

HEALTH INFORMATICS AND DATA ANALYTICS GRADUATE CERTIFICATE

Banner Code: PH-CERG-HIDA

Academic Advising

Website: <https://hap.gmu.edu/program/health-informatics-and-data-analytics-graduate-certificate>

This certificate prepares clinicians, health care managers, statisticians, epidemiologists, computer programmers, data analysts, and other professionals in analysis of complex health care data, including data extracted from electronic health records, claims data, and consumer generated data. Since electronic health records and related data repositories are becoming increasingly more massive, the certificate emphasizes topics related to big data analysis. Data mining, propensity scoring, and other advanced analytic techniques covered in the certificate can handle complex problems typically found in observational data: large, multidimensional and multi-type data sets, with many confounding issues and noise. These techniques can be computationally efficient on large scale analysis and intelligent in predicting an outcome.

This certificate qualifies for Title IV Federal Financial Aid.

Required Courses

Code	Title	Credits
Students must complete six of the following:		
HAP 618	Computational Tools in Health Informatics	18
HAP 671	Health Care Databases	
HAP 719	Advanced Statistics in Health Services Research I	
HAP 720	Health Data Integration	
HAP 725	Statistical Process Control in Healthcare	
HAP 777	Health Data Visualization	
HAP 780	Data Mining in Health Care	
HAP 797	Radiology Informatics	
HAP 823	Comparative Effectiveness Analysis using Observational Data	
HAP 880	Advanced Health Data Mining	
Total Credits		18

Admissions & Policies

Admissions

Applicants must hold a bachelor's degree from a an institution of higher education accredited by a Mason-recognized U.S. institutional accrediting agency or international equivalent and must have a minimum of a 3.0 GPA to be considered. Applicants must meet the admission standards and application requirements specified in Graduate Admissions (<http://catalog.gmu.edu/admissions/graduate-policies/>) and must apply using the online Application for Graduate Admission (<https://www2.gmu.edu/admissions-aid/>). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the College of Public Health Admissions website (<https://publichealth.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines/>).

Policies

For policies governing all graduate certificates, see AP6.8 Requirements for Graduate Certificates (<http://catalog.gmu.edu/policies/academic/graduate-policies/#ap-6-8>).

Requirements

Certificate Requirements

Total credits: 18

This certificate may be pursued on a full-or part-time basis.

Students must complete at least 18 credits of required courses with a grade of B or better. The course content and syllabi are also available at the program website (<https://hap.gmu.edu/program/health->
