PSYCHOLOGY (PSYC)

100 Level Courses

PSYC 100: Basic Concepts in Psychology. 3 credits.
Introduces psychology as scientific discipline. Examines concepts and methods in learning, motivation, development, personality, and measurement. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Mason Core: Social/Behavioral Sciences (http://catalog.gmu.edu/mason-core/)

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

200 Level Courses

PSYC 211: Lifespan Development. 3 credits.
Review of major developmental theories including perspectives of childhood, adolescence, adulthood, and old age. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Mason Core: Social/Behavioral Sciences (http://catalog.gmu.edu/mason-core/)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture, Recitation

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 231: Social Psychology. 3 credits.
Study of human behavior development in a social matrix, including such topics as socialization, cultural behavior, group norms, and attitude formation. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Mason Core: Social/Behavioral Sciences (http://catalog.gmu.edu/mason-core/)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 260: Basic Research Methods in Psychology. 1-3 credits.
Introduction to research methods in psychology in the context of assisting faculty with research; individualized sections by arrangement with faculty. Methods taught vary but generally include basic data collection and recordkeeping methods in research. Notes: Course culminates in a paper describing techniques learned. No more than 6 credits in PSYC 260, 350, and 460 can be used toward a psychology major. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term.

Specialized Designation: Topic Varies

Recommended Prerequisite: A 3.0 overall G.P.A., and a written proposal approved before registration by the instructor and the department chair.

Schedule Type: Lec/Sem #1, Lec/Sem #2, Lec/Sem #3, Lec/Sem #4, Lec/Sem #5, Lec/Sem #6, Lec/Sem #7, Lec/Sem #8, Lec/Sem #9, Lecture, Sem/Lec #10, Sem/Lec #11, Sem/Lec #12, Sem/Lec #13, Sem/Lec #14, Sem/Lec #15, Sem/Lec #16, Sem/Lec #17, Sem/Lec #18

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

300 Level Courses

PSYC 300: Statistics in Psychology. 4 credits.
Descriptive and inferential statistics in design, analysis, and interpretation of psychological research with practical application using computers in laboratory. Notes: Students are strongly encouraged to take PSYC 301 concurrently. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Required Prerequisite: 6 credits of PSYC and 3 credits of MATH course work or permission of instructor.

Required Corequisite: Students are strongly encouraged to take PSYC 301.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 301: Research Methods in Psychology. 4 credits.
General research design in psychology, with an emphasis on experimental design and control. Topics include use of human participants in research, reliability and validity, observational methods, and survey and longitudinal designs. Notes: Students are strongly encouraged to take PSYC 300 concurrently. Laboratory work will include designing and running research studies and writing manuscripts using appropriate style and format. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Specialized Designation: Writing Intensive in Major

Recommended Prerequisite: PSYC 100, ENGH 302, and either PSYC 300, STAT 250, or STAT 350 or equivalent.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 304: Principles of Learning. 4 credits.
Principles of animal learning, including such topics as classical and operant conditioning, discrimination learning, and animal cognition. Notes: Laboratory projects require working with computer simulations.
Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Specialized Designation:** Writing Intensive in Major

**Recommended Prerequisite:** ENGH 302 and PSYC 300 or permission of instructor.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 309: Sensation, Perception, and Information Processing.** 4 credits.
Principles of perception, including topics such as psychophysics, perceptual organization, perceptual learning, and perceptual constancies. Notes: Laboratory projects demonstrate and investigate perceptual phenomena. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Specialized Designation:** Writing Intensive in Major

**Recommended Prerequisite:** PSYC 300, PSYC 301, and ENGH 302.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 312: Educational Psychology.** 3 credits.
Enables students to apply psychological principles to the learning process in the classroom context. Examines the theoretical and applied aspects of learning, motivation, human development, personality, assessment, and evaluation in educational settings. Corresponding implications for effective teaching will be discussed. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 or equivalent.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 313: Child Development.** 3 credits.
Study of human psychological development from conception to adolescence including such topics as genetic factors, emotional and intellectual growth, and environmental influences. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 or equivalent.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 314: Adolescent Development.** 3 credits.
Study of the biological and cultural changes accompanying adolescence, including the effect of these changes on emotional, intellectual, and social development. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 or equivalent.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 315: Social Development.** Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 or equivalent.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 316: Cognitive Psychology.** 3 credits.
An in-depth overview of important topics in cognitive psychology, including memory, attention, pattern recognition, problem solving, reasoning, and psycholinguistics. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** Six credits of psychology or permission of instructor.

**Schedule Type:** Lecture, Recitation

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 320: Psychological Tests and Measurements.** 4 credits.
Examination and application of principles underlying the theory, interpretation, and administration of psychological tests, including a study of tests of intelligence, achievement, and ability. This course may count for both the Applied Psychology and Experimental Psychology lab requirements or for both the Applied Psychology and Technical Writing requirements. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 300 or permission of instructor.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 321: Clinical Psychology.** 3 credits.
Examines evidence-based psychological assessment and psychotherapy techniques to understand, prevent, and treat psychological distress and dysfunction and promote well-being. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 325 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 322: Behavior Modification.** 3-5 credits.
Examination of experimental principles of human and animal learning within theoretical framework of applied behavior analysis, including design, implementation, and evaluation of operant intervention programs across a wide variety of human situations. Offered by Psychology
PSYC 324: Personality Theory. 3 credits.
Introduction to classical and contemporary theories of personality and comparative evaluation of major theories in terms of relevant studies. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Required Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 325: Psychopathology. 3 credits.
Study of mental health and psychological disorders, including depression, anxiety, childhood disorders, stress and trauma-related disorders, serious mental illness, and others. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Required Prerequisite: PSYC 100 and either PSYC 211, 231, or 324 or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 326: Therapeutic Communication Skills. 3 credits.
Introduction to understanding and use of basic therapeutic communication skills used in clinical and counseling psychology. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Registration Restrictions:
Required Prerequisites: PSYC 325\textsuperscript{C}, 325\textsuperscript{XS} or L325.
\textsuperscript{C} Requires minimum grade of C.
\textsuperscript{XS} Requires minimum grade of XS.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 327: Psychology in the Community. 3 credits.
Individual placements in applied psychology settings. Notes: A maximum of 6 credits of PSYC 327, 328, 421, and 422 can be applied to the psychology major. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree for a maximum 6 credits.

Required Prerequisite: PSYC major with 6 hours of PSYC and permission of associate chair for undergraduate studies.

Schedule Type: Internship

Grading: This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 328: Psychology in the Community Laboratory. 1 credit.
Consists of a one-hour service learning component linked to selected psychology courses. Note: A maximum of 6 credits of PSYC 327 and 328 can be applied to the psychology major. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree for a maximum 6 credits.

Required Prerequisite: PSYC major with 6 hours of PSYC and permission of instructor and associate chair for undergraduate studies.

Schedule Type: Internship

Grading: This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 333: Industrial and Organizational Psychology. 3 credits.
Examination of application of psychological principles and methods to problems commonly encountered in business and industry. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Mason Core: Social/Behavioral Sciences (http://catalog.gmu.edu/mason-core/)

Required Prerequisite: PSYC 100 and PSYC 300; or permission of instructor.

Schedule Type: Lecture

Grading: This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 335: Psychology of Creativity and Innovation. 3 credits.
Creativity and innovation take place in many domains such as business, science and the arts. Learn the distinction between creativity and innovation. Apply findings from the scientific literature about the antecedents of creativity and innovation including emotions, cognition, individual differences, and social contexts. Experiment with ways to enhance your creativity and skills for innovation. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Required Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Seminar

Grading: This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 340: Human Factors Psychology. 3 credits.
Reviews history and current practice of optimal product and system design as a function of psychology. Includes a brief history of human factors psychology, a review of human memory and attentional systems
as they relate to product and system design, and an introduction to current methods used to analyze and redesign products and systems for optimal human interaction. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 350:** Directed Reading and Research in Psychology. 1-3 credits. Library research in psychology, culminating in a substantial formal paper; individualized sections by arrangement with faculty. Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term.

**Specialized Designation:** Topic Varies

**Schedule Type:** IND/INT #1, IND/INT #2, IND/INT #3, IND/INT #4, IND/INT #5, IND/INT #6, IND/INT #7, IND/INT #8, IND/INT #9, Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 362:** Psychology of Gender. 3 credits. Behavior and attitudes of women; influence of chromosomes and hormones on behavior, influence of culture on sex role differentiation, and theories of sex role development. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100, BIOL 103, or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 372:** Biopsychology. 3 credits. Survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action. Students may earn credit for PSYC 372 and either PSYC 375 or PSYC 376, but they may not earn credit for all three. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100, BIOL 103 with BIOL 106 & BIOL 107; or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 373:** Biopsychology Laboratory. 2 credits. Functional anatomy and physiology of the brain, including dissection of brain and eye, and a demonstration and practice in research methods for studying physiological mechanisms underlying behavior. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 372 or 375, or permission of instructor. Concurrent enrollment is also permitted.

**Schedule Type:** Laboratory

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 375:** Brain and Sensory Processes. 3 credits. First half of comprehensive survey of neuroscience, including basic neuroanatomy, neural and synaptic transmission, neural mechanisms underlying normal and abnormal behavior, and biological mechanisms of drug action. Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 with a grade of C- or better, and BIOL 103, BIOL 106 & 107, or BIOL 213; or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 376:** Brain and Behavior. 3 credits. Second half of a comprehensive survey of neuroscience, including neural mechanisms underlying normal and abnormal behavior. Notes: Students may earn credit for 372 and either 375 or 376, but they may not earn credit for all three. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Registration Restrictions:**
**Required Prerequisites:** PSYC 372, 372XS, 375, 375XS, L372 or L375.

**C** Requires minimum grade of C.

**XS** Requires minimum grade of XS.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 379:** Applied Cross-Cultural Psychology. 3 credits. A review of important landmarks in cross-cultural research, showing how this research impacts psychology as a discipline. Emphasizes an empirical approach to cross-cultural study and includes topics such as theoretical and empirical developments in cross-cultural psychology, development of coherent schemas to guide cross-cultural research and interventions, comparison of psychology’s goals and assumptions in Western and other cultures, and integration of course materials into educational and career goals of students. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.
Mason Core: Global Understanding (http://catalog.gmu.edu/mason-core/)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 380: Introduction to Forensic Psychology. 3 credits.
Explores the differing, yet varied facets of the field of forensic psychology including landmark legal cases relevant to psychology, potential careers in forensic psychology, police psychology, expert testimony, forensic psychological assessment, psychopathy, homeland security, ethics, correctional psychology, and issues in working in the juvenile justice system. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 381: Mental Illness and Criminal Justice. 3 credits.
Examines the frequent intersection of individuals diagnosed with severe mental illness and the criminal justice system. Includes case studies that demonstrate possible judicial, therapeutic, correctional, and post-adjudication outcomes. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Recommended Prerequisite: PSYC 325.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 382: Psychology of Crime Victims. 3 credits.
Explores short-term and long-term psychological effects of crime on victims through interviews with survivors of childhood abduction, elder abuse, intimate partner violence, and child abuse, among others. Evaluates roles and responsibilities of mental professionals and law enforcement when interacting with crime victims. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 399: Psychology: College to Career. 3 credits.
Emphasizes development and readiness for a profession in the social sciences through self-assessment and professional skill acquisition. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Recommended Prerequisite: At least 30 hours of completed college coursework and a declared major in the social sciences or permission of the instructor.

Schedule Type: Seminar

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

400 Level Courses

PSYC 405: Mystery, Madness, and Murder. 3 credits.
Multidisciplinary approach to taboo topics that fascinate and frighten us. Instructors from disciplines across the arts and sciences bring expertise and diverse perspectives to provocative issues such as cannibalism and serial murder. Students learn to think critically and objectively while examining use in myth, literature, and popular culture. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Mason Core: Synthesis (http://catalog.gmu.edu/mason-core/)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 406: Psychology of Communication. 3 credits.
An examination of the behavior of communicating across species and sensory modalities, with an emphasis on the evolutionary basis for the various communication strategies used by animals and humans. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Mason Core: Synthesis (http://catalog.gmu.edu/mason-core/)

Recommended Prerequisite: PSYC 100 or permission of instructor.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 408: Psychological Fitness. 3 credits.
Evaluates and applies scientific research on psychological exercises to increase one’s cognitive, behavioral, emotional, and physical health. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Recommended Prerequisite: PSYC 100.

Schedule Type: Lecture

Grading:
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 410: The Psychology of Environmental Stewardship. 3 credits.
Reviews theory and research from social psychology on encouraging behavioral and lifestyle changes that contribute to the conservation of natural resources and lead to reductions in harm to the environment. Theories reviewed include the theory of reasoned/action planned,
social norms theories, and theories of self-regulation as applied to the conservation of energy, water, green spaces, and other issues. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 414: Behavior Disorders of Childhood.** 3 credits.
Review of the theories, methods, and research dealing with emotional and behavioral disorders of children. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 313 and 325 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 415: Psychological Factors in Aging.** 3 credits.
Examination of the sensory, perceptual, intellectual, personality, health, and familial changes that occur as people age and adjust into their later years. Common and serious problems associated with declines in physical and cognitive abilities are discussed with attention to impacts on the individual and the family. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 417: Science of Well Being.** 3 credits.
This course will examine and interpret the latest research in social, personality, and clinical psychology on well-being, character strengths, and personal growth. Emphasis will be placed on the ways in which psychologists generate hypotheses regarding the nature of positive psychological traits and processes and the methods by which these ideas are tested. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 418: Death, Dying, and Grieving.** 3 credits.
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts. Equivalent to PSYC 518.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 423: Group Psychotherapy Techniques.** 3 credits.
Review of theory and methods of group therapy with emphasis on humanistic and interpersonal approaches, including applications to family therapy, alcoholism, and drug abuse. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 324 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 427: Community Engagement for Social Change.** 3 credits.
Explores social problems and interpersonal, intrapersonal, and social aspects of addressing them. Addresses both theoretical aspects of social problems through readings and class discussion and application through community service. This course may count for both Applied Psychology and Professional Development requirements. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Mason Core:** Synthesis (http://catalog.gmu.edu/mason-core/)

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 430: Clinical Practicum in Psychology.** 3 credits.
Gain professional experience in a clinical setting. This course takes place at the GMU Center for Psychological Services, a mental health training center that serves the community. Enrolled students provide supervision and treatment services to clients at the center, learning aspects of the center administration and acquiring relevant skills in the field. This course may count for both Applied Psychology and Professional Development requirements. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated for a maximum 6 credits.

**Schedule Type:** Fieldwork

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 435: Personnel Training and Development: A Psychological Perspective.** 3 credits.
Overview and critique of training methods used in industry from viewpoint of psychological theory, including simulations, on-the-job
training, supervisory/leadership skills training, computer-assisted instruction, and programmed texts. Principles of needs analysis, program development, and program evaluation are discussed within framework of industrial psychology. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 333, PSYC 320 (may be taken concurrently) or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 440: Forensic Psychology: Science and Pseudoscience.** 3 credits.
Provides a critical, evidenced-based, examination of common psychological practices and constructs in the field of forensic psychology including psychological assessments, expert testimony, risk assessment, hypnosis, criminal profiling, polygraph examination, and methods of interrogation. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 441: Criminal Behavior: Psychological and Neurological Aspects.** 3 credits.
Considers the psychological factors and structural and functional neurological differences that influence criminal behaviors including murder, sexual assault, fraud, intimate partner violence, and arson. The predictive and explanatory abilities of neuroimaging with respect to the criminal acts in question, as well as the role of neuroimaging in the judicial system, will also be explored. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 460: Independent Study in Psychology.** 1-4 credits.
Advanced research methods in psychology in context of individual student projects or assisting with research on faculty projects; individual sections by arrangement with faculty. Notes: No more than 6 credits in PSYC 260, 350, and 460 can be used toward psychology major. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term.

**Specialized Designation:** Topic Varies

**Recommended Prerequisite:** 18 credits of PSYC, including PSYC 301 (grade of C or better), a 2.500 GPA in PSYC, and a written proposal approved before registration by the instructor and the department.

**Schedule Type:** IND/INT #1, IND/INT #2, IND/INT #3, IND/INT #4, IND/INT #5, IND/INT #6, IND/INT #7, IND/INT #8, IND/INT #9, Independent Study

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 461: Special Topics.** 1-3 credits.
Selected topics reflecting interest in specialized areas. Notes: Topic announced in advance. May be repeated when topic is different. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term.

**Specialized Designation:** Topic Varies

**Schedule Type:** Lec/Sem #1, Lec/Sem #2, Lec/Sem #3, Lec/Sem #4, Lec/Sem #5, Lec/Sem #6, Lec/Sem #7, Lec/Sem #8, Lec/Sem #9, Lecture, Sem/Lec #10, Sem/Lec #11, Sem/Lec #12, Sem/Lec #13, Sem/Lec #14, Sem/Lec #15, Sem/Lec #16, Sem/Lec #17, Sem/Lec #18

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 462: Selected Topics in Forensic Psychology.** 3 credits.
Selected topics reflecting interest in forensic psychology. Notes: May be repeated for credit when topic is different. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term.

**Specialized Designation:** Topic Varies

**Schedule Type:** Lec/Sem #1, Lec/Sem #2, Lec/Sem #3, Lec/Sem #4, Lec/Sem #5, Lec/Sem #6, Lec/Sem #7, Lec/Sem #8, Lec/Sem #9, Lecture, Sem/Lec #10, Sem/Lec #11, Sem/Lec #12, Sem/Lec #13, Sem/Lec #14, Sem/Lec #15, Sem/Lec #16, Sem/Lec #17, Sem/Lec #18

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 465: Pioneering Ideas in Psychology.** 3 credits.
Historical background and major theoretical systems in modern psychology. Approaches include behaviorism, cognitive/information processing approaches, and psychodynamic theories. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 or permission of instructor.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 466: Psychology of Intimate Relationships.** 3 credits.
Advanced survey of theories and research related to intimate relationships, including romantic relations and those among family members and friends in diverse cultural and relationship contexts. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** PSYC 100 and PSYC 231; PSYC 324 recommended.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 467: The Psychology of Working in Groups and Teams.** 3 credits.  
Teaches knowledge and the skills to meet communication, interpersonal, and task-related challenges that arise when functioning in work teams. Through readings, classroom activities, and applied problem-solving exercises, students acquire or refine team-related competencies. Students study theory of group and team processes while gaining insight from feedback on their behavior in exercises to become more effective team members. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** 60 credit hours, including PSYC 100, or permission of instructor.

**Schedule Type:** Lecture  

**Grading:**  
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 472: Current Topics in Brain and Behavior.** 3 credits.  
Rotating topics. Physiological mechanisms underlying behavior. Selected topics include neuronal bases of learning and memory, Alzheimer’s disease, and biological bases of addiction. Notes: May be repeated with approval of instructor. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term for a maximum 6 credits.

**Specialized Designation:** Topic Varies  

**Recommended Prerequisite:** PSYC 372 or PSYC 375, and PSYC 376; or permission of instructor.

**Schedule Type:** Lec/Sem #1, Lec/Sem #2, Lec/Sem #3, Lec/Sem #4, Lec/Sem #5, Lec/Sem #6, Lec/Sem #7, Lec/Sem #8, Lec/Sem #9, Lecture, Sem/Lec #10, Sem/Lec #11, Sem/Lec #12, Sem/Lec #13, Sem/Lec #14, Sem/Lec #15, Sem/Lec #16, Sem/Lec #17, Sem/Lec #18

**Grading:**  
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 480: Biological Bases of Alzheimer’s Disease.** 3 credits.  

**Recommended Prerequisite:** PSYC 375, PSYC 376, equivalent course, or permission of instructor.

**Schedule Type:** Lecture  

**Grading:**  
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 490: Psychology Honors I.** 3 credits.  
Review of topics and issues in psychology, including historical overview, theory and supporting data, and influences on behavior. Notes: Topics vary. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Specialized Designation:** Mason Impact.  
**Recommended Prerequisite:** Admission to psychology department Honors program.

**Schedule Type:** Seminar  

**Grading:**  
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 491: Psychology Honors II.** 3 credits.  
Introduces advanced statistics, research methodologies, statistics packages, computing and information technology, and library technology appropriate for psychological research and pedagogy. Notes: Students required to complete proposal in preparation for admission to Psychology Honors III. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Specialized Designation:** Mason Impact.  
**Recommended Prerequisite:** PSYC 300, 305 and 490.

**Schedule Type:** Seminar  

**Grading:**  
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 492: RS: Psychology Honors III.** 3 credits.  
Completion of final honors project or thesis. Students must complete project or thesis, and present oral defense to committee and poster to class. Students also expected to prepare proposal to present project or thesis at regional or national conference, or prepare manuscript for publication in appropriate journal. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Specialized Designation:** Research/Scholarship Intensive  
**Recommended Prerequisite:** PSYC 491 and approval of final honors project for thesis.

**Schedule Type:** Seminar  

**Grading:**  
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 499: Senior Thesis.** 3 credits.  
Directed research on topic agreed on by student and advisor. Notes: Students should take PSYC 460 with same advisor to develop thesis proposal before registering for PSYC 499. Students must complete thesis and defend it orally before advisor and two faculty members. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Recommended Prerequisite:** Psychology major with 84 hours, an experimental psychology laboratory course, PSYC 460, Permission of Instructor, and prior approval of thesis proposal.

**Schedule Type:** Independent Study  

**Grading:**
This course is graded on the Undergraduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

500 Level Courses

**PSYC 518: Death, Dying, and Grieving.** 3 credits.
Advanced survey of processes of grieving and their relationship to death and dying. Topics include ways of dying, effects of death on loved ones, and care for the terminally ill. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit. Equivalent to PSYC 418.

**Recommended Prerequisite:** PSYC 100

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

Application of cognitive theory to understand and predict interactions among human cognition, artifact, and task. Discusses recent research and case studies that emphasize empirical research, analytical modeling techniques, systems design, and development of tools and methods. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** An experimental lab course or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 535: Psychometric Methods.** 3 credits.
Examines concepts of psychological measurement with emphasis on predictor test and criterion development. Discusses reliability, validity, and specialized techniques to develop tests of ability, interest, and personality. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 642 or permission of instructor

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 555: Neuroimaging.** 3 credits.
Covers functional magnetic resonance imaging (fMRI) methods, experimental design and analysis issues in fMRI, structural MRI techniques and how they can contribute to cognitive neuroscience, and event-related potential methods. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** Graduate enrollment in either Cognitive & Behavioral Neuroscience or Human Factors & Applied Cognition programs, or instructor approval.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 557: Psychometric Methods.** 3 credits.
Examines concepts of psychological measurement with emphasis on predictor test and criterion development. Discusses reliability, validity, and specialized techniques to develop tests of ability, interest, and personality. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 642 or permission of instructor

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 558: Neuronal Bases of Learning and Memory.** 3 credits.
Examines neuronal mechanisms involved in learning and memory, in animals ranging from invertebrates to humans. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.
**Recommended Prerequisite:** PSYC 372, or 375 and 376; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. ([http://catalog.gmu.edu/policies/academic/grading/](http://catalog.gmu.edu/policies/academic/grading/))

**PSYC 559: Behavioral Chemistry.** 3 credits.

Neurochemistry and neuroendocrinology, including neurotransmitter synthesis, genetic aspects of neural functioning, mechanisms of action of neurotransmitters and second messenger systems, regulation of neuroendocrine systems, neuroendocrine effects on behavior, and immunomunology. Offered by Psychology ([http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/](http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/)). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 372, or 375 and 376; or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. ([http://catalog.gmu.edu/policies/academic/grading/](http://catalog.gmu.edu/policies/academic/grading/))

**PSYC 566: Cognitive and Perceptual Development.** 3 credits.

Survey of theory and the research on development of perception, memory, concepts, problem solving, intelligence, and academic skills in children. Offered by Psychology ([http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/](http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/)). May not be repeated for credit.

**Recommended Prerequisite:** 6 credits of child psychology and course in experimental psychology or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. ([http://catalog.gmu.edu/policies/academic/grading/](http://catalog.gmu.edu/policies/academic/grading/))

**PSYC 565: Laboratory Methods in Cognitive and Behavioral Neuroscience.** 3 credits.

Specialized instruction on a variety of laboratory methods that could include EEG (event related potentials and oscillations), brain stimulation (e.g., tDCS, TMS), histological, genetic, electrophysiological, and/or behavioral techniques, depending on the instructor/semester. Specific topic will vary from section to section. May be repeated for credit as long as it is a different section/topic. Upper level undergraduate students may register with permission of instructor. Offered by Psychology ([http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/](http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/)). May be repeated within the degree for a maximum 9 credits.

**Specialized Designation:** Topic Varies

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. ([http://catalog.gmu.edu/policies/academic/grading/](http://catalog.gmu.edu/policies/academic/grading/))

**PSYC 592: Directed Reading.** 1-6 credits.

Independent reading or research on topic agreed on by student and faculty member. Notes: Directed reading or research for MA students in psychology. Offered by Psychology ([http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/](http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/)). May be repeated within the term for a maximum 6 credits.
Specialized Designation: Topic Varies

Recommended Prerequisite: Permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus, Non-Degree or Senior Plus.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 598: Introduction to the Science and Practice of Industrial and Organizational Psychology. 3 credits.
Introduces students to the building blocks of I-O Psychology and developing key competencies for their success in the Master of Professional Studies in Applied and Industrial and Organizational Psychology program. Course topics include an overview of I-O theory, applied research methods, data analytics, ethics, and demographic diversity. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

600 Level Courses

PSYC 601: Applied Data Analysis in Psychology I. 3 credits.
Introduces fundamental statistical concepts for applied psychological research. Concepts include descriptive statistics, inferential statistics and hypothesis testing, Analysis of Variance, and Linear Regression. The course presents these topics from an applied perspective and also covers data visualization and presentation of results to clients. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 602: Applied Data Analysis in Psychology II. 3 credits.
Covers advanced statistical concepts and approaches for applied psychological research, such as multivariate techniques, longitudinal analyses, and other more complex approaches. A key emphasis will be on using these techniques to assess applied issues, such as return on investment of interventions and utility analyses. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 603: Psychological Research Methods. 3 credits.
Covers basic principles of research methods for applied psychology contexts. The focus on this course is on learning how to interpret and design research studies and survey measures. Topics include basic concepts important to survey design and research methods, and overview of types of research design, and basic issues related to communication of research to lay audiences. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 611: Advanced Statistics. 4 credits.
Integrates basic psychological statistics and measurement issues from advanced perspective. Lab work includes using computer packages for data handling and analyses. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit. Equivalent to PSYC 642.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to students with a major in Psychology.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Special scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 614: The Psychology of Aging. 3 credits.
Review of the experimental literature in psychology of aging, including intellectual functioning, personality and adjustment, minor and major adjustment problems, and role changes in later life. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.
Recommended Prerequisite: PSYC 100 and undergraduate or graduate course in aging.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale.

PSYC 615: Language Development. 3 credits.
Seminar covering theory and research on acquisition of language, including biological and environmental influences and constraints; research methods; role of parents; individual and cultural differences; links between language and other domains of development including cognitive, behavioral, social, and emotional; language and the brain; animal language; bilingualism; and atypical language development. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: 3 credits graduate Developmental Psychology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Seminar
Grading:
This course is graded on the Graduate Regular scale.

PSYC 616: Employee Selection. 3 credits.
Study of administration, scoring, and interpretation of standard tests used by industry for selection and assessment of personnel. The focus is on understanding and applying evidence-based best practices. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale.

PSYC 618: Applied Leadership in the Workplace. 3 credits.
Covers major theories of leadership in organizations. Includes a focus on strategies for leadership assessment, selection, and development, and also examines strategies for staffing and building high performance teams. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale.

PSYC 620: Motivation and Well-Being. 3 credits.
Covers major theories of work motivation and well-being, with an emphasis on understanding valid tools for measuring motivation and well-being and evidence-based approaches for enhancing motivation and well-being in organizational contexts. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale.

PSYC 622: Applied Teamwork in the Workplace. 3 credits.
The purpose of this class is to cover major theories concepts of teamwork in organizations. The course also includes a focus on strategies for assessing, training, staffing and building teams. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Non-Degree level students may not enroll.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale.

PSYC 626: Organizational Change and Development. 3 credits.
Covers principles and strategies for facilitating effective organizational change and growth. Topics include principles of organizational growth, organizational diagnosis, the design of effective organizational interventions, leading and managing organizational change, and strategies for evaluating and calibrating organizational change. Offered by Psychology. Limited to three attempts.

Registration Restrictions:
Enrollment limited to students with a class of Graduate.

Schedule Type: Lecture
Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 627: Performance Management.** 3 credits.
Focuses on developing competencies in designing, implementing, and evaluating systems that measure and evaluate employees' individual performance within the organizational context, as well as the performance of organizational units. Includes developing skills and knowledge to develop tools for providing feedback at the individual and the group/organizational level. Emphasis will be on evidence-based management practices and the dynamic nature of workplaces. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 629: Workplace Training.** 3 credits.
Covers principles and strategies of effective training. Topics include assessment of training needs, development of effective instructional designs, strategies for facilitating training transfer, and techniques of program evaluation. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). Limited to three attempts.

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 631: Industrial and Personnel Testing and Evaluation.** 3 credits.
Study of administration, scoring, and interpretation of standard tests used by industry for selection and assessment of personnel. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 and 320.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 633: Evaluative Research in Psychology.** 3 credits.
Examines research techniques specifically designed to evaluate human effectiveness of organizations and mental health programs. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 or Permission of Instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 636: Survey of Industrial-Organizational Psychology.** 3 credits.
Intensive survey of historical and current issues in major areas of industrial and organizational psychology. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 637: Foundations of Industrial Psychology.** 3 credits.
Intensive survey of historical and current issues in major areas of applied (nonclinical) psychology. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 300 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.
PSYC 638: Training: Psychological Contributions to Theory, Design, and Evaluation. 3 credits.
Focuses on applying learning principles derived from psychological research in development of training models and techniques of skill acquisition. Discusses research designs and empirical results appropriate to training evaluation. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Recommended Prerequisite: PSYC 636 or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 641: Foundations of Organizational Psychology. 3 credits.
Trains at conceptual/theoretical and empirical levels in organizational processes. Includes individual, interpersonal, intra-group, and intergroup phenomena as they exist in context of organizational settings. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Recommended Prerequisite: PSYC 333.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 642: General Linear Modeling I. 4 credits.
First in a two-course sequence introducing psychology graduate students to statistics, research methodology, research design, and measurement from the vantage point of the general linear model. Moves from basic concepts such as variance and central tendency to sophisticated methodological and statistical concepts such as reliability and validity, mean differences, ANOVA, and regression. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit. Equivalent to PSYC 611.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus, Non-Degree or Senior Plus.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate, Non-Degree or Undergraduate level students.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Laboratory, Lecture
PSYC 643: General Linear Modeling II. 4 credits.
Second of a two-course sequence serving to introduce psychology graduate students to statistics, research methodology, research design, and measurement from the vantage point of the general linear model. Fursirs knowledge in the General Linear Model to allow students to evaluate assumptions, deal with group comparisons, work with repeated measures, and address moderation and mediation. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit. Equivalent to PSYC 652, PSYC 754.

Recommended Prerequisite: PSYC 642 or equivalent

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus, Non-Degree or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Laboratory, Lecture

Grading:
This course is graded on the Graduate Special scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 644: Methods for Social Research. 3 credits.
Examines issues in basic and applied social science methodology including internal validity, causal generalization, and construct validity. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 645: Research Methods in Human Factors and Applied Cognition. 3 credits.
Hands-on approach to selected current or classical human factors/applied cognition research methods; exact methods announced in advance. Potential methods include cognitive task analysis, usability evaluation methods, critical incident analysis, reliability analysis, workload measures, verbal protocol analysis, and engineering models of human performance. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Recommended Prerequisite: PSYC 530 and 611.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Special scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 646: Longitudinal Data Analysis. 3 credits.
Examines techniques for measuring developmental change across lifespan. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Recommended Prerequisite: PSYC 642

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 648: Developmental Psychopathology. 3 credits.
In-depth look at emerging discipline of developmental psychopathology. Discusses specific disorders and contexts to illustrate how knowledge of normal development, deviant development, and maladaptive behavior illuminates principles underlying adaptive functioning. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Recommended Prerequisite: 6 credits graduate developmental psychology.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 651: Doing Social Network Research in Psychological Science. 3 credits.
This course is an overview and application of social network analysis (SNA) concepts and tools to understand how social networks promote and constrain individual and group outcomes from a psychological perspective. SNA software (R-packages) are used to characterize people's social network structure and dynamics. Students have the
undergraduate degrees may enroll.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Enrollment is limited to Graduate or Undergraduate level students.

Recommended Prerequisite: PSYC 642 and PSYC 643

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Seminar

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 652: Quantitative Methods II: Analysis of Variance. 3 credits. Basic concepts in experimental design, fundamental assumptions in analysis of variance, and analysis of variance and covariance designs. Reviews multiple comparison tests. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit. Equivalent to PSYC 643.

Registration Restrictions:
Required Prerequisites: (PSYC 611 \(^B\) or 611 \(^X\)).\(^B\) Requires minimum grade of B.\(^X\) Requires minimum grade of X.

Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 667: Behavior in Small Groups and Teams. 3 credits. Theories, methods, and topics relevant to individual behavior in small group setting. Includes effects of individual on group, effects of group on individual, and interaction effects among individuals. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Recommended Prerequisite: PSYC 231.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to students with a major, minor, or concentration in Psychology.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 668: Personality: Theoretical and Empirical Approaches. 3 credits. Presents comprehensive overview of current theoretical and empirical approaches to personality. Emphasizes areas of special relevance to clinical, developmental, and industrial/organizational psychology. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Recommended Prerequisite: PSYC 324 (or equivalent) or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 669: Social and Emotional Development. 3 credits. Surveys theory and research relevant to development of social relationships, emotional expressiveness and regulation, aggressive and altruistic behaviors, sex roles, and morality. Emphasizes influences on such development, including parents, other adults, peers, siblings, and broader culture. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Recommended Prerequisite: Six hours of developmental psychology or permission of instructor.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 685: Cognitive Neuroscience. 3 credits. Provides an overview of the neural basis of human mental functions. Uses neuroimaging (PET, fMRI, ERPs, TMS, etc.), computational, and information-processing methods to examine functions such as attention, memory, language, emotion, and decision making. Offered by Psychology
PSYC 701: Cognitive Bases of Behavior. 3 credits.
Surveys concepts in learning, cognitive, and affective processes, including theories and supporting data and their influences on behavior. Notes: Open only to degree students. Offered by Psychology. May not be repeated for credit.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy, Graduate, Junior Plus or Senior Plus.

Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate or Undergraduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale.

700 Level Courses
PSYC 702: Biological Bases of Human Behavior. 3 credits.
Surveys biological bases of behavior, including such topics as neural conduction, role of specific neurotransmitters, cortical functioning, and brain disorders. Notes: Open only to degree students. Offered by Psychology. May not be repeated for credit.

Registration Restrictions: Enrollment limited to students with a major in Adv Grad Studies in Sch Psych or Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale.

PSYC 703: Social Bases of Behavior. 3 credits.
Surveys social influences on behavior, including group processes, person perception, and attitude formation. Notes: Open only to degree students.

Offered by Psychology. May not be repeated for credit.

Registration Restrictions: Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale.

PSYC 704: Life-Span Development. 3 credits.
Surveys theories and research regarding lifespan development and personality formation. Notes: Open only to degree students. Offered by Psychology. May not be repeated for credit.

Recommended Prerequisite: Admission to graduate program in psychology.

Registration Restrictions: Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading: This course is graded on the Graduate Regular scale.

PSYC 707: Emotional Bases of Behavior. 3 credits.
Surveys major theories and research in emotion, including its development, cognitive and neurological bases, clinical implications, and social functions. Offered by Psychology. May not be repeated for credit.

Registration Restrictions: Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Seminar

Grading: This course is graded on the Graduate Regular scale.

PSYC 730: Practicum in Applied Psychology. 1-6 credits.
Practical experience in organizational setting as assigned. Notes: PhD students may repeat course for a maximum of 15 credits; MA students for a maximum 6 credits. Offered by Psychology. May be repeated within the degree for a maximum 15 credits.

Registration Restrictions:
Enrollment is limited to students with a major in Applied Industr/Orgnztnl Psyc, Adv Grad Studies in Sch Psych or Psychology.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Graduate Special scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 733: Issues in Personnel Psychology.** 3 credits. Examines psychological literature on job analysis, job evaluation and compensation, performance appraisal, training, and EEOL selection issues. Methodological and psychometric issues in interpretation and evaluation of personnel psychology research receive particular attention. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 636 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 734: Seminar in Human Factors and Applied Cognition.** 3 credits. Emphasizes current research and application of human factors, ergonomics, applied cognition, and applied perception. Notes: May be repeated when topic is different. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term for a maximum 9 credits.

**Specialized Designation:** Topic Varies

**Recommended Prerequisite:** Six graduate credits in Human Factors and Applied Cognition or permission of instructor.

**Registration Restrictions:**
Enrollment limited to Graduate students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Special scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 737: Psychology of Human-Technology Interaction.** 3 credits. Emphasizes current research and development in human-computer interaction, cognitive systems engineering, cognitive ergonomics, and cognitive engineering. Notes: May be repeated when topic is different. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term for a maximum 9 credits.

**Specialized Designation:** Topic Varies

**Recommended Prerequisite:** 6 graduate credits in human factors and applied cognition or permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lec/Sem #1, Lec/Sem #2, Lec/Sem #3, Lec/Sem #4, Lec/Sem #5, Lec/Sem #6, Lec/Sem #7, Lec/Sem #8, Lec/Sem #9, Lecture, Sem/Lec #10, Sem/Lec #11, Sem/Lec #12, Sem/Lec #13, Sem/Lec #14, Sem/Lec #15, Sem/Lec #16, Sem/Lec #17, Sem/Lec #18

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 738: IO Psychology and Legal Issues in Employment Discrimination.** 3 credits. The purpose of this course is to provide graduate students in industrial-organizational psychology and related fields an opportunity to gain knowledge of legal issues relevant to the practice and impact of industrial-organizational psychology and human resource management. This includes issues impacting both individuals (i.e., job applicants, employees) and organizations. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy, Graduate or Non-Degree.

Students in a Non-Degree Undergraduate degree may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 739: Seminar in Industrial/Organizational Psychology.** 3 credits. Rotating topics such as leadership theories and management development, and performance appraisal. Notes: Topics announced in advance. May be repeated when topic is different. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree for a maximum 12 credits.

**Recommended Prerequisite:** PSYC 333 and 636, or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 741:** Psychology of Work Motivation. 3 credits.
Examines psychological literature of need, cognitive, and reinforcement theories of motivation; organizational attachment (commitment, absenteeism, and turnover); job design and quality of work issues. Emphasizes methodological and psychometric issues in interpreting and evaluating work-motivation research. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 333 or permission of instructor.

**Registration Restrictions:**
Enrollment limited to students in the LA-MA-PSYC or LA-PHD-PSYC programs.

Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 742:** Careers. 3 credits.
This graduate seminar surveys career studies from an interdisciplinary perspective, with an emphasis on psychological theories and research. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 743:** Behavior and Performance at Work. 3 credits.
Advanced, research-based analysis of employee behavior and performance in organizational settings. Topics covered include performance appraisal and management, organizational citizenship behavior, counterproductive (deviant) work behavior, and employee withdrawal (primarily lateness, absenteeism, and turnover), along with coverage of timely issues such as within-person performance variability, adaptive performance, and star performers. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 642 and PSYC 643 or equivalent and PSYC 636 and PSYC 639 or equivalent

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 754:** Multiple Regression. 3 credits.
Reviews psychological applications of regression techniques in variety of contexts including experimental, field, and survey settings. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit. Equivalent to PSYC 643.

**Registration Restrictions:**
Required Prerequisites: (PSYC 611B or 611XS). B- Requires minimum grade of B.
XS Requires minimum grade of XS.

Enrollment limited to students with a class of Graduate.

Non-Degree level students may not enroll.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 756:** Quantitative Methods IV: Multivariate Techniques in Psychology. 3 credits.
Surveys multivariate statistical techniques as applied to psychological research. Emphasizes analysis of complex designs and interpretation of multivariate data analyses resulting from computer processing. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 642 and PSYC 643

**Registration Restrictions:**
Enrollment limited to students with a class of Graduate.

Non-Degree level students may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 757:** Advanced Topics in Statistical Analysis. 3 credits.
Focuses on noncognitive individual differences that predict performance. Published work discussed in seminar format with emphasis on conceptual development, methodological adequacy, and new directions. Notes: May be repeated for credit when topic is different. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.
Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree.

**Specialized Designation:** Topic Varies

** Recommended Prerequisite:** PSYC 643

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 768: Advanced Topics in Cognitive Science.** 3 credits.
Emphasizes current research in cognitive science. Topics may include computational cognitive models, nature of expertise, diagrammatic reasoning, display-based problem solving, visual attention, decision making, goal-based versus event-based cognition, and situated action.

Notes: May be repeated when topic is different. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term for a maximum 12 credits.

**Specialized Designation:** Topic Varies

**Recommended Prerequisite:** PSYC 530 or 701.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lec/Sem #1, Lec/Sem #2, Lec/Sem #3, Lec/Sem #4, Lec/Sem #5, Lec/Sem #6, Lec/Sem #7, Lec/Sem #8, Lec/Sem #9, Lecture, Sem/Lec #10, Sem/Lec #11, Sem/Lec #12, Sem/Lec #13, Sem/Lec #14, Sem/Lec #15, Sem/Lec #16, Sem/Lec #17, Sem/Lec #18

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 780: Applied Developmental Psychology.** 3 credits.
Examines how developmental theory, knowledge base, and methodology can be used to promote health and welfare of individuals across lifespan. Topics include contemporary social issues and child development, research in applied settings, developmental assessment and intervention, and program evaluation. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 704 or 3 credits of other graduate developmental psychology courses and permission of instructor.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 792: Psychology Practicum.** 1-6 credits.
Supervised experience working in applied, school, or agency settings. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Admission to psychology graduate program.

**Registration Restrictions:**
Enrollment is limited to Graduate level students.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may **not** enroll.

**Schedule Type:** Internship

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 798: Thesis Proposal.** 1-6 credits.
Work on a proposal for master's thesis. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree for a maximum 6 credits.

**Recommended Prerequisite:** Permission of program coordinator.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 799: Master's Thesis.** 1-6 credits.
Research on approved master's thesis topic under direction of thesis committee with approval of chair. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree.

**Registration Restrictions:**
Enrollment is limited to Graduate or Non-Degree level students.

Students in a Non-Degree Undergraduate degree may **not** enroll.

**Schedule Type:** Thesis

**Grading:**
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

**800 Level Courses**

**PSYC 810: Psychological Assessment I.** 4 credits.
First of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods. Notes: Open to clinical psychology PhD students, or other students with permission
of instructor. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 811: Psychological Assessment II. 4 credits.**
Second of required two-course sequence that provides comprehensive coverage of principles, strategies, and techniques of psychological assessment. Emphasizes empirically supported methods. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** PSYC 810.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

**Schedule Type:** Laboratory, Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 813: Supervision, Consultation, and Interprofessional Skills. 3 credits.**
Offers advanced graduate students in health service psychology a foundation in supervision, consultation, and interprofessional/interdisciplinary knowledge and skills. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 822: Scientific Foundations of Clinical Psychology I. 3 credits.**
First of required two-course sequence that provides comprehensive coverage of major psychological problems, including review of empirically supported interventions. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 830: History, Systems, and Theories of Personality and Psychotherapy. 3 credits.**
Review of history, systems, and theories of clinical psychology emphasizing traditional theories of personality and psychotherapy. Notes: Open to clinical psychology PhD students, or other students with permission of instructor. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Recommended Prerequisite:** Admission to doctoral concentration in clinical psychology.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

**Schedule Type:** Lecture

**Grading:**
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 850: Teaching Practicum in Psychology. 2 credits.**
Workshop in effective teaching of selected undergraduate psychology courses. Required of and designed to guide graduate teaching assistants assigned to teach undergraduate course (not a lab) for first time. Topics include course planning, syllabus development, lecture resources, effective lecturing skills, use of audio visuals, leading of classroom discussion, construction and grading of exams, student writing, instructional technology, and handling of student questions and problems. Individual critiques of teaching. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Registration Restrictions:**
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

**Schedule Type:** Seminar

**Grading:**
This course is graded on the Graduate Special scale. (http://catalog.gmu.edu/policies/academic/grading/)

**PSYC 855: Social, Cognitive, and Affective Foundations of Behavior. 3 credits.**
This course is designed to provide foundational knowledge, as required by the APA Commission on Accreditation, for graduate training in professional psychology, with a specific focus on the areas of social, cognitive, and affective bases of behavior. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

**Registration Restrictions:**
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 856: Diversity, History and Clinical Psychology. 3 credits.
In all of their roles, clinical psychologists have the potential to engage with diverse populations thoughtfully, ethically, intentionally, and in a way that promotes justice. This class equips students with the foundational knowledge, awareness and skills to reach this goal. The class builds awareness of the ways in which social identity influences our perceptions, interactions, and professional endeavors, and introduces students to the ways in which psychology has both perpetuated oppression and interrupted injustice in its distant and recent history. Students end the semester with training goals for growing their capacity to engage with our diverse society thoughtfully and intentionally. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 861: Cognitive Behavioral Therapy for Youth. 3 credits.
Teaches the selection, evaluation, and application of empirically supported interventions for children and adolescents with a focus on cognitive-behavioral interventions. Instruction in evidence based assessments, cognitive-behavioral case conceptualization, outcome evaluation, and consultation. Supervision of cognitive-behavioral therapy with youth. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree for a maximum 6 credits.

Registration Restrictions:
Enrollment limited to Graduate level students.

Schedule Type: Seminar

Grading:
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 864: Foundations of Evidence-Based Psychotherapy. 3 credits.
This course is designed to begin preparing you as a professional therapist by providing you with a full introduction to key theoretical and evidence-based foundations of therapy. We will review the basic theories underlying different therapeutic orientations, as well as the literature on evidence-based therapeutic practice, including common factors of effective therapy and specific techniques that have been shown to be effective with a range of conditions. We will also explore how therapist and client identity can interact in therapy, and how to effectively broach sensitive issues (e.g., sexual history and preferences, substance use, experiences of racism and oppression) with clients. This course will utilize several modes of learning, including readings, lecture, discussion, personal reflections, example video/audio recordings, homework, and role plays. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Undergraduate degree may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 881: Practicum in Clinical Psychology. 1-3 credits.
Supervised clinical work in a professional psychological services setting. Usually includes practice in psychological assessment and clinical interventions, but can also include supervision, consultation, and program evaluation. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term for a maximum 21 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Admission to doctoral concentration in clinical psychology and permission of director.

Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Lec/Sem #1, Lec/Sem #2, Lec/Sem #3, Lec/Sem #4, Lec/Sem #5, Lec/Sem #6, Lec/Sem #7, Lec/Sem #8, Lec/Sem #9, Lecture, Sem/Lec #10, Sem/Lec #11, Sem/Lec #12, Sem/Lec #13, Sem/Lec #14, Sem/Lec #15, Sem/Lec #16, Sem/Lec #17, Sem/Lec #18

Grading:
This course is graded on the Graduate Special scale. (http://catalog.gmu.edu/policies/academic/grading/)
PSYC 883: Ethical and Professional Issues in Clinical Practice. 3 credits. Examines ethical principles and professional guidelines to help develop ethical decision-making and behavior to meet the appropriate standards of care in providing clinical services. Registration Restrictions:
Enrollment is limited to students with a major in Psychology.

Enrollment is limited to Graduate level students.

Schedule Type: Internship

Grading:
This course is graded on the Graduate Special scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 889: Structural Equation Modeling and Meta-Analysis. 3 credits. Offers advanced instruction on meta-analysis and structural equation modeling (SEM). The meta-analysis portion teaches students how to conduct meta-analysis and formulate research questions, including effect sizes, coding for study information, conducting and interpreting the analyses, and reporting results. The SEM portion of the course covers topics such as confirmatory analysis, mediation and moderation with latent variables, multiple-group SEM, invariance testing, and longitudinal analysis. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May not be repeated for credit.

Registration Restrictions:
Required Prerequisites: (PSYC 642B or 642XS) and (PSYC 643B or 643XS).
B- Requires minimum grade of B-.
XS Requires minimum grade of XS.

Enrollment limited to students with a class of Advanced to Candidacy or Graduate.

Students in a Non-Degree Post-Baccalaureate or Non-Degree Undergraduate degrees may not enroll.

Schedule Type: Lecture

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 890: Seminar in Professional Psychology. 1-3 credits. Each section limited to students in one concentration of MA or PhD program. See area coordinator for requirements for each section in each track. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term for a maximum 3 credits.

Specialized Designation: Topic Varies

Recommended Prerequisite: Student in psychology.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lec/Sem #1, Lec/Sem #2, Lec/Sem #3, Lec/Sem #4, Lec/Sem #5, Lec/Sem #6, Lec/Sem #7, Lec/Sem #8, Lec/Sem #9, Sem/Lec #10, Sem/Lec #11, Sem/Lec #12, Sem/Lec #13, Sem/Lec #14, Sem/Lec #15, Sem/Lec #16, Sem/Lec #17, Sem/Lec #18

Grading:
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 892: Special Topics in Psychology. 1-6 credits. Selected topics reflecting specialized areas in psychology. Notes: Open only to PhD students. Content varies. May be repeated when topic is different. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term for a maximum 17 credits.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Lec/Sem #1, Lec/Sem #2, Lec/Sem #3, Lec/Sem #4, Lec/Sem #5, Lec/Sem #6, Lec/Sem #7, Lec/Sem #8, Lec/Sem #9, Lecture, Sem/Lec #10, Sem/Lec #11, Sem/Lec #12, Sem/Lec #13, Sem/Lec #14, Sem/Lec #15, Sem/Lec #16, Sem/Lec #17, Sem/Lec #18

Grading:
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 897: Directed Reading and Research. 1-3 credits. Independent reading on topic agreed on by student and faculty member. Notes: PhD students in the clinical psychology concentration may not take this course for elective credit. May not be repeated for credit towards a degree by students who also register for PSYC 799. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the term.

Specialized Designation: Topic Varies

Registration Restrictions:
Enrollment is limited to Graduate level students.

Grading:
This course is graded on the Graduate Regular scale. (http://catalog.gmu.edu/policies/academic/grading/)

900 Level Courses

PSYC 998: Doctoral Dissertation Proposal. 1-6 credits.
Work on research proposal that forms basis for doctoral dissertation. Notes: No more than 24 credits of PSYC 998 and 999 may be applied to doctoral degree requirements. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree.

Registration Restrictions:
Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)

PSYC 999: Doctoral Dissertation. 1-9 credits.
Research on approved dissertation topic under direction of dissertation committee. Notes: Students must complete a minimum of 3 credits of 999. No more than 12 credits of PSYC 998 and 999 may be applied to doctoral degree requirements. Offered by Psychology (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/psychology/). May be repeated within the degree.

Recommended Prerequisite: PSYC 998.

Registration Restrictions:
Enrollment limited to students with a class of Advanced to Candidacy.

Enrollment is limited to Graduate level students.

Schedule Type: Dissertation

Grading:
This course is graded on the Satisfactory/No Credit scale. (http://catalog.gmu.edu/policies/academic/grading/)
