The School of Integrative Studies offers a distinctive experience that addresses contemporary social, global, and environmental challenges. Students connect academic interests with hands-on learning to prepare for a life and career with meaning and impact. Based in the College of Humanities and Social Sciences, SIS focuses on critical and creative thinking, engaged scholarship and diversity in thought. Graduates will lead the way as a new brand of professionals whose understanding of the liberal arts and commitment to a just world can build the cross-sector approaches necessary to solve pressing global, social and environmental problems.

An integrative, interdisciplinary learning environment, SIS offers the benefits of small, discussion-based courses while providing access to the academic resources of a large public research university. Drawing on its award-winning faculty, SIS provides students with transformative experiential learning opportunities including internships, field and international study, and independent research and service. Both the structure and curriculum of SIS prepares graduates who are engaged, well-rounded scholars who consistently assume leadership roles in the fields of business, law, government, healthcare, education, and the nonprofit sector, among others.

Undergraduate Programs
The School of Integrative Studies offers a bachelor of arts and a bachelor of science degree in integrative studies, and a bachelor of arts in environmental and sustainability studies (joint degree with Environmental Science and Policy in the College of Science).

The integrative studies curriculum is based on intensive, interdisciplinary learning communities, coordinated with traditional academic programs. The result is an integrated program of study that emphasizes collaboration, experiential learning, and self-reflection. All students complete their degree programs with an interdisciplinary concentration.

The environmental and sustainability studies degree provides students with theoretical and practical knowledge of three aspects of environmental and sustainability studies: people, prosperity, and planet. In addition to required core courses, students develop more in-depth knowledge in one of four concentrations. This degree prepares students for employment and graduate study in fields related to social justice, business and public policy, and environmental protection as they relate to the environment and sustainability.

Transfer Students
The School of Integrative Studies welcomes transfer students from other four-year institutions or community colleges, as well as from other academic units within Mason. Academic advisors work with students to utilize transfer credits and create a plan for timely completion of the bachelor's degree. All transfer students are required to take INTS 391 Introduction to Integrative Studies within their first two semesters and meet with an academic advisor as soon as possible.

Minors
The School of Integrative Studies offers minors in childhood studies, well-being, leadership, multimedia, nonprofit studies, and social justice. All are available to students in any major in the university.

The Sustainability Studies Minor is offered jointly by the Department of Environmental Science and Policy and the School of Integrative Studies.

Centers
The School of Integrative Studies houses Social Action and Integrative Learning (SAIL), which serves all students and faculty in the university.

Facility

School Faculty
Administration
Kelly Dunne, Executive Director
Misty Krell, Director of Student Services
Marlon Dortch, Associate Director of Student Services
Patricia Mathison, Director, Social Action and Integrative Learning (SAIL)

Professor
Garner

Associate Professors
Eby, Freeman, Gilmore, Gorski, Lucas, Muir, Owen, Wood, Wingfield, Unruh

Assistant Professors
Chen, Erakat

Term Professor
Scott-Constantine

Term Associate Professor
Fuertes

Term Assistant Professors
Dalton, Dunne, Maskell, McCarron

Adjunct Faculty
Cairnie, Carmack, Guenther, Holder, Johnson, Klinger, Lennon, Mitchell, Ryan, Stephens, Sweetman, Villa, Zelensky

Affiliate Faculty
Thurston
