CONSERVATION STUDIES MINOR (COS)

Banner Code: CNST

Joris L. van der Ham, Undergraduate Coordinator

Email: jvanderh@gmu.edu
Website: smconservation.gmu.edu

This minor is designed for undergraduate students who wish to augment their main academic program with conservation studies taught in an experiential manner. There are three, semester-long options by which students can complete the minor including ones that focus on "Conservation, Biodiversity and Society", "Wildlife Ecology and Conservation", or "Endangered Species Conservation". These semesters are grounded in natural science, and offer a collection of four to five interdisciplinary courses that combine public policy, sociology, conflict resolution, and global awareness with hands-on experience. Students are in residence at the Smithsonian Conservation Biology Institute in Front Royal, Virginia, and are taught by Mason faculty, Smithsonian scientists and practitioners.

The minor is available only to students who enroll in any of the Smithsonian Mason Semesters, semester-long residential programs held at the Smithsonian Conservation Biology Institute in Front Royal, VA. The semesters are offered jointly by the College of Humanities and Social Sciences and the College of Science under the auspices of the Smithsonian-Mason School of Conservation (http://smconservation.gmu.edu).

This is a Green Leaf program.

Admissions & Policies

Admissions

The minor is available only to students who enroll in either of the Smithsonian Mason Semesters, semester-long residential programs held at the Smithsonian Conservation Biology Institute in Front Royal, VA.

Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors.

Requirements

Minor Requirements

Total credits: 15-16

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.
