This certificate targets students who are working on or possess an undergraduate degree in a technical (science or engineering) field but lack a formal credential in the computer science field. The certificate also targets students who have shown an aptitude for graduate study but do not have the academic prerequisites required for admittance into a graduate MS computer science program.

The undergraduate certificate in computer science may be pursued on a full-time basis except when limited by prerequisite constraints.

Admissions & Policies

Admissions

Students must have two semesters of calculus (equivalent to MATH 113 Analytic Geometry and Calculus I (Mason Core) (http://catalog.gmu.edu/mason-core/) and MATH 114 Analytic Geometry and Calculus II), two semesters of programming experience (equivalent to CS 112 Introduction to Computer Programming (Mason Core) (http://catalog.gmu.edu/mason-core/) and CS 211 Object-Oriented Programming), and either a bachelor's degree with at least a 3.00 GPA or current enrollment in an undergraduate major.

Policies

For policies governing all undergraduate programs, see AP.5 Undergraduate Policies (http://catalog.gmu.edu/policies/academic/undergraduate-policies/).
