The doctoral degree in political science program is designed to prepare students for teaching and conducting research about government, careers in government and politics, and work in domestic and international nongovernmental organizations. The program allows students to combine their academic education with experience in the kinds of complex domestic and international political organizations they are studying. This model for political science education, patterned after the American Political Science Association’s Congressional Fellows Program, is designed to foster scholarship and a firsthand understanding of domestic and international institutions such as think tanks, international bodies, nongovernmental organizations, journals of political opinion, and congressional and executive branch offices.

Admissions & Policies

Admissions

Application Requirements

See Graduate Admission Policies (http://catalog.gmu.edu/admissions/graduate-policies/) for general information on graduate admission to George Mason University. See Schar Admissions (http://schar.gmu.edu/admissions/) for application requirements and deadlines for the PhD in Public Policy. Students are considered for admission for the Fall term only.

For students who have been admitted with a bachelor’s degree, the Faculty Review Committee will review each student’s progress after 30 credits of coursework to determine whether the student will be allowed to continue their work toward the PhD. For students entering the program with a master’s degree, this review will occur after 12 credits in this program. Students who are not allowed to continue to work toward the PhD will be allowed to complete the MA degree.

Policies

For policies governing all graduate programs, see AP 6 Graduate Policies (https://catalog.gmu.edu/policies/academic/graduate-policies/).

Academic Advising

A total of 12 credits of supporting courses may be taken in other departments to fulfill a minority of the credits for any of the requirements below, including the methodology requirement, with prior written approval of the program director. All courses should be planned with an advisor and appear on a program of study, which requires the approval of the program director.

A complete description of the program policies, procedures, and requirements is in the PhD student and faculty handbook (https://schar.gmu.edu/current-students/phd-student-services/phd-handbook-forms/), which is published annually.

Reduction of Credit

For students entering the program with a master’s or MPA degree, the number of credits required for the doctorate may be reduced by up to 30 credits subject to approval of the doctoral program director.

Electives
Select one to three electives  3-9
Total Credits  9-15

International Relations
Required Field Seminars
Select two from the following:  6
- GOVT 741 Advanced Seminar in International Politics
- GOVT 743 International Political Economy
- GOVT 745 International Security
- PUBP 783 Global Governance

Electives
Select one to three electives  3-9
Total Credits  9-15

Public Administration
Required Field Seminars
- GOVT 753 Collaborative Public Management  3
- GOVT 755 Seminar in Politics and Bureaucracy  3

Electives
Select one to three electives  3-9
Total Credits  9-15

Advanced Courses in a Minor Field
Select three advanced courses in a minor field in consultation with an advisor.  9
Total Credits  9

1 The courses in the minor field should complement the two major fields and need the prior written approval of the advisor.

Advanced Courses in Methodology
Methodology Courses
- GOVT 500 The Scientific Method and Research Design  3
- POGO 511 Introductory Data Analysis for Policy and Government  3

Elective Methodology Course
Select an elective methodology course to meet dissertation research needs.  3
Total Credits  9

1 Course work in language or to help achieve proficiency in quantitative or qualitative research techniques may be used to meet this requirement with certification of proficiency by a specific outside examination.

Electives
Select 0-12 credits of electives  0-12
Total Credits  0-12

Advancement to Candidacy
To advance to candidacy, students must complete all coursework required by their approved program of study. Students must also successfully complete and pass two comprehensive qualifying exams in major fields. In addition, students must have an approved dissertation committee and must present and successfully defend a dissertation proposal before advancing to candidacy.

Dissertation Research
Once enrolled in GOVT 998 Doctoral Dissertation Proposal, students in this degree program must maintain continuous registration in GOVT 998 Doctoral Dissertation Proposal or GOVT 999 Doctoral Dissertation Research each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in GOVT 999 Doctoral Dissertation Research, students must follow the university's continuous registration policy as specified in AP6.10.6 Dissertation Research (http://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-10-6). Students who defend in the summer must be registered for at least 1 credit of GOVT 999 Doctoral Dissertation Research.

Students may apply to this degree a minimum of 3 and a maximum of 6 credits of GOVT 998 Doctoral Dissertation Proposal and a minimum of 6 credits of GOVT 999 Doctoral Dissertation Research. They apply a minimum of 12 and a maximum of 24 dissertation credits (GOVT 998 Doctoral Dissertation Proposal and GOVT 999 Doctoral Dissertation Research combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

Students who do fewer than 24 credits of dissertation will complete their degree with additional electives.

Code  Title  Credits
- GOVT 998 Doctoral Dissertation Proposal (minimum of 3, maximum of 6 credits)  12-24
- GOVT 999 Doctoral Dissertation Research (minimum of 6 credits)  12-24
Total Credits  12-24
