EDIT 752	Designing and Evaluating the User Experience in Learning Design and Technology	3
EDIT 772	Virtual Worlds, Augmented Reality, and Gaming Applications	2
<b>Total Credits</b>		<b>30</b>

This master's program is designed to equip students in various industry contexts to work collaboratively with business leaders and subject matter experts to identify opportunities and recommend solutions to address learning needs; apply new and emerging technologies to design, develop, and implement innovative solutions to learning and performance problems; and monitor and evaluate the effectiveness of learning interventions using metrics, measures and analytics that align with business objectives. Students will be able to perform these functions individually and as part of interdisciplinary design teams using a variety of methodologies, learning technologies and digital courseware development packages.
