The Global Affairs, MA is an interdisciplinary program offering students the opportunity to engage in advanced study of a broad range of global issues. Students complete a core curriculum that provides the knowledge and skills to think and act globally. Students also pursue specializations that include relevant courses from academic departments across the university. All students in the program take part in a residency abroad, typically two weeks in duration, and complete a capstone seminar. Graduates enter the workforce or move forward in their already-established international and domestic careers in the public sector, non-governmental organizations, and business.

This is a Green Leaf program.

## Admissions & Policies

### Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For specific information, see Application Requirements and Deadlines (<http://globalaffairs.gmu.edu/programs/application/LA-MA-GLOA>) on the departmental website.

### Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies.

Students who wish to pursue study abroad in addition to the required core course GLOA 710 Seminar Abroad must receive prior approval and may not use more than 3 credits earned while abroad towards their specialization. Students must maintain a 3.00 cumulative grade point average with no more than two grades below B.

## Dual Degree Options

### Foreign Languages, MA and Global Affairs, MA Dual Degree

Students interested in pursuing a dual master's program linking foreign languages or global affairs with another discipline should discuss their interest with the graduate program directors of both programs and review the university policies regarding Individualized Dual Master's Degree Programs.

Students approved to pursue a dual master's program linking the foreign languages MA with a concentration in French, Spanish, or Spanish bilingual/multicultural education with the global affairs MA can share 12 credits between the two programs. Application to the second master's program should be pursued with consultation of the directors of both programs. Admission to the second master's program will require that the student has met the minimum prerequisites for admissions to the second program.

## Accelerated Master's

### Bachelor's Degree (any)/Global Affairs, Accelerated MA

#### Overview

Highly qualified undergraduates in any major may apply to the accelerated master's degree in global affairs. If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's degree in global affairs after satisfactory completion of 144 credits, sometimes within five years.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees. For policies governing all graduate degrees, see AP.6 Graduate Policies.

#### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions. For specific information, see Application Requirements and Deadlines (<http://globalaffairs.gmu.edu/programs/application/LA-MA-GLOA>) on the departmental website.

#### Accelerated Option Requirements

While undergraduate students, accelerated master's students complete GLOA 600 Global Competencies and either GLOA 605 Interdisciplinary Research Methods or GLOA 610 Economic Globalization and Development with a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

## **Reserve Graduate Credit**

Students may take up to 6 additional graduate credits (GLOA 605 Interdisciplinary Research Methods or GLOA 610 Economic Globalization and Development and GLOA 620 Human Systems) as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/ Accelerated Master's Transition Form. The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates.
