

HEALTH INFORMATION TECHNOLOGY MINOR

Banner Code: HIT

Academic Advising

Website: chhs.gmu.edu/students/academic-advising/undergraduate-advising/health-administration-and-policy-advisors

The minor in health information technology introduces students, in a non-technical context, to the utilization of health information management in the professional arena of health care management and policy. Students will examine the current and projected role of health information management in the delivery of health care and development of health policy and apply this information in a practical research endeavor.

HAP 464	Electronic Health Record Configuration and Data Analysis	
HAP 467	Advanced Information Technology Project Management	
Total Credits		6

Admissions & Policies

Policies

At least 12 credits must be unique to the minor and cannot be used to fulfill the program of study requirements of the student's major, concentration, undergraduate certificate, or another minor, and students must complete all coursework with a minimum GPA of 2.00. Students should be familiar with university-wide requirements for minors described in AP5.3.4 Minors (<http://catalog.gmu.edu/policies/academic/undergraduate-policies/#ap-5-3-4>).
