About the University

The Mason Vision

Our Motto
Freedom and Learning

Mission
A public, comprehensive, research university established by the Commonwealth of Virginia in the National Capital Region, we are an innovative and inclusive academic community committed to creating a more just, free, and prosperous world.

Our Values

Our students come first
Our top priority is to provide students with a transformational learning experience that helps them grow as individuals, scholars and professionals

Diversity is our strength
We include and embrace a multitude of people and ideas in everything we do and respect differences

Innovation is our tradition
We strive to find new and better ways to deliver on our mission while honoring time-tested academic values

We honor freedom of thought and expression
We protect the freedom of all members of our community to seek truth and express their views

We are careful stewards
We manage the economic and natural resources entrusted to us responsibly and sustainably

We act with integrity
We hold ourselves to the highest ethical standards as educators, scholars, students and professionals

We thrive together
We nurture a positive and collaborative community that contributes to the well-being and success of every member

The Mason Graduate is...

... a well-rounded scholar:
• thinks critically and creatively and demonstrates professional competence
• possesses an inquisitive nature
• appreciates science, humanities and the arts
• skilled as a communicator
• committed to lifelong learning

... prepared to act:
• innovative, resourceful and entrepreneurial; ready to do or create a job
• interested and practiced in working with individuals from other cultures, backgrounds and perspectives
• equipped to make positive and meaningful changes in society

George Mason, the Man

George Mason was the central genius of the American Revolution. He was the primary author of both the Virginia Declaration of Rights and Virginia’s first Constitution, written in May and June of 1776, which served as examples for other states. He was highly regarded by contemporaries for his intellect and abilities. Thomas Jefferson described him as “a man of first order wisdom,” and James Madison described him as “the soundest and clearest reasoner I have ever listened to.”

Always a reluctant public servant, he has been referred to as the “forgotten” or “unknown” founder. Most content at Gunston Hall, his home in Fairfax County, he participated in politics only out of a sense of duty. Unconcerned with fame or his reputation in history, he preferred the happiness of “a private station” to “the vexations of public business.”

In 1787, Mason attended the Constitutional Convention at Philadelphia. James Madison, although known as the “Father of the Constitution,” attributed much of the final document to Mason. Mason refused, however, to sign the Constitution, as it did not guarantee the rights of the people. By his principled opposition, Mason ultimately assured the adoption of the federal Bill of Rights based on his Virginia Declaration of Rights.

As demonstrated in the language set forth in Mason’s own documents, no other founder was more acutely aware of the moral depravity of slavery and the contradiction it created. He proposed an elimination of the slave trade as a first step toward eventual emancipation. The institution of slavery was so ingrained in a pre-industrial agricultural society that it was only ended by the American Civil War.

If patriotism is defined as selfless devotion to a country conceived in liberty, then George Mason is our purest Patriot. On April 12, 1996, a seven-foot statue of him presenting his handwritten draft of the Virginia Declaration of Rights was dedicated at the university. This statue serves as a constant reminder of the ideals of freedom and learning most important to Mason the man and the university that bear his name.

University History

The idea for George Mason University was born in 1949 when the Northern Virginia University Center, essentially an adult-education extension of the University of Virginia at Charlottesville, opened under the direction of John Norville Gibson Finley. In 1955 and again in 1956,
In 2009, the university opened the Long and Kimmy Nguyen Engineering observatory and laboratories for a number of campus research centers. Its first facility dedicated to research, Research Hall, which contains an educational support facilities such as an interactive library, Mason Center for the Arts Center on the Science and Technology Campus, celebrated its grand opening in May 2010 and the Institute for Advanced Biomedical Research opened in 2015. On the Arlington Campus, Founders Hall opened in 2011. In 2016, the Point of View International Retreat and Conference Center in Lorton, Virginia, was opened, and in 2017, the Potomac Science Center opened in Woodbridge, Virginia. In 2018, the Peterson Family Health Sciences Hall opened and is the largest academic building on the Fairfax Campus.

In February 2016, Mason entered the "Highest Research Activity" tier of the Carnegie Classification of Institutions of Higher Education, joining an elite group of 115 research universities.

The university’s formal history began in 1957 as University College, the Northern Virginia branch of the University of Virginia, offering courses in engineering and the liberal arts. It opened in a renovated elementary school in the Bailey's Crossroads area with an enrollment of 17 students.

Mason was the first institution in the country to offer a program geared toward the emerging information technology field. In 1985, Mason partnered with area businesses to develop an engineering program geared toward the emerging information technology field and started what is now the Volgenau School of Engineering. With the Volgenau School, Mason was the first institution in the country to offer a doctoral degree in information technology.

The establishment in 1990 of the Institute of the Arts, which became the College of Visual and Performing Arts in 2001, solidified the university's commitment to make the arts an integral part of students' lives. The Center for the Arts and the arts complex, which includes art galleries, studio and rehearsal space, and performing venues such as Harris Theatre and TheaterSpace, are all components of the college.

The university's facilities continue to grow. In 2006, the university opened its first facility dedicated to research, Research Hall, which contains an observatory and laboratories for a number of campus research centers. In 2009, the university opened the Long and Kimmy Nguyen Engineering Building, the university's first LEED-certified building on the Fairfax Campus. Also opening in 2009 was the Art and Design Building, which is now home to the School of Art.

Masonvale, a townhome community on campus that provides short-term housing for faculty and staff, opened in late 2009. The Hylton Performing Arts Center on the Science and Technology Campus, celebrated its grand opening in May 2010 and the Institute for Advanced Biomedical Research opened in 2015. On the Arlington Campus, Founders Hall opened in 2011. In 2016, the Point of View International Retreat and Conference Center in Lorton, Virginia, was opened, and in 2017, the Potomac Science Center opened in Woodbridge, Virginia. In 2018, the Peterson Family Health Sciences Hall opened and is the largest academic building on the Fairfax Campus.

In February 2016, Mason entered the "Highest Research Activity" tier of the Carnegie Classification of Institutions of Higher Education, joining an elite group of 115 research universities.

The university’s formal history began in 1957 as University College, the Northern Virginia branch of the University of Virginia, offering courses in engineering and the liberal arts. It opened in a renovated elementary school in the Bailey's Crossroads area with an enrollment of 17 students.

Mason was the first institution in the country to offer a program geared toward the emerging information technology field. In 1985, Mason partnered with area businesses to develop an engineering program geared toward the emerging information technology field and started what is now the Volgenau School of Engineering. With the Volgenau School, Mason was the first institution in the country to offer a doctoral degree in information technology.

The establishment in 1990 of the Institute of the Arts, which became the College of Visual and Performing Arts in 2001, solidified the university's commitment to make the arts an integral part of students' lives. The Center for the Arts and the arts complex, which includes art galleries, studio and rehearsal space, and performing venues such as Harris Theatre and TheaterSpace, are all components of the college.

On the Fairfax Campus, the innovative George W. Johnson Center was dedicated in April 1996. By combining student life resources with educational support facilities such as an interactive library, Mason created the learning workspace of the future. Educational administrators from around the world have toured the center.

The university's facilities continue to grow. In 2006, the university opened its first facility dedicated to research, Research Hall, which contains an observatory and laboratories for a number of campus research centers. In 2009, the university opened the Long and Kimmy Nguyen Engineering Building, the university's first LEED-certified building on the Fairfax Campus. Also opening in 2009 was the Art and Design Building, which is now home to the School of Art.
Accreditation

George Mason University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award bachelor’s, master’s, and doctoral degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the accreditation of George Mason University.

Individual programs or units may also be accredited by discipline-specific agencies.

George Mason University Foundation

Mission

The George Mason University Foundation was established in 1966 to assist the university in generating private support and to manage, invest, and administer private gifts, including endowment and real property.

Campuses and Instructional Sites

Mason is a distributed university, with regional campuses in Fairfax, Arlington, and Prince William counties, and instructional sites in Loudoun County, Herndon, Lorton, Woodbridge, Front Royal and Songdo, South Korea. Each Mason campus has a distinctive academic focus that plays a critical role in the economy of its surrounding region. At each campus, students and faculty have access to all the university’s resources, while the duplication of programs and support services is minimized through the use of technology.

Fairfax Campus

Situated on 677 acres of wooded land, the Fairfax Campus offers a wealth of opportunities beyond the numerous academic programs and is the principal center for undergraduate residence and life. The resident student population of 6,023 is expected to grow to more than 7,000 during the next few years as new residential units are constructed.

The George W. Johnson Center, the first building of its kind in the country, fosters university-wide learning by integrating students’ curricular and extracurricular activities and strengthening relationships among university communities.

The Center for the Arts and the Patriot Center offer numerous opportunities to experience the arts, as well as sports and other entertainment. Professional artistic events presented on campus include music and dance from around the world and regional, national, and international visual art exhibitions. Free tickets are available to these events for full-time Mason students.

The Aquatic and Fitness Center provides state-of-the-art exercise equipment and competitive and recreational swimming to the university community and outside teams. The 120,000 square foot Recreation and Athletic Complex (formerly the PE Building) boasts three gymnasiums, two racquetball courts, two squash courts, and a two-story fitness gallery. Additional equipment and exercise space is also available in Skyline Fitness, adjacent to the residence halls.

Arlington Campus

The Arlington Campus, established in 1979, is located near Washington, D.C., on 5.2 acres of land. Mason’s most urban location, the Arlington Campus is situated conveniently in the Virginia Square neighborhood and offers easy access via Metro and key transportation routes.

The campus has a strong focus on professional and graduate education and is home to the Antonin Scalia Law School, the Schar School of Policy and Government (formerly SPGIA) and the School for Conflict Analysis and Resolution. The Arlington Campus is also home to graduate programs in nonprofit management and arts management. In addition, the School of Business now offers its Executive MBA, Accounting, MS and Real Estate Development, MS programs in Arlington. Learning Solutions is redefining the way we offer executive and professional education. In addition to these executive, graduate and professional programs, some undergraduate courses are also available in Arlington.

The Arlington Campus is home to the Mercatus Center and the Institute for Humane Studies, independent initiatives affiliated with the university. The Law and Economics Center (LAW), Center for World Religions, Diplomacy, and Conflict Resolution (S-CAR), Center for Regional Analysis (SCHAR) and the Interdisciplinary Center for Economic Science (CHSS) are some of the many research centers located at the Arlington Campus.

The campus includes four buildings: Hazel Hall, Van Metre Hall, Vernon Smith Hall and the Original Building. Van Metre Hall, which opened on the campus in 2011, provides 256,000 square feet of space for academic and student support services. In addition, the building features a 300-seat auditorium, a public plaza, and a large multipurpose room. These additional spaces enable the university to highlight and showcase much of the exciting work taking place at the Arlington Campus - as well as throughout the university - through the hosting of conferences, meetings and other events.

Science & Technology Campus

The Science & Technology Campus (SciTech), established in 1997, is the nucleus of the largest research business park in Northern Virginia, Innovation Park. The 134 acres campus in Manassas is surrounded by advanced technology companies and agencies. The campus serves all of Northern Virginia and offers convenient access to the university for citizens of Prince William, Fauquier, and western Fairfax counties; the cities of Manassas and Manassas Park; and adjoining areas to the west and south. A major focus of the campus is research and academic programs in the life sciences, including biodefense and infectious diseases, cancer proteomics, genomics, medical education and bioinformatics. Graduate studies in Advanced Biomedical Sciences are offered for students preparing for medical school or careers in health professions. Programs in nursing, teacher education, information technology, health and fitness, recreation, exercise science, health promotion, parks and outdoor recreation, sport management, therapeutic recreation, tourism and events management, and athletic training also are offered on the campus.

Campus resources available to all university students, faculty, and staff include a full-service library, large drop-in computer lab, information center, University Police, university bookstore, dining services, student lounge, shuttle bus service between the Fairfax and SciTech Campuses, and full complement of student and academic services. In addition, there are numerous opportunities to get involved in campus life through a variety of co-curricular and extracurricular activities.

Many campus facilities and services are available to serve university and community needs. The 300-seat Verizon Auditorium located in Colgan Hall boasts innovative audiovisual technologies suitable for presentations, meetings, and ceremonies, along with lobby space for receptions and displays. The campus is also home to the Virginia Serious Game Institute, located in the Katherine G. Johnson Building, where students and faculty can pursue true multidisciplinary translational
applied research in Simulation, Modeling, and Game Design and Development. A new partnership on the SciTech Campus between Mason and the Uniformed Services University allows, Army, Air Force, Marine and Navy service members to remain on active duty during two years of preparatory coursework for application to medical school.

The campus comprises eight buildings: three research facilities, two academic buildings, a student housing facility, a recreation and fitness center and a performing arts center. Graduate student housing with ground level retail space opened in fall 2012. Through mutually beneficial partnerships with local government and area businesses, the campus has positioned itself to tap into the unique assets of the surrounding community while providing access to university resources and programs for students and citizens. The university’s Biomedical Research Laboratory (BRL) opened in 2010. This regional biocontainment facility, the largest of only 12 facilities of its kind in the nation, is funded in part by the National Institute of Allergy and Infectious Diseases and houses research on emerging infectious diseases and those caused by biological threat agents.

The 110,000-square-foot Freedom Aquatic & Fitness Center offers state-of-the-art exercise equipment, group fitness programs, a full gymnasium with elevated track, and recreational and instructional swimming in a 50-meter competition pool, classrooms, and other meeting spaces. It is also home to EDGE, Mason Center for Team and Organizational Learning’s Challenge Course. The SMART Laboratory-Freedom Center is a 2,000 square foot facility that serves as the primary research facility for faculty and students in the Athletic Training and Sports Medicine degree programs.

Prince William County, the City of Manassas, and Mason have joined to create the region’s first state-of-the-art performing arts center. The Hylton Performing Arts Center, opened in 2010, provides outstanding professional performances by artists from around the world in world-class venues. With resources for community arts groups; regional business, civic, and service organizations; county and city school students and teachers; Mason students and faculty, The Hylton Performing Arts Center educates, entertains, and enriches the community.

The Governor’s School @ Innovation Park began conducting dual-enrollment classes for high school guest matriculates at the SciTech Campus in 2010.

Instructional Sites
Mason in Loudoun, conveniently located directly on Route 7 in Sterling, Virginia, connects students and businesses in one of the nation’s fastest-growing areas to one of the Commonwealth’s premier universities. Mason in Loudoun offers undergraduate and graduate level coursework in nursing, health science, education, information technology, leadership studies and management. Professional and executive education programs are also held at this site, as well as classes through the Osher Lifelong Learning Institute. Co-located with Northern Virginia Community College in leased space adjacent to their Loudoun Campus, Mason in Loudoun offers students the same privileges and access as those on Mason’s Fairfax, Arlington, and SciTech Campuses.

Smithsonian Mason School of Conservation (https://smconservation.gmu.edu) was established as a partnership between the Smithsonian Institution and George Mason University to provide experiential education for current and future generations of global conservation professionals, leaders, and practitioners. Located in in Front Royal, Virginia, the campus offers undergraduate, graduate and certificate programs for students and professionals.

Administration
Board of Visitors
Thomas M. Davis, Rector, BA, Amherst College; JD, University of Virginia Law School; Vienna, Va.
James W. Hazel, Vice Rector, JD, George Mason University School of Law; Charlottesville, Va.
Shawn Purvis, Secretary, MS, George Mason University; Manassas, Va.
Karen Alcalde, BS, George Mason University; JD, George Mason University School of Law; Arlington, Va.
Horace Blackman, BA, George Mason University; MBA, University of Virginia: Falls Church, Va.
Anjan Chimaladinne, MS, George Mason University; South Riding, Va.
Stephen M. Cumbie, MBA, University of North Carolina; McLean, Va.
Wendy Marquez, BA, University of Maryland; McLean, Va.
Ignacia S. Moreno, JD, New York University School of Law; McLean, Va.
David Petersen, BA, Grinnell College; Vienna, Va.
Nancy Gibson Prowitt, BA, DePauw University; Arlington, Va.
Paul J. Reagan, JD, George Mason University School of Law; Springfield, Va.
Edward H. Rice, MS, The American University, Vienna, Va.
Denise Turner Roth, BS, George Mason University; Greensboro, NC.
Bob Witeck, BA, University of Virginia; Arlington, Va.
Lisa Zuccari, BIS, George Mason University; McLean, Va.
Keith Renshaw (faculty representative), PhD, University of North Carolina, Chapel Hill; Fairfax, Va.
Rebekah Pettine (undergraduate student representative), working on double major in Government and International Politics and Communication; Fairfax, Va.
Rebecca Keatinge, (graduate student representative), working on MA in Strategic Communication; Fairfax, Va.

This list reflects appointments as of July 2018.

Administration
University President: Ángel Cabrera, PhD
Provost and Executive Vice President for Academic Affairs: S. David Wu, PhD
Senior Vice President for Administration and Finance: Carol Dillon Kissal, MBA
Chief of Staff and Vice President for Communications and Marketing: Frank Neville, MBA
Vice Presidents

Vice President for Academic Innovation and New Ventures: Michelle Marks, PhD

Vice President for Compliance, Diversity and Ethics: Julian R. Williams, JD

Vice President for Enrollment Management: David Burge, MA

Vice President for Facilities: Frank Strike, MS

Vice President for Government and Community Relations: Paul J. Liberty, BA

Vice President for Information Technology: Marilyn Smith, MBA

Vice President for Research: Deborah Crawford, PhD

Vice President for University Advancement and Alumni Relations: Trishana Bowden, BS

Vice President for University Life: Rose Pascarell, MA

Assistant Vice President and Director of Intercollegiate Athletics: Brad Edwards, MBA

Deans and Directors

Dean, College of Education and Human Development: Mark Ginsberg, PhD

Dean, College of Health and Human Services: Germaine Louis, PhD

Dean, College of Humanities and Social Sciences: Ann Ardis, PhD

Dean, College of Science: Peggy Agouris, PhD

Dean, College of Visual and Performing Arts: Richard A. Davis, DFA

Dean, George Mason University Korea: Robert Matz, PhD

Dean, Honors College: Zofia Burr, PhD

Dean, School of Business: Maury Peiperl, PhD

Dean, School for Conflict Analysis and Resolution: Kevin Avruch, PhD

Dean, Antonin Scalia Law School: Henry Butler, JD

Dean, Schar School of Policy and Government: Mark Rozell, PhD

Dean, Volgenau School of Engineering: Kenneth S. Ball, PhD

Office of the Provost - Academic Affairs

Associate Provost for Academic Administration: Renate Guilford, MA

Associate Provost for Academic Initiatives and Services: Janette Kenner Muir, PhD

Associate Provost for Faculty Affairs and Development: Kimberly Eby, PhD

Associate Provost for Institutional Research and Assessment: Gesele Durham, PhD

Associate Provost for Sustainable Earth: Cody Edwards, PhD

Associate Provost for Undergraduate Education: Bethany M. Usher, PhD

University Registrar: Janette Kenner Muir, PhD (interim)

University Libraries

University Librarian: John Zenelis, MLS, MA

Faculty

Instructional and Administrative Faculty 2019 - 20

The faculty list reflects appointments as of March 2019.

A

Abdelfattah, Belal, Assistant Professor of Information Systems and Operations Management. BBA 2004, MBA 2006, PhD 2013, University of Texas at El Paso.

Abramson, Alan J., Professor, Schar School of Policy and Government. BA 1976, Wesleyan University; MA 1977, MPhil 1979, PhD 1990, Yale University.

Acs, Zoltan J., University Professor of Public Policy. Director, Center for Entrepreneurship and Public Policy. BA 1972, Cleveland State University; MA 1974, PhD 1980, The New School.

Adams, Leah, Assistant Professor, Psychology and Women & Gender Studies. BS 2008, University of Richmond; PhD 2014, George Mason University.

Agnarsson, Geir, Associate Professor, Mathematical Sciences. BS 1990, University of Iceland; PhD 1996, University of California, Berkeley.

Agoston, Kathryn E., Graduate Fellowship Director, Office of the Provost. BS 1993, Georgetown University; MA 96, PhD 2002, University of Texas at Austin.

Agouris, Peggy, Professor and Dean, College of Science. Director, Center for Earth Observing and Space Research. Dipl Eng 1986, National Technical University of Athens, Greece; MS 1988, PhD 1992, The Ohio State University.

Agrawal, Nitin, Assistant Professor, Bioengineering, Volgenau School of Engineering. BE 1999, Regional Engineering College, Durgapur, India; PhD 2006, Texas A&M University.

Aguirre, A. Alonso, Chair and Associate Professor, Environmental Science and Policy. PhD 1990, Colorado State University.

Ahmadi, Pouyan, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 2006, Azad University; MS 2009, Iran University of Science and Technology; PhD 2015, George Mason University.

Ahn, Changwoo, Professor, Environmental Science and Policy. BS 1992, MS 1996, Seoul National University; PhD 2001, The Ohio State University.

Aidoo, Abena, Associate Professor, Tourism and Events Management, School of Recreation, Health, and Tourism. BA 1997, University of Ghana; MHRD 2002, Clemson University; PhD 2010, University of Delaware.

Ainsworth, Melissa, Assistant Professor, Graduate School of Education in the College of Education and Human Development. BA 1986, West Virginia University; MA 1988, University of Wyoming; MEd 1999, PhD 2014, George Mason University.

Albanese, Denise, Director, Cultural Studies PhD Program; Professor, English and Cultural Studies. BA 1978, New York University; PhD 1987, Stanford University.

Albanese, Massimiliano, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BS, MS 2002, Laurea; PhD 2005, University of Naples "Federico II".

Aldatmaz, Serdar, Assistant Professor of Finance. BA 2008, Koc University; PhD 2013, University of North Carolina at Chapel Hill.

Alemi, Farrokh, Professor, Health Administration and Policy. BS 1976, MS 1978, PhD 1983, University of Wisconsin-Madison.

Aler, John, Associate Professor of Music. BM 1971, MM 1972, Catholic University of America.

Al-Seoudi, Nizar Jebril Ibrahim, Term Assistant Professor of Arabic. BA 2002, MA 2006, PhD 2011 University of Jordan, Amman, Jordan.

Allbeck, Jan M., Associate Dean, Honors College. Associate Professor, Computer Science. BS 1995, Bloomsburg University; MS 1997, PhD 2009, University of Pennsylvania.

Allen, Susan H., Associate Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1992, University of Virginia; MS 1995, PhD 2000, George Mason University.

Ambegaonkar, Jatin, Associate Professor, Athletic Training, School of Recreation, Health and Tourism. BS 1998, T. N. Medical College, India; MS 2003, Springfield College; PhD 2006, University of North Carolina, Greensboro.

Amireh, Amal, Associate Professor, English. BA 1983, Birzeit University, Palestine; MA 1987, PhD 1997, Boston University.

Amiri, Mehdi, Assistant Professor. BS 2006, University of Tehran; 2011 PhD, Louisiana State University.

Ammann, Paul E., Associate Professor, Computer Science, Volgenau School of Engineering. AB 1983, Dartmouth College; MS 1985, PhD 1988, University of Virginia.

Anacker, Katrin B., Associate Professor, Schar School of Policy and Government. MA 1999, MCRP 1999, PhD 2006, Ohio State University.

Anand, Priyanka, Associate Professor of Health Administration and Policy. BA 2002, University of California, Berkeley; MA 2009, MPhil 2009, PhD 2012, Yale University.

Andalib, Ali, Professor and Associate Dean for Research, College of Science. BA 1983, University of South Carolina; PhD 1990, University of California, Los Angeles.

Anderson, Daniel M., Professor, Mathematical Sciences. BA 1989, St. Olaf College; PhD 1993, Northwestern University.

Anderson, Jacqueline, Director, Human Resources, College of Education and Human Development. BA 1988, Saint Leo University.

Anderson, Mike, Assistant Professor of Finance. BS 2001, California Polytechnic State University; MS 2003, City University of New York, Baruch College.

Anderson, Nancy, Training and Technical Assistant Coordinator, College of Education and Human Development. BA 1982, Gallaudet University; MEd 1985, Western Maryland College.

Andre, Matthew J., Assistant Professor in the School of Recreation, Health and Tourism in the College of Education and Human Development. BS 2008, MS 2010, George Mason University; PhD 2014, University of Kansas.

Andrea, Kevin, Instructor of Computer Science. BS 2012, MS 2014, George Mason University.

Antil, Harbir, Associate Professor, Mathematical Sciences. BS 2004, St. Stephen's College; MS 2006, PhD 2009, University of Houston.

Appel, Robert, Director, Marketing and Communications, School of Business. BS 1979, University of Maryland.

Ardis, Ann L., Professor and Dean, College of Humanities and Social Sciences. BA 1979, University of Kansas; MA 1982, PhD 1988, University of Virginia.

Ascoli, Giorgio A., University Professor, Bioengineering, Volgenau School of Engineering. Director, Center for Neural Informatics. BS 1991, Scuola Normale Superiore, Italy; MS 1993, Pisa University, Italy; PhD 1996, Scuola Normale Superiore.

Asen, Sheryl, Assistant Professor, Education, Graduate School of Education. BS 1974, State University of New York; MS 1977, University of South Carolina; PhD 1997, George Mason University.

Ashley, Jennifer, Term Assistant Professor of Global Affairs, BA 1999, Kenyon College; MA 2004, PhD 2011, Brown University.

Atkinson, Jennifer H., Associate Professor, English. BA 1978, Wesleyan University; MFA 1984, MA 1985, University of Iowa.

Auerswald, Philip E., Associate Professor, Schar School of Policy and Government. BA 1988, Yale University; MA 1995, PhD 1999, University of Washington.

Auffret, Jean-Pierre, Instructor of Technology Management and Director, Research Partnerships and Grant Initiatives. BS 1979, Duke University; MBA 1982, University of Virginia; PhD 1999, American University.

Augustyn, Kevin, Director of Development, College of Humanities and Social Sciences. BA 1999, Franciscan University of Steubenville; STB 2004, The Pontifical Lateran University; MDiv. 2004, St. John Vianney Theological Seminary; MPhil. 2015, Catholic University of America.
Austin, Leila, Assistant Professor of Business Foundations. BA 1989, Bryn Mawr College; MA 1993, Johns Hopkins University; PhD 2006, Columbia University.

Avila, Kimberly A. Assistant Professor, Graduate School of Education in the College of Education and Human Development. BS 1998, Colorado State University; MA 2000, University of Northern Colorado.

Avramovic, Ivan, Instructor of Computer Science. BS 1997, University of Illinois, Urbana-Champaign; MS 2012, George Mason University.

Avramovic, Sanja, Assistant Professor of Health Administration and Policy. MS, University of Belgrade; PhD 2015, George Mason University.

Avruch, Kevin Andrew, Dean and Henry Hart Rice Professor of Conflict Resolution and Anthropology, School for Conflict Analysis and Resolution. BA 1972, University of Chicago; MA 1973, PhD 1978, University of California, San Diego.

Axtell, Robert, Professor, Computational and Data Sciences. BS 1983, University of Detroit; PhD 1992, Carnegie Mellon University.

Aydin, Hakan, Professor, Computer Science, Volgenau School of Engineering. BS 1991, MS 1994, Istanbul Technical University; PhD 2001, University of Pittsburgh.

Ayrsworth, Julie Higgins, Assistant Professor, School of Recreation, Health and Tourism in the College of Education and Human Development. BS 1998, MA 2003, PhD 2006, The Ohio State University.

Azam Salahuddin, Syed, Director of Fiscal Services, Schar School of Policy and Government. BS 1996, Indiana University; MBA 2003, Vanderbilt University.

Azar, Tawnya, Term Assistant Professor of English. BA 2007, Randolph College; MA 2009, PhD 2018, George Washington University.

B

Bailey, Charles, Distinguished Professor, Biology. Executive Director, National Center for Biodefense and Infectious Diseases. BS 1965, MS 1966, PhD 1968, Oklahoma State University.

Baily, Supriya, Associate Professor, Education, Graduate School of Education. BA 1995, University of Nevada, Reno; MA 1997, George Washington University; PhD 2008, George Mason University.

Baker, Courtney K., Assistant Professor, Mathematics Leadership, Graduate School of Education in the College of Education and Human Development. BS 1997, Virginia Polytechnic Institute and State University; MEd 2008, PhD 2014, George Mason University.

Baker, Pamela, Associate Professor, Education, Graduate School of Education. BS 1984, MEd 1987, College of William and Mary; EdD 2002, Bowling Green State University.

Baker, Sarah, Term Assistant Professor of English. BA 1988, Wesleyan University; MA 2007, George Mason University.

Balakerskaia, Anna, Term Professor of Music. MM 1969, DMA 1974, St. Petersburg State Conservatory, Russia.

Baldimtsi, Foteini, Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2008, MS 2011, PhD 2014, Brown University.

Baldwin, Caryl L., Associate Professor, Psychology. BA 1987, University of Nebraska, Lincoln; MA 1994, PhD 1997 University of South Dakota.

Ball, Kenneth, Dean, Volgenau School of Engineering. BS 1982, Lehigh University; MSME 1984, PhD 1987, Drexel University; PE 1992 Texas.

Bannan-Ritland, Brenda, Associate Professor, Education, Graduate School of Education. BS 1986, Millersville University; MS 1991, Bloomsburg University; PhD 1995, Pennsylvania State University.

Banville, Dominique, Associate Professor, Physical Education, School of Recreation, Health and Tourism. BPE 1990, MS 1994, PhD 1998, Laval University, Canada.

Bar, Brian D., Assistant Director of Career Development, Schar School of Policy and Government. BS 2009, University of Wisconsin, Green Bay; MS 2012, University of Wisconsin, Madison.

Baranova, Anna, Professor, Systems Biology. Director, Chronic Metabolic and Rare Diseases Systems Biology Initiative. MS 1995, PhD 1998, Moscow State University; DSc 2004, Vavilov Institute of General Genetics, Russian Academy of Sciences.

Barbará, Daniel, Professor, Computer Science, Volgenau School of Engineering. BS 1975, Universidad Metropolitana, Caracas, Venezuela; MSE 1981, PhD 1985, Princeton University.

Barese, Eric, Associate Director of Grants & Corporate Relations, School of Business. BA 1997, College of the Holy Cross.

Barnes, Steven, Associate Professor, History. Director of the Eurasian Studies Program. BA 1993, Harvard University; MA 1997, PhD 2003, Stanford University.

Barreto, Ernest, Professor, Physics and Astronomy and The Krasnow Institute for Advanced Study. BS 1990, University of Chicago; MS 1995, PhD 1996, University of Maryland.

Barthold, Christine H., Assistant Professor, Graduate School of Education in the College of Education and Human Development. BA 1995, Moravian College; MEd 1999, Temple University; PhD 2007, University of Maryland.

Barton, Jr., Oscar, Professor and Chair, Mechanical Engineering, Volgenau School of Engineering. BS 1984, Tuskegee University; MS 1987, PhD 1993, Howard University.

Batarseh, Feras A., Assistant Professor, Geography and Geoinformation Science. BS 2006, Princess Sumaya University for Technology, Amman, Jordan; MS 2008, PhD 2011, University of Central Florida.

Bauman, Lisa Passaglia, Term Associate Professor of Art History. BA 1980, Saint Louis University; PhD 1990, Northwestern University.

Baylor, David M., Operations Director, Hylton Performing Arts Center. BA 1989, George Mason University.

Beard, Nicole M., Assistant Professor in the Graduate School of Education in the College of Education and Human Development. BA 1995, Georgetown University; MA 1996, EdS 1998, James Madison University; PhD 2006, University of Virginia.
Bean, Mandy, Assistant Professor, College of Education and Human Development. BA, MAT 1996, University of Virginia; PhD 2015, University of North Carolina at Chapel Hill.

Becker, Peter A., Professor, Physics and Astronomy. BA 1982, Rutgers University; MS 1985, PhD 1987, University of Colorado, Boulder.

Beckman, Elizabeth E., Archives and Manuscripts Librarian, University Libraries. BA 2010, Kenyon College; MLS 2012, University of Pittsburgh.

Beheshti, Ali, Assistant Professor, Computer Science, Volgenau School of Engineering. BSc 2004, MSc 2007, Isfahan University of Technology, Esfahan, Iran; PhD 2013 Louisiana State University.

Bell, Jonathan, Assistant Professor, Computer Science, Volgenau School of Engineering. BS 2010, MS 2011, MPhil 2014, PhD 2016, Columbia University.

Bell, Kathleen K., Grants, Planning and Assessment Analytics Officer, University Libraries. BA 2008, Virginia Intermont College; MA 2010, MLS 2011, Texas Woman's University.

Belles, Gabriele B., Assistant Professor, Physics and Astronomy. MS 1982, Karl Franzens University, Graz, Austria; Ph.D. 1986, Radboud University, Nijmegen, Netherlands; MSS 1995, International Space University, Strasbourg, France.

Bellos, Ioannis, Assistant Professor of Information Systems and Operations Management. MS 2006, Aristotle University of Thessaloniki; PhD 2012, Georgia Institute of Technology.

Bemak, Frederick, Professor, Education, Graduate School of Education. BA 1970, Boston University; MEd 1971, EdD 1975, University of Massachusetts.

Bennett, James T., William P. Snively Professor of Political Economy and Public Policy. BS 1964, MS 1966, PhD 1970, Case Western Reserve University.

Berg, Scott, Term Associate Professor, English. BA 1992, University of Minnesota; MA 1995, Miami University; MFA 1997, George Mason University.

Berlin, F. Brett, Instructor, Data Analytics Engineering, Volgenau School of Engineering. BS 1972, USAF Academy; MA 1979, University of Texas.

Berry, Alok K., Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1967, MS 1969, University of Delhi; MS 1981, PhD 1985, University of Missouri.

Berry, Ivory M., Director of Student Success, College of Education and Human Development. BS 2007, Southern University and A & M College; MA 2008, PhD 2014, University of Illinois.

Best, Amy L., Chair and Professor, Sociology. BA 1992, Ithaca College; MA 1995, PhD 1998, Syracuse University.

Biggs, Regina, Assistant Professor, Education, Graduate School of Education. BS, Eastern Michigan University; MA, Roosevelt University; PhD, Loyola University.

Bighamian, Ramin, BS 2008, MS 2011, Isfahan University of Technology; PhD 2017, University of Maryland.

Billingham, Lisa A., Professor of Music and Director of Graduate Music. BMed 1986, Indiana University; MM 1994, University of Missouri, Kansas City Conservatory; DMA 2001, University of Arizona.

Binning, Dave, Instructor and Director of Assessment and Accreditation, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 1962, MS 1973, University of Delaware.

Birchard, Geoffrey French, Associate Professor, Biology. BA 1975, Colorado College; MA 2019, University of Montana; PhD 1985, Dartmouth Medical School.

Bishop, Barney, Associate Professor, Chemistry and Biochemistry. BS 1991, College of William and Mary; PhD 1997, University of North Carolina, Chapel Hill.

Blair, Virginia, Term Assistant Professor of Health Administration and Policy. Diploma in Nursing 1967, St Agnes School of Nursing; BS 1982, Pacific Western University; MS 1997, National College of Education; DHA 2008, University of Phoenix.

Blaisten-Barojas, Estela, Professor, Computational and Data Sciences. BS 1964, National University of Tucuman, Argentina; MS 1970, PhD 1974, Sorbonne University (former Universite de Paris VI), France.

Blank-Godlove, Juliet M., Dean of Students, University Life. BS 1993, MA 1998, West Virginia University.

Blue, Kimberly, Graduate Career Manager, School of Business. BA 1988, MA 1991, West Virginia University.

Bockman, Johanna K., Associate Professor, Sociology and Anthropology, Global Affairs Program. BA 1991, University of California, Los Angeles; MA 1995, PhD 2000, University of California, San Diego.

Boettke, Peter J., University Professor of Economics. BA 1983, Grove City College; PhD 1989, George Mason University.

Boicu, Mihai, Associate Professor, Information Science and Technology, Volgenau School of Engineering. Associate Director of Learning Agents Center. PhD 2002, George Mason University.

Bondok, Doaa, Assistant Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2008, MS 2012, PhD 2017, University of Missouri-Columbia.
Bonilla, Carrie, Term Assistant Professor of Spanish. BS 2004, Indiana University, Bloomington; MA 2006, New York University, Madrid; PhD 2012, University of Pittsburgh.

Bono, John, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 2001, The Catholic University of America; MS 2004, University of Maryland University College; PhD 2012, Nova Southeastern University.

Borup, Jered, Assistant Professor, Learning Technologies in Schools, Graduate School of Education in the College of Education and Human Development. BS 2003, Brigham Young University; MEd 2006, Idaho State University.

Botan, Carl, Professor, Communication. BA 1972, Western Michigan University; MA 1982, PhD 1985, Wayne State University.

Boudinot, Patricia, Assistant Professor, Geography and Geoinformation Science. BS 1976, MS 1978, University of Nice.

Boudreaux, Donald J., Professor, Economics. BA 1980, Nicholls State University; MA 1982, New York University; PhD 1986, Auburn University; JD 1992, University of Virginia.

Bousel, Paul, Associate Director, Academic Advising Center. BA 1975, Hofstra University; MA 1977, George Washington University.

Bowdoin, Jessica, Head, Access Services, University Libraries. BA 1996, College of William and Mary; MLIS 1999, University of Illinois, Urbana-Champaign.

Boybeyi, Zafer, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1984, Istanbul Technical University; MS 1990, San Jose State University; PhD 1993, North Carolina State University.

Brandhorst, Kurt, Philosophy Instruction. BA 1989, The University of South Carolina; MA 1992, Washington University in St Louis; PhD 2006, University of Dundee.

Bray, Laurence C., Assistant Professor and Associate Chair, Bioengineering, Volgenau School of Engineering. BS 2004, MS 2005, Clemson University; PhD 2010, University of Nevada.

Brayley, Russell, Professor, Tourism and Events Management, School of Recreation, Health and Tourism. BS 1977, MA 1986, Brigham Young University; PhD 1990, Texas A&M University.

Breglia, Lisa, Director of Global Affairs Program and Associate Professor of Global Affairs. BA 1994, MA 1996, University of Florida; PhD 2003, Rice University.

Brewster, Robin, Term Assistant Professor of Nursing. BS 1982, University of Illinois, Urbana-Champaign; BSN 2005, DNP 2014, George Mason University.

Brielmaier Sontag, Jennifer, Term Assistant Professor of Psychology. BS 2004, Virginia Polytechnic Institute and State University; MA 2007, PhD 2010, George Mason University.

Brigham, Frederick, Professor, Education, Graduate School of Education. BS 1977, MEd 1983, Bowling Green State University; PhD 1992, Purdue University.

Bristol, Joan C., Associate Professor, History. BA 1990, Bryn Mawr College; MA 1994, San Francisco State University; PhD 2001, University of Pennsylvania.

Britt, Thomas, Associate Professor, Film and Video Studies. BA 2002, Emory & Henry College; MFA 2005, Ohio University.

Brie, Courtney A., Associate Professor, English. BA 1994, College of William and Mary; MFA 2001, New York University.

Broekelman-Post, Melissa, Associate Professor and Basic Course Director, Communication. BA 2004, MA 2005, Kansas State University; PhD 2009, Ohio University.

Broshears, Robert, Instructor of Accounting. BA 1978, Indiana University; MA 1984, University of Arizona.

Brouse, Peggy S., Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1978, American University; MBA 1986, Marymount University; PhD 1992, George Mason University.

Brown, Elizabeth Levine, Associate Professor, Education, Graduate School of Education. BA 2001, Colgate University; MAT 2004, American University; MA 2007, Washington College; PhD 2011, University of Pittsburgh.

Brown, Stephen, Term Assistant Professor, Health Administration and Policy. BS 1974, University of Virginia; MS 1983, University of South Carolina.

Brown-Rolle, Tomeka, Clinical Placement Coordinator and Term Instructor, School of Nursing. BS 2009, University of Central Florida; MSN 2016, George Mason University.

Broz, William, Professor of Education, Graduate School of Education. BA 1977, University of North Carolina; MEd 1979, PhD 1982, University of South Carolina.

Bruno, Irene, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1994, University of Pittsburgh; MEd 1991, Pennsylvania State University; PhD 2003, Capella University.

Bryan, Alec, Associate Director of Development, College of Humanities and Social Sciences. BS, BA 2004, University of Florida; MA 2009, University of North Florida.

Buchy, Jaclyn, Senior Assistant Dean, Graduate Enrollment, School of Business. BBA 2004, James Madison University; MPS 2010, Georgetown University.

Buehl, Michelle, Professor, Education, Graduate School of Education. BA 1997, Hollins College; MA 2002, PhD 2003, University of Maryland.

Burek, Jacqueline, Assistant Professor, English. BA 2010, Cornell University; MA 2014, PhD 2017, University of Pennsylvania.

Burge, David, Vice President for Enrollment Management. BGS, MS, University of Kansas.
Burroughs, James N., Term Associate Professor and Director of the Masters of Public Administration Program, Schar School of Policy and Government. BS 1977, James Madison University; JD 1981, College of William and Mary; MPA 1994, George Mason University.

Burroughs, James N., Term Associate Professor and Director of the Masters of Public Administration Program, Schar School of Policy and Government. BS 1977, James Madison University; JD 1981, College of William and Mary; MPA 1994, George Mason University.

Burs, Natalie J., Assistant Professor, Atmospheric, Oceanic and Earth Sciences. BS 2003, BS Honours 2004, MS 2006, PhD 2010, University of Cape Town.

Burmeister, Steven G., Assistant Professor, Forensic Science. BS 1982, Susquehanna University; MS 1984, University of Pittsburgh.

Burns, Carla, Term Assistant Professor of Spanish. BA 2003, MA 2005, George Mason University.

Burt, Ahsan I., Assistant Director, Virginia Serious Game Institute. BS 2009, Virginia Polytechnic Institute and State University; MS 2011, Texas A&M; PhD 2016, University of Texas, Austin.

Butt, Ahsan I., Associate Professor, Schar School of Policy and Government. BA 2006, MA 2008, PhD 2012, University of Chicago.

Button, Kenneth J., University Professor of Public Policy, Schar School of Policy and Government. BA 1970, University of East Anglia, United Kingdom; MA 1971, University of Leeds, United Kingdom; PhD 1981, Loughborough University, United Kingdom.

C

Cabrera, Ángel, University President. BS 1990, MS 1990, Universidad Politécnica de Madrid, Spain; MS 1993, PhD 1995, Georgia Institute of Technology.

Cai, Xiaomei, Associate Professor, Communication. BA 1993, Jilin University; MA, Peking University; MA 1998, PhD 2001, Indiana University.

Calcagno, Theresa, IT and Engineering Librarian, University Libraries. BA 1979, Case Western Reserve University; MS 1982, Rutgers University; MLIS 1999, University of Maryland.

Calhoun, Chris, Adjunct Instructor. BS 2009, Virginia Polytechnic Institute and State University; MS 2011, Texas A&M; PhD 2016, University of Virginia.
Caswell, Shane, Professor, Athletic Training, School of Recreation, Health, and Tourism. BS 1999, State University of New York, Brockport; MS 2000, PhD 2003, Ohio University.

Cattaneo, Lauren, Associate Professor, Psychology. BA 1992, University of Michigan, Ann Arbor; MA 1997, PhD 2001, University of Maryland, College Park.

Cebral, Juan R., Professor, Bioengineering, Volgenau School of Engineering. BS 1991, University of Buenos Aires; PhD 1996, George Mason University.

Cengiz, Mahmut, Research Assistant Professor, Schar School of Policy and Government. BA 1996, Turkish National Police Academy (University); MA 2004, Kirikkal University, Turkey; MIS 2007, American University; PhD 2009, Ankara University, Turkey; PhD 2010, George Mason University.

Chakravarty, Urvashi, Assistant Professor, English. BA 2003, Columbia University; PhD 2010, University of Pennsylvania.

Chalip, Laurence, Professor in the School of Recreation, Health and Tourism in the College of Education and Human Development. AB 1972, University of California, Berkeley; MSocSc 1979, University of Waikato, New Zealand; AM 1983, PhD 1988, University of Chicago.

Champagne, Marie, Coordinator of Student Services, Division of Advanced Professional Teacher Development & International Education in the College of Education and Human Development. BA 1994, Smith College; MA 2000, American University.

Chandhoke, Vikas, Professor, School of Systems Biology. BPharm 1986, MDsc 1986, Birla Institute of Technology and Science; PhD 1991, University of Maine.

Chang, Kathleen, Clinical Instructor, School of Nursing. BSN 1979, Long Island University; MSN Teacher’s College.

Chang, Michael G., Associate Professor, History. AB 1992, Princeton University; PhD 2001, University of California, San Diego.

Chang, Shanti, Term Assistant Professor, School of Nursing. BSN 2010, James Madison University; DNP 2016, George Mason University.

Chaplin, Tara, Associate Professor, Psychology. BA 1997, MS 1999, University of Delaware; PhD 2003, Pennsylvania State University.

Chapman, Jeanette, Senior Research Associate and Deputy Director of the Stephens S. Fuller Institute, Schar School of Policy and Government. BA 2006, University of Virginia; MPP 2015, George Mason University.

Charles, Hans, Assistant Professor, Film and Video Studies. BA 2000, Spring Arbor University; MFA 2011, Howard University.

Chavis, J. Charles, Assistant Professor of Conflict Resolution and History, School for Conflict Analysis and Resolution. BA 2012, UNC-Greensboro; MTS 2014, Vanderbilt University; PhD 2018, Morgan State University.

Cheema, Jehanzeb, Assistant Professor of Information Systems and Operations Management. BA 1999, University of the Punjab; BS,BA 2002, Slippery Rock University of Pennsylvania; MA 2003, PhD 2006, University of Wisconsin-Milwaukee; PhD 2012, George Mason University.

Chen, Cher Weixia, Associate Professor, School of Integrative Studies. LLB 2000, Beijing University, China; LLM 2001, National University of Singapore; MA 2003, PhD 2008, University of Southern California.

Chen, Chun Hung, Professor, Systems Engineering and Operations Research. BS 1987, National Chiao-Tung University; MS 1989, National Taiwan University; PhD 1994, Harvard University.

Chen, Jim, Professor, Computer Science, Volgenau School of Engineering. BS 1983, MS 1986, Southwest Jiao Tong University; PhD 1995, University of Central Florida.

Chen, Long, Associate Professor of Accounting. BS 2000, Beijing Technology and Business University; MS 2005, PhD 2008, Washington University, St. Louis.

Chen, Min, Assistant Professor of Information Systems and Operations Management. BS 2003, MS 2005 International University in Germany; PhD 2011, University of Texas at Dallas.

Chen, Songqing, Professor, Computer Science, Volgenau School of Engineering. BS 1997, MS 1999, Huazhong University; PhD 2004, College of William and Mary.

Chen, Xi, Term Instructor, Chinese. BA 1999, East China Normal University, Shanghai; MED 2002, George Mason University.

Chen, Xiang, Assistant Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BA 2010, Northeastern University; MS 2012, University of Pittsburgh.

Chen, Ya-Han (Chris), Director of Finance, College of Education and Human Development. BBA 2000, MA 2002, National Taiwan University; MA 2004, Ohio State University; MBA 2012, George Mason University.

Cheng, Constant, Assistant Professor of Marketing. BS 1982, Brigham Young University, Hawaii; MBA 1983, Arizona State University; DES 1994, The Graduate Institute; DBA 2014, Swiss Management.

Cheng, Yue, Assistant Professor, Computer Science, Volgenau School of Engineering. B.Eng. 2009, Beijing University of Posts and Telecommunications; PhD 2017, Virginia Polytechnic Institute and State University.

Cherubin, Rose M., Associate Professor, Philosophy. BFA 1984, School of Visual Arts, New York City; PhD 1996, Graduate School, City University of New York.

Cheskin, Lawrence J., Professor and Chair, Department of Nutrition and Food Studies; Interim Chair of Global and Community Health. BA 1977, City University of New York; MD 1980, Dartmouth Medical School.

Chesler, Giovanna, Director and Associate Professor, Film and Video Studies. BA 1996, University of Virginia; MFA 2002, San Francisco State University.

Chitnis, Parag V., Faculty Fellow, Graduation Education, Office of the Provost and Assistant Professor, Bioengineering, Volgenau School of Engineering. BS 2000, West Virginia Wesleyan College; MS 2002, PhD 2007, Boston University.
Chiu, Long, Associate Professor, Atmospheric, Oceanic and Earth Science. BS 1974, University of Miami; ScD 1980, Massachusetts Institute of Technology.

Christophe, Stephen, Professor of Finance. BA 1980, Colby College; MBA 1982, College of William and Mary; PhD 1992, University of North Carolina.

Chrosniak, Linda D., Term Associate Professor, Psychology. BA 1981, University of Texas, Dallas; PhD 1991, George Washington University.

Chung, Rita Chi-Ying, Professor, Education, Graduate School of Education. BA 1981, MA 1983, PhD 1989, Victoria University of Wellington, New Zealand.

Chung, Yoonsun, Associate Professor, Assistive and Special Education Technology, Helen A. Kellar Institute for Human disAbilities, College of Education and Human Development. BS 1994, George Mason University; MEng 1996, Cornell University; PhD 2004, George Mason University.

Cioffi-Revilla, Claudio, University Professor, Computational and Data Sciences. BS 1969, Instituto Patria, Mexico City; PhD 1975, University of Florence, Italy; PhD 1979, State University of New York.

Clare, Kathleen M., Assistant Dean of Undergraduate Academic Affairs, College of Humanities and Social Sciences. BA 2001, MFA 2005, George Mason University.

Clarke, Chris, Associate Professor, Communication. BS 2005, Rutgers University; MS 2007, PhD 2012, Cornell University.

Clark, Jessica, Development and Communications Officer, University Libraries. BA 2003, University of California-Davis; MA 2016, George Mason University.

Clark, Keith S., Professor, English. BA 1985, College of William and Mary; MA 1987, University of Kentucky; PhD 1993, University of North Carolina, Chapel Hill.

Clark, Kevin, Professor, Education, Graduate School of Education. BS 1989, MS 1991, North Carolina State University; PhD 1994, Pennsylvania State University.

Clark-Talley, Christine, Associate Vice President of Alumni Affairs and Annual Giving. BS 1984, James Madison University; MEd 1986, University of South Carolina.

Cleaveland, Carol, Associate Professor, Social Work. BA 1980, American University; MSS 1994, PhD 2002, Bryn Mawr.

Clover, Terry L., Northern Virginia Chair in Local Government; Professor of Public Policy, Director, Center for Regional Analysis, Schar School of Policy and Government. BS 1982, Texas A&M University; MS 1992, PhD 1997, University of North Texas.

Cobb, Sara, Drucie French Cumbie Professor, School for Conflict Analysis and Resolution. BA 1973, Albertus Magnus College; MEd 1980, University of Puget Sound; PhD 1988, University of Massachusetts, Amherst.

Coester, William H., Director, Human Resources and Planning, Schar School of Policy and Government. BBA 1975, Gonzaga University; MS 1988, University of La Verne.

Cohen, Janice, Associate Director, Post Award Services, College of Humanities and Social Sciences. BS 1998, Embry-Riddle Aeronautical University; MEd 2007, Georgia Southern University.

Collier, Daniel L., Director of Information Technology, College of Humanities and Social Sciences. BA 1990, University of Tennessee; MFA 1994, George Mason University.

Collins, Samuel W., Associate Professor, History. BA 1991, Whitman College; MA 1996, University of Durham, United Kingdom; PhD 2005, University of California, Berkeley.

Colonna, Flavia, Professor, Mathematical Sciences. BS 1976, University of Bari, Italy; MA 1980, PhD 1985, University of Maryland, College Park.

Conant, James K., Professor, Schar School of Policy and Government. BA 1971, MA 1974, PhD 1983, University of Wisconsin, Madison.

Conaway, Jenelle, Assistant Professor of Accounting. BS 2008, University of South Carolina; MBA 2011, Loyola University Maryland; PhD 2017, Boston University.

Coniglio, Jamie, Engagement and Organizational Development Officer, University Libraries. BA 1974, Saint Mary College; MLS 1976, Indiana University.

Conlan, Timothy J., University Professor of Public and International Affairs, Schar School of Policy and Government. AB 1974, University of Chicago; PhD 1982, Harvard University.

Coole, Christian, Assistant Professor, College of Education and Human Development. BS 2005, MS 2006, PhD 2012, Florida State University.

Cooley, Mark, Associate Professor, School of Art. BFA 1995, University of Southern Maine; MFA 1998, East Carolina University.

Copelman, Dina, Associate Professor, History. AB 1975, Barnard College; MA 1977, University of Warwick, England; MA 1980, PhD 1985, Princeton University.

Cornejo, Katherine, Title IV-E Child Welfare Stipend Program Coordinator, Department of Social Work. BS 2006, St. John’s University; MSW 2010, Fordham University.

Cortes, Nelson, Associate Professor, Exercise Science, School of Recreation, Health, and Tourism. BS 2001, Universidade Lusofona de Humanidades e Technologias, Portugal; MS 2005, PhD 2010, Old Dominion University.

Costa, Paulo C. G., Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1986, Brazilian Air Force Academy; MS 1999, PhD 2005 George Mason University.

Couch, Robin D., Associate Professor, Chemistry and Biochemistry. BS 1994, PhD 2000, University of Calgary.
Cowan, Friedgard, Cataloging and Metadata Librarian, University Libraries. BA 1975, MA 1979, University of Calgary; MLS 1994, Catholic University of America.

Cowen, Tyler, Holbert L. Harris Chair in Economics and Professor of Economics. BS 1983, George Mason University; PhD 1987, Harvard University.

Cox, H. Douglas, Project Director, Aspiring Special Education Leaders Academy, College of Education and Human Development. BA 1969, Guilford College; MEd 1973, University of Virginia.

Coyne, Christopher, Associate Professor, Economics. BS, Manhattan College; MA 2003, PhD 2005, George Mason University.

Craig, Richard T., Associate Professor of Communication. BA 1999, Olivet College; MA 2002, Michigan State University; PhD 2011, Howard University.

Crawford, Paula, Associate Professor, School of Art. BFA 1983, MFA 1988, San Francisco Art Institute.

Crawley, Alvin L. Associate Professor, Graduate School of Education in the College of Education and Human Development. BS 1980, Hampton University; MS 1986, Northeastern University; EdD 1990, University of Massachusetts at Amherst.

Cressman, John R., Associate Professor, Physics and Astronomy. BS 1995, Union College; PhD 2003, University of Pittsburgh.

Crew, Spencer, Clarence J. Robinson Professor of History. BA 1971, Brown University; MA 1973, PhD 1979, Rutgers University.

Croitoru, Arie, Associate Professor; Geography and Geoinformation Systems. BS 1997, MS 2002, PhD, Technion-Israel Institute of Technology.

Cronin, Matthew, Associate Professor of Management. BA 1993, Rutgers University; MA 1997, Columbia University; MS 2000, PhD 2004, Carnegie Mellon University.

Crooks, Andrew, Associate Professor, Computational and Data Sciences. BS 2000, MS 2002, University of Edinburgh; PhD 2007, University of London.

Cuffee, Valerie, Term Instructor of Social Work. MA 1976, Hampton University; MSW 1984, Norfolk University.

Cui, Shanshan, Associate Professor, School of Art. BFA 1985, MFA 1988, Sichuan Institute of Fine Arts, China; MFA 1998, Iowa State University.

Curby, Timothy, Director, Applied Developmental Psychology Program and Associate Professor, Psychology. BS 1997, MA 2003, University of Michigan; PhD 2008, University of Virginia.

Curtis, Elizabeth, Manager, Potomac Academy. BA 1981, Blackburn College.

Dabbagh, Nada, Professor of Education, Graduate School of Education. BA 1977, Iona College; MS 1978, Columbia University; PhD 1996, Pennsylvania State University.

Daigle, Delton T., Term Associate Professor; Schar School of Policy and Government. BA 1996, Brock University; MA 2002, McGill University; MA 2005, Ph.D. 2010, The Ohio State University.

Dakake, Maria, Chair and Associate Professor, Religious Studies. BA 1990, Cornell University; MA 1998, Ph.D. 2000, Princeton University.

Dalal, Reeshad S., Associate Professor of Psychology. BA 1998, Hanover College; MA 2001, PhD 2003, University of Illinois, Urbana-Champaign.

Dalfrey, Karen, Director, the Governor's School @ Innovation Park. BS 1992, MEd 2003, PhD 2009, George Mason University.

Dale, John G., Associate Professor, Sociology and Anthropology. BA 1987, Wheaton College; MA 1991, New School for Social Research; PhD 2003, University of California, Davis.

D’Amboise, Christopher, Associate Heritage Professor of Dance. MFA 2013, George Mason University.

D’Amico, Diana, Assistant Professor of Education, Graduate School of Education. BA 2001, Franklin and Marshall College; MA 2004, Teachers College, Columbia University; PhD 2010, New York University.

D’Angelo, Jessica, Production Manager, College of Visual and Performing Arts. BFA 2001, University of North Carolina; MA 2007, George Mason University.

D’Antonio, Laura, Assistant Professor of Business Foundations. BA 1986, Yale University; MBA 1991, New York University; DM 2017, University of Maryland.

Daniels, Margaret, Professor of Tourism and Event Management, School of Recreation, Health, and Tourism. BA 1991, Miami University of Ohio; MA 1993, University of Georgia; PhD 2002, Clemson University.

Dantzler, LaMan, Associate University Registrar for Certification. BS 2005, JD 2008, University of Oregon.

Darnell, Heather, Librarian for Multimedia Literacy, Film & A/V Studies, and Dance, University Libraries. BA 2011, Texas Tech University; MSLS 2014, University of Maryland, College Park.

Das, Sidhartha R., Professor of Information Systems and Operations Management. BS 1979, India; MS 1980, University of Mississippi; MBA 1985, Ph.D. 1987, University of Houston.

Davidson, Tracy, Term Instructor, School of Nursing. BSN 1998, George Mason University; MPH 2002, The George Washington University.

Davis, Caroline R., Director of Marketing, Schar School of Policy and Government. BA 2010, University of Virginia; MPS 2017, Georgetown University.
Davis, Doris Bitler, Associate Professor; Psychology. BA 1982, Dickinson College; MA 1984, Hollins University; PhD 1991, American University.

Davis, Jeff, Director of Clinical Practice and Coordinator, VCET, College of Education and Human Development. BS 1992, James Madison University; MEd 1998, Wilmington University.

Davis, Linda, Professor and Associate Chair, Statistics, Volgenau School of Engineering. BS 1979, George Mason University; MS 1981, PhD 1983, Rutgers University.

Davis, Matthew, Term Assistant Professor of English and Director of the Chese International Writers Center. BA 1999, University of Missouri; MA 2007, University of North Carolina, Asheville; MS 2000, PhD 2004, North Carolina State University.

Deans, Penny, Associate Professor of Information Systems and Operations Management. BS 1975, University of North Carolina – Chapel Hill; MEd 1979, North Carolina State University; MBA 1984, East Carolina University; MLS 1998, University of Arizona; PhD 1989, University of South Carolina.

Debuque, Rachel, Assistant Professor; School of Art. BFA 2007, University of Pennsylvania; MFA 2013, University of Georgia.

DeCaroli, Robert D., Professor, Art History. BA 1992, Loyola Marymount University; MA 1995, PhD 1999, University of California, Los Angeles.

Decker, Warren Dale, Professor of Communication. BA 1968, Kansas State Teachers College of Emporia; MA 1969, Southwest Missouri State College; PhD 1977, Temple University.

DeGregorio, Anthony, Instructor of Physical Education, School of Recreation, Health, and Tourism. BA 1975, Niagara University; BS 1984, MS 1989 George Mason University.

dela Pena, Gary Lee Antonio C., Assistant Professor; Mathematical Sciences. BS 1985, Ateneo de Manila University; MS 1990, University of South Carolina; PhD 1998, University of Texas at Arlington.

Deitz, Robert L., Professor, Schar School of Policy and Government. BA 1968, Middlebury College; MPA 1972, Princeton University; JD 1975, Harvard University.

De Janasz, Suzanne, Term Visiting Professor of Management and Conflict Analysis and Resolution. BM 1988, University of Miami; MBA 1989, PhD 1998, University of Southern California.

de Jong, Elisabeth (Lilian), Term Assistant Professor, Department of Nutrition and Food Studies. MS 1990 Wageningen Agricultural University, The Netherlands; PhD 1996 University of Montreal.

Delany, Peter, Associate Professor of Social Work. BA 1982, University of Maryland, College Park; MSW 1984, PhD 1993, Catholic University of America.

Del Popolo, Mary, Term Assistant Professor, School of Art. BA 1980, Marymount University; MFA 1988, Virginia Commonwealth University.

DelSole, Timothy, Professor, Atmospheric, Oceanic and Earth Sciences. BS 1988, MS 1989, PhD 1993, Harvard University.

DeLuycr, Anneke, Assistant Professor; Smithsonian-Mason School of Conservation. BS 1994, University of Wisconsin, Madison; MA 2000, State University of New York, Stony Brook; MA 2002, PhD 2007, Washington University, St. Louis.

Demory, M. Yvonne, Assistant Professor of Business Legal Studies. BA 1987, University of Virginia; JD 1990, Columbus School of Law, Catholic University of America; LLM 1994, Georgetown University Law Center.

DeMulder, Elizabeth, Professor of Education, Graduate School of Education. BS 1984, Wright State University; PhD 1989, St. John's College, Cambridge University.

de Mutsert, Kim, Assistant Professor; Environmental Science and Policy. MS 2003, University of Amstermd, the Netherlands; PhD 2010, Louisiana State University.

Denevi, Timothy, Assistant Professor; English. BA 2002, Northwestern University; MA 2007, University of Hawaii; PhD 2010, University of Iowa.

Deng, Ping, Term Assistant Professor of Computer Science. BS 2001, Sichuan University; MS 2003, PhD 2007, University of Texas at Dallas.

Dennis, Rutledge M., Professor of Sociology. BA 1966, South Carolina State College; MA 1969, PhD 1975, Washington State University.

Di, Liping, Professor; Geography and Geoinformation Science. BS 1982, Zhejiang University; MS 1985, Chinese Academy of Sciences; PhD 1991, University of Nebraska, Lincoln.

Diao, Guoqing, Associate Professor; Statistics, Volgenau School of Engineering. BE 1998, BS 2001, University of Science and Technology of China, PhD 2005, University of North Carolina, Chapel Hill.

Dight, Kimberly, Director, Finance and Human Resources, College of Humanities and Social Sciences. BA 1990, The Ohio State University; MBA 1993, University of Connecticut.

Dimitriadis, Socrates, Term Assistant Professor of Computer Science. BS 1999, University of Ioannina; MS 2002, PhD 2010, Brown University.

Dinan, Desmond, Jean Monnet Professor, Schar School of Policy and Government. BA 1978, National Institute for Higher Education; MA 1981, Georgetown University; PhD 1985, National University of Ireland.

Dirmeyer, Paul A., Professor; Atmospheric, Oceanic and Earth Sciences. BS 1986, Texas A&M University; MS 1988, PhD 1992, University of Maryland.

DiTeresi, Christopher, Assistant Professor; Philosophy. BA 1999, MA 2007, M.Sc. 2007, PhD 2010, University of Chicago.

DiZinno, Joseph, Assistant Professor of Forensics Science. BS 1975, University of Notre Dame; DDS 1980, The Ohio State University.
Djordjevic, Branislav R., Associate Professor, Physics and Astronomy. BSc 1983, MSci 1989, University of Belgrade, Serbia; PhD 1996, Michigan State University.

Dobson, Catherine, Assistant Professor, Criminology, Law and Society. BA 1987, Rice University; MA 1989, PhD 2004, University of Georgia.

Dodman, Stephanie, Assistant Professor of Education, Graduate School of Education. BAE 2001, University of Florida; MEd 2002, University of Florida; PhD 2011, University of Florida.

Doetsch-Kidder, Sharon, Term Assistant Professor, English. BA 1997, MA 1999, Georgetown University; PhD 2009, University of California at Santa Barbara.

Dolgas, Charles, Associate Director, Government Contracting, School of Business. BA 1977, Saint Vincent College.

Domeniconi, Carlotta, Associate Professor, Computer Science, Volgenau School of Engineering. BASc 1992, University of Milano; MSSc 1997, International Institute for Advanced Scientific Studies, Salerno, Italy; PhD 2002, University of California, Riverside.

Dong, Beidi, Assistant Professor, Criminology, Law and Society. PhD 2015, MA 2012, University of Florida, BA 2008 University of Hong Kong.

Dong, Pei, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2008, Nankai University; PhD 2013, Rice University.

Donini, Patricia, Employee Relations Director/Deputy Director HR/Payroll. BA 1974, College of New Rochelle.

Dorpenyo, Isidore, Assistant Professor, English. BA 2008, Kwame Nkrumah University of Science and Technology; MS 2013, PhD 2017, Michigan Technological University.

Douglas, Charlene, Associate Professor of Nursing. BA 1975, BSN 1978, Case Western Reserve University; MPH 1981, PhD 1992, Johns Hopkins Bloomberg School of Public Health.

Douthett, Edward B., Associate Professor of Accounting. BA 1979, Pennsylvania State University; MBA 1991, PhD 1995, University of Georgia.

Drahee, Cheryl T., Associate Dean, Faculty, School of Business and Associate Professor of Information Systems and Operations Management. BS 1990, University of California, Los Angeles; MBA 1995, University of Pittsburgh; MAB 2000, PhD 2003, Stanford University.

Drumley, David G., Associate University Counsel. BS 1996, JD 1999, George Mason University.

Dudnik, Natalia, Term Assistant Professor of German. BA 2003, Moscow State Linguistic University; MA 2005, University of Northern Iowa; PhD 2010, University of Illinois at Chicago.

Dueck, Colin, Professor, Schar School of Policy and Government. BA 1990, MA 1993, University of Saskatchewan; MPhil 1995, Oxford University; PhD 2001, Princeton University.

Dumas, Theodore, Associate Professor of Molecular Neuroscience. BS 1991, University of Connecticut; MS 1996, PhD 1997, University of Virginia.

Dunick, Jason, Term Associate Professor of Economics. BA 2001 Kent State University; MS 2005, PhD 2010 University of Illinois at Urbana-Champaign.

Dunne, Kelly B., Executive Director and Term Assistant Professor, School of Integrative Studies. BA 1991, College of William and Mary; MA 1997, George Mason University.

Durant, Liza W., Associate Dean for Strategic Initiatives and Community Engagement and Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 1987, Cornell University; MS 1991, Stanford University; PhD 1996, The Johns Hopkins University.

Duric, Zoran, Associate Professor, Computer Science. BS 1982, MS 1986, University of Sarajevo, Bosnia and Herzegovina; PhD 1995, University of Maryland.

 Dutta, Amitava, LeRoy Eakin Endowed Chair, Area Chair and Professor of Information Sciences and Operation Management. BS 1976, Indian Institute of Technology; MS 1978, University of California, Santa Barbara; PhD 1981, Purdue University.

Duxbury, Thomas, Research Professor, Physics and Astronomy. BS 1965, MS 1966, Purdue University.

E

Earle, John S., Professor of Public Policy, Schar School of Policy and Government. BA 1980, BMus 1980, Oberlin College and Conservatory; MA 1986, PhD 1988, Stanford University.

Eaton, Lynn, Director, Special Collections Research Center, University Libraries. BA 1986, James Madison University; MS 1988, Miami University, Ohio; MLS 1997, University of North Carolina.

Eby, Kimberly K., Associate Provost for Faculty Affairs and Development. Associate Professor, School of Integrative Studies. Affiliate, Department of Psychology. BA 1989, Indiana University; MA 1992, PhD 1996, Michigan State University.
Eckenwiler, Lisa, Associate Professor of Philosophy, Associate Professor of Health Administration and Policy. BA 1989, University of Wisconsin, Madison; MA 1991, PhD 1997, University of Tennessee, Knoxville.

Edney, Sheldon M., Term Full Professor and Director of the Center for Federal Management Leadership, Schar School of Policy and Government. BA 1969, Humboldt State University; MA 1971, PhD 1973, University of California.

Edwards, Cody, Associate Professor, Biology. BS 1995, MS 1997, Angelo State University; PhD 2000, Texas Tech University.

Eilola, Andrew Robert, Assistant Director of Forensics. Department of Communication. MA 2015, George Mason University.

El-Amine, Hadi, Assistant Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BE 2009, ME 2012, American University of Beirut; PhD 2016, Virginia Tech.

El-Hibri, Hatim, Assistant Professor, English. BA 2002, Rutgers University; MA 2006, PhD 2012, New York University.

El-Shazli, Heba F., Term Assistant Professor, Schar School of Policy and Government. BS 1982, MA 1984, Georgetown University; PhD 2014, Virginia Polytechnic Institute and State University.

Elston, Ken D., Director and Associate Professor of Theater. BA 1988, Temple University; MFA 1996, Ohio State University.

Elzey, Christopher Clark, Term Assistant Professor of History. BA 1987, University of Pennsylvania; MA 1996, University of Alabama; PhD 2004, Perdue University.

Emelianenko, Maria, Professor of Mathematical Sciences. BS 1999, MS 2001, Moscow State University; MA 2002, PhD 2005, Pennsylvania State University.

Emerson, Jill V., Assistant Dean for Admissions, Student Affairs and Communications, Schar School of Policy and Government. BA 1995, George Mason University; MSW 2000, Virginia Commonwealth University.

Endress, Edgar, Associate Professor, School of Art. BS 1992, Universidad Tecnologica Metropolitana, Chile; BA 1997, Artes de las Comunicaciones, Chile; MFA 2001, Syracuse University.

Ephraim, Yariv, Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BSc 1977, MSc 1979, DSc 1984, Technion, Haifa, Israel.

Epstein, Neil, Associate Professor, Mathematical Sciences. BA 1998, Swarthmore; MS 2000, University of Chicago; PhD 2005, University of Kansas.

Eratat, Noura S., Assistant Professor, School of Integrative Studies. BA 2002, JD 2005, University of California, Berkeley; LLM 2012, Georgetown University Law Center.

Erb, Megan, Assistant Professor, Chemistry and Biochemistry. BA 2008, St. Mary’s College of Maryland; PhD 2013, Cornell University.

Ericson, Rebecca J., Assistant Professor, Physics and Astronomy. BA 1970, Macalester College; MS 1975, Creighton University; DA 2012, George Mason University.

Escherick, Craig, Associate Professor of Sport Management, School of Recreation, Health and Tourism. BSBA 1978, JD 1982, Georgetown University.

Esmaeili, Behzad, Assistant Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BS 2006, MS 2008 Amirkarib University of Technology, PhD 2012, University of Colorado, Boulder.

Esposito-Smythers, Christianne, Professor, Psychology. BA 1993, Lafayette College; MS 1997, PhD 2000, Virginia Polytechnic Institute and State University.

Euliano, Bridget, Head, Technical Services Group, University Libraries. BA 1998, Virginia Polytechnic Institute and State University; MLS 2003, Catholic University of America.

Evans Cuellar, Alison E., Professor of Health Administration and Policy. BA 1987, MBA 1989, University of Texas, Austin; PhD 2001, University of California, Berkeley.

Evans, Sally, University Dissertations and Theses Coordinator, University Libraries. BA 1997, Virginia Polytechnic Institute and State University; MA 1999, University of South Carolina, Columbia; MLIS 2010, University of South Carolina.

Evmenova, Anna, Associate Professor, Graduate School of Education. BA 2001, MA 2001, Saratov State University, Russia; MAEd 2003, East Carolina University; PhD 2008, George Mason University.

F

Fahey, Sheryl, Early Childhood Coordinator, Training/Technical Assistance Center, College of Education and Human Development. BS 1971, Syracuse University; MA 1972, George Washington University.

Fairclough, Ian, Cataloging and Metadata Librarian, University Libraries. BA 1972, University of Liverpool; MA 1977 University of Toronto; MPhil 1985, Columbia University; MLS 1989, Queens College, City University of New York.

Falsetti, Anthony B., Associate Professor, Forensic Science. BA 1984, MA 1986, PhD 1989, University of Tennessee.

Farina, John, Associate Professor of Religious Studies. BA 1972, Vassar College; MD 1976, Yale University; PhD 1979 Columbia University; JD 1996, New York University School of Law.

Farrell, Peter J., Director of Alumni Relations, Instructor, Information Sciences and Technology, Volgenau School of Engineering. BS 1979, MBA, 1985, George Mason University.

Fayissa, Mosissa Adi, Assistant Professor, Chemistry and Biochemistry. BSc 1997, MSc 2003, Addis Ababa University; PhD 2015, Howard University.

Ferguson, Daniel, Assistant Professor in the Graduate School of Education in the College of Education and Human Development. BA 2005, Birmingham-Southern College; MAEd 2007, University of Alabama at Birmingham; EdD 2018, Columbus University.

Fernandez, Lourdes, Term Instructor, English. BS 1991, University of South Carolina, Columbia; MA 2004, Austin Peay State University.

Ferreira, Celso, M., Associate Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2003, MS 2007, Federal University of Santa Catarina; PhD 2012, Texas A&M University.

Ferssizidis, Panagiota (Patty), Training Coordinator, School of Nursing. BA 2003, Truman State University; MA 2005, New York University; PhD 2013, George Mason University.

Fine, Pamela, Term Instructor, School of Nursing. BSN 2004,MSN 2007, Widener University.

Finch, Andrew, Term Associate Professor, Communication. BS 1972, St. John Fisher College; MA 1977, State University of New York, Geneseo; MA 1981, PhD 1983, Washington University, St. Louis.

Firchow, Pamela, Assistant Professor, School for Conflict Analysis and Resolution. BA 1998, Carleton College; MS 2002, London School of Economics; MA 2005, Universidad del Salvador; PhD 2009, Graduate Institute of International and Development Studies

Fischer-Nowaczyk, Sarah, Associate Professor, Psychology. BA 1999, MA 2002, PhD 2006, University of Kentucky.

Fisher-Maltese, Carley. Assistant Professor, Graduate School of Education in the College of Education and Human Development. BA 1996, Barnard College; MA 2005 Columbia University; PhD 2013, Rutgers, The State University of New Jersey.

Fitzpatrick, Brian, Term Assistant Professor, English. BA 2007, George Washington University; MA 2010, MFA 2012, George Mason University.

Fleming, Lila, Term Assistant Professor of Global and Community Health. AA 2002, Montgomery College; BS 2004, Georgetown University; MS 2008, PhD 2015, George Mason University.

Flannagan, Kevin, Term Assistant Professor, English. BA 2006, College of William and Mary; MA 2009, North Carolina State University; PhD 2015, University of Pittsburgh.

Flinn, Jane M., Professor of Psychology. BA 1960, Oxford University; MS 1962, University of California; PhD 1969, Catholic University of America; PhD 1974, George Washington University.

Flores, Thomas E., Associate Professor, School for Conflict Analysis and Resolution. BA 1998, Harvard University; PhD 2008, University of Michigan, Ann Arbor.

Folan, Kerry, Term Assistant Professor, English. BA 2001, Dickinson College; MA 2017, George Mason University.

Fondufe, Gwendolyn, Assistant Professor, Biology. BEd 1985, MS 1986, University of Ibadan; PhD 1995, University of Illinois.

Fontana, Judith, Technical Assistance Specialist, Kellar Institute for Human disAbilities, College of Education and Human Development. BA, Niagara University; MEd, University of Rochester; PhD, George Mason University.

Ford, Martin, Senior Associate Dean and Professor of Education, College of Education and Human Development. BS 1975, Pennsylvania State University; PhD 1980, University of Minnesota.

Ford, Meggan, Assistant Dean, Undergraduate Academic Services, School of Business. BA 2005, Christopher Newport University; MSeD 2008, Old Dominion University.

Forkner, Rebecca, Associate Professor, Biology. BS 1993, University of Cincinnati; PhD 1998, University of Georgia.

Fortner, Michael, Instructor, Department of Mechanical Engineering. BS 1975, West Virginia Institute of Technology; MS 1980, Miami University.

Foster, Gregory D., Professor of Chemistry. BS 1978, University of California, Davis; MS 1981, California State University, Hayward; PhD 1985, University of California, Davis.

Foster, John Burt, Jr., University Professor of English. BA 1967, Harvard University; MPhil 1971, PhD 1974, Yale University.

Fowler, Amy E., Assistant Professor, Environmental Science and Policy. BS 2005, University of New Hampshire; PhD 2011, University of Auckland, New Zealand.

Fox, Donna M., Associate Dean, Office for Student Affairs and Special Programs, College of Science. BS 1985, Kansas State University; PhD 1992, George Mason University.

Fox, Rebecca, Professor of Education, Graduate School of Education. BA 1972, Randolph-Macon Women’s College; MA 1993, PhD 1999, George Mason University.

Foxwell, Harry J., Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BA 1973, Franklin & Marshall College; MS 1978, Villanova University; PhD 2003, George Mason University.

Francis, Grace L. Assistant Professor, Graduate School of Education in the College of Education and Human Development. BA 2006, MA 2008, Webster University; PhD 2013, University of Kansas.

Frank, Toya J., Assistant Professor, Secondary Education 6-12, Graduate School of Education in the College of Education and Human Development. BS, Florida A & M University; M.Ed., PhD, University of Maryland.

Frankenfeld, Cara, Associate Professor of Global and Community Health. BS 1996, Northern Arizona University; MS 2000, University of Arizona; PhD 2003, University of Washington.

Freeman, Elizabeth, Associate Professor, School of Integrative Studies. BS 1992, Vanderbilt; MS 2000, Virginia Commonwealth University; PhD 2005, George Mason University.

Freer, Jeremy, Admin Faculty, Music. BM 2000, Louisiana State University; MM, 2010, George Mason University.
Frenn, Chawky, Associate Professor, School of Art. BFA 1985, Massachusetts College of Art; MFA 1988, Temple University.

Froman, Wayne J., Associate Professor, Philosophy. BA 1966, Yale University; MA, PhD 1975, Fordham University.

Frye, Samuel, Term Assistant Professor, School of Integrative Studies. BA 2006, The Pennsylvania State University; MA 2010, PhD 2017, Indiana University of Pennsylvania.

Fryxell, Karl J., Associate Professor, Biology. BA 1985, PhD 2007, University of North Carolina, Chapel Hill; MA 1997, Westfälische Wilhelms-Universität, Muenster, Germany.

Fujinawa, Manako, Term Assistant Professor of Japanese. MA 1993, Arkansas State University; PhD 2004, University of Minnesota.

Fuller, Stephen S., University Professor of Public Policy; Dwight C. Schar Endowed Faculty Chair and Director of the Stephens S. Fuller Institute, Schar School of Policy and Government. BA 1962, Rutgers University; MCP 1964, University of Mississippi; PhD 1969, Cornell University.

Fyock, Marcie, Assistant Professor, Athletic Training, School of Recreation, Health and Tourism in the College of Education and Human Development. BS 1999, Slippery Rock University of Pennsylvania; MS 2001, Syracuse University.

G

Gaj, Krzysztof, Professor, Electrical and Computer Engineering, Volgenau School of Engineering. MS 1988, PhD 1992, Warsaw University of Technology.

Gallagher, Catherine A., Associate Professor, Criminology, Law and Society. BA 1991, College of Wooster; MA 1996, PhD 2000, University of Maryland.

Gallay, David, Assistant Professor of Finance. BS 1972, United States Military Academy; MS 1978, Purdue University; MS 1981, University of Southern California; DSc 2002, The George Washington University.

Gallehr, Donald Raymond, Associate Professor of English. BA 1964, St. Bonaventure University; MA 1966, Fordham University; PhD 1974, Catholic University of America.

Gallo, Robert L., Professor, Mechanical Engineering, Volgenau School of Engineering. BS 1976, University of Illinois; MS 1979 Air Force Institute of Technology; MS 1981, University of Dayton.

Gallo, Sina, Assistant Professor of Nutrition and Food Studies. BS 2003, MS 2004, PhD 2013, McGill University.

Ganesan, Rajesh, Associate Professor, Systems Engineering and Operations Research. BS 1996, National Institute of Technology, India; MS 2002, MA, PhD 2005, University of South Florida.

Garner, Pamela W., Professor, School of Integrative Studies. BSW 1982, University of Tennessee; MA 1988, University of Houston; PhD 1992, Texas A&M University.

Garrison, Daniel J., Director of Distance Education and Instructor; Information Sciences and Technology, Volgenau School of Engineering. BA 1996, Liberty University; MFA 1999, Rochester Institute of Technology.

Garrison, Victoria, Physician and Term Assistant Professor; School of Nursing. BA 2001, University of South Florida; MD 2006, Ross University.

Gatling, Benjamin, Assistant Professor of English. BA 2003, University of North Carolina, Chapel Hill; MA 2008, The Ohio State University; PhD 2012, University of North Carolina Chapel Hill.

Genetin-Pilawa, C. Joseph, Associate Professor of History. BA 2000, MA 2002, Bowling Green State University; PhD 2008, Michigan State University.

Gentry, Anne G., Associate University Counsel. BA 1991, College of William and Mary; 1994 JD, George Mason University.

George, Cindy, Instructor of Education, Graduate School of Education. BA 1979, Peabody College.

Gerber, Naomi Lynn H., University Professor of Health Administration and Policy. BA 1965, Smith College; MD 1971, Tufts University School of Medicine.

Gerber, Steven K., Music, Theater, and Philosophy Librarian, University Libraries. BA 1973, University of Minnesota, Duluth; MA 1975, University of California, San Diego; MLS 2003, State University of New York, Buffalo.

Gero, John, Research Professor, Krasnow Institute for Advanced Study. BS 1965, University of New South Wales; MS 1966, PhD 1974, University of Sydney.

Gest, Justin, Assistant Professor of Public Policy, Schar School of Policy and Government. BA 2004, Harvard University; MS 2006, PhD 2010, London School of Economics and Political Science.

Gettys, Jennifer Bazaz, Associate Director for Academic Affairs, College of Science. BS 2004, MA 2012, George Mason University.

Gewa, Constance, Associate Professor of Nutrition and Food Studies. BS 1994, Egerton University, Kenya; MS 1998, University of Nairobi, Kenya; MPH 2003, PhD 2007, University of California, Los Angeles.

Ghimire, Nirmal J., Assistant Professor, Physics and Astronomy. PhD 2013, University of Tennessee.

Gibson, Timothy A., Associate Professor, Communication. BA 1992, Evergreen State College; MA 1995, University of Massachusetts; PhD 2001, Simon Fraser University.
Gifford, Jonathan L., Professor of Government and Politics, Schar School of Policy and Government. BS 1976, Carnegie Mellon University; MS 1979, PhD 1983, University of California, Berkeley.

Gilbert, Andrew B.T. Associate Professor, Graduate School of Education in the College of Education and Human Development. BS 1992, Virginia Polytechnic Institute and State University; MA 1998, East Carolina University; PhD 2002, New Mexico State University.

Gibert, Paul, Executive in Residence in Recreation Management and Instructor, School of Recreation, Health and Tourism. BA 1987, St. Andrew’s Presbyterian College; MAIS 2003, George Mason University.

Gill, Charlotte, Associate Professor, Criminology, Law and Society. BA/MA 2003, MPhil 2004, University of Cambridge; PhD 2010, University of Pennsylvania.

Gilleveit, Patrick M., Professor, Biology, Director of Microbiome Analysis Center. BS 1976, University of Toronto; PhD 1982, University of Manitoba.

Gilmour, Michael, Associate Professor, School of Integrative Studies. BS 1995, Colorado State University; PhD 2005, Miami University.

Gimm, Gilbert, Associate Professor of Health Administration and Policy. BA 1992, Harvard University; MBA 1999, PhD 2005, University of Pennsylvania.

Gingold, Yotam I., Associate Professor, Computer Science, Volgenau School of Engineering. BS 2002 Brown University; MS 2005, PhD 2009 New York University.

Ginsberg, Mark R., Dean, College of Education and Human Development. BS 1975, State University of New York; MS 1978, PhD 1981, Pennsylvania State University.

Giwa-Lawal, Kudrat (Kudy), University Coordinator, Mason LIFE Program, Kellar Institute for Human disAbilities, College of Education and Human Development. BIS 2004, MEd 2008, George Mason University.

Gliozzi, Mario, Associate Professor, Physics and Astronomy. Laurea 1994, PhD 1999, Torino University, Italy.

Glover, Marcy R.L., Operations Manager, Academic Initiatives and Services and Deputy Campus Coordinator, 4-VA, Office of the Provost. BS 1994, MS 2003, George Mason University.

Goca-Nguyen, Maxwell, Assistant Director, Undergraduate Recruiting and Outreach, School of Business. BA 2015, Youngstown State University; MA 2016, George Washington University.

Goldberg, Deborah, Associate Professor of Health Administration and Policy. BA 1988, Northern Kentucky University; MBA 1992, MHA 1993, Xavier University; PhD 2008, Virginia Commonwealth University.

Goldenthal, Ariel, Term Assistant Professor, English. BA 2012, Brandeis University; MFA 2017, George Mason University.

Goldin, Rebecca F., Professor, Mathematical Sciences. BA 1993, Harvard University; PhD 1999, Massachusetts Institute of Technology.

Goldstein, Thalia, Assistant Professor, Psychology. BA 2002, Cornell University; MA 2007, PhD 2010, Boston College.

Goldstone, Jack A., Hazel Professor of Public Policy and Director, Center for Global Policy, Schar School of Policy and Government. BA 1976, MA 1979, PhD 1981, Harvard University.

Goodings, Deborah J., Dewberry Professor and Chair, Department of Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BS 1975, University of Toronto; PhD 1979, Cambridge University.

Goodnight, Adrienne, Term Instructor of Nursing. BSN 1994, George Mason University; MSN 2005, Shenandoah University.

Goodman, Rachel, Associate Professor of Education, Graduate School of Education. BS 2002, University of North Carolina; MEd 2006, PhD 2009, University of Florida.

Goodwin, Stephen Hardy, Professor of English. AB 1965, Harvard University; MA 1969, University of Virginia.

Goodwin-Slater, Kimberly, Director of Finance, Volgenau School of Engineering. MS 2001, George Mason University.

Gopin, Marc, James H. Laue Professor of World Religions, Diplomacy, and Conflict Resolution, School for Conflict Analysis and Resolution. BA 1979, Columbia College; MA 1988, PhD 1992, Brandeis University.

Gordon, Samuel D., Assistant Professor, Computer Science, Volgenau School of Engineering. BA 2003 Columbia University; MS 2008, PhD 2010, University of Maryland.

Grady, Victoria, Assistant Professor of Management. BS 1991, Birmingham-Southern College; MS 1996, University of Alabama; 2005 DSc, The George Washington University.

Graff, Heidi, Director, Mason LIFE Program. BS 1986, State University of New York; MA 1987, Long Island University; PhD 2007, George Mason University.

Grandas, Ludy. Term Assistant Professor, Modern and Classical Languages. BA 1992, Universidad Pedagogica y Tecnologica de Colombia; MA 1996, Universidad Distrital de Bogota; PhD 2010, George Mason University.

Granfield, Patricia G., Instructor, Mathematical Sciences. BA 1972, Swarthmore College; JD 1978, University of Virginia School of Law; MS 2003, George Mason University.

Grant, Geraldine M., Associate Professor, Biology. BA 1987, Trinity College, Ireland; PhD 1993, Dublin City University, Ireland.

Green, B. Christine, Professor in the School of Recreation, Health and Tourism in the College of Education and Human Development. BS 1985, George Washington University; MA 1994, PhD 1996, University of Maryland.

Green, Emily, Assistant Professor of Music. BM 2001, Cornell University; MM 2003, University of Missouri, Kansas City; MA 2006, PhD 2009 Cornell University.

Green, Heather, Term Assistant Professor of English. BA 1996, Northern Arizona University, Flagstaff; MA 2006, University of Nebraska, Lincoln; MFA 2009, Boston University.
Green-Lawson, Zakevia, Term Assistant Professor of Health Administration and Policy. BS 2004, Florida A & M University; MS 2007, Capella University; MSEd 2017, Purdue Global University; PhD 2013, Capella University.

Greenberg, Nathaniel, Assistant Professor of Arabic. BA 2003, City College of New York-Hunter College; MA 2007, PhD 2012, The University of Washington.

Greet, Michele, Associate Professor, History and Art History. BA 1993, Bowdoin College, MA 1998, City University of New York, Hunter College; PhD 2004, New York University.

Gruenberg, Christopher A., Term Associate Professor, Art History. BA 1989, University of Georgia; MA 1991, PhD 2000, University of North Carolina, Chapel Hill.

Griffiths, Lloyd J., Professor, Electrical and Computer Engineering and Dean Emeritus, Volgenau School of Engineering. BS 1963, University of Alberta, Canada; MS 1965, PhD 1968, Stanford University.

Grimm, Stephanie, Art and Art History Librarian, University Libraries. BFA 2008, School of Visual Arts; MSI 2011, University of Michigan.

Grimsby, Gregory, Assistant Professor of Computer Game Design. BFA 1994, James Madison University.

Grimsley, Carolyn, Director, MS in Real Estate Development and Instructor. BS 2001, University of Illinois at Urbana-Champaign; MS 2010, Johns Hopkins University; PhD 2015, University of Cambridge.

Gring-Pemble, Lisa, Associate Professor of Business Foundations and Director, Global Impact and Engagement. BA 1992, St. Olaf College; MA 1996, PhD 2000, University of Maryland, College Park.

Griva, Igor, Associate Professor, Mathematical Sciences. BS 1993, MS 1994, Moscow State University; PhD 2002, George Mason University.

Groseclose, Timothy, Professor of Economics. BS 1987, PhD 1992, Stanford University.

Groth, Lois, Associate Professor of Education, Graduate School of Education. BS 1985, Cornell University; MEd 1992, Plymouth State University; PhD 1999, University of Maryland.

Grotophorst, Clyde W., Associate University Librarian for Digital Programs and Systems, University Libraries. BA 1976, Western Carolina University; MSLS 1977, University of Tennessee, Knoxville; MA 1982, Central Michigan University.

Guccione, Andrew, Professor and Chair, Rehabilitation Science. AB 1972, Boston College; MA 1975, Temple University; MSPT 1978, PhD 1988, Boston University; DPT 2003, MGH Institute of Health Professions.

Gudaitis, Teresa, Assistant Professor, Criminology, Law and Society. BA 1987, State University of New York at Binghamton; MA 1990, PhD 1992, University of Florida.

Guenther, Stacey, Educational Program Director, Consciousness & Transformation Center, School of Integrative Studies. BA 1991 Southern Methodist University; MS 2004 George Mason University.

Guessford, Jesse, Associate Director, Undergraduate Education, Office of the Provost. Associate Professor of Music, College of Visual and Performing Arts. BS 1995, West Chester University; MM 1997, Crane School of Music, State University of New York, Potsdam; DMA 2006, University of Illinois.

Guilford, Renate H., Associate Provost for Enrollment Planning and Administration. MA 1995, George Mason University.

Guglielmi Elena, Term Instructor of Russian. MA 1991, Rostov State Pedagogical University (Rostov-na-Donu, Russia); MA 1995, George Mason University.

Gupta, Jhumka, Assistant Professor, Department of Global and Community Health. BS 1997, University of Maryland; MPH 2000, Drexel University; ScD 2007, Harvard University.

H

Haack, Barry Norbert, Professor, Geography and Geoinformation Science. BS 1969, University of Wisconsin; MA 1972, San Diego University; PhD 1977, University of Michigan.

Haas, Tanya, Term Assistant Professor, School of Nursing. BSN 1996, University of North Carolina, Wilmington; MSN 2009, Walden University; DNP 2018, George Mason University.

Habib, Anna, Term Assistant Professor of English. BA 2003, MFA 2006, George Mason University.

Habila Ngalabak, Helon, Professor, English. BA 1995, University of Jos.

Haddad, Bassam, Associate Professor, Schar School of Policy and Government and Director, Middle East Studies Program. BA 1992, George Mason University; MA 1994, PhD 2002, Georgetown University.

Hahn, William J., Director, Biomedical Sciences. BA 1985, Washington University, St. Louis; MS 1990, Cornell University; PhD 1993, University of Wisconsin, Madison.

Haley, Marjorie, Professor of Education, Graduate School of Education. BS 1974, Hampton Institute; MEd 1976, Towson State University; PhD 1986, University of Maryland.

Hamdan, Sumaiya A., Associate Professor of History. BA 1984, Georgetown University; MA 1989, PhD 1995, Princeton University.

Hammer, Christopher H., Associate Professor, History. AB 1995, Dartmouth College; MA 1998, PhD 2004, University of North Carolina, Chapel Hill.

Handler, Robert A., Professor, Mechanical Engineering, Volgenau School of Engineering. BE 1973, Stevens Institute of Technology; MSE 1974, University of Michigan; SM 1976, Massachusetts Institute of Technology, PhD 1980, University of Minnesota.

Hanrahan, Nancy Weiss, Associate Professor of Sociology. BA 1976, Wesleyan University; MA 1989, PhD 1994, New School for Social Research.

Hansen-Honeycutt, Jena, Dance Athletic Trainer in School of Dance. BS 2011, University of Idaho; MS 2013, California University of Pennsylvania; DAT 2016, University of Idaho.

Hanson, Robin D., Associate Professor of Economics. BS 1981, University of California, Irvine; MS, MA 1984, University of Chicago; PhD 1997, California Institute of Technology.
Hanweck, Gerald Alfred, Professor of Finance. BA 1964, Stanford University; MA 1967, PhD 1971, Washington University, St. Louis.

Harman, Angelina, Term Assistant Professor of Nursing. BSN 1994, Shepherd University; MSN 1998, DNP 2012, George Mason University.

Harris, Cameron, Instructor of Business Foundations. BA 2006, George Mason University; MS 2009, PhD 2015, Indiana University.

Harris-Love, Michelle, Associate Professor, Bioengineering, Volgenau School of Engineering. BA 1995, Bethel University; MS 1997, Mayo School of Health Sciences; PhD 2004, University of Maryland.

Harris-Scott, Steven A., Term Instructor of History. BS 2000, Millsaps College; MA 2005, University of New Orleans.

Hart, David, Professor, Schar School of Policy and Government. BA 1983, Wesleyan University; PhD 1995, Massachusetts Institute of Technology.

Hartman, Shirley H., Director of Advancement, College of Education and Human Development. BA, Hartwick College.

Harvey, James William, Associate Professor of Marketing. BS 1966, University of Illinois, Urbana-Champaign; MBA 1968, University of Miami; PhD 1977, Pennsylvania State University.

Harvey, Tamara, Associate Professor, English. BA 1988, Harvard University; MA 1991, University of Wisconsin, Madison; PhD 1998, University of California, Irvine.

Hashmi, Irina, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 2007, MS 2009, University of Dhaka; MS 2013, PhD 2015, George Mason University.

Haspel, Paul, Term Assistant Professor; English. BA 1983; MFA 1991, PhD 1996, University of Maryland, College Park.

Hathaway, Dawn, Assistant Professor of Education, Graduate School of Education. BS 1984, BS 1986, Purdue University; MEd 2003, PhD 2009, George Mason University.

Hathaway, Jennifer, Assistant Professor, Graduate School of Education in the College of Education and Human Development. BS 1998, MAEd 2002, East Carolina University; PhD 2009, Vanderbilt University.

Hatley, Angela J., Professor and Director of Women and Gender Studies. BA 1988 Carleton College; MS 1991, PhD 1996 University of Wisconsin-Madison.

Hatton, Kimi S., Associate Professor, Chemistry and Biochemistry. BS 1979, George Mason University; PhD 1983, The Ohio State University.

Hayden, Michael V., Distinguished Visiting Professor, Schar School of Policy and Government. BA 1967, MA 1969, Duquesne University.

Hayes, Monson H., Professor and Chair; Electrical and Computer Engineering, Volgenau School of Engineering. BA 1971, University of California, Berkeley; M. S. E., E.E., 1978, Sc.D. 1981, Massachusetts Institute of Technology.

Heiner, Ronald A., Professor of Economics. PhD 1975, University of California, Los Angeles.

Helmsing, Mark, Assistant Professor, College of Education and Human Development. BS 2004, Indiana University; PhD 2016, Michigan State University.

Helton, William (Deak), Professor. BA 1995, Evergreen State College; MA 1998, PhD 2002, University of Cincinnati.

Hemmann, Kathryn, Assistant Professor of Japanese. BA 2006, Emory University; BA 2009, PhD 2013, University of Pennsylvania.

Henderson, Thomas (Tim), Term Instructor of Health Administration and Policy. BA 1974, North Carolina State University; MS 1979, University of North Carolina; MA 1986, University of Florida.

Hendricks, Gretchen, Instructor of Business Foundations. BA 1992, University of South Carolina; MA 1997, Marymount University.

Henson, Jo Ann, Business and Economics Librarian, University Libraries. BA 1997, MLIS 2000, Louisiana State University, Baton Rouge.

Hess, Richard, Director, Analytics, Accreditation, and Assessment, School of Business. BA 2009, Rutgers University; MA 2011, Ohio State University.

Higgins, Rosemary, Associate Professor of Global and Community Health and Associate Dean for Research, College of Health and Human Services. BS 1930, Siena College; MD 1984, Georgetown University School of Medicine.

Hinov, Linda A., Professor, Atmospheric, Oceanic and Earth Sciences. BA 1979, Princeton University; MA 1985, University of Texas at Austin; PhD 1994, Johns Hopkins University.

Hinton, Roy W., Associate Dean, Executive and Professional Education. BA 1970, Southern Illinois University; MBA 1975, Pepperdine University; PhD 1981, Northwestern University.

Hintz, Kenneth J., Associate Professor; Electrical and Computer Engineering, Volgenau School of Engineering. BSEE 1967, Purdue University; MSEE 1979, PhD 1981, University of Virginia.

Hirsch, Susan F., Vernon M. and Minnie I. Lynch Chair, Professor of Conflict Resolution and Anthropology, School for Conflict Analysis and Resolution. BA 1982, Yale College; PhD 1990, Duke University.

Hjalmarsen, Margret, Professor of Education, Graduate School of Education. BA 1998, Mount Holyoke College; MS 2000, PhD 2004, Purdue University.

Ho, Angela, Associate Professor, Art History. BFA 1995, University of Sydney, Australia; MA 1998, Williams College; PhD 2007, University of Michigan, Ann Arbor.

Hobson, Daniel, Production Manager, College of Visual and Performing Arts. BA 1984, George Mason University.

Hoch, Theodore, Associate Professor of Education, Graduate School of Education. BS 1983, University of Illinois at Urbana-Champaign; MS 1985, University of Wisconsin-Milwaukee; EdD 1989, West Virginia University.
Hoefer, Anthony Dyer, Assistant Dean, Honors College, Director, University Scholars Program, Associate Professor of English. BA 2000, Wofford College; MA 2003, University of Alabama; PhD 2008, Louisiana State University.

Hoemann, Caroline, Professor, Bioengineering, Volgenau School of Engineering. BA 1983, University of California at San Diego, MSc 1998, PhD 1992, Massachusetts Institute of Technology.

Holinccheck, Nancy M., Assistant Professor, Advanced Studies in Teaching and Learning, Graduate School of Education in the College of Education and Human Development. BS 1997, The College of William and Mary; MS 2003, PhD 2012, George Mason University.

Holmes, David I., Assistant Professor, Statistics, Volgenau School of Engineering. BSc, 1966, Queen Mary College, University of London, UK; MPhil 1972, Sheffield Polytechnic, UK; PhD 1991, King’s College, University of London, UK.

Holmes, Kimberly, Associate Dean for Student Affairs, College of Health and Human Services. BA 2007, University of Richmond; MEd 2009, The College of William and Mary; PhD 2013, University of Maryland, College Park.

Holmes, Steven, Assistant Professor of English. BA 2006, MA 2008, Washington State University; PhD 2013, Clemson University.

Holton, Anne. Visiting Professor of Public Policy and Education and Senior Fellow, Center for Education Policy and Evaluation, Schar School of Policy and Government and Professor, Graduate School of Education in the College of Education and Human Development. AB 1980, Princeton University; JD 1983, Harvard Law School.

Holzer, Matt, Assistant Professor, Mathematical Sciences. BS 2003, Montana State University; PhD 2010, Boston University.

Homayoun, Houman, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 2003, Sharif University of Technology; MS 2005, University of Victoria; PhD 2010, University of California, Irvine.

Honeychuck, Robert V., Associate Professor, Chemistry and Biochemistry. BS 1977, The Ohio State University; MS 1982, PhD 1984, Michigan State University.

Hooper, Jane Madden, Associate Professor of History. BA 2003, Grinnell College; PhD 2010, Emory University.

Hoppner, Jessica, Associate Professor of Marketing. BS 2006, Villanova University; PhD 2010, Michigan State University.

Hopson, Mark C., Director, African and African-American Studies Program and Associate Professor, Communication. BS 1993, Western Michigan University; MA 2002, PhD 2005, Ohio University.

Horak, Anne, Coordinator for Project ExCEL, College of Education and Human Development. BA 1997, State University of New York at Oswego; MEd 2005, PhD 2013, George Mason University.

Horan, Caitlin, Director, Graduate Academic Services, School of Business. BA 2011, College of William and Mary; MEd 2015, University of Georgia.

Houck, Mark H., Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BES 1972, PhD 1976, Johns Hopkins University.

Houser, Daniel E., Professor and Chair, Economics and Director, Interdisciplinary Center for Economic Science. BA 1989, University of Wisconsin, Madison; PhD 1998 University of Minnesota.

Houser, Paul, Professor, Geography and Geoinformation Science. BS 1992, PhD 1996, University of Arizona.

Houston, Stacey, Assistant Professor, Criminology, Law and Society. BA 2013, Davidson College; MA 2015, PhD 2018, Vanderbilt University.

Howard, Susan, Term Instructor, School of Integrative Studies. BA 1984, Wesleyan University; MPH 1999, University of Hawaii.

Howell, Billy, Term Assistant Professor, English. BA 2002, Oklahoma State University; MFA 2007, University of New Mexico; PhD 2015, Oklahoma State University.

Howell, Keith, Professor of Global and Community Health. BS 1967, Pikeville College; MA 1968, Eastern Kentucky University; PhD 1973, University of Toledo.

Hsieh, Jim, Associate Professor of Finance. BS 1991, National Chiao Tung University, Taiwan; MBA 1996, University of Rochester; MS 1997, Carnegie Mellon University; PhD 2002, Ohio State University.

Huang, Bohua, Professor, Atmospheric, Oceanic and Earth Sciences. BS 1982, MS 1985, Peking University; PhD 1992, University of Maryland.

Huang, Edward, Assistant Professor, Systems Engineering and Operations Research. BS 2001, MS 2003, National Tsing Hua University; MS 2008, PhD 2011 Georgia Institute of Technology.

Huang, Liling, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1995, National Taiwan University of Science and Technology; MS 1997, National Chung Cheng University; PhD 2003, Virginia Polytechnic Institute and State University.

Hudson, Seth Andrew, Assistant Professor, Computer Game Design. BA 2005, MA 2009, University of Cincinnati.

Hughes-Rinker, Cortney, Assistant Professor, Sociology and Anthropology. BS 2004, Iowa State University; MA 2007, PhD 2010, University of California.

Hultin, Niklas, Assistant Professor, Global Affairs Program. BA 1997, University of the South; LLM 2002, Queen’s University Belfast, United Kingdom; PhD 2007, University of Pennsylvania.
Hunter, Brett, Assistant Professor, Statistics, Volgenau School of Engineering. BA 2008, Messiah College; MS 2010, PhD 2016, Colorado State University.

Hunter, Seth B. Assistant Professor, Graduate School of Education in the College of Education and Human Development. BS, Centre College; MAT, University of Louisville; PhD, Vanderbilt University.

Hunzeker, Michael A., Assistant Professor, Schar School of Policy and Government. BA 2000, University of California at Berkeley; MPA 2008, MA 2011, PhD 2013, Princeton University.

Hurley, Michael E., Term Associate Professor of Psychology, Undergraduate Advisor. BA 1984, Hofstra University; MA 1988, College of William and Mary; PhD 1993, University of Miami.

Hussam, Abul, Professor of Chemistry. BSc 1975, MSc 1976, University of Dacca; PhD 1982, University of Pittsburgh.

Hutchison, Amy, Associate Professor, College of Education and Human Development. BA 2002, Clemson University; MA 2004, Columbia College; PhD 2009, Clemson University.

Hylton, Constance Malone, Instructor of Accounting. BS 1972, Virginia Polytechnic Institute and State University; MBA 1981, Arizona State University.

I

Ihara, Emily, Associate Professor and Interim Chair, Department of Social Work. AB 1990, University of California, Berkeley; MSW 1993, University of California, Los Angeles; MA 2002, PhD 2005, Brandeis University.

Ikonomidou, Vasiliki, Associate Professor, Bioengineering, Volgenau School of Engineering. Dipl Eng 1997, PhD 2002, Aristotle University of Thessaloniki.

Ingram, Mark, Instructor of Accounting. BS 1972, Drake University; MAS 1974, University of Illinois.

Inoue, Megumi, Assistant Professor of Social Work. ADN 1988, Kyushu National University, Japan; BSW 2005, Kawasaki University of Medical Welfare, Japan; MSW 2007, Washington University, St. Louis; PhD 2014, Boston College.

Ioannou, D.E., Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1974, University of Thessaloniki; MS 1975, PhD 1978, University of Manchester.

Ipek, Yasemin, Assistant Professor, Global Affairs Program. BA 2003, MA 2006, Bogazici University; PhD 2017, Bilkent University; PhD 2018, Stanford University.

Irvin-Erickson, Douglas, Assistant Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 2006, MA 2011, PhD 2014, Rutgers University.

Irvin-Erickson, Yasemin, Assistant Professor, Criminology, Law and Society. BA 2004, Middle East Technical University; MA 2009, Istanbul University; MA 2010, PhD 2014, Rutgers University.

Islam, Khondkar, Associate Chair for Undergraduate Studies and Term Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1988, George Mason University; MS 1992, American University; PhD 2013, George Mason University.

Ismail, Suddaf, Director, Graduate Admissions and Recruitment, Volgenau School of Engineering. BS 2003, MEd 2011, George Mason University.

Izmirli, Ilhan, Assistant Professor, Statistics, Volgenau School of Engineering. BS 1974, Bosphorus University; MS 1979, University of Istanbul; PhD 2008, American University.

J

Jacobs, Mark D., Associate Professor of Sociology. BA 1968, Columbia College, Columbia University; MA 1977, PhD 1987, University of Chicago.

Jafari, Sheherazade, Director, Point of View International Retreat and Research Center. BA 2000, University of Wisconsin-Madison; MA 2008, George Washington University; PhD 2015, American University.

Jafri, M. Saleet, Professor and Director, Interdisciplinary Program in Neuroscience. BS 1986, Duke University; MS 1988, New York University; PhD 1993, City University of New York, Mount Sinai School of Medicine.

Jajodia, Sushil, University Professor, Information Sciences and Technology, Volgenau School of Engineering. BA 1969, MS 1971, Southern Illinois University; PhD 1977, University of Oregon.

James, Tania, Associate Professor, English. BA 2003, Harvard University; MA 2006, Columbia University.

Jauchen, Joanna, Instructor, Mathematical Sciences. BS 1999, MS 2001, Texas A&M University.

Jeck, Michael, Term Assistant Professor of World Cinema. BA 1968, Yale University; MFA 1970, New York University.

Jeffrey, Roger, Assistant Professor of Dance. BFA 1996, The Juilliard School.

Jerome, Marc Kinas, Associate Professor of Education, Graduate School of Education. BS 1999, College of New Jersey; MEd 2001, PhD 2008, George Mason University.

Ji, Ran, Term Assistant Professor, Department of System Engineering and Operations Research, Volgenau School of Engineering. BE 2006, China Agricultural University; MS 2012, PhD 2016, George Washington University.

Ji, Wenyong, Assistant Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2010, MS 2011, Texas A & M University; PhD 2018, University of Alberta.

Jin, Naehyun (Paul), Assistant Professor, Tourism and Events Management, School of Recreation, Health and Tourism. BS 1996, Sangji University; MBA 2000, Chung-Ang University; MTHM 2007 Temple University.
Jing, Hao, Assistant Professor, Chemistry and Biochemistry. BS 2004, Qingdao University of Science and Technology; MS 2009, Fudan University; MS 2011, PhD 2015, University of South Carolina.

Johnsen-Neshati, Kristin, Associate Professor of Theater. BA 1987, Swarthmore College; MFA 1992, DFA 2002, Yale School of Drama.

Johnson, Bret, Assistant Professor of Accounting. BS 2000, MS 2000, Brigham Young University; PhD 2015, The Ohio State University.

Johnson, Devon, Associate Professor, Criminology, Law and Society. BA 1994, University of California, Santa Cruz; MA 1996, PhD 2002, University of California, Los Angeles.

Johnson, Elizabeth D., Assistant Professor, Statistics. BS 1986, MAT 1992, MS 2002, PhD 2009, University of South Carolina.

Johnson, Noel, Associate Professor of Economics, BA 1995, Kenyon College; PhD 2004 Washington University, St. Louis.

Johnston, Joyce, Lecturer of English. BA 1969, Dickinson College; MA 1971, Emory University.

Johri, Aditya, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. B.S. 1998, Delhi College of Engineering, India; M.S. 2002, Georgia Institute of Technology; PhD 2007, Stanford University.

Joiner, Christopher, Associate Professor of Marketing. BA 1988, Duke University; MBA 1992, Wake Forest University; PhD 1997, University of Minnesota.

Jones, Garett, Associate Professor of Economics. BA 1992, Brigham Young University; MPA 1993, Cornell; MA 1994, University of California, Berkeley; PhD 2000, University of California, San Diego.

Jones, James H., Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1989, Georgia Tech; MS 1995, Clemson University; PhD 2008, George Mason University.

Jones, Margaret, Professor of Kinesiology, School of Recreation, Health and Tourism. BA 1982, University of Tennessee; MEd 1985, University of Houston; PhD 1989, University of Georgia.

Jones, R. Christian, Professor, Environmental Science and Policy and Director, Potomac Environmental Research and Education Center. BA 1973, Rice University; MA 1977, Vanderbilt University; PhD 1980, University of Wisconsin.

Jones, Rachel, Chair and Associate Professor, Philosophy, College of Humanities and Social Sciences. BA (Hons) 1991, Oxford University MA 1992, PhD 1998, University of Warwick.

Jones, Rebecca M., Associate Professor, Chemistry and Biochemistry; STEM Accelerator. BA 1998, The Ohio State University; MS 2002, PhD 2004, University of Cincinnati.

Jones, Rochelle R., Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1999, MS 2002, George Mason University; PhD 2009, University of Central Florida.

Jordan, Yevette Richards, Associate Professor, History. BA 1982, College of William and Mary; MA 1988, MA 1990; MPhil 1991, PhD 1994, Yale University.

Jorgenson, Linn L., Associate Professor in the Graduate School of Education in the College of Education and Human Development. BS 1989, University of Wisconsin; MS 2001, Indiana State University; EdD 2010, Fielding Graduate University.

Josephson, Brett, Assistant Professor of Marketing. BS 2007, MS 2010, University of Idaho; PhD 2014, Washington State University.

Joshi, Mahesh P., Associate Professor of Management. BS 1981, Diploma in Business Management; 1984, St. Xavier’s College, India; PhD 1996, Temple University.

Joyce, James D., Associate Professor of Dance. BFA 1983, North Carolina School of the Arts; MFA 2003, George Mason University.

Jung, Eun Ju, Assistant Professor of Information Systems and Operations Management. BA 2001, MBA 2005, Kyungpook National University; PhD 2015, Michigan State University.

Jung, Young A., Term Assistant Professor of Korean. BA 1995, MA 1998, PhD 2003, Korea University (Seoul, Korea); PhD 2014, George Mason University.

Jusu, Nikyatu, Assistant Professor, Film and Video Studies. BA 2005, Duke University; MFA 2011, New York University.

K

Kabbani, Nadine, Associate Professor, Interdisciplinary Program in Neuroscience. BS 1997, George Mason University; PhD 2003, Pennsylvania State University.

Kaiser, Karen, Associate Professor in the Graduate School of Education in the College of Education and Human Development. BS 1986, Virginia Polytechnic Institute and State University; MS 1988, Radford University; MEd 1991, University of Virginia; MPA 2012, George Mason University; PhD 2011, University of Virginia.

Kan, Cing-Dao (Steve), Professor, Physics and Astronomy. BS 1998, Jimei University; MS 1985, Oregon State University; PhD 1990, University of Maryland, College Park.

Kang, Pilgyu, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2007, Seoul National University; MS 2009, Carnegie Mellon University; PhD 2014, Cornell University.

Kaplan, Seth, Associate Professor, Psychology. BS 1998, University of Florida; MS 2003, PhD 2006, Tulane University.

Karametou, Maria, Associate Professor, School of Art. BA 1974, University of Maryland; MFA 1979, Maryland Institute College of Art.

Kardambikis, Christopher, Assistant Professor and Director of Printmaking, School of Art, College of Visual and Performing Arts. BFA 2005, Carnegie Mellon University; MFA 2012, University of California, San Diego.
Karton, Alissa, Assistant to the Vice President and Director of Special Projects, University Life. BA 1992, MA 1993, University of Rochester.

Karush, Matthew B., Professor, History and Art History. BA 1990, Columbia University; MA 1992, PhD 1997, University of Chicago.

Kashanchi, Fatah, Professor, School of Systems Biology. BS 1983, NW Missouri State University; MS 1985, Emporia State University; PhD 1991 University of Kansas.

Kashdan, Todd, Professor, Psychology. BS 1996, Cornell University; MA 2000, PhD 2004, State University of New York, Buffalo.

Kathir, Nathan, Adjunct Instructor. BS 1974, University of Ceylong; MEngg 1976, Asian Institute of Technology; MS 1979, North Dakota State; PhD 1991, Texas A&M.

Katz, Mark N., Professor, Schar School of Policy and Government. BA 1976, University of California, Riverside; MA 1978, Johns Hopkins University; PhD 1982, Massachusetts Institute of Technology.

Kaufmann, David, Professor of English. AB 1980, Princeton University; PhD 1989, Yale University.

Kauzlirich, Richard D., Distinguished Visiting Professor and Co-Director of the Center for Energy Science and Policy and Director of the Peace Operations Policy Program, Schar School of Policy and Government. BA 1966, Valparaiso University; MA 1967, Indiana University; MA 1975, University of Michigan.

Keene, Deborah M., Director, Law Library. BA 1974, MLS 1975, Vanderbilt University; JD 1980, University of Tennessee.

Kehn-Hall, Kylie, Associate Professor, School of Systems Biology. BS Biology 2000, BS Chemistry 2001, Virginia Commonwealth University; MS 2002, PhD 2006 The George Washington University.

Kehoe, Susan S., Director of Educational Media and Executive Producer, GMU-TV. BA, Illinois College; MS Northwestern University; DA 2000, George Mason University.

Keith, Sally, Associate Professor, English. BA 1996, Bucknell University; MFA 2000, University of Iowa.

Kelly, Anthony Eammon, Professor of Education, Graduate School of Education. BA 1979, St. Patrick’s College, Dublin; MA 1984, California State University; PhD 1988, Stanford University.

Kelly, Nancy, Term Assistant Professor of Nursing. ADN 1980, Fairmont State College; BSN 1995, University of Wisconsin, Milwaukee; MSN 2007, DNP 2011, University of Virginia.

Kennedy, Christopher, Associate Professor, Environmental Science and Policy. BS 2005, Clarkson University; PhD 2011, University of Wyoming.

Kennedy, William G., Associate Professor, Computational and Data Sciences. BS 1972, U.S. Naval Academy; MS 1973, Naval Postgraduate School; PhD 2003, George Mason University.

Kermer, Debby, Data Services Research Consultant, University Libraries. BS 2000, Willamette University; MA 2009, University of Virginia.

Kerschberg, Larry, Professor, Computer Science, Volgenau School of Engineering. BS 1964, Case Institute of Technology; MS 1966, University of Wisconsin; PhD 1969, Case Western Reserve University.

Keyser, Randall, Associate Professor of Rehabilitation Science and Center for the Study of Chronic Illness and Disability. BS 1979, MA 1981, Kent State University; PhD 1985, University of Toledo.

Khan, Assad A., Associate Director for Undergraduate Student Affairs, College of Science. BSJ 1999, West Virginia University; MA 2011, George Mason University.

Kidd, Julie, Professor of Education, Graduate School of Education. BA 1980, University of Richmond; MEd 1984, James Madison University; PhD 1992, Virginia Polytechnic Institute and State University.

Klier, Cynthia Anne, Professor, History and Art History. BA 1980, McGill University; MA 1982, PhD 1986, University of Virginia.

Kikkerly, Jacqueline, Early Childhood Special Education Specialist. MAT 2007, University of Virginia.

Kim, Dae Young, Associate Professor of Sociology. BA 1991, State University of New York, Binghamton; MPhil 1998, PhD 2001, City University of New York Graduate Center.

Kim, Hyo Jung, Assistant Professor of Accounting. BBA 2005, MBA 2007, Yonsei University; MSA 2008, University of Illinois; PhD 2016, The University of Arizona.

Kim, Sojung, Assistant Professor. Department of Communication. BA 2009, Korea University; MA 2007, Indiana University; PhD 2011 University of Wisconsin-Madison.

Kim, Sujin, Assistant Professor in the Graduate School of Education in the College of Education and Human Development. BA 1996, MA 2002, Seoul National University; PhD 2014, University of Missouri-St. Louis.

King, Karen, Assistant Professor of Business Foundations. BA, University of North Carolina; MS, Catholic University of America; MBA, James Madison University; PhD, University of Virginia.

King, Michael, Assistant Professor of Information Systems and Operations Management. BS, MBA, University of North Carolina; MS, University of Virginia; PhD, Virginia Polytechnic Institute and State University.

King, Sara M., Term Assistant Professor, English. AB 1983, Cornell University; MFA 1989, University of Arkansas.

King-Sears, Margaret (Peggy), Professor of Education, Graduate School of Education. BS 1977, Valdosta State College; MA 1980, University of North Florida; PhD 1989, University of Florida.
Kinnaman, Theodore, Chair, Department of Philosophy, and Associate Professor of Philosophy. BA 1985, Carleton College; MA 1988, PhD 1995, University of Wisconsin, Madison.

Kinser, Jason M., Associate Professor and Chair, Computational and Data Sciences. BA 1985, William Jewell College; MS 1987, University of Alabama, Huntsville; DSc 1993, South Eastern Institute of Technology.

Kinter, James L. III, Professor and Chair, Atmospheric, Oceanic and Earth Sciences. AB 1979, MA 1981, PhD 1984, Princeton University.

Kirker, Maoria J., Instruction and Assessment Coordinator, University Libraries. BA 2009, University of Wisconsin, Madison; MSLS 2011, University of Illinois, Urbana-Champaign.

Kirsch, Jane, Instructor, Academic English, INTO Mason. BA 1982, College of William and Mary; MA 1999, George Mason University.

Kirsch, Vicki, Term Associate Professor of Social Work. BA 1978, Georgetown University; MA 1980, The University of Chicago; PhD 1990, Emory University; MSW 1997, Boston University.

Kitching, Karen Taranto, Associate Professor of Accounting. BS 1993, MSA 1996, American University; PhD 2007, George Washington University.

Kitsantas, Anastasia, Professor of Education, Graduate School of Education. BA 1992, BS 1992, MS 1993, Queens College, City University of New York; MA 1995, PhD 1996, Graduate School and University Center, City University of New York.

Kitsantas, Panagiota, Professor of Health Administration and Policy. BA 1996, Queens College (CUNY); MS 1999, James Madison University; MS 2000, PhD 2003, Florida State University.

Klein, Daniel B., Professor of Economics, BS 1983, George Mason University; PhD 1990, New York University.

Klein, Margaret, Assistant Director, TTAC, Kellar Institute for Human disAbilities, College of Education and Human Development. BA 1978, Furman University; MEd 1983 Marymount University.

Klimoski, Richard J., Professor of Management and Psychology. BA 1965, University of Massachusetts; MS 1968, PhD 1970, Purdue University.

Klimov, Dmitri, Professor, School of Systems Biology. MS 1989, PhD 1992, Moscow State University.

Klinger, Barry, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1985, PhD 1992, Massachusetts Institute of Technology and Woods Hole Oceanographic Institution.

Klaus, Haagen, Assistant Professor, Sociology and Anthropology. BA 2000, State University of New York; MA 2003 Southern Illinois University; PhD 2008, The Ohio State University.

Knight, Kelly L., Assistant Professor, Forensic Science. BS 2006, George Washington University; MFS 2008, Virginia Commonwealth University.

Knudsen, Erik C., Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2001, Villanova; MS 2003, PhD 2006, University of Florida.

Koblentz, Gregory D., Associate Professor of Government and Politics and Director of Biodefense Program, Schar School of Policy and Government. BA 1996, Brown University; MPP 1999, Harvard University; PhD 2004, Massachusetts Institute of Technology.

Kocache, Malda, Associate Professor, Biology. BS 1984, American University of Beirut; 1989 PhD, Georgetown University.

Koch, Lisa, Term Full Professor of English. BA 1987, Washington University; MA 1992, PhD 2000, University of Maryland.

Kohn, Ellen, Core Instructor, Undergraduate Studies Advisor, INTO MASON. AB 1972, University of Michigan; MS 1979, Georgetown University.

Koizumi, Naoru, Associate Professor of Public Policy and Director of Research, Schar School of Policy and Government. BA 1992, Aoyama-Gakuin University; MA 1994, PhD 2002, University of Pennsylvania; PhD 2005, Hyogo Medical College.

Koper, Christopher S., Associate Professor, Criminology, Law, and Society. BA 1988, MA 1992, PhD 1995, University of Maryland.

Kornienko, Olga, Assistant Professor, Psychology. BS 2002 Bellevue University; MA 2007, PhD 2010, Arizona State University.

Korostelina, Karina, Professor, School for Conflict Analysis and Resolution. BA 1990, MA 1991, National Kiev University; PhD 1994, Odessa State University; Dr. of Sc. 2003, Ukrainian Academy of Science.

Kosecka, Jana, Professor, Computer Science, Volgenau School of Engineering. MSE, EECS 1988, Slovak Technical University, Bratislava, Slovakia; PhD 1996, University of Pennsylvania.

Kosoglu, Laura, Associate Department Chair and Associate Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2005, MS 2007, Lehigh University; PhD 2011, Virginia Polytechnic and State University.

Koutney, Colin, Assistant Professor of Accounting. BS 2009, University of California; MS 2013, California State University; PhD 2018, University of Texas.

Koyama, Mark, Associate Professor of Economics. BA 2003, Trinity College, University of Oxford; MA 2006, PhD 2006, Wadham College, University of Oxford.

Kozlowski, James, Associate Professor of Parks, Recreation, and Leisure Studies, School of Recreation, Health, and Tourism. BA 1972, Johns Hopkins University; MA 1973, University of Chicago; MS 1976, University of Illinois; JD 1980, University of Maryland School of Law; PhD 1986 University of Maryland.

Krall, Jenna, Assistant Professor of Global and Community Health. BA 2008, George Mason University; PhD 2014, Johns Hopkins Bloomberg School of Public Health.

Kraus, Amanda, Assistant Professor, Film and Video Studies. BA 2000, Columbia College, Hollywood.

Krell, Misty, Director of Student Services, School of Integrative Studies. BA 2002, Albion College, MI; MAIS 2011, George Mason University.

Kreps, Gary, Chair and University Professor, Communication and Eileen P. and Steve A. Mandell Term Professor of Health Communication. BA 1975, MA 1976, University of Colorado; PhD 1979, University of Southern California.

Krueger, Frank, Associate Professor, School of Systems Biology. MS 1997, PhD 2000, Humboldt University Berlin, Germany; MA 2002, Free University Berlin, Germany.

Kugler, Maurice D., Professor of Public Policy, Schar School of Policy and Government. BS 1989, MS 1991, London School of Economics and Political Science; PhD 2000, University of California, Berkeley.

Kulesza, John S., Professor, Mathematical Sciences. BA 1978, Bucknell University; MA 1981, PhD 1987, State University of New York, Binghamton.

Kulick, Jeffrey, Instructor of Marketing. BA 1970, Oakland University; MBA 1977, Keller Graduate School of Business.

Kurtay, Pelin A., Associate Chair and Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1994, MS 1997, Ankara University; PhD 2005 George Mason University.

Kurtz, Lester R., Professor of Sociology, BA 1972, Westmar College; MAR 1974, Yale University; PhD 1980, University of Chicago.

Kuykendall, Lauren, Assistant Professor. BS 2007, Wofford College; MS 2013, PhD 2015, Purdue University.

Kwon, Harim, Assistant Professor, English. BA 2005, MA 2007, Seoul National University; PhD 2015, University of Michigan.

La Porte, Todd M., Term Associate Professor, Schar School of Policy and Government. BA 1980, Swarthmore College; MA, PhD 1989, Yale University.

LaCharite, Kerri, Assistant Professor of Nutrition and Food Studies. BA 1999, University of New Hampshire; MPW 2008, Chatham University; PhD 2014, Prescott College.

LaCroix, Leslie. Assistant Professor, Graduate School of Education in the College of Education and Human Development. BS, 1994 James Madison University; MS 1999 McDaniel College, PhD 2015, George Mason University.

Laemmerzahl, Arndt, Associate Professor, Biology. BS 1983, MS 1990, George Mason University; MS 1993, Texas Tech University; PhD 2005, George Mason University.

LaFrance, Michelle, Assistant Professor of English and Director, Writing Across the Curriculum program. BA 1995, Antioch University, Yellow Springs, OH; MA 2002, PhD 2009, University of Washington, Seattle.

Lair, Meredith H., Director of Interdisciplinary Studies Program and Associate Professor, History and Art History. BA 1994, Ohio University; PhD 2004, Pennsylvania State University.

Lam, Margaret N., Physical Sciences and STEM Data Librarian, University Libraries. BA 2005, MA 2007, MLS 2009, Queens College, City University of New York.

Lamba, Harbir, Associate Professor, Mathematical Sciences. BA 1988, Cambridge University; PhD 1994, Bristol University.

Lancaster, Roger N., Professor of Anthropology and Cultural Studies. BA 1982, University of North Carolina; MA 1983, PhD 1987, University of California, Berkeley.

Landoll, Christine, Instructor of Business Foundations. BS 1989, MS 1992, George Mason University.

Landry, Elena, Global Programs and Foreign Languages Librarian, University Libraries. BA, MS, Tbilisi State University, MLIS, Louisiana State University.

Langfred, Claus W., Associate Professor of Management. BS 1993, Washington University, St. Louis; MS 1995, PhD 1998, Northwestern University.

Largen, Kim D.B., Associate Professor, Environmental Science and Policy. BA 1980, University of Virginia; MS 1988, PhD 2000, George Mason University.

Laskofski, Michael, Associate Vice President for Research Operations. BBA 1996, MBA 2003, Boston University.

Latiff, Robert, Research Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1971, MS 1973, PhD 1974, University of Notre Dame.

Lattanzi, David A., Assistant Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 2003, MS 2005, Tufts University; MS 2013, PhD 2013, University of Washington.

Lattanzi Shutika, Debra L., Chair and Associate Professor, English. BSN 1987, West Virginia University School of Nursing; MA 1993, George Mason University; MA 1998, PhD 2001, University of Pennsylvania.

Lauer, Anne, Instructor of Business Foundations. BA 1975, Grove City College; MA 1978, Georgetown University; MS 199, John Hopkins University.

Lawrence, Heidi, Assistant Professor, English. BA 2002, Mary Washington College; MA 2007, George Mason University; PhD 2013, Virginia Polytechnic Institute and State University.

Lawrence, James Franklin, Professor, Mathematical Sciences. BS 1972, Oklahoma State University; PhD 1975, University of Washington.
Lawrence, Susan, Director, Writing Center. BA 1982, College of William and Mary; MA 1993, University of Wisconsin, Madison; PhD 2005, Carnegie Mellon University.

Lawrence, James D., Professor, Biology. BS 1971, Wake Forest University; AM 1973, University of South Dakota; PhD 1977, The Ohio State University.

Lawton, Sean D., Associate Professor, Mathematical Sciences. BS 2000, MA 2003, PhD 2006, University of Maryland, College Park.

Layendecker, Dennis, Heritage Chair and Professor of Music, College of Visual and Performing Arts. BM 1975, American Conservatory of Music; MM 1981, Northwestern University; DMA 1988, Catholic University of America.

Lazaroff, Kurt, Term Assistant Professor, School of Integrative Studies. BA 1980, Allegheny College; Med 2001, Edinboro University of Pennsylvania; PhD 2012, University of North Carolina-Greensboro.

Lebovic, Sam, Associate Professor of History. BA 2003, University of Sydney; MA 2005, PhD 2011, University of Chicago.

Lebowitz, Sydney; MA 2005, PhD 2011, University of Chicago.

Lees, Andrew Y., Assistant Professor of Theater. BA 1985, University of Maryland.

Lee, Yi-Ching, Assistant Professor. BA 2008, Myongji University, South Korea; MA 2011, MPA 2013, University of Florida.

Lee, Philseok, Associate Professor of Psychology. BS 1998, Soochow University; MS 2001, Central Michigan University; PhD 2006, University of Iowa.

Lee, Seokwoo, Associate Professor, Management, School of Recreation, Health, and Tourism. BEng 1995, In-Ha University; MTA 2001, George Washington University; PhD 2009, Virginia Polytechnic Institute and State University.

Lee, Lee, JoAnn, Assistant Professor of Management. BA 1987, University of California; MBA 1991, University of Southern California; PhD 2001, Boston University.

Lee, Hun, Associate Professor of Management. BS 1986, Georgia Institute of Technology; MBA 1988, Thunderbird School of Global Management; PhD 1995, University of Maryland.

Lee, Juanita P., Term Instructor, School of Nursing. BSN 1975, Norfolk State University; MSN 2011, George Mason University.

Lee, Philseok, Assistant Professor. BA 2008 Myongji University, South Korea; MA 2013, PhD 2016, University of South Florida.

Lee, Seungwon (Shawn), Associate Professor of Tourism and Events Management, School of Recreation, Health, and Tourism. BEng 1995, In-Ha University; MTA 2001, George Washington University; PhD 2009, Virginia Polytechnic Institute and State University.

Lee, Yi-Ching, Assistant Professor of Psychology. BS 1998, Soochow University; MS 2001, Central Michigan University; PhD 2006, University of Iowa.

Leeman, Jennifer, Professor, Modern and Classical Languages. BA 1986, University of Pennsylvania; MA 1988, New York University; MAT 1993, PhD 2000, Georgetown University.

Leeson, Peter, Duncan Black Professor of Economics and Professor of Economics. BA 2001, PhD 2005, George Mason University.

Leonard, Charles, Term Faculty, Honors College. BA 1985 Clemson University, MA 1995 Miami University.

Leonard, Jeannie Brown, Dean of Student Academic Affairs - Advising, Retention and Transitions. AB 1985, Mount Holyoke College; MEd 1990, University of Vermont; PhD 2007, University of Maryland.

Lepore, Jim, Professor of Dance. BA 1987, State University of New York; MFA 1989, Temple University.

Leslie, Timothy, Associate Professor, Geography and Geoinformation Science. BA 2002, University of Miami; MA 2004, PhD 2007, Arizona State University.

Lester, Jaime Renee, Professor, Higher Education Program. BA, University of Michigan; MEd 2003, PhD 2006, University of Southern California.

Letiecq, Bethany L., Associate Professor and Academic Program Coordinator, Human Development and Family Science, Graduate School of Education in the College of Education and Human Development. BA 1991, University of Rhode Island; MS 1995, PhD 1999, University of Maryland, College Park.

Levine, James Steven, Associate Professor of Russian. BA 1971, BA 1972, State University of New York, Buffalo; MA 1974, PhD 1977, University of Illinois, Urbana-Champaign.

Levis, Alexander H., University Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BA 1963, Ripon College; BS 1965, MS 1965, ME 1967, ScD 1968, Massachusetts Institute of Technology.

Levy, David M., Professor of Economics. BA 1966, University of California, Berkeley; MA 1970, PhD 1979, University of Chicago.

Lewis, Gwendolyn M., Assistant Professor, Interdisciplinary Program in Neuroscience. BS, James Madison University; PhD 2015, University of Virginia.

Lewis, Kaleb, Associate Director, Career Services, School of Business. BBS 2011, MPA 2013, University of Florida.

Lewis, Rachel A., Term Associate Professor of Women and Gender Studies. BA 2004, University of York; MA 2007, PhD 2011, Cornell University.

Lewis, Virginia Ann, Director, Retention Initiatives. BS 1975, Towson State University; MA 1979, University of Maryland.

Li, Fei, Associate Professor, Computer Science, Volgenau School of Engineering. BSc 1997, Jilin University; MS 2002, PhD 2007, Columbia University.

Li, Jiasun, Assistant Professor of Finance. BS 2011, Fudan University; PhD 2016, University of California, Los Angeles.

Li, Qiliang, Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1996, Wuhan University; MS 1999, Nanjing University; PhD 2004, North Carolina State University.
Li, Xin, Assistant Professor of Information Systems and Operations Management. BBA 2000, Wuhan University; MBA 2002, PhD 2004 Washington State University.

Liberatore, Stephanie, Term Assistant Professor, English. BA 2006, Pennsylvania State University; MFA 2014, George Mason University.

Liberty, Paul J., Vice President for Government and Community Relations. BA 1988, George Mason University.

Lichter, Samuel, Professor, Communication. BA 1969, University of Minnesota; PhD 1977, Harvard University.

Lien, Jyh-Ming, Associate Professor, Computer Science, Volgenau School of Engineering. BS 1999, National Cheng-Chi University; PhD 2006, Texas A&M University.

Light, Andrew, University Professor, Philosophy. BA 1989, Mercer University; MA 1992, PhD 1996, University of California, Riverside.

Lim, Haw Chuan, Assistant Professor, Biology. BEnvSc 1996, University of Wollongong, Australia; MS 2002, National University of Singapore; PhD 2010, Louisiana State University.

Lin, Jessica H., Associate Professor, Computer Science, Volgenau School of Engineering. BS 1999, MS 2002, PhD 2005, University of California, Riverside.

Lindley, Lisa, Associate Professor of Global and Community Health. BS 1991, George Mason University; MPH 1993, DrPH, 1997, University of South Carolina.

Linton, Harold, Professor, School of Art, College of Visual and Performing Arts. BFA 1969, Syracuse University; MFA 1972, Yale University.

Liotta, Lance, Codirector, Center for Applied Proteomics and Molecular Medicine, University Professor, School of Systems Biology. BA 1969, PhD 1974, MD 1976, Case Western Reserve University.

Lister, Lisa M., Term Professor, English. BA 1997, Lewis and Clark College; MFA 2005, American University.

Liu, Zhong, Research Professor, Environmental Science and Policy. BS 1983, Shandong College of Oceanography; MS 1990, SD School of Mines and Technology; PhD 1995, The Ohio State University.

Lockwood, J. Samaine, Associate Professor, English. BA 1996, Vassar College; MA 1997, University of Michigan, Ann Arbor; PhD 2006, University of California, Davis.

Loerch, Andrew G., Associate Professor and Associate Chair, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1974, Polytechnic Institute of Brooklyn; MS 1980, Naval Postgraduate School; MS 1989, PhD 1990, Cornell University.

Lofaro, Daniel M., Assistant Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS/MS 2008, Drexel University; PhD 2013, Drexel University.

Lohner, Rainald, Distinguished Professor of Fluid Dynamics, Computational and Data Sciences. MS 1982, Technische Universität, Braunschweig, West Germany; PhD 1984, University College of Swansea, Wales.

Loomis, Diane, Transition Coordinator. BA 1974, Florida State University; MS 1977, University of Tennessee; PhD 2007, George Mason University.

Lopez Bunyasi, Tehama, Assistant Professor, School for Conflict Analysis and Resolution. BA 2001, University of Virginia; PhD 2009, University of Chicago.

López, Eduardo E., Assistant Professor, Computational and Data Sciences. MA 2000, PhD 2005, Boston University.

Lopez-Santana, Mariely, Associate Professor and Director of Political Science Doctoral Program, Schar School of Policy and Government. BA 1997, University of Puerto Rico Piedras; PhD 2006 University of Michigan.

Lorie, Craig A, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1990, Hofstra University; MS 1993, PhD 2005, University of Virginia.

Louh, Nyla, Assistant Director, Development, College of Visual and Performing Arts. BM 2003, James Madison University; MM 2006, George Mason University.

Louis, Germaine, Professor and Dean, College of Health and Human Services. RN 1975, Millard Fillmore School of Nursing; BA 1978, MS 1980, PhD 1987, State University of New York at Buffalo.

Lovejoy, Thomas E., University Professor of Public and International Affairs and Environmental Science and Policy. BS 1964, PhD 1971, Yale University.

Lowder, Evan, Assistant Professor, Criminology, Law and Society. BA 2012, College of Saint Benedict; MS 2015, PhD 2017, North Carolina State University.

Lucas, Nance, Associate Professor, School of Integrative Studies. BA 1982, MA 1984, Pennsylvania State University; PhD 1999, University of Maryland.

Ludwick, Ann M., Assistant Professor and Assistant Dean for Undergraduate Academic Affairs, Schar School of Policy and Government. BA 1988, Longwood University; MPA 1995, DA 2011, George Mason University.

Luke, Sean, Professor, Computer Science, Volgenau School of Engineering. BS 1993, Brigham Young University; PhD 2000, University of Maryland.

Lukes, Laura A., Assistant Director for Teaching Excellence, Stearns Center for Teaching and Learning; Affiliate Assistant Professor, Department of Atmospheric, Oceanic, & Earth Sciences. BS 2002, The Ohio State University; MS 2004, Virginia Polytechnic Institute and State University; MED 2005, The Ohio State University; PhD 2014, North Carolina State University.

Lukyanenko, Anton, Assistant Professor, Mathematical Sciences. BS 2007, University of Maryland, College Park; PhD 2014, University of Illinois, Urbana-Champaign.

Lukyanenko, Cynthia, Term Assistant Professor, English Linguistics. BA 2008, University of Maryland; MA 2011, PhD 2014, University of Illinois.

Lum, Cynthia, Professor, Criminology, Law and Society. BA 1995, University of California; MS 1996, London School of Economics and Political Science; PhD 2003, University of Maryland.
Luther, David, Associate Professor, Biology. BS 1995, University of Oregon; PhD 2008, University of North Carolina, Chapel Hill.

Lyons, Michael, Instructor, Information Sciences and Technology, Volgenau School of Engineering. BAppSc, Chisholm Institute of Technology; MS, University of Maryland University College.

Lyons, Terrence P., Associate Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1981, University of Virginia; MA 1985, Michigan State University; PhD 1994, Johns Hopkins University.

Mack, M. Reese, Term Assistant Professor, English. BA 2009, MFA 2012, George Mason University.

Madden, Charles, Associate Professor, Biology. BS 1989, Kansas State University; PhD 1996, Louisiana State University.

Maddock, Peggy Jo, Professor and Chair, Health Administration and Policy. BSN 1974, University of Nevada; MSN 1981, Catholic University of America; EdD 1995, Columbia University.

Maddock, Tamara A., Associate Professor, Computer Science, Volgenau School of Engineering. BS 1987, George Mason University; JD 1991, College of William and Mary.

Madison, Sorina, Term Instructor, Health Administration and Policy. MD 1996, Carol Davila University of Medicine and Pharmacy, Romania; MPH 2001, George Washington University; PhD 2003, George Mason University.

Magee, Christopher D., Social Sciences Librarian, University Libraries. BA 2003, MS 2011, George Mason University; MSIS 2015, University of Tennessee.

Maggioni, Viviana, Assistant Professor, Civil, Environmental & Infrastructure Engineering, Volgenau School of Engineering. BS 2003, MS 2006, Politecnico di Milano, Italy; PhD 2013, University of Connecticut.

Magnant, Paul, Instructor in the School of Recreation, Health and Tourism in the College of Education and Human Development. BS 1984, Florida State University; MBA 1994, Nova Southeastern University.

Magro, Anne M., Senior Associate Dean, Strategy and Impact and Associate Professor of Accounting. BA 1987, University of Michigan, Ann Arbor; MS 1991, PhD 1998, University of Illinois, Urbana-Champaign.

Maibach, Edward, University Professor and Director of Center of Excellence in Climate Change Communication Research; BA 1980, University of California; MPH 1983, San Diego State University; PhD 1990, Stanford University.

Maiello, Anthony Joseph, University Professor of Music. BS 1965, MS 1967, Ithaca College.

Mainkar, Avinash, Assistant Professor of Management. BT 1983, Indian Institute of Technology; MBA 1985, Tulane University; PhD 2000, University of Connecticut.

Major, Travis, Director of Graduate Admissions, Schar School of Policy and Government. BA 1994, Virginia Polytechnic Institute and State University; EML 2005, Georgetown University.

Malawer, Stuart S., Distinguished Service Professor of Law and International Trade, Schar School of Policy and Government. BA, University of Buffalo; MA, PhD 1976, University of Pennsylvania.

Malur, Michal J. McElwain, Director, External Programs, Schar School of Policy and Government. BA 1996; MA 1998, George Mason University.

Mallett, Karyn Elizabeth, Associate Director, English Language Programs, INTO Mason. BA 1997, University of Iowa; MA 2002, California State University - Sacramento; PhD 2009, Purdue University.

Mallinson, R. Kevin, Associate Professor of Nursing. BSN 1989, University of Miami; MSN 1997, PhD 2001, Johns Hopkins University.

Mancini, Terri A., Director, Sponsored Research Administration, Volgenau School of Engineering. BS 1993, Strayer University; MPA 2008, George Mason University.

Mandaville, Peter P., Professor, Schar School of Policy and Government. MA 1994, University of St. Andrews, Scotland; MA 1995, PhD 1999, University of Kent, Canterbury, United Kingdom.

Mangus, Kathryn K., Term Instructor of Communication; Director for Student Media. BIS 1987, MAIS 1990, George Mason University.

Manitius, A.Z., Professor, Electrical and Computer Engineering, Volgenau School of Engineering. MSEE 1960, Academy of Mining and Metallurgy, Krakow, Poland; PhD 1968, Politechnical School of Warsaw.

Mann, Wendy, Director, Digital Scholarship Center, University Libraries. BA, MLS, University of Pittsburgh; MPP, George Mason University.

Mantz, Jeffrey W., Assistant Professor of Anthropology. BA 1993, University of Massachusetts; MA 1996, State University of New York, Binghamton; PhD 2003, University of Chicago.

Manuel Scott, Wendi N., Term Associate Professor, School of Integrative Studies. BA 1994, College of Charleston; MA 1997, PhD 2003, Howard University.

Manzo, Gino J., Instructor, Volgenau School of Engineering. BS 1975, MEng 1976, Cornell University.

Marasco, Emanuela, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BA, MS 2006, PhD 2007, University of Naples Federico II (Italy).

Marbojoc, Roderick, Director, Center for Real Estate Entrepreneurship, School of Business. BA 1988, Ateneo de Manila University; MBA 1993, American University.

Mark, Brian L., Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BSc 1991, University of Waterloo; MA 1993, PhD 1995, Princeton University.

Marks, Michelle A., Vice President for Academic Innovation and New Ventures, Office of the Provost and Professor, School of Business. BS
Mathison, Patricia, Associate Professor of German. MA (Doctoraal Examen) 1994, Universiteit van Amsterdam (The Netherlands); PhD 2003, University of Illinois, Urbana-Champaign.

Markx, Francien, Associate Professor of German. MA (Doctoraal Examen) 1994, Universiteit van Amsterdam (The Netherlands); PhD 2003, University of Illinois, Urbana-Champaign.

Martin, Joel, Assistant Professor of Exercise, Fitness and Health Promotion, School of Recreation, Health and Tourism. BS 2007, State University of New York at Binghamton; MS 2009, MS 2012, PhD 2012, Pennsylvania State University.

Martin, Scott, Director and Associate Professor of Computer Game Design; Director, Virginia Serious Game Institute. BM 1988, MM 1989, Johns Hopkins University; DMA 2000, University of Maryland.

Martinelli, Cesare, Professor of Economics and Faculty, Interdisciplinary Center for Economic Science. BA 1987, Pontificia Universidad Catolica Del Peru; MS 1991, PhD 1993, University of California, Los Angeles.

Marttinen, Risto, Assistant Professor in the Graduate School of Education in the College of Education and Human Development. BS 2006, MS 2008, California State University, Fullerton; EdD 2015, Columbia University.

Marvel, John D., Assistant Professor of Government and Politics, Schar School of Policy and Government. BA 2003 Amherst College; MPP 2011, PhD 2012 American University.

Marzougui, Dafer, Associate Professor, Physics and Astronomy. BS 1988, MS 1993, Pennsylvania State University; DS 1999, George Washington University.

Maskell, Shayna, Term Assistant Professor, School of Integrative Studies. BA 2001, University of Pennsylvania; MA 2006, University of Southern California; PhD 2014, University of Maryland.

Mason, Linda, Professor, College of Education and Human Development. BS 1976, University of Texas; MEd 1994, PhD 2002, University of Maryland.

Massie, Courtney, Assistant Director, University Writing Center. BA 2008, Yale University; MA 2012, PhD 2017, The University of Texas at Austin.

Masters, Patricia, Term Associate Professor, Sociology. BA 1990, George Mason University; MA 1993, PhD 1998, American University.

Masterson, Alexandra, Assistant Professor, Biology. BA 1978 Biology, California State University Fresno; Doctor of Pharmacy 1982, University of the Pacific; MSEd 2001, Old Dominion University.

Mathis, Sara, Introductory Course Coordinator and Term Assistant Professor of Communication. BS 1998, Illinois State University; MA 2004, University of New Mexico; PhD 2015, University of Utah.

Mathison, Patricia, Director, Social Action & Integrative Learning (SAIL). BA 2004, Shippensburg University, PA; MA 2008, Appalachian State University, NC.

Matthews, Jessica, Term Professor, English. BS 1972, Drexel University; MA 1992, Austin Peay State University; PhD 2005, George Washington University.

Mattix, April, Assistant Professor, Graduate School of Education. BA, Saint Francis University; MA 1999 University of Pittsburgh; MAT 2003 Chatham College; PhD 2012 University of Pittsburgh.

Matto, Holly, Associate Professor of Social Work. BFA 1994, Ohio University; MSW 1996, University of Michigan; PhD 2000, University of Maryland.

Mattson, Janna, Instructional and Social Sciences Librarian, University Libraries. BA 1997, Virginia Commonwealth University; MSL 2004, Queens College, City University of New York.

Matz, Robert, Dean, George Mason University Korea. AB 1986, Cornell University; MA 1988, PhD 1994, Johns Hopkins University.

Maulden, Patricia, Associate Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1999, University of California, Santa Cruz; MS 2002, PhD 2007, George Mason University.

Mayer, Jeremy D., Associate Professor, Schar School of Policy and Government. BA 1990, Brown University; PhD 1996, Georgetown University.

McAuliffe, Terence R., Distinguished Visiting Professor, Schar School of Policy and Government. BA 1979, Catholic University; JD 1984, Georgetown University.

McBride, Randolph A., Associate Professor, Atmospheric, Oceanic and Earth Sciences. BA 1982, Wittenberg University; MS 1986, PhD 1997, Louisiana State University.

McCabe, Kevin A., Professor of Economics, Law, and Neuroscience, Center for the Study of Neuroeconomics. BS 1976, Villanova University; PhD 1985, University of Pennsylvania.

McCarron, Graziella, Assistant Professor, School of Integrative Studies. BS 2000, American University; MA 2004, PhD 2012, University of Maryland.

McCord, Theodore B., Term Associate Professor of History. BA 1968; MA 1976; George Mason University; PhD 1991, American University.

Mccue-Weil, Leigh, Executive Director, Government Contracting, School of Policy and Government. BA 1999, North Carolina State University; MFA 2001, University of Iowa Writers’ Workshop; MA 2002, PhD 2007 University of Michigan, Ann Arbor.

McDonald, Craig G., Associate Professor, Psychology. BSc 1989, MSc 1994, PhD 2001, University of Victoria.

McDowell, Jacqueline, Associate Professor, School of Recreation, Health and Tourism in the College of Education and Human Development. BS 1999, MS 2005, PhD 2008, Texas A & M University.

McGinn, John, Executive Director, Government Contracting, School of Business. BS 1990 United States Military Academy; MS 1998, PhD 2002, Georgetown University.

McGrath, Robert J., Associate Professor of Government and Politics and Director of Undergraduate Programs, Schar School of Policy and Government. BA 2004, Saint Peter's College; PhD 2011, The University of Iowa.

McGuire, Heather, Term Assistant Professor, History and Art History, BA 1989, University of Virginia, BFA 1996, PhD 2010, Virginia Commonwealth University

McKnight, Patrick E., Associate Professor, Human Factors and Applied Cognition. BS 1988, University of Notre Dame; MS 1992, PhD 1997, University of Arizona.

McNay, Curtis L., Director of Information Technology Security, ITU.

McSherry, Erin, Director of Advising and Retention, College of Humanities and Social Sciences. BA 2002, Old Dominion University; MA Ed 2010, The George Washington University.

McVicker, Carrie, Associate Director, Facilities and Operations, College of Science. BA 1992, Bloomburg University of Pennsylvania.

Meamber, Laurie A., Associate Professor of Marketing. BA 1988, University of California, Davis; MBA 1991, University of California, Riverside; PhD 1997, University of California, Irvine.

Mehlenbeck, Robyn, Clinical Associate Professor, Director of the Center for Psychological Services. BS 1991, The College of William and Mary; MS 1995, PhD 1998 the University of Memphis.

Mehta, Kumar, Associate Professor of Information Systems and Operations Management. BS 1993, Indian Institute of Technology; MS 1996, Southern Illinois University; PhD 2002, University of Illinois.

Melville, Anne, Education Librarian, University Libraries. BA 1985 Portland State University; MS 1999 MS 2001, University of Tennessee, Knoxville.

Menascé, Daniel A., University Professor, Computer Science, Volgenau School of Engineering. BS 1974, MS 1975, Pontificia Universidad Católica do Rio de Janeiro; PhD 1978, University of California, Los Angeles.

Merola, Linda M., Associate Professor, Criminology, Law and Society. BA 1995, Wesleyan University; JD 1998, George Washington University National Law Center; PhD 2007, Georgetown University.

Messier, Jennifer, Term Assistant Professor, English. BA 2006, Oswego State University; MFA 2010, George Mason University.

Meyer, Carrie A., Associate Professor of Economics. BA 1980, MS 1985, PhD 1988, University of Illinois.

Michals, Teresa, Associate Professor, English. AB, Cornell University; MA 1988, PhD 1996, Johns Hopkins University.

Middle, Beverly, Term Assistant Professor of Nursing. BS 1979, Radford University; MS 1988, Catholic University of America.

Miller, Angela, Associate Professor of Education, Graduate School of Education. BA 1991, University of Kansas; MA 1995 University of Kansas; MA 2001, PhD 2006 University of Missouri-Kansas City.

Miller, Char R., Associate Professor of Government and Politics, Schar School of Policy and Government. BA 1990, BS 1990, Idaho State University; PhD 1999, Johns Hopkins University.

Miller, David, Assistant Professor of Management. BA 1995, University of Michigan; MS 1996, University of London; MBA 2001, University of Chicago.

Miller, David, Term Instructor, Department of Communication. BS 1992 Columbia Union College; MA 2004 George Mason University.

Miller, Laurie, Term Instructor and English Composition Course Coordinator, INTO Mason. BS 1986, MA 1990, California Polytechnic University, San Luis Obispo; MA 1992, Indiana University.

Miller, Linda Garner, Professor of Dance. BFA 1972, University of Cincinnati; MFA 1980, University of Hawaii.

Miller-Hooks, Elise D., Professor and Bill and Eleanor Hazel Endowed Chair in Infrastructure Engineering, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BS 1987, Lafayette College; MS 1994, PhD 1997 University of Texas at Austin.

Mills, Irene, Associate Director of Budget, College of Humanities and Social Sciences. BS 1992, The Pennsylvania State University.

Min, Hua, Associate Professor of Health Administration and Policy. MB 1993, Nanjing Tiedao Medical College; MS 1999, PhD 2006, New Jersey Institute of Technology.

Minkle, Phillip, Assistant Professor. BA 1977, Millsaps College; JD 1981, University of Mississippi.

Mishin, Yuri, Professor, Physics and Astronomy. MS 1979, PhD 1985, National University of Science and Technology MISOI, Moscow, Russia.

Mishra, Saurabh, Associate Professor of Marketing. BA 1997, MA 1999, University of Delhi; PhD 2006, Indiana University.

Mitchell, Permon, Mason LIFE Residential Housing Coordinator, Kellar Institute for Human disAbilities, College of Education and Human Development. BS, MS, South Carolina State University.
Mitcho, Sara, Assistant Director of Global Affairs Program and Assistant Professor. BA 2000, James Madison University; MA 2002, The Pennsylvania State University; PhD 2014, George Mason University.

Mollerstrom, Johanna, Associate Professor of Economics, BA 2001, Stockholm University; MSc 2006, Stockholm School of Economics; MA 2011, PhD 2013, Harvard University.

Monea, Alexander, Assistant Professor of Digital Humanities, Department of English and Department of Cultural Studies, College of Humanities and Social Sciences. BA 2010, Walsh University; MA 2012, Bowling Green State University; PhD 2016, North Carolina State University.

Monson, Linda Apple, Professor and Director, School of Music, College of Visual and Performing Arts. BMEd 1979, MM 1981, DMA 1986, Peabody Conservatory of Music of the Johns Hopkins University; Diploma (piano performance), Santiago de Compostela, Spain.

Montiel, Sara, Assistant Director of Student Services, School of Integrative Studies. BS 2004, Virginia Commonwealth University; MS 2011, George Mason University.

Moon, James, Director of Operations, School for Conflict Analysis and Resolution. BA 1997, Florida State University; MS 2012, George Mason University.

Moorman, Barbara, Associate Director, Academic Services, School of Business. BS 2009, George Mason University; MEd 2001, University of Florida.

Moran, Jeffrey, Assistant Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2007, MS 2011, Arizona State University; PhD 2013, University of Washington.

Morelli, Julia G., Director of Operations, Capitol Connection. MA 1995, George Mason University.

Mori, Kyoko, Professor, English. BA 1979, Rockford College; MA 1981, PhD 1984, University of Wisconsin, Milwaukee.

Morikawa, Riki, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. MBA 1995, George Washington University; PhD 2004, George Mason University.

Morris, Bradley, Assistant Director of Student Success and Retention, School of Business. BS 2013, University of Miami; MBA 2017, Mercy College.

Morris, Walter D., Jr., Professor, Mathematical Sciences. BS 1980, Iowa State University; MS 1984, PhD 1986, Cornell University.

Moteabbed-Tabarrai, Shara, Assistant Professor of Business Foundations. BS 2005, MBA 2008, Sharif University of Technology; PhD 2014, ESSEC Business School.

Moto, Amihai, Professor, Computer Science, Volgenau School of Engineering. BS 1972, Tel Aviv University; MS 1976, Hebrew University of Jerusalem; PhD 1981, University of Pennsylvania.

Motti, Vivian G., Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 2006, MS 2009, University of Sao Paulo; PhD 2013 Catholic University of Louvain.

Moyher, Robin. Assistant Director of the Mason LIFE Program, College of Education and Human Development. BS 1994, MEd 1998, Old Dominion University.

Muir, Janette Kenner, Associate Provost for Academic Initiatives and Services. Associate Professor, School of Integrative Studies and Communication. BS 1979, Palm Beach Atlantic College; MA 1983, Wake Forest University; PhD 1986, University of Massachusetts.

Muir, Star A., Associate Professor of Communication. BA 1980, Wake Forest University; MA 1982, University of Central Florida; PhD 1990, University of Pittsburgh.

Mullen, Lincoln, Associate Professor of History. BA 2006, MA 2008, Bob Jones University; MA 2010, PhD 2014, Brandeis University.

Mulpuri, V.R., Professor, Electrical and Computer Engineering, Volgenau School of Engineering. MS 1983, PhD 1985, Oregon State University.

Murdoch, Erin Quinlivan. Term Assistant Professor, Psychology. BA 2000, Muhlenberg College; MA 2002, Wake Forest University; PhD 2006, The Pennsylvania State University.

Murphy, Una M., Director, Outreach, Mason in Loudoun, Regional Campuses. BA 1989, Brooklyn College.

Murray, Kevin P., Program Manager of Theater. BA 1975, University of Maryland.

N

Nagro, Sarah A. Assistant Professor, Graduate School of Education in the College of Education and Human Development. BA 2005, MS 2006, D’Youville College; EdD 2015, Johns Hopkins University.

Nam, Sang, Interim Director and Assistant Professor, Computer Game Design. MFA 2004, New York State College of Ceramics at Alfred University.

Nanian, Richard A., Term Associate Professor of English. BA 1984, Simon’s Rock College; MA 1995, Salem State College; PhD 2000, University of Wisconsin, Milwaukee.

Nash, Stephen G., Senior Associate Dean and Professor, Systems Engineering and Operations Research; Senior Associate Dean, Volgenau School of Engineering; and Affiliate, Department of Mathematical Sciences. BS 1977, University of Alberta, Canada; PhD 1982, Stanford University.

Neary, Michael, Instructor of Computer Science. BS 2015, MS 2019, University of Maryland, Baltimore County.

Nealnes, Tonya T., Research Instructor and Director of Extramural Projects, Schar School of Policy and Government. BA 2004, MPPA 2007, PhD 2014, Mississippi State University.

Neitzke, Eric, Instructional Designer and Technologist, School of Business. BA 1982, James Madison University; MA 2013, Rocky Mountain College of Art & Design.
Nelson, Jill Karen, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1998, Rice University; MS 2001, PhD 2005, University of Illinois, Urbana-Champaign.

Nelson, Mary, Assistant Professor, Mathematics and STEM Accelerator Faculty. BS 1970, Marquette; MS, George Mason University; PhD 2005, University of Colorado-Boulder.

Neuber, Kristine, Assistive Technology/Parent Information Technology Coordinator, Kellar Institute for Human disAbilities, College of Education and Human Development. BS 1992, Southern Connecticut State University; MEd 1997, PhD 2013, George Mason University.

Neville, Frank, Chief of Staff, Office of the President and Vice President, Communications and Marketing, University Relations. BA 1988, Carleton College; MBA 2013 Thunderbird School of Global Management.

Nichols, Len, Director, Center for Health Policy Research and Ethics; Professor of Health Administration and Policy. BA 1975, Hendrix College; MA 1976, University of Arkansas; MS 1978, PhD 1980, University of Illinois.

Nichols, Michael, Associate Professor of Music. BM 1998, Manhattan School of Music; MM 2001, Yale University; DMA 2006, University of Michigan.

Nicogossian, Arnauld E.T., Distinguished Research Professor and Director of the Center for the Study of International Medical Policies and Practices, Schar School of Policy and Government. BA 1956, Lycée Franco-Iranian Razi, Iran; MD 1964, Tehran University; MS 1972, Ohio State University.

Nicotera, Anne Maydan, Professor and Chair, Communication. BA 1985, Utica College of Syracuse University; MA 1987, State University of New York, Albany; PhD 1990, Ohio University.

Nikoi, Andrea, Director of Finance and Human Resources, School of Systems Biology. BS 1987, MBA 1991, University of New Orleans.

Nikolic, Predrag, Associate Professor, Physics and Astronomy. BS 1998, University of Belgrade, Serbia; PhD 2004, Massachusetts Institute of Technology.

Noctine, Stephen, Director of Digital Learning, Stearns Center for Teaching and Learning. BS 1976, MS 1978, PhD 1990, Clemson University.

Nolan, Matthew S., Assistant Professor, Computer Game Design. BM 2007, Berklee College of Music; MM 2012, George Mason University.

Nolder, S. Lisa, Associate Director for Undergraduate Programs, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BA 1995, Hawaii Pacific University; MA 2008, George Mason University.

Nord, Julia, Professor, Atmospheric Oceanic and Earth Science. BS 1981, University of Birmingham; MS 1984, University of Minnesota, Duluth; PhD 1989, City University of New York, Brooklyn College.

Norden, Luanne, Instructor of Physical Education, School of Recreation, Health, and Tourism. BS 1981, MA 1984, University of Nebraska.

Norris, Robert, Assistant Professor, Criminology, Law and Society. BA 2009, University of North Carolina; MA 2011, PhD 2015, University of Albany.

Novak, Andrew, Assistant Professor, Criminology, Law and Society. BA 2005, MS 2006, George Washington University; JD 2009, Boston University School of Law; PhD 2016, Middlesex University School of Law.

Nowzari, Cameron, Assistant Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 2009, University of California, Santa Barbara; MS 2010, PhD 2013, University of California, San Diego.

Nunez, Lucas, Assistant Professor, Schar School of Policy and Government. BA 2009, Universidad Torcuato Di Tella; MS 2015, PhD 2018, California Institute of Technology.

Nye, John, Professor of Economics. BS 1981, California Institute of Technology; MA 1983, PhD 1985, Northwestern University.

Nykyforovych, Mariia, Assistant Professor of Accounting. BIR 2002, MEcon 2003, Kiev State University; MBA 2007, University of North Florida; PhD 2017, University of North Carolina.

O

Oakleaf, Kara, Director, Fall for the Book Festival, English. BA 2005, Denison University; MFA 2010, George Mason University.

Oberle, George D., History Librarian, University Libraries. BA 1996, MA 1999, George Mason University; MLS 2003, University of Maryland, College Park; PhD 2016, George Mason University.

O'Brien, Ellen E., Director of the Math Learning Center and Administrative Faculty. BA 1976, MAT 1978, MA 1979, State University of New York, Binghamton.

O'Brien, Kristen Merrill, Assistant Professor, Graduate School of Education in the College of Education and Human Development. BA 2006, MEd 2007, PhD 2016, University of Florida.

O'Connor, Parker, Term Assistant Professor, English. BA 2012, Oklahoma City University; MFA 2015, Oklahoma State University.

Odstrcil, Dusan, Research Professor, Computational and Data Sciences. BS 1978, MS 1979, PhD 1984, Comenius University.

Oerter, Robert N., Associate Professor, Physics and Astronomy. BA 1983, Swarthmore College; MS 1987, PhD 1989, University of Maryland.

Oetjen, Cheryl, Term Assistant Professor and Interim Director, School of Nursing. ADN 1993, Northern Virginia Community College; MSN 2007, George Mason University; DNP 2014, Old Dominion University.

Offutt, A. Jefferson, Professor, Computer Science, Volgenau School of Engineering. BS 1982, Morehead State University; MS 1985, PhD 1988, Georgia Institute of Technology.

O'Gara, Genya, Deputy Director, Virtual Library of Virginia, University Libraries. BA 2002, Evergreen State College; MLS 2008, University of North Carolina, Chapel Hill.
Oh, Kyeung Mi, Associate Professor of Nursing. BA 1998, University of Newcastle; MS 1999, University of Sydney; PhD 2005, University of Sheffield.

Ok, Seunghun, Technical Assistance Specialist/TTAC Online Administrator, Kellar Institute for Human disAbilities, College of Education and Human Development. BS 1991, Seoul National University; MEd 1996, Illinois State University; MEd 2006, George Mason University.

Olcowski, Elizabeth C., Assistant Dean, Graduate Program Management, Schar School of Policy and Government. BS 1993, Georgetown University; MA 1998, University of London.

Olds, James, University Professor of Neuroscience, Schar School of Policy and Government. BA 1978, Amherst College; PhD 1987, University of Michigan.

Olmo, Valerie, Assistant Professor, Biology. BS 2004, Boston College; PhD 2010, Johns Hopkins University.

Olson, Kristina M., Associate Professor of Italian. BA 1998, Bard College; MA 2001, PhD 2006, Columbia University.

O’Malley, Michael, Professor of History. BA 1981, Temple University; MA 1984, PhD 1988, University of California, Berkeley.

O’Neill, Olivia, Associate Professor of Management. BS 2000, University of Maryland; PhD 2005, Stanford University.

Orens, John, Term Professor of History. BS 1965, University of Wisconsin; MA 1968, PhD 1976, Columbia University.

Osborn-Harrison, Denise, Term Assistant Professor; Department of Health Administration and Policy. BA, University of California Irvine; JD, University of San Diego; MPH 2012, The George Washington University.

Osgood, Robert, Associate Professor, Electrical and Computer Engineering and Program Director, Data Analytics Engineering, Volgenau School of Engineering. MS 1980 Wagner College; MS 2002, George Mason University.

Osterman, Anne, Director, Virtual Library of Virginia, University Libraries. BA 2001 Florida State University; MLS 2002, University of North Carolina, Chapel Hill; MS 2010, American University.

Osterweil, Eric, Assistant Professor of Computer Science. BA 1997, Johns Hopkins University; PhD 2010, University of California, Los Angeles.

O’Toole, Mary Ellen, Director, Forensic Science. BS 1974, Western Illinois University; MA 1977, Southern Illinois University.

Otis, Jessica, Assistant Professor of History and Director of Public Projects, RRCHNM. BS 2003, College of William and Mary; MS 2005, MA 2007, PhD 2003, University of Virginia.

Otten, John, Instructor, Computer Science, Volgenau School of Engineering. BA 1983, The Ohio State University, MM 1985. Baylor University, MS 1992, College of William and Mary.

Ouagrham-Gormley, Sonia B., Associate Professor of Government and Politics, Schar School of Policy and Government. UAFL 1988, MAFL 1989, University of Paris X Nanterre; PhD 1988, School of Advanced Social Sciences, Paris.

Ouellette, Nicole, Associate Director, Advancement and Alumni Relations, School of Business. BA 2010, MPA 2013, George Mason University.

Owen, Julie E., Associate Professor of School of Integrative Studies. BA 1993, College of William and Mary; MEd 1996, James Madison University; PhD 2008, University of Maryland.

Owens, Thomas C., Associate Professor of Music. BA 1991, University of North Carolina, Greensboro; MA 1994, PhD 1999, Yale University.

Parham, Candace, Assistant Professor of Athletic Training, School of Recreation, Health, and Tourism. BS 2003, University of Virginia; MS 2005, George Mason University.

Paris, Bernd-Peter, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1980, Nagarjuna University, India; MS 2003, PhD 2008, George Mason University.

Pankey, Eric, Professor of English, Heritage Chair in Writing. BS 1981, University of Missouri; MFA 1983, University of Iowa.

Park, Kristy Lee, Term Associate Professor of Education, Graduate School of Education. BS 2000, James Madison University; MA 2003, University of Virginia; EdS 2005, George Washington University; PhD 2008, University of Louisville.

Park, Minkyung, Associate Professor, School of Recreation, Health, and Tourism, College of Education and Human Development. BA 1990, MA 1993, Han Yang University, Korea; MS 1996, Pennsylvania State University; PhD 2000, Texas A&M University.

Park, Sun-Young, Assistant Professor of History. BA 2003, Princeton University; MA 2008 Harvard University Graduate School of Design; PhD 2014, Harvard University.

Parker, Audra K., Associate Professor and Academic Program Coordinator, Elementary Education PK-6, Graduate School of Education in the College of Education and Human Development. BA 1995, MAT 1995, University of Virginia; PhD 2005, University of Georgia.

Parker, Cindy W., Assistant Professor of Management. BS 1992, MA 1994, PhD 1998, George Mason University.

Parsons, Seth, Associate Professor of Education, Graduate School of Education. BA 2002, Centre College; MEd 2005, PhD 2008, University of North Carolina, Greensboro.
Parth, Pathak, Assistant Professor, Computer Science, Volgenau School of Engineering. BE 2005, Gujarat University; MS, PhD 2012 North Carolina State University.

Pascarell, Rose B., Vice President, University Life. AAS, 1986, BA, 1988, State University of New York at Albany; MA, 1992, George Mason University.

Pasnak, Robert, Professor of Psychology. BS 1964, University of Maryland; MS 1965, MA 1996, PhD 1969, Pennsylvania State University.

Patterson, Pamela, Associate Vice President, University Life. BS 1989, MS 1991, Eastern Illinois University.

Paul, Elizabeth, Term Assistant Professor, English. BA 1997, Evergreen State College; MA 1999, University of Virginia; 2015, MFA Vermont College of Fine Arts.

Pawlucz, Robert, Assistant Professor of Accounting. BA 2000, Franklin & Marshall College; MS 2009, PhD 2011, City University of New York.

Pearlstein, Steven, Robinson Professor of Public and International Affairs, Schar School of Policy and Government. BA 1973, Trinity College.

Pecini, Silva, Director of Student Services, Schar School of Policy and Government. BA 2004, University of South Florida; MPP 2007, George Mason University.

Pegion, Kathleen V., Assistant Professor, Atmospheric, Oceanic and Earth Sciences. BS 1998, MS 1998, MS 1999, Florida State University; PhD 2007, George Mason University.

Peiperl, Maury, Dean, School of Business and Professor of Management. BSE 1982, Princeton University; 1986 MBA, AM 1992, PhD 1994, Harvard University.

Peixoto, Nathalia, Associate Professor; Electrical and Computer Engineering, Volgenau School of Engineering. BS 1996, MS 1997, Universidade Estadual de Campinas (UNICAMP), SP Brazil; DSc 2001, Universidade de Sao Paulo (USP), SP Brazil.

Peppard, Lora, Term Clinical Associate Professor of Nursing. BA 1998, Wesleyan College; MS 2004, Boston College; DNP 2008, Columbia University.

Perdiou, Thomas, Counselor, Student Financial Aid. BA 1987, University of Iowa.

Perilla, German, Instructor. BS 1987, University of Maryland; MA 2012, George Mason University.

Peters-Burton, Erin, Professor of Education, Graduate School of Education. BS 1990, University of Illinois, Urbana-Champaign; MEd 2004, University of Virginia; PhD 2007, George Mason University.

Peters, Esther C., Associate Professor, Environmental Science and Policy. BS 1974, Furman University; MS 1978, University of South Florida; PhD 1984, University of Rhode Island.

Petersen, Jackie, Librarian, Kellar Institute for Human disAbilities, College of Education and Human Development. BA 1981, Morehead State University; MLS 1987, Indiana University.

Peterson Andrew, Assistant Professor of Philosophy and Faculty Fellow, Institute for Philosophy and Public Policy. BA 2004, Sonoma State University; MA 2011, San Francisco State University; PhD 2016, University of Western Ontario.

Peterson, Matthew S., Associate Professor of Psychology. BA 1992, University of Tennessee, Knoxville; MA 1994, PhD 1997, University of Kansas.

Petricoin, Emanuel F., Codirector, Center for Applied Proteomics and Molecular Medicine; University Professor, School of Systems Biology. BS 1985, PhD 1990, University of Maryland.

Pfiffner, James P., University Professor, Schar School of Policy and Government. BA 1968, MA 1972, PhD 1975, University of Wisconsin, Madison.

Pfoser, Dieter, Chair and Professor, Geography and Geoinformation Science. MS 1996, Johannes Kepler University, Linz, Austria; PhD 2000, Aalborg University.

Pham, Anh, Assistant Professor, Schar School of Policy and Government. BA 2009, Bard College; MA 2011, PhD 2015, University of California, San Diego.

Phillipov, Alexander, Associate Professor of Finance. MS 1996, University of Massachusetts, Amherst; PhD 2003, Boston College.

Photos, Lisa E., Term Assistant Professor of English. BA 1987, Florida State University; MA 1989, PhD 2008, University of Wisconsin-Madison.

Piccione, Paul Eric, Assistant Professor, Computer Game Design. BA 1987, Western Michigan University.

Pichichero, Christy, Associate Professor of French. AB 1998, Princeton; BM 2000, Eastman School of Music; PhD 2008, Stanford University.

Pierce, Lorraine, Associate Professor of Education, Graduate School of Education. BS 1974, University of Texas, Austin; MA 1976, University of Texas, San Antonio; PhD 1984, Georgetown University.

Pierce, Robert, Assistant Professor of Business Foundations. BA 1982, MA 1988, PhD 1996, University of Virginia.

Piloff, Steven, Associate Professor of Finance. BA 1989, University of Virginia; MA 1993, PhD 1995, Wharton School, University of Pennsylvania.

Platt, Brian W., Chair, Department of History and Art History; Associate Professor of History. BA 1992, Guilford College; PhD 1998, University of Illinois.

Plavchan, Peter Paul, Assistant Professor, Physics and Astronomy. BS 2001, California Institute of Technology; MS 2002, PhD 2006, University of California, Los Angeles.

Pokorski, Dale Mary, Director of Information Technology and Security, College of Science. BA 1985, Smith College; MBA 1989, Auburn University of Montgomery.

Poapst, Jacquelyn, Assistant Director of Debate. Department of Communication. MA 2015, George Mason University.

Poley, Deborah, Associate Professor, Biology. BS 1978, University of Connecticut; PhD 1983, Michigan State University.
Polk, Thomas, Assistant Director Writing Across the Curriculum, English. BA 2005, University of Maryland College Park; MA 2009, University of North Carolina Wilmington; MSED 2014, Johns Hopkins University.

Pollack, Anna, Assistant Professor of Global and Community Health. BA 2001, Smith College; MPH 2007, George Washington University; PhD 2011, Johns Hopkins University.

Pollard, Jeffrey, Director, Counseling Center. BS 1970, MS 1974, Old Dominion University; PhD 1978, University of Virginia.

Polsby, Daniel, Dean and Foundation Professor of Law. BA 1964, Oakland University; JD 1971, University of Minnesota.

Porter, Timothy, Assistant Professor of Information Systems and Operations Management. BS 1969, University of New Orleans; MSA 1976, George Washington University.

Powell, Marvin, Assistant Professor, College of Education and Human Development. BS 2005, MSc 2009, University of the West Indies; PhD 2016, University of North Texas.

Price, Elizabeth, Associate Professor of Dance. BA 1972, Randolph-Macon Women’s College; MA 1978, New York University.

Price, James, Research Professor, School for Conflict Analysis and Resolution. BA 1972, Lawrence University; MA 1976, PhD 1980, University of Chicago.

Protopsaltis, Spiros, Associate Professor in the Graduate School of Education in the College of Education and Human Development. BA 1998, Northeastern University; MS 2000, The New School; PhD 2008, University of Colorado, Denver.

Prueitt, Catherine, Assistant Professor, Department of Religious Studies. BA 2007, University of Rochester; PhD 2016, Emory University.

Pullen, J. Mark, Professor, Computer Science, Volgenau School of Engineering. BS 1970, MS 1972, West Virginia University; PhD 1981, George Washington University.

Purcell, Darden, Assistant Professor of Music. BFA 1998, Virginia Polytechnic and State University; MM 2009, DMA 2012, University of Illinois at Urbana-Champaign.

Purohit, Hemant, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BTech 2009, The LNMIIT India; PhD 2015, Wright State University.

Pyster, Arthur B., Associate Dean for Research and Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1971, University of Illinois; MS 1973, PhD 1975, Ohio State University.

Qiao, Wani, Assistant Professor, Statistics, Volgenau School of Engineering. BS 2007, Fudan University; PhD 2013, University of California, Davis.

Qu, John, Professor, Geography and Geoinformation Science. BS 1983, Nanjing Institute of Meteorology; MS 1993, PhD 1997, Colorado State University.

Quinn, Patrick J., Director of Student Accounts. BS 1997, University of Phoenix; MBA 2001, Arizona State University.

R

R.G., Rebecca, Assistant Professor, Mathematical Sciences. BA/MA, 2011, Bryn Mawr College; PhD 2016, University of Michigan.

Rabin, Lisa Marie, Associate Professor of Spanish. BA 1986, Pomona College; MA 1990, PhD 1993, Yale University.

Rafatirad, Setareh, Term Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering, BS 2005 Tehran Azad University; MS 2010, PhD 2012 University of California, Irvine.

Ramezani, Niloofar, Assistant Professor, Statistics, Volgenau School of Engineering. BSc 2009, Shahid Beheshti University, MSc 2012, PhD 2017, University of Northern Colorado.

Ramirez, Carlos D., Professor of Economics. BA 1987, Wittenberg University; AM 1991, PhD 1993, Harvard University.

Ramos, Kathleen Ann, Assistant Professor, College of Education and Human Development. BA 1985, Clarion University of Pennsylvania; MAT 1990, PhD 2012, University of Pittsburgh.

Ramsdell, Justin, Term Assistant Professor. BA 2005, MA 2008, PhD 2011, Argosy University.

Rancourt, Emily, Associate Professor, Forensic Science. BA 2000 Purdue University, MFS 2002 George Washington University.

Rangwala, Huzefa, Professor, Computer Science, Volgenau School of Engineering. BE 2003, Mumbai University; MS 2005, PhD 2008, University of Minnesota, Twin Cities.

Rashkover, Randi, Assistant Professor, Religious Studies. BA 1987, Barnard College, Columbia University; MTS 1990, Harvard Divinity School, Harvard University; PhD 2000, University of Virginia.

Ratzlaff, Janet, TTAC Coordinator, Kellar Institute for Human disAbilities, College of Education and Human Development. BA 1980, Shepherd College; MEd 2012, American College of Education.

Ray, Sharon, Assistant Professor of Education, Graduate School of Education. BS 1998, MEd 1999, James Madison University; PhD 2008, University of South Florida.

Ready, Psyche, Term Instructor, English. BA 2000, Shimer College; MA 2016, George Mason University.

Reagle, Colin J., Associate Professor, Mechanical Engineering, Volgenau School of Engineering. BS 2007, MS 2009, PhD 2012, Virginia Polytechnic Institute and State University.

Reeder, William F., Professor of Arts Management and Heritage Chair, Founding Dean (Ret.) College of Visual and Performing Arts. BA 1968, MMus 1970, Washington University.
Reedy, Karen, Associate Professor of Dance. BFA 1995, MFA 2009, George Mason University.

Regan, Kelley, Associate Professor of Education, Graduate School of Education. BS 1996; MS 1997, Longwood College; PhD 2005, George Mason University.

Regan, Priscilla M., Professor of Government and Politics, Schar School of Policy and Government. BA 1972, Mount Holyoke College; MA 1975, New York University; MA 1977, PhD 1981, Cornell University.

Reichert, Kenneth J., Professor of Public Policy and Director, International Commerce and Policy Program, Schar School of Policy and Government. BA 1980, MA 1982 Boston University; MA 1985, PhD 1988 University of Maryland.

Ren, Hang, Assistant Professor of Information Systems and Operations Management. BEng 2013, MEng 2013, Xi’an Jiaotong University; MRes 2014, PhD 2018, University College London.

Rendler, Elaine, Term Professor of Music. BMed 1968, Immaculata College; MM 1972, DMA 1978, Catholic University.

Renshaw, Keith, Chair and Associate Professor, Psychology. BS 1995, Duke University; MA 1998, PhD 2003 University of North Carolina at Chapel Hill.

Repinecz, Jonathon, Assistant Professor of French. BA 2005 Washington University in St. Louis; PhD 2013 University of California, Berkeley.

Requeijo, Tiago, Assistant Professor Finance. BS 2002, Instituto Superior Técnico; MS 2005, PhD 2007, Stanford University.

Reybold, L. Earle, Professor of Education, Graduate School of Education. BA 1990, MA 1992, PhD 1996, University of Georgia.

Rhodes, Edward, Professor, Schar School of Policy and Government. AB 1980, Harvard University; MPA 1982, PhD 1985, Princeton University.

Rice, Matthew T., Associate Professor, Geography and Geoinformation Science. BS 1995, MS 1998, Brigham Young University; PhD 2005, University of California, Santa Barbara.

Richards, Dana S., Associate Professor, Computer Science, Volgenau School of Engineering. MS 1976, University of Virginia; PhD 1984, University of Illinois.

Ridgon, Suzanne, Manager, Fall for the Book Festival. BA 2011, Hartwick College; MFA 2017, George Mason University.

Rioux-Bailey, Carmen, Assistant Professor of Education, Graduate School of Education. BA 1986, Marymount University; MED 1997, George Mason University; EdS 2003, George Washington University.

Riskind, John Haskell, Professor of Psychology. BA 1970, University of Texas, Austin; PhD 1977, Yale University.

Ritterhouse, Jennifer, Professor, History. BA 1992, Harvard University; MA 1994, PhD 1999, University of North Carolina, Chapel Hill.

Ro, Young-chan, Professor of Religious Studies. BTh 1965, MTh 1969, Yonsei University; MTh 1973, Union Theological Seminary; PhD 1982, University of California, Santa Barbara.

Robb, Charles S., Distinguished Professor of Law and Public Policy. BBA 1961, University of Wisconsin; JD 1973, University of Virginia.

Roberts, Kathleen, Instructor of Accounting. BS 1981, California State University; MBA 2018, Virginia Polytechnic Institute and State University.

Robertson, Stephen, Professor of History and Director, Roy Rosenzweig Center for History and New Media. BA 1989, BA 1990, University of Otago, Dunedin; PhD 1997, Rutgers University.

Robinson, Gregory, Assistant Professor of Music. BA 2002, Colby College; PhD 2008 University of Pennsylvania.

Robinson, Iris M., Assistant Dean for Student and Academic Affairs, College of Education and Human Development. AB, Vassar College; MPA, State University of New York, Albany.

Robison, Charles, Assistant Professor of Kinesiology, School of Recreation, Health, and Tourism. BSEd 2004, Missouri Southern State University; MS 2006, University of Central Missouri; PhD 2011, University of North Carolina-Greensboro.

Rockmann, Kevin, Professor of Management. BS 1999, PhD 2004, University of Illinois, Urbana-Champaign.

Rockwood, Larry Lewis, Chair and Professor, Biology. BS 1965, PhD 1972, University of Chicago.

Rodan, Margaret, Associate Professor of Nursing. BSN 1980, BA 1980, University of Delaware; MSN 1981, University of Arizona; MPH 1989, MS 1990, ScD 1997, Harvard University.

Rodgers, Ellen B. Drogin, Associate Dean and Associate Professor of Parks, Recreation, and Leisure Studies, College of Education and Human Development. BA 1982, Hood College; MA 1985, University of Maryland; PhD 1991, Pennsylvania State University.

Rodgers, R. Pierre, Associate Professor of Sports Management, School of Recreation, Health, and Tourism. BA 1984, University of Alabama; MA 1986, Memphis State University; PhD 1991, Pennsylvania State University.

Roeting, William, Research Professor, C41 and Cyber Center, Volgenau School of Engineering. BA 1971, Lock Haven University, MS 1986, Naval Postgraduate School, Monterey, CA.

Rogers, Paul M., Associate Professor, English. BA 2000, MA 2003, Humboldt State University; MA 2006, PhD 2008, University of California, Santa Barbara.

Roman-Mendoza, Esperanza, Associate Professor of Spanish. BA 1989, Universidad Complutense de Madrid, Spain; PhD 1997, Universidad Nacional de Educación a Distancia, Spain.

Roman, Francisco, Associate Professor of Accounting. BA 1989, MS 1997, MSA 2000, PhD 2003, University of Arizona.
Romano, Arthur, Assistant Professor of Conflict Analysis and Resolution, School for Conflict Analysis and Resolution. BA 1997 University of North Carolina, Chapel Hill; MA 2005, PhD 2011, University of Bradford, UK.

Rome, Sunny Harris, Professor of Social Work. BA 1976, Occidental College; MSW 1978, University of Michigan; JD 1984, Georgetown University.

Root, Hilton L., Professor of Public Policy, Schar School of Policy and Government. BA 1974, State University of New York, Buffalo; MA 1977, PhD 1983, University of Michigan.

Rose, Joyce A., Operations Manager, Volgenau School of Engineering. BA 1975, Fairfield University; MSLS 1976, Catholic University of America.

Rose, Steven R., Professor of Social Work. BA 1973, Brooklyn College, City University of New York; MSW 1975, Washington University; PhD 1981, University of Wisconsin, Madison.

Rosenberg, Jessica, Associate Professor, Physics and Astronomy and Acting Director, STEM Accelerator. BA 1993, Wesleyan University; PhD 2000, University of Massachussetts.

Rosenberger, William F., University Professor and Chair, Statistics, Volgenau School of Engineering. BA 1986, Towson State University; MPhil 1990, PhD 1992, George Washington University.

Rosenbusch, Katherine, Assistant Professor of Management. BS 2000, MS 2001, Texas A&M University; EdD 2010, The George Washington University.

Rosenfeld, Christine, Assistant Professor, Geography and Geoinformation Science. BA 2010, MS 2012, Pennsylvania State University; PhD 2018, George Mason University.

Rosenstein, Carole, Associate Professor of Arts Management. BA 1988, Smith College; MA 1990, University of Chicago; PhD 2000, Brandeis University.

Ross, Shani, Assistant Professor, Bioengineering, Volgenau School of Engineering. BS 2004, Howard University; MS 2006, PhD 2013, University of Michigan.

Rosseim, Matthew, Assistant Professor of Global and Community Health. BA 2009, MPH 2011, University of Florida; PhD 2014 University of North Texas Health Science Center.

Roszkowski, Beth, Lead, Social Sciences Team and Arlington Campus Library, University Libraries. BA 2002, Pennsylvania State University; MLIS 2006, Rutgers University; MPP 2011, George Mason University.

Rothbart, Daniel, Professor of Conflict Analysis and Resolution and Philosophy, School for Conflict Analysis and Resolution. BA 1972, Fairleigh Dickinson University; MA 1975, State University of New York, Binghamton; PhD 1978, Washington University.

Rothstein, Jandos, Associate Professor, School of Art. BA 1986, Antioch College; MFA 1990, Northwestern University.

Rowan, Katherine, Professor of Communication. BA 1975, George Mason University; MA 1978, University of Illinois; PhD 1985, Purdue University.

Rowe, Ellen W., Associate Professor in the Graduate School of Education in the College of Education and Human Development. BA, Davidson College; MA, College of William and Mary; PhD 2005, University of Georgia.

Roy, Pritha G., Assistant Professor, Chemistry and Biochemistry. BS, 1982, MS 1984, Indian Institute of Technology, Kharagpur; PhD, 1991, University of Illinois, Urbana-Champaign.

Rozell, Mark, Dean and Professor of Public Policy; Ruth D. Hazel and John T. Hazel, M.D. Faculty Chair, Schar School of Policy and Government. BA 1982, Eisenhower College; MA 1983, PhD 1987, University of Virginia.

Rubenstein, Richard E., University Professor of Conflict Resolution and Public Affairs, School for Conflict Analysis and Resolution. BA 1959, Harvard University; MA 1961, Oxford University; JD 1963, Harvard University; LittD (hon.) 2016, University of Malta.

Rudes, Danielle S., Associate Professor, Criminology, Law and Society. BA 1993, State University of New York; MA 1998, University of New Orleans; MA 2002, PhD 2008, University of California, Irvine.

Rudnicki, Mark S., Term Assistant Professor, English. BA 1991, St. Bonaventure University; MA 1993, University of Memphis; PhD 2003, State University of New York, Buffalo.

Ruiz Alonso Bartol, Ana, Visiting Lecturer of Spanish through Spain’s Agency for International Development Cooperation. BA 2013, University of Salamanca (Spain); MA 2016, West Virginia University.

Russell, Donald, University Curator and Director of Provisions Research Center for Arts and Social Change, University Development Office and School of Art.

Russell, Katherine E., Instructor, Computer Science, Volgenau School of Engineering. BS 2007, University of Maryland University College; MS 2011, George Mason University.

Rustici, Thomas, Term Associate Professor of Economics. BS 1985, MA 1987, PhD 2005, George Mason University.

Ruth, Stephen Ruddy, Professor and Director, International Center for Applied Studies in Information Technology, Schar School of Policy and Government. BS 1955, U.S. Naval Academy; MS U.S. Naval Postgraduate School; PhD 1971, University of Pennsylvania.

Rytikova, Ioulia, Associate Professor and Assistant Chair for Graduate Studies, Information Sciences and Technology, Volgenau School of Engineering. BS 1993, MS 1993, PhD 1997, Technological University, Moscow, Russia.

S

Sachedina, Abdulaziz, Chair and Professor, Religious Studies, Endowed IIIT Chair in Islamic Studies. BA 1972, PhD 1976 University of Toronto.

Sachs, Robert L., Professor, Mathematical Sciences. BA 1976, Harvard University; PhD 1980, Courant Institute, New York University.

Sadana, Rashmi, Associate Professor, Sociology and Anthropology. BA 1991, MA 1999, PhD 2003, University of California.
Salem, Sam, Department Chair and Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 1988, MS 1992, Clemson University; PhD 1988, University of Alberta.

Salerno, Jennifer L., Assistant Professor, Environmental Science and Policy. BS 2001, Rutgers University; MA 2003, College of William and Mary; PhD 2013, University of Hawaii at Manoa.

Salvador Morales, Carolina, Associate Professor, Bioengineering, Volgenau School of Engineering. BS 2001, National Autonomous University of Mexico; MS 2003, Trinity College Dublin; PhD 2007, University of Oxford.

Samaras, Anastasia, Professor of Education, Graduate School of Education. BA 1972, MEd 1976, PhD 1990, University of Maryland.

Samoienko, Sergei, Term Instructor, Communication. BA 1999, Kuban State University; MA 2006, George Mason University.

Samuelian, Kristin F., Assistant Professor, English. BA 1983, Catholic University of America; MA 1984, PhD 1992, Boston University.

Sander, Evelyn, Professor, Mathematical Sciences. BA 1990, Northwestern University; PhD, 1996, University of Minnesota.

Sanders, Anthony, Distinguished Professor of Real Estate Finance. BA 1974, Chico State College; MA 1976, PhD 1979, University of Georgia.

Sanghera, Kamaljeet, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BA 1996, Delhi University; MS 2001, George Mason University; PhD 2009, Capella University.

Sanyal, Pallab, Associate Professor of Information Systems and Operations Management. BE 1995, University of Calcutta; PhD 2009, University of Minnesota.

Sasan, Avesta, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 2005, MS 2006, PhD 2010, University of California, Irvine.

Satsangi, Rajiv, Assistant Professor, Graduate School of Education in the College of Education and Human Development. BS 2006, Pennsylvania State University; MAT 2010, Marian University; PhD 2015, Purdue University.

Satyapal, Shobita, Professor, Physics and Astronomy. BA 1988, Bryn Mawr College; MA 1990, PhD 1995, University of Rochester.

Sauer, Timothy D., COS Distinguished Scholar; Professor, Mathematical Sciences. BS 1977, Michigan State University; PhD 1982, University of California, Berkeley.

Saunders, Catherine E., Term Associate Professor of English. BA 1986, Harvard University; MA 1998, PhD Candidate, Princeton University.

Sausville, Catherine, Instructor, Mathematical Sciences. BS 2005, MS 2008, George Mason University.

Savage, James, Term Assistant Professor; English. BA 1996, University of Michigan; MFA 2004, George Mason University; MLA 2009, St. John's College, Annapolis, MD.

Scafide, Katherine, Assistant Professor, School of Nursing. BSN 2000, Georgetown University; MSN 2005, PhD 2012, Johns Hopkins University.

Scarcella, Jessica, Associate Professor; English. BA 1993, Tufts University; MA 1998, PhD 2004, New York University.

Scherer, Matthew, Associate Professor of Government and Politics, Schar School of Policy and Government. BA 2000 Williams College; PhD 2007 Johns Hopkins University.

Schiller, Anne, Professor, Anthropology. BA 1979, University of Virginia; MA 1982, PhD 1987, Cornell University.

Schintler, Laurie Ann, Associate Professor and Director of the Transportation Policy, Operations and Logistics Program, Schar School of Policy and Government. BA 1989, University of Iowa; MA 1992, PhD 1995, University of Illinois, Urbana-Champaign.

Schmeidler, Lance E., Professor, Communication. BA 2003, MA 2005, George Mason University.

Schneider, William, Professor, Schar School of Policy and Government. BA 1966, Brandeis University; PhD 1972 Harvard University.

Schnur, Joel Martin, Professor, College of Science. AB 1966, Rutgers University; MS 1969, PhD 1971, Georgetown University.

Schoeny, Mara L., Associate Professor of Conflict Resolution, School for Conflict Analysis and Resolution. BA 1986, University of Virginia; MS 1996, PhD 2006, George Mason University.

Schreifels, John A., Associate Professor; Chemistry and Biochemistry. BS 1975, PhD 1979, University of South Florida.

Schreiner, Sylvia, Assistant Professor; English. BA 2005, Carleton College; MA 2008, PhD 2012, University of Arizona.

Schrum, Kelly, Associate Professor; Higher Education Program, Director of Educational Projects, Roy Rosenzweig Center for History and New Media. BA 1991, University of California, Berkeley; MA 1996, PhD 2000, Johns Hopkins University.

Schulman, Vanessa, Assistant Professor, History. BA 2003, Brown University; MA 2007, PhD 2010, University of California, Irvine.

Schulze, Susan, Term Assistant Professor, History. BA 1986, The School of the Art Institute of Chicago; MA 1995, Southern Illinois University at Edwardsville; 2005 PhD, Saint Louis University.

Schwartz, Margaret, Marketing and Outreach Coordinator, APTDIE; College of Education and Human Development. BA, University of Dayton; MBA, George Washington University.

Schwitz, Michele, Associate Dean for Research, College of Humanities and Social Sciences. BA 1980, MA 1992, Indiana University of Pennsylvania; PhD 2006, University of Pittsburgh.

Scimecca, Joseph Andrew, Professor of Sociology. BA 1962, Hunter College; MA 1965, PhD 1972, New York University.
Scolaro, Margaret J., Term Instructor, English. BA 1994, Mary Washington College; MA 1996, George Mason University.

Scott, Laura, Term Associate Professor of English. BA 1986, Kent State University; MFA 1993, George Mason University.

Scott, O. Kate, Associate Director, Center for Economic Education. BS, BA 2007, The University of Southern Mississippi; MBA 2011, MEd 2015, William Carey University.

Scully, Cathleen, Term Assistant Professor, School of Nursing. BA 1993, Stony Brook University; BSN 1995, Molloy College; DNP 2014, George Mason University.

Scully, Randolph, Associate Professor, History. BA 1992, Williams College; PhD 2002, University of Pennsylvania.

Seniw, Maria, Director of Development, School for Conflict Analysis and Resolution. BA 2007, George Mason University.

Serafini, Ellen Johnson, Assistant Professor of Spanish. BA 2004, University of Arkansas, Fayetteville; MA 2006, University of Arizona; MS 2010, PhD 2013, Georgetown University.

Seshaiyer, Padmanabhan, Associate dean for Academic Affairs and Professor, Mathematical Sciences. BA, MS 1994, Birla Institute of Technology and Science; PhD 1998, University of Maryland.

Setia, Sanjeev, Department Chair and Professor, Computer Science, Volgenau School of Engineering. MSc 1987 Birla Institute of Technology and Science (Pilani); MS 1990, PhD 1993, University of Maryland.

Seto, Donald, Professor, School of Systems Biology. BA 1980, University of California, San Diego; PhD 1987, Johns Hopkins University.

Shadur, Julia, Assistant Professor, School of Integrative Studies. BA 2005, Tufts University; MA 2010, PhD 2013, The University of North Carolina-Chapel Hill.

Shafroth, Frank, Research Professor and Director of the State and Local Government Leadership Center. BA 1970 Stanford University; JD 1984 Georgetown University.

Shaklee, Beverly, Professor of Education, Graduate School of Education. BS 1975, MS 1981, University of Kansas; EdD 1985, University of California.

Shank, Alan R., Term Associate Professor, Schar School of Policy and Government. BBA 1973, MPA 1976, Bernard M. Baruch College; DPA 2001, University of Southern California.

Shaw, Tyler, Associate Professor of Psychology. BA 2002, MA 2006, PhD 2008, University of Cincinnati.

Shaw, Ute C., Director of Finance, College of Science. BA 2006, MPA 2016, George Mason University.

Shedd, Juliette R. Rouge, Associate Dean and Assistant Professor, School for Conflict Analysis and Resolution. BA 1998, George Washington University; MS 2005, PhD 2013 George Mason University.

Shin, Joan Kang, Associate Professor, College of Education and Human Development. BA 1993, Cornell University; MA 1999, PhD 2008, University of Maryland, Baltimore County.

Shriver, John M., Term Instructor of Health Administration and Policy. BS 1968, The Citadel; MS 1975, Virginia Commonwealth University, Medical College of Virginia.

Shukla, Jagadish, University Professor, Atmospheric Oceanic and Earth Science. BSc 1962, MSc 1964, PhD 1971, Banaras Hindu University; ScD 1976, Massachusetts Institute of Technology.

Shuman, Gene, Assistant Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1975, Penn State University; MS 1981, University of Maryland, PhD 2016, George Mason University.

Sikdar, Siddhartha, Professor, Bioengineering, Volgenau School of Engineering. BTEE 1997, Indian Institute of Technology; MS 2001, PhD 2005, University of Washington.

Silver, Blake, Director of Data Analytics and Assessment. BA 2011, George Mason University; MAEd 2013, George Washington University; MA 2016, PhD 2017, University of Virginia
Smith, Solon J., Associate Professor of Conflict Resolution, School for Conflict Analysis and Resolution. BA 1991, University of Chicago; MS 1999, PhD 2005, University of Wisconsin, Madison.

Simon, Robert, Professor, Computer Science. BA 1981, University of Rochester; PhD 1996, University of Pittsburgh.

Singer, Harvey, Assistant Professor of Information Systems and Operations Management. BA 1978, Queens College of the City University of New York; MA 1984, PhD 1987, Johns Hopkins University.

Singh, Jatinder P., Professor of Global Affairs, Schar School of Policy and Government. BA 1982, MA 1984, University of Bombay; MA 1989, PhD 1995, University of Southern California.

Singleton, John S., Assistant Professor of Geology. BA 2001, Pomona College; MS 2004, University of California-Santa Barbara; PhD 2011, University of Texas.

Singman, David H., Professor, Mathematical Sciences. BS 1972, MS 1976, PhD 1980, McGill University.

Sistek, Mark A., Advising Director, BIS. BFA 1979, Cleveland Institute of Art.

Sklarew, Daniel M., Associate Professor, Environmental Science and Policy. BA 1991, University of Pennsylvania; MA 1993, Boston University; PhD 2000, George Mason University.

Skoraszewski-Ross, Jennifer L., Coordinator, Graduate Academic Affairs, Volgenau School of Engineering. BA 2006, MSEd 2011, Hofstra University.

Slavin, Margaret, Associate Professor of Nutrition and Food Studies. BS 2006, University of Pittsburgh; PhD 2011, University of Maryland, College Park.

Slavov, Sita N., Professor of Public Policy and Director, Public Policy Doctoral Program, Schar School of Policy and Government. BA 1997, College of William and Mary; PhD 2003, Stanford University.

Slawski, Martin, Assistant Professor, Statistics, Volgenau School of Engineering. MS 2008, LMU Munchen; PhD 2015, Saarland University.

Slayden, Suzanne Weems, Associate Professor of Chemistry. BS 1970, PhD 1976, University of Tennessee.

Slocum Susan L., Associate Professor, Tourism and Events Management, School of Recreation, Health and Tourism in the College of Education and Human Development. BA 1988, Humboldt State University; MBA 2000, Cameron University; MS 2006, University of Nevada, Reno; PhD 2010, Clemson University.

Smith, Cynthia B., Associate Professor, Environmental Science and Policy. BS 1984, Kansas State University; MS 1989, University of Maryland; PhD 2005, George Mason University.

Smith, Glenn Edward, Professor of Music. BA 1968, MA 1969, California State University; DMusic 1973, Indiana University.

Smith, Paul, Professor of Cultural Studies. BA 1976, MA 1980, Cambridge University; PhD 1981, University of Kent at Canterbury.

Smith, Robin Siona Listokin, Associate Professor of Public Policy. Schar School of Policy and Government. BS 2000, University of Pennsylvania; PhD 2007, University of California, Berkeley.

Smith, Rodger, Term Instructor, Department of Communication; Faculty Advisor, WGMU. BS 1986, James Madison University; MBA 1992, Shenandoah University.

Smith, Suzanne E., Professor of History. BA 1986, University of California, Los Angeles; MA 1988, Carnegie Mellon University; PhD 1996, Yale University.

Smith, Zavin R., Director of Development and Alumni Relations, Schar School of Policy and Government. BA 2000, MA 2003, George Mason University.

Snodgrass, Paul, Technology and Knowledge Management Director, School for Conflict Analysis and Resolution. BA 2003, University of Arizona; MS 2007, George Mason University.

Snow, Charles, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1980, MS 1987, PhD 1998, McGill University.

Snyder, Amy M., Director of Special Projects, University Life. BS 1995, Clarion University; MA 1997, Clemson University.

Snyder, Mark H., Term Assistant Professor, Computer Science. BS 2004, The University of North Carolina at Chapel Hill; MS 2007, PhD 2011, The University of Kansas.

Snyder, R. William, Assistant Professor of Accounting. BS, MS 2006, Brigham Young University; PhD 2018, University of Illinois.

So, Paul T., Chair and Professor, Physics and Astronomy. BS 1988, Harvey Mudd College; PhD 1995, University of Maryland.

Sorett, Hugh T., Professor of Public and International Affairs, Schar School of Policy and Government. BA 1959, Christ Church, University of Oxford; MA 1963, University of Oxford; PhD 1974, University of London.

Sofer, Ariela, Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1972, MS 1979, Technion, Israel Institute of Technology; DSc 1984, George Washington University.

Soleimanian, Patrick, Associate Dean, Undergraduate Programs, School of Business. BS 2007, MBA 2009, George Mason University; JD 2012, University of Baltimore.

Soltan, Valeriu, Professor, Mathematical Sciences. Foreign degree 1973, State University, Moldovia; Doctorate 1975, Mathematical Institute of the Academy of Sciences of Moldovia.

Sommer, Rainer, Associate Professor of Public Policy and Enterprise Engineering, Schar School of Policy and Government. BIS 1987, Virginia State University; MS 1989, PhD 1998, George Mason University; PhD 1991, Columbia Pacific University.

Son, Byunghwan, Assistant Professor, Global Affairs. BA 2001, MA 2003, Yonsei University; PhD 2013, University of Missouri-Columbia.

Sorvillo, Sheri, Term Assistant Professor, English. BA 2005, University of Florida; MA 2009, George Mason University.

Soundararajan, Shvetha, Assistant Professor, Computer Science, Volgenau School of Engineering. BE 2006, Anna University, India; MS 2008, PhD 2013, Virginia Polytechnic Institute and State University.

Spradling, Sharon, Academic Program Advisor, School of Integrative Studies and Smithsonian Mason School of Conservation. BS 1987, MS 1990, Texas A&M University; MS 2001, Air University.

Sprague, Debra, Associate Professor of Education, Graduate School of Education. BS 1984, Buffalo State College; MA 1991, PhD 1995, University of New Mexico.

Sparks, Garry, Assistant Professor of Religious Studies. BA 1993, Austin College; MA 1996, University of Texas at Austin; MDiv 2004, University of Chicago; PhD 2011, University of Chicago.

Spring, Christina, Major Gifts Officer, School of Business. BA 2007, Miami University.

Srikanth, Jessica, Term Associate Professor, Schar School of Policy and Government. BA 1994, Oxford University; MA 1997, PhD 2005, University of Chicago.

Stabile, Bonnie B., Term Research Associate Professor and Director of the Master of Public Policy Program, Schar School of Policy and Government. BA 1985, Mount Holyoke College; MPA 2000, PhD 2006, George Mason University.

Stacks, Helen, Simulation Center Coordinator and Term Assistant Professor, School of Nursing. BS, State University of New York; MS, George Mason University; DNP, Drexel University.

Staklo, Vadim, Term Associate Professor, History. BA 1988, Moscow University; MA 1995, PhD 2001, University of Pittsburgh.

Stan, Cristiana, Associate Professor, Atmospheric, Oceanic and Earth Sciences. BS 1995, MS 1996, University of Bucharest, Romania; PhD 2005, Colorado State University.

Starr, Don, Term Assistant Professor, School of Art. BS 1993, University of Maryland; MFA 2014, University of Baltimore.

Stavrou, Angelos, Associate Professor and Director Center for Assured Research and Engineering, Computer Science, Volgenau School of Engineering. MS 2001, National University of Athens, Greece; MS 2002, PhD 2007, Columbia University.

Stearns, Peter N., University Professor of History and Provost Emeritus. AB 1957, AM 1959, PhD 1963, Harvard University.

Stedman, Diann, Manager of Laboratory Safety, Environmental Health, and Safety Office. BA 1993, University of Pittsburgh; MS 1997, Virginia Commonwealth University.

Steen, Bweikia F., Associate Professor in the Graduate School of Education in the College of Education and Human Development. BA 1999, Mills College; MA 2003, California State University, East Bay; EdD 2007, University of San Francisco.

Steele, James, Term Instructor, Communication. BA 2006, MA 2009, George Mason University.

Stefanidis, Anthony, Professor, Geography and Geoinformation Science. Director, CINA Center for Excellence. Dipl Eng 1986, National Technical University of Athens, Greece; MS 1988, PhD 1993, The Ohio State University.

Steger, Benjamin, Assistant Professor, Film and Video Studies. BA 1995, Kansas University; MFA 2005, Columbia College, Chicago.

Stepien, Deborah, Technical Assistance Specialist, T/TAC, Kellar Institute for Human disAbilities, College of Education and Human Development. BS 1974, MEd 1978, James Madison University.

Streffus, Peter, Associate Professor, English. BA 1992, University of Texas at Austin; MFA 2000, George Mason University.

Stroiney, Debra A., Assistant Professor in the School of Recreation, Health and Tourism in the College of Education and Human Development. BA 2001, Boston University; MS 2009, Southern Connecticut State University; PhD 2014, Springfield College.

Stevens, Andrew, Web Services Librarian, University Libraries. BA, Ohio University; MIS, MSIS, Indiana University.

Stevens, Jen, Humanities and Social Sciences Librarian, University Libraries. BA 1993, MA 1996, University of Colorado; MLIS 2000, University of Texas, Austin.

Stockwell, Susan V., Director, Administrative Services, University Libraries. BA 1978, University of Maryland.

Stoehr, Ana Marie, Term Assistant Professor of Nursing. BSN 1998, MSN 2000, PhD 2014, George Mason University.

Stone, Deborah W., Assistant Professor, Graduate School of Education in the College of Education and Human Development. BS 1986, University of Maryland; MA 1993, Bowie State University; PhD 1997, University of Denver; MLS 2006, The Catholic University of America; EdS 2013, University of Virginia.

Stone, Victoria, Assistant Professor, College of Education and Human Development. BA 1997, MA 1999, California University of Pennsylvania; PhD 2006, Virginia Polytechnic Institute and State University.

Storr, Virgil H., Associate Professor of Economics. BA 1996, Beloit College; MA 2000, PhD 2003, George Mason University.

Stoy, Kevin, Director of External Partnerships, Living Learning Community Coordinator, Honors College. BA 2001 University of Michigan; MFA 2007 George Mason University.

Stratmann, Thomas, University Professor of Economics and Faculty, Interdisciplinary Center for Economic Science. BA 1985, Free University of Berlin, Germany; MA 1988, PhD 1990, University of Maryland.

Strazzeri, Kenneth C., Assistant Professor, Statistics, Volgenau School of Engineering. BS 2001, The College of New Jersey; MS 2004, PhD 2012, University of Virginia

Sturgis, Jennifer, Assistant Director, Academic Planning and Research Operations, Krasnow Institute. BA 1984, Knox College; MLS 1986, MS 1988, University of Illinois.

Sturrock, Alan, Assistant Professor of Education, Graduate School of Education. DipCE 1970, Dundee College of Education, Scotland; Bed 1971, Dundee University, Scotland; MAT 1974, Duke University; EdD 1985, Harvard University.

Sutter, Caroline, Term Associate Professor of Nursing. AAS 1993, Marymount University; MSN 2001, DNP 2012, George Mason University.

Sutter, Rebecca, Term Associate Professor of Nursing. AAS 1993, Marymount University; MSN 2001, DNP 2012, George Mason University.

Sutters, Justin, Assistant Professor of Art Education and Director of Master of Arts in Teaching, School of Art, College of Visual and Performing Arts, BS 1998, MA 2006, Kutztown University; PhD 2012, Ohio State University.

Sutton, Clifton D., Associate Professor, Statistics, Volgenau School of Engineering. BS 1983, University of Virginia; MS 1985, PhD 1987, Stanford University.

Sutter, Rebecca, Term Associate Professor of Nursing. AAS 1993, Marymount University; MSN 2001, DNP 2012, George Mason University.

Swan, Amy, Assistant Professor, Higher Education Program. BA 1996, University of North Carolina at Chapel Hill; MAM 2005, Carnegie Mellon University; PhD 2011, University of Virginia.

Sweeney, Kate, Instructor, Communication. BA 1996, Colorado College; MS 2002 Boston University.

Sweeney, Kyle, Instructor of Accounting. BSBA 2011, Rider University; MSA 2016, James Madison University.

Sweet, Colleen, Term Assistant Professor of Spanish. BA 2000, Roanoke College; MA 2004, PhD 2012, Catholic University of America.

Tabarrok, Alexander, Professor of Economics. BA 1989, University of Victoria, Canada; PhD 1994, George Mason University.

Taciuch, Dean F., Term Full Professor of English. BA 1985, Kent State University; MA 1988, Ohio University; PhD 1991, University of Southwestern Louisiana.

Taggart, Daniel G., Director for Human Resources and Employee Relations, College of Science. BS 1999, James Madison University; MBA 2010, George Mason University.

Takats, Sean, Associate Professor of History. BA 1996, Yale University; PhD 2005, University of Michigan.

Talbert, Clare, TTAC Online Coordinator, Kellar Institute for Human disAbilities, College of Education and Human Development. BA, MEd, George Mason University.

Talbot, Lee M., Professor, Environmental Science and Public Policy. AB 1953, MA 1963, PhD 1963, University of California, Berkeley.

Talleyrand Abrams, Regine, Associate Professor of Education, Graduate School of Education. BA 1991, University of Pennsylvania; MA 1993, PhD 2001, University of Maryland.

Tan, Xiaoyan, Assistant Professor, Chemistry and Biochemistry. BS 2004, Hefei University of Technology, China; MS 2008, University of Science and Technology of China; PhD 2016, Florida State University.

Tang, Liansheng, Associate Professor, Statistics, Volgenau School of Engineering. BS 2000, University of Science and Technology of China; MS 2003, PhD 2005, Southern Methodist University.

Tangney, June Price, University Professor of Psychology. BA 1979, State University of New York, Buffalo; MA 1981, PhD 1985, University of California, Los Angeles.

Tanyu, Burak F., Associate Professor, Civil, Environmental and Infrastructure Engineering, Volgenau School of Engineering. BS 1996, Dokuz Eylul University, Izmir, Turkey; MS 1999, University of Texas at Arlington; PhD 2003, University of Wisconsin-Madison.

Taxman, Faye S., University Professor, Criminology, Law and Society. BA 1977, University of Tulsa; MA 1981, PhD 1982, Rutgers University.

Taylor, E. Art, Term Associate Professor, English. BA 1990, Yale University; MA 2003, North Carolina State University at Raleigh; MFA 2006, George Mason University.
Tecuci, Gheorghe, Professor, Computer Science. MS 1979, PhD 1988, Polytechnic Institute of Bucharest, Romania; PhD 1988, University of Paris South, Orsay, France.

Terman, Jessica N.S., Associate Professor, Government and Politics, Schar School of Policy and Government. BA 2002, University of California Santa Cruz; MPA 2011, PhD 2013, Florida State University.

Terrillion, Suzanne, Campaign Director, Advancement and Alumni Relations, School of Business. BS 1989, Louisiana State University.

Tetrick, Lois, University Professor of Psychology. BA 1971, Drury College; MGA 1978, Georgia State University; MS 1981, PhD 1983, Georgia Institute of Technology.

Thatchenkery, Tojo Joseph, Professor and Director, Organization Development and Knowledge Management Program, Schar School of Policy and Government. BA 1980, MA 1982, University of Delhi; PhD 1993, Case Western Reserve University.

Theeke, Matthew, Associate Professor of Management. BBA 1995, University of Michigan; MBA 1999, Michigan State University; MS 2009, PhD 2012, University of Texas.

Thomas, Glenda, Term Assistant Professor of Nursing. BSN 2005, Barry University; DNP 2016, George Mason University.

Thompson, James, Associate Professor, Psychology. BA 1996, PhD 2002, Swinburne University of Technology in Melbourne, Australia.

Thompson, Julie E., Executive Director of Center for the Arts. BA 1981, Lawrence University.

Thompson, Kenneth, Term Professor of English. BA 1972, Williams College; PhD 1993, University of Virginia.

Thrall, A. Trevor, Associate Professor, Schar School of Policy and Government. BA 1989, University of Michigan; PhD 1996, Massachusetts Institute of Technology.

Thrasher, Lisa, Assistant Professor, Film and Video Studies. BFA 1990, Virginia Commonwealth University; JD 2000, Southwestern University.

Thurston, Mark, Term Associate Professor, School of Integrative Studies. BA 1972 University of Texas Austin; MA 1975 University of West Georgia; PhD 1978 Saybrook University.

Tian, Kuo, Assistant Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BE 2010, Huazhong University of Sci. & Tech, China, MS 2012, PhD 2015, University of Wisconsin-Madison.

Tian, Mingzhen, Associate Professor, Physics and Astronomy. BS 1984, Nankai University; MS, Changchun Institute of Physics; PhD 1997, Paris-Sud University.

Tian, Qing, Assistant Professor, Computational and Data Sciences. BS 1990, Peking University; PhD 2011, University of Michigan.

Tian, Zhi, Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BE 1994, University of Science and Technology of China; MS 1995, Tsinghua University; MS 1997, PhD 2000, George Mason University.

Toepler, Stefan, Associate Professor of Government and Politics, Schar School of Policy and Government. PhD 1995, Free University of Berlin.

Tomasovic, Susan K., Term Instructor, Department of Communication. BS 1969, University of Missouri; MAIS 1990, George Mason University.

Tompkins, Catherine, Associate Professor of Social Work and Associate Dean for Faculty Affairs, College of Health and Human Services. BA 1987, University of Maryland, College Park, MSW 1991; PhD 1995, University of Maryland, Baltimore.

Tondi, Brenda A., Associate Professor, Biology. BA 1983, University of Delaware; PhD 1993, Uniformed Services University of the Health Sciences.

Travis, Toni-Michelle C., Professor of Government and Politics, Schar School of Policy and Government. AB 1969, Bard College; AM 1973, PhD 1983, University of Chicago.

Trefil, James, Robinson Professor, Physics and Astronomy. BS 1960, University of Illinois; BA, MA 1962, Oxford University, England; MS 1964, PhD 1966, Stanford University.

Trencher, Susan, Associate Professor of Anthropology. BA 1969, MA 1972, George Washington University; PhD 1993, Catholic University of America.

Tretola, Betsy, Assistant Professor of Marketing. MEd 1975, University of Virginia; MS 1981, Columbia University; PhD 1979, University of Virginia.

Troxler, Darren, Associate Dean of Admissions and Strategic Initiatives. BS 1993, East Carolina University; MEd 1995, University of Southern Mississippi.

Tryfona, Nektaria, Director of Educational Initiatives and DataLab Director, College of Science. Affiliate Faculty, Department of Computational and Data Sciences. Dipl. Eng. 1992, PhD 1995, University of Patras.

Tucker, Megan, Term Professor. Department of Communication. MA 2009, PhD 2015, George Mason University.

Turner, John, Professor of Religious Studies, College of Humanities and Social Sciences. BA 1996, Middlebury College; MDIV 2002, Louisville Presbyterian Theological Seminary; MA 200, PhD 2006, University of Notre Dame.

U

Ugarte, Maura, Assistant Professor, Film and Video Studies. BA 2001, Columbia College, Chicago; MFA 2009, American University.

Uhen, Mark D., Associate Professor, Atmospheric, Oceanic, and Earth Sciences. BS 1990, University of Wisconsin-Oshkosh; MS 1993, PhD 1996, University of Michigan.

Unruh, Gregory C., Associate Professor, School of Integrative Studies. BS 1987, University of California, Davis; MA 1994, Schiller International University, Spain & France; PhD 1998, Tufts University.

Urban, Carol Q., Associate Dean for Practice and Strategic Initiatives; Term Associate Professor of Nursing. AA 1978, AS 1978, Glendale Community College; AA in Nursing 1980, Los Angeles Pierce College; BSN 1985, University of Phoenix; MSN 1991, PhD 2006, George Mason University.

Urgessa, Girum, Associate Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BSc 2000, Addis Ababa University, Ethiopia; MSc 2002, PhD 2006, University of New Mexico.

Uzuner, Ozlem, Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. BS 1998, MS 1998, PhD 2005.

V

Vadakkepatt, Gautham, Assistant Professor of Marketing. BTech 1999, Calicut University; ME 2002, MS 2004, PhD 2010, Texas A&M University.

Vaisman, Iosif, Director and Professor, School of Systems Biology. MS 1994, Moscow Institute of Chemical Engineering; PhD 1990, USSR Academy of Sciences.

Valderrama, Diego, Assistant Professor, Environmental Science and Policy. BS 1994, Universidad Jorge Tadeo Lozano (Colombia); MSc 2000, University of Arkansas at Pine Bluff; PhD 2008, University of Rhode Island.

Van Aken, Benoit, Associate Professor, Chemistry and Biochemistry. BS 1995, MS 1995, PhD 2000, Catholic University of Louvain, Belgium.

van Bever Green, Judith A., Executive Director, Office of International Programs and Services. B.A. 1978, University of Massachusetts, Amherst; M.Ed. 1979, Framingham State College.

van der Ham, Joris L., Assistant Professor, Environmental Science and Policy. MS, 2002, University of Amsterdam; PhD, 2007, University of Louisiana at Lafayette.

van Hoek, Monique L., Professor, School of Systems Biology. BSc 1990, University of Victoria; PhD 1997, University of Virginia.

Van Meter, Amy J., Research Assistant, Life Sciences. BS 2003, George Mason University.

van Schaik, Matthys K., Associate Dean for Academic Affairs, Schar School of Policy and Government. BA 1982, University of Pretoria; MS 1984, Georgetown University; PhD 1995, MLIS 1996, University of South Carolina.

Varier, Divya. Assistant Professor, Graduate School of Education in the College of Education and Human Development. BA 2004, Bangalore University; BS 2010, Old Dominion University; PhD 2015, Virginia Commonwealth University.

Vartak, Samit, Programmer, Kellar Institute for Human disAbilities, College of Education and Human Development. B.Eng 2003, University of Mumbai; MS 2008, George Mason University.

Venigalla, Mohan M., Associate Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BTech 1985, Sri Venkateswara University; MS 1988, Indian Institute of Technology, Chennai; MS 1990, PhD 1994, University of Tennessee, Knoxville.

Verardo, Stacey, Professor, Atmospheric, Oceanic, and Earth Sciences. BS 1986, C.W. Post, Long Island University; PhD 1995, City University of New York.

Verhoeven, Anne B., Associate Professor, Biology. BS 2002, Virginia Polytechnic Institute and State University; MS 2005, Clemson University; PhD 2010, George Mason University.

Vermaaten, Diane, Executive Director, Finance and Administration, School of Business. BAA 1994, Ryerson University; MBA 2006, Averett University; PhD 2013, Virginia Commonwealth University.

Vesely, Colleen, Associate Professor of Education, Graduate School of Education. BS 1999, Colorado State University; MA 2006, University of Connecticut; PhD 2011, University of Maryland.

Viano, Samantha. Assistant Professor, Graduate School of Education in the College of Education and Human Development. BS 2008, Haverford College; MEd 2011, Northwestern University; PhD 2018, Vanderbilt University.

View, Jenice, Associate Professor of Education, Graduate School of Education. BA 1980, Syracuse University; MPA-URP 1982, Princeton University; PhD 1997, Union Institute and University.

Vikis, Alexia, Term Assistant Professor of Spanish. BA 1993, MA 1996, DA 2002, George Mason University.

Visseren-Hamakers, Ingrid J., Associate Professor, Environmental Science and Policy. MS 1995, Erasmus University Rotterdam, the Netherlands; MS 1996, PhD 2009, Utrecht University, the Netherlands.

Visvanathan, Gnanakumar, Associate Professor of Accounting. BComm 1981, University of Madras, India; PhD 1996, New York University.

Vivancos Perez, Ricardo, Associate Professor, Spanish. BA 1996, University of Malaga; MA 2002, Texas A&M University; PhD 2006, University of California, Santa Barbara.

Vock, Vita, Associate Dean, Undergraduate Academic Affairs, College of Humanities and Social Sciences. BS 1998, University of Nebraska; PhD 2007, University of Texas at Austin.

von Fricken, Michael, Assistant Professor of Global and Community Health. BS 2008, James Madison University; MPH 2011, PhD 2014, University of Florida.

Vora, Patrick M., Assistant Professor, Physics and Astronomy. BS 2007, College of William and Mary; MS 2010, PhD 2010, University of Pennsylvania.

Vraga, Emily, Associate Professor, Communication. BA 2005, MA 2008, PhD 2011, University of Wisconsin-Madison.

W

Wage, Kathleen E., Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 1990, University of...
Tennessee, Knoxville; SM 1994, EE 1996, PhD 2000, Massachusetts Institute of Technology/Wood Hole Oceanographic Institution.

**Wagner, Richard E.,** Harris Professor of Economics. BS 1963, University of Southern California; PhD 1966, University of Virginia.

**Wagner, Tammy,** Term Assistant Professor of Nutrition and Food Studies. BS 1987, MS 1989, Indiana University of Pennsylvania; RD 1992, Academy of Nutrition and Dietetics; PhD 1994, Ohio State University.

**Waithaka, Eric.** Assistant Professor of Social Work. BA 2000, Daystar University, Kenya; MSW 2005, Washington University in St. Louis; PhD 2014, MPA 2015, University of Washington.

**Walker, Laura M. B.,** Term Associate Professor, Schar School of Policy and Government. BA 1974, University of Cincinnati; JD 1977, University of Toledo.

**Walnut, David F.,** Chair and Professor, Mathematical Sciences. AB 1983, Haverford College; MA 1986, PhD 1989, University of Maryland.

**Walsh, John C.,** Associate University Librarian for Resources and Collection Management Services, University Libraries. BA 1979, Yale University; MA 1982, MLS 1987, University of Iowa.

**Wan, Ming,** Professor and Associate Dean, Schar School Program Faculties, Schar School of Policy and Government. BA 1985, Beijing Foreign Languages Institute; MA 1988, Acadia University; PhD 1993, Harvard University.

**Wang, Pearl Yun,** Associate Chair and Associate Professor, Computer Science, Volgenau School of Engineering. BA 1971, Wheaton College; MA 1973, PhD 1980, University of Wisconsin, Milwaukee.

**Wang, Xinyuan (Frank),** Associate Professor, Computer Science, Volgenau School of Engineering. BS 1987, Peking University; MS 1990, Chinese Academy of Space Technology; PhD 2004, North Carolina State University.

**Wang, Y. Diana,** Associate Professor, Information Sciences and Technology, Volgenau School of Engineering. MS 2002, PhD 2006, University of Maryland, Baltimore County.

**Wang, Zhi,** Term Research Faculty, Schar School of Policy and Government. MS 1985, Chinese Academy of Agricultural Sciences; MS 1990, Ohio State University; PhD 1994, University of Minnesota.

**Wanner, Thomas,** Professor, Mathematical Sciences. BSc 1989, MSc 1991, PhD 1993, Universität Augsburg.

**Ward, Allison,** Assistant Professor of Education. College of Education and Human Development, Graduate School of Education. AB 1994, MEd 2006, PhD 2009, University of Virginia.

**Ware, DaFran M.,** Coordinator, Undergraduate Academic Advising, Volgenau School of Engineering. BS 2002, MS 2007, George Mason University.

**Weatherspoon, Gerald L.,** Chair and Associate Professor, Chemistry and Biochemistry. BS 1984, Jackson State University; PhD 1995, University of California, Davis.

**Wechsler, Harry,** Professor, Computer Science, Volgenau School of Engineering. BS 1971, Tel Aviv University, Israel; MS 1973, Weizmann Institute of Science, Israel; PhD 1975, University of California, Irvine.

**Wedel, Janine R.,** University Professor, Schar School of Policy and Government BA 1978, Bethel College; MA 1980, Indiana University; PhD 1985, University of California, Berkeley.

**Weeks, Andrea,** Associate Professor, Biology. BS 1997, Cornell University; PhD 2003, University of Texas, Austin.

**Wei, Qi,** Assistant Professor, Bioengineering, Volgenau School of Engineering. BE 2001, Beijing Institute of Technology; MS 2004 University of British Columbia; PhD 2010 Rutgers University.

**Weigel, Robert S.,** Associate Professor, Physics and Astronomy. BS 1995, University of Wisconsin, Platteville; MS 1997, University of Illinois, Urbana-Champaign; PhD 2000, University of Texas, Austin.

**Weiler, Robert,** Professor of Global and Community Health and Associate Dean for Academic Affairs. BA 1983, Marshall University; MPH 1984, The University of Tennessee; PhD 1991, Southern Illinois University.

**Weinberger, Steven H.,** Associate Professor of English. BA 1978, University of Pittsburgh; PhD 1988, University of Washington.

**Weingartner, Joseph C.,** Associate Professor, Physics and Astronomy. BS 1994, State University of New York, Stony Brook; MA 1996, PhD 1999, Princeton University.

**Weinstein, Ali A.,** Associate Professor of Global and Community Health, Director, Center for the Study of Chronic Illness and Disability. BS 1999, Lafayette College; MA 2001, University of Maryland; MS 2004, PhD 2007, Uniformed Services University of the Health Sciences.

**Weis, Eleanor,** Director, Advancement and Alumni Relations, School of Business. BA 1987, Vanderbilt University; MPA 1993, George Washington University.

**Weisburd, David L.,** Distinguished Professor, Criminology, Law and Society. BA 1976, Brandeis University; MA 1978, PhD 1985, Yale University.

**Weisman, David Schor,** Affiliate Associate Professor of Psychology. BA 1971, American University; MA 1973, Fairleigh Dickinson University; EdD 1979, Catholic University of America.

**Weiss, Margaret,** Assistant Professor of Education, Graduate School of Education. BA 1988, MEd 1992, PhD 1999, University of Virginia.

**Wentland, Kelly,** Assistant Professor of Accounting. BS 2006, Miami University; PhD 2015, University of North Carolina at Chapel Hill.

**Werhane, Stephanie T.,** Director of IT and Cybersecurity, College of Education and Human Development. BA, Brown University; MA, University of Michigan.

**Westberg, Rosemarie,** Nursing Skills and Technologies Lab Coordinator, School of Nursing. BS 1979, Seton Hall University; MS 1982, Catholic University of America.
Wescot-Andes, Martha, Associate Dean for Administration, College of Science. BA 1979, Smith College; MBA 1985, Columbia University.

Wessels, Konrad, Assistant Professor, Geography and Geoinformation Science. BSc 1992, MSc 1997, University of Pretoria, South Africa; PhD 2005, University of Maryland.

Wheelock, Stefan M., Associate Professor of English. BA 1993, Tougaloo College; PhD 2001, Brown University.

White, Elizabeth L., Associate Professor, Computer Science, Volgenau School of Engineering. BS 1985, MS 1986, College of William and Mary; PhD 1994, University of Maryland.

White, Gail Scott, Professor, School of Art. BA 1978, Virginia Polytechnic Institute and State University; MFA 1983, Tufts University.

White, Jason B. Term Associate Professor, School of Recreation, Health and Tourism in the College of Education and Human Development. BS 2001, MS 2002, PhD 2011, Ohio University.

Wiener, Martin, Assistant Professor. BA 2003, Rutgers University; MS 2006 Villanova University; PhD 2011, University of Pennsylvania.

Wiese, Eva, Assistant Professor. BS 2002, University of Bayreuth; MS 2008, Otto-Friedrich-University of Bamberg; PhD 2013, Ludwig Maximilian University of Munich.

Wiesen, Taylor, Assistant Professor of Accounting. BBA 2010, PhD 2016, University of Miami.

Wiggins, Brenda, Associate Professor of Parks, Recreation, and Leisure Studies, School of Recreation, Health, and Tourism. AB 1975, San Diego State University; MA 1981, University of Maryland; PhD 1994, University of Oregon.

Wijesekera, Duminda, Professor, Computer Science, Volgenau School of Engineering. BSc 1981, University of Colombo; MS 1989, PhD 1990, Cornell University; MS 1995, PhD 1997, University of Minnesota.

Wilde, Judith A., Senior Associate Dean, Schar School of Policy and Government. BA 1971, Scripps College; MAT 1974, Claremont Graduate University; PhD 1983, University of New Mexico.

Wilhelm, Gregg, Term Assistant Professor and Creative Writing Program Director, English. BA 1989, Loyola College; MA 1994, St. Mary’s Seminary and University; MFA 2014, University of Tampa.

Williams, David C., Distinguished Visiting Professor of Public Policy, Schar School of Policy and Government. BA 1971, Southern Illinois University; ME 1973, University of Illinois, Champaign.

Williams, Shannon E., Director, PhD Student Services, Schar School of Policy and Government. BS 1997, University of Vermont; MS 2004, George Mason University.

Williams, Walter E., John M. Olin Distinguished Professor of Economics; BA 1965, California State University; MA 1966, PhD 1972, University of California, Los Angeles.

Williams van Rooij, Shahron, Associate Professor of Education, Graduate School of Education. BA 1968, City College New York; MA 1970, American University of Beirut; PhD 1980, City University of New York Graduate Center; PhD 2007, George Mason University.

Williamson, Jacquelyn, Assistant Professor, Art History. BA 1995, Sarah Lawrence College; MA 2000, PhD 2009 Johns Hopkins University.

Willingan, Kerry, Assistant Dean, Career Services, School of Business. BA 1998, Georgetown University.

Willis, Boris, Associate Professor of Computer Game Design. BFA 2003, George Mason University; MFA 2007, Ohio State University.

Willis, James J., Professor, Criminology, Law and Society. BA 1991, Pennsylvania State University; PhD 2000, Yale University.

Wills, Theresa, Assistant Professor, College of Education and Human Development. BS 2004, Virginia Polytechnic Institute and State University; MEd 2007, PhD 2015, George Mason University.

Wills, Craig, Associate Professor of Cultural Studies. BA 1997 New College of Florida; MA 2005 Queens College, City University of New York; PhD 2010, Graduate Center, City University of New York.

Wilson, David B., Chair and Professor, Criminology, Law, and Society. BA 1983, Whitworth College; MA 1987, University of Nevada, Las Vegas; PhD 1995, Claremont Graduate School.

Winant, Peter, Director and Associate Professor, School of Art. BS 1974, Skidmore College; MFA 1980, Indiana University.

Wingfield, Andrew, Associate Professor, School of Integrative Studies. BA 1988, Rutgers University; MA 1990, University of Chicago; MFA 1999, George Mason University.

Winkert, Catherine A., Budget Manager, Finance and Administration, College of Visual and Performing Arts. BA 1987, Marymount University.

Winkler, Martin M., University Professor of Classics. MA 1977, West Virginia University; PhD 1982, University of Southern California.

Winsler, Adam, Professor of Psychology and Associate Chair for Graduate Studies. BA 1988, University of New Mexico; PhD 1994, Stanford University.

Winston, Thomas G., Term Assistant Professor, Faculty, Learning Agents Center, Volgenau School of Engineering. BA 1991, MS 1995, MS 2001, MS 2006, PhD 2016, Nova Southeastern University.

Winter, Patrice M., Term Assistant Professor and MPH Practicum Coordinator, Global and Community Health. BS 1976, Virginia Commonwealth University; MS 1982, Institute of Graduate Health Science; MS 2010, George Mason University; PhD 2012, Shenandoah University.

Witte, James C., Professor of Sociology and Anthropology and Director, Center for Social Science Research. BA 1979, Beloit College; MPA 1991, University of Wisconsin-Madison; PhD 1991, Harvard University.

Wittman, Sarah Assistant Professor of Management. BBA 2004, Simon Fraser University; MCPC 2007, Universidad de Navarra/George Washington University; MSc 2013, PhD 2018, INSEAD Business School.

Woitek, Kirsten, Associate Director of Advancement, Volgenau School of Engineering. BS 1992, Babson College; MA 1999, Georgetown University; MA 2014, George Mason University.
Wojtusiak, Janusz, Associate Professor of Health Administration and Policy. MS 2001, Jagiellonian University, Krakow, Poland; PhD 2008, George Mason University.

Wolf, Paige P., Associate Dean, Graduate Programs, School of Business. BA 1992, University of Delaware; MS 1994, PhD 1996, Virginia Polytechnic Institute and State University.

Wolf-Branigin, Michael, Professor and Chair of Social Work. BA 1976, Western Michigan University; 1978, Stockholms Universitet; MSW 1979, University of Michigan; PhD 1999, Wayne State University.

Wolfe, James W., Assistant Professor of Management. BS 1977, MBA 1979, JD 1981, Indiana University.

Wong, David, Professor, Geography and Geoinformation Science. Honour Diploma 1984, Hong Kong Baptist College; MA 1985, PhD 1990, State University of New York, Buffalo.

Wong, Shelley, Associate Professor of Education, Graduate School of Education. BA 1971, University of California, Santa Cruz; MA 1986, University of California, Los Angeles; EdD 1990, Columbia University.

Wood, Thomas C., Associate Professor, School of Integrative Studies; Affiliate Professor of Environmental Science and Policy. BS 1986, University of California, Davis; MS 1988, Louisiana State University; PhD 1996, George Mason University.

Wooten, Courtney, Assistant Professor and English Composition Director, English. BA 2006, Wingate University; MA 2008, Winthrop University; PhD 2014, University of North Carolina at Greensboro.

Wrbcian, Sue, Associate Professor and Associate Director, School of Art. BA 1993, University of Pittsburgh; MFA 1996, Rhode Island School of Design.

Wright, Catherine, Term Professor, Communication. BS 1992, Phillips University; MA 1994, Texas Tech University; PhD 2005, Regent University.

Wright, Kevin, Professor, Communication. BA 1992, San Francisco State University; MA 1995, California State University Chico; PhD 1999, University of Oklahoma.

Wu, S. David, Executive Vice President for Academic Affairs and Provost. BA 1981, Tunghai University, Taiwan; MS 1985, PhD 1987, The Pennsylvania State University.

Wu, Yuntao, Professor, Molecular and Microbiology and Life Science. BS 1985, Wuhan University; MS 1988, Chinese Academy of Sciences; PhD 1998, Queen’s University.

Wulf, Douglas John, Associate Professor of English. BA 1988, Northwestern University; MA 1993, Wright State University; PhD 2000, University of Washington.

Wulfkuhle, Julia D., Research Professor, Center for Applied Proteomics and Molecular Medicine. BA 1989, Grinnell College; PhD 1996, Purdue University.

Wutzke, Clinton, Assistant Professor of Rehabilitation Science. BASc 2002, University of Lethbridge; MS 2008, University of Nebraska at Omaha; PhD 2014, University of North Carolina, Chapel Hill.

Wyczalkowski, Anna J., Associate Professor, Physics and Astronomy. BS 1988, MS 1990, PhD 1998, University of Maryland.

X

Xu, Jie, Associate Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BS 1999, Nanjing University; ME 2002, Shanghai Jiaotong University; MS 2004, State University of New York at Buffalo; PhD 2009, Northwestern University.

Y

Yadav, Alok, Associate Professor of English. BA 1986, University of Toronto; PhD 1993, Cornell University.

Yamanaka, Aoi, Term Assistant Professor, School of Integrative Studies. BLA 2007, Kagawa University, Japan; MA 2010, MA 2013, Western Michigan University; PhD 2018, George Mason University.

Yang, Chaowei, Professor, Geography and Geoinformation Science. BS 1995, MS 1997, Northeastern University, China; PhD 2000, Peking University.

Yang, Chi, Professor, Physics and Astronomy. BS 1982, PhD 1988, Shanghai Jiao Tong University.

Yang, Jingyuan, Assistant Professor of Information Systems and Operations Management. BA 2010, Nankai University; MS 2012, Rutgers, the State University of New Jersey.

Yang, Ruizin, Associate Professor, Geography and Geoinformation Science. BSc 1982, Tsinghua (QingHua) University of Beijing, China; MS 1986, PhD 1990, University of Southern California, Los Angeles.

Yang, Sue-Ming, Associate Professor, Criminology, Law and Society. BS 1996, National Taiwan University; MA 1999, National Chung Cheng University; PhD 2007, University of Maryland.

Yao, Andy, Assistant Professor of Information Systems and Operations Management. BS 1983, MS 1984, Old Dominion University; PhD 1995, Kennedy Western University.

Yasai, Masoud, Professor of Management. BS 1972, Imperial College of Science and Technology, London; MS 1973, PhD 1979, City University Business School, London.

Ye, Shun, Assistant Professor of Information Systems and Operations Management. BE, BS 2004, MS 2007, University of Science and Technology of China; PhD 2012, University of Maryland.

Yigit, Erdal, Associate Professor, Physics and Astronomy. BS 2004, Jacobs University, Bremen, Germany; PhD 2009, University College London, United Kingdom.

Yilmaz, Huseyn, Associate Professor, History. BA 1992, Bogazici University; MA 1994, PhD 2005, Harvard University.

Yu, Lap-Fai, Assistant Professor of Computer Science. BEng 2007, MPhil 2009, Hong Kong University of Science and Technology; PhD 2013, University of California, Los Angeles.

Yuckenberg, Ashley, Instructor of Business Foundations. BA 2006, James Madison University; MA 2011, George Mason University.
Z

Zaccaro, Stephen J., Professor of Psychology. BA 1979, Fairfield University; MA 1980, PhD 1981, University of Connecticut.

Zaidi, Syed Abbas, K., Professor, Systems Engineering and Operations Research, Volgenau School of Engineering. BE 1989 NED University of Engineering and Technology; MS 1991, PhD 1995 George Mason University.

Zagarrri, Rosemarie, University Professor of History. BA 1977, Northwestern University; MA 1978, M.Phil 1980, PhD 1984, Yale University.

Zeng, Kai, Associate Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 2001, MS 2004, Huazhong University of Science and Technology; PhD 2008, Worcester Polytechnic Institute.

Zenkov, Kristien, Professor of Education, Graduate School of Education. BA 1989, University of Notre Dame; MEd 1993, University of Illinois, Chicago; PhD 2000, University of Wisconsin, Madison.

Zhang, Feitian, Assistant Professor, Electrical and Computer Engineering, Volgenau School of Engineering. BS 2007, MS 2009, Harbin Institute of Technology, China; PhD 2014, Michigan State University.

Zhang, Jie, Professor, Physics and Astronomy. BS 1990, Nanjing University; MS 1993, Purple Mountain Observatory; PhD 1999, University of Maryland.

Zhang, Karl Kuan, Program Director and Associate Professor of Chinese. BA 1982, MA 1985, Fudan University; PhD 1999, Stanford University.

Zhang, Liang, Assistant Professor, Physics and Astronomy. MS 1999, Fudan University; PhD 2005, Northwestern University.

Zhang, Xiaquan, Professor, Communication. BA 1993, Shaanxi Teacher’s University; MA 1996, Beijing University; MA 2001, Indiana University; PhD 2005, University of Pennsylvania.

Zhong, Yutao, Term Associate Professor, Computer Science, Volgenau School of Engineering. BS 1997, ME 2000, Nanjing University (China); MS 2002, PhD 2005, University of Rochester.

Zhu, Shanjiang, Associate Professor, Civil, Environmental, and Infrastructure Engineering, Volgenau School of Engineering. BS 2003, Tsinghua University; MS 2005, Tsinghua University and Ecole Centrale de Nantes (Dual Degree, MS in Automatics); PhD 2010, MS 2012 University of Minnesota.

Zobel, Julie A., Assistant Vice President, Safety, Emergency and Enterprise Risk Management. BS 1994, University of Findlay; BS 1996, MS 1998, University of Akron; PhD 2010, George Mason University.

Zolnik, Edmund J., Associate Professor, Schar School of Policy and Government. BS 1985, Fairfield University; MA 2000, PhD 2004, University of Connecticut.

Zuefle, Andreas E., Assistant Professor, Geography and Geoinformation Science. MS 2008, PhD 2013, Ludwig Maximilian University of Munich, Germany.

Faculty Emeriti

Mark Addleson, BA, MA, PhD, Associate Professor Emeritus of Organization Development

Victorio G. Aguera, BST, MA, PhD, Professor Emeritus of Spanish

Rita Ailinger, BS, MS, MA, PhD, Professor Emerita of Nursing

John Allen, AB, MS, PhD, Associate Professor Emeritus of Psychology

Jeremy E. Allnutt, BS, PhD, Professor Emeritus of Electrical and Computer Engineering

David S. Anderson, BS, MA, PhD, Professor Emeritus of Education and Human Development

Tomasz Arciszewski, BS, MS, PhD, Professor Emeritus of Civil, Environmental and Infrastructure Engineering

David J. Armor, BA, PhD, Professor Emeritus of Public Policy

Heibatollah Baghi, BS, MS, PhD, Associate Professor Emeritus of Global and Community Health

Ann C. Baker, BS, MPA, PhD, Professor Emerita of Public Policy

Shaul Bakhash, BA, MA, PhD, Clarence J. Robinson Professor Emeritus of History

Peter Balint, BA, MA, MS, PhD, Professor Emeritus of Public Policy

Anna Baraniecki, BS, MS, PhD, Associate Professor Emerita of Electrical and Computer Engineering

Ralph Barocas, BA, MS, PhD, Professor Emeritus of Psychology

Mary Catherine Bateson, BA, PhD, Professor Emerita of Anthropology and English

Richard Baum, PhD, Associate Professor Emeritus of Computer Science

Guy O. Beale, BS, MS, PhD, Professor Emeritus of Electrical and Computer Engineering

Debra Beth Bergoffen, AB, MA, PhD, Professor Emerita of Philosophy

Michael Behrmann, BS, MEd, EdD, Professor Emeritus of Special Education

David L. Bever, BS, MA, EdS, PhD, Associate Professor Emeritus of Health Education

Barry K. Beyer, BA, MA, PhD, Professor Emeritus of Education

Peter Black, BA, MS, PhD, Professor Emeritus of Anthropology

W. Murray Black, BEE, MSE, PhD, Professor Emeritus of Electrical and Computer Engineering

Deborah Boehm-Davis, AB, MA, PhD, University Professor Emerita
Don M. Boileau, AB, MA, PhD, Professor Emeritus of Communication
Lucille Boland, BSN, MSN, Assistant Professor Emerita of Nursing
A. Richard Bolstein, BA, MS, PhD, Associate Professor Emeritus of Statistics
Allen Boneau, BA, MA, PhD, Professor Emeritus of Psychology
John Bonfadini, BS, Med, EdD, Associate Professor Emeritus of Education
Thomasina Borkman, BA, MA, PhD, Professor Emerita of Sociology
Beverly Boyd, MS, MNEd, Assistant Professor Emerita of Nursing
Ted Bradley, BS, MA, PhD, Professor Emeritus of Environmental Science and Policy
Rosemarie Brenkus, BS, MAEd, Assistant Dean Emerita of Nursing
Michael S. Bronzini, BS, MS, PhD, Dewberry Chair Professor Emeritus of Civil, Environmental, and Infrastructure Engineering
Brack Brown, AB, MA, PhD, Professor Emeritus of Public and International Affairs
Phillip G. Buchanan, BS, MD, CPA, Professor Emeritus of Accounting
Louis C. Buffardi, AB, MA, PhD, Associate Professor Emeritus of Psychology
John Barclay Burns, MA, BD, PhD, Associate Professor Emeritus of Religious Studies
Susan Burns, BS, MA, PhD, Professor Emerita of Education
Ann B. Butler, BA, PhD, Professor Emerita of Molecular Neuroscience
Frieda R. Butler, BSN, MPH, PhD, Professor Emerita of Global and Community Health
Mary Kay Cabell, BA, MA, PhD, Associate Professor Emerita of Mathematical Sciences
Le Cao, BS, MBA, DBA, Associate Professor Emerita of Accounting
Rita Carty, BSN, MSN, DNSc, Dean Emerita, College of Nursing and Health Science
Jack Censer, AB, MA, PhD, Professor Emeritus of History and Art History
Jane Censer, AB, MA, PhD, Professor Emerita of History and Art History
Peter Ceperly, BA, MS, PhD, Professor Emeritus of Physics
Shih-Chun Chang, BS, PhD, Associate Professor Emeritus of Electrical and Computer Engineering
Sandra Cheldelin, BS, MEd, EdD, Professor Emerita of Conflict Analysis and Resolution
Arthur H. Chickering, AB, AMT, PhD, Professor Emeritus of Education
Elizabeth Chong, BSN, MSN, PhD, Professor Emerita of Nursing
Jae W. Chung, BC, MC, MA, PhD, Professor Emeritus of Economics
Robert Purdue Clark, BA, MA, PhD, Professor Emeritus of Public and International Affairs
Richard L. Coffinberger, BA, MS, JD, Associate Professor Emeritus of Business Legal Studies
Martin B. Cohen, BA, MA, PhD, Assistant Professor Emeritus of History
Virginia Collier, BA, MA, PhD, Professor Emerita of Education
Gerald Cook, BS, MS, ScD, Earle C. Williams Professor Emeritus of Electrical and Computer Engineering
John Henry Cooper, BA, MA, DPE, Chair Emeritus of Health, Sport, and Leisure Studies
Anne Cordero, MA, PhD, Associate Professor Emerita of French
John L. Costello, AB, JD, MA, LLM, Professor Emeritus of Law
Robert F. Cozzens, BS, PhD, Professor Emeritus
Catherine Cramton, AB, PhD, Professor Emerita of Management
John Crockett, BA, PhD, Professor Emeritus of Finance
Paul D'Andrea, BA, MA, PhD, Clarence J. Robinson Professor Emeritus of Theater and English
Keith Davies, BS, PhD, Professor Emeritus of Chemistry
Kenneth A. De Jong, BA, MA, MA, PhD, Professor Emeritus of Computer Science
Martin J. De Nys, AB, MA, PhD, Professor Emeritus
Sharon deMonsabert, BS, PhD, Associate Professor Emerita of Civil, Environmental and Infrastructure Engineering
Susanne Denham, BA, MA, PhD, University Professor Emerita
Marion Deshmukh, BA, MA, MPhil, PhD, Professor Emerita of History and Art History
Richard J. Diecchio, BS, MS, PhD, Professor Emeritus of Atmospheric, Oceanic and Earth Sciences
Dimitr M. Dimitrov, BS, PhD, Professor Emeritus of Education
Edward Clark Dobson, BME, MS, PhD, Associate Professor Emeritus of Education
George Donohue, BSME, MS, PhD, Professor Emeritus of Systems Engineering and Operations Research
Daniel Druckman, BA, MS, PhD, Professor Emeritus of Public and International Affairs
Lloyd Duck, PhD, Associate Professor Emeritus of Education
Jean-Paul Dumont, Licence es Lettres, PhD, Clarence J. Robinson Professor Emeritus
Dennis R. Dunklee, BME, MEd, PhD, Associate Professor Emeritus of Educational Leadership
Mary Ann Dzama, BA, MEd, DEd, Associate Professor Emerita of Education
Penelope Earley, BA, Med, PhD, Professor Emerita of Education
Albert W. Edgemon, BAE, MA, EdD, Professor Emeritus of Education
Robert Ehrlich, BS, PhD, Professor Emeritus of Physics
Robert Ellsworth, BS, PhD, Professor Emeritus
Esther Elstun, BA, MA, PhD, Professor Emerita of German
Michael G. Emsley, BS, ARCS, PhD, Professor Emeritus of Biology
Carol J. Erdwins, BA, MA, PhD, Professor Emerita of Psychology
Carl Ernst, BS, MEd, PhD, Professor Emeritus of Environmental Science and Policy
John Evans, BS, MS, PhD, Professor Emeritus of Physics
Michael G. Ferri, AB, MA, PhD, Professor Emeritus of Finance
Sheila ffolliott, AB, PhD, Professor Emerita of History
James H. Finkelstein, BS, MA, PhD, Professor Emeritus of Public Policy
Edwin A. Fleishman, BS, MA, PhD, DSc (Honorary), Professor Emeritus of Psychology
James Fletcher, BA, MA, PhD, Professor Emeritus of Philosophy
Joel Foreman, BA, MA, PhD, Associate Professor Emeritus of English
Martha P. Francescato, BA, MA, PhD, Professor Emerita of Spanish
Sheryl Ann Friedley, BA, MA, PhD, Professor Emerita of Communication
Lee Fritscher, BA, MPA, PhD, Professor Emeritus of Public Policy
Michael Gabel, BS, MA, PhD, Associate Professor Emeritus
Arnald D. Gabriel, BS, MS, DMus (Honorary), Professor Emeritus of Music
Kathleen Gaffney, BS, MS, PhD, Professor Emerita of Nursing
Gary Galluzzo, BA, MS, PhD, Professor Emeritus of Education
Donald Gantz, AB, MA, PhD, Professor Emeritus of Statistics
Helen S. Garson, BA, MA, PhD, Professor Emerita of English
Janos J. Gertler, PhD, DSc, Professor Emeritus of Electrical and Computer Engineering

Fax: 703-993-4622
Email: admissions@gmu.edu
Website: www2.gmu.edu/admissions-aid

Admission to George Mason University is competitive, and based on a variety of factors. Each candidate (applicant) who applies for admission must present sufficient qualifications in order to be reviewed within the context of other qualified applicants. An offer of admission is valid only for the semester for which the student applied. Programs with limited space or special requirements may use a second review process for admission.

Applying for Admission
Application for undergraduate admission should be made to the Office of Admissions. Applications are available at www2.gmu.edu/admissions-aid/apply-now (http://www2.gmu.edu/admissions-aid/apply-now). A non-refundable and non-transferable fee must accompany the application.

Application Deadlines for Freshmen and Transfer Students
The application deadline for fall admission is January 15 for freshman applicants, and March 1 for transfer applicants. The transfer application deadline for the spring semester is October 1. Freshman applicants who wish to be considered for merit-based scholarships must apply by Mason’s priority deadline of November 1. Applications received after published deadlines will be considered on a space-available basis only. The university reserves the right to close applications before published deadlines if conditions warrant. Admission is contingent on satisfactory completion of in-progress course work and graduation from high school or community college, if relevant.

Early Admission
High school juniors who have completed high school graduation requirements except for senior English and government courses may, with the approval of their high school counselor or principal, apply for admission and thereby enter the university as degree-seeking students one year early. Applicants should present satisfactory grades, SAT or ACT scores, and a high school course of study demonstrating rigorous academic preparation for university-level work. Competitive candidates will have pursued the most rigorous curriculum available at their school (i.e. AP/IB/Honors level coursework). Candidates must also submit first semester junior year grades.

Application for a Second Bachelor's Degree
Those holding one or more bachelor’s degrees may earn an additional bachelor’s degree at Mason in another discipline. Application for a second bachelor’s degree after conferral of a first degree from any regionally accredited institution must be conducted through the Office of Admissions. Second Bachelor’s degree applicants should follow the transfer application process outlined on the Transfer Admissions homepage (http://www2.gmu.edu/admissions-aid/how-apply/transfer), and are subject to the same competitive admissions review as first-degree applicants. After admission, students work with the appropriate academic program to develop an approved contract or course of study of at least 30 credits beyond the first degree, taken after admission to the second degree, to meet university residency requirements. Some units will have more stringent requirements. This contract will detail college-level and major requirements that must be met to satisfy graduation requirements.

Enrollment after Previous Attendance
Students in good academic standing who have missed one or more consecutive semesters of enrollment (excluding summer term) at Mason, and who do not meet any of the excluded categories listed below under Readmission after Previous Attendance (below), may re-enter by completing a re-enrollment form available through the Office of the University Registrar (http://registrar.gmu.edu/forms). Undergraduate students do not need to submit a re-enrollment form if an approved Leave of Absence is on file. Upon re-enrollment, undergraduate students who do not have an approved Leave of Absence on file will be required to meet new catalog year requirements. Some academic programs require departmental approval prior to re-enrollment.

Readmission after Previous Attendance
Undergraduate students who have missed one or more consecutive semesters of enrollment (excluding summer term) at Mason must apply for readmission through the Office of Admissions if any of the following conditions are true:

- The student has not been enrolled at Mason for more than 2 years and an approved Leave of Absence form is not on file.
- The student is an undergraduate returning after any absence during which he or she studied at another institution without prior written permission of his or her school or college. Such students must reapply as transfer students.
- The student was suspended or dismissed from any college or university for nonacademic reasons.
- The student was academically dismissed from Mason.
- The student was ever convicted of a felony.

Right to Rescind Admission
Mason reserves the right to rescind offers of admission if applicants fail to (1) successfully complete their current academic program, (2) maintain grades that meet the requirements for admission to George Mason, and (3) exhibit exemplary personal conduct prior to enrollment. Additionally,
Mason may rescind an offer of admission based on cancellation or change of any test score required for admission or if it is determined that admission was obtained through the use of incomplete, falsified, altered, or embellished information. Mason also reserves the right to impose restrictions or requirements on the admission of a student (e.g., housing or educational restrictions or additional conditions or requirements prior to enrollment) as a result of any of the foregoing. Admitted students are required to timely update the Office of Admissions of any new information that may affect their admission, including, but not limited to, any changes in their participation in their current academic program or their grades, or any conduct related issues (e.g., criminal matters and school discipline matters).

Upon learning of any relevant changes to a student's record, either directly from the student or from a third-party, the Dean of Admissions shall refer the case to the appropriate committee for review. The student shall have an opportunity to provide a written statement to the Dean of Admissions for consideration by the committee. The committee shall make a recommendation to the Dean of Admissions regarding whether the offer of admission should be rescinded or whether any restrictions or additional requirements should be placed on the student. In the case of withdrawal of admission from a matriculated student credit earned at Mason may be withheld.

Records Maintenance and Disposal

All admissions documents, including academic records sent from other institutions, become part of the official university file. Admission credentials are retained for only 12 months. They are subsequently destroyed if any of the following conditions are true:

- The applicant does not register for courses within the period for which the offer of admission is valid.
- The applicant was denied admission.
- The applicant does not respond to requests for additional information.
- The applicant fails to submit a complete application, including all official transcripts and test results.

Freshman

Freshmen Requirements

Freshmen applicants to George Mason University are encouraged to apply online by using the Common Application (for those applying to more than one school) or Mason’s Exclusive Online Application (for those applying only to Mason) by visiting www2.gmu.edu/admissions-aid/apply-now (http://www2.gmu.edu/admissions-aid/apply-now). The following factors are considered when reviewing freshman applications for admission:

- Cumulative high school grade point average (GPA) for course work completed in grades 9 through 12
- Level of difficulty of course work elected throughout the high school years, particularly in English, mathematics, laboratory science, social science, and foreign language
- Scores from SAT I or ACT (see exceptions under Score Optional Consideration below)
- For all non-native English speakers, scores from the Test of English as a Foreign Language (TOEFL) or the International English Language Testing System (IELTS) exam
- Essay(s)
- List of extracurricular activities
- Teacher and/or counselor recommendations

Early-action applicants who meet the November 1 deadline will be notified of their non-binding admissions decision in mid-December. Regular decision applicants who meet the January 15 deadline are notified of decisions by April 1. All other applicants are notified on a space-available basis.

The following table specifies the minimum units of college preparatory work required for admission, as well as the minimum units recommended. The recommended units reflect the typical high school program of students who have been admitted to Mason in recent years.

Note that one unit equals one academic year of study.

### Required Minimum

1. Refers to students applying for a bachelor of arts, excluding those in the “Applicants with Specific Majors” column
All dual-enrollment students are considered freshman applicants on May 1. Students must confirm their intent to enroll by completing the courses.

Acceptance of Freshman Admission Offer

Mason complies with the national freshman candidate reply date of May 1. Students must confirm their intent to enroll by completing the enrollment confirmation online. The deposit is nonrefundable after May 1.

Transfer Requirements

Students who have graduated from high school and subsequently attempted course work at a college or university are considered transfer applicants. The Admissions Committee considers each transfer application individually and reviews all grades received in courses attempted, as well as the rigor of the applicant's academic program. Transfer applicants are expected to present 30 transferable credit hours, including courses to fulfill the Mason Core requirements in English Composition and mathematics, with a 2.00 minimum cumulative grade point average. Transfer admission is competitive and the number of applications received annually exceeds the available spaces in the transfer class. Meeting minimum standards does not assure transfer admission.

Transfer applicants who have earned less than 30 transferable credit hours are evaluated for admission on the basis of their secondary school record, as well as any post-secondary coursework attempted. Such applicants must provide an official high school transcript or secondary school leaving certificate (final transcript), official SAT I or ACT scores, and official transcripts from all colleges and universities attended. Transfer applicants who have earned more than 30 transferable credit hours upon application may be exempted from providing the secondary school record and official SAT I or ACT results at the discretion of the Admissions Committee. All transfer applicants are required to declare a specific major on the application to benefit from academic advising within their intended program.

All non-native English speakers are required to meet the University's English language proficiency requirement. Most students satisfy this requirement by submitting official TOEFL or IELTS examination results that meet the University’s minimum score requirement. At the discretion of the Admissions Committee, non-native English speakers may alternatively satisfy the English language proficiency requirement. Applicants who complete at least two English Composition courses with grades of C or better at a regionally accredited U.S. college or university may be waived from the TOEFL or IELTS requirement. The Office of Admissions makes the sole determination of whether an applicant satisfies the English language proficiency requirement for admission. For more information please see the full policy on English language proficiency (https://catalog.gmu.edu/admissions/international-students/#text).

Virginia Community College System and Richard Bland College graduates transferring with Associate of Arts, Associate of Arts and Sciences, or Associate of Science transfer degrees may be considered for GAA admission via the Guaranteed Admission Agreement (https://www2.gmu.edu/admissions-aid/how-apply/transfer/gara). Virginia Community College students without transfer degrees and those transferring from other institutions will be considered for regular transfer admission. GAA or regular admission status is specifically noted in the transfer admission letter.

Students on active academic or non-academic suspension or dismissal are not eligible for admission.

Transfer Credit

Transfer students receive a formal evaluation of transfer credit from the Office of Admissions after admission, receipt of the enrollment deposit, and registration for the required new student orientation. Students are
Graduate Admission Policies

Acceptance of Transfer Admission Offer

Admitted transfer students are required to confirm their enrollment by submitting an enrollment deposit by June 15 for fall entrance, or December 1 for spring entrance. Transfer students admitted after June 15 or December 1 are required to submit their enrollment deposit within 7 days of the admission letter. Enrollment deposits are non-refundable after these deadlines. Admitted students who do not accept the offer of admission by the published deadline may forfeit their space in the transfer class.

Deferral of Transfer Admission Offer

Under certain circumstances, students unable to enroll may defer their transfer admission to the next semester after submission of the enrollment deposit. Requests to defer must be made through the online admissions portal no later than the first day of the semester for which you were initially admitted if you wish to request a deferral. Submitting a request to defer admissions does not guarantee that your deferral request will be approved.

Graduate Admission Policies

Graduate applications are generally reviewed by the Admissions Committee only upon completion of the application, and submission of all supplemental materials as required by the program. At its discretion, the Office of Graduate Admissions may issue a decision before an application is complete. Applicants receive electronic notification of the official admission decision through the online Application Portal.
Graduate Application Requirements

For full consideration for graduate admission, applicants must submit the following:

- Completed online application for graduate study
- Nonrefundable application fee
- Application for Virginia In-State Tuition Rates, if claiming entitlement to these rates
- An unofficial transcript for all earned or currently in-progress undergraduate degrees, and, if applicable, an unofficial graduate transcript for any graduate coursework taken, is required during the application process. Official documents, showing all previously earned degrees, including undergraduate bachelor’s degrees and higher, as well as any graduate coursework that you wish to be applied to your Mason degree program, shall be required if you are admitted. For information on how to submit unofficial transcripts as part of the admissions process, visit the website (http://www2.gmu.edu/admissions-aid/how-apply/graduate).
- Goals statement, as required by the program
- Letter(s) of recommendation, as required by the program
- Other materials specified by the program, including official exam scores from Graduate Admission Exams (such as GRE or GMAT), departmental forms, portfolios, and/or interviews

Specific departmental admission requirements for degree-seeking students are listed in this catalog under the relevant discipline, with supplemental material requirements listed online (https://www2.gmu.edu/admissions-aid/how-apply/graduate-deadlines-and-requirements).

Applicants with international educational credentials earned outside of the U.S. should read the Admission of International Students section for more information on required documentation and English Proficiency Standards.

Graduate Admission Exams

Most graduate programs use test scores as an additional measurement of an applicant’s qualifications. The exams most often required by graduate programs include the GRE, GMAT, MAT and/or Praxis Core. Specific departmental admission requirements for degree-seeking students are listed in this catalog under the relevant discipline.

For information on how to submit graduate admission exam scores, visit the website (http://www2.gmu.edu/admissions-aid/how-apply/graduate).

English Proficiency Standards

Mason students participate in rigorous graduate coursework as part of their university educational experience. Therefore, students at Mason must have a full command of academic English at the graduate level in order to be successful throughout their studies. All new graduate students are expected to accurately comprehend written graduate-level English, clearly understand rapidly spoken English in classroom lectures and in professional settings, write with proper grammar and syntax, and be able to respond quickly in English using a vocabulary appropriate for collegiate settings.

For this reason, Mason has a high standard of English proficiency for graduate admission. All Mason graduate programs strictly require applicants to meet that English proficiency standard. Applicants who have earned a bachelor’s, master’s, or doctoral degree from a regionally accredited university in the United States, Canada (excluding province of Quebec), Commonwealth Caribbean (Antigua, Barbuda, Belize, Cayman Islands, Dominica, Guyana, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and Grenadines, and Trinidad and Tobago), United Kingdom, Ireland, Australia, and New Zealand are considered to have met that standard. All other applicants are required to take an English proficiency examination and meet minimum scores set by Mason in order to be considered for admission. The TOEFL, Pearson Test of English, or IELTS exams can be used to meet this requirement. The Office of Admissions is the sole decision maker for English Language proficiency.

For details on English proficiency requirements, see Admission of International Students (p. 71). Individual programs reserve the right to set different minimum scores and, therefore, their admission requirements in this catalog should be reviewed.

Online Application Portal

Mason provides all graduate applicants access to the Online Application Portal, through which the online application and supplemental documents must be submitted. This Application Portal is where applicants track their application progress and status. The Online Application Portal can be accessed online (https://www2.gmu.edu/admissions-aid/how-apply/application-status). Applicants are responsible for regularly reviewing the Portal in order to submit updated required documentation (when necessary), and reviewing important information regarding their admission status.

E-mail

Mason uses the e-mail account provided at the point of application to communicate with applicants. Applicants should use this to communicate with the Office of Graduate Admissions, school/department/program, and other administrative units, and check it regularly for important information regarding their admission application.

Offer of Admission

Applicants will be notified that a decision has been made on their application via their email. In order to view their official decision letter, applicants must log in to their Online Application Portal. The offer of admissions will not be sent via postal mail, printed, or e-mailed. The offer of admission specifies the effective date of admission, category of admission offered, and name of the advisor or advising team assigned to the applicant. This offer is good only for the semester and program for which the applicant applies. The offer must be accepted by submitting an online Intent to Enroll form (and a deposit if required by the school, college or program) through the Online Application Portal. A denial of admission is not subject to appeal. Questions pertaining to admission waitlists should be directed to the appropriate college or school as policies vary by graduate program.

Right to Rescind Admission

Mason reserves the right to rescind offers of admission if applicants fail to (1) successfully complete their current academic program, (2) maintain grades that meet the requirements for admission to George Mason University, and/ or (3) exhibit exemplary personal conduct prior to enrollment. Additionally, Mason may rescind an offer of admission based on cancellation or change of any test score required for admission or if it is determined that admission was obtained through the use of incomplete, falsified, altered, or embellished information. Mason also reserves the right to impose restrictions or requirements on the admission of a student (e.g., housing or educational restrictions or additional conditions or requirements prior to enrollment) as a result
of any of the foregoing. Admitted students are required to update the Office of Admissions in a timely fashion of any new information that may affect their admission, including, but not limited to, any changes in their participation in their current academic program or their grades, or any conduct related issues (e.g., criminal matters and school discipline matters).

Upon learning of any relevant changes to a student’s record, either directly from the student or from a third-party, the Dean of Admissions shall refer the case to the appropriate committee for review. The student shall have an opportunity to provide a written statement to the Dean of Admissions for consideration by the committee. The committee shall make a recommendation to the Dean of Admissions regarding whether the offer of admission should be rescinded or whether any restrictions or additional requirements should be placed on the student. In the case of withdrawal of admission from a matriculated student credit earned at Mason may be withheld.

Admission of Graduate Degree Holders

Those holding one or more graduate degrees may earn an additional graduate degree in another discipline. For admission to a second graduate degree program, students should submit an application, transcripts, and other documents as required by the second degree program. Course credits used to satisfy the degree requirements for the first graduate degree may not be used to satisfy the degree requirements for the second graduate degree. In programs with overlapping or similar requirements, students will be advised in the subsequent degree program regarding appropriate course substitutions for subjects already covered.

Provisional Admission

Provisional admission specifies requirements that must be met prior to graduation, as detailed below.

Provisional Admission is intended for those applicants who have provided evidence that they are able to pursue graduate coursework, but have not taken foundational or pre-requisite coursework requirements, or do not meet GPA minimum requirements.

A degree-seeking graduate applicant with a baccalaureate degree from a regionally accredited institution of higher education, or international equivalent, with a GPA below the minimum for the graduate program, or applicants who are missing specific foundational or pre-requisite coursework requirements, may, at the discretion of the academic unit or program, be offered provisional admission if sufficient evidence is presented to suggest the ability to pursue graduate work. As a first priority when starting the graduate program, a provisionally admitted student must satisfy the provisions of admission. Once the student has satisfied the provisions specified in the offer of admission and submitted all admission credentials, the provisional qualifier will be removed from the student's record. Written confirmation indicating the removal will be sent to the student from the academic unit, institute dean or director.

Provisionally required courses must be completed successfully, earning a grade of B or better, on the student's first attempt within the first 12 credits of enrollment (or a more restricted time frame specified by the department in the offer of provisional admission). Provisionally required courses may not be repeated. Students who do not complete these courses successfully will be terminated from the program. All applicants admitted provisionally are in degree-seeking status, and course work taken appears as part of their graduate-level transcript. Students in provisional status may not take courses in the consortium or elsewhere, or transfer graduate course work into their program until the provisions of admission have been met.

Due to federal requirements, students on F1/J1 visas are not eligible for Provisional Admission to George Mason University.

While the provision is in effect, graduate students whose registration includes undergraduate courses are considered full time if they meet the undergraduate standard by being registered in at least 12 credit hours per semester. For more information on full-time status, see the Student Classification sections in AP5 Undergraduate Policies (p. 87) and AP6 Graduate Policies (p. 90) of this catalog.

Conditional Admission

Conditional admission specifies requirements that must be met prior to enrollment, as detailed below.

Conditional Admission is intended for those applicants who do not meet the academic standards of admission, but provide sufficient evidence to suggest the ability to pursue graduate coursework. Conditional admission cannot be offered to applicants who have not met minimum English language proficiency requirements as outlined in the English Proficiency Standards (p. 71) under Admission of International Students. It also may not be offered to applicants who do not have, or will not earn, a baccalaureate degree from a regionally accredited institution of higher education or international equivalent. An applicant will not be fully admitted and allowed to enroll into the graduate program until meeting the conditions set for admission.

A graduate applicant who does not meet the minimum admission standards may, at the discretion of the academic unit or program, be offered conditional admission if sufficient evidence is presented to suggest that the applicant has the ability to pursue graduate coursework. Conditionally admitted students must satisfy the conditions of their admission prior to enrollment in courses. Once the student has satisfied the conditions specified in the conditional offer of admission and submitted all admission credentials, including test scores, the conditional offer of admission will be updated to full or provisional admission. Notification of full or provisional admission will be provided to the student in the form of an updated letter of admission from the Office of Graduate Admissions, which will be published to the student's Online Application Portal.

Due to federal requirements, students on F1/J1 visas are not eligible for Conditional Admission to George Mason University.

The conditional offer of admission will be withdrawn if the student does not meet the conditions within one academic year from the first day of classes for the semester to which they applied (or a more restricted time frame specified by the program in the offer of admission).

Deferred Application Decision Pending Additional Coursework

Applicants are notified when action on an application has been deferred pending completion of courses that are prerequisite to graduate study in a chosen field. Applicants should notify their academic unit or program as soon as the prerequisites have been met. Applicants are responsible for furnishing unofficial transcripts confirming that prerequisite courses have been satisfactorily completed. Applicants have one academic year or less, dependent upon the program, to complete
prerequisites. An admission decision cannot be made until these grades are received.

NOTE: The above admission decisions (provisional, conditional, and deferred pending additional coursework) are utilized at the discretion of each academic unit. Applicants should refer to the admissions website of the academic unit to which they are applying for further clarification on the types of admissions decisions that are made for their program of interest.

Deferral or Reconsideration of Admitted Students

The Office of Graduate Admissions, in coordination with the program of admission, will consider requests from admitted students to either defer enrollment or reconsider their application for a future term. These requests are initiated by the applicant through the Intent to Enroll form, which is found on the Online Application Portal. Depending on the program of admission, the applicant will either be granted a deferral, a reconsideration, or the request will be denied.

A deferral is an automatic admission that does not require an applicant to go back through admissions review. A reconsideration is not an automatic admission and an applicant must go through admissions review again, regardless of previous admit decision.

Offers of funding are not guaranteed for deferrals or reconsiderations and are at the discretion of the program of admission.

All requests for deferral or reconsideration must be submitted using the directions on the Online Application Portal by the enrollment deadline listed in the student’s offer of admission. Deferral or Reconsideration is granted only for a period of one full academic year (Ex. Fall to Fall) or less, with some programs having specific term restrictions for delaying enrollment. These restrictions vary by program and, as such, applicants should check with their respective academic unit or program.

Reopening Incomplete Applications

The Office of Graduate Admissions will allow applicants to reopen submitted, but incomplete applications that never received an admission decision for the term of original application. An application may only be reopened for the original program to which the student applied. The reopened application must meet deadlines and requirements for the new term. This reopen is offered as a one-time courtesy without fee. Applications may be moved no further than one full academic year forward from the term of the original application (Ex. Fall to Fall), with some programs having specific term restrictions for reopening an application. These restrictions are listed online (https://www2.gmu.edu/admissions-aid/how-apply/graduate/frequently-asked-questions). To request a reopen the applicant must make the request through Reopen Request Form, located within the cancellation letter.

Records Maintenance and Disposal

All admissions documents, including academic records sent from other institutions, become the property of the Office of Admissions and part of the applicant’s official university file. These documents will not be returned to the applicant. Admission credentials are retained for only 12 months. They are subsequently destroyed if applicants do not register for courses within the period for which the offer of admission is valid, have been denied admission, do not respond to requests for additional information, or fail to submit complete applications, including all official transcripts and test results.

Admission of International Students

Office of Admissions
Undergraduate Admissions
4400 University Drive, MS 3A4
Fairfax, VA 22030

Graduate Admissions
4400 University Drive, MS: 4C8
Fairfax, VA 22030

Phone: 703-993-2400
Fax: 703-993-4622 (Fax)

Website: admissions.gmu.edu

General Requirements

Application for admission by international students should be made directly to the Office of Admissions via the online application (https://www2.gmu.edu/admissions-aid/apply-now).

Application deadlines are as follows:

| Freshman Fall | April 1 |
| Transfer Fall | March 1 |
| Freshman Spring | October 1 |
| Transfer Spring | October 1 |
| Graduate | Varies by academic program. |

Please check http://admissions.gmu.edu/grad for specific program details.

These deadlines ensure adequate time to process applications and prepare immigration documents. All international applications must be accompanied by the nonrefundable application fee. Items that must be submitted with the application form and fee are official transcripts and degree certificates (in original language and, if applicable, certified English translation); evidence of English proficiency (please see the English proficiency website (https://www2.gmu.edu/admissions-aid/how-apply/international/english-proficiency-requirements) for more details); the Certificate of Financial Responsibility (https://mymasonportal.gmu.edu/bbcswebdav/;orgs/AU_Provost_IEM/documents/internationalFinancialResponsibilityCertificate.pdf) (CFR); financial support documents; copy of passport identification page; and for those present in the United States, copies of immigration documents verifying current nonimmigrant status. Other documentation such as recommendation letters, essays, portfolios, etc., may be required by the academic program. Please visit Admissions (https://www2.gmu.edu/admissions-aid/how-apply/international/english-proficiency-requirements) for full details on items required and deadlines.

Applications from international students are reviewed with all other applications. Admission to the university is competitive; therefore, while minimum standards ensure that an application will be considered, they do not guarantee admission. The number of applicants, qualifications of the applicant pool, and the amount of available space determine the number of admission offers that Mason can make. In addition to overall admission requirements, some schools and colleges have individual
requirements for acceptance into the major. For more information, see school or college admission requirements (https://www2.gmu.edu/admissions-aid/how-apply/international).

Applicants who are accepted to a program will receive an online admission decision via their online application portal. Most students come to the United States on an F-1 visa, but students who are sponsored by the U.S. government, their home government, or another organization may be required to enter the United States on a J-1 Exchange Visitor’s Visa. To be issued an immigration document (Form I-20 for F-1 status or Form DS2019 for J-1 status), students must prove they have sufficient financial support to cover their expenses while at Mason. If the documentation submitted is satisfactory, the university will issue Form I-20 for F-1 status or Form DS2019 for J-1 status and mail it to the address indicated on the Certificate of Financial Responsibility.

International students outside the United States may use their immigration documentation to schedule a visa interview with the U.S. embassy or consulate nearest their place of residence and apply for an F-1 or J-1 student visa. For more information about the visa application process, check with the nearest U.S. embassy or consulate, or go to the Department of State’s website (https://www.state.gov).

Students in a nonimmigrant visa category other than F-1 or J-1 may submit the CFR and copies of immigration documents indicating their immigration status. They do not need to submit financial support documents unless they plan to change to a student visa. For more information pertaining to immigration status, contact the Office of International Programs and Services (OIPS) at 703-993-2970. Additional information is available on the OIPS website (https://oips.gmu.edu).

Freshman and Transfer Requirements

A freshman student is a first time university student who has never before enrolled in a college or university after graduating from secondary school. A transfer student is one who has completed course work at another college or university after graduating from secondary school. In addition to the requirements defined for all applicants, international students must meet the following standards:

- Freshman applicants must submit certified official copies of all secondary or high school transcripts in the original language along with an English translation, if applicable. Official results of any leaving certificates or university entrance exams also must be submitted.

- Transfer applicants must submit official transcripts from each post-secondary institution attended, sent directly to Mason from the institution.

- International students may be considered for admission without an SAT or ACT score through our score optional admission program; however, SAT or ACT results may be required for merit-based scholarship consideration. Applicants to Mason’s science and engineering programs must also submit a qualifying SAT or ACT score.

- Applicants must demonstrate English language proficiency. Undergraduate applicants who have completed four years (grades 9-12) of college preparatory English at a U.S. secondary school or secondary school in the following countries with grades of C or better in each English course are considered to have met this standard: United States, Canada (excluding province of Quebec), Commonwealth Caribbean (Antigua, Barbuda, Belize, Cayman Islands, Dominica, Guyana, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and Grenadines, and Trinidad and Tobago), United Kingdom, Ireland, Australia, and New Zealand. All other applicants are required to submit TOEFL, Pearson Test of English, IELA, or IELTS exam results. To be considered for admission, applicants must have scored at least 80 with a minimum of 18 in each subsection on the Internet-based TOEFL, 550 on the paper-based TOEFL; undergraduate applicants to Volgenau School of Engineering programs are not required to meet the associated subsection score requirements. English language proficiency may also be demonstrated by receiving a score of 6.5 or higher with a minimum 6.0 in each subsection on the IELTS exam, or a 59 overall band score on the Pearson Test of English. Further, English proficiency may be demonstrated by scoring an overall score of 176, with a minimum of 169 in each subsection, on the IELA examination, which is coordinated by INTO Mason. All English proficiency scores are valid for two years from the test date. Official test scores must be sent directly from the Educational Testing Service or IELTS. For more information, visit Test of English as a Foreign Language website (https://www.ets.org/toefl), the IELTS website (https://www.ielts.org), or the Pearson Test of English website (https://www.pearsonpte.com). Successful completion of INTO-Mason Academic English Level 6 is also accepted. Further information concerning Mason’s English language proficiency requirements may be found on the admissions website (https://www2.gmu.edu/admissions-aid/how-apply/international/english-proficiency-requirements).

- Applicants with English proficiency exam results below the minimum qualifying score for direct entry may be referred to an INTO Mason Pathway or Academic English program (https://intohigher.com/us/en-us/the-universities/into-mason).

- All transcripts from colleges or universities outside the United States must be translated into English and evaluated course by course by a NACES (National Association of Credential Evaluation Services) recognized U.S. evaluation agency before an admission decision can be made. Applicants are responsible for the timely translation and evaluation of documents and all costs and fees associated with these services. A list of accepted evaluation agencies is available here (https://www.naces.org/members.htm). Please note all transcripts and documents submitted to the university will become part of the applicant’s permanent record and will not be returned.

- International students already in the United States with F-1 status must complete immigration transfer procedures within 15 days of the program start date. For processing of immigration transfers, contact OIPS at 703-993-2970 or visit their website (https://oips.gmu.edu).

Graduate Requirements

International students interested in pursuing graduate study must meet the following requirements:

- In order to be considered for admission, applicants must complete the online Application for U.S. Graduate Study (https://www2.gmu.edu/admissions-aid/apply-now) and submit all required materials, including any supplemental documentation required by their academic program directly to the Office of Admissions.

English Proficiency Standards

Mason students participate in rigorous graduate coursework as part of their university educational experience. Therefore, students at Mason must have a full command of academic English at the graduate level in order to be successful throughout their studies. All new graduate students are expected to accurately comprehend written graduate-level English, clearly understand rapidly spoken English in classroom lectures
and in professional settings, write with proper grammar and syntax, and be able to respond quickly in English using a vocabulary appropriate for collegiate settings.

For this reason, Mason has a high standard of English proficiency for graduate admission. All Mason graduate programs strictly require applicants to meet that English proficiency standard. Applicants who have earned a bachelor's, master's, or doctoral degree from a regionally accredited university in the United States, Canada (excluding province of Quebec), Commonwealth Caribbean (Antigua, Barbuda, Belize, Cayman Islands, Dominica, Guayana, Jamaica, St. Kitts and Nevis, St. Lucia, St. Vincent and Grenadines, and Trinidad and Tobago), United Kingdom, Ireland, Australia, and New Zealand are considered to have met that standard. All other applicants are required to take an English proficiency examination and meet minimum scores set by Mason in order to be considered for admission. The TOEFL, Pearson Test of English, IELA, or IELTS exams can be used to meet this requirement.

Decisions regarding English proficiency are the sole discretion of Mason's Office of Admissions.

Listed below are the English proficiency examinations that Mason accepts and the corresponding minimum score requirements and submission procedures. Individual programs reserve the right to set higher minimum scores:

**TOEFL**

IBT - 88 points total AND a minimum of 20 points in each section
- Graduate School of Business - 93 points total AND a minimum of 20 points in each section
- Graduate School of Engineering - 80 points total, no minimum section scores

PBT - 570 points

**IELTS - Academic**

6.5 total band score
- Graduate School of Business - 7.0 total band score AND a minimum of 7.0 in each subsection

**Pearson Test of English**

59 overall score

**IELA Graduate**

Overall score of 176
- Graduate School of Business - 185 overall score AND a minimum of 185 in each subsection

**INTO-Mason Academic English**

Level 7

All English proficiency scores are valid for two years from the test date. Official test scores must be provided directly from the testing agency. For TOEFL, IELTS, and the Pearson Test of English, please make sure you have scores sent to the Mason Office of Graduate Admissions. It is not necessary to use the exact department code as test scores arrive to our institution electronically.

Applications with English proficiency exam results below the minimum qualifying score for direct entry may be referred to an INTO Mason Pathway or Academic English program (https://www.intostudy.com/en/universities/george-mason-university/programs).

**Students with International Degrees**

Mason requires the equivalent of a four-year U.S. bachelor's degree from an appropriately accredited international institution of higher education for direct admission to a graduate degree program. All applicants who were educated outside the United States are required to submit an official credential evaluation, written either by an approved evaluation company or by Mason evaluators. Please review the International Transcript Submission Guidelines (https://admissions.gmu.edu/documents/internationalTranscriptGuidelines.pdf) for further details. Complete information on this and all international admissions requirements can be found at Admissions (https://www2.gmu.edu/admissions-aid/how-apply/international). Mason Admissions has final authority on equivalency of degrees.

- All transcripts from colleges or universities outside the United States must be translated into English, if applicable, and submitted to the Office of Admissions for evaluation. Mason will provide evaluation service free of charge for all international transcripts. Because of the volume, more time may be needed to process applications requiring a Mason evaluation. For expedited services, students can submit their documents to a recognized U.S. evaluation service at their own expense. A list of recognized evaluation services is available at Mason's Office of Admissions or online (https://www.naces.org).
- Graduate students’ documents should show the award for either a bachelor’s degree or equivalent, or a graduate degree.

**Special Conditions for International Applicants**

A complete list of application requirements at all levels can be found online (https://www2.gmu.edu/admissions-aid/how-apply/international).

Note the following:

- Federal regulations prohibit students on visitor visas (B-1 and B-2) from enrolling in school. Students who entered the United States on a visitor visa should not plan to study. For more information, contact OIPS.
- Federal regulations prohibit F-2 spouses of F-1 students from engaging in full-time study, and F-2 children may engage in full-time study only from kindergarten through 12th grade. F-2 dependents may engage in study that is vocational or recreational in nature. F-2 dependents seeking to pursue full-time or degree study in the United States must change their status to F-1. For more information, contact OIPS.
- Students enrolled at the university in F-1 or J-1 nonimmigrant status must maintain full-time enrollment each fall and spring semester. For undergraduate students, this means 12 credit hours each semester. Full-time status for graduate students is defined by the Office of the University Registrar, and information can be found in the AP6 Graduate Policies section of this catalog. Because of this requirement, F-1 or J-1 international students do not qualify for part-time programs.
- Students in F-1 and J-1 status may enroll in online courses, but F-1 students may count only one online course toward full-time status. J-1 students may not count online courses toward full-time.
status. For the purpose of this regulation, an online course is one that the University Registrar defines as online, for which no significant requirements (such as attendance, examinations, etc.) must be fulfilled in person.

- Admission for international students is offered for fall (August) and spring (January).
- Prospective students who seek to enter the United States in F-1 or J-1 immigration status, or who seek to attend Mason following attendance at another US school, must complete the Certificate of Financial Responsibility (CFR), which can be downloaded online (https://admissions.gmu.edu/documents/internationalFinancialResponsibilityCertificate.pdf). The form and financial support documents must be submitted to the Admissions Office with the application.
- Students already in the United States should submit copies of immigration documents verifying current nonimmigrant status. This documentation should be submitted with the application for admission.
- Prior to issuing an I-20 or DS-2019 form, the University is required to verify that a student has sufficient financial support to pay for both educational and living expenses. If source is a sponsor, confirmed funding must be documented for the first year of study, typically with a sponsor letter and current bank statement or a scholarship award letter or an assistantship offer. The source of funds for subsequent years must be shown, although for sponsored students a bank statement is required only for the first year. Students who are self-funded must show funds on deposit for the full term of their program. The CFR gives an estimate of annual expenses, including tuition, living expenses, and health insurance; and it also explains what type of documentation is accepted.
- All new students admitted to the university must submit an Immunization Record Form signed by a health care provider. Requirements, information and forms are available online (https://shs.gmu.edu/immunizations).
- Financial sponsors who wish to be billed directly must provide a U.S. billing address. Mason does not bill third parties overseas. It is the student’s responsibility to make sure tuition and fees are paid on time.

International Student Health Insurance

University policy requires all F-1 and J-1 visa students to have health insurance. Federal law requires all students on a J-1 visa to have health insurance that includes coverage for medical evacuation and repatriation. Medical evacuation coverage pays for returning a seriously ill student to his or her home country. Repatriation coverage pays for returning a student’s remains to his or her home country. Mason offers health insurance for students on J-1 and F-1 visas. When international students register for classes, the cost of this coverage is automatically billed to their account by the Office of Student Accounts. This fee is due by the tuition payment due date. Failure to pay this insurance fee or successfully obtain an exemption may result in the cancellation of class registration. Late fees may be assessed if charges are not paid by the deadline established by the Student Accounts Office.

International students are required to purchase insurance for fall and spring/summer semesters.

Exemption from the International Student Health Insurance

International students are automatically enrolled in the Mason Student Health Insurance Plan. International students with health insurance coverage from the following list may request an exemption from the Mason Student Health Insurance Plan. Submission of a request does not guarantee that a waiver will be granted. The Student Health Insurance Office reserves the right to audit all waivers in order to ensure compliance with University Policy 6002.

Students may apply for an exemption:

1. If they have a scholarship or government-sponsored program that provides insurance for them that meets or exceeds the Mason Student Health Insurance Plan.
2. If they or their spouse or parent have a United States employer who provides health insurance for them that meets or exceeds the Mason Student Health Insurance Plan.

Each fall, continuing F-1 and J-1 visa students are required to either pay for the Mason Student Health Insurance or successfully obtain an exemption. Exemptions must be obtained no later than one week after the last day to add/drop classes.

See here (https://shs.gmu.edu/insurance) for more information and exemption form.

Non-degree Enrollment

Office of Admissions
4400 University Drive, MS 3A4
Fairfax, VA 22030
Phone: 703-993-2400; Fax: 703-993-4622
Website: admissions.gmu.edu

Non-Degree Status

Non-degree status enables visiting students from other institutions or community members seeking personal enrichment to enroll in courses for which they are qualified without seeking formal admission to a degree program. Enrollment in specific courses is based on eligibility criteria and availability of space in courses. Registration priority is given to degree-seeking students. Academic departments may restrict or prohibit non-degree enrollment in some courses. Admitted and enrolled non-degree students are responsible for the same policies and procedures that apply to degree-seeking students, including the University Honor Code and the Code of Student Conduct.

George Mason University enrolls non-degree students in three categories: High-School Guest Matriculants, Undergraduate Non-degree students, and Graduate Non-degree students. All Non-degree applicants must complete the online application for admission and supply all official supporting documentation as requested by the Office of Admissions.

Non-degree application information and deadlines are available online (http://www2.gmu.edu/admissions-aid/apply-now).

Students are responsible for registering properly and paying applicable tuition and fees by the deadlines. Students should confirm the correctness of their enrollments (including drop and add) via Patriot Web. Incorrect enrollments may result in academic and financial penalties.
High School Guest Matriculants

Exceptionally talented high school juniors and seniors may be considered for dual enrollment in lower-level (100-299) undergraduate courses. These applicants will be evaluated based on their academic performance in high school. Only students who have excelled in high school and demonstrate the preparation and maturity indicative of the potential to succeed in Mason’s competitive course work will be admitted. Mason cannot guarantee that courses will fulfill high school graduation requirements or that courses taken while the student is a high school guest will transfer to other institutions. High school dual enrollment students may enroll for one course (a maximum of 4 credit hours) each semester or in Summer Term C. An official high school transcript and written permission of the high school counselor is required for admission consideration. Non-native speakers of English are required to meet the University English language proficiency requirement. The Admissions Committee may ask for other supporting documentation such as test scores or transcripts from other dual enrollment credit.

Additional non-degree study for high school guest matriculants beyond the first semester requires a new application each semester and admissions review. High school guest matriculants are expected to maintain a 2.00 or better Mason GPA, and are subject to all academic policies outlined in this catalog.

High School Partnership Programs

Select high school students may be invited to participate in one of several partnership programs offered through George Mason University. Students enrolled in Guest Matriculant Partnership Programs have unique admissions and enrollment requirements set forth by the University. Only students that meet these requirements and agree to the University Honor Code will be admitted. Mason cannot guarantee that Non-Degree credit awarded will fulfill requirements at other institutions.

Undergraduate Non-Degree

Visiting undergraduate students from other colleges or universities, or community members who have completed some college-level course work at a regionally accredited institution, may be considered for Undergraduate Non-Degree admission.

To be considered for admission, Non-Degree Undergraduate applicants must present a minimum 2.00 cumulative grade point average and be eligible to return to all previous institutions attended. Non-native speakers of English are required to meet the University English language proficiency requirement. Students who are actively suspended or dismissed will not be offered admission. Admission is offered for one semester and students may enroll in a maximum of 10 undergraduate (100-499) credits. Admitted Non-Degree Undergraduate students are assessed undergraduate tuition rates, and non-degree students are ineligible for financial aid. Meeting the minimum standard for Undergraduate Non-Degree study neither guarantees admission nor implies future admission to a degree-seeking program. Additional Non-Degree study beyond the first semester requires a new application and admission review, with exceptions existing for Senior Citizens and ROTC students.

Non-Degree Undergraduate students are expected to maintain a 2.00 or better Mason GPA and are subject to the AP6 Undergraduate Policies section of this catalog. Select undergraduate students may be invited to participate in one of several partnership programs offered through George Mason University. Students enrolled in Undergraduate Non-degree special programs have unique admission and enrollment requirements set forth by the University. Only students that meet these requirements and agree to the University Honor Code will be admitted.

More information about Undergraduate Non-Degree application requirements and policies can be found online (http://www2.gmu.edu/admissions-aid/how-apply/non-degree).

Graduate Non-Degree

Current graduate students visiting from other colleges or universities, or community members who hold a conferred baccalaureate and/or graduate degree from a regionally accredited institution, may be considered for Graduate Non-degree admission. The minimum standard for Graduate Non-degree admission is a 3.00 cumulative grade point average on the baccalaureate record. Non-native speakers of English are required to meet the University English language proficiency requirement. An unofficial transcript for all earned or currently in-progress undergraduate degrees, and, if applicable, an unofficial graduate transcript for any graduate coursework taken is required during the application process. These documents are uploaded through the online application for Graduate Non-Degree studies. Applicants who present Ministry of Education recognized international transcripts are also required to provide an official NACES approved course-by-course credential evaluation. For more information on how to submit transcripts, visit the website (http://www2.gmu.edu/admissions-aid/how-apply/non-degree).

Students may enroll in a maximum of 10 undergraduate or graduate (100-799) credits per semester. Admitted Non-degree Graduate students are assessed graduate tuition rates for all (100-799) courses. Non-degree Graduate students are ineligible for financial aid. Meeting the minimum standard for Graduate Non-degree study neither guarantees admission nor implies future admission to a degree-seeking program. Among the factors that may be considered in the admissions process are previous academic performance, professional experience, and academic fit.

Non-degree Graduate students are expected to maintain a 3.00 or better Mason GPA and are subject to the AP6 Graduate Policies (p. 90) section of this catalog.

More information about Graduate Non-Degree application requirements and policies, as well as a listing of restricted programs, can be found online (http://www2.gmu.edu/admissions-aid/how-apply/non-degree).

Senior Citizen Enrollment

Mason welcomes applications from Virginia’s senior citizens. Under the terms of the Senior Citizens Higher Education Act of 1974, eligible Virginia residents, 60 years of age or older with a taxable individual income not exceeding $23,850 may apply to take university courses for credit in either degree or non-degree seeking status without paying tuition. Admitted senior citizens may register to audit courses regardless of income level. Mason provides all of Virginia’s senior citizens with an application fee waiver, regardless of income level.

All application and admission requirements and deadlines apply to Senior Citizen Enrollment.

Upon admission and enrollment, the Senior Citizen Tuition Waiver form must be completed with the Office of the University Registrar in the applicant is seeking benefits under the Senior Citizens Higher Education Act of 1974.
Academic Advising

Non-Degree Undergraduate students may seek academic advising from the Office of Academic Advising, Retention and Transitions (CAART). Graduate Non-Degree students may seek academic advising from the academic department offering their course(s) of interest.

Grades earned through Non-Degree studies remain a part of the student’s permanent Non-Degree record and are recorded on the student’s transcript. They will not appear on the degree transcript unless the student is accepted to a degree program and permission is given by the dean to apply the Non-Degree credit to the degree program. A maximum of 30 undergraduate credits taken in Non-Degree status may apply to an undergraduate degree program if approved by the relevant program dean.

International Students

International students holding F or J visas are not admitted in Non-Degree status. Exceptions exist for specific situations, as determined by, and at the sole discretion of, the Office of Admissions. These exceptions include those students enrolled in either the Undergraduate International Year One Program (p. 131), Graduate International Year One Program (p. 136) or Academic English Program (p. 139), or those who wish to attend George Mason University pursuant to the terms of an exchange agreement or memorandum of understanding (MOU) between Mason and their home university. Additionally, J-1 Au Pair applicants may be considered for Non-Degree status.

International applicants who have questions regarding their eligibility to apply as Non-Degree applicants should contact the Office of Admissions at nondegree@gmu.edu ( nondegree@gmu.edu).

Academic Testing

Office of Admissions

4400 University Drive, MS 3A4
Fairfax, VA 22030

Fax: 703-993-4622

Website: admissions.gmu.edu

Credit by Exam

The Office of Admissions awards transfer credit for several advanced standing examinations based upon minimum score requirements established by Mason academic departments. A complete list can be found online (http://admissions.gmu.edu/exams). Students are responsible for providing official test score transcripts at time of application. Transfer credit evaluations are considered final after the first academic year of enrollment.

Mason Departmental Exams

Proficiency exams are offered in a number of courses usually taken during the first two years. Students may not earn credit by exam for courses in which they are currently enrolled beyond the time allotted to add courses in that semester; or for courses already audited or failed at the university. Transfer students may not earn by exam any part of the 30 credits that must be completed at Mason to earn a degree.

English 101 and English 302 Proficiency Testing

The English Department offers proficiency testing for the required composition courses ENGH 101 Composition (Mason Core) (p. 142) and ENGH 302 Advanced Composition (Mason Core) (p. 142). Students seeking a waiver for ENGH 101 Composition (Mason Core) (p. 142) may take the ENGH 101 Composition (Mason Core) (p. 142) Proficiency Exam. Students seeking a waiver for ENGH 302 Advanced Composition (Mason Core) (p. 142) may submit a writing portfolio to the English Department and complete a timed exam. Students who receive a waiver through these processes do not also receive course credit. Additional information can be found on the exemptions page of the Composition website (http://composition.gmu.edu/waivers).

Foreign Language Placement

SAT Subject Tests in foreign languages are used for placement in many of the languages offered at Mason. Freshman applicants who wish to receive the appropriate foreign language placement should take this exam during their senior year in high school. Transfer students receiving credit for college-level foreign language study completed at other colleges usually do not need a placement test, but should consult the Department of Modern and Classical Languages to determine correct placement.

For students who wish to continue the study of a language at Mason, it is the student’s responsibility to take a placement exam and obtain results before enrolling in a foreign language course. The placement exam is given in conjunction with orientation. The schedule can be found on the website of the Department of Modern and Classical Languages. Specific information on interpreting test scores can be obtained from the department.

Some students whose degree programs require intermediate proficiency in a foreign language may be eligible for a waiver of the requirement based on prior knowledge of foreign language. For information on waiver of the foreign language requirement see the website of the Undergraduate Academic Affairs Office of the College of Humanities and Social Sciences.

Math Placement Exam

The Math Placement Exam is a computer-based test to help assess a student’s proficiency. Entering students are required to complete the exam successfully during orientation unless they have received transfer credit for a mathematics course used to satisfy the University's quantitative reasoning Mason Core requirement. The math placement test schedule can be found online (http://math.gmu.edu/placement_test.php).

AP1 Registration and Attendance

AP1 Registration and Attendance

Registration for the next semester or summer term begins after midsemester of fall or spring semesters and is opened to various groups according to priority (graduate students, seniors, juniors, and so on). The Office of the University Registrar (http://registrar.gmu.edu) assigns each student a time ticket, which is a specific date and time after which a student may register. The time ticket is based on the number of credits earned. Thus, the time ticket will not be the same for all students within a particular priority group. Students should consult the Office of the University Registrar (http://registrar.gmu.edu) and Patriot Web (http://patriotweb.gmu.edu) for information about their registration date and time.

AP1.1 Academic Calendar

The academic calendar may be accessed on the Office of the University Registrar (http://registrar.gmu.edu) website. Mason runs on a semester schedule, including an active summer term.

AP1.2 Academic Load

The minimum full-time load for undergraduate students is 12 credits per semester. For graduate full-time classification, see AP6 Graduate Policies (p. 90). For planning purposes, applicants for admission are asked to indicate their preference for full- or part-time status, and day or evening classes; however, they may freely choose between evening and day sections of courses and may change their full- or part-time status.

Although many students must work to meet living expenses, employment must not take priority over academic responsibilities. Students employed more than 20 hours a week are strongly urged not to attempt a full-time academic load. Students employed more than 40 hours a week should attempt no more than 6 credits per semester. Students who fail to observe these guidelines may expect no special consideration for academic problems arising from the pressures of employment.

Although 12 credits per semester represent a minimum full-time undergraduate load, students planning to graduate in four years need to carry an average of at least 15 credits per semester. Written approval must be submitted to the Office of the University Registrar (http://registrar.gmu.edu) before students can register for more than the maximum allowable credits. Undergraduate and Non-Degree

Undergraduate students should contact their Dean for permission. Graduate and Non-Degree Graduate students should contact their department for permission.

AP1.2.1 Financial Good Standing; No Holds on Record

Financial good standing and a university record clear of holds are required for students to receive academic services. Services, including, but not limited to, transcript issuance, diploma release, and class registration (add, drop, withdrawal, etc.) will not be provided to students with a financial balance due or a hold of any kind on their record. Holds are based on outstanding obligations and may be financial. Examples include fines owed for traffic or parking violations, incomplete immunization records, fines owed to the Mason or consortium libraries, and other administrative holds.

AP1.3 Registration Procedures

Patriot Web (https://patriotweb.gmu.edu) will list specific course information before priority registration each semester. Courses listed may be canceled for insufficient enrollment. Mason reserves the right to change the class schedule and adjust the individual section enrollment as necessary.

Registration is usually accomplished using Patriot Web (https://patriotweb.gmu.edu); however, if a section is closed or registration into a selected section is controlled, permission to enroll must be obtained from the academic program offering the course. Various schools and departments have their own processes for granting this permission. For some courses, the student must submit a completed and signed course permit form in person to the Office of the University Registrar (http://registrar.gmu.edu). Students may not attend classes for which they are not registered.

Students must be present at the first meeting of every course (lecture and laboratory) to validate their registration. If students cannot attend the first meeting, they must notify the instructor beforehand if they intend to continue in that section. Otherwise, their name may be removed from the class roll in both lecture and lab.

Students are responsible for registering properly and paying by the deadline. Students should confirm the correctness of their enrollments (including drop and add) via Patriot Web (https://patriotweb.gmu.edu). Incorrect enrollments may result in academic and financial penalties.

Students are responsible for tuition payments and grades received for all courses in which they are registered unless registration is canceled administratively because of suspension, dismissal, or termination; the section is canceled; or the student drops the course before the tuition liability begins. See Office of the University Registrar (http://registrar.gmu.edu) for deadlines.
AP.1.3.1 Course Prerequisites, Corequisites

Course prerequisites or corequisites state requirements for student entry into courses and reflect necessary preparation for attempting the course. It is the student’s responsibility to be aware of these as stated in the catalog and to have taken prerequisites recently enough to be of value. The administrator of the academic unit in which the course is taught or the instructor of the course may summarily drop students who have enrolled in a course for which they have not met the prerequisites (required or recommended). Graduate course prerequisites are normally met with a grade of B- or better; undergraduate course prerequisites are normally met with a grade of C or better. Individual programs may have higher standards. Questions should be addressed to the local academic unit or course instructor.

AP.1.3.2 Changing Registration

Registration changes must be completed within the schedule adjustment period defined below. Changes to registration are usually made via Patriot Web (https://patriotweb.gmu.edu).

The last day for adding a 15-week course is eight calendar days after and including the first day of classes. The last day for dropping a 15-week course is 22 days after and including the first day of classes. After the drop deadline, students may self-withdraw from courses until the start of the selective withdrawal period; a W will appear on the transcript and count toward attempted hours. The last day for selective withdrawal from a 15-week course is nine calendar weeks after the first day of classes (including the first day). Withdrawal after this time period is granted only for nonacademic reasons by the student’s academic dean. This approval is typically given for all courses at once, constituting withdrawal from a semester. For courses that are shorter than 15 weeks, the add, drop, and withdrawal deadlines are set in proportion to the length of the session. These dates are published on the Office of the University Registrar (http://registrar.gmu.edu) website each semester. Students who drop all courses during the drop period will have no entry on their transcript for that semester and will not be considered an enrolled student for that semester. If it is the student’s first semester, the student will not have a Mason transcript and must contact Admissions (https://www2.gmu.edu/admissions-aid) regarding enrollment in a future semester.

All students are expected to complete their initial enrollment before the first day of classes for the semester. Any additions to that enrollment must be processed by the end of the add period through official registration procedures. Students will not receive credit for courses unless their names are on the official class rosters and final grade sheets. Retroactive credits will not be awarded to students who report that they attended classes but were not on the official rosters. After the last day to add, students will not be added to courses except in unusual circumstances beyond the student’s control; such actions require approval by the administrator of the local academic department offering the course.

AP.1.3.3 Canceling Registration

Students who cannot attend classes during the semester for which they have registered should cancel registration using Patriot Web (https://patriotweb.gmu.edu) prior to the first day of classes for the semester.

Refunds of tuition on and after the first day of classes are made according to the tuition-liability dates published in this catalog and the Office of the University Registrar (http://registrar.gmu.edu) website.

AP.1.3.4 Repeating a Course

Some courses are annotated in the catalog as “repeatable for credit.” These are courses which students may repeat and receive additional credit for each time the course is taken. The maximum number of credits is specified in each course’s description. Special topics and independent study courses are examples. All grades and credits earned are included in the calculation of the student’s GPA up to the maximum allowable credits. In cases where the student has exceeded allowable credits in a repeatable class, the grade and credits of the earliest registration of the class for which credit was earned will not be included in the calculation of the GPA.

Undergraduate students (degree-seeking or non-degree) may repeat undergraduate courses that are not repeatable for credit. There is a limit of three graded attempts for all courses. Academic programs may have more restrictive limits. A W does not count as a graded attempt. This policy applies only to repeating the same course, or courses that are designated in the catalog as equivalent. Academic programs may restrict all students from repeating certain courses or restrict students from repeating high-demand courses for the purpose of improving a satisfactory grade. Academic programs may restrict repeats of certain courses by students in their major. Excessive repeats may result in termination from the major. (See AP 5.2.4 Termination from the Major.) Appeals to this policy begin with the student’s academic advisor.

The grade received in a repeated course will replace the earlier grade in the calculation of the GPA, even if the more recent grade is lower. Duplicate credit is not earned. All courses taken and their grades remain part of the student’s transcript. The exclusion of earlier grades and credits from the calculation of the GPA will not change the academic standing or dean’s list notations for the earlier semester. A grade in a Mason course will not be excluded from the GPA based on taking an equivalent course at another university.

Graduate students who have earned a satisfactory grade in a course that is not repeatable for credit are not permitted to repeat the course for replacement credit. Grades of B- and higher are considered satisfactory.
unless the academic program specifies a higher minimum satisfactory grade. Students must obtain permission from their academic program to repeat a course in which they have earned an unsatisfactory grade. Each unit establishes procedures for granting such permission. Duplicate credit is not earned. When a course is repeated, all credits attempted are used to determine warning, termination, or dismissal; the transcript shows grades for all courses attempted; and only one grade per course may be presented on the degree application.

Effective July 1, 2011 Federal Regulations no longer allow federal student aid funds to apply to courses that a student has already taken twice with a passing grade. This limitation does not include courses that are “repeatable for credit,” as described above. Students should contact the Office of Student Financial Aid (https://www2.gmu.edu/admissions-aid/financial-aid) to determine how repeated coursework would affect their financial aid eligibility.

AP.1.3.5 Auditing a Course
Auditing a course requires the instructor’s permission. Audit forms are available at Office of the University Registrar (http://registrar.gmu.edu). A previously-audited course may be taken again for credit in a later term. Students may also audit a course previously taken and passed; however, students may not change from credit to audit status or from audit to credit status after the end of the drop period, as defined above. The usual tuition and fees apply to audit status.

AP.1.4 Special Registration Procedures
AP.1.4.1 Advisor’s Permission to Register
All newly-admitted students, undeclared undergraduates on academic warning or academic probation, and undergraduates returning from suspension, are required to obtain an advisor’s approval for registration. All students are strongly encouraged to consult with their advisor concerning course registration each semester.

AP.1.4.2 Permission to Study Elsewhere
Currently enrolled Mason students who wish to take courses at another regionally accredited U.S. institution must obtain advance written approval. This process permits a student to enroll elsewhere in a suitable course unavailable at Mason or through the Consortium of Universities of the Washington Metropolitan Area. Students who wish to study abroad must contact the Mason Study Abroad (http://studyabroad.gmu.edu). Students wanting to pursue study through the Consortium of Universities of the Washington Metropolitan Area should contact the Office of the University Registrar (http://registrar.gmu.edu).

• The Permission to Study at Another Regionally Accredited U.S. Institution form can be found at the Office of the University Registrar (http://registrar.gmu.edu). Submission of this form does not guarantee approval.
• Catalog numbers and descriptions of courses to be taken elsewhere must be submitted with the request for approval.
• A minimum course grade must be achieved; however, grades themselves do not compute into any Mason GPA. For undergraduate courses, a minimum grade of C (2.0 on a 4.0 scale) is required. For graduate courses, a minimum grade of B (3.0 on a 4.0 scale) is required.
• Graduate students must obtain advance written approval from the director of their graduate program and the graduate dean of their school/college. Undergraduate students must obtain advance written approval from their academic advisor and the academic dean of the school/college offering the course to be taken elsewhere.

AP.1.4.3 Permission to Register as Graduate Student
Registration for courses in a graduate program is permitted only after the student has been notified of admission. Students admitted to degree programs are given preference over non-degree students through the registration process. Dual registration (for example, as a graduate student and non-degree enrollee) is not permitted. The graduate student is responsible for being properly registered and aware of all regulations and procedures required by a program of study. Regulations and degree requirements are not waived nor are exceptions granted because of ignorance of any regulations. Registration in graduate-level courses is restricted to admitted graduate degree students and non-degree graduate students (unless excluded by program). Undergraduate degree students may register for graduate courses only with special approval (see section below). Non-degree undergraduate students may not enroll in courses numbered 500 or above. Courses numbered 800 and above are available only to admitted graduate degree students.

AP.1.4.4 Graduate Course Enrollment by Undergraduates
Courses numbered 700 and above are closed to undergraduates. Undergraduates in degree programs may enroll in graduate-level courses 500 to 699 only with written permission, which must be obtained before registration. Forms are available at Office of the University Registrar (http://registrar.gmu.edu). Written permission is waived for undergraduate students admitted to combined bachelor’s/accelerated master’s programs.

To enroll in graduate courses for credit applicable to an undergraduate degree, undergraduates must have completed all course prerequisites, have exhausted all upper-level undergraduate courses relevant to their educational objectives, and be able to demonstrate the level of maturity required for graduate courses.
Approval to register for reserve graduate credit (earned credit held in reserve to apply later toward a graduate degree) is given only to Mason seniors within 15 credits of completing undergraduate study who have successfully completed all course prerequisites. In addition, this privilege is normally extended only to seniors who have completed at least 12 credits at the university, have a cumulative GPA of 3.00 or better, and have a major in the department offering the course. Approval for reserve graduate credit is limited to 6 credits and does not imply approval for admission into a Mason graduate program or that credit earned will be accepted at another graduate school.

Undergraduates enrolled in graduate courses are eligible to receive only those letter grades applicable to graduate grading. For more information, AP.3 Grading (p. 84). Credit for the same course may not be applied to both graduate and undergraduate degrees.

**AP.1.4.5 Special Registration for Nonenrolled Students**

Degree-seeking students not enrolled in a credit-bearing course but whose academic unit certifies that they are pursuing an activity related to their Mason enrolled program can retain active status by registering for Special Registration (ZREG 200) for a $45 fee. Written approval from the student's advisor and the local academic unit is required. Special registration allows students to retain library and computer privileges, receive a student ID, and buy a parking decal. Students must have active status to apply for or receive a degree, take an exam, or participate in cooperative education.

**AP.1.4.6 Enrolling for Credit Without Grade Points (Satisfactory/No Credit)**

Courses normally graded as satisfactory/no credit (S/NC) are annotated in the catalog, but students may elect to take credit without grade points. Undergraduates may take up to 6 credits to be graded S/NC; this option applies only to electives outside the field of the major, concentration, minor, general education requirement, or certificate program. Graduate students may elect the S/NC grade option only for courses that do not apply to the degree or certificate requirements. S/NC grading will also be used for courses numbered 998 and 999. For more information, see AP.3.3 Additional Grade Notations (p. 84).

**AP.1.4.7 Senior Citizen Waiver Program**

Under terms of the Senior Citizen Higher Education Act of 1974, eligible Virginia residents 60 years of age or older, with a taxable income not exceeding $23,850 for Virginia income tax purposes for the year preceding the award year, are entitled to enroll in courses offered for academic credit on a space available basis without paying tuition and enrollment fees via the Senior Citizen Waiver Program. In order for this to occur, the applicant must meet all admission requirements. Senior citizens who meet all admission requirements, the income eligibility requirement, and have completed a minimum of 75 percent of degree requirements may enroll in a degree program as a full-time or part-time student, during normal registration periods without paying tuition and enrollment fees. They may register for and audit up to three courses offered for academic credit in any one academic term, quarter, or semester for an unlimited number of academic terms, quarters or semesters without paying tuition and enrollment fees. Students seeking to audit a class must notify the Office of the University Registrar (http://registrar.gmu.edu) when registering for classes. Fees for course materials may apply to senior citizen enrollees, and tuition may be charged for courses designed exclusively for senior citizen groups. Senior citizens must adhere to all admissions and registration policies and processes and follow normal procedures to add and drop courses within the deadline dates outlined in each semester's academic calendar.

**AP.1.4.8 Summer Term**

Phone: 703-993-2441
Web: registrar.gmu.edu/summer (http://registrar.gmu.edu/summer)

Summer enrollment provides an opportunity for eligible undergraduate, graduate, and non-degree students to begin or continue the pursuit of their academic goals. Courses are offered in intensive five to twelve-week sessions, as daytime and evening classes and as distance education courses.

Summer registration for current Mason students begins in mid-March while registration for non-degree students begins in late March to early April. Students who are new to Mason are required to apply and be evaluated for admission. Prospective students may contact the Office of the University Registrar (http://registrar.gmu.edu) at 703-993-2441.

**AP.1.4.9 University Consortium**

Mason is a member of the Consortium of Universities of the Washington Metropolitan Area, which includes American University, The Catholic University of America, Corcoran College of Art and Design, Gallaudet University, The George Washington University, Georgetown University, Howard University, Marymount University, National Defense Intelligence College, National Defense University, Trinity Washington University, the University of the District of Columbia, and the University of Maryland-College Park. Eligible Mason students may enroll in courses at any of the consortium institutions. The consortium's cross-registration arrangement permits students enrolled in eligible degree programs at one member institution to take a course at another member institution.

Participation in consortium cross registration is available to degree-seeking juniors, seniors, and graduate students in good standing and currently enrolled at Mason. Participation is limited to courses that are approved by the student's local academic unit and dean, apply to the student's program of study, are not offered during that semester at Mason, and have space available at the visited institution. Additional restrictions apply. Students may take one consortium course per semester, with a career maximum of 6 credits for undergraduates (9–12 if foreign language study is approved) and 6 credits for graduate students. Credit earned through the consortium is considered resident credit, so grades count in the Mason GPA.

Information and regulations, including restricted and excluded courses, for both outgoing and incoming Mason consortium students are available on the web (http://registrar.gmu.edu/topics/washington-consortium). Information pertaining to all member institutions is available.

Citizens who wish to take advantage of this act must complete the appropriate online non-degree or degree application found at Admissions (https://www2.gmu.edu/admissions-aid) and submit all required transcripts and documents. If the application for admission is approved, qualified senior citizens can request a waiver of tuition and enrollment fees by completing the Senior Citizen Tuition Waiver Form, available from the Office of the University Registrar (http://registrar.gmu.edu/forms). To facilitate processing, senior citizens should provide their Mason student identification number on the waiver form.

In addition, the act allows admissible senior citizens to enroll in up to three noncredit courses in any one academic term, quarter, or semester for an unlimited number of academic terms, quarters or semesters without paying tuition and enrollment fees. Students seeking to audit a class must notify the Office of the University Registrar (http://registrar.gmu.edu) when registering for classes. Fees for course materials may apply to senior citizen enrollees, and tuition may be charged for courses designed exclusively for senior citizen groups. Senior citizens must adhere to all admissions and registration policies and processes and follow normal procedures to add and drop courses within the deadline dates outlined in each semester's academic calendar.
4-VA's mission is to promote inter-university collaborations that leverage the strengths of each partner university in order to accomplish much more than any individual university could achieve alone. 4-VA strives to: define instructional models, including the clear definition of instructional costs; significantly expand access for all Virginians to programs preparing them for rewarding careers; increase research competitiveness, and enhance the success rate of students in Science, Technology, Engineering, and Mathematics (STEM) courses and programs. For more information, visit their website (http://4-VA.gmu.edu).

AP.1.5 Withdrawal
AP.1.5.1 Selective Withdrawal for Undergraduates
After the self-withdrawal period, undergraduates enrolled in bachelor's degree programs are eligible to withdraw from a limited number of courses without the dean's approval and at the student's discretion. A W will appear on the transcript and count toward attempted hours. Students may process a maximum of three such selective withdrawals during their entire undergraduate career at Mason. The three courses may have any number of credits.

AP.1.5.2 Course Withdrawal with Dean Approval
For graduate and non-degree students, withdrawal after the last day to drop a course requires approval by the student's academic dean, and is permitted only for nonacademic reasons that prevent course completion. For undergraduate students, withdrawal after the open withdrawal period, for cause within the period, or after a student has used all three selective withdrawals, requires approval by the student's academic dean and is typically permitted only for nonacademic reasons that prevent course completion.

AP.1.5.3 Semester Withdrawal with Dean Approval
Undergraduates taking three or fewer classes may use the selective withdrawal for all courses for a semester; see the Selective Withdrawal for Undergraduates section. Otherwise, students who need to withdraw from a semester beginning the 6th week may do so only for nonacademic reasons with the approval of the academic dean. Withdrawal forms are available at the appropriate academic dean's office. Students who stop attending all classes without the dean's approval and without processing selective withdrawals, if eligible, will receive a grade of F in all courses.

AP.1.5.4 Effects of Course or Semester Withdrawal
All withdrawal results in a grade of W on the student's transcript for the withdrawn course(s). While a grade of W does not affect the GPA, undergraduate students should note that withdrawn courses are part of "attempted credit hours," which serve as the basis for the student's credit level. In the university's undergraduate retention system, GPA standards increase according to credit level. See AP5.2.3 Student Retention Categories (p. 88).

AP.1.6 Attendance Policies
Students are expected to attend the class periods of the courses for which they are registered. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor's grading policy, as stated in the course syllabus.

AP.1.6.1 Absence for Religious Observances or Participation in University Activities
Mason encourages its faculty to make a reasonable effort to allow students to observe their religious holidays or to participate in university-sponsored activities (e.g., intercollegiate athletics, forensics team, dance company, etc.) without academic penalty. Absence from classes or exams for these reasons does not relieve students from responsibility for any part of the course work required during the absence. Students who miss classes, exams, or other assignments as a consequence of their religious observance or for participation in a university activity will be provided a reasonable alternative opportunity, consistent with class attendance policies stated in the syllabus, to make up the missed work. It is the obligation of students to provide faculty, within the first two weeks of the semester, with the dates of major religious holidays on which they will be absent, and the dates for which they are requesting an excused absence for participation in any university-sponsored activity scheduled prior to the start of the semester, and as soon as possible otherwise. Students requesting an excused absence for participation in a university-sponsored activity must provide their instructor with a letter from a university official stating the dates and times that participation in the activity would result in the student missing class. Faculty members are encouraged to take religious observances into consideration when constructing class schedules and syllabi.

AP.1.7 Re-enrollment After Previous Attendance
Undergraduate students who have missed one or more consecutive semesters must follow the requirements detailed in the Enrollment section in the Undergraduate Admission Policies section of the catalog. Graduate and Non-Degree students who have missed two or more consecutive semesters must re-enroll. All graduate students must receive departmental approval prior to re-enrollment. Students may find the re-enrollment form at the Office of the University Registrar (http://registrar.gmu.edu).

AP.1.8 Undergraduate Leave of Absence
All undergraduate students who are planning an absence from George Mason University must submit a formal request for Leave of Absence (http://registrar.gmu.edu/forms) to the Office of the University Registrar (http://registrar.gmu.edu).

Students do not need to complete the Leave of Absence form if they are participating in a George Mason University sponsored study abroad program or have received permission to study elsewhere.

Eligibility Requirements
A student must:

• Be eligible to register for classes
• Be a degree-seeking undergraduate student
• Be registered during the semester immediately prior to the beginning of the Leave of Absence
• Have no holds (e.g., disciplinary, financial, etc.) which would restrict registration
  • The maximum time allowed for a Leave of Absence is two years.
  • A new admission application will be required if a student is away for more than two academic years. Re-admission is not guaranteed.
  • Prior approval is required. Advisors approve one-semester requests. Advisor and Dean approval is required if the leave of absence requested is for more than one semester.
  • Students are not permitted to study elsewhere while on a Leave of Absence.
  • A student who was admitted as a new first semester freshman or transfer student but did not attend will not be eligible for a Leave of Absence. Instead, he or she must contact Undergraduate Admissions.
  • A student who was re-admitted but did not attend will not be eligible for a Leave of Absence. He or she must contact Undergraduate Admissions.
  • Requests for extensions on a previously submitted Leave of Absence require submission of a new Leave of Absence form.

AP Course Information

AP Course Information

AP.2 Course Information

AP.2.1 General Information

Each course indicates:

• the number of credits earned
• course equivalencies
• the repeat status (see AP.1.3.4 (p. 78) for policies regarding repeating a course)

Not Repeatable for Credit

student may attempt the course unlimited times during academic career but will receive credit towards the degree only once

Repeatable within Term for Credit

student may register and receive credit for more than one section of the course within the same academic term

Repeatable within Degree for Credit

student may register and receive credit for more than one section of the course during academic career

Limited to 2 Attempts

similar to ‘Not Repeatable’ but student may only attempt the course twice during academic career

Limited to 3 Attempts

similar to ‘Not Repeatable’ but student may only attempt the course three times during academic career

Individual instructors set hours for independent study, readings, topics, or similar courses. If a course is listed as having an equivalent course, students may not receive credit for both courses.

AP.2.2 Schedule Types

Activity-Based (ACT)

Students receive instruction in a physical-discipline and then practice that discipline under instructor supervision. May include sports or drill formation exercises.

Dissertation (DIS)

Student is enrolled in a course working toward a doctoral dissertation supervised by a faculty member. Course must be numbered 998 or 999.

Fieldwork (FLW)

Coursework primarily consists of specialized fieldwork experiences, which may include professional licensure (in social work, nursing, legal, counseling, business) volunteering, service learning, science fieldwork, etc.

Independent Study (IND)

Refers to those situations where students work primarily on their own initiative on a project through reading and writing. Contact with an instructor may be one-on-one or in small groups and is generally only on a few arranged occasions throughout the semester to receive assignments, have progress checked, etc. Examples include: directed reading, problems and special projects.

Internship (INT)

Refers to those situations where the student applies previously-acquired knowledge and skills in a supervised situation which approximates the conditions under which those knowledge/skills will ultimately be used, usually off campus. Examples: practicums, on-the-job training, work experience programs, cooperative education programs, apprenticeships, externships, preceptorships, etc. Excludes Student Teaching PreK-12.

Laboratory (LAB)

Instructional activities in settings providing specialized facilities or equipment for students to master the subject matter either by performing experiments or practicing the skills being learned. The instructor generally supervises, assists, answers questions, etc., rather than making presentations.

Lecture (LEC)

Primary organization of class instruction. Instructors mainly present material by talking to the class about the subject matter.
Private Music Instruction (PMI)  Student receives one-on-one instruction from faculty member for a specific musical instrument.

Recitation (RCT)  Refers to a secondary organization of class instruction, typically smaller groups reviewing or discussing material previously presented in a lecture section.

Research (RSC)  Individualized research, creative, or scholarly projects that are not for graduate thesis or dissertation.

Seminar (SEM)  Course material is primarily delivered via small group discussion led by a faculty member.

Studio (STU)  Refers to situations where the student is engaged in the practice and use of techniques for productions in the areas of visual and performing arts. This instruction is used to further advance student's skills in the course-specific field. The instructor role varies from direct assistance to simple availability for questions and supervision.

Student Teaching (STC)  Practicum placement in schools PreK-12.

Thesis (THS)  Student is enrolled in a course working toward a master's thesis supervised by a faculty member. Course must be numbered 798 or 799.

500-699  Graduate-level courses; primarily for graduate, bachelor's/accelerated master's and non-degree graduate students. Advanced undergraduate students may request permission to register for these courses by using the Graduate Course for Undergraduate credit or the Reserve Graduate credit forms. Appropriate approval is required and is not guaranteed. Some restrictions may apply.

700-799  Graduate-level courses; primarily for graduate and non-degree graduate students. Some restrictions may apply.

800-999  Doctoral-level courses; primarily for doctoral students

**Special Course Number Designations**

- 798  Master's research
- 799  Master's thesis
- 790, 890  Supervised practicum
- 794, 894  Internship
- 796, 896  Directed reading and research courses for master's and doctoral students
- 998  Doctoral dissertation proposal
- 999  Doctoral dissertation research

**AP.2.3 Contact Hours**

University coursework is measured in terms of quantity and quality. A credit normally represents one hour per week of lecture or recitation, or not fewer than two hours per week of laboratory work, throughout a semester. The number of credits is a measure of quantity. The grade is a measure of quality.

**AP.2.4 Course Numbering**

<table>
<thead>
<tr>
<th>Course Range</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>100-199</td>
<td>Lower-division undergraduate courses; primarily for freshman</td>
</tr>
<tr>
<td>200-299</td>
<td>Lower-division undergraduate courses; primarily for sophomores</td>
</tr>
<tr>
<td>300-399</td>
<td>Upper-division undergraduate courses; primarily for juniors</td>
</tr>
<tr>
<td>400-499</td>
<td>Upper-division undergraduate courses; primarily for seniors</td>
</tr>
</tbody>
</table>

**University Transitions Courses**

This series of courses focuses on transition through the various stages of college. UNIV 100 – 199 courses help first-year college students adjust academically and socially, hone decision-making skills, learn about services and opportunities for involvement on campus, and solidify resources and techniques for assessing and improving their academic performance. UNIV 200 – 299 course topics focus on success in the second year of college and include choosing a major or career or participating in a Living Learning Community. UNIV 300 – 399 courses have three tracks: the first is for transfer students making the transition to a new university, the second focuses on career readiness for internships and research experiences, and the third is designed for specific groups of student leaders. UNIV 400 – 499 courses have a focus on research and scholarship, as well as life beyond college in the workplace or graduate school.

**University Special Topics Courses**

Upper-level University courses are open to all students unless specific prerequisites are indicated. They are usually repeated offerings.
AP.3 Grading

AP.3.1 Undergraduate Grading

The university-wide system for undergraduate grading is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Undergraduate Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
<td>Passing</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
<td>Passing</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
<td>Passing</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
<td>Passing</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
<td>Passing</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
<td>Passing</td>
</tr>
<tr>
<td>C+</td>
<td>2.33</td>
<td>Passing</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
<td>Passing</td>
</tr>
<tr>
<td>C-</td>
<td>1.67</td>
<td>Passing</td>
</tr>
<tr>
<td>D</td>
<td>1.00</td>
<td>Passing</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
<td>Failing</td>
</tr>
</tbody>
</table>

No credit toward graduation accrues from a failing grade or a grade that is replaced by a retaken course.

AP.3.1.1 Undergraduate Grading Scales

Grading scales are indicated on each specific course. Scales are listed below and indicate possible grades which may be earned within each:

- Undergraduate Regular: allows for all grades listed above in AP.3.1 as well as IN, AB
- Undergraduate Special (ABC/NC): only allows for A+, A, A-, B+, B, B-, C+, C, NC, IP
- Undergraduate Special: allows for all grades listed above in AP.3.1 as well as AB, IN, IP
- Satisfactory/No Credit: allows for S, NC, AB, IN, IP

AP.3.2 Graduate Grading

The university-wide system for grading graduate courses is as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Graduate Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>A+</td>
<td>4.00</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>A</td>
<td>4.00</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>A-</td>
<td>3.67</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>B+</td>
<td>3.33</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>B</td>
<td>3.00</td>
<td>Satisfactory/Passing</td>
</tr>
<tr>
<td>B-</td>
<td>2.67</td>
<td>Satisfactory 1/Passing</td>
</tr>
<tr>
<td>C</td>
<td>2.00</td>
<td>Unsatisfactory/Passing</td>
</tr>
<tr>
<td>F</td>
<td>0.00</td>
<td>Unsatisfactory/Failing</td>
</tr>
</tbody>
</table>

1 Although a B- is a satisfactory grade for a course, students must maintain a 3.00 average in their degree program and present a 3.00 GPA on the courses listed on the graduation application.

AP.3.2.1 Graduate Grading Scales

Grading scales are indicated on each specific course. Scales are listed below and indicate possible grades which may be earned within each:

- Graduate Regular: allows for all grades listed above in AP.3.2 as well as IN, AB
- Graduate Special: allows for all grades listed above in AP.3.2 as well as IN, AB, S, NC, IP
- Satisfactory/No Credit: allows for S, NC, AB, IN, IP

AP.3.3 Additional Grade Notations

Satisfactory/No Credit (S/NC)

An S grade reflects satisfactory work (C or better for undergraduate students, B- or better for graduate students); otherwise, the student receives no credit (NC). S and NC have no effect on the student's GPA. Entire courses normally graded S/NC are annotated in the catalog, and include doctoral dissertation courses 998 and 999. Students may also individually elect to take credit without grade, with restriction. For more information, see AP.1.4.6 Enrolling for Credit Without Grade Points (Satisfactory/No Credit) (p. 80).

Incomplete (IN)

This grade may be given to students who are passing a course but who may be unable to complete scheduled coursework for a cause beyond reasonable control. Unless the faculty member has specified an earlier deadline, the student must then complete all the requirements by the end of the ninth week of the next semester, not including summer term, and the instructor must turn in the final grade by the end of the 10th week. Faculty members who choose to require an earlier incomplete deadline will be required to file an Incomplete Grade Contract with the local academic unit's office, detailing the work that remains to be done, the general reason for the incomplete, and the student's grade at the point of receiving the incomplete. Unless an explicit written extension is filed with the Office of the University Registrar by the faculty deadline, the grade of IN is changed by the University Registrar's office to an F. The maximum IN extension is to the end of the same semester in which it was originally due. Students who have filed their intent to graduate have only six weeks from the date of degree conferral to resolve any incomplete grades and have the final grades recorded by the University Registrar's office.

While a grade of IN remains on the transcript, it is treated as an unsatisfactory grade in determining probation, suspension, termination, or dismissal. Removal of INs from the transcript may result in retroactive elimination of probation, suspension, termination, or dismissal.

Incomplete, extended (IX)

IX is given by the Office of the University Registrar after receiving an Incomplete Extension form signed by the instructor and the appropriate dean. The extension gives students additional time to complete work; the amount of time is specified by the instructor. The final grade must be submitted to the University Registrar's office before final exams for the semester in which the IN grade was originally due. A grade of IX affects the academic record in the same way as does a grade of IN.

In Progress (IP)

This grade may be given in selected courses, including graduate theses, dissertations, practicums, and internships. IP may also be used when the work of BIS 490 RS: Senior Project (Mason Core) (p. 142), CS 112 Introduction to Computer Programming (Mason Core) (p. 142), CS 211 Object-Oriented Programming, ECON 495 RS: Honors Thesis in Economics, or if a course that is graded S/NC or A/B/C/NC is not completed within one semester. IP has no effect on the GPA. With the exception of the formerly-mentioned courses, IP remains on the
record until the work is completed and a final grade is assigned. An IP in BIS 490 RS: Senior Project (Mason Core) (p. 142), CS 112 Introduction to Computer Programming (Mason Core) (p. 142), CS 211 Object-Oriented Programming, or ECON 495 RS: Honors Thesis in Economics not changed to a final grade by the last day of classes of the next semester, not including summer term, is changed by the Office of the University Registrar to an F. IP grades will also be awarded in courses numbered 799, 998 and 999 until successful completion, and then they will be changed to S/NC. Upon successful completion of 799, 998 or 999 and submission of the final grade, grades for all prior sections will be changed to S/NC.

**Absent with permission (AB)**
A student who has received permission from the academic dean or director to be absent from a final exam for cause beyond reasonable control may receive a temporary grade of AB. A rescheduled exam must be administered within 10 business days of the original exam date, or the AB will automatically become an F. Final determination of academic status is not complete while the AB remains on the transcript.

**Special Provision (SP)**
The grade of SP may be given by a dean to students who are unable to complete the course requirements because of extraordinary long-term circumstances, such as major illness or military deployment. SP has no effect on the GPA and remains on the transcript until the work is completed and a final grade is assigned.

**AP.3.4 Midterm Reports**
Midterm progress is reported for all full-semester 100- and 200-level classes, and for 300- and 400-level classes at the discretion of the professor. The reporting period extends from the fifth through the eighth week of the semester, allowing flexibility to individual faculty in providing reports for their classes. Students should check with their instructors as to when reports will be complete and available for viewing through Patriot Web. These progress reports, which appear in Patriot Web as “Midterm Grades,” do not become part of the student’s official record. They are not calculated in any GPA, and they do not appear on any official or unofficial transcript.

**AP.3.5 Final Grades**
Semester grade reports are available through Patriot Web. Students may print a grade report for their own records or to issue to a third party.

**AP.3.6 Transcripts**
Official transcripts include all credit coursework attempted at the university, including all courses taken as a graduate, undergraduate or non-degree student. Official transcripts will not be issued when unsatisfied financial obligations to the university exist. Unofficial transcripts may be printed by the student from Patriot Web. See the Office of the University Registrar (http://registrar.gmu.edu) for information and instructions on ordering official transcripts.

The Antonin Scalia Law School issues transcripts for courses taken as a law student. See Law School (http://law.gmu.edu) for information and instructions on ordering transcripts.

**AP.3.6.1 Transcript Key**
The transcript key, which appears on the reverse side of official transcript paper, summarizes policy information pertinent to understanding individual students’ transcripts and may be updated as necessary.

**AP.3.7 GPA**
Quality point values are assigned to letter grades as indicated in the grading system table. A quality point score is computed by multiplying the value of a letter grade by the number of credits for the course. For example, a student receiving an A (4.00) in a 3-credit course earns 12 quality points. The GPA is computed by dividing the quality points earned by the number of credits graded A+ through F (GPA hours).

For undergraduates, the GPA computed for the current term gives the current GPA, which is the measure of academic performance in one semester and affects eligibility for the dean’s list. The GPA computed for all institutional credit gives the cumulative GPA, which is the basis for the university’s retention policies, including good standing, warning, probation, suspension, and dismissal. Cumulative GPA also determines students’ eligibility to graduate and have university honors posted to their record at graduation.

Current GPA and cumulative GPA do not apply to graduate students. A notation of academic warning is entered on the transcript of a graduate student who receives a grade of C, or a grade of F in a graduate course or while a grade of IN or IX is in effect. A degree GPA is computed for graduate students based on graded courses completed at the university and applied toward the degree. For more information, see AP6 Graduate Policies (p. 90).

**AP.3.8 Change of Grade**
The conditions and time limits for changes from the temporary grades IN, IP, AB, and SP to final grades appear in Additional Grade Notations (p. 84).

Once a final grade has been recorded by the Office of the University Registrar, it can be changed only in cases of computational or recording error, or pursuant to a successful appeal of the grade as described below. Additional work of any type submitted to improve a grade after the final grade has been assigned and sent to the Office of the University Registrar is never accepted.

All changes of final grades must be initiated, approved, and recorded by the last day of classes of the next regular semester (spring for fall grades, and fall for spring and summer term grades).

**AP.3.9 Grade Appeals**
Although faculty members are generally the best judges of student performance, there may be times when a student believes a grade is unfair. In such cases, the student should ask the faculty member to reconsider the grade. If the student is not satisfied, an appeal may be made to the local academic administrator of the unit offering the course. The administrator should ask the student to return to the faculty member who assigned the grade for further consultation.

If the faculty member is no longer associated with the university, the administrator will appoint a faculty surrogate, who will assume the authority of the instructor of record.

If a mutually satisfactory agreement is not reached, the student may request that the administrator form a review committee of three faculty peers of the faculty member who assigned the grade. If the administrator believes the student’s appeal does not have merit, this reservation is reported to the collegiate dean. If the dean concludes the student’s appeal does not have merit, no review is conducted.

The faculty member or the student may challenge and have replaced one of the three members of the committee without giving a reason for the
challenge. The committee meets separately with the faculty member and the student to explore the full particulars of the case. A nonparticipating observer of the student’s choice may attend the meeting. Every effort is made to avoid an adversarial relationship.

After the committee has reviewed the case thoroughly, it issues to the administrator (with a copy to the faculty member) a written recommendation that includes the reasons for its findings. At this time, the faculty member has an opportunity to take the recommended action, if any. If the matter is not resolved at this point, the administrator considers the committee recommendation and makes a recommendation to the dean. If the dean decides that the recommendation to change the grade is appropriate and the faculty member refuses to make the change, then the dean may direct the Office of the University Registrar to do so. The decision of the dean is not subject to further appeal.

Grade appeals are not accepted after the last day of classes of the following semester (spring for fall grades, fall for spring and summer grades).

The Provost’s Office does not consider grade appeals, nor does the University Academic Appeals Committee.

AP.3.9.1 Pending Grade Appeal for Students in Academic Difficulty
A student may request a delay from the dean in imposing academic suspension because of a pending grade appeal that could change the student’s status. An approved delay allows the student to register.

If the grade appeal is successful, the official transcript is corrected and the student continues in classes as a student in good academic standing, on probation or on warning. If the grade appeal is not successful, the student is required to stop attending all classes immediately. No record of registration for the academic period appears on a transcript and the student receives the appropriate refund as of the decision date.

AP.3.10 Final Exams
Undergraduate courses usually culminate with a final exam. Except in predominantly laboratory courses, final exams may not be given during the last week of classes. Exams may not exceed the scheduled length of two hours, 45 minutes. Changes in location or time of in-class final exams must be approved by the appropriate department chair and dean. A professor who is considering assigning a take-home exam or significant end-of-semester paper or project should inform the students at the beginning of the semester. Such assignments should be distributed by the beginning of the last week of classes so that students can coordinate them with preparation for other exams. Students must not be required to submit exams before the date of the regularly scheduled exam for a course. Retaking final exams is not permitted. Students who have more than two examinations scheduled on the same day should consult their instructors to make other arrangements. If campus-wide disruptions to class meeting schedules occur during the semester (e.g., due to severe weather), a revised final exam schedule may be issued. In this event, students and faculty are expected to adhere to the revised schedule. The examination period may be prolonged and individual exams may be shifted to the last day of the revised exam period.

Students with permission to take deferred examinations may receive a temporary grade of AB (absent with permission). Rescheduled exams must be completed within the time deadline set by the university. See below for more information.

AP.3.10.1 Absences from Final Exams
Absences from final exams will not be excused by the instructor except for sickness on the day of the exam. Other causes must be approved by the student’s academic dean or director. The effect of an unexcused absence from an undergraduate final exam shall be determined by the weighted value of the exam as stated in the course syllabus provided by the instructor. If absence from a graduate final exam is unexcused, the grade for the course is entered as F. See AP.3.3 Additional Grade Notations (p. 84) for information on being absent with permission.

AP.4 Degree Application, Conferral and Graduation

AP.4.1 Application for Degree
In the semester prior to the expected completion of degree requirements, students must confirm their intent to graduate through Patriot Web (https://patriotweb.gmu.edu). The deadline to apply to graduate is generally three to four months prior to the conferral date. Specific deadlines and complete instructions regarding graduation are published on the Office of the University Registrar’s website (http://registrar.gmu.edu). Separate applications for each graduate degree or certificate are required.

For a degree to be conferred, all coursework must be completed, even if the coursework is not being applied to the degree. All students must complete the following degree requirements prior to the conferral (graduation) date: credit-by-exam, oral exams, theses, scholarly papers, and comprehensive exams. Students in doctoral programs must also complete internship/practicum requirements prior to the conferral date. Master’s theses and doctoral dissertations are due in the library well before the conferral date. For more information visit the University Dissertation & Thesis Services web (http://library.gmu.edu/udts) page (http://thesis.gmu.edu).

Students must have active registration status in the semester or summer term of graduation. Students not registered for coursework in the term of graduation must obtain a special registration. (For more information, see AP.1 Registration and Attendance (p. 77).) Degree applications will not be automatically extended if graduation is postponed; students must reapply for each conferral date.

AP.4.2 Degree Conferral
Mason awards degrees and certificates in programs and at levels authorized by the State Council of Higher Education for Virginia (SCHEV). The university confers degrees at the bachelor’s, master’s, and doctoral levels. An academic program may include a degree program and additional majors, minors, or certificates. The university offers no certificate program below the bachelor level; some post baccalaureate certificates, however, may be awarded concurrently with the bachelor’s degree. For more information, see listings in Find Your Program (http://catalog.gmu.edu/programs).

AP.4.2.1 Definitions of Degree Components
• Degree program, major, or field: A program of study that normally requires at least 30 credits of coursework in the specified field. The primary program name (degree and major or field) appears on the diploma for bachelor’s and master’s degrees. Only the degree name appears for doctoral degrees. An undergraduate who desires to graduate with a BA or BS degree in two or more subjects must meet departmental requirements for the major in each field. For each major, at least 18 credits used to fulfill its requirements must be applied
only to that major, i.e., cannot be used to fulfill the requirements of a concentration, minor, undergraduate certificate, or another major.

- **Concentration**: A second-order component of a degree program. A concentration consists of at least 12 hours that are not applied to any other concentration. Undergraduate concentrations are approved by the Undergraduate Council at the undergraduate level or by the Graduate Council at the graduate level.

- **Certificate**: A non-degree program complementary to a degree that requires at least 15 unique undergraduate or 12 graduate credits. For each undergraduate certificate, at least 15 credits used to fulfill its requirements cannot be used to fulfill the requirements of a major, concentration, minor, or another undergraduate certificate. The name of a completed certificate program appears on the transcript after the conferral of an undergraduate degree. Certificates are approved by Undergraduate or Graduate Council as appropriate. Credits from a maximum of one graduate certificate may also apply to a master’s or doctoral degree program.

- **Minor**: A complement to a bachelor’s degree program or major normally requiring at least 15 credits in a field other than the student’s major. Of the courses presented for a minor, at least 8 credits must be applied only to that minor and may not be used to fulfill requirements of the student’s major, concentration, an undergraduate certificate, or another minor. When coursework for a minor is used to fulfill a component of a major, only those credits in excess of the 30 required for a major may be applied to the requirement for unique credits.

- **Option**: The choice of a thesis or nonthesis path in graduate programs.

**AP.4.2.2 Catalog Requirements for Degrees**

Catalog year refers to the setting of course and non-course requirements within academic programs as stated in the school and college section of a specific catalog. Catalog year does not set academic policies other than program requirements in place, however. For more information, see the Knowledge of University Policies section of the Student Rights and Responsibilities (p. 101) page. Not all programs and degree components are available in all catalogs. For any one degree, all requirements must be met as stated in a single catalog. The only exception is that Bachelor’s degree students may select a minor from another catalog year for which they are eligible, as noted below.

Bachelor’s degree candidates may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive for two or more years or who have attended another institution without prior approval from their academic dean or director must graduate under a catalog in effect at or after their re-admission and during their enrollment in degree status.

Master’s and doctoral degree candidates who have been continuously enrolled may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive more than one year, however, may be required by their program to graduate under a catalog in effect after they have been granted permission to re-enroll. In no case may a student choose the requirements of a future catalog year that take effect after the student’s degree is anticipated.

**AP.4.3 Graduation**

Graduation ceremonies provide opportunities for students and their families to share in the conferral of academic degrees. Students who wish to participate should check GMU Events (http://events.gmu.edu) for current information about all graduation details including tickets, regalia, and schedules. Note: there is one formal commencement ceremony per year, in May, that includes all schools and colleges; students are recognized in groups, by their degrees. Each college holds a separate convocation where individual student names are called. Bachelor’s and master’s degree candidates who declare their intent to graduate in August but who have not yet completed all degree requirements may participate in the graduation ceremonies in anticipation of degree completion. Their names are marked with an asterisk identifying them as candidates pending completion of all requirements. Doctoral students may participate only if they have successfully completed all degree requirements, including defending and submitting a signed, final copy of their dissertation by the deadline. A Winter Graduation ceremony is held for August and December graduates where each student is individually recognized.

**AP.4.4 Conferral of Posthumous Degree**

A posthumous degree is an official Mason degree that is awarded to a deceased student in recognition of the student’s academic achievement. The criteria for the award are established in order to uphold academic and institutional integrity. If a student does not qualify for a posthumous degree, an “In Memoriam” degree may be awarded to a student in good academic standing. Either degree award is subject to final review by the Provost.

**Criteria**

A posthumous degree may be awarded if, at the time of the student’s death, he or she was enrolled in George Mason University, was in good academic standing. Either degree award is subject to final review by the Provost.

**AP.5 Undergraduate Policies**

**AP.5.1 Student Classification**

Admitted undergraduates are classified as follows:

- **Freshman**: 0–29 credits completed
- **Sophomore**: 30–59 credits completed
- **Junior**: 60–89 credits completed
- **Senior**: 90 or more credits completed
Full-time undergraduates are classified as those students enrolled in 12 or more credits per semester. Completed hours are defined as a combination of all credits earned at the university plus credits transferred from other institutions or obtained by testing. Please note that different criteria for full-time status may apply for tuition, verification, and financial aid purposes. For more information, contact the offices of Student Accounts (http://studentaccounts.gmu.edu), University Registrar (http://registrar.gmu.edu), and Student Financial Aid (https://www2.gmu.edu/admissions-aid/financial-aid), respectively.

**AP.5.2 Academic Standing**

The following system of academic progress became effective in fall 2004 and applies to all undergraduate degree and nondegree students at Mason.

Academic retention is based solely on the cumulative GPA. The cumulative GPA required for retention varies according to the credit level or attempted credit hours, which is a combination of all credits attempted at the university plus credits transferred from other institutions or obtained by testing.

**AP.5.2.1 Academic Period**

Academic period refers to fall semester, spring semester, or summer term. For determining the duration of academic warning, probation, and suspension, academic period is defined as follows:

Each academic period begins on the 15th day following the last scheduled day of final exams for the previous period. Each academic period ends on the 14th day after the last scheduled day of final exams.

For example, assume that the last scheduled day of final exams for a semester is Monday, December 23. That period then ends on Monday, January 6. The next period begins on Tuesday, January 7.

**AP.5.2.2 Good Academic Standing**

Students are in good academic standing unless they are academically dismissed, suspended, or on probation. Students on academic warning are still considered to be in good academic standing.

**AP.5.2.3 Student Retention Categories**

Students with at least 7 attempted credits and a cumulative GPA of less than 2.00 fall into one of three categories: warning, probation, and suspension. All notations of academic standing are included in a student’s permanent record. The cumulative GPA range that defines each of the categories varies according to the credit level, as noted below:

<table>
<thead>
<tr>
<th>Credit Level</th>
<th>Warning</th>
<th>Probation</th>
<th>Suspension</th>
</tr>
</thead>
<tbody>
<tr>
<td>Attempted Credit Hours:</td>
<td>Cumulative GPA Range:</td>
<td>Cumulative GPA Range:</td>

</tr>
<tr>
<td>90+</td>
<td>1.85-1.99</td>
<td>0.00-1.84</td>
<td></td>
</tr>
</tbody>
</table>

**Exception for Freshmen and Transfer Students**

Freshmen and transfer students in their first semester of study at Mason will receive probation as the strongest academic sanction. GPA retention levels, as stated above, will apply in all subsequent semesters. Students in this category should be on notice that they must improve their academic record to avoid suspension in future semesters; in particular, they should consult their advisors and consider repeating courses to achieve academic good standing.

**AP.5.2.4 Termination from the Major**

Undergraduate students in any retention category may be reviewed for possible termination by their dean according to the published policy approved by the major program. Termination from a major—or from all majors in a college—may be imposed as a result of excessive repeating of required courses without achieving the minimum standard, and for other evidence of continued failure to make adequate progress toward completion of the major. Students must be informed a semester in advance and given a chance to meet the standard or appeal according to the published college procedures. Once a termination decision has been made, a letter of termination is sent to the student by the dean and notification of termination from the major is affixed to the student’s academic record. Students who are terminated are no longer eligible to pursue that major, but may declare a different major within the university to complete their undergraduate degree.

**AP.5.2.5 Academic Suspension**

Students in degree status who incur a first suspension following a spring semester or summer term serve a period of suspension through the next fall semester. Students who incur a first suspension following a fall semester serve a period of suspension through the next summer term. A second suspension is for one calendar year: two semesters and a summer term. Students returning from suspension are on probation for one academic period. Course credits earned at other colleges during the period of suspension from Mason (for academic or nonacademic reasons) are not accepted for the degree program.

Nondegree undergraduate students placed on suspension have no specified rights of return to the university. Nondegree students who have been suspended and wish to resume their studies after a period of absence must qualify for readmission through the Office of Admissions (https://www2.gmu.edu/admissions-aid).

**AP.5.2.6 Academic Dismissal**

A third suspension results in academic dismissal, a status that is usually permanent. In exceptional cases, students who have been dismissed may apply for readmission after a minimum absence of three calendar years from the university, but only if they meet one or more of the following conditions after having been dismissed:

- Demonstrate academic success (2.50 GPA or better) in at least 18 credits of classes taken during the period of dismissal at an accredited two- or four-year college or university. Such credits may be considered for transfer back to Mason, but there is no guarantee of acceptance of the credit.
- Provide other evidence of a renewed ability to achieve academic success.
- Provide evidence that all degree requirements will be met once an additional 12 or fewer credits are complete.

Meeting the above requirements does not guarantee a return. The Office of Admissions and the appropriate school or college dean will make individual decisions in the best academic interests of the student and the university. For students seeking readmission to a new school or college, the new dean will make the decision in consultation with the former dean and the Office of Admissions (https://www2.gmu.edu/admissions-aid). For more information, see AP.5.2.9 Academic Clemency (p. 89).

**AP.5.2.7 Academic Performance and Credit Limit**

Undergraduate students on warning, probation, or returning from suspension are limited to a maximum of 13 credits for following semesters until they achieve good standing. Students registered for 14
or more credits are responsible for seeking academic advisement and adjusting their enrollment to a maximum of 13 credits.

**AP.5.2.8 Academic Standing and Student Activities**

Only students in good academic standing are eligible to hold or run for elective or appointive office in any organization or activity associated with Mason, compete in any athletic or other activity representing Mason on either an intercollegiate or a club level, or serve as a working staff member of any student organization. Note that students on warning are considered to be in good standing. Some organizations and activities may impose stricter academic criteria for participation.

A student whose eligibility for an activity requires the completion of a semester will have fulfilled that requirement when the student's publicly scheduled exams are over, unless continued eligibility depends on the grades received. In the latter case, the student will not become eligible until the end of the semester as defined in AP.5.2.1 Academic Period (p. 88).

**AP.5.2.9 Academic Clemency**

Undergraduate students returning to Mason after a separation of a minimum of three calendar years may petition their academic dean to have up to 16 previous credits earned at Mason removed from the calculation of their cumulative GPA. Courses and grades so removed will not count toward graduation requirements. Note that the courses, with their original grades and the notation “Academic Clemency” will remain listed on the student’s transcript permanently. The petition for clemency must be filed within 12 months starting from the first day of the re-enrollment semester at Mason; approval may depend on successful completion of that semester. Approval of the request is neither automatic nor guaranteed.

**AP.5.3 Requirements for Undergraduate Programs**

**AP.5.3.1 Declaration of Major**

To plan a sound academic program, undergraduates should select a degree and major as soon as it is practical but no later than four weeks before the end of the sophomore year. To declare a major, students should confer with the appropriate advisor in the new major program. Students approaching the recommended point for declaring a major, but still uncertain of their choice, should consult:

Student Academic Affairs - Advising, Retention, and Transitions
Student Union Building I, Room 3600
advisor@gmu.edu

Note that all degree components including Mason Core, majors and concentrations must be contained in a single catalog year. See AP.4.2.2 Catalog Requirements for Degrees (p. 87) for exception regarding minors.

**AP.5.3.2 Requirements for Bachelor's Degrees**

- **Admission.** Candidates must have been officially admitted into degree-seeking status.
- **Residency.** At least one-fourth of the total credits applied to the degree must be completed at Mason and include at least 12 upper-level credits (courses numbered 300 or above) in the major program. A maximum of 30 credits earned in non-degree status at Mason can be applied toward a bachelor’s degree.
- **Credit Hours.** Students must complete at least 120 credits that count toward graduation and fulfill all degree requirements. A few programs require more than the minimum 120 credits.
- **Quality.** Candidates must achieve a cumulative GPA of 2.00 or higher, and must meet all higher standards for grades allowable in majors, minors, or certificates. The Mason cumulative GPA does not include transfer courses.
- **Upper Level.** Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.
- **Mason Core (p. 142) (formerly University General Education).** Candidates must complete categories of general education courses and writing requirements as described for their catalog year. This includes satisfying the requirement of two semesters of English composition (ENGH 101 Composition (Mason Core) (p. 142) and ENGH 302 Advanced Composition (Mason Core) (p. 142)) with a grade of C or better. Additionally, as part of the university's commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the writing-intensive (WI) requirement.
- **College/Department General Education.** Students must satisfy additional general education requirements for specific degree programs, as described on each individual college page.
- **Major.** Students must satisfy all requirements for their major and degree program, as described on each individual college page, and as detailed in the degree evaluation for their catalog year.

**AP.5.3.2.1 English Composition Requirement**

Mason requires students to complete at least two semesters of English composition. Students who complete the Honors curriculum complete the English composition requirement through coursework in those programs. Equivalent credit may be granted through course transfer or external exam. Exemption (but not credit) may be granted through a proficiency exam administered by the English department. All other students must enroll in ENGH 101 Composition (Mason Core) (p. 142) (or ENGH 100 Composition for Multilingual Writers (Mason Core) (p. 142)) upon admission and, after meeting its prerequisites, ENGH 302 Advanced Composition (Mason Core) (p. 142). Students must attain a minimum grade of C in composition courses to fulfill degree requirements.

**AP.5.3.2.2 Writing-Intensive Course Requirement**

As part of the university’s commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the “writing-intensive” (WI) requirement. While other courses in the major may require written projects, teachers of the designated WI courses will devote class time to instruction on how to complete assignments successfully, assign and grade a minimum of 3500 words, provide constructive feedback on drafts, and allow revision of at least one graded assignment. See the description of each major for the specific course or courses that fulfill the WI requirement. For a complete list of approved courses, see Writing Intensive (p. 151) courses.

**AP.5.3.3 Second Bachelor’s Degree**

A second bachelor’s degree may be earned, either concurrently or sequentially. To graduate with two degrees, students must present at least 30 Mason credits beyond those required by either degree alone. For sequential awarding of degrees, students must be readmitted for the second degree through the Office of Admissions and complete a minimum of 30 credit hours after that point to have fulfilled the residency requirement for that degree.

Students who are concurrently pursuing two bachelor's degrees at Mason must present a detailed program of study for both degrees and obtain authorizing signatures from the chair or director of each degree program and the dean or director, if required by the college, school, or institute.
Students may declare the second concurrent degree by completing the Declaration of Second Bachelor's Degree section of the Change/Declaration of Academic Program Form. Both degrees must be declared the semester before the student intends to graduate. Students pursuing concurrent degrees should apply to graduate when both degrees are complete, or be prepared to meet the requirements noted above for sequential awarding of degrees.

**AP.5.3.4 Minors**

Students may elect minor programs of study in addition to major fields by submitting a completed Minor Declaration (Undergraduate) form to the Office of the University Registrar. Minors usually require between 15 and 21 credits of study, at least 8 of which must be applied only to that minor and may not be used to fulfill requirements of the student's major, concentration, an undergraduate certificate, or another minor. Students must complete at least 6 credits in their minor at Mason and achieve a minimum 2.00 GPA in courses applied to the minor. Students interested in a minor should consult the appropriate departmental sections in this catalog. Note that these are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

**AP.5.3.5 Undergraduate Certificates**

Students may elect undergraduate certificate programs of study in addition to major fields by submitting a completed Change/Declaration of Academic Program form to the Office of the University Registrar. Students pursuing undergraduate certificates must be admitted to Mason in degree-seeking status. Undergraduate certificate programs must have 15 unique credits that cannot also be used to fulfill the requirements of a major, a concentration, a minor, or another undergraduate certificate. More than half of the credit hours for an undergraduate certificate must be taken at Mason, and more than half must be taken in degree-seeking status. Students must achieve at least a 2.00 GPA in courses applied to the certificate.

Students with a previous bachelor’s degree, who are admitted to an undergraduate certificate program alone, have four years to complete certificate requirements. Such students who are given permission to re-enroll following an absence from Mason may not count the four-year time limit as beginning on the date of re-enrollment. International students attending in F-1 or J-1 status have a more restrictive time limit; contact the Office of International Programs and Services for information. Students who will not meet the published time limit because of circumstances beyond their control may petition their dean for an extension. Failure to meet the time limit or to secure approval of an extension request may result in termination from the program.

A completed undergraduate certificate may be posted to the transcript only after completion of a bachelor's degree. Note that these are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

**AP.5.3.6 Change of Academic Program**

Students considering a change in their academic program (major or degree) are encouraged to see an advisor in the Academic Advising and Transfer Center or a faculty advisor in their prospective discipline. Departmental sections of this catalog describe requirements for acceptance. Students not meeting the requirements may appeal to the department chair for an exception.

Once a student has completed 60 credits, a change of major requires a meeting with an advisor in the new major before the change is complete. To file a change of major, signatures of advisor or designate in the new major program must be obtained on the Undergraduate Change/Declaration of Academic Program form (http://registrar.gmu.edu/forms).

**AP.5.3.7 Credit for More than One Undergraduate Major**

Students seeking to graduate with a BA or BS degree in two or more subjects must meet departmental requirements for the major in each field. For each major, at least 18 credits used to fulfill its requirements cannot be used to fulfill the requirements of another major, a concentration, a minor, or an undergraduate certificate.

Students pursuing two or more concurrent majors must complete the Second Major section of the Undergraduate Change/Declaration of Academic Program form (http://registrar.gmu.edu/forms). The applicant must present a detailed program of study for both majors and obtain the authorizing signature from the chair or director of the second program and from the dean or director, if required by the college, school, or institute. When required by a specific academic unit, department chairs and deans or directors must also approve all changes to the programs of study. Students may begin a program at any time that permits completion before the anticipated graduation date.

**AP.5.4 University Honors**

A student graduates with distinction from the University when at least 60 undergraduate institutional credits applied toward graduation are earned at Mason, and the student's cumulative GPA is at least equal to one of three values:

- 3.90, summa cum laude
- 3.70, magna cum laude
- 3.50, cum laude

A student graduates with recognition from the university when between 45 and 59 (inclusive) credits applied toward graduation are earned at Mason, and the student's cumulative GPA is at least 3.80.

In addition, high achieving students may qualify for membership in one of the many recognized university honor societies. In 2011, George Mason University was awarded a chapter in Phi Kappa Phi, the nation’s oldest all-disciplinary honor society. In 2012, Mason was awarded a chapter of Phi Beta Kappa, the nation’s oldest and most prestigious honor society dedicated to the liberal arts. Membership is by invitation only to both of these honor societies.

**AP.5.5 Dean's List**

Students in degree status who take at least 6 credits in a semester and earn a semester GPA of 3.50 or higher merit placement on the Dean's List. Courses subsequently repeated and excluded will not retroactively affect Dean's List status. This notation will be placed on the individual’s permanent record.

**AP.6 Graduate Policies**

**AP.6.1 Graduate Programs**

At the graduate level, Mason offers certificates and master's and doctoral degrees. There are also a number of combined bachelor's and accelerated master's degree programs for academically-strong undergraduates with a commitment to research.
### AP.6.1 Student Classification
Students may access graduate classes and programs according to their status as nondegree or enrolled degree students. For more information, see Graduate Admissions (p. 68).

### AP.6.2 Full-Time and Half-Time Status Classification
Graduate students are considered full-time if they are enrolled in at least 9 graduate credits per semester or hold a full-time assistantship (total 20 hours a week) and are enrolled in at least 6 graduate credits per semester. Graduate students are considered half-time if they are enrolled in at least 4.5 graduate credits per semester.

Master's students who are enrolled in thesis credits are considered full-time if they are enrolled in at least three credits of 799 per semester. Master's students may enroll in 1 credit of 799 and be considered in status (either full-time or half-time) only if they have completed 3 credits of 799 and the student along with their advisor and department chair certify each semester that the student is working full-time or half-time on the thesis. See AP.6.9.3 Master's Thesis (p. 95) for more information regarding 799.

Doctoral students who are enrolled in dissertation credits (either 998 or 999) are considered full-time if they are enrolled in at least 6 credits per semester, regardless of whether they hold an assistantship. Doctoral students who have advanced to candidacy and have completed the minimum number of credits required by the university and their degree program, including the minimum number of credits of 998 and 999, are considered in status (either full-time or half-time) if they are registered for at least 1 credit of 999 and the student along with their advisor and department chair certify and communicate to the Office of the University Registrar each semester that they are working full-time or half-time on the dissertation. See AP.6.10.6 Dissertation Registration (p. 98) for more information regarding 998 and 999.

To be considered as full-time under the aforementioned clauses, a student must complete and submit the appropriate forms to the Office of the University Registrar prior to the first day of classes for the semester. Different requirements for full-time and half-time status may apply for tuition, verification, loan deferral, and financial aid. Contact Student Accounts (http://studentaccounts.gmu.edu), the Office of the University Registrar (http://registrar.gmu.edu), and Student Financial Aid (https://www2.gmu.edu/admissions-aid/financial-aid), respectively, for more information. Note that the official designation of time status for all students is determined by the Office of the University Registrar.

### AP.6.3 Academic Advising
When a student is admitted to graduate study, the student is assigned a faculty advisor by the academic program responsible for the student's program of study. Registration for newly admitted graduate students, as well as continuing students, begins with a visit to the student's academic advisor. There, the student can obtain information about specific courses and degree requirements and develop an individual program of study. Progress in an approved program of study is the shared responsibility of the student and the advisor. The graduate student is responsible for compliance with the policies and procedures of the college, school, or institute, and all applicable departmental requirements that govern the individual program of study. Students should consult with their advisors before registration each semester.

### AP.6.4 Student Status
#### AP.6.4.1 Change from Nondegree Status
A student admitted for graduate study in nondegree status may apply to obtain degree status within the same program. All admission requirements (as defined by the student's program for degree status) must be met, including official transcripts and letters of recommendation. If the student intends to use credits earned in nondegree status toward a degree, the credits must be approved on the Graduate Transfer of Credit Request form. The credit must have been earned within six years prior to first enrollment as an admitted student in the specific certificate or degree program, and a minimum grade of B (3.00) must have been earned. There is a limit on the number of credits that can be transferred when changing from nondegree to degree status; please see the applicable degree program for specific information.

#### AP.6.4.2 Removing Provisional Qualifier
For policies concerning students admitted provisionally, see Graduate Admission Policies (p. 68).

#### AP.6.4.3 Permission to Re-Enroll
Permission to re-enroll in a program must be obtained by all graduate certificate, master's and doctoral degree students who have failed to enroll in at least 1 credit of coursework for two or more consecutive semesters at Mason. A program may allow a student to petition to graduate under any catalog in effect while the student was enrolled. All program components, including concentrations, must appear in the catalog for the year selected. The final decision as to catalog year rests with the unit dean or director. The Graduate Re-enrollment form is available here (http://registrar.gmu.edu/forms).

#### AP.6.4.4 Voluntary Resignation from Graduate Academic Program
Degree-seeking students may officially resign from their academic program with the approval of their department or program chair and their dean. The Voluntary Resignation form must be approved by the student’s program and Student Accounts, then submitted to the Office of the University Registrar for notation on the transcript. Resignations after the drop period will result in grades of W on the student’s transcript for that semester and removal from any future registered courses. Program resignation is final.

### AP.6.5 Credit by Exam, Reduction or Transfer
#### AP.6.5.1 Credit by External Exam
Degree credit for satisfactory completion of an external exam is limited to those exams and achievement levels specifically approved by the Graduate Council.

#### AP.6.5.2 Reduction of Credits
All students must meet the university residency requirement; however, the number of credits required by a doctoral, or master's program may be reduced on the basis of a relevant post-baccalaureate degree earned prior to admission. Reduction of credits requires the approval of the program director and the dean or director of the school, college, or institute. They determine whether the credits are applicable to the degree program and the number of credits to be reduced.

### Doctoral Programs
The maximum reduction for doctoral programs derives from the total credits required by the program and the university requirements for institutional, resident, and unique credits. For a 72-credit program, the maximum reduction is 30 credits. Programs that require more than 72 credits may be reduced by more than 30 credits provided that the student meets the aforementioned university requirements. Doctoral students earning a secondary master's degree at Mason do not receive a reduction...
of credits and should indicate on their program of study which courses apply to the doctoral degree. Because individual doctoral programs may have more restrictive policies, make sure to consult with the program and/or academic unit to learn of their reduction of credit policies.

**Masters Programs**

The maximum reduction for master’s programs derives from the total credits required by the program and the university requirements for institutional, resident, and unique credits. Because individual masters programs may have more restrictive policies, make sure to consult with the program and/or academic unit to learn of their reduction of credit policies.

Students requesting a reduction of credits must supply official transcripts. For transcripts from outside the United States, students must supply an official transcript evaluation and an official translation for transcripts not in English if these documents were not supplied in the admission process. Reduction of credits requests from students who are admitted provisionally are not considered until the students have fulfilled the conditions of their admission and had the provisional qualifier removed from their records.

Credits used in reduction of credits are not subject to time limits, and the credits must have been applied to a previous degree. The credits used in the reduction may include transfer credit used for a previously earned degree but may not include credits that are applied to both an undergraduate and graduate degree in a joint bachelor’s/master’s program or in Mason’s Bachelor’s/Accelerated Master’s Programs. Reduction of credits may not be requested for more credits than were applied to the previous degree. Excess thesis credits beyond those allowed by the previous degree may not be applied to a reduction of credits.

Coursework applied to a reduction must have received a minimum grade of B. Courses graded ‘pass/fail’ or ‘satisfactory/no credit’ may be applied to a reduction of credits provided that is the standard grade mode for the course and that it can be reasonably interpreted as a B or better according to the home institution's grading system. Graduate degrees that follow a non-standard format will be evaluated on a case-by-case basis.

**AP.6.5.3 Transfer of Credit**

Graduate credit earned prior to admission to a certificate, master’s, or doctoral program may be eligible to be transferred into the program and applied to the certificate or degree. Transfer of credit requires the approval of the program director and dean or director of the school, college, or institute. They will determine whether the credit is eligible for transfer and applicable to the specific certificate or degree program. Note that credits accepted for transfer do not compute into any Mason GPA. Limits on the number of credits that can be transferred derive from the degree requirements given below.

Credit is usually considered for transfer at the student's request at the time of initial registration as a degree-seeking student. Students must supply official transcripts. For transcripts from outside the United States, students must supply an official transcript evaluation and an official translation for transcripts not in English if these documents were not supplied in the admission process. Credit transfer requests from students who are admitted provisionally are not considered until they have fulfilled the conditions of their admission and the provisional qualifier has been removed from their records.

To be eligible for transfer credit, the credit must be graduate credit earned at another accredited university, earned at another institution and recommended for graduate credit in the American Council on Education guidebook, or earned at Mason while in a nondegree status. The credit must have been earned within six years prior to first enrollment as an admitted student in the specific certificate or degree program, and a minimum grade of B (3.00) must have been earned. The course must be applicable toward a degree at the institution offering the course. Extension and in-service courses that are not intended by the institution offering the courses to be applied to a degree program are not eligible for transfer credit to Mason. The credits cannot have been previously applied toward a degree at another institution or Mason; however, up to 3 credits previously applied to a degree program at another institution may be transferred into a certificate program at Mason.

**AP.6.5.4 Permission to Study Elsewhere**

Students enrolled in a degree program may take graduate courses at another accredited institution and apply these credits to a master’s or doctoral degree with prior approval. Approval must be secured in writing from the director of the graduate program and the dean or director of the school, college, or institute, and submitted to Mason’s Office of the University Registrar before registering at the other institution. Upon completion of the course, students must arrange for an official transcript to be submitted to Mason so that the credits may be transferred into their Mason degree program. These credits are subject to all the other conditions given above for transfer credit, including limits on numbers of credits that can be taken elsewhere. Note that credits accepted for transfer do not compute into any Mason GPA. Permission to take a course elsewhere does not exempt a graduate student from satisfying the degree requirements given below.

Enrolled, degree-seeking graduate students may be eligible to take a limited number of courses through the Consortium of Universities of the Washington Metropolitan Area. See AP.1.4.2 Permission to Study Elsewhere (p. 79) for more information. Credits earned through the consortium are considered resident, not transfer, credits, and are therefore not subject to transfer of credit conditions or limitations.

**AP.6.6 Graduate Academic Standing**

**AP.6.6.1 Academic Warning**

A notation of academic warning is entered on the transcript of a graduate student who receives a grade of C or F in a graduate course or while a grade of IN is in effect.

**AP.6.6.2 Academic Termination**

A degree-seeking graduate student will be terminated for the reasons listed below unless an academic policy exception is obtained. Non-degree graduate students will be terminated for unsatisfactory performance as described below. These are minimum standards of performance; some programs have higher standards. Note that the university reserves the right to terminate any student based on cancellation (by the testing administrator) of any test score required for admission. Once a student has met the criteria for termination, they may only avoid termination by obtaining an academic policy exception, as described below, through the process provided for by their academic unit in conjunction with the Associate Provost for Graduate Education.

**Students May Be Terminated for Any One of the Following Reasons**

**Fully-Admitted Graduate Students Enrolled in a Degree and/or Certificate Program**

- Fail to make satisfactory progress toward degree as determined by the academic unit and/or Associate Provost for Graduate Education.
• Accumulate grades of F in two graduate courses or 9 credits of unsatisfactory grades in graduate courses.

Provisionally-Admitted Degree Seeking Graduate Students

• Fail to meet provisions of admission within time limits.
• Fail to make satisfactory progress toward the degree, as determined by the academic unit and/or Associate Provost for Graduate Education.
• Accumulate 12 credits of unsatisfactory grades in undergraduate courses.
• Accumulate grades of F in two graduate courses or 9 credits of unsatisfactory grades in graduate courses.

Note: Undergraduate and graduate course grades are not combined to reach the termination threshold; they are considered separately.

Non-Degree Graduate Students

• Accumulate 12 credits of unsatisfactory grades in undergraduate courses.
• Accumulate grades of F in two graduate courses, or 9 credits of unsatisfactory grades in graduate courses.

Note: Undergraduate and graduate course grades are not combined to reach the termination threshold; they are considered separately.

The student is responsible for knowing both the termination criteria (including, but not limited to, program time limits and grade requirements) and the process for initiating an academic policy exception request to the dean of their academic unit. In cases of program time limits and grade requirements, the University Registrar will notify the student within two weeks of termination eligibility that the student’s performance has reached the threshold for termination, provide notice of the start of the request for exception period, and direct the student to their respective academic unit for information on submitting an academic policy exception request. For all other termination criteria, the academic unit will notify the student within two weeks of termination eligibility that the student's performance has reached the threshold for termination, provide notice of the start of the request for exception period, and direct the student to information on submitting an academic policy exception request.

Each academic unit, and the Associate Provost for Graduate Education as applicable, shall publish on their respective university web page the process for initiating an academic policy exception request and the criteria used in their respective reviews. Each academic unit and the Associate Provost for Graduate Education shall also publish on their respective university web pages the process for filing an appeal of an academic policy exception denial. The Associate Provost for Graduate Education is responsible for publishing the criteria used by that office and by the Graduate Academic Appeals Committee during their respective appeal reviews. During the review of any request or appeal, the student may register and enroll in classes.

Once an academic policy exception request or appeal period has expired, or when the student’s exception request has been denied by the academic unit, the Associate Provost for Graduate Education, or the Graduate Academic Appeals Committee with no further appeal option, a letter of termination signed on letterhead by the dean or director of the student’s academic unit will be sent to the student by mail and email within one week, with an electronic copy provided to the University Registrar. A notification of academic termination will be affixed to the graduate student’s official record and the student may then be administratively dropped or withdrawn from currently enrolled classes. See AP.1.3 (https://catalog.gmu.edu/policies/academic/registration-attendance/#text) for more information.

Should a student continue:
• in the enrolled degree and/or certificate program or non-degree program, or
• change programs within a single college without going through an admissions process

any grades of F or unsatisfactory grades shall count toward reaching the termination threshold as described above.

AP.6.3 Readmission to Graduate Study at Mason
Former graduate students who have been terminated, dismissed or have resigned from a Mason graduate program are not permitted to take any additional coursework at Mason unless a new graduate program application has been submitted and the applicant has been admitted to graduate study. Time limits for the degree begin with the date of admission to the new program. If the student applies and is readmitted to the same graduate program at Mason from which the student was terminated, dismissed, or resigned, any grades of F or unsatisfactory grades accumulated within six years prior to readmission shall count toward reaching the termination threshold.

Academic units and programs may have additional restrictions concerning re-admission. If so, those restrictions apply. Upon full admission to an alternative graduate program at Mason, any grades of F or unsatisfactory grades accumulated in previous graduate programs at Mason will be excluded and shall not count towards reaching the termination threshold as described in AP.6.2 (p. 92).

AP.6.7 Bachelor’s/Accelerated Master’s Degrees
The university offers a number of Bachelor’s/Accelerated Master’s Programs for academically strong Mason undergraduates with a commitment to research or graduate or professional studies. Applicants receive a waiver of the graduate application fee and admitted students may obtain both a bachelor’s and a master’s degree after satisfactory completion of 144 - 150 credits (number of required credits depends on the graduate program).

AP.6.7.1 Application and Admission
Application to accelerated master’s degree programs should be made once the student has earned between 75 and 100 credits. Individual colleges, schools and programs may set more specific requirements for earned hours prior to application. Admission is competitive and must be approved by the faculty director of the student’s undergraduate program, the faculty director of the intended graduate program, and the relevant graduate dean or designee.

AP.6.7.2 Coursework Requirements
After admission and having earned 90 undergraduate credits, accelerated master’s students complete 3 to 6 credits of graduate coursework in their field of study (with a 3.00 GPA or better in each course), specified by their undergraduate and graduate advisors. These credits will apply to the undergraduate degree and provide the student advanced standing in the related Mason master’s program. All graduate course prerequisites must be completed prior to enrollment. While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate
credits do not apply to the undergraduate degree. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree, including a minimum of 18 applicable graduate credits taken after the bachelor’s degree has been completed and posted to the student’s academic record.

**AP.6.7.3 Timeline Requirements**

Accelerated master’s students must graduate from their undergraduate program in the semester specified on their application to the accelerated degree program. Changes to the timeline for conferral of the undergraduate degree must receive written approval by the graduate program director. Students are also required to enroll in the related master’s program in the fall or spring semester that immediately follows the term of undergraduate degree conferral. Some programs may allow a deferral of no more than one year from time of admittance to graduate status. Students must abide by all timelines outlined in each specific program. Failure to enter the graduate program in accordance with specified timelines will result in forfeiture of graduate advanced standing and/or more restrictive requirements.

**AP.6.7.4 Instructions for International Students**

F-1 and J-1 students must request a change of program level and an I-20/DS-2019 extension at the time they move from the undergraduate to graduate level of study. Funding for the additional time in F-1 or J-1 status also must be documented as required by federal immigration regulations.

**AP.6.8 Requirements for Graduate Certificates**

Candidates must satisfy all applicable university requirements and all requirements established by the graduate certificate program faculty. Individual departmental graduate certificate requirements are listed under their academic departments in this catalog. Note that the following are university minimum requirements; individual programs may have higher standards and/or more restrictive requirements.

- Graduate certificate programs require a minimum of 12 graduate credits.
- Only graduate courses may apply toward the graduate certificate.
- A maximum of 3 graduate credits taken at another institution can be transferred into a graduate certificate program. See AP.6.5 Credit by Exam (p. 91).
- In the case of a certificate offered through consortial arrangement, at least one-third of the credit applied to the certificate must be earned through direct instruction at Mason.
- Candidates must have a minimum GPA of 3.00 in coursework presented on the certificate application, which may include no more than 3 credits of C. (Grades of C+, C-, and D do not apply to graduate courses.) The GPA calculation excludes transfer credits.
- Certificate students are subject to graduate termination policies.

**AP.6.8.1 Students in Master’s or Doctoral Programs also Pursuing Graduate Certificates**

**Admission**

Students must be admitted to the master’s or doctoral program in degree status. They must also be admitted to the graduate certificate program at least one semester before completion of certificate requirements.

**Coursework in Degree Status**

More than half of the credits required for the certificate program must be taken in degree status for the master’s or doctoral degree.

**Time Limits**

The time limits coincide with the six-year time limit for master’s degrees or the six-year time limit for advancement to candidacy in a doctoral degree. Master’s and doctoral time limit rules apply.

**Multiple Programs**

Students may be enrolled in one graduate certificate program while they pursue a master’s or doctoral degree. Students who have completed a graduate certificate may subsequently be approved to apply many of the credit hours for that one certificate to a graduate degree, as long as they were taken within six years of official enrollment into the degree program. There is no limitation on the sharing of credits between the graduate degree and one certificate.

**AP.6.8.2 Students in Graduate Certificate Programs Only**

**Admission**

Students pursuing graduate certificates must be admitted to Mason in degree-seeking status. Failure to make satisfactory progress (as determined by the academic unit) toward certificate requirements may result in termination from the certificate program.

**Coursework After Admission**

More than half of the credits required for the graduate certificate program must be taken after admission to that program.

**Time Limits**

The time limit for completion is six (6) years from the date of admission to the graduate certificate program. International students attending in F-1 or J-1 status have more restrictive time limits; contact the Office of International Programs and Services for information. The time limit is not extended because of an absence and subsequent re-enrollment into the graduate certificate program. Failure to meet the time limit or to secure an extension request shall result in termination from the program. This policy does not supersede a student’s university-approved disability services accommodations plan.

**Multiple Programs**

Students not admitted to any graduate degree program (master’s or doctoral) may be admitted to two graduate certificate programs at the same time. The graduation application for each graduate certificate must include a minimum of 12 credits that apply only to that certificate and not to another. (Credits from only one certificate may be subsequently applied to a future degree program, subject to program approval and time limit.)

**AP.6.8.3 Financial Aid for Students in Certificate Programs Only**

Not all certificate programs are eligible for Federal financial aid. A list of the eligible graduate certificates can be found in Financial Aid (p. 125).

**AP.6.9 Requirements for Master’s Degrees**

Candidates must satisfy all applicable university degree requirements and all requirements established by the master’s program faculty. Individual departmental degree requirements are listed under the respective master’s programs in this catalog. Programs may impose more stringent requirements.

- **Admission.** Candidates must have been officially admitted into degree status.
- **Credit Hours.** Candidates must earn a minimum of 30 graduate credits.
- **Credit Level.** Only graduate courses may apply toward the degree.
- **Institutional Credit.** The majority of the credits applied to the degree must be earned at Mason or, in the case of programs offered through joint, cooperative, or consortium arrangements, at the participating
institutions. At least one-third of the credits applied to the master's degree must be earned through direct instruction at Mason.

• Residency. A minimum of 18 credits must be taken in degree status, after admission to the degree program.

• Thesis/Project Limits. A maximum of 6 credits of master's thesis research (799) or master's project may be applied to the degree.

• Quality. Candidates must have a minimum GPA of 3.00 in coursework presented on the degree application, which may include no more than 6 credits of C. (Grades of C+, C, or D do not apply to graduate courses. The GPA calculation excludes all transfer courses and Mason nondegree studies credits not formally approved for the degree.)

AP.6.9.1 Thesis Options
Requirements regarding a thesis vary with the degree program. A number of master's programs offer both thesis and nonthesis options. The same quality of work is expected of students regardless of their chosen option. For more information, consult the section on degree requirements under each degree program.

AP.6.9.2 Time Limit
Master's degree students have six (6) years from the time of first enrollment as a degree-seeking student to complete their degrees. Individual master's programs may have stricter time limits, which are published in this catalog. International students attending in F-1 or J-1 status also have more restrictive time limits; contact the Office of International Programs and Services for information. Students who are given permission to re-enroll following an absence from Mason may not count the six-year time limit as beginning on the date of re-enrollment. Students who will not meet published time limits because of compelling circumstances beyond their control may petition for an extension. Failure to meet the time limits or to secure approval of an extension request shall result in termination from the program. See detailed information (http://registrar.gmu.edu/forms/timelimit) regarding how to determine the initial deadline. This policy does not supersede a student's university-approved disability services accommodations plan.

AP.6.9.3 Master's Thesis
When a thesis proposal has been approved by the appropriate department, the department chair sends the collegiate dean or director a copy of the thesis proposal, including the approval signatures of the master's thesis committee members. Students may enroll in thesis research (799) at the beginning of the next semester. Students must register for a minimum of three credit hours in their first semester of 799. After that semester, students must enroll for one credit of 799 per semester until the thesis is complete and has been successfully submitted to the library. Such students enrolled for one credit of 799 may be considered in status (either full-time or half-time), if the following requirement is met: the student, advisor and department chair must certify each semester that the student is working full-time or half-time on the thesis. See AP.6.2 (p. 91) Full-time and Half-time Status Classification for more information. Please note: Master's students must maintain continuous enrollment in 799, excluding summers, each semester until the thesis is complete and has been successfully submitted to the library. Students who are completing their thesis in the summer must be registered for at least 1 credit of 799 in the summer. Graduation candidates who miss the library deadline for thesis submission but do submit successfully before the next semester begins do not have to register for 799 in the next semester. Such students must apply for graduation in order to have their degree conferred. Students registered in 799 are graded S/NC, and previous IP grades are updated by the Office of the University Registrar to reflect the final S or NC grade.

Students selecting the thesis option should obtain a copy of Mason's Thesis, Dissertation, or Project Guide. Students may register in 799 only after their thesis proposal has been submitted and approved as prescribed in the guide. Any student not in attendance at Mason who is preparing a thesis under the active supervision of a member of the faculty or wishes to take an exam must maintain continuous registration in 799 for at least 1 credit per semester.

The master's thesis committee is composed of at least three members of the graduate faculty, at least two of whom must be from the student's department or program. Faculty who are not members of the graduate faculty or other appropriate persons not affiliated with the university may serve as additional members. Committee members are appointed by the chair or director of the academic unit or program, or designee, after consultation with the student's adviser and the student. Only a member of the graduate faculty with a full-time appointment at George Mason University may serve as the thesis chair.

The thesis committee chair is primarily responsible for directing the candidate's research and writing activities. The student is responsible for keeping all committee members informed of the scope, plan, and progress of the research as well as the writing of the thesis.

AP.6.9.4 Thesis Submission
On or before the thesis submission deadline for any semester, each student will submit a CD with a complete electronic copy of his/her thesis (signed Signature Sheet through Curriculum Vitae) as a PDF to University Dissertation & Thesis Services (UDTS). The PDF will be uploaded into the Mason Archival Repository Service (MARS). At the time of final submission, the student will also turn in completed versions of the Transmittal Sheet, ETD Submission Form, and MARS Agreement.

For degree conferral in a particular semester, the above materials must be submitted to the library by 5:00 p.m. on the Friday before the last day of class in that semester. (For specific deadlines and more information, please see The Office of the University Registrar (http://registrar.gmu.edu).)

Under circumstances determined by the student's school, college, and/or program, a student may petition to embargo all or part of his/her thesis, preventing online access to it for a period of time (2 years, 5 years, or 10 years). A student may choose to embargo his/her work in order to avoid potential contract disputes with future publishers or to protect intellectual property. Not all schools, colleges, and/or programs will permit a student to embargo his/her work, and the both the student’s thesis chair and the graduate associate dean of the school/college must approve the student’s petition. Upon approval of an embargo, the thesis chair, the graduate associate dean and the student must sign the embargo approval form. The student must turn in this completed, signed embargo form to UDTS at the time of submission of his/her thesis and all other materials. The UDTS Coordinator will confirm with both the chair/director and the associate dean that they have signed the submitted form. A hard copy of the confirmation will be retained by the UDTS Coordinator. At the time the work is uploaded to MARS and/or ProQuest, the author will receive an email notification, with an official PDF attached, stating that the embargo will begin and end on a certain date, and advising the author that it is his/her responsibility to keep track of the embargo lift date. The author will further be advised that it is his/her responsibility to notify the UDTS Coordinator via email (udts@gmu.edu) that he/she wants to lift the embargo prior to the termination date, or that
he/she wants to renew the embargo (or institute a new limit). In the form, the author will also be advised that he/she should retain this form and place it in the care of his/her attorney, next of kin, or other appropriate designee. In case of death, incapacity, or other similar circumstance, it is up to the author’s estate, power of attorney, or other appropriate designee to ensure that the embargo continues.

If the student wishes to extend the embargo past the thesis’s release date, the student is required to secure the approval of the graduate associate dean of the student’s college/school at the time of the extension request. Students can request a renewal period of 2 years, 5 years, or 10 years. If approved, the student must notify UDTS via email (udts@gmu.edu) of his/her intention to extend the embargo. The UDTS Coordinator will confirm with the associate dean that the embargo extension has been approved, and will retain copies of both the student’s request and the associate dean’s confirmation that the embargo can be extended.

Theses embargoed for any period will be accessible electronically on-campus in Special Collections UNLESS the student/author can provide evidence that the document should NOT be reviewed for a certain period. Permission to restrict access on-campus for such period or fully may be granted by the Associate Provost for Graduate Education. Only under extreme circumstances will a student’s work be considered by the Associate Provost for Graduate Education for such an embargo. A student must have proof that publication of his/her work poses a danger to themselves, national security, or similar scenario.

Once a student has submitted the final (i.e. defended, formatted, and signed) version of his/her project, thesis, or dissertation to University Dissertation & Thesis Services (UDTS), subsequent edits WILL NOT BE ALLOWED EXCEPT under the following circumstances:

1. A formatting error has been introduced into the PDF document when converting from another document type that affects the meaning of the dissertation. For example: in the process of formatting the document into a PDF, all of the ampersands (&) have disappeared and the error is not discovered until after final submission to UDTS. Re-submission would not be allowed to revise margins, fonts, or other non-substantive items.

2. Incidence of fraud or plagiarism. The relevant college/school must conduct a review of the thesis or dissertation and determine an appropriate course of action in accordance with the university catalog and approved by the Dean. If the approved course of action includes allowing the student to resubmit a corrected version of a thesis or dissertation, the UDTS Coordinator must be informed in writing by an appropriate college/school or LAU official.

UDTS will not allow corrections of theses and dissertations for the following:

- Rewording the Dedication, Acknowledgments, Abstract, or Biography.
- Correction of citations or quotations.
- Addition of new text, or deletion of existing text, in the body.
- Correction of misspellings or grammar issues.
- Replacing, adding, or deleting Tables, Figures, or Equations.
- Correction of any other minor errors or omissions.

AP.6.9.5 Doctoral Students Also Pursuing a First Master’s Degree

Requirements for master’s degrees apply with the following exceptions. Residency derives from the doctoral degree requirements. Time limit may derive from the doctoral requirements, although programs may reject coursework that is not sufficiently current. Students must be officially admitted to degree status in the master’s program a full semester before the one in which they will complete master’s degree requirements, i.e. admitted in fall for graduation the following spring.

AP.6.9.6 Individualized Dual Master’s Degree Programs

George Mason students have the option to pursue two master’s degrees simultaneously. For purposes of administration, if a different rate of tuition is assessed for each program, the student will be assessed at the higher rate. The program with the higher rate will be considered the primary program. The six year time limit for completion of dual master’s programs derives from the admission date of the initial program.

Students in dual master’s degree programs are not eligible for reduction of credit based on a previously earned relevant post-baccalaureate degree earned prior to admission. Any Reduction of Credits that was granted upon admission to the initial program will be removed from the student’s record upon matriculation into the second program.

Students are not eligible to pursue two master’s degrees until they have completed one semester in their initial master’s program. Interested students should know:

- A full admissions application must be submitted for both programs.
- Students must apply and be accepted to the second master’s degree within one year of matriculation in the initial program.
- A restricted number of credits may be shared across dual degree programs, according to University Policy 3007 (http://universitypolicy.gmu.edu/policies/dual-degree-program-arrangements).
- An Individualized Dual Master’s Degree Program of Study form (http://registrar.gmu.edu/wp-content/uploads/DMPS.pdf), approved by directors of both programs, must be submitted to the Office of the University Registrar (http://registrar.gmu.edu) upon matriculation in the second program. This will determine the maximum number of credits and specific courses that may be shared across programs.
- The Program of Study must include a written statement explaining the intellectual or pedagogical purpose behind the degree program, and the academic symmetries that exist between the underlying fields of study.

AP.6.10 Requirements for Doctoral Degrees

Candidates must satisfy all applicable university degree requirements and all requirements established by the doctoral program faculty. Departmental degree requirements are listed under the respective doctoral programs in this catalog. Programs may impose more stringent requirements.

- Admission. Students must have been fully admitted into degree status.
- Credit Level. Only graduate courses may apply toward the degree.
- Credit Hours. Candidates must earn a minimum of 72 graduate credits, which may be reduced on the basis of a completed master’s degree or other suitable, approved transfer work. (See AP.6.5 Credit by Exam, Reduction or Transfer (p. 91))
- Unique Credit. A minimum of 42 credits must apply only to the doctoral degree.
- Institutional Credit. More than half of the required credits (minimum 72) for the doctoral degree must be earned at Mason or in the case of programs offered through joint, cooperative, or consortium arrangements, at the participating institutions.
• **Residency.** More than half of the required credits (minimum 72) must be taken in doctoral degree status, after admission to the degree program.

• **Candidacy.** Candidates must pass a written or oral doctoral candidacy (qualifying) exam, or both.

• **Dissertation.** Candidates must complete a minimum of 12 credits of doctoral proposal (998) and doctoral dissertation research (999), including at least three credits of 999. A maximum of 24 credits of 998 and 999 may be applied to the degree.

• **Defense.** Candidates must pass a final public defense of the doctoral dissertation.

• **Quality.** Candidates must have a minimum GPA of 3.00 in coursework presented on the degree application, which may include no more than 6 credits of C. (Grades of C+, C, or D do not apply to graduate courses. The GPA calculation excludes all transfer courses and Mason extended studies or nondegree credits not formally approved for the degree.)

### AP.6.10.1 Time Limit

For both full-time and part-time students enrolled in doctoral programs, whether entry is post-baccalaureate or post-master’s, the total time to degree will not exceed nine (9) calendar years from the time of first enrollment as a doctoral student. Doctoral students are expected to progress steadily toward their degree and to advance to candidacy within no more than six (6) years, although colleges may set a shorter time limit.

Students who do not meet published time limits because of compelling circumstances beyond their control may petition their dean for a single extension of one calendar year at any point during their program. If such an extension is granted, the total time limit for completion of the degree will not exceed ten (10) years. Reenrollment following an absence from Mason does not change the student’s time limit, which is based on the date of initial admission. Failure to meet the time limits or to secure approval of an extension request shall result in termination from the program. Faculty and students share in the responsibility to progress toward completion of degree requirements, and faculty must be actively involved in helping students conform to the nine (9) year time limit. This policy does not supersede a student’s university-approved disability services accommodations plan.

Non-immigrant students in F-1 or J-1 status are further limited by the regulations governing their stay in the United States. The University issues visa documents (forms I-20 and DS-2019) that indicate the estimated length of the student’s academic program. Students who need extensions beyond the initial period of stay must request them through the Office of International Programs and Services (OIPS). Documentation of the compelling circumstances necessitating the extension request is required by federal regulations. For further information, please consult with an advisor in OIPS.

### AP.6.10.2 Doctoral Research Skill Requirements

Some doctoral degree programs require demonstration of proficiency in a research skill, including knowledge of the research literature in a foreign language, computer language, statistical methods, or a research tool specific to the discipline. Research skill requirements are included with the degree requirements for the specific doctoral degree. Where demonstration of research skills is required, certification that this requirement has been met must be completed for advancement to candidacy.

### AP.6.10.3 Program of Study

Usually before the end of the second year of graduate study but no later than consideration for advancement to candidacy, doctoral students must submit a program of study for approval by the dean or director of the college, school, or institute. The program of study must include major courses and supporting courses to be completed, research skills required, subject areas to be covered by the candidacy exam, and a proposed date for the candidacy exam. Program of Study Forms are available from each program’s doctoral coordinator. Any changes in the programs of study must be documented with an amended Program of Study Form.

### AP.6.10.4 Advancement to Candidacy

Advancement to candidacy implies that a doctoral student has demonstrated both a breadth and a depth of knowledge in the field of study and is capable of exploring problems on the boundaries of knowledge, and has identified a research area that is likely to lead to a successful dissertation. The candidacy exam includes a written part and may include an oral part, depending on the particular doctoral program. Doctoral students should consult the degree requirements for each doctoral program to determine whether an oral portion is required, whether it is judged separately or with the written portion, the number of times a failed candidacy exam may be repeated and any associated time limits, and any time limits for attempting the candidacy exam.

Before doctoral students may be advanced to candidacy by the unit dean or director, they must have completed all coursework as indicated on the approved program of study, been certified in all doctoral research skills required, passed the candidacy exam, and been recommended by the doctoral supervisory committee or program coordinator. Students advanced to candidacy after the add period for a given semester must wait until the following semester to register for 999 Dissertation Research.

### AP.6.10.5 Dissertation Committee

The Dissertation Committee provides guidance and oversight of the student’s dissertation research and writing. In some units this committee may also function as the program committee, facilitating the design and approval of the student’s program of study, conducting required examinations, and regularly assessing the student’s progress and accomplishments.

#### Committee Size and Composition

**Committee Size:** Doctoral candidates must have a Dissertation Committee made up of a Chair and at least two other members (Member #1, Member #2).

**Committee Chairs:** Full-time faculty members at George Mason University may serve as Dissertation Committee Chairs as long as they are members of the Graduate Faculty, they are members of the core faculty for the student’s degree program, and they are relevant to the student’s field of study.

If the Chair of a Dissertation Committee leaves the university or retires during the student’s degree, the program director may request that Graduate Faculty status be granted to allow the continuation of the member’s service as Co-chair.

**Committee Co-chairs:** In some cases it may be appropriate to designate additional faculty as Co-chair. Graduate faculty who are from any George Mason University LAU or who are external to the university may serve as Co-chair. Non-tenure/tenure-track faculty and individuals from outside the university must be approved as members of the graduate faculty for purposes of having Co-chair privileges (see section below, Committee
Service by Personnel other than Tenured or Tenure-Track Faculty at George Mason University. If the Co-chair designee meets all requirements then the Co-chair may count as Member #1 or Member #2.

Committee Members on Dissertation Committees: Each Dissertation Committee must have at least two members in addition to the Chair. The Chair, Member #1, and Member #2 must have graduate faculty status and be relevant to the student’s field of study. In addition, Member #1 must be full-time faculty at George Mason University. Member #2 may be from George Mason University or external to the University.

Additional committee participants may be added. Committee service by other qualified individuals inside or outside the university may be requested by the student’s LAU/program (see section below, Committee Service by Personnel other than Tenure or Tenure-Track Faculty at George Mason University).

Students should refer to the policies and procedures for their degree program for any specific guidelines for graduate Dissertation Committee service within the LAU/program.

Committee Service by Personnel other than Tenured or Tenure-Track Faculty at George Mason University: Personnel with suitable academic training and research experience who are not George Mason University full time, tenured, or tenure track faculty may be recommended for inclusion on a graduate student Dissertation Committee. This category includes personnel from outside George Mason University as well as Research Faculty, Administrative/Professional Faculty, Instructors, Affiliate Faculty, Adjunct Faculty, Retired or Emeritus Faculty, and Term Faculty at George Mason University. Such personnel must have an appropriate terminal degree. Inclusion of personnel with comparable experience in place of a terminal degree is requested by the student’s Dissertation Committee Chair and the Dean/Dean’s designee and approved by the Associate Provost of Graduate Education.

Full-time term or administrative/professional faculty members at George Mason University may serve as Dissertation Committee Chairs as long as they are members of the graduate faculty. Other personnel may be added to the committee as Co-chair, Member #2, or an additional member. Additional members need only be approved by the Graduate Program/LAU. Inclusion of committee members in the other categories is requested by the student’s Dissertation Committee Chair and Graduate Program Director and approved by the Dean/Dean’s designee; all such personnel must be appointed to graduate faculty by the Office of the Provost. If such members are on a temporary appointment there should be assurance that they will be available throughout the student’s degree. They may share dissertation supervision responsibilities, and enjoy voting rights and privileges. A curriculum vitae for the proposed committee member must be included with the request for graduate faculty status and the particular advantages of including this person on the committee should be cited. Once approved for graduate faculty status, a new request is not required for service on additional committees. Faculty, staff, and students are urged to check the online list of approved graduate faculty members.

Individual programs may have more restrictive policies. If so, those restrictions apply.

Refer to the policies and procedures of the degree program for information on how to change membership of previously established dissertation committees.

AP.6.10.6 Dissertation Registration (998, 999)

Students working on dissertation research (999) must register for a minimum of 3 credits of 999 per semester (excluding summers) until they have completed the minimum number of credits of 998 and 999 required by the university and their degree program. Then, they must register for 1 credit of 999 until the dissertation is complete and has been successfully submitted to the library. See AP.6.2 Full-time and Half-time Classification (https://catalog.gmu.edu/policies/academic/registration-attendance/#text) for more information. Students registered in 998 or 999 are graded IP until work in 998 or 999, respectively, is complete; at that time they are graded S/NC, and previous IP grades are updated by the Office of the University Registrar to reflect the final S or NC grade.

All registration for doctoral dissertation research (999) is open only to doctoral students who have advanced to candidacy. Once enrolled in 999, students must maintain continuous registration in 999 each semester.
until the dissertation is complete and has been successfully submitted to the library, excluding summers. Students who defend in the summer must be registered for at least 1 credit of 999 in the summer. Individual doctoral programs may require continuous registration beginning with 998. Graduation candidates who miss the library deadline for dissertation submission, but do submit successfully before the next semester begins, do not have to register for 999 in that next semester, but must apply for graduation in order to have their degree conferred.

It is the student’s responsibility to complete registration for dissertation proposal (998) or research (999) prior to the first day of classes for the semester. If this date is missed, students must still enroll in these courses via Add or Late Schedule Adjustment procedures and are subject to Late Registration fees. Failing to register on time in a particular semester does not alter the requirement for continuous registration in 999.

**AP.6.10.7 Doctoral Dissertation**

A dissertation is required for the doctor of philosophy degree and most professional doctoral degrees. The dissertation is a written piece of original thinking that demonstrates doctoral candidates' mastery of subject matter, methodologies, and conceptual foundations in their chosen field of study. This is generally achieved through consideration of a problem on the boundaries of knowledge in the discipline.

The director of the dissertation committee is primarily responsible for directing the doctoral candidate’s research and guiding the preparation of the written dissertation. After the dissertation committee is appointed, the student should begin discussions with the director to define a suitable problem for the dissertation. Before the student may enroll in doctoral dissertation research (999), the dissertation proposal must be approved by the dissertation committee and evidence of approval sent to the unit dean or director for approval. Before that time, the student may enroll in proposal research (998).

Guidelines for the content and general format of doctoral dissertations are in the *Thesis, Dissertation, or Project Guide*. Consult a doctoral coordinator to determine which additional reference manuals are suitable.

**AP.6.10.8 Doctoral Defense**

As soon as all degree requirements have been satisfied, including completion of the doctoral dissertation, the doctoral candidate may request a doctoral defense. Approval for the defense is given by the doctoral dissertation committee, department or program chair, and relevant dean or director of the school, college, or institute. Notice of a defense must be circulated to the university community two weeks before the defense date. The public defense should demonstrate the candidate’s maturity of judgment and intellectual command of the chosen branches of the field of study.

At the close of the final defense, the dissertation committee makes final judgments for approving the dissertation. The doctoral candidate is responsible for making all required changes promptly, submitting the original and required copies, and obtaining signatures. Final approval for the dissertation is given by the doctoral dissertation committee, department or program chair, and the relevant dean or director of the school, college, or institute, all of whom must sign the final copy.

For a dissertation to be approved, all members of the committee must sign. If a committee member refuses to do so, the student or any member of the committee may petition the unit dean or director for a review and ruling. The dean or director may seek the advice of outside reviewers to provide an assessment of the work. The final decision is that of the dean or director, and is not subject to appeal.

**AP.6.10.9 Dissertation Submission and Fees**

On or before the dissertation submission deadline for any semester, each student will submit a CD with a complete electronic copy of his/her dissertation (signed Signature Sheet through Curriculum Vitae) as a PDF to University Dissertation & Thesis Services (UDTS). The PDF will be uploaded into the Mason Archival Repository Service (MARS). At the time of final submission, the student will also turn in completed versions of the Transmittal Sheet, ETD Submission Form, and MARS Agreement.

For degree conferral in a particular semester, the above materials must be submitted to the library by 5:00 p.m. on the Friday before the last day of class in that semester. (For specific deadlines and more information, please see the University Registrar’s website, [http://registrar.gmu.edu](http://registrar.gmu.edu).)

Under circumstances determined by the student’s school, college, and/or program, a student may petition to delay embargo all or part of his/her dissertation, preventing online access to it for a period of time (2 years, 5 years, or 10 years). A student may choose to embargo his/her work in order to avoid potential contract disputes with future publishers or to protect intellectual property. Not all schools, colleges, and/or programs will permit a student to embargo his/her work, and both the student’s dissertation chair and the graduate associate dean of the school/college must approve the student’s petition. Upon approval of an embargo, the dissertation chair, the graduate associate dean, and the student must all sign the embargo approval form. The student must turn in the signed embargo form to UDTS at the time of submission of his/her dissertation and all other materials. The UDTS Coordinator will confirm with both the dissertation chair and the graduate associate dean that they signed the submitted form. A hard copy of the confirmation will be retained by the UDTS Coordinator. At the time the work is uploaded to MARS and/or ProQuest, the author will receive an email notification, with an official PDF attached, stating that the embargo will begin and end on a certain date, and advising the author that it is his/her responsibility to keep track of the embargo lift date. The author will further be advised that it is his/her responsibility to notify the UDTS Coordinator via email (udts@gmu.edu) that he/she wants to lift the embargo prior to the termination date, or that he/she wants to renew the embargo (or institute a new limit). In the form, the author will also be advised that he/she should retain this form and place it in the care of his/her attorney, next of kin, or other appropriate designee. In case of death, incapacity, or other similar circumstance, it is up to the author’s estate, power of attorney, or other appropriate designee to ensure that the embargo continues.

If the student wishes to extend the embargo past the dissertation’s release date, the student is required to secure the approval of the graduate associate dean of the student’s college/school at the time of the extension request. Students can request a renewal period of 2 years, 5 years, or 10 years. If approved, the student must notify UDTS via email (udts@gmu.edu) of his/her intention to extend the embargo. The UDTS Coordinator will confirm with the associate dean that the embargo extension has been approved, and will retain copies of both the student’s request and the associate dean’s confirmation that the embargo can be extended.

Dissertations embargoed for any period will be accessible electronically on-campus in Special Collections UNLESS the student/author can provide evidence that the document should NOT be reviewed for a certain period. Permission to restrict access on-campus for such period or fully may be granted by the Associate Provost for Graduate Education. Only under extreme circumstances will a student’s work be considered by
the Associate Provost for Graduate Education for such an embargo. A student must have proof that publication of his/her work poses a danger to themselves, national security, or similar scenario.

Doctoral students are also required to submit their dissertations to ProQuest through University Microfilms International (UMI). Submission will take place through the UMI Administrator site (www.etadmin.com/gmu (http://www.etadmin.com/gmu)). Traditional submission, in which the dissertation is available only through ProQuest’s subscription service, costs nothing. Open Access submission, in which the dissertation is available through ProQuest’s Open Access site, costs $95. Students can also opt to register their dissertations with the U.S. Copyright Office via the Administrator; doing so costs $44, payable to ProQuest. Students can also choose to purchase their own bound copies through the Administrator. The student is responsible for any aforementioned fees, which can be paid by credit or debit card. At the time of final submission, the UDTS Coordinator will confirm that the student has uploaded his/her dissertation through the Administrator.

Doctoral students also must complete a Survey of Earned Doctorates. This form must also be turned in to the UDTS Coordinator at the time of final submission.

Once a student has submitted the final (i.e. defended, formatted, and signed) version of his/her project, thesis, or dissertation to University Dissertation & Thesis Services (UDTS), subsequent edits WILL NOT BE ALLOWED EXCEPT under the following circumstances:

1. A formatting error has been introduced into the PDF document when converting from another document type that affects the meaning of the dissertation. For example: in the process of formatting the document into a PDF, all of the ampersands (&) have disappeared and the error is not discovered until after final submission to UDTS. Resubmission would not be allowed to revise margins, fonts, or other non-substantive items.
2. Incidence of fraud or plagiarism. The relevant college/school must conduct a review of the thesis or dissertation and determine an appropriate course of action in accordance with the university catalog and approved by the Dean. If the approved course of action includes allowing the student to resubmit a corrected version of a thesis or dissertation, the UDTS Coordinator must be informed in writing by an appropriate college/school or LAU official.

UDTS will not allow corrections of theses and dissertations for the following:

• Reworking the Dedication, Acknowledgments, Abstract, or Biography.
• Correction of citations or quotations.
• Addition of new text, or deletion of existing text, in the body.
• Correction of misspellings or grammar issues.
• Replacing, adding, or deleting Tables, Figures, or Equations.
• Correction of any other minor errors or omissions.

AP.6.10.10 University Dissertation and Thesis Services
University Dissertation and Thesis Services (UDTS) facilitates completion and submission of dissertations, theses, and graduate-level projects. The program assists Mason students in all stages of production. The UDTS website (http://thesis.gmu.edu), provides students with useful tools, including downloadable templates of necessary elements, forms required for the submission process, and links to related web sites. Students completing a thesis or dissertation are required to complete a format review. UDTS is located in Fenwick Library, Special Collections and Archives, Wing 2C. For more information, contact the university dissertation and thesis coordinator at 703-993-2222.

AP.6.11 Graduate Council
The Graduate Council is an advisory and legislative board on matters of graduate education whose purpose is to promote excellence in all graduate programs. The Council advises the Provost regarding academic policies governing graduate education; approval of new and revised graduate courses, programs and degrees; review and assessment of graduate programs; planning and attainment of graduate education strategic goals; and policies and resources for graduate student support. The Office of the Provost administers university graduate policies for the Graduate Council.

AP.6.12 Graduate Faculty
The graduate faculty consists of all George Mason University tenured and tenure-track faculty. Other Mason faculty members, as well as individuals from outside the university, may be appointed to the graduate faculty by the Provost for a specified duration of time.

AP.7 Research Policies
Research Development, Integrity and Assurance Office
Website: oria.gmu.edu

AP.7 Research Policies
AP.7.1 Human Subjects Research
All research activities involving human subjects or human subjects data conducted by faculty, staff, or students must be submitted to the Research Development, Integrity and Assurance (http://rdia.gmu.edu) office for review and approval. All application forms must be submitted through the Institutional Review Board (http://irbnet.org). All covered research activities must be approved by the Institutional Review Board prior to initiation of the activity. Separate approval by the Confidential Student Contact Information (http://provost.gmu.edu/requesting-confidential-student-contact-information) (CSCI) committee is required if contact information for Mason students is needed to conduct the research. All student research must be supervised by a faculty member. The faculty member will serve as the principal investigator for the research and will assume responsibility for the legal and ethical conduct of the work.

AP.7.2 Animal Use in Research
All work with live vertebrate animals, whether for research, teaching, or testing, must be approved by the Institutional Animal Care and Use Committee (IACUC) prior to initiation of the work. All use of animals at Mason must be carried out under the supervision of a faculty member who is qualified and experienced in the work being conducted and assumes responsibility for legal and ethical conduct. Further information and submission forms can be found at the Research Development, Integrity and Assurance (http://rdia.gmu.edu) office.

AP.7.3 Misconduct in Research and Scholarship
George Mason University is committed to the highest standards of ethical research and scholarship. All faculty, staff, and students are responsible for conducting research and scholarship in an ethical manner. The university has developed a comprehensive policy and procedures to address allegations of misconduct: University Policy 4007
Student Rights and Responsibilities

Policies and Procedures Affecting All Students

Knowledge of University Policies

Each student is responsible for knowing Mason’s rules, regulations, requirements, administrative policies and Academic Policies. This catalog is the normal repository of academic policy statements, but corrections, changes, or interpretations can be promulgated by other means, including electronic publication.

When the university or one of its academic units changes course requirements, grading procedures, or criteria for acceptance into particular programs, academic standing, or graduation, the changes apply to all students enrolled at the time of implementation of the change and thereafter.

Students have certain choices regarding the set of degree requirements under which they graduate, as detailed in the Catalog Requirements for Degrees in AF4 Degree Application, Conferral and Graduation (p. 86). PDFs of all previous catalogs may be found online (http://registrar.gmu.edu/catalog-archives). Additionally, the Special Collections and Archives section of the Fenwick Library has copies of all previous catalogs. They may not be checked out, but may be photocopied. Any student in doubt about an academic matter should consult a faculty advisor or dean.

Students are subject to the university’s stated policies regarding patents and copyrights. These policies are available online (http://osp.gmu.edu).

Catalog Requirements for Degrees

Catalog year refers to the setting of course and non-course requirements within academic programs as stated in the school and college section of a specific catalog. However, catalog year does not set academic policies other than program requirements in place. Not all programs and degree components are available in all catalogs. For any one degree, all requirements must be met as stated in a single catalog. The only exception is that Bachelor’s degree students may select a minor from another catalog year for which they are eligible, as noted below.

Bachelor’s degree candidates may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive for two or more years or who have attended another institution without prior approval from their academic dean or director must graduate under a catalog in effect at or after their re-admission and during their enrollment in degree status.

Master’s and doctoral degree candidates who have been continuously enrolled may choose to graduate under the terms of any catalog in effect during their enrollment in degree status. Students who have been inactive more than one year, however, may be required by their program to graduate under a catalog in effect after they have been granted permission to re-enroll. In no case may a student choose the requirements of a future catalog year that take effect after the student’s degree is anticipated.

Mason ID Card

Fairfax Campus: Student Union I, 1203
Phone: 703-993-1004

Science and Technology Campus: Colgan Hall, 202
Phone: 703-993-9779

**Arlington Campus:** Founders Hall, 220
Phone: 703-993-9153

**Loudoun Campus:** 21335 Signal Hill Plaza, Suite 130
Phone: 703-993-4350

**Distance Learners:** please contact the Mason Card Office at masonid@gmu.edu to make arrangements

Web: masonid.gmu.edu/mason-id (http://masonid.gmu.edu/mason-id)
Email: masonid@gmu.edu

After registering, each student should obtain a Mason ID card. It must be presented to use library services and is required for admission to university events and when using facilities after normal operating hours. It is not transferable and is valid as long as the student has active status.

### Official Communication with Students

Web: masonlive.gmu.edu (http://masonlive.gmu.edu)

Mason uses electronic mail to provide official information to students. Examples include notices from the library, notices about academic standing, financial aid information, class materials, assignments, questions, and instructor feedback. Students are responsible for the content of university communication sent to their Mason e-mail account and are required to activate that account and check it regularly. Students are also expected to maintain an active and accurate mailing address in order to receive communications sent through the United States Postal Service.

### Preferred Name Policy

Web: University Policy 1143 (http://universitypolicy.gmu.edu/policies/preferred-name-policy)

A student may designate and use a Preferred Name for University purposes, except when use of a legal name is required by University or by law.

A student may designate a Preferred Name in University information systems only when such systems allow for such designation.

The University will ordinarily use a student’s Preferred Name in university communications and reporting except when use of a legal name is required by the University or by law. By way of example but not limitation, Preferred Names will be reflected on class rosters, in Blackboard, in Patriot Web (including Degree Works), and in directory listings including email address.

A student’s legal name shall be used for billing, verification of enrollment, payroll, official transcripts, communication with external authorities, or as otherwise required by the University or by law. A student’s identification card must display only the student’s legal name. The University may identify students by both legal name and Preferred name at any time.

A student may not use a Preferred Name for any kind of misrepresentation. A student may not use profanity in a Preferred Name.

### Change of Status, Address

Each student is required to provide Mason with current contact and identifying information, including permanent and local addresses, telephone numbers, and legal name. Each student must also maintain the university e-mail account assigned at the time of admission. Students are responsible for official communications directed to Mason e-mail accounts. For more information, check the website (http://masonlive.gmu.edu).

Addresses should be updated over the Internet using Patriot Web. Name and Social Security number changes require official documentation and must be processed in person at the Office of the University Registrar or with the original copy of a notarized request.

### Appeals of Academic Procedures

Students have the right to appeal decisions regarding requests for academic actions. The appeals process begins in the academic unit. Each college, school, and institute at Mason has a written statement of that unit’s appeal process on file in the dean or director’s office. Students who feel the appeals process was conducted unfairly by a college or school may appeal to the Provost’s Office. All appeals must be in writing, and they must demonstrate that the student has exhausted all options within the academic unit. Undergraduate students initiate appeals of unit decisions with the Associate Provost for Undergraduate Education. Graduate students initiate appeals of unit decisions with the Associate Provost for Graduate Education. The Provost’s Office does not consider grade appeals or appeals of Honor Committee decisions.

### Undergraduate Appeals

The Provost’s Office may refer cases to the University Academic Appeals Committee. The committee consists of five faculty members, including at least one member of the Faculty Senate and the provost (or designee), who serves ex officio, in a nonvoting capacity. The committee hears only those cases where procedural irregularities or a questionable application of university policies is demonstrable, or when the provost or the committee deems the case relevant to the application of university-wide policies. The burden of proof rests with the student, who must provide clear and convincing documentation to support the contention that the decision was unfair based on the criteria stated above. The committee’s decision is final. The University Academic Appeals Committee is not charged to hear grade appeals or appeals of Honor Committee decisions.

### Graduate Appeals

Students who believe they were not afforded due process by the Associate Provost for Graduate Education may appeal to the Graduate Academic Appeals Committee. The committee is a subcommittee of Graduate Council and consists of five members of the graduate faculty. The committee hears only those cases that it judges demonstrate procedural irregularities or a questionable application of university policies, or when the provost or the committee deems the case relevant to the application of university-wide policies. The burden of proof rests with the student, who must provide clear and convincing documentation to support the contention that the decision was unfair based on the criteria stated above. The committee’s decision is final. The Graduate Academic Appeals Committee is not charged to hear grade appeals or appeals of Honor Committee decisions. Specific appeal procedures can be found on the Office of the Provost and Executive Vice President’s website under Graduate Education.

The Provost’s Office is responsible for maintaining appeals records, determining whether students have just cause, and ensuring that complete documentation is available for all committee members. The committee communicates its decision to the student, the relevant unit, and the provost.
Student Requests for Academic Actions

All requests for academic actions, such as special permissions or exceptions to published academic regulations, must be submitted to the head of the unit in which the student's program is housed, for example, the department chair, institute director, or school or college dean. Forms and instructions on how to initiate an academic action are available in the academic unit and on the unit's web site. For students who have not yet declared a major, the academic actions process is executed in the Office of Student Academic Affairs, Advising & Retention, SUB I, Room 3500. Students will be informed of the average wait time for decisions on academic actions undertaken within their units. Those who need assistance with the academic actions process may consult their academic advisor, or they may be directed to the university ombudsman.

Student Conflict Resolution and Support

SCRS Coordinator: Thomas Carter II, MA
Room 2410 (In the Office of Diversity, Inclusion and Multicultural Education suite)
Student Union Building I
Phone: (703) 933-3306
Email: tcarte2@gmu.edu

Student Conflict Resolution and Support (SCRS) is a resource to help all GMU students navigate the University. The Student Conflict Resolution and Support Coordinator can listen to university-related concerns raised by undergraduate and graduate students in confidence and off-the-record, and help them identify appropriate resources to address their concerns and understand their options in any University-related situation. SCRS operates independently of all formal processes at the university. The SCRS Coordinator has no authority to make exceptions or to grant requests, but can help expedite informal resolution to students' concerns. When appropriate, the SCRS Coordinator may recommend changes in processes and policies at the university.

Meetings with the SCRS Coordinator are confidential, except when there is imminent risk of serious physical harm to anyone. SCRS does not serve as an office of notice or record for the University. If a student wishes to put the University on notice about anything, the SCRS Coordinator can help identify the appropriate channel. SCRS offers a safe place to discuss and explore options, so students can better understand the University and make informed decisions about their concerns. SCRS also offers conflict coaching, facilitated dialogues, restorative justice circles, and mediation. SCRS does not replace or substitute any formal processes made available by the University. Our services and procedures are designed to be student-centered and accessible to all members of our community.

Academic Assessment

The regular evaluation of student learning, perceptions, and achievements is fundamental to the continuous improvement of Mason's academic programs. All academic programs at Mason, including Mason Core, have student learning outcomes that are assessed periodically. Student work in various courses may be used for such assessments. Student anonymity is assured and grades will not be affected. Student participation is an essential component of the improvement process, and students may be asked to engage in a variety of assessment activities including surveys and focus groups.

Students may contact the Office of Institutional Research and Effectiveness (OIRE) at oira@gmu.edu with questions or concerns about assessment activities at Mason. Additional information can be found on the OIRE website (https://ira.gmu.edu).

Student Work, Intellectual Property

University Policies 4002 (https://universitypolicy.gmu.edu/policies/copyright-in-university-works) and 4003 (http://universitypolicy.gmu.edu/policies/patenting-university-inventions) control ownership of copyrightable works and patentable inventions made at Mason. Generally, Mason does not assert ownership of copyrightable works and patentable inventions made by students (who are not also Mason employees) to fulfill the requirements of a particular course. Mason generally owns copyrightable works and patentable inventions made by students who are not employees if they are made in the course of sponsored research or with substantial use of significant university resources. If a student (undergraduate or graduate) is also an employee (such as a research or teaching assistant), Mason generally owns copyrightable works and patentable inventions made as part of that student's employment responsibilities. Students with questions are encouraged to consult the policies and to contact the Office of Technology Transfer, ott@gmu.edu or 703.993.8933.

Conduct within the University Community

Office of Student Conduct
Student Union I, Room 4100
Phone: 703-993-6209
Fax: 703-993-2893
Web: studentconduct.gmu.edu (http://studentconduct.gmu.edu)

Students enrolling in the university assume an obligation to conduct themselves in a manner compatible with the university's function as an educational institution. The Code of Virginia (Section 23-9.2:3) confers on the university the responsibility for maintaining order within the university and the right to adjudicate referrals where students are alleged to have violated the Code of Student Conduct.

Students may learn more about the Code of Student Conduct by accessing it here (https://studentconduct.gmu.edu/university-policies/code-of-student-conduct).

The Office of Student Conduct holds responsibility for addressing the conduct of Mason students and their guests. Questions regarding student conduct should be directed to the Office of Student Conduct, SUB I, Room 4100, 703-993-6209; or their website (http://studentconduct.gmu.edu).

Privacy of Student Records

Office of the University Registrar
Student Union I, Room 2101
Phone: 703-993-2441
Email: registrar@gmu.edu
Web: registrar.gmu.edu/ferpa (http://registrar.gmu.edu/ferpa)

Each year, Mason informs students of the Family Educational Rights and Privacy Act (FERPA) of 1974. The university intends to comply fully with this act, which protects the privacy of education records, establishes the right of students to inspect and review their education records, and provides guidelines for amending inaccurate or misleading data through informal and formal hearings. Students also have the right to file complaints with the Family Policy Compliance Office (U.S. Department of Education) concerning alleged failures by Mason to comply with the act.
The Notification of Rights under FERPA and the Public Notice Designating Directory Information detail students’ rights and the procedures implemented by the university to comply with FERPA.

FERPA is a federal law that affords students certain rights with respect to their education records. Specifically, it affords students the right to:

1. inspect and review their education record;
2. request the amendment of inaccurate or misleading records;
3. consent to disclosure of personally identifiable information contained in their education record; and
4. file a complaint with the Family Policy Compliance Office of the U.S. Department of Education concerning alleged failures of the university to comply with the act.

George Mason University strives to fully comply with this law by protecting the privacy of student records and judiciously evaluating requests for release of information from those records. FERPA authorizes the release of "directory information" without the student’s prior consent under certain conditions, which are set forth in the act. George Mason University has defined its "directory information" in accordance with the law. Please visit the Office of the University Registrar website (http://registrar.gmu.edu) for additional information about student privacy and FERPA.

Public Notice Designating Directory Information
Directory Information:

Directory Information may be disclosed by the university without the student’s prior consent under the conditions set forth in the Family Educational Rights and Privacy Act of 1974 (FERPA). Directory information is information that Mason may disclose, but is not required to do so.

University Policy 1122: FERPA Compliance defines directory information at Mason:

- Student Name
- *Student ID (G Number)
- *Date of Birth
- Major Field of Study
- Dates of Attendance
- Enrollment Status
- Previous Institutions
- Class Level
- Degrees and Awards Received
- Photographs
- Participation in Officially Recognized Sports and Activities
- Weight and Height of Athletes

*Limited Directory Information: Student ID number and Date of Birth are considered to be limited directory information, which may be used for verification purposes only, and not released as directory information.

As of July 1, 2018, the Code of Virginia Section 23.1-405(C) prohibits George Mason University from disclosing a student’s email, address or telephone number under the exception in the Family Educational Rights and Privacy Act (FERPA) for directory information or the Virginia Freedom of Information Act (FOIA) unless the student has affirmatively consented in writing to the disclosure.

Beginning on July 1, 2019, HB2449 provides an amendment to 23.1-405(C). This amendment allows for the disclosure of a student’s email, address or telephone number to other students enrolled in the institution for educational purposes or institution business and the student has not opted out of such disclosure.

George Mason does not disclose social security numbers, grades, grade point averages, class schedules, academic actions nor the number of credits enrolled in or earned unless the student has signed a consent form.

Preventing Disclosure of Student Information: Currently enrolled students may withhold disclosure of directory information under FERPA. To withhold disclosure, students must complete the Request to Prevent Disclosure of Directory Information Form. The form may be submitted at any time throughout the year and will immediately affect prospective disclosures. Mason assumes that failure on the part of any student to specifically request the withholding of a category of directory information indicates individual approval for disclosure. Former students may not place a new request for nondisclosure of directory information on their education records; however, they may request its removal.

Confidential (Private) Hold: Prevents disclosure of all student information. A student who elect this hold must conduct all university business in person with a photo ID or via their official Mason email address. No student information will be released over the phone.

Students in this category may still use interactive web and other electronic systems, such as Patriot Web, for transactions (including registration) which are protected by a secured login. Confidential status does not convey a right to be anonymous in the classroom or to impede routine classroom communication and interactions. A student with a confidential status should expect to be identified in class by name, and to have their Mason email address used for class purposes. A student must remove this hold in order for their name to appear in the commencement or convocation program.

Honor Code and System

LaShonda Anthony, Director

Office of Academic Integrity
Student Union I, Suite 4100

Phone: 703-993-6209
Fax: 703-993-2893

Email: oai@gmu.edu
Website: oai.gmu.edu

Mason shares in the tradition of an honor system that has existed in Virginia since 1842. Mason’s Honor System was inaugurated in 1963 when the college was a satellite of the University of Virginia. The code is an integral part of university life. On the application for admission, students sign a statement agreeing to conform to and uphold the Honor Code. Students are responsible, therefore, for understanding the code’s provisions. In the spirit of the code, a student’s word is a declaration of good faith acceptable as truth in all academic matters. Cheating and attempted cheating, plagiarism, lying, and stealing in academic matters constitute Honor Code violations. To maintain an academic community according to these standards, students and faculty members must report all alleged violations to the Honor Committee.
The Honor Committee has the primary duty of espousing the values of the Honor Code. Its secondary function is to sit as a hearing committee on all alleged violations of the code.

**Honor Code**

To promote a stronger sense of mutual responsibility, respect, trust, and fairness among all members of the George Mason University community and with the desire for greater academic and personal achievement, we, the student members of the university community, have set forth this honor code:

Student members of the George Mason University community pledge not to cheat, plagiarize, steal, or lie in matters related to academic work.

A full reading of the Honor Code and the associated system can be found at our website [http://oai.gmu.edu](http://oai.gmu.edu).

Please note there is a separate process for individuals accused of research misconduct. As it states in policy 4007, "Allegations of academic misconduct against graduate students are governed solely by the university honor code, except for:

1. research activities as defined above regardless of sponsorship; and
2. master's theses and doctoral dissertations, both of which are governed by this policy.

Allegations of academic misconduct against undergraduate students are governed solely by the university honor code, except for sponsored research activities which are governed by this policy." Questions related to research misconduct that fall under this category should be directed to the Office of Research Integrity and Assurance at irb@gmu.edu

**Faculty Responsibilities**

At the beginning of each semester, faculty members have the responsibility of explaining to their classes their policy regarding the Honor code. They must also explain the extent to which aid, if any, is permitted in academic work. Faculty members are also responsible for including in their syllabus an academic integrity statement as outlined by the Provost's office at the start of each academic semester. Additional language should include what constitutes acceptable behavior for the course they are teaching.

**Procedures for Reporting Violations and Record Keeping**

All suspected violations must be reported to the Office of Academic Integrity in a timely manner. Instructions on how to submit a referral can be found on the office's website [http://oai.gmu.edu](http://oai.gmu.edu). The student will be notified in writing that a referral has been made and meet with a staff member in the office to review the case materials and decide the next course of action. Findings of responsibility in Honor Code cases are maintained by the Office of Academic Integrity in accordance with the Library of Virginia Records Management schedule.

**Honor Committee**

The Honor Committee is selected to promote academic integrity as a core value for our university community. Members of the committee also serve on hearing panels established to investigate and resolve alleged violations of the code. The Antonin Scalia Law School has an Honor Committee that is independent from the rest of the university's Honor Committee. Information about the Scalia Law School honor system can be found by clicking this link. [http://www.law.gmu.edu/academics/honor_code](http://www.law.gmu.edu/academics/honor_code)

Membership will be limited to 100 members who apply for membership. Undergraduate members must have no Honor Code violations, maintain a cumulative GPA of 2.66, be in good academic standing, and successfully complete the training and orientation program. Graduate members must meet all of the requirements above with the exception of maintaining a cumulative GPA of 3.00. Faculty and Administrative Faculty members must hold at least a master's degree. Information on how to apply can be found here. [https://oai.gmu.edu/honor-committee-recruitment](https://oai.gmu.edu/honor-committee-recruitment)

The committee is advised by the staff of the Office of Academic Integrity. The Office provides administrative oversight for the Honor Committee and the integrity process at Mason.

**Student Responsibilities**

Students are responsible for ensuring the work they are submitting is their own work. This includes checking to make sure that any information that was not their own creation is properly attributed to the original source, as well as working within the guidelines provided by the professor of the class regarding submitted work. Facilitating misconduct in the form of providing unauthorized resources, tests, or solutions for others is a violation of the honor code and will be dealt with as such. Additionally, students should request an explanation of any aspect of the professor's policies regarding the Honor Code that they do not fully understand. Students have an obligation to encourage respect among their fellow students for the provisions of the code. This includes an obligation to report violations by other students to the Honor Committee.

Undergraduate Academic Advising

Vision

Academic advising at George Mason University is an integral part of the educational process that enhances student learning and development by supporting, teaching, and connecting students to curricular and co-curricular experiences relevant to becoming an exemplary Mason Graduate: an engaged, reflective citizen and well-rounded scholar who is prepared to act.

Mission

The academic advising community at George Mason University commits to creating on-going, personal and purposeful educational partnerships with students and colleagues. Advisors contribute to student success by providing resources and by teaching students to develop the skills required to become life-long learners capable of effective self-advocacy. Dedicated to putting students first and to being responsive, academic advisors:

• Support students in setting and reaching educational goals.
• Teach students to engage in a process of self-reflection and self-discovery, guiding them to find degree pathways that match their interests, skills, and abilities.
• Connect students to campus resources and co-curricular opportunities to integrate learning and experience.

Students should meet regularly with an academic advisor to discuss academic programs, educational goals, and career plans. Individual departments establish their own advising processes; students should check with their departments for the appropriate procedures. For example, some departments require that students meet with an advisor prior to registration each semester. With their advisors, students plan academic programs to meet the general university degree requirements and specific requirements within their major fields. It is the student’s responsibility to read the catalog and know and fulfill the requirements of a specific baccalaureate degree. To assist in the advising process, Mason provides a computerized degree evaluation. Students should access their individualized reports through Patriot Web. It remains the student’s responsibility to seek approval for any program change so that the computerized degree plan may be kept current.

An advisor locator is available online (https://advising.gmu.edu/current-students/advisor-locator). During their freshman and sophomore years, students in the Honors College plan their schedules with honors advisors. Every department coordinates advising of its honors students through the Honors College.

Every student should meet with an advisor to plan a program of study. This meeting should cover the following:

• Review of requirements for the degree and major the student has chosen.
• Review of the student’s record including any deficiencies which must be corrected.
• Discuss career or graduate study options open to the student enrolled in such a program.
• Assess the student’s suitability to major in the chosen discipline.

Students changing majors are encouraged to meet with an advisor in the new major. They may change majors by filing a Change/Declaration of Academic Program Form available from the Office of the University Registrar. These are minimal advising procedures to be followed in all undergraduate segments of the university; individual units may require additional advising sessions.

Student Academic Affairs – Advising, Retention, and Transitions (StAAART)

Web: caart.gmu.edu (https://caart.gmu.edu)

Student Academic Affairs – Advising, Retention, and Transitions, is the umbrella unit for the Center for Academic Advising, Retention, and Transitions (CAART). This unit rules on all academic actions submitted by undergraduate undeclared and nondegree students.

StAAART supports students to thrive in transitions. The unit provides students with the tools and guidance to help them achieve their academic and personal goals. StAAART contributes to student success and degree completion by teaching, supporting, and connecting students to curricular and co-curricular experiences relevant to becoming an exemplary Mason Graduate: an engaged, reflective citizen and well-rounded scholar who is prepared to act. StAAART also serves the university community as a centralized source of information on current academic policies, procedures, and student success initiatives.

We value each student as a distinct individual. Our interactions are guided by an understanding of college student development, campus resources, and are designed to support student learning. We focus on students’ academic engagement and performance, well-being, and
interpersonal connections. Our collaborations are characterized by a comprehensive commitment to student success.

StAAART collaborates widely with campus colleagues to promote successful student transitions. Through our work we provide effective academic and transition advising, offer transition courses, develop student leaders, design and implement retention initiatives, identify and solve problems, improve communication, and influence policies related to academic success and degree completion.

Center for Academic Advising, Retention, and Transitions (CAART)

Academic Advising
CAART staff members assist students making the transition to Mason, including advising those who have not yet declared a major or are exploring or changing a major as well as those terminated from their academic program. Students are encouraged to make an appointment for information about Mason Core requirements, programs, policies, procedures, and other academic concerns. Advising is available by appointment; consult the website (https://advising.gmu.edu) for hours of operation. The Center also processes student appeals for undergraduate undeclared (exploratory) and non-degree students. http://advising.gmu.edu/current-student/student-appeals/.

Health Professions Advising
Web: prehealth.gmu.edu (http://prehealth.gmu.edu)

Health Professions Advising is committed to collaborating with campus colleagues to assist degree-seeking students achieve success in their pursuit to postgraduate work in a medical field (allopathic and osteopathic medicine, dentistry, optometry, physician assistant, pharmacy, physical therapy, occupational therapy, speech therapy and veterinary medicine). The Health Professions Advising Coordinator provides information and tools which will help pre-health students achieve success in the application process to a professional school.

Retention and Student Success
Web: retention.gmu.edu (http://retention.gmu.edu)

Retention and Student Success provides leadership on planning and implementing campus-wide retention and degree-completion efforts in collaboration with academic colleges, the Division of University Life, and other campus stakeholders. Together with academic advisors, faculty, and staff, we aim to identify challenges to students' success and provide resources and support to ensure a more seamless path to degree completion. Specifically, the Retention and Student Success team manages key retention and advising technologies and supports academic units in leveraging these systems to support retention and degree-completion goals. Retention and Student Success also engages in research, direct outreach to students at risk for leaving the university, assessment of student success initiatives, and provides support in assessing academic advising and professional development among academic advisors campus-wide.

Transitions - UNIV Courses and Programs
Web: transitions.gmu.edu (http://transitions.gmu.edu)

The Transitions functions within CAART include academic UNIV courses, student leadership development, and Project Peak (an outdoor extended orientation program for new students). UNIV Courses and Programs’ mission is to assist and mobilize students to craft a successful college experience and prepare for their future. Our courses serve all undergraduate students as they transition into college, determine their major/solidify their career path, become strong scholars and student leaders, and prepare for life after college. The curriculum in the first year is supported by Peer Advisors who co-teach UNIV 100 Introduction to Mason and facilitate learning experiences through Project Peak.

Executive and Professional Education

3351 Fairfax Drive
Suite 448, Founders Hall
MS 2G2, Arlington, VA 22201
Phone: (703) 993-2109
Email: execinfo@gmu.edu
Website: execed.gmu.edu

Executive and Professional Education serves as Mason’s initial point of contact and referral for the business and professional community, and responds to all professional development and continuing education inquiries, requests, and needs. Supported program activities include contracted academic credit programs, noncredit public programs and seminars, online courses, professional certificate programs, continuing education units (CEUs), on-site contract training programs, special professional development events and programs, special workforce development programs, and training center facilities.

Executive and Professional Education is strategically located at the Arlington Campus in Founders Hall. Current program information, offerings, and capabilities can be reviewed at their website (http://execed.gmu.edu).

Green Leaf Programs and Courses
Website: sustainabilitystudies.gmu.edu

Green Leaf Programs and Courses

A “Green Leaf” course or academic program focuses on learning about sustainability, i.e., meeting our present needs without compromising the ability of future generations to meet their own needs.

See the Sustainability Studies website (http://sustainabilitystudies.gmu.edu/greenleaf) for more information.

Programs

Green Leaf academic programs focus on sustainability, usually including a required set of Green Leaf courses in order to cover the social, economic and environmental dimensions of sustainability. Each is a vital contributor to Mason’s sustainability across the curriculum.
Undergraduate Degrees
- Civil and Infrastructure Engineering, BS (p. 1177)
- Earth Science, BS (p. 627)
- Environmental and Sustainability Studies, BA (CHSS) (p. 576)
- Environmental Science, BS (p. 690)
- Geology, BA (p. 634)
- Global Affairs, BA (p. 523)
- Health, Fitness, and Recreation Resources, BS: Concentration in Parks and Outdoor Recreation (p. 227)
- Tourism and Events Management, BS (p. 242)
- Integrative Studies, BS: Concentration in Applied Global Conservation (AGCN) (p. 602)

Undergraduate Minors and Certificates
- Atmospheric Science Minor (p. 623)
- Conservation Studies Minor (CHSS) (p. 576)
- Earth Science Minor (p. 632)
- Environmental Policy Minor (p. 690)\(^1\)
- Geology Minor (p. 639)
- Global Affairs Minor (p. 535)\(^1\)
- Paleoontology Minor (p. 640)
- Sustainable Enterprise Minor (p. 714)
- Sustainability Studies Minor (p. 713)

Bachelor's/Accelerated Master's Program
- Bachelor's Degree (Green Leaf)/Environmental Science and Policy, Accelerated MS (p. 703)
- Bachelor's Degree (any)/Interdisciplinary Studies, Accelerated MAIS (Energy and Sustainability Concentration) (p. 553)\(^1\)
- Bachelor's Degree (any)/Global Affairs, Accelerated MA (p. 539)\(^1,2\)

Graduate Degrees
- Climate Dynamics, PhD (p. 623)
- Environmental Science and Policy, MS (p. 696)
- Environmental Science and Public Policy, PhD (p. 704)
- Global Affairs, MA (p. 536)\(^1\)
- Interdisciplinary Studies, MAIS: Concentration in Energy and Sustainability (p. 542)

\(^1\) Meets Green Leaf criteria when options are selected to ensure coverage of "people, planet and prosperity" across the program's curriculum.

\(^2\) Meets the Green Leaf criteria when the Master's degree is paired with a Green Leaf Bachelor's degree.

Courses
The Green Leaf designation recognizes offerings that contribute significantly to students' understanding and practice of sustainability. These offerings extend beyond environmental management, natural resources protection and conservation studies alone as Mason's Green Leaf curricula comprise both sustainability-focused and sustainability-related courses.

Sustainability- Focused Courses
Sustainability-focused courses provide valuable grounding in the concepts and principles of sustainability. These courses educate students about how different dimensions of sustainability relate to and support each other in theory and practice. In addition, these courses help equip students with the skills to weave together disparate components of sustainability in addressing complex issues.

### Sustainability-Related Courses

Sustainability-related courses help build knowledge about a component of sustainability or introduce students to sustainability concepts during part of the course. They may complement sustainability-focused courses by providing students with in-depth knowledge of a particular aspect or dimension of sustainability (such as the natural environment) or by providing a focus area (such as renewable energy) for a student's sustainability studies, or they may broaden students' understanding of sustainability from within different disciplines.

Veteran Student Resident Tuition Rates

George Mason University complies with veteran student regulations regarding tuition rates. The following individuals shall be charged the in-state rate, or otherwise considered a resident, for tuition purposes:

- A Veteran using educational assistance under either chapter 30 (Montgomery G.I. Bill – Active Duty Program) or chapter 33 (Post-9/11 G.I. Bill), of title 38, United States Code, who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) and enrolls in the school within three years of discharge from a period of active duty service of 90 days or more.

- Anyone using transferred Post-9/11 GI Bill benefits (38 U.S.C. § 3319) who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) and enrolls in the school within three years of the transferor’s discharge from a period of active duty service of 90 days or more.

- A spouse or child using benefits under the Marine Gunnery Sergeant John David Fry Scholarship (38 U.S.C. § 3311(b)(9)) who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) and enrolls in the school within three years of the Service member’s death in the line of duty following a period of active duty service of 90 days or more.

- An individual using educational assistance under chapter 31, Vocational Rehabilitation and Employment (VR&E) who lives in the Commonwealth of Virginia while attending a school located in the Commonwealth of Virginia (regardless of his/her formal State of residence) effective for courses, semesters, or terms beginning after March 1, 2019.

- Anyone described above while he or she remains continuously enrolled (other than during regularly scheduled breaks between courses, semesters, or terms) at the same institution. The person so described must have enrolled in the institution prior to the expiration of the three-year period following discharge or release as described above and must be using educational benefits under either chapter 30, chapter 33, or chapter 31 of title 38, United States Code.

Military Activation Policy

In accordance with the “Virginia Tuition Relief, Refund, and Reinstatement Guidelines,” Mason students in the uniformed services under call or order to active duty, after the beginning of a semester or summer session have two options they may consider with the dean’s office of the school of enrollment and Office of the University Registrar in determining their enrollment status with the University.

1. Students may withdraw from courses in which they are enrolled as of the effective date of the call or order to report to active duty. When this option is selected, a credit of tuition and fees, and any pre-paid tuition, room, or board deposits, will be made to the student’s account. Students will receive a pro-rated credit of dining service and housing contract charges. Financial aid awards that were credited to the student’s account will be recovered by the University in the amount of tuition and fees, dining, or housing credit. Loans used to cover the remaining charges will be subject to normal repayment procedures. For students receiving Title IV funds, financial aid recovery will be subject to requirements for return of Title IV funds to the federal government.

2. Students may take a grade of incomplete in all courses. Students may request an incomplete grade for military deployment, mobilization, or duty changes occurring in the final three (3) weeks of the course if they have satisfactorily completed more than 50% of the course requirements. The conditions for completing course work and receiving a regular grade should be agreed to between the student, course instructors, and the appropriate dean’s office of the school in which the student is enrolled. A copy of the military orders must be provided to the Office of the University Registrar as documentation. The deadline for removing an incomplete given on the basis of military service is the last day of the subsequent term, which includes the summer session. This option requires joint agreement of the student and faculty member(s). Faculty and departments are encouraged to take additional steps to accommodate short absences due to military obligations. If a joint agreement can’t be reached, students may withdraw from the course and are eligible to receive a 100% reduction of tuition charges after withdrawal is approved for classes that have been discontinued.

Please coordinate requests under the Military Activation Policy with the Office of Military Services. The Office of Military Services will assist with the processes in accordance with current policies. Students will need to discuss their situation with the appropriate representative form their dean’s office in consultation with Student Accounts and the Office of the University Registrar. A copy of the active duty orders are required.

Regardless of the option selected above, the following provisions govern reinstatement to the University upon release or return from service in the uniformed services. Students that have a leave of absence under the military activation policy are entitled to reinstatement, to their program of study (if available), without having to reapply for admission if (1) they return to the University after a cumulative absence of not more than five years, and (2) they provide notice of intent to return to the University not later than three years after the completion of the period of service. (Exceptions to these time periods may be found in the Higher Education Opportunity Act (HEOA) of 2008.) Throughout the entire process, former students/students will have access to counseling to determine the impact of absence from the program, to evaluate the ability to resume study, and to assess options when a program is no longer available or suitable.

Applicants to the University who have accepted an offer of admission but who have not yet registered in a degree program may defer admission for up to two consecutive semesters by making a request in writing to the Office of Military Services. To request a deferment for longer than two consecutive semesters, a copy of the military orders must be provided with the written request.

For further information, students should contact the Office of Military Services at (703) 993-8243.

Virginia Military Survivors and Dependents Education Program

The Virginia Military Survivors and Dependents Education Program provides education benefits to qualified children between the ages of 16 and 29, and spouses of military service members killed, missing in action, taken prisoner as a result of military service in an armed conflict, or veterans discharged or released under conditions other than dishonorable who served in the Armed Forces of the United States, Reserves of the Armed Forces of the United States, or Virginia National Guard, and due to such service, became at least 90 percent disabled.

The military service member must have established domicile, or had a physical presence, in Virginia for at least five years immediately prior
the Basic Course Level. Freshmen (Enrollment in Military Science (MLSC) courses is open to all students at Maryland, Virginia, and the District of Columbia. Frequently conducts training with colleges and universities throughout the country.

Patriot Battalion began in 1982, achieved independent status in 2000, and continues to grow. The team has an organized color guard, drill team and an intercollegiate Ranger Challenge competition team. Students also have the opportunity to attend official Army events and military related field trips. The unit has an organized color guard, drill team and an intercollegiate Ranger Challenge competition team. Students also have the opportunity to attend official Army events and military related field trips.

Education benefits include tuition and fee waivers, and a stipend for room and board charges, books and supplies, and other expenses. Program information may be found on the Virginia Department of Veterans Services website.

**Reserve Officer’s Training Corps (ROTC)**

**Army ROTC**

2121 Recreation & Athletic Complex

Phone: 703-993-2706

Fax: 703-993-2708

Web: arotc.gmu.edu (http://arotc.gmu.edu)

**Administration**

Lieutenant Colonel Justin Chezem, U.S. Army (outgoing)

Professor of Military Science

Major Erica J. Witty, U.S. Army (incoming)

Professor of Military Science

The Army Reserve Officers’ Training Corps (ROTC) is an elective program offering qualified students the opportunity to earn a commission as an officer in the U.S. Army, Army National Guard, or U.S. Army Reserve while pursuing a baccalaureate or graduate degree as a full-time student. The program emphasizes student learning and participation in applied leadership, leadership theory, decision making, management skills, time management, ethics and military law, logistics, military roles and national objectives, strategic and tactical planning and principles, and basic military knowledge and skills. The George Mason Army ROTC Patriot Battalion began in 1982, achieved independent status in 2000, and frequently conducts training with colleges and universities throughout Maryland, Virginia, and the District of Columbia.

**Enrollment**

Enrollment in Military Science (MLSC) courses is open to all students at the Basic Course Level. Freshmen (MLSC 100 Introduction to Army/ROTC and MLSC 102 Leadership Skills II), sophomore (MLSC 200 Self/Team Development and MLSC 202 Leadership Skills IV), and junior (MLSC 300 Applied Leadership I and MLSC 302 Applied Leadership II) classes are awarded 1 credit each. Senior classes (MLSC 400 Leadership and Management and MLSC 402 Leadership and Ethics) earn 3 credits each. No military service obligation is incurred by enrolling in the freshman and sophomore level Army ROTC courses. Courses can be dropped or added, as with any elective course at Mason.

The four-year program is organized into two successive phases: the Basic Course and the Advanced Course. For students seeking the opportunity to earn a commission as an officer, several entry methods and participation strategies can be used. A minimum of four semesters must remain in the student’s academic curriculum to complete commissioning requirements; these semesters may be part of either a full-time undergraduate or graduate degree. Course descriptions appear under Military Science (MLSC) in the Courses section of this catalog. Cadets must meet established academic standards. A student must maintain an overall GPA of at least 2.00 to earn commissioning credit for ROTC.

Contracted and scholarship cadets of any level are required to pass the Army Physical Fitness Test (APFT) once each semester. Physical training (PT) is conducted three times each week (Monday/Wednesday/Friday from 6:30 to 8 a.m.). All contracted and scholarship cadets are required to attend physical training.

**Basic Course Curriculum**

The Basic Course curriculum is a four-course series (MLSC 100 Introduction to Army/ROTC, MLSC 102 Leadership Skills II, MLSC 200 Self/Team Development, and MLSC 202 Leadership Skills IV), usually taken in the freshman and sophomore years. Each class awards 1 academic credit. The Basic Course trains students in reading, writing, public speaking, decision making, management skills, time management, ethics and military law, logistics, military roles and national objectives, strategic and tactical planning and principles, and basic military knowledge and skills. The George Mason Army ROTC Patriot Battalion began in 1982, achieved independent status in 2000, and frequently conducts training with colleges and universities throughout Maryland, Virginia, and the District of Columbia.

Education benefits include tuition and fee waivers, and a stipend for room and board charges, books and supplies, and other expenses. Program information may be found on the Virginia Department of Veterans Services website.

**Advanced Course Curriculum**

The Advanced Course consists of a four-course series (MLSC 300 Applied Leadership I, MLSC 302 Applied Leadership II, MLSC 400 Leadership and Management, and MLSC 402 Leadership and Ethics) taken during the junior and senior years. MLSC 300 Applied Leadership I and MLSC 302 Applied Leadership II earn 1 credit each, while MLSC 400 Leadership and Management and MLSC 402 Leadership and Ethics earn 3 credits each. Enrollment in the ROTC advanced course requires that students enter into a contract to serve as a commissioned officer in the active or reserve component of the U.S. Army upon graduation. Many graduates

- Books and supplies
- Other expenses

Education benefits include tuition and fee waivers, and a stipend for room and board charges, books and supplies, and other expenses. Program information may be found on the Virginia Department of Veterans Services website.

**Reserve Officer's Training Corps (ROTC)**

**Army ROTC**

2121 Recreation & Athletic Complex

Phone: 703-993-2706

Fax: 703-993-2708

Web: arotc.gmu.edu (http://arotc.gmu.edu)

**Administration**

Lieutenant Colonel Justin Chezem, U.S. Army (outgoing)

Professor of Military Science

Major Erica J. Witty, U.S. Army (incoming)

Professor of Military Science

The Army Reserve Officers' Training Corps (ROTC) is an elective program offering qualified students the opportunity to earn a commission as an officer in the U.S. Army, Army National Guard, or U.S. Army Reserve while pursuing a baccalaureate or graduate degree as a full-time student. The program emphasizes student learning and participation in applied leadership, leadership theory, decision making, management skills, time management, ethics and military law, logistics, military roles and national objectives, strategic and tactical planning and principles, and basic military knowledge and skills. The George Mason Army ROTC Patriot Battalion began in 1982, achieved independent status in 2000, and frequently conducts training with colleges and universities throughout Maryland, Virginia, and the District of Columbia.

**Enrollment**

Enrollment in Military Science (MLSC) courses is open to all students at the Basic Course Level. Freshmen (MLSC 100 Introduction to Army/ROTC and MLSC 102 Leadership Skills II), sophomore (MLSC 200 Self/Team Development and MLSC 202 Leadership Skills IV), and junior (MLSC 300 Applied Leadership I and MLSC 302 Applied Leadership II) classes are awarded 1 credit each. Senior classes (MLSC 400 Leadership and Management and MLSC 402 Leadership and Ethics) earn 3 credits each. No military service obligation is incurred by enrolling in the freshman and sophomore level Army ROTC courses. Courses can be dropped or added, as with any elective course at Mason.

The four-year program is organized into two successive phases: the Basic Course and the Advanced Course. For students seeking the opportunity to earn a commission as an officer, several entry methods and participation strategies can be used. A minimum of four semesters must remain in the student’s academic curriculum to complete commissioning requirements; these semesters may be part of either a full-time undergraduate or graduate degree. Course descriptions appear under Military Science (MLSC) in the Courses section of this catalog. Cadets must meet established academic standards. A student must maintain an overall GPA of at least 2.00 to earn commissioning credit for ROTC.

Contracted and scholarship cadets of any level are required to pass the Army Physical Fitness Test (APFT) once each semester. Physical training (PT) is conducted three times each week (Monday/Wednesday/Friday from 6:30 to 8 a.m.). All contracted and scholarship cadets are required to attend physical training.

**Basic Course Curriculum**

The Basic Course curriculum is a four-course series (MLSC 100 Introduction to Army/ROTC, MLSC 102 Leadership Skills II, MLSC 200 Self/Team Development, and MLSC 202 Leadership Skills IV), usually taken in the freshman and sophomore years. Each class awards 1 academic credit. The Basic Course trains students in reading, writing, public speaking, decision making, management skills, time management, ethics and military law, logistics, military roles and national objectives, strategic and tactical planning and principles, and basic military knowledge and skills. The George Mason Army ROTC Patriot Battalion began in 1982, achieved independent status in 2000, and frequently conducts training with colleges and universities throughout Maryland, Virginia, and the District of Columbia.

Education benefits include tuition and fee waivers, and a stipend for room and board charges, books and supplies, and other expenses. Program information may be found on the Virginia Department of Veterans Services website.

**Advanced Course Curriculum**

The Advanced Course consists of a four-course series (MLSC 300 Applied Leadership I, MLSC 302 Applied Leadership II, MLSC 400 Leadership and Management, and MLSC 402 Leadership and Ethics) taken during the junior and senior years. MLSC 300 Applied Leadership I and MLSC 302 Applied Leadership II earn 1 credit each, while MLSC 400 Leadership and Management and MLSC 402 Leadership and Ethics earn 3 credits each. Enrollment in the ROTC advanced course requires that students enter into a contract to serve as a commissioned officer in the active or reserve component of the U.S. Army upon graduation. Many graduates
elect to apply for service on active duty although ROTC also offers the opportunity of service in either the Army Reserve or Army National Guard.

The 300-level courses emphasize squad and platoon leadership, tactics, and preparation for Advanced Camp. Advanced Camp is a four-week training and evaluation event conducted during the summer at Fort Lewis, Washington. Successful completion is a prerequisite for commissioning. Cadets typically attend Advanced Camp in the summer between their junior and senior years; however, they may attend after their senior year if necessary. Salary, travel expenses, and room and board are all provided during the course.

Satisfactory completion of an approved military history course is also required. The department of History and Art History offers a number of 300-level survey courses on the American military experience that satisfy this requirement. Permission of the Professor of Military Science is required prior to substituting any other course.

Upper division ROTC students are also expected to participate in peer mentoring as part of their leadership development. The ROTC peer mentorship program helps students assimilate into the program and helps students prioritize their time to ensure they remain in good academic standing.

The 400-level courses are considered to be the transition phase to becoming an officer in the U.S. Army. These courses focus on leadership, staff operations, logistics, military law, and ethics. Seniors are expected to organize and attend an additional one-hour staff and training meeting per week as part of their leadership experience and duties. Planning and implementation of training becomes the primary focus for seniors in required laboratories.

Enrollment in the advance course ROTC classes requires that certain prerequisites be met. For more information, see the Courses section of this catalog.

Earning a Commission

There are several methods by which students may enter Army ROTC to earn a commission as a second lieutenant on graduation:

- Traditional students may complete the four-year program.
- Sophomores may dual-enroll in both years of MLSC freshman and sophomore level instruction to satisfy the lower-level division requirement in a single academic year. A member of the ROTC cadre must sign a time conflict approval form in order for students to enroll in both freshmen and sophomore lecture sections, as well as the leadership laboratory.
- Veterans with prior college credits may enter directly into the upper-division sequence (if academically aligned as a junior).
- Sophomores may apply to attend a four-week Basic Camp - between the sophomore and junior years to gain experience equivalent to the basic course. Medical, physical and academic standards must be met prior to attending Basic Camp. Students should contact the Recruiting Operations Office in the ROTC department to determine eligibility.
- Graduate students entering a two year program are also eligible to attend Basic Camp prior to start of their graduate studies. Students should contact the Recruiting Operations Officer in the ROTC department.

Education delays for graduate study also may be approved for Cadets seeking training as physicians, lawyers or ministers based on needs of the Army. Non-U.S. citizens may participate freely in the lower-division ROTC courses, but must earn U.S. citizenship prior to enrollment in courses requiring a contractual obligation to serve as a commissioned officer.

Scholarship Programs

Two-, three-, and four-year ROTC scholarships are available to freshmen, sophomores, and juniors in all majors on a competitive basis as well as to graduating seniors who wish to pursue a two-year master's degree. Students must have a minimum cumulative GPA of 2.50 to apply and be under age 31 when commissioned. Scholarships pay 100 percent of tuition, an annual book allowance of $1,200, and a stipend of at least $300 per month during the school year, all tax free.

A two or three year Guaranteed Reserve Forces Duty scholarship is available that guarantees reserve duty upon graduation and commissioning. Students should contact the Recruiting Operations Officer in the ROTC department to determine eligibility.

High school students interested in four-year scholarships should apply online (http://www.goarmy.com/rotc) no later than December 15 of their senior year for a scholarship that would start in the fall semester of their freshman year at Mason. Contact the Recruiting Operations Officer for details.

Many students participate in ROTC as non-scholarship cadets. A non-scholarship cadet cannot enter into a contract to receive a commission until the sophomore year (to include completing MLSC 100 Introduction to Army/ROTC and MLSC 102 Leadership Skills II or equivalent credit.) For the sophomore, junior, and senior years, non-scholarship contracted students receive a monthly stipend.

Air Force ROTC

AFROTC Detachment 330
2125 Cole Student Activities Building
University of Maryland
College Park, MD 20742-1021
Phone: 301-314-3242

Enrollment

The Air Force Reserve Officers’ Training Corps (AFROTC) provides two programs for college men and women to earn a commission as a second lieutenant in the U.S. Air Force while completing their university degree requirements. To enter the AFROTC program, students should contact 301-314-3242 or go online (http://www.afrotc.umd.edu). Mason students register for the appropriate courses through the Consortium Office located in SUB I, Room 2101. Attendance at courses, located at the University of Maryland, is mandatory. Carpools among Mason cadets are usually available.

Four-Year Program

This program is comprised of a General Military Course (GMC) and a Professional Officer Course (POC). The first two years (GMC), normally for freshmen and sophomores, give a general introduction to the Air Force and its various career fields. Students enrolled in the GMC program incur no obligation and may elect to discontinue the program at any time. The final two years, the POC concentrate on the development of leadership skills and the study of U.S. defense policy. Students must compete for acceptance into the POC. Students enrolled in the last two years of the program regardless of scholarship status will receive a monthly stipend. Juniors receive $450 a month and seniors receive $500 a month.
Three-Year Program
This program is normally offered to prospective sophomores but may be
taken by seniors and graduate students. The academic requirements for
this program are identical to the four-year program, and students receive
the same benefits in their POC years. Student will take both the freshmen
and sophomore class to make up the missed first year. Students must
start the fall semester of their sophomore year to be eligible for the
three-year program. Graduate students should contact the detachment
301-314-3242 for graduate student entrance requirements.

Scholarships
Scholarships are available in many fields and are based on merit. Those
selected receive tuition, lab expenses, incidental fees, and a book
allowance, plus a nontaxable monthly allowance. For the most up to date
information about scholarships available contact the detachment or visit
their website (http://afrotc.com/scholarships).

AFROTC Awards
AFROTC cadets are eligible for numerous local, regional, and national
awards. Many of these awards include monetary assistance for school.

Student Conflict Resolution and Support
Room 2410, Student Union Building I
Office of Diversity, Inclusion and Multicultural Education
Phone: 703-993-3306
Email: tcarte2@gmu.edu

Administration
• Thomas Carter II, SCRS Coordinator

Student Conflict Resolution and Support (SCRS) is a resource to help all
GMU students navigate the University. The Student Conflict Resolution
and Support Coordinator can listen to university-related concerns raised
by undergraduate and graduate students in confidence and off-the-
record, and help them identify appropriate resources to address their
concerns and understand their options in any University-related situation.
SCRS operates independently of all formal processes at the university.
The SCRS Coordinator has no authority to make exceptions or to grant
requests, but can help expedite informal resolution to students’ concerns.
When appropriate, the SCRS Coordinator may recommend changes in
processes and policies at the university.

Meetings with the SCRS Coordinator are confidential, except when there
is imminent risk of serious physical harm to anyone. SCRS does not serve
as an office of notice or record for the University. If a student wishes
to put the University on notice about anything, the SCRS Coordinator
can help identify the appropriate channel. SCRS offers a safe place to
discuss and explore options, so students can better understand the
University and make informed decisions about their concerns. SCRS
also offers conflict coaching, facilitated dialogues, restorative justice
circles, and mediation. SCRS does not replace or substitute any formal
processes made available by the University. Our services and procedures
are designed to be student-centered and accessible to all members of our
community.

Student Health Services
2300 SUB I
Fairfax Campus
703-993-2831

229 Senator Colgan Hall
Science and Technology Campus
703-993-8374

B102 Van Metre Hall (formerly Founders Hall)
Arlington Campus
703-993-4863

Website: shs.gmu.edu

Student Health Services provides easily accessible and affordable health
care to all enrolled students in a caring and confidential environment.
Clinics on the Fairfax, Arlington, and Science and Technology campuses
offer a wide variety of services (https://shs.gmu.edu) to keep Mason
students healthy.

Immunization Requirements
All newly admitted or newly readmitted students are required to submit
the immunization record form. Students born after December 31, 1956,
must provide documented proof that they have been immunized against
certain communicable diseases. Students born before December 31,
1956 are only required to complete the Tuberculosis screening section on
the immunization record form.

Students must submit completed immunization records to the
Immunization Office by the first day of classes for the semester per the
Registrar’s calendar.

Students must complete parts 1-4 and a healthcare provider must
complete parts 5-8 of the Immunization Record Form. A late fee will be
charged and a hold will be placed on the student’s Patriot Web account if
immunization records or documentation are incomplete.

Immunization requirements are mandated by the Commonwealth
of Virginia and George Mason University policy #6004 (http://
universitypolicy.gmu.edu/policies/immunization-policy). Student
Health Services is responsible for collecting and maintaining students’
immunization records.

Required Immunizations
Tuberculosis: Tuberculosis (TB) screening is required for all students. If
TB testing is needed it must be completed within the past 6 months.

Tdap: Must submit proof of Tetanus/diphtheria/Acellular Pertussis (Tdap)
vaccination after age 11. Must also show proof of Tetanus and diphtheria
(TD)/Tdap within the last 10 years if Tdap vaccine was administered more
than 10 years ago. A titer lab report is not accepted.

MMR: Two doses each of measles, mumps, rubella, after 1967 OR
the combination MMR (after 1971), OR a laboratory report of a titer
documenting positive immunity to each of the diseases.

Hepatitis B: Students are required to submit proof of vaccination or
immunity against Hepatitis B disease OR they must sign a waiver.
Student Health Services highly recommends this vaccination series.

Meningococcal: Meningococcal Conjugate vaccine administered between
the ages of 16-21 OR submit a signed waiver. Student Health highly
George Mason University offers a student health insurance plan which is available to eligible undergraduate and graduate students who would like to purchase health insurance. F-1 and J-1 Visa students are automatically enrolled in the Mason health insurance plan under University Policy #6002 (https://universitypolicy.gmu.edu/policies/health-insurance-requirement-for-international-f-1-and-j-1-visa-students). Details about the plan are online (http://shs.gmu.edu/insurance).

**Immunization Submission**
Submit the immunization record form to the Immunization Office through the secure patient portal online, by mail, or in-person. Submission details are on the form. Students must complete parts 1-4 and a healthcare provider must complete parts 5-8 of the Immunization Record Form. Transcription service is available for a fee at Student Health.

If a student is not able to provide appropriate documentation, immunizations and/or titer are also available for a fee. Call (703-993-2135) or walk-in to the Immunization Office (http://shs.gmu.edu) to schedule an appointment for immunizations at Student Health Services after records are submitted and processed. Contact the Immunization Office for questions about immunization requirements, submission, or vaccine prices.

Online submission: gmu.medicatconnect.com (https://gmumedicatconnect.com)

Office location: SUB 1, Rooms 2347 - 2349

Mailing Address: George Mason University Student Health Services
4400 University Drive, MS 2D3
Fairfax, Virginia 22030

Students are responsible for ensuring immunization records are submitted and complete by the deadline. Students will receive notification about incomplete or missing immunization requirements through their Mason email account. The notice will direct the student to log into the secure patient portal (https://gmumedicatconnect.com) for more information.

**Minor Consent**
A parent/legal representative signature is required for a minor (a student under age 18 at the time classes begin). A minor consent must be on file at Student Health Services to receive most health services. This minor consent is on the immunization record form. If a minor student chooses to sign the hepatitis B or meningococcal waiver on the immunization record form, a parent/legal representative signature is also required.

**Student Health Services**
Student Health is staffed by dedicated doctors, nurse practitioners, and nurses who provide diagnosis and treatment of illness and minor injuries and health and wellness counseling for all enrolled students.

There is no charge to be seen by a healthcare provider. There are fees for supplies, immunizations, lab testing, medications and procedures. Call to schedule an appointment for routine or non-urgent services. If Student Health Services is closed, call 703-993-2831 to speak with the free nurse advice service.

**Student Health Insurance Plan**
George Mason University offers a student health insurance plan which is available to eligible undergraduate and graduate students who recommends students living on campus or participating in sports receive this vaccine.

The immunization record form can be found on the Student Health Services website (http://shs.gmu.edu/immunizations) or obtained at the Immunization Office. Immunization records must be in English.

**University Libraries**
**Office of the Dean of Libraries and University Librarian**
4300 Fenwick Library
Fairfax Campus
MSN: 2FL
Phone: 703-993-2491
Website: library.gmu.edu

**Administration**
- John G. Zenelis, Dean of Libraries and University Librarian
- John C. Walsh, Associate University Librarian for Learning, Research and Engagement
- Clyde W. Grotophorst, Associate University Librarian for Digital Strategies and Systems
- Bridget Euliano, Assistant University Librarian for Access and Resource Management

**Research Services and Instruction**
Library faculty work with instructional and research faculty and students in specific academic programs and departments to promote new resources, consult with faculty about acquiring specific scholarly resources, assist graduate students with thesis or dissertation research, develop and maintain research guides, support online courses, collaborate in offering research programs and scholarly events, and conduct instructional and training sessions for all levels of library users—students, faculty and staff.

**Instructional Services**
The University Libraries provides a variety of instructional services tailored to the curricular and academic programs of the university’s schools and colleges. Library instruction ranges from workshops to classes, and is aligned with and embedded in the university’s undergraduate and graduate curricula. Technology-rich instructional venues are available in all of the libraries.

**Research & Consultation Services**
Academic, special collections, and other staff provide research and consultative assistance to students, faculty and staff at any stage of the research process. Research support ranges from class assignments to lengthier research projects, to capstone course and graduate degree requirements (i.e., thesis or dissertation), to data and GIS support, to research and scholarship leading to publication and related scholarly communications. For help in a specific discipline, consult the website (http://library.gmu.edu/ask/request).

**Scholarly Resources**
Library research materials in various formats are housed on the Fairfax Campus at the Fenwick Library and the Gateway Library; on the Arlington Campus at the Arlington Campus Library; and on the Science and
Technology Campus at the Mercer Library. The Antonin Scalia Law School Library, on the Arlington Campus, is administered separately, but maintains close programmatic and service coordination with all of Mason’s libraries. Combined holdings, including the law library, include: print books and bound journal volumes; e-books; online journals and proceedings; online audiovisual items; multimedia materials; microform units; print government documents (U.S., Virginia, and European Union); maps; electronic databases; and significant holdings of manuscripts, special collections, and archives.

Mason’s integrated library information system and its discovery layer interface access an online catalog, circulation, and print course-reserves information. The system can be used in any of the libraries from campus locations on the network or via the web. Electronic course reserves are provided through Blackboard (Bb), the university’s learning management system. The Libraries’ website (http://library.gmu.edu), offers access to a variety of networked digital resources and electronically mediated services, including a virtual reference service.

Current affiliations include the following:

- The Virtual Library of Virginia (VIVA) Program, a Virginia funded electronic and resource-sharing program for public higher-education institutions;
- The Washington Research Library Consortium (WRLC), whose membership includes American, Catholic, Gallaudet, Georgetown, George Washington, Howard, Marymount, and District of Columbia universities, provide resource sharing services;
- The Association of Southeastern Research Libraries, which includes the 36 largest university libraries in a 10-state region;
- The Center for Research Libraries - Global Resources Network, a Chicago-based research library for research, along with its affiliate Linda Hall Library of Engineering and Technology (Kansas City, MO), whose multimillion volume holdings comprise specialized and uniquely held materials in North America and;
- The international Online Computer Library Center (OCLC) extensive computerized system and network facilitate national and international library resource-sharing activities and shared cataloging of scholarly material worldwide.
- HathiTrust

An intercampus delivery service is available for students and faculty requesting materials held at any Mason campus library. Materials not held by Mason can be obtained by direct borrowing from WRLC institution libraries via the Consortium Loan Service, and other research libraries via interlibrary loan, or, when required, commercial delivery services.

Expanded academic support services also include the following:

**Digital Scholarship Center**

Web: dsc.gmu.edu (http://dsc.gmu.edu)

The Digital Scholarship Center (DiSC) is the library’s most sophisticated response to the interdisciplinary research, teaching and learning needs of our digital researchers. The focus is supporting scholarly or academic activities that are conducted or enhanced through the use of data and digital technologies. DiSC staff and affiliates deliver digital research services, and the center itself offers a technology-rich environment where discovery, exploration, collaboration and, ultimately, learning occur.

**Data Services & GIS**

An integrated service supporting faculty and students engaged in data-centric research (e.g., social science data sets, polling, census, geospatial data, and data archives). Services include consultations, training and assistance with finding and using data, conducting data collection and analysis, using statistical and qualitative software packages, and geographic information systems (GIS). Other assistance offered includes advice on creating funder-mandated data management plans, research data repository services and access to government information and maps.

**Digital Projects Lab**

One of two labs in the Digital Scholarship Center, the Digital Projects Lab is designed, configured and equipped to support and encourage collaborative work on digital research projects.

**Virtual Reference**

Web: library.gmu.edu/ask (http://library.gmu.edu/ask)

This service provides a virtual, real-time, reference service which allows staff to provide reference service to students, faculty and staff remotely.

**Mason Publishing**

Phone: 703-993-3636

Web: library.gmu.edu/masonpublishing (http://library.gmu.edu/masonpublishing)

The Mason Publishing Group provides support and resources to the George Mason University community for creating, curating, and disseminating scholarly, creative, and educational works. Mason Publishing includes a cluster of publishing-related activities such as the George Mason University Press, scholarly communication and copyright, University Dissertation & Thesis Services, Mason’s institutional repository (MARS), electronic journal hosting and publishing, and data publication.

**George Mason University Press**

Phone: 703-993-3636

Web: publishing.gmu.edu/press (https://publishing.gmu.edu/press)

A component of Mason Publishing, the George Mason University Press publishes in a variety of disciplines ranging from literature to public policy. The Press seeks to promote access to scholarly works that concern the university, other area institutions, and the history, politics and culture of the local area.

**Mason Archival Repository Service**

Phone: 703-993-3742

Web: mars.gmu.edu (http://mars.gmu.edu)

Another facet of Mason Publishing, the Mason Archival Repository Service (MARS) serves as an institutional repository and provides a stable digital archive for scholarly and research materials of lasting value held by Special Collections Research Center or produced by Mason faculty, students, and staff. The institutional repository librarian provides expert advice on archiving these materials, file formats, copyright issues, long-term management of archived materials, and issues pertaining to scholarly communication.

**Scholarly Communications and Copyright Resources**

Phone: 703-993-2544 or 2427
Integrated within Mason Publishing, this service provides guidance, assistance, and education on copyright, open access, and scholarly communications issues. Specifically, this office provides assistance with the application of fair use of proprietary content used in classroom teaching, electronic course reserves, online education; student assignments; open access and university publishing and support; and promoting faculty scholarship and collaborations. Workshops and class instruction on these topics and other are available year-round, upon request.

University Dissertation and Thesis Services
Phone: 703-993-2222

A component of Mason Publishing, the University Dissertation and Thesis Service (UDTS) assists students and academic units in the dissertation, thesis, and graduate-level project process by helping students meet all university requirements and deadlines for submission of work. The UDTS web site provides useful tools such as the university’s Thesis, Dissertation, or Project Guide, containing downloadable templates of necessary elements, forms required for the submission process, and links to related web sites. UDTS also assists graduate students through individual consultation and informational workshops.

Special Collections Research Center
Web: scrc.gmu.edu (http://sca.gmu.edu)

Housed in the Fenwick Library in a state-of-the-art space, this unit acquires, documents, preserves, and provides access to primary research collections and documents. Special Collections Research Center’s (SCRC) services, collections and programs support the teaching and research activities of George Mason University and also serve the community at large. With unique print and digitized collections that offer outstanding opportunities for research with original sources, holdings focus on Mason’s academic areas of strength, as well as the development of the Washington-Northern Virginia metro area. The collections – in large part, rare and exceptional materials – encompass broad areas such as: humanities and social sciences; Northern Virginia and regional history; oral histories; politics and government; prints and photographs; Reston, Virginia; science and technology; theater and performing arts; transportation and planning; university archives and history. SCRC houses the university’s records management program and, through its oral history program, undertakes the creation of audiovisual documentary resources.

University Records Management
Phone: 703-993-2201

A part of the Special Collections Research Center, this service assists university academic and administrative departments with retention and disposition of institutional records, both print/physical and digital, in accordance with Virginia state laws, policies, and guidelines. University Records Management offers online guidance, as well as in-person workshops, instruction sessions, and records evaluations to assist faculty and staff. University Records Management maintains an on-site records center where inactive paper records may be stored and university records are properly disposed.
The fifth floor graduate study zone includes Graduate Study Carrels and the Dissertations Writers’ reserved spaces; quiet spots designed to give graduate students a place to pursue their research and writing. A graduate student silent reading room is also available on the fifth floor.

Assistive technologies are available onsite (for individuals with disabilities).

**Gateway Library**
Phone: 703-993-9060

The Gateway Library is part of the George W. Johnson Center integrated learning environment and provides large open study areas and group study rooms that can be scheduled, offering an invigorating alternative study environment. Access is available to all electronic scholarly information held and services provided by the University Libraries. The library’s focus is on instructional services that are designed to improve and enhance undergraduate education fluency and competency with library research skills. Assistive technologies available onsite include screen-reading software, text-enlargement software, and special hardware for individuals with disabilities. The library offers the One-Button Studio to students and faculty allowing them to create, easily, high-quality and polished video projects. This library also partners with a number of academic and academic support units such as: Honors College, Communications department, the Writing Center, INTO Mason, and the Office of Student Scholarship, Creative Activities, and Research (OSCAR) - in designing and delivering related services in support of students’ academic success.

**Arlington Campus Library**
Phone: 703-993-8188

This library is a full-service research facility supporting the teaching and research needs of Mason faculty, students, and staff on the Arlington Campus. Consistent with this campus’ distinct areas of academic specialization at the graduate level, the library’s collection emphasizes public policy, international commerce, economics, management of nonprofit organizations, conflict resolution and arts management. The library has significant research materials holding and is a depository of European Union documents. Intercampus delivery of circulating materials from other library sites is available. Library staff can provide research assistance and instruction for students, faculty, and staff in identifying and using research resources, which continue to grow in breadth and depth. Assistive technologies are available for people with disabilities.

**Mercer Library**
Phone: 703-993-8340

This library supports Mason faculty, students, and staff in the programs and courses offered on the Science and Technology Campus, including applied information technology; biotechnology, bioinformatics, and biodefense; education; environmental sciences and policy; Governor’s School @ Innovation Park; health, fitness and recreation resources; molecular and microbiology; tourism; and visual and performing arts. This library also supports faculty and students in the Smithsonian Mason School of Conservation on the Front Royal Campus.

The library provides access to university-wide electronic resources, with an emphasis on instruction and assistance with information resources and research. The library fosters partnerships to provide information services to the rapidly expanding corporate and technology presence in Prince William County. Assistive technologies for people with disabilities are available.

**Antonin Scalia Law School Library**
Phone: 703-993-8120 (circulation desk)

**Administration**
Deborah M. Keene, Associate Dean, Library and Technology

The law library supports the Antonin Scalia Law School and has a collection of over 476,000 print and microfiche volumes with an emphasis on law and economics, intellectual property, corporate and securities law, regulatory law, and Virginia law. The library also provides access to electronic law resources including LexisNexis, Westlaw, HeinOnline, Index to Legal Periodicals, Bloomberg Law and BNA Premier and is a selective depository for U.S. Government documents. The law library is open to all members of the university community. Most of the collection does not circulate, but many of the books in the treatise collection are available for checkout by all faculty, students, and staff.

**University Scholars Program**

**Honors College**
D205 Buchanan Hall
Phone: 703-993-1110
Website: honorscollege.gmu.edu/admissions/university-scholars

The University Scholars are selected from among the most outstanding students invited to the Honors College. This award is the highest academic distinction that Mason offers to undergraduate students and is given annually to top high school seniors admitted to the university. Each year the University Scholars Program enrolls approximately 20 new first-year students, each of whom receives a scholarship covering the full cost of tuition over four years. Students receiving this award have exemplary records of academic achievement, and they have demonstrated intellectual vision and creativity, the potential to solve problems and overcome obstacles, and a commitment to meaningfully contributing to their communities. Applications must be submitted by November 1 to receive priority consideration for the scholarship.

The University Scholars reside in a common residence hall their first year and share the Dr. Noreen McGuire Prettyman University Scholars Lounge. Students enrolled in the University Scholars Program participate in a dynamic learning community that provides opportunities for intellectual, cultural, and social engagements.
RESEARCH

- Mason Impact
- Office of Research
- Office of Student Scholarship, Creative Activities, & Research (OSCAR)
- Research and Scholarship Intensive Courses

Krasnow Institute for Advanced Study

Phone: 703-993-4333
Website: krasnow.gmu.edu

Administration

- Saleet Jafri, Interim Director
- Kenneth De Jong, Associate Director
- Jennifer L. Sturgis, Assistant Director

College Code: KR

The Krasnow Institute for Advanced Study seeks to expand the understanding of mind, brain, and intelligence by conducting research at the intersection of the separate fields of cognitive psychology, neurobiology, and the computer-driven study of artificial intelligence and complex adaptive systems, including social systems. These separate disciplines increasingly overlap and promise progressively deeper insight into human thought processes. The institute also examines how new insights from cognitive science research can be applied for human benefit in the areas of mental health, neurological disease, education, computer design, and social system analysis.

The Krasnow Institute for Advanced Study was chartered in 1990 as a private nonprofit Virginia corporation and merged with Mason in 2002, becoming a chartered institute under the Office of the Provost. The Center for Social Complexity joined the Krasnow Institute in 2005. The institute operates on an annual budget of $7.8 million. Cognitive research at the institute spans from molecules to the mind to social systems. Krasnow scientists have published extensively in the most prestigious scholarly journals and collectively have brought in more than $59 million in sponsored research from federal agencies such as the National Institutes of Health and private sources such as the Sir John Templeton Foundation.

Administration

- Deborah Crawford, Vice President for Research

The Office of Research has overall responsibility for the university's research enterprise. Working in an atmosphere characterized by its commitment to generate new knowledge through research and scholarship and to seed and support entrepreneurship and innovation to benefit society, Mason's researchers and scholars conduct their work in an array of disciplines and subject areas. The Office works to promote and optimize the success and impact of these endeavors and to create an environment that sustains the highest standards of ethical research and scholarship.

Mason Impact

Mason impacts students, and students impact the world!

Mason Impact (https://uge.gmu.edu/mason-impact) is George Mason University's commitment to offer every student transformative learning experiences. Mason Impact offers high-impact opportunities to all students, designed to develop problem-solving, critical thinking, and communication skills, and preparing them to make a real impact in the world. Mason Impact is grounded in a strong education that explores how knowledge is created and used, investigates local and global challenges from multiple perspectives, and helps students develop relevant questions. Mason Impact Projects allow students to use inquiry methods to answer their questions and learn to communicate their results. These experiences are transformative; students are introduced to a more complicated and interesting world in which they can have an impact. Mason Impact offers experiences and projects in Global Education (http://studyabroad.gmu.edu), Civic Engagement (https://sail.gmu.edu), Research (p. 120), and Entrepreneurship (https://www.mix.gmu.edu). Students who successfully complete Mason Impact projects and/or participate in study abroad earn special transcript notations highlighting their experiences.
Office of Student Scholarship, Creative Activities, & Research (OSCAR)
The Office of Student Scholarship, Creative Activities, and Research (OSCAR) is home to Mason's award-winning undergraduate research program, connecting undergraduate students and faculty through course-based, co-curricular, and independent scholarly projects. Undergraduate research is a featured Mason Impact (https://uge.gmu.edu/mason-impact) experience.

OSCAR offers several programs that make scholarship central to the undergraduate experience at Mason, by:

- Helping undergraduates find faculty mentors
- Funding undergraduate research and creative projects through the Undergraduate Research Scholars Program and Summer Team Impact Opportunities
- Providing funding for travel to conferences through the Undergraduate Student Travel Fund
- Supporting Research, Scholarship Intensive Courses and Mason Impact (https://uge.gmu.edu/mason-impact) Courses
- Hosting the annual Celebration of Student Scholarship and Impact
- Offering OSCAR Federal Work Study Research Assistantships

Please visit our website (http://oscar.gmu.edu) for more information.

Research and Scholarship Intensive Courses

Website: oscar.gmu.edu

These courses give students an authentic research or creative experience as part of the Mason Impact (masonimpact.gmu.edu (https://uge.gmu.edu/mason-impact)). In Research and Scholarship (RS) Intensive courses, students and faculty have a unique opportunity to partner as they merge teaching with the creation of new knowledge. By participating in one of these classes, students are actively involved in a project that is the central focus of the class. Students help define the project, take responsibility for carrying it out, and present the results to a broader audience. These classes are identified on student transcripts with an RS designation.

Tuition & Fees

Office of Student Accounts

4400 University Drive, MS 2E2
Fairfax, VA 22030

Phone: 703-993-2484
Fax: 703-993-2490
Website: studentaccounts.gmu.edu

General Guidelines

- Students are responsible for maintaining a current mailing address in their student record on Patriot Web (https://patriotweb.gmu.edu), and for activating and checking their George Mason University e-mail accounts to receive official university communications.
- All students are required to accept George Mason University’s Student Financial Responsibility Agreement prior to registering for classes each semester. The agreement outlines financial terms and conditions associated with course registration. Students are responsible for withdrawing from all classes that they do not intend to complete by the deadlines listed in the Semester Calendar. Students must confirm withdrawals and class drops, and full or partial liability may apply. George Mason University does not cancel classes for nonpayment or nonattendance.
- Refer to the Payment Schedule and the Semester Calendar on the Student Accounts Office web site for payment due dates and tuition penalties for dropping classes after the start of the semester. Classes that do not meet for the full semester have non-standard liability deadlines, which can be found on the part-of-term chart of the Semester Calendar.
- Payments are due in the Cashier’s Office, Student Union Building I, Room 1501, on or before 4:30 p.m. on due dates, regardless of postmark if mailed. Check and credit card payments made through the Bill and Payment System must be completed by 10:30 p.m., to be considered in that day’s business. Bills are provided electronically only, approximately thirty (30) days prior to the semester start to students and authorized payers. Bills are not provided for individual class registration and schedule adjustments. Students must check Patriot Web for balance due, verify registration, and pay through the Bill and Payment System or at the Cashier’s Office by the due date. Failure to receive a reminder bill confirming charges does not waive the requirement for payment when due.
- Students who have not completed the financial aid process must be prepared to pay for their courses by the tuition due date or a late payment fee will be charged. The amount of financial aid accepted and processed will be reflected in your account balance. If the amount of aid awarded is less than the charges, the difference must be paid by the tuition due date. Federal work-study awards cannot be deducted from your balance. Financial aid recipients must also notify their financial aid counselor if they drop courses below the minimum required credits for their financial aid award. Class registrations or schedule adjustments after financial aid has disbursed may result in a balance due. Students are responsible for checking their balance after all schedule adjustments.
- Out-of-state students with pending domicile requests are responsible for payment at the out-of-state rate. Students who are later determined to be in-state can request reimbursement for the difference in tuition rates.
- Non-returning students are responsible for withdrawing from their courses for the semester and ensuring they do not have an outstanding balance on their account. Any documentation or intent made to university departments that you are not returning does not withdraw you from the registered courses.
- Some Mason degree programs include academic credits that students must earn at other academic institutions. Students enrolling for such credits assume all financial responsibility with the other institutions.

Semester Tuition Charges and Related Fees

Approved tuition rates and fees are available June 1. For more information, call the Student Accounts Office at 703-993-2484 or go online (https://studentaccounts.gmu.edu). Students are charged tuition rates for registered courses according to their academic level and program; graduate rates vary by academic program.

Please Note: Many courses require additional course fees and/or lab fees. Refer to the Student Accounts Office website (https://studentaccounts.gmu.edu/tuition) for up-to-date course fee information.

New Student Fees

All new degree seeking students pay a New Student Fee. The fee is a mandatory, nonrefundable, one-time charge that is assessed when a new student registers for classes, regardless of orientation attendance or future enrollment status. The current fee amount is listed on the Student Accounts Office website (https://studentaccounts.gmu.edu).

Mandatory Student Fee

This is a mandatory fee based on credit enrollment. The Mandatory Student Fee supports the maintenance of facilities and buildings, auxiliary services, intercollegiate athletics, campus shuttle, academic services, student activities, and health services.

Payment Information

Payment Deadline

Payment is due the first day of the semester. Payments received at the Cashier’s Office by 4:30 p.m. Monday to Friday will be considered in that day’s business. Check and credit card payments made through the Bill and Payment system must be completed by 10:30 p.m. to be considered in that day’s business. To confirm receipt of payment and balance due on account, go to Patriot Web (https://patriotweb.gmu.edu).

Methods of Payment

Cash

In person at Cashier’s window only, Cashier’s Office, SUB I, Room 1501

Check

Online, in person, mail or drop box. Make check payable to George Mason University, with student ID number written on front. Third-party checks are not accepted. Checks must be payable in U.S. dollars. A $50 return check fee will be charged for checks returned unpaid by the bank for any reason.
Credit Card  
Online only. Visa, MasterCard, American Express or Discover Card. There is a 2.85 percent convenience fee for credit card payments, which is nonrefundable. A $50 returned item fee will be charged for credit or debit card reversals (charge-backs).

Delivery Methods  
Online  
Bill and Payment system, on-line checks or credit cards

Window  
Cashier’s Office, SUB I, Room 1501, Monday through Friday 9 a.m. to 4:30 p.m.

Drop Box (no cash payments)  
Adjacent to Cashier’s Office, SUB I, hallway outside Room 1501

U.S. Mail  
George Mason University, Cashier’s Office, 4400 University Drive, MS 2E1, Fairfax, VA 22030. Allow 10 business days for delivery by the due date, and postmarks are not considered a receipt of payment.

Semester Payment Plan  
Mason payment plans are available on-line only. The preferred payment method for payment plans is the on-line/electronic check option, which does not charge a convenience fee. The following plans are available for students who need to budget their accounts.

The Summer term offers a two payment plan only. The plan begins with a down payment of 50% and the $25 contract fee, and defers the second payment until mid-June.

Deferred tuition options in Fall and Spring are available through two, three and four payment plans. Important deadlines must be followed to take advantage of the four payment plan, which allows students to pay in four installments - beginning in July for Fall and December for Spring. The two and three payment plan options begin any time prior to the due date for the semester. All plans require a down payment, which is the first payment plus the $25 contract fee. For more information, call the Student Accounts Office at 703-993-2484 or go online (https://studentaccounts.gmu.edu).

Failure to pay the deferred balance by the due date will result in a financial hold, a late fee of 10% (up to $125), collection activity, and may prevent future eligibility of the payment plan.

Third-Party Billing Authorizations  
Students using a third-party billing authorization will be charged a $25 processing fee. Students may receive an individual billing statement. Students must provide the third-party authorization or government training voucher to the Student Accounts Office, or fax it to 703-993-2460 before the student’s individual due date, which is based on their registration date. Check “Calendars” on the web site for the deadline to submit third party payment authorizations. Students are responsible for any payment default by the sponsoring agency. Call 703-993-2484 for a copy of third-party billing requirements, or check online (http://studentaccounts.gmu.edu/third-party-billing-office).

Penalties  
A late registration fee of $125 is automatically assessed to students who add their first class on the first day of the semester or after. It does not apply to students already enrolled prior to the start of the semester who make schedule adjustments. Wait-listed classes are not considered class registration. Late registration fees are nonrefundable and will not be removed, regardless of enrollment status.

Any class registration after the deadline to add classes, if approved by the academic department, is subject to a $125 late registration fee. Late class registrations require an account in good standing and prepayment of all charges.

Past due balances are subject to a late payment fee that is 10 percent of the balance due, up to $125.

Registrations will not be canceled for nonpayment or nonattendance. Students must withdraw from all classes that they do not plan to complete by the payment due date to avoid the late payment fee on those classes.

Returned Checks  
Per Commonwealth of Virginia statute, the return item fee is $50. Repeat returned payments may result in the restriction of the online payment option for future semesters. Payments for past due balances and/or to release holds for registration that are later returned unpaid by a financial institution may result in the immediate suspension of services and the cancellation of classes. Returned checks that create a balance will be sent a written or electronic notice, and a financial hold will be placed on the account until the balance is paid in full. Certified fund payments such as cash or cashier’s check are required for immediate hold release. Waiting periods will apply for other payment methods.

Financial Good Standing; No Holds on Record  
Financial good standing and a university record clear of holds are required for students to receive services. Services, including but not limited to transcript issuance, diploma release, class registration (add, drop, withdrawal, etc.), and/or housing and meal plans will not be provided to students with a financial balance due or a hold of any kind on their record. Holds are based on outstanding obligations and may be financial. Examples include unpaid Student Health charges, fines owed to the Mason or Washington Research Library Consortium libraries, parking and other administrative holds.

Students in noncompliance with payment deadlines as of the end of the semester will be required to submit a financial guarantee or prepayment prior to future registration. The return of the prepayment by a financial institution will result in the immediate suspension of services.

Collections  
Failure to meet financial obligations to the university will result in other collection procedures, which include account referral to credit reporting bureaus, private collection agencies, the Commonwealth of Virginia Department of Taxation, and the Office of the Attorney General. Past due accounts are subject to garnishments, liens, and judgments and the withholding of money from tax refunds. In addition to late fees and interest, delinquent accounts will be assessed additional collection costs up to thirty percent of the past due balance, reasonable attorney fees, and other administrative costs. Once an account is referred to a collection agency payment must be made to the agency, not the University.

Course Withdrawals  
Students are required to pay full or partial tuition for courses they withdraw from after the last day to drop with full tuition refund, including withdrawals to change from one section of a course to another section. For more information, see the tuition liability dates in the Semester Calendar.
Refund Policies

Direct Deposit Refunds
Students may sign up for direct deposit for expedited refunds by completing the form located on the Student Accounts Office website. Direct deposit refunds are sent electronically to the student's bank account. Direct deposit refunds are not available for Parent PLUS loans.

Refund for Credit Balances
In cases where tuition charges are less than the payments on the student's account, a refund of the overpayment may be requested. To initiate the refund process, a Refund Request form is completed and submitted to the Student Accounts Office. Credit balances are also reviewed and refunds processed throughout the semester, regardless of refund request forms. NOTE: Students should not overpay accounts with an expectation a credit balance will pay for future semester charges.

Refunds will be processed according to the last method of payment received:

- Cash or Flywire payments are sent via direct deposit or check.
- Payments made by check require a seven day waiting period. The waiting period may be waived if proof of check clearance is presented, such as a canceled check copy or bank statement showing that the check cleared the account.
- Credit card payments are credited back to the credit card that was most recently used for payment.

Note: Check refunds may take up to four weeks for processing and mail delivery. Refund checks are made payable to the student and are mailed to the address listed in the student record. In person check pick up is not available.

Financial Aid Refunds
Credit balances from financial aid awards will automatically generate a refund, which will be sent via direct deposit if authorized by the student. A refund request form is not needed for financial aid disbursement refunds except in cases of schedule adjustments after aid has been posted. Students who do not opt for direct deposit will receive check refunds mailed to the address on file in their student record, which require additional processing time.

Special Registration
Students not enrolled in a credit-bearing course, but whose academic department certifies that they are pursuing an activity related to Mason matriculation, can retain active status by having the Office of the University Registrar process a registration for the Special Registration course (ZREG 200). A $45 fee is charged for this course, and students must pay this fee before the University Registrar’s office will process the registration. Written approval of the student’s academic department chair is required. This special registration allows students to retain their library and computer privileges, receive a student ID, and buy a parking decal. Students must have active status to apply for or receive a degree, take an exam, or participate in cooperative education. Students pursuing a master's or doctoral degree must maintain continuous enrollment. For more information, see AP6 Graduate Policies (p. 90).

International Student Health Insurance
Health insurance is required for all F-1 and J-1 visa holders, and nonpayment may result in class cancellation. The health insurance fee is deducted from all payments received by the university before funds are applied to tuition or other charges. For more information, refer to the Admission of International Students section.

Music Instruction
Private music instruction is arranged through the School of Music on a fee-paying basis. Refer to the Student Accounts Office web site for up to date fee information. This fee is non-refundable.

In-State Tuition
To be eligible for in-state tuition, a student must have been domiciled in Virginia for at least one full year before the semester for which in-state tuition is sought, or qualify through statutory exception. A person establishes domicile by demonstrating physical presence and the intention to remain indefinitely in accordance with the Code of Virginia and the domicile guidelines. Copies of the guidelines and other applicable state laws are available from the Office of the University Registrar (https://registrar.gmu.edu/students/domicile).

Domicile Change
Domicile classification is determined at the time of a student’s admission. To be considered for in-state status when applying to the university, students must file an application for in-state rates.

New and currently enrolled students classified as out-of-state who believe they qualify for in-state tuition after being admitted must file a domicile appeal form with the Office of the University Registrar no later than the first day of classes for the semester in which in-state rates are sought. Appeal forms are available from the Office of the University Registrar (https://registrar.gmu.edu/students/domicile).

Students whose appeals are denied have the right to seek further review of their status by the Office of the University Registrar or the Domicile and Tuition Classification Appeals Committee. These requests must be filed in the manner articulated in denial letters. Forms are available from the Office of the University Registrar and the web site. In addition, students should be aware that university procedures for appealing domicile decisions have been established pursuant to state law and are subject to change. Out-of-state students with an appeal pending at the time of tuition billing are responsible for payment of tuition at that rate. Students subsequently determined to be in-state may request reimbursement of overpayment from the Office of Student Accounts. Also, any student who fraudulently or knowingly provides false information in an attempt to evade payment of out-of-state tuition will be charged out-of-state tuition for each term or semester attended and may be subject to dismissal from the institution.

For more information regarding in-state eligibility, contact the Domicile Appeals Administration in the Office of the University Registrar in Student Union Building I, Suite 2101; phone: 703-993-2464; e-mail: domicile@gmu.edu.

Tuition Surcharge: 125 Percent of Degree
Undergraduate students who have established Virginia domicile and eligibility for in-state tuition will be subject to a surcharge if they exceed 125 percent of the credits required to complete a degree. The surcharge will be determined by the State Council for Higher Education in Virginia.

The following courses and credit hours shall be excluded in calculating the 125 percent credit threshold: remedial courses; transfer credits from another college or university that do not meet degree requirements for Mason Core courses or the student's chosen program of study; advanced
placement or international baccalaureate credits that were obtained while in high school or another secondary school program; and dual enrollment, college-level credits obtained by the student prior to receiving a high school diploma.

**Expenses**

**Housing**

Housing and Residence Life  
Ground floor of Potomac Heights  
Phone: 703-993-2720 (General Housing Number)  
703-993-2796 (Main Office Housing Number)  
Web: housing.gmu.edu (http://housing.gmu.edu)

The university offers a variety of housing options to meet the diverse needs of students living on campus. Upper-class students may choose from suites, suites with kitchens, and townhouses. Most freshmen live in traditional-style residence hall rooms that accommodate two, three, and four students. Room rates are subject to approval on an annual basis by the Board of Visitors. Rates for the 2019–20 academic year should be available on or before May 1, 2019. Please refer to the Housing and Residence Life web site for rate information. All students in housing must provide a prepayment, which is credited back to the student in the fall. Housing assignments, including single rooms, are made on a priority and space-available basis. The web site provides extensive information about housing programs and services and includes floor plans for most student rooms.

Students living on campus are required to sign an academic year agreement. Releases from the agreement are generally granted only in cases of hardship and involve a financial penalty. For more information, contact Housing and Residence Life.

Living Learning Communities (LLCs) are collaborative partnerships between academic departments, individual Mason faculty, housing and residence life staff, and the division of University Life. For more information, please visit the housing website (https://housing.gmu.edu/llc).

**Mason Dining**

Mason Dining  
Southside Dining Hall, First Floor  
Phone: 703-993-3300  
Web: dining.gmu.edu (http://dining.gmu.edu)

Mason Dining is proud to serve the Mason community with over 36 restaurants, kiosks and carts among the Arlington, Fairfax, and Science and Technology campuses. Southside and Ike’s, located on the Fairfax campus, offers extensive menus with the highest quality ingredients and seasonal produce. Mason Dining is committed to nutrition, wellness, and sustainability.

**Meal Plans and Mason Money**

Meal Plan & Mason Money Office  
Student Union I, Room 1203  
Phone: 703-993-2870  
Web: mealplans.gmu.edu (http://mealplans.gmu.edu) or masonmoney.gmu.edu (http://masonmoney.gmu.edu)

Both resident meal plans and optional Patriot meal plans are available for students to purchase. These plans allow for tax-exempt dining and are billed to the student account. Most students living on campus are required to participate in the resident meal plan program. Meal plan policies and prices are available on the website (http://mealplans.gmu.edu).

Mason Money can be accessed with the Mason ID. It’s accepted at various venues on campus and also with participating merchants off campus. Funds can be deposited online (http://masonmoneyonline.gmu.edu), at any of the 9 Mason Money Stations located among three campuses, or the Mason Money office.

**Parking Services**

Fairfax Campus, Sandy Creek Parking Office  
Phone: 703-993-2710

Arlington Campus, 219 Founders Hall  
Phone: 703-993-8146

Science and Technology Campus, 112 Occoquan Building Office  
Phone: 703-993-4808  
Web: parking.gmu.edu (http://parking.gmu.edu)

Students who park their vehicles on university property must register them with Parking Services and pay a fee for a parking permit. Permits are available on an annual, semester, or summer basis. For permit sales, fine payments, special requests, or problems, go to any Parking Services Office. Most services are available on-line (http://parking.gmu.edu). The Fairfax Campus Sandy Creek Parking Office hours are 8:30 a.m. to 7 p.m. Monday through Thursday and 8:30 a.m. to 5 p.m. on Friday. See the website (http://parking.gmu.edu) for current information and rates.

**Financial Aid**

**Office of Student Financial Aid**

Student Union Building (SUB) I, First Floor  
Phone: 703-993-2353  
Fax: 703-993-2350  
Email: finaid@gmu.edu  
Website: financialaid.gmu.edu

The Office of Student Financial Aid provides a variety of services to help students finance their education; including, financial aid advising, exploring funding resources, and financial assistance. Student financial aid awards may consist of grants, scholarships, work-study, and loans. Awards are based primarily on financial need, although there are some alternative financial aid sources available for those who may not qualify for need-based financial assistance.

The Office has a comprehensive listing of various scholarship opportunities for students to research on the Office of Student Financial Aid’s website. Students are encouraged to review the scholarship information often due to the listings being updated continuously and apply early in order to meet deadlines.

The Office is open 9:00 a.m. to 5:00 p.m., Monday through Friday. Financial Aid Counselors are available daily by phone, e-mail or personal appointment. Students can view the list of Counselors on the Office’s website.
Each year, to apply for financial aid, both new and currently enrolled students must complete a Free Application for Federal Student Aid (FAFSA). George Mason University’s Federal Title IV school code for the FAFSA is 003749. Priority consideration for all sources of financial aid is given to those students whose financial aid applications and all required verification documents are on file with the Office of Student Financial Aid by January 15. To meet this priority filing date, students should file the FAFSA as soon as possible after October 1st of the previous year (e.g. October 2018 for the 19-20 academic year). The FAFSA is filed online (http://www.fafsa.gov).

Financial aid for summer is generally limited to students who have remaining Federal Loan eligibility for the year, or who are eligible for Federal Pell Grant. Summer is considered a "trailer" term at the university. Contact the Office of Student Financial Aid for specifics regarding eligibility.

Financial Aid Programs

The University administers the following federal, state, and other aid programs:

Federal Programs

These include the Federal Pell Grant, Federal Supplemental Educational Opportunity Grant (FSEOG), Federal Work-Study (FWS), Federal Subsidized Direct Loans, Federal Unsubsidized Direct Loans, Federal PLUS Loans for parents of dependent students (DPLUS) and Federal Grad PLUS Loans for Graduate students (DGPLUS). For more information, go to the Office of Student Financial Aid home page (http://financialaid.gmu.edu).

State Financial Aid Programs for Undergraduate Virginia Residents

Eligibility for all state programs is determined based on the student's FAFSA and financial need. State grant funds are limited, so adherence to the January 15 priority filing date is critical.

Virginia Commonwealth Award

This program is open to undergraduate students who have demonstrated financial need, are enrolled at least half-time, and are domiciliary residents of Virginia.

Virginia Guaranteed Assistance Program (VGAP)

This program is a component of the Virginia Commonwealth Award Program that is open to students who have demonstrated academic achievement in high school and have graduated from a Virginia high school. VGAP awards are renewable for up to four years. Students must advance a grade level before receiving a subsequent VGAP award. Students must be enrolled full-time to receive VGAP.

Graduate Student Assistance

Assistantships, fellowships, and scholarships exclusive of the federal financial aid programs identified earlier are administered by the individual graduate programs. Students interested in pursuing graduate assistantships, fellowships, or scholarships should contact their graduate program directly.

All financial aid recipients are responsible for becoming familiar and complying with applicable federal and state regulations, and university policies.

All students receiving financial aid must be enrolled in an eligible degree or certificate program; maintain satisfactory academic progress (SAP) as defined by the Office of Student Financial Aid in accordance with federal guidelines (see below); be a U.S. citizen or eligible non-citizen as defined by the U.S. Department of Education and all male students must be registered with Selective Service.

Satisfactory Academic Progress (SAP) Standards

Federal legislation governing the administration of federal programs requires colleges and universities to define and enforce standards of academic progress for students receiving or applying for financial aid. To comply with this legislation, the Office of Student Financial Aid has established a formal satisfactory academic progress policy. For detailed information, go to the Office of Student Financial Aid home page (http://financialaid.gmu.edu) or contact the Office of Student Financial Aid directly.

Return of Title IV Funds

The Office of Student Financial Aid is required by federal law to re-calculate federal financial aid eligibility for students who completely withdraw from all classes, drop out, are dismissed, or take a leave of absence prior to completing a payment period or term. According to the regulations, the amount of Federal Title IV awarded to a student must be re-calculated in these situations and any portion of the financial aid received that is considered to be "unearned" must be returned to the Title IV Program(s) from which it was received. Any student considering dropping or withdrawing from all courses, should contact their assigned Financial Aid Counselor immediately regarding possible adjustments to their financial aid.

Emergency Loan Programs

George Mason University has established an emergency loan account funded by the Gerson Trust.

This emergency loan is designed for enrolled students that encounter unexpected emergencies and is not meant to pay for tuition and fees. This is a short-term, interest free loan and students may borrow up to $1000. Repayment is due in 90 days. Applications may be obtained from the Office of Student Financial Aid.

Certificate Programs that Qualify for Financial Aid (Gainful Employment)

For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit the University’s disclosure information website (https://ir2.gmu.edu/gedt).

The qualifying certificate programs include:

- Accounting Undergraduate Certificate (p. 896)
- Advanced Biomedical Sciences Graduate Certificate (p. 618)
- Applied Behavior Analysis Graduate Certificate (p. 163)
- Autism Spectrum Disorders Graduate Certificate (p. 164)
- Business Analytics Graduate Certificate (p. 900)
- College Teaching Graduate Certificate (p. 540)
- Early Childhood Education PK-3 Concentration within the Curriculum and Instruction Graduate Certificate (p. 187)
- Early Childhood Special Education Concentration within the Special Education Graduate Certificate (p. 218)
• Forensics Graduate Certificate (p. 780)
• Geospatial Intelligence Graduate Certificate (p. 739)
• Higher Education Administration Graduate Certificate (p. 540)
• Nutrition Graduate Certificate (p. 273)
• Secondary Education Licensure Concentration within the Curriculum and Instruction Graduate Certificate (p. 187)
• Adapted Curriculum Concentration within the Special Education Graduate Certificate (p. 218)
• General Curriculum Concentration within the Special Education Graduate Certificate (p. 218)
• Teaching English as a Second Language Graduate Certificate (p. 390)
Distance Education

Distance or online education provides students with the opportunity to take the same classes offered on campus through different delivery methods. Any currently enrolled Mason student can take an online course. There is no separate application process. Registration and financial aid work in the same way for online and face-to-face courses.

Many distance education courses may be completed at home, while stationed abroad, or when traveling. For students who work, intern, commute, or even live on campus, online courses offer an active and collaborative learning environment while allowing for greater scheduling flexibility.

Online Courses

Hundreds of undergraduate and graduate courses are offered online each semester, including summer. Classes are delivered as fully (100%) online or hybrid online (51-99% of scheduled class time is online). Course interactions can take place synchronously (same time, different locations) or asynchronously (different times, different locations).

Mason Core: For undergraduate students, Mason offers online course options for most Mason Core requirements [excluding ENGH 100 Composition for Multilingual Writers (Mason Core) (p. 142) and Synthesis/Capstone]. Offerings vary by semester. Contact your advisor each semester to plan your course schedule.

For a full list of online courses, see the website (http://masononline.gmu.edu/programs-courses/courses).

Online Programs

Mason currently offers over 50 fully online or hybrid programs, including bachelor’s degrees, master’s degrees, graduate certificates, and undergraduate certificates and minors.

For a full list of online programs, visit the website. (http://masononline.gmu.edu/programs-courses/all-programs)
INTERNATIONAL PROGRAMS AND RESOURCES

Global Education Office
Johnson Center, Room 235
Phone: 703-993-2154
Fax: 703-993-2153
Web: http://www.gmu.edu/depts/cge/
E-mail: GoAbroad@gmu.edu

Administration
Brian Gibson, Director

The Global Education Office offers students the opportunity to develop critical and creative skills and challenge their assumptions about themselves and other cultures in an educational environment by offering study abroad programs of varying lengths, academic emphases, and locations. Through study abroad, students discover new cultures, sharpen language skills, and travel while earning credit. Study options include faculty-led, short-term courses and intensive language programs; semester and year-long Mason-sponsored programs; and international internship programs. Most programs are open to Mason undergraduate and graduate students and short-term programs are also open to faculty, staff, and the general public.

The Global Education Office also offers a wealth of resources to help students create a personalized international educational experience, including general advising sessions about study abroad and internship options; one-on-one student advising; transfer of approved international program credits; a resource library of travel books; international and diplomatic community programming, and advising to international students from partner schools.

Administration
Dr. Robert Matz, Campus Dean
Dr. John Crist, Associate Dean, Academic Affairs
Gbemi Disu, Chief Business Officer
Yorgun Marcel, Associate Dean, Student Affairs
Kelley E. Chung, Director, Admissions and Enrollment

To enhance Mason’s global presence and increase accessibility to its academic programs, the university offers opportunities in Songdo, South Korea on the Incheon Global Campus.

George Mason University Korea (Mason Korea), which opened in March 2014, offers bachelor degree programs in economics, global affairs, computer game design, conflict analysis & resolution, management, finance and accounting. At the graduate level, Mason Korea offers the Masters of Education in Curriculum and Instruction specialization in IB/ESOL. Academic program requirements and standards are identical with those on the US campuses. Students based Mason Korea travel to the Fairfax campus for their 6th and 7th semesters. Opportunities for US-based students to study at Mason Korea are in place.

Office of International Programs and Services
Student Union I, Suite 4300
Phone: 703-993-2970
Fax: 703-993-2966
Web: oips.gmu.edu (http://oips.gmu.edu)

Administration
Judith A. vanBever-Green, MEd, Executive Director

The Office of International Programs and Services (OIPS) provides services on both regulatory and cultural topics. Staff members provide regulatory information related to non-immigrant status and have been designated by the university to issue and sign immigration documents and paperwork on behalf of the institution. OIPS advisors are available at scheduled walk-in times and by appointment to discuss any concern and to provide practical assistance to students and scholars as they adjust to U.S. culture. OIPS conducts a comprehensive orientation program for new international students and offers social and cultural programming throughout the fall and spring semesters. Most notably, the staff and student volunteers work to internationalize campus life for all members of the Mason community through programs and outreach designed to connect people from different global cultures with one another for meaningful dialogue and cultural learning.

INTO George Mason University and the Mason Global Center
Mason Global Center

Fax: 703-993-4502
E-mail: INTOmason@gmu.edu (INTO@gmu.edu)

Building on a thirty-two year tradition of excellence in English language and language-supported education at Mason, the INTO George Mason University joint venture was established in 2014. This venture marks the fifth INTO University Partnership in the United States.

Located in the new Mason Global Center, Mason offers academic International Year One, Pathways and English language development programs (p. 130) administered by the Academic Division of the INTO Mason joint venture. Personalized support tailored to international students’ educational, social and cultural needs prepares them to progress with confidence as degree-seeking students. INTO Mason provides international students with learning experiences and services that promote academic, professional and personal success. International Year One and Pathways programs are available to students interested in studying in a wide range of degree programs at both the graduate and undergraduate levels. An Academic English program is available to students looking to develop their language proficiency on a short term basis or as they complete the application process for a pathway or direct admission. All of the innovative International Year One, Pathways and English language programs (p. 130) offered at INTO Mason are delivered by highly qualified university faculty.

Administration
• Todd Rose, Ph.D., Executive Director
• Nicole Harris-Sealey, Ph.D., Academic Director

INTO George Mason University and the Mason Global Center
Our Mission
As an integral member of the George Mason University Community, INTO Mason creates vibrant experiences for international students through transformational learning opportunities tailored to meet specific linguistic, academic and cultural needs.

Overview
Located in the Mason Global Center, INTO Mason supports the outstanding academic programs offered by the university with
• a welcoming, interconnected community of students from across the U.S. and the world;
• strong student support programs; and
• state-of-the-art facilities with technology-assisted learning.

The innovative International Year One, Pathways and Academic English language programs offered at the Center are delivered by highly qualified Mason teaching faculty. INTO Mason also provides a breadth of academic preparation and support services designed specifically to meet the unique needs of its international students.

Academic Programs, Services & Administration
George Mason University offers academic International Year One and Pathways programs at the Fairfax, Arlington, and Songdo campuses as well as English Language programs based in Fairfax. All programs are administered through the Academic Division of INTO Mason, which functions as the academic department for English Language studies and services university-wide—reporting directly to the University Provost through the Academic Innovations and New Ventures unit.

Academic Programs
There are three standing academic programs administered through the Academic Division of the INTO Mason joint venture:
• Undergraduate International Year One Program (p. 131)
• Graduate International Pathways Program (p. 136)
• Academic English Program (p. 139)

Each program has a specific curriculum and guidelines as indicated in the special sections for each program in the catalog.

Academic Advising and Services
Personalized support tailored to international students’ educational, social, and cultural needs prepares them to progress with confidence as degree-seeking students. Programs operating through INTO Mason at the US-based campuses, also provide international students with learning experiences and services that promote academic, professional, and personal success.

Academic Administration
• Karyn E. Kessler, Ph.D., Academic Director (Interim)
• Bonnie Sylwester, Ph.D., Assistant Director, Academic Initiatives and Assessment
• James Jones, Assistant Director, Advising & Academic Services
• Benjamin Elwood, Program Manager, Academic English
• Christina Brady, Program Manager, Undergraduate International Year One
• Steven Harris-Scott, Ph.D., Program Manager, Graduate International Pathways
• Kathy Rossell, Learning Resource Center Coordinator

Faculty
Highly qualified, full-time, George Mason University faculty regularly teach in the International Year One, Pathways and English Language Programs.

English Language Faculty
Term Assistant Professors: Kessler, Karyn; Moore, Patrick and Sanchez, Deborah
Term Instructors: Bobal, Christine; Brady, Christina; Driscoll, David; Dunaway, Sean; Elwood, Benjamin; Espino, Maggie; Harries, Emma; Hoyle, Stephen; Kim, Esther; Kirsch, Jane; Kohn, Ellen; Kozumplik, Thomas; Lilley, Timothy; McCamish, Troy; Miller, Laura; Musfeldt, Scott; Namubiru, Esther; Paez, Bonny; Pugh, John; Richardson, Mary; Rottenberg, Lori; Simmons, Noele; Skipper, Katherine; Smith, Michael and Steadman, Sarah.

Humanities Faculty
Term Assistant Professors: Harris-Scott, Steven; Harris-Sealey, Nicole; Lewis, Amy; Rose, Todd and Weinstein, Aimee.
Term Instructors: Graham, Robert; Jones, James; and McLagan, Kirsten.
Affiliated Faculty: Coleson, Michael (Mathematics); Doestch-Kidder, Sharon (English); Habib, Anna (English); Mack, M Reese (English); Mills, Mallory; Moteabed, Shora (Business) and Savage, James (English).

Center Facilities & Administration
Facilities
All Undergraduate International Year One students and many Academic English students may live in the Mason Global Center for their first year. The Mason Global Center opened in August 2014 and is the primary home for INTO George Mason University. This community connects domestic and international students for academic, language, cultural, and social exchange. The building includes residential accommodations for up to 270 international and domestic students; 17 classrooms; 100+ computers; wireless Internet throughout the center; a learning resource center with study materials, books, DVDs, and periodicals; a dining facility; lounge areas for meetings and study groups; and open spaces for socializing.

Administration
students who:

- Desire to study for an undergraduate degree in the U.S.
- Need to improve their English language skills
- May have slightly lower GPAs than required of direct-entry students
- Desire additional academic, language, and cultural support in order to succeed during their first year at a U.S. university
- Any or all of the above

Administered through INTO Mason (p. 130) in partnership with the academic units across the university, the courses in the various Undergraduate International Year One programs are taught by highly qualified Mason instructional faculty members and supported by International Year One academic advisors.

Students enrolled in any Undergraduate International Year One program should review the program's student guidebook for specific details related to program requirements and expectations.

Admission

Admission to the Undergraduate International Year One (IYO) Program is offered to international and multilingual students by two methods:

- Students may apply directly through the INTO Mason admissions process OR
- By referral from the University Admissions Office due to not having met the grade point average, English language proficiency, or other requirements for direct admission.

The Undergraduate International Year One Program entry requirements are as follows:

- High school diploma
- 2.5 minimum high school GPA equivalent based on the applicant's country/institutional scale
- Documentation demonstrating the minimum English language proficiency levels:
  - One Term (Accelerated) International Year One Program:
    - TOEFL iBT 80 (17 minimum subscores in reading and writing)
    - IELTS 6.5 (6.0 minimum subscores in reading and writing)
    - PTE Academic 53
    - Successful completion of or waiver from Academic English Level 5
  - Two Term (Standard) International Year One Program:
    - TOEFL iBT 60 (13 minimum subscores in reading and listening)
    - IELTS 5.5 (5.5 minimum subscores in reading and listening)
    - PTE Academic 45
    - Successful completion of or waiver from Academic English Level 4
  - Three Term (Comprehensive) International Year One Program:
    - TOEFL iBT 50 (10 subscores)
    - IELTS 5.0 (4.5 subscores)
    - PTE Academic 41
    - Successful completion of or waiver from Academic English Level 3

Students should review the specific requirements by International Year One Program online (http://www.intostudy.com/mason) for details.
Progression into Degree Status
Each International Year One (IYO) program has specific progression requirements for completion. These typically include a minimum grade point average and minimum individual course grades (no grades of W, NC, or I are permitted). Students should refer to the website (http://www.intostudy.com/en-gb/universities/george-mason-university) for specific IYO program requirements. Students admitted to the university through an Undergraduate IYO program are required to complete all program requirements in order to maintain continuous enrollment.

Dismissal/Termination Appeals Process for INTO Mason Students
Students who do not meet all requirements for matriculation to their desired degree program at the end of their final term will be reviewed for termination from their Undergraduate International Year One program. Terminated students may initiate one of the following an academic action requests in writing:

1. request an exception to the program policy,
2. request to change to an alternate International Year One program, and/or
3. request an extension to continue studying as an Undergraduate International Year One Extender student for one additional term.

All terminated student academic action requests must be submitted in writing to the academic advising staff located in the Mason Global Center within 14 days of notification. Requests should provide an explanation and supplementary documentation. Students who earn two unsatisfactory grades of C or lower will be ineligible to continue as an Extender. Students who fail to meet the program requirements after an extension will be reviewed for dismissal from the university.

Decisions on these requests are reviewed and approved at the discretion of the Academic Director. In some cases, additional reviews by the Associate Provost for Undergraduate Education or Academic Initiatives and Services may be required.

Reenrollment and Readmission
Due to the nature of the Undergraduate International Year One Program as both English language development and academic coursework, students are subject to a limited reenrollment policy. Students who do not enroll after the first term or withdraw for reasons other than poor academic performance may request to reenroll in an International Year One program the following term (e.g., spring) to continue making progress toward meeting program requirements, with advance permission from the Academic Director. Students who do not enroll for two consecutive terms (e.g., spring and fall) must apply for readmission to the program and be re-assessed for language proficiency. Summer terms are counted for students whose initial enrollment begins in Spring semester.

Available Year One Programs & Majors
There are five Undergraduate International Year One programs available:

- Business, leading to 5 undergraduate majors in the School of Business
- Engineering, Computing & Statistics, leading to 10 undergraduate majors in the Volgenau School of Engineering
- Humanities and Social Sciences, leading to 21 undergraduate majors in the College of Humanities and Social Sciences and the College of Visual and Performing Art’s School of Music
- Human and Social Development, leading to 7 undergraduate majors in the College Health and Human Services, the College of Education and Human Development’s School of Recreation and Tourism, and the School of Conflict Analysis and Resolution
- Science, leading to 13 undergraduate majors in the College of Science

Each program allows students to progress to preapproved undergraduate degree programs. For a full listing of specific academic programs associated with a specific International Year One Program, students should refer to the website (http://www.intostudy.com/mason) for specific requirements.

### Graduate International Pathways

The Graduate International Pathways are pre-master’s programs that provide international students paths to various graduate degrees at George Mason University. The pathways give students the academic foundation, essential language skills, and cultural knowledge to successfully move on to their master’s degree programs. There are one and two term options available for most pathways. For most students, enrolling in a Graduate International Pathway will add one or two additional semesters to their overall master’s degree program.

There are currently 49 Graduate International Pathways available to graduate students. Each pathway allows students to progress to pre-approved graduate degree programs at GMU. The pathways are administered in partnership with the following nine Schools and Colleges at George Mason University. For more information on the specific pathways to degrees in each School or College, click on the links below:

- INTO Mason: Engineering Graduate Pathways
- INTO Mason: Humanities and Social Sciences Graduate Pathways
- INTO Mason: Education and Human Development Graduate Pathways (http://catalog.gmu.edu/international-programs-resources/into-mason/education-human-development-graduate-pathways)
- INTO Mason: Health and Human Services Graduate Pathways (http://catalog.gmu.edu/international-programs-resources/into-mason/health-human-services-graduate-pathways)
- INTO Mason: College of Science Graduate Pathways (http://catalog.gmu.edu/international-programs-resources/into-mason/science-graduate-pathways)
Graduate International Pathways are designed for international students who:

• Need further English language development
• Require a fourth year of undergraduate study
• Fall short of meeting the minimum GPA or admission test score requirements
• Need to improve study skills for success in their chosen field of study
• Any or all of the above

Administered through INTO Mason (p. 130) in partnership with the academic units across the university, the courses in each Graduate International Pathway are taught by highly qualified Mason instructional faculty members and supported by International Pathways academic advisors.

Admission

Admission to Graduate International Pathways are offered to international and multilingual students by two methods:

• Students may apply directly through the INTO Mason admissions process OR
• By referral from graduate admissions due to not having met the grade point average, English language proficiency, or other requirements for direct admission (cascade).

The minimum documentation required for admission include: application, mark sheets/transcripts (in English and the original language), degree certificates (in English and the original language) and other required items as stated in the program catalog supplement.

Graduate International Pathway entry requirements are usually as follows:

• An undergraduate degree equivalent to a U.S. bachelor’s degree in a relevant field as specified by the particular International Pathways program;
• 2.75 minimum high school GPA equivalent based on the applicant’s country/institutional scale; and
• Documentation demonstrating the minimum English proficiency levels as specified by the particular pathway. The general minimum scores are as follows:
  • One Term (Accelerated) and Bridge International Pathways:
    • TOEFL iBT 75 – 85 (variable minimum subscores required for all but Engineering pathways)
    • IELTS 6.0 – 6.5 (variable minimum subscores required for all but Engineering pathways)
    • PTE Academic 52 – 58
  • Successful completion of or waiver from Academic English Level 6
  • Two Term (Standard) International Pathways:
    • TOEFL iBT 65 - 75 (variable minimum subscores required for all but Engineering pathways)
    • IELTS 5.5 - 6.5 (variable minimum subscores required for all but Engineering pathways)
    • PTE Academic 44 - 52
    • Successful completion of or waiver from Academic English Level 5
  • Three Term (Comprehensive) International Pathway in Accounting:
    • TOEFL iBT 60 (13 minimum subscores)
    • IELTS 5.5 (5.5 minimum subscores)
    • PTE Academic 45
    • Successful completion of or waiver from Academic English Level 4

Students who hold three year baccalaureate degrees may be eligible for select Graduate International Pathways Bridge programs. Students should review the specific requirements for each pathway at the INTO Study website (http://www.intostudy.com/en-gb/universities/george-mason-university).

Curriculum

Prescribed courses for the Graduate International Pathways programs include approximately 11 - 13 credits for One-Term pathways and 20 - 24 credits for Two-Term pathways. The intent of these courses is to prepare students for the demands of the Mason graduate curriculum. Further, the prescribed courses may include up to 12 credits of coursework toward the student’s graduate degree during their International Pathways term(s) of study.

One Term (Accelerated) pathways include the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EAP 508</td>
<td>Graduate Communication in the Disciplines III</td>
<td>4</td>
</tr>
<tr>
<td>INYO 504</td>
<td>Accelerated Graduate Transitions for International Students</td>
<td>3</td>
</tr>
<tr>
<td>EAP 098 or EAP 099</td>
<td>Individualized Language Instruction</td>
<td>0</td>
</tr>
</tbody>
</table>

In addition to the core coursework listed above, students will also take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Appropriate coursework toward graduate program</td>
<td>3-6</td>
</tr>
</tbody>
</table>

Students whose graduate degree program requires the GRE prior to completing their pathway will also be required to take:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>INYO 095</td>
<td>Quantitative Preparation for the Graduate Record Examination</td>
</tr>
<tr>
<td>INYO 096</td>
<td>Verbal and Quantitative Preparation for the Graduate Record Examination</td>
</tr>
</tbody>
</table>
INYO 097 Verbal, Quantitative, and Academic Writing Preparation for the Graduate Record Examination

EAP 097 Verbal Preparation for the Graduate Record Examination

**Two Term (Standard) pathways include the following courses:**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INYO 501</td>
<td>Graduate Transitions for International Students I</td>
<td>2</td>

<tbody>
<tr>
<td></td>
<td>Preparation for the Graduate Record Examination</td>
<td></td>
</tr>
</tbody>
</table>

Upon successful completion of the first term, students will follow the Two Term (Standard) Accounting pathway curriculum during their second and third terms of study.

**Progression into Degree Status**

Each Graduate International Pathway has specific progression requirements for completion. These typically include a minimum grade point average and minimum individual course grades (no grades of NC or I are permitted). Students should refer to the INTO Study website (http://www.intostudy.com/en-gb/universities/george-mason-university) for specific requirements. Students admitted to the university through a Graduate International Pathway program are required to complete all program requirements in order to maintain continuous enrollment.

**Dismissal/Termination Appeals Process for INTO Mason Students**

Students who do not meet all requirements for matriculation to their desired degree program at the end of their final term will be reviewed for termination from their Graduate International Pathway. Terminated students may initiate one of the following an academic action requests in writing:

1. request an exception to the program policy,
2. request to change to an alternate Graduate International Pathway, and/or
3. request an extension to continue studying as a Graduate International Pathways Extender student for one additional term.

All terminated student academic action requests must be submitted in writing to the academic advising staff located in the Mason Global Center within 14 days of notification. Requests should provide an explanation and supplementary documentation. Students who earn two unsatisfactory grades of C or lower will be ineligible to continue as an Extender. Students who fail to meet the program requirements after an extension will be reviewed for dismissal from the university.

Decisions on these requests are reviewed and approved at the discretion of the Academic Director. In some cases, additional reviews by the Associate Provost for Graduate Education or from a College Dean may also be required.

**Re-enrollment and Re-admission**

Due to the nature of the Graduate International Pathways as both English language development and academic coursework, students are subject to a limited re-enrollment policy. Students who do not enroll after the first term or withdraw for reasons other than poor academic performance may request to re-enroll in a Graduate International Pathway program the following term (e.g., spring) to continue making progress toward meeting program requirements, with advance permission from the Academic Director. Students who do not enroll for two consecutive terms (e.g., spring and fall) must apply for readmission to the program and be re-assessed for language proficiency. Summer terms are counted for students whose initial enrollment begins in Spring semester.
Academic English Program

Administered by INTO George Mason University’s English Language Programs, the Academic English (AE) Program prepares international students for university study in the United States. AE is a non-credit program designed to develop the English skills needed for successful communication, cultural integration, and participation in the academic environment of the university.

Admission

Students who apply to the AE Program must submit an application, application fee, and required documents through INTO Mason. In order to qualify for admission to the AE Program, students must demonstrate that they have earned at least a high school diploma.

Students have the option to apply for the AE or an International Year One (IYO) Program. Students who apply to an International Year One Program but do not demonstrate entry language requirements are given an individual pre-arrival study plan that provides an estimate of the number of Academic English terms to complete in order to fulfill International Year One entry requirements (AE + IYO). This pre-arrival study plan is only an estimate; an updated post-arrival study plan with a minimum of one term of AE will be provided to AE + IYO students after taking the INTO Mason Placement Test.

For more information about International Year One admission requirements, see Undergraduate International Year One Program (p. 131) or Graduate International Year One Program (p. 136).

Program Outcomes

After successfully completing the upper level(s) of the Academic English program, students will be able to do the following:

- Interact comfortably in the U.S. classroom with professors and fellow students
- Understand U.S. values in an academic setting
- Present their spoken and written ideas accurately and effectively in English
- Write research papers with proper use of citations and references
- Use the Internet and Mason library databases to conduct academic research
- Read, understand, and critically evaluate academic texts
- Understand and use vocabulary common to academic disciplines
- Take useful and accurate notes in academic lectures and presentations
- Develop and deliver oral presentations

Program Structure

The Academic English Program is offered three terms per year: Fall (15 weeks of instruction), Spring (15 weeks of instruction), and Summer (10 weeks of instruction). Upon arrival, all Academic English students are given a language proficiency assessment to determine their AE level placement. In order to be eligible for full-time status, students must be enrolled in a minimum of 18 hours of non-credit AE coursework per week. AE courses are offered at eight levels of proficiency regularly throughout the year.

AE faculty are highly qualified with significant teaching experience and master’s and doctoral degrees in TESOL or related fields. The program is also supported by academic advisors experienced in working with multilingual speakers of English and the Student Experience staff, who help students utilize university resources and engage in the Mason experience through opportunities to participate in campus and local community groups/programs.

Curriculum

In keeping with the current literature on second language acquisition and pedagogy, the Academic English curriculum is aligned with the Common European Framework of Reference scales (CEFR), American Council on The Teaching of Foreign Languages (ACTFL) Proficiency Guidelines 2012, and the Pearson Global Scale of English (GSE) Learning Objectives for Academic English. Curricular objectives and learning outcomes for each of the eight AE levels are geared toward an exit goal that is one level higher than the entrance level.

Grading System for Academic English

Throughout the semester, students are assessed on how well they have met curricular learning outcomes. Midterm and final grades for all Academic English courses are submitted to the University as letter grades.

<table>

</table>

Grading Scale:
- A+: 97-100
- A: 93-96
- A-: 90-92
- B+: 87-89
- B: 83-86
- B-: 80-82
- C+: 77-79
- C: 73-76
- C-: 70-72
- D: 67-69
- F: 0-66
Grade point average (GPA) is an important factor in determining program-to-program progression and evaluating academic standing.

### In-Program Level Progression

In Core and OCS courses, students must receive a final grade of at least 80% in order to advance to the next level of Core/OCS. If a student has performed exceptionally well in Core/OCS, the instructor may submit an AE Level Skip Form requesting that the student skip a Core/OCS level in the subsequent semester.

### Program-to-Program Progression

In order for an AE + Year One student to progress to his/her planned Year One program, the student must earn for the most current AE semester a 2.5 or higher term GPA and a final passing grade (A+, A, A-, B+, B, or B-) of specified levels of Core and OCS. AE-only students must meet the same language requirements for progression and submit other documentation as required by the prospective Year One program.

AE students applying for direct admission to George Mason University must earn a passing final grade (A+, A, A-, B+, B, or B-) in specified levels of Core and OCS to meet entry language proficiency requirements.

#### AE Language Requirements for INTO Mason International Year One programs and Mason Direct Admission

<table>
<thead>
<tr>
<th>Program</th>

<td>Passing Grade in AE 040: Level 4 Core</td>
<td>Passing Grade in AE 041: Level 4 OCS</td>
<td>AE Term GPA ≥ 2.5</td>
</tr>
<tr>
<td>Graduate International Year One (Two Term/ Standard)</td>
<td>Passing Grade in AE 050: Level 5 Core</td>
<td>Passing Grade in AE 051: Level 5 OCS</td>
<td>AE Term GPA ≥ 2.5</td>
</tr>
</tbody>
</table>

* Information in the chart above only shows program eligibility based on language proficiency requirements met.

Academic English students may not level skip directly into an International Year One (IYO) program or direct admission the following semester. Even if a student is approved to skip into an Academic English level beyond what is required for the desired IYO program or direct admission, the student must complete the subsequent semester in the AE Program first. Students also have the option of submitting official TOEFL/IELTS/PTE Academic scores to George Mason University in lieu of meeting the AE program-to-program progression requirements, but must still maintain good standing in the AE Program.

#### Attendance and Academic Probation

In order to make progress in developing academic language skills, students are expected to attend classes regularly and remain in good academic standing.

### Attendance

Students with excessive absences in a course (more than 15%) will automatically receive an NG as a final course grade:

<table>
<thead>
<tr>
<th>Term</th>
<th>Meetings/Wk</th>
<th>Course</th>
<th>Absence</th>
<th>Course Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fall, Spring</td>
<td>5x</td>
<td>Core</td>
<td>11 or more</td>
<td>NG</td>
</tr>
<tr>
<td>Fall, Spring</td>
<td>3x</td>
<td>OCS</td>
<td>7 or more</td>
<td>NG</td>
</tr>
<tr>
<td>Fall, Spring</td>
<td>2x</td>
<td>Elective</td>
<td>5 or more</td>
<td>NG</td>
</tr>
<tr>
<td>Summer</td>
<td>5x</td>
<td>Core</td>
<td>8 or more</td>
<td>NG</td>
</tr>
<tr>
<td>Summer</td>
<td>4x</td>
<td>OCS</td>
<td>8 or more</td>
<td>NG</td>
</tr>
</tbody>
</table>

A final grade of NG in an AE course will result in probation and/or termination from the AE Program and George Mason University.

A student receives a final grade of NG for excessive absences in any course. The student receives an e-mail and hand-delivered letter from INTO Mason Academic Services stating that s/he is on Attendance Probation for the next semester. Before being permitted to register for AE classes, the student must meet with an INTO Mason Academic Advisor and sign an Attendance Probation contract. Students who refuse the contract or who violate the conditions of the contract will be dismissed immediately. Students who follow the terms of the contract and complete a successful semester will be removed from Academic Probation and considered in good standing.
A student on probation receives an NG for excessive absences in any course. The student is terminated from the AE Program and George Mason University.

**Academic Progress**

Students are expected to make satisfactory progress in developing their language skills and may not attempt the same Core or OCS course more than three times. Academic progress is determined primarily through term GPA. Students whose GPAs fall below 2.5 will be given a warning, placed on probation, and/or terminated from the AE Program and George Mason University:

- A student earns a term GPA below 2.5. INTO Mason Academic Services e-mails the student that s/he is on Academic Warning for the next semester.
- A student on Academic Warning earns a term GPA below 2.5. The student receives an e-mail and hand-delivered letter from INTO Mason Advising & Academic Services stating that s/he is on Academic Probation for the next semester. Before being permitted to register for AE classes, the student must meet with their assigned academic advisor and sign an Academic Probation contract. Students who refuse the contract or who violate the conditions of the contract will be dismissed immediately. Students who follow the terms of the contract and complete a successful semester will be removed from Academic Probation and considered in good standing.
- A student on Academic Probation earns a term GPA below 2.5. The student is terminated from the AE Program and George Mason University.

**Termination Appeals Process for INTO Mason Students**

All termination appeals must be submitted in writing to the INTO Mason Academic Services office located in the Mason Global Center within 14 days of notification. Requests should provide an explanation and supplementary documentation. Students who fail to meet the program requirements after an additional semester will be reviewed for termination from the university.

Decisions on these requests are reviewed and approved at the discretion of the Academic Director. In some cases, additional reviews by the Associate Provost for Academic Initiatives and Services may also be required.

**Reenrollment and Readmission**

Academic English students who do not enroll after the first term or withdraw for reasons other than poor academic performance (e.g., spring and fall) must apply for readmission to the program and be reassessed for language proficiency upon return.
**The Mason Core at Mason Overview**

The Mason Graduate is an Engaged Citizen and Well-Rounded Scholar who is Prepared to Act. The Mason Core is Mason’s general education program that builds the foundation for The Mason Graduate. All undergraduates seeking a baccalaureate degree must complete Mason Core requirements. The Mason Core provides a breadth of liberal education courses, complementing the depth of knowledge and skills they build in their majors and minors. Additional requirements for specific degree programs can be found in the college or school sections of this catalog.

The Mason Core prepares students for work in their majors and minors, for their careers, and for life-long learning. Foundation courses build key knowledge and skills needed for academic success. Exploration courses provide a breadth of learning across the university. Integration courses include upper-division courses that are designed to integrate knowledge and skills learned from Foundation and Exploration courses into the major. Courses are designed around learning outcomes that help develop the qualities we expect of all students graduating with a Bachelor’s degree from George Mason University.

The Mason Core: Engagement Series (ENCORE) provides an optional pathway for students interested in combining academic coursework with co-curricular activities towards a completion certificate in Sustainability or Well-Being.

All undergraduates seeking a baccalaureate degree must complete Mason Core requirements. Additional requirements for specific degree programs can be found in the college or school sections of this catalog.

**Synopsis of Requirements**

The Mason Core is divided into three sections: foundation, exploration, and integration. Each section contains courses that have specific learning outcomes for students and are assessed on a regular basis.

### Foundation Requirements (12 credits)

Foundation requirements help ensure that students master the tools and techniques necessary to succeed in college and throughout their lives and careers. These courses emphasize skills—in writing, speaking, and working with numbers and technology—that can be applied to any major field of study and career goal.

**Total Credits:** 40

**Note:** The course list reflects approved courses as of press time. Please visit the Mason Core website [http://masoncore.gmu.edu/general-education-at-mason-2](http://masoncore.gmu.edu/general-education-at-mason-2) for the most recent list of courses as the listed is updated throughout the academic year.

### Written Communication (3 credits, lower-level)

**Learning Outcomes:**

Students develop the ability to use written communication as a means of discovering and expressing ideas and meanings: in short, employing writing as a way of thinking. Students begin this process at the Foundation level in English 101 (100 for ESL students) and build higher-level skills at the Integration level in English 302. Writing will be emphasized in many courses throughout a student’s career, and at least one course in every student’s major is designated “writing intensive” (Integration level).

**Required:**

The following courses as well as an approved writing-intensive course in the major.

<table>

**Oral Communication (3 credits)**

**Learning Outcomes:**

1. Students will demonstrate understanding of and proficiency in constructing and delivering multiple message types.
2. Students will understand and practice effective elements of ethical verbal and nonverbal communication.
3. Students will develop analytical skills and critical listening skills.
4. Students will understand the influence of culture in communication and will know how to cope with cultural differences when presenting information to an audience. Students develop the ability to use oral communication as a way of thinking and learning, as well as sharing ideas.
Required:
One approved course. Students will be expected to continue developing oral communication skills in additional Mason Core courses as appropriate.

Quantitative Reasoning (3 credits)

Learning Outcomes:
1. Students are able to interpret quantitative information (i.e., formulas, graphs, tables, models, and schematics) and draw inferences from them.
2. Given a quantitative problem, students are able to formulate the problem quantitatively and use appropriate arithmetical, algebraic, and/or statistical methods to solve the problem.
3. Students are able to evaluate logical arguments using quantitative reasoning.
4. Students are able to communicate and present quantitative results effectively.

Required:
One approved course.

Information Technology and Computing (3 credits)

Learning Outcomes:
Information technology and computing can significantly augment humans’ ability to produce, consume, process, and communicate information. Thus, students need to understand ways to use such technology to enhance their lives, careers, and society, while being mindful of challenges such as security, source reliability, automation, and ethical implications. These factors have made it essential for students to understand how to effectively navigate the evolving technological landscape. IT courses offered in the majors may focus on disciplinary applications and concerns of information technology.

IT courses meet the following learning outcomes:
1. Students will understand the principles of information storage, exchange, security, and privacy and be aware of related ethical issues.
2. Students will become critical consumers of digital information; they will be capable of selecting and evaluating appropriate, relevant, and trustworthy sources of information.
3. Students can use appropriate information and computing technologies to organize and analyze information and use it to guide decision-making.
4. Students will be able to choose and apply appropriate algorithmic methods to solve a problem.

Required:
One approved 3-credit course that meets all IT requirements or an approved sequence of courses that meet all IT requirements.
Exploration Requirements (22 credits)

Exploration requirements help ensure that students become acquainted with the broad range of intellectual domains that contribute to a liberal education. By experiencing subject matter and ways of knowing in a variety of fields, students will be better able to synthesize new knowledge, respond to fresh challenges, and meet the demands of a complex world.

The course list reflects approved courses as of press time. See the most current list (http://masoncore.gmu.edu/general-education-at-mason-2) for updates.

Note: Beginning Fall 2014, certain courses within the Mason Core can count for more than one category, if approved by the Mason Core committee. Students will be allowed to double count two courses (up to six credit hours) to fulfill their Mason Core requirements. Courses that qualify for double counting will be listed in their individually approved sections. Students may not double count credits in Oral Communication, Written Communication, or Quantitative Reasoning categories.

Arts (3 credits)

Mason courses in the film making, visual and performing arts stress generative, inquiry based learning through direct aesthetic and creative experience in the studio environment. Art history courses address the intrinsic relationship of personal and cultural creativity, and the manifestation of aesthetics, visual culture and visual narrative within historical contexts.

Learning Outcomes:

Students who successfully complete a course in the Arts category must meet the following four learning outcomes:

1. Demonstrate an understanding of the relationship between artistic process, and a work's underlying concept, and where appropriate, contexts associated with the work.
2. Identify and analyze the formal elements of a particular art form using vocabulary and critique appropriate to that form.
3. Analyze cultural productions using standards appropriate to the form, as well as the work's cultural significance and context.
4. Analyze and interpret the content of material or performance culture through its social, historical, and personal contexts.
5. Engage in generative artistic processes, including conception, creation, and ongoing critical analysis.

Required:

One approved course.

Global Understanding (3 credits)

Learning Outcomes:

The goal of the global understanding category is to help students see the world from multiple perspectives, reflect upon their positions in a global society, and be prepared for future engagement as global citizens. While it may include a historical perspective, global understanding courses focus primarily on a contemporary understanding of one's place in a global society.

Courses in this category must meet a minimum of three of the following learning outcomes:

1. Identify and articulate one's own values and how those values influence their interactions and relationships with others, both locally and globally.

2. Demonstrate understanding of how the patterns and processes of globalization make visible the interconnections and differences among and within contemporary global societies.

3. Demonstrate the development of intercultural competencies.

4. Explore individual and collective responsibilities within a global society through analytical, practical, or creative responses to problems or issues, using resources appropriate to the field.

Note: A student may also meet the Global Understanding requirement through a full-semester study abroad or 12-15 credit hour program; shorter-term study abroad courses must include and meet the learning outcomes listed below and be evaluated prior to departure.

Required:
One approved course.

### Literature (3 credits)

**Learning Outcomes:**

1. Students will be able to read for comprehension, detail, and nuance.
2. Identify the specific literary qualities of language as employed in the texts they read.
3. Analyze the ways specific literary devices contribute to the meaning of a text.
4. Identify and evaluate the contribution of the social, political, historical, and cultural contexts in which a literary text is produced.
5. Evaluate a critical argument in others' writing as well as one's own.

**Required:**

One approved course.

**Natural Science (7 credits total)**

The Mason Core natural sciences courses engage students in scientific exploration, foster their curiosity, enhance their enthusiasm for science; and enable them to apply scientific knowledge and reasoning to personal, professional and public decision-making. Lab courses must meet all five learning outcomes. Non-lab courses must meet learning outcomes 1 through 4.

**Learning Outcomes:**

1. Understand how scientific inquiry is based on investigation of evidence from the natural world, and that scientific knowledge and understanding: a) evolves based on new evidence, and b) differs from personal and cultural beliefs.
2. Recognize the scope and limits of science.
3. Recognize and articulate the relationship between the natural sciences and society and the application of science to societal challenges (e.g., health, conservation, sustainability, energy, natural disasters, etc.).
4. Evaluate scientific information (e.g., distinguish primary and secondary sources, assess credibility and validity of information).
5. Participate in scientific inquiry and communicate the elements of the process, including: a) making careful and systematic observations, b) developing and testing a hypothesis, c) analyzing evidence, and d) interpreting results.

**Required:**

Two approved science courses. At least one course will include laboratory experience.

**Non-lab (3 credits)**

### Social and Behavioral Sciences (3 credits)

#### Learning Outcomes:
The following three learning outcomes are required goals of disciplinary or interdisciplinary courses:

1. Explain how individuals, groups or institutions are influenced by contextual factors;
2. Demonstrate awareness of changes in social and cultural constructs;
3. Use appropriate methods and resources to apply social and behavioral science concepts, terminology, principles and theories in the analysis of significant human issues, past or present.

#### Required:
One approved course.

Integration Requirements (9 credits)

Written Communication (3 credits, upper-level)

Learning Outcomes:
Students develop the ability to use written communication as a means of discovering and expressing ideas and meanings: in short, employing writing as a way of thinking. Students begin this process at the Foundation level in ENGH 101 Composition (Mason Core) (p. 142) (ENGH 100 Composition for Multilingual Writers (Mason Core) (p. 142) for ESL students) and build higher-level skills at the Integration level in ENGH 302 Advanced Composition (Mason Core) (p. 142). Writing will be emphasized in many courses throughout a student’s career, and at least one course in every student’s major is designated “writing intensive” (Integration level).

Required:
The following course as well as an approved writing-intensive course in the major.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGH 302</td>
<td>Advanced Composition (Mason Core) (p. 142)</td>
<td>3</td>
</tr>
</tbody>
</table>

Writing-Intensive Course Requirement (usually 3 credits)

As part of the university’s commitment to student writers in all undergraduate programs, at least one upper-division course in each major has been designated as fulfilling the “writing intensive” (WI) requirement.

The following courses have been approved to meet the writing-intensive requirement.

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>INTS 102</td>
<td>Global Networks and Communities (Mason Core)</td>
<td>6</td>
</tr>
</tbody>
</table>
NOTE: students MUST select the course approved for their major. See specific degree program for details.

Synthesis or Capstone Experience Requirement (minimum 3 credits)

The purpose of the synthesis course is to provide students with the opportunity to synthesize the knowledge, skills and values gained from the Mason Core curriculum. Synthesis courses strive to expand students’ ability to master new content, think critically, and develop life-long learning skills across the disciplines. While it is not feasible to design courses that cover “all” areas of general education, synthesis courses should function as a careful alignment of disciplinary goals with a range of Mason Core learning outcomes.

Learning Outcomes for Synthesis:
The Mason Core synthesis course must address outcomes 1 and 2, and at least one outcome under 3. Upon completing a synthesis course, students will be able to:

1. Communicate effectively in both oral and written forms, applying appropriate rhetorical standards (e.g., audience adaptation, language, argument, organization, evidence, etc.)
2. Using perspectives from two or more disciplines, connect issues in a given field to wider intellectual, community or societal concerns
3. Apply critical thinking skills to:
   a. Evaluate the quality, credibility and limitations of an argument or a solution using appropriate evidence or resources, OR,
   b. Judge the quality or value of an idea, work, or principle based on appropriate analytics and standards

Required: One approved course.

Note: The course list reflects approved courses as of press time. See the most current list (http://masoncore.gmu.edu/general-education-at-mason-2) for updates.

Capstone course or sequence should follow these guidelines:

- Learning outcomes defined by the degree program
- Allow students to apply critical thinking skills
- Minimum of 3 credits
- No more than 35 students in the course or equivalent instructional/mentored support
- Later in the curriculum, after a student has taken at least 85 credits, and at the 400 course level
- Emphasis on experiential/applied/integrative learning
- Allow students to apply critical thinking skills
- Learning outcomes defined by the degree program

**Required:** One approved upper-division course. Please speak with an advisor to determine the appropriate course to fulfill your major’s requirement.

The purpose of the capstone course or sequence of courses is to provide a high impact, culminating element of an undergraduate education, helping students develop a more comprehensive and integrative understanding of their area of study and to utilize critical thinking skills. Capstone courses provide students opportunities to apply and demonstrate their knowledge and generally involve integrative/applied/experiential projects. Student learning in a Capstone course is assessed using a set of identified learning outcomes, and for critical thinking, as defined by the American Association of Colleges & Universities.

Mason Core Engagement Series (ENCORE)

Creating more opportunities for students to make meaning of the Mason Core educational offerings, to draw greater connections to the larger university community, and to develop additional marketable skill sets, the Mason Core Engagement Series (ENCORE) begins Fall 2016 with the entering freshmen class. This program is an optional pathway for students interested in combining academic coursework with co-curricular activities towards a completion certificate in a specific area of engagement.

How does the Engagement Series work?

Academic connections
Each ENCORE program combines courses within the Mason Core categories with co-curricular activities that enhance classroom learning. Courses are identified in the catalog and in the schedule of classes, enabling a student to select those relevant to the specific engagement series. Out of the approximately 40 credits of Mason Core requirements, at least 18 credits must be related to the relevant ENCORE program.

Co-curricular connections
Working in conjunction with University Life and the Patriot Experience, each Engagement Series maps to one of four pathways – career readiness, civic learning/community engagement, global/multicultural, or well-being.

What happens once the Engagement Series is completed?

After completing the Mason Core classes and the Patriot Experience pathway, students will earn a Mason Core completion certificate. This achievement will be recognized on the academic transcript and honored at graduation.

What programs are currently available?

Mason Core: Engagement Series - Sustainability

Required: 19 credits

Sustainability programs at Mason seek to guide students as they critically assess the environmental, social, economic and ethical impacts of technology and policy decisions. The Engagement Series in Sustainability identifies Green Leaf Programs and Courses designated offerings that contribute significantly to students' understanding and practice of sustainability. These offerings extend beyond environmental management, natural resources protection and conservation studies alone to embrace economic development and social responsibility. Both sustainability-focused and sustainability-related courses may receive the green leaf designation.

Students who complete the Engagement Series in Sustainability will be able to:

1. Characterize the meaning of sustainability (including its focus on fulfilling needs and its social, economic and ecological dimensions).

2. Distinguish sustainable from unsustainable human activities and practices.

3. Integrate concepts and principles of sustainability to analyze and address complex societal issues.

4. Present working knowledge of the University’s sustainability history, goals, initiatives and pertinent decision-making processes.

5. Demonstrate the ability to lead and apply sustainability knowledge to make a positive societal impact on campus and/or in our community.

Requirements and approved courses
All students pursuing the sustainability engagement series must take one credit of INTS 295 Field-Based Work with the topic, ‘Leadership for Sustainability,’ as the series’ gateway. Additional requirements include 18 credits of Mason Core courses that have the Green Leaf Programs and Courses designation. (At least 6 Mason Core categories include one or more Green Leaf course options.)

The following courses have been identified as meeting the criteria for inclusion in the Engagement Series in Sustainability curriculum. The co-curricular section of the certificate is completed through the Patriot Experience, located online (http://patriotexperience.gmu.edu).

Mason Core: Engagement Series - Well-Being
Required: 18 credits

The ability to thrive and succeed as students, employees, organizations, and in life, directly correlates to one’s sense of well-being. Mason has committed to being a “Well-Being University” focused on helping students, faculty and staff build lives with vitality, purpose, and resilience. The Engagement Series in Well-Being identifies offerings that contribute significantly to students’ understanding and practice of well-being. These offerings include both well-being-focused and well-being-related courses that are designated in the catalog and in the schedule of classes.

Students who complete the Engagement Series in Well-Being will be able to:

1. Describe and apply methods to enhance interpersonal communication and empathy. This will help the student to create sustainable, quality relationships and social support networks, at a one-on-one and small group level.

2. Demonstrate skills for communication (written, oral, and/or somatic) about well-being.

3. Demonstrate the ability to practice methods to enhance well-being, self-care, self-awareness, and awareness of others.

4. Articulate societal factors impacting community and global well-being, and/or to engage in practices which build greater sensitivity to the needs of others and the inter-dependent nature of life on the earth.

5. Describe the science of stress and its effects – both constructive and destructive – as well as the methodologies used to respond to stress, promote resilience, and enhance well-being.

The following courses have been identified as meeting the criteria for inclusion in the Engagement Series in Well-Being curriculum. To complete the certification, students must select a minimum of 18 credits across the categories offered below. Please note, in several of these courses only specific sections will count for meeting the requirement. No substitutions will be made. Information on courses that count at the section level will be included in the Schedule of Classes, found on Patriot Web. The co-curricular section of the certificate is completed through the Patriot Experience, located online (http://patriotexperience.gmu.edu).

The Honors College

The Honors College focuses attention on the excellence of Mason’s student body and highlights the full spectrum of opportunities for academic achievement, professional development, and public service that Mason offers our most highly-motivated undergraduates. The Honors College provides talented students in all majors an enriched academic and social environment that enhances their college experience. Participation in challenging and innovative programs encourages student leadership and active engagement in local, national, and global communities.

Through the resources of the Honors College, the university provides students the support to excel academically and to pursue life-long goals. Included in these resources is the Honors College curriculum, which offers challenging courses that fulfill general education requirements. Senior faculty, including Mason’s Robinson Professors, teach small classes of students taking the curriculum. A select group of entering students is invited to become part of the University Scholars, a community of learners and leaders who receive Mason’s most competitive merit-based scholarships. All Honors College students have direct access to the Office of Fellowships, which provides advice and information to high-achieving Mason undergraduates and recent alumni about the application process for nationally competitive fellowships.

The benefits of being part of the Honors College include participating in a diverse living-learning community. Community programs include special lectures, events, and excursions on and off campus, as well as opportunities to take advantage of internships and cultural programs in Washington, D.C.

All students in the Honors College receive individualized academic advising, priority registration, and opportunities for close interaction with faculty for one-on-one mentoring and graduate and professional advising.

Faculty

Honors students have the opportunity to study with some of Mason’s most accomplished teachers and scholars from disciplines across the university, including Mason’s Robinson Professors.

Admissions & Policies

Admissions

Admission to the Honors College is based on a holistic review of each student’s academic performance as well as any other information included in the general application, such as rigor of coursework, standardized test scores, class rank, essay response, teacher recommendations, outstanding leadership, and commitment to community service. Space is limited in each class, and admissions criteria may vary according to the applicant pool in any given year.

Admission to the Honors College requires an application and is open to both incoming first-year and transfer students.

Policies

Continuation in Honors

A student whose GPA falls below 2.00 (1.80 in the first or second semester) will be placed on academic warning and may be ineligible to continue in the Honors College. Students are required to take and pass with a grade of "C" or higher either HNRS 110 Principles of Research and Inquiry or HNRS 302 Principles of Research and Inquiry for Transfer Students in their first semester in the Honors College to maintain their Honors College status.

Honors students are expected to maintain high standards of academic integrity and personal conduct. Students may be asked to withdraw from the program for a violation of the University Honor Code or any other conduct that reflects adversely on the Honors College.

Students who leave the Honors College before completion of the curriculum must meet Mason Core requirements and college-level requirements for their particular degree programs. On leaving the college and before registering for Mason Core courses, students should be advised on equivalencies between the honors courses they have completed and Mason Core requirements.

Transfer of Honors Credits

Because of the sequential and integrated nature of the program, honors courses may not correspond exactly to courses used to fulfill Mason Core requirements. A list of equivalencies is available in the Honors College office.

Requirements

Honors Curriculum

Starting in their first semesters on campus, Honors College students are challenged to identify, articulate, and evaluate multiple perspectives on questions of cultural, scientific, or global significance and to consider evidence that broadens their understanding and challenges their beliefs.

The Honors College inquiry-driven curriculum provides exceptionally motivated students with an alternative to the Mason Core. The Honors College curriculum allows students increased opportunities to pursue minors and other individual interests such as extended research. Students may also take honors sections of selected major courses as well as upper division courses offered by the Honors College. Beyond the Honors College requirements, students must satisfy all requirements of their college and major and Mason undergraduate program requirements for admissions, residency, credit hours, quality, and upper level credits.

Students who complete their Honors College curriculum with a GPA of 3.00 or higher and with no more than one C- or D in HNRS courses will receive a designation of Honors College Requirements Completed on their transcripts. Students whose GPA falls below 3.00 or who have a C- or D in multiple HNRS courses may complete the honors curriculum to satisfy
George Mason University

Mason Core requirements but will not receive honors recognition on their transcripts.

Students must take a minimum of 12 credits of HNRS courses from the Honors College at Mason. Students must also complete the Foundations; Inquiry in the Arts, Humanities, & Social Sciences; Civic Engagement; Multi-Disciplinary Challenges requirements.

Foundations

Introduction to Inquiry and Research: Honors students are introduced to methods for formulating, articulating, pursuing, and communicating research questions and the subsequent findings. Students must take one of the following during their first semester as an Honors College student:

<table>

<td>3</td>
</tr>
</tbody>
</table>

- **Science**: The Honors College science requirement mirrors the science requirement of a student’s college and major.

- **Foreign Language**: Students pursuing BA degrees may have a foreign language requirement.

- Beyond the Honors College requirements, students must satisfy all requirements of their college and major and Mason undergraduate program requirements for admissions, residency, credit hours, quality, and upper-level credits.

- Iris Robinson, Assistant Dean for Student and Academic Affairs

College Code: E1

The college is committed to excellence, innovation, and collaboration in research and the preparation of professionals for the highest levels of practice and service in diverse schools, organizations, and communities.

CEHD provides leadership in transforming schools, organizations, and communities through research, teaching, and collaboration. CEHD faculty members prepare scholars and practitioners through multidisciplinary programs of study that facilitate the understanding, integration, and application of knowledge. Through research activities, faculty and students expand and refine the knowledge base for teaching and learning. In response to the richness and complexity of a pluralistic society, CEHD infuses diversity into academic programs and research. The faculty develops and supports knowledgeable, caring, and reflective professionals who facilitate excellence and equity for all learners. CEHD students and faculty demonstrate their growth and development in ways meaningful to their communication and professional organizations. Innovative programs and the integration of technology provide opportunities for students to develop, examine, evaluate, and practice professional knowledge, skills, and dispositions.

Undergraduate Degrees, Minors, and Certificates

CEHD offers undergraduate degrees, minors, and certificates. The School of Recreation, Health, and Tourism within the College of Education and Human Development collaborates with the College of Humanities and Social Sciences (p. 305), the School of Business (p. 888), the College of Science (p. 613), the Volgenau School of Engineering (p. 1011), the College of Visual and Performing Arts (p. 803), and the School for Conflict Analysis and Resolution (p. 936) to offer seven minors in interdisciplinary areas of study. Students may elect to take a minor in addition to their major field of study. For policies governing all minors, see AP.5.3.4 Minors (p. 90).

In addition, CEHD collaborates with the College of Science (p. 613) (Departments of Atmospheric, Oceanic, and Earth Sciences; Biology; Chemistry and Biochemistry; Mathematical Sciences; and Physics and Astronomy) to offer undergraduate secondary education certificates and the College of Visual and Performing Arts (p. 803) (Schools of Music and Theater) to provide programs in music and theater education that can lead to VA teaching licensure. CEHD also collaborates with School of Integrative Studies (p. 574) to support three interdisciplinary degree concentrations which prepare students for graduate study in education.

Graduate Degrees and Certificates

CEHD offers one doctoral degree, as well as master's degrees and graduate certificates.

Requirements & Policies

Policies

In addition to the policies stated in Academic Policies (p. 77), the following policies and procedures apply to all students in the college.

Communication Policy

All correspondence from the program, school, college, and university administration is sent to the student’s official Mason e-mail account. Students must use their Mason e-mail account to communicate with their programs and other administrative units.

CEHD Academic Policies

Students are ultimately responsible for their academic progress towards their degrees and/or certificates. They are strongly advised to consult Academic Policies (p. 77) for information concerning university-wide requirements for degree and non-degree students in addition to those for this college. Students with questions regarding academic policies and college-level requirements should contact the CEHD Student and Academic Affairs Office (Thompson Hall, Suite 2300; 703-993-2080; cehdsaa@gmu.edu). Additional policy information and forms are available online. (http://cehd.gmu.edu/saa)

CEHD Grading Policy

All CEHD undergraduate and graduate students are held to the university grading policies as described in AP.3 Grading (p. 84). Those students enrolled in a CEHD licensure program have higher minimum grade requirements which are detailed in each specific program's page.

Grade Appeals

Students may appeal grades that they believe were assigned unjustly or were based on unclear criteria in accord with Academic Policies (p. 77). Grade appeals should initially be directed to the Academic Program Office (Thompson Hall, Suite 2300; cehdsaa@gmu.edu). Additional policy information and forms are available online. (http://cehd.gmu.edu/saa)
Student and Academic Affairs for review. The Associate Dean's decision is considered final and not subject to further appeal.

Study Elsewhere

Once enrolled in degree status at Mason, undergraduate students with fewer than 60 hours of transfer coursework (not including registration through the Consortium of Universities of the Washington Metropolitan Area or coursework completed through the Global Education Office) may take up to twelve credits of coursework in CEHD disciplines at another institution. Students with 60 or more hours of transfer coursework are not permitted to take additional coursework in CEHD disciplines at another institution. A student may seek permission for additional hours beyond these limits for summer registration if his/her permanent residence is more than fifty miles from the Fairfax campus. Students who enroll elsewhere without advance written permission will not receive transfer credit for the coursework taken at another institution unless they re-apply for admission to Mason as transfer applicants and meet all priority deadlines. Re-admission is not guaranteed and transfer credit is awarded based upon course equivalencies in effect at the time of re-admission. Courses previously attempted at Mason (including withdrawals) cannot be taken elsewhere.

Professional Teacher Licensure

CEHD is responsible for professional courses, special standards, and licensure recommendations for students completing state-approved (Virginia) licensure programs that prepare teachers, administrators, counselors, and related instructional personnel.

Initial teacher licensure is available at the undergraduate level in secondary education: biology, chemistry, earth science, English, health and physical education, mathematics, music, and physics. Initial teacher licensure is available at the graduate level in art, early childhood, elementary, English as a second language, foreign language, secondary, and theater arts. The Special Education Program offers initial teacher licensure exclusively through graduate certificates that include Adapted Curriculum, Early Childhood Special Education, General Curriculum, and Visual Impairments.

For more information please contact the CEHD Office of Admissions (Thompson Hall, Suite 2200; 703-993-2892; cehdgrad@gmu.edu). Additional information is available online (http://cehd.gmu.edu/admissions).

Notes on Background Checks and Licensure:

The majority of Mason CEHD programs require multiple field experiences. Our school and agency partners require Mason students to be fingerprinted and pass a criminal background check prior to field experience work. Students must assume the risk that classes may be deferred and their program delayed due to the individual severity of notations on such a check and review by individual agencies.

George Mason University will verify completion of the requirements of a Virginia Department of Education (VDOE) state-approved preparation program at the graduate or undergraduate level. Such verification does not guarantee the issuance of Virginia Collegiate Professional, Postgraduate Professional, or Pupil Personnel license from the Commonwealth of Virginia. It is solely the student's responsibility to comply with all requirements for licensure by the Commonwealth. Under Virginia law, a social security number is required for licensure.

Academic Units

- Graduate School of Education
- School of Recreation, Health, and Tourism

Graduate School of Education

Phone: 703-993-2892
Website: cehd.gmu.edu

The Graduate School of Education (GSE) offers one doctoral degree, six master's degrees, one bachelor's degree, nine minors, sixteen accelerated master's programs as well as many undergraduate and graduate certificates. Within each degree program students have the option to choose a concentration that best meets their interests or needs. Additionally, students may pursue coursework leading to initial teacher licensure. Students can pursue a Master's degree and one graduate certificate concurrently.

Collaborative Undergraduate Degree Licensure Programs

GSE supports undergraduate students from a variety of disciplines interested in education and teacher licensure. Eight collaborative undergraduate degree licensure programs are available including undergraduate certificates and the music and theater programs below. For more information, contact us (preteach@gmu.edu) or visit our website (http://cehd.gmu.edu/undergraduate/think-you-want-to-be-a-teacher).

Concentration in Music Education (PK–12)

The BM in Music (p. 862) with a concentration in Music Education allows students to obtain certification to teach in Virginia public school systems. Students may follow an instrumental or choral/general music emphasis in the curriculum. For details, see School of Music (p. 849).

Concentration in Theater Education (PK–12)

Upon successful completion of the requirements for a BA in Theater (p. 882) with a concentration in Theater Education for Theater Arts PK-12, students may pursue coursework that will allow them to attain licensure to teach Theater Arts in Virginia public school systems. For details, see School of Theater (p. 878).

Collaborative Graduate Degree Licensure Programs

Teaching Theatre Licensure (PK–12)

Upon successful completion of the requirements for a Teaching Theatre PK-12 Graduate Certificate (p. 881), students can obtain licensure to teach Theater in Virginia public school systems. For details, see School of Theater (p. 878).

Visual Arts Licensure (PK–12)

Upon successful completion of the requirements for an Art Education Graduate Certificate (p. 831), students can obtain licensure to teach Art in Virginia public school systems. For details, see School of Art (p. 825).
Accelerated Master’s Programs
The Graduate School of Education collaborates with undergraduate programs to offer sixteen accelerated Master’s programs. For more information, see the website. (http://cehd.gmu.edu/bachelors-accelerated-masters-program)

Applied Behavior Analysis Graduate Certificate

Banner Code: E1-CERG-ABAC

Academic Advising
Phone: 703-993-3670
Email: speced@gmu.edu
Website: gse.gmu.edu/special-education/behavior-analyst-certification

This 18-credit non-licensure certificate is designed to increase the professional training of individuals responsible for designing, implementing, and monitoring behavioral treatment programs in schools, agencies (such as psychiatric hospitals), and training centers for people with severe disabilities.

This graduate certificate may be pursued on a part-time basis only, unless students complete the certificate in conjunction with the optional practicum or Master’s in Special Education (p. 216). With practicum or concurrent enrollment in the MEd, this certificate may be pursued on a full-time basis. The Behavior Analyst Certification Board® (BACB®) requires one of the following Master’s degrees in addition to the Post-Master’s Certificate:

1. Education
2. Psychology
3. Behavior analysis

Those not holding these degrees may not be eligible to earn BCBA® certification and should contact the Behavior Analyst Certification Board® (BACB®) for further information.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important
Assistive Technology Minor

Email: speced@gmu.edu
Website: gse.gmu.edu/special-education/autism-spectrum-disorders

This 15-credit non-licensure certificate provides training in topic areas required to implement instructional programs for individuals with autism across their lifespan. The certificate is appropriate for special educators, general educators, related service providers, parents, and others who provide instruction to students with autism in a variety of educational, community and vocational settings.

This graduate certificate is offered in an asynchronous online format and may only be pursued on a part-time basis.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure page (https://irr2.gmu.edu/gedt/Autism_Spectrum_Disorders/Gedt.html).

Admissions & Policies

Policies
For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Concentration in Licensure (Post-Master’s) (LCNS)

Coursework

Once accepted into the post-master’s graduate certificate program, students individually tailor their coursework with an advisor to meet licensure requirements and may enroll for the courses listed below or other core program courses as needed. Students must successfully complete (pass) a minimum of nine counseling and development credits with a grade of B or better prior to enrolling in practicum or internship.

Virginia School Counselor

Choose 15 credits from the following Virginia School Counseling courses listed below. Students studying for the MEd in Counseling and Development (p. 166) may also meet Virginia School Counselor licensure requirements through coursework offered under the MEd’s School Counseling PK-12 concentration.

Available Concentrations

Concentration in Elementary Education PK-6 Licensure
This 39-credit concentration is designed for students who are seeking a major outside of elementary education, but wish to add on licensure for teaching positions in PreK-6 classrooms in Virginia.

Concentration in Secondary Education – Biology (6-12)
This 27-credit concentration is available only to students pursuing a BA (p. 643) or BS (p. 648) in Biology. Students who complete both the BA or BS in Biology and this concentration will be considered Virginia state-approved educator preparation program completers and will be eligible for recommendation for an initial VA teaching license in Secondary Education (6-12) Biology.

Concentration in Secondary Education – Chemistry (6-12)
This 27-credit concentration is available only to students pursuing a BA (p. 662)or BS (p. 667) in Chemistry. Students who complete both the BA (p. 662)or BS (p. 667) in Chemistry and this concentration will be
considered Virginia state-approved educator preparation program completers and will be eligible for recommendation for an initial VA teaching license in Secondary Education (6-12) Chemistry.

**Concentration in Secondary Education – Earth Science (6-12)**

This 27 to 34 credit concentration is available only to students pursuing a BS in Earth Science (p. 627). Students who complete both the BS in Earth Science (p. 627) and this concentration will be considered Virginia state-approved educator preparation program completers and will be eligible for recommendation for an initial VA teaching license in Secondary Education (6-12) Earth Science.

**Concentration in Secondary Education – English (6-12)**

This 38-credit concentration is available only to students pursuing a BA in English (p. 370). Students who complete both the BA in English and this concentration will be considered Virginia state-approved educator preparation program completers and will be eligible for recommendation for an initial VA teaching license in Secondary Education (6-12) English.

**Concentration in Secondary Education – Mathematics (6-12)**

This 38-credit concentration is available only to students pursuing a BA (p. 743) or BS (p. 748) in Mathematics. Students who complete both the BA (p. 743) or BS (p. 748) in Mathematics and this concentration will be considered Virginia state-approved educator preparation program completers and will be eligible for recommendation for an initial VA teaching license in Secondary Education (6-12) Mathematics.

**Concentration in Secondary Education – Physics (6-12)**

This 26-credit concentration is available only to students pursuing a BS in Physics (p. 764). Students who complete both the BS in Physics (p. 764) and this concentration will be considered Virginia state-approved educator preparation program completers and will be eligible for recommendation for an initial VA teaching license in Secondary Education (6-12) Physics.

**Requirements**

**Certificate Requirements**

Total credits: 26-39

This certificate may be pursued on a full- or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

**Concentration in Elementary Education PK-6 Licensure (EEPK)**

Total credits: 39

This master's degree is offered to students preparing for initial teacher licensure, advanced teacher education, or ancillary educational programs.

Requirements

Degree Requirements
Total credits: 30-39

Concentrations are listed within the subject areas listed below. Each concentration wholly describes the requirements for the degree and the concentration. Students should choose one concentration.

Concentration Areas

- Advanced Studies in Teaching and Learning (ASTL) (p. 171)
- Assistive Technology (p. 177)
- Culturally & Linguistically Diverse & Exceptional Learners (p. 177)
- Early Childhood and Elementary Education (p. 177)
- Learning Technologies (p. 178)
- Literacy/Reading (p. 179)
- Secondary Education (6–12) (p. 180)
- Transformative Teaching (p. 182)
Advanced Studies in Teaching and Learning (ASTL)

The ASTL Concentrations are for practicing teachers and other educators with one or more years of teaching experience who want to continue to grow professionally. The program is comprised of two components: 12 credits in Education Core focused on advanced pedagogy and professional learning, plus 18-21 credits in an area of specialization, called the Concentration. The successful completion of these two program components comprises the master’s degree. All 18 Concentrations provide advanced, graduate-level coursework taught by experienced faculty in that specialization area. The courses, aligned with the National Board for Professional Teaching Standards, help teachers think and practice as board-certified teachers. The program develops teacher-leaders who take an inquiry stance on their educational practice and lead from the classroom and beyond as they contribute to ongoing school improvement and educational change. While developing expertise in a content area and increasing their understanding of culturally and linguistically diverse students and families, teachers reflect critically on issues of equity and social justice and use systematic inquiry to inform decision-making and effect change.

Experienced teachers and other educators with or without a master’s degree may apply for the master’s degree program. The ASTL program also provides an option for teachers who hold master’s degrees to earn a Literacy/Reading Instruction Graduate Certificate with a concentration in Reading Specialist (K-12) or a Graduate Certificate in Curriculum and Instruction with a concentration in Gifted Childhood Education.

Concentration in ASTL: Advanced International Baccalaureate (AIB)

This concentration provides advanced professional development for teachers on the philosophy, elements, and assessments of the Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP). The coursework focuses on the theory, pedagogy, and research underlying the International Baccalaureate programs. The combination of the ASTL IB Concentration coursework and the ASTL Core coursework result in the International Baccalaureate Advanced Award in Teaching and Learning Research.

Concentration in ASTL: Designing Digital Learning in Schools (ADDL)

This concentration is offered to practicing teachers who wish to gain the necessary knowledge and skills for integrating digital learning and K–12 curricular knowledge outcomes. The concentration is framed by four learning outcomes: investigation of the theory and practice of digital learning, connection of digital learning and knowledge outcomes, use of design principles and processes to inform practice, knowledge of a range of technologies appropriate for PreK-12 learners.

Concentration in ASTL: Diversity and Exceptionality in PK-12 Schools (ADEP)

This concentration joins graduate courses in Special Education, Gifted Education, and Second Language Learning. It is designed for general education teachers who seek to enhance their professional knowledge and skills related to students with disabilities, students who demonstrate advanced capabilities in various domains, and English Learners.

In consultation with advisor, choose 6 courses (18 credits) from among the following, with the goal of selecting at least one course from each area.

Total Credits: 21

1 One year of successful full-time teaching in an accredited public or non-public school may be accepted in lieu of SPAN 576 Advanced Practicum in Gifted Education (VA Licensure Regulations for School Personnel, 1998). A 3-credit elective course must be chosen with advisor approval to meet the 21-credit requirement.

**Concentration in Gifted Child Education (AGCE)**

This concentration provides advanced professional development through endorsement or master’s degree for teachers of gifted students. The concentration meets NAGC/CEC graduate standards and focuses on culturally diverse, multilingual, twice exceptional, and traditionally defined gifted students and programs.

Students must earn a B- or higher in all coursework.

**Concentration in ASTL: Individualized (AATL)**

This individualized concentration is developed in concert with a student’s advisor to provide coursework in a student’s specialized area that is not provided in other ASTL concentrations. The student works with the program director to design a program of study that provides individualized learning experiences in an area of expertise relevant to one’s professional educational setting.

**Concentration in ASTL: Literacy PK–12 Classroom Teachers (AP12)**

This concentration includes three required literacy courses and three approved electives in ESOL, special education, psychology, secondary and elementary education, early childhood, writing, and other areas. The coursework includes theory and strategies in literacy and reading for teachers in any discipline, PK–12.

**Coursework**

1 Students may choose an alternate elective with advisor approval.

**Concentration in ASTL: Literacy: Reading Specialist (ALRS)**

This concentration is a state-approved sequence of courses leading to Virginia reading specialist licensure. Coursework includes foundational knowledge, instructional and assessment strategies for individuals and groups, and preparation as a literacy coach and staff developer. Students must earn a B- or higher in all licensure coursework. Licensure also requires a master’s degree, passing of the Virginia Reading Assessment, and three years of teaching under contract.

### Culturally & Linguistically Diverse & Exceptional Learners

#### Concentration in Teaching Culturally and Linguistically Diverse and Exceptional Learners (TCLD)

This concentration is designed to prepare teachers to work in highly diverse K-12 classrooms to support a variety of student needs with special emphasis on language learners. Students pursuing the MEd with this concentration must also complete a secondary certificate program to support completing initial licensure or advanced coursework in Elementary Education, English as a Second Language Education, Foreign Language Education, Special Education, or Advanced International Baccalaureate Studies. The master's program also prepares international teachers interested in earning initial licensure in Elementary or English as a Second Language Education (formerly FAST TRAIN).

Total Credits 30

### Concentration in Elementary Education (ELED)

The 39-credit concentration and initial licensure component provides professionals with the specialized knowledge, skills, and dispositions needed to meet the educational needs of students attending today's elementary schools. Specific content and endorsement courses are required, all courses are taught in cohorts only. Two cohort models (one- or two-semester internships) provide flexibility for all students. The two-semester internship cohort begins each spring and fall semester; the one-
semester internship cohort begins each summer semester. Contact the Elementary Program for additional information.

All students are required to submit and successfully complete a series of performance-based assessments. These assessments include content knowledge, pedagogical skills, and dispositions.

**Grading Policy**

Students enrolled in this concentration must earn a B or higher in all coursework.

- EDUC 537 Introduction to Culturally Linguistically Diverse Learners 3
- ELED 790 Internship in Elementary Education (applicable for yearlong interns, 3 credits) 1-6

Learning Technologies

Three concentrations with an instructional technology focus provide professionals the specialized knowledge and skills needed to apply a wide range of learning technologies to achieve educational and instructional goals in schools and communities, and in corporate, government or public settings. The concentrations combine current theoretical models and research-based practice with practical, hands-on experiences to cultivate the design of innovative and engaging learning opportunities and instructional applications using state-of-the-art technologies. The concentrations serve the various needs and interests of learning organizations and instructional technology clients including instructional design, user experience design, online learning, workplace learning, and the integration of technology in schools.

**Literacy/Reading**

A master's degree and one graduate certificate (p. 211) are available to teachers in grades K-12 who are interested in gaining additional expertise in literacy/reading instruction and leadership. Courses combine current theory with practical, hands-on experience. A graduate certificate focusing on literacy coaching is also available for current reading specialists or literacy leaders. Literacy is also available as a primary or secondary specialization in the PhD in Education (p. 196) degree program.

**Concentration in Curriculum Leadership for Diverse Schools: K-12 Reading Specialist (LLDR)**

This concentration includes a 21-credit sequence of courses in literacy/reading instruction and leadership, 3 credits in research methodology, and 9 credits in courses related to diverse learners (English as a second language [ESL], special education, or an individualized program). Completion of all requirements earns students a master's degree in curriculum and instruction plus eligibility for K-12 Reading Specialist License. (Additional licensure requirements include 3 years of teaching under contract and a passing score on state licensure exam). Some coursework in ESL and/or special education may be applied toward additional licenses in those areas.

**Grading Policy**

Students must earn a B- or higher in all licensure coursework.

EDSE 502  Classroom Management and Applied Behavior Analysis
EDSE 517  Computer Applications for Special Populations
EDSE 540  Characteristics of Students with Disabilities who Access the General Curriculum
EDSE 619  Principles and Procedures of Behavior Analysis
EDSE 628  Elementary Reading, Curriculum, Strategies for Students Who Access the General Education Curriculum
EDSE 629  Secondary Curriculum and Strategies for Students with Disabilities who Access the General Curriculum
EDUC 537  Introduction to Culturally Linguistically Diverse Learners
EDUC 595  Perspectives on Exceptional Teaching

Total Credits 33

1 Must be taken concurrently
2 Check course descriptions for prerequisites. Substitutions must be approved by your advisor.

Secondary Education (6–12)
The secondary education concentrations with a licensure component are designed to meet the needs of individuals who wish to be licensed or need to satisfy the requirements of a provisional license to teach at the secondary level. Specific endorsement areas are biology, chemistry, earth science, English, history and social science, mathematics, and physics. Note: only six credits (in total) may be taken as non-degree or transferred (with coordinator approval) from another accredited institution.

Grading Policy
Students enrolled in this degree program must earn a B or higher in all coursework.

Field Experience
Field experiences in public schools will be required throughout the program (a maximum of 15-30 clock hours per course or 45 clock hours per term). Arrangements will be made at the beginning of each term.

Internship Options
A 6-credit 16-week daytime internship (EDCI 790 Internship in Education) is required for completion of the state-approved licensure program.

Two options are available to meet the needs of most individuals:

- Student teaching internship: A one-term daytime internship in the classroom of a mentor teacher. Teacher candidate assumes co-teaching and independent teaching responsibilities.
- On-the-job internship: Available only to students who are employed as full-time provisionally licensed teachers and teaching in their endorsement area in an accredited middle or secondary school and want to complete a master’s degree. In lieu of an internship, provisionally licensed teachers may choose to use their full-time teaching to satisfy the experience requirement for a full license; however, the 35-credit master’s degree requires that 6 credits of approved coursework be substituted for the internship.

### Transformative Teaching

#### Concentration in Transformative Teaching (TTCH)

This concentration provides experienced school-based educators with valuable online and face-to-face professional development opportunities that help them to:

1. continually surface and rethink the routines and assumptions that shape their work in schools;
2. reflect upon their practice in the critical company of others;
3. design thoughtful and constructive responses to the obstacles that inhibit teaching and student learning;
4. develop the skills and dispositions to keep them in the classroom and in schools;
5. be leaders in their schools, in their professional associations, and in their communities around the world as civically engaged advocates for educators and students.

Experienced educators with or without a master’s degree may apply for the 30-credit master’s degree program.

Accelerated Master's

**Biology, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Biology concentration)**

**Overview**
Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's program and obtain a BA (p. 643) or BS in Biology (p. 648) (degree without concentration) and an MEd in Curriculum and Instruction (concentration in secondary education biology) (p. 170) in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7 Bachelor's/Accelerated Master's Degree (p. 93) for policies related to this program.

This accelerated option is offered jointly by the Biology Undergraduate Program (p. 641) and the Graduate School of Education (p. 162).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP6.6 Graduate Policies (p. 90).

**Application Requirements**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 68). For information specific to this accelerated master's program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

**Accelerated Option Requirements**
Students must complete the following courses in their senior year:

<table>
<thead>
<tr>
<th>Senior</th>
<th>Fall Semester</th>
<th>Credits</th>
<th>Spring Semester</th>

While undergraduate students, accelerated master's students are able to apply two of the courses listed above to both the bachelor's and master's degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor's/Accelerated Master's Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

**Chemistry, BA or BS/Curriculum and Instruction, Accelerated MEd (Secondary Education Chemistry concentration)**

**Overview**
Highly-qualified undergraduates may be admitted to the bachelor's/accelerated master's option and obtain a BA (p. 662) or BS in Chemistry (p. 667) (degree without concentration) and an MEd in Curriculum and Instruction (p. 170) (concentration in secondary education chemistry) in an accelerated time frame after completion of 149 credits. See AP.6.7 Bachelor's/Accelerated Master's Degree (p. 93) for policies related to this program.

This accelerated option is offered jointly by the Department of Chemistry and Biochemistry (p. 661) and the Graduate School of Education (p. 162).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP6.6 Graduate Policies (p. 90).

**Application Requirements**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 68). History, BA / Curriculum and Instruction, Accelerated MEd (Secondary Education History and Social Science Concentration)

Overview
Highly-qualified undergraduates may be admitted to the bachelor’s/accelerated master’s option and obtain both a BA in History (p. 402) and an MEd in Curriculum and Instruction
(p. 170) (concentration in secondary education history and social science) in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 93) for policies related to this program.

This accelerated option is offered jointly by the Department of History and Art History (p. 392) and the Graduate School of Education (p. 162).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 68). For information specific to this accelerated master’s program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program) on the College of Education and Human Development web site.

Accelerated Option Requirements
Students complete the following courses in their senior year:

<table>
<thead>
<tr>
<th>Senior</th>
<th>Fall Semester Credits</th>
<th>Spring Semester Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDCI 567</td>
<td>3</td>
<td>EDCI 667</td>

<td>EDRD 619</td>
</tr>
<tr>
<td>6</td>
<td>6</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 12

While undergraduate students, accelerated master’s students are able to apply two of the courses listed above to both the bachelor’s and master’s degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Mathematics, BA or BS/Curriculum and Instruction, Accelerated MEd, (Secondary Education Mathematics concentration)

Overview
Highly-qualified undergraduates may be admitted to the bachelor’s/accelerated master’s program and obtain a BA in Mathematics (p. 748) and an MEd in Curriculum and Instruction (p. 170) (concentration in secondary education mathematics) in an accelerated time-frame after satisfactory completion of 149 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 93) for policies related to this program.

This accelerated option is offered jointly by the Department of Mathematical Sciences (p. 740) and the Graduate School of Education (p. 162).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 68). For information specific to this accelerated master’s program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program) on the College of Education and Human Development web site.

Available Concentrations

Concentration in Advanced International Baccalaureate Studies
This 15-credit concentration provides advanced professional development for teachers on the philosophy, elements, and assessments of the Primary Years Programme (PYP), Middle Years Programme (MYP), and Diploma Programme (DP). The coursework focuses on the theory, pedagogy, and research under-girding the International Baccalaureate programs.

Concentration in Assistive Technology
This 15-credit concentration provides supplemental training for practitioners, families, and caregivers who use assistive technology while working with people with disabilities. The concentration is appropriate for general and special educators, related service personnel, adult service providers, and families and caregivers who need to apply assistive
Curriculum and Instruction Graduate Certificate

Concentration in Early Childhood Education PK-3
This 33-credit concentration offers required coursework for teacher licensure in Early Childhood Education PK-3. Students who have completed graduate or undergraduate coursework equivalent to certificate coursework prior to admission to this program may request that some courses in this certificate be waived. Students who are eligible to waive coursework must complete a minimum of 15 credits to graduate. A grade of B- or better must be earned in all coursework.

The certificate with this concentration qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/Early_Childhood_Education_PK_3/Gedt.html).

Concentration in Gifted Child Education
This 21-credit concentration is designed for professionals who are interested in working with gifted children. Students completing this concentration fulfill the requirements for add-on endorsement in gifted education for currently-licensed teachers.

Concentration in International Elementary Education (PK-6) Licensure
This 27-credit concentration offers coursework leading to teacher licensure (Virginia) in Elementary Education PK-6. The concentration prepares educators for international teaching assignments. Additionally, this concentration prepares students who wish to teach in International Baccalaureate (IB) schools worldwide by integrating IB curriculum into the licensure coursework. Students completing the licensure requirements may take EDUC 621 Teaching and Learning in the International Baccalaureate Program and EDUC 622 Curriculum Development across IB Programs. Students must earn a B or higher in all coursework.

The coursework may be completed in the part-time evening program or during the summer intensive program.

Concentration in Secondary Education Licensure
This 23-credit concentration offers coursework towards teacher licensure (Virginia) to students enrolled in non-licensure graduate programs at Mason or those who already have a master’s degree.

The certificate with this concentration qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/Secondary_Education_Licensure/Gedt.html).

¹ A six-credit, 15-week daytime internship is required for completion of the state-approved licensure program.

Two options are available to meet the needs of most individuals:

- Placement Internship: One semester, daytime internship in the classroom of a cooperating teacher. Intern assumes co-teaching and independent teaching responsibilities.
- On-the-job Internship: Available only to students who are employed as full-time international elementary teachers and are teaching in an accredited international school.

Concentration in Secondary Education Licensure (SELC)

Total credits: 23

This concentration may be pursued on a part-time or full-time basis.

Students enrolled in this program must earn a B or higher in all coursework.

Early Childhood Education for Diverse Learners, BSEd (pending SCHEV approval)

Banner Code: E1-BSED-ECDL

Phone: 703-993-3844
Email: earlyed@gmu.edu
Website: https://gse.gmu.edu/early-childhood/
Note: As of catalog publication in April, the program described below has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia (SCHEV) for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

This bachelor’s degree provides students with the opportunity to develop a strong cross-disciplinary foundation as well as specialized knowledge to work with culturally, linguistically, ability, and socioeconomically diverse young children, families, and other professionals. The courses in the major ensure that students engage in a well-rounded, cohesive program of studies that prepares them to be high-quality early childhood educators. Students may select one of the optional teacher licensure concentrations (i.e., Early Childhood Special Education, Early/Primary Education PreK-3, Early Childhood Special Education and Early/Primary Education PreK-3) or a non-licensure sequence to fulfill the requirements for the BSEd in Early Childhood Education for Diverse Learners.

Admissions & Policies

Note: As of catalog publication in April, the program described below has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia (SCHEV) for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

Admissions

Students entering as freshmen with an interest in majoring in Early Childhood Education for Diverse Learners will initially be accepted into the Early Childhood Education for Diverse Learners, BSEd, without concentration.

Four-Year Students

To declare a concentration in Early Childhood Special Education (Licensure), students must successfully complete a minimum of 45 credits and attain a cumulative GPA of 2.50. They must submit passing scores for Commonwealth of Virginia mandated tests for the licensure area.

To declare a concentration in Early/Primary Education PreK-3 (Licensure) or Early Childhood Special Education and Early/Primary Education PreK-3 (Dual Licensure), students must successfully complete a minimum of 45 credits and attain a cumulative GPA of 2.50. They must submit passing scores for all Commonwealth of Virginia mandated tests for the licensure area and must be within nine credits of completing content endorsement coursework. Students may complete the Reading for Virginia Educators (RVE) test after admission to the concentration and successful completion of ECED 412.

Certificate with Concentration in Data Literacy

This 12-credit online concentration prepares teachers, building-level and district-level leaders to create, analyze and interpret a variety of student performance assessments in order to improve instruction and student learning. The four carefully-sequenced courses for the certificate focus on developing meaningful teacher-created and classroom-based student assessments, interpreting both informal and formal assessment data, and using those data in making curricular decisions. Practicing teachers and other school leaders have the opportunity to apply assessment and decision-making skills to their own classrooms or schools. Credits earned for the certificate may be applied toward the Educational Psychology, MS (p. 199).

Admissions & Policies

Policies
For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Certificate Requirements

Total credits: 12

This certificate may be pursued on a part-time basis only.

Education Leadership, MEd

Banner Code: E1-MED-EDLE

703-993-3633
edleprog@gmu.edu
https://gse.gmu.edu/education-leadership/academics/masters-in-education-leadership

This 30-credit master’s degree prepares candidates for leadership and management positions in a variety of educational settings. The program emphasizes an understanding of the complexities of change in schools, communities, and organizations. Participants are expected to develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, continual knowledge acquisition, instructional leadership, innovative and ethical decision making, reflective practice, and successful achievement of all school-aged youth.

The internship is integral to the MEd and provides an opportunity to synthesize and apply the knowledge and practice the skills identified in the Educational Leadership Constituency Consortium Standards through substantial, sustained work in educational settings.
MEd with Concentration in Independent School Leadership (non-licensure) (ISL)

This concentration is a non-licensure path within the Education Leadership program with a focus on the unique leadership and instructional needs of directors, heads of schools, and other professionals responsible for the growth and management of independent and private schools. Like other candidates in the Education Leadership program, students will develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, instructional leadership, innovative and ethical decision-making, reflective practice, and the successful achievement of all students, with an emphasis on the independent school context.

MEd with Concentration in Mathematics Specialist Leader (K–8) (MSLR)

This concentration is designed for working professionals. Students study mathematics content and pedagogy, teaching, curriculum and professional development. They also explore school-based leadership issues in mathematics education. The internship is an individual experience designed and developed in consultation with a faculty advisor or mentor. This program includes all coursework required for Virginia state licensure as a K-8 mathematics specialist and do not complete the Core requirements for the MEd in Education Leadership. Students must earn a B- or higher in all licensure coursework. Students who apply for this licensure must have three years of successful teaching experience in addition to the MEd degree.

Education Leadership Graduate Certificate

Banner Code: E1-CERG-EDLE

Academic Advising

Phone: 703-993-3633
Email: edleprog@gmu.edu
Website: gse.gmu.edu/education-leadership/academics/education-leadership-graduate-certificate

This certificate, a state-approved (Virginia) sequence of courses leading to the Administration and Supervision PreK-12 endorsement area, is designed for educators who already hold a valid teaching license and already have a master's degree from a regionally accredited university. The program emphasizes an understanding of the complexities of change in schools, communities, and organizations. Participants are expected to develop and demonstrate the knowledge, skills, and dispositions necessary to create and maintain learning environments that value diversity, continual knowledge acquisition, instructional leadership, innovative and ethical decision-making, reflective practice, and successful achievement of all school-aged youth.

This graduate certificate may be pursued on a part-time or full-time basis and may be added as a secondary program of study by current Mason students who meet the admission requirements and are enrolled in non-licensure graduate programs. This certificate option is available to students enrolled in the Education Leadership program and not in the Education Leadership with Special Education Concentration (SELE).

This certificate program qualifies for Title IV Federal Financial Aid. For more information about the program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure (https://irr2.gmu.edu/gedt/Education_Leadership/Gedt.html) page.

Education Policy Graduate Certificate (pending SCHEV approval)

Banner Code: E1-CERG-EPOL
Website: gse.gmu.edu

Overview

Note: as of catalog publication in April, the program described below has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

The innovative Education Policy Graduate Certificate is designed to meet the needs of students with an interest in improving educational opportunities and student outcomes through federal, state, and local policy. The 15-credit program focuses on the study of education policy, including how decisions are made at various levels of government, how decision makers use educational research and evidence, and how to influence the decision-making process. Open to all students, regardless of their experience level, the program examines pressing challenges facing our education system, from preschool and K-12 through college and beyond, and prepares students to engage effectively with policymakers and stakeholders and to help shape and influence education policy.

The field of education policy needs professionals who can understand and analyze problems, think critically, and come up with creative and pragmatic solutions to address tough challenges in the world of education. Whether interested in pursuing a career in government, the education sector, think tanks, or nonprofit organizations, the Education Policy Graduate Certificate is meant to set students on the path to impacting education policy.

Admissions & Policies

Education, PhD

Banner Code: E1-PHD-EDUC

Academic Advising
Phone: 703-993-2011
Email: cehdphd@gmu.edu
Website: gse.gmu.edu/phd-in-education

This program is designed to advance professional study to develop research-informed expertise in a selected field of professional education. As a program of doctoral study, it emphasizes theory and research as much as it does practice, breadth of study as much as depth, and process as well as knowledge. It seeks to develop both knowledge and the skills useful in educational roles as well as the abilities to analyze and respond to problems in their relationships to various educational concerns.

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study. See Graduate Admissions Policies (p. 68).

Eligibility and Application Requirements
Admission is highly-selective and applicants must fulfill all admission requirements: a minimum of three years of successful experience as a practitioner in an educational setting, baccalaureate and master's (or equivalent) degrees from accredited institutions, demonstrated high intellectual capability and leadership potential, three letters of recommendation and GRE general test scores including the writing assessment.

For more information, call the PhD Office at 703-993-2011. Completed applications must be submitted by January 15 for fall admission, or
by October 1 for spring admission. To apply, see Graduate Admissions (https://www2.gmu.edu/admissions-aid/how-apply/graduate).

**Policies**

For policies governing all doctoral degrees, see AP.6.10 Requirements for Doctoral Degrees (p. 96).

**Program of Study**

A written program of study which lists all courses required to complete the program is used to verify that students have met all requirements at graduation. If changes are made in the program of study after its approval, the changes must be made in writing and submitted to the Office of the University Registrar with the Advancement to Candidacy paperwork.

**Reduction of Credit**

Students must have a master’s degree before being admitted to the PhD. As such, admitted students will receive a reduction of 9 credits.

<td></td>
</tr>
</tbody>
</table>

**Total Credits** 12

1 Students must register for 3 credits the first semester enrolled in EDUC 998 Doctoral Dissertation Proposal or KINE 998 Doctoral Dissertation Proposal. Students preparing their proposal must register for 1 credit each semester thereafter until the proposal has been successfully defended.

2 Students must register for 3 or 6 credits the first semester enrolled in EDUC 999 Doctoral Dissertation Research or KINE 999 Doctoral Dissertation Research and must register for at least 1 credit thereafter until all work has been completed including the semester in which the degree is conferred.
**PhD without Concentration**

All students are required to create electronic portfolios to define academic and professional goals; formulate specific plans to achieve those goals through coursework, research experiences, and field-based activities; demonstrate growth in understanding the specializations and how knowledge in them is advanced through inquiry; synthesize and reflect upon the process and results of learning activities; modify goals and plans as needed based on academic and reflective self-evaluation as well as feedback from the student's Program Advisory Committee and demonstrate readiness to proceed to the dissertation phase of the program.

The first portfolio review must be completed when 18 credits have been completed or before the end of the third semester. The second portfolio review must be scheduled at the completion of 36 credit hours. When students complete the coursework phase of the program, a final meeting is held with the Program Advisory Committee. This meeting is the context for conducting the comprehensive portfolio assessment, a formal evaluation of a student's readiness to proceed to the dissertation phase of the program which is analogous to the traditional doctoral comprehensive exam.

**Program Advisory Committee**

Students choose a program advisory committee of three George Mason University faculty members prior to the end of their second semester. It is chaired by the student’s major advisor who represents the student’s primary specialization. One member must represent the student’s secondary emphasis. The major functions of this committee include assessing the student’s goals, interests and academic needs, approving the program of study, monitoring the student’s progress through the program and evaluating the student’s three portfolio reviews.

**Primary Specialization**

Professional specializations include: early childhood education, education leadership, education policy, educational psychology, higher education, international education, learning technologies design research, literacy and reading, mathematics or science education leadership, multilingual/multicultural education, research methodology, science education research, special education, and teaching and teacher education.

Educational Psychology, MS

Banner Code: E1-MS-EDP

Academic Advising
Phone: 703-993-3679
Email: edpsych@gmu.edu
Website: gse.gmu.edu/educational-psychology/

This master's program is designed to offer professionals and students the opportunity to apply principles of learning, cognition, and motivation to vital problems in the area of education; develop a solid understanding of research, assessment, and evaluation methodologies; and develop an analytical and scholarly approach to critically assessing theoretical perspectives, research, and practice within and across content domains. By participating in a supportive and collegial environment with faculty from numerous educational disciplines and expertise, students are expected to develop the skills to meet the needs of diverse populations and design and implement effective educational programs appropriate for a broad range of cultural contexts.

**Concentration in Teacher Preparation (EDPT)**

Individuals pursuing the Educational Psychology, MS Concentration in Teacher Preparation must be admitted into one of the following teacher licensure certificate programs prior to completion of MS coursework:

- Curriculum and Instruction Graduate Certificate (p. 187) (Concentration in Secondary Education Licensure)
- Special Education Graduate Certificate (p. 218) (Concentrations in General Curriculum K-12, Adapted Curriculum K-12, or Visual Impairments Licensure PK-12)
- International ESOL/ESL Teacher Education Graduate Certificate (p. 208), Concentration in ESOL/ESL Special Education

Students apply three courses (9 credits) from the certificate towards the MS degree in educational psychology with the expectation that they will complete the teacher certification program.

**Accelerated Master’s**

**Bachelor’s Degree (any)/Educational Psychology, Accelerated MS**

**Overview**

Qualified Mason undergraduates may be admitted to a bachelor’s/accelerated master’s program and obtain a BA or BS in any degree area and an Educational Psychology, MS within an accelerated time frame in one of the following three concentrations:

- Assessment, Evaluation and Testing (EDPA)
- Learning and Decision-Making in Leadership (EDPD)
- Learning, Cognition and Motivation (EDPL)

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing accelerated programs, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93).
Application Requirements

Applicants to all GMU graduate programs must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). Additionally, applicants must have an overall GPA of at least 3.00. See the Accelerated Master's Admissions (https://www2.gmu.edu/admissions-aid/how-apply/accelerated-masters) webpage to apply.

Accelerated Option Requirements

Foreign Language Licensure Graduate Certificate

Banner Code: E1-CERG-FLNC

Academic Advising

Phone: 703-993-3173
Email: TCLDEL@gmu.edu
Website: gse.gmu.edu/teaching-culturally-diverse-exceptional-learners/master-concentration/foreign-language-licensure-graduate-certificate

This certificate is designed to provide an interdisciplinary, theory-based course of study for initial licensure candidates and provisionally-licensed teachers. It is intended to assist students in developing a reflective stance toward practice and to enhance their ability to address critical issues in language and learning. It also intends to advance their fundamental understanding about language, technology, pedagogy, and culture, as well as issues related to diversity in schools and in society at large.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about the program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure (https://irr2.gmu.edu/gedt/Foreign_Language_Licensure/Gedt.html) page.

Admissions

Praxis Core or equivalent and demonstrated proficiency in the certificate language are prerequisites for admission.

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Certificate Requirements

Total credits: 27

This certificate may be pursued on a full-or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

Concentration in Arabic (ARBC)

Total credits: 27

Students must earn a B or higher in all coursework.

Website: hdfs.gmu.edu/human-development-family-science

This degree prepares its graduates to use family-centered and strengths-based approaches to support the health and well-being of individuals and families in diverse communities. Graduates will have a strong interdisciplinary foundation in the HDFS field and competencies in 10 areas as established by the National Council on Family Relations, including:

- internal dynamics of relationships and families
- human growth and development
- family-and community-based program planning, implementation, and evaluation
- social policies and laws affecting families
- family diversity
- research methodology
- professional ethics as related to the HDFS field

The HDFS curriculum prepares students to effectively engage with families across the lifespan and in a variety of service settings and professions, from early childhood education and care to family law and policy advocacy. We offer students 5 concentrations, including:

- child development, education, and services
- adolescent development and services
- adult development and aging
- family health and well-being
- family research, policy, and advocacy

Our program prepares students to critically analyze complex family issues, advocate for families in schools, communities, and in the policy arena, and address social-structural factors contributing to and influencing family functioning, health, and well-being (e.g., poverty and wealth inequality, immigration and illegalization, family homelessness, incarceration, family violence, and discrimination and structural violence such as racism, nationalism, or heterosexism). Students are required to complete a 6-credit internship and integrate research training with service fieldwork. Such an experience is a critical component of HDFS student development and will further prepare our students for graduate education and diverse careers in the human development and family science field.

The HDFS program is a joint academic degree program sponsored by the College of Education and Human Development (CEHD) (p. 161) and the College of Humanities and Social Sciences (CHSS) (p. 305).
## Requirements

### Human Development and Family Science Minor (CEHD)

**Banner Code:** HDFS

**Academic Advising**

Phone: 703-993-5856  
Email: HDFS@gmu.edu  
Website: hdfs.gmu.edu/human-development-family-science/minor

This 15-credit interdisciplinary minor is available to all Mason undergraduate students and provides background knowledge in human development and family science, specifically addressing how diverse children and adults develop, adapt, and function within the contexts of their families, communities, and society.

This minor is a joint program with coursework selected from both the College of Education and Human Development (CEHD) and the College of Humanities and Social Sciences (p. 305).
Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP 5.3.4 Minors (p. 90).

Requirements

Minor Requirements

Total credits: 15

Total Credits: 6

Electives

Select at least one course from each of the two component areas (development and diversity) below

A third elective may be selected from any component or with permission of an HDFS advisor

Total Credits: 9

To reflect the interdisciplinary nature of the HDFS minor, two courses must have prefixes from disciplines outside of your major area of study (e.g., for PSYC majors, two courses must come from CEHD prefixes: ATEP (p. 1288), ECED (p. 1556), EDUC (p. 1577), HEAL (p. 1794), PHED (p. 2052); for ECED majors, two courses must come from CHSS prefixes: ANTH (p. 1212), INTS (p. 1862), PSYC (p. 2074), SOCI (p. 2167)).

International ESOL/ESL Teacher Education Graduate Certificate

Banner Code: E1-CERG-IETE

Academic Advising

Phone: 703-993-3173
Email: TCLDEL@gmu.edu

Available Concentrations

Concentration in ESOL/ESL Special Education

This concentration offers coursework for students and professionals seeking crossover training in ESL/ESOL and special education.

Concentration in International Special Education (PK-12)

This concentration is designed for pre-service and in-service international teachers and educators who desire additional training in special education. All coursework may be applied to the MEd in Special Education (p. 216) and will count towards Virginia licensure in special education K-12.

Concentration in International ESOL Licensure (PK-12)

This concentration offers coursework leading to teacher licensure (Virginia) in English as a Second Language. Candidates whose first language is not English may be required to pass an oral and written proficiency assessment in English to meet state licensure requirements and national professional standards.

Concentration in PK-12 for Practitioners

This concentration prepares educators for both domestic and international teaching assignments working with culturally and linguistically-diverse learners. It provides courses for licensed teachers to earn an add-on endorsement in English as a second language (ESL) PK-12, also known as English for speakers of other languages (ESOL).
Candidates whose first language is not English may be required to pass an oral and written proficiency assessment in English to meet state licensure requirements and national professional standards.

Admissions & Policies

Policies

For policies governing all graduate certificates, see AP6.8 Requirements for Graduate Certificates (p. 94).

Requirements

Certificate Requirements

Total credits: 15-30

This certificate may be pursued on a full-or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

Concentration in ESOL/ESL Special Education (EESE)

Total credits: 18

The concentration may only be pursued on part-time basis.

Available Concentrations

Concentration in Blended and Online Learning in Schools
This 16-credit concentration meets the needs of K-12 educators interested in teaching in blended as well as fully online learning environments. The concentration is offered fully online.

Concentration in Designing Digital Learning in Schools
This concentration is offered to practicing teachers who wish to gain the necessary knowledge and skills for integrating digital learning and K-12 curricular knowledge outcomes. The concentration is framed by four learning outcomes: investigation of the theory and practice of digital learning, connection of digital learning and knowledge outcomes, use of design principles and processes to inform practice, and knowledge of a range of technologies appropriate for PreK-12 learners.

Concentration in Digital Learning and Teacher Leadership
This concentration is offered to practicing teachers who wish to extend their knowledge and skill working with colleagues to design digital learning experiences for PreK-12 learners. Candidates will develop proficiency in adopting leadership dispositions, skills associated with coaching and advocacy, and leading design team to develop solutions to school-based instructional problems.

Concentration in E-Learning
This concentration provides professionals with specialized knowledge in instructional design and e-learning practices that utilize current and emerging technologies to meet education and training goals in schools, communities, government agencies, and corporate settings. Courses are available online to meet the needs of students who find it difficult to attend our face-to-face courses.

Admissions & Policies

Policies
For policies governing all graduate certificates, see AP6.8 Requirements for Graduate Certificates (p. 94).

Requirements

Certificate Requirements
Total credits: 15-18
This certificate may be pursued on a full-or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

Concentration in Blended and Online Learning in Schools (BOLS)
Total credits: 16
This concentration may be pursued on a part-time basis only.

Literacy/Reading Instruction Graduate Certificate

Banner Code: E1-CERG-LRIN

Admissions

Admissions & Policies

Admissions

Students enrolling in the Literacy Coaching concentration must hold either a Master's degree in Literacy (or closely-related field) or license/endorsement as a Reading Specialist.

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Requirements

Certificate Requirements

Total credits: 12-21

This certificate may be pursued on a part-time basis only.

Concentration in Reading Specialist (K-12) (RSPC)

Coursework

Students enrolled in this program must earn a B- or higher in all coursework.

Website: gse.gmu.edu/literacy-and-reading/academics/literacy-reading-specialist-graduate-certificate
This minor provides undergraduate students with background knowledge in mild disabilities. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia.

### Admissions & Policies

**Admissions**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). Fifteen credits of undergraduate psychology courses are required (General, Statistics, Research Methods/Experimental, Abnormal, and Developmental).

**Policies**

For policies governing all graduate degrees, see Graduate Policies (p. 90).

With the approval of the academic program coordinator, division director and CEHD Office of Student and Academic Affairs, a maximum of 26 credits may be reduced based on a previously-conferred graduate degree.

School Psychology Graduate Certificate
Banner Code: E1-CERG-SCH

Academic Advising
Phone: 703-993-5127
Email: nbeadles@gmu.edu
Website: gse.gmu.edu/school-psychology/

The School Psychology program which consists of the MA in Psychology, Concentration in School Psychology and the School Psychology Graduate Certificate, is committed to preparing graduate students to practice psychology in educational and clinical settings that serve children, adolescents, and their families. The program is approved by the School Psychology Training Programs of the National Association of School Psychologists (NASP). Students who successfully complete the concentration and the certificate will be eligible for licensure in Virginia by the state Board of Education and certification or licensure in other states as a school psychologist.

Admissions & Policies

Admissions
Applicants must have a conferred Master’s degree from a regionally-accredited institution prior to enrollment.

Policies
For policies governing all graduate certificates, see AP6.8 Requirements for Graduate Certificates (p. 94).
This certificate program qualifies for Title IV Federal Financial Aid. For more information about the program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure [link](https://irr2.gmu.edu/gedt/School_Psychology/Gedt.html) page.

### Admissions & Policies

#### Policies
Students who are eligible to waive coursework must complete a minimum of 15 credits in residency to graduate.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

### Certificate Requirements

Total credits: 22

This certificate may be pursued on a full-time basis only.

### Severe Disabilities Minor

#### Banner Code: SPSD

**Academic Advising**

Phone: 703-993-3670
Email: speced@gmu.edu
Website: gse.gmu.edu/special-education/teacher-licensure/adapted-curriculum

This minor provides undergraduate students with background knowledge in severe disabilities. Completing this minor partially fulfills requirements for licensure in Special Education in Virginia.

#### Admissions & Policies

**Policies**

At least eight credits must be unique to this minor and may not be used to fulfill requirements of the student’s major, concentration, an undergraduate certificate, or another minor. For policies governing all minors, see AP.5.3.4 Minors (p. 90).

### Special Education, BSEd (pending SCHEV approval)

#### Banner Code: E1-BSED-EDSE

**Phone**: 703-993-3670
**Email**: speced@gmu.edu
**Website**: gse.gmu.edu/special-education/

**Note**: As of catalog publication in April, the program described below has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia (SCHEV) for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

This bachelor's degree is designed to prepare both educators for the classroom and individuals working in a special education context outside of the classroom with the specialized skills and content knowledge needed to support the needs of individuals with disabilities. Students may focus their program on a specific area in the field by completing a teacher licensure concentration (i.e., Teaching Students with Disabilities who Access the General Curriculum K-12, Teaching Students with Disabilities who Access the Adapted Curriculum K-12, Teaching Students with Blindness and Visual Impairments PK-12) or a non-licensure sequence to fulfill the requirements for the BSEd in Special Education degree program.

#### Admissions & Policies

**Note**: As of catalog publication in April, the program described below has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia (SCHEV) for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

**Admissions**

Students with an interest in majoring in Special Education will initially be accepted into the Special Education, BSEd, without concentration.
Students must submit passing scores for all Commonwealth of Virginia mandated tests for the licensure area to enroll in the concentrations.

**Policies**

Students in the concentrations must maintain at least a 2.25 GPA in their major coursework and successfully complete:

- Emergency First Aid, CPR and AED certification or training.

Students enrolled in the General K-12 Licensure Concentration must also complete:

- Reading for Virginia Educators: Elementary and Special Education

Students enrolled in the Blindness and Visual Impairments PK-12 Licensure Concentration must also complete:

- Praxis II: Braille Proficiency
- Reading for Virginia Educators: Elementary and Special Education

**Requirements**

*Note: As of catalog publication in April, the program described below has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia (SCHEV) for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.*

**MEd with concentration in Early Childhood Special Education (Non-licensure) (SPEC)**

This concentration is for professionals who already hold an early childhood special education teacher license or are interested in working in an early childhood special education context outside the classroom.

Students who wish to seek early childhood education licensure are advised to consider completing the Early Childhood Special Education Licensure graduate certificate program in conjunction with the MEd. Students may use their certificate coursework to fulfill the elective credits for the MEd degree program.

**Accelerated Master’s**

**Bachelor’s Degree (any)/Special Education, Accelerated MEd**

**Overview**

Highly-qualified undergraduates may be admitted to the bachelor’s/accelerated master’s option and obtain a BA or BS in any degree area and an MEd in Special Education (with or without the concentration in early childhood special education [non-licensure]) in an accelerated time-frame after completion of 144 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 93) for policies related to this program.

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 68). For information specific to this accelerated master’s program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program) on the College of Education and Human Development web site.

**Accelerated Option Requirements: No Concentration Requirements**

Students complete the following courses in their senior year:

Process

While undergraduate students, accelerated master’s students are able to apply two of the courses listed above to both the Bachelor’s and Master’s degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Available Concentrations

Concentration in Adapted Curriculum (K-12)

This concentration offers required coursework for Virginia teacher licensure in Special Education: Adapted Curriculum.

The certificate with this concentration qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/Students_With_Disabilities_Who_Access_Adapted_Curriculum/Gedt.html).

Concentration in Early Childhood Special Education

This concentration offers required coursework for teacher licensure in Early Childhood Special Education.

The certificate with this concentration qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/Early_Childhood_Special_Education/Gedt.html).

Concentration in General Curriculum (K-12)

This 33-credit concentration offers required coursework for Virginia teacher licensure to individuals who will be working with students with disabilities who access the general curriculum. The concentration prepares individuals to work with students with disabilities who take Standards of Learning tests (SOLs) or Virginia Grade Level Assessments (VGLA).

The certificate with this concentration qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/Students_With_Disabilities_Who_Access_General_Curriculum/Gedt.html).

Concentration in Specialized Reading Instruction for Students with Specific Learning Disabilities

This 15-credit concentration prepares educators to meet the unique needs of K-12 students with specific learning disabilities who experience severe deficits in reading and written language. Candidates develop a deep level of knowledge in literacy development, reading, difficulties, assessment, instruction and progress monitoring for these students. This certificate does not apply toward teacher licensure.

The certificate with this concentration is a cohort-only program in which students begin and end the program together as a group.

Concentration in Visual Impairments Licensure (PK-12)
This concentration is designed for students seeking Virginia initial teacher licensure in visual impairments (PK–12).

Admissions & Policies

Policies
Students who have completed graduate or undergraduate coursework equivalent to certificate coursework prior to admission to this program may request that some courses in this certificate be waived. Students who are eligible to waive coursework must complete a minimum of 15 credits to graduate. Students must earn a B- or better in all coursework.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Requirements

Certificate Requirements
Total credits: 15-36
This certificate may be pursued on a full-or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

Concentration in Adapted Curriculum (K-12) (ADCU)

Academic Advising
Phone: 703-993-3670
Email: speced@gmu.edu
Website: gse.gmu.edu/special-education/professional-studies/special-education-leadership

This certificate provides training for educators who administer program implementation efforts for learners with exceptional needs. It is designed for those who have an interest in becoming special education directors, program coordinators, school building administrators, department chairs, or lead teachers; however, opportunities beyond special education also exist.

This graduate certificate is a cohort-only program in which students begin and end the program together as a group. It may only be pursued on a part-time basis.

Admissions & Policies

Policies
For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

### School of Recreation, Health, and Tourism

220 Bull Run Hall  
Science and Technology Campus (PW)  
Phone: 703-993-2060  
Email: srht@gmu.edu  
Website: rht.gmu.edu

The School of Recreation, Health, and Tourism (RHT) offers one doctoral specialization, three master’s degrees, two graduate certificates, two bachelor’s/accelerated master’s programs, four undergraduate degrees, two undergraduate certificates, seven minors, and seven interdisciplinary minors with other units.

### Graduate Programs

The PhD in Education with an Exercise, Fitness, and Health Promotion specialization cultivates research-based educators and practitioners to be critical thinkers and apply evidence-based (research-based) practice principles to preserve and enhance human movement in all settings and populations, promote optimal health and enhanced quality of life through physical activity, and provide rewarding learning experiences, through the conduct and dissemination of exemplary scholarship and preparation of professionals committed to service.

The MS in Athletic Training (MSAT) is a professional, entry-level program that prepares students to practice as athletic training healthcare providers.

The MS in Exercise, Fitness, and Health Promotion (EFHP) takes a science-based approach toward the fields of health and human performance. The program focuses on the role of physical activity in the promotion of health, fitness and quality of life.

The MS in Sport and Recreation Studies meets the growing need for professionals and academics in the areas of recreation administration, sport and leisure studies, sport management and individualized study in sport, recreation and tourism.

**Bachelor’s Degrees**

The BS in Health, Fitness, and Recreation Resources, with concentrations in Sport Management, Parks and Outdoor Recreation and Therapeutic Recreation prepare students for supervisory and management careers in private and public parks and recreation systems (clinical and community), non-profit and for-profit sport organizations. The Parks and Outdoor Recreation and Therapeutic Recreation concentrations are accredited by the Council on Accreditation for Parks, Recreation, Tourism, and Related Professions (COAPRT).

The BS in Kinesiology, which is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP American College of Sports Medicine sponsored), holds national program recognition status from the National Strength and Conditioning Association (NSCA-ERP) and prepares students to develop and utilize science-based approaches to healthful and proactive living strategies. Emphasis is placed upon the development of future professionals with the knowledge, skills, and abilities to enhance physical performance, fitness, and general well-being across the age spectrum.
The BSEd in Physical Education, accredited by the National Council for the Accreditation of Teacher Education (NCATE), prepares students for a teaching career (K–12) in public and private schools.

The BS in Tourism and Events Management degree is one of the fastest growing majors at the university with concentrations in Events Management, Hospitality Management and Tourism Management.

**Interdisciplinary Minors**

In addition to school-based minors, RHT offers seven minors in interdisciplinary areas of study. These minors require coursework from two or more disciplines and are administered by interunit faculty groups.

**Minor in Event Technical Production**

The Event Technical Production Minor (CEHD) (p. 225) is offered jointly by the School of Recreation, Health and Tourism (p. 221) and the School of Theater (p. 878) in the College of Visual and Performing Arts (p. 803). Students will learn how to plan, manage and execute live events and presentations. For details, see the School of Recreation, Health and Tourism website. (https://rht.gmu.edu/tourism-and-events-management/degree-options/event-technical-production-minor)

**Minor in Sport Analytics**

The Sport Analytics Minor (p. 241) is offered jointly by the School of Recreation, Health and Tourism (p. 221), School of Business (p. 888), College of Science (p. 613), and Volgenau School of Engineering (p. 1011).

**Minor in Sport and American Culture**

The Sport and American Culture Minor (p. 238) is offered jointly by the School of Recreation, Health and Tourism (p. 221) and Department of History and Art History (p. 392). Students will learn about sport and its interconnection with other societal institutions. For details, see the School of Recreation, Health, and Tourism website. (http://rht.gmu.edu/programs/minor7)

**Minor in Sport and Computer Game Design**

The Sport and Computer Game Design Minor (p. 239) is offered jointly by the School of Recreation, Health and Tourism (p. 221) and the Computer Game Design Program (p. 817) in the College of Visual and Performing Arts (p. 803). This minor provides a combined introductory look at both the sports and computer game industries.

**Minor in Sport and Conflict Resolution**

The Sport and Conflict Resolution Minor (p. 239) offered by the School of Recreation, Health, and Tourism (p. 221) and School for Conflict Analysis and Resolution (p. 936).

**Minor in Sport Communication**

The Sport Communication Minor (p. 331) is offered jointly by the School of Recreation, Health and Tourism (p. 221) and the Department of Communication (p. 313).

**Minor in Sustainability**

The Sustainability Studies Minor (p. 713) is offered jointly by the Department of Environmental Science and Policy (p. 687) and School of Integrative Studies (p. 574). Students may take select Recreation Management (PRLS courses) and Tourism and Events Management (p. 242) courses to meet elective requirements.

---

**Faculty**

**School Faculty**

**Professors**

R. Baker, Brayley, S. Caswell, Chalip, Daniels, M. Jones

**Associate Professors**

**Assistant Professors**

Andre, Aylsworth, Fyock, Jin, Martin, Parham, Robison, Stroiney

**Instructors**

Casserly, DeGregorio, P. Gilbert, Jacobson, T. Jones, Krout, Magnant, Norden

---

**Requirements & Policies**

**Requirements**

**Writing-Intensive Requirement**

The university requires all undergraduate students to successfully complete at least one 300-level or above course designated ‘writing-intensive’(WI) in their major(s). For RHT students, the WI requirement is satisfied by the successful completion of KINE 450 Research Methods, PHED 340 Social and Cultural Issues in Physical Education, or SRST 450 Research Methods dependent on program requirements.

**Policies**

**Minors**

In accordance with university policy, at least eight credits must be unique to the minor and may not fulfill requirements of the student’s major, concentration, or another minor. For policies governing all minors, see AP.S.3.4 Minors (p. 90).

Athletic Training, MS
Banner Code: E1-MS-ATT

Academic Advising
Phone: 703-993-9914
Email: msat@gmu.edu
Website: rht.gmu.edu/athletic-training/msat

This is a professional preparation program for aspiring athletic training healthcare professionals.

The program provides students with a strong foundation of the competencies and proficiencies (knowledge, skills and attitudes) established by the National Athletic Trainers’ Association (NATA) and an educational experience that complies with the Commission on Accreditation of Athletic Training Education (CAATE) standards for professional athletic trainer preparation. Because of increasing employment opportunities in youth athletic leagues and school settings, students also engage in pediatric sports medicine coursework to address the special needs of this patient population. Students will deliver care to diverse patient populations at a variety of clinical practicum education sites.

Successfully completing the program will prepare a student to become a nationally certified, athletic training Board of Certification (BOC®), Virginia Board of Medicine licensed athletic trainer.

Admissions & Policies

Admissions

Application Requirements
• Completed Application for Graduate Study
• Completion of bachelor’s degree by program start
• GRE with scores of 145 on each section is preferred (must be within 5 years)
• Personal goals statement (up to 500 words), covering the following items: academic and occupational background, the development of your interest in athletic training, reasons for wanting to enter this program, qualities you possess which will enhance functioning as an athletic training, career objective(s)
• Two recommendations from professional references
• Proof of current Emergency Cardiac Care (CPR/AED) Certification at the level of Healthcare Professional
• Grade of "C" or better in the following courses:

Policies

For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

Requirements

Degree Requirements
Total credits: 65

All courses must be taken at Mason.

The MSAT requires a grade of B- or higher in all ATEP required coursework, and maintenance of current Health Care Provider Emergency Cardiac Care (ECC) and First Aid certifications.

George Mason University is currently seeking accreditation for their new Athletic Training program and is not accredited by the Commission on Accreditation of Athletic Training Education (CAATE). The institution completed the accreditation site visit in February 2018 and should have the accreditation status by May 2018. Completion of a site visit does not guarantee that the program will become accredited. Students who graduate from the program prior to accreditation WILL NOT be eligible to sit for the credentialing examination for athletic trainers and will not be eligible for licensure in most states.

Special Requirements

Fees and Expenses

All ATEP (p. 1288) courses will assess a $17 accreditation fee per credit, a $25 program fee per credit, a $200 practicum clinical supervision fee for ATEP 686, through student accounts when paying tuition. For more information on the need for these fees please see the Student Accounts website (http://studentaccounts.gmu.edu/tuition-fees) under College of Education and Human Development. For additional information on housing, transportation, and other costs please see the Admissions Paying for College website. (https://www2.gmu.edu/admissions-aid/ paying-for-college)

Technical Standards

After admission to the MSAT, students must submit a technical standards certification statement, located on the MSAT website, indicating that they have read, understand, and can meet the technical standards for athletic training students, either with or without accommodation. These standards outline the essential functional tasks that students must be able to perform to enroll in and complete the program. Students requiring special accommodations are encouraged to contact the Office of Disability Services (http://ds.gmu.edu).

Health Examinations and Certifications

Athletic training students are required to have evidence of completion of the three hepatitis B immunizations, a titer report indicating positive immunity, or a signed waiver. Students choosing not to complete hepatitis B immunizations will be required to sign a declination waiver. Some practicum sites require proof of tuberculosis screening in accordance with current U.S. Public Health Service recommendations. Students will be responsible for any costs associated with such screenings. All MSAT students must complete annual blood-borne pathogens and infectious disease exposure training offered in the practicum courses. All students must have proof of current Emergency Cardiac Care (CPR/AED Certification at the level of a Healthcare Professional (e.g. American Heart Association’s Basic Life Support for Healthcare Professionals, the Emergency Care & Safety Institute (ECSI)) and First Aid Certification. For additional information about ATEP academic policies and procedures refer to the program handbook (https://rht.gmu.edu/athletic-training/forms).

Background Check

Students will be required to undergo a criminal background check at the student’s expense, upon admission to the MSAT. Most practicum sites require an additional background check before engaging in patient treatment. The Clinical Education Coordinator will provide instructions to complete the background check. If a criminal background check fails to meet the requirements of a student’s assigned practicum site, the student will be withdrawn from the practicum site and may be prohibited from completion of the MSAT curriculum. Students are encouraged to disclose any criminal background incidences to the ATEP Director and Clinical Education Coordinator prior to practicum placement, to determine if the incidences might be detrimental to placement at a practicum site.

Transportation Responsibilities

It is the responsibility of the MSAT students to arrange transportation to and from their assigned practicum course sites. It is recommended that students have personal transportation. A limited number of sites are accessible via public transportation. In the case that a practicum site is not accessible by public transportation and the student does not have a car, it is suggested the student take public transportation as far as possible and then take a taxi to the site. The student is responsible for all transportation fees including but not limited to gas, parking, bus, metro, taxi and zip car expenses. Students that have financial difficulty are encouraged to meet with a financial aid advisor to seek additional assistance.

Summer Courses

Students are required to engage in MSAT summer courses. Housing and travel arrangements are the responsibility of the student.

Coaching Minor

Banner Code: COCH

Academic Advising

Phone: 703-993-5200
Email: srht@gmu.edu
Website: rht.gmu.edu/minor/coaching

This minor has been designed for Mason students interested in the coaching profession at all age and ability levels, including future high school teachers who also want to coach. With this selection of courses, students will be introduced to foundational concepts in sport psychology, philosophy, pedagogy, nutrition, athletic training and physiology as well as important sport industry business concepts. Coaching minors will complete their work with a field experience in sport coaching.

This minor is available to all Mason undergraduate students.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP:5.3.4 Minors (p. 90).
## Minor Requirements

## Event Technical Production Minor (CEHD)

Banner Code: EVTP

Academic Advising

Phone: 703-993-6079
Email: theater@gmu.edu
Website: rht.gmu.edu/minor/eventtech

This minor is offered jointly with the College of Visual and Performing Arts (p. 803) (School of Theater (p. 878)).

This minor, available to all Mason undergraduate students, offers the opportunity to study special event management and event technologies, design and production for installations and special events. Students will gain insights into industry standards and practices regarding planning, managing, and executing live events and presentations. The required courses in this minor provide students with a foundational overview of management and production. Students can complement that knowledge with specific electives that meet their individual interests in events and areas of design and technology.

### Admissions & Policies

#### Policies

University policy states that students must earn 8 distinct credits that are not used for their major toward their minor, with a minimum grade of 2.00 earned in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 90).

## Exercise, Fitness, and Health Promotion, MS

Banner Code: E1-MS-EFHP

Academic Advising

Phone: 703-993-2060
Email: gradrht@gmu.edu
Website: rht.gmu.edu/exercise-fitness-health-promotion/

This 36 credit Master of Science (MS) degree in Exercise, Fitness, and Health Promotion (EFHP) takes a science-based approach toward the fields of exercise science, sports medicine, athletic training, biomechanics, exercise physiology, sports performance and strength and conditioning.

The program focuses on the role of physical activity in the promotion of health, fitness and quality of life. The degree promotes scholarly inquiry and cultivates professionals able to understand and apply evidence-based scientific principles when working with physically-active individuals. Completion of the degree prepares individuals for employment in exercise, wellness, health and human performance-related professions or the pursuit of further academic study. The program is recognized by the NSCA Education Recognition Program (ERP) which recognizes regionally accredited academic institutions for their educational programs that have met, and continue to meet, education guidelines recommended by the NSCA.

This program offers the traditional research master’s thesis option or a research project option.

### Admissions

This program has a limited number of competitive graduate research assistantships that may be available through the College of Education and Human Development or other external research funding sources.
Other university funding opportunities (e.g. scholarships, assistantships, fellowships, loans) exist as well. Students may indicate their interest in being considered for an assistantship in their admission application.

**Policies**

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

**Requirements**

### Degree Requirements

Total credits: 36

All students are required to complete all core courses as well as courses in the concentration and a capstone thesis or research project (6 credits). The typical plan of study for the advanced practitioner concentration is 4 semesters of full-time classes (3 classes/9 credits per semester).

</table>

**Total Credits** 6

---

1. **Research Project Option**: students complete EFHP 598 Special Topics and EFHP 798 Project. In the topics course, students conduct a directed research project with an EFHP faculty member that is aligned with the faculty member’s research agenda. Then, in the project course, students work with the EFHP faculty member to develop a paper and presentation in the format of submission to a peer-reviewed journal and presentation at professional conferences, respectively.

2. **Thesis Option**: students complete EFHP 598 Special Topics and EFHP 799 Thesis. In EFHP 598 Special Topics, students develop independent research proposals. Then, in consultation with the EFHP Program Coordinator, students select two additional faculty members to form a three-member thesis committee. One committee member may be selected from faculty outside of the program. Students may not register for thesis credit until the student’s thesis committee and the EFHP Program Coordinator have approved a proposal. Once the committee approves the proposal, students register for thesis credit and conduct their independent research projects.

---

### Accelerated Master’s

#### Bachelor’s Degree (any)/Exercise, Fitness and Health Promotion, Accelerated MS Overview

Qualified Mason undergraduates may be admitted to a bachelor’s/accelerated master’s program and obtain a BA or BS in any degree area and an Exercise, Fitness and Health Promotion, MS. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 93) for policies related to this option.

#### Application Requirements

Applicants must have an overall GPA of at least 3.00 and have successfully completed BIOL 124 and BIOL 125. See the Accelerated Master’s Admissions (https://www2.gmu.edu/admissions-aid/how-apply/accelerated-masters) webpage to apply.

#### Accelerated Option Requirements

Students complete the following courses in their senior year:

### Food and Beverage Management Undergraduate Certificate

**Banner Code**: E1-CERB-FBM

**Academic Advising**

Phone: 703-993-4260

Email: sslocum@gmu.edu
This Food and Beverage Management Undergraduate Certificate provides students the opportunity to prepare for a career in a variety of food and beverage operations, including hospitality, restaurants, and institutional (e.g., schools, hospitals) food service management. This 24-credit certificate is available to all Mason undergraduate students as well as nonstudents who possess a bachelor’s degree. The required courses provide exposure to the core business functions needed to succeed in the food and beverage industry. Students can complement that knowledge with specific electives that further enhance food and beverage skills for a wide array of employment opportunities.

**Admissions & Policies**

**Policies**

A completed undergraduate certificate may be posted to the transcript only after completion of a bachelor’s degree. If applying after earning a bachelor’s degree, transcripts from all attended universities must be submitted.

For policies governing all undergraduate certificates, see AP.5.3.5 Undergraduate Certificate Policies (p. 90).

**Requirements**

**Certificate Requirements**

Total credits: 24

This certificate may be pursued on a part-time basis only.

**Health, Fitness, and Recreation Resources, BS**

**Banner Code: E1-BS-HFRR**

**Parks and Outdoor Recreation and Therapeutic Recreation Concentrations**

703-993-5261
Email: swoltz@gmu.edu
Fairfax campus: 2300 Thompson Hall
Prince William campus: 225 B Bull Run Hall

**Sport Management Concentration**

703-993-5200
Email: mgnoleba@gmu.edu  
Fairfax campus: 2300 Thompson Hall  
Website: https://rht.gmu.edu/under-degrees

This 120-credit degree allows students to specialize in one of three varied concentrations:
- Concentration in Parks and Outdoor Recreation (Green Leaf program)  
- Concentration in Sport Management  
- Concentration in Therapeutic Recreation

**Admissions & Policies**

**Policies**

For policies governing all undergraduate degrees, see Academic Policies (p. 77). Students should also review Mason Core (p. 142) requirements.

**Internship Application**

The internship is a 12-credit capstone course taken at the end of a student’s academic program. Students must have earned 90 credit hours and met the specific prerequisites for their concentration to be eligible for the internship (see PRLS 490 Recreation Management Internship (Mason Core) (p. 142), and SPMT 490 Internship (Mason Core) (p. 142). The internship is designed to be a capstone experience for each student in his or her specific concentration area.

The internship process begins with a mandatory meeting hosted by the internship coordinator. During the preliminary phase students will develop learning goals and consult with faculty on viable internship sites. Once the internship site has been selected, the student must complete 400 hours of an applied experience in their field of study for Sport Management and Parks and Outdoor Recreation. Therapeutic Recreation (TR) requires a 560-hour, sixteen consecutive week field placement experience in therapeutic recreation services under a certified therapeutic recreation therapist (CTRS) using the therapeutic recreation process.

Throughout the internship for all programs, the student will be monitored by a site supervisor (CTRS for therapeutic recreation), as well as a university supervisor, to facilitate a meaningful experience.

**Requirements**

**Degree Requirements**

Total credits: 120

This is a Green Leaf program.

**Concentration in Parks and Outdoor Recreation (POR)**

This concentration within the Recreation Management program explores the contribution of recreation and parks to public well-being and quality of life. The curriculum includes courses in natural resources management, outdoor recreation programming, and environmental education. The Recreation Management program is accredited by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions. Graduates of this career ready program are employed in national, state, and local recreation and park agencies, non-profit organizations, and private and commercial operations. Students complete both a supervised practicum and internship in professional settings.

### Concentration in Sport Management (SPMT)

This concentration enhances the professional development of liberal arts-educated students, thereby preparing them to assume entry-level managerial positions in the multi-billion dollar sport industry, including private enterprises, government or public employment sectors, nonprofit or voluntary agencies, and commercial sport ventures. Preparation in sport marketing, sales, finance, ethics, sport communications, economics, law, operations, planning, and program leadership fosters the skills that enhance students’ acquisition and advancement in sport management careers. An integral part of the program is the opportunity to complete two field experiences in sport organizations: a part-time practicum and a full-time internship.

### Concentration in Therapeutic Recreation (TR)

This concentration within the Recreation Management program teaches a holistic approach to the treatment for people with disabilities across the lifespan. Completion of the therapeutic recreation (TR) foundation, issues, processes, programming and assessment courses to name a few, as well as an internship supervised by a Certified Therapeutic Recreation Specialist (CTRS), prepares graduating seniors to sit for the national exam sponsored by the National Council for Therapeutic Recreation Certification ([http://nctrc.org](http://nctrc.org)) and become a CTRS. The Recreation Management program is accredited by the Council on Accreditation of Parks, Recreation, Tourism and Related Professions. Graduates find employment in clinical and community settings; senior and adult health care; non-profit organizations; and schools.

### Accelerated Master's

#### Bachelor's Degree (selected)/Sport and Recreation Studies, Accelerated MS

**Overview**

Qualified Mason undergraduates may be admitted to a bachelor’s/accelerated master’s program and obtain a BA or BS in any degree area and a Sport and Recreation Studies, MS. See AP6.7 Bachelor’s/Accelerated Master’s Degree (p. 93) for policies related to this option.

### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 68). Additionally, applicants must have an overall GPA of at least 3.00. See the Accelerated Master’s Admissions (https://www2.gmu.edu/admissions-aid/how-apply/accelerated-masters) webpage to apply.

### Accelerated Option Requirements

During their senior year, students complete three to six graduate credits in consultation with the academic program coordinator that apply to both the bachelor’s and master’s degrees. These courses are considered advanced standing for the master’s. A minimum grade of B must be earned to be eligible to count as advanced standing. While still in undergraduate status, students may take up to six graduate credits that are reserve graduate credit and therefore, are applicable to the master’s but do not count toward the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which courses are to be designated as advanced standing and reserve graduate credit.

### Bachelor’s Degree (selected)/Environmental Science and Policy, Accelerated MS

**Overview**

This degree option allows highly qualified George Mason University students to earn an Environmental Science and Policy, MS (p. 696) in less time than if they had first graduated with an environmentally-focused Green Leaf-designated (p. 107) BA or BS degree and then applied to the MS program sequentially.

For more detailed information, see AP6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93). For policies governing all graduate programs, see AP6 Graduate Policies (p. 90).

### Admission Requirements

Students with an overall GPA of at least 3.20 who are pursuing any Green Leaf-designated (p. 107) major or minor may apply for provisional acceptance into this accelerated master’s program after completing two semesters of chemistry (including CHEM 211 General Chemistry I (Mason Core) (p. 142) and CHEM 212 General Chemistry II (Mason Core) (p. 142) and three semesters of biology, including a course in ecology, or the equivalent, for example:

<tr>
<td>EVPP 210</td>
<td>Environmental Biology, Molecules and Cells</td>
<td></td>
</tr>
</tbody>
</table>

Select one of the following options:
By the beginning of the undergraduate’s senior year, they should first submit a Graduate Application for Accelerated Master’s Program form (obtained from the Office of Academic and Student Affairs (https://cos.gmu.edu/about/contact-us)). Secondly, in their senior year accelerated master’s students must complete the two graduate courses indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. They must maintain a minimum GPA of 3.00 in all coursework and in coursework applied to their major. Upon completion and conferral of the undergraduate degree in a Green Leaf-designated (p. 107) program, in the semester indicated in the application, they must additionally submit the Bachelor’s/Accelerated Master’s Transition form (found on the Office of the University Registrar website (http://registrar.gmu.edu/forms)) and will subsequently be admitted into graduate status.

By at least the beginning of their senior year, they should seek out a faculty member in the Department of Environmental Science and Policy (p. 688) who is willing to serve as their advisor. This advisor will aid the student in choosing the appropriate graduate courses to take and help to prepare the student for graduate studies. Admission into a research-oriented master’s concentration is dependent upon securing the agreement of a faculty advisor. Faculty from a variety of departments and colleges at George Mason (called “program faculty”) can serve as master’s advisors. Potential students are encouraged to speak with the graduate program coordinator in the department to obtain guidance on this issue.

**Application Requirements**

Applicants to all graduate programs at Mason must meet the admission standards and application requirements for graduate study as specified in the Graduate Admission Policies (p. 68) section of this catalog, excluding the GRE exam requirement (which is not required for those enrolled in the accelerated program). This includes three letters of recommendation (at least one from a former professor or someone with a PhD), a recent resume, a statement of interest/research goals and interests (including information on the candidate’s proposed MS research), and a letter from their advisor stating that the advisor agrees to take on the candidate as an MS student, how the candidate would be a good fit for them and why candidate’s research topic would be suitable.

For information specific to the accelerated Environmental Science and Policy, MS (p. 696), see Graduate Admissions on the department’s website (http://esp.gmu.edu/academic-programs/graduate/admissions).

**Reserve Graduate Credits**

Students admitted to this program may take graduate courses after completing 90 undergraduate credits, and up to 6 credits of appropriate environmentally-focused graduate coursework may be used in partial satisfaction of the requirements for the undergraduate degree. If students earn at least a 3.00 GPA in these classes, they are granted advanced standing in the master’s program and must then complete an additional 27 credits to receive the master’s degree.

To apply these credits to the master’s degree, students must request that the credits be moved from the undergraduate degree to the graduate degree using the Bachelor’s/Accelerated Master’s Transition form found on the Office of the University Registrar website (http://registrar.gmu.edu/forms) (as noted above).

Students may take up to 6 additional environmentally-focused graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree but will reduce the subsequent master’s degree credits accordingly (e.g., with 6 credits counted towards undergraduate degree plus the maximum 6 reserve credits, an MS could be completed with 21 post-bachelor’s credits). The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department.

Kinesiology, BS

Banner Code: E1-BS-KNES

Academic Advising
Phone: 703-993-5261
Email: srht@gmu.edu
Website: rht.gmu.edu/kinesiology/kinesiology-degree-requirements

This degree in kinesiology is a demanding science-based program designed to prepare students for a career in clinical exercise, coaching, corporate fitness, exercise and sport psychology, medical and exercise equipment sales, personal training, sport and exercise nutrition, sport science, or wellness/fitness management. The Kinesiology (KINE) program provides students with a strong science foundation for post-graduate specialized study in kinesiology or professional schools (e.g., chiropractic, medical, physical therapy). The KINE program has a comprehensive approach to the study of human movement. Three separate internship experiences totaling 700 hours provide KINE students with the opportunity to apply evidence-based knowledge and its practical application in general fitness, clinical and sports performance settings.

The KINE degree is designed to assist students in their preparation for nationally-recognized certifications, specifically those offered by the American College of Sports Medicine (ACSM) and the National Strength and Conditioning Association (NSCA). See Admissions & Policies (p. 232) for details.

Admissions & Policies

Policies
Certification
Students are required to challenge either the ACSM-Certified Exercise Physiologist (EP-C) or the NSCA-Certified Strength and Conditioning Specialist (CSCS) exam by the 7th week of the semester in which they are enrolled in KINE 490 Kinesiology Internship III (Mason Core) (p. 142). All exam registration fees are the responsibility of the student. Scores must be reported to the KINE Internship Coordinator before students can receive credit for KINE 490 Kinesiology Internship III (Mason Core) (p. 142).

GPA and Grading
Students are required to maintain a minimum cumulative GPA of 2.5 each semester and to receive a grade of C or better in all major coursework (BIOL 124 Human Anatomy and Physiology, BIOL 125 Human Anatomy and Physiology, STAT 250 Introductory Statistics I (Mason Core) (p. 142), as well as all Professional Sequence courses). Failure to do so will result in probation or termination from the KINE program. The Kinesiology Academic Advisor is available to assist KINE students with course registration and academic plans. It is expected that KINE students will meet with their Academic Advisor each semester that they are enrolled at GMU.

Total Credits  14

Special Requirements

Fees and Expenses

All KINE (p. 1889) courses have a per credit fee of $15. Fees cover the following:

- laboratory supplies and equipment
- clinical supplies
- internship attire

Technical Standards

This degree is academically-rigorous with a significant experiential learning component, which places specific demands and requirements on its students. After admission into the KINE program, students must submit a technical standards certification statement indicating that they have read, understand, and can meet the technical standards for KINE students, either with or without accommodation. These standards outline the essential functional tasks that students must be able to perform to enroll in and complete the program. Students requiring special accommodations are encouraged to contact the Office of Disability Services (http://ds.gmu.edu).

Health Examinations and Certifications

KINE students are required to obtain a health examination and immunizations before beginning the internship phase of the program. Evidence of completion of the three hepatitis B immunizations and proof of tuberculosis screening in accordance with current U.S. Public Health Service recommendations must be provided. Costs associated with said screenings are to be assumed by the KINE student. Those who choose not to complete hepatitis B immunizations will be required to sign a declination waiver. All students must have Emergency Cardiac Care (CPR, AED) and First Aid certifications before entering their first internship experience and must maintain these certifications through the remainder of the KINE degree program.

Background Check

Students may be required to undergo a criminal background check prior to the first internship experience. Students must assume the risk that classes may be deferred and their program delayed due to the individual severity of notations on such a check and review by individual agencies. Students are encouraged to disclose any criminal background incidences to the KINE Program Coordinator prior to internship placement.

Kinesiology Graduate Certificate

(pending SCHEV approval)

Banner Code: E1-CERG-KNES

Dr. Joel Martin

207 Bull Run Hall
The term Tactical Athlete (TA) can refer to firefighters, police officers, emergency medical personnel, and soldiers in all branches of the military. The unique physical requirements of the TA require high levels of fitness and the ability to perform strenuous tasks with little to no warning. For all TA fields, fitness testing, fitness, and injury prevention are inherently part of the culture. The United States Bureau of Labor reports average to above average growth of firefighters, police, and military occupations over the next decade. According to data from 2015 there are 1.1 million (345,000 career, 815,000 volunteer) firefighters, over 800,000 police officers, and more than 1.2 million active duty military in the US.

The Kinesiology Graduate Certificate with a concentration in Tactical Athlete Strength, Conditioning and Injury Prevention features an 8 course, 24 credit, 100% online curriculum. The mission of the program is to provide graduates with foundational knowledge, skills and abilities to become leaders in tactical strength, conditioning and injury prevention. Throughout the curriculum, students will be provided a science-based approach toward the fields of exercise science, sports medicine, athletic training, exercise physiology, human performance and strength and conditioning. Upon graduation students will be prepared to enter the workforce and immediately apply knowledge to improve the health and fitness of a tactical populations.

Admissions

Admissions Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For specific information about this program, see Graduate Application Deadlines and Requirements on the College website (https://catalog.gmu.edu/admissions/graduate-policies).

Requirements

Note: as of catalog publication in April, the program described below has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia for consideration as a new degree program. The university cannot accept applications or enroll students in this program until SCHEV approval has been granted.

Certificate Requirements

Total credits: 24

This certificate may be pursued on a part-time basis only.

Phone: 703-993-2096
Email: phed@gmu.edu
Website: rht.gmu.edu/health-and-physical-education/

Completing this degree fulfills requirements for licensure in Health and Physical Education (PK-12) in Virginia. Students complete a student teaching experience in their final semester.

Admissions & Policies

Admissions

Four-Year Students

Students entering as freshmen with an interest in majoring in physical education will initially be accepted with BPRE status (Pre-Bachelor in Health and Physical Education). Students must successfully complete a minimum of 45 credits and attain a cumulative GPA of 2.50 to apply to the BSED in Physical Education Program. In addition:

- Recommended: submit passing score of 150 for the Praxis Core Academic Skills for Educators in Math (5732) and 470 composite score on VCLA Reading and Writing or passing scores on approved substitute tests
• have earned passing grades in
  • BIOL 124 Human Anatomy and Physiology
  • BIOL 125 Human Anatomy and Physiology
  • PHED 202 Teaching Skillful Movement C or better
• have earned at least 10 professional points (https://rht.gmu.edu/health-and-physical-education/professional-development-plan).

Degree-Seeking Transfer Students
Transfer students can apply for BSEd status by having:

• earned a minimum of 45 credits from their previous institution with a cumulative GPA of 2.50 or by completing 12 credits at Mason with a minimum of a 2.50 GPA;
• Recommended passing scores of 150 for the Praxis Core Academic Skills for Educators in Math (5732) and 470 composite score on VCLA Reading and Writing or passing scores on approved substitute tests.
• have earned passing grades in
  • BIOL 124 Human Anatomy and Physiology
  • BIOL 125 Human Anatomy and Physiology
  • PHED 202 Teaching Skillful Movement C or better
• earned at least 10 professional points (https://rht.gmu.edu/health-and-physical-education/professional-development-plan).

Policies
For policies governing all undergraduate degrees, see the AP5 Undergraduate Policies (p. 87) section of the catalog.

Student Teaching Internship
To enroll in PHED 415 Student Teaching in Physical Education (Mason Core) (p. 142), physical education majors must:

• have a minimum 2.50 GPA in the last 60 credits of coursework
• have passed and electronically submitted test scores for the VCLA and PRAXIS II exams to George Mason University and provide a paper copy of the test scores to the internship coordinator
• have satisfactorily completed all required Mason core and professional concentration courses.

The application must be completed one full semester before taking PHED 415 Student Teaching in Physical Education (Mason Core) (p. 142). Application deadlines are listed below and forms are located online (http://rht.gmu.edu/programs/phed/student_teaching).

Application Deadlines
• Fall Semester—February 1
• Spring Semester—September 1

Recreation Management Minor

PRLS 316  Leadership and Outdoor Education  3
Select 9 credits in electives.

Total Credits  82

1  Requires a grade of C or better.
2  Students must complete student teaching (PHED 415 Student Teaching in Physical Education (Mason Core) (p. 142)) within 5 years of completing PHED 202 Teaching Skillful Movement. If more than five years has lapsed from taking PHED 202 Teaching Skillful Movement and student teaching (PHED 415 Student Teaching in Physical Education (Mason Core) (p. 142), students will have to retake this foundational course before they can student-teach.

Professional Development and Fitness Requirement
Students must earn at least 10 professional development points (https://rht.gmu.edu/health-and-physical-education/professional-development-plan) to achieve BSEd status and 20 additional points to apply for student teaching. Professional development points may be earned by attending or volunteering at various events and activities.

Additionally, students will be expected to achieve and maintain the healthy zone of health related fitness as measured by FitnessGram® throughout their program. Accommodations will be made for students with documented physical disabilities.

Sport Communication Minor (CEHD)
Banner Code: SCOM

Academic Advising
Phone: 703-993-5200
Email: srht@gmu.edu
Website: rht.gmu.edu/minor/sc

This minor offers students the opportunity to examine important and timely sports-related issues in an ethical context as well as analyze sports from cross-cultural perspectives. Students will gain an understanding of sport mass media, sport communication, sports reporting, interpersonal and organizational communication, and the impact each has in our global society. The courses cover theory and practice in cross-platform communication, sports ethics and theoretical underpinnings, public relations, and marketing. The minor provides applied fundamentals for students seeking employment in the commercial world of sports (areas such as management or promotion of athletic organizations) and in sports media. The sport communication minor is offered jointly with the Department of Communication in the College of Humanities and Social Sciences.

Admissions & Policies

Admissions
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP:5.3.4 Minors (p. 90).

1 • Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the director.
• Depending on which courses students took as a required course (above), they may use either SPMT 201 Introduction to Sport Management or SPMT 304 Sport, Culture, and Society as an elective.
• COMM majors are required to take one elective SPMT course.

Sport Management Minor
Banner Code: SPMT

Academic Advising
Phone: 703-993-5200
Email: srht@gmu.edu
Website: rht.gmu.edu/sport-management/degree-options/minor/

This minor introduces students to the sports industry and the sport management academic discipline. Students will learn about the principles of finance, economics, policy, and governance as they relate to sports organizations. They will then have the opportunity to choose from a series of sport management courses to complete the minor, based on their area of theoretical or practical interest.

Admissions & Policies

Admissions
This minor is available to all Mason undergraduate students, with the exception of those enrolled in the Health, Fitness, and Recreation Resources, BS (p. 227) with a concentration in Sport Management.

Policies
Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 90).

Academic Advising
Phone: 703-993-2060
Email: gradsrht@gmu.edu
Website: https://rht.gmu.edu/sport-recreation-studies/

Concentrations
Students complete the certificate by choosing one of the following concentrations:

Concentration in International Sport Management
This concentration offers students the opportunity to study the managerial aspects of international sport enterprises. Theoretically-
grounded sport management skills will be examined and applied within the global context of the sport industry.

**Concentration in Sport Coaching**

This concentration provides students the opportunity to prepare for a career in coaching. Theoretically-grounded content addresses advanced skills applied to a variety of coaching situations.

### Admissions & Policies

#### Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

### Requirements

#### Certificate Requirements

Total credits: 15

This certificate may be pursued on a full- or part-time basis.

Students pursuing this graduate certificate may choose from any of the following concentrations:

**Concentration in International Sport Management (ISPM)**

Total credits: 15

### Sport and American Culture Minor (CEHD)

**Banner Code: SAMC**

**Academic Advising**

Phone: 703-993-1250
Email: histarsh@gmu.edu
Website: rht.gmu.edu/minor/sac

This interdisciplinary minor is offered jointly by the School of Recreation, Health, and Tourism (p. 221) and the Department of History and Art History (p. 392). This minor is for students who want to immerse themselves in the study of sport, sociology, and history. Students must take two required and four elective courses (two from Sport Management and two from History).

### Admissions & Policies

#### Admissions

This minor is available to all Mason undergraduate students.

#### Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 90).

Sport and Computer Game Design Minor (CEHD)

Banner Code: SCGD

Academic Advising

Phone: 703-993-5200
Email: srht@gmu.edu
Website: rht.gmu.edu/minor/scg

This minor is offered jointly with Computer Game Design (p. 817).

It offers academic preparation in an industry that has seen rapid expansion in the sale, design, and production of sport-related games around the world. The required courses provide students with a foundational overview of the sports industry, the sport management academic discipline, and computer game design. Students can complement that knowledge with the selection of courses in these two disciplines that meet their individual interests.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP5.3.4 Minors (p. 90).

Sport and Conflict Resolution Minor (CEHD)

Banner Code: SCNR

Phone: 703-993-4165
Email: ugradcar@gmu.edu
Website: rht.gmu.edu/minor/scnr

There has been a real growth in the establishment of non-profit organizations that use ‘sport for development’, sport to bring diverse communities together and also ‘sport for peace’ organizations in high conflict areas of the world. This minor will help prepare students to work for organizations dedicated to using sports for development, community building and peace. It provides students with a cross section of courses in sports management and conflict resolution. Courses in sports management frame the sports industry in a philosophical, ethical, cultural and business context. Conflict resolution courses will introduce students to foundational concepts in the study of human conflict, the analysis of conflict and problem solving techniques for helping to resolve conflict.

This is an interdisciplinary minor offered by the School for Conflict Analysis and Resolution (p. 936) and the School of Recreation, Health, and Tourism. (p. 221)
Admissions & Policies

Admissions
This minor is available to all Mason undergraduate students.

Policies
Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 87).

Sport and Recreation Studies, MS
Banner Code: E1-MS-SRST

Academic Advising
Phone: 703-993-2060
Email: gradrht@gmu.edu
Website: rht.gmu.edu/sport-recreation-studies/degree-options/

With concentrations in recreation administration, sport and leisure studies, sport management, and individualized study in sport, recreation, and tourism, the MS in Sport and Recreation Studies meets the growing need for professionals and academics. This degree prepares students as professionals who will more adequately serve the industry and their communities, and students who wish to pursue advanced study through doctoral programs in these disciplinary areas, leading to employment (and contributions) in academe. This program offers the traditional research masters’ thesis option and the option of an applied research project linked to a professional setting or internship.

The Sport Management Graduate Certificate (p. 237) with concentrations in Sport Coaching and International Sport Management may be taken in conjunction with the MS SRST degree or as standalone options.

Admissions & Policies

Admissions
Application Requirements
In addition to fulfilling admission requirements for graduate study as specified in Graduate Admissions (p. 68), applicants must have successfully completed an undergraduate course in statistics.

Policies
For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

Requirements

Degree Requirements
Total credits: 30

MS Core Coursework
Students are required to take a set of four courses that will provide grounding in historical and socio-cultural foundations, research methods and statistics, ethical and legal issues, and leadership perspectives. In addition, all students will complete a seminar, and either a capstone thesis or project/internship specific to their concentration.

Accelerated Master’s

Bachelor’s Degree (any)/Sport and Recreation Studies, Accelerated MS

Overview

Qualified Mason undergraduates may be admitted to a bachelor’s/accelerated master’s program and obtain a BA or BS in any degree area and a Sport and Recreation Studies, MS. See AP.6.7 Bachelor’s/Accelerated Master’s Degree (p. 93) for policies related to this option.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 68). Additionally, applicants must have an overall GPA of at least 3.00. See the Accelerated Master’s Admissions (https://www2.gmu.edu/admissions-aid/how-apply/accelerated-masters) webpage to apply.

Accelerated Option Requirements

During their senior year, students complete three to six graduate credits in consultation with the academic program coordinator that apply to both the bachelor’s and master’s degrees. These courses are considered advanced standing for the master’s. A minimum grade of B must be earned to be eligible to count as advanced standing. While still in undergraduate status, students may take up to six graduate credits that are reserve graduate credit and therefore, are applicable to the master’s but do not count toward the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which courses are to be designated as advanced standing and reserve graduate credit.

Sports Analytics Minor (CEHD)

Banner Code: SPTA

Academic Advising

Phone: 703-993-5200
Email: srht@gmu.edu
Website: rht.gmu.edu/minor/spta

This minor provides students with a foundational understanding of the sports industry coupled with the study of how data can be used in the world of sports to enable teams, leagues, and other sports businesses to acquire an advantage over their competitors. With the successful completion of this minor, students should be able to use various statistical models and other analytic tools to help sports organizations improve performance in some of the following areas: season ticket sales,
luxury box sales, marketing, talent identification, scouting of opponents, the prediction of industry trends, and customer service.

This minor is offered jointly with the School of Business (p. 888), College of Science (p. 613), and Volgenau School of Engineering (p. 1011).

Admissions & Policies

Admissions
This minor is available to all Mason undergraduate students.

Policies
Eight credits of coursework must be unique to the minor. For policies governing all minors, see AP5.3.4 Minors (p. 90).

CHHS offers regular information sessions to prospective students. For dates and times, or to register for a session, visit the information sessions website (https://chhs.gmu.edu/admissions/prospective-student-information-sessions) or call the CHHS Office of Student Affairs at 703-993-1901.

## Academic Programs

CHHS is committed to educating the next generation of health professionals, researchers, and educators. Our School of Nursing (p. 289) produces more new RNs each year than any other program in Virginia, and these graduates have one of the state’s highest pass rates on the nursing licensure exam. Through the PhD program in nursing, the college is helping to fill the need for nursing faculty and researchers, and through the DNP program, provides an opportunity for nurses to become experts as nurse practitioners, nurse administrators, or nurse educators. The Department of Health Administration and Policy (p. 257) prepares students for careers as leaders of health care organizations and as health policymakers at the state and national levels, while the Department of Global and Community Health (p. 246) trains public health practitioners with a global reach, who can intervene and improve the health of local and international populations. The Department of Rehabilitation Science (p. 274) provides interdisciplinary programs to educate students to address the needs of the disabled. Graduates of the PhD program in rehabilitation science are prepared for careers in academic, governmental, and industrial research environments. The Department of Nutrition and Food Studies (p. 270) integrates education, research, and outreach in preparing students to improve the health and well-being of populations through food and nutrition. The Department of Social Work (p. 279) educates undergraduate and graduate students to be professional social workers practicing in either community organizations or clinical settings. The CHHS academic units offer a variety of specializations within degree programs, including gerontology, epidemiology and biostatistics, health informatics, clinical social work, and conflict analysis and resolution.

## Administration

### College of Health and Human Services

Requirements & Policies

Policies
Professional Conduct Policy
All CHHS students are expected to conduct themselves professionally at all times. This means that certain behavior is prohibited, including verbal abuse, insubordination, and behavior that threatens the safety of a client, another student, a faculty member, or other health care provider when the behavior occurs within the context of an academic program. CHHS reserves the right to place on probation, suspend, or terminate any student in its programs who engages in such conduct. Students disciplined for such reasons have the right to appeal to their department chair or director.

Student Affairs
The Office of Student Affairs supports students, faculty, and staff members on a variety of admissions, academic, and policy issues. Student Affairs is involved in pre-admissions advising; processing applications for graduate programs and undergraduate nursing programs; conducting orientations for newly admitted students.

Student Affairs maintains the college’s student records; reviews and recommends action on student requests for exceptions to academic policy; processes standard academic actions; and approves student records for degree completion prior to graduation. Student grade appeals fall under university policy as described in AP.3.9 Grade Appeals (p. 85).

Each CHHS student is assigned an academic advisor, with whom he or she should meet at least once per semester in order to ensure that program requirements are met. The assigned advisor may be a faculty member, a departmental program coordinator, or an advisor in the Office of Student Affairs.

Student Responsibility
All students are required to have an active Mason e-mail account (https://its.gmu.edu/service/masonlive-email-for-students) and to update any change of address on-line through Patriot Web (https://patriotweb.gmu.edu). The college will not communicate with students via a personal e-mail address, so it is important that students check their Mason e-mail regularly. Students are responsible for knowing the university academic policies and the policies governing their program as stated in the university catalog. They are also responsible to know the semester academic calendar including withdrawal deadlines; to review their Mason transcript on-line to ensure transfer of credit accuracy; and to monitor their degree progression through the degree evaluation tool on Patriot Web (https://patriotweb.gmu.edu).

Background Checks
Many clinical agencies and practicum sites mandate that students working there have a criminal background check. All students enrolled in the School of Nursing are required to complete a criminal background check prior to beginning the program. Students enrolled in other CHHS programs may be required to complete background checks before entering a practicum environment. Information obtained from the background check is strictly confidential but may result in a student’s inability to perform clinical or practicum activities and, therefore, will disqualify the student from entering or continuing in the program. School of Nursing students are sent information regarding the criminal background check process, and associated fees, upon admission. Other students are informed individually as they are considered for practicum activities requiring background checks. Students are responsible for notifying the assistant dean of student affairs of any arrests, regardless of adjudication, that occur after acceptance and during enrollment in the program. Failure to promptly notify the assistant dean of student affairs may be grounds for termination from the program.

Health Records
To comply with the policies established by the Commonwealth of Virginia, all students must provide current immunization records to the university’s Student Health Services at the time of admission to the college. Immunizations may be obtained through Student Health Services (http://shs.gmu.edu) on any of the Mason campuses. All students in the School of Nursing also must submit immunization records to the School of Nursing at the time of admission. Additional documentation of good health may be required.

Students should keep copies of their health records should agencies require them for clinical and practicum assignments. All costs associated with immunizations and certifications are the student’s responsibility.

Insurance and Liability
Students are strongly advised to maintain health insurance coverage at all times. All students enrolled in the School of Nursing are required to maintain health insurance at all times. A student health insurance plan (http://shs.gmu.edu/insurance) is available to eligible students through Mason. Students are responsible for their own health care, including emergency care, and CHHS assumes no financial responsibility for the health care of students. Enrolled students who are performing internships and similar experiential learning as a required part of their academic programs are considered agents of the university. They are covered for professional liability by the Commonwealth of Virginia Risk Management Plan (http://risk.gmu.edu) while engaged in their prescribed educational duties.

Academic Outreach
The mission of the Office of Academic Outreach is to provide off-campus graduate coursework that supports the continued professional development and competency of practicing health professionals. This purpose is accomplished through collaborative relationships with expert health and instructional resources—individual and organizational—both internal and external to the University.

Academic Policies
Students should become familiar with the university’s general academic policies in addition to those specific to each academic unit. See Academic Policies (p. 77).
Graduate Admission

Admission decisions are made by the faculty committee on admissions of the respective graduate programs. Denial of admission is not subject to appeal. Applicants denied admission to a program are not permitted to enroll in courses in that program through Non-Degree Studies.

If an applicant is offered graduate admission, the college reserves the right to withdraw that offer of admission or to terminate a student in a graduate program if:

- During his or her academic studies, the admitted applicant has a significant drop in academic performance or fails to graduate with a degree prior to the first day of classes for the term admitted.
- There has been a misrepresentation in the application process.
- Prior to the first day of classes for the term admitted, the college learns that the admitted applicant has engaged in behavior that indicates a serious lack of judgment or integrity, irrespective of the outcome of any disciplinary process related to such behavior.

The university further reserves the right to require the applicant to provide additional information (and/or authorization for the release of information) about any such matter.

Non-Degree Enrollment

Non-degree status enables students who have no immediate degree objective or may need to satisfy prerequisites for admission to a degree program to enroll in courses for which they are qualified without seeking formal admission to a degree program. Applicants should be aware of the fact that non-degree admission does not guarantee enrollment in any specific course or future degree program. Enrollment in specific courses is based on eligibility criteria and availability of space in courses. In some areas of study, enrollment may be restricted or prohibited.

Non-degree applications and their established deadlines are available online through the Office of Admission (https://www2.gmu.edu/admissions-aid). Detailed information regarding non-degree admission policies and procedures can be found in Non-Degree Enrollment (p. 74).

The Department of Global and Community Health, the Department of Health Administration and Policy, the Department of Nutrition and Food Studies, and the Department of Social Work welcome non-degree students in their classes on a space-available basis. Programs in the College of Health and Human Services which have course restrictions are listed below.

Graduate Non-Degree Restrictions

All Graduate Programs

Students may take a maximum of 9 credit hours in non-degree studies. A student cannot graduate or receive a degree while in non-degree studies. Non-degree graduate students may not register for classes numbered 800 or higher.

Nursing, MSN

A student may be eligible to enroll in approved non-degree MSN courses when space is available if the student:

- Has not applied for the MSN program and has not been previously denied admission to the MSN program;
- Holds a BSN from an accredited college and achieved a cumulative degree GPA of 3.00;
- Holds a current RN license.

MSN non-degree students may not take classes numbered 800 or higher. In addition, they may take a maximum of 9 credit hours in non-degree studies.

Undergraduate Non-Degree Restrictions

Nursing, BSN

Students must be admitted into the BSN program in order to register for undergraduate nursing (NURS) courses.

Administration

- Lawrence Cheskin, Interim Chair

The Department of Global and Community Health (GCH) brings together faculty and students from the disciplines of biostatistics, epidemiology, environmental health, and the behavioral and social sciences. The educational mission of GCH is to provide high-quality undergraduate and graduate degrees and certificates in the core disciplines of community, global, and public health that prepare students to enter the domestic and global public health workforce. The research mission of GCH is to conduct innovative research that addresses pressing and emerging domestic and global health problems and security threats. Establishing partnerships that promote and protect health and well-being, especially among underserved and disadvantaged populations, is the principal focus of our service mission.

Emeriti
Baghi, Sluzki

Requirements & Policies

Requirements
Academic Advising
Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (http://chhs.gmu.edu/students/academic-advising), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans. Students also should meet with their advisor if they are experiencing academic difficulty.

Student Responsibilities
All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars); and university policies and procedures as stated in the catalog.

Students also should run their own degree-evaluation (http://registrar.gmu.edu/students/degree-evaluation) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, students are responsible for the academic planning decisions they make. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

Academic Advising
Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/global-and-community-health-advisors

Community health, global, and public health are the fastest growing, most exciting, and versatile areas of study on college campuses across the United States today. Community health is the applied science of protecting and improving the health and well-being of individuals, families, populations, and communities using evidence-based health promotion and disease prevention programs and policies. Accredited by the Council on Education for Public Health (CEPH), the BS in Community Health prepares students with the knowledge and understanding of community and public health systems, issues and policies related to health promotion, and health education and disease prevention in populations of all sizes. Community, public, and global health specialists work with a variety of health-related organizations and are expected to confront complex behavioral, cultural and social health and well-being issues at the local, national and global levels.

Community health students develop the competencies and skills necessary for entry-level positions in a variety of professional settings such as local, state, and federal health and social service agencies and non-governmental and voluntary health organizations, health care, and private industry. This program is unique in that it provides a solid foundation for students interested in pursuing graduate degrees in public health or advanced training in a health profession (see the Clinical Science concentration). Students completing this degree are eligible for and strongly encouraged to take the Certified Health Education Specialist (CHES) exam.

Optional Concentrations
Students may wish to complete an optional concentration in Global Health or Clinical Science.

Global Health Concentration
The Global Health concentration focuses on understanding diseases and other health security threats reflecting the new global landscape, such as tobacco use and obesity, and emerging pandemics such as avian influenza, Ebola, and the Zika virus. Students complete the required coursework for the BS in Community Health and specialized coursework in global health in addition to interdisciplinary coursework. This concentration is designed for students interested in public health at the global level and is particularly focused on improving health conditions in less developed countries.

Clinical Science Concentration
The Clinical Science concentration prepares students for post-graduate clinical training in a health profession field such as medicine, dentistry, nursing, optometry, occupational and physical therapy, and pharmacy. This concentration provides students the flexibility to design their curriculum to satisfy prerequisites for these programs. Students choosing this option are encouraged to check coursework requirements for their desired health profession because such requirements vary.

Admissions & Policies

Policies
- For all policies governing bachelor’s degrees, see A.5.3.2 Requirements for Bachelor’s Degrees (p. 89).
- A criminal background check and proof of vaccination status may be required of students prior to beginning the internship if required by the internship organization.
- A minimum grade of C must be earned in all major courses.
- Students must check with their advisor to ensure that all requirements have been met prior to graduation and should assess their own degree evaluation in Patriot Web each semester.
Requirements

Degree Requirements

Total credits: 120

Students must fulfill all requirements for bachelor's degrees, including the Mason Core (p. 142) requirements.

1 Nonnative speakers of English with limited proficiency in the language may substitute ENGH 100 for ENGH 101. Students must attain a minimum grade of C in ENGH 100 or ENGH 101, as well as in ENGH 302, to fulfill degree requirements.

2 Only for students who choose either the Global Health concentration or no concentration. Students in the Clinical Science concentration complete the Mason Core Natural Science requirement within their concentration courses.

Global Health Concentration (GLOH)

The optional global health concentration enables students to look at public health issues through a global lens and increases understanding of the differences in health, well-being, disease, and interventions that exist within an international context.

Total Credits 8
Clinical Science Concentration (CLNS)

The optional clinical science concentration prepares students to apply for graduate programs in fields such as medicine, physical therapy, occupational therapy, dentistry, pharmacy, and optometry. This concentration does not guarantee entrance into a graduate health professional program. It is important to note that, depending on the type of graduate program in which a student is interested, additional coursework may be required. It is the student’s responsibility to determine the essential criteria for admission to their target schools in consultation with the health professions advising office.

Global Health Minor

Banner Code: GLOH

Academic Advising

Website: chhs.gmu.edu/students/academic-advising/undergraduate-advising/global-and-community-health-advisors

The global health minor requires 18 credits of coursework and is designed to increase students’ awareness of the major health problems and issues that transcend national boundaries. Students develop an understanding of the critical global health concerns that affect health equity and health care for all people worldwide. Students examine the public health implications of globalization and learn to think critically about how specific global health challenges may be solved in culturally appropriate ways. The minor will enhance the education of students who are planning to work in a variety of settings with a global health focus, including health care, government, education, and non-governmental organizations.

Admissions & Policies

For policies governing all minors, see AP.5.3.4 Minors (p. 90).

Global Health, MS

Banner Code: HH-MS-GLOH
Email: gch@gmu.edu
Website: https://publichealth.gmu.edu/

Graduates of this program will have the knowledge base and skills to work and conduct research within the global health environment. This degree incorporates epidemiology, biostatistics, sociocultural influences on health and behavior, global health systems, communicable and non-communicable diseases of global importance, and migrant health to prepare students to conduct global health-related research. Through coursework and thesis research, students will be prepared to work in the diverse cultural and multidisciplinary environments inherent in global health. Graduates will be prepared to work in international health organizations such as nongovernmental organizations (NGOs), governmental organizations, and multilateral organizations, or may choose to pursue a research pathway and continue toward a terminal degree.

Admissions & Policies

Admissions

Requirements
Admission to the program is competitive, and a variety of criteria are evaluated in the admission process, including:

- GRE scores
- undergraduate academic performance
- recent post-baccalaureate coursework
- work experience
- professional goals
- recommendations

Previous undergraduate coursework in statistics, anthropology, sociology, and natural sciences is helpful. Applicants must meet the admission standards and application requirements specified in the Admissions (p. 68) section of the catalog and apply using the online Schools of Public Health Application System (http://www.sophas.org) (SOPHAS). Applications are considered for the fall semester only. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

Policies

Transfer of Credit
Transfer credit is governed by the AP.6.5.3 Graduate Transfer of Credit (p. 92) policy and the AP.6.9 Requirements for Master’s Degrees (p. 94) policy, and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek academic advising through the department prior to taking a course and plan to submit their application to the MS program in their first semester of study.

Requirements

Degree Requirements
Total credits: 42
A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students may repeat no more than two courses. Students must achieve a 3.00 GPA to graduate from the master’s program.

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/global-and-community-health-advisors

This minor offers students the opportunity to study concepts and principles related to disease prevention, health promotion, and injury control. The minor provides students with a basic understanding of each of the core areas of public health, introduces students to career opportunities in the fields of global and community health, and prepares students for admission to graduate programs in public health.

Admissions & Policies

Policies

For policies governing all minors, see AP.5.3.4 Minors (p. 90).

Public Health, MPH

Banner Code: HH-MPH-PUBH

Website: publichealth.gmu.edu

Accredited by the Council on Education for Public Health (CEPH), the 42 credit-hour Master of Public Health (MPH) degree program is designed to prepare students with the foundational public health knowledge and competencies to address the most pressing and emerging health problems and concerns nationally and globally. Graduates are prepared to work in a variety of employment sectors including local, state, and federal health and social service agencies, non-governmental and voluntary health organizations, health care, and private industry. Students may choose from seven highly specialized concentrations:

- Community Health Promotion
- Epidemiology
- Food Security and Nutrition
- Global Health
- Health Policy
- Public Health Communication
- Public Health Practice (offered 100% online only)

In accordance with the CEPH accreditation standards, students are required to complete coursework in the public health core and one concentration, as well as fieldwork for the applied practice experience.

Admissions

Admission decisions are based on a review of:

- applicant's undergraduate academic performance and recent post-baccalaureate coursework (transcripts);
- GRE scores;
- professional and volunteer experience;
- written statement of professional goals; and
- letters of recommendation.

Some background in statistics, biology, and the social sciences is preferred. Applicants must meet the admission standards and application requirements specified in Admissions (p. 68). Applications must be submitted using the online Schools of Public Health Application System (http://www.sophas.org) (SOPHAS). Applications are considered for the fall semester only. For more information about application requirements and deadlines, please visit the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

**Food Security and Nutrition Concentration**

To be admitted to the Food Security and Nutrition Concentration, students must have taken NUTR 295 Introduction to Nutrition (Mason Core) (p. 142) or a substitute approved by the Department of Nutrition and Food Studies.

**Public Health Practice Concentration**

To be admitted to the Public Health Practice Concentration, students must have at least two years’ work experience in a health-related field.

**Policies**

**Transfer of Credit**

Transfer credit is governed by the policies outlined in AP.6.5.3 Graduate Transfer Credit (p. 92) and AP.6.9 Requirements for Master’s Degrees (p. 94), and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek academic advising through the department before taking a course and should plan to submit their application to the MPH program in their first semester of study.

**Degree Requirements**

**Total credits: 42**

Students must complete 42 credits of graduate coursework with at least a 3.00 GPA in order to graduate. Each course listed below can be used to fulfill only one requirement toward the MPH degree. A graduate course in which a grade of C or below is earned may be repeated only once. Graduate students may repeat no more than two courses.

**Practicum Requirements**

The required 200-hour practicum gives students the opportunity to apply and improve professional skills in a supervised practice setting and is completed in two parts. Students must have completed at least 21 credits toward the degree program in order to be eligible for their practicum. The first part is completed while enrolled in GCH 780 Practicum Seminar. This zero-credit course is designed to provide students an opportunity to identify and arrange their practicum placements in a structured environment. In the subsequent term, students perform work as interns at their selected placement sites for 200 contact hours and make final presentations of their experiences to the faculty and fellow students.

**Concentration**

Students must complete one concentration.

**Concentration in Community Health Promotion (CMHP)**

The Community Health Promotion concentration prepares health promotion specialists to work in local, state, and federal public health agencies, non-governmental health organizations, the healthcare sector, and private industry. Students in this concentration examine the social, behavioral, and environmental determinants associated with the most pressing health problems, and design, implement, and evaluate appropriate health promotion programs and preventive services to improve population health. The curriculum and practical experiences for this concentration are aligned with the core competencies for the social and behavioral sciences (Association of Schools and Programs for Public Health [ASPPH]) and the Areas of Responsibilities and Competencies for Health Education Specialists (National Commission for Health Education Credentialing, Inc., 2015) and prepare students for the Certified Public Health (CEPH) examination and both the Certified Health Education Specialist (CHES) and the Master Certified Health Education Specialist (MCHES) examinations.

Total Credits: 21
Concentration in Epidemiology (EPID)
The Epidemiology concentration prepares students to investigate and analyze factors that influence the occurrence, distribution, prevention, and control of disease. Emphasis is placed on the development of such skills as study design, data collection and management, data analysis and interpretation, and communication of research findings.

Concentration in Food Security and Nutrition (FSN)
The Food Security and Nutrition concentration is designed to provide public health students the knowledge and skills necessary to implement food security and nutrition programs and policies within a global public health context. Students will explore and apply the definitions, means of measurement, and policy implications of food security and nutrition through a multidisciplinary approach. This concentration emphasizes the role of food security and nutrition in public health at the local, regional, and global levels.

Concentration in Global Health (GLOH)

The Global Health concentration prepares students to apply the tools of public health to the promotion of health in communities, countries, regions, and the world. Concentration coursework emphasizes comparative global health metrics; the socioeconomic, environmental, and other risk factors associated with transnational health concerns; and ethical and effective strategies for preventing and controlling infectious and non-communicable diseases in diverse populations. Students gain professional communication skills and develop competencies in program planning, implementation, monitoring, and evaluation.

Concentration in Health Policy (HTHP)

The Health Policy concentration addresses the nature and importance of policy and policy-making in today’s public health system. Through coursework and opportunities for practical application, students are introduced to the context and process for policy-making in public health, including the current political, economic, and legal environment for health policy and the basic elements of the public policy-making process and government payment systems. Students graduate with the knowledge and abilities needed to engage with public health and advocacy organizations on policy issues and to analyze and support policy approaches in an era of scarce public resources and ever-changing priorities.

Concentration in Public Health Communication (PHCM)

The Public Health Communication concentration prepares students to effectively use communication strategies to inform and influence individual and community decisions that affect health. This highly-specialized concentration links the fields of communication and public health and is increasingly recognized as a necessary element of efforts to improve personal and public health. The public health communication concentration emphasizes designing, evaluating, and implementing effective communication strategies and messages to address the health needs of diverse audiences.

### Accelerated Master’s Bachelor’s Degree (any)/Public Health, Accelerated MPH

#### Overview

Highly-qualified undergraduates in any major may apply to the accelerated Master of Public Health (MPH). If accepted, and depending on their undergraduate major, students will be able to earn a bachelor’s degree in their chosen major and the Master of Public Health after successfully completing 156 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93) for policies related to this option.

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see the AP.6 Graduate Policies (p. 90) section of the catalog.

#### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Admissions (p. 68). For information specific to the accelerated MPH, review the departmental web site (https://publichealth.gmu.edu/program/view/495566).

Applicants to the accelerated MPH program must have completed at least 75 credits that apply to their undergraduate degree (with at least 24 credits completed at Mason) and no more than 90 credits. Students must submit:

- a completed application form (available at the admissions website (https://www2.gmu.edu/admissions-aid/how-apply/accelerated-masters))
Public Health Graduate Certificate

Banner Code: HH-CERG-PUBH

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#gch

The Graduate Certificate in Public Health provides working professionals and graduate students an opportunity to advance their career and education in public health at their own pace on either a full- or part-time basis in two areas of concentration:

Generalist Concentration

This certificate program provides students with the fundamental knowledge and skills central to the traditional five core areas of public health: social and behavioral health, epidemiology, biostatistics, environmental health, and health systems. This program is ideally suited for those with public health-related experience or for students seeking to enhance a graduate degree program. For students planning to apply to the MPH degree program (p. 251), the GRE will be waived for those completing the Public Health Generalist program if they have earned a grade of “B” or better in all coursework.

Leadership and Management Concentration

This certificate program prepares students to apply the principles of public health leadership, stewardship and policy implementation to manage state and local health departments and various non-profit organizational and community health program initiatives. Students learn leadership strategies, public health regulatory requirements, public program management tools and policy development skills necessary to function in public health systems in the United States.

Admissions & Policies

Admissions

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the online Schools of Public Health Application System (http://www.sophas.org) (SOPHAS). To be eligible for admission to this certificate program, applicants must have two years of full-time work experience and currently be working in a health-related field. Applications are considered for the fall and spring semesters. For more information about the application requirements and deadlines, visit the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Requirements

Certificate Requirements

Total credits: 18

This certificate may be pursued on a full-or part-time basis.
Students must complete all requirements listed within a concentration. Minimum GPA of 3.0 is required in all courses applied to the Certificate in Public Health.

**Department of Health Administration and Policy**

Phone: 703-993-1929
Website: hap.gmu.edu/

**Administration**

- P. J. Maddox, Chair

The mission of the Department of Health Administration and Policy (HAP) is to provide innovative education, service, and research that contribute to improving the quality of care and delivery of healthcare services. The department accomplishes this mission by preparing professionals for careers as executives and managers in acute and ambulatory care and senior housing/assisted living organizations, as well as specialists in health informatics, healthcare risk management, and health policy.

The research and scholarly activities of the department contribute to basic and applied knowledge about the organization, management, financing, and performance of U.S. health systems and public health services; the development and management of health information systems; and the development and analysis of evidence-based U.S. health policy to foster innovation and public accountability and contribute to ensuring access to cost-effective, high-quality health services. The department works with consumers, stakeholders, students, faculty, alumni, research funders, and the community to ensure rigorous, relevant educational programs (including post-graduate professional development), service activities, and the development and timely dissemination of research. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

**Assistant Professors**
Avramovic, Blair, Brown, Green-Lawson, Madison, Osborn-Harrison, Shiver

**Instructors**
Henderson
Requirements & Policies

Requirements

Academic Advising

Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (https://chhs.gmu.edu/students/academic-advising), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans, internships, and career guidance. Students also should meet with their advisor if they are experiencing academic difficulty or personal challenges or if they are feeling overwhelmed.

All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars); and university policies and procedures as stated in the catalog.

Students also should run their own degree-evaluation (http://registrar.gmu.edu/students/degree-evaluation) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, students are responsible for the academic planning decisions they make. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

Programs

- Health Administration, BS
- Health Informatics and Data Analytics Graduate Certificate
- Health Informatics, MS
- Health Information Technology Minor
- Health Policy, MS (title change pending SCHEV approval)
- Health Services Research, PhD
- Health Systems Management, MHA
- Health and Social Policy Minor
- Senior Housing Administration Minor

Health Administration, BS

Banner Code: HH-BS-HADM

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/health-administration-and-policy-advisors

The BS in Health Administration prepares students to work in a variety of settings, including hospitals; clinics; community health, home care, long-term care, and managed care organizations; physician practices; information technology, medical technology and supply organizations; advocacy organizations and professional associations; the insurance industry; and consulting firms.

The program may be completed on a full- or part-time basis leading to completion of the objectives of the undergraduate BS program.

Concentrations are offered in health systems management, assisted living/senior housing administration, and health informatics.

Health Systems Management Concentration

The concentration in health systems management prepares graduates to serve in entry-level management, administrative and support positions in a variety of health-related organizations and settings.

Assisted Living/Senior Housing Administration Concentration

The concentration in assisted living/senior housing administration prepares graduates to serve in entry-level administrative and support positions within independent living, assisted living, and continuing care retirement communities.

Health Informatics Concentration

The concentration in health informatics prepares graduates in theory and methods for using information processing methods in healthcare organizations.

Admissions & Policies

Policies

Program Requirements

- A criminal background check is generally required of all students prior to beginning their internship.
- Students must fulfill all requirements for bachelor's degrees, including the Mason Core (p. 142) requirements. For all policies governing bachelor's degrees, see A.5.3.2 Requirements for Bachelor's Degrees (p. 89).
- Students should enroll in HAP 201 Health Professions Careers and HAP 301 Health Care Delivery in the United States during their first semester in the program.
- HAP 498 Health Administration Internship (Mason Core) (p. 142) and HAP 465 Integration of Professional Skills and Issues (Mason Core) (p. 142) are to be completed during the student’s final semester. The final semester is defined as the final 15 academic credits of the academic schedule.
- Students must check with their advisor to ensure that all requirements have been met prior to graduation.

Minimum Grade Requirements

A minimum grade of C must be obtained in all major requirements (58 - 64 credits). A minimum grade of C must also be obtained in ECON 103 in order for a student to enroll in HAP 425. In the health informatics concentration, a maximum of 6 credits of C grades in major requirements (64 credits) is permitted. Students in the health informatics concentration who earn more than 6 credits of C grades in the major requirements courses must either repeat one of the courses in which they earned a C and earn a C+ or higher or change programs or concentrations.
Requirements

Degree Requirements
Total credits: 120

Students must fulfill all requirements for bachelor's degrees, including the Mason Core (p. 142) requirements.

1. Nonnative speakers of English with limited proficiency in the language may substitute ENGH 100 for ENGH 101. Students must attain a minimum grade of C in ENGH 100 or ENGH 101, as well as in ENGH 302, to fulfill degree requirements.

2. Business-designated sections of ENGH 302 Advanced Composition (Mason Core) (p. 142) are recommended.

3. Health Informatics concentration students must attain a minimum grade of B in IT 104 to fulfill degree requirements. Students in the Assisted Living/Senior Housing Administration concentration or Health Systems Management concentration must attain a minimum grade of C to fulfill degree requirements. Transfer students may substitute IT 103.

### CHHS Electives

6 credits must include 200-level or above courses from the following:

- GCH courses (p. 1762)
- HAP courses (p. 1796)
- HHS courses (p. 1811)
- NURS courses (p. 1994)
- NUTR courses (p. 2014)
- RHBS courses (p. 2137)
- SOCW courses (p. 2157)
- Non-CHHS courses pre-approved for substitution by the concentration coordinator

### General Electives

Electives are at the student’s discretion. 9

Total Credits 73

---

1. HAP 301 is to be taken during the student’s first semester in the program.
2. HAP 465 may only be taken within the final 15 credits of the curriculum.
3. HAP 489 may only be taken in the semester immediately prior to HAP 498.
4. HAP 498 may only be taken within the final 15 credits of the curriculum. Students in HAP 498 complete an internship as identified and approved by the concentration coordinator during HAP 489. Under special circumstances and upon recommendation by the course instructors and the student’s advisor, students may be excused by the department chair from taking HAP 489 and HAP 498. Such students are required to take alternative courses that are pre-approved by the student’s advisor and worth at least 7 credits.

---

### Accelerated Master's

#### Health Administration, BS/Health Informatics, Accelerated MS

**Overview**

Highly qualified undergraduates may be admitted to the bachelor’s/accelerated master’s program and obtain both a BS in Health Administration (Health Informatics Concentration) and an MS in Health Informatics in an accelerated time frame after satisfactory completion of 147-159 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93) for policies related to this option.

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see the AP.6 Graduate Policies (p. 90) section of the catalog.

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Admissions (p. 68). For additional application requirements and information specific to the accelerated MS in Health Informatics, see Eligibility, Policies, and Deadlines on the departmental website.

Applicants must be enrolled in the BS in Health Administration, Health Informatics Concentration with an overall GPA of 3.25 and minimum GPA 3.5 in courses in the major. Applicants must have recommendations from two health informatics faculty.

**Accelerated Option Requirements**

Students complete six credits of graduate level courses in their senior year which may be applied towards BS degree. While undergraduate students, accelerated master’s students are able to apply two courses (6 credits) to both the Bachelor’s and Master’s degrees. These courses are considered advanced standing for the MS in Health Informatics. A minimum grade of B must be earned to be eligible to count as advanced standing. The courses are selected by an MS program adviser.

After completion of the BS portion of the curriculum, students in the accelerated program have also the option to replace selected core courses in the MS program with more advanced graduate level courses. This is allowed if the student received at least B+ in corresponding undergraduate courses and if approved by the adviser.
Health Informatics and Data Analytics Graduate Certificate

Banner Code: HH-CERG-HIDA

Academic Advising
Website: https://hap.gmu.edu/program/view/19933

This certificate prepares clinicians, health care managers, statisticians, epidemiologists, computer programmers, data analysts, and other professionals in analysis of complex health care data, including data extracted from electronic health records, claims data, and consumer generated data. Since electronic health records and related data repositories are becoming increasingly more massive, the certificate emphasizes topics related to big data analysis. Data mining, propensity scoring, and other advanced analytic techniques covered in the certificate can handle complex problems typically found in observational data: large, multidimensional and multi-type data sets, with many confounding issues and noise. These techniques can be computationally efficient on large scale analysis and intelligent in predicting an outcome.

This certificate qualifies for Title IV Federal Financial Aid. For more information about the educational debt, earnings, and completion rates of students who completed the program, and other important information, please visit the Gainful Employment Disclosure Template (https://irr2.gmu.edu/gedt/Health_Informatics_and_Data_Analytics/Gedt.html).

Admissions & Policies

Admissions

Applicants must hold a bachelor's degree from a regionally-accredited institution and must have a minimum of a 3.0 GPA to be considered. Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Requirements

Certificate Requirements

Total credits: 18

This certificate may be pursued on a full- or part-time basis.

Students must complete at least 18 credits of required courses with a grade of B or better. The course content and syllabi are also available at the program website (http://chhs.gmu.edu/hap/health-informatics/certificate-health-informatics-and-data-analytics.cfm) and by contacting hap@gmu.edu.

Health Informatics, MS

Banner Code: HH-MS-HINF

Academic Advising
Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#hap

The purpose of the degree is to provide students with a graduate education to advance careers as leaders and innovators in health informatics. The program combines healthcare, medical and information technology domains, and places particular emphasis on the interdisciplinary collaboration between these fields. We prepare health informatics professionals with knowledge of healthcare industry and technology solutions, in conjunction with practical skills needed in this dynamically evolving field. The program's goal is to prepare graduates to be able to effectively analyze complex health data, manage evolving health information systems (ranging from evaluation of information needs to design, development, acquisition, implementation, operation and improvement) and support the increased adoption and use of electronic health records.

This 33-39 credit graduate degree program prepares students to become health information systems specialists, health data analysts, health care managers and consultants. Graduates of the program may be employed in health information technology firms, health care/service organizations and their business partners, as well as public health entities. Students learn about emerging technologies likely to impact delivery of health services in the future. The program provides a basis for students who wish to continue their education toward a doctoral degree in health informatics or a related field. The program consists of three concentrations: Health Data Analytics, Health Informatics Management and Population Health Informatics.

The MS in Health Informatics degree is offered via a regular on-campus or premium priced all-online delivery format. The curriculum in both programs is the same, but students must matriculate through only one pathway. Separate application processes are used for online and on-campus programs. Most courses in the on-campus program are taught in the evening at Mason's Fairfax Campus, with some courses available in hybrid or online formats. On-campus students can complete their degree at their own pace provided that they do so within six years of starting.
the program. The online premium-priced program is offered in a flexible, compressed schedule online format. In the all-online program, courses are taken one at a time, in an accelerated 8-week format, and follow a prescribed sequence.

Concentrations
Health Data Analytics Concentration
The Health Data Analytics Concentration provides students with deep understanding of health data, analytic methods, and data mining, as well as data science skills applied to clinical, administrative and consumer-generated health data.

Health Information Management Concentration
The Health Information Management Concentration provides students with knowledge and skills needed to manage evolving health information systems (ranging from evaluation of information needs to design, development, acquisition, implementation, operation and improvement) and support the increased adoption and use of electronic health records.

Population Health Informatics Concentration
The Population Health Informatics Concentration provides students with knowledge and skills needed to collect, analyze and manage population-level data, as well as understanding of electronic tools used in population health. Managing the health of populations requires the involvement of both organizations and individuals within a community and is viewed as a promising model to not only improve health outcomes but also reduce cost. The concentration content starts by addressing traditional public health information needs and then moves on to sophisticated business analytics and data governance to support the goals of accountable care organizations, integrated care networks, and value-based purchasing programs.

Admissions & Policies
Admissions
Requirements
Applicants must hold a BA or BS degree or equivalent from an accredited university or college. Although the field or major is not a criterion for admission, the applicants are expected to have taken basic-level computer science/technology, mathematics, and statistics, and be familiar with these fields. Students who do not meet these requirements may be required to take additional prerequisite courses. Clinicians are encouraged to apply. An undergraduate grade point average of 3.25 (on a 4.0 scale) or above is preferred.

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

Furthermore, although experience is not required, applicants with at least 1 year of professional work experience in a medical or health-related organization OR 1 year of work experience in information technology in any sector are preferred.

Policies
For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

Transfer of Credit
Students may transfer a maximum of 12 credits from graduate courses taken at other institutions or taken at Mason in non-degree status. Transfer credit is subject to university (p. 77) and college (p. 245) policies and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department and should submit their application to the MS program in their first semester of study.

Students with Undergraduate Program in Health Informatics
Students coming from Health Informatics undergraduate programs may request substitution of selected courses with more advanced courses if they received at least B+ in equivalent undergraduate courses.

Accelerated Master’s

Health Administration, BS/Health Informatics, Accelerated MS

Overview

Highly qualified undergraduates may be admitted to the bachelor’s/accelerated master’s program and obtain both a BS in Health Administration (Health Informatics Concentration) and an MS in Health Informatics in an accelerated time frame after satisfactory completion of 147-159 credits. See AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93) for policies related to this option.

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see the AP.6 Graduate Policies (p. 90) section of the catalog.

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Admissions (p. 68). For additional application requirements and information specific to the accelerated MS in Health Informatics, see Eligibility, Policies, and Deadlines on the departmental website.

Applicants must be enrolled in the BS in Health Administration, Health Informatics Concentration with an overall GPA of 3.25 and minimum GPA 3.5 in courses in the major. Applicants must have recommendations from two health informatics faculty.

Accelerated Option Requirements

Students complete six credits of graduate level courses in their senior year which may be applied towards BS degree. While undergraduate students, accelerated master’s students are able to apply two courses (6 credits) to both the Bachelor’s and Master’s degrees. These courses are considered advanced standing for the MS in Health Informatics. A minimum grade of B must be earned to be eligible to count as advanced standing. The courses are selected by an MS program adviser.

After completion of the BS portion of the curriculum, students in the accelerated program have also the option to replace selected core courses in the MS program with more advanced graduate level courses. This is allowed if the student received at least B+ in corresponding undergraduate courses and if approved by the adviser.

Health Information Technology Minor

Banner Code: HIT
The minor in Health Information Technology introduces students, in a non-technical context, to the utilization of health information management in the professional arena of health care management and policy. Students will examine the current and projected role of health information management in the delivery of health care and development of health policy and apply this information in a practical research endeavor.

### Admissions & Policies

#### Policies

At least 12 credits must be unique to the minor and cannot be used to fulfill the program of study requirements of the student's major, concentration, undergraduate certificate, or another minor. Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors (p. 90).

### Health Policy, MS (title change pending SCHEV approval)

Banner Code: HH-MS-HTHP

#### Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#hap

**Note:** As of catalog publication in April, the title for this program (formerly known as Health and Medical Policy, MS) has been approved by the Board of Visitors and sent to the State Council of Higher Education in Virginia.

The master's program in health policy prepares students to become analysts and informed decision-makers at the local, state, and national levels, to be policy consultants, to support the work of foundations, or to engage with public health and advocacy organizations in the U.S. and abroad. Students are expected to graduate with the knowledge and skills needed to analyze health policy issues; examine health system approaches; formulate new policies; and support policy development in health care financing, healthcare delivery system innovations, and the allocation of scarce resources.

Students will learn how health care services in the U.S. are delivered and paid for, how well the U.S. health care system performs from an individual and societal perspective, and how various key stakeholders influence the formation and development of health policy.

#### Admissions & Policies

#### Admissions

**Requirements**

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

#### Policies

For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

#### Transfer of Credit

Students may transfer a maximum of 12 credits from graduate courses taken at other institutions or taken at Mason in non-degree status. Transfer credit is subject to university (p. 77) and college (p. 245) policies and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department and should submit their application to the MS program in their first semester of study.

#### Requirements

Health Services Research, PhD

Banner Code: HH-PHD-HSR

Alison Cuellar, PhD; Program Coordinator

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#hap

The purpose of the PhD program in Health Services Research is to prepare graduates to be scholars, educators, researchers, and leaders in higher education, health care and service organizations, health care consulting firms, government and nonprofit organizations, and private businesses that support or regulate the health service industry. The degree has the following two specialized programs of study (concentrations):

- Knowledge Discovery and Health Informatics
- Health Systems and Policy

Admissions & Policies

Admissions Requirements

Students must have a master’s degree or other advanced degree (i.e., MD, JD, PhD or equivalent) from a regionally-accredited institution before being admitted to the 72-credit PhD program.

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).
Policies

Reduction of Credit
Students who enter with a master’s or other advanced degree may have the credit requirement reduced by up to 30 credits for previous coursework that closely corresponds with doctoral program requirements. The credit reduction decision will be made by the doctoral advisor and requires approval of the doctoral program director. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Time Requirements
Students must complete all requirements for the PhD in Health Services Research within 9 calendar years from the time of first enrollment as a doctoral student in the program or with provisional status. PhD students are expected to progress steadily toward their degree and to complete all coursework and comprehensive and field exams in order to advance to candidacy within no more than 6 years.

Concentration and Electives

Students take additional courses in one of two concentration domains: Knowledge Discovery and Health Informatics or Health Systems and Policy. Doctoral-level electives outside of CHHS or concentration-related content areas may be taken as approved by the student’s academic advisor. A maximum of 6 credits of 600-level courses may be applied to the degree.

Comprehensive Exams

Two comprehensive examinations will determine whether the student has the necessary knowledge and skills to undertake dissertation work.
These examinations must be taken within one year of completion of all coursework (except for dissertation sequence courses).

**Advancement to Candidacy**

Students who complete all core and concentration course requirements, pass the comprehensive exams, and successfully defend the dissertation proposal advance to candidacy. A student must advance to candidacy status before taking the dissertation courses.

**Dissertation Sequence Courses**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<tbody>
<tr>
<td>HAP 998</td>
<td>Doctoral Dissertation Proposal</td>
<td>12</td>
</tr>
<tr>
<td>HAP 999</td>
<td>Doctoral Dissertation (at least 6 credits)</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**: 12

**Dissertation**

After advancement to candidacy, the HSR PhD student must complete an approved dissertation. The student must seek and obtain the approval of the HSR PhD Program Director on the selection of his/her Dissertation Chair and committee members. The committee must have at least three members, each of which must be a full-time member of the graduate faculty. The Chair must hold an appointment in the Department of Health Administration and Policy (HAP) and be approved by the Program Director. The second member of the dissertation committee must be a member of either the HAP Department or the College of Health and Human Services, and the third member of the committee must be from the College or other academic unit at George Mason University. A fourth member of the committee may be appointed, from another academic unit or from outside Mason, with the approval of the Program Director.

Within six months of passing the comprehensive examinations, the student must submit a draft dissertation proposal to the Dissertation Chair and committee. The proposal shall describe the proposed research as directed by the Chair and Committee. Failure to submit the proposal in a timely manner is grounds for academic probation. The proposal must provide a detailed literature review that provides the context and rationale for the research objectives, state the dissertation objective(s), and describe the proposed study design and analytic methods. An oral proposal defense must be scheduled with dissertation committee members who have agreed to serve. During the oral proposal defense, the student will describe their proposed research and address questions by the committee members. At the oral defense, the Dissertation Committee determines approval or disapproval of the proposal. Committee disapproval is accompanied by written recommendations for improving the proposed research with expectations for resubmission.

**Health Systems Management, MHA**

**Banner Code**: HH-MHA-HSMG

**Academic Advising**

Website: [https://chhs.gmu.edu/students/academic-advising/graduate-advising#hap](https://chhs.gmu.edu/students/academic-advising/graduate-advising#hap)

The master of health administration (MHA), health systems management program is accredited by the Commission on Accreditation of Healthcare Management Education (http://cahme.org) (CAHME). The United States Department of Education and Council on Higher Education Accreditation have granted formal recognition to CAHME as the only organization to accredit master’s level health care management programs in the United States and Canada. This master’s program prepares future executives to assume leadership positions in health care organizations. We prepare health care professionals with strategic, business, analytic, and decision-making skills needed to successfully navigate the evolving health care industry.

This 47-credit hour program prepares students to work as leaders and executive-level managers in evolving health systems, or as consultants and managers of health-related organizations. The curriculum was developed in response to the demand for advanced health management preparation for a variety of health care and allied health professionals to be employed in both the public and private sectors of health care.

**Admissions & Policies**

**Admissions Requirements**

Applicants must hold a bachelor’s degree from a regionally accredited institution (http://admissions.gmu.edu/grad/accreditation) and have a minimum of a 3.0 GPA to be considered. Admission to the program is competitive, and a variety of criteria are evaluated in the admission decision. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines). Applicants are evaluated based on past academic performance (including prior academic degrees and courses taken), letters of recommendation, personal professional goal statement and professional experience. Work experience in the healthcare industry is preferred, but not required for admission. The application materials are used to determine the applicant’s “match” with the program and potential for success in graduate studies. Applicants who are deemed to meet the above criteria are required to have a brief personal interview with faculty. Applicants who are unable to attend a personal interview will be interviewed through video conferencing technology.

**Policies**

For policies governing all graduate degrees, see AP 6 Graduate Policies (p. 90).

**Transfer of Credit**

Students may transfer a maximum of 12 credits from graduate courses taken at other institutions or taken at Mason in non-degree status. Transfer credit is subject to university (p. 77) and college (p. 245) policies and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department and should submit their application to the MHA program in their first semester of study.

**Program Format**

The MHA in Health Systems Management is offered in both on-campus and online delivery formats. The curriculum is the same whether you are studying online or on campus, but students must apply to and matriculate through only one pathway.

Most courses in the on-campus program are taught in the evening at Mason’s Fairfax Campus. Additionally, some courses are offered on Saturdays, a few are offered at the Arlington Campus, and a small percentage can be taken online. Students can complete their degree at...
their own pace provided that they do so within six years of starting the program.

The online premium priced program is offered in a flexible, online format, which mirrors the CAHME-accredited on-campus program. Courses are taken one at a time in an accelerated 8 week format.

**English Language Test Score Thresholds**

International students whose scores on the English Language Tests are below the thresholds required by the program must take EAP 508 Graduate Communication in the Disciplines III (Credits: 4) in their first semester of study and earn a grade of B (3.0) or higher. This will add 4 credits to the 47 credit hour program for a total of 51 credits.

**Health and Social Policy Minor**

Banner Code: HSP

**Academic Advising**

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/health-administration-and-policy-advisors

The minor in Health and Social Policy introduces students to the context and process for public policymaking in health care and social services. Students will examine the current environment for health and social policy, learn the basic elements of the public policymaking process, and apply this knowledge in a practical research endeavor. This minor is a joint program offered by the Department of Health Administration and Policy (p. 257) and the Department of Social Work (p. 279).

**Admissions & Policies**

**Policies**

Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors (p. 90).

**Requirements**

**Minor Requirements**

Total credits: 18

Students will take five (5) core courses and one (1) elective course in an area of health and social policy interest.

Senior Housing Administration Minor

Banner Code: SHA

Academic Advising

Website: chhs.gmu.edu/students/academic-advising/undergraduate-advising/health-administration-and-policy-advisors

The minor introduces students to the context and foundational knowledge required for administrative or managerial work within residential communities for older adults - including independent living, assisted living, Alzheimer’s/memory care, and continuing care retirement communities. Students will examine the current U.S. health care and senior housing environment, best practices in day-to-day management and marketing of senior housing communities, and have the opportunity to gain additional understanding of ethical, legal, and gerontological issues applicable to aging populations. Health Administration majors may pursue either the concentration in Senior Housing Administration or complete senior housing coursework to fulfill elective requirements for other concentrations in the degree.

Admissions & Policies

Admissions

The minor is available only to students outside of the Health Administration (p. 258) major.

Policies

At least 12 credits must be unique to the minor and cannot be used to fulfill the program of study requirements of the student’s major, concentration, undergraduate certificate, or another minor. Students should be familiar with university-wide requirements for minors described in AP5.3.4 Minors (p. 90).

Department of Nutrition and Food Studies

Phone: 703-993-4628
Website: nutrition.gmu.edu

Administration

- Lawrence Cheskin, Chair

The overarching mission of the Department of Nutrition and Food Studies (NUTR) is to inform students and the public about the role of food and nutrition in improving health and well-being among local and global populations through the integration of education, research, and outreach. The educational mission is to provide undergraduate and graduate degrees and certificates in food and nutrition-related studies. The research mission is to promote, develop and support research programs that help define and address food and nutritional issues. The outreach mission is to increase the awareness of food and nutrition-related issues among local and global communities, support local and global food and nutrition initiatives, and enhance collaboration among individuals and organizations to improve nutrition and health-related outcomes. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.
Requirements & Policies

Requirements

Academic Advising

Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (https://chhs.gmu.edu/students/academic-advising), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans, internships, and career guidance. Students also should meet with their advisor if they are experiencing academic difficulty or personal challenges or if they are feeling overwhelmed.

All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars); and university policies and procedures as stated in the catalog.

Students also should run their own degree-evaluation (http://registrar.gmu.edu/students/degree-evaluation) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, students are responsible for the academic planning decisions they make. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

• Nutrition Minor
• Nutrition, MS

Food Systems Minor

Banner Code: FOOD

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/nutrition-and-food-studies-advisor

This minor is designed to provide students from a range of disciplines with the knowledge and skills to understand how factors of the food system affect the health of a community (e.g., nutrition, food security, inequity, agriculture, food safety). Using a systems approach, students will study the interrelating components, drivers, and outcomes in the national and global food systems, including the obesity epidemic, food security, and the environmental impact of agriculture.

Admissions & Policies

Policies

To complete the minor, students are required to pass at least 15 credits of undergraduate coursework. At least 6 credits must be completed at Mason, and no more than 3 credits of C- or D in the minor are accepted.

Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors (p. 90).

## Nutrition Minor

**Banner Code:** NUTR

**Academic Advising**

Website: [https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/nutrition-and-food-studies-advisor](https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/nutrition-and-food-studies-advisor)

This minor is intended to increase knowledge of nutrition issues for students from all disciplines. Students pursuing degrees related to nutrition, health, and education may be interested in completing this minor.

Note: This minor is **not** equivalent to the registered dietitian license and does not provide a license to practice therapeutic nutrition.

### Policies

To complete the minor, students are required to pass at least 15 credits of undergraduate coursework. At least 6 credits must be completed at Mason, and no more than 3 credits of C- or D in the minor are accepted.

Students should be familiar with university-wide requirements for minors described in AP5.3.4 Minors (p. 90).

### Requirements

**Minor Requirements**

Total credits: minimum 15

Students are required to take an introductory nutrition course such as NUTR 295 Introduction to Nutrition (Mason Core) (p. 142) before beginning coursework in this minor.

## Nutrition, MS

**Banner Code:** HH-MS-NUTR

**Academic Advising**

Website: [https://chhs.gmu.edu/students/academic-advising/graduate-advising#nfs](https://chhs.gmu.edu/students/academic-advising/graduate-advising#nfs)

The master’s program in nutrition emphasizes a skill-set tailored to expanding nutrition-related needs. Through coursework, students learn to assess, evaluate, and intervene in the most current and relevant nutrition issues. The curriculum prepares graduates to work for agencies, businesses, and organizations that seek to improve nutrition at the local, national, and global level. This program also prepares students to engage in further study for research careers in nutrition.

### Admissions & Policies

#### Admissions

**Requirements**

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the online Application for Graduate Admission [https://www2.gmu.edu/admissions-aid](https://www2.gmu.edu/admissions-aid). For application deadlines and detailed application requirements, refer to the CHHS Admissions website [https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines](https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

#### Policies

For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

### Transfer of Credit

Transfer credit is governed by university transfer of credit policy (p. 91) and the university requirements for master’s degrees (p. 94), and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and plan to submit their application to the MS in Nutrition program in their first semester of study.

¹ ANTH 699 may be selected only when topic is focused on food and human evolution.

Capstone Experience

Students must complete either the Practicum or Thesis option.

Practicum Option

The practicum option entails a supervised practical application of previously studied theory through fieldwork. Students will be required to engage for a minimum of 200 contact hours per practicum in a nutrition-related organization under the guidance of a preceptor and a faculty advisor. Students must attend one seminar course, complete a project while working in the agency, and produce a formal report and presentation during the practicum. Students will enroll in the Pre-Practicum course the semester prior to conducting the practicum. In their final semester, students will enroll in the Nutrition Practicum.

Thesis Option

The thesis option is a research project incorporating an original design to test a theory and resulting in a final written thesis. The topic must fall within one of the areas of faculty expertise within the department, including: food science, food studies, global nutrition, public health nutrition, nutrition policy, nutrition assessment, and chronic disease and nutrition. Students may register for the thesis only with approval from their advisor and after they have completed at least 18 credits of the program.

Students in the master's thesis option are required to work with a committee of three faculty members. It is the responsibility of the student to form a committee at least 9 months before the desired graduation. The thesis director and at least one of the committee members must be members of the Department of Nutrition and Food Studies faculty, but the third member may or may not be from the Department. Students must take two thesis classes (6 credits total) while working on their thesis. Students must develop a proposal and have it approved by their committee and by the appropriate University committees, such as the Human Subjects Review Board, before undertaking the project. The thesis must conform to the format stated within Mason's University Libraries guidelines.

Nutrition Graduate Certificate

Banner Code: HH-CERG-NUTR

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#nfs

Available Concentrations

Students pursuing this graduate certificate may choose from one of the following concentrations:
This certificate qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/Nutrition_CERG/Gedt.html).

Concentration in Community Nutrition
This graduate certificate with a concentration in community nutrition prepares students to apply nutrition principles and the latest scientific evidence and methods of nutrition to health practice and research among different populations. The program emphasizes understanding the role of nutrition in population health and well-being and the development of skills required in the practice, analysis, and interpretation of nutrition-related information and data among individuals and populations. Students will acquire competencies in the following areas:

• public health nutrition framework
• nutritional assessment and monitoring
• research design and methodology
• planning and evaluation of nutrition programs

Concentration in Food Security
The graduate certificate with a concentration in food security provides knowledge and tools in the areas of nutrition, food studies, geography, and geoinformation science to prepare students for careers in food security and safety. The program includes courses in nutrition, food security, food safety, and GIS and remote sensing, and the program will give students insight into the determinants of food security in developing and industrialized countries, the roots of vulnerabilities of populations most at-risk, and programs involved in food security research and interventions worldwide.

Admissions & Policies

Admissions
Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (http://chhs.gmu.edu/admissions/graduate/deadlines.cfm).

Concentration in Community Nutrition
Previous undergraduate coursework in natural sciences, nursing, health science, and sociology is helpful.

Policies
For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Concentration in Community Nutrition
A maximum of 3 credits in equivalent coursework taken at another college or university can be applied toward the certificate.

Certificate Requirements
Total credits: 18

To earn the certificate, students must complete all requirements listed within a concentration and earn a minimum GPA of 3.00 in the 18 credits of graduate coursework, with no more than 3 credits with a grade of C.

Department of Rehabilitation Science
Phone: 703-993-1950
Website: rehabscience.gmu.edu
Rehabilitation Science is an interdisciplinary field of study that seeks to understand the relationships among chronic illness, function, and disability and to improve the quality of life for those individuals who live with a chronic condition. This field draws its body of knowledge from multiple disciplines spanning the physiological, health, and social sciences in order to approach the individual who lives with or is at risk of disability as a complete person with a full appreciation of the biopsychosocial environment in which that person functions.

The internationally recognized faculty mentor students through active involvement in their own funded research programs. Upon graduation, students are prepared for professional careers in academic, government, health care, and industrial environments. Part-time students within the PhD program are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Rehabilitation Science is the field of study which integrates the knowledge related to restoring the functional capacity of a person to perform the activities of everyday life and the interaction of that person with the surrounding environment that either disables or enables the individual to participate fully in society. This knowledge is then translated into interventions aimed at improving human performance and quality of life.

This program, the first of its kind in the Commonwealth of Virginia, offers students a rigorous science-based educational foundation for rehabilitation-related careers upon graduation as well as a clear and distinctive pathway for admission to graduate programs that prepare rehabilitation clinicians and academic scientists.

Rehabilitation Science Minor
Banner Code: RHBS

Academic Advising
Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/rehabilitation-science-advisors

This minor is an innovative sequence of courses designed to enhance the undergraduate student’s academic preparation for clinical and research graduate programs. Designed for students interested in graduate study in physical therapy, occupational therapy, physician assistant programs, exercise physiology, and biomechanics; the minor provides a foundation of knowledge on the science of human movement as it pertains to both health and human performance.

Admissions & Policies

Admissions
Students must have completed at least 30 credits of undergraduate coursework in order to enroll in the minor.

Policies
Students should be familiar with university-wide requirements for minors described in AP.5.3.4 Minors (p. 90).

Requirements

Minor Requirements
Total credits: 17
Students must earn a C- or better in each course of the 17-credit curriculum to successfully complete the minor.

### Rehabilitation Science Graduate Certificate

**Banner Code:** HH-CERG-RHBS

**Academic Advising**

Website: https://rehabscience.gmu.edu/program/view/19946

This graduate certificate prepares students to apply research and statistical techniques to the study of the enabling–disabling process. The Institute of Medicine defines rehabilitation science as a field of study that encompasses basic and applied aspects of the health sciences, social sciences, and engineering. It is the melding of knowledge from several disciplines to understand the fundamental nature of the enabling–disabling process.

Students will acquire competencies in the following areas:

- rehabilitation and recovery framework
- research design and methodology
- statistics
- conduct of applied rehabilitation research

The department hosts information sessions on a regular basis for those interested in our academic programs. Visit the College of Health and Human Services website (http://chhs.gmu.edu) for details.

### Admissions & Policies

#### Admissions

Admission to this certificate requires a bachelor’s degree in a discipline related to health sciences from an accredited institution of higher education with a minimum GPA of 3.00 in the last 60 credits. Such fields include, but are not limited to:

- health science
- biostatistics
- biology
- nursing
- medicine
- physical therapy
- occupational therapy
- physiatry
- engineering
- psychology

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). Applications are considered for the fall semester only. The application process is competitive. For application deadlines and detailed application requirements please refer to the CHHS Admissions website (http://chhs.gmu.edu/admissions/graduate/deadlines.cfm). Late applications will be considered on a space-available basis.

#### Policies

A maximum of 3 credits in equivalent coursework taken at another college or university may be applied toward the certificate.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

### Requirements

#### Certificate Requirements

Total credits: 15

This certificate may be pursued on a full-or part-time basis.

To earn the certificate, students must earn a minimum GPA of 3.00 in the 15 credits of coursework outlined below, with no more than 3 credits with a grade of C.

Rehabilitation Science, PhD

Banner Code: HH-PHD-RHBS

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#rhbs

This interdisciplinary program educates students to understand the causes, course, and consequences of disability, and to perform integrated research on how to optimize human function and performance in daily life. This program prepares students in basic and translational science that address mechanisms, prevention and amelioration of disability. The objective of the program is to develop researchers and academics who, through their scholarship and original research, create new knowledge in rehabilitation science. Graduates of this program are prepared for professional careers in academic, governmental, and industrial research environments.

Admissions & Policies

Admissions

Admission Requirements

Applicants must hold a bachelor’s degree from a regionally accredited institution and have a minimum of a 3.0 GPA to be considered. Admission to the program is competitive, and a variety of criteria are evaluated in the admissions process, including the strength of the undergraduate record and any post-baccalaureate coursework, GRE scores, career goals statement, letters of recommendation, professional and/or volunteer experience, evidence of the ability to write and conduct research at the graduate level, and any additional evidence of potential success in the program. Applicants are encouraged to contact the department faculty prior to applying to discuss their interest. Preference will be given to full-time applicants, and interviews may be required by the faculty admissions committee. Information regarding CHHS application guidelines and requirements can be found online (https://chhs.gmu.edu/admissions/graduate-admissions). Meeting the minimum application criteria does not guarantee admission.

Applications are considered for the fall semester only. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines). Late applications will be considered on a space-available basis. The online Application for Graduate Admissions can be found through the Office of Admissions (http://admissions.gmu.edu).

Policies

Transfer of Credit

Transfer credit is governed by AP.6.5.3 Transfer of Credit Policy (p. 92), AP.6.10 Requirements for Doctoral Degrees (p. 96), and must be approved by the program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and must submit their application to the PhD program in their first semester of study.

Reduction of Credit

Students must complete a minimum of 72 graduate credits. A maximum of 30 credits may be waived in the PhD program based on a previously earned graduate degree. Credit for prior graduate course work will be reviewed and awarded on a course-by-course basis.

Time Requirements

Students must complete all requirements for the PhD in Rehabilitation Science within 9 calendar years from the time of first enrollment as a doctoral student in the program or with provisional status. PhD students are expected to progress steadily toward their degree and to complete all course work and the written exam in order to advance to candidacy within no more than 6 years.

Program Requirements

To complete the PhD in Rehabilitation Science, students must:

- Complete the program of study outlined in the PhD curriculum.
- Pass the written comprehensive exam and the oral examination in the area of specialization. After successful completion of the written comprehensive examination and the oral examination in the area of specialization, the student will be advanced to candidacy and may seek approval of a dissertation proposal.
- Pass the final oral dissertation defense and submit a doctoral dissertation approved by the doctoral dissertation committee and the Chair of the Department of Rehabilitation Science (the dissertation must be submitted in the approved format of the doctoral program).
- Complete application material for graduation in accordance with prevailing university policies.

Requirements

Degree Requirements

Total credits: 72

**Department of Social Work**

Phone: 703-993-4247
Website: socialwork.gmu.edu

**Administration**

- Emily Ihara, Interim Chair

**Undergraduate**

The mission of the BSW Program is to prepare entry-level generalist social work professionals who will demonstrate ethical leadership in innovative multidisciplinary practice, social reform, and research in diverse communities. Students are provided a range of opportunities to develop a broad knowledge and skills base consistent with the systems and strengths perspectives. They are expected to practice using core social work values and to examine and resolve ethical dilemmas. Classroom and field experiences prepare students to be competent in the use of relevant new technologies and in culturally sensitive, generalist social work practice.

**Graduate**

The MSW Program seeks to prepare social workers for advanced professional practice who are innovative leaders bringing superior management, interpersonal, technological, research, and communication skills to the human service delivery system. Through a specialization in either social change or clinical practice, graduates will be prepared to empower individuals, strengthen families and communities, stimulate positive change through advocacy and social and political action, and help meet local, national, and global challenges. The MSW Program builds upon a foundation of generalist social work knowledge and skills that integrates micro and macro theory and practice and emphasizes empowerment and systems transformation. This foundation equips students to enhance human well-being and to promote social and economic justice through ethical professional practice with culturally diverse individuals, families, groups, organizations, and communities.

**Field Placement**

The Department of Social Work will make reasonable efforts to work with a student to secure an appropriate field placement, but it does not guarantee a placement. A student with a criminal history may find it difficult to obtain a field placement or employment in a human service agency depending on the specific charge. It is possible that a student with a criminal background may not be able to be placed in a field practicum or complete their degree program. The Criminal Background Policy is available on the Social Work Department website. (https://socialwork.gmu.edu)
Program Completion
Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Faculty

Department Faculty

Requirements & Policies

Policies

Academic Advising
Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (https://chhs.gmu.edu/students/academic-advising), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans, internships, and career guidance. Students also should meet with their advisor if they are experiencing academic difficulty or personal challenges or if they are feeling overwhelmed.

All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars); and university policies and procedures (p. 77).

Students also should run their own degree-evaluation (http://registrar.gmu.edu/students/degree-evaluation) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, students are responsible for the academic planning decisions they make. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

Academic Advising
Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/social-work-advisors

This program prepares students for beginning generalist professional practice in social work at the baccalaureate level and has been granted full accreditation by the Council on Social Work Education. All students are expected to abide by the Code of Ethics of the National Association of Social Workers.

No academic credit toward field experience or coursework is given based on previous work or life experience. Students are required to successfully complete 450 hours of supervised field practicum in agencies approved by the Department of Social Work. The Department of Social Work will make reasonable efforts to work with a student to secure an appropriate field placement, but it does not guarantee a placement. The social work program does not offer all of the required courses during the evening hours, so students should meet with their academic advisor to develop a plan to complete coursework for the degree. Field placements generally require availability during regular daytime hours.

Admissions & Policies

Admissions

Admission Requirements
To be admitted to the social work program, a student must have
1. completed at least 45 credits with a GPA of 2.50 or higher;
2. completed or been registered in:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 103</td>
<td>Introductory Biology I (Mason Core)</td>
<td>4</td>
</tr>
<tr>
<td>ENGH 101</td>
<td>Composition (Mason Core)</td>
<td>3</td>
</tr>
<tr>
<td>SOCI 101</td>
<td>Introductory Sociology (Mason Core)</td>
<td>3</td>
</tr>
<tr>
<td>PSYC 100</td>
<td>Basic Concepts in Psychology (Mason Core)</td>
<td>3</td>
</tr>
</tbody>
</table>

3. earned at least a C in:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCW 200</td>
<td>Introduction to Social Work</td>
<td>3</td>
</tr>
<tr>
<td>SOCW 357</td>
<td>Methods of Social Work Intervention I</td>
<td>3</td>
</tr>
<tr>
<td>SOCW 361</td>
<td>Methods of Social Work Intervention I: Laboratory</td>
<td>3</td>
</tr>
</tbody>
</table>

And at least two of the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCW 311</td>
<td>Building Professional Social Work Skills</td>
<td>3</td>
</tr>
<tr>
<td>SOCW 312</td>
<td>Knowledge Building for Helping Professionals</td>
<td>3</td>
</tr>
</tbody>
</table>
4. be enrolled in all other required 300-level SOCW courses; and
5. submitted an application for the social work major and the senior field practicum by the deadline stated on the BSW admissions website (https://socialwork.gmu.edu/admissions/undergraduate-admissions).

The student's application for admission to the social work major is reviewed for action by social work faculty members. A personal interview may be required.

There is no admission to the social work program in the summer. Students who have not met all criteria for admission to the major will not be considered for admission until the next academic year.

**Policies**

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 87).

**Program Requirements**

To earn a bachelor’s degree in social work, students must earn a grade of C or above in all Social Work classes applied to the major and must achieve a GPA of 2.50 overall. Class attendance is required in all Social Work courses. Before beginning SOCW 495 Field Practicum and Seminar I, students must successfully complete all required 200- and 300-level courses with a grade of C or above.

The Social Work faculty evaluates student performance periodically and may require students to withdraw from the program when, in their judgment, performance is not satisfactory. The decision is based on the quality of academic and field performance, as well as on personal fitness for the profession of social work. Students have the right to appeal.

A student with a criminal history may find it difficult to obtain a field placement or employment in a human service agency depending on the specific charge. It is possible that a student with a criminal background may not be able to be placed in a field practicum or complete their degree program. The Criminal Background Policy is available on the Social Work Department website (https://socialwork.gmu.edu).

**Immunization and Fees**

All students who are enrolled in a course that requires a field placement (SOCW 495 Field Practicum and Seminar I and SOCW 496 Field Practicum and Seminar II) must have an annual tuberculosis screening (PPD). In addition, students must complete the entire hepatitis B immunization series in accordance with current U.S. Public Health Service recommendations. The cost of immunizations is the responsibility of the student. The majority of agencies used for field placements require fingerprinting, a criminal background check (may be more extensive than the university requirement), and a child protective services check. Any cost related to these requirements is the responsibility of the student.

**Writing Intensive Requirement**

The university requires all students to complete at least one course designated “writing intensive” in the 300 level or above. Students majoring in social work fulfill this requirement by successfully completing SOCW 471 Research in Social Work.

**Degree Requirements**

Total credits: 120

Social Work, MSW

Banner Code: HH-MSW-SOCW

Academic Advising
Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#sw

This program opened its doors in fall 2002 and was fully accredited by the Council on Social Work Education in spring 2006. The MSW program prepares students for advanced practice in social work. Following completion of a generalist year of study, students complete a specialized concentration in social change or clinical practice. All social work students are expected to abide by the Code of Ethics of the National Association of Social Workers. No academic credit toward field experience or coursework is given based on previous work or life experience.

The MSW degree is offered via a regular on-campus or premium priced all-online delivery format. The curriculum in both programs is the same, but students must matriculate through only one pathway. Separate application processes are used for online and on-campus programs. On-campus students can complete their degree in a two-, three-, or four-year plan of study. On-campus MSW courses are offered during the day and evening hours. Students must be available morning, afternoon, and evening two specific days a week to attend classes. All courses are sequenced and must be taken in the order designated. Students should meet with their academic advisor to ensure timely completion of all degree requirements. The online premium-priced program is offered in a flexible 8-week schedule format, and courses are taken in a prescribed sequence, one at a time, except during semesters when students are in their field practicum. In both program options, students are required to successfully complete 1,050 hours of supervised field practicum in agencies approved by the Department of Social Work: 450 hours during the generalist year and 600 hours during the specialized practice year. Field placements generally require availability during regular daytime hours. The Department of Social Work will make reasonable efforts to work with a student to secure an appropriate field placement, but it does not guarantee a placement.

Admissions & Policies

Admissions
Requirements
Applicants must meet the admission standards and application requirements specified in the Admissions (p. 68) and apply using the online Application for Graduate Admission (http://admissions.gmu.edu).

The application process is competitive, and applications are considered for the fall semester only. In addition to holding an undergraduate degree from a regionally accredited college or university, applicants must have a minimum of 30 undergraduate credits in the liberal arts to include at least 3 credits in each of the following: English composition, history or government, social sciences, and statistics. For application deadlines and detailed application requirements, please refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

Requirements for MSW students with Advanced Standing
Students with a BSW degree who demonstrate superior academic achievement and excellence in social work practice will be considered for advanced standing. Advanced standing students begin the MSW Program in the summer and upon successfully completing SOCW 600, move directly into the specialization year. Advanced standing students must successfully complete 600 hours of supervised field practicum in agencies approved by the Department of Social Work.

All other academic policies for the advanced standing program are identical to those for the regular MSW Program.

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). The application process is competitive, and applications are considered for the fall admissions cycle only, with advanced standing students beginning courses in the summer. In addition to holding a BSW in Social Work earned within the past five years from a program accredited by the Council on Social Work Education, applicants must have a minimum of 30 undergraduate credits in the liberal arts to include at least 3 credits in each of the following: English composition, history or government, social sciences, and statistics. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

To graduate with the MSW degree, advanced standing students must successfully complete the generalist course (SOCW 600) in the summer prior to beginning the specialization curriculum and complete the courses for one specialization.

Policies
Transfer of Credit
Students who began MSW programs at another CSWE-accredited MSW program may transfer a maximum of 29 graduate credits into the MSW program, with the exception of SOCW 600 Foundations of Social Work and Social Welfare (3 credits) and the specialization curriculum courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>SOCW 630</td>
<td>Forensic Social Work Practice</td>
<td>3</td>
</tr>
<tr>
<td>SOCW 640</td>
<td>Advanced Clinical Practice</td>
<td>3</td>
</tr>
<tr>
<td>SOCW 645</td>
<td>Community-Centered Clinical Practice</td>
<td>3</td>
</tr>
<tr>
<td>SOCW 674</td>
<td>Psychopathology</td>
<td>3</td>
</tr>
<tr>
<td>SOCW 684</td>
<td>Social Work and the Law</td>
<td>3</td>
</tr>
<tr>
<td>SOCW 685</td>
<td>Organizational Leadership for Social Workers</td>
<td>3</td>
</tr>
<tr>
<td>SOCW 687</td>
<td>Empowering Communities for Change</td>
<td>3</td>
</tr>
</tbody>
</table>
Transfer credit is subject to university and college policies and must be approved by the program director and the dean. Students must note on the MSW Departmental Form and MSW Application Checklist that they are applying as transfer students.

**Non-Degree Students**

Admission to the MSW program is offered once a year for the fall semester only. Non-degree students may apply through the Office of Admissions (http://admissions.gmu.edu/nonDegree) and be admitted in the fall and spring and, as space allows, enroll in classes as appropriate. Please contact the program director for more information.

**Program Requirements**

Students must earn a grade of B- or above in each course and must achieve a GPA of 3.0 over all courses applied to the degree. A prerequisite must be satisfied with a B- or better before registering for the next course in a sequence. A course in which the student earns a C may be repeated once. No more than 6 total credits of C may be repeated overall.

Social work faculty members evaluate each student’s performance periodically and may terminate the student from the program when, in their judgment, performance is not satisfactory. The decision is based on the quality of academic and field performance, as well as on personal fitness for the profession of social work. The student has the right to appeal.

A student with a criminal history may find it difficult to obtain a field placement or employment in a human service agency depending on the specific charge. It is possible that a student with a criminal background may not be placed in a field practicum or complete their degree program. The Criminal Background Policy is available on the Social Work Department website (https://socialwork.gmu.edu).

**Insurance Coverage**

Students engaged in internships are covered for liability under the Commonwealth of Virginia’s Self-Insured Liability Insurance Plan and covered for medical malpractice under the Medical Malpractice Insurance Plan, as established by the Department of General Services, Division of Risk Management. Only practicum activities that have been determined by the field instructor to be part of the course are covered. Students are encouraged to obtain professional liability coverage through the National Association of Social Workers, although this additional coverage is optional.

**Immunizations**

All students who are enrolled in a course that requires a field placement (SOCW 672, SOCW 673, SOCW 692, SOCW 693, SOCW 694, SOCW 695) must have an annual tuberculosis screening (PPD). In addition, students must complete the entire Hepatitis B immunization series in accordance with current U.S. Public Health Service recommendations. Any cost related to these requirements is the responsibility of the student. Students can register for field classes prior to the completion of the immunizations, but documentation of completion must be submitted to the MSW administrative assistant in the Social Work Department office no later than one month after the beginning of the semester. Immunizations are program requirements and must be completed by the student even if they are not required by the agency.

## Requirements

### Degree Requirements

**Total credits: 60**

In order to graduate with the MSW degree, students must successfully complete the generalist courses and the courses for one specialization. Before beginning Specialization Courses, students must complete all Generalist Courses.

Dual Degree Options

Conflict Analysis and Resolution, MS and Social Work, MSW Dual Degree

The Department of Social Work (p. 279) and the School for Conflict Analysis and Resolution (p. 936) have joined forces to offer a three year dual-degree program. Students can earn both an MSW (p. 284) and an MS in Conflict Analysis and Resolution (p. 951) while taking advantage of the diversity of the Washington, D.C., metropolitan area and the university’s proximity to the nation’s capital. This is the only dual-degree program of its kind.

Admission Requirements

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and apply using the online Application for Graduate Admission (http://admissions.gmu.edu). The application process is competitive, and applications are considered for the fall semester only.

Students interested in the 3-year dual degree program submit one online Application for Graduate Admission (http://admissions.gmu.edu), select the MSW in Social Work (p. 284) as a primary program, and submit all application support materials to the Office of Graduate Admission in the College of Health and Human Services. Applicants should communicate their interest in completing the dual degree program in their essays, and recommendations should address the dual program interest. Students must be admitted to both programs in the same semester (fall only) to be admitted to the dual degree program.

For application deadlines and detailed application requirements please refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines). Interested students should consult the MSW program website (https://socialwork.gmu.edu/program/view/19658), the MSW program (p. 284), and the MSW program director for additional information prior to applying.

Transfer of Credit

Transfer credit is governed AP.6.5.3 Transfer of Credit (p. 92) and AP.6 Graduate Policies (p. 90). Transfer credits must be approved by the
program director and the dean. Students who enroll initially through non-degree studies should seek course advising through the department prior to taking a course and plan to submit their application to the dual degree program as soon as possible.

Please refer to the Transfer of Credit policy for the MSW in Social Work (p. 284) for departmental policy governing courses taken at another institution and the maximum number of credits allowed.

703-993-1961 (Doctoral)
Website: nursing.gmu.edu

Administration

- Cheryl Oetjen, Interim Director

The School of Nursing is a teaching/learning organization with a national and international academic reputation, grounded in sound general education. It develops and supports a diverse faculty who are visionary and competent practitioners, scholars, and researchers, excellent in teaching in academic and practice settings, and responsive to the needs of students and the community. Specifically, the nursing programs prepare graduates to function as providers, coordinators, and managers of care and for leadership, advanced practice, and nurse scholar roles, as well as members of the nursing profession. Graduates of the School of Nursing are prepared to function as interdisciplinary health professionals and citizens who provide leadership, care, and service to the community. The School promotes health and well-being through its programs and centers, engaging in scholarly activities and research with the aim of maximum health for all people. Part-time students are encouraged to take at least 6 credits per semester to promote timely completion of the program.

Requirements & Policies

Policies

Academic Advising
Each student is assigned an academic advisor who is a faculty member within their academic department or a professional academic advisor within the Office of Student Affairs (OSA). Academic advisor assignments are listed on the CHHS website (https://chhs.gmu.edu/students/academic-advising), and students are expected to meet with their advisor regularly (at least once each semester) to seek advice about academic schedules and program plans, internships, and career guidance. Students also should meet with their advisor if they are experiencing academic difficulty or personal challenges or if they are feeling overwhelmed.

All students are responsible for knowing the requirements of their major as specified in the university catalog for their catalog year; academic deadlines outlined in the semester academic calendar (http://registrar.gmu.edu/calendars); and university policies and procedures as stated in the catalog.

Students also should run their own degree-evaluation (http://registrar.gmu.edu/students/degree-evaluation) to identify graduation requirements and progress towards their degree. While academic advisors can give advice to students, students are responsible for the academic planning decisions they make. Academic advisors cannot be held responsible for mistakes made by students in selecting courses that may not count toward their degree and thus delay a desired graduation date.

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/undergraduate-advising/nursing-advisors

The Bachelor of Science in Nursing (BSN) Program is accredited by the Virginia State Board of Nursing and the Commission on Collegiate Nursing Education. The undergraduate nursing program prepares students to deliver superior nursing care and provide leadership in nursing in the increasingly complex and challenging field of modern health care. Graduates are in demand as professional nurses in hospitals, long-term care facilities, and community health and other health care agencies. The program emphasizes health promotion and disease prevention, capitalizing on early detection of potential health problems, health maintenance in ambulatory and acute-care agencies, and preparation for the managerial responsibilities of nursing.
The School of Nursing offers four pathways to complete the BSN, all of which lead to completion of the objectives of the undergraduate program. The traditional pathway is a two-year curriculum following the completion of the Mason Core and prerequisite requirements. An accelerated RN-to-BSN pathway for students holding current registered nurse (RN) licenses may be completed in one year (full-time) following completion of the Mason Core and prerequisite requirements. The accelerated, second degree pathway is a 12-month curriculum for students holding a baccalaureate degree outside of nursing. The traditional and accelerated pathways in nursing must be completed on a full-time basis. An accelerated Veteran LPN-to-BSN pathway is designed to build upon the skills and knowledge gained through an LPN program and previous military health training and must be completed on a full-time basis. Students can complete this pathway in 12 months following completion of the nursing prerequisite requirements.

### Traditional BSN Pathway Requirements

To be eligible to apply for the traditional BSN program, applicants must have achieved a minimum GPA of 3.00 in the designated nursing prerequisite coursework and must have earned a C or better in each of the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>

</tr>
<tr>
<td>BIOL 125</td>
<td>Human Anatomy and Physiology</td>
<td></td>
</tr>
<tr>
<td>BIOL 246</td>
<td>Introductory Microbiology</td>
<td></td>
</tr>
</tbody>
</table>

### Admissions & Policies

#### Admissions

**General Requirements**

To be admitted to the BSN program, students must complete a prenursing curriculum during their first two years and be admitted to junior standing. Students admitted in the traditional and accelerated, second degree pathways will enter the program in the fall of their junior year and at that point are considered nursing majors. Students admitted to the RN-to-BSN pathway may enter in the fall or spring semester. Students admitted to the Veteran LPN-to-BSN pathway may enter in the fall semester only.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university, but admission to the university does not guarantee admission to the nursing program. Application to the BSN major is a competitive admission process. Prospective applicants are responsible to meet all BSN admission requirements at the time of application. Meeting the minimum requirements does not guarantee admission into the nursing program—it only allows an application to be considered. Students who are interested in pursuing a major in nursing are strongly encouraged to attend an information session provided by the CHHS Office of Student Affairs for advising prior to applying to the nursing major.

Attendance at the first meeting of all nursing courses (lectures, on-campus laboratories, and agency laboratories) is mandatory.

### Accelerated, Second Degree BSN Pathway Requirements

The Accelerated, Second Degree BSN Pathway is designed for applicants already holding a bachelor's degree who are interested in pursuing an undergraduate degree in nursing. This full-time accelerated program begins in the fall semester and is completed in 12 months.

Applicants must have a baccalaureate degree from an accredited college or university and must have earned a minimum cumulative GPA of 2.85 in their first degree. The non-nursing baccalaureate degree must be completed by the end of the spring semester of the year a student desires to be considered for fall admission.

Applicants to the second degree pathway must have achieved a minimum GPA of 3.00 in the designated nursing prerequisite coursework and must have earned a C or better in each of the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 124</td>
<td>Human Anatomy and Physiology</td>
<td></td>
</tr>
<tr>
<td>BIOL 125</td>
<td>Human Anatomy and Physiology</td>
<td></td>
</tr>
<tr>
<td>BIOL 246</td>
<td>Introductory Microbiology</td>
<td></td>
</tr>
<tr>
<td>BIOL 306</td>
<td>Biology of Microorganisms Laboratory</td>
<td></td>
</tr>
</tbody>
</table>

### Additional Eligibility Requirements

Applicants must have completed two of the three science prerequisite courses (anatomy and physiology I, anatomy and physiology II, and microbiology) by the submission date of the BSN Departmental Application. Coursework in anatomy and physiology and microbiology cannot be more than five years old by the time of BSN enrollment. Additional eligibility requirements include a grade of C or better in all Mason Core courses and electives. All nursing prerequisites, Mason Core, and electives must be complete by the end of Mason’s spring term before starting the program.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university. Admission to the university does not guarantee admission to the nursing program. See the CHHS undergraduate admissions website (https://nursing.gmu.edu/admissions/bsn-admissions) for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program—it only allows an application to be considered in the review process.

The traditional BSN pathway is a full-time program beginning in the fall semester and is completed in two years (four semesters).
Students admitted with a prior bachelor's degree are required to complete at least 30 hours at Mason beyond the first degree. Students should meet with their academic advisor to review degree requirements.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

**Mason Veterans Program in Nursing and Co-enrollment in Nursing Program**

The Mason Veterans Program in Nursing and Co-enrollment in Nursing Program allow students to complete a Bachelor of Science in Nursing (BSN) degree online while concurrently enrolled in an Associate of Applied Science nursing degree (AAS Nursing) program at a partner community college. Nursing classes in the CEP are offered online in seven-week and full-semester formats.

Students take the NCLEX (National Council Licensure Examination) after completing their AAS in nursing while enrolled in Mason’s BSN program. After a student passes the NCLEX and upon successful completion of NURS 336, students are awarded 33 nursing transfer credits toward their BSN degree. Students complete Mason’s BSN program the semester following graduation with the AAS degree.

**Application Process**

Admission to the Mason Veterans Program in Nursing or Co-enrollment in Nursing Program involves two applications: the George Mason University Undergraduate Application (https://www2.gmu.edu/admissions-aid/apply-now) and the BSN Departmental Application. The BSN Departmental Application, instructions, and deadlines are available online (https://nursing.gmu.edu/admissions/bsn-admissions). Please use the Transfer Search Engine (http://admissions.gmu.edu/transfer/transferCreditSearch.asp) to check course equivalency.

**Eligibility Guidelines**

To be eligible to apply for the Co-enrollment in Nursing Program, applicants must:

- Receive admission to Mason
- Provide a copy of a letter of admission to a pre-licensure nursing program at a partner community college
- Provide proof of enrollment in a partner community college AAS-Nursing program (i.e., copy of an unofficial transcript)
- Have completed all Mason nursing prerequisite courses at any regionally accredited institution with a grade of C (not C-) or better in EACH course by the completion of the AAS Nursing program at the partner community college
- Mason Core and elective courses may be completed at any regionally accredited institution and can still be in progress at the time of admission. These courses must be completed with a grade of C (not C-) or better in EACH course prior to completing the CEP ENGHI 302 must be completed at Mason.
- Mason Core and elective courses may be completed at any regionally accredited institution and can still be in progress at the time of admission. These courses must be completed with a grade of C (not C-) or better in EACH course prior to completing the CEP ENGHI 302 must be completed at Mason.
- Mason Core and elective courses may be completed at any regionally accredited institution and can still be in progress at the time of admission. These courses must be completed with a grade of C (not C-) or better in EACH course prior to completing the CEP ENGHI 302 must be completed at Mason.
- Earn a cumulative GPA of 3.0 at partner community college institution
- Submit an online BSN departmental application and non-refundable fee through online payment system by the deadlines. See the CHHS undergraduate admissions website (https://nursing.gmu.edu/admissions/bsn-admissions) for the latest information on applications and deadlines.

In addition, to be eligible to apply for the Mason Veterans Nursing Program, applicants must be a veteran of the US military.
Veteran LPN-to-BSN Pathway Requirements

The accelerated Veteran LPN-to-BSN Pathway is for LPNs seeking to pursue a BSN and earn their RN license. The Veteran LPN-to-BSN program is designed to build upon the skills and knowledge gained through an LPN program and previous military health training. Students can complete this concentration in 12 months following completion of the prerequisite requirements. The program must be completed on a full-time basis.

To be eligible to apply for the Veteran LPN-to-BSN Pathway, applicants must be a veteran of the US military and have a current LPN license. Applicants must have achieved a minimum GPA of 3.00 in the designated nursing prerequisite coursework and must have earned a C or better in each of the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>BIOL 124</td>

<tr>
<td>NUTR 295</td>
<td>Introduction to Nutrition (Mason Core)</td>
<td>(p. 142)</td>
</tr>
</tbody>
</table>

Applicants must have completed two of the three science prerequisite courses (anatomy and physiology I, anatomy and physiology II, and microbiology) by the submission date of the BSN Departmental Application. Coursework in anatomy and physiology and microbiology cannot be more than five years old by the time of BSN enrollment. Additional eligibility requirements include a grade of C or better in all College of Science, Engineering, and Mathematics (CSE) and Mason Core courses. All science prerequisite courses must be complete by the end of Mason's spring term before starting the program.

Application to the BSN program is a process involving two applications: the George Mason University Undergraduate Application and the BSN Departmental Application. (Currently enrolled Mason students need only apply using the BSN Departmental Application.) Acceptance to the nursing program is contingent upon admission to the university. Admission to the university does not guarantee admission to the nursing program. See the CHHS undergraduate admissions website (https://nursing.gmu.edu/admissions/bsn-admissions) for the latest information on applications and deadlines.

Application to the BSN major is a competitive admission process. Meeting the minimum requirements does not guarantee admission into the nursing program - it only allows an application to be considered in the review process.

**Policies**

**Degree Requirements**

Students must fulfill all requirements for bachelor's degrees, including the Mason Core (p. 142) requirements. For policies governing all undergraduate degrees, see APSU Undergraduate Policies (p. 87).

**Writing Intensive Requirement**

Mason requires all students to complete at least one 300- or 400-level "writing intensive" course as designated by their department. Students majoring in nursing fulfill this requirement by successfully completing NURS 465.

**Academic Grade Standards**

The passing grade is a C+ or above in undergraduate nursing didactic courses in the School of Nursing. A grade of satisfactory (S) is the passing grade for NURS 310 and NURS 312. After admission to junior-year standing and to the nursing program, a student who earns a grade of C or below must repeat the course and earn a grade of a C+ or above in that course. This will alter or halt further progression in the nursing program and affect the expected graduation date. A student may repeat only one nursing course, one time. A student who fails to earn a grade of C+ or above in the repeated course is terminated from the BSN nursing program. In addition, earning a grade of C or below in a second nursing course results in termination from the BSN nursing program. Termination from any one of the nursing undergraduate pathways constitutes termination from the undergraduate (BSN) nursing major in the School of Nursing.

Because of the sequential nature of the nursing curriculum, students are not allowed to progress to the next semester of nursing course work while a grade of "IN" (incomplete) remains on their academic record. A passing grade must be recorded before beginning the next semester's courses. Academic dismissal is governed by university policy (p. 88).

**Professional Conduct Policy**

All students in the School of Nursing are expected to adhere to the Professional Conduct Policy (p. 245) of the College of Health and Human Services.

**Appeal Process**

Although faculty members in the nursing program are generally the best judges of a student's professional performance, there may be times when a student believes a grade is unfair. Students in the School of Nursing wishing to appeal a grade are expected to follow the Mason guidelines for grade appeals (p. 85).

**NCLEX Readiness Preparation and Testing**

Throughout the BSN program, all students, with the exception of RN-to-BSN students, participate in preparation for the NCLEX-RN licensing exam through opportunities provided during nursing courses. These opportunities are included as integrated components of select courses and include practice NCLEX-style exams and content-specific testing. A final cumulative assessment exam is given toward the end of the program to provide the student with guidance about their chance for success on the licensing exam. A final course in critical thinking and test-taking strategies is required in the senior year, and remediation in select content areas may be required as a component of this course.

**Special Requirements**

Fees and expenses related to the nursing program include: skills laboratory fee, standardized testing and course materials, uniforms, stethoscope, name pin, books, CPR certification, health forms, health insurance, immunizations, and criminal background check fees. The availability of personal transportation to and from clinical agencies is required of all students. For a summary of all current fees and estimated expenses, see the School of Nursing website (https://nursing.gmu.edu).
All BSN students are required to obtain a health clearance and complete the immunizations required by Mason as listed in the Student Health Services section of the Mason catalog. In addition, the BSN program has additional health and immunization requirements to meet the requirements of its clinical agency partners. See the Undergraduate Program, School of Nursing website for the most current information. Students are not allowed into any clinical setting without the completed immunization series as prescribed by Mason or the School of Nursing and may have an offer of admission withdrawn for inability to meet these requirements. The School of Nursing reviews health records and reserves the right to refuse admission or continued enrollment to any student who is unable to comply with these requirements.

All students must have CPR certification before entering the first clinical nursing course and maintain it through the remainder of the program. The American Heart Association Basic Life Support - Health Care Provider is required. On-line renewal of CPR certification is not accepted. Any cost incurred is the responsibility of the student.

All students must have current health insurance before entering the first clinical nursing course and maintain it through the remainder of the program. All students are required to have an active Mason e-mail account.

No student or faculty member will be discriminated against or denied admission to the nursing program for the sole reason that the student or faculty member has been exposed to, infected with, or diagnosed with HIV or HBV. All students are expected to practice Universal Precautions with all clients, and failure to do so will result in termination from the nursing major. In the event that a student is exposed to body fluids of a client during a clinical experience or practicum, procedures and appropriate reports are completed according to institutional and nursing policies. Information related to exposure or infection is confidential, and dissemination of such information is based on the need-to-know criteria that apply in health care situations. HIPAA and FERPA regulations apply. A complete and detailed HIV/HBV policy is available in the CHHS Office of Student Affairs.

RN-licensed students enrolled in the RN-to-BSN pathway and LPN-licensed students enrolled in the Veteran LPN-to-BSN pathway are required to submit a copy of their current license prior to the first day of class. RN-licensed students and LPN-licensed students enrolled in the Veteran LPN-to-BSN pathway are required to submit a copy of their current license prior to the first day of class. RN-licensed students and LPN-licensed students must maintain current licensure throughout the academic program.

Accelerated, Second Degree BSN Pathway (SEC)

Students who are eligible for an alternative pathway to the BSN must meet the nursing course requirements for the pathway to which they have been admitted rather than those for the traditional BSN pathway. Candidates for the degree must present at least 120 credits via:

• Mason Core (p. 142) requirements, to be satisfied by the initial degree and fulfilled through transfer credit.

Total Credits 120

For some students, the Mason Core requirements (except ENGH 302 Advanced Composition (Mason Core) (p. 142)) may be met by completing the Associate’s degree (i.e., AA – Associate of Arts, AS – Associate of Science, or AA&S – Associate of Arts and Science) from an approved Virginia community college with a qualifying GPA and specific admissions criteria. The Associate of Applied Science (AAS degree) does not waive the Mason Core requirements. Contact Mason’s general Office
of Admissions for more information and see the Guaranteed Admission Agreement (http://admissions.gmu.edu/transfer/gaa.asp) for details.

### Nursing, MSN

**Banner Code: HH-MSN-NURS**

**Academic Advising**

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#nurs

The Master of Science in Nursing (MSN) program is approved by the Virginia State Board of Nursing and accredited by the Commission on Collegiate Nursing Education. The program prepares nurses for a variety of leadership and practice roles in the health care system. The adult gerontology and family nurse practitioner primary care concentrations have been approved by the state boards of nursing and medicine in Virginia. The nursing administration concentration prepares nurses to be leaders in health care organizations. The nurse educator concentration prepares graduates for educational positions in health care organizations.

### Admissions & Policies

**Admissions Requirements**

Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must
apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). Applicants must be graduates of an accredited baccalaureate (BSN) program in nursing, except for the applicants to the RN-to-MSN program. In addition, applicants must have an active state-based/US license as a registered nurse (RN), a current CPR card, and documented work experience as an RN. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

**Policies**

**Transfers Between Concentrations**

Approval from the school and college is required for students who wish to transfer between concentrations of the MSN. Students must meet the residency requirements stated in AP 6.9 Requirements for Master's Degrees (p. 94).

**Transfer of Credit**

Students may transfer a maximum of 9 credits into the MSN program from other institutions or taken at Mason in non-degree status, including graduate courses offered through the CHHS Academic Outreach program. Transfer credit is subject to university policies found in AP 6.5.3 Transfer of Credit (p. 92) and college policies and must be approved by the program director and the dean/director of the School of Nursing. Students who enroll initially through non-degree studies or the Academic Outreach program should seek course advising through the School of Nursing and should submit their application to the MSN program in their first semester of study.

**Special Requirements**

Additional fees and expenses related to the nursing graduate program may include: laboratory fee, standardized testing and course materials, name pin, books, CPR certification, health forms, health insurance, immunizations, and criminal background check fees. All students must provide their own personal transportation to and from clinical agencies. For a summary of all current fees and estimated expenses, see the School of Nursing website.

All MSN students are required to obtain a health clearance and complete the immunizations required by George Mason University as listed in the Student Health Services (p. 114) section of the catalog. Additional health and immunization requirements are imposed by clinical agency partners. The additional health requirements are included in the School of Nursing welcome letter. See the Graduate Program, School of Nursing website (https://nursing.gmu.edu) for the most current information. Students are not allowed into any clinical setting without the completed immunization series as prescribed by Mason's School of Nursing. The School of Nursing will refuse admission or continued enrollment to any student who is unable to comply with these requirements. No student will attend practicum courses unless all the requirements for CPR, health exams, immunizations, and criminal background checks are met. Students must be in the process of completing a hepatitis B immunization series when they enroll for their first practicum course.

All students must have CPR certification before entering their first course and maintain it through the remainder of the program. The American Heart Association Basic Life Support - Health Care Provider is required. Any cost incurred is the responsibility of the student.

All students must have current health insurance before entering the first practicum nursing course and maintain it through the remainder of the program. All students are required to have an active Mason e-mail account.

No student or faculty member will be discriminated against or denied admission to the nursing program for the sole reason that the student or faculty member has been exposed to, infected with, or diagnosed with HIV or HBV. All students are expected to practice Universal Precautions with all clients, and failure to do so will result in termination from the nursing major. In the event that a student is exposed to body fluids of a client during a clinical experience or practicum, procedures and appropriate reports are completed according to institutional and nursing policies. Information related to exposure or infection is confidential, and dissemination of such information is based on the need-to-know criteria that apply in health care situations. HIPAA and FERPA regulations apply.

A complete and detailed HIV/HBV policy is available in the CHHS Office of Student Affairs.

MSN students are required to submit a copy of their current RN license prior to the first day of class and must maintain licensure throughout the academic program.

**Professional Conduct**

All students in the School of Nursing are expected to adhere to the Professional Conduct Policy (p. 245) of the College of Health and Human Services.

**Appeal Process**

Although faculty members in the nursing program are generally the best judges of a student’s professional performance, some students may feel that the faculty member’s judgment is unfair. Students in the School of Nursing wishing to appeal a grade are expected to follow the Mason guidelines for grade appeals, found in AP 3.9 Grade Appeals (p. 85).

**Honor System and Code**

The School of Nursing supports academic integrity and follows the standards and procedures as described in the University catalog and available online (http://oai.gmu.edu).

**Academic Termination**

Academic termination is governed by university policy described in AP 6.6.2 Academic Termination (p. 92). Additionally, a failing grade of “F” in a practicum course may result in termination from the program. Any graduate course in which a student earns a C grade or below must be repeated to earn a grade of B or better in order to progress. A course may be repeated only once. A student may also be terminated from the program due to a finding of violation of the university Honor Code or after demonstrating a significant lack of progress.

**Grading**

Throughout the semester, students are assessed on how well they have met curricular outcomes. Consistent with the university, the MSN in Nursing program does not provide a D grade. Final grades for all MSN in Nursing courses are submitted to the university as letter grades.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Graduate Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>A (90-100%)</td>
<td>4.00</td>
<td>Passing</td>
</tr>
<tr>
<td>B (80-89%)</td>
<td>3.00</td>
<td>Passing</td>
</tr>
</tbody>
</table>
A graduate course in which a grade of C or below is earned must be repeated to earn a grade of B or better in order to progress, and a course may be repeated only once. Graduate students (both master’s and doctoral) may repeat no more than two courses in their total program of study.

Curriculum

The master’s program in nursing requires 39 to 49 graduate credits. Of these, a 15-credit core consists of coursework in the theoretical and ethical foundations of nursing, nursing research and biostatistics, nursing informatics, and the organization of nursing and health care delivery systems. The remaining 24-34 credits are satisfied by completing one of the concentrations:

Clinical Nurse Specialist Emphasis

Students in the advanced clinical nursing concentration who opt for the clinical nurse specialist emphasis must accrue 500 clinical hours by completing NURS 740. The course may be repeated once if necessary to accrue 500 hours (for a total of 6 credits).

RN-to-MSN Pathway
This pathway allows RNs who have completed the Mason Core requirements (as listed in the undergraduate RN-to-MSN Pathway described in the Nursing, BSN program) and have demonstrated substantial involvement in professional nursing within the past two years to earn the MSN degree. Students entering a concentration through this pathway must meet all the requirements for admission to that concentration.

In addition to fulfilling admission requirements for degree status at Mason, applicants must:
1. Hold a current state-based/US license to practice nursing.
2. Be graduates of an accredited nursing program.
3. Have earned a 3.00 GPA in
   a. the nursing prerequisites,
   b. the nursing curriculum from the graduating institution, and
   c. Mason Core/general education courses at an accredited institution.
4. Demonstrate involvement in professional nursing within the past two years as an RN in clinical practice.

Students in the RN-to-MSN pathway are required to take the following bridge course:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>NURS 440</td>
<td>Community Health and Epidemiology</td>
<td>3</td>
</tr>
</tbody>
</table>

After completion of the bridge course, students choose one of the concentrations and meet all requirements of the graduate program.

Nursing, DNP

Banner Code: HH-DNP-NURS

Academic Advising

Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#nurs

The Doctor of Nursing Practice (DNP) is the terminal practice degree in the profession. The objective of the program is to prepare graduates for the highest level of nursing practice. Emphasis will be placed on evaluating and applying the evidence that supports practice, understanding and creating practice delivery systems based on patient outcomes, and assuming leadership roles in practice settings. The curriculum will allow students with diverse nursing academic and clinical backgrounds the flexibility to enter a program of study tailored to their future professional goals. In the curriculum, five concentrations are available. The concentrations are configured into two foci as recommended by the American Academy of Colleges of Nursing (AACN) Essentials of Doctoral Education for Advanced Nursing Practice (2006), the guidance document for DNP programs. The two foci are:

1. care of individuals with three concentrations, Family Nurse Practitioner, Adult-Gerontology Nurse Practitioner, and Psychiatric Mental Health Nurse Practitioner; and
2. care of aggregates with Advanced Clinical Nursing and Administration in Nursing concentrations.

The DNP program is approved by the Virginia State Board of Nursing and accredited by the Commission on Collegiate Nursing Education. The nurse practitioner concentrations have been approved by the state boards of nursing and medicine in Virginia.
Admissions & Policies

Admissions
Requirements
Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). Applicants must be graduates of accredited baccalaureate (BSN) programs in nursing. Applicants for the master’s to DNP curriculum must also have a master’s degree in nursing or a related field. All applicants must submit a copy of their current state-based/US nursing license and show evidence of at least one year of experience as an RN prior to admission. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

Policies
Transfers Between Programs or Concentrations
Approval from the school and college is required for students who wish to transfer between concentrations of the DNP or who wish to resign from the DNP and transfer to the MSN program.

Students must meet the residency requirements stated in AP.6 Graduate Policies. (p. 90)

Transfer of Credit
Students may transfer a maximum of 9 credits into the DNP program from graduate courses taken at other institutions or taken at Mason in non-degree status, including courses offered through the college’s Academic Outreach program. Transfer credit is governed by university transfer of graduate credit policy and the university requirements for doctoral degrees, and transfer credit must be approved by the program director and the dean. Students who enroll initially through non-degree studies or the Academic Outreach program should seek course advising through the department and should submit their application to the DNP program as soon as possible after beginning their study in non-degree status.

Reduction of Credit
Students who come into the master’s to DNP program will complete 72 credits, including up to 30 hours of relevant graduate credit awarded for past master’s-level courses.

Time Requirements
The total time to degree will not exceed eight (8) calendar years for BSN to DNP students and will not exceed six (6) calendar years for master’s to DNP students.

Academic Termination
Academic termination is governed by university policy described in AP.6.6.2 Academic Termination (p. 92). Additionally, a failing grade of F in a practicum course may result in termination from the program. Any graduate course in which a student earns a C grade or below must be repeated to earn a grade of B or better. A course may be repeated only once. A student may also be terminated from the program due to a finding of violation of the university Honor Code (p. 104) or after demonstrating a significant lack of progress.

Grading
Consistent with the university, the DNP program does not provide a D grade. Final grades for all DNP courses are submitted to the university as letter grades.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Graduate Courses</th>
</tr>
</thead>
<tbody>
<tr>
<td>A (90-100%)</td>
<td>4.00</td>
<td>Passing</td>

<td>2.00</td>
<td>Failing</td>
</tr>
<tr>
<td>F (69% or lower)</td>
<td>0.00</td>
<td>Failing</td>
</tr>
</tbody>
</table>

A graduate course in which a grade of C or below is earned must be repeated to earn a grade of B or better. A course may be repeated only once. Graduate students (both master’s and doctoral) may repeat no more than two courses in their total program of study.

Practicum Hour Requirements
The DNP degree requires a minimum of 1,000 practice hours. The 1,000 hours of precepted or mentored practice are distributed among introductory and upper-level graduate courses. Variable hours in the clinical practicums (NURS 921 and NURS 922) will assure a minimum total of 1,000 clinical hours prior to DNP graduation.

Master’s to DNP students can transfer in up to 600 hours (depending on the number of hours they accrued during their master’s program). The number of clinical hours a student is awarded on admission is based on transcripts and course descriptions. Faculty will review clinical credits earned as part of the master’s degree to determine the number of clinical hours awarded.

DNP Project
The final step in completion of the degree is the implementation of a DNP project in the practice inquiry courses. The proposal for this project must be prepared with ample time for submission to the Human Subjects Review Board at George Mason University. One School of Nursing faculty member will serve as chair for the project. The student must demonstrate competence of the AACN Essentials of Doctoral Education for Advanced Nursing Practice (2006) by planning, developing, and implementing a scholarly DNP project that uses evidence to inform practice.

Master's to DNP Curriculum
Students in the master's to DNP program will complete 72 credits. Up to 30 hours of relevant graduate credit may be awarded for past master's-level courses, and students will complete the remaining minimum of 42 additional credits following the curriculum below.

The core essentials build on previous master's education and must be completed in the first year of full-time study or two years of part-time study. They prepare the student to develop and implement the DNP project in the final two semesters of study. The core essentials for master's to DNP students will be individualized based on the content from the student's master's degree academic program.

Students must complete 1,000 hours of precepted or mentored practice including those obtained during previous master's education (individually awarded based on evaluation of master's clinical hours up to 600 hours). Students also must take additional electives to meet the total requirement of 72 credits required to complete the program.

Students may add one of the following concentrations to their DNP application: Adult-Gerontology Nurse Practitioner, Family Nurse Practitioner, Psychiatric Mental Health Nurse Practitioner, Nursing Administration, or Advanced Clinical Nursing.

NURS 769 Physiology and Pathophysiology in Advanced Practice 3
NURS 632 Pathogenesis of Mental Disorders 3
NURS 633 Individual Psychotherapy 3
NURS 634 Group, Family and Couple Psychotherapy 1
NURS 743 Clinical Psychopharmacology 3
NURS 782 Psychiatric Nurse Practitioner Practicum I 4

Electives
If needed, elective courses should be taken to complete the required 42 program credits. All electives must be approved by the advisor prior to the start of the course.

Nursing, PhD
Banner Code: HH-PHD-NURS

Academic Advising
Website: https://chhs.gmu.edu/students/academic-advising/graduate-advising#nurs

The PhD in Nursing program builds on the MSN degree and requires a total of 78 credit hours of work (a minimum of 48 credit hours beyond the master's). The objective of the program is to prepare nursing scholars who will pursue intellectual inquiry and conduct research for the purpose of extending knowledge to contribute to the health of all populations. Graduates of the program conduct independent and collaborative research, advance nursing science, and provide leadership to the nursing profession.
Admissions & Policies

Admissions
Requirements
Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and must apply using the online Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). Nursing PhD applicants must hold a master’s degree in nursing from an accredited program equivalent to 30 credits or a master’s degree in a related health field with a baccalaureate degree in nursing. Applicants also must hold a valid, current nursing license in a U.S. state or territory; waivers for international applicants will be determined by the assistant dean for doctoral programs. Applicants must have a 3.00 GPA or higher on a 4.00 scale in their master’s program. Applicants also must have completed a graduate-level course in statistics in the past two years with a final grade of 3.00 or higher or will be required to complete NURS 757 Nursing Research and Biostatistics I before beginning PhD coursework. The application process is competitive, and applications are considered for the fall semester only. For application deadlines and detailed application requirements, refer to the CHHS Admissions website (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines).

Policies
Reduction of Credit
Students must have a master’s degree before being admitted to the PhD in Nursing program. Up to 30 hours of relevant graduate credit may be awarded for past master’s-level courses, and students will complete the minimum of 48 additional credits following the curriculum below.

Transfer of Credit
Students may transfer a maximum of 9 credits into the program from graduate courses taken at other institutions or taken at Mason in non-degree status, including courses offered through the college’s Academic Outreach program. Transfer credit is governed by university transfer of graduate credit policy and the university requirements for doctoral degrees, which can be found in AP6 Graduate Policies (p. 90). Transfer credit must be approved by the assistant dean for the doctoral division of the School of Nursing. Students who intend to apply to the PhD program and enroll initially through non-degree studies or the Academic Outreach program should seek course advising through the assistant dean for the doctoral division and apply to the PhD program as soon as possible.

Program Requirements
To complete the PhD in Nursing, students must:
• Complete the program of study outlined in the PhD curriculum.
• Pass a written doctoral candidacy comprehensive examination after completing all PhD course requirements, except NURS 998 Doctoral Dissertation Proposal and NURS 999 Doctoral Dissertation.
• Pass the oral dissertation proposal defense and submit a dissertation proposal approved by the doctoral dissertation committee.
• Pass the final oral dissertation defense and submit a doctoral dissertation. Consistent with university graduate academic policy, final approval of the dissertation must be given by the doctoral dissertation committee, the assistant dean for the doctoral division of the School of Nursing, the director of the School of Nursing, and the dean of the college. The dissertation is submitted in the approved format to University Libraries.
• Complete application material for graduation in accordance with prevailing Mason policies.

Professional Conduct
All students in the School of Nursing are expected to adhere to the Professional Conduct Policy (p. 245) of the College of Health and Human Services.

Grading
Throughout the semester, students are assessed on how well they have met curricular outcomes. Consistent with the university, the PhD in Nursing program does not provide a D grade. Final grades for all PhD in Nursing courses are submitted to the university as letter grades.

<table>
<thead>
<tr>

<td>2.00</td>
<td>Failing</td>
</tr>
<tr>
<td>F (69% or lower)</td>
<td>0.00</td>
<td>Failing</td>
</tr>
</tbody>
</table>

Time Requirements
Students must complete all requirements for the PhD in Nursing within 9 calendar years from the time of first enrollment as a doctoral student in the program or with provisional status. PhD students are expected to progress steadily toward their degree and to complete all coursework and the written comprehensive examination in order to advance to candidacy within no more than 6 years from first enrollment.

Academic Termination
A degree-seeking PhD in Nursing student is terminated from the program after earning unsatisfactory grades (below a 3.00) in two courses. Any core course in which a student earns a grade below a 3.00 must be repeated and may prevent the student from progressing any further in coursework; a core course may be repeated only once. A student may not repeat more than one course. Any cognate course in which a student earns a grade below 3.00 will not be counted towards the 9 credits needed to meet the cognate requirement for the PhD in Nursing. A student may also be terminated from the program due to a finding of violation of the university Honor Code (p. 104) or after demonstrating a significant lack of progress.

Requirements
Degree Requirements
Total credits: 78

The PhD in Nursing program of study is based on the student’s interests and career goals and on the expertise of the faculty. A student develops his/her program of research through core coursework, cognate courses, and dissertation research.

Dissertation
The final requirement for the PhD degree in nursing is submission of an acceptable dissertation. The dissertation will be a report of an original, independent research project completed by the student and approved by the dissertation committee. During the process of writing the dissertation proposal, students must initially register for a minimum of 3 credits of NURS 998 Doctoral Dissertation Proposal; the student may repeat NURS 998 for variable credit (1-3 credits) until the proposal is successfully defended. The student must then register for at least 3 credits of NURS 999 Doctoral Dissertation per semester until the required 12 credits of NURS 998 and/or NURS 999 have been completed and the dissertation is completed.

Advancement to Candidacy
The student must complete all coursework, pass the comprehensive examination to advance to candidacy for the doctoral degree. The assistant dean for the doctoral division of the School of Nursing will approve the student’s program of study and recommend advancement to candidacy to the director of the School of Nursing, who will render final approval for candidacy. A student who is unsuccessful in passing the comprehensive examination will be provided only one additional opportunity to sit for the examination after completing a remediation plan approved by the assistant dean for the doctoral division. A student who fails the comprehensive examination a second time will be terminated from the program.

Dissertation Committee
With the advice of the assistant dean for the doctoral division of the School of Nursing, and approval of the director of the School of Nursing, the student will select a dissertation committee, composed of at least 3 members of the graduate faculty (as defined by the university), who will direct the dissertation research. The committee will be composed of a chair and at least two additional members who meet the criteria as established by university policy A.P.6.10.5 Dissertation Committee (p. 97).

Dissertation Proposal and Research

Dissertation Proposal
The student must initially enroll in 3 credits of NURS 998 Doctoral Dissertation Proposal, and, in consultation with the dissertation committee, write an acceptable dissertation proposal. If an acceptable proposal cannot be completed within the first semester the student is registered for the course, the student may continue working on the proposal under the direction of the committee, registering for at least one credit of NURS 998 each semester until the proposal is approved.

Dissertation Research
The dissertation will be a written report of original research in a content area of significance to the discipline of Nursing. As defined by the university, the dissertation demonstrates the candidate’s mastery of subject matter, methodologies, and conceptual foundations in their chosen field of study. The PhD in Nursing program requires that the dissertation meet the guidelines and content as specified by the University Library and also include at least two publishable manuscripts as approved by the dissertation committee. Once the student has successfully defended his/her dissertation proposal before the dissertation committee, the student may begin registering for NURS 999 Doctoral Dissertation. The student must register for at least 3 credits of NURS 999 per semester until the required 12 credits of NURS 998 and/or NURS 999 has been completed and the dissertation has been defended and officially submitted to the Library. Students who defend in the summer semester must be registered for at least three credits of NURS 999 for that summer semester.

</tbody>
</table>

Total Credits 12

1  Students must enroll for 3 credits the first time NURS 998 Doctoral Dissertation Proposal is taken.
2  Students must register for at least 3 credits of NURS 999 per semester.

Final Defense of the Dissertation
After the dissertation committee gives preliminary approval of the dissertation, the chair and assistant dean for the doctoral division of the School of Nursing to schedule a final public defense of the dissertation. A copy of the dissertation must be provided to the assistant dean for the doctoral division at least two weeks before the scheduled final dissertation defense. At the close of the defense, the committee makes a final judgment regarding approval of the dissertation. The dissertation must also be approved by the assistant dean for the doctoral division and director of the School of Nursing.

Additional Requirements
The student, with the approval of the chair and the assistant dean for the doctoral division of the School of Nursing is responsible for completing the application for graduation and submitting the final dissertation to the University Library by the appropriate deadlines. Failure to meet the required deadlines will result in the student not graduating during the intended semester.
Nursing Education Graduate Certificate

Banner Code: HH-CERG-NUED

Academic Advising

Website: https://nursing.gmu.edu/program/view/19938

This program combines foundation courses in education with courses in the principles and practices of nursing education. It prepares students to function in nursing educational roles in academic and nonacademic settings.

Admissions & Policies

Admissions

Applicants must hold a master’s degree in nursing. Applicants must meet the admission standards and application requirements specified in Graduate Admissions (p. 68) and apply using the Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). Acceptance to the nursing program is contingent upon admission to the university. The application process is competitive, and applications are considered for the fall and spring semesters. For application deadlines and detailed application requirements, please refer to the CHHS Admissions (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines) website.

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Requirements

Certificate Requirements

Total credits: 15

This certificate may be pursued on a part-time basis only.

Candidates must have 15 graduate credits and a minimum GPA of 3.00 in course work, with no more than 3 credits with a grade of C to earn the certificate.

Total Credits 15

Notes:

Students who qualify for a 3-credit practicum because of their educational experience may choose the remaining 3 credits from courses designated by the graduate nursing program.

Psychiatric Mental Health Nurse Practitioner Graduate Certificate

Banner Code: HH-CERG-PMHN

Academic Advising

Website: https://nursing.gmu.edu/program/view/21578

This certificate prepares students for the Psychiatric Mental Health Nurse Practitioner (PMHNP) role through formal study in the theory and practice of advanced practice psychiatric nursing in a variety of practice settings within the healthcare delivery system. Graduates will be eligible for prescriptive authority and will have the potential to perform a variety of mental health services including medication management and psychotherapy. Course and practice content focus on the assessment and management of serious mental illness.

Certification and Role

Graduates of this post-master’s certificate are eligible to sit for the Psychiatric Mental Health Nurse Practitioner national certification examination given by the American Nurses Credentialing Center.

Admissions & Policies

Admissions

Applicants must hold a master’s degree in nursing. Applicants must meet the admission standards and application requirements specified in the Graduate Admissions (p. 68) section of the catalog and apply using the Application for Graduate Admission (https://www2.gmu.edu/admissions-aid). Acceptance to the nursing program is contingent upon admission to the university. The application process is competitive, and applications are considered for the fall semester only. For application deadlines and detailed application requirements, please refer to CHHS Admissions (https://chhs.gmu.edu/admissions/graduate-admissions/standards-requirements-and-deadlines) website.

Policies

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Requirements

Certificate Requirements

Total credits: 23

This certificate may be pursued on a full-or part-time basis.

Candidates must complete 23 graduate credits with a minimum GPA of 3.00 in course work and no more than 3 credits with a grade of C to earn the certificate.

**College of Humanities and Social Sciences**

D201 Buchanan Hall  
Fairfax Campus  
MSN: 3A3  
Phone: 703-993-8720  
Website: chss.gmu.edu

**Administration**

- Ann Ardis, Dean  
- Vacant, Senior Associate Dean  
- Vita Chalk, Associate Dean for Undergraduate Academic Affairs  
- Michele Schwietz, Associate Dean for Research  
- Felicia Carr, Assistant Dean for Strategic Communications and Marketing  
- Katie Clare, Assistant Dean for Undergraduate Academic Affairs  
- Kevin Augustyn, Director of Development  
- Daniel Collier, Director of IT and Web Development  
- Kim Dight, Executive Director of Finance and Human Resources

**College Code: LA**

The College of Humanities and Social Sciences (CHSS) is composed of 10 departments and 9 major interdisciplinary programs. The college is also home to the School of Integrative Studies (p. 574), which offers an innovative interdisciplinary major. The college has a distinguished faculty of more than 400, including recipients of the Pulitzer Prize and Guggenheim Fellowship.

**Undergraduate Programs**

At the undergraduate level, all programs emphasize challenge, opportunity, and success. They challenge students to think critically and creatively and to go beyond what is required by pursuing research experiences, minors, double majors, honors in the major, and accelerated master’s degree programs, which enable them to earn both an undergraduate and a graduate degree, often within five years. They provide many opportunities beyond the classroom including study abroad programs, service learning, internships, and career-enhancing courses and minors, all of which will help prepare them for success beyond college.

**Graduate Programs**

At the graduate level, programs of study provide opportunities for career development and advancement, professional education, participation in research, and personal fulfillment.

All programs encourage the exploration of contemporary issues through a dynamic curriculum that fosters an informed understanding of real world problems. The college provides students with an education that enables them to think critically, adapt to the changing conditions of society, and provide informed leadership to future generations.

**Bachelor’s/Accelerated Master’s Degree Options**

Many graduate programs offer highly-qualified undergraduates the opportunity to apply to accelerated master’s degree programs. Students accepted into an accelerated master’s degree program obtain both a bachelor’s and a master’s degree after satisfactory completion of 144 - 150 credits (number of required credits depends on the degree program).

Students admitted to an accelerated master’s degree program may use up to six graduate credits (courses at the 500 or 600 level) in partial fulfillment of requirements for the undergraduate degree. Upon completion and conferral of the undergraduate degree with satisfactory performance in graduate courses (minimum grade of 3.00 in each), students are given advanced standing in their master’s program. Once admitted to an accelerated master’s pathway, undergraduate students must maintain a semester GPA of at least 3.0 and an overall cumulative GPA of 3.25. Individual programs may have higher performance standards; students should familiarize themselves with the standards of their intended program.

Undergraduates may take a maximum of six additional graduate credits while undergraduates and mark them for reserve graduate credit. These credits are not used to fulfill undergraduate degree requirements but can be applied to the master’s degree. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 79). Courses taken for reserve graduate credit must be approved in advance by the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu) and the appropriate paperwork filed with the Office of the University Registrar.

Students must fulfill all other master’s degree requirements. For more information see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93).

The college offers accelerated master’s degrees in these disciplines:

- Anthropology  
- Art History  
- Communication
• Criminal Justice
• Economics
• English with a concentration in linguistics
• Foreign Languages with a concentration in Spanish
• Foreign Languages with a concentration in Spanish/Bilingual-Multicultural Education
• Global Affairs
• History
• Interdisciplinary Studies with a concentration in energy and sustainability
• Interdisciplinary Studies with a concentration in folklore studies
• Interdisciplinary Studies with a concentration in religion, culture, and values
• Interdisciplinary Studies with a concentration in social justice and human rights
• Interdisciplinary Studies with a concentration in women and gender studies
• Middle East and Islamic Studies
• Philosophy
• Psychology with a concentration in cognitive and behavioral neuroscience
• Sociology

Minors and Interdisciplinary Minors
The College of Humanities and Social Sciences has more than 60 minors, some of which are offered jointly with other units in the university. Minors require between 15 and 21 credits, and all but 8 of those credits usually can be used simultaneously to fill other requirements. The college encourages all students to declare a minor, if they can. A minor can complement the major, enhance career preparation, allow students to develop a secondary area of expertise, or give them a chance to explore a passion.

The college offers two types of minors: disciplinary and interdisciplinary. The coursework for disciplinary minors comes mainly from a single discipline. Disciplinary minors are offered by one of the 10 departments in the college.

Interdisciplinary minors require course work from two or more disciplines and are administered by interdepartmental faculty groups, often including faculty from across the university.

All minors in the college are available to students in any major in the university. For policies governing all minors, see AP 5.3.4 Minors (p. 90).

Disciplinary Minors
• Arabic
• Anthropology
• Art History
• Chinese
• Clinical Psychology
• Communication
• Criminology, Law and Society
• Developmental Psychology
• Economics
• English
• Forensic Psychology
• French
• German Studies
• Health Communication
• Health Psychology
• History
• Industrial/Organizational Psychology
• Intelligence Analysis
• Italian Studies
• Journalism
• Judaic Studies
• Korean Studies
• Latin
• Linguistics
• Philosophy
• Philosophy and Law
• Professional Experience in Communication
• Professional and Technical Writing
• Psychology
• Religious Studies
• Russian
• Sociology
• Spanish
• Teaching English as a Second Language

Interdisciplinary Minors
• African and African American Studies
• Ancient Mediterranean Art and Archaeology
• Asia-Pacific and Northeast Asian Studies
• Conservation Studies (offered jointly with the College of Science)
• Childhood Studies
• Classical Studies
• Film and Media Studies
• Folklore and Mythology
• Global Affairs
• Human Development and Family Science (offered jointly with the College of Education and Human Development)
• Immigration Studies
• Islamic Studies
• Japanese Studies
• Latin American Studies
• Leadership
• LGBTQ Studies
• Middle East Studies
• Multimedia
• Native American and Indigenous Studies
• Nonprofit Studies
• Political Communication (offered jointly with the Schar School of Policy and Government)
• Political Philosophy
• Social Innovation
• Social Justice
• Sport and American Culture (offered jointly with the School of Recreation, Health, and Tourism)
• Sport Communication (offered jointly with the School of Recreation, Health, and Tourism)
• Sustainability Studies (offered jointly with the College of Science)
• Well-Being
• Women and Gender Studies

Requirements & Policies

Policies for All Students

The requirements for each academic program offered by the college are described in the sections for the sponsoring departments and programs. All students are subject to the policies stated in Academic Policies (p. 77). Additional policies and procedures for students in the college are presented in this section.

Mason uses only Mason e-mail accounts to communicate with enrolled students. Students should activate their Mason e-mail account, use it to communicate with their department and other administrative units, and check it regularly for important information.

Registration and Degree Audit

Students are responsible for correctly registering for courses and paying all tuition and fees by the official university registration and payment deadlines. Instructors do not have the authority to add students to courses, and students may not sit in on classes for which they are not registered. All students should verify the accuracy of their enrollment before the end of the add period and should check Patriot Web (https://patriotweb.gmu.edu) to verify that they are registered for the classes that they think they are.

All students are responsible for reviewing their own transcripts and degree audits regularly to ensure that they are correct and that they are on track to meet all their requirements.

Withdrawal

Students are responsible for all courses in which they remain officially enrolled once the drop period has ended. Instructors do not have the authority to withdraw students from classes. Withdrawals after the published deadlines require the approval of the relevant dean (undergraduate academic affairs or graduate academic affairs) and are allowed only for full semesters at a time (a withdrawal from all enrolled courses). Withdrawals are only permitted for non-academic reasons; no withdrawals can be approved for academic reasons. When submitting a withdrawal request, students must provide verifiable, third-party documentation for the reason for the withdrawal. Requests for withdrawals should be submitted as early in the semester as possible; withdrawal requests submitted after the last day of classes are rarely approved.

Grade Appeals

Grade appeals should be made to the department or program following the process specified in AP.6.9 Grade Appeals (p. 85). If they are resolved within the department or program, that unit is the final level of appeal. The departmental decision may be appealed to the dean only on the basis of procedural irregularity. Undergraduate students should address such appeals through the Office of Undergraduate Academic Affairs and graduate students through the Office of Graduate Academic Affairs. If the grade appeal is not resolved within the department or program, the chair makes a recommendation to the dean, who makes the final determination. The decision of the dean is not subject to review or further appeal.

Accommodations for Students with Disabilities

Students with documented disabilities should contact the Office of Disability Services (http://ods.gmu.edu) to open a file and learn more about accommodations that may be available to them.

Policies for Undergraduate Students

The college offers 17 bachelor of arts (BA) degrees, 4 bachelor of science (BS) degrees, a bachelor of fine arts in creative writing (BFA), and a bachelor of individualized study (BIS) degree.

All students must complete 120 credits, of which at least 45 must be in upper-level courses (numbered 300 and above). At least one course at the 300 or 400 level must be designated "writing intensive."

Students should consult the Mason Core (p. 142) and College Requirements for information concerning the ways they can fulfill Mason Core and college requirements for undergraduate degrees. Transfer students are encouraged to meet with their academic advisor prior to registering for classes to review their transcripts and course equivalencies. In some cases, students may need to earn more than 120 credits to complete all of their requirements.

The college cooperates with the School for Conflict Analysis and Resolution (S-CAR) to provide courses from various disciplines in the college toward a BA, BS, and minor in conflict analysis and resolution. More information about S-CAR undergraduate degree programs can be found in the School for Conflict Analysis and Resolution (p. 936).

Questions about Academic Policies for Undergraduates

Students with questions about exceptions to academic policies and about college requirements should contact the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu) (703-993-8725; chssdean@gmu.edu).

Additional policy information and forms are available online from the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

Academic Load

Students should review university policies regarding academic load in AP1.2 Academic Load (p. 77).

In order to be considered for an overload, students must fulfill all of the following criteria:

• Be in good academic standing;
• Have completed the prior semester with no course grades below “C” and with a minimum term GPA of 2.50;
• Have a cumulative GPA of 2.50 or higher;
• Have demonstrated the ability to handle an increased and demanding course load while maintaining high performance in a previous semester at Mason; and
• Have no remaining incompletes (INs) from a previous semester.

Freshmen and transfer students in their first semesters are not given permission for overloads as they have yet to establish an academic record at George Mason University.
If approved for an overload, the student is responsible for adding the additional class(es) and paying for the related tuition by the official university deadlines.

**Excluded Courses and Credits**

Students are encouraged to take advantage of the many excellent courses available at Mason to broaden their educational experience or strengthen their background; however, some credits earned may not satisfy any degree requirements. Only MLSC courses at the 400-level can be used for credit for a degree in the college; credit for other MLSC courses may not be used toward a CHSS degree. At most 3 credits of 100-level RECR coursework may be taken to satisfy the degree requirements of any CHSS major, and these courses will be applied toward a student's general electives. Whenever there is uncertainty, students must consult with an academic advisor in their department.

Qualifying CLEP credits may apply to a degree in the College of Humanities and Social Science if those credits were awarded and reported prior to matriculation at Mason. After matriculation, students are limited to taking and applying credits for the CLEP exam in "Information Systems & Computer Applications". Students with a qualifying score on this exam will be awarded credit for IT 104T. Students receiving credit for IT 104T, who are subject to a prior catalog year, must still meet the university Information Technology ethics requirement. The Office of Admissions will continue to evaluate transfer credit for CLEP exams for new students applying to the University. Current students should contact their CHSS academic advisor with any questions regarding CLEP credit.

**University Consortium**

Students should review university policies regarding the University Consortium under AP 1.4 Special Registration Procedures (p. 77) in the Academic Policies section. Students who have attempted or failed a course at Mason are not permitted to take the equivalent course through the consortium under any circumstances. All consortium registration requests must be submitted to the dean's office at least 3 weeks prior to the first day of classes for the relevant semester at Mason.

**Permission to Study at Another Regionally Accredited U.S. Institution**

Once enrolled in degree status at Mason, students with fewer than 60 hours of transfer coursework (not including registration through the Consortium of Universities of the Washington Metropolitan Area or coursework completed through the Global Education Office) may take up to 8 hours of coursework at another institution. Students with 60 or more hours of transfer coursework are not permitted to take additional coursework at another institution. A student may seek permission for additional hours beyond these limits for summer registration if his/her permanent residence is more than 50 miles from the George Mason University Fairfax campus. See AP 1.4.2 Permission to Study Elsewhere (p. 79) for additional information.

In addition to the university cumulative GPA requirement of 2.00, CHSS students requesting course elsewhere permission must have a previous semester GPA of 2.00 or higher.

**Study Abroad**

In order to be considered for study through Mason Study Abroad (http://masonabroad.gmu.edu), students must plan well in advance and receive prior, written permission from the dean. Students must also meet all of the following criteria:

- Meet all eligibility requirements for their program as specified by Mason Study Abroad (http://masonabroad.gmu.edu) including course prerequisites and minimum GPA;
- Must have a minimum cumulative GPA of 2.50 after prior semester grades post to record; and
- Have completed the necessary forms and have obtained all required signatures and course equivalencies.

Students in danger of probation, suspension, or dismissal should plan very carefully before requesting to study abroad. Students with a cumulative GPA below 2.50 (after grades from prior term are posted to transcript) will not be permitted to study abroad.

**Leave of Absence**

All undergraduate students who are planning an absence from George Mason University must submit a formal request for Leave of Absence to the Office of the University Registrar. See AP 1.8 Undergraduate Leave of Absence (p. 81) for full university policy.

**Reserve Graduate Credit**

Approval to register for reserve graduate credit (earned credit held in reserve to apply later toward a graduate degree) is given only to Mason seniors within 15 credits of completing undergraduate study who have successfully completed all course prerequisites. In addition, this privilege is normally extended only to seniors who have completed at least 12 credits at the university, have a cumulative GPA of 3.00 or better, and have a major in the department offering the course. Approval for reserve graduate credit is limited to 6 credits and does not imply approval for admission into a Mason graduate program or that credit earned will be accepted at another graduate school.

**Withdrawals**

Students should review AP 1.5 Withdrawal (p. 81) for more information. Courses for which a withdrawal is approved receive a grade of "W." Students should be aware of the potential consequences of withdrawing on their academic standing. Though credits graded "W" do not affect a student's GPA, they do count towards the total attempted hours. The total attempted hours and cumulative GPA together determine a student's academic standing. These are explained in AP 5.2 Academic Standing (p. 88).

**Academic Clemency**

Students should review the university policies in AP 5.2.9 Academic Clemency (p. 89).

To be considered for clemency, students must meet all of the following criteria:

- Be absent from George Mason for a minimum of three consecutive calendar years;
- Provide a detailed explanation for why they were unsuccessful in those courses and how they have made changes to ensure their academic progress upon their return;
- Submit their request within 12 months of the first day of the re-enrollment term;
- Complete at least 6 credits during their first 12 months back at George Mason; and
- Earn a minimum GPA of 2.50 each semester back prior to making the clemency request with no individual grade below 2.00.
If the last three minimum academic requirements are not met, clemency will not be allowed under any circumstances.

**Appeals Process**

Students may appeal departmental decisions concerning academic actions to the Office of Undergraduate Academic Affairs. They may appeal decisions of the Office of Undergraduate Academic Affairs to the Dean’s Council, a committee composed of college deans and faculty members. Students may appeal decisions of the Dean’s Council to the Student Policies and Appeals Committee, a standing committee elected by the college faculty. These levels of appeal are subject to the limits below concerning the final level of appeal for each type of academic action. Students who feel that the college appeal process was conducted unfairly may appeal to the Provost’s Office as specified in Appeals of Academic Procedures (p. 101).

The grade appeal process is discussed above.

Departments set the requirements for the majors and minors that they administer. Substitutions and waivers of these requirements require the approval of the Office of Undergraduate Academic Affairs. When a department denies a substitution or waiver of a requirement, the denial may be appealed to the Office of Undergraduate Academic Affairs on the basis of procedural irregularity only. That office is the final level of appeal.

The Dean’s Council is the final level of appeal for course overloads, consortium registration, study elsewhere, and withdrawals after the drop deadline within the semester. Appeals of these decisions may be made to the Student Policies and Appeals Committee on the basis of procedural irregularity only, and the committee is the final level of appeal on procedural grounds.

Student Policies and Appeals Committee is the final level of appeal for college-level requirements, retroactive actions (adds, withdrawals, and graduation), and return from suspension and dismissal. This committee is the final level of approval.

There is no waiver or appeal of satisfactory performance standards [minimum grades or grade point average (GPA)] that have been set by the department or program faculty for the courses in their major or minor.

Students should file all appeals in a timely manner, usually within the semester in which the original decision is rendered, but no later than the final day of classes of the following semester.

**Teacher Licensure**

Students who plan to seek teacher licensure and become K–12 teachers should consult College of Education and Human Development (p. 161) and attend an information session early in their undergraduate career. For more information, call 703-993-2892, e-mail cehdgrad@gmu.edu, or see the College of Education and Human Development webpage (http://gse.gmu.edu).

**Second Bachelor’s Degree**

Students should review Application for a Second Bachelor’s Degree (p. 65) and AP5.3.3 Second Bachelor’s Degrees (p. 89) for more information. Students pursuing a second bachelor’s degree concurrently with their first bachelor’s degree at Mason must meet all the college-level requirements if they differ from the requirements in the college of their first major.

Students pursuing a second bachelor’s degree in the college after already having received one or more bachelor’s degrees are considered to have met all of the Mason Core requirements. Students pursuing a bachelor of science degree do not have additional college-level requirements. Students pursuing a bachelor of arts degree in the college must complete these additional college-level requirements: one additional 3-credits course each in philosophy or religious studies, in social and behavioral science, and in non-western culture (for a total of 9 credits). They must also demonstrate proficiency in a foreign language through the intermediate level. For more information about college-level requirements see Mason Core (p. 142) and College Requirements.

**Minors**

Students may elect to take a minor in addition to their major field of study. For policies governing all minors, AP5.3.4 Minors (p. 90). Students interested in earning a minor should complete the appropriate section of the Change/Declaration of Academic Program form and submit it to the Office of the University Registrar. See All about Minors (http://chss.gmu.edu/minors) for more information.

**College-Level Requirements for Undergraduate Students**

**Bachelor of Arts**

The BA degree provides students with a breadth of knowledge as well as the necessary skills to make in-depth study of a major truly meaningful. In addition to the Mason Core program, students pursuing a BA degree must complete the course work below. Except where expressly prohibited, a course used to fulfill a college-level requirement may also be used simultaneously to satisfy other requirements (Mason Core requirements or requirements for the major).

- Philosophy or religious studies: 3 credits fulfilled by any course in philosophy or religious studies (PHIL, RELI) except for, PHIL 323 Classical Western Political Theory, PHIL 324 Modern Western Political Theory, PHIL 327 Contemporary Western Political Theory, PHIL 393 Humanities College to Career, PHIL 460 Senior Seminar in Philosophy, Politics, and Economics. PHIL 253 Philosophy and Literature (Mason Core) (p. 142) and RELI 235 Religion and Literature (Mason Core) (p. 142) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature requirement.
- Social and behavioral science: 3 credits in addition to the university-wide requirement in social and behavioral science for a total of 6 credits. The two courses used to fulfill the combined college and university requirements must be from different disciplines in the social and behavioral sciences. This requirement may be fulfilled by completing any course in ANTH, CRIM, ECON, GOVT, HIST (except HIST 100 History of Western Civilization (Mason Core) (p. 142) or HIST 125 Introduction to World History (Mason Core) (p. 142)), LING, PSYC, or SOCI and these courses in GGS:

• Foreign language: intermediate-level proficiency in one foreign language. This requirement may be fulfilled by completing a course in a foreign language numbered 202 (p. 424) (or higher level courses taught in the language) or achieving a satisfactory score on an approved proficiency test. A three course sequence (12 credits) in American Sign Language (EDSE 115 American Sign Language (ASL) I, EDSE 116 American Sign Language (ASL) II, and EDSE 219 American Sign Language (ASL) III) will also meet the foreign language requirement. Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

• Non-Western culture: 3 credits of an approved course in the study of a non-Western culture in addition to the course used to fulfill the Mason Core requirement in global understanding. A course used to fulfill the Mason Core global understanding requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

Requirements for each major are listed in the departmental sections.

Bachelor of Science
The BS degree provides students with a more intensive approach to the core technical questions of their majors. This curriculum has a reduced number of courses in humanities and social sciences in comparison with the BA degree to allow students to achieve greater depth in their majors. Students in Humanities and Social Sciences pursuing a BS must complete the Mason Core program. Requirements for each major are listed in the departmental sections.

Transfer Students
Admitted and enrolled transfer students who have completed an AA, AS, or AA&S degree from the Virginia Community College System (VCCS) and have been offered admission to Mason by the Office of Admissions may be eligible for a waiver of all George Mason University’s lower level Mason Core requirements in accordance with the Guaranteed Admission Agreement. Students eligible for this waiver are still required by the university to complete ENGH 302 Advanced Composition (Mason Core) (p. 142) and a synthesis course. Transfer students who have been offered admission under the terms of the Guaranteed Admission Agreement and are pursuing a degree in this college are considered to have met all college requirements except for proficiency in a foreign language (required of BA students).

Policies for Graduate Students
The college offers 16 master’s degrees, plus a master of arts in interdisciplinary studies (MAIS), a master of fine arts in creative writing (MFA), and 9 doctoral degrees.

Graduate Admission
Admission decisions are made by the faculty committee of the respective graduate program. Denial of admission is not subject to appeal. Applicants denied admission to a program are not permitted to enroll in courses in that program.

If an applicant is offered graduate admission, the college reserves the right to withdraw that offer of admission if:

- During his or her academic studies, the admitted applicant has a significant drop in academic performance or fails to graduate with a degree prior to the first day of classes for the term admitted.
- There has been a misrepresentation in the application process.
- Prior to the first day of classes for the term admitted, the college learns that the admitted applicant has engaged in behavior that indicates a serious lack of judgment or integrity, irrespective of the outcome of any disciplinary process related to such behavior.
· For students admitted to an accelerated master's program, the student does not maintain satisfactory progress in his or her undergraduate program, does not receive a minimum grade of 3.00 in the graduate classes taken as an undergraduate, or otherwise does not meet the conditions specified on the application and admission letter.

The university further reserves the right to require the applicant to provide additional information (and/or authorization for the release of information) about any such matter.

**Provisional Admission**

Students provisionally admitted to their graduate degree program are not eligible to enroll in consortium course work or study at another institution until the conditions of the provisional contract have been met. Provisionally admitted students are also not eligible to participate in any study abroad programs until the conditions of the provisional contract have been met. Transfer of credit requests for course work taken in non-degree status at Mason or from another institution prior to admission will not be considered until the provisional contract has been fulfilled.

**Academic Load**

Graduate students can enroll in up to 12 credits of course work each semester. Non-degree students can enroll in up to 10 credits of course work each semester.

**Non-Degree Enrollment**

Graduate non-degree students may enroll in 500, 600, and 700 level courses. In exceptional cases graduate non-degree students in the College of Humanities and Social Sciences may request to enroll in an 800-level course if they have an appropriate academic or professional background and have the written permission of the course instructor, director of the graduate program offering the course, and the graduate dean.

**University Consortium**

Students should review university policies regarding the University Consortium AP.1.4 Special Registration Procedures (p. 77).

Eligible students may enroll in courses at any of the institutions in the Consortium of Universities in the Washington Metropolitan area. Students are limited to one consortium course per semester, with a career maximum of 6 credits. To register for a consortium course, students must have an overall GPA of at least 3.00 and be in good academic standing. Students with grades of IN on their record or who earned grades of C or F in the most recent semester are not eligible to register for a consortium course. Students who have received a grade less than 3.00 in a consortium course are not permitted to enroll in additional consortium courses. Newly admitted graduate students are not permitted to enroll in consortium courses during their first semester of graduate study. Students who wish to enroll in consortium courses during their second semester of study must wait until the grades for the previous semester have been posted.

**Transfer of Credit**

To be eligible for transfer, credits must have been earned at an accredited graduate degree-granting institution (and applicable to a graduate degree at that institution) or at Mason while in non-degree status. Courses accepted for transfer credit must have been completed within six years of the admission term and with a minimum grade of 3.00. Courses with grades of P or S are not accepted for transfer unless the official transcript indicates that the grade is equivalent to a 3.00 (B) or better.

Some programs have more stringent standards on transfer of credit; students should contact their graduate program for specific information.

**Reduction of Credit**

Doctoral and master's students in the college may request a reduction of credit based on a previously conferred graduate degree. Not all master's programs in the college permit reduction of credit and some programs limit the number of credits that can be reduced. Further details and related restrictions can be found in AP.6.5.2 Reduction of Credits (p. 91).

**Credit from Other Institutions**

Students must obtain all approvals, including course equivalencies, prior to enrolling in any course work at another institution. All appropriate paperwork must be submitted to the Office of the University Registrar by the last day to add during the academic term the course meets. Students enrolling in courses at other institutions with different drop/add timetables must still abide by Mason’s drop/add deadlines in terms of acquiring necessary approvals.

**Dissertation Committee**

The college follows university policies regarding dissertation committees. See AP.6.10.5 Dissertation Committee (p. 97).

**Dissertation (999) Registration**

Doctoral students must be advanced to candidacy before they may enroll in 999. Students must register for 999 before the add deadline published in the Academic Calendar by the Office of the University Registrar (http://registrar.gmu.edu). Once doctoral students begin registering for 999, they must enroll in at least 3 credits of 999 each semester (excluding summers) until they have completed the total number of dissertation credits required for their individual program of study. Once enrolled in 999, all doctoral students must maintain continuous enrollment in 999 until they deposit their approved dissertation in the University Library. If they have completed the number of dissertation credits required on their program of study, they may maintain continuous enrollment by registering for only 1 credit of 999. Please see AP.6.10.6 Dissertation Registration (998, 999) (p. 98).

**Time Limit for Doctoral Students**

Total time to degree will not exceed nine (9) calendar years from the time of first enrollment as a doctoral degree-seeking student in a program of the college. Doctoral students are expected to progress steadily toward their degree and to advance to candidacy within no more than six (6) years.

Students who do not meet published time limits because of compelling circumstances may petition their program and the graduate dean for a single extension of one calendar year at any point during their program. If such an extension is granted, the total time limit for completion of the degree will not exceed ten (10) years. Requests for extension of time limits should explain the extenuating circumstances that prevented timely completion of the degree and a timeline for completing the remaining work within the limits of the extension. The request should include a letter from the student’s graduate program director indicating program support for the extension and confirmation that the work can be completed within the limits of the extension.

Please see AP.6.10.1 Time Limit (p. 97).

**Graduate Appeals of Termination**

All graduate students should be familiar with the university policies on termination as stated in AP.6.2 Academic Termination (p. 92). Students
who meet the criteria for termination may submit a written appeal to the Office of Graduate Academic Affairs. Appeals should include all relevant information on the basis for appeal, as well as any appropriate documentation. Appeals of termination are reviewed at the beginning of each semester by a faculty committee. The ruling of that committee represents the final decision of the college.

**Department of Communication**

Phone: 703-993-1090
Website: communication.gmu.edu

**Undergraduate Programs**

The department offers a bachelor of arts in communication, which prepares students for future graduate study or professional positions in such fields as human relations and organizational communication, media and journalism, political communication, and public relations.

Students majoring in communication complete a concentration from one of the following areas: interpersonal and organizational communication, journalism, media production and criticism, political communication, or public relations.

**Bachelor’s/Accelerated Master’s Program**

The department offers highly qualified undergraduate majors in communication the opportunity to apply to an accelerated master’s degree program in communication (p. 325). If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 147 credits, generally within five years.

**Internships**

The department has an active internship program. Many students pursue an internship during their junior and/or senior year to earn credit while gaining practical experience with public relations firms, national and international businesses, associations, or government agencies.

**Student Activities**

All students are encouraged to participate in the following communication-related student activities: Communication Ambassadors, Debate, Forensics, Fourth Estate (student journalism), GMView, Mason Cable Network, Public Relations Student Society of America (PRSSA), Lambda Pi Eta, Society of Professional Journalists (SPJ), or WGMU.

**Minors**

The department offers minors in communication, health communication, journalism, political communication, professional experience in communication, and sport communication. The political communication minor is offered jointly with the Schar School of Policy and Government (p. 961), and the sport communication minor is offered jointly with the School of Recreation, Health, and Tourism (p. 221) in the College of Education and Human Development (p. 161). Department faculty also participate in these minors:

- Film and Media Studies Minor (p. 383)
- Multimedia Minor (p. 606)
- Well-Being Minor (p. 610)
- Women and Gender Studies Minor (p. 612)

Students majoring in communication may also choose to minor in any discipline that offers an undergraduate minor.

**Graduate Programs**

The department offers both MA and PhD degrees in communication with three major areas of emphasis: strategic communication, health communication, and science communication. The programs provide students with a strong foundation in communication theory and research while at the same time encouraging students to apply their skills in the public, private, and nonprofit sectors.

The faculty in strategic communication, drawing on their expertise in organizational, public relations, and political communication theory and research, teach courses on planning, developing, executing, and evaluating public communication campaigns and interventions. Faculty in health communication teach courses which explore the relationship between communication practices and the health and well-being of individuals and communities. This includes how to improve cooperation and coordination between health care providers and consumers, how to effectively utilize health information technologies, and how to develop influential health promotion campaigns. The faculty in science communication offer courses designed to improve students’ knowledge of the particular challenges involved in making science and technology understandable to a variety of audiences, as well as exploring solutions to those challenges. Science communicators work in media and in other organizations and agencies involved in promoting and disseminating science, as well as facilitating public engagement in considering science-related issues.

Strategic, health, and science communication are three of the most rapidly expanding specialties within the broad field of communication.
Graduates of these programs find a very welcoming employment market for their expertise.

**Funding**
The department offers graduate teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

**Faculty**

**Department Faculty**

**Professors**
Botan, Decker, Kreps, Lichter, Maibach, Nicotera (chair), Rowan, K. Wright, Zhao

**Communication, BA**

Banner Code: LA-BA-COM

102 Northeast Module
Fairfax Campus

Email: cdadvice@gmu.edu
Website: communication.gmu.edu/programs/la-ba-com

Communication is the study of basic human social processes: the creation and dissemination of meaning and information. The major prepares students for graduate study or professional positions in such fields as interpersonal and organizational communication, journalism, media production and criticism, political communication, and public relations. Students develop skills and knowledge that put them at the edge of a rapidly changing communication industry. Majors learn to construct and evaluate messages across platforms—web, print, audio and visual.

**Admissions & Policies**

**Policies**

Students pursuing this degree must complete 39 credits within the major, with a minimum grade of C in each course.

Of the 39 credits applied to the major, no more than 10 credits may be from courses listed in the Degree Requirements. In addition to 12 credits of core courses, students take 21 credits of courses in a concentration and 6 credits of additional communication courses. Of these last 27 credits, at least 12 credits must be at the 300-400 level, no more than 6 credits may be in COMM 450 Internship in Communication, and no more than 3 credits may be in COMM 452 Media Production Practicum. COMM 479 Digital Media and Web Design Capstone cannot be used toward the major.

For policies governing all undergraduate degrees, see AP5 Undergraduate Policies (p. 87).

**Requirements**

**Degree Requirements**

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 314) tab.

**Core Courses**

¹ Must first complete COMM 200 Communication Theory with a grade of C or better.

² Must first complete COMM 200 Communication Theory with a grade of C or better.
Must first complete six credits from COMM 300 Rhetorical Theory and Criticism, COMM 301 Relational Communication Theory, or COMM 305 Foundations of Intercultural Communication (Mason Core) (p. 142) with a grade of C or better.

Concentration
Students must complete coursework in one concentration. Students may also declare a second concentration. No more than six credits can count between the two declared concentrations and no credits used within the declared concentration(s) can be used to satisfy communication elective credits. Students must declare a concentration before they earn more than 75 credits. Transfer students with 60 or more credits are encouraged to declare a concentration by the end of their first semester. COMM 399 Special Topics in Communication or other special topics courses from other concentrations may be applied toward a concentration when the topic is relevant to the concentration with prior written approval of the undergraduate director.

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as writing intensive in their majors at the 300 level or above. Students majoring in communication fulfill this requirement by successfully completing COMM 300 Rhetorical Theory and Criticism.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

Upper Level Requirement

Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

College Level Requirements for the BA Degree

In addition to the Mason Core (p. 142) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 142) requirements or requirements for the major).

Philosophy or Religious Studies

<table>
<thead>
<tr>
<th>Code</th>

<td>(p. 2044)</td>
<td>3</td>
</tr>
<tr>
<td>RELI</td>
<td>(p. 2144)</td>
<td></td>
</tr>
</tbody>
</table>

1. Note that the following courses may not be used to fulfill this requirement:
   - PHIL 323 Classical Western Political Theory
   - PHIL 324 Modern Western Political Theory
   - PHIL 327 Contemporary Western Political Theory
   - PHIL 393 Humanities College to Career
   - PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

2. Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 142) and RELI 235 Religion and Literature (Mason Core) (p. 142) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 147) requirement.

Social and Behavioral Sciences

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement)</td>
<td>3</td>
</tr>
<tr>
<td>ANTH</td>
<td>(p. 1212)</td>
<td></td>
</tr>
<tr>
<td>CRIM</td>
<td>(p. 1514)</td>
<td></td>

<td></td>
</tr>
</tbody>
</table>

Or choose from the following GGS courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GGS 101</td>
<td>Major World Regions (Mason Core) (p. 142)</td>
<td></td>
</tr>
<tr>
<td>GGS 103</td>
<td>Human Geography (Mason Core) (p. 142)</td>
<td></td>
</tr>
<tr>
<td>GGS 110</td>
<td>Introduction to Geoinformation Technologies</td>
<td></td>
</tr>
<tr>
<td>GGS 301</td>
<td>Political Geography</td>
<td></td>
</tr>
<tr>
<td>GGS 303</td>
<td>Geography of Resource Conservation (Mason Core) (p. 142)</td>
<td></td>
</tr>
<tr>
<td>GGS 304</td>
<td>Population Geography (Mason Core) (p. 142)</td>
<td></td>
</tr>
<tr>
<td>GGS 305</td>

1 A course used to fulfill the Mason Core global understanding (p. 146) requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

**Mason Core**

Some Mason Core (p. 142) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 142) requirements.

1 Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.

2 Minimum 3 credits required.
Honors

Honors in the Major

Highly-qualified students may pursue advanced coursework leading to graduation with honors in the major.

Eligibility

Students are eligible to apply for honors coursework if they meet the following requirements:

- Completion of a minimum of 75 credit hours, including COMM 200 Communication Theory and two of COMM 300 Rhetorical Theory and Criticism, COMM 301 Relational Communication Theory, COMM 302 Media Theory, COMM 305 Foundations of Intercultural Communication (Mason Core) (p. 142).
- Minimum GPA of 3.25 in all coursework completed at George Mason.
- GPA of 3.50 in all communication coursework completed at George Mason and applied to the major.

Honors coursework in communication is a fall-spring sequence. Applications may be submitted by eligible students for fall semester enrollment. The deadline is March 15 each spring, for the sequence beginning the following fall. Student eligibility will be dependent on the GPA at the time of application. If accepted to pursue honors coursework, the student must then enroll in COMM 490 Honors Research Methods in Communication. Under the guidance of the COMM 490 Honors Research Methods in Communication instructor, the student will complete a research prospectus for an honors project to be implemented in the following semester in COMM 491 RS: Honors Research Project in Communication.

Honors Requirements

To remain eligible for honors coursework, the student must:

- receive a grade of 3.00 (no lower than B) in COMM 490 Honors Research Methods in Communication;
- have the research prospectus approved by the COMM 490 Honors Research Methods in Communication instructor and the honors director; and
- maintain an overall GPA of 3.25 and a minimum GPA of 3.50 in all COMM coursework completed at George Mason University and applied to the major.

In the following semester, the student enrolls in COMM 491 RS: Honors Research Project in Communication. The student conducts his/her research and prepares a written project conforming to the standards set by the instructor. Upon completion of the project, the COMM 491 RS: Honors Research Project in Communication instructor and the honors director will determine if the project is of honors quality, which is then indicated by the grade earned in COMM 491 RS: Honors Research Project in Communication. For honors designation, the student must achieve an average grade of 3.50 across COMM 490 Honors Research Methods in Communication and COMM 491 RS: Honors Research Project in Communication and must also maintain minimum GPA eligibility requirements outlined above.

Accelerated Master's

The accelerated master's programs in the list below specify the BA in communication as a feeder degree for their programs. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of degrees (http://catalog.gmu.edu/programs/#filter=filter_24) with accelerated programs at George Mason.

Communication, BA/Communication, Accelerated MA

Overview

Highly qualified Mason students may apply to the accelerated master's degree program. If accepted, students will be able to earn a Bachelor's and a MA in communication after satisfactory completion of as few as 147 credits, sometimes within five years. For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 93).

Students in an accelerated degree program must fulfill all university requirements for the master's degree. For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MA in communication, see Application Requirements and Deadlines (http://communication.gmu.edu/programs/LA-MA-ACEL-COM/application).

Accelerated Option Requirements

While undergraduate students, accelerated master's students complete COMM 600 Introduction to Graduate Studies and one of the following theory courses: COMM 602 Theories and Research of Mass Communication, COMM 605 Intercultural Communication, COMM 620 Health Communication, COMM 632 Persuasion Theory, COMM 634 Theories of Interpersonal Communication, COMM 635 Organizational Communication, or COMM 639 Science Communication. Accelerated master's students must earn a minimum grade of 3.00 in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements, except the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits at the 600 level, excluding COMM 650. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).
Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Women and Gender Studies Concentration)

Overview
Highly-qualified undergraduates in select majors may apply to the accelerated master's degree in interdisciplinary studies with a concentration in women and gender studies (p. 542). If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's degree in interdisciplinary studies with a concentration in women and gender studies after satisfactory completion of 150 credits, sometime within five years.

For more detailed information, see AP 6.7 Bachelor's/Accelerated Master's Degrees (p. 93). For policies governing all graduate degrees, see AP 6 Graduate Policies (p. 90).

Selected Majors
Anthropology (p. 497), Sociology (p. 507), English (p. 370), History (p. 394), Philosophy (p. 442), Conflict Analysis and Resolution (p. 938), Psychology (p. 461), Government and International Politics (p. 972), and Communication (p. 314).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MAIS, see the departmental web site (http://mais.gmu.edu/programs/la-mais-isin/application).

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete two graduate courses as indicated on their Accelerated Master's Program Application with a minimum grade of B in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP 1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)

Overview
Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in social justice and human rights (p. 542). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master's in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometimes within five years.

For more detailed information, see AP 6.7 Bachelor's/Accelerated Master's Degrees (p. 93). For policies governing all graduate degrees, see AP 6 Graduate Policies (p. 90).

Selected Majors
Anthropology (p. 497), Environmental and Sustainability Studies (p. 576), Sociology (p. 507), English (p. 370), History (p. 394), Philosophy (p. 442), Conflict Analysis and Resolution (p. 938), Psychology (p. 461), Government and International Politics (p. 972), Integrative Studies (p. 593), and Communication (p. 314).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

Accelerated Option Requirements
While undergraduate students, accelerated master's students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master's Program Application with a minimum grade of B in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work.

**Communication Minor**

Banner Code: COM

**Academic Advising**

102 Northeast Module
Fairfax Campus

Email: cdadvice@gmu.edu
Website: communication.gmu.edu/programs/la-minor-comm-com

The minor in communication provides useful knowledge of human
resources management, advertising, marketing, public relations/political
campaign management, events management, speech writing, media
production, or journalism.

**Admissions & Policies**

**Policies**

Eight credits of coursework must be unique to the minor and students
must earn a minimum grade of 2.00 in all courses applied to the
minor. COMM 100 Public Speaking (Mason Core) (p. 142), COMM 101
Fundamentals of Communication (Mason Core) (p. 142), or COMM 487
Washington Media Institute cannot be used toward the minor. For
policies governing all minors, see AP5.3.4 Minors (p. 90).

**Requirements**

**Minor Requirements**

Total credits: 18

---

Students should be aware of the specific policies associated with this
program, located on the Admissions & Policies (p. 322) tab.

**Communication, MA**

Banner Code: LA-MA-COM

102 Northeast Module
Fairfax Campus

Email: commgrad@gmu.edu
Website: communication.gmu.edu/programs/la-ma-com

As the environment for public and private communication becomes
increasingly complex, organizations rely more and more heavily
on thoughtful and effective communication professionals. To this
end, Communication MA students may choose to specialize in
strategic communication/public relations, health communication
or science communication. They may also choose an individualized
specialization in communication studies according to their interests.
Across all specializations, students receive a strong foundation in
communication theory and learn to design, execute, and interpret rigorous communication research. Students are challenged to apply communication knowledge to help solve problems and to address important social issues.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified by Graduate Admissions (p. 68). For information specific to the MA in communication, see Application Requirements and Deadlines (http://communication.gmu.edu/programs/LA-MA-COM/application).

Admission to the graduate program in communication is competitive.

Policies

For policies governing all graduate degrees, see Graduate Policies (p. 90).

Transfer of Credit/Reduction of Credit

Students may request transfer of up to 15 hours of graduate coursework from graduate non-degree status or from graduate study at another institution, or request a reduction of credit up to 6 hours based on a previously conferred graduate degree. Students should carefully review AP.6.5 (p. 91) and the policies governing graduate transfer of credit and reduction of credit. Transfer and reduction of credit is subject to the approval of the program director and graduate dean.

Requirements

Degree Requirements

Total credits: 33

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 323) tab.

Students complete two program core courses, two methods courses, two theory courses, one practicum course, two specialization and at least two elective courses (or 6 credits), of which 3 credits may be thesis.

Students must choose from one area of specialization (strategic communication/public relations, health communication, science communication, or individualized communication studies). Specific requirements are described below.

Total Credits 21

1 Other courses, including special topics (COMM 590 Seminar in Communication or COMM 690 Special Topics in Communication) and independent study, can be used to fulfill this requirement with prior written approval of the program director.

Specializations

Students complete the degree by completing 6 credits of coursework in one of the four specializations and an additional 6 elective credits in any graduate coursework, to include an optional thesis. Courses outside the department require the prior written approval of the program director.

Available Specializations

- Strategic Communications/Public Relations Specialization (p. 323)
- Health Communication Specialization (p. 324)
- Science Communication (p. 324)
- Individualized Communication Studies specialization (p. 325)

Strategic Communications/Public Relations Specialization

The specialization in strategic communication/public relations requires a minimum of two courses from the list below. A course taken as a part of the general program cannot be duplicated in credits, but it can count as a course required for the specialization. Additional credits may be met through electives.
Two Specialization Courses

</tr>
</tbody>
</table>

Total Credits 12

1 When topic is strategic communication, as approved by program director.

2 Students who do not choose to complete a thesis will take additional credits of elective courses. Students who choose to write a thesis should be aware of the policies governing theses as stated in AP.6.9.3 Master’s Thesis (p. 95). If a thesis is chosen, students must follow the thesis enrollment policy of the university and, once enrolled in COMM 799 Master’s Thesis, maintain continuous enrollment.

3 Students choosing to write a thesis take 3 credits of electives. Those opting out of the thesis take 6 credits.

Health Communication Specialization

The specialization in health communication requires a minimum of two courses from the list below. A course taken as a part of the general program cannot be duplicated in credits, but it can count as a course required for the specialization. Additional credits may be met through electives.

1 Students who do not choose to complete a thesis will take additional credits of elective courses. Students who choose to write a thesis should be aware of the policies governing theses as stated in AP6.9.3 Master’s Thesis (p. 95). If a thesis is chosen, students must follow the thesis enrollment policy of the university and, once enrolled in COMM 799 Master’s Thesis, maintain continuous enrollment.

2 Students choosing to write a thesis take 3 credits of electives. Those opting out of the thesis take 6 credits.

Individualized Communication Studies specialization

Students pursuing a specialization in individualized communication studies design a program of courses to reflect their interests.

Accelerated Master's

Communication, BA/Communication, Accelerated MA

Overview

Highly qualified Mason students may apply to the accelerated master’s degree program. If accepted, students will be able to earn a Bachelor’s and a MA in communication after satisfactory completion of as few as 147 credits, sometimes within five years. For more detailed information, see AP6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MA in communication, see Application Requirements and Deadlines (http://communication.gmu.edu/programs/LA-MA-ACEL-COM/application).

Accelerated Option Requirements

While undergraduate students, accelerated master’s students complete COMM 600 Introduction to Graduate Studies and one of the following theory courses: COMM 602 Theories and Research of Mass Communication, COMM 605 Intercultural Communication, COMM 620 Health Communication, COMM 632 Persuasion Theory, COMM 634 Theories of Interpersonal Communication, COMM 635 Organizational Communication, or COMM 639 Science Communication. Accelerated master’s students must earn a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.00 in each course. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements, except the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits at the 600 level, excluding COMM 650. These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

Communication, PhD

Banner Code: LA-PHD-COM

102 Northeast Module
Fairfax Campus

Email: commgrad@gmu.edu
Website: communication.gmu.edu/programs/la-phd-com

The PhD in Communication explores key issues in the discipline such as communicating complex information, influencing health behaviors, the digital divide, public advocacy, intercultural sensitivity, media literacy, and national security. The PhD program offers two major areas of emphasis:
health and strategic communication. Students may also emphasize science communication in conjunction with either of these. Faculty and students conduct research concerning consumer-provider relationships, risk communication, crisis management, organizational communication, media systems, health campaigns, new information technologies, communication policy, media advocacy, and health communication interventions.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the PhD in Communication, see Application Requirements and Deadlines (http://communication.gmu.edu/programs/LA-PHD-COM/application).

Policies

For policies governing all graduate degrees, see Graduate Policies (p. 90).

Reduction of Credit

For students entering the doctoral program with a master's degree, the number of required credits may be reduced by a maximum of 30 credits, subject to approval of the program faculty and the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Program Requirements

To receive the PhD in Communication, students must complete a minimum of 90 credits, 60 beyond the master's degree, including core courses in theory and research methods, coursework in substantive fields of study, and a research practicum. Following completion of all required coursework, students must pass a written qualifying examination and an oral defense of it, after which they are advanced to candidacy by the dean and complete a dissertation, an original and independent research project.

If specific requirements are waived, students must complete substitutions, which are recorded on their Program of Study. All substitutions to degree requirements must be approved by the graduate committee.

Requirements

Degree Requirements

Total credits: 90

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 326) tab.

## Political Communication Minor (CHSS)

### Banner Code: PCOM

### Academic Advising

102 Northeast Module  
Fairfax Campus  

Email: cdadvice@gmu.edu  
Website: communication.gmu.edu/programs/la-minor-comm-pcom

This interdisciplinary minor is offered jointly by the Schar School of Policy and Government (p. 961) and the Department of Communication (p. 313).

Political communication explores the interaction among members of the public, the media, advocacy groups, and politicians in democratic society. This minor uses a diverse approach to questions of how mass and interpersonal communication influence democratic functioning, including:

1. how political actors use strategic messaging to persuade and mobilize the public  
2. how citizens make sense of these messages and their impact on engagement, deliberation, efficacy, knowledge, and participation  
3. the role of the mass media in facilitating or hindering this relationship

Political communication includes explicitly political activities like voting and political campaigns. It also encompasses any issue of public debate or deliberation, including culture and social movements.

### Admissions & Policies

### Admissions

This minor is available to all Mason undergraduate students with the exception of communication majors pursuing a concentration in political communication.

### Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. A minimum of 6 COMM credits and a minimum of 6 GOVT credits are required. For policies governing all minors, see AP:5.3.4 Minors (p. 90).

### Requirements

#### Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 329) tab.

### Professional Experience in Communication Minor

**Banner Code:** PCM

**Academic Advising**

102 Northeast Module  
Fairfax Campus  

Email: cdadvice@gmu.edu  
Website: communication.gmu.edu/programs/la-minor-comm pcm

This minor is designed for undergraduate students who wish to augment their main academic program with an intense experiential learning semester in professional and career media. Students attend the Washington Media Institute program in Washington, DC and are taught by Mason faculty, Washington Media Institute leaders and practitioners. Enrollment in the program carries a premium fee added to normal tuition.

The minor is available only to students who are accepted into the program by application to the Department of Communication (p. 313), and enroll in credits dedicated to the Washington Media Institute Mason Semester, a semester-long program held in Washington Media Institute in Washington, DC.

### Admissions & Policies

#### Admissions

The minor is available only to students who are accepted into the program by application to the Department of Communication (p. 313), and enroll in credits dedicated to the Washington Media Institute Mason Semester, a semester-long program held in Washington Media Institute in Washington, DC.

#### Policies

Students pursuing this minor must complete all course offerings with a minimum grade of 2.00 in each course. All fifteen credits of coursework must be unique to the minor.

For policies governing all minors, see AP.5.3.4 Minors (p. 90).

### Requirements

#### Minor Requirements

Total credits: 15

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 330) tab.

#### Coursework

Students complete five required courses, offered as individualized sections of COMM 487 Washington Media Institute. Specific course titles may vary from semester to semester. Examples are Entrepreneurial Media and Journalism and Social Justice. Various seminars, a technology workshop and internship may also be offered.

#### Admissions & Policies

#### Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68).
Policies
For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Concentration in Professional and Technical Writing
This concentration in the graduate certificate in professional writing and editing may be pursued concurrently with any of several programs in English and elsewhere. Part of the coursework toward the concentration may be applied to those degrees with the approval of the director of the degree program. Students pursuing the certificate in professional and writing and editing with a concentration in professional and technical writing must complete 18 credits of English graduate courses with a minimum grade of 3.00 in each course.

Concentration in Science Communication
All course choices included in this concentration must be approved by the Department of Communication. Students pursuing the graduate certificate in professional writing and editing with a concentration in science communication must complete 15 credits.

Requirements
Certificate Requirements
Total credits: 15 or 18

This certificate may be pursued on a full- or part-time basis.

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Students pursuing this graduate certificate must choose either a concentration in professional and technical writing or a concentration in science communication.

Concentration in Professional and Technical Writing (PTW)
This concentration in the graduate certificate in professional writing and editing may be pursued on a part-time basis only.

1 These courses should be chosen from any STEM, health sciences, or science policy discipline. Both courses must be from the same discipline and must be graduate level. Choices must be approved by the program director. Students should select from 500- or 600-level courses offered by CHSS (p. 305), COS (p. 613), CHHS (p. 244), Schar (p. 961), or CEHD (p. 161).

Sport Communication Minor (CHSS)
Banner Code: SCOM

Academic Advising
102 Northeast Module
Fairfax Campus
Email: cdadvice@gmu.edu
Website: communication.gmu.edu/programs/la-minor-comm-scom

This minor offers students the opportunity to examine important and timely sports-related issues in an ethical context as well as analyze sports from cross-cultural perspectives. Students will gain an understanding of sport mass media, sport communication, sports reporting, interpersonal and organizational communication, and the impact each has in our global society. The courses cover theory and practice in cross-platform communication, sports ethics and theoretical underpinnings, public relations, and marketing. The minor provides applied fundamentals for students seeking employment in the commercial world of sports (areas such as management or promotion of athletic organizations) and in sports media. The sport communication
minor is offered jointly with the School of Recreation, Health, and Tourism (http://catalog.gmu.edu/colleges-schools/humanities-social-sciences/communication/sport-communication-minor/20/colleges-schools/education-human-development/recreation-health-tourism) in the College of Education and Human Development (p. 161).

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP 5.3.4 Minors (p. 90).

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 332) tab.

Total Credits 6

1 Special topics courses, when relevant, may be used to fulfill this requirement with the prior written approval of the director.

Depending on which courses students took as a required course (above), they may use either SPMT 201 Introduction to Sport Management or SPMT 304 Sport, Culture, and Society as an elective.

• COMM majors are required to take one elective SPMT course.

Department of Criminology, Law and Society

Phone: 703-993-8315
Website: cls.gmu.edu/

Criminology, Law and Society is a dynamic, multidisciplinary unit. Students at the graduate and undergraduate level develop strong foundations in research, methods, theories and systems of justice, criminology and crime policy, security, and law and society. They graduate with the knowledge and skills needed to understand the causes and consequences of crime and injustice, the responses by criminal and civil justice institutions, and what works to improve social conditions among affected individuals, communities, organizations, and countries.

Undergraduate Programs

Criminology, Law and Society, BS

The bachelors of science in criminology, law and society provides students with a focused study of criminology, law and society and the social, human, and moral problems raised in the justice field. The BS degree prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services. Students who earn the BS degree either gain work experience in a criminal justice agency, or complete a minor in a related field to enhance their study of justice.

Criminology, Law and Society, BA

The bachelors of arts in criminology, law and society provides students with the opportunity to acquire a broader liberal arts education while studying criminology, law and society. The BA degree prepares students for careers in a range of justice, social service, and human services fields. It also provides a strong background for law school or graduate study in criminal justice or criminology.

Internships

The department supports an active internship program, which places students in justice and related organizations throughout the Washington metropolitan area. Students can gain valuable work place experience while earning credit toward their degree.

Graduate Programs

The department offers a master’s and a doctoral degree in criminology, law and society and a master’s degree in criminal justice. These degrees draw on a strong multidisciplinary faculty who teach a wide range of courses in their specialties. These programs take advantage of Mason’s proximity to the many justice organizations at the federal, state, and local levels. The curriculum is structured to give students the skills they need to do policy-relevant research. They will be able to work with local and
national agencies concerned with justice and security to put those skills to use.

**Funding**
The department offers graduate teaching and research assistantships awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and, like all graduate students, show satisfactory progress toward their degree.

**Admissions & Policies**

**Admissions**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the MS degree in criminal justice, see Application Requirements and Deadlines (https://cls.gmu.edu/programs/la-ms-cjus/application) on the departmental website.

**Policies**
For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

**Transfer Credits**
Students who have prior graduate coursework that has not been applied to another degree may request to have a maximum of 12 of these graduate credits transferred to their degree program, with approval of the graduate director and dean and in accordance with AP.6.5.2 Reduction of Credits (p. 91).

**Reduction of Credits**
Students entering the master’s program with a previously conferred graduate degree in a related discipline may request that the required credits for the MS degree be reduced by a maximum of 12 credits with approval of the graduate director and dean and in accordance with AP.6.5.3 Transfer of Credit (p. 91).

**Satisfactory Progress**
Students who fail to make satisfactory progress may be terminated from the program. Satisfactory progress in the MS in criminal justice is defined as maintaining a minimum GPA of 3.00 with the minimum grade of B- in all courses. Students who receive a grade below B- will receive an academic warning the first time and a letter of termination the second time.

Accelerated Master’s

Bachelor's Degree (any)/Criminal Justice, Accelerated MS

Overview
The accelerated M.S. in Criminal Justice is designed for high achieving undergraduate students who are pursuing a bachelor’s degree in any field and who also wish to obtain a master’s of science in criminal justice. Students can earn both degrees with a total of 144 credits rather than the usual 150 credits, and in as few as five years. Students gain enhanced knowledge and skills in the criminal justice field for career development or to help prepare for competitive, sought-after positions. The program takes advantage of the university’s proximity to many justice organizations at the federal, state, and local levels in the capital region. The curriculum is designed to give students the skills to work with justice and security agencies in the region. For more detailed information, see AP6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to this degree, see the departmental website.

Accelerated Option Requirements
Students who have been accepted into the accelerated master’s program can take up to 6 graduate credits (any course except CRIM 517 Research Practicum in Justice Policy and Practice) while still in undergraduate status and those credits will be applied to both degrees (BA or BS and MS), as long as they get at least a minimum grade of B in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.50 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements, except the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students can take an additional 6 credits of graduate courses while still undergraduates, and those credits will be applied only to the master’s degree (reserve credits). To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. See AP1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

Criminology, Law and Society, BA

Banner Code: LA-BA-CLS
354 Enterprise Hall
Fairfax Campus
Website: cls.gmu.edu/programs/la-ba-cls

The BA in Criminology, Law and Society provides a focused study of the justice system and social, human, and moral problems raised in the justice field. This course of study prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services. The BA in Criminology, Law and Society is well-suited for students who wish to study the field while branching out into related areas of study.

Admissions & Policies

Policies
Students pursuing this degree must complete 42 credits within the major, with a minimum GPA of 2.00. Students may apply a maximum of 18 credits of transferable ADJ courses from the Virginia Community College System (VCCS) or comparable courses at another community college to fulfill the degree requirements. Once a student matriculates at Mason, no courses may be taken at another institution without prior written approval from the program and the dean.
No more than 12 credits of CRIM 485 Study Abroad can be applied to the major. No more than 15 credits of CRIM 490 Special Topics can be applied to the major.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 87).

CRIM 411 Innovations in Policing
CRIM 425 Criminal Justice Management
CRIM 462 Law Enforcement and Homeland Security
CRIM 471 Prevention and Deterrence of Crime

Upper Level Requirement

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

College Level Requirements for the BA Degree

In addition to the Mason Core (p. 142) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 142) requirements or requirements for the major).

Concentration in Law and Society (LAWS)

Select 15 credits from the following:

Writing-Intensive Requirement

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in criminology, law and society fulfill this requirement by successfully completing CRIM 495 Capstone in Criminology, Law and Society (Mason Core) (p. 142). Students should complete ENGH 302 Advanced Composition (Mason Core) (p. 142) before taking the writing-intensive course in the major or take the two courses simultaneously.

Note that the following courses may not be used to fulfill this requirement:

- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 142) and RELI 235 Religion and Literature (Mason Core) (p. 142) cannot be used to fulfill both the philosophy/research studies requirement and the Mason Core literature (p. 147) requirement.

¹ Note that the following courses may not be used to fulfill this requirement:

- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 142) and RELI 235 Religion and Literature (Mason Core) (p. 142) cannot be used to fulfill both the philosophy/research studies requirement and the Mason Core literature (p. 147) requirement.

Or choose from the following GGS courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>GGS 101</td>
<td>Major World Regions (Mason Core) (p. 142)</td>
<td></td>
</tr>
<tr>
<td>GGS 103</td>
<td>Human Geography (Mason Core) (p. 142)</td>
<td></td>
</tr>
<tr>
<td>GGS 110</td>
<td>Introduction to Geoinformation Technologies</td>
<td></td>
</tr>
<tr>
<td>GGS 301</td>
<td>Political Geography</td>
<td></td>
</tr>
<tr>
<td>GGS 303</td>
<td>Geography of Resource Conservation (Mason Core) (p. 142)</td>
<td></td>
</tr>
</tbody>
</table>

¹ Additional courses may not be used to fulfill the Mason Core social and behavioral sciences requirement.
George Mason University

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

1 A course used to fulfill the Mason Core global understanding requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

**Mason Core**

Some Mason Core (p. 142) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 142) requirements.

Honors in the Major

Highly-qualified students may pursue advanced work leading to graduation with honors in the major. Students admitted to the honors program in the major take a two-course sequence: CRIM 491 Honors Seminar I and CRIM 492 RS: Honors Seminar II. To graduate with honors in criminology, law and society, students must complete both courses with a minimum GPA of 3.50 in the two courses.

Criminology, Law and Society, BS

Banner Code: LA-BS-CLS

354 Enterprise Hall
Fairfax Campus

Website: cls.gmu.edu/programs/la-bs-cls

Criminology, Law and Society provides a focused study of the justice system and social, human, and moral problems raised in the justice field. This course of study prepares students for careers in law enforcement, corrections, the courts, investigations, juvenile justice, private and homeland security, and related social and human services. The BS degree provides students a focused approach, requiring more courses within the field of criminology. Students who earn the BS degree either gain work experience in a criminal justice agency, or complete a minor in a related field to enhance their study of justice.

Admissions & Policies

Policies

Students pursuing this degree with an internship must complete 60 major credits. Students who complete an approved minor need 45 major credits, plus 15-20 credits in the minor, some of which may overlap with the major credits. Students who pursue a minor must meet with an advisor in the minor program to verify minor requirements and add the minor to their record.

A minimum GPA of 2.00 is required. Students may apply a maximum of 18 credits of transferable ADJ courses from the Virginia Community College System (VCCS) or comparable courses at another community college to fulfill the degree requirements. Once a student matriculates at Mason, no courses may be taken at another institution without prior written approval from the program and the dean.

No more than 12 credits of CRIM 485 Study Abroad can be applied to the major. No more than 15 credits of CRIM 490 Special Topics can be applied to the major.

For policies governing all undergraduate degrees, see AP5 Undergraduate Policies (p. 87).

Requirements

Degree Requirements

Total credits: minimum 120

Total Credits: 30

1. Students may select an optional concentration to fulfill a portion of this required elective credit.

### Optional Concentrations in the Major

Criminology, law and society majors have the option of obtaining a concentration by completing 15 of their 30 elective credits within one of the following areas. Students can pursue only one concentration. Credits earned in CRIM 490 Special Topics may be applied to a concentration as appropriate for the content of the course, to be determined by the undergraduate director.
CRIM 405  Law and Justice around the World (Mason Core) (p. 142)
CRIM 406  Family Law and the Justice System
CRIM 407  Advanced Topics in Law and Society
CRIM 408  Criminal Courts
CRIM 422  Controversial Legal Issues
CRIM 423  Constitutional Law: Civil Rights and Liberties
or GOVT 423 Constitutional Law: Civil Rights and Liberties
CRIM 430  Criminal Law
CRIM 460  Surveillance and Privacy in Contemporary Society

Total Credits  15

Writing-Intensive Requirement
The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in criminology, law and society fulfill this requirement by successfully completing CRIM 495 Capstone in Criminology, Law and Society (Mason Core) (p. 142). Students should complete ENGH 302 Advanced Composition (Mason Core) (p. 142) before taking the writing-intensive course in the major or take the two courses simultaneously.

Upper Level Requirement
Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

Additional Electives
Any remaining credits may be completed with elective courses to bring the degree total to 120.

Mason Core
Some Mason Core (p. 142) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 142) requirements.

1 Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.
2 Minimum 3 credits required.

Honors

Honors in the Major
Highly qualified students may pursue advanced work leading to graduation with honors in the major. Students admitted to the honors program in the major take a two-course sequence: CRIM 491 Honors Seminar I and CRIM 492 RS: Honors Seminar II. To graduate with honors in criminology, law and society, students must complete both courses with a minimum GPA of 3.50 in the two courses.

Criminology, Law and Society Minor
Banner Code: CLS

Academic Advising
354 Enterprise Hall
Fairfax Campus
Website: cls.gmu.edu/programs/la-minor-cls-cls

Through the minor in criminology, law and society, students develop knowledge of the principles, institutions, and practices of the systems for administering justice. It provides a solid foundation for students seeking to supplement their major area of study, to develop knowledge and skills needed for justice-related occupations, or to lay the foundation for law school or graduate study in the justice field. Students obtain an overview of the justice system and develop advanced knowledge of selected features of the justice system.

Students should plan their course of study with a criminology, law and society advisor assigned by the program.

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. No more than 6 credits of CRIM 485 Study Abroad can be applied to the minor. The minor must be approved by the advisor before graduation.

For policies governing all minors, see AP 5.3.4 Minors (p. 90).

Requirements

Minor Requirements
Total credits: 15

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 341) tab.

Criminology, Law and Society, MA

Banner Code: LA-MA-CLS

Academic Advising

354 Enterprise Hall
Fairfax Campus

Email: clsgrad@gmu.edu
Website: cls.gmu.edu/programs/la-ma-cls

The MA in Criminology, Law and Society prepares students to conduct high-quality scientific research in the criminal justice field. Students learn cutting-edge social science methods and data analysis skills for advancing knowledge in the social sciences and for making a difference in the development and evaluation of justice policies and practices. The MA in Criminology, Law and Society prepares students to pursue advanced graduate studies at the doctoral level or for positions that require rigorous research skills.

For a related program, see Criminology, Law and Society, PhD (p. 343)

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in the Admission section of this catalog. For information specific to the MA in criminology, law and society, see Application Requirements and Deadlines (http://cls.gmu.edu/programs/la-ma-cls/application) on the departmental web site.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

Transfer Credits

Students who have prior graduate course work that has not been applied to another degree may request to have a maximum of 12 of these graduate credits transferred to their degree program, with approval of the graduate director and dean and in accordance with the Academic Policies section of this catalog.

Reduction of Credits

Students entering the master’s program with a previously conferred graduate degree in a related discipline may request that the required credits for the MA degree be reduced by a maximum of 12 credits with approval of the graduate director and dean and in accordance with the Graduate Policies section of this catalog.

Satisfactory Progress

Each new student is assigned a faculty advisor who helps develop a program of study. The advisor and faculty assess the progress of all students annually. Students who fail to make satisfactory progress may be terminated from the program. Satisfactory progress in the MA in criminology, law and society is defined as maintaining a minimum GPA of 3.00 with the minimum grade of B- in all courses. Students who receive a grade below B- will receive an academic warning the first time and a letter of termination the second time.

Requirements

Criminology, Law and Society, PhD

Banner Code: LA-PHD-CLS

Academic Advising

354 Enterprise Hall
Fairfax Campus

Email: clsgrad@gmu.edu
Website: cls.gmu.edu/programs/la-phd-cls

The PhD in Criminology, Law and Society is designed to produce top academic scholars and leaders in policy and applied settings. Students coming to this program seek to make a difference in the development and evaluation of policy using cutting edge social science methods. The program provides a rigorous course of study that will prepare students to do research, teach, develop and test policies, and administer agencies and programs designed to administer law, deliver justice, reduce crime, and enhance domestic security.

For a related program, see Criminology, Law and Society, MA (p. 342)

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the PhD degree in Criminology, Law and Society, see Application Requirements and Deadlines (http://cls.gmu.edu/programs/application/LA-PHD-CLS) on the departmental website.

Policies

For policies governing all graduate degrees, see Graduate Policies (p. 90).

Master's Degree

Students admitted to the doctoral program without a master’s degree need to earn the MA in Criminology, Law and Society as a component of the doctoral degree. The requirements for the MA degree are included in the requirements for the PhD listed below. When beginning the doctoral program students should add the master’s degree as a secondary program using the Secondary Program Application (http://registrar.gmu.edu/wp-content/uploads/GSMA.pdf) and then apply online (http://registrar.gmu.edu/students/graduation/process) to graduate the semester prior to meeting all requirements for the master's degree.

Reduction of Credit

Students entering the doctoral program with a master’s degree in a related discipline, including a law degree, may request that the required credits for the doctoral degree be reduced by a maximum of 30 credits with approval of the graduate director and dean and in accordance with university policy. Students who have prior graduate course work that has not been applied to another degree may request to have a maximum of 12 of these graduate credits transferred to their degree program, with approval of the graduate director and dean and in accordance with university policy.

Satisfactory Progress

Each new student is assigned an advisor who helps develop a program of study. On advancement to candidacy, the chair of the dissertation committee becomes the advisor. The advisor and faculty assess the progress of all students annually. Students who fail to make satisfactory progress may be terminated from the program. Satisfactory progress in the PhD in criminology, law and society is defined as maintaining a minimum GPA of 3.00 with the minimum grade of B- in all courses. Students who receive a grade below B- will receive an academic warning the first time and a letter of termination the second time.

Electives

Select 21-30 credits of electives from criminology, law and society courses offered by the department. (p. 1514)¹

¹ Students who take fewer than 30 elective credits will have accordingly more dissertation credits. Students may substitute 3-6 credits of non-CRIM courses with prior written approval of the director of the graduate program.

Major Area Paper

Students must write and have approved a major area paper. Students are not eligible to submit a major area paper until they have successfully completed 36 credits.

Advancement to Candidacy

To advance to candidacy, students must complete all course work required on their approved program of study. Students must also successfully write and have approved a major area paper. In addition, students must have a dissertation committee appointed by the Dean's Office and have defended their dissertation proposal.

Dissertation

Dissertation Committee

The student's committee is composed of at least four faculty members. Three of the four must be members of the graduate faculty in criminology, law and society. The fourth must be from outside the university. The faculty member serving as the chair of the committee must be a member of the graduate faculty in criminology, law and society.

Dissertation Research

Once enrolled in CRIM 998 Doctoral Dissertation Proposal, students in this degree program must maintain continuous registration in CRIM 998 Doctoral Dissertation Proposal or CRIM 999 Doctoral Dissertation Research each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in CRIM 999 Doctoral Dissertation Research, students must follow the university’s continuous registration policy as specified in AP.6.10.6 Dissertation Registration (p. 98). Students who defend in the summer must be registered for at least 1 credit of CRIM 999 Doctoral Dissertation Research.

Students may apply to this degree a minimum of 3 and a maximum of 6 credits of CRIM 998 Doctoral Dissertation Proposal and a minimum of 12 and a maximum of 21 credits of CRIM 999 Doctoral Dissertation Research. They may apply a maximum of 24 dissertation credits (CRIM 998 Doctoral Dissertation Proposal and CRIM 999 Doctoral Dissertation Research combined) to the degree. Because of the continuous registration policy, students may be required to register for additional credits of these courses. Students who take fewer than 24 dissertation credits will have accordingly more elective credits.

The final requirement is a dissertation of original research representing a significant contribution to the field, which should be publishable in a refereed journal or a quality press.

Intelligence Analysis Minor

Banner Code: NTLA

Academic Advising

354 Enterprise Hall
Fairfax Campus

Website: cls.gmu.edu/programs/la-minor-cls-ntla

This minor is designed for students who are interested in careers in homeland security or other intelligence-related fields. This minor focuses on developing the skills of intelligence analysis, including research, writing, briefing, and analytical tradecraft. Students explore ethical issues in the field and new developments in the analysis of intelligence information.

The curriculum fosters a broad knowledge of content in several disciplines valued by employers in homeland security and intelligence-related fields. The minor offers students sufficient flexibility to pursue their primary interests while also preparing themselves for careers in intelligence analysis.

Students who are American citizens may apply for an internship in intelligence analysis at the Federal Bureau of Investigation or other agencies. Credits earned for an internship are in addition to those required for the minor and do not contribute toward completion of the minor. Students who intend to apply for the internship should begin the application process no later than September of their sophomore year, since the security clearance process can take a year or more. Students may wish to participate in the Clearance Ready Program offered through Career Services. Information can be found at https://careers.gmu.edu/students/find-job-or-internship/clearance-ready-program. Students in this minor are strongly encouraged to pursue advanced training in Arabic, Chinese, or Russian.

Admissions & Policies

Policies

Twelve credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. This minor is multidisciplinary in nature and requires coursework from at least two different academic departments. It must be approved by the advisor before graduation. A maximum of 6 credits of CRIM 485 Study Abroad can be applied to the minor.
For policies governing all minors, see AP.5.3.4 Minors (p. 90).

**Requirements**

**Minor Requirements**

**Department of Economics**

D150 Buchanan Hall
Fairfax Campus

Phone: 703-993-1151
Website: economics.gmu.edu

**Undergraduate Programs**

The department offers a bachelor of arts (BA) and a bachelor of science (BS) degree in economics. The bachelor of science degree program is designed for students who desire a more technical program with a stronger emphasis on economic and quantitative analysis. It is especially appropriate for students who anticipate a career as an economic analyst in government, consulting, trade associations, or private sector positions that emphasize economic research and analysis. The requirements are also suitable for students planning postgraduate education in economics or more quantitative business administration programs.

Students interested in careers in the business world can pursue a concentration in managerial economics within the BS in economics.

The Bachelor of Arts in Economics is designed for students with an interested in the liberal arts. It is appropriate for those who prefer a less quantitative degree program and may be especially suitable for students
planning to attend law school or graduate programs in business or public administration.

**Bachelor's/Accelerated Master's Program**
The department offers highly qualified undergraduates the opportunity to apply to an accelerated master's degree program in economics (p. 351). If accepted, students will be able to earn both an undergraduate and a graduate degree after satisfactory completion of 144 credits, generally within five years.

**Graduate Programs**
The department offers a master's and a doctoral degree in economics. The department is noted for its emphasis on comparative institutional analysis and its focus on the relations among economic, political, and legal institutions. This is reflected in the specializations associated with the department: experimental economics, Austrian economics, public choice, constitutional political economy, law and economics, and new institutional economics.

**Funding**
The department offers graduate teaching and research assistantships and fellowships that are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students with assistantships must register for a minimum of 6 credits a semester and, like all students, demonstrate satisfactory progress toward their degree.

---

**Economics, BA**

**Banner Code:** LA-BA-ECON

D150 Buchanan Hall
Fairfax Campus

Website: economics.gmu.edu/programs/la-ba-econ

Economics is about more than money and profits. It is a way of looking at the world through the lens of incentives, choices, and markets to help uncover new solutions to the persistent problems in our society. This economic perspective sheds light on important issues in the areas of production, education, crime, the environment, international trade, immigration, health care, economic growth, poverty, and more. The bachelor of arts in Economics is designed for students with a strong interest in the liberal arts. It is appropriate for those who prefer a less quantitative degree program than the bachelor of science in Economics and may be especially appropriate for students planning to attend law school or graduate programs in business or public administration.

**Admissions & Policies**

**Policies**

Students pursuing this degree must complete a minimum of 48 credits of required coursework with a minimum GPA of 2.00. Students in the concentration in philosophy, politics, and economics complete a minimum of 70 credits. Students must also complete ECON 103 Contemporary Microeconomic Principles (Mason Core) (p. 142) and ECON 104 Contemporary Macroeconomic Principles (Mason Core) (p. 142) with at least a 2.00 (C) in each.

For policies governing all undergraduate degrees, see AP.5 Undergraduate Policies (p. 87).

**Requirements**

**Degree Requirements**

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 346) tab.

Economics majors can fulfill the Mason Core (p. 142) synthesis requirement with ECON 309 Economic Problems and Public Policies (Mason Core) (p. 142). Some economics courses may fulfill the Mason Core (p. 142) requirement in global understanding or the college requirement in non-Western culture. Check with the departmental advising office for more information.

<td>Theories of Decision</td>
<td>3</td>
</tr>
</tbody>
</table>

Total Credits 18

¹ ECON 385 International Economic Policy may not be used to fulfill this requirement. If ECON 340 Introduction to Mathematical Economics is chosen as an elective, students need not take the 4-credit course MATH 114 Analytic Geometry and Calculus II; however, MATH 114 Analytic Geometry and Calculus II is strongly recommended for students considering a graduate school in economics since it is required for admission to most graduate programs. An additional calculus course beyond MATH 114 Analytic Geometry and Calculus II is also advisable for students considering graduate study in economics.
Capstone Experience Course

Total Credits 3

Writing-Intensive Requirement

The university requires all students to complete at least one course designated as "writing intensive" in their majors at the 300 level or above. Students majoring in economics fulfill this requirement by successfully completing one of the following courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 345</td>
<td>Introduction to Econometrics</td>
<td></td>
</tr>
<tr>
<td>ECON 355</td>
<td>The Political Economy of Nonprofit</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Institutions</td>
<td></td>
</tr>
<tr>
<td>ECON 365</td>
<td>Topics in Economic History</td>
<td></td>
</tr>
<tr>
<td>ECON 435</td>
<td>Economics of Energy</td>
<td></td>
</tr>
<tr>
<td>ECON 470</td>
<td>Economics of Regulation</td>
<td></td>
</tr>
</tbody>
</table>

Social and Behavioral Sciences

Select 3 credits of social and behavioral sciences from the following (additional to the Mason Core social and behavioral sciences requirement):

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANTH (p. 1212)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>CRIM (p. 1514)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>ECON (p. 1564)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>GOVT (p. 1774)</td>

</tr>
</tbody>
</table>

Upper Level Requirements

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

Additional Electives

Any remaining credits may be completed with elective courses to bring the degree total to 120.

College Level Requirements for the BA Degree

In addition to the Mason Core (p. 142) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 142) requirements or requirements for the major).

Philosophy or Religious Studies

Select 3 credits from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHIL (p. 2044)</td>
<td></td>
<td></td>
</tr>
<tr>
<td>RELI (p. 2144)</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

1 Note that the following courses may not be used to fulfill this requirement:
- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 142) and RELI 235 Religion and Literature (Mason Core) (p. 142) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 147) requirement.

Foreign Language

Intermediate-level proficiency in one foreign language, fulfilled by:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>EDSE 115</td>
<td>American Sign Language (ASL) I</td>
<td></td>
</tr>
<tr>
<td>EDSE 116</td>
<td>American Sign Language (ASL) II</td>
<td></td>
</tr>
<tr>
<td>EDSE 219</td>
<td>American Sign Language (ASL) III</td>
<td></td>
</tr>
</tbody>
</table>

1 The two courses used to fulfill the combined college and Mason Core (p. 142) requirements must be from different disciplines in the social and behavioral sciences.

2 HIST 100 History of Western Civilization (Mason Core) (p. 142) and HIST 125 Introduction to World History (Mason Core) (p. 142) may not be used to fulfill this requirement.
**Non-Western Culture**
Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

<table>
<thead>

</table>

1. Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.
2. Minimum 3 credits required.

**Honors**

**Honors in the Major**
Students pursuing departmental honors must complete 6 hours of ECON 495 RS: Honors Thesis in Economics culminating with an original work of research and an oral presentation. Requirements for departmental honors are in addition to the coursework required for the major. Students must complete ECON 495 RS: Honors Thesis in Economics with a grade of B or higher to receive departmental honors.

Economics majors who have completed 90 credits with an overall GPA of 3.50 and a GPA of 3.50 within the major are eligible to apply. Not all applicants who meet the minimum requirements are guaranteed acceptance.

Applications will be available starting May 1st of each year. Applications are due by August 1st.

To be accepted into the program and enroll in ECON 495 RS: Honors Thesis in Economics students must submit a research proposal. Research proposals can be developed independently or by completing ECON 494 Introduction to Independent Research in Economics with a grade of B or higher. Completion of ECON 494 Introduction to Independent Research in Economics is not required for departmental honors.
Accelerated Master's

The accelerated master's program listed below specifies the BA in economics as a feeder degree for its program. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of degrees (http://catalog.gmu.edu/programs/#filter=filter_24) with accelerated programs at George Mason.

Economics, BA or BS/Economics, Accelerated MA

Overview

Highly-qualified Mason economics majors may apply to the accelerated master's degree program. If accepted, students will be able to earn both a BA (p. 346) or BS (p. 351) and a M (p. 357) in economics after satisfactory completion of 144 credits. Graduates are exceptionally well-prepared for professional school or a PhD program in economics or a related discipline.

For more detailed information, see AP6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93). For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MA in economics, see Application Requirements and Deadlines (http://economics.gmu.edu/programs/application/LA-MA-ACEL-ECON) on the departmental web site.

Accelerated Option Requirements

While undergraduate students, accelerated master's students will be required to complete two master's courses to be applied to the undergraduate degree as upper level credit. These two courses must be selected from the following five courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 535</td>
<td>Survey of Applied Econometrics</td>
<td>6</td>
</tr>
<tr>
<td>ECON 611</td>
<td>Microeconomic Theory</td>
<td></td>
</tr>
<tr>
<td>ECON 612</td>
<td>Microeconomic Theory II</td>
<td></td>
</tr>
<tr>
<td>ECON 615</td>
<td>Macroeconomic Theory</td>
<td></td>
</tr>
<tr>
<td>ECON 630</td>
<td>Mathematical Economics I</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 6

Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework and earn a grade of B or better (3.00 or higher) in coursework applied to their major. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/ Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

While undergraduate students, accelerated master's students may take an additional two master's courses as reserve graduate credit. These two additional master's courses must be selected from the following five courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 535</td>
<td>Survey of Applied Econometrics</td>
<td>6</td>
</tr>
<tr>
<td>ECON 611</td>
<td>Microeconomic Theory</td>
<td></td>
</tr>
<tr>
<td>ECON 612</td>
<td>Microeconomic Theory II</td>
<td></td>
</tr>
<tr>
<td>ECON 615</td>
<td>Macroeconomic Theory</td>
<td></td>
</tr>
<tr>
<td>ECON 630</td>
<td>Mathematical Economics I</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 6

These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/ Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

Economics, BS

Banner Code: LA-BS-ECON

D150 Buchanan Hall
Fairfax Campus
Website: economics.gmu.edu/programs/la-bs-econ

Economics is about more than money and profits. It is a way of looking at the world through the lens of incentives, choices, and markets to help uncover new solutions to the persistent problems in our society. This economic perspective sheds light on important issues in the areas of production, education, crime, the environment, international trade, immigration, health care, economic growth, poverty, and more. The bachelor of science in Economics provides a stronger emphasis on quantitative analysis. Students prepare for a career as an analyst in government, consulting, trade associations, or other private sector positions, and for graduate school in economics or more quantitative business administration programs.

Admissions & Policies

Policies

Students pursuing this degree must complete a minimum of 59 credits of required coursework with a minimum GPA of 2.00. Students completing a concentration will complete additional credits.

For policies governing all undergraduate degrees, see AP5 Undergraduate Policies (p. 87).
### Requirements

#### Degree Requirements

**Total credits: minimum 120**

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 351) tab.

Some economics courses may fulfill the Mason Core requirement in global understanding. Check with the departmental advising office for more information. Economics majors can fulfill the Mason Core synthesis requirement with ECON 309 Economic Problems and Public Policies (Mason Core) (p. 142).

#### Core Courses without Concentration

#### Electives without Concentration

**Electives**

Select 18 credits of electives from courses in economics at the 300 or 400 level (p. 1564) 1

Select 6 credits of electives from courses in economics at the 400 level. (p. 1564)

**Total Credits** 24

1 ECON 385 International Economic Policy may not be used to fulfill this requirement.

If ECON 340 Introduction to Mathematical Economics is chosen as an elective, students need not take the 4-credit course MATH 114 Analytic Geometry and Calculus II; however, MATH 114 Analytic Geometry and Calculus II is strongly recommended for students considering graduate school in economics since it is required for admission to most graduate programs. An additional calculus course beyond MATH 114 Analytic Geometry and Calculus II is also advisable for students considering graduate study in economics.

#### Optional Concentrations

Students interested in a degree in economics with a concentration will complete the coursework for one of the concentrations below.

**Available Concentrations**

- Concentration in Managerial Economics (MECN) (p. 352)
- Concentration in Philosophy, Politics, and Economics (PPE) (p. 353)

#### Concentration in Managerial Economics (MECN)

Students who wish to focus their BS in economics for application in the business world may choose to pursue a concentration in managerial economics. They complete 62 credits, 10 of which may be used also to fulfill Mason Core requirements.

**Required Courses**

### Writing-Intensive Requirement

The university requires all students to complete at least one course designated as "writing intensive" in their majors at the 300 level or above. Students majoring in economics fulfill this requirement by successfully completing:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 345</td>
<td>Introduction to Econometrics</td>
<td>3</td>

</tr>
<tr>
<td></td>
<td><strong>Total Credits</strong></td>
<td><strong>3</strong></td>
</tr>
</tbody>
</table>

### Upper Level Requirements

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

### Additional Electives

Any remaining electives may be completed with elective courses to bring the degree total to 120.

### Mason Core

Some Mason Core (p. 142) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 142) requirements.

Honors in the Major

Students pursuing departmental honors must complete 6 hours of ECON 495 RS: Honors Thesis in Economics culminating with an original work of research and an oral presentation. Requirements for departmental honors are in addition to the coursework required for the major. Students must complete ECON 495 RS: Honors Thesis in Economics with a grade of B or higher to receive departmental honors.

Economics majors who have completed 90 credits with an overall GPA of 3.50 and a GPA of 3.50 within the major are eligible to apply. Not all applicants who meet the minimum requirements are guaranteed acceptance.

Applications will be available starting May 1st of each year. Applications are due by August 1st.

To be accepted into the program and enroll in ECON 495 RS: Honors Thesis in Economics students must submit a research proposal. Research proposals can be developed independently or by completing ECON 494 Introduction to Independent Research in Economics with a grade of B or higher. Completion of ECON 494 Introduction to Independent Research in Economics is not required for departmental honors.

Accelerated Master's

The accelerated master's programs listed below specify the BS in economics as a feeder degree for their programs. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of degrees (http://catalog.gmu.edu/programs/#filter=filter_24) with accelerated programs at George Mason.

Economics, BA or BS/Economics, Accelerated MA

Overview

Highly-qualified Mason economics majors may apply to the accelerated master's degree program. If accepted, students will be able to earn both a BA (p. 346) or BS (p. 351) and a M (p. 357)A (p. 357) in economics after satisfactory completion of 144 credits. Graduates are exceptionally well-prepared for professional school or a PhD program in economics or a related discipline.

For more detailed information, see AP6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93). For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MA in economics, see Application Requirements and Deadlines (http://economics.gmu.edu/programs/application/LA-MA-ACEL-ECON) on the departmental web site.

Accelerated Option Requirements

While undergraduate students, accelerated master's students will be required to complete two master's courses to be applied to the undergraduate degree as upper level credit. These two courses must be selected from the following five courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 535</td>
<td>Survey of Applied Econometrics</td>
<td></td>
</tr>
<tr>
<td>ECON 611</td>
<td>Microeconomic Theory</td>
<td></td>
</tr>
<tr>
<td>ECON 612</td>
<td>Microeconomic Theory II</td>
<td></td>
</tr>
<tr>
<td>ECON 615</td>
<td>Macroeconomic Theory</td>
<td></td>
</tr>
<tr>
<td>ECON 630</td>
<td>Mathematical Economics I</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 6

Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all coursework and earn a grade of B or better (3.00 or higher) in coursework applied to their major. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/ Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

While undergraduate students, accelerated master's students may take an additional two master's courses as reserve graduate credit. These two additional master's courses must be selected from the following five courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ECON 535</td>
<td>Survey of Applied Econometrics</td>
<td></td>
</tr>
<tr>
<td>ECON 611</td>
<td>Microeconomic Theory</td>
<td></td>
</tr>
<tr>
<td>ECON 612</td>
<td>Microeconomic Theory II</td>
<td></td>
</tr>
<tr>
<td>ECON 615</td>
<td>Macroeconomic Theory</td>
<td></td>
</tr>
<tr>
<td>ECON 630</td>
<td>Mathematical Economics I</td>
<td></td>
</tr>
</tbody>
</table>

Total Credits 6

These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/ Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only
to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

**BS (selected)/Statistical Science, Accelerated MS**

**Overview**

Highly-qualified students in BS programs have the option of applying to the accelerated Statistical Science, MS (p. 1141) program.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 93). For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

**Admission Requirements**

No specific undergraduate BS degree is required. Students enrolled in any BS degree may apply to the accelerated Statistical Science, MS (p. 1141) program if such an accelerated Statistical Science, MS pathway is allowable from the student's BS program, which will be determined by the academic advisors of both the BS and MS programs; and if they have earned 90 undergraduate credits with an overall GPA of 3.00. Students must have successfully completed the following Mason courses each with a grade of C or better prior to admission to the accelerated program:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 213</td>
<td>Analytic Geometry and Calculus III</td>
<td>3</td>
</tr>
<tr>
<td>MATH 203</td>
<td>Linear Algebra</td>
<td>3</td>
</tr>
<tr>
<td>or MATH 321</td>
<td>Abstract Algebra</td>
<td></td>
</tr>
<tr>
<td>STAT 250</td>
<td>Introductory Statistics I (Mason Core) (p. 142)</td>
<td>3</td>
</tr>
<tr>
<td>or STAT 344</td>
<td>Probability and Statistics for Engineers and Scientists</td>
<td></td>
</tr>
<tr>
<td>STAT 346</td>
<td>Probability for Engineers</td>
<td>3</td>
</tr>
<tr>
<td>or MATH 351</td>
<td>Probability</td>
<td></td>
</tr>
<tr>
<td>STAT 362</td>
<td>Introduction to Computer Statistical Packages</td>
<td>3</td>
</tr>
</tbody>
</table>

**Accelerated Option Requirements**

Students must complete all credits satisfying degree requirements for the BS and MS programs, with 6 credits overlap chosen from the following courses: STAT 515 Applied Statistics and Visualization for Analytics, STAT 544 Applied Probability, STAT 554 Applied Statistics I, STAT 560 Biostatistical Methods, and STAT 574 Survey Sampling I. (Credit may not be received for both STAT 474 and STAT 574; nor for both STAT 460 and STAT 560.) The graduate courses selected for overlap must be approved by the academic advisors of both the BS and MS programs. All graduate course prerequisites must be completed prior to enrollment. Each graduate course must be completed with a grade of B or better to apply toward the MS degree.

While still in undergraduate status, a maximum of 6 additional graduate credits may be taken as reserve graduate credit and applied to the master’s program. Reserve graduate credits do not apply to the undergraduate degree.

**Degree Conferral**

Students must apply the semester before they expect to complete the BS requirements to have the BS degree conferred. In addition, at the beginning of the student’s final undergraduate semester, students must complete a Bachelor's/Accelerated Master's Transition form that is submitted to the Office of the University Registrar and Graduate Recruitment and Enrollment Services. At the completion of MS requirements, a master's degree is conferred.

**Economics Minor**

Banner Code: ECON

Academic Advising

D150 Buchanan Hall
Fairfax Campus

Website: economics.gmu.edu/programs/la-minor-econ-econ

Economics is an essential tool for understanding the complexities of modern society. Economics analyzes how people with limited resources make choices and how we might make better choices. A minor in economics is an extremely flexible and marketable choice. Whether a student’s primary interest is in business, communications, policy, data management, international studies, or engineering, a minor in economics provides an additional edge in the workplace.

**Admissions & Policies**

**Policies**

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 90).

**Requirements**

**Minor Requirements**

Total credits: 21

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 356) tab.

Economics, MA
Banner Code: LA-MA-ECON

Academic Advising
D150 Buchanan Hall
Fairfax Campus
Email: econgrad@gmu.edu
Website: economics.gmu.edu/programs/la-ma-econ

The master of arts in economics is noted for its emphasis on comparative institutional analysis and its concentration on the relationships among economic, political, and legal institutions. The specific areas associated with the department include experimental economics, Austrian economics, public choice, constitutional political economy, law and economics, and new institutional economics. The program strengthens students’ knowledge of economic theory and improves their skills in applying the theory to economic problems. Graduates are qualified to read and judge other research and conduct their own, either individually or as members of government or business teams. They are also prepared to write policy analyses. Students who plan to pursue a PhD in economics should apply directly to the doctoral program.

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the MA in economics, see Application Requirements and Deadlines (http://economics.gmu.edu/programs/application/LA-MA-ECON) on the departmental website.

Policies
Students must earn a minimum GPA of 3.00 in coursework applied to the degree. No more than two courses with a grade of 2.00 may be applied toward the degree.

For policies governing all graduate degrees, see AP .6 Graduate Policies (p. 90)

Transfer Credits
Students may request to transfer a maximum of 12 credits for prior graduate course work (not applied to a previous graduate degree) subject to approval by the graduate director and dean in accordance with the Program Policies of the department and AP.6.5.3 Transfer of Credit (p. 92).

Reduction of Credit
This program does not permit a reduction of credit based on a previously conferred graduate degree.

Requirements

Degree Requirements
Total credits: 30

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 357) tab.

Core Courses
In place of core courses shown below, students admitted to the PhD in economics who have added the MA as a secondary degree to their record must substitute ECON 637 Econometrics I, ECON 811 Microeconomic Theory I, ECON 812 Microeconomic Theory II, ECON 715 Macroeconomic Theory I, and ECON 830 Mathematical Economics I or ECON 831 Mathematical Economics II.

<table>

</tbody>
</table>

1 Students may substitute up to a maximum of 6 credits or two courses outside economics in closely related fields with prior written approval of the MA director.

Students have the option of writing a thesis for 6 credits in lieu of 6 credits of electives.

Students admitted to the PhD in economics who have added the MA as a secondary degree to their record must apply ECON 816 Macroeconomic Theory II as one of the five electives applied to the MA degree.

Comprehensive Exam
Students must pass one MA comprehensive exam in applied economic theory. This exam is offered twice each year. Students admitted to the PhD in economics who are seeking the MA as a secondary degree must pass both the PhD micro and the PhD macro qualifying exams, which will satisfy the requirement for the MA comprehensive exam.

Thesis (Optional)
Once enrolled in ECON 799 Master's Thesis, students are required to maintain continuous registration until the thesis is submitted to and
accepted by the University Libraries. The continuous registration policy is specified in AP.6.9.3 Master’s Thesis (p. 95).

Students who choose to complete a thesis take six fewer elective credits.

Accelerated Master’s

**Economics, BA or BS/Economics, Accelerated MA**

**Overview**
Highly-qualified Mason economics majors may apply to the accelerated master’s degree program. If accepted, students will be able to earn both a BA (p. 346) or BS (p. 351) and a M (p. 357) in economics after satisfactory completion of 144 credits. Graduates are exceptionally well-prepared for professional school or a PhD program in economics or a related discipline.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

**Application Requirements**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MA in economics, see Application Requirements and Deadlines (http://economics.gmu.edu/programs/application/LA-MA-ACEL-ECON) on the departmental web site.

**Accelerated Option Requirements**
While undergraduate students, accelerated master’s students will be required to complete two master’s courses to be applied to the undergraduate degree as upper level credit. These two courses must be selected from the following five courses:

<table>
<thead>
<tr>

**Total Credits** 6

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**
While undergraduate students, accelerated master’s students may take an additional two master’s courses as reserve graduate credit. These two additional master’s courses must be selected from the following five courses:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

<td></td>
</tr>
</tbody>
</table>

**Total Credits** 6

These credits do not apply to the undergraduate degree. To apply these credits to the master’s degree, students should use the Bachelor’s/Accelerated Master’s Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

**Economics, PhD**

**Banner Code:** LA-PHD-ECON

**Academic Advising**
D150 Buchanan Hall
Fairfax Campus

Email: econgrad@gmu.edu
Website: economics.gmu.edu/programs/la-phd-econ

The economics PhD prepares students for careers in academia, business, and government. Core courses train students in modern theory and quantitative techniques, while field courses stress the application of theory to relevant economic problems. Dissertation work requires students to master and apply the skills of original research. With an emphasis on writing for publication, many students have had articles accepted and published in professional journals while in the graduate program. Research in the department covers a broad spectrum, from problems of immediate policy importance to fundamental questions of economic and social organization.

**Admissions & Policies**

**Admissions**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information
specific to the PhD in economics, see Application Requirements and Deadlines (http://economics.gmu.edu/programs/application/LA-PHD-ECON) on the departmental web site.

Policies
Students must earn a minimum GPA of 3.00 in coursework applied to the degree. No more than two courses with a grade of 2.00 may be applied toward the degree.

For policies governing all graduate degrees, see AP .6 Graduate Policies (p. 90).

Reduction of Credit
Students who enter with a master’s degree may have their credit requirement reduced by up to 30 credits, depending on the department’s judgment about the degree of closeness of that work to work that would have been taken at George Mason University. Reduction also requires approval of the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

Program of Study
All students must have an approved program of study as specified in AP.6.10 Requirements for Doctoral Degrees (p. 96).

Requirements

Degree Requirements
Total credits: 72

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 358) tab.

Total Credits 30-42

Field Exams
Students must successfully pass field exams in two knowledge areas. Subject to course availability, the department offers courses in the following fields of study on which the knowledge area field exams will be based. Because the specific courses offered each year vary, students should consult the department for the courses that can be used for each field.

- Austrian economics
- Constitutional political economy
- Economic history
- Economic sociology
- Experimental economics
- Industrial organization
- Individualized field exam
- Institutions and development
- Law and economics
- Monetary theory
- Public choice
- Smithian political economy

Advancement to Candidacy
To advance to candidacy, students must complete all course work required on their approved program of study and all exams. In addition, students must have a dissertation committee appointed by the dean as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean's Office before a student can advance to candidacy.

Dissertation
Once enrolled in 998, students in the economics doctoral program must maintain continuous registration in 998 or 999 each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in 999, students must follow the university’s continuous registration policy as specified in AP.6.10.6 Dissertation Registration (p. 98). Students who defend in the summer must be registered for at least 1 credit of 999.

Students must complete a minimum of 3 credits of 999. They may apply a minimum of 12 and a maximum of 24 dissertation credits (998 and 999 combined) to the degree.

Department of English
B413 Robinson Hall
Fairfax Campus
Phone: 703-993-1160
Website: english.gmu.edu

1 Students may substitute up to a maximum of 6 credits of courses outside economics in closely related fields with prior written approval of the director of the graduate program. ECON 695 Special Topics in Economics cannot be applied toward PhD requirements.
Undergraduate Programs

The department offers a bachelor's of arts degree in English and a bachelor of fine arts degree in creative writing.

English, BA

The bachelor's of arts degree in English is a versatile major with seven concentrations designed to meet students' individual interests and career objectives. English majors can also do an internship in technical writing or linguistics. Students interested in becoming teachers can participate in a program offered in conjunction with the College of Education and Human Development (p. 161) that allows undergraduates to simultaneously complete their BA in English and their licensure requirements to teach English at the secondary school level in Virginia.

English majors learn to read critically and write carefully in classes that are uniquely small for a university the size of Mason. Students develop these abilities not only through reading traditional texts but also through the use of technologies such as blogs, wikis, and multimedia production. Because English majors have excellent skills in written and oral communication, research, critical thinking, and focused creativity they are well prepared for any career - teaching, journalism, creative writing, management, law, and more.

Creative Writing, BFA

The bachelor of fine arts degree in creative writing encourages freedom of thought, speech, and inquiry. Through its innovative courses, the program enables students to exercise analytical and imaginative thinking. Through its combined classroom and work-world curriculum, it prepares students to make well-founded ethical decisions. The degree offers three concentrations allowing for the opportunity to learn the conventions of several genres.

300-level courses in English and linguistics teach the foundational principles for a field of study, include courses of broad scope, and provide an introduction to a genre, literary period, or methodology.

400-level courses in English and linguistics provide an in-depth approach to a field of study, a single genre, literary period, or methodology. They include special topics classes and English honors classes. Some 400-level courses require ENGH 305 Dimensions of Writing and Literature as a prerequisite.

English with a Second Major

Students can combine a major in English with a second major. Students interested in this option are encouraged to discuss their plans with their English advisor. See section AP 5.3.7 Credit for More Than One Undergraduate Major in Undergraduate Policies (p. 90).

Minors

The department offers a minor in English, which is available to students in any major at Mason.

Faculty from English coordinate or co-coordinate the minors: Film and Media Studies, Folklore and Mythology, Linguistics, Native American and Indigenous Studies, Professional and Technical Writing, and Teaching English as a Second Language.

Bachelor's/Accelerated Master's Program

The department offers highly qualified undergraduates in any major the opportunity to apply to an accelerated master's of arts degree program in English with a concentration in linguistics (https://catalog.gmu.edu/colleges-schools/humanities-social-sciences/english/english-ma/ #acceleratedmasterstext). If accepted, students will be able to earn an undergraduate degree in their chosen major and a graduate degree in English with a concentration in linguistics after satisfactory completion of 144 credits, generally within five years.

Undergraduates in Graduate Courses

The English Department permits qualified undergraduates to enroll in its graduate courses numbered 500 through 699. They may apply these credits to their undergraduate degree or mark them for reserve graduate credit. See the department for details on how to register.

Graduate Programs

The department offers graduate programs in the study and practice of literature, writing, rhetoric, and linguistics, as well as course work in related fields such as folklore, film, and cultural studies. The master's of arts degree in English provides concentrations in literature, cultural studies, professional writing and rhetoric, the teaching of writing and literature, and linguistics. The department also has a terminal degree, the master of fine arts in creative writing, with concentrations in fiction, poetry, and nonfiction. Also offered are doctoral programs in linguistics and writing and rhetoric.

The department offers graduate certificates in folklore studies, professional writing and editing with a concentration in professional and technical writing, college teaching with a concentration in English pedagogy, and teaching English as a second language. Students may take these as stand-alone certificates or pursue them concurrently with a graduate degree program. In many cases part of the course work for a certificate may also count toward a degree. Students must apply and be admitted to a graduate certificate program.

Faculty from the department coordinate the concentration in folklore studies in the master's degree in interdisciplinary studies (MAIS) (p. 543).

Funding

The department offers teaching assistantships and fellowships awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must show satisfactory progress toward their degree.

Writing Center

The Writing Center (http://writingcenter.gmu.edu) offers one-on-one conferencing during all stages of the writing process. Writing Center tutors, who are graduate teaching assistants in the English Department, have been trained in current methods of composition instruction. They help clients overcome writing anxiety, develop organizational and revision skills, and learn useful strategies for editing their own work. To learn more about the Writing Center services or to schedule an appointment, students should consult the Writing Center website (http://writingcenter.gmu.edu).

Northern Virginia Writing Project

The Northern Virginia Writing Project (NVWP) (http://nvwtp.org) is a professional development organization dedicated to improving writing instruction, writing practice, and learning at all educational levels, and to developing teacher leaders across the disciplines.

Each summer, selected teachers attend an intensive four-week institute where they demonstrate successful teaching methods, develop their own writing lives, and study the latest research and theory on the learning and teaching of writing. After the summer institute, participants receive
the designation of Teacher Consultant and join over 900 other teachers in carrying out the work of the NVWP. The NVWP is an affiliate of the National Writing Project and one of the six sites of the Virginia Writing Project.

**College Teaching Graduate Certificate (ENGL)**

**Banner Code:** LA-CERG-CTCH

**Academic Advising**
B413 Robinson Hall
Fairfax Campus

The certificate in College Teaching is designed for graduate students who are planning a career in undergraduate education. The program offers courses that enhance pedagogical skills and explore pedagogical assessment or scholarship with the use of technology in instruction.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/College_Teaching/Gedt.html).

**Admissions & Policies**

**Admissions**
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68).

**Policies**
For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

**Concentration in English Pedagogy**
This concentration in the graduate certificate in college teaching requires 18 credits. Students must achieve a minimum grade of 3.00 in each course.

**Concentration in Higher Education Pedagogy**
This concentration in the graduate certificate in college teaching requires 18 credits.

**Requirements**

**Certificate Requirements**

Total credits: 18

This certificate may be pursued on a full-or part-time basis.
Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.

Students pursuing this graduate certificate must choose either a concentration in English pedagogy or a concentration in higher education pedagogy.

**Electives**

Electives must be chosen in consultation with the HEP Director and are selected from any HE course. (p. 1813)

**Creative Writing, BFA**

Banner Code: LA-BFA-CW

The Bachelor of Fine Arts in Creative Writing is one of only thirty BFAs in creative writing available nationwide. With three concentrations to choose from (fiction, poetry, nonfiction) the BFA is structured to give students ample opportunity to learn to write and think creatively while also developing the vocational writing skills that are desperately needed in the workplace. All students pursuing a BFA are strongly advised to complete on-site workplace internships in writing-intensive environments, and finish the degree with a submission of a portfolio of work as part of a final-semester capstone course, with final approval from the faculty.

**Admissions & Policies**

**Admissions**

Acceptance into the program is competitive. Admission to the university does not guarantee admission to the BFA program.

After acceptance to Mason, students who wish to pursue a major in creative writing should inform the academic coordinator in the English department or the director of the creative writing program of their interest in the program and seek evaluation of any prior coursework as well as guidance on courses to take and the sequence in which to take them. In the program, students enroll in a series of courses intended to introduce them to all forms of creative writing, and then they select a core set of courses built around a specialization in fiction, nonfiction or poetry, along with upper-level writing, literature and advanced studies courses.

Students planning to enter the BFA program are initially designated as "pre-BFA" until they have successfully completed the requirements for full admission. Full admission requires a minimum of three creative writing courses successfully completed with a grade point average (GPA) of 3.00 or higher in those courses. Alternatively, students who have taken creative writing courses at another institution or in their early undergraduate coursework at Mason may gain full admission status to the BFA program on the strength of recommendations from the instructors in those courses, subject to departmental approval, which is obtained from the Mason creative writing faculty and the director of the creative writing program.

A student admitted to the university and intending to enter the BFA program may designate a major in English and complete English major courses before attempting to move into admitted BFA status. Meeting minimum requirements does not guarantee admission to full BFA status.

**Policies**

For policies governing all undergraduate degrees, see AP 5 Undergraduate Policies (p. 87).

Students pursuing this degree must complete 45 credits (15 courses) in English/Linguistics beyond ENGH 300 Cover to Cover (not including ENGH 302 Advanced Composition (Mason Core) (p. 142)) with a minimum GPA of 2.00.

At the discretion of the department, transfer students may substitute transferred lower level creative writing classes for some BFA requirements. With permission of the department, BFA students may
select a substitute for concentration required coursework from the list of courses approved for the writing or literature elective requirement. Substitutions must be justified as specifically relevant to the student’s study. Substitutions will not satisfy more than one requirement within the major.

**Requirements**

**Degree Requirements**

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 362) tab.

Students will complete 21 credits of BFA core requirements, 12 credits from one of 3 concentrations, and 12 credits in English department requirements. 300-level courses in English and linguistics teach the foundational principles for a field of study, include courses of broad scope, and provide an introduction to a genre, literary period, or methodology. 400-level courses in English and linguistics provide an in-depth approach to a field of study, a single genre, literary period, or methodology. They include special topics classes and English honors classes. Some 400-level courses require ENGH 305 Dimensions of Writing and Literature as a prerequisite.

Students should consult with an English department advisor to learn ways in which the Mason Core (p. 142) requirements can also satisfy college-level requirements or the BFA.

**Total Credits:** 12

**Writing-Intensive Requirement**

The university requires all students to complete at least one course designated “writing intensive” in their majors at the 300 level or above. Students majoring in creative writing may fulfill this requirement by successfully completing ENGH 305 Dimensions of Writing and Literature.

**Upper Level Requirement**

Students seeking a bachelor’s degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

**Additional Electives**

Any remaining credits may be completed with elective courses to bring the degree total to 120.

**College Level Requirements for the BA Degree**

In addition to the Mason Core (p. 142) program, students pursuing a BA degree must complete the coursework below. Except where expressly
prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 142) requirements or requirements for the major).

**Philosophy or Religious Studies**

1 Note that the following courses may not be used to fulfill this requirement:
- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 142) and RELI 235 Religion and Literature (Mason Core) (p. 142) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 147) requirement.

**Social and Behavioral Sciences**

Or choose from the following GGS courses:
- GGS 101 Major World Regions (Mason Core) (p. 142)
- GGS 103 Human Geography (Mason Core) (p. 142)
- GGS 110 Introduction to Geoinformation Technologies
- GGS 301 Political Geography
- GGS 303 Geography of Resource Conservation (Mason Core) (p. 142)
- GGS 304 Population Geography (Mason Core) (p. 142)
- GGS 305 Economic Geography
- GGS 306 Urban Geography
- GGS 315 Geography of the United States
- GGS 316 Geography of Latin America
- GGS 320 Geography of Europe
- GGS 325 Geography of North Africa and the Middle East
- GGS 330 Geography of the Soviet Succession States

The two courses used to fulfill the combined college and Mason Core (p. 142) requirements must be from different disciplines in the social and behavioral sciences.

2 HIST 100 History of Western Civilization (Mason Core) (p. 142) and HIST 125 Introduction to World History (Mason Core) (p. 142) may not be used to fulfill this requirement.

Intermediate-level proficiency in one foreign language, fulfilled by:

1 Completing a course in a foreign language numbered 202 (or higher level courses taught in the language) (p. 424)

Or achieving a satisfactory score on an approved proficiency test

Or completing the following ASL three course sequence:
- EDSE 115 American Sign Language (ASL) I
- EDSE 116 American Sign Language (ASL) II
- EDSE 219 American Sign Language (ASL) III

1 Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

**Non-Western Culture**

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

1 A course used to fulfill the Mason Core global understanding (p. 146) requirement may not be simultaneously used to satisfy this college-level requirement. A course used to fulfill this requirement may be used simultaneously to fulfill any other requirements (Mason Core requirements, college-level requirements, or requirements for the major). Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

Mason Core
Some Mason Core (p. 142) requirements may already be fulfilled by the major requirements listed above. Students are strongly encouraged to consult their advisors to ensure they fulfill all remaining Mason Core (p. 142) requirements.

1 Most programs include the writing-intensive course designated for the major as part of the major requirements; this course is therefore not counted towards the total required for Mason Core.

Honors

Honors in the Major
Highly qualified students in the BFA in Creative Writing (p. 362) program may pursue advanced work leading to graduation with honors in the major. To graduate with honors in the major, students must complete a two-course honors sequence and receive a minimum GPA of 3.50 in all courses counted toward the major and, separately, a minimum GPA of 3.50 in their honors courses. Honors courses may simultaneously satisfy concentration and distribution requirements in the major.

Students may satisfy the honors course sequence in one of the following ways:

- BFA students may take two sections of ENGH 400 Honors Seminar
- BFA students may take one section of ENGH 400 Honors Seminar and ENGH 401 RS: Honors Thesis Writing Seminar (Mason Core) (p. 142)

BFA students may write a creative honors thesis in ENGH 401 RS: Honors Thesis Writing Seminar (Mason Core) (p. 142). BFA students may substitute ENGH 495 Capstone and Thesis (Mason Core) (p. 142) for ENGH 401.

Students interested in pursuing honors in the major should consult the English Department (p. 359) for more information.

Accelerated Master’s

English, BA or Creative Writing, BFA/Curriculum and Instruction, Accelerated MEd (Secondary Education English concentration)

Overview
Highly-qualified Mason undergraduates may be admitted to the bachelor’s/accelerated master’s option and obtain both a BA in English (p. 370) or a BFA in Creative Writing (p. 362) and an MEd in Curriculum and Instruction (p. 170) (concentration in secondary education English) in an accelerated time-frame after satisfactory completion of 149 credits. See AP6.7 Bachelor’s/Accelerated Master’s Degree (p. 93) for policies related to this program.

This accelerated option is offered jointly by the Department of English (p. 359) and the Graduate School of Education (p. 162).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).
Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 68). For information specific to this accelerated master’s program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

Accelerated Option Requirements
Students complete the following courses in their senior year:

<table>
<thead>
<tr>
<th>Senior</th>
<th>Fall Semester</th>
<th>Credits</th>
<th>Spring Semester</th>

<td></td>
<td></td>
</tr>
</tbody>
</table>

While undergraduate students, accelerated master’s students are able to apply two of the courses listed above to both the bachelor’s and master’s degrees. These courses are considered advanced standing for the MEd. A minimum grade of B must be earned to be eligible to count as advanced standing. The other two courses are taken as reserve graduate credit and do not apply to the undergraduate degree. Early in their final undergraduate semester, students must submit the Bachelor’s/Accelerated Master’s Transition Form to the CEHD Admissions Office and specify which of the four courses are to be designated as advanced standing and reserve graduate credit.

Creative Writing, MFA
Banner Code: LA-MFA-CW

Academic Advising
B413 Robinson Hall
Fairfax Campus

Email: englgrad@gmu.edu
Website: creativewriting.gmu.edu/programs/la-mfa-cw

The MFA in creative writing is a three-year residency program offering tracks in fiction, nonfiction, and poetry. Students in the program are members of a literary community that includes a student-organized program of readings, potluck dinners with faculty, three journals, a student-run publisher—Stillhouse Press—and the annual Fall for the Book literary festival. Resident faculty members include recipients of prestigious writing awards such as the Guggenheim Foundation, the Yale Series of Younger Poets, the Lannan Foundation, the Whiting Foundation and the National Endowment for the Arts, among others.

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the MFA in creative writing, see Application Requirements and Deadlines (http://english.gmu.edu/programs/application/LA-MFA-CW) on the departmental website.

Policies
For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

Reduction of Credit
With the approval of the MFA faculty, the program director, and the dean, the number of credits required for an MFA may be reduced by a maximum of 23 credits on the basis of graduate course work before admission.

Requirements

Degree Requirements
Total credits: 48

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 368) tab.

1 The number of electives will vary according to the number of literature courses and workshops that students take.

Exam or Project

Poetry Concentration

Students in poetry must pass a written MFA exam based on the authors they have chosen. The authors are selected in collaboration with the writing faculty any time after completing 12 credits of course work and before completing 32 credits. The exam must be completed at least one semester before the student registers for the final 3 credits of thesis.

Fiction and Nonfiction Concentration

Students in fiction and nonfiction writing must pass an MFA exam or complete an MFA project.

Students who elect to take the MFA exam select, after the completion of 18 credits and with the approval of their faculty advisors, a list of authors and an area of emphasis (for example, the European novel). Students who elect to complete an MFA project (such as editing an anthology) must carry out the project under the direction of a faculty member and may register for ENGH 798 Directed Reading and Research to fulfill this requirement. The project must be completed at least one semester before the student registers for the final 3 credits of thesis.

Digital Media and Web Design Minor (CHSS)

Banner Code: DMWD

Academic Advising

B413 Robinson Hall
Fairfax Campus

Email: english@gmu.edu
Website: english.gmu.edu/programs/

This minor provides students with opportunities to learn and apply advanced strategies for website design, content development, and user interaction and accessibility in website creation. Students interested in pursuing a career in digital media and web content design and management will develop a portfolio that demonstrates their skills, competencies and products produced throughout the minor.

Admissions & Policies

Policies

Eight credits of coursework must be unique to the minor and students must earn a minimum grade of 2.00 in all courses applied to the minor. For policies governing all minors, see AP.5.3.4 Minors (p. 90).

Requirements

Minor Requirements

Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 322) tab.

Thesis

ENGH 798 Directed Reading and Research may not be used as thesis preparation. Students who want to register for thesis credits in the summer need the permission of the thesis committee.

Students should be aware of the university policies governing theses. They must follow the thesis enrollment policy and once enrolled in ENGH 798 Thesis, maintain continuous enrollment. These policies are specified in AP.6.9.3 Master’s Thesis (p. 95).

English, BA

Banner Code: LA-BA-ENGL

B413 Robinson Hall
Fairfax Campus

Website: english.gmu.edu/programs/la-ba-engl

The bachelor of arts in English offers students the opportunity to study literature, creative writing, film and media studies, writing and rhetoric, linguistics, folklore and mytholgy, and cultural studies. Of these seven concentrations, students pursue one or two that best match their interests and career objectives. Students are encouraged to pursue internships related to their concentrations and receive faculty mentorship throughout that process. In fact, English classes are kept small so faculty members may provide students with personalized attention. Students write in a range of traditional and digital forms and in a variety of contexts; student work culminates in a research project written for the major capstone course in their concentration. For students who want to challenge themselves even further, there is an Honors Program in English, which includes a thesis option, as well as other opportunities to pursue advanced research or creative projects; for those who want to become teachers, there is a bachelor’s/accelerated master’s program (p. 183) that English offers in conjunction with the College of Education and Human Development.

Admissions & Policies

Policies

Students pursuing this degree must complete 36 credits in English/Linguistics beyond ENGH 300 (not including ENGH 302) with a minimum GPA of 2.00. At least 12 credits (including the capstone requirement) must be at the 400 level.

For policies governing all undergraduate degrees, see AP 5 Undergraduate Policies (p. 87).

Requirements

Degree Requirements

Total credits: minimum 120

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 370) tab.

300-level courses in English and linguistics teach the foundational principles for a field of study, include courses of broad scope, and provide an introduction to a genre, literary period, or methodology.

400-level courses in English and linguistics provide an in-depth approach to a field of study, a single genre, literary period, or methodology. They include special topics classes and English honors classes. Some 400 level courses require ENGH 305 Dimensions of Writing and Literature as a prerequisite.

Students choose at least one and no more than two of seven concentrations.

Students should consult with an English Department advisor to learn ways in which the Mason Core requirements can also satisfy college-level requirements for the English major.

Core Courses in the Major

Required Courses

**Writing Intensive Requirement**

The university requires all students to complete at least one course designated "writing intensive" in their majors at the 300 level or above. Students majoring in English fulfill this requirement by successfully completing:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGH 305</td>
<td>Dimensions of Writing and Literature</td>
<td>3</td>
</tr>
</tbody>
</table>

**Upper Level Courses**

Students seeking a bachelor's degree must apply at least 45 credits of upper-level courses (numbered 300 or above) toward graduation requirements.

**Additional Electives**

Any remaining credits may be completed with elective courses to bring the degree total to 120.

**College Level Requirements for the BA Degree**

In addition to the Mason Core (p. 142) program, students pursuing a BA degree must complete the coursework below. Except where expressly prohibited, a course used to fulfill a college level requirement may also be used simultaneously to satisfy other requirements (Mason Core (p. 142) requirements or requirements for the major).

**Philosophy or Religious Studies**

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Select 3 credits from the following:</td>
<td></td>
<td></td>
</tr>
<tr>
<td>PHIL</td>
<td>Writing Ethnography (Mason Core) (p. 142)</td>
<td>3</td>
</tr>
<tr>
<td>RELI</td>
<td>Writing Nonfiction for Publication (Mason Core) (p. 142)</td>
<td></td>
</tr>
</tbody>
</table>

**Concentration in Writing and Rhetoric (WRTR)**

Select four courses from the following:

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGH 375</td>
<td>Web Authoring and Design</td>
<td></td>
</tr>
<tr>
<td>ENGH 376</td>
<td>Rhetoric and New Media</td>
<td></td>
</tr>
<tr>
<td>ENGH 380</td>
<td>Introduction to Writing and Rhetoric</td>
<td></td>
</tr>
</tbody>
</table>

**Total Credits**

12
Note that the following courses may not be used to fulfill this requirement:
- PHIL 323 Classical Western Political Theory
- PHIL 324 Modern Western Political Theory
- PHIL 327 Contemporary Western Political Theory
- PHIL 393 Humanities College to Career
- PHIL 460 Senior Seminar in Philosophy, Politics, and Economics

Additionally, PHIL 253 Philosophy and Literature (Mason Core) (p. 142) and RELI 235 Religion and Literature (Mason Core) (p. 142) cannot be used to fulfill both the philosophy/religious studies requirement and the Mason Core literature (p. 147) requirement.

### Social and Behavioral Sciences

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>

</tbody>
</table>

Or choose from the following GGS courses:
- GGS 101 Major World Regions (Mason Core) (p. 142)
- GGS 103 Human Geography (Mason Core) (p. 142)
- GGS 110 Introduction to Geoinformation Technologies
- GGS 301 Political Geography
- GGS 303 Geography of Resource Conservation (Mason Core) (p. 142)
- GGS 304 Population Geography (Mason Core) (p. 142)
- GGS 305 Economic Geography
- GGS 306 Urban Geography
- GGS 315 Geography of the United States
- GGS 316 Geography of Latin America
- GGS 320 Geography of Europe
- GGS 325 Geography of North Africa and the Middle East
- GGS 330 Geography of the Soviet Succession States
- GGS 357 Urban Planning
- GGS 380 Geography of Virginia

1 The two courses used to fulfill the combined college and Mason Core (p. 142) requirements must be from different disciplines in the social and behavioral sciences.

2 HIST 100 History of Western Civilization (Mason Core) (p. 142) and HIST 125 Introduction to World History (Mason Core) (p. 142) may not be used to fulfill this requirement.

### Foreign Language

<table>
<thead>
<tr>
<th>Code</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Intermediate-level proficiency in one foreign language, fulfilled by:</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Completing a course in a foreign language numbered 202 (or higher level courses taught in the language) (p. 424)</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Or achieving a satisfactory score on an approved proficiency test</td>
<td></td>
</tr>
<tr>
<td></td>
<td>Or completing the following ASL three course sequence:</td>
<td></td>
</tr>
<tr>
<td>EDSE</td>
<td>American Sign Language (ASL) I</td>
<td></td>
</tr>
<tr>
<td>EDSE</td>
<td>American Sign Language (ASL) II</td>
<td></td>
</tr>
<tr>
<td>EDSE</td>
<td>American Sign Language (ASL) III</td>
<td></td>
</tr>
</tbody>
</table>

1 Students who are already proficient in a second language may be eligible for a waiver of this requirement. Additional information on waivers can be found at the Office of Undergraduate Academic Affairs (http://chssundergrad.gmu.edu).

### Non-Western Culture

Select 3 credits of an approved course in the study of a non-Western culture (additional to the Mason Core requirement in global understanding)

Students may satisfy the honors course sequence in one of the following ways:

- BA students may take two sections of ENGH 400 Honors Seminar
- BA students may take one section of ENGH 400 Honors Seminar and ENGH 401 RS: Honors Thesis Writing Seminar (Mason Core) (p. 142)

BA students with a concentration in creative writing may write a creative honors thesis in ENGH 401 RS: Honors Thesis Writing Seminar (Mason Core) (p. 142). In special cases, BA students with a concentration in creative writing may apply to the Honors Coordinator and ENGH 495 instructor for permission to use ENGH 495 as a substitute for ENGH 401.

Students interested in pursuing honors in the major should consult the English Department (p. 359) for more information.

### Accelerated Master's

The accelerated master's programs in the list below specify the BA in English as a feeder degree for their programs. It is important to note, however, that many accelerated master's programs are available for any bachelor's degree at Mason, including this one. See the full list of degrees (http://catalog.gmu.edu/programs/#filter=filter_24) with accelerated programs at George Mason. In addition, a student with a BA in English you may be particularly interested in the accelerated MA in English with a concentration in linguistics. (p. 382)

### English, BA or Creative Writing, BFA/ Curriculum and Instruction, Accelerated MEd (Secondary Education English concentration)

#### Overview

Highly-qualified Mason undergraduates may be admitted to the bachelor’s/accelerated master’s option and obtain both a BA in English (p. 370) or a BFA in Creative Writing (p. 362) and an MEd in Curriculum and Instruction (p. 170) (concentration in secondary education English) in an accelerated time-frame after satisfactory completion of 149 credits. See AP6.7 Bachelor’s/Accelerated Master’s Degree (p. 93) for policies related to this program.

This accelerated option is offered jointly by the Department of English (p. 359) and the Graduate School of Education (p. 162).

Students in an accelerated degree program must fulfill all university requirements for the master’s degree. For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

#### Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions Policies (p. 68). For information specific to this accelerated master’s program, see Application Requirements and Deadlines (https://cehd.gmu.edu/bachelors-accelerated-masters-program).

### Accelerated Option Requirements

Students complete the following courses in their senior year:
they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

</tbody>
</table>

Total Credits 6

As graduate students, accelerated master's students have an advanced standing. They must meet all master's degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master's program the semester immediately following conferral of the undergraduate degree.

**Reserve Graduate Credit**

Students may take up to 6 additional graduate credits as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

Total Credits 6

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

**Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Women and Gender Studies Concentration)**

**Overview**

Highly-qualified undergraduates in select majors may apply to the accelerated master's degree in interdisciplinary studies with a concentration in women and gender studies (p. 542). If accepted, and depending on their undergraduate major, students will be able to earn a bachelor's degree in their chosen major and a master's degree in interdisciplinary studies with a concentration in women and gender studies after satisfactory completion of 150 credits, sometime within five years.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 93). For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

**Selected Majors**

Anthropology (p. 497), Sociology (p. 507), English (p. 370), History (p. 394), Philosophy (p. 442), Conflict Analysis and Resolution (p. 938), Psychology (p. 461), Government and International Politics (p. 972), and Communication (p. 314).

**Application Requirements**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MAIS, see the departmental web site (http://mais.gmu.edu/programs/la-mais-isin/application).

**Accelerated Option Requirements**

While undergraduate students, accelerated master's students complete two graduate courses as indicated on their Accelerated Master's Program Application with a minimum grade of B in each course. Once admitted to the accelerated master's pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor's/Accelerated Master's Transition Form and are admitted to graduate status.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

**Bachelor's Degree (selected)/Interdisciplinary Studies, Accelerated MAIS (Social Justice and Human Rights Concentration)**

**Overview**

Highly-qualified undergraduates in select majors (listed below) may apply to the accelerated master's degree in interdisciplinary studies with a concentration in social justice and human rights (p. 542). If accepted, and depending on their undergraduate major, students will be able to earn an undergraduate degree in their chosen major and a master's degree in interdisciplinary studies with a concentration in social justice and human rights after satisfactory completion of 150 credits, sometime within five years.

For more detailed information, see AP.6.7 Bachelor's/Accelerated Master's Degrees (p. 93). For policies governing all graduate degrees, see AP6 Graduate Policies (p. 90).

**Selected Majors**

Anthropology (p. 497), Environmental and Sustainability Studies (p. 576), Sociology (p. 507), English (p. 370), History (p. 394), Philosophy (p. 442), Conflict Analysis and Resolution (p. 938), Psychology (p. 461), Government and International Politics (p. 972), and Communication (p. 314).
Application Requirements

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MAIS, see Application Requirements and Deadlines (http://mais.gmu.edu/programs/la-mais-isin/application) on the departmental web site.

Accelerated Option Requirements

While undergraduate students, accelerated master's students complete INTS 540 Contemporary Issues in Social Justice Human Rights and one course chosen from the list of electives for the MAIS concentration in social justice and human rights as indicated on their Accelerated Master’s Program Application with a minimum grade of B in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/ Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students must begin their master’s program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit

Students may take up to 6 additional graduate credits as reserve graduate credit (chosen from the list of electives for the MAIS concentration in social justice and human rights). These credits do not apply to the undergraduate degree. The ability to take courses for reserve graduate credit is available to all high achieving undergraduates with the permission of the program. Permission to take a graduate course for reserve graduate credit is normally granted only to Mason seniors within 15 hours of graduation. See AP .1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

English Minor

Banner Code: ENGL

Academic Advising

B413 Robinson Hall
Fairfax Campus

Website: english.gmu.edu/programs/la-minor-engl-engl

This minor provides students with a strong background in writing and critical thinking and will also introduce them to significant literary and cultural documents.
English, MA

Banner Code: LA-MA-ENGL

Academic Advising
B413 Robinson Hall
Fairfax Campus
Email: englgrad@gmu.edu
Website: english.gmu.edu/programs/la-ma-engl

The master of arts in English at Mason offers students the opportunity to enhance their skills of reading, writing, research and teaching with courses that encompass the wide range of contemporary English studies. Students can work in and across concentrations in literature, professional writing, rhetoric, cultural studies, film, folklore, linguistics, and the teaching of writing and literature. It offers the MA in field-specific concentrations as well as the opportunity to combine a concentration in one field with a certificate from another one. Many students use the MA for professional enhancement, or as an entry into teaching, professional writing, or doctoral study.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the MA in English, see Application Requirements and Deadlines [http://english.gmu.edu/programs/application/LA-MA-ENGL] on the departmental website.

Policies

For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

Satisfactory Progress

Students have six years to complete the MA. Students writing a thesis must have an approved proposal by the end of their fifth year as an MA candidate in English and may not make significant changes to that proposal during their sixth year. By the end of the first semester of their sixth year, thesis students need to demonstrate that they have completed their research and are well advanced in developing their analysis and argument, generally by submitting to their advisors a completed rough draft of the thesis or evidence that they have completed their fieldwork and analysis. A student may be dropped from the program if, in the judgment of the thesis advisor and graduate director, evidence of satisfactory progress on the thesis has not been provided by the end of the first semester of a student’s sixth year.

Requirements

Degree Requirements

Total credits: 30

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 380) tab.

Students pursuing this degree must successfully complete 30 credits in one concentration as specified below.

Students in the concentrations of cultural studies, literature, and teaching of writing and literature must demonstrate intermediate proficiency in a foreign language in one of the following ways: submitting an undergraduate (or continuing education) transcript that includes courses corresponding to intermediate proficiency; completing a Mason foreign language course numbered 202 or higher; passing a proficiency exam administered by the English department.

Concentration in Cultural Studies (CULT)

<table>
<thead>
<tr>

<td>Introduction to Cultural Studies</td>
<td>3</td>
</tr>
<tr>
<td>CULT 802</td>
<td>Histories of Cultural Studies</td>
<td>3</td>
</tr>
</tbody>
</table>

Two Courses

Select 6 credits from the following: 6

- ENGH 551 Introduction to Literary Theory
- ENGH 665 Seminar in Global Culture
- ENGH 670 Seminar in Film and Media Studies
- ENGH 675 Feminist Theory and Criticism
- ENGH 685 Selected Topics, Movements, or Genres of Literature in English
- ENGH 705 Literary Theory and Criticism
- ENGH 740 Seminar in English/Cultural Studies

Three to Five Courses of Literature

Select 9-15 credits from the following: 9-15

- ENGH 511 Graduate Literature Survey
- ENGH 513 Topics in Literary and Cultural Studies
- ENGH 514 Theories of Comparative Literature
- ENGH 526 Special Topics in the History and Criticism of Children’s Literature
- ENGH 530 Graduate Survey in African American Literature
- ENGH 590 Topics in Folk Narrative
- ENGH 591 Topics in Folklore Studies
- ENGH 642 Seminar in British Literature
- ENGH 644 Seminar in American Literature
- ENGH 646 Seminar in Advanced Research
- ENGH 661 Seminar in African-American Literature
- ENGH 662 Seminar in Literary Studies
- ENGH 665 Seminar in Global Culture
- ENGH 670 Seminar in Film and Media Studies
- ENGH 681 Advanced Topics in Folklore Studies
- ENGH 685 Selected Topics, Movements, or Genres of Literature in English
- ENGH 705 Literary Theory and Criticism
- ENGH 790 Projects in Literary Studies

Optional Project or Thesis

Select 3-6 credits of a project or a thesis from the following: 3-6

Project: 2
- ENGH 790 Projects in Literary Studies (3 credits)

Thesis: 3
ENGH 799 Thesis (6 credits)
Total Credits 30

1 ENGH 685 Selected Topics, Movements, or Genres of Literature in English, ENGH 705 Literary Theory and Criticism, and ENGH 740 Seminar in English/Cultural Studies may be repeated once with permission of the director of graduate studies.

2 Students who choose a project take 3 fewer credits of literature.
3 Students who choose a thesis take 6 fewer credits of literature.

Concentration in Linguistics (LING)
The linguistics concentration combines courses in linguistics with courses in some related area of language study, such as teaching English as a second language, bilingual education, or foreign language teaching. This course of study is designed to prepare students for teaching in one of these fields or for doctoral work. The certificate in teaching English as a second language (TESL) (p. 390) can be earned concurrently.

**Electives**
Select 12 credits of electives

Total Credits 30

1 In consultation with an advisor, chosen from courses that reflect one or more areas of language study. Electives can be in such areas as linguistics, the teaching of reading or writing, literary criticism, bilingual education, or a foreign language, and may include 6 credits of thesis.

Concentration in Literature (LIT)
The concentration in literature is designed to provide students with a solid foundation in the study of literature and literary theory, as well as an opportunity to specialize in a particular area of interest.

**Two Electives or Thesis**
Select 6 credits of Electives

ENGH 799 Thesis

Total Credits 30

1 Must be taken in the first 12 credits of the degree. Another course in literary theory and criticism may substitute for ENGH 551 Introduction to Literary Theory with prior written approval of the graduate director.

2 Courses fulfilling this requirement must include at least three 600-level ENGH seminars. Graduate seminars involve focused study of a topic with significant attention to scholarship in the field.

3 Electives taught within the English department may be taken without permission of the graduate director. A maximum of six credits of related study outside the department may substitute for the equivalent number of elective credits, with permission of the graduate director.

4 Students who choose a thesis take 6 fewer credits of literature or electives.

Concentration in Professional Writing and Rhetoric (PWR)

1. Offered only to full-time teachers through school district contracts.
2. NVWP Summer Institute, open to full-time teachers on an invitation basis.
3. Open to non-TAs in the spring semester.
4. Note all courses, with exception of LING 520 Introduction to Linguistics, have prerequisites.

Accelerated Master’s

Bachelor’s Degree (any)/English, Accelerated MA (Linguistics Concentration)

Overview
Highly qualified Mason undergraduates in any major may apply to the accelerated master’s degree in English with a concentration in linguistics. If accepted, students will be able to earn a BA in their chosen major and an MA in English with a concentration in linguistics after satisfactory completion of 144 credits.

For more detailed information, see AP.6.7 Bachelor’s/Accelerated Master’s Degrees (p. 93). For policies governing all graduate degrees, see AP.6 Graduate Policies (p. 90).

Application Requirements
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the accelerated MA in English (linguistics concentration), see Application Requirements and Deadlines (http://english.gmu.edu/programs/application/LA-MA-ENGL) on the departmental website.

Accelerated Option Requirements
While undergraduate students, accelerated master’s students complete two graduate courses (chosen from LING 690 Generative Phonology, LING 580 First Language Acquisition, LING 692 Phonology II) as indicated on their Accelerated Master’s Program Application with a minimum grade of 3.00 in each course. Once admitted to the accelerated master’s pathway, students must maintain a minimum cumulative GPA of 3.25 in all course work. Upon completion and conferral of the undergraduate degree in the semester indicated in the application, they submit the Bachelor’s/Accelerated Master’s Transition Form and are admitted to graduate status.

As graduate students, accelerated master’s students have an advanced standing. They must meet all master’s degree requirements except for the two courses (6 credits) they completed as undergraduates. Students
must begin their master's program the semester immediately following conferral of the undergraduate degree.

Reserve Graduate Credit
Students may take up to 6 additional credits of LING 500-level and 600-level courses as reserve graduate credit. These credits do not apply to the undergraduate degree. To apply these credits to the master's degree, students should use the Bachelor's/Accelerated Master's Transition Form.

The ability to take courses, including ones not listed above, for reserve graduate credit is available to all high achieving undergraduates with the permission of the department. Permission is normally granted only to qualified Mason seniors within 15 hours of graduation. See AP.1.4.4 Graduate Course Enrollment by Undergraduates (p. 79).

Phone: 703-993-2768
Website: english.gmu.edu/programs/la-minor-la-film

The interdisciplinary minor explores mass culture in its visual manifestations and helps students develop an informed awareness of culture and media, ideological tendencies, and effects on daily experience. Committed to interdisciplinary studies, the program addresses the increasing complexity and multiplicity of visual cultures and offers students the tools with which to read a variety of texts, including film, television, video, and new media.

Most coursework is offered through the Departments of Communication (p. 313) and English (p. 359), with other courses available through the Department of Modern and Classical Languages (p. 424) and the Film and Video Studies (p. 821) Program (p. 821). The two required courses provide an introduction to the languages of film and popular media and modes of analysis appropriate to each. They are prerequisites for all advanced work in the minor. Students select four additional courses designed to introduce a more specialized level of study. Students may decide to focus on film, television, or the study of mass culture, or they may choose some mix of courses that suits their interests.

Faculty
Cynthia Fuchs, Program Director
Thomas Britt, Film and Video Studies; Giovanna Chesler, Film and Video Studies; Julie Christensen, Modern and Classical Languages; Mark Cooley, Art and Visual Technology; Jeremy Freer, School of Music; Timothy Gibson, Communication; Carma Hinton, Robinson Professor; Alison Landsberg, History and Art History; Carla Marcantonio, English; David Miller, Communication; Janine Ricouart, Modern and Classical Languages; Jessica Scarlata, English; Benjamin Steger, Film and Video Studies; Gail Scott White, Art and Visual Technology; Martin Winkler, Modern and Classical Languages.

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 90).

Requirements

Minor Requirements
Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 383) tab.

Stories told in both sacred and secular contexts, along with festivals, foods, music, material objects, and other traditional art forms, continue to influence our lives. This interdisciplinary minor offers students tools to explore the compelling meanings within these seemingly simple, everyday cultural texts, and helps them become more aware of the ways these texts are used by individuals and institutions for various goals. Students study folklore and mythology by juxtaposing the multiple viewpoints of anthropology, art history, classical studies, literary studies, and religious studies.

Faculty
Burek, Dakake, Decaroli, Gatling (coordinator), Gilman, Lattanzi Shutika, Usher, Winkler

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. A course used to fulfill the 3 credits of literature required for Mason Core (p. 147) may not also be applied to the minor. To avoid duplication of courses, English majors who choose this minor may not select the English Department’s folklore and mythology concentration.

For policies governing all minors, see AP.5.3.4 Minors (p. 90).
**Folklore Studies Graduate Certificate**

**Banner Code:** LA-CERG-FLKS

**Academic Advising**
B413 Robinson Hall
Fairfax Campus
Website: english.gmu.edu/programs/la-cerg-flks

The certificate in folklore studies enables students to explore the processes of tradition that move through multiple expressive forms, such as folktales, folk beliefs, folk medicine, folk art, folksong, and literature. A discipline based on ethnographic fieldwork, folklore studies offers students a chance to work in communities and collect living traditional materials that are critical to human identity and values. Interdisciplinary by nature, folklore thrives on local particularities as well as compelling global connections.

This certificate prepares students for careers in cultural agencies, governmental organizations, and teaching institutions, and advanced study in folklore and in the humanities.

### Admissions & Policies

#### Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the graduate certificate in folklore studies, see Application Requirements and Deadlines (http://english.gmu.edu/programs/la-cerg-flks/application).

#### Requirements

**Certificate Requirements**

Total credits: 18

This certificate may be pursued on a full- or part-time basis.

### Linguistics Minor

**Banner Code:** LING

**Academic Advising**
B413 Robinson Hall
Fairfax Campus
Email: english@gmu.edu
Website: english.gmu.edu/programs/la-minor-la-ling

Linguistics is the scientific study of language. Language is studied descriptively, theoretically, computationally, psychologically, and as a social phenomenon. The field of linguistics thus informs and is informed by many other areas of study, including philosophy, psychology, sociology, computer science, the study of individual languages and literature, literary studies, and education.
This minor introduces the fundamental concepts of modern linguistic theory and explores how these concepts relate to various other disciplines.

**Faculty**

**Linguistics, PhD**

Banner Code: LA-PHD-LING

**Academic Advising**

B413 Robinson Hall
Fairfax Campus

Email: english@gmu.edu
Website: english.gmu.edu/programs/la-phd-ling

The PhD in linguistics trains students in the science of language. Students become specialists in the core areas of linguistics—phonology, syntax, and semantics—and learn to integrate this core with the study of second language acquisition. The program prepares students for positions in academia, industry, government, and a host of organizations concerned with language and second language acquisition. Graduates may become research and teaching professors, administrators of language-learning programs, and consultants in computational linguistic research.

**Admissions**

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68).

For specific information, see Application Requirements and Deadlines (http://linguistics.gmu.edu/programs/application/LA-PHD-LING).

**Policies**

For policies governing all graduate degrees, see Graduate Policies (p. 90).

**Reduction of Credit**

For students entering the doctoral program with a master’s degree, the number of required credits may be reduced by a maximum of 30 credits, subject to approval of the program faculty and the dean. Requests for reduction of credit are reviewed only after acceptance to the doctoral program.

**Requirements**

**Degree Requirements**

Total Credits 15

Advancement to Candidacy
To advance to candidacy, students must complete all coursework required on their approved program of study. Students must also successfully pass a written qualifying exam and an oral qualifying exam. In addition, students must have a dissertation committee appointed by the Dean’s Office as well as an approved proposal. Evidence of the approved proposal must be on file in the Dean’s Office before a student can advance to candidacy.

Dissertation
Once enrolled in LING 999 Doctoral Dissertation, students must follow the university’s continuous registration policy as specified in AP.6.10.6 Dissertation Research (p. 98). Students who defend in the summer must be registered for at least 1 credit of LING 999 Doctoral Dissertation.

Students apply to this degree a minimum of 12 dissertation credits (LING 998 Doctoral Dissertation Proposal and LING 999 Doctoral Dissertation combined) with at least 3 credits of LING 999 Doctoral Dissertation. Because of the continuous registration policy, students may be required to register for additional credits of these courses.

Native American and Indigenous Studies Minor

Banner Code: NAIS

Academic Advising

B413 Robinson Hall
Fairfax Campus

Website: english.gmu.edu/programs/la-minor-la-nais

Native American and indigenous studies is an interdisciplinary field of study committed to understanding both the unity and the diversity of present and past Native American tribes, cultures, and experiences. This interdisciplinary minor will help students think critically and respectfully about the complex dynamics of Native American cultures, considered both individually and comparatively. In addition to practicing and developing critical thinking and writing skills, students in this interdisciplinary minor will learn how value systems operate in different cultures, examine the roots of conflict and resolution across a broad historical and cultural spectrum, better understand the importance
of language as a means of cultural expression, and heighten their appreciation of the unique status of present-day Native American tribes as nations with certain sovereign powers within the boundaries of the United States.

In addition to a required course that introduces key concepts, events, figures, and methodological approaches, students take five 3-credit elective courses from no fewer than three departments. The coursework for this minor enables students to examine Native American cultures from a variety of disciplinary perspectives, including those that are anthropological, historical, artistic, philosophical, and political.

Faculty
Anderson (coordinator), Benitez, Bristol, Karush, Scully, Snead, Tichy, Yocom

Admissions & Policies

Policies
Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP5.3.4 Minors (p. 90).

No more than two courses from a single department can be applied to the minor. No more than 3 credits can be applied to both Mason Core (p. 142) requirements and the minor.

Requirements

Minor Requirements
Total credits: 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 388) tab.

Fairfax Campus

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68).

Policies
For policies governing all graduate certificates, see AP6.8 Requirements for Graduate Certificates (p. 94).

Concentration in Professional and Technical Writing
This concentration in the graduate certificate in professional writing and editing may be pursued concurrently with any of several programs in English and elsewhere. Part of the coursework toward the concentration may be applied to those degrees with the approval of the director of the degree program. Students pursuing the certificate in professional and technical writing must complete 18 credits of English graduate courses with a minimum grade of 3.00 in each course.

Concentration in Science Communication
All course choices included in this concentration must be approved by the Department of Communication. Students pursuing the graduate certificate in professional writing and editing with a concentration in science communication must complete 15 credits.

Requirements

Certificate Requirements
Total credits: 15 or 18

This certificate may be pursued on a full-or part-time basis.

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies tab.
Students pursuing this graduate certificate must choose either a concentration in professional and technical writing or a concentration in science communication.

**Concentration in Professional and Technical Writing (PTW)**

This concentration in the graduate certificate in professional writing and editing may be pursued on a part-time basis only.

Teaching English as a Second Language Graduate Certificate

Banner Code: LA-CERG-TESL

Academic Advising
B413 Robinson Hall
Fairfax Campus
Website: english.gmu.edu/programs/la-cerg-tesl

The graduate certificate in teaching English as a second language (TESL) prepares students to teach non-native speakers of English in the United States or abroad. Certificate courses fulfill, in part, requirements for an endorsement in English as a second language to the Virginia state teaching credential. Students who want to earn this endorsement should consult with an advisor.

The certificate may be pursued concurrently with any of several degree programs offered through the College of Education and Human Development, the English Department, and the Modern and Classical Languages Department. Part of the coursework toward the certificate may be applied toward degrees in those departments.

This certificate program qualifies for Title IV Federal Financial Aid. For more information about program graduation rates, the median debt of students who completed the program, and other important information, please visit our disclosure information page (https://irr2.gmu.edu/gedt/Teaching_English_As_Second_Language/Gedt.html).

Admissions & Policies

Admissions
Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). For information specific to the graduate certificate in teaching English as a second language, see Application Requirements and Deadlines (http://linguistics.gmu.edu/programs/LA-CERG-TESL/application).

Policies
Students pursuing this certificate must complete 18 credits, earning a minimum grade of 3.00 in each course.

For policies governing all graduate certificates, see AP.6.8 Requirements for Graduate Certificates (p. 94).

Requirements

Certificate Requirements
Total credits: 18
This certificate may be pursued on a full-or part-time basis.
Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 390) tab.

Writing and Rhetoric, PhD

Banner Code: LA-PHD-WRTR

Academic Advising
B413 Robinson Hall
Fairfax Campus
Email: wrphd@gmu.edu
Website: http://english.gmu.edu/programs/la-phd-wrtr

The doctoral program in writing and rhetoric offers a curriculum that emphasizes theoretical, practical, and productive approaches to composition, professional writing, and public rhetoric. The program is built on the premise that writing and teaching in twenty-first century organizations require the rigorous, integrated study of rhetoric,
technology, pedagogy, culture, and research methodologies. In addition to our core curriculum, the program’s proximity to Washington, D.C. makes it uniquely situated to provide opportunities for research and internships that go beyond and enrich the student’s writing and rhetoric coursework.

Admissions & Policies

Admissions

Applicants to all graduate programs at George Mason University must meet the admission standards and application requirements for graduate study as specified in Graduate Admissions (p. 68). Applicants to the PhD in writing and rhetoric must already have earned a master’s degree in a relevant field before being admitted to the program.

For further information specific to the PhD in writing and rhetoric, see Application Requirements and Deadlines [http://english.gmu.edu/programs/la-phd-wrtr/application] on the college website.

Policies

For policies governing all graduate degrees, see Graduate Policies (p. 90).

Reduction of Credit

Students must have a master’s degree before being admitted to the PhD in writing and rhetoric. Most students receive a reduction of study of 30 credits based on their previous master's degree.

Program Requirements

To receive the PhD in writing and rhetoric, students complete a minimum of 78 credits of coursework, 48 beyond the master’s degree. Beyond the basic coursework, a dissertation is required.

Requirements

Degree Requirements

Total credits: 78

</tbody>
</table>

Advancement to Candidacy

Prior to beginning dissertation research (normally after completion of 66 hours of coursework), students will take a written examination, successful completion of which will demonstrate a qualification for advancement to candidacy. The examination will cover foundation knowledge acquired in the writing and rhetoric core courses and in the student’s area of primary focus.

Dissertation

The dissertation process, which begins after the student has completed 66 credit hours and passed the written qualifying exam, includes an oral exam on the dissertation proposal, the production of the dissertation, and an oral defense of the dissertation. The student’s progress at all stages will be evaluated by the dissertation committee. The dissertation should
use theoretical, historical, qualitative, and/or quantitative methods to address a rhetorical problem within an institutional or public context that is framed within a disciplinary field. While these projects are often multidisciplinary in approach, they should address a gap in a discipline’s research as well as solve a public rhetorical problem.

Once enrolled in ENGH 998 Doctoral Dissertation Proposal, students in this degree program must maintain continuous registration in ENGH 998 Doctoral Dissertation Proposal or ENGH 999 Doctoral Dissertation each semester (excluding summers) until the dissertation is submitted to and accepted by the University Libraries. Once enrolled in ENGH 999 Doctoral Dissertation, students must follow the university’s continuous registration policy as specified in the Academic Policies section of the catalog. Students who defend in the summer must be registered for at least 1 credit of ENGH 999 Doctoral Dissertation.

### Department of History and Art History

B359 Robinson Hall  
Fairfax Campus  
Phone: 703-993-1250  
Website: historyarthistory.gmu.edu

The department offers a number of degree programs, including undergraduate majors and minors in both history and art history, traditional and accelerated master of arts programs in both history and art history, and a doctoral degree in history. Additional programs include a dual master of arts in art history and arts management, and a graduate certificate in digital public humanities. The department coordinates the ancient mediterranean art and archaeology minor (p. 393). The minor in sport and American culture (p. 238) is offered jointly by the Department of History and Art History and the School of Recreation, Health and Tourism.

### Undergraduate Programs

#### History

Students in the bachelor of arts in history study a variety of places, from Africa to Asia to the Americas, Europe, and the Middle East, and historical time periods, from Greek and Roman antiquity to the late twentieth-century. They learn to interpret and evaluate the past by analyzing a variety of sources, from historical books and novels to images, films, oral interviews, newspapers, and other texts.

History majors have the opportunity to study with faculty who are internationally known for their work on the use of technology in the study of history. They can do an internship with one of them in the Center for History and New Media or at places like the Smithsonian Institution, the Library of Congress, or one of many other institutions in the Washington, D.C. area. There are also many opportunities to study abroad while earning credit towards the history major.

#### Advising

Students majoring or minoring in history are advised by the undergraduate director and a team of faculty advisors. History majors are urged to discuss their program of study periodically with the director.

### Bachelor’s/Accelerated Master’s Programs

#### History, MA

The department offers highly qualified undergraduate majors in history the opportunity to apply to an accelerated master’s degree program in history. If accepted, students will be able to earn both the undergraduate and graduate degrees after satisfactory completion of 144 credits. The BA and MA earned separately require 120 and 30 credits respectively.

#### MEd in Curriculum and Instruction (concentration in secondary education history and social science)

The Department of History and Art History (p. 392) and the Graduate School of Education (p. 162) jointly offer an accelerated MEd option (p. 183) for history majors. A BA in History and an MEd in Curriculum and Instruction with a concentration in secondary education history and social science can be earned after satisfactory completion of 149 credits.

### Graduate Programs

#### History

The department offers a master’s and a doctoral degree in history. In both programs, students select a specialization in American history, European history, or world history. Master’s degree students choose from one of five concentrations: predoctoral history, applied history, enrichment, higher education, or teaching. Doctoral students focus their studies in one of four areas: college/university teaching, new media and information technology, public and applied history, or preprofessional development.

Graduate students in history have the opportunity to take courses in new media, studying with faculty who are internationally known for their use of technology in the study of history. Many students work alongside the faculty in the Center for History and New Media (https://rrchnm.org), a leader in the use of digital media and computer technology to democratize history. The center uses digital media and technology to preserve and present history online, transform scholarship across the humanities, and advance historical education and understanding.

Students can do an internship in applied history at one of the many institutions in the Washington, D.C. area or study abroad while earning credit towards their degrees.

#### Art History

The department offers a richly interdisciplinary master’s degree in art history. It draws on faculty strengths in traditional research and new media and the vast cultural resources of the Washington, D.C. area. Students learn methods of art historical analysis, a variety of art historical interpretations, and practical applications of the field. The program places a special emphasis on the development of skills in new
media, museology, and pre-professional internships - program features that are unique to this region.

The master’s degree in art history is designed to meet the needs of a student population with diverse interests and career goals. Because of the focus on skill building in traditional research as well as new media, graduates of this program have the tools necessary for independent research, professional work, and the dissemination of knowledge in art history.

**Funding**

The department offers teaching and research assistantships, which are awarded on a competitive basis. Other sources of funding such as grants, loans, and employment on campus are also available. Students awarded assistantships must register for a minimum of six credits a semester and show satisfactory progress toward their degree.

- History, BA  
- History, MA  
- History, PhD  
- Sport and American Culture Minor (CHSS)

### Ancient Mediterranean Art and Archaeology Minor

**Banner Code:** ARTM  
**Academic Advising**  
B359 Robinson Hall  
Fairfax Campus  
Website: historyarthistory.gmu.edu/programs/la-minor-la-artm

This interdisciplinary minor is for students with diverse interests in the material culture of the ancient world. Coursework combines the study of archaeology, literature, art, history, philosophy, myth, and religion. The scope of the minor is not limited to Greece and Rome but touches on all the ancient civilizations of the Mediterranean and the heirs of late antiquity such as Byzantium and early Islam.

The minor represents foundation work crucial to graduate study in traditional departments of classical, near Eastern, or Mediterranean art and archaeology. Through this minor, students are given credit for acquiring practical linguistic skills and archaeological field experience as well as scholarly background. Students should consult with the director for help in choosing a program of study that will complement their major.

**Faculty**

Cherubin, Gregg, Williamson (coordinator), Winkler

### Admissions & Policies

**Policies**

Eight credits of coursework must be unique to the minor and students must complete all coursework with a minimum GPA of 2.00. For policies governing all minors, see AP.5.3.4 Minors (p. 90).

### Requirements

#### Minor Requirements

**Total credits:** 18

Students should be aware of the specific policies associated with this program, located on the Admissions & Policies (p. 393) tab.

Of the 18 credits required for the minor, at least 3 credits must be taken in ARTH and at least 9 credits must be taken outside of ARTH.

Total Credits 6-9

1 Other courses pertaining to the region and period, including ARTH 399 Special Topics in the History of Art, may be used to fulfill this requirement with the prior written approval of the director.

Art History, BA

Banner Code: LA-BA-AH

B359 Robinson Hall
Fairfax Campus

Website: historyarthistory.gmu.edu/programs/la-ba-ah

Art History emphasizes the analysis of visual data in a historical context. Faculty expertise extends to many world regions—the United States, Latin America, Europe, the Mediterranean, South and Southeast Asia, China, and the Islamic world—and over all historical periods. Students apply what they learn through internship opportunities available in the Washington DC area, including the world-famous collections of the National Gallery of Art and the Smithsonian Institutions. Students go on to work in areas including museums, arts institutions, galleries, government and managerial positions. They also pursue further studies in fields including art history, library science, design technology, historic preservation, and fashion.

Admissions & Policies

Policies

Students pursuing this degree must complete 33 to 34 credits within the major, with a minimum GPA of 2.00. Up to 6 credits in art history internships may be applied toward ARTH requirements for the major, with permission of the art history undergraduate director. A maximum of 6
credits of ARTH 398 Study Abroad in the History of Art may be applied to
the major with permission of department.

For policies governing all undergraduate degrees, see AP.5 Undergraduate
Policies (p. 87).

Requirements

Degree Requirements
Total credits: minimum 120

Students should be aware of the specific policies associated with this
program, located on the Admissions & Policies (p. 394) tab.

All art history majors are encouraged to pursue internships in art history
(ARTH 393 Art History Internships) in their junior or senior year. Students
are strongly encouraged to participate in a study abroad program.

Students contemplating graduate study in art history should acquire
a reading knowledge of French, German, or other appropriate research
languages in consultation with an advisor.

Core Courses in the Major

</tr>
</tbody>
</table>

Total Credits: 3

Writing-Intensive Requirement

The university requires all students to complete at least one course
designated as "writing intensive" in their majors at the 300 level or
above. Students majoring in art history fulfill the university’s writing-
intensive requirement by successfully completing any 400-level ARTH
(p. 1240) course.

Additional Electives

Any remaining credits may be completed with elective courses to bring
the degree total to 120.

Upper Level Requirement

Students seeking a bachelor’s degree must apply at least 45 credits
of upper-level courses (numbered 300 or above) toward graduation
requirements.

College Level Requirements for the BA Degree

In addition to the Mason Core (p. 142) program, students pursuing a BA
degree must complete the coursework below. Except where expressly
prohibited, a course used to fulfill a college level requirement may also
be used simultaneously to satisfy other requirements (Mason Core
(p. 142) requirements or requirements for the major).

Philosophy or Religious Studies

<table>
