A minor in geography is a natural complement to an array of careers, including engineering, government and international politics, environmental science, transportation, business, marketing, and public health. Any Mason undergraduate student is eligible to earn a minor in geography by completing 15-16 credits as outlined in the Requirements tab above; many qualifying courses also fulfill Mason Core (http://catalog.gmu.edu/mason-core/) requirements.

If desired, this minor can be pursued fully online; details can be found with Mason Online (http://masononline.gmu.edu/).
