss important workplace issues, such as compensation packages and workplace dynamics. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost's Office (p. 1158). May not be repeated for credit. Equivalent to ENGH 303, FRLN 309, GLOA 305, HIST 385, PHIL 393.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 421: College to Graduate School. 1 credit.**
This course supports second semester juniors and seniors. The academic emphasis is on transition readiness for graduate or professional school. Students learn about application and testing options and strategies, interviewing skills, budgeting, and career development. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost's Office (p. 1158). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 422: Professional Skills Development. 0-1 credits.**
Is for seniors preparing for success in the workplace. Course topics include: building skills employers demand, advocating for yourself in challenging situations, preparing for performance reviews, understanding employment benefits such as compensation, health, and financial plans, and more. This course helps prepare students for meeting 21st century workplace challenges in a practical, experiential, and collaborative workplace-simulated environment. Notes: Only one of UNIV 220, UNIV 320, UNIV 420, UNIV 421, or UNIV 422 may be taken per semester. Offered by Provost's Office (p. 1158). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 490: Critical Decisions in Postgraduate Transitions. 0-1 credits.**
This course guides and supports students through the postgraduate fellowship application process and postgraduate decisions. Students create a resume, complete a fellowship application, prepare for a scholarship interview, and refine their educational and career goals. Notes: Enrollment through the Office of Fellowships. Only repeatable with approval from the Office of Fellowships. Offered by Provost's Office (p. 1158). May be repeated within the degree for a maximum 1 credits.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 491: RS: Students as Scholars Individualized Scholarship Experience. 0-9 credits.**
Students actively participate in the process of scholarship and make a significant contribution to the creation of scholarly, research, or creative project. Students meet regularly with their project mentor, make satisfactory progress towards the completion of the project, and create a disciplinary product for evaluation. Notes: Enrollment only with permission from OSCAR. Offered by Provost's Office (p. 1158). May be repeated within the degree for a maximum 27 credits.

**Specialized Designation:** Research/Scholarship Intensive

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 495: RS: Undergraduate Research Scholars Program Seminar. 0-3 credits.**
Students accepted into Undergraduate Research Scholars Program participate in a weekly seminar, hold regular meetings with their project mentor, and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation through UNIV 496. See oscar.gmu.edu for more information and application. Notes: Enrollment only with acceptance into the URSP through OSCAR. Offered by Provost's Office (p. 1158). May not be repeated for credit.

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** UNIV 495.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**UNIV 496: RS: Undergraduate Research Scholars Program Continuation. 0 credits.**
Students continuing their participation in the Undergraduate Research Scholars Program hold regular meetings with their project mentor and make satisfactory progress on their research or creative project. At the end of the semester, students either complete their project and present the results in a professional context, or apply for continuation. See oscar.gmu.edu for more information and application. Notes: Enrollment only with acceptance into the URSP through OSCAR. Offered by Provost's Office (p. 1158). May be repeated within the degree.

**Specialized Designation:** Research/Scholarship Intensive

**Recommended Prerequisite:** UNIV 495.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**Urban and Suburban Studies (USST)**

**300 Level Courses**

**USST 301: Urban Growth in a Shrinking World. 3 credits.**
Examines process of urbanization historically and comparatively. For major world regions, attention is given to the political economy of urbanization and its impact on social and economic relations. Examines growing globalization of the world economy, implications for urban life, and urban political economy of the future. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

**Specialized Designation:** Green Leaf Course

**Schedule Type:** Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

USST 390: Special Topics in Urban and Suburban Studies. 3 credits.
Subject varies according to specialization of instructor. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

400 Level Courses

USST 401: Seminar: The Future of Metropolitan America. 3 credits.
Examines trends in the development of American metropolis, including impact of information economy and technological developments on metropolitan form and life, continuing outward growth and increasing decentralization of metropolitan areas, changing functional organization of urban space, and continued social segregation in metropolitan areas. Analyzes contemporary predictions about future of metropolitan life in America, and explores how alternative public policies can shape that future. Students work on research projects in metro area. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: 12 hours of USST approved courses, including USST 301, or Permission of Instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

USST 490: Internship. 3 credits.
Approved work-study programs that focus on urban and suburban issues with an approved agency or firm. Placement depends on student qualifications and availability of positions. Students work with onsite supervisor and coordinator of urban and suburban studies. Offered by Schar School of Policy & Govt (p. 941). May not be repeated for credit.

Recommended Prerequisite: Open only to authorized students with 12 hours of USST; see USST coordinator. Individualized Section Form required.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Volgenau School of Engineering (VSE)

500 Level Courses

VSE 501: Fundamentals of Computing, Engineering & Technology Education. 3 credits.
Aimed at educating future and current engineering faculty on basic concepts, ideas, and issues of computing, engineering, and technology (CET) education to prepare them for future professoriate career and/or help improve current teaching practices. The course material provides a broad introduction to CET education covering historical foundations, theories of learning, and current topics of interest. It focuses on key conceptual questions related to CET learning including what are the characteristics of CET cognition, how is it different than other content areas, what approaches work best for CET learning, how to use theory-driven approaches in education, and the role of technology, including learning analytics and educational data mining, in CET education. Offered by Volgenau School of Engineering (p. 991). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

VSE 502: Teaching and Learning in Computing, Engineering & Technology. 3 credits.
Aimed at educating future and current engineering faculty on principles of how to design and implement computing, engineering, and technology (CET) courses. The course provides a theory-based introduction to course planning, curriculum design, and evaluation and assessment. It focuses on proven methodologies to improve CET teaching including active learning, problem-based learning, and cooperative learning. The course will focus on design of CET learning for development of technical skills, critical thinking skills, creative thinking skills, and communication skills, among students. The course will also introduce students to ABET accreditation. Offered by Volgenau School of Engineering (p. 991). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

700 Level Courses

VSE 794: Graduate Internship. 0-3 credits.
Students with an Internship/Externship/Co-Op opportunity will gain practical experience while engaging in an experiential learning opportunity. Offered by Volgenau School of Engineering (p. 991). May be repeated within the degree for a maximum 6 credits.

Recommended Corequisite: Completion of at least 18 credit hours.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may not enroll.

Enrollment limited to students in the Volgenau School of Engineering college.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (p. 82)
Women and Gender Studies (WMST)

100 Level Courses

WMST 100: Global Representations of Women. 3 credits.
Explores ways women are portrayed around the world in advertising, film, TV, cartoons, and news media; literature and religious texts; as well as photography, and the visual and performing arts. Through interdisciplinary study, students evaluate the powerful effects these representations have on the political, economic, and social lives of women throughout the world. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Mason Core: Global Understanding (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

200 Level Courses

WMST 200: Introduction to Women and Gender Studies. 3 credits.
Interdisciplinary introduction to women’s, gender and sexuality studies, encompassing key concepts in the field, history of women's movements and women’s studies in America, cross-cultural constructions of gender, and a thematic emphasis on the diversity of women's experience across class, race, and cultural lines. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Mason Core: Social/Behavioral Sciences (p. 137)

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 208: Introduction to Lesbian, Gay, Bisexual, Transgender, and Queer Studies. 3 credits.
Explores major events in lesbian, gay, bisexual, transgender, transsexual, and queer culture and history in the United States to understand how identities, experiences, and movements have been socially constructed and have changed in different times and places, often as a result of race, class, and gender inequities. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Recommended Prerequisite: WMST 200: Introduction to Women and Gender Studies

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

300 Level Courses

WMST 300: Current Issues in Women and Gender Studies. 1-6 credits.
Study of selected topics central to contemporary women and gender studies. Topics vary but include subjects such as women and violence, women and international development, women’s myth and ritual, LGBTQ topics, the history and politics of sexuality, psychoanalysis, and religion. Notes: May be repeated for credit when topic is different. Offered by Women & Gender Studies (p. 2246). May be repeated within the term.

Recommended Prerequisite: WMST 200 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 307: Women and Work. 3 credits.
Historical and contemporary accounts of women’s participation in paid and unpaid labor. Analyzes the nature of women’s work through the divisions in the labor market due to gender, race, nationality, ethnicity, and class. Provides a detailed look at occupational sex segregation, sexual harassment, the glass ceiling, and the role of religion, culture, and education in determining women's opportunities and their value as workers and as family providers. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Recommended Prerequisite: 30 credits.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 309: Black Social Movements: Gendering of Violence and Activism. 3 credits.
Examines racialized gendered conceptions of popular culture, violence, and the legal system and their role in structuring systems of segregation, discrimination and exclusion. Looks at the gendered strategies and conflicts of organizations that arose to combat racial violence and overturn legal and social barriers to equal opportunity and citizenship rights. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 313: Women Who Kill. 3 credits.
Questions the assumptions that women are nonviolent by nature and commit acts of violence only in response to abuse. Explores the complexity of human interactions through popular culture, literature and film and through theoretical works that attempt to explain female violence (compared to male violence) and as it is seen by others. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 314: Stories of Gender and Human Rights. 3 credits.
Examines global human rights issues through memoir, poetry and fiction. Explores the ways women use literary expression to voice their dissent and to struggle against human rights violations. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 315: Women During the Enslavement Era. 3 credits.
Examines the general experiences of enslaved women and nominally free women. Includes the lives of female reformers involved in the public arena as orators, writers, preachers, abolitionists and women’s rights activists. Explores the effect of gender, class, and race on the
development of ideologies concerning abolition, colonization, women’s rights, and enslavement. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**WMST 316:** Gendered Pan-Africanism. 3 credits.
Gendered Pan-Africanism. Explores the writings and activism of African Americans who traveled to Africa in search of a shared cultural past and present or an opportunity to build pan-African allegiances. Examines these encounters within the context of the Cold War, US civil rights and African anti-colonial movements, and racial and gender ideologies of the time. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**WMST 317:** Women’s Activism: From Jim Crow to Black Power. 3 credits.
Provides an intersectional study of women’s historical struggles to fight race, gender and class oppression. Demonstrates legal influence on reproduction of race and gender inequalities. Documents the major movements of the period from Jim Crow segregation to Black Power. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**WMST 330:** Theoretical Perspectives in Women and Gender Studies. 3 credits.
Introduces students to theoretical work in feminism, women’s and gender studies, and queer theory. Examines the history of feminist and queer theories, key concepts and thinkers, and the intersection of feminist and queer theories with other areas of social analysis such as race and class. Explores social inequalities and forms of resistance. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

**Recommended Prerequisite:** WMST 200 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**WMST 390:** Study Abroad. 1-3 credits.
Study abroad under supervision of George Mason University faculty. Course topics, content and locations vary. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**400 Level Courses**

**WMST 400:** Internship in Women and Gender Studies. 1-3 credits.
Community- or campus-based service or experiential learning related to women’s or gender issues. Independent course in which students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience. Includes a paper and/or portfolio component. Offered by Women & Gender Studies (p. 2246). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Completion of 60 hours, WMST 200 or permission of instructor.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**WMST 401:** Experiential Learning in Women and Gender Studies. 1-3 credits.
Community- or campus-based service or experiential learning as it relates to a specific WMST course, taken at the same time. Students develop, in consultation with faculty member, individual contracts defining learning and competencies they plan to gain from the experience. Notes: Only 3 credits of WMST 400 or 401 may be applied toward the women and gender studies interdisciplinary minor. Offered by Women & Gender Studies (p. 2246). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Concurrent enrollment in women and gender studies course and approval of advisor and instructor.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**WMST 402:** Queer Theory. 3 credits.
Challenges rigid categories and definitions in order to create a space for marginalized voices. Examines the inconsistencies and erasures that often characterize notions of sex, gender, sexuality, and sexual desire. Explores categories that intersect with sexualized identities such as race, ethnicity, class, nationality, location, and age. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**WMST 405:** Social Dynamics of Family Violence. 3 credits.
Through seminar readings, videos, assignments, and class discussions, course explores forms of family violence, including child abuse, elder abuse, and intimate partner, and same-gender couple violence. Includes discussions of intervention, prevention and solutions. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (p. 82)

**WMST 406:** Gender and Violence in Social Institutions. 3 credits.
Examines gender-based violence in institutions such as the military, prisons, the Catholic Church, sports, and fraternities that share structural qualities including sex segregation, high rates of violence, and internal systems of justice. Concludes by examining strategies to reduce violence in each institution. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.
WMST 407: Transnational Sexualities. 3 credits.
Explore the globalization of sexual identities, cultures, and social movements from a transnational perspective. Engaging with literature from across the social sciences and humanities, we will consider how sexual rights discourse get defined and utilized in relation to theories of desire and the body; sexual health and reproductive rights; sex work; travel and tourism; border-crossing and migration; and neoliberalism and development. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 408: Gender, Sexuality, and Human Rights. 3 credits.
Explores the globalization of women’s and LGBTQ human rights discourses from transnational and global perspectives. Issues include: women’s human rights and the war on terrorism; rape and sexual violence; HIV/AIDS; sex work and sex trafficking; girls’ human rights; lesbian, gay, bisexual, transgender and intersex rights; and disability rights for women and sexual minorities. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 409: Gender, Sexuality, and International Migration. 3 credits.
Explores how gender and sexuality structure contemporary processes of immigration and border-crossing in Europe and the U.S.. Addresses the history of U.S. immigration controls in relation to questions of race, class, gender and sexuality; women’s and LGBTQ claims for political asylum in Europe and the United States; child migration; sex work, trafficking and migration; and feminist and queer anti-deportation activism. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Taught in English

WMST 410: Feminist Approaches to Social Research. 3 credits.
Introduces feminist approaches to social research for advanced undergraduate students. Focuses on the techniques for collecting, analyzing, and writing-up research data and examines central methodological issues raised by feminist scholars. Emphasizes a learning-by-doing approach to conducting social research. Recommended that students take WMST 330 before this course. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Specialized Designation: Scholarly Inquiry
Recommended Prerequisite: 60 credits, including 9 credits of WMST courses, or permission of instructor

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 411: RS: Feminist Research Practice. 3 credits.
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Specialized Designation: Research/Scholarship Intensive
Recommended Prerequisite: WMST 410 or permission of instructor.

Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 412: Challenging Pride: Bias Within the LGBTQ Community. 3 credits.
Explores the other "isms" that exist within the LGBTQ community such as racism, sexism, classism, ageism, and xenophobia. Interrogates LGBTQ social movements both historical and contemporary in which many people who identify in this community are left out due to these intersecting systems of oppression. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

WMST 450: Current Topics in Women and Gender Studies. 1-3 credits.
Studies selected topics central to contemporary women and gender studies. Includes topics such as women and violence, women and international development, women’s myth and ritual, LGBTQ topics, the history and politics of sexuality, disability, transnational issues and religion. Offered by Women & Gender Studies (p. 2246). May be repeated within the term for a maximum 18 credits.

Schedule Type: Seminar
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

WMST 490: Independent Study in Women and Gender Studies. 1-3 credits.
Reading or research on a specific topic related to women and/or gender issues, under the direction of a faculty member. May involve a combination of reading assignments, tutorials, papers, presentations, or off-campus activities. Offered by Women & Gender Studies (p. 2246). May be repeated within the degree for a maximum 6 credits.

Recommended Prerequisite: WMST 200 or Permission of Instructor.

Schedule Type: Independent Study
Grading:
This course is graded on the Undergraduate Regular scale. (p. 82)
500 Level Courses

WMST 505: Social Dynamics of Family Violence. 3 credits.
Through seminar readings, videos, assignments, and class discussions, course explores forms of family violence, including child abuse, elder abuse, and intimate partner, and same-gender couple violence. Includes discussions of intervention, prevention and solutions. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

WMST 506: Gender and Violence in Social Institutions. 3 credits.
Examines gender-based violence in institutions such as the military, prisons, the Catholic Church, sports, and fraternities that share structural qualities including sex segregation, high rates of violence, and internal systems of justice. Concludes by examining strategies to reduce violence in each institution. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

WMST 507: Transnational Sexualities. 3 credits.
Explore the globalization of sexual identities, cultures, and social movements from a transnational perspective. Engaging with literature from across the social sciences and humanities, we will consider how sexual rights discourse get defined and utilized in relation to theories of desire and the body, sexual health and reproductive rights; sex work; travel and tourism; border-crossing and migration; and neoliberalism and development. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

WMST 508: Gender, Sexuality, and Human Rights. 3 credits.
Explores the globalization of women's and LGBTQ human rights discourses from transnational and global perspectives. Issues include: women's human rights and the war on terrorism; rape and sexual violence; HIV/AIDS; sex work and sex trafficking; girls' human rights; lesbian, gay, bisexual, transgender and intersex rights; and disability rights for women and sexual minorities. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

WMST 509: Gender, Sexuality, and International Migration. 3 credits.
Explores how gender and sexuality structure contemporary processes of immigration and border-crossing in Europe and the U.S.. Addresses the history of U.S. immigration controls in relation to questions of race, class, gender and sexuality; women's and LGBTQ claims for political asylum in Europe and the United States; child migration; sex work, trafficking and migration; and feminist and queer anti-deportation activism. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

WMST 550: Current Topics in Women and Gender Studies. 1-3 credits.
Studies selected topics central to contemporary women and gender studies. Includes topics such as women and violence, women and international development, women’s myth and ritual, LGBTQ topics, the history and politics of sexuality, disability, disability, transnational issues and religion. Offered by Women & Gender Studies (p. 2246). May be repeated within the term for a maximum 18 credits.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester
600 Level Courses

WMST 600: Special Topics. 3 credits.
Study of selected topics central to contemporary women and gender studies. Topics vary but include representation and images, violence, public policy, international development, transmigration of labor, myth and ritual, history and politics of sexuality, psychoanalysis, and religion. Notes: May be repeated for credit when topic is different. Offered by Women & Gender Studies (p. 2246). May be repeated within the term.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Title varies by section and/or semester

WMST 602: Queer Theory. 3 credits.
Challenges rigid categories and definitions in order to create a space for marginalized voices. Examines the inconsistencies and erasures that often characterize notions of sex, gender, sexuality, and sexual desire. Explores categories that intersect with sexualized identities such as race, ethnicity, class, nationality, location, and age. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: Taught in English

WMST 610: Feminist Approaches to Social Research. 3 credits.
Introduces feminist approaches to social research. Focuses on the techniques for collecting, analyzing, and writing-up research data and examines central methodological issues raised by feminist scholars. Emphasizes a learning-by-doing approach to conducting social research. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Recommended Prerequisite: WMST 610 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

Additional Course Details: 3 credits of 600-level WMST courses, or permission of instructor.

WMST 611: Feminist Research Practice. 3 credits.
Undertake a semester-long research project investigating an issue of importance to feminist scholarship utilizing a variety of methods typically used by feminist scholars, including quantitative, qualitative, historical, or textual. Enhance understanding of techniques for collecting, analyzing, and writing up empirical material as well as critical engagement with ethical, interpretive, and representational considerations relating to feminist research. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Recommended Prerequisite: WMST 610 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

WMST 630: Feminist Theories across the Disciplines. 3 credits.
Multidisciplinary course examines the central issues of feminist theory and explores the various strategies of feminist theorists. Analyzes the ways in which feminist theories have challenged established disciplinary boundaries and contested the traditional assumptions of the humanities, the social sciences, and the sciences. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (p. 82)

WMST 640: Transnational and Global Feminisms. 3 credits.
Multidisciplinary course explores the complex issues women face in different regions of the world. Addresses women's diverse and shared transnational and global concerns and provides students with the tools to analyze and understand women in a global context. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.
Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**WMST 690: Directed Readings and Research in Women and Gender Studies.**
1-3 credits.
Advanced individualized study of gender through readings, discussion, research, and/or projects under the direction and supervision of a member of the women’s studies faculty. Offered by Women & Gender Studies (p. 2246). May be repeated within the term for a maximum 9 credits.

**Recommended Prerequisite:** Admission to graduate program in woman’s studies and permission of director.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Research

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**WMST 695: Internship.** 3 credits.
Community or campus-based service or experiential learning related to women’s or gender issues. Students develop, in consultation with a faculty member, individual contracts defining the learning and competencies they plan to gain from the experience. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

**Recommended Prerequisite:** Completion of 15 graduate credits in Interdisciplinary Studies, including 9 credits in Women and Gender Studies or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Regular scale. (p. 82)

**WMST 699: Capstone Portfolio.** 0 credits.
Prior to graduation and in consultation with their advisor, students will reflect on and synthesize their work in the women and gender studies certificate program by selecting three items taken from their work in the program and discussing these items in a 7-10 page essay. Work selected may include course papers, videos of their performances, exhibit photos, music recordings, and other items as agreed upon by student and advisor. Offered by Women & Gender Studies (p. 2246). May not be repeated for credit.

**Recommended Prerequisite:** Students must have completed their course work for women and gender studies certificate or be in the last semester of their course work.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (p. 82)
