Email: cds@gmu.edu

Website: science.gmu.edu/academics/departments-units/computational data-sciences/computational-data-sciences-minor

The minor provides an attractive option for students majoring in science, technology, engineering, or mathematics (STEM) who wish to augment their major degree program with additional courses in modeling simulation, data science, and scientific computing. The combination of computer science, numerical methods, science, and computational and data sciences (CDS) synthesis courses will significantly enhance the practical knowledge and computational skills of the students when compared with the major field alone. Students will acquire the knowledge skills, and techniques commonly used across scientific disciplines, which will allow them to apply their George Mason University education in a practical way in industrial, government, and academic settings. Computational and data sciences skills are highly sought after in today's marketplace.

For additional information, please contact the CDS undergraduate coordinator/advisor.

#### Admissions & Policies

## **Policies**

At least 8 credits must be unique to this minor and may not be used to fulfill requirements of the student's major, concentration, or another minor or undergraduate certificate. Students must complete at least 6 credits in their minor at George Mason and achieve a minimum GPA of 2.00 in courses applied to the minor.

For policies governing all minors, see AP.5.3.4 Minors (http:// catalog.gmu.edu/policies/academic/undergraduate-policies/#ap-5-3-4).

### Requirements

## **Minor Requirements**

Total credits: 15

Students should refer to the Admissions & Policies tab for specific policies related to this program.

Students should note that many of the required courses have prerequisites. Nonetheless, this minor is within efficient reach of most students majoring in science, mathematics, engineering, or computer science. It is very likely that students with these backgrounds will already have the prerequisites completed.

#### **CDS Courses**

Code	Title	Credits
CDS 101	Introduction to Computational and	3
	Data Sciences (Mason Core) (http://	
	catalog.gmu.edu/mason-core/)	

or CDS 130	Computing for Scientists (Mason Core) (http://	
	catalog.gmu.edu/mason-core/)	
Total Credits		3
CDS or CSI	Courses
