100 Level Courses

Covers Earth, processes that operate within Earth and on surface, and human interaction with Earth. Topics include minerals, earthquakes and seismology, isostasy, igneous processes and rocks, paleomagnetism and plate tectonics, weathering, mass movements, rivers and streams, groundwater, glaciers, and marine processes. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

**Mason Core:** Natural Science with Lab, Encore: Sustainability (http://catalog.gmu.edu/mason-core/)

**Specialized Designation:** Green Leaf Related Course

**Recommended Prerequisite:** GEOL 101

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 102: *Historical Geology*. 3 credits.
Earth processes in historical context. Topics include sedimentary rocks and principles, deformation and metamorphism, mountain building and plate tectonics, geologic time, fossils, and historical development of continents. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

**Mason Core:** Natural Science with Lab, Natural Science Overview, Encore: Sustainability (http://catalog.gmu.edu/mason-core/)

**Specialized Designation:** Green Leaf Related Course

**Recommended Prerequisite:** GEOL 101

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 104: *Historical Geology Laboratory*. 1 credit.
Practical investigation of Earth processes in historical context. Topics include sedimentary rocks and principles, deformation and metamorphism, mountain building and plate tectonics, geologic time, fossils, and historical development of continents. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci. (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

**Mason Core:** Natural Science with Lab (http://catalog.gmu.edu/mason-core/)

**Registration Restrictions:**
**Required Prerequisites:** (GEOL 102 TC, 134 TC, 102 XS or 134 XS).
*(May be taken concurrently.)*

**Specialized Designation:** Green Leaf Related Course, Mason Impact

**Recommended Prerequisite:** GEOL 101 and 102 with a grade of 2.0 or better and CHEM 211.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 134: *Evolution and Extinction*. 3 credits.
Evolution and Extinction is a science class for non-science majors that explores how diversity of animals and plants has changed through geologic time, when mass extinctions occurred, when major diversifications of life occurred, and how the position of continents on the surface of the earth influenced the evolution, extinction, and distribution of life, landforms and the atmosphere. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci. (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

**Mason Core:** Natural Science Overview, Encore: Sustainability (http://catalog.gmu.edu/mason-core/)

**Specialized Designation:** Green Leaf Related Course

**Recommended Prerequisite:** GEOL 101

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

300 Level Courses

GEOL 302: *Mineralogy*. 4 credits.

**Specialized Designation:** Mason Impact

**Recommended Prerequisite:** GEOL 101 and 102 with a grade of 2.0 or better and CHEM 211.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 303: *Field Mapping Techniques*. 3 credits.

**Specialized Designation:** Green Leaf Related Course, Mason Impact

**Recommended Prerequisite:** 30 credits including MATH 105 or equivalent and GGS 102 or GEOL 102.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)
GEOL 304: Sedimentary Geology. 4 credits.

Registration Restrictions:
Required Prerequisites: (GEOL 101\textsuperscript{C} or 101\textsuperscript{XS}) and (GEOL 102\textsuperscript{C} or 102\textsuperscript{XS}) and (GEOL 302\textsuperscript{C} or 302\textsuperscript{XS}).
\textsuperscript{C} Requires minimum grade of C.
\textsuperscript{XS} Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 305: Environmental Geology. 3 credits.
Investigates geological principles directly relating to environmental hazards. Geological causes and effects of natural disasters such as earthquakes, tsunamis, volcanoes, floods and landslides; climate variability and change; prediction of, and planning for geological hazards and disasters and understanding their major societal impacts; and medical geology. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

Specialized Designation: Green Leaf Related Course, Writing Intensive in Major

Recommended Prerequisite: GEOL 101 and one of the following: GEOL 102, GEOL/BIOL 309, GGS 309.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 306: Soil Science. 3 credits.
Composition, classification, physical properties, and origin of soils. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

Specialized Designation: Green Leaf Related Course, Mason Impact.

Recommended Prerequisite: GEOL 101 and CHEM 103 or 211.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 308: Igneous and Metamorphic Petrology. 4 credits.

Recommended Prerequisite: MATH 105 or higher, and GEOL 302 (grade of C or higher)

Registration Restrictions:
Required Prerequisites: (GEOL 101\textsuperscript{C} or 101\textsuperscript{XS}) and (GEOL 102\textsuperscript{C} or 102\textsuperscript{XS}).
\textsuperscript{C} Requires minimum grade of C.
\textsuperscript{XS} Requires minimum grade of XS.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 309: Introduction to Oceanography. 3 credits.

Recommended Prerequisite: Two of the following lab sciences courses are required for a total of 8 credits: [GEOL 101 or 102], [EVPP 108 and 109 or 112 and 113 or 210], CHEM 211 and 212, [BIOL 103 or 213], [PHYS 160 and 161 or 243 and 244].

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 312: Invertebrate Paleontology. 4 credits.

Recommended Prerequisite: GEOL 101 and GEOL 102, or BIOL 103, 104, or BIOL 213, 303, 304.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 313: Hydrogeology. 3 credits.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: GEOL 101 or GGS 102, MATH 113 and CHEM 211.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 315: Topics in Geology II. 1-3 credits.
Discusses particular topic in geology. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 321: Geology of Energy Resources. 3 credits.

**Specialized Designation:** Green Leaf Focused Course

**Recommended Prerequisite:** GEOL 101 or GEOL 102, and completion of all Mason Core science requirements.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 325: Planetary Geology. 3 credits.
Covers the geology and geologic processes of the terrestrial planets, moons, and other small bodies in the solar system including dwarf planets, asteroids and comets. The emphasis is on understanding past and present surface geologic processes. Observation session at campus observatory may be required outside of class hours. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

**Registration Restrictions:**
**Required Prerequisites:** GEOL 101, 102, 302, one semester of mathematics, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 334: Vertebrate Paleontology. 4 credits.
Vertebrate Paleontology explores the evolution of vertebrates from the early Paleozoic to Recent. The course will cover the systematics, anatomy, paleogeography, and ecology of extinct vertebrates. Discussions will include fishes, early tetrapods & amniotes, dinosaurs,
birds and mammals. Lab portion includes paleontology techniques, analysis, and study of fossil specimens and casts. A weekend field trip is included. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts. Equivalent to BIOL 334.

**Specialized Designation:** Writing Intensive in Major

**Recommended Prerequisite:** Any two courses from the following list: GEOL 101, GEOL 102, BIOL 103, BIOL 104, BIOL 213, BIOL 303 or the permission of the instructor.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**Specialized Designation:** Green Leaf Related Course

**Recommended Prerequisite:** GEOL 309 or BIOL 309 or GEOL 317 or 9 credit hours in Geography including GGS 309.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 364: Marine Geology.** 3 credits. This course will present a global overview of the geologic origin and composition of the ocean seafloor, and an introduction to the basic principles of the geologic processes occurring in the marine environment. Primary topics include geologic, tectonic and sedimentary characteristics of the deep ocean basins and continental margins; transport and deposition of marine sediments; micropaleontology and paleoceanography; geochemistry and hydrothermal systems; and marine mineral resources. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

**Recommended Prerequisite:** GEOL 101, GEOL 102, GEOL 302, and CHEM 211

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 392: Geology and Earth Science Seminar.** 1 credit. Undergraduate experience that includes discussion of scientific articles and attending seminars presented by outside experts, faculty, or students. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree for a maximum 4 credits.

**Recommended Prerequisite:** 30 hours.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

### 400 Level Courses

**GEOL 401: Structural Geology.** 4 credits. An introduction to both qualitative and quantitative methods of structural geology with emphasis on identifying and analyzing geologic structures in nature as well as learning the fundamentals of geological stress and strain, rock mechanics, and plate tectonics. Notes: field trips may be required. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

**Registration Restrictions:**
**Required Prerequisites:** ((GEOL 302C or GEOL 302XS and (GEOL 317C or GEOL 317XS) and (GEOL 304C or GEOL 304XS)) or GEOL 309C or GEOL 309XS) and (MATH 110C or MATH 110XS) or MATH 111C or MATH 111XS) and (PHYS 160C or PHYS 160XS) and (PHYS 161C or PHYS 161XS) or ((PHYS 243C or PHYS 243XS) or (PHYS 244C or PHYS 244XS)).
C Requires minimum grade of C.
XS Requires minimum grade of XS.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**Recommended Prerequisite:** GEOL 101, 102, 302, 304, 308 and 401.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 403: Geochemistry.** 3 credits. Includes stable isotope, crystal, water, and organic geochemistry; geochronology; and geochemistry of rocks. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

**Recommended Prerequisite:** GEOL 101 and 102, and CHEM 211.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)
GEOL 404: Geological Field Techniques. 1-6 credits.
Mapping techniques involved in collecting geological field data. Notes: Includes field work. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Required Prerequisites: (GEOL 101 or 101XS) and (GEOL 102 or 102XS) and (GEOL 302 or 302XS) and (GEOL 304 or 304XS) and (GEOL 308 or 308XS) and (GEOL 317 or 317XS) and (GEOL 401 or 401XS).
XS Requires minimum grade of C.
XS Requires minimum grade of XS.

Schedule Type: Laboratory
Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 408: Practicum for Geology Laboratories. 1 credit.
Recommended Corequisite: Open only to GEOL/ESS majors with 80 credit hours and permission of Chair.
Schedule Type: Internship
Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 409: Practicum for Geology Laboratories. 1 credit.
Recommended Prerequisite: Open only to GEOL/ESS majors with 80 credit hours and permission of Chair.
Schedule Type: Internship
Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 410: Research Proposal Preparation. 1 credit.
Recommended Prerequisite: Geology or Earth Science major with 90 credits, cumulative GPA of 2.80 or higher, and permission of the Geology undergraduate coordinator.
Schedule Type: Research

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 411: Geological Research. 3 credits.
Recommended Prerequisite: GEOL 410.
Schedule Type: Research
Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 412: Physical Oceanography. 3 credits.
Course describes the global patterns of temperature, salinity, currents and waves in the world's oceans, and how these patterns influence marine biota, climate, and human activity. Course introduces key concepts which explain physical features of the ocean ranging from microscopic turbulence to global circulation. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts. Equivalent to CLIM 412.
Recommended Prerequisite: MATH 113 or MATH 115, and PHYS 160 or PHYS 243, or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 417: Geophysics. 3 credits.
Recommended Prerequisite: GEOL 101, MATH 113, one year of PHYS or permission of instructor.
Schedule Type: Lecture
Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 420: Earth Science and Policy. 3 credits.
Discusses Earth science issues that have policy implications. Course uses a broad definition of Earth science, from atmosphere to geosphere. Taught seminar-style, with emphasis on discussion, reading, writing, critical analysis, and student oral presentations. Notes: Course may include field trips. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.
Mason Core: Encore: Sustainability, Synthesis (http://catalog.gmu.edu/mason-core/)
Specialized Designation: Green Leaf Focused Course

Recommended Prerequisite: 18 credit hours in major or minor (geology, Earth science, ocean and estuarine science, or global and environmental change), and one of the following social science based courses: EVPP 361; ECON 103; ANTH 114; GGS 103; GLOA 101; GOVT 132 or 133; HIST 125 or 130; or SOCI 101, 102, or 120.

Recommended Corequisite: All other required Mason Core courses.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic grading/)

GEOL 441: Great Events in Earth History. 3 credits.
Through 4.5 billion years, Earth has undergone tumultuous changes, from the origin of life and atmospheric oxygenation, to mass extinction events and human evolution. In this seminar-style course, each week will involve an in-depth, student-led discussion on one ‘Great Event’ that helped shape the course of Earth history. The course is also focused on scientific literacy, with emphasis on reading the primary literature and writing/communicating effectively in a scientific setting. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to two attempts.

Recommended Prerequisite: GEOL 101

Registration Restrictions:
Required Prerequisites: GEOL 102C or 102XS.
C Requires minimum grade of C.
XS Requires minimum grade of XS.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic grading/)

GEOL 458: Chemical Oceanography. 3 credits.
The world’s oceans, including a variety of closed basins and estuaries, comprise a complex and dynamic system of chemical processes that interact with biological, geological, physical, and atmospheric processes to play a significant role in defining the earth’s fragile environment. This course will present an overview of the origin, occurrence, and distribution of the chemical components in sea water and an introduction to the basic principals of the chemical processes taking place in the marine environment. Designated a Green Leaf Course. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts. Equivalent to CHEM 458.

Specialized Designation: Green Leaf Related Course

Recommended Prerequisite: CHEM 211 and CHEM 212, and CHEM 321 or GEOL 302.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic grading/)

GEOL 480: Internship. 1-3 credits.
Approved study programs with specific employers. Notes: Contact department one semester before enrollment. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). Limited to three attempts.

Recommended Corequisite: Open only to authorized majors with 90 credit.

Schedule Type: Internship

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic grading/)

500 Level Courses

GEOL 500: Selected Topics in Modern Geology. 1-3 credits.
Topic designated in class schedule. Notes: Lecture, lab, field trip. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in geology, or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic grading/)

GEOL 501: Selected Topics in Modern Geology. 1-3 credits.
Topic designated in class schedule. Lecture, lab, field trip. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree.

Specialized Designation: Topic Varies

Recommended Prerequisite: Baccalaureate degree in geology or Permission of Instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 503: Special Topics in Earth Science.** 1-6 credits. In-service course to strengthen and update knowledge of Earth science. Notes: May include field trips. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree.

**Recommended Prerequisite:** Employment or anticipated employment as an Earth Science teacher.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**Registration Restrictions:**
Required Prerequisites: ((GEOL 101C or 101XS) and (GEOL 102C or 102XS)) and (GEOL 302C or 302XS)).
C Requires minimum grade of C.
XS Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**Recommended Prerequisite:** Previous lab-science courses in each of the following: geology and chemistry (8 credit hours); or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 512: Invertebrate Paleontology.** 4 credits. Classification, evolutionary trends, and distribution of common invertebrate fossils. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit.

**Recommended Prerequisite:** Employment or anticipated employment as an Earth Science teacher.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**Recommended Prerequisite:** Previous lab-science courses in each of the following: geology, calculus, and chemistry (12 credit hours); or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 521: Geology of Energy Resources.** 3 credits. Survey of global non-renewable and renewable energy resources. Topics include petroleum, natural gas, coal, nuclear, geothermal, solar, wind, and hydro power, and biofuels. Course discusses global production, usage, impacts and future prospects of these resources, and data capture, analysis and modeling of finite resources. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit.

**Recommended Prerequisite:** GEOL 101 or GEOL 102, and completion of all Mason Core Natural Science requirements or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 525: Modeling Earth Signals and Systems.** 3 credits.
Provides instruction on time series analysis customized for Earth signals and systems such as climate, Earth-space orientation, earthquakes, geomagnetism, river flow, tides and many other time-dependent phenomena. Concepts including linear systems, filtering, spectrum estimation, harmonic analysis and hypothesis testing are applied to time series data sampled from natural processes to address a variety of scientific problems. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit.

**Recommended Prerequisite:** MATH 114 and STAT 250 or equivalent or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 532: Paleoclimatology.** 3 credits.
Explores the natural evolution of Earth's climate with the goal of providing a baseline for understanding present climate variability and future trends through increase knowledge of the physical, chemical, and biological processes that influence climate over the long term. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit.

**Recommended Prerequisite:** Previous lab-science courses in geology and/or atmospheric science and/or oceanography (12 credit hours); or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 534: Vertebrate Paleontology.** 4 credits.
Explores the evolution of vertebrates from the early Paleozoic to Recent. Covers systematics, anatomy, paleogeography, and ecology of extinct vertebrates. Discussions include fishes, early tetrapods and amniotes, dinosaurs, birds, and mammals. Lab portion includes paleontology techniques, analysis, and study of fossil specimens and casts.

Notes: A weekend field trip is included. Students who have taken GEOL 334 as an undergraduate may not take 534 as a graduate student. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit.

**Recommended Prerequisite:** Undergraduate degree in biology or geology or permission of instructor.

**Recommended Prerequisite:** MATH 114 and STAT 250 or equivalent or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 535: Quantitative Stratigraphy.** 3 credits.
Quantitative stratigraphy is a branch of geology that applies statistics to reconstruct the time sequence of geological events recorded in sedimentary strata. Methods of interpolation and error analysis used for defining stratigraphic boundaries and events, time scale estimation using integrated chronostratigraphy, and intercalibration are examined. Students receive advanced training in graphic correlation, constrained optimization, ranking and scaling, and dynamic programming. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit.

**Recommended Prerequisite:** MATH 114 and STAT 250 or equivalent or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**GEOL 536: Paleontology Seminar.** 1-2 credits.
Paleontology Seminar presents topical research in paleontology and paleobiology in a structured discussion among graduate students and paleontology faculty. A theme for the seminar is chosen each semester the course is offered, tailored to the interests of the students. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree for a maximum 12 credits.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.
GEOL 541: Great Events in Earth History. 3 credits.
Through 4.5 billion years, Earth has undergone tumultuous changes, from the origin of life and atmospheric oxygenation, to mass extinction events and human evolution. In this seminar-style course, each week will involve an in-depth, student-led discussion on one ‘Great Event’ that helped shape the course of Earth history. The course is also focused on scientific literacy, with emphasis on reading the primary literature and writing/communicating effectively in a scientific setting. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Recommended Prerequisite: Previous courses in geology, oceanography, marine science, earth science, or physical geography; or permission of instructor.

GEOL 563: Field Mapping Techniques. 3 credits.
Explores basic techniques for collecting, recording, and plotting spatial field data, including topographic maps, compass, transit, alidade, and global positioning systems. Field work and field based research project. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit. Equivalent to EVPP 503.

Recommended Prerequisite: Previous courses in geometry or trigonometry or equivalent; and environmental science, geography, or geology or equivalent.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

GEOL 565: Paleoceanography. 3 credits.
Investigates ocean evolution through geologic time. Earth’s sediment archive provides proxy data on paleo-ocean chemistry, biology, geology, and physical properties. Class examines proxy reconstructions of oceanic conditions such as circulation, salinity, stratification, anoxia, and biogeochemistry. Discusses the history of ocean basins, with case studies from Precambrian to Holocene. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit.

Recommended Prerequisite: Previous course in oceanography or marine science and 16 credits of geology or earth science courses, or permission of instructor.

600 Level Courses
GEOL 601: The Lithosphere. 3 credits.
Global-scale overview of lithosphere, solid non-living Earth, materials, cycles, plate tectonic and geomorphic processes; and history, including interactions with and history of hydrosphere, atmosphere and biosphere, and methods of analysis. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit. Equivalent to GGS 657.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

GEOL 656: Paleoclimatology. 3 credits.
Investigates Earth’s climate system through geologic time. Discussed will be the history of the climate system, with particular emphasis on the Quaternary. The course will explore how climate can be reconstructed from fossil evidence, and the methods and uncertainties involved in climate reconstruction. The course will also cover topics such as ice ages, oceanic conditions, and the interactions of the climate system. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May not be repeated for credit. Equivalent to GGS 656.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Non-Degree or Senior Plus.

Students in a Non-Degree Undergraduate degree may not enroll.
Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 694: Supervised Internship. 3-12 credits.
Training in application of geological skills under supervision of a qualified earth scientist at governmental agency, consulting firm, industry, or other acceptable organization Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Permission of student’s MS thesis committee, graduate program director and department chair.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Internship

Grading:
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

700 Level Courses
GEOL 700: Comprehensive Exam. 1 credit.
Preparation for and completion of written comprehensive exam within AOES department. The comprehensive exam is given as part of the degree requirements in lieu of writing a master’s thesis. Instructor should be the chair of the examination committee. The exam committee will specify exam content. Notes: No more than 1 credit of GEOL 700 may be applied toward the master’s degree. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree for a maximum 2 credits.

Recommended Prerequisite: At least 15 graduate credits, approved project proposal, and permission of major advisor or chair of the examination committee.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Independent Study

Grading:
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 792: Seminar in Earth Systems Science, Geology, & Earth Science. 1 credit.
Capstone experience that includes discussion of scientific articles and attending seminars. Seminars presented by outside experts, faculty, and students. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: 15 Graduate Credits including GEOL 601 or equivalent, or permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

GEOL 798: Master's Research Project in Earth Systems Science. 1-6 credits.
Experimental, observational, literature-based, or theoretical research project chosen and completed under guidance of faculty member. Proposal required before enrollment. Comprehensive technical report acceptable to student’s committee required for completion. Notes: No more than 6 credits of GEOL 798 may be applied to master’s degree. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree for a maximum 12 credits.

Recommended Prerequisite: 15 graduate credits, approved project or thesis proposal, and permission of instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

Experimental, observational, literature-based, or theoretical research project chosen and completed under guidance of faculty member. Proposal required before enrollment. Comprehensive technical report acceptable to student’s committee required for completion. Notes: No more than 6 credits of GEOL 799 may be applied to master’s degree. Offered by Atmospheric/Oceanic/Earth Sci (http://catalog.gmu.edu/colleges-schools/science/atmospheric-oceanic-earth-sciences/). May be repeated within the degree for a maximum 18 credits.

Recommended Prerequisite: Approved thesis proposal by thesis committee, and permission of major advisor or instructor.

Registration Restrictions:
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Thesis

Grading:
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)
