Office of Student Scholarship, Creative Activities, & Research (OSCAR)

The Office of Student Scholarship, Creative Activities, and Research (<http://oscar.gmu.edu>) (OSCAR) is home to Mason's award-winning undergraduate research program, connecting undergraduate students and faculty through course-based, co-curricular, and independent scholarly projects. Undergraduate research is a featured Mason Impact (<https://provost.gmu.edu/initiatives/mason-impact/>) experience.

OSCAR offers several programs that make scholarship central to the undergraduate experience at Mason, by:

- Supporting the completion of Mason Impact Projects through Research and Scholarship (RS) courses
- Helping undergraduate students find faculty mentors
- Helping students find research opportunities
- Funding undergraduate research and creative projects through the Undergraduate Research Scholars Program and Summer Team Impact Program
- Providing funding for travel to conferences and other events through the Undergraduate Student Travel Fund
- Hosting the annual Celebration of Student Scholarship and Impact
- Offering OSCAR Federal Work Study Research Assistantships

Please visit our website (<http://oscar.gmu.edu>) for more information.
