# ENGINEERING (ENGR)

## 100 Level Courses

**ENGR 107: Introduction to Engineering.** 2 credits.
Introduces engineering profession fundamentals and problem-solving. Topics include description of engineering disciplines, functions of the engineer, professionalism, ethics and registration, problem solving and representation of technical information, estimation and approximations, and analysis and design. Offered by Electrical & Comp. Engineering. Limited to two attempts.

**Mason Core:** Information Technology: Ethics Only

**Registration Restrictions:**
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale.

## 200 Level Courses

**ENGR 202: Thermodynamics.** 3 credits.
Offered by Electrical & Comp. Engineering. May not be repeated for credit.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale.

## 300 Level Courses

**ENGR 395: Engineering Internship.** 0-3 credits.
Students will participate in experiential learning in an industrial setting. Students must identify work opportunity and seek advisor approval prior to registering. Course credit will not satisfy degree requirements. Offered by Electrical & Comp. Engineering. May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Completion of at least 30 credit hours.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale.

**ENGR 396: Engineering Co-Op I.** 0-3 credits.
1st Semester of a multi-semester co-operative education experience. Students will apply concepts and theories from the classroom to an industrial setting. Students must identify work opportunity and seek advisor approval prior to registering. Course credit will not satisfy degree requirements. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

**Recommended Prerequisite:** Completion of at least 30 credit hours.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Satisfactory/No Credit scale.

**ENGR 397: Engineering Co-Op II.** 0-3 credits.
Second Semester of a multi-semester co-operative education experience. Students will apply concepts and theories from the classroom to an industrial setting. Students must continue employment from ME 396 and seek advisor approval prior to registering. Course credit will not satisfy degree requirements. Offered by Electrical & Comp. Engineering. May not be repeated for credit.

**Recommended Prerequisite:** ME 396.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale.

## 400 Level Courses

**ENGR 498: Independent Study in Engineering.** 1-3 credits.
Directed self-study of special topics of current interest in ENGR. Notes: May be repeated if topics substantially different. Offered by Electrical & Comp. Engineering. May be repeated within the term for a maximum 6 credits.

**Registration Restrictions:**
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale.

**ENGR 499: Special Topics in Engineering.** 0-4 credits.
Topics of special interest to undergraduates. Notes: May be repeated if topics substantially different. Offered by Electrical & Comp. Engineering. May be repeated within the term for a maximum 11 credits.

**Registration Restrictions:**
Students with the terminated from VSE major attribute may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale.

**Additional Course Details:** Title varies by section and/or semester
